Designated Representative Application

Rev (04/22/2021)

An application for a license, or a licensee with a license, to conduct a pharmacy or to operate as a wholesaler shall designate at least one natural person to serve as the representative of the pharmacy or wholesaler. The Board will not issue or renew a license of an applicant or licensee that is required to designate a representative of a pharmacy or wholesaler unless the Board determines that the designated natural person meets the following qualifications per NAC 639.5005 (Pharmacy) or NAC 639.5935 (Wholesaler):

1. Is at least 21 years of age;
2. Has been employed for at least 6,000 hours in a pharmacy or with a wholesaler in a capacity related to the dispensing and distribution of, and recordkeeping related to, prescription drugs.

The designated representative of a pharmacy or a wholesaler:

1. Must be actively involved in and aware of the actual daily operations of the pharmacy or wholesaler;
2. Must be employed full-time in a managerial level position with the pharmacy or wholesaler;
3. Must be physically present at site of the pharmacy or at the facility of the wholesaler during regular business hours, except when the absence of the representative is authorized, including sick leaves, vacation leaves and other authorized absences; and
4. May serve in this representative capacity for only one pharmacy or wholesaler at a time

A pharmacy or wholesaler that is required to designate a natural person as its representative shall not open or operate the pharmacy or wholesaler unless that representative is actually employed full-time in the operation of the pharmacy or wholesaler and is physically present at the site of the pharmacy or wholesaler during regular working hours, not including sick leave, vacation leave and other authorized absences from work. If the natural person designated as the representative of a pharmacy leaves the employ of the pharmacy or wholesaler, thus leaving the pharmacy or wholesaler without a representative in violation of this section, the pharmacy or wholesaler shall:

1. Immediately cease conducting business until another qualified natural person is approved by the Board to serve as the representative of the pharmacy or wholesaler; and
2. Not later than 48 hours after that person leaves its employ, notify the Board that the person designated as the representative of the pharmacy or wholesaler has left the employ of the pharmacy or wholesaler.

Before a pharmacy or wholesaler, that is in violation of NAC 639.5005 (Pharmacy) or NAC 639.5935 (Wholesaler) because the natural person designated as the representative of the pharmacy or wholesaler left the employ of the pharmacy or wholesaler, may continue conducting business:

1. The pharmacy or wholesaler must designate, on a form provided by the Board, a new natural person to serve as the representative of the pharmacy; and
2. The Board must approve the natural person so designated.

Explanatory Answer to Section 3, Question 3

On October 13, 2021, the Nevada State Board of Pharmacy approved a Stipulation and Order resolving a formal Accusation which was filed against Trinity Pharmacy, license no. PH03287, which is under the same ownership as Trinity Express Pharmacy, LLC. The allegations involved the failure of Trinity's managing pharmacist to secure handwritten signatures for faxed emergency prescriptions for schedule II-controlled substances for hospice patients for a period in 2020. Pursuant to the terms of the Stipulation, Trinity was placed on probation for one year, issued a public reprimand, assessed fines and costs (both of which have been paid), must pass quarterly inspections for one year and must establish policies and procedures related emergency prescriptions (which has been completed). A copy of the Stipulation is attached.

NEVADA STATE BOARD OF PHARMACY, Petitioner, v. TRINITY PHARMACY, Pharmacy License No. PH03287, MA LOURDES JAUREGUI, RPH, Certificate of Registration No. 17035, Respondents.	CASE NOS. 19-240-PH-S 19-240-RPH-S STIPULATION AND ORDER FOR RESPONDENT TRINITY PHARMACY ONLY

Courtney K. Lee, General Counsel for Petitioner, the Nevada State Board of Pharmacy ("Board"), and Respondent Trinity Pharmacy ("Trinity"), Pharmacy License No. PH03287, by and through counsel, Lyn Beggs, Esq., **HEREBY STIPULATE AND AGREE THAT**

1. The Board has jurisdiction over Respondent Trinity and this matter.

2. On or about August 13, 2021, Board Staff served Respondent Trinity with the Notice of Intended Action and Accusation ("Accusation") on file in this matter together with the Statement to Respondent and Notice of Hearing.

3. On or about September 22, 2021, Respondent Trinity filed its Answer and Notice of Defense through retained counsel, Lyn Beggs, Esq.

4. Respondent is aware of the right to seek the advice of counsel in this matter and obtained the advice of counsel prior to entering this Stipulation.

5. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, its right to reconsideration, its right to appeal, and any and all other rights which may be accorded pursuant to NRS Chapter 233B, Nevada Administrative Procedure Act, NRS Chapter 622A, Administrative Procedure Before Certain Regulatory Bodies, and NRS Chapter 639, Nevada Pharmacy Act.

6. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondent has failed to comply with the provisions of this Stipulation, Respondent hereby freely and voluntarily waive its rights to a hearing, reconsideration, appeal and any and all other rights related to this action that may be accorded by NRS Chapter 233B, Nevada Administrative Procedure Act, NRS Chapter 622A, Administrative Procedure Before Certain Regulatory Bodies, and NRS Chapter 639, Nevada Pharmacy Act.

7. Respondent admits that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for certain of the violations alleged in the Accusation, that:

A. Respondent Jauregui was the managing pharmacist of Trinity Pharmacy during all alleged and relevant timeframes. During an annual Board inspection of Trinity Pharmacy on or about September 4, 2019, a Board inspector discovered unsigned faxed prescriptions for schedule II controlled substances.

B. Upon further Board investigation, it was discovered from June 10, 2020 to September 28, 2020, forty-two (42) controlled substance schedule II ("CII") prescriptions ("Prescriptions") were dispensed and/or delivered to hospice patients without valid practitioners' handwritten signatures ("Practitioners"). Jauregui's failure to obtain handwritten signatures of Practitioners, and/or verifying the accuracy and completeness of CII Prescriptions violated NRS 453.381(8); NAC 453.420; NAC 453.440; NAC 453.450; NAC 639.945(1); 21 CFR § 1306.11, which also constituted unprofessional conduct.

C. The 42 CII Prescriptions appeared to have been received and notated by Respondent Jauregui as oral orders. However, none of the Prescriptions stated "Authorization for Emergency Dispensing" nor did any of the prescriptions meet legal

requirements to qualify as dispensing CIIs by oral authorization in an emergency. Jauregui's failure to notate the prescriptions, satisfy the requirements of an oral emergency prescription, including verifying that the telephoned prescription was from the prescribing practitioner, violated NAC 453.420, and NAC 453.440.

D. As the owner/operator of a pharmacy, Trinity is responsible for the violations of its employees, including its managing pharmacist, pursuant to NAC 639.702, and/or NAC 639.945(2).

8. These violations are plead with particularity in the Accusation, and are grounds for disciplinary action pursuant to NRS 639.210(11), (12), and/or NRS 639.255.

9. In order to resolve this matter without incurring any further costs or the expense associated with a hearing, the Board and Respondent Trinity stipulate to the following. Trinity is placed on probation for a period of one (1) year subject to the following conditions and penalties:

A. Respondent shall accept this Stipulation and Order as a public reprimand regarding its duties and responsibilities as a licensed pharmacy;

B. Respondent shall pay a fine of Eight-Thousand Four-Hundred Dollars ($8,400.00) for the violations;

Defendants, without admitting or denying the allegations of the Complaint and disclaiming any liability in connection herewith, having appeared and having consented to entry of this Consent Decree of Permanent Injunction ("Decree") without contest and before any testimony has been taken, and the United States of America having consented to this Decree:

SPECIFIED FACILITIES

5. Except as provided in paragraphs 6 and 11, Defendants and each and all of their directors, officers, agents, representatives, employees, successors, assigns, and attorneys, and any and all persons in active concert or participation with any of them, who have received actual notice of this Decree by personal service or otherwise (collectively "Associated Person(s)"), are permanently enjoined under 21 U.S.C. § 332(a) from manufacturing, processing, packing, labeling, and distributing any device, including components parts, accessories, and in-process and finished devices, (hereinafter collectively referred to as "devices") at or from the Specified Facilities unless and until, for each Specified Facility:

A. Defendants' facilities, methods, processes, and controls used to manufacture, process, pack, label, hold, and distribute devices at or from the Specified Facility are established, operated, and administered in conformity with 21 U.S.C. §§ 351(h) and 352(t)(2) (hereinafter collectively referred to as "the Act"), and the QS, CR, and MDR regulations. Specifically, Defendants shall take the following actions, among others:

i. Establish and maintain procedures to control Defendants' devices' designs in order to ensure that specified design requirements are met;

ii. Ensure that all devices meet the requirements for design development and planning, design input, design output, design review, design verification, design validation, design change, design transfer, and design history file;

iii. Conduct design evaluations of all marketed devices to ensure that current designs have been properly validated and transferred into appropriate product specifications;

iv. Validate processes whose results cannot be fully verified by subsequent inspection and testing;

v. Develop, conduct, control, and monitor production processes to ensure that devices conform to their specifications;

vi. Establish and implement adequate written procedures to control devices that do not conform to specified requirements;

vii. Establish and maintain adequate written procedures for corrective and preventive actions ("CAPAs") and for documenting those activities;

viii. Maintain accurate and complete complaint files and establish and implement adequate written procedures for receiving, reviewing, and evaluating complaints; and

ix. Develop and implement adequate written MDR procedures in compliance with 21 C.F.R. Part 803, including, but not limited to, adequate procedures for management review, and ensure that employees are trained on, understand, and properly implement the MDR requirements and procedures;

B. Defendants retain, at Corporate Defendants' expense, an independent person(s) (the "expert") to inspect the Specified Facilities and review their manufacturing procedures and records to determine whether the methods, facilities, and controls are operated

and currently administered in conformity with this Decree, the Act, and the QS, CR, and MDR regulations. The expert shall be qualified by education, training, and experience to conduct such inspections, and shall be without personal or financial ties (other than the retention agreement) to Defendants or their families. Defendants shall notify FDA in writing of the identity of the expert and the expert's qualifications within fifteen (15) days after retaining such expert. The expert shall:

i. Perform a comprehensive inspection of the methods, processes, and controls used to manufacture devices at each Specified Facility and determine whether each is in compliance with this Decree, the Act, and the QS, CR, and MDR regulations; in conducting this inspection, the expert shall review all deviations at each Specified Facility brought to Defendants' attention in writing by FDA since October 2009 (including, but not limited to, all Forms FDA-483 issued to Defendants since October 2009), by the expert, or by any other source. The expert is permitted to conduct separate inspections for designated categories of the Specified Facilities' devices so long as each inspection includes an evaluation of all of the methods and controls necessary for compliance with the QS regulation for that designated category of devices. If the expert decides to conduct separate inspections for designated categories of the Specified Facilities' devices, Defendants shall submit to FDA a written statement delineating the designated categories of devices. For purposes of complying with this paragraph, Defendants may not include more than a total of five (5) designated categories of devices;

ii. Within thirty (30) days after completing any inspection under paragraph 5.B.i, the expert shall submit simultaneously to FDA and Defendants a complete written report of the inspection, which shall include, but not necessarily be limited to:

a. Identifying in detail which methods, processes, controls, and FDA observations the expert reviewed and the expert's evaluation as to whether each such method, process, and control is now operated in compliance with this Decree, the Act, and the QS, CR, and MDR regulations, and, if applicable, listing any observed deviations from compliance with this Decree, the Act, and the QS, CR, and MDR regulations;

b. Identifying whether each observation listed on a Form FDA-483 issued at the Specified Facility since October 2009 has been corrected.

iii. Notwithstanding the foregoing, if, at any time before the completion of the expert's inspection(s), Defendants notify FDA in writing that all manufacturing operations have ceased at a Specified Facility or that all manufacturing operations with respect to one or more designated categories of the Specified Facilities' devices have ceased at a Specified Facility, any requirement that the expert inspect the methods, facilities, processes, equipment, and controls used to manufacture all or any such designated categories of devices at such Specified Facility shall cease. If, at any time before the completion of the expert's inspection(s), Defendants notify FDA in writing that manufacturing operations for any designated category of devices have been transferred from one Specified Facility to another Specified Facility, the expert must thereafter inspect the methods, facilities, processes, equipment, and controls used to manufacture any such designated category of devices at the transferee Specified Facility; and

C. Within thirty (30) days after receiving the expert's inspection report(s) under paragraph 5.B.ii , Defendants shall submit a written report ("work plan") to FDA detailing the specific actions Defendants have taken and/or will take at the Specified Facility to address the expert's observations and bring the Specified Facility's methods, facilities, processes, and

controls used to manufacture, process, pack, hold, and distribute devices into compliance with the requirements of this Decree, the Act, and the QS, CR, and MDR regulations. The specific actions in the work plan shall be set forth in numbered steps and, where appropriate, the numbered steps may include subordinate lettered steps. The work plan shall include a timetable to be approved by FDA, and FDA will approve or disapprove in writing the proposed work plan within thirty (30) days after receiving the proposed work plan. If the expert conducts separate inspections for designated categories of the Specified Facilities' devices, the Defendants are permitted to submit one addendum per designated category of devices, so long as the work plan and each addendum together detail the specific actions Defendants have taken and/or will take at a Specified Facility to address the expert's observations and bring the methods, facilities, processes, and controls used to manufacture, process, pack, hold, and distribute a designated category of devices into compliance with this Decree, the Act, and the QS, CR, and MDR regulations. In the event that Defendants notify FDA in writing that all manufacturing operations for a designated category of devices have ceased at a Specified Facility, any requirement in the work plan related to such Specified Facility shall cease with regard to such devices. In the event that Defendants notify FDA in writing that manufacturing operations for any designated category of devices have been transferred from one Specified Facility to another Specified Facility, any requirement in the work plan related to the transferor Specified Facility will be deemed to apply to the transferee Specified Facility; and

D. As the actions detailed in the work plan are completed at each Specified Facility, Defendants shall notify the expert in writing, who shall promptly inspect and verify whether those actions have been completed in a manner that complies with the requirements of this Decree, the Act, and the QS, CR, and MDR regulations to the expert's satisfaction and in

accordance with the work plan timetable approved by FDA. The expert is permitted to conduct separate inspections for designated categories of the Specified Facilities' devices so long as each inspection includes an evaluation of all of the methods and controls necessary for compliance with the QS regulation for the designated category of devices. If the expert determines that an action has not been completed to his or her satisfaction, the expert shall promptly notify Defendants and FDA in writing. Beginning thirty (30) days after approval of the work plan by FDA, and quarterly thereafter until submission of a certification set forth in paragraph 5.E, the expert shall submit to FDA a table that summarizes the expert's findings regarding whether the actions have been completed to the expert's satisfaction and in accordance with the numbered steps in the work plan timetable. FDA may, in its discretion and without prior notice, periodically inspect any and all Specified Facilities and undertake such additional examinations, reviews, and analyses as FDA deems appropriate to verify whether the actions reported to have been completed have, in fact, been completed adequately and on time. In the event that FDA determines that an action that has been reported to be completed is inadequate, FDA will notify Defendants in writing, and Defendants shall take appropriate action in accordance with a timetable that is subject to approval by FDA;

E. When the expert determines that all of the actions identified in the work plan approved by FDA have been completed to his or her satisfaction, the expert shall provide Defendants and FDA with a written certification that all of the actions have been completed and that, based on the inspection(s) conducted under paragraph 5 and on the satisfactory completion of the actions in the work plan identified under paragraph 5.C, Defendants' methods, facilities, processes, and controls used to manufacture, process, pack, hold, and distribute devices are in conformity with the requirements of this Decree, the Act, and the QS, CR, and MDR regulations.

The expert's certification shall include a detailed report of the results of the expert's inspection(s). The expert may provide FDA with a separate certification under this paragraph for each Specified Facility. If the expert conducts separate inspections for designated categories of the Specified Facilities' devices, the expert is permitted to submit a separate certification and certification report for each designated category of devices so long as each certification and accompanying report contains all of the information required by this provision for the designated category of devices. In the event the Defendants have notified FDA in writing that all manufacturing operations with regard to a designated category of devices have ceased at a Specified Facility, the expert need not certify as to the completion of work plan actions or as to compliance with this Decree, the Act, and the QS, CR, and MDR regulations that relate to such devices at the Specified Facility. In the event the Defendants have notified FDA in writing that manufacturing operations for any designated category of devices have been transferred from one Specified Facility to another Specified Facility, the expert must certify as to the completion of work plan actions or as to the compliance with this Decree, the Act, and the QS, CR, and MDR regulations that relate to such devices at the transferee Specified Facility;

F. In addition to paragraph 17 and FDA's authority to conduct inspections under 21 U.S.C. § 374, within sixty (60) days after FDA receives a certification described in paragraph 5.E, FDA, as it deems necessary, may inspect any or all of the applicable Specified Facilities to evaluate Defendants' compliance with this Decree, the Act, and its implementing regulations;

G. Corporate Defendants pay all costs of inspections, supervision, and review for FDA oversight with respect to paragraph 5; and

H. FDA notifies Defendants in writing that Defendants appear to be in compliance with the requirements set forth in paragraphs 5.A-G. If FDA conducts an inspection or reinspection pursuant to paragraph 5.F, and finds that the manufacturing, processing, packing, holding, and distribution of devices at and/or from a Specified Facility appear to be in conformity with this Decree, the Act, and the QS, CR, and MDR regulations, this notice will be issued within sixty (60) days after completion of the inspection. If FDA does not conduct an inspection or re-inspection pursuant to paragraph 5.F, this notice will be issued within sixty (60) days after receipt of the expert's certification under paragraph 5.E. If the expert has provided a certification and certification report limited to designated categories of the Specified Facilities' devices or a particular Specified Facility pursuant to paragraph 5.E, then FDA may issue the notification under this paragraph to authorize resumption of manufacturing processing, packing, holding, labeling and/or distribution limited to designated categories of devices or to one or more of the Specified Facilities.

6. A. Notwithstanding paragraph 5, Defendants and all Associated Persons may continue manufacturing, processing, holding, packing, labeling and distributing at or from the Specified Facilities:

i. Medically necessary devices, as defined in paragraph 4.D to customers who have received the Notification Guide described in paragraph 4.F and have submitted a signed CMN to Corporate Defendants, provided that Defendants maintain a record of all sales and distribution of medically necessary devices, including shipping documents and the following information regarding the devices distributed: the name, model number, and lot numbers for the medically necessary devices, the names of the consignees to whom they are shipped, and the

number of devices shipped. Defendants shall make the records described in this paragraph available to FDA immediately upon request. Within ninety (90) days after entry of this Decree, and quarterly thereafter, Defendants shall submit to FDA a summary of the medically necessary devices distributed, which shall include: the names of the medically necessary devices shipped, the names of the consignees to whom they were shipped, and the total number of devices shipped.

ii. Devices for use in product demonstrations, workshops, and laboratories, provided that the subject devices are labeled "For In-Office/In-Facility Demonstration Use Only - Not for Sale";

iii. Devices solely for the purpose of conducting clinical trials in accordance with 21 C.F.R. Part 812, provided that Defendants comply with all applicable laws and regulations relating to the manufacture and distribution of investigational devices;

iv. Devices, including warranty replacements, that both FDA and Defendants agree in writing are necessary to distribute and sell to fulfill contracts and agreements with foreign governments;

v. Devices to testing laboratories solely for the purpose of developing, testing, verifying, or validating design changes or modifications in accordance with 21 C.F.R. Part 820 or comparable international standards; and

vi. Devices that are necessary for the sole purpose of preparing or supporting a premarket approval application (PMA), premarket notification (510k), or supplement thereto, but such products may not be distributed without prior written authorization from FDA.

B. Corporate Defendants shall pay the United States Treasury the amount of six million dollars ($6,000,000.00) in equitable disgorgement, to be paid within twenty-eight (28)

days after entry of this Decree (hereinafter "initial payment"). Six (6) months after the date of the initial payment, Corporate Defendants shall pay the United States Treasury an additional amount of six million dollars ($6,000,000.00) in equitable disgorgement, unless by that date Defendants have received FDA authorization to resume, with regard to all medically necessary devices, all operations at the Specified Facilities as set forth in paragraph 5.H and/or Defendants have transferred all manufacturing, processing, packing, holding, and distribution of all medically necessary devices at and/or from the Specified Facilities to another manufacturing site owned or controlled by Corporate Defendants (hereinafter "new site(s)").

7. Within thirty (30) days after receiving the written notification in paragraph 5.H for a Specified Facility, Defendants shall select and retain at Corporate Defendants' expense an independent person(s) (the "specified facility auditor") to conduct audit inspections of the Specified Facility not less than once every six (6) months for a period of one (1) year, after which the specified facility auditor shall conduct audit inspections annually for an additional period of four (4) years. The specified facility auditor shall be qualified by education, training, and experience to conduct such inspections, and shall be without personal or financial ties (other than the retention agreement) to Defendants or their families, except that the specified facility auditor may be the same person(s) as the expert described in paragraph 5.B and/or the additional facility auditor described in paragraph 9.

A. At the conclusion of each audit inspection at each such facility, the specified facility auditor shall prepare a written audit report ("audit report") analyzing whether Defendants are in compliance with this Decree, the Act, and the QS, CR, and MDR regulations, and identifying all deviations from this Decree, the Act, and the QS, CR, and MDR regulations ("audit report observations"). As part of every audit report, except the first audit report, the

specified facility auditor shall assess the adequacy of corrective actions taken by Defendants to correct all previous audit report observations. The audit report shall be delivered contemporaneously to Defendants and FDA no later than thirty (30) days after the date an audit inspection is completed.

B. If an audit report contains any audit report observations, Defendants shall, within thirty (30) days after receipt of the audit report, correct those observations, unless FDA notifies Defendants that a shorter time period is necessary. If, after receiving an audit report, Defendants believe that correction of any audit report observations will take longer than thirty (30) days, Defendants shall, within ten (10) business days after receipt of the audit report, propose a schedule for completing corrections ("correction schedule"). The correction schedule shall be reviewed and approved by FDA in writing prior to implementation. Defendants shall complete all corrections according to the approved correction schedule. Within thirty (30) days after being notified that Defendants have taken actions to correct audit report observations, the auditor shall review the actions taken by Defendants to correct the audit report observations. Within fifteen (15) business days after completion of such a review, the specified facility auditor shall report in writing to FDA and to the Defendants whether each of the audit report observations has been corrected.

8. Not less than three months before Defendants transfer any manufacturing operations from any of the Specified Facilities to any new site that Defendants own or control, Defendants shall submit to FDA a written transfer plan. However, in the event Defendants notified FDA before the date of entry of this Decree of a planned transfer of manufacturing operations from any Specified Facility(ies) to any new site(s), Defendants shall submit to FDA a written transfer plan within thirty (30) business days from the date of entry of this Decree. Any

such new site, if not already an Additional Facility, as described in paragraph 4.B, shall thereafter be fully subject to the provisions of this Decree without further action by the parties or this Court, as though it were listed as an Additional Facility in paragraph 4.B, but only to the extent that manufacturing operations have been transferred from a Specified Facility to that new site.

ADDITIONAL FACILITIES

9. Within ninety (90) days after entry of this Decree, Defendants shall select and retain at Corporate Defendants' expense an independent person(s) (the "additional facilities auditor") to conduct audit inspections of each of the Additional Facilities not less than once every twelve (12) months for a period of four (4) years from the date of entry of this Decree, for a total of not less than four audit inspections. The auditor shall be qualified by education, training, and experience to conduct such inspections, and shall be without personal or financial ties (other than the retention agreement) to Defendants or their families, except that the auditor may be the same person(s) as the expert described in paragraph 5.B and/or the specified facilities auditor described in paragraph 7. The requirements in paragraphs 7.A and B shall apply to all audit inspections conducted under this paragraph.

ADDITIONAL INJUNCTION PROVISION

10. Upon entry of this Decree and except as provided for in paragraphs 6 and 11, Defendants and each and all Associated Persons shall, with regard to any device manufactured at any of the Specified or Additional Facilities, be permanently enjoined from directly or indirectly doing or causing to be done any act that:

A. Violates 21 U.S.C. § 331(a) by doing or causing the introduction, and delivery for introduction, into interstate commerce of any device, as defined by 21 U.S.C.

§ 321(h), that is adulterated within the meaning of 21 U.S.C. § 351(h), or misbranded within the meaning of 21 U.S.C. § 352(t)(2);

B. Violates 21 U.S.C. § 331(k) by doing or causing any act that results in the adulteration, within the meaning of 21 U.S.C. § 351(h), or misbranding, within the meaning of 21 U.S.C. § 352(t)(2), of any device, as defined by 21 U.S.C. § 321(h), while such device is held for sale after the shipment of one or more of its components in interstate commerce; and/or

C. Violates 21 U.S.C. § 331(e) by doing or causing the failure to maintain and/or submit reports respecting devices, as defined by 21 U.S.C. § 321(h), as required by 21 U.S.C. § 360i.

EXCLUSIONS

11. The prohibitions set forth in paragraphs 5 and 10 or in any order issued under paragraphs 13 or 14 shall not apply to any device manufactured, processed, packaged, labeled, held for sale, or introduced into interstate commerce solely for export from the United States, provided that the applicable requirements of 21 U.S.C. §§ 381(e) and/or 382 have been satisfied with respect to such device. Independent of their right to export other devices, Defendants may export any medically necessary device to support their International Distributors, provided that:

(A) Defendants ask their International Distributors to ask their International End-Users to execute a signed CMN;

(B) Defendants exercise their best efforts to ask their International Distributors to confirm that the person signing the CMN form has read the form and is who s/he purports to be;

(C) Defendants document these efforts and provide to FDA, on a quarterly basis for two years, a summary of these efforts; and

(D) Defendants maintain records evidencing compliance with this subparagraph for two years.

ADDITIONAL PROVISIONS

12. Defendants shall establish and document management control over quality policy, as defined in 21 C.F.R. § 820.3(u), at the Specified and Additional Facilities for all devices intended for introduction into interstate commerce, to ensure continuous compliance with this Decree, the Act, and the QS, CR, and MDR regulations. Corporate Defendants shall vest responsibility for all quality system functions, as defined in 21 C.F.R. § 820.3(v), in the Specified and Additional Facilities, in an individual who shall be authorized and responsible for all quality system functions at the Specified and Additional Facilities, including establishing, implementing, and maintaining a comprehensive written quality program, to ensure Defendants' continuous compliance with this Decree, the Act, and the QS, CR, and MDR regulations. Within ninety (90) days after entry of this Decree, Defendants shall provide to FDA an affidavit of compliance stating the fact and manner of compliance with this paragraph.

13. If, at any time after this Decree has been entered, FDA determines, on the basis of the results of an inspection, the analyses of samples, a report or data prepared or submitted by Defendants or an expert or auditor under this Decree, or any other information, that Defendants have failed to comply with any provision of this Decree, or have violated the Act, the QS, CR, or MDR regulations at any of the Specified or Additional Facilities, or that additional corrective actions are necessary to achieve compliance with this Decree, the Act, and the QS, CR, and MDR regulations at any of the Specified or Additional Facilities, FDA may, as and when it deems necessary, order Defendants in writing, specifying the noncompliance(s) giving rise to the order, to take appropriate action, including, but not limited to, the following:

Case 1:15-cv-00041-SM Document 2-1 Filed 02/03/15 Page 19 of 30

A. Cease manufacturing, processing, packing, labeling, holding, or distributing any or all devices at any Specified or Additional Facility that was involved in the failure to comply;

B. Recall at Corporate Defendants' expense, adulterated or misbranded devices manufactured, distributed, and/or sold by Defendants from any Specified or Additional Facility, and/or that are under the custody and control of Defendants' U.S. agents, distributors, or customers;

C. Revise, modify, expand, or continue to submit any reports or plans described in this Decree;

D. Submit additional reports or information relating to any Specified or Additional Facility, to FDA as requested;

E. Issue a safety alert, public health advisory, and/or press release;

F. Take any other corrective actions relating to any Specified or Additional Facility as FDA, in its discretion, deems necessary to bring Defendants into compliance with this Decree, the Act, or the QS, CR, or MDR regulations.

These remedies shall be separate and apart from, and in addition to, any other remedy available to the United States under this Decree or the law. The cost of FDA inspections, sampling, testing, travel time, and subsistence expenses to implement these remedies shall be borne by Corporate Defendants at the rates specified in paragraph 18. However, nothing in this paragraph authorizes FDA to take any action with regard to products that are not manufactured, processed, packed, labeled or distributed in the United States.

14. If FDA inspects any facilities owned and/or operated by Corporate Defendants and/or their subsidiaries and/or affiliates, other than the Specified and Additional Facilities, and

finds violations of the Act or the QS, CR, or MDR regulations, FDA may, without further action by the parties or this Court, order that such facility or facilities shall thereafter be fully subject to the provisions of this Decree as though it or they were listed as an Additional Facility or Additional Facilities in paragraph 4.B when the Decree was entered, and FDA, with respect to such facility or facilities, may thereafter, based on subsequent violations, order Defendants to take any or all of the actions described in paragraph 13.

15. Upon receipt of any order issued by FDA pursuant to this Decree, the following procedures shall apply:

A. Unless a different time frame is specified by FDA in its order, Defendants shall, within ten (10) business days after receiving such order, notify FDA in writing that:

i. Defendants are undertaking or have undertaken corrective action, in which event Defendants shall describe the specific action(s) taken or proposed to be taken and the proposed schedule for completing the action(s); or

ii. Defendants do not agree with FDA's order, including a written explanation of the basis for their disagreement; in doing so, Defendants may propose specific alternative actions and specific time frames for achieving FDA's objectives.

B. If Defendants notify FDA that they do not agree with FDA's order, FDA will review Defendants' notification and thereafter, in writing, affirm, modify, or withdraw its order, as FDA deems appropriate. If FDA affirms or modifies its order, it will explain the basis for its decision in writing. The written notice of affirmation or modification shall constitute final agency action.

C. If FDA affirms or modifies its order, Defendants shall, upon receipt of FDA's notice of affirmation or modification, immediately implement the order (as modified, if

applicable), and, if they so choose, bring the matter before this Court on an expedited basis. Defendants shall continue to diligently implement FDA's order, as modified if applicable, unless the Court sets aside, stays, reverses, vacates, or modifies FDA's order. Any review of FDA's order under this paragraph shall be made in accordance with the terms set forth in paragraph 27.

D. The procedures set forth in paragraphs 15A-C shall not apply to any order issued under paragraph 13 if such order states that it is based on FDA's judgment that the matter raises significant public health concerns, and FDA's judgment and basis for such decision are stated in the order. In such case, Defendants shall immediately and fully comply with the terms of that order. If they so choose, Defendants may bring the matter before this Court on an expedited basis. Defendants shall continue to diligently implement FDA's order, unless the Court sets aside, stays, reverses, vacates, or modifies FDA's order. Any review of FDA's order under this paragraph shall be made in accordance with the terms set forth in paragraph 27.

16. Any cessation of operations or other actions described in paragraph 13 shall continue until Defendants receive written notification from FDA that Defendants appear to be in compliance with this Decree, the Act, and the QS, CR, and MDR regulations, and that Defendants may, therefore, resume operations. After receiving Defendants' written request to resume operations, FDA will determine whether it needs to inspect any of Defendants' facilities to determine Defendants' compliance with this Decree, the Act, and the QS, CR, and MDR regulations. If FDA determines that an inspection is necessary, it shall conduct the inspection and determine whether Defendants appear to be in compliance with this Decree, the Act, and the QS, CR, and MDR regulations and, if so, FDA will issue to Defendants a written notification permitting resumption of operations. With regard to U.S. facilities, FDA will decide within forty-five (45) days after receipt of the request whether Defendants appear to be in compliance

and, if so, issue to Defendants a written notification permitting resumption of actions described in paragraph 13. With regard to facilities located outside of the United States, FDA will, as soon as reasonably practicable, act on the request whether Defendants appear to be in compliance and, if so, issue to Defendants a written notification permitting resumption of actions described in paragraph 13.

17. Representatives of FDA shall be permitted, without prior notice and as and when FDA deems necessary, to make inspections of any of the Specified or Additional Facilities, collect samples, and, without prior notice, take any other measures necessary to monitor and ensure continuing compliance with the terms of this Decree, the Act, and the QS, CR, and MDR regulations. During such inspections, FDA representatives shall be permitted ready access to the Specified and Additional Facilities including, but not limited to, all buildings, equipment, finished and unfinished materials and products, containers and packaging materials, and labeling; to take photographs and make video recordings; to take samples (without charge to FDA) of Defendants' finished and unfinished materials and products, containers and packaging materials, and labeling; and to examine and copy all records relating to the manufacture, processing, packing, labeling, receiving, holding, installing, and distribution of any and all devices in order to ensure continuing compliance with this Decree, the Act, and the QS, CR, and MDR regulations. FDA will provide Defendants with a receipt for any samples taken pursuant to 21 U.S.C. § 374 and with copies of any photographs and video recordings made, upon a written request by Defendants and at Corporate Defendants' expense. The inspections shall be permitted upon presentation of a copy of this Decree and appropriate credentials. The inspection authority granted by this Decree is separate from, and in addition to, the authority to conduct inspections under the Act, 21 U.S.C. § 374.

18. Corporate Defendants shall reimburse FDA for the costs of all FDA inspections, investigations, supervision, analyses, examinations, and reviews that FDA deems necessary to evaluate Defendants' compliance with any part of this Decree at the standard rates prevailing at the time the costs are incurred. As of the date of entry of this Decree, these rates are: $88.45 per hour or fraction thereof per representative for inspection and investigative work; $106.03 per hour or fraction thereof per representative for analytical or review work; $0.56 per mile for travel expenses by automobile; government rate or the equivalent for travel by air or other means; and the published government per diem rate for subsistence expenses where necessary. FDA shall submit a reasonably detailed bill of costs to Corporate Defendants. In the event that the standard rates applicable to FDA supervision of court-ordered compliance are modified, these rates shall be increased or decreased without further order of the Court.

19. Within ten (10) business days after entry of this Decree, Defendants shall post a copy of this Decree in a common area at each of the Specified and Additional Facilities and shall ensure that the Decree remains posted for as long as the Decree remains in effect.

20. Within ten (10) business days after the entry of this Decree, Defendants shall provide a copy of this Decree, by electronic means, personal service, or registered mail, to each and all Associated Persons. Within thirty (30) days after entry of this Decree, Defendants shall provide to FDA an affidavit of compliance stating the fact and manner of compliance with this paragraph and identifying the names, addresses, and positions of all Associated Persons located in the U.S. who have received a copy of this Decree.

21. In addition to the requirements in paragraph 8, Defendants shall notify FDA at least ten (10) business days before any change in ownership or character of their business, such as dissolution, assignment, bankruptcy, or sale resulting in emergence of a successor corporation,

the creation or dissolution of subsidiaries, or any other change in the corporate structure of any Corporate Defendant, or the sale or assignment of any business assets, such as buildings, equipment, or inventory, that, in each case, may affect compliance with this Decree. Defendants shall provide a copy of this Decree to any proposed successor or assignee at least thirty (30) business days prior to making any assignment or transferring any interest in the company as described in this paragraph. Defendants shall furnish FDA with an affidavit of compliance with this paragraph no later than ten (10) business days prior to such assignment or change in ownership.

