PipelineRx Description of Service

PipelineRx provides Remote medication order and prescription entry and verification services to hospitals, health systems and pharmacies. In addition, we provide the following outpatient services in a hospital setting, MTM services, consulting services, and Transitions of Care. PipelineRx does not purchase, dispense, distribute, store drugs of any kind. We only provide the services listed above with no dispensing. PipelineRx provides services to hospitals on a national basis. PipelineRx holds pharmacy resident licenses in the states of Illinois, Nevada, and Colorado. In addition, we have nonresident licenses in 45 states.

Where state regulations allow, PipelineRx pharmacists work from residence-based, HIPAA-compliant, fully secure, closed-door offices, as permitted by each State Board of Pharmacy. Our pharmacists hold state pharmacy licenses to deliver services to patients located in the states. PipelineRx also provides service from our licensed pharmacies where states require this and follow those licensing requirements.

Our PipelineRx servers are secured in an Enterprise-level collocation facility in Santa Rosa, California with a disaster recovery hot-site in Chicago, Illinois. All equipment is owned by PipelineRx. Our servers run in a virtualized environment to ensure reliability and robustness. Our pharmacists are equipped with Pipeline-owned laptops, monitors and VOIP phones. All calls are routed through our virtual PBX to our distributed network of highly skilled professionals working in HIPPAA-compliant secure locations. All communication with PipelineRx, including the receipt of CPOE, faxed or scanned orders are done over secure and encrypted communications channels.

Our pharmacists work in a paperless environment; at no point are the medication orders or any other documents printed, nor does any PHI reside on the Pipeline pharmacists staff computers. All our activities are done in accordance with all Federal, State, and local laws including, but not limited to HIPAA and ARRA/HITECH.

Specifically, upon receiving an order or prescription, the remote pharmacist reviews the order against the patient's clinical data to check for appropriateness, including dosage levels and possible drug-drug interactions, remotely enters the order into the facility's pharmacy information system (i.e. Meditech, HBOC, Cerner, CPIS), and authorizes the administration or dispensing of the ordered medication to the patient. In addition, the remote pharmacist is available (if needed by the hospital), by phone or audio-visual connectivity, to consult directly with on-site staff (nursing or medical). Also include standard and customizable reports providing the hospitals with detailed information and statistics regarding all services provided.

All pharmacist providing service to our clients are in compliance with all Boards of Pharmacy rules and regulations. PipelineRx understands and complies with all the Board of Pharmacy Rules and Regulations.

Please let me know if you need any additional information.

RE: Non-Resident application Explanation of closed licenses

PipelineRx closed the following licenses issued on our Illinois location.
Montana License #PHA-MOP-LIC 71129
New York License #036021
Colorado License #OSP.0006500
Texas License #30720

At the time we closed these permits we were considering closing our Illinois pharmacy location. We opened a resident Pharmacy in Colorado and opened the above-mentioned licenses as non-resident pharmacy out of the Colorado pharmacy. Operationally we choose not to close our Illinois location and discontinued moving other licenses to our Colorado location.

If you have any questions, please let me know.

Thank you

Texas State Board of Pharmacy
"Red Flags" Checklist for Pharmacies
YOU MIGHT BE A PILL MILL IF...

Check all that apply:

	(1) Your pharmacy fills a discernable pattern of prescriptions for prescribers who write essentially the same prescriptions for numerous persons, indicating a lack of individual drug therapy
	(2) Your pharmacy operates with limited hours of operation or closes after a certain threshold of controlled substance prescriptions are dispensed, and has overall low prescription dispensing volume.
	(3) Prescriptions presented to the pharmacy are for controlled substances with popularity as street drugs, such as opiates, benzodiazepines, muscle relaxants, psychostimulants, and/or cough syrups, or any combination of these drugs.
	(4) The prescriptions for controlled substances contain nonspecific or no diagnoses.
	(5) The prescriptions are commonly for the highest strength of the drug and/or for large quantities.
	(6) Dangerous drugs or OTC products (such as multi-vitamins or laxatives) are added to the controlled substance prescriptions, maintaining relatively consistent 1:1 ratio of controlled substances to dangerous drugs and/or OTC products dispensed as prescriptions.
	(7) Prescriptions are authorized by the same prescriber with what appears to be different handwriting on the hardcopy prescription drug order forms.
	(8) Upon contact with the prescriber's office, you are unable to engage in comprehensive discussion with the actual prescriber, or he/she is unconcerned about your apprehensions regarding his/her prescribing practices or unwilling to provide additional information, such as treatment goals and/or prognosis with prescribed drug therapy.
	(9) You rely solely on the prescriber's representation, or on the representation of the individual answering the phone at the number on the prescription, that prescriptions are legitimate.
	(10) The prescriber's clinic is not registered as a pain management clinic by the Texas Medical Board, despite routinely receiving prescriptions from the prescriber foropiates, benzodiazepines, and/or muscle relaxants.
	(11) Drugs prescribed are inconsistent with the prescriber's area of practice.
	(12) The prescriber of the drugs is located a significant distance from your pharmacy.
	(13) The prescriber has been subject to disciplinary action by the licensing board, had his/her DEA registration removed, or been subject to criminal action.
	(14) The Texas PMP system indicates that persons are obtaining prescriptions for the same drugs from multiple prescribers or that persons are filling prescriptions for the same drugs at multiple pharmacies.
	(15) The person's address is a significant distance from your pharmacy and/or from the prescriber's office.
	(16) Multiple persons with the same address present prescriptions from the same prescriber.
	(17) Persons pay with cash or credit card more often than through insurance.
	(18) Persons presenting controlled substance prescriptions are doing so in such a manner that varies from seeking routine pharmacy services (e.g., willing to wait in long lines to receive drugs, persons arrive in the same vehicle with prescriptions from same prescriber, one person presents to pick up prescriptions for multiple others, persons refer to drugs by "street names" and/or comment on drug's color, persons seek early refills, persons travel from outside reasonable trade area of pharmacy).
	(19) Your pharmacy charges and persons are willing to pay more for controlled substances than they would at nearby pharmacies.
	(20) Your pharmacy routinely orders controlled substances from more than one drug supplier, or your pharmacy has been discontinued by a drug supplier related to controlled substance orders.
	(21) Sporadic and non-consistent dispensing volume (including zero dispensing) varies from day to day and week to week, and your pharmacy does not maintain operational hours each week on Monday through Friday.
	(22) Your pharmacy employs or contracts security personnel during operational hours to prevent problems.
	(23) Your pharmacy has been previously warned or disciplined by the Texas State Board of Pharmacy for inappropriate dispensing of controlled substances (i.e., corresponding responsibility).

If you checked any of the above items, you should review the laws and rules regarding corresponding responsibility and non-therapeutic dispensing, especially Board rule §291.29, in the law book or on our website: www.pharmacy.texas.gov (click on Texas Pharmacy Rules and Laws). Additional educational material is available at: http://www.pharmacy.texas.gov/Nontherapeutic.asp. Failure of pharmacies and pharmacists to detect patterns of inappropriate dispensing of prescription drugs is unprofessional practice and constitutes grounds for disciplinary action.

Section 8.2 Indemnification. To the fullest extent permitted by law, the Company shall indemnify and hold harmless each Covered Person from and against any and all losses, claims, demands, liabilities, expenses, judgments, fines, settlements and other amounts arising from any and all claims, demands, actions, suits or proceedings, civil, criminal, administrative or investigative ("Claims"), in which the Covered Person may be involved, or threatened to be involved, as a party or otherwise, by reason of its management of the affairs of the Company or which relates to or arises out of the Company or its property, business or affairs. A Covered Person shall not be entitled to indemnification under this Section 8.2 with respect to (i) any Claim with respect to which such Covered Person has engaged in fraud, willful misconduct, bad faith or gross negligence or (ii) any Claim initiated by such Covered Person unless such Claim (or part thereof) (A) was brought to enforce such Covered Person's rights to indemnification hereunder or (B) was authorized or consented to by the Member. Expenses incurred by a Covered Person in defending any Claim shall be paid by the Company in advance of the final disposition of such Claim upon receipt by the Company of an undertaking by or on behalf of such Covered Person to repay such amount if it shall be ultimately determined that such Covered Person is not entitled to be indemnified by the Company as authorized by this Section 8.2.

Section 8.3 Amendments. Any repeal or modification of this Article VIII by the Member shall not adversely affect any rights of such Covered Person pursuant to this Article VIII, including the right to indemnification and to the advancement of expenses of a Covered Person existing at the time of such repeal or modification with respect to any acts or omissions occurring prior to such repeal or modification.

There was no additional disciplinary action taken. *The Alabama Board of Pharmacy stated through its Attorney that it would not take any further action against Pharmacy Solutions based on sister-state actions arising out of, or attendant to, the 2015 Virginia Consent Order.*

It is Pharmacy Solutions' sincere hope that the various State Boards of Pharmacy will elect to employ their *discretionary* powers and *decline* to initiate any more additional sister-state actions based on the above Consent Orders. All pharmacy licenses for Pharmacy Solutions in all noted states are current and in good standing. Pharmacy Solutions has a full-time Compliance Officer on staff and compliance software to prevent shipment of prescriptions into states for which it does not hold a non-resident pharmacy license. It has also retained Compliance Counsel to assist with compliance and risk prevention matters.

The pharmacy holds non-resident pharmacy licenses in 38 states. Pharmacy also holds a Wholesale Distributor license but does not use. According to PIC, State of Michigan recommended the license but they have not used it. Majority of dispensed prescriptions are non-sterile compounded, including hazardous drugs. Pharmacy has dedicated area for non-sterile compounding. HD compounding is currently being performed in the same area, within powder containment hoods that are not externally vented. Per Compliance Manager, pharmacy is in the process of building out a separate area for HD compounding that will be USP 800 compliant. Pharmacy is not performing continuous temperature/humidity monitoring and assuring DSCSA compliance (specifically, suspect/illegitimate investigations and obtaining transaction data). Pharmacy also dispenses Progesterone 100mg capsules using E4M without documented medical need.

Clarification or Further Explanation	11	39	Per USP 795 & USP 659 Excursions between 15° and 30° (59° and 86° F) that are experienced in pharmacies, hospitals, and warehouses, and during shipping are allowed.		Y	USP 795 - 659
Clarification or Further Explanation	11	39.01	Attached and according to USP 795 & USP 659, temperature can be continuously monitored or checked and recorded once daily. We are in compliance as we monitor and record the temps daily. We were in the process of implementing continuous monitoring but the items were delayed due to COVID. We have since received the thermometers and implemented continuous monitoring.	complete	Y	USP 795 - 659, SOP 6.01 & 6.013
Clarification or Further Explanation	11	41	We record temperatures manually twice daily, and we now have continious datalogging thermometers to alert the PIC if temperature falls out of range (36 -46 F). Furthermore, if we have a power failure, the alarm company also alerts the PIC. Refrigerated items would placed in a cooler with dry ice ASAP, PIC would then assess API's for stability and contact the companies if more information is needed. We were in the process of implementing continuous monitoring, but the items were delayed due to COVID. We have since received the thermometers and implemented continuous monitoring.	complete	Y	USP 795 - 659, SOP 6.01 & 6.013
Clarification or Further Explanation	12	47.08	If we receive a product that does not meet USP or professional assessment of integrity, we would not use it, and it would be placed into our quarantine area. We will report observation to wholesaler and follow further instructions based on issue identified such as a broken seal or out of spec COA. In the past, we had products investigated and restested by supplier and were immediately quarantined until investigation was completed.		Y	SOP 6.015, 2.02, 2.03, 2.03A
Clarification or Further Explanation	13	47.09	In the past, we had products investigated and restested by supplier and were immediately quarantined until investigation was completed.		Y	SOP 6.015, 2.02, 2.03, 2.03A
Clarification or Further Explanation	13	47.10	We have a policy to ensure transaction data (TH,TI,TS). We upload packing slip, COA and SDS to drug chemical inventory. We follow DSCSA Track & Trace guidelines and have a policy to verify API manufacturers are FDA registered & VAWD accredited		Y	SOP 6.015, 2.02, 2.03, 2.03A
Clarification or Further Explanation	13	47.11	This is also covered in the same SOP as above, all powders are examined before each use		Y	SOP 6.015, 2.02, 2.03, 2.03A
Clarification or Further Explanation	16	67.02	Basic patient demographics, current list of medications, vitamins and herbal supplements, and disease states when available are obtained when onboarding patients and added to patient profile. Also, at every patient interaction, we update current patient profile to assure we have the most up to date information when we perform DUR and our extensive clinical review. We also record all clinical interactions in the patient information tab of the patient profile for access by all pharmacy staff for coordination of care. CS25036 and PD00728, by and through counsel**,** Edward J. Lemons, Esq., **HEREBY STIPULATE AND AGREE THAT**:

1. The Board has jurisdiction over Respondent and this matter.

2. On or about July 23, 2021, Respondents were served with the Notice of Intended Action and Accusation (Accusation) on file in this matter together with the Statement to Respondent and Notice of Hearing.

3. On or about September 7, 2021, Respondents jointly filed an Answer and Notice of Defense to the Accusation.

4. Respondents are fully aware of their right to seek the advice of counsel in this matter and obtained the advice of counsel prior to entering into this Stipulation.

5. Respondents are aware of their right to a hearing on the matters alleged in the Accusation, their right to reconsideration, their right to appeal and any and all other rights which may be accorded to them pursuant to NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

6. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondents, or any of them, have failed to comply with the provisions of this Stipulation, Respondents hereby freely and voluntarily waive their rights to a hearing, reconsideration, appeal and any and all other rights related to this action that may be accorded to them by NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

7. Respondents, and each of them, admit that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish the factual allegations in the Accusation, *to wit,* that:

A. Cocjin was employed as a dispensing technician for Reganti (TD01942), Reddy (TD01943), Guerard (TD01944), Ambika (TD01945), Singh (TD01946), Bowman (TD01947) and Cattoni (TD01948) by Cancer Care Specialists, when she failed to timely renew her Certificate of Registration Nos. TD01942, TD01943, TD01944, TD01945, TD01946, TD01947 and TD01948, which expired on October 31, 2020; and

B. While her dispensing technician registrations for each dispensing practitioner were expired, Cocjin engaged in practice as a dispensing technician for Reganti, Reddy, Guerard, Ambika, Singh, Bowman and Cattoni, and dispensed controlled substances and dangerous drugs for approximately one hundred and forty-five days, until she renewed each of those registrations on June 7, 2021.

The Board does not allege that the Respondents' acts or omissions related to Cocjin's failure to timely renew her certificates of registration and engaging in practice as a dispensing technician without holding a valid dispensing technician registration for each dispensing practitioner were willful or intentional, nor that Reganti, Reddy, Guerard, Ambika, Singh,

Bowman and/or Cattoni had actual knowledge of Cocjin's failure to timely renew her certificates of registration before being put on notice by the Board.

8. The Third, Fourth and Sixth Causes of Action, Paragraphs 17, 18 and 20 of the Accusation, are hereby dismissed against Reganti, Reddy, Guerard, Ambika, Singh, Bowman and Cattoni, pursuant to NRS 622A.320(4). Reganti, Reddy, Guerard, Ambika, Singh, Bowman and Cattoni acknowledge that Board staff prosecuting this case could present such evidence at an administrative hearing to establish a factual basis for the violations alleged in the Second Cause of Action, Paragraph 16 of the Accusation, *to wit,* that by Cocjin engaging in practice as a dispensing technician for Reganti, Reddy, Guerard, Ambika, Singh, Bowman and Cattoni, without holding a valid dispensing technician registration for each dispensing practitioner, Reganti, Reddy, Guerard, Ambika, Singh, Bowman and Cattoni, violated 21 U.S.C. § 353(b)**,** 21 U.S.C. **§** 822(a)(2), 21 U.S.C. **§** 823(f), NRS 453.226(1), NRS 453.321(1)(a), NRS 454.215, NRS 454.301, NRS 639.100(1), NRS 639.23505, NAC 639.742 and/or NAC 639.7425(1)(b).

9. Cocjin admits that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the violations alleged in the First, Second, Third and Fifth Causes of Action, Paragraphs 15, 16, 17 and 19 of the Accusation, *to wit,* that:

A. By failing to timely renew her registrations and engaging in practice as a dispensing technician without holding a valid dispensing technician registration for each dispensing practitioner, Cocjin engaged in unprofessional conduct as defined in NAC 639.945(1)(i) and (k); and

B. By engaging in practice as a dispensing technician without holding a valid dispensing technician registration for each dispensing practitioner, Cocjin violated 21 U.S.C. § 353(b)**,** 21 U.S.C. **§** 822(a)(2), 21 U.S.C. **§** 823(f), NRS 453.226(1), NRS 453.321(1)(a), NRS

454.215, NRS 454.301, NRS 639.100(1), NRS 639.23505, NAC 639.742 and/or NAC 639.7425(1)(b).

NEVADA STATE BOARD OF PHARMACY

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **NAZIDA ZEBARI, RPh.** **Certificate of Registration No. 17786,** **and** **WALGREENS PHARMACY #4242** **Certificate of Registration No. PH01165,** **Respondents.**	**Case No. 17-076-RPH-S** **17-076-PH-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and/or NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Nazida Zebari, RPh. ("Zebari"), Certificate of Registration No. 17786 was a pharmacist registered with the Board and Respondent Walgreens Pharmacy #4242 ("Walgreens #4242"), License No. PH01165, was a pharmacy licensed by the Board.

DISCIPLINARY HISTORY

2. On October 15, 2014, the Board approved a Stipulation and Order in Case No. 13-024-RPH-S, wherein Respondent agreed to discipline on the basis that evidence existed to establish a factual basis that she had violated NAC 639.945(1)(d), and/or (i) by providing incorrect instructions on a dispensed prescription, as well as NRS 639.266(1), NAC 639.707(1), and/or NAC 639.945(1)(i) by failing to provide adequate patient counseling.

FACTUAL ALLEGATIONS

3. Respondent Zebari was employed by Walgreens #4242 at the time of the events alleged herein.

4. On July 18, 2016, a prescription for Lisinopril 10 mg tablets was processed by Walgreens #4242 for patient L.I. and designated as prescription no. 1783706 by Walgreen's computer system. Prescription no. 1783706 was placed on auto-refill.

5. On December 6, 2016, a prescription for Terazosin HCL 2 mg issued to patient L.I. was entered into the Walgreen's #4242 computer system by Respondent Zebari. The prescription was designated prescription no. 1829306 by Walgreen's computer system. Respondent Zebari typed "DISCONTINUE LISINOPRIL (ACE: ALLERGY; COUGH)" in Walgreen's computer system under the drug directions for prescription no. 1829306; however, no notifications were placed into patient L.I.'s profile in the Walgreen's computer system.

6. On December 6, 2016, Respondent Zebari performed the prescription review, overrode the Drug Utilization Review ("DUR") checks for therapeutic duplication, filled prescription no. 1829306, and conducted the product verification. Walgreen's records for prescription no. 1829306 reflect that patient L.I. declined the patient consultation.

7. Respondent Zebari failed to follow the prescribing practitioner's orders to "Discontinue Lisinopril" as written on the Terazosin HCL 2mg prescription which caused four (4) erroneous prescriptions for a dangerous drug to be dispensed to patient L.I. after December 6, 2016.

8. On December 24, 2016, an automatic refill entry in the Walgreens Pharmacy #4242 computer system was initiated for prescription no. 1783706 for Lisinopril 10 mg tablets. The product review was performed by Dominic Ortega, RPh. ("Ortega"), Certificate of Registration No. 16810, the managing pharmacist for Walgreens #4242 and pharmacist of record. The refill of prescription no. 1783706 was sold to patient L.I. on December 26, 2016.

9. On January 22, 2017, an automatic re-fill entry in the Walgreens Pharmacy #4242 computer system was initiated for prescription no. 1783706 for Lisinopril 10 mg tablets. The product review was performed by Pharmacist Brijesh Patel, RPh. ("Patel"), Certificate of Registration No. 18040, the pharmacist of record, and the prescription refill was sold to patient L.I. on January 24, 2017.

10. On February 20, 2017, an automatic re-fill entry in the Walgreens Pharmacy #4242 computer system was initiated for prescription no. 1783706 for Lisinopril 10 mg tablets. The product review was performed by Respondent Zebari, the pharmacist of record, and the prescription refill was sold to patient L.I. on February 28, 2017.

11. On March 27, 2017, an automatic re-fill entry in the Walgreens Pharmacy #4242 computer system was initiated for prescription no. 1783706 for Lisinopril 10 mg tablets. The product review was performed by Respondent Zebari, the pharmacist of record, and the prescription refill was sold to patient L.I. on March 30, 2017.

12. Patient L.I. complained to Walgreens #4242 about the erroneous Lisinopril prescriptions she was dispensed; however, patient L.I. did not report taking any of the erroneously dispensed Lisinopril or suffering any harm.

COUNT ONE

Unprofessional Conduct
(Respondent Zebari)

13. Unprofessional conduct includes the failure by a licensee to strictly follow the instructions of a practitioner when labeling and dispensing a prescription. NAC 639.945(1)(d). It also includes a licensee performing his or her duties in an "incompetent, unskillful or negligent manner." NAC 639.945(1)(i).

14. Respondent Zebari engaged in unprofessional conduct as defined in NAC 639.945(1)(d) and (i) when she failed to strictly follow the instructions of a practitioner by not discontinuing the Lisinopril 10 mg prescription, which caused the erroneous dispensing of said

prescription via auto-refill on four (4) occasions. Respondent Zebari is therefore subject to discipline pursuant to NRS 639.210(4).

COUNT TWO

Pharmacy/Pharmacy Owner Responsibility
(Respondent Walgreens Pharmacy #4242)

15. Respondent Nazida Zebari, RPh., hereby files with the Nevada State Board of Pharmacy ("Board"), her Answer and Notice of Defense to the Notice of Intended Action and Accusation ("Accusation") filed on January 21, 2022, and which Ms. Zebari received on February 19, 2022.

ANSWER TO ACCUSATION

Jurisdiction

Ms. Zebari agrees that the Board has jurisdiction in this matter as set forth in Paragraph 1.

Disciplinary History

Ms. Zebari acknowledges that she has previously been disciplined by the Board as set forth in Paragraph 2 of the Accusation. Ms. Zebari further answers the Factual Allegations set forth in the Accusation as follows:

Factual Allegations: Paragraphs 3-12

Paragraph 3: Ms. Zebari agrees and acknowledges that she was employed by Walgreens Pharmacy #4242 at the time of the incidents in question and until 2017.

Paragraph 4: Ms. Zebari does not have direct personal knowledge of the processing of the Lisinopril 10 mg prescription for patient L.I., however based on the information that Ms. Zebari had in December 2016 and information that she has subsequently learned, she believes that the factual assertions set forth in Paragraph 4 are accurate.

Paragraph 5: Ms. Zebari, while not having specific recollection of entering the prescription for terazosin HCL 2mg on December 6, 2016, Ms. Zebari, agrees and acknowledges that to the best of her knowledge she did enter the prescription and noted the instruction of the provide to "discontinue lisinopril". Ms. Zebari admits that she failed to place the same notification into patient L.I.'s patient profile and did not discontinue the prescription of lisinopril.

Paragraph 6: Ms. Zebari does not have specific recollection of performed the prescription review, overriding the DUR checks for therapeutic duplication, and filling the prescription of Terazosin HCL 2mg, designated as prescription no. 1829306, but based on her knowledge of the incident she believes that these factual allegations are true and accurate. Ms. Zebari does not have personal knowledge regarding whether the patient declined consultation but believes this to a true and accurate statement.

Paragraph 7: Ms. Zebari agrees and acknowledges that she failed to discontinue patient L.I.'s lisinopril prescription, however she did appropriately note that lisinopril was to be discontinued on the instructions for the prescription of terazosin HCL. Ms. Zebari is without personal knowledge as to whether four lisinopril prescriptions were dispensed to patient L.I. after

December 6, 2016, but based on information she subsequently received, she believes that this is a true and accurate statement.

Paragraph 8: Ms. Zebari is without adequate personal knowledge to answer the factual allegations contained within Paragraph 8, but believes, based on information subsequently received, that patient L.I.'s lisinopril 10 mg prescription was refilled in December 2016.

Paragraph 9: Ms. Zebari is without personal knowledge regarding the automatic refill of lisinopril in January 2017 but based upon information she has received about this matter believes this to be a true and accurate statement.

Paragraph 10: Ms. Zebari is without personal knowledge regarding the automatic refill of lisinopril in February 2017 but based upon information she has received about this matter believes this to be a true and accurate statement.

Paragraph 11: Ms. Zebari is without personal knowledge regarding the automatic refill of lisinopril in March 2017 but based upon information she has received about this matter believes this to be a true and accurate statement.

Paragraph 12: Ms. Zebari is without personal knowledge regarding the allegations contained in Paragraph 12 but based on information she has subsequently received believes this to be a true and accurate statement.

Causes of Action: Paragraphs 13-16

First cause of action (paragraphs 13-14): Ms. Zebari acknowledges that she failed to appropriately discontinue the patient's prescription of lisinopril. She did appropriately note that lisinopril was to be discontinued on the instructions for the patient's new prescription for terazosin HCL.

Second cause of action (paragraphs 14-16): The second cause of action pertains only to Walgreens Pharmacy #4242 and accordingly Ms. Zebari offers no response to these causes of action.

NOTICE OF DEFENSE/MITIGATING INFORMATION

Mitigating Information

Ms. Zebari takes full responsibility for the failure to discontinue patient L.I.'s lisinopril prescription within the Walgreen Pharmacy computer system or note within the patient's profile that the lisinopril was to be discontinued. Ms. Zebari did appropriately note the provider instructions on the new prescription for terazosin HCL but admits that she should have closed out the lisinopril prescription and deleted it from the auto-refill system.

Ms. Zebari notes that typically the pharmacy techs would type in the information regarding a new prescription into the Walgreens computer system and that she would verify the information. While she does not have a specific recollection of this prescription from December 2016, she believes that if she was the individual typing in the new prescription that the pharmacy may have been particularly busy on the day in question and that she failed to go through the normal process that she would have to discontinue the other prescription.

Respectfully submitted this 9th day of March, 2022.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **PAUL H. HOWSE, RPH** **Certificate of Registration No. 18406,** **JUSTINE STANEVICH,** **Certificate of Registration No. PT18958,** **Respondents.**	**CASE NO. 20-135-RPH-S** **20-135-PT-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under Nevada Revised Statutes ("NRS") 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because at the time of the events alleged herein, Respondent Paul H. Howse, RPh ("Howse"), Certificate of Registration No. 18406, held a registration as a pharmacist, and Justine Stanevich ("Stanevich"), Certificate of Registration No. PT18958, held a registration as a pharmaceutical technician, all issued by the Board.

FACTUAL ALLEGATIONS

2. Howse is/was the managing pharmacist at Smith's Food and Drug Store #351 ("Smith's") located at 6130 West Tropicana Avenue, Las Vegas, Nevada 89103 during the relevant timeframe.

3. Stanevich was employed as a pharmaceutical technician at Smith's during the relevant timeframe.

4. On or about February 12, 2020, Howse, was approached by Stanevich regarding an opioid prescription for a new patient. As indicated by protocol, Howse accessed and reviewed the new patient's Prescription Monitoring Program ("PMP") history using an interface with Smith's computer system. Howse left the computer station for a moment, with Stanevich left next to the computer, to explain to the new patient at the drop-off window that he needed more information from the prescribing practitioner. Upon Howse's return to the computer station, Howse noticed a second PMP window opened for patient P.S., who he had not checked the PMP database. Howse questioned Stanevich about the PMP inquiry on patient P.S., whereupon Stanevich admitted that she queried the PMP for patient P.S. under Howse's credentials. Stanevich stated that patient P.S. was someone personally known to her and not a patient of Smith's. Howse informed Stanevich that the PMP query was unacceptable, and against company policy and HIPAA.

5. Howse immediately reported Stanevich's PMP query to his district and division managers for Smith's. During investigation, which included review of videotape from Howse's computer workstation, and interviews of Smith's staff working at the time, it was determined that Stanevich violated company policy, and HIPAA. Stanevich was terminated on February 18, 2020.

APPLICABLE LAW

6. Performing any duties as the holder of a pharmacist registration in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(i) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

7. The Board administers the PMP, which maintains a database of all transactions for controlled substances listed in schedules II, III, IV, and V which are prescribed and dispensed in Nevada. *See* NRS 453.162-.165.

8. Patient utilization reports and data in the PMP constitute Protected Health Information ("PHI") as defined in 45 CFR Part 160 and 164, Subparts A and E. The Health Insurance Portability and Accountability Act ("HIPAA") provides certain requirements regarding privacy of PHI and certain prohibitions against disclosure. 42 USC §1320d *et seq.* (HIPAA Privacy Act).

9. Patient utilization reports and all data in the PMP are also confidential and protected from unauthorized use or disclosure under state law. *See* NRS 453.164.

10. Unauthorized access, use, or disclosure of PHI carries civil and criminal penalties under federal law. *See* 42 USC § 1320d-5 and d-6.

11. Unauthorized access, use, or disclosure of information in the PMP also constitute a crime under state law. NRS 453.552(2).

12. The Board may suspend or revoke any certificate, license, registration or permit issued if the registrant is not of good moral character, is guilty of unprofessional conduct or conduct contrary to the public interest, willfully makes to the Board or its authorized representative any false statement which is material to the administration or enforcement of any of the provisions of NRS 639, and/or violates any provision of federal or state law. NRS 639.210; NRS 639.255.

Respondent Paul H. Howse, hereby files with the Nevada State Board of Pharmacy ("Board"), his Answer and Notice of Defense to the Notice of Intended Action and Accusation ("Accusation") filed on January 28, 2022.

ANSWER TO ACCUSATION

Jurisdiction

Mr. Howse agrees that the Board has jurisdiction in this matter as set forth in Paragraph 1. Mr. Howse further answers the Factual Allegations set forth in the Accusation as follows:

Factual Allegations: Paragraphs 2-5

Paragraph 2: Mr. Howse agrees and acknowledges the factual assertions set forth in Paragraph 2.

Paragraph 3: Mr. Howse agrees and acknowledges that to the best of his knowledge, Ms. Stanevich was employee at Smith's Food and Drug, Store #351 during the relevant time frames.

Paragraph 4: Mr. Howse agrees and acknowledges that the factual assertions set forth in Paragraph 4 are accurate.

Paragraph 5: Mr. Howse agrees and acknowledges that he immediately reported Ms. Stanevich's PMP query to his district and division managers for Smiths. Mr. Howse is without personal information regarding the remaining factual allegations but based on the information received from Smiths, he believes them to be accurate.

Applicable Law: Paragraphs 6-12

Mr. Howse agrees that Paragraphs 6-12 of the Accusation accurately reflect current Nevada and federal law.

Causes of Action: Paragraphs 13-16

First cause of action (paragraphs 13): Mr. Howse denies that he engaged in unprofessional conduct as alleged in paragraph 13 as all Smith's pharmacy staff is HIPAA trained and aware of the confidentiality of the PMP, however Mr. Howse does recognize that it would have been appropriate to log off or lock the computer he was utilizing to access the Prescription Monitoring Program ("PMP") when he momentarily left the computer station; especially as Ms. Stanevich was near the computer at the time.

Second and third causes of action (paragraphs 14-16): The second and third causes of action pertains only to Ms. Stanevich and accordingly Mr. Howse offers no response to these causes of action.

NOTICE OF DEFENSE/MITIGATING INFORMATION

Mitigating Information

Mr. Howse was originally licensed by the Board in 2009 as an intern pharmacist and then as a registered pharmacist in Nevada since 2012. Mr. Howse has never had any discipline taken against him nor, to his knowledge, has he been the subject of an investigation by the Board.

Mr. Howse recognizes the absolute sanctity of the PMP and need to ensure that unauthorized, illegal access of the PMP is avoided. In the instant matter, upon recognizing that the profile for another individual had been accessed when he returned to the computer terminal, he immediately questioned Ms. Stanevich regarding the inquiry. After confirmation that an unauthorized access of the PMP was made using his credentials, he immediately reported the breach per Smith's protocol.

Ms. Howse regrets the momentary lapse of judgment in failing to log out of the computer station he was utilizing to the check the PMP profile for the new pharmacy patient and assures the Board that he shall ensure that no such lapses occur in the future.

Respectfully submitted this 17th day of February, 2022.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **JOSE DASTAS, RPH,** **Certificate of Registration No. 16114, and** **VERTISIS CUSTOM PHARMACY, LLC,** **Pharmacy License No. PH03778,** **Respondents.**	**CASE NOS. 18-130-RPH-S** **18-130-PH-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, R.Ph., in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter because at the time of the events alleged herein, Respondent Jose Dastas, R.Ph. (Dastas), Certificate of Registration No. 16114, was a pharmacist registered with the Board, and Respondent Vertisis Custom Pharmacy, LLC ("Vertisis"), License No. PH03778, was a pharmacy licensed by the Board.

FACTUAL ALLEGATIONS

2. Respondent Vertisis is an out-of-state 503A compounding pharmacy located in Arizona. Respondent Dastas was the managing pharmacist of Vertisis at the time of the events alleged herein.

3. On or about August 20, 2018, a Board staff inspection of a Las Vegas medical practice providing intravenous hydration therapy revealed that Vertisis routinely compounded sterile products on a patient-specific prescription for administration to multiple patients.

4. In one instance, 30 ml vials of B Vitamin Complex Injection compounded by Vertisis were discovered without a patient name on the label. Records revealed that a total of 750 ml of B Vitamin Complex Injection (or 25 – 30 ml vials) were compounded by Vertisis on a prescription for one patient.

5. The investigation further revealed that Vertisis compounded the following sterile products on a patient-specific prescription submitted on or about January 24, 2018: 70 vials of ascorbic acid 50 ml (3500 ml total); 15 vials of dexpanthenol 250 mg/ml 30 ml (450 ml); 30 vials of glutathione 200 mg/ml 30 ml (900 ml); 100 vials of ascorbic acid 500 mg/ml 100 ml (10,000 ml); and sublingual sermorelin 300 mcg/ml 30 ml.

APPLICABLE LAW

6. Section 503A of the Federal Food, Drug, and Cosmetic Act permits a pharmacy to compound a drug product for an identified individual patient based upon a valid prescription. 21 USC § 353a.

7. No pharmacist should fill a prescription for a dangerous drug for use by any person other than the person for whom the prescription was originally issued or fill a prescription which is not genuine. NRS 454.231; NRS 454.311(3)(b).

8. Performing any duties as the holder of a license or registration in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(i) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

9. The Board may suspend or revoke a license or registration pursuant to NRS 639.210(11) if the holder has violated any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs.

