NOTE 1 — The accompanying unaudited interim consolidated financial statements and related notes should be read in conjunction with the audited Consolidated Financial Statements of Johnson & Johnson and its subsidiaries (the Company) and related notes as contained in the Company's Annual Report on Form 10-K for the fiscal year ended January 3, 2021. The unaudited interim financial statements include all adjustments (consisting only of normal recurring adjustments) and accruals necessary in the judgment of management for a fair statement of the results for the periods presented.

Columns and rows within tables may not add due to rounding. Percentages have been calculated using actual, non-rounded figures.

Use of Estimates
The extent to which COVID-19 impacts the Company's business and financial results will depend on numerous evolving factors including, but not limited to: the magnitude and duration of COVID-19, the extent to which it will impact worldwide macroeconomic conditions including interest rates, employment rates and health insurance coverage, the speed of the anticipated recovery, and governmental and business reactions to the pandemic. The Company assessed certain accounting matters that generally require consideration of forecasted financial information in context with the information reasonably available to the Company and the unknown future impacts COVID-19 as of October 3, 2021 and through the date of this report. The accounting matters assessed included, but were not limited to, the Company's allowance for doubtful accounts and credit losses, inventory and related reserves, accrued rebates and associated reserves, and the carrying value of the goodwill and other long-lived assets along with the Company's on-going vaccine development and distribution efforts. While there was not a material impact to the Company's consolidated financial statements as of and for the quarter ended October 3, 2021, the Company's future assessment of the magnitude and duration of COVID-19, as well as other factors, could result in material impacts to the Company's consolidated financial statements in future reporting periods.

New Accounting Standards
The Company assesses the adoption impacts of recently issued accounting standards by the Financial Accounting Standards Board on the Company's financial statements as well as material updates to previous assessments, if any, from the Company's Annual Report on Form 10-K for the fiscal year ended January 3, 2021. There were no new material accounting standards issued in the fiscal nine months of 2021 that impacted the Company.

Recently Adopted Accounting Standards
There were no new material accounting standards adopted in the fiscal nine months of 2021.

Reclassification
Certain prior period amounts have been reclassified to conform to current year presentation.

The latest annual impairment assessment of goodwill and indefinite lived intangible assets was completed in the fiscal fourth quarter of 2020. Future impairment tests for goodwill and indefinite lived intangible assets will be performed annually in the fiscal fourth quarter, or sooner, if warranted.

[1]In the fiscal third quarter of 2021, the Company recorded a partial IPR&D impairment charge of $0.9 billion primarily related to expected development delays in the general surgery digital robotics platform (Ottava) acquired with the Auris Health acquisition in 2019. The impairment charge was calculated based on revisions to the discounted cash flow valuation model reflecting a delay of first in human procedures of approximately two years from the initial acquisition model assumption of the second half of 2022. The remaining reduction was driven by assets that reached commercialization and are now classified as having definite lives.

Goodwill as of October 3, 2021 was allocated by segment of business as follows:

(Dollars in Millions)	Consumer Health	Pharmaceutical	Medical Devices	Total
Goodwill at January 3, 2021	$ 10,336	11,009	15,048	36,393

Goodwill at October 3, 2021	$ 9,982	10,726	14,861	35,569

The weighted average amortization period for patents and trademarks is 12 years. The weighted average amortization period for customer relationships and other intangible assets is 21 years. 2021	2022	2023	2024	2025
$4,700	4,500	4,500	4,300	3,600

Risk Factors Summary

The following summarizes the principal factors that make an investment in us speculative or risky, all of which are more fully described in "Item 1A – Risk Factors" of this Annual Report on Form 10-K. This summary should be read in conjunction with the Risk Factors section and should not be relied upon as an exhaustive summary of the material risks facing our business.

Risks Related to our Financial Position and Need for Additional Capital

- We have incurred significant losses since our inception and anticipate that we will continue to incur losses in the future.
- We have not generated any revenue to date from product sales. We may never achieve or sustain profitability, which could depress the market price of our common stock, and could cause you to lose all or a part of your investment.
- We will require additional capital to fund our operations and if we fail to obtain necessary financing, we may be unable to complete the development and commercialization of ganaxolone.
- Raising additional capital could dilute our stockholders, restrict our operations or require us to relinquish rights to ganaxolone or any other future product candidates.
- We intend to expend our limited resources to pursue our sole clinical stage product candidate, ganaxolone, and may fail to capitalize on other technologies or product candidates that may be more profitable or for which there may be a greater likelihood of success.
- We have a limited operating history, which may make it difficult for you to evaluate the success of our business to date and to assess our future viability.

Risks Related to Clinical Development and Regulatory Approval of our Product Candidates

- Our future success is dependent on the successful clinical development, regulatory approval and commercialization of ganaxolone, which is being studied in four clinical trials and will require significant capital resources and years of additional clinical development effort.
- We plan to submit an NDA for ganaxolone for the treatment of CDKL5 Deficiency Disorder in mid 2021 and we may not receive regulatory approval of our application.
- Because the results of preclinical studies or earlier clinical trials are not necessarily predictive of future results, ganaxolone may not have favorable results in later clinical trials or receive regulatory approval.
- Ganaxolone may cause undesirable side effects or have other properties that could delay or prevent its regulatory approval, limit the commercial profile of an approved label, or result in significant negative consequences following any marketing approval.
- The therapeutic efficacy and safety of ganaxolone are unproven, and we may not be able to successfully develop and commercialize ganaxolone in the future.
- Clinical development of product candidates involves a lengthy and expensive process with an uncertain outcome.
- Even if ganaxolone receives regulatory approval, we will still face regulatory difficulties.
- We may not be able to obtain orphan drug exclusivity for ganaxolone, which could limit the potential profitability of ganaxolone.
- Even though we have received Rare Pediatric Disease (RPD) Designation for ganaxolone for the treatment of CDD, we may not receive a rare pediatric disease priority review voucher.
- Failure to obtain regulatory approval in international jurisdictions would prevent ganaxolone from being marketed in these jurisdictions.

Risks Related to the Commercialization of Our Product

- Our commercial success depends upon attaining significant market access and acceptance of ganaxolone, if approved, among physicians, patients, government and private payers and others in the medical community and attaining sufficient reimbursement for ganaxolone.

- We face substantial competition, which may result in others discovering, developing or commercializing products before or more successfully than we do.

Table of Contents

- If we are unable to establish sales and marketing capabilities or enter into agreements with third parties to market and sell ganaxolone, we may be unable to generate any revenue.
- Even if we are able to commercialize ganaxolone, it may not receive coverage and adequate reimbursement from third-party payers, which could harm our business.
- If the market opportunities for ganaxolone are smaller than we believe they are, our results of operations may be adversely affected and our business may suffer.

Risks Related to Our Dependence on Third Parties

- We rely on third parties to conduct our preclinical studies and clinical trials. If these third parties do not successfully carry out their duties in compliance with contractual and/or regulatory requirements or meet expected deadlines, our development plans may be adversely affected and we may not be able to obtain regulatory approval for or commercialize ganaxolone.
- Our experience manufacturing ganaxolone is limited to the needs of our preclinical studies and clinical trials. We have no experience manufacturing ganaxolone on a commercial scale and have no manufacturing facility. We are dependent on third-party manufacturers for the manufacture of ganaxolone as well as on third parties for our supply chain, and if we experience problems with any such third parties, the manufacturing of ganaxolone could be delayed.
- Government funding for certain of our programs adds uncertainty to our research efforts with respect to those programs and may impose requirements that increase the costs of commercialization and production of product candidates developed under those government-funded programs.

Risks Related to Regulatory Compliance

- Recently enacted and future legislation, including potentially unfavorable pricing regulations or other healthcare reform initiatives, may increase the difficulty and cost for us to obtain marketing approval of and commercialize ganaxolone and affect the prices we may obtain.

Risks Related to Intellectual Property

- If we are unable to protect our intellectual property rights or if our intellectual property rights are inadequate for our technology and product candidates, our competitive position could be harmed.
- Third parties, such as Ovid Therapeutics, Inc., may initiate legal proceedings alleging that we are infringing their intellectual property rights, the outcome of which would be uncertain and could harm our business.
- We may not be able to protect our intellectual property rights throughout the world.
- Patent terms may be inadequate to protect our competitive position on our products for an adequate amount of time.
- We rely on government funding for certain of our research and development activities and we may develop intellectual property through such activities and therefore may be subject to federal regulations such as "march-in" rights, certain reporting requirements and a preference for U.S. based companies. Compliance with such regulations may limit our exclusive rights, and limit our ability to contract with non-U.S. manufacturers.

Risks Related to our Business Operations

- The COVID-19 pandemic could adversely affect our business and our ability to conduct and complete clinical trials.

Risks Related to Ownership of Our Common Stock

- The market price of our stock has been, and may continue to be, highly volatile, and you could lose all or part of your investment.

- Insiders have substantial influence over us and could delay or prevent a change in corporate control.

PART I

Unless the context requires otherwise, any references in this Annual Report on Form 10-K to "we," "us," "our," the "Company" or "Marinus" refers to Marinus Pharmaceuticals, Inc. and its wholly-owned subsidiary. Unless otherwise indicated, all share and per share amounts in this Annual Report on Form 10-K reflect, as applicable, the occurrence of a 1-for-4 reverse split of our common stock that occurred on September 23, 2020.

Item 1. Business.

Overview

We are a clinical stage pharmaceutical company focused on developing and commercializing innovative therapeutics to treat patients suffering from rare seizure disorders. Our clinical stage product candidate, ganaxolone, is a positive allosteric modulator of $GABA_A$ that is being developed in formulations for two different routes of administration: intravenous (IV) and oral. Ganaxolone is a synthetic analog of allopregnanolone, an endogenous neurosteroid. The different formulations are intended to maximize potential therapeutic applications of ganaxolone for adult and pediatric patient populations, in both acute and chronic care, and for both in-patient and self-administered settings. Ganaxolone acts at both synaptic and extrasynaptic $GABA_A$ receptors, a target known for its anti-seizure, antidepressant and anxiolytic potential.

COVID-19

In December 2019, an outbreak of a novel strain of coronavirus (COVID-19) was identified in Wuhan, China. This virus was declared a pandemic by the World Health Organization in March 2020 and has spread to nearly every country in the world, including the U.S. Efforts to contain the spread of COVID-19 have intensified and many countries, including the U.S., have implemented severe travel restrictions, business shutdowns and social distancing measures that have impacted clinical development through supply chain shortages and clinical trial enrollment difficulties as hospitals reduce and redeploy staff, divert resources to patients suffering COVID-19 and limit hospital access for non-patients. The pandemic poses the risk that we, our contractors, suppliers, or other partners may be prevented from conducting normal business activities for an indefinite period of time, including those due to shutdowns that may be requested or mandated by governmental authorities.

The continued global spread of COVID-19 has affected our operations but did not have a material impact on our business, operating results, financial condition or cash flows as of and for the year ended December 31, 2020. For example, several of our Phase 1 trials of oral ganaxolone to support the CDD indication have continued enrollment and are expected to be completed by the end of the second quarter of 2021, despite experiencing delays in enrollment due to COVID-19. Further, in response to COVID-19, for our ongoing clinical trials, we have implemented multiple measures consistent with guidance of the FDA on the conduct of clinical trials of medical products during the COVID-19 pandemic, including implementing remote site monitoring and remote visits using telemedicine where needed. However, COVID-19 may still adversely impact our clinical trials. For example, our RAISE Trial in refractory status epilepticus (RSE) is being conducted in hospitals, and resources related to the COVID-19 pandemic may divert staffing in hospitals, taking resources away from our clinical trial. Our ganaxolone clinical trials in the outpatient setting may be negatively impacted if patients and their caregivers do not want to participate in a clinical trial while the COVID-19 pandemic continues to severely affect the world. Although operations were not materially affected by the COVID-19 pandemic as of and for the year ended December 31, 2020, we are unable to predict the impact that COVID-19 will have in the future on our business, financial position, operating results and cash flows due to numerous uncertainties. The duration and severity of the pandemic and its long-term impact on our business are uncertain at this time, and our ability

to raise sufficient additional financing depends on many factors beyond our control, including the current volatility in the capital markets as a result of the COVID-19 pandemic.

Our Pipeline

We are developing ganaxolone in indications where there is a mechanistic rationale for ganaxolone to provide a benefit, including the following indications:

Status Epilepticus (SE)

Status epilepticus (SE) is a life-threatening condition characterized by continuous, prolonged seizures or rapidly recurring seizures without intervening recovery of consciousness. If SE is not treated urgently, permanent neuronal damage may occur, which contributes to high rates of morbidity and mortality. Patients with SE who do not respond to first-line benzodiazepine treatment are classified as having established SE (ESE) and those who then progress to and then fail at least one second-line antiepileptic drug (AED) are classified as having RSE. In RSE, synaptic $GABA_A$ receptors are internalized into the neuron, resulting in decreased responsiveness to drugs such as benzodiazepines. Patients with RSE unresponsive to one or more second-line AEDs may be given an IV anesthetic to terminate seizures and prevent neuronal injury and other complications. SE that recurs following an attempted wean of IV anesthesia is classified as super refractory status epilepticus (SRSE). We estimate the number of cases of SE in the United States and Europe to be approximately 156,000 per year, with approximately 50% progressing to ESE and approximately 50% of those patients further progressing to ESE. In April 2016, we were granted FDA orphan drug designation for IV formulation of ganaxolone for the treatment of SE.

In September 2019, we announced positive top-line results in our open-label, dose-finding Phase 2 clinical trial evaluating IV ganaxolone in patients with RSE. The trial enrolled 17 medically heterogeneous patients who received an infusion of IV ganaxolone for up to 96 hours added to standard-of-care In addition to the target dose (713 mg/day), patients were enrolled into low dose (500 mg/day) and medium dose (650 mg/day) groups. Patients in the trial had failed a mean of 2.1 second-line IV AEDs (a mean of 2.9 total AED medications, including benzodiazepines) administered at therapeutic dose levels for an average of four hours prior to ganaxolone treatment.

In this clinical trial, ganaxolone met the primary endpoint with no patients (n=17) progressing to IV anesthetics within 24 hours of treatment initiation. The following table summarizes efficacy data through the four-week post treatment follow-up visit:

Table of Contents

Cohort	No escalation to IV anesthetics within 24 hrs from infusion initiation(Primary Endpoint)	Status-free through 24 hrs from infusion initiation*	No escalation to additional IV AEDs or IV anesthetics for status relapse at any time through 24 hrs after ganaxolone discontinuation	No SE relapse during the 4-wk follow up period
Target (713 mg/day) *(n=8)*	**100%** (8 of 8)	**88%** (7 of 8)	**100%** (8 of 8)	**100%** (6 of 6)
Medium (650 mg/day) *(n=4)*	**100%** (4 of 4)	**100%** (4 of 4)	**75%** (3 of 4)	**67%** (2 of 3)
Low (500 mg/day) *(n=5)*	**100%** (5 of 5)	**100%** (5 of 5)	**60%** (3 of 5)	**50%** (1 of 2)

*Investigator determination

In addition, the median time to status cessation across all dose cohorts was five minutes. Additional long-term data demonstrate that patients in the target dose cohort who were assessed at the end of a four-week follow up period (n=6) did not experience status relapse. An independent retrospective central review of continuous electroencephalography (EEG) data demonstrated that the target dose level provided sustained reductions in seizure burden (greater than 80%) throughout the entire analysis window.

In September 2020, we entered into a contract (BARDA Contract) with the Biomedical Advanced Research and Development Authority (BARDA), a division of the U.S. Department of Health and Human Services' Office of the Assistant Secretary for Preparedness and Response. Under the BARDA Contract, we received an award of up to an estimated $51 million for development of RSE. The BARDA Contract provides funding to support, on a cost-sharing basis, the completion of a Phase 3 clinical trial of IV-administered ganaxolone in patients with RSE (our Phase 3 clinical trial evaluating IV ganaxolone for the treatment of RSE (RAISE Trial)), funding of pre-clinical studies to provide support that IV-administered ganaxolone could be an effective treatment for RSE due to chemical nerve gas agent exposure, and funding of certain manufacturing scale-up and regulatory activities.

The BARDA Contract consists of a base period of approximately a two year duration during which BARDA will provide approximately $21 million of funding for the RAISE Trial on a cost share basis and funding of additional preclinical studies of ganaxolone in nerve agent exposure models. Following successful completion of the RAISE Trial and preclinical studies in the base period, the BARDA Contract provides for approximately $30 million of additional BARDA funding for three options in support of manufacturing, supply chain, clinical, regulatory and toxicology activities. Under the BARDA Contract, we will be responsible for cost sharing in the amount of approximately $33 million and BARDA will be responsible for approximately $51 million, if all development options are completed. The contract period-of-performance (base period plus option exercises) is up to approximately five years.

In January 2021, we enrolled the first patient in the RAISE Trial. The RAISE Trial is a randomized, double-blind, placebo-controlled clinical trial in patients with RSE. Approximately 80 trial sites in hospitals across the U.S. will participate. The trial is designed to enroll approximately 124 patients, who will be randomized to receive ganaxolone or placebo added to standard of care. With this number of patients, the trial is designed to provide over 90 percent power to detect a 30 percent efficacy difference between ganaxolone and placebo.

The co-primary endpoints for the RAISE Trial are (1) proportion of patients with RSE who experience seizure cessation within 30 minutes of treatment initiation without other medications for the treatment of RSE, and (2) proportion of patients with no progression to IV anesthesia for 36 hours following treatment initiation. We plan to announce top-line data from the trial in the first half of 2022. Planning continues for a separate RSE trial to be conducted in Europe. We are meeting with the EMA to discuss trial design in the first quarter of 2021 and a registration trial is planned to commence in the first half of 2022.

Table of Contents

In addition to the RAISE Trial, we have also provided IV ganaxolone under Emergency Investigational New Drug (eIND) applications for use in treating patients with SRSE and plans are also underway for a future SE clinical trial focusing on earlier intervention in ESE. The trial will be conducted in emergency rooms under exception from informed consent guidelines and will enroll patients with convulsive SE. We are making preparations to commence a Phase 2 clinical trial in ESE that is planned to begin in the first half of 2022. We expect that the trial will be composed of two stages, the initial open-label, dose optimization stage and subsequent double-blind placebo-controlled stage. We anticipate that during the open-label portion of the trial, multiple sequential cohorts of patients will be assessed to determine the bolus dose and subsequent IV infusion rate and infusion duration to be used in the double-blind second stage of the trial. We expect that this double-blind placebo-controlled phase will enroll approximately 80 ESE patients equally distributed among two arms of the trial who, in addition to standard of care, will receive either IV ganaxolone or placebo. We also expect that the primary efficacy endpoint of the trial will be the absence of electrographic (rapid EEG) evidence of SE or recurrence of generalized convulsions at 1 hour after the initiation of treatment. We plan to announce top-line data from the trial in the middle of 2023.

CDKL5 Deficiency Disorder (CDD)

CDD is a serious and rare genetic disorder that is caused by a mutation of the cyclin-dependent kinase-like 5 (CDKL5) gene, located on the X chromosome. It predominantly affects females and is characterized by early-onset, difficult-to-control seizures and severe neuro-developmental impairment. The CDKL5 gene encodes proteins essential for normal brain function. Most children affected by CDD cannot walk normally, talk, or care for themselves. Many also suffer from scoliosis, visual impairment, gastrointestinal difficulties or sleep disorders. There are no medications approved specifically for the treatment of CDD. Genetic testing is available to determine if a patient has a mutation in the CDKL5 gene. To our knowledge, no previous late-stage clinical trials have been conducted in this patient population and we estimate the CDD population to be approximately 12,500 patients in the United States and Europe. In June 2017, we were granted FDA orphan drug designation for ganaxolone for the treatment of CDKL5 Disorder. Additionally, in November 2019, the EMA Committee for Orphan Medicinal Products (COMP) granted orphan drug designation for ganaxolone for the treatment of CDKL5 Disorder.

In September 2020, we announced that ganaxolone achieved the primary endpoint in a Phase 3 clinical trial (Marigold Study) in children and young adults with CDD. The Marigold Study was a global, double-blind, placebo-controlled trial that enrolled 101 patients between the ages of 2 and 21 with a confirmed disease-related CDKL5 gene variant. Patients underwent a six-week prospective baseline period to collect seizure data, followed by a 17-week double-blind treatment phase during which study treatment was added to existing AED therapy. Patients randomized to ganaxolone titrated over four weeks to a dose of up to 600 mg of oral liquid suspension three times a day and maintained that dose for the following 13 weeks. Following the double-blind treatment phase, all patients had the opportunity to receive ganaxolone in the open label phase of the trial. The primary efficacy endpoint was percent change in 28-day seizure frequency for major motor seizures (tonic-clonic, tonic, atonic and clonic seizures). Patients given ganaxolone showed a 32.2% median reduction in 28-day major motor seizure frequency, compared to a 4.0% reduction for those receiving the placebo, a statistically significant difference for the primary endpoint ($p=0.002$). Ganaxolone was generally well-tolerated, demonstrating a safety profile consistent with previous clinical trials. The most frequent adverse event was somnolence.

We have received feedback from the U.S. Food and Drug Administration (FDA) that the efficacy and safety data resulting from the Marigold Study appear capable of supporting the filing of an NDA for ganaxolone in the treatment of CDD and a pre-NDA meeting with the FDA is scheduled for March 2021 to gain FDA alignment on the proposed format and content of the NDA. Subject to the feedback from the FDA, we plan to submit an NDA for ganaxolone in the treatment of CDD to the FDA in mid-2021 and a

Marketing Authorization Application (MAA) for ganaxolone for the treatment of CDD to the European Medicines Agency (EMA) at the end of the third quarter of 2021.

We continue to execute on our pre-commercial development plans for CDD, while simultaneously exploring commercialization opportunities for ganaxolone in CDD with third parties to maximize patient access. As such, we have launched an Expanded Access Program (EAP), which will allow patients who were not able to participate in the

Re: Explanation of arrest

To whom it may concern,

In 1998 when I was 20 years old, I was allowed into a bar without showing ID by the bar employee that was a friend of an acquaintance of a large group I was with. After entering the bar, an employee of the bar told me a police officer wanted to talk with me outside. The police officer asked me for my wallet. I provided the police officer with my driver's license but the officer insisted that I give him my wallet. After refusing to give the police officer my wallet, I was arrested and charged with obstructing a police officer and resisting arrest without violence. The disposition was nolle prosequi.

In 2001 when I was 23 years old, a police officer found marijuana on the passenger's side floor of my car. Although the marijuana belonged to the passenger, the officer charged both me and the passenger with possession of marijuana. The disposition was nolle prosequi.

In 2002 when I was 24 years old, a police officer found marijuana in my friend's car and I was charged with possession of marijuana. The disposition was nolle prosequi.

There have been no issues since.

Best of my knowledge detailed statement from: **Josue M. Navarro11/13/19**

My name is Josue Navarro and I am presently 45 years old. Many years ago when I was between the ages of 18 and 22, I pled guilty to charges of burglary, auto theft and dealing in stolen property. (Please note these charges had nothing to do with drugs, the practice of pharmacy, or the pharmaceutical industry.) Since this happened over 20 years ago; all of the convictions have long ago been closed and nothing is currently pending.

I have been gainfully employed since 1997 and have held various jobs involving significant positions of trust. Specifically, prior to working in the pharmaceutical field, I served as an accountant and financial comptroller at various law firms. In this regard, I have been responsible for major accounting functions including payroll management, expense account verification, billing, financial receivables, and I oversaw a substantial trust account assuring that all financial activity occurring therein was performed with full and complete compliance of all legal and banking regulations.

Since leaving the law firm environment my former wife and I co-founded Reliance (2003). We divorced in 2013 but I remain an active participant in the lives of my two young children. Today I'm the CEO and beneficiary of the Trust which owns 60% of Reliance stock. The business currently employs over 40 full-time employees and is licensed in almost all states with annual revenue exceeding $35 million. Reliance business of wholesaling pharmaceuticals is heavily regulated. Our operating policies and procedures in our two facilities remain in full compliance with National Association of Boards of Pharmacy criteria as well as the Drug Supply Chain Security Act.

Burglar alarm points include all exterior door contacts, select interior door contacts, glass break sensors and motion sensors.
Firm has a combination badge and key access control system on all exterior and select interior doors to protect from unauthorized access.
CCTV system retains recordings for 30+ days and covers the exterior, front office and warehouse areas.

Firm has a total of 40 full time employees. Per Phinney firm is planning to hire 12 more employees in the first half of 2020.
- 4 warehouse techs
- 4 account executives
- 1 Business development
- 2 Administrative position
- 1 Human Resources role

Per Phinney, the current list of Key Personnel is the following:

- Jose Trespalacios, Vice President
- Michelle Risco, Director of Sales & Strategic Sourcing
- Jacob Beck, Director of Supply Chain & Compliance officer (CDR)
- Chad Phinney, Manager Warehouse (CDR)
- Jessica Woolridge, Manager Warehouse (CDR)

Per Trespalacios and Phinney, firm is planning to apply for a 3PL permit at this location in the future in order to expand business and to provide service to small manufactures and to manufacturers for rare diseases. Per Mr. Trespalacios, he has seen the need in the market and Reliance would like to fill up that gap. Per Jake, Records will be segregated and specific drug areas for 3PL and for wholesaler drugs will be assigned by Reliance system. Firm currently holds a 3PL permit in Tennessee, but they have not had any costumer yet.

Facility
Firm understands that a Prescription drug wholesaler shall comply with storage and handling of prescription drugs requirements set forth in s. 499.0121 F.S. and other rules that the Department requires.

Facility was toured on 01/15/2021 with Trespalacios and Phinney. Office area and warehouse are only connected by one internal door which has key access and it is alarmed. The warehouse has two bay doors (firm is planning to use one bay door for shipping and another bay door for receiving). Warehouse has two main entrance doors. These entrances are main entrances from the street and independent from the office area.
Warehouse is divided into three area:
Receiving and office space
Shipping and wholesaler storage area
There is another area in the back which is designated for future 3PL activities and for a walk in freezer and refrigerator. This area is divided from the others two areas by two internal bay doors and one internal door.

Firm understands that facility must be maintained clean and orderly. Firm to review 499.0121(1)(d) F.S.

The new facility does not have a cage or vault. Firm does not stock, sell and/or distribute controlled substances. Per Trespalacios, firm will apply to a DEA controlled substance license, only if in the future a new 3PL costumer has a scheduled drug.
Temperature is monitored by Sensapush system. Sensapush allows PHINNEY to monitor temperature and humidity readings through an app on his phone. If the temperature goes out of spec, he receives a message.
System is installed; however, it will be activated once Rx drugs are moved to this new facility.
PHINNEY will monitor temperature everyday at around 3:00pm and will share data with Jessica Wooldridge, CDR Warehouse Manager and Jake Beck, Director Supply Chain Compliance Officer, CDR. Wooldridge and Beck will send their daily RELIANCE TN readings to PHINNEY, and PHINNEY will send his readings to Wooldridge and Beck. Daily, monthly and weekly readings will be stored in Phinney's computer.

Phinney was advised to review 61N-1.013(3)(a)(b)F.A.C. for prescription Drugs storage requirements.

Refrigerator present.
Monitoring and recording of temperatures observe.

Firm has clearly Designated Quarantine area.

No business activity was observed.

Firm understands that a quarantine area shall be clearly marked and designated separate and apart from any other place where drugs are stored so that products therein shall not be confused with usable products. Firm must quarantine outdated, damaged, deteriorated, misbranded or adulterated prescription drugs until they are either destroyed or returned to their supplier. Firm to review 499.0121(1)(c),(5)(a)1. F.S. and 61N-1.013(4) F.A.C.

Re: Ownership Disciplinary Action Explanation

Greetings,

This letter is in reference to a subsidiary of Summit Holdings XI, LLC that was the subject of a disciplinary action against its state pharmacy license. Summit Holdings XI, LLC is the owner of Heritage Biologics, LLC, a specialty pharmacy that is licensed in fifty states. In 2020, Heritage Biologics was the subject of a disciplinary action and reciprocal investigation and settlement related to the failure to submit an application to the Board for a change of pharmacist-in-charge within the required time period. This resulted in disciplinary action by two states that were resolved by settlement.

Specifically, in October of 2020, the Maine Board of Pharmacy found that Heritage Biologics failed to submit an amended application reporting a change of pharmacist-in-charge within the seven day time period required by Maine pharmacy regulation. Heritage Biologics misunderstood the requirement and submitted written notification of the change within seven days, but did not submit the formal amended application until notified of the issue seventeen days after the change. As such, **the pharmacy was found to be in violation of Maine's regulation and agreed to the imposition of a warning and $500** civil penalty.

The reciprocal action was settled in July of 2021 with the State of Hawaii. The pharmacy was required to pay a $500 administrative fine. The Hawaii action was based on the Maine issue alone and alleged no additional wrongdoing. Specifically, the settlement states that **"[t]he allegations ... relate only to the Maine Board of Pharmacy disciplinary action. Petitioner asserts no additional act or wrongdoing, and confirms that there is no allegation of patient or consumer harm in the State of Hawaii."**

The error that resulted in the Maine warning, highlighted a weakness in **the company's** compliance monitoring that has now been resolved. In order to ensure compliance with the fifty sets of state board of pharmacy laws and regulations that the pharmacy operates under, they conduct ongoing monitoring and tracking of pharmacy laws and regulations. In response to the Maine disciplinary action, they reviewed all tracking systems to ensure that any potential gaps were closed. The pharmacy had **tracked the state's statute but not the more specific state regulation that contained the application requirement. Given this,** they went back to ensure that any states where they had noted only a statute on a particular issue were reviewed to ensure that there were no more specific state regulations. Likewise, the Compliance Director regularly reviews pending regulations and researches each Board of Pharmacy to ensure that they are aware of any law or regulation that has been passed. They have also involved the services of a law firm, Polsinelli, to assist with regulatory and compliance questions as they arise.

Should you have any questions, I can be reached at 816.875.5269.

BOARD OF PHARMACY

IN RE:	)	
	)	
HERITAGE BIOLOGICS, INC.	)	
	)	CONSENT AGREEMENT
Case No. 2020-PHA-16476	)	

PARTIES

This document is a Consent Agreement regarding disciplinary action against the mail order prescription pharmacy license of Heritage Biologics, Inc. ("Heritage") in the State of Maine. The parties to this Consent Agreement are: Heritage, the Maine Board of Pharmacy ("the Board"), and the Maine Office of the Attorney General ("the Attorney General"). This Consent Agreement is entered into pursuant to 10 M.R.S. § 8003(5-A).

FACTS

1. At all times relevant to this matter, Heritage was licensed by the Board as a mail order prescription pharmacy, license no. MO40002094, located at 255 NW Victoria Drive, Lees Summit, Missouri.

2. On August 30, 2019, Megan Johnson replaced Joseph Saupee as the pharmacist in charge ("PIC") of Heritage, thereby requiring Heritage to submit a Change of PIC application to the Board within 7 days after the PIC change.

3. Heritage, however, did not file a change of PIC application with the Board until September 17, 2019.

4. On June 6 2020, Board Administrator, Geraldine Betts, filed an administrative complaint with the Board alleging that Heritage had failed to file a timely change of PIC application.

5. This administrative complaint was docketed as case no. 2020-PHA-16476.

6. Under Board Rules Chapter 11, § 3, upon a change of PIC, a mail order prescription pharmacy must file a new application with the Board by registered mail no later than seven (7) days after the change.

7. Pursuant to the Board's delegation of authority dated January 3, 2019, which authorizes Board Staff to offer prescribed consent agreements to resolve first-time violations of PIC change notification requirements, this Consent Agreement is being offered to finally resolve Case No. 2020-PHA-16476.

8. Absent acceptance of this Consent Agreement by signing and dating it and returning it to Board of Pharmacy, Complaint Division, Office of Professional and Occupational Regulation, 35 State House Station, Augusta, ME 04333 by **July 10, 2020**, the Board will resolve this matter by holding an adjudicatory hearing.

COVENANTS

9. Heritage admits to the facts as stated above and admits that such conduct constitutes grounds for discipline pursuant to 10 M.R.S. § 8003(5-A)(A)(5) for violating a rule of the Board, specifically Board Rules Chapter 11, § 3, by failing to file a new application with the Board by registered mail no later than 7 days after a change of PIC.

10. As DISCIPLINE for the violation admitted to in paragraph 9 above, Heritage agrees to accept the imposition of:

a. A WARNING; and

b. A CIVIL PENALTY in the amount of five hundred dollars ($500.00). Payment of the civil penalty shall be made by check or money order payable to the "Treasurer, State of Maine" and delivered to the Board of Pharmacy, Complaint Division, Office of Professional and Occupational Regulation, 35 State House

Station, Augusta, ME 04333, and must be submitted with the signed Consent Agreement.

241042211

SETTLEMENT AGREEMENT PRIOR TO FILING OF PETITION
FOR DISCIPLINARY ACTION AND BOARD'S FINAL ORDER

Petitioner, DEPARTMENT OF COMMERCE AND CONSUMER AFFAIRS' REGULATED INDUSTRIES COMPLAINTS OFFICE (hereinafter "RICO" or "Petitioner"), through its undersigned attorney(s), and Respondent HERITAGE BIOLOGICS, INC. (hereinafter "Respondent"), enter into this Settlement Agreement on the terms and conditions set forth below.

A. UNCONTESTED FACTS:

1. At all relevant times herein, Respondent was licensed by the BOARD OF PHARMACY (hereinafter the "Board") under miscellaneous permit number PMP 1296. The miscellaneous permit was issued on or about July 5, 2016. The miscellaneous permit will expire or forfeit on or about December 31, 2021.

2. Respondent's mailing address for purposes of this action is 255 NW Victoria Drive, Lee's Summit, Missouri 64086.

3. RICO alleges that Respondent timely reported to the Board of being disciplined by the Maine Board of Pharmacy on or about October 1, 2020 when it entered into a *Consent*

I HEREBYCERTIFY THAT THE ATTACHED IS A TRUE AND CORRECT COPY OF THE ORIGINAL ON FILE IN THE DEPARTMENT OF COMMERCE & CONSUMER AFFAIRS.

Agreement in case PHA-2020-16476 where it paid a civil penalty in the amount of $500.00 to resolve allegations of failing to timely submit an amended application reporting a change of pharmacist-in-charge. Specifically, Respondent had submitted notice of a change in pharmacist-in-charge within the time period specified by statute but failed to timely submit a new application as is required by the Maine Board of Pharmacy regulation.

4. The allegations contained herein relate only to the Maine Board of Pharmacy disciplinary action. Petitioner asserts no additional act or wrongdoing, and confirms that there is no allegation of patient or consumer harm in the State of Hawaii.

5. The foregoing allegations, if proven at an administrative hearing before the Board, would constitute violations of the following statute(s) and/or rule(s): Hawaii Revised Statutes ("HRS") § 436B-19(13) (disciplinary action by another state against the licensee).

6. The Board has jurisdiction over the subject matter herein and over the parties hereto.

B. REPRESENTATIONS BY RESPONDENT:

1. Respondent is fully aware that Respondent has the right to be represented by an attorney and voluntarily waives that right.

2. Respondent enters into this Settlement Agreement freely, knowingly, voluntarily, and under no coercion or duress.

3. Respondent is aware of the right to have a hearing to adjudicate the issues in the case. Pursuant to HRS § 91-9(d), Respondent freely, knowingly, and voluntarily waives the right to a hearing and agrees to dispose of this case in accordance with the terms and conditions of this Settlement Agreement.

4. Respondent being at all times relevant herein licensed as a pharmacy by the Board acknowledges that Respondent is subject to penalties including but not limited to, revocation, suspension or limitation of the miscellaneous permit and administrative fines, if the foregoing allegations are proven at hearing.

5. Respondent does not admit to violating any law or rule, but acknowledges that RICO has sufficient cause to file a Petition for Disciplinary Action against Respondent's miscellaneous permit.

6. Respondent enters into this Settlement Agreement as a compromise of the claims and to conserve on the expenses of proceeding with an administrative hearing on this matter.

7. Respondent agrees that this Settlement Agreement is intended to resolve the issues raised in RICO's investigation in RICO Case No. PHA 2021-11-L.

8. Respondent understands that this Settlement Agreement may be subject to reporting requirements.

9. Respondent understands this Settlement Agreement is public record pursuant to Hawaii Revised Statutes Chapter 92F.

C. TERMS OF SETTLEMENT:

1. Administrative Fine. Respondent agrees to pay a fine in the amount of FIVE HUNDRED AND NO/100 DOLLARS ($500.00). Payment shall be made by **cashier's check or money order made payable to "DCCA - Compliance Resolution Fund"** and mailed to the Regulated Industries Complaints Office, Attn: Marc T. Nakamura, Esq., 235 S. Beretania Street, 9th Floor, Honolulu, Hawaii 96813. Payment of the fine shall be due at the time this Settlement Agreement is returned to RICO.