22. In the event that any of the Defendants becomes associated with any additional Associated Person(s) at any time after entry of this Decree, Defendants shall within ten (10) business days of the commencement of such association provide a copy of this Decree, by electronic mail, personal service, or certified mail (restricted delivery, return receipt requested), to such Associated Person(s). Every six (6) months, if during that time Defendants become associated with any such additional Associated Person(s), Defendants shall provide to FDA an affidavit stating the fact and manner of their compliance with this paragraph, identifying the names, addresses, and positions of all Associated Person(s) who received a copy of this Decree pursuant to this paragraph. Within ten (10) business days after receiving a request from FDA for any information or documentation that FDA deems necessary to evaluate Defendants' compliance with this paragraph, Defendants shall provide such information or documentation to FDA.

23. In the event Defendants replace any third-party expert or auditor required under this Decree, Defendants shall notify FDA in writing of the successor to such third-party expert or auditor and Defendants' reasons for replacing the expert or auditor within ten (10) business days

after such replacement. In satisfying the requirements of this Decree, any third-party expert or auditor may review the previous expert's or auditor's work, and refer to such work to satisfy the requirements of the Decree; however, when such work is referenced by the new expert or auditor, s/he shall identify the specific prior work referenced.

24. Unless otherwise specified, all notifications, certifications, reports, correspondence, and other communications to FDA required by the terms of this Decree shall be addressed to the Director, FDA New England District Office, One Montvale Avenue, Stoneham, MA 02180. All notifications, correspondence, and communications required to be sent to Defendants or Corporate Defendants by the terms of the Decree shall be addressed to the General Counsel's Office, Maquet/Atrium Shared Legal Group, 1300 MacArthur Boulevard, Mahwah, NJ 07430.

25. Should Defendants fail to comply with any provision of this Decree, including any time frame imposed by this Decree, at any Specified or Additional Facility, then Corporate Defendants shall pay to the United States of America: fifteen thousand dollars ($15,000) in liquidated damages for each day such violation continues; an additional sum of fifteen thousand dollars ($15,000) in liquidated damages per day, per violation for each violation of the Act, its implementing regulations, and/or this Decree. In addition, should Defendants distribute from any Specified or Additional Facility after entry of this Decree any device that violates this Decree, the Act, or its implementing regulations, Corporate Defendants shall, in addition to the foregoing, also pay to the United States as liquidated damages a sum equal to two times the retail value of such devices. The amount of liquidated damages imposed under this paragraph shall not exceed ten million dollars ($10,000,000) in any one calendar year. The parties acknowledge that any payments to the government under any provision of this Decree are not a fine, penalty,

forfeiture, or payment in lieu thereof. The remedy in this paragraph shall be in addition to any other remedies available to the United States under this Decree or the law.

26. Should the United States bring and prevail in a contempt action to enforce the terms of this Decree, Corporate Defendants shall, in addition to other remedies, reimburse the United States for its attorneys' fees (including overhead), investigational and analytical expenses, expert witness fees, and court costs relating to such contempt proceedings.

27. Defendants shall abide by the decisions of FDA, and FDA's decisions shall be final. All decisions conferred upon FDA in this Decree shall be vested in FDA's discretion and, if contested, shall be reviewed by this Court under the arbitrary and capricious standard set forth in 5 U.S.C. § 706(2)(A). Review by the Court of any FDA decision rendered pursuant to this Decree shall be based exclusively on the written record before FDA at the time the decision was made. No discovery shall be taken by either party.

28. The parties may at any time petition each other in writing to modify any deadline provided herein; and, if the parties mutually agree in writing to modify a deadline, such modification may be granted without seeking leave of Court.

29. If any deadline in this Decree falls on a weekend or federal holiday, the deadline shall be continued to the next business day.

30. If, and for as long as, an individual Defendant ceases to be employed by or to act on behalf of Corporate Defendants or any of their subsidiaries, franchises, affiliates and/or "doing business as" entities (the "Corporate Defendant Entities"), then, without further order of the Court, that individual Defendant shall not be subject to the terms of this Decree but shall continue to be liable for such individual Defendant's act(s) or failure(s) to act under this Decree prior to the time such individual ceased to be employed by or to act on behalf of all of the

Corporate Defendant Entities. An individual Defendant shall notify FDA within thirty days after said Defendant ceases to be employed by or to act on behalf of all of the Corporate Defendant Entities. Once an individual Defendant ceases to be employed or otherwise act for all of the Corporate Defendant Entities, Corporate Defendants shall petition the Court to formally remove that individual Defendant's name from the caption of this Decree and the United States will not oppose such a motion, so long as FDA has sufficient evidence or information that the individual Defendant to be removed is no longer directly or indirectly working for or with, or in any way influencing, Corporate Defendant Entities. If Defendant Gail Christie's responsibilities are materially reduced, or the position of Corporate Chief Quality Assurance/Regulatory Affairs and Compliance Officer is eliminated, Corporate Defendants shall petition the Court to substitute for her as an individual Defendant either her successor as Corporate Chief Quality Assurance/Regulatory Affairs and Compliance Officer or the individual vested with responsibility for all quality system functions, as described in paragraph 12 ("Christie Substitute Defendant"). The United States will not oppose such a motion, so long as FDA has sufficient evidence or information that the Christie Substitute Defendant is vested with responsibility for all quality system functions, as described in paragraph 12. If removing an individual Defendant would result in no individual Defendant being subject to this Decree, Corporate Defendants shall designate an individual of similar position and responsibility to be substituted as an individual Defendant ("Substitute Individual Defendant"). Corporate Defendants shall petition the Court to add the Substitute Individual Defendant to the Decree and the United States will not oppose such a motion so long as FDA has sufficient evidence or information regarding the Substitute Individual Defendant's position and responsibilities. The obligations under this Decree of each individual named herein and any Substitute Defendant shall apply only to the extent of his or her

authority, responsibilities, and conduct within Maquet Holding B.V. & Co. KG and/or the Corporate Defendant Entities.

31. This Court retains jurisdiction over this action and the parties thereto for the purpose of enforcing and modifying this Decree and for the purpose of granting such additional relief as may be necessary or appropriate.

IT IS SO ORDERED.

Section 2. Item #3

Disciplinary Action Taken Against the Optime Care Inc Pharmacy

On February 13, 2019 a Consent Order was executed by and between Optime Care Inc ("Optime Care"), a **PHARMACY** located at 4060 Wedgeway Ct, Earth City, MO 63045, and the Michigan Department of Licensing and Regulatory Affairs ("Michigan LARA"). In conjunction with the Consent Order, Optime Care was assessed a fine in the amount of $5,000. This action was NOT taken against the Optime Care Inc wholesale or 3PL business located at 4064 Wedgeway Ct, Earth City, MO 63045.

Optime Care unintentionally dispensed prescription drugs into the State of Michigan prior to obtaining a Michigan Pharmacy License. Once Optime Care became aware that a Michigan Pharmacy License was required to ship medications to residents of Michigan, Michigan LARA was notified by Optime Care and Optime Care was subsequently instructed to submit the requisite application for licensure. The application was submitted and a Michigan Pharmacy License was issued to Optime Care on May 17, 2018.

Inasmuch as Optime Care violated the Michigan Public Health Code, MDL 333.17748(1), the parties agreed to a Consent Order and assessment of a fine in the amount of $5,000. In an email dated December 5, 2018 from Mr. Lorne L. Carignan representing the Michigan LARA, it is noted that there was "no evidence that Optime Care acted intentionally to circumvent the law; that the drugs were defective in any way; or that, except for the licensure issued, the drugs were improperly distributed". In addition, Mr. Carignan recommended to the pharmacy Board to "Obviate the need for a formal complaint and close this case."

Optime Care has complied with the terms and conditions of the Consent Order, the fine was paid, the matter was closed and there has been no further action taken against Optime Care's Michigan Pharmacy License.

Subject: Signed Consent Order Received

We are in receipt of the signed Consent Order.

Michigan LARA-BPL will be recommending acceptance of the Order at the next Pharmacy Board Meeting, and execution of the Consent Order by the Board will obviate the need for the issuance of a formal complaint and will close this case. By signing the Consent Order and paying the fine (which is not yet due), Optime Care will have fulfilled its obligations to the State of Michigan in this matter.

As stated in the Order, Optime Care is properly licensed and Michigan LARA has no evidence that Optime Care acted intentionally to circumvent the law; that the drugs were defective in any way; or that, except for the licensure issue, the drugs were improperly distributed.

Thank you.

File No. 53-18-152029

CONSENT ORDER

The Department of Licensing and Regulatory Affairs received evidence and information that Respondent Pharmacy violated the Public Health Code, MCL 333.1101 *et seq.* Specifically, Respondent Pharmacy distributed drugs in Michigan before obtaining a license to do so, in violation of MCL 333.17748(1).

MCL 333.17768(1) authorizes the Board's disciplinary subcommittee to take disciplinary action against a licensee who violates the Public Health Code. MCL 333.16231(5) authorizes the Department to submit a stipulation and final order to a disciplinary subcommittee for approval if an agreement is reached resolving alleged violations of the Public Health Code before the issuance of a complaint.

Respondent Pharmacy has admitted violating MCL 333.17748(1) and has agreed by the attached Stipulation that the Disciplinary Subcommittee may execute this Consent Order without detailing the facts and evidence substantiating the alleged violation(s) in a formal complaint.

The Disciplinary Subcommittee has reviewed this Order and agrees that the public interest is best served by resolution of this matter without further administrative process.

Therefore, IT IS FOUND that Respondent Pharmacy violated MCL 333.17748(1).

Accordingly, IT IS ORDERED that for the cited violation(s) of the Public Health Code, Respondent Pharmacy is FINED $5,000.00 payable to the state of Michigan within 60 days of the effective date of this Order.

IT IS FURTHER ORDERED that the fine shall be mailed to the Department of Licensing and Regulatory Affairs, Enforcement Division, Sanction Monitoring, P.O. Box 30189, Lansing, MI 48909. The fine shall be paid by check or money order, made payable to the state of Michigan, and the check or money order shall clearly display file number 53-18-152029.

IT IS FURTHER ORDERED that if Respondent Pharmacy fails to comply with the terms and conditions of this Order, Respondent Pharmacy's license shall be automatically SUSPENDED for a minimum of one day. If Respondent Pharmacy complies with this Order within six months of the suspension, the license shall be automatically reinstated. If Respondent Pharmacy's license remains suspended for more than six months, Respondent Pharmacy must apply for reinstatement of the license in accordance with MCL 333.16245 and 333.16247.

IT IS FURTHER ORDERED that this Order shall be effective 30 days from the date signed by the Disciplinary Subcommittee, as set forth below.

MICHIGAN BOARD OF PHARMACY

By: _____
Chairperson, Disciplinary Subcommittee

Dated: 2/13/19

STIPULATION

1. Respondent Pharmacy admits violating MCL 333.17748(1) and acknowledges that the Department could prove the violation(s) with facts and evidence at an administrative hearing. Respondent agrees to resolve this matter by this Stipulation and Order without having the facts and evidence of the violation detailed in a formal complaint.

2. Respondent Pharmacy has had the opportunity to consult with an attorney and agrees to these terms voluntarily without duress of any kind.

3. Respondent Pharmacy understands and intends that by signing this Stipulation Respondent Pharmacy is waiving the right provided by the Public Health Code, the rules promulgated thereunder, and the Administrative Procedures Act, MCL 24.201 *et seq.*, to require the Department to prove the violation(s) of the Public Health Code by presentation of evidence and legal authority, and Respondent Pharmacy is

waiving the right to appear with an attorney and witnesses to present a defense to the allegations.

4. This Order resolves all pending issues in this matter and closes this case. No further action will be taken against Respondent Pharmacy based on the facts alleged herein, provided Respondent Pharmacy complies with all the terms of this Order.

5. This matter is a public record required to be published and made available to the public pursuant to the Michigan Freedom of Information Act, MCL 15.231 *et seq.*, and this action will be reported to the National Practitioner's Data Bank, and any other entity as required by state or federal law.

6. Factors taken into consideration in the formulation of this Order include the following:

> Respondent Pharmacy, based in Missouri, is a nationwide pharmacy licensed in all 50 states and is a wholesale distributor of a single drug, Korlym (mifepristone), used to treat patients with Cushing's syndrome. Due to an accidental oversight, Respondent Pharmacy inadvertently failed to obtain a Michigan license before distributing approximately 200 prescriptions of Korlym in Michigan from August 2017 to April 2018.
>
> Upon discovering the error during a quality assurance audit, Respondent Pharmacy immediately notified the Department and took steps to obtain the appropriate licenses. Respondent Pharmacy is now properly licensed to operate in Michigan. The Department has no evidence that Respondent Pharmacy acted intentionally to circumvent the law, that the drugs were defective in any way, or that, except for the lack of licensure, the drugs were improperly distributed.

7. This Order is approved as to form and substance by Respondent Pharmacy and the Department and may be entered as the final order of the Disciplinary Subcommittee in this matter.

8. This proposal is conditioned upon acceptance by the Disciplinary Subcommittee. Respondent Pharmacy and the Department expressly reserve the right to further proceedings without prejudice should this Order be rejected.

AGREED TO BY:

Hello Robyn,

I apologize for any inconvenience this might have caused.

I did some digging and looks like the pharmacy application was approved on the March Meeting, but the wholesaler was not. I am unsure as to why this was presented like that, but anyhow I will proceed with the Wholesaler application. The only item missing on the wholesaler application is the full list of employees, which you can email to me.

This response is intended to supplement Mark Zilner's positive responses to Section 8, Question 5 and 6. As noted in Section 7 of the Application, Mark Zilner is an owner, officer, and employee of Diamond Drugs, Inc. d/b/a Diamond Pharmacy Services (hereinafter "Diamond"). Diamond is licensed in as a non-resident pharmacy in nearly every state. Its 50-year history, and under Mr. Zilner's tenue, Diamond has not had any violations beyond minor administrative errors. The information contained below outlines the administrative actions taken against.

In December of 2015, Diamond was disciplined by the Oklahoma Board of Pharmacy for an administrative error in our license renewal. Due to changes in Oklahoma Pharmacy Regulations, effective for 2015 license renewals, out of state pharmacy licensees that compounded pharmaceuticals were required to have an Oklahoma-licensed Pharmacist in Charge ("PIC") present at their dispensing location in the Pharmacy's state of domicile, the PIC we were using resided in Oklahoma. The Complaint was filed in December of 2015, and was resolved in January of 2016. Per the Consent Order agreed to by the parties, Diamond immediately paid a fine, designated an Indiana, PA based Pharmacist as the Pharmacist in Charge, and agreed to be placed on probation in Oklahoma until December of 2020. Diamond was not then, or at any time, restricted from dispensing in Oklahoma.

Diamond is licensed or authorized to dispense prescription in Every State except for Alaska. Nearly every state requires a licensee to report any and all discipline imposed by any outside jurisdiction/state. Any state that receives such a report of discipline may review and impose "sister-state" discipline even without wrongdoing within their state. Diamond reported the Oklahoma discipline to all states where licensed. Most states declined to pursue such sister-state discipline. Of the relatively few that did, nearly all of them issued a letter of admonition and/or imposed a small fine. The exceptions were Alabama, Michigan and Illinois.

Alabama placed Diamond on probation, which will expire in September of 2022 and does not prohibit Diamond from dispensing. Michigan issued an Order in 2017 imposing a fine, and placing Diamond's license in "Limited Disciplinary" status, restricting Diamond from dispensing in Michigan until we provided Michigan with evidence that we complied with the Oklahoma Order, and that such status would be automatically lifted. We immediately sent Michigan evidence that we amended our Oklahoma registration, that we paid the Oklahoma fine, and that we were not restricted from dispensing into Oklahoma. We were then issued a Michigan license renewal and continued to dispense in Michigan at that time.

In 2019, Michigan filed a Complaint against Diamond's license alleging that by dispensing into Michigan prior to the expiration of the Oklahoma probation, we were in violation of the Michigan license limitation imposed by their 2017 Order. Diamond has maintained its position that the 2017 Order is not legally or procedurally sufficient to restrict us from dispensing in Michigan. We have resolved this matter by agreeing to pay a $1,000.00 fine, and to adhere to the Board's interpretation of the 2017 Order.

On June 17, 2020, Diamond appeared before the Oklahoma State Board of Pharmacy on a Petition to Modify their 2015 Order at Case No. 1368. We asked the Board to lift our probation that was scheduled to run until December 3, 2020. The Board (by 4-1 vote) granted our petition, and our probation has been lifted. Once we received the official, executed Order from Oklahoma, we provided it to Michigan, and it lifted our "Limited" status on or about July 10, 2020

Illinois filed a complaint on December 19, 2019 at Case No. 2019-01490. The Complaint made no allegations of specific violations that occurred in Illinois or were related to Diamond dispensing or distributing any drugs into Illinois. Rather, the allegations were solely based on "sister-state" discipline arising from the actions listed above. We reached a settlement agreement, which was finalized on April 24, 2010, where Diamond agreed to pay a fine of $10,000.00 and is in probation in Illinois for three years. This Order does not in any way restrict Diamond's practice of Pharmacy in Illinois or in any other jurisdiction.

Although there are a number of regulatory actions that have occurred since 2015, Diamond's is able to dispense in all jurisdictions. Furthermore, it is important to note that none of the conduct that was the subject of these actions implicated patient health or safety. Diamond has implemented several internal changes both in process and structurally to ensure that these administrative issues will not arise again.

Diamond's distribution division was disciplined by DEA for the Northern District of Ohio. The alleged violation was for record-keeping issues from 2013-2014, regarding controlled substances in emergency drug kits. There was no implication of patient health and safety or diversion of drugs. This action did not impact Diamond's ability to handle or dispense controlled substances anywhere in the United States.

Please let us know if you need any further clarification to the items listed in this section.

Re: Notice of Settlement with DEA and Resolution of Civil Action CV 20-768

Diamond Drugs, Inc. ("Diamond") writes to inform the Nevada Board of Pharmacy about the resolution of a pending Civil Action filed by the United States Attorney's Office on behalf of the Drug Enforcement Administration. Diamond currently operates under two licenses: # WH01578 and # PH01640.

On May 27, 2020, a Civil Complaint was filed in the Western District of Pennsylvania in connection with allegations stemming from June 2014 to May 2016. The allegations related to Diamond's wholesale license and operations were unrelated to conduct in the state of Nevada. Diamond never filed an Answer in the case, instead, opting to mediate the dispute in good faith with the DEA to discuss and address the DEA's concerns. Although the COVID-19 pandemic slowed the process, the parties worked together remotely to mediate and ultimately resolve the dispute on May 31, 2022.

The resolution of the Civil Action is embodied in a Settlement Agreement and Memorandum of Agreement that were both fully executed on May 31, 2022 and delivered to Diamond on June 1, 2022.

The resolution of this matter did not lead to the suspension, revocation, or any other restriction on Diamond's DEA License. At all times, Diamond has denied the material allegations in the Complaint and the Settlement Agreement expressly states there "is not an admission of liability" and that the "DEA found no evidence, allegation, or indication that any of the prescriptions . . . resulted in diversion." The allegations did not implicate patient safety and were simply the result of differing interpretations of the regulations and standards that apply to the "Know Your Customer" rules.

In addition to the assurances Diamond has made to the DEA regarding its current and ongoing compliance practices, systems, and processes (as outlined in the Settlement Agreement). Diamond and the DEA are in continued dialogue post-resolution about compliance practices and standards that are unique to Diamond's business of providing medication to correctional facilities.

The DEA has deemed acceptable all of the voluntary corrective actions taken, as outlined in the Settlement Agreement terms and conditions 2(a)-(e).

Diamond understands the Board's important role in ensuring, in conjunction with the DEA, that out-of-state registrants conduct business in compliance with all rules and regulations under which they operate. The Board's mission of enforcing laws, regulations, and rules is a vital part of promoting public health and ensuring patient safety through maintaining integrity among the businesses serving our communities. Diamond urges licensing authorities to follow the recommendation of the National Association of Boards of Pharmacy ("NABP") and consider forgoing any further investigation or concurrent discipline for the allegations or the Settlement Agreement.

NABP Resolution 113-5-17 encourages state boards of pharmacy deciding whether to impose concurrent discipline to consider forgoing "disciplinary action absent direct patient impact or harm in their own states." It was important to the NABP and its state members when passing Resolution 113-5-17 to ensure that the nation-wide practice of concurrent discipline does not exceed practical bounds. Specifically, the purpose of the Resolution is to encourage state boards of pharmacy to consider the practical implications of imposing concurrent discipline and whether the discipline imposed is based on actions that actually implicate patients in the state.

Therefore, given the absence of alleged patient harm in connection with the state of Nevada, the resolution of this matter, and the underlying Civil Action that gave rise to the Settlement Agreement, we respectfully request the Board follow the direction of the NABP and not impose any disciplinary action against Diamond in relation to this matter.

Attached to this letter are the following documents as numbered exhibits:

1. Fully Executed Settlement Agreement;
2. Fully Executed Memorandum of Agreement;
3. A copy of the Civil Complaint filed on May 27, 2020; and
4. A copy of NABP Resolution 113-5-17.

If you have any questions regarding the resolution of this Civil Action or attached documents, please let us know and we are happy to discuss.

EXHIBIT 1

SETTLEMENT AGREEMENT

This Settlement Agreement ("Agreement") is entered into between the United States of America, acting through the United States Department of Justice and on behalf of the Drug Enforcement Administration ("DEA") (collectively, the "United States"), and Diamond Drugs, Inc., d/b/a Diamond Pharmacy Services (DEA Registration Number RD0311100) ("Diamond Drugs" or "Diamond"), (hereafter collectively referred to as "the Parties"), through their authorized representatives, to settle certain civil claims asserted by the United States under the Controlled Substances Act, as amended, 21 U.S.C. §§ 801, *et seq.* and regulations promulgated thereunder, 21 C.F.R. §§ 1330.01, *et seq.* (collectively, the "Act").

RECITALS

A. Diamond Drugs, Inc., currently known as Diamond Pharmacy Services ("Diamond"), is a privately held corporation comprised of three (3) separate subdivisions: a drug distributorship, a closed-door pharmacy, and a manufacturer/repackager. The allegations contained herein relate to its drug distributor division, which is assigned DEA Registration Number RD0311100, and is located at 665 Kolter Drive, Indiana County, Indiana, Pennsylvania, 15701. Diamond is authorized to distribute controlled substances as a registered distributor with the DEA in accordance with the Act.

B. In June 2014 and May 2016, the DEA conducted periodic regulatory inspections at Diamond's distribution warehouse located at the above address in Indiana County. As a result of those inspections, the DEA alleges that Diamond committed repeat record-keeping violations, between June 19, 2013, and June 14, 2014, concerning certain shipments of controlled substances to addresses that did not match the registered locations in the DEA registrant database.

C. Additionally, the DEA alleges further that between May 2015 and May 2016, Mid-Level Practitioners ("MLPs"), at the state level, ordered controlled substances beyond the scope of their licenses. MLPs in some states are permitted to prescribe only some controlled substances, as authorized by their specific job duties, and subject to the licensing state's laws and regulations. Between May 5, 2015, and May 25, 2016, Diamond shipped Schedule III-V controlled substances to MLPs beyond the scope of their licensed powers thereby failing to keep accurate records concerning the receipt of those controlled substances.

D. Finally, in August 2015, the DEA identified a record-keeping violation concerning the shipment of Codeine to a DEA Registrant that was incorrectly reported as being sent to a facility that was permitted to order and receive that Schedule III controlled substance.

E. As a result of the findings of the DEA as described in paragraphs B – D above, on May 27, 2020, the United States filed an action in the United States District Court for the Western District of Pennsylvania captioned *United States v. Diamond Drugs, Inc., d/b/a Diamond Pharmacy Services*, Civil Action No. 2:20-cv-768 (the "Civil Action"), alleging violations of the Controlled Substances Act, 21 U.S.C. §§ 801, *et seq.*, and other DEA regulations.

F. Diamond has denied the conduct alleged in paragraphs B – D, as well as the allegations contained in the Civil Action, constitutes a violation of the Controlled Substances Act and further denies any wrongdoing. The DEA found no evidence, allegation, or indication that any of the prescriptions described above in paragraphs B – D resulted in diversion.

G. The United States contends that it has certain civil claims against Diamond arising from the failure of Diamond to keep accurate records of distributions of controlled substances, as detailed in Paragraphs B – D and incorporated herein, during the period from June 2013 through and including May 2016, that are violations of the Controlled Substances Act, as amended,

21 U.S.C. §§ 801, *et seq.*, 822(e)(1), 827(a)(3), 842(a)(5), 842(c)(1)(B), and the corresponding regulations promulgated thereunder, 21 C.F.R. §§ 1330.01, *et seq.* That conduct is referred to below as the "Covered Conduct."

H. This Settlement Agreement is neither an admission of liability by Diamond nor a concession by the United States that its claims are not well-founded.

To avoid the delay, uncertainty, inconvenience, and expense of protracted litigation of the above claims, and in consideration of the mutual promises and obligations of this Settlement Agreement, the Parties agree and covenant as follows:

TERMS AND CONDITIONS

1. Diamond shall pay to the United States two hundred thousand dollars and zero cents ($200,000.00) ("Settlement Amount"), which represents settlement of any and all civil penalties or other costs and fines that may have been assessed had this matter been adjudicated in a court of law, as a lump-sum payment inclusive of interest, no later than 20 days after the Effective Date of this Agreement by electronic funds transfer pursuant to written instructions to be provided by the Financial Litigation Unit of the United States Attorney's Office of the Western District of Pennsylvania.

2. In addition to the above payment, the United States acknowledges the following representations made by Diamond Drugs in an attempt to conform its' operations to pertinent law:

a. Having been informed of the nature of the allegations against it and in an attempt to further increase due diligence in getting to know its customers, Diamond has represented to the United States that it avers to contractually require the results of any and all inspections undertaken by a local, state, or federal agency with respect to the acquisition, storage, and use of medications to be part of the on-boarding process. Diamond will also require this of existing

customers to protect against diversion and ensure compliance with all laws and regulations relating to controlled substances.

b. Diamond also represents that it has created and implemented a web service call system which validates a DEA licensee by verifying the location of the DEA license and address in the DEA Registrant database prior to distributing controlled substances. Diamond implemented this change after the DEA informed Diamond that some providers were switching their registered license address and continuing to place and receive orders.

c. As to prescription orders from MLPs, Diamond has implemented changes to initial facility set-up requirements by requiring facilities to complete a Stock Medication License Form, a Power of Attorney Form for completion of Form 222, and an Authorized Agent Form denoting the individuals who are allowed to order controlled substances ranging from Schedule II to Schedule V on behalf of the facility. In addition to the completion of the above forms, Diamond will send annual reminders to providers that they must remain compliant with their DEA license requirements and maintain accurate information in the Registrant database to receive controlled substances.

d. Diamond states that it will also conduct a monthly review and investigation of the DEA's "Mid-Level Practitioners Authorization by State" document to monitor changes to MLP prescribing authority. Further, Diamond will consult with external legal counsel on an annual basis for the next three (3) years to survey relevant state MLP laws to ensure compliance with prescriber permissions.

e. Diamond maintains that it has implemented a software system alert that can advise any party via a "text box," of who has authorization to request various Schedules of controlled substances at the time of processing the order. The system differentiates between

providers permitted to request varying Schedules of controlled substances as reported by the registrant and allowed under applicable state laws and regulations.

3. Additionally, the DEA and Diamond have entered into a "Memorandum of Agreement" (MOA) that is attached hereto, incorporated herein, and marked as Exhibit A. Diamond shall comply with the MOA and agrees that a violation of the MOA constitutes a violation of this Settlement Agreement. Accordingly, if Diamond fails to comply with the MOA, the United States, at its sole discretion, may file a civil action against Diamond regarding the "Covered Conduct" in this Agreement, seek enforcement of the MOA, and/or if appropriate, seek additional restrictions on Diamond's DEA registration, collect civil penalties/fines, or do all of the above. In the event a Complaint is filed, Diamond agrees not to plead, argue, or otherwise raise any defenses under the theories of statute of limitations, laches, estoppel, or similar theories to the allegations in the Complaint. If applicable, Diamond shall pay the United States all reasonable costs of enforcement under this Paragraph, including attorneys' fees, and expenses.

4. Subject to the exceptions in Paragraph 6 (concerning reserved claims) below, and conditioned upon Diamond's full and timely payment of the Settlement Amount and compliance with the MOA, the United States releases Diamond, together with its current and former parent corporations; direct and indirect subsidiaries; brother or sister corporations; divisions; current or former corporate owners; and the corporate successors and assigns of any of them from any civil or administrative monetary claim the United States has for the "Covered Conduct" under the Controlled Substances Act, as amended, 21 U.S.C. §§ 801, *et seq.*, and regulations promulgated thereunder, 21 C.F.R. §§ 1330.01, *et seq.*; the Civil Monetary Penalties Law, 42 U.S.C. § 1320a-7a; or the common law theories of payment by mistake, unjust enrichment, and fraud.

5. In the event that Diamond fails to pay the amount as provided in Paragraph 1 within twenty (20) days after the Effective Date of this Agreement, Diamond shall be in default of its obligations ("Default") under this Agreement. The United States will provide written notice of the Default to Diamond. Notice of Default will be delivered to Bradley W. Howard, Esquire, or to such other representative as Diamond shall designate in advance in writing. Diamond shall have the opportunity to cure such Default within five (5) business days from the date of receipt of the notice ("Cure Period"). If Diamond fails to cure such Default by the end of the Cure Period, the unpaid balance of the Settlement Amount shall become immediately due and payable, and interest shall accrue at the rate of 12% per annum compounded daily from the date of Default on the remaining unpaid total (principal and interest balance). Further, Diamond shall consent to the filing of a Consent Judgment as it relates to the "Covered Conduct" in the amount of the unpaid balance, and the United States, at its sole option, may: (a) enforce the Consent Judgment; (b) offset the remaining unpaid balance from any amounts due and owing to Diamond by any department, agency, or agent of the United States at the time of Default; (c) collect the entire unpaid balance of the Settlement Amount, plus interest, including 12% interest from the date of Default, and all other amounts due upon the event of Default as specified in this Paragraph; or (d) exercise any other rights granted by law or in equity, including referral of this matter for private collection. In the event a Consent Judgment is filed pursuant to subsection (a) of this Paragraph, Diamond agrees not to plead, argue, or otherwise raise any defenses under the theories of statute of limitations, laches, estoppel, or similar theories to the allegations in the Complaint. Diamond agrees not to contest any consent judgment, offset, or any collection action undertaken by the United States pursuant to this Paragraph, either administratively or in any state or federal court. If applicable,

Diamond shall pay the United States all reasonable costs of collection and enforcement under this Paragraph, including attorneys' fees, and expenses.

6. Notwithstanding the release given in Paragraph 4 of this Agreement, or any other term of this Agreement, the following claims and rights of the United States are specifically reserved and are not released:

a. Any liability arising under Title 26, U.S. Code (Internal Revenue Code);

b. Any criminal liability;

c. Except as explicitly stated in this Agreement, any administrative liability or enforcement right, including mandatory exclusion from Federal healthcare programs;

d. Any liability to the United States (or its agencies) for any conduct other than the Covered Conduct;

e. Any liability based upon obligations created by this Agreement; and

f. Any liability of individuals.

7. Diamond waives and shall not assert any defenses Diamond may have to any criminal prosecution or administrative action relating to the "Covered Conduct" that may be based in whole or in part on a contention that, under the Double Jeopardy Clause in the Fifth Amendment of the Constitution, or under the Excessive Fines Clause in the Eighth Amendment of the Constitution, this Agreement bars a remedy sought in such criminal prosecution or administrative action.

8. Diamond fully and finally releases the United States, its agencies, officers, agents, employees, and servants, from any claims (including attorney's fees, costs, and expenses of every kind and however denominated) that Diamond has asserted, could have asserted, or may assert in

the future against the United States, and its agencies, officers, agents, employees, and servants related to the Covered Conduct and the United States' investigation and prosecution thereof.

9. Diamond agrees to the following:

a. Unallowable Costs Defined: All costs (as defined in the Federal Acquisition Regulation, 48 C.F.R. § 31.205-47; and in Titles XVIII and XIX of the Social Security Act, 42 U.S.C. §§ 1395-1395lll and 1396-1396w-5; and the regulations and official program directives promulgated thereunder) incurred by or on behalf of Diamond, its present or former officers, directors, employees, shareholders, and agents in connection with:

(1) the matters covered by this Agreement;

(2) the United States' audit(s) and civil investigation of the matters covered by this Agreement;

(3) Diamond's investigation, defense, and corrective actions undertaken in response to the United States' audit(s) and civil investigation in connection with the matters covered by this Agreement (including attorneys' fees);

(4) the negotiation and performance of this Agreement; and

(5) the payment Diamond makes to the United States pursuant to this Agreement.

Any payments due after the adjustments have been made shall be paid to the United States pursuant to the direction of the Department of Justice and/or the affected agencies. The United States reserves its rights to disagree with any calculations submitted by Diamond or any of its subsidiaries or affiliates on the effect of inclusion of Unallowable Costs (as defined in this

paragraph) on Diamond or any of its subsidiaries or affiliates' cost reports, cost statements, or information reports.

b. Nothing in this Agreement shall constitute a waiver of the rights of the United States to audit, examine, or re-examine Diamond's books and records to determine that no Unallowable Costs have been claimed in accordance with the provisions of this paragraph.

10. Diamond agrees to fully cooperate with all future regulatory inspections conducted by the DEA. Diamond shall encourage its employees and personnel not to impair the regulatory inspections but to provide their utmost cooperation to DEA personnel during the inspections. As a sign of the good faith of Diamond to cooperate is its execution of a separate MOA with the DEA which is incorporated herein and made a part of this Settlement Agreement.

11. This Agreement is intended to be for the benefit of the Parties only. The Parties do not release any claims against any other person or entity, except to the extent provided for in Paragraph 12 (waiver for beneficiaries' paragraph), below.

12. Diamond agrees that it waives and shall not seek any additional or future payment for any of the health-care billings covered by this Agreement from any health-care beneficiaries or their parents, sponsors, legally responsible individuals, or third-party payors based upon the claims defined as Covered Conduct.

13. Upon receipt of the payment described in Paragraph 1, above, the Parties shall promptly sign and file in the Civil Action a Joint Stipulation of Dismissal of the Civil Action pursuant to Rule 41(a)(1).

14. Each Party shall bear its own legal and other costs incurred in connection with this matter, including the preparation and performance of this Agreement.

15. Each Party and signatory to this Agreement represents that it freely and voluntarily enters into this Agreement without any degree of duress or compulsion.

