AMENDED AGENDA

◈ PUBLIC NOTICE ◈

The Nevada State Board of Pharmacy will conduct a meeting beginning Wednesday January 11, 2023, at 9:00 am. The meeting will continue, Thursday, January 12, 2023, at 9:00 am if necessary or until the Board concludes its business. Pursuant to NRS 241.023(1)(c) the meeting is being conducted by means of remote technology. The public may attend the meeting via live stream remotely or at the following location:

Hilton Garden Inn
7830 S Las Vegas Boulevard
Las Vegas, NV

Via Videoconference at Zoom: https://zoom.us/j/5886256671
or
Via Teleconference at 1 (669) 900-6833
Meeting ID: 588 625 6671

Please Note:

In regulating the practice of pharmacy, the Nevada State Board of Pharmacy has a duty to carry out and enforce the provisions of Nevada law to protect the health, safety, and welfare of the public.

Please note that items on this agenda may be taken out of order, two or more agenda items may be combined for consideration, and/or items may be removed from the agenda or delayed for discussion at any time.

The Board may convene in closed session pursuant to NRS 241.030 to consider the character, alleged misconduct, professional competence or physical or mental health of any person named on this agenda.

The Board will take public comment on any matters within their jurisdiction, control, or advisory power. Public comments may be limited to three minutes per person. Public comment may also be submitted to the Board at pharmacy@pharmacy.nv.gov.

The Board may refuse to consider public comment related to a contested case pursuant to NRS 233B.126 until the Board has rendered a decision in the contested case.

1. Call to Order and Roll Call – Establishment of Quorum

2. Public Comment: No action may be taken upon a matter raised under this item of the agenda until the matter itself has been specifically included on a future agenda as an item. (NRS 241.020)

◈ CONSENT AGENDA ◈

The Consent Agenda contains matters of routine acceptance. The Board Members may approve the consent agenda items as written or, at their discretion, may address individual items for discussion or change.

MINUTES

November 30 – December 1, 2022

BOARD MEETING

The Nevada State Board of Pharmacy will conduct a meeting beginning Wednesday, November 30, 2022, at 9:00 am. The meeting will continue, Thursday, December 1, 2022, at 9:00 am if necessary or until the Board concludes its business. Pursuant to NRS 241.023(1)(c) the meeting is being conducted by means of remote technology. The public may attend the meeting via live stream remotely or at the following location:

Hilton Garden Inn
7830 S Las Vegas Boulevard
Las Vegas, NV

Via Videoconference at Zoom: https://zoom.us/j/5886256671
or
Via Teleconference at 1 (669) 900-6833
Meeting ID: 588 625 6671

Board Members Present:

Helen Park	Jade Jacobo	Krystal Freitas	Gener Tejero
Wayne Mitchell	Rolf Zakariassen	Richard Tomasso	

Board Staff Present:

Dave Wuest	Yenh Long	Shirley Hunting	Kristopher Mangosing
Brett Kandt	Peter Keegan	Darlene Nases	Courtney Lee
Joe Dodge	Luis Curras	Dena McClish	Ken Scheuber
Sophia Long	Monica Segedy		

President Park read the mission statement of the Nevada State Board of Pharmacy to reiterate the Board's duty to carry out and enforce the provisions of Nevada Law to protect the health, safety, and welfare of the public.

Dave Wuest stated that this Board Meeting is being held over Zoom and is in compliance with the Governor's directive and Open Meeting Laws for Nevada.

1. Call to Order and Roll Call – Establishment of Quorum

President Park performed the roll call. All Board members were present and a quorum was established.

2. Public Comment November 30, 2022, 9:00 AM

Jaime Cordoba-Hernandez commented that he is present for the Board meeting in accordance with his Order.

◈ CONSENT AGENDA ◈

The Consent Agenda contains matters of routine acceptance. The Board Members may approve the consent agenda items as written or, at their discretion, may address individual items for discussion or change.

3. Approval of Board Meeting Minutes (**FOR POSSIBLE ACTION)**

A. October 12-13, 2022
B. November 18, 2022

Board discussion ensued.

Board Action:

Motion: Jade Jacobo moved to approve Board Meeting Minutes for October 12-13, 2022, and November 18, 2022.

Second: Rolf Zakariassen

Action: Passed unanimously.

NN. Canyon Ridge Surgery Center – Las Vegas, NV

Board discussion ensued.

Board Action:

Motion: Jade Jacobo moved to approve Consent Agenda.

Second: Wayne Mitchell

Action: Passed unanimously.

◈ REGULAR AGENDA ◈

5. Disciplinary hearings pursuant to NRS 639.247. (**FOR POSSIBLE ACTION**)

A. CVS Pharmacy #10861 (18-008-PH-S)
B. Yuna Eun, RPH (18-008-RPH-A-S)
C. Cynthia To, RPH (18-008-RPH-B-S)

These matters were continued to a future Board meeting.

D. CVS Pharmacy #9841 (19-257-PH-N)

Jade Jacobo and Rolf Zakariassen recused themselves due to their employment with CVS.

Joe Lavino, CVS Representative, appeared and was sworn in by President Park prior to answering questions and offering testimony.

Peter Keegan, Assistant General Counsel for the Nevada Board of Pharmacy, prosecuted the case regarding the pharmacy failing to comply with recordkeeping requirements for RX# C1041278 and their responsibility for the acts of all personnel that they employ.

Mr. Keegan clarified CVS #9841 is charged with only Count Three and the other Counts are against Rola Mseeh in the Notice of Intended Action and Accusation.

Mr. Keegan presented a proposed Stipulation and Order for the Board's consideration.

The stipulated penalties for CVS Pharmacy# 9841 Pharmacy License No. PH01364 are the following: 1) pay a fine of $1,000 for the violations; and 2) pay $500 to partially reimbursed the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter.

Board discussion ensued.

Mr. Keegan clarified that the Stipulation and Order is for CVS Pharmacy #9841 located at 1695 Robb Drive, Reno, NV 89523. He will correct the Stipulation and Order to reflect the correct store number.

DRAFT

Board Action:

Motion: Richard Tomasso moved to approve the Stipulation and Order for CVS Pharmacy #9841 as presented by Mr. Keegan.

Second: President Park

Action: Passed unanimously (Jacobo and Zakariassen recused).

E. Rola Mseeh, RPH (19-257-RPH-N)

Malik Ahmad appeared as counsel on behalf of Rola Mseeh.

Rola Mseeh appeared and was sworn in by President Park prior to answering questions and offering testimony.

Mr. Ahmad commented to the Board that he requested a list of exhibits, witnesses, and a correct Notice of Intended Action and Accusation regarding Ms. Mseeh's case, but he did not receive any of the requested information.

Mr. Keegan clarified that the disciplinary actions noted in paragraph three of the Notice of Intended Action and Accusation are referring to CVS# 9841 and not against Ms. Mseeh.

Mr. Ahmad requested the Board dismiss the case against Ms. Mseeh due to an unclear Notice of Intended Action and Accusation.

President Park denied motion to dismiss.

Jade Jacobo disclosed that she works for CVS but stated that she could participate in this matter fairly and without bias.

Rolf Zakariassen recused himself due to his employment with CVS.

Peter Keegan prosecuted the case regarding Ms. Mseeh improperly declining to fill and failing to comply with recordkeeping requirements for RX# C1041278.

Mr. Keegan called Mark Bridges as a witness via phone since he is unable to appear in person due to personal reasons.

Mr. Ahmad objects to the witness as they should be appearing in person to the Board meeting.

President Park confirmed that extenuating circumstances may allow someone to not appear in person. Therefore, she denies objection to the witness.

DRAFT

Mr. Keegan questioned Mr. Bridges on the issue that occurred, and the complaint filed.

Mr. Bridges answered questions to the Board's satisfaction.

Mr. Keegan requested the Board to enter into the record the complaint form submitted by Mr. Bridges as Exhibit 2.

President Park admitted as Exhibit 2.

Mr. Keegan requested the Board to enter into the record the original prescription of Mr. Bridges as Exhibit 3.

President Park admitted as Exhibit 3.

Mr. Ahmad cross-examined Mr. Bridges.

Mr. Keegan called Monica Segedy a witness.

Monica Segedy, Investigator for the Nevada Board of Pharmacy, appeared and was sworn in by President Park prior to answering questions and offering testimony.

Mr. Keegan questioned Ms. Segedy on her position with the Board and her investigation of the case.

Mr. Keegan requested the Board to enter Ms. Segedy's email chain with CVS Corporation as Exhibit 4.

President Park admitted as Exhibit 4.

Mr. Ahmad cross-examined Ms. Segedy.

Mr. Keegan called Rola Mseeh as a witness.

President Park clarified that Ms. Mseeh is still sworn in.

Mr. Keegan questioned Ms. Mseeh on the details regarding her case.

Mr. Ahmad cross-examined Ms. Mseeh.

The Board questioned Ms. Mseeh.

Mr. Keegan provided his closing statement and requested the Board to find the evidence supports a record keeping issue and unprofessional conduct.

DRAFT

Mr. Ahmad provided his closing statement and requested an error-free Accusation and dismissal of this case due to the lack of evidence.

Sophia Long, Deputy Attorney General from the Attorney General's Office, commented that the Accusation was done properly and provided "preponderance of the evidence" definition to the Board.

Board discussion ensued.

President Park called for a brief recess.

21. Discussion on audit by Casey Neilon pursuant to NRS 218G.400 for fiscal year ending June 30, 2022.

Gener Tejero and Wayne Mitchell was excused from the meeting at 1:30 PM.

Niki Neilon was present for the meeting

Ms. Neilon presented the Nevada Board of Pharmacy's auditing report to the Board's satisfaction.

Wayne Mitchell and Gener Tejero returned to the meeting at 1:33 PM.

Board discussion ensued.

5. Disciplinary hearings pursuant to NRS 639.247. (**FOR POSSIBLE ACTION**)

E. Rola Mseeh, RPH (19-257-RPH-N)

President Park reopened the Rola Mseeh hearing.

Dave Wuest, Executive Secretary from the Nevada Board of Pharmacy, commented that Ms. Mseeh's and Board's counsel has discussed on how to proceed with the case.

Sophia Long advised of the options on how the Board can proceed with the hearing: 1) dismiss the case against Ms. Mseeh and proceed with a cite and fine; 2) find Ms. Mseeh not guilty if Board wants the case adjudicated; or 3) find Ms. Mseeh guilty and impose discipline against her registration.

Board discussion ensued.

Board Action:

Motion: Wayne Mitchell moved to dismiss Case No. 19-257-RPH-N against Rola Mseeh.

Second: Jade Jacobo

Action: Passed unanimously (Zakariassen recused).

F. Walgreens Pharmacy #4854 (19-100-PH-S)
G. Minhquang Nguyen, RPH (19-100-RPH-S)

These matters were continued to a future Board meeting.

H. Walgreens Pharmacy #4854 (18-021-PH-S)
I. Minhquang Nguyen, RPH (18-021-RPH-A-S)
J. Diana Ebel, RPH (18-021-RPH-B-S)
K. Dimitris Efstathiou, RPH (18-021-RPH-C-S)
L. Maria Cruz, RPH (18-021-RPH-D-S)

These matters were continued to a future Board meeting.

M. Cyvada Sutton, APRN (22-127-PR-S)

Cyvada Sutton appeared and was sworn in by President Park prior to answering questions and offering testimony.

Courtney Lee, General Counsel for the Nevada Board of Pharmacy, prosecuted the case regarding Ms. Sutton prescribing controlled substances with an expired registration and for prescribing without a bona fide therapeutic relationship with the patient.

Ms. Lee presented a proposed Stipulation and Order for the Board's consideration.

The stipulated penalties for Cyvada Sutton's Certificate of Registration No. PR16218 are the following: 1) pay a fine of $5,000 for the violations; and 2) pay $500 to partially reimbursed the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter.

Board discussion ensued.

Wayne Mitchell wanted further clarification on why she prescribed controlled substances to the patient on behalf of her coworker.

Ms. Sutton answered questions to the Board's satisfaction.

Board discussion ensued.

Board Action:

Motion: Jade Jacobo moved to approve Stipulation and Order for Cyvada Sutton as presented by Ms. Lee.

Second: Wayne Mitchell

Action: Passed unanimously.

N. Sherellen Gerhart, MD (22-106-CS-N)

This matter was continued to a future Board meeting.

P. Josette Spotts, MD (22-396-CS-S)

Charlotte Buys appeared as counsel via Zoom on behalf of Josette Spotts.

Josette Spotts was not present for the meeting.

Brett Kandt, General Counsel for the Nevada Board of Pharmacy, prosecuted the case and commented that a personal appearance before the Board is required.

Ms. Buys confirmed that she is out of state, and Ms. Buys is travelling. Therefore, she thought a Zoom meeting was permissible.

Dave Wuest commented that her Zoom appearance was not approved.

President Park continued this matter to a future Board meeting.

O. William Smith, MD (22-065-CS-S)

William Smith was not present.

Brett Kandt prosecuted the case alleging that Dr. Smith surrendered his Nevada State Board of Medical Examiners (NSBME) License No. 7897 to practice medicine. resulting in immediate suspension of his Controlled Substance Registration No. CS08327.

Mr. Kandt called Shirley Hunting, Darlene Nases, and Kristopher Mangosing as witnesses.

Shirley Hunting (Board Coordinator for the Nevada Board of Pharmacy), and Darlene Nases (Assistant Board Coordinator for the Nevada Board of Pharmacy), and Kristopher Mangosing (Assistant Board Coordinator) appeared and were sworn in by President Park prior to answering questions and offering testimony.

Mr. Kandt questioned Ms. Nases on service of the Notice of Suspension of Certificate of Registration No. CS08327 on Dr. Smith.

Ms. Nases testified that she served the Notice of Suspension of Certificate of Registration No. CS08327 on Dr. Smith via certified mail at his address of record with the Board, as evidence in proposed Exhibit A.

Mr. Kandt requested Exhibit A be entered into the record.

President Park admitted Exhibit A.

Mr. Kandt questioned Ms. Hunting on service of the Notice of Intended Action and Accusation together with the Statement to Respondence and Notice of Hearing on Dr. Smith.

Ms. Hunting testified that she served the Notice of Intended Action and Accusation together with the Statement to Respondent and Notice of Hearing on Dr. Smith via certified mail at his address of record with the Board, as evidenced in proposed Exhibit B.

Mr. Kandt request Exhibit B be entered into the record.

President Park admitted Exhibit B.

Mr. Kandt questioned Mr. Mangosing on service of the 21-day Notice of the Hearing on Dr. Smith.

Mr. Mangosing testified that he served the 21-day Notice of Hearing on Dr. Smith via certified mail at his address of record with the Board, as evidenced in proposed Exhibit C.

Mr. Kandt requested Exhibit C be entered into the record.

President Park admitted Exhibit C.

Mr. Kandt requested the Board to find that Dr. Smith was properly noticed for the hearing.

Board Action:

Motion: President Park moved to find that Dr. William Smith was properly noticed for the hearing.

Second: Rolf Zakariassen

Action: Passed unanimously.

Mr. Kandt requested that the Board make findings of fact consistent with paragraphs 1-3 of the Notice of Intended Action and Accusation.

Board Action:

Motion: Jade Jacobo moved to find the Findings of Fact consistent with paragraphs 1-3 of the Notice of Intended Action and Accusation.

Second: Rolf Zakariassen

Action: Passed unanimously.

Mr. Kandt requested that the Board make conclusions of law consistent with paragraphs 4-10 of the Notice of Intended Action and Accusation and find the respondent guilty of the alleged violations.

Board Action:

Motion: Jade Jacobo moved to make Conclusions of Law consistent with paragraphs 4-10 of the Notice of Intended Action and Accusation and find the respondent guilty of the violations.

Second: Rolf Zakariassen

Action: Passed unanimously.

Mr. Kandt proposed revocation of Dr. William Smith's Certificate of Registration No. CS08327, effective immediately. Dr. Smith may not possess (except pursuant to lawful order of a practitioner), administer, prescribe, or dispense a controlled substance until he petitions the Board for reinstatement pursuant to NRS 639.257. Dr. Smith may not petition for reinstatement for a period of one year from the day of Order and if he applies then he must appear before the Board.

Board Action:

Motion: Jade Jacobo moved to approve the revocation for Dr. William Smith's Certificate of Registration No. CS08237 as proposed by Mr. Kandt.

Second: Rolf Zakariassen

Action: Passed unanimously.

Q. Jonathan Sorelle, MD (22-027-CS-S)

This matter was continued to a future Board meeting.

R. Keith A. Breiland, MD (20-180-CS-S)

Kathleen Janssen appeared as counsel on behalf of Dr. Keith Breiland.

Dr. Keith Breiland was not present for the hearing.

Courtney Lee prosecuted the case regarding Dr. Breiland allowing his medical assistant to electronically sign prescriptions on his behalf.

Ms. Lee presented a proposed Stipulation and Order for the Board's consideration.

The stipulated penalties for Dr. Keith Breiland's Certificate of Registration No. CS06393 are the following: 1) pay a fine of $5,000 for the violations; 2) pay $500 to partially reimbursed the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter; and 3) two hours of additional continuing education (CE) related to prescribing controlled substances.

Board discussion ensued.

Board Action:

Motion: President Park moved to approve the Stipulation and Order for Dr. Keith Breiland as presented by Ms. Lee.

Second: Richard Tomasso

Action: Passed unanimously.

S. Rebecca Reilly, APRN (22-154-PR-S)

Rebecca Reilly appeared and was sworn in by President Park prior to answering questions and offering testimony.

Peter Keegan prosecuted the case regarding Ms. Reilly prescribing without a valid registration.

Mr. Keegan presented a proposed Stipulation and Order for the Board's consideration.

The stipulated penalties for Rebecca Reilly's Certificate of Registration No. PR16218 are the following: 1) pay a fine of $5,000 for the violations; and 2) pay $500 to partially reimbursed the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter.

Board discussion ensued.

Board Action:

Motion: Jade Jacobo moved to approve the Stipulation and Order for Rebecca Reilly as presented by Mr. Keegan.

Second: Krystal Freitas

Action: Passed unanimously.

16. Applications for Controlled Substance Registration (NRS 453.226) – Appearance **(FOR POSSIBLE ACTION)**

    B. Rebecca Reilly

Board Action:

Motion: Jade Jacobo moved to approve Rebecca Reilly's controlled substance registration.

Second: Wayne Mitchell

Action: Passed unanimously.

5. Disciplinary hearings pursuant to NRS 639.247. (**FOR POSSIBLE ACTION**)

    T. Samuel Mujica-Trenche, MD (22-057-CS-S)

Marie Ellerton appeared as counsel on behalf of Dr. Samuel Mujica-Trenche.

Dr. Samuel Mujica-Trenche appeared and was sworn in by President Park prior to answering questions and offering testimony.

Courtney Lee prosecuted the case regarding Dr. Mujica-Trenche allowing his staff to access and possess dangerous drugs while he was not present at his practice.

Ms. Lee presented a proposed Stipulation and Order for the Board's consideration.

The stipulated penalties for Dr. Samuel Mujica-Trenche's Certificate of Registration No. CS04095 are the following: 1) pay a fine of $5,000 for the violations; and 2) pay $500 to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter.

Ms. Ellerton commented that Dr. Mujica-Trenche has taken corrective action, and the issue has been fixed.

Board discussion ensued.

Dr. Samuel Mujica-Trenche mentioned that he resigned from this practice location after this incident.

Board Action:

Motion: President Park moved to approve Stipulation and Order for Dr. Samuel Mujica-Trenche as presented by Ms. Lee.

Second: Jade Jacobo

Action: Passed unanimously.

U. David Ludlow, MD (22-067-CS-S)

No representative was present on behalf of David Ludlow.

President Park tabled this matter.

V. Maria Regalado, MD (22-066-CS-S)

This matter was continued to a future Board meeting.

W. Complete Pharmacy and Medical Solutions LLC (22-082-PH-O)

No representative was present on behalf of Complete Pharmacy and Medical Solutions LLC.

Peter Keegan prosecuted the case and requested a default on this matter.

Mr. Keegan called Shirley Hunting as a witness.

President Park clarified that Ms. Hunting is still sworn in from a previous matter.

Mr. Keegan questioned Ms. Hunting on her position with the Board and if she served the Notice of Intended Action and Accusation for Complete Pharmacy and Medical Solutions LLC. In addition, he questioned her on the results of the corporation search in Florida where the business was incorporated.

Ms. Hunting answered questions to the Board's satisfaction.

Mr. Keegan requested that the 21-day notice of the hearing be entered into the record as Exhibit 2 and the corporation search in Florida as Exhibit 3.

President admitted as Exhibit 2-3.

Mr. Keegan called Kristopher Mangosing as a witness.

President Park clarified that Mr. Mangosing is still sworn in from a previous matter.

Mr. Keegan questioned Mr. Mangosing on his position with the Board and if he served the 21-day notice of the hearing and to confirm his timesheet for time worked on this case.

Mr. Mangosing answered questions to the Board's satisfaction and confirmed his timesheet.

Mr. requested the Board to enter into the record Exhibit 1, Notice of Service.

President Park admitted as Exhibit 1.

Mr. Keegan requested the Board to find that Complete Pharmacy and Medical Solutions LLC was properly noticed of the hearing.

Board Action:

Motion: Jade Jacobo moved to find that Complete Pharmacy and Medical Solutions LLC was properly noticed for the hearing.

Second: President Park

Action: Passed unanimously.

Mr. Keegan requested the Board to find the allegations against Complete Pharmacy and Medical Solutions LLC as true.

Board Action:

Motion: Wayne Mitchell moved to find the allegations against Complete Pharmacy and Medical Solutions LLC as true.

Second: Jade Jacobo

Action: Passed unanimously.

Ms. Hunting was called back as a witness.

Mr. Keegan questioned Ms. Hunting on her timesheet for her time working on this case.

Ms. Hunting confirmed her timesheet.

Mr. Keegan requested the timesheets for Board staff be entered into the record as Exhibit 4. He clarified in the summation total document that it lists "Darlene Nases", but the name should be changed to "Shirley Hunting".

President Park admitted as Exhibit 4.

Mr. Keegan requested the penalties for Complete Pharmacy and Medical Solutions LLC Pharmacy License No. PH02783 be revoked for one year before they can reapply. In addition, he requested the Board award attorney's fees and costs of $955.01 to partially reimburse the Board for recoverable attorney's fees and costs.

Sophia Long wanted clarification on Mr. Keegan's timesheet.

Mr. Keegan answered Ms. Long's question.

Dave Wuest provided clarification that two cases are being prosecuted which one is against Complete Pharmacy and Medical Solutions LLC, and the other is Esan Forde which was continued due to Covid.

Board Action:

Motion: Jade Jacobo moved to award the attorney's fees and costs of $955.01 on the basis that they were reasonable, necessary, and actually incurred.

Second: Krystal Freitas

Action: Passed unanimously.

Board Action:

Motion: Jade Jacobo moved to revoke Complete Pharmacy and Medical Solutions LLC Pharmacy License No. PH02783 as presented by Mr. Keegan.

Second: President Park

Action: Passed unanimously.

X. Esan Forde, RPH (22-081-RPH-O)

This matter was continued to a future Board meeting.

Y. Susan Bell, APRN (21-084-CS-S)

No representative was present on behalf of Susan Bell.

Courtney Lee prosecuted the case regarding Ms. Bell prescribing controlled substances on an expired registration.

Ms. Lee called Darlene Nases as a witness.

President Park clarified that Ms. Nases is still sworn in from a previous matter.

Ms. Lee questioned Ms. Nases on her position at the Board and if she served the Notice of Intended Action and Accusation to Ms. Bell.

Ms. Nases answered questions to the Board's satisfaction.

Ms. Lee called Kristopher Mangosing as a witness.

President Park clarified that Mr. Mangosing is still sworn in from a previous matter.

Ms. Lee questioned Mr. Mangosing on his position at the Board and if he served the 21-day notice of the hearing to Ms. Bell.

Mr. Mangosing answered questions to the Board's satisfaction.

Ms. Lee requested the Board to enter into the record Exhibit 1, the 21-day notice of the hearing letter.

President Park admitted as Exhibit 1.

Ms. Lee requested the Board to find that Ms. Bell was properly noticed for the hearing.

Board Action:

Motion: President Park moved to find that Susan Bell was properly noticed for the hearing.

Second: Rolf Zakarissen

Action: Passed unanimously.

Ms. Lee requested the following Exhibits be entered into the record: 1) Exhibit 2 is Board's printout from registrant database documenting that Ms. Bell did not renew her controlled substance registration as of 11/1/2018; 2) Exhibit 3 is a personal written statement from Ms. Bell; 3) Exhibit 4 is a redacted PMP Prescriber Activity Report from 11/1/2020-5/31/2021; and 4) Exhibit 5 are copies of exemplar controlled substance prescriptions written by Ms. Bell during the time her controlled substance registration was expired.

President Park admitted as Exhibits 2-5.

Ms. Lee requested the Board find that they have jurisdiction consistent with paragraph 1 of the Notice of Intended Action and Accusation.

Board Action:

Motion: Jade Jacobo moved to find that the Board has jurisdiction consistent with paragraph 1 of the Notice of Intended Action and Accusation.

Second: Rolf Zakarissen

Action: Passed unanimously.

Ms. Lee requested the Board to find the Findings of Fact consistent with paragraphs 2-7 of the Notice of Intended Action and Accusation.

Board Action:

Motion: Krystal Freitas moved to make Findings of Fact consistent with paragraph 2-7 of the Notice of Intended Action and Accusation.

Second: President Park

Action: Passed unanimously.

Ms. Lee requested the Board to make Conclusions of Law consistent with paragraphs 13-14 in the Notice of Intended Action and Accusation.

Board Action:

Motion: Jade Jacobo moved to make Conclusions of Law consistent with paragraph 13-14 of the Notice of Intended Action and Accusation.

Second: Rolf Zakariassen

Action: Passed unanimously.

Ms. Lee requested that the attorney's fees and costs of $542.45 be entered into the record as Exhibit 6.

President Park admitted as Exhibit 6.

Board Action:

Motion: Jade Jacobo moved to award the attorney's fees and costs of $542.45 on the basis that they were reasonable, necessary, and actually incurred.

Second: President Park

DRAFT

Action: Passed unanimously.

Ms. Lee proposed the following penalties for Susan Bell Certificate of Registration No. CS23773: 1) pay a fine of $5,000 for the violations; and 2) pay attorney's fees and costs of $542.45 to partially reimbursed the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter within 30 days of the Order.

Board Action:

Motion: Jade Jacobo moved to approve the penalties for Susan Bell as proposed by Ms. Lee.

Second: Rolf Zakariassen

Action: Passed unanimously.

6. Appeal hearing pursuant to NRS 639.2895(2) (**FOR POSSIBLE ACTION**)

A. Bazaar European Deli & Café (21-208-N)

This matter was vacated.

7. Hearing on summary suspension pursuant NRS 233B.127(3). **(FOR POSSIBLE ACTION)**

Antonio Darrel Childs, PTT (22-353-PTT-S)

No representative was present on behalf of Antonio Darrel Childs.

Peter Keegan prosecuted the case regarding Mr. Childs Order of Summary Suspension.

Mr. Keegan called Darlene Nases as a witness.

President Park clarified that Ms. Nases is still sworn in from a previous matter.

Mr. Keegan questioned Ms. Nases on her position with the Board and if she served the Notice of Intended Action and Accusation and Order of Summary Suspension.

Ms. Nases answered questions to the Board's satisfaction.

Mr. Keegan requested Exhibits 1-5 be entered into the record.

President Park admitted Exhibits 1-5.

Mr. Keegan called Kristopher Mangosing as a witness.

President Park clarified that Mr. Mangosing is still sworn in from a previous matter.

Mr. Keegan questioned Mr. Mangosing on his position with the Board and if he served the 21-day notice of the hearing letter.

Mr. Mangosing answered questions to the Board's satisfaction.

Mr. Keegan presented to the Board a video of Mr. Childs removing pills from a bottle at SavOn Pharmacy #3016 as Exhibit 4.

Mr. Keegan requested the Board to find that Mr. Childs was properly noticed for the hearing.

Board Action:

Motion: President Park moved to find that Antonio Childs was properly noticed for the hearing.

Second: Jade Jacobo

Action: Passed unanimously.

Mr. Keegan requested the Board to find the allegations against Mr. Childs as true.

Board Action:

Motion: Rolf Zakariassen moved to find the allegations against Antonio Childs as true.

Second: President Park

Action: Passed unanimously.

Mr. Keegan proposed the following penalties for Antonio Childs Certificate of Registration No. PT26572: 1) revoke registration for a period of one year; and 2) pay attorney's fees and costs of $499.52.

Board Action:

Motion: Jade Jacobo moved to revoke Antonio Childs Certificate of Registration No. PT26572 for a period of one year.

Second: Rolf Zakariassen

Action: Passed unanimously.

DRAFT

Board Action:

Motion: Jade Jacobo moved to award the attorney's fees and costs of $499.52 on the basis that they were reasonable, necessary, and actually incurred within 30 days of the Order.

Second: Wayne Mitchell

Action: Passed unanimously.

5. Disciplinary hearings pursuant to NRS 639.247. (**FOR POSSIBLE ACTION**)

U. David Ludlow, MD (22-067-CS-S)

This matter was continued to a future Board meeting.

8. Hearing on Petition for Reconsideration of the Findings of Facts, Conclusions of Law and Order pursuant to NRS 233B.130(4). **(FOR POSSIBLE ACTION)**

A. Las Vegas Scripts Rx (19-243-PH-S)

These matters were continued to a future Board meeting.

23. Executive Secretary Report:

A. Financial Report
B. Issuance of Temporary Licenses and Registrations
C. Change of Address Business List
D. Meetings with Other Health Care Regulatory Boards
E. COVID-19 Response
F. Licensing Software Update
G. Licensing Activities Report
H. PMP Integration
I. Citations & Fines issued pursuant to NRS 632.2895

Dave Wuest provided Executive Secretary Report to the Board's satisfaction.

20. Approval of Oncology Group Practice – Dispensing Practitioner Shared Inventory Site Application. **(FOR POSSIBLE ACTION)**

Yenh Long, Deputy Secretary for the Nevada Board of Pharmacy, presented the Oncology Group Practice – Dispensing Practitioner Shared Inventory Site Application to the Board's satisfaction.

DRAFT

Board discussion ensued.

Board Action:

Motion: President Park moved to approve Oncology Group Practice – Dispensing Practitioner Shared Inventory Site Application.

Second: Jade Jacobo

Action: Passed unanimously.

22. General Counsel Report. Note: The Board may exclude the public for a report on potential or existing litigation pursuant to NRS 241.015(3)(b)(2).

There was no General Counsel Report.

Public Comment November 30, 2022, 4:00 PM

There was no public comment.

President Park recessed the meeting for the night and reconvened the meeting the next morning.

Board Members Present:

Helen Park	Jade Jacobo	Krystal Freitas	Gener Tejero
Wayne Mitchell	Rolf Zakariassen	Richard Tomasso	

Board Staff Present:

Dave Wuest	Yenh Long	Shirley Hunting	Kristopher Mangosing
Brett Kandt	Peter Keegan	Darlene Nases	Courtney Lee
Joe Dodge	Luis Curras	Ken Scheuber	Dena McClish

President Park read the mission statement of the Nevada State Board of Pharmacy to reiterate the Board's duty to carry out and enforce the provisions of Nevada Law to protect the health, safety, and welfare of the public.

Dave Wuest stated that this Board Meeting is being held over Zoom and follows the Governor's directive and Open Meeting Laws for Nevada.

Call to Order and Roll Call – Establishment of Quorum

President Park performed the roll call. All Board members were present, and a quorum was established.

Public Comment December 1, 2022, 9:00 AM

Yenh Long commented that a written public comment has been provided to the Board.

Ken Kunke, Pharmacist, requested clarification on the current law for pharmaceutical technicians and pharmacist interns who are only allowed to do immunizations under the direct supervision of a pharmacist. Recently, they have come across situations where pharmaceutical technicians are volunteering at vaccine clinics and are being supervised by other health care professionals such as a registered nurse, doctor, or nurse practitioner. Another similar situation is that pharmacist interns are volunteering at clinics (i.e. Immunized Nevada) and unless there is a licensed pharmacist at the clinic. They are unable to provide immunizations and only allowed to have auxiliary personnel to do it. Is this a regulation that can be changed? Or does it have to go through statutes? He is requesting the Board to get back to him on this issue.

◈ PUBLIC HEARING ◈

Thursday December 1, 2022 – 9:00 am

24. Notice of Proposed Regulation Public Hearing Pursuant to NRS 233B.061(2) **(FOR POSSIBLE ACTION):**

A. **Amendment to Nevada Administrative Code (NAC) 453B.** The proposed amendments to NRS 453B broaden the previously established Cancer Drug Donation Program to include prescription drugs generally. The proposed amendments also define “donated prescription drug” and establish requirements for a person or a pharmacy to participate in the Prescription Drug Donation Program. (LCB File R007-22)

Dave Wuest provided background on public hearing item.

President Park opened the floor to public comment.

There was no public comment.

Board discussion ensued.

Board Action:

Motion: Krystal Freitas moved to adopt the proposed Amendment to Nevada Administrative Code (NAC) 453B. (LCB File R007-22)

Second: Wayne Mitchell

Action: Passed unanimously.

B. **Amendment to Nevada Administrative Code (NAC) 639**. The proposed amendments establish the process and qualifications for a person to obtain a certificate of registration as a dispensing technician in training and a dispensing technician. (LCB File R178-22)

Yenh Long provided background on public hearing item.

President Park opened the floor to public comment.

Liz McMenamin from the Retail Association of Nevada wanted clarification on if dispensing technicians will be undergoing background checks.

Ms. Long commented that dispensing technicians will not undergo background checks as it is not allowed under current law.

Board discussion ensued.

Krystal Freitas wanted clarification if dispensing technicians would need to apply for each location.

Ms. Long provided clarification that dispensing technicians would only need one license to work at different locations.

Board Action:

Motion: Rolf Zakariassen moved to adopt the proposed Amendment to Nevada Administrative Code (NAC) 639. (LCB File R178-22)

Second: Krystal Freitas

Action: Passed unanimously.

C. **Amendment to Nevada Administrative Code (NAC) 639**. The proposed amendment authorizes the operation of an automated drug dispensing system at sites of certain governmental agencies. (LCB File R179-22)

Dave Wuest provided background on public hearing item.

President Park opened the floor to public comment.

There was no public comment.

Board discussion ensued.

Board Action:

Motion: Wayne Mitchell moved to adopt the proposed Amendment to Nevada Administrative Code (NAC) 639. (LCB File R179-22)

Second: Rolf Zakariassen

Action: Passed unanimously.

D. **Amendment to Nevada Administrative Code (NAC) 639**. The proposed amendments authorize practitioners working in reproductive healthcare center to utilize an automated dispensing device located at the practice site to dispense reproductive health medications to their patients; establishes requirements that a reproductive healthcare center must follow when using such an automated drug dispensing system. (LCB File R180-22)

Dave Wuest and Brett Kandt provided background on public hearing item.

President Park opened the floor to public comment.

There was no public comment.

Board discussion ensued.

Board Action:

Motion: Wayne Mitchell moved to adopt the proposed Amendment to Nevada Administrative Code (NAC) 639. (LCB File R180-22)

Second: Krystal Freitas

Action: Passed unanimously.

◈ REGULAR AGENDA ◈

18. Request to Engage in the Practice of Pharmacy at a Site Other than a Licensed Pharmacy – Appearance **(FOR POSSIBLE ACTION)**

F. Bradley Rassuchine
G. Ean Tucker
H. Matthew Williams

President Park disclosed that she knows Ean Tucker through her previous employment at Roseman University but stated that she could participate in this matter fairly and without bias.

Bradley Rassuchine (Area Manager of Pharmacy and Admixture Services for Comprehensive Cancer Centers of Nevada), Matthew Williams (Pharmacy Operations Manager for Comprehensive Cancer Centers of Nevada), and Ean Tucker (Clinical Research Pharmacist for Comprehensive Cancer Centers of Nevada) appeared and were sworn in by President Park prior to answering questions and offering testimony.

Bridget Kelly appeared as counsel.

Dave Wuest provided background on the appearance and asked what services they provide outside of a licensed pharmacy.

Mr. Rassuchine, Mr. Tucket, and Mr. Williams answered questions to the Board's satisfaction.

Board discussion ensued.

Board Action:

Motion: Krystal Freitas moved to approve Bradley Rassuchine, Ean Tucker, and Matthew Williams request to engage in the practice of pharmacy at a site other than a licensed pharmacy.

Second: President Park

Action: Passed unanimously.

A. Quyen Nhu Doan
B. Michelle Hon
C. Maribeth Moran
D. Catherine Oswald
E. Kaylee Putney

President Park disclosed that she knows Quyen Nhu Doan, Michelle Hon, Catherine Oswald, and Kaylee Putney through her previous employment at Roseman but stated that she could participate in this matter fairly and without bias.

Quyen Nhu Doan (Assistant Professor at Roseman), Michelle Hon (Assistant Professor at Roseman), Catherine Oswald (Pharmacist and Associate Professor at Roseman), Maribeth Moran (Clinical Pharmacist and Adjunct Faculty at Roseman), and Kaylee Putney (Assistant Professor at Roseman) appeared and were sworn in by President Park prior to answering questions and offering testimony.

Dave Wuest provided background on the appearance.

The Board questioned everyone on the services that they intend to provide outside a licensed pharmacy.

Ms. Nhu Doan and Ms. Moran answered questions to the Board's satisfaction.

Board discussion ensued.

Board Action:

Motion: President Park moved to approve Quyen Nhu Doan, Michelle Hon, Catherine Oswald, Maribeth Moran, and Kaylee Putney request to engage in the practice of pharmacy at a site other than a licensed pharmacy.

Second: Krystal Freitas

Action: Passed unanimously.

16. Applications for Controlled Substance Registration (NRS 453.226) – Appearance **(FOR POSSIBLE ACTION)**

C. James Zubernis

James Zubernis appeared and was sworn in by President Park prior to answering questions and offering testimony.

Courtney Lee provided background on the appearance and the disclosure regarding the suspension and probation of his medical license in Pennsylvania due to improper prescribing of a controlled substance.

Mr. Zubernis provided background on his disclosure to the Board and the discipline taken against his medical license.

The Board questioned what he intends to do if they approve his application.

Mr. Zubernis answered questions to the Board's satisfaction.

Board discussion ensued.

Board Action:

Motion: Rolf Zakariassen moved to approve James Zubernis Controlled Substance Registration.

Second: Krystal Freitas

Action: Passed unanimously.

12. Applications for Pharmaceutical Technician Registration (NAC 639.240) – Appearance. (**FOR POSSIBLE ACTION)**

    A. Mayra Hernandez

Mayra Hernandez appeared and was sworn in by President Park prior to answering questions and offering testimony.

Yenh Long provided background on the appearance and the disclosure by the Texas Board of Pharmacy regarding Ms. Hernandez dispensing prescriptions without a pharmacist present.

Ms. Hernandez provided background on her disclosure.

Board discussion ensued.

Board Action:

Motion: Rolf Zakariassen moved to approve Mayra Hernandez Pharmaceutical Technician Registration.

Second: Krystal Freitas

Action: Passed unanimously.

14. Application for Pharmacist Registration by Reciprocation NRS 639.134) – Appearance (**FOR POSSIBLE ACTION**)

    A. Bart Anderson

Bart Anderson appeared and was sworn in by President Park prior to answering questions and offering testimony.

Courtney Lee provided background on the appearance and the disclosure regarding Mr. Anderson voluntarily surrendering his license with the Georgia Board of Pharmacy due to his addiction with controlled substances.

Mr. Anderson provided background on the disclosure.

Board discussion ensued.

Board Action:

Motion: Richard Tomasso moved to approve Bart Anderson's Pharmacist Registration by Reciprocation.

Second: President Park

Action: Passed unanimously.

B. Min Oh

Min Oh's application was withdrawn.

C. James Rotoli

James Rotoli appeared and was sworn in by President Park prior to answering questions and offering testimony.

Peter Keegan provided background on the appearance and the disclosure regarding Mr. Rotoli diverting drugs and action taken by the New Jersey Board of Pharmacy.

Mr. Rotoli provided background on the disclosure.

Board discussion ensued.

Board Action:

Motion: Richard Tomasso moved to approve James Rotoli's Pharmacist Registration by Reciprocation.

Second: Rolf Zakariassen

Action: Passed unanimously.

15. Application for Pharmacist Registration by Score Transfer NRS 639.134) – Appearance (**FOR POSSIBLE ACTION**)

Cesar Cabrera

No representative present on behalf of Cesar Cabrera.

This matter was continued to a future Board meeting.

16. Applications for Controlled Substance Registration (NRS 453.226) – Appearance **(FOR POSSIBLE ACTION)**

A. Kiarash Mirkia

Kiarash Mirkia appeared and was sworn in by President Park prior to answering questions and offering testimony.

Brett Kandt provided background on the appearance and the disclosures regarding a Settlement Agreement with the Nevada State Board of Medical Examiners and Stipulation and Order with the Nevada State Board of Pharmacy.

Dr. Mirkia provided background on the disclosures and current condition on his license.

Board discussion ensued.

Board Action:

Motion: Krystal Freitas moved to approve Controlled Substance Registration for Kiarash Mirkia with condition that he notify the Board of any arrest, citation, or investigation by any Board within three business days for a period of two years.

Second: Rolf Zakariassen

Action: Passed unanimously.

17. Application for Controlled Substance Registration Renewal (NRS 453.226) – Appearance (**FOR POSSIBLE ACTION**)

A. Irfan Mirza

Irfan Mirza appeared and was sworn in by President Park prior to answering questions and offering testimony.

Peter Keegan provided background on the appearance and the disclosure regarding Mr. Mirza failing to maintain adequate records on a patient and committing any conduct or practice that might be harmful to the patient.

Dr. Mirza provided background on the disclosure to the Board's satisfaction.

9. Application for Nevada Pharmacy License (NRS 639.230) – Appearance **(FOR POSSIBLE ACTION)**

A. Always Your Pharmacy LLC – Las Vegas, NV

Sandra Martin-Sanchez, Owner, and Joshua Jou, Managing Pharmacist, appeared and were sworn in by President Park prior to answering questions and offering testimony.

Joe Dodge, Nevada Board of Pharmacy Inspector, provided background on the appearance and questioned Mr. Jou on his experience as a pharmacist, the business model of the company, and the products that they will be selling.

Mr. Jou answered questions to the Board's satisfaction.

Board discussion ensued.

Board Action:

Motion: President Park moved to approve Nevada Pharmacy License for Always Your Pharmacy LLC pending positive inspection.

Second: Jade Jacobo

Action: Passed unanimously.

B. St. Mary Pharmacy – Las Vegas, NV

Sarah Mashreky, Managing Pharmacist, appeared and was sworn in by President Park prior to answering questions and offering testimony.

Joe Dodge provided background on the appearance and questioned Ms. Mashreky on her experience as a pharmacist, why she wants to start her own pharmacy, and the business model of the company.

Ms. Mashreky answered questions to the Board's satisfaction.

Board discussion ensued.

Board Action:

Motion: Krystal Freitas moved to approve change of ownership and name change for St. Mary Pharmacy.

Second: Rolf Zakariassen

Action: Passed unanimously.

10. Applications for Nevada Wholesaler License (NRS 639.233) – Appearance **(FOR POSSIBLE ACTION)**

B2B Delivery, LLC – Las Vegas, NV - Background checks completed in compliance with NRS 639.500.

Douglas Michael Green, Branch and Corporate Sales Manager, appeared and was sworn in by President Park prior to answering questions and offering testimony.

Peter Keegan provided background on appearance and the disclosures regarding lawsuits for payment issues.

The Board questioned on if the lawsuits have been resolved, their business model, who does the training after they ship out the products, and clarification on page 2453 of the Board Book regarding top suppliers.

Mr. Green answered questions to the Board's satisfaction.

Board discussion ensued.

Board Action:

Motion: Rolf Zakariassen moved to approve Nevada Wholesaler License for B2B Delivery, LLC.

Second: Wayne Mitchell

Action: Passed unanimously.

23. Executive Secretary Report:

Dave Wuest provided an updated regarding Pharmaceutical Technician Renewals and an update regarding an issue with a question on NABP's NAPLEX exam.

Board discussion ensued.

11. Applications for Out-of-State Wholesaler License (NRS 639.233) – Appearance (**FOR POSSIBLE ACTION**)

    A. Maquet Cardiovascular, LLC – Wayne, NJ – Background Check Not Required – Manufacturer (NAC 639.593(7)(d))

Chad Carlton (President at Atrium Medical Corporation & Vice President at Maquet Cardiovascular), Pierre Kernizan (Senior Quality Engineer Manager at Maquet Cardiovascular), Stephanie Trizinski (Vice President at Maquet Cardiovascular - Cardiac Surgery), Helder Sousa (Director of Regulatory Affairs at Atrium Medical Corporation), Susan Hudson (Senior Director of Regulatory Affairs at Maquet Cardiovascular), Shawn Hunsaker (Senior Vice President for Global Quality Operations at Getinge), and Robert Guzman (Senior Director for Regulatory Counsel at Getinge) appeared and were sworn in by President Park prior to answering questions and offering testimony.

Peter Keegan provided background on the appearance and the disclosures regarding a lawsuit for adulterated medical devices in violation with the Food, Drug, and Cosmetic Act and failing to comply with reporting requirements.

Mr. Hunsaker provided background on the disclosure.

Board discussion ensued.

Board Action:

Motion: President Park moved to approve Nevada Wholesaler License for B2B Delivery, LLC.

Second: Krystal Freitas

Action: Passed unanimously.

B. Optime Care, Inc. – Earth City, MO – Background Check Not Required - VAWD-Accredited (NAC 639.593(7)(c))

Brandon Salke, General Manager, appeared and was sworn in by President Park prior to answering questions and offering testimony.

Peter Keegan provided background on appearance and the disclosure regarding Optime Care dispensing medications prior to obtaining a Michigan Pharmacy License.

Mr. Keegan requested a Letter of Authorization for Mr. Salke to speak on behalf of Optime Care, Inc.

Mr. Salke clarified that a change of President occurred, and a letter was sent to the Nevada Board of Pharmacy. However, he will work to get that Letter of Authorization send to Board staff.

The Board questioned Mr. Salke on the change of ownership and if there have been any business changes.

Mr. Salke answered questions to the Board's satisfaction.

Mr. Keegan is concerned that the application does not have the updated officers, updated personal history application, and is concerned about the employee list which only has one person listed.

The Board tabled the application pending receipt of additional information.

13. Applications for Pharmaceutical Technician in Training Registration (NAC 639.242) – Appearance. (**FOR POSSIBLE ACTION)**

    Danniel Garibay

No representative was present on behalf of Danniel Garibay.

This matter was continued to a future Board meeting.

17. Application for Controlled Substance Registration Renewal (NRS 453.226) – Appearance (**FOR POSSIBLE ACTION**)

    B. Anjmun Sharma

Anjmun Sharma appeared and was sworn in by President Park prior to answering questions and offering testimony.

Yenh Long provided background on the appearance regarding a disclosure from the Colorado Medical Board.

Mr. Sharma provided background on his disclosure regarding prescribing medical marijuana and not properly documenting his patients. Therefore, Colorado Medical Board took action where he entered a Stipulation and Order with the Board.

Board discussion ensued.

Mr. Sharma answered questions to the Board's satisfaction.

9. Application for Nevada Pharmacy License (NRS 639.230) – Appearance **(FOR POSSIBLE ACTION)**

    C. Trinity Express Pharmacy – Las Vegas, NV

No representative was present on behalf of Trinity Express Pharmacy.

This matter was continued to a future Board meeting.

19. Discussion and possible action on approval of Asher College as a program of training for pharmaceutical technicians pursuant to NAC 639.256. **(FOR POSSIBLE ACTION)**

Kat Johnson, Director of Compliance at Asher College, appeared and was sworn in by President Park prior to answering questions and offering testimony.

Dave Wuest provided background on the appearance.

The Board questioned on the business model of Asher College.

Ms. Johnson answered questions to the Board's satisfaction.

Board discussion ensued.

Board Action:

Motion: President Park moved to approve Asher College as a program of training for pharmaceutical technicians.

Second: Rolf Zakariassen

Action: Passed unanimously.

11. Applications for Out-of-State Wholesaler License (NRS 639.233) – Appearance (**FOR POSSIBLE ACTION**)

    C. Optime Care, Inc. – Earth City, MO – Background Check Not Required - VAWD-Accredited (NAC 639.593(7)(c))

President Park returned to agenda item for Optime Care, Inc.

Mr. Keegan questioned Mr. Salke on if there are any changes to the Shareholders, Officers, and Director's list provided to Board staff.

Mr. Salke confirmed that the list will remain the same, and the employee list was incorrect. They will provide an updated employee list after the meeting.

Mr. Keegan provided background on the disclosures for Mark Zilner, Partial Owner of Optime Care, which are not directly related to the business.

Board discussion ensued.

Board Action:

Motion: Rolf Zakariassen moved to approve Out-of-State Wholesaler License for Optime Care, Inc pending Letter of Authorization and updated employee list.

Second: Wayne Mitchell

Action: Passed unanimously.

December 8, 2022

BOARD MEETING

Pursuant to NRS 241.023(1)(c) the meeting is being conducted by means of remote technology. The public may attend the meeting via live stream remotely at:

Via Videoconference at Zoom: https://zoom.us/j/5886256671
or
Via Teleconference at 1 (669) 900-6833
Meeting ID: 588 625 6671

Board Members Present:

Helen Park	Jade Jacobo	Krystal Freitas	Gener Tejero
Wayne Mitchell	Rolf Zakariassen	Richard Tomasso	

Board Staff Present:

Dave Wuest	Yenh Long	Shirley Hunting	Kristopher Mangosing
Brett Kandt	Peter Keegan	Darlene Nases	Courtney Lee
Joe Dodge			

President Park read the mission statement of the Nevada State Board of Pharmacy to reiterate the Board's duty to carry out and enforce the provisions of Nevada Law to protect the health, safety, and welfare of the public.

Dave Wuest stated that this Board Meeting is being held over Zoom and is in compliance with the Governor's directive and Open Meeting Laws for Nevada.

1. Call to Order and Roll Call – Establishment of Quorum

President Park performed the roll call. All Board members were present and a quorum was established.

◈ PUBLIC HEARING ◈

Thursday December 8, 2022 – 1:00 pm

3. **Amendment of Nevada Administrative Code (NAC) 639.** The proposed amendments establish the requirements and locations for a pharmacist to engage is the practice of pharmacy at a site other than a licensed pharmacy. (LCB File R164-20)

Dave Wuest, Executive Secretary for the Nevada Board of Pharmacy, provided background and presented two proposed versions. Draft one is LCB's proposed changes and the second draft is LCB's proposed changes along with Board staff's additional amendments.

President Park opened the floor to public comment.

Lauren Paul from CVS Health supports the allowance of pharmacists to engage in the practice of pharmacy at a site other than a licensed pharmacy. Ms. Paul submitted written public comment to the Board with proposed language changes for their consideration. She requested the Board consider removing the restriction on a pharmacist who serves as a managing pharmacist or who provides pharmaceutical services at the listed facilities (b)(1-5) from engaging in the practice of pharmacy at a site other than a licensed pharmacy, and she requested the Board to remove specific data elements listed in (a-g) from the requirement of the computerized system and access to data that a pharmacist practicing at a location other than a licensed pharmacy. The data elements listed are not encompassing to all practice settings and would prohibit pharmacists from practicing remotely.

Ken Kunke from the Nevada Pharmacy Alliance commented that the current language excludes clinical pharmacist to engage in the practice of pharmacy at a site other than a licensed pharmacy. However, he supports the proposed language as written but request that the Board consider a future amendment for pharmacist who work in a clinical setting which requires an appearance before the Board for approval to work outside of a pharmacy.

Maribeth Moran, Pharmacist, supports Mr. Kunke's comments. She is a clinical pharmacist and was required to appear before the Board for approval to work outside a pharmacy. She stated that requirements to appear before the Board for each location can delay patient care.

Liz McMenamin from the Retail Association of Nevada supports the allowance of pharmacist to engage in the practice of pharmacy at a site other than a licensed pharmacy. Ms. McMenamin stated that she agrees with comments provided by Ms. Lauren Paul.

Michelle Hon, Pharmacist, supports the removal of the requirement to appear multiple times for the Board's approval to practice at a site other than a licensed pharmacy for each practice setting.

Brett Kandt, General Counsel for the Nevada Board of Pharmacy, commented that LCB's draft and the additional amendments will be up to LCB to accept any or all the changes. If LCB finds substantive changes, this public hearing item may need to go on a future Board meeting as another public hearing.

Jade Jacobo wanted clarification about the language regarding the restrictions on if they are a managing pharmacist.

Dave Wuest answered Ms. Jacobo's question.

President Park re-opened the floor to public comment regarding the restrictions on if their a managing pharmacist.

Ken Kunke is speaking on behalf of himself and commented that a Managing Pharmacist works 40 hours a week but can-do remote verification from home to get that site caught up. In addition, he requests that this regulation include clinical pharmacists.

Jade Jacobo addressed Ms. Kaylynn Bowman's written comment. She has never come across a situation where the Board has denied someone to engage in the practice of pharmacy outside of a licensed pharmacy. She suggests that Board staff approve the request instead and if unsure about the practice that they would need to appear before the Board.

President Park suggested proceeding with the current language as proposed and can amend the language in the future.

Board discussion ensued.

Board Action:

Motion: Jade Jacobo moved to adopt proposed Amendment of Nevada Administrative Code (NAC) 639. (LCB File R164-20)

Second: Zakariassen

Brett Kandt commented that Ms. Jacobo needs to be clear on what draft that she is approving.

Jade Jacobo withdrew her motion.

Board Action:

Motion: Jade Jacobo moved to adopt proposed Amendment of Nevada Administrative Code (NAC) 639 with LCB's proposed changes along with Board staff's additional amendments. (LCB File R164-20)

Second: Zakariassen

Action: Passed unanimously.

4. Public Comment December 8, 2022, 2:00 PM

Liz McMenamin commented that she is thankful for the Board for working on this language and hopes pharmacies work like how they did during the pandemic.

Dave Wuest thanked the Board members for their service to the State.

President Park provided the date and location of the next scheduled Board meeting – January 11-12, 2023 – Las Vegas, NV.

5. Adjournment

59A-25.006 Emergency Management Planning

59A-25.001 Definitions.

In addition to definitions contained in Chapters 400, Part VII, and 408, Part II, F.S., the following terms shall apply to this rule chapter:

(1) "AHCA" means Agency for Health Care Administration.

(2) "Central Service Center" means the licensed premises that are in charge of taking consumer orders, dispatching the orders to licensed distribution centers owned and operated by the same licensee that provide home medical equipment services, and maintaining consumer and personnel records. The central service center is responsible for the operation of its designated distribution centers.

(3) "Distribution centers" means those licensed premises that are not located at the address of the central service center but are owned and operated by the same licensee, receive orders from the central service center and are utilized to provide home medical equipment services.

(4) "HME" means home medical equipment.

Rulemaking Authority 400.935, 408.819 FS. Law Implemented 400.935, 408.804 FS. History–New 6-4-00, Amended 10-6-02, 3-13-07, 5-4-15.

59A-25.002 Licensure Requirements.

(1) Home medical equipment locations requiring a license are any locations that sell, rent, or distribute, or offer to sell or rent to or for a consumer any home medical equipment that requires services. These locations can be identified as follows:

(a) Any location providing or distributing home medical equipment requiring services to consumers in Florida;

(b) Any location where an intake person takes calls from consumers in Florida and offers to sell or rent home medical equipment requiring services;

(c) Any location where a consumer in Florida may call in response to a provider advertising to sell or rent home medical equipment requiring services, e.g., television advertisements, toll-free telephone numbers, phone books, newspapers, flyers or any other forms of public advertisement;

(d) Any location out of state that offers to sell or rent home medical equipment requiring services to consumers in Florida;

(e) Any location in state or out of state, with sales representatives working in Florida, that offers to sell or rent home medical equipment requiring services to consumers in Florida, i.e., the sales representatives themselves do not need to be licensed; and,

(f) Any buildings, that are not located at the licensed central service center address, called shops, warehouses, distribution centers, or called by any other name, are required to have a license if that site location provides selection (via telephone, showroom or sales representative), delivery, set up, consumer instruction or maintenance of equipment to consumers in Florida.

1. A central service center must provide the names and locations of all of its designated distribution centers on the licensure application.

2. A distribution center must submit a separate licensure application and must specify the name of its central service center on the application.

3. Each licensed distribution center is required to meet all standards for licensure but may be determined to meet the standards through the activities of its designated central service center as referenced in paragraph 59A-25.005(1)(b), F.A.C.

(2) Home medical equipment locations that do not require a license: Diabetic monitors and disposable supplies, e.g., diabetic, ostomy, urological and wound care supplies have been identified as equipment and supplies that do not require services as defined in Section 400.925(9), F.S.; therefore, locations that supply these items only will not require a HME license.

(3) Licensing application and fees:

An application for initial, change of ownership and renewal licensure must be made on the Health Care Licensing Application, Home Medical Equipment Provider, AHCA Form 3110-1005, October 2014, incorporated by reference and available at https://www.flrules.org/Gateway/reference.asp?No=Ref-05267, and the Health Care Licensing Application Addendum prescribed in subsection 59A-35.060(1), F.A.C. These forms are available online at http://ahca.myflorida.com/HQAlicensureforms. An application for initial, change of ownership and renewal licensure must be accompanied by a non-refundable $304.50 biennial licensing fee and, if required, a $400 inspection fee per location. Businesses with a central service center having distribution centers are required to submit an application and a $304.50 biennial licensing fee for each location, but shall submit only one $400 inspection fee with the application of the central service center.

(4) Initial and change of ownership applicants must submit proof of financial ability to operate pursuant to Sections 408.8065(1) and 408.810(8), F.S., and Rule 59A-35.062, F.A.C. for each location to be licensed

(5) Each licensed HME provider location must obtain and maintain professional and commercial liability insurance as referenced in Sections 400.931(3) and 408.810(7), F.S. A corporation can provide a blanket policy, which indicates that each of its licensed locations is insured under one policy, verifying not less than $250,000 per claim for each location.

(6) Initial applicants and providers requesting to change the address of record must provide proof of compliance with local zoning requirements. Physical location cannot be a post office box. The licensee must have all county licenses and permits that are applicable.

(7) If a change of name and/or address of record is to occur, the provider must submit Home Medical Equipment Provider, Request to Amend License for Change of Name and/or Address, AHCA Form 3110-1020, October 2014, https://www.flrules.org/Gateway/reference.asp?No=Ref-05268, incorporated by reference, and available online at http://ahca.myflorida.com/HQAlicensureforms, according to the timeframes as required in subsection 59A-35.040(2), F.A.C., and accompanied by a fee as required in subsection 59A-35.050(4), F.A.C.

Rulemaking Authority 400.935, 408.805, 408.810(8), 408.819 FS. Law Implemented 400.925, 400.93, 400.931, 400.933, 400.935, 400.953, 408.803, 408.806, 408.8065, 408.807, 408.809, 408.810, 408.815 FS. History–New 6-4-00, Amended 10-6-02, 4-13-03, 3-13-07, 5-4-15.

59A-25.003 Scope of Services.

(1) Minimum standards: Each home medical equipment provider must:

(a) Have a visible sign with the name of the business, business hours, and a phone number where the business can be contacted during business hours.

(b) Maintain personnel records that must include the following: employment history for the past 5 years, proof of background screening including a signed copy of the good moral character form and a license of any professional that may work from that location. A distribution center will not be required to maintain personnel records but its central service center shall be responsible for maintaining personnel records.

(c) Provide management and consumer instruction regarding the use of home medical equipment requiring services, as referenced in Section 400.925(11), F.S. Delivery services include transportation of equipment and supplies to and from consumer homes, equipment setup, and record keeping.

(d) Coordinate services with another provider in the event the HME cannot ensure the provision of equipment and services as required in Section 400.935(7), F.S.

(e) Be ultimately responsible for the management of all equipment and services even if a contractor is involved.

(f) Honor all express warranties regarding assistive technology devices. The duration of the express warranty must be at least one year after first delivery of the assistive technology device to the consumer as required in Section 427.803, F.S.

(g) Honor all warranties as required in Section 400.934(9), F.S., and warranty used equipment at least 30 days.

(h) Provide the consumer with user instructions as required in Section 400.934(13), F.S.

(i) Be able to demonstrate the safety and infection control measures that follow:

1. Procedures that identify safety precautions to be followed in the handling and use of each type of equipment and its related supplies;

2. Equipment is routinely inspected for safety and stability prior to delivery;

3. The electrical adequacy and safety of a home is assessed prior to placing any electrical or electronic equipment, and instructions are provided to consumers regarding applicable precautions and safety measures;

4. Compliance with bedding and mattress reuse regulations;

5. Specific cleaning or sanitizing requirements between usage for each type of equipment according to the manufacturers' guidelines;

6. Storage of unclean equipment separate from clean equipment;

7. Transportation of unclean equipment separate from clean equipment;

8. Storage of equipment to prevent dust accumulation, water damage, and vermin contact; and,

9. Equipment is safely maintained and installed based upon the manufacturers' instructions.

(2) Home medical equipment includes oxygen and related respiratory equipment, customized wheelchairs and related seating and positioning as referenced in Section 400.925(8), F.S. In addition to the home medical equipment referenced in Section 400.925(8), F.S., other examples of equipment requiring services include the following:

(a) All equipment defined in Section 400.925(13), F.S., as life-supporting or life-sustaining equipment, which includes suctioning equipment.

(b) Continuous positive airway pressure machines, all electrostimulation equipment such as bone, muscle and transcutaneous electrical nerve stimulators, hospital beds, intermittent positive pressure breathing machines, motorized scooters, nebulizers, passive motion devices, patient lifts, phototherapy (billirubin) light with photometer, pressure ulcer care equipment, specialty prescribed cribs (child safety), trapeze equipment, ventilator equipment (that is non-life supporting), wheelchairs, and walkers. All of the equipment referenced here in paragraph (b), including the custom wheelchairs and seating as referenced in Section 400.925(8), F.S., is considered non-life supporting equipment.

(3) Minimum service standards required for equipment are as follows:

(a) Services for all home medical equipment must be based upon the current recommended manufacturers' standards.

(b) The provider must prioritize consumer service needs based upon the urgency of the situation. Any equipment utilized to provide a therapy treatment, as prescribed by the consumer's physician, shall require urgent attention. Also, any equipment in general that is completely non-functional shall be serviced with urgency. Any equipment that is functional, but needs minor repair may be serviced in a less urgent time frame. All service requests must be responded to in a timely manner that satisfies the consumer's needs.

(c) Service must be provided for life-supporting or life-sustaining equipment 24 hours, 7 days per week. Emergency service requests, as referenced in Section 400.934(8), F.S., must be responded to with a telephone call, within 30 minutes and back up service provided at the consumer's home within two hours or less due to equipment failure or power outages. Providers must offer assistance regarding registration with emergency management services for consumers who use life-supporting or life-sustaining equipment.

(d) Services may be provided for non-life supporting or life-sustaining equipment during regular business hours. Requests for consumer instruction or any needed repair shall be responded to by telephone within the same working day. The consumer may bring to the provider's place of business any small equipment item requiring consumer instruction or repair.

(e) Life-support or life-sustaining equipment and related supplies must be provided to the consumer in the home environment based on initial and periodic reassessments of the consumer's equipment needs. Life supporting or life sustaining equipment shall be provided based upon physician orders including any physician order for medically necessary back-up equipment and supplies.

(4) Consumer records:

(a) A record must be maintained for each consumer that documents the home medical equipment and any services received as required in Section 400.94(1), F.S.

(b) Consumer information may not be disclosed from the consumer's file without the written consent of the consumer, the consumer's guardian or the consumer's power of attorney. All information received by any employee, contractor or AHCA employee regarding a consumer of the HME is confidential.

(c) Consumer records must be made available to AHCA representatives when an inspection or a complaint investigation is done.

(d) Retained records can be stored as hard paper copy, microfilm, computer discs or tapes as long as they are retrievable for use during unannounced inspections or complaint investigations.

(5) Contracts: Services provided by contract for consumers must be through a written agreement between the provider and the business providing any equipment and services for a consumer, herein referred to as the contractor. Contracts must be retained for a minimum of 5 years. The contract must include the following at a minimum:

(a) A description of any of the equipment or services to be provided by the contractor;

(b) Designation if the HME provider or the contractor is responsible for monitoring the equipment and services provided by the

contractor;

(c) Charges for any contracted equipment and services and designation of who will be billing the consumer, the HME provider or the contractor;

(d) Responsibility of the HME provider to retain and maintain all records of consumers served by a contractor;

(e) Evidence that the contractor has professional and commercial liability insurance coverage (the licensee is responsible for making sure that the contractor has liability insurance);

(f) Period of the contract between the HME provider and the contractor;

(g) Procedures for reporting service and maintenance notes and any clinical or progress notes by the contractor to the HME provider;

(h) Date and signatures of all parties, and,

(i) Contracts must be retained for a minimum of five years.

Rulemaking Authority 400.935 FS. Law Implemented Chapter 400, Part VII, 400.92-.957 FS. History–New 6-4-00, Amended 10-6-02, 3-13-07.

59A-25.004 Minimum Qualifications for Personnel.

The provider must be in compliance with and make available to AHCA surveyors the information referenced in this section.

(1) General Manager, as defined in Section 400.925(7), F.S.:

(a) Qualifications: A minimum of two years experience in business management or a college degree in business or a health care related field can substitute for the required experience year for year.

(b) Duties: The general manager is responsible for the following areas either directly or by clear delegation in writing:

1. Assuring the maintenance of consumer records including equipment repair and maintenance records as referenced in Section 400.94, F.S.;

2. Maintain job descriptions of staff;

3. Assuring trained and qualified staff essential to the services provided as referenced in Sections 400.934(4), (5), (15), F.S.;

4. Keeping program personnel up to date with health care information and practices;

5. Directing staff in performance of their duties;

6. Assuring that staff can accommodate consumer's language;

7. Assuring an adequate inventory of equipment and supplies to provide consumers currently being served;

8. Assuring that policies are developed and implemented as required in state law and rule;

9. Maintaining and updating procedure manuals related to business functions;

10. Maintain customer service complaint records containing the specifics related to the complaint and how the complaint was resolved as referenced in Sections 400.934(8) and (10), F.S.;

11. Evaluating services, and personnel;

12. Establishing and maintaining effective channels of communication;

13. Maintaining training manuals and records verifying all training that personnel has received or is scheduled to receive thus assuring staff development including orientation, in-service education, and continuing education; and,

14. Assuring adequate staff supervision during all service hours.

(2) Licensed health care professionals, such as respiratory therapists, certified respiratory therapy technicians, registered nurses, and licensed practical nurses that may be on staff or contracted with as needed for service provision:

(a) Qualifications: Current professional license(s);

(b) Training: Clinical staff must have required experience or training relative to the specific service they are providing; and,

(c) Duties: Provider policies must clearly identify that the respective duties of each type of clinical professional worker are within the scope of the described clinical responsibilities.

(3) Delivery personnel:

(a) Qualifications: A driver's license as required by law for the vehicle being driven and the physical capacity to handle the equipment assigned. Delivery persons must be able to accommodate the consumer's language and have the ability to work without continuous direct supervision;

(b) Training: Delivery and equipment service staff shall have successfully completed a documented training program covering all components of their assigned jobs including training for each type of equipment they are responsible for delivering; and,

(c) Duties: Delivery personnel are responsible for providing safe and clean transport of equipment and supplies to and from

consumer homes, setting up equipment safely, and record keeping of the equipment delivered. They must provide in writing to the consumer a telephone number for use during business hours and an emergency number for after business hours when life supporting or life sustaining equipment is provided.

(4) Maintenance personnel:

(a) Qualifications: The ability to maintain and coordinate the repair of all equipment and to work without continuous direct supervision;

(b) Training: Attend any training required by the manufacturer regarding equipment maintenance; and,

(c) Duties: Coordinate maintenance of equipment, complete and sign maintenance logs that verify equipment has been maintained and repaired as required by manufacturer standards.

Rulemaking Authority 400.935 FS. Law Implemented Chapter 400, Part VII, 400.92-.957 FS. History–New 6-4-00, Amended 10-6-02, 3-13-07.

59A-25.005 Compliance.

(1) The survey or inspection:

(a) Except as described in paragraphs (b) and (c), each separately licensed home medical equipment provider location must be in compliance with and shall be surveyed in accordance with Chapters 400 Part VII, and 408, Part II, F.S., Chapter 59A-35, F.A.C. and these rules.

(b) If a provider is operating with a central service center that has one or more distribution centers, the central service center shall be the premises where the survey will be initiated. A surveyor will inspect at least one of the distribution centers associated with the central service center. The distribution center will be held accountable for equipment and services provided but will not be responsible for maintaining patient or personnel records.

(c) All providers must have available, at the time of survey, at least one category of equipment that is provided directly, filling orders from its own inventory as referenced in Section 400.934(2), F.S. Failure to have, at the time of survey, at least one category of equipment that is provided directly will result in the provider's application being denied or the provider's license being revoked. A licensed central service center may be determined to meet this standard through the inventory available at its designated distribution center.

(2) AHCA will conduct investigations of complaints regarding violations of licensure requirements. Complaint investigations will be unannounced. Distribution centers will be allowed forty-eight hours to obtain patient or personnel records from its central service center and to submit the records to the area office when related to a complaint investigation.

(3) Adverse action: Denial, Suspension, Revocation, and Administrative Fines.

