If answer is no, identify report(s). Yes ☒ No ☐

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

Yes ☒ No ☐

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

The Company currently anticipates net revenues of $24.1 million for the year ended December 31, 2021 compared to net revenues of $18.8 million for the prior fiscal year, an increase of $5.3 million, primarily driven by: (i) higher volume of Ameluz® orders, which resulted in an increase in Ameluz® revenue of $4.1 million, and (ii) an increase in the price of Ameluz®, which further increased Ameluz® revenue by $1.3 million. The Company anticipates a net loss of $23.5 million for the year ended December 31, 2021 (not including an expected mark to market accounting adjustment in connection with a warrant liability for private warrants issued in December 2021 because the related valuation is not yet complete) compared to $11.0 million for the prior fiscal year. Subject to the determination of the aforementioned accounting adjustment for the warrant liability, this increase in net loss was primarily driven by increased costs of revenue due to higher sales volume and increased selling, general and administrative expenses due primarily to a previously disclosed legal settlement for which the Company recorded an expense of $11.3 million and an increase in headcount costs, partially offset by a decrease in net interest expense. Since the Company has not completed its financial statements and other disclosures in the Form 10-K, and the audit of the financial statements has therefore not been completed, the financial information contained herein is subject to adjustment.

Special Note Regarding Forward-Looking Statements

This Form 12b-25 contains predictive or "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements

The Annual Report on Form 10-K includes forward-looking statements. Forward-looking statements are neither historical facts nor assurances of future performance. Instead, these forward-looking statements relate to analyses and other information that are based on beliefs, expectations, assumptions, and forecasts of future results and estimates of amounts that are not yet determinable. These statements also relate to our prospects, future developments, product candidates, and business strategies.

These forward-looking statements are identified by their use of terms and phrases, such as "anticipate," "believe," "could," "estimate," "expect," "intend," "may," "plan," "predict," "project," "will," and other similar terms and phrases, including references to assumptions.

The forward-looking statements in this Annual Report on Form 10-K include, but are not limited to, statements about:

- the initiation, cost, timing, progress and results of our current and future research and development activities, preclinical studies, and clinical trials;
- the timing of, and our ability to obtain, regulatory approvals for our product candidates, including mirvetuximab soravtansine;
- our ability to advance any product candidates into, and successfully complete, clinical trials;
- the timing of our release of future data;
- the potential benefits of our product candidates;
- the potential benefits of our licensing arrangements;
- our expected sources of future revenues, including from our licensing arrangements;
- our estimates regarding expenses, capital requirements, the sufficiency of our current and expected cash resources, and our need for additional financing;
- the effect of the novel coronavirus (COVID-19) pandemic on the economy generally and on our business and operations specifically, including our research and development efforts, our clinical trials and our employees, and the potential disruptions in supply chains and to our third-party manufacturers, including the availability of materials and equipment; and
- our commercialization, marketing, and manufacturing capabilities and strategy.

We may not actually achieve the plans, intentions, or expectations disclosed in our forward-looking statements, and investors should not place undue reliance on our forward-looking statements. The forward-looking statements contained herein represent our views as of the date of this Annual Report on Form 10-K. Risk Factors Summary

Our business is subject to varying degrees of risk and uncertainty. Investors should consider the risks and uncertainties summarized below, as well as the risks and uncertainties discussed further in Part I, Item 1A, "Risk Factors" of this Annual Report on Form 10-K.

Our business is subject to the following principal risks and uncertainties:

- We have a history of operating losses, expect to incur significant additional operating losses, and may never be profitable.
- A pandemic, epidemic, or outbreak of an infectious disease, such as the COVID-19 pandemic, may materially and adversely affect our business and our financial results.

- If our Antibody-Drug Conjugate technology does not produce safe, effective, and commercially viable products or if such products fail to obtain or maintain FDA approval, our business will be severely harmed.
- Clinical trials for our product candidates and those of our collaborators will be lengthy and expensive, and their outcome is uncertain.
- Interim, top-line, or preliminary data from our clinical trials that we announce may change as more patient data become available and are subject to audit and verification procedures that could result in material changes in the final data.
- We currently do not have the direct sales, marketing, or distribution capabilities necessary to successfully commercialize our products on a large scale and may be unable to establish such capabilities.
- If we are unable to protect our intellectual property rights adequately, the value of our technology and our product candidates could be diminished.
- We expect to file for approval for mirvetuximab soravtansine from the FDA through the use of accelerated approval pathways. If unable to obtain approval under an accelerated pathway, we may be required to conduct additional preclinical studies or clinical trials beyond those that we currently contemplate, which could increase the expense of obtaining, and delay the receipt of, necessary marketing approvals. Even if we receive accelerated approval from the FDA, if our confirmatory trials do not verify clinical benefit, or if we do not comply with rigorous post-marketing requirements, the FDA may seek to withdraw accelerated approval.
- Side effects, serious adverse events, or other undesirable properties could arise from the use of mirvetuximab soravtansine or our other clinical product candidates and, in turn, could delay or halt clinical trials, delay or prevent its regulatory approval, limit the commercial profile of its labeling, if approved, or result in significant negative consequences following any marketing approval.
- We have received orphan drug designation for mirvetuximab soravtansine and other product candidates for specified indications; we may seek additional orphan drug designation for additional indications and for our other drug candidates. However, we may be unsuccessful in obtaining or may be unable to maintain the benefits associated with orphan drug designation, including the potential for market exclusivity.
- As our business grows, we will become increasingly subject to additional healthcare regulation and enforcement by various government entities, and our failure to strictly adhere to these regulatory regimes could have a detrimental impact on our business.
- We depend on our key personnel, and we must continue to attract and retain key employees and consultants.
- Our stock price may be volatile and fluctuate significantly and results announced by us and our collaborators or competitors could cause our stock price to decline.

PART I

Item 1. *Business*

We are a clinical-stage biotechnology company focused on developing the next generation of antibody-drug conjugates (ADCs) to improve outcomes for cancer patients. By generating targeted therapies with enhanced anti-tumor activity and favorable tolerability profiles, we aim to disrupt the progression of cancer and offer patients more good days. We call this our commitment to "target a better now."

An ADC with our proprietary technology comprises an antibody that binds to a target found on tumor cells and is conjugated to one of our potent anti-cancer agents as a "payload" to kill the tumor cell once the ADC has bound to its target. ADCs are an expanding class of anti-cancer therapeutics, with twelve approved products and the number of agents in development growing significantly in recent years.

We have established a leadership position in ADCs with a portfolio of differentiated product candidates addressing both solid tumors and hematologic malignancies.

Mirvetuximab Soravtansine

Our lead program is mirvetuximab soravtansine (mirvetuximab), a first-in-class investigational ADC targeting folate receptor alpha (FRα), a cell-surface protein over-expressed in a number of epithelial tumors, including ovarian, endometrial, and non-small-cell lung cancers. Following consultation with the U.S. Food and Drug Administration (FDA), we initiated two trials of mirvetuximab in patients with platinum-resistant ovarian cancer whose tumors express high levels of FRα (FRα-high): SORAYA, a single-arm clinical trial that could lead to accelerated approval, pending FDA review; and MIRASOL, a randomized Phase 3 clinical trial that, if successful, could lead to full approval in this setting.

SORAYA was designed to study mirvetuximab in patients with FRα-high platinum-resistant epithelial ovarian, primary peritoneal, or fallopian tube cancer and who have been treated with up to three prior regimens—at least one of which included bevacizumab. The primary endpoint for the study was confirmed objective response rate (ORR) as assessed by investigator, including complete and partial responses, and the key secondary endpoint was duration of response (DOR). ORR was also assessed by blinded independent central review (BICR). The study was designed to assess ORR as compared to a null hypothesis of a 12% ORR, based on expectations with available single agent chemotherapy from the AURELIA study in patients with platinum-resistant ovarian cancer and one to two prior lines of therapy.

SORAYA enrolled 106 patients with a median of three prior lines of therapy (range one to four; 51% had three prior lines of therapy and 48% had one to two prior lines of therapy). All patients received prior bevacizumab; 48% of patients received a prior poly ADP-ribose polymerase (PARP) inhibitor. As of the November 16, 2021 cutoff date, the median follow-up time was 8.1 months.

ORR by investigator was 32.4% (95% confidence interval (CI): 23.6%, 42.2%), including five complete responses (CRs). ORR by BICR was 31.6% (95% CI: 22.4%, 41.9%), including five CRs. Responses were observed regardless of prior PARP inhibitor or number of prior lines of therapy.

As of the November 16, 2021 cutoff date, median DOR was 5.9 months (95% CI: 5.6, 7.7). With nearly half of responders continuing on therapy, the duration of response continues to evolve, and, with longer follow-up, median DOR could increase.

Mirvetuximab was observed to be well-tolerated, consistent with safety data seen in more than 700 patients treated in the broader mirvetuximab program. Treatment-related adverse events (AEs) led to dose reductions in 19% of patients, dose delays in 32% of patients, and discontinuations in 7% of patients.

The most common treatment-related AEs included blurred vision (41% all grades; 6% grade 3+), keratopathy (35% all grades; 9% grade 3+), and nausea (29% all grades; 0% grade 3+).

We plan to submit a biologics license application (BLA) to the FDA in the first quarter of 2022 for accelerated approval of mirvetuximab in second through fourth-line patients with FRα-positive, platinum-resistant ovarian cancer. Thereafter, we plan to seek full approval pending a positive MIRASOL Phase 3 trial.

Beyond FRα-high, platinum-resistant ovarian cancer in patients who had one or more prior lines of therapy, our strategy is to move mirvetuximab into platinum-sensitive disease through supplemental approval and become the combination agent of choice in ovarian cancer. To this end, we initiated PICCOLO, a single-arm study of mirvetuximab monotherapy in later-line platinum-sensitive patients. We have also generated encouraging data in recurrent platinum-sensitive disease with the combination of mirvetuximab plus carboplatin and are supporting investigator-sponsored trials (ISTs) with this combination in a single-arm study in the neoadjuvant setting and in a randomized study comparing mirvetuximab combined with carboplatin to standard of care in patients with recurrent platinum-sensitive disease. We also intend to initiate a company-sponsored single-arm Phase 2 study (0420) of this combination followed by mirvetuximab continuation in FRα-low, medium, and high patients with platinum-sensitive disease. Results from this study and our ongoing ISTs will inform a path to the potential registration for mirvetuximab plus carboplatin and, in parallel, could support compendia listing for this combination.

In addition, we presented mature data from our Phase 1b FORWARD II trial of mirvetuximab plus Avastin® (bevacizumab) in recurrent ovarian cancer in an oral presentation at the American Society for Clinical Oncology Annual Meeting in June 2021. The combination demonstrated a 64% ORR, 11.8 month median DOR, and 10.6 month median progression free survival. Most AEs were low grade and the most common treatment related adverse events were gastrointestinal or ocular issues. We believe these data could support compendia listing for this combination in close

proximity to the initial monotherapy approval of mirvetuximab. Furthermore, we recently aligned with FDA on GLORIOSA, a potential randomized Phase 3 study of mirvetuximab plus bevacizumab maintenance in FRα-high recurrent platinum-sensitive disease. We expect to initiate this potential label-enabling study in the second quarter of 2022.

Pivekimab Sunirine

Pivekimab sunirine (pivekimab, formerly known as IMGN632) is an ADC comprised of a high-affinity antibody designed to target CD123 with site-specific conjugation to a DNA-alkylating payload of the novel IGN (indolinobenzodiazepine pseudodimer) class. Our IGNs are designed to alkylate DNA without cross-linking, which has provided a broad therapeutic index in preclinical models. We are advancing pivekimab in clinical trials for patients with blastic plasmacytoid dendritic cell neoplasm (BPDCN) and acute myeloid leukemia (AML).

BPDCN is a rare form of blood cancer, with an annual incidence of between 500 and 1,000 patients in the US. In October 2020, the FDA granted Breakthrough Therapy designation for pivekimab for the treatment of patients with relapsed or refractory BPDCN. Based on feedback from the FDA, we amended our ongoing 801 Phase 2 study, known as CADENZA, to include a new cohort of up to 20 frontline BPDCN patients. We expect to generate top-line data for this frontline cohort in the second half of 2022. At the 2021 American Society of Hematology (ASH) Annual Meeting in December 2021, we presented a poster highlighting three frontline patients who were enrolled in Study 801 prior to opening of the pivotal frontline cohort; all three of these patients achieved clinical complete response (CRc) as of the data cutoff date.

Our 802 study, which is a Phase 1b/2 study designed to determine the safety, tolerability, and preliminary antileukemia activity of pivekimab when administered in combination with azacytidine (AZA) and venetoclax (VEN) to patients with relapsed and frontline CD123-positive AML, is in dose-escalation, enrolling relapsed and refractory (R/R) patients to determine the recommended Phase 2 dose of pivekimab for the triplet combination regimen. At ASH 2021, we shared data in an oral presentation showing responses across all cohorts/doses and schedules (efficacy evaluable population, n=46). As of the cutoff date, the ORR was 48%, with a composite complete remission (CCR) rate of 30%. Higher intensity cohorts (n=29) were associated with higher response rates, including an ORR of 59% and a CCR rate of 38%. Significant activity was also observed in the FLT3 mutant subset (n=9), with ORR and CCR rates of 89% and 78%, respectively. The toxicity profile was manageable in this R/R AML population with multiple prior therapies. The most common treatment emergent AEs of any grade seen in >20% of patients were infusion-related reactions, febrile neutropenia, dyspnea, fatigue, hypophosphatemia, diarrhea, hypokalemia, nausea, vomiting, and pneumonia. Cytopenias and infections were consistent with those observed with the AZA+VEN regimen in this R/R population. No tumor lysis syndrome, veno-occlusive disease, capillary leak, or cytokine release were observed. The 30-day mortality was 0%.

We are in the final stages of determining the recommended Phase 2 dose for this triplet combination and expect to initiate expansion cohorts in relapsed and frontline patients this year.

Other Pipeline Programs

We continue to advance our earlier-stage pipeline programs. IMGC936 is an ADC in co-development with MacroGenics, Inc. that is designed to target ADAM9, an enzyme over-expressed in a range of solid tumors and implicated in tumor progression and metastasis. IMGC936 incorporates a number of innovations, including antibody engineering to extend half-life, site-specific conjugation with a fixed drug-antibody ratio to enable higher dosing, and a next-generation linker and payload designed for improved stability and bystander activity. We presented preclinical data on IMGC936 at the American Association for Cancer Research (AACR) Annual Meeting in April 2021, demonstrating anti-tumor activity in multiple solid tumor models. We continue to enroll patients in the Phase 1 study for this program and expect initial data in 2022.

IMGN151 is our next generation anti-FRα product candidate in preclinical development. This ADC integrates innovation in each of its components, which we believe may enable IMGN151 to address patient populations with lower levels of FRα expression, including tumor types outside of ovarian cancer. In January 2022, we submitted an IND application to evaluate IMGN151 in a planned Phase 1 clinical trial in patients with recurrent endometrial cancer and recurrent, high-grade serous epithelial ovarian, primary peritoneal, or fallopian tube cancers. In February 2022, the FDA placed a clinical hold on our IND application pending the resolution of certain chemistry, manufacturing, and controls, or CMC, information requests. We are generating data responsive to the requests and anticipate filing these responses mid-year, which we believe will enable us to proceed with the study in due course thereafrer.

Collaborations and Out-Licenses

Over the last 40 years, we believe ImmunoGen has assembled the most comprehensive "toolbox" in the ADC field. Our platform technology combines advanced chemistry and biochemistry with innovative approaches to antibody optimization, with a focus on increasing the diversity and potency of our payload agents, advancing antibody-payload linkage and release technologies, and integration of novel approaches to antibody engineering. These capabilities have enabled us to generate a pipeline of novel candidates with potent anti-tumor activity and favorable safety profiles that we can develop as monotherapies and in combination with existing and novel therapies.

Collaborating on ADC development with other companies allows us to generate revenue, mitigate expenses, enhance our capabilities, and extend the reach of our proprietary platform. The most advanced partner program is Roche's marketed product, KADCYLA® (ado-trastuzumab emtansine). Our ADC technology is also used in candidates in clinical development with a number of partners. We have evolved our partnering approach to pursue relationships where we can gain access to technology and complementary capabilities, such as our technology swap with CytomX Therapeutics, Inc. (CytomX), as well as co-development and co-commercialization arrangements, such as our relationship with MacroGenics.

We have selectively licensed restricted access to our ADC platform technology to other companies to expand the use of our technology and to provide us with cash to fund our own product programs. These agreements typically provide the licensee with rights to use our ADC platform technology with its antibodies or related targeting vehicles to a defined target to develop products. The licensee is generally responsible for the development, clinical testing, manufacturing, registration, and commercialization of any resulting product candidate. As part of these agreements, we are generally entitled to receive upfront fees, potential milestone payments, royalties on the sales of any resulting products, and research and development funding based on activities performed at our collaborative partner's request.

Below is a table setting forth our current licensed ADC partnerships and status of the most advanced program in each partnership:

Below is a brief description of the business relationships underlying each of the foregoing programs. For more information concerning these relationships, including their ongoing financial and accounting impact on our business, please read Note C, Significant Collaborative Agreements, to our consolidated financial statements included in this report.

Roche

In 2000, we granted Genentech, now a unit of Roche, an exclusive development and commercialization license to use our maytansinoid technology with antibodies that target HER2. Roche's KADCYLA resulted from this license.

KADCYLA was approved for marketing in the U.S., EU, and Japan in 2013. We are entitled to receive up to a total of $44 million in milestone payments, of which we have received $39 million to date, and also tiered royalties on the commercial sales of KADCYLA or any other resulting products as described below. Roche is responsible for the development, manufacturing, and marketing of any products resulting from this license.

In 2015, Immunity Royalty Holdings, L.P. (IRH) paid us $200 million to purchase our right to receive 100% of the royalty payments on commercial sales of KADCYLA arising under our development and commercialization license with Genentech, until IRH had received aggregate KADCYLA royalties equal to $235 million or $260 million, depending on when the aggregate KADCYLA royalties received by IRH reached a specified milestone. Once the applicable threshold was met, we would thereafter have received 85% and IRH would have received 15% of the KADCYLA royalties for the remaining royalty term. In January 2019, we sold our residual rights to receive royalty payments on commercial sales of KADCYLA to OMERS, the defined benefit pension plan for municipal employees in the Province of Ontario, Canada, for $65.2 million, net of fees. Simultaneously, OMERS purchased IRH's right to the royalties we previously sold to IRH as described above, thereby obtaining the rights to 100% of the royalties received from that date on.

We also granted Roche, through its Genentech unit, exclusive development and commercialization licenses to use our maytansinoid ADC technology with antibodies to four specified targets, which were granted under the terms of a separate, now expired 2000 right-to-test agreement with Genentech. For each of these licenses, we are entitled to receive up to a total of $38 million in milestone payments and also royalties on the sales of any resulting products. Roche is responsible for the development, manufacturing, and marketing of any products resulting from these licenses. The standard termination provisions discussed below apply to these licenses.

Huadong

In October 2020, we entered into a collaboration and license agreement with Hangzhou Zhongmei Huadong Pharmaceutical Co., Ltd. (Huadong) a subsidiary of Huadong Medicine Co., Ltd., under which Huadong will exclusively develop and commercialize mirvetuximab in the People's Republic of China, Hong Kong, Macau, and Taiwan, which we refer to as Greater China. Under the terms of the collaboration and license agreement, we received a non-refundable upfront payment of $40 million and are eligible to receive additional payments of up to $265.0 million as certain development, regulatory, and net sales milestones are achieved. We are also eligible to receive tiered low double digit to high teen royalties as a percentage of mirvetuximab commercial sales by Huadong in Greater China. Huadong is responsible for the development and commercialization of mirvetuximab in Greater China except in limited circumstances. In addition, we granted Huadong a right of first negotiation if we determine to enter into an agreement to grant a third party rights in Greater China to develop or commercialize a product, other than mirvetuximab, that specifically binds to FRα. We retain all rights to mirvetuximab in the rest of the world. The standard termination provisions discussed below apply to this license.

CytomX

In 2016, we granted CytomX an exclusive development and commercialization license to our maytansinoid and IGN ADC technology for use with Probodies™ that target CD166 under a now-expired reciprocal right-to-test agreement. We are entitled to receive up to a total of $160 million in milestone payments plus royalties on the commercial sales of any resulting product. CytomX is responsible for the manufacturing, product development, and marketing of any products resulting from this license. The standard termination provisions discussed below apply to this license.

In 2017, we took exclusive development and commercialization licenses to CytomX's proprietary Probody technology for use with Probodies that target two specified targets under the same reciprocal right-to-test agreement. We terminated one of these licenses for convenience prior to the end of 2017 and terminated the second license in December 2019 in connection with the grant of the EpCAM license to CytomX discussed below.

In December 2019, we granted CytomX an exclusive development and commercialization license to our maytansinoid and IGN ADC technology for use with antibodies (and Probodies™ developed therefrom) that target EpCAM. In January 2020, we received a $7.5 million upfront license payment and are entitled to receive up to a total of $355 million in milestone payments plus royalties on the commercial sales of any resulting product. CytomX is responsible for the manufacturing, product development, and marketing of any products resulting from this license. The standard termination provisions discussed below apply to this license.

Debiopharm

In May 2017, Debiopharm International S.A. (Debiopharm) acquired our IMGN529 program, a clinical-stage anti-CD37 ADC for the treatment of patients with B-cell malignancies, such as non-Hodgkin lymphomas (NHL). Under the terms of the Exclusive License and Asset Purchase agreement, we received a $25.0 million upfront payment for specified assets related to IMGN529 and an exclusive license to additional intellectual property necessary or useful for Debiopharm to develop and commercialize IMGN529 (now known as Debio 1562). We also received a $5.0 million milestone payment upon transfer of certain ImmunoGen technologies related to the program and were entitled to receive a $25.0 million milestone payment upon IMGN529 entering a Phase 3 clinical trial.

In October 2021, we and Debiopharm amended the Exclusive License and Asset Purchase agreement, pursuant to which we are entitled to receive a percentage of all payments generated from future sublicenses of Debio 1562, including upfront fees, milestones, and royalties, up to an aggregate of $30.0 million and in lieu of the potential $25.0 million development milestone payment under the original agreement. The standard termination provisions discussed below apply to this agreement.

Bayer

In 2008, we granted Bayer an exclusive development and commercialization license to use our maytansinoid ADC technology with antibodies or other proteins that target mesothelin. We are entitled to receive, for each product developed and marketed by Bayer under this agreement, up to a total of $170.5 million in milestone payments plus royalties on the commercial sales of any resulting products. Bayer is responsible for the development, manufacturing, and marketing of any products resulting from this license. The standard termination provisions discussed below apply to this license.

Novartis

We granted Novartis exclusive development and commercialization licenses to our maytansinoid and IGN ADC technology for use with antibodies to six specified targets under a now-expired right-to-test agreement established in 2010. In May 2018, Novartis terminated one of its six development and commercialization licenses. With respect to each remaining license, we are entitled to receive up to a total of $199.5 million in milestone payments, plus royalties on the commercial sales of any resulting products. Novartis is responsible for the manufacturing, product development, and marketing of any products resulting from this agreement. The standard termination provisions discussed below apply to these licenses.

Oxford BioTherapeutics/Menarini

In 2013, we granted Amgen, Inc. (Amgen) an exclusive development and commercialization license to our maytansinoid ADC technology for use with antibodies that target CD205 under a now-expired right-to-test agreement, which Amgen sublicensed to Oxford BioTherapeutics, which is developing MEN 1309 with Menarini. With respect to this license, we are entitled to receive up to a total of $34 million in milestone payments, plus royalties on the commercial sales of any resulting products. Amgen (or its sublicensee(s)) is responsible for the manufacturing, product development, and marketing of any products resulting from this development and commercialization license. The standard termination provisions discussed below apply to this license.

Fusion

In December 2016, we entered into an exclusive license agreement to a specified target with Fusion Pharmaceuticals Inc. (Fusion). We are entitled to receive up to a total of $50 million in milestone payments plus royalties on the commercial sales of any resulting products. Fusion is responsible for the manufacturing, development, and marketing of any products resulting from the license. The standard termination provisions discussed below apply to this license.

Viridian

In October 2020, we entered into a license agreement with Viridian Therapeutics, Inc. (Viridian) pursuant to which we granted Viridian the exclusive right to develop and commercialize an insulin-like growth factor-1 receptor (IGF-1R) antibody for all non-oncology indications that do not use radiopharmaceuticals in exchange for an upfront payment, with the potential to receive up to a total of $143.0 million in milestone payments plus royalties on the commercial sales of any resulting product. Viridian is responsible for the manufacturing, development, and marketing of any products resulting from the license agreement. The standard termination provisions discussed below apply to this license.