10. The Board may suspend or revoke a license or registration pursuant to NRS 639.210(12) if the holder has violated, attempted to violate, assisted or abetted in the violation of or conspired to violate any law or regulation relating to drugs, the manufacture or distribution of drugs or the practice of pharmacy.

11. A managing pharmacist is responsible for violations committed by the pharmacy's employees. NRS 639.210(15); NRS 639.220(1), NRS 639.230(5); NAC 639.702.

12. A pharmacy owner is responsible for violations committed by the pharmacy's employees. NRS 639.230(5); NAC 639.945(2); NAC 639.702.

COUNT TWO
Unprofessional Conduct
(Respondent Dastas)

14. Respondent Dastas engaged in unprofessional conduct as defined in NAC 639.945(1)(i) when he compounded or permitted compounding of sterile products on patient-specific prescriptions for administration to multiple patients and is therefore subject to discipline pursuant to NRS 639.210(4).

COUNT THREE
Managing Pharmacist Responsibilities
(Respondent Dastas)

15. As the managing pharmacist of Vertisis at the time of the violations alleged herein, Dastas is responsible for those violations, including all errors and omissions of the pharmacy's employees, pursuant to NRS 639.210(15), NRS 639.220(1), and/or NRS 639.230(5).

COUNT FOUR

Attorney for Respondent Vertisis Custom Compounding Pharmacy

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **JOSE DASTAS, RPH,** **Certificate of Registration No. 16114, and** **VERTISIS CUSTOM PHARMACY LLC,** **Pharmacy License No. PH03778,** **Vertisis.**	**CASE NOS. 18-130-RPH-S** **18-130-PH-S** **VERTISIS'S ANSWER AND NOTICE OF DEFENSE**

Respondent Vertisis Custom Pharmacy, LLC ("Vertisis"), by and through its counsel William J. Stilling, of and for Stilling & Harrison, PLLC, answers and provides notice of its defense to the Notice of Intended Action and Accusation ("Notice") in the above-entitled matter and declares as follows.

REQUEST FOR HEARING

Vertisis requests a hearing on the Notice.

RESPONSES TO ALLEGATIONS AND CAUSES OF ACTION

In answer to the Notice, Vertisis admits, denies, and alleges as follows. Each reference to a "paragraph" is reference to a paragraph in the Notice.

JURISDICTION

1. Vertisis admits the allegations in paragraph 1.

FACTUAL ALLEGATIONS

2. Vertisis admits the allegations in paragraph 2. Vertisis is a 503A pharmacy that specializes in providing integrative solutions to healthcare professionals treating individual patients. In 2021, Vertisis passed an NABP inspection. Before and since the events describe in the Notice, Vertisis has passed inspections by multiple regulatory agencies. Those inspections covered labeling prescriptions, the appropriateness of dispensing, and every other aspect of Vertisis's operations.

3. Vertisis denies the allegations in paragraph 3. Vertisis does not, and did not, compound sterile products for administration to multiple patients. Rather, Vertisis compounded sterile products for specific patients, labeled for specific patients, and with the intent and understanding that such products would be administered only to the patients for whom they were compounded and labeled. The physician who is in the patient records that Vertisis provided to the Board inspector had an address at a clinic in Henderson, Nevada. The documents provided to Vertisis as part of the Board's case file state that the inspection referenced in paragraph 3 is not the same address of the prescriber in Vertisis's records. The complaint form provided to Vertisis as part of the case file shows that the business complained of, and the one that is presumably referenced in paragraph 3 as "providing intravenous hydration therapy," is "Regenerate IV – Linq Hotel." The complaint alleged no "doctor, NP, or PA was there" and asked if "an RN can sell prescription drugs."

a. The most obvious inference from these facts is that the prescriber opened the box of vials labeled for a specific patient, transported them from his Henderson clinic to another clinic

at the Linq Hotel, and administered them to patients for whom they were not intended. This is something over which Vertisis had no control. In fact, Vertisis learned after the events in this case that the physician in question was criminally convicted in 2019 and was subject to discipline by this Board in 2021 and by the Nevada Osteopathic Board that same year.

4. Vertisis lacks sufficient knowledge to admit or deny the allegations in paragraph 4 and therefore denies the same. Vertisis explains the circumstances surrounding allegations in paragraph 4 as follows.

a. Based on the investigative documents Vertisis received from Board of Pharmacy staff, it appears the allegations in paragraph 4 are based on an instance when Vertisis dispensed multiple vials of B Vitamin Complex Injection for a specific patient. The case file depicts photographs of an apparently diverted Vertisis prescription medication found at Regenerate IV at the Linq Hotel hydration clinic. The investigative file does not contain photos of the box that would have contained the patient's name. Often vials are too small for pharmacies to place a label on (e.g., insulin). Thus, the label is placed on the outside container. The package containing the vials was labeled for the specific patient, with instructions for that patient, and with a description of the product as required by Nevada law. *See* examples of labels at Exhibit A (test patient used to protect patient confidentiality).

b. Vertisis often provides patient-specific, sterile injectable medications to prescribers in order to preserve the integrity of products and to allow safe administration of those products. Even the most well-intentioned patients cannot guarantee the appropriate storage and sterility if they receive such products to bring to the prescriber's office. In fact, many prescribers won't accept sterile injectable products for administration that patients have possessed.

c. On August 15, 2020, Jose Dastas, Pharm.D., Vertisis's PIC, passed away. Dr. Dastas had been the PIC for Vertisis since its opening in 2016. He was a highly skilled pharmacist, a decorated United States Air Force veteran, and a naturopathic physician who understood the clinical uses of the products involved in this case.

d. Dr. Dastas was the only Vertisis employee who would have had personal knowledge of the circumstances surrounding the dispensing of the items listed in paragraphs 4 and 5 of the Notice.

e. Dr. Dastas worked with many healthcare professionals that practice integrative medicine. Often, these prescribing professionals are executing protocols on identified individual patients that call for volumes of medication that are larger than what may be prescribed to treat simple deficiencies. The prescribing habits of these individuals are appropriate when one considers that they often go beyond treating deficiencies and seek to address physiological conditions. Vertisis's pharmacists review each prescription and utilize their professional judgement to confirm validity. Vertisis has a Quality Officer on staff and maintains policies and procedures to ensure that medication is not dispensed for office use.

f. Volumes like those alleged in paragraph 4 (750 ml of B Vitamin Complex) are not uncommon for administration to a single patient. In Integrative Medicine, such volumes are commonly utilized by physicians and these doses are safe. It is important to note that such doses are for treatment, not for supplementation to prevent deficiencies. Often, these prescribing professionals are executing protocols on identified individual patients that call for volumes of medication (vitamins, minerals, and amino acids) that can appear erroneous. The prescribing habits of these individuals are appropriate when one considers that they often go beyond treating deficiencies and seek to also address physiological conditions.

g. Specifically, 750mL of B Vitamin Complex in 30mL vials dispensed for administration to an individual patient may be used in the treatment of Methylenetetrahydrofolate Reductase (MTHFR) deficiency, malabsorption, fatigue, post-surgery, extreme vitamin deficiency, chelation therapy, adjunctive cancer supportive therapy, or any combination of these. Protocols for chronic disease and complex cases frequently call for aggressive IV treatment over the course of several months. Vertisis's formulation of B vitamin complex contains the following ingredients: $_{B1}$ 100 mg/mL, B_2 20mg/mL, B_3 50 mg/mL, B_5 50 mg/mL, $_{B6\ 50}$ mg/ml. If a patient were to be administered 6mL/day of Vertisis's B Vitamin Complex over a period of 125 days, the total amount of each active ingredient would remain below toxic levels. The beyond-use date (BUD) of Vertis's B Vitamin Complex formulation is 180 days from date compounded. The table below describes depicts this scenario.

Ingredient	**Amount (mg/ml)**	**Daily Amount (mg/6ml)**	**Reference Toxic Dose**
B_1 (Thiamine)	100mg	600mg	None Referenced
B_2 (Riboflavin)	20mg	120mg	None Referenced
B_3 (Niacinamide)	50mg	300mg	500 mg/day
B_5 (Dexpanthenol)	50mg	300mg	10-20g/day
B_6 (Pyridoxine)	50mg	300mg	S00mg/day

*Toxicity information obtained from the Linus Pauling Institute - Micronutrient Information Center. Values represent minimum doses referenced to have caused toxic effects **(Exhibit B).**

h. After Vertisis received the Board Investigator's request for documents in 2018, its personnel drafted and on January 2, 2019 implemented a standard operating procedure (SOP) establishing maximum volumes of medication to be dispensed for administration to an identified individual patient. *SOP-503A-9.18 Maximum Volumes of*. Given the concerns raised in 2018, Vertisis made a concerted effort to review and define maximum daily dosages for its commonly prescribed medications prior to employing this SOP. Vertisis will provide the SOP during the hearing. Vertisis professionals created these maximum dosages based on literature and professional judgement.

5. Vertisis lacks sufficient knowledge to admit or deny the allegations in paragraph 5 and therefor denies the same. *See* Vertisis's response to paragraph 5.

APPLICABLE LAW

6. Paragraphs 6 through 12 are purported to be statements of law and are not subject to admission or denial. To the extent such statements of law imply that Vertisis violated any of the laws and regulations cited therein, Vertisis denies the same.

COUNT ONE
Violations of Federal and State Law

7. Vertisis denies the allegations in paragraph 13

COUNT TWO
Unprofessional Conduct
(Respondent Dastas)

8. Vertisis denies the allegations in paragraphs 14.

COUNT THREE
Managing Pharmacist Responsibility
(Respondent Dastas)

9. Vertisis denies the allegations in paragraph 15.

COUNT FOUR
Pharmacy/Owner Responsibilities
(Respondent Vertisis)

10. Vertisis denies the allegations in paraph 16.

OTHER DEFENSES

11. Each cause of action fails to state a claim upon which relief can be granted.

12. The doctrine of laches bars the claims in this case. Laches is an equitable doctrine "'invoked when delay by one party works to the disadvantage of the other, causing a change of circumstances which would make the grant of relief to the delaying party inequitable'. . . Thus, laches is more than a mere delay in seeking to enforce one's rights; it is a delay that works to the

disadvantage of another." *Carson City v. Price*, 934 P.2d 1042, 1043 (Nev. 1997) (doctrine of laches barred injunctive relief when lawsuit was not filed until six months after public hearing). The Notice against Vertisis was filed three and a half years after the complaint form against Regenerate IV – at the Linq Hotel was filed. The complaint form was filed on July 5, 2018. Dr. Dastas, Vertisis's PIC died more than two years later—on August 15, 2020. Dr. Dastas was the only Vertisis employee with personal knowledge of communication with the prescriber and other facts surrounding the dispensing of the prescriptions listed in the Notice. Vertisis has been placed in an untenable position through no fault of its own. It would be unfair to prosecute this case where Vertisis's key witness, and only witness with personal knowledge that could refute the allegations, died more than two years after the facts of the case were known by the Board.

13. The causes of action in the Notice are moot. Vertisis has remedied any processes that could lead to a physician using a patient's medication for multiple patients.

14. Count One must be dismissed because the Nevada Board of Pharmacy is not an entity that can make determinations of violations of federal law.

15. Count Four against Vertisis based on a pharmacy owner's responsibility are without legal basis because Jose Dastas is deceased.

RESERVATION OF RIGHTS, DEFENSES, AND GENERAL DENIAL

16. To the extent Vertisis did not specifically admit allegations in the Notice, they deny such allegations.

17. Vertisis reserves all rights to assert additional defenses.

PRAYER FOR RELIEF

18. That the Notice be dismissed or that the Board find that the allegations in the Notice and all evidence presented to the Board do not support imposing discipline on any of the Respondent.

19. That the Board dismiss all Causes of Acton in in the Notice.

20. That the Board provide further relief to Vertisis as it finds just and proper.

Attorney for Respondent Vertisis Custom Compounding Pharmacy

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **JOSE DASTAS, RPH,** **Certificate of Registration No. 16114, and** **VERTISIS CUSTOM PHARMACY LLC,** **Pharmacy License No. PH03778,** **Vertisis.**	**CASE NOS. 18-130-RPH-S** **18-130-PH-S** **VERTISIS'S ANSWER AND NOTICE OF DEFENSE**

Respondent Vertisis Custom Pharmacy, LLC ("Vertisis"), by and through its counsel William J. Stilling, of and for Stilling & Harrison, PLLC, answers and provides notice of its defense to the Notice of Intended Action and Accusation ("Notice") in the above-entitled matter and declares as follows.

REQUEST FOR HEARING

Vertisis requests a hearing on the Notice.

RESPONSES TO ALLEGATIONS AND CAUSES OF ACTION

In answer to the Notice, Vertisis admits, denies, and alleges as follows. Each reference to a "paragraph" is reference to a paragraph in the Notice.

JURISDICTION

1. Vertisis admits the allegations in paragraph 1.

FACTUAL ALLEGATIONS

2. Vertisis admits the allegations in paragraph 2. Vertisis is a 503A pharmacy that specializes in providing integrative solutions to healthcare professionals treating individual patients. In 2021, Vertisis passed an NABP inspection. Before and since the events describe in the Notice, Vertisis has passed inspections by multiple regulatory agencies. Those inspections covered labeling prescriptions, the appropriateness of dispensing, and every other aspect of Vertisis's operations.

3. Vertisis denies the allegations in paragraph 3. Vertisis does not, and did not, compound sterile products for administration to multiple patients. Rather, Vertisis compounded sterile products for specific patients, labeled for specific patients, and with the intent and understanding that such products would be administered only to the patients for whom they were compounded and labeled. The physician who is in the patient records that Vertisis provided to the Board inspector had an address at a clinic in Henderson, Nevada. The documents provided to Vertisis as part of the Board's case file state that the inspection referenced in paragraph 3 is not the same address of the prescriber in Vertisis's records. The complaint form provided to Vertisis as part of the case file shows that the business complained of, and the one that is presumably referenced in paragraph 3 as "providing intravenous hydration therapy," is "Regenerate IV – Linq Hotel." The complaint alleged no "doctor, NP, or PA was there" and asked if "an RN can sell prescription drugs."

a. The most obvious inference from these facts is that the prescriber opened the box of vials labeled for a specific patient, transported them from his Henderson clinic to another clinic

at the Linq Hotel, and administered them to patients for whom they were not intended. This is something over which Vertisis had no control. In fact, Vertisis learned after the events in this case that the physician in question was criminally convicted in 2019 and was subject to discipline by this Board in 2021 and by the Nevada Osteopathic Board that same year.

4. Vertisis lacks sufficient knowledge to admit or deny the allegations in paragraph 4 and therefore denies the same. Vertisis explains the circumstances surrounding allegations in paragraph 4 as follows.

a. Based on the investigative documents Vertisis received from Board of Pharmacy staff, it appears the allegations in paragraph 4 are based on an instance when Vertisis dispensed multiple vials of B Vitamin Complex Injection for a specific patient. The case file depicts photographs of an apparently diverted Vertisis prescription medication found at Regenerate IV at the Linq Hotel hydration clinic. The investigative file does not contain photos of the box that would have contained the patient's name. Often vials are too small for pharmacies to place a label on (e.g., insulin). Thus, the label is placed on the outside container. The package containing the vials was labeled for the specific patient, with instructions for that patient, and with a description of the product as required by Nevada law. *See* examples of labels at Exhibit A (test patient used to protect patient confidentiality).

b. Vertisis often provides patient-specific, sterile injectable medications to prescribers in order to preserve the integrity of products and to allow safe administration of those products. Even the most well-intentioned patients cannot guarantee the appropriate storage and sterility if they receive such products to bring to the prescriber's office. In fact, many prescribers won't accept sterile injectable products for administration that patients have possessed.

c. On August 15, 2020, Jose Dastas, Pharm.D., Vertisis's PIC, passed away. Dr. Dastas had been the PIC for Vertisis since its opening in 2016. He was a highly skilled pharmacist, a decorated United States Air Force veteran, and a naturopathic physician who understood the clinical uses of the products involved in this case.

d. Dr. Dastas was the only Vertisis employee who would have had personal knowledge of the circumstances surrounding the dispensing of the items listed in paragraphs 4 and 5 of the Notice.

e. Dr. Dastas worked with many healthcare professionals that practice integrative medicine. Often, these prescribing professionals are executing protocols on identified individual patients that call for volumes of medication that are larger than what may be prescribed to treat simple deficiencies. The prescribing habits of these individuals are appropriate when one considers that they often go beyond treating deficiencies and seek to address physiological conditions. Vertisis's pharmacists review each prescription and utilize their professional judgement to confirm validity. Vertisis has a Quality Officer on staff and maintains policies and procedures to ensure that medication is not dispensed for office use.

f. Volumes like those alleged in paragraph 4 (750 ml of B Vitamin Complex) are not uncommon for administration to a single patient. In Integrative Medicine, such volumes are commonly utilized by physicians and these doses are safe. It is important to note that such doses are for treatment, not for supplementation to prevent deficiencies. Often, these prescribing professionals are executing protocols on identified individual patients that call for volumes of medication (vitamins, minerals, and amino acids) that can appear erroneous. The prescribing habits of these individuals are appropriate when one considers that they often go beyond treating deficiencies and seek to also address physiological conditions.

g. Specifically, 750mL of B Vitamin Complex in 30mL vials dispensed for administration to an individual patient may be used in the treatment of Methylenetetrahydrofolate Reductase (MTHFR) deficiency, malabsorption, fatigue, post-surgery, extreme vitamin deficiency, chelation therapy, adjunctive cancer supportive therapy, or any combination of these. Protocols for chronic disease and complex cases frequently call for aggressive IV treatment over the course of several months. Vertisis's formulation of B vitamin complex contains the following ingredients: $_{B1}$ 100 mg/mL, B_2 20mg/mL, B_3 50 mg/mL, B_5 50 mg/mL, $_{B6\ 50}$ mg/ml. If a patient were to be administered 6mL/day of Vertisis's B Vitamin Complex over a period of 125 days, the total amount of each active ingredient would remain below toxic levels. The beyond-use date (BUD) of Vertis's B Vitamin Complex formulation is 180 days from date compounded. The table below describes depicts this scenario.

Ingredient	Amount (mg/ml)	Daily Amount (mg/6ml)	Reference Toxic Dose
B_1 (Thiamine)	100mg	600mg	None Referenced
B_2 (Riboflavin)	20mg	120mg	None Referenced
B_3 (Niacinamide)	50mg	300mg	500 mg/day
B_5 (Dexpanthenol)	50mg	300mg	10-20g/day
B_6 (Pyridoxine)	50mg	300mg	S00mg/day

*Toxicity information obtained from the Linus Pauling Institute - Micronutrient Information Center. Values represent minimum doses referenced to have caused toxic effects **(Exhibit B).**

h. After Vertisis received the Board Investigator's request for documents in 2018, its personnel drafted and on January 2, 2019 implemented a standard operating procedure (SOP) establishing maximum volumes of medication to be dispensed for administration to an identified individual patient. *SOP-503A-9.18 Maximum Volumes of.* Given the concerns raised in 2018, Vertisis made a concerted effort to review and define maximum daily dosages for its commonly prescribed medications prior to employing this SOP. Vertisis will provide the SOP during the hearing. Vertisis professionals created these maximum dosages based on literature and professional judgement.

5. Vertisis lacks sufficient knowledge to admit or deny the allegations in paragraph 5 and therefor denies the same. *See* Vertisis's response to paragraph 5.

APPLICABLE LAW

6. Paragraphs 6 through 12 are purported to be statements of law and are not subject to admission or denial. To the extent such statements of law imply that Vertisis violated any of the laws and regulations cited therein, Vertisis denies the same.

COUNT ONE
Violations of Federal and State Law

7. Vertisis denies the allegations in paragraph 13

COUNT TWO
Unprofessional Conduct
(Respondent Dastas)

8. Vertisis denies the allegations in paragraphs 14.

COUNT THREE
Managing Pharmacist Responsibility
(Respondent Dastas)

9. Vertisis denies the allegations in paragraph 15.

COUNT FOUR
Pharmacy/Owner Responsibilities
(Respondent Vertisis)

10. Vertisis denies the allegations in paraph 16.

OTHER DEFENSES

11. Each cause of action fails to state a claim upon which relief can be granted.

12. The doctrine of laches bars the claims in this case. Laches is an equitable doctrine "'invoked when delay by one party works to the disadvantage of the other, causing a change of circumstances which would make the grant of relief to the delaying party inequitable'. . . Thus, laches is more than a mere delay in seeking to enforce one's rights; it is a delay that works to the

disadvantage of another." *Carson City v. Price*, 934 P.2d 1042, 1043 (Nev. 1997) (doctrine of laches barred injunctive relief when lawsuit was not filed until six months after public hearing). The Notice against Vertisis was filed three and a half years after the complaint form against Regenerate IV – at the Linq Hotel was filed. The complaint form was filed on July 5, 2018. Dr. Dastas, Vertisis's PIC died more than two years later—on August 15, 2020. Dr. Dastas was the only Vertisis employee with personal knowledge of communication with the prescriber and other facts surrounding the dispensing of the prescriptions listed in the Notice. Vertisis has been placed in an untenable position through no fault of its own. It would be unfair to prosecute this case where Vertisis's key witness, and only witness with personal knowledge that could refute the allegations, died more than two years after the facts of the case were known by the Board.

13. The causes of action in the Notice are moot. Vertisis has remedied any processes that could lead to a physician using a patient's medication for multiple patients.

14. Count One must be dismissed because the Nevada Board of Pharmacy is not an entity that can make determinations of violations of federal law.

15. Count Four against Vertisis based on a pharmacy owner's responsibility are without legal basis because Jose Dastas is deceased.

RESERVATION OF RIGHTS, DEFENSES, AND GENERAL DENIAL

16. To the extent Vertisis did not specifically admit allegations in the Notice, they deny such allegations.

17. Vertisis reserves all rights to assert additional defenses.

PRAYER FOR RELIEF

18. That the Notice be dismissed or that the Board find that the allegations in the Notice and all evidence presented to the Board do not support imposing discipline on any of the Respondent.

19. That the Board dismiss all Causes of Acton in in the Notice.

20. That the Board provide further relief to Vertisis as it finds just and proper.

Prior to the preparation of this Order of Summary Suspension, Nevada State Board of Pharmacy (Board) staff presented evidence and information to J. David Wuest, R.Ph., Executive Secretary, regarding Abdel M. Khalek, MD, Certificate of Registration No. CS19745. Upon review of the evidence and information, the Executive Secretary has determined that Certificate of Registration No. CS19745 is subject to summary suspension pursuant to NRS 233B.127(3) and NRS 453.241(3), based upon the following preliminary findings:

1. Charges are pending against Respondent for, in relevant part, permitting the use of his log-on information to e-scribing systems by unlicensed persons and/or failing to secure his secondary authenticator for e-scribing, and violating, attempting to violate, assisting or abetting in the violation of, or conspiring to violate, or knowingly permitting or failing to report a violation of federal and state law, including NRS 453.226, NRS 453.316, NRS 453.321(1)(a), NRS 453.331 (1)(c)(d)(f)&(i), NRS 453.381(1), NRS 453.401(l)(a), NRS 454.213, NRS 454.215, NRS 454.221, NRS 454.311, NRS 454.316, NRS 454.321, NRS 639.100(1), NRS 639.235, NRS 639.23505, NRS 639.281, NRS 639.2813, NRS 639.310, 21 U.S.C. § 822(a)(2), 21 U.S.C. § 823(f), 21 U.S.C. § 841(a), 21 U.S.C. § 842(a), 21 U.S.C. § 846 and 21 CFR §§ 1306.03–1306.05

2. While those charges are pending, Respondent has failed to review his prescriber activity in the Nevada Prescription Monitoring Program database to report suspected illegal activity and/or unauthorized use of his name and credentials to prescribe controlled substances, in violation of NRS 453.164(7)(a).

3. As of the date of this Order, the Executive Secretary has reasonably determined that the health, safety, or welfare of the public and any patient served by Respondent in the State of Nevada is at risk of imminent harm based upon the findings in paragraphs 1 and 2 above.

4. Based on the foregoing, the Executive Secretary has reasonably determined that a summary suspension of Respondent's Certificate of Registration No. CS19745 is necessary to remove the risk of imminent harm to the health, safety and welfare of the public.

Accordingly, pursuant to NRS 233B.127(3) and NRS 453.241(3):

IT IS HEREBY ORDERED that the Certificate of Registration CS19745 is **SUMMARILY SUSPENDED** until further order of the Board; and,

Warm Springs Road, Suite 225, Las Vegas, NV 89119. Abdel Malick Khalek, M.D. (Respondent), was properly served with a notice of the adjudication, including the date, time, and location. Respondent was not present personally or through an attorney. Rosalie M. Bordelove, Esq., Chief Deputy Attorney General, served as legal counsel to the Board. The Board, after due consideration of the record, evidence and law, and being fully advised in the premises, makes its FINDINGS OF FACT, CONCLUSIONS OF LAW AND ORDER in this matter, as follows:

FINDINGS OF FACT

I.

Respondent held a license to practice medicine in the State of Nevada issued by the Board from August 14, 1993 to June 30, 2021.

II.

On February 1, 2021, the Investigative Committee filed its formal Complaint in Case No. 21-8734-1, alleging Respondent violated the Medical Practice Act. Respondent was served with the Complaint on February 18, 2021, at his address of record with the Board. Pursuant to NRS 630.254, each licensee shall maintain a permanent mailing address with the board to which all communications from the Board to the licensee must be sent. A licensee who changes his or her permanent mailing address shall notify the Board in writing of the new permanent mailing address within 30 days after the change.

The Complaint alleges two (2) violations of the Medical Practice Act that constitute grounds for initiating disciplinary action against a licensee, as follows: one (1) violation of NRS 630.306(1)(c), Unlawful Prescribing of Controlled Substances and Dangerous Drugs (Count I); and one (1) violation of NRS 630.305(1)(e), Aiding and Assisting the Unlicensed Practice of Medicine (Count II). Respondent did not answer or file a response to the allegations set forth in the Complaint. Pursuant to NAC 630.460(4), the allegations of the Complaint are deemed generally denied if an answer is not filed.

III.

An Order Scheduling Early Case Conference was filed on April 12, 2021, scheduling the Early Case Conference for the pending matter for May 6, 2021, at 10:00 a.m. This Order was mailed via USPS Certified Mail, postage pre-paid, on April 13, 2021 to Respondent's address of record. In addition, Respondent was contacted several times by telephone, whereby he was repeatedly informed of the proceedings, including the date, time and how to participate in the

telephonic Early Case Conference. An Affidavit describing attempts to contact Respondent was filed on May 3, 2021, and was delivered on May 6, 2021, at 3:40 p.m., to Respondent's address of record with the Board. On May 6, 2021, a telephonic Early Case Conference was conducted in this matter. Aaron Bart Fricke, J.D., General Counsel, (Mr. Fricke) was present on behalf of the Investigative Committee (IC) of the Board, with Hearing Officer Patricia Halstead, Esq. Respondent did not appear or participate. The parties agreed to dates for the pre-hearing conference, exchange of documents, and the hearing date.

In compliance with NAC 630.465, a Scheduling Order, setting pre-hearing and hearing was filed on May 12, 2021, setting the pre-hearing conference for July 20, 2021, at 10:00 a.m., and setting the hearing for August 26, 2021, at 8:00 a.m., at the Office of the Nevada State Board of Medical Examiners, 9600 Gateway Drive, Reno, Nevada 89521, and video conferenced to the Board's Las Vegas Office, located at 325 E. Warm Springs Road, Suite 225, Las Vegas, NV 89119. The Scheduling Order was delivered to Respondent at his address of record via USPS Certified Mail on May 17, 2021, at 1:27 p.m.

An Order Continuing Prehearing Conference was then filed on July 19, 2021, changing the Pre-Hearing Conference to July 27, 2021, the remainder of the Scheduling Order filed on May 12, 2021, remained the same. The Order Continuing Prehearing Conference was delivered to Respondent at his address of record via USPS Certified Mail on July 24, 2021, at 1:44 p.m.

The Pre-Hearing Conference was held telephonically as noticed and ordered, at which time, legal counsel for the IC, Mr. Fricke, appeared. Neither the Respondent nor any representative of the Respondent appeared at the Pre-Hearing Conference.

IV.

On August 26, 2021, as duly noticed and ordered, a hearing was held before the Hearing Officer to receive evidence and to hear the arguments of both parties. Legal counsel for the IC, Mr. Fricke, appeared. Respondent did not attend the hearing, nor did he have counsel appear on his behalf. Mr. Fricke presented the IC's case, offered documentary evidence and presented witness testimony. Exhibits 1 through 16, were marked and admitted into evidence.

Nevada State Board of Medical Examiners

Reno, Nevada 89521
(775) 688-2559

Pursuant to NRS 622A.350(1) and (2), as Respondent did not appear and as a continuance had not been scheduled, sought or granted, Mr. Fricke made an offer of proof on the record that Respondent was given sufficient legal notice. Upon a determination by the regulatory body or hearing panel or officer that the absent party was given sufficient legal notice, the regulatory body or hearing panel or officer may proceed to consider and dispose of the case without the participation of the absent party. Based thereon, good cause appearing, the Hearing Officer found that sufficient legal notice had been provided to the Respondent, and therefore found that the Board may accept the IC's allegations against the Respondent in the Complaint as true.

Notwithstanding the presumption afforded the Board pursuant to NRS 622A.350(2), Mr. Fricke presented the IC's case in its entirety, thus establishing a record for the Board to review the case on the merits.

The Hearing Officer provided the Findings and Recommendations, filed October 21, 2021. This matter was scheduled for final adjudication on December 3, 2021, at a regularly scheduled Board meeting.

The notice of the adjudication was sent via USPS Certified Mail on October 27, 2021, and was delivered on Respondent's address of record on November 1, 2021, at 1:52 p.m.

A copy of the adjudication materials along with a copy of the Hearing Officer's Findings and Recommendation, were mailed via USPS Certified Mail on November 2, 2021, and were delivered to Respondent's address of record on November 5, 2021, at 3:35 p.m.

V.

Pursuant to NRS 622A.300(5)(a), the Findings and Recommendations of the Hearing Officer are hereby approved and adopted by the Board, in their entirety and without modification, and are hereby specifically incorporated and made part of this Order by reference. A copy of the Findings and Recommendations filed October 21, 2021, in this matter is attached hereto as **Exhibit 1**.

VI.

The Board hereby finds that Counts I and II, as set forth in the Complaint, and as recapitulated in Paragraph II above, have been established by a preponderance of the evidence.

Nevada State Board of Medical Examiners

Reno, Nevada 89521

VII.

If any of the foregoing Findings of Fact is more properly deemed a Conclusion of Law, it may be so construed.

CONCLUSIONS OF LAW

I.

The Board has jurisdiction over Respondent and the Complaint, and an adjudication of this matter by the Board members as set forth herein is proper.

II.

Respondent was timely and properly served with the Complaint, and all notices and orders in advance of the hearing and adjudication thereon, in accordance with NRS and NAC Chapters 630, NRS Chapters 241, 622A and 233B, and all legal requirements of due process.

III.

With respect to the allegations of the Complaint, the Board concludes that Respondent has violated the Medical Practice Act, as alleged in the Complaint, as follows: one (1) violation of NRS 630.306(1)(c), Unlawful Prescribing of Controlled Substances and Dangerous Drugs (Count I); and one (1) violation of NRS 630.305(1)(e), Aiding and Assisting the Unlicensed Practice of Medicine (Count II). Accordingly, Respondent is subject to discipline pursuant to NRS 630.352.

IV.

The Board finds that, pursuant to NRS 622.400, recovery from Respondent of reasonable attorneys' fees and costs incurred by the Board as part of its investigation and disciplinary proceedings against Respondent is appropriate. The Board has reviewed the Investigative Committee's Memorandum of Costs and Disbursements and Attorneys' Fees, and the Board finds them to be the actual fees and costs incurred by the Board as part of its investigative, administrative and disciplinary proceedings against Respondent, and finds them to be reasonable and necessary based on: (1) the abilities, training, education, experience, professional standing and skill demonstrated by Board staff and attorneys; (2) the character of the work done, its difficulty, its intricacy, its importance, the time and skill required, the responsibility imposed and the prominence and character of the parties where, as in this case, they affected the importance of

the litigation; (3) the work actually performed by the Board's attorneys and staff, and the skill, time and attention given to that work; and (4) the product of the work and benefits to the Board and the people of Nevada that were derived therefrom.

V.

If any of the foregoing Conclusions of Law is more properly deemed a Finding of Fact, it may be so construed.

ORDER

Based upon the foregoing Findings of Fact and Conclusions of Law, and good cause appearing therefore,

IT IS HEREBY ORDERED that:

1. Pursuant to NRS 630.352(4)(e), the Board shall administer a written public reprimand to Respondent.

2. Pursuant to NRS 630.352(4)(d), Respondent's license to practice medicine is hereby revoked. In accord with NRS 622A.410(1), the Board hereby prescribes a period of two (2) years, during which Respondent may not apply for reinstatement of this license;

3. Pursuant to NRS 630.352(4)(h), Respondent is hereby ordered to pay a fine of two thousand five-hundred dollars ($2,500.00) per violation of the Medical Practice Act, for a total fine in the amount of five thousand dollars ($5,000.00), to be paid within sixty (60) days of service of this Order; and

FINDINGS AND RECOMMENDATIONS

TO: Aaron Bart Fricke
Senior Deputy General Counsel
Nevada State Board of Medical Examiners
9600 Gateway Drive
Reno, Nevada 89521

Abdel Malick Khalek, M.D.
320 N. Nellis Blvd., Ste 6
Las Vegas, NV 89509

This matter came for hearing on August 26, 2021. Present were Aaron Fricke, Esq. on behalf of the Investigative Committee (the "IC") and the undersigned hearing officer. Respondent Abdel Malick Khalek, M.D. ("Dr. Khalek") did not appear nor otherwise participate.

Notice to Dr. Khalek was confirmed on the record. Specifically, proof was submitting indicating that the Scheduling Order, filed May 12, 2021, which contained notice of the hearing was sent by certified mail to Dr. Khalek at his last known address on file with the Nevada State Board of Medical Examiners (the "Board"). *See* NRS 630.254; NRS 630.255; NRS 630.344; and Volume 1, Exhibits 6-7. While Dr. Khalek had communications with the Board, the record indicates that he did not provide an alternative address, was aware of the proceedings, and did not

engage in the proceedings despite several notices and attempts to contact him.[1] *See* Volume 1, Exhibits 1-11. No continuance of the hearing was requested by any interested party.