16. This Agreement is governed by the laws of the United States. The exclusive venue for any dispute relating to this Agreement is the United States District Court for the Western District of Pennsylvania. For purposes of construing this Agreement, this Agreement shall be deemed to have been drafted by all Parties to this Agreement and shall not, therefore, be construed against any Party for that reason in any subsequent dispute.

17. This Agreement constitutes the full and complete Agreement between the Parties with respect to the matters covered herein. The MOA is part of the Agreement, and the obligations set forth in the MOA are binding to the same extent as if they were part of the Agreement itself. This Agreement may not be modified except by written consent of all Parties.

18. The undersigned counsel represent and warrant that they are fully authorized to execute this Agreement on behalf of the persons and entities indicated below.

19. This Agreement may be executed in counterparts, each of which constitutes an original, and all of which constitute one and the same Agreement.

20. This Agreement is binding on Diamond's successors, transferees, heirs, and assigns.

21. All Parties consent to the United States' disclosure of this Agreement, and information about this Agreement, to the public.

22. This Agreement is effective on the date of signature of the last signatory to the Agreement (Effective Date of this Agreement). Facsimiles and electronic transmissions of signatures shall constitute acceptable, binding signatures for purposes of this Agreement.

MEMORANDUM OF AGREEMENT

This Memorandum of Agreement ("MOA") is entered into between the Drug Enforcement Administration ("DEA") and Diamond Drugs, Inc. d/b/a Diamond Pharmacy Services ("Diamond"), located at 665 Kolter Drive, Indiana, Pennsylvania, 15701, holding DEA Registration Number RD0311100, and authorized in Controlled Substance Schedules II, IIN, III, IIIN, IV, and V. 3. Diamond shall abide by all federal, state, and local laws and regulations relating to controlled substances.

4. Diamond shall maintain accurate and complete records documenting the acquisition and disposition of all controlled substances, as required by Title 21, Code of Federal Regulations (C.F.R.) § 1304.21 and Title 21, United States Code (U.S.C.) § 827(a) and (b).

5. Diamond shall submit accurate data to the Automated Records and Consolidated Orders System ("ARCOS") as required by 21 C.F.R. § 1304.33 and 21 U.S.C. § 827(d)(1), including but not limited to, timely correcting any errors in reporting.

6. Diamond shall initiate and maintain a training program for all current and newly hired employees responsible for handling and/or having access to controlled substances on the detection and prevention of diversion of controlled substances. Such training shall include, but not be limited to, incorporating information on applicable laws and regulations, as well as on Diamond's internal compliance policies regarding both the physical security of controlled substances and proper record-keeping procedures. Such training shall be administered for each employee at, or near to, their time of hire, with supplemental training recommended to be administered annually, or as needed.

7. Diamond shall design and operate a system to disclose suspicious orders of controlled substances and follow the regulations as set forth in 21 C.F.R. § 1301.74(b).

12. Diamond understands that failure to comply with the Controlled Substances Act and its implementing regulations could also subject Diamond to civil fines and penalties and/or criminal prosecution under the United States Code.

13. Diamond understands that nothing in this MOA relieves Diamond of civil or criminal liability.

14. DEA enters this Agreement with the understanding that Diamond will abide by its contents in good faith. Nothing in this Agreement shall be construed as precluding the DEA from referring to, or relying upon, any of the matters alleged herein, for the purpose of establishing Diamond's history or experience in handling and keeping accurate records of controlled substances, in the event of a future administrative, civil, and/or criminal action with respect to the DEA registration of Diamond.

15. Nothing in this MOA is intended to address or affect matters or violations not specifically enumerated in the Agreement.

16. To the extent disclosure of this MOA or the terms herein are required, Diamond will self-report as required by federal, state, and local statutes or regulations. Beyond Diamond's reporting of this matter as required by applicable law, DEA takes no position regarding whether or not state or local action against Diamond is appropriate.

17. By executing this Agreement, Diamond waives all rights to seek judicial review or to challenge or contest the validity of any terms or conditions of this Agreement.

COMPLAINT

AND NOW comes the United States of America, by its counsel, Scott W. Brady, United States Attorney for the Western District of Pennsylvania, and Paul E. Skirtich, Assistant United States Attorney for said District, and files its original Complaint based on the following:

I. INTRODUCTION

1. Plaintiff is the United States of America, and it brings this action on behalf of and at the request of the Drug Enforcement Administration ("DEA").

2. The DEA is a Federal drug law-enforcement agency charged by Congress to oversee and ensure that all drug distributorships that handle and ship controlled substances are properly registered with the Agency, among other duties. Additionally, the DEA is empowered to audit and review records of drug distributorships to ensure compliance with all DEA regulations, including but not limited to, when registrants ship allowed controlled substances to registered locations.

3. To perform its duties, the DEA conducts periodic inspections of drug distributorships during which the DEA scrutinizes all pertinent invoices, logs, ledgers, account files, and any other related documents to determine whether a registrant has complied with all

applicable provisions of the Controlled Substances Act, 21 U.S.C. § 801 *et seq.* (hereinafter the "CSA") and/or the Code of Federal Regulations, 21 C.F.R. § 1300 *et seq.* (hereinafter the "CFR").

4. The Defendant, "Diamond Drugs, Inc.," d/b/a "Diamond Pharmacy Services" ("Diamond"), is a privately-held corporation. "Diamond Drugs, Inc." is comprised of three (3) separate subdivisions: a drug distributorship, a mail-order pharmacy, and a manufacturer, all of which are registered with the DEA.

5. "Diamond Drugs, Inc." is one of the nation's largest specialty pharmacy services whose customers include state prisons and county jail infirmaries located throughout the United States.

6. "Diamond Pharmacy Services" is a drug distributorship registered under DEA # RD0311100 to handle controlled substances in Schedules II, IIN, III, IIIN, IV, and V, and is located at 665 Kolter Drive, Indiana County, Indiana, Pennsylvania 15701. On April 16, 2004, "Diamond" became a DEA registrant as a distributor.

7. "Diamond Pharmacy Service" is a DEA Registrant as a mail-order pharmacy that is authorized to handle controlled substances in Schedules II, IIN, III, IIIN, IV, and V, and is located at 645 Kolter Drive, Indiana County, Indiana, Pennsylvania 15701.

8. "Remedy Repack" is a DEA Registrant as a manufacturer (repacker/relabeler of controlled substances) authorized to handle controlled substances in Schedules II, IIN, III, IIIN, IV, and V, and is located at 625 Kolter Drive, Indiana County, Indiana, Pennsylvania 15701.

9. The United States of America brings this civil enforcement action seeking penalties and injunctive relief against Defendant for violating the CSA and its implementing regulations.

10. Defendant, Diamond Pharmacy Services, is registered with the DEA, under DEA # RD0311100, as a distributor of Schedules II, IIN, III, IIIN, IV, and V controlled substances, and

EXHIBIT 3

engaged in repeated and systemic violations of the CSA and other pertinent DEA Regulations when it unlawfully shipped controlled substances to non-registered locations or to registrants not authorized to possess certain controlled substances, and then failed to meet pertinent recordkeeping requirements.

II. JURISDICTION AND VENUE

11. This Court has jurisdiction over this action pursuant to 28 U.S.C. §§ 1331, 1345, and 1355, and 47 U.S.C. § 504(a).

12. Venue is proper under 28 U.S.C. §§ 1355(b), 1391(b), and 1395(a), and 47 U.S.C. § 504(a) because Defendant operates its business within this District, and the acts and/or omissions giving rise to this civil action occurred within this District.

III. STATUTORY AND REGULATORY BACKGROUND

13. In order to regulate the distribution of controlled substances, Congress authorized the Attorney General of the United States, or his delegate, including the DEA, to promulgate and enforce any rules, regulations, and procedures which are deemed necessary and appropriate. *See* 21 U.S.C. §§ 871(a) and (b).

14. Controlled substances are highly regulated by the DEA, and each controlled substance is placed into one of five schedules, known as Schedules I, II, III, IV, and V. IIN (Schedule II non-narcotic) and IIIN (Schedule III non-narcotic) are additional categories within Schedules II and III. *See* 21 U.S.C. § 812(a).

15. All drug distributors must adhere to and follow the regulations as listed in 21 U.S.C. Part C, which includes §§ 821-832. The prohibited acts of this title subject to civil punishment are listed in 21 U.S.C. § 842.

EXHIBIT 3

16. A separate registration is required with the DEA for each principal place of business or professional practice at one general physical location where controlled substances are manufactured, distributed, imported, exported, or dispensed by a person. *See* 21 C.F.R. § 1301.12(a).

17. Before distributing a shipment containing controlled substances to any registered location, whether the registrant knows that the person or entity is registered or not, the registrant must make a good-faith inquiry with the DEA or the appropriate "State-controlled substance registration agency," if any, to determine that the proposed receiver of a controlled substance is registered to possess it. *See* 21 C.F.R. § 1301.74(a). The Commonwealth of Pennsylvania does not maintain a controlled substance registration agency. The DEA, however, provides an online national DEA registration validation system that allows verification of DEA registration information of any DEA registrant. This "validation system" went online sometime in 2006.

18. When an order for a Schedule II-V controlled substance is received by a drug distributor, like "Diamond," that distributor must make a good-faith effort to determine if the purchaser is a DEA registrant for the specific schedules requested for purchase.

19. A drug distributor, including but not limited to "Diamond," is required to verify that the registered location matches the intended shipping address.

20. If the addresses are found to match, a drug distributor, including but not limited to "Diamond," is required to verify the ability of the soliciting DEA registrant/purchaser to purchase that specific controlled substance(s) under the relevant state license.

21. A drug distributor, including but not limited to "Diamond," should also verify the business activity of the DEA registrant to ensure that the registrant has the proper authority to purchase that type of controlled substance. "Verification," pursuant to the statute, requires that a

EXHIBIT 3

distributor: (a) before distributing a controlled substance to any person whom the registrant does not know to be registered to possess the controlled substance, shall make a good-faith inquiry either with the Administration [DEA] or with the appropriate State-controlled substances registration agency, if any, to determine that the person is registered to possess the controlled substance; and (b) the registrant shall design and operate a system to disclose to the registrant "suspicious orders" of controlled substances. The registrant shall inform the Field Division Office of the Administration [DEA] in his/her area of "suspicious orders" when discovered by the registrant. "Suspicious orders" include orders of unusual size, orders deviating substantially from a normal pattern, and orders of unusual frequency. Likewise, a distributor is also required to know that if their customer is a specialized treatment entity, such as a narcotic treatment facility, they should only purchase controlled substances that are FDA-approved for the treatment of narcotic addiction, and further requires that distributor to design and operate a system that would alert them to attempted purchases that do not fit their customer's normal pattern (i.e., a narcotic treatment program purchasing codeine). *See* 21 C.F.R. § 1301.74(a), (b).

22. If the drug distributor determines that the addresses match and the purchaser is properly able to purchase the particular controlled substance(s), the drug distributor can then lawfully distribute and ship that order.

23. Moreover, every "registrant" is required to keep complete and accurate records of controlled substances that are delivered to another "registrant." *See* 21 C.F.R. § 1304.21(a).

24. Each person registered or authorized to distribute controlled substances shall maintain records with the same information required of manufacturers. *See* 21 C.F.R. § 1304.22(b). "Registrants" are required to maintain all required records for two (2) years. *See* 21 C.F.R. § 1304.04(a).

EXHIBIT 3

25. It is unlawful for any "registrant" to refuse or negligently fail to make, keep, or furnish any record, report, notification, declaration, order or order form, statement, invoice, or information required under this title or title III. *See* 21 U.S.C. § 842(a)(5).

IV. STATEMENT OF THE CASE

A. June 2014 DEA Audit and Investigation

26. In keeping with their duties, the DEA conducts periodic regulatory reviews of drug distributors to account for controlled substances and to ensure compliance with Federal laws and DEA Regulations concerning the distribution of controlled substances to registered locations, among other purposes.

27. In preparation for and in follow-up to periodic audits, DEA diversion investigators routinely review DEA databases used to track and monitor the ordering, receipt, and disposition of controlled substances of drug distributorships, such as "Diamond."

28. Consistent with their duties as described above, from June 19, 2014, to on or about June 24, 2014, personnel from the DEA conducted a periodic audit and review of "Diamond Pharmacy Services" at its warehouse located at 665 Kolter Drive, Indiana County, Indiana, Pennsylvania 15701. The purpose of the audit was to inspect records, from June 19, 2013, through June 19, 2014, including but not limited to, sales invoices required to be kept by Diamond. *See* 21 C.F.R. § 1304.21(a); *see* ¶¶ 3, 23 *supra.*

B. Shipments to Unregistered Locations

29. DEA's audit of "Diamond's" sales records and invoices of controlled substances revealed that between June 19, 2013, and June 19, 2014, "Diamond" failed to accurately record one hundred thirty-seven (137) separate distributions to six (6) different customers whose shipping addresses were not the registered locations of the DEA registration number utilized for the

EXHIBIT 3

transactions. *See* Table of Distributions to Various Registrants at Incorrect Addresses, attached hereto and marked as Exhibit A.

30. Between June 19, 2013, and June 19, 2014, "Diamond" had continual access to the online national DEA registration validation system that allows verification of DEA registration information of any DEA registrant.

C. <u>May 2015 to May 2016 Shipments to Mid-Level Practitioners ("MLPs")</u>

31. DEA registrants include "mid-level practitioners" as well as others who are able to purchase certain controlled substances as authorized by their specific job duties and the authority of their state.

32. "Mid-level practitioner" means an individual practitioner, other than a physician, dentist, veterinarian, or podiatrist, who is licensed, registered, or otherwise permitted by the United States or the jurisdiction in which he/she practices, to dispense a controlled substance in the course of professional practice. Examples of mid-level practitioners include, but are not limited to, health-care providers such as nurse practitioners, nurse midwives, nurse anesthetists, clinical nurse specialists, and physician assistants who are authorized to dispense controlled substances by the State in which they practice. 21 C.F.R. § 1300.01(b).

33. Health professionals who are certified as an Advanced Registered Nurse Practitioner (ARNP); Advanced Practice Registered Nurse (APRN); Advanced Practice Nurse (APN); Nurse Practitioner (NP); one who holds a Masters of Science in Nursing (MSN); a Registered Nurse Advanced Practice Nurse-Certified (RNAPN-C); and a Registered Physician Assistant-Certified (RPA-C) fall under the category of Nurse Practitioner or Physician's Assistant under 21 C.F.R. § 1300.01(b), and are duly labeled "Mid-Level Practitioner" (MLP). Notably,

EXHIBIT 3

each DEA registration lists the registrant's "Business Activity," so all MLPs have the business activity designator of "MLP."

34. States have the authority and ability to limit what controlled substances can be lawfully ordered or received by the MLPs within their jurisdiction. *See* 21 C.F.R. § 1307.02.

35. The DEA abides by the more restrictive language of either Federal or state law or regulation concerning the shipment of controlled substances to MLPs and, in general, upholds whatever is more restrictive. *See* 21 C.F.R. § 1307.02 ("Application of State law and other Federal law. Nothing in this chapter shall be construed as authorizing or permitting any person to do any act which such person is not authorized or permitted to do under other Federal laws or obligations under international treaties, conventions or protocols, or under the law of the State in which he/she desires to do such act nor shall compliance with such parts be construed as compliance with other Federal or State laws unless expressly provided in such other laws.").

36. The MLPs in Kentucky (KY) are allowed to prescribe only a Schedule II, IIN, III, IIIN, IV, and V controlled substance. In Louisiana (LA), MLPs are allowed to prescribe a Schedule III, IIIN, IV, and V controlled substance, and can prescribe and dispense a Schedule II and IIN controlled substance for "Attention Deficit Disorder" only. The pertinent statute in Nebraska (NE) limits MLPs to only prescribe a Schedule III, IIIN, IV, and V controlled substance. The State of New Jersey (NJ) mandates that MLPs are allowed to prescribe a Schedule II, IIN, III, IIIN, IV and/or V controlled substance. Finally, MLPs in New York (NY) are allowed to prescribe a Schedule II, IIN, III, IIIN, IV, and/or V controlled substance. *See*, https://www.deadiversion.usdoj.gov/drugreg/practioners/mlp_by_state.pdf.

37. Between May 5, 2015, and May 25, 2016, "Diamond" had continual access to the online, national DEA registration validation system that allows verification of DEA registration

EXHIBIT 3

information of any DEA registrant. Moreover, the first character of a DEA registration number defines the registrant type/business activity. For example, the "M" in the DEA registration number denotes a "Mid-Level Practitioner," including but not limited to, Nurse Practitioner (NP) and Physician's Assistant (PA).

38. It is unlawful for any "registrant" to refuse or negligently fail to make, keep, or furnish any record, report, notification, declaration, order or order form, statement, invoice, or information required under this title or title III. *See* 21 U.S.C. § 842(a)(5).

39. Subsequent examination of "Diamond's" records and further investigation by DEA personnel showed that between May 5, 2015, and May 25, 2016, on two hundred ninety-two (292) occasions, "Diamond" shipped controlled substances to nineteen (19) MLPs in five (5) different states – Kentucky, Louisiana, Nebraska, New Jersey, and New York – who ordered and received Schedule III-V controlled substances, when these same MLPs were not authorized by their respective states to either order or receive those particular controlled substances, and failed to keep accurate records of those two hundred ninety-two (292) shipments, as those shipments were inaccurately reported on DEA reports. *See* Table of Shipments to MLPs, attached hereto and marked as Exhibit B.

D. <u>August 2015 Codeine Shipments to a Narcotic Treatment Program</u>

40. "Correctional Health Services" (hereinafter referred to as "Correctional") is a DEA registrant with a listed business activity as a detoxification and maintenance facility, located at 201 South 4th Avenue in Phoenix, Maricopa County, Arizona 85003.

41. "Correctional" is a facility which is allowed to order controlled substances, including but not limited to, some Schedule III controlled substances that are approved by the Federal Drug Administration ("FDA") to treat narcotic addiction (opioid dependence), including

EXHIBIT 3

but not limited to Buprenorphine, which trades as "Suboxone." [*See* 42 C.F.R. Ch. 1, Subchapter A, Part 8, Subpart C, §§ 8.12(h)(1) and (h)(2)(i-iii)].

42. Codeine, a Schedule III controlled substance, is not approved by the FDA for use and treatment at detoxification and maintenance facilities which house narcotic-addicted persons. [*See* 42 C.F.R. Ch. 1, Subchapter A, Part 8, Subpart C, §§ 8.12(h)(1) and (h)(2)(i-iii)].

43. It is unlawful for any "registrant" to refuse or negligently fail to make, keep, or furnish any record, report, notification, declaration, order or order form, statement, invoice, or information required under this title or title III. *See* 21 U.S.C. § 842(a)(5).

44. On August 26, 2015, personnel at "Diamond" sent one (1) shipment of Schedule III Codeine to Correctional, a registrant which was not authorized to order or obtain the Codeine, and "Diamond" negligently failed to keep accurate records concerning that shipment of Codeine to Correctional. *See* Table of Codeine Sales to Correctional Health Services, attached hereto and marked as Exhibit C.

keep any record, report, notification, declaration, order or order form, statement, invoice, or other information required pursuant to 21 U.S.C. § 827(a)(3), when "Diamond Pharmacy Services" sent two (2) shipments of controlled substances on the above dates – as detailed in the Table attached to this Complaint and marked as Exhibit B – to a DEA Registrant, John H. Alden, a "Mid-Level Practitioner (MLP)" in the State of New York, who was not authorized by New York to order and receive said controlled substances, conduct which caused "Diamond Pharmacy Services" to fail to have at all times complete, current, and accurate records of orders of Schedule III controlled substances received and shipped during the above-noted time frame, in violation of 21 U.S.C. § 842(a)(5). Each such shipment was a violation of 21 U.S.C. § 842(a)(5), and is subject to a civil penalty of up to $10,000.00 for each violation pursuant to 21 U.S.C. § 842(c)(1)(B)(i).

Resolution No: 113-5-17
Title: Adjudication of Concurrent Disciplinary Actions
Action: PASS

WHEREAS, the authority of state boards of pharmacy to enforce concurrent sister-state disciplinary actions can be an effective mechanism for regulating multi-state practices; and

WHEREAS, the potential for concurrent sister-state disciplinary actions may impact the initiating state board of pharmacy to fully adjudicate a matter;

THEREFORE BE IT RESOLVED that NABP encourage state boards of pharmacy that are reviewing another board's imposition of a disciplinary action to consider forgoing sister-state disciplinary action absent direct patient impact or harm in their own states; and

BE IT FURTHER RESOLVED that NABP collaborate with state boards of pharmacy to provide guidance on defining and enforcing qualifying concurrent sister-state disciplinary actions, particularly those that involve direct patient impact or harm in states other than the initiating board.

RE: Diamond Drugs, License No.: PH01640, WH01578 January 24, 2019

To Whom It May Concern:

Diamond Drugs, Inc. specializes in providing pharmacy services for institutional clients throughout the United States. We serve two major categories of clients – Correctional Facilities and Long-Term Care Homes, with separate business units within Diamond dedicated to each line of business. In 2013, Diamond began servicing various facilities in the Northern District of Ohio. Standard procedure for set-up of the facilities was followed whereby our pharmacist/account manager visited each site and evaluated their then-existing service model. We implemented procedures that mirrored that model as closely as possible while making modifications to adapt to our ordering/fulfillment systems and capabilities.

During the set-up process, it was determined that these facilities were capable of receiving stock from Diamond provided that each facility secured a valid Ohio Contingent Stock License. Once these state licenses were obtained, Diamond's Account Manager/Pharmacist ensure that security protocols were in place and followed, and periodically visited each site to review and audit the use of the controlled medication stock. The periodic visits occurred every 6 months, more frequently if necessary but as Diamond discovered later, the Ohio (and DEA) rules for handling of stock varied greatly from how facilities must handle their own stock orders.

In approximately July 2014, Diamond's facility in Indiana, PA was subjected to a regular DEA inspection from the Pittsburgh, PA field office. The inspectors noticed discrepancies in Diamond's handling of the Ohio facilities' stock as sold to the facility on delivery instead of contingent stock. The recommendation from the inspectors was to treat such stock as Emergency Drug Kits (EDKs) for these facilities. Our account manager/pharmacist contacted the DEA office for the Northern Ohio region in late July or early August of 2014, and explained the business model under which Diamond and the facilities were operating, and requested guidance as to how to convert the facilities to a DEA registration that would allow for compliance with DEA regulations.

After this conversation with the DEA, Agent Carter issued subpoenas for records at Oriana House. Counsel for Diamond and Diamond's Pharmacist/Account Manager had several telephone conferences with Agent Carter and other members of the DEA's Ohio office in mid-to-late August during which time a plan of action was agreed upon, and Diamond provided guidance to its Northern Ohio facilities as to the process for securing a license that would allow us to move forward with a compliant process. The DEA registration(s)

O/K to file per Dave 2/20/19

were in place for most locations by September 2014, with the final site securing its DEA-compliant registration in approximately December 2014. Since that time, Diamond did not send any contingency stock to any Northern Ohio location.

Thereafter, the DEA began investigating whether or not the prior procedure for handling controlled substance stock resulted in Diamond either (1) shipping controlled substances to non-registered locations and/or (2) dispensing drugs without a proper prescription..

As noted in its Complaint (Attached hereto as Exhibit A), the DEA viewed these prior procedures as being in conflict with DEA regulations. This discrepancy is rooted in the fact that once the emergency stock was on site at the facility, the medications were not dispensed by Diamond, but rather, administered by the facility to the ultimate user. It was Diamond's position that the subsequent delivery of the medications to the ultimate user was governed by the rules for practitioner administration (21 C.F.R. §1306.21). Therefore, Diamond did not retain copies of prescriptions nor did Diamond require a telephone order from the practitioner that was to be subsequently reduced to writing by Diamond.

It is worth noting that it was specifically stated to Diamond by both the DEA and Assistant United States Attorney (AUSA) that no part of the Complaint or investigation alleged or concerned diversion of controlled substances.

Diamond initiated the conversations with the DEA's Northern Ohio District in order to ensure that our transactions with these facilities would be in compliance with DEA regulations. When DEA noted discrepancies between their interpretation of the regulations and our policies and procedures for these facilities, Diamond took immediate action to bring these transactions in line with DEA's interpretations.

Once the DEA brought this action, Diamond cooperated fully with the DEA and the Assistant United States Attorney. As noted in the Consent Judgment (Attached as Exhibit B) Diamond and Settled all claims with the U.S. in exchange for dismissal of the Complaint.

Thank you, in advance, for your consideration of this matter. If you have any questions or require additional information, please do not hesitate to contact me.

Sincerely,

PARTIES

1. The Plaintiff in this action is the United States of America.

2. The Defendant, Diamond Drug, Inc., DBA Diamond Pharmacy Services (Diamond), is registered under 21 U.S.C. §§ 822 and 823 as a person authorized to dispense and distribute Schedule II, III, IV, and V controlled substances to the extent permitted by federal law, and has been assigned Registration Number BD1753640 by the Drug Enforcement Administration (DEA). Without a registration number, Diamond could not lawfully distribute or dispense controlled substances.

3. Diamond is a Pennsylvania corporation doing business in the Northern District of Ohio and advertises itself as the nation's largest correctional pharmacy provider and Pennsylvania's largest independently owned long-term care pharmacy.

JURISDICTION AND VENUE

4. This court has subject matter jurisdiction over this action pursuant to 21 U.S.C. § 842(c)(1)(A) and 28 U.S.C. §§ 1345 and 1355.

5. Venue is proper in this district pursuant to 28 U.S.C. § 1395(a) because Diamond is found in this district and the cause of action accrued in this district.

STATUTORY AND REGULATORY BACKGROUND

6. The CSA and its implementing regulations establish a closed system of distribution to reduce the likelihood that pharmaceutical controlled substances will be diverted into illicit channels and thereby harm public health and safety. This closed system, which includes registration, security, recordkeeping, and reporting requirements, ensures strict accountability for controlled substances and provides mechanisms to prevent and detect diversion. The Attorney General is authorized to promulgate regulations for "the registration and control of the manufacture, distribution, and dispensing of controlled substances." 21 U.S.C. §.821.

7. Controlled substances are organized into schedules according to the characteristics of each substance: drugs included in Schedule I have the greatest potential for abuse and do not have legitimate medical uses. Drugs included in Schedule II have a high potential for abuse but do have a legitimate medical use. Drugs included in Schedule III and IV also have a legitimate medical use but their potential for abuse is less than Schedule I or II drugs. Drugs included in Schedule V have legitimate medical uses and have the least potential for abuse. 21 U.S.C. § 812 (b).

8. For a controlled substance prescription to be valid, it must be issued for a legitimate medical purpose by a practitioner acting in the usual course of professional practice. 21 C.F.R. § 1306.04(a). There is no statutory or regulatory basis for a physician to delegate this responsibility to an agent or subordinate.

9. Under the CSA, a practitioner is a physician, dentist, veterinarian, or other individual licensed, registered, or otherwise permitted, by the United States or the jurisdiction in

which he/she practices, to dispense a controlled substance in the course of professional practice, but does not include a pharmacist or a pharmacy. 21 C.F.R. § 1300.01(b).

10. A pharmacist has a "corresponding responsibility" to fill only those prescriptions for controlled substances that have been issued in accordance with the CSA. 21 C.F.R. §§ 1306.04(a) and 1305.04(a).

11. Prescriptions are orders for medications dispensed to an ultimate user (patient) and are required to contain specific information including: patient name; address; drug name and strength; quantity prescribed; directions for use; and name, address, and DEA number of issuing practitioner and be dated as of and signed on, the day when issued. 21 C.F.R. §§ 1306.05(a); 1306.21(a).

12. Entities that dispense controlled substances, called "registrants" in DEA regulations, are required to have a valid DEA registration number. 21 C.F.R. §§ 1301.11(a); 1300.01.

13. No drugs listed in Schedule III through V may be dispensed without an electronic or signed written prescription of a practitioner, or an oral prescription of a practitioner. 21 U.S.C. §§ 829(b)(c); 353(b)(1); 21 C.F.R. § 1306.21.

FACTS

14. Diamond is a registrant under 21 U.S.C. §§ 822 and 823 and is therefore prohibited from dispensing Schedule II-V controlled substances without a written or oral prescription issued by a licensed practitioner. 21 U.S.C. § 829(b) and (c); 353(b)(1); 21 C.F.R. § 1306.21(a).

15. At all times relevant to the Complaint, Oriana House ADM, Oriana House Felony Drug Court Judge Nancy McDonnell CBCF, Lake Erie Correctional Institution, Tuscarawas

County Jail, Cliff Skeen CBCF for Women, and Summit County CBCF were not DEA registrants and thus could not lawfully dispense controlled substances to its resident patients without a valid prescription.

16. At all times relevant to the Complaint, Diamond dispensed Schedule III-IV drugs to resident patients of Oriana House ADM, Oriana House Felony Drug Court, Judge Nancy McDonnell CBCF, Lake Erie Correctional Institution, Tuscarawas County Jail, Cliff Skeen CBCF for Women, and Summit County CBCF through contingency stock located in these facilities.

17. Oriana House ADM is a twenty-four-hour, sixteen-bed, sub-acute drop-in center in Akron, Ohio, that accepts patients addicted to drugs and/or alcohol for detoxification. Oriana House ADM is operated by Oriana House, Inc., a community corrections and chemical dependency treatment agency, and is affiliated with the Summit County Alcohol, Drug Addiction & Mental Health (ADM) Services Board.

18. Oriana House Felony Drug Court operates under the control of Oriana House ADM in coordination with the Summit County Court of Common Pleas. Oriana House Felony Drug Court helps to accelerate the prosecution process and mandates substance abuse treatment and drug education for eligible offenders.

19. Judge Nancy McDonnell CBCF, Lake Erie Correctional Institution, Tuscarawas County Jail, Cliff Skeen CBCF for Women, and Summit County CBCF are correctional facilities located in the Northern District of Ohio.

20. At all times relevant to this Complaint, Diamond was approved by the State of Ohio Board of Pharmacy to maintain contingency stocks of controlled substances on the

premises of Oriana House ADM, Judge Nancy McDonnell CBCF, Lake Erie Correctional Institution, Tuscarawas County Jail, Cliff Skeen CBCF for Women, and Summit County CBCF.

21. At all times relevant to this Complaint, controlled substances were used to treat resident patients at Oriana House ADM, Oriana House Felony Drug Court, Judge Nancy McDonnell CBCF, Lake Erie Correctional Institution, Tuscarawas County Jail, Cliff Skeen CBCF for Women, and Summit County CBCF.

22. At all times relevant to this Complaint, the controlled substances present at Oriana House ADM, Oriana House Felony Drug Court, Judge Nancy McDonnell CBCF, Lake Erie Correctional Institution, Tuscarawas County Jail, Cliff Skeen CBCF for Women, and Summit County CBCF were supplied by Diamond as part of contingency stock. As a result, the controlled substances were under the control of Diamond and could only be removed for administration or dispensing to a patient pursuant to a legitimate prescription. 21 U.S.C. §§ 353(b), 829, and 842(a)(1); 21 C.F.R. §§ 1306.11 and 1306.21(a).

23. At all times relevant to this Complaint, the controlled substances at Oriana House ADM, Oriana House Felony Drug Court, Judge Nancy McDonnell CBCF, Lake Erie Correctional Institution, Tuscarawas County Jail, Cliff Skeen CBCF for Women, and Summit County CBCF were dispensed without a prescription in violation of 21 U.S.C. §§ 353(b); 829; and 842(a)(1); 21 C.F.R. §§ 1306.11 and 1306.21(a).

COUNT I

24. Plaintiff realleges and readopts the allegations set forth in paragraphs 1 through 23 as if fully rewritten herein.

25. Beginning on or about April 3, 2013, and thereafter until on or about August 14, 2014, Diamond dispensed or administered Schedule III and IV controlled substances without the

written or oral authorization of a practitioner in violation of 21 U.S.C. §§ 829(b) and 842(a)(1) and 21 C.F.R. § 1306.21(a). Each such instance was a violation of 21 U.S.C. § 842(a)(1) and is subject to a civil penalty of up to $25,000 for each violation pursuant to 21 U.S.C. § 842 (c)(1)(A).

26. Pursuant to 21 U.S.C. § 842(c)(1)(A), Diamond's failure to dispense Schedule III and IV controlled substances without a prescription subjects Diamond to civil penalties of not more than $25,000 for each violation.

PRAYER FOR RELIEF

WHEREFORE, the Plaintiff United States of America respectfully requests this Court to:

1. Enter judgment for the Plaintiff on Count I of the Complaint;

2. Impose a civil penalty on Defendant, Diamond Drug, Inc., DBA Diamond Pharmacy Services, of not more than $25,000 for each and every violation of 21 U.S.C. §§ 829(b) and 842(a)(1), the total amount of violations to be determined at trial;

3. Award the United States its costs in this action; and

4. Grant such other and further relief as is just and proper.

Respectfully submitted,

INSTRUCTIONS FOR ATTORNEYS COMPLETING CIVIL COVER SHEET FORM JS 44

Authority For Civil Cover Sheet

The JS 44 civil cover sheet and the information contained herein neither replaces nor supplements the filings and service of pleading or other papers as required by law, except as provided by local rules of court. This form, approved by the Judicial Conference of the United States in September 1974, is required for the use of the Clerk of Court for the purpose of initiating the civil docket sheet. Consequently, a civil cover sheet is submitted to the Clerk of Court for each civil complaint filed. The attorney filing a case should complete the form as follows:

I.(a) **Plaintiffs-Defendants.** Enter names (last, first, middle initial) of plaintiff and defendant. If the plaintiff or defendant is a government agency, use only the full name or standard abbreviations. If the plaintiff or defendant is an official within a government agency, identify first the agency and then the official, giving both name and title.

(b) **County of Residence.** For each civil case filed, except U.S. plaintiff cases, enter the name of the county where the first listed plaintiff resides at the time of filing. In U.S. plaintiff cases, enter the name of the county in which the first listed defendant resides at the time of filing. (NOTE: In land condemnation cases, the county of residence of the "defendant" is the location of the tract of land involved.)

(c) **Attorneys.** Enter the firm name, address, telephone number, and attorney of record. If there are several attorneys, list them on an attachment, noting in this section "(see attachment)".

II. **Jurisdiction.** The basis of jurisdiction is set forth under Rule 8(a), F.R.Cv.P., which requires that jurisdictions be shown in pleadings. Place an "X" in one of the boxes. If there is more than one basis of jurisdiction, precedence is given in the order shown below.
United States plaintiff. (1) Jurisdiction based on 28 U.S.C. 1345 and 1348. Suits by agencies and officers of the United States are included here.
United States defendant. (2) When the plaintiff is suing the United States, its officers or agencies, place an "X" in this box.
Federal question. (3) This refers to suits under 28 U.S.C. 1331, where jurisdiction arises under the Constitution of the United States, an amendment to the Constitution, an act of Congress or a treaty of the United States. In cases where the U.S. is a party, the U.S. plaintiff or defendant code takes precedence, and box 1 or 2 should be marked.
Diversity of citizenship. (4) This refers to suits under 28 U.S.C. 1332, where parties are citizens of different states. When Box 4 is checked, the citizenship of the different parties must be checked. (See Section III below; NOTE: federal question actions take precedence over diversity cases.)

