EXHIBIT "5"

Title: Clinical Documentation Supporting Compounded Preparations
Policy/Procedure Number: 6.14

Responsibility:
This procedure is the responsibility of the Pharmacist-in-Charge.

Purpose:

The purpose of this procedure is to provide a method for locating information supporting the "clinical/therapeutic value of ingredient(s) contained in compounded preparations that are "marketed" via providing prescribers with pre-printed prescription pads or are promoted using sales efforts to patients and/or physicians".

Procedure:

1 Determine which ingredients are "active pharmaceutical ingredients (APIs)" in a formulation.
2. Determine whether or not the ingredient(s) are contained in FDA- approved/recognized commercially available drug products in a similar dosage form.
3. If the response to #2 is "yes", then use the FDA-approved/recognized package insert as the supporting information.
4. If the response to #2 is "no", then conduct a search on "MEDLINE/PubMed" using appropriate search terms (API, Therapeutics or similar) to locate abstracts that are applicable.
5. Evaluate the obtained abstracts for appropriateness for the specific compounded formulation.
6. Print out the abstract or provide the literature citation (or the MEDLINE/PubMed URL).
7. Provide the obtained information to the requestor and input the appropriate information resources on the Formulation Record.

Note: The phrase "FDA-approved/recognized commercially available drug products" is used because there are many manufactured products on the market that may not have been FDA-approved but are "recognized" by the FDA and manufacturing is allowed (Pre-1938 drugs, OTC drugs, etc).

Subject: Re: Review of 6 prescriptions with copied or computer generated signatures

To Whom it may concern:

I have reviewed the prescription that have been brought t to my attention . I have no knowledge as to how these prescriptions appear identical . This prescriptions were over year ago and my memory is not that sharp. This could never happen in my office in the present and the future , because i have converted 100 percent to electronic prescriptions .

Dr. Washington,

I have attached 6 of the prescriptions located during a inspection at Las Vegas Scripts. The signatures are either computer generated or copied prescription blanks. Either way, they are in violation of NAC 454.060 and NRS 454.223. Please review the prescriptions and call me so we can discuss them. My contact information is listed below. Monday morning I will be available between 9:00amd and noon. Also between 2:30pm and 5:00pm in the afternoon Monday. I am unavailable Tuesday to Thursday because of Board meetings. I will be available most of the day on Friday.

You are hereby ordered pursuant to NRS 639.2895(1) to immediately CEASE and DESIST possessing, administering, prescribing and/or dispensing controlled substances and dangerous drugs for Nevada patients from your practice. This letter shall serve as a CITATION pursuant to NRS 639.2895(2) for your unlicensed practice. The Board has assessed you an administrative fine of five thousand dollars ($5,000.00) pursuant to NRS 639.2895(3).

You must pay this administrative fine within 30 days of receipt of this citation, or otherwise contact Board staff to request an alternative payment plan. PARTNERSHIP AGREEMENT

THIS PARTNERSHIP AGREEMENT (the "Agreement") made and entered into this 23rd day of March, 2022 (the "Execution Date"),

BETWEEN:

Mouna Mazloumi of 1007 Rocky Coast Ct, Henderson, NV 89002, USA, and
Ani Avetyan of 17144 Vose St, Van Nuys, CA 91406, USA
(individually the "Partner" and collectively the "Partners").

BACKGROUND:

A. The Partners wish to associate themselves as partners in business.
B. This Agreement sets out the terms and conditions that govern the Partners within the Partnership.

IN CONSIDERATION OF and as a condition of the Partners entering into this Agreement and other valuable consideration, the receipt and sufficiency of which consideration is acknowledged, the parties to this Agreement agree as follows:

Formation

1. By this Agreement the Partners enter into a general partnership (the "Partnership") in accordance with the laws of The State of Nevada. The rights and obligations of the Partners will be as stated in the applicable legislation of The State of Nevada (the 'Act') except as otherwise provided in this Agreement.

Name

2. The firm name of the Partnership will be: Capsules Rx LLC.

Purpose

3. The purpose of the Partnership will be: Pharmacy.

Term

4. The Partnership will begin on March 23rd, 2022 and will continue until terminated as provided in this Agreement.

Place of Business

5. The principal office of the business of the Partnership will be located at 3828 Meadows Ln, Las Vegas, NV 89107, USA or such other place as the Partners may from time to time designate.

Initial Capital Contributions

6. Each of the Partners has contributed or will contribute to the capital of the Partnership, in cash or property or in non-monetary contributions in agreed upon value, as follows (the "Initial Capital Contribution"):

Partner	Contribution Description	Agreed Value
Mouna Mazloumi	- Time and effort: PIC, with an approximate value of $101,000.00 - Other: Business Management with an approximate amount of $ 49,000.00 Initials: MM AA	$150,000.00
Ani Avetyan	- Cash: $150,000.00	$150,000.00

7. All Partners must contribute their respective Initial Capital Contributions fully by March 23, 2022.

Additional Capital

8. The capital contribution of a Partner comprises that Partner's Initial Capital Contribution and any additional capital contribution (the "Additional Capital Contribution") made by that Partner to the Partnership at a later date (together the "Capital Contribution"). No Partner will be required to make an Additional Capital Contribution. When the Partnership requires additional capital, each Partner will have the opportunity to make an Additional Capital Contribution in proportion to that Partner's share of the total Capital Contributions to the Partnership. If an individual Partner is unwilling or unable to meet the additional contribution requirement within a reasonable period, as required by Partnership business obligations, then by a unanimous vote of the Partners the remaining Partner may contribute in proportion to their existing Capital Contributions to resolve the amount in default.

9. Any advance of money to the Partnership by any Partner in excess of the amounts provided for in this Agreement or subsequently agreed to as Additional Capital Contribution will be deemed a debt owed by the Partnership and not an increase in Capital Contribution of the Partner. This liability will be repaid with interest at rates and times to be determined by a majority of the Partners within the limits of what is required or permitted in the Act. This liability will not entitle the lending Partner to any increased share of the Partnership's profits nor to a greater voting power. Such debts may have preference or priority over any other payments to Partners as may be determined by a majority of the Partners.

Withdrawal of Capital

10. No Partner will withdraw any portion of their Capital Contribution without the express written consent of the remaining Partners.

Capital Accounts

11. An individual capital account (the "Capital Accounts") will be maintained for each Partner and their Initial Capital Contribution will be credited to this account. Any Additional Capital Contributions made by any Partner will be credited to that Partner's individual Capital Account.

Interest on Capital

12. No borrowing charge or loan interest will be due or payable to any Partner on their agreed Capital Contribution inclusive of any agreed Additional Capital Contributions.

Financial Decisions

13. Decisions regarding the distribution of profits, allocation of losses, and the requirement for Additional Capital Contributions as well as all other financial matters will be decided by a unanimous vote of the Partners.

Profit and Loss

14. Subject to the other provisions of this Agreement, the net profits and losses of the Partnership, for both accounting and tax purposes, will accrue to and be borne by the Partners in proportion to the Partner's Capital Contributions inclusive of any Additional Capital Contributions (the "Profit and Loss Contribution").

Books of Account

15. Accurate and complete books of account of the transactions of the Partnership will be kept in accordance with generally accepted accounting principles (GAAP) and at all reasonable times will be available and open to inspection and examination by any Partner. The books and records of the Partnership will reflect all the Partnership's transactions and will be appropriate and adequate for the business conducted by the Partnership.

Annual Report

16. As soon as practicable after the close of each fiscal year, the Partnership will furnish to each Partner an annual report showing a full and complete account of the condition of the Partnership. This report will consist of at least the following documents:

    a. a statement of all information as will be necessary for the preparation of each Partner's income or other tax returns;

    b. a copy of the Partnership's federal income tax returns for that fiscal year;

    c. supporting income statement;

    d. a balance sheet;

    e. a cash flow statement;

    f. a breakdown of the profit and loss attributable to each Partner; and

g. any additional information that the Partners may require.

Banking and Partnership Funds

17. The funds of the Partnership will be placed in such investments and banking accounts as will be designated by the Partners. All withdrawals from these bank accounts will be made by the duly authorized agent or agents of the Partners as agreed by unanimous consent of the Partners. Partnership funds will be held in the name of the Partnership and will not be commingled with those of any other person or entity.

Fiscal Year

18. The fiscal year will end on January 1 of each year.

Audit

19. Any of the Partners will have the right to request an audit of the Partnership books. The cost of the audit will be borne by the Partnership. The audit will be performed by an accounting firm acceptable to all the Partners. Not more than one (1) audit will be required by any or all of the Partners for any fiscal year.

Management

20. Except as all of the Partners may otherwise agree in writing, all actions and decisions respecting the management, operation and control of the Partnership and its business will be decided by a unanimous vote of the Partners.

Contract Binding Authority

21. Each Partner will have authority to bind the Partnership in contract.

Tax Elections

22. The Partnership will elect out of the application of Chapter 63 Subchapter C of the Internal Revenue Code of 1986, in each taxable year in which it is eligible to do so in accordance with Section 6221(b), by making that election in a timely filed return for such taxable year disclosing the name and taxpayer identification number of each Partner.

Meetings

23. Regular meetings of the Partners will be held only as required.

24. Any Partner can call a special meeting to resolve issues that require a vote, as indicated by this Agreement, by providing all Partners with reasonable notice. In the case of a special vote, the

meeting will be restricted to the specific purpose for which the meeting was held.

25. All meetings will be held at a time and in a location that is reasonable, convenient and practical considering the situation of all Partners.

Admitting a New Partner

26. No new Partners may be admitted into the Partnership.

Voluntary Withdrawal of a Partner

27. Any Partner will have the right to voluntarily withdraw from the Partnership at any time. Written notice of intention to withdraw must be served upon the remaining Partners at least three (3) months prior to the withdrawal date.

28. The voluntary withdrawal of a Partner will result in the dissolution of the Partnership.

29. A Dissociated Partner will only exercise the right to withdraw in good faith and will act to minimize any present or future harm done to the remaining Partners as a result of the withdrawal.

Involuntary Withdrawal of a Partner

30. Events resulting in the involuntary withdrawal of a Partner from the Partnership will include but not be limited to: death of a Partner; Partner mental incapacity; Partner disability preventing reasonable participation in the Partnership; Partner incompetence; breach of fiduciary duties by a Partner; criminal conviction of a Partner; Expulsion of a Partner; Operation of Law against a Partner; or any act or omission of a Partner that can reasonably be expected to bring the business or societal reputation of the Partnership into disrepute.

31. The involuntary withdrawal of a Partner will result in the dissolution of the Partnership.

32. A trustee in bankruptcy or similar third party who may acquire that Dissociated Partner's interest in the Partnership will only acquire that Partner's economic rights and interests and will not acquire any other rights of that Partner or be admitted as a Partner of the Partnership or have the right to exercise any management or voting interests.

Dissociation of a Partner

33. Where the dissociation of a Partner for any reason results in the dissolution of the Partnership then the Partnership will proceed in a reasonable and timely manner to dissolve the Partnership, with all debts being paid first, prior to any distribution of the remaining funds. Valuation and distribution will be determined as described in the Valuation of Interest section of this Agreement.

34. The remaining Partners retain the right to seek damages from a Dissociated Partner where the dissociation resulted from a malicious or criminal act by the Dissociated Partner or where the Dissociated Partner had breached their fiduciary duty to the Partnership or was in breach of this Agreement or had acted in a way that could reasonably be foreseen to bring harm or damage to the Partnership or to the reputation of the Partnership.

Dissolution

35. Except as otherwise provided in this Agreement, the Partnership may be dissolved only with the unanimous consent of all Partners.

Distribution of Property on Dissolution of Partnership

36. In the event of the dissolution of the Partnership, Partnership assets or liabilities will be shared according to the following dissolution distribution schedule, unless an Additional Capital Contribution has been made which changed the Initial Capital Contribution proportions of the Partners in which case the Partners will share the assets or liabilities in proportion to their respective Capital Contributions (the "Dissolution Distribution").

PARTNER	DISSOLUTION DISTRIBUTION PERCENT
Mouna Mazloumi	51%
Ani Avetyan	49%

37. Upon Dissolution of the Partnership and liquidation of Partnership Property, and after payment of all selling costs and expenses, the liquidator will distribute the Partnership assets to the following groups according to the following order of priority:

a. in satisfaction of liabilities to creditors except Partnership obligations to current Partners;

b. in satisfaction of Partnership debt obligations to current Partners; and then

c. to the Partners according to the Dissolution Distribution described above.

38. The claims of each priority group will be satisfied in full before satisfying any claims of a lower priority group. Any excess of Partnership assets after liabilities or any insufficiency in Partnership assets in resolving liabilities under this section will be shared by the Partners according to the Dissolution Distribution described above.

Valuation of Interest

39. In the absence of a written agreement setting a value, the value of the Partnership will be based on the fair market value appraisal of all Partnership assets (less liabilities) determined in accordance with generally accepted accounting principles (GAAP). This appraisal will be conducted by an independent accounting firm agreed to by all Partners. An appraiser will be appointed within a reasonable period of the date of withdrawal or dissolution. The results of the appraisal will be binding on all Partners. A withdrawing Partner's interest will be based on that Partner's proportion of the Dissolution Distribution described above, less any outstanding liabilities the withdrawing Partner may have to the Partnership. The intent of this section is to ensure the survival of the Partnership despite the withdrawal of any individual Partner.

40. No allowance will be made for goodwill, trade name, patents or other intangible assets, except where those assets have been reflected on the Partnership books immediately prior to valuation.

Goodwill

41. The goodwill of the Partnership business will be assessed at an amount to be determined by appraisal using generally accepted accounting principles (GAAP).

Title to Partnership Property

42. Title to all Partnership Property will remain in the name of the Partnership. No Partner or group of Partners will have any ownership interest in such Partnership Property in whole or in part.

Voting

43. Any vote required by the Partnership will be assessed where each Partner receives one vote carrying equal weight, unless an Additional Capital Contribution has been made which changed the Initial Capital Contribution proportions of the Partners in which case each Partner will have voting strength in proportion to Capital Contributions.

Force Majeure

44. A Partner will be free of liability to the Partnership where the Partner is prevented from executing their obligations under this Agreement in whole or in part due to force majeure, such as earthquake, typhoon, flood, fire, and war or any other unforeseen and uncontrollable event where the Partner has communicated the circumstance of said event to any and all other Partners and taken any and all appropriate action to mitigate said event.

Duty of Loyalty

45. No Partner will engage in any business, venture or transaction, whether directly or indirectly, that might be competitive with the business of the Partnership or that would be in direct conflict of interest to the Partnership without the unanimous written consent of the remaining Partners. Any and all businesses, ventures or transactions with any appearance of conflict of interest must be fully disclosed to all other Partners. Failure to comply with any of the terms of this clause will be deemed an Involuntary Withdrawal of the offending Partner and may be treated accordingly by the remaining Partners.

Duty of Accountability for Private Profits

46. Each Partner must account to the Partnership for any benefit derived by that Partner without the consent of the other Partners from any transaction concerning the Partnership or any use by that Partner of the Partnership property, name or business connection. This duty continues to apply to any transactions undertaken after the Partnership has been dissolved but before the affairs of the Partnership have been completely wound up by the surviving Partner or Partners or their agent or agents.

Duty to Devote Time

47. Each Partner will devote such time and attention to the business of the Partnership as the majority of the Partners will from time to time reasonably determine for the conduct of the Partnership business.

Actions Requiring Unanimous Consent of the Partners

48. The following list of actions will require the unanimous consent of all Partners:

    a. assigning check signing authority;

    b. committing the Partnership to new liabilities or obligations totaling over $5,000.00 USD;

    c. incurring single expenditures that exceed $5,000.00 USD;

    d. firing of any employee except in the case of gross misconduct that exposes the Partnership to possible liability; and

    e. endangering the ownership or possession of Partnership property.

49. Any losses incurred as a result of a violation of this section will be charged to and collected from the individual Partner that acted without unanimous consent and caused the loss.

Forbidden Acts

50. No Partner may do any act in contravention of this Agreement.

51. No Partner may permit, intentionally or unintentionally, the assignment of express, implied or apparent authority to a third party that is not a Partner in the Partnership.

52. No Partner may do any act that would make it impossible to carry on the ordinary business of the Partnership.

53. No Partner may confess a judgment against the Partnership.

54. No Partner will have the right or authority to bind or obligate the Partnership to any extent with regard to any matter outside the intended purpose of the Partnership.

55. Any violation of the above Forbidden Acts will be deemed an Involuntary Withdrawal of the offending Partner and may be treated accordingly by the remaining Partners.

Indemnification

56. All Partners will be indemnified and held harmless by the Partnership from and against any and all claims of any nature, whatsoever, arising out of a Partner's participation in Partnership affairs. A Partner will not be entitled to indemnification under this section for liability arising out of gross negligence or willful misconduct of the Partner or the breach by the Partner of any provisions of this Agreement.

Mediation

57. If any dispute relating to this Agreement between Partners, or between one or more Partners and the Partnership, is not resolved through formal discussion within 14 days from the date a dispute arises, the Partners agree to submit the issue first before a mediator. The decision of the mediator will be non-binding on the Partners. Any mediator must be a neutral party to all Partners. The cost of any mediation will be shared equally by the Partners.

Liability

58. A Partner will not be liable to the Partnership, or to any other Partner, for any mistake or error in judgment or for any act or omission done in good faith and believed to be within the scope of authority conferred or implied by this Agreement or the Partnership.

Liability Insurance

59. The Partnership may acquire insurance on behalf of any Partner, employee, agent or other person engaged in the business interest of the Partnership against any liability asserted against them or incurred by them while acting in good faith on behalf of the Partnership.

Life Insurance

60. The Partnership will have the right to acquire life insurance on the lives of any or all of the Partners, whenever it is deemed necessary by the Partnership. Each Partner will cooperate fully with the Partnership in obtaining any such policies of life insurance.

Amendments

61. This Agreement may not be amended in whole or in part without the unanimous written consent of all Partners.

Governing Law and Jurisdiction

62. This Agreement will be construed in accordance with and exclusively governed by the laws of The State of Nevada.

63. The Partners submit to the jurisdiction of the courts of The State of Nevada for the enforcement of this Agreement or any arbitration award or decision arising from this Agreement.

NEVADA STATE BOARD OF PHARMACY

985 Damonte Ranch Parkway, Suite 206 – Reno, NV 89521 – 775-850-1440

Designated Representative Application

Rev (04/22/2021)

An application for a license, or a licensee with a license, to conduct a pharmacy or to operate as a wholesaler shall designate at least one natural person to serve as the representative of the pharmacy or wholesaler. The Board will not issue or renew a license of an applicant or licensee that is required to designate a representative of a pharmacy or wholesaler unless the Board determines that the designated natural person meets the following qualifications per NAC 639.5005 (Pharmacy) or NAC 639.5935 (Wholesaler):

1. Is at least 21 years of age;
2. Has been employed for at least 6,000 hours in a pharmacy or with a wholesaler in a capacity related to the dispensing and distribution of, and recordkeeping related to, prescription drugs.

The designated representative of a pharmacy or a wholesaler:

1. Must be actively involved in and aware of the actual daily operations of the pharmacy or wholesaler;
2. Must be employed full-time in a managerial level position with the pharmacy or wholesaler;
3. Must be physically present at site of the pharmacy or at the facility of the wholesaler during regular business hours, except when the absence of the representative is authorized, including sick leaves, vacation leaves and other authorized absences; and
4. May serve in this representative capacity for only one pharmacy or wholesaler at a time

A pharmacy or wholesaler that is required to designate a natural person as its representative shall not open or operate the pharmacy or wholesaler unless that representative is actually employed full-time in the operation of the pharmacy or wholesaler and is physically present at the site of the pharmacy or wholesaler during regular working hours, not including sick leave, vacation leave and other authorized absences from work. If the natural person designated as the representative of a pharmacy leaves the employ of the pharmacy or wholesaler, thus leaving the pharmacy or wholesaler without a representative in violation of this section, the pharmacy or wholesaler shall:

1. Immediately cease conducting business until another qualified natural person is approved by the Board to serve as the representative of the pharmacy or wholesaler; and
2. Not later than 48 hours after that person leaves its employ, notify the Board that the person designated as the representative of the pharmacy or wholesaler has left the employ of the pharmacy or wholesaler.

Before a pharmacy or wholesaler, that is in violation of NAC 639.5005 (Pharmacy) or NAC 639.5935 (Wholesaler) because the natural person designated as the representative of the pharmacy or wholesaler left the employ of the pharmacy or wholesaler, may continue conducting business:

1. The pharmacy or wholesaler must designate, on a form provided by the Board, a new natural person to serve as the representative of the pharmacy; and
2. The Board must approve the natural person so designated.

To: Pharmacy Manager
FROM: Nevada State Board of Pharmacy Inspector
SUBJECT: Self-Assessment Inspection Process

The Board of Pharmacy's established self-assessment inspection process provides management the opportunity to review the standards by which the board inspects your operation. The process recognizes you as the responsible person to implement and review policies and procedures necessary to provide a quality standard of pharmaceutical services. An inspection evaluation form must be obtained from the NVBOP website to self-assess compliance with Nevada pharmacy law. An inspector will review the form with you and inspect your facility during the month listed on your inspection notice. Please have the self-assessment form completed and available for review by the first day of the month listed on your inspection notice.

An inspector will conduct a review of your operation. Observations, along with your findings, will assure understanding and compliance with Nevada law.

Please attach your inspection notice that you received in the mail to your completed self-assessment inspection form.

To minimize the disruption to your facility during the inspection process please have the following documents available:

Completed inspection form along with prior year inspection form

Please have the self-assessment form completed and available for review by the first day of the month listed on your inspection notice.

An inspector will conduct a review of your operation. Observations, along with your findings, will assure understanding and compliance with Nevada law.

ISMP General Guidelines:

Use more than one patient identifier when medications are picked up (i.e. name, address, phone number, date of birth, other).

Open the medication bottle and show the medication to the patient on all refill or new prescriptions that the pharmacist counsels on.

Arrange drug products that have similar or confusing manufacturer labeling, packaging, and/or drug names (that look or sound alike) to be clearly separated on shelves or have warnings.

Use a system to separate patient orders and keep multiple filled prescriptions for a patient together.

Write out all prescription information avoiding the use of error prone abbreviations on all phoned in scripts and notations in the computer.

Repeat back "echo" information to the practitioner or practitioner's agent.

Say and repeat back numbers as digits "five zero milligrams rather than 50 milligrams."

General guidelines related to receipt of prescriptions:

Transmission of prescriptions be facsimile machine – Written prescriptions and faxed prescriptions, regardless of method of receipt via standalone fax, by a computerized fax queue or other fax method, require the handwritten signature of the prescribing practitioner. A prescription received via fax or written is not a legal prescription without a handwritten signature. A pharmacist must validate that a prescription received by fax in a computer fax queue has a handwritten signature and not an electronically signed or stamped signature.

A practitioner may sign a paper prescription in the same manner as he or she would sign a check or legal document. Where an oral order is not permitted, paper prescriptions shall be written with ink or indelible pencil, typewriter, or printed on a computer printer and shall be manually signed by the practitioner. A computer generated prescription that is printed out or faxed by the practitioner must be manually signed.

Electronic transmission of prescription – The electronic signature must be digitally signed with at least all of the information required under part 1306, Prescriptions, of 21 CFR. A prescription that is digitally signed with a practitioner's private key may be transmitted to a pharmacy without the digital signature.

To: Pharmacy Manager
FROM: Nevada State Board of Pharmacy Inspector
SUBJECT: Self-Assessment Inspection Process

The Board of Pharmacy's established self-assessment inspection process provides management the opportunity to review the standards by which the board inspects your operation. The process recognizes you as the responsible person to implement and review policies and procedures necessary to provide a quality standard of pharmaceutical services. An inspection evaluation form must be obtained from the NVBOP website to self-assess compliance with Nevada pharmacy law. An inspector will review the form with you and inspect your facility during the month listed on your inspection notice. Please have the self-assessment form completed and available for review by the first day of the month listed on your inspection notice.

An inspector will conduct a review of your operation. Observations, along with your findings, will assure understanding and compliance with Nevada law.

Please attach your inspection notice that you received in the mail to your completed self-assessment inspection form.

To minimize the disruption to your facility during the inspection process please have the following documents available:

Completed inspection form along with prior year inspection form

Re: Inspection Report # **8-5106-10-1445**

Dear Mr. Molokie:

This letter is to advise you that the New Jersey State Board of Pharmacy (the "Board") has had an opportunity to review information concerning the above inspection report.

Upon review of all available information, the board has preliminarily found that you are responsible for the violations noted on **Attachment A.**

The Board has determined that it will first offer you an opportunity to settle this matter and thereby avoid the initiation of formal disciplinary proceedings. Should you wish to avail yourself of this opportunity, you should sign the acknowledgment below and agree to the following:

1. **Cease and desist** in engaging in the conduct alleged and pay a penalty in the amount of **$50.00** (to be paid upon signing of this certification).
2. Provide to the Board **a Letter of Correction.**

Alternatively you may waive your right to a hearing and submit a written statement or explanation to the Board. The Board will then consider your submission and render a final decision, which may include any of the terms set forth above. Any disposition by way of a settlement will be a public record, and will have the same effect as an order of the Board. Any failure to comply with the terms to which you agree will be deemed a violation.

If you do not wish to settle this matter, you may request a hearing. In that event, this letter will serve as notice of the charges against you and a hearing will be scheduled before the Board. At that hearing you either personally or with the assistance of an attorney will have an opportunity to respond to the charges and submit evidence and present testimony as may be necessary in order for the Board to make a final determination concerning the charges of unlawful activity.

DIVISION OF CONSUMER AFFAIRS
BOARD OF PHARMACY
124 HALSEY ST., 6TH FL., P.O. BOX 45013
NEWARK, NJ 07101

You should be aware that in making its final decision, the Board may, if unlawful activity has been proven, assess civil penalties in an amount greater than that offered in this letter. Additionally, the Board may, if the facts are found to so warrant, enter an order requiring you to reimburse certain monies, directing you to cease and desist from engaging in unlawful acts and/or requiring you to pay costs incurred in the matter.

Should you have any questions concerning this letter or the settlement offer herein, I suggest that you contact The Board of Pharmacy, at (973) 504-6450.

The enclosed certification should be completed and returned to the Board within fifteen (15) days following your receipt of this letter. In the event that the Board receives no response from you within fifteen (15) days, the Board's settlement offer will be withdrawn, and you will be deemed in default. The allegations against you will be deemed uncontested. The Board will then proceed to schedule the matter for final review and will enter an appropriate order. Once an order has been entered, your failure to pay any penalties may result in further action to suspend or revoke your license.

Topic IV **Applications:**
1. Kabafusion DS89700 **Relocation** **Time: 8:06 AM**

Represented by: John Leary MOR, Attorney Paul Garbarini

Recusal: None

Discussion: Pharmacy desires to relocate from Shrewsbury to Lexington. It is a 7,000 sq. ft. design, with 400 sq. ft. for the clean room. This is a home infusion pharmacy that specializes in IG therapy. Mr. Leary has had MOR experience at several other pharmacies, but he started with Kabafusion in April, 2020. Leary has limited experience with sterile compounding, as he has more regulatory background. Kabafusion has a robust training program including videos, online courses and modules, and didactic learning. On his own, Leary has also been taking courses through ASHP and on USP. Fran McAteer has

had a role in training on environmental monitoring. Leary and the previous MOR, Fidelis Fynn did a self-inspection together. Now, Mr. Fynn has passed the MOR role onto Leary, and Fynn has become the director of operations for Kabafusion. Kabafusion is open Monday – Friday. They plan to be moving everything on the weekend, although all the new equipment will be already in the Lexington location. When they are closed, Kabafusion has 24-hour access to an on call pharmacist and nurse, and other facilities as backup.

Action: Motion by L. GIAMBARRESI, seconded by S. HAMILTON, and voted unanimously by roll call by those present to approve the relocation pending successful inspection.

---

2. St. Mary's Pharmacy **New Community Pharmacy** **Time: 8:15 AM**

Represented by: Bakheet Shenoda, MOR

Recusal: None

Discussion: Bakheet and the owner will open a new retail pharmacy in North Andover. It is located in a plaza on the end, with one neighbor to the left, a beauty salon. There is no access from the neighboring store and no access from above tenants. Points of entry are limited to a front door and back door, but Bakheet assured the back door will always be closed. Bakheet was previously MOR at NPH Pharmacare pharmacy for 4 months in Whitinsville and was a floater pharmacist for CVS. This pharmacy will be providing vaccinations, with a privacy room area surrounded by curtains. They will be reaching out to nearby nursing homes to assess the need for compliance packaging. They will perform simple compounding, such as oral suspensions. Staffing will be 1 pharmacist and 1 technician to start. They have an after-hours voicemail with access to a pharmacist on call. Training for non-sterile compounding for the pharmacist will be reassessed every 6 months, to inspect compounding area and add safety precautions.

Action: Motion by L. GIAMBARRESI, seconded by S. HAMILTON, and voted unanimously by roll call by those present to approve the relocation pending successful inspection.

---

3. BIDMC Pharmacy **New Community Pharmacy/Relocation Time: 8:29 AM**

Represented by: David Young, Luca Cattaneo, Kim Nguyen

Recusal: J. LANZA and H. ENGMAN recused and were not present for the discussion or vote in this matter.

Discussion: Beth Israel Deaconess Medical Center (BIDMC) is looking to operate 2 separate, licensed pharmacies without a physical barrier and with a shared production area. One pharmacy will be designated as a specialty pharmacy while the other will be a retail pharmacy focusing on central fill for their Boston location. There will be designated areas with signage specific to each pickup. The representatives answered questions from the Board members regarding security measures, including that there will be 73 security cameras in use and 37 of those cameras focused on the production area. Each pharmacy will have its own inventory, physically separated by lines of demarcation and routinely

reconciled. Specifically, cycle counts will occur every Friday for the specialty pharmacy. They do not plan to have any of the same medications in each pharmacy. The specialty side will just keep specialty medications. Each pharmacy will have its own phone number, labels, and signage. There will be 2 DEA numbers and 2 separate MORs. The representatives assured members of the Board that they will not be sharing staff between the 2 spaces. Concerns were raised about accountability and who would be held responsible for this pilot project because this model is unprecedented. Pharmacists Chirag, David Young, and Luca Cattaneo will all be responsible and dedicated to running this project, rather than BIDMC. This facility allows them to expand services and provide a high touch with patients. They can enhance patient management by focusing more efforts on high risk patients. Separate licenses operating in the same pharmacy space is requested because accreditation efforts and costs for the specialty pharmacy are labor intensive, as well as creating opportunity for contracts that are typically restricted to specialty pharmacies.

Action: Motion by L. GIAMBARRESI, seconded by K. THORNELL, and voted unanimously by roll call by those present to approve the central fill petition.

Action: Motion by L. GIAMBARRESI, seconded by P. GANNON, and voted unanimously by roll call by those present to approve the pilot project contingent upon the following conditions:

- Approval of the DEA
- Specific metrics and reporting schedule to be determined in conjunction with Board staff
- Pilot project to begin 6 months from the date both pharmacies are open and operational

Action: Motion by L. GIAMBARRESI, seconded by P. GANNON, and voted unanimously by roll call by those present to approve the relocation of BIDMC Specialty Pharmacy pending a successful inspection.

Action: Motion by L. GIAMBARRESI, seconded by P. GANNON, and voted unanimously by roll call by those present to approve a new retail license for BILH Pharmacy Direct pending a successful inspection.

TOPIC V **Flex:** **Time: 9:11 AM**

Topic VI: **M.G.L. 65 C #1** **Time: 9:15 AM**

Regarding Massachusetts Board of Pharmacy Complaint No. PHA-2019-0071 and Non-Disciplinary Consent Agreement for Stayed Probation for KabaFusion, Inc. (Shrewsbury)

Complaint No. PHA-2019-0071 was regarding a failure to report an above action level regarding the 2/20/2019 environmental monitoring.

KabaFusion, Inc. was party to a non-disciplinary condition agreement dated 8/12/2020 with the Massachusetts Board of Pharmacy. The pharmacy was inspected on 6/20/2019 and passed the inspection. After the inspection, KabaFusion and the Massachusetts Board of Pharmacy continued to review and discuss the pharmacy's environmental monitoring procedures and determined that monthly samples would receive routine testing and reporting by a third-party lab. A new pharmacist-in-charge/manager of record took over day to day management of the pharmacy on 6/22/2020 and KabaFusion also completed and passed additional routine inspections by the Board on 12/09/2019, 12/04/2020, 2/24/2021 and 11/10/2021.

On 10/01/2021 the pharmacy received notice from the Massachusetts Board of Pharmacy that all requirements of the agreement were satisfied.