With Dr. Khalek having failed to appear and no continuance having been requested nor granted, the matter was heard as scheduled pursuant to NRS 622A.350, which provides:

> 1. If a party fails to appear at a scheduled hearing and a continuance has not been scheduled or granted, any party who is present at the hearing may make an offer of proof that the absent party was given sufficient legal notice. Upon a determination by the regulatory body or hearing panel or officer that the absent party was given sufficient legal notice, the regulatory body or hearing panel or officer may proceed to consider and dispose of the case without the participation of the absent party.
>
> 2. If the licensee fails to appear at a hearing, the regulatory body or hearing panel or officer may accept the allegations against the licensee in the charging document as true.

As well as pursuant to NAC 630.470(2), which provides: "If a licensee fails to appear at a scheduled hearing and no continuance has been requested and granted, the evidence may be heard and the matter may be considered and disposed of on the basis of the evidence before the Board, panel or hearing officer in the manner required by this section."

In so proceeding, undersigned heard evidence from the IC in support of the Complaint allegations that consist of: Count I, NRS 630.306(1)(c), Unlawful Prescribing of Controlled Substance and Dangerous Drug; and Count II, NRS 630.305(1)(e), Aiding and Assisting the Unlicensed Practice of Medicine, premised upon controlled substances being addressed by unlicensed practitioner Vinay Kumar Bararia, M.D. by and through credentials held by Dr. Khalek. Through sworn testimony of Senior Investigator for the Nevada State Board of Medical Examiners Kim Friedman, and through the admission of Volume 1, Exhibits 1-11 and Volume II, Exhibits 1-16, the IC established as follows:

---

[1] In this respect, there are no filings in the record on behalf of Dr. Khalek including, but not limited to, an Answer to the Complaint.

1. Dr. Khalek was employed by Goldsmith Healthcare, Ltd., a medical clinic located in Las Vegas, Nevada, which was sold to Nevada Health Services, LLC in August 2018. *See* Volume II, Exhibit 14.

2. Nevada Health Services, LLC did business as "TrimCare" and was owned and operated by Vinay Kumar Bararia, M.D. ("Bararia"), who had surrendered his Nevada medical license in March 2013, in the midst of an indictment in the State of Arizona for seven counts of violating 21 USC §841 and §846 and conspiring to distribute controlled substances, possession of controlled substances with the intent to distribute, and distribution of controlled substances. In relation to such charges, Bararia was convicted on September 18, 2014 of two counts of Distribution of a Controlled Substance, a violation of 21 USC §841(a)(1) and (b)(1)(c). *See* Volume II, Exhibits 2, 4, 6, and 7.

3. Financial dealings beyond an employer/employee relationship occurred as between Bararia and Dr. Khalek whereby Dr. Khalek provided Bararia with a cashier's check for $75,000 issued on October 16, 2018, approximately two months after Bararia's purchase of Goldsmith Healthcare, Ltd. *See* Volume II, Exhibit 14, Exhibit B. Dr. Khalek indicates the money was provided to Bararia as a loan in support of Bararia's purchase of Goldsmith Healthcare, Ltd.; however, evidence provided by Dr. Khalek and submitted the IC indicates that the sums were provided in contemplation of a 50/50 partnership in Nevada Health Services, LLC (DBA TrimCare), which is supported by the purchase price for Goldsmith Healthcare, Ltd. being $150,000,[2] of which the money provided by Dr. Khalek equals exactly half. *See* Volume II, Exhibit 14, Exhibits C and D, *see also* the August 26, 2021, Transcript of Hearing Proceedings, pp. 105-107. The partnership was never finalized in writing and, in November 2018, Bararia agreed to repay the $75,000 to Dr. Khalek. *See* Volume II, Exhibit 14, Exhibit D.

4. Dr. Khalek continued to work for Nevada Health Services, LLC through April 2019 when he quit. *See* Exhibit 14.

---

[2] This figure was stated in argument and not testified to. *See* the August 26, 2021, Transcript of Hearing Proceedings, p. 19.

5. Commencing in late 2018 and through early 2019, prior to leaving Nevada Health Services, LLC, Dr. Khalek began to lodge complaints against Bararia with regulatory agencies such as the Board and the Nevada State Board of Pharmacy, alleging "multiple felonies" being committed by Bararia, which included, but was not limited to, practicing medicine without a license and unlawful distribution of controlled substances. *See, e,g.,* Volume II, Exhibit 11; the August 26, 2021, Transcript of Hearing Proceedings, pp. 63-67.

6. Dr. Khalek reported that Bararia was meeting and treating patients unsupervised by a licensed physician and in so doing was improperly utilizing Dr. Khalek's credentials and access to distribute and prescribe controlled substances. Id. Dr. Khalek was aware of the same but failed to stop Bararia from doing so by not seeking to eliminate Bararia's access to the controlled substances for which Dr. Khalek was responsible and by failing to report his dispensing credentials as compromised, amongst other possible remedies Dr. Khalek could have availed himself of. Id. and the August 26, 2021, Transcript of Hearing Proceedings, pp. 67-69.

7. Prescription Monitoring Reports related to Nevada Health Services, LLC dated 09/01/2018 to 06/04/2019 indicate that 657 prescriptions for controlled substances were issued and attributed to 358 patients of which Dr. Khalek could only account for 57 of the patients. *See* Volume II, Exhibits 14-16. Dr. Khalek reported that he does "not know how the remaining patients may have obtained prescriptions dispensed under his name," but this is belied by Dr. Khalek's own reports of Bararia improperly dispensing and prescribing controlled substances and Bararia having Dr. Khalek's credential information such as Dr. Khalek's DEA licensing number. *See, e.g.,* Volume II, Exhibits 8 and 11. Dr. Khalek also indicates that he did not want to disturb the status quo, sort to speak, with Bararia pending being paid back the $75,000. *See* Volume II, Exhibit 16.

8. Records submitted and testified to further support that Bararia was permitted to purchase controlled substances for distribution by using of Dr. Khalek's credentials, which Dr. Khalek would have had to provide to Bararia. *See* Volume II, Exhibits 8-12; the August 26, 2021, Transcript of Hearing Proceedings, pp. 48-57.

9. Testimony was further provided by Ms. Friedman that Dr. Khalek admitted to her that he was aware of Bararia treating patients without supervision despite not being properly licensed or supervised; writing prescriptions for patients seen by Bararia without having seen the patients himself; allowing Bararia to have a key to the controlled substance storage area that held controlled substances that were the charge of Dr. Khalek; and Nevada Health Services, LLC staff having access to an e-prescribing phone whereby controlled substances were prescribed under Dr. Khalek's credentials. *See* the August 26, 2021, Transcript of Hearing Proceedings, pp. 63-66.

WHEREFORE the undersigned hearing officer finds as follows:

Proper notice of the proceedings, inclusive of the evidentiary hearing, was provided to Dr. Khalek and no continuance of the evidentiary hearing was sought nor granted;

Pursuant to NRS 622A.350(2) the undersigned accepts the allegations against Dr. Khalek in the Complaint, filed February 1, 2001, as true;

Aside from the authority granted by NRS 622A.350(2), the undersigned hearing officer finds that the IC established a violation of Count I, NRS 630.306(1)(c), Unlawful Prescribing of Controlled Substance and Dangerous Drug, by establishing, as alleged, that Dr. Khalek allowed Bararia to have access to, dispense, and prescribe controlled substances to patients with whom Dr. Khalek had no bona fide therapeutic relationship by using Dr. Khalek's access and credentials, and that Dr. Khalek further failed to monitor and evidence such transactions in accordance with required reporting and record keeping, which compounded the improprieties engaged in by Dr. Khalek with respect thereto. The foregoing establishes that Dr. Khalek administered, dispensed, or prescribed controlled substances to others in a manner not authorized by law as contemplated by NRS 630.306(1)(c).

Aside from the authority granted by NRS 622A.350(2), the undersigned hearing officer finds that the IC established a violation of Count II, NRS 630.305(1)(e), Aiding and Assisting the Unlicensed Practice of Medicine, by establishing that Dr. Khalek furnished his credentials to Bararia, an unlicensed person, and knowingly permitted Bararia to utilize the same in treating and dispensing and otherwise prescribing to patients controlled substances nor tracked nor otherwise managed by Dr. Khalek as was Dr. Khalek's obligation. The foregoing establishes that Dr.

Khalek aided and assisted Bararia, an unlicensed person, to engage in the practice of medicine contrary to law.

BASED UPON THE FOREGOING, it is recommended that the Board find Dr. Khalek in violation of NRS 630.306(1)(c), Unlawful Prescribing of Controlled Substance and Dangerous Drug, as alleged in Count I of the Complaint field on February 1, 2021; and NRS 630.305(1)(e), Aiding and Assisting the Unlicensed Practice of Medicine, as alleged in Count II of the Complaint filed on February 1, 2021.

RESPECTFULLY SUBMITTED this 18th day of October 2021.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **V.** **ELLIOT SHIN, MD** **Certificate of Registration Nos. CS14683 and PD27436** **Respondent.**	**OBJECTION, MOTION TO DISMISS, STATEMENT OF COMPLIANCE, ANSWER, AND NOTICE OF DEFENSE** **CASE NO. 18-100-CS-s** **Hearing Date: April 13, 2022** **Hearing Time: 9:00 a.m.**

HOLLAND & HART LLP
9555 HILLWOOD DRIVE, 2ND FLOOR
LAS VEGAS, NEVADA 89134

COMES NOW Elliot Shin, MD ("Dr. Shin"), by and through his counsel Holland & Hart LLP, and submits his objection, motion to dismiss, statement of compliance, and answer and notice of defense to the Nevada State Board of Pharmacy's ("Board") Notice of Intended Action and Accusation ("Accusation").

OBJECTION, MOTION TO DISMISS, AND STATEMENT OF COMPLIANCE

Pursuant to NRS 639.244(1)(a), NRS 622A.360(2)(e), and NRS 233B.121(4), Dr. Shin hereby objects to the Accusation and moves for dismissal of the same for failure to state facts which, if true, would form a sufficient basis for discipline.

I. INTRODUCTION

Dr. Shin has held a valid prescribing controlled substances registration (CS14683) since October 18, 2006, with a current renewal date of October 31, 2022. Dr. Shin has held a valid

dispensing practitioner registration from the Board since March 20, 2019 (PD27436), also with a current renewal date of October 31, 2022. The Board's Accusation seeks "appropriate disciplinary action" against Dr. Shin's registrations on the basis of vague, conclusory allegations repackaged into four separate counts for relief that boil down to one issue: that at some time predating March 20, 2019, nearly three years before the filing of this Accusation, Dr. Shin allegedly dispensed "dangerous drugs" without having a dispensing practitioner registration.

The Accusation's own allegations negate the Board's contention that its involvement is to protect public health or serve the public's interest. As alleged in the Accusation, Dr. Shin administered "clinical trial medications" at Jubilee Clinical Research, an activity that is already heavily regulated by the Food and Drug Administration ("FDA"). Federal laws and regulations subject clinical trials to the oversight of Institutional Review Boards[1] for compliance, and the FDA enforces these laws and regulations through mechanisms that include, but are not limited to, civil monetary penalty proceedings.[2] Despite the FDA's comprehensive regulation of clinical trials and monitoring for compliance with the standards of Good Clinical Practice that it sets and enforces,[3] the Board now seeks to impose its own obligations onto Dr. Shin for conduct regulated by the federal government.

Nevada law requires legal actions, including those brought by this Board, to be commenced in a timely manner or they are forfeited. First, the two-year statute of limitations applicable to claims for penalty or forfeiture based on a state statute bars the Board's claims against Dr. Shin now, as the conduct complained of predates the filing of the Accusation by more than two years.

Second, setting aside the statute of limitations issue, the Board expressly consented to the conduct complained of in the Accusation by granting Dr. Shin's application for a dispensing practitioner registration and granting him that registration more than three years ago; accordingly, the doctrines of laches and estoppel preclude the relief sought in the Accusation. The Board issued a dispensing practitioner registration to Dr. Shin on March 20, 2019. According to the very

allegations in the Accusation, the Board now seeks to punish Dr. Shin with unspecified disciplinary action up to and including the revocation of the very registration the Board already granted. Moreover, the Board's actions are based on allegations of misconduct that not only predate the Board's issuance of the registration to Dr. Shin, but which were self-disclosed by Dr. Shin to the Board prior to the Board issuing his dispensing practitioner registration. In sum: Dr. Shin disclosed the conduct alleged in the Accusation to the Board, the Board issued Dr. Shin a registration in full knowledge of the alleged conduct, and yet has now commenced disciplinary proceedings based upon that conduct nearly three years after issuing Dr. Shin's registration to him. It belies logic and would be inequitable for the Board to be permitted to, with full knowledge of the facts at issue, issue to a licensee a valid registration only to turn around three years later and attempt to take disciplinary action against that licensee—not for any new alleged misconduct, but for alleged misconduct predating the Board's own issuance (and subsequent renewal) of that very registration.

Third, the Accusation is entirely lacking in the factual detail necessary to determine whether the allegations are sufficient to form a basis for discipline. There is not a single allegation in the Accusation detailing which "dangerous drug" Dr. Shin allegedly dispensed prior to obtaining his dispensing practitioner registration, merely the allegation that Dr. Shin dispensed vague, ill-defined "clinical trial medications." Nor is there a single allegation that Dr. Shin's alleged conduct resulted in any harm to the public or was in any way incompetent, unskillful, or negligent. Rather, the Board couches its Accusation in conclusory and vague terms.

For these reasons, the Accusation should be dismissed in its entirety, with prejudice.

II. LEGAL ARGUMENT

A. Legal Standard.

NRS 622A.360(2)(e) permits a respondent to file a "motion requesting dismissal of the charging document for failure to state facts which, if true, would form a sufficient basis for discipline." NRS 639.244(1)(a) likewise permits a respondent to file a Statement of Defense wherein the respondent may "[o]bject to the accusation as being incomplete and failing to set forth clearly the charges." NRS 233B.121(4) requires that the Board afford the respondent the opportunity to respond and present evidence and argument on all issues involved.

B. The Applicable Statute of Limitations Bars the Accusation.

NRS 11.190(4)(b) provides that the statute of limitations is 2 years for "[a]n action upon a statute for a penalty or forfeiture, where the action is given to a person or the State, or both, except when the statute imposing it prescribes a different limitation." "For statute-of-limitations purposes, in determining whether an action is based upon a statute for a penalty or based upon a liability created by statute, a penalty has been described as a 'punishment for an offense against the public . . . not incident to the redress of a private wrong." *Torrealba v. Kesmetis*, 124 Nev. 95, 104, 178 P.3d 716, 723 (2008).

Here, the Accusation identifies and relies solely on Nevada's statutory authority to impose a penalty or forfeiture upon Dr. Shin. The Accusation cites to the following statutes and regulations, among others, for the authority of the Board to suspend or revoke any license or registration issued by the Board:

- NRS 233B.127(3) (regarding the lawfulness of "revocation, suspension, annulment or withdrawal of any license");
- NRS 639.241 (regarding the filing of an accusation to initiate a "hearing to determine whether the rights and privileges granted by any certificate, certification, license or permit issued by the Board should be revoked, suspended, limited or conditioned");
- NRS 453.236(1) (regarding the Board's authority to "suspend or revoke a registration pursuant to NRS 453.231 to dispense a controlled substance upon" the Board making certain, enumerated findings);
- NRS 453.241(1) (regarding the implications of "[a]dministrative proceedings by the Board to deny, suspend or revoke a registration"); and
- NRS 639.210 (regarding the authority of the Board to "suspend or revoke any certificate, license, registration or permit issued" by the Board for certain, enumerated reasons).

Thus, the Accusation implicates a forfeiture of a license based on statute, and NRS 11.190(4)(b) applies to preclude any action for conduct more than two years preceding the filing of the

HOLLAND & HART LLP
9555 HILLWOOD DRIVE, 2ND FLOOR

Accusation.

Setting aside the issue of whether the Accusation states facts sufficient to determine whether Dr. Shin's license is subject to discipline, as discussed *infra*, the Accusation was filed on February 11, 2022. The conduct complained of in the Accusation, however, ended no later than March 20, 2019 by the Accusation's own allegations, when Dr. Shin was approved for and received a dispensing practitioner registration.[4] All of the conduct for which the penalty or forfeiture may be imposed occurred more than two years prior to the filing of the Accusation, and therefore the statute of limitations found within NRS 11.190(4)(b) bars the Accusation.

Furthermore, to the extent the Accusation implicates any fine or other disciplinary action, the Accusation makes plain that the Board relies upon grounds implicating and concerning the public interest, which would be a penalty.[5] *Torrealba*, 124 Nev. at 104, 178 P.3d at 723. Thus, to the extent the Accusation further implicates any penalty based on statute, it is likewise barred by the applicable two-year statute of limitations in NRS 11.190(4)(b).

Therefore, the Accusation must be dismissed in its entirety, with prejudice, as being barred by the applicable statute of limitations.

C. The Board's Own Conduct in Issuing to Dr. Shin a Dispensing Practitioner Registration (and Renewing the Same) Precludes Disciplinary Action Against Said Registration for Conduct Predating the Issuance of the Registration.

i. The Board's Review of the Conduct Alleged in the Accusation Prior to Issuing and Renewing Dr. Shin's Dispensing Practitioner Registration and Controlled Substances Registration.

By its own allegations in the Accusation, the Board issued Dr. Shin a dispensing practitioner registration on March 20, 2019, even after Dr. Shin's alleged conduct of dispensing "dangerous drugs"[6] without a registration had occurred and been disclosed to the Board. The Board previously

[4] Accusation ¶ 3.
[5] *See* Accusation ¶¶ 5, 6, 8, 10, 11, 12.
[6] Dr. Shin does not admit that dispensed "dangerous drugs" as that term is defined in NRS 454.201 or that the Accusation presents sufficient facts to state a basis for discipline under NRS 622A.360(2)(e) as discussed in Section II. D.i.., *infra*, but even assuming that the Accusation presents sufficient facts to form a basis for discipline, such Accusation would be barred by the doctrines of laches and estoppel, as detailed in this Section II.C.ii.

HOLLAND & HART LLP

evaluated and considered Dr. Shin, his prior conduct, and his history on at least three prior occasions, specifically: (1) when he applied for and the Board issued a biennial dispensing practitioner registration (PD27436) on March 20, 2019; (2) again when the Board renewed Dr. Shin's dispensing practitioner registration between 2019 and the present; and (3) again when the Board renewed Dr. Shin's biennial prescribing controlled substances registration (CS14683), *see* NRS 453.226 and NRS 639.220(1) (characterizing both types of registrations as "biennial"); the Board cannot now use such prior conduct and history predating the issuance and renewal of the registrations as grounds for discipline now against those very same registrations.

The Board possessed the ability to deny Dr. Shin's registration application at the time he initially applied for and renewed his registrations. NRS 453.241(1) permits the Board to deny an application for registration upon taking the proper administrative action. Instead of denying Dr. Shin's initial application for his dispensing practitioner registration or denying Dr. Shin's renewal applications for his dispensing practitioner and controlled substances registrations since 2019, the Board approved his application for dispensing practitioner registration on March 20, 2019 and allowed Dr. Shin to continue to prescribe and dispense "dangerous drugs" for nearly three years since the complained-of conduct ceased. The fact that the Board approved Dr. Shin's initial and renewal applications for both registrations belies the Board's belated allegations that Dr. Shin's alleged conduct predating the 2019 issuance of the dispensing practitioner registration is against the public interest or in any way presents any potential for harm to the public.

Furthermore, in connection with Dr. Shin's applications, the Board ostensibly conducted one or more inspections of Dr. Shin's office pursuant to NRS 453.226(6), wherein the Board found no violations of applicable statutes and regulations, and no evidence of harm to the public from Dr. Shin's prescribing and dispensing practices. *See* Accusation (containing no factual allegations or statutory/regulatory authority for any violations of the same with respect to how Dr. Shin runs or maintains his practice with respect to prescribing or dispensing). This, too, cuts against the Board's untimely argument now that any conduct of Dr. Shin contravenes the public interest.

ii. *The Board's Delay in Acting on the Alleged Conduct Renders Its Current Accusation and Any Discipline Arising from It Inequitable and Contrary to Nevada Law.*

The Board's delay in seeking disciplinary action violates the doctrines of equitable estoppel and laches. "[E]quitable estoppel operates to prevent the assertion of legal rights that in equity and good conscience should be unavailable because of a party's conduct." *United Brotherhood v. Dahnke*, 102 Nev. 20, 22, 714 P.2d 177, 178-79 (1986). Estoppel applies when the party to be estopped (1) is aware of true facts, (2) intends the conduct to be acted upon, (3) the party asserting estoppel is ignorant of the true facts, and (4) relies to his detriment on the conduct. *Chanos v. Nevada Tax Comm'n*, 124 Nev. 232, 181 P.3d 675 (2008). Moreover, Nevada courts have applied estoppel against state agencies where specific representations were made and were detrimentally relied upon. *See, e.g., Southern Nev. Mem. Hospital v. State*, 101 Nev. 387, 705 P.2d 139 (1985) (applying equitable estoppel to prevent the state from revoking letters of approval for construction of two hospitals because the hospitals justifiably relied upon them).

Similarly, "Laches is an equitable doctrine which may be invoked when delay by one party works to the disadvantage of the other, causing a change of circumstances which would make the grant of relief to the delaying party inequitable." *Carson City v. Price*, 113 Nev. 409, 412, 934 P.2d 1042, 1043 (1997); *see also*, *State v. Rosenthal*, 107 Nev. 772, 778, 819 P.2d 1296, 1301 (1991) ("As a result of such delay, the condition of the party asserting laches becomes drastically altered, whereby he cannot be restored to his former state" and "[t]he delay must cause actual prejudice.").

The Board's inexplicable delay of nearly three years in filing the Accusation (or more, as it is not clear from the face of the Accusation how far back the alleged conduct reaches) prejudices Dr. Shin's ability to defend the Accusation. The Accusation itself is too vague to determine which "clinical trial medications" the Board contends constitute "dangerous drugs," when they were administered, and to whom. It is possible that the Board's substantial delay in bringing the Accusation may result in Dr. Shin lawfully being no longer in possession of certain information required by the Board to prove its claims, or by Dr. Shin to maintain his defense. *See generally* NRS Chapter 639 (requiring document retention of two years with respect to multiple categories of

HOLLAND & HART LLP
9555 HILLWOOD DRIVE, 2ND FLOOR
LAS VEGAS, NEVADA 89134

records); *see, e.g.*, NRS 639.236(1) (requiring a dispensing practitioner to maintain records of prescriptions for 2 years).

Moreover, Dr. Shin relied upon the Board's issuance of the prescribing practitioner registration as he continued to grow his clinical trial practice over the last three years since its issuance (and during its subsequent renewal). Had the Board simply denied the prescribing practitioner registration in 2019 with the original application, Dr. Shin could have taken steps to mitigate any harm to his practice and his patients as a result of this decision. Similarly, the Board could have denied the renewal of Dr. Shin's dispensing practitioner registration prior to filing its Accusation. Instead of taking these actions, and by granting his dispensing practitioner registration and subsequently renewing it, the Board expressly condoned Dr. Shin's clinical trial practice, which necessarily includes following patients in the clinical trial for an extended period of weeks, months, or even years.

To take disciplinary action against Dr. Shin's dispensing practitioner registration now, after nearly three years after its issuance, would be detrimental to not only Dr. Shin but to his clinical trial patients as well, potentially jeopardizing their treatment mid-trial and without the option to join other trials that would continue their treatment. The Board has not alleged that any conduct Dr. Shin has engaged in since it granted his dispensing practitioner registration endangers the public; instead, the Board's Accusation is based solely upon dispensing the medications prior to holding a registration and then continuing the exact same conduct after receiving his dispensing practitioner registration in March of 2019. Dr. Shin's post-2019 dispensing conduct, which is identical to the conduct alleged in the Accusation, apparently is not of concern to the Board or a basis for alleging potential public harm.

The Accusation must therefore be dismissed in its entirety, and with prejudice, as being time-barred by the Board's own delay. The Accusation's claims are further defeated by the Board's consent to Dr. Shin obtaining and maintaining a dispensing practitioner registration notwithstanding the alleged dispensing of medications pre-2019, as the Board granted and renewed Dr. Shin's registration since such conduct occurred. For the same reasons, the claims in the Board's accusation are barred by the doctrines of estoppel and laches.

D. The Accusation Lacks Sufficient Facts or Specificity to Support Any Grounds for Disciplinary Action.

Notwithstanding issues stemming from the delay of the Board in filing the Accusation, on its face the Accusation must be dismissed for failure to include sufficient facts to support grounds for discipline. NRS 622A.360(2)(e).

i. All Counts Should Be Dismissed for Failure to State Sufficient Facts.

Counts One, Three, and Four in the Accusation are predicated on the allegation that Dr. Shin failed to obtain his dispensing practitioner registration prior to 2019, but the Accusation does not even provide sufficient facts to determine that Dr. Shin required any such registration. The Accusation premises its first, third, and fourth counts on its vague allegation that Dr. Shin dispensed "clinical trial medications" at some unspecified time prior to March 20, 2019. It is not clear from the face of the Accusation that "clinical trial medications"[7] are "dangerous drugs" for which a dispensing practitioner registration is required. NRS 454.201 defines "dangerous drugs" as

> any drug, other than a controlled substance, unsafe for self-medication or unsupervised use, and includes the following:
>
> 1. Any drug which has been approved by the Food and Drug Administration for general distribution and bears the legend "Rx only";
>
> 2. Procaine hydrochloride with preservatives and stabilizers (Gerovital H3) in injectable doses and amygdalin (laetrile) which have been licensed by the State Board of Health for manufacture in this State but have not been approved as drugs by the Food and Drug Administration; or
>
> 3. Any drug which, pursuant to the Board's regulations, may be sold only by prescription because the Board has found those drugs to be dangerous to public health or safety.

Without any additional allegations concerning which "clinical trial medications" are included with the allegations of the Accusation, it is impossible to determine whether those medications constitute "dangerous drugs" under NRS 454.201 and therefore necessitate registration under NRS 454.215, NRS 639.100, NRS 639.23505, and NAC 639.742.

[7] Indeed, the term "clinical trial medications," which the Board incorporates in its Accusation, is not defined in Chapters 453 (Controlled Substances), 454 (Poisons; Dangerous Drugs and Hypodermics), or 639 (Pharmacists and Pharmacy) of the Nevada Revised Statutes or the Nevada Administrative Code, and appears to be a generic term invented by the Board for use in its Accusation that is not defined by statute or regulation.

HOLLAND & HART LLP
9555 HILLWOOD DRIVE, 2ND FLOOR
LAS VEGAS, NEVADA 89134

The entire Accusation is predicated upon the assumption that Dr. Shin dispensed "dangerous drugs" that required his registration with the Board, but does not identify what if any dangerous drugs were dispensed, or that the "clinical trial medications" constituted "dangerous drugs" subject to the Board's authority. Each Count of the Accusation depends on NRS 639.210, either subsection (4) ("[i]s guilty of unprofessional conduct or conduct contrary to the public interest") or (12) ("[h]as violated, attempted to violate, assisted or abetted in the violation of or conspired to violate any of the provisions of this chapter or any law or regulation relating to drugs, the manufacture or distribution of drugs or the practice of pharmacy, or has knowingly permitted, allowed, condoned or failed to report a violation of any of the provisions of this chapter or any law or regulation relating to drugs, the manufacture or distribution of drugs or the practice of pharmacy committed by the holder of a certificate, license, registration or permit"). For the purposes of NRS 639.210(4), unprofessional conduct and conduct contrary to the public interest is expressly defined with NAC 639.945(1) to include, applicable here, "(k) Performing any act, task or operation for which licensure, certification or registration is required without the required license, certificate or registration."

Thus, both subsection 4 and 12 of NRS 639.210 turn on whether Dr. Shin dispensed dangerous drugs without the requisite registration. Because the Accusation contains insufficient facts to establish that Dr. Shin dispensed "dangerous drugs" at all prior to his registration date, Counts One, Three, and Four of the Accusation must be dismissed.

Each Count of the Accusation (including also Count Two) depends upon NRS 453.236(1), of which the only applicable subsection may be subsection (1)(d): that Dr. Shin "[c]ommitted an act that would render registration under NRS 453.231 inconsistent with the public interest as determined pursuant to that section."[8] NRS 453.231 thus further modifies "public interest" according to its own terms. NRS 453.231(1) states:

> 1. The Board shall register an applicant to dispense controlled substances included in schedules I to V, inclusive, unless it determines that the issuance of that

[8] The first three subsections (a), (b), and (c) are entirely inapplicable as Dr. Shin has not furnished false or fraudulent material in his applications, has not been convicted of a felony relating to a controlled substance, and has not had his federal registration revoked or suspended. While Count Four cites to NRS 453.236(1)(e), the subsection cited therein is actually subsection (1)(d).

HOLLAND & HART LLP
9555 HILLWOOD DRIVE, 2ND FLOOR

registration would be inconsistent with the public interest. In determining the public interest, the Board shall consider the following factors:

> (a) Maintenance of effective controls against diversion of controlled substances into other than legitimate medical, scientific, research or industrial channels;
>
> (b) Compliance with state and local law;
>
> (c) Promotion of technical advances in the art of manufacturing controlled substances and the development of new substances;
>
> (d) Convictions of the applicant pursuant to laws of another country or federal or state laws relating to a controlled substance;
>
> (e) Past experience of the applicant in the manufacture or distribution of controlled substances, and the existence in the applicant's establishment of effective controls against diversion of controlled substances into other than legitimate medical, scientific research or industrial channels;
>
> (f) Furnishing by the applicant of false or fraudulent material in an application filed pursuant to the provisions of NRS 453.011 to 453.552, inclusive;
>
> (g) Suspension or revocation of the applicant's federal registration to manufacture, distribute, possess, administer or dispense controlled substances as authorized by federal law; and
>
> (h) Any other factors relevant to and consistent with the public health and safety.

None of the factors in NRS 453.231(1) apply here. The Accusation does not allege that Dr. Shin failed to maintain effective controls against diversion, that Dr. Shin has any controlled substance convictions, that Dr. Shin furnished any false or fraudulent material in connection with his applications, or any other facts that would implicate NRS 453.231(1). Therefore, the entire Accusation must be dismissed for failure to state facts upon which there may be grounds for disciplinary action.

ii. The Second Count Should Be Dismissed for Failure to Include any Allegations of Incompetence, Unskilled Performance, or Negligent Performance.

The Second Count in the Accusation is based entirely upon a sole conclusory allegation that Dr. Shin performed his duties in an incompetent, unskillful or negligent manner. No facts are alleged anywhere in the Accusation to support this conclusory allegation. Instead, the only facts the Board identifies occurred prior to the Board issuing Dr. Shin his dispensing practitioner's registration.

HOLLAND & HART LLP
9555 HILLWOOD DRIVE, 2ND FLOOR
LAS VEGAS, NEVADA 89134

NAC 639.945(1) includes within the category of "unprofessional conduct and conduct contrary to the public interest: [...] (i) [p]erforming any of his or her duties as the holder of a license, certificate or registration issued by the Board, or as the owner of a business or an entity licensed by the Board, in an incompetent, unskillful or negligent manner." The way in which a registered dispensing practitioner should perform his duties are expressly stated by statute and regulation. For example, NAC 639.742(3) provides the conditions under which the practitioner should handle, store, and dispense dangerous drugs, including storing the drugs in a secure, locked room or cabinet, dispensing drugs only to the patient personally, and other requirements. There is no allegation in the Accusation whatsoever that Dr. Shin performed any of these duties in an incompetent, unskillful or negligent manner.

Indeed, the Board includes no allegations that Dr. Shin has been cited or advised of any issues that would form the basis of incompetence, lack of skill, or negligence, whether in connection with its inspections, review of Dr. Shin's application for a dispensing practitioner registration, or the renewal of such registration. This Count is entirely unsupported by any factual allegations in the Accusation whatsoever. As such, it should be dismissed.

III. CONCLUSION

For the foregoing reasons, the Accusation must be dismissed in its entirety, with prejudice.

AFFIRMATIVE DEFENSES

1. The Accusation, in whole or in part, fails to state a claim upon which relief may be granted, or upon which would form a sufficient basis for discipline.

2. The Accusation is barred by the applicable statute of limitations.

3. The Board has failed to plead with sufficient specificity to provide adequate notice to Dr. Shin of the Board's claims under NRS 639.241(2) and NRS 233B.121(2)(d),[9] and therefore should be dismissed.

5. The Board consented to the acts or omissions alleged to have been committed by Dr. Shin, including by issuing to Dr. Shin a dispensing practitioner registration on March 20, 2019.

[9] NRS 639.241(2) requires a "written statement of the charges alleged," which must set forth in ordinary and concise language the acts or omissions with which the respondent is charged to the end that the respondent will be able to prepare a defense." NRS 639.241(2) further requires that "[t]he accusation must specify the statutes and regulations which the respondent is alleged to have violated, but must not consist merely of charges phrased in language of the statute or regulation." NRS 233B.121(2)(d) requires "[a] short and plain statement of the matters asserted."

7. The Board's claims are barred by the doctrines of laches and estoppel.

8. The Board's claims are preempted by federal law, including but not limited to the Food, Drug, and Cosmetic Act and regulations promulgated thereunder regarding the conduct and supervision of clinical trials.

9. The Board's claims are barred in equity and by the doctrine of unclean hands.

10. All possible affirmative defenses may not have been alleged herein insofar as sufficient facts were not available after reasonable inquiry upon the filing of Dr. Shin's Answer and insofar as the Accusation is couched in conclusory and vague terms, and therefore Dr. Shin hereby reserves the right to assert additional affirmative defenses.

PRAYER FOR RELIEF

WHEREFORE, Dr. Shin respectfully requests the following relief:

1. That following the hearing this action be dismissed with prejudice;

2. That the Board award Dr. Shin's attorneys' fees and costs incurred in defense of this action; and

CRIMINAL INDICTMENT

2:19-cr-00154

CASE NO: ~~2:18-CR-154~~

VIOLATIONS:

21 U.S.C. § 841(a)(1) & (b)(1)(E) and b(2) – Distribution of a Controlled Substance (Schedules III & IV)

21 U.S.C. § 843 – Obtaining a Controlled Substance by Misrepresentation

21 U.S.C. § 846 - Conspiracy to Distribute a Controlled Substance

21 U.S.C. § 856 – Maintaining a Drug-Involved Premises

18 U.S.C. § 2 – Aiding and Abetting

THE GRAND JURY CHARGES THAT:

INTRODUCTION

At all times material to this Indictment:

1. The Controlled Substances Act, Title 21, United States Code, Sections 801, *et seq.*, governs the manufacture, distribution, and dispensing of controlled substances in the United States. With limited exceptions for medical professionals, the CSA makes it "unlawful for any person knowingly or intentionally ... to manufacture, distribute, or dispense ... a controlled substance."