2. Failure to Comply with Settlement Agreement. If Respondent fails to fully and timely comply with the terms of this Settlement Agreement as set forth in paragraph(s) C.1 above, Respondent's miscellaneous permit shall be automatically revoked upon RICO's filing of an affidavit with the Board attesting to such failure. In case of such revocation, Respondent shall turn in all indicia of the miscellaneous permit to the Executive Officer of the Board within ten (10) days after receipt of notice of the revocation. In case of such revocation, Respondent understands Respondent cannot apply for a new miscellaneous permit until the expiration of at least five (5) years after the effective date of the revocation. Respondent understands that if Respondent desires to become licensed again, Respondent must apply to the Board for a new miscellaneous permit pursuant to and subject to HRS §§ 92-17, 436B-21, and all other applicable laws and rules in effect at the time.

3. Possible Further Sanction. The Board, at its discretion, may pursue additional disciplinary action as provided by law to include further fines and other sanctions as the Board may deem appropriate if Respondent violates any provision of the statutes or rules governing the conduct of a pharmacy issued a miscellaneous permit in the State of Hawaii, or if Respondent fails to abide by the terms of this Settlement Agreement.

4. Approval of the Board. Respondent agrees that, except for the representations, agreements and covenants contained in Paragraphs C.5, C.6, C.7 and C.8 below, this Settlement Agreement shall not be binding on any of the parties unless and until it is approved by the Board.

5. No Objection if Board Fails to Approve. If the Board does not approve this Settlement Agreement, does not issue an order pursuant thereto, or does not approve a lesser remedy, but instead an administrative hearing is conducted against Respondent in the Board's usual and customary fashion pursuant to the Administrative Procedure Act, Respondent agrees that neither Respondent nor any attorney that Respondent may retain, will raise as an objection in any administrative proceeding or in any judicial action, to the Board's proceeding against Respondent on the basis that the Board has become disqualified to consider the case because of

its review and consideration of this Settlement Agreement.

6. Any Ambiguities Shall be Construed to Protect the Consuming Public. It is agreed that any ambiguity in this Settlement Agreement is to be read in the manner that most completely protects the interests of the consuming public.

7. No Reliance on Representations by RICO. Other than the matters specifically stated in this Settlement Agreement, neither RICO nor anyone acting on its behalf has made any representation of fact, opinion or promise to Respondent to induce entry into this Settlement Agreement, and Respondent is not relying upon any statement, representation or opinion or promise made by RICO or any of its agents, employees, representatives or attorneys concerning the nature, extent or duration of exposure to legal liability arising from the subject matter of this Settlement Agreement or concerning any other matter.

8. Complete Agreement. This Settlement Agreement is a complete settlement of the rights, responsibilities and liabilities of the parties hereto with respect to the subject matter hereof; contains the entire agreement of the parties; and may only be modified, changed or amended by written instrument duly executed by all parties hereto.

IN WITNESS WHEREOF, the parties have signed this Settlement Agreement on the date(s) set forth below. Each signatory to this Settlement Agreement hereby represents and warrants that he/she is authorized to execute and deliver this Settlement Agreement in the capacity shown below.

Designated Representative Application

Rev (04/22/2021)

An application for a license, or a licensee with a license, to conduct a pharmacy or to operate as a wholesaler shall designate at least one natural person to serve as the representative of the pharmacy or wholesaler. The Board will not issue or renew a license of an applicant or licensee that is required to designate a representative of a pharmacy or wholesaler unless the Board determines that the designated natural person meets the following qualifications per NAC 639.5005 (Pharmacy) or NAC 639.5935 (Wholesaler):

1. Is at least 21 years of age;
2. Has been employed for at least 6,000 hours in a pharmacy or with a wholesaler in a capacity related to the dispensing and distribution of, and recordkeeping related to, prescription drugs.

The designated representative of a pharmacy or a wholesaler:

1. Must be actively involved in and aware of the actual daily operations of the pharmacy or wholesaler;
2. Must be employed full-time in a managerial level position with the pharmacy or wholesaler;
3. Must be physically present at site of the pharmacy or at the facility of the wholesaler during regular business hours, except when the absence of the representative is authorized, including sick leaves, vacation leaves and other authorized absences; and
4. May serve in this representative capacity for only one pharmacy or wholesaler at a time

A pharmacy or wholesaler that is required to designate a natural person as its representative shall not open or operate the pharmacy or wholesaler unless that representative is actually employed full-time in the operation of the pharmacy or wholesaler and is physically present at the site of the pharmacy or wholesaler during regular working hours, not including sick leave, vacation leave and other authorized absences from work. If the natural person designated as the representative of a pharmacy leaves the employ of the pharmacy or wholesaler, thus leaving the pharmacy or wholesaler without a representative in violation of this section, the pharmacy or wholesaler shall:

1. Immediately cease conducting business until another qualified natural person is approved by the Board to serve as the representative of the pharmacy or wholesaler; and
2. Not later than 48 hours after that person leaves its employ, notify the Board that the person designated as the representative of the pharmacy or wholesaler has left the employ of the pharmacy or wholesaler.

Before a pharmacy or wholesaler, that is in violation of NAC 639.5005 (Pharmacy) or NAC 639.5935 (Wholesaler) because the natural person designated as the representative of the pharmacy or wholesaler left the employ of the pharmacy or wholesaler, may continue conducting business:

1. The pharmacy or wholesaler must designate, on a form provided by the Board, a new natural person to serve as the representative of the pharmacy; and
2. The Board must approve the natural person so designated.

NOTICE REGARDING STIPULATED SETTLEMENTS

It may be possible to avoid the time, expense and uncertainties involved in an administrative hearing by disposing of this matter through a stipulated settlement. A stipulated settlement is a binding written agreement between you and the government regarding the matters charged and the discipline to be imposed. Such a stipulation would have to be approved by the Board of Pharmacy but, once approved, it would be incorporated into a final order.

Any stipulation must be consistent with the Board's established disciplinary guidelines; however, all matters in mitigation or aggravation will be considered. A copy of the Board's Disciplinary Guidelines will be provided to you on your written request to the state agency bringing this action.

If you are interested in pursuing this alternative to a formal administrative hearing, or if you have any questions, you or your attorney should contact Deputy Attorney General Andrew M. Steinheimer at the earliest opportunity.

NEVADA STATE BOARD OF PHARMACY,

Petitioner,

v.

FINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER

ROBERT MAI, R.Ph.,
Certificate of Registration #12874,

Case No. 11-068-RPH-N

SAVE MART PHARMACY #551,
Certificate of Registration #PH01036,

Case No. 11-068-PH-N

Respondents.

THIS MATTER was heard by the Nevada State Board of Pharmacy (hereinafter Board) at its regular meeting on June 6, 2012 in Reno, Nevada. The Board was represented by Carolyn J. Cramer, General Counsel to the Board. Respondent Robert Mai represented himself and Robert Vaughan Sr., Director of Pharmacy represented Respondent Save Mart Pharmacy #551. Based on the presentations of the parties and the public records in the possession and control of the Board, the Board issues the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. At hearing, the parties stipulated to the admission to all exhibits. Board staff presented the sworn testimony of Bernadette Nieto, Joseph J. Depczynski and Kim Bratton. Respondents testified on their own behalf. Based upon the presentation of the parties and the public records in the possession and control of the Board, the Board finds the following to be the facts of this matter.

2. The Respondents did not contest that Reana Sallee was dispensed 90 tablets of 600 mg gemfibrozil instead of 90 tablets of 600 mg. gabapentin as prescribed by her

physician. Ms. Nieto testified that she had picked up the refill of her daughter's medication. Ms. Nieto testified that when she arrived at Save Mart #551 to pick up the prescription the prescription was not ready and the pharmacy staff hurried to fill the prescription. Ms. Nieto testified that she paid for the prescription and left the pharmacy. Ms. Nieto testified that within days of ingesting the medication Reana started to have more frequent seizures. During a seizure Reana fell and hit her head and Ms. Nieto took her to her physician where it was discovered that Reana had been dispensed the gemfibrozil instead of the gabapentin. Ms. Nieto then contacted the pharmacy and told them about the error in her Reana's medication. The pharmacy staff was very attentive to her needs and sympathetic that her daughter had suffered from their mistake.

3. Board Staff presented the testimony of Joseph J. Depczynski, Inspector/Investigator for the Board, who investigated the misfill of Reana's prescription which included interviewing Respondent Mai, pharmaceutical technician Kim Bratton, who was involved in the error, as well as Ms. Nieto. Mr. Depzynski identified the exhibits he collected in his investigation and testified that Kim Bratton had been given the override code by Respondent Mai. Ms. Bratton entered the NDC code for the gemfibrozil and a generic substitution warning came up that she overrode using Respondent Mai's override code. Investigator Depczynski testified that Respondent Mai did not notice that the label and the pills in the bottle were not the same medication and he put a green label on the bottle indicating that the drug may look different but the medication is the same. He then dispensed the gemfibrozil to Reana instead of the gabapentin as prescribed. Mr. Depczynski testified that since the incident the pharmacy has moved the look alike/sound alike drugs to different parts of the pharmacy and use another generic manufacturer so the stock bottles do not look alike.

4. Board Staff presented the testimony of Kim Bratton, who has 14 years experience as a pharmaceutical technician and has worked with Respondent Mai for four years. Ms. Bratton testified that she recalled filling the prescription because Ms. Nieto was waiting. When asked whether Ms. Bratton knew what a GPI warning was she stated that it meant that something did not match. Ms. Bratton acknowledged that she may not have given Respondent Mai any of the override information that was generated when she processed the prescription when she gave it to Respondent Mai for verification because she was in a hurry. Ms. Bratton testified that she had used Respondent Mai's security code and used it to override the system to process the prescriptions even though she knew she should not have it. Ms. Bratton acknowledged that she should have printed the DUR screen for Respondent Mai to review, but she did not, again because she was in a hurry.

5. Respondents made statements of explanation and mitigation. Mr. Vaughn testified that Save Mart is committed to patient safety and that after this incident happened Save Mart has modified their computer system so that a pharmacist cannot override the GPI warning and pharmacists are strictly forbidden to share security codes with pharmaceutical technicians.

6. Mr. Mai testified that at the time the error occurred the Save Mart system did not have a scanning system in place and all NDC codes were input by hand. Mr. Mai indicated that the system has been corrected so that GPI warnings cannot be overridden, but he testified that he sees so many repetitive alerts that he has become immune to them and finds it is distracting to go back and forth from what he is working on to a pharmaceutical technicians workstation to override an alert which is why he shared his security code with Ms. Bratton.

CONCLUSIONS OF LAW

1. The Nevada State Board of Pharmacy has jurisdiction over this matter because Respondent Mai is a pharmacist licensed by the Board and Save Mart #551 is a pharmacy licensed by the Board.

2. In failing to strictly follow the instructions of Ms. Sallee's physician by verifying and refilling her prescription for 90 tablets of 600 mg. gabapentin with 90 tablets of 600 mg. gemfibrozil, Mr. Mai violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

3. In allowing a pharmaceutical technician access to his personal identifier code to override warnings without his oversight, Mr. Mai violated NRS 639.210(4) and/or NAC639.921(1)(b)(6)(II) and/or 639.945(1)(d) and/or (i).

4. In owning and operating the pharmacy in which Mr. Mai filled and dispensed Ms. Sallee's prescription for 90 tablets of 600 mg. gabapentin with 90 tablets of 600 mg. gemfirozil, Save Mart #551 vviolated NRS 639.210(4) and NAC 639.945(1)(d) and (i) and (2).

ORDER

Based upon the foregoing, the Board hereby orders the following:

1. Mr. Mai shall pay a combined fine of $2,000.00 for having been found guilty of the First and Second Causes of Action. Mr. Mai shall pay the entire fine by cashier's or certified check or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office within 90 days of the effective date of this Order.

2. Save Mart #551 for having been found guilty of the Third Cause of Action, shall within 10 days of the effective date of this Order, shall contact the Your Success Rx Program to enroll Save Mart #551 in its remediation program (hereinafter "the

program") according to the terms and conditions imposed by the program, shall cooperate fully and genuinely with the needs, demands and requirements of the program and shall pay the costs of the program at their own expense. When Save Mart #551 has completed the program, the program will submit a final report regarding its participation in the program to the Board's staff. Board staff may set an item on the Board's subsequent agenda regarding the report to discuss the report with the Board. If Board staff determines to set the item on the Board's agenda, the managing pharmacist may be required to appear on behalf of Save Mart #551 to be present for the Board's discussion, which may be held in open or closed session at the discretion of the Board

3. Save Mart #551 for having been found guilty of the Third Cause of Action, shall pay the Board's costs and fees. The total investigative fees and costs are $306.90 and the Board's administrative fee of $295.00, for a total of $601.90. Save Mart #551 will pay $601.90 by cashier's or certified check or money order made payable to "Nevada State Board of Pharmacy" to be received by the Board's Reno office within 90 days of the effective date of this Order.

4. The failure by Mr. Mai or Save Mart #551 to comply with any term in this order shall result in the immediate suspension of their license and will also result in further discipline, up to and including revocation of the their license.

NOTICE OF INTENDED ACTION AND ACCUSATION

ROBERT MAI, R.Ph.,
Certificate of Registration #12874,

Case No. 11-068-RPH-N

SAVE MART PHARMACY #551,
Certificate of Registration #PH01036,

Case No. 11-068-PH-N

Respondents.
_____/

COMES NOW Larry L. Pinson, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, and makes the following that will serve as both a notice of intended action under Nevada Revised Statutes (NRS) 233B.127(3) and as an accusation under NRS 639.241.

I.

The Nevada State Board of Pharmacy has jurisdiction over this matter because Respondent Robert Mai is a pharmacist licensed by the Board and Save Mart Pharmacy #551 (Save Mart #551) is a pharmacy licensed by the Board, located at 4348 South Carson Street, Carson City, Nevada.

II.

On or about June 28, 2011, Bernadette Nieto filed a complaint with the Board on behalf of her daughter, Reana Sallee. Ms. Nieto called in a refill of Ms. Sallee's gabapentin 600 mg. tablets (Neurontin) on June 8, 2011. When Ms. Nieto arrived at Save Mart #551, the prescription had not yet been filled, she waited at the counter until pharmacy staff completed the fill and left the pharmacy with the medication she was given. Within days of ingesting the medication she received from Save Mart #551, Ms. Sallee began to suffer frequent seizures. On the morning of June 27, 2011, Ms. Sallee

fell and hit her head above her left eye causing the area to become red and swollen. Ms. Sallee was seen by her physician that same morning at which time it was discovered that her prescription had been misfilled with gemfibrozil. Ms. Sallee had ingested 49 gemfibrozil tablets.

III.

During the investigation of this matter it was found that a pharmaceutical technician had selected gemfibrozil from the shelf rather than the gabapentin. When the pharmaceutical technician entered the NDC number into the computer an alert was generated advising that the substitute GPI was not equivalent to the GPI prescribed. It was learned from Mr. Mai that the pharmaceutical technician was familiar with his personal identifier code and she used the code to clear the warning and continued with the prescription fill. The computer system accepted the override and subsequently generated a label set identifying gemfibrozil as a generic equivalent for Neurontin. Mr. Mai verified the prescription and affixed an advisory sticker to the front of the label that read "This is the same medication that you have been getting. Color, size or shape may appear different."

FIRST CAUSE OF ACTION

IV.

In failing to strictly follow the instructions of Ms. Sallee's physician by verifying and refilling her prescription for 90 tablets of 600 mg. gabapentin with 90 tablets of 600 mg. gemfibrozil, Mr. Mai violated Nevada Revised Statutes (NRS) 639.210(4) and/or Nevada Administrative Code (NAC) 639.945(1)(d) and (i).

SECOND CAUSE OF ACTION

V.

In allowing a pharmaceutical technician access to his personal identifier code to override warnings without his oversight, Mr. Mai violated NRS 639.210(4) and/or NAC 639.921(1)(b)(6)(II) and/or 639.945(1)(d) and/or (i).

THIRD CAUSE OF ACTION

VI.

In owning and operating the pharmacy in which Mr. Mai filled and dispensed Ms. Sallee's prescription for 90 tablets of 600 mg. gabapentin with 90 tablets of 600 mg. gemfibrozil, Save Mart #551 violated NRS 639.210(4) and/or NAC 639.945(1)(d) and (i) and (2).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of the Respondents.

Respondents.

THIS MATTER was heard by the Nevada State Board of Pharmacy (hereinafter Board) at its regular meeting on June 13, 2001 in Reno, Nevada. The Board was represented by Louis Ling, General Counsel. The Respondents were represented by Brian Sandoval. Based on the public records in the possession and control of the Board, the Board issues the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. At hearing, Board staff presented the testimony of Virginia Harvey, Margaret Luckett, and Catherine Ferrando. The Respondents presented the testimony of Daniel Bouzek, Mark Johnston, Rich Mazzone, and Donald Wachsman. The parties also stipulated to the entry into evidence of one exhibit. Based upon the testimony and evidence presented at hearing and the public records in the possession and control of

the Board, the Board finds the following to be the facts of this matter.

2. On July 3, 2000, Mrs. Luckett called her physician, Dr. Kristen Laxalt, and requested refills of several prescriptions that Dr. Laxalt had written for Mrs. Luckett. One of the prescriptions was for clonidine HCL 0.1 mg. #30 (Rx #100592). Thereafter, an agent of Dr. Laxalt spoke with Mr. Bouzek regarding the refills requested by Mrs. Luckett. Mr. Bouzek made a "telephoned prescription" record of the conversation on which he recorded: "clonazepam 0.1, #60, sig 1 Bid." At hearing, Mr. Bouzek attempted to explain that he wrote "clonazepam" because he claimed that he had been told by Dr. Laxalt's agent that the prescription was for Klonapin, but Ms. Harvey testified that neither Klonapin nor clonazepam appeared in Dr. Laxalt's records. Mr. Bouzek's explanation belies his own recordation of "clonazepam 0.1," since clonazepam does not come in a 0.1 mg. strength, and his explanation that he added the "0." when he discovered the error was belied by a review of the original prescription and common practice by pharmacists. We cannot and do not find Mr. Bouzek's explanation to be credible.

3. Later on July 3, 2000, Mr. Bouzek created a new prescription for Mrs. Luckett (Rx #102710) for clonazepam 1 mg. #60. Mr. Bouzek subsequently filled Rx #102710 with clonazepam 1 mg. #60.

4. Mrs. Luckett's prescription profile did not show any previous prescriptions for clonazepam, though it did show the previous prescription for clonidine HCL. Clonazepam is unavailable in a 0.1 mg. strength, but clonidine HCL is.

5. Mrs. Luckett picked up her prescriptions on July 3, 2000 and took them home. Because she believed the prescriptions all to be refills of drugs she had previously

received, Mrs. Luckett declined counseling when it was attempted by Rolf Zarkizian, the managing pharmacist for Albertsons #149. Once home, she discovered that she had a prescription for clonazepam, not clonidine HCL. Mrs. Luckett contacted Dr. Laxalt's office and was told not to take any of the clonazepam and, instead, to return to the pharmacy because Dr. Laxalt's office would call the pharmacy and make sure that the pharmacy filled the prescription for clonidine HCL, not clonazepam.

6. Albertsons #149 was closed on July 4, 2000 for the Independence Day holiday. On July 5, 2000, Mr. Bouzek spoke with Virginia Harvey from Dr. Laxalt's office regarding the correction of Mrs. Luckett's clonazepam to change it to clonidine HCL 0.1 mg. Mr. Bouzek recorded on a "telephoned prescription" record, "clonidine .1 mg. #60 sig 1 Bid."

7. Though he had recorded the drug as clonidine HCL 0.1 mg., Mr. Bouzek created a computer prescription record (Rx #102810) for clonidine HCL 0.2 mg. #60. Mr. Bouzek filled and dispensed the prescription to Mrs. Luckett with the clonidine HCL 0.2 mg., not the 0.1 mg. ordered by Dr. Laxalt. At hearing, Mr. Bouzek testified that he had made a second telephone call to Ms. Harvey to clarify whether Dr. Laxalt had intended clonidine HCL 0.1 mg. or 0.2 mg., since Mrs. Luckett's profile showed that Mrs. Luckett had always previously received clonidine HCL 0.1 mg. Mr. Bouzek testified that Ms. Harvey confirmed that Dr. Laxalt had, in fact, intended clonidine HCL 0.2 mg., so Mr. Bouzek created a computer record and label for clonidine HCL 0.2 mg. Ms. Harvey denied having a second telephone conversation with Mr. Bouzek and testified that Dr. Laxalt's records do not show a change from clonidine HCL 0.1 mg. to 0.2 mg. on July 5, 2000. Because Mr. Bouzek's testimony and demeanor appeared

incredible -- particularly his jumbled explanation regarding the "rewrite" prescription, the "telephone prescription," and the computer-generate labels on the backs of each -- and because the physical facts corroborate Mrs. Luckett's and Mrs. Harvey's relation of events, we find that Mr. Bouzek incorrectly and negligently filled with clonidine HCL 0.2 mg. the order he had correctly transcribed as clonidine HCL 0.1 mg.

8. Mrs. Luckett took the clonidine HCL 0.2 mg. from July 2000 to the present. Mrs. Luckett discovered that she had been taking clonidine HCL 0.2 mg. when she sought to refill the prescription at the end of July 2000. Fortunately, the incorrect dose had, in fact, been therapeutic for Mrs. Luckett. Thereafter, Dr. Laxalt authorized that Mrs. Luckett continue on clonidine HCL 0.2 mg., rather than the clonidine HCL 0.1 mg. that Dr. Laxalt had actually ordered.

9. On February 2, 2001, Mrs. Luckett ordered refills from Albertsons #149 of various prescriptions for herself and Mr. Luckett, including a refill of a prescription for Mr. Luckett for acetaminophen/COD 3 #100 (Rx #114544). Mr. Wachsman, a "floater" pharmacist for Albertsons, was working as the staff pharmacist at Albertsons #149 on February 2, 2001 and was the pharmacist responsible for the filling of Mr. and Mrs. Luckett's refill prescriptions, including Mr. Luckett's prescription for acetaminophen/COD 3.

10. Mrs. Luckett picked up the refilled prescriptions on February 5, 2001. When she got the prescriptions home, she and Mr. Luckett discovered that his prescription #114544 contained 15 small pink pills, not 100 of the larger white tablets that should have been in the vial. Mr. Luckett did not ingest any of the incorrect tablets. When Mrs. Luckett took the incorrectly filled prescription #114544 back to Albertsons #149, it

was discovered that prescription #114544 had been filled with 15 estropipate.

11. At hearing, Mr. Wachsman speculated that his pharmaceutical technician had filled two prescriptions at the same time, one for Mr. Luckett for the acetaminophen/COD 3 and another as a refill for a female patient for estropipate. Mr. Wachsman believed that he simply placed the two labels on the wrong vials. He could not explain why he did not observe the size of the tablets and vials on which he had placed the labels incorrectly, since he acknowledged that the tablets were very different in size and color and the vials should have been different in size.

12. Mr. Wachsman explained the scan verification system in use at Albertsons pharmacies. He explained that all prescriptions are to be scan verified during the filling process to verify that the bar code on the prepared prescription label matches the bar code on the stock bottle. Mr. Wachsman also explained that there should have been a final scan verification of the prescription by the clerk or technician before it was dispensed to the patient. If the second scan verification showed that the prescription had not been scan verified during the filling process, then the computer system would generate an alarm so that the prescription could be checked again by a pharmacist. Unfortunately, no first or second scan verification was performed on Mr. Luckett's acetaminophen/COD 3 prescription before it was dispensed to Mrs. Luckett, so no alarm sounded that the prescription had not been properly scan verified during the filling process.

13. On February 7, 2001, Ms. Jani transcribed on a "telephoned prescription" document a transfer of a prescription for Adalat 30 mg. #30 for Mrs. Ferrando. A pharmaceutical technician entered the transferred prescription into the computer of

Albertsons #149, but when the technician selected the tablets to fill the prescription, she filled Mrs. Ferrando's prescription with nifedipine 60 mg. rather than 30 mg. Ms. Jani filled Mrs. Ferrando's prescription with the incorrect strength and dispensed it to Mrs. Ferrando. In a written statement, Ms. Jani explained that she scan-verified the prescription before dispensing it to Mrs. Ferrando, but because she did not check the prescription label against the transcribed transfer document, she did not catch that the strength of nifedipine was incorrect.

14. Mrs. Ferrando testified that she received a voucher from a Catholic Church organization and that the voucher was intended to assist her to pay for her prescription medications. Mr. Bouzek explained that he had assisted Ms. Jani with the entry of the prescription into Albertsons #149's computer system because Ms. Jani was not a pharmacist regularly employed by Albertsons, so she was unfamiliar with Albertsons' computer system and policies and procedures. Mr. Bouzek attempted to maximize Mrs. Ferrando's voucher by using part of the voucher to cover Mrs. Ferrando's co-pay on 30 of the nifedipine tablets and to pay cash for an additional eight of the tablets. Thereby, Albertsons #149 dispensed 38 nifedipine tablets rather than the 30 ordered by Mrs. Ferrando's physician. Mrs. Jani provided the Board with a written statement in which she admitted to making and took responsibility for the error. Because of her statement and the testimony of Mrs. Ferrando and Mr. Bouzek, Mrs. Jani did not provide testimony at hearing.

15. Mrs. Ferrando testified that she took the incorrect strength of nifedipine for 38 days. Mrs. Ferrando described that she felt increasingly lethargic, as if she were suffering from a flu, as she continued to take the incorrect strength of nifedipine. Mrs.

Ferrando discovered the error when she called Albertsons #149 for a refill of the prescription. Fortunately, Mrs. Ferrando's symptoms subsided several weeks after she resumed taking the correct strength of nifedipine once the error had been discovered.

16. On December 6, 2000, the Board entered a Stipulation and Order with Mr. Bouzek and Albertsons #149 (Case Nos. 00-073A-RPH-N and 00-073B-PH-N). The facts of that case involved an incident on July 31, 2000 in which Mr. Bouzek filled a prescription for Wellbutrin 150 mg. #180 with Wellbutrin 100 mg. #60. Mr. Bouzek had placed a prescription label for Wellbutrin 150 mg. #180 directly over the manufacturer's label that plainly showed Wellbutrin 100 mg. In so doing, Mr. Bouzek also provided an expiration date on the prescription label that exceeded the actual expiration date on the manufacturer's label. Mr. Bouzek and Albertsons #149 were also disciplined because the patient was not counseled regarding the Wellbutrin prescription. The patient ingested the improper strength of Wellbutrin, but suffered no serious or permanent injury. Mr. Bouzek and Albertsons #149 each agreed to a fine of $950.00 plus an administrative fee of $250.00.

17. Mr. Johnston and Mr. Mazzone explained the efforts taken by Albertsons' management to ascertain how the various errors at issue were made. They also explained the remedial measures already taken by Albertsons, especially addressing the Board's concerns regarding the apparent failure of Albertsons' scan verification system in light of the number of errors in this matter that implicated the improper use or failure to use the system. Though the Board is concerned by any pharmacy that has committed as many patient errors as have been committed by Albertsons #149, the Board was also satisfied by Mr. Johnston's and Mr. Mazzone's testimonies that

Albertsons has taken appropriate and necessary actions both to ascertain the causes of the errors and to remedy the practice of Albertsons #149 to minimize the opportunity of such errors in the future.

CONCLUSIONS OF LAW

1. The Board has jurisdiction over this matter because Mr. Bouzek, Mr. Wachsman, and Ms. Jani are pharmacists licensed by the Board and Albertsons #149 is a pharmacy licensed by the Board.

2. In failing to confer with Dr. Laxalt's office to resolve what strength of clonazepam had been ordered or whether clonazepam was the correct drug in light of the 0.1 mg. strength ordered, Mr. Bouzek violated Nevada Revised Statutes (NRS) 639.210(4) and Nevada Administrative Code (NAC) 639.945(1)(e) and (i).

3. In dispensing the incorrect medication to Mrs. Luckett, namely by dispensing clonazepam 1 mg. when Dr. Laxalt had ordered clonidine HCL 0.1 mg., Mr. Bouzek violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

4. In employing Mr. Bouzek and operating the pharmacy in which Mr. Bouzek committed the violations in the violations in paragraphs 2 and 3 above, Albertsons #149 violated NRS 639.210(4) and (12) and NAC 639.945(1)(d), (e), and (i) and (2).

5. In dispensing the incorrect medication to Mrs. Luckett, namely by dispensing clonidine HCL 0.2 mg. when Dr. Laxalt had ordered clonidine HCL 0.1 mg., Mr. Bouzek violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

6. In employing Mr. Bouzek and operating the pharmacy in which Mr. Bouzek committed the violations in paragraph 5 above, Albertsons #149 violated NRS 639.210(4) and (12) and NAC 639.945(1)(d), (e), and (i) and (2).

7. In dispensing the incorrect medication to Mr. Luckett, namely by dispensing 15 estropipate instead of 100 acetaminophen/COD 3, Mr. Wachsman violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

8. In employing Mr. Wachsman and operating the pharmacy in which Mr. Wachsman committed the violations in paragraph 7 above, Albertsons #149 violated NRS 639.210(4) and (12) and NAC 639.945(1)(d), (e), and (i) and (2).

9. In dispensing the incorrect strength of nifedipine to Mrs. Ferrando, Ms. Jani violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

10. In employing Ms. Jani and operating the pharmacy in which Ms. Jani committed the violation in paragraph 9 above, Albertsons #149 violated NRS 639.210(4) and (12) and NAC 639.945(1)(d), (e), and (i) and (2).

11. In being repeatedly negligent, as evidenced by paragraphs 2, 3, and 5 above and the Stipulation and Order in Case No. 00-073A-RPH-N, Mr. Bouzek violated NRS 639.210(4) and (16) and NAC 639.945(1)(i).

12. In being repeatedly negligent, as evidenced by paragraphs 4, 6, 8, and 10 the Stipulation and Order in Case No. 00-073B-PH-N, Albertsons #149 violated NRS 639.210(4) and (16) and NAC 639.945(1)(i) and (2).

ORDER

Based upon the foregoing, the Board hereby orders the following:

1. Mr. Wachsman shall receive a letter of reprimand.

2. Ms. Jani shall pay a fine of $500 in cash, cashier's or certified check, or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office within 90 days of the effective date of this Order.

3. Mr. Bouzek shall pay a fine of $1,500 in cash, cashier's or certified check, or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office within 90 days of the effective date of this Order.

4. Albertsons #149 shall also pay the costs incurred in the investigation and prosecution of this matter of $1,592.00 in cash, cashier's or certified check, or money order made payable to "Nevada State Board of Pharmacy" to be received by the Board's Reno office within 90 days of the effective date of this Order.

5. The failure by Ms. Jani or Mr. Bouzek to comply with any term of this Order shall result in the immediate suspension of his or her license until all terms applicable to her or him are fully complied with and will result in further discipline, up to and including revocation of their licenses. The failure by Albertsons #149 to comply with any term in this Order shall result in a fine of $1,000 per day for every day that the term is not complied with, up to a maximum of $30,000, and will also result in further discipline, up to and including revocation of its license. Furthermore, any failure to pay any fine, fee, or cost ordered herein will also result in such legal action as Board staff determines to

be necessary to collect the unpaid fine, fee, or cost.

Petitioner,

Case No. 96-053-PH-N

v.

FINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER

ALBERTSON'S FOOD & DRUG #170, Certificate of Registration No. PH0877; and

ALBERTSON'S, INC., Owner of Albertson's Food & Drug #170;

Respondents.

THIS MATTER was heard by the Nevada State Board of Pharmacy (hereinafter Board) at its regular meeting on March 26, 1997 in Reno, Nevada. Deputy Attorney General Louis Ling prosecuted the matter on behalf of the Board, and Respondent was represented by Mr. Brian Sandoval. Based on the admissions, testimony, and documents presented as well as the public records in the possession and control of the Board, the Board issues the following Findings of Fact, Conclusions of Law, and Order.

FINDINGS OF FACT

1. Because in their Answer and Notice of Defense and in their opening presentation, the Respondents admitted many of the facts as alleged in the Notice of Intended Action and Accusation, Board staff presented no witnesses or evidence. Steve Shapiro and Paula Emerson testified.. Based upon all of the admissions, evidence, and testimony presented, the following paragraphs shall be the facts as found by the Board.

2. Albertson's Pharmacy #170 (Albertson's #170) is a pharmacy located within an Albertson's grocery store located at 10500 N. McCarran Blvd. in Reno, Nevada. Albertson's, Inc. is the owner of Albertson's #170.

3. On August 23, 1996 at approximately 8:30 a.m., Gary Adams, store manager for the grocery store in which Albertson's #170 is located, opened the store safe and removed a key to the pharmacy from a sealed envelope therein. Mr. Adams then went to Albertson's #170 and let Allen Gordy, the regional butcher manager, into the pharmacy where Mr. Gordy used the pharmacy's facsimile machine. No pharmacist was present in the pharmacy because the pharmacy was not open at the time that Mr. Adams let Mr. Gordy into the pharmacy.

4. Paula Emerson, a pharmacist employed by Albertson's, observed Mr. Adams and Mr. Gordy just after Mr. Adams had let Mr. Gordy into the pharmacy, and she confronted them while they were in the pharmacy. Ms. Emerson was the pharmacist who had placed the pharmacy key in the sealed envelope that Mr. Adams had removed from the store's safe, and she had placed the key in an envelope because she was unaware that her "barrel" key would open the lock box that was in the safe.

5. After Ms. Emerson discovered the unlawful entry, a controlled substances inventory was conducted and no controlled substances were discovered to be missing.

6. Upon subsequent investigation, Mr. Adams and Mr. Gordy admitted that they had, in fact, gained unlawful entry into Albertson's #170 and that they knew when they did so that they were breaking Nevada law and company policy. At hearing, Mr.

Shapiro testified that Albertson's policy is that all pharmacy keys are either to be in the possession of a pharmacist or are to be in a lock box placed within the store's safe. Ms. Emerson testified that she knew this policy, but because she did not know that her "barrel" key would open the lock box at Albertson's #170, she left the key in a sealed envelope because she knew that the pharmacist who would be opening the store only a few minutes later would need the key because it was his only key to the pharmacy. Ms. Emerson also testified that it was her opinion that Mr. Allen was pressured by Mr. Gordy into letting Mr. Gordy into the pharmacy, since Mr. Gordy was a regional manager and Mr. Allen, as a store manager, was Mr. Gordy's subordinate.

7. As a result of the testimony at hearing, the Board finds that the circumstances of this case are unique and that the policies and procedures already in place are sufficient to assure that similar breaches of pharmacy security would be virtually impossible. The Board also finds, though, that Mr. Gordy was wrong to pressure Mr. Allen into letting him into the pharmacy and that Mr. Allen was wrong to capitulate to Mr. Gordy's demands where doing so was against Nevada law and company policy that was known to Mr. Allen at the time.

CONCLUSIONS OF LAW

1. The Board has jurisdiction over this matter because Albertson's #170 is a pharmacy licensed by the Board.

2. In owning a pharmacy in which the key to the pharmacy was easily accessed by non-pharmacist personnel who allowed themselves access to the pharmacy without a pharmacist present, Albertson's #170 and Albertson's, Inc. violated

NRS 639.210(4) and (12). In reaching this conclusion, the Board acknowledges that Albertson's #170 personnel reported the breach of security themselves, and in so doing, exposed Albertson's #170 to this disciplinary action. We commend Albertson's #170 for doing the right thing and reporting the breach of security, but we feel discipline is appropriate in this matter nonetheless because the management of Albertson's, Inc., especially its mid-level management such as Mr. Gordy, must be reminded, apparently, that Nevada's pharmacy laws cannot be disregarded without consequence.

ORDER

Based upon the foregoing, the Board imposes the following discipline:

1. Respondent Albertson's #170 shall pay a fine of $1,000.00 in cash, cashier's or certified check, or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office within 30 days of the effective date of this Order.

2. Respondent Albertson's #170 shall receive a private letter of reprimand.

SIGNED AND EFFECTIVE this 8th day of April, 1997.

FINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER

ROBERT MAI, R.Ph.,
Certificate of Registration #12874,

Case No: 11-068-RPH-N

SAVE MART PHARMACY #551,
Certificate of Registration #PH01036,

Case No. 11-068-PH-N

Respondents.

/

THIS MATTER was heard by the Nevada State Board of Pharmacy (hereinafter Board) at its regular meeting on June 6, 2012 in Reno, Nevada. The Board was represented by Carolyn J. Cramer, General Counsel to the Board. Respondent Robert Mai represented himself and Robert Vaughan Sr., Director of Pharmacy represented Respondent Save Mart Pharmacy #551. Based on the presentations of the parties and the public records in the possession and control of the Board, the Board issues the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. At hearing, the parties stipulated to the admission to all exhibits. Board staff presented the sworn testimony of Bernadette Nieto, Joseph J. Depczynski and Kim Bratton. Respondents testified on their own behalf. Based upon the presentation of the parties and the public records in the possession and control of the Board, the Board finds the following to be the facts of this matter.