(a) AHCA shall deny, suspend or revoke an application for license, or impose a fine for the reasons in Section 400.932, Part II of Chapter 408, F.S., Chapter 59A-35, F.A.C., and for the following reasons:

(a) If the provider fails to submit an application for a change of ownership within the time frames specified in Sections 408.806 and 408.807, F.S., a $50 fine per day, not to exceed 50% percent of the licensure fee, shall be levied. If the application is received after the required filing date and, exhibits a hand-canceled postmark from a United States Post Office dated on or before the required filing date, no fine will be levied;

(b) If the provider is cited for a Class I violation as defined in Section 408.813(2)(a), F.S., the agency shall impose an administrative fine in the amount of $5,000 for each occurrence and each day that the deficiency exists. In addition, the agency shall immediately revoke the license, deny the renewal of a license or impose a moratorium on accepting new consumers until the factors causing the deficiency have been corrected;

(c) If the provider is cited for a Class II violation as defined in Section 408.813(2)(b), F.S., the agency shall impose an administrative fine in the amount of $1,000 for each occurrence and each day that the deficiency exists. In addition the agency shall revoke the license, deny the renewal of a license or impose a moratorium of new consumers until the deficiency has been corrected;

(d) If the provider is cited for a Class III violation as defined in Section 408.813(2)(c), F.S., the agency shall impose an administrative fine not to exceed $500 for each occurrence and each day that the uncorrected or repeated deficiency exists;

(e) If the provider is cited for a Class IV violation as defined in Section 408.813(2)(d), F.S., the agency shall impose an administrative fine not to exceed $200 for each occurrence and each day that the uncorrected or repeated deficiency exists;

(f) If the provider is not available for inspection during the office hours indicated on its licensure application, AHCA shall deny an initial, renewal or change of ownership application or impose a $500 fine upon a licensed provider;

(g) If the central service center's license is revoked, the revocation includes the licenses of all distribution centers;

(h) Failure of a provider to provide records to AHCA during an inspection shall result in a $500 fine; and,

(i) Failure of a distribution center to provide records to AHCA within forty-eight hours shall result in a $500 fine.

Rulemaking Authority 400.935, 408.819 FS. Law Implemented 400.932, 400.933, 400.934, 400.935, 408.806, 408.807, 408.811, 408.812, 408.813, 408.815 FS. History–New 6-4-00, Amended 10-6-02, 3-13-07, 5-4-15.

59A-25.006 Emergency Management Planning.

(1) Pursuant to Section 400.934(20)(a), F.S., each home medical equipment provider must prepare and maintain a written comprehensive emergency management plan, that meets the minimum criteria in these rules and the Comprehensive Emergency Management Plan (CEMP) Format for Home Medical Equipment (HME) Providers, AHCA Form 3110-1019, December 2006, incorporated by reference. This document is available from the Agency for Health Care Administration at http://ahca.myflorida.com under Licensing & Certification, Home Medical Equipment Provider. The CEMP Format contains the minimum criteria that must be included in each home medical equipment provider emergency management plan, as required in Section 400.934(20), F.S. The plan must describe how the home medical equipment provider establishes and maintains an effective response to emergencies and disasters. The completed plan will be e-mailed or mailed to the local county health department for each county listed on the home medical equipment provider's license as required in Section 400.934(20)(b), F.S., unless the county health department does not require submission of home medical equipment provider emergency management plans per Section 381.0303(7), F.S.

(2) The home medical equipment provider must review its emergency management plan on an annual basis, make any substantive changes and inform their staff of those changes. For the purposes of this section, 'substantive changes' would include, but not be limited to, change of address, change of administrative staff who are responsible for coordinating the home medical equipment provider's emergency response or their contact telephone numbers and change of type of equipment or equipment services provided.

(3) The substantive changes as defined in subsection 59A-25.006(2), F.A.C., must be reported to the county emergency management office and to the county health department. For home medical equipment providers with multiple counties on their license, the changes must be reported to each county health department and each county emergency management office designated on the license. The telephone numbers must include numbers where the coordinating staff can be contacted outside of the home medical equipment provider's regular office hours. All home medical equipment providers must report these changes, whether their plan has been previously reviewed or not, as defined in subsection (1).

(4) When a home medical equipment provider goes through a change of ownership, the new owner must review the emergency management plan and make any substantive changes, including changes noted in subsection (3). Those home medical equipment providers will need to report any substantive changes in their plans to the reviewing entity in subsection (1).

(5) In the event of an emergency, the home medical equipment provider must implement the emergency management plan pursuant to Section 400.934(20), F.S.

(6) Home medical equipment providers must assist consumers receiving HME services who would need assistance and sheltering during evacuations because of physical, mental, cognitive impairment, or sensory disabilities in registering with the local emergency management agency, as required in Section 252.355(1), F.S., and as determined by the established procedures of the local emergency management agency related to special needs registration.

(a) Each home medical equipment provider must, pursuant to Sections 400.934 and 252.355, F.S., inform consumers and consumer caregivers, by the best method possible as it pertains to the person's disability, of the special needs registry and procedures for registration at the special needs registry maintained by their county emergency management office.

(b) If the consumer is to be registered with the special needs registry, the home medical equipment provider must assist the consumer with registering, pursuant to Sections 400.934 and 252.355, F.S., and the established procedures of the local emergency management agency. The home medical equipment provider must document in the consumer's file if the consumer plans to evacuate or remain at home and if the consumer's caregiver or family can take responsibility during the emergency for equipment services normally provided by HME staff or independent contractors referred by the home medical equipment provider or if the home medical equipment provider needs to make referrals in order for equipment services to continue. If the consumer is also receiving services through any other licensed health care provider or federal or state funded program designated in Section 252.355, F.S., to help clients register with the special needs registry, then the home medical equipment provider will check with the other service provider or program case manager to verify if the consumer has already been registered. If so, a note will be made in the consumer's file by the home medical equipment provider that the consumer's need for registration has already been reviewed and handled by the

other provider or program. Home medical equipment providers are not required to assist consumers residing in skilled nursing facilities, assisted living facilities or adult family care homes with special needs registration as those licensed facilities are responsible for evacuation and alternative sheltering of their clients.

(c) The collected registration information must be furnished to the county emergency management agency pursuant to Section 400.934, F.S., and as determined by the established procedures of the local emergency management agency related to special needs registration.

(7) The home medical equipment provider must provide the same type and quantity of equipment services to its consumers, which must include those being served in assisted living facilities and adult family care homes, who evacuate to special needs shelters which were being provided prior to evacuation, pursuant to Section 400.934(20)(a), F.S. Home medical equipment providers are not required to continue to provide services to consumers in emergency situations that are beyond their control and that make it impossible to provide services, such as when roads are impassable or when consumers do not go to the location specified in their consumer records.

(8) If the home medical equipment provider is unable to provide equipment services to consumers who are special needs registry patients, including any assisted living facility and adult family care home special needs registry patients, then the provider will make reasonable efforts to find another resource for the consumer, pursuant to Section 400.934(20)(a), F.S. This would include arranging for services for consumers who have been forced to relocate outside of the geographic service area of the home medical equipment provider.

(9) During emergency situations, when there is not a mandatory evacuation order issued by the local county emergency management office, some consumers, registered pursuant to Section 252.355, F.S., may decide not to evacuate and will stay in their homes. The home medical equipment provider must establish procedures, prior to the time of an emergency, which will delineate to what extent the provider will continue to arrange for essential equipment services during and immediately following an emergency pursuant to Section 400.934(20)(a), F.S.

Rulemaking Authority 400.925, 400.934, 400.935 FS. Law Implemented 400.925, 400.934, 400.935 FS. History–New 3-13-07.

NEVADA STATE BOARD OF PHARMACY

985 Damonte Ranch Parkway, Suite 206 – Reno, NV 89521 – 775-850-1440

Medical Products Provider and Wholesaler – Medical Devices, Equipment and Gases (MDEG) Administrator Application

Rev (06/21/2022)

NAC 639.694

1. **Each medical products provider or medical products wholesaler shall employ an administrator at all times. The administrator must:**
   a. Be a natural person;
   b. Have a high school diploma or its equivalent;
   c. Have:
      i. At least 1,500 hours of verifiable work experience relating to the products provided by the medical products provider or medical products wholesaler; or
      ii. An associate's degree or higher degree from an accredited college or university in a field of study that is directly related to patient health care;
   d. Be employed by the medical products provider or medical products wholesaler at the place of business or facility of the employer at least 40 hours per week or during all regular business hours if the business or facility is regularly open less than 40 hours per week; and
   e. Be approved by the Board.
2. The administrator shall ensure that the operation of the business or facility complies with all applicable federal, state and local laws, regulations and rules.
3. A medical products provider or medical products wholesaler shall notify the staff of the Board of the cessation of employment of an administrator within 3 business days after the cessation of the employment. A medical products provider or medical products wholesaler shall notify the staff of the Board of the employment of a new administrator within 3 business days after the beginning of the employment.
4. A medical products provider or medical products wholesaler may not operate for more than 10 business days without an administrator. The Board may summarily suspend the operation of a business or facility that operates without an administrator.

NAC 639.6946

1. Except as otherwise provided in NAC 639.6945, a medical products provider shall:
   a. Provide services for all medical products sold, leased or otherwise provided by the medical products provider, including, without limitation, set up, repair and maintenance.
   b. Employ an administrator and other employees sufficient to provide the services described in paragraph (a).

NAC 639.6957

1. A medical products wholesaler shall:
   a. Employ a facility administrator and other employees sufficient to operate, set up, repair, maintain and service all medical products sold, leased or otherwise provided by the medical products wholesaler.

Please mail this completed application and all other required documents with your MDEG and/or Wholesaler Application to the address indicated above.

I, MICHAEL MASCIARELLA **, certify that as the MDEG Administrator for**

EDEN MEDICAL SUPPLY LLC ,

that I (initial that you have read and meet the following requirements):

1. MM Have a high school diploma or its equivalent;
2. MM Have
   a. At least 1,500 hours of verifiable work experience relating to the products provided by the medical products provider or medical products wholesaler; or
   b. An associate's degree or higher degree from an accredited college or university in a field of study that is directly related to patient health care;
3. MM Will be employed by the medical products provider or medical products wholesaler at the place of business or facility of the employer at least 40 hours per week or during all regular business hours if the business or facility is regularly open less than 40 hours per week; and
4. MM Will ensure that the operation of the business or facility complies with all applicable federal, state and local laws, regulations and rules.

I certify under penalty of perjury that the information contained in this application is accurate, true and complete in all material respects. I understand that making any false representation in this application is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire application and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event this application is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

Medical Products Provider- Medical Devices, Equipment and Gases (MDEG) Application

Non-Refundable $500 fee

Rev (05/12/2022)

Where is the facility located?	☐ Nevada	■ Out-of-State
[a]Is the business also a wholesaler? (NRS 639.016)	☐ Yes	■ No

Wholesaler" means a wholesale distributor as defined by 21 C.F.R. § 205.3(g) who supplies or distributes drugs, medicines or chemicals or devices or appliances that are restricted by federal law to sale by or on the order of a physician to a person **other than the consumer or patient**. The term includes a person who derives, produces, prepares or repackages drugs, medicines or chemicals or devices or appliances that are restricted by federal law to sale by or on the order of a physician on sales orders for resale. The term does not include a nonprofit cooperative agricultural organization which supplies or distributes veterinary drugs and medicines only to its own members.

Type of Application (check applicable box)		**MDEG Business Type (check applicable box)**
■ New MDEG	* If making a change, provide current license number:	☐ Publicly Traded (complete sections 1, 2, 3, 4, 5, 9)

NEVADA STATE BOARD OF PHARMACY

985 Damonte Ranch Parkway, Suite 206 – Reno, NV 89521 – 775-850-1440

Medical Products Provider and Wholesaler – Medical Devices, Equipment and Gases (MDEG) Administrator Application

Rev (06/21/2022)

NAC 639.694

1. **Each medical products provider or medical products wholesaler shall employ an administrator at all times. The administrator must:**
   a. Be a natural person;
   b. Have a high school diploma or its equivalent;
   c. Have:
      i. At least 1,500 hours of verifiable work experience relating to the products provided by the medical products provider or medical products wholesaler; or
      ii. An associate's degree or higher degree from an accredited college or university in a field of study that is directly related to patient health care;
   d. Be employed by the medical products provider or medical products wholesaler at the place of business or facility of the employer at least 40 hours per week or during all regular business hours if the business or facility is regularly open less than 40 hours per week; and
   e. Be approved by the Board.
2. The administrator shall ensure that the operation of the business or facility complies with all applicable federal, state and local laws, regulations and rules.
3. A medical products provider or medical products wholesaler shall notify the staff of the Board of the cessation of employment of an administrator within 3 business days after the cessation of the employment. A medical products provider or medical products wholesaler shall notify the staff of the Board of the employment of a new administrator within 3 business days after the beginning of the employment.
4. A medical products provider or medical products wholesaler may not operate for more than 10 business days without an administrator. The Board may summarily suspend the operation of a business or facility that operates without an administrator.

NAC 639.6946

1. Except as otherwise provided in NAC 639.6945, a medical products provider shall:
   a. Provide services for all medical products sold, leased or otherwise provided by the medical products provider, including, without limitation, set up, repair and maintenance.
   b. Employ an administrator and other employees sufficient to provide the services described in paragraph (a).

NAC 639.6957

1. A medical products wholesaler shall:
   a. Employ a facility administrator and other employees sufficient to operate, set up, repair, maintain and service all medical products sold, leased or otherwise provided by the medical products wholesaler.

Please mail this completed application and all other required documents with your MDEG and/or Wholesaler Application to the address indicated above.

If you have any questions, please contact the Nevada State Board of Pharmacy at 775-850-1440 or by email at pharmacy@pharmacy.nv.gov.

Where is the facility located?	☐ Nevada	■ Out-of-State
[a]Is the business also a wholesaler? (NRS 639.016)	☐ Yes	■ No

Wholesaler" means a wholesale distributor as defined by 21 C.F.R. § 205.3(g) who supplies or distributes drugs, medicines or chemicals or devices or appliances that are restricted by federal law to sale by or on the order of a physician to a person **other than the consumer or patient**. The term includes a person who derives, produces, prepares or repackages drugs, medicines or chemicals or devices or appliances that are restricted by federal law to sale by or on the order of a physician on sales orders for resale. The term does not include a nonprofit cooperative agricultural organization which supplies or distributes veterinary drugs and medicines only to its own members.

WARNING - This email originated from outside the State of Nevada. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Jessette,

I have attached "Main Page Section 1" and edited the MDEG Admin to Deanna.
In addition, I did submit the personal history record application, but I have attached it again.
Deanna is the only one who had to complete that because she owns 100% of the business as the owner.

Is there anything else?

Thank you

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. 83BSBIW5534

Application/License No. _____

AZURITY PHARMACEUTICALS, INC. (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 8 Cabot Road, Suite 2000 Wobum, MA 01801 (Address of Applicant/Principal), as PRINCIPAL, and HARTFORD FIRE INSURANCE COMPANY (Surety Company), a corporation organized under the laws of the state of CT (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is One Hartford Plaza Hartford, CT 06155 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of TWENTY-FIVE THOUSAND DOLLARS ($25,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on August 3, 2022 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statue (NRS) 639.515 and Nevada Administrative Code (NAC) 639.5937 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $25,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and NAC 639.5937 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515 and NAC 639.5937. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 3rd day of August, 20 22.

To Whom It May Concern,

All original files and documents for Adren John Hughes Jr. (DOB [redacted] have been purged from our records and are no longer held in our office. In 1979, Mr. Hughes was charged with the following:

POSSESSION WITH INTENT TO SELL OR DELIVER A CONTROLLED SUBSTANCE (F)

DELIVER A CONTROLLED SUBSTANCE (M)

The first listed charge of possession with intent to sell or deliver a controlled substance (**felony**) was **dismissed** by the state. Mr. Hughes plead **guilty** to the second charge of deliver a controlled substance (**misdemeanor**) and was ordered to pay a fine of $100 plus the cost of court. Adren John Hughes Jr. **does not** have any felony convictions on his record from Currituck County.

Thank You;

Brandon Johnson

U.S. FOOD & DRUG ADMINISTRATION

LICENSING LETTER
January 5, 2021

Bavarian Nordic A/S
Attn: Ms. Maria Oyaski
3025 Carrington Mill Blvd
Suite 100
Morrisville, NC 27560

Dear Ms. Oyaski:

We have been advised by your letter of May 27, 2020, that Bavarian Nordic A/S has acquired the rights to the following biological product formerly held by GlaxoSmithKline Biologicals, U.S. License No. 1617.

It is our understanding that Bavarian Nordic A/S will continue to prepare the following product in the same manner as GlaxoSmithKline Biologicals, using the same equipment, manufacturing procedures and methods, and responsible personnel.

STN	**Name of Biological Products**
BL 103334	Rabies Vaccine

It is our understanding that you will be the authorized official for Bavarian Nordic A/S. The appropriate license application and other information required for the change in licensure have been reviewed, and found to be in compliance with required standards.

Therefore, in accordance with the provisions of Section 351(a) of the Public Health Service Act, you are hereby authorized to introduce or deliver for introduction into interstate commerce, the above product under your exisiting U.S. License No. 2096, effective this date.

Under this license you are authorized to manufacture and introduce or deliver for introduction into interstate commerce the product listed in the table above manufactured at the following contract manufacturing locations: GSK Vaccines GmbH, Marburg, Germany; Vetter Pharma-Fertigung GmbH & Co. KG, Langenargen, Germany; and GSK Vaccines s.r.l., Sovicille, Italy.

U.S. Food & Drug Administration
10903 New Hampshire Avenue
Silver Spring, MD 20993
www.fda.gov

Please submit final printed labels for the product you are authorized to manufacture at these locations showing your corporate name and license number to the Division of Vaccines and Related Product Applications. Please provide your final content of labeling in Structured Product Labeling (SPL) format and include the carton and container labels. All final labeling should be submitted as Product Correspondence to the appropriate BLA at the time of use (prior to marketing) and include implementation information on FDA Form 356h and FDA Form 2567 as appropriate. Labeling revisions reflecting your establishment should be completed within 180 days of receipt of this letter.

All pending supplements submitted under U.S. License No. 1617 for the above listed product have been transferred to U.S. License No. 2096. All future correspondence should be submitted under the originally assigned STN. We recommend that you keep a copy of this letter available for review at the time of FDA inspections.

We request that you acknowledge receipt of this letter to the Director, Division of Manufacturing and Product Quality, Office of Compliance and Biologics Quality, Center for Biologics Evaluation and Research, Food and Drug Administration, Document Control Center, 10903 New Hampshire Ave., WO71-G112, Silver Spring, MD 20993.

Sincerely yours,

- Liaise and negotiate with US wholesalers/customers and LSP's
- Continuously work on improving patient and business performance, while adhering to requirements in legislation, GMP/GDP, transportation costs
- Manage all deviations in relation to distribution activities
- Perform logistic audits at key wholesalers/LSP's
- Assist in any serialization issues, inquiries, etc. that may arise
- Develop, track and optimize distribution KPIs, incl. with logistic service providers
- Manage projects within the area of logistics

2018-2020 **Ipas: Chapel Hill, NC**
Senior Technical Advisor, Supply Chain Management

- Provide commodity and supply chain technical assistance, such as forecasting supply needs, inventory monitoring and management, short term and long-term strategy development to meet supply chain management needs at different country levels (national, regional, and health facilities).
- Provide technical guidance on quality assurance of medical devices and pharmaceuticals for reproductive health and ensure that country programs are following applicable Ipas procurement policies.
- Build staff capacity in supply chain management, including workshop facilitation and on the job and virtual training.
- Design and disseminate tools and resources for effective supply chain management of abortion commodities.
- Assist teams to creatively design process improvements and supply chain solutions.

2016-2018 **Partners In Health: Boston, Massachusetts**
Associate Director, Logistics (2018)

Manager, Global Logistics and Distribution (2016-2018)

- Defined and reviewed logistics and distribution strategy to support Partners In Health sites.
- Provided physical inventory and logistics support for all Partners In Health sites.
- Established effective inventory management controls that aligned with site and global strategies.
- Managed freight and warehousing supplier relationships including cost reduction goals.
- Subject matter lead for OpenBoxes inventory management software development and implementation.
- Developed systems and processes to ensure proper handoff between planning and logistics teams.
- Collaborated with sourcing, operations, finance, development, and clinical teams to ensure all information was shared between these functional groups.
- Managed Boston logistics team and technical advisor for warehouse teams in Miami and Port au Prince, Haiti.
- Provided technical support to all PIH sites globally in biomedical equipment management and facilities management.

2014-2016 **International Rescue Committee, Inc.: New York, New York**

Roving Global Supply Chain Coordinator

- Provided remote and in country support of supply chain activities to IRC country programs and staff.
- Built local supply chain capacity through regular collaboration, training, implementation of new procedures and initiatives.
- Served as the primary point of contact for supply chain activities for seven francophone IRC country programs. Linked staff from different country programs and created forums for information sharing and idea exchange.
- Developed and revised global and local standard operating procedures and training materials.
- Managed supply chain departments during deployments to IRC country programs.
- Responsible for recruiting and training of new supply chain staff across different IRC country programs.
- Acted as a liaison and ensured clear and open communication between in country supply chain teams and Global Supply Chain team at the headquarters office.
- Reviewed and provided feedback on supply chain reports submitted by country programs.
- **Mali:** Conducted procurement audit and made recommendations for improving the in-country supply chain system.
- **Greece:** Led a team in establishing a logistics system for transporting refugees arriving in country. Developed a proposal with community members to establish a new refugee transit camp on the island of Lesbos. Managed the day-to-day supply chain team to respond to emergency operational and logistics needs in country during the refugee crisis.
- **South Sudan:** Acted as interim supply chain coordinator and managed all supply chain aspects for a period of two months.
- **Central African Republic:** Led supply chain analysis to identify gaps and worked with team to develop priority plans for strengthening processes. Served as acting security director during presidential elections.

- **Chad:** Trained local staff on new purchase request procedures and establishment of master purchasing agreements.

2010-2014 **Partners In Health: Boston, Massachusetts**
Haiti Supply Chain Manager (2014)
Haiti Procurement Coordinator (2012-2014)
Senior Coordinator for International Operations (2010-2012)

- Managed Partners In Health's supply chain for Haiti, including procurement, logistics, and inventory management for all medical related goods to support 13 clinics and hospitals in Haiti's Central Plateau and Lower Artibonite.
- Managed the implementation of new inventory control practices: established increased order frequency and regular inventory review procedures, developed metrics to measure success and reveal gaps. Improved access to and quality of inventory data which lead to more accurate procurement and increased stock availability throughout Haiti.
- Oversaw the operations of the inventory control processes. Ensured that processes were followed properly and that goals for performance and efficiency were met.
- Performed ongoing review of inventory control activities; provided strategic direction and suggestions for growth and improvement as processes matured.
- Initiated and processed regular medication and supply orders.
- Provided administrative management of the Miami warehouse which handled 70% of PIH's inventory to Haiti. Created and managed the annual budget for warehouse operations. Oversaw staff at that location.
- Carried out all medical related procurement and logistics for PIH's 13 clinical sites in Haiti.
- Coordinated all medical related procurement and logistics for the opening of the Hopital Universitaire de Mirebalais (HUM), one of Haiti's largest public facilities with 300 beds.
- Developed workflows and processes to ensure availability of medical stock and a seamless flow of goods throughout HUM.
- Managed development, training, and deployment of OpenBoxes, PIH's in house developed inventory management software, at storage facilities in the US and Haiti.

2004-2007 **United States Peace Corps: Togo**
Community Health and AIDS Prevention Extension Agent – Togolese Red Cross, Lome (2004-2005)
Field Liaison – Hope Through Health, Bafilo (2006-2007)

- Member of the HIV/AIDS department of the Togolese Red Cross as an NGO advisor.
- Organized training sessions with local Red Cross volunteers on HIV/AIDS testing and counseling activities.
- Organized food distribution kits for HIV+ widows after presidential elections of 2005.
- Acted as focal point person responsible for interpreting and logistical coordination for two CDC field visits to Togo.
- Played an active role in the creation of a rural HIV/AIDS treatment clinic offering medical, psychosocial and nutritional assistance to people living with HIV/AIDS.
- Worked in tandem with *Association Espoir pour Demain*, a local association of people living with HIV/AIDS in Northern Togo and *Hope Through Health* to carry out the project's design and implementation.
- Assured services were offered and running efficiently for approximately 350 people living with HIV/AIDS in the region.

- Liaised with local governmental and non-governmental organizations to improve or increase patient services.

Education

2008-2009 **Queen Margaret University: Institute for International Health and Development; Edinburgh, United Kingdom**
Master of Science in International Health.
Degree obtained with distinction.
- Thesis topic: evaluation of community health worker program at rural HIV/AIDS treatment clinic in northern Togo. (Primary data collection involved focus group discussions, semi structured interviews and case studies)

2000-2001 **Université Paris I, Panthéon, La Sorbonne; Paris, France**
Cours de Civilisation Française
Diploma received with honors.

1997-2001 **State University of New York at Albany; Albany, NY**
Bachelor of Arts in Urban Planning
- Graduate level courses taken in urban design and environmental planning.
- Minor in sociology.

Certifications

2013, 2014 **Project Management in Development – PMD Pro Level 1 & 2**
Accredited by APMG International

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. 13BSBIU9744

Application/License No. _____

Bavarian Nordic, Inc., doing or intending to do business as a
(Applicant/Principal)
pharmaceutical wholesaler, whose address for purposes of service is
3025 Carrington Mill Boulevard, Suite 100, Morrisville, NC 27560, as
(Address of Applicant/Principal)
PRINCIPAL, and Hartford Fire Insurance Company, a
(Surety Company)
corporation organized under the laws of the state of Connecticut
(State of Incorporation)
and authorized to transact a general surety business in the State of

Nevada, whose address for purposes of service is
One Hartford Plaza, Hartford, CT 06155 as
(Address of Surety)
SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of ONE HUNDRED THOUSAND DOLLARS ($100,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on February 9, 2022.
(Effective Date)

WHEREAS, the provisions of Nevada Revised Statutes (NRS) 639.515 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $100,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

13BSBIU9744

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 9th day of February, 2022.

Subsection 1

For the period ending on 30 June 2022, the Board of Directors shall be authorised to increase the Company's share capital in one or more issues with a total of nominally DKK 63,736,800 (6,373,680 shares of DKK 10 each) by the subscription of new shares. The existing shareholders shall have pre-emption rights to subscribe for the amount by which the share capital is increased, proportional to their shareholdings. The share capital shall be increased by cash payment at a subscription price which may be lower than the value of the shares.

The terms and conditions of the subscription for shares shall be determined by the Board of Directors.

The new shares shall be negotiable instruments, shall be registered in the names of the holders and shall be entered in the Company's register of shareholders. No restrictions

shall apply to the transferability of the new shares, and no shareholder shall be obliged to have his shares redeemed - in whole or in part. The shares shall carry the right to dividend as from the date fixed by the Board of Directors, but not later than the first financial year following the capital increase.

Subsection 2
For the period ending on 30 June 2022, the Board of Directors shall be authorised to increase the Company's share capital in one or more issues with a total of nominally DKK 63,736,800 (6,373,680 shares of DKK 10 each) by the subscription of new shares. The existing shareholders shall not have pre-emption rights to subscribe for the amount by which the share capital is increased.

The share capital may be increased by cash payment or in other ways, such as by conversion of debts or in payment of a contribution in kind. The share capital shall in any event be increased at a subscription price, which is not lower than market value.

The terms and conditions of the subscription for shares shall be determined by the Board of Directors.

The new shares shall be negotiable instruments, shall be registered in the names of the holders and shall be entered in the Company's register of shareholders. No restrictions shall apply to the transferability of the new shares, and no shareholder shall be obliged to have his shares redeemed - in whole or in part. The shares shall carry the right to dividend as from the date fixed by the Board of Directors, but not later than the first financial year following the capital increase.

Subsection 3
When exercising the authorisations given in Articles 5a(1) and 5a(2) the Board of Directors is overall authorised to increase the share capital of the Company with a total of nominally DKK 63,736,800 (6,373,680 shares of DKK 10 each).

Article 5b

During the period ending 31 December 2022, the Company may issue warrants, in one or more portions, by resolution of the Board of Directors. The warrants may be issued to the management and employees of the Company or its subsidiaries for the subscription of a nominal value of up to DKK 14,000,000 (1,400,000 shares of DKK 10 each), however, the number of shares may be higher or lower due to subsequent adjustments of the warrants in accordance with the adjustment clauses determined by the Board of Directors when the warrants are issued. The warrants can be exercised by cash contribution at a subscription price and on such other terms as the Board of Directors may determine. Any issuance of warrants to the management shall be made in accordance with the Company's Remuneration Policy. Warrants may not be granted to members of the Company's Board of Directors (except for employee representatives (if such may have been elected) who receive warrants in their capacity as employees of the Company or of the Company's subsidiaries).

Holders of warrants shall have pre-emption right to subscribe for the shares, issued based on the warrants, meaning that the pre-emption rights to subscribe to warrants and new shares for existing shareholders are deviated from.

As a consequence of the exercise of awarded warrants, the Board of Directors is authorised during the period until 1 April 2026 to increase the share capital by a nominal value of up to DKK 14,000,000 (1,400,000 shares of DKK 10 each) in one or more portions by resolution of the Board of Directors by cash contribution at a subscription price and on such other terms as the Board of Directors may determine without pre-emption right for the existing shareholders, however, the number of shares by which the share capital may be increased may be higher or lower if the number of warrants is increased in accordance with the adjustment clauses determined by the Board of Directors when the warrants are issued.

The new shares, issued based on warrants, shall have the same rights as existing shares according to the Articles of Association. The new shares shall be negotiable instruments, shall be registered in the names of the holders and shall be entered in the Company's register of shareholders. No restrictions shall apply to the transferability of the new shares and no shareholder shall be obliged to have his shares redeemed - in whole or in part. The new shares shall carry the right to dividend from the time of subscription.

Subject to the rules in force at any time, the Board of Directors may reuse or reissue lapsed and unexercised warrants if any, provided that the reuse or reissue occurs under the terms and within the time limitations set out in this authorisation. Reuse is to be construed as the Board of Directors' entitlement to let another party enter into an existing agreement on warrants. Reissue is to be construed as the Board of Directors' option to reissue new warrants, under the same authorisation, if previously issued warrants have lapsed.

Article 5c
Cancelled

Article 5d
In accordance with authorisations from the general meeting, the Board of Directors has issued warrants as set out in appendix 1 to the Articles of Association. As required by the Danish Companies Act and as set out in appendix 1, the Board of Directors has determined the adjustment clauses that apply to the warrants in the event of changes that affect the Company's share capital etc. The purpose of the adjustment clauses is to ensure that the potential gain on the warrants remain unchanged in the event of such changes. Consequently, the number of shares by which the share capital may be increased will automatically be higher or lower than the maximum number set out in the original authorizations granted by the general meeting if the warrants are adjusted in accordance with the adjustment clauses.

SHARES

Article 6

All shares shall be registered in the names of the holders and shall be entered in the Company's register of shareholders. The shares shall be negotiable instruments and there shall be no restrictions as to their transferability.

Article 7

No share shall confer any special rights upon the holder, and no shareholder shall be obliged to have his shares redeemed, whether in whole or in part, by the Company or by any other party.

Article 8

As resolved by the Board of Directors, the Company's register of shareholders may be kept either by the Company, or by a secretary outside the Company to be designated by the Board of Directors. The Company's register of shareholders is kept by Computershare A/S, CVR nò. 27088899.

Article 9

Share certificates may be declared null and void without a prior court order in accordance with the statutory rules applying from time to time to the annulment of negotiable instruments.

GENERAL MEETINGS

Article 10

The general meeting has the supreme authority in all the Company's affairs, subject to statute and to these Articles of Association.

General Meetings shall be held in the municipality in which the Company's registered office is situated, or in the Capital Region of Denmark (in Danish Region Hovedstaden).

General Meetings shall be convened by the Board of Directors giving not less than three weeks' nor more than five weeks' notice.

General meetings shall be convened by publication on the Company's webpage. The Board of Directors may resolve that notice to convene the general meeting shall be published in a leading newspaper. Furthermore, a written notice convening the general meeting shall be sent to all registered shareholders who have so requested.

The convening notice shall contain the agenda of the relevant General Meeting. If any proposals are to be considered at the General Meeting, the adoption of which is subject to a special majority, then this fact shall be emphasized in the convening notice and the essentials of the relevant proposal shall be reproduced in it.

Article 11

Each share amount of DKK 10 shall give one vote at General Meetings. Any shareholder may cast different votes in respect of his shares. Any shareholder shall be entitled to attend the General Meeting and exercise his voting rights, provided that he has requested an admission card from the Company's offices no later than three days prior to the pertinent meeting. His capacity as a shareholder shall be documented by his title having been registered in the Company's register of shareholders no later than one week prior to the general meeting or by the Company having received his application for entry of the title in the register of shareholders before this date.

The shareholder may attend in person or be represented by proxy, and is entitled to attend together with an advisor.

The proxy holder must provide a dated and written proxy issued to a person who does not need to be a shareholder in the Company. Unless containing a provision to the contrary, proxies shall be deemed to be in force until revoked in writing by notification to the Company. However, proxies issued to the Company's Board of Directors may not be issued for a period of more than 12 months and may only be issued in respect of a specific general meeting for which the agenda is known in advance.

Article 12

The ordinary general meeting shall be held in time to allow for the audited and approved annual report to be received in the Danish Business Authority no later than 4 months after the end of the financial year.

The agenda of the Annual General Meeting shall contain the following business:

1. The Board of Directors' report on the Company's activities in the past year.

2. The presentation of the annual report for adoption.

3. A proposal from the Board of Directors regarding the application of profit or covering of loss pursuant to the annual report as adopted.

4. Presentation of and indicative vote on the Remuneration Report.

5. A resolution for ratification of the acts of the Board of Directors and the Board of Management.

6. Election of members to the Board of Directors.

7. Election of auditors.

8. Any proposals from the Board of Directors or shareholders, including proposals authorising the Company to acquire shares of Company stock.

Requests from shareholders for proposals for consideration at the Annual General Meeting must be lodged with the Company no later than six weeks before the general meeting. Are requests made later than six weeks before the general meeting, the Board of Directors decides whether the proposals can be admitted to the agenda.

Article 13

Extraordinary General Meetings shall be held if requested by the General Meeting, the Board of Directors or an auditor, or by written request to the Board of Directors from shareholders holding in the aggregate not less than 1/20 of the share capital. The request from the shareholders must contain a specification of the business desired to be considered at the General Meeting. The General Meeting shall be convened no later than 14 days after the appropriate request having reached the Board of Directors.

Article 14

A chairman appointed by the Board of Directors shall preside over the General Meeting.

The Chairman shall officiate at the General Meeting and shall settle all matters relating to the transaction of business.

Minutes of the proceedings at a General Meeting shall be entered in a Minute Book, such minutes to be signed by the Chairman and all members of the Board of Directors present at the General Meeting.

No later than 14 days after a General Meeting, the Minute Book and the results of the voting shall be available for the shareholders on the Company's webpage.

VOTING RIGHTS

Article 15

Cancelled

Article 16

All resolutions put to the vote of shareholders at General Meetings shall be subject to adoption by a simple majority of votes, unless the Danish Companies Act or these Articles of Association prescribe special rules regarding representation and majority.

Unless a greater majority or unanimity is required pursuant to legislation, the adoption of resolutions regarding amendment of these Articles of Association, the dissolution of the Company or its merger or amalgamation with another company or business is subject to such resolution being adopted by not less than 2/3 of all the votes cast as well as of the votes represented at the relevant General Meeting.

BOARD OF DIRECTORS AND BOARD OF MANAGEMENT

Article 17

The Company shall be managed by a Board of Directors of not less than four nor more than seven members to be elected for one year at a time by the shareholders at the General Meeting. Retiring Directors shall be eligible for re-election. In addition to the Directors elected by the General Meeting, the Board of Directors may be comprised of such members that are to be elected pursuant to the statutory rules on employee representation.

The shareholders at the General Meeting shall determine the remuneration of the Board of Directors.

Article 18

Minutes shall be taken of all proceedings at Board Meetings. Such minutes shall be signed by all attending directors.

The Board of Directors shall elect its own chairman and deputy chairman.

The Board of Directors may grant powers of procuration to individuals to sign singly or collectively.

In addition, the Board of Directors shall lay down more specific Rules of Procedure regarding the discharge of its duties.

The Board of Directors shall appoint a Board of Management.

BINDING SIGNATURES

Article 19

The Company shall be bound in legal transactions by the joint signatures of the Chairman of the Board of Directors and that of either a member of the Board of Management or any two members of the Board of Directors, or by the joint signatures of any two members of the Board of Directors and any member of the Board of Management.

AUDITORS

Article 20

The Company's annual report shall be audited by one or two Danish state-authorised public accountants elected by the shareholders at the General Meeting.

Auditors shall be elected for a term of one year at a time. Retiring auditors shall be eligible for re-election.

ANNUAL REPORT

Article 21

The Company's financial year shall coincide with the calendar year.

The Annual Report and consolidated financial statements shall be prepared pursuant to the applicable legislation regarding the presentation of Annual Reports and the international standards in accordance with the IFRS Regulation.

Article 22

The Company's annual reports and interim financial reports are prepared in English. The Board of Directors may resolve that the annual report shall also be prepared in Danish.

GENERAL MEETINGS BY ELECTRONIC MEANS

Article 23

The Company's general meetings can be held by electronic means with no physical attendance possible. Participation in such general meetings shall take place via the Internet, on the Company's website and/or by videoconference.

---ooOoo---

The foregoing Articles of Association were amended by the Board of Directors on 10 June 2021 in connection with exercise of warrants.

Appendix 1:

Section 7

Cancelled (exercised and lapsed warrants).

Section 8

Cancelled (exercised and lapsed).

Section 9

Cancelled (exercise and lapsed warrants).

Section 10

Cancelled (exercised and lapsed warrants).

Section 11

Cancelled (exercised warrants).

Section 12

Cancelled (exercised and lapsed warrants).

Section 13

In accordance with authorisations in Article 5b of the Articles of Association and, the Board of Directors has issued 237,094 warrants, providing the right to subscribe to a maximum of 237,094 shares, each with a nominal value of DKK 10 (a total nominal value of DKK 2,370,940), at a rate of DKK 205.80 per share of nominal value DKK 10. The nominal value and the subscription price may, however, be higher or lower as a result of any adjustment made in accordance with the terms of the warrants.

Subscription for shares according to the awarded warrants can be made, wholly or partly, in periods of each 14 days (1) first time being after the publication of the Company's 2019 annual report; (2) second time being after the publication of the Company's quarterly report (Q1) for the first 3 months of 2020; (3) third time being after the publication of the Company's quarterly report (Q2) for the first 6 months of 2020; (4) fourth time being after the publication of the Company's quarterly report (Q3) for the first 9 months of 2020; (5) fifth time being after the publication of the Company's 2020 annual report; (6) sixth time being after the publication of the Company's quarterly report (Q1) for the first 3 months of 2021; (7) seventh time being after the publication of the Company's quarterly report (Q2) for the first 6 months of 2021; and/or (8) eighth time being after the publication of the Company's quarterly report (Q3) for the first 9 months of 2021. Warrants that are not exercised electronically in the first subscription period may be exercised in subsequent subscription periods, always provided that any warrants not exercised at the expiry of the last subscription period will lapse without notice and without compensation.

If a warrant holder holds inside information during the last subscription period, the warrant holder may ask the Board of Directors to be granted a right to exercise warrants during a period of 2 weeks after the first publication by the Company of a quarterly or annual report after the expiry of the last subscription period (an "Extraordinary Window"). In order to be granted a right to exercise warrants in an Extraordinary Window, the warrant holder shall prior to the expiry of the last subscription period make a written request to the Board of Directors and the Board of Directors will then on the basis thereof decide whether or not the warrant holder will be offered an Extraordinary Window. The Board of Directors is not obliged to offer a warrant holder an Extraordinary Window and any such decision shall be made in due consideration of the Remuneration Policy. The Board of Directors may decide to expand the subscription period by one or more Extraordinary Windows.

The existing shareholders of the Company do not have any pre-emption rights with regard to the Warrants or shares subscribed for pursuant thereto.

The warrants cannot be assigned or placed as collateral by the warrant holder to third party.

In the event that (i) a majority of the Company's shares is sold, meaning that at least a third of the Company's share capital is transferred to a third party (who may be an existing shareholder of the Company) or (ii) the Company is dissolved, including by merger or demerger, the Company's Board of Directors may decide:

That warrant holders must exercise all or part of the warrants that have been granted, whether they have vested or not, and transfer the shares on the same terms as the other transferring shareholders (or waive the right to such Warrants in which case they will lapse); or

That warrant holders will retain the warrants that have been granted on unchanged terms.

If, before the warrants have been exercised in full, a resolution is passed in the Company to increase the share capital, issue warrants, convertible debt instruments or other instruments, allowing subscription for shares at a price not lower than the market value, this will not affect the terms of the warrants. Nor will the terms of the warrants be affected by any resolution to increase the share capital in order to allow employees, consultants or directors of the Company or its subsidiaries to subscribe for shares at a price which is lower than the market value.

If, before the warrants have been exercised in full, a resolution is passed in the Company (i) to increase the share capital, issue warrants, convertible debt instruments or other instruments to any persons other than the employees, consultants or directors of the Company or its subsidiaries, allowing subscription for shares at a price which is lower than the market value, (ii) to reduce the Company's share capital to cover any loss, (iii) to reduce the Company's share capital to make distributions to the shareholders, or (iv) to carry out payment of dividend, and such change reduces or increases the potential gain on the warrants, the exercise price and/or the number of shares that may be subscribed for by the exercise of warrants must be adjusted to ensure that the potential gain on the warrants remains unchanged. If, before the warrants have been exercised in full, a resolution is passed to reduce the Company's share capital to make distributions to the shareholders, and such change does not reduce or increase the potential gain on the warrants, the exercise price and/or the number of shares that may be subscribed for by the exercise of warrants will not be adjusted. Warrants to employees of Bavarian Nordic Inc. are, however, subject to additional adjustment provisions.

For the exercise of awarded warrants, the Board of Directors has decided on an increase of the Company's share capital in one or more portions by a total nominal value of up to DKK 2,370,940 by cash payment at a price of DKK 205.80 per share of nominal value DKK 10 and without pre-emption right for the Company's existing shareholders. The nominal value and the subscription price may, however, be higher or lower as a result of any adjustment made in accordance with the terms of the warrants. The details and terms for the issuance of shares have been established by the Board of Directors.

In each subscription period, the Company may at its discretion decide that the warrant holder shall exercise his/her warrants by full or partial settlement in treasury shares rather than subscribing for new shares. Settlement in treasury shares may be effected by:

a) The Company delivering one (1) treasury share of nominally DKK 10 for each exercised warrant against the warrant holder's payment of consideration in an amount equivalent to the subscription price; or

b) The Company delivering a number of treasury shares with an aggregate market value corresponding to the difference between (i) the aggregate market value of the number of shares that would have been subscribed for under the exercised warrants and (ii) the aggregate subscription price of such warrants. If the difference between the aggregate market value of the shares and the aggregate subscription price does not correspond to the market value of a whole number of treasury shares, the number of treasury shares to be delivered by the Company shall be rounded up or down to the nearest whole number. For the purpose of this subsection b), the market value of the shares in the Company shall be determined based on the average market price (closing price) of the shares in the Company as quoted on the Danish Stock Exchange Nasdaq Copenhagen over the last five (5) business days prior to expiry of the relevant subscription period.

If the Company decides to exercise the right to settlement in treasury shares, the Company must notify the warrant holder hereof before expiry of the subscription period. If the Company decides settlement in treasury shares as described in subsection b) above, the warrant holder shall not pay the subscription price for the shares under the warrants that are being settled in treasury shares and any part of such subscription price already paid by the warrant holder to the Company will be repaid to the warrant holder within 30 days after expiry of the relevant subscription period.

Holders of warrants shall have pre-emption right to subscribe for the shares issued based on the warrants, meaning that the pre-emption rights to subscribe to warrants and new shares for existing shareholders' are deviated from.

The new shares issued based on issued, reused or reissued warrants shall from the time of subscription have the same rights as existing shares according to the Articles of Association. The new shares shall be negotiable instruments, shall be registered in the names of the holders, and shall be entered in the Company's register of shareholders. No restrictions in the transferability of the new shares shall apply and no shareholder shall be obliged to allow for their shares to be redeemed - in whole or in part. The new shares shall be eligible for dividends from the time of subscription.

Section 14

In accordance with authorisations in Article 5b of the Articles of Association and, the Board of Directors has issued 34,074 warrants, providing the right to subscribe to a maximum of 34,074 shares, each with a nominal value of DKK 10 (a total nominal value of DKK 340,740), at a rate of DKK 340.40 per share of nominal value DKK 10. The nominal value and the subscription price may, however, be higher or lower as a result of any adjustment made in accordance with the terms of the warrants.

Subscription for shares according to the awarded warrants can be made, wholly or partly, in periods of each 14 days (1) first time being after the publication of the Company's quarterly report (Q2) for the first six months of 2020; (2) second time being after the publication of the Company's quarterly report (Q3) for the first 9 months of

2020; (3) third time being after the publication of the Company's annual reportfor 2020; (4) fourth time being after the publication of the Company's quarterly report (Q1) for the first 3 months of 2021; (5) fifth time being after the publication of the Company's quarterly report (Q2) for the first six months of 2021; (6) sixth time being after the publication of the Company's quarterly report (Q3) for the first 9 months of 2021; (7) seventh time being after the publication of the Company's annual report for 2021; and/or (8) eighth time being after the publication of the Company's quarterly report (Q1) for the first 3 months of 2022. Warrants that are not exercised electronically in the first subscription period may be exercised in subsequent subscription periods, always provided that any warrants not exercised at the expiry of the last subscription period will lapse without notice and without compensation.

If a warrant holder holds inside information during the last subscription period, the warrant holder may ask the Board of Directors to be granted a right to exercise warrants during a period of 2 weeks after the first publication by the Company of a quarterly or annual report after the expiry of the last subscription period (an "Extraordinary Window"). In order to be granted a right to exercise warrants in an Extraordinary Window, the warrant holder shall prior to the expiry of the last subscription period make a written request to the Board of Directors and the Board of Directors will then on the basis thereof decide whether or not the warrant holder will be offered an Extraordinary Window. The Board of Directors is not obliged to offer a warrant holder an Extraordinary Window and any such decision shall be made in due consideration of the Remuneration Policy. The Board of Directors may decide to expand the subscription period by one or more Extraordinary Windows.

The existing shareholders of the Company do not have any pre-emption rights with regard to the Warrants or shares subscribed for pursuant thereto.

The warrants cannot be assigned or placed as collateral by the warrant holder to third party.

In the event that (i) a majority of the Company's shares is sold, meaning that at least a third of the Company's share capital is transferred to a third party (who may be an existing shareholder of the Company) or (ii) the Company is dissolved, including by merger or demerger, the Company's Board of Directors may decide:

That warrant holders must exercise all or part of the warrants that have been granted, whether they have vested or not, and transfer the shares on the same terms as the other transferring shareholders (or waive the right to such Warrants in which case they will lapse); or

That warrant holders will retain the warrants that have been granted on unchanged terms.

If, before the warrants have been exercised in full, a resolution is passed in the Company to increase the share capital, issue warrants, convertible debt instruments or

other instruments, allowing subscription for shares at a price not lower than the market value, this will not affect the terms of the warrants. Nor will the terms of the warrants be affected by any resolution to increase the share capital in order to allow employees, consultants or directors of the Company or its subsidiaries to subscribe for shares at a price which is lower than the market value.

If, before the warrants have been exercised in full, a resolution is passed in the Company (i) to increase the share capital, issue warrants, convertible debt instruments or other instruments to any persons other than the employees, consultants or directors of the Company or its subsidiaries, allowing subscription for shares at a price which is lower than the market value, (ii) to reduce the Company's share capital to cover any loss, (iii) to reduce the Company's share capital to make distributions to the shareholders, or (iv) to carry out payment of dividend, and such change reduces or increases the potential gain on the warrants, the exercise price and/or the number of shares that may be subscribed for by the exercise of warrants must be adjusted to ensure that the potential gain on the warrants remains unchanged. If, before the warrants have been exercised in full, a resolution is passed to reduce the Company's share capital to make distributions to the shareholders, and such change does not reduce or increase the potential gain on the warrants, the exercise price and/or the number of shares that may be subscribed for by the exercise of warrants will not be adjusted. Warrants to employees of Bavarian Nordic Inc. are, however, subject to additional adjustment provisions.

For the exercise of awarded warrants, the Board of Directors has decided on an increase of the Company's share capital in one or more portions by a total nominal value of up to DKK 340,740 by cash payment at a price of DKK 340.40 per share of nominal value DKK 10 and without pre-emption right for the Company's existing shareholders. The nominal value and the subscription price may, however, be higher or lower as a result of any adjustment made in accordance with the terms of the warrants. The details and terms for the issuance of shares have been established by the Board of Directors.

In each subscription period, the Company may at its discretion decide that the warrant holder shall exercise his/her warrants by full or partial settlement in treasury shares rather than subscribing for new shares. Settlement in treasury shares may be effected by:

a) The Company delivering one (1) treasury share of nominally DKK 10 for each exercised warrant against the warrant holder's payment of consideration in an amount equivalent to the subscription price; or

b) The Company delivering a number of treasury shares with an aggregate market value corresponding to the difference between (i) the aggregate market value of the number of shares that would have been subscribed for under the exercised warrants and (ii) the aggregate subscription price of such warrants. If the difference between the aggregate market value of the shares and the aggregate subscription price does not

correspond to the market value of a whole number of treasury shares, the number of treasury shares to be delivered by the Company shall be rounded up or down to the nearest whole number. For the purpose of this subsection b), the market value of the shares in the Company shall be determined based on the average market price (closing price) of the shares in the Company as quoted on the Danish Stock Exchange Nasdaq Copenhagen over the last five (5) business days prior to expiry of the relevant subscription period.

If the Company decides to exercise the right to settlement in treasury shares, the Company must notify the warrant holder hereof before expiry of the subscription period. If the Company decides settlement in treasury shares as described in subsection b) above, the warrant holder shall not pay the subscription price for the shares under the warrants that are being settled in treasury shares and any part of such subscription price already paid by the warrant holder to the Company will be repaid to the warrant holder within 30 days after expiry of the relevant subscription period.

Holders of warrants shall have pre-emption right to subscribe for the shares issued based on the warrants, meaning that the pre-emption rights to subscribe to warrants and new shares for existing shareholders' are deviated from.

The new shares issued based on issued, reused or reissued warrants shall from the time of subscription have the same rights as existing shares according to the Articles of Association. The new shares shall be negotiable instruments, shall be registered in the names of the holders, and shall be entered in the Company's register of shareholders. No restrictions in the transferability of the new shares shall apply and no shareholder shall be obliged to allow for their shares to be redeemed – in whole or in part. The new shares shall be eligible for dividends from the time of subscription.

Section 15

In accordance with authorisations in Article 5b of the Articles of Association, on 8 November 2017 the Board of Directors has issued 365,425 warrants, providing the right to subscribe to a maximum of 365,425 shares, each with a nominal value of DKK 10 (a total nominal value of DKK 3,654,250), at a rate of DKK 239.60 per share of nominal value DKK 10. The nominal value and the subscription price may, however, be higher or lower as a result of any adjustment made in accordance with the terms of the warrants.

Subscription for shares according to the awarded warrants can be made, wholly or partly, in periods of each 2 weeks (1) first time being after the publication of the Company's annual report for 2020; (2) second time being after the publication of the Company's quarterly report (Q1) for the first 3 months of 2021; (3) third time being after the publication of the Company's quarterly report (Q2) for the first 6 months of 2021; (4) fourth time being after the publication of the Company's quarterly report (Q3) for the first 9 months of 2021; (5) fifth time being after the publication of the Company's annual report for 2021; (6) sixth time being after the publication of the Company's quarterly report (Q1) for the first 3 months of 2022; (7) seventh time being

after the publication of the Company's quarterly report (Q2) for the first 6 months of 2022; and/or (8) eighth time being after the publication of the Company's quarterly report (Q3) for the first 9 months of 2022. Warrants that are not exercised electronically in the first subscription period may be exercised in subsequent subscription periods, always provided that any warrants not exercised at the expiry of the last subscription period will lapse without notice and without compensation.

If a warrant holder holds inside information during the last subscription period, the warrant holder may ask the Board of Directors to be granted a right to exercise warrants during a period of 2 weeks after the first publication by the Company of a quarterly or annual report after the expiry of the last subscription period (an "Extraordinary Window"). In order to be granted a right to exercise warrants in an Extraordinary Window, the warrant holder shall prior to the expiry of the last subscription period make a written request to the Board of Directors and the Board of Directors will then on the basis thereof decide whether or not the warrant holder will be offered an Extraordinary Window. The Board of Directors is not obliged to offer a warrant holder an Extraordinary Window and any such decision shall be made in due consideration of the Remuneration Policy. The Board of Directors may decide to expand the subscription period by one or more Extraordinary Windows.

The existing shareholders of the Company do not have any pre-emption rights with regard to the Warrants or shares subscribed for pursuant thereto.

The warrants cannot be assigned or placed as collateral by the warrant holder to third party.

In the event that (i) a majority of the Company's shares is sold, meaning that at least a third of the Company's share capital is transferred to a third party (who may be an existing shareholder of the Company) or (ii) the Company is dissolved, including by merger or demerger, the Company's Board of Directors may decide:

That warrant holders must exercise all or part of the warrants that have been granted, whether they have vested or not, and transfer the shares on the same terms as the other transferring shareholders (or waive the right to such Warrants in which case they will lapse); or

That warrant holders will retain the warrants that have been granted on unchanged terms.

If, before the warrants have been exercised in full, a resolution is passed in the Company to increase the share capital, issue warrants, convertible debt instruments or other instruments, allowing subscription for shares at a price not lower than the market value, this will not affect the terms of the warrants. Nor will the terms of the warrants be affected by any resolution to increase the share capital in order to allow employees, consultants or directors of the Company or its subsidiaries to subscribe for shares at a price which is lower than the market value.

If, before the warrants have been exercised in full, a resolution is passed in the Company (i) to increase the share capital, issue warrants, convertible debt instruments or other instruments to any persons other than the employees, consultants or directors of the Company or its subsidiaries, allowing subscription for shares at a price which is lower than the market value, (ii) to reduce the Company's share capital to cover any loss, (iii) to reduce the Company's share capital to make distributions to the shareholders, or (iv) to carry out payment of dividend, and such change reduces or increases the potential gain on the warrants, the exercise price and/or the number of shares that may be subscribed for by the exercise of warrants must be adjusted to ensure that the potential gain on the warrants remains unchanged. If, before the warrants have been exercised in full, a resolution is passed to reduce the Company's share capital to make distributions to the shareholders, and such change does not reduce or increase the potential gain on the warrants, the exercise price and/or the number of shares that may be subscribed for by the exercise of warrants will not be adjusted. Warrants to employees of Bavarian Nordic Inc. are, however, subject to additional adjustment provisions.

For the exercise of awarded warrants, the Board of Directors has decided on an increase of the Company's share capital in one or more portions by a total nominal value of up to DKK 3,654,250 by cash payment at a price of DKK 239.60 per share of nominal value DKK 10 and without pre-emption right for the Company's existing shareholders. The nominal value and the subscription price may, however, be higher or lower as a result of any adjustment made in accordance with the terms of the warrants. The details and terms for the issuance of shares have been established by the Board of Directors.

In each subscription period, the Company may at its discretion decide that the warrant holder shall exercise his/her warrants by full or partial settlement in treasury shares rather than subscribing for new shares. Settlement in treasury shares may be effected by:

a) The Company delivering one (1) treasury share of nominally DKK 10 for each exercised warrant against the warrant holder's payment of consideration in an amount equivalent to the subscription price; or

b) The Company delivering a number of treasury shares with an aggregate market value corresponding to the difference between (i) the aggregate market value of the number of shares that would have been subscribed for under the exercised warrants and (ii) the aggregate subscription price of such warrants. If the difference between the aggregate market value of the shares and the aggregate subscription price does not correspond to the market value of a whole number of treasury shares, the number of treasury shares to be delivered by the Company shall be rounded up or down to the nearest whole number. For the purpose of this subsection b), the market value of the shares in the Company shall be determined based on the average market price (closing price) of the shares in the Company as quoted on the Danish Stock Exchange Nasdaq

Copenhagen over the last five (5) business days prior to expiry of the relevant subscription period.

If the Company decides to exercise the right to settlement in treasury shares, the Company must notify the warrant holder hereof before expiry of the subscription period. If the Company decides settlement in treasury shares as described in subsection b) above, the warrant holder shall not pay the subscription price for the shares under the warrants that are being settled in treasury shares and any part of such subscription price already paid by the warrant holder to the Company will be repaid to the warrant holder within 30 days after expiry of the relevant subscription period.

The Board of Directors may during the period ending 31 December 2018 in one or more portions reuse or reissue any lapsed and unexercised warrants issued in accordance with this section. Reuse is to be construed as the Board of Directors' entitlement to let another party enter into an existing agreement on warrants. Reissue is to be construed as the Board of Directors' option to reissue new warrants, under the same authorisation, if previously issued warrants have lapsed.

The warrants may be reused or reissued to the management and employees of the Company or its subsidiaries. Warrants may be reissued for the subscription of shares by cash contribution at a subscription price and on such other terms as the Board of Directors may determine in accordance with the original authorisation. Any issuance of warrants to the management shall be made in accordance with the Company's policy for incentive remuneration, prepared in accordance with section 139 of the Danish Companies Act and approved by the general meeting, cf. Article 17a of the Articles of Association. Of the 373,856 originally issued warrants, 33,134 of the warrants have lapsed due to employees' resignation and have been reissued as set out in Section 16 of this Appendix 1.

Holders of warrants shall have pre-emption right to subscribe for the shares issued based on the warrants, meaning that the pre-emption rights to subscribe to warrants and new shares for existing shareholders' are deviated from.

If and to the extent that warrants are reissued, the Board of Directors is authorised during the period until 1 April 2022 to resolve on the related capital increase by a nominal value of up to DKK 3,654,250 in one or more portions by cash contribution at a subscription price and on such other terms as the Board of Directors may determine without pre-emption right for the existing shareholders. The nominal value and the subscription price may, however, be higher or lower as a result of any adjustment made in accordance with the terms of the warrants.

The new shares issued based on issued, reused or reissued warrants shall from the time of subscription have the same rights as existing shares according to the Articles of Association. The new shares shall be negotiable instruments, shall be registered in the names of the holders, and shall be entered in the Company's register of shareholders. No restrictions in the transferability of the new shares shall apply and no

shareholder shall be obliged to allow for their shares to be redeemed – in whole or in part. The new shares shall be eligible for dividends from the time of subscription.

Section 16

In accordance with authorisations in Article 5b of the Articles of Association and Section 15 of this Appendix 1, on 9 November 2018 the Board of Directors has issued and reissued 569,013 warrants, providing the right to subscribe to a maximum of 569,013 shares, each with a nominal value of DKK 10 (a total nominal value of DKK 5,690,130), at a rate of DKK 142 per share of nominal value DKK 10. The nominal value and the subscription price may, however, be higher or lower as a result of any adjustment made in accordance with the terms of the warrants. 33,134 of the warrants have been reissued under Section 15 of this Appendix 1.

Subscription for shares according to the awarded warrants can be made, wholly or partly, in periods of each 2 weeks (1) first time being after the publication of the Company's annual report for 2021; (2) second time being after the publication of the Company's quarterly report (Q1) for the first 3 months of 2022; (3) third time being after the publication of the Company's quarterly report (Q2) for the first 6 months of 2022; (4) fourth time being after the publication of the Company's quarterly report (Q3) for the first 9 months of 2022; (5) fifth time being after the publication of the Company's annual report for 2022; (6) sixth time being after the publication of the Company's quarterly report (Q1) for the first 3 months of 2023; (7) seventh time being after the publication of the Company's quarterly report (Q2) for the first 6 months of 2023; and/or (8) eighth time being after the publication of the Company's quarterly report (Q3) for the first 9 months of 2023. Warrants that are not exercised electronically in the first subscription period may be exercised in subsequent subscription periods, always provided that any warrants not exercised at the expiry of the last subscription period will lapse without notice and without compensation.

If a warrant holder holds inside information during the last subscription period, the warrant holder may ask the Board of Directors to be granted a right to exercise warrants during a period of 2 weeks after the first publication by the Company of a quarterly or annual report after the expiry of the last subscription period (an "Extraordinary Window"). In order to be granted a right to exercise warrants in an Extraordinary Window, the warrant holder shall prior to the expiry of the last subscription period make a written request to the Board of Directors and the Board of Directors will then on the basis thereof decide whether or not the warrant holder will be offered an Extraordinary Window. The Board of Directors is not obliged to offer a warrant holder an Extraordinary Window and any such decision shall be made in due consideration of the Remuneration Policy. The Board of Directors may decide to expand the subscription period by one or more Extraordinary Windows.

The existing shareholders of the Company do not have any pre-emption rights with regard to the Warrants or shares subscribed for pursuant thereto.

The warrants cannot be assigned or placed as collateral by the warrant holder to third party.

In the event that (i) a majority of the Company's shares is sold, meaning that at least a third of the Company's share capital is transferred to a third party (who may be an existing shareholder of the Company) or (ii) the Company is dissolved, including by merger or demerger, the Company's Board of Directors may decide:

That warrant holders must exercise all or part of the warrants that have been granted, whether they have vested or not, and transfer the shares on the same terms as the other transferring shareholders (or waive the right to such Warrants in which case they will lapse); or

That warrant holders will retain the warrants that have been granted on unchanged terms.

If, before the warrants have been exercised in full, a resolution is passed in the Company to increase the share capital, issue warrants, convertible debt instruments or other instruments, allowing subscription for shares at a price not lower than the market value, this will not affect the terms of the warrants. Nor will the terms of the warrants be affected by any resolution to increase the share capital in order to allow employees, consultants or directors of the Company or its subsidiaries to subscribe for shares at a price which is lower than the market value.

If, before the warrants have been exercised in full, a resolution is passed in the Company (i) to increase the share capital, issue warrants, convertible debt instruments or other instruments to any persons other than the employees, consultants or directors of the Company or its subsidiaries, allowing subscription for shares at a price which is lower than the market value, (ii) to reduce the Company's share capital to cover any loss, (iii) to reduce the Company's share capital to make distributions to the shareholders, or (iv) to carry out payment of dividend, and such change reduces or increases the potential gain on the warrants, the exercise price and/or the number of shares that may be subscribed for by the exercise of warrants must be adjusted to ensure that the potential gain on the warrants remains unchanged. If, before the warrants have been exercised in full, a resolution is passed to reduce the Company's share capital to make distributions to the shareholders, and such change does not reduce or increase the potential gain on the warrants, the exercise price and/or the number of shares that may be subscribed for by the exercise of warrants will not be adjusted. Warrants to employees of Bavarian Nordic Inc. are, however, subject to additional adjustment provisions.

For the exercise of awarded warrants, the Board of Directors has decided on an increase of the Company's share capital in one or more portions by a total nominal value of up to DKK 5,690,130 by cash payment at a price of DKK 142 per share of nominal value DKK 10 and without pre-emption right for the Company's existing shareholders. The nominal value and the subscription price may, however, be higher or

lower as a result of any adjustment made in accordance with the terms of the warrants. The details and terms for the issuance of shares have been established by the Board of Directors.

In each subscription period, the Company may at its discretion decide that the warrant holder shall exercise his/her warrants by full or partial settlement in treasury shares rather than subscribing for new shares. Settlement in treasury shares may be effected by:

a) The Company delivering one (1) treasury share of nominally DKK 10 for each exercised warrant against the warrant holder's payment of consideration in an amount equivalent to the subscription price; or

b) The Company delivering a number of treasury shares with an aggregate market value corresponding to the difference between (i) the aggregate market value of the number of shares that would have been subscribed for under the exercised warrants and (ii) the aggregate subscription price of such warrants. If the difference between the aggregate market value of the shares and the aggregate subscription price does not correspond to the market value of a whole number of treasury shares, the number of treasury shares to be delivered by the Company shall be rounded up or down to the nearest whole number. For the purpose of this subsection b), the market value of the shares in the Company shall be determined based on the average market price (closing price) of the shares in the Company as quoted on the Danish Stock Exchange Nasdaq Copenhagen over the last five (5) business days prior to expiry of the relevant subscription period.

If the Company decides to exercise the right to settlement in treasury shares, the Company must notify the warrant holder hereof before expiry of the subscription period. If the Company decides settlement in treasury shares as described in subsection b) above, the warrant holder shall not pay the subscription price for the shares under the warrants that are being settled in treasury shares and any part of such subscription price already paid by the warrant holder to the Company will be repaid to the warrant holder within 30 days after expiry of the relevant subscription period.

The Board of Directors may, during the period ending 31 December 2019 in one or more portions reuse or reissue any lapsed and unexercised warrants issued in accordance with this section. Reuse is to be construed as the Board of Directors' entitlement to let another party enter into an existing agreement on warrants. Reissue is to be construed as the Board of Directors' option to reissue new warrants, under the same authorisation, if previously issued warrants have lapsed.

The warrants may be reused or reissued to the management and employees of the Company or its subsidiaries. Warrants may be reissued for the subscription of shares by cash contribution at a subscription price and on such other terms as the Board of Directors may determine in accordance with the original authorisation. Any issuance of warrants to the management shall be made in accordance with the Company's policy for

incentive remuneration, prepared in accordance with section 139 of the Danish Companies Act and approved by the general meeting, cf. Article 17a of the Articles of Association. Of the 535,135 originally issued warrants, 68,627 of the warrants have lapsed due to employees' resignation and have been reissued as set out in Section 17 of this Appendix 1.

Holders of warrants shall have pre-emption right to subscribe for the shares issued based on the warrants, meaning that the pre-emption rights to subscribe to warrants and new shares for existing shareholders' are deviated from.

If and to the extent that warrants are reissued, the Board of Directors is authorised during the period until 1 April 2023 to resolve on the related capital increase by a nominal value of up to DKK 5,690,130 in one or more portions by cash contribution at a subscription price and on such other terms as the Board of Directors may determine without pre-emption right for the existing shareholders. The nominal value and the subscription price may, however, be higher or lower as a result of any adjustment made in accordance with the terms of the warrants.

The new shares issued based on issued, reused or reissued warrants shall from the time of subscription have the same rights as existing shares according to the Articles of Association. The new shares shall be negotiable instruments, shall be registered in the names of the holders, and shall be entered in the Company's register of shareholders. No restrictions in the transferability of the new shares shall apply and no shareholder shall be obliged to allow for their shares to be redeemed - in whole or in part. The new shares shall be eligible for dividends from the time of subscription.

Section 17

In accordance with authorisations in Article 5b of the Articles of Association and Section 16 of this Appendix 1, on 7 November 2019 the Board of Directors has issued and reissued 703,065 warrants, providing the right to subscribe to a maximum of 703,065 shares, each with a nominal value of DKK 10 (a total nominal value of DKK 7,030,650), at a rate of DKK 146.6 per share of nominal value DKK 10. The nominal value and the subscription price may, however, be higher or lower as a result of any adjustment made in accordance with the terms of the warrants. 68,627 of the warrants have been reissued under Section 16 of this Appendix 1.

Subscription for shares according to the awarded warrants can be made, wholly or partly, in periods of each 2 weeks (1) first time being after the publication of the Company's annual report for 2022; (2) second time being after the publication of the Company's quarterly report (Q1) for the first 3 months of 2023; (3) third time being after the publication of the Company's quarterly report (Q2) for the first 6 months of 2023; (4) fourth time being after the publication of the Company's quarterly report (Q3) for the first 9 months of 2023; (5) fifth time being after the publication of the Company's annual report for 2023; (6) sixth time being after the publication of the Company's quarterly report (Q1) for the first 3 months of 2024; (7) seventh time being after the publication of the Company's quarterly report (Q2) for the first 6 months of

2024; and/or (8) eighth time being after the publication of the Company's quarterly report (Q3) for the first 9 months of 2024. Warrants that are not exercised electronically in the first subscription period may be exercised in subsequent subscription periods, always provided that any warrants not exercised at the expiry of the last subscription period will lapse without notice and without compensation.

If a warrant holder holds inside information at any time during the last subscription period, the Board of Directors may grant such a warrant holder a right to exercise warrants during a period of 2 weeks after the first publication by the Company of a quarterly or annual report after the expiry of the last subscription period (an "Extraordinary Window"). The Board of Directors is not obliged to offer a warrant holder an Extraordinary Window and any such decision shall be made in due consideration of the Remuneration Policy. The Board of Directors may decide to expand the subscription period by one or more Extraordinary Windows.

The existing shareholders of the Company do not have any pre-emption rights with regard to the Warrants or shares subscribed for pursuant thereto.

The warrants cannot be assigned or placed as collateral by the warrant holder to third party.

In the event that (i) a majority of the Company's shares is sold, meaning that at least a third of the Company's share capital is transferred to a third party (who may be an existing shareholder of the Company) or (ii) the Company is dissolved, including by merger or demerger, the Company's Board of Directors may decide:

That warrant holders must exercise all or part of the warrants that have been granted, whether they have vested or not, and transfer the shares on the same terms as the other transferring shareholders (or waive the right to such Warrants in which case they will lapse); or

That warrant holders will retain the warrants that have been granted on unchanged terms.

If, before the warrants have been exercised in full, a resolution is passed in the Company to increase the share capital, issue warrants, convertible debt instruments or other instruments, allowing subscription for shares at a price not lower than the market value, this will not affect the terms of the warrants. Nor will the terms of the warrants be affected by any resolution to increase the share capital in order to allow employees, consultants or directors of the Company or its subsidiaries to subscribe for shares at a price which is lower than the market value.