III. **Residence (citizenship) of Principal Parties.** This section of the JS 44 is to be completed if diversity of citizenship was indicated above. Mark this section for each principal party.

IV. **Nature of Suit.** Place an "X" in the appropriate box. If there are multiple nature of suit codes associated with the case, pick the nature of suit code that is most applicable. Click here for: Nature of Suit Code Descriptions.

V. **Origin.** Place an "X" in one of the seven boxes.
Original Proceedings. (1) Cases which originate in the United States district courts.

NEVADA STATE BOARD

Nevada Board of Pharmacy
License No. PH01640
License No. WH01578

Please accept this correspondence as Diamond's notification to your Board of the "Stipulation and Final Agency Order" ("Order" attached as Exhibit A) entered the Colorado State Board of Pharmacy ("CO BOP"). Per the terms of this Order, Diamond was issued a Letter of Admonition and required to pay a $500.00 fine. It is Diamond's sincerely held belief that the a "Letter of Admonishment" does not amount to a formal disciplinary action. However, in the interest of full transparency and in an effort to use an abundance of caution in the reporting of disciplinary events, Diamond hereby notifies your Honorable Board of the Order.

Diamond is a corporation organized under the laws of the Commonwealth of Pennsylvania and licensed by the Pennsylvania Board of Pharmacy. At our Indiana, PA headquarters, we operate a closed-door pharmacy that employs approximately 85 full-time pharmacists, all of whom are licensed in the Commonwealth of Pennsylvania, and many of whom hold licenses across 48 states and the District of Columbia. From Indiana, PA, we provide pharmacy services to correctional facilities throughout the United States and its territories. Additionally, we have separate divisions and wholly-owned subsidiaries that include Diamond Wholesale. Diamond's wholesale division is licensed to operate in several jurisdictions throughout the United States. As discussed below, the action taken by the CO BOP relates to Diamond Pharmacy's failure to timely notify the CO BOP of an Administrative Action taken against Diamond's wholesale division.

As noted above, the CO BOP's action against Diamond stems from a civil case initiated by the United States Drug Enforcement Agency in 2017. That DEA case was brought against Diamond's wholesale distribution division for events that took place between 2013 and 2014 in the Northern District of Ohio. Diamond entered into a Settlement Agreement with the DEA in late 2018. In accordance with applicable laws, Diamond sent a notification/explanation letter to all boards of pharmacy on or about January 25, 2019. For reference, a copy of this letter and its supporting documentation are attached as Exhibit B. The DEA's civil case did not impact patient safety or implicate diversion of controlled substances. Instead, the DEA alleged deficiencies in how Diamond distributed and documented the use of emergency drug kits in several correctional facilities.

Diamond acknowledges its disciplinary history, and the informal action taken against it by the CO BOP, but urges other boards of pharmacy to follow the recommendation of the National Association of Boards of Pharmacy ("NABP") and consider foregoing any further sister-state discipline for these events. NABP Resolution 113-5-17 encourages state boards of pharmacy deciding whether to impose sister-state discipline to "consider forgoing sister-state

disciplinary action absent direct patient impact or harm in their own states." It was important to the NABP and its state members when passing Resolution 113-5-17 to ensure that the nation-wide practice of sister-state discipline does not exceed practical bounds. Specifically, the purpose of the Resolution is to encourage state boards of pharmacy to consider the practical implications of imposing sister-state discipline and whether the discipline imposed is based on actions that actually implicate patients in the state.

Therefore, given the absence of patient harm in both the Order and the underlying action that gave rise to the Order, we respectfully request your board to follow the direction of the NABP and decide to not impose any disciplinary action against Diamond in relation to the Order.

Thank you very much for your consideration of this matter. Please do not hesitate to contact me if you have any questions or require additional information.

Sincerely,
/s/ Gerald O'Brien

DIAMOND

RE: Diamond Drugs, License No.: PH01640, WH01578 January 24, 2019

To Whom It May Concern:

Diamond Drugs, Inc. specializes in providing pharmacy services for institutional clients throughout the United States. We serve two major categories of clients – Correctional Facilities and Long-Term Care Homes, with separate business units within Diamond dedicated to each line of business. In 2013, Diamond began servicing various facilities in the Northern District of Ohio. Standard procedure for set-up of the facilities was followed whereby our pharmacist/account manager visited each site and evaluated their then-existing service model. We implemented procedures that mirrored that model as closely as possible while making modifications to adapt to our ordering/fulfillment systems and capabilities.

During the set-up process, it was determined that these facilities were capable of receiving stock from Diamond provided that each facility secured a valid Ohio Contingent Stock License. Once these state licenses were obtained, Diamond's Account Manager/Pharmacist ensure that security protocols were in place and followed, and periodically visited each site to review and audit the use of the controlled medication stock. The periodic visits occurred every 6 months, more frequently if necessary but as Diamond discovered later, the Ohio (and DEA) rules for handling of stock varied greatly from how facilities must handle their own stock orders.

In approximately July 2014, Diamond's facility in Indiana, PA was subjected to a regular DEA inspection from the Pittsburgh, PA field office. The inspectors noticed discrepancies in Diamond's handling of the Ohio facilities' stock as sold to the facility on delivery instead of contingent stock. The recommendation from the inspectors was to treat such stock as Emergency Drug Kits (EDKs) for these facilities. Our account manager/pharmacist contacted the DEA office for the Northern Ohio region in late July or early August of 2014, and explained the business model under which Diamond and the facilities were operating, and requested guidance as to how to convert the facilities to a DEA registration that would allow for compliance with DEA regulations.

After this conversation with the DEA, Agent Carter issued subpoenas for records at Oriana House. Counsel for Diamond and Diamond's Pharmacist/Account Manager had several telephone conferences with Agent Carter and other members of the DEA's Ohio office in mid-to-late August during which time a plan of action was agreed upon, and Diamond provided guidance to its Northern Ohio facilities as to the process for securing a license that would allow us to move forward with a compliant process. The DEA registration(s)

were in place for most locations by September 2014, with the final site securing its DEA-compliant registration in approximately December 2014. Since that time, Diamond did not send any contingency stock to any Northern Ohio location.

Thereafter, the DEA began investigating whether or not the prior procedure for handling controlled substance stock resulted in Diamond either (1) shipping controlled substances to non-registered locations and/or (2) dispensing drugs without a proper prescription..

As noted in its Complaint (Attached hereto as Exhibit A), the DEA viewed these prior procedures as being in conflict with DEA regulations. This discrepancy is rooted in the fact that once the emergency stock was on site at the facility, the medications were not dispensed by Diamond, but rather, administered by the facility to the ultimate user. It was Diamond's position that the subsequent delivery of the medications to the ultimate user was governed by the rules for practitioner administration (21 C.F.R. §1306.21). Therefore, Diamond did not retain copies of prescriptions nor did Diamond require a telephone order from the practitioner that was to be subsequently reduced to writing by Diamond.

It is worth noting that it was specifically stated to Diamond by both the DEA and Assistant United States Attorney (AUSA) that no part of the Complaint or investigation alleged or concerned diversion of controlled substances.

Diamond initiated the conversations with the DEA's Northern Ohio District in order to ensure that our transactions with these facilities would be in compliance with DEA regulations. When DEA noted discrepancies between their interpretation of the regulations and our policies and procedures for these facilities, Diamond took immediate action to bring these transactions in line with DEA's interpretations.

Once the DEA brought this action, Diamond cooperated fully with the DEA and the Assistant United States Attorney. As noted in the Consent Judgment (Attached as Exhibit B) Diamond and Settled all claims with the U.S. in exchange for dismissal of the Complaint.

Thank you, in advance, for your consideration of this matter. If you have any questions or require additional information, please do not hesitate to contact me.

Nevada Board of Pharmacy
RE: Maine State Board of Pharmacy: 2019-PHA-16503
License No. PH01640, WH01578

Please accept this correspondence as Diamond's notification to your Board of a "Consent Agreement" ("Agreement" attached as Exhibit A) entered into by Diamond Drugs, Inc., d/b/a Diamond Pharmacy Services ("Diamond") and the Maine State Board of Pharmacy ("ME BOP"). In the interest of full transparency and in in accordance with applicable statutes and regulations, Diamond hereby notifies your honorable Board of the Agreement.

Diamond is a corporation organized under the laws of the Commonwealth of Pennsylvania and licensed by the Pennsylvania Board of Pharmacy. At our Indiana, PA headquarters, we operate a closed-door pharmacy that employs approximately 85 full-time pharmacists, all of whom are licensed in the Commonwealth of Pennsylvania, and many of whom hold out-of-state licenses in 48 states and the District of Columbia. From Indiana, PA, we provide pharmacy services to correctional facilities throughout the United States and its territories. Additionally, we have separate divisions and wholly-owned subsidiaries that include Diamond Wholesale. Diamond's wholesale division is licensed to operate in several jurisdictions throughout the United States. This Agreement relates to Diamond's Wholesale Division. Diamond's Pharmacy division entered a separate (but substantively identical) agreement with the ME BOP earlier this year and reported said agreement to all Pharmacy Boards on or about April 23, 2020.

ME BOP's allegations against Diamond are based two sets of sister-state discipline brought against Diamond which were previously reported to your Board. The first, stems from a civil case initiated by the United States Drug Enforcement Agency in 2017. That DEA case was brought against Diamond's wholesale distribution division for events that took place between 2013 and 2014 in the Northern District of Ohio. Diamond entered into a Settlement Agreement with the DEA in late 2018. In accordance with applicable laws, Diamond sent a notification/explanation letter to all boards of pharmacy on or about January 25, 2019. Although we reported this action to the ME BOP and your Honorable Board, Diamond did not report this action within the timeframe prescribed by Maine statute.

The second, stems from a 2015 Consent Order Diamond entered into with the Oklahoma Board of Pharmacy. Diamond reported this action to the ME BOP and your Honorable Board on or about 2016. More specifically, as a result of the OK Order, several jurisdictions took formal and informal action against Diamond's Non-Resident Pharmacy licenses in 2017, 2018, and 2019. Many of these actions did not amount to formal disciplinary actions. Nonetheless, Diamond reported these events to the ME BOP and your Honorable Board within 30 days of the actions becoming final.

As previously reported to your Honorable Board, Colorado, Michigan, and Hawaii took action against Diamond in 2017. When Diamond submitted its 2017 Maine Non-Resident Wholesaler License renewal application, Diamond did not disclose the CO, MI, and HI actions because Diamond misinterpreted the questions on Maine's renewal application. However, it is important to note that these actions were reported to Maine before Diamond submitted its 2017 renewal application. Additionally, these actions were levied against Diamond's Pharmacy division not its Wholesaler division.

When completing its Maine 2018 renewal application, Diamond recognized that it should have listed the CO, MI, and HI events on its 2017 renewal application. Therefore, in an effort to resolve this oversight, Diamond disclosed these actions (and other related sister-state actions) on its 2018 Maine renewal application. However, Diamond's efforts to mitigate its 2017 error did not preclude the ME BOP from bringing an action against Diamond for failing to disclose CO, MI, and HI on its 2017 renewal application.

Lastly, despite having reported the 2017, 2018, and 2019 actions to the ME BOP, Diamond failed to report them within the timeframe prescribed by Maine statute because Maine's timeframe is the shortest in the country.

As a result of the administrative failures discussed above, in March 2020, the ME BOP sent Diamond an agreement wherein it stated that the ME BOP will forgo bringing an action against Diamond's Non-Resident Pharmacy License provided Diamond accepts a "Reprimand" and pays a $1,725.00 Civil Penalty. In an effort to promptly resolve Maine's allegation of sister-state discipline and continue providing pharmacy services to its Maine clients, Diamond agreed to enter into the Agreement. Thereafter, in August 2020, the ME BOP sent Diamond a nearly identical Agreement (Exhibit A) to be entered into by Diamond's Wholesale Division. In an effort to promptly resolve the allegation now levied against Diamond's Wholesale Division and continue servicing its Maine customers, Diamond once again accepted the ME BOP's offer. Please note, this Consent Agreement does NOT prohibit or restrict Diamond's ability to practice pharmacy in Maine.

Diamond acknowledges its disciplinary history, and the reprimand imposed by the ME BOP, but urges other boards of pharmacy to follow the recommendation of the National Association of Boards of Pharmacy ("NABP") and consider foregoing any further sister-state discipline for these events. NABP Resolution 113-5-17 (Attached hereto as "Exhibit B") encourages state boards of pharmacy deciding whether to impose sister-state discipline to "consider forgoing sister-state disciplinary action absent direct patient impact or harm in their own states." It was important to the NABP and its state members when passing Resolution 113-5-17 to ensure that the nation-wide practice of sister-state discipline does not exceed practical bounds. Specifically, the purpose of the Resolution is to encourage state boards of pharmacy to consider the practical implications of imposing sister-state discipline and whether the discipline imposed is based on actions that actually implicate patients in the state.

Therefore, given the absence of patient harm in both the Agreement and the underlying action that gave rise to the Agreement, we respectfully request your board to follow the direction of the NABP and decide to not impose any disciplinary action against Diamond in relation to the Agreement.

Thank you very much for your consideration of this matter. Please do not hesitate to contact me if you have any questions or require additional information.

Sincerely,

Complaint No. 2019-PHA-16503

PARTIES

This document is a Consent Agreement regarding the pending application of Diamond Pharmacy Services, for the renewal of its pharmaceutical wholesaler license. The parties to this Consent Agreement are: Diamond Pharmacy Services ("Diamond"), the Maine Board of Pharmacy ("the Board"), and the Office of the Maine Attorney General ("the Attorney General"). This Consent Agreement is entered into pursuant to 10 M.R.S. § 8003(5-A).

STATEMENT OF FACTS

1. Since June 17, 2004, Diamond has been licensed in Maine as a pharmaceutical wholesaler with a registered location of 665 Kolter Drive in Indiana, Pennsylvania (license number WH70000698).

2. On November 30, 2015, the Oklahoma State Board of Pharmacy imposed discipline against Diamond's Oklahoma non-resident pharmacy license pursuant to an Agreed Findings of Fact, Conclusions of Law and Final Order in Case No. 1368 for failing to employ a pharmacy manager and misrepresenting on a license application that it had employed a pharmacy manager ("the 2015 Oklahoma Discipline").

3. On March 15, 2017, the Colorado State Board of Pharmacy imposed discipline against Diamond's Non-Resident Prescription Drug Outlet license (OSP 5266) pursuant to a

Stipulation and Final Agency Order in Case No. 2016-776, for failing to report the 2015 Oklahoma Discipline ("the 2017 Colorado Discipline").

4. On June 15, 2017, the Hawaii Board of Pharmacy imposed discipline against Diamond's Hawaii pharmacy permit (#PMP-85) pursuant to Settlement Agreement Prior to Filing of Petition for Disciplinary Action and Board's Final Order #PHA-2017-0021-L failing to timely report the 2015 Oklahoma Discipline ("the 2017 Hawaii Discipline").

5. On August 6, 2017, the Michigan Board of Pharmacy imposed discipline against Diamond's Michigan pharmacy license (#53-01-007149) pursuant to Final Order #53-16-144536, for failing to timely report the 2015 Oklahoma Discipline ("the 2017 Michigan Discipline").

6. On November 7, 2017, Diamond filed an online renewal application with the Board and responded "No" to the following question: "Since your last renewal, has any jurisdiction taken disciplinary action against any professional license you hold (except this license) or have held or denied your application for licensure?" Diamond then failed to report the 2017 Colorado, 2017 Michigan, and 2017 Hawaii Discipline.

7. The Board accordingly renewed Diamond's pharmaceutical wholesaler license.

8. On April 26, 2018, the Texas State Board of Pharmacy imposed discipline against Diamond's Texas pharmacy license (#16925) pursuant to Agreed Board Order #F-17-035, for failing to report the 2015 Oklahoma Discipline the 2017 Colorado Discipline, and the 2017 Michigan Discipline ("the 2018 Texas Discipline").

9. On October 12, 2018, the Colorado State Board of Pharmacy imposed discipline against Diamond 's Colorado pharmacy license (#OSP 5266) pursuant to a Letter of Admonition Case No. 2018-6085, for failing to timely report the 2018 Texas Discipline ("the 2018 Colorado Discipline").

10. On November 5, 2018, Diamond filed a renewal application with the Board and reported to the Board for the first time the 2017 Colorado Discipline, the 2017 Michigan Discipline, the 2017 Hawaii Discipline, and the 2018 Texas Discipline.

11. On November 14, 2018, the Louisiana Board of Pharmacy imposed discipline against Diamond's Louisiana permit (#4594) pursuant to a Consent Order in Case No.178-0080, for failing to disclose the 2017 Colorado Discipline, and the 2017 Michigan Discipline ("the 2018 Louisiana Discipline").

12. On November 29, 2018, the United States District Court for the Northern District of Ohio Eastern Division entered a consent judgment that settled an action by the United States against Diamond's DEA registration (#BD1753640) in Case No. 5:17-cv-02348, and imposed civil penalties for violating the Controlled Substances Act of 1970 for dispensing controlled drugs from its emergency kit without a valid prescription ("the 2018 DEA Judgment").

13. On December 10, 2018, Diamond reported to the Board for the first time the 2018 Louisiana Discipline.

14. Diamond failed to report all of the discipline from other jurisdictions to the Board within 10 days as required by 10 M.R.S. § 8003-G(2)(C).

15. Pursuant to 10 M.R.S. § 8003(5-A)(A)(11) and 10 M.R.S. § 8003-G(2)(C), the Board may deny, refuse to renew, suspend, or revoke a license and impose other discipline for failing to report a license disciplinary action to the Board within 10 days of that action.

16. At its meeting on November 7, 2019, the Board reviewed the above information and voted to preliminarily deny Diamond's application for renewal of its license to be a pharmaceutical wholesaler. In lieu of the denial, the Board also voted to offer Diamond this Consent Agreement. Unless Diamond either requests, in writing, a hearing regarding the appeal of the preliminary denial

within thirty (30) days of receipt of the Notice of Preliminary Denial, or accepts this Consent Agreement by signing and dating it and returning it to Maine Board of Pharmacy, Compliance Division, Office of Professional and Occupational Regulation, 35 State House Station, Augusta, ME 04333, by **September 13, 2020**, the preliminary denial of Diamond's application for licensure as a pharmaceutical wholesaler will become final.

COVENANTS

17. Diamond admits to the facts above and admits that such conduct constitutes grounds for denial of or refusal to renew its license and for the imposition of discipline as follows:

a. Pursuant to 10 M.R.S. §§ 8003(5-A)(A)(11), and 10 M.R.S. § 8003-G(2)(C) for failing to report disciplinary action taken against a license in another jurisdiction within 10 days after the action was taken; and

b. Pursuant to 10 M.R.S. § 8003(5-A)(A)(1), for making a misrepresentation to the Board on its November 7, 2017 application for renewal of licensure.

18. As discipline for the violation admitted to in paragraph 17 above, Diamond agrees to accept the following DISCIPLINARY ACTION:

a) A REPRIMAND; and

b) A CIVIL PENALTY in the amount of one thousand seven hundred fifty dollars ($1,750.00), which penalty is comprised of a $1,500.00 for misrepresentation on its application and $250.00 for failing to report discipline within 10 days, payment of which shall be made by certified check or money order payable to the "Treasurer, State of Maine" and delivered to Maine Board of Pharmacy, Compliance Division, Office of Professional and Occupational

Regulation, 35 State House Station, Augusta, Maine 04333, and must be submitted with the signed Consent Agreement.

19. Upon receipt of this signed Consent Agreement with the enclosed payment of the civil penalty from Diamond, the Board will renew Diamond's license contingent upon it meeting all other eligibility criteria.

20. Violation of any of the terms or conditions of this Consent Agreement by Diamond shall constitute grounds for discipline, including but not limited to modification, suspension, or revocation of licensure or the denial of licensure or re-licensure.

21. The Board and Diamond agree that no further agency action will be initiated against its license by the Board based upon the specific violations admitted to herein, except or unless Diamond fails to comply with the terms and conditions of this Consent Agreement. The Board may however consider the conduct described above as evidence of a pattern of misconduct if other allegations are brought against Diamond, and this Consent Agreement will be admitted into evidence in any future adjudicatory hearing involving Diamond. The Board may also consider the fact that discipline was imposed by this Consent Agreement in determining appropriate discipline in any further complaints against Diamond .

22. This Consent Agreement is not appealable and is effective until modified or rescinded by the parties hereto.

23. The Board and the Attorney General may communicate and cooperate regarding any matter related to this Consent Agreement.

24. This Consent Agreement is a public record within the meaning of 1 M.R.S. § 402 and will be available for inspection and copying by the public pursuant to 1 M.R.S. § 408-A.

25. Nothing in this Consent Agreement shall be construed to affect any right or interest of any person not a party hereto.

26. Diamond acknowledges by its duly authorized representative's signature hereto that it has had an opportunity to consult with an attorney before executing this Consent Agreement, that it executes this Consent Agreement voluntarily, and that it agrees to abide by all terms and conditions set forth herein.

Please accept this correspondence as Diamond's notification to your Board of a "Consent Agreement" ("Agreement" attached as Exhibit A) entered into by Diamond Drugs, Inc., d/b/a Diamond Pharmacy Services ("Diamond") and the Maine State Board of Pharmacy ("ME BOP"). On its November 28, 2017 renewal application Diamond responded "No" to the following question: "Since your last renewal, has any jurisdiction taken disciplinary action against any professional license you hold (except this license) or have held or denied your application for licensure?" Diamond then failed to report the 2017 Colorado, 2017 Michigan, and 2017 Hawaii Discipline.

7. The Board accordingly renewed Diamond's mail order prescription pharmacy license number MO40000555.

8. On April 26, 2018, the Texas State Board of Pharmacy imposed discipline against Diamond's Texas pharmacy license (#16925) pursuant to Agreed Board Order #F-17-035, for failing to report the 2015 Oklahoma Discipline the 2017 Colorado Discipline, and the 2017 Michigan Discipline ("the 2018 Texas Discipline").

9. On October 12, 2018, the Colorado State Board of Pharmacy imposed discipline against Diamond 's Colorado pharmacy license (#OSP 5266) pursuant to a Letter of Admonition Case No. 2018-6085, for failing to timely report the 2018 Texas Discipline ("the 2018 Colorado Discipline").

10. On its November 5, 2018, renewal application Diamond reported to the Board for the first time the 2017 and 2018 Colorado Discipline, the 2017 Michigan Discipline, the 2017 Hawaii Discipline, the 2018 Texas Discipline, and the 2015 Oklahoma Discipline.

11. On November 14, 2018, the Louisiana Board of Pharmacy imposed discipline against Diamond's Louisiana permit (#4594) pursuant to a Consent Order in Case No.18-0080, for failing to disclose the 2017 Colorado Discipline, and the 2017 Michigan Discipline ("the 2018 Louisiana Discipline").

12. On November 29, 2018, the United States District Court for the Northern District of Ohio Eastern Division entered a consent judgment that settled an action by the United States against Diamond's DEA registration (#BD1753640) in Case No. 5:17-cv-02348, and imposed civil penalties for violating the Controlled Substances Act of 1970 for dispensing controlled drugs from its emergency kit without a valid prescription ("the 2018 DEA Judgment").

13. On September 24, 2019, the Alabama State Board of Pharmacy imposed discipline against Diamond's Alabama non-resident pharmacy permit (#112716) pursuant to the Final Order in Case Nos. 16-L-0126, 18-L-0098, and 19-L-0036 for failing to disclose the 2015 Oklahoma, 2018 Louisiana, 2018 Texas, and 2017 Colorado Discipline, and the 2018 DEA Judgment ("the 2019 Alabama Discipline").

14. On December 10, 2018, Diamond reported to the Board for the first time the 2018 Louisiana Discipline.

15. On November 6, 2019, Diamond reported to the Board for the first time the 2019 Alabama Discipline.

16. Diamond failed to report all of the discipline from other jurisdictions to the Board within 10 days as required by 10 M.R.S. § 8003-G(2)(C).

17. Pursuant to 10 M.R.S. § 8003(5-A)(A)(11) and 10 M.R.S. § 8003-G(2)(C), the Board may deny, refuse to renew, suspend, or revoke a license and impose other discipline for failing to report a license disciplinary action to the Board within 10 days of that action.

18. At its meeting on October 3, 2019, the Board reviewed the above information and voted to preliminarily deny Diamond's application for renewal of its license to be a mail order prescription pharmacy. In lieu of the denial, the Board also voted to offer Diamond this Consent Agreement. Unless Diamond either requests, in writing, a hearing regarding the appeal of the preliminary denial within thirty (30) days of receipt of the Notice of Preliminary Denial, or accepts this Consent Agreement by signing and dating it and returning it to Complaint Division, 35 State House Station, Augusta, ME 04333, by March 30, 2020, the preliminary denial of Diamond 's application for licensure as a mail order prescription pharmacy will become final.

COVENANTS

21. Upon receipt of this signed Consent Agreement with the enclosed payment of the civil penalty from Diamond , the Board will renew Diamond's license.

22. Violation of any of the terms or conditions of this Consent Agreement by Diamond shall constitute grounds for discipline, including but not limited to modification, suspension, or revocation of licensure or the denial of licensure or re-licensure.

23. The Board and Diamond agree that no further agency action will be initiated against its license by the Board based upon the specific violations admitted to herein, except or unless Diamond fails to comply with the terms and conditions of this Consent Agreement. in any future adjudicatory hearing involving Diamond . The Board may also consider the fact that discipline was imposed by this Consent Agreement in determining appropriate discipline in any further complaints against Diamond .

24. This Consent Agreement is not appealable and is effective until modified or rescinded by the parties hereto.

25. The Board and the Attorney General may communicate and cooperate regarding any matter related to this Consent Agreement.

26. Upon receipt of the signed Consent Agreement and the civil penalty payment, the Board will renew Diamond 's license contingent upon it meeting all other eligibility criteria.

28. Nothing in this Consent Agreement shall be construed to affect any right or interest of any person not a party hereto.

29. Diamond acknowledges by its duly authorized representative's signature hereto that it has had an opportunity to consult with an attorney before executing this Consent Agreement, that it executes this Consent Agreement voluntarily, and that it agrees to abide by all terms and conditions set forth herein.

Board: **Nevada Board of Pharmacy**
RE: License No. **PH01640**
License No. **WHO1578**

Please accept this correspondence as Diamond's notification to your Board of a "Settlement Agreement Prior to the Filing of Petition for Formal Disciplinary Action and Board's Final Order" ("Agreement" attached as Exhibit A) entered into by Diamond Drugs, Inc., d/b/a Diamond Pharmacy Services ("Diamond") and the Hawaii Department of Commerce and Consumer Affairs ("Hawaii"). It is Diamond's sincerely held belief that the Agreement with Hawaii does not amount to a formal disciplinary action. However, in the interest of full transparency and in an effort to use an abundance of caution in the reporting of disciplinary events, Diamond hereby notifies your honorable Board of the Agreement.

Diamond is a corporation organized under the laws of the Commonwealth of Pennsylvania and licensed by the Pennsylvania Board of Pharmacy. At our Indiana, PA headquarters, we operate a closed-door pharmacy that employs approximately 85 full-time pharmacists, all of whom are licensed in the Commonwealth of Pennsylvania, and many of whom hold out-of-state licenses in 48 states and the District of Columbia. From Indiana, PA, we provide pharmacy services to correctional facilities throughout the United States and its territories. Additionally, we have separate divisions and wholly-owned subsidiaries that include Diamond Wholesale. Diamond's wholesale division is licensed to operate in several jurisdictions throughout the United States. As discussed below, the action taken by Hawaii relates to activities by Diamond's wholesale division, and not the actions of Diamond Pharmacy Services, although Hawaii's allegation is against Diamond's Hawaii out-of-state pharmacy license.

Hawaii's allegation against Diamond is based on sister-state discipline stemming from a civil case initiated by the United States Drug Enforcement Agency in 2017. That DEA case was brought against Diamond's wholesale distribution division for events that took place between 2013 and 2014 in the Northern District of Ohio. Diamond entered into a Settlement Agreement with the DEA in late 2018. In accordance with applicable laws, Diamond sent a notification/explanation letter to all boards of pharmacy on or about January 25, 2019. For reference, a copy of this letter and its supporting documentation are attached as Exhibit B. The DEA's civil case did not impact patient safety or implicate diversion of controlled substances. Instead, the DEA alleged deficiencies in how Diamond distributed and documented the use of emergency drug kits in several correctional facilities.

After receiving Diamond's notification of the settlement with the DEA, Hawaii alleged that an adverse action in another jurisdiction (the Northern District of Ohio) amounts to a violation of Hawaii pharmacy law. In an effort to promptly resolve Hawaii's allegation of sister-

state discipline, Diamond agreed to enter into the Agreement with Hawaii in exchange for Hawaii forgoing a formal disciplinary action against Diamond.

Diamond acknowledges its disciplinary history, and the informal action taken against it by Hawaii, but urges other boards of pharmacy to follow the recommendation of the National Association of Boards of Pharmacy ("NABP") and consider foregoing any further sister-state discipline for these events. NABP Resolution 113-5-17 encourages state boards of pharmacy deciding whether to impose sister-state discipline to "consider forgoing sister-state disciplinary action absent direct patient impact or harm in their own states." It was important to the NABP and its state members when passing Resolution 113-5-17 to ensure that the nation-wide practice of sister-state discipline does not exceed practical bounds. Specifically, the purpose of the Resolution is to encourage state boards of pharmacy to consider the practical implications of imposing sister-state discipline and whether the discipline imposed is based on actions that actually implicate patients in the state.

Therefore, given the absence of patient harm in both the Agreement and the underlying action that gave rise to the Agreement, we respectfully request your board to follow the direction of the NABP and decide to not impose any disciplinary action against Diamond in relation to the Agreement.

Thank you very much for your consideration of this matter. Please do not hesitate to contact me if you have any questions or require additional information.

Sincerely,

RE: Diamond Drugs, License No.: _____

To Whom It May Concern:

Diamond Drugs, Inc. specializes in providing pharmacy services for institutional clients throughout the United States. We serve two major categories of clients – Correctional Facilities and Long-Term Care Homes, with separate business units within Diamond dedicated to each line of business. In 2013, Diamond began servicing various facilities in the Northern District of Ohio. Standard procedure for set-up of the facilities was followed whereby our pharmacist/account manager visited each site and evaluated their then-existing service model. We implemented procedures that mirrored that model as closely as possible while making modifications to adapt to our ordering/fulfillment systems and capabilities.

During the set-up process, it was determined that these facilities were capable of receiving stock from Diamond provided that each facility secured a valid Ohio Contingent Stock License. Once these state licenses were obtained, Diamond's Account Manager/Pharmacist ensure that security protocols were in place and followed, and periodically visited each site to review and audit the use of the controlled medication stock. The periodic visits occurred every 6 months, more frequently if necessary but as Diamond discovered later, the Ohio (and DEA) rules for handling of stock varied greatly from how facilities must handle their own stock orders.

In approximately July 2014, Diamond's facility in Indiana, PA was subjected to a regular DEA inspection from the Pittsburgh, PA field office. The inspectors noticed discrepancies in Diamond's handling of the Ohio facilities' stock as sold to the facility on delivery instead of contingent stock. The recommendation from the inspectors was to treat such stock as Emergency Drug Kits (EDKs) for these facilities. Our account manager/pharmacist contacted the DEA office for the Northern Ohio region in late July or early August of 2014, and explained the business model under which Diamond and the facilities were operating, and requested guidance as to how to convert the facilities to a DEA registration that would allow for compliance with DEA regulations.

After this conversation with the DEA, Agent Carter issued subpoenas for records at Oriana House. Counsel for Diamond and Diamond's Pharmacist/Account Manager had several telephone conferences with Agent Carter and other members of the DEA's Ohio office in mid-to-late August during which time a plan of action was agreed upon, and Diamond provided guidance to its Northern Ohio facilities as to the process for securing a license that would allow us to move forward with a compliant process. The DEA registration(s)

were in place for most locations by September 2014, with the final site securing its DEA-compliant registration in approximately December 2014. Since that time, Diamond did not send any contingency stock to any Northern Ohio location.

Thereafter, the DEA began investigating whether or not the prior procedure for handling controlled substance stock resulted in Diamond either (1) shipping controlled substances to non-registered locations and/or (2) dispensing drugs without a proper prescription..

As noted in its Complaint (Attached hereto as Exhibit A), the DEA viewed these prior procedures as being in conflict with DEA regulations. This discrepancy is rooted in the fact that once the emergency stock was on site at the facility, the medications were not dispensed by Diamond, but rather, administered by the facility to the ultimate user. It was Diamond's position that the subsequent delivery of the medications to the ultimate user was governed by the rules for practitioner administration (21 C.F.R. §1306.21). Therefore, Diamond did not retain copies of prescriptions nor did Diamond require a telephone order from the practitioner that was to be subsequently reduced to writing by Diamond.

It is worth noting that it was specifically stated to Diamond by both the DEA and Assistant United States Attorney (AUSA) that no part of the Complaint or investigation alleged or concerned diversion of controlled substances.

Diamond initiated the conversations with the DEA's Northern Ohio District in order to ensure that our transactions with these facilities would be in compliance with DEA regulations. When DEA noted discrepancies between their interpretation of the regulations and our policies and procedures for these facilities, Diamond took immediate action to bring these transactions in line with DEA's interpretations.

Once the DEA brought this action, Diamond cooperated fully with the DEA and the Assistant United States Attorney. As noted in the Consent Judgment (Attached as Exhibit B) Diamond and Settled all claims with the U.S. in exchange for dismissal of the Complaint.

Thank you, in advance, for your consideration of this matter. If you have any questions or require additional information, please do not hesitate to contact me.

STATUTORY AND REGULATORY BACKGROUND

6. The CSA and its implementing regulations establish a closed system of distribution to reduce the likelihood that pharmaceutical controlled substances will be diverted into illicit channels and thereby harm public health and safety. This closed system, which includes registration, security, recordkeeping, and reporting requirements, ensures strict accountability for controlled substances and provides mechanisms to prevent and detect diversion. The Attorney General is authorized to promulgate regulations for "the registration and control of the manufacture, distribution, and dispensing of controlled substances." 21 U.S.C. §821.

7. Controlled substances are organized into schedules according to the characteristics of each substance: drugs included in Schedule I have the greatest potential for abuse and do not have legitimate medical uses. Drugs included in Schedule II have a high potential for abuse but do have a legitimate medical use. Drugs included in Schedule III and IV also have a legitimate medical use but their potential for abuse is less than Schedule I or II drugs. Drugs included in Schedule V have legitimate medical uses and have the least potential for abuse. 21 U.S.C. § 812 (b).