2. The Respondents did not contest that Reana Sallee was dispensed 90 tablets of 600 mg gemfibrozil instead of 90 tablets of 600 mg. gabapentin as prescribed by her

physician. Ms. Nieto testified that she had picked up the refill of her daughter's medication. Ms. Nieto testified that when she arrived at Save Mart #551 to pick up the prescription the prescription was not ready and the pharmacy staff hurried to fill the prescription. Ms. Nieto testified that she paid for the prescription and left the pharmacy. Ms. Nieto testified that within days of ingesting the medication Reana started to have more frequent seizures. During a seizure Reana fell and hit her head and Ms. Nieto took her to her physician where it was discovered that Reana had been dispensed the gemfibrozil instead of the gabapentin. Ms. Nieto then contacted the pharmacy and told them about the error in her Reana's medication. The pharmacy staff was very attentive to her needs and sympathetic that her daughter had suffered from their mistake.

3. Board Staff presented the testimony of Joseph J. Depczynski, Inspector/Investigator for the Board, who investigated the misfill of Reana's prescription which included interviewing Respondent Mai, pharmaceutical technician Kim Bratton, who was involved in the error, as well as Ms. Nieto. Mr. Depzynski identified the exhibits he collected in his investigation and testified that Kim Bratton had been given the override code by Respondent Mai. Ms. Bratton entered the NDC code for the gemfibrozil and a generic substitution warning came up that she overrode using Respondent Mai's override code. Investigator Depczynski testified that Respondent Mai did not notice that the label and the pills in the bottle were not the same medication and he put a green label on the bottle indicating that the drug may look different but the medication is the same. He then dispensed the gemfibrozil to Reana instead of the gabapentin as prescribed. Mr. Depczynski testified that since the incident the pharmacy has moved the look alike/sound alike drugs to different parts of the pharmacy and use another generic manufacturer so the stock bottles do not look alike.

4. Board Staff presented the testimony of Kim Bratton, who has 14 years experience as a pharmaceutical technician and has worked with Respondent Mai for four years. Ms. Bratton testified that she recalled filling the prescription because Ms. Nieto was waiting. When asked whether Ms. Bratton knew what a GPI warning was she stated that it meant that something did not match. Ms. Bratton acknowledged that she may not have given Respondent Mai any of the override information that was generated when she processed the prescription when she gave it to Respondent Mai for verification because she was in a hurry. Ms. Bratton testified that she had used Respondent Mai's security code and used it to override the system to process the prescriptions even though she knew she should not have it. Ms. Bratton acknowledged that she should have printed the DUR screen for Respondent Mai to review, but she did not, again because she was in a hurry.

5. Respondents made statements of explanation and mitigation. Mr. Vaughn testified that Save Mart is committed to patient safety and that after this incident happened Save Mart has modified their computer system so that a pharmacist cannot override the GPI warning and pharmacists are strictly forbidden to share security codes with pharmaceutical technicians.

6. Mr. Mai testified that at the time the error occurred the Save Mart system did not have a scanning system in place and all NDC codes were input by hand. Mr. Mai indicated that the system has been corrected so that GPI warnings cannot be overridden, but he testified that he sees so many repetitive alerts that he has become immune to them and finds it is distracting to go back and forth from what he is working on to a pharmaceutical technicians workstation to override an alert which is why he shared his security code with Ms. Bratton.

CONCLUSIONS OF LAW

1. The Nevada State Board of Pharmacy has jurisdiction over this matter because Respondent Mai is a pharmacist licensed by the Board and Save Mart #551 is a pharmacy licensed by the Board.

2. In failing to strictly follow the instructions of Ms. Sallee's physician by verifying and refilling her prescription for 90 tablets of 600 mg. gabapentin with 90 tablets of 600 mg. gemfibrozil, Mr. Mai violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

3. In allowing a pharmaceutical technician access to his personal identifier code to override warnings without his oversight, Mr. Mai violated NRS 639.210(4) and/or NAC639.921(1)(b)(6)(II) and/or 639.945(1)(d) and/or (i).

4. In owning and operating the pharmacy in which Mr. Mai filled and dispensed Ms. Sallee's prescription for 90 tablets of 600 mg. gabapentin with 90 tablets of 600 mg. gemfirozil, Save Mart #551 vviolated NRS 639.210(4) and NAC 639.945(1)(d) and (i) and (2).

ORDER

Based upon the foregoing, the Board hereby orders the following:

1. Mr. Mai shall pay a combined fine of $2,000.00 for having been found guilty of the First and Second Causes of Action. Mr. Mai shall pay the entire fine by cashier's or certified check or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office within 90 days of the effective date of this Order.

2. Save Mart #551 for having been found guilty of the Third Cause of Action, shall within 10 days of the effective date of this Order, shall contact the Your Success Rx Program to enroll Save Mart #551 in its remediation program (hereinafter "the

program") according to the terms and conditions imposed by the program, shall cooperate fully and genuinely with the needs, demands and requirements of the program and shall pay the costs of the program at their own expense. When Save Mart #551 has completed the program, the program will submit a final report regarding its participation in the program to the Board's staff. Board staff may set an item on the Board's subsequent agenda regarding the report to discuss the report with the Board. If Board staff determines to set the item on the Board's agenda, the managing pharmacist may be required to appear on behalf of Save Mart #551 to be present for the Board's discussion, which may be held in open or closed session at the discretion of the Board

3. Save Mart #551 for having been found guilty of the Third Cause of Action, shall pay the Board's costs and fees. The total investigative fees and costs are $306.90 and the Board's administrative fee of $295.00, for a total of $601.90. Save Mart #551 will pay $601.90 by cashier's or certified check or money order made payable to "Nevada State Board of Pharmacy" to be received by the Board's Reno office within 90 days of the effective date of this Order.

4. The failure by Mr. Mai or Save Mart #551 to comply with any term in this order shall result in the immediate suspension of their license and will also result in further discipline, up to and including revocation of the their license.

COMES NOW Larry L. Pinson, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, and makes the following that will serve as both a notice of intended action under Nevada Revised Statutes (NRS) 233B.127(3) and as an accusation under NRS 639.241.

I.

The Nevada State Board of Pharmacy has jurisdiction over this matter because Respondent Robert Mai is a pharmacist licensed by the Board and Save Mart Pharmacy #551 (Save Mart #551) is a pharmacy licensed by the Board, located at 4348 South Carson Street, Carson City, Nevada.

II.

On or about June 28, 2011, Bernadette Nieto filed a complaint with the Board on behalf of her daughter, Reana Sallee. Ms. Nieto called in a refill of Ms. Sallee's gabapentin 600 mg. tablets (Neurontin) on June 8, 2011. When Ms. Nieto arrived at Save Mart #551, the prescription had not yet been filled, she waited at the counter until pharmacy staff completed the fill and left the pharmacy with the medication she was given. Within days of ingesting the medication she received from Save Mart #551, Ms. Sallee began to suffer frequent seizures. On the morning of June 27, 2011, Ms. Sallee

fell and hit her head above her left eye causing the area to become red and swollen. Ms. Sallee was seen by her physician that same morning at which time it was discovered that her prescription had been misfilled with gemfibrozil. Ms. Sallee had ingested 49 gemfibrozil tablets.

III.

During the investigation of this matter it was found that a pharmaceutical technician had selected gemfibrozil from the shelf rather than the gabapentin. When the pharmaceutical technician entered the NDC number into the computer an alert was generated advising that the substitute GPI was not equivalent to the GPI prescribed. It was learned from Mr. Mai that the pharmaceutical technician was familiar with his personal identifier code and she used the code to clear the warning and continued with the prescription fill. The computer system accepted the override and subsequently generated a label set identifying gemfibrozil as a generic equivalent for Neurontin. Mr. Mai verified the prescription and affixed an advisory sticker to the front of the label that read "This is the same medication that you have been getting. Color, size or shape may appear different."

FIRST CAUSE OF ACTION

IV.

In failing to strictly follow the instructions of Ms. Sallee's physician by verifying and refilling her prescription for 90 tablets of 600 mg. gabapentin with 90 tablets of 600 mg. gemfibrozil, Mr. Mai violated Nevada Revised Statutes (NRS) 639.210(4) and/or Nevada Administrative Code (NAC) 639.945(1)(d) and (i).

SECOND CAUSE OF ACTION

V.

In allowing a pharmaceutical technician access to his personal identifier code to override warnings without his oversight, Mr. Mai violated NRS 639.210(4) and/or NAC 639.921(1)(b)(6)(II) and/or 639.945(1)(d) and/or (i).

THIRD CAUSE OF ACTION

VI.

In owning and operating the pharmacy in which Mr. Mai filled and dispensed Ms. Sallee's prescription for 90 tablets of 600 mg. gabapentin with 90 tablets of 600 mg. gemfibrozil, Save Mart #551 violated NRS 639.210(4) and/or NAC 639.945(1)(d) and (i) and (2).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of the Respondents.

Respondents.

THIS MATTER was heard by the Nevada State Board of Pharmacy (hereinafter Board) at its regular meeting on June 13, 2001 in Reno, Nevada. The Board was represented by Louis Ling, General Counsel. The Respondents were represented by Brian Sandoval. Based on the public records in the possession and control of the Board, the Board issues the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. At hearing, Board staff presented the testimony of Virginia Harvey, Margaret Luckett, and Catherine Ferrando. The Respondents presented the testimony of Daniel Bouzek, Mark Johnston, Rich Mazzone, and Donald Wachsman. The parties also stipulated to the entry into evidence of one exhibit. Based upon the testimony and evidence presented at hearing and the public records in the possession and control of

the Board, the Board finds the following to be the facts of this matter.

2. On July 3, 2000, Mrs. Luckett called her physician, Dr. Kristen Laxalt, and requested refills of several prescriptions that Dr. Laxalt had written for Mrs. Luckett. One of the prescriptions was for clonidine HCL 0.1 mg. #30 (Rx #100592). Thereafter, an agent of Dr. Laxalt spoke with Mr. Bouzek regarding the refills requested by Mrs. Luckett. Mr. Bouzek made a "telephoned prescription" record of the conversation on which he recorded: "clonazepam 0.1, #60, sig 1 Bid." At hearing, Mr. Bouzek attempted to explain that he wrote "clonazepam" because he claimed that he had been told by Dr. Laxalt's agent that the prescription was for Klonapin, but Ms. Harvey testified that neither Klonapin nor clonazepam appeared in Dr. Laxalt's records. Mr. Bouzek's explanation belies his own recordation of "clonazepam 0.1," since clonazepam does not come in a 0.1 mg. strength, and his explanation that he added the "0." when he discovered the error was belied by a review of the original prescription and common practice by pharmacists. We cannot and do not find Mr. Bouzek's explanation to be credible.

3. Later on July 3, 2000, Mr. Bouzek created a new prescription for Mrs. Luckett (Rx #102710) for clonazepam 1 mg. #60. Mr. Bouzek subsequently filled Rx #102710 with clonazepam 1 mg. #60.

4. Mrs. Luckett's prescription profile did not show any previous prescriptions for clonazepam, though it did show the previous prescription for clonidine HCL. Clonazepam is unavailable in a 0.1 mg. strength, but clonidine HCL is.

5. Mrs. Luckett picked up her prescriptions on July 3, 2000 and took them home. Because she believed the prescriptions all to be refills of drugs she had previously

received, Mrs. Luckett declined counseling when it was attempted by Rolf Zarkizian, the managing pharmacist for Albertsons #149. Once home, she discovered that she had a prescription for clonazepam, not clonidine HCL. Mrs. Luckett contacted Dr. Laxalt's office and was told not to take any of the clonazepam and, instead, to return to the pharmacy because Dr. Laxalt's office would call the pharmacy and make sure that the pharmacy filled the prescription for clonidine HCL, not clonazepam.

6. Albertsons #149 was closed on July 4, 2000 for the Independence Day holiday. On July 5, 2000, Mr. Bouzek spoke with Virginia Harvey from Dr. Laxalt's office regarding the correction of Mrs. Luckett's clonazepam to change it to clonidine HCL 0.1 mg. Mr. Bouzek recorded on a "telephoned prescription" record, "clonidine .1 mg. #60 sig 1 Bid."

7. Though he had recorded the drug as clonidine HCL 0.1 mg., Mr. Bouzek created a computer prescription record (Rx #102810) for clonidine HCL 0.2 mg. #60. Mr. Bouzek filled and dispensed the prescription to Mrs. Luckett with the clonidine HCL 0.2 mg., not the 0.1 mg. ordered by Dr. Laxalt. At hearing, Mr. Bouzek testified that he had made a second telephone call to Ms. Harvey to clarify whether Dr. Laxalt had intended clonidine HCL 0.1 mg. or 0.2 mg., since Mrs. Luckett's profile showed that Mrs. Luckett had always previously received clonidine HCL 0.1 mg. Mr. Bouzek testified that Ms. Harvey confirmed that Dr. Laxalt had, in fact, intended clonidine HCL 0.2 mg., so Mr. Bouzek created a computer record and label for clonidine HCL 0.2 mg. Ms. Harvey denied having a second telephone conversation with Mr. Bouzek and testified that Dr. Laxalt's records do not show a change from clonidine HCL 0.1 mg. to 0.2 mg. on July 5, 2000. Because Mr. Bouzek's testimony and demeanor appeared

incredible -- particularly his jumbled explanation regarding the "rewrite" prescription, the "telephone prescription," and the computer-generate labels on the backs of each -- and because the physical facts corroborate Mrs. Luckett's and Mrs. Harvey's relation of events, we find that Mr. Bouzek incorrectly and negligently filled with clonidine HCL 0.2 mg. the order he had correctly transcribed as clonidine HCL 0.1 mg.

8. Mrs. Luckett took the clonidine HCL 0.2 mg. from July 2000 to the present. Mrs. Luckett discovered that she had been taking clonidine HCL 0.2 mg. when she sought to refill the prescription at the end of July 2000. Fortunately, the incorrect dose had, in fact, been therapeutic for Mrs. Luckett. Thereafter, Dr. Laxalt authorized that Mrs. Luckett continue on clonidine HCL 0.2 mg., rather than the clonidine HCL 0.1 mg. that Dr. Laxalt had actually ordered.

9. On February 2, 2001, Mrs. Luckett ordered refills from Albertsons #149 of various prescriptions for herself and Mr. Luckett, including a refill of a prescription for Mr. Luckett for acetaminophen/COD 3 #100 (Rx #114544). Mr. Wachsman, a "floater" pharmacist for Albertsons, was working as the staff pharmacist at Albertsons #149 on February 2, 2001 and was the pharmacist responsible for the filling of Mr. and Mrs. Luckett's refill prescriptions, including Mr. Luckett's prescription for acetaminophen/COD 3.

10. Mrs. Luckett picked up the refilled prescriptions on February 5, 2001. When she got the prescriptions home, she and Mr. Luckett discovered that his prescription #114544 contained 15 small pink pills, not 100 of the larger white tablets that should have been in the vial. Mr. Luckett did not ingest any of the incorrect tablets. When Mrs. Luckett took the incorrectly filled prescription #114544 back to Albertsons #149, it

was discovered that prescription #114544 had been filled with 15 estropipate.

11. At hearing, Mr. Wachsman speculated that his pharmaceutical technician had filled two prescriptions at the same time, one for Mr. Luckett for the acetaminophen/COD 3 and another as a refill for a female patient for estropipate. Mr. Wachsman believed that he simply placed the two labels on the wrong vials. He could not explain why he did not observe the size of the tablets and vials on which he had placed the labels incorrectly, since he acknowledged that the tablets were very different in size and color and the vials should have been different in size.

12. Mr. Wachsman explained the scan verification system in use at Albertsons pharmacies. He explained that all prescriptions are to be scan verified during the filling process to verify that the bar code on the prepared prescription label matches the bar code on the stock bottle. Mr. Wachsman also explained that there should have been a final scan verification of the prescription by the clerk or technician before it was dispensed to the patient. If the second scan verification showed that the prescription had not been scan verified during the filling process, then the computer system would generate an alarm so that the prescription could be checked again by a pharmacist. Unfortunately, no first or second scan verification was performed on Mr. Luckett's acetaminophen/COD 3 prescription before it was dispensed to Mrs. Luckett, so no alarm sounded that the prescription had not been properly scan verified during the filling process.

13. On February 7, 2001, Ms. Jani transcribed on a "telephoned prescription" document a transfer of a prescription for Adalat 30 mg. #30 for Mrs. Ferrando. A pharmaceutical technician entered the transferred prescription into the computer of

Albertsons #149, but when the technician selected the tablets to fill the prescription, she filled Mrs. Ferrando's prescription with nifedipine 60 mg. rather than 30 mg. Ms. Jani filled Mrs. Ferrando's prescription with the incorrect strength and dispensed it to Mrs. Ferrando. In a written statement, Ms. Jani explained that she scan-verified the prescription before dispensing it to Mrs. Ferrando, but because she did not check the prescription label against the transcribed transfer document, she did not catch that the strength of nifedipine was incorrect.

14. Mrs. Ferrando testified that she received a voucher from a Catholic Church organization and that the voucher was intended to assist her to pay for her prescription medications. Mr. Bouzek explained that he had assisted Ms. Jani with the entry of the prescription into Albertsons #149's computer system because Ms. Jani was not a pharmacist regularly employed by Albertsons, so she was unfamiliar with Albertsons' computer system and policies and procedures. Mr. Bouzek attempted to maximize Mrs. Ferrando's voucher by using part of the voucher to cover Mrs. Ferrando's co-pay on 30 of the nifedipine tablets and to pay cash for an additional eight of the tablets. Thereby, Albertsons #149 dispensed 38 nifedipine tablets rather than the 30 ordered by Mrs. Ferrando's physician. Mrs. Jani provided the Board with a written statement in which she admitted to making and took responsibility for the error. Because of her statement and the testimony of Mrs. Ferrando and Mr. Bouzek, Mrs. Jani did not provide testimony at hearing.

15. Mrs. Ferrando testified that she took the incorrect strength of nifedipine for 38 days. Mrs. Ferrando described that she felt increasingly lethargic, as if she were suffering from a flu, as she continued to take the incorrect strength of nifedipine. Mrs.

Ferrando discovered the error when she called Albertsons #149 for a refill of the prescription. Fortunately, Mrs. Ferrando's symptoms subsided several weeks after she resumed taking the correct strength of nifedipine once the error had been discovered.

16. On December 6, 2000, the Board entered a Stipulation and Order with Mr. Bouzek and Albertsons #149 (Case Nos. 00-073A-RPH-N and 00-073B-PH-N). The facts of that case involved an incident on July 31, 2000 in which Mr. Bouzek filled a prescription for Wellbutrin 150 mg. #180 with Wellbutrin 100 mg. #60. Mr. Bouzek had placed a prescription label for Wellbutrin 150 mg. #180 directly over the manufacturer's label that plainly showed Wellbutrin 100 mg. In so doing, Mr. Bouzek also provided an expiration date on the prescription label that exceeded the actual expiration date on the manufacturer's label. Mr. Bouzek and Albertsons #149 were also disciplined because the patient was not counseled regarding the Wellbutrin prescription. The patient ingested the improper strength of Wellbutrin, but suffered no serious or permanent injury. Mr. Bouzek and Albertsons #149 each agreed to a fine of $950.00 plus an administrative fee of $250.00.

17. Mr. Johnston and Mr. Mazzone explained the efforts taken by Albertsons' management to ascertain how the various errors at issue were made. They also explained the remedial measures already taken by Albertsons, especially addressing the Board's concerns regarding the apparent failure of Albertsons' scan verification system in light of the number of errors in this matter that implicated the improper use or failure to use the system. Though the Board is concerned by any pharmacy that has committed as many patient errors as have been committed by Albertsons #149, the Board was also satisfied by Mr. Johnston's and Mr. Mazzone's testimonies that

Albertsons has taken appropriate and necessary actions both to ascertain the causes of the errors and to remedy the practice of Albertsons #149 to minimize the opportunity of such errors in the future.

CONCLUSIONS OF LAW

1. The Board has jurisdiction over this matter because Mr. Bouzek, Mr. Wachsman, and Ms. Jani are pharmacists licensed by the Board and Albertsons #149 is a pharmacy licensed by the Board.

2. In failing to confer with Dr. Laxalt's office to resolve what strength of clonazepam had been ordered or whether clonazepam was the correct drug in light of the 0.1 mg. strength ordered, Mr. Bouzek violated Nevada Revised Statutes (NRS) 639.210(4) and Nevada Administrative Code (NAC) 639.945(1)(e) and (i).

3. In dispensing the incorrect medication to Mrs. Luckett, namely by dispensing clonazepam 1 mg. when Dr. Laxalt had ordered clonidine HCL 0.1 mg., Mr. Bouzek violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

4. In employing Mr. Bouzek and operating the pharmacy in which Mr. Bouzek committed the violations in the violations in paragraphs 2 and 3 above, Albertsons #149 violated NRS 639.210(4) and (12) and NAC 639.945(1)(d), (e), and (i) and (2).

5. In dispensing the incorrect medication to Mrs. Luckett, namely by dispensing clonidine HCL 0.2 mg. when Dr. Laxalt had ordered clonidine HCL 0.1 mg., Mr. Bouzek violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

6. In employing Mr. Bouzek and operating the pharmacy in which Mr. Bouzek committed the violations in paragraph 5 above, Albertsons #149 violated NRS 639.210(4) and (12) and NAC 639.945(1)(d), (e), and (i) and (2).

7. In dispensing the incorrect medication to Mr. Luckett, namely by dispensing 15 estropipate instead of 100 acetaminophen/COD 3, Mr. Wachsman violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

8. In employing Mr. Wachsman and operating the pharmacy in which Mr. Wachsman committed the violations in paragraph 7 above, Albertsons #149 violated NRS 639.210(4) and (12) and NAC 639.945(1)(d), (e), and (i) and (2).

9. In dispensing the incorrect strength of nifedipine to Mrs. Ferrando, Ms. Jani violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

10. In employing Ms. Jani and operating the pharmacy in which Ms. Jani committed the violation in paragraph 9 above, Albertsons #149 violated NRS 639.210(4) and (12) and NAC 639.945(1)(d), (e), and (i) and (2).

11. In being repeatedly negligent, as evidenced by paragraphs 2, 3, and 5 above and the Stipulation and Order in Case No. 00-073A-RPH-N, Mr. Bouzek violated NRS 639.210(4) and (16) and NAC 639.945(1)(i).

12. In being repeatedly negligent, as evidenced by paragraphs 4, 6, 8, and 10 the Stipulation and Order in Case No. 00-073B-PH-N, Albertsons #149 violated NRS 639.210(4) and (16) and NAC 639.945(1)(i) and (2).

ORDER

Based upon the foregoing, the Board hereby orders the following:

2. Ms. Jani shall pay a fine of $500 in cash, cashier's or certified check, or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office within 90 days of the effective date of this Order.

3. Mr. Bouzek shall pay a fine of $1,500 in cash, cashier's or certified check, or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office within 90 days of the effective date of this Order.

Albertsons #149 shall also pay the costs incurred in the investigation and prosecution of this matter of $1,592.00 in cash, cashier's or certified check, or money order made payable to "Nevada State Board of Pharmacy" to be received by the Board's Reno office within 90 days of the effective date of this Order.

5. The failure by Ms. Jani or Mr. Bouzek to comply with any term of this Order shall result in the immediate suspension of his or her license until all terms applicable to her or him are fully complied with and will result in further discipline, up to and including revocation of their licenses. The failure by Albertsons #149 to comply with any term in this Order shall result in a fine of $1,000 per day for every day that the term is not complied with, up to a maximum of $30,000, and will also result in further discipline, up to and including revocation of its license. Furthermore, any failure to pay any fine, fee, or cost ordered herein will also result in such legal action as Board staff determines to

be necessary to collect the unpaid fine, fee, or cost.

Petitioner,

v.

ALBERTSON'S FOOD & DRUG #170, Certificate of Registration No. PH0877; and

ALBERTSON'S, INC., Owner of Albertson's Food & Drug #170;

Respondents.

Case No. 96-053-PH-N

FINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER

THIS MATTER was heard by the Nevada State Board of Pharmacy (hereinafter Board) at its regular meeting on March 26, 1997 in Reno, Nevada. Deputy Attorney General Louis Ling prosecuted the matter on behalf of the Board, and Respondent was represented by Mr. Brian Sandoval. Based on the admissions, testimony, and documents presented as well as the public records in the possession and control of the Board, the Board issues the following Findings of Fact, Conclusions of Law, and Order.

FINDINGS OF FACT

1. Because in their Answer and Notice of Defense and in their opening presentation, the Respondents admitted many of the facts as alleged in the Notice of Intended Action and Accusation, Board staff presented no witnesses or evidence. Steve Shapiro and Paula Emerson testified.. Based upon all of the admissions, evidence, and testimony presented, the following paragraphs shall be the facts as found by the Board.

2. Albertson's Pharmacy #170 (Albertson's #170) is a pharmacy located within an Albertson's grocery store located at 10500 N. McCarran Blvd. in Reno, Nevada. Albertson's, Inc. is the owner of Albertson's #170.

3. On August 23, 1996 at approximately 6:30 a.m., Gary Adams, store manager for the grocery store in which Albertson's #170 is located, opened the store safe and removed a key to the pharmacy from a sealed envelope therein. Mr. Adams then went to Albertson's #170 and let Allen Gordy, the regional butcher manager, into the pharmacy where Mr. Gordy used the pharmacy's facsimile machine. No pharmacist was present in the pharmacy because the pharmacy was not open at the time that Mr. Adams let Mr. Gordy into the pharmacy.

4. Paula Emerson, a pharmacist employed by Albertson's, observed Mr. Adams and Mr. Gordy just after Mr. Adams had let Mr. Gordy into the pharmacy, and she confronted them while they were in the pharmacy. Ms. Emerson was the pharmacist who had placed the pharmacy key in the sealed envelope that Mr. Adams had removed from the store's safe, and she had placed the key in an envelope because she was unaware that her "barrel" key would open the lock box that was in the safe.

5. After Ms. Emerson discovered the unlawful entry, a controlled substances inventory was conducted and no controlled substances were discovered to be missing.

6. Upon subsequent investigation, Mr. Adams and Mr. Gordy admitted that they had, in fact, gained unlawful entry into Albertson's #170 and that they knew when they did so that they were breaking Nevada law and company policy. At hearing, Mr.

Shapiro testified that Albertson's policy is that all pharmacy keys are either to be in the possession of a pharmacist or are to be in a lock box placed within the store's safe. Ms. Emerson testified that she knew this policy, but because she did not know that her "barrel" key would open the lock box at Albertson's #170, she left the key in a sealed envelope because she knew that the pharmacist who would be opening the store only a few minutes later would need the key because it was his only key to the pharmacy. Ms. Emerson also testified that it was her opinion that Mr. Allen was pressured by Mr. Gordy into letting Mr. Gordy into the pharmacy, since Mr. Gordy was a regional manager and Mr. Allen, as a store manager, was Mr. Gordy's subordinate.

7. As a result of the testimony at hearing, the Board finds that the circumstances of this case are unique and that the policies and procedures already in place are sufficient to assure that similar breaches of pharmacy security would be virtually impossible. The Board also finds, though, that Mr. Gordy was wrong to pressure Mr. Allen into letting him into the pharmacy and that Mr. Allen was wrong to capitulate to Mr. Gordy's demands where doing so was against Nevada law and company policy that was known to Mr. Allen at the time.

CONCLUSIONS OF LAW

1. The Board has jurisdiction over this matter because Albertson's #170 is a pharmacy licensed by the Board.

2. In owning a pharmacy in which the key to the pharmacy was easily accessed by non-pharmacist personnel who allowed themselves access to the pharmacy without a pharmacist present, Albertson's #170 and Albertson's, Inc. violated

NRS 639.210(4) and (12). In reaching this conclusion, the Board acknowledges that Albertson's #170 personnel reported the breach of security themselves, and in so doing, exposed Albertson's #170 to this disciplinary action. We commend Albertson's #170 for doing the right thing and reporting the breach of security, but we feel discipline is appropriate in this matter nonetheless because the management of Albertson's, Inc., especially its mid-level management such as Mr. Gordy, must be reminded, apparently, that Nevada's pharmacy laws cannot be disregarded without consequence.

ORDER

Based upon the foregoing, the Board imposes the following discipline:

1. Respondent Albertson's #170 shall pay a fine of $1,000.00 in cash, cashier's or certified check, or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office within 30 days of the effective date of this Order.

2. Respondent Albertson's #170 shall receive a private letter of reprimand.

SIGNED AND EFFECTIVE this 8th day of April, 1997.

The losses were discovered through a periodic reconciliation of controlled substances.

Respondent Santiago admitted to pouring the pills in his pocket, discarding the bottles and shredding the invoices for the drugs he took. Respondent Santiago said that he stole the drugs to help him deal with alcohol and anxiety issues. BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY,

Petitioner,

v.

FINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER

ROBERT MAI, R.Ph.,
Certificate of Registration #12874,

Case No. 11-068-RPH-N

SAVE MART PHARMACY #551,
Certificate of Registration #PH01036,

Case No. 11-068-PH-N

Respondents.

THIS MATTER was heard by the Nevada State Board of Pharmacy (hereinafter Board) at its regular meeting on June 6, 2012 in Reno, Nevada. The Board was represented by Carolyn J. Cramer, General Counsel to the Board. Respondent Robert Mai represented himself and Robert Vaughan Sr., Director of Pharmacy represented Respondent Save Mart Pharmacy #551. Based on the presentations of the parties and the public records in the possession and control of the Board, the Board issues the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. At hearing, the parties stipulated to the admission to all exhibits. Board staff presented the sworn testimony of Bernadette Nieto, Joseph J. Depczynski and Kim Bratton. Respondents testified on their own behalf. Based upon the presentation of the parties and the public records in the possession and control of the Board, the Board finds the following to be the facts of this matter.

2. The Respondents did not contest that Reana Sallee was dispensed 90 tablets of 600 mg gemfibrozil instead of 90 tablets of 600 mg. gabapentin as prescribed by her

physician. Ms. Nieto testified that she had picked up the refill of her daughter's medication. Ms. Nieto testified that when she arrived at Save Mart #551 to pick up the prescription the prescription was not ready and the pharmacy staff hurried to fill the prescription. Ms. Nieto testified that she paid for the prescription and left the pharmacy. Ms. Nieto testified that within days of ingesting the medication Reana started to have more frequent seizures. During a seizure Reana fell and hit her head and Ms. Nieto took her to her physician where it was discovered that Reana had been dispensed the gemfibrozil instead of the gabapentin. Ms. Nieto then contacted the pharmacy and told them about the error in her Reana's medication. The pharmacy staff was very attentive to her needs and sympathetic that her daughter had suffered from their mistake.

3. Board Staff presented the testimony of Joseph J. Depczynski, Inspector/Investigator for the Board, who investigated the misfill of Reana's prescription which included interviewing Respondent Mai, pharmaceutical technician Kim Bratton, who was involved in the error, as well as Ms. Nieto. Mr. Depzynski identified the exhibits he collected in his investigation and testified that Kim Bratton had been given the override code by Respondent Mai. Ms. Bratton entered the NDC code for the gemfibrozil and a generic substitution warning came up that she overrode using Respondent Mai's override code. Investigator Depczynski testified that Respondent Mai did not notice that the label and the pills in the bottle were not the same medication and he put a green label on the bottle indicating that the drug may look different but the medication is the same. He then dispensed the gemfibrozil to Reana instead of the gabapentin as prescribed. Mr. Depczynski testified that since the incident the pharmacy has moved the look alike/sound alike drugs to different parts of the pharmacy and use another generic manufacturer so the stock bottles do not look alike.

4. Board Staff presented the testimony of Kim Bratton, who has 14 years experience as a pharmaceutical technician and has worked with Respondent Mai for four years. Ms. Bratton testified that she recalled filling the prescription because Ms. Nieto was waiting. When asked whether Ms. Bratton knew what a GPI warning was she stated that it meant that something did not match. Ms. Bratton acknowledged that she may not have given Respondent Mai any of the override information that was generated when she processed the prescription when she gave it to Respondent Mai for verification because she was in a hurry. Ms. Bratton testified that she had used Respondent Mai's security code and used it to override the system to process the prescriptions even though she knew she should not have it. Ms. Bratton acknowledged that she should have printed the DUR screen for Respondent Mai to review, but she did not, again because she was in a hurry.

5. Respondents made statements of explanation and mitigation. Mr. Vaughn testified that Save Mart is committed to patient safety and that after this incident happened Save Mart has modified their computer system so that a pharmacist cannot override the GPI warning and pharmacists are strictly forbidden to share security codes with pharmaceutical technicians.

6. Mr. Mai testified that at the time the error occurred the Save Mart system did not have a scanning system in place and all NDC codes were input by hand. Mr. Mai indicated that the system has been corrected so that GPI warnings cannot be overridden, but he testified that he sees so many repetitive alerts that he has become immune to them and finds it is distracting to go back and forth from what he is working on to a pharmaceutical technicians workstation to override an alert which is why he shared his security code with Ms. Bratton.

CONCLUSIONS OF LAW

1. The Nevada State Board of Pharmacy has jurisdiction over this matter because Respondent Mai is a pharmacist licensed by the Board and Save Mart #551 is a pharmacy licensed by the Board.

2. In failing to strictly follow the instructions of Ms. Sallee's physician by verifying and refilling her prescription for 90 tablets of 600 mg. gabapentin with 90 tablets of 600 mg. gemfibrozil, Mr. Mai violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

3. In allowing a pharmaceutical technician access to his personal identifier code to override warnings without his oversight, Mr. Mai violated NRS 639.210(4) and/or NAC639.921(1)(b)(6)(II) and/or 639.945(1)(d) and/or (i).

4. In owning and operating the pharmacy in which Mr. Mai filled and dispensed Ms. Sallee's prescription for 90 tablets of 600 mg. gabapentin with 90 tablets of 600 mg. gemfirozil, Save Mart #551 vviolated NRS 639.210(4) and NAC 639.945(1)(d) and (i) and (2).

Based upon the foregoing, the Board hereby orders the following:

1. Mr. Mai shall pay a combined fine of $2,000.00 for having been found guilty of the First and Second Causes of Action. When Save Mart #551 has completed the program, the program will submit a final report regarding its participation in the program to the Board's staff. Board staff may set an item on the Board's subsequent agenda regarding the report to discuss the report with the Board. If Board staff determines to set the item on the Board's agenda, the managing pharmacist may be required to appear on behalf of Save Mart #551 to be present for the Board's discussion, which may be held in open or closed session at the discretion of the Board

3. Save Mart #551 for having been found guilty of the Third Cause of Action, shall pay the Board's costs and fees. The total investigative fees and costs are $306.90 and the Board's administrative fee of $295.00, for a total of $601.90. Save Mart #551 will pay $601.90 by cashier's or certified check or money order made payable to "Nevada State Board of Pharmacy" to be received by the Board's Reno office within 90 days of the effective date of this Order.

_____/

COMES NOW Larry L. Pinson, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, and makes the following that will serve as both a notice of intended action under Nevada Revised Statutes (NRS) 233B.127(3) and as an accusation under NRS 639.241.

I.

The Nevada State Board of Pharmacy has jurisdiction over this matter because Respondent Robert Mai is a pharmacist licensed by the Board and Save Mart Pharmacy #551 (Save Mart #551) is a pharmacy licensed by the Board, located at 4348 South Carson Street, Carson City, Nevada.

II.

On or about June 28, 2011, Bernadette Nieto filed a complaint with the Board on behalf of her daughter, Reana Sallee. Ms. Nieto called in a refill of Ms. Sallee's gabapentin 600 mg. tablets (Neurontin) on June 8, 2011. When Ms. Nieto arrived at Save Mart #551, the prescription had not yet been filled, she waited at the counter until pharmacy staff completed the fill and left the pharmacy with the medication she was given. Within days of ingesting the medication she received from Save Mart #551, Ms. Sallee began to suffer frequent seizures. On the morning of June 27, 2011, Ms. Sallee

fell and hit her head above her left eye causing the area to become red and swollen. Ms. Sallee was seen by her physician that same morning at which time it was discovered that her prescription had been misfilled with gemfibrozil. Ms. Sallee had ingested 49 gemfibrozil tablets.

III.

During the investigation of this matter it was found that a pharmaceutical technician had selected gemfibrozil from the shelf rather than the gabapentin. When the pharmaceutical technician entered the NDC number into the computer an alert was generated advising that the substitute GPI was not equivalent to the GPI prescribed. It was learned from Mr. Mai that the pharmaceutical technician was familiar with his personal identifier code and she used the code to clear the warning and continued with the prescription fill. The computer system accepted the override and subsequently generated a label set identifying gemfibrozil as a generic equivalent for Neurontin. Mr. Mai verified the prescription and affixed an advisory sticker to the front of the label that read "This is the same medication that you have been getting. Color, size or shape may appear different."

FIRST CAUSE OF ACTION

IV.