A copy of the Non-Disciplinary Consent Agreement and Notice of Restoration are enclosed.

NON-DISCIPLINARY CONSENT AGREEMENT FOR STAYED PROBATION

The Massachusetts Board of Registration in Pharmacy ("Board") and Kabafusion ("Licensee" or "Pharmacy"), a pharmacy licensed by the Board, DS89700, do hereby stipulate and agree that the following information shall be entered into and become a permanent part of the Pharmacy's record maintained by the Board:

As such, this sample was above USP 797 action levels.

   c. The Pharmacy failed to immediately remedy the February 20, 2019 above action level environmental monitoring result, in violation of USP 797 and 247 CMR 9.01(3).

g. The foregoing facts warrant action by the Board under M.G.L. c. 112, §§ 42A and 61 and 247 CMR 10.03(1)(a), (v), and (bb).

3. The Pharmacy agrees that its pharmacy license shall be placed on PROBATION for one (1) year, and that the probation shall be STAYED for no more than one (1) year ("Stayed Probationary Period"), commencing with the date on which the Board signs this Agreement ("Effective Date").       ii. the Board and the Pharmacy sign a subsequent agreement; or

[2] In all instances where this Agreement specifies written notice to the Licensee from the Board, such notice shall be sent to the Licensee's address of record.

[3] The term "Subsequent Complaint" applies to a complaint opened after the Effective Date concerning acts, omissions, or events occurring after the Effective Date, which (1) alleges that the Pharmacy engaged in conduct that violates Board statutes or regulations, and (2) is substantiated by evidence, as determined following the complaint investigation during which the Pharmacy shall have an opportunity to respond.

Re: Inspection Report # **8-6108-10-1445**

Dear Mr. Molokie:

This letter is to advise you that the New Jersey State Board of Pharmacy (the "Board") has had an opportunity to review information concerning the above inspection report.

Upon review of all available information, the board has preliminarily found that you are responsible for the violations noted on **Attachment A.**

The Board has determined that it will first offer you an opportunity to settle this matter and thereby avoid the initiation of formal disciplinary proceedings. Should you wish to avail yourself of this opportunity, you should sign the acknowledgment below and agree to the following:

1. **Cease and desist** in engaging in the conduct alleged and pay a penalty in the amount of **$50.00** (to be paid upon signing of this certification).
2. Provide to the Board a **Letter of Correction.**

Alternatively you may waive your right to a hearing and submit a written statement or explanation to the Board. The Board will then consider your submission and render a final decision, which may include any of the terms set forth above. Any disposition by way of a settlement will be a public record, and will have the same effect as an order of the Board. Any failure to comply with the terms to which you agree will be deemed a violation.

If you do not wish to settle this matter, you may request a hearing. In that event, this letter will serve as notice of the charges against you and a hearing will be scheduled before the Board. At that hearing you either personally or with the assistance of an attorney will have an opportunity to respond to the charges and submit evidence and present testimony as may be necessary in order for the Board to make a final determination concerning the charges of unlawful activity.

DIVISION OF CONSUMER AFFAIRS
BOARD OF PHARMACY
124 HALSEY ST., 6TH FL., P.O. BOX 45013
NEWARK, NJ 07101

You should be aware that in making its final decision, the Board may, if unlawful activity has been proven, assess civil penalties in an amount greater than that offered in this letter. Additionally, the Board may, if the facts are found to so warrant, enter an order requiring you to reimburse certain monies, directing you to cease and desist from engaging in unlawful acts and/or requiring you to pay costs incurred in the matter.

Should you have any questions concerning this letter or the settlement offer herein, I suggest that you contact The Board of Pharmacy, at (973) 504-6450.

The enclosed certification should be completed and returned to the Board within fifteen (15) days following your receipt of this letter. In the event that the Board receives no response from you within fifteen (15) days, the Board's settlement offer will be withdrawn, and you will be deemed in default. The allegations against you will be deemed uncontested. The Board will then proceed to schedule the matter for final review and will enter an appropriate order. Once an order has been entered, your failure to pay any penalties may result in further action to suspend or revoke your license.

The Division of Professional Regulation of the Illinois Department of Financial and Professional Regulation ("Department"), by attorney Paula McGee, and Respondent Kabafusion, Inc., ("Respondent"), by attorney Alex Cooper of Quarles & Brady, LLP, agree to the following:

STIPULATIONS

Respondent holds Illinois pharmacy license no. 054.018814 pursuant to the Pharmacy Practice Act, 225 ILCS 85/et seq. ("Act"), which is presently in active status. On or about April 2, 2018, the Maine State Board of Pharmacy issued a public Consent Agreement whereby Respondent agreed to pay an administrative fine of one thousand five hundred dollars ($1,500.00) due to Respondent's failure to file a change of pharmacist-in-charge ("PIC") application with the Maine Board of Pharmacy by registered mail within seven (7) days after a change of PIC. Respondent filed its PIC application with the Maine Board of Pharmacy approximately nine (9) months after a change of PIC. For the purposes of this Non-Disciplinary Consent Order, Respondent admits that an adverse action was taken against Respondent in the State of Maine. Respondent's actions and/or omissions constitute grounds for discipline under the Act, 225 ILCS 85/30(a)(8).

Respondent knowingly waives each of these rights, as well as any right to administrative review of this Non-Disciplinary Consent Order.

Such waiver ceases if this Non-Disciplinary Consent Order is rejected by the Board of Pharmacy ("Board") or Director. Respondent acknowledges that Respondent has entered into this Non-Disciplinary Consent Order freely and of Respondent's own will without threat or coercion by the Department or any person and has not relied upon any representation made by or on behalf of the Department other than those specifically included herein. Respondent acknowledges that the Department attorney may be requested to communicate with the Board or Director in furtherance of the approval of this Non-Disciplinary Consent Order. Respondent has been informed that this Non-Disciplinary Consent Order will be presented to the Director. If this Non-Disciplinary Consent Order is not approved, Respondent waives any right to raise any prejudice resulting from the Director's consideration of this Non-Disciplinary Consent Order. Respondent understands that this Non-Disciplinary Consent Order is not effective unless and until it is adopted by the Director. A copy of any original signature(s) shall be given the full force and effect of an original signature(s) affixed to this Non-Disciplinary Consent Order.

Respondent and the Department agree, in order to resolve this matter, that Respondent be permitted to enter into a Non-Disciplinary Consent Order with the Department, providing for the imposition of measures which are fair and equitable in the circumstances and which are consistent with the best interests of the people of the State of Illinois.

CONDITIONS

Wherefore, the Department, by attorney Paula McGee, and Respondent, by attorney Alex Cooper of Quarles & Brady, LLP, agree:

Topic IV **Applications:**
1. Kabafusion DS89700 **Relocation** **Time: 8:06 AM**

Represented by: John Leary MOR, Attorney Paul Garbarini

Recusal: None

Discussion: Pharmacy desires to relocate from Shrewsbury to Lexington. It is a 7,000 sq. ft. design, with 400 sq. ft. for the clean room. This is a home infusion pharmacy that specializes in IG therapy. Mr. Leary has had MOR experience at several other pharmacies, but he started with Kabafusion in April, 2020. Leary has limited experience with sterile compounding, as he has more regulatory background. Kabafusion has a robust training program including videos, online courses and modules, and didactic learning. On his own, Leary has also been taking courses through ASHP and on USP. Fran McAteer has

had a role in training on environmental monitoring. Leary and the previous MOR, Fidelis Fynn did a self-inspection together. Now, Mr. Fynn has passed the MOR role onto Leary, and Fynn has become the director of operations for Kabafusion. Kabafusion is open Monday – Friday. They plan to be moving everything on the weekend, although all the new equipment will be already in the Lexington location. When they are closed, Kabafusion has 24-hour access to an on call pharmacist and nurse, and other facilities as backup.

Action: Motion by L. GIAMBARRESI, seconded by S. HAMILTON, and voted unanimously by roll call by those present to approve the relocation pending successful inspection.

---

2. St. Mary's Pharmacy **New Community Pharmacy** **Time: 8:15 AM**

Represented by: Bakheet Shenoda, MOR

Recusal: None

Discussion: Bakheet and the owner will open a new retail pharmacy in North Andover. It is located in a plaza on the end, with one neighbor to the left, a beauty salon. There is no access from the neighboring store and no access from above tenants. Points of entry are limited to a front door and back door, but Bakheet assured the back door will always be closed. Bakheet was previously MOR at NPH Pharmacare pharmacy for 4 months in Whitinsville and was a floater pharmacist for CVS. This pharmacy will be providing vaccinations, with a privacy room area surrounded by curtains. They will be reaching out to nearby nursing homes to assess the need for compliance packaging. They will perform simple compounding, such as oral suspensions. Staffing will be 1 pharmacist and 1 technician to start. They have an after-hours voicemail with access to a pharmacist on call. Training for non-sterile compounding for the pharmacist will be reassessed every 6 months, to inspect compounding area and add safety precautions.

Action: Motion by L. GIAMBARRESI, seconded by S. HAMILTON, and voted unanimously by roll call by those present to approve the relocation pending successful inspection.

---

3. BIDMC Pharmacy **New Community Pharmacy/Relocation Time: 8:29 AM**

Represented by: David Young, Luca Cattaneo, Kim Nguyen

Recusal: J. LANZA and H. ENGMAN recused and were not present for the discussion or vote in this matter.

Discussion: Beth Israel Deaconess Medical Center (BIDMC) is looking to operate 2 separate, licensed pharmacies without a physical barrier and with a shared production area. One pharmacy will be designated as a specialty pharmacy while the other will be a retail pharmacy focusing on central fill for their Boston location. There will be designated areas with signage specific to each pickup. The representatives answered questions from the Board members regarding security measures, including that there will be 73 security cameras in use and 37 of those cameras focused on the production area. Each pharmacy will have its own inventory, physically separated by lines of demarcation and routinely

reconciled. Specifically, cycle counts will occur every Friday for the specialty pharmacy. They do not plan to have any of the same medications in each pharmacy. The specialty side will just keep specialty medications. Each pharmacy will have its own phone number, labels, and signage. There will be 2 DEA numbers and 2 separate MORs. The representatives assured members of the Board that they will not be sharing staff between the 2 spaces. Concerns were raised about accountability and who would be held responsible for this pilot project because this model is unprecedented. Pharmacists Chirag, David Young, and Luca Cattaneo will all be responsible and dedicated to running this project, rather than BIDMC. This facility allows them to expand services and provide a high touch with patients. They can enhance patient management by focusing more efforts on high risk patients. Separate licenses operating in the same pharmacy space is requested because accreditation efforts and costs for the specialty pharmacy are labor intensive, as well as creating opportunity for contracts that are typically restricted to specialty pharmacies.

Action: Motion by L. GIAMBARRESI, seconded by K. THORNELL, and voted unanimously by roll call by those present to approve the central fill petition.

Action: Motion by L. GIAMBARRESI, seconded by P. GANNON, and voted unanimously by roll call by those present to approve the pilot project contingent upon the following conditions:

- Approval of the DEA
- Specific metrics and reporting schedule to be determined in conjunction with Board staff
- Pilot project to begin 6 months from the date both pharmacies are open and operational

Action: Motion by L. GIAMBARRESI, seconded by P. GANNON, and voted unanimously by roll call by those present to approve the relocation of BIDMC Specialty Pharmacy pending a successful inspection.

Action: Motion by L. GIAMBARRESI, seconded by P. GANNON, and voted unanimously by roll call by those present to approve a new retail license for BILH Pharmacy Direct pending a successful inspection.

Re: Inspection Report # **8-8108-10-1445**

Dear Mr. Molokie:

This letter is to advise you that the New Jersey State Board of Pharmacy (the "Board") has had an opportunity to review information concerning the above inspection report.

Upon review of all available information, the board has preliminarily found that you are responsible for the violations noted on **Attachment A.**

The Board has determined that it will first offer you an opportunity to settle this matter and thereby avoid the initiation of formal disciplinary proceedings. Should you wish to avail yourself of this opportunity, you should sign the acknowledgment below and agree to the following:

1. **Cease and desist** in engaging in the conduct alleged and pay a penalty in the amount of **$50.00** (to be paid upon signing of this certification).
2. Provide to the Board a **Letter of Correction.**

Alternatively you may waive your right to a hearing and submit a written statement or explanation to the Board. The Board will then consider your submission and render a final decision, which may include any of the terms set forth above. Any disposition by way of a settlement will be a public record, and will have the same effect as an order of the Board. Any failure to comply with the terms to which you agree will be deemed a violation.

If you do not wish to settle this matter, you may request a hearing. In that event, this letter will serve as notice of the charges against you and a hearing will be scheduled before the Board. At that hearing you either personally or with the assistance of an attorney will have an opportunity to respond to the charges and submit evidence and present testimony as may be necessary in order for the Board to make a final determination concerning the charges of unlawful activity.

DIVISION OF CONSUMER AFFAIRS
BOARD OF PHARMACY

NEWARK, NJ 07101

You should be aware that in making its final decision, the Board may, if unlawful activity has been proven, assess civil penalties in an amount greater than that offered in this letter. Additionally, the Board may, if the facts are found to so warrant, enter an order requiring you to reimburse certain monies, directing you to cease and desist from engaging in unlawful acts and/or requiring you to pay costs incurred in the matter.

Should you have any questions concerning this letter or the settlement offer herein, I suggest that you contact The Board of Pharmacy, at (973) 504-6450.

The enclosed certification should be completed and returned to the Board within fifteen (15) days following your receipt of this letter. In the event that the Board receives no response from you within fifteen (15) days, the Board's settlement offer will be withdrawn, and you will be deemed in default. The allegations against you will be deemed uncontested. The Board will then proceed to schedule the matter for final review and will enter an appropriate order. Once an order has been entered, your failure to pay any penalties may result in further action to suspend or revoke your license.

A copy of any original signature(s) shall be given the full force and effect of an original signature(s) affixed to this Non-Disciplinary Consent Order.

Respondent and the Department agree, in order to resolve this matter, that Respondent be permitted to enter into a Non-Disciplinary Consent Order with the Department, providing for the imposition of measures which are fair and equitable in the circumstances and which are consistent with the best interests of the people of the State of Illinois.

Topic IV **Applications:**
1. Kabafusion DS89700 **Relocation** **Time: 8:06 AM**

Represented by: John Leary MOR, Attorney Paul Garbarini

Recusal: None

Discussion: Pharmacy desires to relocate from Shrewsbury to Lexington. It is a 7,000 sq. ft. design, with 400 sq. ft. for the clean room. This is a home infusion pharmacy that specializes in IG therapy. Mr. Leary has had MOR experience at several other pharmacies, but he started with Kabafusion in April, 2020. Leary has limited experience with sterile compounding, as he has more regulatory background. Kabafusion has a robust training program including videos, online courses and modules, and didactic learning. On his own, Leary has also been taking courses through ASHP and on USP. Fran McAteer has

had a role in training on environmental monitoring. Leary and the previous MOR, Fidelis Fynn did a self-inspection together. Now, Mr. Fynn has passed the MOR role onto Leary, and Fynn has become the director of operations for Kabafusion. Kabafusion is open Monday – Friday. They plan to be moving everything on the weekend, although all the new equipment will be already in the Lexington location. When they are closed, Kabafusion has 24-hour access to an on call pharmacist and nurse, and other facilities as backup.

Action: Motion by L. GIAMBARRESI, seconded by S. HAMILTON, and voted unanimously by roll call by those present to approve the relocation pending successful inspection.

---

2. St. Mary's Pharmacy **New Community Pharmacy** **Time: 8:15 AM**

Represented by: Bakheet Shenoda, MOR

Recusal: None

Discussion: Bakheet and the owner will open a new retail pharmacy in North Andover. It is located in a plaza on the end, with one neighbor to the left, a beauty salon. There is no access from the neighboring store and no access from above tenants. Points of entry are limited to a front door and back door, but Bakheet assured the back door will always be closed. Bakheet was previously MOR at NPH Pharmacare pharmacy for 4 months in Whitinsville and was a floater pharmacist for CVS. This pharmacy will be providing vaccinations, with a privacy room area surrounded by curtains. They will be reaching out to nearby nursing homes to assess the need for compliance packaging. They will perform simple compounding, such as oral suspensions. Staffing will be 1 pharmacist and 1 technician to start. They have an after-hours voicemail with access to a pharmacist on call. Training for non-sterile compounding for the pharmacist will be reassessed every 6 months, to inspect compounding area and add safety precautions.

Action: Motion by L. GIAMBARRESI, seconded by S. HAMILTON, and voted unanimously by roll call by those present to approve the relocation pending successful inspection.

---

3. BIDMC Pharmacy **New Community Pharmacy/Relocation Time: 8:29 AM**

Represented by: David Young, Luca Cattaneo, Kim Nguyen

Recusal: J. LANZA and H. ENGMAN recused and were not present for the discussion or vote in this matter.

Discussion: Beth Israel Deaconess Medical Center (BIDMC) is looking to operate 2 separate, licensed pharmacies without a physical barrier and with a shared production area. One pharmacy will be designated as a specialty pharmacy while the other will be a retail pharmacy focusing on central fill for their Boston location. There will be designated areas with signage specific to each pickup. The representatives answered questions from the Board members regarding security measures, including that there will be 73 security cameras in use and 37 of those cameras focused on the production area. Each pharmacy will have its own inventory, physically separated by lines of demarcation and routinely

reconciled. Specifically, cycle counts will occur every Friday for the specialty pharmacy. They do not plan to have any of the same medications in each pharmacy. The specialty side will just keep specialty medications. Each pharmacy will have its own phone number, labels, and signage. There will be 2 DEA numbers and 2 separate MORs. The representatives assured members of the Board that they will not be sharing staff between the 2 spaces. Concerns were raised about accountability and who would be held responsible for this pilot project because this model is unprecedented. Pharmacists Chirag, David Young, and Luca Cattaneo will all be responsible and dedicated to running this project, rather than BIDMC. This facility allows them to expand services and provide a high touch with patients. They can enhance patient management by focusing more efforts on high risk patients. Separate licenses operating in the same pharmacy space is requested because accreditation efforts and costs for the specialty pharmacy are labor intensive, as well as creating opportunity for contracts that are typically restricted to specialty pharmacies.

Action: Motion by L. GIAMBARRESI, seconded by K. THORNELL, and voted unanimously by roll call by those present to approve the central fill petition.

Action: Motion by L. GIAMBARRESI, seconded by P. GANNON, and voted unanimously by roll call by those present to approve the pilot project contingent upon the following conditions:

- Approval of the DEA
- Specific metrics and reporting schedule to be determined in conjunction with Board staff
- Pilot project to begin 6 months from the date both pharmacies are open and operational

Action: Motion by L. GIAMBARRESI, seconded by P. GANNON, and voted unanimously by roll call by those present to approve the relocation of BIDMC Specialty Pharmacy pending a successful inspection.

Action: Motion by L. GIAMBARRESI, seconded by P. GANNON, and voted unanimously by roll call by those present to approve a new retail license for BILH Pharmacy Direct pending a successful inspection.

Regarding Massachusetts Board of Pharmacy Complaint No. PHA-2019-0071 and Non-Disciplinary Consent Agreement for Stayed Probation for KabaFusion, Inc. (Shrewsbury)

Complaint No. PHA-2019-0071 was regarding a failure to report an above action level regarding the 2/20/2019 environmental monitoring.

KabaFusion, Inc. was party to a non-disciplinary condition agreement dated 8/12/2020 with the Massachusetts Board of Pharmacy. The pharmacy was inspected on 6/20/2019 and passed the inspection. After the inspection, KabaFusion and the Massachusetts Board of Pharmacy continued to review and discuss the pharmacy's environmental monitoring procedures and determined that monthly samples would receive routine testing and reporting by a third-party lab. A new pharmacist-in-charge/manager of record took over day to day management of the pharmacy on 6/22/2020 and KabaFusion also completed and passed additional routine inspections by the Board on 12/09/2019, 12/04/2020, 2/24/2021 and 11/10/2021.

On 10/01/2021 the pharmacy received notice from the Massachusetts Board of Pharmacy that all requirements of the agreement were satisfied.

A copy of the Non-Disciplinary Consent Agreement and Notice of Restoration are enclosed.

NON-DISCIPLINARY CONSENT AGREEMENT FOR STAYED PROBATION

The Massachusetts Board of Registration in Pharmacy ("Board") and Kabafusion ("Licensee" or "Pharmacy"), a pharmacy licensed by the Board, DS89700, do hereby stipulate and agree that the following information shall be entered into and become a permanent part of the Pharmacy's record maintained by the Board:

As such, this sample was above USP 797 action levels.

g. The foregoing facts warrant action by the Board under M.G.L. c. 112, §§ 42A and 61 and 247 CMR 10.03(1)(a), (v), and (bb).

3. The Pharmacy agrees that its pharmacy license shall be placed on PROBATION for one (1) year, and that the probation shall be STAYED for no more than one (1) year ("Stayed Probationary Period"), commencing with the date on which the Board signs this Agreement ("Effective Date"). [2] In all instances where this Agreement specifies written notice to the Licensee from the Board, such notice shall be sent to the Licensee's address of record.

[3] The term "Subsequent Complaint" applies to a complaint opened after the Effective Date concerning acts, omissions, or events occurring after the Effective Date, which (1) alleges that the Pharmacy engaged in conduct that violates Board statutes or regulations, and (2) is substantiated by evidence, as determined following the complaint investigation during which the Pharmacy shall have an opportunity to respond.

To: Pharmacy Manager
FROM: Nevada State Board of Pharmacy Inspector
SUBJECT: Self-Assessment Inspection Process

The Board of Pharmacy's established self-assessment inspection process provides management the opportunity to review the standards by which the board inspects your operation. The process recognizes you as the responsible person to implement and review policies and procedures necessary to provide a quality standard of pharmaceutical services. An inspection evaluation form must be obtained from the NVBOP website to self-assess compliance with Nevada pharmacy law. An inspector will review the form with you and inspect your facility during the month listed on your inspection notice. Please have the self-assessment form completed and available for review by the first day of the month listed on your inspection notice.

An inspector will conduct a review of your operation. Observations, along with your findings, will assure understanding and compliance with Nevada law.

Please attach your inspection notice that you received in the mail to your completed self-assessment inspection form.

To minimize the disruption to your facility during the inspection process please have the following documents available:

Completed inspection form along with prior year inspection form ✓✓

4. **Purpose:**

   On September 30th, 2021, Controlled Environment Management (CEM) was contracted to perform the semi-annual testing and certification tour of the Pharmacy Cleanroom Suite, located at Kindred Hospital Flamingo Campus in Las Vegas, Nevada.

   The testing was executed to ensure the Cleanrooms and Hoods located within the Pharmacy Cleanroom Suite successfully met their respective acceptance criteria at the time of testing.

All testing was executed in accordance with the following test standards and or guidelines:

- IEST-002 (Laminar Airflow Devices)
- IEST006.3 (Cleanroom Facilities)
- ISO 14644 (Cleanroom and Controlled Environments)
- USP-797 (U.S. Pharmacopeia – Sterile Compounding)
- CETA: CAG-003-2006v13 (Sterile Compounding Facilities)
- Manufacturer Specifications (Pharmacy Hoods)

5. Summary of Testing – Scope of Work:

This section summarizes the scope of work and individual test results. A summary of the overall test results may be found in section 6.

Each Cleanroom was subjected to the following tests:

- Total Supply Airflow, Room Pressure and Air-Exchange Rates
- Particle Counting per ISO 14644 Class 7 at ≥ 0.5µm (Compounding Room)
- Particle Counting per ISO 14644 Class 8 at ≥ 0.5µm (Ante Room)
- In-Place Leak Testing of Supply HEPA Filter Bank
- Secondary Environmental Testing for Temperature and % Relative Humidity
- Viable Air Sampling for Bacteria and Fungi
- Viable Surface Sampling for Bacteria and Fungi

Each Laminar Flow Hood was subjected to the following tests:

- Air Velocity Profile and Calculated Total Airflow
- Particle Counting per ISO 14644 Class 5 at ≥ 0.5µm
- In-Place Leak Testing of the HEPA Filter
- Airflow Visualization Profile (Glycol)
- Viable Air Sampling for Bacteria and Fungi
- Viable Surface Sampling for Bacteria and Fungi

5.1. Testing of Cleanrooms

Below is a list of the individual Cleanrooms tested.

Compounding Room (ISO Class 7)
Ante Room (ISO Class 8)

5.1.1. Airflow Measurements - Room Air Exchange Rates

Using a calibrated flowhood, the supply airflow in cubic feet per minute (cfm) was directly measured for each Terminal HEPA Filter.

All testing was executed in accordance with IES Standard RP-006.3. Based on the individual air volumes, CEM calculated the room air exchange rate (RAR) for the area using the following equation:

RAR = Total Airflow (CFM) x 60 / Room Volume

The air exchange rate for the cleanrooms is listed below.

Compounding Room = 15.8 RAR/Hr
Compounding Room (including airflow from LFHs) = 30.8 RAR/Hr
Ante Room = 33.7 RAR/Hr

The results of the testing indicated both areas exceeded ≥ 30 air changes per hour. Please see section 6 for individual test results.

5.1.2. Room Pressurization Test

Using a calibrated digital manometer, CEM measured the pressure differential under the doorways for each of the Cleanroom tested.

The results of the testing indicated all of the Cleanrooms were pressurized in the correct direction and met the CETA specifications of ≥ 0.02" wc to the outer work area. Please see section 6 for individual test results.

5.1.3. Particle Counting and Environmental Testing

Using a calibrated particle counter, each Cleanroom was particle counted in accordance with ISO Standard 14644. At the time of the testing, each area was in a simulated "Dynamic" mode. Listed below are the individual air cleanliness classifications for each room.

Compounding Room: ISO Class 7
Ante Room: ISO Class 8

For each room, the required number of sampling locations was plotted in each area. At each location, CEM measured one count of particles. Each sample consisted of 50.0 liters and all particles ≥ 0.5µm were tabulated.

The results indicated that each Cleanroom met its acceptance criteria in accordance with ISO 14644 Class specifications. Please see section 6 for individual test results.

5.1.4. In-Place Leak Testing of In-Line HEPA Filter

A total of one (1) supply HEPA filter bank located in the Pharmacy Suite was integrity tested for leakage. CEM introduced a PAO challenge aerosol of ≥ 10 µg/L into the upstream side of the HEPA filter. The filter was gross scanned for leakage with a calibrated Photometer.

All testing was executed in accordance with IES Standard 006.3 and ANSI N510. Please see section 6 for individual test results.

5.1.5. Secondary Testing

For informational purposes only, CEM measured the temperature and relative humidity levels in the center of each Cleanroom.

All testing was executed in accordance with IES Standard 006.3. Please see section 6 for individual test results.

5.1.6. Viable Air Sampling

At a total of two (2) locations, CEM performed viable air testing for bacteria and fungi. The locations for the viable air samples are listed below:

Compounding Room: Center of Room
Ante Room: Counter Near Sink

At each location, CEM used an air sampler to impact air unto an agar plate. Two (2) samples were measured at each location, using different media. One media was used to test for bacteria, the other for fungi.

All samples were forwarded to an independent accredited laboratory for incubation and enumeration. Please see Section 6 for a breakdown of the test results. The Lab Report has been provided as an addendum to this test report.

5.1.7. Viable Surface Sampling

At a total of two (2) locations, CEM performed viable surface sampling for bacteria and fungi. The locations for the viable surface samples are listed below:

Compounding Room: Inside of Entrance Door
Ante Room: Inside of Entrance Door

At each location, CEM used a contact agar plate to sample the surface. Two (2) samples were measured at each location, using different media. One media was used to test for bacteria, the other for fungi.

All samples were forwarded to an independent accredited laboratory for incubation and enumeration. Please see Section 6 for a breakdown of the test results. The Lab Report has been provided as an addendum to this test report.

5.2. Testing of Laminar Flow Hoods

Below is the list of Laminar Flow Hoods (LFHs) tested.

Nuaire Model NU-301-436, Serial 75014
Nuaire Model NU-201-630, Serial 79238080502

The following tests were performed for the Laminar Flow Hoods:

- Air Velocity Profile / Calculated Total Airflow
- In-Place Leak Testing of HEPA filter
- Non-Viable Particle Counting to ISO 14644, Class 5 at ≥ 0.5µm
- Airflow Visualization Profile (Glycol)
- Viable Air Sampling in Center of Work Area for Bacteria and Fungi
- Viable Surface Sampling in Center of Work Area for Bacteria and Fungi

All testing was executed in accordance with IES Standard 002, ISO 14644, CETA and Manufacturer specifications.

The results indicated that the Laminar Flow Hoods successfully met their acceptance criteria. Please see section 6 for individual test results.

6. Individual Test Results Data:

USP 797 - Summary of Sample Analysis Results

The summary information for each sample includes a Pass/Fail result with respect to the USP 797 action level guidelines for concentration of colony forming units (see *Table 1*) and actionable microorganisms (United States Pharmacopeia, 2014). Actionable microorganisms are defined here as Gram-negative bacteria, coagulase-positive Staphylococcus, molds, and yeasts.

Table 1: Recommended Action Levels for Viable Particles in Air and from Surfaces

ISO Class	Active Airborne (cfu*/m3)	Inanimate Surfaces** (cfu/plate)
5	>1	>3
7	>10	>5
8+	>100	>100

* cfu = colony forming units
** Contact plate areas vary from 24 to 30 cm2. When swabbing is used in sampling, the area covered should be at least 24 cm2 but no larger than 30 cm2.

Pass Acceptable concentrations and absence of actionable microorganisms
Fail Unacceptable concentrations and/or presence of actionable microorganisms
N/A Not applicable. Blank Sample, insufficient sample volume and/or no ISO Class area designation provided¥

Comments:

Identifiers listed without a count or data entry were not detected during the course of the analysis for the respective sample.

Note: Interpretation is left to the company and/or persons who conducted the field work. Some rare strains of Staphylococcus produce free (unbound) coagulase exclusively. The applied coagulase test only measures bound coagulase.

The limit of detection is a raw count of 1. The analytical sensitivity for air samples is equal to 1 raw count divided by sample size and multiplied by the positive hole correction factor. The analytical sensitivity for surface samples is equal to 1 raw count divided by a sample size of 1 plate.

‡ A "Version" indicated by -"x" after the Lab ID# with a value greater than 1 indicates a sample with amended data. The revision number is reflected by the value of "x".
§ Total cfu/unit has been rounded to two significant figures to reflect analytical precision.

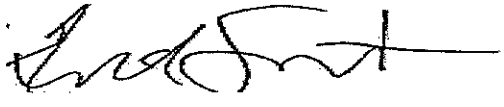
The purpose of this letter is to notify Nevada State Board of Pharmacy (NVBOP) of an upcoming indirect change of ownership of 100% of Transitional Hospitals Corporation of Nevada, LLC d/b/a Kindred Hospital Las Vegas's (the "Licensee") equity ownership (the "Transaction"). The Licensee operates a long-term acute care hospital ("Hospital") and holds the following pharmacy permit from NVBOP:

Facility D/B/A Name	Permit Type and ID No.
Kindred Hospital Las Vegas	Pharmacy - IB01583

On June 18, 2021, LifePoint Health, Inc. ("LifePoint") entered into a Securities Purchase Agreement (the "Agreement") with a group of sellers comprised of affiliates of TPG Capital ("TPG"), Welsh, Carson, Anderson & Stowe ("WCAS"), Port-aux-Choix Private Investments ("PSP") and certain other holders of Kentucky Hospital Holdings JV, L.P. (the "Partnership"), the great-great-great grandparent (fifth level up) of a 100% interest in the Licensee. Pursuant to the Agreement, LifePoint will cause one or more affiliates under common ownership with LifePoint ("Knight") to acquire all of the outstanding equity of the Partnership. At that point, the indirect change of ownership will be complete. The Transaction is anticipated to close on or about November 1, 2021.

Organizational charts showing the ownership of the Licensee before and after the Transaction are attached as Attachment A.

To assist you in processing this change of indirect ownership, enclosed please find the following:



- A completed pharmacy permit application with original signatures;
- A completed designated representative application with original signatures;
- A list of all officers and managers of the Licensee, attached as Attachment B;
- A list of all shareholder/stockholders of the Licensee, attached as Attachment C;
- A Certificate of Good Standing from the Nevada Secretary of State, dated 10/4/21, for Transitional Hospitals Corporation of Nevada, LLC; and
- Credit card information to process the fee of $500.00.