2. The CSA defines a "controlled substance" as a drug or other substance that is included in one of five schedules - Schedule I, II, III, IV, or V - of Subchapter I, Part B of the Act. 21 U.S.C. § 802(6). Drugs or substances are placed into these schedules based, at least in part, on their potential for abuse, likelihood of physical or psychological dependency, accepted medical use, and accepted safety for use under medical supervision.

a. "Schedule II" indicates that the drug or other substance has a currently accepted medical use with severe restrictions and has a high potential for abuse that can lead to severe psychological or physical dependence. 21 U.S.C. § 812(b)(2).

b. "Schedule III" indicates that the drug or other substance has a currently accepted medical use with a potential for abuse that is less than those drugs listed in Schedule II, but can lead to moderate or low physical dependence or high psychological dependence. 21 U.S.C. § 812(b)(3).

3. Title 21, Code of Federal Regulations, Sections 1308.12, 1308.13, 1308.14, and 1308.15 lists the drugs and other substances contained in Schedules II, III, IV, and V, respectively.

4. Title 21, United States Code, Section 822(b) and Title 21, Code of Federal Regulations, Section 290.1, provide that the controlled substances listed in Schedules II-V can be dispensed or distributed only pursuant to a prescription issued by a medical

practitioner registered with the United States Drug Enforcement Administration ("DEA"). The DEA, as authorized by the Controlled Substances Act, issues registration numbers to qualifying medical practitioners that allow them to issue prescriptions for Schedule II-V controlled substances.

5. Accordingly, under Title 21, Code of Federal Regulations, Section 1306.03, controlled substances, such as opioid pain medications, can be dispensed only pursuant to a valid prescription from a medical practitioner authorized by the DEA to distribute controlled substances.

6. Under Title 21, United States Code, Section 802(10), the term "dispense" means to deliver a controlled substance to an ultimate user or research subject by, or pursuant to the lawful order of, a practitioner, including the prescribing and administering of a controlled substance and the packaging, labeling, or compounding necessary to prepare the substance for such delivery. The term "dispenser" means a practitioner who so delivers a controlled substance to an ultimate user.

7. Under Title 21, United States Code, Section 802(11), the term "distribute" means to deliver (other than by administering or dispensing) a controlled substance or a listed chemical. The term "distributor" means a person who so delivers a controlled substance or a listed chemical.

8. Title 21, Code of Federal Regulations, Section 1306.04 provides that in order for a prescription for a controlled substance to be valid, it "must be issued for a legitimate medical purpose by an individual practitioner acting in the usual course of his professional practice."

9. A prescription for a controlled substance issued without a legitimate medical purpose or outside of the individual practitioner's usual course of his professional practice

is not a valid prescription, and the person who issues the prescription violates Title 21, United States Code, Section 841(a)(1).

10. The Defendant, Chad Hall (hereinafter "Hall"), is a licensed Doctor of Osteopathic Medicine ("D.O.") who practices in Nevada under D.O. license number DO1729. As part of Hall's practice, he prescribes Controlled Substances, including highly addictive opioids, under his DEA license number FH3496557. Hall maintains the licensure for a medical practice known as Detoxification Solutions ("Solutions"), doing business as Advanced Medical – Center for Detoxification and Psychiatry (CPRX), LLC.

11. The Defendant, Michael Halprin (hereinafter "Halprin") a/k/a Michael Vincent, is an unlicensed, in Nevada, Advanced Practice Registered Nurse ("APRN") who formerly practiced in Florida under license number APRN935042. Halprin cannot prescribe any medications, including controlled substances, or independently provide treatment for patients. Halprin is the sole managing member of Solutions. Halprin sometimes presents himself to patients as "Dr. Mike."

12. The Defendant, Ronald Smith ("Smith"), is a licensed Medical Doctor ("M.D.") who practices in Nevada under M.D. license number 11778. As part of Smith's practice, he prescribes Controlled Substances including highly addictive opioids, under his DEA license number BS9687116.

13. The Defendant, Janell Olson ("Olson") is not licensed as a medical practitioner. Olson cannot issue valid prescriptions for any medications, including controlled substances, or independently provide treatment for patients.

14. The Defendant, Eghomware Igbinovia, a/k/a Jerry Igbinovia (hereinafter "Igbinovia"), is the owner and head pharmacist at ACRx Pharmacy ("ACRx"), 3200 N. Soaring Gulls Dr., Suite 101, Las Vegas, Nevada, 89129. Igbinovia is responsible for

furnishing specially compounded patient-specific buprenorphine troches directly to Solutions.

15. During the date range alleged in this Indictment, Defendants Hall and Smith routinely prescribed Schedule III controlled substances including buprenorphine and Suboxone to Solutions patients, outside the usual course of professional practice, without a legitimate medical purpose. Additionally, Defendant Halprin routinely distributed Schedule III controlled substances, including buprenorphine and Suboxone, without a medical license or a DEA Number. Defendant Olson also distributed Schedule III controlled substances without a medical license or a DEA Number and assisted all other defendants in their unlawful practices.

16. Defendants Hall, Halprin, Smith and Olson also submitted patient-specific prescriptions for specially-compounded buprenorphine lozenges under false patient names to ACRx Pharmacy. Defendant Igbinovia specially compounded the buprenorphine lozenges and delivered them to Solutions. Hall, Halprin, Smith and Olson then dispensed these patient-specific Schedule III medications to patients at Solutions in exchange for cash payments.

STREBEL, RPH,** **Certificate of Registration Nos. 18239 and TD01379,** **Respondents.**	CASE NO. 19-053-CS-S 19-053-RPH-S **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, R.Ph., in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because at the time of the events alleged herein, Respondent Kord T. FACTUAL ALLEGATIONS

2. Respondents operate the Nevada Obstetrical Charity Clinic, located at 1950 Pinto Lane in Las Vegas.

3. On March 22, 2019, Board staff performed an annual inspection of the Nevada Obstetrical Charity Clinic and found violations of Nevada law.

5. Dr. Strebel failed to verify the accuracy of dispensed compounded drug products.

6. Respondents failed to establish and follow policies and procedures for compounding and dispensing nonsterile drug products.

7. Respondents failed to properly and accurately label prescriptions. Prescriptions reviewed showed errors made on the number of refills ordered by Dr. Strebel. Some prescriptions written with "NO" refills indicated "refills" on the electronic record and medication label, while other prescriptions written with refills indicated "NO" refills in the electronic record. Other prescriptions specified a beyond use date that predated the date of the prescription. Prescriptions also lacked mandated auxiliary labels for alcohol consumption warning.

8. Respondents had possession of unlabeled bottles of medication.

9. Respondents failed to conduct and maintain an accurate biennial inventory of controlled substances.

10. Dr. Strebel permitted Thomas Strebel to order, receive and have unrestricted access to the inventory of controlled substances, dangerous drugs and drug products at the Nevada Obstetrical Charity Clinic.

13. On or about May 19, 2021, Board staff attempted to perform an annual inspection of the Nevada Obstetrical Charity Clinic and were denied entry.

14. On or about June 7, 2020, Board staff performed an annual inspection of the Nevada Obstetrical Charity Clinic and found the violations of Nevada law detailed above ongoing.

PUBLIC LETTER OF REPRIMAND REGARDING:

SIRCY MOORE, D.V.M.
License #: 2174
Case # 6-2016DVM-19

The Nevada Board of Veterinary Medical Examiners filed a complaint against Sircy Moore, D.V.M. (Licensee) regarding his application for renewal of his license and his failure to prove completion of the requisite continuing education hours. After due investigation and consideration, the following facts regarding the complaint were discovered.

1) On or about December 29, 2015, Dr. Moore logged into the Board's website and renewed on-line. In his online renewal, Dr. Moore indicated that he had completed 22 hours of continuing education (CE) between January 1, 2015 and December 31, 2015.

2) On or about March 28, 2016, the Board's staff performed a continuing education audit, and Dr. Moore's application was randomly selected. The Board's staff sent Dr. Moore a letter requesting copies of Dr. Moore's continuing education certificates of attendance for the time period between January 1, 2015 and December 31, 2015.

3) On or about May 3, 2016, the Board's staff sent Dr. Moore an e-mail of a second notice to comply with the CE Audit. On June 9, 2016, the Board's staff sent Dr. Moore an additional e-mail in an attempt to reach and receive a response from Dr. Moore.

4) On or about May 20, 2016, June 9, 2016, and June 15, 2016, the Board's staff attempted to reach Dr. Moore by telephone at all of his telephone numbers known to the Board's staff, including telephone numbers for his employing veterinary facilities. Dr. Moore was no longer employed at any of the veterinary facilities of record.

5) On August 1, 2016 and September 13, 2016, the Board's staff attempted to contact Dr. Moore at a personal address the Board's staff had been supplied. The Board's staff also attempted to locate Dr. Moore through internet searches, to no avail.

6) In December 2016, after the Board's Executive Director called an employer of Dr. Moore's, Dr. Moore spoke with the Investigating Board Member. Though Dr. Moore claimed to have completed some hours of continuing education; however, as of the date of this Letter of Reprimand, Dr. Moore has not provided evidence or proof of completion of any of the requisite hours of continuing education.

The Nevada Board of Veterinary Medical Examiners finds this conduct to be in violation of applicable Nevada law and, pursuant to NAC 638.041(3), subject to disciplinary action. In particular, the Board finds that the above-described acts violated Nevada Revised Statutes (NRS) 638.140(1) (Violation of a Board Regulation) and Nevada Administrative Code (NAC) 638.041(1) (Hours of CE for DVM) and NAC 638.0423(2) (Failure to Maintain Records of CE) in that Dr. Moore did not maintain or provide the records that would evidence completion any hours of continuing education for the period of January 1 through December 31, 2015. Dr. Moore could not document any hours of continuing education for the relevant time period.

Should the Letter of Reprimand be rejected by the Board it is agreed that presentation to and consideration by the Board of such proposed Letter of Reprimand or other documents or matters pertaining to the consideration of this Letter of Reprimand, shall not unfairly or illegally prejudice the Board, or any of its members, from further participation, consideration, adjudication, or resolution of these proceedings, and that no Board member shall be

disqualified or challenged for bias. If it is accepted by the Board, the Letter of Reprimand becomes a public document and will be reported to the National Veterinary Disciplinary Database of the American Association of Veterinary State Boards (AAVSB).

Through the signature of Licensee below, the Licensee agrees this conduct is a violation of the statutes and regulations detailed above. As a result of this admitted violation and by a majority vote of the members of the Board at its October 2016 meeting, this Public Letter of Reprimand is to be placed in the Licensee's licensing file. As a result of the above stated violation, the Licensee agrees to the following:

1) Dr. Moore shall pay attorney's fees, investigative costs, and Board costs of $300.00 and a fine of $350.00, for a total due of $650.00. Dr. Moore shall pay the entire amount due of $650.00 by check or money order made payable to "Nevada State Board of Veterinary Medical Examiners" which must be received by the Board's office within 30 days of the date of the Board's approval of this Letter of Reprimand.

PUBLIC LETTER OF REPRIMAND REGARDING:

SIRCY MOORE, D.V.M.
License #: 2174
Case # 05-2017DVM-34

The Nevada Board of Veterinary Medical Examiners filed a complaint against Sircy Moore, D.V.M. (Licensee) regarding his treatment of a 9-year-old female Labrador retriever named "Katie". After due investigation and consideration, the following facts regarding the complaint were discovered.

1) On June 29, 2017, the owner of a 9-year-old female Labrador retriever named "Katie" brought her to the Grateful Pet Animal Clinic (GPAC) to have her spayed as part of her participation in a neighborhood outreach program in which the owner was participating because of his straitened circumstances. Two days earlier, a veterinary assistant at GPAC had contacted the owner and given her instructions related to the pre-surgical care for Katie. The owner was an established client at GPAC through her ownership and treatment of another dog. As part of the community outreach program, GPAC had offered to perform the spay at no cost and had arranged to pick up and return Katie to the owner's home because the owner did not have a way to get Katie to GPAC.

2) On June 29, 2017, staff from GPAC (a veterinary assistant and the receptionist) visited the owner's home to pick up Katie for the spay surgery, and they presented authorization forms to the owner regarding the surgery. The owner signed the forms. The communication between GPAC's staff and the owner was apparently less than clear because the staff believed that the owner understood that if Katie was deemed a candidate for surgery, then the surgery would be performed without further communication with the owner whereas the owner understood that he would receive communication from GPAC prior to the performance of any surgery.

3) Prior to surgery, Dr. Moore physically examined Katie, including drawing blood that was tested pre-surgically. The blood test produced normal results except that the ALT was significantly elevated at 640 U/L where the normal range was 0-120 U/L. Dr. Moore did not communicate the elevated ALT level to the owner either prior to or after performing the spay surgery on Katie.

4) On June 29, 2017, Dr. Moore performed the spay surgery on Katie. Katie died at home approximately 12 hours after the surgery. Dr. Moore called the owner after learning of Katie's death and offered a post-mortem examination. A post-mortem examination was performed at GPAC, which showed that Katie had suffered post-surgical internal bleeding.

The Nevada Board of Veterinary Medical Examiners finds this conduct to be in

violation of applicable Nevada law and subject to disciplinary action. In particular, the Board finds that the above-described acts violated Nevada Revised Statutes (NRS) 638.140(1) (Violation of a Board Regulation) and Nevada Administrative Code (NAC) 638.046 (Violation of AVMA Principles of Veterinary Medical Ethics) and Principles of Veterinary Medical Ethics sections II(E) and VI(A) in that Dr. Moore did not communicate directly with the owner prior to performing the spay surgery on Katie and at no time communicated to the owner the elevated ALT level and how the elevated ALT level might affect Katie's health and treatment and the risk therein. While there is no definitive correlation to show that Katie's death was caused due to the high ALT levels in Katie's blood work, per the requirements of informed consent, Dr. Moore is required to share abnormal blood test results with the owner prior to surgery.

Should the Letter of Reprimand be rejected by the Board it is agreed that presentation to and consideration by the Board of such proposed Letter of Reprimand or other documents or matters pertaining to the consideration of this Letter of Reprimand, shall not unfairly or illegally prejudice the Board, or any of its members, from further participation, consideration, adjudication, or resolution of these proceedings, and that no Board member shall be disqualified or challenged for bias. If it is accepted by the Board, the Letter of Reprimand becomes a public document and will be reported to the National Veterinary Disciplinary Database of the American Association of Veterinary State Boards (AAVSB).

Through the signature of Licensee below, the Licensee agrees this conduct is a violation of the statutes and regulations detailed above. As a result of this admitted violation and by a majority vote of the members of the Board at its April 2018 meeting, this Public Letter of Reprimand is to be placed in the Licensee's licensing file. As a result of the above stated violation, the Licensee agrees to the following:

1) Dr. Moore shall pay attorney's fees, investigative costs, and Board costs of $782.50. Dr. Moore shall pay the entire amount due of $782.50 by check or money order made payable to "Nevada State Board of Veterinary Medical Examiners" which must be received by the Board's office within 30 days of the date of the Board's approval of this Letter of Reprimand.

2) Dr. Moore will provide to the Board's office written evidence of successful completion of 3 hours of continuing education related to veterinary ethics focused on improving his client communication skills.

3) Failure by Dr. Moore to comply with any term or condition of this Letter of Reprimand shall result in additional disciplinary action, up to and potentially including suspension or revocation of Dr. Moore' license.

PUBLIC LETTER OF REPRIMAND REGARDING:

SIRCY MOORE, D.V.M.
License #: 2174-A
Case #10-2019DVM-89

The Nevada Board of Veterinary Medical Examiners received a complaint against Sircy Moore, D.V.M. (Licensee) regarding Dr. Moore's treatment of 1½-year-old female miniature Poodle named Ellie. After investigation and consideration, the following facts regarding the complaint were discovered:

1) On September 13, 2019, the owner of a 1½-year-old female miniature Poodle named Ellie brought her to Dr. Mo's Kindred AH Spirits Animal Hospital (Kindred AH AH) with concerns about acute left hind leg lameness and pain. After an examination and obtaining radiographs, Dr. Moore diagnosed a left coxofemoral luxation. Dr. Moore sent Ellie home with pain medications and scheduled a surgery.

2) On September 16, 2019, Ellie was brought back to Kindred AH for surgery with Dr. Moore. Dr. Moore attempted to perform a left femoral head osteotomy via a dorsal approach. The surgery was unremarkable until after Dr. Moore transected the femoral head, at which time he could not remove it because, according to Dr. Moore, the femoral head had become lodged behind deeper tissue layers and he was unable to remove it. Rather than continue efforts to remove the femoral head, Dr. Moore stated he closed the incision, thus leaving the femoral head due to his concerns that a prolonged anesthesia could have resulted in complications for the patient. No anesthesia complications were recorded during the one hour anesthesia period.

3) Two days later, Ellie's owner became concerned when the incision became swollen and painful and attempted to take Ellie back to Kindred AH. However, Kindred AH was closed because Dr. Moore was out of town. Thereafter, on September 18 and 19, 2019, Ellie was taken to another veterinary hospital where it was noted that the incision site had swollen, so much so that by September 19, 2019, the swelling had progressed to a black coloration of the skin. The veterinarian at the second veterinary hospital recommended that Ellie be taken to a specialty hospital for a surgical consultation.

4) On September 19, 2019, Ellie was taken to a specialty hospital. At the specialty hospital, it was noted that Ellie had generalized weakness, hypotension, and incision site dehiscence with a large eschar and purulent exudate. Radiographs revealed

soft tissue swelling of the incision and a retained femoral head. The veterinarian at the specialty hospital diagnosed sepsis and began aggressive treatment to address the sepsis.

5) After two days at the specialty hospital, Ellie's condition had worsened and emergency surgery was recommended and Ellie's owner consented. The surgery involved removing the retained femoral head, obtaining a sample for aerobic culture, and amputation of the left hind leg.

6) Ellie suffered significant post-surgical complications for which she was at or taken to the specialty hospital on September 22-24, 25, 28, and 30 and October 1. On October 1, 2019, the owner opted for humane euthanasia which was performed without complication.

7) In the course of the Board's investigation of the instant matter, the Board's staff reviewed the medical records made by Dr. Moore at Kindred AH and determined that the records lacked documentation of surgery times, the types of anesthesia administered, and the doses of injectable medications administered.

The Nevada Board of Veterinary Medical Examiners finds this conduct to be in violation of applicable Nevada law. In particular, the Board finds that the above-described acts violated Nevada Revised Statutes (NRS) 638.140(5) (Incompetence), NRS 638.140(6) (Negligence) and NAC 638.045(2) (Negligence) and NAC 638.045(2) (Incompetence) where Dr. Moore knowingly did not remove the femoral head from Ellie's leg and closed the incision knowing that the femoral head remained in Ellie's body and did not establish a clear plan for prompt removal. Additionally, the Board finds this conduct to be in violation of NRS 638.140(1) (Violation of Board regulations) and NAC 639.0475 where Dr. Moore's records lacked documentation of surgery times, the types of anesthesia administered, and the doses of injectable medications administered.

Should the Letter of Reprimand be rejected by the Board it is agreed that presentation to and consideration by the Board of such proposed Letter of Reprimand or other documents or matters pertaining to the consideration of this Letter of Reprimand, shall not unfairly or illegally prejudice the Board, or any of its members, from further participation, consideration, adjudication, or resolution of these proceedings, and that no Board member shall be disqualified or challenged for bias. If it is accepted by the Board, the Letter of Reprimand becomes a public document and will be reported to the National Veterinary Disciplinary Database of the American Association of Veterinary State Boards (AAVSB).

Through the signature of Dr. Moore below, Dr. Moore admits this conduct is a violation of the statutes and regulations detailed above. As a result of this admitted violation and by a majority vote of the members of the Board at its July 2020 meeting, this Public Letter of Reprimand is to be placed in the Licensee's licensing file. As a result of the above stated violation, the Licensee agrees to the following:

1) Dr. Moore will pay the attorney fees, investigative costs, and Board costs of $880.00 by check or money order made payable to "Nevada State Board of Veterinary Medical Examiners" which must be received by the Board's office within 30 days of the date of the Board's approval of this Letter of Reprimand.

2) Dr. Moore will provide to the Board's office written evidence of successful completion of four hours of continuing education in orthopedic surgery in canines and two hours in medical recordkeeping within 60 days of the date of the Board's approval of this Letter of Reprimand. The six hours of continuing education in this paragraph may not be counted toward Dr. Moore's continuing education requirements for renewal of his license.

3) Failure by Dr. Moore to comply with any term or condition of this Letter of Reprimand shall result in additional disciplinary action, up to and potentially including suspension or revocation of Dr. Moore's license. Additionally, failure by Dr. Moore to comply with any term or condition of this Letter of Reprimand shall allow the Board's staff not to renew Dr. Moore's license until Dr. Moore remedies the failure to comply.

GENERAL ALLEGATIONS

16. This matter arises from the prescribing, filling, and selling of prescriptions for escitalopram and clonazepam to Mr. Steven Jensen on January 30, 2019 which, when interacting with his other known prescriptions, created a lethal combination that resulted in the death of Mr. Jensen in less than 48 hours.

17. Both escitalopram and clonazepam are respiratory suppressants.

18. The FDA issued a "Black Box Warning" for clonazepam warning against its concomitant use with opioids such as oxycodone.

19. Clonazepam's FDA-approved dosing regimen for its initial use is 0.25 mg twice-per-day for a total of 0.5 mg-per-day for at least three days, after which it can be "increased in increments of 0.125 to 0.25 mg bid every three days."

20. In November, 2018, Mr. Jensen was admitted to American Fork Hospital. While there, lab work showed signs of impaired liver and kidney functioning.

21. After being discharged from American Fork Hospital, Mr. Jensen followed up with and saw Defendant Cosgrave several times to monitor his health condition.

22. On January 30, 2019, Mr. Jensen (age 40) visited Defendant Premier's facility at 226 North 1100 East, Suite A, American Fork, Utah as part of this continued monitoring.

23. Defendant Cosgrave owns, at least in part, Defendant Premier.

24. On that day, Defendant Cosgrave was working at Defendant Premier's American Fork facility and provided medical treatment to Mr. Jensen.

25. Defendant Cosgrave's actions were taken within the course and scope of his position with Defendant Premier, and he was acting as Defendant Premier's agent in these actions.

26. At the time of this visit, and for several visits before this date, Dr. Cosgrave was aware that Mr. Jensen had been taking prescription oxycodone to manage chronic pain in Mr. Jensen's lower legs.

27. Mr. Jensen mentioned issues that Defendant Cosgrave diagnosed as anxiety.

28. Defendant Cosgrave was aware that Mr. Jensen was not taking clonazepam or its equivalent at this time, nor had he taken such prescriptions for at least a significant period of time.

29. Defendant Cosgrave was aware that Mr. Jensen was not otherwise being treated for anxiety.

30. Despite his knowledge of Mr. Jensen's use of oxycodone and lack of use of clonazepam or its equivalent or other treatment, Defendant Cosgrave prescribed both escitalopram and clonazepam to Mr. Jensen.

40. Mr. Jensen took his oxycodone as it was prescribed to him.

42. Early in the morning on February 1, 2019, Mr. Jensen was found dead.

43. A subsequent autopsy showed that Mr. Jensen's death was caused by oxycodone and clonazepam toxicity.

45. As a direct and proximate result of the prescriptions, filling of the prescriptions, and selling of the prescriptions, for escitalopram and clonazepam by Defendants, Mr. Jensen suffered premorbid pain and suffering, loss of the enjoyment of life, medical expenses, and such other damages as the evidence may show at trial.

Statement of Explanation Erika Cardon pharmacist license (S018015) probation

I self-elected to stop practicing as a pharmacist from 12/15/16 to 01/22/2019. I had no problems or situations occur professionally before that personal decision. During that time of not practicing as a pharmacist, I was arrested for a DUI in Gilbert, Arizona on 12/25/2016. I immediately contacted 'Professionals Assisting Professions of Arizona' (PAPA), a treatment/rehabilitation/monitoring program contracted with the Arizona State Board of Pharmacy. All court requirements were also promptly completed.

My pharmacist license was put on probation on 10/4/2019 until 8/1/22.

I have been transparent, cooperative and compliant with the pharmacy board and their PAPA program that I enrolled in. I have been in the program since August 1, 2017. I have done weekly drug and alcohol tests and meetings. I have not failed any drug test. I have not consumed any alcohol since the DUI. I have good attendance at the PAPAs meetings. I do the 3 outside recovery meetings required every week as well. The PAPAs steering committee evaluates me biannually. Any prescription medications are monitored. Biannual employer reviews are also required.

Please contact me for any documents or further information I can provide.

RECITALS

1. Respondent has read and understands this Consent Agreement and has had the opportunity to discuss this Consent Agreement with an attorney, or has waived the opportunity to discuss this Consent Agreement with an attorney.

2. Respondent understands that she has a right to a public administrative hearing concerning this matter at which hearing she could present evidence and cross

6. Respondent understands that this Consent Agreement does not constitute a dismissal or resolution of any other matters currently pending before the Board, if any, and does not constitute any waiver, express or implied, of the Board's statutory authority or jurisdiction regarding any other pending or future investigation, action or proceeding.

7. Respondent also understands that acceptance of this Consent Agreement does not preclude any other agency, subdivision, or officer of this State from instituting any other civil or criminal proceedings with respect to the conduct that is the subject of this Consent Agreement.

8. Respondent acknowledges and agrees that, upon signing this Consent Agreement and returning this document to the Board's Executive Director, she may not revoke her acceptance of the Consent Agreement or make any modifications to the document. RE: Case 2010-3366

Dear Mr. Leitner:

The Colorado State Board of Pharmacy ("Board") considered the above referenced complaint at its July 15, 2010 meeting. After careful consideration of the available information, the Board determined that on September 16, 2009, you entered into an Order on Agreed Settlement with the Nebraska Department of Health and Human Services for fraudulently billing compounded preparations under the names of drugs that were not used in those preparations.

The Board hereby admonishes you for violations of C.R.S. sections 12-22 125(1)(c)(I),(II) and (III), (g) and (k) and Board Regulations 1.00.11 and 1.00.12.

This admonishment shall be made a part of the permanent records of the Board and is reportable as a disciplinary action. It may also be considered as an aggravating factor if you incur future violations. You may request that a hearing be initiated by the Board if you wish to dispute the information in this letter. The purpose of such a proceeding would be to adjudicate the propriety of the conduct upon which this letter is based. The Board must receive such a request from you within 20 days after you receive this letter.

If you make a timely request, the letter of admonition shall be deemed vacated pending resolution of formal disciplinary proceedings. Those proceedings involve a hearing conducted in accordance with the State Administrative Procedures Act.

Sincerely,

FOR THE COLORADO STATE BOARD OF PHARMACY

STATE OF NEBRASKA ex rel. JON BRUNING, Attorney General,	)	
Plaintiff,	)	
v.	)	**PETITION FOR DISCIPLINARY ACTION**
LYNDON LEITNER, R.P.,	)	
Defendant.	)	

The Plaintiff alleges as follows:

ALLEGATIONS COMMON TO ALL CAUSES OF ACTION:

1. Jurisdiction is based on Neb. Rev. Stat. § 71-150 (2007 Supp.) transferred to §§ 38-176 and 38-186 (Reissue 2008).

2. At all times relevant herein, the Defendant, Lyndon Leitner, R.P., has been the holder of a license (#12579) issued by the Department of Health and Human Services Division of Public Health ("Department") to practice pharmacy in the State of Nebraska.

3. The Department is the agency in the State of Nebraska authorized to enforce the provisions of the Uniform Licensing Law and the Uniform Credentialing Act regulating the practice of pharmacy.

4. The Nebraska Board of Pharmacy considered the investigation of this matter and made a disciplinary recommendation to the Attorney General, which recommendation has been considered. Such matters are privileged pursuant to Neb. Rev. Stat. § 71-168.01 (Reissue 2003) transferred to § 38-1,105 (Reissue 2008).

5. The Defendant has been the owner of N. Pharmacy in Lincoln, Nebraska since July of 2007.

6. Between 1993 and 2008, N.Pharmacy submitted false third party billing claims to Medicaid and Medicare for compounded prescriptions. The Defendant and other N.P. pharmacists would add a coverable drug, usually a topical steroid such as clobetasol or desoximetasone, to the prescription for billing purposes. The medication dispensed did not actually include the added drug.

7. Dr. E.R., a Lincoln dermatologist, identified prescription labels for two patients which indicated the compounded medications contained clobetasol. The prescriptions were prepared and dispensed pursuant to his medical orders which did not include clobetasol. One of the patients was less than twelve years old. Dr. E.R. informed a Department Investigator that clobetasol is a high potency anti-inflammatory agent which is not recommended for use on children less than twelve years of age. Dr. E.R. also stated that he was concerned that his patients would present the prescriptions, with the added drug included on the label, to their primary care physicians who would assume the patients were taking the added drug.

8. The Defendant told a Department investigator that he learned of the pharmacy practice of adding a coverable drug to a compounded medication for billing purposes when he refilled a prescription for a customer. He said he "let it slide" because he had so many other things to deal with being the new owner of the pharmacy.

9. The Defendant told the Department investigator that he received FWA (Fraud Waste & Abuse) training in January of 2009. After the training, he concluded he needed to address the compounding medication/added drug billing issue.

10. N. Pharmacy continued to use the compounding medication/added drug billing plan until a physician complained about the practice in April of 2009.

FIRST CAUSE OF ACTION

11. Paragraphs 1 through 10 are incorporated herein by reference.

12. Neb. Rev. Stat. § 71-147(10) (2007 Cum. Supp.) transferred to Neb. Rev. Stat. § 38-178(23) (Reissue 2008) provides that a professional license may be disciplined for unprofessional conduct.

13. Neb. Rev. Stat. § 71-148(4) (Reissue 2003) transferred to Neb. Rev. Stat. § 38-179(3) (Reissue 2008) defines unprofessional conduct as "obtaining any fee for professional services by fraud, deceit, or misrepresentation, including, but not limited to, falsification of third-party claim documents.

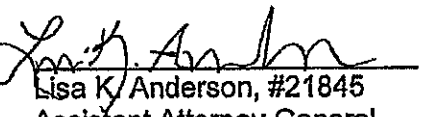
14. The Defendant's conduct set forth above in paragraph 6 constitutes unprofessional conduct and grounds for discipline.

SECOND CAUSE OF ACTION

15. Paragraphs 1 through 14 are incorporated herein by reference.

16. Neb. Rev. Stat. § 71-147(10) (2007 Cum. Supp.) transferred to Neb. Rev. Stat. § 38-178(23) (Reissue 2008) provides that a professional license may be disciplined for unprofessional conduct.

17. Neb. Rev. Stat. § 71-148(19) (Reissue 2003) transferred to Neb. Rev. Stat. § 38-179(10) (Reissue 2008) defines unprofessional conduct as "failure to keep and maintain adequate records of treatment or service".



18. The Defendant's conduct set forth above in paragraph 6 constitutes unprofessional conduct and is grounds for discipline.

PRAYER FOR RELIEF

WHEREFORE, the Plaintiff prays that the Chief Medical Officer set this matter for hearing, order appropriate disciplinary action pursuant to Neb. Rev. Stat. § 71-155 (2007 Supp.) transferred to Neb. Rev. Stat. § 38-196 (Reissue 2008) and tax the costs of this action to the Defendant.

INFORMATION SUMMARY

(Take this sheet with you)

1. You will start your first session on _____ at _____

2. If you will be attending both Education and Therapy with us, you must schedule your therapy prior to the end of your education classes. Talk to a staff person regarding your options for a group therapy day and time.

3. We have reserved space for you and expect you to attend your assigned sessions each and every week. You may be charged $10.00 for missed sessions, and you will also need to "make up" missed sessions.

4. We realize that, over the course of time, you may miss for a number of reasons throughout your treatment program. However, doing this will only extend your program that much longer as you must "make up" any missed sessions.

5. If you miss two weeks in a row you will receive a warning letter. If you miss a third week you will be staffed for "NON-COMPLIANT" discharge. If this happens, you may be required to re-appear in court. If you are discharged, we may, at our discretion, re-admit you. However, we will then require that you pay a **$25.00 "re-admit" fee** and you will also be required to pay any unpaid fee balance.

6. When you come to our office for a session, please be sure to "sign in" at the reception desk, pay all your fees, obtain a computerized statement indicating your "status", and attend your session. We fully expect that you will take an active part in your program by participating in sessions and inform us of any changes (address, medications you are taking, court requirements, changes in living situation, etc.) affecting you.

7. Estimated program costs are as follows:
   a) Level I Education, estimated cost is $100.00.
   b) Level II Education ONLY, estimated cost is $312.00.
   c) Level II Education and 42-86 hours of Level II Therapy, estimated cost is between $849.00 and $1,399.00.
   d) Anger Management 48 hours, estimated cost is $600.00
   e) Adult Responsibility Counseling 8 to 24 sessions, estimated cost is between $200.00 and $600.00
   f) Domestic Violence Treatment 54 hours, estimated cost is $900.00..

   NOTE: What may also effect your program cost, is missed sessions ($10.00 per missed session), UA's ($15.00 per specimen), and Breathalyser tests ($3.00 each).

8. If you are required to do Random UA's or BA's you must call the UA Hot Line at (303) 675-8022 every business day to determine whether or not you must come into our office to provide a urine specimen or take a breathalyser test. Failure to do so may result in your being terminated from the program as "NON-COMPLIANT".

9. If you are required to do "Antabuse", you must obtain your prescription from a Physician, fill your Physician's prescription from a licensed pharmacy, and begin monitored Antabuse within two weeks of starting this program. Failure to do so or failure to take your Antabuse as required by your Physician may result in your being terminated from the program as "NON-COMPLIANT".