8. For a controlled substance prescription to be valid, it must be issued for a legitimate medical purpose by a practitioner acting in the usual course of professional practice. 21 C.F.R. § 1306.04(a). There is no statutory or regulatory basis for a physician to delegate this responsibility to an agent or subordinate.

9. Under the CSA, a practitioner is a physician, dentist, veterinarian, or other individual licensed, registered, or otherwise permitted, by the United States or the jurisdiction in

which he/she practices, to dispense a controlled substance in the course of professional practice, but does not include a pharmacist or a pharmacy. 21 C.F.R. § 1300.01(b).

10. A pharmacist has a "corresponding responsibility" to fill only those prescriptions for controlled substances that have been issued in accordance with the CSA. 21 C.F.R. §§ 1306.04(a) and 1305.04(a).

11. Prescriptions are orders for medications dispensed to an ultimate user (patient) and are required to contain specific information including: patient name; address; drug name and strength; quantity prescribed; directions for use; and name, address, and DEA number of issuing practitioner and be dated as of and signed on, the day when issued. 21 C.F.R. §§ 1306.05(a); 1306.21(a).

12. Entities that dispense controlled substances, called "registrants" in DEA regulations, are required to have a valid DEA registration number. 21 C.F.R. §§ 1301.11(a); 1300.01.

13. No drugs listed in Schedule III through V may be dispensed without an electronic or signed written prescription of a practitioner, or an oral prescription of a practitioner. 21 U.S.C. §§ 829(b)(c); 353(b)(1); 21 C.F.R. § 1306.21.

FACTS

14. Diamond is a registrant under 21 U.S.C. §§ 822 and 823 and is therefore prohibited from dispensing Schedule II-V controlled substances without a written or oral prescription issued by a licensed practitioner. 21 U.S.C. § 829(b) and (c); 353(b)(1); 21 C.F.R. § 1306.21(a).

15. At all times relevant to the Complaint, Oriana House ADM, Oriana House Felony Drug Court, Judge Nancy McDonnell CBCF, Lake Erie Correctional Institution, Tuscarawas

County Jail, Cliff Skeen CBCF for Women, and Summit County CBCF were not DEA registrants and thus could not lawfully dispense controlled substances to its resident patients without a valid prescription.

16. At all times relevant to the Complaint, Diamond dispensed Schedule III-IV drugs to resident patients of Oriana House ADM, Oriana House Felony Drug Court, Judge Nancy McDonnell CBCF, Lake Erie Correctional Institution, Tuscarawas County Jail, Cliff Skeen CBCF for Women, and Summit County CBCF through contingency stock located in these facilities.

17. Oriana House ADM is a twenty-four-hour, sixteen-bed, sub-acute drop-in center in Akron, Ohio, that accepts patients addicted to drugs and/or alcohol for detoxification. Oriana House ADM is operated by Oriana House, Inc., a community corrections and chemical dependency treatment agency, and is affiliated with the Summit County Alcohol, Drug Addiction & Mental Health (ADM) Services Board.

18. Oriana House Felony Drug Court operates under the control of Oriana House ADM in coordination with the Summit County Court of Common Pleas. Oriana House Felony Drug Court helps to accelerate the prosecution process and mandates substance abuse treatment and drug education for eligible offenders.

19. Judge Nancy McDonnell CBCF, Lake Erie Correctional Institution, Tuscarawas County Jail, Cliff Skeen CBCF for Women, and Summit County CBCF are correctional facilities located in the Northern District of Ohio.

20. At all times relevant to this Complaint, Diamond was approved by the State of Ohio Board of Pharmacy to maintain contingency stocks of controlled substances on the

premises of Oriana House ADM, Judge Nancy McDonnell CBCF, Lake Erie Correctional Institution, Tuscarawas County Jail, Cliff Skeen CBCF for Women, and Summit County CBCF.

21. At all times relevant to this Complaint, controlled substances were used to treat resident patients at Oriana House ADM, Oriana House Felony Drug Court, Judge Nancy McDonnell CBCF, Lake Erie Correctional Institution, Tuscarawas County Jail, Cliff Skeen CBCF for Women, and Summit County CBCF.

22. At all times relevant to this Complaint, the controlled substances present at Oriana House ADM, Oriana House Felony Drug Court, Judge Nancy McDonnell CBCF, Lake Erie Correctional Institution, Tuscarawas County Jail, Cliff Skeen CBCF for Women, and Summit County CBCF were supplied by Diamond as part of contingency stock. As a result, the controlled substances were under the control of Diamond and could only be removed for administration or dispensing to a patient pursuant to a legitimate prescription. 21 U.S.C. §§ 353(b), 829, and 842(a)(1); 21 C.F.R. §§ 1306.11 and 1306.21(a).

23. At all times relevant to this Complaint, the controlled substances at Oriana House ADM, Oriana House Felony Drug Court, Judge Nancy McDonnell CBCF, Lake Erie Correctional Institution, Tuscarawas County Jail, Cliff Skeen CBCF for Women, and Summit County CBCF were dispensed without a prescription in violation of 21 U.S.C. §§ 353(b), 829, and 842(a)(1); 21 C.F.R. §§ 1306.11 and 1306.21(a).

COUNT I

24. Plaintiff realleges and readopts the allegations set forth in paragraphs 1 through 23 as if fully rewritten herein.

25. Beginning on or about April 3, 2013, and thereafter until on or about August 14, 2014, Diamond dispensed or administered Schedule III and IV controlled substances without the

written or oral authorization of a practitioner in violation of 21 U.S.C. §§ 829(b) and 842(a)(1) and 21 C.F.R. § 1306.21(a). Each such instance was a violation of 21 U.S.C. § 842(a)(1) and is subject to a civil penalty of up to $25,000 for each violation pursuant to 21 U.S.C. § 842 (c)(1)(A).

26. Pursuant to 21 U.S.C. § 842(c)(1)(A), Diamond's failure to dispense Schedule III and IV controlled substances without a prescription subjects Diamond to civil penalties of not more than $25,000 for each violation.

PRAYER FOR RELIEF

WHEREFORE, the Plaintiff United States of America respectfully requests this Court to:

1. Enter judgment for the Plaintiff on Count I of the Complaint;

2. Impose a civil penalty on Defendant, Diamond Drug, Inc., DBA Diamond Pharmacy Services, of not more than $25,000 for each and every violation of 21 U.S.C. §§ 829(b) and 842(a)(1), the total amount of violations to be determined at trial;

3. Award the United States its costs in this action; and

4. Grant such other and further relief as is just and proper.

Respectfully submitted,

Authority For Civil Cover Sheet

The JS 44 civil cover sheet and the information contained herein neither replaces nor supplements the filings and service of pleading or other papers as required by law, except as provided by local rules of court. This form, approved by the Judicial Conference of the United States in September 1974, is required for the use of the Clerk of Court for the purpose of initiating the civil docket sheet. Consequently, a civil cover sheet is submitted to the Clerk of Court for each civil complaint filed. The attorney filing a case should complete the form as follows:

I.(a) **Plaintiffs-Defendants.** Enter names (last, first, middle initial) of plaintiff and defendant. If the plaintiff or defendant is a government agency, use only the full name or standard abbreviations. If the plaintiff or defendant is an official within a government agency, identify first the agency and then the official, giving both name and title.

(b) **County of Residence.** For each civil case filed, except U.S. plaintiff cases, enter the name of the county where the first listed plaintiff resides at the time of filing. In U.S. plaintiff cases, enter the name of the county in which the first listed defendant resides at the time of filing. (NOTE: In land condemnation cases, the county of residence of the "defendant" is the location of the tract of land involved.)

(c) **Attorneys.** Enter the firm name, address, telephone number, and attorney of record. If there are several attorneys, list them on an attachment, noting in this section "(see attachment)".

II. **Jurisdiction.** The basis of jurisdiction is set forth under Rule 8(a), F.R.Cv.P., which requires that jurisdictions be shown in pleadings. Place an "X" in one of the boxes. If there is more than one basis of jurisdiction, precedence is given in the order shown below.

SETTLEMENT AGREEMENT

This Settlement Agreement ("Agreement") is entered into among the United States of America, acting through the United States Department of Justice and on behalf of the Drug Enforcement Administration (DEA), (collectively the "United States"); and Diamond Drugs, Inc. d/b/a Diamond Pharmacy Services, ("Diamond Drugs") (hereafter collectively referred to as "the Parties"), through their authorized representatives.

RECITALS

A. Diamond Drugs provides pharmacy-related services to correctional and long-term care facilities in the United States. Diamond Drugs operates pursuant to Certificates of Registration issued by the DEA authorizing it to dispense controlled substances in accordance with the Controlled Substances Act (CSA), 21 U.S.C. §§ 801 - 904, and its implementing regulations, 21 C.F.R. §§ 1306.01 - 1306.27.

B. Diamond Drugs acknowledges that it is required to operate in accordance with the statutory and regulatory provisions of the CSA, 21 U.S.C. §§ 801 - 904 and 21 C.F.R. §§ 1306.01 - 1306.27.

C. On November 8, 2017, the United States filed an action in the United States District Court for the Northern District of Ohio captioned *United States v. Diamond Drug, Inc. d/b/a Diamond Pharmacy Services*, Case No. 5:17-cv-02348 (the "Civil Action").

D. The United States contends that it has certain civil penalty claims against Diamond Drugs arising from conduct and transactions during the period from April 2013 through August 2014, as specifically set forth in the United States' Amended Complaint filed on December 6, 2017 (ECF No. 10). This conduct is referred to below as the Covered Conduct.

E. At all times relevant to the Covered Conduct, the CSA, 21 U.S.C. § 842(c)(1)(A), authorized a civil penalty of not more than $25,000 for each violation of 21 U.S.C. § 842(a)(1).

F. This Settlement Agreement is neither an admission of liability by Diamond Drugs nor a concession by the United States that its claims are not well founded.

To avoid the delay, uncertainty, inconvenience, and expense of protracted litigation of the above claims, and in consideration of the mutual promises and obligations of this Settlement Agreement, the Parties agree and covenant as follows:

TERMS AND CONDITIONS

1. Diamond Drugs shall pay to the United States the sum of six hundred and twenty-five thousand dollars ($625,000.00) (the "Settlement Amount"). No later than twenty days after the effective date of this Agreement, Diamond Drugs will make an initial payment to the United States in the amount of three hundred and twelve thousand and five hundred dollars ($312,500). No later than May 30, 2019, Diamond Drugs will pay the remaining three hundred and twelve thousand and five hundred dollars ($312,500). All payments under this Agreement shall be made by electronic funds transfer pursuant to written instructions to be provided by the Office of the United States Attorney for the Northern District of Ohio.

2. Subject to the exceptions in Paragraph 4 (concerning excluded claims) below, and conditioned upon Diamond Drugs' full payment of the Settlement Amount, the United States releases Diamond Drugs from any civil penalty claims the United States has for the Covered Conduct under the CSA, 21 U.S.C. §§ 842(a)(1) and 842(c)(1)(A).

3. Notwithstanding the release given in paragraph 2 of this Agreement, or any other term of this Agreement, the following claims of the United States are specifically reserved and are not released:

a. Any liability arising under Title 26, U.S. Code (Internal Revenue Code);

b. Any criminal liability;

c. Except as explicitly stated in this Agreement, any administrative liability;

d. Any liability to the United States (or its agencies) for any conduct other than the Covered Conduct;

e. Any liability based upon obligations created by this Agreement;

f. Any liability of individuals.

g. Any liability for express or implied warranty claims or other claims for defective or deficient products of services, including quality of goods or services;

h. Any liability for failure to deliver goods or services due;

i. Any liability for personal injury or property damage or for other consequential damages arising from the Covered Conduct.

4. Should DEA initiate any administrative action, including denial, suspension, or revocation of Diamond Drugs' registration based on conduct that occurs after the Effective Date of this Agreement, nothing in this Agreement shall in any way preclude DEA from introducing evidence of any historical conduct on the part of Diamond Drugs, including conduct that gave rise to this Agreement. Should such an administrative proceeding arise, DEA may use such evidence as additional bases to support its proposed administrative action.

5. Diamond Drugs waives and shall not assert any defenses Diamond Drugs may have to any criminal prosecution or administrative action relating to the Covered Conduct that may be based in whole or in part on a contention that under the Double Jeopardy Clause in the Fifth Amendment of the Constitution, or under the Excessive Fines Clause in the Eighth Amendment of the Constitution, this Agreement bars a remedy sought in such criminal prosecution or administrate action.

6. Diamond Drugs fully and finally releases the United States, its agencies, officers, agents, employees, and servants, from any claims (including attorneys' fees, costs, and expenses of every kind and however denominated) that Diamond Drugs has asserted, could have asserted, or may assert in the future against the United States, its agencies, officers, agents, employees,

and servants, related to the Covered Conduct and the United States' investigation and prosecution thereof.

7. Diamond Drugs agrees to the following:

a. To whom it may Concern,

I was working my very first job as a Pharmacy Technician at Guardian Angel Pharmacy in El Paso, Texas. The Pharmacy owner and sometimes PIC will leave leaving us to run the Pharmacy on our own. The pharmacist/owner was planning on leaving out of the country for a few months and he wanted us to keep running the pharmacy the same way. We would have a part time pharmacist on certain days but he would be on-call just in case we needed him, after many attempts to try to talk to him and the rest of the staff about him leaving and letting him know it wasn't right I decided to report it to the state board. I called and made the report. The state board raided the place undercover on December 2006 during that time I processed a prescription, filled the prescription and dispensed the prescription to a undercover agent without a pharmacist being present. The undercover left and came back showed me her badge and asked me to close down the Pharmacy and to call the owner and the rest of the staff. The pharmacy was closed down and sanctioned, I was suspended for 3 months and on probation for 5 years that was cleared in 2011 during that time I never got in trouble again and have always kept up-to-date with my license.
Thank you for your time

Mirta Aidee Hernandez was the name I had when the incident happened. I became a US Citizen in 2014 and I changed my name to Mayra Aidee Hernandez.. I submitted a name change to the board and that's why my license is now under Mayra. Thank you for your time.

BEFORE THE TEXAS STATE
BOARD OF PHARMACY

On this day came on to be considered by the Texas State Board of Pharmacy the matter of pharmacy technician registration number 132651 issued to Mirta Aidee Hernandez.

By letter dated January 4, 2007, the Texas State Board of Pharmacy gave preliminary notice to Mirta Aidee Hernandez of its intent to take disciplinary action with respect to pharmacy technician registration number 132651 issued to Mirta Aidee Hernandez. Section 481.074(a)(1) and (4); Section 481.114(a) of the Texas Controlled Substances Act, Tex Health & Safety Code Ann. (2005), in that allegedly:

PREVIOUS HISTORY

On or about March 16, 2006, the Texas State Board of Pharmacy informed Mirta Hernandez, of the receipt of a complaint alleging falsification of her preliminary application for failing to disclose two arrests. No disciplinary action was taken with regard to this matter.

COUNTS

(1) On or about December 13 and 14, 2006, Mirta Aidee Hernandez, a pharmacy technician of Guardian Angel Pharmacy, 1400 George Dieter, Suite 190, El Paso, Texas 79936, performed duties that may only be performed by a pharmacist and duties that may only be performed under the supervision of a pharmacist. On or about December 13 and 14, 2006, an Investigator for the Texas State Board of Pharmacy (TSBP) observed Ms. Hernandez operating Guardian Angel Pharmacy, including filling and dispensing prescriptions, while no pharmacist was present at the pharmacy or while not under the supervision of a pharmacist.

The following prescriptions were filled and dispensed to patient J.H. (a TSBP investigator acting in an undercover capacity) by Ms. Hernandez without a pharmacist verifying the accuracy of the prescription, in that a pharmacist was not present in the pharmacy or a pharmacist was not supervising the duties performed by the technician:

DATE	RX#	DRUG	QTY.
12/13/06	4004185	Hydrocodone/Acetaminophen 10/500 mg tablets	30
12/14/06	4004203	Hydrocodone/Acetaminophen 10/500 mg tablets	30

(2) On or about December 13 and 14, 2006, a pharmacist employed by Guardian Angel Pharmacy, 1400 George Dieter, Suite 190, El Paso, Texas 79936, failed to evaluate the prescription drug orders and the patient medication record to conduct a drug regimen review in order to identify inappropriate drug utilization of the dispensed prescriptions described above. Additionally, the prescriptions described above were dispensed in quantities, dosages, or for periods of time which grossly exceeded the standards of practice, approved labeling of the Federal Food and Drug Administration, or the guidelines published in professional literature. The recommended maximum dosage for Hydrocodone with Acetaminophen is 4 g per day of Acetaminophen (the maximum dose of the Hydrocodone is limited by the total daily limit of Acetaminophen).

An informal conference was held in the office of the Texas State Board of Pharmacy on January 23, 2007. Mirta Aidee Hernandez was not in attendance, but submitted a written response. The informal conference was heard by a Board panel comprised of: W. Michael Brimberry, R.Ph., M.B.A., Board Member; Gay Dodson, R.Ph., Executive Director/Secretary; and Carol Fisher, R.Ph., M.P.A., Director of Enforcement; with Kerstin E. Arnold, General Counsel. Also in attendance were: Julie C. Hildebrand, Litigation Counsel, and Joe Lewis, Chief Investigator.

By her signature on this Order, Mirta Aidee Hernandez agrees that the Texas State Board of Pharmacy has jurisdiction in this matter and does hereby waive her right to legal counsel, to notice of hearing, to a formal administrative hearing, and to judicial review of this Order.

After discussion of the matters previously outlined in this Order, and subsequent communications, Mirta Aidee Hernandez agreed to the entry of an Order disposing of the need for further disciplinary action in this matter. By her signature on this Order, Mirta Aidee Hernandez neither admits nor denies the truth of the matters previously set out in this Order with respect to the above alleged violations.

Should this Order not be accepted by the Board, it is agreed that neither the presentation of the Order to the Board nor the Board's consideration of the Order, will be deemed to have unfairly or illegally prejudiced the Board or its individual members and, therefore, will not be grounds for precluding the Board or any individual member of the Board from further participation in proceedings related to the matters set forth in the Order.

Mirta Aidee Hernandez understands that any failure to comply with the terms of this Order is a basis for discipline under the Texas Pharmacy Act.

At the conclusion of the aforementioned conference, and subsequent communications, it was agreed among the parties that Mirta Aidee Hernandez shall comply with the terms and conditions set forth in the ORDER OF THE BOARD below.

If within one (1) year after the probationary period begins, Respondent fails to pay the probation fee, pharmacy technician registration number 132651 issued to Respondent shall be revoked and of no further force and effect, effective one (1) year after the probationary period begins. On the 11th of July 2021 I attended a friendly function and had too much to drink. I made the bad and very regrettable decision to drive home under the influence of alcohol, On the drive home I was stopped by law enforcement for not maintaining my lane was promptly arrested and transported to CCDC in downtown las Vegas. There I was given time to sober up and think about the selfish decision I made. I contemplated how selfish and irresponsible I was to have gotten behind the wheel and how this was affecting the people around me. My decision even though I didn't give it a second thought endangered and could have ended horrendously for anyone else driving on the road at that time. I'm incredibly thankful no one was hurt, I also thought of the people in my life who have been looking out for my best interest and how this road I was headed towards would only hurt those closest to me. I'm lucky to have such a wonderful support system consisting of my mother, father, brother and friends who have helped me reach goals I once thought impossible. Me and my brother are now looking to further our education at PIMA medical school where we are studying to become pharmacy technicians. I understand that the medical field demands great respect and responsibility, im changing so much about myself and I feel like i've matured so much from this prior experience and I'm continuing to do so every day. I've been sober for five months now and I plan on never drinking again although I know that's a difficult goal. I'm dedicated to bettering myself and I think since this incident i've proven that but i know people aren't so easily convinced. I'm giving my education top priority over everything else right now. I want nothing more in this world than to graduate and go on to succeed in a career I can be proud of and help others.

To whom it may concern:

My name is Bart Anderson and I am applying for a pharmacy license in the state of Nevada. In January of 2019, my license with the Georgia Board of Pharmacy was voluntarily surrendered to seek treatment for addiction to prescription medications. My license was suspended for one year, but on June 19, 2020, my license was reinstated via a private consent order. I was released from my consent order, which was fully terminated on June 19, 2022 after successful completion of a rehabilitation program.

As part of my consent order, I worked for over 3 years with Mark Clayton, a Georgia Pharmacy Board approved addiction and substance use disorder counselor. Through my work with Mark, I have learned a tremendous amount about myself. My treatment began with 90 AA meetings in 90 days. I also participated in weekly counseling sessions, both individual and group. Per the guidance of Mark's group, I still attend 3 AA meetings per week, and a minimum of 2 meetings each month with Mark Clayton and my peers over zoom. As part of my consent order, I was also required to undergo random testing for the use of drugs or alcohol. I have recorded approximately 3 years of clean drug/alcohol screenings.

With the help of others, I feel like I have my life back. I now have a broad support network that is priceless to me. Between my family, my sponsor, and members of Mark Clayton's group, I have a tremendous support network. For the last almost 2.5 years, I have also worked as a poison information specialist at the Georgia Poison

Center. I am so proud of the work that is done there and am grateful to work with such an amazing group of people.

Most recently, I was given the opportunity to work with Innovation Compounding Pharmacy in Kennesaw, GA. My ability to help others has now expanded to a national level as Innovation Compounding fills prescriptions for patients in 49 states. It is for this reason I am humbly asking for you to grant me the opportunity to apply for a license in the state of Nevada.

Thank you for your time and for your consideration of my request.

PRIVATE CONSENT ORDER FOR REINSTATEMENT

By agreement of the Georgia State Board of Pharmacy ("Board") and Bart Zachary Anderson, Respondent, the following disposition of this matter is entered pursuant to the provisions of O.C.G.A. T. 26, Ch. 4, and T. 50, Ch. 13.

FINDINGS OF FACT

1.

Respondent was licensed to practice as a pharmacist on September 19, 2016 and was so licensed relevant to all matters described herein.

2.

On or about January 24, 2019, the Board docketed a Private Interim Consent Order, signed by Respondent, in which Respondent's license was suspended and listed as inactive for purposes of the Board's website. Respondent underwent evaluation and subsequent treatment for chemical dependency.

3.

On or about April 6, 2020, Respondent requested reinstatement with the Board. The Board considered the request at its meeting on May 6, 2020.

4.

The Respondent waives any further findings of fact with respect to this matter.

CONCLUSIONS OF LAW

Under O.C.G.A. T. 26, Ch. 4, and T. 43, Ch. 1, the Georgia State Board of Pharmacy may impose conditions, as it deems appropriate, on the reinstatement of Respondent's pharmacist license. Respondent waives any further conclusions of law with respect to this matter.

ORDER

The Board having considered the particular facts and circumstances of this case, it is hereby ordered, and the Respondent hereby agrees, as follows:

1.

Upon the effective date of this Order, the Respondent's license to practice pharmacy in the State of Georgia shall be reinstated, but the license shall be placed on probation for a period of two (2) years and until discharged in accordance with paragraph (o), under the following terms and conditions of probation:

(a) **EMPLOYER REPORTS.** During the probationary period, Respondent shall provide a copy of this Consent Order to his employer and shall cause his employer to submit reports regarding his performance as a pharmacist. Respondent shall cause his employer to submit reports regarding his performance to the Board, by March 31st, June 30th, September 30th, and December 31st of each year, beginning with the first reporting period following the lifting of the limitation on practice.

(b) **CONTINUE IN APPROVED TREATMENT PROGRAM.** During the probationary period, the Respondent agrees to participate in treatment and/or an aftercare program acceptable to the Board.

(c) **TREATMENT QUARTERLY REPORTS.** The Respondent shall provide a copy of this Consent Order to an individual in charge of Respondent's treatment/aftercare program. Respondent shall cause such individual to submit

quarterly reports regarding the Respondent's progress and physical and mental condition to the Board, by March 31st, June 30th, September 30th, and December 31st of each year, including a report on any medication being prescribed to the Respondent and the results of any alcohol/drug screens performed, beginning with the first reporting period following the effective date of this Order.

(d) **PHYSICIAN NOTIFICATION.** The Respondent shall provide a copy of this Consent Order to any physician who treats Respondent and prescribes controlled substances to him. Respondent shall also notify the individual in charge of Respondent's treatment/aftercare program of all physicians who treat Respondent and the individual in charge of Respondent's treatment shall verify that notification to the physician(s) has occurred.

(e) **PERSONAL REPORTS.** Respondent shall submit personal reports to the Board by March 31st, June 30th, September 30th, and December 31st of each year, beginning with the first reporting period following the effective date of this Order. Such reports shall include information about Respondent's treatment, employment and any change of personal address or employment. **Respondent shall also report to the Board within ten (10) days of receiving any traffic citations, other than a parking citation, or criminal arrests following the effective date of this Order.**

(f) **USE OF ALCOHOL/CONTROLLED SUBSTANCES AND REPORTING.** **The Respondent shall completely abstain from the consumption of alcohol.** The Respondent shall completely abstain from the consumption of controlled substances, except as prescribed by a duly licensed practitioner for a legitimate purpose. **If Respondent is prescribed controlled substances by a duly licensed practitioner, Respondent shall file a copy of such prescription and the quantity filled with the**

Georgia Drugs and Narcotics Agency ("GDNA") within ten (10) days of having received said prescription. Respondent shall also notify his treatment professional of such prescriptions.

(g) **ALCOHOL/DRUG SCREENING.** Respondent agrees to undergo random alcohol/drug screening at Respondent's own expense at the request of the Board or its representative, or his treatment program. The drug screens must be conducted at least once per calendar quarter or more frequently if recommended by the treatment program. If drug screens are not part of the approved drug treatment program, the **Respondent agrees to submit this Consent Order to a local physician and to arrange for the physician's order for alcohol/drug screens in order to comply with this provision of the Consent Order.** If drug screens are part of the approved drug treatment program, the results of any drug screens shall be included in the report from the treatment/advocate quarterly reports. Respondent agrees that all alcohol/drug screens provided pursuant to this paragraph shall be sent directly to the Board. Respondent further agrees that all alcohol/drug screens submitted to the Board pursuant to this paragraph shall be admissible in any administrative hearing concerning the Respondent without the necessity of establishing chain of custody or other testimony to authenticate the test results.

(h) **CONSENT TO RECORDS.** Despite any privilege of law, Respondent agrees to provide appropriate consent for the Board or its representative to have access to both physician and treatment records. Any records obtained under this subsection shall remain confidential and shall not be disclosed to the public. However, such records may be admitted in an O.C.G.A. T. 50, Ch. 13 hearing, but such records shall be received in camera.

(i) **NO PHARMACIST-IN-CHARGE.** During the probationary period, the Respondent shall not practice as the pharmacist-in-charge. The Respondent may not petition for modification of this provision of the Consent Order until at least two (2) years from the effective date of this Order. After the Board receives the petition, the Board may request that Respondent appear before the Board at a Board meeting prior to the lifting of the limitation. After the Board considers the petition and after the Respondent's appearance, if one is requested by the Board, the Board may enter an Order lifting the limitation in this subsection.

(j) **NO PHARMACY OWNERSHIP.** During the probationary period, Respondent shall not own a pharmacy.

(k) **NOTIFICATION OF CHANGE.** The Respondent shall advise the Board in writing of any change in Respondent's residence and/or office address within ten (10) days of such change.

(l) **ADDRESS FOR REPORTS.** All reports required under this Consent Order shall be sent to the **Georgia State Board of Pharmacy, to the attention of the Executive Director, 2 Peachtree Street, NW, 6th Floor, Atlanta, Georgia 30303.**

(m) **VIOLATIONS AND ADDITIONAL SANCTIONS.** If the Respondent shall fail to abide by all State and Federal laws relating to drugs and/or regulating the practice of pharmacy, the Rules and Regulations of the Georgia State Board of Pharmacy, or the terms of this Consent Order and probation, or if it should appear from reports submitted to the Board that the Respondent is unable to practice pharmacy with reasonable skill and safety, **the Respondent's license shall be subject to revocation, upon substantiation thereof. In addition, the Board has authority at any time to order Respondent to have further evaluation upon any reasonable grounds, including**

but not limited to a positive drug screen, an unfavorable employee report, or an unfavorable report from the treatment/aftercare counselor.

(n) **PETITION FOR LIFTING OF PROBATION.** Within sixty (60) days of the scheduled date of termination of probation, Respondent may petition for termination of probation by certifying under oath before a notary public that the Respondent has complied with all conditions of probation and by providing documentation, including a report from Respondent's treatment advocate, supporting discharge from probation.

(o) **TERMINATION/EXTENSION OF PROBATION.** The Georgia State Board of Pharmacy shall review and evaluate the practice of the Respondent prior to lifting the probation. At such time, the Board shall be authorized to restore all rights and privileges incident to the license of the Respondent, unless the Board has received information that the Respondent has not complied with the terms of probation or has otherwise failed to comply with the law and rules regulating his practice as a pharmacist. Should the Board determine that reasonable cause exists for maintaining Respondent's license on a probationary status, the Board shall notify Respondent of its intent to extend the probationary period, and Respondent may respond to such notification in writing or request an appearance before the Board or its representative as in a non-contested case. **In any event, this Consent Order shall remain in effect pending a final determination by the Board and notification that the probationary period has terminated.**

2.

This Consent Order shall be considered to be a private reprimand of the Board, and shall not be disclosed by the Board to any person except the Respondent and except as provided herein. Provided, however, that should the Respondent violate or

attempt to violate this Consent Order, any state or federal laws which relate to or regulate the practice of pharmacy or the rules and regulations of the Board, this Consent Order shall be admissible in any proceeding to substantiate such violations, and may become part of the public record in such proceedings.

3.

Approval of this Consent Order by the Georgia State Board of Pharmacy shall in no way be construed as condoning the Respondent's conduct and shall not be construed as a waiver of any of the lawful rights possessed by the Board. **This Consent Order shall not become effective until approved and docketed by the Board.**

4.

Respondent acknowledges that Respondent has read this Consent Order and that Respondent understands its contents. Respondent understands that Respondent has the right to an appearance in this matter, and Respondent freely, knowingly and voluntarily waives such right by entering into this Consent Order. Respondent understands that this Consent Order will not become effective until approved and docketed by the Georgia State Board of Pharmacy. Respondent further understands and agrees that the Board shall have the authority to review the investigative file and all relevant evidence in considering this Consent Order. Respondent further understands that this Consent Order, once approved, shall constitute a private action of the Board. If this Consent Order is not approved, it shall not constitute an admission against interest in this proceeding, or prejudice the ability of the Board to adjudicate this matter. Respondent consents to the terms and conditions contained herein.

WARNING - This email originated from outside the State of Nevada. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Good afternoon Mr Sedar,

Thank you for the phone call this morning. Attached to this email is the form dated April 3rd, 2013 stating my admission into the NJ pretrial intervention program, which I completed in early fall of that year. My lawyer advised me that at the completion of this program, all pending charges of "Theft by Unlawful Taking" would be dropped and my record of arrest would be expunged. Therefore, I could lawfully answer "No" on any background check asking if I had ever been arrested. Up to this point in time, I was under the impression that my record of arrest was expunged, hence my answer to that question on the Nevada pharmacist application. Please know that it was not my intention in any way to deceive the Nevada Board of Pharmacy.

I am including in this email the narrative that I provided for my application into the pretrial intervention program. Since that time, I have completed outpatient rehabilitation for my addiction and have been sober for 10 years. The crux of my addiction was a stuttering disfluency, which I attended inpatient therapy for 10 years ago, and I have continued to receive therapy on an ongoing basis. I have been a licensed, practicing New Jersey pharmacist since April 2014 and I had been working for Walgreens pharmacy full-time for 8 years. I recently obtained a position with Wedgewood pharmacy, which has allowed me to receive a better work-life balance, as I am a husband and father of three young children.

Please take all of this into consideration and do not hesitate to contact me if any further information is needed.

Narrative - James M Rotoli

I was born [redacted] at Thomas Jefferson University Hospital in Philadelphia, PA, the second of three children to proud parents Alfred and Phyllis Rotoli. I grew up and spent my entire youth in the small town of Mantua, NJ in a loving two-parent household. I attended Centre City Elementary School where I prided myself on receiving straight As and the honor roll, and I was a member of "Gifted and Talented" from the second grade through sixth grade. At the conclusion of my elementary years, I attended Clearview Regional High School in Mullica Hill, NJ. During my time in high school, I was enrolled in several honors classes, was a member of the football team, and played drums in various bands with my group of musician friends. I graduated from Clearview in 1996.

After graduation, I enrolled as a full-time student at Gloucester County College, however at 18 years old, I left my major as "undecided" as I was still very unsure of what exactly I wanted to do for a career. I decided to forego a college education after at this time after only one semester and enter the working world. For the next several years, I worked numerous full-time jobs, however quickly found that most of these were not positions with which I wanted to continue doing for the rest of my life. In 2003, I met my eventual wife, and it was then that I decided to return to college and seriously pursue a career. Science and the medical field had always been a casual interest of mine, therefore I decided to pursue a Chemistry/Biology Associates' degree by once again attending Gloucester County College. I completed this degree in the spring of 2006 and transferred to Temple University, where I worked towards obtaining my Bachelors' degree in Biochemistry. It was during this time in which I was hired as a pharmacy

As time progressed, I noticed the effect that these substances had on my speech began to fade. My fluency began to regress, until finally the opiates had little to no effect on my speech at all. I was simply continuing the self-destructive behavior of diverting these drugs simply to "feel normal" and prevent the onset of abstinence syndrome. A huge wake-up call in the form of reality came on October 20th, 2012 - the day in which I was apprehended by loss prevention at my place of employment. During this time, they informed me about the investigation they were undertaking and that they had significant evidence to implicate me in the matter. I was ashamed, embarrassed, however completely honest in having played a part in the matter. I was dismissed from working the rest of that day and I immediately went home and informed my wife of what had just happened. This was the first time I came clean and was honest about my addiction with her - up to this point I had kept it a complete secret from her. Underneath the shock, disappointment, and sorrow at what I had caused, I vowed to use this day as the event in which I would begin to overcome my addiction and once again take hold of my life. That very afternoon, I scheduled an appointment with addictions counselor William M.Greene, M.S for a therapy session the following Monday evening, and with addictions psychiatrist B. Kenneth Nelson, M.D. the following Thursday evening. These two gentleman have served as my "recovery team" for the past two months - I have had regular weekly therapy sessions with Mr. Greene and have seen Dr. Nelson for therapy and pharmacotherapy four separate times. He has also set me up for weekly urine drug screens (I have just completed my sixth consecutive week, all of which were negative) and I plan to continue on this schedule. I have supplemented all of this with attending regular Alcoholics Anonymous / Narcotics Anonymous meetings.