Standard Termination Provisions

Standard termination provisions in our license agreements state that the partner may terminate the agreement for convenience at any time upon prior written notice to us. The agreement may also be terminated by either party for a material breach by the other, subject to notice and cure provisions. We may also terminate certain of these agreements upon the occurrence of specified events. Upon termination, the partner's rights to our intellectual property with respect to the applicable target are canceled and could then be used by us or re-licensed for that target. Unless earlier terminated, each agreement will continue in effect until the expiration of partner's royalty obligations, which are determined on a product-by-product and country-by-country basis. For each product and country, royalty obligations commence upon first commercial sale of that product in that country and extend until the later of either the expiration of the last-to-expire ImmunoGen patent covering that product in that country or the expiration for that country of the minimum royalty period specified in the agreement.

Other Agreements

From time to time, we have entered into additional agreements with some of our collaborators pursuant to which we have provided certain Chemistry, Manufacturing and Controls (CMC)-related development and pre-pivotal ADC manufacturing services, or supplied ADC payloads, with respect to products they are developing under their licenses with us, with respect to which we have been entitled to receive payments at mutually negotiated rates.

Patents, Trademarks and Trade Secrets

ImmunoGen has a substantial and robust intellectual property portfolio comprising nearly 1,500 issued patents and over 600 pending patent applications on a worldwide basis. Our intellectual property strategy centers on obtaining high quality patent protection directed to various embodiments of our proprietary technologies and product candidates. Using this strategy, our ADC technology and our product candidates are protected through a multi-layered approach. In this regard, we have patents and patent applications covering antibodies and other cell binding agents, linkers, cytotoxic payload agents (e.g., tubulin-acting maytansinoids, DNA-alkylating IGNs, and DNA-acting camptothecins), conjugation methodologies and complete ADCs, comprising one or more of these components, as well as methods of making and using each of the above. Typically, multiple issued patents and pending patent applications cover various embodiments of each of ImmunoGen's and our licensees' product candidates.

We consider our tubulin-acting maytansinoid, DNA-alkylating IGN, and DNA-acting camptothecin cytotoxic payload agent technologies to be key components of our overall patent strategy. With regard to our tubulin-acting maytansinoid cytotoxic payload agents, we currently own 22 issued U.S. patents covering various embodiments of our maytansinoid technology including those with claims directed to certain maytansinoids, including DM4 and DM21, and methods of manufacturing of DM1, DM4, and DM21, as well as methods of using the same. These issued patents remain in force until various times between 2022 and 2038. With regard to our IGN payload agents, we have 35 issued U.S. patents covering various aspects of our DNA-acting cytotoxic payload agents, which will expire at various times between 2030 and 2042. With regard to our camptothecin agents, we have an issued U.S. patent covering various aspects of our camptothecin cytotoxic payload agents, which expires in 2040. In all cases, we have received or are applying for comparable patent protection in other major commercial and manufacturing jurisdictions, including Europe, Japan, and China. In nearly all cases for our maytansinoid, IGN, and camptothecin patent portfolios, we have additional pending patent applications disclosing and claiming many other related and strategically important embodiments of these technologies which, upon issuance or grant, will extend our patent protection term over these technologies by several additional years.

Our intellectual property strategy also includes pursuing patents directed to linkers, antibodies, conjugation methods, ADC formulations and the use of specific antibodies and ADCs to treat certain diseases. In this regard, we have 22 issued patents related to many of our linker technologies, as well as additional pending patent applications disclosing and claiming many other related and strategically important embodiments of these linker technologies, including methods of making the linkers and antibody maytansinoid conjugates comprising these linkers. These issued patents remain in force until various times between 2023 and 2034. We also have 20 issued U.S. patents covering methods of assembling ADCs from their constituent antibody, linker, and cytotoxic payload agent moieties. These issued patents will expire between 2026 and 2040. In nearly all instances for both our linker and conjugation patent portfolios, we have additional pending patent applications disclosing and claiming many other related and strategically important embodiments of these technologies which, upon issuance or grant, would extend our patent protection term over these technologies by several additional years. In all cases, we have received or are applying for comparable patents in other major commercial and manufacturing jurisdictions including Europe, Japan, and China.

We also file, prosecute, and maintain a substantial portfolio of patents and patent applications specifically directed to ImmunoGen's and our licensees' ADC candidates. In this regard, we craft a detailed patent protection strategy for each ADC as it approaches clinical evaluation. Such strategies make use of the patents and patent applications described in the preceding paragraphs, as well as ADC-specific filings, to create a multi-layered and multi-jurisdictional patent protection approach for each ADC as it enters the clinic. In addition to the platform patent strategy described above and specific to mirvetuximab, we have 21 issued U.S. patents and 13 pending U.S. applications covering various embodiments of the composition of matter and methods of treatment using mirvetuximab, expiring at various times between 2031 and 2042. These ADC-specific patent strategies are intended to provide the exclusivity basis for revenue and royalties arising from commercial development of each of ImmunoGen's and our licensees' ADCs.

We expect our continued independent and collaborative work in each of these areas will lead to other patent applications. We will be the owner of all patents covering our independently generated inventions. In all other instances, we expect to either be the sole owner or co-owner of any patents covering collaboratively generated inventions insofar as they relate to co-developed products or our ADC platform technology, or otherwise have an exclusive or non-exclusive license to the technology covered by such patents.

We cannot provide assurance that pending patent applications will issue as patents or that any patents, if issued, will provide us with adequate protection against competitors with respect to the covered products, technologies, or processes. Defining the scope and term of patent protection involves complex legal and factual analyses and, at any given time, the result of such analyses may be uncertain. In addition, other parties may challenge our patents in litigation or administrative proceedings resulting in a partial or complete loss of certain patent rights owned or controlled by ImmunoGen. Furthermore, as a patent does not confer any specific freedom to operate, other parties may have patents that may block or otherwise hinder the development and commercialization of our technology.

In addition, many of the processes and much of the know-how that are important to us depend upon the skills, knowledge, and experience of our key scientific and technical personnel, which skills, knowledge, and experience are not patentable. To protect our rights in these areas, we require that all employees, consultants, advisors, and collaborators enter into confidentiality agreements with us. Further, we require that all employees enter into assignment of invention agreements as a condition of employment. We cannot provide assurance, however, that these agreements will provide adequate or any meaningful protection for our trade secrets, know-how, or other proprietary information in the event of any unauthorized use or disclosure of such trade secrets, know-how, or proprietary information. Further, in the absence of patent protection, we may be exposed to competitors who independently develop substantially equivalent technology or otherwise gain access to our trade secrets, know-how, or other proprietary information.

Competition

We focus on highly competitive areas of product development. Our competitors include major pharmaceutical companies and other biotechnology firms. For example, Pfizer, Seattle Genetics, Roche, Astellas, AstraZeneca, Daiichi Sankyo, GlaxoSmithKline, AbbVie, and the Menarini Group have programs to attach a cell-killing small molecule to an antibody for targeted delivery to cancer cells. Pharmaceutical and biotechnology companies, as well as other institutions, also compete with us for promising targets for antibody-based therapeutics, for obtaining licenses and collaboration agreements with other companies to develop targets for antibody-based therapeutics, and in recruiting highly qualified scientific personnel. Additionally, there are non-ADC therapies available and/or in development for the cancer types we and our partners are targeting. Many competitors and potential competitors have substantially greater scientific, research and product development capabilities, as well as greater financial, sales, marketing, and human resources than we do. In addition, many specialized biotechnology firms have formed collaborations with large, established companies to support the research, development, and commercialization of products that may be competitive with ours.

In particular, competitive factors within the antibody and cancer therapeutic market include:

- the safety, efficacy, and convenience of products;
- the timing of regulatory approvals and commercial introductions;
- special regulatory designation of products, such as orphan drug and breakthrough therapy designations; and
- the effectiveness of marketing, sales, and reimbursement efforts.

Our competitive position depends on a combination of factors. These include effectively pursuing the development of proprietary products, the implementation of clinical development programs, the ability to appropriately manufacture, sell, and market our products, and obtain patent protection for our products. In addition, we must secure sufficient capital resources to accomplish all of the previously mentioned activities.

Continued development of conventional and targeted chemotherapeutics by large pharmaceutical companies and biotechnology companies may result in new compounds that may compete with our product candidates. Antibodies developed by certain of these companies have been approved for use as cancer therapeutics. In the future, new antibodies or other targeted therapies may compete with our product candidates. Other companies have created or have programs to create potent cell-killing agents for attachment to antibodies. These companies may compete with us for technology out-license arrangements.

Managing the Impact of the COVID-19 Pandemic

Since the first quarter of 2020, we have continued to move our clinical studies forward while adapting to meet the evolving challenges of the COVID-19 pandemic. We implemented business continuity plans in March 2020 that enabled our workforce to remain productive while working from home until mid-September 2021, at which time our workforce returned to the office. From a manufacturing and supply chain perspective, we believe we have sufficient inventory on hand for all of our ongoing and near-term studies and to support the launch of mirvetuximab, if approved. From a regulatory perspective, since the beginning of the pandemic, we have received timely reviews of our submissions to the U.S. Food and Drug Administration (FDA) and other health authorities covering our clinical trial applications.

The impact of COVID-19 slowed site activation and patient enrollment for both SORAYA and MIRASOL, which resulted in a limited delay in patient accrual for each of these studies.

Regulatory Matters

Government Regulation and Product Approval

Government authorities in the U.S., at the federal, state, and local level, and other countries extensively regulate, among other things, the research, development, testing, manufacture, quality control, approval, labeling, packaging, storage, record-keeping, promotion, advertising, distribution, marketing, and export and import of products such as those we are developing. A new drug must be approved by the FDA through the new drug application, or NDA, process and a new biologic must be approved by the FDA through the biologics license application, or BLA, process before it may be legally marketed in the U.S.

U.S. Drug Development Process

In the U.S., the FDA regulates drugs under the federal Food, Drug, and Cosmetic Act (FDCA) and in the case of biologics, also under the Public Health Service Act (PHSA) and implementing regulations. The process of obtaining regulatory approvals and the subsequent compliance with applicable federal, state, and local statutes and regulations require the expenditure of substantial time and financial resources. Failure to comply with the applicable U.S. requirements at any time during the product development process, approval process, or after approval, may subject an applicant to adverse administrative or judicial actions. These actions could include the FDA's refusal to approve pending applications, withdrawal of an approval, a clinical hold, warning letters, product recalls, product seizures, total or partial suspension of production or distribution, injunctions, fines, refusals of government contracts, restitution, disgorgement, or civil or criminal penalties. Any such administrative or judicial action could have a material adverse effect on our business.

The process required by the FDA before a drug or biologic may be marketed in the U.S. generally involves the following:

- completion of preclinical and other nonclinical laboratory tests, animal studies, and formulation studies according to current Good Laboratory Practices (cGLP) or other applicable regulations;
- submission to the FDA of an IND, which must become effective before human clinical trials may begin;
- performance of adequate and well-controlled human clinical trials according to current Good Clinical Practices (cGCP) to establish the safety and efficacy of the proposed drug for its intended use;
- development and approval of a companion diagnostic if the FDA or the sponsor believes that its use is essential for the safe and effective use of a corresponding product;
- submission to the FDA of an NDA or BLA;
- satisfactory completion of an FDA inspection of the manufacturing facility or facilities at which the drug is produced to assess compliance with current Good Manufacturing Practice (cGMP) to assure that the facilities, methods, and controls are adequate to preserve the drug's identity, strength, quality, and purity; and

- FDA review and approval of the NDA or BLA.

Once a pharmaceutical candidate is identified for development, it enters the preclinical testing stage. Preclinical tests include laboratory evaluations of product chemistry, toxicity, and formulation, as well as animal studies. An IND sponsor must submit the results of the preclinical tests, together with manufacturing information and analytical data, to the FDA as part of the IND. The sponsor will also include a clinical protocol detailing, among other things, the objectives of the first phase of the clinical trial, the parameters to be used in monitoring safety, and the effectiveness criteria to be evaluated, if the first phase lends itself to an efficacy evaluation. Some nonclinical testing may continue even after the IND is submitted and clinical trials have begun. The IND automatically becomes effective 30 days after receipt by the FDA, unless the FDA, within the 30-day time period, places the clinical trial on a clinical hold. In such a case, the IND sponsor and the FDA must resolve any outstanding concerns before the clinical trial can begin. Clinical holds also may be imposed by the FDA at any time before or during clinical trials due to safety concerns about ongoing or proposed clinical trials or non-compliance with specific FDA requirements, and the trials may not begin or continue until the sponsor submits additional information that alleviates FDA concerns, and the FDA notifies the sponsor that the hold has been lifted.

Each clinical trial must be conducted under the supervision of one or more qualified investigators in accordance with cGCP requirements in accordance with a protocol for each phase of the clinical trial included as part of the IND, and timely safety reports must be submitted to the FDA and the investigators for serious and unexpected adverse events. A local or central institutional review board (IRB) acting on behalf of each institution participating in the clinical trial must review and approve each protocol before a clinical trial commences at that institution and must also approve the information regarding the trial and the consent form that must be provided to each trial subject or his or her legal representative, monitor the study until completed, and otherwise comply with IRB regulations.

Human clinical trials are typically conducted in three sequential phases that may overlap or be combined:

- ***Phase 1:*** The product candidate is initially introduced into healthy human subjects and tested for safety and dosage tolerance, absorption, metabolism, distribution, and excretion. In the case of some products for severe or life-threatening diseases, such as cancer, especially when the product may be too inherently toxic to ethically administer to healthy volunteers, the initial human testing is often conducted in patients.
- ***Phase 2:*** This phase involves clinical trials in a limited patient population to identify possible adverse effects and safety risks, to preliminarily evaluate the efficacy of the product for specific targeted diseases and to determine dosage tolerance and optimal dosage.
- ***Phase 3:*** These trials are undertaken to further evaluate dosage, clinical efficacy, and safety in an expanded patient population at geographically dispersed clinical study sites and to establish the overall risk-benefit ratio of the product candidate and provide, if appropriate, an adequate basis for product labeling.

Post-approval trials, sometimes referred to as Phase 4, may be conducted after initial marketing approval. These trials are used to gain additional information about the use of the approved drug in the treatment of patients in the intended therapeutic indication. In certain instances, the FDA may mandate the performance of Phase 4 clinical trials as a condition of approval of an NDA or BLA.

The FDA or the sponsor may suspend a clinical trial at any time on various grounds, including a finding that the research subjects or patients are being exposed to an unacceptable health risk. Similarly, an IRB can suspend or terminate approval of a clinical trial at its institution if the clinical trial is not being conducted in accordance with the IRB's requirements or if the drug has been associated with unexpected or serious patient reactions. Additionally, some clinical trials are overseen by an independent group of qualified experts organized by the sponsor, known as a data safety monitoring board or committee. Depending on its charter, this group may determine whether a trial may move forward at designated check points based on access to certain data from the trial. Phase 1, Phase 2, and Phase 3 testing may not be completed successfully within any specified period, if at all.

During the development of a new drug, sponsors may request meetings with the FDA to share information about the data gathered to date, for the FDA to provide advice, and for the sponsor and the FDA to reach agreement on the next phase of development.

Concurrent with clinical trials, companies usually complete additional animal studies and must also develop additional information about the chemistry and physical characteristics of the drug and finalize a process for manufacturing the product in commercial quantities in accordance with cGMP requirements. The manufacturing process must be capable of consistently producing quality batches of the product candidate and, among other things, the

manufacturer must develop methods for testing the identity, strength, quality, and purity of the final drug. Additionally, appropriate packaging must be selected and tested, and stability studies must be conducted to demonstrate that the product candidate does not undergo unacceptable deterioration over its shelf life.

While the IND is active, progress reports summarizing the results of the clinical trials and nonclinical studies performed since the last progress report must be submitted at least annually to the FDA, and written IND safety reports must be submitted to the FDA and investigators for serious and unexpected suspected adverse events, findings from other studies suggesting a significant risk to humans exposed to the same or similar drugs, findings from animal or *in vitro* testing suggesting a significant risk to humans, and any clinically important increased incidence of a serious suspected adverse reaction compared to that listed in the protocol or investigator brochure.

There are also requirements governing the reporting of ongoing clinical trials and completed trial results to public registries. Most sponsors of clinical trials of FDA-regulated products are required to register and disclose specified clinical trial information, which is publicly available at www.clinicaltrials.gov. Information related to the product, patient population, phase of investigation, trial sites and investigators, and other aspects of the clinical trial is then made public as part of the registration. Sponsors are also obligated to discuss the results of their clinical trials after completion. Disclosure of the results of these trials can be delayed until the new product or new indication being studied has been approved. However, there are evolving rules and increasing requirements for publication of all trial-related information, and it is possible that data and other information from trials involving drugs that never garner approval could require disclosure in the future.

Companion Diagnostics

For some of our product candidates, including mirvetuximab and potentially others, we plan to work with collaborators to develop or obtain access to *in vitro* companion diagnostic tests to identify appropriate patients for these targeted therapies.

If the FDA believes that a diagnostic test is essential for the safe and effective use of a corresponding therapeutic product, the FDA may require the sponsor to develop, and obtain contemporaneous clearance or approval for a companion diagnostic. Companion diagnostics can be used to identify patients likely to be more responsive to a particular therapy or at increased risk for serious side effects as a result of treatment with a particular therapeutic product. They may also be useful for monitoring the response to treatment for the purpose of adjusting treatment or doses to achieve improved safety or effectiveness.

Companion diagnostics are regulated by the FDA as medical devices. The FDA indicated that it would apply a risk-based approach to determine the regulatory pathway for companion diagnostics. This means that the regulatory pathway will depend on the level of risk to patients, based on the intended use of the companion diagnostic device and the controls necessary to provide a reasonable assurance of safety and effectiveness. The two primary types of marketing pathways for medical devices are clearance of a premarket notification under Section 510(k) of the Federal Food, Drug, and Cosmetic Act, or 510(k), and approval of a premarket approval application (PMA). We expect that any companion diagnostic developed for use with our drug candidates will utilize the PMA pathway. If the diagnostic test and the therapeutic drug are studied together to support their respective approvals, the clinical trial must meet both the IND requirements and FDA's companion diagnostic requirements that apply to clinical trials of significant risk devices.

The FDA expects that the therapeutic sponsor will address the need for a companion diagnostic device in its therapeutic product development plan and that, in most cases, the therapeutic product and its corresponding companion diagnostic device will be developed contemporaneously.

PMAs must be supported by valid scientific evidence, which typically requires extensive data, including technical, preclinical, clinical, and manufacturing data, to demonstrate to the FDA's satisfaction the safety and effectiveness of the device. For diagnostic tests, a PMA typically includes data regarding analytical and clinical validation studies. As part of its review of the PMA, the FDA will conduct a pre-approval inspection of the manufacturing facility or facilities to ensure compliance with the Quality System Regulation (QSR) which requires manufacturers to follow design, testing, control, documentation, and other quality assurance procedures. FDA review of an initial PMA may require several years to complete.

After approval, the use of a companion diagnostic device with a therapeutic product will be stipulated in the instructions for use in the labeling of both the diagnostic device and the corresponding therapeutic product. In addition, a diagnostic test that was approved through the PMA process or one that was cleared through the 510(k) process and placed on the market will be subject to similar regulatory requirements that apply to approved drugs.

U.S. Review and Approval Processes

The results of product development, preclinical and other non-clinical studies, and clinical trials, along with descriptions of the manufacturing process, analytical tests conducted on the chemistry of the drug, proposed labeling, and other relevant information are submitted to the FDA as part of an NDA or BLA requesting approval to market the product. The submission of an NDA or BLA is subject to the payment of user fees; a waiver of such fees may be obtained under certain limited circumstances. The FDA reviews all NDAs and BLAs submitted to ensure that they are sufficiently complete for substantive review before it accepts them for filing. The FDA may request additional information rather than accept an NDA or BLA for filing. In this event, the NDA or BLA must be resubmitted with the additional information. The resubmitted application also is subject to review before the FDA accepts it for filing. Once the submission is accepted for filing, the FDA begins an in-depth substantive review. FDA may refer the NDA or BLA to an advisory committee for review, evaluation, and recommendation as to whether the application should be approved and under what conditions. The FDA is not bound by the recommendation of an advisory committee, but it generally follows such recommendations. The approval process is lengthy and often difficult, and the FDA may refuse to approve an NDA or BLA if the applicable regulatory criteria are not satisfied or may require additional clinical or other data and information. Even if such data and information are submitted, the FDA may ultimately decide that the NDA or BLA does not satisfy the criteria for approval. Data obtained from clinical trials are not always conclusive and the FDA may analyze and interpret data differently than we analyze and interpret the same data. The FDA reviews an NDA to determine, among other things, whether a product is safe and effective for its intended use and whether its manufacturing is cGMP-compliant to assure and preserve the product's identity, strength, quality, and purity. The FDA reviews a BLA to determine, among other things whether the product is safe, pure, and potent and the facility in which it is manufactured, processed, packed, or held meets standards designed to assure the product's continued safety, purity, and potency. Before approving an NDA or BLA, the FDA will inspect the facility or facilities where the product is manufactured to assure compliance with cGMPs and may also inspect clinical trial sites to assure compliance with GCPs.

NDAs or BLAs receive either standard or priority review. Priority review, which is requested at the time of BLA or NDA submission, is designed to expedite the review for drugs that provide meaningful therapeutic benefit to patients over existing treatments. Priority review for an NDA for a new molecular entity and original BLAs will be 6 months from the date that the NDA or BLA is filed, compared to 10 months under standard review. Although FDA's goal is to take action on priority review applications within 6 months, the agency does not always meet this goal and the review process may be significantly extended by FDA requests for additional information or clarification. Priority review does not change the standards for approval, but may expedite the approval process.

After the FDA evaluates an NDA or BLA, it will issue an approval letter or a Complete Response Letter. An approval letter authorizes commercial marketing of the drug with prescribing information for specific indications. A Complete Response Letter indicates that the review cycle of the application is complete, and the application will not be approved in its present form. A Complete Response Letter usually describes the specific deficiencies in the NDA or BLA identified by the FDA and may require additional clinical data, such as an additional Phase 3 trial or other significant and time-consuming requirements related to clinical trials, nonclinical studies, or manufacturing. If a Complete Response Letter is issued, the sponsor has one year to resubmit the NDA or BLA, addressing all of the deficiencies identified in the letter, or withdraw the application. Even if such data and information are submitted, the FDA may decide that the NDA or BLA does not satisfy the criteria for approval.

If a product receives regulatory approval, the approval may be significantly limited to specific diseases and dosages or the indications for use may otherwise be limited, which could restrict the commercial value of the product. In addition, the FDA may require a sponsor to conduct Phase IV testing which involves clinical trials designed to further assess a drug's safety and effectiveness after NDA or BLA approval and may require testing and surveillance programs to monitor the safety of approved products which have been commercialized. The FDA may also place other conditions on approval including the requirement for a risk evaluation and mitigation strategy (REMS) to assure the safe use of the drug. If the FDA concludes a REMS is needed, the sponsor of the NDA or BLA must submit a proposed REMS. The FDA will not approve the NDA or BLA without an approved REMS, if required. A REMS could include medication guides, physician communication plans, or other elements to assure safe use, such as restricted distribution methods, patient registries, and other risk minimization tools. Any of these limitations on approval or marketing could restrict the commercial promotion, distribution, prescription, or dispensing of products. Marketing approval may be withdrawn for non-compliance with regulatory requirements or if problems occur following initial marketing.

The Pediatric Research Equity Act (PREA) requires a sponsor to conduct pediatric clinical trials for most drugs and biologics, for a new active ingredient, new indication, new dosage form, new dosing regimen, or new route of administration. Under PREA, original NDAs, BLAs, and supplements thereto, must contain a pediatric assessment

Dear Mark,

I am writing to document our conversation on July 27, 2022. In June 1989, I was charged with a DUI in the State of Pennsylvania, a misdemeanor offense at that time. I pleaded no contest, and after a 3-year probationary period was successfully completed, this charge was expunged from the records.

If you need additional information, please let me know.

Dear Mark,

I am writing to document our conversation on July 27, 2022. In June 1989, I was charged with a DUI in the State of Pennsylvania, a misdemeanor offense at that time. I pleaded no contest, and after a 3-year probationary period was successfully completed, this charge was expunged from the records.

If you need additional information, please let me know.