We note that Section 12 of the pharmacy permit application indicates that, where the applicant is a non-publicly traded corporation or company, a personal history application must be completed by the top four shareholder/stockholders. We spoke with Maria in the NVBOP's licensing division on 10/5/21, who advised us that the personal history application is not required where the applicant has no individual shareholder/stockholders. As indicated in Attachments A and C, 100% of the ownership interest in the Licensee is held by the Licensee's parent. Given that the Licensee has no individual shareholder/stockholders, we have omitted the personal history application.

Please note that the Transaction will result only in a change of indirect ownership of the Licensee. There will be no change in the EIN/tax ID, organizing documents, offered services, service area, name, address, officers, or directors of the Hospital. Both before and after the Transaction closing date, the entity operating the Hospital and holding the pharmacy permit from the NVBOP is Transitional Hospitals Corporation of Nevada, LLC d/b/a Kindred Hospital Las Vegas. Furthermore, the Transaction does not constitute a change of ownership for Medicare purposes.

We understand this is all the information you need in regard to this Transaction. If, however, you believe a pharmacy permit application is required, or you have questions or need any additional information, please do not hesitate to contact me at (919) 466-1263 or at gabriel.scott@klgates.com.

Furthermore, the Transaction does not constitute a change of ownership for Medicare purposes.

Based on our review of the applicable rules and regulations, our understanding is that the Transaction does not constitute a change of ownership requiring a new application under NAC 639.227. In that regard, there will be no change to the entity that directly the owns the Hospital, which is and will continue to be Kindred Healthcare Operating, LLC, and there will be no changes to the officers or directors of the Hospital. As a result, we understand the Transaction does not constitute a change of 50 percent or more of the beneficial interest of a pharmacy, and therefore the Transaction does not constitute a change of ownership in regard to the Licensee's pharmacy permit. Nevertheless, we are providing this notice for your files.

We understand this is all the information you need in regard to this Transaction. If, however, you believe a pharmacy permit application is required, or you have questions or need any additional information, please do not hesitate to contact me at (919) 466-1263 or at gabriel.scott@klgates.com.

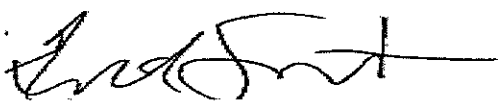
The purpose of this letter is to notify Nevada State Board of Pharmacy (NVBOP) of an upcoming change of indirect ownership of 100% of Transitional Hospitals Corporation of Nevada, LLC d/b/a Kindred Hospital Las Vegas's (the "Licensee") equity ownership (the "Transaction"). The Licensee operates a long-term acute care hospital ("Hospital") and holds the following pharmacy permit from NVBOP:

Facility D/B/A Name	Permit Type and ID No.
Kindred Hospital Las Vegas	Pharmacy - IB01314

On June 18, 2021, LifePoint Health, Inc. ("LifePoint") entered into a Securities Purchase Agreement (the "Agreement") with a group of sellers comprised of affiliates of TPG Capital ("TPG"), Welsh, Carson, Anderson & Stowe ("WCAS"), Port-aux-Choix Private Investments ("PSP") and certain other holders of Kentucky Hospital Holdings JV, L.P. (the "Partnership"), the great-great-great grandparent (fifth level up) of a 100% interest in the Licensee. Pursuant to the Agreement, LifePoint will cause one or more affiliates under common ownership with LifePoint ("Knight") to acquire all of the outstanding equity of the Partnership. At that point, the indirect change of ownership will be complete. The Transaction is anticipated to close on or about November 1, 2021.

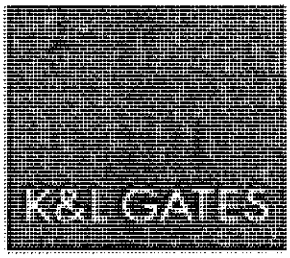
Organizational charts showing the ownership of the Licensee before and after the Transaction are attached as Attachment A.

To assist you in processing this change of indirect ownership, enclosed please find the following:



- A completed pharmacy permit application with original signatures;
- A completed designated representative application with original signatures;
- A list of all officers and managers of the Licensee, attached as Attachment B;
- A list of all shareholder/stockholders of the Licensee, attached as Attachment C;
- A Certificate of Good Standing from the Nevada Secretary of State, dated 10/4/21, for Transitional Hospitals Corporation of Nevada, LLC; and
- Credit card information to process the fee of $500.00.

We note that Section 12 of the pharmacy permit application indicates that, where the applicant is a non-publicly traded corporation or company, a personal history application must be completed by the top four shareholder/stockholders. We spoke with Maria in the NVBOP's licensing division on 10/5/21, who advised us that the personal history application is not required where the applicant has no individual shareholder/stockholders. As indicated in Attachments A and C, 100% of the ownership interest in the Licensee is held by the Licensee's parent. Given that the Licensee has no individual shareholder/stockholders, we have omitted the personal history application.



Please note that the Transaction will result only in a change of indirect ownership of the Licensee. There will be no change in the EIN/tax ID, organizing documents, offered services, service area, name, address, officers, or directors of the Hospital. Both before and after the Transaction closing date, the entity operating the Hospital and holding the pharmacy permit from the NVBOP is Transitional Hospitals Corporation of Nevada, LLC d/b/a Kindred Hospital Las Vegas. Furthermore, the Transaction does not constitute a change of ownership for Medicare purposes.

We understand this is all the information you need in regard to this Transaction. If, however, you believe a pharmacy permit application is required, or you have questions or need any additional information, please do not hesitate to contact me at (919) 466-1263 or at gabriel.scott@klgates.com.

Furthermore, the Transaction does not constitute a change of ownership for Medicare purposes.

Based on our review of the applicable rules and regulations, our understanding is that the Transaction does not constitute a change of ownership requiring a new application under NAC 639.227. In that regard, there will be no change to the entity that directly the owns the Hospital, which is and will continue to be Kindred Healthcare Operating, LLC, and there will be no changes to the officers or directors of the Hospital. As a result, we understand the Transaction does not constitute a change of 50 percent or more of the beneficial interest of a pharmacy, and therefore the Transaction does not constitute a change of ownership in regard to the Licensee's pharmacy permit. Nevertheless, we are providing this notice for your files.

We understand this is all the information you need in regard to this Transaction. If, however, you believe a pharmacy permit application is required, or you have questions or need any additional information, please do not hesitate to contact me at (919) 466-1263 or at gabriel.scott@klgates.com.

Designated Representative Application

Rev (04/22/2021)

An application for a license, or a licensee with a license, to conduct a pharmacy or to operate as a wholesaler shall designate at least one natural person to serve as the representative of the pharmacy or wholesaler. The Board will not issue or renew a license of an applicant or licensee that is required to designate a representative of a pharmacy or wholesaler unless the Board determines that the designated natural person meets the following qualifications per NAC 639.5005 (Pharmacy) or NAC 639.5935 (Wholesaler):

1. Is at least 21 years of age;
2. Has been employed for at least 6,000 hours in a pharmacy or with a wholesaler in a capacity related to the dispensing and distribution of, and recordkeeping related to, prescription drugs.

The designated representative of a pharmacy or a wholesaler:

1. Must be actively involved in and aware of the actual daily operations of the pharmacy or wholesaler;
2. Must be employed full-time in a managerial level position with the pharmacy or wholesaler;
3. Must be physically present at site of the pharmacy or at the facility of the wholesaler during regular business hours, except when the absence of the representative is authorized, including sick leaves, vacation leaves and other authorized absences; and
4. May serve in this representative capacity for only one pharmacy or wholesaler at a time

A pharmacy or wholesaler that is required to designate a natural person as its representative shall not open or operate the pharmacy or wholesaler unless that representative is actually employed full-time in the operation of the pharmacy or wholesaler and is physically present at the site of the pharmacy or wholesaler during regular working hours, not including sick leave, vacation leave and other authorized absences from work. If the natural person designated as the representative of a pharmacy leaves the employ of the pharmacy or wholesaler, thus leaving the pharmacy or wholesaler without a representative in violation of this section, the pharmacy or wholesaler shall:

1. Immediately cease conducting business until another qualified natural person is approved by the Board to serve as the representative of the pharmacy or wholesaler; and
2. Not later than 48 hours after that person leaves its employ, notify the Board that the person designated as the representative of the pharmacy or wholesaler has left the employ of the pharmacy or wholesaler.

Before a pharmacy or wholesaler, that is in violation of NAC 639.5005 (Pharmacy) or NAC 639.5935 (Wholesaler) because the natural person designated as the representative of the pharmacy or wholesaler left the employ of the pharmacy or wholesaler, may continue conducting business:

1. The pharmacy or wholesaler must designate, on a form provided by the Board, a new natural person to serve as the representative of the pharmacy; and
2. The Board must approve the natural person so designated.

5. Except as provided in paragraphs 6 and 11, Defendants and each and all of their directors, officers, agents, representatives, employees, successors, assigns, and attorneys, and any and all persons in active concert or participation with any of them, who have received actual notice of this Decree by personal service or otherwise (collectively "Associated Person(s)"), are permanently enjoined under 21 U.S.C. § 332(a) from manufacturing, processing, packing, labeling, and distributing any device, including components parts, accessories, and in-process and finished devices, (hereinafter collectively referred to as "devices") at or from the Specified Facilities unless and until, for each Specified Facility:

A. Defendants' facilities, methods, processes, and controls used to manufacture, process, pack, label, hold, and distribute devices at or from the Specified Facility are established, operated, and administered in conformity with 21 U.S.C. §§ 351(h) and 352(t)(2) (hereinafter collectively referred to as "the Act"), and the QS, CR, and MDR regulations. Specifically, Defendants shall take the following actions, among others:

i. Establish and maintain procedures to control Defendants' devices' designs in order to ensure that specified design requirements are met;

ii. Ensure that all devices meet the requirements for design development and planning, design input, design output, design review, design verification, design validation, design change, design transfer, and design history file;

vi. Establish and implement adequate written procedures to control devices that do not conform to specified requirements;

vii. Establish and maintain adequate written procedures for corrective and preventive actions ("CAPAs") and for documenting those activities;

ix. Develop and implement adequate written MDR procedures in compliance with 21 C.F.R. Part 803, including, but not limited to, adequate procedures for management review, and ensure that employees are trained on, understand, and properly implement the MDR requirements and procedures;

B. Defendants retain, at Corporate Defendants' expense, an independent person(s) (the "expert") to inspect the Specified Facilities and review their manufacturing procedures and records to determine whether the methods, facilities, and controls are operated

and currently administered in conformity with this Decree, the Act, and the QS, CR, and MDR regulations. The expert shall be qualified by education, training, and experience to conduct such inspections, and shall be without personal or financial ties (other than the retention agreement) to Defendants or their families. Defendants shall notify FDA in writing of the identity of the expert and the expert's qualifications within fifteen (15) days after retaining such expert. The expert shall:

i. Perform a comprehensive inspection of the methods, processes, and controls used to manufacture devices at each Specified Facility and determine whether each is in compliance with this Decree, the Act, and the QS, CR, and MDR regulations; in conducting this inspection, the expert shall review all deviations at each Specified Facility brought to Defendants' attention in writing by FDA since October 2009 (including, but not limited to, all Forms FDA-483 issued to Defendants since October 2009), by the expert, or by any other source. The expert is permitted to conduct separate inspections for designated categories of the Specified Facilities' devices so long as each inspection includes an evaluation of all of the methods and controls necessary for compliance with the QS regulation for that designated category of devices. If the expert decides to conduct separate inspections for designated categories of the Specified Facilities' devices, Defendants shall submit to FDA a written statement delineating the designated categories of devices. For purposes of complying with this paragraph, Defendants may not include more than a total of five (5) designated categories of devices;

ii. Within thirty (30) days after completing any inspection under paragraph 5.B.i, the expert shall submit simultaneously to FDA and Defendants a complete written report of the inspection, which shall include, but not necessarily be limited to:

a. Identifying in detail which methods, processes, controls, and FDA observations the expert reviewed and the expert's evaluation as to whether each such method, process, and control is now operated in compliance with this Decree, the Act, and the QS, CR, and MDR regulations, and, if applicable, listing any observed deviations from compliance with this Decree, the Act, and the QS, CR, and MDR regulations;

b. Identifying whether each observation listed on a Form FDA-483 issued at the Specified Facility since October 2009 has been corrected.

iii. Notwithstanding the foregoing, if, at any time before the completion of the expert's inspection(s), Defendants notify FDA in writing that all manufacturing operations have ceased at a Specified Facility or that all manufacturing operations with respect to one or more designated categories of the Specified Facilities' devices have ceased at a Specified Facility, any requirement that the expert inspect the methods, facilities, processes, equipment, and controls used to manufacture all or any such designated categories of devices at such Specified Facility shall cease. If, at any time before the completion of the expert's inspection(s), Defendants notify FDA in writing that manufacturing operations for any designated category of devices have been transferred from one Specified Facility to another Specified Facility, the expert must thereafter inspect the methods, facilities, processes, equipment, and controls used to manufacture any such designated category of devices at the transferee Specified Facility; and

C. Within thirty (30) days after receiving the expert's inspection report(s) under paragraph 5.B.ii , Defendants shall submit a written report ("work plan") to FDA detailing the specific actions Defendants have taken and/or will take at the Specified Facility to address the expert's observations and bring the Specified Facility's methods, facilities, processes, and

controls used to manufacture, process, pack, hold, and distribute devices into compliance with the requirements of this Decree, the Act, and the QS, CR, and MDR regulations. The specific actions in the work plan shall be set forth in numbered steps and, where appropriate, the numbered steps may include subordinate lettered steps. The work plan shall include a timetable to be approved by FDA, and FDA will approve or disapprove in writing the proposed work plan within thirty (30) days after receiving the proposed work plan. If the expert conducts separate inspections for designated categories of the Specified Facilities' devices, the Defendants are permitted to submit one addendum per designated category of devices, so long as the work plan and each addendum together detail the specific actions Defendants have taken and/or will take at a Specified Facility to address the expert's observations and bring the methods, facilities, processes, and controls used to manufacture, process, pack, hold, and distribute a designated category of devices into compliance with this Decree, the Act, and the QS, CR, and MDR regulations. In the event that Defendants notify FDA in writing that all manufacturing operations for a designated category of devices have ceased at a Specified Facility, any requirement in the work plan related to such Specified Facility shall cease with regard to such devices. In the event that Defendants notify FDA in writing that manufacturing operations for any designated category of devices have been transferred from one Specified Facility to another Specified Facility, any requirement in the work plan related to the transferor Specified Facility will be deemed to apply to the transferee Specified Facility; and

D. As the actions detailed in the work plan are completed at each Specified Facility, Defendants shall notify the expert in writing, who shall promptly inspect and verify whether those actions have been completed in a manner that complies with the requirements of this Decree, the Act, and the QS, CR, and MDR regulations to the expert's satisfaction and in

accordance with the work plan timetable approved by FDA. The expert is permitted to conduct separate inspections for designated categories of the Specified Facilities' devices so long as each inspection includes an evaluation of all of the methods and controls necessary for compliance with the QS regulation for the designated category of devices. If the expert determines that an action has not been completed to his or her satisfaction, the expert shall promptly notify Defendants and FDA in writing. Beginning thirty (30) days after approval of the work plan by FDA, and quarterly thereafter until submission of a certification set forth in paragraph 5.E, the expert shall submit to FDA a table that summarizes the expert's findings regarding whether the actions have been completed to the expert's satisfaction and in accordance with the numbered steps in the work plan timetable. FDA may, in its discretion and without prior notice, periodically inspect any and all Specified Facilities and undertake such additional examinations, reviews, and analyses as FDA deems appropriate to verify whether the actions reported to have been completed have, in fact, been completed adequately and on time. In the event that FDA determines that an action that has been reported to be completed is inadequate, FDA will notify Defendants in writing, and Defendants shall take appropriate action in accordance with a timetable that is subject to approval by FDA;

E. When the expert determines that all of the actions identified in the work plan approved by FDA have been completed to his or her satisfaction, the expert shall provide Defendants and FDA with a written certification that all of the actions have been completed and that, based on the inspection(s) conducted under paragraph 5 and on the satisfactory completion of the actions in the work plan identified under paragraph 5.C, Defendants' methods, facilities, processes, and controls used to manufacture, process, pack, hold, and distribute devices are in conformity with the requirements of this Decree, the Act, and the QS, CR, and MDR regulations.

The expert's certification shall include a detailed report of the results of the expert's inspection(s). The expert may provide FDA with a separate certification under this paragraph for each Specified Facility. If the expert conducts separate inspections for designated categories of the Specified Facilities' devices, the expert is permitted to submit a separate certification and certification report for each designated category of devices so long as each certification and accompanying report contains all of the information required by this provision for the designated category of devices. In the event the Defendants have notified FDA in writing that all manufacturing operations with regard to a designated category of devices have ceased at a Specified Facility, the expert need not certify as to the completion of work plan actions or as to compliance with this Decree, the Act, and the QS, CR, and MDR regulations that relate to such devices at the Specified Facility. In the event the Defendants have notified FDA in writing that manufacturing operations for any designated category of devices have been transferred from one Specified Facility to another Specified Facility, the expert must certify as to the completion of work plan actions or as to the compliance with this Decree, the Act, and the QS, CR, and MDR regulations that relate to such devices at the transferee Specified Facility;

F. In addition to paragraph 17 and FDA's authority to conduct inspections under 21 U.S.C. § 374, within sixty (60) days after FDA receives a certification described in paragraph 5.E, FDA, as it deems necessary, may inspect any or all of the applicable Specified Facilities to evaluate Defendants' compliance with this Decree, the Act, and its implementing regulations;

G. Corporate Defendants pay all costs of inspections, supervision, and review for FDA oversight with respect to paragraph 5; and

H. FDA notifies Defendants in writing that Defendants appear to be in compliance with the requirements set forth in paragraphs 5.A-G. If FDA conducts an inspection or reinspection pursuant to paragraph 5.F, and finds that the manufacturing, processing, packing, holding, and distribution of devices at and/or from a Specified Facility appear to be in conformity with this Decree, the Act, and the QS, CR, and MDR regulations, this notice will be issued within sixty (60) days after completion of the inspection. If FDA does not conduct an inspection or re-inspection pursuant to paragraph 5.F, this notice will be issued within sixty (60) days after receipt of the expert's certification under paragraph 5.E. If the expert has provided a certification and certification report limited to designated categories of the Specified Facilities' devices or a particular Specified Facility pursuant to paragraph 5.E, then FDA may issue the notification under this paragraph to authorize resumption of manufacturing processing, packing, holding, labeling and/or distribution limited to designated categories of devices or to one or more of the Specified Facilities.

6. A. Notwithstanding paragraph 5, Defendants and all Associated Persons may continue manufacturing, processing, holding, packing, labeling and distributing at or from the Specified Facilities:

i. Medically necessary devices, as defined in paragraph 4.D to customers who have received the Notification Guide described in paragraph 4.F and have submitted a signed CMN to Corporate Defendants, provided that Defendants maintain a record of all sales and distribution of medically necessary devices, including shipping documents and the following information regarding the devices distributed: the name, model number, and lot numbers for the medically necessary devices, the names of the consignees to whom they are shipped, and the

number of devices shipped. Defendants shall make the records described in this paragraph available to FDA immediately upon request. Within ninety (90) days after entry of this Decree, and quarterly thereafter, Defendants shall submit to FDA a summary of the medically necessary devices distributed, which shall include: the names of the medically necessary devices shipped, the names of the consignees to whom they were shipped, and the total number of devices shipped.

ii. Devices for use in product demonstrations, workshops, and laboratories, provided that the subject devices are labeled "For In-Office/In-Facility Demonstration Use Only - Not for Sale";

iii. Devices solely for the purpose of conducting clinical trials in accordance with 21 C.F.R. Part 812, provided that Defendants comply with all applicable laws and regulations relating to the manufacture and distribution of investigational devices;

iv. Devices, including warranty replacements, that both FDA and Defendants agree in writing are necessary to distribute and sell to fulfill contracts and agreements with foreign governments;

v. Devices to testing laboratories solely for the purpose of developing, testing, verifying, or validating design changes or modifications in accordance with 21 C.F.R. Part 820 or comparable international standards; and

vi. Devices that are necessary for the sole purpose of preparing or supporting a premarket approval application (PMA), premarket notification (510k), or supplement thereto, but such products may not be distributed without prior written authorization from FDA.

B. Corporate Defendants shall pay the United States Treasury the amount of six million dollars ($6,000,000.00) in equitable disgorgement, to be paid within twenty-eight (28)

days after entry of this Decree (hereinafter "initial payment"). Six (6) months after the date of the initial payment, Corporate Defendants shall pay the United States Treasury an additional amount of six million dollars ($6,000,000.00) in equitable disgorgement, unless by that date Defendants have received FDA authorization to resume, with regard to all medically necessary devices, all operations at the Specified Facilities as set forth in paragraph 5.H and/or Defendants have transferred all manufacturing, processing, packing, holding, and distribution of all medically necessary devices at and/or from the Specified Facilities to another manufacturing site owned or controlled by Corporate Defendants (hereinafter "new site(s)").

7. Within thirty (30) days after receiving the written notification in paragraph 5.H for a Specified Facility, Defendants shall select and retain at Corporate Defendants' expense an independent person(s) (the "specified facility auditor") to conduct audit inspections of the Specified Facility not less than once every six (6) months for a period of one (1) year, after which the specified facility auditor shall conduct audit inspections annually for an additional period of four (4) years. The specified facility auditor shall be qualified by education, training, and experience to conduct such inspections, and shall be without personal or financial ties (other than the retention agreement) to Defendants or their families, except that the specified facility auditor may be the same person(s) as the expert described in paragraph 5.B and/or the additional facility auditor described in paragraph 9.

A. At the conclusion of each audit inspection at each such facility, the specified facility auditor shall prepare a written audit report ("audit report") analyzing whether Defendants are in compliance with this Decree, the Act, and the QS, CR, and MDR regulations, and identifying all deviations from this Decree, the Act, and the QS, CR, and MDR regulations ("audit report observations"). As part of every audit report, except the first audit report, the

specified facility auditor shall assess the adequacy of corrective actions taken by Defendants to correct all previous audit report observations. The audit report shall be delivered contemporaneously to Defendants and FDA no later than thirty (30) days after the date an audit inspection is completed.

B. If an audit report contains any audit report observations, Defendants shall, within thirty (30) days after receipt of the audit report, correct those observations, unless FDA notifies Defendants that a shorter time period is necessary. If, after receiving an audit report, Defendants believe that correction of any audit report observations will take longer than thirty (30) days, Defendants shall, within ten (10) business days after receipt of the audit report, propose a schedule for completing corrections ("correction schedule"). The correction schedule shall be reviewed and approved by FDA in writing prior to implementation. Defendants shall complete all corrections according to the approved correction schedule. Within thirty (30) days after being notified that Defendants have taken actions to correct audit report observations, the auditor shall review the actions taken by Defendants to correct the audit report observations. Within fifteen (15) business days after completion of such a review, the specified facility auditor shall report in writing to FDA and to the Defendants whether each of the audit report observations has been corrected.

8. Not less than three months before Defendants transfer any manufacturing operations from any of the Specified Facilities to any new site that Defendants own or control, Defendants shall submit to FDA a written transfer plan. However, in the event Defendants notified FDA before the date of entry of this Decree of a planned transfer of manufacturing operations from any Specified Facility(ies) to any new site(s), Defendants shall submit to FDA a written transfer plan within thirty (30) business days from the date of entry of this Decree. Any

such new site, if not already an Additional Facility, as described in paragraph 4.B, shall thereafter be fully subject to the provisions of this Decree without further action by the parties or this Court, as though it were listed as an Additional Facility in paragraph 4.B, but only to the extent that manufacturing operations have been transferred from a Specified Facility to that new site.

ADDITIONAL FACILITIES

9. Within ninety (90) days after entry of this Decree, Defendants shall select and retain at Corporate Defendants' expense an independent person(s) (the "additional facilities auditor") to conduct audit inspections of each of the Additional Facilities not less than once every twelve (12) months for a period of four (4) years from the date of entry of this Decree, for a total of not less than four audit inspections. The auditor shall be qualified by education, training, and experience to conduct such inspections, and shall be without personal or financial ties (other than the retention agreement) to Defendants or their families, except that the auditor may be the same person(s) as the expert described in paragraph 5.B and/or the specified facilities auditor described in paragraph 7. The requirements in paragraphs 7.A and B shall apply to all audit inspections conducted under this paragraph.

ADDITIONAL INJUNCTION PROVISION

10. Upon entry of this Decree and except as provided for in paragraphs 6 and 11, Defendants and each and all Associated Persons shall, with regard to any device manufactured at any of the Specified or Additional Facilities, be permanently enjoined from directly or indirectly doing or causing to be done any act that:

A. Violates 21 U.S.C. § 331(a) by doing or causing the introduction, and delivery for introduction, into interstate commerce of any device, as defined by 21 U.S.C.

§ 321(h), that is adulterated within the meaning of 21 U.S.C. § 351(h), or misbranded within the meaning of 21 U.S.C. § 352(t)(2);

B. Violates 21 U.S.C. § 331(k) by doing or causing any act that results in the adulteration, within the meaning of 21 U.S.C. § 351(h), or misbranding, within the meaning of 21 U.S.C. § 352(t)(2), of any device, as defined by 21 U.S.C. § 321(h), while such device is held for sale after the shipment of one or more of its components in interstate commerce; and/or

C. Violates 21 U.S.C. § 331(e) by doing or causing the failure to maintain and/or submit reports respecting devices, as defined by 21 U.S.C. § 321(h), as required by 21 U.S.C. § 360i.

EXCLUSIONS

11. The prohibitions set forth in paragraphs 5 and 10 or in any order issued under paragraphs 13 or 14 shall not apply to any device manufactured, processed, packaged, labeled, held for sale, or introduced into interstate commerce solely for export from the United States, provided that the applicable requirements of 21 U.S.C. §§ 381(e) and/or 382 have been satisfied with respect to such device. Independent of their right to export other devices, Defendants may export any medically necessary device to support their International Distributors, provided that:

(A) Defendants ask their International Distributors to ask their International End-Users to execute a signed CMN;

(B) Defendants exercise their best efforts to ask their International Distributors to confirm that the person signing the CMN form has read the form and is who s/he purports to be;

(C) Defendants document these efforts and provide to FDA, on a quarterly basis for two years, a summary of these efforts; and

ADDITIONAL PROVISIONS

12. Defendants shall establish and document management control over quality policy, as defined in 21 C.F.R. § 820.3(u), at the Specified and Additional Facilities for all devices intended for introduction into interstate commerce, to ensure continuous compliance with this Decree, the Act, and the QS, CR, and MDR regulations. Corporate Defendants shall vest responsibility for all quality system functions, as defined in 21 C.F.R. § 820.3(v), in the Specified and Additional Facilities, in an individual who shall be authorized and responsible for all quality system functions at the Specified and Additional Facilities, including establishing, implementing, and maintaining a comprehensive written quality program, to ensure Defendants' continuous compliance with this Decree, the Act, and the QS, CR, and MDR regulations. Within ninety (90) days after entry of this Decree, Defendants shall provide to FDA an affidavit of compliance stating the fact and manner of compliance with this paragraph.

13. If, at any time after this Decree has been entered, FDA determines, on the basis of the results of an inspection, the analyses of samples, a report or data prepared or submitted by Defendants or an expert or auditor under this Decree, or any other information, that Defendants have failed to comply with any provision of this Decree, or have violated the Act, the QS, CR, or MDR regulations at any of the Specified or Additional Facilities, or that additional corrective actions are necessary to achieve compliance with this Decree, the Act, and the QS, CR, and MDR regulations at any of the Specified or Additional Facilities, FDA may, as and when it deems necessary, order Defendants in writing, specifying the noncompliance(s) giving rise to the order, to take appropriate action, including, but not limited to, the following:

Case 1:15-cv-00041-SM Document 2-1 Filed 02/03/15 Page 19 of 30

A. Cease manufacturing, processing, packing, labeling, holding, or distributing any or all devices at any Specified or Additional Facility that was involved in the failure to comply;

B. Recall at Corporate Defendants' expense, adulterated or misbranded devices manufactured, distributed, and/or sold by Defendants from any Specified or Additional Facility, and/or that are under the custody and control of Defendants' U.S. agents, distributors, or customers;

C. Revise, modify, expand, or continue to submit any reports or plans described in this Decree;

D. Submit additional reports or information relating to any Specified or Additional Facility, to FDA as requested;

E. Issue a safety alert, public health advisory, and/or press release;

F. Take any other corrective actions relating to any Specified or Additional Facility as FDA, in its discretion, deems necessary to bring Defendants into compliance with this Decree, the Act, or the QS, CR, or MDR regulations.

These remedies shall be separate and apart from, and in addition to, any other remedy available to the United States under this Decree or the law. The cost of FDA inspections, sampling, testing, travel time, and subsistence expenses to implement these remedies shall be borne by Corporate Defendants at the rates specified in paragraph 18. However, nothing in this paragraph authorizes FDA to take any action with regard to products that are not manufactured, processed, packed, labeled or distributed in the United States.

14. If FDA inspects any facilities owned and/or operated by Corporate Defendants and/or their subsidiaries and/or affiliates, other than the Specified and Additional Facilities, and

finds violations of the Act or the QS, CR, or MDR regulations, FDA may, without further action by the parties or this Court, order that such facility or facilities shall thereafter be fully subject to the provisions of this Decree as though it or they were listed as an Additional Facility or Additional Facilities in paragraph 4.B when the Decree was entered, and FDA, with respect to such facility or facilities, may thereafter, based on subsequent violations, order Defendants to take any or all of the actions described in paragraph 13.

15. Upon receipt of any order issued by FDA pursuant to this Decree, the following procedures shall apply:

A. Unless a different time frame is specified by FDA in its order, Defendants shall, within ten (10) business days after receiving such order, notify FDA in writing that:

i. Defendants are undertaking or have undertaken corrective action, in which event Defendants shall describe the specific action(s) taken or proposed to be taken and the proposed schedule for completing the action(s); or

ii. Defendants do not agree with FDA's order, including a written explanation of the basis for their disagreement; in doing so, Defendants may propose specific alternative actions and specific time frames for achieving FDA's objectives.

B. If Defendants notify FDA that they do not agree with FDA's order, FDA will review Defendants' notification and thereafter, in writing, affirm, modify, or withdraw its order, as FDA deems appropriate. If FDA affirms or modifies its order, it will explain the basis for its decision in writing. The written notice of affirmation or modification shall constitute final agency action.

C. If FDA affirms or modifies its order, Defendants shall, upon receipt of FDA's notice of affirmation or modification, immediately implement the order (as modified, if

applicable), and, if they so choose, bring the matter before this Court on an expedited basis. Defendants shall continue to diligently implement FDA's order, as modified if applicable, unless the Court sets aside, stays, reverses, vacates, or modifies FDA's order. Any review of FDA's order under this paragraph shall be made in accordance with the terms set forth in paragraph 27.

D. The procedures set forth in paragraphs 15A-C shall not apply to any order issued under paragraph 13 if such order states that it is based on FDA's judgment that the matter raises significant public health concerns, and FDA's judgment and basis for such decision are stated in the order. In such case, Defendants shall immediately and fully comply with the terms of that order. If they so choose, Defendants may bring the matter before this Court on an expedited basis. Defendants shall continue to diligently implement FDA's order, unless the Court sets aside, stays, reverses, vacates, or modifies FDA's order. Any review of FDA's order under this paragraph shall be made in accordance with the terms set forth in paragraph 27.

16. Any cessation of operations or other actions described in paragraph 13 shall continue until Defendants receive written notification from FDA that Defendants appear to be in compliance with this Decree, the Act, and the QS, CR, and MDR regulations, and that Defendants may, therefore, resume operations. After receiving Defendants' written request to resume operations, FDA will determine whether it needs to inspect any of Defendants' facilities to determine Defendants' compliance with this Decree, the Act, and the QS, CR, and MDR regulations. If FDA determines that an inspection is necessary, it shall conduct the inspection and determine whether Defendants appear to be in compliance with this Decree, the Act, and the QS, CR, and MDR regulations and, if so, FDA will issue to Defendants a written notification permitting resumption of operations. With regard to U.S. facilities, FDA will decide within forty-five (45) days after receipt of the request whether Defendants appear to be in compliance

and, if so, issue to Defendants a written notification permitting resumption of actions described in paragraph 13. With regard to facilities located outside of the United States, FDA will, as soon as reasonably practicable, act on the request whether Defendants appear to be in compliance and, if so, issue to Defendants a written notification permitting resumption of actions described in paragraph 13.