10. Please communicate with us, we are here to help you.

Re: Reciprocal Pharmacist License Application for Thomas Muthart

I would like to supplement my application for a temporary and reciprocal Nevada pharmacist license with additional relevant information you will undoubtedly require. I am currently the holder of Arizona pharmacist license number S019330, which is on probationary status with an active consent agreement. The consent agreement and disciplinary action stem from diversion and substance use disorder originating July 2017. I was arrested in Pinal County; Arizona by the Casa Grande police department (case 2017-00011976) for diversion of acetaminophen with codeine. Charges were not pursued. I promptly reported this to the Arizona Board of Pharmacy and subsequently signed a consent agreement which, among other things, required a 6-month suspension with an additional 54-month probation period for a total of 5 years. I also signed a contract with the Professionals Assisting Professionals – Arizona (PAPA) program overseen by the Arizona Pharmacy Foundation and Arizona Pharmacists Association, a program dedicated to recovery from substance abuse disorders for healthcare professionals in Arizona. In addition to the suspension and probation of my license, I, since February 2018 or earlier:

- Self-sought counseling with an addictionologist prior to the AZ Board's action
- Completed a 25-day inpatient rehabilitation program
- Attend a minimum of three 12-step program meetings every week (Alcoholics Anonymous and Narcotics Anonymous)
- Have had a sponsor for 4 years and have sponsored 3 people in recovery over the last 2 years
- Attend weekly peer support meetings with pharmacists in the PAPA program and led by a licensed addictionologist
- Have passed random drug and alcohol tests administered, on average, every 8 days
- Meet with the PAPA steering committee to assess my progress on a semi-annual basis
- Am in the process of completing 400 hours of community service
- Have abstained from all mind-altering chemicals, including alcohol and prescription drugs
- Have been employed with Walgreens.com pharmacy (NV license PH03682) since November 2018 and have been an exemplary employee, earning either "Exceeding Expectations" or "Outstanding" in each annual performance review

I have included a copy of my consent agreement, a copy of the AZ board order lifting my suspension and imposing probation, and a copy of my contract with PAPA.

Thank you for reviewing my application. I will be happy to provide you with any additional information, clarification, or other supporting documentation.

Sincerely,

Thomas Muthart, PharmD

No liability of any sort or kind shall attach to the said Nevada State Board of Pharmacy, its members, servants or employees because or by reason of the use of the authorization.

I attest to knowledge of and compliance with the guidelines of the Centers for Disease Control and Prevention concerning the prevention of transmission of infectious agents through safe and appropriate injection practices.

I understand that Nevada law requires a licensed pharmacist who, in their professional or occupational capacity, comes to know or has reasonable cause to believe, a child has been abused/neglected, to report the abuse/neglect to an agency which provides child welfare services or to a local law enforcement agency.

1. Walters at all times material hereto is and has been licensed in the Commonwealth as a pharmacist having been issued license number 008931.
2. On or about April 1, 2009, Walters was arrested for Theft of a Controlled Substance.

Stipulated Conclusions of Law

The parties stipulate to the following Conclusions of Law, which serve as the legal basis for this Agreed Order of Surrender:

1. Walters' license to practice pharmacy in the Commonwealth is subject to regulation and discipline by the Kentucky Board of Pharmacy.
2. KRS 315.131 provides that the Board may issue an emergency order suspending the license of an individual whose continued practice would constitute a danger to the health, welfare, and safety of the general public.
3. There is probable cause to believe that Walters has violated KRS 315.121(2)(f).

Agreed Order of Surrender

Based upon the foregoing stipulated facts and conclusions of law, the Board and Clarkson agree to resolve this matter without further administrative proceedings. Accordingly:

1. Walters agrees to surrender his Kentucky pharmacist license with his signature to this Agreed Order of Surrender, if he has not already done so. Walters' license shall be suspended for a minimum of six (6) months from May 7, 2009.
2. Walters agrees that he may not petition the Kentucky Board of Pharmacy for reinstatement of his Kentucky pharmacist license until he is able to document a minimum of six (6) months continued sobriety through KYPRN.
3. Walters agrees to provide, with his petition for reinstatement of his Kentucky pharmacist license, documentation from a certified

addictionologist and an approved treatment provider that Walters has documented not less than six (6) months of continued sobriety, the attendance of ninety (90) AA or NA meetings in ninety (90) days and that in the professional opinion of the addictionologist and the treatment provider that Walters is then currently able to practice the profession of pharmacy with reasonable skill, care, and safety to patients.

4. Walters agrees that the Board may grant or deny such a petition for reinstatement, with appropriate conditions.

IN RE: PETITION FOR REINSTATEMENT OF DAVID W. WALTERS

Agreed Order of Reinstatement

Come the parties, the Kentucky Board of Pharmacy (hereafter "Board") and David W. Walters (hereafter Walters), and both being fully informed regarding the matter set forth herein, state as follows:

(1) Pursuant to KRS Chapter 315, the Board is authorized to regulate and control all matters related to pharmacists and pharmacies, not delegated to another agency of the Commonwealth. The matter herein has not been delegated to another agency of the Commonwealth.

(2) Walters was a registered pharmacist in Kentucky, having been assigned pharmacist license no. 008931.

(3) On or about April 1, 2009, Walters was arrested for Theft of a Controlled Substance.

(4) On or about April 6, 2009, Walters signed a KYPRN Agreement and surrendered his pharmacist license for a minimum of six months.

(5) Walters appeared before the Board on November 13, 2009, to present a petition for reinstatement of his pharmacist license.

(6) On November 13, 2009, the Board determined that Walters presented evidence to support his current ability to practice as a pharmacist provided he is

subject to terms and conditions that monitor his practice. Thus, the Board ordered that Walters' license to practice the profession of pharmacy be reinstated with conditions, and Walters agrees to each of the conditions stated in this *Agreed Order of Reinstatement.*

WHEREFORE, IT IS HEREBY AGREED AND ORDERED THAT:

(A) Pursuant to KRS 315.120(2) and 315.121(4), Walters' pharmacist license is reinstated upon satisfying the continuing education requirements, paying the cumulative renewal fee, and submitting a complete renewal application to the Board;

(B) Walters' pharmacist license is placed on probation for five (5) years and is subject to the following terms and conditions:

(1) Walters shall not work more than forty-five (45) hours per week or more than ninety (90) hours per two (2) weeks, with a maximum of fifty (50) hours in any seven (7) consecutive days and no overtime;

(2) Walters shall provide a copy of this *Agreed Order of Reinstatement* to all Pharmacists-in-Charge (PIC) and all employers, wherever Walters is employed, in this state or out of it;

(3) A perpetual inventory is required at all places of employment and pharmacies owned, in whole or in part, for C-II's, with electronic tracking of C-III's, C-IV's, C-V's, and this perpetual inventory/electronic tracking must be made available to the Board on request and audits may be conducted. Additionally, a written or electronic record of all expired drugs shall be retained for five (5) years by the employing pharmacy;

(4) Walters shall sign an aftercare contract with Kentucky Pharmacist Recovery Network (KYPRN), which includes a drug counselor and/or mental health counselor if indicated by KYPRN. The aftercare contract with KYPRN shall be in full force and effect for as long as Walters is under the terms of this *Agreed Order of Reinstatement*, and Walters shall notify the Board and KYPRN of any violation of this *Agreed Order of Reinstatement* or KYPRN contract, within twenty-four (24) hours;

(5) Walters shall notify the Board of change of home address, telephone number and/or email within seven (7) days of change;

(6) Walters shall provide to the Board a signed release granting the Board and PRN access to all medical records and patient information;

(7) Walters shall attend AA or NA meetings no less than six (6) times per two (2) weeks or twelve (12) meetings per calendar month, which shall include a minimum of two (2) meetings per week and shall provide the Board and PRN with monthly written reports of all AA/NA meetings;

(8) Walters shall agree to provide a minimum of six (6) random urine or other body fluid or hair samples at the discretion of PRN, the Board, or any other monitoring body for licit and illicit drugs of abuse and over-the-counter medications each year during the probation, with all expenses to be paid by Walters. Production of these samples shall be observed. Walters shall provide copies of any results of these screens ordered by anyone to the PRN Chair and the Board. Walters understands that it is his responsibility to notify the PRN Chair, the testing company, and the Board office of anything that may affect his availability for screens (e.g. vacations, travel, family obligations and so on prior to the events). The agency that provides the collection shall be approved by the PRN Chair. A missed screen may be cause for reporting such to the Board. Any positive screen that is a violation of this *Agreed Order of Reinstatement* or KYPRN contract shall be communicated to the Board by the PRN Chair within twenty-four (24) hours. A report indicating a presumptive presence shall constitute a conclusive basis, without the necessity of a hearing, for a determination that Walters is not in compliance with the terms of this *Agreed Order of Reinstatement;*

(9) Walters shall agree to abstain from any and all mood-altering chemicals (including but not limited to alcohol (i.e.-ethyl alcohol or ethanol), marijuana, tranquilizers, sedatives, stimulants, narcotics, opioids, including tramadol, nulbuphine, soporifics, androgenic steroids, scheduled and/or unscheduled drugs, mood altering over-the-counter medications, herbals, dietary supplements and any other known addictive drug) except as prescribed by his physician and only after consultation with the Director of PRN. If any mood altering and/or potentially addictive medications are required or recommended by his physician, Walters shall notify the PRN Chair in advance and provide documentation of the need for the medication (i.e.-a copy of the prescription or note from the prescribing practitioner) within three (3) days. If the need for the medication is

ongoing, Walters shall renew and verify with the PRN Chair every ninety (90) days. Walters also agrees to avoid exposure to anything that will cause his drug test to be positive. In that regard Walters shall avoid such items as "hemp oil" and "coca tea" and Walters shall not consume poppy seeds (which can be found hidden in curry sauces, breads, salad dressings, and in or on other foods). Walters shall not use ethyl alcohol in any form (including "alcohol free wine or beer," over-the-counter drugs containing alcohol (cough syrups, Nyquil or other similar OTC drug or supplement), mouthwash or other hygiene products containing ethanol, foods containing ethanol (desserts, vanilla extracts, etc.) communion wine, sanitizing hand or body gels (Purell or other), or any other form of ethyl alcohol. Intentional use of any of these products or medications without a practitioner's order is a violation of this *Agreed Order of Reinstatement* and KYPRN contract. When Walters signs this *Agreed Order of Reinstatement* and KYPRN contract he gives up the right to self medicate with the exception of single entity OTC NSAIDS and acetaminophen. A report indicating a presumptive presence shall constitute a conclusive basis, without the necessity of a hearing, for a determination that he is not in compliance with the terms of this *Agreed Order of Reinstatement;*

(10) Walters is precluded from accepting a position of Pharmacist-in-Charge, Preceptor, or from exercising Power-of-Attorney for purposes of purchasing controlled substances;

(11) Walters shall keep the Board advised at all times of his places of employment and shall only practice at a location and a work schedule that has received prior approval of the Board or its President;

(12) Walters shall not work at a pharmacy owned, in whole or in part, by him or another member of his family and Walters shall not possess a key to a pharmacy owned, in whole or in part by him or another member of his family. Walters shall not be on the premises of any pharmacy owned, in whole or in part, by him or another member of his family. During his probation Walters shall have prior approval to own a new pharmacy, in whole or in part, by the Board or Board President;

(13) Within two (2) years from the date of this order, the Board shall conduct quarterly inspections at all locations of Walters's employment. After two (2) years through five (5) years from the date of this order, the Board shall

conduct semi-annual inspections at all locations of employment, the costs of which, not to exceed $500 per inspection, shall be paid by Walters to the Board within thirty (30) days of invoicing by the Board. Costs shall be determined as time, travel costs, and mileage charges of the inspector(s);

(14) Walters shall obtain all of his prescriptions and those of his family at a pharmacy designated in writing to the Board and shall not dispense any drugs for himself or his family;

(15) Walters shall attend within one (1) year of the entry of this *Agreed Order of Reinstatement* either the University of Utah School on Alcoholism and other Drug Dependencies, CAPTASA, or the Southeastern PRN Meeting and shall provide a certificate of completion to the Board;

(16) Walters shall provide monthly written self performance evaluations to the PRN Chair and the Board and shall make all appearances before the PRN Committee as requested, including an annual appearance at the PRN meeting closest to the anniversary date of reinstatement for each year while on probation;

(17) If Walters commits any other act that results in a violation of a federal or state pharmacy or drug statute or regulation, the Board reserves the right to issue a Complaint against Walters' license and impose any applicable penalties pursuant to KRS Chapter 315;

(18) Walters shall not seek to amend or modify this *Agreed Order of Reinstatement.* This *Agreed Order of Reinstatement* constitutes the entire agreement between the parties and Walters is not relying on any other agreement or representation of any kind, verbal, or otherwise;

(19) By practicing pursuant to this *Agreed Order of Reinstatement* and by his signature on this *Agreed Order of Reinstatement,* Walters expressly acknowledges that he was fully and completely informed of his right to due process and right to legal counsel, that he fully understands those rights, and that he knowingly, voluntarily, and willingly agrees to waive those rights, and that he will practice the profession of pharmacy in the Commonwealth in conformity with the requirements of this *Agreed Order of Reinstatement* and all applicable pharmacy and drug laws;

(20) The above information shall be reported to the National Association of Boards of Pharmacy ("NABP"), and is subject to disclosure under the Kentucky Open Records Act; and

To whom it may concern:

Due to some personal issues and bad choices on my part, my License to practice Pharmacy in the state of Kentucky was suspended in April 2009. I completed a very rigorous Program set out by the Kentucky Board of Pharmacy which continued for a period of 5 years and successfully satisfied their requirements. I have resolved the personal issues which led me astray and have been practicing Pharmacy full time since November 2009 with no further issues. I am and always have been one hundred percent accountable and will continue to be so the rest of my Pharmacy career. If there are any further questions involving this matter, I would refer you to the Kentucky Board of Pharmacy website for any additional information required. Thanks you for your time,

Sincerely,

RE: *Provider David J. Smith, M.D.*
NPI No. 1811930357
Update CA Medical Board Actions

Dear Sir or Madam:

Regarding the restrictions on Dr. Smith's license to practice medicine in California that were imposed by the California Medical Board. **Those restrictions have been lifted and Dr. Smith's ability to practice medicine is unhindered by Board action.**

By way of background, David Smith, M.D., is a pain management specialist who treats patients suffering from chronic, intractable pain. He employs a number of treatment modalities including the use of medication to treat pain with oral opioids and drugs delivered by intrathecal infusion pain pumps. Pain management physicians have been under attack by regulators and law enforcement in California and, consequently, there are few pain providers left. Pain patients are vulnerable and the loss of another provider, particularly one of the largest pain providers in Southern California, would be devastating.

On April 27, 2018, the Medical Board filed an Accusation against Dr. Smith's medical license. On February 13, 2019, the Medical Board filed an Amended Accusation. On June 25, 2020, an ALJ ("ALJ"), issued a Proposed Decision and recommended discipline. On July 24, 2020, the Medical Board notified Dr. Smith that it was considering the proposed decision. On August 25, 2020, the Medical Board adopted the proposed decision ("Decision").

Dr. Smith filed a Petition for Reconsideration and, on September 22, 2020, the Medical Board granted his request for a stay. The Board extended that stay by order issued on October 1, 2020. On October 15, 2020, the Petition for Reconsideration was denied by operation of law.

Dr. Smith timely filed a Petition for Writ of Mandate in the Los Angeles County Superior Court, challenging the Medical Board's Decision. As evidenced in the enclosed Memorandum filed by him in that case, there are serious legal issues that appear likely to result in his discipline being overturned.

In the meantime, Dr. Smith has been fully compliant with the terms of his discipline. That has included substantial education, evaluation and supervision. *One of the terms of his discipline limited Dr. Smith's ability to prescribe and to treat patients with intrathecal pumps. Those restrictions have been fully lifted. He is permitted to prescribe, dispense, administer, furnish and possess Schedule II, III, and IV drugs and his license is active with no material restrictions.*

If you have any questions, please let me know.

Very truly yours,

"(b) Any device that bears the statement: 'Caution: federal law restricts this device to sale by or on the order of a _____,' 'Rx only,' or words of similar import, the blank to be filled in with the designation of the practitioner licensed to use or order use of the device.

"(c) Any other drug or device that by federal or state law can be lawfully dispensed only on prescription or furnished pursuant to Section 4006."

FIRST CAUSE FOR DISCIPLINE

(Gross Negligence)

10. Respondent has subjected his Physician's and Surgeon's Certificate No. G66777 to disciplinary action under sections 2227 and 2234, as defined in section 2234, subdivision (b), of the Code, in that Respondent committed gross negligence in his care and treatment of patients A, B, C, and D,[1] as more particularly alleged hereinafter:

11. **Patient A**

(a) Since at least 2010, Patient A treated with Respondent for pain management due to chronic pain in her back, leg, knee, and shoulder.[2] In or around that time, Patient A already had an intrathecal pump[3] implanted. In or around 2012 and 2013, Respondent implanted multiple new intrathecal pumps in Patient A due to various medical issues.

////

[1] Letters A, B, C, and D are used for the purposes of maintaining patient confidentiality.

[2] Conduct occurring more than seven (7) years from the filing date of the initially filed Accusation (April 27, 2018) involving Patient A is for informational purposes only and is not alleged as a basis for disciplinary action.

[3] An intrathecal pump is a medical device used to deliver medication directly into the space between the spinal cord and the protective sheath surrounding the spinal cord for targeted drug delivery. An intrathecal pump delivers medicine directly into the Cerebrospinal fluid and requires a significantly smaller amount of medication compared to systemically taken (orally) medication due to bypassing the systemic path that oral medication must travel in the body. An intrathecal pump is programmable and it stores the information about medication in its memory. An intrathecal pump is programmed to slowly release medication over a period of time and can be programmed to release different amounts of medication at different times of the day. When the intrathecal pump's reservoir is empty, the medication is refilled by insertion of a needle through the skin and into the fill port on top of the pump's reservoir.

(b) From in or around 2011 to in or around 2017, Respondent managed Patient A's pain medication through intrathecal drug therapy and high dose systemic (oral) opioid drug therapy. During this same time frame, Respondent routinely filled Patient A's intrathecal pump with massive doses of controlled pain medication and routinely prescribed excessive doses of oral opioids and other controlled substances. Significantly, the potent and highly addictive medications from the combined drug therapies (intrathecal and systemic/oral) were being taken by Patient A at the same time, as prescribed by Respondent. In fact, Respondent, notwithstanding Patient A's intrathecal drug therapy, routinely prescribed excessive amounts of oral opioid medication that often exceeded well more than three hundred (300) morphine milligram equivalents (MME) in a day. Respondent prescribed these massive oral doses of opioids to Patient A on multiple dates including, but not limited to, October 2, 2017; July 25, 2016; September 4, 2013; and November 7, 2012.

(c) On or about October 2, 2012, Respondent replaced Patient A's existing intrathecal pump with a newer model.[4]

(d) On or about October 9, 2012, Respondent filled Patient A's newly installed pump with medication but failed to clearly and accurately document the concentration of initial medication that was used to fill the pump. According to the chart note for this outpatient visit, Respondent initiated the pump's medication with an extremely high amount of fentanyl.[5] Patient A's initiating fentanyl dose was documented at a concentration of 25 milligrams (mg) per milliliter (mL), with a

starting dose of 2.499 mg of fentanyl per day. The chart note for this visit also documented filling the pump with Marcaine 5 mg/mL. The chart note further documented that Patient A was continuing to orally take Methadone[6] and Roxicodone[7] for pain. Respondent, notwithstanding the amount of controlled pain medications Patient A was getting through combined intrathecal and systemic drug therapies, also gave verbal orders for an intramuscular injection of Dilaudid[8] 4 mg for Patient A at this visit. Significantly, there was no observation period of Patient A following the pump's medication refill at this visit.

(e) Following a pump pocket fill of Patient A's intrathecal pump, Respondent sent her home after only one dose of Naloxone.[9] Significantly, Respondent failed to observe Patient A after this single dose and evaluate potential side-effects including, but not limited to, opioid over-dosage.

(f) In or around June 2015, Patient A was admitted for a prolonged admission to a hospital at the University of California San Diego (UCSD). During her admission, Patient A's intrathecal pump had to be filled with medication. A UCSD physician treating Patient A identified that the concentration of medication in her pump was "extremely high" and that the pump's internal computer listed the concentration of drugs in "milligrams," and not micrograms (mcg), even though mcg is the standard measurement of concentration of medication used in an intrathecal pump. Respondent personally verified the accuracy of the listed

concentrations and infusion doses directly to the UCSD physician. A "formula sheet" containing a list of medication concentration was also faxed from Respondent's clinic to UCSD to again verify concentrations and dosages that the Respondent fills in Patient A's pump. The "formula sheet" clearly indicated that major discrepancies existed between its listed concentrations and dosages and the final concentrations actually contained in Patient A's pump.

(g) Respondent routinely issued prescriptions to Patient A for the concomitant use of addictive controlled pain medications including, but not limited to, MS Contin,[10] Roxicodone, benzodiazepines,[11] Soma,[12] and phentermine.[13] Prescriptions for this dangerous drug combination were issued to Patient A on multiple dates including, but not limited to, January 23, 2017; February 21, 2017; March 6, 2017; April 28, 2017; June 1, 2017; August 7, 2017; and October 2, 2017. Respondent failed to document his clinical judgment behind prescribing a controlled medication combination with potentially lethal consequences, which occurred every time he prescribed the concomitant use of these drugs to Patient A.

[11] Benzodiazepines are Schedule IV controlled substances pursuant to Health and Safety Code section 11057, subdivision (d), and are a dangerous drug pursuant to Business and Professions Code section 4022. Concomitant use of benzodiazepines with opioids may result in profound sedation, respiratory depression, coma, and/or death. The DEA has identified benzodiazepines as a drug of abuse. [13] Phentermine is a Schedule IV controlled substance pursuant to Health and Safety Code section 11057, subdivision (f), and a dangerous drug pursuant to Business and Professions Code section 4022. The DEA has identified phentermine as a drug of abuse. (Drugs of Abuse, DEA Resource Guide (2017 Edition), at p. 50.)

(h) From in or around 2011 to in or around 2017, Respondent, notwithstanding his knowledge of Patient A's documented history of drug and alcohol abuse and "drug seeking" behavior, continued to prescribe massive amounts of addictive controlled pain medication even after inconsistencies were discovered in her urine drug screens and Controlled Substance Utilization Review and Evaluation System[14] (CURES) reports indicating she had received controlled prescriptions from other physicians. The chart notes during this time frame fail to adequately document any discussion with Patient A about the reasons and/or explanations for these inconsistencies.

12. Respondent committed gross negligence in his care and treatment of patient A including, but not limited to, the following:

(a) Respondent, after initiation of intrathecal drug therapy, failed to reduce and/or eliminate Patient A's continued use of systemic opioid drug therapy;

(b) On or about October 9, 2012, Respondent initiated an excessive dose of fentanyl at an intended concentration of 25 mg/mL and a starting dose of 2.499 mg per day, in Patient A's intrathecal pump;

(c) On or about October 9, 2012, Respondent failed to initiate intrathecal therapy in an inpatient setting to observe whether Patient A had a safe response to the medication;

[14] The Controlled Substance Utilization Review and Evaluation System (CURES) is a program operated by the California Department of Justice (DOJ) to assist health care practitioners in their efforts to ensure appropriate prescribing of controlled substances, and law enforcement and regulatory agencies in their efforts to control diversion and abuse of controlled substances. (Health & Saf. Code, § 11165.) California law requires dispensing pharmacies to report to the DOJ the dispensing of Schedule II, III, and IV controlled substances as soon as reasonably possible after the prescriptions are filled. (Health & Saf. Code, § 11165, subd. (d).) It is important to note that the history of controlled substances dispensed to a specific patient based on the data contained in CURES is available to a health care practitioner who is treating that patient. (Health & Saf. Code, § 11165.1, subd. (a).)

(d) On or about October 9, 2012, Respondent failed to initiate intrathecal therapy in an outpatient setting to observe whether Patient A had a safe response to the medication;

(e) On or about October 9, 2012, Respondent gave verbal orders for an intramuscular injection of Dilaudid 4 mg for Patient A despite the amount of controlled pain medications Patient A was already receiving through combined intrathecal drug therapy and systemic drug therapy;

(f) Respondent performed a pump pocket fill of Patient A's intrathecal pump, and, after administering a single dose of Naloxone, he failed to observe and evaluate the patient for potential side-effects of opioid over-dosage;

(g) Respondent failed to maintain adequate and accurate records by failing to accurately record information about medication used in Patient A's intrathecal pump, including, but not limited to, starting concentration of medication, final concentration of medication, starting and final concentration of medication after other medication was added, drug calculations, and other reported values of concentration and doses;

(h) Respondent failed to properly program medication information into Patient A's intrathecal pump, including, but not limited to, starting concentration of medication, final concentration of medication, starting and final concentration of medication after other medication was added; and other reported values of concentration and doses;

(i) Respondent repeatedly and clearly excessively prescribed, furnished, dispensed, and/or administered opioids to patient A;

(j) Respondent routinely prescribed dangerous drug combinations and doses to Patient A including, but not limited to, MS Contin, Roxicodone, benzodiazepines, Soma, and phentermine;

////

(k) Respondent failed to document his clinical judgment behind prescribing a controlled medication combination for concomitant use by Patient A with potentially lethal consequences; and

(l) Respondent, with knowledge of Patient A's documented drug seeking behavior, failed to provide appropriate treatment in that he, among other things, repeatedly prescribed excessive amounts of addictive pain medication to Patient A over an extended period of time, while failing to respond to objective signs of aberrant drug behavior.

13. **Patient B**

(a) Between in or around 2004 and in or around November 2013, Patient B treated with Respondent for pain management due to a number of medical issues including, degenerative disc disease and chronic low back pain.[15] On or about April 19, 2015, Patient B died of a drug overdose. The medical examiner's autopsy report determined his cause of death was from "mixed medication intoxication (fentanyl, oxycodone, oxymorphone, and diazepam)."

(b) Between in or around 2011 and in or around 2013, Respondent prescribed Patient B escalating doses of opioids in combination with other controlled drugs, including, but not limited to, benzodiazepines, antidepressants, muscle relaxants, and testosterone. In fact, Respondent prescribed excessive amounts of opioids including, but not limited to, on or about October 1, 2013, issuing a prescription for Roxicodone (30mg) (#140) amounting to approximately ten (10) tablets daily. Significantly, this prescription alone equaled an incredibly high four hundred fifty (450) MME.

(c) From in or around 2011 to in or around 2013, Respondent, notwithstanding his knowledge of Patient B's documented history of opioid

[15] Conduct occurring more than seven (7) years from the filing date of the initially filed Accusation (April 27, 2018) involving Patient B is for informational purposes only and is not alleged as a basis for disciplinary action.

dependence, alcohol and drug abuse, depression, and other aberrant drug behaviors, continued prescribing large amounts of addictive medication even after numerous inconsistencies were discovered in Patient B's urine drug screens and CURES reports, including, but not limited to, June 23, 2011 (inconsistent for Vicodin and Valium); March 14, 2013 (misused prescription); April 16, 2013 (misused prescription); and August 14, 2013 (+cocaine). The chart notes during this time frame fail to adequately document any discussion with Patient B about the reasons and/or explanations for these inconsistencies. Although Patient B's medications were discontinued on occasion due to non-compliance, the prescriptions were later continued with similar dosing strength and frequency. Significantly, Respondent failed to document any discussion with Patient B regarding a referral to addictionology or a rehabilitation facility despite multiple "red flags" involving drug abuse and depression.

(d) In a chart note dated November 29, 2012, it was documented that Patient B requested a different dosage of medication in order to help with his depression. At the next charted visit, on or about January 15, 2013, there is no documentation of a follow up on Patient B's request for a different dosage. However, it is documented that he has been experiencing increased anxiety but with no further comment or follow up charted in the note.

(e) There are missing chart notes for July, August, and September 2013. However, Patient B filled controlled prescriptions issued by Respondent during this time frame. In addition, there are chart notes documenting conflicting information regarding what medication was being prescribed and taken.

14. Respondent committed gross negligence in his care and treatment of Patient B including, but not limited to, the following:

(a) Respondent prescribed excessive amounts of opioids including, but not limited to, on or about October 1, 2013, issuing a prescription for Roxicodone (30mg) (#140) amounting to approximately ten (10) tablets daily;

(b) Respondent failed to effectively monitor and manage Patient B's drug use by continuing to prescribe addictive controlled medication after years of inconsistent drug tests, positive test result for cocaine, and/or repeated misuse of controlled prescriptions;

(c) Respondent failed to refer Patient B to addictionology or rehabilitation facility after repeated "red flags" of aberrant drug behavior;

(d) There are missing chart notes for July, August, and September 2013; and

(e) There are multiple inaccurate chart notes documenting conflicting information regarding what medication was being prescribed and taken.

15. **Patient C**

(a) Between in or around 2008 and in or around 2012, Patient C treated with Respondent for pain management due to chronic pain from a work related injury.[16] On or about July 22, 2012, Patient C died of a drug overdose. The medical examiner's autopsy report determined her cause of death was from "acute oxycodone, carisoprodol, and diazepam intoxication."

(b) Between in or around 2011 and in or around 2012, Respondent managed Patient C on many different medication classes for her drug therapy including, but not limited to, opioids (long acting and short acting), multiple benzodiazepines, neuropathic pain medication, multiple muscle relaxants at same time, and antiemetics. In fact, Respondent prescribed an excessive number of drugs that performed same or similar mechanisms of action to treat Patient C.

(c) Patient C's medical charts failed to include a review of systems, failed to consistently include a well-defined chief complaint, and failed to accurately record information regarding prescribed medication. In addition, there were no

CURES reports contained in Patient C's medical records nor any mention in her charts of checking CURES for patient compliance.

16. Respondent committed gross negligence in his care and treatment of Patient C including, but not limited to, the following:

(a) Respondent prescribed an excessive number of controlled drugs, including, but not limited to, opioids (long acting and short acting), benzodiazepines, muscle relaxers, and antiemetics to treat Patient C.

17. **Patient D**

(a) Between in or around December 2011, and in or around July 2012, Patient D treated with Respondent for pain management due to chronic pain.[17] On or about August 1, 2012, Patient D died of a drug overdose. The medical examiner's autopsy report determined her cause of death was from "acute tapentadol, fentanyl, and alprazolam intoxication."

(b) During the time that Patient D was under the care of Respondent, she was morbidly obese; she had a long history of poor pulmonary function and pulmonary disease; and she had a documented history of opioid dependence. Significantly, she had a long and documented history of multiple Emergency Department and hospital admissions for various medical conditions, including hospitalizations due to opioid induced respiratory depression.[18]

(c) On or about November 23, 2011, Patient D visited an Emergency Department and had requested a medication refill because her pain management doctor was "out of town." The medical record of that visit documented that Patient D's pain management doctor at the time, Dr. A.S., was contacted and that she had contradicted the patient's account regarding lack of medication.

---

[17] Conduct occurring more than seven (7) years from the filing date of the First Amended Accusation involving Patient D is for informational purposes only and is not alleged as a basis for disciplinary action.

[18] In 2011 and 2012, Patient D had multiple admissions to Emergency Departments and hospitals.

Furthermore, Dr. A.S. advised Emergency Department staff that she had been having difficulty with managing Patient D's pain due to the patient's "concomitant illicit drug use." Patient D was denied opioid medication from Emergency Department medical staff that day. Three days later, Patient D returned to the same Emergency Department and requested to be admitted for drug detoxification.

(d) On or about December 23, 2011, Respondent had his initial examination with Patient D. In the chart note for this visit, Respondent documented that "[Patient D] had leftover methadone from a *few years* ago and began taking due to the fact she was out of Oxy IR ... [Patient D] states she last took methadone this morning."

(e) Between in or around December 2011 and in or around July 2012, Respondent managed Patient D on many different medication classes for her drug therapy including, but not limited to, opioids, benzodiazepines, muscle relaxants, and anti-seizure medication at the same time.

(f) Significantly, Patient D's medical charts from Respondent's clinic do not contain any information about her vitals being taken at each clinical visit. In addition, the charts also do not include a review of systems and/or a well-defined chief complaint. Furthermore, the charts do not accurately record information regarding Patient D's past and then-currently prescribed controlled medication. Finally, Respondent prescribed Patient D large amounts of opioids without adequately documenting her past hospitalizations involving poor pulmonary function and pulmonary disease.

(g) In a chart note dated July 26, 2012, Respondent documented that Patient D had wanted to switch pain medications, namely, replace Dilaudid with Nucynta,[19] because she had reported that Nucynta was more effective for her pain

[19] Nucynta is a brand name for tapentadol, a Schedule II controlled substance pursuant to Health and Safety Code section 11055, subdivision (b), and a dangerous drug pursuant to Business and Professions Code section 4022.

control. Respondent, notwithstanding Patient D's current dosages of the transdermal Fentanyl patch[20] along with other opioids, issued her a prescription for Nucynta (100mg) (#228).[21] The Nucynta prescription alone resulted in an increase of more than one hundred fifty (150) MME being taken by Patient D at that time.[22]

18. Respondent committed gross negligence in his care and treatment of Patient D including, but not limited to, the following:

(a) On or about July 26, 2012, Respondent prescribed an excessive amount of opioids when he issued Patient D a prescription for Nucynta (100mg) (#228); and

(b) Respondent failed to accurately record critical information in Patient D's medical record, including, but not limited to, failed to have vital signs taken and/or documented at each visit; failed to accurately record information regarding Patient D's past and then-currently prescribed controlled medication; and failed to document a review of systems and/or a well-defined chief complaint.

SECOND CAUSE FOR DISCIPLINE

(Repeated Negligent Acts)

19. Respondent has further subjected his Physician's and Surgeon's Certificate No. G66777 to disciplinary action under sections 2227 and 2234, as defined in section 2234, subdivision (c), of the Code, in that Respondent committed repeated negligent acts in his care and treatment of patients A, B, C, D, and E,[23] as more particularly alleged hereinafter:

[20] Transdermal fentanyl (Duragesic) patches are applied to the skin; used to relieve severe pain, the patch is usually applied to the skin once every 72 hours. Fentanyl patches may cause serious or life-threatening breathing problems. Taking certain medications (e.g., benzodiazepines and muscle relaxants) with fentanyl may increase the risk of serious or life-threatening breathing problems, sedation, or coma.

[21] Patient D's prescribed regimen of opioids represented a total of three hundred ninety-five (395) MME.

[22] Patient D had recently filled prescriptions for Dilaudid (Hydromorphone HCL) on July 10, 2012 (4mg) (#180), and on June 13, 2012 (4mg) (#180).

[23] Letter E is used for the purposes of maintaining patient confidentiality.

(a) Paragraphs 11 and 12, above, are hereby incorporated by reference and realleged as if fully set forth herein.

21. **Patient B**

(a) Paragraphs 13 and 14, above, are hereby incorporated by reference and realleged as if fully set forth herein.

22. **Patient C**

(a) Paragraphs 15 and 16, above, are hereby incorporated by reference and realleged as if fully set forth herein;

(b) There are no CURES reports in Patient C's medical records nor any mention of checking CURES for patient compliance;

(c) In 2012, Respondent prescribed two (2) muscle relaxants at same time to Patient C; and

(d) Patient C's medical charts failed to include a review of systems; failed to consistently include a well-defined chief complaint; and failed to accurately record information regarding prescribed medication.