If, before the warrants have been exercised in full, a resolution is passed in the Company (i) to increase the share capital, issue warrants, convertible debt instruments or other instruments to any persons other than the employees, consultants or directors of the Company or its subsidiaries, allowing subscription for shares at a price which is

lower than the market value, (ii) to reduce the Company's share capital to cover any loss, (iii) to reduce the Company's share capital to make distributions to the shareholders, or (iv) to carry out payment of dividend, and such change reduces or increases the potential gain on the warrants, the exercise price and/or the number of shares that may be subscribed for by the exercise of warrants must be adjusted to ensure that the potential gain on the warrants remains unchanged. If, before the warrants have been exercised in full, a resolution is passed to reduce the Company's share capital to make distributions to the shareholders, and such change does not reduce or increase the potential gain on the warrants, the exercise price and/or the number of shares that may be subscribed for by the exercise of warrants will not be adjusted. Warrants to employees of Bavarian Nordic Inc. are, however, subject to additional adjustment provisions.

For the exercise of awarded warrants, the Board of Directors has decided on an increase of the Company's share capital in one or more portions by a total nominal value of up to DKK 7,030,650 by cash payment at a price of DKK 146.6 per share of nominal value DKK 10 and without pre-emption right for the Company's existing shareholders. The nominal value and the subscription price may, however, be higher or lower as a result of any adjustment made in accordance with the terms of the warrants. The details and terms for the issuance of shares have been established by the Board of Directors.

In each subscription period, the Company may at its discretion decide that the warrant holder shall exercise his/her warrants by full or partial settlement in treasury shares rather than subscribing for new shares. Settlement in treasury shares may be effected by:

a) The Company delivering one (1) treasury share of nominally DKK 10 for each exercised warrant against the warrant holder's payment of consideration in an amount equivalent to the subscription price; or

b) The Company delivering a number of treasury shares with an aggregate market value corresponding to the difference between (i) the aggregate market value of the number of shares that would have been subscribed for under the exercised warrants and (ii) the aggregate subscription price of such warrants. If the difference between the aggregate market value of the shares and the aggregate subscription price does not correspond to the market value of a whole number of treasury shares, the number of treasury shares to be delivered by the Company shall be rounded up or down to the nearest whole number. For the purpose of this subsection b), the market value of the shares in the Company shall be determined based on the average market price (closing price) of the shares in the Company as quoted on the Danish Stock Exchange Nasdaq Copenhagen over the last five (5) business days prior to expiry of the relevant subscription period.

If the Company decides to exercise the right to settlement in treasury shares, the Company must notify the warrant holder hereof before expiry of the subscription

period. If the Company decides to settle in treasury shares as described in subsection b) above, the warrant holder shall not pay the subscription price for the shares under the warrants that are being settled in treasury shares and any part of such subscription price already paid by the warrant holder to the Company will be repaid to the warrant holder within 30 days after expiry of the relevant subscription period.

The Board of Directors may during the period ending 31 December 2020 in one or more portions reuse or reissue any lapsed and unexercised warrants issued in accordance with this section. Reuse is to be construed as the Board of Directors' entitlement to let another party enter into an existing agreement on warrants. Reissue is to be construed as the Board of Directors' option to reissue new warrants, under the same authorisation, if previously issued warrants have lapsed.

The warrants may be reused or reissued to the management and employees of the Company or its subsidiaries. Warrants may be reissued for the subscription of shares by cash contribution at a subscription price and on such other terms as the Board of Directors may determine in accordance with the original authorisation. Any issuance of warrants to the management shall be made in accordance with the Company's remuneration policy for incentive remuneration, prepared in accordance with section 139 of the Danish Companies Act and approved by the general meeting, cf. Article 17a of the Articles of Association.

Holders of warrants shall have pre-emption right to subscribe for the shares issued based on the warrants, meaning that the pre-emption rights to subscribe to warrants and new shares for existing shareholders' are deviated from.

If and to the extent that warrants are reissued, the Board of Directors is authorised during the period until 1 April 2024 to resolve on the related capital increase by a nominal value of up to DKK 7,030,650 in one or more portions by cash contribution at a subscription price and on such other terms as the Board of Directors may determine without pre-emption right for the existing shareholders. The nominal value and the subscription price may, however, be higher or lower as a result of any adjustment made in accordance with the terms of the warrants.

The new shares issued based on issued, reused or reissued warrants shall from the time of subscription have the same rights as existing shares according to the Articles of Association. The new shares shall be negotiable instruments, shall be registered in the names of the holders, and shall be entered in the Company's register of shareholders. No restrictions in the transferability of the new shares shall apply and no shareholder shall be obliged to allow for their shares to be redeemed - in whole or in part. The new shares shall be eligible for dividends from the time of subscription.

Section 18

In accordance with authorisations in Article 5b of the Articles of Association, on 6 January 2020 the Board of Directors has issued 30,039 warrants, providing the right to subscribe to a maximum of 30,039 shares, each with a nominal value of DKK 10 (a total

nominal value of DKK 300,390), at a rate of DKK 155.8 per share of nominal value DKK 10. The nominal value and the subscription price may, however, be higher or lower as a result of any adjustment made in accordance with the terms of the warrants.

Subscription for shares according to the awarded warrants can be made, wholly or partly, in periods of each 2 weeks (1) first time being after the publication of the Company's annual report for 2022; (2) second time being after the publication of the Company's quarterly report (Q1) for the first 3 months of 2023; (3) third time being after the publication of the Company's quarterly report (Q2) for the first 6 months of 2023; (4) fourth time being after the publication of the Company's quarterly report (Q3) for the first 9 months of 2023; (5) fifth time being after the publication of the Company's annual report for 2023; (6) sixth time being after the publication of the Company's quarterly report (Q1) for the first 3 months of 2024; (7) seventh time being after the publication of the Company's quarterly report (Q2) for the first 6 months of 2024; and/or (8) eighth time being after the publication of the Company's quarterly report (Q3) for the first 9 months of 2024. Warrants that are not exercised electronically in the first subscription period may be exercised in subsequent subscription periods, always provided that any warrants not exercised at the expiry of the last subscription period will lapse without notice and without compensation.

If the warrant holder holds inside information at any time during the last subscription period, the Board of Directors may grant the warrant holder a right to exercise warrants during a period of 2 weeks after the first publication by the Company of a quarterly or annual report after the expiry of the last subscription period (an "Extraordinary Window"). The Board of Directors is not obliged to offer the warrant holder an Extraordinary Window and any such decision shall be made in due consideration of the Remuneration Policy. The Board of Directors may decide to expand the subscription period by one or more Extraordinary Windows.

The existing shareholders of the Company do not have any pre-emption rights with regard to the Warrants or shares subscribed for pursuant thereto.

The warrants cannot be assigned or placed as collateral by the warrant holder to third party.

In the event that (i) a majority of the Company's shares is sold, meaning that at least a third of the Company's share capital is transferred to a third party (who may be an existing shareholder of the Company) or (ii) the Company is dissolved, including by merger or demerger, the Company's Board of Directors may decide:

That the warrant holder must exercise all or part of the warrants that have been granted, whether they have vested or not, and transfer the shares on the same terms as the other transferring shareholders (or waive the right to such Warrants in which case they will lapse); or

That the warrant holder will retain the warrants that have been granted on unchanged terms.

If, before the warrants have been exercised in full, a resolution is passed in the Company to increase the share capital, issue warrants, convertible debt instruments or other instruments, allowing subscription for shares at a price not lower than the market value, this will not affect the terms of the warrants. Nor will the terms of the warrants be affected by any resolution to increase the share capital in order to allow employees, consultants or directors of the Company or its subsidiaries to subscribe for shares at a price which is lower than the market value.

If, before the warrants have been exercised in full, a resolution is passed in the Company (i) to increase the share capital, issue warrants, convertible debt instruments or other instruments to any persons other than the employees, consultants or directors of the Company or its subsidiaries, allowing subscription for shares at a price which is lower than the market value, (ii) to reduce the Company's share capital to cover any loss, (iii) to reduce the Company's share capital to make distributions to the shareholders, or (iv) to carry out payment of dividend, and such change reduces or increases the potential gain on the warrants, the exercise price and/or the number of shares that may be subscribed for by the exercise of warrants must be adjusted to ensure that the potential gain on the warrants remains unchanged. If, before the warrants have been exercised in full, a resolution is passed to reduce the Company's share capital to make distributions to the shareholders, and such change does not reduce or increase the potential gain on the warrants, the exercise price and/or the number of shares that may be subscribed for by the exercise of warrants will not be adjusted.

For the exercise of awarded warrants, the Board of Directors has decided on an increase of the Company's share capital in one or more portions by a total nominal value of up to DKK 300,390 by cash payment at a price of DKK 155.8 per share of nominal value DKK 10 and without pre-emption right for the Company's existing shareholders. The nominal value and the subscription price may, however, be higher or lower as a result of any adjustment made in accordance with the terms of the warrants. The details and terms for the issuance of shares have been established by the Board of Directors.

In each subscription period, the Company may at its discretion decide that the warrant holder shall exercise his warrants by full or partial settlement in treasury shares rather than subscribing for new shares. Settlement in treasury shares may be effected by:

a) The Company delivering one (1) treasury share of nominally DKK 10 for each exercised warrant against the warrant holder's payment of consideration in an amount equivalent to the subscription price; or

b) The Company delivering a number of treasury shares with an aggregate market value corresponding to the difference between (i) the aggregate market value of the

number of shares that would have been subscribed for under the exercised warrants and (ii) the aggregate subscription price of such warrants. If the difference between the aggregate market value of the shares and the aggregate subscription price does not correspond to the market value of a whole number of treasury shares, the number of treasury shares to be delivered by the Company shall be rounded up or down to the nearest whole number. For the purpose of this subsection b), the market value of the shares in the Company shall be determined based on the average market price (closing price) of the shares in the Company as quoted on the Danish Stock Exchange Nasdaq Copenhagen over the last five (5) business days prior to expiry of the relevant subscription period.

If the Company decides to exercise the right to settlement in treasury shares, the Company must notify the warrant holder hereof before expiry of the subscription period. If the Company decides on settlement in treasury shares as described in subsection b) above, the warrant holder shall not pay the subscription price for the shares under the warrants that are being settled in treasury shares and any part of such subscription price already paid by the warrant holder to the Company will be repaid to the warrant holder within 30 days after expiry of the relevant subscription period.

The Board of Directors may during the period ending 31 December 2020 in one or more portions reuse or reissue any lapsed and unexercised warrants issued in accordance with this section. Reuse is to be construed as the Board of Directors' entitlement to let another party enter into an existing agreement on warrants. Reissue is to be construed as the Board of Directors' option to reissue new warrants, under the same authorisation, if previously issued warrants have lapsed.

The warrants may be reused or reissued to the management and employees of the Company or its subsidiaries. Warrants may be reissued for the subscription of shares by cash contribution at a subscription price and on such other terms as the Board of Directors may determine in accordance with the original authorisation. Any issuance of warrants to the management shall be made in accordance with the Company's remuneration policy for incentive remuneration, prepared in accordance with section 139 of the Danish Companies Act and approved by the general meeting, cf. Article 17a of the Articles of Association.

Holders of warrants shall have pre-emption right to subscribe for the shares issued based on the warrants, meaning that the pre-emption rights to subscribe to warrants and new shares for existing shareholders' are deviated from.

If and to the extent that warrants are reissued, the Board of Directors is authorised during the period until 1 April 2024 to resolve on the related capital increase by a nominal value of up to DKK 300,390 in one or more portions by cash contribution at a subscription price and on such other terms as the Board of Directors may determine without pre-emption right for the existing shareholders. The nominal value and the subscription price may, however, be higher or lower as a result of any adjustment made in accordance with the terms of the warrants.

The new shares issued based on issued, reused or reissued warrants shall from the time of subscription have the same rights as existing shares according to the Articles of Association. The new shares shall be negotiable instruments, shall be registered in the names of the holders, and shall be entered in the Company's register of shareholders. No restrictions in the transferability of the new shares shall apply and no shareholder shall be obliged to allow for their shares to be redeemed - in whole or in part. The new shares shall be eligible for dividends from the time of subscription.

Section 19

In accordance with authorisations in Article 5b of the Articles of Association and Section 17 of this Appendix 1, on 11 November 2020 the Board of Directors has issued and reissued 1,280,258 warrants, providing the right to subscribe to a maximum of 1,280,258 shares, each with a nominal value of DKK 10 (a total nominal value of DKK 12,802,580), at a rate of DKK 206.82 per share of nominal value DKK 10. The number of shares and the subscription price may, however, be higher or lower as a result of any adjustment made in accordance with the terms of the warrants determined by the Board of Directors. 23,981 of the warrants have been reissued under Section 17 of this Appendix 1.

Subscription for shares according to the awarded warrants can be made, wholly or partly, in periods of each 2 weeks (1) first time being after the publication of the Company's annual report for 2023; (2) second time being after the publication of the Company's quarterly report (Q1) for the first 3 months of 2024; (3) third time being after the publication of the Company's quarterly report (Q2) for the first 6 months of 2024; (4) fourth time being after the publication of the Company's quarterly report (Q3) for the first 9 months of 2024; (5) fifth time being after the publication of the Company's annual report for 2024; (6) sixth time being after the publication of the Company's quarterly report (Q1) for the first 3 months of 2025; (7) seventh time being after the publication of the Company's quarterly report (Q2) for the first 6 months of 2025; and/or (8) eighth time being after the publication of the Company's quarterly report (Q3) for the first 9 months of 2025. Warrants that are not exercised electronically in the first subscription period may be exercised in subsequent subscription periods, always provided that any warrants not exercised at the expiry of the last subscription period will lapse without notice and without compensation.

If a warrant holder holds inside information at any time during the last subscription period, the Board of Directors may grant such a warrant holder a right to exercise warrants during a period of 2 weeks after the first publication by the Company of a quarterly or annual report after the expiry of the last subscription period (an "Extraordinary Window"). The Board of Directors is not obliged to offer a warrant holder an Extraordinary Window and any such decision shall be made in due consideration of the Remuneration Policy. The Board of Directors may decide to expand the subscription period by one or more Extraordinary Windows.

The existing shareholders of the Company do not have any pre-emption rights with regard to the Warrants or shares subscribed for pursuant thereto.

The warrants cannot be assigned or placed as collateral by the warrant holder to third party.

In the event that (i) a majority of the Company's shares is sold, meaning that at least a third of the Company's share capital is transferred to a third party (who may be an existing shareholder of the Company) or (ii) the Company is dissolved, including by merger or demerger, the Company's Board of Directors may decide:

That warrant holders must exercise all or part of the warrants that have been granted, whether they have vested or not, and transfer the shares on the same terms as the other transferring shareholders (or waive the right to such Warrants in which case they will lapse); or

That warrant holders will retain the warrants that have been granted on unchanged terms.

If, before the warrants have been exercised in full, a resolution is passed in the Company to increase the share capital, issue warrants, convertible debt instruments or other instruments, allowing subscription for shares at a price not lower than the market value, this will not affect the terms of the warrants. Nor will the terms of the warrants be affected by any resolution to increase the share capital in order to allow employees, consultants or directors of the Company or its subsidiaries to subscribe for shares at a price which is lower than the market value.

If, before the warrants have been exercised in full, a resolution is passed in the Company (i) to increase the share capital, issue warrants, convertible debt instruments or other instruments to any persons other than the employees, consultants or directors of the Company or its subsidiaries, allowing subscription for shares at a price which is lower than the market value, (ii) to reduce the Company's share capital to cover any loss, (iii) to reduce the Company's share capital to make distributions to the shareholders, or (iv) to carry out payment of dividend, and such change reduces or increases the potential gain on the warrants, the exercise price and/or the number of shares that may be subscribed for by the exercise of warrants must be adjusted to ensure that the potential gain on the warrants remains unchanged. If, before the warrants have been exercised in full, a resolution is passed to reduce the Company's share capital to make distributions to the shareholders, and such change does not reduce or increase the potential gain on the warrants, the exercise price and/or the number of shares that may be subscribed for by the exercise of warrants will not be adjusted. Warrants to employees of Bavarian Nordic Inc. are, however, subject to additional adjustment provisions.

For the exercise of awarded warrants, the Board of Directors has decided on an increase of the Company's share capital in one or more portions by a total nominal

value of up to DKK 12,802,580 by cash payment at a price of DKK 206.82 per share of nominal value DKK 10 and without pre-emption right for the Company's existing shareholders. The number of shares and the subscription price may, however, be higher or lower as a result of any adjustment made in accordance with the terms of the warrants. The details and terms for the issuance of shares have been established by the Board of Directors.

In each subscription period, the Company may at its discretion decide that the warrant holder shall exercise his/her warrants by full or partial settlement in treasury shares rather than subscribing for new shares. Settlement in treasury shares may be effected by:

a) The Company delivering one (1) treasury share of nominally DKK 10 for each exercised warrant against the warrant holder's payment of consideration in an amount equivalent to the subscription price; or

b) The Company delivering a number of treasury shares with an aggregate market value corresponding to the difference between (i) the aggregate market value of the number of shares that would have been subscribed for under the exercised warrants and (ii) the aggregate subscription price of such warrants. If the difference between the aggregate market value of the shares and the aggregate subscription price does not correspond to the market value of a whole number of treasury shares, the number of treasury shares to be delivered by the Company shall be rounded up or down to the nearest whole number. For the purpose of this subsection b), the market value of the shares in the Company shall be determined based on the average market price (closing price) of the shares in the Company as quoted on the Danish Stock Exchange Nasdaq Copenhagen over the last five (5) business days prior to expiry of the relevant subscription period.

If the Company decides to exercise the right to settlement in treasury shares, the Company must notify the warrant holder hereof before expiry of the subscription period. If the Company decides to settle in treasury shares as described in subsection b) above, the warrant holder shall not pay the subscription price for the shares under the warrants that are being settled in treasury shares and any part of such subscription price already paid by the warrant holder to the Company will be repaid to the warrant holder within 30 days after expiry of the relevant subscription period.

The Board of Directors may during the period ending 31 December 2021 in one or more portions reuse or reissue any lapsed and unexercised warrants issued in accordance with this section. Reuse is to be construed as the Board of Directors' entitlement to let another party enter into an existing agreement on warrants. Reissue is to be construed as the Board of Directors' option to reissue new warrants, under the same authorisation, if previously issued warrants have lapsed.

The warrants may be reused or reissued to the management and employees of the Company or its subsidiaries. Warrants may be reissued for the subscription of shares

by cash contribution at a subscription price and on such other terms as the Board of Directors may determine in accordance with the original authorisation. Any issuance of warrants to the management shall be made in accordance with the Company's remuneration policy.

Holders of warrants shall have pre-emption right to subscribe for the shares issued based on the warrants, meaning that the pre-emption rights to subscribe to warrants and new shares for existing shareholders' are deviated from.

If and to the extent that warrants are reissued, the Board of Directors is authorised during the period until 1 April 2025 to resolve on the related capital increase by a nominal value of up to DKK 12,802,580 in one or more portions by cash contribution at a subscription price and on such other terms as the Board of Directors may determine without pre-emption right for the existing shareholders. The number of shares and the subscription price may, however, be higher or lower as a result of any adjustment made in accordance with the terms of the warrants.

The new shares issued based on issued, reused or reissued warrants shall from the date of registration with the Danish Business Authority have the same rights as existing shares according to the Articles of Association. The new shares shall be negotiable instruments, shall be registered in the names of the holders, and shall be entered in the Company's register of shareholders. No restrictions in the transferability of the new shares shall apply and no shareholder shall be obliged to allow for their shares to be redeemed - in whole or in part. The new shares shall be eligible for dividends from the time of subscription.

Section 8: Arrests, Detentions, Litigations, Arbitrations.	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		✓
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		✓
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)		✓
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		✓
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?		✓
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✓
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✓
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✓
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✓

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. 13BSBIY1568

Application/License No. _____

Bayshore Pharmaceuticals, LLC (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 788 Morris Turnpike, Suite 200, Short Hills, NJ 07078 (Address of Applicant/Principal), as PRINCIPAL, and Hartford Fire Insurance Company (Surety Company), a corporation organized under the laws of the state of Connecticut (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is 200 Colonial Center Pkwy, Lake Mary, FL 32746 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of TWENTY-FIVE THOUSAND DOLLARS ($25,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on October 1, 2022 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statue (NRS) 639.515 and Nevada Administrative Code (NAC) 639.5937 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $25,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

13BSBIY1568

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and NAC 639.5937 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515 and NAC 639.5937. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 30th day of September, 2022.

Business Description

Business Description

BWXT Medical Ltd. is a supplier of nuclear medicine products for use in diagnostic imaging and therapeutic treatments. We are dedicated to developing, manufacturing and supplying the highest quality radioactive isotopes, pharmaceuticals and medical devices to aid millions of patients around the world.

Our customers include Life Science companies, radio-pharmacies, hospitals and researchers ultimately reaching patients. Our commitment to providing hope and health for patients is unwavering, as is our dedication to safety and quality for every aspect of our business.

Our growing product and service portfolio is backed by a proven track record gained from over 40 years of experience.

Our exemplary record of regulatory compliance with key regulatory agencies including US Food and Drug Administration, Health Canada, US Nuclear Regulatory Commission (NRC), Canadian Nuclear Safety Commission (CNSC) and other similar agencies around the world. BWXT Medical Ltd. is registered with the CNSC as having a Class 1B Nuclear Substance Processing Facility Licence. BWXT Medical Ltd. is registered and licensed with Health Canada and as a drug and medical device manufacturer with the FDA and reported no recalls since the last inspection.

Our robust logistics experience for global distribution of nuclear medicine products is reflective of current regulations such as the Canadian Nuclear Safety Commission (CNSC); the Canadian Transportation of Dangerous Goods Act (TDG); the International Civil Aviation Organization (ICAO); the International Air Transport Association (IATA); US Code of Federal Regulations (CFR).

Headquartered in Ottawa, Ontario, BWXT Medical Ltd. employs over 150 highly-skilled people in Ottawa. We manufacture custom radiopharmaceuticals, radiotherapies and medical isotopes in our 80,000 ft^2 cGMP manufacturing facility in Ottawa. Administrative hours of operation are from 8am to 4pm. Production hours of operation are Sunday through Thursday 7am to 12am and Friday 7am to 10pm.

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. SUR0032659

Application/License No. Wholesaler

BWXT Medical Ltd. (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 447 March Road, Ottawa, Ontario, K2K 1X8, Canada (Address of Applicant/Principal), as PRINCIPAL, and Argonaut Insurance Company (Surety Company), a corporation organized under the laws of the state of Illinois (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is PO Box 469011, San Antonio, TX 78246 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of TWENTY-FIVE THOUSAND DOLLARS ($25,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on May 1, 2022 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statue (NRS) 639.515 and Nevada Administrative Code (NAC) 639.5937 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $25,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and NAC 639.5937 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515 and NAC 639.5937. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 1st day of May, 2022.

POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS: That the Argonaut Insurance Company, a Corporation duly organized and existing under the laws of the State of Illinois and having its principal office in the County of Cook, Illinois does hereby nominate, constitute and appoint:

David T. Miclette, Barry K. McCord, Ashley Britt, Rita G. Gulizo, Nikole Jeannette, Robert C. Davis, Alyson Carmichael, Lauren O. Moudy, Robert M. Overbey, Jr., Lacey Hitchcock, Stacey Bosley, Stacy Owens

Their true and lawful agent(s) and attorney(s)-in-fact, each in their separate capacity if more than one is named above, to make, execute, seal and deliver for and on its behalf as surety, and as its act and deed any and all bonds, contracts, agreements of indemnity and other undertakings in suretyship provided, however, that the penal sum of any one such instrument executed hereunder shall not exceed the sum of:

$97,550,000.00

This Power of Attorney is granted and is signed and sealed under and by the authority of the following Resolution adopted by the Board of Directors of Argonaut Insurance Company:

"RESOLVED, That the President, Senior Vice President, Vice President, Assistant Vice President, Secretary, Treasurer and each of them hereby is authorized to execute powers of attorney, and such authority can be executed by use of facsimile signature, which may be attested or acknowledged by any officer or attorney, of the Company, qualifying the attorney or attorneys named in the given power of attorney, to execute in behalf of, and acknowledge as the act and deed of the Argonaut Insurance Company, all bond undertakings and contracts of suretyship, and to affix the corporate seal thereto."

IN WITNESS WHEREOF, Argonaut Insurance Company has caused its official seal to be hereunto affixed and these presents to be signed by its duly authorized officer on the 19th day of November, 2021.

Return Receipt Requested

08/08/2019

Mr. Thomas R. Burnett
General Manager and Vice President
BWXT ITG Canada Inc.
447 March Rd
Kanata, K2K 1X8, Ontario
CA

Dear Mr. Burnett:

The U.S. Food and Drug Administration (FDA) conducted an inspection at BWXT ITG Canada Inc., FEI: 3001092088, located at 447 March Rd, Kanata,,Ontario CA from 06/03/2019 - 06/07/2019. FDA has determined that the inspection classification of this facility is "no action indicated" ('NAI')[1]. Based on this inspection, this facility is considered to be in an acceptable state of compliance with regards to current good manufacturing practice (CGMP).

This letter is not intended as an endorsement or certification of the facility. It remains your responsibility to ensure continued compliance with CGMP.

An inspection classification of NAI for CGMP compliance will not directly negatively impact FDA's assessment of any pending marketing application referencing this facility. Please note, however, that application approval will depend on a product- and application-specific facility assessment conducted by the appropriate CDER or CVM review office. This letter does not address or reflect FDA's decision making with respect to any potential non-CGMP compliance issues.

FDA has concluded that this inspection is "closed" under 21 CFR 20.64(d)(3), and we are enclosing a copy of the narrative portion of the Establishment Inspection Report (EIR). It may reflect redactions made by FDA in accordance with the Freedom of Information Act (FOIA) and 21 CFR part 20. This, however, does not preclude you from requesting additional information under FOIA.

If you have any questions regarding this letter, you may contact John Diehl via telephone at 214-253-5288 or email at john.diehl@fda.hhs.gov.

Sincerely,

Lareese K. Thomas -S

SUMMARY

This abbreviated fiscal year 2019 PET drug inspection of BWXT ITG Canada Inc (hereafter referred to as the firm) was conducted at the request of the Office of Pharmaceutical Quality Operations, Division II eNSpect assignment operation ID #121039. Coverage was given under Good Manufacturing Practice Guide for Active Pharmaceutical Ingredients Q7, Compliance Program Guidance Manual (CPGM)7356.002P- PET CGMP Process and Pre-Approval Inspections/Investigations and CPGM 7356.002F Active Pharmaceutical Ingredient (API) Process Inspection.

The firm's previous FDA inspection was conducted in November 2016. The inspection was classified VAI and revealed the following deficiencies:

---Failure to initiate deviation investigations when instruments are out-of-tolerance

---Utilizing non-dedicated equipment for radiochemical and API

---Production equipment records lack date placed into service and date of equipment transfer as applicable

---Deficient electronic system to monitor equipment maintenance, calibration and work orders

---Not properly initiating deviations for returned product

--- Deficient Sodium Molybdate (Mo-99) master production and control record and corresponding SOP

--- Poor documentation control as evidenced by utilizing obsolete instrument calibration forms and lack of timely quality review of calibration documents

The corrective actions to these observations were determined to be adequate.

The current inspection revealed the firm has not distributed any APIs or drug products since the last inspection. The firm intends to begin commercial manufacturing for terminally sterilized PET drug product Indium-111 (ANDA 202586), in September 2019. The products covered during this inspection were APIs Mo-99, Xenon I-133, Sodium Iodide I-131 and PET drug product Indium-111 Oxyquinoline. Standard Operating Procedures (SOPs), equipment maintenance records, deviation records, supplier audits, environmental monitoring records, annual product reviews (APRs), master production and control records and training records related to the aforementioned products were amongst the documents reviewed. Processes reviewed included receiving, warehousing, manufacturing, packaging and labeling. Systems not covered during the inspection were Production, Packaging and Labeling, Laboratory and Facilities and Equipment. At the end of the inspection, the following items were discussed with Thomas R. Burnett, General Manager and Vice President:

---Failure to establish clear timeframes for discrepancy and failure investigations

---Deficient SOPs (complaints, environmental monitoring)

---Failure to adhere to SOPs (supplier audits, APRs)

Management verbalized their intention to implement corrective actions to the items discussed.

HISTORY

As seen in the firm's opening presentation, BWXT Inc. **(Exhibit 1)** is a publicly traded company with eleven major manufacturing facilities. Their headquarters are in Lynchburg, VA. In 2018, Nordion Medical Isotope acquired the firm. The firm's manufacturing of non-sterile API Sodium Molybdate (Mo-99) has been on hold since 2017 to allow significant changes to its manufacturing process. Mo-99 is used in technetium generators to produce a sterile drug product. The firm currently manufactures medical device, Therasphere, weekly and plans to initiate the manufacture of PET drug product Indium-111 Oxyquinoline in September 2019. Indium-111 will be used to image infections. The firm has not distributed any drugs since the last inspection.

The firm reported no recalls since the last inspection. They have approximately 150 employees. Administrative hours of operation are from 8am to 4pm. Production hours of operation are Sunday 7am to 12am, Monday through Thursday 7am to 12am and Friday 7am to 10pm. The firm is registered as a drug and medical device manufacturer with the FDA.

The preapproval inspection of Indium-111 occurred in August 2011 and was classified Voluntary Action Indicated (VAI) with the following FDA form 483 observation:

-Failure to adhere to "Deviations from Approved Procedures" SOP

INTERSTATE (I.S.) COMMERCE

Beginning in September 2019, the firm intends to manufacture sterile drug Indium-111 Oxyquinoline for distribution to US customers. Additionally, upon completion of significant changes to its manufacturing process, the firm intends to manufacture and distribute API Sodium Molybdate (Mo-99) to US customers. Services and products are advertised on www.BWXT.com.

Establishment Inspection Report	FEI:	3001092088
BWXT ITG Canada Inc.	EI Start:	6/3/2019
Kanata, K2K 1X8	EI End:	6/7/2019

JURISDICTION (PRODUCTS MANUFACTURED AND/OR DISTRIBUTED)
The firm's manufacture of PET drug product and APIs subjects them to the Food Drug and Cosmetic Act. The firm provided a list of their products **(Exhibit 1, p. 8)**

INDIVIDUAL RESPONSIBILITY AND PERSONS INTERVIEWED

The firm provided organizational charts **(Exhibit 1, pages 9-12)** detailing the chain of command. The following individuals provided information during the inspection related to their areas of responsibility except as indicated.

Thomas R. Burnett, General Manager and Vice President- Mr. Burnett is the most responsible individual at the firm. He oversees production activities, finance, regulatory, quality, sales, customer service, marketing, human resources and engineering. He has the power to hire, fire and spend money to make corrections to inspectional observations. He has been with the firm since 2017 and previously worked with Nordion from 2006 to 2015.

Tapashi (NMI) Dasgupta, Ph. D, CQA Manager, Global Regulatory Affairs- Ms. Dasgupta manages regulatory submissions (drug applications, facility registration, drug listings), assists quality assurance and releases batches. She has been with the firm for 18 years.

Katie A. Robb, Director, Quality Assurance- Ms. Robb oversees quality management system, calibration and document management. She has been with the firm for 21 years.

Kip L Stevens, Quality Assurance Manager- Mr. Stevens oversees quality control activities, testing of raw materials/intermediate drug product/final drug product. His group is also involved in environmental monitoring.

Lori L Trader, Quality Assurance Manager- Ms. Trader oversees calibration and measurement labs for APIs. Measurement labs conduct gamma measurements, impurities and radioactive activity.

Yvonne C. Pierce, Environmental Health Safety Assistant- Ms. Pierce manages training for firm employees. She has been with the firm for 17 years.

Benjamin W. Daniel, Project Specialist- Mr. Daniel has been with the firm for 18 years. He has worked in both ITG and NOG-L (Nuclear Operations Group). He was an observer during the inspection and did not provide any relevant information. He operates out of a Virginia office and works in research and development. His responsibilities include FDA compliance, planning, proposals and purchasing. He reports to Eric Jennings, Project Engineering and Controls Manager.

FIRM'S TRAINING PROGRAM

Since June 2012, the firm has utilized Pilgrim Electronic Quality Management System (EQMS) Smart Solve software platform to manage personnel training. The firm has document and course training. Course training can be on-site or off-site and includes on-the-job training (OJT) and instructor led training. Training assessments are mandated for some environmental health and safety courses. Employees may be exempted from having to complete OJT if the training occurred prior to the implementation of EQMS and the employee has demonstrated the appropriate competency and skill level to perform the operation. Exemptions are required to be documented and signed by a subject matter expert, manager or occupational health specialist. Training requirements are reassessed every two years. A review of QA manager Kip Stevens training record revealed no significant deficiencies.

MANUFACTURING/DESIGN OPERATIONS

Reviewing of the processes described below included SOP and corresponding documentation review. Documentation review was limited as the firm has not manufactured APIs or drug products since the last inspection. Indium-111 batches were last manufactured in 2014 for bioequivalence testing and method validation. APIs Mo-99, Xenon-133 and I-133 were last manufactured in 2016.

QUALITY

Processes reviewed for the quality system included environmental monitoring, complaints, APRs, discrepancy and failure investigations, sterility testing, endotoxin testing, visual inspection of finished product and stability. No deficiencies were identified in the processes reviewed except as indicated below.

Environmental Monitoring- I reviewed SOPs and corresponding documentation related to viable environmental monitoring of the following Indium-111 Iso 5 (Class 100), 7(Class 10,000) and 8 (Class 100, 000) clean rooms: component prep-Room 1535, production-Room 1212, sterility testing-Room 1217 and micro lab-Room 1226. The firm's production-Room 1212 is not being maintained at its Iso classifications as it has not been used since the manufacture of Indium-111 batches in 2014. The sterility testing-Room 1217 is not consistently maintained at its Iso classification due to the room only being utilized once a year for medical device testing.

When environmental monitoring alert or action levels are met or exceeded, environmental notices are initiated. A review of the firm's environmental notice SOP revealed it lacked specific information related to what constitutes a concerning trend. This observation is described under **Discussion Item 1** in the *Discussion with Management* section of this report.

Complaints- The firm reported receiving no complaints since the last inspection. A review of the firm's complaint SOP revealed that it was deficient as it relates to the handling of API complaints. This observation is described under **Discussion Item 2** in the *Discussion with Management* section of this report.

APRs- A review of the most recent API APRs revealed they lacked critical equipment qualification status as required by the firm's SOP. This observation is described in detail under **Discussion Item 3** in the *Discussion with Management* section of this report.

Discrepancy and Failure Investigations- A review of the firm's non-conformance and out of specification (OOS) investigation SOPs revealed that they lacked clear timeframes. This observation is described in detail under **Discussion Item 4** in the *Discussion with Management* section of this report.

The firm reported two discrepancy and failure investigations since the last inspection. A review of the investigations revealed they were related to shifting temperature probes in their autoclave resulting in out of calibration tolerance readings. The autoclave will be used to terminally sterilize Indium-111.

Stability program- The firm has established a stability protocol for Indium 111 which requires placing at least one lot, every six months, on stability. Eight randomly selected vials from each lot will be used for stability testing. Testing will occur on day 12 or greater. Container appearance, septum appearance and pH tests will be utilized to assess the integrity of the product's container/closure. Radioactivity, 8-Hydroxyquinoline concentration, radiochemical purity and appearance of the product will also be assessed.

Aseptic Sterility Control

Sterility Testing- Sterility testing of Indium 111 will be conducted in the firm's QC sterility clean room within an Iso 5 hot cell (glove box 64). Samples will be tested per USP. If microbial growth can be attributed to faulty aseptic technique or materials, the firm will invalidate and repeat the test. If microbial growth is observed in the negative control but not in the sterility test samples, the firm will consider that a passing sterility test.

Endotoxins Testing-The firm determines bacterial endotoxin level in Indium-111 via a Limulus Amoebocyte Lysate (LAL) test using the gel clot method. Positive results are tested at different dilutions to determine concentration of endotoxin in the sample. Tests are repeated under the following conditions:

Standards are not within a two-fold dilution of the labelled lysate sensitivity

Positive controls do not yield positive results

Negative controls do not yield negative results

Product positive controls do not yield positive results

Visual examination of finished product vials- The firm requires visual inspection of 100% of the finished product vials after sterilization. Visual inspection is performed on the day the product is manufactured and includes observation of particulates, crimp quality and vial label content and integrity. The vial is rejected if: there are issues with the vial's crimp, label or if particles are observed in the product.

MATERIALS

Processes reviewed for this system included supplier qualifications, storage under quarantine, examination and testing of components/containers/closures. No deficiencies were identified in this system except as indicated below.

Supplier qualification- The inspection revealed that the firm failed to adhere to their supplier qualification SOP as it relates to the auditing of their critical raw material supplier. This observation is described in detail under **Discnssion Item 5** in the *Discussion with Management* section of this report.

Storage under quarantine and disposition decisions- Upon receipt, materials are quarantined, labeled with a red quarantine sticker and sampled. Samples are labeled with red quarantine stickers and moved to QC Radiochemical, QC Radiopharmaceutical or submitted to a 3rd party laboratory. Samples moved to QC are placed in cabinets or storage areas labeled "quarantine." Materials are tested per their sampling plans. The firm assigns a lot number to raw materials upon disposition. Released materials receive a green release label, non-conforming material receives a red or pink reject label.

Examination of containers and closures for conformance to written specifications- The firm's container/closures for Indium 111 consists of 2ml vials, 13mm septas and 13mm aluminum seals. Firm personnel visually verify the product's adherence to its COA with the exception of the following:

Endotoxin testing of septa is conducted in-house

Physiochemical and biological reactivity testing of septa is conducted in-house

Testing of vial per USP 660 is conducted by a 3rd party

Component identity testing- The firm does not conduct identity testing on Indium-111 ingredients as finished product testing ensures that the correct components have been used. Indium, polysorbate 80, HEPES and sodium chloride are all received from 3rd party suppliers.

MANUFACTURING CODES

The firm's plan for assigning finished product lot numbers to Indium-111 is as follows

YY= last two digits of the year

92= Code to identify Indium-111

###= Sequential number starting with 001 each year or Sequential number starting with 901 each year if it is a run that occurred after a failed or aborted radiopharmaceutical production run.

Examples:

2092001= First Indium-111 run in 2020

2092901=First repeat Indium-111 run in 2020

COMPLAINTS

The firm reported receiving no complaints since the last inspection. A review of the complaint SOP revealed that it lacked the requirement to document the address of the complainant for API complaints. Additionally, the SOP lacked a requirement to document the disposition decision of an API lot associated with a complaint. This observation is described in detail under **Discussion Item 2** in the *Discussion with Management* section of this report.

Establishment Inspection Report	FEI:	3001092088
BWXT ITG Canada Inc.	EI Start:	6/3/2019
Kanata, K2K 1X8	EI End:	6/7/2019

RECALL PROCEDURES

The firm has established "Drug Product and Active Pharmaceutical Ingredient Recall Procedure" to handle recalls. No significant deficiencies were identified in the SOP.

OBJECTIONABLE CONDITIONS AND MANAGEMENT'S RESPONSE

Observations listed on form FDA 483

The firm did not receive a Form FDA 483.

REFUSALS

No refusals were encountered.

GENERAL DISCUSSION WITH MANAGEMENT

Thomas Nurnett, Vice President, General Manager; Daniel Green, Quality Assurance Specialist; Katie Robb, QA Director, Andree Marius, Sr. QA Specialist; Tapashi Dasgupta, Regulatory Affairs Manager and Ronald McGregor, Vice President Regulatory Environmental Health Services Compliance were present for the close-out discussion.

Discussion Item 1---- Deficient Environmental Monitoring SOP---When environmental monitoring alert or action levels are met or exceeded in the firm's clean rooms, environmental notices are initiated. A review of the page 3, section 5.2.3.2 of the firm's environmental notice SOP **(Exhibit 2)** revealed that an investigation and corrective action should be recommended by the QA manager or designate when a concerning trend is observed. The SOP lacked specific information related to what constitutes a concerning trend. I asked Ms. Robb if assessment criteria has been established to determine when a trend is concerning and she stated no. I asked Ms. Robb for examples of what constitutes a concerning trend and she was unable to provide any. I asked Ms. Robb if negative trends are concerning and she stated no. I informed Ms. Robb that a "concerning trend" is subjective and the firm should have a SOP containing trend assessment criteria and/or examples of concerning trends so that investigations and corrective actions are appropriately recommended.

Discussion Item 2-----Deficient Complaint SOP---The firm's complaint SOP **(Exhibit 3)** fails to require documentation of the complainant's address for API complaints. Additionally, the SOP does not require documentation of the final disposition decision on the API lot associated with the complaint.

Establishment Inspection Report	FEI:	**3001092088**
BWXT ITG Canada Inc.	EI Start:	6/3/2019
Kanata, K2K 1X8	EI End:	6/7/2019

Discussion Item 3-----Deficient APRs--- According to the firm's APR SOP **(Exhibit 4)**, APRs should include the qualification status of critical pieces of equipment. A review of the firm's Xe133, Mo99 and Sodium Iodide I-131 API APRs **(Exhibit 5, 6, 7)** revealed they lacked the qualification status of critical equipment to include major pieces of analytical equipment. Additionally, the APRs and APR SOP lacked which pieces of equipment are considered both critical and in need of qualification.

Discussion Item 4----Discrepancy and Failure investigation timeframes---

The firm defines nonconformances as products or materials that do not conform to specified requirements or whose quality is indeterminate.

The firm defines a "no-test" as a type of OOS occurring when method controls (e.g system suitability samples) or acceptance criteria of assay performance (e.g % relative standard deviation for radioactivity concentration) are not met or a known error has occurred in the execution of the assay. A "no-test" only applies if final reportable test results have not been obtained or are within specification.

A review of the firm's "Handling of Non-Conforming Product and Related Material" and "Investigation of Out of Specification Test Results" SOPs **(Exhibit 13, 14)** revealed a timeframe for completion as 30 days. There is no indication as to whether this is 30 calendar days or working days. Additionally, there is no target timeframe for the initiation of an investigation. The OOS SOP only mentions that the initiation of the investigation should be "prompt."

Discussion Item 5------Deficient adherence to Supplier Audit SOP---The firm classifies the suppliers they utilize in the manufacture of their APIs and drug products as approved or critical suppliers. An approved supplier supplies products and/or services that have a direct impact on the quality of an API or drug product. A critical supplier is a quality related subset of an approved supplier. Per versions 19*p. 3, 9*, 20 *p 3, 8* and 21*p. 3, 9*(effective dates 5/20/2016 to 6/13/2018 **Exhibits 8, 9, 10, 11)** of the firm's "Supplier Quality Audits" SOP, critical suppliers should be audited every two years and provide a crucial service, raw material or component that could cause significant degradation in the safety and performance of the API or drug product if they do not meet specified requirements. Contract manufacturers; critical API ingredient suppliers; critical excipient suppliers and contract test labs are considered critical suppliers. The inspection revealed that it has been nearly five years since the firm attempted to audit one of their critical raw material suppliers, Avantor. A review of the critical supplier audit status list **(Exhibit 12)** and Avantor audit documentation revealed the last audit was in August 2014. Avantor provides the firm Sodium Hypochlorite (an ingredient in API Mo-99), Polysorbate 80, (an ingredient in Indium 111) and N hydrochloric acid (an ingredient used in the manufacturing process of Indium 111) . According to Ms. Robb, Quality Director, Avantor is a difficult supplier who in 2014 refused the firm's audit questionnaire and on-site audit requests on the grounds of the firm not spending enough money with them. In 2014, Avantor provided a limited amount of general information about their operations to the firm and informed them of the spending threshold necessary to allow a questionnaire or on-site audit. The information Avantor provided to the firm was only what they wanted to provide and not what the firm requested they provide. According to Ms. Rob, the firm will attempt to audit Avantor this year.

Establishment Inspection Report	FEI:	**3001092088**
BWXT ITG Canada Inc.	EI Start:	6/3/2019
Kanata, K2K 1X8	EI End:	6/7/2019

ADDITIONAL INFORMATION
The firm provided a list of their major raw material and API suppliers **(Exhibit 10, p. 9-10).**

SAMPLES COLLECTED
No samples were collected during the inspection.

VOLUNTARY CORRECTIONS

The firm's quality unit has made the following improvements in response to their November 2016 483 observations:

Observation 1--- Failure to initiate deviation investigations when instruments are out-of-tolerance

The firm has updated their "Nordion Ottawa Site Instrument Maintenance and Calibration" SOP to include a requirement to initiate a deviation investigation for calibration out-of-tolerances and calibrations that cannot be performed as required. The firm also updated the instrument deviation form so that it contains a 30-day due date.

Observation 2---Utilizing non-dedicated equipment for radiochemical and API

The firm has updated their "Nordion Ottawa Site Instrument Maintenance and Calibration" SOP to includc instructions for labeling equipment with process name and tracking equipment movement through logbooks. The firm also updated "Responsibilities for Personnel Involved with the Manufacturing, Testing and Releasing Quality Products" to require equipment used in hot cells to be dedicated by isotype process.

Observation 3---Production equipment records lack date placed into service and date of equipment transfer as applicable

The firm has updated their "Nordion Ottawa Site Instrument Maintenance and Calibration" SOP to include instructions for tracking equipment movement through logbooks. Movement includes in and out of an area or hot cell.

Observation 4---Deficient electronic system to monitor equipment maintenance, calibration and work orders

The firm has updated their "Nordion Ottawa Site Instrument Maintenance and Calibration" SOP to include instructions on how the firm's equipment electronic system coordinator is to manage outstanding work orders.

Establishment Inspection Report	FEI:	3001092088
BWXT ITG Canada Inc.	EI Start:	6/3/2019
Kanata, K2K 1X8	EI End:	6/7/2019

Observation 5---Not properly initiating deviations for returned product

The firm has updated their "Return and Salvaging Procedure for Nordion Drug Products, Medical Devices and APIs" to require a deviation investigation if the reason for a return is a quality concern.

Observation 6---Deficient Mo-99 master production and control record and corresponding SOP

The firm has updated "Molybdenum-99 Purification Process" SOP to clarify instructions for calculating the required volumes of reagent chemicals for the dissolution and formulation of Mo-99.

Observation 7---Poor documentation control as evidenced by utilizing obsolete instrument calibration forms and lack of timely quality review of calibration documents

The firm initiated a CAPA to correct good documentation practice issues.

Observations

#1	Status / Statut : Open / Ouverte Risk / Risque : 2 Good Manufacturing Practices / Bonnes pratiques de fabrication C.02.015 - Quality control department / C.02.015 - Service du contrôle de la qualité **The investigation, handling, and/or reporting of test results that were out-of-specification**

	was inadequate. / L'enquête, le traitement ou la déclaration des résultats d'analyse non conformes aux spécifications étaient inadéquats. **Investigations into deviations, reports, and/or follow-up actions were inadequate. / Les enquêtes, les rapports ou les mesures prises relativement aux écarts étaient inadéquats.** a. Deviations and investigations were not always conducted in a thorough manner to identify the root cause of the issue, and appropriate corrective and preventative actions (CAPA) were not always implemented to prevent recurrence. For example: i. There was no justification for only partially testing lot# 2192021 as a substitute for stability lot # 2192018 which had not been tested for radiochemical purity on time. DN# 10634 was issued due to the incomplete 14 day stability testing for Indium 111 Oxyquinoline, lot# 2192018 which was not tested for radiochemical purity. The firm tested the substitute lot for radiochemical purity only, providing an incomplete assessment of the substitute lot. ii. No CAPA was proposed or implemented in response to a technician error indicated to be the cause of a failing result for assay of HEPES in Indium 111 Oxyquinoline. OOS# 527 was issued for the failing result. During the Phase 1 investigation, it was noted that the additional volume of sample added was greater than the required volume. It was concluded that the failure was a laboratory error due to technician error. There were, however, no corrective and preventative actions taken in response to this observation to prevent reoccurrence. iii. Contrary to the procedure, production investigation was not always conducted and root cause was not always identified for OOS results. For example, OOS# 528 for failure in activity concentration, radionuclidic purity and identity of Indium 111 Oxyquinoline for lot# 2192047. b. Impacts of the delay in CAPA implementation were not always thoroughly assessed and mitigated. For example, the implementation of CAPA to Observation 3 of the 2019 inspection report was delayed by a year after the completion of retrospective review, resulting in the repeat of deviation handling deficiency going unnoticed during this period (e.g. Deviation 10246).
#2	Status / Statut : Open / Ouverte Risk / Risque : 2 Good Manufacturing Practices / Bonnes pratiques de fabrication C.02.015 - Quality control department / C.02.015 - Service du contrôle de la qualité **The receipt, preparation, and/or handling of reagents and culture media was inadequate. / La réception, la préparation ou la manipulation des réactifs et des milieux de culture étaient inadéquates.** Deficiencies were noted with regards to growth promotion testing of solid media: a. Growth promotion testing of Soybean-Casein Digest Agar (TSA) culture media did not include all microorganisms required as per USP requirements (e.g. Staphylococcus aureus and Pseudomonas aeruginosa were not included). b. There was no system in place to ensure compendial changes would be reflected in procedural updates.

	c. Yeast and Mould media strips were used up to 2 weeks after their expiry date without the growth promotion testing committed to in the planned deviation. According to Deviation 10714, growth promotion testing would be conducted at its expiry and at the end of the extension period. However, i. Regarding the growth promotion testing at expiry, the test results were not found although it was recorded on the QC incoming logbook that the sample was received and tested. ii. Regarding the growth promotion testing 2 weeks after expiry, the test results were not found and there was no evidence that it was tested.
#3	Status / Statut : Open / Ouverte Risk / Risque : 2 Good Manufacturing Practices / Bonnes pratiques de fabrication C.02.015 - Quality control department / C.02.015 - Service du contrôle de la qualité **The controls were inadequate for creating, modifying, reviewing, storing, and/or retrieving records. / Les contrôles relatifs à la création, à la modification, à la conservation ou à la récupération des dossiers étaient inadéquats.** a. The control of the software of the Autotitrator PC titrate was deficient. For example: i. Data files from the Autotitrator PC titrate were not protected from deletion. ii. All technicians have administration access on Windows and therefore can change the date and time of the system. (Note: There was a project in place to implement a new software system; however, there was no implementation date for this change.) b. For microbiological testing, there was no program in place, such as random independent verification, for the review of test results, other than sterility testing which required second person verification of results. For all other testing, the reviews conducted by the data reviewer were solely based on the results reported on the worksheets by the analysts. c. Work sheets used for analytical testing and for some manufacturing operations (e.g. 900934.PCR, 920908.ACR, 920804.ACR, 160122.SPE(5), 100105.SPE(6)) were not controlled in a manner that would permit reconciliation and traceability. Operators and QC technicians had access to these non-uniquely identified work sheets in the file cabinet with no requirement for the sheets to be signed out.
#4	Status / Statut : Open / Ouverte Risk / Risque : 2 Good Manufacturing Practices / Bonnes pratiques de fabrication C.02.029 - Sterile products / C.02.029 - Produits stériles **The airborne particle monitoring system was inadequate. / Le système de surveillance des particules aéroportées était inadéquat.** **The company's investigations of microbial contamination in critical areas were inadequate. / Les enquêtes, effectuées par l'entreprise, sur la contamination microbienne dans les aires critiques étaient inadéquates.** The following deficiencies were noted with the environmental monitoring (EM) of Clean

	Room 1212 where In111-Oxyquinoline product is made: a. The non-viable sampling system in Clean Room 1212 was not qualified to demonstrate that it was capable of providing accurate data for all 13 permanent sampling locations. The permanent locations varied in their distance from the semi-automated MetOne sampling unit. While the MetOne unit itself was on a calibration program, there was no data available to support the delivery of non-viable particles to the unit from the sample points through the various tubing configurations. (Repeat, 2019) (Note: Installation verification and qualitative challenge tests were performed following the last inspection but the above deficiency remained unaddressed.) b. Actions were not always taken when environmental monitoring (EM) results exceeded action limits. Investigations only considered whether there were adverse trends, with no impact assessment, no root cause determination and no corrective or preventive actions implemented. For example, excursion EN 5686, where count was 13 cfu/25cm2 and limit was 5 cfu/25cm2. c. The environmental monitoring procedure "Environmental Notice Procedure (100033.SOP (10))" was deficient in that it required an investigation be conducted in response to a concerning trend, but did not define a concerning trend. d. It was noted that there were a number of growth detected in environmental samples in some class 10,000 areas (C-7 and C-8), including several which exceeded alert levels; however, there was no documented justification to explain why this was not considered a negative trend and why no investigations were conducted.
#5	Status / Statut : Open / Ouverte Risk / Risque : 3 Good Manufacturing Practices / Bonnes pratiques de fabrication C.02.005 - Equipment / C.02.005 - Equipement **The preventative maintenance and repair of the equipment was inadequate. / L'entretien préventif et les réparations de l'équipement étaient inadéquats.** There was no equipment preventative maintenance plan for the Autotitrator PC titrate.
#6	Status / Statut : Open / Ouverte Risk / Risque : 3 Good Manufacturing Practices / Bonnes pratiques de fabrication C.02.029 - Sterile products / C.02.029 - Produits stériles **The operators'aseptic practices were inadequate to maintain sterility. / Les pratiques aseptiques des opérateurs pour maintenir la stérilité étaient inadéquates.** Gowning of personnel was not conducted in a manner that would mitigate contamination. For example, a. De-gowning of exiting personnel and gowning of entering personnel were permitted to take place simultaneously in the same airlock.

	b. There was no requirement to sanitize gloves after critical contact during gowning. For example, before zipping up the gown and touching the outside of the gown after inserting hands inside the gown to pull it up. c. Sterile gloves were not put on in an aseptic way. For example, pulling the bottom side of the glove with the gloved hand. (Note: This facility only makes terminally sterilized products.)
#7	Status / Statut : Open / Ouverte Risk / Risque : 3 Good Manufacturing Practices / Bonnes pratiques de fabrication C.02.029 - Sterile products / C.02.029 - Produits stériles **The company's visual inspection of filled containers was inadequate. / L'inspection visuelle, effectuée par le personnel de l'entreprise, des récipients remplis était inadéquate.** There was no justification for the acceptable visual inspection reject rates (e.g. 5% for rejected vials due to particulate, 10% for total rejected vials). Historical data appeared to be much lower than these reject rates.
#8	Status / Statut : Open / Ouverte Risk / Risque : 3 Good Manufacturing Practices / Bonnes pratiques de fabrication C.02.006 - Personnel / C.02.006 - Personnel **The training of personnel in good manufacturing practices and/or the maintenance of records was inadequate. / La formation du personnel sur les bonnes pratiques de fabrication ou sur la tenue des dossiers était inadéquate.** a. There was no assurance that training was completed by personnel before procedures became effective for use. b. There was no documented evidence that the quality control technician training had been reviewed by a second person.
#9	Status / Statut : Open / Ouverte Risk / Risque : 3 Good Manufacturing Practices / Bonnes pratiques de fabrication C.02.020 - Records / C.02.020 - Dossiers **The maintenance of records was inadequate. / La tenue des dossiers était inadéquate.** Poor documentation practices were observed with the Radiochem QC Incoming Logbook 19-10-24 to 22-02-15 which had some incomplete entries (e.g. date of test and person who completed the test).

Attachment

In response to question 1, Jonathan Cirtain has been the President and CEO of BWXT Medical Ltd. since August 1, 2022. He was convicted of a felony on January 4, 1998 for driving while a habitual motor vehicle offender under the Tennessee Motor Vehicle Habitual Offender law, Tennessee §55-10-616 in Shelby, Tennessee. He was sentenced to one year of incarceration for this felony, with the sentence suspended, to one year of probation (ended July 15, 1999) and to a fine and costs of $167.50. Leading up to that conviction, he was convicted of the following misdemeanors: driving under the influence (multiple), public intoxication and driving on a suspended or revoked driver's license; and he was fined for possession of marijuana and related paraphernalia.

Personal Statement of Rehabilitation from Jonathan Cirtain

The circumstances of my conviction as a habitual motor vehicle offender are straightforward (albeit humiliating) to explain.

In 1991, I joined the University of Alabama in Tuscaloosa to play football. This was significant component of my perception of self-value, and I was very excited to get to play for one of the premiere collegiate teams in the United States. Unfortunately, this was short-lived. I suffered an injury shortly into my first year, and I was unable to continue with the team. I moved back to Memphis, Tennessee and back into my parent's home. I quickly became very depressed and starting drinking alcohol. Soon thereafter when driving home from a party, I was arrested for DUI. This was the first in a series of incidents involving alcohol, drugs and automobile operation.

My situation worsened after a severe accident at work where I broke my L-5 vertebra on March 27, 1993. I was able to recover over a period of months, but I did experience residual physical pain and multiple additional issues with discs in my lower back. This additional set back only perpetuated my depression, and I continued to drink and get into trouble. I was eventually charged as a Habitual Motor Vehicle Offender and sentenced to a short term in a state prison.

In 1998, I was 25 years of age. I worked two jobs in 1998 to pay off the attorney fees from my legal issues, and I enrolled in the University of Memphis in January of 1999. While still on probation, I continued to work and pay my legal debts and also complete undergraduate coursework. I earned my Bachelors of Science in Mathematics and a Bachelor's of Science in Physics from the University of Memphis in May of 2001. I was accepted into the physics graduate program at Montana State University in 2001. I became involved in satellite operations and astrophysics, and I was awarded a fellowship to Harvard in 2004. I earned a PhD in Physics from Montana State in 2005 and published my thesis in the Harvard College Library in that same year.

I also met and married my wife while attending the University of Memphis. We have been married for over 20 years, and we have a teenage daughter.

I have been reformed for more than 20 years. I have had no further legal issues. Since graduating from Montana State, I was hired by the Harvard-Smithsonian Center for Astrophysics where I helped design, build, test and launch several instruments for NASA and the Japanese Space Agency. In 2007, I was hired by NASA and my family and I relocated from Cambridge, Massachusetts to Huntsville, Alabama. In 2009, I was promoted to the lead scientist for the Heliophysics and Planetary Research Office while also leading developing of several science payloads. In 2011, I was awarded the United States of America Presidential Early Career Award for Scientists and

Engineers by President Barack Obama. In 2013, NASA asked me to lead an effort to develop a payload system for the new heavy launch vehicle, Space Launch System, and the inaugural launch will include 13 payloads of which 4 are international. I have served on the international climate change assessment committee for the United Nations as well as led multiple international efforts for space and science collaborations. In 2014, I was promoted to Lead Scientist and Manager, Science Research Office for the NASA Marshall Space Flight Center – a position I held until I retired in 2016. After leaving NASA, I started a private company, Astraea, Inc., to collect and use Earth observation data collected by satellites and developed a system to analyze this data for humanitarian and commercial purposes.

In 2017, BWX Technologies, Inc. offered me a position as Director of Commercial Technologies, leading the development of new technologies for nuclear and nuclear medical applications. I have been promoted to Senior Vice President and Chief Technology Officer in 2021 and President and CEO, BWXT Medical Ltd. in 2022.

Attachment 1 Regarding the Top Suppliers

Nature of Business

Catalent Indiana, LLC (Catalent), is a Contract Manufacturing Organization (CMO) offering development and manufacturing services for both pharmaceutical and medical device products. Catalent offers the following services: Bulk Drug Substance (BDS) Production, Formulation, Aseptic Fill, and Finish Manufacturing, and Medical Device Manufacturing.

Catalent has manufacturing capabilities ranging from small quantities for pre-clinical studies to larger volumes necessary for clinical trial purposes and commercialization. Catalent specializes in development services and manufacturing of monoclonal antibody and biotechnology-derived therapeutic protein products for biopharmaceutical organizations. Additionally, Catalent offers development and manufacturing capabilities for syringe and vial filling, including lyophilization for pharmaceutical and medical device applications. Catalent provides customers with clinical trial and commercial products intended for worldwide markets. Catalent manufactures and distributes products at the discretion of its customers. At no time does Catalent hold title to the products it manufactures, as such, Catalent does not have top four suppliers.

Subject: FW: Nevada Out-of-State Wholesaler Application-Catalent Indiana, LLC

WARNING - This email originated from outside the State of Nevada. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Hi Maria,

It was not listed incorrectly, however, Catalent Indiana, LLC, would like to remove the medical device designation from the application. Catalent no longer plans to manufacture/ship any medical devices. If the type of products handled changes for Catalent Indiana, LLC in the future, then the site will advise.

Kindly update your records with this information and continue to process their application.

Sorry for the back and forth.

Regards,

Mansi Shah

Regarding the Resident State License

Pursuant to Section 1(b) of Indiana Code 25-26-14-1, an FDA approved manufacturer is not required to be licensed as a Drug Distributor or Manufacturer within the state of Indiana, or otherwise adhere to the requirements of Indiana Code 25-26-14. Please find a copy of the referenced section of the Indiana Code below.

Catalent Indiana, LLC is registered with the FDA as a contract manufacturer. Verification of this registration may be made via the FDA Drug Establishments Current Registration Site (DECRS) website at the following link:
http://www.accessdata.fda.gov/scripts/cder/drls/default.cfm

IC 25-26-14-1
Application of chapter

Sec. 1. (a) This chapter applies to any individual, partnership, limited liability company, corporation, or business firm:

(1) located in or outside Indiana; and
(2) engaging in the wholesale distribution of legend drugs in Indiana.

(b) Except as required by federal law or regulation, the requirements of this chapter do not apply to a manufacturer that is approved by the federal Food and Drug Administration. However, the board may adopt rules concerning manufacturers that the board considers appropriate and necessary.

(c) The requirements of this chapter do not apply to a medical gas manufacturer or distributor that only manufactures or distributes medical gases.

As added by P.L.182-1991, SEC.3. Amended by P 993, SEC.394; P.L.212-2005, SEC.23; P.L.98-2006, SEC.12.

State of Indiana
Office of the Secretary of State

CERTIFICATE OF EXISTENCE

To Whom These Presents Come, Greeting:

I, HOLLI SULLIVAN, Secretary of State of Indiana, do hereby certify that I am, by virtue of the laws of the State of Indiana, the custodian of the corporate records and the proper official to execute this certificate.

I further certify that records of this office disclose that

CATALENT INDIANA, LLC

duly filed the requisite documents to commence business activities under the laws of the State of Indiana on April 12, 2004, and was in existence or authorized to transact business in the State of Indiana on December 05, 2022.

I further certify this Domestic Limited Liability Company has filed its most recent report required by Indiana law with the Secretary of State, or is not yet required to file such report, and that no notice of withdrawal, dissolution, or expiration has been filed or taken place. All fees, taxes, interest, and penalties owed to Indiana by the domestic or foreign entity and collected by the Secretary of State have been paid.

In Witness Whereof, I have caused to be affixed my signature and the seal of the State of Indiana, at the City of Indianapolis, December 05, 2022

Holli Sullivan

HOLLI SULLIVAN
SECRETARY OF STATE

2004041600112 / 20222895620

All certificates should be validated here: https://bsd.sos.in.gov/ValidateCertificate

Expires on January 04, 2023.

	Section 8: Arrests, Detentions, Litigations, Arbitrations.	Yes	No
	1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		✓
N/A	2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		
	3. Have you ever had a civil or criminal record expunged or sealed by a court order?		✓
	4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)		✓
	5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		✓
	6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?		✓
	7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✓
	8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✓
	9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✓
	10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✓

I, Andrew Espejo, **certify that as the designated representative for** Catalent Indiana, LLC,

that I am qualified as follows and will comply with the following:

1. I am at least 21 years of age;
3. I have been employed for at least 6,000 hours in a pharmacy or with a wholesaler in a capacity related to the dispensing and distribution of, and recordkeeping related to, prescription drugs.
4. I will be actively involved in and aware of the actual daily operations of the pharmacy or wholesaler;
5. I will be employed full-time in a managerial level position with the pharmacy or wholesaler;
6. I will be physically present at site of the pharmacy or at the facility of the wholesaler during regular business hours, except when the absence of the representative is authorized, including sick leaves, vacation leaves and other authorized absences; and
7. I will serve in this representative capacity for only one pharmacy or wholesaler at a time

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. SUR0070569

Application/License No. _____

CATALENT INDIANA, LLC (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 1300 S. Patterson Drive Bloomington, IN 47403 (Address of Applicant/Principal), as PRINCIPAL, and ARGONAUT INSURANCE COMPANY (Surety Company), a corporation organized under the laws of the state of IL (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is P.O. Box 469011 San Antonio, TX 78246 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of TWENTY-FIVE THOUSAND DOLLARS ($25,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on September 21, 2021 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statue (NRS) 639.515 and Nevada Administrative Code (NAC) 639.5937 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $25,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and NAC 639.5937 and said bond shall be subject to all of the terms and provisions thereof
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515 and NAC 639.5937. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 21st day of September, 2021.

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. PB01663400031

Application/License No. _____

Cordis US Corp (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 14201 Northwest 60th Ave. Miami Lakes, FL 33014 (Address of Applicant/Principal), as PRINCIPAL, and Philadelphia Indemnity Insurance Company (Surety Company), a corporation organized under the laws of the state of Pennsylvania (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is One Bala Plaza, Suite 100 Bala Cynwyd, PA 19004-0950 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of ONE HUNDRED THOUSAND DOLLARS ($100,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on 09/06/2022 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statutes (NRS) 639.515 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $100,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 6th day of September, 2022.

MEMORANDUM

To: Cordis US Corp. **From:** Epstein Becker & Green, P.C.[1]

Date: July 19, 2022

Re: Cordis US Corp. – Florida Licensure Requirements for Medical Device Manufacturing

This memorandum summarizes Epstein Becker & Green, P.C.'s ("EBG") review of the Florida's medical device manufacturer permit requirements and their applicability to Cordis US Corp. As set forth, below, Cordis US Corp. is exempt from Florida's device manufacturer permit requirement, as it is registered as a medical device establishment with the U.S. Food and Drug Administration ("FDA"); its medical devices have been cleared or approved by, and each listed with, FDA; and has submitted evidence of its medical device establishment registration and product listings to the Florida Department of Business and Professional Regulation ("FDBPR").

Overview of Cordis US Corp.'s Operations

Cordis US Corp. develops, manufactures and distributes prescription medical devices used in diagnostic and interventional procedures to treat patients with coronary and peripheral vascular diseases. The company's product portfolio consists of devices in the following categories: introducer sheaths, diagnostic guidewires, diagnostic catheters, guiding catheters, stents, percutaneous transluminal angioplasty (PTA) / percutaneous transluminal coronary angioplasty (PTCA), and vascular closure devices. These products are classified as medical devices under applicable standards and regulations. Many of these devices are subject to 510(k) premarket clearances, which are also held by Cordis, and all such products are listed with FDA, as required by federal regulations. Cordis's Miami Lakes, Florida facility is registered as a medical device establishment with FDA (FDA Medical Device Establishment Registration No. 1016427). Cordis does not manufacture any prescription or non-prescription drugs, combination products, or medical devices that include or incorporate a drug component. Further, Cordis does not use, handle, or store any controlled substances.

Applicable Florida Laws

Florida Statute §499.01(o) states that, "[a] device manufacturer permit is required for any person that engages in the manufacture, repackaging, or assembly of medical devices for human use in this state." The permit requirement provides certain exemptions for persons (or companies) that engage in certain manufacturing operations. Specially, a permit is not required if the person

[1] This memorandum was prepared by James Boiani and Jessika Tuazon of EBG.

manufactures, repackages, or assembles medical devices or components for such devices; "which are exempt from registration pursuant to s. 499.015(8))." Fla. Stat. §499.01(o)(1)(b).

Pursuant to Florida Statute §499.015(8)[2], manufacturers that are registered with the U.S. Food and Drug Administration are exempt from registering medical devices with the state if the following conditions are met: (a) the manufacturer's medical devices are approved for marketing by, or listed with the federal Food and Drug Administration in accordance with federal law for commercial distribution; or (b) the manufacturer subcontracts with a manufacturer of medical devices to manufacture components of such devices. In lieu of registering with the state, a manufacturer must submit evidence that it satisfies the requirements of section §499.015(8), including, as applicable, copies of the premarket notification letters, premarket approval numbers, and/or a FDA medical device registration number.[3]

Florida does not appear to require a separate license for activities specific to the distribution of medical devices.

Assessment of Florida Requirements and Communications with the FDBPR

As set forth above, Florida law generally requires manufacturers of medical devices to hold a permit issued by FDBPR. However, manufacturers that hold a medical device facility registration with FDA are exempt from this permit requirement if the facility manufactures devices or components which are exempt from registration, such as devices which are subject to clearance or approval by FDA. Cordis US Corp. only manufactures medical devices that are subject to clearance or approval by FDA (i.e., medical devices that are exempt from registration under Fla. Stat. §499.015(8)). Therefore, the company falls within the exemption set forth in Fla. Stat. §499.01(o) and is not required to apply for or maintain a device manufacturer permit.

The above interpretation of the Florida laws was further confirmed by the FDBPR. On June 28, 2022, EBG communicated by phone with a representative of the FDBPR licensing division[4], who confirmed the FDBPR does not require Cordis US Corp. to maintain a device manufacturer permit. Specifically, the FDBPR represented that it does not currently require manufacturers of medical devices to maintain a manufacturing permit, where the medical devices do not incorporate a prescription drug. As explained above, none of Cordis US Corp.'s medical devices incorporate

---

[2] Fla. Stat. §499.015(8) states:

> Notwithstanding any requirements set forth in this part, a manufacturer of medical devices that is registered with the federal Food and Drug Administration is exempt from this section and s. 499.041(6) if:
> (a) The manufacturer's medical devices are approved for marketing by, or listed with the federal Food and Drug Administration in accordance with federal law for commercial distribution; or
> (b) The manufacturer subcontracts with a manufacturer of medical devices to manufacture components of such devices.