RE: Background Response

To Whom This May Concern:

Driving on Suspended License around 2015 in June (I believe). I took my son to visit MSU (Mississippi State University), we were leaving and I needed to turn around. So I followed other vehicles into this parking lot however after I turned I noticed the arrows on the ground pointing in the opposite direction I was turning. It was already to late to turn around so I had to continue with the turn. After I turned the police stopped me. Of course I gave my driver's license and proof of insurance. A very long time later, I noticed more and more police cars coming, so I am getting nervous as to what did I do. Finally, the police said that I was driving on Suspended License. A couple of weeks before this incident I was stopped by the police (in Memphis, TN) for speeding and received a ticket but I told the police officer that it just happened why would they suspend my license. The police officer stated that I need to get in contact with Forest City, AR to find out about it. I said I have not received a ticket in Forest City what are you talking about.

I was booked and released out of MS police station. The next day I called Forest City about this suppose ticket I received that got my license suspended. I talked to the clerk and she said this ticket was back in 1995 I believe. I did not have license in 1995 nor did I remember getting stopped in someone else's car that I could have possibly been driving. This was a 20 year old ticket and they just now decided to suspend my license (since I did not have license until I was almost 20). The clerk said I had to come to court, I could not just pay the ticket. I went to court and the judge immediately dismissed the ticket. I was to call the court house in MS and let them know the outcome of the suspended license. I let them know and went and paid to get my license remitted.

I received the call from Nevada that I need to get some information or make a statement as to why this is on my background. I did call Forest City to see if I can get any information about this incident, and the lady stated that I could only send in a self-addressed envelope and requested information and they will mail it back to me. However, it will only state generic information. I have not received that paperwork and I decided to recount the steps on how this happened. This statement is true to my remembrance on the events and how it ended up that I was driving on suspended license and did not know anything about it. I am hoping this statement is enough information for an explanation of negative items in my background. If you have further concerns please feel free to give me a call at [redacted].

Sincerely,

Erika Berry

Financial Highlights

- Net revenues were $261.3 million for the three months ended March 31, 2022, compared to $237.5 million for the same period in 2021, reflecting growth of 10.0 percent. Patient Care same clinic revenue growth per day was 6.9 percent during the period with continuing increases in work-in-process levels during the quarter.
- Net loss was $8.0 million for the three months ended March 31, 2022, compared to $3.3 million for the same period in 2021. Loss from operations was $2.5 million for the quarter compared to income from operations of $2.0 million for the same period in 2021.
- Adjusted EBITDA was $8.9 million in the first quarter of 2022, compared to $13.5 million for the same period in 2021, reflecting a decline of $4.6 million. Comparative earnings in the period were affected by a favorable $3.5 million disallowance and patient non-payment rate in the prior year period, as well as other items specific to the current year period.
- GAAP loss per share was $0.21 for the first quarter of 2022, compared to $0.09 per share for the same period in 2021. Adjusted loss per share was $0.15 for the three months ended March 31, 2022, compared to $0.08 for the same period in 2021.
- The Company reaffirmed its full year guidance for 2022.

Vinit Asar, President and Chief Executive Officer of Hanger, Inc., stated, "We are pleased with the strong rate of revenue growth achieved by our Patient Care business in the first quarter. We currently believe these positive growth trends will be sustainable as work-in-process levels have continued to increase during the quarter."

Mr. Asar continued, "While we encountered some operational difficulties and increased costs during the period, we believe these effects were for the most part temporary in nature and specific to our first quarter results. Based on this, we remain comfortable with and have reaffirmed our guidance for the year."

Segment Results for Three Months Ended March 31, 2022

Patient Care Segment

For the three months ended March 31, 2022, Patient Care net revenues were $219.8 million, an increase of $24.1 million, or 12.3 percent, compared to the same period in 2021. For the three month period, acquisitions of O&P clinics that were consummated in 2021 and 2022 contributed $11.2 million of incremental revenue.

Net same clinic revenue on a day-adjusted basis grew 6.9 percent during the first quarter of 2022 compared to the same quarter in the prior year period. Patient Care results benefited from the continued improvement in patient volumes compared to the decreased levels of demand experienced due to the COVID pandemic during the same period in 2021.

Excluding the effect of acquisitions, net revenue from prosthetics grew 7.7 percent and net revenue from orthotics grew 5.9 percent, each compared to the first quarter of 2021. Prosthetics comprised 52.1 percent of Patient Care segment net revenue for the quarter, compared to 51.7 percent in the same period of 2021. Income from operations in the Patient Care segment was $17.0 million during the first quarter of 2022, a decrease of $2.1 million compared to the $19.1 million reported in the prior year.

Payor disallowances and patient non-payment were 4.4 percent of gross charges during the first quarter of 2022 which compared to 2.9 percent during the first quarter of 2021, resulting in an approximate $3.5 million comparative decrease to revenue, income from operations and Adjusted EBITDA. During the quarter, the Patient Care segment's income from operations and Adjusted EBITDA incurred $1.2 million and $0.9 million, respectively, in increased costs associated with its fabrication facilities, in part due to increased reliance on higher cost third party fabrication services related to constraints encountered in its own operations due to the effects of the Omicron variant of COVID-19, the availability of staffing and delays in the opening of its new fabrication facility in Phoenix, Arizona. That facility was successfully opened prior to the end of the quarter. The segment also incurred $0.6 million in increased freight costs as compared with the first quarter of 2021.

Adjusted EBITDA for the segment was $23.1 million, which reflected a $1.9 million decrease compared to the first quarter of 2021. Adjusted EBITDA margin in the segment totaled 10.5 percent compared to 12.7 percent during the first quarter of 2021.

Products & Services Segment

For the three months ended March 31, 2022, Products & Services net revenues totaled $41.5 million, reflecting a decline of 0.8 percent compared with the same period in 2021. Revenue from the distribution of O&P componentry totaled $31.4 million, reflecting growth of $0.7 million, or 2.4 percent. Therapeutic solutions revenue in the first quarter totaled $10.1 million, a decline of $1.0 million, or 9.4 percent.

Income from operations for the Products & Services segment was $2.5 million in the first quarter of 2022 compared to $4.7 million in the same period of 2021. Adjusted EBITDA for the segment totaled $4.9 million for the first quarter of 2022, a $2.0 million decline compared with the same period of 2021.

Adjusted EBITDA margin in the segment totaled 11.7 percent compared to 16.4 percent during the first quarter of 2021.

Corporate & Other

Expenses associated with corporate and other activities increased by $0.3 million to $22.0 million for the quarter ended March 31, 2022 compared to the same period in 2021. Excluding the effect of depreciation and amortization, and acquisition-related expense, the net cost of corporate and other activities increased by $0.7 million to $19.0 million in the first quarter of 2022.

Net Income; Interest Expense

Interest expense totaled $7.4 million for the three month period ended March 31, 2022, which is unchanged from the prior year period.

For the three month period ended March 31, 2022, net loss was $8.0 million compared with $3.3 million for the same period in 2021. GAAP diluted loss per share was $0.21 compared to $0.09 per share in 2021. Adjusted diluted loss per share was $0.15 for the three months ended March 31, 2022, compared to $0.08 per share for the same period in 2021.

Net Cash Used In Operating Activities; Liquidity

Cash flows used in operating activities for the three months ended March 31, 2022 were $8.3 million compared to cash flows used in operating activities of $42.4 million for the same period in 2021. The Company's days sales outstanding were 48 days as of March 31, 2022, which reflected a three-day increase as compared to the same period in 2021.

On March 31, 2022, the Company had liquidity of $167.2 million, comprised of $37.4 million in cash and cash equivalents, and $129.8 million in available borrowing capacity under its revolving credit facility. This compares to total liquidity of $165.1 million on March 31, 2021.

2022 Outlook

Due in part to favorable same clinic growth trends, the previous incorporation of disallowance trends similar to those experienced in the first quarter and the anticipated temporary nature of certain other costs incurred in the quarter, the Company's outlook for 2022 remains unchanged since its initial announcement on February 7, 2022.

As previously disclosed, the Company anticipates 2022 net revenue will be in a range between $1.190 billion and $1.220 billion, and Adjusted EBITDA in a range between $127 million and $132 million. The Company's outlook for 2022 includes approximately $35 million in revenue relating to the full year effect of acquisitions consummated in 2021.

Adjusted EBITDA in this outlook is provided on a non-GAAP basis only because a reconciliation to the most comparable GAAP financial measure, net income, is not available without unreasonable effort due

to the unpredictable nature of reconciling items that render such a reconciliation not meaningful for investors.

Segment Information: Revenue, EBITDA and Adjusted EBITDA
(Unaudited - in thousands)

EBITDA is defined as operating income before depreciation and amortization. Adjusted EBITDA is defined as EBITDA before certain charges, third-party professional fees in excess of normal amounts incurred in connection with our financial statement remediation, expenses associated with equity-based compensation, severance expenses, certain expenses incurred in connection with our acquisitions, proceeds received from grants under the Coronavirus Aid, Relief and Economy Security Act ("CARES Act") and certain other charges.

We use EBITDA and Adjusted EBITDA as measures to assess the relative level of our indebtedness and our compliance with certain debt covenants which are based on these measures. Additionally, we utilize these measures to assess our operating and financial performance. We believe that these measures enhance a user's understanding of normal operating income excluding certain charges, depreciation and amortization.

Neither EBITDA or Adjusted EBITDA are measures of financial performance computed in accordance with Generally Accepted Accounting Principles ("GAAP") and should not be considered in isolation nor as a substitute for operating income, net income, cash flows from operations, or other statement of operations or cash flow data prepared in conformity with GAAP, or as a measure of profitability or liquidity. In addition, the calculation of EBITDA and Adjusted EBITDA is susceptible to varying interpretations and calculations, and the amounts presented may not be comparable to similarly titled measures of other companies. EBITDA and Adjusted EBITDA may not be indicative of historical operating results, and we do not intend these measures to be predictive of future results of operations.

Reconciliation of Net Loss and Loss Per Share to Adjusted Net Loss and Adjusted Loss Per Share
(Unaudited - in thousands, except share and per share amounts)

Earnings Per Share (or "EPS") is defined as net income divided by our basic or diluted common shares during the applicable period. Adjusted EPS is defined as EPS adjusted for certain equity-based compensation charges, third-party professional fees in excess of normal amounts incurred in connection with our financial statement remediation, severance expenses, certain expenses incurred in connection with our acquisitions, proceeds received from grants under the CARES Act, and certain other charges.

We utilize Adjusted EPS to assess our operating and financial performance. We believe that this measure enhances a user's understanding of normal operating results excluding certain charges.

Adjusted EPS is not a measure of financial performance computed in accordance with GAAP and should not be considered in isolation nor as a substitute for operating income, net income, cash flows from operations, or other statement of operations or cash flow data prepared in conformity with GAAP, or as a measure of profitability or liquidity. Additionally, we utilize these measures to assess our operating and financial performance. We believe that these measures enhance a user's understanding of normal operating income excluding certain charges, depreciation and amortization.

Neither EBITDA or Adjusted EBITDA are measures of financial performance computed in accordance with Generally Accepted Accounting Principles ("GAAP") and should not be considered in isolation nor as a substitute for operating income, net income, cash flows from operations, or other statement of operations or cash flow data prepared in conformity with GAAP, or as a measure of profitability or liquidity. In addition, the calculation of EBITDA and Adjusted EBITDA is susceptible to varying interpretations and calculations, and the amounts presented may not be comparable to similarly titled measures of other companies. EBITDA and Adjusted EBITDA may not be indicative of historical operating results, and we do not intend these measures to be predictive of future results of operations.

Hanger Reports First Quarter 2022 Financial Results

Company Reports Strong Same Clinic Revenue Growth Trends; Reaffirms Guidance

AUSTIN, Texas, May 4, 2022 - Hanger, Inc. (NYSE: HNGR), a leading provider of orthotic and prosthetic (O&P) patient care services and solutions, today announced its financial results for the first quarter ended March 31, 2022.

Financial Highlights

- Net revenues were $261.3 million for the three months ended March 31, 2022, compared to $237.5 million for the same period in 2021, reflecting growth of 10.0 percent. Patient Care same clinic revenue growth per day was 6.9 percent during the period with continuing increases in work-in-process levels during the quarter.
- Net loss was $8.0 million for the three months ended March 31, 2022, compared to $3.3 million for the same period in 2021. Loss from operations was $2.5 million for the quarter compared to income from operations of $2.0 million for the same period in 2021.
- Adjusted EBITDA was $8.9 million in the first quarter of 2022, compared to $13.5 million for the same period in 2021, reflecting a decline of $4.6 million. Comparative earnings in the period were affected by a favorable $3.5 million disallowance and patient non-payment rate in the prior year period, as well as other items specific to the current year period.
- GAAP loss per share was $0.21 for the first quarter of 2022, compared to $0.09 per share for the same period in 2021. Adjusted loss per share was $0.15 for the three months ended March 31, 2022, compared to $0.08 for the same period in 2021.
- The Company reaffirmed its full year guidance for 2022.

Vinit Asar, President and Chief Executive Officer of Hanger, Inc., stated, "We are pleased with the strong rate of revenue growth achieved by our Patient Care business in the first quarter. We currently believe these positive growth trends will be sustainable as work-in-process levels have continued to increase during the quarter."

Mr. Asar continued, "While we encountered some operational difficulties and increased costs during the period, we believe these effects were for the most part temporary in nature and specific to our first quarter results. Based on this, we remain comfortable with and have reaffirmed our guidance for the year."

Segment Results for Three Months Ended March 31, 2022

Patient Care Segment

For the three months ended March 31, 2022, Patient Care net revenues were $219.8 million, an increase of $24.1 million, or 12.3 percent, compared to the same period in 2021. For the three month period, acquisitions of O&P clinics that were consummated in 2021 and 2022 contributed $11.2 million of incremental revenue.

Net same clinic revenue on a day-adjusted basis grew 6.9 percent during the first quarter of 2022 compared to the same quarter in the prior year period. Patient Care results benefited from the continued improvement in patient volumes compared to the decreased levels of demand experienced due to the COVID pandemic during the same period in 2021.

Excluding the effect of acquisitions, net revenue from prosthetics grew 7.7 percent and net revenue from orthotics grew 5.9 percent, each compared to the first quarter of 2021. Prosthetics comprised 52.1 percent of Patient Care segment net revenue for the quarter, compared to 51.7 percent in the same period of 2021. Income from operations in the Patient Care segment was $17.0 million during the first quarter of 2022, a decrease of $2.1 million compared to the $19.1 million reported in the prior year.

Payor disallowances and patient non-payment were 4.4 percent of gross charges during the first quarter of 2022 which compared to 2.9 percent during the first quarter of 2021, resulting in an approximate $3.5 million comparative decrease to revenue, income from operations and Adjusted EBITDA. During the quarter, the Patient Care segment's income from operations and Adjusted EBITDA incurred $1.2 million and $0.9 million, respectively, in increased costs associated with its fabrication facilities, in part due to increased reliance on higher cost third party fabrication services related to constraints encountered in its own operations due to the effects of the Omicron variant of COVID-19, the availability of staffing and delays in the opening of its new fabrication facility in Phoenix, Arizona. That facility was successfully opened prior to the end of the quarter. The segment also incurred $0.6 million in increased freight costs as compared with the first quarter of 2021.

Adjusted EBITDA for the segment was $23.1 million, which reflected a $1.9 million decrease compared to the first quarter of 2021. Adjusted EBITDA margin in the segment totaled 10.5 percent compared to 12.7 percent during the first quarter of 2021.

Products & Services Segment

For the three months ended March 31, 2022, Products & Services net revenues totaled $41.5 million, reflecting a decline of 0.8 percent compared with the same period in 2021. Revenue from the distribution of O&P componentry totaled $31.4 million, reflecting growth of $0.7 million, or 2.4 percent. Therapeutic solutions revenue in the first quarter totaled $10.1 million, a decline of $1.0 million, or 9.4 percent.

Income from operations for the Products & Services segment was $2.5 million in the first quarter of 2022 compared to $4.7 million in the same period of 2021. Adjusted EBITDA for the segment totaled $4.9 million for the first quarter of 2022, a $2.0 million decline compared with the same period of 2021.

Adjusted EBITDA margin in the segment totaled 11.7 percent compared to 16.4 percent during the first quarter of 2021.

Corporate & Other

Expenses associated with corporate and other activities increased by $0.3 million to $22.0 million for the quarter ended March 31, 2022 compared to the same period in 2021. Excluding the effect of depreciation and amortization, and acquisition-related expense, the net cost of corporate and other activities increased by $0.7 million to $19.0 million in the first quarter of 2022.

Net Income; Interest Expense

Interest expense totaled $7.4 million for the three month period ended March 31, 2022, which is unchanged from the prior year period.

For the three month period ended March 31, 2022, net loss was $8.0 million compared with $3.3 million for the same period in 2021. GAAP diluted loss per share was $0.21 compared to $0.09 per share in 2021. Adjusted diluted loss per share was $0.15 for the three months ended March 31, 2022, compared to $0.08 per share for the same period in 2021.

Net Cash Used In Operating Activities; Liquidity

Cash flows used in operating activities for the three months ended March 31, 2022 were $8.3 million compared to cash flows used in operating activities of $42.4 million for the same period in 2021. The Company's days sales outstanding were 48 days as of March 31, 2022, which reflected a three-day increase as compared to the same period in 2021.

On March 31, 2022, the Company had liquidity of $167.2 million, comprised of $37.4 million in cash and cash equivalents, and $129.8 million in available borrowing capacity under its revolving credit facility. This compares to total liquidity of $165.1 million on March 31, 2021.

2022 Outlook

Due in part to favorable same clinic growth trends, the previous incorporation of disallowance trends similar to those experienced in the first quarter and the anticipated temporary nature of certain other costs incurred in the quarter, the Company's outlook for 2022 remains unchanged since its initial announcement on February 7, 2022.

As previously disclosed, the Company anticipates 2022 net revenue will be in a range between $1.190 billion and $1.220 billion, and Adjusted EBITDA in a range between $127 million and $132 million. The Company's outlook for 2022 includes approximately $35 million in revenue relating to the full year effect of acquisitions consummated in 2021.

Adjusted EBITDA in this outlook is provided on a non-GAAP basis only because a reconciliation to the most comparable GAAP financial measure, net income, is not available without unreasonable effort due

to the unpredictable nature of reconciling items that render such a reconciliation not meaningful for investors.

Segment Information: Revenue, EBITDA and Adjusted EBITDA
(Unaudited - in thousands)

EBITDA is defined as operating income before depreciation and amortization. Adjusted EBITDA is defined as EBITDA before certain charges, third-party professional fees in excess of normal amounts incurred in connection with our financial statement remediation, expenses associated with equity-based compensation, severance expenses, certain expenses incurred in connection with our acquisitions, proceeds received from grants under the Coronavirus Aid, Relief and Economy Security Act ("CARES Act") and certain other charges.

We use EBITDA and Adjusted EBITDA as measures to assess the relative level of our indebtedness and our compliance with certain debt covenants which are based on these measures. Additionally, we utilize these measures to assess our operating and financial performance. We believe that these measures enhance a user's understanding of normal operating income excluding certain charges, depreciation and amortization.

Neither EBITDA or Adjusted EBITDA are measures of financial performance computed in accordance with Generally Accepted Accounting Principles ("GAAP") and should not be considered in isolation nor as a substitute for operating income, net income, cash flows from operations, or other statement of operations or cash flow data prepared in conformity with GAAP, or as a measure of profitability or liquidity. In addition, the calculation of EBITDA and Adjusted EBITDA is susceptible to varying interpretations and calculations, and the amounts presented may not be comparable to similarly titled measures of other companies. EBITDA and Adjusted EBITDA may not be indicative of historical operating results, and we do not intend these measures to be predictive of future results of operations.

Reconciliation of Net Loss and Loss Per Share to Adjusted Net Loss and Adjusted Loss Per Share
(Unaudited - in thousands, except share and per share amounts)

Earnings Per Share (or "EPS") is defined as net income divided by our basic or diluted common shares during the applicable period. Adjusted EPS is defined as EPS adjusted for certain equity-based compensation charges, third-party professional fees in excess of normal amounts incurred in connection with our financial statement remediation, severance expenses, certain expenses incurred in connection with our acquisitions, proceeds received from grants under the CARES Act, and certain other charges.

We utilize Adjusted EPS to assess our operating and financial performance. We believe that this measure enhances a user's understanding of normal operating results excluding certain charges.

Adjusted EPS is not a measure of financial performance computed in accordance with GAAP and should not be considered in isolation nor as a substitute for operating income, net income, cash flows from operations, or other statement of operations or cash flow data prepared in conformity with GAAP, or as a measure of profitability or liquidity. In addition, the calculation of Adjusted EPS is susceptible to varying interpretations and calculations, and the amounts presented may not be comparable to similarly titled measures of other companies. Adjusted EPS may not be indicative of historical operating results, and we do not intend these measures to be predictive of future results of operations.

The investigative committee will review each case individually and may recommend a board hearing, particularly with mitigating circumstances such as inappropriate technician involvement or pharmacist malfeasance.

In certain cases with ingested errors and significant negative health circumstances requiring institutional care, the investigative committee recommendation will be a board hearing.

In all death cases resulting from inappropriate drug therapy a board hearing will occur.

Attorney fees and costs may be added in contested disciplinary actions requiring extensive attorney preparation and presentation and are not described in the above matrix.

The board has directed that ownership may be charged in disciplinary cases. In non-ingested errors copies of admonition letters will be sent to management. Accumulative actions for ownership monitoring will be based upon a 3 year period. All actions including non-ingested errors will be given a case number and monitored.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because at the time of the events alleged herein, Respondent Ann Childress, MD ("Childress"), held a controlled substance registration, Certification of Registration No. CS08793, and later obtained a practitioner dispensing registration, Certificate of Registration No. PD27575 issued by the Board.

FACTUAL ALLEGATIONS

2. Childress operates a medical practice located 7351 Prairie Falcon Road, #160, Las Vegas, Nevada 89128.

3. On or about December 21, 2020, the Board received an anonymous complaint about the quality of the United States Food and Drug Administration ("FDA") study medications being dispensed by Dr. Childress' office. This complaint was investigated and deemed to be unfounded by the Board's inspection in January.

4. On January 21, 2021, the Board's inspector and investigator conducted a site visit of Dr. Childress' medical office to investigate the complaint received by the Board. However, during the site visit, although the complaint itself was deem unfounded, it was discovered that Dr. Childress was dispensing clinical study medications without a practitioner dispensing registration.

5. Dr. Childress' practitioner dispensing registration was not issued until March 31, 2021.

6. Dr. Childress provided a list of thirteen (13) clinical trials from January 1, 2019 through March 31, 2021 where study medications - controlled substances and dangerous drugs – including escitalopram, Guanfacine Hydrochloride Prolonged-release, Brexpiprazole, Amphetamine Extended-Release tablets, were dispensed without a dispensing registration.

APPLICABLE LAW

7. A practitioner who wishes to dispense controlled substances or dangerous drugs must apply to the Board for a certificate of registration. NAC 639.742(1).

8. As a holder of a controlled substance registration, and later as a holder of a practitioner dispensing registration, it is unprofessional conduct or conduct contrary to the public interest to perform her duties in an incompetent, unskillful or negligent manner. NAC 639.945(1)(i).

9. As a holder of a controlled substance registration, it is unprofessional conduct or conduct contrary to the public interest to perform any act, task, or operation for which licensure, certification, or registration is required without the licensure, certification, or registration. NAC 639.945(1)(k).

10. Respondent is subject to discipline pursuant to NRS 453.236, NRS 453.241, NRS 639.210, and/or NRS 639.255.

///

COUNT ONE

Unprofessional Conduct – Incompetent, Unskillful or Negligent Conduct

11. By dispensing study medications without the required dispensing registration in violation of NAC 639.742(1), Respondent Childress performed her duties as a holder of a controlled substance registration in an incompetent, unskillful, or negligent manner pursuant to NAC 639.945(1)(i) by negligently failing to obtain licensure, or failing to confirm licensure, prior to dispensing study medications, and are grounds for suspension or revocation of any license or registration issued by the Board pursuant to NRS 453.236, NRS 453.241, NRS 639.210, and/or NRS 639.255.

COUNT TWO

Unprofessional Conduct - Unlicensed/Unregistered Activity

12. By dispensing study medications without the required dispensing registration in violation of NAC 639.742(1), Respondent Childress engaged in unprofessional conduct or conduct contrary to the public interest in violation of NAC 639.945(1)(k), and is subject to discipline pursuant to NRS 453.236, NRS 453.241, NRS 639.210(4), and (12), and/or NRS 639.255.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of this Respondent.

2. On or about May 25, 2022, Board Staff served Respondent Childress with the Notice of Intended Action and Accusation ("Accusation") on file in this matter together with the Statement to Respondent and Notice of Hearing.