17. Representatives of FDA shall be permitted, without prior notice and as and when FDA deems necessary, to make inspections of any of the Specified or Additional Facilities, collect samples, and, without prior notice, take any other measures necessary to monitor and ensure continuing compliance with the terms of this Decree, the Act, and the QS, CR, and MDR regulations. During such inspections, FDA representatives shall be permitted ready access to the Specified and Additional Facilities including, but not limited to, all buildings, equipment, finished and unfinished materials and products, containers and packaging materials, and labeling; to take photographs and make video recordings; to take samples (without charge to FDA) of Defendants' finished and unfinished materials and products, containers and packaging materials, and labeling; and to examine and copy all records relating to the manufacture, processing, packing, labeling, receiving, holding, installing, and distribution of any and all devices in order to ensure continuing compliance with this Decree, the Act, and the QS, CR, and MDR regulations. FDA will provide Defendants with a receipt for any samples taken pursuant to 21 U.S.C. § 374 and with copies of any photographs and video recordings made, upon a written request by Defendants and at Corporate Defendants' expense. The inspections shall be permitted upon presentation of a copy of this Decree and appropriate credentials. The inspection authority granted by this Decree is separate from, and in addition to, the authority to conduct inspections under the Act, 21 U.S.C. § 374.

18. Corporate Defendants shall reimburse FDA for the costs of all FDA inspections, investigations, supervision, analyses, examinations, and reviews that FDA deems necessary to evaluate Defendants' compliance with any part of this Decree at the standard rates prevailing at the time the costs are incurred. As of the date of entry of this Decree, these rates are: $88.45 per hour or fraction thereof per representative for inspection and investigative work; $106.03 per hour or fraction thereof per representative for analytical or review work; $0.56 per mile for travel expenses by automobile; government rate or the equivalent for travel by air or other means; and the published government per diem rate for subsistence expenses where necessary. FDA shall submit a reasonably detailed bill of costs to Corporate Defendants. In the event that the standard rates applicable to FDA supervision of court-ordered compliance are modified, these rates shall be increased or decreased without further order of the Court.

19. Within ten (10) business days after entry of this Decree, Defendants shall post a copy of this Decree in a common area at each of the Specified and Additional Facilities and shall ensure that the Decree remains posted for as long as the Decree remains in effect.

20. Within ten (10) business days after the entry of this Decree, Defendants shall provide a copy of this Decree, by electronic means, personal service, or registered mail, to each and all Associated Persons. Within thirty (30) days after entry of this Decree, Defendants shall provide to FDA an affidavit of compliance stating the fact and manner of compliance with this paragraph and identifying the names, addresses, and positions of all Associated Persons located in the U.S. who have received a copy of this Decree.

21. In addition to the requirements in paragraph 8, Defendants shall notify FDA at least ten (10) business days before any change in ownership or character of their business, such as dissolution, assignment, bankruptcy, or sale resulting in emergence of a successor corporation,

the creation or dissolution of subsidiaries, or any other change in the corporate structure of any Corporate Defendant, or the sale or assignment of any business assets, such as buildings, equipment, or inventory, that, in each case, may affect compliance with this Decree. Defendants shall provide a copy of this Decree to any proposed successor or assignee at least thirty (30) business days prior to making any assignment or transferring any interest in the company as described in this paragraph. Defendants shall furnish FDA with an affidavit of compliance with this paragraph no later than ten (10) business days prior to such assignment or change in ownership.

22. In the event that any of the Defendants becomes associated with any additional Associated Person(s) at any time after entry of this Decree, Defendants shall within ten (10) business days of the commencement of such association provide a copy of this Decree, by electronic mail, personal service, or certified mail (restricted delivery, return receipt requested), to such Associated Person(s). Every six (6) months, if during that time Defendants become associated with any such additional Associated Person(s), Defendants shall provide to FDA an affidavit stating the fact and manner of their compliance with this paragraph, identifying the names, addresses, and positions of all Associated Person(s) who received a copy of this Decree pursuant to this paragraph. Within ten (10) business days after receiving a request from FDA for any information or documentation that FDA deems necessary to evaluate Defendants' compliance with this paragraph, Defendants shall provide such information or documentation to FDA.

23. In the event Defendants replace any third-party expert or auditor required under this Decree, Defendants shall notify FDA in writing of the successor to such third-party expert or auditor and Defendants' reasons for replacing the expert or auditor within ten (10) business days

after such replacement. In satisfying the requirements of this Decree, any third-party expert or auditor may review the previous expert's or auditor's work, and refer to such work to satisfy the requirements of the Decree; however, when such work is referenced by the new expert or auditor, s/he shall identify the specific prior work referenced.

24. Unless otherwise specified, all notifications, certifications, reports, correspondence, and other communications to FDA required by the terms of this Decree shall be addressed to the Director, FDA New England District Office, One Montvale Avenue, Stoneham, MA 02180. All notifications, correspondence, and communications required to be sent to Defendants or Corporate Defendants by the terms of the Decree shall be addressed to the General Counsel's Office, Maquet/Atrium Shared Legal Group, 1300 MacArthur Boulevard, Mahwah, NJ 07430.

25. Should Defendants fail to comply with any provision of this Decree, including any time frame imposed by this Decree, at any Specified or Additional Facility, then Corporate Defendants shall pay to the United States of America: fifteen thousand dollars ($15,000) in liquidated damages for each day such violation continues; an additional sum of fifteen thousand dollars ($15,000) in liquidated damages per day, per violation for each violation of the Act, its implementing regulations, and/or this Decree. In addition, should Defendants distribute from any Specified or Additional Facility after entry of this Decree any device that violates this Decree, the Act, or its implementing regulations, Corporate Defendants shall, in addition to the foregoing, also pay to the United States as liquidated damages a sum equal to two times the retail value of such devices. The amount of liquidated damages imposed under this paragraph shall not exceed ten million dollars ($10,000,000) in any one calendar year. The parties acknowledge that any payments to the government under any provision of this Decree are not a fine, penalty,

forfeiture, or payment in lieu thereof. The remedy in this paragraph shall be in addition to any other remedies available to the United States under this Decree or the law.

26. Should the United States bring and prevail in a contempt action to enforce the terms of this Decree, Corporate Defendants shall, in addition to other remedies, reimburse the United States for its attorneys' fees (including overhead), investigational and analytical expenses, expert witness fees, and court costs relating to such contempt proceedings.

27. Defendants shall abide by the decisions of FDA, and FDA's decisions shall be final. All decisions conferred upon FDA in this Decree shall be vested in FDA's discretion and, if contested, shall be reviewed by this Court under the arbitrary and capricious standard set forth in 5 U.S.C. § 706(2)(A). Review by the Court of any FDA decision rendered pursuant to this Decree shall be based exclusively on the written record before FDA at the time the decision was made. No discovery shall be taken by either party.

28. The parties may at any time petition each other in writing to modify any deadline provided herein; and, if the parties mutually agree in writing to modify a deadline, such modification may be granted without seeking leave of Court.

29. If any deadline in this Decree falls on a weekend or federal holiday, the deadline shall be continued to the next business day.

30. If, and for as long as, an individual Defendant ceases to be employed by or to act on behalf of Corporate Defendants or any of their subsidiaries, franchises, affiliates and/or "doing business as" entities (the "Corporate Defendant Entities"), then, without further order of the Court, that individual Defendant shall not be subject to the terms of this Decree but shall continue to be liable for such individual Defendant's act(s) or failure(s) to act under this Decree prior to the time such individual ceased to be employed by or to act on behalf of all of the

Corporate Defendant Entities. An individual Defendant shall notify FDA within thirty days after said Defendant ceases to be employed by or to act on behalf of all of the Corporate Defendant Entities. Once an individual Defendant ceases to be employed or otherwise act for all of the Corporate Defendant Entities, Corporate Defendants shall petition the Court to formally remove that individual Defendant's name from the caption of this Decree and the United States will not oppose such a motion, so long as FDA has sufficient evidence or information that the individual Defendant to be removed is no longer directly or indirectly working for or with, or in any way influencing, Corporate Defendant Entities. If Defendant Gail Christie's responsibilities are materially reduced, or the position of Corporate Chief Quality Assurance/Regulatory Affairs and Compliance Officer is eliminated, Corporate Defendants shall petition the Court to substitute for her as an individual Defendant either her successor as Corporate Chief Quality Assurance/Regulatory Affairs and Compliance Officer or the individual vested with responsibility for all quality system functions, as described in paragraph 12 ("Christie Substitute Defendant"). The United States will not oppose such a motion, so long as FDA has sufficient evidence or information that the Christie Substitute Defendant is vested with responsibility for all quality system functions, as described in paragraph 12. If removing an individual Defendant would result in no individual Defendant being subject to this Decree, Corporate Defendants shall designate an individual of similar position and responsibility to be substituted as an individual Defendant ("Substitute Individual Defendant"). Corporate Defendants shall petition the Court to add the Substitute Individual Defendant to the Decree and the United States will not oppose such a motion so long as FDA has sufficient evidence or information regarding the Substitute Individual Defendant's position and responsibilities. The obligations under this Decree of each individual named herein and any Substitute Defendant shall apply only to the extent of his or her

Date of Event/Arrest	Disposition Date	State	City	County

Reason/Charge
Complaint concerning records of PRN, Inc

Plaintiff/Defendant/Claimant/Respondent	Lawsuit/Arbitration/Bankruptcy
Mary Grear	

Name of Business/Industry/Entity
PRN, Inc

Provide explanation below:

A complaint was made concerning grants made by the Board of Pharmacy to PRN, Inc. to Mary Grear, Executive Director. The Board of Pharamcy sent notice of a request for hearing to the wrong mailing address even though the correct address was on file at the Board of Pharmacy. This resulted in my not being aware that I needed to appear until after the Board Meeting. I subsequently prepared the requested documents and submitted them to the Board Auditors who found no discrpensies in the funds granted by the Board of Pharmacy to PRN and the expense record under my administration. A rehearing was held and the case was closed finding all monies were accouted for the PRN, Inc. grants.

SUPERIOR COURT OF ARIZONA

MARICOPA COUNTY

QUICK SHINE PAHRUMP OPERATIONS, LLC., a Nevada limited liability company,

Plaintiff,

v.

JOHN B. REDDELL, JR., an individual and JOHN REDDELL ARCHITECTS, INC., an inactive Arizona corporation,

Defendants.

Case No. CV2022-001813

COMPLAINT

For its Complaint against Defendants John B. Reddell ("Mr. Reddell") and John Reddell Architects ("JRA") (collectively "Defendants"), Quick Shine Pahrump Operations, LLC. ("Quick Shine" or "Plaintiff"), alleges as follows:

JURISDICTION AND VENUE

1. Quick Shine is a Nevada Limited Liability Company authorized to conduct business throughout Nevada.

2. Mr. Reddell is a citizen of Arizona in the county of Maricopa.

3. JRA is a company in Arizona in the county of Maricopa with an inactive status but that has nevertheless entered into business contracts in Arizona, concerning a project in Nevada, giving rise to the claims in this Complaint.

4. This Court has jurisdiction to hear this case under Article VI, § 14 of the Arizona Constitution and A.R.S. § 12-122.

5. According to A.R.S. § 12-401, venue is appropriate because the events described in the Complaint occurred throughout Arizona, and Defendants reside in Maricopa county.

GENERAL ALLEGATIONS

6. JRA was organized under the laws of Arizona on May 2, 1988.

7. JRA was administratively dissolved for not filing an annual report when due in 2013.

8. JRA continues to transact business in Arizona.

9. Mr. Reddell is an active Arizona licensed architect practicing under the license number 17664 and serves as JRA's president.

10. As the president, Mr. Reddell is responsible for the JRA. A.A.C. R4-30-31.

11. In September 2020, Mr. Reddell, on behalf of JRA, entered into a contract with Quick Shine for services in connection with a project in Pahrump, Nevada (the "Contract"). **Exhibit A.**

12. In the Contract, JRA agreed to provide architectural services for an Express Car Wash with one tunnel and equipment room, including a vacuum enclosure and vacuum canopies. *See* **Exhibit A.**

13. JRA also agreed to provide submittals during a schematic design phase, a design development phase, and a construction document phase and participate in a bidding phase and construction administration phase. *See* **Exhibit A.**

14. In exchange, Quick Shine agreed to pay JRA an architectural and engineering fee in the amount of $43,000.00.

15. However, although more than a year has passed, JRA has not performed its end of the bargain.

16. Specifically, JRA has not submitted Schematic Design Phase, which required a schematic floor plan and site plan, city pre-application filing, and a pre-application meeting.

17. JRA's failure has resulted in substantial damages Quick Shine.

18. Despite Quick Shine's numerous attempts to demand performance, JRA has not performed.

19. As a result of JRA's failure to perform the Contract, Quick Shine has suffered irreparable harm that includes, but is not limited to, an interest charge of approximately $84,000, which continues to accrue at approximately $7,000.00 per month; an increase in equipment costs from the time of when Quick Shine should have been able to buy equipment; lost revenue; and reputational damage.

COUNT ONE

(BREACH OF CONTRACT)

1. Quick Shine incorporates the preceding paragraphs as though fully set forth herein.

2. Quick Shine had a valid existing contract with Defendants, whereas Quick Shine agreed to pay $43,000.00 in exchange for Defendants' architectural services.

3. Defendants agreed to the terms of the Contract.

4. Quick Shine upheld its end of the bargain and paid Defendants a retainer of $43,000.00.

5. Defendants breached the contract by failing to perform any part of the Contract for more than a year.

6. Quick Shine has been damaged by interest costs, an increase in equipment costs, and lost revenue.

COUNT TWO

(MALPRACTICE)

7. Quick Shine incorporates the preceding paragraphs as though fully set forth herein.

8. Commencing in September 2020, Plaintiff retained Defendants to provide professional architectural and related services for Plaintiff pursuant to a written contract. **Exhibit A.**

9. As Plaintiff's architect, Defendants, as professionals, agreed to use, and were required to exercise, such skill, prudence, and diligence as other members of the architectural profession commonly possess and exercise in the State of Arizona. Defendants' professional services (or lack thereof) fell below the applicable standard of care.

10. The Defendants' negligent acts and omissions were below the standard of care for

comparable architects who practice in this community. Defendants' professional negligence was a substantial factor in causing Plaintiff's damages.

11. As a direct and proximate result of Defendants' incompetence and professional negligence, Plaintiff has suffered compensatory damages in an amount to be proven according to proof presented at trial, but upon information and belief exceeds $500,000.00.

CERTIFICATION PURSUANT TO A.R.S. § 12-2602(D)

Plaintiff certifies that expert testimony is not required for Count 2 of its Complaint. Plaintiff's rationale is that the failure to meet the standard of care by completely failing to provide the services agreed to can be established under the concept of *res ipsa loquitur*.

PRAYER FOR RELIEF

WHEREFORE, Plaintiffs pray for judgment against Defendants, jointly and severally, as follows:

a) For an award of compensatory damages in an amount to be proven at trial;

b) For an award of punitive damages in an amount to be proven at trial;

c) For an award of reasonable attorneys' fees and costs incurred; and

d) For an award of prejudgment and post-judgment interest; and

Such other relief that the Court may deem just and proper.

RESPECTFULLY SUBMITTED this 14th day of February, 2022.

27. Any action of Rowe was effectively an action by R.D.R.

29. By information and belief, Millsaps is also an owner of Alloy.

33. Millsaps is an agent of Alloy.

34. Any communication to Millsaps was the same as communicating to Rowe, Podium, and Alloy.

investments?"

36. When Crawley asked what kind, Millsaps responded, "I could literally make you set for life."

37. The next day, Crawley called Millsaps about the investment.

38. Millsaps also texted Crawley a spreadsheet containing specific purported financials related to Alloy, stating, "[t]hese are worst case numbers so you can look at it all."

39. Millsaps also stated, "In private you can tell your partner I will Give [sic] up an extra 5% of my equity for you and him so you Guys [sic] would have 15%."

40. In their communications with Plaintiffs, Defendants were referring to selling percentages of Alloy to P.C.B.I.

41. Based on representations from Defendants, the initial investment would be into Alloy, with the ultimate intent being to create a new company that would either take over for Alloy and the members of Alloy would become members of the new company.

42. During the initial discussions, Defendants told Plaintiffs they were working on the contract we have at the moment, and if it needs to be changed, we can have attorneys change it and get it done.

43. Many of the Defendants' communications occurred while one or more of the individuals were in Arizona.

44. Millsaps texted Crawley on May 20, 2020, "[Rowe] sent you the agreements."

47. In May 2020, Defendants provided Plaintiffs a video, stating, "this gives you an idea of what we are trying to buy."

48. Defendants also represented that they would get Plaintiffs the balance sheet in the morning and again there is 0 debt on the company."

49. One of the people mentioned during these discussions was Kyle Smith, who, according to the Kentucky Secretary of State's website, is the registered agent of Alloy.

50. Again, a few days later, Defendants represented that Plaintiffs should have the balance sheet soon.

51. On May 22, 2020, Rowe sent an email containing two documents with the subject line "FWD: Alloy Energy" to Portz, Crawley, and Millsaps.

52. The first document was titled "Alloy Energy L.L.C. Project." It included a summary of the company operations that stated, "Alloy Energy L.L.C. specializes in extracting a unique coal called High Vol. B metallurgical coal," by using "a continuous miner" and "[t]his coal is extracted from the Lower Alma seam in at the Alloy Energy L.L.C. mine in Blackberry, KY."

53. The document included details of expected projections of coal output and touted Rowe's expertise in the industry.

54. The second document included a list of individuals and their percentages of ownership in Alloy.

55. Based on the representations made by Millsaps and Rowe, P.C.B.I. agreed to invest in Alloy.

56. Millsaps and Rowe pushed to receive the investment money before memorializing the investment with formal documents.

57. As of result of Millsaps and Rowe's representations, on May 26, 2020, P.C.B.I. transferred $250,000.00 to Rowe's bank in Oklahoma.

58. The consideration for the wire transfer was the receipt, review, and execution of the documentation of the sale of 20% of Alloy and any new company that might take over for Alloy.

59. Rowe and Millsaps also represented that they would verify that this business is all-encompassing of the mining opportunity, that there were no other businesses or claims, leases or otherwise in the same line of business exist that are not being included in the deal.

60. On June 4, 2020, Rowe created Podium.

61. On June 4, 2020, Rowe created R.D.R.

62. Podium was the company Rowe, Millsaps, and Alloy, intended to ultimately take over or otherwise step in the shoes of Alloy, and the members of Alloy would also become members of Podium.

63. Since its investment, P.C.B.I. has made multiple requests of Defendants to finalize the documentation of the transaction and provide the materials they promised.

64. Those requests started soon after transferring the investment funds and continued through the first quarter of 2021.

65. Those requests included the documentation for the deal and company documents Defendants represented would be forthcoming.

66. None of the documents Defendants represented would be forthcoming have been produced.

67. On April 7, 2021, Plaintiffs again demanded that Defendants turn over Podium documents according to Ky. Rev. Stat. § 275.185.

68. Defendants responded acknowledging receipt of the letter, but again he failed to turn over the documents.

69. To date, Defendants have not provided the documentation for the transaction or information required to be supplied by Ky. Rev. Stat. § 275.185

70. By information and belief, P.C.B.I. is a member of both Alloy and Podium.

COUNT ONE

(FRAUD)

71. Plaintiffs incorporate the preceding paragraphs as though fully set forth herein.

72. Defendants represented to Plaintiffs that he would handle the investment transaction with professionalism, trustworthiness, and care.

73. Defendants represented that in exchange for the $250,000, Defendants would immediately provide Plaintiffs the documentation for the investment alleged above.

74. Defendants represented that P.C.B.I.'s investment into Alloy was all-encompassing of the mining opportunity and that no other businesses or claims, leases, or

otherwise in the same line of business exist that are not being included in the deal."

75. Defendants represented that in exchange for the $250,000, Defendants would provide detailed information about each of the Defendants' limited liability companies soon after the investment funding.

76. At the time of these representations, Defendants knew or should have known that their representations were false.

77. The Defendants' representations were material to the Plaintiffs' decision to fund the investment.

78. Plaintiffs relied upon Defendants' representations at the time Plaintiffs made the wire transfer.

79. At the time of the Plaintiffs' decision to wire the investment, the Plaintiffs had no reason to believe the Defendants' representations were false.

80. Plaintiffs' reliance on the Defendants' representation was reasonable.

81. The Defendants intended Plaintiffs to rely on their representations and wire the funds.

82. The Plaintiffs were harmed as a result of the false representations of the Defendants.

83. As a result of relying on the Defendants' false representation of professionalism, trustworthiness, and care in connection with the investments, Plaintiffs have been damaged for no less than $250,000.00, and interest accruing thereon.

84. Because Rowe and Millsaps acted intentionally with evil intention, Plaintiffs are also entitled to punitive damages in an amount to be determined a trial.

COUNT TWO

(ALTER EGO)

85. Plaintiffs incorporate the preceding paragraphs as though fully set forth herein.

86. Rowe is the registered agent of R.D.R.

87. R.D.R. is the listed registered agent of Podium.

88. Rowe exercised substantially total control over the management and activities of

R.D.R.

89. Changes made to the Kentucky Secretary of State website for both Podium and R.D.R. happened on the same day and nearly the same time as each other.

90. Rowe controlled the management of R.D.R. to make changes to Podium.

91. Observance of R.D.R.'s corporate form would sanction Rowe's fraud and promote injustice.

92. Because Rowe and R.D.R. are the same, R.D.R.'s corporate form cannot be recognized, and any relief against Rowe should be relief against R.D.R., and any relief against R.D.R. should be relief against Rowe.

COUNT THREE

(VIOLATION OF KY. R.E.V. STAT. § 275.185)

93. Plaintiffs incorporate the preceding paragraphs as though fully set forth herein.

94. Under Ky. Rev. Stat. § 275.185, a member may, "upon reasonable written request to the limited liability company . . . inspect and copy during ordinary business hours any limited liability company record, where the record is located or at a reasonable location[,]" including the following:

a. A current list, and all past lists, setting forth the full name and last known mailing address of each member and manager;

b. A copy of the articles of organization and all amendments thereto, together with the executed copies of any power of attorney pursuant to which the articles of the amendment have been executed;

c. Copies of the L.L.C.'s federal, state, and local income tax returns and financial statements, which include reasonable detail of the company's assets and liabilities and the results of its operations, for the three most recent years or, if those returns and statements were not prepared, copies of the information and statements provided to, or that should have been provided to, the members;

d. Copies of any effective written operating agreements and all amendments thereto, and copies of any written operating agreements no longer in effect;

e. A writing setting forth the amount of cash, and a statement of the agreed value of other property or services, contributed by each member and the times at which or events upon the happening of which any additional contributions are to be made;

f. A writing stating events, upon the happening of which the L.L.C. is to be dissolved, and its affairs wound up;

g. Other writings, prepared according to all other requirements, in the operating agreement; and

h. All other true and complete information of all matters affecting the members.

95. At all relevant times, P.C.B.I. was a member of Podium Mining, L.L.C.

96. At all relevant times, P.C.B.I. was a member of Alloy Energy, L.L.C.

97. As a member of Podium and Alloy, P.C.B.I. made multiple demands and requests in writing to inspect documents subject to Ky. Rev. Stat. § 275.185, but Defendants have not provided any documents to P.C.B.I., in violation of the statute.

98. Members of a Kentucky limited liability company may file a lawsuit seeking a court order requiring that the limited liability company permit the members to inspect the documents subject to the statute. *Tavadia v. Mitchell*, 564 S.W.3d 322, 328 (Ky. Ct. App. 2018).

99. As such, Defendants are in violation of Ky. Rev. Stat. § 275.185, and P.C.B.I. is entitled to an order from this Court enforcing the statute and requiring Defendants to turn over the documents to P.C.B.I.

COUNT FOUR

(BREACH OF CONTRACT)

100. Plaintiffs incorporate the preceding paragraphs as though fully set forth herein.

101. Plaintiffs had a valid existing contract with Defendants, whereas P.C.B.I. agreed to invest $250,000.00 so long as the deal is memorialized in writing, and Defendants agreed to give P.C.B.I. ownership into the companies and provide company documents.

102. Defendants agreed to the terms of the contract.

103. P.C.B.I. upheld its end of the bargain and invested $250,000.00.

104. Defendants breached the contract by failing to turn over any company documents

or memorialize the agreement.

105. Plaintiffs have been damaged by at least $250,000.00.

PRAYER FOR RELIEF

WHEREFORE, Plaintiffs pray for judgment against Defendants, jointly and severally, as follows:

a) An order requiring Podium Mining, L.L.C. and Alloy Energy, L.L.C. to provide access to P.C.B.I. of all company documents listed above;

b) For an award of compensatory damages of no less than $250,000;

c) For an award of punitive damages in an amount to be proven at trial;

d) For an award of reasonable attorneys' fees and costs incurred; and

e) For an award of prejudgment and post-judgment interest; and

Such other relief that the Court may deem just and proper.

Attorneys for Plaintiffs

SUPERIOR COURT OF ARIZONA

MARICOPA COUNTY

QUICK SHINE PAHRUMP OPERATIONS, LLC., a Nevada limited liability company, Plaintiff, v. JOHN B. REDDELL, JR., an individual and JOHN REDDELL ARCHITECTS, INC., an inactive Arizona corporation, Defendants.	Case No. **CV2022-001813** **COMPLAINT**

For its Complaint against Defendants John B. Reddell ("Mr. Reddell") and John Reddell Architects ("JRA") (collectively "Defendants"), Quick Shine Pahrump Operations, LLC. ("Quick Shine" or "Plaintiff"), alleges as follows:

JURISDICTION AND VENUE

1. Quick Shine is a Nevada Limited Liability Company authorized to conduct business throughout Nevada.

2. Mr. Reddell is a citizen of Arizona in the county of Maricopa.

3. JRA is a company in Arizona in the county of Maricopa with an inactive status but that has nevertheless entered into business contracts in Arizona, concerning a project in Nevada, giving rise to the claims in this Complaint.

4. This Court has jurisdiction to hear this case under Article VI, § 14 of the Arizona Constitution and A.R.S. § 12-122.

5. According to A.R.S. § 12-401, venue is appropriate because the events described in the Complaint occurred throughout Arizona, and Defendants reside in Maricopa county.

GENERAL ALLEGATIONS

6. JRA was organized under the laws of Arizona on May 2, 1988.

7. JRA was administratively dissolved for not filing an annual report when due in 2013.

8. JRA continues to transact business in Arizona.

9. Mr. Reddell is an active Arizona licensed architect practicing under the license number 17664 and serves as JRA's president.

10. As the president, Mr. Reddell is responsible for the JRA. A.A.C. R4-30-31.

11. In September 2020, Mr. Reddell, on behalf of JRA, entered into a contract with Quick Shine for services in connection with a project in Pahrump, Nevada (the "Contract"). **Exhibit A**.

12. In the Contract, JRA agreed to provide architectural services for an Express Car Wash with one tunnel and equipment room, including a vacuum enclosure and vacuum canopies. *See* **Exhibit A**.

13. JRA also agreed to provide submittals during a schematic design phase, a design development phase, and a construction document phase and participate in a bidding phase and construction administration phase. *See* **Exhibit A**.

14. In exchange, Quick Shine agreed to pay JRA an architectural and engineering fee in the amount of $43,000.00.

15. However, although more than a year has passed, JRA has not performed its end of the bargain.

16. Specifically, JRA has not submitted Schematic Design Phase, which required a schematic floor plan and site plan, city pre-application filing, and a pre-application meeting.

17. JRA's failure has resulted in substantial damages Quick Shine.

18. Despite Quick Shine's numerous attempts to demand performance, JRA has not performed.

19. As a result of JRA's failure to perform the Contract, Quick Shine has suffered irreparable harm that includes, but is not limited to, an interest charge of approximately $84,000, which continues to accrue at approximately $7,000.00 per month; an increase in equipment costs from the time of when Quick Shine should have been able to buy equipment; lost revenue; and reputational damage.

COUNT ONE

(BREACH OF CONTRACT)

1. Quick Shine incorporates the preceding paragraphs as though fully set forth herein.

2. Quick Shine had a valid existing contract with Defendants, whereas Quick Shine agreed to pay $43,000.00 in exchange for Defendants' architectural services.

3. Defendants agreed to the terms of the Contract.

4. Quick Shine upheld its end of the bargain and paid Defendants a retainer of $43,000.00.

5. Defendants breached the contract by failing to perform any part of the Contract for more than a year.

6. Quick Shine has been damaged by interest costs, an increase in equipment costs, and lost revenue.

COUNT TWO

(MALPRACTICE)

7. Quick Shine incorporates the preceding paragraphs as though fully set forth herein.

8. Commencing in September 2020, Plaintiff retained Defendants to provide professional architectural and related services for Plaintiff pursuant to a written contract. **Exhibit A**.

9. As Plaintiff's architect, Defendants, as professionals, agreed to use, and were required to exercise, such skill, prudence, and diligence as other members of the architectural profession commonly possess and exercise in the State of Arizona. Defendants' professional services (or lack thereof) fell below the applicable standard of care.

10. The Defendants' negligent acts and omissions were below the standard of care for

comparable architects who practice in this community. Defendants' professional negligence was a substantial factor in causing Plaintiff's damages.

11. As a direct and proximate result of Defendants' incompetence and professional negligence, Plaintiff has suffered compensatory damages in an amount to be proven according to proof presented at trial, but upon information and belief exceeds $500,000.00.

CERTIFICATION PURSUANT TO A.R.S. § 12-2602(D)

Plaintiff certifies that expert testimony is not required for Count 2 of its Complaint. Plaintiff's rationale is that the failure to meet the standard of care by completely failing to provide the services agreed to can be established under the concept of *res ipsa loquitur*.

PRAYER FOR RELIEF

WHEREFORE, Plaintiffs pray for judgment against Defendants, jointly and severally, as follows:

a) For an award of compensatory damages in an amount to be proven at trial;

b) For an award of punitive damages in an amount to be proven at trial;

c) For an award of reasonable attorneys' fees and costs incurred; and

d) For an award of prejudgment and post-judgment interest; and

Such other relief that the Court may deem just and proper.

RESPECTFULLY SUBMITTED this 14th day of February, 2022.

Provide explanation below:

A complaint was made concerning grants made by the Board of Pharmacy to PRN, Inc to Mary Grear, Executive Divector. The Board of Pharmacy sent notice of a request for hearing to the wrong mailing address even though the correct address was on file at the Board Office. This resulted in my not being aware that I needed to appear until after the Board Meeting. I subsequesntly prepared the requested documents and submitted them to the Board Auditors who found no discrepencies in the funds granted by the Board of Pharmacy to PRN and the expense record under my administration. A rehearing was held and the case was closed finding all monies were accounted for the PRN, Inc grants.

Provide explanation below:

I work in private practice in Lake Havasu City, AZ and Bullhead City, AZ where I practice outpatient chronic pain management. My schedule is Monday-Thursday 8:00 A.M. to 5:00 P.M. and Friday 8:00 A.M. to 2-3:00 P.M. I do not have on-call or inpatient hospital responsibilities.

On Wednesday, January 26, 2022, I started work at 8:30 A.M. and saw my last patient at 4:30 P.M. I had an 8:00 A.M. meeting with my team before clinic started for the day. After work, I got a haircut and then joined some colleagues at Shugrue ' s Restaurant (1425 McCulloch Blvd, Lake Havasu City, AZ 86403) at 6:30 P.M. for a dinner meeting. At the restaurant I had a meal consisting of appetizers, entrée and dessert. I consumed two cocktails that contained gin. I also had 1-2 glasses of water and a half cup of coffee.

I left the restaurant around 9:30 P.M. to head home (646 Grand Island Drive). On the way home, I was arrested for DUI after failing a field breathalyzer test. I was also cited for speeding at 45 mph in a 35 mph zone. I was released the following morning. On March 3, 2022 I pled guilty to DUI and the terms of plea are listed in the attached court orders.

I have complied with all court and ADOT orders:
- I completed 30 days of random urine alcohol screening at Averhealth in Lake Havasu City.
- I completed online Arizona Defensive Driving program on January 29th.
- I completed in person Traffic Survival School on March 27th.
- I completed in person DUI screening/counseling with a licensed counselor on April 28th.

My name is James Lee Taylor Jr. I am currently attending the Pharmacy Technician program at Northwest Career College in Las Vegas, NV. I am writing to provide details about two felonies I was convicted of in 2018 and 2019.

Case No: C-19-345000-1 and C-18-331606-1
City, State: Las Vegas, NV
Arrest Date: 4/26/2018 and 11/21/2019

In 2017 I moved to Nevada. After living here for about a year, in 2018, I decided to purchase a few four-wheelers and off-roading vehicles. I was not aware the buying and selling process and documents required in Nevada and that the requirements were different from those I was accustomed to in California. Prior when purchasing in California, I was only required to have a Bill of Sale, not a title, upon purchase. I was arrested shortly after buying the vehicles and informed that I was in possession of the stolen property. The police searched my residence and discovered that I had no additional stolen property related to the four-wheelers.