[3] Fla. Stat §499.015(9) states:

> However, the manufacturer must submit evidence of such registration, listing, or approval with its initial application for a permit to do business in this state, as required in s. 499.01, and any changes to such information previously submitted at the time of renewal of the permit. Evidence of approval, listing, and registration by the federal Food and Drug Administration must include:
> (a) For Class II devices, a copy of the premarket notification letter (510K);
> (b) For Class III devices, a federal Food and Drug Administration premarket approval number;
> (c) For a manufacturer who subcontracts with a manufacturer of medical devices to manufacture components of such devices, a federal Food and Drug Administration registration number; or
> (d) For a manufacturer of medical devices whose devices are exempt from premarket approval by the federal Food and Drug Administration, a federal Food and Drug Administration registration number.

[4] EBG communicated with Tehelia McGlockton, Regulatory Specialist II, FDBPR, Drugs, Devices, and Cosmetics division.

prescription drugs. Based on these facts, the FDBPR concluded that the manufacturer permit does not apply to Cordis US Corp.

Following the discussion with FDBPR, on June 30, 2020 and July 8, 2022, Cordis US Corp. provided the FDBPR with the following materials to support its exempt status: a copy of the company's FDA medical device establishment registration; a list of premarket notification clearances (510(k)) held by the company; a sample of 510(k) letters issued by FDA relating to the company's medical devices; and a description of the Company's limited operations with respect to the manufacture and distribution of medical devices. The materials provided to the FDBPR satisfy the state's requirement to provide evidence of the company's medical device establishment registration and product listing in compliance with sections 499.015(8) and 499.015(9) of the Florida Statutes.

Based on our review of applicable state laws and regulations, and consistent with representations and guidance from the FDBPR, EBG concluded that Cordis US Corp. is not required to apply for or maintain a Florida medical device manufacturing permit.

Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?		✓
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✓
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✓
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✓
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✓

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

This is in response to Question #_____. Provide all the following *where applicable*:

RE: Cordis US Corp. – Wholesale Drug Distributor Application
URGENT REQUEST FOR ASSISTANCE AND MEETING

Dear Mr. Wuest:

On behalf of my client, Cordis US Corp. ("Cordis" or the "Applicant"), and in coordination with Cordis' third-party logistics provider, Kuehne + Nagel Inc. ("K+N"), I am contacting you to request your assistance, and an opportunity to meet with the State of Nevada Board of Pharmacy (the "Board") within the next week, regarding the Board's review of Cordis' Wholesale Drug Distributor application and K+N's Third Party Logistics Wholesaler application. Because healthcare facilities and patients in the State of Nevada rely on Cordis' products for use in life-saving diagnostic and interventional cardiovascular and endovascular surgical procedures, we are asking for your assistance in granting full approval of Cordis and K+N's applications or issuing provisional licenses to Cordis and K+N by October 28, 2022 (one week after Cordis' planned operational start date) to avoid disruptions in hospitals' and patients' access to Cordis products.

The following provides background information on Cordis and our application process. Once you have had the opportunity to review Cordis' application, we would request your assistance in issuing a full license or provisional license to Cordis. To help facilitate your review of the application and Cordis' urgent requests below, we, in coordination with K+N, are also requesting a meeting to discuss the matter with you and other Board members as you deem appropriate within the next week to provide time for resolution of this matter and to answer any questions you may have.

Background on Cordis US Corp.

Cordis US Corp. is a well-known and respected global leader in delivering innovative, differentiated cardiovascular and endovascular devices. Since its founding in 1959, Cordis has developed and (virtually) manufactured medical devices for diagnostic and interventional procedures to treat patients with coronary and peripheral vascular diseases. Healthcare facilities and professionals in the State of Nevada have relied on Cordis products for several decades, as Cordis products have a long-standing reputation of quality and regulatory compliance.

Cordis was previously owned by Cardinal Health and was divested to form the independent entity, Cordis US Corp. Cordis products continue to be manufactured by the same contract manufacturing entities as prior to the divestment. Further, as part of the transaction with Cardinal Health, Cordis acquired the facility in Miami Lakes, Florida, which now serves as Cordis' corporate headquarters, and continues to operate the business under the same quality management system as used under the prior ownership. Products manufactured for Cordis are currently being distributed by Cardinal Health[1] to hospitals and healthcare professionals pursuant to a Transition Services Agreement. As the termination date of this arrangement is quickly approaching, Cordis submitted a Wholesale Drug Distribution application on September 30, 2022[2] to establish itself as the sole entity manufacturing and distributing products within its portfolio into the Nevada. Cordis remains focused on ensuring that its products continue to be manufactured and distributed in accordance with the high-quality standards expected by customers and patients.

Cordis has engaged K+N to provide third party logistics services, including warehousing and shipping of medical devices to customers, on Cordis' behalf. Following the expiration of Cordis' agreement with Cardinal Health, all inventory will be transferred to K+N's warehouse located at 4080 Executive Drive, Suite 100, Southaven, Mississippi 38672. We understand that K+N separately submitted an application to the Board for a Third Party Logistics Distributor license in May 2022, but has been unable to obtain any meaningful information about the status of the Board's review of its application. As Cordis is a virtual manufacturer and virtual distributor of its products, in order for Cordis products to be timely delivered to hospitals and healthcare practitioner offices in Nevada, it is also necessary for the Board to approve K+N's pending application. Based on the above, we are requesting a joint meeting with the Board to discuss the Board's review of the pending applications submitted by Cordis and K+N. We understand that

[1] Cardinal Health 200, LLC holds the following licenses issued by the Nevada Board of Pharmacy: (a) the El Paso facility holds licenses WH03257, WH03258, MP01484, and MP01483, and (b) the Olive Branch location holds licenses WH01887 and MP02938.

[2] On September 9, 2022, Cordis submitted a Wholesale Drug Distribution application to the Board; however, this application was returned to Cordis with a note indicating that the application used an outdated template form. Cordis immediately completed a new application on the current template form and re-submitted an application on September 30, 2022.

K+N has separately written to the Board requesting assistance in reviewing and approving its application to avoid putting at risk hospital and patient access to Cordis medical devices.

Request for Provisional License

Cordis believes the Drug Distributor license application and related supplemental materials already submitted to the Board satisfy the Board's requirements for licensure and demonstrate that Cordis is qualified to be licensed as a drug distributor in Nevada. To date, we have not received any information from the Board indicating that additional information is required to finalize approval of Cordis' application.

We acknowledge, however, that we do not have visibility to, nor any control over, the processing of background checks and fingerprints submitted as part of this application by the State of Nevada or the Federal Bureau of Investigation ("FBI"). To the extent the Board has not yet received a background criminal report from the FBI associated with Cordis' application and/or feels it needs additional time to review the pending application, we respectfully request that the Board issue a provisional license pursuant to sections 639.5932[3] and 639.500[4] of the Nevada Administrative Code to allow Cordis to distribute its life-saving products to customers without delay.

As required under Nevada law, Cordis has provided the Board with information documenting the licenses it holds in good standing in other states. Consistent with the application materials submitted to the Board, Cordis reaffirms that it is not, and has not been, under investigation nor subject to an administrative action by any federal or state regulatory agency. Similarly, Cordis is not, and has not been, subject to any litigation related to its operations as a manufacturer or distributor of medical devices. In furtherance of this request for a provisional license, Cordis submits the following materials for the Board's consideration: (a) a list of all sources from which Cordis obtains prescription drugs (in the case of Cordis, prescription medical

[3] Section 639.5932 of the Nevada Administrative Code states:

> The Board may issue a provisional license to an applicant pursuant to subsection 3 of NRS 639.500, if the applicant:
>
> 1. Submits evidence satisfactory to the Board establishing that the applicant is licensed in another state as a wholesaler, that such license is in good standing and that the applicant is not: (a) Under investigation; (b) Subject to an administrative action; or (c) Otherwise engaged in litigation, Ê for a matter related to the practice of the applicant.
> 2. Provides to the Board a list of all sources from which the applicant obtained prescription drugs during the 12 months immediately preceding the date on which the application was submitted.
> 3. Provides to the Board a list of all customers to whom the applicant sold or otherwise provided prescription drugs during the 12 months immediately preceding the date on which the application was submitted.
> 4. Provides all other documents as may be requested by the Board.

[4] Pursuant to section 639.500(3) of the Nevada Administrative Code, "[t]he Board may issue a provisional license to an applicant pending receipt of the reports from the Federal Bureau of Investigation if the Board determines that the applicant is otherwise qualified." NAC § 639.500.

devices); (b) a list of all customers to whom the applicant sold or otherwise provided prescription drugs during the 12 months immediately preceding the date on which the application was submitted; and (c) an updated list of manufacturing and distribution licenses it holds in good standing.[5] Although Cordis believes the information submitted in its application and attached to this letter are sufficient for the Board to issue a permanent license or a provisional license, we can provide other information, as requested by the Board, to ensure prompt approval of Cordis' license application or issuance of a provisional license.

In light of the information provided, I am requesting a teleconference with yourself or members of the Board, as you deem appropriate, to discuss the Board's review of the applications submitted by Cordis and K+N. Please contact me at jtuazon@ebglaw.com or at 310-557-9562 at your earliest convenience so that we can set up a time to meet or discuss this letter in greater detail and a timeline for approval of these licenses or issuance of provisional licenses.

Sincerely,

Jessika Tuazon, Esq.
Counsel to Cordis US Corp.

Late fee issued by Kansas, related to submittal of changes of ownership and name.

Original Signature (electronic, copies or stamps not accepted)

10/7/22
Date

Greenwich Biosciences, LLC ("Greenwich") submitted a late change of ownership notice to the Kansas Board of Pharmacy for its non-resident manufacturer license. Kansas assessed a $500 penalty in connection with this notice in May 2022, which was paid by check dated July 1, 2022. The late notice was caused by a clerical error in connection with the change of ownership. There were no other issues, violations, or discipline associated with this matter.

RE: Case No. 22-138

To Whom it May Concern:

Enclosed you will find a Summary Order issued by the Kansas Board of Pharmacy (Board) in the above-referenced matter. Please read the order in its entirety. In addition, a civil fine has been assessed totaling $500. Please submit a check or money order made payable to the Kansas Board of Pharmacy and include your case number in the check memo.

If you disagree with the findings of fact, you have the right to request a hearing. Instructions for filing a written request are included under the "Notices" section of the order. Hearings are held before the full Board during their regularly scheduled quarterly meetings.

According to KSA 65-1627h, the Board is required to recoup the costs of administrative hearings when the decision is adverse to the licensee. These costs may include charges for services rendered by the Board's disciplinary counsel, an administrative law judge, and, if applicable, a court reporter.

If you have any questions, feel free to contact the Board at Pharmacy.Compliance@ks.gov.

Sincerely,

Kansas Board of Pharmacy

Enclosure

BEFORE THE KANSAS BOARD OF PHARMACY

In the Matter of Greenwich Biosciences, LLC Registration No. 4-117853	)	Case No. 22-138

SUMMARY ORDER

NOW on this 23rd day of May, 2022, comes before the Kansas Board of Pharmacy (the "Board"), through its Executive Director, the matter of Greenwich Biosciences, LLC ("Respondent").

Pursuant to the authority granted to the Board by the Kansas Pharmacy Act, K.S.A. 65-1625, *et seq.*, and in accordance with the Kansas Administrative Procedure Act, K.S.A. 77-501, *et seq.*, the Board's Executive Secretary enters this Summary Order in the above-captioned matter. After reviewing the investigation materials and being otherwise duly advised in the premises, makes the following findings, conclusions and order:

FINDINGS OF FACT

1. The Board has previously issued Respondent Registration No. 4-114538 which entitles Respondent to operate as a non-resident manufacturer in the State of Kansas ("Respondent's Registration").

2. On December 31, 2021, the ownership of Respondent's facility was changed from Greenwich Biosciences, Inc. to Greenwich Biosciences, LLC.

3. On April 29, 2022, the Board received from Respondent a Form BA-04 Manufacturer Registration Application, notifying of the change in ownership from Greenwich

Biosciences, Inc. to Greenwich Biosciences, LLC, effective December 31, 2021, and applying for a new manufacturer registration for the new ownership model.

4. On May 5, 2022, the Board approved Respondent's manufacturer application, effective immediately.

CONCLUSIONS OF LAW

1. Pursuant to K.S.A. 65-1658, the Board may assess a civil fine not to exceed $5,000, after notice and an opportunity to be heard, to any registrant for violation of the pharmacy act of the state of Kansas or any other rules or regulations of the state board of pharmacy.

2. Pursuant to K.S.A. 65-1643, it shall be unlawful for any manufacturer to operate in Kansas without first obtaining a registration as a manufacturer from the Board.

3. Pursuant to K.S.A. 65-1645(f), registrations shall not be transferrable.

4. Pursuant to K.S.A. 65-1643d, the Board shall require an applicant for registration as a manufacturer or virtual manufacturer under K.S.A. 65-1643 to provide the following information: the name, full business address and telephone number of the applicant; the type of ownership or operation of the applicant; the name of the owner or operator of the applicant; and any other information as the board deems appropriate.

5. Respondent's failure to submit the complete change of ownership application to the Board until April 29, 2022 is a violation.

6. Since Respondent utilized the registration issued to the prior owner, Respondent transferred the use of the registration to the new owner.

7. By operating as a manufacturer in the state of Kansas under the old ownership and registration number prior to notifying the Board and filing the requisite ownership change

application and receiving an updated registration, Respondent violated K.S.A. 65-1643, 65-1643d, and 65-1645.

ORDER

The Board finds and concludes that Respondent's conduct, as described above, violates the Act and such conduct warrants the imposition of a fine pursuant to K.S.A. 65-1658, in the amount of $500.00. Respondent has 30 days from the date of this order to pay the full $500.00.

NOTICES

The Respondent is hereby notified as follows:

1. The Respondent may request a hearing pursuant to the Kansas Administrative Procedure Act by filing a written request with the Kansas Board of Pharmacy, 800 SW Jackson, Suite 1414, Topeka, KS 66612-1231 within fifteen (15) days after service of this order.

2. If a hearing is not requested as described above, the Order shall become a final order of the Board, effective upon the expiration of the time to request a hearing.

3. Within fifteen (15) days after entry of a final agency order, either party may file a petition for reconsideration pursuant to K.S.A. 77-529.

4. Within the time limits established in K.S.A. 77-613, either party may seek judicial review of a final agency order, pursuant to said statute. The agency officer designated to receive service of a petition for judicial review is:

Alexandra Blasi
Executive Secretary
Kansas Board of Pharmacy
800 SW Jackson, Suite 1414
Topeka, KS 66612

CERTIFICATE OF SERVICE

I hereby certify that I did, on the 23rd day of May, 2022 deposit in business mail a copy of the foregoing Summary Order, which is then placed in the United States Mail, postage prepaid, properly addressed to the following:

Fax: (775) 850-1444

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. NV5534710

Application/License No. _____

Greenwich Biosciences, Inc. (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 5750 Fleet Street, Suite 200, Carlsbad, CA 92008 (Address of Applicant/Principal), as PRINCIPAL, and Merchants Bonding Company (Mutual) (Surety Company), a corporation organized under the laws of the state of Iowa (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is P.O Box 14498, Des Moines, IA 50306-3498 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of TWENTY-FIVE THOUSAND DOLLARS ($25,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on 4/21/2021 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statue (NRS) 639.515 and Nevada Administrative Code (NAC) 639.5937 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $25,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and NAC 639.5937 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515 and NAC 639.5937. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 21 day of April, 2021.

Larry Taylor, President

MERCHANTS BONDING COMPANY™

POWER OF ATTORNEY

Know All Persons By These Presents, that MERCHANTS BONDING COMPANY (MUTUAL) and MERCHANTS NATIONAL BONDING, INC., both being corporations of the State of Iowa (herein collectively called the "Companies") do hereby make, constitute and appoint, individually,

Aidan Smock; Kathy Vanderslice; Paul J Hering; Richard Hallett; Sandra Corona; Shannon Alvarez

their true and lawful Attorney(s)-in-Fact, to sign its name as surety(ies) and to execute, seal and acknowledge any and all bonds, undertakings, contracts and other written instruments in the nature thereof, on behalf of the Companies in their business of guaranteeing the fidelity of persons, guaranteeing the performance of contracts and executing or guaranteeing bonds and undertakings required or permitted in any actions or proceedings allowed by law.

This Power-of-Attorney is granted and is signed and sealed by facsimile under and by authority of the following By-Laws adopted by the Board of Directors of Merchants Bonding Company (Mutual) on April 23, 2011 and amended August 14, 2015 and adopted by the Board of Directors of Merchants National Bonding, Inc., on October 16, 2015.

"The President, Secretary, Treasurer, or any Assistant Treasurer or any Assistant Secretary or any Vice President shall have power and authority to appoint Attorneys-in-Fact, and to authorize them to execute on behalf of the Company, and attach the seal of the Company thereto, bonds and undertakings, recognizances, contracts of indemnity and other writings obligatory in the nature thereof."

"The signature of any authorized officer and the seal of the Company may be affixed by facsimile or electronic transmission to any Power of Attorney or Certification thereof authorizing the execution and delivery of any bond, undertaking, recognizance, or other suretyship obligations of the Company, and such signature and seal when so used shall have the same force and effect as though manually fixed."

In connection with obligations in favor of the Florida Department of Transportation only, it is agreed that the power and aut hority hereby given to the Attorney-in-Fact includes any and all consents for the release of retained percentages and/or final estimates on engineering and construction contracts required by the State of Florida Department of Transportation. It is fully understood that consenting to the State of Florida Department of Transportation making payment of the final estimate to the Contractor and/or its assignee, shall not relieve this surety company of any of its obligations under its bond.

In connection with obligations in favor of the Kentucky Department of Highways only, it is agreed that the power and authority hereby given to the Attorney-in-Fact cannot be modified or revoked unless prior written personal notice of such intent has been given to the Commissioner-Department of Highways of the Commonwealth of Kentucky at least thirty (30) days prior to the modification or revocation.

In Witness Whereof, the Companies have caused this instrument to be signed and sealed this 21st day of December , 2020 .

Re: **Greenwich Biosciences, Inc. Ownership Change and Conversion to LLC**

Dear Licensing Department,

On behalf of Greenwich Biosciences, LLC, please see the enclosed Application for licensure to update the ownership and name from previous licensed name of Greenwich Biosciences, Inc to Greenwich Biosciences, LLC.

GW Pharma Limited sold Greenwich Biosciences, Inc. to Jazz Pharmaceuticals, Inc., a privately held corporation based in Palo Alto, California. Greenwich Biosciences, Inc. converted to an LLC, with the name changing to Greenwich Biosciences, LLC.

Greenwich Biosciences, Inc. is currently licensed in your state holding the following license:

License #	License Type
WH02436	Wholesaler

The licensed location of Greenwich Biosciences, LLC business operations remain the same, ***with no changes to federal tax ID number or operating location***.

Greenwich Biosciences, LLC is committed to operating in full compliance with all licensing regulations. If you have any questions or concerns regarding this application, please contact Theresa Carey at (614) 406-3129 or via email at Theresa.Carey@TwoLabs.com. Thank you in advance for your consideration.

Sincerely,

Theresa Carey
Licensing Analyst, PharmaLicense

INNOVIVA

Innoviva Completes Acquisition of La Jolla Pharmaceutical

August 22, 2022

BURLINGAME, Calif.–(BUSINESS WIRE)–Aug. 22, 2022– Innoviva, Inc. (Nasdaq: INVA) ("Innoviva"), a diversified holding company with a portfolio of royalties and a growing portfolio of innovative healthcare assets, today announced that its tender offer to purchase any and all issued and outstanding shares of common stock of La Jolla Pharmaceutical Company (Nasdaq: LJPC) ("La Jolla") at a price of $6.23 per share (the "Offer Price"), net to the seller in cash, without interest and less required withholding taxes, expired one minute after 11:59 p.m. New York City time on Friday, August 19, 2022. Today, following the consummation of the tender offer, Innoviva successfully completed its acquisition of La Jolla, which is dedicated to the commercialization of innovative therapies that improve outcomes in patients suffering from life-threatening diseases.

La Jolla brings to Innoviva an established product portfolio, including GIAPREZA® (angiotensin II), approved to increase blood pressure in adults with septic or other distributive shock and XERAVA® (eravacycline) for the treatment of complicated intra-abdominal infections (cIAIs).

"The acquisition of La Jolla strengthens our footprint in the hospital and infectious disease spaces by adding a robust portfolio of marketed products and an excellent team," said Pavel Raifeld, Chief Executive Officer of Innoviva. "It is also highly complementary to Entasis, providing an established platform to bring SUL-DUR, a differentiated anti-infective, to patients if approved. We look forward to working together as a stronger, combined company serving the needs of patients, physicians, and hospitals."

Additional Transaction Details
The depositary for the tender offer has advised that, as of the expiration of the tender offer, a total of 21,703,224 shares of La Jolla's common stock were validly tendered and not withdrawn in the tender offer. Such shares of La Jolla's common stock represent approximately 87.03% of the shares, which satisfied the minimum condition for the tender offer. All conditions of the offer were satisfied and Innoviva completed its acquisition of all issued and outstanding equity securities of La Jolla for the Offer Price. Additionally, as a consequence of the merger, each share of La Jolla's Series C-1 [2] Convertible Preferred Stock (other than those as to which holders properly exercise dissenters' rights and those owned at the commencement of the tender offer by Innoviva or its affiliates) was automatically converted into the right to receive an amount in cash equal to 1,724.04 times the Offer Price. As a result of the acquisition, La Jolla became a wholly-owned subsidiary of Innoviva and the company's common stock will be delisted from the Nasdaq Global Market.

For additional background on the acquisition, please read the announcement press release here.

About Innoviva
Innoviva is a diversified holding company with a portfolio of royalties and other healthcare assets. Innoviva's royalty portfolio includes respiratory assets partnered with Glaxo Group Limited ("GSK"), including RELVAR ®/BREO® ELLIPTA® (fluticasone furoate/ vilanterol, "FF/VI"), ANORO ® ELLIPTA® (umeclidinium bromide/ vilanterol, "UMEC/VI") and, formerly, TRELEGY ® ELLIPTA® (the combination FF/UMEC/VI). Under the Long-Acting Beta2 Agonist ("LABA") Collaboration Agreement, Innoviva is entitled to receive royalties from GSK on sales of RELVAR®/BREO® ELLIPTA® and ANORO® ELLIPTA®.

ANORO®, RELVAR®, BREO®, TRELEGY® and ELLIPTA® are trademarks of the GSK group of companies.

Forward Looking Statements
This press release contains certain "forward-looking" statements as that term is defined in the Private Securities Litigation Reform Act of 1995 regarding, among other things, statements relating to goals, plans, objectives, and future events. Innoviva intends such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in Section 21E of the Securities Exchange Act of 1934 and the Private Securities Litigation Reform Act of 1995. The words "anticipate", "expect", "goal", "intend", "objective", "opportunity", "plan", "potential", "target" and similar expressions are intended to identify such forward-looking statements. Such forward-looking statements involve substantial risks, uncertainties, and assumptions. These statements are based on the current estimates and assumptions of the management of Innoviva as of the date of this press release and are subject to known and unknown risks, uncertainties, changes in circumstances, assumptions and other factors that may cause the actual results of Innoviva to be materially different from those reflected in the forward-looking statements. Important factors that could cause actual results to differ materially from those indicated by such forward-looking statements include, among others, risks related to: expected cost savings; lower than expected future royalty revenue from respiratory products partnered with GSK; the commercialization of RELVAR®/BREO® ELLIPTA®, ANORO® ELLIPTA® and, formerly, TRELEGY® ELLIPTA® in the jurisdictions in which these products have been approved; the strategies, plans and objectives of Innoviva (including Innoviva's growth strategy and corporate development initiatives beyond the existing respiratory portfolio); the timing, manner, and amount of potential capital returns to shareholders; the status and timing of clinical studies, data analysis and communication of results; the potential benefits and mechanisms of action of product candidates; expectations for product candidates through development and commercialization; the timing of regulatory approval of product candidates; and projections of revenue, expenses and other financial items; the impact of the novel coronavirus ("COVID-19"). Other risks affecting Innoviva are described under the headings "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" contained in Innoviva's Annual Report on Form 10-K for the year ended December 31, 2021 and Quarterly Reports on Form 10-Q, which are on file with the Securities and Exchange Commission ("SEC") and available on the SEC's website at www.sec.gov. Past performance is not necessarily indicative of future results. No forward-looking statements can be guaranteed, and actual results may differ materially from such statements. Given these uncertainties, you should not place undue reliance on these forward-looking statements. The information in this press release is provided only as of the date hereof, and Innoviva assumes no obligation to update its forward-looking statements on account of new information, future events or otherwise, except as required by law.

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. 0810689

Application/License No. WH03187

La Jolla Pharmaceutical Company (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 201 Jones Road, Suite 400, Waltham, MA 02451 (Address of Applicant/Principal), as PRINCIPAL, and The Harco National Insurance Company (Surety Company), a corporation organized under the laws of the state of Illinois (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is 4200 Six Forks Road, Suite 1400, Raleigh, NC 27609 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of TWENTY-FIVE THOUSAND DOLLARS ($25,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on 9/8/2022 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statue (NRS) 639.515 and Nevada Administrative Code (NAC) 639.5937 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $25,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and NAC 639.5937 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515 and NAC 639.5937. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 8th day of September, 2022.

Bond # 0810689

HARCO NATIONAL INSURANCE COMPANY
INTERNATIONAL FIDELITY INSURANCE COMPANY

Member companies of IAT Insurance Group, Headquartered: 4200 Six Forks Rd, Suite 1400, Raleigh, NC 27609

KNOW ALL MEN BY THESE PRESENTS: That **HARCO NATIONAL INSURANCE COMPANY**, a corporation organized and existing under the laws of the State of Illinois, and **INTERNATIONAL FIDELITY INSURANCE COMPANY**, a corporation organized and existing under the laws of the State of New Jersey, and having their principal offices located respectively in the cities of Rolling Meadows, Illinois and Newark, New Jersey, do hereby constitute and appoint

PAUL JEFFREY HERING, PATRICIA WHITE, MARTA COLLETT, DANIELLE ENRIQUEZ, SANDRA CORONA, SHANNON ALVAREZ, KATHLEEN VANDERSLICE, TIMOTHY MCCLELLAN

San Diego, CA

their true and lawful attorney(s)-in-fact to execute, seal and deliver for and on its behalf as surety, any and all bonds and undertakings, contracts of indemnity and other writings obligatory in the nature thereof, which are or may be allowed, required or permitted by law, statute, rule, regulation, contract or otherwise, and the execution of such instrument(s) in pursuance of these presents, shall be as binding upon the said **HARCO NATIONAL INSURANCE COMPANY** and **INTERNATIONAL FIDELITY INSURANCE COMPANY**, as fully and amply, to all intents and purposes, as if the same had been duly executed and acknowledged by their regularly elected officers at their principal offices.

This Power of Attorney is executed, and may be revoked, pursuant to and by authority of the By-Laws of **HARCO NATIONAL INSURANCE COMPANY** and **INTERNATIONAL FIDELITY INSURANCE COMPANY** and is granted under and by authority of the following resolution adopted by the Board of Directors of **INTERNATIONAL FIDELITY INSURANCE COMPANY** at a meeting duly held on the 13th day of December, 2018 and by the Board of Directors of **HARCO NATIONAL INSURANCE COMPANY** at a meeting held on the 13th day of December, 2018.

"**RESOLVED**, that (1) the Chief Executive Officer, President, Executive Vice President, Senior Vice President, Vice President, or Secretary of the Corporation shall have the power to appoint, and to revoke the appointments of, Attorneys-in-Fact or agents with power and authority as defined or limited in their respective powers of attorney, and to execute on behalf of the Corporation and affix the Corporation's seal thereto, bonds, undertakings, recognizances, contracts of indemnity and other written obligations in the nature thereof or related thereto; and (2) any such Officers of the Corporation may appoint and revoke the appointments of joint-control custodians, agents for acceptance of process, and Attorneys-in-fact with authority to execute waivers and consents on behalf of the Corporation; and (3) the signature of any such Officer of the Corporation and the Corporation's seal may be affixed by facsimile to any power of attorney or certification given for the execution of any bond, undertaking, recognizance, contract of indemnity or other written obligation in the nature thereof or related thereto, such signature and seals when so used whether heretofore or hereafter, being hereby adopted by the Corporation as the original signature of such officer and the original seal of the Corporation, to be valid and binding upon the Corporation with the same force and effect as though manually affixed."

IN WITNESS WHEREOF, **HARCO NATIONAL INSURANCE COMPANY** and **INTERNATIONAL FIDELITY INSURANCE COMPANY** have each executed and attested these presents on this 31st day of December, 2021

CERTIFICATION

I, the undersigned officer of **HARCO NATIONAL INSURANCE COMPANY** and **INTERNATIONAL FIDELITY INSURANCE COMPANY** do hereby certify that I have compared the foregoing copy of the Power of Attorney and affidavit, and the copy of the Sections of the By-Laws of said Companies as set forth in said Power of Attorney, with the originals on file in the home office of said companies, and that the same are correct transcripts thereof, and of the whole of the said originals, and that the said Power of Attorney has not been revoked and is now in full force and effect.

IN TESTIMONY WHEREOF, I have hereunto set my hand on this day, September 08, 2022

A00874

Irene Martins, Assistant Secretary

PAULA D. B. RUSU

Commercial Operations leader with 20+ years experience in pharmaceutical and healthcare companies. Extensive experience in launching new products into the anti-infective, pain, surgical and insomnia markets as well as integrating personnel and products gained through corporate acquisitions. Built high performing teams in Information Technology (IT), Law and all areas of Commercial Operations including Incentive Compensation (IC), sales data, reporting and analytics, territory alignments, Master Data Management (MDM), Sales Force Automation (SFA) and prescription drug sample programs.

EXPERIENCE

LA JOLLA PHARMACEUTICAL COMPANY — **Waltham, MA**

Vice President, Operations — October 2020 - present

Senior Director, Sales Insights — July 2020 – October 2020

Re-built corporate operations functions, Commercial Operations, IT, Law and Facilities, after a merger of two commercial pharmaceutical companies.

- Transitioned from an outsource model to an in-house model for IT and Law and recruited top talent for these roles.
- Integrated commercial and medical field teams from two legacy companies which included realignments based on both companies' brands, new IC plans, merging customer masters, changes to SFA and reporting tools.
- Evaluated vendors from both legacy companies and kept best of breed, which required negotiating either a termination or a contract amendment for dozens of vendors.
- Managed Specialty Distributor relationships and updated data flows to make Electronic Data Interchange (EDI) consistent for both companies' brands.
- Managed an office move from Watertown, MA to Waltham, MA which involved site visits, contract negotiations, furniture purchases and sales, office remodeling and network and telecommunications moves.

TETRAPHASE PHARMACEUTICALS, a wholly owned subsidiary of La Jolla Pharmaceutical Company — **Watertown, MA**

Senior Director, Sales Operations — March 2018 – July 2020

Built commercial operations functions and team for start-up pharmaceutical company including the following:

- Led configuration of the Tetraphase Commercial Data Warehouse (CDW), MDM processes, reporting tools and SFA tool. Met with vendors and user group to design processes and tools that meet business needs, performed testing, managed all inputs to systems, trained field teams and managed enhancement requests.
- Transitioned from a third-party launch reporting platform to an internally built and managed Power BI dashboard for all field teams saving the company thousands of dollars and making reports more flexible to the company's rapidly evolving needs.
- Performed sizing, segmentation and targeting analyses and alignments for 3 field teams - Institution sales team, Key Accounts team and a Medical Liaison team. Resulting launch of Xerava had 3-times the patient days of therapy (PDOTs) in the first year as compared to the next closest IV antibiotic.
- Led IC team that established corporate philosophy, business rules and IC plans. Performed extensive modeling, created plan documentation, trained field teams and processed quarterly results as well as annual awards.
- Led team that supports the operations for Marketing programs such as Speaker programs and Approved emails.
- Led team through multiple acquisition situations in 2020 where three different companies entered into definitive merger agreements with Tetraphase. Process included multiple rounds of cross-company employee evaluations, technology assessments, and commercial team optimizations. Result was a merger with La Jolla Pharmaceutical Company.

COLLEGIUM PHARMACEUTICAL — **Canton, MA**

Director, Sales Operations — October 2015 – March 2018

Built commercial operations functions and team for start-up pharmaceutical company including the following:

- Performed sales force sizing, segmentation and targeting analyses for 5 field teams including overlap analysis to understand customers that cross teams. Output was used to create optimal launch structure for field teams of 175 total people – Retail, Institution, Long Term Care, Managed Care and Medical Science Liaison teams. Structure was assessed quarterly and evolved with the business.

- Led IC team that established corporate philosophy, business rules and IC plans for 4 teams. Performed extensive modeling to design equitable and motivating IC plans for all teams, created plan documentation, trained field teams and processed quarterly results as well as annual awards.
- Led configuration of the 5 Collegium field teams' systems - IMS Mobile Intelligence (MI) SFA as well as MicroStrategy and Nexxus Performance reporting tools. For each system, met with vendor and user groups to design tools that meet unique business needs of each team. Performed testing, managed all inputs to systems, integrated systems with data warehouse, trained field teams, handled inquiries and managed enhancement requests.
- Responsible for creating and implementing MDM business rules and processes.

CUBIST PHARMACEUTICALS, a wholly owned subsidiary of Merck & Co. Inc. — **Lexington, MA**
Director, Field Planning and Effectiveness — August 2011 – September 2015

KEY ACCOMPLISHMENTS

❖ ***Product Launches and Corporate Acquisitions –***

- Integrated new products acquired through Cubist acquisitions of Adolor (2012), Optimer (2013) and Trius (2013) into sales portfolio. Integrations took an average of 2 months from date of acquisition with completion defined as having sales reports, portfolio-based IC plans and targeting created, SFA system updated, and customer masters merged.
- Assisted in integrating Cubist products into the Merck portfolio after the 2015 acquisition.
- Led Sales Operations sub-team for 2 anti-infective product launches in 2014, Sivextro and Zerbaxa, and served as liaison to cross functional Core launch teams. As part of Sivextro launch, developed pilot program for leading indicator dashboards on new Tableau platform which was subsequently the tool used to design launch dashboards for Zerbaxa.

❖ ***Nimble Innovator –***

- Led integration of multiple new data assets: IMS Xponent PlanTrak, Drug Distribution Data (DDD) weekly, Formulary Impact Analyzer, Fingertip Formulary, Integrated Delivery Network (IDN) affiliation data, Patient access program utilization data. Created training materials and led conference calls with field management to train on each new data set and applicable reports or tools.
- As new products were added to portfolio, developed innovative IC plans, contests and targeting tools for field force; took the organization from Annual IC plans to 6-month plans in order to reflect the pace of change.
- Worked closely with Commercial leadership to launch a National Account field team which included aligning the team, creating an IC plan and providing this team with tools and data assets needed to do their job effectively.
- Worked closely with the Key Accounts team to launch an IDN initiative which resulted in various system level protocols that drove utilization of our products.
- Worked with a cross functional team to put together Cubist's first data stewardship framework and data governance processes. Also implemented enterprise-wide SFA alignments that share appropriate information across all field-based teams and dramatically reduce duplicates in the customer master.
- Developed and rolled out a leading indicator dashboard for Sivextro in 4 weeks which was subsequently used as a one-stop-shop to report on all field metrics and replaced previous field reporting platforms.

❖ ***Team Player –***

- Integral member of several cross-functional teams: Sivextro and Zerbaxa Launch Teams; Sunshine Act Team; Commercial Integration Team for Optimer acquisition; Joint Steering Committee for co-promoted product with Optimer; Salesforce.com Launch Team.
- Led cross-functional Sales team deployment projects which optimized 2 hospital-based teams based on the potential of 3 anti-infective and 2 gastro-intestinal/surgical brands. As part of project, designed unique IC plans and reporting platforms for both teams.
- Consistently gather feedback from field-based customers by attending field sales meetings, riding with sales representatives and having regular conference calls with field sales leadership.

❖ ***Leader –***

- Respected as an effective team builder; develop team members into subject matter experts and enable them to participate fully in functional area meetings.
- Integrated employees from acquired companies into existing team and was able to utilize their expertise to strengthen the capabilities of the team.
- Effectively use contractors to do necessary but non-value-added work and MBA-level interns for special projects.
- Willing to make difficult decisions to effectively manage the removal of poor performers.

❖ ***Committed to Excellence –***

- Received 2014 Cube of the Year award for instrumental role on Sivextro Launch Team.
- Received 2013 Cube of the Year award as part of the Optimer and Trius Integration Team.
- Received Cube Award for instrumental role on Zerbaxa Launch Team.
- Received Cube Award for efforts on 2014 Sales team expansion project.
- Received 2013 Compliance Excellence Award for instrumental role on Sunshine Act Core Team.
- Nominated for Individual 2013 Cube of the Year award.
- Earned numerous Reward and Recognition Awards for responsiveness in resolving various issues.

PURDUE PHARMA — **Stamford, CT**

Director, Sales Operations — 2006 – August 2011
Associate Director, Sales Administration — 2004 – 2005
Assistant Director, Sales Administration — 2002 – 2003
Manager, Sales Incentives Programs, Budgets and Forecasting — 2001
Associate Manager, Sales Incentive Programs, Budgets and Forecasting — 2000
Assistant Manager, Sales Incentive Programs, Budgets and Forecasting — 1999
Supervisor, Sales Incentive Programs, Budgets and Forecasting — August – December 1998

KEY ACCOMPLISHMENTS

❖ ***Product Launches –***

- Integral member of 6 cross-functional Brand Business Unit Launch teams: OxyContin, Spectracef, Palladone, Ryzolt, Butrans and Intermezzo. Up to $3.1 Billion in sales per year.
- Sales Operations launch budgets for these products averaged $30 Million for sales data, sample programs, prescriber letter programs and sales force incentives.

❖ ***Leadership –***

- Led Purdue Sales Operations team originally comprised of 30+ analysts and managers through 3 rounds of corporate restructurings and was able to motivate and retain existing team members at a turbulent time in the company's history.
- Evaluated deliverables and made head count recommendations based on strategic corporate needs. Interviewed and hired as well as down-sized employees as needed based on skill sets required.
- Key member in reorganizing the sales force from 775 sales representatives to 250 by evaluating key performance metrics.
- Developed team members into subject matter experts and aided them in moving into roles of increasing responsibility within Sales Operations as well as into the Sales, Contracting, Information Technology and Market Research departments.

❖ ***Analysis –***

- Performed innovative prescriber targeting analysis for 2 Purdue product launches. Results in the first 2 months of product launch showed that targeted prescribers accounted for 90% of prescribers and had twice as many prescriptions as non-targeted prescribers. Saved company $300,000 per product by doing analysis internally and received Reward and Recognition Award.

❖ ***Innovation –***

- Led the project to launch IMS Longitudinal prescription data (LRx) to the Purdue sales force, reportedly the first pharma company to use this data in the sales force. Created all training presentations for this data set, ran train-the-trainer programs and launched the data in 3 sequential workshops at a National sales meeting as well as follow-up trainings at field meetings through the subsequent year. Created LRx reports and also merged the data into the SFA. Sales representatives felt that the data was integral to their messaging and increased their effectiveness. Month over month sales increased by 8% in the 6 months following launch of this data compared to the previous 6 months.
- Worked closely with the Law department, Corporate Security and Sales to implement a system to identify and monitor prescribers and pharmacies that may be abusing or diverting product.

DIANON SYSTEMS, INC. (A LabCorp Company) — **Stratford, CT**

Sales and Marketing Analyst — July 1995 – July 1998

- **Your license must be available for inspections during business hours.**
- **Permit holder(s) must display permit in the location to which it is issued.**
- **Please note it is your responsibility to keep this license/permit current.**

Important Information

LICENSE HOLDER (pharmacist, intern, technician, technician-trainee)

Holder of this license number, printed above, is authorized in accordance with A.A.C. R4-23-201(A), A.A.C. R4-23-301(A) or A.A.C R4-23-1101(A), to perform the duties associated within their profession. By holding this license, the licensee agrees to comply with state & federal law.

You are required by law to notify the Board of any home address and/or employment change within 10 business days

PERMIT HOLDER (pharmacy, non-prescription retailer (OTC), wholesale, manufacture, CMG, DME)

Holder of this permit number, printed above, is authorized to conduct business according to the classification specified in A.R.S. § 32-1908(A); A.A.C. R4-23-601 and A.A.C. R4-23-607. By holding this permit, the permittee agrees to comply with state & federal law

In-state pharmacy, wholesaler & manufacture permit holder(s) who plan to remodel or move locations, must submit a change-of-location/remodel form within 30 days prior to move/remodel. In-state non-prescription (OTC), compressed medical gas (CMG) & DME providers who plan to move locations must notify the Board within 10 business days of move.

Out-of-State permit holders must notify the Board of location changes, in writing, within 10 business days of move. A revised copy of your state permit shall be submitted to the Board, when available.

Permits are non-transferable. Ownership changes of more than 30% require that a new application be submitted to the Board.

This Power of Attorney is made and executed pursuant to and by authority of the following By-laws and Authorizations of The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company which resolutions are now in full force and effect reading as follows:

ARTICLE IV – OFFICERS: Section 12. Power of Attorney.
Any officer or other official of the Corporation authorized for that purpose in writing by the Chairman or the President, and subject to such limitation as the Chairman or the President may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Corporation to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact, subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Corporation by their signature and execution of any such instruments and to attach thereto the seal of the Corporation. When so executed, such instruments shall be as binding as if signed by the President and attested to by the Secretary. Any power or authority granted to any representative or attorney-in-fact under the provisions of this article may be revoked at any time by the Board, the Chairman, the President or by the officer or officers granting such power or authority.

ARTICLE XIII - Execution of Contracts: Section 5. Surety Bonds and Undertakings.
Any officer of the Company authorized for that purpose in writing by the chairman or the president, and subject to such limitations as the chairman or the president may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact, subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Company by their signature and execution of any such instruments and to attach thereto the seal of the Company. When so executed such instruments shall be as binding as if signed by the president and attested by the secretary.

Certificate of Designation – The President of the Company, acting pursuant to the Bylaws of the Company, authorizes David M. Carey, Assistant Secretary to appoint such attorneys-infact as may be necessary to act on behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations.

Authorization – By unanimous consent of the Company's Board of Directors, the Company consents that facsimile or mechanically reproduced signature of any assistant secretary of the Company, wherever appearing upon a certified copy of any power of attorney issued by the Company in connection with surety bonds, shall be valid and binding upon the Company with the same force and effect as though manually affixed.

I, Renee C. Llewellyn, the undersigned, Assistant Secretary, of Liberty Mutual Insurance Company, The Ohio Casualty Insurance Company, and West American Insurance Company do hereby certify that this power of attorney executed by said Companies is in full force and effect and has not been revoked.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the seals of said Companies this 30th day of September, 2022

By: _____
Renee C. Llewellyn, Assistant Secretary

This Power of Attorney is made and executed pursuant to and by authority of the following By-laws and Authorizations of The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company which resolutions are now in full force and effect reading as follows:

ARTICLE IV – OFFICERS: Section 12. Power of Attorney.
Any officer or other official of the Corporation authorized for that purpose in writing by the Chairman or the President, and subject to such limitation as the Chairman or the President may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Corporation to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact, subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Corporation by their signature and execution of any such instruments and to attach thereto the seal of the Corporation. When so executed, such instruments shall be as binding as if signed by the President and attested to by the Secretary. Any power or authority granted to any representative or attorney-in-fact under the provisions of this article may be revoked at any time by the Board, the Chairman, the President or by the officer or officers granting such power or authority.

ARTICLE XIII - Execution of Contracts: Section 5. Surety Bonds and Undertakings.
Any officer of the Company authorized for that purpose in writing by the chairman or the president, and subject to such limitations as the chairman or the president may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact, subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Company by their signature and execution of any such instruments and to attach thereto the seal of the Company. When so executed such instruments shall be as binding as if signed by the president and attested by the secretary.

Certificate of Designation – The President of the Company, acting pursuant to the Bylaws of the Company, authorizes David M. Carey, Assistant Secretary to appoint such attorneys-infact as may be necessary to act on behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations.

Authorization – By unanimous consent of the Company's Board of Directors, the Company consents that facsimile or mechanically reproduced signature of any assistant secretary of the Company, wherever appearing upon a certified copy of any power of attorney issued by the Company in connection with surety bonds, shall be valid and binding upon the Company with the same force and effect as though manually affixed.

I, Renee C. Llewellyn, the undersigned, Assistant Secretary, of Liberty Mutual Insurance Company, The Ohio Casualty Insurance Company, and West American Insurance Company do hereby certify that this power of attorney executed by said Companies is in full force and effect and has not been revoked.

IN TESTIMONY WHEREOF, I have hereunto set my hend and affixed the seals of said Companies this 30th day of September, 2022

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. 015218799

Application/License No. _____

Linde Gas & Equipment Inc. (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is *see attached list of locations (Address of Applicant/Principal), as PRINCIPAL, and Liberty Mutual Insurance Company (Surety Company), a corporation organized under the laws of the state of Massachusetts (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is 175 Berkeley Street Boston, MA 02116 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of ONE HUNDRED THOUSAND DOLLARS ($100,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on October 5, 2022 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statutes (NRS) 639.515 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $100,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

RECEIVED
OCT 12 2022
NEVADA BOARD OF PHARMACY

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 5 day of October, 2022.

This Power of Attorney is made and executed pursuant to and by authority of the following By-laws and Authorizations of The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company which resolutions are now in full force and effect reading as follows:

ARTICLE IV – OFFICERS: Section 12. Power of Attorney.
Any officer or other official of the Corporation authorized for that purpose in writing by the Chairman or the President, and subject to such limitation as the Chairman or the President may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Corporation to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact, subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Corporation by their signature and execution of any such instruments and to attach thereto the seal of the Corporation. When so executed, such instruments shall be as binding as if signed by the President and attested to by the Secretary. Any power or authority granted to any representative or attorney-in-fact under the provisions of this article may be revoked at any time by the Board, the Chairman, the President or by the officer or officers granting such power or authority.

ARTICLE XIII - Execution of Contracts: Section 5. Surety Bonds and Undertakings.
Any officer of the Company authorized for that purpose in writing by the chairman or the president, and subject to such limitations as the chairman or the president may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact, subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Company by their signature and execution of any such instruments and to attach thereto the seal of the Company. When so executed such instruments shall be as binding as if signed by the president and attested by the secretary.

Certificate of Designation – The President of the Company, acting pursuant to the Bylaws of the Company, authorizes David M. Carey, Assistant Secretary to appoint such attorneys-infact as may be necessary to act on behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations.

Authorization – By unanimous consent of the Company's Board of Directors, the Company consents that facsimile or mechanically reproduced signature of any assistant secretary of the Company, wherever appearing upon a certified copy of any power of attorney issued by the Company in connection with surety bonds, shall be valid and binding upon the Company with the same force and effect as though manually affixed.

I, Renee C. Llewellyn, the undersigned, Assistant Secretary, of Liberty Mutual Insurance Company, The Ohio Casualty Insurance Company, and West American Insurance Company do hereby certify that this power of attorney executed by said Companies is in full force and effect and has not been revoked.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the seals of said Companies this 5th day of October 2022

Section B: Arrests, Detentions, Litigations, Arbitrations.	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		✓
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		✓
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)		✓
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		✓
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?		✓
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✓
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✓
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✓
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✓

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

Liberty Mutual. SURETY

This Power of Attorney limits the acts of those named herein, and they have no authority to bind the Company except in the manner and to the extent herein stated.

Liberty Mutual Insurance Company
The Ohio Casualty Insurance Company
West American Insurance Company

Certificate No: 8204866

POWER OF ATTORNEY

KNOWN ALL PERSONS BY THESE PRESENTS: That The Ohio Casualty Insurance Company is a corporation duly organized under the laws of the State of New Hampshire, that Liberty Mutual Insurance Company is a corporation duly organized under the laws of the State of Massachusetts, and West American Insurance Company is a corporation duly organized under the laws of the State of Indiana (herein collectively called the "Companies"), pursuant to and by authority herein set forth, does hereby name, constitute and appoint,

Maureen McNeill

all of the city of Philadelphia, state of Pennsylvania each individually if there be more than one named, its true and lawful attorney-in-fact to make, execute, seal, acknowledge and deliver, for and on its behalf as surety and as its act and deed, any and all undertakings, bonds, recognizances and other surety obligations, in pursuance of these presents and shall be as binding upon the Companies as if they have been duly signed by the president and attested by the secretary of the Companies in their own proper persons.

IN WITNESS WHEREOF, this Power of Attorney has been subscribed by an authorized officer or official of the Companies and the corporate seals of the Companies have been affixed thereto this 15th day of February, 2021.

Liberty Mutual Insurance Company
The Ohio Casualty Insurance Company
West American Insurance Company

By: _____
David M. Carey, Assistant Secretary

STATE OF PENNSYLVANIA ss
COUNTY OF MONTGOMERY

On this 15th day of February, 2021, before me personally appeared David M. Carey, who acknowledged himself to be the Assistant Secretary of Liberty Mutual Insurance Company, The Ohio Casualty Company, and West American Insurance Company, and that he, as such, being authorized so to do, execute the foregoing instrument for the purposes therein contained by signing on behalf of the corporations by himself as a duly authorized officer.

IN WITNESS WHEREOF, I have hereunto subscribed my name and affixed my notarial seal at King of Prussia, Pennsylvania, on the day and year first above written.

Commonwealth of Pennsylvania - Notary Seal
Teresa Pastella, Notary Public
Montgomery County
My commission expires March 28, 2025
Commission number 1126044
Member, Pennsylvania Association of Notaries

By: _____
Teresa Pastella, Notary Public

This Power of Attorney is made and executed pursuant to and by authority of the following By-laws and Authorizations of The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company which resolutions are now in full force and effect reading as follows:

ARTICLE IV – OFFICERS: Section 12. Power of Attorney.
Any officer or other official of the Corporation authorized for that purpose in writing by the Chairman or the President, and subject to such limitation as the Chairman or the President may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Corporation to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact, subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Corporation by their signature and execution of any such instruments and to attach thereto the seal of the Corporation. When so executed, such instruments shall be as binding as if signed by the President and attested to by the Secretary. Any power or authority granted to any representative or attorney-in-fact under the provisions of this article may be revoked at any time by the Board, the Chairman, the President or by the officer or officers granting such power or authority.

ARTICLE XIII - Execution of Contracts: Section 5. Surety Bonds and Undertakings.
Any officer of the Company authorized for that purpose in writing by the chairman or the president, and subject to such limitations as the chairman or the president may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact, subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Company by their signature and execution of any such instruments and to attach thereto the seal of the Company. When so executed such instruments shall be as binding as if signed by the president and attested by the secretary.

Certificate of Designation – The President of the Company, acting pursuant to the Bylaws of the Company, authorizes David M. Carey, Assistant Secretary to appoint such attorneys-infact as may be necessary to act on behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations.

Authorization – By unanimous consent of the Company's Board of Directors, the Company consents that facsimile or mechanically reproduced signature of any assistant secretary of the Company, wherever appearing upon a certified copy of any power of attorney issued by the Company in connection with surety bonds, shall be valid and binding upon the Company with the same force and effect as though manually affixed.

I, Renee C. Llewellyn, the undersigned, Assistant Secretary, of Liberty Mutual Insurance Company, The Ohio Casualty Insurance Company, and West American Insurance Company do hereby certify that this power of attorney executed by said Companies is in full force and effect and has not been revoked.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the seals of said Companies this 30th day of September 2022

By: _____
Renee C. Llewellyn, Assistant Secretary

Section 8: Arrests, Detentions, Litigations, Arbitrations.	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		✓
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		✓
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)		✓
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		✓
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?		✓
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✓
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✓
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✓
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✓

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

Teresa Pastella, Notary Public

This Power of Attorney is made and executed pursuant to and by authority of the following By-laws and Authorizations of The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company which resolutions are now in full force and effect reading as follows:

ARTICLE IV – OFFICERS: Section 12. Power of Attorney.
Any officer or other official of the Corporation authorized for that purpose in writing by the Chairman or the President, and subject to such limitation as the Chairman or the President may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Corporation to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact, subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Corporation by their signature and execution of any such instruments and to attach thereto the seal of the Corporation. When so executed, such instruments shall be as binding as if signed by the President and attested to by the Secretary. Any power or authority granted to any representative or attorney-in-fact under the provisions of this article may be revoked at any time by the Board, the Chairman, the President or by the officer or officers granting such power or authority.

ARTICLE XIII - Execution of Contracts: Section 5. Surety Bonds and Undertakings.
Any officer of the Company authorized for that purpose in writing by the chairman or the president, and subject to such limitations as the chairman or the president may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact, subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Company by their signature and execution of any such instruments and to attach thereto the seal of the Company. When so executed such instruments shall be as binding as if signed by the president and attested by the secretary.

Certificate of Designation – The President of the Company, acting pursuant to the Bylaws of the Company, authorizes David M. Carey, Assistant Secretary to appoint such attorneys-infact as may be necessary to act on behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations.

Authorization – By unanimous consent of the Company's Board of Directors, the Company consents that facsimile or mechanically reproduced signature of any assistant secretary of the Company, wherever appearing upon a certified copy of any power of attorney issued by the Company in connection with surety bonds, shall be valid and binding upon the Company with the same force and effect as though manually affixed.

I, Renee C. Llewellyn, the undersigned, Assistant Secretary, of Liberty Mutual Insurance Company, The Ohio Casualty Insurance Company, and West American Insurance Company do hereby certify that this power of attorney executed by said Companies is in full force and effect and has not been revoked.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the seals of said Companies this 30th day of September 2022

By: _____
Renee C. Llewellyn, Assistant Secretary

Teresa Pastella, Notary Public

This Power of Attorney is made and executed pursuant to and by authority of the following By-laws and Authorizations of The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company which resolutions are now in full force and effect reading as follows:

ARTICLE IV – OFFICERS: Section 12. Power of Attorney.
Any officer or other official of the Corporation authorized for that purpose in writing by the Chairman or the President, and subject to such limitation as the Chairman or the President may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Corporation to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact, subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Corporation by their signature and execution of any such instruments and to attach thereto the seal of the Corporation. When so executed, such instruments shall be as binding as if signed by the President and attested to by the Secretary. Any power or authority granted to any representative or attorney-in-fact under the provisions of this article may be revoked at any time by the Board, the Chairman, the President or by the officer or officers granting such power or authority.

ARTICLE XIII - Execution of Contracts: Section 5. Surety Bonds and Undertakings.
Any officer of the Company authorized for that purpose in writing by the chairman or the president, and subject to such limitations as the chairman or the president may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact, subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Company by their signature and execution of any such instruments and to attach thereto the seal of the Company. When so executed such instruments shall be as binding as if signed by the president and attested by the secretary.

Certificate of Designation – The President of the Company, acting pursuant to the Bylaws of the Company, authorizes David M. Carey, Assistant Secretary to appoint such attorneys-infact as may be necessary to act on behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations.

Authorization – By unanimous consent of the Company's Board of Directors, the Company consents that facsimile or mechanically reproduced signature of any assistant secretary of the Company, wherever appearing upon a certified copy of any power of attorney issued by the Company in connection with surety bonds, shall be valid and binding upon the Company with the same force and effect as though manually affixed.

I, Renee C. Llewellyn, the undersigned, Assistant Secretary, of Liberty Mutual Insurance Company, The Ohio Casualty Insurance Company, and West American Insurance Company do hereby certify that this power of attorney executed by said Companies is in full force and effect and has not been revoked.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the seals of said Companies this 30th day of September 2022.

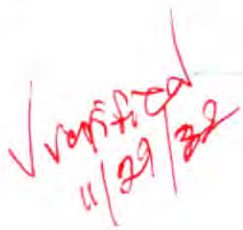
Authentication: 202747250

Date: 02-23-22

Current Date: 07-MAR-2022
Labeler DUNS: 118502278
Labeler Name: Rayner Surgical Inc.
Labeler Code Assigned: 82604



The Food and Drug Administration (FDA) has assigned the above Labeler Code to your firm. **The number cannot be used until you have confirmed the assignment. Please revise and resubmit your Labeler Code Request SPL to include the assigned number above to complete the process. To do this, open the previous Labeler Code Request SPL file and fill in the new information (your assigned Labeler Code) without changing the other existing information. Fill in a new root id and new version number with the original set id and the appropriate effective time.**

For CDER Direct Users: Open the previously submitted and accepted Labeler Code Request, click Create New Version, enter the Labeler Code assigned in the field for "Labeler Code", and Submit SPL.

This Labeler Code should be used to create the NDC (National Drug Code) assigned to all drugs you manufacture or distribute for U.S. commercial distribution. The assignment of NDC is extensively discussed in Title 21 of Code of Federal Regulations (CFR) 207.35. The NDC for each drug must be submitted as part of drug listing information submitted to FDA. Per 21 CFR Part 207, owners or operators of an establishment entering into the manufacture or processing of a drug or drugs shall drug list, every drug in commercial distribution within 5 days after the beginning of operation. Labeler Codes are assigned by FDA and may be inactivated at any time upon violation of the Federal Food, Drug and Cosmetic Act.

Note that receipt of this letter is not to be construed as Federal Government endorsement or approval of the establishment or its products.

For additional information please visit Drug Registration and Listing System or reply back to this email (edrls@fda.hhs.gov).

Attachment to Rayner Surgical, Inc's Out-of-State Wholesaler Application (Nevada Board of Pharmacy)

Business Description
Rayner Surgical, Inc ("Rayner") is a biopharmaceutical company selling non-controlled prescription drugs to other wholesalers. Rayner is a virtual manufacturer using contract manufacturers that ship the finished products directly to a third-party logistics (3PL) provider. As a result, no product is manufactured, stored or distributed at the Seattle, Washington location.

Hours of operations are Monday through Friday from 8:00 a.m. to 5:00 p.m. PT.

BOND
(License or Permit - Continuous)

Bond No. 107644148

KNOW ALL MEN BY THESE PRESENTS:

THAT WE RAYNER SURGICAL, INC as Principal, and Travelers Casualty and Surety Company of America, a corporation duly incorporated under the laws of the State of Connecticut and authorized to do business in the State of NEVADA, as Surety, are held and firmly bound unto Nevada State Board of Pharmacy, as Obligee, in the penal sum of Twenty Five Thousand ($25,000.00) Dollars, for the payment of which we hereby bind ourselves, our heirs, executors and administrators, jointly and severally, firmly by these presents.

WHEREAS, the Principal has obtained or is about to obtain a license or permit for pharmaceutical company.

NOW, THEREFORE, THE CONDITIONS OF THIS OBLIGATION ARE SUCH, that if the Principal shall faithfully comply with all applicable laws, statutes, ordinances, rules or regulations, pertaining to the license or permit issued, then this obligation shall be null and void; otherwise to remain in full force and effect.

This bond shall become effective on May 27, 2022.

PROVIDED, that regardless of the number of years this bond is in force, the Surety shall not be liable hereunder for a larger amount, in the aggregate, than the penal sum listed above.

PROVIDED FURTHER, that the Surety may terminate its liability hereunder as to future acts of the Principal at any time by giving thirty (30) days written notice of such termination to the Obligee.

SIGNED, SEALED AND DATED this May 27, 2022.

POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS: That Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, St. Paul Fire and Marine Insurance Company, and Farmington Casualty Company are corporations duly organized under the laws of the State of Connecticut (herein collectively called the "Companies"), and that the Companies do hereby make, constitute and appoint **Russell E. Vance**, of **Hartford, CT**, their true and lawful Attorney(s)-in-Fact, to sign, execute, seal and acknowledge the following bond:

Surety Bond No.: 107644148 **Principal: RAYNER SURGICAL, INC**

IN WITNESS WHEREOF, the Companies have caused this instrument to be signed and their corporate seals to be hereto affixed, this **21st** day of **April, 2021.**

State of Connecticut

By: _____
Robert L. Raney, Senior Vice President

City of Hartford ss.

On this the **21st** day of **April, 2021,** before me personally appaared **Robert L. Raney,** who acknowledged himself to be the Senior Vica President of each of the Companies, and that he, as such, being authorized so to do, executed the foregoing instrument for the purposes therein contained by signing on behalf of said Companies by himself as a duly authorized officer.

IN WITNESS WHEREOF, I hereunto set my hand and official seal.

My Commission expires the **30th** day of **June, 2026**

_____
Anna P. Nowik, Notary Public

This Power of Attorney is granted under and by the authority of the following resolutions adopted by the Boards of Directors of each of the Companies, which resolutions are now in full force and effect, reading as follows:

RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President, any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary may appoint Attorneys-in-Fact and Agents to act for and on behalf of the Company and may give such appointee such authority as his or her certificate of authority may prescribe to sign with the Company's name and seal with the Company's seal bonds, recognizances, contracts of indemnity, and other writings obligatory in the nature of a bond, recognizance, or conditional undertaking, and any of said officers or the Board of Directors at any time may remove any such appointee and revoke the power given him or her; and it is

FURTHER RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President may delegate all or any part of the foregoing authority to one or more officers or employees of this Company, provided that each such delegation is in writing and a copy thereof is filed in the office of the Secretary; and it is

FURTHER RESOLVED, that any bond, recognizance, contract of indemnity, or writing obligatory in the nature of a bond, recognizance, or conditional undertaking shall be valid and binding upon the Company when (a) signed by the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary and duly attested and sealed with the Company's seal by a Secretary or Assistant Secretary; or (b) duly executed (under seal, if required) by one or more Attorneys-in-Fact and Agents pursuant to the power prescribed in his or her certificate or their certificates of authority or by one or more Company officers pursuant to a written delegation of authority; and it is

FURTHER RESOLVED, that the signature of each of the following officers: President, any Executive Vice President, any Senior Vice President, any Vice President, any Assistant Vice President, any Secretary, any Assistant Secretary, and the seal of the Company may be affixed by facsimile to any Power of Attorney or to any certificate relating thereto appointing Resident Vice Presidents, Resident Assistant Secretaries or Attorneys-in-Fact for purposes only of executing and attesting bonds and undertakings and other writings obligatory in the nature thereof, and any such Power of Attorney or certificate bearing such facsimile signature or facsimile seal shall be valid and binding upon the Company and any such power so executed and certified by such facsimile signature and facsimile seal shall be valid and binding on the Company in the future with respect to any bond or understanding to which it is attached.

I, Kevin E. Hughes, the undersigned, Assistant Secretary of each of the Companies, do hereby certify that the above and foregoing is a true and correct copy of the Power of Attorney executed by said Companies, which remains in full force and effect.

Dated this 27 day of May, 2022.

NEVADA STATE BOARD OF PHARMACY

985 Damonte Ranch Parkway, Suite 206 – Reno, NV 89521 – 775-850-1440

Designated Representative Application

Rev (04/22/2021)

An application for a license, or a licensee with a license, to conduct a pharmacy or to operate as a wholesaler shall designate at least one natural person to serve as the representative of the pharmacy or wholesaler. The Board will not issue or renew a license of an applicant or licensee that is required to designate a representative of a pharmacy or wholesaler unless the Board determines that the designated natural person meets the following qualifications per NAC 639.5005 (Pharmacy) or NAC 639.5935 (Wholesaler):

1. Is at least 21 years of age;
2. Has been employed for at least 6,000 hours in a pharmacy or with a wholesaler in a capacity related to the dispensing and distribution of, and recordkeeping related to, prescription drugs.

The designated representative of a pharmacy or a wholesaler:

1. Must be actively involved in and aware of the actual daily operations of the pharmacy or wholesaler;
2. Must be employed full-time in a managerial level position with the pharmacy or wholesaler;
3. Must be physically present at site of the pharmacy or at the facility of the wholesaler during regular business hours, except when the absence of the representative is authorized, including sick leaves, vacation leaves and other authorized absences; and
4. May serve in this representative capacity for only one pharmacy or wholesaler at a time

A pharmacy or wholesaler that is required to designate a natural person as its representative shall not open or operate the pharmacy or wholesaler unless that representative is actually employed full-time in the operation of the pharmacy or wholesaler and is physically present at the site of the pharmacy or wholesaler during regular working hours, not including sick leave, vacation leave and other authorized absences from work. If the natural person designated as the representative of a pharmacy leaves the employ of the pharmacy or wholesaler, thus leaving the pharmacy or wholesaler without a representative in violation of this section, the pharmacy or wholesaler shall:

1. Immediately cease conducting business until another qualified natural person is approved by the Board to serve as the representative of the pharmacy or wholesaler; and
2. Not later than 48 hours after that person leaves its employ, notify the Board that the person designated as the representative of the pharmacy or wholesaler has left the employ of the pharmacy or wholesaler.

Before a pharmacy or wholesaler, that is in violation of NAC 639.5005 (Pharmacy) or NAC 639.5935 (Wholesaler) because the natural person designated as the representative of the pharmacy or wholesaler left the employ of the pharmacy or wholesaler, may continue conducting business:

1. The pharmacy or wholesaler must designate, on a form provided by the Board, a new natural person to serve as the representative of the pharmacy; and
2. The Board must approve the natural person so designated.

Global Biotech Leader

Global biopharmaceutical leader of over 22 years. Extensive experience leading cross-functional teams, managing alliance partners and third-party service providers. Demonstrated excellence driving key milestone completion and delivering results. Diverse background merging experience in technical services, quality assurance, quality control, and global regulatory. Skilled mediator with a history of fostering collaborative partnerships.

PROFESSIONAL EXPERIENCE

Rayner, Seattle, WA **2022 - Present**
Director, Global Supply Chain & Procurement
Direct team managing commercial supply chain for Omidria drug. Develop global supply strategies and negotiate third-party contracts. Resolve customer relation/business conflicts with third-party vendors.

Omeros, Seattle, WA **2019 - 2021**
Director, Global Supply Chain & Procurement
Manage team for global clinical and commercial supply chain from raw materials to finished product. Develop global supply strategies and negotiate third-party contracts. Provide guidance and support to direct reports to overcome barriers with milestone completion and on-time delivery with 3rd party service providers. Model relationship-based systems, and culture of collaboration, to move projects forward in a highly matrixed business environment. Responsible for orchestrating global supply for successful commercial product launch.

Key Successes

- Developed commercial launch strategy as supply head with cross functional leadership team for recently submitted BLA with FDA

Seattle Genetics, Seattle, WA **2015 - 2019**
Associated Director, CMC Alliance Management
As primary liaison for licensees, responsible for facilitating successful CMC development and commercialization of Antibody Drug Conjugate (ADC) programs. Develop and implement licensee strategy directives. Develop and maintain strong collaborative relationships with licensees, partners, and internal stakeholders. Lead cross-functional teams, including subject matter experts and senior leadership, supporting licensee product development, risk mitigation, and regulatory strategy. Proactively maintain contractual alignment across licensee programs. Oversee collaboration governance for partnered projects with licensees. Provide technical and regulatory Chemistry Manufacturing Control (CMC) guidance. Monitor licensee progress using alliance management tools to ensure health of relationship and Key Performance Indicators (KPIs) are met. Harmonize ADC standards across licensee platforms.

Key Successes

- Provide guidance and strategies that enabled on-time BLA submission and commercialization for Seattle Genetics first licensee FDA approval with Polivy ADC drug
- Successfully aligned with internal business partners to resolve all licensee financial, intellectual property, and contractual concerns and questions. Negotiate key agreements
- Led implementation of new alliance business model to enable effective management of licensees, manufacturing process/improvements, and regulatory submissions

Pfizer (Wyeth), Collegeville, PA **2006 - 2015**
Associate Director, Global Operations, External
Responsible for managing all international business and manufacturing activities for a portfolio of cGMP clinical/commercial mAb, drug substance, drug product, and Package/labeling CMOs. Build and maintain collaborative relationships across diverse internal stakeholders and external alliance and contracted partners. Primary point of contact for all critical, time-sensitive events escalating with senior leadership when appropriate. Negotiate agreements and favorable outcomes. Established business continuity plans for CMOs and monitored Key Performance Indicators (KPIs). Develop annual CMO operation budgets to support organizational financial goals. Lead complex technical and continuous improvement projects. Primary technical contact for regulatory issues, including audits, by FDA, EMEA, MHRA, BOH. Review and author CMC sections for biologic product submissions.

Key Successes

- Managed successful launches with global partners for two commercial products
- Strategic product Lifecycle Team functional lead for Prevnar, a $4B vaccine distributed in >165 countries. Recognized as Pfizer expert for Prevnar global contract manufacturing
- Achieved annual supply demand within budget for 9 consecutive years as Virtual Site Operations Team Lead, leading cross-functional teams from various disciplines at CMOs
- Stabilized Prevnar global supply chain after major regulatory event by developing and executing a plan to double the annual supply to 60 million units
- Harmonized best practices across internal and external sites, and established knowledge-sharing to optimize risk and issue resolution
- Increased finished product yield by 4% at CMO with annual cost savings of $1.2 million for syringe product and $2.2 million for vial product using LEAN/Six Sigma processes
- Re-established strategic partnership with CMO as the Person in the Plant (PIP) through alignment of goals and shared vision and supported by communication tools

Baxter Pharmaceutical Solutions, Bloomington, IN **2001 - 2006**
Senior Technical Services Representative (2002 - 2006)
Quality Control Associate, Cleaning Validation (2001 - 2002)
Developed and managed customer clinical/commercial production processes and their commercial manufacturing activities. Recognized as a facility expert in aseptic formulation, filling, and suspension production. Led cross-functional investigation teams evaluating and resolving major production events. Participated in internal, client and regulatory audits. Conducted environmental monitoring and analysis.