3. In lieu of filing an Answer through counsel, this agreed Stipulation and Order is presented for the Board's consideration.

4. Respondent Childress is fully aware of the right to seek the advice of counsel in this matter and obtained the advice of counsel prior to entering into this Stipulation.

5. Respondent Childress is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration, the right to appeal and any and all other rights which may be accorded pursuant to NRS Chapter 233B, Nevada Administrative Procedure Act, NRS Chapter 622A, Administrative Procedure Before Certain Regulatory Bodies, and NRS Chapter 639, Nevada Pharmacy Act.

7. Respondent Childress admits that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for certain violations alleged in the Accusation, that Respondent Childress:

> Dispensed study medications, consisting of controlled substances and dangerous drugs, without the required licensure in violation of NAC 639.742(1) and NAC 639.945(1)(k).

9. Respondent Childress maintains that a good faith factual basis mitigates the allegations against her. However, in order to resolve this matter without incurring any further costs or the expense associated with a hearing, and with Respondent Childress not conceding or admitting to such allegations, the Board and Respondent Childress stipulate to the following penalties and conditions:

A. Pay a fine of Five-Thousand Dollars ($5,000.00) for the alleged violations; and

B. Pay Five Hundred Dollars ($500.00) to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter.

10. Any failure by Respondent Childress to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing that Respondent Childress to appear before the Board at the next regularly-scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may impose additional discipline upon Respondent consistent with the provisions of NRS Chapter 453 and/or Chapter 639.

11. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on September 7, 2022. 13. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the merits of this matter may be heard by the Board at a later date. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

14. Upon approval of this Stipulation by the Board, Respondent Childress shall pay the fines agreed to herein by *personal check, business check, cashier's check* or *certified check* or *money order* made payable to "State of Nevada, Office of the Treasurer," to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within thirty (30) of the effective date of this Order.

Lee, Esq., **HEREBY STIPULATE AND AGREE THAT**:

1. The Board has jurisdiction over Respondents and this matter.

2. On or about May 11, 2022, Respondents were served with the Notice of Intended Action and Accusation (Accusation) on file in this matter together with the Statement to Respondent and Notice of Hearing, and Respondents filed an Answer and Notice of Defense to the Accusation on or about June 9, 2022.

3. Respondents are fully aware of the right to seek the advice of counsel in this matter and obtained the advice of counsel prior to entering into this Stipulation.

4. Respondents are aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration, the right to appeal and any and all other rights which may be accorded pursuant to NRS Chapter 233B (Nevada Administrative Procedure Act), NRS

Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

6. Respondents deny the allegations in the Accusation, but acknowledge that Board staff prosecuting this case could present such evidence at an administrative hearing to establish a factual basis for the violations alleged therein, *to wit*, that:

A. On or about May 24, 2021, Respondent Christopher Olsen entered into a Memorandum of Agreement with the United States Attorney's Office for the District of Nevada and the U.S. Drug Enforcement Administration (MOA) requiring Olsen to sell all his interest in Olsen's Corner Drug Store, License No. PH01913, to never again maintain any ownership interest or management position in any pharmacy, and to pay the $135,254 in civil penalties for failing to maintain complete and accurate records causing numerical deviations in accountability, as required by 21 CFR 1304.21 (a), in violation of 21 U.S.C. § 842(a)(5);

B. By failing to maintain accurate and complete records for controlled substance inventories and ensuring the security thereof in his operation of Olsen's Corner Drug Store, License No. PH01913, Respondent Christopher Olsen violated, attempted to violate, assisted or abetted in the violation of or conspired to violate 21 U.S.C. § 842(a)(5), 21 CFR § 1301.71(a), 21 C.F.R. § 1304.04, 21 C.F.R. § 1304.11, 21 C.F.R. § 1304.21(a), NRS 453.246, NRS 453.326, NAC 639.482, NAC 639.485, NAC 639.487 and/or NAC 639.520;

C. By failing to maintain accurate and complete records for controlled substance inventories and ensuring the security thereof in his operation of Olsen's Corner Drug Store, License No. PH01913, Respondent Christopher Olsen has performed his duties as a registered pharmacist and as a managing pharmacist in an incompetent, unskillful or negligent manner, engaged in unprofessional conduct as defined in NAC 639.945(1)(i);

D. As the managing pharmacist of Olsen's Corner Drug Store, License No. PH01913, at the time of the violations alleged herein, Respondent Christopher Olsen is responsible for those violations pursuant to NRS 639.220(1), NAC 639.473(1), and NAC 639.510; and

E. As the owner of Olsen's Corner Drug Store, License No. PH01913, at the time of the violations alleged herein, Respondent Christopher Olsen is responsible for the violations pursuant to NRS 639.230(5) and NAC 639.945(2).

7. The parties acknowledge that the Accusation erroneously identifies Respondent Olsen’s Corner Drug Store Compounding Center, License No. PH03816, as the subject of the MOA, rather than Olsen's Corner Drug Store, License No. PH01913.

8. On or about September 30, 2020, Respondent Olsen’s Corner Drug Store Compounding Center relinquished License No. PH03816 and ceased to operate. On or about April 15, 2021, Olsen's Corner Drug Store, License No. PH01913, was approved by the Board for a change of ownership.

The certificate of registration of Respondent Christopher Olsen, Certificate of Registration No. 11156, is hereby revoked pursuant to NRS 639.255(1)(d). The revocation is stayed, and Respondent Christopher Olsen is placed a probation for five (5) years subject to the following conditions:

A. Respondent Christopher Olsen may not work as a managing pharmacist of any pharmacy licensed by the Board or hold an ownership interest in any pharmacy licensed by the Board;

B. Pursuant to NRS 639.255(1)(f) and NAC 639.955(5), Respondent Christopher Olsen shall pay a fine of Five Thousand Dollars ($5,000.00) for the violations, by personal, business, certified or cashier's check or money order made payable to "State of Nevada, Office of the Treasurer," to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within sixty (60) days of the effective date of this Order; and

C. Pursuant to NRS 622.400, Respondent Christopher Olsen shall pay Five Hundred Dollars ($500.00) to partially reimburse the Board for reasonable attorney's fees and recoverable costs incurred in investigating and prosecuting this matter. Payment shall be made by personal, business, certified or cashier's check or money order made payable to the "Nevada State Board of Pharmacy" to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within sixty (60) days of entry of this Order.

Upon the successful completion of probation, Respondent's Certificate of Registration No. 11156 will be fully restored.

10. Any failure by Respondent Christopher Olsen to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing Respondent Christopher Olsen to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent Christopher Olsen, the Board may lift the stay and impose additional discipline upon Respondent Christopher Olsen not inconsistent with the provisions of NRS Chapter 639.

11. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on September 7, 2022. Respondents and their authorized representative(s) may appear at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent Christopher Olsen or his counsel are not present at the meeting.

12. The Board has discretion to accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r–2 and 45 CFR Part 60.

13. If the Board rejects this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the merits of this matter may be heard by the Board. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

14. Subject to the approval of this Stipulation by the Board, the Board and Respondent Christopher Olsen agree to release each other from any and all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order.

Respondents, and each of them, have fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and have freely and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300 and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Morton Isaac Hyson, MD, held a Nevada controlled substance registration, Certificate of Registration No. CS05851, issued by the Board.

FACTUAL ALLEGATIONS

2. On or about May 12, 2022, the Nevada State Board of Medical Examiners ("NSBME") entered an order in Case Nos. 22-8616-1, in which Respondent's NSBME License No. 6020 to practice medicine was summarily suspended for violations of NRS Chapter 630.

3. On or about June 9, 2022, Board staff served Respondent with notice that the suspension of his NSBME License No. 6020 operated as an immediate suspension of his Certificate of Registration No. CS05851 with the Board pursuant to NRS 639.2107, and that Respondent must immediately cease and desist possessing, administering and/or prescribing controlled substances for Nevada patients.

APPLICABLE LAW

4. A practitioner must hold a license to practice his or her profession in this State and be registered with both the DEA and the Board to possess, administer, prescribe and/or otherwise dispense any controlled substance. NRS 453.226(1); 21 U.S.C. § 822(a)(2); 21 U.S.C. § 823(f); 21 CFR § 1306.03.

5. Performing any duties as the holder of a controlled substance registration in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(i) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

6. The Board may suspend or revoke a registration issued pursuant to NRS 453.226 to prescribe or otherwise dispense a controlled substance upon a finding that the registrant has committed an act that would render registration inconsistent with the public interest. NRS 453.236(1)(e) and NRS 453.241(1).

7. The surrender, revocation or a suspension that has not been stayed of any certificate, license, or registration of a practitioner, as defined in NRS 453.126, 454.00958 or 639.0125, by a licensing board or the Drug Enforcement Administration operates as an immediate suspension of a certificate, license, registration, or permit issued by the Board pursuant to NRS chapters 453, 454 or 639 to possess, administer, prescribe, or dispense drugs. NRS 639.2107.

FIRST COUNT

Commission of Acts that Render Registration Inconsistent with the Public Interest

8. By violating NRS Chapter 630 as detailed in the NSBME's order in Case Nos. 22-8616-1, Respondent has committed acts that render his registration inconsistent with the public interest, no longer qualifies for registration to dispense controlled substances under federal or state law and is subject to discipline pursuant to NRS 453.236(1) and NRS 453.241(1).

SECOND COUNT
Surrender of License to Practice Medicine

9. By the surrender of his NSBME License No. 6062 to practice medicine, Respondent has committed acts that render his registration to dispense controlled substances inconsistent with the public interest, no longer qualifies for registration to dispense controlled substances under federal or state law and is subject to discipline pursuant to NRS 453.236(1) and NRS 453.241(1).

10. The pre-hearing suspension of Respondent's Certificate of Registration No. CS05851 pursuant to NRS 233B.127(3), NRS 453.241(3) and/or NRS 639.2107 is subject to review by the Board. *Barry v. Barchi*, 443 U.S. 55, 99 S. Ct. 2642 (1979); *Spiegel v. Ryan*, 946 F.2d 1435, 1439 (9th Cir. 1991).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of this respondent.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **RICHARD WASHINSKY, MD,** **Certificate of Registration No. CS06491,** **Respondent.**	**Case No. 19-232-CS-S** **ORDER ON SHOW CAUSE HEARING**

This matter came before the Nevada State Board of Pharmacy ("Board") at its regularly scheduled meeting on Wednesday, March 2, 2022, in Las Vegas, Nevada on an Order to Show Cause. Courtney K. Lee, Esq., General Counsel, appeared on behalf of the Board, and Respondent Richard Washinsky, MD ("Washinsky"), Certificate of Registration No. CS06491, appeared by and through counsel, Kevin Murphy, Esq. of Murphy Jones.

Evidence was submitted, including Dr. Washinsky's response letter through counsel dated October 26, 2021, and by testimonies of Board staff, Dave Jones, Compliance Coordinator, and Dr. Washinsky. Based upon the evidence/testimony provided, the Board determines that Dr. Washinsky violated paragraph 9(D) of the previous Board's Order filed on January 13, 2021 in case no. 19-232-CS-S, incorporated by reference. The Board found that Dr. Washinsky failed to check his myRx every six (6) months in 2020 and 2021 in violation of NRS 453.164(7), and that Dr. Washinsky failed to check PMP database for all patients, initially before prescribing controlled substances and/or every ninety (90) days in violation of NRS 639.23507, for whom he prescribed controlled substances pursuant to the Order to Show Cause, incorporated by reference. The Board orders the following additional or modified discipline as a result of the finding of non-compliance with the Board's Order dated January 13, 2021:

Exhibit C

A. Dr. Washinsky's Certificate of Registration No. CS06491 for controlled substances is hereby suspended immediately for a period of one-hundred eighty (180) days.

B. Dr. Washinsky shall be re-trained as a prescriber in the Prescription Monitoring Program ("PMP") pursuant to NRS 453.164.

C. Dr. Washinsky's previous probation period shall be extended to forty-eight (48) months beginning immediately.

D. Dr. Washinsky shall comply with all other non-modified provisions of the Board's January 13, 2021 Order in this matter.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **RICHARD WASHINSKY, MD,** **Certificate of Registration No. CS06491,** **Respondent.**	**Case Nos. 22-094-CS-S** **SECOND ORDER TO SHOW CAUSE**

1. On January 13, 2021, the Nevada State Board of Pharmacy ("Board") entered an Order pursuant to stipulation ("Order") with the Respondent, Richard Washinsky, MD ("Washinsky"), Certificate of Registration No. CS06491, in case no. 19-232. The stipulated Order contained certain admissions that evidence existed to establish a factual basis for the violations, including unlawful prescribing of controlled substances to patients while Respondent Washinsky was engaged in overseas travel, permitting an employee to access/utilize his credentials by providing blank prescription pads with Washinsky's pre-printed name and/or signature, and/or allowing staff to telephone prescriptions. The Board revoked the Certificate of Registration No. CS06491 of Respondent Washinsky, along with other penalties and fines. The revocation was stayed and the Respondent was placed on probation for two (2) years from the effective date of the signed Order.

2. On or about January 21, 2022, the Board's Executive Secretary issued an Order to Show Cause pursuant to NAC 639.965 for violation of the Board's January 13, 2021 Order because of Dr. Washinsky's additional violations while on probation in case no. 19-232, including failure to review his controlled substance prescriptions in the Prescription Monitoring Program ("PMP") at least once every six (6) months pursuant to NRS 453.164(7), failure to query the PMP initially and every 90 days for continuing controlled substance treatment in violation of NRS 639.23507.

3. On or about March 2, 2022, the hearing on the Show Cause Order occurred ("SC Order"). The Board found that these violations constituted failures to comply with state law, NRS

Exhibit D

453.164(7) and NRS 639.23507, regarding controlled substances pursuant to paragraph 9(D) of the January 13, 2021 Board's Order. The Board immediately suspended the controlled registration CS06491 for a period of one hundred eighty (180) days beginning immediately, required re-training as a prescriber in the PMP, extended probation to an additional forty-eight (48) months, and required compliance with all other non-modified provisions in the Board's January 13, 2021 Order.

4. On March 4, 2022, Respondent Washinsky prescribed controlled substance Morphine Sulfate 30 mg oral tablet, 120 tablets, a 30-day supply, for patient C.C. even though the Board ordered that his controlled substance registration be suspended immediately at the Board's first Order to Show Cause hearing on March 2, 2022. This was a clear violation of the Board's SC Order on March 2, 2022.

IT IS HEREBY ORDERED that Respondent Richard Washinsky, MD, Certificate of Registration No. CS06491, appear before the Board and show cause, for a second time, why Certificate of Registration No. CS06491 should not be subject to immediate revocation and/or other additional discipline pursuant to NRS 453.236(1), NRS 453.241(1), NRS 639.210, and/or NRS 639.255.

NEVADA STATE BOARD OF PHARMACY, Petitioner, v. STEPHEN DUBIN, MD, Certificate of Registration No. CS19164, Respondent.	CASE NO.: 20-020-CS-S **ANSWER AND NOTICE OF DEFENSE**

Respondent above named, in answer to the Notice of Intended Action and Accusation filed in the above-titled matter before the Nevada States Board of Pharmacy (the "Board"), declares:

1. That his objections to the Notice of Intended Action and Accusation as being incomplete or failing to state clearly the charges against him, is hereby interposed on the following grounds:

a. This action is barred by the doctrine of laches. The Board's Notice of Intended Action and Accusation addresses conduct that is alleged to have occurred in December 2018. The Board filed its Complaint on August 13, 2021, almost *three years* after the alleged conduct, without a valid excuse for such delay, as a result of which Dr. Dubin was prejudiced. Implicit in the Board's statutes (NRS 639.241, *et. seq.*) and its regulations (NAC 639.120, *et. seq.*) is an obligation to proceed promptly and fairly against Respondent. Because the Board did not promptly make a determination as to whether the Notice of Intended Action and Accusation would be filed against Dr. Dubin until approximately three years after the alleged conduct, it would be

inequitable and unjust to proceed.

b. The Board has unclean hands because it is engaging in selective and vindictive prosecution by proceeding against Respondent in bad faith and pursuant to a bad motive in retaliation for the United States Attorney's Office for the District of Nevada's ("USAO") decision to decline the referral for civil prosecution due to lack of evidence against Respondent.

c. Respondent steadfastly denies that he "pre-sign[ed], post-sign[ed], or allow[ed] staff to call in controlled substance schedule II prescriptions for patients without Dubin's dated and handwritten signature while Dubin was engaged in overseas travel," as alleged in the First, Second, and Third Causes of Action. The Notice of Intended Action and Accusation demonstrates a fundamental misunderstanding of the operative facts, as follows:

i. At no point did Dr. Dubin pre-sign, write or approve prescriptions while he was out of the country.

ii. Jireh Healthcare is a hospice provider. Respondent is the medical director. As the medical director, Respondent is the supervising physician for the mid-level providers who work there. They are the providers who are responsible for the actual home visits with the patients. They subsequently review their chart notes and prescriptions with Dr. Dubin, as appropriate. These providers make the initial decision as to whether a particular prescription is appropriate based on their first-hand encounter with the patient. If the treating provider determines that a prescription is warranted, the process is as follows: The provider presents or calls in the prescription to Trinity Pharmacy, Jireh's exclusive pharmacy. Trinity Pharmacy processes the prescription without further delay, in order to best treat hospice patients in need of medication. Trinity Pharmacy physically writes the prescription out on a pharmacy pad and has a courier return the prescription to Dr. Dubin at his medical practice for him to review and sign. If appropriate, he signs it and sends it back to Trinity Pharmacy for filling. *See* NAC 639.7105 and 739.711 (addressing electronic transmission of controlled substances, including NAC 639.711(1)(c) which expressly permits facsimile transmission of prescriptions for Schedule II controlled substances "for issuance to a patient enrolled in a program that provides hospice care . . .") Trinity Pharmacy is permitted fill any prescription within 14 days of the date of issue. NRS 453.431(4).

iii. It appears that the allegations in the Notice of Intended Action and Accusation rely entirely on the fill date listed in the Prescription Monitoring Program ("PMP") printout and not the actual prescriptions. The PMP for patients A.D., M.G., M.H. and D.B. reflects

a fill date when the prescription was called in by the mid-level hospice provider, and not when the prescription actually was signed by Dr. Dubin, which occurred when he reviewed (and approved) the prescriptions, upon his return from travel. This speaks to the process utilized by the hospice and exculpates Respondent, insofar as it demonstrates he did not pre-sign the any prescriptions. In each case, Trinity Pharmacy filled the prescriptions immediately after receiving the request.[1]

iv. In context, the Notice of Intended Action and Accusation relates to prescriptions written for hospice patients who are most in need of controlled substances to treat intractable pain and other conditions attendant to their terminal status. The prescriptions for Patients M.G. and D.B. for example, plainly state that these are hospice patients.

d. The purpose of the foregoing paragraphs is to place the Board on notice of Respondent's current legal objections to its Complaint. Respondent respectfully reserves the right to expand upon and brief these objections at the appropriate juncture, if necessary, and further reserves the right to raise such other defenses as further investigation and additional evidence dictates.

2. That, in answer to the Notice of Intended Action and Accusation, he admits, denies, and alleges as follows:

a. Respondent admits that the Board has jurisdiction over this matter.

b. Respondent admits the allegations in Paragraphs 2 and 3.

c. The allegations in Paragraph 4 are vague because they are not limited to a specific time frame. Because Respondent cannot respond adequately to these allegations, he denies them.

d. With regard to the allegations in Paragraph 5, Respondent admits that diversion investigators with the Drug Enforcement Administration filed a referral for civil prosecution with the USAO. After vetting the matter, including receiving a fulsome response from Respondent, the USAO *declined* the referral for civil prosecution.

e. Respondent admits the allegations in Paragraph 6.

f. With regard to the allegations in Paragraphs 7 through 9, Respondent denies

---

[1] To eliminate any doubt about the propriety of these prescriptions, Respondent would have – and subsequently did - authorize each of these prescriptions. They were the product of a *bona fide* patient encounter with a mid-level provider and were issued for a legitimate medical purpose by that provider acting in the usual course of their professional practice. *See, e.g.*, 21 C.F.R. § 1306.04(a) (purpose of issue of prescription).

that "Honey" or "Speedy" are his "agent or staff member." "Honey" and "Speedy" are mid-level providers employed by Jireh Healthcare.

g. Respondent is without sufficient knowledge to respond to the allegations in Paragraph 10, and, thus, denies the allegation on that basis.

h. With regard to the allegations in Paragraphs 11 through 13, Respondent denies that "Honey" or "Speedy" are his "agent or staff member." "Honey" and "Speedy" are mid-level providers employed by Jireh Healthcare.

i. The allegations in Paragraphs 14 - 25 contain conclusions of law for which no answer is required.

j. For the reasons set forth in his objections, and based on his admissions and denials of the allegations in the preceding paragraphs, Respondent denies the allegations in the First through Fourth Causes of Action.

k. I hereby declare, under penalty of perjury, that the foregoing Answer and Notice of Defense, and all facts therein stated, are true and correct to best of my knowledge.

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, Petitioner, v. STEPHEN DUBIN, MD, Certificate of Registration No. CS19164, Respondent.	CASE NO.: 20-020-CS-S ***AMENDED* ANSWER AND NOTICE OF DEFENSE**

Respondent above named, respectfully submits this amended answer to the Notice of Intended Action and Accusation filed in the above-titled matter before the Nevada States Board of Pharmacy (the "Board"). This amended answer is intended to take the place of, and otherwise supersede, Respondent's answer filed with the Board on September 3, 2021. Respondent declares:

1. That his objections to the Notice of Intended Action and Accusation as being incomplete or failing to state clearly the charges against him, is hereby interposed on the following grounds:

a. This action is barred by the doctrine of laches. The Board's Notice of Intended Action and Accusation addresses conduct that is alleged to have occurred in December 2018. The Board filed its Notice of Intended Action and Accusation on August 13, 2021, almost *three years* after the alleged conduct, without a valid excuse for such delay, as a result of which Dr. Dubin was prejudiced. Implicit in the Board's statutes (NRS 639.241, *et. seq.*) and its

regulations (NAC 639.120, *et. seq.*) is an obligation to proceed promptly and fairly against Respondent. Because the Board did not promptly make a determination as to whether the Notice of Intended Action and Accusation would be filed against Dr. Dubin until approximately three years after the alleged conduct, evidence favorable to Dr. Dubin's defense has been negatively affected, including the availability of documentary evidence and the erosion of witness memories, among other matters. Lacking good cause and undermining Respondent's ability to defend against the charges, it would be inequitable and unjust for the Board to proceed on these charges.

b. The Board has unclean hands because it is engaging in selective and vindictive prosecution by proceeding against Respondent in bad faith and pursuant to a bad motive in retaliation for the United States Attorney's Office for the District of Nevada's ("USAO") decision to decline the referral for civil prosecution due to lack of evidence against Respondent.

c. Respondent steadfastly denies that he "pre-sign[ed], post-sign[ed], or allow[ed] staff to call in controlled substance schedule II prescriptions for patients without Dubin's dated and handwritten signature while Dubin was engaged in overseas travel," as alleged in the First, Second, and Third Causes of Action. The Notice of Intended Action and Accusation demonstrates a fundamental misunderstanding of the operative facts, as follows:

i. At no point did Dr. Dubin pre-sign, post-sign, or approve prescriptions while he was out of the country.

ii. Jireh Healthcare is a hospice provider. Respondent is the medical director. At the time of the events in issue in the Notice of Intended Action and Accusation, Trinity Pharmacy served as Jireh's exclusive pharmacy. Trinity Pharmacy is permitted to fill any prescription within 14 days of the date of issue. NRS 453.431(4).

iii. It appears that the allegations in the Notice of Intended Action and Accusation rely entirely on the fill date listed in the Prescription Monitoring Program ("PMP") printout and not the actual prescriptions. The PMP for patients A.D., M.G., M.H. and D.B. reflects a fill date when the prescription was called in by the mid-level hospice provider.

iv. For the specific prescriptions at issue, however, Dr. Dubin was unaware they were being filled. He did not pre-sign, post-sign, or authorize Jireh staff to call them in to Trinity. In each case, Trinity Pharmacy appears to have filled the prescriptions immediately after receiving the request from the mid-level provider and did not seek or obtain authorization

from Dr. Dubin.[1] The face of the prescriptions do not reflect Dr. Dubin's actual signature, and appear to have been signed by someone else or left unsigned.

iv. In context, the Notice of Intended Action and Accusation relates to prescriptions written for hospice patients who are most in need of controlled substances to treat intractable pain and other conditions attendant to their terminal status. The prescriptions for Patients M.G. and D.B. for example, plainly state that these are hospice patients.

d. The purpose of the foregoing paragraphs is to place the Board on notice of Respondent's current legal objections to its Complaint. Respondent respectfully reserves the right to expand upon and brief these objections at the appropriate juncture, if necessary, and further reserves the right to raise such other defenses as further investigation and additional evidence dictates.