23. **Patient D**

(a) Paragraphs 17 and 18, above, are hereby incorporated by reference and realleged as if fully set forth herein; and

(b) Patient D's medical charts failed to include and/or document any information regarding Patient D's past multiple hospitalizations.

24. **Patient E**

(a) Between in or around April 2013, and in or around October 2013, Patient E treated with Respondent for pain management due to low back pain.[24] On or about December 15, 2013, Patient E died of a drug overdose. The medical

examiner's autopsy report determined his cause of death was from "acute bronchopneumonia; contributing: chronic prescription medication abuse with acute oxycodone and alcohol intoxication; pulmonary emphysema; hepatic cirrhosis."

(b) Between in or around April 2013, and in or around October 2013, Respondent managed Patient E on high dosages of opioids and benzodiazepines at the same time.

(c) In a chart note dated June 26, 2013, it was documented that a prescription was issued to Patient E to obtain a urine drug screen (UDS). The results of the UDS later indicated that Patient E was "negative" for benzodiazepines, despite being prescribed that drug by Respondent. However, Respondent never required Patient E to get another UDS and/or other confirmatory screen to confirm that he was taking the controlled medications being prescribed to him. Instead, Respondent continued to issue prescriptions for controlled pain medication to Patient E without documenting in the medical record any information and/or discussion with Patient E about the inconsistent UDS results.

(d) Patient E had a history of illicit drug use. However, Respondent never discussed and/or documented any discussion with Patient E in the medical record about any past history of illicit drug use.

25. Respondent committed repeated negligent acts in his care and treatment of Patient E including, but not limited to, the following:

(a) Respondent failed to require Patient E to get another UDS and/or other confirmatory screen to confirm that he was taking the controlled medications that Respondent had been prescribing to him; and

(b) Respondent failed to document in the medical record any discussion with Patient E about any past history of illicit drug use.

26. Respondent has further subjected his Physician's and Surgeon's Certificate No. G66777 to disciplinary action under sections 2227 and 2234, as defined in section 2234, subdivision (d), of the Code, in that Respondent demonstrated incompetence in his care and treatment of patient A, as more particularly alleged hereinafter:

This matter came before the Nevada State Board of Pharmacy ("Board") at its regularly scheduled meeting on Wednesday, July 14, 2021, in Reno, Nevada. Courtney K. Lee, Esq., appeared and prosecuted the case before the Board. Respondents Direct Compounding and Outsourcing, LLC ("Direct"), Pharmacy License No. PHC04006, and Scot Silber, RPh ("Silber"), Certificate of Registration No. 08362, appeared through counsel James Boyle, Esq. from the law firm Holley Driggs, Respondent Michael Thomas, PT ("Thomas"), Certificate of Registration No. PT05905, appeared without counsel *in proper person*, and Respondent Krystal Hernandez, PT ("Hernandez"), Certificate of Registration No. PT10671, appeared without counsel *in proper person*. Upon hearing the case, and based upon the evidence presented, the Board determines the following Findings of Fact, Conclusions of Law, and Order.

FINDINGS OF FACT

The allegations against Respondents, as stated in the Amended Notice of Intended Action and Accusation ("Amended Accusation") on file herein, and upon which the Board determines findings of fact, are as follows:

1. The Board has jurisdiction over all Respondents because at the time of the events alleged herein, Respondent Direct held a Nevada Pharmacy License No. PHC04006; Respondent Silber held a Nevada Pharmacist Certificate of Registration No. 08362; Respondent Thomas held a Nevada Pharmaceutical Technician Registration No. PT05905; and Respondent Hernandez held a Nevada Pharmaceutical Technician Registration No. PT10671, all issued by the Board.

2. In April 2004, the Board entered an Order in *Board of Pharmacy v. Respondent Scot M. Silber, R.Ph., Case No. 03-016-RPH-S,* for violations resulting in the mislabeling of dosage directions on a prescription label for Roxanol Liquid, a Schedule II opioid analgesic. The patient ingested an unknown quantity of the medication and was subsequently hospitalized. The Board ordered Silber to pay a fine of $500.00.

3. In October 2012, the Board entered a Stipulation and Order in *Board of Pharmacy v. Respondent Scot M. Silber, R.Ph., Case No. 11-090-RPH-S,* for violations resulting in a dispensing error. Silber misread a prescription and compounded 20 mg/cc morphine sulfate with ***2,500 mcg/cc baclofen*** rather than the 20 mg/cc morphine sulfate with ***250.0 mcg/cc baclofen*** as prescribed. The compound was administered to the patient who was subsequently hospitalized for baclofen toxicity. The Board placed Silber on probation for two years and imposed a $2,500 fine.

4. Respondent Direct, which is located in Henderson, Nevada, terminated former managing pharmacist T.B. on April 4, 2019. Direct did not timely notify the Board about the change in managing pharmacist.

5. Respondent Silber was hired as the managing pharmacist of Direct beginning on or about April 22, 2019. However, on or about April 18, 2019, Respondent Silber supervised and signed off as the pharmacist for Respondent Direct on one 100 batch yield of Oxandrolone 25 mg capsule, and one 30 batch yield of Testosterone Cypionate (6 ml vial) 200 mg/ml injectable.

6. Respondents Thomas and Hernandez were employed by Direct during the times alleged.

Please note that the settlement of a medical malpractice action may occur for a variety of reasons that do not necessarily reflect negatively on the professional competence or conduct of the provider. Therefore, there may be no disciplinary action appearing for a licensee even though there is a closed malpractice claim on file. A payment in the settlement of medical malpractice does not create a presumption that medical malpractice occurred. Sometimes insurance companies settle a case without the knowledge and/or agreement of the physician. This database represents information from insurers to date. BEFORE THE ARIZONA MEDICAL BOARD

In the Matter of **SHERMAN WASHINGTON, JR., M.D.** Holder of License No. 48291 For the Practice of Allopathic Medicine In the State of Arizona.	**Case No. MD-19-1137A** **ORDER FOR LETTER OF REPRIMAND AND PROBATION; AND CONSENT TO THE SAME**

Sherman Washington, Jr., M.D. ("Respondent") elects to permanently waive any right to a hearing and appeal with respect to this Order for Letter of Reprimand and Probation; admits the jurisdiction of the Arizona Medical Board ("Board"); and consents to the entry of this Order by the Board.

FINDINGS OF FACT

1. The Board is the duly constituted authority for the regulation and control of the practice of allopathic medicine in the State of Arizona.

2. Respondent is the holder of license number 48291 for the practice of allopathic medicine in the State of Arizona.

3. The Board initiated case number MD-19-1137A after receiving notification of a disciplinary action alert ("DAR") that the Virginia Board of Medicine ("Virginia Board") had reprimanded Respondent's Virginia medical license.

4. Effective November 14, 2019 Respondent entered into a Consent Order with the Virginia Board that issued Respondent's Virginia medical license a Reprimand and Monetary Penalty of $1500.00. The Virginia Board found that Respondent issued Schedule IV medications to six patients without a properly established physician-patient relationship. Additionally, the Virginia Board found that Respondent willfully refused to provide records for the six patients at issue despite repeated requests by Virginia Board staff. On January 15, 2020 the Virginia Board issued Respondent a letter of compliance and closed the case.

5. On November 22, 2019 the North Dakota Board of Medicine ("North Dakota Board") issued an Order pursuant to a Stipulation that required Respondent to complete an intensive, in-person medical recordkeeping course. The North Dakota Board found that a patient received medication in the mail from a compounding pharmacy in Texas that had been prescribed by Respondent. The patient did not have a prior physician-patient relationship with Respondent and had never met or spoken to prior to receiving the medication. Respondent failed to respond to the North Dakota Board's request for the patient's medical records.

6. On January 28, 2020 The Washington Medical Commission ("Washington Board") entered Findings of Fact, Conclusions of Law and Final Order of Default against Respondent's Washington medical license after Respondent failed to respond to an investigation into Respondent's prescribing practices ("Default Order").

7. On February 14, 2020 the Virginia Board issued an Order of Mandatory Suspension on Respondent's Virginia medical license based on the Washington Board's Default Order.

8. On March 6, 2020, The Colorado Medical Board ("Colorado Board") issued Respondent's Colorado medical license a Letter of Admonition based on the Virginia and North Dakota Board actions.

9. On March 16, 2020, The Pennsylvania State Board of Medicine ("Pennsylvania Board") issued an order reprimanding Respondent's expired Pennsylvania medical license based on the Virginia Board's action.

10. On July 16, 2020, the Washington Board entered into a Stipulation to Informal Discipline with Respondent to resolve the investigation ("Washington Stipulation"). The Washington Stipulation described allegations that Respondent prescribed medication to at least six patients without examining the patients or otherwise establishing a proper

physician-patient relationship. The Washington Stipulation required Respondent to complete terms and conditions including Continuing Medical Education ("CME") in ethics and submission of a remedial essay on issues relevant to the investigation.

11. On December 30, 2020 the Florida Board of Medicine ("Florida Board") issued a Final Order suspending Respondent's Florida medical license and requiring payment of an administrative fine. The Florida Board's Final Order arose out of a reciprocal investigation regarding the Washington Board's action, and Respondent's failure to report the Washington Board's Default Order indefinitely suspending his Washington medical license.

CONCLUSIONS OF LAW

a. The Board possesses jurisdiction over the subject matter hereof and over Respondent.

b. The conduct and circumstances described above constitute unprofessional conduct pursuant to A.R.S. § 32-1401(27)(p) ("Action that is taken against a doctor of medicine by another licensing or regulatory jurisdiction due to that doctor's mental or physical inability to engage safely in the practice of medicine, the doctor's medical incompetence or for unprofessional conduct as defined by that jurisdiction and that corresponds directly or indirectly to an act of unprofessional conduct prescribed by this paragraph. The action taken may include refusing, denying, revoking or suspending a license by that jurisdiction or a surrendering of a license to that jurisdiction, otherwise limiting, restricting or monitoring a licensee by that jurisdiction or placing a licensee on probation by that jurisdiction.").

ORDER

IT IS HEREBY ORDERED THAT:

1. Respondent is issued a Letter of Reprimand.

2. Respondent is placed on Probation for a period of six months with the following terms and conditions:

a. PBI Ethics Course

Respondent shall within 6 months of the effective date of this Order, complete the Medical Ethics and Professionals Course (ME-15) course offered by Professional Boundaries, Inc. ("PBI"). Respondent shall within thirty days of the effective date of this Order submit satisfactory proof of enrollment with Board staff. Upon completion of the CME, Respondent shall provide Board staff with satisfactory proof of attendance. Respondent shall sign any and all consents or releases necessary to allow for PBI to communicate to the Board directly and furnish PBI's "AIR" Letter after completion of the required CME. The CME hours shall be in addition to the hours required for the biennial renewal of medical licensure. Respondent shall not revoke any release prior to successful completion of the CME and maintenance and accountability seminars.

b. Obey All Laws

Respondent shall obey all state, federal and local laws, all rules governing the practice of medicine in Arizona, and remain in full compliance with any court ordered criminal probation, payments and other orders.

c. Probation Termination

Prior to the termination of Probation, Respondent must submit a written request to the Board for release from the terms of this Order. Respondent's request for release will be placed on the next pending Board agenda, provided a complete submission is received by Board staff no less than 30 days prior to the Board meeting. Respondent's request for release must provide the Board with evidence establishing that he has successfully satisfied all of the terms and conditions of this Order. The Board has the sole discretion to

determine whether all of the terms and conditions of this Order have been met or whether to take any other action that is consistent with its statutory and regulatory authority.

3. The Board retains jurisdiction and may initiate new action against Respondent based upon any violation of this Order. A.R.S. § 32-1401(27)(s)

DATED AND EFFECTIVE this 24th day of August, 2021.

Re: License Number: DR. 0054185
Case Number: 2019-8449-B

Dear Dr. Washington,

The Colorado Medical Board has concluded its inquiry into the aforementioned matter. It was the Panel's decision not to commence with formal proceedings against your professional license. However, the Panel did determine disciplinary action in the form of this letter of admonition is warranted.

As you recall, in October 2019, you entered into a stipulation with the North Dakota Medical Board regarding your license to practice medicine. In the stipulation, you admitted to prescribing medications to an individual with whom you did not have a physician-patient relationship and failing to maintain medical records. The North Dakota Medical Board required you to take a medical recordkeeping course. In November 2019, you entered into a consent order with the Virginia Board of Medicine in which you were reprimanded and assessed a fine. The consent order was based on your prescribing of Schedule VI medications outside the context of a physician-patient relationship.

After a review of all the information in this matter, the Panel found that you are prescribing to individuals without establishing a physician-patient relationship fell below generally accepted standards of medical practice and resulted in discipline in two other states, constituting unprofessional conduct in violation of section 12-240-121 of the Colorado Revised Statutes.

By this letter, the Board takes the formal disciplinary action of admonishing you for the conduct specified above, and warns you that repetition of such practice may lead to imposition of more severe disciplinary action. This letter is an open public record and a reportable action to individuals or entities requesting disciplinary information. The Board strongly encourages you to review and understand the Medical Practice Act requirements and obligations for the practice of medicine in Colorado.

In accordance with 12-20-404(4)(b), the Board advises you that you have the right to make a written request that the Board initiate formal disciplinary proceedings in order to adjudicate the conduct or acts upon which this letter is based. You must make your written request within twenty (20) days after receipt of this letter and address your request to Paula Martinez, Program Director, at the email address listed below. If you make a timely request, the Board will deem this letter of admonition vacated and may proceed with disciplinary and/or injunctive proceedings in accordance with 12-20-404(4)(b)(II), C.R.S., and applicable rules.

A Letter of Admonition, when accepted, becomes a permanent, public portion of your record. It is not, however, a restriction on your practice as a professional physician.

In the Matter of Charges and Complaint Against: **SHERMAN WASHINGTON, M.D., Respondent.**	**Case No. 21-41427-1**

NEVADA STATE BOARD OF MEDICAL EXAMINERS
By:

COMPLAINT

The Investigative Committee[1] (IC) of the Nevada State Board of Medical Examiners (Board), by and through Aaron Bart Fricke, J.D., General Counsel and attorney for the IC, having a reasonable basis to believe that Sherman Washington, M.D., (Respondent) violated the provisions of Nevada Revised Statutes (NRS) Chapter 630 and Nevada Administrative Code (NAC) Chapter 630 (collectively, the Medical Practice Act), hereby issues its Complaint, stating the IC's charges and allegations as follows:

1. Respondent was at all times relevant to this Complaint a medical doctor holding an active license to practice medicine in the State of Nevada (License No. 15168). Respondent was originally licensed by the Board on February 7, 2014.

I. STATEMENT OF LAW

A. "Medical Directors," Medical Assistants, and the Unlicensed Practice of Medicine

2. NRS 630.305(1)(e) provides that aiding, assisting, employing or advising, directly or indirectly, any unlicensed person to engage in the practice of medicine, contrary to the provisions of NRS Chapter 630 or the regulations of the Board, is grounds for disciplinary action or denying licensure.

[1] The Investigative Committee of the Nevada State Board of Medical Examiners, at the time this formal Complaint was authorized for filing, was composed of Board Members Victor M. Muro, M.D., Chair, Weldon Havins, M.D., J.D., and Ms. Maggie Arias-Petrel.

3. Pursuant to NRS 630.020(1)-(4), the "Practice of medicine" means:

> 1. To diagnose, treat, correct, prevent or prescribe for any human disease, ailment, injury, infirmity, deformity or other condition, physical or mental, by any means or instrumentality, including, but not limited to, the performance of an autopsy.
>
> 2. To apply principles or techniques of medical science in the diagnosis or the prevention of any such conditions.
>
> 3. To perform any of the acts described in subsections 1 and 2 by using equipment that transfers information concerning the medical condition of the patient electronically, telephonically or by fiber optics, including, without limitation, through telehealth, from within or outside this State or the United States.
>
> 4. To offer, undertake, attempt to do or hold oneself out as able to do any of the acts described in subsections 1 and 2.

4. NRS 630.400(1)(d) provides that it is unlawful to practice medicine without being licensed under NRS Chapter 630.

5. Pursuant to NRS 630.400(2) and NRS 193.130(c) and (d), the unlawful practice of medicine is a felony, punishable by imprisonment in the state prison for a minimum term of not less than one (1) year and a maximum term of not more than five (5) years.

6. Pursuant to the Medical Practice Act, the only means by which a practitioner may lawfully aid, assist, employ or advise, directly or indirectly, an unlicensed person to engage in the practice of medicine, is by delegating specific tasks to an adequately supervised and trained "medical assistant."

7. Pursuant to NRS 630.0129, a "medical assistant" means a person who:

> (a) performs clinical tasks under the supervision of a practitioner, and
>
> (b) does not hold a license, certificate or registration issued by a professional licensing or regulatory board in this State to perform such clinical tasks; the term does not include a person who performs only administrative, clerical, executive or other nonclinical tasks.

8. Pursuant to NRS 630.306(1)(r), a practitioner must adequately supervise his or her medical assistants, and failing to do so is grounds for initiating disciplinary action or denying licensure.

9. Pursuant to NAC 630.830, a delegating practitioner is professionally responsible for the safety and performance of each task which is delegated to a medical assistant. Pursuant to NAC 630.810, a delegating practitioner may not delegate tasks to a medical assistant unless: (a) the

delegating practitioner knows that the medical assistant possesses the knowledge, skill and training to perform the task safely and properly; (b) the medical assistant is not required to be certified or licensed to perform that task; and (c) the medical assistant is employed by the delegating practitioner or the medical assistant and the delegating practitioner are employed by the same employer.

10. Pursuant to NAC 630.830(4), a delegating practitioner shall not delegate or otherwise allow a medical assistant to administer an anesthetic agent which renders a patient unconscious or semiconscious.

11. Pursuant to NAC 630.820, a delegating practitioner may not remotely supervise a medical assistant, except in a specific case of emergency in a rural area.[2]

12. Except as otherwise provided in NAC 630.820, pursuant to NAC 630.810, if a medical assistant is delegated a task which involves an "invasive procedure," [3] the delegating practitioner must be immediately available to exercise oversight in-person while the medical assistant performs the task.

13. The term "medical director" is not recognized or defined under the Medical Practice Act, and no law authorizes a licensee of the Board to, by calling himself or herself a "medical director," violate or circumvent the aforementioned statutes and regulations of the Medical Practice Act.

14. Accordingly, pursuant to NRS 630.400(1)(d), 630.305(1)(e), and 630.0129, and NAC 630.800-830:

a. A practitioner who, whether by serving as a so-called "medical director" or by some other relationship or circumstance, aids, assists, employs or advises, directly or indirectly, any unlicensed person to engage in the practice of medicine, may lawfully do so only by delegating tasks

---

[2] Remote supervision of a medical assistant is prohibited unless: (a) the patient is located in a rural area; (b) the delegating practitioner is physically located a significant distance from the location where the task is to be performed; (c) the delegating practitioner determines that the exigent needs of the patient require immediate attention; (d) the patient and the delegating practitioner previously established a practitioner-patient relationship; and (e) the delegating practitioner is immediately available by telephone or other means of instant communication during the performance of the task by the medical assistant. As used in NAC 630.820, "rural area" means any area in this State other than Carson City or the City of Elko, Henderson, Reno, Sparks, Las Vegas or North Las Vegas.

[3] The Medical Practice Act does not define "invasive procedure," however, NAC 449.9733 pertaining to Medical Facilities defines "invasive procedure" as "a medical procedure involving entry into the human body by puncture or incision or by insertion of an instrument."

to an adequately supervised and properly trained medical assistant, who the delegating practitioner knows possesses the knowledge, skill and training to perform the task safely and properly, and the delegating practitioner is professionally responsible for the safety and performance of each task which is delegated to that medical assistant.

b. A practitioner who, whether by serving as a so-called "medical director" or by some other relationship or circumstance, aids, assists, employs or advises, directly or indirectly, any unlicensed person to engage in the practice of medicine, but who has not done so by delegating specific tasks to an adequately supervised and properly trained medical assistant, has violated NRS 630.305(1)(e), and is subject to discipline for aiding and abetting the unlicensed practice of medicine. In addition, the unlicensed person engaged in the practice of medicine has violated NRS 630.400(1)(d), by practicing medicine without a license.

c. A practitioner who delegates a medical task to a medical assistant, whether by serving as a so-called "medical director" or by some other relationship or circumstance, remains professionally responsible for, among other requirements, ensuring the following:

i. The safety and performance of each task delegated;

ii. The proper employment relationships between themselves and the medical assistant or their common employer;

iii. The medical assistant is sufficiently knowledgeable, trained and skilled to perform the tasks delegated to them;

iv. The medical assistant is adequately supervised, and the practitioner must be nearby to supervise the specific medical tasks delegated, and, if it is an invasive medical task, then the delegating practitioner must be immediately available to exercise oversight in-person while the medical assistant performs the task; and

v. The medical assistant does not administer an anesthetic agent which renders a patient unconscious or semiconscious.

d. A practitioner who delegates a medical task to a medical assistant, whether by serving as a so-called "medical director" or by some other relationship or circumstance, and who violates the aforementioned provisions of the NRS or NAC pertaining to medical assistants, and

who fails to adequately supervise that medical assistant as required under the circumstances, has violated NRS 630.306(1)(r), and is subject to discipline for failing to adequately supervise a medical assistant.

B. Cosmetologists, "Medical Spas" and "Medical Aestheticians," and the Unlicensed Practice of Medicine

15. Pursuant to NRS 644A.030 a licensed "cosmetologist" is not authorized by such license to practice medicine in any way. Rather, a licensed cosmetologist is authorized to perform only non-medical, cosmetology services, such as cleansing, stimulating or massaging the scalp or cleansing or beautifying the hair by the use of cosmetic preparations, antiseptics, tonics, lotions or creams, cutting, trimming or shaping the hair, removing hair by the use of depilatories, waxing, tweezing or sugaring, except for the permanent removal of hair with needles, manicuring nails, massaging the skin, giving facials, and other miscellaneous non-medical, cosmetological services.

16. Pursuant to NAC 644A.790 a cosmetologist is further explicitly prohibited from performing "invasive procedures," which mean, for the purposes of professional licensing of cosmetologists, "an act that affects the structure or function of the skin other than the uppermost layers of the skin," and which, for the sake of regulating the practice of cosmetologists, includes, without limitation, (a) the application of electricity for the sole purpose of contracting a muscle, (b) the application of a topical lotion, cream or other substance which affects anything other than the uppermost layers of the skin, (c) the penetration of the skin by needles, and (d) the abrasion of the skin below the uppermost layers of the skin.

17. Further, there is no such license as "medical aesthetician" or "medical cosmetologist" authorized by any Nevada law or issued by any Nevada sanctioned professional licensing body. On the contrary, NAC 644A.870 specifically prohibits cosmetologists and aestheticians from using the terms "expert," "advanced" or "medical" in connection with any description of their practice in any branch of cosmetology or otherwise holding the licensee out to the public as an expert, advanced or medical practitioner of any branch of cosmetology.

18. Accordingly, a Nevada licensed cosmetologist or aesthetician may not refer to himself or herself as a "medical cosmetologist" or "medical aesthetician" in connection with any

description of their practice, and may not, in fact, practice medicine in any way or perform invasive medical procedures or medical services of any kind, unless they do so as a "medical assistant" to a Nevada licensed medical professional, i.e., either as medical assistant to a Nevada licensed physician or physician assistant pursuant to NRS 630.0129, et. seq., and NAC 630.800-830, as described above, or similarly as another type of professional "assistant," "hygienist," "technician," or other such designation, who is delegated tasks by and under the direct supervision of a medical professional who is duly licensed pursuant to chapters 631 to 637, inclusive, 639 or 640 of NRS, and who remains professionally responsible for their conduct.

19. If a cosmetologist or aesthetician practices medicine in any way, unless he or she acts as a medical assistant and is delegated tasks and is properly supervised by a professional medical practitioner, then he or she is violating NRS 630.400(1)(d) by practicing medicine without a license.

C. Nevada Pharmacy Laws Regarding Controlled Substances, Dangerous Drugs and Hypodermic Devices

20. NRS 630.306(1)(b)(3) provides that engaging in conduct that violates a regulation adopted by the Nevada State Board of Pharmacy (Pharmacy Board) is grounds for initiating disciplinary action against a licensee.

21. Pursuant to NRS 630.3062(1)(h), fraudulent, illegal, unauthorized or otherwise inappropriate prescribing, administering or dispensing of a controlled substance listed in schedule II, III or IV is grounds for initiating disciplinary action or denying licensure.

22. Pursuant to 21 Code of Federal Regulations (CFR) §1306.04(a)-(b) and NRS 453.381, a physician or physician assistant may prescribe or administer controlled substances only for a legitimate medical purpose and in the usual course of his or her professional practice. The responsibility for the proper prescribing and dispensing of controlled substances is upon the prescribing practitioner, and a prescription may not be issued in order for an individual practitioner to obtain controlled substances for supplying the individual practitioner for the purpose of general dispensing to patients. *See* 21 CFR §1306.04(a)-(b).

///

23. Pursuant to NRS 454.201, a "dangerous drug" is any drug, other than a controlled substance, unsafe for self-medication or unsupervised use, and includes, among other things, (1) any drug which has been approved by the Food and Drug Administration for general distribution and bears the legend: "Caution: Federal law prohibits dispensing without prescription," and (2) any drug which, pursuant to the Board's regulations, may be sold only by prescription because the Board has found those drugs to be dangerous to public health or safety.

24. Pursuant to NRS 454.316 and NRS 454.321, it is unlawful to possess, dispense or furnish a dangerous drug except when furnished to the person by a pharmacist pursuant to a legal prescription from a practitioner.

25. Pursuant to NRS 454.009, a "hypodermic" device is any syringe, needle, instrument, device or implement intended or capable of being adapted for the purpose of administering drugs by subcutaneous, intramuscular or intravenous injection.

26. Pursuant to NRS 454.510, it is unlawful for any person to have in his or her possession or under his or her control any hypodermic device that is restricted by federal law to sale by or on the order of a physician, unless the person has acquired possession of such device in accordance with the provisions of NRS 454.480 to 454.530, inclusive, that is, by sale from a licensed pharmacist, on the prescription of a physician or other practitioner, which prescription is filled as required by NRS 639.236, and may be refilled as authorized by the prescriber.

27. Accordingly, pursuant to NRS 454.009, 454.201, 454.316, 454.321 and 454.510, any person who is not a practitioner as defined in NRS 639.0125 is not permitted by Nevada law to possess, control, access, prescribe, administer, and/or dispense dangerous drugs or hypodermic devices, except as a medical assistant under the direct supervision of a Nevada licensed physician, physician assistant, or other licensed medical professional, and then, only if otherwise permitted and in compliance with laws of regulating pharmacies and pharmaceuticals.

28. NAC 639.742(1) provides that a practitioner who wishes to dispense controlled substances or dangerous drugs must apply to the Pharmacy Board for a certificate of registration to dispense controlled substances or dangerous drugs. A practitioner must submit a separate application for each site of practice, including, without limitation, any remote site or satellite

consultation site, from which the practitioner wishes to dispense controlled substances or dangerous drugs.

29. NAC 639.742(2) provides that if a facility from which the practitioner intends to dispense dangerous drugs or controlled substances is not wholly owned and operated by the practitioner, the owner or owners of the facility must also submit an application to the Pharmacy Board for a license to do so.

30. NAC 639.742(3) provides in pertinent part that a dispensing practitioner and, if applicable, the owner or owners of the facility, shall ensure that:

> . . . (b) All drugs are received and accounted for by the dispensing practitioner;
>
> (c) All drugs are stored in a secure, locked room or cabinet to which the dispensing practitioner has the only key or lock combination;
>
> (d) All drugs are dispensed in accordance with NAC 639.745[4];

---

[4] NAC 639.745 Duties of certain practitioners concerning dispensing of controlled substances and dangerous drugs. (NRS 639.070, 639.0727)

1. Each practitioner who is registered with the Board to dispense controlled substances and dangerous drugs, including, without limitation, a dispensing practitioner, and who dispenses such products for use by the practitioner's patients outside his or her presence shall:

(a) Keep complete, accurate and readily retrievable records of each controlled substance and dangerous drug purchased and dispensed. The record for each such product dispensed to a patient must include:

(1) The name of the patient and, if not readily available from the practitioner's records, the patient's address,

(2) The name, strength and quantity of the prescribed controlled substance or dangerous drug;

(3) The directions for use;

(4) The date the prescription was issued; and

(5) A unique identifying number.

(b) Maintain a separate file for the records concerning the purchase of each controlled substance listed in schedule II and a separate file for the records concerning the dispensing of each controlled substance listed in schedule II. Each prescription for a controlled substance or dangerous drug must be maintained in a separate file pursuant to the requirements set forth in NAC 453.480.

(c) Keep all controlled substances and dangerous drugs in a locked storage area. Access to the storage area must be restricted to the persons described in NRS 453.375.

(d) Ensure that each package or container in which a controlled substance is dispensed, except samples in the manufacturer's packages, is clearly labeled pursuant to the requirements set forth in NRS 639.2801.

(e) Ensure that the package or container in which a controlled substance or dangerous drug is dispensed complies with all state and federal packaging requirements.

(f) Be deemed to be a pharmacy as that term is used in NAC 639.926 and shall comply with that section.

2. A practitioner may dispense dangerous drugs or controlled substances only after the patient has been informed by the practitioner that the patient may request a written prescription and have it filled at another location of the patient's choosing.

3. A record regarding the dispensing of a controlled substance or dangerous drug made and kept pursuant to this section must be maintained on paper or in a computer. If the record is:

(a) Maintained on paper, the record must:

(1) Include all the information required to be on the prescription pursuant to NRS 639.2353 and NAC 453.440;

> (e) No prescription is dispensed to a patient unless the dispensing practitioner is on-site at the facility;
>
> (f) All drugs are dispensed only to the patient personally at the facility;
>
> . . . (h) All drugs are dispensed only for medically necessary purposes and according to prevailing standards of care for practitioners practicing in the specialty claimed or practiced by the dispensing practitioner; and
>
> (i) The certificate for each dispensing technician employed at the facility is displayed in the room or cabinet in which drugs are stored.

31. NAC 639.742(4)(a)-(b) provide, in-part, with regard to the filling and dispensing of prescriptions at a facility, only the dispensing practitioner or a dispensing technician may enter the locked room or cabinet in which drugs are stored and/or remove drugs from stock.

32. NAC 639.945(1) provides in pertinent part that the following acts or practices by a holder of any license, certificate or registration issued by the Pharmacy Board or any employee of any business holding any such license, certificate or registration are declared to be, specifically but not by way of limitation, unprofessional conduct and conduct contrary to the public interest:

> ..(g) Supplying or diverting drugs, biologicals, medicines, substances or devices which are legally sold in pharmacies or by wholesalers, so that unqualified persons can circumvent any law pertaining to the legal sale of such articles.
>
> . . . (i) Performing any of his or her duties as the holder of a license, certificate or registration issued by the Board, or as the owner of a business or an entity licensed by the Board, in an incompetent, unskillful or negligent manner.
>
> . . . (n) Dispensing a drug as a dispensing practitioner to a patient with whom the dispensing practitioner does not have a bona fide therapeutic relationship.
>
> (o) Prescribing a drug as a prescribing practitioner to a patient with whom the prescribing practitioner does not have a bona fide therapeutic relationship.

---

(2) Set forth on the front of the prescription a certification initialed and dated by the patient that the patient has been informed by the practitioner in accordance with subsection 2 and that the patient has agreed to have the practitioner dispense the controlled substance or dangerous drug; and

(3) Be serially numbered and kept in numerical order in a single file for all dispensing practitioners, including, without limitation, physician assistants and advanced practice registered nurses, practicing at the same location.

(b) Maintained in a computer, the record must:

(1) Include all the information required to be on the prescription pursuant to NRS 639.2353 and NAC 453.440;

(2) Contain a certification, either in the computer or a separate paper document, initialed and dated by the patient that the patient has been informed by the practitioner in accordance with subsection 2 and that the patient has agreed to have the practitioner dispense the controlled substance or dangerous drug; and

(3) Be searchable for any item required by paragraph (a) of subsection 1 to be included in the record.

33. NAC 639.945(2) provides that the owner of any business or facility licensed, certified or registered by the Pharmacy Board is responsible for the acts of all personnel in his or her employ.

34. NAC 639.945(3) provides that, for purposes of applying Pharmacy Board regulations:

> [A] bona fide therapeutic relationship between the patient and practitioner shall be deemed to exist if the patient was examined in person, electronically or telephonically by the practitioner within the 6 months immediately preceding the date the practitioner dispenses or prescribes a drug to the patient and, as a result of the examination, the practitioner diagnosed a condition for which a given drug therapy is prescribed.

35. Accordingly, any physician or physician assistant who—whether by serving as a so-called "medical director" of, or by furnishing dangerous drugs or hypodermic devices to, or by some other relationship or circumstance with any "medical spa" wherein dangerous drugs or hypodermic devices are possessed, controlled, accessed, prescribed, administered, and/or dispensed—engages in conduct that violates any regulation adopted by the Pharmacy Board, including but not limited to NAC 639.742(1)-(3), (4)(a)-(b), or 639.945(1)-(3), has violated the Nevada Medical Practice Act and is subject to discipline by the Board.

II. THE PERTINENT HISTORY OF CRIMINAL AND UNPROFESSIONAL CONDUCT OF TAMMY LYNN HANKINS, PA-C

36. On or about March 1, 2012, in the Superior Court of the State of Arizona, in and for the County of Mohave (Arizona Court), in Case No. CR-2012-00287, a Grand Jury indicted Tammy Lynn Hankins (Hankins), a physician assistant who at that time held a license to practice medicine in the State of Arizona, on five (5) criminal counts of violations of Arizona law, including COUNT 1: FRAUDULENT SCHEMES AND ARTIFICES, CLASS 2 FELONY; COUNT 2: OBTAIN OR PROCURE THE ADMINISTRATION OF A NARCOTIC DRUG BY FRAUD, CLASS 3 FELONY; COUNT 3: OBTAINING A DANGEROUS DRUG BY FRAUD, CLASS 3 FELONY; COUNT 4: ATTEMPTED OBTAINING A DANGEROUS DRUG BY FRAUD, CLASS 4 FELONY; COUNT 5: ATTEMPTED OBTAINING A DANGEROUS DRUG BY FRAUD, CLASS 4 FELONY.