In failing to strictly follow the instructions of Ms. Sallee's physician by verifying and refilling her prescription for 90 tablets of 600 mg. gabapentin with 90 tablets of 600 mg. gemfibrozil, Mr. Mai violated Nevada Revised Statutes (NRS) 639.210(4) and/or Nevada Administrative Code (NAC) 639.945(1)(d) and (i).

SECOND CAUSE OF ACTION

V.

In allowing a pharmaceutical technician access to his personal identifier code to override warnings without his oversight, Mr. Mai violated NRS 639.210(4) and/or NAC 639.921(1)(b)(6)(II) and/or 639.945(1)(d) and/or (i).

THIRD CAUSE OF ACTION

VI.

In owning and operating the pharmacy in which Mr. Mai filled and dispensed Ms. Sallee's prescription for 90 tablets of 600 mg. gabapentin with 90 tablets of 600 mg. gemfibrozil, Save Mart #551 violated NRS 639.210(4) and/or NAC 639.945(1)(d) and (i) and (2).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of the Respondents.

Respondents.

THIS MATTER was heard by the Nevada State Board of Pharmacy (hereinafter Board) at its regular meeting on June 13, 2001 in Reno, Nevada. The Board was represented by Louis Ling, General Counsel. The Respondents were represented by Brian Sandoval. Based on the public records in the possession and control of the Board, the Board issues the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. At hearing, Board staff presented the testimony of Virginia Harvey, Margaret Luckett, and Catherine Ferrando. The Respondents presented the testimony of Daniel Bouzek, Mark Johnston, Rich Mazzone, and Donald Wachsman. The parties also stipulated to the entry into evidence of one exhibit. Based upon the testimony and evidence presented at hearing and the public records in the possession and control of

the Board, the Board finds the following to be the facts of this matter.

2. On July 3, 2000, Mrs. Luckett called her physician, Dr. Kristen Laxalt, and requested refills of several prescriptions that Dr. Laxalt had written for Mrs. Luckett. One of the prescriptions was for clonidine HCL 0.1 mg. #30 (Rx #100592). Thereafter, an agent of Dr. Laxalt spoke with Mr. Bouzek regarding the refills requested by Mrs. Luckett. Mr. Bouzek made a "telephoned prescription" record of the conversation on which he recorded: "clonazepam 0.1, #60, sig 1 Bid." At hearing, Mr. Bouzek attempted to explain that he wrote "clonazepam" because he claimed that he had been told by Dr. Laxalt's agent that the prescription was for Klonapin, but Ms. Harvey testified that neither Klonapin nor clonazepam appeared in Dr. Laxalt's records. Mr. Bouzek's explanation belies his own recordation of "clonazepam 0.1," since clonazepam does not come in a 0.1 mg. strength, and his explanation that he added the "0." when he discovered the error was belied by a review of the original prescription and common practice by pharmacists. We cannot and do not find Mr. Bouzek's explanation to be credible.

3. Later on July 3, 2000, Mr. Bouzek created a new prescription for Mrs. Luckett (Rx #102710) for clonazepam 1 mg. #60. Mr. Bouzek subsequently filled Rx #102710 with clonazepam 1 mg. #60.

4. Mrs. Luckett's prescription profile did not show any previous prescriptions for clonazepam, though it did show the previous prescription for clonidine HCL. Clonazepam is unavailable in a 0.1 mg. strength, but clonidine HCL is.

5. Mrs. Luckett picked up her prescriptions on July 3, 2000 and took them home. Because she believed the prescriptions all to be refills of drugs she had previously

received, Mrs. Luckett declined counseling when it was attempted by Rolf Zarkizian, the managing pharmacist for Albertsons #149. Once home, she discovered that she had a prescription for clonazepam, not clonidine HCL. Mrs. Luckett contacted Dr. Laxalt's office and was told not to take any of the clonazepam and, instead, to return to the pharmacy because Dr. Laxalt's office would call the pharmacy and make sure that the pharmacy filled the prescription for clonidine HCL, not clonazepam.

6. Albertsons #149 was closed on July 4, 2000 for the Independence Day holiday. On July 5, 2000, Mr. Bouzek spoke with Virginia Harvey from Dr. Laxalt's office regarding the correction of Mrs. Luckett's clonazepam to change it to clonidine HCL 0.1 mg. Mr. Bouzek recorded on a "telephoned prescription" record, "clonidine .1 mg. #60 sig 1 Bid."

7. Though he had recorded the drug as clonidine HCL 0.1 mg., Mr. Bouzek created a computer prescription record (Rx #102810) for clonidine HCL 0.2 mg. #60. Mr. Bouzek filled and dispensed the prescription to Mrs. Luckett with the clonidine HCL 0.2 mg., not the 0.1 mg. ordered by Dr. Laxalt. At hearing, Mr. Bouzek testified that he had made a second telephone call to Ms. Harvey to clarify whether Dr. Laxalt had intended clonidine HCL 0.1 mg. or 0.2 mg., since Mrs. Luckett's profile showed that Mrs. Luckett had always previously received clonidine HCL 0.1 mg. Mr. Bouzek testified that Ms. Harvey confirmed that Dr. Laxalt had, in fact, intended clonidine HCL 0.2 mg., so Mr. Bouzek created a computer record and label for clonidine HCL 0.2 mg. Ms. Harvey denied having a second telephone conversation with Mr. Bouzek and testified that Dr. Laxalt's records do not show a change from clonidine HCL 0.1 mg. to 0.2 mg. on July 5, 2000. Because Mr. Bouzek's testimony and demeanor appeared

incredible -- particularly his jumbled explanation regarding the "rewrite" prescription, the "telephone prescription," and the computer-generate labels on the backs of each -- and because the physical facts corroborate Mrs. Luckett's and Mrs. Harvey's relation of events, we find that Mr. Bouzek incorrectly and negligently filled with clonidine HCL 0.2 mg. the order he had correctly transcribed as clonidine HCL 0.1 mg.

8. Mrs. Luckett took the clonidine HCL 0.2 mg. from July 2000 to the present. Mrs. Luckett discovered that she had been taking clonidine HCL 0.2 mg. when she sought to refill the prescription at the end of July 2000. Fortunately, the incorrect dose had, in fact, been therapeutic for Mrs. Luckett. Thereafter, Dr. Laxalt authorized that Mrs. Luckett continue on clonidine HCL 0.2 mg., rather than the clonidine HCL 0.1 mg. that Dr. Laxalt had actually ordered.

9. On February 2, 2001, Mrs. Luckett ordered refills from Albertsons #149 of various prescriptions for herself and Mr. Luckett, including a refill of a prescription for Mr. Luckett for acetaminophen/COD 3 #100 (Rx #114544). Mr. Wachsman, a "floater" pharmacist for Albertsons, was working as the staff pharmacist at Albertsons #149 on February 2, 2001 and was the pharmacist responsible for the filling of Mr. and Mrs. Luckett's refill prescriptions, including Mr. Luckett's prescription for acetaminophen/COD 3.

10. Mrs. Luckett picked up the refilled prescriptions on February 5, 2001. When she got the prescriptions home, she and Mr. Luckett discovered that his prescription #114544 contained 15 small pink pills, not 100 of the larger white tablets that should have been in the vial. Mr. Luckett did not ingest any of the incorrect tablets. When Mrs. Luckett took the incorrectly filled prescription #114544 back to Albertsons #149, it

was discovered that prescription #114544 had been filled with 15 estropipate.

11. At hearing, Mr. Wachsman speculated that his pharmaceutical technician had filled two prescriptions at the same time, one for Mr. Luckett for the acetaminophen/COD 3 and another as a refill for a female patient for estropipate. Mr. Wachsman believed that he simply placed the two labels on the wrong vials. He could not explain why he did not observe the size of the tablets and vials on which he had placed the labels incorrectly, since he acknowledged that the tablets were very different in size and color and the vials should have been different in size.

12. Mr. Wachsman explained the scan verification system in use at Albertsons pharmacies. He explained that all prescriptions are to be scan verified during the filling process to verify that the bar code on the prepared prescription label matches the bar code on the stock bottle. Mr. Wachsman also explained that there should have been a final scan verification of the prescription by the clerk or technician before it was dispensed to the patient. If the second scan verification showed that the prescription had not been scan verified during the filling process, then the computer system would generate an alarm so that the prescription could be checked again by a pharmacist. Unfortunately, no first or second scan verification was performed on Mr. Luckett's acetaminophen/COD 3 prescription before it was dispensed to Mrs. Luckett, so no alarm sounded that the prescription had not been properly scan verified during the filling process.

13. On February 7, 2001, Ms. Jani transcribed on a "telephoned prescription" document a transfer of a prescription for Adalat 30 mg. #30 for Mrs. Ferrando. A pharmaceutical technician entered the transferred prescription into the computer of

Albertsons #149, but when the technician selected the tablets to fill the prescription, she filled Mrs. Ferrando's prescription with nifedipine 60 mg. rather than 30 mg. Ms. Jani filled Mrs. Ferrando's prescription with the incorrect strength and dispensed it to Mrs. Ferrando. In a written statement, Ms. Jani explained that she scan-verified the prescription before dispensing it to Mrs. Ferrando, but because she did not check the prescription label against the transcribed transfer document, she did not catch that the strength of nifedipine was incorrect.

14. Mrs. Ferrando testified that she received a voucher from a Catholic Church organization and that the voucher was intended to assist her to pay for her prescription medications. Mr. Bouzek explained that he had assisted Ms. Jani with the entry of the prescription into Albertsons #149's computer system because Ms. Jani was not a pharmacist regularly employed by Albertsons, so she was unfamiliar with Albertsons' computer system and policies and procedures. Mr. Bouzek attempted to maximize Mrs. Ferrando's voucher by using part of the voucher to cover Mrs. Ferrando's co-pay on 30 of the nifedipine tablets and to pay cash for an additional eight of the tablets. Thereby, Albertsons #149 dispensed 38 nifedipine tablets rather than the 30 ordered by Mrs. Ferrando's physician. Mrs. Jani provided the Board with a written statement in which she admitted to making and took responsibility for the error. Because of her statement and the testimony of Mrs. Ferrando and Mr. Bouzek, Mrs. Jani did not provide testimony at hearing.

15. Mrs. Ferrando testified that she took the incorrect strength of nifedipine for 38 days. Mrs. Ferrando described that she felt increasingly lethargic, as if she were suffering from a flu, as she continued to take the incorrect strength of nifedipine. Mrs.

Ferrando discovered the error when she called Albertsons #149 for a refill of the prescription. Fortunately, Mrs. Ferrando's symptoms subsided several weeks after she resumed taking the correct strength of nifedipine once the error had been discovered.

16. On December 6, 2000, the Board entered a Stipulation and Order with Mr. Bouzek and Albertsons #149 (Case Nos. 00-073A-RPH-N and 00-073B-PH-N). The facts of that case involved an incident on July 31, 2000 in which Mr. Bouzek filled a prescription for Wellbutrin 150 mg. #180 with Wellbutrin 100 mg. #60. Mr. Bouzek had placed a prescription label for Wellbutrin 150 mg. #180 directly over the manufacturer's label that plainly showed Wellbutrin 100 mg. In so doing, Mr. Bouzek also provided an expiration date on the prescription label that exceeded the actual expiration date on the manufacturer's label. Mr. Bouzek and Albertsons #149 were also disciplined because the patient was not counseled regarding the Wellbutrin prescription. The patient ingested the improper strength of Wellbutrin, but suffered no serious or permanent injury. Mr. Bouzek and Albertsons #149 each agreed to a fine of $950.00 plus an administrative fee of $250.00.

17. Mr. Johnston and Mr. Mazzone explained the efforts taken by Albertsons' management to ascertain how the various errors at issue were made. They also explained the remedial measures already taken by Albertsons, especially addressing the Board's concerns regarding the apparent failure of Albertsons' scan verification system in light of the number of errors in this matter that implicated the improper use or failure to use the system. Though the Board is concerned by any pharmacy that has committed as many patient errors as have been committed by Albertsons #149, the Board was also satisfied by Mr. Johnston's and Mr. Mazzone's testimonies that

Albertsons has taken appropriate and necessary actions both to ascertain the causes of the errors and to remedy the practice of Albertsons #149 to minimize the opportunity of such errors in the future.

CONCLUSIONS OF LAW

1. The Board has jurisdiction over this matter because Mr. Bouzek, Mr. Wachsman, and Ms. Jani are pharmacists licensed by the Board and Albertsons #149 is a pharmacy licensed by the Board.

2. In failing to confer with Dr. Laxalt's office to resolve what strength of clonazepam had been ordered or whether clonazepam was the correct drug in light of the 0.1 mg. strength ordered, Mr. Bouzek violated Nevada Revised Statutes (NRS) 639.210(4) and Nevada Administrative Code (NAC) 639.945(1)(e) and (i).

3. In dispensing the incorrect medication to Mrs. Luckett, namely by dispensing clonazepam 1 mg. when Dr. Laxalt had ordered clonidine HCL 0.1 mg., Mr. Bouzek violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

4. In employing Mr. Bouzek and operating the pharmacy in which Mr. Bouzek committed the violations in the violations in paragraphs 2 and 3 above, Albertsons #149 violated NRS 639.210(4) and (12) and NAC 639.945(1)(d), (e), and (i) and (2).

5. In dispensing the incorrect medication to Mrs. Luckett, namely by dispensing clonidine HCL 0.2 mg. when Dr. Laxalt had ordered clonidine HCL 0.1 mg., Mr. Bouzek violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

6. In employing Mr. Bouzek and operating the pharmacy in which Mr. Bouzek committed the violations in paragraph 5 above, Albertsons #149 violated NRS 639.210(4) and (12) and NAC 639.945(1)(d), (e), and (i) and (2).

7. In dispensing the incorrect medication to Mr. Luckett, namely by dispensing 15 estropipate instead of 100 acetaminophen/COD 3, Mr. Wachsman violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

8. In employing Mr. Wachsman and operating the pharmacy in which Mr. Wachsman committed the violations in paragraph 7 above, Albertsons #149 violated NRS 639.210(4) and (12) and NAC 639.945(1)(d), (e), and (i) and (2).

9. In dispensing the incorrect strength of nifedipine to Mrs. Ferrando, Ms. Jani violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

10. In employing Ms. Jani and operating the pharmacy in which Ms. Jani committed the violation in paragraph 9 above, Albertsons #149 violated NRS 639.210(4) and (12) and NAC 639.945(1)(d), (e), and (i) and (2).

11. In being repeatedly negligent, as evidenced by paragraphs 2, 3, and 5 above and the Stipulation and Order in Case No. 00-073A-RPH-N, Mr. Bouzek violated NRS 639.210(4) and (16) and NAC 639.945(1)(i).

12. In being repeatedly negligent, as evidenced by paragraphs 4, 6, 8, and 10 the Stipulation and Order in Case No. 00-073B-PH-N, Albertsons #149 violated NRS 639.210(4) and (16) and NAC 639.945(1)(i) and (2).

ORDER

Based upon the foregoing, the Board hereby orders the following:

1. Mr. Wachsman shall receive a letter of reprimand.

2. Ms. Jani shall pay a fine of $500 in cash, cashier's or certified check, or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office within 90 days of the effective date of this Order.

3. Mr. Bouzek shall pay a fine of $1,500 in cash, cashier's or certified check, or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office within 90 days of the effective date of this Order.

4. The pharmacy manager and divisional manager for Albertsons shall appear at the next four meetings of the Board in Reno to report to the Board (a) what has been done at Albertsons #149 to improve the work flow within the pharmacy, (b) what has been done regarding the staffing at the pharmacy, (c) what has been done to assure that Albertsons' policies and procedures (especially the policies and procedures regarding the use of the scan verification system) have been complied with by the pharmacy's personnel, and (d) anything else that has been done to improve the safety and accuracy of the pharmacy's practices. Albertsons #149 shall also pay the costs incurred in the investigation and prosecution of this matter of $1,592.00 in cash, cashier's or certified check, or money order made payable to "Nevada State Board of Pharmacy" to be received by the Board's Reno office within 90 days of the effective date of this Order.

5. The failure by Ms. Jani or Mr. Bouzek to comply with any term of this Order shall result in the immediate suspension of his or her license until all terms applicable to her or him are fully complied with and will result in further discipline, up to and including revocation of their licenses. The failure by Albertsons #149 to comply with any term in this Order shall result in a fine of $1,000 per day for every day that the term is not complied with, up to a maximum of $30,000, and will also result in further discipline, up to and including revocation of its license. Furthermore, any failure to pay any fine, fee, or cost ordered herein will also result in such legal action as Board staff determines to

be necessary to collect the unpaid fine, fee, or cost.

Signed and effective this 9th day of July, 2001.

NEVADA STATE BOARD OF PHARMACY,

Petitioner,

Case No. 96-053-PH-N

v.

FINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER

ALBERTSON'S FOOD & DRUG #170, Certificate of Registration No. PH0877; and

ALBERTSON'S, INC., Owner of Albertson's Food & Drug #170;

Respondents.

THIS MATTER was heard by the Nevada State Board of Pharmacy (hereinafter Board) at its regular meeting on March 26, 1997 in Reno, Nevada. Deputy Attorney General Louis Ling prosecuted the matter on behalf of the Board, and Respondent was represented by Mr. Brian Sandoval. Based on the admissions, testimony, and documents presented as well as the public records in the possession and control of the Board, the Board issues the following Findings of Fact, Conclusions of Law, and Order.

FINDINGS OF FACT

1. Because in their Answer and Notice of Defense and in their opening presentation, the Respondents admitted many of the facts as alleged in the Notice of Intended Action and Accusation, Board staff presented no witnesses or evidence. Steve Shapiro and Paula Emerson testified.. Based upon all of the admissions, evidence, and testimony presented, the following paragraphs shall be the facts as found by the Board.

2. Albertson's Pharmacy #170 (Albertson's #170) is a pharmacy located within an Albertson's grocery store located at 10500 N. McCarran Blvd. in Reno, Nevada. Albertson's, Inc. is the owner of Albertson's #170.

3. On August 23, 1996 at approximately 8:30 a.m., Gary Adams, store manager for the grocery store in which Albertson's #170 is located, opened the store safe and removed a key to the pharmacy from a sealed envelope therein. Mr. Adams then went to Albertson's #170 and let Allen Gordy, the regional butcher manager, into the pharmacy where Mr. Gordy used the pharmacy's facsimile machine. No pharmacist was present in the pharmacy because the pharmacy was not open at the time that Mr. Adams let Mr. Gordy into the pharmacy.

4. Paula Emerson, a pharmacist employed by Albertson's, observed Mr. Adams and Mr. Gordy just after Mr. Adams had let Mr. Gordy into the pharmacy, and she confronted them while they were in the pharmacy. Ms. Emerson was the pharmacist who had placed the pharmacy key in the sealed envelope that Mr. Adams had removed from the store's safe, and she had placed the key in an envelope because she was unaware that her "barrel" key would open the lock box that was in the safe.

5. After Ms. Emerson discovered the unlawful entry, a controlled substances inventory was conducted and no controlled substances were discovered to be missing.

6. Upon subsequent investigation, Mr. Adams and Mr. Gordy admitted that they had, in fact, gained unlawful entry into Albertson's #170 and that they knew when they did so that they were breaking Nevada law and company policy. At hearing, Mr.

Shapiro testified that Albertson's policy is that all pharmacy keys are either to be in the possession of a pharmacist or are to be in a lock box placed within the store's safe. Ms. Emerson testified that she knew this policy, but because she did not know that her "barrel" key would open the lock box at Albertson's #170, she left the key in a sealed envelope because she knew that the pharmacist who would be opening the store only a few minutes later would need the key because it was his only key to the pharmacy. Ms. Emerson also testified that it was her opinion that Mr. Allen was pressured by Mr. Gordy into letting Mr. Gordy into the pharmacy, since Mr. Gordy was a regional manager and Mr. Allen, as a store manager, was Mr. Gordy's subordinate.

7. As a result of the testimony at hearing, the Board finds that the circumstances of this case are unique and that the policies and procedures already in place are sufficient to assure that similar breaches of pharmacy security would be virtually impossible. The Board also finds, though, that Mr. Gordy was wrong to pressure Mr. Allen into letting him into the pharmacy and that Mr. Allen was wrong to capitulate to Mr. Gordy's demands where doing so was against Nevada law and company policy that was known to Mr. Allen at the time.

CONCLUSIONS OF LAW

1. The Board has jurisdiction over this matter because Albertson's #170 is a pharmacy licensed by the Board.

2. In owning a pharmacy in which the key to the pharmacy was easily accessed by non-pharmacist personnel who allowed themselves access to the pharmacy without a pharmacist present, Albertson's #170 and Albertson's, Inc. violated

NRS 639.210(4) and (12). In reaching this conclusion, the Board acknowledges that Albertson's #170 personnel reported the breach of security themselves, and in so doing, exposed Albertson's #170 to this disciplinary action. We commend Albertson's #170 for doing the right thing and reporting the breach of security, but we feel discipline is appropriate in this matter nonetheless because the management of Albertson's, Inc., especially its mid-level management such as Mr. Gordy, must be reminded, apparently, that Nevada's pharmacy laws cannot be disregarded without consequence.

ORDER

Based upon the foregoing, the Board imposes the following discipline:

1. Respondent Albertson's #170 shall pay a fine of $1,000.00 in cash, cashier's or certified check, or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office within 30 days of the effective date of this Order.

2. Respondent Albertson's #170 shall receive a private letter of reprimand.

SIGNED AND EFFECTIVE this 8th day of April, 1997.

FINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER

ROBERT MAI, R.Ph.,
Certificate of Registration #12874,

Case No. 11-068-RPH-N

SAVE MART PHARMACY #551,
Certificate of Registration #PH01036,

Case No. 11-068-PH-N

Respondents.

/

THIS MATTER was heard by the Nevada State Board of Pharmacy (hereinafter Board) at its regular meeting on June 6, 2012 in Reno, Nevada. The Board was represented by Carolyn J. Cramer, General Counsel to the Board. Respondent Robert Mai represented himself and Robert Vaughan Sr., Director of Pharmacy represented Respondent Save Mart Pharmacy #551. Based on the presentations of the parties and the public records in the possession and control of the Board, the Board issues the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. At hearing, the parties stipulated to the admission to all exhibits. Board staff presented the sworn testimony of Bernadette Nieto, Joseph J. Depczynski and Kim Bratton. Respondents testified on their own behalf. Based upon the presentation of the parties and the public records in the possession and control of the Board, the Board finds the following to be the facts of this matter.

2. The Respondents did not contest that Reana Sallee was dispensed 90 tablets of 600 mg gemfibrozil instead of 90 tablets of 600 mg. gabapentin as prescribed by her

physician. Ms. Nieto testified that she had picked up the refill of her daughter's medication. Ms. Nieto testified that when she arrived at Save Mart #551 to pick up the prescription the prescription was not ready and the pharmacy staff hurried to fill the prescription. Ms. Nieto testified that she paid for the prescription and left the pharmacy. Ms. Nieto testified that within days of ingesting the medication Reana started to have more frequent seizures. During a seizure Reana fell and hit her head and Ms. Nieto took her to her physician where it was discovered that Reana had been dispensed the gemfibrozil instead of the gabapentin. Ms. Nieto then contacted the pharmacy and told them about the error in her Reana's medication. The pharmacy staff was very attentive to her needs and sympathetic that her daughter had suffered from their mistake.

3. Board Staff presented the testimony of Joseph J. Depczynski, Inspector/Investigator for the Board, who investigated the misfill of Reana's prescription which included interviewing Respondent Mai, pharmaceutical technician Kim Bratton, who was involved in the error, as well as Ms. Nieto. Mr. Depzynski identified the exhibits he collected in his investigation and testified that Kim Bratton had been given the override code by Respondent Mai. Ms. Bratton entered the NDC code for the gemfibrozil and a generic substitution warning came up that she overrode using Respondent Mai's override code. Investigator Depczynski testified that Respondent Mai did not notice that the label and the pills in the bottle were not the same medication and he put a green label on the bottle indicating that the drug may look different but the medication is the same. He then dispensed the gemfibrozil to Reana instead of the gabapentin as prescribed. Mr. Depczynski testified that since the incident the pharmacy has moved the look alike/sound alike drugs to different parts of the pharmacy and use another generic manufacturer so the stock bottles do not look alike.

4. Board Staff presented the testimony of Kim Bratton, who has 14 years experience as a pharmaceutical technician and has worked with Respondent Mai for four years. Ms. Bratton testified that she recalled filling the prescription because Ms. Nieto was waiting. When asked whether Ms. Bratton knew what a GPI warning was she stated that it meant that something did not match. Ms. Bratton acknowledged that she may not have given Respondent Mai any of the override information that was generated when she processed the prescription when she gave it to Respondent Mai for verification because she was in a hurry. Ms. Bratton testified that she had used Respondent Mai's security code and used it to override the system to process the prescriptions even though she knew she should not have it. Ms. Bratton acknowledged that she should have printed the DUR screen for Respondent Mai to review, but she did not, again because she was in a hurry.

5. Respondents made statements of explanation and mitigation. Mr. Vaughn testified that Save Mart is committed to patient safety and that after this incident happened Save Mart has modified their computer system so that a pharmacist cannot override the GPI warning and pharmacists are strictly forbidden to share security codes with pharmaceutical technicians.

6. Mr. Mai testified that at the time the error occurred the Save Mart system did not have a scanning system in place and all NDC codes were input by hand. Mr. Mai indicated that the system has been corrected so that GPI warnings cannot be overridden, but he testified that he sees so many repetitive alerts that he has become immune to them and finds it is distracting to go back and forth from what he is working on to a pharmaceutical technicians workstation to override an alert which is why he shared his security code with Ms. Bratton.

CONCLUSIONS OF LAW

1. The Nevada State Board of Pharmacy has jurisdiction over this matter because Respondent Mai is a pharmacist licensed by the Board and Save Mart #551 is a pharmacy licensed by the Board.

2. In failing to strictly follow the instructions of Ms. Sallee's physician by verifying and refilling her prescription for 90 tablets of 600 mg. gabapentin with 90 tablets of 600 mg. gemfibrozil, Mr. Mai violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

3. In allowing a pharmaceutical technician access to his personal identifier code to override warnings without his oversight, Mr. Mai violated NRS 639.210(4) and/or NAC639.921(1)(b)(6)(II) and/or 639.945(1)(d) and/or (i).

4. In owning and operating the pharmacy in which Mr. Mai filled and dispensed Ms. Sallee's prescription for 90 tablets of 600 mg. gabapentin with 90 tablets of 600 mg. gemfirozil, Save Mart #551 vviolated NRS 639.210(4) and NAC 639.945(1)(d) and (i) and (2).

ORDER

Based upon the foregoing, the Board hereby orders the following:

1. Mr. Mai shall pay a combined fine of $2,000.00 for having been found guilty of the First and Second Causes of Action. Mr. Mai shall pay the entire fine by cashier's or certified check or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office within 90 days of the effective date of this Order.

2. Save Mart #551 for having been found guilty of the Third Cause of Action, shall within 10 days of the effective date of this Order, shall contact the Your Success Rx Program to enroll Save Mart #551 in its remediation program (hereinafter "the

program") according to the terms and conditions imposed by the program, shall cooperate fully and genuinely with the needs, demands and requirements of the program and shall pay the costs of the program at their own expense. When Save Mart #551 has completed the program, the program will submit a final report regarding its participation in the program to the Board's staff. Board staff may set an item on the Board's subsequent agenda regarding the report to discuss the report with the Board. If Board staff determines to set the item on the Board's agenda, the managing pharmacist may be required to appear on behalf of Save Mart #551 to be present for the Board's discussion, which may be held in open or closed session at the discretion of the Board

3. Save Mart #551 for having been found guilty of the Third Cause of Action, shall pay the Board's costs and fees. The total investigative fees and costs are $306.90 and the Board's administrative fee of $295.00, for a total of $601.90. Save Mart #551 will pay $601.90 by cashier's or certified check or money order made payable to "Nevada State Board of Pharmacy" to be received by the Board's Reno office within 90 days of the effective date of this Order.

4. The failure by Mr. Mai or Save Mart #551 to comply with any term in this order shall result in the immediate suspension of their license and will also result in further discipline, up to and including revocation of the their license.

NOTICE OF INTENDED ACTION AND ACCUSATION

ROBERT MAI, R.Ph.,
Certificate of Registration #12874,

Case No. 11-068-RPH-N

SAVE MART PHARMACY #551,
Certificate of Registration #PH01036,

Case No. 11-068-PH-N

Respondents.
_____/

COMES NOW Larry L. Pinson, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, and makes the following that will serve as both a notice of intended action under Nevada Revised Statutes (NRS) 233B.127(3) and as an accusation under NRS 639.241.

I.

The Nevada State Board of Pharmacy has jurisdiction over this matter because Respondent Robert Mai is a pharmacist licensed by the Board and Save Mart Pharmacy #551 (Save Mart #551) is a pharmacy licensed by the Board, located at 4348 South Carson Street, Carson City, Nevada.

II.

On or about June 28, 2011, Bernadette Nieto filed a complaint with the Board on behalf of her daughter, Reana Sallee. Ms. Nieto called in a refill of Ms. Sallee's gabapentin 600 mg. tablets (Neurontin) on June 8, 2011. When Ms. Nieto arrived at Save Mart #551, the prescription had not yet been filled, she waited at the counter until pharmacy staff completed the fill and left the pharmacy with the medication she was given. Within days of ingesting the medication she received from Save Mart #551, Ms. Sallee began to suffer frequent seizures. On the morning of June 27, 2011, Ms. Sallee

fell and hit her head above her left eye causing the area to become red and swollen. Ms. Sallee was seen by her physician that same morning at which time it was discovered that her prescription had been misfilled with gemfibrozil. Ms. Sallee had ingested 49 gemfibrozil tablets.

III.

During the investigation of this matter it was found that a pharmaceutical technician had selected gemfibrozil from the shelf rather than the gabapentin. When the pharmaceutical technician entered the NDC number into the computer an alert was generated advising that the substitute GPI was not equivalent to the GPI prescribed. It was learned from Mr. Mai that the pharmaceutical technician was familiar with his personal identifier code and she used the code to clear the warning and continued with the prescription fill. The computer system accepted the override and subsequently generated a label set identifying gemfibrozil as a generic equivalent for Neurontin. Mr. Mai verified the prescription and affixed an advisory sticker to the front of the label that read "This is the same medication that you have been getting. Color, size or shape may appear different."

FIRST CAUSE OF ACTION

IV.

In failing to strictly follow the instructions of Ms. Sallee's physician by verifying and refilling her prescription for 90 tablets of 600 mg. gabapentin with 90 tablets of 600 mg. gemfibrozil, Mr. Mai violated Nevada Revised Statutes (NRS) 639.210(4) and/or Nevada Administrative Code (NAC) 639.945(1)(d) and (i).

SECOND CAUSE OF ACTION

V.

In allowing a pharmaceutical technician access to his personal identifier code to override warnings without his oversight, Mr. Mai violated NRS 639.210(4) and/or NAC 639.921(1)(b)(6)(II) and/or 639.945(1)(d) and/or (i).

THIRD CAUSE OF ACTION

VI.

In owning and operating the pharmacy in which Mr. Mai filled and dispensed Ms. Sallee's prescription for 90 tablets of 600 mg. gabapentin with 90 tablets of 600 mg. gemfibrozil, Save Mart #551 violated NRS 639.210(4) and/or NAC 639.945(1)(d) and (i) and (2).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of the Respondents.

Signed this 30th day of April, 2012.

Nevada State Board of Pharmacy

Respondents.

THIS MATTER was heard by the Nevada State Board of Pharmacy (hereinafter Board) at its regular meeting on June 13, 2001 in Reno, Nevada. The Board was represented by Louis Ling, General Counsel. The Respondents were represented by Brian Sandoval. Based on the public records in the possession and control of the Board, the Board issues the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. At hearing, Board staff presented the testimony of Virginia Harvey, Margaret Luckett, and Catherine Ferrando. The Respondents presented the testimony of Daniel Bouzek, Mark Johnston, Rich Mazzone, and Donald Wachsman. The parties also stipulated to the entry into evidence of one exhibit. Based upon the testimony and evidence presented at hearing and the public records in the possession and control of

the Board, the Board finds the following to be the facts of this matter.

2. On July 3, 2000, Mrs. Luckett called her physician, Dr. Kristen Laxalt, and requested refills of several prescriptions that Dr. Laxalt had written for Mrs. Luckett. One of the prescriptions was for clonidine HCL 0.1 mg. #30 (Rx #100592). Thereafter, an agent of Dr. Laxalt spoke with Mr. Bouzek regarding the refills requested by Mrs. Luckett. Mr. Bouzek made a "telephoned prescription" record of the conversation on which he recorded: "clonazepam 0.1, #60, sig 1 Bid." At hearing, Mr. Bouzek attempted to explain that he wrote "clonazepam" because he claimed that he had been told by Dr. Laxalt's agent that the prescription was for Klonapin, but Ms. Harvey testified that neither Klonapin nor clonazepam appeared in Dr. Laxalt's records. Mr. Bouzek's explanation belies his own recordation of "clonazepam 0.1," since clonazepam does not come in a 0.1 mg. strength, and his explanation that he added the "0." when he discovered the error was belied by a review of the original prescription and common practice by pharmacists. We cannot and do not find Mr. Bouzek's explanation to be credible.

3. Later on July 3, 2000, Mr. Bouzek created a new prescription for Mrs. Luckett (Rx #102710) for clonazepam 1 mg. #60. Mr. Bouzek subsequently filled Rx #102710 with clonazepam 1 mg. #60.

4. Mrs. Luckett's prescription profile did not show any previous prescriptions for clonazepam, though it did show the previous prescription for clonidine HCL. Clonazepam is unavailable in a 0.1 mg. strength, but clonidine HCL is.

5. Mrs. Luckett picked up her prescriptions on July 3, 2000 and took them home. Because she believed the prescriptions all to be refills of drugs she had previously

received, Mrs. Luckett declined counseling when it was attempted by Rolf Zarkizian, the managing pharmacist for Albertsons #149. Once home, she discovered that she had a prescription for clonazepam, not clonidine HCL. Mrs. Luckett contacted Dr. Laxalt's office and was told not to take any of the clonazepam and, instead, to return to the pharmacy because Dr. Laxalt's office would call the pharmacy and make sure that the pharmacy filled the prescription for clonidine HCL, not clonazepam.

6. Albertsons #149 was closed on July 4, 2000 for the Independence Day holiday. On July 5, 2000, Mr. Bouzek spoke with Virginia Harvey from Dr. Laxalt's office regarding the correction of Mrs. Luckett's clonazepam to change it to clonidine HCL 0.1 mg. Mr. Bouzek recorded on a "telephoned prescription" record, "clonidine .1 mg. #60 sig 1 Bid."

7. Though he had recorded the drug as clonidine HCL 0.1 mg., Mr. Bouzek created a computer prescription record (Rx #102810) for clonidine HCL 0.2 mg. #60. Mr. Bouzek filled and dispensed the prescription to Mrs. Luckett with the clonidine HCL 0.2 mg., not the 0.1 mg. ordered by Dr. Laxalt. At hearing, Mr. Bouzek testified that he had made a second telephone call to Ms. Harvey to clarify whether Dr. Laxalt had intended clonidine HCL 0.1 mg. or 0.2 mg., since Mrs. Luckett's profile showed that Mrs. Luckett had always previously received clonidine HCL 0.1 mg. Mr. Bouzek testified that Ms. Harvey confirmed that Dr. Laxalt had, in fact, intended clonidine HCL 0.2 mg., so Mr. Bouzek created a computer record and label for clonidine HCL 0.2 mg. Ms. Harvey denied having a second telephone conversation with Mr. Bouzek and testified that Dr. Laxalt's records do not show a change from clonidine HCL 0.1 mg. to 0.2 mg. on July 5, 2000. Because Mr. Bouzek's testimony and demeanor appeared

incredible -- particularly his jumbled explanation regarding the "rewrite" prescription, the "telephone prescription," and the computer-generate labels on the backs of each -- and because the physical facts corroborate Mrs. Luckett's and Mrs. Harvey's relation of events, we find that Mr. Bouzek incorrectly and negligently filled with clonidine HCL 0.2 mg. the order he had correctly transcribed as clonidine HCL 0.1 mg.

8. Mrs. Luckett took the clonidine HCL 0.2 mg. from July 2000 to the present. Mrs. Luckett discovered that she had been taking clonidine HCL 0.2 mg. when she sought to refill the prescription at the end of July 2000. Fortunately, the incorrect dose had, in fact, been therapeutic for Mrs. Luckett. Thereafter, Dr. Laxalt authorized that Mrs. Luckett continue on clonidine HCL 0.2 mg., rather than the clonidine HCL 0.1 mg. that Dr. Laxalt had actually ordered.