2. That, in answer to the Notice of Intended Action and Accusation, he admits, denies, and alleges as follows:

a. Respondent admits that the Board has jurisdiction over this matter.

b. Respondent admits the allegations in Paragraphs 2 and 3, but denies that Jireh's employees are his agents or staff members.

c. The allegations in Paragraph 4 are vague and overbroad because they are not limited to a specific time frame and fail to identify alleged patients. Because Respondent cannot respond adequately to these allegations, he denies them.

d. With regard to the allegations in Paragraph 5, Respondent admits that diversion investigators with the Drug Enforcement Administration filed a referral for civil prosecution with the USAO. After vetting the matter, including receiving a fulsome response from Respondent, the USAO *declined* the referral for civil prosecution.

e. Respondent admits the allegations in Paragraph 6.

f. With regard to the allegations in Paragraphs 7 through 9, Respondent denies that "Honey" or "Speedy" are his "agent or staff member." "Honey" and "Speedy" are mid-level providers employed by Jireh Healthcare. Respondent is without sufficient knowledge to respond to the remainder of the allegations in Paragraphs 7 through 9, and thus, denies the allegations on that basis.

---

[1] Nonetheless, Respondent would have authorized each of these prescriptions had he known about them because he believes they were appropriate for the conditions being treated.

g. Respondent is without sufficient knowledge to respond to the allegations in Paragraph 10, and, thus, denies the allegation on that basis.

h. With regard to the allegations in Paragraphs 11 through 13, Respondent denies that "Honey" or "Speedy" are his "agent or staff member." "Honey" and "Speedy" are mid-level providers employed by Jireh Healthcare. Respondent is without sufficient knowledge to respond to the remainder of the allegations in Paragraphs 11 through 13, and thus, denies the allegations on that basis.

i. The allegations in Paragraphs 14 - 25 contain conclusions of law for which no answer is required.

j. For the reasons set forth in his objections, and based on his admissions and denials of the allegations in the preceding paragraphs, Respondent denies the allegations in the First through Fourth Causes of Action.

k. I hereby declare, under penalty of perjury, that the foregoing Answer and Notice of Defense, and all facts therein stated, are true and correct to best of my knowledge.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **TRINITY PHARMACY,** **Pharmacy License No. PH03287,** **MA LOURDES JAUREGUI, RPH,** **Certificate of Registration No. 17035,** **Respondents.**	**CASE NOS. 19-240-PH-S** **19-240-RPH-S** **STIPULATION AND ORDER FOR RESPONDENT TRINITY PHARMACY ONLY**

Courtney K. Lee, General Counsel for Petitioner, the Nevada State Board of Pharmacy ("Board"), and Respondent Trinity Pharmacy ("Trinity"), Pharmacy License No. PH03287, by and through counsel, Lyn Beggs, Esq., **HEREBY STIPULATE AND AGREE THAT**:

1. The Board has jurisdiction over Respondent Trinity and this matter.

2. On or about August 13, 2021, Board Staff served Respondent Trinity with the Notice of Intended Action and Accusation ("Accusation") on file in this matter together with the Statement to Respondent and Notice of Hearing.

3. On or about September 22, 2021, Respondent Trinity filed its Answer and Notice of Defense through retained counsel, Lyn Beggs, Esq.

4. Respondent is aware of the right to seek the advice of counsel in this matter and obtained the advice of counsel prior to entering this Stipulation.

5. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, its right to reconsideration, its right to appeal, and any and all other rights which may be accorded pursuant to NRS Chapter 233B, Nevada Administrative Procedure Act, NRS Chapter 622A, Administrative Procedure Before Certain Regulatory Bodies, and NRS Chapter 639, Nevada Pharmacy Act.

6. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondent has failed to comply with the provisions of this Stipulation, Respondent hereby freely and voluntarily waive its rights to a hearing, reconsideration, appeal and any and all other rights related to this action that may be accorded by NRS Chapter 233B, Nevada Administrative Procedure Act, NRS Chapter 622A, Administrative Procedure Before Certain Regulatory Bodies, and NRS Chapter 639, Nevada Pharmacy Act.

7. Respondent admits that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for certain of the violations alleged in the Accusation, that:

A. Respondent Jauregui was the managing pharmacist of Trinity Pharmacy during all alleged and relevant timeframes. During an annual Board inspection of Trinity Pharmacy on or about September 4, 2019, a Board inspector discovered unsigned faxed prescriptions for schedule II controlled substances.

B. Upon further Board investigation, it was discovered from June 10, 2020 to September 28, 2020, forty-two (42) controlled substance schedule II ("CII") prescriptions ("Prescriptions") were dispensed and/or delivered to hospice patients without valid practitioners' handwritten signatures ("Practitioners"). Jauregui's failure to obtain handwritten signatures of Practitioners, and/or verifying the accuracy and completeness of CII Prescriptions violated NRS 453.381(8); NAC 453.420; NAC 453.440; NAC 453.450; NAC 639.945(1); 21 CFR § 1306.11, which also constituted unprofessional conduct.

C. The 42 CII Prescriptions appeared to have been received and notated by Respondent Jauregui as oral orders. However, none of the Prescriptions stated "Authorization for Emergency Dispensing" nor did any of the prescriptions meet legal

requirements to qualify as dispensing CIIs by oral authorization in an emergency. Jauregui's failure to notate the prescriptions, satisfy the requirements of an oral emergency prescription, including verifying that the telephoned prescription was from the prescribing practitioner, violated NAC 453.420, and NAC 453.440.

D. As the owner/operator of a pharmacy, Trinity is responsible for the violations of its employees, including its managing pharmacist, pursuant to NAC 639.702, and/or NAC 639.945(2).

8. These violations are plead with particularity in the Accusation, and are grounds for disciplinary action pursuant to NRS 639.210(11), (12), and/or NRS 639.255.

9. In order to resolve this matter without incurring any further costs or the expense associated with a hearing, the Board and Respondent Trinity stipulate to the following. Trinity is placed on probation for a period of one (1) year subject to the following conditions and penalties:

A. Respondent shall accept this Stipulation and Order as a public reprimand regarding its duties and responsibilities as a licensed pharmacy;

B. Respondent shall pay a fine of Eight-Thousand Four-Hundred Dollars ($8,400.00) for the violations;

C. Respondent shall pay One Thousand Dollars ($1,000.00) to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter;

D. Respondent shall successfully pass quarterly inspections to be completed by Board's staff at Trinity's expense~~for~~ one (1) year; (CC)

E. Respondent shall establish policies and procedures regarding emergency oral controlled substance prescriptions in compliance with federal and state law, establish

policies and procedures regarding faxed controlled substance prescriptions, and present to Board's staff for approval within thirty (30) days of entry of this Order; and

Upon successful completion of probation, Respondent Trinity's Pharmacy License No. PH03287, will be fully restored.

10. Any failure by Respondent Trinity to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing the non-compliant Respondent to appear before the Board at the next regularly-scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may impose additional discipline upon the non-compliant Respondent consistent with the provisions of NRS Chapter 639.

11. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on October 13, 2021. Respondent will appear telephonically or *via* Zoom at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent or counsel are not present at the meeting.

12. The Board has discretion to accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 USC § 1396r-2 and 45 CFR Part 60.

13. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the merits of this matter may be heard by the Board on the same day or at a later date. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

14. Upon approval of this Stipulation by the Board, Respondent shall pay the fines agreed to herein by *cashier's check* or *certified check* or *money order* made payable to "State of

Nevada, Office of the Treasurer," to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within thirty (30) days of entry of this Order.

15. Upon approval of this Stipulation by the Board, Respondent shall pay the attorney's fees and costs agreed to herein by *cashier's check* or *certified check* or *money order* made payable to "Nevada State Board of Pharmacy," to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within thirty (30) days of entry of this Order.

16. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release one another from any and all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order.

Respondent has fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and has freely and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

Jauregui's failure to obtain handwritten signatures of Practitioners, and/or verifying the accuracy and completeness of CII Prescriptions violated NRS 453.381(8); NAC 453.420; NAC 453.440; NAC 453.450; NAC 639.945(1); 21 CFR § 1306.11, which also constituted unprofessional conduct.

C. The 42 CII Prescriptions appeared to have been received and notated by Respondent Jauregui as oral orders. However, none of the Prescriptions stated "Authorization for Emergency Dispensing" nor did any of the prescriptions meet legal requirements to qualify as dispensing CIIs by oral authorization in an emergency. Jauregui's failure to notate the prescriptions, satisfy the requirements of an oral emergency prescription, including verifying that the telephoned prescription was from the prescribing practitioner, violated NAC 453.420, and NAC 453.440.

8. These violations are plead with particularity in the Accusation, and are grounds for disciplinary action pursuant to NRS 453.236, NRS 453.241, NRS 639.210(4), (11), (12), and (15), and/or NRS 639.255.

9. In order to resolve this matter without incurring any further costs or the expense associated with a hearing, the Board and Respondent Jauregui stipulate to the following. Respondent Jauregui is placed on probation for a period of one (1) year subject to the following conditions and penalties:

A. Respondent shall accept this Stipulation and Order as a public reprimand regarding her duties and responsibilities as a registered pharmacist;

B. Respondent shall pay a fine of Four-Thousand Two Hundred Dollars ($4,200.00) for the violations;

C. Respondent shall pay Five-Hundred Dollars ($500.00) to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter;

D. Respondent shall complete an additional four (4) hours of continuing education within ninety (90) days of this Order regarding validation of controlled substance prescriptions; and

E. Respondent shall comply with all federal and state statutes and regulations regarding controlled substances and dangerous drugs, and have no additional charges/violations filed against her while on probation.

Upon successful completion of probation, Respondent Jauregui's Certificate of Registration No. 17035 will be fully restored.

10. Any failure by Respondent Jauregui to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing the non-compliant Respondent to appear before the Board at the next regularly-scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may impose additional discipline upon the non-compliant Respondent consistent with the provisions of NRS Chapter 639.

11. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on October 13, 2021. Respondent will appear telephonically or *via* Zoom at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent or counsel are not present at the meeting.

12. The Board has discretion to accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 USC § 1396r–2 and 45 CFR Part 60.

13. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the

merits of this matter may be heard by the Board on the same day or at a later date. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

14. Upon approval of this Stipulation by the Board, Respondent shall pay the fines agreed to herein by *cashier's check* or *certified check* or *money order* made payable to "State of Nevada, Office of the Treasurer," to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within thirty (30) days of entry of this Order.

15. Upon approval of this Stipulation by the Board, Respondent shall pay the attorney's fees and costs agreed to herein by *cashier's check* or *certified check* or *money order* made payable to "Nevada State Board of Pharmacy," to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within thirty (30) days of entry of this Order.

16. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release one another from any and all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order.

Respondent has fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and has freely and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

DECLARATION OF MA LOURDES JAUREGUI, RPH

I, MA LOURDES JAUREGUI, declares under penalty of perjury that the following assertions are true and correct of my own personal knowledge unless stated upon information and belief:

1. I was the managing pharmacist of Trinity Pharmacy ("Trinity") located at 2797 S. Maryland Parkway, Suite 28, Las Vegas, Nevada. I am writing this declaration because I am unavailable for the scheduled hearing for alleged violations against Stephen Dubin, MD ("Dubin") regarding the Nevada State Board of Pharmacy's ("Board") case number 20-020.

2. I have personal knowledge of all matters stated herein and, if called as a witness, could and would testify competently thereto, except as to those matters stated upon information and belief, and as to those matters, I believe them to be true.

3. On or about September 10, 2020, the Board's investigator, Dena McClish, requested certain prescription records from Trinity.

4. On or about September 10, 2020, I forwarded the requested prescription records, which included the following:

   a) True and correct copies of Trinity's (redacted) prescription records for patient A.D. on December 18, 2018 are attached hereto as Exhibit "1". However, I was not the pharmacist who filled this particular prescription. It was filled by a floater pharmacist.

   b) True and correct copies of Trinity's (redacted) prescription records for patient M.G. on December 19, 2018 are attached hereto as Exhibit "2".

   c) True and correct copies of Trinity's (redacted) prescription records for patient M.H. on December 19, 2018 are attached hereto as Exhibit "3".

d) True and correct copies of Trinity's (redacted) prescription records for patient D.B. on December 20, 2018 are attached hereto as Exhibit "4".

5. Exhibit "1" contains a prescription for patient A.D. which was telephoned by "Honey" on behalf of Dr. Dubin. "Honey" indicated that the prescription was authorized by Dr. Dubin. I did not speak with Dr. Dubin himself. The prescription for patient A.D. was taken by the floater pharmacist on December 18, 2018 for alprazolam 1 mg tablet. The alprazolam was dispensed on December 21, 2018 at 10:54 a.m. Dr. Dubin never signed this prescription.

6. Exhibit "2" contains a prescription for patient M.G. which was telephoned by "Speedy" at 4:00 p.m. on December 19, 2018 on behalf of Dr. Dubin. "Speedy" indicated that the prescription was authorized by Dr. Dubin. I did not speak with Dr. Dubin himself. The prescription for patient M.G. was written in my handwriting for Percocet 10/325 mg, 60 tablets for a 15 day supply. The prescription was dispensed on December 21, 2018 at 10:55 a.m. On the prescription signature information, the patient or the guardian signed for receipt of the prescription. Dr. Dubin signed this prescription within 72 hours of December 19, 2018, but is undated.

7. Exhibit "3" contains a prescription for patient M.H. which was telephoned by "Speedy" at 1:00 p.m. on December 19, 2018. "Speedy" indicated that the prescription was authorized by Dr. Dubin. I did not speak with Dr. Dubin himself. The prescription for patient M.H. was for lorazepam 0.5 mg tablet, 45 tablets. The prescription was dispensed on December 21, 2018 at 10:55 a.m. On the prescription signature information, the patient or the guardian signed for receipt of the prescription. Dr. Dubin never signed this prescription.

8. Exhibit "4" contains a prescription for patient D.B. which was telephoned by "Honey" at 4:00 p.m. on December 20, 2018. "Honey" indicated that the prescription was authorized by Dr. Dubin. I did not speak with Dr. Dubin himself. The prescription for patient D.B. was for morphine sulfate OS 20mg/ml, quantity 30. The prescription was dispensed on December 20, 2018 at 5:58 p.m. On the prescription signature information, the patient or the guardian signed for receipt of the prescription. Dr. Dubin signed this prescription within 72 hours of December 20, 2018, but is undated.
9. Exhibit "4" also contains a prescription for patient D.B. which was telephoned by "Honey" at 4:00 p.m. on December 20, 2018. "Honey" indicated that the prescription was authorized by Dr. Dubin. I did not speak with Dr. Dubin himself. The prescription for patient D.B. was for lorazepam O/C, quantity 30. The prescription was dispensed on December 20, 2018 at 5:58 p.m. Dr. Dubin never signed this prescription.
10. My understanding was that the prescriptions for hospice patients from Jireh Healthcare were all considered emergency oral prescriptions. However, I did not notate on the telephoned or oral prescriptions, "Authorization for Emergency Dispensing" nor did I speak with Dr. Dubin directly. I understood that I did have to receive a signed prescription back from the practitioner within 72 hours after the telephoned prescription, which admittedly was not always accomplished.

Further, Your Declarant Sayeth Naught.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter because at the time of the events alleged herein, Respondent Abdel M. Khalek, MD (Khalek), held a controlled substance registration, Certificate of Registration No. CS19745, and dispensing practitioner registration, Certificate of Registration No. PD00722; Respondent Robert Chancellor, MD (Chancellor), held a controlled substance registration, Certificate of Registration No. CS22616, and dispensing practitioner registration, Certificate of Registration No. PD27416; and Lindsay Hoffman, PA-C (Hoffman), held a controlled substance registration, Certificate of Registration No. CS18262, and dispensing practitioner registration, Certificate of Registration No. PD00177, all issued by the Board.

FACTUAL ALLEGATIONS

2. Vinay Kumar Bararia, MD (Bararia) was not registered with the Board at the time of the events alleged herein.

3. Bararia voluntarily surrendered his license to practice medicine, License No. 11355, to the Nevada State Board of Medical Examiners (NSBME) on March 8, 2013, and was sentenced in federal court for distribution of controlled substances in September 2014.

4. Bararia has owned and operated Nevada Health Services, LLC aka Trimcare (Trimcare), located at 5375 South Fort Apache Road, Suites 102 and 103, in Las Vegas, since August 2018.

5. Khalek co-owned and/or was employed at Trimcare from October 2018 to April 2019.

6. Chancellor co-owned and/or was employed by Trimcare from November 2018 to the present.

7. Hoffman was employed by Trimcare from August 2018 to present.

8. Ageless Aesthetics (Ageless Aesthetics), an unnamed third party, is a medical spa that operates at 5375 South Fort Apache Road, Suite 101, Las Vegas, Nevada 89148, next door to Trimcare, for which Khalek was the medical director from approximately October 2018 to April 2019.

9. Investigators from the Board, the Nevada State Board of Medical Examiners (BME) and the Drug Enforcement Administration (DEA) conducted a joint investigation of Trimcare and found evidence of misconduct and violations involving the unlawful possession, administration, prescribing and dispensing of controlled substances and/or dangerous drugs.

10. Khalek, Chancellor and Hoffman permitted Bararia, who was not a licensed practitioner, in the course of operating Trimcare to purchase, access, store, possess, administer, furnish, prescribe and/or dispense controlled substances and dangerous drugs under another

practitioner's name, without that practitioner having a bona fide therapeutic relationship with any such patient or the practitioner being present at the time the prescription was dispensed, and/or otherwise falsely represent himself as a practitioner entitled to write prescriptions in this state.

11. Khalek unlawfully prescribed controlled substances and/or dangerous drugs, including, without limitation, Testosterone, Phentermine, Phendimetrazine, Topamax, Botox, and Juvederm, for at least two-hundred ninety-eight (298) patients with whom he did not have a bona fide therapeutic relationship from September 2018 to April 2019 by pre-signing prescriptions, providing his log-on information to e-scribing systems to Bararia, and/or failing to secure his secondary authenticator for e-scribing CII medications.

12. Chancellor unlawfully prescribed controlled substances and/or dangerous drugs, including, without limitation, Adderall, Phentermine, and Topamax, for at least ten (10) patients with whom he did not have a bona fide therapeutic relationship from November 2018 to present by pre-signing prescriptions, his log-on information to e-scribing systems to Bararia, and/or failing to secure his secondary authenticator for e-scribing CII medications.

13. Hoffman unlawfully prescribed controlled substances/dangerous drugs, including, but not limited to, Phentermine, and Topamax for at least two (2) patients with whom she did not have a bona fide therapeutic relationship in April 2019 by pre-signing prescriptions.

14. Khalek, Chancellor and Hoffman permitted access of their inventory of controlled substances and dangerous drugs to unlicensed employees of Trimcare and/or Ageless Aesthetics.

15. Khalek, Chancellor and Hoffman failed to issue a written prescription for each medication dispensed, failed to verify medications for accuracy prior to dispensing, failed to maintain complete, accurate and readily retrievable records of all controlled substances and dangerous drugs purchased and dispensed, failed to inventory controlled substances at least once every two (2) years, failed to properly store and maintain the inventory, failed to maintain the

security of the inventory from unauthorized access, and failed to segregate and/or dispose of adulterated and/or expired dangerous drugs.

16. Chancellor and Hoffman had possession of pre-drawn, unlabeled syringes containing an unidentified dangerous drug.

17. On or about July 7, 2020, Board staff served Bararia with an order pursuant to NRS 639.2895(1) to immediately cease and desist possessing, administering, prescribing and/or dispensing controlled substances and dangerous drugs for Nevada patients from Trimcare.

CONCLUSIONS OF LAW

Based on the forgoing findings of fact, the Board concludes as a matter of law:

1. The Board has jurisdiction over this matter and this Respondent, because at the time of the events herein, Respondent held a controlled substance registration and a dispensing practitioner registration, both issued by the Board.

2. The applicable law in this matter is as follows:

A. A practitioner must hold a license to practice his or her profession in this State and be registered with both the DEA and the Board to possess, administer, prescribe and/or otherwise dispense any controlled substance. NRS 453.226(1); 21 U.S.C. § 822(a)(2); 21 U.S.C. § 823(f); 21 CFR § 1306.03.

B. A practitioner must hold a license to practice his or her profession in this State to possess, administer and any dangerous drug, and must be registered with the Board to dispense a dangerous drug. NRS 454.213; NRS 454.215; NRS 454.221; NRS 454.321; NRS 454.356; NRS 639.100; NRS 639.23505; NAC 639.742.

C. The surrender, revocation or a suspension that has not been stayed of any certificate, license or registration of a practitioner, as defined in NRS 453.126, 454.00958 or 639.0125, by a licensing board or the Drug Enforcement Administration operates as an immediate suspension of a certificate, license, registration or permit issued by the Board pursuant to NRS chapters 453, 454 or 639 to possess, administer, prescribe or dispense drugs. NRS 639.2107.

D. Failure to file a Notice of Defense constitutes a waiver of the respondent's right to a hearing. NRS 639.244.

E. If a respondent fails to appear at a scheduled hearing and the Board finds that the respondent was given sufficient legal notice of the hearing, it may accept the allegations as true. NRS 622A.350.

3. By surrendering his DEA Certificate of Registration No. FK2904793 for cause, Respondent has admitted to failing to comply with federal requirements pertaining to controlled substances, has committed acts that render his registration to dispense controlled substances inconsistent with the public interest, is no longer authorized to possess, administer, prescribe or dispense controlled substances under federal or state law, and his Certificate of Registration Nos. CS19745 and PD00722 are subject to revocation pursuant to NRS 453.236(1), NRS 453.241(1), NRS 639.210(11) and (12) and/or NRS 639.255(1).

4. Due to the revocation for cause of his License No. 6899 by the NSBME, Respondent is no longer a licensed practitioner qualified for registration to possess, administer, prescribe and/or otherwise dispense controlled substances or dangerous drugs under federal or state law, has committed acts that render his registration to dispense controlled substances or dangerous drugs inconsistent with the public interest, and his Certificate of Registration Nos. CS19745 and PD00722 are subject to revocation pursuant to NRS 453.236(1), NRS 453.241(1), NRS 639.210(11) and (12) and/or NRS 639.255(1).

5. Board staff satisfied the notice and service requirements of NRS 233B.127(3), NRS 639.242 and NRS 639.245, and Respondent was given sufficient legal notice of the hearing.

ORDER

THEREFORE, THE BOARD HEREBY ORDERS AS FOLLOWS:

1. The certificates of registration of Respondent Abdel M. Khalek, MD, Certificate of Registration Nos. CS19745, and PD00722, are hereby revoked pursuant to NRS 453.241(l)(b).

2. Respondent may not possess (except pursuant to the lawful order of a practitioner), administer, prescribe or dispense a controlled substance until he has petitioned the Board for reinstatement pursuant to NRS 639.257 and the Board reinstates his certificates of registration.

3. Pursuant to NRS 622A.410(1) and 639.257(1), Respondent may not petition for reinstatement of his certificates of registration for a period of two (2) years from the effective date of this Order.

4. In the event Respondent applies for reinstatement of his certificates of registration, or applies for any other certificate, license or permit with the Board, he shall appear before the Board to answer questions and give testimony regarding his application, his compliance with this Order, and the facts and circumstances underlying this matter.

5. Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may impose additional discipline upon Respondent not inconsistent with the provisions of NRS Chapter 453 and Chapter 639.

6. This Order constitutes a final decision in a contested case and a public record pursuant to NRS 639.255(5), and shall be reported to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r–2 and 45 CFR Part 60.

7. This Order is effective immediately.

IT IS SO ORDERED.

Please read carefully and retain; it contains important information about your exclusion

You are excluded from participation in any capacity in the Medicare, Medicaid, and all Federal health care programs as defined in section 42 U.S.C. 1320a-7b(f) of the Social Security Act.

This exclusion significantly limits your ability to work in any capacity in the health care field in the United States. No payment will be made by any Federal health care program (such as Medicare, Medicaid, Veterans Administration, TRICARE, the Military Direct Care System, etc.) for any items or services furnished, ordered, or prescribed by you in any capacity. For example, you are prohibited from submitting or causing claims to be submitted to Federal health care programs for items or services which you provide, and you are also prohibited from being employed to provide items or services which are billed to a Federal health care program. Such items or services could include administrative, clerical, and other activities that do not directly involve patient care or the provision of any health care related services.