I was charged with a felony of theft and given probation—the court-ordered probation for up to three years. In May of 2021, I was honorably discharged from probation.

While on Probation in 2019, I was the supervisor for a moving company. While working for the company, it was discovered that one of the employees I was managing was stealing. I was unaware of his actions. I was called into a weekly meeting where I was informed and arrested. A hold was put on my probation, and I was charged with Grand Larceny.

Due to my Probation status, I was in jail for three months and put on probation for up to three years following the charge. I am currently on probation for this charge.

From my experiences, I have learned to pay more attention and be more aware. Regardless of how well you may know someone, you do not really know what they are capable of. While in court, the judge told me if it is too good to be true, it probably is. I completely agree with his statement and have learned to be more cautious and aware of the situations around me and not put myself in potential situations that are not beneficial for myself or my family.

My reasoning for pursuing a career as a Pharmacy Technician includes that I want to give back to my community. I want to work for a community shop that helps my community and the people I have come to grow and love. During my time in Las Vegas, so many people have helped me grow and learn. I am currently working at the convenience store 711 to support my family, and it is here that I have gotten the opportunity to interact with many people within my community. I plan to continue to work my hardest to support my family and give back in a positive way.

I appreciate your time and consideration regarding my license. Thank you again for considering me,

COMPLAINT

The Investigative Committee of the Nevada State Board of Medical Examiners, composed at the time filing of Charles N. Held, M.D., Chairman, Theodore B. Berndt, M.D., Member, and Valerie J. Clark, BSN, RHU, LUTCF, Member, having a reasonable basis to believe that Graham Dundas Simpson, M.D., hereinafter referred to as Respondent, has violated the provisions of NRS Chapter 630, hereby issues its formal Complaint, stating the Investigative Committee's charges and allegations, as follows:

1. Respondent's license is currently in active status (License No. 3723), and has been so licensed since January 1, 1979 by the Nevada State Board of Medical Examiners pursuant to the provisions of Chapter 630 of the Nevada Revised Statutes.

2. Patient A was a fifty-nine year old (59) male at the time of the incidents in question. His true identity is not disclosed to protect his privacy, but his identity is disclosed in the Patient Designation served on Respondent along with a copy of this Complaint.

3. On August 21, 2008, Patient A presented to Cenegenics Medical Institute and the Respondent primarily for weight loss. During the initial work-up, Patient A admitted to being addicted to pain medications. He admitted to taking Oxycontin, 80 mg 3 tablets 3X per day, and Percocet, 30 mg 8-12 tablets per day. He also told Respondent that he was taking methimazole for a thyroid condition.

4. Despite Patient A taking methimazole, Respondent prescribed Armour thyroid. This was to treat a claimed hypothyroid condition.

5. Respondent also prescribed testosterone cypionate IM 0.4 cc 2X weekly to treat the low testosterone levels. This was a failure by Respondent to recognize that the low testosterone levels of Patient A were due to his chronic dependence on opioids, his obesity and diabetes. Again, despite this, Respondent increased the dosage of testosterone cypionate IM to 0.6 cc 2X weekly. Two weeks later, the dosage was lowered to the initial amount of 0.4 cc 2X weekly.

6. Respondent also initially prescribed supplementation with DHEA for Patient A. This too was unwarranted and unnecessary because Patient A's low DHEA was due to his chronic opioid dependence.

7. Patient A terminated his medical care with Cenegenics Medical Institute and the Respondent on or about February 11, 2009.

Count I

8. All of the allegations contained in the above paragraphs are hereby incorporated by reference as though fully set forth herein.

9. Nevada Administrative Code Section 630.040 defines malpractice as the failure of a physician, in treating a patient, to use the reasonable care, skill, or knowledge ordinarily used under similar circumstances.

10. Nevada Revised Statute Section 630.301(4) provides that malpractice is grounds for initiating disciplinary action against a licensee.

11. Respondent failed to use the reasonable care, skill, or knowledge ordinarily used under the same or similar circumstances by, among other things, when he failed and omitted to recognize that Patient A was already on a course of treatment, methimazole, for hyperthyroidism and then prescribed Armour thyroid to treat hypothyroidism; failed and omitted to recognize that Patient A's low testosterone level(s) were the result of chronic opioid dependence, obesity and diabetes and then prescribed testosterone cypionate to treat the low levels; failed and omitted to recognize that Patient A's low DHEA was also secondary to opioid dependence and then prescribed supplemental DHEA for Patient A.

12. By reason of the foregoing, Respondent is subject to discipline by the Nevada State Board of Medical Examiners as provided in Section 630.352 of the Nevada Revised Statutes.

WHEREFORE, the Investigative Committee prays:

1. That the Nevada State Board of Medical Examiners give Respondent notice of the charges herein against him and give him notice that he may file an answer to the Complaint herein as set forth in Section 630.339 of the Nevada Revised Statutes within twenty (20) days of service of the Complaint.

2. That the Nevada State Board of Medical Examiners set a time and place for a formal hearing after holding an Early Case Conference pursuant to NRS 630.339(3);

3. That the Nevada State Board of Medical Examiners determine what sanctions it determines to impose if it determines there has been a violation or violations of the Medical Practice Act (Nevada Revised Statutes Chapter 630) committed by Respondent; and

4. That the Nevada State Board of Medical Examiners make, issue and serve on Respondent its findings of facts, conclusions of law and order, in writing, that includes the sanctions imposed; and

5. That the Nevada State Board of Medical Examiners take such other and further action as may be just and proper in these premises.

Dr. Swaine:

On behalf of the Nevada State Board of Medical Examiners, I want to congratulate you on meeting the requirements for licensure to practice medicine in the State of Nevada. Your license, issued on December 22, 2021, is enclosed. You may print your wallet ID card and receipt for payment of your registration fees within the Board's *licensee portal*, found at medboard.nv.gov. As I am sure you are aware, Nevada has one of the most stringent, if not the most stringent requirements for postgraduate education for licensure in the nation. In addition, the Board performs an in-depth licensing investigation and inquiry on every applicant for licensure in this state. Again, my congratulations for your having met these stringent requirements.

Your license was issued with the following conditions:

1. **Participate in and complete a preceptorship as outlined to the Board**
2. **Complete three (3) more years in your monitoring program**

Failure to comply with the terms of this Order is a failure to comply with an order of the Board, which may result in additional disciplinary action.

Below is the link to the Nevada Revised Statutes, Chapters 630 and 629, and Nevada Administrative Code, Chapter 630.

Or you may visit the Board website at medboard.nv.gov. Click on Licensees & Applicants to review NRS Chapters 629 and 630 and NAC 629 and 630.

It is imperative that you keep the Board constantly advised of your mailing address in order that Board newsletters and other educational information can be forwarded to you,

and most important of all, that you receive your notice of registration in order to keep your license in effect. *Please note: your address of record is made public on the Board's website. You may prefer to utilize a P.O. Box or your practice address as your public contact address.* Should you have questions regarding your licensure status in Nevada, please feel free to contact the Board staff in Reno.

2. Have you ever been charged, arrested or convicted of a felony or misdemeanor in any state? Yes in Nevada.

05/05/2012 - Arrested for and charged with battery/domestic violence. Charges were dropped and the case was not prosecuted.

On May 5, 2012 my wife and I got into an argument, she then consumed what appeared to be a handful of diphenhydramine. I became concerned and called 911 not knowing how many pills she consumed. I explained to the 911 operator of my concern and gave the operator our home address. My wife became more upset because of my call to 911 and tried to leave by driving away in her vehicle with our five year old daughter. I managed to stop her from driving away by holding her down inside her vehicle and took the key from the ignition. She then told me that she only consumed a couple of diphenhydramine and that she was going to be fine and did not want to deal with the police and asked me to drive away. As I started to drive away with my wife and daughter, the police arrived and pulled us over and questioned us separately. I was then arrested and charged with battery and domestic violence. I posted bail the following day and was released. My wife did not press charges and the case was not prosecuted.

08/06/2014 - Arrested by DEA and federal officials and charged with obtaining controlled substances by fraud and or deceit.

In mid July of 2014 I met with DEA officials at their offices regarding my obtaining controlled substances by fraud or deceit. I admitted to the DEA agents that had obtained controlled substances by fraud or deceit for personal use because of my opiod addiction . Once the meeting concluded, I was advised that I would be notified by the DEA regarding my case sometime soon. On 8/6/2014 several DEA and federal agents came to my home and arrested me. I was released the following day and charged with obtaining controlled substances by fraud or deceit. I plead guilty to this charge and was sentenced to five years supervised federal probation along with a Class E Felony.

06/18/2015 - Criminal conviction, guilty plea to Federal Court and DEA for the felony of acquiring or obtaining possession of controlled substances by fraud or deception. Received a Felony Category Level E along with a five-year supervised federal probation sentence.

06/02/2016 - Arrested for federal probation violation.

In early April of 2016 my wife notified my probation officer that I had been going to a methadone clinic on a daily basis to receive methadone. My probation officer was unaware of this and ordered me to come in to see her. On April 6, 2016 I appeared before the judge regarding this matter and was ordered to attend a detox center and a 90 day residential treatment facility for my opioid addiction. I completed the detoxification program on April 19, 2016 but I failed to immediately meet with my probation officer after completing the detoxification treatment. I finally reported to my probation officer on April 26, 2016 and admitted to her that I had gone back to the methadone clinic following the release from the detoxification center.

I was then ordered by the judge to attend a detoxification program once again and then once completed, to enter the inpatient 90 day treatment program for men offered through the WestCare program at Harris Springs Ranch at my own cost of $9,000.00. On May 13, 2016 I reentered the detoxification center at WestCare, however I checked myself out prematurely on May 19, 2016 without notifying my probation officer and once again started back on methadone. I finally contacted my probation officer on June 1, 2016 and she advised me that I need to come in and see her the next day. On June 2, 2016 I reported to my probation officer and was charged with a probation violation. I was arrested and sent to a detention center. I was then ordered by the judge to attend the 90 day inpatient treatment facility for men at WestCare once a bed becomes available at my own expense. On June 27, 2016 I was transferred from the Detention Center in Pahrump, NV to the West Care Facility at Harris Springs Ranch for men. I completed this program on September 27, 2016.

08/06/2017 - Arrested and charged with a DUI and for obstruction by giving a false statement to a public official.

On August 6, 2017 I was selected to do a urine drug screen as part of my probation. I drove about twenty miles to do my urine drug screen and completed it. On my way back home, I became drowsy and ran my car into the side of the road. A police officer arrived and I told him I just finished a long shift at the hospital and was on my way home and became sleepy and crashed my car.

I did not notify the officer that I was on probation. He discovered that I had been dishonest with him and notified my probation officer. I failed the field sobriety test and was arrested and charged with a DUI and for obstruction, by giving a false statement to a public official and for driving outside the designated lane. The following day I was released on bail. I then contacted my probation officer and notified him that I entered an Intensive Outpatient Treatment program at Montevista Hospital.

Several days later on 8/11/2017 my probation officer advised me to come see him that day. I was then arrested for another probation violation and my original probation sentence was revoked. I was then sentenced to a 90 day stay at the Detention Center in Pahrump, NV followed by another 90 day stay at the inpatient treatment facility for men at Harris Springs Ranch of WestCare once again. Then to be followed by a six month sentence of supervised federal probation. This judgment occured on 9/10/2017. I completed the 90 day treatment at Harris Springs Ranch of WestCare on January 25, 2018.

03/13/2018 - The charges of a DUI and giving a false statement for obstruction to a public official were dropped. I was convicted of illegal parking and for failing to drive inside the designated lane and fined.

07/16/2018 - Completion and termination of federal supervised probation.

Please note that the settlement of a medical malpractice action may occur for a variety of reasons that do not necessarily reflect negatively on the professional competence or conduct of the provider. Therefore, there may be no disciplinary action appearing for a licensee even though there is a closed malpractice claim on file. A payment in the settlement of medical malpractice does not create a presumption that medical malpractice occurred. Sometimes insurance companies settle a case without the knowledge and/or agreement of the physician. This database represents information from insurers to date. Please note: All insurers may not have submitted claim information to the Board.

UNITED STATES DISTRICT COURT
FOR THE DISTRICT OF NEVADA

UNITED STATES OF AMERICA, Plaintiff, vs. KENT SWAINE, MD Defendant.	CASE NO: PLEA AGREEMENT UNDER FED. R. CRIM. P. 11 (c)(1)(A) and (B)

Plaintiff United States of America, by and through Daniel G. Bogden, United States Attorney, Crane M. Pomerantz, Assistant United States Attorney, the Defendant Kent Swaine, MD, and the Defendant's attorney, William Carrico, Assistant Federal Public Defender, submit this Plea Agreement under Fed. R. Crim. P. 11(c)(1)(A) and (B).

I. SCOPE OF AGREEMENT

The parties to this Plea Agreement are the United States of America and Kent Swaine, MD (the Defendant). This Plea Agreement binds the Defendant and the United States Attorney's Office for the District of Nevada. It does not bind any other prosecuting, administrative, or regulatory authority, the United States Probation Office, or the Court.

The Plea Agreement sets forth the parties' agreement regarding criminal charges referenced in the Plea Agreement and applicable sentences, fines, restitution and forfeiture. It does not control or prohibit the United States or any agency or third party from seeking any other civil or

administrative remedies directly or indirectly against the Defendant.

II. DISPOSITION OF CHARGES AND WAIVER OF TRIAL RIGHTS

A. Guilty Plea. The Defendant knowingly and voluntarily agrees to plead guilty to Count One of the Information charging him with Obtaining Controlled Substances by Fraud, in violation of Title 21, United States Code, Section 843(a)(3).

B. Waiver of Trial Rights. The Defendant acknowledges that he has been advised and understands that by entering a plea of guilty he is waiving -- that is, giving up -- certain rights guaranteed to all defendants by the laws and the Constitution of the United States. Specifically, the Defendant is giving up:

1. The right to proceed to trial by jury on all charges, or to a trial by a judge if the Defendant and the United States both agree;

2. The right to confront the witnesses against the Defendant at such a trial, and to cross-examine them;

3. The right to remain silent at such a trial, with assurance that his silence could not be used against him in any way;

4. The right to testify in his own defense at such a trial if he so chooses;

5. The right to compel witnesses to appear at such a trial and testify in the Defendant's behalf;

6. The right to have the assistance of an attorney at all stages of such proceedings; and

7. The right to be indicted by a grand jury.

C. Withdrawal of Guilty Plea. The Defendant will not seek to withdraw his guilty plea after he has entered them in court.

D. Additional Charges. The United States agrees not to bring any additional charges

against the Defendant arising out of the investigation in the District of Nevada which culminated in this Plea Agreement and based on conduct known to the United States, except that the United States reserves the right to prosecute the Defendant for any crime of violence as defined by 18 U.S.C. § 16.

III. ELEMENTS OF THE OFFENSES

The elements of Obtaining Controlled Substances by Fraud, in violation of Title 21, United States Code, Section 843(a)(3), as set forth in Count One of the Information are:

1. On December 16, 2013, the defendant obtained possession of a controlled substance by misrepresentation, fraud, forgery, deception or subterfuge; and

2. The defendant acted knowingly or intentionally.

See 21 USC § 843(a)(3).

IV. FACTS SUPPORTING GUILTY PLEA

A. The Defendant will plead guilty because he is, in fact and under the law, guilty of the crimes charged.

B. The Defendant acknowledges that if he elected to go to trial instead of pleading guilty, the United States could prove his guilt beyond a reasonable doubt. The Defendant further acknowledges that his admissions and declarations of fact set forth below satisfy every element of the charged offenses.

C. The Defendant waives any potential future claim that the facts he admitted in this Plea Agreement were insufficient to satisfy the elements of the charged offenses.

D. The Defendant admits and declares under penalty of perjury that the facts set forth below are true and correct:

On December 16, 2013, defendant Kent Swaine, MD, a Nevada-licensed physician, fraudulently prescribed and obtained Hydromorphone (generic Dilaudid), a Schedule II controlled substance, in the name of A.H., a former patient who had been deceased since August 5, 2011. Video

surveillance at a local pharmacy depicts defendant Swaine picking up this prescription. During an interview with law enforcement officers in July 2014, defendant Swaine admitted that he had written and filled prescriptions for controlled substances in A.H.'s name since his death for the purpose of obtaining them for his own drug addiction.

VI. APPLICATION OF SENTENCING GUIDELINES PROVISIONS

A. Discretionary Nature of Sentencing Guidelines. The Defendant acknowledges that the Court must consider the United States Sentencing Guidelines ("USSG" or "Sentencing Guidelines") in determining the Defendant's sentence, but that the Sentencing Guidelines are advisory, not mandatory, and the Court has discretion to impose any reasonable sentence up to the maximum term of imprisonment permitted by statute.

B. Offense Level Calculations. The parties stipulate to the following calculation of the Defendant's offense level under the Sentencing Guidelines, acknowledge that these stipulations do not bind the Court, and agree that they will not seek to apply any other specific offense characteristics, enhancements or reductions:

1. The base offense level is 8. U.S.S.G. § 2D2.2

2. A two (2) level enhancement applies because the defendant abused a position of trust.

3. A two (2) level reduction pursuant to the Attorney General Directive.

3. If applicable, a two (2) level reduction for Acceptance of Responsibility (USSG § 3E1.1) (*see subsection C. below*):

Total Offense Level: 6

C. Reduction of Offense Level for Acceptance of Responsibility. Under USSG §3E1.1(a), the United States will recommend that the Defendant receive a two-level downward adjustment for acceptance of responsibility unless he (a) fails to truthfully admit facts establishing a

factual basis for the guilty plea when he enters the plea; (b) fails to truthfully admit facts establishing the amount of restitution owed when he enters his guilty plea; (c) fails to truthfully admit facts establishing the forfeiture allegations when he enters his guilty plea; (d) provides false or misleading information to the United States, the Court, Pretrial Services, or the Probation Office; (e) denies involvement in the offense or provides conflicting statements regarding his involvement or falsely denies or frivolously contests conduct relevant to the offense; (f) attempts to withdraw his guilty plea; (g) commits or attempts to commit any crime; (h) fails to appear in court; or (i) violates the conditions of pretrial release.

These Sentencing Guidelines provisions, if applied, will result in a total offense level of 6, if the two level adjustment for acceptance of responsibility applies.

D. Attorney General Directive: In light of the United States Sentencing Commission's proposed amendment to lower the base offense level for all drug offenses by two levels, the Government agrees to recommend a two-level downward variance to the Defendant's base offense level. In exchange for this recommendation, the Defendant agrees not to seek, and expressly waives the right to seek, a further reduced sentence, pursuant to Title 18, United States Code, Section 3582(c)(2), in the event that the two-level reduction is adopted and made retroactive by the Sentencing Commission.

E. Criminal History Category. The Defendant acknowledges that the Court may base his sentence in part on the Defendant's criminal record or criminal history. The Court will determine the Defendant's Criminal History Category under the Sentencing Guidelines.

F. Relevant Conduct. The Court may consider all other relevant conduct, whether charged or uncharged, in determining the applicable Sentencing Guidelines range and whether to depart from that range. The parties stipulate that this is the readily provable relevant conduct in this case.

G. Additional Sentencing Information. The stipulated Sentencing Guidelines calculations are based on information now known to the parties. The parties may provide additional information to the United States Probation Office and the Court regarding the nature, scope, and extent of the Defendant's criminal conduct and any aggravating or mitigating facts or circumstances. Good faith efforts to provide truthful information or to correct factual misstatements shall not be grounds for the Defendant to withdraw his guilty plea. The United States will not, however, present additional information to the Court or the United States Probation Office for the purpose of advocating for a guideline calculation other than that which is contemplated by the parties in Section VI.B, above.

The Defendant acknowledges that the United States Probation Office may calculate the Sentencing Guidelines differently and may rely on additional information it obtains through its investigation. The Defendant also acknowledges that the Court may rely on this and other additional information as it calculates the Sentencing Guidelines range and makes other sentencing determinations, and the Court's reliance on such information shall not be grounds for the Defendant to withdraw his guilty plea.

VII. APPLICATION OF SENTENCING STATUTES

A. Maximum Penalty. The maximum penalty for violating Title 21, United States Code, Sections 841(a)(3) (Obtaining Controlled Substances by Fraud), is not more than four (4) years imprisonment, a fine of not more than $ 250,000, or both. In addition, the Defendant is subject to supervised release for a term not exceeding one (1) year.

B. Factors Under 18 U.S.C. § 3553. The Court must consider the factors set forth in 18 U.S.C. § 3553(a) in determining the Defendant's sentence. However, the statutory maximum sentence and any statutory minimum sentence limit the Court's discretion in determining the Defendant's sentence.

C. Parole Abolished. The Defendant acknowledges that his prison sentence, if any, cannot be shortened by early release on parole because parole has been abolished.

D. Supervised Release. In addition to imprisonment and a fine, the Defendant will be subject to a term of supervised release not to exceed one year. 18 U.S.C. § 3583(b). Supervised release is a period of time after release from prison during which the Defendant will be subject to various restrictions and requirements. If the Defendant violates any condition of supervised release, the Court may order the Defendant's return to prison for all or part of the term of supervised release, which could result in the Defendant serving a total term of imprisonment greater than the statutory maximum prison sentence of four (4) years.

E. Special Assessment. The Defendant will pay a $100.00 special assessment per count of conviction at the time of sentencing.

VIII. POSITIONS REGARDING SENTENCE

The United States will recommend that the Court sentence the defendant to the low end of the Sentencing Guidelines range determined by the Court, unless the Defendant commits any act that could result in a loss of the downward adjustment for acceptance of responsibility. The Defendant acknowledges that the Court does not have to follow that recommendation. The Defendant also acknowledges that the Court does not have to grant a downward departure based on the Defendant's substantial assistance to the United States, even if the United States chooses to file a motion pursuant to 18 U.S.C. § 3553(e)(1), USSG § 5K1.1, or Fed. R. Crim. P. 35. This Plea Agreement does not require the United States to file any pre- or post-sentence downward departure motion under USSG § 5K1.1 or Fed. R. Crim. P. 35. The United States reserves its right to defend any lawfully imposed sentence on appeal or in any post-conviction litigation.

In exchange for the concessions contained in this plea agreement, the defendant agrees that he will not seek a downward adjustment pursuant to 18 U.S.C. § 3553 and USSG § 4A1.3(b)(1)

from any sentence the Court may impose. The defendant agrees that he will not seek early termination or reduction of his term of supervised release, if any is imposed.

IX. FINANCIAL INFORMATION AND DISPOSITION OF ASSETS

Before or after sentencing, upon request by the Court, the United States, or the Probation Office, the Defendant will provide accurate and complete financial information, submit sworn statements, and/or give depositions under oath concerning his assets and his ability to pay. The Defendant will surrender assets he obtained directly or indirectly as a result of his crimes, and will release funds and property under his control in order to pay any fine, forfeiture, or restitution ordered by the Court.

X. THE DEFENDANT'S ACKNOWLEDGMENTS AND WAIVERS

A. Plea Agreement and Decision to Plead Guilty. The Defendant acknowledges that:

(1) He has read this Plea Agreement and understands its terms and conditions;

(2) He has had adequate time to discuss this case, the evidence, and this Plea Agreement with his attorney;

(3) He has discussed the terms of this Plea Agreement with his attorney;

(4) The representations contained in this Plea Agreement are true and correct, including the facts set forth in Section IV; and

(5) He was not under the influence of any alcohol, drug, or medicine that would impair his ability to understand the Agreement when he considered signing this Plea Agreement and when he signed it.

The Defendant understands that he alone decides whether to plead guilty or go to trial, and acknowledges that he has decided to enter his guilty plea knowing of the charges brought against him, his possible defenses, and the benefits and possible detriments of proceeding to trial. The Defendant also acknowledges that he decided to plead guilty voluntarily and that no one coerced or

threatened him to enter into this Plea Agreement.

B. Waiver of Appeal and Post-Conviction Proceedings. The Defendant knowingly and expressly waives: (a) the right to appeal any sentence imposed within or below the applicable Sentencing Guideline range as determined by the Court; (b) the right to appeal the manner in which the Court determined that sentence on the grounds set forth in 18 U.S.C. § 3742; and (c) the right to appeal any other aspect of the conviction or sentence and any order of restitution or forfeiture.

The Defendant also knowingly and expressly waives all collateral challenges, including any claims under 28 U.S.C. § 2255, to his conviction, sentence, and the procedure by which the Court adjudicated guilt and imposed sentence, except non-waivable claims of ineffective assistance of counsel.

The Defendant reserves only the right to appeal any portion of the sentence that is an upward departure from the Sentencing Guidelines range determined by the Court.

The Defendant acknowledges that the United States is not obligated or required to preserve any evidence obtained in the investigation of this case.

C. Removal/Deportation Consequences. The Defendant understands and acknowledges that if he is not a United States citizen, then it is highly probable that he will be permanently removed (deported) from the United States as a consequence of pleading guilty under the terms of this Plea Agreement. The Defendant has also been advised that if his conviction is for an offense described in 8 U.S.C. § 1101(a)(43), he will be deported and removed from the United States and will not be allowed to return to the United States at any time in the future. The Defendant desires to plead guilty regardless of any immigration consequences that may result from his guilty plea, even if the consequence is automatic removal from the United States with no possibility of returning. The Defendant acknowledges that he has specifically discussed these removal/deportation consequences with his attorney.

XI. ADDITIONAL ACKNOWLEDGMENTS

This Plea Agreement resulted from an arms-length negotiation in which both parties bargained for and received valuable benefits in exchange for valuable concessions. It constitutes the entire agreement negotiated and agreed to by the parties. No promises, agreements or conditions other than those set forth in this agreement have been made or implied by the Defendant, the Defendant's attorney, or the United States, and no additional promises, agreements or conditions shall have any force or effect unless set forth in writing and signed by all parties or confirmed on the record before the Court.

2. On November 3, 2021, in Case No. 21-12776-1, the IC filed a formal First Amended Complaint (Complaint) charging Respondent with violating the Medical Practice Act. Specifically, the Complaint alleges one (1) violation of NAC 630.230(1)(i), Failure to Provide Adequate Supervision of a Physician Assistant (Count I). By reason of the foregoing, Respondent is subject to discipline by the Board as provided in NRS 630.352.

[1] All agreements and admissions made by Respondent are solely for final disposition of this matter and any subsequent related administrative proceedings or civil litigation involving the Board and Respondent. Therefore, Respondent's agreements and admissions are not intended or made for any other use, such as in the context of another state or federal government regulatory agency proceeding, state or federal civil or criminal proceeding, any state or federal court proceeding, or any credentialing or privileges matter.

3. Respondent was properly served with a copy of this Complaint, has reviewed and understands this Complaint, and has had the opportunity to consult with competent counsel concerning the nature and significance of this Complaint.

4. Respondent is hereby advised of his rights regarding this administrative matter, and of his opportunity to defend against the allegations in the Complaint. Specifically, Respondent has certain rights in this administrative matter as set out by the United States Constitution, the Nevada Constitution, the Medical Practice Act, the Nevada Open Meeting Law (OML), which is contained in NRS Chapter 241, and the Nevada Administrative Procedure Act (APA), which is contained in NRS Chapter 233B. These rights include the right to a formal hearing on the allegations in the Complaint, the right to representation by counsel, at his own expense, in the preparation and presentation of his defense, the right to confront and cross-examine the witnesses and evidence against him, the right to written findings of fact, conclusions of law and order reflecting the final decision of the Board, and the right to judicial review of the Board's order, if the decision is adverse to him.

5. Respondent understands that, under the Board's charge to protect the public by regulating the practice of medicine, the Board may take disciplinary action against Respondent's license, including license probation, license suspension, license revocation and imposition of administrative fines, as well as any other reasonable requirement or limitation, if the Board concludes that Respondent violated one or more provisions of the Medical Practice Act.

6. Respondent understands and agrees that this Agreement, by and between Respondent and the IC, is not with the Board, and that the IC will present this Agreement to the Board for consideration in open session at a duly noticed and scheduled meeting. B. TERMS & CONDITIONS

NOW, THEREFORE, in order to resolve the matters addressed herein, i.e., the matters with regard to the Complaint, Respondent and the IC hereby agree to the following terms and conditions:

1. **Jurisdiction**. Respondent is, and at all times relevant to the Complaint has been, a physician licensed to practice medicine in Nevada subject to the jurisdiction of the Board as set forth in the Medical Practice Act.

2. **Representation by Counsel/Knowing, Willing and Intelligent Agreement**. Respondent acknowledges he is represented by counsel, and wishes to resolve the matters addressed herein with said counsel. Respondent agrees that if representation by counsel in this matter materially changes prior to entering into this Agreement and for the duration of this Agreement, that counsel for the IC will be timely notified of the material change. Respondent agrees that he knowingly, willingly and intelligently enters into this Agreement after deciding to have a full consultation with and upon the advice of legal counsel.

3. **Waiver of Rights**. In connection with this Agreement, and the associated terms and conditions, Respondent knowingly, willingly and intelligently waives all rights in connection with this administrative matter. Respondent hereby knowingly, willingly and intelligently waives all rights arising under the United States Constitution, the Nevada Constitution, the Medical Practice Act, the OML, the APA, and any other legal rights that may be available to him or that may apply to him in connection with the administrative proceedings resulting from the Complaint filed in this matter, including defense of the Complaint, adjudication of the allegations set forth in the Complaint, and imposition of any disciplinary actions or sanctions ordered by the Board. Respondent agrees to settle and resolve the allegations of the Complaint as set out by this Agreement, without a hearing or any further proceedings and without the right to judicial review.

4. **Acknowledgement of Reasonable Basis to Proceed**. As of the time of entering into this Settlement Agreement, the allegations of the Complaint remain unproven. Respondent acknowledges that the IC believes it has a reasonable basis to allege that Respondent engaged in conduct that is grounds for discipline pursuant to the Medical Practice Act. The IC acknowledges

Respondent is not admitting that the IC's claims/counts as alleged in the Complaint have merit and Respondent is agreeing to resolve this matter to avoid the costs of hearing and potential subsequent litigation. Respondent asserts if this matter were to proceed to hearing, he has evidence, witnesses, expert witness(es) and defenses to the counts/claims alleged in the Complaint, but for the purposes of resolving the matter and for no other purpose, Respondent waives the presentation of evidence, witnesses, expert witnesses, and defenses in order to effectuate this Agreement.

5. **Consent to Entry of Order**. In order to resolve this Complaint pending against Respondent, Respondent hereby agrees that the Board may issue an order finding that Respondent engaged in conduct that is grounds for discipline pursuant to the Medical Practice Act. Accordingly, the following terms and conditions are hereby agreed upon:

a. Respondent admits to Count I, violation of NAC 630.230(1)(i), Failure to Provide Adequate Supervision of a Physician Assistant.

b. Respondent shall pay the costs and expenses incurred in the investigation and prosecution of the above-referenced matter within sixty (60) days of the Board's acceptance, adoption and approval of this Agreement, the current amount being two thousand six hundred forty-six dollars and eighty-one cents ($2,646.81), not including any costs that may be necessary to finalize this Agreement.

c. Respondent shall pay a fine of two thousand dollars ($2,000.00) within sixty (60) days of the Board's acceptance, adoption and approval of this Agreement.

d. Respondent shall complete fifteen (15) hours of continuing medical education (CME) regarding medical ethics and professionalism within six (6) months of the date of the Board's acceptance, adoption and approval of this Agreement. The aforementioned hours of CME shall be in addition to any CME requirements that are regularly imposed upon Respondent as a condition of licensure in the State of Nevada, and shall be approved by the Board to meet this requirement prior to their completion, and proof of completion shall be provided to the Board.

e. This Agreement shall be reported to the appropriate entities and parties as required by law, including, but not limited to, the National Practitioner Data Bank.

f. Respondent shall receive a Public Letter of Reprimand.

g. The remaining counts of the Complaint, if any, and any other claims arising from this corresponding investigation, shall be dismissed with prejudice.

6. **Release from Liability**. In execution of this Agreement, Respondent understands and agrees that the State of Nevada, the Board, and each of its members, staff, counsel, investigators, experts, peer reviewers, committees, panels, hearing officers, consultants and agents are immune from civil liability for any decision or action taken in good faith in response to information acquired by the Board. NRS 630.364(2)(a). Respondent agrees to release the State of Nevada, the Board, and each of its members, staff, counsel, investigators, experts, peer reviewers, committees, panels, hearing officers, consultants and agents from any and all manner of actions, causes of action, suits, debts, judgments, executions, claims and demands whatsoever, known and unknown, in law or equity, that Respondent ever had, now has, may have or claim to have, against any or all of the persons, government agencies or entities named in this paragraph arising out of, or by reason of, this investigation, this Agreement or the administration of the case referenced herein.