Hankins' Arizona Case History

37. On or about November 28, 2012, the Arizona Regulatory Board of Physician Assistants ("Arizona Board"), in Case No. PA-11-0127A, found Hankins, who had been the holder of a license to practice medicine as a physician assistant in the State of Arizona (License No. 2228), guilty of unprofessional conduct. Specifically, the Arizona Board found Hankins guilty with respect to two (2) patients, Patient JC and Patient MW, determining that Hankins deviated from the standard of care by inappropriately and excessively prescribing controlled substances to patients, risking addiction or overdose with a possible fatal outcome.

38. For the foregoing misconduct, the Arizona Board found Hankins guilty of unprofessional conduct pursuant to Arizona Revised Statute (ARS) §32-2501(18)(i) ("prescribing or dispensing controlled substances or prescription-only drugs for which the physician assistant is not approved or in excess of the amount authorized pursuant to this chapter"); ARS §32-2501(18)(j) ("any conduct or practice that is or might be harmful or dangerous to the health of a patient or the public"); ARS § 32-2501 (18)(p) ("failing or refusing to maintain adequate records on a patient"), and ARS § 32-2501(18)(z) ("failing to furnish legally requested information to the [Arizona Board] or its Investigator in a timely manner."). The Arizona Board also found that a practice restriction was needed in order to protect the public, and ordered that Hankins be issued a Letter of Reprimand, placed on probation for one (1) year with additional conditions and restrictions.

Expiration of Hankins's Arizona License

39. Hankins's license to practice medicine as a physician assistant in the State of Arizona (License No. 2228) was due for renewal by June 1, 2013; Hankins did not renew, and her Arizona license expired by operation of law on May 20, 2014.

Arizona Criminal Conduct by Hankins

40. On or about September 14, 2013, the Arizona Court found that Hankins had knowingly, intelligently and voluntarily pled guilty to the offense of: COUNT 3: OBTAINING A DANGEROUS DRUG BY FRAUD, CLASS 3 FELONY. On or about October 2, 2013, the Arizona Court entered its judgment finding Hankins guilty of the foregoing charge, and sentenced Hankins to a suspended

Specifically, the Platfoot Citation states that Vida Spa and Gisselle Platfoot did not have a dispensing registration and are therefore prohibited from possessing, dispensing and/or administering controlled substances and/or dangerous drugs. HISTORY

This matter comes before a hearing examiner for the State Board of Medicine ("Board") on the Commonwealth's filing of a single count *Order to Show Cause* ("*OTSC*") on November 25, 2019, against Sherman Washington, M.D. ("Respondent"). In this single count, the Commonwealth charged that Respondent is subject to disciplinary action under section 41(4) of the Medical Practice Act of 1985,[1] 63 P.S. § 422.41(4), because the Virginia Board of Medicine ("Virginia Board") took disciplinary action against Respondent's Virginia medical license on or about November 14, 2019.

On November 25, 2019, the Commonwealth mailed the *OTSC* to Respondent by certified mail, electronic return receipt requested, and by first class mail, postage prepaid, at his last known address on file with the Board: 2900 N. Green Valley Parkway, Suite 114, Henderson, NV 89014. The *OTSC* that was mailed to Respondent by certified mail, return receipt requested, was delivered on November 29, 2019, and signed for by Respondent or Respondent's agent,[2] as evidenced by the United States Postal Service electronic return receipt for Certified Mail™ item number 9171 9690 0935 0226 6042 63. Hence, the Commonwealth accomplished service of its *OTSC* in accordance with the requirements of the General Rules of Administrative Practice and Procedure ("GRAPP"), 1 Pa. Code § 31.1 *et seq.*, at 1 Pa. Code § 33.31.[3]

The *OTSC* directed Respondent to file a written answer within thirty (30) days of the date on the *OTSC*, and specifically advised Respondent that the factual allegations of the *OTSC* may be deemed admitted if Respondent failed to file an answer within the time period allowed. Respondent was also advised that if he failed to file an answer, the Board may revoke, suspend, or impose other restrictions against his license; and the Board may also impose a civil penalty of up to $10,000.00 for each violation of the Act. Respondent did not file an answer to the *OTSC*.

On December 31, 2019, the Commonwealth filed a *Motion to Deem Facts Admitted and Enter Default* ("*MDFA*"). The *MDFA* was mailed to Respondent on December 31, 2019, by first class mail, postage prepaid, at 2900 N. Green Valley Parkway, Suite 114, Henderson, NV 89014. This is the same address where the *OTSC* had been served. Respondent did not file a response to the *MDFA*.

On January 21, 2020, an *Order Granting Commonwealth's Motion to Deem Facts Admitted and Enter Default* ("*MDFA Order*") was issued on grounds that Respondent received the *OTSC* but failed to file an answer as required. The *MDFA Order* was mailed to Respondent on January 21, 2020, by first class mail, postage prepaid, at 2900 N. Green Valley Pkwy., Suite 114, Henderson, NV 89014. This is the same address where the *OTSC* and *MDFA* had been served. The *MDFA Order* was not returned to the Department of State Prothonotary and, therefore, it is presumed to have been delivered to Respondent.

This matter is now ripe for disposition.

A person upon whom an order to show cause has been served...shall, if directed so to do, respond to the same by filing within the time specified in the order an answer in writing....A respondent failing to file an answer within the time allowed shall be deemed in default, and relevant facts stated in the order to show cause may be deemed admitted.

DISCUSSION

Violation

A board-regulated practitioner in Pennsylvania who is disciplined by a proper licensing authority of another state is subject to disciplinary action in Pennsylvania under section 41(4) of the Act as follows:

> **Section 41. Reasons for refusal, revocation, suspension or other corrective actions against a licensee or certificate holder**
>
> The board shall have authority to impose disciplinary or corrective measures on a board-regulated practitioner for any or all of the following reasons:
>
> * * *
>
> (4) **Having a license or other authorization to practice the profession revoked or suspended or having other disciplinary action taken**, or an application for a license or other authorization refused, revoked or suspended by a **proper licensing authority of another state**, territory, possession or country, or a branch of the Federal Government.
>
> * * *

63 P.S. § 422.41(4) (emphasis added).

The facts deemed admitted are based on the factual allegations in the *OTSC* as well as the information contained in what is alleged to be a true and correct copy of the November 14, 2019, Consent Order. These facts conclusively establish that on November 14, 2019, the Virginia Board reprimanded Respondent and assessed Respondent a monetary penalty of $1,500.00. Therefore, the Commonwealth has proven by a preponderance of the evidence[7] that Respondent's medical

[7] The degree of proof required to establish a case before an administrative tribunal in an action of this nature is a preponderance of the evidence. *Lansberry v. Pennsylvania Pub. Util. Comm'n*, 578 A.2d 600, 602 (Pa. Cmwlth. 1990), *appeal denied*, 602 A.2d 863 (Pa. 1992). A preponderance of the evidence is generally understood to mean that the

license in another state, Virginia, was disciplined by the proper licensing authority of that state, as charged in Count One of the *OTSC*.

Sanction

The Supreme Court of Pennsylvania has recognized that "[r]eciprocal discipline prevents licensed professionals from violating ethical rules, being disciplined, and then transferring to a new jurisdiction to continue to practice with an unblemished record of ethical conduct." *Khan v. State Bd. of Auctioneer Examiners*, 842 A.2d 936, 944 (Pa. 2004). There are a variety of sanctions available to prevent this from happening.

Section 42 of the Act, 63 P.S. § 422.42, sets forth the type of disciplinary or corrective measures that may be imposed for violations of the Act, including Respondent's violation of section 41(4) of the Act. Specifically, section 42(a) of the Act provides, in relevant part, as follows:

> **Section 42. Types of corrective action**
>
> (a) **Authorized actions.**—When the board is empowered to take disciplinary or corrective action against a board-regulated practitioner under the provisions of this act or pursuant to other statutory authority, the board may:
>
> * * *
>
> (2) Administer a public reprimand with or without probation.
>
> (3) Revoke, suspend, limit or otherwise restrict a license or certificate.
>
> (4) Require the board-regulated practitioner to submit to the care, counseling or treatment of a physician or a psychologist designated by the board.

evidence demonstrates a fact is more likely to be true than not to be true, or if the burden were viewed as a balance scale, the evidence in support of the Commonwealth's case must weigh slightly more than the opposing evidence. *Se-Ling Hosiery, Inc. v. Margulies*, 70 A.2d 854, 856 (Pa. 1950). The Commonwealth therefore has the burden of proving the charges against Respondent with evidence that is substantial and legally credible, not by mere "suspicion" or by only a "scintilla" of evidence. *Lansberry*, 578 A.2d at 602.

63 P.S. § 422.42(a). Additionally, a maximum civil penalty up to ten thousand dollars ($10,000.00) for each violation of the Act is authorized under either section 908 of the Medical Care Availability and Reduction of Error Act,[8] 40 P.S. § 1303.908, or section 5(b)(4) of Act 48,[9] 63 P.S. § 2205(b)(4).

The Board is charged with the responsibility and authority to oversee the profession and to regulate and license professionals to protect the public health and safety. *Barran v. State Bd. of Medicine*, 670 A.2d 765, 767 (Pa. Cmwlth. 1996), *appeal denied*, 679 A.2d 230 (Pa. 1996). With public protection in mind, the Board considers the seriousness of the violations and any mitigating evidence in fashioning a sanction fitted to the circumstances of a given disciplinary matter.

There is no mitigating evidence to consider because, although he has been given appropriate notice and the opportunity to respond, Respondent has not defended himself in the matter now before the Board. Therefore, the Board has only the seriousness of the Virginia disciplinary action to consider when determining the appropriate sanction.

The seriousness of the Virginia disciplinary action can be gauged by the underlying reasons for the disciplinary action and the type of discipline imposed. The Virginia Board disciplined

Respondent for prescribing several Schedule VI controlled substances to Patients A-F outside of a bona fide practitioner-patient relationship and for willfully refusing to provide records for Patients A-F to the Virginia Board's investigators after their repeated requests for such records from August 2018 through October 2018. For this conduct, the Virginia Board decided not to impose the more serious sanctions of suspension or revocation. Instead, the Virginia Board imposed the less serious sanctions of a reprimand and a monetary penalty.

The hearing examiner believes that it is appropriate to mirror the Virginia Board's imposition of a reprimand. A public reprimand will protect the public health and safety because it will alert Pennsylvania's citizens to Respondent's disciplinary action in Virginia, thereby allowing anyone who inquires to make an informed decision based upon the public information available.

Although the Virginia Board assessed a monetary penalty, the hearing examiner does not believe that it is necessary to impose a monetary penalty in Pennsylvania. Civil penalties are typically imposed for purposes of deterrence. It is understandable that the Virginia Board would want to deter Respondent from committing similar violations in the future in Virginia, given the fact that Respondent had an active license in Virginia at the time he entered into the Consent Order. Respondent is presumably not practicing in Pennsylvania because his Pennsylvania license has been expired since December 31, 2014, prior to his violations of Virginia law. Therefore, it is not necessary to impose a civil penalty in Pennsylvania for purposes of added deterrence.

Accordingly, based upon the foregoing, the following order shall issue:

1.11 To date, the Adjudicative Clerk Office has not received an answer to the Statement of Charges. On August 26, 2019, the Adjudicative Clerk Office issued a Notice of Failure to Respond.

4. COMPLIANCE WITH SANCTION RULES

In the Matter of the License to Practice as a Physician and Surgeon of: **SHERMAN WASHINGTON,MD** License No. MD.MD. 60404594 Respondent.	**No. M2019-234** **STATEMENT OF ALLEGATIONS AND SUMMARY OF EVIDENCE**

The Executive Director of the Washington Medical Commission (Commission), on designation by the Commission, makes the allegations below, which are supported by evidence contained in Commission file number 2018-6936. The patients referred to in this Statement of Allegations and Summary of Evidence is identified in the attached Confidential Schedule.

1. ALLEGATIONS

1.1 On September 30, 2013, the state of Washington issued Respondent a license to practice as a physician and surgeon. Respondent's license is currently suspended. Respondent is board certified in emergency medicine.

Failure to Cooperate

1.2 On or about April 25, 2018, the Commission received a complaint regarding Respondent's prescribing practices. On June 22, 2018, a Commission investigator mailed Respondent a letter of cooperation to the address on file with the Commission requesting six patient records.

1.3 The Commission's investigator contacted the Respondent by phone on July 18, 2018, and the Respondent acknowledged receipt of the letter of cooperation and requested that the letter be emailed to him. The investigator emailed the letter of cooperation to the Respondent that same day. No response was received.

1.4 Additional attempts were made to contact Respondent by phone, email and mail to the address on file with the Commission. On September 11, 2018, a follow up letter (requiring a response within 3 days) was sent to Respondent by certified mail. The signed green card was returned on September 24, 2018. No response was received.

1.5 The Commission's investigator conducted an address search for Respondent through an external database and on October 9, 2018, sent another copy of

the follow up letter by certified mail to an address found through the search. On October 25, 2018, the letter was returned "unable to forward."

1.6 Although the Respondent acknowledged actual receipt of the letter of cooperation and certified mail confirms receipt of the follow up three day letter, Respondent has failed to provide the requested records or respond to the Commission's request for information.

Improper Prescribing

1.7 Between January 2017 and April 2018 Respondent worked for HealthRight, a telemedicine company, where he prescribed topical applications and other high cost medications (pain patches, ointments and creams).

1.8 The patients to whom Respondent prescribed the medications were solicited by the HealthRight who obtained the patient's contact information after the patient completed an online survey about their pain. Representatives of the HealthRight "cold called" the patients who shared their insurance information. Subsequently the "electronic consultations" were completed and Respondent then reviewed the consultation notes and wrote prescriptions.

1.9 Respondent has acknowledged working for "four or five" different telemedicine companies and having "thousands of patients." At least six of such patients, Patients A through F, resided in the State of Washington.

No Physician-Patient Relationship.

1.10 At no point before, during, or after prescribing medication did Respondent speak with Patients A through F, in person or on the phone, to establish a physician-patient relationship or to discuss treatment history, plan of care, and treatment options.

1.11 Respondent did not conduct a physical examination or document any evaluation of the patient's health history in the health record prior to prescribing medication. There was no interaction whatsoever between Respondent and the patients.

//

//

No Informed Consent.

1.12 At no point before, during, or after prescribing medication did Respondent meet or speak with the patients, in person or on the phone, to obtain informed consent for the prescriptions he wrote. At no time was it ever conveyed to the patients that prescriptions would be sent. More importantly, there was never a clear discussion of *what* prescriptions would be sent, *how* to use them, expected outcomes, risks and benefits, and rationale for prescribing.

> **RCW 18.130.180 Unprofessional conduct.** The following conduct, acts, or conditions constitute unprofessional conduct for any license holder under the jurisdiction of this chapter:
>
> (1) The commission of any act involving moral turpitude, dishonesty, or corruption relating to the practice of the person's profession, whether the act constitutes a crime or not. If the act constitutes a crime, conviction in a criminal proceeding is not a condition precedent to disciplinary action. Upon such a conviction, however, the judgment and sentence is conclusive evidence at the ensuing disciplinary hearing of the guilt of the license holder of the crime described in the indictment or information, and of the person's violation of the statute on which it is based. For the purposes of this section, conviction includes all instances in which a plea of guilty or nolo contendere

is the basis for the conviction and all proceedings in which the sentence has been deferred or suspended. Nothing in this section abrogates rights guaranteed under chapter 9.96A RCW;

...

(4) Incompetence, negligence, or malpractice which results in injury to a patient or which creates an unreasonable risk that a patient may be harmed. The use of a nontraditional treatment by itself shall not constitute unprofessional conduct, provided that it does not result in injury to a patient or create an unreasonable risk that a patient may be harmed;

...

(6) Except when authorized by RCW 18.130.345, the possession, use, prescription for use, or distribution of controlled substances or legend drugs in any way other than for legitimate or therapeutic purposes, diversion of controlled substances or legend drugs, the violation of any drug law, or prescribing controlled substances for oneself;

...

(8) Failure to cooperate with the disciplining authority by:

(a) Not furnishing any papers, documents, records, or other items;

....

4. NOTICE TO RESPONDENT

4.1 The Commission has determined that this case may be appropriate for resolution through a Stipulation to Informal Disposition pursuant to RCW 18.130.172(2). A proposed Stipulation to Informal Disposition is attached, which contains the disposition the Commission believes is necessary to address the conduct alleged in this Statement of Allegations and Summary of Evidence.

4.2 If Respondent agrees that the disposition imposed by the Stipulation to Informal Disposition is appropriate, Respondent should sign and date the Stipulation to Informal Disposition and return it within **twenty-eight (28) days** to the Washington Medical Commission at P.O. Box 47866, Olympia, Washington 98504-7866.

4.3 If Respondent does not agree that the terms and conditions contained in the Stipulation to Informal Disposition are appropriate, Respondent should contact Gordon Wright, Staff Attorney for the Washington Medical Commission, P.O. Box 47866, Olympia, Washington 98504-7866, (360) 236-2798 within **twenty-eight (28) days**.

4.4 If Respondent does not respond within **twenty-eight (28) days**, the Commission will assume Respondent has declined to resolve the allegations by means of a Stipulation to Informal Disposition.

BEFORE THE ARIZONA MEDICAL BOARD

In the Matter of **SHERMAN WASHINGTON, JR., M.D.** Holder of License No. 48291 For the Practice of Allopathic Medicine In the State of Arizona.	**Case No. MD-19-1137A** **ORDER FOR LETTER OF REPRIMAND AND PROBATION; AND CONSENT TO THE SAME**

Sherman Washington, Jr., M.D. ("Respondent") elects to permanently waive any right to a hearing and appeal with respect to this Order for Letter of Reprimand and Probation; admits the jurisdiction of the Arizona Medical Board ("Board"); and consents to the entry of this Order by the Board.

FINDINGS OF FACT

1. The Board is the duly constituted authority for the regulation and control of the practice of allopathic medicine in the State of Arizona.

2. Respondent is the holder of license number 48291 for the practice of allopathic medicine in the State of Arizona.

3. The Board initiated case number MD-19-1137A after receiving notification of a disciplinary action alert ("DAR") that the Virginia Board of Medicine ("Virginia Board") had reprimanded Respondent's Virginia medical license.

4. Effective November 14, 2019 Respondent entered into a Consent Order with the Virginia Board that issued Respondent's Virginia medical license a Reprimand and Monetary Penalty of $1500.00. The Virginia Board found that Respondent issued Schedule IV medications to six patients without a properly established physician-patient relationship. Additionally, the Virginia Board found that Respondent willfully refused to provide records for the six patients at issue despite repeated requests by Virginia Board staff. On January 15, 2020 the Virginia Board issued Respondent a letter of compliance and closed the case.

5. On November 22, 2019 the North Dakota Board of Medicine ("North Dakota Board") issued an Order pursuant to a Stipulation that required Respondent to complete an intensive, in-person medical recordkeeping course. The North Dakota Board found that a patient received medication in the mail from a compounding pharmacy in Texas that had been prescribed by Respondent. The patient did not have a prior physician-patient relationship with Respondent and had never met or spoken to prior to receiving the medication. Respondent failed to respond to the North Dakota Board's request for the patient's medical records.

6. Re: License Number: DR. 0054185
Case Number: 2019-8449-B

Dear Dr. Washington,

The Colorado Medical Board has concluded its inquiry into the aforementioned matter. It was the Panel's decision not to commence with formal proceedings against your professional license. However, the Panel did determine disciplinary action in the form of this letter of admonition is warranted.

As you recall, in October 2019, you entered into a stipulation with the North Dakota Medical Board regarding your license to practice medicine. In the stipulation, you admitted to prescribing medications to an individual with whom you did not have a physician-patient relationship and failing to maintain medical records. The North Dakota Medical Board required you to take a medical recordkeeping course. In November 2019, you entered into a consent order with the Virginia Board of Medicine in which you were reprimanded and assessed a fine. The consent order was based on your prescribing of Schedule VI medications outside the context of a physician-patient relationship.

After a review of all the information in this matter, the Panel found that you are prescribing to individuals without establishing a physician-patient relationship fell below generally accepted standards of medical practice and resulted in discipline in two other states, constituting unprofessional conduct in violation of section 12-240-121 of the Colorado Revised Statutes.

By this letter, the Board takes the formal disciplinary action of admonishing you for the conduct specified above, and warns you that repetition of such practice may lead to imposition of more severe disciplinary action. This letter is an open public record and a reportable action to individuals or entities requesting disciplinary information. The Board strongly encourages you to review and understand the Medical Practice Act requirements and obligations for the practice of medicine in Colorado.

In accordance with 12-20-404(4)(b), the Board advises you that you have the right to make a written request that the Board initiate formal disciplinary proceedings in order to adjudicate the conduct or acts upon which this letter is based. You must make your written request within twenty (20) days after receipt of this letter and address your request to Paula Martinez, Program Director, at the email address listed below. If you make a timely request, the Board will deem this letter of admonition vacated and may proceed with disciplinary and/or injunctive proceedings in accordance with 12-20-404(4)(b)(II), C.R.S., and applicable rules.

A Letter of Admonition, when accepted, becomes a permanent, public portion of your record. It is not, however, a restriction on your practice as a professional physician.

Sherman Washington Jr., M.D.,	)	
Respondent.	)	

COMES NOW, the Complainant, North Dakota Board of Medicine – Investigative Panel B, and for its Complaint against the Respondent, Sherman Washington Jr., M.D., alleges and states as follows:

I.

Investigative Panel B of the North Dakota Board of Medicine ("Board") is authorized pursuant to N.D.C.C. Chapter 43-17.1 to conduct investigations related to the practice of any physician licensed to practice in this state and file a formal complaint against any licensed physician with the Board of Medicine.

II.

Sherman Washington Jr., M.D., is a physician licensed to practice medicine in the State of North Dakota.

FACTS

III.

At all times mentioned herein, Respondent was an emergency medicine physician but mostly practiced medicine online.

IV.

On September 5, 2018, Patient A received a package in the mail containing several medications that were prescribed to her by Respondent and filled at McClure's Compounding Pharmacy in Texas. Patient A has never had a physician-patient relationship with Respondent and has never met or spoken to Respondent. Thus, Respondent prescribing any medications to Patient A is inappropriate. A request for records for the treatment of Patient A was made to Respondent and no records were received. Thus, Respondent is subject to disciplinary action pursuant to the provisions of N.D.C.C. § 43-17-31 based upon Respondent's violations of the North Dakota Medical Practice Act by: (1) performing any dishonorable, unethical or unprofessional conduct likely to deceive, defraud or harm the public N.D.C.C. § 43-17-31(1)(f).; and (2) lacking appropriate documentation in medical records for diagnosis, testing and treatment of a patient as described by N.D.C.C. § 43-17-31(1)(z).

V.

WHEREFORE, Complainant respectfully requests Respondent, Sherman Washington, Jr., M.D., be disciplined for his violations of N.D.C.C. § 43-17-31 and seeks an appropriate sanction(s) for those violations as authorized by N.D.C.C. § 43-17-30.1. Complainant also respectfully requests that the Board be awarded its costs and attorney's fees in having to bring this action pursuant to N.D.C.C. § 43-17-31.1.

NOTICE: Respondent must answer this Complaint within twenty days after service of the complaint or the allegations may be deemed admitted and may result in a default order revoking the subject's license. Such answer must be served in the manner allowed for service under the North Dakota Rules of Civil Procedure.

In the Matter of Charges and Complaint Against: **SHERMAN WASHINGTON, M.D., Respondent.**	**Case No. 21-41427-1**

FILED
AUG 30 2021
NEVADA STATE BOARD OF MEDICAL EXAMINERS
By:

COMPLAINT

The Investigative Committee[1] (IC) of the Nevada State Board of Medical Examiners (Board), by and through Aaron Bart Fricke, J.D., General Counsel and attorney for the IC, having a reasonable basis to believe that Sherman Washington, M.D., (Respondent) violated the provisions of Nevada Revised Statutes (NRS) Chapter 630 and Nevada Administrative Code (NAC) Chapter 630 (collectively, the Medical Practice Act), hereby issues its Complaint, stating the IC's charges and allegations as follows:

1. Respondent was at all times relevant to this Complaint a medical doctor holding an active license to practice medicine in the State of Nevada (License No. 15168). Respondent was originally licensed by the Board on February 7, 2014.

I. STATEMENT OF LAW

A. "Medical Directors," Medical Assistants, and the Unlicensed Practice of Medicine

2. NRS 630.305(1)(e) provides that aiding, assisting, employing or advising, directly or indirectly, any unlicensed person to engage in the practice of medicine, contrary to the provisions of NRS Chapter 630 or the regulations of the Board, is grounds for disciplinary action or denying licensure.

[1] The Investigative Committee of the Nevada State Board of Medical Examiners, at the time this formal Complaint was authorized for filing, was composed of Board Members Victor M. Muro, M.D., Chair, Weldon Havins, M.D., J.D., and Ms. Maggie Arias-Petrel.

3. Pursuant to NRS 630.020(1)-(4), the "Practice of medicine" means:

> 1. To diagnose, treat, correct, prevent or prescribe for any human disease, ailment, injury, infirmity, deformity or other condition, physical or mental, by any means or instrumentality, including, but not limited to, the performance of an autopsy.
>
> 2. To apply principles or techniques of medical science in the diagnosis or the prevention of any such conditions.
>
> 3. To perform any of the acts described in subsections 1 and 2 by using equipment that transfers information concerning the medical condition of the patient electronically, telephonically or by fiber optics, including, without limitation, through telehealth, from within or outside this State or the United States.
>
> 4. To offer, undertake, attempt to do or hold oneself out as able to do any of the acts described in subsections 1 and 2.

4. NRS 630.400(1)(d) provides that it is unlawful to practice medicine without being licensed under NRS Chapter 630.

5. Pursuant to NRS 630.400(2) and NRS 193.130(c) and (d), the unlawful practice of medicine is a felony, punishable by imprisonment in the state prison for a minimum term of not less than one (1) year and a maximum term of not more than five (5) years.

6. Pursuant to the Medical Practice Act, the only means by which a practitioner may lawfully aid, assist, employ or advise, directly or indirectly, an unlicensed person to engage in the practice of medicine, is by delegating specific tasks to an adequately supervised and trained "medical assistant."

7. Pursuant to NRS 630.0129, a "medical assistant" means a person who:

> (a) performs clinical tasks under the supervision of a practitioner, and
>
> (b) does not hold a license, certificate or registration issued by a professional licensing or regulatory board in this State to perform such clinical tasks; the term does not include a person who performs only administrative, clerical, executive or other nonclinical tasks.

8. Pursuant to NRS 630.306(1)(r), a practitioner must adequately supervise his or her medical assistants, and failing to do so is grounds for initiating disciplinary action or denying licensure.

9. Pursuant to NAC 630.830, a delegating practitioner is professionally responsible for the safety and performance of each task which is delegated to a medical assistant. Pursuant to NAC 630.810, a delegating practitioner may not delegate tasks to a medical assistant unless: (a) the

delegating practitioner knows that the medical assistant possesses the knowledge, skill and training to perform the task safely and properly; (b) the medical assistant is not required to be certified or licensed to perform that task; and (c) the medical assistant is employed by the delegating practitioner or the medical assistant and the delegating practitioner are employed by the same employer.

10. Pursuant to NAC 630.830(4), a delegating practitioner shall not delegate or otherwise allow a medical assistant to administer an anesthetic agent which renders a patient unconscious or semiconscious.

11. Pursuant to NAC 630.820, a delegating practitioner may not remotely supervise a medical assistant, except in a specific case of emergency in a rural area.[2]

12. Except as otherwise provided in NAC 630.820, pursuant to NAC 630.810, if a medical assistant is delegated a task which involves an "invasive procedure," [3] the delegating practitioner must be immediately available to exercise oversight in-person while the medical assistant performs the task.

13. The term "medical director" is not recognized or defined under the Medical Practice Act, and no law authorizes a licensee of the Board to, by calling himself or herself a "medical director," violate or circumvent the aforementioned statutes and regulations of the Medical Practice Act.

14. Accordingly, pursuant to NRS 630.400(1)(d), 630.305(1)(e), and 630.0129, and NAC 630.800-830:

a. A practitioner who, whether by serving as a so-called "medical director" or by some other relationship or circumstance, aids, assists, employs or advises, directly or indirectly, any unlicensed person to engage in the practice of medicine, may lawfully do so only by delegating tasks

---

[2] Remote supervision of a medical assistant is prohibited unless: (a) the patient is located in a rural area; (b) the delegating practitioner is physically located a significant distance from the location where the task is to be performed; (c) the delegating practitioner determines that the exigent needs of the patient require immediate attention; (d) the patient and the delegating practitioner previously established a practitioner-patient relationship; and (e) the delegating practitioner is immediately available by telephone or other means of instant communication during the performance of the task by the medical assistant. As used in NAC 630.820, "rural area" means any area in this State other than Carson City or the City of Elko, Henderson, Reno, Sparks, Las Vegas or North Las Vegas.

[3] The Medical Practice Act does not define "invasive procedure," however, NAC 449.9733 pertaining to Medical Facilities defines "invasive procedure" as "a medical procedure involving entry into the human body by puncture or incision or by insertion of an instrument."

to an adequately supervised and properly trained medical assistant, who the delegating practitioner knows possesses the knowledge, skill and training to perform the task safely and properly, and the delegating practitioner is professionally responsible for the safety and performance of each task which is delegated to that medical assistant.

b. A practitioner who, whether by serving as a so-called "medical director" or by some other relationship or circumstance, aids, assists, employs or advises, directly or indirectly, any unlicensed person to engage in the practice of medicine, but who has not done so by delegating specific tasks to an adequately supervised and properly trained medical assistant, has violated NRS 630.305(1)(e), and is subject to discipline for aiding and abetting the unlicensed practice of medicine. In addition, the unlicensed person engaged in the practice of medicine has violated NRS 630.400(1)(d), by practicing medicine without a license.

c. A practitioner who delegates a medical task to a medical assistant, whether by serving as a so-called "medical director" or by some other relationship or circumstance, remains professionally responsible for, among other requirements, ensuring the following:

i. The safety and performance of each task delegated;

ii. The proper employment relationships between themselves and the medical assistant or their common employer;

iii. The medical assistant is sufficiently knowledgeable, trained and skilled to perform the tasks delegated to them;

iv. The medical assistant is adequately supervised, and the practitioner must be nearby to supervise the specific medical tasks delegated, and, if it is an invasive medical task, then the delegating practitioner must be immediately available to exercise oversight in-person while the medical assistant performs the task; and

v. The medical assistant does not administer an anesthetic agent which renders a patient unconscious or semiconscious.

d. A practitioner who delegates a medical task to a medical assistant, whether by serving as a so-called "medical director" or by some other relationship or circumstance, and who violates the aforementioned provisions of the NRS or NAC pertaining to medical assistants, and

who fails to adequately supervise that medical assistant as required under the circumstances, has violated NRS 630.306(1)(r), and is subject to discipline for failing to adequately supervise a medical assistant.

B. Cosmetologists, "Medical Spas" and "Medical Aestheticians," and the Unlicensed Practice of Medicine

15. Pursuant to NRS 644A.030 a licensed "cosmetologist" is not authorized by such license to practice medicine in any way. Rather, a licensed cosmetologist is authorized to perform only non-medical, cosmetology services, such as cleansing, stimulating or massaging the scalp or cleansing or beautifying the hair by the use of cosmetic preparations, antiseptics, tonics, lotions or creams, cutting, trimming or shaping the hair, removing hair by the use of depilatories, waxing, tweezing or sugaring, except for the permanent removal of hair with needles, manicuring nails, massaging the skin, giving facials, and other miscellaneous non-medical, cosmetological services.

16. Pursuant to NAC 644A.790 a cosmetologist is further explicitly prohibited from performing "invasive procedures," which mean, for the purposes of professional licensing of cosmetologists, "an act that affects the structure or function of the skin other than the uppermost layers of the skin," and which, for the sake of regulating the practice of cosmetologists, includes, without limitation, (a) the application of electricity for the sole purpose of contracting a muscle, (b) the application of a topical lotion, cream or other substance which affects anything other than the uppermost layers of the skin, (c) the penetration of the skin by needles, and (d) the abrasion of the skin below the uppermost layers of the skin.

17. Further, there is no such license as "medical aesthetician" or "medical cosmetologist" authorized by any Nevada law or issued by any Nevada sanctioned professional licensing body. On the contrary, NAC 644A.870 specifically prohibits cosmetologists and aestheticians from using the terms "expert," "advanced" or "medical" in connection with any description of their practice in any branch of cosmetology or otherwise holding the licensee out to the public as an expert, advanced or medical practitioner of any branch of cosmetology.

18. Accordingly, a Nevada licensed cosmetologist or aesthetician may not refer to himself or herself as a "medical cosmetologist" or "medical aesthetician" in connection with any

description of their practice, and may not, in fact, practice medicine in any way or perform invasive medical procedures or medical services of any kind, unless they do so as a "medical assistant" to a Nevada licensed medical professional, i.e., either as medical assistant to a Nevada licensed physician or physician assistant pursuant to NRS 630.0129, et. seq., and NAC 630.800-830, as described above, or similarly as another type of professional "assistant," "hygienist," "technician," or other such designation, who is delegated tasks by and under the direct supervision of a medical professional who is duly licensed pursuant to chapters 631 to 637, inclusive, 639 or 640 of NRS, and who remains professionally responsible for their conduct.

19. If a cosmetologist or aesthetician practices medicine in any way, unless he or she acts as a medical assistant and is delegated tasks and is properly supervised by a professional medical practitioner, then he or she is violating NRS 630.400(1)(d) by practicing medicine without a license.

C. Nevada Pharmacy Laws Regarding Controlled Substances, Dangerous Drugs and Hypodermic Devices

20. NRS 630.306(1)(b)(3) provides that engaging in conduct that violates a regulation adopted by the Nevada State Board of Pharmacy (Pharmacy Board) is grounds for initiating disciplinary action against a licensee.

21. Pursuant to NRS 630.3062(1)(h), fraudulent, illegal, unauthorized or otherwise inappropriate prescribing, administering or dispensing of a controlled substance listed in schedule II, III or IV is grounds for initiating disciplinary action or denying licensure.

22. Pursuant to 21 Code of Federal Regulations (CFR) §1306.04(a)-(b) and NRS 453.381, a physician or physician assistant may prescribe or administer controlled substances only for a legitimate medical purpose and in the usual course of his or her professional practice. The responsibility for the proper prescribing and dispensing of controlled substances is upon the prescribing practitioner, and a prescription may not be issued in order for an individual practitioner to obtain controlled substances for supplying the individual practitioner for the purpose of general dispensing to patients. *See* 21 CFR §1306.04(a)-(b).