An excluded person cannot be employed by a provider to perform functions paid for, in whole or in part, by any Federal health care program. Generally speaking, with rare exceptions, you may not be employed by a hospital, nursing home, or any other institutional provider that participates in Federal health care programs.

This exclusion does not affect your rights or the rights of your family members to collect benefits to which you or they may be entitled as a beneficiary under any Federal program such as Medicare, Medicaid, or Social Security.

Under 42 U.S.C. 1320a-7(a)(1)(D), the Office of Inspector General (OIG) is required to notify all applicable State agencies of your exclusion, and they are required to exclude you for the same period of time. The OIG's exclusion is in addition to any sanction an individual State or other Federal agency may impose under its own authority. Notice will be provided to the public and other parties in accordance with 42 U.S.C. 1320a-7(d) and (e).

Any service you provide is a non-covered service. Therefore, notwithstanding 42 U.S.C. 1395w-4(g)(4), you cannot submit claims or cause claims to be submitted for payment under any Federal health care program. Violations of the conditions of your exclusion may subject you to criminal prosecution and/or the imposition of civil monetary penalties and the denial of your reinstatement to the programs. See 42 U.S.C. 1320a-7a(a)(1)(D) and 42 C.F.R. 1001.9002(g)(2).

YOUR REINSTATEMENT IS NOT AUTOMATIC. You will not be reinstated at the conclusion of the minimum period of exclusion, or anytime thereafter, **UNLESS YOU APPLY TO THE OIG AND ARE GRANTED REINSTATEMENT** to the Medicare, Medicaid, and all Federal health care programs under the provisions of 42 U.S.C. 1320a-7(g) and 42 C.F.R. 1001.3001-3005. If you were excluded because you lost your license, you may not apply for reinstatement until your license has been restored by the licensing board or agency which originally took the disciplinary action against you. A request for reinstatement may be made to the OIG no earlier than 90 days prior to the expiration of the minimum period of exclusion. The request must be made in writing and should be sent to the Director, Exclusions Branch, Office of Investigations, P.O. Box 23871, Washington, DC 20026. Upon receipt of the request, the OIG will notify you of the information and documentation it requires to reach a decision on your reinstatement.

Obtaining a license, staying in another State, or obtaining a provider number from a Medicare contractor, a State agency, or a Federal health care program does not relieve your obligation to participate in these programs.

HOW TO APPEAL YOUR EXCLUSION

If you disagree with this action, you may request a hearing before an administrative law judge (ALJ). You may file a request for a hearing before an ALJ only on the issues of: (i) whether the Inspector General has a basis for the imposition of the sanction, and/or (ii) whether the length of exclusion is unreasonable.

A request for hearing must be made in writing within 60 days of receiving the OIG's notice of exclusion. The date you receive the Inspector General's notice of exclusion will be presumed to be five (5) days after the date of such notice unless there is a reasonable showing to the contrary.

Your request for hearing must be accompanied by a copy of the Inspector General's notice of exclusion, a statement as to the specific issues or findings with which you disagree, along with the basis for your contention that the specific issues and/or findings are incorrect.

Your request for hearing should be filed with the Departmental Appeals Board electronic filing system website (DAB E-File) at https://dab.efile.hhs.gov. To file a new appeal using DAB E-File, you must first register a new account, by: (1) clicking "Register" on the DAB E-File home page; (2) entering the information requested on the "Register New Account" form; then (3) clicking "Register Account" at the bottom of the form. If you have more than one representative, each representative must register separately to use DAB E-File on your behalf.

The e-mail address and password provided during registration must be entered on the login screen https://dab.efile.hhs.gov/login to access DAB E-File. A Registered User's access to DAB E-File is restricted to the appeals for which he or she is a party or authorized representative. Once registered, you may file your appeal by:

- Clicking the "File New Appeal" link on the "Manage Existing Appeals" screen, then clicking "Civil Remedies Division" on the "File New Appeal" screen; and
- Entering and uploading the requested information and documents on the "File New Appeal – Civil Remedies Division" form.

All documents must be submitted in Portable Document Format ("PDF"). Any document, including a request for hearing, will be deemed to have been filed on a given day, if it is uploaded to DAB E-File on or before 11:59 p.m. Eastern Standard Time of that day. A party that files a request for hearing via DAB E-File will be deemed to have consented to accept electronic service of appeal-related documents that OIG files, or CRD issues on behalf of the Administrative Law Judge, via DAB E-File. Correspondingly, OIG will also be deemed to have consented to electronic service. More detailed instructions on DAB E-File for CRD cases can be found on the link to CRD E-File Procedures on the File New Appeal Screen for CRD appeals.

In the event you are unable to file a hearing request using the DAB E-File system, you may submit all of the required information by mail to:

The subject identified above is being excluded from participation in any capacity in the Medicare, Medicaid, and all Federal health care programs as defined in section 1128B(f) of the Social Security Act (Act). These actions are effective 20 days from the date of this letter, and are the result of a felony conviction as defined in section 1128(i) (42 U.S.C. 1320a-7(i)), in the United States District Court, District of Nevada, of a criminal offense related to the unlawful manufacture, distribution, prescription, or dispensing of a controlled substance as defined under Federal or State law. This applies to any individual or entity that is, or has ever been, a health care practitioner, provider, or supplier; holds a direct or indirect ownership or control interest (as defined in section 1124(a)(3) of the Act) in an entity that is a health care provider or supplier or is, or has ever been, an officer, director, agent or managing employee (as defined in section 1126(b) of the Act) of such an entity; or is, or has ever been, employed in any capacity in the health care industry.

Section 1128(e) of the Act requires that the appropriate licensing or certification authority be notified of such an exclusion, requested to make appropriate investigations and invoke sanctions in accordance with State law and policy, and asked to inform the Inspector General of this Department with respect to any actions taken in response to this request.

Accordingly, if you have not already done so, we request you to make appropriate investigations and invoke sanctions pursuant to applicable State law and policy. We also ask that you fully and currently inform us with respect to any action taken. The information to be supplied should be sent to the U.S. Department of Health and Human Services, Office of Inspector General, ATTN: Exclusions Staff, P.O. Box 23871, Washington, D.C. 20026.

Vinay Kumar Bararia,
(OI File No.: H-14-4-1075-9),

Petitioner,

v.

The Inspector General

Docket No. C-15-1108

Decision No. CR3863

Date: May 14, 2015

DECISION

I sustain the determination of the Inspector General (I.G.) to exclude Petitioner, Vinay Kumar Bararia, from participating in Medicare and other federally funded health care programs for a period of at least ten years.

I. Background

The I.G. excluded Petitioner, a physician, for a minimum period of ten years pursuant to the requirements of section 1128(a)(4) of the Social Security Act (Act). This section mandates the exclusion of any individual who is convicted of a felony occurring after August 21, 1996, relating to the unlawful manufacture, distribution, prescription, or dispensing of a controlled substance. The I.G. based the minimum ten-year exclusion period on the presence of certain aggravating factors that I shall describe.

Petitioner requested a hearing. The I.G. filed a brief and a reply brief, plus exhibits that are identified as I.G. Ex. 1 – I.G. Ex. 7. Petitioner filed a brief plus two exhibits. I identify these exhibits as P. Ex. 1 and P. Ex. 2. I receive the parties' exhibits into the

record. Neither party requested that I convene a hearing in person and so I am deciding this case based on the parties' written filings.

II. Issues, Findings of Fact and Conclusions of Law

A. Issues

The issues are whether: the I.G. is mandated to exclude Petitioner; and, the ten-year minimum exclusion is reasonable.

B. Findings of Fact and Conclusions of Law

There is no dispute as to the I.G.'s mandate to exclude Petitioner. In his brief Petitioner admits that he was convicted of a felony as is described at section 1128(a)(4) of the Act. Petitioner's Brief at 1. Indeed, the evidence establishes that Petitioner was convicted of such an offense. On December 18, 2013, Petitioner pled guilty to a single felony offense under federal law consisting of unlawful distribution of a controlled substance. I.G. Ex. 5. In pleading guilty Petitioner explicitly admitted to selling unlawfully 500 hydrocodone pills (hydrocodone is a controlled substance) to an agent of the United States Drug Enforcement Administration. *Id.* at 4. The crime of which Petitioner was convicted falls squarely within the reach of section 1128(a)(4). It is a felony committed after August 21, 1996, consisting of the unlawful distribution of a controlled substance.

All that is left in dispute is whether the minimum ten-year exclusion imposed by the I.G. is reasonable. Exclusions imposed pursuant to section 1128(a) of the Act must be for a minimum period of five years. Act § 1128(c)(3)(B). Here, the I.G. opted to exclude for a term that is longer than the minimum period.

The I.G. has discretion to do so where there is evidence that proves that an excluded individual is so untrustworthy as to necessitate an exclusion that is for a longer period than the five-year statutory minimum. Evidence of untrustworthiness is admissible if it relates to one of the aggravating factors that is described at 42 C.F.R. § 1001.102(b).

In this case the I.G. asserts the presence of two aggravating factors. First, Petitioner was sentenced to a period of incarceration. 42 C.F.R. § 1001.102(b)(5). He was sentenced to 44 months' imprisonment. I.G. Ex. 2. Second, Petitioner was subject to another adverse action by a State government agency based on the same facts and circumstances that are the basis for his exclusion. 42 C.F.R. § 1001.102(b)(9). Petitioner voluntarily surrendered his license to practice medicine in the State of Nevada on March 13, 2013, after the Investigative Committee of the Nevada State Board of Medical Examiners (Nevada Board) had suspended his license. I.G. Exs. 6, 7. In suspending his license the Nevada Board cited Petitioner's "blatant violation" of federal laws regulating controlled substances. I.G. Ex. 6 at 2.

Evidence relating to the two aggravating factors is sufficient to justify a ten-year exclusion because it establishes Petitioner to be highly untrustworthy. Most damaging is evidence cited by the Nevada Board, which found that Petitioner had engaged in repeated unlawful sales of controlled substances. I.G. Ex. 6 at 2. This undisputed evidence proves that Petitioner was systematically selling controlled substances unlawfully. Moreover, the lengthy term of incarceration that the sentencing judge imposed on Petitioner – 44 months – is strong evidence of his untrustworthiness.

Evidence of aggravation may be offset by evidence of mitigation if it relates to one of the factors set forth at 42 C.F.R. § 1001.102(c). Petitioner argues that there is mitigating evidence in this case. I have examined Petitioner's arguments and the evidence that he offered in support, and I find no evidence relating to one of the regulatory mitigating factors.

Petitioner argues that a ten-year exclusion will have a devastating effect on him, personally, as well as on his family. That is not permissible mitigating evidence. The fact that Petitioner and his family may be affected personally by his exclusion simply cannot be considered in deciding whether the exclusion is reasonable. Adverse personal impact is not a mitigating factor nor should it be. It is likely that any period of exclusion may have an adverse financial impact on the excluded individual. But, that is the collateral consequence of a remedy that is designed to protect programs and their beneficiaries from untrustworthy individuals.

Petitioner also suggests that his culpability is diminished in this case by virtue of the fact that he suffers from a mental illness. Petitioner's Request for Hearing; Petitioner's Brief at 3. To that end, he offered two exhibits consisting of psychiatric evaluations of his mental state that discuss Petitioner's bipolar disorder. P. Exs. 1, 2.

The regulations governing exclusions recognize that a mitigating factor may exist where the sentencing judge determines that the excluded individual's culpability is reduced by virtue of mental illness. 42 C.F.R. § 1001.102(c)(2). The finding of diminished culpability must be memorialized in the record of the sentencing proceeding. *Id.* Petitioner has not offered evidence to prove that the sentencing judge in his case made such a finding. I cannot find the presence of a mitigating factor in the absence of such evidence. Indeed, what evidence exists suggests that the judge did not find diminished culpability. As I.G.'s counsel notes in her reply brief, the sentencing judge apparently denied Petitioner's argument of diminished mental capacity. I.G.'s Reply Brief at 4.

Dear Inspector McClish,

I wanted to respond to let you know that this hasn't come up with any governing entity in the twelve years I have been a Designated Rep. for Calvin Scott. We are currently researching this and although we are not required to have a DEA Power of Atty. (we only carry C IIIN and CIV) we realize that further due diligence on this issue is necessary. I am in the process of writing a new policy and procedure for this and creating a form for our clinics/physicians to sign off on. I will forward these to you when completed.

Best regards,

Laura Phillips

Subject: RE: Case #19-003

Thank you ma'am. In response to #1, I would ask per what regulation/law, etc is the clinic/practice manager granted access to a physician's license simply by employing them? Please don't get me wrong, I am simply trying to understand this. Anyone can print a copy of a physician's license off the applicable State Board's website so how are you assured that the physician has actually given permission/authorization or even works at that particular clinic? (especially as in this case everything is paid for by an unlicensed individual).

Hello Inspector McClish,

I will try to best answer your questions here:

1. The software set up and dispensing forms are commonly signed by the practice manager or clinic owner. They employ the physician and are granted access to their license(s). I do not have a document signed by Dr. Khalek but he has authorized the clinic to use his name and DEA license by providing the licenses to him. The clinic and/or licensed physician are required to let us know of any changes, as we wouldn't be able to know otherwise.
2. Connie is Consuelo Sanchez.
3. The dispensing software is hosted by MD Scripts and specific to Calvin Scott however this clinic has the majority of their medication provided by vendors other than us. We provider them with the medications on the invoices, which is like a total. The clinic would be able to provide you with the print out of dispenses for the past 6 months on their end. Much of that information is protected under HIPPA and I wouldn't be able to provide it.

Best regards,

Laura Phillips

Subject: RE: Case #19-003

Thank you Ms. Phillips. In looking at this briefly, I do have a few additional questions.

1) It appears that the authorization for Dr. Khalek's 'new account profile'and 'software setup' – which I assume also stands as the authorization to order drugs in his name, was signed by a person other than Dr. Khalek (it was signed by Vinay Berarial). Is this common practice and allowable per your policy? I don't see Dr. Khalek's signature on any of the paperwork you sent me so please provide an explanation or other documentation showing how your company received authorization from him to order drugs and other items under his name. If applicable, provide me a copy of your company policy and/or procedure that would outline this.

2) I see the name of "Connie" in the PO box for many orders. Is this Consuelo Sanchez? – As I don't see a Connie listed anywhere.

3) Do you provide the dispensing software for this practice as well? If so, please provide me a report of all medications dispensed in the last 6 months.

Again, thank you for your continued cooperation in this matter.

Subject: Case #19-003
Importance: High

Dear Investigator McClish,

I received your record request for the clinic located at 5375 S. Fort Apache Rd. 102-103, Las Vegas, NV. I have included all of the invoices, licenses, account set up due diligence forms and method of payment used for this address for 2018-2019. On each invoice in the PO box you can see the name of the person who placed the order into the reporting software on the clinic's site at Calvinscottrx.com. That person has been set up as an authorized user on their end. We also list the name of Calvin Scott employee who did the data entry on our end. Kurt, Rachel, Robert and I are the employees here.

Last week was the first we have heard from Dr. Khalek regarding a change in prescriber for this location. The location did send over information for their new provider, Dr. Chancellor. His licensing information provided checks out.

Please let me know if I can clarify anything or if you need further assistance.

Best regards,

Laura Phillips

> 3. To perform any of the acts described in subsections 1 and 2 by using equipment that transfers information concerning the medical condition of the patient electronically, telephonically or by fiber optics, including, without limitation, through telehealth, from within or outside this State or the United States.
>
> 4. To offer, undertake, attempt to do or hold oneself out as able to do any of the acts described in subsections 1 and 2.

4. NRS 630.400(1)(d) provides that it is unlawful to practice medicine without being licensed under NRS Chapter 630.

5. Pursuant to NRS 630.400(2) and NRS 193.130(c) and (d), the unlawful practice of medicine is a felony, punishable by imprisonment in the state prison for a minimum term of not less than one (1) year and a maximum term of not more than five (5) years.

6. Pursuant to the Medical Practice Act, the only means by which a practitioner may lawfully aid, assist, employ or advise, directly or indirectly, an unlicensed person to engage in the practice of medicine, is by delegating specific tasks to an adequately supervised and trained "medical assistant."

7. Pursuant to NRS 630.0129, a "medical assistant" means a person who:

> (a) performs clinical tasks under the supervision of a practitioner, and
>
> (b) does not hold a license, certificate or registration issued by a professional licensing or regulatory board in this State to perform such clinical tasks; the term does not include a person who performs only administrative, clerical, executive or other nonclinical tasks.

8. Pursuant to NRS 630.306(1)(r), a practitioner must adequately supervise his or her medical assistants, and failing to do so is grounds for initiating disciplinary action or denying licensure.

9. Pursuant to NAC 630.830, a delegating practitioner is professionally responsible for the safety and performance of each task which is delegated to a medical assistant. Pursuant to NAC 630.810, a delegating practitioner may not delegate tasks to a medical assistant unless: (a) the

delegating practitioner knows that the medical assistant possesses the knowledge, skill and training to perform the task safely and properly; (b) the medical assistant is not required to be certified or licensed to perform that task; and (c) the medical assistant is employed by the delegating practitioner or the medical assistant and the delegating practitioner are employed by the same employer.

10. Pursuant to NAC 630.830(4), a delegating practitioner shall not delegate or otherwise allow a medical assistant to administer an anesthetic agent which renders a patient unconscious or semiconscious.

11. Pursuant to NAC 630.820, a delegating practitioner may not remotely supervise a medical assistant, except in a specific case of emergency in a rural area.[2]

12. Except as otherwise provided in NAC 630.820, pursuant to NAC 630.810, if a medical assistant is delegated a task which involves an "invasive procedure," [3] the delegating practitioner must be immediately available to exercise oversight in-person while the medical assistant performs the task.

13. The term "medical director" is not recognized or defined under the Medical Practice Act, and no law authorizes a licensee of the Board to, by calling himself or herself a "medical director," violate or circumvent the aforementioned statutes and regulations of the Medical Practice Act.

14. Accordingly, pursuant to NRS 630.400(1)(d), 630.305(1)(e), and 630.0129, and NAC 630.800-830:

a. A practitioner who, whether by serving as a so-called "medical director" or by some other relationship or circumstance, aids, assists, employs or advises, directly or indirectly, any unlicensed person to engage in the practice of medicine, may lawfully do so only by delegating tasks

---

[2] Remote supervision of a medical assistant is prohibited unless: (a) the patient is located in a rural area; (b) the delegating practitioner is physically located a significant distance from the location where the task is to be performed; (c) the delegating practitioner determines that the exigent needs of the patient require immediate attention; (d) the patient and the delegating practitioner previously established a practitioner-patient relationship; and (e) the delegating practitioner is immediately available by telephone or other means of instant communication during the performance of the task by the medical assistant. As used in NAC 630.820, "rural area" means any area in this State other than Carson City or the City of Elko, Henderson, Reno, Sparks, Las Vegas or North Las Vegas.

[3] The Medical Practice Act does not define "invasive procedure," however, NAC 449.9733 pertaining to Medical Facilities defines "invasive procedure" as "a medical procedure involving entry into the human body by puncture or incision or by insertion of an instrument."

to an adequately supervised and properly trained medical assistant, who the delegating practitioner knows possesses the knowledge, skill and training to perform the task safely and properly, and the delegating practitioner is professionally responsible for the safety and performance of each task which is delegated to that medical assistant.

b. A practitioner who, whether by serving as a so-called "medical director" or by some other relationship or circumstance, aids, assists, employs or advises, directly or indirectly, any unlicensed person to engage in the practice of medicine, but who has not done so by delegating specific tasks to an adequately supervised and properly trained medical assistant, has violated NRS 630.305(1)(e), and is subject to discipline for aiding and abetting the unlicensed practice of medicine. In addition, the unlicensed person engaged in the practice of medicine has violated NRS 630.400(1)(d), by practicing medicine without a license.

c. A practitioner who delegates a medical task to a medical assistant, whether by serving as a so-called "medical director" or by some other relationship or circumstance, remains professionally responsible for, among other requirements, ensuring the following:

i. The safety and performance of each task delegated;

ii. The proper employment relationships between themselves and the medical assistant or their common employer;

iii. The medical assistant is sufficiently knowledgeable, trained and skilled to perform the tasks delegated to them;

iv. The medical assistant is adequately supervised, and the practitioner must be nearby to supervise the specific medical tasks delegated, and, if it is an invasive medical task, then the delegating practitioner must be immediately available to exercise oversight in-person while the medical assistant performs the task; and

v. The medical assistant does not administer an anesthetic agent which renders a patient unconscious or semiconscious.

d. A practitioner who delegates a medical task to a medical assistant, whether by serving as a so-called "medical director" or by some other relationship or circumstance, and who violates the aforementioned provisions of the NRS or NAC pertaining to medical assistants, and

who fails to adequately supervise that medical assistant as required under the circumstances, has violated NRS 630.306(1)(r), and is subject to discipline for failing to adequately supervise a medical assistant.

B. Cosmetologists, "Medical Spas" and "Medical Aestheticians," and the Unlicensed Practice of Medicine

15. Pursuant to NRS 644A.030 a licensed "cosmetologist" is not authorized by such license to practice medicine in any way. Rather, a licensed cosmetologist is authorized to perform only non-medical, cosmetology services, such as cleansing, stimulating or massaging the scalp or cleansing or beautifying the hair by the use of cosmetic preparations, antiseptics, tonics, lotions or creams, cutting, trimming or shaping the hair, removing hair by the use of depilatories, waxing, tweezing or sugaring, except for the permanent removal of hair with needles, manicuring nails, massaging the skin, giving facials, and other miscellaneous non-medical, cosmetological services.

16. Pursuant to NAC 644A.790 a cosmetologist is further explicitly prohibited from performing "invasive procedures," which mean, for the purposes of professional licensing of cosmetologists, "an act that affects the structure or function of the skin other than the uppermost layers of the skin," and which, for the sake of regulating the practice of cosmetologists, includes, without limitation, (a) the application of electricity for the sole purpose of contracting a muscle, (b) the application of a topical lotion, cream or other substance which affects anything other than the uppermost layers of the skin, (c) the penetration of the skin by needles, and (d) the abrasion of the skin below the uppermost layers of the skin.

17. Further, there is no such license as "medical aesthetician" or "medical cosmetologist" authorized by any Nevada law or issued by any Nevada sanctioned professional licensing body. On the contrary, NAC 644A.870 specifically prohibits cosmetologists and aestheticians from using the terms "expert," "advanced" or "medical" in connection with any description of their practice in any branch of cosmetology or otherwise holding the licensee out to the public as an expert, advanced or medical practitioner of any branch of cosmetology.

18. Accordingly, a Nevada licensed cosmetologist or aesthetician may not refer to himself or herself as a "medical cosmetologist" or "medical aesthetician" in connection with any

description of their practice, and may not, in fact, practice medicine in any way or perform invasive medical procedures or medical services of any kind, unless they do so as a "medical assistant" to a Nevada licensed medical professional, i.e., either as medical assistant to a Nevada licensed physician or physician assistant pursuant to NRS 630.0129, et. seq., and NAC 630.800-830, as described above, or similarly as another type of professional "assistant," "hygienist," "technician," or other such designation, who is delegated tasks by and under the direct supervision of a medical professional who is duly licensed pursuant to chapters 631 to 637, inclusive, 639 or 640 of NRS, and who remains professionally responsible for their conduct.

19. If a cosmetologist or aesthetician practices medicine in any way, unless he or she acts as a medical assistant and is delegated tasks and is properly supervised by a professional medical practitioner, then he or she is violating NRS 630.400(1)(d) by practicing medicine without a license.

C. Nevada Pharmacy Laws Regarding Controlled Substances, Dangerous Drugs and Hypodermic Devices

20. NRS 630.306(1)(b)(3) provides that engaging in conduct that violates a regulation adopted by the Nevada State Board of Pharmacy (Pharmacy Board) is grounds for initiating disciplinary action against a licensee.

21. Pursuant to NRS 630.3062(1)(h), fraudulent, illegal, unauthorized or otherwise inappropriate prescribing, administering or dispensing of a controlled substance listed in schedule II, III or IV is grounds for initiating disciplinary action or denying licensure.

22. Pursuant to 21 Code of Federal Regulations (CFR) §1306.04(a)-(b) and NRS 453.381, a physician or physician assistant may prescribe or administer controlled substances only for a legitimate medical purpose and in the usual course of his or her professional practice. The responsibility for the proper prescribing and dispensing of controlled substances is upon the prescribing practitioner, and a prescription may not be issued in order for an individual practitioner to obtain controlled substances for supplying the individual practitioner for the purpose of general dispensing to patients. *See* 21 CFR §1306.04(a)-(b).