9. On February 2, 2001, Mrs. Luckett ordered refills from Albertsons #149 of various prescriptions for herself and Mr. Luckett, including a refill of a prescription for Mr. Luckett for acetaminophen/COD 3 #100 (Rx #114544). Mr. Wachsman, a "floater" pharmacist for Albertsons, was working as the staff pharmacist at Albertsons #149 on February 2, 2001 and was the pharmacist responsible for the filling of Mr. and Mrs. Luckett's refill prescriptions, including Mr. Luckett's prescription for acetaminophen/COD 3.

10. Mrs. Luckett picked up the refilled prescriptions on February 5, 2001. When she got the prescriptions home, she and Mr. Luckett discovered that his prescription #114544 contained 15 small pink pills, not 100 of the larger white tablets that should have been in the vial. Mr. Luckett did not ingest any of the incorrect tablets. When Mrs. Luckett took the incorrectly filled prescription #114544 back to Albertsons #149, it

was discovered that prescription #114544 had been filled with 15 estropipate.

11. At hearing, Mr. Wachsman speculated that his pharmaceutical technician had filled two prescriptions at the same time, one for Mr. Luckett for the acetaminophen/COD 3 and another as a refill for a female patient for estropipate. Mr. Wachsman believed that he simply placed the two labels on the wrong vials. He could not explain why he did not observe the size of the tablets and vials on which he had placed the labels incorrectly, since he acknowledged that the tablets were very different in size and color and the vials should have been different in size.

12. Mr. Wachsman explained the scan verification system in use at Albertsons pharmacies. He explained that all prescriptions are to be scan verified during the filling process to verify that the bar code on the prepared prescription label matches the bar code on the stock bottle. Mr. Wachsman also explained that there should have been a final scan verification of the prescription by the clerk or technician before it was dispensed to the patient. If the second scan verification showed that the prescription had not been scan verified during the filling process, then the computer system would generate an alarm so that the prescription could be checked again by a pharmacist. Unfortunately, no first or second scan verification was performed on Mr. Luckett's acetaminophen/COD 3 prescription before it was dispensed to Mrs. Luckett, so no alarm sounded that the prescription had not been properly scan verified during the filling process.

13. On February 7, 2001, Ms. Jani transcribed on a "telephoned prescription" document a transfer of a prescription for Adalat 30 mg. #30 for Mrs. Ferrando. A pharmaceutical technician entered the transferred prescription into the computer of

Albertsons #149, but when the technician selected the tablets to fill the prescription, she filled Mrs. Ferrando's prescription with nifedipine 60 mg. rather than 30 mg. Ms. Jani filled Mrs. Ferrando's prescription with the incorrect strength and dispensed it to Mrs. Ferrando. In a written statement, Ms. Jani explained that she scan-verified the prescription before dispensing it to Mrs. Ferrando, but because she did not check the prescription label against the transcribed transfer document, she did not catch that the strength of nifedipine was incorrect.

14. Mrs. Ferrando testified that she received a voucher from a Catholic Church organization and that the voucher was intended to assist her to pay for her prescription medications. Mr. Bouzek explained that he had assisted Ms. Jani with the entry of the prescription into Albertsons #149's computer system because Ms. Jani was not a pharmacist regularly employed by Albertsons, so she was unfamiliar with Albertsons' computer system and policies and procedures. Mr. Bouzek attempted to maximize Mrs. Ferrando's voucher by using part of the voucher to cover Mrs. Ferrando's co-pay on 30 of the nifedipine tablets and to pay cash for an additional eight of the tablets. Thereby, Albertsons #149 dispensed 38 nifedipine tablets rather than the 30 ordered by Mrs. Ferrando's physician. Mrs. Jani provided the Board with a written statement in which she admitted to making and took responsibility for the error. Because of her statement and the testimony of Mrs. Ferrando and Mr. Bouzek, Mrs. Jani did not provide testimony at hearing.

15. Mrs. Ferrando testified that she took the incorrect strength of nifedipine for 38 days. Mrs. Ferrando described that she felt increasingly lethargic, as if she were suffering from a flu, as she continued to take the incorrect strength of nifedipine. Mrs.

Ferrando discovered the error when she called Albertsons #149 for a refill of the prescription. Fortunately, Mrs. Ferrando's symptoms subsided several weeks after she resumed taking the correct strength of nifedipine once the error had been discovered.

16. On December 6, 2000, the Board entered a Stipulation and Order with Mr. Bouzek and Albertsons #149 (Case Nos. 00-073A-RPH-N and 00-073B-PH-N). The facts of that case involved an incident on July 31, 2000 in which Mr. Bouzek filled a prescription for Wellbutrin 150 mg. #180 with Wellbutrin 100 mg. #60. Mr. Bouzek had placed a prescription label for Wellbutrin 150 mg. #180 directly over the manufacturer's label that plainly showed Wellbutrin 100 mg. In so doing, Mr. Bouzek also provided an expiration date on the prescription label that exceeded the actual expiration date on the manufacturer's label. Mr. Bouzek and Albertsons #149 were also disciplined because the patient was not counseled regarding the Wellbutrin prescription. The patient ingested the improper strength of Wellbutrin, but suffered no serious or permanent injury. Mr. Bouzek and Albertsons #149 each agreed to a fine of $950.00 plus an administrative fee of $250.00.

17. Mr. Johnston and Mr. Mazzone explained the efforts taken by Albertsons' management to ascertain how the various errors at issue were made. They also explained the remedial measures already taken by Albertsons, especially addressing the Board's concerns regarding the apparent failure of Albertsons' scan verification system in light of the number of errors in this matter that implicated the improper use or failure to use the system. Though the Board is concerned by any pharmacy that has committed as many patient errors as have been committed by Albertsons #149, the Board was also satisfied by Mr. Johnston's and Mr. Mazzone's testimonies that

Albertsons has taken appropriate and necessary actions both to ascertain the causes of the errors and to remedy the practice of Albertsons #149 to minimize the opportunity of such errors in the future.

CONCLUSIONS OF LAW

1. The Board has jurisdiction over this matter because Mr. Bouzek, Mr. Wachsman, and Ms. Jani are pharmacists licensed by the Board and Albertsons #149 is a pharmacy licensed by the Board.

2. In failing to confer with Dr. Laxalt's office to resolve what strength of clonazepam had been ordered or whether clonazepam was the correct drug in light of the 0.1 mg. strength ordered, Mr. Bouzek violated Nevada Revised Statutes (NRS) 639.210(4) and Nevada Administrative Code (NAC) 639.945(1)(e) and (i).

3. In dispensing the incorrect medication to Mrs. Luckett, namely by dispensing clonazepam 1 mg. when Dr. Laxalt had ordered clonidine HCL 0.1 mg., Mr. Bouzek violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

4. In employing Mr. Bouzek and operating the pharmacy in which Mr. Bouzek committed the violations in the violations in paragraphs 2 and 3 above, Albertsons #149 violated NRS 639.210(4) and (12) and NAC 639.945(1)(d), (e), and (i) and (2).

5. In dispensing the incorrect medication to Mrs. Luckett, namely by dispensing clonidine HCL 0.2 mg. when Dr. Laxalt had ordered clonidine HCL 0.1 mg., Mr. Bouzek violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

6. In employing Mr. Bouzek and operating the pharmacy in which Mr. Bouzek committed the violations in paragraph 5 above, Albertsons #149 violated NRS 639.210(4) and (12) and NAC 639.945(1)(d), (e), and (i) and (2).

7. In dispensing the incorrect medication to Mr. Luckett, namely by dispensing 15 estropipate instead of 100 acetaminophen/COD 3, Mr. Wachsman violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

8. In employing Mr. Wachsman and operating the pharmacy in which Mr. Wachsman committed the violations in paragraph 7 above, Albertsons #149 violated NRS 639.210(4) and (12) and NAC 639.945(1)(d), (e), and (i) and (2).

9. In dispensing the incorrect strength of nifedipine to Mrs. Ferrando, Ms. Jani violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

10. In employing Ms. Jani and operating the pharmacy in which Ms. Jani committed the violation in paragraph 9 above, Albertsons #149 violated NRS 639.210(4) and (12) and NAC 639.945(1)(d), (e), and (i) and (2).

11. In being repeatedly negligent, as evidenced by paragraphs 2, 3, and 5 above and the Stipulation and Order in Case No. 00-073A-RPH-N, Mr. Bouzek violated NRS 639.210(4) and (16) and NAC 639.945(1)(i).

12. In being repeatedly negligent, as evidenced by paragraphs 4, 6, 8, and 10 the Stipulation and Order in Case No. 00-073B-PH-N, Albertsons #149 violated NRS 639.210(4) and (16) and NAC 639.945(1)(i) and (2).

ORDER

Based upon the foregoing, the Board hereby orders the following:

1. Mr. Wachsman shall receive a letter of reprimand.

2. Ms. Jani shall pay a fine of $500 in cash, cashier's or certified check, or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office within 90 days of the effective date of this Order.

3. Mr. Bouzek shall pay a fine of $1,500 in cash, cashier's or certified check, or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office within 90 days of the effective date of this Order.

Albertsons #149 shall also pay the costs incurred in the investigation and prosecution of this matter of $1,592.00 in cash, cashier's or certified check, or money order made payable to "Nevada State Board of Pharmacy" to be received by the Board's Reno office within 90 days of the effective date of this Order.

5. The failure by Albertsons #149 to comply with any term in this Order shall result in a fine of $1,000 per day for every day that the term is not complied with, up to a maximum of $30,000, and will also result in further discipline, up to and including revocation of its license. Case No. 96-053-PH-N

FINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER

THIS MATTER was heard by the Nevada State Board of Pharmacy (hereinafter Board) at its regular meeting on March 26, 1997 in Reno, Nevada. Deputy Attorney General Louis Ling prosecuted the matter on behalf of the Board, and Respondent was represented by Mr. Brian Sandoval. Based on the admissions, testimony, and documents presented as well as the public records in the possession and control of the Board, the Board issues the following Findings of Fact, Conclusions of Law, and Order.

FINDINGS OF FACT

1. Because in their Answer and Notice of Defense and in their opening presentation, the Respondents admitted many of the facts as alleged in the Notice of Intended Action and Accusation, Board staff presented no witnesses or evidence. Steve Shapiro and Paula Emerson testified.. Based upon all of the admissions, evidence, and testimony presented, the following paragraphs shall be the facts as found by the Board.

2. Albertson's Pharmacy #170 (Albertson's #170) is a pharmacy located within an Albertson's grocery store located at 10500 N. McCarran Blvd. in Reno, Nevada. Albertson's, Inc. is the owner of Albertson's #170.

3. On August 23, 1996 at approximately 6:30 a.m., Gary Adams, store manager for the grocery store in which Albertson's #170 is located, opened the store safe and removed a key to the pharmacy from a sealed envelope therein. Mr. Adams then went to Albertson's #170 and let Allen Gordy, the regional butcher manager, into the pharmacy where Mr. Gordy used the pharmacy's facsimile machine. No pharmacist was present in the pharmacy because the pharmacy was not open at the time that Mr. Adams let Mr. Gordy into the pharmacy.

4. Paula Emerson, a pharmacist employed by Albertson's, observed Mr. Adams and Mr. Gordy just after Mr. Adams had let Mr. Gordy into the pharmacy, and she confronted them while they were in the pharmacy. Ms. Emerson was the pharmacist who had placed the pharmacy key in the sealed envelope that Mr. Adams had removed from the store's safe, and she had placed the key in an envelope because she was unaware that her "barrel" key would open the lock box that was in the safe.

5. After Ms. Emerson discovered the unlawful entry, a controlled substances inventory was conducted and no controlled substances were discovered to be missing.

6. Upon subsequent investigation, Mr. Adams and Mr. Gordy admitted that they had, in fact, gained unlawful entry into Albertson's #170 and that they knew when they did so that they were breaking Nevada law and company policy. At hearing, Mr.

Shapiro testified that Albertson's policy is that all pharmacy keys are either to be in the possession of a pharmacist or are to be in a lock box placed within the store's safe. Ms. Emerson testified that she knew this policy, but because she did not know that her "barrel" key would open the lock box at Albertson's #170, she left the key in a sealed envelope because she knew that the pharmacist who would be opening the store only a few minutes later would need the key because it was his only key to the pharmacy. Ms. Emerson also testified that it was her opinion that Mr. Allen was pressured by Mr. Gordy into letting Mr. Gordy into the pharmacy, since Mr. Gordy was a regional manager and Mr. Allen, as a store manager, was Mr. Gordy's subordinate.

7. As a result of the testimony at hearing, the Board finds that the circumstances of this case are unique and that the policies and procedures already in place are sufficient to assure that similar breaches of pharmacy security would be virtually impossible. The Board also finds, though, that Mr. Gordy was wrong to pressure Mr. Allen into letting him into the pharmacy and that Mr. Allen was wrong to capitulate to Mr. Gordy's demands where doing so was against Nevada law and company policy that was known to Mr. Allen at the time.

CONCLUSIONS OF LAW

1. The Board has jurisdiction over this matter because Albertson's #170 is a pharmacy licensed by the Board.

2. In owning a pharmacy in which the key to the pharmacy was easily accessed by non-pharmacist personnel who allowed themselves access to the pharmacy without a pharmacist present, Albertson's #170 and Albertson's, Inc. violated

NRS 639.210(4) and (12). In reaching this conclusion, the Board acknowledges that Albertson's #170 personnel reported the breach of security themselves, and in so doing, exposed Albertson's #170 to this disciplinary action. We commend Albertson's #170 for doing the right thing and reporting the breach of security, but we feel discipline is appropriate in this matter nonetheless because the management of Albertson's, Inc., especially its mid-level management such as Mr. Gordy, must be reminded, apparently, that Nevada's pharmacy laws cannot be disregarded without consequence.

ORDER

Based upon the foregoing, the Board imposes the following discipline:

1. Respondent Albertson's #170 shall pay a fine of $1,000.00 in cash, cashier's or certified check, or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office within 30 days of the effective date of this Order.

2. Respondent Albertson's #170 shall receive a private letter of reprimand.

SIGNED AND EFFECTIVE this 8th day of April, 1997.

Steinheimer, within fifteen (15) days after a copy of the Accusation was personally served on you or mailed to you, you will be deemed to have waived your right to a hearing in this matter and the Board may proceed upon the Accusation without a hearing and may take action thereon as provided by law.

The request for hearing may be made by delivering or mailing one of the enclosed forms entitled "Notice of Defense," or by delivering or mailing a Notice of Defense as provided in section 11506 of the Government Code, to

Andrew M. Steinheimer
Deputy Attorney General
1300 I Street, Suite 125

Sacramento, California 94244-2550

You may, but need not, be represented by counsel at any or all stages of these proceedings.

The enclosed Notice of Defense, if signed and filed with the Board, shall be deemed a specific denial of all parts of the Accusation, but you will not be permitted to raise any objection to the form of the Accusation unless you file a further Notice of Defense as provided in section 11506 of the Government Code within fifteen (15) days after service of the Accusation on you.

NOTICE REGARDING STIPULATED SETTLEMENTS

It may be possible to avoid the time, expense and uncertaintics involved in an administrative hearing by disposing of this matter through a stipulated settlement. A stipulated settlement is a binding written agreement between you and the government regarding the matters charged and the discipline to be imposed. Such a stipulation would have to be approved by the Board of Pharmacy but, once approved, it would be incorporated into a final order.

Any stipulation must be consistent with the Board's established disciplinary guidelines; however, all matters in mitigation or aggravation will be considered. A copy of the Board's Disciplinary Guidelines will be provided to you on your written request to the state agency bringing this action.

If you are interested in pursuing this alternative to a formal administrative hearing, or if you have any questions, you or your attorney should contact Deputy Attorney General Andrew M. Steinheimer at the earliest opportunity.

NEVADA STATE BOARD OF PHARMACY,

Petitioner,

v.

FINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER

ROBERT MAI, R.Ph., Certificate of Registration #12874,

Case No. 11-068-RPH-N

SAVE MART PHARMACY #551, Certificate of Registration #PH01036,

Case No. 11-068-PH-N

Respondents.

THIS MATTER was heard by the Nevada State Board of Pharmacy (hereinafter Board) at its regular meeting on June 6, 2012 in Reno, Nevada. The Board was represented by Carolyn J. Cramer, General Counsel to the Board. Respondent Robert Mai represented himself and Robert Vaughan Sr., Director of Pharmacy represented Respondent Save Mart Pharmacy #551. Based on the presentations of the parties and the public records in the possession and control of the Board, the Board issues the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. At hearing, the parties stipulated to the admission to all exhibits. Board staff presented the sworn testimony of Bernadette Nieto, Joseph J. Depczynski and Kim Bratton. Respondents testified on their own behalf. Based upon the presentation of the parties and the public records in the possession and control of the Board, the Board finds the following to be the facts of this matter.

2. The Respondents did not contest that Reana Sallee was dispensed 90 tablets of 600 mg gemfibrozil instead of 90 tablets of 600 mg. gabapentin as prescribed by her

physician. Ms. Nieto testified that she had picked up the refill of her daughter's medication. Ms. Nieto testified that when she arrived at Save Mart #551 to pick up the prescription the prescription was not ready and the pharmacy staff hurried to fill the prescription. Ms. Nieto testified that she paid for the prescription and left the pharmacy. Ms. Nieto testified that within days of ingesting the medication Reana started to have more frequent seizures. During a seizure Reana fell and hit her head and Ms. Nieto took her to her physician where it was discovered that Reana had been dispensed the gemfibrozil instead of the gabapentin. Ms. Nieto then contacted the pharmacy and told them about the error in her Reana's medication. The pharmacy staff was very attentive to her needs and sympathetic that her daughter had suffered from their mistake.

3. Board Staff presented the testimony of Joseph J. Depczynski, Inspector/Investigator for the Board, who investigated the misfill of Reana's prescription which included interviewing Respondent Mai, pharmaceutical technician Kim Bratton, who was involved in the error, as well as Ms. Nieto. Mr. Depzynski identified the exhibits he collected in his investigation and testified that Kim Bratton had been given the override code by Respondent Mai. Ms. Bratton entered the NDC code for the gemfibrozil and a generic substitution warning came up that she overrode using Respondent Mai's override code. Investigator Depczynski testified that Respondent Mai did not notice that the label and the pills in the bottle were not the same medication and he put a green label on the bottle indicating that the drug may look different but the medication is the same. He then dispensed the gemfibrozil to Reana instead of the gabapentin as prescribed. Mr. Depczynski testified that since the incident the pharmacy has moved the look alike/sound alike drugs to different parts of the pharmacy and use another generic manufacturer so the stock bottles do not look alike.

4. Board Staff presented the testimony of Kim Bratton, who has 14 years experience as a pharmaceutical technician and has worked with Respondent Mai for four years. Ms. Bratton testified that she recalled filling the prescription because Ms. Nieto was waiting. When asked whether Ms. Bratton knew what a GPI warning was she stated that it meant that something did not match. Ms. Bratton acknowledged that she may not have given Respondent Mai any of the override information that was generated when she processed the prescription when she gave it to Respondent Mai for verification because she was in a hurry. Ms. Bratton testified that she had used Respondent Mai's security code and used it to override the system to process the prescriptions even though she knew she should not have it. Ms. Bratton acknowledged that she should have printed the DUR screen for Respondent Mai to review, but she did not, again because she was in a hurry.

5. Respondents made statements of explanation and mitigation. Mr. Vaughn testified that Save Mart is committed to patient safety and that after this incident happened Save Mart has modified their computer system so that a pharmacist cannot override the GPI warning and pharmacists are strictly forbidden to share security codes with pharmaceutical technicians.

6. Mr. Mai testified that at the time the error occurred the Save Mart system did not have a scanning system in place and all NDC codes were input by hand. Mr. Mai indicated that the system has been corrected so that GPI warnings cannot be overridden, but he testified that he sees so many repetitive alerts that he has become immune to them and finds it is distracting to go back and forth from what he is working on to a pharmaceutical technicians workstation to override an alert which is why he shared his security code with Ms. Bratton.

CONCLUSIONS OF LAW

1. The Nevada State Board of Pharmacy has jurisdiction over this matter because Respondent Mai is a pharmacist licensed by the Board and Save Mart #551 is a pharmacy licensed by the Board.

2. In failing to strictly follow the instructions of Ms. Sallee's physician by verifying and refilling her prescription for 90 tablets of 600 mg. gabapentin with 90 tablets of 600 mg. gemfibrozil, Mr. Mai violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

3. In allowing a pharmaceutical technician access to his personal identifier code to override warnings without his oversight, Mr. Mai violated NRS 639.210(4) and/or NAC639.921(1)(b)(6)(II) and/or 639.945(1)(d) and/or (i).

4. In owning and operating the pharmacy in which Mr. Mai filled and dispensed Ms. Sallee's prescription for 90 tablets of 600 mg. gabapentin with 90 tablets of 600 mg. gemfirozil, Save Mart #551 vviolated NRS 639.210(4) and NAC 639.945(1)(d) and (i) and (2).

ORDER

Based upon the foregoing, the Board hereby orders the following:

1. Mr. Mai shall pay a combined fine of $2,000.00 for having been found guilty of the First and Second Causes of Action. Mr. Mai shall pay the entire fine by cashier's or certified check or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office within 90 days of the effective date of this Order.

2. Save Mart #551 for having been found guilty of the Third Cause of Action, shall within 10 days of the effective date of this Order, shall contact the Your Success Rx Program to enroll Save Mart #551 in its remediation program (hereinafter "the

program") according to the terms and conditions imposed by the program, shall cooperate fully and genuinely with the needs, demands and requirements of the program and shall pay the costs of the program at their own expense. When Save Mart #551 has completed the program, the program will submit a final report regarding its participation in the program to the Board's staff. Board staff may set an item on the Board's subsequent agenda regarding the report to discuss the report with the Board. If Board staff determines to set the item on the Board's agenda, the managing pharmacist may be required to appear on behalf of Save Mart #551 to be present for the Board's discussion, which may be held in open or closed session at the discretion of the Board

3. Save Mart #551 for having been found guilty of the Third Cause of Action, shall pay the Board's costs and fees. The total investigative fees and costs are $306.90 and the Board's administrative fee of $295.00, for a total of $601.90. Save Mart #551 will pay $601.90 by cashier's or certified check or money order made payable to "Nevada State Board of Pharmacy" to be received by the Board's Reno office within 90 days of the effective date of this Order.

4. The failure by Mr. Mai or Save Mart #551 to comply with any term in this order shall result in the immediate suspension of their license and will also result in further discipline, up to and including revocation of the their license.

NOTICE OF INTENDED ACTION AND ACCUSATION

ROBERT MAI, R.Ph.,
Certificate of Registration #12874,

Case No. 11-068-RPH-N

SAVE MART PHARMACY #551,
Certificate of Registration #PH01036,

Case No. 11-068-PH-N

Respondents.
_____/

COMES NOW Larry L. Pinson, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, and makes the following that will serve as both a notice of intended action under Nevada Revised Statutes (NRS) 233B.127(3) and as an accusation under NRS 639.241.

I.

The Nevada State Board of Pharmacy has jurisdiction over this matter because Respondent Robert Mai is a pharmacist licensed by the Board and Save Mart Pharmacy #551 (Save Mart #551) is a pharmacy licensed by the Board, located at 4348 South Carson Street, Carson City, Nevada.

II.

On or about June 28, 2011, Bernadette Nieto filed a complaint with the Board on behalf of her daughter, Reana Sallee. Ms. Nieto called in a refill of Ms. Sallee's gabapentin 600 mg. tablets (Neurontin) on June 8, 2011. When Ms. Nieto arrived at Save Mart #551, the prescription had not yet been filled, she waited at the counter until pharmacy staff completed the fill and left the pharmacy with the medication she was given. Within days of ingesting the medication she received from Save Mart #551, Ms. Sallee began to suffer frequent seizures. On the morning of June 27, 2011, Ms. Sallee

fell and hit her head above her left eye causing the area to become red and swollen. Ms. Sallee was seen by her physician that same morning at which time it was discovered that her prescription had been misfilled with gemfibrozil. Ms. Sallee had ingested 49 gemfibrozil tablets.

III.

During the investigation of this matter it was found that a pharmaceutical technician had selected gemfibrozil from the shelf rather than the gabapentin. When the pharmaceutical technician entered the NDC number into the computer an alert was generated advising that the substitute GPI was not equivalent to the GPI prescribed. It was learned from Mr. Mai that the pharmaceutical technician was familiar with his personal identifier code and she used the code to clear the warning and continued with the prescription fill. The computer system accepted the override and subsequently generated a label set identifying gemfibrozil as a generic equivalent for Neurontin. Mr. Mai verified the prescription and affixed an advisory sticker to the front of the label that read "This is the same medication that you have been getting. Color, size or shape may appear different."

FIRST CAUSE OF ACTION

IV.

In failing to strictly follow the instructions of Ms. Sallee's physician by verifying and refilling her prescription for 90 tablets of 600 mg. gabapentin with 90 tablets of 600 mg. gemfibrozil, Mr. Mai violated Nevada Revised Statutes (NRS) 639.210(4) and/or Nevada Administrative Code (NAC) 639.945(1)(d) and (i).

SECOND CAUSE OF ACTION

V.

In allowing a pharmaceutical technician access to his personal identifier code to override warnings without his oversight, Mr. Mai violated NRS 639.210(4) and/or NAC 639.921(1)(b)(6)(II) and/or 639.945(1)(d) and/or (i).

THIRD CAUSE OF ACTION

VI.

In owning and operating the pharmacy in which Mr. Mai filled and dispensed Ms. Sallee's prescription for 90 tablets of 600 mg. gabapentin with 90 tablets of 600 mg. gemfibrozil, Save Mart #551 violated NRS 639.210(4) and/or NAC 639.945(1)(d) and (i) and (2).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of the Respondents.

Respondents.

THIS MATTER was heard by the Nevada State Board of Pharmacy (hereinafter Board) at its regular meeting on June 13, 2001 in Reno, Nevada. The Board was represented by Louis Ling, General Counsel. The Respondents were represented by Brian Sandoval. Based on the public records in the possession and control of the Board, the Board issues the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. At hearing, Board staff presented the testimony of Virginia Harvey, Margaret Luckett, and Catherine Ferrando. The Respondents presented the testimony of Daniel Bouzek, Mark Johnston, Rich Mazzone, and Donald Wachsman. The parties also stipulated to the entry into evidence of one exhibit. Based upon the testimony and evidence presented at hearing and the public records in the possession and control of

the Board, the Board finds the following to be the facts of this matter.

2. On July 3, 2000, Mrs. Luckett called her physician, Dr. Kristen Laxalt, and requested refills of several prescriptions that Dr. Laxalt had written for Mrs. Luckett. One of the prescriptions was for clonidine HCL 0.1 mg. #30 (Rx #100592). Thereafter, an agent of Dr. Laxalt spoke with Mr. Bouzek regarding the refills requested by Mrs. Luckett. Mr. Bouzek made a "telephoned prescription" record of the conversation on which he recorded: "clonazepam 0.1, #60, sig 1 Bid." At hearing, Mr. Bouzek attempted to explain that he wrote "clonazepam" because he claimed that he had been told by Dr. Laxalt's agent that the prescription was for Klonapin, but Ms. Harvey testified that neither Klonapin nor clonazepam appeared in Dr. Laxalt's records. Mr. Bouzek's explanation belies his own recordation of "clonazepam 0.1," since clonazepam does not come in a 0.1 mg. strength, and his explanation that he added the "0." when he discovered the error was belied by a review of the original prescription and common practice by pharmacists. We cannot and do not find Mr. Bouzek's explanation to be credible.

3. Later on July 3, 2000, Mr. Bouzek created a new prescription for Mrs. Luckett (Rx #102710) for clonazepam 1 mg. #60. Mr. Bouzek subsequently filled Rx #102710 with clonazepam 1 mg. #60.

4. Mrs. Luckett's prescription profile did not show any previous prescriptions for clonazepam, though it did show the previous prescription for clonidine HCL. Clonazepam is unavailable in a 0.1 mg. strength, but clonidine HCL is.

5. Mrs. Luckett picked up her prescriptions on July 3, 2000 and took them home. Because she believed the prescriptions all to be refills of drugs she had previously

received, Mrs. Luckett declined counseling when it was attempted by Rolf Zarkizian, the managing pharmacist for Albertsons #149. Once home, she discovered that she had a prescription for clonazepam, not clonidine HCL. Mrs. Luckett contacted Dr. Laxalt's office and was told not to take any of the clonazepam and, instead, to return to the pharmacy because Dr. Laxalt's office would call the pharmacy and make sure that the pharmacy filled the prescription for clonidine HCL, not clonazepam.

6. Albertsons #149 was closed on July 4, 2000 for the Independence Day holiday. On July 5, 2000, Mr. Bouzek spoke with Virginia Harvey from Dr. Laxalt's office regarding the correction of Mrs. Luckett's clonazepam to change it to clonidine HCL 0.1 mg. Mr. Bouzek recorded on a "telephoned prescription" record, "clonidine .1 mg. #60 sig 1 Bid."

7. Though he had recorded the drug as clonidine HCL 0.1 mg., Mr. Bouzek created a computer prescription record (Rx #102810) for clonidine HCL 0.2 mg. #60. Mr. Bouzek filled and dispensed the prescription to Mrs. Luckett with the clonidine HCL 0.2 mg., not the 0.1 mg. ordered by Dr. Laxalt. At hearing, Mr. Bouzek testified that he had made a second telephone call to Ms. Harvey to clarify whether Dr. Laxalt had intended clonidine HCL 0.1 mg. or 0.2 mg., since Mrs. Luckett's profile showed that Mrs. Luckett had always previously received clonidine HCL 0.1 mg. Mr. Bouzek testified that Ms. Harvey confirmed that Dr. Laxalt had, in fact, intended clonidine HCL 0.2 mg., so Mr. Bouzek created a computer record and label for clonidine HCL 0.2 mg. Ms. Harvey denied having a second telephone conversation with Mr. Bouzek and testified that Dr. Laxalt's records do not show a change from clonidine HCL 0.1 mg. to 0.2 mg. on July 5, 2000. Because Mr. Bouzek's testimony and demeanor appeared

incredible -- particularly his jumbled explanation regarding the "rewrite" prescription, the "telephone prescription," and the computer-generate labels on the backs of each -- and because the physical facts corroborate Mrs. Luckett's and Mrs. Harvey's relation of events, we find that Mr. Bouzek incorrectly and negligently filled with clonidine HCL 0.2 mg. the order he had correctly transcribed as clonidine HCL 0.1 mg.

8. Mrs. Luckett took the clonidine HCL 0.2 mg. from July 2000 to the present. Mrs. Luckett discovered that she had been taking clonidine HCL 0.2 mg. when she sought to refill the prescription at the end of July 2000. Fortunately, the incorrect dose had, in fact, been therapeutic for Mrs. Luckett. Thereafter, Dr. Laxalt authorized that Mrs. Luckett continue on clonidine HCL 0.2 mg., rather than the clonidine HCL 0.1 mg. that Dr. Laxalt had actually ordered.

9. On February 2, 2001, Mrs. Luckett ordered refills from Albertsons #149 of various prescriptions for herself and Mr. Luckett, including a refill of a prescription for Mr. Luckett for acetaminophen/COD 3 #100 (Rx #114544). Mr. Wachsman, a "floater" pharmacist for Albertsons, was working as the staff pharmacist at Albertsons #149 on February 2, 2001 and was the pharmacist responsible for the filling of Mr. and Mrs. Luckett's refill prescriptions, including Mr. Luckett's prescription for acetaminophen/COD 3.

10. Mrs. Luckett picked up the refilled prescriptions on February 5, 2001. When she got the prescriptions home, she and Mr. Luckett discovered that his prescription #114544 contained 15 small pink pills, not 100 of the larger white tablets that should have been in the vial. Mr. Luckett did not ingest any of the incorrect tablets. When Mrs. Luckett took the incorrectly filled prescription #114544 back to Albertsons #149, it

was discovered that prescription #114544 had been filled with 15 estropipate.

11. At hearing, Mr. Wachsman speculated that his pharmaceutical technician had filled two prescriptions at the same time, one for Mr. Luckett for the acetaminophen/COD 3 and another as a refill for a female patient for estropipate. Mr. Wachsman believed that he simply placed the two labels on the wrong vials. He could not explain why he did not observe the size of the tablets and vials on which he had placed the labels incorrectly, since he acknowledged that the tablets were very different in size and color and the vials should have been different in size.

12. Mr. Wachsman explained the scan verification system in use at Albertsons pharmacies. He explained that all prescriptions are to be scan verified during the filling process to verify that the bar code on the prepared prescription label matches the bar code on the stock bottle. Mr. Wachsman also explained that there should have been a final scan verification of the prescription by the clerk or technician before it was dispensed to the patient. If the second scan verification showed that the prescription had not been scan verified during the filling process, then the computer system would generate an alarm so that the prescription could be checked again by a pharmacist. Unfortunately, no first or second scan verification was performed on Mr. Luckett's acetaminophen/COD 3 prescription before it was dispensed to Mrs. Luckett, so no alarm sounded that the prescription had not been properly scan verified during the filling process.

13. On February 7, 2001, Ms. Jani transcribed on a "telephoned prescription" document a transfer of a prescription for Adalat 30 mg. #30 for Mrs. Ferrando. A pharmaceutical technician entered the transferred prescription into the computer of

Albertsons #149, but when the technician selected the tablets to fill the prescription, she filled Mrs. Ferrando's prescription with nifedipine 60 mg. rather than 30 mg. Ms. Jani filled Mrs. Ferrando's prescription with the incorrect strength and dispensed it to Mrs. Ferrando. In a written statement, Ms. Jani explained that she scan-verified the prescription before dispensing it to Mrs. Ferrando, but because she did not check the prescription label against the transcribed transfer document, she did not catch that the strength of nifedipine was incorrect.

14. Mrs. Ferrando testified that she received a voucher from a Catholic Church organization and that the voucher was intended to assist her to pay for her prescription medications. Mr. Bouzek explained that he had assisted Ms. Jani with the entry of the prescription into Albertsons #149's computer system because Ms. Jani was not a pharmacist regularly employed by Albertsons, so she was unfamiliar with Albertsons' computer system and policies and procedures. Mr. Bouzek attempted to maximize Mrs. Ferrando's voucher by using part of the voucher to cover Mrs. Ferrando's co-pay on 30 of the nifedipine tablets and to pay cash for an additional eight of the tablets. Thereby, Albertsons #149 dispensed 38 nifedipine tablets rather than the 30 ordered by Mrs. Ferrando's physician. Mrs. Jani provided the Board with a written statement in which she admitted to making and took responsibility for the error. Because of her statement and the testimony of Mrs. Ferrando and Mr. Bouzek, Mrs. Jani did not provide testimony at hearing.

15. Mrs. Ferrando testified that she took the incorrect strength of nifedipine for 38 days. Mrs. Ferrando described that she felt increasingly lethargic, as if she were suffering from a flu, as she continued to take the incorrect strength of nifedipine. Mrs.

Ferrando discovered the error when she called Albertsons #149 for a refill of the prescription. Fortunately, Mrs. Ferrando's symptoms subsided several weeks after she resumed taking the correct strength of nifedipine once the error had been discovered.

16. On December 6, 2000, the Board entered a Stipulation and Order with Mr. Bouzek and Albertsons #149 (Case Nos. 00-073A-RPH-N and 00-073B-PH-N). The facts of that case involved an incident on July 31, 2000 in which Mr. Bouzek filled a prescription for Wellbutrin 150 mg. #180 with Wellbutrin 100 mg. #60. Mr. Bouzek had placed a prescription label for Wellbutrin 150 mg. #180 directly over the manufacturer's label that plainly showed Wellbutrin 100 mg. In so doing, Mr. Bouzek also provided an expiration date on the prescription label that exceeded the actual expiration date on the manufacturer's label. Mr. Bouzek and Albertsons #149 were also disciplined because the patient was not counseled regarding the Wellbutrin prescription. The patient ingested the improper strength of Wellbutrin, but suffered no serious or permanent injury. Mr. Bouzek and Albertsons #149 each agreed to a fine of $950.00 plus an administrative fee of $250.00.

17. Mr. Johnston and Mr. Mazzone explained the efforts taken by Albertsons' management to ascertain how the various errors at issue were made. They also explained the remedial measures already taken by Albertsons, especially addressing the Board's concerns regarding the apparent failure of Albertsons' scan verification system in light of the number of errors in this matter that implicated the improper use or failure to use the system. Though the Board is concerned by any pharmacy that has committed as many patient errors as have been committed by Albertsons #149, the Board was also satisfied by Mr. Johnston's and Mr. Mazzone's testimonies that

Albertsons has taken appropriate and necessary actions both to ascertain the causes of the errors and to remedy the practice of Albertsons #149 to minimize the opportunity of such errors in the future.

CONCLUSIONS OF LAW

1. The Board has jurisdiction over this matter because Mr. Bouzek, Mr. Wachsman, and Ms. Jani are pharmacists licensed by the Board and Albertsons #149 is a pharmacy licensed by the Board.