///

23. Pursuant to NRS 454.201, a "dangerous drug" is any drug, other than a controlled substance, unsafe for self-medication or unsupervised use, and includes, among other things, (1) any drug which has been approved by the Food and Drug Administration for general distribution and bears the legend: "Caution: Federal law prohibits dispensing without prescription," and (2) any drug which, pursuant to the Board's regulations, may be sold only by prescription because the Board has found those drugs to be dangerous to public health or safety.

24. Pursuant to NRS 454.316 and NRS 454.321, it is unlawful to possess, dispense or furnish a dangerous drug except when furnished to the person by a pharmacist pursuant to a legal prescription from a practitioner.

25. Pursuant to NRS 454.009, a "hypodermic" device is any syringe, needle, instrument, device or implement intended or capable of being adapted for the purpose of administering drugs by subcutaneous, intramuscular or intravenous injection.

26. Pursuant to NRS 454.510, it is unlawful for any person to have in his or her possession or under his or her control any hypodermic device that is restricted by federal law to sale by or on the order of a physician, unless the person has acquired possession of such device in accordance with the provisions of NRS 454.480 to 454.530, inclusive, that is, by sale from a licensed pharmacist, on the prescription of a physician or other practitioner, which prescription is filled as required by NRS 639.236, and may be refilled as authorized by the prescriber.

27. Accordingly, pursuant to NRS 454.009, 454.201, 454.316, 454.321 and 454.510, any person who is not a practitioner as defined in NRS 639.0125 is not permitted by Nevada law to possess, control, access, prescribe, administer, and/or dispense dangerous drugs or hypodermic devices, except as a medical assistant under the direct supervision of a Nevada licensed physician, physician assistant, or other licensed medical professional, and then, only if otherwise permitted and in compliance with laws of regulating pharmacies and pharmaceuticals.

28. NAC 639.742(1) provides that a practitioner who wishes to dispense controlled substances or dangerous drugs must apply to the Pharmacy Board for a certificate of registration to dispense controlled substances or dangerous drugs. A practitioner must submit a separate application for each site of practice, including, without limitation, any remote site or satellite

consultation site, from which the practitioner wishes to dispense controlled substances or dangerous drugs.

29. NAC 639.742(2) provides that if a facility from which the practitioner intends to dispense dangerous drugs or controlled substances is not wholly owned and operated by the practitioner, the owner or owners of the facility must also submit an application to the Pharmacy Board for a license to do so.

30. NAC 639.742(3) provides in pertinent part that a dispensing practitioner and, if applicable, the owner or owners of the facility, shall ensure that:

> . . . (b) All drugs are received and accounted for by the dispensing practitioner;
>
> (c) All drugs are stored in a secure, locked room or cabinet to which the dispensing practitioner has the only key or lock combination;
>
> (d) All drugs are dispensed in accordance with NAC 639.745[4];

---

[4] NAC 639.745 Duties of certain practitioners concerning dispensing of controlled substances and dangerous drugs. (NRS 639.070, 639.0727)

1. Each practitioner who is registered with the Board to dispense controlled substances and dangerous drugs, including, without limitation, a dispensing practitioner, and who dispenses such products for use by the practitioner's patients outside his or her presence shall:

(a) Keep complete, accurate and readily retrievable records of each controlled substance and dangerous drug purchased and dispensed. The record for each such product dispensed to a patient must include:

(f) Be deemed to be a pharmacy as that term is used in NAC 639.926 and shall comply with that section.

2. A practitioner may dispense dangerous drugs or controlled substances only after the patient has been informed by the practitioner that the patient may request a written prescription and have it filled at another location of the patient's choosing.

3. A record regarding the dispensing of a controlled substance or dangerous drug made and kept pursuant to this section must be maintained on paper or in a computer. If the record is:

(a) Maintained on paper, the record must:

(1) Include all the information required to be on the prescription pursuant to NRS 639.2353 and NAC 453.440;

> (e) No prescription is dispensed to a patient unless the dispensing practitioner is on-site at the facility;
>
> (f) All drugs are dispensed only to the patient personally at the facility;
>

31. NAC 639.742(4)(a)-(b) provide, in-part, with regard to the filling and dispensing of prescriptions at a facility, only the dispensing practitioner or a dispensing technician may enter the locked room or cabinet in which drugs are stored and/or remove drugs from stock.

32. NAC 639.945(1) provides in pertinent part that the following acts or practices by a holder of any license, certificate or registration issued by the Pharmacy Board or any employee of any business holding any such license, certificate or registration are declared to be, specifically but not by way of limitation, unprofessional conduct and conduct contrary to the public interest:

> ..(g) Supplying or diverting drugs, biologicals, medicines, substances or devices which are legally sold in pharmacies or by wholesalers, so that unqualified persons can circumvent any law pertaining to the legal sale of such articles.
>
> . . . (i) Performing any of his or her duties as the holder of a license, certificate or registration issued by the Board, or as the owner of a business or an entity licensed by the Board, in an incompetent, unskillful or negligent manner.
>

>
> (o) Prescribing a drug as a prescribing practitioner to a patient with whom the prescribing practitioner does not have a bona fide therapeutic relationship.

---

(2) Set forth on the front of the prescription a certification initialed and dated by the patient that the patient has been informed by the practitioner in accordance with subsection 2 and that the patient has agreed to have the practitioner dispense the controlled substance or dangerous drug; and

(3) Be serially numbered and kept in numerical order in a single file for all dispensing practitioners, including, without limitation, physician assistants and advanced practice registered nurses, practicing at the same location.

(b) Maintained in a computer, the record must:

(1) Include all the information required to be on the prescription pursuant to NRS 639.2353 and NAC 453.440;

(2) Contain a certification, either in the computer or a separate paper document, initialed and dated by the patient that the patient has been informed by the practitioner in accordance with subsection 2 and that the patient has agreed to have the practitioner dispense the controlled substance or dangerous drug; and

(3) Be searchable for any item required by paragraph (a) of subsection 1 to be included in the record.

33. NAC 639.945(2) provides that the owner of any business or facility licensed, certified or registered by the Pharmacy Board is responsible for the acts of all personnel in his or her employ.

34. NAC 639.945(3) provides that, for purposes of applying Pharmacy Board regulations:

> [A] bona fide therapeutic relationship between the patient and practitioner shall be deemed to exist if the patient was examined in person, electronically or telephonically by the practitioner within the 6 months immediately preceding the date the practitioner dispenses or prescribes a drug to the patient and, as a result of the examination, the practitioner diagnosed a condition for which a given drug therapy is prescribed.

35. Hankins' Arizona Case History

37. On or about November 28, 2012, the Arizona Regulatory Board of Physician Assistants ("Arizona Board"), in Case No. PA-11-0127A, found Hankins, who had been the holder of a license to practice medicine as a physician assistant in the State of Arizona (License No. 2228), guilty of unprofessional conduct. Specifically, the Arizona Board found Hankins guilty with respect to two (2) patients, Patient JC and Patient MW, determining that Hankins deviated from the standard of care by inappropriately and excessively prescribing controlled substances to patients, risking addiction or overdose with a possible fatal outcome.

38. For the foregoing misconduct, the Arizona Board found Hankins guilty of unprofessional conduct pursuant to Arizona Revised Statute (ARS) §32-2501(18)(i) ("prescribing or dispensing controlled substances or prescription-only drugs for which the physician assistant is not approved or in excess of the amount authorized pursuant to this chapter"); ARS §32-2501(18)(j) ("any conduct or practice that is or might be harmful or dangerous to the health of a patient or the public"); ARS § 32-2501 (18)(p) ("failing or refusing to maintain adequate records on a patient"), and ARS § 32-2501(18)(z) ("failing to furnish legally requested information to the [Arizona Board] or its Investigator in a timely manner."). The Arizona Board also found that a practice restriction was needed in order to protect the public, and ordered that Hankins be issued a Letter of Reprimand, placed on probation for one (1) year with additional conditions and restrictions.

Expiration of Hankins's Arizona License

39. Hankins's license to practice medicine as a physician assistant in the State of Arizona (License No. 2228) was due for renewal by June 1, 2013; Hankins did not renew, and her Arizona license expired by operation of law on May 20, 2014.

Arizona Criminal Conduct by Hankins

40. On or about September 14, 2013, the Arizona Court found that Hankins had knowingly, intelligently and voluntarily pled guilty to the offense of: COUNT 3: OBTAINING A DANGEROUS DRUG BY FRAUD, CLASS 3 FELONY. On or about October 2, 2013, the Arizona Court entered its judgment finding Hankins guilty of the foregoing charge, and sentenced Hankins to a suspended

imposition of sentence and placing the Defendant on probation for a period of four years commencing October 2, 2013, among other conditions of probation.

41. On or about January 17, 2014, pursuant to a Petition to Revoke Probation, the Arizona Court ordered that Hankins be held without bond pending hearing on said petition.

42. On or about August 11, 2014, the Arizona Court found Hankins guilty of violating her probation for the following crimes: OBTAINING A DANGEROUS DRUG BY FRAUD, CLASS 3 FELONY, and SEXUAL CONDUCT WITH A MINOR, CLASS 6 FELONY. For the first crime, Hankins was sentenced to two and one-half (2.5) years with the Arizona Department of Corrections, as a minimum sentence, to date from August 11, 2014, and was given credit for two hundred eight (208) days served prior to sentencing. For the second crime, Hankins was sentenced to one (1) additional year of incarceration, that sentence to run consecutive to the other.

43. Hankins was not licensed to practice medicine as a physician assistant in the State of Nevada before March 6, 2020.

44. Hankins does not hold an active Drug Enforcement Agency (DEA) registration, and has not held a valid registration since 2016. Hankins also does not hold and has never held an active license or registration with the Pharmacy Board.

45. Vida Spa LLC, a Nevada Limited Liability Company, formed July 22, 2016, managed by Gisselle Platfoot ("Vida Spa"), and also doing business as "Vida Spa" and "Vita Medical Spa Las Vegas," is a self-described "medical spa" located at 3225 S Rainbow Blvd #107 and/or #206, Las Vegas, NV 89146.

46. At all times relevant to this Complaint, Vida Spa was licensed in Clark County, Nevada, under Clark County Business License No. 2003447.081-172, under the business category of "Cosmetology Establishment - Other Services." Specifically, the Platfoot Citation states that Vida Spa and Gisselle Platfoot did not have a dispensing registration and are therefore prohibited from possessing, dispensing and/or administering controlled substances and/or dangerous drugs. The Platfoot Citation finds that Vida Spa and Gisselle Platfoot violated, attempted to violate, assisted or abetted in the violation of or conspired to violate, without limitation, NRS 453.226, NRS 453.316, NRS 453.321(1)(a), NRS 453.331 (l)(c)(d)(t)&(i), NRS 453.381(1), NRS 453.401(l)(a), NRS 639.0727, NRS 639.100(1), NRS 639.23505, NRS 639.281, NRS 639.2813, NRS 639.310, NAC 639.742, 21 U.S.C. § 822(a)(2), 21 U.S.C. § 823(f), 21 U.S.C. § 841(a), 21 U.S.C. § 842(a), 21 U.S.C. § 846 and 21 CFR §§ 1306.03-1306.05. HISTORY

This matter comes before a hearing examiner for the State Board of Medicine ("Board") on the Commonwealth's filing of a single count *Order to Show Cause* ("*OTSC*") on November 25, 2019, against Sherman Washington, M.D. ("Respondent"). In this single count, the Commonwealth charged that Respondent is subject to disciplinary action under section 41(4) of the Medical Practice Act of 1985,[1] 63 P.S. § 422.41(4), because the Virginia Board of Medicine ("Virginia Board") took disciplinary action against Respondent's Virginia medical license on or about November 14, 2019.

On November 25, 2019, the Commonwealth mailed the *OTSC* to Respondent by certified mail, electronic return receipt requested, and by first class mail, postage prepaid, at his last known address on file with the Board: 2900 N. Green Valley Parkway, Suite 114, Henderson, NV 89014. The *OTSC* that was mailed to Respondent by certified mail, return receipt requested, was delivered on November 29, 2019, and signed for by Respondent or Respondent's agent,[2] as evidenced by the United States Postal Service electronic return receipt for Certified Mail™ item number 9171 9690 0935 0226 6042 63. Hence, the Commonwealth accomplished service of its *OTSC* in accordance with the requirements of the General Rules of Administrative Practice and Procedure ("GRAPP"), 1 Pa. Code § 31.1 *et seq.*, at 1 Pa. Code § 33.31.[3]

The *OTSC* directed Respondent to file a written answer within thirty (30) days of the date on the *OTSC*, and specifically advised Respondent that the factual allegations of the *OTSC* may be deemed admitted if Respondent failed to file an answer within the time period allowed. Respondent was also advised that if he failed to file an answer, the Board may revoke, suspend, or impose other restrictions against his license; and the Board may also impose a civil penalty of up to $10,000.00 for each violation of the Act. Respondent did not file an answer to the *OTSC*.

On December 31, 2019, the Commonwealth filed a *Motion to Deem Facts Admitted and Enter Default* ("*MDFA*"). The *MDFA* was mailed to Respondent on December 31, 2019, by first class mail, postage prepaid, at 2900 N. Green Valley Parkway, Suite 114, Henderson, NV 89014. This is the same address where the *OTSC* had been served. Respondent did not file a response to the *MDFA*.

On January 21, 2020, an *Order Granting Commonwealth's Motion to Deem Facts Admitted and Enter Default* ("*MDFA Order*") was issued on grounds that Respondent received the *OTSC* but failed to file an answer as required. The *MDFA Order* was mailed to Respondent on January 21, 2020, by first class mail, postage prepaid, at 2900 N. Green Valley Pkwy., Suite 114, Henderson, NV 89014. This is the same address where the *OTSC* and *MDFA* had been served. The *MDFA Order* was not returned to the Department of State Prothonotary and, therefore, it is presumed to have been delivered to Respondent.

DISCUSSION

Violation

A board-regulated practitioner in Pennsylvania who is disciplined by a proper licensing authority of another state is subject to disciplinary action in Pennsylvania under section 41(4) of the Act as follows:

> **Section 41. Reasons for refusal, revocation, suspension or other corrective actions against a licensee or certificate holder**
>
> The board shall have authority to impose disciplinary or corrective measures on a board-regulated practitioner for any or all of the following reasons:
>
> * * *
>
> (4) **Having a license or other authorization to practice the profession revoked or suspended or having other disciplinary action taken**, or an application for a license or other authorization refused, revoked or suspended by a **proper licensing authority of another state**, territory, possession or country, or a branch of the Federal Government.
>
> * * *

63 P.S. § 422.41(4) (emphasis added).

The facts deemed admitted are based on the factual allegations in the *OTSC* as well as the information contained in what is alleged to be a true and correct copy of the November 14, 2019, Consent Order. These facts conclusively establish that on November 14, 2019, the Virginia Board reprimanded Respondent and assessed Respondent a monetary penalty of $1,500.00. Therefore, the Commonwealth has proven by a preponderance of the evidence[7] that Respondent's medical

[7] The degree of proof required to establish a case before an administrative tribunal in an action of this nature is a preponderance of the evidence. *Lansberry v. Pennsylvania Pub. Util. Comm'n*, 578 A.2d 600, 602 (Pa. Cmwlth. 1990), *appeal denied*, 602 A.2d 863 (Pa. 1992). A preponderance of the evidence is generally understood to mean that the

license in another state, Virginia, was disciplined by the proper licensing authority of that state, as charged in Count One of the *OTSC*.

Sanction

The Supreme Court of Pennsylvania has recognized that "[r]eciprocal discipline prevents licensed professionals from violating ethical rules, being disciplined, and then transferring to a new jurisdiction to continue to practice with an unblemished record of ethical conduct." *Khan v. State Bd. of Auctioneer Examiners*, 842 A.2d 936, 944 (Pa. 2004). There are a variety of sanctions available to prevent this from happening.

Section 42 of the Act, 63 P.S. § 422.42, sets forth the type of disciplinary or corrective measures that may be imposed for violations of the Act, including Respondent's violation of section 41(4) of the Act. Specifically, section 42(a) of the Act provides, in relevant part, as follows:

> Section 42. Types of corrective action
>
> (a) Authorized actions.—When the board is empowered to take disciplinary or corrective action against a board-regulated practitioner under the provisions of this act or pursuant to other statutory authority, the board may:
>
> * * *
>
> (2) Administer a public reprimand with or without probation.
>
> (3) Revoke, suspend, limit or otherwise restrict a license or certificate.
>
> (4) Require the board-regulated practitioner to submit to the care, counseling or treatment of a physician or a psychologist designated by the board.

evidence demonstrates a fact is more likely to be true than not to be true, or if the burden were viewed as a balance scale, the evidence in support of the Commonwealth's case must weigh slightly more than the opposing evidence. *Se-Ling Hosiery, Inc. v. Margulies*, 70 A.2d 854, 856 (Pa. 1950). The Commonwealth therefore has the burden of proving the charges against Respondent with evidence that is substantial and legally credible, not by mere "suspicion" or by only a "scintilla" of evidence. *Lansberry*, 578 A.2d at 602.

> (5) Require the board-regulated practitioner to take refresher educational courses.

63 P.S. § 422.42(a). Additionally, a maximum civil penalty up to ten thousand dollars ($10,000.00) for each violation of the Act is authorized under either section 908 of the Medical Care Availability and Reduction of Error Act,[8] 40 P.S. § 1303.908, or section 5(b)(4) of Act 48,[9] 63 P.S. § 2205(b)(4).

The Board is charged with the responsibility and authority to oversee the profession and to regulate and license professionals to protect the public health and safety. *Barran v. State Bd. of Medicine*, 670 A.2d 765, 767 (Pa. Cmwlth. 1996), *appeal denied*, 679 A.2d 230 (Pa. 1996). With public protection in mind, the Board considers the seriousness of the violations and any mitigating evidence in fashioning a sanction fitted to the circumstances of a given disciplinary matter.

There is no mitigating evidence to consider because, although he has been given appropriate notice and the opportunity to respond, Respondent has not defended himself in the matter now before the Board. Therefore, the Board has only the seriousness of the Virginia disciplinary action to consider when determining the appropriate sanction.

The seriousness of the Virginia disciplinary action can be gauged by the underlying reasons for the disciplinary action and the type of discipline imposed. The Virginia Board disciplined

Respondent for prescribing several Schedule VI controlled substances to Patients A-F outside of a bona fide practitioner-patient relationship and for willfully refusing to provide records for Patients A-F to the Virginia Board's investigators after their repeated requests for such records from August 2018 through October 2018. For this conduct, the Virginia Board decided not to impose the more serious sanctions of suspension or revocation. Instead, the Virginia Board imposed the less serious sanctions of a reprimand and a monetary penalty.

The hearing examiner believes that it is appropriate to mirror the Virginia Board's imposition of a reprimand. A public reprimand will protect the public health and safety because it will alert Pennsylvania's citizens to Respondent's disciplinary action in Virginia, thereby allowing anyone who inquires to make an informed decision based upon the public information available.

Although the Virginia Board assessed a monetary penalty, the hearing examiner does not believe that it is necessary to impose a monetary penalty in Pennsylvania. Civil penalties are typically imposed for purposes of deterrence. It is understandable that the Virginia Board would want to deter Respondent from committing similar violations in the future in Virginia, given the fact that Respondent had an active license in Virginia at the time he entered into the Consent Order. Respondent is presumably not practicing in Pennsylvania because his Pennsylvania license has been expired since December 31, 2014, prior to his violations of Virginia law. Therefore, it is not necessary to impose a civil penalty in Pennsylvania for purposes of added deterrence.

Accordingly, based upon the foregoing, the following order shall issue:

1.1 On September 30, 2013, the state of Washington issued Respondent a license to practice as a physician and surgeon. Respondent's license is currently suspended. Respondent is board certified in emergency medicine.

Failure to Cooperate

1.2 On or about April 25, 2018, the Commission received a complaint regarding Respondent's prescribing practices. On June 22, 2018, a Commission investigator mailed Respondent a letter of cooperation to the address on file with the Commission requesting six patient records.

1.3 The Commission's investigator contacted the Respondent by phone on July 18, 2018, and the Respondent acknowledged receipt of the letter of cooperation and requested that the letter be emailed to him. The investigator emailed the letter of cooperation to the Respondent that same day. No response was received.

1.4 Additional attempts were made to contact Respondent by phone, email and mail to the address on file with the Commission. On September 11, 2018, a follow up letter (requiring a response within 3 days) was sent to Respondent by certified mail. The signed green card was returned on September 24, 2018. No response was received.

1.5 The Commission's investigator conducted an address search for Respondent through an external database and on October 9, 2018, sent another copy of

1.6 Although the Respondent acknowledged actual receipt of the letter of cooperation and certified mail confirms receipt of the follow up three day letter, Respondent has failed to provide the requested records or respond to the Commission's request for information.

Improper Prescribing

1.7 Between January 2017 and April 2018 Respondent worked for HealthRight, a telemedicine company, where he prescribed topical applications and other high cost medications (pain patches, ointments and creams).

1.8 The patients to whom Respondent prescribed the medications were solicited by the HealthRight who obtained the patient's contact information after the patient completed an online survey about their pain. Representatives of the HealthRight "cold called" the patients who shared their insurance information. Subsequently the "electronic consultations" were completed and Respondent then reviewed the consultation notes and wrote prescriptions.

1.9 Respondent has acknowledged working for "four or five" different telemedicine companies and having "thousands of patients." At least six of such patients, Patients A through F, resided in the State of Washington.

No Physician-Patient Relationship.

1.10 At no point before, during, or after prescribing medication did Respondent speak with Patients A through F, in person or on the phone, to establish a physician-patient relationship or to discuss treatment history, plan of care, and treatment options.

1.11 Respondent did not conduct a physical examination or document any evaluation of the patient's health history in the health record prior to prescribing medication. There was no interaction whatsoever between Respondent and the patients.

//

//

No Informed Consent.

1.12 At no point before, during, or after prescribing medication did Respondent meet or speak with the patients, in person or on the phone, to obtain informed consent for the prescriptions he wrote. At no time was it ever conveyed to the patients that prescriptions would be sent. More importantly, there was never a clear discussion of *what* prescriptions would be sent, *how* to use them, expected outcomes, risks and benefits, and rationale for prescribing.

> **RCW 18.130.180 Unprofessional conduct.** The following conduct, acts, or conditions constitute unprofessional conduct for any license holder under the jurisdiction of this chapter:
>
> (1) The commission of any act involving moral turpitude, dishonesty, or corruption relating to the practice of the person's profession, whether the act constitutes a crime or not. If the act constitutes a crime, conviction in a criminal proceeding is not a condition precedent to disciplinary action. Upon such a conviction, however, the judgment and sentence is conclusive evidence at the ensuing disciplinary hearing of the guilt of the license holder of the crime described in the indictment or information, and of the person's violation of the statute on which it is based. For the purposes of this section, conviction includes all instances in which a plea of guilty or nolo contendere

is the basis for the conviction and all proceedings in which the sentence has been deferred or suspended. Nothing in this section abrogates rights guaranteed under chapter 9.96A RCW;

...

(4) Incompetence, negligence, or malpractice which results in injury to a patient or which creates an unreasonable risk that a patient may be harmed. The use of a nontraditional treatment by itself shall not constitute unprofessional conduct, provided that it does not result in injury to a patient or create an unreasonable risk that a patient may be harmed;

...

(6) Except when authorized by RCW 18.130.345, the possession, use, prescription for use, or distribution of controlled substances or legend drugs in any way other than for legitimate or therapeutic purposes, diversion of controlled substances or legend drugs, the violation of any drug law, or prescribing controlled substances for oneself;

...

(8) Failure to cooperate with the disciplining authority by:

(a) Not furnishing any papers, documents, records, or other items;

....

4. NOTICE TO RESPONDENT

A proposed Stipulation to Informal Disposition is attached, which contains the disposition the Commission believes is necessary to address the conduct alleged in this Statement of Allegations and Summary of Evidence.

4.2 If Respondent agrees that the disposition imposed by the Stipulation to Informal Disposition is appropriate, Respondent should sign and date the Stipulation to Informal Disposition and return it within **twenty-eight (28) days** to the Washington Medical Commission at P.O. Box 47866, Olympia, Washington 98504-7866.

4.3 If Respondent does not agree that the terms and conditions contained in the Stipulation to Informal Disposition are appropriate, Respondent should contact Gordon Wright, Staff Attorney for the Washington Medical Commission, P.O. Box 47866, Olympia, Washington 98504-7866, (360) 236-2798 within **twenty-eight (28) days**.

4.4 If Respondent does not respond within **twenty-eight (28) days**, the Commission will assume Respondent has declined to resolve the allegations by means of a Stipulation to Informal Disposition.

I am a member of Global Harmony, LLC. The LLC owns and operates a cannabis dispensary in Las Vegas. The LLC settled that suit before the trial was over and as part of that settlement process there were appearances in front of the State of Nevada Department of Taxation that previously handled the oversight of recreational and medical marijuana licenses and in front of the Nevada Cannabis Compliance Board, the current entity handling that oversight.

RE: Cosmopolitan Security Officer Unpaid Wages Class Action

Dear BASIL S BLAKE,

You are receiving this letter because the Cosmopolitan of Las Vegas' records indicate that you may be a potential class member in a class action lawsuit pending against the Cosmopolitan on behalf of **all hourly Security Officers employed by the Cosmopolitan between December 15, 2010 and May 19, 2013.** The name of the case is **Basil Blake and Aaron James v. Nevada Property 1, LLC** (Case No. A-13-675007). This case was filed in Nevada state court – the Eighth Judicial District Court of Nevada In and For Clark County – on January 15, 2013. This case only involves hourly Security Officers employed by the Cosmopolitan during the dates listed above.

The case alleges that the Cosmopolitan failed to pay its hourly Security Officers for all time worked. Specifically, the case alleges that the Cosmopolitan failed to pay its hourly Security Officers for "off the clock work" associated with the time it took Security Officers to wait in line to and actually check in/out the tools and equipment necessary to perform their job (radio, keys, Itouch, safecracking tools) and to travel to and from the garment district both before the security officers formally clocked in and after the security officers clocked out. The case also alleges that the Cosmopolitan failed to pay its security officers for time spent attending pre-shift briefings before their scheduled shift start time. The case seeks unpaid wages for all hourly Security Officers employed by the Cosmopolitan during the time frame noted above. Cosmopolitan changed its pay practices after this lawsuit was filed.

We are pleased to inform you that the parties have reached a tentative settlement in this case which, subject to court approval, will provide substantial monetary compensation for all hourly

(cont'd on back...)

Security Officers employed by the Cosmopolitan between December 15, 2010 and May 19, 2013. The parties will be filing a motion for approval of this settlement with the Court shortly. If the settlement is preliminarily approved by the Court, you will be receiving a formal notice approved by the Court explaining the terms of the settlement and your legal rights to make a claim for money, object to the settlement and/or exclude yourself from the settlement.

If you have any questions about this case, please don't hesitate to contact us at 775-853-6440. You can also submit any questions about this case to us through our web site www.cjoneslawfirm.com. I look forward to hearing from you.

Sincerely,

UNITED STATES DISTRICT COURT

FOR THE CENTRAL DISTRICT OF CALIFORNIA

UNITED STATES OF AMERICA Plaintiff, v. ARTURO VALENCIA, Defendant.	CR No. 05-0002-PA STIPULATION TO CONTINUE DEFENDANT ARTURO VALENCIA'S SENTENCING HEARING Sentencing Date: July 20, 2007 Proposed Date: January 7, 2008

Plaintiff United States of America, by and through its counsel of record, the United States Attorney for the Central District of California, defendant Arturo Valencia ("Valencia"), individually and through his counsel, Federal Public Defender Nadine Hettle, hereby agree and jointly stipulate, and request that the court continue defendant Valencia's sentencing hearing from July 20, 2007, at 8:30 a.m., to January 8, 2008, at 8:30

///

///

a.m. for the following reasons:

1. On February 14, 2005, defendant Valencia pled guilty to a two-count information of conspiring to commit immigration fraud and his participation in an immigration fraud scheme which involved the law corporation of Korenberg, Abramowitz & Feldun ("KAF").

2. After defendant entered his guilty plea, the government continued its investigation into the illegal activities of KAF in relation to KAF's partners, associates and employees who participated in an immigration fraud scheme. To that end, defendant agreed to assist the government in completing its investigation, and has been doing so since entering his guilty plea.

3. Two partners of the KAF law firm, Daniel Korenberg ("Korenberg") & Steven Rodriguez ("Rodriguez"), have been indicted on presenting false immigration documents and petitions to the Immigration and Naturalization Service ("INS") in violation of Title 18, United States Code, Sections 371, 1001, and 1546(a). Korenberg and Rodriguez are set to proceed to trial on October 16, 2007.

4. Several defendants are scheduled to be sentenced in November and December 2007. Defendant Valencia's cooperation may be needed to prepare for those sentencings.

5. Defendant presently is on bond and has fully complied with all of the terms of pretrial release. Neither defendant nor defendant's counsel object to a continuance of the sentencing in this matter. Therefore, the parties request that defendant's sentencing date be continued to December 3, 2007 to provide

defendant further opportunity to cooperate and for the government to evaluate the scope and extent of defendant's cooperation and file a Section 5K1.1 motion, if warranted. The parties also request a continuance in the time to respond to the Presentence Report, and agree to serve the Probation Department their respective response by hand delivery.

Accordingly, the parties jointly request that the sentencing in this matter should be continued from July 20, 2007 to January 8, 2008, at 8:30 a.m.

2 attorneys charged with work visa fraud

The immigration lawyers allegedly filed false applications for foreign nationals employed at their firm, and perhaps for others.

By Anna Gorman
Times Staff Writer

Two local immigration attorneys have been charged with fraud after allegedly filing false employment visa applications for 14 foreign nationals working for their firm, according to a federal grand jury indictment released Thursday.

The lawyers, of ASK Law Group in Sherman Oaks, filed the fraudulent applications and paid their employees in cash while awaiting approval for the visas, according to the indictment. Investigators believe the attorneys also filed false visa applications on behalf of hundreds of other foreigners looking for work at other companies.

"This is the largest immigration fraud probe ever mounted against a Los Angeles-area law firm," said Jennifer Silliman, deputy special agent in charge of the local office of Immigration and Customs Enforcement.

The indictment charges Daniel Korenberg, a senior partner at the law firm, and Steven James Rodriguez, a senior associate, with visa fraud and conspiracy to commit visa fraud. Korenberg faces a possible sentence of 225 years in federal prison. Rodriguez faces up to 15 years in prison.

Another partner in the firm, Philip Abramowitz, 53, has already pleaded guilty to conspiracy and visa fraud.

The indictment accused the men of committing fraud between 2000 and 2003.

To obtain an employment visa for a foreign worker, a company must prove it cannot find a qualified U.S. employee to fill a specific job. The H-1B visas are limited to foreign workers with at least a bachelor's degree. Firms must pay foreign workers the prevailing wage.

Investigators said Korenberg, 57, and Rodriguez, 40, wrote false job titles and salaries on the visa applications, citing jobs that didn't exist. They also allegedly lied about the foreigners' work experience.

The fake job titles included accountant, human resources specialist and systems analyst/programmer. The employees were actually doing secretarial work, investigators said.

Several were here on visitors' visas, which did not allow them to work, agents said.

U.S. Citizenship and Immigration Services plans to review all the visa applications that are suspect, said spokeswoman Marie Sebrechts. If applicants were complicit in any fraud, their visas could be revoked, she said.

The ASK Law Group is based in Sherman Oaks, but has offices in Los Angeles, San Diego, San Francisco and Las Vegas. According to the firm's website, lawyers provide services to individuals, small businesses and large corporations.

Because the defendants are attorneys, Silliman said, they know how to work the system and get around loopholes.

"It's always disturbing when attorneys manipulate the system for financial gain," said Thom Mrozek, spokesman for the U.S. attorney's office in Los Angeles.

Korenberg, Abramowitz and Rodriguez did not return calls for comment. Korenberg and Rodriguez are scheduled to appear in U.S. District Court in Los Angeles on March 29.

The firm had a decent reputation, so the charges were shocking, said John Ayala, vice chairman of the Southern California chapter of the American Immigration Lawyers Assn.

"We hope the allegations are not true," Ayala said. "If they are found true, I think it's an aberration. It doesn't reflect the immigration bar of Southern California."

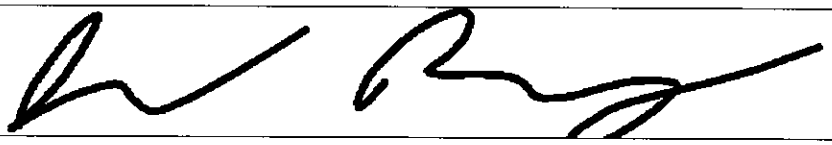
INSPECTOR'S COMMENTS:

Reviewed sterile inspection (virtual) with Gina Cohenour, Mischelle Smoot, and Angela Garcia, and shadowed by Trina Leak. Requirements as listed above were observed through documented communication with the facility staff to ensure that this facility meets the minimum requirement by state law. Documents attached to this inspection were provided during virtual communication with Gina Cohenour.

Pharmacy compounds low to medium risk CSPs. Pharmacy does not wholesale distribute or outsources medications. Pharmacy does not extend BUDs, and does not batch compound. Pharmacy compounds IVIG and provides medication pump services. Pharmacy is permitted in AK, AZ, AR, CA, CO, CT, DE, FL, GA, HI, IL, IN, IA, KY, ME, MI, MN, MS, MO, MT, NE, NV, NH, NJ, NM, NY, NC, ND, OH, OK, PA, RI, SC, SD, TN, UT, VT, VA, WA, DC, WV, WI, and WY.

Due to COVID19, pharmacy temporarily ceased compounding in March 2020 in efforts to avoid any wasted product in the event that a patient or Nurse had to delay or cancel an infusion after shipment. Manufacturer medication vials being shipped to patients to eliminate the 9 day BUD of compounded items. The clean room is still being cleaned at appropriate intervals. On June 3 a patient requested her infusion to be mixed by the pharmacy, fingertip testing was performed after compounding as part of QA.

Technicians pull components and perform compounding. Pharmacist check vials for correctness, drug and dose.



Clean room consists of a positive pressure anteroom and buffer room and 2 LAFWs. ENV Services performed environmental sampling and certification on 3/10/2020. Pharmacy conducts monthly in-house surface and air sampling (settling plates), and weekly fingertip sampling.

Cleaning of room and hoods is performed by pharmacy staff. Pharmacy uses Cavicide and Sterile Alcohol for the daily, TexQ for the weekly, and Peridox RTU for the monthly cleanings.

Discussed/Recommend
Adding a policy/procedure on reporting AERs to the Board of Pharmacy.

Unresolved matters will be brought to the Board for review.