///

23. Pursuant to NRS 454.201, a "dangerous drug" is any drug, other than a controlled substance, unsafe for self-medication or unsupervised use, and includes, among other things, (1) any drug which has been approved by the Food and Drug Administration for general distribution and bears the legend: "Caution: Federal law prohibits dispensing without prescription," and (2) any drug which, pursuant to the Board's regulations, may be sold only by prescription because the Board has found those drugs to be dangerous to public health or safety.

24. Pursuant to NRS 454.316 and NRS 454.321, it is unlawful to possess, dispense or furnish a dangerous drug except when furnished to the person by a pharmacist pursuant to a legal prescription from a practitioner.

25. Pursuant to NRS 454.009, a "hypodermic" device is any syringe, needle, instrument, device or implement intended or capable of being adapted for the purpose of administering drugs by subcutaneous, intramuscular or intravenous injection.

26. Pursuant to NRS 454.510, it is unlawful for any person to have in his or her possession or under his or her control any hypodermic device that is restricted by federal law to sale by or on the order of a physician, unless the person has acquired possession of such device in accordance with the provisions of NRS 454.480 to 454.530, inclusive, that is, by sale from a licensed pharmacist, on the prescription of a physician or other practitioner, which prescription is filled as required by NRS 639.236, and may be refilled as authorized by the prescriber.

27. Accordingly, pursuant to NRS 454.009, 454.201, 454.316, 454.321 and 454.510, any person who is not a practitioner as defined in NRS 639.0125 is not permitted by Nevada law to possess, control, access, prescribe, administer, and/or dispense dangerous drugs or hypodermic devices, except as a medical assistant under the direct supervision of a Nevada licensed physician, physician assistant, or other licensed medical professional, and then, only if otherwise permitted and in compliance with laws of regulating pharmacies and pharmaceuticals.

28. NAC 639.742(1) provides that a practitioner who wishes to dispense controlled substances or dangerous drugs must apply to the Pharmacy Board for a certificate of registration to dispense controlled substances or dangerous drugs. A practitioner must submit a separate application for each site of practice, including, without limitation, any remote site or satellite

consultation site, from which the practitioner wishes to dispense controlled substances or dangerous drugs.

29. NAC 639.742(2) provides that if a facility from which the practitioner intends to dispense dangerous drugs or controlled substances is not wholly owned and operated by the practitioner, the owner or owners of the facility must also submit an application to the Pharmacy Board for a license to do so.

30. NAC 639.742(3) provides in pertinent part that a dispensing practitioner and, if applicable, the owner or owners of the facility, shall ensure that:

> . . . (b) All drugs are received and accounted for by the dispensing practitioner;
>
> (c) All drugs are stored in a secure, locked room or cabinet to which the dispensing practitioner has the only key or lock combination;
>
> (d) All drugs are dispensed in accordance with NAC 639.745[4];

---

[4] NAC 639.745 Duties of certain practitioners concerning dispensing of controlled substances and dangerous drugs. (NRS 639.070, 639.0727)

1. Each practitioner who is registered with the Board to dispense controlled substances and dangerous drugs, including, without limitation, a dispensing practitioner, and who dispenses such products for use by the practitioner's patients outside his or her presence shall:

(a) Keep complete, accurate and readily retrievable records of each controlled substance and dangerous drug purchased and dispensed. The record for each such product dispensed to a patient must include:

(1) The name of the patient and, if not readily available from the practitioner's records, the patient's address;

(2) The name, strength and quantity of the prescribed controlled substance or dangerous drug;

(3) The directions for use;

(4) The date the prescription was issued; and

(5) A unique identifying number.

(b) Maintain a separate file for the records concerning the purchase of each controlled substance listed in schedule II and a separate file for the records concerning the dispensing of each controlled substance listed in schedule II. Each prescription for a controlled substance or dangerous drug must be maintained in a separate file pursuant to the requirements set forth in NAC 453.480.

(c) Keep all controlled substances and dangerous drugs in a locked storage area. Access to the storage area must be restricted to the persons described in NRS 453.375.

(d) Ensure that each package or container in which a controlled substance is dispensed, except samples in the manufacturer's packages, is clearly labeled pursuant to the requirements set forth in NRS 639.2801.

(e) Ensure that the package or container in which a controlled substance or dangerous drug is dispensed complies with all state and federal packaging requirements.

(f) Be deemed to be a pharmacy as that term is used in NAC 639.926 and shall comply with that section.

2. A practitioner may dispense dangerous drugs or controlled substances only after the patient has been informed by the practitioner that the patient may request a written prescription and have it filled at another location of the patient's choosing.

3. A record regarding the dispensing of a controlled substance or dangerous drug made and kept pursuant to this section must be maintained on paper or in a computer. If the record is:

(a) Maintained on paper, the record must:

(1) Include all the information required to be on the prescription pursuant to NRS 639.2353 and NAC 453.440;

> (e) No prescription is dispensed to a patient unless the dispensing practitioner is on-site at the facility;
>
> (f) All drugs are dispensed only to the patient personally at the facility;
>
> . . . (h) All drugs are dispensed only for medically necessary purposes and according to prevailing standards of care for practitioners practicing in the specialty claimed or practiced by the dispensing practitioner; and
>
> (i) The certificate for each dispensing technician employed at the facility is displayed in the room or cabinet in which drugs are stored.

31. NAC 639.742(4)(a)-(b) provide, in-part, with regard to the filling and dispensing of prescriptions at a facility, only the dispensing practitioner or a dispensing technician may enter the locked room or cabinet in which drugs are stored and/or remove drugs from stock.

32. NAC 639.945(1) provides in pertinent part that the following acts or practices by a holder of any license, certificate or registration issued by the Pharmacy Board or any employee of any business holding any such license, certificate or registration are declared to be, specifically but not by way of limitation, unprofessional conduct and conduct contrary to the public interest:

> ...(g) Supplying or diverting drugs, biologicals, medicines, substances or devices which are legally sold in pharmacies or by wholesalers, so that unqualified persons can circumvent any law pertaining to the legal sale of such articles.
>
> . . . (i) Performing any of his or her duties as the holder of a license, certificate or registration issued by the Board, or as the owner of a business or an entity licensed by the Board, in an incompetent, unskillful or negligent manner.
>
> . . . (n) Dispensing a drug as a dispensing practitioner to a patient with whom the dispensing practitioner does not have a bona fide therapeutic relationship.
>
> (o) Prescribing a drug as a prescribing practitioner to a patient with whom the prescribing practitioner does not have a bona fide therapeutic relationship.

---

(2) Set forth on the front of the prescription a certification initialed and dated by the patient that the patient has been informed by the practitioner in accordance with subsection 2 and that the patient has agreed to have the practitioner dispense the controlled substance or dangerous drug; and

(3) Be serially numbered and kept in numerical order in a single file for all dispensing practitioners, including, without limitation, physician assistants and advanced practice registered nurses, practicing at the same location.

(b) Maintained in a computer, the record must:

(1) Include all the information required to be on the prescription pursuant to NRS 639.2353 and NAC 453.440;

(2) Contain a certification, either in the computer or a separate paper document, initialed and dated by the patient that the patient has been informed by the practitioner in accordance with subsection 2 and that the patient has agreed to have the practitioner dispense the controlled substance or dangerous drug; and

(3) Be searchable for any item required by paragraph (a) of subsection 1 to be included in the record.

33. NAC 639.945(2) provides that the owner of any business or facility licensed, certified or registered by the Pharmacy Board is responsible for the acts of all personnel in his or her employ.

34. NAC 639.945(3) provides that, for purposes of applying Pharmacy Board regulations:

> [A] bona fide therapeutic relationship between the patient and practitioner shall be deemed to exist if the patient was examined in person, electronically or telephonically by the practitioner within the 6 months immediately preceding the date the practitioner dispenses or prescribes a drug to the patient and, as a result of the examination, the practitioner diagnosed a condition for which a given drug therapy is prescribed.

35. Accordingly, any physician or physician assistant who—whether by serving as a so-called "medical director" of, or by furnishing dangerous drugs or hypodermic devices to, or by some other relationship or circumstance with any "medical spa" wherein dangerous drugs or hypodermic devices are possessed, controlled, accessed, prescribed, administered, and/or dispensed—engages in conduct that violates any regulation adopted by the Pharmacy Board, including but not limited to NAC 639.742(1)-(3), (4)(a)-(b), or 639.945(1)-(3), has violated the Nevada Medical Practice Act and is subject to discipline by the Board.

II. THE PERTINENT HISTORY OF CRIMINAL AND UNPROFESSIONAL CONDUCT OF TAMMY LYNN HANKINS, PA-C

36. On or about March 1, 2012, in the Superior Court of the State of Arizona, in and for the County of Mohave (Arizona Court), in Case No. CR-2012-00287, a Grand Jury indicted Tammy Lynn Hankins (Hankins), a physician assistant who at that time held a license to practice medicine in the State of Arizona, on five (5) criminal counts of violations of Arizona law, including COUNT 1: FRAUDULENT SCHEMES AND ARTIFICES, CLASS 2 FELONY; COUNT 2: OBTAIN OR PROCURE THE ADMINISTRATION OF A NARCOTIC DRUG BY FRAUD, CLASS 3 FELONY; COUNT 3: OBTAINING A DANGEROUS DRUG BY FRAUD, CLASS 3 FELONY; COUNT 4: ATTEMPTED OBTAINING A DANGEROUS DRUG BY FRAUD, CLASS 4 FELONY; COUNT 5: ATTEMPTED OBTAINING A DANGEROUS DRUG BY FRAUD, CLASS 4 FELONY.

Hankins' Arizona Case History

37. On or about November 28, 2012, the Arizona Regulatory Board of Physician Assistants ("Arizona Board"), in Case No. PA-11-0127A, found Hankins, who had been the holder of a license to practice medicine as a physician assistant in the State of Arizona (License No. 2228), guilty of unprofessional conduct. Specifically, the Arizona Board found Hankins guilty with respect to two (2) patients, Patient JC and Patient MW, determining that Hankins deviated from the standard of care by inappropriately and excessively prescribing controlled substances to patients, risking addiction or overdose with a possible fatal outcome.

38. For the foregoing misconduct, the Arizona Board found Hankins guilty of unprofessional conduct pursuant to Arizona Revised Statute (ARS) §32-2501(18)(i) ("prescribing or dispensing controlled substances or prescription-only drugs for which the physician assistant is not approved or in excess of the amount authorized pursuant to this chapter"); ARS §32-2501(18)(j) ("any conduct or practice that is or might be harmful or dangerous to the health of a patient or the public"); ARS § 32-2501 (18)(p) ("failing or refusing to maintain adequate records on a patient"), and ARS § 32-2501(18)(z) ("failing to furnish legally requested information to the [Arizona Board] or its Investigator in a timely manner."). The Arizona Board also found that a practice restriction was needed in order to protect the public, and ordered that Hankins be issued a Letter of Reprimand, placed on probation for one (1) year with additional conditions and restrictions.

Expiration of Hankins's Arizona License

39. Hankins's license to practice medicine as a physician assistant in the State of Arizona (License No. 2228) was due for renewal by June 1, 2013; Hankins did not renew, and her Arizona license expired by operation of law on May 20, 2014.

Arizona Criminal Conduct by Hankins

40. On or about September 14, 2013, the Arizona Court found that Hankins had knowingly, intelligently and voluntarily pled guilty to the offense of: COUNT 3: OBTAINING A DANGEROUS DRUG BY FRAUD, CLASS 3 FELONY. On or about October 2, 2013, the Arizona Court entered its judgment finding Hankins guilty of the foregoing charge, and sentenced Hankins to a suspended

///

imposition of sentence and placing the Defendant on probation for a period of four years commencing October 2, 2013, among other conditions of probation.

41. On or about January 17, 2014, pursuant to a Petition to Revoke Probation, the Arizona Court ordered that Hankins be held without bond pending hearing on said petition.

42. On or about August 11, 2014, the Arizona Court found Hankins guilty of violating her probation for the following crimes: OBTAINING A DANGEROUS DRUG BY FRAUD, CLASS 3 FELONY, and SEXUAL CONDUCT WITH A MINOR, CLASS 6 FELONY. For the first crime, Hankins was sentenced to two and one-half (2.5) years with the Arizona Department of Corrections, as a minimum sentence, to date from August 11, 2014, and was given credit for two hundred eight (208) days served prior to sentencing. For the second crime, Hankins was sentenced to one (1) additional year of incarceration, that sentence to run consecutive to the other.

43. Hankins was not licensed to practice medicine as a physician assistant in the State of Nevada before March 6, 2020.

44. Hankins does not hold an active Drug Enforcement Agency (DEA) registration, and has not held a valid registration since 2016. Hankins also does not hold and has never held an active license or registration with the Pharmacy Board.

III. RESPONDENT'S AIDING AND ABETTING THE UNLICENSED PRACTICE OF MEDICINE AT VIDA SPA, AND RELATED VIOLATIONS OF NEVADA PHARMACY LAWS

45. Vida Spa LLC, a Nevada Limited Liability Company, formed July 22, 2016, managed by Gisselle Platfoot ("Vida Spa"), and also doing business as "Vida Spa" and "Vita Medical Spa Las Vegas," is a self-described "medical spa" located at 3225 S Rainbow Blvd #107 and/or #206, Las Vegas, NV 89146.

46. At all times relevant to this Complaint, Vida Spa was licensed in Clark County, Nevada, under Clark County Business License No. 2003447.081-172, under the business category of "Cosmetology Establishment - Other Services." The owners listed under this license are Art Matrix, Inc. and Gisselle Platfoot.

47. At all times relevant to this Complaint, Vida Spa had no other business licenses except for the Clark County Business License No. 2003447.081-172.

48. Gisselle Platfoot, manager of Vida Spa, at all times relevant to this Complaint, did not hold a license to practice medicine or any healing art as a "provider of health care," as defined in NRS 629.031, from any occupational licensing board in the State of Nevada, and was not otherwise a practitioner as defined in NRS 639.0125.

49. Vida Spa is "a facility that provides health care, other than a medical facility". *See* NRS 449.442. At all times relevant to this Complaint, neither Respondent, Hankins, Vida Spa, nor Gisselle Platfoot held a permit pursuant to NRS 449.442 to perform general anesthesia, conscious sedation or deep sedation. Additionally, neither Respondent, Hankins, Vida Spa, nor Gisselle Platfoot held a current accreditation by a nationally recognized organization approved by the State Board of Nevada Bureau of Healthcare Quality and Compliance.

50. At all times relevant to this Complaint, Vida Spa was not a "medical facility," as defined in NRS 449.0151, and not "the office" of a physician or physician assistant licensed pursuant to NRS chapter 630 or 633, qualified dentist, advanced practice registered nurse or podiatric physician, as provided in NRS 454.217.

51. On March 24, 2021, the Pharmacy Board issued a Citation and Order to Cease and Desist (Platfoot Citation) to Vida Spa and Gisselle Platfoot, whereby the Pharmacy Board determined that Vida Spa and Gisselle Platfoot were possessing, administering, prescribing and/or dispensing controlled substances and/or dangerous drugs for Nevada patients from Vida Spa in violation of federal and state law. Specifically, the Platfoot Citation states that Vida Spa and Gisselle Platfoot did not have a dispensing registration and are therefore prohibited from possessing, dispensing and/or administering controlled substances and/or dangerous drugs. The Platfoot Citation finds that Vida Spa and Gisselle Platfoot violated, attempted to violate, assisted or abetted in the violation of or conspired to violate, without limitation, NRS 453.226, NRS 453.316, NRS 453.321(1)(a), NRS 453.331 (l)(c)(d)(t)&(i), NRS 453.381(1), NRS 453.40l(l)(a), NRS 639.0727, NRS 639.100(1), NRS 639.23505, NRS 639.281, NRS 639.2813, NRS 639.310, NAC 639.742, 21 U.S.C. § 822(a)(2), 21 U.S.C. § 823(f), 21 U.S.C. § 84l(a), 21 U.S.C. § 842(a), 21 U.S.C. § 846 and 21 CFR §§ 1306.03-1306.05. The Platfoot Citation orders Vida Spa and Gisselle Platfoot, pursuant to NRS 639.2895(1), to immediately cease and desist possessing, administering,

prescribing and/or dispensing controlled substances for Nevada patients, and also assessed an administrative fine of five thousand dollars ($5,000.00) pursuant to NRS 639.2895(3).

52. Respondent was the so-called "medical director" of Vida Spa, from on or about September 9, 2019, through on or about November 1, 2019.

53. During Respondent's service as "medical director" of Vida Spa, which was licensed only as a "cosmetology establishment," Hankins, Gisselle Platfoot, and Vida Spa's employees and agents provided medical treatment and/or prescriptions and/or administered dangerous drugs and hypodermic devices and/or dispensed dangerous drugs and hypodermic devices to at least seven (7) patients, as set forth below, which conduct by Hankins, Gisselle Platfoot and Vida Spa's employees and agents constitutes the practice of medicine in Nevada:

PATIENT A

54. Patient A[5] was a fifty-seven (57) year-old female at the time of the events at issue.

55. At all times relevant to Hankins's treatment of Patient A, Respondent was the so-called "medical director" of Vida Spa.[6]

56. On October 9, 2019, Hankins, who did not have her own DEA registration and controlled substance license issued by the Pharmacy Board, utilized the prescribing credentials of Respondent, to issue fraudulent prescriptions to Patient A for Tramadol (a Schedule IV Controlled Substance) 50 mg tablets, 24 ct. for 3 days, and Diazepam (a Schedule IV Controlled Substance) 10 mg tablets, 8 ct. for 3 days; these prescriptions were called-in to the pharmacy by Hankins, or by a Vida Spa employee or agent acting at Hankins's direction, and the prescriptions were filled the same day.

57. Hankins instructed Patient A to take Schedule IV controlled substances in a manner that materially deviated from the issued prescriptions; Hankins instructed Patient A to take Tramadol 50mg, 2 tablets, and Diazepam 10 mg, 1 tablet, at 2:00 p.m., on October 10, 2019, for the

purpose of conscious sedation for an invasive, surgical, liposuction procedure Hankins planned to perform on Patient A at Vida Spa at 3:00 p.m. that day.

58. Hankins wrote the prescriptions for these controlled substances and instructed Patient A to deviate from the issued prescription in order to conceal the purpose of the medications, which was conscious sedation, and thereby to conceal a violation by Vida Spa of NRS 449.442(1)-(2).

59. Respondent did not see or treat Patient A, did not direct or supervise Hankins in her treatment of Patient A, and did not specifically direct Hankins to issue prescriptions to Patient A.

60. On October 10, 2019, at Vida Spa, at approximately 3:00 p.m., Hankins performed a liposuction procedure on the arms of Patient A. The IC acknowledges that Respondent is agreeing to resolve this matter to avoid the costs of hearing and potential subsequent litigation. Respondent asserts that if these matters were to proceed to hearing, he has evidence, witnesses, expert witness(es) and defenses to the count/claim alleged in the Complaint, but for the purposes of resolving these matters and for no other purpose, Respondent waives the presentation of evidence, witnesses, expert witnesses, and defenses in order to effectuate this Agreement.

b. Respondent's license to practice medicine shall be placed on probation for a period of twenty-four (24) months from the date of the Board's acceptance, adoption and approval of this Agreement. During the probation period, should Respondent commit any new violations of the Medical Practice Act or fail to comply with any term or condition of this Agreement, the IC shall be authorized to immediately suspend Respondent's license to practice medicine in Nevada pending an Order to Show Cause Hearing maintaining the suspension pending final adjudication by the Board of the alleged violation.

Failure to comply with the terms of this Agreement, including failure to pay any fines, costs, expenses or fees owed to the Board, is a failure to comply with an order of the Board, which may result in additional disciplinary action being taken against Respondent. BEFORE THE ARIZONA MEDICAL BOARD

In the Matter of **SHERMAN WASHINGTON, JR., M.D.** Holder of License No. 48291 For the Practice of Allopathic Medicine In the State of Arizona.	**Case No. MD-19-1137A** **ORDER FOR LETTER OF REPRIMAND AND PROBATION; AND CONSENT TO THE SAME**

Sherman Washington, Jr., M.D. ("Respondent") elects to permanently waive any right to a hearing and appeal with respect to this Order for Letter of Reprimand and Probation; admits the jurisdiction of the Arizona Medical Board ("Board"); and consents to the entry of this Order by the Board.

FINDINGS OF FACT

1. The Board is the duly constituted authority for the regulation and control of the practice of allopathic medicine in the State of Arizona.

2. Respondent is the holder of license number 48291 for the practice of allopathic medicine in the State of Arizona.

3. The Board initiated case number MD-19-1137A after receiving notification of a disciplinary action alert ("DAR") that the Virginia Board of Medicine ("Virginia Board") had reprimanded Respondent's Virginia medical license.

4. Effective November 14, 2019 Respondent entered into a Consent Order with the Virginia Board that issued Respondent's Virginia medical license a Reprimand and Monetary Penalty of $1500.00. The Virginia Board found that Respondent issued Schedule IV medications to six patients without a properly established physician-patient relationship. Additionally, the Virginia Board found that Respondent willfully refused to provide records for the six patients at issue despite repeated requests by Virginia Board staff. On January 15, 2020 the Virginia Board issued Respondent a letter of compliance and closed the case.

5. On November 22, 2019 the North Dakota Board of Medicine ("North Dakota Board") issued an Order pursuant to a Stipulation that required Respondent to complete an intensive, in-person medical recordkeeping course. The North Dakota Board found that a patient received medication in the mail from a compounding pharmacy in Texas that had been prescribed by Respondent. The patient did not have a prior physician-patient relationship with Respondent and had never met or spoken to prior to receiving the medication. Respondent failed to respond to the North Dakota Board's request for the patient's medical records.

6. On January 28, 2020 The Washington Medical Commission ("Washington Board") entered Findings of Fact, Conclusions of Law and Final Order of Default against Respondent's Washington medical license after Respondent failed to respond to an investigation into Respondent's prescribing practices ("Default Order").

7. On February 14, 2020 the Virginia Board issued an Order of Mandatory Suspension on Respondent's Virginia medical license based on the Washington Board's Default Order.

8. On March 6, 2020, The Colorado Medical Board ("Colorado Board") issued Respondent's Colorado medical license a Letter of Admonition based on the Virginia and North Dakota Board actions.

9. On March 16, 2020, The Pennsylvania State Board of Medicine ("Pennsylvania Board") issued an order reprimanding Respondent's expired Pennsylvania medical license based on the Virginia Board's action.

10. On July 16, 2020, the Washington Board entered into a Stipulation to Informal Discipline with Respondent to resolve the investigation ("Washington Stipulation"). The Washington Stipulation described allegations that Respondent prescribed medication to at least six patients without examining the patients or otherwise establishing a proper

physician-patient relationship. The Washington Stipulation required Respondent to complete terms and conditions including Continuing Medical Education ("CME") in ethics and submission of a remedial essay on issues relevant to the investigation.

11. On December 30, 2020 the Florida Board of Medicine ("Florida Board") issued a Final Order suspending Respondent's Florida medical license and requiring payment of an administrative fine. The Florida Board's Final Order arose out of a reciprocal investigation regarding the Washington Board's action, and Respondent's failure to report the Washington Board's Default Order indefinitely suspending his Washington medical license.

CONCLUSIONS OF LAW

a. The Board possesses jurisdiction over the subject matter hereof and over Respondent.

b. The conduct and circumstances described above constitute unprofessional conduct pursuant to A.R.S. § 32-1401(27)(p) ("Action that is taken against a doctor of medicine by another licensing or regulatory jurisdiction due to that doctor's mental or physical inability to engage safely in the practice of medicine, the doctor's medical incompetence or for unprofessional conduct as defined by that jurisdiction and that corresponds directly or indirectly to an act of unprofessional conduct prescribed by this paragraph. The action taken may include refusing, denying, revoking or suspending a license by that jurisdiction or a surrendering of a license to that jurisdiction, otherwise limiting, restricting or monitoring a licensee by that jurisdiction or placing a licensee on probation by that jurisdiction.").