ADDITIONAL EXPERIENCE, EDUCATION & PROFESSIONAL DEVELOPMENT

United States Army, Veteran, Honorable Discharge, 1992 - 1997
B.S., Microbiology, Indiana University, Bloomington, IN, 2000
Greenbelt Certification, 2008
Certificate in Clinical Trials, University of Washington, 2013
Negotiation Training, Karrass Seminars, 2013
Cornerstones of Management Training, Pfizer, 2014

PROFESSIONAL ORGANIZATIONS

Parenteral Drug Association (PDA), 2006 to present
CASSS, 2011 to present
International Consortium for Innovation & Quality (IQ), 2016 to 2019

Section 8: Arrests, Detentions, Litigations, Arbitrations.	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		✓
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		✓
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)		✓
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		✓
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?		✓
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✓
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✓
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✓
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✓

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

Robert "Wade" Allen

[redacted] Madison Avenue, Memphis, TN 38112 – [redacted]

Objective

Medical Device Executive with 24 years of experience in the ophthalmic medical device industry seeking a challenging environment where I can utilize my experience and skills to build a successful organization.

Experience

Director, Americas

Rayner Surgical, Inc. New York, NY

January 2020 – Present

Lead, develop and optimise Rayner's current commercial activities in the US through existing employees and agents. Manage the LATAM distributor network and consider opportunities for direct presence in the region where appropriate. Co-ordinate and drive the new product pipeline and associated development (RA, clinical studies, marketing).

Director, Sales & Marketing Eagle Vision Products

Katena Products, Inc., Denville, NJ

October 2016 – March 2018

Responsible for post-acquisition integration of Eagle Vision operations.

Vice President, Sales and Marketing

Eagle Vision, Inc., Memphis, TN

September 2004 – September 2016

Managed 30 independent sales representatives and 50 international distributors. Initiated new product development projects. Directed intellectual property and trademark strategy globally. Increased gross margins and reduced costs by eliminating wasteful programs. Maximized new customer acquisition through innovative sales incentive programs. Launched products in over 20 markets outside the U.S.

Director, Sales & Marketing

Bio-Tissue, Inc., Miami, FL

July 2002 – August 2004

Responsible for all commercial activities in the U.S. and Canada.

Education

B.A. History, Cum Laude

University of Memphis, Memphis, TN

Communication

Granted multiple patents for ophthalmic medical devices.

Leadership

Experience leading numerous initiatives and groups to increase profitability and reduce waste.

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. NV6044744

Application/License No. _____

Santen, Inc. (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 6401 Hollis Street, Suite 125 Emeryville, CA 94608 (Address of Applicant/Principal), as PRINCIPAL, and Merchants Bonding Company (Mutual) (Surety Company), a corporation organized under the laws of the state of Iowa (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is 6700 Westown Parkway, West Des Moines, IA 50266 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of ONE HUNDRED THOUSAND DOLLARS ($100,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on September 28, 2022 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statutes (NRS) 639.515 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $100,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

Posted February 20, 2020

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS
639.515. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 28th day of September, 20 22.

MERCHANTS BONDING COMPANY

POWER OF ATTORNEY

Know All Persons By These Presents, that MERCHANTS BONDING COMPANY (MUTUAL) and MERCHANTS NATIONAL BONDING, INC., both being corporations of the State of Iowa (herein collectively called the "Companies") do hereby make, constitute and appoint, individually,

Valerie Takeuchi

their true and lawful Attorney(s)-In-Fact, to sign its name as surety(ies) and to execute, seal and acknowledge any and all bonds, undertakings, contracts and other written instruments in the nature thereof, on behalf of the Companies in their business of guaranteeing the fidelity of persons, guaranteeing the performance of contracts and executing or guaranteeing bonds and undertakings required or permitted in any actions or proceedings allowed by law.

This Power-of-Attorney is granted and is signed and sealed by facsimile under and by authority of the following By-Laws adopted by the Board of Directors of Merchants Bonding Company (Mutual) on April 23, 2011 and amended August 14, 2015 and adopted by the Board of Directors of Merchants National Bonding, Inc., on October 16, 2015.

"The President, Secretary, Treasurer, or any Assistant Treasurer or any Assistant Secretary or any Vice President shall have power and authority to appoint Attorneys-in-Fact, and to authorize them to execute on behalf of the Company, and attach the seal of the Company thereto, bonds and undertakings, recognizances, contracts of indemnity and other writings obligatory in the nature thereof."

"The signature of any authorized officer and the seal of the Company may be affixed by facsimile or electronic transmission to any Power of Attorney or Certification thereof authorizing the execution and delivery of any bond, undertaking, recognizance, or other suretyship obligations of the Company, and such signature and seal when so used shall have the same force and effect as though manually fixed."

In connection with obligations in favor of the Florida Department of Transportation only, it is agreed that the power and aut hority hereby given to the Attorney-in-Fact includes any and all consents for the release of retained percentages and/or final estimates on engineering and construction contracts required by the State of Florida Department of Transportation. It is fully understood that consenting to the State of Florida Department of Transportation making payment of the final estimate to the Contractor and/or its assignee, shall not relieve this surety company of any of its obligations under its bond.

In connection with obligations in favor of the Kentucky Department of Highways only, it is agreed that the power and authority hereby given to the Attorney-in-Fact cannot be modified or revoked unless prior written personal notice of such intent has been given to the Commissioner-Department of Highways of the Commonwealth of Kentucky at least thirty (30) days prior to the modification or revocation.

In Witness Whereof, the Companies have caused this instrument to be signed and sealed this 28th day of September , 2022 .

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. 107546931

Application/License No. _____

SHORLA ONCOLOGY INC. (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 245 Main Street, 2nd floor Cambridge, MA 02142 (Address of Applicant/Principal), as PRINCIPAL, and TRAVELERS CASUALTY AND SURETY COMPANY OF AMERICA (Surety Company), a corporation organized under the laws of the state of CT (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is One Tower Square Hartford, CT 06183 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of ONE HUNDRED THOUSAND DOLLARS ($100,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on June 21, 2022 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statutes (NRS) 639.515 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $100,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS
639.515. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 21st day of June, 2022.

St. Paul Fire and Marine Insurance Company

POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS: That Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company are corporations duly organized under the laws of the State of Connecticut (herein collectively called the "Companies"), and that the Companies do hereby make, constitute and appoint **Aerie Walton** of **CHICAGO**, **Illinois**, their true and lawful Attorney(s)-in-Fact to sign, execute, seal and acknowledge any and all bonds, recognizances, conditional undertakings and other writings obligatory in the nature thereof on behalf of the Companies in their business of guaranteeing the fidelity of persons, guaranteeing the performance of contracts and executing or guaranteeing bonds and undertakings required or permitted in any actions or proceedings allowed by law.

IN WITNESS WHEREOF, the Companies have caused this instrument to be signed, and their corporate seals to be hereto affixed, this **21st** day of **April, 2021**.

State of Connecticut

City of Hartford ss.

By: _____
Robert L. Raney, Senior Vice President

On this the **21st** day of **April, 2021**, before me personally appeared **Robert L. Raney**, who acknowledged himself to be the Senior Vice President of each of the Companies, and that he, as such, being authorized so to do, executed the foregoing instrument for the purposes therein contained by signing on behalf of said Companies by himself as a duly authorized officer.

IN WITNESS WHEREOF, I hereunto set my hand and official seal.

My Commission expires the **30th** day of **June, 2026**

_____
Anna P. Nowik, Notary Public

This Power of Attorney is granted under and by the authority of the following resolutions adopted by the Boards of Directors of each of the Companies, which resolutions are now in full force and effect, reading as follows:

RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President, any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary may appoint Attorneys-in-Fact and Agents to act for and on behalf of the Company and may give such appointee such authority as his or her certificate of authority may prescribe to sign with the Company's name and seal with the Company's seal bonds, recognizances, contracts of indemnity, and other writings obligatory in the nature of a bond, recognizance, or conditional undertaking, and any of said officers or the Board of Directors at any time may remove any such appointee and revoke the power given him or her; and it is

FURTHER RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President may delegate all or any part of the foregoing authority to one or more officers or employees of this Company, provided that each such delegation is in writing and a copy thereof is filed in the office of the Secretary; and it is

FURTHER RESOLVED, that any bond, recognizance, contract of indemnity, or writing obligatory in the nature of a bond, recognizance, or conditional undertaking shall be valid and binding upon the Company when (a) signed by the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary and duly attested and sealed with the Company's seal by a Secretary or Assistant Secretary; or (b) duly executed (under seal, if required) by one or more Attorneys-in-Fact and Agents pursuant to the power prescribed in his or her certificate or their certificates of authority or by one or more Company officers pursuant to a written delegation of authority; and it is

FURTHER RESOLVED, that the signature of each of the following officers: President, any Executive Vice President, any Senior Vice President, any Vice President, any Assistant Vice President, any Secretary, any Assistant Secretary, and the seal of the Company may be affixed by facsimile to any Power of Attorney or to any certificate relating thereto appointing Resident Vice Presidents, Resident Assistant Secretaries or Attorneys-in-Fact for purposes only of executing and attesting bonds and undertakings and other writings obligatory in the nature thereof, and any such Power of Attorney or certificate bearing such facsimile signature or facsimile seal shall be valid and binding upon the Company and any such power so executed and certified by such facsimile signature and facsimile seal shall be valid and binding on the Company in the future with respect to any bond or understanding to which it is attached.

I, **Kevin E. Hughes**, the undersigned, Assistant Secretary of each of the Companies, do hereby certify that the above and foregoing is a true and correct copy of the Power of Attorney executed by said Companies, which remains in full force and effect.

Dated this **21st** day of **June**, **2022**.

_____
Kevin E. Hughes, Assistant Secretary

UNITED STATES OF AMERICA

The State of Washington

Secretary of State

I, STEVE R. HOBBS, Secretary of State of the State of Washington and custodian of its seal, hereby issue this

CERTIFICATE OF EXISTENCE

OF

VERATHON INC.

I CERTIFY that the records on file in this office show that the above named entity was formed under the laws of the State of Washington and that its public organic record was filed in Washington and became effective on 04/02/1984.

I FURTHER CERTIFY that the entity's duration is Perpetual, and that as of the date of this certificate, the records of the Secretary of State do not reflect that this entity has been dissolved.

I FURTHER CERTIFY that all fees, interest, and penalties owed and collected through the Secretary of State have been paid.

I FURTHER CERTIFY that the most recent annual report has been delivered to the Secretary of State for filing and that proceedings for administrative dissolution are not pending.

Issued Date: 10/04/2022
UBI Number: 600 528 953

Given under my hand and the Seal of the State of Washington at Olympia, the State Capital

Steve R. Hobbs, Secretary of State

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. 107704833

Application/License No. _____

Verathon, Inc., doing or intending to do business as a
(Applicant/Principal)
pharmaceutical wholesaler, whose address for purposes of service is
20001 North Creek Parkway, Bothell, WA 98011, as
(Address of Applicant/Principal)
PRINCIPAL, and Travelers Casualty and Surety Company of America, a
(Surety Company)
corporation organized under the laws of the state of Connecticut
(State of Incorporation)
and authorized to transact a general surety business in the State of

Nevada, whose address for purposes of service is
One Tower Square, Hartford, CT 06183 as
(Address of Surety)
SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of ONE HUNDRED THOUSAND DOLLARS ($100,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on October 4, 2022.
(Effective Date)

WHEREAS, the provisions of Nevada Revised Statutes (NRS) 639.515 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $100,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS
639.515. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 4 day of October, 20 22.

Robert L. Raney, Senior Vice President

On this the **3rd** day of **February, 2017**, before me personally appeared **Robert L. Raney**, who acknowledged himself to be the Senior Vice President of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, and that he, as such, being authorized so to do, executed the foregoing instrument for the purposes therein contained by signing on behalf of the corporations by himself as a duly authorized officer.

In Witness Whereof, I hereunto set my hand and official seal.

My Commission expires the **30th** day of **June, 2021**

Marie C. Tetreault
Marie C. Tetreault, Notary Public

This Power of Attorney is granted under and by the authority of the following resolutions adopted by the Boards of Directors of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, which resolutions are now in full force and effect, reading as follows:

RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President, any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary may appoint Attorneys-in-Fact and Agents to act for and on behalf of the Company and may give such appointee such authority as his or her certificate of authority may prescribe to sign with the Company's name and seal with the Company's seal bonds, recognizances, contracts of indemnity, and other writings obligatory in the nature of a bond, recognizance, or conditional undertaking, and any of said officers or the Board of Directors at any time may remove any such appointee and revoke the power given him or her; and it is

FURTHER RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President may delegate all or any part of the foregoing authority to one or more officers or employees of this Company, provided that each such delegation is in writing and a copy thereof is filed in the office of the Secretary; and it is

FURTHER RESOLVED, that any bond, recognizance, contract of indemnity, or writing obligatory in the nature of a bond, recognizance, or conditional undertaking shall be valid and binding upon the Company when (a) signed by the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary and duly attested and sealed with the Company's seal by a Secretary or Assistant Secretary; or (b) duly executed (under seal, if required) by one or more Attorneys-in-Fact and Agents pursuant to the power prescribed in his or her certificate or their certificates of authority or by one or more Company officers pursuant to a written delegation of authority; and it is

FURTHER RESOLVED, that the signature of each of the following officers: President, any Executive Vice President, any Senior Vice President, any Vice President, any Assistant Vice President, any Secretary, any Assistant Secretary, and the seal of the Company may be affixed by facsimile to any Power of Attorney or to any certificate relating thereto appointing Resident Vice Presidents, Resident Assistant Secretaries or Attorneys-in-Fact for purposes only of executing and attesting bonds and undertakings and other writings obligatory in the nature thereof, and any such Power of Attorney or certificate bearing such facsimile signature or facsimile seal shall be valid and binding upon the Company and any such power so executed and certified by such facsimile signature and facsimile seal shall be valid and binding on the Company in the future with respect to any bond or understanding to which it is attached.

I, **Kevin E. Hughes**, the undersigned, Assistant Secretary of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, do hereby certify that the above and foregoing is a true and correct copy of the Power of Attorney executed by said Companies, which remains in full force and effect.

- Please contact this office immediately if any information on this license is incorrect.
- This license must be displayed at the address licensed.
- The license renewal application and fee are due every two years BEFORE the anniversary date. Please note that it is the responsibility of the license holder to remit the licensure fee before the expiration date, whether a payment notice is received or not. Failure to submit the renewal fee before the expiration date will result in a $100.00 delinquency fee for each location and must be remitted before the license will be issued.
- A license that is amended, including a change of name, ownership, legal entity, or a notification of a change in the location of a licensed place of business will require submission of new application and fee. Applications for these changes can be downloaded from our website at **www.dshs.texas.gov**.
- Please submit written notice if you close or sell your business.
- If you have any questions or desire additional information concerning the application process or this license, please contact the Drug and Device Business Filing and Verification Unit at (512) 834-6727. In order to serve you better, DSHS would like you to complete the short online survey at: **https://www.surveymonkey.com/r/RLUsurvey**. The information you provide will assist DSHS in its efforts to continually improve and become more responsive to the needs of its customers. Thank you in advance for your cooperation.

NEVADA STATE BOARD OF PHARMACY

985 Damonte Ranch Parkway, Suite 206 – Reno, NV 89521 – 775-850-1440

Medical Products Provider- Medical Devices, Equipment and Gases (MDEG)
Administrator Application

Rev (06/08/2021)

NAC 639.694

1. **Each medical products provider or medical products wholesaler shall employ an administrator at all times. The administrator must:**
    a. Be a natural person;
    b. Have a high school diploma or its equivalent;
    c. Have:
        i. At least 1,500 hours of verifiable direct patient-care work experience relating to the products provided by the medical products provider or medical products wholesaler; or
        ii. An associate's degree or higher degree from an accredited college or university in a field of study that is directly related to patient health care;
    d. Be employed by the medical products provider or medical products wholesaler at the place of business or facility of the employer at least 40 hours per week or during all regular business hours if the business or facility is regularly open less than 40 hours per week; and
    e. Be approved by the Board.
2. The administrator shall ensure that the operation of the business or facility complies with all applicable federal, state and local laws, regulations and rules.
3. A medical products provider or medical products wholesaler shall notify the staff of the Board of the cessation of employment of an administrator within 3 business days after the cessation of the employment. A medical products provider or medical products wholesaler shall notify the staff of the Board of the employment of a new administrator within 3 business days after the beginning of the employment.
4. A medical products provider or medical products wholesaler may not operate for more than 10 business days without an administrator. The Board may summarily suspend the operation of a business or facility that operates without an administrator.

Please mail this completed application and all other required documents with your MDEG Application to the address indicated above.

1. _____ Have a high school diploma or its equivalent;
2. _____ Have
   a. At least 1,500 hours of verifiable direct patient-care work experience relating to the products provided by the medical products provider or medical products wholesaler; or
   b. An associate's degree or higher degree from an accredited college or university in a field of study that is directly related to patient health care;
3. _____ Will be employed by the medical products provider or medical products wholesaler at the place of business or facility of the employer at least 40 hours per week or during all regular business hours if the business or facility is regularly open less than 40 hours per week; and
4. _____ Will ensure that the operation of the business or facility complies with all applicable federal, state and local laws, regulations and rules.

I certify under penalty of perjury that the information contained in this application is accurate, true and complete in all material respects. I understand that making any false representation in this application is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire application and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event this application is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

Commission File Number: 001-40361

AGILITI, INC.

(Exact name of registrant as specified in its charter)

Delaware	**6625 West 78th Street, Suite 300**	**83-1608463**
(State or other jurisdiction of incorporation or organization)	**Minneapolis, Minnesota 55439-2604** (Address of principal executive offices, including zip code) **(952) 893-3200** (Registrant's telephone number, including area code)	(I.R.S. Employer Identification No.)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	**Trading Symbol(s)**	**Name of each exchange on which registered**
Common Stock, par value $0.0001	AGTI	The New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☐ No ☒

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes ☐ No ☒

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐	Accelerated filer ☐	Emerging growth company ☐
Non-accelerated filer ☒	Smaller reporting company ☐	

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financing accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

The aggregate market value of the voting and non-voting common equity held by non-affiliates of the registrant as of June 30, 2021, the last business day of the registrant's most recently completed second fiscal quarter, was approximately $694,928,895 based upon the closing price reported for such date on the New York Stock Exchange.

The number of shares of common stock, $0.0001 par value, outstanding as of February 28, 2022 was 131,121,028.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the registrant's Definitive Proxy Statement relating to the Annual Meeting of Stockholders are incorporated by reference into Part III of this Annual Report on Form 10-K where indicated. Such Definitive Proxy Statement will be filed with the Securities and Exchange Commission within 120 days after the end of the registrant's fiscal year ended December 31, 2021.

NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact included in this Form 10-K are forward-looking statements. Forward-looking statements give our current expectations and projections relating to our financial condition, results of operations, plans, objectives, future performance and business. You can identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. These statements may include words such as "anticipate", "estimate", "expect", "project", "plan", "intend", "believe", "may", "will", "should", "can have", "likely" and other words and terms of similar meaning in connection with any discussion of the timing or nature of future operating or financial performance or other events. All forward-looking statements are subject to risks and uncertainties that may cause actual results to differ materially from those that we expected, including:

- effects from political and policy changes that could limit our growth opportunities;
- effects from the continued COVID-19 pandemic on our business and the economy;
- our potential inability to maintain existing contracts or contract terms with, or enter into new contracts with, our customers;
- cancellations by or disputes with customers;
- our potential failure to maintain our reputation, including by protecting intellectual property;
- effects of a global economic downturn on our customers and suppliers;
- a decrease in our customers' patient census or services;
- competitive practices by our competitors that could cause us to lose market share, reduce our prices or increase our expenditures;
- the bundling of products and services by our competitors, some of which we do not offer;
- consolidation in the healthcaro industry, which may lead to a reduction in the prices we charge;
- adverse developments with supplier relationships;
- the potential inability to change tbe manner in which healthcare providers traditionally procure medical equipment;
- our potential inability to attract and retain key personnel;
- our potential inability to make attractive acquisitions or successfully integrate acquire businesses;
- impairment charges for goodwill or other long-lived assets;
- an increase in expenses related to our pension plan;
- the fluctuation of our casb flow;
- credit risks relating to home care providers and nursing homes;
- potential claims related to the medical equipment that we outsource and service;
- the incurrence of costs that we cannot pass through to our customers;
- a failure of our management information systems;
- limitations inherent in all internal controls systems over financial reporting;
- social unrest;
- our failure to keep up with technological changes;
- our failure to coordinate the management of our equipment;
- challenges to our tax positions or changes in taxation laws;
- litigation that may be costly to defend;
- uncertainty surrounding healthcare reform initiatives;
- federal privacy laws that may subject us to more stringent penalties;

- our relationship with healthcare facilities and marketing practices that are subject to federal Anti-Kickback Statute and similar state laws;
- our contracts with the federal government that subject us to additional oversight;
- the impact of changes in third-party payor reimbursement for healthcare items and services on our customers' ability to pay for our services;
- the highly regulated environment our customers operate in; and
- potential recall or obsolescence of our large fleet of medical equipment.

We derive many of our forward-looking statements from our operating budgets and forecasts, which are based on many detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and it is impossible for us to anticipate all factors that could affect our actual results. Important factors that could cause actual results to differ materially from our expectations, or cautionary statements, are disclosed under "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in this Form 10-K and elsewhere in our filings with the SEC. All written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by these cautionary statements as well as other cautionary statements that are made from time to time in our other SEC filings and public communications. You should evaluate all forward-looking statements made in this Form 10-K in the context of these risks and uncertainties.

We caution you that the important factors referenced above may not contain all of the factors that are important to you. In addition, we cannot assure you that we will realize the results or developments we expect or anticipate or, even if substantially realized, that they will result in the consequences or affect us or our operations in the way we expect. The forward-looking statements included in this Form 10-K are made only as of the date hereof. We undertake no obligation to update or revise any forward-looking statement as a result of new information, future events or otherwise, except as otherwise required by law.

PART I

ITEM 1: Business

Unless otherwise specified, the terms "we", "our", "us" and the "Company" refer to Agiliti, Inc. and, where appropriate, its consolidated subsidiaries. The term "THL" refers to Thomas H. Lee Partners, L.P., our principal stockholder, and the term "THL Stockholder" refers to THL Agiliti LLC, an affiliate of Thomas H. Lee Partners, L.P.

Our Mission

Agiliti, Inc. is an essential service provider to the U.S. healthcare industry with solutions that help support a more efficient, safe and sustainable healthcare delivery system. We ensure healthcare providers have the critical medical equipment they need to care for patients—wherever and whenever it's needed—with a service model that helps lower costs, reduce waste and maintain the highest quality standard of medical device management in the industry. We are motivated by a belief that ***every interaction has the power to change a life***, which forms the cornerstone of how we approach our work and frames the lens through which we view our responsibility to make a difference for the customers, patients and communities we serve.

Overview

We believe we are one of the leading experts in the manufacturing, management, maintenance and mobilization of mission-critical, regulated, reusable medical devices. We offer healthcare providers a comprehensive suite of medical equipment management and service solutions that help reduce capital and operating expenses, optimize medical equipment utilization, reduce waste, enhance staff productivity and bolster patient safety.

We commenced operations in 1939, originally incorporated in Minnesota in 1954 and reincorporated in Delaware in 2001.

In our more than 80 years of experience ensuring healthcare providers have high-quality, expertly maintained equipment to serve their patients, we've established a nationwide operating footprint that supports our offering. This at-scale, local market service and logistics infrastructure positions us to reach customers across the entire healthcare continuum—from individual facilities to the largest and most complex healthcare systems. Our ability to rapidly mobilize, track, repair and redeploy equipment during times of peak need or emergent events has made us a service provider of choice for city, state and the federal government in the management of emergency equipment stockpiles.

Our diverse customer base includes more than 9,000 national, regional and local acute care hospitals, health systems and integrated delivery networks and alternate site providers (such as surgery centers, specialty hospitals, home care providers, long-term acute care hospitals and skilled nursing facilities). We serve the federal government as well as a number of city and state governments providing management and maintenance of emergency equipment stockpiles, and we are an outsourced service provider to medical device manufacturers supporting critical device remediation and repair services. We deliver our solutions through our nationwide network of more than 150 service centers and seven ISO 13485 Certified Centers of Excellence, among which we employ a team of more than 700 specialized biomed repair technicians, more than 4,000 field-based service operators who work onsite within customer facilities or in our local service centers, and over 200 field sales and account managers. Our fees are primarily paid directly by our customers rather than by direct reimbursement from third-party payors, such as private insurers, Medicare or Medicaid.

Industry Challenges

The U.S. healthcare industry continues to face transformative pressure that affects how provider organizations conduct business and serve their patients. Across the healthcare system, providers face compounding financial and operational challenges, including cost pressure from payors, nursing and clinical staff shortages, rising costs of drugs and supplies, increasing regulatory oversight, and advances in medical technology that generally result in higher prices for newer equipment and a higher cost of managing that equipment over its lifecycle. Given there is little that providers can do to change external dynamics, there is increased focus on areas within their enterprise that they can control. In our

experience, one area that most hospitals and health systems identify for operational and cost improvement is the management and maintenance of medical equipment.

Healthcare facilities have been shown to own large quantities of reusable capital equipment ranging from multi-million dollar highly technical devices (e.g. MRIs) to lower cost, high volume devices (e.g. infusion pumps) required for patient care, treatment and diagnosis. In our experience, providers often face challenges in managing their medical equipment inventory effectively. For example, hospitals typically utilize roughly 42% of their owned medical equipment inventory at any given time, yet caregivers report that they routinely lack access to readily available patient-ready equipment. Nurses report spending an average of 20 minutes per shift searching for equipment, and often less than 37% of their time on direct patient care. Operational silos that naturally occur among hospital departments create inadvertent breakdowns within equipment management workflows, from the administrators who order equipment, to the support staff who clean/reprocess and deliver the equipment, to the nurses and doctors who use the equipment.

Further, the repair and maintenance of this highly technical equipment continues to increase in complexity and cost. Over a period of 15 years from 1995 to 2010 there was a 62% increase in the number of medical devices per hospital bed and a 90% increase in costs related to maintaining this equipment (between 1995 and 2010). Given the increasingly complex nature of these devices and stringent regulatory mandates guiding their upkeep, specialized technical knowledge is required to repair and maintain them. Most healthcare facilities struggle to employ the in-house capabilities and resources needed to ensure timely, routine maintenance and rapid testing, repair and turnaround of their medical inventory which may impact time-to-therapy and patient safety, while driving up capital replacement costs on equipment that could have otherwise heen kept operational with proper maintenance.

Finally, the healthcare system experiences seasonality in patient volumes, resulting in peak-need demand for specialized medical equipment (e.g. ventilators, specialty beds, infusion pumps). Given the common breakdowns in managing and maintaining their inventory during times of normal operation, hospitals face additional burden on equipment availability during times of peak need and will procure supplemental equipment through additional acquisition channels to fill this gap.

These challenges drive up significant costs and time delays within individual hospital facilities, but when multiplied across several hospitals and alternate site facilities within an integrated delivery network ("IDN"), the losses increase significantly. An average 2,500 bed IDN has been shown to waste more than $11 million annually on inefficient equipment maintenance and unnecessary capital purchases, while clinicians lose valuable patient time and productivity hours managing equipment needs.

These dynamics, supported by the following trends, further support the essential nature of our work:

Focus on reducing costs and increasing operational efficiency. Hospitals and other healthcare facilities continue to experience substantial pressure to conserve capital, reduce operating expenses and become more operationally efficient. We expect these pressures to continue in the future and believe that we will always be on the right side of healthcare reform. Our comprehensive, end-to-end solutions offer customers a way to realize costs savings while enhancing operational improvements for medical equipment access and availability, thereby improving their organizational efficiency and financial viability.

Demand for better patient safety and outcomes. Hospitals across the U.S. are focused on improving patient safety and outcomes, which includes efforts to minimize hospital-acquired conditions (e.g. infections, patient falls and pressure injuries) and increase nursing time at the patient bedside. Hospitals turn to us to assist them in managing their equipment in ways that have been shown to to help them to minimize these incidents and ensure equipment is available when and where it is needed for patient care, thereby improving patient safety and time to therapy, and supporting optimal patient outcomes.

Caregiver retention and satisfaction. Hospitals continue to experience pressure and risk related to nursing and other caregiver retention and job satisfaction pressures. According to reports from the World Health Organization, the United States is expected to have a nurse shortage of 500,000 nurses by 2025. Adding non-patient care duties, such as searching for, cleaning and managing equipment, adds to nurse workload and contributes to clinician dissatisfaction and turnover.

We expect that with these internal pressures, hospitals will increasingly turn to our programs to outsource healthcare technology management duties and related management processes to allow nurses more time to spend on patient care, resulting in improved job satisfaction.

Increased capital and operating expense pressures and regulatory compliance. Hospitals continue to experience restricted capital and operating budgets, while the cost and complexity of medical equipment increases. Furthermore, the increasing complexity and sophistication of medical equipment brings with it more recordkeeping requirements and regulatory scrutiny in its use and maintenance. We expect that hospitals will increasingly look to us to support the management and maintenance of their capital equipment inventory to achieve capital and operating expense savings, operating efficiencies and regulatory compliance.

Our Value Proposition

As a critical outsource partner to more than 9,000 U.S. healthcare customers, including most leading providers nationwide, we've tailored our solution offering and service model to address the unique challenges and opportunities we witness among our customers related to the effective management of medical equipment.

Our services help eliminate significant capital and operating costs associated with the ownership and lifecycle management of mission-critical medical equipment. In addition to optimizing use of providers' owned equipment, we provide ready access and increase the on-patient utilization of supplemental medical equipment to address fluctuations in patient census and patient acuity. By partnering with Agiliti, providers have the benefits of:

Cost savings and lower total costs of equipment ownership

- Increased utilization of both customer-owned and supplemental equipment
- Lower overall total cost of equipment ownership by combining our solutions to solve challenges across the end-to-end equipment management process
- Optimized management and logistics of provider-owned equipment through tracking, monitoring, reprocessing, maintaining, and ensuring equipment is safety-tested and redeployed for use
- Reduced maintenance and repair costs through the use of our proprietary technology, flexible staffing models, parts pool, equipment capabilities and diverse skill mix of knowledgeable equipment technicians and our commitment to quality
- Benefits of specialized technician labor to augment clinical biomed staff, having been shown to help reduce service costs and provide required technical proficiency to address more complex equipment types
- Access to our extensive data and expertise on the cost, performance, features and functions of all major items of medical equipment
- Assistance with capital planning, vendor management and regulatory compliance

More time to spend with patients and confidence in the availability of patient-ready medical equipment

- Increased productivity and satisfaction among nursing staff achieved by eliminating certain non-clinical work tasks and saving an average 300-bed hospital over 28,000 caregiver hours annually, allowing more time to focus on patient care responsibilities
- Improved time-to-therapy for patients at risk for falls, skin breakdown and bariatric safety by expediting delivery of therapeutic equipment direct to the patient room
- Access to supplemental moveable medical equipment, surgical equipment and next generation technology without the expense of acquisition on a pay-per-procedure basis

Improved regulatory compliance, risk management and extended use life

- Optimal maintenance intervals and parts replacement to extend equipment use life, reduce waste and lower obsolescence risk
- Compliance with regulatory and recordkeeping requirements and adherence to manufacturers' specifications on the reprocessing and maintenance of medical equipment
- Equipment quality assurance through the use of our comprehensive quality management system ("QMS") based on the quality standards recognized worldwide for medical devices: 21 CFR 820 and ISO 13485:2016
- Risk mitigation and lower costs associated with product recalls or device modifications

Technical expertise and supplemental staffing to sustain optimal equipment workflow

- Reduced administrative and time burdens on clinical staff related to managing and locating available equipment and coordinating among multiple vendors
- Specialized technical and clinical specialists that directly interact with and work alongside customers to optimize equipment outsourcing solutions

Our Market Opportunities

We participate in a $14 billion U.S. medical equipment services market comprised of the services we offer through our onsite managed services, clinical engineering services and equipment solutions service lines. We believe that this market will grow at mid-single digits annually.

Per the Centers for Medicare and Medicaid Services ("CMS"), as of 2020, healthcare spending reached $4.1 trillion, or $12,530 per person and accounted for 19.7% of the U.S. GDP. Spending is expected to grow at an average annual rate of 5.4% from 2019-2028, due to secular tailwinds including an aging population, rising acuity, and prevalence of chronic conditions.

There is a fundamental shift in the needs of health systems, hospitals and alternate site providers to move from supplemental and peak need sourcing of medical equipment toward more comprehensive onsite inventory management and maintenance solutions. As healthcare facilities look to balance the challenge of providing better care at lower costs, they are more open to third party partnerships that outsource critical but non-core support functions. The move toward full outsourcing is not unlike trends in similar services at hospitals including food service, laundry, professional staffing and technology.

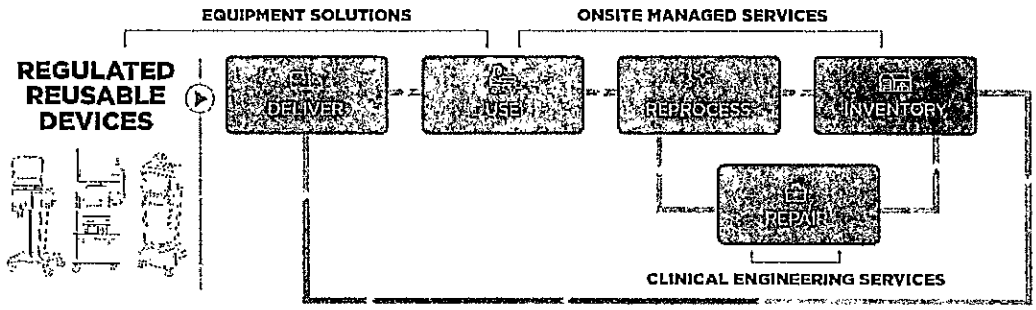
We believe there are several key macro trends that will drive increased demand for our products and services:

Favorable demographic trends. According to the U.S. Census Bureau, individuals aged 65 and older in the United States comprise the fastest growing segment of the population. This segment is expected to grow to approximately 81 million individuals by 2040. This represents a 44% increase in the 65-and-older segment of the population over the next 20 years. As a result, over time, the number of patients and the volume of hospital admissions are expected to grow. The aging population and increasing life expectancy are driving demand for healthcare services.

Increase in chronic disease and obesity. According to the Center for Disease Control and Prevention ("CDC"), six in ten Americans live with at least one chronic disease, like heart disease and stroke, cancer, or diabetes. These conditions often require specialty equipment to support therapeutic intervention in inpatient and outpatient care settings. In addition, obesity in the U.S. increased to 42.4% of the population between 2017-2018, up from 30.5% in 2000 (CDC). This population demands greater access to specialty bariatric equipment to support care and minimize the incidence of injury during a hospital stay.

Increased mergers & acquisitions. We have seen that hospitals and healthcare systems continue to expand their covered network and acquire alternate care delivery settings in order to care for patient populations in the most cost-

effective way. In our experience, providers are increasingly seeking partners that provide comprehensive services and that can quickly adapt to changing health system infrastructure and growth. Working with one vendor that can operate at a nationwide and system-wide scale is attractive to cities, states, and IDNs who operate, manage, and maintain equipment inventories across multiple locations.



Centralizing shared services across the IDN. Health systems with duplicate services across multiple facilities in close proximity have an increased risk of unnecessary variation, greater costs, and suboptimal outcomes. Many health systems have centralized and consolidated non-clinical services as a shared service, including billing, reimbursement, supply chain, human resources, IT, etc. We have witnessed a growing trend among IDNs to centralize and consolidate equipment maintenance and logistics among member facilities. In our experience, because most health systems do not currently have the storage, technical or transportation resources for managing a shared equipment management function, they will seek third party support to optimize equipment utilization, redeploy equipment where needed and reduce overall equipment costs.

Increase in infection control risks. Infection control remains an essential priority for hospitals and health systems as a way to limit the spread of hospital-acquired infections. This has further escalated as a top priority due to the COVID-19 pandemic. Most focus in this area is around hand hygiene, the proper use of personal protective equipment (PPE) and the reprocessing and sterilization of critical and semi-critical medical devices (e.g. surgical instruments, endoscopes). Often overlooked is the reprocessing of non-critical medical devices, such as infusion pumps and ventilators, that are commonly touched by caregivers and patients. If not properly cleaned and sanitized between patient use, these devices can pose increased infection control risks. We expect an increase in demand of onsite equipment management programs to address proper reprocessing of these types of devices and help lower infection risks and allow clinicians to spend more time at the patient bedside and less time cleaning equipment.

Our Solutions

We provide a comprehensive offering for the manufacturing, management, maintenance and mobilization of critical medical devices, built on an integrated service platform. Our solutions help reduce the cost and complexity of acquiring, managing and maintaining medical equipment inventories. The integrated nature of our offerings within our end-to-end service framework ensures we maximize value to over 9,000 customers nationwide as we address more aspects of the equipment lifecycle continuum.

While customers may initially engage with us across one aspect of our service lines within this framework, we employ a variety of land-and-expand tactics to grow our relationships and customer share-of-wallet over time. These tactics include:

- ***Gateway solutions*** which offer an entry point to the economic buyer and include peak needs equipment, surgical lasers and equipment, specialty beds and surfaces and supplemental clinical engineering services;
- ***Vertical solutions*** which provide a deeper level of service with clinical offerings tailored to specific patient needs (e.g. bariatrics, wound management, falls management) and clinical engineering programs for broad equipment categories (general biomedical devices, diagnostic imaging equipment, surgical instruments);
- ***Comprehensive, connected solutions*** through onsite managed services and outsourced clinical engineering services that connect previously fragmented customer workflow processes to drive operational efficiencies, realize improved clinician and equipment productivity, lower total cost of ownership, ensure regulatory compliance, reduce waste, improve time to therapy and allow customers to effectively lower costs; and
- ***Comprehensive logistics, management and clinical engineering solutions*** that allow IDNs to manage equipment inventories across multiple locations, and supports city, state and federal government agencies in managing and maintaining equipment stockpiles.

We deploy our solution offering across three primary service lines:

On-Site Managed Services: Onsite Managed Services are comprehensive programs that assume full responsibility for the management, reprocessing and logistics of medical equipment at individual facilities and IDNs, with the added benefit of enhancing equipment utilization and freeing more clinician time for patient care. This solution monitors and adjusts equipment quantities and availability to address fluctuations in patient census and acuity. Our more than 1,600 onsite employees work 24/7 in customer facilities, augmenting clinical support by integrating proven equipment management processes, utilizing our proprietary management software and conducting daily rounds and unit-based training to ensure equipment is being used and managed properly, overall helping to optimize day-to-day operations and care outcomes. We assume full responsibility for ensuring equipment is available when and where it is needed, removing equipment when no longer in use, and decontaminating, testing and servicing equipment as needed between each patient use. Revenue attributable to such customers represented 29% of our total revenue for both the years ended December 31, 2021 and 2020.

Clinical Engineering Services: Clinical Engineering Services provides maintenance, repair and remediation solutions for all types of medical equipment, including general biomedical equipment, diagnostic imaging equipment and surgical equipment through supplemental and outsourced offerings. Our supplemental offering helps customers manage their equipment repair and maintenance backlog, assist with remediation and regulatory reporting and temporarily fill open biotechnical positions. With our outsourced offering, we assume full management, staffing and clinical engineering service responsibilities for individual or system-wide customer sites. The outsourced model deploys a dedicated, on-site team to coordinate the management of customer-owned equipment utilizing our proprietary information systems, third party vendors of services and parts, and a broad range of professional services for capital equipment planning and regulatory compliance. We leverage more than 700 technical resources from our over 150 local market service centers and seven Centers of Excellence to flex staff in and out of customer facilities on an as-needed basis, ensuring customers pay only for time spent directly servicing their equipment by an appropriately qualified technician. We use flex staffing for our supplemental clinical engineering solution and to augment support when additional technicians are needed to supplement our outsourced services during peak workload. We contract our Clinical Engineering Services with acute care and alternate site facilities across the U.S., as well as with the federal government and any medical device manufacturers that require a broad logistical footprint to support their large-scale service needs. Revenue attributable to such customers for the years ended December 31, 2021 and 2020 represented 37% and 33% of our total revenue, respectively.

Equipment Solutions: Equipment Solutions primarily provides supplemental, peak need and per-case rental of general biomedical, specialty, and surgical equipment to acute care hospitals and alternate site providers in the U.S., including some of the nation's premier healthcare institutions and integrated delivery networks. We contract for Equipment Solutions services directly with customers or through our contractual arrangements with hospital systems and alternate site providers. We consistently achieve high customer satisfaction ratings, as evidenced by our Net Promotor Score ("NPS") of 55 for the year ended December 31, 2021, by delivering patient-ready equipment within our contracted equipment delivery times and by providing technical support and educational in-servicing for equipment as-needed in clinical departments, including the emergency room, operating room, intensive care, rehabilitation and general patient care areas. We are committed to providing the highest quality of equipment to our customers, and we do so through the use of our comprehensive QMS which is based on the quality standards recognized worldwide for medical devices: 21 CFR 820 and ISO 13485:2016. This commitment ensures that customers have access to patient-ready equipment with the confidence of knowing it bas been prepared and maintained to the highest industry standard to deliver optimal patient safety and outcomes. Revenue attributable to such customers for the years ended December 31, 2021 and 2020 represented 34% and 38% of our total revenue, respectively.

Many of our customers have multiple contracts and have revenue reported in multiple service lines. Our contracts vary based upon service offering, including with respect to term (with most being multi-year contracts), pricing (daily, monthly and fixed fee arrangements) and termination (termination for convenience to termination for cause only). Many of our contracts contain customer commitment guarantees and annual price increases tied to the consumer price index. Standard contract terms include payment terms, limitation of liability, force majeure provisions and choice of law/venue.

Because we work closely with customers to provide a long-term, value-based solution versus a product-based, transactional approach, they are motivated to expand their relationships with us over time. With approximately 75% white space within our current customers, we have demonstrated an ability to grow revenue up to 5-6x with existing customers as they move toward our full suite of highly complementary services. From the year ended December 31, 2015 to the year ended December 31, 2021, our top 50 customers that experienced the largest growth in revenue over the same period increased in revenue from an aggregate of approximately $22.2 million to approximately $135.4 million (with increases at each customer ranging from $1.2 million to $7.1 million and an average increase of $2.3 million, and with consistent growth across our three primary service lines), primarily driven by our efforts to expand our share of wallet within our existing customer base.

Further, the infrastructure and capabilities required to provide connected, responsive equipment lifecycle management is typically cost-prohibitive, even for large IDNs. Our nationwide network of clinical engineers, storage and repair facilities, vehicles and analytics tools gives us scale to provide cost-effective services for individual facilities, systems, regional IDNs, governments and device manufacturers.

Competitive Strengths

We believe our business model presents an attractive value proposition to our customers and that our comprehensive medical device management solutions and ability to work in partnership with and across Original Equipment Manufacturers ("OEMs") as a device-agnostic service provider have contributed to our growth in recent years. Our unique framework for end-to-end medical equipment management, delivered through our nationwide service and logistics infrastructure, differentiates us in the marketplace and is without comparable peers. We believe our more than 80 years of experience, extensive employee base of trained technicians and our reputation for service excellence has earned us a leading position in our industry. We attribute our historical success to our:

Strong value proposition. With our focus and expertise in connected, end-to-end medical equipment management and service solutions, we offer a compelling customer value proposition. We believe that many of our customers have come to rely on our ability to respond quickly to their needs with reliable, high quality products and service expertise. We believe our ability to provide this level of service distinguishes us from our competitors. It also requires us to maintain inventories and infrastructure that we do not believe our competitors currently maintain. Our comprehensive solutions focus on helping customers:

- lower total cost of device ownership by reducing capital and operating costs related to owning and managing medical equipment;
- enhance operational productivity and staff satisfaction by ensuring equipment is available when and where needed; and
- maintain high standards of quality and regulatory compliance related to medical equipment use, maintenance and end-of-life disposal.

Large, nationwide infrastructure. We have a broad and specialized nationwide staff, facility, and vehicle service network coupled with focused and customized operations at the local level. Our extensive network of service centers and Centers of Excellence and our 24-hours-a-day, 365 days-a-year service capabilities enable us to compete effectively for large, national contracts as well as drive growth regionally and locally.

We employ a number of technical, clinical and surgical specialists that engage directly with our customers to drive improved cost, efficiency and clinical outcomes. These include over 700 biomedical repair technicians, more than 4,000 field-based service operators, and over 200 field sales and account managers. Our specialized teams, large equipment fleet, and quality assurance programs have been built over 80 years serving provider customers and represent a significant investment in infrastructure over time. This places us in a unique and hard-to-replicate position with the scale to serve the most complex acute care hospitals, such as teaching, research or specialty institutions, that demand access to current and preferred technologies to meet the complex needs of their patients.

Proprietary software and asset management tools. We have used our more than 80 years of experience and our extensive database of equipment management information to develop sophisticated software technology and management tools. These tools enable us to meet unique customer demands by supporting sophisticated onsite managed services that help drive cost efficiencies and equipment productivity for caregivers. We believe that our ongoing investment in new tools and technology will help continue to distinguish our offerings to the healthcare industry.

Commitment to quality. Class I and II medical devices are designed, manufactured, and distributed from our Sizewise manufacturing facilities. Each of the United States-based facilities that produce finished goods is registered with the FDA and follows strict quality guidelines in accordance with 21 CFR 820. The Hays, KS, Ellis, KS, and Corona, CA Sizewise manufacturing facilities are ISO 1385:2016 compliant, and the two Kansas facilities are certified by Intertek; the California facility is pending certification. A dedicated quality team oversees the Quality Management System (QMS) at these locations.

Agiliti also services and repairs medical devices manufactured by other OEMs. Third-party service providers like Agiliti are not required to register their sites with the FDA; therefore, there are no regulations that specifically apply to our maintenance of medical devices. We've made a commitment, however, to do the right thing for our customers and their patients by staffing a dedicated Quality team and implementing a QMS based on the quality standards recognized

worldwide for medical devices: 21 CFR 820 and ISO 13485:2016. This commitment to quality ensures that patient safety and risk management are at the center of every product decision, and that our equipment is serviced to the highest standards in the industry. Over 90 local market service centers, eight government service centers, and seven Centers of Excellence follow an ISO 13485:2016 ccertified QMS, and we have elected to hire outside independent accredited registrars to audit our quality system. British Standards Institute ("BSI") has certified over 90 of our local market service centers, eight government service centers, and five of our Centers of Excellence to ISO 13485:2016, the remaining two Centers of Excellence are certified by Deutscher Kraftfahrzeug-Überwachungs-Verein e.V. ("Dekra") and National Quality Assurance ("NQA"). We believe that ISO 13485:2016 provides the stringent guidelines specific to medical devices to ensure that our fleet of equipment, as well as the equipment we service, is maintained to the highest quality standards. Our commitment to quality extends to our exclusive use of OEM parts to repair FDA 510(k) registered medical devices that we own, whenever available. Implementing optimal maintenance intervals and parts replacement extends equipment use life, thereby reducing waste and lowering risk of obsolescence. We believe that our robust QMS policies set us apart in our industry from those who may use less stringent quality practices on the equipment they own or maintain.

Superior customer service. We believe we have a long-standing reputation among our customers for outstanding service and quality. This reputation is largely attributable to our strong customer service culture, which is continuously reinforced by management's commitment to, and significant investment in, hiring and training resources. We strive to seamlessly integrate our employees and solutions into the operations of our customers. We believe that our aggressive focus on the overall customer experience has helped us achieve high customer satisfaction ratings, as evidenced by our NPS of 55 for the year ended December 31, 2021.

Low direct third-party payor reimbursement risk. Many healthcare providers rely on direct payment from patients or reimbursement from third-party payors. Our fees are primarily paid directly by our customers, rather than by third-party payors, such as Medicare, Medicaid, managed care organizations or indemnity insurers. Accordingly, our exposure to uncollectible patient or reimbursement receivables or Medicare or Medicaid reimbursement changes is reduced, as evidenced by our bad debt expense of approximately 0.2%, 0.3%, and 0.2% of total revenue for the years ended December 31, 2021, 2020, and 2019, respectively.

Values driven culture centered on doing the right thing for our many stakeholders. Our team operates on a set of shared aspirations that reflect the manner in which we approach our work and serve the needs of our customers, team members, shareholders and local communities. We believe these aspirations that underpin onr culture, strategy and service model help contribute to a safer and more sustainable healthcare system and frame the cornerstone of our success:

WE ARE BUILDING THE PREMIER CLINICAL EQUIPMENT SERVICES COMPANY. We ensure clinicians have the equipment they need, when they need it, with the confidence it is maintained to the highest industry standards. We never waver from doing what is right for our customers, our team members, and our shareholders.

WE ARE ESSENTIAL TO CUSTOMERS. We are dependable, trusted advisors—steadfast in our commitments and ready to serve. We deliver a unique and valuable offering that helps customers improve their business and prioritize patient care.

WE ARE EMPOWERED AND ENGAGED. We lead by example, inspiring one another to be at our best, to be accountable, and to develop with purpose. We value our diversity, knowing different perspectives lead to better outcomes. We share a common drive to make a difference and take pride in being part of something bigger than ourselves.

WE ARE OPERATIONALLY EXCELLENT. We demonstrate a tireless commitment to quality, reliability, and continuous improvement. We demand of ourselves the highest degree of accuracy, efficiency and integrity in order to deliver exceptional service to our customers and their patients.

WE ARE CREATING A CATEGORY OF ONE. Together, we are building a highly differentiated service company that is the vendor of choice for customers and an employer of choice nationwide.

Highly engaged team. We believe a strong and sustainable company begins with an engaged and empowered team. We are committed to investing in our team's development and to fostering a culture of diversity, inclusion, trust and transparency. Approximately 41% of our total work force is comprised of minorities and approximately 29% of our team members are female. Since 2018, we have consistently had an annual internal promotion rate of approximately 29%, compared to the national average of 8.9%, as reported by ADP Research Institute. We offer competitive compensation and benefits programs, and we ensure our team members share in the success of our business with a companywide annual bonus program and an Employee Stock Purchase Plan. We strive to ensure Agiliti is a place where our people are proud to work, and we achieve that by listening to feedback and taking active steps to improve. In 2021, we achieved a 77 employee engagement score rating, which places us nearing the extraordinary company benchmark according to third-party engagement indices.

Proven management team. Our diverse and industry leading management team brings decades of executive-level healthcare expertise from across the sector and has successfully supervised the development of our competitive strategy, continually enhanced and expanded our service and product offerings, reinforced our nationwide operating footprint and furthered our reputation as an industry leader in our category.

Key Elements of our Growth Strategy

Retain and expand existing customer relationships. While our overall market opportunity is large, there is also significant expansion opportunity within our existing customers. We currently have 25% wallet share within our existing contracted customers and have demonstrated the ability to grow our wallet share among existing customers by expanding the services we provide to them over time. From the year ended December 31, 2015 to the year ended December 31, 2021, our top 50 customers that experienced the largest growth in revenue over the same period increased in revenue from an aggregate of approximately $22.2 million to approximately $135.4 million (with increases at each customer ranging from $1.2 million to $7.1 million and an average increase of $2.3 million, and with consistent growth across our three primary service lines), primarily driven by our efforts to expand our share of wallet within our existing customer base.

Grow our customer base among customers that outsource. We believe there is a significant opportunity to further grow our business by winning new customer contracts within the $5.85 billion that is contracted annually for medical equipment management services in the U.S. This is less than half of the total addressable market and, due to increasing pressures that providers are facing, we expect outsourcing to significantly accelerate. As a leader in our industry, we believe we are poised to take advantage of this continued shift.

Grow our serviceable market by contracting with those that insource today. Currently, we estimate that $14 billion is spent annually in the U.S. for medical equipment services and functionality, but less than half of the total market is currently being outsourced to an equipment management service, while the rest is done in-house in facilities. We believe that as we reach additional potential customers with demonstrated value both in improved patient care and reduced costs, we can grow our total addressable market by contracting with new clients that were not previously outsourcing device management services. Further, this market is also experiencing tailwinds that make the total addressable market, the total contracted market, and our own contracts with ongoing customers poised to continue to expand. These tailwinds include increasing overall provider volumes, increasing use and complexity of medical devices, increasing outsourcing by hospitals, and additional factors that we believe will continue to drive growth.

Invest in complementary offerings that enhance customer relationships. As the medical device field becomes increasingly complex and the number of devices used per patient on average increases over time, we are constantly evaluating additional services and methods of approaching service delivery that increase value for our clients. As an example, this has recently taken the form of expanding our work with federal, state, and local governments to help them maintain and mobilize strategic stockpiles of ventilators and other critical medical equipment.

Opportunistically pursue accretive M&A. Due to our high and sustained value creation for customers and significant white space with existing customer relationships, we believe that pursuing opportunistic M&A will drive increasing returns through embedded customer relationships. From 2015-2021, we have successfully integrated nine acquisitions and will continue to opportunistically pursue additional inorganic growth.

Recent Acquisitions

Northfield Acquisition

On October 28, 2020, we entered into a stock purchase agreement to acquire 100% of the issued and outstanding capital stock of Northfield Medical ("Nortbfield Medical") a nationwide provider of surgical equipment repair services for $475.0 million, subject to adjustments (the "Northfield Acquisition"). Northfield Medical provides service and repair of medical devices, specializing in the repair of endoscopes, surgical instruments and other operating room equipment. The acquisition closed on March 19, 2021.

Sizewise Acquisition

On September 14, 2021, we entered into a definitive agreement to acquire Sizewise Rentals, LLC ("Sizewise"), a privately held manufacturer and distributor of specialty patient handling equipment, in a stock purchase transaction valued at $230 million. (the "Sizewise Acquisition"). Sizewise is a leading manufacturer and provider of specialized bed frames, therapeutic surfaces and mobility equipment serving customers in the acute and post-acute care markets with products that address the needs of bariatric, geriatric, pediatric and standard patient populations. The Company completed the acquisition on October 1, 2021.

COVID-19 Update

COVID-19 has placed our customers, business, teams and communities in uncharted waters. We consider the impact of the pandemic on our business by evaluating the health of our operations, changes to our revenue outlook, and the degree to which perceptions of and need for Agiliti solutions have evolved during this unprecedented time. As demand for emergent acute care increases around the country and as the global pandemic highlights the importance of resilient supply chains and service networks, the importance of our services has been magnified. We are proud to have rapidly developed and deployed a response plan to ensure the safety of our team, while continuing to meet our customers' evolving needs for patient-ready medical equipment when and where it was needed; notably, doing so without service interruptions.

We believe our value proposition now resonates with an even broader audience of customers as providers, IDNs and governments prepare for potential future surges in demand for acute care and the required equipment necessary to care for patients.

Specifically, during the COVID-19 pandemic, we have:

- fully and rapidly deployed our fleet of medical devices and accessories across the U.S. to ensure they are reaching the maximum number of patients;
- leveraged our logistics, inventory management, and maintenance/repair infrastructure to work with medical device brokers and manufacturers to make thousands of additional critical medical devices available to healthcare facilities;
- deployed our local biomedical repair teams to augment teams at hospitals around the country to ensure their owned medical equipment remains fully operational and available for patient needs;
- redeployed teams from our over 150 local service centers to support surge medical capacity in parks, gymnasiums, and hotel rooms across the country;
- been awarded a new contract to leverage our unique scale and capabilities to manage the maintenance and field repair of the national strategic ventilator stockpile; we are likewise working with various state and municipal governments to manage and mobilize their centralized and local medical device stockpiles; and
- prioritized the care and safety of our employees who are essential to helping our customers meet patient care needs. We committed to avoid COVID-19 related layoffs or furloughs and bridge the income of our team members with variable net pay for the duration of the pandemic. As many of our team members entered high-exposure environments each day, we ensured all had the necessary PPE, guidelines, training and support from the highest levels of the company. We provided 100% coverage for COVID-19 testing and telemedicine, extended short-term medical leave and disability coverage related to COVID-19, and

NEVADA STATE BOARD OF PHARMACY

985 Damonte Ranch Parkway, Suite 206 – Reno, NV 89521 – 775-850-1440

Medical Products Provider- Medical Devices, Equipment and Gases (MDEG) Administrator Application

Rev (06/08/2021)

Section 1: Pharmacy/ MDEG/Wholesaler Information

Name of MDEG: Agiliti Health, Inc. MDEG License # (if applicable): _____

Physical Address: 4702 Park 370 Boulevard, Unit A

City: Hazelwood State: MO Zip: 63042

Mailing Address (if different from physical address): Same as physical

City: _____ State: _____ Zip: _____

Telephone: 314-750-7235 Website: www.agilitihealth.com

Licensing Company Email: _____

Section 2: Personal Information

First: David Middle: Eugene Last: Turnbaugh

Alias(es, nicknames, name changes, etc.): N/A

Date of Birth: [redacted] SSN or ITIN: [redacted] Sex: ☑ M ☐ F ☐ X

Mailing Address: [redacted] Chastain Court

City: O'Fallon State: MO Zip: 63368

Telephone: [redacted] Email: david.turnbaugh@agilitihealth.com

Are you a citizen of the United States? ☑ Yes ☐ No

Section 3: Military Service (NRS 622.120)	Yes	No
1. Have you ever served on active duty in the Armed Forces of the United States and separated from such service under conditions other than dishonorable? (Mark "Yes" if discharged honorably.)	✓	
2. Have you ever been assigned to duty for a minimum of 6 continuous years in the National Guard or a reserve component of the Armed Forces of the United States and separated from such service under conditions other than dishonorable? (Mark "Yes" if discharged honorably.)		✓
3. Have you ever served the Commissioned Corps of the United States Public Health Service or the Commissioned Corps of the National Oceanic and Atmospheric Administration of the United States in the capacity of a commissioned officer while on active duty in defense of the United States and separated from such service under conditions other than dishonorable? (Mark "Yes" if discharged honorably.)	✓	

Section 4: Federally Mandated Requirement (NRS 425.520, NRS 639.129)	Yes	No
1. Are you the subject of a court order for the support of a child? (If "yes", answer question 2.)		✓
2. Are you in compliance with the order or the plan approved by the district attorney or other public agency enforcing the order for the repayment of the amount owed pursuant to the order?		

Section 5: List your high school and college experience beginning with the most current. (Use a separate piece of paper if additional space is needed.)

School Name			From - To (MM/YY – MM/YY)	
United States Naval Academy			07/85 - 05/89	
Address		City	State	Zip
121 Blake Rd		Annapolis	MD	21402
Diploma/Degree obtained, if any				
Yes, BS in General Science				

School Name			From - To (MM/YY – MM/YY)	
Bellwood-Antis High School			09/82 - 06/85	
Address		City	State	Zip
300 Martin Street		Bellwood	PA	16617
Diploma/Degree obtained, if any				
Yes, High School Diploma				

School Name			From - To (MM/YY – MM/YY)

I, David Turnbaugh, **certify that as the MDEG Administrator for**

Agiliti Health, Inc.,

that I (initial that you have read and meet the following requirements):

1. Yes Have a high school diploma or its equivalent;
2. Yes Have
   a. At least 1,500 hours of verifiable direct patient-care work experience relating to the products provided by the medical products provider or medical products wholesaler; or
   b. An associate's degree or higher degree from an accredited college or university in a field of study that is directly related to patient health care;
3. Yes Will be employed by the medical products provider or medical products wholesaler at the place of business or facility of the employer at least 40 hours per week or during all regular business hours if the business or facility is regularly open less than 40 hours per week; and
4. Yes Will ensure that the operation of the business or facility complies with all applicable federal, state and local laws, regulations and rules.

I certify under penalty of perjury that the information contained in this application is accurate, true and complete in all material respects. I understand that making any false representation in this application is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire application and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event this application is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

AGILITI, INC.

(Exact name of registrant as specified in its charter)

Delaware	**6625 West 78th Street, Suite 300**	**83-1608463**
(State or other jurisdiction of incorporation or organization)	**Minneapolis, Minnesota 55439-2604** (Address of principal executive offices, including zip code) **(952) 893-3200** (Registrant's telephone number, including area code)	(I.R.S. Employer Identification No.)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	**Trading Symbol(s)**	**Name of each exchange on which registered**
Common Stock, par value $0.0001	AGTI	The New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: **None**

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☐ No ☒

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes ☐ No ☒

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐	Accelerated filer ☐	Emerging growth company ☐
Non-accelerated filer ☒	Smaller reporting company ☐	

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financing accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

The aggregate market value of the voting and non-voting common equity held by non-affiliates of the registrant as of June 30, 2021, the last business day of the registrant's most recently completed second fiscal quarter, was approximately $694,928,895 based upon the closing price reported for such date on the New York Stock Exchange.

The number of shares of common stock, $0.0001 par value, outstanding as of February 28, 2022 was 131,121,028.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the registrant's Definitive Proxy Statement relating to the Annual Meeting of Stockholders are incorporated by reference into Part III of this Annual Report on Form 10-K where indicated. Such Definitive Proxy Statement will be filed with the Securities and Exchange Commission within 120 days after the end of the registrant's fiscal year ended December 31, 2021.

NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact included in this Form 10-K are forward-looking statements. Forward-looking statements give our current expectations and projections relating to our financial condition, results of operations, plans, objectives, future performance and business. You can identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. These statements may include words such as "anticipate", "estimate", "expect", "project", "plan", "intend", "believe", "may", "will", "should", "can have", "likely" and other words and terms of similar meaning in connection with any discussion of the timing or nature of future operating or financial performance or other events. All forward-looking statements are subject to risks and uncertainties that may cause actual results to differ materially from those that we expected, including:

- effects from political and policy changes that could limit our growth opportunities;
- effects from the continued COVID-19 pandemic on our business and the economy;
- our potential inability to maintain existing contracts or contract terms with, or enter into new contracts with, our customers;
- cancellations by or disputes with customers;
- our potential failure to maintain our reputation, including by protecting intellectual property;
- effects of a global economic downturn on our customers and suppliers;
- a decrease in our customers' patient census or services;
- competitive practices by our competitors that could cause us to lose market share, reduce our prices or increase our expenditures;
- the bundling of products and services by our competitors, some of which we do not offer;
- consolidation in the healthcare industry, which may lead to a reduction in the prices we charge;
- adverse developments with supplier relationships;
- the potential inability to change the manner in which healthcare providers traditionally procure medical equipment;
- our potential inability to attract and retain key personnel;
- our potential inability to make attractive acquisitions or successfully integrate acquire businesses;
- impairment charges for goodwill or other long-lived assets;
- an increase in expenses related to our pension plan;
- the fluctuation of our cash flow;
- credit risks relating to home care providers and nursing homes;
- potential claims related to the medical equipment that we outsource and service;
- the incurrence of costs that we cannot pass through to our customers;
- a failure of our management information systems;
- limitations inherent in all internal controls systems over financial reporting;
- social unrest;
- our failure to keep up with technological changes;
- our failure to coordinate the management of our equipment;
- challenges to our tax positions or changes in taxation laws;
- litigation that may be costly to defend;
- uncertainty surrounding healthcare reform initiatives;
- federal privacy laws that may subject us to more stringent penalties;

- our relationship with healthcare facilities and marketing practices that are subject to federal Anti-Kickback Statute and similar state laws;
- our contracts with the federal government that subject us to additional oversight;
- the impact of changes in third-party payor reimbursement for healthcare items and services on our customers' ability to pay for our services;
- the highly regulated environment our customers operate in; and
- potential recall or obsolescence of our large fleet of medical equipment.

We derive many of our forward-looking statements from our operating budgets and forecasts, which are based on many detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and it is impossible for us to anticipate all factors that could affect our actual results. Important factors that could cause actual results to differ materially from our expectations, or cautionary statements, are disclosed under "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in this Form 10-K and elsewhere in our filings with the SEC. All written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by these cautionary statements as well as other cautionary statements that are made from time to time in our other SEC filings and public communications. You should evaluate all forward-looking statements made in this Form 10-K in the context of these risks and uncertainties.

We caution you that the important factors referenced above may not contain all of the factors that are important to you. In addition, we cannot assure you that we will realize the results or developments we expect or anticipate or, even if substantially realized, that they will result in the consequences or affect us or our operations in the way we expect. The forward-looking statements included in this Form 10-K are made only as of the date hereof. We undertake no obligation to update or revise any forward-looking statement as a result of new information, future events or otherwise, except as otherwise required by law.

PART I

ITEM 1: Business

Unless otherwise specified, the terms "we", "our", "us" and the "Company" refer to Agiliti, Inc. and, where appropriate, its consolidated subsidiaries. The term "THL" refers to Thomas H. Lee Partners, L.P., our principal stockholder, and the term "THL Stockholder" refers to THL Agiliti LLC, an affiliate of Thomas H. Lee Partners, L.P.

Our Mission

Agiliti, Inc. is an essential service provider to the U.S. healthcare industry with solutions that help support a more efficient, safe and sustainable healthcare delivery system. We ensure healthcare providers have the critical medical equipment they need to care for patients—wherever and whenever it's needed—with a service model that helps lower costs, reduce waste and maintain the highest quality standard of medical device management in the industry. We are motivated by a belief that ***every interaction has the power to change a life***, which forms the cornerstone of how we approach our work and frames the lens through which we view our responsibility to make a difference for the customers, patients and communities we serve.

Overview

We believe we are one of the leading experts in the manufacturing, management, maintenance and mobilization of mission-critical, regulated, reusable medical devices. We offer healthcare providers a comprehensive suite of medical equipment management and service solutions that help reduce capital and operating expenses, optimize medical equipment utilization, reduce waste, enhance staff productivity and bolster patient safety.

We commenced operations in 1939, originally incorporated in Minnesota in 1954 and reincorporated in Delaware in 2001.

In our more than 80 years of experience ensuring healthcare providers have high-quality, expertly maintained equipment to serve their patients, we've established a nationwide operating footprint that supports our offering. This at-scale, local market service and logistics infrastructure positions us to reach customers across the entire healthcare continuum—from individual facilities to the largest and most complex healthcare systems. Our ability to rapidly mobilize, track, repair and redeploy equipment during times of peak need or emergent events has made us a service provider of choice for city, state and the federal government in the management of emergency equipment stockpiles.

Our diverse customer base includes more than 9,000 national, regional and local acute care hospitals, health systems and integrated delivery networks and alternate site providers (such as surgery centers, specialty hospitals, home care providers, long-term acute care hospitals and skilled nursing facilities). We serve the federal government as well as a number of city and state governments providing management and maintenance of emergency equipment stockpiles, and we are an outsourced service provider to medical device manufacturers supporting critical device remediation and repair services. We deliver our solutions through our nationwide network of more than 150 service centers and seven ISO 13485 Certified Centers of Excellence, among which we employ a team of more than 700 specialized biomed repair technicians, more than 4,000 field-based service operators who work onsite within customer facilities or in our local service centers, and over 200 field sales and account managers. Our fees are primarily paid directly by our customers rather than by direct reimbursement from third-party payors, such as private insurers, Medicare or Medicaid.

Industry Challenges

The U.S. healthcare industry continues to face transformative pressure that affects how provider organizations conduct business and serve their patients. Across the healthcare system, providers face compounding financial and operational challenges, including cost pressure from payors, nursing and clinical staff shortages, rising costs of drugs and supplies, increasing regulatory oversight, and advances in medical technology that generally result in higher prices for newer equipment and a higher cost of managing that equipment over its lifecycle. Given there is little that providers can do to change external dynamics, there is increased focus on areas within their enterprise that they can control. In our

experience, one area that most hospitals and health systems identify for operational and cost improvement is the management and maintenance of medical equipment.

Healthcare facilities have been shown to own large quantities of reusable capital equipment ranging from multi-million dollar highly technical devices (e.g. MRIs) to lower cost, high volume devices (e.g. infusion pumps) required for patient care, treatment and diagnosis. In our experience, providers often face challenges in managing their medical equipment inventory effectively. For example, bospitals typically utilize roughly 42% of their owned medical equipment inventory at any given time, yet caregivers report that they routinely lack access to readily available patient-ready equipment. Nurses report spending an average of 20 minutes per shift searching for equipment, and often less than 37% of their time on direct patient care. Operational silos that naturally occur among hospital departments create inadvertent breakdowns within equipment management workflows, from the administrators who order equipment, to the support staff who clean/reprocess and deliver the equipment, to the nurses and doctors who use the equipment.

Further, the repair and maintenance of this highly technical equipment continues to increase in complexity and cost. Over a period of 15 years from 1995 to 2010 there was a 62% increase in the number of medical devices per hospital bed and a 90% increase in costs related to maintaining this equipment (between 1995 and 2010). Given the increasingly complex nature of these devices and stringent regulatory mandates guiding their upkeep, specialized technical knowledge is required to repair and maintain them. Most healthcare facilities struggle to employ the in-house capabilities and resources needed to ensure timely, routine maintenance and rapid testing, repair and turnaround of their medical inventory which may impact time-to-therapy and patient safety, while driving up capital replacement costs on equipment that could have otherwise been kept operational with proper maintenance.

Finally, the healthcare system experiences seasonality in patient volumes, resulting in peak-need demand for specialized medical equipment (e.g. ventilators, specialty beds, infusion pumps). Given the common breakdowns in managing and maintaining their inventory during times of normal operation, hospitals face additional burden on equipment availability during times of peak need and will procure supplemental equipment through additional acquisition channels to fill this gap.

These challenges drive up significant costs and time delays within individual hospital facilities, but when multiplied across several hospitals and alternate site facilities within an integrated delivery network ("IDN"), the losses increase significantly. An average 2,500 bed IDN has been shown to waste more than $11 million annually on inefficient equipment maintenance and unnecessary capital purchases, while clinicians lose valuable patient time and productivity hours managing equipment needs.