STATE OF CALIFORNIA

In the Matter of the Petition for Reinstatement of:

CESAR B. CABRERA, Petitioner

Agency Case No. 2949

OAH No. 2021030370

DECISION

This matter was heard on March 18, 2021, before a quorum of the California State Board of Pharmacy (Board), Department of Consumer Affairs, by WebEx. Administrative Law Judge Coren D. Wong, Office of Administrative Hearings, State of California, presided.

Kristina T. Jarvis, Deputy Attorney General, appeared pursuant to Government Code section 11522.

Adam B. Brown of the Law Office of Brown & Brown represented petitioner Cesar B. Cabrera, who was present throughout the hearing.

Evidence was received, the record closed, and the matter submitted for written decision on March 18, 2021.

SUMMARY

Petitioner seeks reinstatement of his license to practice pharmacy, which was revoked because he violated the conditions of his probation. When all the evidence is considered, petitioner established that he has been sufficiently rehabilitated to justify reinstating his license after he completes the licensing examinations and pays the outstanding costs he owes the Board. Therefore, his petition is granted.

FACTUAL FINDINGS

License History

1. The Board issued petitioner Pharmacist License Number RPH 41132 on August 18, 1987.

PRIOR ACCUSATION

2. On July 27, 2004, a former Executive Officer of the Board signed an Accusation seeking to discipline petitioner's license because he was convicted of a crime substantially related to the qualifications, functions, or duties of a pharmacist – possession for sale of hydrocodone. Petitioner signed a stipulated settlement placing his license on probation for five years. Conditions of probation included: 1) a 90-day license suspension; 2) reimbursing the Board $6,300 for its costs of investigation and enforcement; 3) completing a rehabilitation program; and 4) abstain from drugs and alcohol.

3. The Board adopted the stipulated settlement on February 4, 2005. Petitioner's five-year probation period began March 5, 2005.

PETITION TO REVOKE PROBATION

4. On April 21, 2006, a former Executive Officer of the Board filed a Petition to Revoke petitioner's probation. The Petition to Revoke alleged that petitioner: 1) practiced pharmacy while his license was suspended; 2) failed to reimburse the Board for its costs of investigation and enforcement; 3) failed to comply with the requirements of a rehabilitation program by being terminated from the Pharmacist Recovery Program (PRP), testing positive for alcohol, returning to work without having a worksite monitor agreement, working at a facility with a relative, failing to enter inpatient chemical dependency treatment, returning to work after relapse, returning to work after being suspended by the PRP, and failing to comply with his PRP contract; and 4) tested positive for alcohol.

5. Petitioner signed a stipulated settlement revoking his license. The Board issued a Decision and Order adopting the stipulated settlement on January 22, 2007, and the effective date of petitioner's license revocation was February 21, 2007.

Petition for Reinstatement

6. On November 26, 2019, petitioner signed a Petition for Reinstatement, which the Board received three months later.

7. Petitioner has been sober from alcohol since July 17, 2009. He obtained his sobriety by attending a 28-day residential treatment program at Hoag Hospital Addiction Treatment, completing an intensive outpatient program at Pacific Hills Treatment, participating in group therapy at Addiction Treatment for Health Care Professionals, and completing a nine-month/500-hour residential treatment program at Residential Drug Abuse Program. Petitioner continues to attend Alcoholics Anonymous meetings to help maintain his sobriety.

8. Petitioner obtained his drug and alcohol counselor certificate from Saddleback College in 2014, and has been working in the recovery field since then. He has worked as a Case Manager/Certified Counselor at Sobertec, LLC, a Case Manager/Behavioral Technician at SoCal Detox, LLC, and the Clinical Director/Program Director for Beachside Recovery, LLC.

9. Petitioner was the Executive Director of Milestone Addiction Centers from August 2016 to June 2019. He was responsible for overseeing the day-to-day operations of a 52-bed residential treatment center in Costa Mesa, California. He has been the Assistant Clinical Director and Compliance Officer for Inspire Health Center since June 2019. Inspire Health Center is a residential drug and alcohol treatment facility in Newport Beach, California. He is responsible for overseeing the clinical aspect of the treatment program and assisting with administrative duties. Additionally, he helps develop, initiate, maintain, and revise policies and procedures to ensure the program remains in compliance with the Joint Commission on Accreditation of Health Care Organizations and state licensing requirements.

10. Petitioner discovered a new passion working with those addicted to drugs and/or alcohol. He estimated the number of people he has counseled since 2014 to be "in the hundreds." He explained that working with others battling addictions keeps him "grounded." If his license is reinstated, he intends to continue serving those in recovery by working at a retail pharmacy that serves detox facilities and residential treatment homes.

11. Petitioner completed 62.5 hours of continuing education between June 14, 2017, and February 5, 2021. However, only 30.5 hours were Board-approved programs, all of which were completed on February 4 and 5, 2021. At hearing,

petitioner explained the remaining 32 hours were completed as part of the requirements for maintaining his drug and alcohol counselor certificate.

12. Petitioner submitted four letters of recommendation that were subsequently verified by Board staff – two from licensed pharmacists and two from citizens. Although the two licensed pharmacists were aware of petitioner's disciplinary history, neither of the citizens were. However, all four authors wrote in favor of reinstating petitioner's license.

13. At hearing, petitioner recognized that his license could be reinstated on a probationary basis, and unhesitatingly expressed his willingness to comply with any terms and conditions imposed by the Board. He explained he did not understand his obligation to reimburse the Board for its costs of investigation and enforcement prior to his license being revoked, but now recognizes his obligation to do so. He owed $3,137.50 as of the date of hearing.

Analysis

14. The conduct underlying the Board's revocation of petitioner's license was serious. He violated the Pharmacy Law (Bus. & Prof. Code, § 4000 et seq.), and the Board deemed it appropriate to place him on five years' probation. He violated numerous conditions of probation, including the temporary suspension of his license. Petitioner's license was revoked on February 21, 2007, and he has not practiced pharmacy for more than 14 years.

15. Petitioner spent the first few years after his license was revoked focusing on obtaining sobriety from alcohol. He achieved sobriety on July 17, 2009, and has maintained his sobriety ever since. He obtained certification as a drug and alcohol counselor in 2014 and committed himself to helping others battling addiction. He

confirmed his commitment at hearing by describing his plans to work in a retail pharmacy serving detox facilities and residential treatment homes if his license is reinstated.

16. Petitioner's evidence and testimony was credible. He demonstrated insight into the misconduct which led to his license being revoked. He showed remorse for that conduct. When all the evidence is considered, petitioner produced clear and convincing evidence of his ability to return to the practice of pharmacy in a manner consistent with public health, safety, and welfare, subject to the conditions precedent specified below.

LEGAL CONCLUSIONS

Applicable Burden/Standard of Proof

1. Petitioner has the burden of proving his eligibility for reinstatement, and he must do so by clear and convincing evidence. (*Hippard v. State Bar of California* (1990) 49 Cal.3d 1084, 1091-1092.) "The courts have defined clear and convincing evidence as evidence which is so clear as to leave no substantial doubt and as sufficiently strong to command the unhesitating assent of every reasonable mind. [Citations.] It has been said that a preponderance calls for probability, while clear and convincing proof demands a high probability [citations]." (*In re Terry D.* (1978) 83 Cal.App.3d 890, 899; italics omitted.)

Applicable Law

2. A pharmacist may petition the Board for reinstatement after three years have elapsed since the effective date of the disciplinary order. (Bus. & Prof. Code, §

4309, subd. (a)(1).) When deciding a petition, the Board may consider factors such as the petitioner's actions since discipline was imposed, the offenses for which discipline was opposed, and the petitioner's rehabilitation. (Bus. & Prof. Code, § 4309, subd. (d)(1), (2) & (4).)

The Attorney General must be given notice of any petition filed, and "shall be afforded an opportunity to present either oral or written argument before the" Board. (Gov. Code, § 11522.)

Conclusion

3. Petitioner met his burden of producing clear and convincing evidence of sufficient rehabilitation to justify reinstatement for the reasons explained in Factual Findings 14 through 16. Therefore, his Petition for Reinstatement is granted.

To the Reinstatement Committee:

It is my pleasure to provide support of the application for reinstatement for Dr. Cesar Cabrera, Pharm. D. Our families have known each other for over 15 years. We were members at the Cabrera's martial arts school. We also attend the same church and have supported each other's children in spiritual mission trips. During this time I came to know Dr. Cabrera as a professional colleague. I have personally witnessed Dr. Cabrera's de-escalate an agitated patient with his demeanor and professionalism at his previous pharmacist position prior to the revocation. I am fully aware of the details for case numbers: 2949 and 2777 and understand the Board of Pharmacy's disciplinary penalties imposed upon Dr. Cabrera.

Over the period of revocation, I have observed Dr. Cabrera making improvements in his personal and professional struggles and continues to provide the best he can for his family. Dr. Cabrera has attended our church's support group for chemical dependency as well as other outside support and recovery programs.
Professionally, Dr. Cabrera has acquired a certificate as an addiction counselor and has been counseling patients and is currently working as an administrator for an addiction center. His current knowledge in addiction treatment exceeds the knowledge of general practicing pharmacists.

With his specialized knowledge and experience, and my observed performance, I would support the reinstatement of Dr. Cabrera's pharmacist license.
I believe Dr. Cabrera has much to offer and contribute to the care and safety of the public and the profession.

Sincerely,

To the Reinstatement Committee:

I am writing this letter of recommendation on behalf of Cesar Cabrera. I have known Cesar personally since 2015 and have worked with him as a colleague since 2016. I am a client advocate/case manager for Milestone Addiction Centers in Costa Mesa and Cesar is my supervisor. It is with much enthusiasm that I recommend and support Cesar Cabrera for reinstatement.

On a personal level, Cesar and I share similar stories as it relates to substance use issues and recovery in the past and he has shared his trials and tribulations that resulted in the loss of his pharmacy license. As a result, we have become very close and we have even attended 12 step meetings on occasion. As a counselor, Cesar has vast knowledge of the addiction field because of his pharmacy background and he is able to connect and build rapport with the clients that need help.

I have seen the growth and transformation of Cesar in his recovery over the years I have known him. He is humble in so many ways and he is grateful for all the things that sobriety has brought in his life. It is with great pleasure that I recommend Cesar for reinstatement.

Sincerely,
Rick Hughes

Dear California State Board of Pharmacy,

It is with great pleasure that I write this letter recommending Cesar Cabrera for reinstatement to practice pharmacy. I am aware that Cesar surrendered his License in 2007 because of his issues with substance abuse. I've known Cesar and his wife for 2 years now and he has been able to overcome that addiction by seeking help at a treatment center. From his stay at the treatment center he was able to stay grounded and humble. Then after successful graduation from the treatment realized that this is the world that Cesar is interested in so he went back to school to receive a certification for Drug and Alcohol studies. From there he used his pharmacy background to help open and develop Detox and residential programs at several recovery centers. Cesar currently serves as the Executive Director at Milestone Addiction Centers. Cesar understands the troubles that addiction causes and nothing makes him happier than to be able to help people who are struggling with this. Since he is so involved with patients Cesar is constantly reminded that he does not want to fall back into the world of addiction and abuse. I truly believe that Cesar has learned from his past mistakes and will not partake in any future faults.

Thank you for taking the time toread my letter. I can be reached at [redacted] or at [redacted]

To the Reinstatement Committee:
California Board of Pharmacy,

I am writing on behalf of Cesar Cabrera. I have known Cesar Cabrera for the past 2 years and it is with great pleasure to write a letter recommending for his reinstatement to practice pharmacy once again. I have known Cesar as a hard-working individual with dedication to the clients he helps at Inspire Health Center as the Assistant Clinical Director. He is reliable and he is always there to help anyone that is in need.

I am aware of the unfortunate situation Cesar has gone through with his substance use and that he had to surrender his pharmacy license some 14 years ago. I've known Cesar through communication with Inspire Health Centers and through his wife who is a colleague at the pharmacy. Cesar Cabrera went back to school to study and obtain a certification in Drug and Alcohol studies. With the use of his pharmacy background, he has helped open several Detox and Residential treatment centers, his latest being Inspire Health Centers as an Assistant Clinical Director.

I believe Cesar Cabrera will be an asset in the practice of pharmacy by gaining experience in the process of addiction because he will be able to recognize the patient who are struggling with substances and he will be able to offer help. We are in a time where substance use is increasing and causing untimely deaths to many. With Cesar's experience in the field of addiction, he plays a big part in the prevention of this uncanny disease of addiction. It is this reason why I strongly recommend the reinstatement of Cesar as a pharmacist.

Sincerely,

Craig Hitchman

Re: Inquiry from ~~Oregon~~ NEVADA Board of Pharmacy

Dear Cesar-

I've reviewed the items requested by Mr. Hunt of the Board of Pharmacy. You have asked me to address items 2, 4, 5 and 7 of the requests.

Initially, I note that along with attorney (now Superior Court Judge) Gary Pohlson, I represented you on the federal case in Santa Ana, California from 2008 to 2010. In that the case is 12 years old, I have no hard copies of your case material. I do, however, have some electronic documents, plus access to PACER, the federal court docket system.

I have the following responses to the items listed:

2. The 2-6-04 incident was 3-4 years before I began representing you. I have no recall of such an event and no responding documents.

4. On 6-5-08, DEA arrested you and took you to their Orange County offices. You and I spent several hours with the agents and

• Admitted-California & Hawaii • Fellow-American College of Trial Lawyers •
fax: 949-706-9994 • e-mail: deansteward7777@gmail.com

agreed to cooperate and assist them in further investigation. You were released that day and if there was a report generated, it was never shared with you and me.

5. The 7-14-08 incident was our initial appearance in federal court in Santa Ana after arriving at a disposition. You were summoned to court, not arrested. You were admitted to bail after a routine court appearance. I attach the docket entry for that day.

7. On the August 16, 2010 incident, I am unaware of any such occurrence. I believe that was about the time you self-surrendered to serve your sentence. I have checked the PACER data base for the District of Kansas and your name does not appear there. I attached confirmation.

Please let me know if you need any further information.

Sincerely,

H. Dean Steward

RE: Petition for Reinstatement of Pharmacist License
Cesar B. Cabrera, RPH 41132

Dear Mr. Cabrera:

Attached is the Decision and Order of the Board of Pharmacy (Board) regarding the above-referenced matter. Your attention is directed to pages 7-8 of the Decision.

Effective July 22, 2021, your petition for reinstatement of Pharmacist License No. RPH 41132, is granted. Upon satisfaction of the following conditions, your pharmacist license shall be reinstated:

a. Take and pass the California Pharmacist Jurisprudence Examination (CPJE) and Northern American Pharmacist Licensure Examination (NAPLEX) within one (1) year of the effective date of this decision. Failure to take and pass the examinations within one (1) of the effective date of this Order shall invalidate the order granting the petition for reinstatement, petitioner shall be deemed to have failed the conditions precedent to re-licensure and your pharmacist license shall remain revoked.
b. You shall pay all costs of the examinations required by the Board.
c. You are required to be fingerprinted as part of the re-licensure process. Live scan information can be found on the Board's website as part of the pharmacist licensure and examination application packet. Please submit a copy of the completed live scan form with a copy of this letter. Upon written notice by the Board indicating fulfillment of these conditions, your license will be fully reinstated. In addition, upon successful passing the examinations you shall pay the licensing fee of $527.00 ($505 renewal fee, $22 CURES fee).

If you wish to file a petition for reconsideration pursuant to Government Code section 11521, the petition must be received prior to the effective date of the decision. However, please be aware the Board needs approximately five days to process a petition for reconsideration. Attached is a copy of the Government Code section for your review.

In the Matter of the Petition for Reinstatement of:

CESAR B. CABRERA, Petitioner

Agency Case No. 2949

OAH No. 2021030370

DECISION

This matter was heard on March 18, 2021, before a quorum of the California State Board of Pharmacy (Board), Department of Consumer Affairs, by WebEx. Administrative Law Judge Coren D. Wong, Office of Administrative Hearings, State of California, presided.

Kristina T. Jarvis, Deputy Attorney General, appeared pursuant to Government Code section 11522.

Adam B. Brown of the Law Office of Brown & Brown represented petitioner Cesar B. Cabrera, who was present throughout the hearing.

Evidence was received, the record closed, and the matter submitted for written decision on March 18, 2021.

SUMMARY

Petitioner seeks reinstatement of his license to practice pharmacy, which was revoked because he violated the conditions of his probation. When all the evidence is considered, petitioner established that he has been sufficiently rehabilitated to justify reinstating his license after he completes the licensing examinations and pays the outstanding costs he owes the Board. Therefore, his petition is granted.

FACTUAL FINDINGS

License History

1. The Board issued petitioner Pharmacist License Number RPH 41132 on August 18, 1987.

PRIOR ACCUSATION

2. On July 27, 2004, a former Executive Officer of the Board signed an Accusation seeking to discipline petitioner's license because he was convicted of a crime substantially related to the qualifications, functions, or duties of a pharmacist – possession for sale of hydrocodone. Petitioner signed a stipulated settlement placing his license on probation for five years. Conditions of probation included: 1) a 90-day license suspension; 2) reimbursing the Board $6,300 for its costs of investigation and enforcement; 3) completing a rehabilitation program; and 4) abstain from drugs and alcohol.

3. The Board adopted the stipulated settlement on February 4, 2005. Petitioner's five-year probation period began March 5, 2005.

PETITION TO REVOKE PROBATION

4. On April 21, 2006, a former Executive Officer of the Board filed a Petition to Revoke petitioner's probation. The Petition to Revoke alleged that petitioner: 1) practiced pharmacy while his license was suspended; 2) failed to reimburse the Board for its costs of investigation and enforcement; 3) failed to comply with the requirements of a rehabilitation program by being terminated from the Pharmacist Recovery Program (PRP), testing positive for alcohol, returning to work without having a worksite monitor agreement, working at a facility with a relative, failing to enter inpatient chemical dependency treatment, returning to work after relapse, returning to work after being suspended by the PRP, and failing to comply with his PRP contract; and 4) tested positive for alcohol.

5. Petitioner signed a stipulated settlement revoking his license. The Board issued a Decision and Order adopting the stipulated settlement on January 22, 2007, and the effective date of petitioner's license revocation was February 21, 2007.

Petition for Reinstatement

6. On November 26, 2019, petitioner signed a Petition for Reinstatement, which the Board received three months later.

7. Petitioner has been sober from alcohol since July 17, 2009. He obtained his sobriety by attending a 28-day residential treatment program at Hoag Hospital Addiction Treatment, completing an intensive outpatient program at Pacific Hills Treatment, participating in group therapy at Addiction Treatment for Health Care Professionals, and completing a nine-month/500-hour residential treatment program at Residential Drug Abuse Program. Petitioner continues to attend Alcoholics Anonymous meetings to help maintain his sobriety.

8. Petitioner obtained his drug and alcohol counselor certificate from Saddleback College in 2014, and has been working in the recovery field since then. He has worked as a Case Manager/Certified Counselor at Sobertec, LLC, a Case Manager/Behavioral Technician at SoCal Detox, LLC, and the Clinical Director/Program Director for Beachside Recovery, LLC.

9. Petitioner was the Executive Director of Milestone Addiction Centers from August 2016 to June 2019. He was responsible for overseeing the day-to-day operations of a 52-bed residential treatment center in Costa Mesa, California. He has been the Assistant Clinical Director and Compliance Officer for Inspire Health Center since June 2019. Inspire Health Center is a residential drug and alcohol treatment facility in Newport Beach, California. He is responsible for overseeing the clinical aspect of the treatment program and assisting with administrative duties. Additionally, he helps develop, initiate, maintain, and revise policies and procedures to ensure the program remains in compliance with the Joint Commission on Accreditation of Health Care Organizations and state licensing requirements.

10. Petitioner discovered a new passion working with those addicted to drugs and/or alcohol. He estimated the number of people he has counseled since 2014 to be "in the hundreds." He explained that working with others battling addictions keeps him "grounded." If his license is reinstated, he intends to continue serving those in recovery by working at a retail pharmacy that serves detox facilities and residential treatment homes.

11. Petitioner completed 62.5 hours of continuing education between June 14, 2017, and February 5, 2021. However, only 30.5 hours were Board-approved programs, all of which were completed on February 4 and 5, 2021. At hearing,

petitioner explained the remaining 32 hours were completed as part of the requirements for maintaining his drug and alcohol counselor certificate.

12. Petitioner submitted four letters of recommendation that were subsequently verified by Board staff – two from licensed pharmacists and two from citizens. Although the two licensed pharmacists were aware of petitioner's disciplinary history, neither of the citizens were. However, all four authors wrote in favor of reinstating petitioner's license.

13. At hearing, petitioner recognized that his license could be reinstated on a probationary basis, and unhesitatingly expressed his willingness to comply with any terms and conditions imposed by the Board. He explained he did not understand his obligation to reimburse the Board for its costs of investigation and enforcement prior to his license being revoked, but now recognizes his obligation to do so. He owed $3,137.50 as of the date of hearing.

Analysis

14. The conduct underlying the Board's revocation of petitioner's license was serious. He violated the Pharmacy Law (Bus. & Prof. Code, § 4000 et seq.), and the Board deemed it appropriate to place him on five years' probation. He violated numerous conditions of probation, including the temporary suspension of his license. Petitioner's license was revoked on February 21, 2007, and he has not practiced pharmacy for more than 14 years.

15. Petitioner spent the first few years after his license was revoked focusing on obtaining sobriety from alcohol. He achieved sobriety on July 17, 2009, and has maintained his sobriety ever since. He obtained certification as a drug and alcohol counselor in 2014 and committed himself to helping others battling addiction. He

confirmed his commitment at hearing by describing his plans to work in a retail pharmacy serving detox facilities and residential treatment homes if his license is reinstated.

16. Petitioner's evidence and testimony was credible. He demonstrated insight into the misconduct which led to his license being revoked. He showed remorse for that conduct. When all the evidence is considered, petitioner produced clear and convincing evidence of his ability to return to the practice of pharmacy in a manner consistent with public health, safety, and welfare, subject to the conditions precedent specified below.

LEGAL CONCLUSIONS

Applicable Burden/Standard of Proof

1. Petitioner has the burden of proving his eligibility for reinstatement, and he must do so by clear and convincing evidence. (*Hippard v. State Bar of California* (1990) 49 Cal.3d 1084, 1091-1092.) "The courts have defined clear and convincing evidence as evidence which is so clear as to leave no substantial doubt and as sufficiently strong to command the unhesitating assent of every reasonable mind. [Citations.] It has been said that a preponderance calls for probability, while clear and convincing proof demands a high probability [citations]." (*In re Terry D.* (1978) 83 Cal.App.3d 890, 899; italics omitted.)

Applicable Law

2. A pharmacist may petition the Board for reinstatement after three years have elapsed since the effective date of the disciplinary order. (Bus. & Prof. Code, §

4309, subd. (a)(1).) When deciding a petition, the Board may consider factors such as the petitioner's actions since discipline was imposed, the offenses for which discipline was opposed, and the petitioner's rehabilitation. (Bus. & Prof. Code, § 4309, subd. (d)(1), (2) & (4).)

The Attorney General must be given notice of any petition filed, and "shall be afforded an opportunity to present either oral or written argument before the" Board. (Gov. Code, § 11522.)

Conclusion

3. Petitioner met his burden of producing clear and convincing evidence of sufficient rehabilitation to justify reinstatement for the reasons explained in Factual Findings 14 through 16. Therefore, his Petition for Reinstatement is granted.

ORDER

It is hereby ordered that petitioner Cesar B. Cabrera's petition for reinstatement is GRANTED. Upon satisfaction of the following conditions precedent, Pharmacist License Number RPH 41132 shall be reinstated:

2. Petitioner shall pay the fees in place at the time for these examinations.

3. Petitioner shall pay all applicable application and licensing fees as well as any outstanding costs of investigation and enforcement.

Corrections to Stipulated Revocation of License and Order and Exhibit A Accusation/Petition to Revoke Probation No. 2949

Stipulated Revocation of License and Order and Exhibit A, the Accusation/Petition to Revoke Probation No. 2949, contains references to Pharmacist License No. RPH 49485 in the underlying disciplinary action entitled "In the Matter of the Accusation against Cesar B. Cabrera" which, pursuant to a decision of the Board of Pharmacy effective May 27, 2005, revoked Respondent's Pharmacist License but stayed revocation in favor of probation for five (5) years. In the Matter of the Accusation Against: CESAR B. CABRERA [redacted] Old Hickory Road Trabuco Canyon, CA 92679 Pharmicist No. RPH 49485 Respondent.	Case No. 2949 **PETITION TO REVOKE PROBATION**

Complainant alleges:

PARTIES

1. Patricia F. Harris (Complainant) brings this Petition to Revoke Probation solely in her official capacity as the Executive Officer of the Board of Pharmacy.

2. On or about August 18, 1987, the Board issued Pharmacist No. RPH 49485 to CESAR B. CABRERA (Respondent). Said license will expire on December 31, 2006, unless renewed.

3. In a disciplinary action entitled "In the Matter of the Accusation Against Cesar B. Cabrera," Case No. 2777, the Board issued a decision, effective March 5, 2005, in which Respondent's Pharmacist license was revoked. However, the revocation was stayed and Respondent's pharmacist license was placed on probation for a period of five (5) years with

certain terms and conditions. A copy of that decision is attached as Exhibit A and is incorporated by reference.

JURISDICTION

4. This Petition to Revoke Probation is brought before the Board, under the authority of the following laws. All section references are to the Business and Professions Code unless otherwise indicated.

5. Section 4300 of the Code states:

> (a) Every license issued may be suspended or revoked.
>
> . . . .
>
> (d) The board may initiate disciplinary proceedings to revoke or suspend any probationary certificate of licensure for any violation of the terms and conditions of probation. Upon satisfactory completion of probation, the board shall convert the probationary certificate to a regular certificate, free of conditions.

6. Section 4301 of the Code states:

> The board shall take action against any holder of a license who is guilty of unprofessional conduct or whose license has been procured by fraud or misrepresentation or issued by mistake. Unprofessional conduct shall include, but is not limited to, any of the following:
>
> . . . .
>
> (f) The commission of any act involving moral turpitude, dishonesty, fraud, deceit, or corruption, whether the act is committed in the course of relations as a licensee or otherwise, and whether the act is a felony or misdemeanor or not.

7. Section 125.3 of the Code states, in pertinent part, that the Board may request the administrative law judge to direct a licentiate found to have committed a violation or violations of the licensing act to pay a sum not to exceed the reasonable costs of the investigation and enforcement of the case.

8. Section 118, subdivision (b), of the Code provides that the suspension, expiration, surrender, cancellation of a license shall not deprive the Board of jurisdiction to proceed with a disciplinary action during the period within which the license may be renewed, restored, reissued or reinstated.

Facts:

9. On January 8, 2003, respondent was arrested by the Orange County Sheriff's Department for possession for sale of Hydrocodone, which he admitted stealing from

his employer in Long Beach, California. On December 18, 2003, respondent pled guilty to felony possession for sale of Hydrocodone. He was sentenced to serve 90 days in jail, pay $400.00 in restitution, complete a one year outpatient drug treatment, and given three years probation.

10. On July 27, 2004, the Board filed an Accusation against respondent for a conviction substantially related his licensure as a pharmacist.

11. On December 27, 2004, respondent signed a stipulated settlement placing his license on five years probation with suspension and other terms and conditions.

12. On February 4, 2005, the Board adopted the stipulated agreement with respondent to be effective March 5, 2005. On March 8, 2005, respondent appeared at his probation conference to review all the terms and conditions of his probation, including his suspension from pharmacy practice from March 5, 2005 through June 4, 2005.

13. As part of the Pharmacists Recovery Program Treatment Contract, respondent agreed to be bound by the terms of the program. As part of his recovery, respondent agreed to the following:

a. Abstain from the use of alcohol and all other mind altering drugs;
b. Return to work as a pharmacist up to 24 hours per week;
c. Not work in a pharmacy where a family member is employed;
d. Be supervised 75% of each work week by another licensed pharmacist;
e. Not supervise others, act a Pharmacist in Charge, Manager or preceptor to interns or new employees;
f. Report all relapses to Maximus and cease practice upon relapse;
g. Understand that he could be terminated from the PRP for failure to comply with the contract.

14. On June 27, 2005 and July 6, 2005, respondent tested positive for alcohol. On July 6, 2005, respondent denied alcohol use and denied knowing that the PRP Program prohibited alcohol use. Finally, he admitted to drinking. Maximus verbally suspended respondent from the practice of pharmacy and told him to leave work.

15. Maximus advised respondent that he did not have a work-site monitor in place and that he had not completed the work-site monitor paperwork. Respondent was advised that his current work place, Home Care Pharmacy in Riverside, violated his PRP contract because his wife was the Pharmacist in Charge. Later, respondent was notified in writing that he

returned to work at Home Care Pharmacy without notification to Maximus; continued to work at Home Care Pharmacy where his wife was the Pharmacist in Charge, which was in conflict with his PRP contract; and that continued violations could result in his termination from the PRP Program due to non-compliance. Respondent was ordered to enter an inpatient residential chemical dependency treatment program for 30 days treatment.

16. On July 8, 2005, respondent was working at Home Care Pharmacy, and was the only pharmacist present. There were two pharmacy technicians present. The Board confronted respondent with working in violation of his probation, and working in violation of his suspension. Respondent had a key to the pharmacy.

17. Maximus notified the Board that respondent had been terminated from the Pharmacists' Recovery Program effective July 13, 2005 for these violations:

a. Tested positive for alcohol on June 27, 2005 and July 5, 2006;
b. Returned to work without a work site monitor agreement in place with a licensed pharmacist;
c. Returned to work where a relative worked;
d. Failed to enter inpatient chemical dependency treatment;
e. Returned to work after relapse;
f. Returned to work after suspension by Maximus;
g. Non compliance with PRP Contract.

18. On July 14, 2005, the Board sent respondent a letter informing him that his license was suspended due to his termination from the PRP program. Respondent was advised not to enter any pharmacy during his suspension and not to practice pharmacy.

19. On August 11, 2005, the Board advised respondent that he failed to reimburse the Board its costs per the Board decision.

20. On October 6, 2005, the Board inspected Home Care Pharmacy and discovered that respondent was the only pharmacist on duty at the store. Respondent was confronted by the Board, but he had no excuses for working in violation of the Board's prior order suspending him for 90 days. Respondent worked on the following dates in violation of the 90 day suspension: March 7, 10, 21, 2005; April 13, 16, 2005; May 16, 20, 26, 31, 2005; and June 3, 2005.

FIRST CAUSE TO REVOKE PROBATION

(Suspension Period)

21. At all times after the effective date of Respondent's probation, Condition No. 1 stated: Respondent shall be suspended from the practice of pharmacy for a period of 90 days.

22. Respondent's probation is subject to revocation because he failed to comply with Probation Condition No. 1, as set forth in paragraphs 9 through 20 above, that is, he continued to work during his 90 day suspension.

SECOND CAUSE TO REVOKE PROBATION

(Reimbursement of Board Costs)

23. At all times after the effective date of Respondent's probation, Condition No. 7 stated: Respondent shall reimburse the Board its costs.

24. Respondent's probation is subject to revocation because he failed to comply with Probation Condition No. 7, as set forth in paragraphs 9 through 20 above.

26. Respondent's probation is subject to revocation because he failed to comply with Probation Condition No. 15, as set forth above in paragraphs 9 through 20.

FOURTH CAUSE TO REVOKE PROBATION

(Abstain from Drugs and Alcohol)

27. At all times after the effective date of Respondent's probation, Condition No. 17 stated: Respondent shall not use alcohol or drugs.

28. Respondent's probation is subject to revocation because he failed to comply with Probation Condition No. 17, as set forth in paragraphs 9 through 20.

PETITION FOR REINSTATEMENT OF LICENSE TO PRACTICE PHARMACY REVOKED BY ADMINSTRATIVE ACTION

Section 4309 of the Business and Professions Code states that a licensee may petition the Board of Pharmacy for the reinstatement of his or her license if they meet the following requirements:

1. Three years has elapsed from the effective date of the decision ordering disciplinary action; or
2. Two years has elapsed since a petition was previously filed pursuant to section 4309 of the Business and Professions Code and the petitioner was afforded a hearing; or
3. A petitioner is not currently under sentence or on court-imposed probation or parole for any criminal offense. **IF YOU ARE NO LONGER ON CRIMINAL PROBATION, YOU MUST SUBMIT PROOF OF TERMINATION OF CRIMINAL PROBATION;** and
4. There is currently no accusation or petition to revoke probation pending against the petitioner with the board.

If you meet the above requirements, you may petition the board by completing and submitting the attached petition form. When completing your petition, please refer to the attached "Guidelines for Petitions for Reinstatement, Reduction of Penalty, and Early Termination of Probation." These guidelines outline the rehabilitation criteria the board has determined a petitioner should meet when petitioning for license reinstatement.

The petition form **must** be accompanied by **two** or more verifiable letters of recommendations addressed to the board from holders of licenses issued by the Board of Pharmacy, and by **two** or more letters of recommendations from citizens. The letters must be within the last year from the date you are submitting your petition. Each author must indicate in their letter that they have personal knowledge of the disciplinary penalty imposed by the board and your activities since the disciplinary penalty was imposed. The board suggests that letters of recommendation include facts that demonstrate an author's personal knowledge of the subject's penalty and the petitioner's activities. Examples of activities may include employment, community service, volunteer work, etc. A board representative may contact you or anyone who has submitted a letter on your behalf.

Also, required is documentation of **30 hours of Board approved continuing education** (acquired within the last two years from the date your application is received by the board). Photocopies of the certificates of completion should be sent and the original certificates retained for your records.

Submit the petition with the required documents to the address above, to the attention of the enforcement unit. The petition will be processed and evaluated for scheduling at the next available board meeting. Please be advised that you should allow **90** days for the processing of your petition, and the petition set for hearing. Below is a schedule of board meeting dates with the cut-off date for submission of a petition.

You will be notified in writing of the hearing date. At the hearing, you will be afforded the opportunity to present both oral and written evidence of your rehabilitation; and you may, but need not be, represented by counsel. In deciding the case, the board will take into consideration the petition, all recommendations, and any oral or written evidence. The board will be represented by the Attorney General's Office and an administrative law judge will preside over the hearing.

INSTRUCTIONS FOR FILING A PETITION

These instructions should be followed when filing a petition with the Board of Pharmacy to reinstate your pharmacist license after it has been revoked or to reduce a Board-imposed penalty.

The burden of proof is on you to establish clear and convincing evidence that you are entitled to have your petition granted under California law. **It is your responsibility**, as the petitioner, to provide the Board with sufficient evidence to establish that it will be safe for consumers if your petition is granted. You must show that you are sufficiently rehabilitated and competent to safely practice pharmacy.

PROCESS FOR FILING A PETITION

Q. How do I file a petition with the Board of Pharmacy?

A. Filing a petition with the Board of Pharmacy is a two-step process:

1. Submit the following items to the Board.
   - The attached petition form completed and signed.
   - Documents to support your current competence and rehabilitation.