2. In failing to confer with Dr. Laxalt's office to resolve what strength of clonazepam had been ordered or whether clonazepam was the correct drug in light of the 0.1 mg. strength ordered, Mr. Bouzek violated Nevada Revised Statutes (NRS) 639.210(4) and Nevada Administrative Code (NAC) 639.945(1)(e) and (i).

3. In dispensing the incorrect medication to Mrs. Luckett, namely by dispensing clonazepam 1 mg. when Dr. Laxalt had ordered clonidine HCL 0.1 mg., Mr. Bouzek violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

4. In employing Mr. Bouzek and operating the pharmacy in which Mr. Bouzek committed the violations in the violations in paragraphs 2 and 3 above, Albertsons #149 violated NRS 639.210(4) and (12) and NAC 639.945(1)(d), (e), and (i) and (2).

5. In dispensing the incorrect medication to Mrs. Luckett, namely by dispensing clonidine HCL 0.2 mg. when Dr. Laxalt had ordered clonidine HCL 0.1 mg., Mr. Bouzek violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

6. In employing Mr. Bouzek and operating the pharmacy in which Mr. Bouzek committed the violations in paragraph 5 above, Albertsons #149 violated NRS 639.210(4) and (12) and NAC 639.945(1)(d), (e), and (i) and (2).

7. In dispensing the incorrect medication to Mr. Luckett, namely by dispensing 15 estropipate instead of 100 acetaminophen/COD 3, Mr. Wachsman violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

8. In employing Mr. Wachsman and operating the pharmacy in which Mr. Wachsman committed the violations in paragraph 7 above, Albertsons #149 violated NRS 639.210(4) and (12) and NAC 639.945(1)(d), (e), and (i) and (2).

9. In dispensing the incorrect strength of nifedipine to Mrs. Ferrando, Ms. Jani violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

10. In employing Ms. Jani and operating the pharmacy in which Ms. Jani committed the violation in paragraph 9 above, Albertsons #149 violated NRS 639.210(4) and (12) and NAC 639.945(1)(d), (e), and (i) and (2).

11. In being repeatedly negligent, as evidenced by paragraphs 2, 3, and 5 above and the Stipulation and Order in Case No. 00-073A-RPH-N, Mr. Bouzek violated NRS 639.210(4) and (16) and NAC 639.945(1)(i).

12. In being repeatedly negligent, as evidenced by paragraphs 4, 6, 8, and 10 the Stipulation and Order in Case No. 00-073B-PH-N, Albertsons #149 violated NRS 639.210(4) and (16) and NAC 639.945(1)(i) and (2).

ORDER

Based upon the foregoing, the Board hereby orders the following:

1. Mr. Wachsman shall receive a letter of reprimand.

2. Ms. Jani shall pay a fine of $500 in cash, cashier's or certified check, or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office within 90 days of the effective date of this Order.

3. Mr. Bouzek shall pay a fine of $1,500 in cash, cashier's or certified check, or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office within 90 days of the effective date of this Order.

4. Albertsons #149 shall also pay the costs incurred in the investigation and prosecution of this matter of $1,592.00 in cash, cashier's or certified check, or money order made payable to "Nevada State Board of Pharmacy" to be received by the Board's Reno office within 90 days of the effective date of this Order.

5. The failure by Ms. Jani or Mr. Bouzek to comply with any term of this Order shall result in the immediate suspension of his or her license until all terms applicable to her or him are fully complied with and will result in further discipline, up to and including revocation of their licenses. The failure by Albertsons #149 to comply with any term in this Order shall result in a fine of $1,000 per day for every day that the term is not complied with, up to a maximum of $30,000, and will also result in further discipline, up to and including revocation of its license. Furthermore, any failure to pay any fine, fee, or cost ordered herein will also result in such legal action as Board staff determines to

be necessary to collect the unpaid fine, fee, or cost.

Case No. 96-053-PH-N

FINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER

THIS MATTER was heard by the Nevada State Board of Pharmacy (hereinafter Board) at its regular meeting on March 26, 1997 in Reno, Nevada. Deputy Attorney General Louis Ling prosecuted the matter on behalf of the Board, and Respondent was represented by Mr. Brian Sandoval. Based on the admissions, testimony, and documents presented as well as the public records in the possession and control of the Board, the Board issues the following Findings of Fact, Conclusions of Law, and Order.

FINDINGS OF FACT

1. Because in their Answer and Notice of Defense and in their opening presentation, the Respondents admitted many of the facts as alleged in the Notice of Intended Action and Accusation, Board staff presented no witnesses or evidence. Steve Shapiro and Paula Emerson testified.. Based upon all of the admissions, evidence, and testimony presented, the following paragraphs shall be the facts as found by the Board.

2. Albertson's Pharmacy #170 (Albertson's #170) is a pharmacy located within an Albertson's grocery store located at 10500 N. McCarran Blvd. in Reno, Nevada. Albertson's, Inc. is the owner of Albertson's #170.

3. On August 23, 1996 at approximately 8:30 a.m., Gary Adams, store manager for the grocery store in which Albertson's #170 is located, opened the store safe and removed a key to the pharmacy from a sealed envelope therein. Mr. Adams then went to Albertson's #170 and let Allen Gordy, the regional butcher manager, into the pharmacy where Mr. Gordy used the pharmacy's facsimile machine. No pharmacist was present in the pharmacy because the pharmacy was not open at the time that Mr. Adams let Mr. Gordy into the pharmacy.

4. Paula Emerson, a pharmacist employed by Albertson's, observed Mr. Adams and Mr. Gordy just after Mr. Adams had let Mr. Gordy into the pharmacy, and she confronted them while they were in the pharmacy. Ms. Emerson was the pharmacist who had placed the pharmacy key in the sealed envelope that Mr. Adams had removed from the store's safe, and she had placed the key in an envelope because she was unaware that her "barrel" key would open the lock box that was in the safe.

5. After Ms. Emerson discovered the unlawful entry, a controlled substances inventory was conducted and no controlled substances were discovered to be missing.

6. Upon subsequent investigation, Mr. Adams and Mr. Gordy admitted that they had, in fact, gained unlawful entry into Albertson's #170 and that they knew when they did so that they were breaking Nevada law and company policy. At hearing, Mr.

Shapiro testified that Albertson's policy is that all pharmacy keys are either to be in the possession of a pharmacist or are to be in a lock box placed within the store's safe. Ms. Emerson testified that she knew this policy, but because she did not know that her "barrel" key would open the lock box at Albertson's #170, she left the key in a sealed envelope because she knew that the pharmacist who would be opening the store only a few minutes later would need the key because it was his only key to the pharmacy. Ms. Emerson also testified that it was her opinion that Mr. Allen was pressured by Mr. Gordy into letting Mr. Gordy into the pharmacy, since Mr. Gordy was a regional manager and Mr. Allen, as a store manager, was Mr. Gordy's subordinate.

7. As a result of the testimony at hearing, the Board finds that the circumstances of this case are unique and that the policies and procedures already in place are sufficient to assure that similar breaches of pharmacy security would be virtually impossible. The Board also finds, though, that Mr. Gordy was wrong to pressure Mr. Allen into letting him into the pharmacy and that Mr. Allen was wrong to capitulate to Mr. Gordy's demands where doing so was against Nevada law and company policy that was known to Mr. Allen at the time.

CONCLUSIONS OF LAW

1. The Board has jurisdiction over this matter because Albertson's #170 is a pharmacy licensed by the Board.

2. In owning a pharmacy in which the key to the pharmacy was easily accessed by non-pharmacist personnel who allowed themselves access to the pharmacy without a pharmacist present, Albertson's #170 and Albertson's, Inc. violated

NRS 639.210(4) and (12). In reaching this conclusion, the Board acknowledges that Albertson's #170 personnel reported the breach of security themselves, and in so doing, exposed Albertson's #170 to this disciplinary action. We commend Albertson's #170 for doing the right thing and reporting the breach of security, but we feel discipline is appropriate in this matter nonetheless because the management of Albertson's, Inc., especially its mid-level management such as Mr. Gordy, must be reminded, apparently, that Nevada's pharmacy laws cannot be disregarded without consequence.

ORDER

Based upon the foregoing, the Board imposes the following discipline:

1. Respondent Albertson's #170 shall pay a fine of $1,000.00 in cash, cashier's or certified check, or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office within 30 days of the effective date of this Order.

2. Respondent Albertson's #170 shall receive a private letter of reprimand.

SIGNED AND EFFECTIVE this 8th day of April, 1997.

FINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER

ROBERT MAI, R.Ph.,
Certificate of Registration #12874,

Case No. 11-068-RPH-N

SAVE MART PHARMACY #551,
Certificate of Registration #PH01036,

Case No. 11-068-PH-N

Respondents.

THIS MATTER was heard by the Nevada State Board of Pharmacy (hereinafter Board) at its regular meeting on June 6, 2012 in Reno, Nevada. The Board was represented by Carolyn J. Cramer, General Counsel to the Board. Respondent Robert Mai represented himself and Robert Vaughan Sr., Director of Pharmacy represented Respondent Save Mart Pharmacy #551. Based on the presentations of the parties and the public records in the possession and control of the Board, the Board issues the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. At hearing, the parties stipulated to the admission to all exhibits. Board staff presented the sworn testimony of Bernadette Nieto, Joseph J. Depczynski and Kim Bratton. Respondents testified on their own behalf. Based upon the presentation of the parties and the public records in the possession and control of the Board, the Board finds the following to be the facts of this matter.

2. The Respondents did not contest that Reana Sallee was dispensed 90 tablets of 600 mg gemfibrozil instead of 90 tablets of 600 mg. gabapentin as prescribed by her

physician. Ms. Nieto testified that she had picked up the refill of her daughter's medication. Ms. Nieto testified that when she arrived at Save Mart #551 to pick up the prescription the prescription was not ready and the pharmacy staff hurried to fill the prescription. Ms. Nieto testified that she paid for the prescription and left the pharmacy. Ms. Nieto testified that within days of ingesting the medication Reana started to have more frequent seizures. During a seizure Reana fell and hit her head and Ms. Nieto took her to her physician where it was discovered that Reana had been dispensed the gemfibrozil instead of the gabapentin. Ms. Nieto then contacted the pharmacy and told them about the error in her Reana's medication. The pharmacy staff was very attentive to her needs and sympathetic that her daughter had suffered from their mistake.

3. Board Staff presented the testimony of Joseph J. Depczynski, Inspector/Investigator for the Board, who investigated the misfill of Reana's prescription which included interviewing Respondent Mai, pharmaceutical technician Kim Bratton, who was involved in the error, as well as Ms. Nieto. Mr. Depzynski identified the exhibits he collected in his investigation and testified that Kim Bratton had been given the override code by Respondent Mai. Ms. Bratton entered the NDC code for the gemfibrozil and a generic substitution warning came up that she overrode using Respondent Mai's override code. Investigator Depczynski testified that Respondent Mai did not notice that the label and the pills in the bottle were not the same medication and he put a green label on the bottle indicating that the drug may look different but the medication is the same. He then dispensed the gemfibrozil to Reana instead of the gabapentin as prescribed. Mr. Depczynski testified that since the incident the pharmacy has moved the look alike/sound alike drugs to different parts of the pharmacy and use another generic manufacturer so the stock bottles do not look alike.

4. Board Staff presented the testimony of Kim Bratton, who has 14 years experience as a pharmaceutical technician and has worked with Respondent Mai for four years. Ms. Bratton testified that she recalled filling the prescription because Ms. Nieto was waiting. When asked whether Ms. Bratton knew what a GPI warning was she stated that it meant that something did not match. Ms. Bratton acknowledged that she may not have given Respondent Mai any of the override information that was generated when she processed the prescription when she gave it to Respondent Mai for verification because she was in a hurry. Ms. Bratton testified that she had used Respondent Mai's security code and used it to override the system to process the prescriptions even though she knew she should not have it. Ms. Bratton acknowledged that she should have printed the DUR screen for Respondent Mai to review, but she did not, again because she was in a hurry.

5. Respondents made statements of explanation and mitigation. Mr. Vaughn testified that Save Mart is committed to patient safety and that after this incident happened Save Mart has modified their computer system so that a pharmacist cannot override the GPI warning and pharmacists are strictly forbidden to share security codes with pharmaceutical technicians.

6. Mr. Mai testified that at the time the error occurred the Save Mart system did not have a scanning system in place and all NDC codes were input by hand. Mr. Mai indicated that the system has been corrected so that GPI warnings cannot be overridden, but he testified that he sees so many repetitive alerts that he has become immune to them and finds it is distracting to go back and forth from what he is working on to a pharmaceutical technicians workstation to override an alert which is why he shared his security code with Ms. Bratton.

CONCLUSIONS OF LAW

1. The Nevada State Board of Pharmacy has jurisdiction over this matter because Respondent Mai is a pharmacist licensed by the Board and Save Mart #551 is a pharmacy licensed by the Board.

2. In failing to strictly follow the instructions of Ms. Sallee's physician by verifying and refilling her prescription for 90 tablets of 600 mg. gabapentin with 90 tablets of 600 mg. gemfibrozil, Mr. Mai violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

3. In allowing a pharmaceutical technician access to his personal identifier code to override warnings without his oversight, Mr. Mai violated NRS 639.210(4) and/or NAC639.921(1)(b)(6)(II) and/or 639.945(1)(d) and/or (i).

4. In owning and operating the pharmacy in which Mr. Mai filled and dispensed Ms. Sallee's prescription for 90 tablets of 600 mg. gabapentin with 90 tablets of 600 mg. gemfirozil, Save Mart #551 vviolated NRS 639.210(4) and NAC 639.945(1)(d) and (i) and (2).

ORDER

Based upon the foregoing, the Board hereby orders the following:

1. Mr. Mai shall pay a combined fine of $2,000.00 for having been found guilty of the First and Second Causes of Action. Mr. Mai shall pay the entire fine by cashier's or certified check or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office within 90 days of the effective date of this Order.

2. Save Mart #551 for having been found guilty of the Third Cause of Action, shall within 10 days of the effective date of this Order, shall contact the Your Success Rx Program to enroll Save Mart #551 in its remediation program (hereinafter "the

program") according to the terms and conditions imposed by the program, shall cooperate fully and genuinely with the needs, demands and requirements of the program and shall pay the costs of the program at their own expense. When Save Mart #551 has completed the program, the program will submit a final report regarding its participation in the program to the Board's staff. Board staff may set an item on the Board's subsequent agenda regarding the report to discuss the report with the Board. If Board staff determines to set the item on the Board's agenda, the managing pharmacist may be required to appear on behalf of Save Mart #551 to be present for the Board's discussion, which may be held in open or closed session at the discretion of the Board

3. Save Mart #551 for having been found guilty of the Third Cause of Action, shall pay the Board's costs and fees. The total investigative fees and costs are $306.90 and the Board's administrative fee of $295.00, for a total of $601.90. Save Mart #551 will pay $601.90 by cashier's or certified check or money order made payable to "Nevada State Board of Pharmacy" to be received by the Board's Reno office within 90 days of the effective date of this Order.

4. The failure by Mr. Mai or Save Mart #551 to comply with any term in this order shall result in the immediate suspension of their license and will also result in further discipline, up to and including revocation of the their license.

Signed this 22nd day of June 2012.

Case No. 11-068-RPH-N

SAVE MART PHARMACY #551,
Certificate of Registration #PH01036,

Case No. 11-068-PH-N

Respondents.
_____/

COMES NOW Larry L. Pinson, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, and makes the following that will serve as both a notice of intended action under Nevada Revised Statutes (NRS) 233B.127(3) and as an accusation under NRS 639.241.

I.

The Nevada State Board of Pharmacy has jurisdiction over this matter because Respondent Robert Mai is a pharmacist licensed by the Board and Save Mart Pharmacy #551 (Save Mart #551) is a pharmacy licensed by the Board, located at 4348 South Carson Street, Carson City, Nevada.

II.

On or about June 28, 2011, Bernadette Nieto filed a complaint with the Board on behalf of her daughter, Reana Sallee. Ms. Nieto called in a refill of Ms. Sallee's gabapentin 600 mg. tablets (Neurontin) on June 8, 2011. When Ms. Nieto arrived at Save Mart #551, the prescription had not yet been filled, she waited at the counter until pharmacy staff completed the fill and left the pharmacy with the medication she was given. Within days of ingesting the medication she received from Save Mart #551, Ms. Sallee began to suffer frequent seizures. On the morning of June 27, 2011, Ms. Sallee

fell and hit her head above her left eye causing the area to become red and swollen. Ms. Sallee was seen by her physician that same morning at which time it was discovered that her prescription had been misfilled with gemfibrozil. Ms. Sallee had ingested 49 gemfibrozil tablets.

III.

During the investigation of this matter it was found that a pharmaceutical technician had selected gemfibrozil from the shelf rather than the gabapentin. When the pharmaceutical technician entered the NDC number into the computer an alert was generated advising that the substitute GPI was not equivalent to the GPI prescribed. It was learned from Mr. Mai that the pharmaceutical technician was familiar with his personal identifier code and she used the code to clear the warning and continued with the prescription fill. The computer system accepted the override and subsequently generated a label set identifying gemfibrozil as a generic equivalent for Neurontin. Mr. Mai verified the prescription and affixed an advisory sticker to the front of the label that read "This is the same medication that you have been getting. Color, size or shape may appear different."

FIRST CAUSE OF ACTION

IV.

In failing to strictly follow the instructions of Ms. Sallee's physician by verifying and refilling her prescription for 90 tablets of 600 mg. gabapentin with 90 tablets of 600 mg. gemfibrozil, Mr. Mai violated Nevada Revised Statutes (NRS) 639.210(4) and/or Nevada Administrative Code (NAC) 639.945(1)(d) and (i).

SECOND CAUSE OF ACTION

V.

In allowing a pharmaceutical technician access to his personal identifier code to override warnings without his oversight, Mr. Mai violated NRS 639.210(4) and/or NAC 639.921(1)(b)(6)(II) and/or 639.945(1)(d) and/or (i).

THIRD CAUSE OF ACTION

VI.

In owning and operating the pharmacy in which Mr. Mai filled and dispensed Ms. Sallee's prescription for 90 tablets of 600 mg. gabapentin with 90 tablets of 600 mg. gemfibrozil, Save Mart #551 violated NRS 639.210(4) and/or NAC 639.945(1)(d) and (i) and (2).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of the Respondents.

Respondents.

THIS MATTER was heard by the Nevada State Board of Pharmacy (hereinafter Board) at its regular meeting on June 13, 2001 in Reno, Nevada. The Board was represented by Louis Ling, General Counsel. The Respondents were represented by Brian Sandoval. Based on the public records in the possession and control of the Board, the Board issues the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. At hearing, Board staff presented the testimony of Virginia Harvey, Margaret Luckett, and Catherine Ferrando. The Respondents presented the testimony of Daniel Bouzek, Mark Johnston, Rich Mazzone, and Donald Wachsman. The parties also stipulated to the entry into evidence of one exhibit. Based upon the testimony and evidence presented at hearing and the public records in the possession and control of

the Board, the Board finds the following to be the facts of this matter.

2. On July 3, 2000, Mrs. Luckett called her physician, Dr. Kristen Laxalt, and requested refills of several prescriptions that Dr. Laxalt had written for Mrs. Luckett. One of the prescriptions was for clonidine HCL 0.1 mg. #30 (Rx #100592). Thereafter, an agent of Dr. Laxalt spoke with Mr. Bouzek regarding the refills requested by Mrs. Luckett. Mr. Bouzek made a "telephoned prescription" record of the conversation on which he recorded: "clonazepam 0.1, #60, sig 1 Bid." At hearing, Mr. Bouzek attempted to explain that he wrote "clonazepam" because he claimed that he had been told by Dr. Laxalt's agent that the prescription was for Klonapin, but Ms. Harvey testified that neither Klonapin nor clonazepam appeared in Dr. Laxalt's records. Mr. Bouzek's explanation belies his own recordation of "clonazepam 0.1," since clonazepam does not come in a 0.1 mg. strength, and his explanation that he added the "0." when he discovered the error was belied by a review of the original prescription and common practice by pharmacists. We cannot and do not find Mr. Bouzek's explanation to be credible.

3. Later on July 3, 2000, Mr. Bouzek created a new prescription for Mrs. Luckett (Rx #102710) for clonazepam 1 mg. #60. Mr. Bouzek subsequently filled Rx #102710 with clonazepam 1 mg. #60.

4. Mrs. Luckett's prescription profile did not show any previous prescriptions for clonazepam, though it did show the previous prescription for clonidine HCL. Clonazepam is unavailable in a 0.1 mg. strength, but clonidine HCL is.

5. Mrs. Luckett picked up her prescriptions on July 3, 2000 and took them home. Because she believed the prescriptions all to be refills of drugs she had previously

received, Mrs. Luckett declined counseling when it was attempted by Rolf Zarkizian, the managing pharmacist for Albertsons #149. Once home, she discovered that she had a prescription for clonazepam, not clonidine HCL. Mrs. Luckett contacted Dr. Laxalt's office and was told not to take any of the clonazepam and, instead, to return to the pharmacy because Dr. Laxalt's office would call the pharmacy and make sure that the pharmacy filled the prescription for clonidine HCL, not clonazepam.

6. Albertsons #149 was closed on July 4, 2000 for the Independence Day holiday. On July 5, 2000, Mr. Bouzek spoke with Virginia Harvey from Dr. Laxalt's office regarding the correction of Mrs. Luckett's clonazepam to change it to clonidine HCL 0.1 mg. Mr. Bouzek recorded on a "telephoned prescription" record, "clonidine .1 mg. #60 sig 1 Bid."

7. Though he had recorded the drug as clonidine HCL 0.1 mg., Mr. Bouzek created a computer prescription record (Rx #102810) for clonidine HCL 0.2 mg. #60. Mr. Bouzek filled and dispensed the prescription to Mrs. Luckett with the clonidine HCL 0.2 mg., not the 0.1 mg. ordered by Dr. Laxalt. At hearing, Mr. Bouzek testified that he had made a second telephone call to Ms. Harvey to clarify whether Dr. Laxalt had intended clonidine HCL 0.1 mg. or 0.2 mg., since Mrs. Luckett's profile showed that Mrs. Luckett had always previously received clonidine HCL 0.1 mg. Mr. Bouzek testified that Ms. Harvey confirmed that Dr. Laxalt had, in fact, intended clonidine HCL 0.2 mg., so Mr. Bouzek created a computer record and label for clonidine HCL 0.2 mg. Ms. Harvey denied having a second telephone conversation with Mr. Bouzek and testified that Dr. Laxalt's records do not show a change from clonidine HCL 0.1 mg. to 0.2 mg. on July 5, 2000. Because Mr. Bouzek's testimony and demeanor appeared

incredible -- particularly his jumbled explanation regarding the "rewrite" prescription, the "telephone prescription," and the computer-generate labels on the backs of each -- and because the physical facts corroborate Mrs. Luckett's and Mrs. Harvey's relation of events, we find that Mr. Bouzek incorrectly and negligently filled with clonidine HCL 0.2 mg. the order he had correctly transcribed as clonidine HCL 0.1 mg.

8. Mrs. Luckett took the clonidine HCL 0.2 mg. from July 2000 to the present. Mrs. Luckett discovered that she had been taking clonidine HCL 0.2 mg. when she sought to refill the prescription at the end of July 2000. Fortunately, the incorrect dose had, in fact, been therapeutic for Mrs. Luckett. Thereafter, Dr. Laxalt authorized that Mrs. Luckett continue on clonidine HCL 0.2 mg., rather than the clonidine HCL 0.1 mg. that Dr. Laxalt had actually ordered.

9. On February 2, 2001, Mrs. Luckett ordered refills from Albertsons #149 of various prescriptions for herself and Mr. Luckett, including a refill of a prescription for Mr. Luckett for acetaminophen/COD 3 #100 (Rx #114544). Mr. Wachsman, a "floater" pharmacist for Albertsons, was working as the staff pharmacist at Albertsons #149 on February 2, 2001 and was the pharmacist responsible for the filling of Mr. and Mrs. Luckett's refill prescriptions, including Mr. Luckett's prescription for acetaminophen/COD 3.

10. Mrs. Luckett picked up the refilled prescriptions on February 5, 2001. When she got the prescriptions home, she and Mr. Luckett discovered that his prescription #114544 contained 15 small pink pills, not 100 of the larger white tablets that should have been in the vial. Mr. Luckett did not ingest any of the incorrect tablets. When Mrs. Luckett took the incorrectly filled prescription #114544 back to Albertsons #149, it

was discovered that prescription #114544 had been filled with 15 estropipate.

11. At hearing, Mr. Wachsman speculated that his pharmaceutical technician had filled two prescriptions at the same time, one for Mr. Luckett for the acetaminophen/COD 3 and another as a refill for a female patient for estropipate. Mr. Wachsman believed that he simply placed the two labels on the wrong vials. He could not explain why he did not observe the size of the tablets and vials on which he had placed the labels incorrectly, since he acknowledged that the tablets were very different in size and color and the vials should have been different in size.

12. Mr. Wachsman explained the scan verification system in use at Albertsons pharmacies. He explained that all prescriptions are to be scan verified during the filling process to verify that the bar code on the prepared prescription label matches the bar code on the stock bottle. Mr. Wachsman also explained that there should have been a final scan verification of the prescription by the clerk or technician before it was dispensed to the patient. If the second scan verification showed that the prescription had not been scan verified during the filling process, then the computer system would generate an alarm so that the prescription could be checked again by a pharmacist. Unfortunately, no first or second scan verification was performed on Mr. Luckett's acetaminophen/COD 3 prescription before it was dispensed to Mrs. Luckett, so no alarm sounded that the prescription had not been properly scan verified during the filling process.

13. On February 7, 2001, Ms. Jani transcribed on a "telephoned prescription" document a transfer of a prescription for Adalat 30 mg. #30 for Mrs. Ferrando. A pharmaceutical technician entered the transferred prescription into the computer of

Albertsons #149, but when the technician selected the tablets to fill the prescription, she filled Mrs. Ferrando's prescription with nifedipine 60 mg. rather than 30 mg. Ms. Jani filled Mrs. Ferrando's prescription with the incorrect strength and dispensed it to Mrs. Ferrando. In a written statement, Ms. Jani explained that she scan-verified the prescription before dispensing it to Mrs. Ferrando, but because she did not check the prescription label against the transcribed transfer document, she did not catch that the strength of nifedipine was incorrect.

14. Mrs. Ferrando testified that she received a voucher from a Catholic Church organization and that the voucher was intended to assist her to pay for her prescription medications. Mr. Bouzek explained that he had assisted Ms. Jani with the entry of the prescription into Albertsons #149's computer system because Ms. Jani was not a pharmacist regularly employed by Albertsons, so she was unfamiliar with Albertsons' computer system and policies and procedures. Mr. Bouzek attempted to maximize Mrs. Ferrando's voucher by using part of the voucher to cover Mrs. Ferrando's co-pay on 30 of the nifedipine tablets and to pay cash for an additional eight of the tablets. Thereby, Albertsons #149 dispensed 38 nifedipine tablets rather than the 30 ordered by Mrs. Ferrando's physician. Mrs. Jani provided the Board with a written statement in which she admitted to making and took responsibility for the error. Because of her statement and the testimony of Mrs. Ferrando and Mr. Bouzek, Mrs. Jani did not provide testimony at hearing.

15. Mrs. Ferrando testified that she took the incorrect strength of nifedipine for 38 days. Mrs. Ferrando described that she felt increasingly lethargic, as if she were suffering from a flu, as she continued to take the incorrect strength of nifedipine. Mrs.

Ferrando discovered the error when she called Albertsons #149 for a refill of the prescription. Fortunately, Mrs. Ferrando's symptoms subsided several weeks after she resumed taking the correct strength of nifedipine once the error had been discovered.

16. On December 6, 2000, the Board entered a Stipulation and Order with Mr. Bouzek and Albertsons #149 (Case Nos. 00-073A-RPH-N and 00-073B-PH-N). The facts of that case involved an incident on July 31, 2000 in which Mr. Bouzek filled a prescription for Wellbutrin 150 mg. #180 with Wellbutrin 100 mg. #60. Mr. Bouzek had placed a prescription label for Wellbutrin 150 mg. #180 directly over the manufacturer's label that plainly showed Wellbutrin 100 mg. In so doing, Mr. Bouzek also provided an expiration date on the prescription label that exceeded the actual expiration date on the manufacturer's label. Mr. Bouzek and Albertsons #149 were also disciplined because the patient was not counseled regarding the Wellbutrin prescription. The patient ingested the improper strength of Wellbutrin, but suffered no serious or permanent injury. Mr. Bouzek and Albertsons #149 each agreed to a fine of $950.00 plus an administrative fee of $250.00.

17. Mr. Johnston and Mr. Mazzone explained the efforts taken by Albertsons' management to ascertain how the various errors at issue were made. They also explained the remedial measures already taken by Albertsons, especially addressing the Board's concerns regarding the apparent failure of Albertsons' scan verification system in light of the number of errors in this matter that implicated the improper use or failure to use the system. Though the Board is concerned by any pharmacy that has committed as many patient errors as have been committed by Albertsons #149, the Board was also satisfied by Mr. Johnston's and Mr. Mazzone's testimonies that

Albertsons has taken appropriate and necessary actions both to ascertain the causes of the errors and to remedy the practice of Albertsons #149 to minimize the opportunity of such errors in the future.

CONCLUSIONS OF LAW

1. The Board has jurisdiction over this matter because Mr. Bouzek, Mr. Wachsman, and Ms. Jani are pharmacists licensed by the Board and Albertsons #149 is a pharmacy licensed by the Board.

2. In failing to confer with Dr. Laxalt's office to resolve what strength of clonazepam had been ordered or whether clonazepam was the correct drug in light of the 0.1 mg. strength ordered, Mr. Bouzek violated Nevada Revised Statutes (NRS) 639.210(4) and Nevada Administrative Code (NAC) 639.945(1)(e) and (l).

3. In dispensing the incorrect medication to Mrs. Luckett, namely by dispensing clonazepam 1 mg. when Dr. Laxalt had ordered clonidine HCL 0.1 mg., Mr. Bouzek violated NRS 639.210(4) and NAC 639.945(1)(d) and (l).

4. In employing Mr. Bouzek and operating the pharmacy in which Mr. Bouzek committed the violations in the violations in paragraphs 2 and 3 above, Albertsons #149 violated NRS 639.210(4) and (12) and NAC 639.945(1)(d), (e), and (l) and (2).

5. In dispensing the incorrect medication to Mrs. Luckett, namely by dispensing clonidine HCL 0.2 mg. when Dr. Laxalt had ordered clonidine HCL 0.1 mg., Mr. Bouzek violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

6. In employing Mr. Bouzek and operating the pharmacy in which Mr. Bouzek committed the violations in paragraph 5 above, Albertsons #149 violated NRS 639.210(4) and (12) and NAC 639.945(1)(d), (e), and (l) and (2).

7. In dispensing the incorrect medication to Mr. Luckett, namely by dispensing 15 estropipate instead of 100 acetaminophen/COD 3, Mr. Wachsman violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

8. In employing Mr. Wachsman and operating the pharmacy in which Mr. Wachsman committed the violations in paragraph 7 above, Albertsons #149 violated NRS 639.210(4) and (12) and NAC 639.945(1)(d), (e), and (i) and (2).

9. In dispensing the incorrect strength of nifedipine to Mrs. Ferrando, Ms. Jani violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

10. In employing Ms. Jani and operating the pharmacy in which Ms. Jani committed the violation in paragraph 9 above, Albertsons #149 violated NRS 639.210(4) and (12) and NAC 639.945(1)(d), (e), and (i) and (2).

11. In being repeatedly negligent, as evidenced by paragraphs 2, 3, and 5 above and the Stipulation and Order in Case No. 00-073A-RPH-N, Mr. Bouzek violated NRS 639.210(4) and (16) and NAC 639.945(1)(i).

12. In being repeatedly negligent, as evidenced by paragraphs 4, 6, 8, and 10 the Stipulation and Order in Case No. 00-073B-PH-N, Albertsons #149 violated NRS 639.210(4) and (16) and NAC 639.945(1)(i) and (2).

ORDER

Based upon the foregoing, the Board hereby orders the following:

1. Mr. Wachsman shall receive a letter of reprimand.

2. Ms. Jani shall pay a fine of $500 in cash, cashier's or certified check, or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office within 90 days of the effective date of this Order.

3. Mr. Bouzek shall pay a fine of $1,500 in cash, cashier's or certified check, or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office within 90 days of the effective date of this Order.

4. Albertsons #149 shall also pay the costs incurred in the investigation and prosecution of this matter of $1,592.00 in cash, cashier's or certified check, or money order made payable to "Nevada State Board of Pharmacy" to be received by the Board's Reno office within 90 days of the effective date of this Order.

5. The failure by Ms. Jani or Mr. Bouzek to comply with any term of this Order shall result in the immediate suspension of his or her license until all terms applicable to her or him are fully complied with and will result in further discipline, up to and including revocation of their licenses. The failure by Albertsons #149 to comply with any term in this Order shall result in a fine of $1,000 per day for every day that the term is not complied with, up to a maximum of $30,000, and will also result in further discipline, up to and including revocation of its license. Furthermore, any failure to pay any fine, fee, or cost ordered herein will also result in such legal action as Board staff determines to

be necessary to collect the unpaid fine, fee, or cost.

Signed and effective this 9th day of July, 2001.

NEVADA STATE BOARD OF PHARMACY,

Petitioner,

Case No. 96-053-PH-N

v.

FINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER

ALBERTSON'S FOOD & DRUG #170, Certificate of Registration No. PH0877; and

ALBERTSON'S, INC., Owner of Albertson's Food & Drug #170;

Respondents.

THIS MATTER was heard by the Nevada State Board of Pharmacy (hereinafter Board) at its regular meeting on March 26, 1997 in Reno, Nevada. Deputy Attorney General Louis Ling prosecuted the matter on behalf of the Board, and Respondent was represented by Mr. Brian Sandoval. Based on the admissions, testimony, and documents presented as well as the public records in the possession and control of the Board, the Board issues the following Findings of Fact, Conclusions of Law, and Order.

FINDINGS OF FACT

1. Because in their Answer and Notice of Defense and in their opening presentation, the Respondents admitted many of the facts as alleged in the Notice of Intended Action and Accusation, Board staff presented no witnesses or evidence. Steve Shapiro and Paula Emerson testified.. Based upon all of the admissions, evidence, and testimony presented, the following paragraphs shall be the facts as found by the Board.

2. Albertson's Pharmacy #170 (Albertson's #170) is a pharmacy located within an Albertson's grocery store located at 10500 N. McCarran Blvd. in Reno, Nevada. Albertson's, Inc. is the owner of Albertson's #170.

3. On August 23, 1996 at approximately 8:30 a.m., Gary Adams, store manager for the grocery store in which Albertson's #170 is located, opened the store safe and removed a key to the pharmacy from a sealed envelope therein. Mr. Adams then went to Albertson's #170 and let Allen Gordy, the regional butcher manager, into the pharmacy where Mr. Gordy used the pharmacy's facsimile machine. No pharmacist was present in the pharmacy because the pharmacy was not open at the time that Mr. Adams let Mr. Gordy into the pharmacy.

4. Paula Emerson, a pharmacist employed by Albertson's, observed Mr. Adams and Mr. Gordy just after Mr. Adams had let Mr. Gordy into the pharmacy, and she confronted them while they were in the pharmacy. Ms. Emerson was the pharmacist who had placed the pharmacy key in the sealed envelope that Mr. Adams had removed from the store's safe, and she had placed the key in an envelope because she was unaware that her "barrel" key would open the lock box that was in the safe.

5. After Ms. Emerson discovered the unlawful entry, a controlled substances inventory was conducted and no controlled substances were discovered to be missing.

6. Upon subsequent investigation, Mr. Adams and Mr. Gordy admitted that they had, in fact, gained unlawful entry into Albertson's #170 and that they knew when they did so that they were breaking Nevada law and company policy. At hearing, Mr.

Shapiro testified that Albertson's policy is that all pharmacy keys are either to be in the possession of a pharmacist or are to be in a lock box placed within the store's safe. Ms. Emerson testified that she knew this policy, but because she did not know that her "barrel" key would open the lock box at Albertson's #170, she left the key in a sealed envelope because she knew that the pharmacist who would be opening the store only a few minutes later would need the key because it was his only key to the pharmacy. Ms. Emerson also testified that it was her opinion that Mr. Allen was pressured by Mr. Gordy into letting Mr. Gordy into the pharmacy, since Mr. Gordy was a regional manager and Mr. Allen, as a store manager, was Mr. Gordy's subordinate.

7. As a result of the testimony at hearing, the Board finds that the circumstances of this case are unique and that the policies and procedures already in place are sufficient to assure that similar breaches of pharmacy security would be virtually impossible. The Board also finds, though, that Mr. Gordy was wrong to pressure Mr. Allen into letting him into the pharmacy and that Mr. Allen was wrong to capitulate to Mr. Gordy's demands where doing so was against Nevada law and company policy that was known to Mr. Allen at the time.