These dynamics, supported by the following trends, further support the essential nature of our work:

Focus on reducing costs and increasing operational efficiency. Hospitals and other healthcare facilities continue to experience substantial pressure to conserve capital, reduce operating expenses and become more operationally efficient. We expect these pressures to continue in the future and believe that we will always be on the right side of healthcare reform. Our comprehensive, end-to-end solutions offer customers a way to realize costs savings while enhancing operational improvements for medical equipment access and availability, thereby improving their organizational efficiency and financial viability.

Demand for better patient safety and outcomes. Hospitals across the U.S. are focused on improving patient safety and outcomes, which includes efforts to minimize hospital-acquired conditions (e.g. infections, patient falls and pressure injuries) and increase nursing time at the patient bedside. Hospitals turn to us to assist them in managing their equipment in ways that have been shown to to help them to minimize these incidents and ensure equipment is available when and where it is needed for patient care, thereby improving patient safety and time to therapy, and supporting optimal patient outcomes.

Caregiver retention and satisfaction. Hospitals continue to experience pressure and risk related to nursing and other caregiver retention and job satisfaction pressures. According to reports from the World Health Organization, the United States is expected to have a nurse shortage of 500,000 nurses by 2025. Adding non-patient care duties, such as searching for, cleaning and managing equipment, adds to nurse workload and contributes to clinician dissatisfaction and turnover.

We expect that with these internal pressures, hospitals will increasingly turn to our programs to outsource healthcare technology management duties and related management processes to allow nurses more time to spend on patient care, resulting in improved job satisfaction.

Increased capital and operating expense pressures and regulatory compliance. Hospitals continue to experience restricted capital and operating budgets, while the cost and complexity of medical equipment increases. Furthermore, the increasing complexity and sophistication of medical equipment brings with it more recordkeeping requirements and regulatory scrutiny in its use and maintenance. We expect that hospitals will increasingly look to us to support the management and maintenance of their capital equipment inventory to achieve capital and operating expense savings, operating efficiencies and regulatory compliance.

Our Value Proposition

As a critical outsource partner to more than 9,000 U.S. healthcare customers, including most leading providers nationwide, we've tailored our solution offering and service model to address the unique challenges and opportunities we witness among our customers related to the effective management of medical equipment.

Our services help eliminate significant capital and operating costs associated with the ownership and lifecycle management of mission-critical medical equipment. In addition to optimizing use of providers' owned equipment, we provide ready access and increase the on-patient utilization of supplemental medical equipment to address fluctuations in patient census and patient acuity. By partnering with Agiliti, providers have the benefits of:

Cost savings and lower total costs of equipment ownership

- Increased utilization of both customer-owned and supplemental equipment
- Lower overall total cost of equipment ownership by combining our solutions to solve challenges across the end-to-end equipment management process
- Optimized management and logistics of provider-owned equipment through tracking, monitoring, reprocessing, maintaining, and ensuring equipment is safety-tested and redeployed for use
- Reduced maintenance and repair costs through the use of our proprietary technology, flexible staffing models, parts pool, equipment capabilities and diverse skill mix of knowledgeable equipment technicians and our commitment to quality
- Benefits of specialized technician labor to augment clinical biomed staff, having been shown to help reduce service costs and provide required technical proficiency to address more complex equipment types
- Access to our extensive data and expertise on the cost, performance, features and functions of all major items of medical equipment
- Assistance with capital planning, vendor management and regulatory compliance

More time to spend with patients and confidence in the availability of patient-ready medical equipment

- Increased productivity and satisfaction among nursing staff achieved by eliminating certain non-clinical work tasks and saving an average 300-bed hospital over 28,000 caregiver hours annually, allowing more time to focus on patient care responsibilities
- Improved time-to-therapy for patients at risk for falls, skin breakdown and bariatric safety by expediting delivery of therapeutic equipment direct to the patient room
- Access to supplemental moveable medical equipment, surgical equipment and next generation technology without the expense of acquisition on a pay-per-procedure basis

Improved regulatory compliance, risk management and extended use life

- Optimal maintenance intervals and parts replacement to extend equipment use life, reduce waste and lower obsolescence risk
- Compliance with regulatory and recordkeeping requirements and adherence to manufacturers' specifications on the reprocessing and maintenance of medical equipment
- Equipment quality assurance through the use of our comprehensive quality management system ("QMS") based on the quality standards recognized worldwide for medical devices: 21 CFR 820 and ISO 13485:2016
- Risk mitigation and lower costs associated with product recalls or device modifications

Technical expertise and supplemental staffing to sustain optimal equipment workflow

- Reduced administrative and time burdens on clinical staff related to managing and locating available equipment and coordinating among multiple vendors
- Specialized technical and clinical specialists that directly interact with and work alongside customers to optimize equipment outsourcing solutions

Our Market Opportunities

We participate in a $14 billion U.S. medical equipment services market comprised of the services we offer through our onsite managed services, clinical engineering services and equipment solutions service lines. We believe that this market will grow at mid-single digits annually.

Per the Centers for Medicare and Medicaid Services ("CMS"), as of 2020, healthcare spending reached $4.1 trillion, or $12,530 per person and accounted for 19.7% of the U.S. GDP. Spending is expected to grow at an average annual rate of 5.4% from 2019-2028, due to secular tailwinds including an aging population, rising acuity, and prevalence of chronic conditions.

There is a fundamental shift in the needs of health systems, hospitals and alternate site providers to move from supplemental and peak need sourcing of medical equipment toward more comprehensive onsite inventory management and maintenance solutions. As healthcare facilities look to balance the challenge of providing better care at lower costs, they are more open to third party partnerships that outsource critical but non-core support functions. The move toward full outsourcing is not unlike trends in similar services at hospitals including food service, laundry, professional staffing and technology.

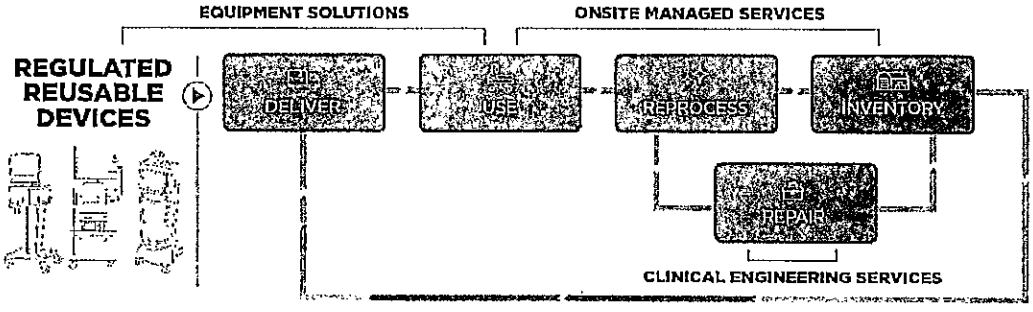
We believe there are several key macro trends that will drive increased demand for our products and services:

Favorable demographic trends. According to the U.S. Census Bureau, individuals aged 65 and older in the United States comprise the fastest growing segment of the population. This segment is expected to grow to approximately 81 million individuals by 2040. This represents a 44% increase in the 65-and-older segment of the population over the next 20 years. As a result, over time, the number of patients and the volume of hospital admissions are expected to grow. The aging population and increasing life expectancy are driving demand for healthcare services.

Increase in chronic disease and obesity. According to the Center for Disease Control and Prevention ("CDC"), six in ten Americans live with at least one chronic disease, like heart disease and stroke, cancer, or diabetes. These conditions often require specialty equipment to support therapeutic intervention in inpatient and outpatient care settings. In addition, obesity in the U.S. increased to 42.4% of the population between 2017-2018, up from 30.5% in 2000 (CDC). This population demands greater access to specialty bariatric equipment to support care and minimize the incidence of injury during a hospital stay.

Increased mergers & acquisitions. We have seen that hospitals and healthcare systems continue to expand their covered network and acquire alternate care delivery settings in order to care for patient populations in the most cost-

effective way. In our experience, providers are increasingly seeking partners that provide comprehensive services and that can quickly adapt to changing health system infrastructure and growth. Working with one vendor that can operate at a nationwide and system-wide scale is attractive to cities, states, and IDNs who operate, manage, and maintain equipment inventories across multiple locations.



Centralizing shared services across the IDN. Health systems with duplicate services across multiple facilities in close proximity have an increased risk of unnecessary variation, greater costs, and suboptimal outcomes. Many health systems have centralized and consolidated non-clinical services as a shared service, iucluding billing, reimbursement, supply chain, human resources, IT, etc. We have witnessed a growing trend among IDNs to centralize and consolidate equipment maintenance and logistics among member facilities. In our experience, because most health systems do not currently have the storage, technical or transportation resources for managing a shared equipment management function, they will seek third party support to optimize equipment utilization, redeploy equipment where needed and reduce overall equipment costs.

Increase in infection control risks. Infection control remains an essential priority for hospitals and health systems as a way to limit the spread of hospital-acquired infections. This has further escalated as a top priority due to the COVID-19 pandemic. Most focus in this area is around hand hygiene, the proper use of personal protective equipment (PPE) and the reprocessing and sterilization of critical and semi-critical medical devices (e.g. surgical instruments, endoscopes). Often overlooked is the reprocessing of non-critical medical devices, such as infusion pumps and ventilators, that are commonly touched hy caregivers and patients. If not properly cleaned and sanitized between patient use, these devices can pose increased infection control risks. We expect an increase in demand of onsite equipment management programs to address proper reprocessing of these types of devices and help lower infection risks and allow clinicians to spend more time at the patient bedside and less time cleaning equipment.

Our Solutions

We provide a comprehensive offering for the manufacturing, management, maintenance and mobilization of critical medical devices, built on an integrated service platform. Our solutions help reduce the cost and complexity of acquiring, managing and maintaining medical equipment inventories. The integrated nature of our offerings within our end-to-end service framework ensures we maximize value to over 9,000 customers nationwide as we address more aspects of the equipment lifecycle continuum.

While customers may initially engage with us across one aspect of our service lines within this framework, we employ a variety of land-and-expand tactics to grow our relationships and customer share-of-wallet over time. These tactics include:

- ***Gateway solutions*** which offer an entry point to the economic buyer and include peak needs equipment, surgical lasers and equipment, specialty beds and surfaces and supplemental clinical engineering services;
- ***Vertical solutions*** which provide a deeper level of service with clinical offerings tailored to specific patient needs (e.g. bariatrics, wound management, falls management) and clinical engineering programs for broad equipment categories (general biomedical devices, diagnostic imaging equipment, surgical instruments);
- ***Comprehensive, connected solutions*** through onsite managed services and outsourced clinical engineering services that connect previously fragmented customer workflow processes to drive operational efficiencies, realize improved clinician and equipment productivity, lower total cost of ownership, ensure regulatory compliance, reduce waste, improve time to therapy and allow customers to effectively lower costs; and
- ***Comprehensive logistics, management and clinical engineering solutions*** that allow IDNs to manage equipment inventories across multiple locations, and supports city, state and federal government agencies in managing and maintaining equipment stockpiles.

We deploy our solution offering across three primary service lines:

On-Site Managed Services: Onsite Managed Services are comprehensive programs that assume full responsibility for the management, reprocessing and logistics of medical equipment at individual facilities and IDNs, with the added benefit of enhancing equipment utilization and freeing more clinician time for patient care. This solution monitors and adjusts equipment quantities and availability to address fluctuations in patient census and acuity. Our more than 1,600 onsite employees work 24/7 in customer facilities, augmenting clinical support by integrating proven equipment management processes, utilizing our proprietary management software and conducting daily rounds and unit-based training to ensure equipment is being used and managed properly, overall helping to optimize day-to-day operations and care outcomes. We assume full responsibility for ensuring equipment is available when and where it is needed, removing equipment when no longer in use, and decontaminating, testing and servicing equipment as needed between each patient use. Revenue attributable to such customers represented 29% of our total revenue for both the years ended December 31, 2021 and 2020.

Clinical Engineering Services: Clinical Engineering Services provides maintenance, repair and remediation solutions for all types of medical equipment, including general biomedical equipment, diagnostic imaging equipment and surgical equipment through supplemental and outsourced offerings. Our supplemental offering helps customers manage their equipment repair and maintenance backlog, assist with remediation and regulatory reporting and temporarily fill open biotechnical positions. With our outsourced offering, we assume full management, staffing and clinical engineering service responsibilities for individual or system-wide customer sites. The outsourced model deploys a dedicated, on-site team to coordinate the management of customer-owned equipment utilizing our proprietary information systems, third party vendors of services and parts, and a broad range of professional services for capital equipment planning and regulatory compliance. We leverage more than 700 technical resources from our over 150 local market service centers and seven Centers of Excellence to flex staff in and out of customer facilities on an as-needed basis, ensuring customers pay only for time spent directly servicing their equipment by an appropriately qualified technician. We use flex staffing for our supplemental clinical engineering solution and to augment support when additional technicians are needed to supplement our outsourced services during peak workload. We contract our Clinical Engineering Services with acute care and alternate site facilities across the U.S., as well as with the federal government and any medical device manufacturers that require a broad logistical footprint to support their large-scale service needs. Revenue attributable to such customers for the years ended December 31, 2021 and 2020 represented 37% and 33% of our total revenue, respectively.

Equipment Solutions: Equipment Solutions primarily provides supplemental, peak need and per-case rental of general biomedical, specialty, and surgical equipment to acute care hospitals and alternate site providers in the U.S., including some of the nation's premier healthcare institutions and integrated delivery networks. We contract for Equipment Solutions services directly with customers or through our contractual arrangements with bospital systems and alternate site providers. We consistently achieve high customer satisfaction ratings, as evidenced by our Net Promotor Score ("NPS") of 55 for the year ended December 31, 2021, by delivering patient-ready equipment within our contracted equipment delivery times and by providing technical support and educational in-servicing for equipment as-needed in clinical departments, including the emergency room, operating room, intensive care, rehabilitation and general patient care areas. We are committed to providing the highest quality of equipment to our customers, and we do so through the use of our comprehensive QMS which is based on the quality standards recognized worldwide for medical devices: 21 CFR 820 and ISO 13485:2016. This commitment ensures that customers have access to patient-ready equipment with the confidence of knowing it has been prepared and maintained to the highest industry standard to deliver optimal patient safety and outcomes. Revenue attributable to such customers for the years ended December 31, 2021 and 2020 represented 34% and 38% of our total revenue, respectively.

Many of our customers have multiple contracts and have revenue reported in multiple service lines. Our contracts vary based upon service offering, including with respect to term (with most being multi-year contracts), pricing (daily, monthly and fixed fee arrangements) and termination (termination for convenience to termination for cause only). Many of our contracts contain customer commitment guarantees and annual price increases tied to the consumer price index. Standard contract terms include payment terms, limitation of liability, force majeure provisions and choice of law/venue.

Because we work closely with customers to provide a long-term, value-based solution versus a product-based, transactional approach, they are motivated to expand their relationships with us over time. With approximately 75% white space within our current customers, we have demonstrated an ability to grow revenue up to 5-6x with existing customers as they move toward our full suite of highly complementary services. From the year ended December 31, 2015 to the year ended December 31, 2021, our top 50 customers that experienced the largest growth in revenue over the same period increased in revenue from an aggregate of approximately $22.2 million to approximately $135.4 million (with increases at each customer ranging from $1.2 million to $7.1 million and an average increase of $2.3 million, and with consistent growth across our three primary service lines), primarily driven by our efforts to expand our share of wallet within our existing customer base.

Further, the infrastructure and capabilities required to provide connected, responsive equipment lifecycle mauagement is typically cost-prohibitive, even for large IDNs. Our nationwide network of clinical engineers, storage and repair facilities, vehicles and analytics tools gives us scale to provide cost-effective services for individual facilities, systems, regional IDNs, governments and device manufacturers.

Competitive Strengths

We believe our business model presents an attractive value proposition to our customers and that our comprehensive medical device management solutions and ability to work in partnership with and across Original Equipment Manufacturers ("OEMs") as a device-agnostic service provider have contributed to our growth in recent years. Our unique framework for end-to-end medical equipment management, delivered through our nationwide service and logistics infrastructure, differentiates us in the marketplace and is without comparable peers. We believe our more than 80 years of experience, extensive employee base of trained technicians and our reputation for service excellence has earned us a leading position in our industry. We attribute our historical success to our:

Strong value proposition. With our focus and expertise in connected, end-to-end medical equipment management and service solutions, we offer a compelling customer value proposition. We believe that many of our customers have come to rely on our ability to respond quickly to their needs with reliable, high quality products and service expertise. We believe our ability to provide this level of service distinguishes us from our competitors. It also requires us to maintain inventories and infrastructure that we do not believe our competitors currently maintain. Our comprehensive solutions focus on helping customers:

- lower total cost of device ownership by reducing capital and operating costs related to owning and managing medical equipment;
- enhance operational productivity and staff satisfaction by ensuring equipment is available when and where needed; and
- maintain high standards of quality and regulatory compliance related to medical equipment use, maintenance and end-of-life disposal.

Large, nationwide infrastructure. We have a broad and specialized nationwide staff, facility, and vehicle service network coupled with focused and customized operations at the local level. Our extensive network of service centers and Centers of Excellence and our 24-hours-a-day, 365 days-a-year service capabilities enable us to compete effectively for large, national contracts as well as drive growth regionally and locally.

We employ a number of technical, clinical and surgical specialists that engage directly with our customers to drive improved cost, efficiency and clinical outcomes. These include over 700 biomedical repair technicians, more than 4,000 field-based service operators, and over 200 field sales and account managers. Our specialized teams, large equipment fleet, and quality assurance programs have been built over 80 years serving provider customers and represent a significant investment in infrastructure over time. This places us in a unique and hard-to-replicate position with the scale to serve the most complex acute care hospitals, such as teaching, research or specialty institutions, that demand access to current and preferred technologies to meet the complex needs of their patients.

Proprietary software and asset management tools. We have used our more than 80 years of experience and our extensive database of equipment management information to develop sophisticated software technology and management tools. These tools enable us to meet unique customer demands by supporting sophisticated onsite managed services that help drive cost efficiencies and equipment productivity for caregivers. We believe that our ongoing investment in new tools and technology will help continue to distinguish our offerings to the healthcare industry.

Commitment to quality. Class I and II medical devices are designed, manufactured, and distributed from our Sizewise manufacturing facilities. Each of the United States-based facilities that produce finished goods is registered with the FDA and follows strict quality guidelines in accordance with 21 CFR 820. The Hays, KS, Ellis, KS, and Corona, CA Sizewise manufacturing facilities are ISO 1385:2016 compliant, and the two Kansas facilities are certified by Intertek; the California facility is pending certification. A dedicated quality team oversees the Quality Management System (QMS) at these locations.

Agiliti also services and repairs medical devices manufactured by other OEMs. Third-party service providers like Agiliti are not required to register their sites with the FDA; therefore, there are no regulations that specifically apply to our maintenance of medical devices. We've made a commitment, however, to do the right thing for our customers and their patients by staffing a dedicated Quality team and implementing a QMS based on the quality standards recognized

worldwide for medical devices: 21 CFR 820 and ISO 13485:2016. This commitment to quality ensures that patient safety and risk management are at the center of every product decision, and that our equipment is serviced to the highest standards in the industry. Over 90 local market service centers, eight government service centers, and seven Centers of Excellence follow an ISO 13485:2016 ccertified QMS, and we have elected to hire outside independent accredited registrars to audit our quality system. British Standards Institute ("BSI") has certified over 90 of our local market service centers, eight government service centers, and five of our Centers of Excellence to ISO 13485:2016, the remaining two Centers of Excellence are certified by Deutscher Kraftfahrzeug-Überwachungs-Verein e.V. ("Dekra") and National Quality Assurance ("NQA"). We believe that ISO 13485:2016 provides the stringent guidelines specific to medical devices to ensure that our fleet of equipment, as well as the equipment we service, is maintained to the highest quality standards. Our commitment to quality extends to our exclusive use of OEM parts to repair FDA 510(k) registered medical devices that we own, whenever available. Implementing optimal maintenance intervals and parts replacement extends equipment use life, thereby reducing waste and lowering risk of obsolescence. We believe that our robust QMS policies set us apart in our industry from those who may use less stringent quality practices on the equipment they own or maintain.

Superior customer service. We believe we have a long-standing reputation among our customers for outstanding service and quality. This reputation is largely attributable to our strong customer service culture, which is continuously reinforced by management's commitment to, and significant investment in, hiring and training resources. We strive to seamlessly integrate our employees and solutions into the operations of our customers. We believe that our aggressive focus on the overall customer experience has helped us achieve high customer satisfaction ratings, as evidenced by our NPS of 55 for the year ended December 31, 2021.

Low direct third-party payor reimbursement risk. Many healthcare providers rely on direct payment from patients or reimbursement from third-party payors. Our fees are primarily paid directly hy our customers, rather than by third-party payors, such as Medicare, Medicaid, managed care organizations or indemnity insurers. Accordingly, our exposure to uncollectible patient or reimbursement receivables or Medicare or Medicaid reimbursement changes is reduced, as evidenced by our bad debt expense of approximately 0.2%, 0.3%, and 0.2% of total revenue for the years ended December 31, 2021, 2020, and 2019, respectively.

Values driven culture centered on doing the right thing for our many stakeholders. Our team operates on a set of shared aspirations that reflect the manner in which we approach our work and serve the needs of our customers, team members, shareholders and local communities. We believe these aspirations that underpin our culture, strategy and service model help contribute to a safer and more sustainable healthcare system and frame the cornerstone of our success:

WE ARE BUILDING THE PREMIER CLINICAL EQUIPMENT SERVICES COMPANY. We ensure clinicians have the equipment they need, when they need it, with the confidence it is maintained to the highest industry standards. We never waver from doing what is right for our customers, our team members, and our shareholders.

WE ARE ESSENTIAL TO CUSTOMERS. We are dependable, trusted advisors—steadfast in our commitments and ready to serve. We deliver a unique and valuable offering that helps customers improve their business and prioritize patient care.

WE ARE EMPOWERED AND ENGAGED. We lead by example, inspiring one another to be at our best, to be accountable, and to develop with purpose. We value our diversity, knowing different perspectives lead to better outcomes. We share a common drive to make a difference and take pride in being part of something bigger than ourselves.

WE ARE OPERATIONALLY EXCELLENT. We demonstrate a tireless commitment to quality, reliability, and continuous improvement. We demand of ourselves the highest degree of accuracy, efficiency and integrity in order to deliver exceptional service to our customers and their patients.

WE ARE CREATING A CATEGORY OF ONE. Together, we are building a highly differentiated service company that is the vendor of choice for customers and an employer of choice nationwide.

Highly engaged team. We believe a strong and sustainable company begins with an engaged and empowered team. We are committed to investing in our team's development and to fostering a culture of diversity, inclusion, trust and transparency. Approximately 41% of our total work force is comprised of minorities and approximately 29% of our team members are female. Since 2018, we have consistently had an annual internal promotion rate of approximately 29%, compared to the national average of 8.9%, as reported by ADP Research Institute. We offer competitive compensation and benefits programs, and we ensure our team members share in the success of our business with a companywide annual bonus program and an Employee Stock Purchase Plan. We strive to ensure Agiliti is a place where our people are proud to work, and we achieve that by listening to feedback and taking active steps to improve. In 2021, we achieved a 77 employee engagement score rating, which places us nearing the extraordinary company benchmark according to third-party engagement indices.

Proven management team. Our diverse and industry leading management team brings decades of executive-level healthcare expertise from across the sector and has successfully supervised the development of our competitive strategy, continually enhanced and expanded our service and product offerings, reinforced our nationwide operating footprint and furthered our reputation as an industry leader in our category.

Key Elements of our Growth Strategy

Retain and expand existing customer relationships. While our overall market opportunity is large, there is also significant expansion opportunity within our existing customers. We currently have 25% wallet share within our existing contracted customers and have demonstrated the ability to grow our wallet share among existing customers by expanding the services we provide to them over time. From the year ended December 31, 2015 to the year ended December 31, 2021, our top 50 customers that experienced the largest growth in revenue over the same period increased in revenue from an aggregate of approximately $22.2 million to approximately $135.4 million (with increases at each customer ranging from $1.2 million to $7.1 million and an average increase of $2.3 million, and with consistent growth across our three primary service lines), primarily driven by our efforts to expand our share of wallet within our existing customer base.

Grow our customer base among customers that outsource. We believe there is a significant opportunity to further grow our business by winning new customer contracts within the $5.85 billion that is contracted annually for medical equipment management services in the U.S. This is less than half of the total addressable market and, due to increasing pressures that providers are facing, we expect outsourcing to significantly accelerate. As a leader in our industry, we believe we are poised to take advantage of this continued shift.

Grow our serviceable market by contracting with those that insource today. Currently, we estimate that $14 billion is spent annually in the U.S. for medical equipment services and functionality, but less than half of the total market is currently being outsourced to an equipment management service, while the rest is done in-house in facilities. We believe that as we reach additional potential customers with demonstrated value both in improved patient care and reduced costs, we can grow our total addressable market by contracting with new clients that were not previously outsourcing device management services. Further, this market is also experiencing tailwinds that make the total addressable market, the total contracted market, and our own contracts with ongoing customers poised to continue to expand. These tailwinds include increasing overall provider volumes, increasing use and complexity of medical devices, increasing outsourcing by hospitals, and additional factors that we believe will continue to drive growth.

Invest in complementary offerings that enhance customer relationships. As the medical device field becomes increasingly complex and the number of devices used per patient on average increases over time, we are constantly evaluating additional services and methods of approaching service delivery that increase value for our clients. As an example, this has recently taken the form of expanding our work with federal, state, and local governments to help them maintain and mobilize strategic stockpiles of ventilators and other critical medical equipment.

Opportunistically pursue accretive M&A. Due to our high and sustained value creation for customers and significant white space with existing customer relationships, we believe that pursuing opportunistic M&A will drive increasing returns through embedded customer relationships. From 2015-2021, we have successfully integrated nine acquisitions and will continue to opportunistically pursue additional inorganic growth.

Recent Acquisitions

Northfield Acquisition

On October 28, 2020, we entered into a stock purchase agreement to acquire 100% of the issued and outstanding capital stock of Northfield Medical ("Northfield Medical") a nationwide provider of surgical equipment repair services for $475.0 million, subject to adjustments (the "Northfield Acquisition"). Northfield Medical provides service and repair of medical devices, specializing in the repair of endoscopes, surgical instruments and other operating room equipment. The acquisition closed on March 19, 2021.

Sizewise Acquisition

On September 14, 2021, we entered into a definitive agreement to acquire Sizewise Rentals, LLC ("Sizewise"), a privately held manufacturer and distributor of specialty patient handling equipment, in a stock purchase transaction valued at $230 million. (the "Sizewise Acquisition"). Sizewise is a leading manufacturer and provider of specialized bed frames, therapeutic surfaces and mobility equipment serving customers in the acute and post-acute care markets with products that address the needs of bariatric, geriatric, pediatric and standard patient populations. The Company completed the acquisition on Octoher 1, 2021.

COVID-19 Update

COVID-19 has placed our customers, business, teams and communities in uncharted waters. We consider the impact of the pandemic on our business by evaluating the health of our operations, changes to our revenue outlook, and the degree to which perceptions of and need for Agiliti solutions have evolved during this unprecedented time. As demand for emergent acute care increases around the country and as the global pandemic highlights the importance of resilient supply chains and service networks, the importance of our services has been magnified. We are proud to have rapidly developed and deployed a response plan to ensure the safety of our team, while continuing to meet our customers' evolving needs for patient-ready medical equipment when and where it was needed; notably, doing so without service interruptions.

We believe our value proposition now resonates with an even broader audience of customers as providers, IDNs and governments prepare for potential future surges in demand for acute care and the required equipment necessary to care for patients.

Specifically, during the COVID-19 pandemic, we have:

- fully and rapidly deployed our fleet of medical devices and accessories across the U.S. to ensure they are reaching the maximum number of patients;
- leveraged our logistics, inventory management, and maintenance/repair infrastructure to work with medical device brokers and manufacturers to make thousands of additional critical medical devices available to healthcare facilities;
- deployed our local biomedical repair teams to augment teams at hospitals around the country to ensure their owned medical equipment remains fully operational and available for patient needs;
- redeployed teams from our over 150 local service centers to support surge medical capacity in parks, gymnasiums, and hotel rooms across the country;
- been awarded a new contract to leverage our unique scale and capabilities to manage the maintenance and field repair of the national strategic ventilator stockpile; we are likewise working with various state and municipal governments to manage and mobilize their centralized and local medical device stockpiles; and
- prioritized the care and safety of our employees who are essential to helping our customers meet patient care needs. We committed to avoid COVID-19 related layoffs or furloughs and bridge the income of our team members with variable net pay for the duration of the pandemic. As many of our team members entered high-exposure environments each day, we ensured all had the necessary PPE, guidelines, training and support from the highest levels of the company. We provided 100% coverage for COVID-19 testing and telemedicine, extended short-term medical leave and disability coverage related to COVID-19, and

Subject: RE: Wholesale Distribution of Prescription Devices [QBLLP-ACTIVE.FID39511858]
Date: Tuesday, November 13, 2018 6:05:32 AM

That is correct, so long as the devices contain no legend drugs and are only shipped wholesale.

Darren

Hello,

I have a quick question that I am hoping you can confirm. It is my understanding that this Board does not regulate the wholesale distribution of prescription devices. Can you please confirm this is still correct?

Thank you in advance!

[redacted] Springview Dr. Avon, IN 46123 [redacted]

PROFESSIONAL SUMMARY

Versatile senior operations manager with over 24 years of experience in a fast-paced transportation and logistics industry. Strong track record in producing highly effective and successful teams through leadership and process implementation.

WORK EXPERIENCE

AGILITI HEALTH, Indianapolis, IN — Feb 2022 to Current
Senior Manager – Logistics and Warehouse Operations

- Recruit, train, and develop employees: provide cross and lateral training, emphasizing continuous improvement and teamwork
- Perform assessment evaluations to force rank team members and provide stretch assignments to those identified as high potential
- Responsible for the leadership, strategic planning, and operational management of a federal emergency response capability
- Build strategic relationships between other teams, departments, or organizations to achieve business goals
- Balance and monitor budget to achieve corporate business plan objectives: facility P&L
- Oversee account receivables collection activities and process for the division and provide updates, assistance, and support for team as necessary
- Monitor and update items to ensure regulatory compliance is being met according to Quality Standards (ISO)
- Make informed business decisions to generate additional revenue
- Utilize data and experience to make recommendations with the intent to enhance operational excellence
- Demonstrates the leadership to inspire others by modeling a positive commitment to the business, peers, other departments, direct reports, and clients
- Drive performance and understanding of periodic audits and review within the division to ensure proper practices are followed
- Lead and support continuous improvement initiatives

FEDEX EXPRESS, Indianapolis, IN — Oct 2020 to Feb 2022
Senior Manager Hub Operations – AGFS Outbound

- Hire and complete onboarding for both external and internal management candidates
- Direct and manage up to 10 managers
- Ensure management team members are aligned with and support the mission and goals of the organization
- Communicate goals of the broader functions and work with management to ensure that these cascade to hourly employees
- Balance and monitor budget to achieve corporate business plan objectives
- Monitor and update items to ensure regulatory compliance is being met (ISO, FAA, AOD, Dangerous Goods)
- Compare current organizational achievements vs goals pertaining to KPIs and SQIs and analyze what adjustments are needed to achieve standards
- Hire and provide guidance to new managers and existing managers
- Collaborate ideas with peers to achieve goals that may be missed or improve current processes
- Work with engineers regarding strategy development and execution planning
- Lead the Safety Quality Driven Management program for all night side shift organizations
- Review and implement necessary changes to the current safety procedures published according to injury and accident trends
- Travel to conduct regulatory compliance audits at other MSLs (Major Sort Locations) and smaller Ramp Operations

FEDEX EXPRESS, Indianapolis, IN — Aug 2019 to Oct 2020
Hub Operations Manager – AGFS Outbound — Dec 2007 to Feb 2018

- Supervise and direct up to 35 employees in multiple areas of the operation
- Staff and schedule operation appropriately to meet demands and achieve productivity goals

- Start new flights in the hub, plan slide layouts, hire and train employees, coordinate with engineering to provide excellent customer service
- Delegate tasks to empower teams and create growth
- Train and mentor new managers to ensure they are successful
- Balance workload to positively impact all operations within own organization and, also in other organizations
- Conduct audits of organizations for items pertaining to regulatory compliance, both CSM and AOD, and implement corrective actions as needed to address exceptions
- Follow people plan by conducting service checks, check rides, TLAs, Safety Observations, and Employee Recognition
- Achieve on time launch performance for various markets

FEDEX EXPRESS, Indianapolis, IN — Feb 2018 to Aug 2019
Hub Operations Manager – CSM/AOD/Payroll/Service Assurance

- Conduct AVP audits at other locations and communicate findings and recommendations to senior management and managing directors
- Network with outside location AVP teams consisting of Advisors and Senior Managers to benchmark off others' successes
- Read and comprehend policy to ensure regulatory compliance across multiple organizations
- Perform monthly CSM and quarterly AOD audits at the IND hub
- Create and implement new processes to improve the CSM and AOD audits, ensuring flight safety and regulatory compliance
- Communicate procedure changes or new procedures to management and upper management to maintain and improve process standards
- Conduct all management meetings and small group meetings to outline CSM and AOD expectations
- Establish effective relationships with large corporate customers, tracking and ensuring outstanding service levels to critical shippers

FEDEX EXPRESS, Salisbury, MD — April 2006 to Dec 2007
Station Operations Manager – DGO

- Plan, organize, and direct a.m. and p.m. station operations
- Create engineering plans based on volumes, routes, and belt speed for the AM sort
- Enforce Best Practices to ensure expectations are met while conducting check rides and TLAs
- Monitor and analyze daily operational performance and make necessary adjustments to eliminate problems and maximize opportunities
- Evaluate route effectiveness and implement changes when necessary; restructure routes
- Assist employees in the AIM program through coaching and delegation
- Participate in monthly and quarterly CSM audits
- Maintain and gain customer relationships; Customer Service Agreements
- Actively participate in the QDST and create safety incentive programs

FEDEX EXPRESS, Indianapolis, IN — Jan 2004 to April 2006
Hub Operations Manager – AGFS Manual Secondaries

- Supervise and direct up to 38 employees
- Ensure scheduling and staffing are appropriate to meet operational demands
- Monitor sort rates nightly to ensure sort performance and communicate with control regarding any issues
- Develop, create, and implement safety incentive programs for the Indy Hub night operation
- Active in the SFA QAT to improve the SFA scores and employee environment
- Coach and develop employees to enhance their FedEx career

EDUCATION

UNIVERSITY OF INDIANAPOLIS, Indianapolis, IN — Sept 2002 to Oct 2003
Organizational Leadership; completed 12 credit hours

IUPUI, Indianapolis, IN — Aug 1992 to Dec 1997
Undergraduate Studies; completed 46 credit hours

AVON HIGH SCHOOL, Avon, IN — Aug 1988 to May 1992
Diploma: Class of 1992

ADDITIONAL SKILLS

- Proficient in MS Office (Word, Excel, Powerpoint, Publisher)
- Experienced in all work-related PC skills
- Leadership and communication

I, Melissa Romano, certify that as the MDEG Administrator for Agiliti Health.

that I (initial that you have read and meet the following requirements):

1. ✓ Have a high school diploma or its equivalent;
2. ✓ Have
   a. At least 1,500 hours of verifiable direct patient-care work experience relating to the products provided by the medical products provider or medical products wholesaler; or
   b. An associate's degree or higher degree from an accredited college or university in a field of study that is directly related to patient health care;
3. ✓ Will be employed by the medical products provider or medical products wholesaler at the place of business or facility of the employer at least 40 hours per week or during all regular business hours if the business or facility is regularly open less than 40 hours per week; and
4. ✓ Will ensure that the operation of the business or facility complies with all applicable federal, state and local laws, regulations and rules.

I certify under penalty of perjury that the information contained in this application is accurate, true and complete in all material respects. I understand that making any false representation in this application is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire application and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event this application is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

Securities registered pursuant to Section 12(g) of the Act: **None**

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☐ No ☒

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes ☐ No ☒

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐	Accelerated filer ☐	Emerging growth company ☐
Non-accelerated filer ☒	Smaller reporting company ☐	

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financing accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

The aggregate market value of the voting and non-voting common equity held by non-affiliates of the registrant as of June 30, 2021, the last business day of the registrant's most recently completed second fiscal quarter, was approximately $694,928,895 based upon the closing price reported for such date on the New York Stock Exchange.

The number of shares of common stock, $0.0001 par value, outstanding as of February 28, 2022 was 131,121,028.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the registrant's Definitive Proxy Statement relating to the Annual Meeting of Stockholders are incorporated by reference into Part III of this Annual Report on Form 10-K where indicated. Such Definitive Proxy Statement will be filed with the Securities and Exchange Commission within 120 days after the end of the registrant's fiscal year ended December 31, 2021.

NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact included in this Form 10-K are forward-looking statements. Forward-looking statements give our current expectations and projections relating to our financial condition, results of operations, plans, objectives, future performance and business. You can identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. These statements may include words such as "anticipate", "estimate", "expect", "project", "plan", "intend", "believe", "may", "will", "should", "can have", "likely" and other words and terms of similar meaning in connection with any discussion of the timing or nature of future operating or financial performance or other events. All forward-looking statements are subject to risks and uncertainties that may cause actual results to differ materially from those that we expected, including:

- effects from political and policy changes that could limit our growth opportunities;
- effects from the continued COVID-19 pandemic on our business and the economy;
- our potential inability to maintain existing contracts or contract terms with, or enter into new contracts with, our customers;
- cancellations by or disputes with customers;
- our potential failure to maintain our reputation, including by protecting intellectual property;
- effects of a global economic downturn on our customers and suppliers;
- a decrease in our customers' patient census or services;
- competitive practices by our competitors that could cause us to lose market share, reduce our prices or increase our expenditures;
- the bundling of products and services by our competitors, some of which we do not offer;
- consolidation in the healthcare industry, which may lead to a reduction in the prices we charge;
- adverse developments with supplier relationships;
- the potential inability to change the manner in which healthcare providers traditionally procure medical equipment;
- our potential inability to attract and retain key personnel;
- our potential inability to make attractive acquisitions or successfully integrate acquire businesses;
- impairment charges for goodwill or other long-lived assets;
- an increase in expenses related to our pension plan;
- the fluctuation of our cash flow;
- credit risks relating to home care providers and nursing homes;
- potential claims related to the medical equipment that we outsource and service;
- the incurrence of costs that we cannot pass through to our customers;
- a failure of our management information systems;
- limitations inherent in all internal controls systems over financial reporting;
- social unrest;
- our failure to keep up with technological changes;
- our failure to coordinate the management of our equipment;
- challenges to our tax positions or changes in taxation laws;
- litigation that may be costly to defend;
- uncertainty surrounding healthcare reform initiatives;
- federal privacy laws that may subject us to more stringent penalties;

- our relationship with healthcare facilities and marketing practices that are subject to federal Anti-Kickback Statute and similar state laws;
- our contracts with the federal government that subject us to additional oversight;
- the impact of changes in third-party payor reimbursement for healthcare items and services on our customers' ability to pay for our services;
- the highly regulated environment our customers operate in; and
- potential recall or obsolescence of our large fleet of medical equipment.

We derive many of our forward-looking statements from our operating budgets and forecasts, which are based on many detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and it is impossible for us to anticipate all factors that could affect our actual results. Important factors that could cause actual results to differ materially from our expectations, or cautionary statements, are disclosed under "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in this Form 10-K and elsewhere in our filings with the SEC. All written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by these cautionary statements as well as other cautionary statements that are made from time to time in our other SEC filings and public communications. You should evaluate all forward-looking statements made in this Form 10-K in the context of these risks and uncertainties.

We caution you that the important factors referenced above may not contain all of the factors that are important to you. In addition, we cannot assure you that we will realize the results or developments we expect or anticipate or, even if substantially realized, that they will result in the consequences or affect us or our operations in the way we expect. The forward-looking statements included in this Form 10-K are made only as of the date hereof. We undertake no obligation to update or revise any forward-looking statement as a result of new information, future events or otherwise, except as otherwise required by law.

PART I

ITEM 1: Business

Unless otherwise specified, the terms "we", "our", "us" and the "Company" refer to Agiliti, Inc. and, where appropriate, its consolidated subsidiaries. The term "THL" refers to Thomas H. Lee Partners, L.P., our principal stockholder, and the term "THL Stockholder" refers to THL Agiliti LLC, an affiliate of Thomas H. Lee Partners, L.P.

Our Mission

Agiliti, Inc. is an essential service provider to the U.S. healthcare industry with solutions that help support a more efficient, safe and sustainable healthcare delivery system. We ensure healthcare providers have the critical medical equipment they need to care for patients—wherever and whenever it's needed—with a service model that helps lower costs, reduce waste and maintain the highest quality standard of medical device management in the industry. We are motivated by a belief that ***every interaction has the power to change a life***, which forms the cornerstone of how we approach our work and frames the lens through which we view our responsibility to make a difference for the customers, patients and communities we serve.

Overview

We believe we are one of the leading experts in the manufacturing, management, maintenance and mobilization of mission-critical, regulated, reusable medical devices. We offer healthcare providers a comprehensive suite of medical equipment management and service solutions that help reduce capital and operating expenses, optimize medical equipment utilization, reduce waste, enhance staff productivity and bolster patient safety.

We commenced operations in 1939, originally incorporated in Minnesota in 1954 and reincorporated in Delaware in 2001.

In our more than 80 years of experience ensuring healthcare providers have high-quality, expertly maintained equipment to serve their patients, we've established a nationwide operating footprint that supports our offering. This at-scale, local market service and logistics infrastructure positions us to reach customers across the entire healthcare continuum—from individual facilities to the largest and most complex healthcare systems. Our ability to rapidly mobilize, track, repair and redeploy equipment during times of peak need or emergent events has made us a service provider of choice for city, state and the federal government in the management of emergency equipment stockpiles.

Our diverse customer base includes more than 9,000 national, regional and local acute care hospitals, health systems and integrated delivery networks and alternate site providers (such as surgery centers, specialty hospitals, home care providers, long-term acute care hospitals and skilled nursing facilities). We serve the federal government as well as a number of city and state governments providing management and maintenance of emergency equipment stockpiles, and we are an outsourced service provider to medical device manufacturers supporting critical device remediation and repair services. We deliver our solutions through our nationwide network of more than 150 service centers and seven ISO 13485 Certified Centers of Excellence, among which we employ a team of more than 700 specialized biomed repair technicians, more than 4,000 field-based service operators who work onsite within customer facilities or in our local service centers, and over 200 field sales and account managers. Our fees are primarily paid directly by our customers rather than by direct reimbursement from third-party payors, such as private insurers, Medicare or Medicaid.

Industry Challenges

The U.S. healthcare industry continues to face transformative pressure that affects how provider organizations conduct business and serve their patients. Across the healthcare system, providers face compounding financial and operational challenges, including cost pressure from payors, nursing and clinical staff shortages, rising costs of drugs and supplies, increasing regulatory oversight, and advances in medical technology that generally result in higher prices for newer equipment and a higher cost of managing that equipment over its lifecycle. Given there is little that providers can do to change external dynamics, there is increased focus on areas within their enterprise that they can control. In our

experience, one area that most hospitals and health systems identify for operational and cost improvement is the management and maintenance of medical equipment.

Healthcare facilities have been shown to own large quantities of reusable capital equipment ranging from multi-million dollar highly technical devices (e.g. MRIs) to lower cost, high volume devices (e.g. infusion pumps) required for patient care, treatment and diagnosis. In our experience, providers often face challenges in managing their medical equipment inventory effectively. For example, hospitals typically utilize roughly 42% of their owned medical equipment inventory at any given time, yet caregivers report that they routinely lack access to readily available patient-ready equipment. Nurses report spending an average of 20 minutes per shift searching for equipment, and often less than 37% of their time on direct patient care. Operational silos that naturally occur among hospital departments create inadvertent breakdowns within equipment management workflows, from the administrators who order equipment, to the support staff who clean/reprocess and deliver the equipment, to the nurses and doctors who use the equipment.

Further, the repair and maintenance of this highly technical equipment continues to increase in complexity and cost. Over a period of 15 years from 1995 to 2010 there was a 62% increase in the number of medical devices per hospital bed and a 90% increase in costs related to maintaining this equipment (between 1995 and 2010). Given the increasingly complex nature of these devices and stringent regulatory mandates guiding their upkeep, specialized technical knowledge is required to repair and maintain them. Most healthcare facilities struggle to employ the in-house capabilities and resources needed to ensure timely, routine maintenance and rapid testing, repair and turnaround of their medical inventory which may impact time-to-therapy and patient safety, while driving up capital replacement costs on equipment that could have otherwise been kept operational with proper maintenance.

Finally, the healthcare system experiences seasonality in patient volumes, resulting in peak-need demand for specialized medical equipment (e.g. ventilators, specialty beds, infusion pumps). Given the common breakdowns in managing and maintaining their inventory during times of normal operation, hospitals face additional burden on equipment availability during times of peak need and will procure supplemental equipment through additional acquisition channels to fill this gap.

These challenges drive up significant costs and time delays within individual hospital facilities, but when multiplied across several hospitals and alternate site facilities within an integrated delivery network ("IDN"), the losses increase significantly. An average 2,500 bed IDN has been shown to waste more than $11 million annually on inefficient equipment maintenance and unnecessary capital purchases, while clinicians lose valuable patient time and productivity hours managing equipment needs.

These dynamics, supported by the following trends, further support the essential nature of our work:

Focus on reducing costs and increasing operational efficiency. Hospitals and other healthcare facilities continue to experience substantial pressure to conserve capital, reduce operating expenses and become more operationally efficient. We expect these pressures to continue in the future and believe that we will always be on the right side of healthcare reform. Our comprehensive, end-to-end solutions offer customers a way to realize costs savings while enhancing operational improvements for medical equipment access and availability, thereby improving their organizational efficiency and financial viability.

Demand for better patient safety and outcomes. Hospitals across the U.S. are focused on improving patient safety and outcomes, which includes efforts to minimize hospital-acquired conditions (e.g. infections, patient falls and pressure injuries) and increase nursing time at the patient bedside. Hospitals turn to us to assist them in managing their equipment in ways that have been shown to to help them to minimize these incidents and ensure equipment is available when and where it is needed for patient care, thereby improving patient safety and time to therapy, and supporting optimal patient outcomes.

Caregiver retention and satisfaction. Hospitals continue to experience pressure and risk related to nursing and other caregiver retention and job satisfaction pressures. According to reports from the World Health Organization, the United States is expected to have a nurse shortage of 500,000 nurses by 2025. Adding non-patient care duties, such as searching for, cleaning and managing equipment, adds to nurse workload and contributes to clinician dissatisfaction and turnover.

We expect that with these internal pressures, hospitals will increasingly turn to our programs to outsource healthcare technology management duties and related management processes to allow nurses more time to spend on patient care, resulting in improved job satisfaction.

Increased capital and operating expense pressures and regulatory compliance. Hospitals continue to experience restricted capital and operating budgets, while the cost and complexity of medical equipment increases. Furthermore, the increasing complexity and sophistication of medical equipment brings with it more recordkeeping requirements and regulatory scrutiny in its use and maintenance. We expect that hospitals will increasingly look to us to support the management and maintenance of their capital equipment inventory to achieve capital and operating expense savings, operating efficiencies and regulatory compliance.

Our Value Proposition

As a critical outsource partner to more than 9,000 U.S. healthcare customers, including most leading providers nationwide, we've tailored our solution offering and service model to address the unique challenges and opportunities we witness among our customers related to the effective management of medical equipment.

Our services help eliminate significant capital and operating costs associated with the ownership and lifecycle management of mission-critical medical equipment. In addition to optimizing use of providers' owned equipment, we provide ready access and increase the on-patient utilization of supplemental medical equipment to address fluctuations in patient census and patient acuity. By partnering with Agiliti, providers have the benefits of:

Cost savings and lower total costs of equipment ownership

- Increased utilization of both customer-owned and supplemental equipment
- Lower overall total cost of equipment ownership by combining our solutions to solve challenges across the end-to-end equipment management process
- Optimized management and logistics of provider-owned equipment through tracking, monitoring, reprocessing, maintaining, and ensuring equipment is safety-tested and redeployed for use
- Reduced maintenance and repair costs through the use of our proprietary technology, flexible staffing models, parts pool, equipment capabilities and diverse skill mix of knowledgeable equipment technicians and our commitment to quality
- Benefits of specialized technician labor to augment clinical biomed staff, having been shown to help reduce service costs and provide required technical proficiency to address more complex equipment types
- Access to our extensive data and expertise on the cost, performance, features and functions of all major items of medical equipment
- Assistance with capital planning, vendor management and regulatory compliance

More time to spend with patients and confidence in the availability of patient-ready medical equipment

- Increased productivity and satisfaction among nursing staff achieved by eliminating certain non-clinical work tasks and saving an average 300-bed hospital over 28,000 caregiver hours annually, allowing more time to focus on patient care responsibilities
- Improved time-to-therapy for patients at risk for falls, skin breakdown and bariatric safety by expediting delivery of therapeutic equipment direct to the patient room
- Access to supplemental moveable medical equipment, surgical equipment and next generation technology without the expense of acquisition on a pay-per-procedure basis

Improved regulatory compliance, risk management and extended use life

- Optimal maintenance intervals and parts replacement to extend equipment use life, reduce waste and lower obsolescence risk
- Compliance with regulatory and recordkeeping requirements and adherence to manufacturers' specifications on the reprocessing and maintenance of medical equipment
- Equipment quality assurance through the use of our comprehensive quality management system ("QMS") based on the quality standards recognized worldwide for medical devices: 21 CFR 820 and ISO 13485:2016
- Risk mitigation and lower costs associated with product recalls or device modifications

Technical expertise and supplemental staffing to sustain optimal equipment workflow

- Reduced administrative and time burdens on clinical staff related to managing and locating available equipment and coordinating among multiple vendors
- Specialized technical and clinical specialists that directly interact with and work alongside customers to optimize equipment outsourcing solutions

Our Market Opportunities

We participate in a $14 billion U.S. medical equipment services market comprised of the services we offer through our onsite managed services, clinical engineering services and equipment solutions service lines. We believe that this market will grow at mid-single digits annually.

Per the Centers for Medicare and Medicaid Services ("CMS"), as of 2020, healthcare spending reached $4.1 trillion, or $12,530 per person and accounted for 19.7% of the U.S. GDP. Spending is expected to grow at an average annual rate of 5.4% from 2019-2028, due to secular tailwinds including an aging population, rising acuity, and prevalence of chronic conditions.

There is a fundamental shift in the needs of health systems, hospitals and alternate site providers to move from supplemental and peak need sourcing of medical equipment toward more comprehensive onsite inventory management and maintenance solutions. As healthcare facilities look to balance the challenge of providing better care at lower costs, they are more open to third party partnerships that outsource critical but non-core support functions. The move toward full outsourcing is not unlike trends in similar services at hospitals including food service, laundry, professional staffing and technology.

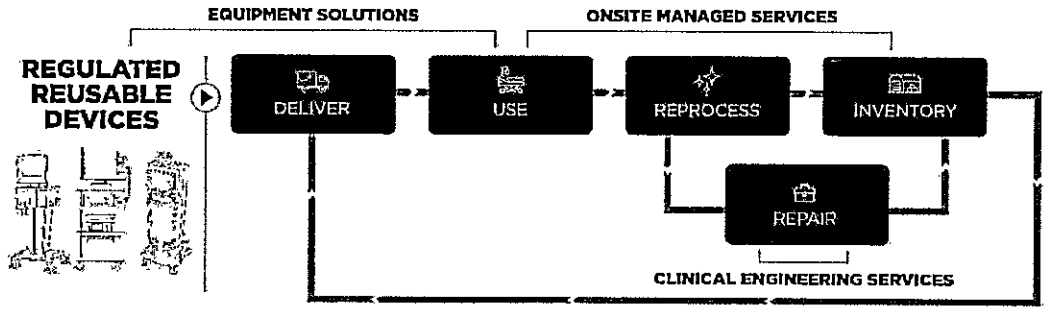
We believe there are several key macro trends that will drive increased demand for our products and services:

Favorable demographic trends. According to the U.S. Census Bureau, individuals aged 65 and older in the United States comprise the fastest growing segment of the population. This segment is expected to grow to approximately 81 million individuals by 2040. This represents a 44% increase in the 65-and-older segment of the population over the next 20 years. As a result, over time, the number of patients and the volume of hospital admissions are expected to grow. The aging population and increasing life expectancy are driving demand for healthcare services.

Increase in chronic disease and obesity. According to the Center for Disease Control and Prevention ("CDC"), six in ten Americans live with at least one chronic disease, like heart disease and stroke, cancer, or diabetes. These conditions often require specialty equipment to support therapeutic intervention in inpatient and outpatient care settings. In addition, obesity in the U.S. increased to 42.4% of the population between 2017-2018, up from 30.5% in 2000 (CDC). This population demands greater access to specialty bariatric equipment to support care and minimize the incidence of injury during a hospital stay.

Increased mergers & acquisitions. We have seen that hospitals and healthcare systems continue to expand their covered network and acquire alternate care delivery settings in order to care for patient populations in the most cost-

effective way. In our experience, providers are increasingly seeking partners that provide comprehensive services and that can quickly adapt to changing health system infrastructure and growth. Working with one vendor that can operate at a nationwide and system-wide scale is attractive to cities, states, and IDNs who operate, manage, and maintain equipment inventories across multiple locations.



Centralizing shared services across the IDN. Health systems with duplicate services across multiple facilities in close proximity have an increased risk of unnecessary variation, greater costs, and suboptimal outcomes. Many health systems have centralized and consolidated non-clinical services as a shared service, including billing, reimbursement, supply chain, human resources, IT, etc. We have witnessed a growing trend among IDNs to centralize and consolidate equipment maintenance and logistics among member facilities. In our experience, because most health systems do not currently have the storage, technical or transportation resources for managing a shared equipment management function, they will seek third party support to optimize equipment utilization, redeploy equipment where needed and reduce overall equipment costs.

Increase in infection control risks. Infection control remains an essential priority for hospitals and health systems as a way to limit the spread of hospital-acquired infections. This has further escalated as a top priority due to the COVID-19 pandemic. Most focus in this area is around hand hygiene, the proper use of personal protective equipment (PPE) and the reprocessing and sterilization of critical and semi-critical medical devices (e.g. surgical instruments, endoscopes). Often overlooked is the reprocessing of non-critical medical devices, such as infusion pumps and ventilators, that are commonly touched by caregivers and patients. If not properly cleaned and sanitized between patient use, these devices can pose increased infection control risks. We expect an increase in demand of onsite equipment management programs to address proper reprocessing of these types of devices and help lower infection risks and allow clinicians to spend more time at the patient bedside and less time cleaning equipment.

Our Solutions

We provide a comprehensive offering for the manufacturing, management, maintenance and mobilization of critical medical devices, built on an integrated service platform. Our solutions help reduce the cost and complexity of acquiring, managing and maintaining medical equipment inventories. The integrated nature of our offerings within our end-to-end service framework ensures we maximize value to over 9,000 customers nationwide as we address more aspects of the equipment lifecycle continuum.

While customers may initially engage with us across one aspect of our service lines within this framework, we employ a variety of land-and-expand tactics to grow our relationships and customer share-of-wallet over time. These tactics include:

- ***Gateway solutions*** which offer an entry point to the economic buyer and include peak needs equipment, surgical lasers and equipment, specialty beds and surfaces and supplemental clinical engineering services;
- ***Vertical solutions*** which provide a deeper level of service with clinical offerings tailored to specific patient needs (e.g. bariatrics, wound management, falls management) and clinical engineering programs for broad equipment categories (general biomedical devices, diagnostic imaging equipment, surgical instruments);
- ***Comprehensive, connected solutions*** through onsite managed services and outsourced clinical engineering services that connect previously fragmented customer workflow processes to drive operational efficiencies, realize improved clinician and equipment productivity, lower total cost of ownership, ensure regulatory compliance, reduce waste, improve time to therapy and allow customers to effectively lower costs; and
- ***Comprehensive logistics, management and clinical engineering solutions*** that allow IDNs to manage equipment inventories across multiple locations, and supports city, state and federal government agencies in managing and maintaining equipment stockpiles.

We deploy our solution offering across three primary service lines:

On-Site Managed Services: Onsite Managed Services are comprehensive programs that assume full responsibility for the management, reprocessing and logistics of medical equipment at individual facilities and IDNs, with the added benefit of enhancing equipment utilization and freeing more clinician time for patient care. This solution monitors and adjusts equipment quantities and availability to address fluctuations in patient census and acuity. Our more than 1,600 onsite employees work 24/7 in customer facilities, augmenting clinical support by integrating proven equipment management processes, utilizing our proprietary management software and conducting daily rounds and unit-based training to ensure equipment is being used and managed properly, overall helping to optimize day-to-day operations and care outcomes. We assume full responsibility for ensuring equipment is available when and where it is needed, removing equipment when no longer in use, and decontaminating, testing and servicing equipment as needed between each patient use. Revenue attributable to such customers represented 29% of our total revenue for both the years ended December 31, 2021 and 2020.

Clinical Engineering Services: Clinical Engineering Services provides maintenance, repair and remediation solutions for all types of medical equipment, including general biomedical equipment, diagnostic imaging equipment and surgical equipment through supplemental and outsourced offerings. Our supplemental offering helps customers manage their equipment repair and maintenance backlog, assist with remediation and regulatory reporting and temporarily fill open biotechnical positions. With our outsourced offering, we assume full management, staffing and clinical engineering service responsibilities for individual or system-wide customer sites. The outsourced model deploys a dedicated, on-site team to coordinate the management of customer-owned equipment utilizing our proprietary information systems, third party vendors of services and parts, and a broad range of professional services for capital equipment planning and regulatory compliance. We leverage more than 700 technical resources from our over 150 local market service centers and seven Centers of Excellence to flex staff in and out of customer facilities on an as-needed basis, ensuring customers pay only for time spent directly servicing their equipment by an appropriately qualified technician. We use flex staffing for our supplemental clinical engineering solution and to augment support when additional technicians are needed to supplement our outsourced services during peak workload. We contract our Clinical Engineering Services with acute care and alternate site facilities across the U.S., as well as with the federal government and any medical device manufacturers that require a broad logistical footprint to support their large-scale service needs. Revenue attributable to such customers for the years ended December 31, 2021 and 2020 represented 37% and 33% of our total revenue, respectively.

Equipment Solutions: Equipment Solutions primarily provides supplemental, peak need and per-case rental of general biomedical, specialty, and surgical equipment to acute care hospitals and alternate site providers in the U.S., including some of the nation's premier healthcare institutions and integrated delivery networks. We contract for Equipment Solutions services directly with customers or through our contractual arrangements with hospital systems and alternate site providers. We consistently achieve high customer satisfaction ratings, as evidenced by our Net Promotor Score ("NPS") of 55 for the year ended December 31, 2021, by delivering patient-ready equipment within our contracted equipment delivery times and by providing technical support and educational in-servicing for equipment as-needed in clinical departments, including the emergency room, operating room, intensive care, rehabilitation and general patient care areas. We are committed to providing the highest quality of equipment to our customers, and we do so through the use of our comprehensive QMS which is based on the quality standards recognized worldwide for medical devices: 21 CFR 820 and ISO 13485:2016. This commitment ensures that customers have access to patient-ready equipment with the confidence of knowing it has been prepared and maintained to the highest industry standard to deliver optimal patient safety and outcomes. Revenue attributable to such customers for the years ended December 31, 2021 and 2020 represented 34% and 38% of our total revenue, respectively.

Many of our customers have multiple contracts and have revenue reported in multiple service lines. Our contracts vary based upon service offering, including with respect to term (with most being multi-year contracts), pricing (daily, monthly and fixed fee arrangements) and termination (termination for convenience to termination for cause only). Many of our contracts contain customer commitment guarantees and annual price increases tied to the consumer price index. Standard contract terms include payment terms, limitation of liability, force majeure provisions and choice of law/venue.

Because we work closely with customers to provide a long-term, value-based solution versus a product-based, transactional approach, they are motivated to expand their relationships with us over time. With approximately 75% white space within our current customers, we have demonstrated an ability to grow revenue up to 5-6x with existing customers as they move toward our full suite of highly complementary services. From the year ended December 31, 2015 to the year ended December 31, 2021, our top 50 customers that experienced the largest growth in revenue over the same period increased in revenue from an aggregate of approximately $22.2 million to approximately $135.4 million (with increases at each customer ranging from $1.2 million to $7.1 million and an average increase of $2.3 million, and with consistent growth across our three primary service lines), primarily driven by our efforts to expand our share of wallet within our existing customer base.

Further, the infrastructure and capabilities required to provide connected, responsive equipment lifecycle management is typically cost-prohibitive, even for large IDNs. Our nationwide network of clinical engineers, storage and repair facilities, vehicles and analytics tools gives us scale to provide cost-effective services for individual facilities, systems, regional IDNs, governments and device manufacturers.

Competitive Strengths

We believe our business model presents an attractive value proposition to our customers and that our comprehensive medical device management solutions and ability to work in partnership with and across Original Equipment Manufacturers ("OEMs") as a device-agnostic service provider have contributed to our growth in recent years. Our unique framework for end-to-end medical equipment management, delivered through our nationwide service and logistics infrastructure, differentiates us in the marketplace and is without comparable peers. We believe our more than 80 years of experience, extensive employee base of trained technicians and our reputation for service excellence has earned us a leading position in our industry. We attribute our historical success to our:

Strong value proposition. With our focus and expertise in connected, end-to-end medical equipment management and service solutions, we offer a compelling customer value proposition. We believe that many of our customers have come to rely on our ability to respond quickly to their needs with reliable, high quality products and service expertise. We believe our ability to provide this level of service distinguishes us from our competitors. It also requires us to maintain inventories and infrastructure that we do not believe our competitors currently maintain. Our comprehensive solutions focus on helping customers:

- lower total cost of device ownership by reducing capital and operating costs related to owning and managing medical equipment;
- enhance operational productivity and staff satisfaction by ensuring equipment is available when and where needed; and
- maintain high standards of quality and regulatory compliance related to medical equipment use, maintenance and end-of-life disposal.

Large, nationwide infrastructure. We have a broad and specialized nationwide staff, facility, and vehicle service network coupled with focused and customized operations at the local level. Our extensive network of service centers and Centers of Excellence and our 24-hours-a-day, 365 days-a-year service capabilities enable us to compete effectively for large, national contracts as well as drive growth regionally and locally.

We employ a number of technical, clinical and surgical specialists that engage directly with our customers to drive improved cost, efficiency and clinical outcomes. These include over 700 biomedical repair technicians, more than 4,000 field-based service operators, and over 200 field sales and account managers. Our specialized teams, large equipment fleet, and quality assurance programs have been built over 80 years serving provider customers and represent a significant investment in infrastructure over time. This places us in a unique and hard-to-replicate position with the scale to serve the most complex acute care hospitals, such as teaching, research or specialty institutions, that demand access to current and preferred technologies to meet the complex needs of their patients.

Proprietary software and asset management tools. We have used our more than 80 years of experience and our extensive database of equipment management information to develop sophisticated software technology and management tools. These tools enable us to meet unique customer demands by supporting sophisticated onsite managed services that help drive cost efficiencies and equipment productivity for caregivers. We believe that our ongoing investment in new tools and technology will help continue to distinguish our offerings to the healthcare industry.

Commitment to quality. Class I and II medical devices are designed, manufactured, and distributed from our Sizewise manufacturing facilities. Each of the United States-based facilities that produce finished goods is registered with the FDA and follows strict quality guidelines in accordance with 21 CFR 820. The Hays, KS, Ellis, KS, and Corona, CA Sizewise manufacturing facilities are ISO 1385:2016 compliant, and the two Kansas facilities are certified by Intertek; the California facility is pending certification. A dedicated quality team oversees the Quality Management System (QMS) at these locations.

Agiliti also services and repairs medical devices manufactured by other OEMs. Third-party service providers like Agiliti are not required to register their sites with the FDA; therefore, there are no regulations that specifically apply to our maintenance of medical devices. We've made a commitment, however, to do the right thing for our customers and their patients by staffing a dedicated Quality team and implementing a QMS based on the quality standards recognized

worldwide for medical devices: 21 CFR 820 and ISO 13485:2016. This commitment to quality ensures that patient safety and risk management are at the center of every product decision, and that our equipment is serviced to the highest standards in the industry. Over 90 local market service centers, eight government service centers, and seven Centers of Excellence follow an ISO 13485:2016 ccertified QMS, and we have elected to hire outside independent accredited registrars to audit our quality system. British Standards Institute ("BSI") has certified over 90 of our local market service centers, eight government service centers, and five of our Centers of Excellence to ISO 13485:2016, the remaining two Centers of Excellence are certified by Deutscher Kraftfahrzeug-Überwachungs-Verein e.V. ("Dekra") and National Quality Assurance ("NQA"). We believe that ISO 13485:2016 provides the stringent guidelines specific to medical devices to ensure that our fleet of equipment, as well as the equipment we service, is maintained to the highest quality standards. Our commitment to quality extends to our exclusive use of OEM parts to repair FDA 510(k) registered medical devices that we own, whenever available. Implementing optimal maintenance intervals and parts replacement extends equipment use life, thereby reducing waste and lowering risk of obsolescence. We believe that our robust QMS policies set us apart in our industry from those who may use less stringent quality practices on the equipment they own or maintain.

Superior customer service. We believe we have a long-standing reputation among our customers for outstanding service and quality. This reputation is largely attributable to our strong customer service culture, which is continuously reinforced by management's commitment to, and significant investment in, hiring and training resources. We strive to seamlessly integrate our employees and solutions into the operations of our customers. We believe that our aggressive focus on the overall customer experience has helped us achieve high customer satisfaction ratings, as evidenced by our NPS of 55 for the year ended December 31, 2021.

Low direct third-party payor reimbursement risk. Many healthcare providers rely on direct payment from patients or reimbursement from third-party payors. Our fees are primarily paid directly by our customers, rather than by third-party payors, such as Medicare, Medicaid, managed care organizations or indemnity insurers. Accordingly, our exposure to uncollectible patient or reimbursement receivables or Medicare or Medicaid reimbursement changes is reduced, as evidenced by our bad debt expense of approximately 0.2%, 0.3%, and 0.2% of total revenue for the years ended December 31, 2021, 2020, and 2019, respectively.

Values driven culture centered on doing the right thing for our many stakeholders. Our team operates on a set of shared aspirations that reflect the manner in which we approach our work and serve the needs of our customers, team members, shareholders and local communities. We believe these aspirations that underpin our culture, strategy and service model help contribute to a safer and more sustainable healthcare system and frame the cornerstone of our success:

WE ARE BUILDING THE PREMIER CLINICAL EQUIPMENT SERVICES COMPANY. We ensure clinicians have the equipment they need, when they need it, with the confidence it is maintained to the highest industry standards. We never waver from doing what is right for our customers, our team members, and our shareholders.

WE ARE ESSENTIAL TO CUSTOMERS. We are dependable, trusted advisors—steadfast in our commitments and ready to serve. We deliver a unique and valuable offering that helps customers improve their business and prioritize patient care.

WE ARE EMPOWERED AND ENGAGED. We lead by example, inspiring one another to be at our best, to be accountable, and to develop with purpose. We value our diversity, knowing different perspectives lead to better outcomes. We share a common drive to make a difference and take pride in being part of something bigger than ourselves.

WE ARE OPERATIONALLY EXCELLENT. We demonstrate a tireless commitment to quality, reliability, and continuous improvement. We demand of ourselves the highest degree of accuracy, efficiency and integrity in order to deliver exceptional service to our customers and their patients.

WE ARE CREATING A CATEGORY OF ONE. Together, we are building a highly differentiated service company that is the vendor of choice for customers and an employer of choice nationwide.

Highly engaged team. We believe a strong and sustainable company begins with an engaged and empowered team. We are committed to investing in our team's development and to fostering a culture of diversity, inclusion, trust and transparency. Approximately 41% of our total work force is comprised of minorities and approximately 29% of our team members are female. Since 2018, we have consistently had an annual internal promotion rate of approximately 29%, compared to the national average of 8.9%, as reported by ADP Research Institute. We offer competitive compensation and benefits programs, and we ensure our team members share in the success of our business with a companywide annual bonus program and an Employee Stock Purchase Plan. We strive to ensure Agiliti is a place where our people are proud to work, and we achieve that by listening to feedback and taking active steps to improve. In 2021, we achieved a 77 employee engagement score rating, which places us nearing the extraordinary company benchmark according to third-party engagement indices.

Proven management team. Our diverse and industry leading management team brings decades of executive-level healthcare expertise from across the sector and has successfully supervised the development of our competitive strategy, continually enhanced and expanded our service and product offerings, reinforced our nationwide operating footprint and furthered our reputation as an industry leader in our category.

Key Elements of our Growth Strategy

Retain and expand existing customer relationships. While our overall market opportunity is large, there is also significant expansion opportunity within our existing customers. We currently have 25% wallet share within our existing contracted customers and have demonstrated the ability to grow our wallet share among existing customers by expanding the services we provide to them over time. From the year ended December 31, 2015 to the year ended December 31, 2021, our top 50 customers that experienced the largest growth in revenue over the same period increased in revenue from an aggregate of approximately $22.2 million to approximately $135.4 million (with increases at each customer ranging from $1.2 million to $7.1 million and an average increase of $2.3 million, and with consistent growth across our three primary service lines), primarily driven by our efforts to expand our share of wallet within our existing customer base.

Grow our customer base among customers that outsource. We believe there is a significant opportunity to further grow our business by winning new customer contracts within the $5.85 billion that is contracted annually for medical equipment management services in the U.S. This is less than half of the total addressable market and, due to increasing pressures that providers are facing, we expect outsourcing to significantly accelerate. As a leader in our industry, we believe we are poised to take advantage of this continued shift.