7. **Procedure for Adoption of Agreement**. The IC and counsel for the IC shall recommend approval and adoption of the terms and conditions of this Agreement by the Board in resolution of this Complaint. In the course of seeking Board acceptance, approval and adoption of this Agreement, counsel for the IC may communicate directly with the Board staff and the adjudicating members of the Board.

Respondent acknowledges that such contacts and communications may be made or conducted ex-parté, without notice or opportunity to be heard on his part until the public Board meeting where this Agreement is discussed, and that such contacts and communications may include, but may not be limited to, matters concerning this Agreement, the Complaint and any and all information of every nature whatsoever related to this matter. The IC and its counsel agree that Respondent and/or Counsel for the Respondent may appear at the Board meeting where this Agreement is discussed and, if requested, respond to any questions that may be addressed to the IC or the IC's counsel.

8. **Effect of Acceptance of Agreement by Board**. In the event the Board accepts, approves and adopts this Agreement, the Board shall issue a final order, making this Agreement an order of the Board, and, pending full compliance with the terms herein, the case shall be closed and all remaining claims arising out of the Complaint shall be dismissed with prejudice.

9. **Effect of Rejection of Agreement by Board**. In the event the Board does not accept, approve and adopt this Agreement, this Agreement shall be null, void and of no force and effect except as to the following agreement regarding adjudications: (1) Respondent agrees that, notwithstanding rejection of this Agreement by the Board, nothing contained in this Agreement and nothing that occurs pursuant to efforts of the IC to seek the Board's acceptance of this Agreement shall disqualify any member of the adjudicating panel of the Board from considering this Complaint and from participating in disciplinary proceedings against Respondent, including adjudication of this case; and (2) Respondent further agrees that he shall not seek to disqualify any such member absent evidence of bad faith.

10. **Binding Effect**. If approved by the Board, Respondent understands that this Agreement is a binding and enforceable contract upon Respondent and the Board.

11. **Forum Selection Clause**. The parties agree that in the event either party is required to seek enforcement of this Agreement in district court, the party's consent to such jurisdiction and agree that exclusive jurisdiction shall be in the Second Judicial District Court, State of Nevada, Washoe County.

12. **Attorneys' Fees and Costs**. The parties agree that in the event an action is commenced in district court to enforce any provision of this Agreement, the prevailing party shall be entitled to recover reasonable attorneys' fees and costs.

13. **Failure to Comply with Terms**. Should Respondent fail to comply with any term or condition of this Agreement once the Agreement has been accepted, approved and adopted by the Board, the IC shall be authorized to immediately suspend Respondent's license to practice medicine in Nevada pending an Order to Show Cause Hearing, which will be duly noticed. Failure to comply with the terms of this Agreement, including failure to pay any fines, costs, expenses or fees owed to the Board, is a failure to comply with an order of the Board, which may

result in additional disciplinary action being taken against Respondent. NRS 630.3065(2)(a). Further, Respondent's failure to remit payment to the Board for monies agreed to be paid as a condition of this Agreement may subject Respondent to civil collection efforts.

(k) The business plan of Cure 4 The Kids Foundation is described as follows (see links below for the complete plan details):

Cure 4 The Kids Foundation (C4K) is advancing cures and prevention of childhood diseases through clinical excellence, research, and innovation. They are a 501 (c)3 tax-exempt organization and an independent division of Roseman University of Health Sciences. They are

the community leader in the research and treatment of childhood cancer and other rare childhood diseases.

Their vision is to ensure continuous quality improvement through being a reliable, efficient, and responsive team that has the capability of meeting the individual needs of this patient while continually improving care for the next patient.

Founded in September 2006 and awarded 501 (c)(3) tax exemption in April 2007. The C4K mission is rooted in the desire to transform how Nevada's children with cancer and rare diseases receive care. They set out to create a legacy project for our community, not just another business. The C4K model blends the required structure and rigor of the best clinical practices found in centers of excellence; practices normally reserved for large corporate and/or academic healthcare environments, with the responsibility and generosity of philanthropy.

The primary approach behind the C4K business model is to create a new kind of healthcare facility; one that blended the best of what corporate healthcare, education and research has to offer with the generosity, thoughtfulness, and spirit of charity. This hybrid model allows them to function like a traditional professional healthcare entity in terms of clinical outcomes, yet also allows them to be deeply human in their interactions with patients and their families. The current focus is on becoming a nationally recognized center of excellence with a regional focus that equips kids and their families to fight diseases, where no kid gets turned away; that is what makes C4K uniquely Cure 4 The Kids Foundation.

Currently, they are focused on the strategies and initiatives outlined in their 2020-2025 Strategic Plan called *Here We Grow Again.* One of the priorities of this plan includes the intentional expansion of our multidisciplinary care team- including adding an Oncology Clinical Pharmacist to their multi-disciplinary care team. The goal of this expansion is to improve the continuity of care for their uniquely complex patient population.

C4K and I believe that continuity of care is the hallmark of high-quality care over time, and we also believe that coordination of care for cancer patients requires that the patient, their family, and his/her physician-led care team all cooperate and collaborate on all aspects of the treatment plan- specifically on the complex pharmaceutical interventions required to care for this patient population.

For this model to be effective, all disciplines; including clinical pharmacy need to be involved in the ongoing health care management of these patients- working toward the shared goal of high-quality, cost-effective medical care provided within the outpatient cancer center setting.

Please feel free to contact me at 702-743-7433 Smcmillan5@mac.com or Annette Logan-Parker, Founder & CEO of Cure 4 The Kids Foundation at 702-481-3179 alogan@cure4thekids.org if you have any questions or need additional information to support this request for a waiver to practice pharmacy at a site other than a licensed pharmacy.

Subject: Naplex

WARNING - This email originated from outside the State of Nevada. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Nevada board of pharmacy members,

I'm writing down this email with a broken heart.

My name is Ameer Alhaj, I graduated from LECOM Pharmacy School in 2020. I took the naplex 5 times in Michigan, but unfortunately I didn't pass. During the 2020 year, Michigan Board Of Pharmacy changed the rule of attempts to take the NAPLEX to 5 attempts only. I contacted the NABP if it's possible for another attempt and they said they allow 6 attempts if I find another state to give me the approval to take the exam for the last chance. I'm asking kindly and hoping patiently the Nevada Board Of Pharmacy to give me one last step towards a better future for my family. I'm really anxious of my current life because I couldn't finish what I started. I'm trying to take it in Nevada for the first time. I already submitted the application and the NABP is waiting for a decision to allow me to take the NAPLEX for one last attempt. I spoke with one of the board members of Nevada Board Of Pharmacy, she was a really helpful lady and I wish her nothing but the best in her life. She told me everything looks good, but I have to send this email and explain my situation and she will schedule me for a board meeting in September to get a decision.

Durning the toughest year of COVID-19. I didn't have the chance to celebrate my graduation ceremony and becoming a Licensed Pharmacist like other students. Most of us lost some loved ones due to this pandemic, it was a tough year for all of us.

My mistake was trying to finish the exam fast and start supporting my family and community. I just wanted to make my family proud because they've been waiting for this moment since I started school. I didn't have anyone to advise me on what should I do or how to approach it. Since, the past two years I can't find a job and I'm struggling financially despite the loans that I have to pay off. This situation had a negative impact on my entire family not just my life. I'm asking to consider my situation with kindness an

d be part of my success.

Sincerely,

Ameer alhaj

Explanation for Affirmative Answers to Intern Pharmacist Application

Question #1: I have been previously convicted of two misdemeanors as described below:

1) I was arrested on the morning January 14, 2020, after an encounter with law enforcement during which they found Adderall in my vehicle which was in prescription bottle with my name on it. At the time I was prescribed Adderall by my physician. I was arrested for Possession of a Controlled Substance with Intent to Sell and Sale or transport of Controlled Substances. The encounter occurred in the parking lot of a Chipotle restaurant where I had slept in my car as I had been unable to contact the friend I was supposed to stay with, as he had left his mobile phone in my car, and I was unable to find another place to stay the night. The next morning, I was in my car studying before I was going to head to a nearby gym to shower before school when I was approached by law enforcement who believed that I was at the parking lot for the purposes of selling Adderall.

I bailed out of jail and heard nothing further about the matter until January 2021 when I learned that a criminal complaint had been filed against me in September 2020 in the Superior Court of California, County of Orange (case no. 20WF1812). I was represented by an attorney in the matter and ultimately, I entered a plea to a misdemeanor count of Disorderly Conduct, Loitering on Private Property on October 26, 2021. I was sentenced to one-year informal probation which will terminate in October of this year.

I have attached a copy of the Court Summary of the matter and am in the process of trying to obtain documents from the Court to provide to the Board.

2) I was arrested on February 18, 2022, for one count of misdemeanor Driving Under the Influenced. At the time I was assisting with community COVID testing efforts as a swabber and was swabbing hundreds of patients a day. On the day of my arrest, I had eaten only breakfast and was drinking several Red Bull energy drinks throughout the day. I stopped and got a beer with a co-worker at the end of my shift after which I went straight home and to bed. My roommate called me late that night needing a ride back from the airport where he had dropped off a car for his business. On my way to the airport I was pulled over by law enforcement allegedly for swerving. I submitted to field sobriety tests however I declined to be breathalyzed as I was afraid that the numerous Red Bulls I had drank would give a false positive on the breathalyzer. I also told them that I am anemic and I was fearful that I would faint if a blood draw was taken. I legally was required in the state of California to be offered a urine test, however that was not offered and I was arrested based on my refusal to submit to a blood or breath test.

A misdemeanor charge was filed in the Superior Court of California, County of Los Angeles (case no. 2MN01594 on June 14, 2022. I subsequently pled guilty to one count of misdemeanor Reckless Driving on July 28, 2022, and was sentenced to twelve months of probation subject to certain terms and conditions including completion of a 3-month alcohol program, sixteen hours of community service and a fine of $375.00.

I have attached a certified copy of the Court docket and will forward additional documentation once I am able to obtain it.

OPINION NO. 93-21 PHARMACY, BOARD OF; HOMEOPATHIC MEDICAL EXAMINERS, BOARD OF; DRUGS; CONTROLLED SUBSTANCES: Amendment of NRS 0.040 in 1985 allowed homeopathic physicians to be considered to be "physicians," but exclusively homeopathic practitioners may only possess, prescribe, dispense or administer those dangerous drugs and controlled substances in such manner and quantity as allowed by NRS 630A.040.

Carson City, September 20, 1993

Mr. Keith W. Macdonald, Executive Secretary, Nevada State Board of Pharmacy, 1201 Terminal Way, Suite 212, Reno, Nevada 89502

Dear Mr. Macdonald:

You have asked whether the amendment to NRS 0.040 made by the 1985 Legislature changes the letter opinion issued on January 7, 1985, such that an exclusively homeopathic physician may not prescribe, possess, dispense, and administer controlled substances and dangerous drugs. The brief answer to your question is that an exclusively homeopathic physician may prescribe a limited group of dangerous drugs (those that are "sarcodes") to patients and may possess and administer a limited group of dangerous drugs and controlled substances, all in compliance with the statutory criteria provided in NRS 630A.040.

QUESTION

Did the amendment to NRS 0.040 enacted by the 1985 Legislature affect the letter opinion issued January 7, 1985, such that homeopathic physicians who are not also licensed as allopathic or osteopathic physicians may obtain a controlled substance registration or may prescribe, possess, or administer controlled substances and dangerous drugs?

ANALYSIS

Prior to the 1985 legislative session, NRS 0.040 provided as follows:

> 1. Except as otherwise provided in subsection 2, as used in Nevada Revised Statutes, "physician" means a person who engages in the practice of medicine, including osteopathy.
> 2. The terms "physician," "osteopathic physician," "homeopathic physician" and "chiropractic physician" are used in chapters 630, 630A, 633, and 634 of NRS in the limited senses prescribed by those chapters respectively.

The 1985 Legislature left NRS 0.040(2) unchanged, but amended NRS 0.040(1) so that it now reads:

> Except as otherwise provided in subsection 2, "physician" means a person who engages in the practice of medicine, including osteopathy *and homeopathy*. [Emphasis added.]

This office rendered a letter opinion on January 7, 1985, regarding whether a homeopathic practitioner was a "physician" under NRS 0.040(1). The letter opinion was rendered prior to the amendment to NRS 0.040(1) and, in fact, precipitated the amendment. In the letter opinion, this

office drew two conclusions: (1) that a homeopathic physician was not a "physician" for the purposes of NRS chapters 453, 454, and 639; and (2) that a homeopathic physician who was also licensed in Nevada as an allopathic or osteopathic physician could write prescriptions for controlled substances and dangerous drugs, provided that the homeopathic physician did so only for legitimate allopathic or osteopathic treatment and not for homeopathic purposes.

The amendment of NRS 0.040(1) had the far-reaching effect of bringing homeopathic practitioners within the coverage of all the sections throughout the NRS in which reference is made to "physicians." The amendment of NRS 0.040(1) also changed the analysis of the January 7, 1985, letter opinion in the limited way that the question presented at that time, namely whether a homeopathic physician was a "physician" under NRS 0.040, must now be answered affirmatively. The amended and present version of NRS 0.040(1) clearly indicates that homeopathic physicians are "physicians" as that term may be used throughout the NRS. The inquiry does not end here, though.

Subsection (2) of NRS 0.040 refers inquiries regarding each of the specific practitioner groups in subsection (1) to each's specific practice act. As such, the answer to the specific question addressed in this opinion regarding the prescribing, possessing, and administering powers of exclusively homeopathic practitioners must be made by reference to various portions of the pharmacy laws and NRS chapter 630A, the practice act for homeopathic practitioners.

NRS 453.226(1) provides the general definition of those persons who must be registered with the board of pharmacy to distribute or dispense controlled substances:

> Every practitioner or other person who manufactures, *distributes or dispenses any controlled substance* within this state or who proposes to engage in the manufacture, *distribution or dispensing of any controlled substance* within this state shall obtain biennially a registration issued by the board in accordance with its regulations. [Emphasis added.]

A "practitioner" may administer controlled substances pursuant to NRS 453.375(1). A "practitioner," as defined in NRS 453.126, includes a "physician." Any person who manufactures, distributes or dispenses a controlled substance without prior registration may be punished by imprisonment of one to six years, may be fined not more than $2,000. NRS 453.232.

Similarly, NRS 454.213(1) allows a "practitioner" to possess and administer dangerous drugs, and NRS 454.215(3) allows a "practitioner" to dispense dangerous drugs. NRS 454.00958(1) defines a "practitioner" to include a "physician." Any person who furnishes dangerous drugs without the valid prescription of a practitioner may be imprisoned for one to six years, may be fined not more than $5,000, or both. NRS 454.221(1).

NRS 630A.040 specifically defines the pharmacopoeia of medicines available for use by homeopathic physicians as follows:

> "Homeopathic medicine" or "homeopathy" means a system of medicine employing substances of animal, vegetable, chemical or mineral origin, including nosodes and sarcodes, which are:
> 1. Given in micro-dosage, except that sarcodes may be given in macro-dosage;
> 2. Prepared according to homeopathic pharmacology by which the formulation of homeopathic preparations is accomplished by the methods of Hahnemannian dilution and succussion, magnetically energized geometric patterns, applicable in potencies above 30X as defined in the official Homeopathic Pharmacopoeia of the United States, or Korsakoffian; and
> 3. Prescribed by homeopathic physicians according to the medicines and dosages in the

Homeopathic Pharmacopoeia of the United States, in accordance with the principle that a substance which produces symptoms in a healthy person can eliminate those symptoms in an ill person, resulting in the elimination and prevention of illness utilizing classical methodology and noninvasive electrodiagnosis.

NRS 630A.090(4) clearly distinguishes homeopathic medicine from allopathic medicine and prohibits homeopathic physicians from practicing allopathic medicine: "This chapter does not authorize a homeopathic physician to practice medicine, including allopathic medicine, except as provided in NRS 630A.040." Additionally, pursuant to NRS 630A.230(2)(c), all homeopathic physicians must be licensed as allopathic or osteopathic physicians "in any state or country, the District of Columbia or a territory or possession of the United States." Thus homeopathic practitioners can be licensed exclusively as homeopathic physicians under NRS chapter 630A or can have dual licenses as homeopathic physicians and allopathic or osteopathic physicians.

In contrast to the narrow statutory scope of the practice of homeopathy, the definition of "practice of medicine" in NRS 630.020 is as follows:

1. To diagnose, treat, correct, prevent or prescribe for any human disease, ailment, injury, infirmity, deformity or other condition, physical or mental, by *any means or instrumentality*.
2. To apply principles or techniques of medical science in the diagnosis or the prevention of any such conditions.
3. To offer, undertake, attempt to do or hold oneself out as able to do any of the acts described in subsections 1 and 2.
4. To use in connection with a person's name the words or letters "M.D.," or any other title, word, letter or other designation intended to imply or designate him as a practitioner of medicine in any of its branches, *except in the manner authorized by NRS 630A.220*. [Emphasis added.]

The definition of "osteopathic medicine" is found in NRS 633.081 and provides:

"Osteopathic medicine" or "osteopathy" means the school of medicine which:
1. Utilizes full methods of diagnosis and treatment in physical and mental health and disease, including the prescribing and administering of drugs and biologicals of all kinds, operative surgery, obstetrics, radiological and other electromagnetic emission; and
2. Places emphasis on the interrelationship of the musculoskeletal system to all other body systems. [Emphasis added.]

The legislative intent from the above definitions is clear: homeopathy is a limited practice whereas allopathy and osteopathy are general. Allopaths may use "any means or instrumentality" in their practices. Osteopaths may use "full methods of diagnosis and treatment" in their practices. Homeopaths, on the other hand, are limited to using only those medications that satisfy NRS 630A.040 "in accordance with the principle that a substance which produces symptoms in a healthy person can eliminate those symptoms in an ill person, resulting in the elimination and prevention of illness utilizing classical methodology and noninvasive electrodiagnosis." Furthermore, an allopathic physician may not call himself a homeopathic physician. NRS 630.020(4). It is clear that the legislature intended homeopathy to be a distinct style of medicine with a specifically defined pharmacopoeia suited to the homeopathic practice of medicine.

The question of which drugs a homeopathic practitioner can prescribe, possess, or administer is answered by the three-part test in NRS 630A.040, namely that the drug must be (1) given in micro-dosage (except that sarcodes may be given in macro-dosage); (2) prepared according to homeopathic pharmacology; and (3) prescribed by homeopathic physicians according to the medicines and dosages in the Homeopathic Pharmacopoeia of the United States. Generally, the

dosages and forms of drugs maintained by Nevada pharmacies would not be in "micro-dosages," and would instead be in forms that would be deemed "macro-dosages" under NRS 630A.040. Thus NRS 630A.040 makes it clear that a homeopathic physician practicing homeopathically could not prescribe or administer the regular "macro-dosage" of any controlled substance or dangerous drug unless that drug were a "sarcode." No known allopathic drugs regularly stocked by Nevada pharmacists would be "sarcodes."[52]

A second question arises, though, as to whether a homeopathic practitioner may obtain and possess controlled substances and dangerous drugs for preparation of a homeopathic remedy therefrom. First, it seems unlikely that most of the regular stock of a Nevada pharmacy would qualify as the raw materials for the preparation of homeopathic remedies. Homeopathic remedies generally use organic materials and would not include the highly refined modern pharmaceuticals stocked by Nevada pharmacies.[53] Nonetheless, it may be that some pharmaceuticals, especially

[52] A sarcode is defined by the latest edition of the Homeopathic Pharmacopoeia of the United States (June 1991) as follows:

Sarcodes are homeopathic attenuations of wholesome organs, tissues, or metabolic factors obtained from healthy specimens.

Sarcodes are prepared according to homeopathic specifications, provided the basic substance is *not* altered and the FINAL PRODUCT is *not* adulterated by any pathogen or other deleterious substance.

Collection and preparation: refer to individual monograph.

ATTENUATION PROCEDURE

The freeze-dried organs, glands, or tissues are attenuated according to the specifications of Class F, and converted into liquid attenuations according to the specifications of Class H.

[53] Homeopathic remedies are identified by class. Following are the classes identified, taken from the Homeopathic Pharmacopeia of the United States (June 1991 updated):

CLASS A - LIQUID ATTENUATIONS OF SOLUBLE SUBSTANCES

Class A attenuations are prepared by dissolving one (1) part by weight of the soluble basic substance in a sufficient quantity of purified water or other appropriate menstruum, specified in the drug monograph, to produce ten (10) parts by volume of liquid attenuation which is designated 1X.

CLASS B - LIQUID ATTENUATIONS OF SOLUBLE SUBSTANCES

Class B liquid attenuations are prepared by dissolving one (1) part by weight of the soluble basic substance in a sufficient quantity of purified water or other appropriate menstruum, specified in the drug monograph, to produce 100 parts by volume of liquid attenuation which is designated 2X or 1CH.

CLASS C - HOMOEOPATHIC TINCTURES OF BOTANICAL SUBSTANCES 1/10 (10%)

Class C Tinctures, identified by the symbols "Tr.", Ø, or MT, are prepared by maceration or percolation from crude botanical substances, fresh or dried, by the dissolving action of an alcoholic vehicle.

Class C tinctures are made to represent one (1) part by weight of dry crude material in ten (10) parts by volume of completed solution.

CLASS D - HOMOEOPATHIC TINCTURES OF BOTANICAL SUBSTANCES 1/20 (5%)

Class D Tinctures, identified by the symbols "Tr.", Ø, or MT, are prepared by maceration or percolation from crude botanical substances by the dissolving action of an alcoholic vehicle.

Class D Tinctures are made to represent one (1) part by weight of dry crude material in 20 parts by volume of completed solution.

CLASS E - HOMOEOPATHIC TINCTURES OF ZOOLOGICAL SUBSTANCES 1/20 (5%)

Class E Tinctures are prepared by maceration from zoological substances, fresh or dried, by the dissolving action of an alcoholic vehicle.

Class E Tinctures are made to represent one (1) part by weight of the crude material in 20 parts by weight of completed solution.

CLASS F - TRITURATIONS OF SOLID SUBSTANCES

Class F triturations of solid substances are prepared by triturating one (1) part by weight of the dry crude substance with nine (9) parts of

some controlled substances, may be stocked or available through Nevada pharmacies. For example, the monographs for homeopathic remedies include the following remedies that would be made from controlled substances: *anhalonium lewinii* (peyote), *cannabis indica/cannibis sativa* (marijuana), *cocainum* (cocaine), *cocainum muriaticum* (cocaine hydrochloride), *codeinum* (codeine), *datura arborea/datura metel* (datura), *morphinum* (morphine), *morphinum muriaticum* (morphine hydrochloride), and *opium* (opium). Additionally, it may be that some homeopathic remedies are fashioned from currently available dangerous drugs.

It is clear, therefore, that a homeopathic physician practicing homeopathically could legally obtain, possess, and administer some dangerous drugs and controlled substances for the manufacture of homeopathic remedies. Additionally, a homeopathic physician may also prescribe those dangerous drugs and controlled substances allowed by NRS 630A.040, but as a practical matter it is unlikely that any Nevada pharmacies stock dangerous drugs or controlled substances in homeopathic dosages or know how to prepare homeopathic remedies according to homeopathic methodology. To
possess controlled substances, the homeopathic practitioner would be required to obtain a registration with the Drug Enforcement Administration (DEA) and a registration with the Nevada Board of Pharmacy pursuant to NRS 453.226. Additionally, any order for a controlled substance in Schedules I and II would need to be via a DEA Form 222; any order for other controlled substances would need to be via a valid order form, and all record-keeping, storage, and security statutes and regulations would also be applicable.

Of course, possession and administration of the controlled substances and dangerous drugs obtained by a homeopathic practitioner must also comply with the terms of NRS 630A.040. Administration of a controlled substance or dangerous drug in contravention to the dictates of NRS

Lactose, U.S.P., to make a 10% (1/10) trituration, which is designated 1X.

CLASS G - TRITURATION OF INSOLUBLE LIQUID SUBSTANCES

Class G triturations are prepared by triturating one (1) part by weight of insoluble liquid substance with sufficient Lactose, U.S.P., to produce a 10% (1/10) mixture by weight, which is designated the 1X trituration.

CLASS H - CONVERSION OF TRITURATIONS OF INSOLUBLE BASIC SUBSTANCES INTO LIQUID ATTENUATIONS

Class H conversions of triturations of insoluble basic substances into liquid attenuations are prepared by succussine on (1) part of the lowest soluble trituration of the substance (usually 6X) with sufficient distilled water or other appropriate menstruum to produce the next higher attenuation.

CLASS I - NOSODES

Nosodes are homeopathic attenuations of: pathological organs or tissues; causative agents such as bacteria, fungi, ova, parasites, virus particles, and yeast; disease products; excretions or secretions.

CLASS J - ALLERSODES

Allersodes are homeopathic attenuations of antigens, i.e., substances which, under suitable conditions, can induce the formation of antibodies. Antigens include toxins, ferments, percipitinogens, agglutinogens, opsonogens, lysogens, venins, agglutinins, complements, opsonins, amboceptors, precipitins, and most native proteins.

CLASS K - ISODES

Isodes, sometimes called Detoxodes, are homeopathic attenuations of botanical, zoological, or chemical substances, including drugs, excipients, or binders, which have been ingested or otherwise absorbed by the body and are believed to have produced a disease or disorder which interferes with homeostasis.

CLASS L - SARCODES

Sarcodes are homeopathic attenuations of wholesome organs, tissues, or metabolic factors obtained from healthy specimens.

630A.040 would subject a homeopathic practitioner to discipline by the Board of Homeopathic Examiners pursuant to NRS 630A.370(3) and (5), and to discipline by the Board of Pharmacy pursuant to NRS 453.241.

We suggest that representatives from the Boards of Pharmacy and Homeopathy meet to develop a comprehensive pharmacopoeia of drugs that Nevada pharmacists could provide to homeopathic practitioners or their patients that could be circulated among the members of the two professions. The pharmacopoeia should include at least the following categories: (1) those dangerous drugs that are "sarcodes" and could be prescribed by the homeopathic practitioner to be filled at a Nevada pharmacy; (2) those controlled substances that are in Schedules I and II that could be ordered by homeopathic practitioners from Nevada pharmacies for the manufacture of homeopathic remedies; (3) those controlled substances in Schedules III, IV, and V that could be ordered by homeopathic practitioners from Nevada pharmacies for the manufacture of homeopathic remedies; and (4) those dangerous drugs that could be ordered by homeopathic practitioners from Nevada pharmacies for the manufacture of homeopathic remedies.

The second conclusion contained in the letter opinion of January 7, 1985, remains essentially unchanged; namely that a homeopathic physician who is also licensed in Nevada as an allopathic or osteopathic physician may write prescriptions for controlled substances for allopathic or osteopathic, not homeopathic, purposes. NRS 453.381(1), the statute that is the basis of this part of the letter opinion, has not been changed in the interim since 1985. Similarly, a dangerous drug cannot legally be prescribed by a homeopathic physician except for allopathic or osteopathic, not homeopathic, purposes. *See* NRS 454.211, NRS 454.221.

Of course, the dually-licensed practitioner could also prescribe, obtain, possess, and administer those dangerous drugs and controlled substances for homeopathic purposes according to the homeopathic method as has already been discussed. In other words, when a dually-licensed practitioner is practicing allopathically or osteopathically, he could prescribe any dangerous drug or controlled substance, but when he is practicing homeopathically, he can only avail himself of the more narrow homeopathic pharmacopoeia of dangerous drugs and controlled substances.

CONCLUSION

The 1985 amendment to NRS 0.040 authorizes exclusively homeopathic physicians to possess, dispense, or administer those controlled substances and dangerous drugs that are recognized by the Homeopathic Pharmacopoeia of the United States and otherwise comply with NRS 630A.040. To possess, dispense, or administer any controlled substances, a homeopathic physician must obtain a federal DEA registration and a Nevada controlled substances registration. Homeopathic physicians who are also licensed in Nevada as allopathic or osteopathic physicians, in addition to the limited abilities to possess, dispense, administer, and prescribe certain dangerous drugs and controlled substances according to homeopathic practice, may also possess, dispense, prescribe, or administer controlled substances and dangerous drugs as appropriate and necessary to their allopathic or osteopathic practices.

Sincerely,

FRANKIE SUE DEL PAPA

Senator Ann O'Connell

Dear Senator O'Connell:

You have asked this office to address three questions relating to the practice of homeopathy in this state. Your questions arise from the interaction between Assembly Bill No. 286 of the 1997 Legislature, which amended the scope of homeopathic practice, the regulation adopted pursuant to that bill by the Board of Homeopathic Medical Examiners, and the February 11, 1999, opinion of the Attorney General which declared that regulation invalid. Specifically, you have asked (1) whether the Attorney General's opinion invalidating the regulation is correct; (2) whether the regulation is effective and valid, and if so, what authority homeopathic physicians possess to prescribe medications, including drugs, controlled substances and dangerous drugs; and (3) whether the authority to write prescriptions granted by this regulation is in conformity with the intent of the Legislature in enacting A.B. 286. The complexity of these issues makes it necessary to provide a significant amount of background information. After providing this information, we will answer each of your questions separately.

I. Background

A. Homeopathy in Nevada: 1983 to 1997

The licensed practice of homeopathy in this state began in 1983 when the Legislature authorized the practice and established the Board of Homeopathic Medical Examiners (Homeopathic Board) to regulate and license the practice. At that time, the Legislature defined homeopathy as a:

> [S]ystem of medicine employing substances of animal, vegetable, chemical or mineral origin [most of which are g]iven in micro-dosage ... and [p]repared according to homeopathic pharmacology by which the formulation of homeopathic preparations is accomplished by ... dilution ... and which is] in accordance with the principle that a substance which produces symptoms in a healthy person can eliminate those symptoms in an ill person, resulting in the elimination and prevention of illness utilizing classical methodology ...

(Section 5 of chapter 524, Statutes of Nevada 1983, at page 1479.)[1] To obtain a license as a homeopathic physician, an applicant must have graduated from either a conventional, that is, "allopathic," medical school or a school osteopathy and must have been licensed to practice allopathic or osteopathic medicine in some state, district, territory or possession of the United States or in a foreign country. (NRS 630A.230.) In 1983, as at present, it was possible, although not necessary, for a licensed homeopathic physician also to be

[1] This definition also included the use of "noninvasive electrodiagnosis," even though it is unlikely that this represented part of "classical" or traditional homeopathy.

licensed to practice conventional allopathic or osteopathic medicine.[2] Thus, while every homeopathic physician must have received training in allopathic or osteopathic medicine, each homeopathic physician may choose whether to continue to practice both forms of medicine, in which case he must be "dually-licensed," or to choose to practice homeopathy exclusively, in which case he need only be "singly-licensed." The 1983 statute did not clearly establish the scope of the authority to write prescriptions that a license to practice homeopathic medicine conferred on its holder. On the one hand, the statutory definition had authorized homeopathic physicians to use "chemical" substances. On the other hand, however, the existing statutory scheme applicable to prescription medicines suggested that homeopathic physicians lacked the authority to write prescriptions. It authorized "physicians" to prescribe drugs, but defined that term in a manner that excluded homeopathic physicians. (NRS 0.040 (1983.)) On January 7, 1985, the Attorney General issued an "informal opinion" advising that a singly-licensed homeopathic physician could not "prescribe, possess, dispense, [or] administer controlled substances and dangerous drugs." (1993 Nev. Op. Att'y Gen. 131, September 20, 1993 (A.G.O. 93-21).) Apparently, this informal opinion precipitated an amendment of NRS 0.040 at the next session of the Legislature. (*Id.*) The Legislature expanded the definition of "physician" expressly to include homeopathic physicians wherever "physician" was used in the NRS. (Section 5 of chapter 82, Statutes of Nevada 1985, at page 221.) This included those laws that conferred the authority to write prescriptions for pharmaceutical medicines or drugs generally, as well as for controlled substances and dangerous drugs. (Chapters 639, 453 and 454 of NRS.) It is not clear whether homeopathic physicians, or others, regarding this statute as conferring *carte blanche* authority on homeopathic physicians to prescribe allopathic drugs, but, at the next session in 1987, the Legislature imposed an explicit limitation on the authority of homeopathic physicians to write prescriptions. The Legislature amended the definition of homeopathy to make it plain that homeopathic physicians could only prescribe substances "according to the medicines and dosages in the Homeopathic Pharmacopoeia of the United States." (Section 10 of chapter 775, Statutes of Nevada 1987, at page 2056.)