CONCLUSIONS OF LAW

1. The Board has jurisdiction over this matter because Albertson's #170 is a pharmacy licensed by the Board.

2. In owning a pharmacy in which the key to the pharmacy was easily accessed by non-pharmacist personnel who allowed themselves access to the pharmacy without a pharmacist present, Albertson's #170 and Albertson's, Inc. violated

NRS 639.210(4) and (12). In reaching this conclusion, the Board acknowledges that Albertson's #170 personnel reported the breach of security themselves, and in so doing, exposed Albertson's #170 to this disciplinary action. We commend Albertson's #170 for doing the right thing and reporting the breach of security, but we feel discipline is appropriate in this matter nonetheless because the management of Albertson's, Inc., especially its mid-level management such as Mr. Gordy, must be reminded, apparently, that Nevada's pharmacy laws cannot be disregarded without consequence.

ORDER

Based upon the foregoing, the Board imposes the following discipline:

1. Respondent Albertson's #170 shall pay a fine of $1,000.00 in cash, cashier's or certified check, or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office within 30 days of the effective date of this Order.

2. Respondent Albertson's #170 shall receive a private letter of reprimand.

SIGNED AND EFFECTIVE this 8th day of April, 1997.

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY,

Petitioner,

v.

FINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER

ROBERT MAI, R.Ph.,
Certificate of Registration #12874,

Case No. 11-068-RPH-N

SAVE MART PHARMACY #551,
Certificate of Registration #PH01036,

Case No. 11-068-PH-N

Respondents.

THIS MATTER was heard by the Nevada State Board of Pharmacy (hereinafter Board) at its regular meeting on June 6, 2012 in Reno, Nevada. The Board was represented by Carolyn J. Cramer, General Counsel to the Board. Respondent Robert Mai represented himself and Robert Vaughan Sr., Director of Pharmacy represented Respondent Save Mart Pharmacy #551. Based on the presentations of the parties and the public records in the possession and control of the Board, the Board issues the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. At hearing, the parties stipulated to the admission to all exhibits. Board staff presented the sworn testimony of Bernadette Nieto, Joseph J. Depczynski and Kim Bratton. Respondents testified on their own behalf. Based upon the presentation of the parties and the public records in the possession and control of the Board, the Board finds the following to be the facts of this matter.

2. The Respondents did not contest that Reana Sallee was dispensed 90 tablets of 600 mg gemfibrozil instead of 90 tablets of 600 mg. gabapentin as prescribed by her

physician. Ms. Nieto testified that she had picked up the refill of her daughter's medication. Ms. Nieto testified that when she arrived at Save Mart #551 to pick up the prescription the prescription was not ready and the pharmacy staff hurried to fill the prescription. Ms. Nieto testified that she paid for the prescription and left the pharmacy. Ms. Nieto testified that within days of ingesting the medication Reana started to have more frequent seizures. During a seizure Reana fell and hit her head and Ms. Nieto took her to her physician where it was discovered that Reana had been dispensed the gemfibrozil instead of the gabapentin. Ms. Nieto then contacted the pharmacy and told them about the error in her Reana's medication. The pharmacy staff was very attentive to her needs and sympathetic that her daughter had suffered from their mistake.

3. Board Staff presented the testimony of Joseph J. Depczynski, Inspector/Investigator for the Board, who investigated the misfill of Reana's prescription which included interviewing Respondent Mai, pharmaceutical technician Kim Bratton, who was involved in the error, as well as Ms. Nieto. Mr. Depzynski identified the exhibits he collected in his investigation and testified that Kim Bratton had been given the override code by Respondent Mai. Ms. Bratton entered the NDC code for the gemfibrozil and a generic substitution warning came up that she overrode using Respondent Mai's override code. Investigator Depczynski testified that Respondent Mai did not notice that the label and the pills in the bottle were not the same medication and he put a green label on the bottle indicating that the drug may look different but the medication is the same. He then dispensed the gemfibrozil to Reana instead of the gabapentin as prescribed. Mr. Depczynski testified that since the incident the pharmacy has moved the look alike/sound alike drugs to different parts of the pharmacy and use another generic manufacturer so the stock bottles do not look alike.

4. Board Staff presented the testimony of Kim Bratton, who has 14 years experience as a pharmaceutical technician and has worked with Respondent Mai for four years. Ms. Bratton testified that she recalled filling the prescription because Ms. Nieto was waiting. When asked whether Ms. Bratton knew what a GPI warning was she stated that it meant that something did not match. Ms. Bratton acknowledged that she may not have given Respondent Mai any of the override information that was generated when she processed the prescription when she gave it to Respondent Mai for verification because she was in a hurry. Ms. Bratton testified that she had used Respondent Mai's security code and used it to override the system to process the prescriptions even though she knew she should not have it. Ms. Bratton acknowledged that she should have printed the DUR screen for Respondent Mai to review, but she did not, again because she was in a hurry.

5. Respondents made statements of explanation and mitigation. Mr. Vaughn testified that Save Mart is committed to patient safety and that after this incident happened Save Mart has modified their computer system so that a pharmacist cannot override the GPI warning and pharmacists are strictly forbidden to share security codes with pharmaceutical technicians.

6. Mr. Mai testified that at the time the error occurred the Save Mart system did not have a scanning system in place and all NDC codes were input by hand. Mr. Mai indicated that the system has been corrected so that GPI warnings cannot be overridden, but he testified that he sees so many repetitive alerts that he has become immune to them and finds it is distracting to go back and forth from what he is working on to a pharmaceutical technicians workstation to override an alert which is why he shared his security code with Ms. Bratton.

CONCLUSIONS OF LAW

1. The Nevada State Board of Pharmacy has jurisdiction over this matter because Respondent Mai is a pharmacist licensed by the Board and Save Mart #551 is a pharmacy licensed by the Board.

2. In failing to strictly follow the instructions of Ms. Sallee's physician by verifying and refilling her prescription for 90 tablets of 600 mg. gabapentin with 90 tablets of 600 mg. gemfibrozil, Mr. Mai violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

3. In allowing a pharmaceutical technician access to his personal identifier code to override warnings without his oversight, Mr. Mai violated NRS 639.210(4) and/or NAC639.921(1)(b)(6)(II) and/or 639.945(1)(d) and/or (i).

4. In owning and operating the pharmacy in which Mr. Mai filled and dispensed Ms. Sallee's prescription for 90 tablets of 600 mg. gabapentin with 90 tablets of 600 mg. gemfirozil, Save Mart #551 vviolated NRS 639.210(4) and NAC 639.945(1)(d) and (i) and (2).

ORDER

Based upon the foregoing, the Board hereby orders the following:

1. Mr. Mai shall pay a combined fine of $2,000.00 for having been found guilty of the First and Second Causes of Action. Mr. Mai shall pay the entire fine by cashier's or certified check or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office within 90 days of the effective date of this Order.

2. Save Mart #551 for having been found guilty of the Third Cause of Action, shall within 10 days of the effective date of this Order, shall contact the Your Success Rx Program to enroll Save Mart #551 in its remediation program (hereinafter "the

program") according to the terms and conditions imposed by the program, shall cooperate fully and genuinely with the needs, demands and requirements of the program and shall pay the costs of the program at their own expense. When Save Mart #551 has completed the program, the program will submit a final report regarding its participation in the program to the Board's staff. Board staff may set an item on the Board's subsequent agenda regarding the report to discuss the report with the Board. Save Mart #551 will pay $601.90 by cashier's or certified check or money order made payable to "Nevada State Board of Pharmacy" to be received by the Board's Reno office within 90 days of the effective date of this Order.

4. The failure by Mr. Mai or Save Mart #551 to comply with any term in this order shall result in the immediate suspension of their license and will also result in further discipline, up to and including revocation of the their license.

NOTICE OF INTENDED ACTION AND ACCUSATION

ROBERT MAI, R.Ph.,
Certificate of Registration #12874,

Case No. 11-068-RPH-N

SAVE MART PHARMACY #551,
Certificate of Registration #PH01036,

Case No. 11-068-PH-N

Respondents.
_____/

COMES NOW Larry L. Pinson, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, and makes the following that will serve as both a notice of intended action under Nevada Revised Statutes (NRS) 233B.127(3) and as an accusation under NRS 639.241.

I.

The Nevada State Board of Pharmacy has jurisdiction over this matter because Respondent Robert Mai is a pharmacist licensed by the Board and Save Mart Pharmacy #551 (Save Mart #551) is a pharmacy licensed by the Board, located at 4348 South Carson Street, Carson City, Nevada.

II.

On or about June 28, 2011, Bernadette Nieto filed a complaint with the Board on behalf of her daughter, Reana Sallee. Ms. Nieto called in a refill of Ms. Sallee's gabapentin 600 mg. tablets (Neurontin) on June 8, 2011. When Ms. Nieto arrived at Save Mart #551, the prescription had not yet been filled, she waited at the counter until pharmacy staff completed the fill and left the pharmacy with the medication she was given. Within days of ingesting the medication she received from Save Mart #551, Ms. Sallee began to suffer frequent seizures. On the morning of June 27, 2011, Ms. Sallee

fell and hit her head above her left eye causing the area to become red and swollen. Ms. Sallee was seen by her physician that same morning at which time it was discovered that her prescription had been misfilled with gemfibrozil. Ms. Sallee had ingested 49 gemfibrozil tablets.

III.

During the investigation of this matter it was found that a pharmaceutical technician had selected gemfibrozil from the shelf rather than the gabapentin. When the pharmaceutical technician entered the NDC number into the computer an alert was generated advising that the substitute GPI was not equivalent to the GPI prescribed. It was learned from Mr. Mai that the pharmaceutical technician was familiar with his personal identifier code and she used the code to clear the warning and continued with the prescription fill. The computer system accepted the override and subsequently generated a label set identifying gemfibrozil as a generic equivalent for Neurontin. Mr. Mai verified the prescription and affixed an advisory sticker to the front of the label that read "This is the same medication that you have been getting. Color, size or shape may appear different."

FIRST CAUSE OF ACTION

IV.

In failing to strictly follow the instructions of Ms. Sallee's physician by verifying and refilling her prescription for 90 tablets of 600 mg. gabapentin with 90 tablets of 600 mg. gemfibrozil, Mr. Mai violated Nevada Revised Statutes (NRS) 639.210(4) and/or Nevada Administrative Code (NAC) 639.945(1)(d) and (i).

SECOND CAUSE OF ACTION

V.

In allowing a pharmaceutical technician access to his personal identifier code to override warnings without his oversight, Mr. Mai violated NRS 639.210(4) and/or NAC 639.921(1)(b)(6)(II) and/or 639.945(1)(d) and/or (i).

THIRD CAUSE OF ACTION

VI.

In owning and operating the pharmacy in which Mr. Mai filled and dispensed Ms. Sallee's prescription for 90 tablets of 600 mg. gabapentin with 90 tablets of 600 mg. gemfibrozil, Save Mart #551 violated NRS 639.210(4) and/or NAC 639.945(1)(d) and (i) and (2).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of the Respondents.

Respondents.

THIS MATTER was heard by the Nevada State Board of Pharmacy (hereinafter Board) at its regular meeting on June 13, 2001 in Reno, Nevada. The Board was represented by Louis Ling, General Counsel. The Respondents were represented by Brian Sandoval. Based on the public records in the possession and control of the Board, the Board issues the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. At hearing, Board staff presented the testimony of Virginia Harvey, Margaret Luckett, and Catherine Ferrando. The Respondents presented the testimony of Daniel Bouzek, Mark Johnston, Rich Mazzone, and Donald Wachsman. The parties also stipulated to the entry into evidence of one exhibit. Based upon the testimony and evidence presented at hearing and the public records in the possession and control of

the Board, the Board finds the following to be the facts of this matter.

2. On July 3, 2000, Mrs. Luckett called her physician, Dr. Kristen Laxalt, and requested refills of several prescriptions that Dr. Laxalt had written for Mrs. Luckett. One of the prescriptions was for clonidine HCL 0.1 mg. #30 (Rx #100592). Thereafter, an agent of Dr. Laxalt spoke with Mr. Bouzek regarding the refills requested by Mrs. Luckett. Mr. Bouzek made a "telephoned prescription" record of the conversation on which he recorded: "clonazepam 0.1, #60, sig 1 Bid." At hearing, Mr. Bouzek attempted to explain that he wrote "clonazepam" because he claimed that he had been told by Dr. Laxalt's agent that the prescription was for Klonapin, but Ms. Harvey testified that neither Klonapin nor clonazepam appeared in Dr. Laxalt's records. Mr. Bouzek's explanation belies his own recordation of "clonazepam 0.1," since clonazepam does not come in a 0.1 mg. strength, and his explanation that he added the "0." when he discovered the error was belied by a review of the original prescription and common practice by pharmacists. We cannot and do not find Mr. Bouzek's explanation to be credible.

3. Later on July 3, 2000, Mr. Bouzek created a new prescription for Mrs. Luckett (Rx #102710) for clonazepam 1 mg. #60. Mr. Bouzek subsequently filled Rx #102710 with clonazepam 1 mg. #60.

4. Mrs. Luckett's prescription profile did not show any previous prescriptions for clonazepam, though it did show the previous prescription for clonidine HCL. Clonazepam is unavailable in a 0.1 mg. strength, but clonidine HCL is.

5. Mrs. Luckett picked up her prescriptions on July 3, 2000 and took them home. Because she believed the prescriptions all to be refills of drugs she had previously

received, Mrs. Luckett declined counseling when it was attempted by Rolf Zarkizian, the managing pharmacist for Albertsons #149. Once home, she discovered that she had a prescription for clonazepam, not clonidine HCL. Mrs. Luckett contacted Dr. Laxalt's office and was told not to take any of the clonazepam and, instead, to return to the pharmacy because Dr. Laxalt's office would call the pharmacy and make sure that the pharmacy filled the prescription for clonidine HCL, not clonazepam.

6. Albertsons #149 was closed on July 4, 2000 for the Independence Day holiday. On July 5, 2000, Mr. Bouzek spoke with Virginia Harvey from Dr. Laxalt's office regarding the correction of Mrs. Luckett's clonazepam to change it to clonidine HCL 0.1 mg. Mr. Bouzek recorded on a "telephoned prescription" record, "clonidine .1 mg. #60 sig 1 Bid."

7. Though he had recorded the drug as clonidine HCL 0.1 mg., Mr. Bouzek created a computer prescription record (Rx #102810) for clonidine HCL 0.2 mg. #60. Mr. Bouzek filled and dispensed the prescription to Mrs. Luckett with the clonidine HCL 0.2 mg., not the 0.1 mg. ordered by Dr. Laxalt. At hearing, Mr. Bouzek testified that he had made a second telephone call to Ms. Harvey to clarify whether Dr. Laxalt had intended clonidine HCL 0.1 mg. or 0.2 mg., since Mrs. Luckett's profile showed that Mrs. Luckett had always previously received clonidine HCL 0.1 mg. Mr. Bouzek testified that Ms. Harvey confirmed that Dr. Laxalt had, in fact, intended clonidine HCL 0.2 mg., so Mr. Bouzek created a computer record and label for clonidine HCL 0.2 mg. Ms. Harvey denied having a second telephone conversation with Mr. Bouzek and testified that Dr. Laxalt's records do not show a change from clonidine HCL 0.1 mg. to 0.2 mg. on July 5, 2000. Because Mr. Bouzek's testimony and demeanor appeared

incredible -- particularly his jumbled explanation regarding the "rewrite" prescription, the "telephone prescription," and the computer-generate labels on the backs of each -- and because the physical facts corroborate Mrs. Luckett's and Mrs. Harvey's relation of events, we find that Mr. Bouzek incorrectly and negligently filled with clonidine HCL 0.2 mg. the order he had correctly transcribed as clonidine HCL 0.1 mg.

8. Mrs. Luckett took the clonidine HCL 0.2 mg. from July 2000 to the present. Mrs. Luckett discovered that she had been taking clonidine HCL 0.2 mg. when she sought to refill the prescription at the end of July 2000. Fortunately, the incorrect dose had, in fact, been therapeutic for Mrs. Luckett. Thereafter, Dr. Laxalt authorized that Mrs. Luckett continue on clonidine HCL 0.2 mg., rather than the clonidine HCL 0.1 mg. that Dr. Laxalt had actually ordered.

9. On February 2, 2001, Mrs. Luckett ordered refills from Albertsons #149 of various prescriptions for herself and Mr. Luckett, including a refill of a prescription for Mr. Luckett for acetaminophen/COD 3 #100 (Rx #114544). Mr. Wachsman, a "floater" pharmacist for Albertsons, was working as the staff pharmacist at Albertsons #149 on February 2, 2001 and was the pharmacist responsible for the filling of Mr. and Mrs. Luckett's refill prescriptions, including Mr. Luckett's prescription for acetaminophen/COD 3.

10. Mrs. Luckett picked up the refilled prescriptions on February 5, 2001. When she got the prescriptions home, she and Mr. Luckett discovered that his prescription #114544 contained 15 small pink pills, not 100 of the larger white tablets that should have been in the vial. Mr. Luckett did not ingest any of the incorrect tablets. When Mrs. Luckett took the incorrectly filled prescription #114544 back to Albertsons #149, it

was discovered that prescription #114544 had been filled with 15 estropipate.

11. At hearing, Mr. Wachsman speculated that his pharmaceutical technician had filled two prescriptions at the same time, one for Mr. Luckett for the acetaminophen/COD 3 and another as a refill for a female patient for estropipate. Mr. Wachsman believed that he simply placed the two labels on the wrong vials. He could not explain why he did not observe the size of the tablets and vials on which he had placed the labels incorrectly, since he acknowledged that the tablets were very different in size and color and the vials should have been different in size.

12. Mr. Wachsman explained the scan verification system in use at Albertsons pharmacies. He explained that all prescriptions are to be scan verified during the filling process to verify that the bar code on the prepared prescription label matches the bar code on the stock bottle. Mr. Wachsman also explained that there should have been a final scan verification of the prescription by the clerk or technician before it was dispensed to the patient. If the second scan verification showed that the prescription had not been scan verified during the filling process, then the computer system would generate an alarm so that the prescription could be checked again by a pharmacist. Unfortunately, no first or second scan verification was performed on Mr. Luckett's acetaminophen/COD 3 prescription before it was dispensed to Mrs. Luckett, so no alarm sounded that the prescription had not been properly scan verified during the filling process.

13. On February 7, 2001, Ms. Jani transcribed on a "telephoned prescription" document a transfer of a prescription for Adalat 30 mg. #30 for Mrs. Ferrando. A pharmaceutical technician entered the transferred prescription into the computer of

Albertsons #149, but when the technician selected the tablets to fill the prescription, she filled Mrs. Ferrando's prescription with nifedipine 60 mg. rather than 30 mg. Ms. Jani filled Mrs. Ferrando's prescription with the incorrect strength and dispensed it to Mrs. Ferrando. In a written statement, Ms. Jani explained that she scan-verified the prescription before dispensing it to Mrs. Ferrando, but because she did not check the prescription label against the transcribed transfer document, she did not catch that the strength of nifedipine was incorrect.

14. Mrs. Ferrando testified that she received a voucher from a Catholic Church organization and that the voucher was intended to assist her to pay for her prescription medications. Mr. Bouzek explained that he had assisted Ms. Jani with the entry of the prescription into Albertsons #149's computer system because Ms. Jani was not a pharmacist regularly employed by Albertsons, so she was unfamiliar with Albertsons' computer system and policies and procedures. Mr. Bouzek attempted to maximize Mrs. Ferrando's voucher by using part of the voucher to cover Mrs. Ferrando's co-pay on 30 of the nifedipine tablets and to pay cash for an additional eight of the tablets. Thereby, Albertsons #149 dispensed 38 nifedipine tablets rather than the 30 ordered by Mrs. Ferrando's physician. Mrs. Jani provided the Board with a written statement in which she admitted to making and took responsibility for the error. Because of her statement and the testimony of Mrs. Ferrando and Mr. Bouzek, Mrs. Jani did not provide testimony at hearing.

15. Mrs. Ferrando testified that she took the incorrect strength of nifedipine for 38 days. Mrs. Ferrando described that she felt increasingly lethargic, as if she were suffering from a flu, as she continued to take the incorrect strength of nifedipine. Mrs.

Ferrando discovered the error when she called Albertsons #149 for a refill of the prescription. Fortunately, Mrs. Ferrando's symptoms subsided several weeks after she resumed taking the correct strength of nifedipine once the error had been discovered.

16. On December 6, 2000, the Board entered a Stipulation and Order with Mr. Bouzek and Albertsons #149 (Case Nos. 00-073A-RPH-N and 00-073B-PH-N). The facts of that case involved an incident on July 31, 2000 in which Mr. Bouzek filled a prescription for Wellbutrin 150 mg. #180 with Wellbutrin 100 mg. #60. Mr. Bouzek had placed a prescription label for Wellbutrin 150 mg. #180 directly over the manufacturer's label that plainly showed Wellbutrin 100 mg. In so doing, Mr. Bouzek also provided an expiration date on the prescription label that exceeded the actual expiration date on the manufacturer's label. Mr. Bouzek and Albertsons #149 were also disciplined because the patient was not counseled regarding the Wellbutrin prescription. The patient ingested the improper strength of Wellbutrin, but suffered no serious or permanent injury. Mr. Bouzek and Albertsons #149 each agreed to a fine of $950.00 plus an administrative fee of $250.00.

17. Mr. Johnston and Mr. Mazzone explained the efforts taken by Albertsons' management to ascertain how the various errors at issue were made. They also explained the remedial measures already taken by Albertsons, especially addressing the Board's concerns regarding the apparent failure of Albertsons' scan verification system in light of the number of errors in this matter that implicated the improper use or failure to use the system. Though the Board is concerned by any pharmacy that has committed as many patient errors as have been committed by Albertsons #149, the Board was also satisfied by Mr. Johnston's and Mr. Mazzone's testimonies that

Albertsons has taken appropriate and necessary actions both to ascertain the causes of the errors and to remedy the practice of Albertsons #149 to minimize the opportunity of such errors in the future.

CONCLUSIONS OF LAW

1. The Board has jurisdiction over this matter because Mr. Bouzek, Mr. Wachsman, and Ms. Jani are pharmacists licensed by the Board and Albertsons #149 is a pharmacy licensed by the Board.

2. In failing to confer with Dr. Laxalt's office to resolve what strength of clonazepam had been ordered or whether clonazepam was the correct drug in light of the 0.1 mg. strength ordered, Mr. Bouzek violated Nevada Revised Statutes (NRS) 639.210(4) and Nevada Administrative Code (NAC) 639.945(1)(e) and (i).

3. In dispensing the incorrect medication to Mrs. Luckett, namely by dispensing clonazepam 1 mg. when Dr. Laxalt had ordered clonidine HCL 0.1 mg., Mr. Bouzek violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

4. In employing Mr. Bouzek and operating the pharmacy in which Mr. Bouzek committed the violations in the violations in paragraphs 2 and 3 above, Albertsons #149 violated NRS 639.210(4) and (12) and NAC 639.945(1)(d), (e), and (i) and (2).

5. In dispensing the incorrect medication to Mrs. Luckett, namely by dispensing clonidine HCL 0.2 mg. when Dr. Laxalt had ordered clonidine HCL 0.1 mg., Mr. Bouzek violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

6. In employing Mr. Bouzek and operating the pharmacy in which Mr. Bouzek committed the violations in paragraph 5 above, Albertsons #149 violated NRS 639.210(4) and (12) and NAC 639.945(1)(d), (e), and (i) and (2).

7. In dispensing the incorrect medication to Mr. Luckett, namely by dispensing 15 estropipate instead of 100 acetaminophen/COD 3, Mr. Wachsman violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

8. In employing Mr. Wachsman and operating the pharmacy in which Mr. Wachsman committed the violations in paragraph 7 above, Albertsons #149 violated NRS 639.210(4) and (12) and NAC 639.945(1)(d), (e), and (i) and (2).

9. In dispensing the incorrect strength of nifedipine to Mrs. Ferrando, Ms. Jani violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY,

Petitioner,

Case No. 96-053-PH-N

v.

FINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER

ALBERTSON'S FOOD & DRUG #170, Certificate of Registration No: PH0877; and

ALBERTSON'S, INC., Owner of Albertson's Food & Drug #170;

Respondents.

THIS MATTER was heard by the Nevada State Board of Pharmacy (hereinafter Board) at its regular meeting on March 26, 1997 in Reno, Nevada. Deputy Attorney General Louis Ling prosecuted the matter on behalf of the Board, and Respondent was represented by Mr. Brian Sandoval. Based on the admissions, testimony, and documents presented as well as the public records in the possession and control of the Board, the Board issues the following Findings of Fact, Conclusions of Law, and Order.

FINDINGS OF FACT

1. Because in their Answer and Notice of Defense and in their opening presentation, the Respondents admitted many of the facts as alleged in the Notice of Intended Action and Accusation, Board staff presented no witnesses or evidence. Steve Shapiro and Paula Emerson testified.. Based upon all of the admissions, evidence, and testimony presented, the following paragraphs shall be the facts as found by the Board.

2. Albertson's Pharmacy #170 (Albertson's #170) is a pharmacy located within an Albertson's grocery store located at 10500 N. McCarran Blvd. in Reno, Nevada. Albertson's, Inc. is the owner of Albertson's #170.

3. On August 23, 1996 at approximately 8:30 a.m., Gary Adams, store manager for the grocery store in which Albertson's #170 is located, opened the store safe and removed a key to the pharmacy from a sealed envelope therein. Mr. Adams then went to Albertson's #170 and let Allen Gordy, the regional butcher manager, into the pharmacy where Mr. Gordy used the pharmacy's facsimile machine. No pharmacist was present in the pharmacy because the pharmacy was not open at the time that Mr. Adams let Mr. Gordy into the pharmacy.

4. Paula Emerson, a pharmacist employed by Albertson's, observed Mr. Adams and Mr. Gordy just after Mr. Adams had let Mr. Gordy into the pharmacy, and she confronted them while they were in the pharmacy. Ms. Emerson was the pharmacist who had placed the pharmacy key in the sealed envelope that Mr. Adams had removed from the store's safe, and she had placed the key in an envelope because she was unaware that her "barrel" key would open the lock box that was in the safe.

5. After Ms. Emerson discovered the unlawful entry, a controlled substances inventory was conducted and no controlled substances were discovered to be missing.

6. Upon subsequent investigation, Mr. Adams and Mr. Gordy admitted that they had, in fact, gained unlawful entry into Albertson's #170 and that they knew when they did so that they were breaking Nevada law and company policy. At hearing, Mr.

Shapiro testified that Albertson's policy is that all pharmacy keys are either to be in the possession of a pharmacist or are to be in a lock box placed within the store's safe. Ms. Emerson testified that she knew this policy, but because she did not know that her "barrel" key would open the lock box at Albertson's #170, she left the key in a sealed envelope because she knew that the pharmacist who would be opening the store only a few minutes later would need the key because it was his only key to the pharmacy. Ms. Emerson also testified that it was her opinion that Mr. Allen was pressured by Mr. Gordy into letting Mr. Gordy into the pharmacy, since Mr. Gordy was a regional manager and Mr. Allen, as a store manager, was Mr. Gordy's subordinate.

7. As a result of the testimony at hearing, the Board finds that the circumstances of this case are unique and that the policies and procedures already in place are sufficient to assure that similar breaches of pharmacy security would be virtually impossible. The Board also finds, though, that Mr. Gordy was wrong to pressure Mr. Allen into letting him into the pharmacy and that Mr. Allen was wrong to capitulate to Mr. Gordy's demands where doing so was against Nevada law and company policy that was known to Mr. Allen at the time.

CONCLUSIONS OF LAW

1. The Board has jurisdiction over this matter because Albertson's #170 is a pharmacy licensed by the Board.

2. In owning a pharmacy in which the key to the pharmacy was easily accessed by non-pharmacist personnel who allowed themselves access to the pharmacy without a pharmacist present, Albertson's #170 and Albertson's, Inc. violated

NRS 639.210(4) and (12). In reaching this conclusion, the Board acknowledges that Albertson's #170 personnel reported the breach of security themselves, and in so doing, exposed Albertson's #170 to this disciplinary action. We commend Albertson's #170 for doing the right thing and reporting the breach of security, but we feel discipline is appropriate in this matter nonetheless because the management of Albertson's, Inc., especially its mid-level management such as Mr. Gordy, must be reminded, apparently, that Nevada's pharmacy laws cannot be disregarded without consequence.

ORDER

Based upon the foregoing, the Board imposes the following discipline:

1. Respondent Albertson's #170 shall pay a fine of $1,000.00 in cash, cashier's or certified check, or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office within 30 days of the effective date of this Order.

2. Respondent Albertson's #170 shall receive a private letter of reprimand.

SIGNED AND EFFECTIVE this 5th day of April, 1997.

MANUAL:	**ALTO PHARMACY PROGRAM**	DOCUMENT #:		AS-44	
SUBJECT:	Medication Error Management, Reporting and Prevention	EFFECTIVE DATE:		10/3/2017	
		POLICY OWNER(S):		VP of Pharmacy Operations and Excellence	
PERSONNEL COVERED:	Alto Operations	PAGE:	1	OF	6

PURPOSE:

To outline the process by which Alto documents, reports, reviews, and prevents medication errors.

DEFINITIONS:

- MECAR: Medication Error and Corrective Action Response: documents all errors regardless of severity or potential for harm
- Near-miss: Reported error regarding a prescription that would have potentially impacted a patient's health outcome
- Tea Time: report of suspected error or complaint captured in Wunderbar

POLICY:

A. Alto encourages patients to report any known or suspected medication errors as a mechanism to facilitate continuous process improvement and promote patient safety.

B. Employees are required to escalate all known or suspected medication errors to a pharmacist for immediate review.

C. The Quality Team will maintain confidential records of employee involvement and may require counseling or corrective action as necessary.

D. Error Reports and associated root cause analyses are compiled for risk assessment by incidence and severity, then categorized for process improvement activities by responsible Systems, Operations, and Clinical teams accountable to the Quality Management Committee to address. Apply PDCA cycle principles of Total Quality Management to prevent future errors of the same category.

E. Risk Assessment and Management team performs ongoing monitoring of MECAR risks and severity and performs internal audits bi-annually to assess implementation effectiveness and measure risk reduction.

		POLICY OWNER(S):	VP of Pharmacy Operations and Excellence
PERSONNEL COVERED:	Alto Operations	PAGE: 2	OF 6

PROCEDURE:

1. Dispensing errors
    a. Are recorded in Wunderbar at the time of reporting.
        i. This includes near-misses. Alto categorizes and tracks these no-harm events, by type, in order to detect and prevent future harm and occurrences.
        ii.

	Why we track...	How we prevent recurrence...
Type 1	Not indicative of organizational weakness. Indicates our initiatives are correct and reduce errors	Collect information to evaluate effectiveness of our quality initiatives and efforts
Type 2	Helps us identify effective unplanned or accidental actions	Evaluate for decision to standardize and/or automate these actions
Type 3	Help us to evaluate our detection and intervention procedures	Apply resources toward detecting and mitigating similar events
Type 4	Shows the weakness of our organization's early detection plans	Analyze processes for events that reached the patient

    b. Cases involving suspected medication errors are immediately escalated to a pharmacist to be investigated, documented, reported, and resolved, if possible.
    c. Categorized based on error type in order to identify error trends.
        i. MECAR
            1. Class 1: Errors that have a potential to compromise patient safety
            2. Class 2: Errors that do not have the potential to compromise patient safety
            3. Dispensing MECAR rate calculation
                a. Number of errors in that pod or site over the number of total prescriptions dispensed by that pod or site in a given time period
        ii. Near miss (or close calls)
            1. Type 1: An incident that does not reach the patient because of formal and

planned interventions and programs (previously developed by the organization)

2. Type 2: An incident that does not reach the patient because of chance or unplanned interventions
3. Type 3: An incident that does reach the patient but does not cause harm because of early detection, interventions and treatment
4. Type 4: An incident that does reach to the patient but does not cause harm because of chance
5. Near Miss capture rate goal is 99.9% of all error types identified prior to dispense to patient
    a. MECAR rate divided by percent to reach patient < 0.1%

d. Regardless of how the error is recognized - either by reporting from an external source (patient, caregiver, or provider) or discovered internally, a pharmacist will ascertain the details of the alleged error by reviewing the patient's Wunderbar records.

e. The pharmacist will interview the patient or caregiver to collect detailed information regarding whether or not ingestion occurred and how the patient was impacted, if at all.
    i. The following information is documented in the system of record:
        1. The date, location, and participants in the quality assurance review
        2. The pertinent data and other information relating to the medication error(s) reviewed and documentation of any patient contact required
    ii. Our pharmacists are trained to remain calm and ask open-ended questions in order to gather as much detail as possible.

f. The pharmacist may also contact the patient's provider to inform them of the error, if deemed necessary.

g. The method of resolution will be determined on a case by case basis at the discretion of the pharmacist and may include such measures as refund and/or replacement. For any error resulting in a replacement, Alto will coordinate the return of the original package free of charge.

h. All communications related to the error will be documented in Wunderbar as a Tea-Time

(categorized as a MECAR) within 24 hours of discovery. Documentation of this is found through a Looker report that is reviewed by the Quality Team who, in conjunction with the Operational Excellence team (OET), will perform a root cause analysis and identify possible quality improvement (QI) opportunities.

2. Distribution errors
    a. These errors are identified by a Quality Analyst in the following ways:
        i. Reported errors that have been identified as potential PHI disclosures
        ii. Manual identification of misdeliveries (via #triage-courier-delivery Slack channel)
            1. Wrong address
            2. Wrong patient
            3. Not delivered
            4. Temperature excursion or damaged packaging
        iii. Manual review of high tea times to identify potential PHI breaches
        iv. Distribution accuracy = rate of delivering medications correctly (100 - misdelivery rate)

    b. All potential errors are investigated by the Quality Analyst (QA) within 5 business days
    c. The QA will track/analyze errors and categorize them as a Processing error (issue with scheduling incorrectly) or Production error (issue with packaging or delivery)
        i. Production errors are further broken down to assess Incorrect Packaging Rate and Misdelivery Rate
    d. The QA will provide investigations to the appropriate internal leaders for review and process potential changes.
        i. Internal leadership (not limited to): Director of Delivery, Director of Business Operations, PIC
    e. The QA or Pharmacist contacts any affected patient or notifies the provider in cases where a distribution error is known to have occurred and/or PHI has been exposed or inadvertently disclosed as a result, within 24 hrs of discovery.
        i. The QA or Pharmacist will make 3 attempts to reach the patient or by phone
        ii. A notification letter will be sent to the patient or provider if unable to reach by phone or if requested
    f. The QA follows the Distribution Error Notification, Management and Escalation process flowchart (Distribution Error Disclosure: Logging/Assessment Process) to make

Letter of Corrective Action

Cite NJAC13:45H-5.5 and 5.7, The biennial inventory existed at the time of inspection however the inventory cover page with the date of the inventory taken was torn off. We subsequently have removed the inventory from the cabinet it was stored in and moved it to the office files for safe keeping. Subsequent to the inventory the cover sheet was located and reattached.

Cite NJAC13:39-10.6(a)2, 6 month accuracy checks were performed as part of the service agreement with the manufacturer. The manufacturer has no records of the service specifically as they pertain to accuracy checks. We now keep our own accuracy check record on file in the policy and procedure manual.

Due to the costs associated with defense of these violations we find it in the best interest of the pharmacy to pay the associated fines and submit this corrective action plan for your acceptance.

Re: Inspection Report #8-5748-15-X

Inspection date: January 23 2015

This letter of corrective action is being submitted at your request.

1. NJAC 13:39-7.18 All outdated medications have been removed and policy to check monthly has been enforced.
2. NJAC 13:39-6.7(b) Technician registrations are being maintained and displayed in a binder on the wall next to the licenses at the request of the inspector. All are originals with the exception of a couple that are on request from the Board. In those instances we have generated computer printout copies from the Boards website as well as copies of the request for duplicates from the Board.
3. NJAC 13:39-6.3 All employees are wearing lanyards with identification.
4. NJAC 13:39-6.15(d+e) The tech to pharmacist ratio was exceeded but the policy and procedure manual existed since 2008 but was not producible due to the file being lost in computer hardware updates. It has been recovered and updated and reviewed by the PIC.
5. NJAC 13:39-6.6(b)(c)(d) All employees that were not in compliance have been terminated. We now utilize a new software from PRS to manage the due dates of all employees registrations so that none slip through the cracks.
6. NJAC 13:39-7.12(a)12 "use by date" have been adjusted on the label to reflect a shorter time frame so that the labelled use by date on the unit dose package exceeds the use by date on the label thus defaulting to the label "use by date".
7. NJAC 13:39-7.12(a)9 Every controlled substance prescription is reviewed by records staff to ensure that the proper prescriber is reflected on the order. This is done daily.
8. NJSA 45:1-45b The PMP submission are now electronic and automated and submitted daily as required.