ORDER

IT IS HEREBY ORDERED THAT:

1. Respondent is issued a Letter of Reprimand.

2. Respondent is placed on Probation for a period of six months with the following terms and conditions:

a. PBI Ethics Course

Respondent shall within 6 months of the effective date of this Order, complete the Medical Ethics and Professionals Course (ME-15) course offered by Professional Boundaries, Inc. ("PBI"). Respondent shall within thirty days of the effective date of this Order submit satisfactory proof of enrollment with Board staff. Upon completion of the CME, Respondent shall provide Board staff with satisfactory proof of attendance. Respondent shall sign any and all consents or releases necessary to allow for PBI to communicate to the Board directly and furnish PBI's "AIR" Letter after completion of the required CME. The CME hours shall be in addition to the hours required for the biennial renewal of medical licensure. Respondent shall not revoke any release prior to successful completion of the CME and maintenance and accountability seminars.

b. Obey All Laws

Respondent shall obey all state, federal and local laws, all rules governing the practice of medicine in Arizona, and remain in full compliance with any court ordered criminal probation, payments and other orders.

c. Probation Termination

Prior to the termination of Probation, Respondent must submit a written request to the Board for release from the terms of this Order. Respondent's request for release will be placed on the next pending Board agenda, provided a complete submission is received by Board staff no less than 30 days prior to the Board meeting. Respondent's request for release must provide the Board with evidence establishing that he has successfully satisfied all of the terms and conditions of this Order. The Board has the sole discretion to

determine whether all of the terms and conditions of this Order have been met or whether to take any other action that is consistent with its statutory and regulatory authority.

3. The Board retains jurisdiction and may initiate new action against Respondent based upon any violation of this Order. A.R.S. § 32-1401(27)(s)

DATED AND EFFECTIVE this 24th day of August, 2021.

2. Respondent acknowledges and agrees that this Order is entered into freely and voluntarily and that no promise was made or coercion used to induce such entry.

3. By consenting to this Order, Respondent voluntarily relinquishes any rights to a hearing or judicial review in state or federal court on the matters alleged, or to challenge this Order in its entirety as issued by the Board, and waives any other cause of action related thereto or arising from said Order.

4. The Order is not effective until approved by the Board and signed by its Executive Director.

5. All admissions made by Respondent in this Order are solely for final disposition of this matter and any subsequent related administrative proceedings or civil litigation involving the Board and Respondent. Therefore, said admissions by Respondent

are not intended or made for any other use, such as in the context of another state or federal government regulatory agency proceeding, civil or criminal court proceeding, in the State of Arizona or any other state or federal court.

6. Notwithstanding any language in this Order, this Order does not preclude in any way any other State agency or officer or political subdivision of this state from instituting proceedings, investigating claims, or taking legal action as may be appropriate now or in the future relating to this matter or other matters concerning Respondent, including but not limited to, violations of Arizona's Consumer Fraud Act. Respondent acknowledges that, other than with respect to the Board, this Order makes no representations, implied or otherwise, about the views or intended actions of any other state agency or officer or political subdivisions of the State relating to this matter or other matters concerning Respondent.

7. Upon signing this agreement, and returning this document (or a copy thereof) to the Board's Executive Director, Respondent may not revoke the consent to the entry of the Order. Respondent may not make any modifications to the document. Any modifications to this original document are ineffective and void unless mutually approved by the parties.

8. This Order is a public record that will be publicly disseminated as a formal disciplinary action of the Board and will be reported to the National Practitioner's Data Bank and on the Board's web site as a disciplinary action.

9. If any part of the Order is later declared void or otherwise unenforceable, the remainder of the Order in its entirety shall remain in force and effect.

10. If the Board does not adopt this Order, Respondent will not assert as a defense that the Board's consideration of the Order constitutes bias, prejudice, prejudgment or other similar defense.

11. Any violation of this Order constitutes unprofessional conduct and may result in disciplinary action. Re: License Number: DR. 0054185
Case Number: 2019-8449-B

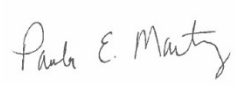
Dear Dr. Washington,

The Colorado Medical Board has concluded its inquiry into the aforementioned matter. It was the Panel's decision not to commence with formal proceedings against your professional license. However, the Panel did determine disciplinary action in the form of this letter of admonition is warranted.

As you recall, in October 2019, you entered into a stipulation with the North Dakota Medical Board regarding your license to practice medicine. In the stipulation, you admitted to prescribing medications to an individual with whom you did not have a physician-patient relationship and failing to maintain medical records. The North Dakota Medical Board required you to take a medical recordkeeping course. In November 2019, you entered into a consent order with the Virginia Board of Medicine in which you were reprimanded and assessed a fine. The consent order was based on your prescribing of Schedule VI medications outside the context of a physician-patient relationship.

After a review of all the information in this matter, the Panel found that you are prescribing to individuals without establishing a physician-patient relationship fell below generally accepted standards of medical practice and resulted in discipline in two other states, constituting unprofessional conduct in violation of section 12-240-121 of the Colorado Revised Statutes.

By this letter, the Board takes the formal disciplinary action of admonishing you for the conduct specified above, and warns you that repetition of such practice may lead to imposition of more severe disciplinary action. This letter is an open public record and a reportable action to individuals or entities requesting disciplinary information. The Board strongly encourages you to review and understand the Medical Practice Act requirements and obligations for the practice of medicine in Colorado.



In accordance with 12-20-404(4)(b), the Board advises you that you have the right to make a written request that the Board initiate formal disciplinary proceedings in order to adjudicate the conduct or acts upon which this letter is based. You must make your written request within twenty (20) days after receipt of this letter and address your request to Paula Martinez, Program Director, at the email address listed below. If you make a timely request, the Board will deem this letter of admonition vacated and may proceed with disciplinary and/or injunctive proceedings in accordance with 12-20-404(4)(b)(II), C.R.S., and applicable rules.

A Letter of Admonition, when accepted, becomes a permanent, public portion of your record. It is not, however, a restriction on your practice as a professional physician.

9.

Respondent's aforementioned conduct departed from and failed to conform to the minimum standards of acceptable and prevailing medical practice and was a violation of Georgia's laws and the Board's rules. *See* Ga. Comp. R. & Regs. R. 360-3-.07 (Practice Through Electronic or Other Such Means), O.C.G.A. § 43-34-8(a), and O.C.G.A. § 43-1-19(a).

10.

Respondent was also licensed as a physician in the Commonwealth of Virginia. On or about November 12, 2019, Respondent entered into a Consent Order with the Virginia Board of

Medicine (Case No. 187506) based, in part, on allegations of prescribing medications without ever performing examinations. Under the terms of the Consent Order Respondent was reprimanded and assessed a One Thousand Five Hundred dollar ($1,500.00) monetary penalty. On or about February 14, 2020, Respondent's license to practice medicine and surgery in the Commonwealth of Virginia was mandatorily suspended based, in part, on allegations of Respondent's failure to respond (Case No. 202478).

11.

Respondent is also licensed as a physician in the State of North Dakota. On or about November 22, 2019, Respondent entered into a Stipulated Order with the North Dakota Board of Medicine, based, in part, on allegations of prescribing medications without a physician-patient relationship. Under the terms of the Stipulation, Respondent had to complete a course in keeping medical records and Respondent paid costs and attorney's fees incurred by the Board. Respondent successfully completed the North Dakota Stipulated Order in or around July, 2020.

12.

Respondent is also licensed as a physician in the State of Washington. On or about July 16, 2020, Respondent stipulated to an informal disposition with the State of Washington Medical Commission, (No. M2019-234) based, in part, on allegations of improper prescribing through telemedicine companies. Under the terms of the stipulation Respondent was required to complete "Compliance Orientation," review the Medical Commission's Telemedicine Guideline, complete a course in medical ethics, write an authoritative paper on the importance of forming a physician-patient relationship, and personally appear before the Commission.

13.

Pursuant to O.C.G.A. §§ 43-1-19(a)(5) and 43-34-8(a)(5), the Georgia Board may discipline a licensee who has had disciplinary action taken against him or her by any such lawful licensing authority other than the Board.

14.

Respondent agrees to the above findings of facts and waives any further findings of fact with respect to the above-styled matter.

CONCLUSIONS OF LAW

Respondent's conduct constitutes sufficient grounds for the imposition of discipline upon Respondent's license to practice as a physician in the State of Georgia under O.C.G.A. Title 43, Chapters 1 and 34, as amended. Respondent hereby waives any further conclusions of law with respect to the above-styled matter.

ORDER

The Georgia Board, having considered all the facts and circumstances of this case, hereby orders, and Respondent hereby agrees, that the following sanctions shall be imposed upon Respondent's license to practice as a physician in the State of Georgia:

1.

Within ninety (90) days of the effective date of this Consent Order, Respondent shall submit to the Georgia Board a fine of three thousand dollars ($3,000.00) to be paid in full by cashier's check or money order made payable to the Georgia Composite Medical Board. Said fine shall be sent to the Georgia Composite Medical Board, located at 2 Peachtree Street, NW, 6th Floor, Atlanta, GA 30303, to the attention of the Executive Director. Failure to pay the entire amount within (30) days of the effective date of this Consent Order shall be considered a

violation of this Consent Order and shall result in further sanctioning of Respondent's license, upon substantiation thereof.

2.

Within six (6) months of the effective date of this Consent Order, Respondent shall successfully complete ten (10) hours of continuing medical education ("CME") course(s) focusing on ethics and ten (10) hours of CME course(s) focusing on prescribing. Said CME may be completed online and shall be in addition to the CME required of all Georgia physicians. Respondent shall provide written evidence of successful completion of the CME to the Georgia Board within six (6) months of the effective date of this Order. Failure to provide written evidence of successful completion of the CME within six (6) months of the effective date of this Consent Order shall be considered a violation of this Consent Order and shall result in further sanctioning of Respondent's license, upon substantiation thereof.

3.

In addition to and in conjunction with any other sanction contained herein, this Consent Order and dissemination thereof shall serve as a **public reprimand** of Respondent by the Georgia Board.

4.

Respondent also understands that pursuant to O.C.G.A. Title 43, Chapter 34A, the contents of this Consent Order shall be placed on Respondent's Physician Profile. Furthermore, by executing this Consent Order, Respondent hereby agrees to permit the Georgia Board to update the Physician's Profile reflecting this Consent Order.

5.

Respondent acknowledges that Respondent has read this Consent Order and understands

its contents. Respondent understands that Respondent has the right to a hearing in this matter and freely, knowingly and voluntarily waives that right by entering into this Consent Order. Respondent understands and agrees that a representative of the Department of Law may be present during the Georgia Board's consideration of this Consent Order and that the Georgia Board shall have the authority to review the investigative file and all relevant evidence in considering this Consent Order. Respondent further understands that this Consent Order will not become effective until approved and docketed by the Georgia Board. Respondent understands that this Consent Order, once approved and docketed, shall constitute a public record, evidencing disciplinary action by the Georgia Board that may be disseminated as such. However, if this Consent Order is not approved, it shall not constitute an admission against interest in this proceeding, or prejudice the right of the Georgia Board to adjudicate this matter. Respondent hereby consents to the terms and sanctions contained herein.

STATE OF NORTH DAKOTA

North Dakota Board of Medicine – Investigative Panel B,	)	
Complainant,	)	
vs.	)	**COMPLAINT**
Sherman Washington Jr., M.D.,	)	
Respondent.	)	

COMES NOW, the Complainant, North Dakota Board of Medicine – Investigative Panel B, and for its Complaint against the Respondent, Sherman Washington Jr., M.D., alleges and states as follows:

I.

Investigative Panel B of the North Dakota Board of Medicine ("Board") is authorized pursuant to N.D.C.C. Chapter 43-17.1 to conduct investigations related to the practice of any physician licensed to practice in this state and file a formal complaint against any licensed physician with the Board of Medicine.

II.

Sherman Washington Jr., M.D., is a physician licensed to practice medicine in the State of North Dakota.

FACTS

III.

At all times mentioned herein, Respondent was an emergency medicine physician but mostly practiced medicine online.

IV.

On September 5, 2018, Patient A received a package in the mail containing several medications that were prescribed to her by Respondent and filled at McClure's Compounding Pharmacy in Texas. Patient A has never had a physician-patient relationship with Respondent and has never met or spoken to Respondent. Thus, Respondent prescribing any medications to Patient A is inappropriate. A request for records for the treatment of Patient A was made to Respondent and no records were received. Thus, Respondent is subject to disciplinary action pursuant to the provisions of N.D.C.C. § 43-17-31 based upon Respondent's violations of the North Dakota Medical Practice Act by: (1) performing any dishonorable, unethical or unprofessional conduct likely to deceive, defraud or harm the public N.D.C.C. § 43-17-31(1)(f).; and (2) lacking appropriate documentation in medical records for diagnosis, testing and treatment of a patient as described by N.D.C.C. § 43-17-31(1)(z).

V.

WHEREFORE, Complainant respectfully requests Respondent, Sherman Washington, Jr., M.D., be disciplined for his violations of N.D.C.C. § 43-17-31 and seeks an appropriate sanction(s) for those violations as authorized by N.D.C.C. § 43-17-30.1. Complainant also respectfully requests that the Board be awarded its costs and attorney's fees in having to bring this action pursuant to N.D.C.C. § 43-17-31.1.

NOTICE: Respondent must answer this Complaint within twenty days after service of the complaint or the allegations may be deemed admitted and may result in a default order revoking the subject's license. Such answer must be served in the manner allowed for service under the North Dakota Rules of Civil Procedure.

HISTORY

This matter comes before a hearing examiner for the State Board of Medicine ("Board") on the Commonwealth's filing of a single count *Order to Show Cause* ("*OTSC*") on November 25, 2019, against Sherman Washington, M.D. ("Respondent"). In this single count, the Commonwealth charged that Respondent is subject to disciplinary action under section 41(4) of the Medical Practice Act of 1985,[1] 63 P.S. § 422.41(4), because the Virginia Board of Medicine ("Virginia Board") took disciplinary action against Respondent's Virginia medical license on or about November 14, 2019.

On November 25, 2019, the Commonwealth mailed the *OTSC* to Respondent by certified mail, electronic return receipt requested, and by first class mail, postage prepaid, at his last known address on file with the Board: 2900 N. Green Valley Parkway, Suite 114, Henderson, NV 89014. The *OTSC* that was mailed to Respondent by certified mail, return receipt requested, was delivered on November 29, 2019, and signed for by Respondent or Respondent's agent,[2] as evidenced by the United States Postal Service electronic return receipt for Certified Mail™ item number 9171 9690 0935 0226 6042 63. Hence, the Commonwealth accomplished service of its *OTSC* in accordance with the requirements of the General Rules of Administrative Practice and Procedure ("GRAPP"), 1 Pa. Code § 31.1 *et seq.*, at 1 Pa. Code § 33.31.[3]

> Orders, notices and other documents originating with an agency, including forms of agency action, complaints and similar process and other documents designated by the agency for this purpose, shall be served by the office of the agency by mail, except when service by another method shall be specifically required by the agency, by mailing a copy thereof to the person to be served, addressed to the person designated in the initial pleading or submittal at his principal office or place of business. If service is not accomplished by mail, it may be effected by anyone authorized by the

DOS Prothon
May 05 202

The *OTSC* directed Respondent to file a written answer within thirty (30) days of the date on the *OTSC*, and specifically advised Respondent that the factual allegations of the *OTSC* may be deemed admitted if Respondent failed to file an answer within the time period allowed. Respondent was also advised that if he failed to file an answer, the Board may revoke, suspend, or impose other restrictions against his license; and the Board may also impose a civil penalty of up to $10,000.00 for each violation of the Act. Respondent did not file an answer to the *OTSC*.

On December 31, 2019, the Commonwealth filed a *Motion to Deem Facts Admitted and Enter Default* ("*MDFA*"). The *MDFA* was mailed to Respondent on December 31, 2019, by first class mail, postage prepaid, at 2900 N. Green Valley Parkway, Suite 114, Henderson, NV 89014. This is the same address where the *OTSC* had been served. Respondent did not file a response to the *MDFA*.

On January 21, 2020, an *Order Granting Commonwealth's Motion to Deem Facts Admitted and Enter Default* ("*MDFA Order*") was issued on grounds that Respondent received the *OTSC* but failed to file an answer as required. The *MDFA Order* was mailed to Respondent on January 21, 2020, by first class mail, postage prepaid, at 2900 N. Green Valley Pkwy., Suite 114, Henderson, NV 89014. This is the same address where the *OTSC* and *MDFA* had been served. The *MDFA Order* was not returned to the Department of State Prothonotary and, therefore, it is presumed to have been delivered to Respondent.

DISCUSSION

Violation

A board-regulated practitioner in Pennsylvania who is disciplined by a proper licensing authority of another state is subject to disciplinary action in Pennsylvania under section 41(4) of the Act as follows:

> **Section 41. Reasons for refusal, revocation, suspension or other corrective actions against a licensee or certificate holder**
>
> The board shall have authority to impose disciplinary or corrective measures on a board-regulated practitioner for any or all of the following reasons:
>
> * * *
>
> (4) **Having a license or other authorization to practice the profession revoked or suspended or having other disciplinary action taken,** or an application for a license or other authorization refused, revoked or suspended by a **proper licensing authority of another state,** territory, possession or country, or a branch of the Federal Government.

63 P.S. § 422.41(4) (emphasis added).

The facts deemed admitted are based on the factual allegations in the *OTSC* as well as the information contained in what is alleged to be a true and correct copy of the November 14, 2019, Consent Order. These facts conclusively establish that on November 14, 2019, the Virginia Board reprimanded Respondent and assessed Respondent a monetary penalty of $1,500.00. Therefore, the Commonwealth has proven by a preponderance of the evidence[7] that Respondent's medical

[7] The degree of proof required to establish a case before an administrative tribunal in an action of this nature is a preponderance of the evidence. *Lansberry v. Pennsylvania Pub. Util. Comm'n*, 578 A.2d 600, 602 (Pa. Cmwlth. 1990), *appeal denied*, 602 A.2d 863 (Pa. 1992). A preponderance of the evidence is generally understood to mean that the

license in another state, Virginia, was disciplined by the proper licensing authority of that state, as charged in Count One of the *OTSC*.

Sanction

The Supreme Court of Pennsylvania has recognized that "[r]eciprocal discipline prevents licensed professionals from violating ethical rules, being disciplined, and then transferring to a new jurisdiction to continue to practice with an unblemished record of ethical conduct." *Khan v. State Bd. of Auctioneer Examiners*, 842 A.2d 936, 944 (Pa. 2004). There are a variety of sanctions available to prevent this from happening.

Section 42 of the Act, 63 P.S. § 422.42, sets forth the type of disciplinary or corrective measures that may be imposed for violations of the Act, including Respondent's violation of section 41(4) of the Act. Specifically, section 42(a) of the Act provides, in relevant part, as follows:

> **Section 42. Types of corrective action**
>
> **(a) Authorized actions.**—When the board is empowered to take disciplinary or corrective action against a board-regulated practitioner under the provisions of this act or pursuant to other statutory authority, the board may:
>
> * * *
>
> (2) Administer a public reprimand with or without probation.
>
> (3) Revoke, suspend, limit or otherwise restrict a license or certificate.
>
> (4) Require the board-regulated practitioner to submit to the care, counseling or treatment of a physician or a psychologist designated by the board.

evidence demonstrates a fact is more likely to be true than not to be true, or if the burden were viewed as a balance scale, the evidence in support of the Commonwealth's case must weigh slightly more than the opposing evidence. *Se-Ling Hosiery, Inc. v. Margulies*, 70 A.2d 854, 856 (Pa. 1950). The Commonwealth therefore has the burden of proving the charges against Respondent with evidence that is substantial and legally credible, not by mere "suspicion" or by only a "scintilla" of evidence. *Lansberry*, 578 A.2d at 602.

63 P.S. § 422.42(a). Additionally, a maximum civil penalty up to ten thousand dollars ($10,000.00) for each violation of the Act is authorized under either section 908 of the Medical Care Availability and Reduction of Error Act,[8] 40 P.S. § 1303.908, or section 5(b)(4) of Act 48,[9] 63 P.S. § 2205(b)(4).

The Board is charged with the responsibility and authority to oversee the profession and to regulate and license professionals to protect the public health and safety. *Barran v. State Bd. of Medicine*, 670 A.2d 765, 767 (Pa. Cmwlth. 1996), *appeal denied*, 679 A.2d 230 (Pa. 1996). With public protection in mind, the Board considers the seriousness of the violations and any mitigating evidence in fashioning a sanction fitted to the circumstances of a given disciplinary matter.

There is no mitigating evidence to consider because, although he has been given appropriate notice and the opportunity to respond, Respondent has not defended himself in the matter now before the Board. Therefore, the Board has only the seriousness of the Virginia disciplinary action to consider when determining the appropriate sanction.

The seriousness of the Virginia disciplinary action can be gauged by the underlying reasons for the disciplinary action and the type of discipline imposed. The Virginia Board disciplined

Respondent for prescribing several Schedule VI controlled substances to Patients A-F outside of a bona fide practitioner-patient relationship and for willfully refusing to provide records for Patients A-F to the Virginia Board's investigators after their repeated requests for such records from August 2018 through October 2018. For this conduct, the Virginia Board decided not to impose the more serious sanctions of suspension or revocation. Instead, the Virginia Board imposed the less serious sanctions of a reprimand and a monetary penalty.

The hearing examiner believes that it is appropriate to mirror the Virginia Board's imposition of a reprimand. A public reprimand will protect the public health and safety because it will alert Pennsylvania's citizens to Respondent's disciplinary action in Virginia, thereby allowing anyone who inquires to make an informed decision based upon the public information available.

Although the Virginia Board assessed a monetary penalty, the hearing examiner does not believe that it is necessary to impose a monetary penalty in Pennsylvania. Civil penalties are typically imposed for purposes of deterrence. It is understandable that the Virginia Board would want to deter Respondent from committing similar violations in the future in Virginia, given the fact that Respondent had an active license in Virginia at the time he entered into the Consent Order. Respondent is presumably not practicing in Pennsylvania because his Pennsylvania license has been expired since December 31, 2014, prior to his violations of Virginia law. Therefore, it is not necessary to impose a civil penalty in Pennsylvania for purposes of added deterrence.

Accordingly, based upon the foregoing, the following order shall issue:

1.3 The Commission's investigator contacted the Respondent by phone on July 18, 2018, and the Respondent acknowledged receipt of the letter of cooperation and requested that the letter be emailed to him. The investigator emailed the letter of cooperation to the Respondent that same day. No response was received.

Improper Prescribing

1.7 Between January 2017 and April 2018 Respondent worked for HealthRight, a telemedicine company, where he prescribed topical applications and other high cost medications (pain patches, ointments and creams).

1.8 The patients to whom Respondent prescribed the medications were solicited by the HealthRight who obtained the patient's contact information after the patient completed an online survey about their pain. Representatives of the HealthRight "cold called" the patients who shared their insurance information. Subsequently the "electronic consultations" were completed and Respondent then reviewed the consultation notes and wrote prescriptions.

1.9 Respondent has acknowledged working for "four or five" different telemedicine companies and having "thousands of patients." At least six of such patients, Patients A through F, resided in the State of Washington.

No Physician-Patient Relationship.

1.10 At no point before, during, or after prescribing medication did Respondent speak with Patients A through F, in person or on the phone, to establish a physician-patient relationship or to discuss treatment history, plan of care, and treatment options.

1.11 Respondent did not conduct a physical examination or document any evaluation of the patient's health history in the health record prior to prescribing medication. There was no interaction whatsoever between Respondent and the patients.

//

//

No Informed Consent.

1.12 At no point before, during, or after prescribing medication did Respondent meet or speak with the patients, in person or on the phone, to obtain informed consent for the prescriptions he wrote. At no time was it ever conveyed to the patients that prescriptions would be sent. More importantly, there was never a clear discussion of *what* prescriptions would be sent, *how* to use them, expected outcomes, risks and benefits, and rationale for prescribing.

>
> (1) The commission of any act involving moral turpitude, dishonesty, or corruption relating to the practice of the person's profession, whether the act constitutes a crime or not. If the act constitutes a crime, conviction in a criminal proceeding is not a condition precedent to disciplinary action. Upon such a conviction, however, the judgment and sentence is conclusive evidence at the ensuing disciplinary hearing of the guilt of the license holder of the crime described in the indictment or information, and of the person's violation of the statute on which it is based. For the purposes of this section, conviction includes all instances in which a plea of guilty or nolo contendere

is the basis for the conviction and all proceedings in which the sentence has been deferred or suspended. Nothing in this section abrogates rights guaranteed under chapter 9.96A RCW;

...

(4) Incompetence, negligence, or malpractice which results in injury to a patient or which creates an unreasonable risk that a patient may be harmed. The use of a nontraditional treatment by itself shall not constitute unprofessional conduct, provided that it does not result in injury to a patient or create an unreasonable risk that a patient may be harmed;

...

(6) Except when authorized by RCW 18.130.345, the possession, use, prescription for use, or distribution of controlled substances or legend drugs in any way other than for legitimate or therapeutic purposes, diversion of controlled substances or legend drugs, the violation of any drug law, or prescribing controlled substances for oneself;

...

(8) Failure to cooperate with the disciplining authority by:

(a) Not furnishing any papers, documents, records, or other items;