In the fall of 1993, the Attorney General was asked to provide an opinion on the then present scope of homeopathic practice. Te Attorney General concluded that part of the 1985 informal opinion had been overtaken by circumstances and was no longer valid. She stated that "[i]t is clear . . . that a homeopathic physician practicing homeopathically [can] legally obtain, possess, and administer some dangerous drugs and controlled substances for the manufacture of homeopathic remedies." (1993 Nev. Op. Att'y Gen. 131, September 20, 1993.) (Emphasis added) In other words, a physician, practicing under his homeopathic license, could prescribe any medication, including allopathic medicines, controlled substances, and dangerous drugs, so long as it was found in the Homeopathic Pharmacopoeia and providing that he prescribed it in the dosages also

[2] Both osteopathic and allopathic physicians are licensed and regulated by the State Board of Medical examiners (Medical Board). Moreover, doctors osteopathy have the same authority to prescribe allopathic prescription drugs, controlled substances and dangerous drugs as do doctors of medicine. For the remainder of this memo, therefore, when speaking of the authority to write prescriptions, we will use "allopathic" as inclusive of "osteopathic," except when it is necessary to distinguish between the two practices.

found there. This might include the authority to prescribe many allopathic drugs, but it almost certainly did not include the authority to prescribe such drugs in allopathic doses. Rather, the Attorney Gene3ral concluded that a homeopathic physician might write a prescription for one pill of an allopathic drug if he did so for the purpose of obtaining it to use in preparing a homeopathic medicine in which the dose of the controlled substance actually administered to the patient would be so diluted that it would conform to homeopathic standards. This interpretation seems to have been accepted by the homeopathic, allopathic and pharmaceutical communities. It is sometimes referred to as the "one-pill rule" and it covers the "micro-dosage" portion of the authority of a homeopathic physician to write prescriptions. The Attorney General also concluded that homeopathic physicians possessed a limited power to prescribe administer certain substances in "macro-dosages," but that these substances, called "sarcodes," were unlikely to be a part of the stock of conventional or allopathic drugs regularly stocked by pharmacists in this state.[3]

In the same 1993 opinion, however, the Attorney General formally adopted one of the conclusions endorsed by the earlier (1985) informal opinion. This was the conclusion that a physician who is dually licensed as both a homeopathic physician and as an allopathic (or osteopathic) physician could not use the authority to write prescriptions granted by his allopathic license to practice homeopathy. In other words, "when a dually-licensed practitioner is practicing allopathically or osteopathically, he can prescribe any dangerous drug or controlled substance, but when he is practicing homeopathically, he can only avail himself of the more narrow homeopathic pharmacopoeia . . . "(1993 Nev. Op. Att'y Gen. 131.) This restriction on the scope of practice, in conjunction with the "one-pill rule" (as modified by the exception for sarcodes), represents the *status quo ante*. Together, they constitute the background against which the subsequent legislation and regulation must be viewed.

B. Assembly Bill No. 286 of the 1997 Legislature

In 1997, the Nevada Association of Homeopathic Physicians offered a bill to expand the scope of the licensed practice of homeopathy and to repeal the "one-pill rule." The homeopathic community believed that since all licensed homeopathic physicians had received allopathic (or osteopathic) training and had satisfied, in some state or country, the requirements to prescribe allopathic drugs in allopathic doses, they should be allowed to do so in Nevada as well. Assembly Bill No. 286 of the 1997 Legislature (A.B. 286), as introduced, employed three statutory mechanisms to bring this about. First, it eliminated the language in NRS 630A.040 that limited the authority of homeopathic physicians to write prescriptions to the substances and dosages found in the Homeopathic Pharmacopoeia. Second, it increased the Homeopathic Board's power over licensing to

---

[3] According to the 1991 edition of the Homeopathic Pharmacopoeia of the United States, sarcodes are "homeopathic attenuations of wholesome organs, tissues, or metabolic factors obtained from healthy specimens . . . prepared according to homeopathic specifications [in which] the basic substance is not altered and the FINAL PRODUCT is not adulterated by any pathogen or other deleterious substance." The Attorney General concluded, "No known allopathic drugs regularly stocked by Nevada pharmacists would be 'sarcodes.'" (1993 Nev. Op. Att'y Gen. 131, September 20, 1993.)

permit the Board to determine on a case-by-case basis, "which allopathic pharmaceuticals and controlled substances, if any, the homeopathic physician or advanced practitioner of homeopathy may prescribe in conventional allopathic dosages." (Subsection 4 of section 1 of A.B. 286, as introduced). The Board was to base its decisions on an evaluation of each licensee's pharmacological expertise. Thus, if the Board was satisfied that an applicant for homeopathic licensure was as qualified to prescribe allopathic medicines in allopathic dosages as medical doctors licensed by the Medical Board, the Homeopathic Board would confer on him a license with equivalent authority. If it evaluated his pharmaceutical knowledge less favorably, it would issue a license that specified the particular allopathic drugs he was authorized to prescribe, or it could grant him a license that expressly disqualified him from prescribing conventional doses of any allopathic drug. Third, A.B. 286 expanded the definition of homeopathy to include the practice of "pharmaceutical medicine." Although this term was never defined with precision, it appears plain that it was intended to encompass the routine prescription of allopathic drugs in allopathic doses. (*See* Testimony of Robert F. Martin, Testimony of Michael J. Fischer, Hearing, Assembly Committee on Commerce, March 31, 1997.) One of the witnesses at the hearing before the Assembly Committee on Commerce provided the following example of what the supporters of A.B. 286 hoped to accomplish. Because relatively few states license homeopathic medicine, the practice of homeopathic physicians in this state includes the treatment of nonresidents who have traveled here for the express purpose of taking a course of homeopathic treatment. If, while undergoing this treatment, the patient manifested a disease that was easily treatable with simple antibiotics, for example, a strept throat, the supporters of A.B. 286 wished singly-licensed homeopathic physicians to have sufficient authority to write a prescription for the patient without having to refer him to an allopathically-licensed physician to obtain the antibiotic. (*See* Testimony of F. Fuller Royal, Testimony of Robert F. Martin, Hearing, Assembly Committee on Commerce, March 31, 1997.)

Besides this expansion in the authority to prescribe conventional allopathic medicines, the supporters of A.B. 286 hoped to expand the scope of homeopathic practice beyond its traditional or classical limits and to include what one witness called "complex homeopathy," but which might more accurately be described as a license for the practice of specific forms of alternative medicine. (Testimony of Robert F. Martin, Hearing, Assembly Committee on Commerce, March 31, 1997.) To accomplish this, the sponsors of A.B. 286 proposed amending the definition of homeopathy to include, in addition to the "non-invasive electrodiagnosis" that had formed part of the 1983 definition, the following alternative practice areas:

> [C]ell therapy, neural therapy, herbal therapy, neuromuscular integration, orthomolecular therapy, nutrition, intravenous infusion, [and] chelation therapy . . .[4]

(*See* A.B. 286, as introduced). None of these therapies fit within the traditional or

---

[4] This clause also contained the expansion of homeopathy to include the practice of "pharmaceutical medicine," discussed above.

"classical," non-statutory definition of homeopathy. The president of the Homeopathic Board testified that "when [A.B. 286] talks about neural therapy, you are not talking about homeopathy. When it talks about orthomolecular therapy and herbalist medications, you're not talking about homeopathy." (Testimony of F. Fuller Royal, Minutes, Legislative Commission, December 18, 1998.) He also stated that there was "no such thing" as homeopathic neuromuscular integration and that the purpose of enumerating those additional therapies had been to "expand the practice of homeopathy." (Testimony of F. Fuller Royal, Minutes, Legislative Commission Meeting, June 26, 1998.) Consequently, because none of these alternative therapies constituted part of homeopathy as traditionally or classically conceived, A.B. 286 deliberately did not subject those therapies to the earlier limitations imposed on classical homeopathy. Thus, the medications that a homeopathic physician might prescribe under the therapies need not be selected in conformity with the fundamental homeopathic principle that a substance that would make a healthy person ill would, if diluted correctly, make an ill person healthy. Similarly, the authority of a homeopathic physician to write a prescription, when practicing one of these alternative therapies, was not limited to the substances or dosages that were found in the Homeopathic Pharmacopoeia.

At the hearing on the bill before the Assembly Committee on Commerce, both supporters and opponents agreed that the net effect of all these provisions would be to significantly expand the ability of singly-licensed homeopathic physicians to practice allopathic medicine. Opponents of A.B. 286 objected to this expansion with an intensity that, apparently, would have been sufficient to prevent the entire bill from emerging from the Assembly Commerce Committee. Both the Chairman of that committee and another member recall informing the lobbyist for the homeopathic physicians that A.B. 286 would not pass unless certain objectionable elements were removed. Both legislators also recall that the lobbyist agreed to an amendment removing them. (*See* Comments of Assemblyman Richard Perkins, Comments of Assemblywoman Barbara E. Buckley, Minutes, Legislative Commission, June 28 and December 18, 1998.)

A.B. 286, as amended, considerably enhanced the power of the Homeopathic Board to regulate its own practitioners, but did not contain the language that would have authorized that board to "determine which allopathic pharmaceuticals and controlled substances, if any, the homeopathic physician . . . may prescribe in conventional allopathic dosages." Similarly, while the Assembly Committee on Commerce had accepted the Homeopathic Board's draft language establishing its right to discipline its own members, the committee amended that provision by adding an explicit declaration that if the conduct of a homeopathic physician concerned a practice that was within the jurisdiction of another licensing board, the Homeopathic Board was required to forward the complaint to the appropriate board for action. (See A.B. 286, First Reprint). Finally, the Committee edited the list of proposed alternative therapies. As previously mentioned, the Committee eliminated the general power to prescribe allopathic drugs in allopathic doses by removing the phrase "pharmaceutical medicine" from the list of alternative therapies. In its initial consideration of amendments to the bill, the committee retained the terms "intravenous infusion and chelation therapy." (See Exhibit C, Attachment B,

Minutes, Assembly Committee on Commerce, May 5, 1997.) These two terms, however, were also subsequently removed.[5] (*See* Floor Minutes of the Assembly Committee on Commerce, June 29, 1997, *Assembly Journal*, June 29, 1997, pp. 1777-78.)

With these changes in place, the Medical Board and State Board of Pharmacy (Pharmacy Board) withdrew their opposition to the legislation. The hearing on the amended bill before the Senate Committee on Commerce and Labor was relatively brief as there was no substantive opposition. One erstwhile opponent testified that in its present form the bill was "innocuous." (Testimony of Robert Barengo, Hearing, Senate Committee on Commerce and Labor, July 3, 1997.) However, the chairman of that committee recalls being informed that the terms "chelation therapy," "intravenous infusion," and pharmaceutical medicine" had been removed solely to eliminate redundancy or surplus language. He understood that it was agreed by all parties that those therapies were authorized by virtue of the remaining terms. For that reason alone, he recalls, the Senate committee did not conduct full hearings on the bill. (*See* Comments of Senator Randolph J. Townsend, Minutes, Legislative Commission, June 26, 1998; *see* also Comments of Senator Mark James, Minutes, Legislative Commission, December 18, 1998.)

Despite what now appears as an obvious difference in understanding between certain members of the Senate with some of their colleagues in the Assembly, there is nothing to suggest that members of either house were aware of these differences when they voted unanimously in favor of the amended bill. Although the new alternative therapies were each listed in the bill, they were not defined. Consequently, the Homeopathic Board attempted to supply these definitions by regulation.

C. The Regulation and the Legislative Commission

The Homeopathic Board adopted its first set of proposed definitions on May 5, 1998, after conducting the required workshop0s and public hearings. The Legal Division of the Legislative Counsel Bureau assigned the proposed regulation the file number R213-97. The Medical and Pharmacy Boards participated in the hearings and, therefore, had early notice of the proposed definitions. The bulk of the definitions excited no controversy, but the representatives of the allopathic community insisted that in its definitions of two of the alternative therapies---orthomolecular medicine and neural therapy---the Homeopathic Board had exceeded its statutory authority. As originally submitted, the regulation defined "orthomolecular medicine" to include "[t]he prescription of . . . pharmaceutical medicines, [and] the intravenous infusion of various substances, including . . . pharmaceutical medications [and] chelating agents . . ." The regulation also defined "neural medicine" to mean the "injection of local anesthetics . . . medicinal or pharmaceutical substances . . ." The allopathic physicians objected that the definitions purported to permit homeopathic physicians to prescribe pharmaceutical "medicines," "medications," and "substances" when the authorization to practice

[5] These two terms will be discussed in greater detail in our response to your third question.

"pharmaceutical medicine" had been expressly removed by the Assembly Committee on Commerce. The same objection applied to the term "intravenous infusion" and the practice of chelation.

The Legal Division of the Legislative Counsel Bureau notified the Homeopathic Board of these objections, but the Homeopathic Board chose not to revise its regulation at that time. Consequently, when R213-97 was submitted to the Legislative Commission for approval at its June 26, 1998, meeting, representatives of the Homeopathic and Medical boards were on hand to present their arguments to the Commission. Under NRS 233B.067, the Commission has the authority to object to a regulation on two bases:

1. The regulation does not conform to statutory authority; or
2. The regulation does not carry out legislative intent.

The Commission heard extensive testimony and considered the matter at length. The majority of the testimony turned on the enhanced authority of homeopathic physicians to write prescriptions that were perceived to be found in the references to "pharmaceutical medicines," "pharmaceutical medications" and "pharmaceutical substances" in light of the Assembly amendment's removal of the term "pharmaceutical medicine" from A.B. 286. In particular, opponents objected---as they had at the hearing before the Assembly Committee on Commerce---to any expansion in the power of singly-licensed homeopathic physicians to prescribe allopathic dosages of controlled substances, including narcotics, and dangerous drugs. The Commission concluded that, assuming that the definitions selected by the Homeopathic Board and incorporated into the regulation were in accordance with authoritative sources in the field of alternative medicine, the regulation was within that board's statutory grant of authority. Nevertheless, the Commission voted to object to the regulation on the ground that the increased authority it conferred on homeopathic physicians to prescribe allopathic drugs in allopathic doses violated the legislative intent behind A.B. 286. (*See* Minutes, Legislative Commission Meeting, June 26, 1998.) Accordingly, the Director of the Legislative Counsel Bureau returned the regulation to the Homeopathic Board with a note of the Commission's objections. (*See* letter from Lorne J. Malkiewich to F. Fuller Royal, June 30, 1998.)

In accordance with the procedures set forth in NRS 233B.0675, the Homeopathic Board revised R213-97. The revised regulation replaced the terms "pharmaceutical medicines," "pharmaceutical medications," and "pharmaceutical substances," with a single term, "pharmaceutical preparations."[6] This term was then expressly limited to make plain that it did "not include narcotic drugs or opiates that are listed as schedule II controlled substances pursuant to chapter 453 of NRS, except as those substances may be described for use in the official Homeopathic Pharmacopoeia of the United States."

The revised regulation was resubmitted to the Legislative Commission for review

[6] The revised regulation also eliminated the term "local anesthetics" from the definition of neural therapy on the ground that such substances were included in the broader category of "pharmaceutical preparations."

at its December 18, 1998, meeting. Once again, the Commission heard extended testimony both for and against the regulation. The witness for the Homeopathic Board contended that inasmuch as the primary objection to the earlier regulation had been the expansion in the authority of homeopathic physicians to prescribe narcotics or other controlled substances in allopathic doses, the revised regulation eliminated that objection. In effect, it restated the "one-pill rule" as it applied to the substances. The Medical and Pharmacy Boards, however, continued to object to the regulation. While conceding that the revised version limited prescriptions by homeopathic physicians of certain schedule II controlled substances (opiates and other narcotics), the Boards contended that it conferred *carte blanche* authority on homeopathic physicians to prescribe, in allopathic doses, all other allopathic drugs, all controlled substances except the narcotics and opiates listed in schedule II, and all dangerous drugs. In particular, they objected that the revised regulation authorized homeopathic physicians to prescribe allopathic doses, certain enumerated chelating agents and to administer them by means of "intravenous infusion."

Operating on the assumption that these substances would be prescribed in the course of administering chelation therapy, a practice expressly authorized by the regulation's definition of orthomolecular therapy, the revised R213-07 permitted, by regulation, two practices---chelation and intravenous infusion---that had been expressly denied to homeopathic physicians by the Assembly amendments to A.B. 286.

Following this evidence and after full discussion, the Legislative Commission by a close vote failed to object to the revised regulation and it therefore became effective. Under NRS 233B.067 and 233B.0675, unless a majority of the Commission objects to a regulation, the Director of the Legislative Counsel Bureau is obliged to file the regulation with the Secretary of State and it becomes effective as of the date of filing. This was, accordingly, done and the regulation became effective on December 18, 1998. (*See* letter from Lorne J. Malkiewich to Dean Heller, December 18, 1998.)

D. The Attorney General Declares the Regulation Invalid

The 1999 session of the Legislature convened on February 2. Although numerous members of the Legislative Commission had indicated that the scope of the practice of homeopathy would be addressed at the session, in fact, no such legislation was passed or even requested. The Pharmacy Board, however, solicited the opinion of the Attorney General on the question of whether a singly-licensed homeopathic physician administering the alternative or non-traditional therapies described in the adopted regulation could prescribe controlled substances or dangerous drugs. The Attorney General responded on February 11, 1999. (*See* Nev. Op. Att'y Gen. 99-06 (A.G.O. 99-06).)

After a brief recapitulation of the amendment and passage of A.B. 286 of the 1997 Legislature and evolution of R213-97, the Attorney General concluded that the regulation was invalid. The Attorney General reached this conclusion because, during a Legislative Commission hearing, members of the Homeopathic Board had, in her

opinion, expressed "an intent to interpret the phrase 'pharmaceutical preparations' as permitting a singly licensed homeopathic physician to prescribe some controlled substances and dangerous drugs . . . We believe this interpretation renders the regulation invalid . . ." The Attorney General also concluded that:

> When the Legislature specifically deleted the term 'pharmaceutical medicine' from the definition of homeopathy, its clear intent in enacting the remainder of A.B. 286 was to prohibit singly licensed homeopathic physicians from having the ability to prescribe controlled substances and dangerous drugs in the same manner as an allopathic physician ... We believe that our conclusion in Op. Nev. Att'y Gen. No. 93-21 (September 20, 1993), continues to accurately describe the limited ability of singly
>
> licensed homeopathic physicians to posses, dispense, and administer controlled substances and dangerous drugs.

Unlike the 1985 "informal" opinion, this opinion was issued publicly and was made public during the course of the Legislative session. Nevertheless, the Legislature took no further action and no further inquiries were made until you requested this opinion following the conclusion of the session.

II. Analysis

With the preceding background in place, we will now analyze each of your questions separately. Your first question is whether the Attorney General's opinion is correct. It is the opinion of this office that it is not.

A. The Attorney General's Opinion No. 99-06

As a preliminary matter, we note that the "opinions of the attorney general do not constitute binding legal authority or precedent." *Goldman v. Bryan*, 106 Nev. 30, 42 (1990). "The opinion of the state attorney general is advisory and not a binding interpretation of state law." *Nevada Highway Patrol Ass'n v. State*, F.2d 1549, 1554, n.6 (1990). See also *Tahoe Regional Planning Agency v. McKay*, 769 F.2d 534, 539 (9th Cir. 1985); *Weston v. County of Lincoln*, 98 Nev. 183 (1982); and *Cannon v. Taylor*, 88 Nev. 89 (1972). Consequently, even if A.G.O. 99-06 were correct, it would not be binding. In any event, however, the Attorney General possesses neither the statutory nor the constitutional power to invalidate regulations. Therefore, it is the opinion of this office the A.G.O. 99-06 is necessarily incorrect to the extent that it purports to claim that the Attorney General has the authority to invalidate a regulation after the regulation has been adopted in compliance with all the procedures required under chapter 233B of NRS and has been filed with the Secretary of State.

Section 2 of Article 3 of the Nevada Commission expressly provides for legislative review and nullification of administrative regulations. It states that:

> If the legislature authorizes the adoption of regulations by an executive agency which bind persons outside the agency, the legislature may provide by law for:
>
> (a) The review of these regulations by a legislative agency before their effective date to determine initially whether each is within the statutory authority for its adoption;
>
> (b) The suspension by a legislative agency of any such regulation which appears to exceed that authority, until it is reviewed by a legislative body composed of members of the Senate and Assembly which is authorized to act on behalf of both houses of the legislature; and
>
> (c) The nullification of any such regulation by a majority vote of that legislative body, whether or not the regulation was suspended.

Acting pursuant to this constitutional grant of authority, the Legislature has amended chapter 233B of NRS, the Nevada Administrative Procedure Act. In chapter 233B of NRS, the Legislature provided, inter alia, the exclusive avenues for determining the pre-enforcement validity of a regulation.[7] Under NRS 233B.110, "[t]he validity or applicability of any regulation may be determined in a proceeding for a declaratory judgment in the district court" by any plaintiff who alleges that "the regulation, or its proposed application, interferes with or impairs, or threatens to interfere with or impair [his] legal rights or privileges . . " Alternatively, "[a]n agency may institute an action for declaratory judgment to establish the validity of any one or more of its own regulations." In this proceeding, "[t]he court shall declare the regulation invalid if it finds that it violates constitutional or statutory provisions or exceeds the statutory authority of the agency." A.G.O. 99-06 concluded that a regulation is invalid if it "exceeds the statutory authority delegated by the Legislature to an administrative agency." This is clearly correct, but as NRS 233B.110 makes clear, when the regulation exceeds its authority, it is the court, not the Attorney General, that is required to "declare the regulation invalid."[8] Chapter 233B of NRS expressly provides a role for the Attorney General in all actions to determine the validity of a regulation. The plaintiff in any such action is required to serve a copy of the complaint upon the Attorney General, who is "entitled to be heard." (Subsection 3 of NRS 233B.110.)[9]

---

[7] Any person who is actually harmed by the enforcement of a regulation or by a state officer acting pursuant to the regulation may bring an action for damages against the state or the officer, during the course of which the validity of the regulation may be brought into issue and resolved by the court. The Legislature's intent in enacting NRS 233B.110 was to permit the validity of regulations to be determined even before they are enforced.

[8] It could be argued that the Attorney General is not asserting a power to declare a regulation invalid, but is merely expressing that which is evident—a regulation that exceeds its authorizing statute is void. Without disputing the accuracy of this conclusion, it is the opinion of this office that because chapter 233B of NRS provides detailed procedures for establishing the validity of regulations, it cannot reasonably be suggested that the Legislature intended chapter 233B of NRS to be self-executing.

[9] Although chapter 233B of NRS gives the sole means for declaring a regulation invalid, NRS 233B.100 provides that "[a]ny regulation of any agency is subject to amendment or suspension by the governor

The statutory scheme embodied in chapter 233B of NRS assigns distinct functions to the judicial branch of government and to the Attorney General. It limits the Attorney General's role to "being heard" by the court. This assignment and limitation points up another objection to the Attorney General's assertion of the authority to declare

administrative regulations invalid, which is the constitutional objection inherent in the doctrine of the separation of powers. Section 1 of Article 3 of the Nevada Constitution states that:

> The powers of the Government of the State of Nevada Shall be divided into three separate departments,---the Legislative,---the Executive and the Judicial; and no persons charged with the exercise of powers properly belonging to one of these departments shall exercise any functions, appertaining to either of the others, except in the cases expressly directed or permitted in this constitution.

The remainder of Article 3 confers on the Legislature the authority to nullify administrative regulations before they become effective. Similarly, the power to interpret statutes and regulations and to declare them invalid is entrusted to the courts in implicit reliance on the constitutional principle that "[i]t is emphatically the province and duty of the judicial department to say what the law is." *Marbury v. Madison*, 5 U.S. (1 Cranch) 137, 177 (1803) (Marshall, C.J.). For the Attorney General to assert a power to invalidate regulations clearly violates the doctrine of the separation of powers by exercising functions appertaining to both of the other branches of government.

The Attorney General is obviously aware of her constitutional role and it is unlikely that she intended to exceed it. Rather, it is probable that her declaration of the invalidity of R213-97 contained in A.G.O. 99-06 merely represents her prediction of what a court of competent jurisdiction would be likely to declare if the question were posed to the court. Alternatively, the opinion could be meant to communicate the legal argument against the regulation's validity that the Attorney General would make in an action at law brought to determine that question. However, even regarded in this light, A.G.O. 99-06 is flawed in several particulars that make it unlikely to be a fully reliable guide to future judicial conduct on this issue.[10]

First, A.G.O. 99-06 states that a "regulation cannot restore a power that the

---

pursuant to the provisions of NRS 416.060." This latter section, however, becomes effective only "[u]pon the proclamation of a water or energy emergency," and limits the amendment or suspension power to the extent necessary to lessen the adverse impact of that emergency.

[10] To the extent that A.G.O. 99-06 is intended as a prediction of judicial behavior, rather than an advocate's brief, it commits additional errors of omission in that it fails to consider fundamental principles and rules of statutory construction that a court would be bound to apply. We discuss these principles and rules in response to your third question.

Legislature specifically took out of a piece of legislation." This principle is sound, but it does not apply to this case in the manner suggested by the Attorney General. The power specifically taken out of A.B. 286 by the Legislature---expansion of the definition of homeopathy to include the unlimited practice of "pharmaceutical medicine," i.e., complete authority to prescribe allopathic drugs in allopathic doses---is not the same as the authority granted by the regulation. This latter authority consists only of a limited power to prescribe or use certain "pharmaceutical preparations" in certain alternative

therapies. Because these two grants of power are not identical, the regulation does not "restore" a power specifically removed from the legislation.[11]

Moreover, A.G.O. 99-06 is internally inconsistent. The opinion declares that the regulation is invalid because it could be interpreted "as permitting a singly licensed homeopathic physician to prescribe some controlled substances and dangerous drugs." Nevertheless, A.G.O. 99-06 concludes by reaffirming A.G.O. 93-21 which declared that "[I]t is clear . . . that a homeopathic physician practicing homeopathically could legally obtain, possess, and administer some dangerous drugs and controlled substances for the manufacture of homeopathic remedies. Additionally, a homeopathic physician may also prescribe those dangerous drugs and controlled substances allowed by NRS 630A.040." Besides this obvious contradiction, A.G.O. 99-06 commits the non sequitur of concluding that an interpretation of the regulation that would permit singly-licensed homeopathic physicians to prescribe "some" controlled substances and dangerous drugs renders the regulation invalid because the Legislature clearly intended to prohibit singly-licensed homeopathic physicians from having the unlimited ability to prescribe any and all controlled substances and dangerous drugs "in the same manner as an allopathic physician."

In addition, A.G.O. 99-06 is, simultaneously, underinclusive as well as overbroad. It limits its consideration to the effect of the legislative deletion of the power to practice "pharmaceutical medicine" from A.B. 286. However, as previously noted, the Assembly Committee on Commerce also eliminated "chelation therapy" and "intravenous infusion" from A.B. 286. Moreover, A.B. 286 expanded the regulatory power of the Homeopathic Board over its licensees, but specifically rejected language that would have given that board the power to grant licenses to prescribe allopathic drugs. Finally, the bill expanded the scope of the practice of homeopathy to encompass seven alternative therapies, some of which require the administration of medicinal substances of one kind or another. The authority of licensed homeopathic physicians to write prescriptions under A.B. 286 and R213-97 cannot be adequately evaluated if all the powers granted and refused are not taken into consideration. On the other hand, A.G.O. 99-06 declares R213-97 invalid in its entirety, eliminating the authority of homeopathic physicians to practice noninvasive

---

[11] This regulation does, however, present a field for the application of the Attorney General's principle. The alternative practices of "chelation therapy" and "intravenous infusion" were deliberately amended out of the statute by the Assembly Committee on Commerce, but are restored by regulation as constituent parts of the practice of orthomolecular therapy. We will discuss this aspect of the regulation's validity subsequently.

electrodiagnosis, cell therapy, herbal therapy, neuromuscular integration and nutrition, when these practices are expressly authorized by A.B. 286, and no opposition of any kind has been raised with respect to these therapies.

Finally, the Attorney General's invalidation of the regulation is premature A.G.O. 99-06 is not premised on a claim that the language of the regulation necessarily conflicts with its authorizing statute. Instead, A.G.O. 99-06 concludes that a particular "interpretation makes the regulation invalid." However, the Homeopathic Board has not in fact, issued any such interpretation. A.G.O. 99-06 rests on the Attorney General's perception that "Board members [of the Homeopathic Board] clarified in the Legislative Commission an intention to interpret the phrase 'pharmaceutical preparations' as permitting a singly licensed homeopathic physician to prescribe some controlled substances and dangerous drugs . . ." Even if that were a valid basis for invalidating the regulation, which, as previously discussed, it is not, there were never more than two of the Homeopathic Board's five members present at either meeting of the Legislative Commission. * Assuming that the Attorney General correctly perceived the intended interpretation of those two members, only one of them spoke, they do not constitute a majority of the Board. Consequently, this seems a slender basis on which to invalidate even the portion of the regulation that could be subject to that hypothetical interpretation. When employed to invalidate all the other aspects of the regulation, even this tenuous basis of rationality is lost. Therefore, the Attorney General cannot declare the regulation invalid on the basis of a belief that the Homeopathic Board might at some future time choose to interpret its regulation in an offensive manner.

A.G.O. 99-06, does, however, achieve one valuable insight. It concludes that in enacting A.B. 286, the Legislature evidenced the clear intent that homeopathic physicians were not to enjoy the same unlimited authority to prescribe allopathic drugs in allopathic doses that is possessed by allopathic or osteopathic physicians. This insight, however, requires further evaluation. A.G.O. 99-06 states that "[w]hen the Legislature specifically deleted the term 'pharmaceutical medicine' from the definition of homeopathy, its clear intent in enacting the remainder of A.B. 286 was to prohibit the singly licensed homeopathic physician from having the ability to prescribe controlled substances and dangerous drugs in the same manner as an allopathic physician." As previously pointed out, the correct from of reference for determining legislative intent should be the act taken as a whole, including parts adopted, as well as all of the powers eliminated, during the amendment process. It is the opinion of this office that a more accurate way of characterizing the legislative intent behind A.B. 286 is that the Legislature, even while significantly expanding the authority of homeopathic physicians to practice alternative medicine and while enlarging the autonomy of the profession to regulate itself, ultimately refused to alter the status quo that declares that a license to practice homeopathic medicine does not confer the authority to prescribe allopathic drugs in allopathic doses in the same manner as an allopathic physician. We will return to this discussion of the correct determination of legislative intent in our response to your third question. Before

* The Board actually consisted of seven members.

doing so, however, we turn to your second question. Is the regulation effective, is it valid, and if so, what authority at present do homeopathic physicians have to prescribe allopathic medications, including controlled substances and dangerous drugs?

B. Effectiveness, validity and resulting authority of R213-97

1. Effectiveness

It is the opinion of this office that the regulation R213-97 is currently effective. The statutory scheme of chapter 233B of NRS is unambiguous in this regard. A permanent regulation becomes effective as of the date the Legislative Counsel files it with the Secretary of State, unless a later date is specified in the regulation. (NRS 233B.070.) The Legislative Counsel has a non-discretionary duty to file such regulations once certain procedural requirements were fulfilled.[12] In this instance, all the statutory procedural requirements were satisfied. The Legislative Commission failed to object to the regulation before it was filed with the Secretary of State and it may not do so now. By the same token, the 1999 Legislature could only have nullified the regulation if the Legislative Commission had voted to suspend the filing of the regulation. (NRS 233B.0675.) The Legislative Commission's failure to object deprived the full Legislature of its opportunity to nullify the regulation directly. In the absence of a constitutional amendment or new legislation, the regulation is beyond the reach of the legislative branch.[13] Accordingly, it is the opinion of this office that, pursuant to NRS 233B.0675, the regulation became effective on December 18, 1998, and until a court of competent jurisdiction enjoins its enforcement or declares it invalid or the Homeopathic Board adopts an amendment, it remains in effect and has the force of law. (*See* NRS 233B.040.) This brings us to the second part of your question, is the regulation valid?

2. Validity

Like a statute, an effective regulation must be presumed to be valid until a court of competent jurisdiction determines that it is not. (1A *Sutherland Statutory Construction*, §31.02 (5th ed. 1993 & Supp. 1999); see also *Immigration and Naturalization Service v. Chada*, 103 S. Ct. 2764, 2784 (1983).) Therefore, presuming, as we must, that R213-97 is valid, this brings us to the third part of your question. Under the statutes and regulations currently in effect, what authority does a homeopathic physician have to possess, administer, dispense or prescribe allopathic drugs, controlled substances and dangerous drugs?