Please accept this Plan of Correction. In addition, I had notified the Board of a change in PIC on 5/1/2015. I am enclosing another copy of same as we have not heard from the Board in that regard. Please also consider that on the date of inspection Keith Hartman was PIC and Sean Swisher is signing this POC as the current PIC.

EHT and Taylor acknowledge and agree that they voluntarily and of their own free will accept the terms and conditions set out in this Consent Order and are signing this Consent Order on the advice of their attorney.

Dear Mr. Taylor:

Unfortunately the Application for Consent Order that you signed and returned to me last spring was incorrectly drafted in that the name of the current registration in New York reads as EHT Pharmacy, LLC, CUREX. That now needs to be corrected on the enclosed consent application and it will necessary for you to re-sign in the TWO places indicated and return it to me.

I am enclosing a UPS envelope for you to return the signed white backed original to me as soon as possible. If you have any questions about this please call me at (518)485-9351. Thank you and I apologize for this inconvenience.

ADMINISTRATIVE COMPLAINT

The Michigan Department of Licensing and Regulatory Affairs, by Forrest Pasanski, Enforcement Division Director, Bureau of Professional Licensing, complains against Respondent as follows:

1. The Michigan Board of Pharmacy is an administrative agency established by the Public Health Code, MCL 333.1101 *et seq.* Pursuant to MCL 333.7311, MCL 333.16226, and MCL 333.17768, the Board's Disciplinary Subcommittee is empowered to discipline persons for violations of the Public Health Code.

2. Respondent is currently licensed as a pharmacist in the state of Michigan. Respondent's address of record with the Department is Galloway, New Jersey.

3. On September 6, 2016, the Alabama State Board of Pharmacy (Alabama Board) executed a Consent Order (Order) with EHT Pharmacy LLC d/b/a Curexa f/k/a EHT Pharmacy LLC d/b/a Jersey Shore Pharmacy (pharmacy) and Respondent that fined the pharmacy and Respondent $10,000.00. The Alabama Board's

Order was based on allegations that the pharmacy compounded and dispensed 101 prescriptions (totaling 11,038 capsules) of Domperidone for human use when the same was not approved by the FDA and having nine medications outdated from one day to four months in the active drug stock inventory. A copy of the Order, marked Exhibit A, is attached and incorporated.

4. Respondent failed to notify the Department of the action taken by the Alabama Board within 30 days from the date of the action.

5. On August 1, 2017, the Texas State Board of Pharmacy (Texas Board) issued an Agreed Board Order against Respondent based on Respondent submitting an April 29, 2016 application for renewal of his pharmacist license to the Texas Board and falsely indicating that no professional disciplinary action was pending against him when the Alabama action described above was pending against Respondent. Licensee was reprimanded and fined $1,000.00. A copy of the Order, marked Exhibit B, is attached and incorporated.

6. Respondent failed to notify the Department of the action taken by the Texas Board within 30 days from the date of the action.

COUNT I

The actions by the Alabama and Texas Boards, as set forth above, constitute final adverse administrative actions by a licensure, registration, disciplinary, or certification board involving the holder of, or an applicant for, a license or registration

regulated by another state or a territory of the United States, in violation of MCL 333.16221(b)(x).

COUNT II

Respondent's conduct, as set forth above, evidences a failure to notify the Department of the disciplinary actions by the Alabama and Texas Boards within 30 days from the date of the actions, as required by MCL 333.16222(4), in violation of MCL 333.16221(f).

RESPONDENT IS NOTIFIED that, pursuant to MCL 333.16231(8), Respondent has 30 days from the date of receipt of this Complaint to answer this Complaint in writing and to show compliance with all lawful requirements for licensure. Respondent shall submit the response to the Bureau of Professional Licensing, Department of Licensing and Regulatory Affairs, P.O. Box 30670, Lansing, MI 48909.

Respondent's failure to submit an answer within 30 days is an admission of the allegations in this Complaint. If Respondent fails to answer, the Department shall transmit this Complaint directly to the Board's Disciplinary Subcommittee to impose a sanction, pursuant to MCL 333.16231(9).

4. By execution of this Consent Order, EHT and Taylor hereby release the Board, its members, agents, representatives, servants and employees from any and all liability, claims, damages, fees or expenses arising out of or made in connection with the matters relating to this Consent Order and Statement.

5. EHT and Taylor acknowledge and agree that any future violation of the Alabama Pharmacy Practice Act, the laws that regulate the sale and/or dispensing of prescription or legend drugs and/or narcotics or any Rules and regulations of the Alabama State Board of Pharmacy or the pharmacy law or rules of the Board of Pharmacy of another state or any other applicable laws may, upon proof and hearing

On this day came on to be considered by the Texas State Board of Pharmacy (Board) the matter of pharmacist license number 58326 issued to Mark Taylor (Respondent).

By letter dated March 31, 2017, the Board gave preliminary notice to Respondent of its intent to take disciplinary action. This action was taken as a result of an investigation which produced evidence indicating that Respondent may have violated:

Sections 565.001(a)(1), (2), (5), (12) and (16); and 565.001(b) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Title 3, Subtitle J (2015); and

COUNTS

(1) On or about April 29, 2016, Mark Taylor submitted an application for renewal of his pharmacist license to the Texas State Board of Pharmacy. On the application, Mr. Taylor falsely indicated that no professional disciplinary action was pending against him, when the disciplinary action by the Alabama State Board of Pharmacy described below in Count (2) was pending against him.

(2) On or about September 6, 2016, the Alabama State Board of Pharmacy entered a Consent Order against the Alabama pharmacist license number 19108 held by Mark Taylor. The Order was based on allegations contained in a Statement of Charges and Notice of

Hearing that while Mr. Taylor was acting as pharmacist-in-charge and a corporate officer of Curexa, the pharmacy compounded and dispensed 101 prescriptions for a drug product not approved by the federal Food and Drug Administration for human use, namely domperidone 10 mg. The Order imposed a $10,000 fine.

An informal conference was held in the Board's office on July 13, 2017, with Respondent in attendance. The informal conference was heard by a Board panel comprised of: Jeanne D. Waggener, R.Ph., Board Member; and Carol Fisher, R.Ph., M.P.A., Director of Enforcement; with Kerstin Arnold, General Counsel. Megan Holloway, Staff Attorney, was also in attendance.

At the aforementioned conference, Respondent waived the right to be represented by legal counsel. The parties acknowledge that this Order resolves the allegations set forth herein, and agree to the terms and conditions set forth in the ORDER OF THE BOARD below.

ORDER OF THE BOARD

THEREFORE, PREMISES CONSIDERED, the Board does hereby ORDER that:

(1) Respondent's license is reprimanded.

(2) Respondent shall pay an administrative penalty of one thousand dollars ($1,000) due one hundred twenty (120) days after the entry of this Order.

(3) Failure to comply with any of the requirements in this Order constitutes a violation and shall be grounds for further disciplinary action. The requirements of this Order are subject to the Texas Pharmacy Act, TEX. OCC. CODE ANN., Title 3, Subtitle J (2015), and Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2017).

And it is so ORDERED,

THIS ORDER IS A PUBLIC RECORD.

Designated Representative Application

Rev (04/22/2021)

An application for a license, or a licensee with a license, to conduct a pharmacy or to operate as a wholesaler shall designate at least one natural person to serve as the representative of the pharmacy or wholesaler. The Board will not issue or renew a license of an applicant or licensee that is required to designate a representative of a pharmacy or wholesaler unless the Board determines that the designated natural person meets the following qualifications per NAC 639.5005 (Pharmacy) or NAC 639.5935 (Wholesaler):

1. Is at least 21 years of age;
2. Has been employed for at least 6,000 hours in a pharmacy or with a wholesaler in a capacity related to the dispensing and distribution of, and recordkeeping related to, prescription drugs.

The designated representative of a pharmacy or a wholesaler:

1. Must be actively involved in and aware of the actual daily operations of the pharmacy or wholesaler;
2. Must be employed full-time in a managerial level position with the pharmacy or wholesaler;
3. Must be physically present at site of the pharmacy or at the facility of the wholesaler during regular business hours, except when the absence of the representative is authorized, including sick leaves, vacation leaves and other authorized absences; and
4. May serve in this representative capacity for only one pharmacy or wholesaler at a time

A pharmacy or wholesaler that is required to designate a natural person as its representative shall not open or operate the pharmacy or wholesaler unless that representative is actually employed full-time in the operation of the pharmacy or wholesaler and is physically present at the site of the pharmacy or wholesaler during regular working hours, not including sick leave, vacation leave and other authorized absences from work. If the natural person designated as the representative of a pharmacy leaves the employ of the pharmacy or wholesaler, thus leaving the pharmacy or wholesaler without a representative in violation of this section, the pharmacy or wholesaler shall:

1. Immediately cease conducting business until another qualified natural person is approved by the Board to serve as the representative of the pharmacy or wholesaler; and
2. Not later than 48 hours after that person leaves its employ, notify the Board that the person designated as the representative of the pharmacy or wholesaler has left the employ of the pharmacy or wholesaler.

Before a pharmacy or wholesaler, that is in violation of NAC 639.5005 (Pharmacy) or NAC 639.5935 (Wholesaler) because the natural person designated as the representative of the pharmacy or wholesaler left the employ of the pharmacy or wholesaler, may continue conducting business:

1. The pharmacy or wholesaler must designate, on a form provided by the Board, a new natural person to serve as the representative of the pharmacy; and
2. The Board must approve the natural person so designated.

RE: Case P-96-086

Dear Ms. Fazio:

The Colorado State Board of Pharmacy met at its regularly scheduled meeting on October 9, 1997. During that meeting, the Board carefully considered the above-referenced complaint, initiated by the Board pursuant to the Board's receipt of a Department of Health Incident Report, from the Health Facilities Division, on or about February 29, 1996. The Board also reviewed a complaint investigation report from the Board's pharmacy inspector, and the April 19, 1996, response, provided on your behalf by your attorney. The Board also considered a memorandum from staff, together with an August 12, 1997, letter from your attorney, objecting to certain of the citations contained in the Board's amended letter of admonition, issued on July 23, 1997.

This complaint was based on allegations, admitted by you, that on or about February 15, 1996, while on duty as a pharmacist at Vencor Hospital, Denver, Colorado, you dispensed glipizide, a legend drug on an order for cisapride, a legend drug, because you misread the name of the medication, pursuant to a prescription written by Dr. Eric Yaeger, for patient M.C. The patient ultimately died due to " . . . arrhythmia due to focal areas of damage within the brain stem . . .". The autopsy report made no mention of any drugs the patient received, and attributed the manner of death to homicide.

The Board determined by a majority vote, that the complaint and the information disclosed thus far by the investigation presented evidence of misconduct which, in the Board's opinion, did not warrant initiation of formal

disciplinary action. However, the Board also concluded that the circumstances surrounding the incident did not justify dismissal of the complaint.

While the Board determined that the matter does not warrant the commencement of formal proceedings against your license to practice pharmacy, the Board voted to administer disciplinary action to you in the form of this letter of admonition.

Therefore, the Board hereby admonishes you for violations of §§ 12-22-122(1), 12-22-125(1)(c), 12-22-126(1) (h) and (i), CRS, and Board regulations 1.00.11, and 3.00.50.

This admonishment shall be made a part of the permanent records of the Board, and is reportable as a disciplinary action. It may also be considered as an aggravating factor in the event you are found guilty of future violations.

You are further advised that pursuant to § 12-22-125(6)(b), CRS (1996), you may request that formal disciplinary proceedings be initiated by the Board against you to adjudicate the propriety of the conduct upon which this letter of admonition is based. Such request must be received by the Colorado State Board of Pharmacy within 20 days after receipt of this letter by you.

In the event that such a request is made in a timely manner, the letter of admonition shall be deemed vacated pending resolution of the formal disciplinary proceedings which shall be conducted in accordance with the State Administrative Procedures Act.

RE: Case P-96-086

Dear Ms. Fazio:

The Colorado State Board of Pharmacy met at its regularly scheduled meeting on October 9, 1997. During that meeting, the Board carefully considered the above-referenced complaint, initiated by the Board pursuant to the Board's receipt of a Department of Health Incident Report, from the Health Facilities Division, on or about February 29, 1996. The Board also reviewed a complaint investigation report from the Board's pharmacy inspector, and the April 19, 1996, response, provided on your behalf by your attorney. The Board also considered a memorandum from staff, together with an August 12, 1997, letter from your attorney, objecting to certain of the citations contained in the Board's amended letter of admonition, issued on July 23, 1997.

This complaint was based on allegations, admitted by you, that on or about February 15, 1996, while on duty as a pharmacist at Vencor Hospital, Denver, Colorado, you dispensed glipizide, a legend drug on an order for cisapride, a legend drug, because you misread the name of the medication, pursuant to a prescription written by Dr. Eric Yaeger, for patient M.C. The patient ultimately died due to " . . . arrhythmia due to focal areas of damage within the brain stem . . .". The autopsy report made no mention of any drugs the patient received, and attributed the manner of death to homicide.

The Board determined by a majority vote, that the complaint and the information disclosed thus far by the investigation presented evidence of misconduct which, in the Board's opinion, did not warrant initiation of formal

disciplinary action. However, the Board also concluded that the circumstances surrounding the incident did not justify dismissal of the complaint.

While the Board determined that the matter does not warrant the commencement of formal proceedings against your license to practice pharmacy, the Board voted to administer disciplinary action to you in the form of this letter of admonition.

Therefore, the Board hereby admonishes you for violations of §§ 12-22-122(1), 12-22-125(1)(c), 12-22-126(1) (h) and (i), CRS, and Board regulations 1.00.11, and 3.00.50.

This admonishment shall be made a part of the permanent records of the Board, and is reportable as a disciplinary action. It may also be considered as an aggravating factor in the event you are found guilty of future violations.

You are further advised that pursuant to § 12-22-125(6)(b), CRS (1996), you may request that formal disciplinary proceedings be initiated by the Board against you to adjudicate the propriety of the conduct upon which this letter of admonition is based. Such request must be received by the Colorado State Board of Pharmacy within 20 days after receipt of this letter by you.

In the event that such a request is made in a timely manner, the letter of admonition shall be deemed vacated pending resolution of the formal disciplinary proceedings which shall be conducted in accordance with the State Administrative Procedures Act.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and US Bioservices ("Respondent Pharmacy") to resolve all matters pertaining to Board Case Number 2015-5067, as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Respondent Pharmacy, its registration as an in-state prescription drug outlet, and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to provisions of the Pharmacists, Pharmacy Businesses, and Pharmaceuticals Act at Title 12, Article 42.5, C.R.S. (2016).

2. Respondent Pharmacy was originally registered in the State of Colorado on or about September 30, 2003, being issued registration number PDO 37-19, and has been so registered at all times relevant to this disciplinary action.

3. Respondent Pharmacy's address of record with the Board and current location is 501 W. 44th Ave, Ste. A, Denver, CO 80216.

4. Respondent Pharmacy admits these findings and hereby waives any further proof in this or any other proceeding before the Board regarding the following facts.

5. Upon a routine inspection of Respondent Pharmacy on December 18, 2015, a non-licensed employee was found in the compounding/dispensing area without a pharmacist present in the same building.

6. Respondent Pharmacy admits that its conduct, as set forth above, constitutes a violation of §12-42.5-123(1)(c)(I)-(III) and (k), C.R.S., and Rule 5.01.50(a), and provides grounds for disciplinary action against Respondent Pharmacy's Colorado registration as a prescription drug outlet.

DISPOSITION

7. **Letter of Admonition.** This Final Agency Order shall constitute a Letter of Admonition as set forth in §12-42.5-124(6)(b) and (c), C.R.S. The Board hereby admonishes Respondent Pharmacy for the acts and omissions described in paragraphs 5-6 above.

Respondent Pharmacy acknowledges and agrees that any violation of this Final Agency Order shall constitute a willful violation of a lawful Board order, may be sanctioned as provided under §12-42.5-124(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of its registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Respondent Pharmacy to comply with all terms and conditions of this Final Agency Order.

11. **Advisements and Waivers.** Through its undersigned Authorized Representative, Respondent Pharmacy enters into this Final Agency Order freely and voluntarily, after having the opportunity to consult with legal counsel and/or choosing not to do so. Attention: Jean Rowcliffe, Complaint Analyst

Re: Case 2015-5067 concerning US Bioservices, PDO 37-19

This letter is in response to the Special Report filed by Susan S. Martin on 12/21/15 following her inspection of the US Bioservices pharmacy located at 501 W. 44th Avenue, Suite A, Denver, CO 80216 on 12/18/15 regarding a violation of 6.01.60 of the State of Colorado Board of Pharmacy Rules.

Inspector Martin's report accurately states that upon arriving at our facility on 12/18/15 Pharmacy Technician, Lisa Graves was alone in the pharmacy while Pharmacist in Charge, Tom Karlin; stepped into the adjacent parking lot to deposit computer equipment in his car. That action violated 6.01.60 of the Board of Pharmacy Rules by which we are held accountable.

Notwithstanding the foregoing, US Bioservices respectfully request your consideration of the following mitigating circumstances:

- Mr. Karlin was gone approximately five minutes, as confirmed by Lisa Graves, CPhT and Bill Wilson, RN, Director of Nursing.
- US Bioservices is a small, mail order pharmacy and does not have customers or patients on the premise.
- During that five minute time span, no patients or customers entered the building.
- During that short five minute span, no prescriptions were dispensed or shipped to patients.
- A complete inventory was completed on that day with no discrepancies.
- Subsequent counts have never revealed any inventory discrepancies.
- The facility is secure and the parking area is gated and monitored.

US Bioservices has discussed the issue with Mr. Karlin, and he understands the seriousness of this report and investigation and takes full responsibility for his actions. Mr. Karlin has been a practicing pharmacist for thirty years, and has never received any complaint or disciplinary action from a Board of Pharmacy. He has always served US Bioservices with honor and integrity.

US Bioservices is committed to providing quality, professional and proficient care to patients. As Inspector Martin's report shows, her review of all records, licenses, invoices and documents was completed successfully without further findings. Due to the above circumstances, US Bioservices respectfully requests that no further action be taken.

If you have any questions about the foregoing, please feel free to contact me.

Respectfully,

RE: Case 2015-5067 concerning US Bioservices, PDO 37-19

Dear Mr. Karlin:

The Colorado State Board of Pharmacy ("Board") has initiated the attached complaint against the registration of the aforementioned prescription drug outlet pursuant to Board policy. The Board is investigating this complaint. It is being sent to you as the pharmacist manager of the above listed prescription drug outlet. The first step in the process is to obtain your response to the allegations raised in the complaint. At this point, no assumption has been made about the truth or validity of any information provided to the Board.

Please send a written response within thirty (30) days of the date of this letter as indicated above. An earlier response may expedite the Board's review of this matter. To facilitate an efficient and timely review, please type your response. If this is not possible, please legibly print your response.

We encourage you to respond electronically. If you do, please submit the response to jean.rowcliffe@ state.co.us. Please scan and attach any relevant documents. Address all correspondence to the Board.

Also, please be sure that any copies submitted with your response are legible. Be sure to include the case number listed above on all correspondences and address your response to my attention.

It is the policy of the Division of Professions and Occupations to copy your attorney (if you are represented) on all correspondences in order to assure that your attorney is aware of the developments in your case. If you are represented by an attorney in this matter, please provide the Board in writing with your attorney's contact information. If the Board already has your attorney's contact information, your attorney name

should be identified below as a carbon copy of "cc," indicating that a copy of this letter was sent to that attorney. If at any time it appears that the Board does not have the correct information regarding your legal representation, please update the Board and provide your attorney with a copy of all correspondences from the Board.

We strongly encourage you to begin preparing your response to the complaint as soon as possible, as extensions to the thirty day response time will not be granted except in very limited circumstances. Additionally, if you choose to be represented by an attorney, please contact him or her immediately. A delay in doing so will not be grounds for an extension.

Following receipt of your response, the Board will review the complaint and your response thereto. The Board will then determine what further action, if any, is warranted. Please note you will be advised in writing of the Board's disposition of this complaint.

Thank you for your cooperation and prompt attention to this matter. If you have any questions, please contact me at jean.rowcliffe@state.co.us or (303) 894-7897.

Subject: **US Bioservices, PDO 37-19 - Security**

Background:

On 12/18/15, I conducted a routine inspection of US Bioservices, 501 W 44th Ave, Ste A, Denver, CO 80216. When I arrived at the pharmacy, I was informed that the pharmacist was not in the building. I walked back to the pharmacy at 2:34 p.m., and observed a technician, Lisa Graves, working alone in the licensed compounding/dispensing area. I informed her that she could not be in the licensed compounding/dispensing area unless the pharmacist was in the building. She exited and the door was secured. The pharmacist manager, Tom Karlin (PHA 18289), arrived several minutes later and explained that he had been to his car. Board Rule 5.01.50(a) states:

5.01.50 Security. In every prescription drug outlet, all compounding/dispensing areas shall comply with this regulation.
a. When any compounding/dispensing area of a prescription drug outlet is occupied by any employee, a pharmacist must be physically present within the same building of the prescription drug outlet.

RE: Non-Resident application Explanation of closed licenses

PipelineRx closed the following licenses issued on our Illinois location.
Montana License #PHA-MOP-LIC 71129
New York License #036021
Colorado License #OSP.0006500
Texas License #30720

At the time we closed these permits we were considering closing our Illinois pharmacy location. We opened a resident Pharmacy in Colorado and opened the above-mentioned licenses as non-resident pharmacy out of the Colorado pharmacy. Operationally we choose not to close our Illinois location and discontinued moving other licenses to our Colorado location.

If you have any questions, please let me know.

Attachment A
PipelineRx Description of Service

PipelineRx provides Remote medication order and prescription entry and verification services to hospitals, health systems and pharmacies. In addition, we provide the following outpatient services in a hospital setting, MTM services, consulting services, and Transitions of Care. PipelineRx does not purchase, dispense, distribute, store drugs of any kind. We only provide the services listed above with no dispensing. PipelineRx provides services to hospitals on a national basis. PipelineRx holds pharmacy resident licenses in the states of Illinois, Nevada, and Colorado. In addition, we have nonresident licenses in 45 states.

Where state regulations allow, PipelineRx pharmacists work from residence-based, HIPAA-compliant, fully secure, closed-door offices, as permitted by each State Board of Pharmacy. Our pharmacists hold state pharmacy licenses to deliver services to patients located in the states. PipelineRx also provides service from our licensed pharmacies where states require this and follow those licensing requirements.

Our PipelineRx servers are secured in an Enterprise-level collocation facility in Santa Rosa, California with a disaster recovery hot-site in Chicago, Illinois. All equipment is owned by PipelineRx. Our servers run in a virtualized environment to ensure reliability and robustness. Our pharmacists are equipped with Pipeline-owned laptops, monitors and VOIP phones. All calls are routed through our virtual PBX to our distributed network of highly skilled professionals working in HIPPAA-compliant secure locations. All communication with PipelineRx, including the receipt of CPOE, faxed or scanned orders are done over secure and encrypted communications channels.

Our pharmacists work in a paperless environment; at no point are the medication orders or any other documents printed, nor does any PHI reside on the Pipeline pharmacists staff computers. All our activities are done in accordance with all Federal, State, and local laws including, but not limited to HIPAA and ARRA/HITECH.

Specifically, upon receiving an order or prescription, the remote pharmacist reviews the order against the patient's clinical data to check for appropriateness, including dosage levels and possible drug-drug interactions, remotely enters the order into the facility's pharmacy information system (i.e. Meditech, HBOC, Cerner, CPIS), and authorizes the administration or dispensing of the ordered medication to the patient. In addition, the remote pharmacist is available (if needed by the hospital), by phone or audio-visual connectivity, to consult directly with on-site staff (nursing or medical). Also include standard and customizable reports providing the hospitals with detailed information and statistics regarding all services provided.

All pharmacist providing service to our clients are in compliance with all Boards of Pharmacy rules and regulations. PipelineRx understands and complies with all the Board of Pharmacy Rules and Regulations.

Please let me know if you need any additional information.

STATE OF COLORADO

Case No. 2016-1152

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF DISCIPLINARY PROCEEDINGS REGARDING THE NON-RESIDENT PRESCRIPTION DRUG OUTLET REGISTRATION IN THE STATE OF COLORADO OF PIPELINE RX, REGISTRATION NO. OSP 6500,

Respondent Pharmacy.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and Pipeline Rx ("Respondent Pharmacy") to resolve all matters pertaining to Board Case Number 2016-1152, as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Respondent Pharmacy, its registration as a non-resident prescription drug outlet, and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the Pharmacists, Pharmacy Businesses, and Pharmaceuticals Act at Title 12, Article 42.5, C.R.S. (2016).

2. Respondent Pharmacy was originally registered in the State of Colorado on or about October 3, 2014, being issued registration number OSP 6500, and has been so registered at all times relevant to this disciplinary action.

3. Respondent Pharmacy's address of record with the Board and current location is 5600 North River Road, #854, Rosemont, Illinois 60018-6705.

4. Respondent Pharmacy admits these findings and hereby waives any further proof in this proceeding before the Board regarding the following facts.

5. Respondent Pharmacy failed to timely submit to the Board an application detailing a change in pharmacist manager and fee. In this case, 73 days transpired between October 1, 2015, the date the previous pharmacist manager ceased the position, and December 14, 2015, the date the application and fee were received.

6. On or about March 3, 2016, the Board initiated a complaint against Respondent Pharmacy because of the delay of 73 days in submitting an application detailing a change in pharmacist manager and fee.

7. Respondent Pharmacy's conduct, as set forth above, constitutes violations of the following sections of the Colorado Revised Statutes and Board Regulations:

Colorado Revised Statutes

12-42.5-116. Prescription drug outlet under charge of pharmacist.

(1) (a) A prescription drug outlet must be under the direct charge of a pharmacist manager. A proprietor who is not a pharmacist shall comply with this requirement and shall provide a manager who is a pharmacist.

(b) The registration of any prescription drug outlet becomes void if the pharmacist manager in whose name the prescription drug outlet registration was issued ceases to be engaged as the manager. The owner shall close the prescription drug outlet unless the owner: (I) Employs a new pharmacist manager; and (II) Within thirty days after termination of the former manager's employment: (A) Applies to transfer the registration to the new pharmacist manager; and (B) Pays the registration transfer fee.

12-42.5-123. Unprofessional conduct – grounds for discipline.

(1) The board may suspend, revoke, refuse to renew, or otherwise discipline any license or registration issued by it, after a hearing held in accordance with the provisions of this section, upon proof that the licensee or registrant:

(c) Has violated:

(I) Any of the provisions of this Article, including commission of an act declared unlawful in section 12-42.5-126;

(II) The lawful rules of the board; or

(III) Any state or federal law pertaining to drugs;

(k) Has failed to meet generally accepted standards of pharmacy practice.

Pharmacy Board Rules and Regulations

5.00.70. Change in Pharmacist Manager.

a. An in-state and non-resident prescription drug outlet shall be under the direct charge of a pharmacist manager. A proprietor who is not a pharmacist shall comply with this requirement and shall provide a manager who is a pharmacist.

b. The registration of any in-state and non-resident prescription drug outlet shall become void if the pharmacist manager in whose name the

registration was issued ceases to be engaged as the manager, and the owner shall close the outlet unless such owner has employed a pharmacist manager and, within fourteen days after termination of the former manager's employment, has made application to transfer the registration to the new pharmacist manager and has paid the transfer fee therefor.

TERMS OF DISCIPLINE

8. **Fine with Surcharge.** Pursuant to §12-42.5-124(5)(a)(I), C.R.S., Respondent Pharmacy shall pay a fine of One Thousand Dollars and No Cents ($1,000.00). Respondent Pharmacy understands and acknowledges that, pursuant to §24-34-108, C.R.S., the Executive Director of the Department of Regulatory Agencies shall impose an additional surcharge of 15% of this fine. Respondent Pharmacy shall therefore pay a total amount of One Thousand One Hundred Fifty Dollars and No Cents ($1,150.00). The total amount shall be payable to the State of Colorado and shall be remitted in one lump sum to be included when Respondent Pharmacy submits this signed Final Agency Order to the Board. Respondent Pharmacy shall write its registration number (OSP 6500) and the case number (2016-1152) on the check.

9. **Compliance.** Respondent Pharmacy shall submit all future applications and appropriate fees to the Board detailing changes in pharmacist manager within the required time frame specified by Board rule or statute in effect at the time of such pharmacist manager change.

10. **Other Requirements.** Respondent Pharmacy acknowledges and agrees that, as a condition of this Final Agency Order, Respondent Pharmacy shall:

    a. promptly pay all Respondent Pharmacy's own fees and costs associated with this Final Agency Order;

    b. comply fully with this Final Agency Order; and

    c. comply fully with the Pharmacists, Pharmacy Businesses and Pharmaceuticals Act, all Board rules and regulations, and any other state and federal laws and regulations related to pharmacists and pharmaceuticals in the State of Colorado.

11. **Advisements and Waivers.** Through its undersigned Authorized Representative, Respondent Pharmacy enters into this Final Agency Order freely and voluntarily, after having the opportunity to consult with legal counsel and/or choosing not to do so. Respondent Pharmacy acknowledges its understanding that it has the following rights:

    a. to have formal notice of hearing and charges served upon it;

b. to respond to said formal notice of charges;

c. to have a formal disciplinary hearing pursuant to §§12-42.5-123 and 12-42.5-124, C.R.S.; and

d. to appeal this Final Agency Order.

Respondent Pharmacy freely waives these rights, and acknowledges that such waiver is made voluntarily in consideration for the Board's limiting the action taken against Respondent Pharmacy to the sanctions imposed herein.

12. **Acknowledgments**. The undersigned Authorized Representative of Respondent Pharmacy has read this Final Agency Order in its entirety and acknowledges, after having the opportunity to consult with legal counsel and/or choosing not to do so, that Respondent Pharmacy understands the legal consequences and agrees that none of the terms or conditions herein is unconscionable. Respondent Pharmacy is not relying on any statements, promises or representations from the Board other than as may be contained in this Final Agency Order. Respondent Pharmacy further acknowledges that it is not entering into this Final Agency Order under any duress.

13. **Violations**. Time is of the essence in this Final Agency Order. It is the responsibility of Respondent Pharmacy to take all appropriate steps to comply fully with this Final Agency Order. Respondent Pharmacy acknowledges and agrees that any violation of this Final Agency Order shall constitute a willful violation of a lawful Board order, may be sanctioned as provided under §12-42.5-124(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of Respondent Pharmacy's registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Respondent Pharmacy to comply with all terms and conditions of this Final Agency Order.

14. **Completion of Terms.** Upon satisfactory completion of all terms and conditions set forth in this Final Agency Order, the Board shall release Respondent Pharmacy from the Final Agency Order, and Respondent Pharmacy's registration will be restored to active and unencumbered status.

15. **Integration and Severability.** Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.

16. **Public Record**. Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.

17. **Board Order.** This Final Agency Order shall become an order of the Board when it is accepted and signed by the Program Director or authorized Board representative.

18. **Effective Date**. This Final Agency Order shall become effective upon (a) mailing by first-class mail to Respondent Pharmacy at Respondent Pharmacy's address of record with the Board, or (b) service by electronic means on Respondent Pharmacy at Respondent Pharmacy's electronic address of record with the Board. Respondent Pharmacy hereby consents to service by electronic means if Respondent Pharmacy has an electronic address on file with the Board.

ACCEPTED AND AGREED BY

NARRATIVE

This is a Remote Prescription/Medication Order Processing Pharmacy Inspection by DCIs Aarti Parikh and Charlie Bocian on 11/6/2020. Present for the Inspection is PIC Kevin Jones. PipelineRx employs approximately 140 pharmacists that enter and review medication orders from hospitals remotely from their home office. This pharmacy currently has non-resident licensing in 20 states. The pharmacy currently services a total of 190 hospitals.

- Last Inspected 7/16/19
- R/I has been provided with the following lists:
  - List of Illinois Pharmacists and their license numbers.
  - List of Pharmacists and their license numbers for the states they are licensed in.
  - List of Pipeline Rx State Licenses.
  - List of facilities (hospitals) PipelineRx is currently servicing and their service hours.
- PipelineRx's pharmacists that service and work from Illinois need Illinois pharmacist licensure. Further, if their pharmacists are not working Illinois clients (hospitals) they do not need an Illinois License as long as they are working outside of Illinois. (See 1/12/16 inspection – clarification received by general counsel).
- When servicing hospitals in states where PipelineRx has non-resident licensure, they must in addition comply with those State's Rules and Regulations.
- Each hospital they service is provided with a specific phone number for them to call to reach the pharmacists. PipelineRx has a separate phone number they provide for each hospital they service.
- PipelineRx does not have specific hours of operation for the pharmacy (Suite 854) since their pharmacists work from their home office. They service hospitals up to 24 hours per day.
- R/I viewed demo of full process for pharmacist verifying medication orders remotely. Pharmacist's need to access PipelineRx's software (Power Grid Rx) and the hospital's server. Pharmacists login to both softwares/servers. Only pharmacists have access to patient's information and profile. PipelineRx's software allows access to certain information based on the individual's position (For example: Human Resources would not be able to access HIPAA/patient's information.) The hospital will provide access code to the pharmacist serving their hospital to access their system. Pharmacist has access to patient's profile/chart/labs. Once the pharmacist's reviews the prescription, then the nurse for example can obtain access to medication through Pyxis/Omnicell.

NARRATIVE

- All Medication Orders are received electronically (Image or CPOE)
- All Records are kept indefinitely. Records are backed up continuously via cloud-technology through Amazon Web Services (AWS).
- To ensure that pharmacists are working in a HIPAA compliant home office, they need to have a designated space that closes with phone/internet access. PipelineRx will minimally audit the pharmacist annually through their computer's webcam to make sure the pharmacist is working in a HIPAA compliant space.
- If their computer system/server is down, PipelineRx has downtime procedures to ensure that hospitals can continue to send their orders in an alternative manner.
- PipelineRx's system monitors which pharmacists reviewed which order.
- References: Lexi-Comp Online, Pediatric Injectable Drugs Online (Teddy Bear Book), AHFS Online, Pharmacist's (Hospital) letter, Global RPh, and facility-specific references.
- Non-Resident License/Permits are posted. All pharmacist's licenses are kept ~~within an organized binder~~ in an electronic format of scanned images. Licenses are verified on an ~~annual~~ monthly basis to ensure they are current and upon hiring.
- Security: There is a security guard 24/7 at the front entrance. Suite 800 has a receptionist during business hours. During non-business hours, access is limited by key card access. Key access to enter Suite 854. Keys only with PipelineRx employees.
- Self-Inspection report last completed on 1/29/2020.

STATE OF COLORADO

Case No. 2016-1152

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF DISCIPLINARY PROCEEDINGS REGARDING THE NON-RESIDENT PRESCRIPTION DRUG OUTLET REGISTRATION IN THE STATE OF COLORADO OF PIPELINE RX, REGISTRATION NO. OSP 6500,

Respondent Pharmacy.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and Pipeline Rx ("Respondent Pharmacy") to resolve all matters pertaining to Board Case Number 2016-1152, as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Respondent Pharmacy, its registration as a non-resident prescription drug outlet, and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the Pharmacists, Pharmacy Businesses, and Pharmaceuticals Act at Title 12, Article 42.5, C.R.S. (2016).

2. Respondent Pharmacy was originally registered in the State of Colorado on or about October 3, 2014, being issued registration number OSP 6500, and has been so registered at all times relevant to this disciplinary action.

3. Respondent Pharmacy's address of record with the Board and current location is 5600 North River Road, #854, Rosemont, Illinois 60018-6705.

4. Respondent Pharmacy admits these findings and hereby waives any further proof in this proceeding before the Board regarding the following facts.

5. Respondent Pharmacy failed to timely submit to the Board an application detailing a change in pharmacist manager and fee. In this case, 73 days transpired between October 1, 2015, the date the previous pharmacist manager ceased the position, and December 14, 2015, the date the application and fee were received.

6. On or about March 3, 2016, the Board initiated a complaint against Respondent Pharmacy because of the delay of 73 days in submitting an application detailing a change in pharmacist manager and fee.

7. Respondent Pharmacy's conduct, as set forth above, constitutes violations of the following sections of the Colorado Revised Statutes and Board Regulations:

Colorado Revised Statutes

12-42.5-116. Prescription drug outlet under charge of pharmacist.

(1) (a) A prescription drug outlet must be under the direct charge of a pharmacist manager. A proprietor who is not a pharmacist shall comply with this requirement and shall provide a manager who is a pharmacist.

(b) The registration of any prescription drug outlet becomes void if the pharmacist manager in whose name the prescription drug outlet registration was issued ceases to be engaged as the manager. The owner shall close the prescription drug outlet unless the owner: (I) Employs a new pharmacist manager; and (II) Within thirty days after termination of the former manager's employment: (A) Applies to transfer the registration to the new pharmacist manager; and (B) Pays the registration transfer fee.

12-42.5-123. Unprofessional conduct – grounds for discipline.