2. Appear at the hearing before the Board to present evidence of your rehabilitation and competency.

EVIDENCE

Evidence is the information that you submit to substantiate your request, including documentation and testimony.

Q. How can I support that my evidence is authentic and valid?

A. You should submit original, dated signed evidence if at all possible. Documents should be on official letterhead whenever appropriate, such as letters from employers, health care professionals and other official sources. Any letters or statements should contain the following "Penalty of Perjury" statement at the end: "I declare, under penalty of perjury, under the laws of the State of California, that the foregoing is true and correct." The statement should be signed and dated by the writer.

Q. What kinds of evidence are appropriate to present?

A. The following documents are examples of appropriate evidence, which may be helpful in demonstrating your rehabilitative efforts and competency. Documents should be recent and dated. The list is not intended to be comprehensive, and you are not limited to these examples. You should submit evidence that is relevant to the violation that led to the discipline of your license and your subsequent rehabilitation.

- Written statements from employers and persons in positions of authority who have on-the-job knowledge of your work performance. For probationers and out-of-state licensees who have practiced pharmacy subsequent to their disciplinary action, the statements should report on your current competency. (Include Penalty of Perjury statement.)

- Performance evaluation(s) from your current and recent employers.

- Letters from counselors regarding your participation in rehabilitation or recovery program, where appropriate. These should include a description of the program, frequency of sessions, diagnosis and prognosis in relation to safety to practice, current state of rehabilitation (or improvement), the counselor's basis for determining improvement, and credentials of counselor, and any other relevant information he or she can provide.

- Certificates of completion or transcripts of courses related to pharmacy, which you may have completed since your license was disciplined.

- Letters or proof of community and volunteer work or other activities, which may be appropriate or relevant to demonstrating rehabilitation from the acts which, led to discipline. (Include Penalty of Perjury statement.)

Q. Must these documents be original documents?

A. Yes, original documents should be submitted as evidence with the petition packet. (Always keep a copy of these originals for your records.) All documents that are submitted with the petition packet must be clear and readable.

Q. Will the board contact people who submit documents on my behalf?

A. Yes, the board reserves the right to contact individuals who submit documents on your behalf to verify the information. A list of names, addresses, and phone numbers for everyone submitting documents on you behalf must be included with your petition packet.

HEARING

The Board hears the petitioner in a formal administrative hearing that resembles a court proceeding. At your hearing you have an opportunity to present evidence of your rehabilitation and competency.

Q. How is the hearing conducted?

A. An Administrative Law Judge will preside over the hearing proceedings. The Members of the Board of Pharmacy will hear and rule on your petition. You will sit at a table in front of the Board Members and the Administrative Law Judge. A Deputy Attorney General (DAG) from the Office of the California Attorney General will represent the State. The DAG will make a preliminary statement outlining all disciplinary actions, which have been taken against your license, and describe the documents you have submitted into evidence. The DAG may ask you questions about your violation and discipline, and efforts you have undertaken to rehabilitate yourself.

Q. What will I be expected to do?

A. You will be sworn under oath by the judge who will ask you to state in your own words what you have done to rehabilitate yourself and to maintain current pharmacy knowledge and skills. **Be prepared to make an oral presentation at this point, which includes such a statement.** The Board Members, the Administrative Law Judge and the Deputy Attorney General may ask questions to clarify your statement or elicit additional information regarding your rehabilitation and current competency.

Q. May I be represented by an attorney at the hearing?

A. Yes, but it is not required. You may represent yourself or an attorney may represent you.

Q. May I have persons come to speak on my behalf?

A. Yes, However, their testimony and yours should be directed specifically toward your pharmacy competence and/or rehabilitation. You may choose to bring family members or friends for support even if they do not testify.

Q. May I submit documents at the time of the hearing?

A. It is preferable and to your advantage to make every effort to submit all relevant documents with your petition 90 days prior to your hearing. This gives the Board Members a reasonable amount of time to review and study them beforehand. If you do submit something at the hearing, you must bring dated original documents. Please be aware that submitting documents at the last minute often causes delays in the processing and may result in a continuance in order to provide the Board Members with an opportunity to fully evaluate your documentation.

Q. How is the date and place for my hearing decided?

A. Enclosed is a schedule of Board meetings, dates and final filing dates for petitions. Petitions are scheduled during the closed session portion of each Board meeting. If the docket for petitions is not already filled, you will be scheduled for the Board meeting that you request.

Q. When will I know the exact date, time, and location for the hearings?

A. Approximately ten days prior to the Board meeting you will receive a formal "NOTICE OF PETITION HEARING" stating the date, time, and place at which you are to appear. Several cases may be scheduled on the hearing docket and it is not possible to know how long each case will last. Therefore, you need to be prepared to remain throughout the day depending on the number and length of cases and in which order they are scheduled.

THE BOARD'S DECISION

Q. When will I be notified of the Board's decision regarding my petition?

A. The Board's decision to grant or deny your petition will be mailed to you within approximately six weeks. The decision is not final until this legal document is mailed to you.

Q. If the Board does not grant my petition, may I petition again?

A. Yes. You may petition again one year after the effective date of the Board's decision to deny your petition. However, if you apply after one year has elapsed, it is at the board's discretion whether a hearing will be held.

Probation shall be automatically extended until Respondent successfully completes his treatment contract. Any person terminated from the program shall be automatically suspended upon notice by the Board. Respondent may not resume the practice of pharmacy until notified by the Board in writing. Re: Narrative to Whipple Procedure and My Nevada License In-Active Status Converted to Active

Dear Madams, Dear Sirs

Following is the explanation about the circumstances surrounding the placement of my Nevada license on In-active Status, and subsequently, entering into a settlement agreement with the Nevada State Board of Medical Examiners on December 4th, 2020. On September 16th, 2022 Nevada Board of Medical Examiners approved my request to reactivate my Nevada Medical Board License # 12548.

On June 5, 2019, a 67-year-old woman presented to my office with a pancreatic tumor for examination for Whipple procedure. She had a history of hypertension and obesity. I scheduled the patient for a diagnostic laparoscopy and possible Whipple after she was given cardiac clearance for the surgery by her cardiologist, Thomas L. Lambert, M.D.

On June 12, 2019, Patient underwent a diagnostic laparoscopy and a Whipple procedure at Spring Valley Hospital Medical Center. Postoperatively she had some bleeding. I brought her back into the OR and performed an exploratory laparotomy and there was no source of active bleeding seen. She remained hemodynamically unstable, and I notified the interventional radiologist, and she underwent a mesentery and visceral angiography which revealed bleeding from a small blood vessel that was successfully embolized. She was transferred to ICU and continued being hemodynamically unstable.

I contacted the on-call vascular surgeon, Dr. Hazem Afifi and we took her back to the operating room and after exploring her abdomen we could not find any active bleeding. Her systolic blood pressure improved transiently to 110-120. Unfortunately, later that evening her blood pressure dropped, and she was in asystole. ACLS protocol was immediately initiated, and CPR was performed.

I had a long conversation with Patient's family throughout the day and in the evening and explained everything that happened, and they expressed their understanding and appreciation for all the efforts that were undertaken to save her life.

Spring Valley Hospital reported her death to Nevada Bord of Medical Examiners, and they started an investigation, and I voluntarily placed my Nevada Medical License in an In-Active Status in June 2019. I then entered into a Settlement Agreement with the Nevada State Board of Medical Examiners based on the advice of my counsel on December 4th, 2020. Subsequently I completed all the steps in the settlement as follows: 20 hours of CMEs, paid the fees in full and completed a PACE Program at UCSD and was deemed to be fit for duty.

On September 16th, 2022, Nevada Board of Medical Examiners approved my request to reactivate my Medical License # 12548.

Please do not hesitate to contact me with any questions. Thank you in advance for your consideration in this matter.

Sincerely,

Kiarash Mirkia, M.D.

RE: Petition for My New CS Pharmacy Application

Dear Ms. Long

During my conversation with your licensing specialist, I was informed that I missed to report a case while submitting my new CS Pharmacy application dated on September 20th, 2022. While filling out the application, I misread the question in section five (3. Have you been the subject of a board citation or an administrative action whether completed or pending in any state? And 4. Has your license been subjected to any discipline for violation of pharmacy or drug laws in any state?). My understanding was that you would only need the settlement agreement and documents pertaining the circumstances when I placed my Nevada Medical License in an in-active status back in June 2019. I was under the impression that I'd only need to send that document since I had previously reported the other disciplinary actions from 2017 and provided the documents for any other Nevada Medical Board actions while I renewed my CS Pharmacy license in the past. I would like to take this opportunity and apologize for the misunderstanding.

I am emailing Ms. Olivia Mora the settlement agreement form 2017 as well as the other investigation documents (Nevada State Pharmacy Board and BME). All the cases have been closed and nothing is currently pending.

I would like to respectfully request to process my CS Pharmacy application expeditiously, as I am actively seeking employment and not having worked in my field as a surgeon since 2019 has caused me many financial hardships. My Nevada Medical License # 12548 is now active.

Please do not hesitate to contact me with any questions. Thank you in advance for your consideration in this matter.

Sincerely,

Kiarash Mirkia, M.D.

6. Respondent understands that, under the Board's charge to protect the public by regulating the practice of medicine, the Board may take disciplinary action against Respondent's license, including license probation, license suspension, license revocation and imposition of administrative fines, as well as any other reasonable requirement or limitation, if the Board concludes that Respondent violated one or more provisions of the Medical Practice Act.

Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing Respondent to appear before the Board at the next regularly-scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order Respondent, the Board may impose additional discipline upon Respondent not inconsistent with the provisions of NRS Chapter 453 and/or Chapter 639.

NEVADA STATE BOARD OF PHARMACY, Petitioner, v. KIARASH L. MIRKIA, M.D., Certificate of Registration No. CS15197, Respondent.	CASE NO. 19-090-CS-S NOTICE OF INTENDED ACTION AND ACCUSATION

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under Nevada Revised Statutes (NRS) 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

I.

The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and this respondent because at the time of the events alleged herein, Respondent Kiarash L. Mirkia, M.D., Certificate of Registration No. CS15197 ("Dr. Mirkia") held a Board issued controlled substance registration.

FACTUAL ALLEGATIONS

II.

In April 2018, Dr. Mirkia owned and was the Medical Director of Mirkia IV, PLLC ("Mirkia IV").

III.

Mirkia IV provided intravenous rehydration treatments to patients in the Las Vegas area using registered nurses who work for the company either directly or on a contract basis.

IV.

Dr. Mirkia allowed Mirkia IV's office staff, including office manager Alex Zukovski ("Zukovski"), who is not a practitioner or registered nurse, to possess the information and keys necessary to access Mirkia IV's inventory of dangerous drugs.

V.

Under Dr. Mirkia's direction, Zukovski or other Mirkia IV office staff accessed and possessed Mirkia IV's inventory of dangerous drugs and provided supplies of dangerous drugs to registered nurses without a practitioner on site, without a practitioner's direct supervision, before Dr. Mirkia or any other practitioner examined the patient, and before there was a patient-specific and medication-specific written order for the patient and/or the mediation.

VI.

Dr. Mirkia directed the registered nurses who were employed by or contracted with Mirkia IV to possess and control dangerous drugs from Mirkia IV's inventory, including storing them at their homes, without a practitioner on site, without direct practitioner supervision, without a patient-specific and medication-specific written order for the patient and/or medication. Dr. Mirkia allowed those nurses to possess and store dangerous drugs from Mirkia IV's inventory for up to three days at a time in anticipation that Dr. Mirkia might examine a patient and issue an order for administration.

VII.

Dr. Mirkia allowed registered nurses to transport the dangerous drugs he put into their possession and control without a patient-specific and medication-specific order.

VIII

Dr. Mirkia generally had no contact – did not examine and did not establish a bona fide therapeutic relationship with the patient – until after one of Mirkia IV's registered nurses transported the dangerous drugs in his/her possession to the patient's location.

IX.

After completing an "examination" of the patient by telephone, Dr. Mirkia would approve, deny or modify a pre-determined order authorizing the patient to receive treatment using an electronic medical record ("EMR") system.

X.

After Dr. Mirkia issued an order to administer medication to the patient, the registered nurse purportedly performed his/her own assessment.

XI.

Mirkia IV's nurses were directed to upsell, and often upsold, addational medications to the patient beyond what Dr. Mirkia initially ordered.

XII.

When an RN was successful in upselling additional dangerous drugs to a patient, an "on call" practitioner purportedly was available to amend the patient's order prior to administration.

XIII.

Dr. Mirkia purchased sterile compounded dangerous drugs from Fusion IV Pharmaceuticals, Inc., *dba* Axia Pharmaceuticals ("Fusion"), in Los Angeles, California.

XIV.

Fusion sold compounded sterile products to practitioners in Nevada, including Dr. Mirkia and/or Mirkia IV.

XV.

Fusion is not licensed in Nevada.

RE: BME CASE #: 19-18844

Dear Dr. Mirkia:

We have received information and a complaint you may be aiding and assisting in the unlicensed practice of medicine, and you may be in violation of regulations adopted by the Nevada State Board of Pharmacy.

It is alleged:

1. You may be aiding and assisting in the unlicensed practice of medicine at Vida Spa located at 3225 S. Rainbow Blvd., Ste. 107 Las Vegas, NV 89146 by allowing unlicensed individuals to perform Botox injections and Platelet-rich plasma (PRP) procedures.

2. You signed a contract as the medical director of Vida Spa effective October 10, 2018. The owner and operator of Vida Spa, Giselle Platfoot, pays you $5,000.00 a month plus 50% of all liposuction procedures you perform.

It is further alleged:

3. On October 23, 2018, an onsite inspection was conducted by the Nevada State Board of Pharmacy and the Nevada State Board of Medical Examiners at Vida Spa. During the inspection it was found that Vitrase and Xeomin vials were being stored in an unlocked refrigerator located in the staff break room.

4. Non FDA approved medications, to include Thin Body mL, Body Solution Slimming Sonic and +Plendor UP Hydration & Elasticity were also located inside the same refrigerator.

It is further alleged:

5. 30ml. Bacteriostatic 0.9% Sodium Chloride, Midazolam Hydrochloride Syrup 2mg/mL, Lidocaine 10mg/mL and Xylocaine 1000mg/30mL, was stored in an unlocked cabinet in the room where you perform liposuction procedures.

6. The owner, Giselle Platfoot who is not a licensed provider, informed investigators that all the medications were brought to Vida Spa by you, however, you may have failed to ensure the dangerous drugs, and Rx only medications, were not accessible to the unlicensed staff at Vida Spa.

It is further alleged:

7. Both you, and Giselle Platfoot, informed investigators with the Nevada State Board of Medical Examiners, as well as the investigator with the Nevada State Board of Pharmacy, your procedure when patients present to you at Vida Spa for Smartlipo procedures, you would require the patients to bring the prescription medications you prescribed on the day of the procedure, to include the controlled substance Ativan. You would take the patient specific medications from the patient, provide them with what they should take prior to the procedure, and take possession of any remaining prescription only medication and controlled substance. In addition, you would allow unlicensed individuals to "throw away" the remaining prescription only medication and controlled substance, and remove the prescription label off the bottles to dispose of them as well; however, per the Code of Federal Regulations (CFR) 1306.04(b) "A prescription may not be issued in order for an individual practitioner to obtain controlled substances for supplying the individual practitioner for the purpose of general dispensing to patients." In addition, you are not authorized by DEA to take back/possess any patient specific controlled substances.

According to these allegations, you may have violated the Nevada Medical Practice Act, Nevada Revised Statutes, Chapters 629 and 630, and Nevada Administrative Code, Chapters 629 and 630 (NMPA).

In order to determine whether or not there has been a violation of the NMPA, **please provide a written response to each allegation noted above.** Please include any further information you believe would be useful for the Board to make a determination in this matter. **Please reply to this request within 21 calendar days.**

The Nevada State Board of Medical Examiners investigates all information received concerning possible violations of the NMPA. We make no determination as to whether or not there has been a violation of the NMPA until a thorough investigation is completed. As a physician under investigation by the Board, you are required by the NMPA to provide the requested information, and your cooperation is not subject to the whistle-blower protections provided to physicians in NRS 630.364(3).

Please be advised that if the particular allegations referenced above did occur, and depending on the facts and circumstances, then you may have violated the NMPA, specifically including but not limited to: NRS 630.301(4),(9), NRS 630.305(1)(e),(1)(f), NRS 630.306(1)(b)(3),(1)(c),(1)(g),(1)(r), NRS 630.3062(1)(h), NAC 630.830(1), NAC 630.230(1)(g), (1)(h) and NAC 630.040.

Re: BME Case Number 18-17883
Re: Nikita Clark - Patient

Dear Dr. Mirkia,

As you recall, The Nevada State Board of Medical Examiners (Board) received a complaint regarding your care of the above named patient.

The Investigative Committee of the Board, pursuant to the requirements of Nevada Revised Statute 630.311, conducted an investigation to determine whether or not a violation of any of the provisions of the Medical Practice Act (Chapter 630 of the Nevada Revised Statutes) had occurred. The law of the state of Nevada does not require that the committee file a formal complaint with the Board, even if it has determined that there has been a violation.

The Investigative Committee (IC) of the Board has determined that it will not file a formal complaint with the Board and the above case will be closed without formal action.

This determination should not be considered by you or anyone else that the IC or the Board has made a determination that you did or did not violate the Medical Practice Act, and the use of the content of this letter to either support or defend any civil cause of action would, in the opinion of the Board, be inappropriate.

Very truly yours,

August 12, 2022

To Whom It May Concern:

On October 18, 2001 pursuant to a Consent Agreement and Order between the Pennsylvania State Board of Osteopathic Medicine and myself, my medical license (No. OS-007647-L) was suspended for at least three (3) years with an immediate stay and probation with conditions to be served in lieu of the suspension.

The suspension and probation were due to improper prescribing of a controlled substance to my former spouse in an attempt to treat her migraine headaches.

As there was an immediate stay, I continued to practice under the consent agreement and at no time did I stop practicing and I have practiced continuously since completing my residency in 1994.

The wording of the action in the National Practitioner Data Bank is:

> "Indefinite suspension for at least three years, stayed in favor of at least three years probation subject to conditions. Based on inability to practice with reasonable skill and safety by reason of illness, addiction to drugs or alcohol, or mental impairment."
>
> Basis for Action: Improper prescribing or dispensing.

In June of 2000 I had entered into a voluntary agreement with the Physician's Health Program (PHP) of the Pennsylvania Medical Society. My former spouse was a physician's assistant and I had sought help for her chemical dependency through PHP. PHP requested my participation as the physician spouse of a chemically dependent health care provider and to provide advocacy and documentation for me as the non-chemical dependent partner.

I was evaluated by the PHP who determined me to be codependent in providing narcotic prescriptions for my former spouse but not suffering from chemical dependency myself. The PHP enrolled me in a monitoring agreement, had me participate in psychological counselling for my codependence and did random urine toxicology screening to document my drug free status.

My diagnosis of codependency was the basis for the stipulation of mental impairment in the license sanction.

My participation with the PHP from June of 2000 led the PA State Board of Osteopathic Medicine to rescind my probation on June 30, 2003, sixteen months early.

My Pennsylvania license is currently inactive but was in good standing at the time I inactivated it.

My participation with PHP ended in December 2004 in good standing.

The DEA did not express any concern or impose any action against me. This action has not proven to be a barrier to licensing in any state or obtaining privileges/credentialing with any healthcare organization, malpractice carrier or insurer.

If you have any additional concerns or questions, please feel free to contact me at [redacted]

Sincerely,

James J. Zubernis, DO, FACOOG

(9) Respondent shall notify the DMU by telephone within 48 hours and in writing within five (5) days of any change of Respondent's home address, phone number, employment status, employer and/or change in practice at a health care facility. Failure to timely advise the DMU under this subsection due to the DMU office being closed is not an excuse for not leaving a voice mail message with this information.

(b) Such medications are lawfully prescribed by Respondent's treating practitioner and approved by the DMU case manager; and

(c) Respondent provides the DMU, within 48 hours of receiving the medication, the name of the practitioner prescribing the drug, the illness or medical condition diagnosed, the type, strength, amount and dosage of the medication, and a signed statement consenting to the release of the medical information from the prescribing practitioner to the DMU or its designated representative for the purpose of verification.

SUPERVISED PRACTICE

(19) Respondent shall not without the DMU case manager's written approval:

(c) Function in a private practice setting or without direct supervision;

(d) Work in an intensive care unit, operating room, coronary care unit, or emergency department; or

(20) Within five (5) days of the effective date of this Agreement, Respondent shall give any employer, supervisor or instructor ("supervisor") and any prospective supervisor a copy of this Agreement.

(22) Respondent shall ensure that Respondent's supervisor submits to the DMU the following information in writing:

(a) Verification that the supervisor has received a copy of this Agreement and understands the conditions of this probation;

(b) An evaluation of Respondent's work performance on a 60-day or more frequent basis, as requested by the DMU; and

(c) Immediate notification of any suspected violation of this probation by Respondent.

BODY FLUID TOXICOLOGY SCREENING

(23) Respondent shall submit to random unannounced and observed body fluid toxicology screens for the detection of substances prohibited under this Agreement as directed by the DMU. A positive result on a body fluid toxicology screen shall constitute an irrefutable

violation of this Agreement unless Respondent has complied with the provisions of this Agreement pertaining to the use of drugs. Failure to provide a specimen when requested will be considered a violation of this Agreement.

(24) Respondent shall avoid all foods which contain poppy seeds. Ingestion of poppy seeds will not be accepted as a valid explanation for a positive screen.

REPORTING/RELEASES

(25) Respondent, Respondent's providers, supervisor(s), employer(s) or other persons required to submit reports under this Agreement shall cause such reports, data or other information to be filed with the DMU, unless otherwise directed, at:

DMU
Box 10749
Harrisburg, PA 17105-0749

(26) Respondent consents to the release by the DMU of any information or data produced as a result of this probation, including written provider evaluations, to any treatment provider, supervisor, Commonwealth's attorney, hearing examiner, and Board members in the administration and enforcement of this Agreement.

(27) Respondent shall sign any required waivers or release forms requested by the DMU for any and all records, including medical or other health-related and psychological records, pertaining

to treatment and monitoring rendered to Respondent during this probation and any corresponding criminal probation, as well as any employment, personnel, peer review or review records pertaining to Respondent's practice of the profession during this probation, to be released to the DMU, the Commonwealth's attorney, hearing examiner and Board members in the administration and enforcement of this Agreement.

COSTS

(28) Respondent shall be responsible for all costs incurred in complying with the terms of this Agreement, including but not limited to psychiatric or psychotherapy treatments, DMU-required toxicology screens prior to each screen's being conducted, and reproduction of treatment or other records.

BUREAU/PHMP EVALUATIONS

(29) Upon request of the DMU, the Respondent shall submit to mental or physical evaluations, examinations or interviews by a DMU-approved treatment provider or the DMU. Respondent's failure to submit to such an evaluation, examination or interview shall constitute a violation of this Agreement.

VIOLATION OF THIS ORDER

(30) Notification of a violation of the terms or conditions of this Agreement shall result in the **IMMEDIATE VACATING** of the stay order, **TERMINATION** of the period of probation, and **ACTIVATION** of the suspension, imposed in paragraph 5b above, of Respondent's license(s) to practice the profession in the Commonwealth of Pennsylvania, as follows:

(a) The prosecuting attorney for the Commonwealth shall present to the Board's Probable Cause Screening Committee ("Committee") a Petition which indicates that Respondent has violated any terms or conditions of this Agreement.

(b) Upon a probable cause determination by the Committee that Respondent has violated any of the terms or conditions of this Agreement, the Committee shall, without holding a formal hearing, issue a preliminary order vacating the stay of the within suspension, terminating this probation and activating the suspension of Respondent's license.

(c) Respondent shall be notified of the Committee's preliminary order within three (3) business days of its issuance by certified mail and first class mail, postage prepaid, sent to Respondent's last registered address on file with the Board, or by personal service if necessary.

(d) Within twenty (20) days of mailing of the preliminary order, Respondent may submit a written answer to the Commonwealth's petition and request that a formal hearing be held concerning Respondent's violation of probation, in which Respondent may seek relief from the preliminary order activating the suspension. Respondent shall mail the original answer and request for hearing, as well as all subsequent writings in the matter, to the Bureau of Professional and Occupational Affairs' Prothonotary, 124 Pine Street, Suite 200, Harrisburg, PA 17101, and a copy to the prosecuting attorney for the Commonwealth.

(e) If Respondent submits a timely answer and request for a formal hearing, the Board or a designated hearing examiner shall convene a formal hearing within forty-five (45) days from the date of the Prothonotary's receipt of Respondent's request for a formal hearing.

(f) Respondent's submission of a timely answer and request for a hearing shall not stay the suspension of Respondent's license under the preliminary order. The suspension shall remain in effect unless the Board or the hearing examiner issues an order after the formal hearing staying the suspension again and reactivating the probation.

(g) The facts and averments in this Agreement shall be deemed admitted and uncontested at this hearing.

(h) If the Board or hearing examiner after the formal hearing makes a determination against Respondent, a final order will be issued sustaining the suspension of Respondent's license and imposing any additional disciplinary measures deemed appropriate.

(i) If Respondent fails to timely file an answer and request a hearing, the Board shall issue a final order affirming the suspension of Respondent's license.

(j) If Respondent does not make a timely answer and request for a formal hearing and a final order affirming the suspension is issued, or the Board or hearing examiner makes a determination against Respondent sustaining the suspension of Respondent's license, after at least 3 years of active suspension and any additional imposed discipline,

Respondent may petition the Board for reinstatement based upon an affirmative showing that Respondent has at least 36 (thirty-six) months of sustained documented recovery, a DMU-approved provider's evaluation that Respondent is fit to safely practice, and verification that Respondent has abided by and obeyed all laws of the United States, the Commonwealth of Pennsylvania and its political subdivisions, and all rules and regulations pertaining to the practice of the profession in this Commonwealth.

c. Respondent's failure to fully comply with any terms of this Agreement may also constitute grounds for additional disciplinary action.

6. Nothing in this Agreement shall preclude the prosecuting attorney for the Commonwealth from filing charges or the Board from imposing disciplinary action or corrective measures for violations or facts not contained in this Agreement.

7. After successful completion of probation, Respondent may petition the Board to reinstate Respondent's license to unrestricted, non-probationary status upon an affirmative showing that Respondent has complied with all terms and conditions of this Agreement and that Respondent's resumption of unsupervised practice does not present a threat to the public health and safety.

8. This Agreement shall take effect immediately upon its approval and adoption by the Board.

9. Respondent waives filing and service of an Order to Show Cause in this matter. Respondent knowingly and voluntarily waives the right to an administrative hearing in this matter,

and to the following rights related to that hearing: to be represented by counsel at the hearing; to present witnesses and testimony in defense or in mitigation of any sanction that may be imposed for a violation; to cross-examine witnesses and to challenge evidence presented by the Commonwealth; to present legal arguments by means of a brief; and to take an appeal from any final adverse decision.

10. Respondent agrees, as a condition of entering into this Agreement, not to seek modification of it at a later date without first obtaining the express written concurrence of the Prosecution Division of the Bureau of Professional and Occupational Affairs.

11. This Agreement is between the prosecuting attorney and Respondent only. Except as otherwise noted, this Agreement is to have no legal effect unless and until the Office of General Counsel approves the contents as to form and legality and the Board approves and adopts the Agreement.

12. Should the Board not approve this Agreement, presentation to and consideration of it by the Board shall not prejudice the Board or any of its members from further participation in the adjudication of this matter. This paragraph is binding on the participants even if the Board does not approve this Agreement.

13. This Agreement contains the whole agreement between the participants. There are no other terms, obligations, covenants, representations, statements or conditions, or otherwise, of any kind whatsoever concerning this Agreement.

14. Respondent verifies that the facts and statements set forth in this Agreement are true and correct to the best of Respondent's knowledge, information and belief. Respondent understands that statements in this Agreement are made subject to the criminal penalties of 18 Pa.C.S. '4904 relating to unsworn falsification to authorities.

Re: James J. Zubernis, DO

To Whom It May Concern:

Dr. Zubernis has requested a summary of his participation in the Pennsylvania Physicians' Health Programs (PHP). He was referred to the PHP when he was found to be prescribing a controlled substance for a family member. He cooperated with PHP requests for evaluation. He was not diagnosed as being chemically dependent himself, but was seen as being codependent in providing these medications to the family member in attempts to help.

He agreed to enter therapy and enrolled in a monitoring agreement running from June 29, 2000 through June 29, 2005. PHP staff asked Dr. Zubernis to provide urine toxicology samples to document his own drug-free status even though he is not diagnosed as an addict. He cooperated with these arrangements. In addition, he followed up with therapy and embraced the concepts of recovery from codependence.

Because his difficulty involved prescribing controlled substances, Dr. Zubernis was referred to the State Board of Osteopathic Medicine. Since there was no "Axis I Diagnosis" in his case, he was put into the Disciplinary Monitoring Unit rather than the non-disciplinary unit, where he would have been placed had he been diagnosed as chemically dependent.

Dr. Zubernis completed his therapy requirement, and provided the PHP with documentation of his own drug-free status. He maintained regular contact with the PHP staff, per his monitoring agreement requirements. He attended Nar-Anon for approximately three and one-half years. All toxicology screens were negative for prohibited substances and he successfully completed a course of individual therapy.

RE: James Joseph Zubernis, DO

Dear Ms. Mora:

I am writing this letter to summarize the participation of James Joseph Zubernis, DO in the Pennsylvania Physicians' Health Program (PHP). Dr. Zubernis initially contacted the PHP on June 15, 2000, at the request of the Pennsylvania Professional Health Monitoring Programs (PHMP) following an investigation for prescription irregularities.

Dr. Zubernis was evaluated by Dr. Jon Shapiro on June 16, 2000. He was not given a substance use diagnosis, but was found to be codependent, which contributed to his irregular prescribing of controlled substances to a family member.

Dr. Zubernis signed a five year monitoring agreement with the PHP effective June 29, 2000 through June 29, 2005. The agreement required 12-Step meeting attendance, individual therapy, peer, and workplace monitor reports, ongoing contact with the PHP staff, as well as drug testing (both urine drug screens and Phosphatidylethanol testing).

Dr. Zubernis elected to close his Pennsylvania PHP file on January 19, 2005; he was in full compliance with his monitoring requirements. All drug screens were negative for prohibited substances.

I hope this information is useful. Please contact the PHP office should you have any questions.

Sincerely,

Raymond C. Truex Jr, MD, FACS, FAANS
Medical Director

BEFORE THE ARIZONA MEDICAL BOARD

In the Matter of **IRFAN MIRZA, M.D.** Holder of License No. 28306 For the Practice of Allopathic Medicine In the State of Arizona.	**Case No. MD-21-0308B** **ORDER FOR LETTER OF REPRIMAND AND PROBATION; AND CONSENT TO THE SAME**

Irfan Mirza, M.D. ("Respondent") elects to permanently waive any right to a hearing and appeal with respect to this Order for Letter of Reprimand and Probation; admits the jurisdiction of the Arizona Medical Board ("Board"); and consents to the entry of this Order by the Board.

FINDINGS OF FACT

1. The Board is the duly constituted authority for the regulation and control of the practice of allopathic medicine in the State of Arizona.

2. Respondent is the holder of license number 28306 for the practice of allopathic medicine in the State of Arizona.

3. The Board initiated case number MD-21-0308B after receiving a complaint regarding Dr. Mirza's care and treatment of a 63 year-old female patient ("MD") alleging inappropriate prescribing of controlled substances.

4. MD first established care with Respondent as a cardiac referral for circulation problems in the hands and feet, chest pain, and intermittent arm numbness. MD had a past medical history of reflex sympathetic dystrophy ("RSD") of the right hand following an on the job crush injury in 1995. MD also has associated severe neuropathy, Raynaud's disease, osteoarthritis, chronic pain syndrome, severe anxiety, muscle spasms, and insomnia.

5. On February 7, 2018, MD established care with Respondent as her Primary Care Provider. At the time, MD's medications included Ambien 10mg at bedtime, Soma

350mg three times daily, oxycodone 30mg 1-2 tablets every four hours, lorazepam 0.5mg every twelve hours, and gabapentin 400mg 3 capsules four times daily. Respondent documented that MD's pain management providers prescribed Soma, lorazepam, and oxycodone in the past. Respondent further documented that MD's current Pain Management Provider ("PMP") requested that Respondent prescribe Soma and Ambien in addition to the oxycodone and lorazepam being provided by the PMP. Respondent documented review of MD's Controlled Substance Prescription Monitoring Program ("CSPMP") report and a phone consultation with the pain management provider. Respondent documented informed consent and a discussion of the risks of Soma and oxycodone with MD. Respondent also discussed the prescribing of multiple controlled substances with the pharmacist. Respondent noted that MD's hand surgeon was contemplating amputation but was concerned it might lead to phantom limb pain.

6. Subsequently, Respondent saw MD monthly and continued to prescribe her Soma and Ambien.

7. On August 29, 2018, MD reported weight gain. Respondent recommended changes to MD's diet.

8. On September 12, 2018, Respondent prescribed MD phentermine 37.5mg daily for weight loss.

9. On November 21, 2018, MD reported losing her bottle of lorazepam and her PMP's refusal to replace it. Respondent agreed to prescribe her one time prescription for Xanax 0.25 mg twice daily.

10. On October 12, 2020, Respondent documented that discussed tapering the Soma, but that MD was reluctant to attempt a taper. On December 30, 2020, Respondent documented that he was unable to taper MD's Soma.

11. On February 16, 2021, MD reported that her PMP discharged her from the practice and she was looking for a new pain provider. Respondent advised MD to go to ER if she has withdrawal symptoms.

12. On March 30, 2021, Respondent called MD at home for a wellbeing check. MD reported nausea, itching, and severe anxiety since she was out of lorazepam and pain all over since she is out of oxycodone. Respondent advised MD to go to ER, which the patient declined. Respondent warned of risks including death.

13. On April 19, 2021, MD phoned Respondent's office to report that she was unable to come to appointment because too ill. Respondent called MD and left a detailed message, and MD's husband called back. Respondent told MD's husband to call 911 or got to the hospital.

14. On April 20, 2021, MD phoned Respondent's office to report that she was doing better. Respondent's office again recommended going to hospital if her symptoms worsened.

15. On April 21, 2021 MD presented to a Hospital with complaints of abdominal pain but left against medical advice.

16. During the course of the Board's investigation Board staff received a letter signed by MD expressing support for Respondent's care. MD subsequently reported that Respondent's staff drafted the letter for her to sign, and further reported that Respondent promised to write her a prescription for Ambien in exchange for the letter. MD reported that Respondent ultimately did not provide her the prescription, but provided her with a trazadone pill instead.

17. The standard of care prohibits a physician from prescribing Soma for long term use without clinical justification. Respondent deviated from this standard of care by prescribing MD Soma for long term use without clinical justification.