Grow our serviceable market by contracting with those that insource today. Currently, we estimate that $14 billion is spent annually in the U.S. for medical equipment services and functionality, but less than half of the total market is currently being outsourced to an equipment management service, while the rest is done in-house in facilities. We believe that as we reach additional potential customers with demonstrated value both in improved patient care and reduced costs, we can grow our total addressable market by contracting with new clients that were not previously outsourcing device management services. Further, this market is also experiencing tailwinds that make the total addressable market, the total contracted market, and our own contracts with ongoing customers poised to continue to expand. These tailwinds include increasing overall provider volumes, increasing use and complexity of medical devices, increasing outsourcing by hospitals, and additional factors that we believe will continue to drive growth.

Invest in complementary offerings that enhance customer relationships. As the medical device field becomes increasingly complex and the number of devices used per patient on average increases over time, we are constantly evaluating additional services and methods of approaching service delivery that increase value for our clients. As an example, this has recently taken the form of expanding our work with federal, state, and local governments to help them maintain and mobilize strategic stockpiles of ventilators and other critical medical equipment.

Opportunistically pursue accretive M&A. Due to our high and sustained value creation for customers and significant white space with existing customer relationships, we believe that pursuing opportunistic M&A will drive increasing returns through embedded customer relationships. From 2015-2021, we have successfully integrated nine acquisitions and will continue to opportunistically pursue additional inorganic growth.

Recent Acquisitions

Northfield Acquisition

On October 28, 2020, we entered into a stock purchase agreement to acquire 100% of the issued and outstanding capital stock of Northfield Medical ("Northfield Medical") a nationwide provider of surgical equipment repair services for $475.0 million, subject to adjustments (the "Northfield Acquisition"). Northfield Medical provides service and repair of medical devices, specializing in the repair of endoscopes, surgical instruments and other operating room equipment. The acquisition closed on March 19, 2021.

Sizewise Acquisition

On September 14, 2021, we entered into a definitive agreement to acquire Sizewise Rentals, LLC ("Sizewise"), a privately held manufacturer and distributor of specialty patient handling equipment, in a stock purchase transaction valued at $230 million. (the "Sizewise Acquisition"). Sizewise is a leading manufacturer and provider of specialized bed frames, therapeutic surfaces and mobility equipment serving customers in the acute and post-acute care markets with products that address the needs of bariatric, geriatric, pediatric and standard patient populations. The Company completed the acquisition on October 1, 2021.

COVID-19 Update

COVID-19 has placed our customers, business, teams and communities in uncharted waters. We consider the impact of the pandemic on our business by evaluating the health of our operations, changes to our revenue outlook, and the degree to which perceptions of and need for Agiliti solutions have evolved during this unprecedented time. As demand for emergent acute care increases around the country and as the global pandemic highlights the importance of resilient supply chains and service networks, the importance of our services has been magnified. We are proud to have rapidly developed and deployed a response plan to ensure the safety of our team, while continuing to meet our customers' evolving needs for patient-ready medical equipment when and where it was needed; notably, doing so without service interruptions.

We believe our value proposition now resonates with an even broader audience of customers as providers, IDNs and governments prepare for potential future surges in demand for acute care and the required equipment necessary to care for patients.

Specifically, during the COVID-19 pandemic, we have:

- fully and rapidly deployed our fleet of medical devices and accessories across the U.S. to ensure they are reaching the maximum number of patients;
- leveraged our logistics, inventory management, and maintenance/repair infrastructure to work with medical device brokers and manufacturers to make thousands of additional critical medical devices available to healthcare facilities;
- deployed our local biomedical repair teams to augment teams at hospitals around the country to ensure their owned medical equipment remains fully operational and available for patient needs;
- redeployed teams from our over 150 local service centers to support surge medical capacity in parks, gymnasiums, and hotel rooms across the country;
- heen awarded a new contract to leverage our unique scale and capabilities to manage the maintenance and field repair of the national strategic ventilator stockpile; we are likewise working with various state and municipal governments to manage and mobilize their centralized and local medical device stockpiles; and
- prioritized the care and safety of our employees who are essential to helping our customers meet patient care needs. We committed to avoid COVID-19 related layoffs or furloughs and bridge the income of our team members with variable net pay for the duration of the pandemic. As many of our team members entered high-exposure environments each day, we ensured all had the necessary PPE, guidelines, training and support from the highest levels of the company. We provided 100% coverage for COVID-19 testing and telemedicine, extended short-term medical leave and disability coverage related to COVID-19, and

Good Evening Dorothy Johnson:

During the Maryland Board of Pharmacy's October 19, 2022 Board meeting, the following response was approved:

> Yes, the Board can provide an official notification.
>
> The Board does not issue a 3PL permit. Additionally, the Board does not require that a 3PL obtain a wholesale distributor's permit in lieu of a 3PL permit.

Please be advised that this response was prepared with the knowledge of only the facts presented. Any person who wishes to republish or reproduce, in whole or in part, any material issued by the Board should contact the Board for prior consent. This response is not intended to be legal advice. Although references to current laws and regulations may be included in this response, keep in mind that laws may change annually and regulations may be changed at any time. Further, the information provided is based on state pharmacy laws and regulations. Federal rules and state requirements that are not included under the Maryland Pharmacy Practice Act, however, may also apply. To ensure that all current applicable laws have been considered, you may want to consult with your own legal counsel. Board responses to inquiries are intended for guidance purposes only. As these positions do not necessarily reflect a discussion of all material considerations required to reach the conclusions stated, they are not intended to be rules, regulations, or official statements of the Board. Accordingly, due to their highly informal nature, these responses are not considered binding upon the Board and should not be relied on as definitive.

Medical Products Provider and Wholesaler – Medical Devices, Equipment and Gases (MDEG) Administrator Application

Rev (06/21/2022)

Section 1: Pharmacy/ MDEG/Wholesaler Information

Name of MDEG Agiliti Health Inc. MDEG License # (if applicable) _____

Physical Address 1790 Crossroads Drive

City Odenton State MD Zip 21113

Mailing Address (if different from physical address) Same as physical

City _____ State _____ Zip _____

Telephone 410.456.2108 Website www.agilitihealth.com

Licensing Company Email _____

Section 2: Personal Information

First Thomas Middle Andrew Last Bees

Alias(es, nicknames, name changes, etc.) n/a

Date of Birth [redacted] SSN or ITIN [redacted] Sex ☒ M ☐ F ☐ X

Mailing Address [redacted] Cottage Grove Dr

City Pasadena State MD Zip 21122

Telephone [redacted] Email tommy.bees@agilitihealth.com

Are you a citizen of the United States? ☒ Yes ☐ No

Section 3: Military Service (NRS 622.120)	Yes	No
1. Have you ever served on active duty in the Armed Forces of the United States and separated from such service under conditions other than dishonorable? (Mark "Yes" if discharged honorably.)		X
2. Have you ever been assigned to duty for a minimum of 6 continuous years in the National Guard or a reserve component of the Armed Forces of the United States and separated from such service under conditions other than dishonorable? (Mark "Yes" if discharged honorably.)		X
3. Have you ever served the Commissioned Corps of the United States Public Health Service or the Commissioned Corps of the National Oceanic and Atmospheric Administration of the United States in the capacity of a commissioned officer while on active duty in defense of the United States and separated from such service under conditions other than dishonorable? (Mark "Yes" if discharged honorably.)		X

Section 4: Federally Mandated Requirement (NRS 425.520, NRS 639.129)	Yes	No
1. Are you the subject of a court order for the support of a child? (If "yes", answer question 2.)		X
2. Are you in compliance with the order or the plan approved by the district attorney or other public agency enforcing the order for the repayment of the amount owed pursuant to the order?		X

Section 5: List your high school and college experience beginning with the most current. (Use a separate piece of paper if additional space is needed.)

School Name		From - To (MM/YY – MM/YY)	
Anne Arundel Community College		8/15 to 5/20	
Address: 101 College Pkwy	City: Arundel	State: MD	Zip: 21012
Diploma/Degree obtained, if any: AA Business Management			

School Name		From - To (MM/YY – MM/YY)	
Catonsville Community College		8/88 to 5/90	
Address: 800 S Rolling Rd	City: Catonsville	State: MD	Zip: 21228
Diploma/Degree obtained, if any: N/A			

School Name		From - To (MM/YY – MM/YY)	
Cardinal Gibbons HS		9/24 to 6/88	
Address: 3225 Wilkins Ave	City: Baltimore	State: MD	Zip: 21229
Diploma/Degree obtained, if any: High School			

School Name		From - To (MM/YY – MM/YY)	
Address	City	State	Zip

I, THOMAS BEES, **certify that as the MDEG Administrator for** AGILITI HEALTH, INC.,

that I (initial that you have read and meet the following requirements):

1. TB Have a high school diploma or its equivalent;
2. TB Have
   a. At least 1,500 hours of verifiable work experience relating to the products provided by the medical products provider or medical products wholesaler; or
   b. An associate's degree or higher degree from an accredited college or university in a field of study that is directly related to patient health care;
3. TB Will be employed by the medical products provider or medical products wholesaler at the place of business or facility of the employer at least 40 hours per week or during all regular business hours if the business or facility is regularly open less than 40 hours per week; and
4. TB Will ensure that the operation of the business or facility complies with all applicable federal, state and local laws, regulations and rules.

I certify under penalty of perjury that the information contained in this application is accurate, true and complete in all material respects. I understand that making any false representation in this application is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire application and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event this application is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

(State or other jurisdiction of incorporation or organization)	**Minneapolis, Minnesota 55439-2604** (Address of principal executive offices, including zip code) **(952) 893-3200** (Registrant's telephone number, including area code)	(I.R.S. Employer Identification No.)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	**Trading Symbol(s)**	**Name of each exchange on which registered**
Common Stock, par value $0.0001	AGTI	The New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: **None**

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☐ No ☒

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes ☐ No ☒

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐	Accelerated filer ☐	Emerging growth company ☐
Non-accelerated filer ☒	Smaller reporting company ☐	

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financing accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

The aggregate market value of the voting and non-voting common equity held by non-affiliates of the registrant as of June 30, 2021, the last business day of the registrant's most recently completed second fiscal quarter, was approximately $694,928,895 based upon the closing price reported for such date on the New York Stock Exchange.

The number of shares of common stock, $0.0001 par value, outstanding as of February 28, 2022 was 131,121,028.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the registrant's Definitive Proxy Statement relating to the Annual Meeting of Stockholders are incorporated by reference into Part III of this Annual Report on Form 10-K where indicated. Such Definitive Proxy Statement will be filed with the Securities and Exchange Commission within 120 days after the end of the registrant's fiscal year ended December 31, 2021.

NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact included in this Form 10-K are forward-looking statements. Forward-looking statements give our current expectations and projections relating to our financial condition, results of operations, plans, objectives, future performance and business. You can identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. These statements may include words such as "anticipate", "estimate", "expect", "project", "plan", "intend", "believe", "may", "will", "should", "can have", "likely" and other words and terms of similar meaning in connection with any discussion of the timing or nature of future operating or financial performance or other events. All forward-looking statements are subject to risks and uncertainties that may cause actual results to differ materially from those that we expected, including:

- effects from political and policy changes that could limit our growth opportunities;
- effects from the continued COVID-19 pandemic on our business and the economy;
- our potential inability to maintain existing contracts or contract terms with, or enter into new contracts with, our customers;
- cancellations by or disputes with customers;
- our potential failure to maintain our reputation, including by protecting intellectual property;
- effects of a global economic downturn on our customers and suppliers;
- a decrease in our customers' patient census or services;
- competitive practices by our competitors that could cause us to lose market share, reduce our prices or increase our expenditures;
- the bundling of products and services by our competitors, some of which we do not offer;
- consolidation in the healthcare industry, which may lead to a reduction in the prices we charge;
- adverse developments with supplier relationships;
- the potential inability to change the manner in which healthcare providers traditionally procure medical equipment;
- our potential inability to attract and retain key personnel;
- our potential inability to make attractive acquisitions or successfully integrate acquire businesses;
- impairment charges for goodwill or other long-lived assets;
- an increase iu expenses related to our pension plan;
- the fluctuation of our cash flow;
- credit risks relating to home care providers and nursing homes;
- potential claims related to the medical equipment that we outsource and service;
- the incurrence of costs that we cannot pass through to our customers;
- a failure of our management information systems;
- limitations inherent in all internal controls systems over financial reporting;
- social unrest;
- our failure to keep up with technological changes;
- our failure to coordinate the management of our equipment;
- challenges to our tax positions or changes in taxation laws;
- litigation that may be costly to defend;
- uncertainty surrounding healthcare reform initiatives;
- federal privacy laws that may subject us to more stringent penalties;

- our relationship with healthcare facilities and marketing practices that are subject to federal Anti-Kickback Statute and similar state laws;
- our contracts with the federal government that subject us to additional oversight;
- the impact of changes in third-party payor reimbursement for healthcare items and services on our customers' ability to pay for our services;
- the highly regulated environment our customers operate in; and
- potential recall or obsolescence of our large fleet of medical equipment.

We derive many of our forward-looking statements from our operating budgets and forecasts, which are based on many detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and it is impossible for us to anticipate all factors that could affect our actual results. Important factors that could cause actual results to differ materially from our expectations, or cautionary statements, are disclosed under "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in this Form 10-K and elsewhere in our filings with the SEC. All written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by these cautionary statements as well as other cautionary statements that are made from time to time in our other SEC filings and public communications. You should evaluate all forward-looking statements made in this Form 10-K in the context of these risks and uncertainties.

We caution you that the important factors referenced above may not contain all of the factors that are important to you. In addition, we cannot assure you that we will realize the results or developments we expect or anticipate or, even if substantially realized, that they will result in the consequences or affect us or our operations in the way we expect. The forward-looking statements included in this Form 10-K are made only as of the date hereof. We undertake no obligation to update or revise any forward-looking statement as a result of new information, future events or otherwise, except as otherwise required by law.

PART I

ITEM 1: Business

Unless otherwise specified, the terms "we", "our", "us" and the "Company" refer to Agiliti, Inc. and, where appropriate, its consolidated subsidiaries. The term "THL" refers to Thomas H. Lee Partners, L.P., our principal stockholder, and the term "THL Stockholder" refers to THL Agiliti LLC, an affiliate of Thomas H. Lee Partners, L.P.

Our Mission

Agiliti, Inc. is an essential service provider to the U.S. healthcare industry with solutions that help support a more efficient, safe and sustainable healthcare delivery system. We ensure healthcare providers have the critical medical equipment they need to care for patients—wherever and whenever it's needed—with a service model that helps lower costs, reduce waste and maintain the highest quality standard of medical device management in the industry. We are motivated by a belief that ***every interaction has the power to change a life***, which forms the cornerstone of how we approach our work and frames the lens through which we view our responsibility to make a difference for the customers, patients and communities we serve.

Overview

We believe we are one of the leading experts in the manufacturing, management, maintenance and mobilization of mission-critical, regulated, reusable medical devices. We offer healthcare providers a comprehensive suite of medical equipment management and service solutions that help reduce capital and operating expenses, optimize medical equipment utilization, reduce waste, enhance staff productivity and bolster patient safety.

We commenced operations in 1939, originally incorporated in Minnesota in 1954 and reincorporated in Delaware in 2001.

In our more than 80 years of experience ensuring healthcare providers have high-quality, expertly maintained equipment to serve their patients, we've established a nationwide operating footprint that supports our offering. This at-scale, local market service and logistics infrastructure positions us to reach customers across the entire healthcare continuum—from individual facilities to the largest and most complex healthcare systems. Our ability to rapidly mobilize, track, repair and redeploy equipment during times of peak need or emergent events has made us a service provider of choice for city, state and the federal government in the management of emergency equipment stockpiles.

Our diverse customer base includes more than 9,000 national, regional and local acute care hospitals, health systems and integrated delivery networks and alternate site providers (such as surgery centers, specialty hospitals, home care providers, long-term acute care hospitals and skilled nursing facilities). We serve the federal government as well as a number of city and state governments providing management and maintenance of emergency equipment stockpiles, and we are an outsourced service provider to medical device manufacturers supporting critical device remediation and repair services. We deliver our solutions through our nationwide network of more than 150 service centers and seven ISO 13485 Certified Centers of Excellence, among which we employ a team of more than 700 specialized biomed repair technicians, more than 4,000 field-based service operators who work onsite within customer facilities or in our local service centers, and over 200 field sales and account managers. Our fees are primarily paid directly by our customers rather than by direct reimbursement from third-party payors, such as private insurers, Medicare or Medicaid.

Industry Challenges

The U.S. healthcare industry continues to face transformative pressure that affects how provider organizations conduct business and serve their patients. Across the healthcare system, providers face compounding financial and operational challenges, including cost pressure from payors, nursing and clinical staff shortages, rising costs of drugs and supplies, increasing regulatory oversight, and advances in medical technology that generally result in higher prices for newer equipment and a higher cost of managing that equipment over its lifecycle. Given there is little that providers can do to change external dynamics, there is increased focus on areas within their enterprise that they can control. In our

experience, one area that most hospitals and health systems identify for operational and cost improvement is the management and maintenance of medical equipment.

Healthcare facilities have been shown to own large quantities of reusable capital equipment ranging from multi-million dollar highly technical devices (e.g. MRIs) to lower cost, high volume devices (e.g. infusion pumps) required for patient care, treatment and diagnosis. In our experience, providers often face challenges in managing their medical equipment inventory effectively. For example, hospitals typically utilize roughly 42% of their owned medical equipment inventory at any given time, yet caregivers report that they routinely lack access to readily available patient-ready equipment. Nurses report spending an average of 20 minutes per shift searching for equipment, and often less than 37% of their time on direct patient care. Operational silos that naturally occur among hospital departments create inadvertent breakdowns within equipment management workflows, from the administrators who order equipment, to the support staff who clean/reprocess and deliver the equipment, to the nurses and doctors who use the equipment.

Further, the repair and maintenance of this highly technical equipment continues to increase in complexity and cost. Over a period of 15 years from 1995 to 2010 there was a 62% increase in the number of medical devices per hospital bed and a 90% increase in costs related to maintaining this equipment (between 1995 and 2010). Given the increasingly complex nature of these devices and stringent regulatory mandates guiding their upkeep, specialized technical knowledge is required to repair and maintain them. Most healthcare facilities struggle to employ the in-house capabilities and resources needed to ensure timely, routine maintenance and rapid testing, repair and turnaround of their medical inventory which may impact time-to-therapy and patient safety, while driving up capital replacement costs on equipment that could have otherwise been kept operational with proper maintenance.

Finally, the healthcare system experiences seasonality in patient volumes, resulting in peak-need demand for specialized medical equipment (e.g. ventilators, specialty beds, infusion pumps). Given the common breakdowns in managing and maintaining their inventory during times of normal operation, hospitals face additional burden on equipment availability during times of peak need and will procure supplemental equipment through additional acquisition channels to fill this gap.

These challenges drive up significant costs and time delays within individual hospital facilities, but when multiplied across several hospitals and alternate site facilities within an integrated delivery network ("IDN"), the losses increase significantly. An average 2,500 bed IDN has been shown to waste more than $11 million annually on inefficient equipment maintenance and unnecessary capital purchases, while clinicians lose valuable patient time and productivity hours managing equipment needs.

These dynamics, supported by the following trends, further support the essential nature of our work:

Focus on reducing costs and increasing operational efficiency. Hospitals and other healthcare facilities continue to experience substantial pressure to conserve capital, reduce operating expenses and become more operationally efficient. We expect these pressures to continue in the future and believe that we will always be on the right side of healthcare reform. Our comprehensive, end-to-end solutions offer customers a way to realize costs savings while enhancing operational improvements for medical equipment access and availability, thereby improving their organizational efficiency and financial viability.

Demand for better patient safety and outcomes. Hospitals across the U.S. are focused on improving patient safety and outcomes, which includes efforts to minimize hospital-acquired conditions (e.g. infections, patient falls and pressure injuries) and increase nursing time at the patient bedside. Hospitals turn to us to assist them in managing their equipment in ways that have been shown to to help them to minimize these incidents and ensure equipment is available when and where it is needed for patient care, thereby improving patient safety and time to therapy, and supporting optimal patient outcomes.

Caregiver retention and satisfaction. Hospitals continue to experience pressure and risk related to nursing and other caregiver retention and job satisfaction pressures. According to reports from the World Health Organization, the United States is expected to have a nurse shortage of 500,000 nurses by 2025. Adding non-patient care duties, such as searching for, cleaning and managing equipment, adds to nurse workload and contributes to clinician dissatisfaction and turnover.

We expect that with these internal pressures, hospitals will increasingly turn to our programs to outsource healthcare technology management duties and related management processes to allow nurses more time to spend on patient care, resulting in improved job satisfaction.

Increased capital and operating expense pressures and regulatory compliance. Hospitals continue to experience restricted capital and operating budgets, while the cost and complexity of medical equipment increases. Furthermore, the increasing complexity and sophistication of medical equipment brings with it more recordkeeping requirements and regulatory scrutiny in its use and maintenance. We expect that hospitals will increasingly look to us to support the management and maintenance of their capital equipment inventory to achieve capital and operating expense savings, operating efficiencies and regulatory compliance.

Our Value Proposition

As a critical outsource partner to more than 9,000 U.S. healthcare customers, including most leading providers nationwide, we've tailored our solution offering and service model to address the unique challenges and opportunities we witness among our customers related to the effective management of medical equipment.

Our services help eliminate significant capital and operating costs associated with the ownership and lifecycle management of mission-critical medical equipment. In addition to optimizing use of providers' owned equipment, we provide ready access and increase the on-patient utilization of supplemental medical equipment to address fluctuations in patient census and patient acuity. By partnering with Agiliti, providers have the benefits of:

Cost savings and lower total costs of equipment ownership

- Increased utilization of both customer-owned and supplemental equipment
- Lower overall total cost of equipment ownership by combining our solutions to solve challenges across the end-to-end equipment management process
- Optimized management and logistics of provider-owned equipment through tracking, monitoring, reprocessing, maintaining, and ensuring equipment is safety-tested and redeployed for use
- Reduced maintenance and repair costs through the use of our proprietary technology, flexible staffing models, parts pool, equipment capabilities and diverse skill mix of knowledgeable equipment technicians and our commitment to quality
- Benefits of specialized technician labor to augment clinical biomed staff, having been shown to help reduce service costs and provide required technical proficiency to address more complex equipment types
- Access to our extensive data and expertise on the cost, performance, features and functions of all major items of medical equipment
- Assistance with capital planning, vendor management and regulatory compliance

More time to spend with patients and confidence in the availability of patient-ready medical equipment

- Increased productivity and satisfaction among nursing staff achieved by eliminating certain non-clinical work tasks and saving an average 300-bed hospital over 28,000 caregiver hours annually, allowing more time to focus on patient care responsibilities
- Improved time-to-therapy for patients at risk for falls, skin breakdown and bariatric safety by expediting delivery of therapeutic equipment direct to the patient room
- Access to supplemental moveable medical equipment, surgical equipment and next generation technology without the expense of acquisition on a pay-per-procedure basis

Improved regulatory compliance, risk management and extended use life

- Optimal maintenance intervals and parts replacement to extend equipment use life, reduce waste and lower obsolescence risk
- Compliance with regulatory and recordkeeping requirements and adherence to manufacturers' specifications on the reprocessing and maintenance of medical equipment
- Equipment quality assurance through the use of our comprehensive quality management system ("QMS") based on the quality standards recognized worldwide for medical devices: 21 CFR 820 and ISO 13485:2016
- Risk mitigation and lower costs associated with product recalls or device modifications

Technical expertise and supplemental staffing to sustain optimal equipment workflow

- Reduced administrative and time burdens on clinical staff related to managing and locating available equipment and coordinating among multiple vendors
- Specialized technical and clinical specialists that directly interact with and work alongside customers to optimize equipment outsourcing solutions

Our Market Opportunities

We participate in a $14 billion U.S. medical equipment services market comprised of the services we offer through our onsite managed services, clinical engineering services and equipment solutions service lines. We believe that this market will grow at mid-single digits annually.

Per the Centers for Medicare and Medicaid Services ("CMS"), as of 2020, healthcare spending reached $4.1 trillion, or $12,530 per person and accounted for 19.7% of the U.S. GDP. Spending is expected to grow at an average annual rate of 5.4% from 2019-2028, due to secular tailwinds including an aging population, rising acuity, and prevalence of chronic conditions.

There is a fundamental shift in the needs of health systems, hospitals and alternate site providers to move from supplemental and peak need sourcing of medical equipment toward more comprehensive onsite inventory management and maintenance solutions. As healthcare facilities look to balance the challenge of providing better care at lower costs, they are more open to third party partnerships that outsource critical but non-core support functions. The move toward full outsourcing is not unlike trends in similar services at hospitals including food service, laundry, professional staffing and technology.

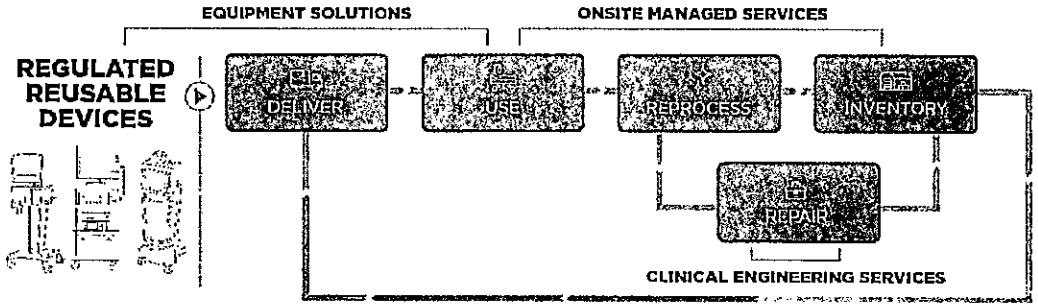
We believe there are several key macro trends that will drive increased demand for our products and services:

Favorable demographic trends. According to the U.S. Census Bureau, individuals aged 65 and older in the United States comprise the fastest growing segment of the population. This segment is expected to grow to approximately 81 million individuals by 2040. This represents a 44% increase in the 65-and-older segment of the population over the next 20 years. As a result, over time, the number of patients and the volume of hospital admissions are expected to grow. The aging population and increasing life expectancy are driving demand for healthcare services.

Increase in chronic disease and obesity. According to the Center for Disease Control and Prevention ("CDC"), six in ten Americans live with at least one chronic disease, like heart disease and stroke, cancer, or diabetes. These conditions often require specialty equipment to support therapeutic intervention in inpatient and outpatient care settings. In addition, obesity in the U.S. increased to 42.4% of the population between 2017-2018, up from 30.5% in 2000 (CDC). This population demands greater access to specialty bariatric equipment to support care and minimize the incidence of injury during a hospital stay.

Increased mergers & acquisitions. We have seen that hospitals and healthcare systems continue to expand their covered network and acquire alternate care delivery settings in order to care for patient populations in the most cost-

effective way. In our experience, providers are increasingly seeking partners that provide comprehensive services and that can quickly adapt to changing health system infrastructure and growth. Working with one vendor that can operate at a nationwide and system-wide scale is attractive to cities, states, and IDNs who operate, manage, and maintain equipment inventories across multiple locations.



Centralizing shared services across the IDN. Health systems with duplicate services across multiple facilities in close proximity have an increased risk of unnecessary variation, greater costs, and suboptimal outcomes. Many health systems have centralized and consolidated non-clinical services as a shared service, including billing, reimbursement, supply chain, human resources, IT, etc. We have witnessed a growing trend among IDNs to centralize and consolidate equipment maintenance and logistics among member facilities. In our experience, because most health systems do not currently have the storage, technical or transportation resources for managing a shared equipment management function, they will seek third party support to optimize equipment utilization, redeploy equipment where needed and reduce overall equipment costs.

Increase in infection control risks. Infection control remains an essential priority for hospitals and health systems as a way to limit the spread of hospital-acquired infections. This has further escalated as a top priority due to the COVID-19 pandemic. Most focus in this area is around hand hygiene, the proper use of personal protective equipment (PPE) and the reprocessing and sterilization of critical and semi-critical medical devices (e.g. surgical instruments, endoscopes). Often overlooked is the reprocessing of non-critical medical devices, such as infusion pumps and ventilators, that are commonly touched by caregivers and patients. If not properly cleaned and sanitized between patient use, these devices can pose increased infection control risks. We expect an increase in demand of onsite equipment management programs to address proper reprocessing of these types of devices and help lower infection risks and allow clinicians to spend more time at the patient bedside and less time cleaning equipment.

Our Solutions

We provide a comprehensive offering for the manufacturing, management, maintenance and mobilization of critical medical devices, built on an integrated service platform. Our solutions help reduce the cost and complexity of acquiring, managing and maintaining medical equipment inventories. The integrated nature of our offerings within our end-to-end service framework ensures we maximize value to over 9,000 customers nationwide as we address more aspects of the equipment lifecycle continuum.

While customers may initially engage with us across one aspect of our service lines within this framework, we employ a variety of land-and-expand tactics to grow our relationships and customer share-of-wallet over time. These tactics include:

- ***Gateway solutions*** which offer an entry point to the economic buyer and include peak needs equipment, surgical lasers and equipment, specialty beds and surfaces and supplemental clinical engineering services;
- ***Vertical solutions*** which provide a deeper level of service with clinical offerings tailored to specific patient needs (e.g. bariatrics, wound management, falls management) and clinical engineering programs for broad equipment categories (general biomedical devices, diagnostic imaging equipment, surgical instruments);
- ***Comprehensive, connected solutions*** through onsite managed services and outsourced clinical engineering services that connect previously fragmented customer workflow processes to drive operational efficiencies, realize improved clinician and equipment productivity, lower total cost of ownership, ensure regulatory compliance, reduce waste, improve time to therapy and allow customers to effectively lower costs; and
- ***Comprehensive logistics, management and clinical engineering solutions*** that allow IDNs to manage equipment inventories across multiple locations, and supports city, state and federal government agencies in managing and maintaining equipment stockpiles.

We deploy our solution offering across three primary service lines:

On-Site Managed Services: Onsite Managed Services are comprehensive programs that assume full responsibility for the management, reprocessing and logistics of medical equipment at individual facilities and IDNs, with the added benefit of enhancing equipment utilization and freeing more clinician time for patient care. This solution monitors and adjusts equipment quantities and availability to address fluctuations in patient census and acuity. Our more than 1,600 onsite employees work 24/7 in customer facilities, augmenting clinical support by integrating proven equipment management processes, utilizing our proprietary management software and conducting daily rounds and unit-based training to ensure equipment is being used and managed properly, overall helping to optimize day-to-day operations and care outcomes. We assume full responsibility for ensuring equipment is available when and where it is needed, removing equipment when no longer in use, and decontaminating, testing and servicing equipment as needed between each patient use. Revenue attributable to such customers represented 29% of our total revenue for both the years ended December 31, 2021 and 2020.

Clinical Engineering Services: Clinical Engineering Services provides maintenance, repair and remediation solutions for all types of medical equipment, including general biomedical equipment, diagnostic imaging equipment and surgical equipment through supplemental and outsourced offerings. Our supplemental offering helps customers manage their equipment repair and maintenance backlog, assist with remediation and regulatory reporting and temporarily fill open biotechnical positions. With our outsourced offering, we assume full management, staffing and clinical engineering service responsibilities for individual or system-wide customer sites. The outsourced model deploys a dedicated, on-site team to coordinate the management of customer-owned equipment utilizing our proprietary information systems, third party vendors of services and parts, and a broad range of professional services for capital equipment planning and regulatory compliance. We leverage more than 700 technical resources from our over 150 local market service centers and seven Centers of Excellence to flex staff in and out of customer facilities on an as-needed basis, ensuring customers pay only for time spent directly servicing their equipment by an appropriately qualified technician. We use flex staffing for our supplemental clinical engineering solution and to augment support when additional technicians are needed to supplement our outsourced services during peak workload. We contract our Clinical Engineering Services with acute care and alternate site facilities across the U.S., as well as with the federal government and any medical device manufacturers that require a broad logistical footprint to support their large-scale service needs. Revenue attributable to such customers for the years ended December 31, 2021 and 2020 represented 37% and 33% of our total revenue, respectively.

Equipment Solutions: Equipment Solutions primarily provides supplemental, peak need and per-case rental of general biomedical, specialty, and surgical equipment to acute care hospitals and alternate site providers in the U.S., including some of the nation's premier healthcare institutions and integrated delivery networks. We contract for Equipment Solutions services directly with customers or through our contractual arrangements with hospital systems and alternate site providers. We consistently achieve high customer satisfaction ratings, as evidenced by our Net Promotor Score ("NPS") of 55 for the year ended December 31, 2021, by delivering patient-ready equipment within our contracted equipment delivery times and by providing technical support and educational in-servicing for equipment as-needed in clinical departments, including the emergency room, operating room, intensive care, rehabilitation and general patient care areas. We are committed to providing the highest quality of equipment to our customers, and we do so through the use of our comprehensive QMS which is based on the quality standards recognized worldwide for medical devices: 21 CFR 820 and ISO 13485:2016. This commitment ensures that customers have access to patient-ready equipment with the confidence of knowing it has been prepared and maintained to the highest industry standard to deliver optimal patient safety and outcomes. Revenue attributable to such customers for the years ended December 31, 2021 and 2020 represented 34% and 38% of our total revenue, respectively.

Many of our customers have multiple contracts and have revenue reported in multiple service lines. Our contracts vary based upon service offering, including with respect to term (with most being multi-year contracts), pricing (daily, monthly and fixed fee arrangements) and termination (termination for convenience to termination for cause only). Many of our contracts contain customer commitment guarantees and annual price increases tied to the consumer price index. Standard contract terms include payment terms, limitation of liability, force majeure provisions and choice of law/venue.

Because we work closely with customers to provide a long-term, value-based solution versus a product-based, transactional approach, they are motivated to expand their relationships with us over time. With approximately 75% white space within our current customers, we have demonstrated an ability to grow revenue up to 5-6x with existing customers as they move toward our full suite of highly complementary services. From the year ended December 31, 2015 to the year ended December 31, 2021, our top 50 customers that experienced the largest growth in revenue over the same period increased in revenue from an aggregate of approximately $22.2 million to approximately $135.4 million (with increases at each customer ranging from $1.2 million to $7.1 million and an average increase of $2.3 million, and with consistent growth across our three primary service lines), primarily driven by our efforts to expand our share of wallet within our existing customer base.

Further, the infrastructure and capabilities required to provide connected, responsive equipment lifecycle management is typically cost-prohibitive, even for large IDNs. Our nationwide network of clinical engineers, storage and repair facilities, vehicles and analytics tools gives us scale to provide cost-effective services for individual facilities, systems, regional IDNs, governments and device manufacturers.

Competitive Strengths

We believe our business model presents an attractive value proposition to our customers and that our comprehensive medical device management solutions and ability to work in partnership with and across Original Equipment Manufacturers ("OEMs") as a device-agnostic service provider have contributed to our growth in recent years. Our unique framework for end-to-end medical equipment management, delivered through our nationwide service and logistics infrastructure, differentiates us in the marketplace and is without comparable peers. We believe our more than 80 years of experience, extensive employee base of trained technicians and our reputation for service excellence has earned us a leading position in our industry. We attribute our historical success to our:

Strong value proposition. With our focus and expertise in connected, end-to-end medical equipment management and service solutions, we offer a compelling customer value proposition. We believe that many of our customers have come to rely on our ability to respond quickly to their needs with reliable, high quality products and service expertise. We believe our ability to provide this level of service distinguishes us from our competitors. It also requires us to maintain inventories and infrastructure that we do not believe our competitors currently maintain. Our comprehensive solutions focus on helping customers:

- lower total cost of device ownership by reducing capital and operating costs related to owning and managing medical equipment;
- enhance operational productivity and staff satisfaction by ensuring equipment is available when and where needed; and
- maintain high standards of quality and regulatory compliance related to medical equipment use, maintenance and end-of-life disposal.

Large, nationwide infrastructure. We have a broad and specialized nationwide staff, facility, and vehicle service network coupled with focused and customized operations at the local level. Our extensive network of service centers and Centers of Excellence and our 24-hours-a-day, 365 days-a-year service capabilities enable us to compete effectively for large, national contracts as well as drive growth regionally and locally.

We employ a number of technical, clinical and surgical specialists that engage directly with our customers to drive improved cost, efficiency and clinical outcomes. These include over 700 biomedical repair technicians, more than 4,000 field-based service operators, and over 200 field sales and account managers. Our specialized teams, large equipment fleet, and quality assurance programs have been built over 80 years serving provider customers and represent a significant investment in infrastructure over time. This places us in a unique and hard-to-replicate position with the scale to serve the most complex acute care hospitals, such as teaching, research or specialty institutions, that demand access to current and preferred technologies to meet the complex needs of their patients.

Proprietary software and asset management tools. We have used our more than 80 years of experience and our extensive database of equipment management information to develop sophisticated software technology and management tools. These tools enable us to meet unique customer demands by supporting sophisticated onsite managed services that help drive cost efficiencies and equipment productivity for caregivers. We believe that our ongoing investment in new tools and technology will help continue to distinguish our offerings to the healthcare industry.

Commitment to quality. Class I and II medical devices are designed, manufactured, and distributed from our Sizewise manufacturing facilities. Each of the United States-based facilities that produce finished goods is registered with the FDA and follows strict quality guidelines in accordance with 21 CFR 820. The Hays, KS, Ellis, KS, and Corona, CA Sizewise manufacturing facilities are ISO 1385:2016 compliant, and the two Kansas facilities are certified by Intertek; the California facility is pending certification. A dedicated quality team oversees the Quality Management System (QMS) at these locations.

Agiliti also services and repairs medical devices manufactured by other OEMs. Third-party service providers like Agiliti are not required to register their sites with the FDA; therefore, there are no regulations that specifically apply to our maintenance of medical devices. We've made a commitment, however, to do the right thing for our customers and their patients by staffing a dedicated Quality team and implementing a QMS based on the quality standards recognized

worldwide for medical devices: 21 CFR 820 and ISO 13485:2016. This commitment to quality ensures that patient safety and risk management are at the center of every product decision, and that our equipment is serviced to the highest standards in the industry. Over 90 local market service centers, eight government service centers, and seven Centers of Excellence follow an ISO 13485:2016 ccertified QMS, and we have elected to hire outside independent accredited registrars to audit our quality system. British Standards Institute ("BSI") has certified over 90 of our local market service centers, eight government service centers, and five of our Centers of Excellence to ISO 13485:2016, the remaining two Centers of Excellence are certified by Deutscher Kraftfahrzeug-Überwachungs-Verein e.V. ("Dekra") and National Quality Assurance ("NQA"). We believe that ISO 13485:2016 provides the stringent guidelines specific to medical devices to ensure that our fleet of equipment, as well as the equipment we service, is maintained to the highest quality standards. Our commitment to quality extends to our exclusive use of OEM parts to repair FDA 510(k) registered medical devices that we own, whenever available. Implementing optimal maintenance intervals and parts replacement extends equipment use life, thereby reducing waste and lowering risk of obsolescence. We believe that our robust QMS policies set us apart in our industry from those who may use less stringent quality practices on the equipment they own or maintain.

Superior customer service. We believe we have a long-standing reputation among our customers for outstanding service and quality. This reputation is largely attributable to our strong customer service culture, which is continuously reinforced by management's commitment to, and significant investment in, hiring and training resources. We strive to seamlessly integrate our employees and solutions into the operations of our customers. We believe that our aggressive focus on the overall customer experience has helped us achieve high customer satisfaction ratings, as evidenced by our NPS of 55 for the year ended December 31, 2021.

Low direct third-party payor reimbursement risk. Many healthcare providers rely on direct payment from patients or reimbursement from third-party payors. Our fees are primarily paid directly hy our customers, rather than by third-party payors, such as Medicare, Medicaid, managed care organizations or indemnity insurers. Accordingly, our exposure to uncollectible patient or reimbursement receivables or Medicare or Medicaid reimbursement changes is reduced, as evidenced by our bad debt expense of approximately 0.2%, 0.3%, and 0.2% of total revenue for the years ended December 31, 2021, 2020, and 2019, respectively.

Values driven culture centered on doing the right thing for our many stakeholders. Our team operates on a set of shared aspirations that reflect the manner in which we approach our work and serve the needs of our customers, team members, shareholders and local communities. We believe these aspirations that underpin our culture, strategy and service model help contribute to a safer and more sustainable healthcare system and frame the cornerstone of our success:

WE ARE BUILDING THE PREMIER CLINICAL EQUIPMENT SERVICES COMPANY. We ensure clinicians have the equipment they need, when they need it, with the confidence it is maintained to the highest industry standards. We never waver from doing what is right for our customers, our team members, and our shareholders.

WE ARE ESSENTIAL TO CUSTOMERS. We are dependable, trusted advisors—steadfast in our commitments and ready to serve. We deliver a unique and valuable offering that helps customers improve their business and prioritize patient care.

WE ARE EMPOWERED AND ENGAGED. We lead by example, inspiring one another to be at our best, to be accountable, and to develop with purpose. We value our diversity, knowing different perspectives lead to better outcomes. We share a common drive to make a difference and take pride in being part of something bigger than ourselves.

WE ARE OPERATIONALLY EXCELLENT. We demonstrate a tireless commitment to quality, reliability, and continuous improvement. We demand of ourselves the highest degree of accuracy, efficiency and integrity in order to deliver exceptional service to our customers and their patients.

WE ARE CREATING A CATEGORY OF ONE. Together, we are building a highly differentiated service company that is the vendor of choice for customers and an employer of choice nationwide.

Highly engaged team. We believe a strong and sustainable company begins with an engaged and empowered team. We are committed to investing in our team's development and to fostering a culture of diversity, inclusion, trust and transparency. Approximately 41% of our total work force is comprised of minorities and approximately 29% of our team members are female. Since 2018, we have consistently had an annual internal promotion rate of approximately 29%, compared to the national average of 8.9%, as reported by ADP Research Institute. We offer competitive compensation and benefits programs, and we ensure our team members share in the success of our business with a companywide annual bonus program and an Employee Stock Purchase Plan. We strive to ensure Agiliti is a place where our people are proud to work, and we achieve that by listening to feedback and taking active steps to improve. In 2021, we achieved a 77 employee engagement score rating, which places us nearing the extraordinary company benchmark according to third-party engagement indices.

Proven management team. Our diverse and industry leading management team brings decades of executive-level healthcare expertise from across the sector and has successfully supervised the development of our competitive strategy, continually enhanced and expanded our service and product offerings, reinforced our nationwide operating footprint and furthered our reputation as an industry leader in our category.

Key Elements of our Growth Strategy

Retain and expand existing customer relationships. While our overall market opportunity is large, there is also significant expansion opportunity within our existing customers. We currently have 25% wallet share within our existing contracted customers and have demonstrated the ability to grow our wallet share among existing customers by expanding the services we provide to them over time. From the year ended December 31, 2015 to the year ended December 31, 2021, our top 50 customers that experienced the largest growth in revenue over the same period increased in revenue from an aggregate of approximately $22.2 million to approximately $135.4 million (with increases at each customer ranging from $1.2 million to $7.1 million and an average increase of $2.3 million, and with consistent growth across our three primary service lines), primarily driven by our efforts to expand our share of wallet within our existing customer base.

Grow our customer base among customers that outsource. We believe there is a significant opportunity to further grow our business by winning new customer contracts within the $5.85 billion that is contracted annually for medical equipment management services in the U.S. This is less than half of the total addressable market and, due to increasing pressures that providers are facing, we expect outsourcing to significantly accelerate. As a leader in our industry, we believe we are poised to take advantage of this continued shift.

Grow our serviceable market by contracting with those that insource today. Currently, we estimate that $14 billion is spent annually in the U.S. for medical equipment services and functionality, but less than half of the total market is currently being outsourced to an equipment management service, while the rest is done in-house in facilities. We believe that as we reach additional potential customers with demonstrated value both in improved patient care and reduced costs, we can grow our total addressable market by contracting with new clients that were not previously outsourcing device management services. Further, this market is also experiencing tailwinds that make the total addressable market, the total contracted market, and our own contracts with ongoing customers poised to continue to expand. These tailwinds include increasing overall provider volumes, increasing use and complexity of medical devices, increasing outsourcing by hospitals, and additional factors that we believe will continue to drive growth.

Invest in complementary offerings that enhance customer relationships. As the medical device field becomes increasingly complex and the number of devices used per patient on average increases over time, we are constantly evaluating additional services and methods of approaching service delivery that increase value for our clients. As an example, this has recently taken the form of expanding our work with federal, state, and local governments to help them maintain and mobilize strategic stockpiles of ventilators and other critical medical equipment.

Opportunistically pursue accretive M&A. Due to our high and sustained value creation for customers and significant white space with existing customer relationships, we believe that pursuing opportunistic M&A will drive increasing returns through embedded customer relationships. From 2015-2021, we have successfully integrated nine acquisitions and will continue to opportunistically pursue additional inorganic growth.

Recent Acquisitions

Northfield Acquisition

On October 28, 2020, we entered into a stock purchase agreement to acquire 100% of the issued and outstanding capital stock of Northfield Medical ("Northfield Medical") a nationwide provider of surgical equipment repair services for $475.0 million, subject to adjustments (the "Northfield Acquisition"). Northfield Medical provides service and repair of medical devices, specializing in the repair of endoscopes, surgical instruments and other operating room equipment. The acquisition closed on March 19, 2021.

Sizewise Acquisition

On September 14, 2021, we entered into a definitive agreement to acquire Sizewise Rentals, LLC ("Sizewise"), a privately held manufacturer and distributor of specialty patient handling equipment, in a stock purchase transaction valued at $230 million. (the "Sizewise Acquisition"). Sizewise is a leading manufacturer and provider of specialized bed frames, therapeutic surfaces and mobility equipment serving customers in the acute and post-acute care markets with products that address the needs of bariatric, geriatric, pediatric and standard patient populations. The Company completed the acquisition on October 1, 2021.

COVID-19 Update

COVID-19 has placed our customers, business, teams and communities in uncharted waters. We consider the impact of the pandemic on our business by evaluating the health of our operations, changes to our revenue outlook, and the degree to which perceptions of and need for Agiliti solutions have evolved during this unprecedented time. As demand for emergent acute care increases around the country and as the global pandemic highlights the importance of resilient supply chains and service networks, the importance of our services has been magnified. We are proud to have rapidly developed and deployed a response plan to ensure the safety of our team, while continuing to meet our customers' evolving needs for patient-ready medical equipment when and where it was needed; notably, doing so without service interruptions.

We believe our value proposition now resonates with an even broader audience of customers as providers, IDNs and governments prepare for potential future surges in demand for acute care and the required equipment necessary to care for patients.

Specifically, during the COVID-19 pandemic, we have:

- fully and rapidly deployed our fleet of medical devices and accessories across the U.S. to ensure they are reaching the maximum number of patients;
- leveraged our logistics, inventory management, and maintenance/repair infrastructure to work with medical device brokers and manufacturers to make thousands of additional critical medical devices available to healthcare facilities;
- deployed our local biomedical repair teams to augment teams at hospitals around the country to ensure their owned medical equipment remains fully operational and available for patient needs;
- redeployed teams from our over 150 local service centers to support surge medical capacity in parks, gymnasiums, and hotel rooms across the country;
- been awarded a new contract to leverage our unique scale and capabilities to manage the maintenance and field repair of the national strategic ventilator stockpile; we are likewise working with various state and municipal governments to manage and mobilize their centralized and local medical device stockpiles; and
- prioritized the care and safety of our employees who are essential to helping our customers meet patient care needs. We committed to avoid COVID-19 related layoffs or furloughs and bridge the income of our team members with variable net pay for the duration of the pandemic. As many of our team members entered high-exposure environments each day, we ensured all had the necessary PPE, guidelines, training and support from the highest levels of the company. We provided 100% coverage for COVID-19 testing and telemedicine, extended short-term medical leave and disability coverage related to COVID-19, and

Re: Third Party Logistics Providers

Per H.R. 3204, DQSA, Uniform National Policy, Sec. 585 (b)(2) New Jersey does not regulate third-party logistics providers as wholesale distributors. To qualify for a wholesale drug or medical device registration, a facility must conduct regulated wholesale distribution or manufacturing activity as defined in N.J.A.C. 8:21-3A.3, therefore New Jersey does not issue or require registration of third party logistics providers.

Sincerely,
Eric B. Lieberman, Esq.
Project Coordinator, Wholesale Drug Project
Public Health and Food Protection Program

985 Damonte Ranch Parkway, Suite 206 – Reno, NV 89521 – 775-850-1440

Medical Products Provider and Wholesaler – Medical Devices, Equipment and Gases (MDEG) Administrator Application

Rev (06/21/2022)

NAC 639.694

1. **Each medical products provider or medical products wholesaler shall employ an administrator at all times. The administrator must:**
   a. Be a natural person;
   b. Have a high school diploma or its equivalent;
   c. Have:
      i. At least 1,500 hours of verifiable work experience relating to the products provided by the medical products provider or medical products wholesaler; or
      ii. An associate's degree or higher degree from an accredited college or university in a field of study that is directly related to patient health care;
   d. Be employed by the medical products provider or medical products wholesaler at the place of business or facility of the employer at least 40 hours per week or during all regular business hours if the business or facility is regularly open less than 40 hours per week; and
   e. Be approved by the Board.
2. The administrator shall ensure that the operation of the business or facility complies with all applicable federal, state and local laws, regulations and rules.
3. A medical products provider or medical products wholesaler shall notify the staff of the Board of the cessation of employment of an administrator within 3 business days after the cessation of the employment. A medical products provider or medical products wholesaler shall notify the staff of the Board of the employment of a new administrator within 3 business days after the beginning of the employment.
4. A medical products provider or medical products wholesaler may not operate for more than 10 business days without an administrator. The Board may summarily suspend the operation of a business or facility that operates without an administrator.

NAC 639.6946

1. Except as otherwise provided in NAC 639.6945, a medical products provider shall:
   a. Provide services for all medical products sold, leased or otherwise provided by the medical products provider, including, without limitation, set up, repair and maintenance.
   b. Employ an administrator and other employees sufficient to provide the services described in paragraph (a).

NAC 639.6957

1. A medical products wholesaler shall:
   a. Employ a facility administrator and other employees sufficient to operate, set up, repair, maintain and service all medical products sold, leased or otherwise provided by the medical products wholesaler.

Please mail this completed application and all other required documents with your MDEG and/or Wholesaler Application to the address indicated above.

If you have any questions, please contact the Nevada State Board of Pharmacy at 775-850-1440 or by email at pharmacy@pharmacy.nv.gov.

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

The aggregate market value of the voting and non-voting common equity held by non-affiliates of the registrant as of June 30, 2021, the last business day of the registrant's most recently completed second fiscal quarter, was approximately $694,928,895 based upon the closing price reported for such date on the New York Stock Exchange.

The number of shares of common stock, $0.0001 par value, outstanding as of February 28, 2022 was 131,121,028.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the registrant's Definitive Proxy Statement relating to the Annual Meeting of Stockholders are incorporated by reference into Part III of this Annual Report on Form 10-K where indicated. Such Definitive Proxy Statement will be filed with the Securities and Exchange Commission within 120 days after the end of the registrant's fiscal year ended December 31, 2021.

NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact included in this Form 10-K are forward-looking statements. Forward-looking statements give our current expectations and projections relating to our financial condition, results of operations, plans, objectives, future performance and business. You can identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. These statements may include words such as "anticipate", "estimate", "expect", "project", "plan", "intend", "believe", "may", "will", "should", "can have", "likely" and other words and terms of similar meaning in connection with any discussion of the timing or nature of future operating or financial performance or other events. All forward-looking statements are subject to risks and uncertainties that may cause actual results to differ materially from those that we expected, including:

- effects from political and policy changes that could limit our growth opportunities;
- effects from the continued COVID-19 pandemic on our business and the economy;
- our potential inability to maintain existing contracts or contract terms with, or enter into new contracts with, our customers;
- cancellations by or disputes with customers;
- our potential failure to maintain our reputation, including by protecting intellectual property;
- effects of a global economic downturn on our customers and suppliers;
- a decrease in our customers' patient census or services;
- competitive practices by our competitors that could cause us to lose market share, reduce our prices or increase our expenditures;
- the bundling of products and services by our competitors, some of which we do not offer;
- consolidation in the healthcare industry, which may lead to a reduction in the prices we charge;
- adverse developments with supplier relationships;
- the potential inability to change the manner in which healthcare providers traditionally procure medical equipment;
- our potential inability to attract and retain key personnel;
- our potential inability to make attractive acquisitions or successfully integrate acquire businesses;
- impairment charges for goodwill or other long-lived assets;
- an increase in expenses related to our pension plan;
- the fluctuation of our cash flow;
- credit risks relating to home care providers and nursing homes;
- potential claims related to the medical equipment that we outsource and service;
- the incurrence of costs that we cannot pass through to our customers;
- a failure of our management information systems;
- limitations inherent in all internal controls systems over financial reporting;
- social unrest;
- our failure to keep up with technological changes;
- our failure to coordinate the management of our equipment;
- challenges to our tax positions or changes in taxation laws;
- litigation that may be costly to defend;
- uncertainty surrounding healthcare reform initiatives;
- federal privacy laws that may subject us to more stringent penalties;

- our relationship with healthcare facilities and marketing practices that are subject to federal Anti-Kickback Statute and similar state laws;
- our contracts with the federal government that subject us to additional oversight;
- the impact of changes in third-party payor reimbursement for healthcare items and services on our customers' ability to pay for our services;
- the highly regulated environment our customers operate in; and
- potential recall or obsolescence of our large fleet of medical equipment.

We derive many of our forward-looking statements from our operating budgets and forecasts, which are based on many detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and it is impossible for us to anticipate all factors that could affect our actual results. Important factors that could cause actual results to differ materially from our expectations, or cautionary statements, are disclosed under "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in this Form 10-K and elsewhere in our filings with the SEC. All written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by these cautionary statements as well as other cautionary statements that are made from time to time in our other SEC filings and public communications. You should evaluate all forward-looking statements made in this Form 10-K in the context of these risks and uncertainties.

We caution you that the important factors referenced above may not contain all of the factors that are important to you. In addition, we cannot assure you that we will realize the results or developments we expect or anticipate or, even if substantially realized, that they will result in the consequences or affect us or our operations in the way we expect. The forward-looking statements included in this Form 10-K are made only as of the date hereof. We undertake no obligation to update or revise any forward-looking statement as a result of new information, future events or otherwise, except as otherwise required by law.

PART I

ITEM 1: Business

Unless otherwise specified, the terms "we", "our", "us" and the "Company" refer to Agiliti, Inc. and, where appropriate, its consolidated subsidiaries. The term "THL" refers to Thomas H. Lee Partners, L.P., our principal stockholder, and the term "THL Stockholder" refers to THL Agiliti LLC, an affiliate of Thomas H. Lee Partners, L.P.

Our Mission

Agiliti, Inc. is an essential service provider to the U.S. healthcare industry with solutions that help support a more efficient, safe and sustainable healthcare delivery system. We ensure healthcare providers have the critical medical equipment they need to care for patients—wherever and whenever it's needed—with a service model that helps lower costs, reduce waste and maintain the highest quality standard of medical device management in the industry. We are motivated by a belief that ***every interaction has the power to change a life***, which forms the cornerstone of how we approach our work and frames the lens through which we view our responsibility to make a difference for the customers, patients and communities we serve.

Overview

We believe we are one of the leading experts in the manufacturing, management, maintenance and mobilization of mission-critical, regulated, reusable medical devices. We offer healthcare providers a comprehensive suite of medical equipment management and service solutions that help reduce capital and operating expenses, optimize medical equipment utilization, reduce waste, enhance staff productivity and bolster patient safety.

We commenced operations in 1939, originally incorporated in Minnesota in 1954 and reincorporated in Delaware in 2001.

In our more than 80 years of experience ensuring healthcare providers have high-quality, expertly maintained equipment to serve their patients, we've established a nationwide operating footprint that supports our offering. This at-scale, local market service and logistics infrastructure positions us to reach customers across the entire healthcare continuum—from individual facilities to the largest and most complex healthcare systems. Our ability to rapidly mobilize, track, repair and redeploy equipment during times of peak need or emergent events has made us a service provider of choice for city, state and the federal government in the management of emergency equipment stockpiles.

Our diverse customer base includes more than 9,000 national, regional and local acute care hospitals, health systems and integrated delivery networks and alternate site providers (such as surgery centers, specialty hospitals, home care providers, long-term acute care hospitals and skilled nursing facilities). We serve the federal government as well as a number of city and state governments providing management and maintenance of emergency equipment stockpiles, and we are an outsourced service provider to medical device manufacturers supporting critical device remediation and repair services. We deliver our solutions through our nationwide network of more than 150 service centers and seven ISO 13485 Certified Centers of Excellence, among which we employ a team of more than 700 specialized biomed repair technicians, more than 4,000 field-based service operators who work onsite within customer facilities or in our local service centers, and over 200 field sales and account managers. Our fees are primarily paid directly by our customers rather than by direct reimbursement from third-party payors, such as private insurers, Medicare or Medicaid.

Industry Challenges

The U.S. healthcare industry continues to face transformative pressure that affects how provider organizations conduct business and serve their patients. Across the healthcare system, providers face compounding financial and operational challenges, including cost pressure from payors, nursing and clinical staff shortages, rising costs of drugs and supplies, increasing regulatory oversight, and advances in medical technology that generally result in higher prices for newer equipment and a higher cost of managing that equipment over its lifecycle. Given there is little that providers can do to change external dynamics, there is increased focus on areas within their enterprise that they can control. In our

experience, one area that most hospitals and health systems identify for operational and cost improvement is the management and maintenance of medical equipment.

Healthcare facilities have been shown to own large quantities of reusable capital equipment ranging from multi-million dollar highly technical devices (e.g. MRIs) to lower cost, high volume devices (e.g. infusion pumps) required for patient care, treatment and diagnosis. In our experience, providers often face challenges in managing their medical equipment inventory effectively. For example, hospitals typically utilize roughly 42% of their owned medical equipment inventory at any given time, yet caregivers report that they routinely lack access to readily available patient-ready equipment. Nurses report spending an average of 20 minutes per shift searching for equipment, and often less than 37% of their time on direct patient care. Operational silos that naturally occur among hospital departments create inadvertent breakdowns within equipment management workflows, from the administrators who order equipment, to the support staff who clean/reprocess and deliver the equipment, to the nurses and doctors who use the equipment.

Further, the repair and maintenance of this highly technical equipment continues to increase in complexity and cost. Over a period of 15 years from 1995 to 2010 there was a 62% increase in the number of medical devices per hospital bed and a 90% increase in costs related to maintaining this equipment (between 1995 and 2010). Given the increasingly complex nature of these devices and stringent regulatory mandates guiding their upkeep, specialized technical knowledge is required to repair and maintain them. Most healthcare facilities struggle to employ the in-house capabilities and resources needed to ensure timely, routine maintenance and rapid testing, repair and turnaround of their medical inventory which may impact time-to-therapy and patient safety, while driving up capital replacement costs on equipment that could have otherwise been kept operational with proper maintenance.

Finally, the healthcare system experiences seasonality in patient volumes, resulting in peak-need demand for specialized medical equipment (e.g. ventilators, specialty beds, infusion pumps). Given the common breakdowns in managing and maintaining their inventory during times of normal operation, hospitals face additional burden on equipment availability during times of peak need and will procure supplemental equipment through additional acquisition channels to fill this gap.

These challenges drive up significant costs and time delays within individual hospital facilities, but when multiplied across several hospitals and alternate site facilities within an integrated delivery network ("IDN"), the losses increase significantly. An average 2,500 bed IDN has been shown to waste more than $11 million annually on inefficient equipment maintenance and unnecessary capital purchases, while clinicians lose valuable patient time and productivity hours managing equipment needs.

These dynamics, supported by the following trends, further support the essential nature of our work:

Focus on reducing costs and increasing operational efficiency. Hospitals and other healthcare facilities continue to experience substantial pressure to conserve capital, reduce operating expenses and become more operationally efficient. We expect these pressures to continue in the future and believe that we will always be on the right side of healthcare reform. Our comprehensive, end-to-end solutions offer customers a way to realize costs savings while enhancing operational improvements for medical equipment access and availability, thereby improving their organizational efficiency and financial viability.

Demand for better patient safety and outcomes. Hospitals across the U.S. are focused on improving patient safety and outcomes, which includes efforts to minimize hospital-acquired conditions (e.g. infections, patient falls and pressure injuries) and increase nursing time at the patient bedside. Hospitals turn to us to assist them in managing their equipment in ways that have been shown to to help them to minimize these incidents and ensure equipment is available when and where it is needed for patient care, thereby improving patient safety and time to therapy, and supporting optimal patient outcomes.

Caregiver retention and satisfaction. Hospitals continue to experience pressure and risk related to nursing and other caregiver retention and job satisfaction pressures. According to reports from the World Health Organization, the United States is expected to have a nurse shortage of 500,000 nurses by 2025. Adding non-patient care duties, such as searching for, cleaning and managing equipment, adds to nurse workload and contributes to clinician dissatisfaction and turnover.

We expect that with these internal pressures, hospitals will increasingly turn to our programs to outsource healthcare technology management duties and related management processes to allow nurses more time to spend on patient care, resulting in improved job satisfaction.

Increased capital and operating expense pressures and regulatory compliance. Hospitals continue to experience restricted capital and operating budgets, while the cost and complexity of medical equipment increases. Furthermore, the increasing complexity and sophistication of medical equipment brings with it more recordkeeping requirements and regulatory scrutiny in its use and maintenance. We expect that hospitals will increasingly look to us to support the management and maintenance of their capital equipment inventory to achieve capital and operating expense savings, operating efficiencies and regulatory compliance.

Our Value Proposition

As a critical outsource partner to more than 9,000 U.S. healthcare customers, including most leading providers nationwide, we've tailored our solution offering and service model to address the unique challenges and opportunities we witness among our customers related to the effective management of medical equipment.

Our services help eliminate significant capital and operating costs associated with the ownership and lifecycle management of mission-critical medical equipment. In addition to optimizing use of providers' owned equipment, we provide ready access and increase the on-patient utilization of supplemental medical equipment to address fluctuations in patient census and patient acuity. By partnering with Agiliti, providers have the benefits of:

Cost savings and lower total costs of equipment ownership

- Increased utilization of both customer-owned and supplemental equipment
- Lower overall total cost of equipment ownership by combining our solutions to solve challenges across the end-to-end equipment management process
- Optimized management and logistics of provider-owned equipment through tracking, monitoring, reprocessing, maintaining, and ensuring equipment is safety-tested and redeployed for use
- Reduced maintenance and repair costs through the use of our proprietary technology, flexible staffing models, parts pool, equipment capabilities and diverse skill mix of knowledgeable equipment technicians and our commitment to quality
- Benefits of specialized technician labor to augment clinical biomed staff, having been shown to help reduce service costs and provide required technical proficiency to address more complex equipment types
- Access to our extensive data and expertise on the cost, performance, features and functions of all major items of medical equipment
- Assistance with capital planning, vendor management and regulatory compliance

More time to spend with patients and confidence in the availability of patient-ready medical equipment

- Increased productivity and satisfaction among nursing staff achieved by eliminating certain non-clinical work tasks and saving an average 300-bed hospital over 28,000 caregiver hours annually, allowing more time to focus on patient care responsibilities
- Improved time-to-therapy for patients at risk for falls, skin breakdown and bariatric safety by expediting delivery of therapeutic equipment direct to the patient room
- Access to supplemental moveable medical equipment, surgical equipment and next generation technology without the expense of acquisition on a pay-per-procedure basis

Improved regulatory compliance, risk management and extended use life

- Optimal maintenance intervals and parts replacement to extend equipment use life, reduce waste and lower obsolescence risk
- Compliance with regulatory and recordkeeping requirements and adherence to manufacturers' specifications on the reprocessing and maintenance of medical equipment
- Equipment quality assurance through the use of our comprehensive quality management system ("QMS") based on the quality standards recognized worldwide for medical devices: 21 CFR 820 and ISO 13485:2016
- Risk mitigation and lower costs associated with product recalls or device modifications

Technical expertise and supplemental staffing to sustain optimal equipment workflow

- Reduced administrative and time burdens on clinical staff related to managing and locating available equipment and coordinating among multiple vendors
- Specialized technical and clinical specialists that directly interact with and work alongside customers to optimize equipment outsourcing solutions

Our Market Opportunities

We participate in a $14 billion U.S. medical equipment services market comprised of the services we offer through our onsite managed services, clinical engineering services and equipment solutions service lines. We believe that this market will grow at mid-single digits annually.

Per the Centers for Medicare and Medicaid Services ("CMS"), as of 2020, healthcare spending reached $4.1 trillion, or $12,530 per person and accounted for 19.7% of the U.S. GDP. Spending is expected to grow at an average annual rate of 5.4% from 2019-2028, due to secular tailwinds including an aging population, rising acuity, and prevalence of chronic conditions.

There is a fundamental shift in the needs of health systems, hospitals and alternate site providers to move from supplemental and peak need sourcing of medical equipment toward more comprehensive onsite inventory management and maintenance solutions. As healthcare facilities look to balance the challenge of providing better care at lower costs, they are more open to third party partnerships that outsource critical but non-core support functions. The move toward full outsourcing is not unlike trends in similar services at hospitals including food service, laundry, professional staffing and technology.

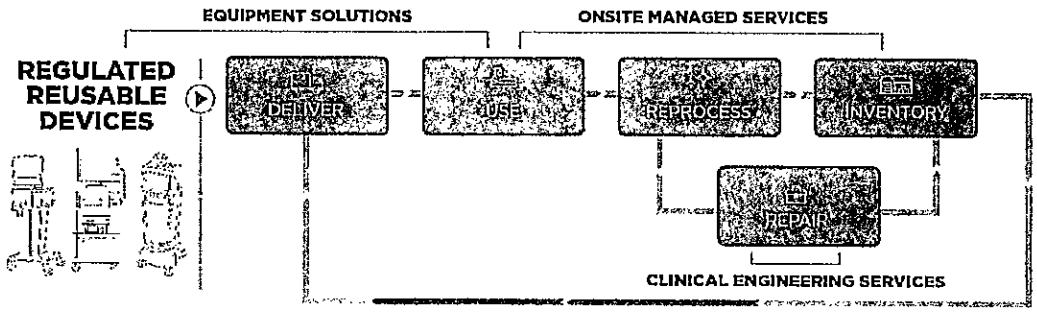
We believe there are several key macro trends that will drive increased demand for our products and services:

Favorable demographic trends. According to the U.S. Census Bureau, individuals aged 65 and older in the United States comprise the fastest growing segment of the population. This segment is expected to grow to approximately 81 million individuals by 2040. This represents a 44% increase in the 65-and-older segment of the population over the next 20 years. As a result, over time, the number of patients and the volume of hospital admissions are expected to grow. The aging population and increasing life expectancy are driving demand for healthcare services.

Increase in chronic disease and obesity. According to the Center for Disease Control and Prevention ("CDC"), six in ten Americans live with at least one chronic disease, like heart disease and stroke, cancer, or diabetes. These conditions often require specialty equipment to support therapeutic intervention in inpatient and outpatient care settings. In addition, obesity in the U.S. increased to 42.4% of the population between 2017-2018, up from 30.5% in 2000 (CDC). This population demands greater access to specialty bariatric equipment to support care and minimize the incidence of injury during a hospital stay.

Increased mergers & acquisitions. We have seen that hospitals and healthcare systems continue to expand their covered network and acquire alternate care delivery settings in order to care for patient populations in the most cost-

effective way. In our experience, providers are increasingly seeking partners that provide comprehensive services and that can quickly adapt to changing health system infrastructure and growth. Working with one vendor that can operate at a nationwide and system-wide scale is attractive to cities, states, and IDNs who operate, manage, and maintain equipment inventories across multiple locations.



Centralizing shared services across the IDN. Health systems with duplicate services across multiple facilities in close proximity have an increased risk of unnecessary variation, greater costs, and suboptimal outcomes. Many health systems have centralized and consolidated non-clinical services as a shared service, including billing, reimbursement, supply chain, human resources, IT, etc. We have witnessed a growing trend among IDNs to centralize and consolidate equipment maintenance and logistics among member facilities. In our experience, because most health systems do not currently have the storage, technical or transportation resources for managing a shared equipment management function, they will seek third party support to optimize equipment utilization, redeploy equipment where needed and reduce overall equipment costs.

Increase in infection control risks. Infection control remains an essential priority for hospitals and health systems as a way to limit the spread of hospital-acquired infections. This has further escalated as a top priority due to the COVID-19 pandemic. Most focus in this area is around hand hygiene, the proper use of personal protective equipment (PPE) and the reprocessing and sterilization of critical and semi-critical medical devices (e.g. surgical instruments, endoscopes). Often overlooked is the reprocessing of non-critical medical devices, such as infusion pumps and ventilators, that are commonly touched by caregivers and patients. If not properly cleaned and sanitized between patient use, these devices can pose increased infection control risks. We expect an increase in demand of onsite equipment management programs to address proper reprocessing of these types of devices and help lower infection risks and allow clinicians to spend more time at the patient bedside and less time cleaning equipment.

Our Solutions

We provide a comprehensive offering for the manufacturing, management, maintenance and mobilization of critical medical devices, built on an integrated service platform. Our solutions help reduce the cost and complexity of acquiring, managing and maintaining medical equipment inventories. The integrated nature of our offerings within our end-to-end service framework ensures we maximize value to over 9,000 customers nationwide as we address more aspects of the equipment lifecycle continuum.