---

[12] Before July 1, 1999, the Legislative Counsel's responsibilities concerning the regulatory process were vested in the Director of the Legislative Counsel Bureau. (See sections 43 to 49, inclusive, of chapter 463, Statutes of Nevada 1999, at pages 2203-07.)

[13] In any event, NRS 233B.0675 required the Legislature to nullify the regulation before the 30th day of the Legislative session. Even if the extension of this deadline to the final day of the session that was enacted in 1999 (section 1 of chapter 182, Statutes of Nevada 1999, at page 903, effective May 20, 1999) could be made to apply to apply to R213-97, that date has also long since passed.

3. The authority to write prescriptions

As a preliminary matter, we note that a dually-licensed homeopathic physician has the authority to write prescriptions, including prescriptions for allopathic drugs in allopathic doses, that he enjoys under his allopathic (or osteopathic) license. However, it remains the opinion of this office, as we advised you in 1998, that the powers and accountability of dually-licensed homeopathic physicians can only be determined with reference to the capacity in which they are practicing at any given time. (See letter from Brenda J. Erdoes and Eileen O'Grady to Senator Ann O'Connell, March 19, 1998.) A licensed homeopathic physician, when practicing homeopathically, is not accountable to the Medical Board because he is not exercising any of the rights or privileges conferred by virtue of an allopathic license issued by that Board. This conclusion, although in conflict with Attorney General's Opinion No. 98-01, is in complete accord with her earlier A.G.O. 93-21.[14] So, we do not believe that there is any difference between the authority of singly- and dually-licensed homeopathic physicians to write prescriptions when they are practicing homeopathically. The definitions of R213-97 concern only the nontraditional, alternative therapies recently incorporated into homeopathic medicine by virtue of A.B. 286. Nothing in that regulation changes, or purports to change, any aspect of traditional practice. Consequently, it is the opinion of this office that a homeopathic physician, practicing traditionally, does so with the same authority and under the same

---

[14] It may be helpful to remind you of the circumstances surrounding the Attorney General's Opinion No. 98-01. In August, 1997, the Medical Board asserted that A.B. 286 had granted it exclusive disciplinary power over all licensed homeopaths who were also licensed by the Medical Board. This drew a formal protest from Senator Townsend as a misinterpretation of A.B. 286. (See letter from Senator Randolph J. Townsend to Attorney General Frankie Sue Del Papa, November 4, 1997.) Shortly thereafter, the Homeopathic Board requested an opinion from the Attorney General as to the proper relationship between the two boards, which was issued on January 13, 1998. (See Nev. Op. Att'y Gen. 98-01 A.G.O. 98-01).) The primary focus of that opinion concerned the obligations of a dually-licensed physician when one board forbade a medical procedure that was condoned by the other. The Attorney General concluded that the Legislature had intended the Medical Board's disciplinary jurisdiction to be exclusive. Thereafter, Senator O'Connell, you requested the opinion of this office as to the soundness of A.G.O. 98-01. We concluded that the Attorney General had overstated the powers of the Medical Board and suggested, instead, that "the Medical Board may not regulate the practices of a person who is licensed to practice both allopathic and homeopathic medicine while that person is actually practicing homeopathy within the scope of chapter 630A of NRS." (Letter from Brenda J. Erdoes and Eileen O'Grady to Senator Ann O'Connell, March 19, 1998.) More generally, we suggested that the clear intent of the legislative scheme had been to require that questions regarding dually-licensed physicians could only be answered after establishing in which capacity —allopathic or homeopathic—the physician was practicing. Note that this conclusion is consistent with the Attorney General's earlier opinion that each license confers its own separate set of powers and limitations, and that at any given moment a dually-licensed physician is practicing one form of medicine or the other, and not some hybrid or intermediate form. (See A.G.O. 93-21.) Thus, both the Attorney General and the Legislative Counsel have endorsed the proposition that a dually-licensed homeopathic physician cannot use his allopathic license to prescribe allopathic drugs in allopathic doses if his intention is to effect a homeopathic treatment. The factual context for A.G.O. 93-21 concerned the practice of chelation therapy, a form of medicine that we will examine in more detail in response to your third question.

limitations that he has since 1987. The limits of this practice are fully and competently set out in the Attorney General's Opinion No. 93-21. Having said this, it must be remembered that A.B. 286 bifurcated the practice of homeopathy into what we have called "traditional" or "classical" homeopathy and "complex homeopathy" or, more accurately, certain "alternative therapies." These practices consist of "[n]oninvasive electrodiagnosis, cell therapy, neural therapy, herbal therapy, neuromuscular integration, orthomolecular therapy and nutrition" as these practices have been defined in R213-97. As with the earlier distinction between allopathic and homeopathic licenses, we believe that it is possible to determine the authority of a homeopathic physician to write prescriptions only after determining which homeopathic therapies---"tradition" or "alternative"---he is engaged in.

(a) Traditional

Little additional needs to be said about the authority of a homeopathic physician to write prescriptions when practicing traditional or classical homeopathy. The limits of this power are contained in NRS 0.040 and chapters 453, 454, and 639 of NRS, as well as in NRS 630A.040. As we previously indicated, it is the opinion of this office that A.G.O. 93-21 accurately interpreted the statute, the operative portion of which has not been amended in a way that significantly alters this conclusion. Thus, homeopathic physicians may prescribe, dispense and administer traditional homeopathic remedies as medically appropriate according to the standards applicable to the homeopathic tradition. With respect to allopathic medications, including controlled substances or dangerous drugs, homeopathic physicians may write prescriptions for a single pill of such substances, but only for the purpose of diluting it and compounding it into a homeopathic preparation, only if the allopathic drug is found in the Homeopathic Pharmacopoeia and only if the resulting diluted dosage is in accordance with dosages found in that pharmacopoeia.

(b) Alternative therapies

Homeopathic physicians, when practicing one of the alternative therapies authorized by A.B. 286 and defined in R213-97, have some additional authority to write prescriptions for allopathic drugs. It should be re-emphasized, however, that we believe this power to be practice-specific. For example, in the hearing on A.B. 286, the representatives of the homeopathic physicians expressed a desire to be able to prescribe antibiotics to patients suffering from strept throat. A homeopathic physician who desires to prescribe antibiotics, that is, allopathic drugs in allopathic doses according to allopathic principles, is not practicing classical homeopathy. Neither, as far as we can tell from the definitions contained in R213-97, is he practicing one of the alternative therapies. Consequently, nothing in the statute or regulation confers any increased authority to prescribe antibiotics. A homeopathic physician with an allopathic or osteopathic license may prescribe antibiotics under these circumstances, but when he does so, he is practicing under his medical license, his authority to write prescriptions is

determined by that license, and he is accountable to the Medical, not the Homeopathic Board for any complaints arising from that treatment. A singly-licensed homeopathic physician did not have the authority to prescribe antibiotics in these circumstances before the passage of A.B. 286 and the adoption of R213-97. Such a physician has not gained any power to do so under either measure. Therefore, a homeopathic physician, by virtue of his homeopathic license, does not have a general or unlimited power to practice allopathic medicine, including the prescription of allopathic drugs in allopathic doses. However, when practicing a legislatively sanctioned alternative therapy, it is the opinion of this office that a homeopathic physician, so long as he complies with all state and federal laws and regulations applicable to prescription drugs, may prescribe in allopathic doses:

1. Any Controlled substance listed in schedule I, II, III, IV or V as set forth in chapter 453 or NRS, so long as both administration and dosage are medically appropriate according to the standards applicable to that alternative therapy, except that a homeopathic physician may not prescribe "narcotic drugs and opiates that are listed as schedule II controlled substances pursuant to chapter 453 of NRS, except as those substances may be described for use in the official Homeopathic Pharmacopoeia of the United States." (R213-97.)

2. Any dangerous drug that is defined in chapter 454 of NRS so long as both administration and dosage are medically appropriate according to the standards applicable to that alternative therapy.

3. Any other allopathic drug available by prescription so long as both administration and dosage are medically appropriate according to the standards applicable to that alternative therapy.

Finally, this brings us to your third question, is the authority to write prescriptions granted by R213-97 in conformity with the intent of the Legislature in enacting A.B. 286?

C. Legislative intent

We believe that the best way of addressing the question of whether R213-97 conforms to legislative intent is to examine how a court would be likely to rule if this regulation were challenged in a legal action, whether brought as an action for a declaratory judgment, a suit for a writ of mandamus or an action for damages. According to NRS 233B.110, a court in such a position "shall declare the regulation invalid if it finds that [the regulation] violates constitutional or statutory provisions or exceeds the statutory authority of the agency."

Courts determining whether a particular regulation is beyond the power granted to an administrative agency, "must not only interpret the statute to determine the powers conferred but also the regulation to determine whether its provisions comply with the statute." 1A *Sutherland Statutory Construction*, §31.06. In doing so, judges apply standard principles and rules of statutory construction, as well as special rules applicable

to regulations only. 1A *Sutherland Statutory Construction*, §31.06. These rules, however, are not absolutes and do not permit us to predict with certainty what outcome any particular judge might reach. Consequently, we will present first the considerations that militate in favor of the regulation's validity. We will then present the countervailing considerations and, finally, our opinion as to which outcome is the more likely.

1. Arguments in favor of validity

The first applicable principle on rule of statutory construction accords to regulations the same presumption in favor of their validity that applies to statutes. 1A *Sutherland Statutory Construction*, §31.02. A corollary of this presumption is that the party challenging the validity of the regulation bears the burden of proving its invalidity.[15] Any interpretation of the regulation must take place against the backdrop of these presumptions favoring the validity of the regulation.

In addition, the rules of statutory construction provide that "[w]hen presented with a question of statutory interpretation, the intent of the legislature is the controlling factor and, if the statute under consideration is clear on its face, a court cannot go beyond the statute in determining legislative intent. If, however, the statute is ambiguous, it can be construed "in line with what reason and public policy would indicate the legislature intended . . ." *Robert E. v. Justice Court of Reno Township*, 99 Nev. 443, 445, 664 P.2d 957, 959 (1983) (internal citation omitted). Moreover, the court may also examine the legislative history of a provision if doing so would be "useful" in determining legislative intent. *Del Papa v. Board of Regents of the University and Community College System of Nevada*, 114 Nev. Adv. Op. 50, at p. 5, 956 P.2d 770 (1998). "A statute or portion thereof is ambiguous when it is capable of being understood by reasonably well-informed persons in either of two or more senses." *Robert E. v. Justice Court*, 99 Nev. at 445, 664 P.2d at 959 (internal citation omitted); see also *McKay v. Board of Supervisors*, 102 Nev. 644, 649, 730 P.2d 438, 442 (1987).

It can be argued that A.B. 286 is ambiguous as many of the terms used in the bill are capable of being understood in two or more senses. For example, as previously mentioned, none of the alternative therapies added to the definition of homeopathy would be considered "homeopathic" as that term has been traditionally used. Thus, the chief witness in favor of expanding the definition of homeopathy to include these alternative therapies testified that "when [A.B. 286 talks about neural therapy, you are not talking about homeopathy. When it talks about orthomolecular therapy and herbalist medications, you're not talking about homeopathy." He also stated that there was "no such thing" as homeopathic neuromuscular integration. (Testimony of F. Fuller Royal, Minutes, Legislative Commission, December 18, and June 26, 1998.) Besides this inherent ambiguity, a particular ambiguity attaches to the most controversial of the

[15] As suggested previously, if A.G.O. 99-06 were considered in the nature of a brief submitted to a court by the Attorney General as provided in NRS 233B.110, we believe that the opinion would be insufficient to overcome this presumption of validity.

contested terms, "orthomolecular therapy." This term has a definition in conventional medical dictionaries that does not correspond in every particular with the manner in which that therapy is conducted by the alternative medical community. (*See* Testimony of Robert Barengo, Minutes, Legislative Commission, June 28, 1998.) However, Dr. Royal testified, and it was conceded, that the definitions of these alternative therapies adopted in the regulations employed correctly the meaning of these practices bear in the sources regarded as authoritative by the alternative medicine community. (See Testimony of F. Fuller Royal, Minutes, Legislative Commission, June 28 and December 18, 1998; Testimony of Robert Barengo, Minutes, Legislative Commission, June 28, 1998.) In light of these ambiguities, a court would not be able to rely solely on the language of the statute to determine the Legislative intent behind A.B. 286 as a predicate to determining whether R213-97 conforms with that intent. Instead, the court would be fully justified in examining all the extrinsic sources available, including the legislative history of A.B. 286, to attempt to discern the intent of the Legislature.

Moreover, when doubt arises as to the proper interpretation of a statute affecting an administrative agency, the Nevada Supreme Court has found that the interpretation of the agency that is charged with the administration and enforcement of the statute is persuasive evidence of its meaning. *Nev. Power Co. v. Public Serv. Comm'n*, 102 Nev. 1, 4 (1986); see also *Dep't of Human Resources v. UHS of the Colony Inc.*, 103 Nev. 208, 211 (1987) (stating that an administrative construction that is within the language of the statute will not readily be disturbed by the courts); *Roberts v. State*, 104 Nev. 33, 39, 752 P.2d 221, 225, (1988). The theory behind this interpretation is that the Legislature is charged with having knowledge of the manner in which the statutes it enacts are carried out. Where the legislature "has had ample time to amend an administrative agency's reasonable interpretation of a statute, but fails to do so, such acquiescence indicates the interpretation is consistent with legislative intent." *Hughes Properties v. State of Nevada*, 100 Nev. 295, 298, 680 P.2d 970, 972 (1984) (citation omitted). "[N]early contemporaneous constructions of state statutes by administrative agencies charged with their implementation are entitled to great weight, especially when, as in the present case, the legislature fails to repudiate the agency's construction." *Roberts v. State*, 104 Nev. at 39, 752 P.2d at 225 (citations omitted). This citation is particularly applicable inasmuch as the final decision of the Legislative Commission failing to object to the regulation took place less than 6 weeks before the opening of the next session of the legislature. Numerous members of the Legislative Commission had suggested during their discussions that the matter be referred to the Legislature. However, the fact that the Legislature not only did not pass, but did not even request, a bill to modify the scope of

the practice of homeopathy may well justify a conclusion that the Legislature did not believe that the regulation violated its intent in amending chapter 630A of NRS. And "[a]lthough not controlling, the legislature's construction of its own act is persuasive in ascertaining the act's meaning." *Roberts*, 104 Nev. at 40, 752 P.2d at 225.

Standard rules of statutory construction direct that statutes should be read and interpreted as a whole. 2A *Sutherland Statutory Construction* § 46.05; *K.J.B., Inc. v. Second Judicial Dist. Court*, 103 Nev. 473, 476 (1987). "'Courts must construe statutes

. . . to give meaning to all of their parts and language . . . The court should read each sentence, phrase, and word to render it meaningful within the context of the purpose of the legislation.'" *Del Papa v. Reagents*, 114 Nev. Adv. Op. 50, at p. 3, quoting *Board of County Comm'rs v. CMC of Nevada*, 99 Nev. 739, 744, 670 P.2d 102, 105 (1983) (citations omitted). Taken as a whole, it seems clear that the intent of the Legislature was to expand the scope of homeopathic practice, but not to increase it so far that it became an independent license to engage in the unlimited practice of allopathic medicine. It is evident that the alternative therapies defined by R213-97 are limited in scope and do not constitute the unlimited practice of allopathic medicine. Consequently, it can be argued that the regulation is consistent with legislative intent and is, therefore, valid.

2. Arguments against validity

The strongest arguments against the validity of R213-97 originate in the legislative history of A.B. 286. Standard rules of statutory construction permit the use of legislative history to establish legislative intent when a statute is ambiguous. The legislative history of A.B. 286 reveals that the Assembly Committee on Commerce deliberately removed the terms "intravenous infusion, chelation therapy, and pharmaceutical medicines" from the bill. This is consistent with the notion that it was the intent of the Legislature that homeopathic physicians were not to be authorized to engage in these practices. It is well settled that "[a]dminstrative regulations cannot contradict or conflict with the statute they are intended to implement." *Roberts v. State*, 104 Nev. at 37, 752 P.2d at 223. As the Attorney General argued, a regulation "cannot restore a power that the Legislature specifically took out of a piece of legislation." (A.G.O. 99-06.) Thus, to the extent that R213-97 authorizes homeopathic physicians to practice intravenous infusion and chelation, and to prescribe some pharmaceutical preparations, it can be argued that it violates legislative intent and is, necessarily, invalid.

It must be noted, however, that some problems occur with this argument. First, the Nevada Supreme Court has expressly proscribed the use of legislators' statements of opinion as a means of determining legislative intent. "'[I]n construing a statute we do not consider the motives or understands of individuals who cast their votes in favor of it. . . . [Even if] the legislator whose motives are proffered actually authored the bill in controversy; no guarantee can issue that those who supported this proposal shared his view of its compass.'" *A-NLV Cab Co. v. State Taxicab Authority*, 108 Nev. 92, 95 (1992), quoting *Cal. Teachers Ass'n v. San Diego Com. College*, 621 P.2d 856, 860 (Cal. 1981) (citations and internal quotations omitted). "A legislator's statement is entitled to consideration, however, when it is a reiteration of legislative discussion and events leading to adoption of proposed amendments, rather than merely an expression of personal opinion." See also *Khoury v. Maryland Casualty Co.*, 108 Nev. 1037, 1040 (1992). In this instance, however, even assuming that the Legislators' recollections were entitled to consideration, they appear to be offsetting. Members of the Assembly recall that the three therapies were removed by amendment for the deliberate purpose of excluding them from the scope of homeopathic practice. Members of the Senate recall that the intent behind their removal was merely to eliminate redundancy and that the

eliminated terms were available therapies already included within the other approved therapies.

A second difficulty was referred to earlier. It is not readily apparent that the authority to engage in the unlimited practice of allopathic medicine that may have been removed by elimination of the term "pharmaceutical medicine" from the statute is the same as the limited authority to prescribe some chemical substances that is granted by virtue of the regulation's use of the term "pharmaceutical preparation." This is especially so because the authority to prescribe these latter substances is constrained by the requirement of medical appropriateness in the context of a specific authorized alternative therapy. In any event, it is undeniable that the two other statutory terms eliminated by the Assembly Committee on Commerce---"intravenous infusion" and "chelation therapy"---are the same as the two terms restored by the regulation. The two terms are related. Chelation therapy is recognized in conventional medical circles as a technique for treating victims of heavy metal poisoning. The most common example, apparently, involves miners whose blood and bones show unusually high concentrations of lead. Certain drugs (chelating agents) with the chemical property of binding to heavy metals at the molecular level are introduced, commonly by means of intravenous infusion, into the body of the miner. The heavy metals abandon their chemical bonds with the body's tissues and fluids in favor of combining with the chelating agents. When these chelating agents are subsequently eliminated from the body, the heavy metals are eliminated as well. Practitioners of alternative medicine contend that chelation can be used to remove other harmful substances from the bodies of patients. Apparently, the most common example of this alternative practice is the treatment of arteriosclerosis by chelating the harmful plaque build-up in arterial walls. The efficiency of this treatment for its alternative purpose has not been demonstrated to the satisfaction of the allopathic medical community. Nevertheless, in 1998, the Medical Board refused to adopt a regulation that would have prohibited any allopathically licensed physician, including any dually-licensed homeopathic physician, from using chelation therapy except to remove heavy metals from a patient's body. (*See* "Nevada doctors battling," *Las Vegas Review Journal*, December 3, 1997; "Continued use of alternative medicine to treat hear bypass surgery OK'd," *Las Vegas Review Journal*, January 30, 1998.) In any event, chelation therapy, even when practiced alternatively, requires the use of allopathic dosages of allopathic substances. Moreover, any allopathic physician, including a dually-licensed homeopathic physician, may perform chelation in its conventional or alternative mode. For this reason, it would not be unreasonable for a court to find R213-97 invalid to the extent that it authorized a singly-licensed homeopathic physician to perform chelation, especially by means of intravenous infusion.

3. On balance

It is the opinion of this office that when A.B. 286 and its legislative history are examined as a whole, the legislative intent behind the bill was to extend the scope of the licensed practice of homeopathic medicine and to increase the power of the Homeopathic Board to regulate that practice, but that it was not the intent to authorize singly-licensed

homeopathic physicians the unlimited right to practice allopathic medicine in the same manner as allopathic physicians. More particularly, the Legislature intended homeopathic physicians to enjoy expanded authority to write prescriptions with regard to certain allopathic medicines, but only to the extent required in practicing certain enumerated alternative therapies. In general, the definitions contained in the regulation of the Homeopathic Board, R213-97, do not exceed the Board's statutory authority and are consistent with legislative intent. We think it highly likely that a court of competent jurisdiction, if asked, would agree. We believe, however, that with respect to the definition of one alternative therapy, orthomolecular medicine, particularly that branch of it that concerns chelation or other forms of detoxification by means of intravenous infusion, there is a significant question whether that portion of the regulation is consistent with legislative intent. Nevertheless, assuming that a court would grant the regulation its presumption of validity, would take into consideration: (1) that the Legislative Commission did not object to the regulation on the grounds that it violated legislative intent; and (2) that the Legislature as a whole, with knowledge of the existence of the controversy over this provision, took no corrective action during the 1999 session, we are inclined to believe that the court would be more likely than not to uphold the validity of this element of the regulation as well. In any event, we conclude that such a court would not invalidate the regulation in its entirety.

III. Conclusions

It is the opinion of this office that the declaration of the invalidity of R213-97 contained in Attorney General Opinion No. 99-06 is legally null. Only a court of competent jurisdiction may invalidate a regulation and until such a court does so, R213-97, having satisfied all the procedural requirements of the Nevada Administrative Procedure Act, remains in effect and must be presumed to be a valid regulation.

It is the further opinion of this office that licensed homeopathic physicians may practice all of the therapies defined in R213-97, including chelation therapy and other forms of detoxification by means of intravenous infusion. A reasonable interpretation of the statutes and regulations, currently in effect, including R213-97, establishes that homeopathic physicians possess the following authority to write prescriptions by virtue of their homeopathic licenses:

1. When practicing traditional or classical homeopathy, they may prescribe, dispense and administer traditional homeopathic remedies as medically appropriate according to the standards applicable to the homeopathic tradition. With respect to allopathic medications, including controlled substances or dangerous drugs, homeopathic physicians may write prescriptions for a single pill of such substances, but only for the purpose of diluting it and compounding it into a homeopathic preparation, only if the allopathic drug is found in the Homeopathic Pharmacopoeia and only if the resulting diluted dosage is in accordance with dosages found in that pharmacopoeia.

2. When practicing one of the alternative therapies expressly authorized by A.B. 286 and defined in R213-97, homeopathic physicians may prescribe:

(a) Any controlled substance listed in schedule I, II, III, IV or V as set forth in chapter 453 of NRS, so long as both administration and dosage are medically appropriate according to the standards applicable to that alternative therapy, except that a homeopathic physician may not prescribe "narcotic drugs and opiates that are listed as schedule II controlled substances pursuant to chapter 453 of NRS, except as those substances may be described for use in the official Homeopathic Pharmacopoeia of the United States." (R213-97.)

(b) Any dangerous drug that is defined in chapter 454 of NRS so long as both administration and dosage are medically appropriate according to the standards applicable to that alternative therapy.

(c) Any other allopathic drug available by prescription so long as both administration and dosage are medically appropriate according to the standards applicable to that alternative therapy.

Finally, it is the opinion of this office that, in general, the definitions contained in the regulation of the Homeopathic Board, R213-97, do not exceed the Board's statutory authority and are consistent with legislative intent. However, with respect to the definition of one alternative therapy, orthomolecular medicine, particularly that branch of it that concerns chelation or other forms of detoxification by means of intravenous infusion, there is a significant question whether the regulation is consistent with legislative intent. Nevertheless, in light of the presumption of validity that accompanies every regulation and taking into consideration that the Legislative Commission did not object to the regulation and that the Legislature took no corrective action during the 1999 session, we are inclined to believe that a court of competent jurisdiction would be more likely than not to find the portion of the regulation consistent with legislative intent. In any event. we conclude that such a court would not invalidate the regulation in its entirety.

Re: Petition for Emergency Rule Making RE: NAC 639.250

Dear Executive Secretary Wuest,

On behalf of all pharmacies owned and operated by Walgreen Co. in the state of Nevada, this is a formal petition for emergency rulemaking to address NAC 639.250, Restrictions on Supervision.

Early in the pandemic, the Board, under Dr. Wuest's astute leadership, had the strategic foresight to issue a partial waiver of NAC 639.250 to address the supervision allowances for pharmacists. This waiver allowed pharmacies to employ additional pharmaceutical technicians and pharmaceutical technicians in training to support the additional workload experienced during the pandemic. More specifically, it allowed pharmacists to supervise up to a total of 6 pharmaceutical technicians or 4 pharmaceutical technicians and 2 pharmaceutical technicians in training at one time in any pharmacy setting. Throughout the pandemic, this waiver allowed pharmacies and pharmacists the ability to utilize dedicated support personnel to assist with additional COVID-related activities, most notably vaccinations and testing. Since the expiration of this waiver in July 2022, the increase in workload for our pharmacists' was quickly noted, as well as the decreased capacity for both testing and vaccinations. We believe pharmacists should be able to utilize this support where it is available without fear of disciplinary action from the Board.

While the State Declaration of Emergency has ended, the need for expanded vaccination and testing certainly has not. The U.S. Department of Health and Human Services (HHS), in collaboration with the U.S. Department of Defense (DOD), announced on July 29, 2022, that they had purchased 171 million combined doses of Pfizer and Moderna's bivalent COVID-19 booster vaccine.[1] All indications point to the availability of these vaccines in early fall, with the first doses expected in early September.[2] The timing of this vaccine is critical to address the need for additional immunity heading into the fall and winter but also coincides with the traditional peak volume for the flu vaccine. Walgreens and other organizations anticipate an unprecedented vaccine demand, as we saw early in the pandemic when vaccines first became available for COVID-19.

Walgreens

We believe that expanded ratio period was a success in Nevada and to date, we have not seen any disciplinary cases demonstrating abuse of this increased utilization of technicians. We believe the Board can utilize this time period to demonstrate that these proposed changes are not only safe, but also the right thing to do for pharmacists, technicians and patients in Nevada.

We request that the Board consider emergency rulemaking to address the supervision allowances for pharmacists during the waiver and allow pharmacists to supervise up to a total of 6 pharmaceutical technicians or 4 pharmaceutical technicians and 2 pharmaceutical technicians training at one time in any pharmacy setting. [3] I have provided draft language for your consideration with this request.

Walgreens implores the Board to take up this matter with urgency to allow pharmacists the ability to utilize a flexible workforce based on demand and utilize all available resources to alleviate the workload from our pharmacists and make vaccines and testing as broadly available for Nevadans. If your September Board Meeting does not have sufficient space or time for review, we would request an emergency meeting to address this request before the October Board Meeting.

I appreciate the Board's time and thoughtful consideration of this request to allow pharmacies to continue to play a pivotal role in the pandemic response that the public has grown to expect. If the Board would like additional information, please feel free to contact me.

Sincerely,

Lorri Walmsley

PROPOSED REGULATION OF THE

STATE BOARD OF PHARMACY

LCB File No. R085-22

July 19, 2022

EXPLANATION – Matter in *italics* is new, matter in brackets [~~omitted material~~] is material to be omitted.

AUTHORITY: § 1, NRS 639.070 and 639.170; § 2, NRS 639.070 and 639.100; §§ 3-8, NRS 639.070.

A REGULATION relating to pharmacy; revising certain types of licenses and fees; revising various provisions regarding administrators; revising various definitions; revising certain licensing criteria; revising certain conditions for the suspension of certain licenses; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law establishes the maximum fees the State Board of Pharmacy may charge for the issuance and renewal of licenses. (NRS 639.170) Existing regulations prescribe different fees for the issuance and renewal of a license as a medical products wholesaler and a wholesaler. (NAC 639.220) **Section 1** of this regulation removes the separate fees for medical products wholesalers, thereby requiring medical products wholesalers to pay the same fees for the issuance and renewal of a license as other wholesalers. **Section 3** of this regulation provides that medical products wholesalers hold the same type of license as other wholesalers.

Existing regulations require an applicant for a license to operate as a wholesaler to designate at least one natural person to serve as the representative of the wholesaler. (NAC 639.5935) Existing regulations also require each medical products provider or medical products wholesaler to employ an administrator at all times. (NAC 639.694). **Section 2** of this regulation authorizes a representative of a wholesaler to serve as an administrator of a medical products provider. **Section 4** of this regulation authorizes a medical products provider and a medical products wholesaler operating out of a shared facility to also share a common administrator. **Section 8** of this regulation provides that the Board may summarily suspend the license of a medical products wholesaler that is operating without a designated representative.

Existing regulations provide that the Board will not issue a license to conduct business as a medical products provider or medical products wholesaler to a practicing health professional. (NAC 639.6943) **Section 5** of this regulation limits the applicability of this provision to health professionals who are licensed, certified or registered in this State, thereby clarifying that a health professional who is not licensed, certified or registered as such in this State is eligible for licensure as a medical products provider or medical products wholesaler.

Existing regulations establish requirements concerning the premises of a medical products provider and the maintenance of records by a medical products provider. (NAC

639.6946, 639.6949, 639.695) **Section 6** of this regulation prohibits a medical products provider from operating out of the same location as another medical products provider. **Section 7** of this regulation requires a medical products provider to maintain certain records relating to its inventory of medical products separate from the records of any medical products wholesaler.

(21 U.S.C. § 822) However, the requirement for such registration is waived for any officer or employee of any State, or any political subdivision or agency thereof, who is engaged in the enforcement of any State or local law relating to controlled substances and who is duly authorized to possess controlled substances in the course of his or her official duties. (21 C.F.R § 1301.24) Similarly, existing state law requires certain persons to obtain a registration from the State Board of Pharmacy in order to possess, dispense or conduct research with any controlled substance in this State. (NRS 453.226) Existing regulations: (1) exempt from the requirements of registration any person who is exempted from federal registration by federal laws or regulations; and (2) waive the requirement of registration for an officer or employee of this State or any of its political subdivisions or agencies who is engaged in the enforcement of any state or local law relating to controlled substances and is authorized to possess controlled substances in the course of his or her official duties. (NAC 453.100, 453.150)

Section 1 of this regulation authorizes a law enforcement officer who is employed by the State or any of its political subdivisions or agencies to register with the Board for the purpose of possessing controlled substances in the course of training canines to detect a controlled substance. **Section 1** further provides that a law enforcement officer is not required to register before possessing such controlled substances or engaging in certain other conduct which the law enforcement officer is otherwise authorized to perform without a registration.

Existing regulations: (1) provide that certain groups of activities related to controlled substances are deemed to be independent of each other; and (2) require, with certain exceptions, a person who engages in more than one group of independent activities to obtain a separate registration for each group of activities. (NAC 453.110) **Section 2** of this regulation provides that if a law enforcement officer is registered pursuant to **section 1**, possessing a controlled substance

in the course of training a canine to detect a controlled substance is also an activity that is deemed to be independent. Thus, such a law enforcement officer who is registered to possess controlled substances in the course of training a canine is not authorized to engage in certain other activities involving controlled substances.

Existing law authorizes the Board to add, delete or reschedule substances listed as controlled substances in schedules I, II, III, IV and V of the Uniform Controlled Substances Act by regulation. (NRS 453.146) Existing regulations set forth the drugs and substances that are enumerated in schedule I. (NAC 453.510) **Section 3** of this regulation adds methoxetamine to the list of controlled substances set forth in schedule I.

Section 1. Chapter 453 of NAC is hereby amended by adding thereto a new section to read as follows:

1. Notwithstanding the exemption from registration set forth in NAC 453.100 and the waiver of the requirement of registration set forth in NAC 453.150, a law enforcement officer who is employed by the State or any of its political subdivisions or agencies may register pursuant to this chapter for the purpose of possessing controlled substances in the course of training a canine to detect a controlled substance.

2. Nothing in this section shall be construed to require a law enforcement officer to register before:

(a) Possessing a controlled substance in order to train a canine to detect the controlled substance; or

(b) Engaging in any other conduct for which the law enforcement officer is otherwise authorized to perform without a registration.

Sec. 2. NAC 453.110 is hereby amended to read as follows:

(e) Conducting research and instructional activities with any controlled substances listed in schedule I; ~~[and]~~

(f) Conducting chemical analysis with a controlled substance listed in any schedule ~~[.]~~ *; and*

(g) Possessing a controlled substance in the course of training canines to detect a controlled substance, if a law enforcement officer is registered pursuant to section 1 of this regulation.

2. A person who engages in more than one group of independent activities must obtain a separate registration for each group of activities except as provided in NAC 453.120.

3. Except as provided in subsection 4, a single registration to engage in any group of independent activities may include one or more of the controlled substances listed in the schedules which are authorized for that group.