18. The standard of care prohibits a physician from prescribing Ambien without clinical justification. Respondent deviated from the standard of care by prescribing Ambien without clinical justification.

19. The standard of care requires a physician to address aberrant behaviors. Respondent deviated from the standard of care by failing to address MD's aberrant behaviors.

20. The standard of care requires a physician to perform urinary drug screens prior to prescribing controlled substances. Respondent deviated from the standard of care by failing to perform urinary drug screens prior to prescribing controlled substances to MD.

21. There was the potential for patient harm in that MD was at risk of sleep apnea, overdose, diversion and death.

BEFORE THE COLORADO MEDICAL BOARD

STATE OF COLORADO

CASE NO. 2019-315-B

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF THE DISCIPLINARY PROCEEDING REGARDING THE LICENSE TO PRACTICE MEDICINE IN THE STATE OF COLORADO OF ANJMUN SHARMA, M.D., LICENSE NUMBER DR-46192,

Respondent.

IT IS HEREBY STIPULATED and agreed by and between Inquiry Panel[panel] B ("Panel") of the Colorado Medical Board ("Board") and Anjmun Sharma, M.D. ("Respondent") (collectively, the "Parties") as follows:

JURISDICTION AND CASE HISTORY

1. Respondent was licensed to practice medicine in the state of Colorado on November 14, 2007 and was issued license number DR-46192, which Respondent has held continuously since that date ("License").

2. The Panel and the Board have jurisdiction over Respondent and over the subject matter of this proceeding.

3. On July 16, 2020, the Panel reviewed case number 2019-315-B and determined that further proceedings by formal complaint were warranted pursuant to Section 12-240-125(4)(c)(V), C.R.S. and the matter was referred to the Attorney General's Office.

4. It is the intent of the Parties and the purpose of this Stipulation and Final Agency Order ("Order") to provide for a settlement of all matters set forth in case number 2019-315-B, without the necessity of conducting a formal disciplinary hearing. This Order constitutes the entire agreement between the Parties, and there are no other agreements or promises, written or oral, which modify, interpret, construe or affect this Order.

5. Respondent understands that:

a. Respondent has the right to be represented by an attorney of the Respondent's choice, and Respondent has voluntarily chosen to proceed without representation;

b. Respondent has the right to a formal complaint and disciplinary hearing pursuant to Sections 12-240-125(4)(c)(V) and 12-240-125(5), C.R.S.;

c. By entering into this Order, Respondent is knowingly and voluntarily giving up the right to a formal complaint and disciplinary hearing, admits the facts contained in this Order, and relieves the Panel of its burden of proving such facts;

d. Respondent is knowingly and voluntarily giving up the right to present a defense by oral and documentary evidence and to cross-examine witnesses who would testify on behalf of the Panel; and

e. Respondent is knowingly and voluntarily waiving the right to seek judicial review of this Order.

FACTUAL BASIS

6. Respondent specifically admits and the Panel finds that:

a. Between and including January 2017 and December 2018, Respondent recommended the use of medical marijuana to patients to treat various medical conditions.

b. Respondent's physical examinations did not meet generally accepted standards of medical practice for the following reasons:

i. Respondent did not complete adequate physical examinations related to the presenting complaints as outlined in patients' medical history reports or supporting documentation in medical records.

ii. Respondent's physical examinations of patients resulted in findings that did not support the ultimately stated diagnosis.

iii. The medical condition for which patients sought to use medical marijuana and the condition listed on the Physician Certification were not supported by patients' medical histories and the information in the medical records.

c. Respondent's medical records for patients lacked essential entries in the following areas:

i. Respondent failed to document patients' chief complaint, history of the present illness, relevant physical examination findings, and a plan of treatment.

ii. Respondent failed to document relevant positive and negative physical findings.

iii. Respondent failed to document the rationale for authorizing increased plant counts.

iv. The parties agree that Respondent did not falsify any patient medical records.

7. Respondent admits and the Panel finds that the acts and/or omissions described in the factual basis above constitutes unprofessional conduct pursuant to Section 12-240-121(1)(j), and (v) C.R.S., which states:

(1) "Unprofessional conduct" as used in this article 240 means:

(j) Any act or omission that fails to meet generally accepted standards of medical practice;

(v)-documentation. Falsifying or repeatedly making incorrect essential entries or repeatedly failing to make essential entries on patient records.

8. Based upon the above, the parties stipulate that the terms of this Order are authorized by Section 12-240-125(5)(c)(III), C.R.S.

LETTER OF ADMONITION

9. This provision shall constitute a Letter of Admonition as set forth in Sections 12-240-125(4)(c)(IV) and 12-240-125(5)(c)(III), C.R.S. Respondent is hereby admonished for the acts and omissions described in the factual basis above.

10. By entering this Order, Respondent agrees to waive the rights provided by Section 12-20-404(4), C.R.S., to contest this Letter of Admonition.

OUT OF STATE PRACTICE

11. Respondent may wish to leave Colorado and practice in another state. At any time other than during a period of suspension imposed by this Order, and whether to practice out of state or for any other reason, Respondent may request, in writing, that the Board place Respondent's License on inactive status as set forth in Section 12-240-141, C.R.S. Respondent's request to place his License on inactive status must include written evidence that Respondent has reported this Order to all other jurisdictions in which Respondent is licensed, as required by the "Other Terms" section of this Order. Upon the approval of such request, Respondent may cease to comply with the terms of this Order. Failure to comply with the terms of

this Order while inactive shall not constitute a violation of this Order. While inactive, Respondent shall not perform any act in the state of Colorado that constitutes the practice of medicine, nor shall Respondent perform any act in any other jurisdiction pursuant to the authority of a license to practice medicine granted by the state of Colorado. Unless Respondent's License is inactive, Respondent must comply with all terms of this Order, irrespective of Respondent's location.

12. Respondent may resume the active practice of medicine at any time pursuant to written request and as set forth in Section 12-240-141(5), C.R.S.

PERMANENT VOLUNTARY MEDICAL MARIJUANA PRESCRIBING RESTRICTION

13. Commencing on the effective date of this Order, Respondent shall not prescribe medical marijuana or conduct evaluations for prescribing medical marijuana. This restriction shall be permanent, and Respondent has voluntarily agreed to discontinue this service.

OTHER TERMS

14. The terms of this Order were mutually negotiated and determined.

15. Both Parties acknowledge that they understand the legal consequences of this Order; both Parties enter into this Order voluntarily; and both Parties agree that no term or condition of this Order is unconscionable.

16. All costs and expenses incurred by Respondent to comply with this Order shall be the sole responsibility of Respondent and shall in no way be the obligation of the Board or Panel.

17. If Respondent is licensed by any other jurisdiction, Respondent shall report this Order to all other jurisdictions in which Respondent is licensed.

18. Respondent shall obey all state and federal laws while the terms of this Order are in effect.

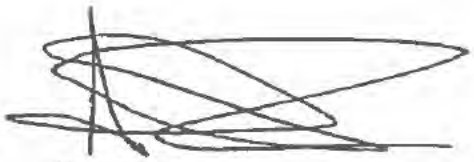
19. So that the Board may notify hospitals of this agreement pursuant to section 12-240-125(11), C.R.S., Respondent presently holds privileges at or is employed by the following hospitals and facilities:

_____

20. This Order and all its terms shall have the same force and effect as an order entered after a formal disciplinary hearing pursuant to section 12-240-125(5)(c)(III), C.R.S., except that it may not be appealed. Failure to comply with the terms of this Order may be sanctioned by the Inquiry Panel as set forth in section 12-240-125(5)(c)(IV), C.R.S. This Order and all its terms also constitute a valid board order for purposes of section 12-240-121(1)(n), C.R.S.

21. This Order shall be admissible as evidence at any proceeding or future hearing before the Board.

22. Invalidation of any portion of this Order by judgment or court order shall in no way affect any other provision, which shall remain in full force and effect.



23. During the pendency of any action arising out of this Order, the terms of this Order shall be deemed to be in full force and effect and shall not be tolled.

24. Respondent acknowledges that the Panel may choose not to accept the terms of this Agreement and that if the Agreement is not approved by the Panel and signed by a Panel member or other authorized person, it is void.

25. This Order shall be effective upon service by electronic means on Respondent at Respondent's electronic address of record with the Board. Respondent hereby consents to service by electronic means if Respondent has an electronic address on file with the Board.

26. Upon becoming effective, this Order shall be open to public inspection and shall be publicized pursuant to the Board's standard policies and procedures. This Order constitutes discipline against Respondent's license. Additionally, this Order shall be reported the Federation of State Medical Boards, the National Practitioner Data Bank and as otherwise required by law.

Dear Mr. Wuest:

This firm represents Allison, Curtis, Kingsley, Meoz, Michael & Sanchez, Prof. Corp., dba Comprehensive Cancer Centers of Nevada ("CCCN"), employer of the above-named registered pharmacists ("Pharmacists"). As we previously discussed via telephone, it has recently come to our attention that the Pharmacists had not submitted applications to practice pharmacy at CCCN's locations (none of which is a licensed pharmacy) as required pursuant to NAC 639.403. The Pharmacists' application is attached herewith, and we respectfully request that it be considered at the November 30 - December 1, 2022 general meeting.[1]

CCCN and the Pharmacists are unable to account for their failure to apply sooner. Perhaps because Mr. Rassuchine's and Mr. Williams's employment with CCCN pre-dated the 2008 adoption of NAC 639.403, and served as a model for subsequent employment of CCCN pharmacists, this requirement went unnoticed and was never incorporated into CCCN's onboarding procedures. As you know, CCCN has a long history of working closely with the Nevada State Board of Pharmacy ("BOP") with regard to legislative and regulatory matters, and had never concealed the Pharmacists' work or sought to bypass this application requirement. Stated simply, this issue had just not come up until it was brought to the Pharmacists' attention by BOP Investigator Kenneth C. Scheuber.

As explained in the attached application, the Pharmacists are responsible for overseeing and informing CCCN's medical oncology treatment programs, including chemotherapy. CCCN simply could

[1] One of the Pharmacists will be travelling for professional purposes on the afternoon of December 1, 2022, so we additionally request that the application be placed on the agenda for November 30th or the morning of December 1st at the latest, if possible.

not continue to provide the medication treatments relied upon by thousands of CCCN patients each month, quite literally as a matter of life or death, without the support of the Pharmacists.

CCCN, the Pharmacists, and we as CCCN's legal counsel agree that the interests of the public are best served if the Pharmacists continue the work they have been doing over the past many years pending the BOP's consideration, and hopefully approval, of the application. None of the Pharmacists has been the subject of a BOP investigation or discipline related to their past work at CCCN; no malpractice actions have been filed against them; and there have been no incidents of or concerns for patient harm arising from their services at CCCN. Although the Pharmacists' continued work at CCCN may constitute a knowing noncompliance with NAC 639.403, we trust the BOP will recognize that, under these circumstances, the safety of seriously ill cancer patients in Nevada is better protected through the continued practice of the Pharmacists, rather than through the unthinkable alternative of suspending all medical oncology treatments at CCCN.

Although we are still researching the issue, the Pharmacists may be required to submit Collaborative Practice Agreements in accordance with NRS 639.2623. If so, we will provide those to the BOP as soon as possible, with the caveat that it will take some time to obtain the signatures of the roughly twenty-five (25) CCCN medical oncologists who collaborate with each of the Pharmacists.

We appreciate your consideration of the foregoing issues. Should you wish to discuss further, I may be reached at 702.307.4870.

Sincerely,

NUTILE LAW

not continue to provide the medication treatments relied upon by thousands of CCCN patients each month, quite literally as a matter of life or death, without the support of the Pharmacists.

CCCN, the Pharmacists, and we as CCCN's legal counsel agree that the interests of the public are best served if the Pharmacists continue the work they have been doing over the past many years pending the BOP's consideration, and hopefully approval, of the application. None of the Pharmacists has been the subject of a BOP investigation or discipline related to their past work at CCCN; no malpractice actions have been filed against them; and there have been no incidents of or concerns for patient harm arising from their services at CCCN. Although the Pharmacists' continued work at CCCN may constitute a knowing noncompliance with NAC 639.403, we trust the BOP will recognize that, under these circumstances, the safety of seriously ill cancer patients in Nevada is better protected through the continued practice of the Pharmacists, rather than through the unthinkable alternative of suspending all medical oncology treatments at CCCN.

Although we are still researching the issue, the Pharmacists may be required to submit Collaborative Practice Agreements in accordance with NRS 639.2623. If so, we will provide those to the BOP as soon as possible, with the caveat that it will take some time to obtain the signatures of the roughly twenty-five (25) CCCN medical oncologists who collaborate with each of the Pharmacists.

We appreciate your consideration of the foregoing issues. Should you wish to discuss further, I may be reached at 702.307.4870.

Sincerely,

NUTILE LAW

Dear Mr. Wuest:

This firm represents Allison, Curtis, Kingsley, Meoz, Michael & Sanchez, Prof. Corp., dba Comprehensive Cancer Centers of Nevada ("CCCN"), employer of the above-named registered pharmacists ("Pharmacists"). As we previously discussed via telephone, it has recently come to our attention that the Pharmacists had not submitted applications to practice pharmacy at CCCN's locations (none of which is a licensed pharmacy) as required pursuant to NAC 639.403. The Pharmacists' application is attached herewith, and we respectfully request that it be considered at the November 30 - December 1, 2022 general meeting.[1]

CCCN and the Pharmacists are unable to account for their failure to apply sooner. Perhaps because Mr. Rassuchine's and Mr. Williams's employment with CCCN pre-dated the 2008 adoption of NAC 639.403, and served as a model for subsequent employment of CCCN pharmacists, this requirement went unnoticed and was never incorporated into CCCN's onboarding procedures. As you know, CCCN has a long history of working closely with the Nevada State Board of Pharmacy ("BOP") with regard to legislative and regulatory matters, and had never concealed the Pharmacists' work or sought to bypass this application requirement. Stated simply, this issue had just not come up until it was brought to the Pharmacists' attention by BOP Investigator Kenneth C. Scheuber.

As explained in the attached application, the Pharmacists are responsible for overseeing and informing CCCN's medical oncology treatment programs, including chemotherapy. CCCN simply could

[1] One of the Pharmacists will be travelling for professional purposes on the afternoon of December 1, 2022, so we additionally request that the application be placed on the agenda for November 30th or the morning of December 1st at the latest, if possible.

not continue to provide the medication treatments relied upon by thousands of CCCN patients each month, quite literally as a matter of life or death, without the support of the Pharmacists.

CCCN, the Pharmacists, and we as CCCN's legal counsel agree that the interests of the public are best served if the Pharmacists continue the work they have been doing over the past many years pending the BOP's consideration, and hopefully approval, of the application. None of the Pharmacists has been the subject of a BOP investigation or discipline related to their past work at CCCN; no malpractice actions have been filed against them; and there have been no incidents of or concerns for patient harm arising from their services at CCCN. Although the Pharmacists' continued work at CCCN may constitute a knowing noncompliance with NAC 639.403, we trust the BOP will recognize that, under these circumstances, the safety of seriously ill cancer patients in Nevada is better protected through the continued practice of the Pharmacists, rather than through the unthinkable alternative of suspending all medical oncology treatments at CCCN.

Although we are still researching the issue, the Pharmacists may be required to submit Collaborative Practice Agreements in accordance with NRS 639.2623. If so, we will provide those to the BOP as soon as possible, with the caveat that it will take some time to obtain the signatures of the roughly twenty-five (25) CCCN medical oncologists who collaborate with each of the Pharmacists.

PROPOSED REGULATION OF THE

STATE BOARD OF PHARMACY

LCB File No. R007-22

February 17, 2022

EXPLANATION – Matter in *italics* is new; matter in brackets [~~omitted material~~] is material to be omitted.

AUTHORITY: §§ 1-7 and 10-12; NRS 453B.080 and 453B.120; § 8, NRS 453B.080, 453B.110 and 453B.120; § 9, NRS 453B.080, 453B.100 and 453B.120

A REGULATION relating to prescription drugs; establishing requirements governing participating in or receiving prescription drugs through the Prescription Drug Donation Program; providing that a participating pharmacy, medical facility, health clinic or provider of health care is not required to accept a donated prescription drug; removing certain definitions; and providing other matters properly relating thereto.

Legislative Counsel's Digest

Senate Bill No. 91 of the 2017 Legislative Session: (1) combined the HIV/AIDS Drug Donation Program and the Cancer Drug Donation Program; and (2) expanded the combined program to create the Prescription Drug Donation Program. (Chapter 153, Statutes of Nevada 2017, at page 684) Under existing law, the Prescription Drug Donation Program provides for: (1) the donation of any prescription drug, with certain exceptions, through a participating pharmacy, medical facility, health clinic or provider of health care; and (2) the dispensing of donated prescription drugs by pharmacists. (NRS 453B.080, 453B.100) **Sections 2-6 and 8-11** of this regulation revise existing regulations governing the Cancer Drug Donation Program to apply instead to the Prescription Drug Donation Program. **Sections 5, 9 and 12** of this regulation remove the requirement that a person must be approved by the State Board of Pharmacy to receive a drug through the Program, thereby authorizing any resident of this State with a valid prescription to receive such a drug.

Existing regulations prescribe criteria for a pharmacy, medical facility, health clinic or provider of health care to participate in the Program. (NAC 453B.080) **Section 6** of this regulation adds to these eligibility criteria requirements that: (1) a pharmacy must be in good standing with the Board; and (2) a pharmacy, medical facility, health clinic or provider of health care must establish procedures for receiving, inspecting, storing and disposing of donated prescription drugs, keeping records and verifying the eligibility of patients to receive donated prescription drugs through the Program.

Existing regulations require a pharmacy, medical facility, health clinic or provider of health care that wishes to participate in the Program to apply to the Board. (NAC 453B.085) **Section 7** of this regulation requires the Executive Secretary of the Board, rather than the Board, to review such applications. **Section 7** also authorizes a pharmacy, medical facility, health clinic

or provider of health care that is aggrieved by the denial of an application by the Executive Secretary to appeal that denial to the Board. **Section 9** of this regulation provides that a participating pharmacy, medical facility, health clinic or provider of health care is not required to accept a prescription drug for donation. **Section 12** of this regulation repeals certain unnecessary definitions and a provision concerning record keeping that is duplicative of existing law. **Section 1** of this regulation makes a conforming change to remove references to repealed sections.

PROPOSED REGULATION OF THE

STATE BOARD OF PHARMACY

LCB File No. R178-22

September 29, 2022

EXPLANATION – Matter in *italics* is new, matter in brackets [~~omitted material~~] is material to be omitted.

AUTHORITY: §§ 1-4 and 6-10, NRS 639.070 and 639.0727; § 5, NRS 639.070.

A REGULATION relating to pharmacy; establishing the qualifications and procedure for a person to obtain a certificate of registration as a dispensing technician in training; prescribing certain duties of a dispensing technician in training and a dispensing practitioner; prescribing fees for the initial and biennial renewal of registration of a dispensing technician and dispensing technician in training; providing for the transferability of a certificate of registration as a dispensing technician or dispensing technician in training; eliminating certain fees; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law authorizes the State Board of Pharmacy to adopt regulations relating to the practice of pharmacy in this State, including regulations to provide for the registration of dispensing technicians and dispensing practitioners. (NRS 639.070, 639.0727) Existing regulations prohibit a person from acting as a dispensing technician unless the person is: (1) a registered pharmaceutical technician; or (2) employed at a facility that is registered to dispense controlled substances or dangerous drugs and the dispensing practitioner at the facility has registered the person as a dispensing technician. Existing regulations provide that the Board will issue a provisional registration as a dispensing technician to a person 18 years of age or older who has received a high school diploma or its equivalent and has no history of certain crimes or drug abuse. Existing regulations require a provisional dispensing technician to complete at least 500 hours of training and experience provided by a dispensing practitioner in order to obtain a certificate of registration as a dispensing technician. (NAC 639.7425) **Sections 1 and 6** of this regulation revise the process and qualifications to obtain a certificate of registration as a dispensing technician. Specifically, **section 6** abolishes the provisional registration of dispensing technicians and instead requires an applicant for registration as a dispensing technician to: (1) have successfully completed at least 1,500 hours of training and experience as a dispensing technician in training under the direct supervision of at least one dispensing practitioner; or (2) hold an active registration and be in good standing as a pharmaceutical technician in this State. **Section 1**: (1) requires an applicant for registration as a dispensing technician in training to be at least 18 years of age and a high school graduate or its equivalent; and (2) authorizes the Board to deny such registration to a person who has been convicted of certain crimes or has a history of

substance use disorder. **Sections 1 and 6** require the biennial renewal of registration as a dispensing technician or a dispensing technician in training. **Section 2** of this regulation defines the terms "dispensing technician" and "dispensing technician in training." **Sections 4 and 5** of this regulation clarify that a dispensing technician may, as part of his or her training, perform certain tasks relating to the filling and dispensing of a prescription at a facility. **Sections 7 and 8** of this regulation make conforming changes to remove or revise, as appropriate, references to the requirements governing the registration of dispensing technicians that have been revised by this regulation. **Section 10** of this regulation provides that a dispensing practitioner is subject to discipline for violating requirements concerning dispensing technicians in training.

Existing regulations provide that the registration of a dispensing technician is nontransferable. (NAC 639.7435) **Section 8** instead makes the registration of a dispensing technician or a dispensing technician in training transferable. **Section 8** requires a dispensing technician or dispensing technician in training to notify the Board after changing or adding his or her place of practice or dispensing practitioner.

Existing regulations require each dispensing practitioner to pay a fee for each dispensing technician under the supervision of the dispensing practitioner. (NAC 639.744) **Section 9** of this regulation eliminates that fee, and **section 3** of this regulation instead prescribes fees for the initial and biennial renewal of registration of a dispensing technician or dispensing technician in training.

Section 1. Chapter 639 of NAC is hereby amended by adding thereto a new section to read as follows:

1. An applicant for registration as a dispensing technician in training must:

(a) Be 18 years of age or older; and

(b) Be a high school graduate or the equivalent.

2. An applicant for registration as a dispensing technician in training must submit to the Board:

(a) A completed application on a form prescribed by the Board; and

(b) The fees prescribed by the Board in NAC 639.220.

(a) Been convicted of any felony or misdemeanor involving moral turpitude, dishonesty or the unlawful possession, sale or use of drugs; or

(b) A history of substance use disorder.

4. After confirming the applicant meets the requirements of this chapter and chapter 639 of NRS for registration, the Board will, unless the Board denies the registration pursuant to subsection 3, issue to the applicant a certificate of registration as a dispensing technician in training.

5. A registration issued by the Board pursuant to this section expires on October 31 of each even-numbered year unless renewed before that date.

6. A dispensing technician in training may participate in training provided by a dispensing practitioner while on the job and acquire experience that is commensurate with the duties of his or her employment.

EXPLANATION – Matter in *italics* is new; matter in brackets [~~omitted material~~] is material to be omitted.

AUTHORITY: § 1, NRS 639.070 and 639.2655.

A REGULATION relating to pharmacy; authorizing the operation of an automated drug dispensing system at sites of certain governmental agencies; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law authorizes the State Board of Pharmacy to adopt regulations: (1) relating to the practice of pharmacy as necessary for the protection of the public; and (2) governing the dispensing, recordkeeping, storage and handling of drugs. (NRS 639.070) Existing law further authorizes the use of computerized mechanical equipment to perform work that a pharmacist is required to perform by law in accordance with the regulations adopted by the Board. (NRS 639.2655)

Existing regulations establish the requirements for a pharmacy to obtain a license to operate an automated drug dispensing system. Such requirements include limitations on the location at which an automated drug dispensing system may operate. (NAC 639.718) This regulation authorizes an automated drug dispensing system to be located at a site operated by the Division of Public and Behavioral Health of the Department of Health and Human Services or a local health department if the system is operated by a pharmacy owned by the Division or local health department, as applicable.

Section 1. NAC 639.718 is hereby amended to read as follows:

639.718 1. Except as otherwise provided in this section, a pharmacy may use an automated drug dispensing system to dispense a prescription drug to a patient if the pharmacy obtains a license from the Board for the automated drug dispensing system pursuant to subsection 2.

2. The Board will provide to a pharmacy an application for a license for an automated drug dispensing system upon request. The Board will issue a license for an automated drug dispensing system if the Board determines that the system dispenses prescription drugs accurately and otherwise meets the requirements of this section and the fee prescribed by NAC 639.220 is paid. A license must be:

(a) Issued for each automated drug dispensing system at a designated location; and

(b) Posted on the system so that the license is visible to the public.

3. The automated drug dispensing system must conform to all of the following provisions:

(a) The system must contain only prescription drugs:

(1) Approved for use in the system by a registered pharmacist employed by the pharmacy; and

(2) For which the prescriptions have been processed, verified and completed in the same manner as prescriptions for drugs that are delivered manually by the pharmacy, including the provision of printed medication guides and any other information required pursuant to NAC 639.707.

(b) The system must not contain:

(1) Controlled substances included in schedule II; or

(2) Controlled substances included in schedules III, IV and V, unless authorized by the Drug Enforcement Administration of the United States Department of Justice to dispense such substances.

(c) The system must:

(1) Control and track access to the system for stocking, cleaning, maintenance or any other purpose to ensure that access to the system can be obtained only by a registered pharmacist,

pharmaceutical technician, or intern pharmacist employed by the pharmacy using user-based access technology.

(2) Be secure from unauthorized access to and removal of prescription drugs.

(3) Be owned or leased by the pharmacy that holds the license for the system and operated under the supervision and control of that pharmacy.

(4) Monitor the temperature of the system or be able to have a device installed to monitor the temperature of the system. Such monitoring must include, without limitation, an alarm that records when the temperature of the system reaches a level outside the range compatible with the proper storage of a prescription drug and a method to notify the pharmacy of the temperature change.

(5) Create and maintain a complete, accurate and readily retrievable record of all transactions. The record must include, without limitation:

(I) The name, strength, quantity and form of dosage of each prescription drug stocked, inventoried, removed or dispensed from the system;

(II) Each day and time the system is accessed;

(III) An inventory of the prescription drugs stored in the system; and

(IV) The identity of each person who accesses the system.

(6) Authorize access only to patients who previously have indicated to the pharmacy their desire to have their prescription drugs dispensed by the system.

(7) Provide a method to identify the patient and dispense a prescription drug only to the patient or to an authorized agent of the patient.

(8) Dispense one, any combination or all of the prescription drugs available to a patient at the option of the patient at the time that the patient removes the prescription drugs from the system.

(9) Record the date and time that the patient removes the prescription drugs from the system.

(10) Inform a patient:

(I) If the patient is using the system at the time that the pharmacy is open, that the patient may discuss questions and concerns regarding the prescription drug with a pharmacist at the pharmacy or through the user-based access technology described in subparagraph (14).

(II) If the patient is using the system at the time that the pharmacy is closed, that the patient may discuss questions and concerns regarding the prescription drug through the user-based access technology described in subparagraph (14).

(III) That the patient may choose not to purchase the prescription drug from the system at any time before the system dispenses the prescription drug.

(11) Dispense all prescription drugs in containers labeled in conformance with NRS 639.2801.

(12) Be installed in such a place and manner that a person is unable to remove the system from its location and any attempts to obtain access to the system without authorization are visible to the pharmacist of the pharmacy, either through the system being in view of the pharmacist or by real-time audio-visual communication technology or audio-visual recording technology.

(13) Be located in a:

(I) Pharmacy;

(II) Medical facility, as defined in NRS 449.0151, other than a mobile unit; ~~[or]~~

(III) Practice site of one or more practitioners of medicine ~~[.]~~ *; or*

(IV) Site operated by the Division of Public and Behavioral Health of the Department of Health and Human Services or a district, county or city health department. The system may only be located at such a site if the pharmacy that operates the system is owned by the same governmental agency that operates the site.

(14) Be equipped with user-based access technology that includes, without limitation, an audio-visual function that allows the patient to communicate, in real time, with a registered pharmacist who has access to any patient record necessary for counseling the patient in compliance with NAC 639.707 and 639.708.

4. A pharmacy that dispenses prescription drugs by an automated drug dispensing system pursuant to this section shall maintain a written policy that sets forth:

(a) The duties of all persons who are authorized to access the system; and

(b) The procedures for:

(1) Maintaining the security of the prescription drugs stored in the system during the maintenance and repair of the system;

(2) The preparation of an inventory of the prescription drugs stored in the system; and

(3) Stocking the system with prescription drugs.

5. A pharmacy that dispenses prescription drugs through an automated drug dispensing system pursuant to this section shall comply with all applicable federal and state recordkeeping requirements and shall maintain those records in a readily retrievable manner separate from other pharmacy records.

6. Prescription drugs stored in an automated drug dispensing system pursuant to this section shall be deemed part of the inventory and the responsibility of the pharmacy that holds the

license for the system. Prescription drugs dispensed from the system shall be deemed to have been dispensed by that pharmacy.

7. The Board may prohibit a pharmacy from using an automated drug dispensing system to furnish a prescription drug to a patient if the Board determines that the system or the pharmacy's use of the system does not comply with this section.

8. The provisions of this section do not prohibit the use of an automated drug dispensing system to furnish a drug or device that is approved by the Food and Drug Administration for sale over the counter without a prescription if the pharmacy using the system is otherwise authorized to use the system pursuant to this section.

9. As used in this section:

(a) "Automated drug dispensing system" means a system that performs operations, other than compounding or administration, related to the storage and dispensing of drugs.

(b) "User-based access technology" means software or hardware that restricts access to an automated drug dispensing system to authorized users by requiring two-factor authentication. Authentication factors may include, without limitation, knowledge, hardware tokens or biometric information.

REVISED PROPOSED REGULATION OF THE

STATE BOARD OF PHARMACY

LCB File No. R180-22

October 12, 2022

EXPLANATION – Matter in *italics* is new; matter in brackets [~~omitted material~~] is material to be omitted.

AUTHORITY: §§ 1-5 and 7-11, NRS 639.070 and 639.0727; § 6, NRS 639.070.

A REGULATION relating to pharmacy; authorizing a reproductive healthcare center to obtain a license to distribute certain drugs using an automated drug dispensing system; prescribing requirements governing the use of such a system; requiring a dispensing practitioner to provide certain information to a patient to whom a drug is dispensed and maintain certain records; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law authorizes the State Board of Pharmacy to adopt regulations: (1) relating to the practice of pharmacy as necessary for the protection of the public; and (2) governing the dispensing, recordkeeping, storage and handling of drugs. (NRS 639.070) Existing law further requires the Board to adopt regulations setting forth the powers and duties of a dispensing practitioner. (NRS 639.0727) Existing regulations define the term "dispensing practitioner" to mean a practitioner to whom the Board has issued a certificate of registration to dispense controlled substances or dangerous drugs. (NAC 639.010) Lastly, existing regulations: (1) authorize a pharmacy to operate an automated drug dispensing system if the pharmacy has obtained a license for the system from the Board; and (2) establish the requirements governing the operation of an automated drug dispensing system. (NAC 639.718)

Section 1 of this regulation: (1) authorizes a reproductive healthcare center to obtain a license to use an automated drug dispensing system to dispense prescription drugs related to reproductive health care; and (2) establishes requirements that a reproductive healthcare center must follow when using such an automated drug dispensing system, which are similar to those that currently apply to a pharmacy. **Section 1** requires an automated drug dispensing system to track: (1) who uses the system; (2) what drugs are in the system; (3) the temperature of the system; and (4) other information to ensure that the drugs in the system are safely stored and only dispensed to a person authorized to receive the dispensed drug. **Sections 2 and 6** of this regulation make conforming changes to ensure that certain terms used in **section 1** are defined in the same manner throughout chapter 639 of NAC. **Sections 5, 7 and 8** of this regulation make

conforming changes to ensure that certain provisions of existing regulations are not read to conflict with the provisions of **section 1**.

Existing regulations: (1) require a pharmacist to provide certain information to a patient concerning a drug being dispensed to the patient by the pharmacist; (2) require a pharmacist to consider the therapeutic appropriateness of dispensing the drug to the patient; (3) prescribe requirements concerning the documentation of counseling of a patient by a pharmacist; and (4) prescribe procedures for the maintenance of such records by a pharmacy. (NAC 639.707, 639.708) **Sections 3 and 4** of this regulation expand applicability of these requirements to also apply to a dispensing practitioner. **Sections 9 and 10** of this regulation make conforming changes to reflect the expanded applicability of a requirement concerning a determination of the therapeutic appropriateness of a prescription.

Section 11 of this regulation provides that an automated drug dispensing system licensed to a reproductive healthcare center is not a computerized system to fill prescriptions, and is thus not subject to requirements governing such a computerized system. (NAC 639.940)

Section 1. Chapter 639 of NAC is hereby amended by adding thereto a new section to read as follows:

1. Except as otherwise provided in this section, one or more dispensing practitioners practicing at a reproductive healthcare center may use an automated drug dispensing system and maintain a shared inventory in the automated drug dispensing system to dispense a prescription drug to a patient if the reproductive healthcare center obtains a license from the Board for the automated drug dispensing system pursuant to subsection 2.

2. The Board will provide an application for a license for an automated drug dispensing system to a reproductive healthcare center upon request. The Board will issue a license for an automated drug dispensing system if the Board determines that the system dispenses prescription drugs accurately, otherwise meets the requirements of this section and the fee prescribed by NAC 639.220 is paid. A license must be:

(a) Issued for each automated drug dispensing system at a reproductive healthcare center; and

(b) Posted on the system so that the license is visible to the public.

3. The automated drug dispensing system must conform to all the following provisions:

(a) Except as otherwise provided in subsection 8, the system must contain only dangerous drugs, excluding compound drug products, for treatment in reproductive health care:

(1) Approved for use in the system by a dispensing practitioner; and

(2) For which the prescription has been processed, verified and completed in the same manner as a prescription for drugs that are delivered manually by a dispensing practitioner pursuant to NAC 639.742 and 639.745, except that the requirements of paragraph (e) of subsection 3 of NAC 639.742 do not apply.

(b) The system must:

(1) Control and track access to the system for stocking, cleaning, maintenance or any other purpose to ensure that access to the system can be obtained only by a dispensing practitioner practicing at the reproductive healthcare center.

(2) Be secure from unauthorized access to and removal of prescription drugs.

(3) Be owned or leased by the reproductive healthcare center that obtained the license for the system and operated under the supervision and control of that reproductive healthcare center.

(4) Monitor the temperature of the system or be able to have a device installed to monitor the temperature of the system. Such monitoring must include, without limitation, an alarm that records when the temperature of the system reaches a level outside the range compatible with the proper storage of a prescription drug and a method to notify the reproductive healthcare center of the temperature change.

(5) Create and maintain a complete, accurate and readily retrievable record of all transactions. The record must include, without limitation:

(I) The name, strength, quantity and form of dosage of each prescription drug stocked, inventoried, removed or dispensed from the system;

(II) Each day and time the system is accessed;