While customers may initially engage with us across one aspect of our service lines within this framework, we employ a variety of land-and-expand tactics to grow our relationships and customer share-of-wallet over time. These tactics include:

- ***Gateway solutions*** which offer an entry point to the economic buyer and include peak needs equipment, surgical lasers and equipment, specialty beds and surfaces and supplemental clinical engineering services;
- ***Vertical solutions*** which provide a deeper level of service with clinical offerings tailored to specific patient needs (e.g. bariatrics, wound management, falls management) and clinical engineering programs for broad equipment categories (general biomedical devices, diagnostic imaging equipment, surgical instruments);
- ***Comprehensive, connected solutions*** through onsite managed services and outsourced clinical engineering services that connect previously fragmented customer workflow processes to drive operational efficiencies, realize improved clinician and equipment productivity, lower total cost of ownership, ensure regulatory compliance, reduce waste, improve time to therapy and allow customers to effectively lower costs; and
- ***Comprehensive logistics, management and clinical engineering solutions*** that allow IDNs to manage equipment inventories across multiple locations, and supports city, state and federal government agencies in managing and maintaining equipment stockpiles.

We deploy our solution offering across three primary service lines:

On-Site Managed Services: Onsite Managed Services are comprehensive programs that assume full responsibility for the management, reprocessing and logistics of medical equipment at individual facilities and IDNs, with the added benefit of enhancing equipment utilization and freeing more clinician time for patient care. This solution monitors and adjusts equipment quantities and availability to address fluctuations in patient census and acuity. Our more than 1,600 onsite employees work 24/7 in customer facilities, augmenting clinical support by integrating proven equipment management processes, utilizing our proprietary management software and conducting daily rounds and unit-based training to ensure equipment is being used and managed properly, overall helping to optimize day-to-day operations and care outcomes. We assume full responsibility for ensuring equipment is available when and where it is needed, removing equipment when no longer in use, and decontaminating, testing and servicing equipment as needed between each patient use. Revenue attributable to such customers represented 29% of our total revenue for both the years ended December 31, 2021 and 2020.

Clinical Engineering Services: Clinical Engineering Services provides maintenance, repair and remediation solutions for all types of medical equipment, including general biomedical equipment, diagnostic imaging equipment and surgical equipment through supplemental and outsourced offerings. Our supplemental offering helps customers manage their equipment repair and maintenance backlog, assist with remediation and regulatory reporting and temporarily fill open biotechnical positions. With our outsourced offering, we assume full management, staffing and clinical engineering service responsibilities for individual or system-wide customer sites. The outsourced model deploys a dedicated, on-site team to coordinate the management of customer-owned equipment utilizing our proprietary information systems, third party vendors of services and parts, and a broad range of professional services for capital equipment planning and regulatory compliance. We leverage more than 700 technical resources from our over 150 local market service centers and seven Centers of Excellence to flex staff in and out of customer facilities on an as-needed basis, ensuring customers pay only for time spent directly servicing their equipment by an appropriately qualified technician. We use flex staffing for our supplemental clinical engineering solution and to augment support when additional technicians are needed to supplement our outsourced services during peak workload. We contract our Clinical Engineering Services with acute care and alternate site facilities across the U.S., as well as with the federal government and any medical device manufacturers that require a broad logistical footprint to support their large-scale service needs. Revenue attributable to such customers for the years ended December 31, 2021 and 2020 represented 37% and 33% of our total revenue, respectively.

Equipment Solutions: Equipment Solutions primarily provides supplemental, peak need and per-case rental of general biomedical, specialty, and surgical equipment to acute care hospitals and alternate site providers in the U.S., including some of the nation's premier healthcare institutions and integrated delivery networks. We contract for Equipment Solutions services directly with customers or through our contractual arrangements with hospital systems and alternate site providers. We consistently achieve high customer satisfaction ratings, as evidenced by our Net Promotor Score ("NPS") of 55 for the year ended December 31, 2021, by delivering patient-ready equipment within our contracted equipment delivery times and by providing technical support and educational in-servicing for equipment as-needed in clinical departments, including the emergency room, operating room, intensive care, rehabilitation and general patient care areas. We are committed to providing the highest quality of equipment to our customers, and we do so through the use of our comprehensive QMS which is based on the quality standards recognized worldwide for medical devices: 21 CFR 820 and ISO 13485:2016. This commitment ensures that customers have access to patient-ready equipment with the confidence of knowing it bas been prepared and maintained to the highest industry standard to deliver optimal patient safety and outcomes. Revenue attributable to such customers for the years ended December 31, 2021 and 2020 represented 34% and 38% of our total revenue, respectively.

Many of our customers have multiple contracts and have revenue reported in multiple service lines. Our contracts vary based upon service offering, including with respect to term (with most being multi-year contracts), pricing (daily, monthly and fixed fee arrangements) and termination (termination for convenience to termination for cause only). Many of our contracts contain customer commitment guarantees and annual price increases tied to the consumer price index. Standard contract terms include payment terms, limitation of liability, force majeure provisions and choice of law/venue.

Because we work closely with customers to provide a long-term, value-based solution versus a product-based, transactional approach, they are motivated to expand their relationships with us over time. With approximately 75% white space within our current customers, we have demonstrated an ability to grow revenue up to 5-6x with existing customers as they move toward our full suite of highly complementary services. From the year ended December 31, 2015 to the year ended December 31, 2021, our top 50 customers that experienced the largest growth in revenue over the same period increased in revenue from an aggregate of approximately $22.2 million to approximately $135.4 million (with increases at each customer ranging from $1.2 million to $7.1 million and an average increase of $2.3 million, and with consistent growth across our three primary service lines), primarily driven by our efforts to expand our share of wallet within our existing customer base.

Further, the infrastructure and capabilities required to provide connected, responsive equipment lifecycle management is typically cost-prohibitive, even for large IDNs. Our nationwide network of clinical engineers, storage and repair facilities, vehicles and analytics tools gives us scale to provide cost-effective services for individual facilities, systems, regional IDNs, governments and device manufacturers.

Competitive Strengths

We believe our business model presents an attractive value proposition to our customers and that our comprehensive medical device management solutions and ability to work in partnership with and across Original Equipment Manufacturers ("OEMs") as a device-agnostic service provider have contributed to our growth in recent years. Our unique framework for end-to-end medical equipment management, delivered through our nationwide service and logistics infrastructure, differentiates us in the marketplace and is without comparable peers. We believe our more than 80 years of experience, extensive employee base of trained technicians and our reputation for service excellence has earned us a leading position in our industry. We attribute our historical success to our:

Strong value proposition. With our focus and expertise in connected, end-to-end medical equipment management and service solutions, we offer a compelling customer value proposition. We believe that many of our customers have come to rely on our ability to respond quickly to their needs with reliable, high quality products and service expertise. We believe our ability to provide this level of service distinguishes us from our competitors. It also requires us to maintain inventories and infrastructure that we do not believe our competitors currently maintain. Our comprehensive solutions focus on helping customers:

- lower total cost of device ownership by reducing capital and operating costs related to owning and managing medical equipment;
- enhance operational productivity and staff satisfaction by ensuring equipment is available when and where needed; and
- maintain high standards of quality and regulatory compliance related to medical equipment use, maintenance and end-of-life disposal.

Large, nationwide infrastructure. We have a broad and specialized nationwide staff, facility, and vehicle service network coupled with focused and customized operations at the local level. Our extensive network of service centers and Centers of Excellence and our 24-hours-a-day, 365 days-a-year service capabilities enable us to compete effectively for large, national contracts as well as drive growth regionally and locally.

We employ a number of technical, clinical and surgical specialists that engage directly with our customers to drive improved cost, efficiency and clinical outcomes. These include over 700 biomedical repair technicians, more than 4,000 field-based service operators, and over 200 field sales and account managers. Our specialized teams, large equipment fleet, and quality assurance programs have been built over 80 years serving provider customers and represent a significant investment in infrastructure over time. This places us in a unique and hard-to-replicate position with the scale to serve the most complex acute care hospitals, such as teaching, research or specialty institutions, that demand access to current and preferred technologies to meet the complex needs of their patients.

Proprietary software and asset management tools. We have used our more than 80 years of experience and our extensive database of equipment management information to develop sophisticated software technology and management tools. These tools enable us to meet unique customer demands by supporting sophisticated onsite managed services that help drive cost efficiencies and equipment productivity for caregivers. We believe that our ongoing investment in new tools and technology will help continue to distinguish our offerings to the healthcare industry.

Commitment to quality. Class I and II medical devices are designed, manufactured, and distributed from our Sizewise manufacturing facilities. Each of the United States-based facilities that produce finished goods is registered with the FDA and follows strict quality guidelines in accordance with 21 CFR 820. The Hays, KS, Ellis, KS, and Corona, CA Sizewise manufacturing facilities are ISO 1385:2016 compliant, and the two Kansas facilities are certified by Intertek; the California facility is pending certification. A dedicated quality team oversees the Quality Management System (QMS) at these locations.

Agiliti also services and repairs medical devices manufactured by other OEMs. Third-party service providers like Agiliti are not required to register their sites with the FDA; therefore, there are no regulations that specifically apply to our maintenance of medical devices. We've made a commitment, however, to do the right thing for our customers and their patients by staffing a dedicated Quality team and implementing a QMS based on the quality standards recognized

worldwide for medical devices: 21 CFR 820 and ISO 13485:2016. This commitment to quality ensures that patient safety and risk management are at the center of every product decision, and that our equipment is serviced to the highest standards in the industry. Over 90 local market service centers, eight government service centers, and seven Centers of Excellence follow an ISO 13485:2016 ccertified QMS, and we have elected to hire outside independent accredited registrars to audit our quality system. British Standards Institute ("BSI") has certified over 90 of our local market service centers, eight government service centers, and five of our Centers of Excellence to ISO 13485:2016, the remaining two Centers of Excellence are certified by Deutscher Kraftfahrzeug-Überwachungs-Verein e.V. ("Dekra") and National Quality Assurance ("NQA"). We believe that ISO 13485:2016 provides the stringent guidelines specific to medical devices to ensure that our fleet of equipment, as well as the equipment we service, is maintained to the highest quality standards. Our commitment to quality extends to our exclusive use of OEM parts to repair FDA 510(k) registered medical devices that we own, whenever available. Implementing optimal maintenance intervals and parts replacement extends equipment use life, thereby reducing waste and lowering risk of obsolescence. We believe that our robust QMS policies set us apart in our industry from those who may use less stringent quality practices on the equipment they own or maintain.

Superior customer service. We believe we have a long-standing reputation among our customers for outstanding service and quality. This reputation is largely attributable to our strong customer service culture, which is continuously reinforced by management's commitment to, and significant investment in, hiring and training resources. We strive to seamlessly integrate our employees and solutions into the operations of our customers. We believe that our aggressive focus on the overall customer experience has helped us achieve high customer satisfaction ratings, as evidenced by our NPS of 55 for the year ended December 31, 2021.

Low direct third-party payor reimbursement risk. Many healthcare providers rely on direct payment from patients or reimbursement from third-party payors. Our fees are primarily paid directly by our customers, rather than by third-party payors, such as Medicare, Medicaid, managed care organizations or indemnity insurers. Accordingly, our exposure to uncollectible patient or reimbursement receivables or Medicare or Medicaid reimbursement changes is reduced, as evidenced by our bad debt expense of approximately 0.2%, 0.3%, and 0.2% of total revenue for the years ended December 31, 2021, 2020, and 2019, respectively.

Values driven culture centered on doing the right thing for our many stakeholders. Our team operates on a set of shared aspirations that reflect the manner in which we approach our work and serve the needs of our customers, team members, shareholders and local communities. We believe these aspirations that underpin our culture, strategy and service model help contribute to a safer and more sustainable healthcare system and frame the cornerstone of our success:

WE ARE BUILDING THE PREMIER CLINICAL EQUIPMENT SERVICES COMPANY. We ensure clinicians have the equipment they need, when they need it, with the confidence it is maintained to the highest industry standards. We never waver from doing what is right for our customers, our team members, and our shareholders.

WE ARE ESSENTIAL TO CUSTOMERS. We are dependable, trusted advisors—steadfast in our commitments and ready to serve. We deliver a unique and valuable offering that helps customers improve their business and prioritize patient care.

WE ARE EMPOWERED AND ENGAGED. We lead by example, inspiring one another to be at our best, to be accountable, and to develop with purpose. We value our diversity, knowing different perspectives lead to better outcomes. We share a common drive to make a difference and take pride in being part of something bigger than ourselves.

WE ARE OPERATIONALLY EXCELLENT. We demonstrate a tireless commitment to quality, reliability, and continuous improvement. We demand of ourselves the highest degree of accuracy, efficiency and integrity in order to deliver exceptional service to our customers and their patients.

WE ARE CREATING A CATEGORY OF ONE. Together, we are building a highly differentiated service company that is the vendor of choice for customers and an employer of choice nationwide.

Highly engaged team. We believe a strong and sustainable company begins with an engaged and empowered team. We are committed to investing in our team's development and to fostering a culture of diversity, inclusion, trust and transparency. Approximately 41% of our total work force is comprised of minorities and approximately 29% of our team members are female. Since 2018, we have consistently had an annual internal promotion rate of approximately 29%, compared to the national average of 8.9%, as reported by ADP Research Institute. We offer competitive compensation and benefits programs, and we ensure our team members share in the success of our business with a companywide annual bonus program and an Employee Stock Purchase Plan. We strive to ensure Agiliti is a place where our people are proud to work, and we achieve that by listening to feedback and taking active steps to improve. In 2021, we achieved a 77 employee engagement score rating, which places us nearing the extraordinary company benchmark according to third-party engagement indices.

Proven management team. Our diverse and industry leading management team brings decades of executive-level healthcare expertise from across the sector and has successfully supervised the development of our competitive strategy, continually enhanced and expanded our service and product offerings, reinforced our nationwide operating footprint and furthered our reputation as an industry leader in our category.

Key Elements of our Growth Strategy

Retain and expand existing customer relationships. While our overall market opportunity is large, there is also significant expansion opportunity within our existing customers. We currently have 25% wallet share within our existing contracted customers and have demonstrated the ability to grow our wallet share among existing customers by expanding the services we provide to them over time. From the year ended December 31, 2015 to the year ended December 31, 2021, our top 50 customers that experienced the largest growth in revenue over the same period increased in revenue from an aggregate of approximately $22.2 million to approximately $135.4 million (with increases at each customer ranging from $1.2 million to $7.1 million and an average increase of $2.3 million, and with consistent growth across our three primary service lines), primarily driven by our efforts to expand our share of wallet within our existing customer base.

Grow our customer base among customers that outsource. We believe there is a significant opportunity to further grow our business by winning new customer contracts within the $5.85 billion that is contracted annually for medical equipment management services in the U.S. This is less than half of the total addressable market and, due to increasing pressures that providers are facing, we expect outsourcing to significantly accelerate. As a leader in our industry, we believe we are poised to take advantage of this continued shift.

Grow our serviceable market by contracting with those that insource today. Currently, we estimate that $14 billion is spent annually in the U.S. for medical equipment services and functionality, but less than half of the total market is currently being outsourced to an equipment management service, while the rest is done in-house in facilities. We believe that as we reach additional potential customers with demonstrated value both in improved patient care and reduced costs, we can grow our total addressable market by contracting with new clients that were not previously outsourcing device management services. Further, this market is also experiencing tailwinds that make the total addressable market, the total contracted market, and our own contracts with ongoing customers poised to continue to expand. These tailwinds include increasing overall provider volumes, increasing use and complexity of medical devices, increasing outsourcing by hospitals, and additional factors that we believe will continue to drive growth.

Invest in complementary offerings that enhance customer relationships. As the medical device field becomes increasingly complex and the number of devices used per patient on average increases over time, we are constantly evaluating additional services and methods of approaching service delivery that increase value for our clients. As an example, this has recently taken the form of expanding our work with federal, state, and local governments to help them maintain and mobilize strategic stockpiles of ventilators and other critical medical equipment.

Opportunistically pursue accretive M&A. Due to our high and sustained value creation for customers and significant white space with existing customer relationships, we believe that pursuing opportunistic M&A will drive increasing returns through embedded customer relationships. From 2015-2021, we have successfully integrated nine acquisitions and will continue to opportunistically pursue additional inorganic growth.

Recent Acquisitions

Northfield Acquisition

On October 28, 2020, we entered into a stock purchase agreement to acquire 100% of the issued and outstanding capital stock of Northfield Medical ("Nortbfield Medical") a nationwide provider of surgical equipment repair services for $475.0 million, subject to adjustments (the "Northfield Acquisition"). Northfield Medical provides service and repair of medical devices, specializing in the repair of endoscopes, surgical instruments and other operating room equipment. The acquisition closed on March 19, 2021.

Sizewise Acquisition

On September 14, 2021, we entered into a definitive agreement to acquire Sizewise Rentals, LLC ("Sizewise"), a privately held manufacturer and distributor of specialty patient handling equipment, in a stock purchase transaction valued at $230 million. (the "Sizewise Acquisition"). Sizewise is a leading manufacturer and provider of specialized bed frames, therapeutic surfaces and mobility equipment serving customers in the acute and post-acute care markets with products that address the needs of bariatric, geriatric, pediatric and standard patient populations. The Company completed the acquisition on October 1, 2021.

COVID-19 Update

COVID-19 has placed our customers, business, teams and communities in uncharted waters. We consider the impact of the pandemic on our business by evaluating the health of our operations, changes to our revenue outlook, and the degree to which perceptions of and need for Agiliti solutions have evolved during this unprecedented time. As demand for emergent acute care increases around the country and as the global pandemic highlights the importance of resilient supply chains and service networks, the importance of our services has been magnified. We are proud to have rapidly developed and deployed a response plan to ensure the safety of our team, while continuing to meet our customers' evolving needs for patient-ready medical equipment when and where it was needed; notably, doing so without service interruptions.

We believe our value proposition now resonates with an even broader audience of customers as providers, IDNs and governments prepare for potential future surges in demand for acute care and the required equipment necessary to care for patients.

Specifically, during the COVID-19 pandemic, we have:

- fully and rapidly deployed our fleet of medical devices and accessories across the U.S. to ensure they are reaching the maximum number of patients;
- leveraged our logistics, inventory management, and maintenance/repair infrastructure to work with medical device brokers and manufacturers to make thousands of additional critical medical devices available to healthcare facilities;
- deployed our local biomedical repair teams to augment teams at hospitals around the country to ensure their owned medical equipment remains fully operational and available for patient needs;
- redeployed teams from our over 150 local service centers to support surge medical capacity in parks, gymnasiums, and hotel rooms across the country;
- been awarded a new contract to leverage our unique scale and capabilities to manage the maintenance and field repair of the national strategic ventilator stockpile; we are likewise working with various state and municipal governments to manage and mobilize their centralized and local medical device stockpiles; and
- prioritized the care and safety of our employees who are essential to helping our customers meet patient care needs. We committed to avoid COVID-19 related layoffs or furloughs and bridge the income of our team members with variable net pay for the duration of the pandemic. As many of our team members entered high-exposure environments each day, we ensured all had the necessary PPE, guidelines, training and support from the highest levels of the company. We provided 100% coverage for COVID-19 testing and telemedicine, extended short-term medical leave and disability coverage related to COVID-19, and

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☐ No ☒

If this report is an annual or transition report, indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934. Yes ☐ No ☒

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer or an emerging growth company. See definition of "large accelerated filer," "accelerated filer" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐	Accelerated filer ☒	Non-accelerated filer ☐	Emerging growth company ☒

If an emerging growth company that prepares its financial statements in accordance with U.S. GAAP, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards† provided pursuant to Section 13(a) of the Exchange Act. ☐

† The term "new or revised financial accounting standard" refers to any update issued by the Financial Accounting Standards Board to its Accounting Standards Codification after April 5, 2012.

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report. ☐

Indicate by check mark which basis of accounting the registrant has used to prepare the financial statements included in this filing:

U.S. GAAP ☐	International Financial Reporting Standards as issued by the International Accounting Standards Board ☒	Other ☐

If "Other" has been checked in response to the previous question, indicate by check mark which financial statement item the registrant has elected to follow: Item 17 ☐ Item 18 ☐

If this is an annual report, indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

GENERAL

Amryt is a global commercial-stage biopharmaceutical company focused on acquiring, developing and commercializing innovative treatments to help improve the lives of patients with rare and orphan diseases. Amryt comprises a strong and growing portfolio of commercial and development assets.

As used herein, references to "we," "us," "Amryt" or the "Group" in this annual report on Form 20-F shall mean Amryt Pharma plc and its global subsidiaries, collectively. References to the "Company" in this annual report shall mean Amryt Pharma plc.

This annual report includes the following historical financial information, presented in US Dollars:

- the audited consolidated financial statements of Amryt as of December 2021 and 2020 and for the years ended December 31, 2021, 2020 and 2019, prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB") (our "audited consolidated financial statements");

All references in this annual report to "€" mean Euros, all references to "£" mean pounds sterling and all references to "$" mean U.S. dollars. Except as otherwise stated herein, all monetary amounts in this annual report have been presented in US Dollars. For presentation purposes all financial information, including comparative figures from prior periods, have been stated in round thousands, unless otherwise indicated.

On May 5, 2021, Amryt announced that it had signed a definitive agreement to acquire Chiasma, Inc. in an all-stock combination. Under the terms of the transaction, each share of Chiasma common stock issued and outstanding prior to the consummation of the transaction was exchanged for 0.396 Amryt American Depositary Shares ("ADSs"), each representing five Amryt ordinary shares. The merger agreement provided that, upon the terms and subject to the conditions set forth in the merger agreement, at the effective time, Amryt Merger Sub, an indirect wholly owned subsidiary of Amryt, merged with and into Chiasma with Chiasma surviving as an indirect wholly owned subsidiary of Amryt subsequently renamed Amryt Endo, Inc. which then ceased to be a publicly traded company.

On August 5, 2021, Amryt completed the acquisition of Chiasma, Inc. and, in conjunction with the completion, Amryt allotted and issued a total of 127,733,680 ordinary shares as consideration for the acquisition. Following the completion, shareholdings in Chiasma were rounded in being converted to Amryt shares using the exchange ratio of 0.396. Roundings in converting Chiasma shareholdings to Amryt shares were finalized in August 2021 and resulted in an additional 7,015 ordinary shares being allotted and issued by Amryt as consideration for the acquisition. In total, these ordinary shares were issued to the former Chiasma Shareholders in the form of 25,548,139 ADSs at US$10.19 per share, to acquire Chiasma for a value of US$260,336,000. On August 5, 2021, the Group repaid US$116,629,000 of Chiasma long term debt. Through the acquisition of Chiasma, Inc, we acquired our third commercial product, Mycapssa® (octreotide capsules) which is approved in the US for long-term maintenance therapy in acromegaly patients who have responded to and tolerated treatment with octreotide or lanreotide. Mycapssa® is the first and only oral somatostatin analog approved by the FDA. Mycapssa® has also been submitted to the EMA and is not yet approved in Europe.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This annual report contains forward-looking statements concerning our business, operations and financial performance and condition, as well as our plans, objectives and expectations for our business operations and financial performance and condition. Any statements contained herein that are not statements of historical facts may be deemed to be forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as "aim," "anticipate," "assume," "believe," "contemplate," "continue," "could," "due," "estimate," "expect," "goal," "intend," "may," "might," "objective," "plan," "predict," "potential," "positioned," "seek," "should," "target," "will," "would," and other similar expressions that are predictions of or indicate future events and future trends, or the negative of these terms or other comparable terminology, although not all forward-looking statements contain these identifying words.

By their nature, forward-looking statements involve risk and uncertainty because they relate to future events and circumstances. Forward-looking statements are not guarantees of future performance and have not been reviewed by our auditors. Actual results and developments could differ materially from those expressed or implied by the forward-looking statements due to a variety of factors, including, but not limited to, those identified under the section titled "Risk Factors" in this annual report.

These risks and uncertainties include factors related to:

- our significant operating losses since our inception and ability to obtain and maintain profitability in the future;
- our commercial products, including statements regarding the expected strategies and profitability thereof;

Copyright © 2022 www.secdatabase.com. All Rights Reserved.
Please Consider the Environment Before Printing This Document

- our product candidates, including statements regarding the expected initiation, timing, progress and availability of data from clinical trials;
- our ability to successfully commercialize, or enter into strategic relationships with third parties to commercialize, our products or product candidates, if approved;
- our ability to acquire or in-license new product candidates;

Copyright © 2022 www.secdatabase.com. All Rights Reserved.
Please Consider the Environment Before Printing This Document

Table of Contents

- our competition, most of whom have far greater resources than we have, which may make it more difficult for us to achieve significant market penetration;
- the size of our addressable markets and market trends;
- potential strategic relationships;
- our ability to obtain and maintain intellectual property rights;
- the impact of potential fluctuations in foreign currency exchange rates; and
- estimates regarding expenses, future revenues, capital requirements and the need for additional financing.

The preceding list is not intended to be an exhaustive list of all of our risks and uncertainties. As a result of these factors, we cannot assure you that the forward-looking statements in this annual report will prove to be accurate. Furthermore, if our forward-looking statements prove to be inaccurate, the inaccuracy may be material. In light of the significant uncertainties in these forward-looking statements, you should not regard these statements as a representation or warranty by us or any other person that we will achieve our objectives and plans in any specified time frame, or at all.

In addition, statements that "we believe" and similar statements reflect our beliefs and opinions on the relevant subject. These statements are based upon information available to us as of the date of this annual report, and while we believe such information forms a reasonable basis for such statements, such information may be limited or incomplete, and our statements should not be read to indicate that we have conducted an exhaustive inquiry into, or review of, all relevant information. These statements are inherently uncertain and investors are cautioned not to unduly rely upon these statements.

The forward-looking statements and opinions contained in this annual report are based upon information available to us as of the date of this annual report and, while we believe such information forms a reasonable basis for such statements, such information may be limited or incomplete, and our statements should not be read to indicate that we have conducted an exhaustive inquiry into, or review of, all potentially available relevant information. The forward-looking statements contained in this annual report speak only as of the date of this annual report, and we do not undertake any obligation to update them in light of new information or future developments or to release publicly any revisions to these statements in order to reflect later events or circumstances or to reflect the occurrence of unanticipated events.

You should read this annual report and the documents referenced herein and have filed as exhibits to the registration statement, of which this annual report forms a part, completely and with the understanding that our actual future results may be materially different from expectations. We qualify all forward-looking statements in this annual report by these cautionary statements.

MARKET AND INDUSTRY DATA

This annual report contains estimates, projections and other information concerning our industry, our business and the markets for our products and product candidates. Information that is based on estimates, forecasts, projections, market research or similar methodologies is inherently subject to uncertainties, and actual events or circumstances may differ materially from events and circumstances that are assumed in this information. Unless otherwise expressly stated, we obtained this industry, business, market and other data from our own internal estimates and research as well as from reports, research surveys, studies and similar data prepared by market research firms and other third parties, industry, medical and general publications, government data and similar sources. Management estimates are derived from publicly available information, our knowledge of our industry and assumptions based on such information and knowledge, which we believe to be reasonable.

In addition, assumptions and estimates of our and our industry's future performance are necessarily subject to a high degree of uncertainty and risk due to a variety of factors, including those described in "Risk Factors." These and other factors could cause our future performance to differ materially from our assumptions and estimates. See "Special Note Regarding Forward-Looking Statements."

TRADEMARKS

The Amryt logo, Myalept®, Myalepta®, Juxtapid®, Lojuxta®, Episalvan®, Filsuvez®, Oleogel-S-10, Mycapssa®, TPE® and other trademarks or service marks of Amryt appearing in this annual report are the property of Amryt. This annual report includes trademarks, tradenames and service marks, certain of which belong to us and others that are the property of other organizations. Solely for convenience, trademarks, tradenames and service marks referred to in this annual report appear without the ®, TM and SM symbols, but the absence of those symbols is not intended to indicate, in any way, that we will not assert our rights or that the applicable owner will not assert its rights to these trademarks, tradenames and service marks to the fullest extent under applicable law. We do not intend our use or display of other parties' trademarks, trade names or service marks to imply, and such use or display should not be construed to imply a relationship with, or endorsement or sponsorship of us by, these other parties.

Table of Contents

PART I

Item 1. *Identity of Directors, Senior Management and Advisers*

Not applicable.

Item 2. *Offer Statistics and Expected Timetable*

Not applicable.

Item 3. *Key Information*

The following selected historical consolidated financial data of Amryt Pharma as at December 31, 2021 and 2020 and for each of the years ended December 31, 2021, 2020 and 2019 have been derived from, and should be read in conjunction with, the audited consolidated financial statements and notes thereto set forth in Item 18 of this annual report. The selected historical consolidated financial data as at December 31, 2019 is derived from the audited consolidated financial statements not appearing in this annual report. This data should be read in conjunction with the financial statements, related notes and other financial information included elsewhere herein.

We have not included selected historical consolidated financial data for the years ended December 31, 2018, and 2017 in the table below as we qualify as an emerging growth company (an "Emerging Growth Company") as defined in Section 2(a)(19) of the Securities Act and we make use of an accommodation for reduced reporting.

D. Risk Factors

Our business is subject to a number of risks. You should carefully consider the risks and uncertainties described below and the other information in this annual report, including our consolidated financial statements and related notes. Our business, financial condition, results of operations or prospects could be materially and adversely affected if any of these risks occur, and as a result, the market price of our ADSs could decline.

Summary of Risk Factors

Our principal risks include the following:

- We have incurred significant operating losses since our inception and we may not achieve or maintain profitability in the future.
- Our future performance depends, in part, on our ability to successfully implement our strategy.
- We are dependent primarily on three products, lomitapide, Mycapssa® and metreleptin, to generate revenue and these products may not be successful and may not generate sales at anticipated levels.
- We may not be successful in our efforts to build a pipeline of product candidates and develop additional marketable products.
- We may need to raise additional funding, which may not be available on acceptable terms, or at all, and failure to obtain this capital when needed may force us to delay, limit or terminate our product development efforts or other operations or to delay payment on future obligations.
- The terms of our debt and any requirements to incur further indebtedness or refinance our indebtedness in the future could have a material adverse effect on our business and results of operations.
- Restrictive covenants in certain of the agreements and instruments governing our indebtedness may adversely affect our financial and operational flexibility.
- We face potential product liability exposure, and if claims are brought against us, we may incur substantial liability.
- Our global operations subject us to significant tax risks.
- The occurrence of cyber incidents, or a deficiency in cybersecurity, could negatively impact our business by causing a disruption to its operations, a compromise or corruption of confidential information, exposure to legal and regulatory action, or damage to our patient, partner or employee relationships, any of which could subject us to loss and reputational harm.
- We have faced, and we may continue to face, challenges integrating the businesses and operations of our company and Chiasma and, as a result, may not realize the expected benefits of the acquisition.
- Any future acquisitions we make may expose us, to risks that could adversely affect our business, and we may not achieve the anticipated benefits of acquisitions of businesses or technologies.
- Our assumptions and estimates regarding prevalence and the addressable markets for our products and product candidates may be inaccurate. If there are fewer actual patients than estimated, or if any product approval is based on narrower definitions of patient populations, our revenues and cash position could be materially and adversely affected.
- Our products may not gain market acceptance, in which case we may not be able to generate product revenues.

Copyright © 2022 www.secdatabase.com. All Rights Reserved.
Please Consider the Environment Before Printing This Document

- We face significant competition from other biotechnology and pharmaceutical companies.

Copyright © 2022 www.secdatabase.com. All Rights Reserved.
Please Consider the Environment Before Printing This Document

Table of Contents

- A number of adverse effects have been reported in clinical trials for metreleptin, lomitapide, oral octreotide and Oleogel-S10, and the prescribing information for each of lomitapide, metreleptin and oral octreotide contains significant limitations on use and other important warnings and precautions, any of which could negatively affect the market acceptance, dropout rates and marketing approval for these products, and post-marketing commitments could identify additional adverse events and safety or efficacy risks, which could further harm our business.

- Recent legislation and proposed federal regulations may permit reimportation of drugs from foreign countries into the United States where the drugs are sold at lower prices and this may adversely affect our operating results and overall financial condition.

- If we are unable to commercialize or receive regulatory approval for Oleogel-S10, or experience significant delays in doing so, or are not granted a Priority Review Voucher, our business could be materially harmed.

- Clinical trials are expensive, time consuming and difficult to design and implement and involve uncertain outcomes and, furthermore, results of earlier preclinical studies and clinical trials may not be predictive of results of future preclinical studies or clinical trials.

- Our product candidates may not work as intended, may cause undesirable side effects or may have other properties that could delay or prevent their regulatory approval, limit the commercial profile of an approved label, or result in significant negative consequences following marketing approval, if any.

- The regulatory approval processes of the EMA, the FDA and other comparable regulatory agencies may be lengthy and time consuming and the outcome is unpredictable.

- We may fail to obtain or maintain Orphan Drug marketing exclusivity for our products and product candidates and may face significant competitive threats to the commercialization of these compounds from other manufacturers.

- The laws and regulations in the areas of sales and marketing of pharmaceutical products, and interacting with healthcare professionals and patients, are very complex and onerous, and require a robust compliance program. Failure to comply with these laws and regulations could have a material adverse effect on our business, financial condition and results of operations.

- We are subject to extensive legal and compliance obligations as a pharmaceutical company that commercializes products, as well as under Aegerion's settlements with the DOJ, OIG, FDA, SEC and other federal and state government agencies.

- We rely on third parties to conduct clinical trials and registry studies and perform related services, and those third parties may not perform satisfactorily, including by failing to meet established deadlines for the completion of such clinical trials and compliance with post-marketing requirements.

- We depend on third-party manufacturers to produce the drug substance and the drug product for lomitapide, Mycapssa® and metreleptin, as well as the drug product for commercial supply and clinical trials. We also depend on third-party manufacturers to produce the drug product for Oleogel-S10. Even though we have reserve stock, interruption in supply could materially and adversely affect sales.

- If our third-party manufacturers are unable to comply with applicable regulatory requirements, unable to source sufficient raw materials, experience manufacturing or distribution difficulties, or are otherwise unable to manufacture and distribute sufficient quantities to meet demand, our commercialization efforts may be materially harmed.

- It may be challenging or costly for us to obtain, maintain, enforce and defend our intellectual property rights. Failure to obtain or protect these rights could adversely affect our business and our ability to compete.

- We may infringe or be alleged to infringe the intellectual property rights of others, which may prevent or delay product development and commercialization efforts, requiring us to expend resources on litigation or other resolutions, which may materially and adversely affect our business.

- If we fail to comply with our obligations in the license agreements for our products or are alleged to have breached such agreements, we could lose license rights that are important to our business, have to make additional payments to our licensors or become involved in costly litigation, which would further reduce cash resources.

Copyright © 2022 www.secdatabase.com. All Rights Reserved.
Please Consider the Environment Before Printing This Document

- An active and liquid market for our securities may fail to develop, which could harm the market price of our ADSs.
- The price and trading volume of our ADSs may be volatile, and purchasers of our ADSs could incur substantial losses.

Copyright © 2022 www.secdatabase.com. All Rights Reserved.
Please Consider the Environment Before Printing This Document

Table of Contents

- The Athyrium Funds hold a significant interest in our company and may be able to influence matters relating to our business.
- We will incur significant increased costs as a result of operating as a U.S. listed public company, and our management will be required to devote substantial time to new compliance initiatives.
- As a "foreign private issuer," we are exempt from a number of rules under the U.S. securities laws and the Nasdaq rules, and we are permitted to file less information with the SEC than are U.S. companies. In addition, we are permitted and expect to follow certain home country corporate governance practices in lieu of certain Nasdaq requirements applicable to domestic issuers. This may make our ADSs and ordinary shares less attractive to investors.

Risks Related to our Business, Financial Condition and Capital Requirements

We have incurred significant operating losses since our inception and we may not achieve or maintain profitability in the future.

To date, we have financed our operations primarily through a combination of revenues from sales of our commercialized products and the sale of our equity securities and convertible bonds. We have incurred operating losses since our inception, including net losses of $50.5 million, $46.5 million and $38.6 million for the years ended December 31, 2019, 2020 and 2021, respectively. Aegerion incurred losses since its inception, including net losses of $96.5 million and $30.9 million for the year ended December 31, 2018, and the six-month period ended June 30, 2019. Chiasma incurred losses since its inception, including net losses of $74,7 million and $50.4 million for the year ended December 31, 2020, and the six-month period ended June 30, 2021. We have devoted most of our financial resources to the acquisition of attractive commercial and near-commercial rare disease assets and research and development. We anticipate that we will continue to incur significant costs associated with the continued commercialization of lomitapide, Mycapssa® and metreleptin, and in connection with ongoing clinical development efforts and post-marketing commitments for these products as well as the continued development of our product candidates. The amount of our future net losses will depend, in part, on the rate of our future expenditures, our ability to continue generating adequate revenues from sales of lomitapide, Mycapssa® and metreleptin and from sales of Oleogel-S10 if approved, and our ability to obtain funding through equity or debt offerings, grant funding, collaborations, strategic partnerships and/or licensing arrangements. If we do become profitable, we may not be able to sustain or increase our profitability on a quarterly or annual basis.

Our future performance depends, in part, on our ability to successfully implement our strategy.

Our future success will depend on our ability to implement our strategy to develop and expand our existing portfolio of drugs to treat patients with rare diseases and to create a rare disease company with a diversified offering of multiple development stage and commercial assets that can provide us with scale to support future growth. The success of our strategy depends, in part, on our ability to drive growth in existing territories and access and drive growth in new territories and indications with existing commercial assets, build a franchise in EB through our lead product candidate, Oleogel-S10 (Filsuvez), and our product candidate AP103, based on our novel polymer-based topical gene therapy delivery platform, expand the indication of Mycapssa® (octreotide capsules) beyond acromegaly into carcinoid syndrome associated with neuroendocrine tumors and expand and diversify our product portfolio through acquisition and in-licensing opportunities. This strategy will require us to, among other things, identify suitable targets, conduct and complete clinical trials, obtain the necessary consents and authorizations for our products and any product candidates, conduct diligence, carry out any acquisition or in-licensing transaction and obtain suitable financing.

Implementing our strategy requires substantial time and resources from our management team. Our Board and management may not be able to successfully implement our strategy or other strategies to be developed by management, and implementing these strategies may not sustain or improve, and could even harm, our business, financial condition, results of operations and prospects. We may be unable to realize the anticipated benefits and synergies of our business strategies, which are based on assumptions about future demand for our current products and product candidates, as well as on our continuing ability to produce our products profitably. Consequently, any predictions made about our future success or viability may not be as accurate as they could be if we had a longer operating history or additional products on the market.

We are dependent primarily on three products, lomitapide, Mycapssa® and metreleptin, to generate revenue and these products may not be successful and may not generate sales at anticipated levels.

Our ability to meet expectations with respect to sales of lomitapide, Mycapssa® and metreleptin, and to generate revenues from such sales, and attain and maintain positive cash flow from operations, in the time periods anticipated, or at all, will depend on a number of factors, including, among others:

Copyright © 2022 www.secdatabase.com. All Rights Reserved.
Please Consider the Environment Before Printing This Document

- the ability to continue to maintain and grow market acceptance for lomitapide, Mycapssa® and metreleptin among healthcare professionals and patients in the United States, European Union and other key markets for the treatment of approved indications;

EXHIBIT 99.1

Results of Annual General Meeting

DUBLIN, Ireland, and Boston MA, July 1, 2022, Amryt (Nasdaq: AMYT), a global, commercial-stage biopharmaceutical company focussed on acquiring, developing and commercializing novel treatments for rare diseases, is pleased to announce that all resolutions presented to shareholders at yesterday's Annual General Meeting were duly passed.

The full text of each resolution was included in the notice of the General Meeting posted to shareholders on June 1, 2022, and is available on the Company's website www.amrytpharma.com.

About Amryt

Amryt is a global commercial-stage biopharmaceutical company focused on acquiring, developing and commercializing innovative treatments to help improve the lives of patients with rare and orphan diseases. Amryt comprises a strong and growing portfolio of commercial and development assets.

Amryt's commercial business comprises three orphan disease products – metreleptin (Myalept®/ Myalepta®); oral octreotide (Mycapssa®); and lomitapide (Juxtapid®/ Lojuxta®).

Myalept®/Myalepta® (metreleptin) is approved in the US (under the trade name Myalept®) as an adjunct to diet as replacement therapy to treat the complications of leptin deficiency in patients with congenital or acquired generalized lipodystrophy (GL) and in the EU (under the trade name Myalepta®) as an adjunct to diet for the treatment of leptin deficiency in patients with congenital or acquired GL in adults and children two years of age and above and familial or acquired partial lipodystrophy (PL) in adults and children 12 years of age and above for whom standard treatments have failed to achieve adequate metabolic control. For additional information, please follow this link.

Mycapssa® (octreotide capsules) is approved in the US for long-term maintenance therapy in acromegaly patients who have responded to and tolerated treatment with octreotide or lanreotide. Mycapssa® is the first and only oral somatostatin analog approved by the FDA. Mycapssa® has also been submitted to the EMA and is not yet approved in Europe. For additional information, please follow this link.

Juxtapid®/Lojuxta® (lomitapide) is approved as an adjunct to a low-fat diet and other lipid-lowering medicinal products for adults with the rare cholesterol disorder, Homozygous Familial Hypercholesterolaemia ("HoFH") in the US, Canada, Colombia, Argentina and Japan (under the trade name Juxtapid®) and in the EU, Israel, Saudi Arabia and Brazil (under the trade name Lojuxta®). For additional information, please follow this link.

Amryt's lead development candidate, Oleogel-S10 is a potential treatment for the cutaneous manifestations of Junctional and Dystrophic Epidermolysis Bullosa (EB), a rare and distressing genetic skin disorder affecting young children and adults. Filsuvez® has been selected as the brand name for Oleogel-S10. Filsuvez® has been approved by the EC in the EU for the treatment of partial thickness wounds associated with dystrophic and junctional EB in patients 6 months and older.

Amryt's pre-clinical gene therapy candidate, AP103, offers a potential treatment for patients with Dystrophic EB, and the polymer-based delivery platform has the potential to be developed for the treatment of other genetic disorders.

Amryt also intends to develop oral medications that are currently only available as injectable therapies through its Transient Permeability Enhancer (TPE®) technology platform. For more information on Amryt, including products, please visit www.amrytpharma.com.

Forward-Looking Statements

This announcement may contain forward-looking statements and the words "expect", "anticipate", "intends", "plan", "estimate", "aim", "forecast", "project" and similar expressions (or their negative) identify certain of these forward-looking statements. The forward-looking statements in this announcement are based on numerous assumptions and Amryt's present and future business strategies and the environment in which Amryt expects to operate in the future. Forward-looking statements involve inherent known and unknown risks, uncertainties and contingencies because they relate to events and depend on circumstances that may or may not occur in the future and may cause the actual results, performance or achievements to be materially different from those expressed

or implied by such forward-looking statements. These statements are not guarantees of future performance or the ability to identify and consummate investments. Many of these risks and uncertainties relate to factors that are beyond Amryt's ability to control or estimate precisely, such as future market conditions, the course of the COVID-19 pandemic, currency fluctuations, the behaviour of other market participants, the outcome of clinical trials, the actions of regulators and other factors such as Amryt's ability to obtain financing, changes in the political, social and regulatory framework in which Amryt operates or in economic, technological or consumer trends or conditions. Past performance should not be taken as an indication or guarantee of future results, and no representation or warranty, express or implied, is made regarding future performance. No person is under any obligation to update or keep current the information contained in this announcement or to provide the recipient of it with access to any additional relevant information that may arise in connection with it. Such forward-looking statements reflect the Company's current beliefs and assumptions and are based on information currently available to management.

EXHIBIT 99.2

Amryt Presents New Analyses from the EASE Phase 3 Trial in Epidermolysis Bullosa at SPD 2022

- Key highlights include efficacy of Oleogel-S10 (birch triterpenes) on accelerated wound healing, data on procedural pain and dressing change frequency, and a 12-month interim analysis of the open-label phase (OLP), in patients with Dystrophic Epidermolysis Bullosa (DEB)

DUBLIN, Ireland, and Boston MA, July 7, 2022, Amryt (Nasdaq: AMYT), a global, commercial-stage biopharmaceutical company dedicated to acquiring, developing and commercializing novel treatments for rare diseases, presented new positive analyses from EASE at the 2022 Society for Pediatric Dermatology (SPD) annual meeting which is being held in Indianapolis on July 7-10.

EASE (NCT03068780), the largest clinical trial in Epidermolysis Bullosa (EB), is a Phase 3, randomized, controlled, 90-day double-blind, efficacy and safety study of Oleogel-S10 (birch triterpenes) in patients with inherited EB, followed by a 24-month open-label single-arm phase. Analyses of the DEB cohort from EASE will be presented across three poster presentations and demonstrated the following for patients treated with Oleogel-S10:

- Accelerated wound healing
- Reduced pain associated with dressing changes and fewer patients required daily dressing changes
- Sustained improvements in wound burden with a continued reassuring safety profile

Dr Tracy Cunningham, Chief Medical Officer of Amryt, commented: "*We are pleased to present new clinical analyses that support Oleogel-S10 as a potential treatment for DEB patients living with this debilitating subtype of EB. These analyses follow an exciting time for patients and their families in the EU who, as a result of the European Commission decision to approve Filsuvez® in the EU, finally have an approved treatment option available. We are committed to working with other regulatory agencies, including the FDA, to enable more patients to avail of this treatment.*"

Anna Bruckner, MD, University of Colorado School of Medicine, Department of Dermatology, commented: *"These new analyses further support Oleogel-S10's clinical benefit as a well-tolerated and effective therapy for patients with DEB in line with what has been seen in the EASE primary analysis. It is encouraging to see the positive impact that Oleogel-S10 has on patients and their families including accelerated wound healing and less pain during dressing changes. We know that these factors are meaningful to patients during their daily routine living with EB."*

Presentation Titles:

1. ***EASE study demonstrates efficacy of Oleogel-S10 (birch triterpenes) on wound healing in patients with DEB***

Presenter: Anna Bruckner, MD

- *Oleogel-S10 demonstrated accelerated wound healing in patients with DEB. The proportion of DEB patients with target wound closure within 45 days was 44.3% on Oleogel-S10 versus 29.6% on control gel (p=0.017).*
- *Patients with DEB had sustained improvement in wound burden by Day 90 with Oleogel-S10. Between baseline and Day 90, body surface area percentage (BSAP) improved to a greater extent with Oleogel-S10 vs. with control gel (-4.4 vs. -2.4), with comparable EBDASI skin activity scores (-3.9 vs. -3.5).*

1. ***The effect of Oleogel-S10 (birch triterpenes) on procedural pain and dressing change frequency in DEB: analysis from the EASE study***

Presenter: Anna Bruckner, MD

- *Oleogel-S10 treated DEB patients experienced reduced pain associated with dressing changes.*

Copyright © 2022 www.secdatabase.com. All Rights Reserved.
Please Consider the Environment Before Printing This Document

- *A lower percentage of DEB patients treated with Oleogel-S10 had daily dressing changes throughout the DBP (32% with Oleogel-S10 vs 50% with control gel at Day 90).*
- *Wound infections were low overall in patients with DEB and mostly mild for those treated with Oleogel-S10.*

1. ***Safety and efficacy of Oleogel-S10 (birch triterpenes) in patients with DEB – 12-month interim analysis of the open label phase from the EASE study***

Presenter: Harper Price, MD

- *Patients with DEB had sustained improvement in wound burden with Oleogel-S10:*
  - *53% reduction in BSAP with 15 months of Oleogel-S10 treatment in patients with DEB.*
  - *EBDASI skin activity score reduced with continued Oleogel-S10 use from 19.9 at baseline to 14.8 after 15 months of treatment.*
- *Continued reassuring safety profile with no new safety signals identified in the OLP for patients with DEB.*

About EASE

The EASE trial (NCT03068780) is the largest ever global Phase 3 trial conducted in patients with EB, performed across 58 sites in 28 countries. It comprises a 3-month double-blind randomized controlled phase followed by a 24-month open-label, single-arm phase. Patients with DEB and Junctional EB (JEB) target wounds of between 10 and 50cm^2 in size that were present for > 21 days and < 9 months were randomized in the double-blind phase to study treatment in a 1:1 ratio and wound dressings applied according to standard of care. 223 patients were enrolled into the trial, including 156 pediatric patients. Of those that completed the double-blind phase, 100% entered the open-label follow-up phase.

About Epidermolysis Bullosa

EB is a rare and devastating group of hereditary disorders of the skin, mucous membranes, and internal epithelial linings characterized by extreme skin fragility and blister development. Patients with severe forms of EB suffer from severe, chronic blistering, ulceration and scarring of the skin, mutilating scarring of the hands and feet, joint contractures, strictures of the esophagus and mucous membranes, a high risk of developing aggressive squamous cell carcinomas, infections and risk of premature death. The global market opportunity for EB is estimated by the Company to be in excess of $1.0 billion.

About Amryt

Amryt is a global commercial-stage biopharmaceutical company focused on acquiring, developing and commercializing innovative treatments to help improve the lives of patients with rare and orphan diseases. Amryt comprises a strong and growing portfolio of commercial and development assets.

Amryt's commercial business comprises four orphan disease products – metreleptin (Myalept®/ Myalepta®); oral octreotide (Mycapssa®); lomitapide (Juxtapid®/ Lojuxta®); and Oleogel-S10 (Filzuvez®).

Myalept®/Myalepta® (metreleptin) is approved in the US (under the trade name Myalept®) as an adjunct to diet as replacement therapy to treat the complications of leptin deficiency in patients with congenital or acquired generalized lipodystrophy (GL) and in the EU (under the trade name Myalepta®) as an adjunct to diet for the treatment of leptin deficiency in patients with congenital or acquired GL in adults and children two years of age and above and familial or acquired partial lipodystrophy (PL) in adults and children 12 years of age and above for whom standard treatments have failed to achieve adequate metabolic control. For additional information, please follow this link.

Mycapssa® (octreotide capsules) is approved in the US for long-term maintenance therapy in acromegaly patients who have responded to and tolerated treatment with octreotide or lanreotide. Mycapssa® is the first and only oral somatostatin analog approved by the FDA. Mycapssa® has also been submitted to the EMA and is not yet approved in Europe. For additional information, please follow this link.

Juxtapid®/Lojuxta® (lomitapide) is approved as an adjunct to a low-fat diet and other lipid-lowering medicinal products for adults with the rare cholesterol disorder, Homozygous Familial Hypercholesterolaemia ("HoFH") in

EXHIBIT 99.3

Amryt Receives Orphan Drug Designation from the FDA for Mycapssa® (oral octreotide) for the Treatment of Carcinoid Syndrome

DUBLIN, Ireland, and Boston MA, July 14, 2022, Amryt (Nasdaq: AMYT), a global, commercial-stage biopharmaceutical company focused on acquiring, developing and commercializing novel treatments for rare diseases, is pleased to announce that the US Food and Drug Administration (FDA) has granted Orphan Drug Designation to Mycapssa® for the treatment of carcinoid syndrome. Carcinoid syndrome (CS) is the most common functional syndrome associated with neuroendocrine tumours (NETs).

The Orphan Drug Designation program provides orphan status to drugs and biologics, which are defined as those intended for the safe and effective treatment, diagnosis or prevention of rare diseases or disorders that affect fewer than 200,000 people in the US.

Dr Joe Wiley, CEO of Amryt Pharma, commented: *"Today's news is another significant milestone achieved in our plan to develop Mycapssa® for patients affected by carcinoid syndrome associated with NET and we are excited at the potential for Mycapssa® and our TPE® technology to deliver an oral therapy option to NET patients in need."*

Mycapssa® - NET Opportunity

Amryt's TPE® platform enables the oral delivery of the octreotide molecule which is otherwise delivered as an injectable. Mycapssa® (oral octreotide) is approved by the FDA for long-term maintenance treatment in acromegaly patients who have responded to and tolerated injectable treatment with octreotide or lanreotide (i.e. somatostatin analogs (SSAs)).

Injectable SSAs are also approved and are the pharmaceutical standard of care in the treatment of carcinoid syndrome associated with NET and their utilization in NET accounts for an estimated $1.9bn* globally and approximately $1.0bn* in the US. The potential addressable patient population on SSAs in the US is estimated at 24,000**. Compared to acromegaly, patients with NET are known to require higher average doses of injectable SSAs to achieve adequate symptom control. Pharmacokinetic studies with Mycapssa® showed dose linearity from 20mg to 80mg (40mg/day to 160mg/day), hence support dosing requirements for the planned Phase 3 study in patients with carcinoid syndrome, planned to be initiated early in 2023.

About Neuroendocrine Tumors (NET)

NETs arise from neuroendocrine cells throughout the body, most commonly in the gastrointestinal tract, lung, and rarely, the pancreas. While well differentiated neuroendocrine tumors are known to be slow growing, they are often asymptomatic in early stages leading to a substantial number of patients being diagnosed when the tumors have already spread regionally or distantly. Capable of secreting hormones and bioactive amines, approximately 19% of patients have carcinoid syndrome characterized by secretory diarrhea and flushing.

* Based on management estimates

EXHIBIT 99.5

Amryt Reports Record Q2 2022 Results

9.2% YoY revenue growth in Q2 to $68.5M
35.3% YoY revenue growth in Q2 excluding impact of a sporadic LATAM order in Q2 2021
7.8% growth in metreleptin revenues YoY to $46.4M in Q2
49.9% growth in metreleptin revenues in Q2 excluding impact of a sporadic LATAM order in Q2 2021
10th consecutive quarter of positive EBITDA generation
Cash of $90.7M at June 30, 2022
Filsuvez® approved in the EU for the treatment of dystrophic and junctional EB
Amryt now has four growing commercial products treating rare diseases
Reaffirming FY 2022 revenue guidance to $260M - $270M, representing 17-21% YoY growth
Stock repurchase program underway – board approved up to $30M through March 2023
Conference call and webcast today at 0830 ET / 1330 BST

DUBLIN, Ireland, and Boston MA, August 4, 2022, Amryt (Nasdaq: AMYT), a global, commercial-stage biopharmaceutical company dedicated to acquiring, developing and commercializing novel treatments for rare diseases, today provides a business update and announces unaudited financial results for the second quarter ended June 30, 2022.

Joe Wiley, CEO of Amryt Pharma, commented: *"I am pleased to report today's very strong operational and financial results which reflect another excellent quarter for Amryt. Our record Q2 revenues of $68.5M demonstrates the strong performance our business is delivering. In particular, metreleptin continues to grow strongly, delivering 49.9% YoY growth in the quarter, excluding the impact of a sporadic LATAM order booked in Q2 2021. Overall, these results demonstrate the robust growth we are experiencing and represent our tenth consecutive quarter of positive EBITDA generation.*

During the quarter, the European Commission approved Filsuvez® for the treatment of Dystrophic and Junctional EB in patients 6 months and older. The approval of Filsuvez® in the EU is one of the most significant milestones in Amryt's history and represents a major positive development for European patients that suffer from this debilitating condition. Filsuvez® is our fourth commercial product and we have in place the team, financial flexibility and global infrastructure to commercialize it swiftly and to execute our significant growth plans. We also look forward to potentially leveraging our European approval across other jurisdictions globally.

Given the strong underlying performance of our business year to date and notwithstanding the impact of the strengthening US dollar on our Euro revenues, we are today reaffirming our full year 2022 revenue guidance of $260-$270 million which represents growth of 17%-21% over 2021."

Q2 2022 and Recent Business Highlights:

Metreleptin

- Metreleptin continues to deliver significant growth in EMEA driven by market expansion and its broad label covering the treatment of both general and partial lipodystrophy (GL/PL)
- Growth drivers include Italian PL reimbursement in Q2 and expansion in the Middle East and Turkey
- Metreleptin continues to deliver growth in the US; expected patient additions driven by high unmet medical need

Lomitapide

- EMEA lomitapide revenues impacted by strong US dollar despite increasing patient numbers on therapy
- Successful new tender for lomitapide in Saudi Arabia - $6M expected annualized revenues

Mycapssa®

- Mycapssa® relaunch is progressing well - Greater education and awareness of Mycapssa® has resulted in 58 new prescribers year to date – 93% of whom are community-based physicians
- Presented Mycapssa® data from OPTIMAL and MPOWERED Phase 3 trials at ENDO 2022 meeting
- Announced positive long-term safety and efficacy data for Mycapssa® from the second year of the OPTIMAL open label extension study in acromegaly patients
- Mycapssa® new patent announced, further strengthening our IP portfolio with protection to 2040
- Received Orphan Drug Designation from the FDA for Mycapssa® for the treatment of carcinoid syndrome associated with neuroendocrine tumors (NET)
- Pathway agreed with the FDA to initiate a Phase 3 study for NET - expected in Q1 2023

Filsuvez®[1]

- Filsuvez® approved in the EU for the treatment of dystrophic and junctional EB in patients 6 months and older
- First ever approved treatment for EB with potential to leverage European approval across other jurisdictions
- Commercial plans well advanced for Filsuvez® launch in Europe – first shipments to patients in Germany and Greece expected in Q3
- Presented new positive Open-Label Phase 12-month data analyses from the EASE Phase 3 trial in EB at SPD 2022 meeting

Corporate

- Amryt initiates stock repurchase program – board has approved repurchases up to $30M through March 2023
- FY 2022 revenue guidance of $260M - $270M reaffirmed, representing 17-21% growth over 2021

1 Filsuvez® (birch extract) gel ("Filsuvez®") has been selected as the brand name for Oleogel-S10. Filsuvez® is approved in the EU for the treatment of partial thickness wounds associated with JEB and DEB in patients 6 months and older.

2 Non-cash items include amortisation of the acquired metreleptin, lomitapide and Mycapssa® intangible assets ($14.4M), amortisation of the inventory fair value step-up related to the acquisition of Chiasma, Inc. ($2.2M), depreciation and amortisation ($0.4M) and share based compensation expenses ($2.9M).

3 EBITDA is earnings before interest, tax, depreciation, amortisation and share based compensation expenses. To supplement Amryt's financial results presented in accordance with IFRS generally accepted accounting principles, the Company uses EBITDA as a key measure of company performance as the Company believes that this measure is most reflective of the operational profitability or loss of the Company and provides management and investors with useful supplementary information which can enhance their ability to evaluate the operating performance of the business. EBITDA, as measured by the Company, is not meant to be considered in isolation or as a substitute to operating profit / loss attributable to Amryt and should be read in conjunction with the Company's condensed consolidated financial statements prepared in accordance with IFRS.

Filsuvez® Regulatory Update:

On June 23, 2022, Amryt announced the European Commission (EC) approval of Filsuvez® in the European Union (EU) for the treatment of partial thickness wounds associated with dystrophic and junctional Epidermolysis Bullosa (EB) in patients 6 months and older. EB is a rare and distressing genetic skin disorder affecting young children and adults for which, until now, there has been no approved treatment in any market.

The centralised marketing authorisation will be valid in all EU Member States as well as in Iceland, Liechtenstein, and Norway. The authorization of Filsuvez® in the EU provides a regulatory core dossier which can form the basis for future regulatory submissions in LATAM and the Middle East.

The EC approval of Filsuvez® is supported by Phase 3 data from the EASE trial which was the largest ever global trial conducted in patients with EB, performed across 58 sites in 28 countries.

During Q2 2022, Amryt had a Type A meeting with the FDA to discuss the issues raised in the Complete Response Letter (CRL) received in February 2022 relating to Amryt's NDA for Oleogel-S10. Following this meeting, Amryt plans to proceed to the Formal Dispute Resolution pathway with the FDA's Center for Drug Evaluation and Research (CDER) by which NDA applicants can seek to resolve scientific and/or medical disputes that cannot be resolved at the division level.

Guidance & Outlook:

Given the continued strong performance of the Company's commercial products and notwithstanding the impact of the strengthening US dollar on the Company's Euro denominated revenues, the board is today reaffirming revenue guidance for FY 2022 in the range of $260M - $270M which represents growth of 17% to 21% on FY 2021.

Conference Call & Webcast:

Amryt will host a conference call and webcast for analysts and investors today at **0830 ET/1330 GMT.**

About Amryt

Amryt is a global commercial-stage biopharmaceutical company focused on acquiring, developing and commercializing innovative treatments to help improve the lives of patients with rare and orphan diseases. Amryt comprises a strong and growing portfolio of commercial and development assets.

Amryt's commercial business comprises four orphan disease products – metreleptin (Myalept®/ Myalepta®); oral octreotide (Mycapssa®); lomitapide (Juxtapid®/ Lojuxta®); and Oleogel-S10 (Filsuvez®).

Myalept®/Myalepta® (metreleptin) is approved in the US (under the trade name Myalept®) as an adjunct to diet as replacement therapy to treat the complications of leptin deficiency in patients with congenital or acquired generalized lipodystrophy (GL) and in the EU (under the trade name Myalepta®) as an adjunct to diet for the treatment of leptin deficiency in patients with congenital or acquired GL in adults and children two years of age and above and familial or acquired partial lipodystrophy (PL) in adults and children 12 years of age and above for whom standard treatments have failed to achieve adequate metabolic control. For additional information, please follow this link.

Mycapssa® (octreotide capsules) is approved in the US for long-term maintenance therapy in acromegaly patients who have responded to and tolerated treatment with octreotide or lanreotide. Mycapssa® is the first and only oral somatostatin analog approved by the FDA. Mycapssa® has also been submitted to the EMA and is not yet approved in Europe. For additional information, please follow this link.

Juxtapid®/Lojuxta® (lomitapide) is approved as an adjunct to a low-fat diet and other lipid-lowering medicinal products for adults with the rare cholesterol disorder, Homozygous Familial Hypercholesterolaemia ("HoFH") in the US, Canada, Colombia, Argentina and Japan (under the trade name Juxtapid®) and in the EU, Israel, Saudi Arabia and Brazil (under the trade name Lojuxta®). For additional information, please follow this link.

Amryt's lead development candidate, Oleogel-S10 is a potential treatment for the cutaneous manifestations of JEB and DEB, a rare and distressing genetic skin disorder affecting young children and adults. Filsuvez® has been selected as the brand name for Oleogel-S10. Filsuvez® is approved in the EU for the treatment of partial thickness wounds associated with JEB and DEB in patients 6 months and older.

Amryt's pre-clinical gene therapy candidate, AP103, offers a potential treatment for patients with Dystrophic EB, and the polymer-based delivery platform has the potential to be developed for the treatment of other genetic disorders.

Amryt also intends to develop oral medications that are currently only available as injectable therapies through its Transient Permeability Enhancer (TPE®) technology platform. For more information on Amryt, including products, please visit www.amrytpharma.com.

Forward-Looking Statements

This announcement may contain forward-looking statements and the words "expect", "anticipate", "intends", "plan", "estimate", "aim", "forecast", "project" and similar expressions (or their negative) identify certain of these forward-looking statements. The forward-looking statements in this announcement are based on numerous assumptions and Amryt's present and future business strategies and the environment in which Amryt expects to operate in the future. Forward-looking statements involve inherent known and unknown risks, uncertainties and contingencies because they relate to events and depend on circumstances that may or may not occur in the future and may cause the actual results, performance or achievements to be materially different from those expressed or implied by such forward-looking statements. These statements are not guarantees of future performance or the ability to identify and consummate investments. Many of these risks and uncertainties relate to factors that are beyond Amryt's ability to control or estimate precisely, such as future market conditions, the course of the COVID-19 pandemic, currency fluctuations, the behaviour of other market participants, the outcome of clinical trials, the actions of regulators and other factors such as Amryt's ability to obtain financing, changes in the political, social and regulatory framework in which Amryt operates or in economic, technological or consumer trends or conditions. Past performance should not be taken as an indication or guarantee of future results, and no representation or warranty, express or implied, is made regarding future performance. No person is under any obligation to update or keep current the information contained in this announcement or to provide the recipient of it with access to any additional relevant information that may arise in connection with it. Such forward-looking statements reflect the Company's current beliefs and assumptions and are based on information currently available to management.

Ivonne	Cerezo-Faure	Corporate Operations Manager

U.S. FOOD & DRUG ADMINISTRATION

NDA 212728

NDA APPROVAL

Biohaven Pharmaceuticals
Attention: Marianne Frost
234 Church Street, Suite 304
New Haven, CT 06510

Dear Ms. Frost:

Please refer to your new drug application (NDA) dated and received June 27, 2019, and your amendments, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA), for rimegepant orally disintegrating tablets.

This NDA provides for the use of Nurtec ODT (rimegepant) tablets for the acute treatment of migraine with or without aura in adults.

APPROVAL & LABELING

We have completed our review of this application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed agreed-upon labeling.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at FDA.gov.[1] Content of labeling must be identical to the enclosed labeling (text for the Prescribing Information and Patient Package Insert) as well as annual reportable changes not included in the enclosed labeling. Information on submitting SPL files using eLIST may be found in the guidance for industry *SPL Standard for Content of Labeling Technical Qs and As.*[2]

The SPL will be accessible via publicly available labeling repositories.

[1] http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm
[2] We update guidances periodically. For the most recent version of a guidance, check the FDA Guidance Documents Database https://www.fda.gov/RegulatoryInformation/Guidances/default.htm.

CARTON AND CONTAINER LABELING

Submit final printed carton and container labeling that are identical to the carton and container labeling submitted on February 7, 2020, as soon as they are available, but no more than 30 days after they are printed. Please submit this labeling electronically according to the guidance for industry "*Providing Regulatory Submissions in Electronic Format — Certain Human Pharmaceutical Product Applications and Related Submissions Using the eCTD Specifications*." For administrative purposes, designate this submission "**Final Printed Carton and Container Labeling for approved NDA 212728.**" Approval of this submission by FDA is not required before the labeling is used.

ADVISORY COMMITTEE

Your application for rimegepant was not referred to an FDA advisory committee because the clinical trial design was acceptable, the efficacy findings were clear, and the safety profile was acceptable for use in the intended population.

REQUIRED PEDIATRIC ASSESSMENTS

Under the Pediatric Research Equity Act (PREA) (21 U.S.C. 355c), all applications for new active ingredients (which includes new salts and new fixed combinations), new indications, new dosage forms, new dosing regimens, or new routes of administration are required to contain an assessment of the safety and effectiveness of the product for the claimed indication(s) in pediatric patients unless this requirement is waived, deferred, or inapplicable.

We are waiving the pediatric studies requirement for children 0 to 5 years of age because necessary studies are impossible or highly impracticable. This waiver is being granted because very few children of this age can be definitively diagnosed with migraine.

We are deferring submission of your pediatric studies for children 6 to 17 years of age for this application because this product is ready for approval for use in adults and the pediatric studies have not been completed.

Your deferred pediatric studies required by section 505B(a) of the Federal Food, Drug, and Cosmetic Act are required postmarketing studies. The status of these postmarketing studies must be reported annually, according to 21 CFR 314.81 and section 505B(a)(3)(B) of the Federal Food, Drug, and Cosmetic Act. These required studies are listed below:

3799-1 A juvenile animal toxicology study of rimegepant in rat.

Study Completion: 02/2020
Final Report Submission: 06/2020

3799-2 An open-label, single-dose study to evaluate the safety, tolerability, and single-dose pharmacokinetics (PK) of rimegepant in patients with migraine age 6 to less than 12 years of age.

Final Protocol Submission: 10/2020
Study Completion: 12/2022
Final Report Submission: 04/2028

3799-3 A randomized, double-blind, placebo-controlled efficacy and safety study under PREA for the treatment of acute migraine with or without aura in patients ages 6 through 17 years. This study includes an initial single-blind placebo lead-in to identify patients who respond to placebo. This efficacy study must be designed to show superiority of rimegepant over placebo and is to be submitted as a special protocol assessment (SPA).

Final Protocol Submission: 12/2020
Study Completion: 10/2026
Final Report Submission: 04/2028

3799-4 A pediatric open-label safety study under PREA to evaluate the long-term safety of intermittent treatment with rimegepant in patients ages 6 through 17 years, for up to one year.

Final Protocol Submission: 12/2020
Study Completion: 10/2027
Final Report Submission: 04/2028

FDA considers the term *final* to mean that the applicant has submitted a protocol, the FDA review team has sent comments to the applicant, and the protocol has been revised as needed to meet the goal of the study or clinical trial.[3]

Submit the protocols to your IND 109886, with a cross-reference letter to this NDA.

[3] See the guidance for Industry *Postmarketing Studies and Clinical Trials—Implementation of Section 505(o)(3) of the Federal Food, Drug, and Cosmetic Act (October 2019).* https://www.fda.gov/RegulatoryInformation/Guidances/default.htm.

Reports of these required pediatric postmarketing studies must be submitted as an NDA or as a supplement to your approved NDA with the proposed labeling changes you believe are warranted based on the data derived from these studies. When submitting the reports, please clearly mark your submission **"SUBMISSION OF REQUIRED PEDIATRIC ASSESSMENTS"** in large font, bolded type at the beginning of the cover letter of the submission.

POSTMARKETING REQUIREMENTS UNDER 505(o)

Section 505(o)(3) of the Federal Food, Drug, and Cosmetic Act (FDCA) authorizes FDA to require holders of approved drug and biological product applications to conduct postmarketing studies and clinical trials for certain purposes, if FDA makes certain findings required by the statute.

We have determined that an analysis of spontaneous postmarketing adverse events reported under subsection 505(k)(1) of the FDCA will not be sufficient to identify an unexpected serious risk of adverse maternal, fetal, and infant outcomes resulting from the use of rimegepant during pregnancy.

Furthermore, the active postmarket risk identification and analysis system as available under section 505(k)(3) of the FDCA will not be sufficient to assess these serious risks.

Therefore, based on appropriate scientific data, FDA has determined that you are required to conduct the following studies:

3799-5 A pre- and postnatal development study of rimegepant in rat.

The timetable you submitted on February 25, 2020, states that you will conduct this study according to the following schedule

Final Protocol Submission:	06/2020
Study Completion:	03/2021
Final Report Submission:	09/2021

3799-6 Prospective pregnancy exposure registry cohort analyses in the United States that compare the maternal, fetal, and infant outcomes of women with migraine exposed to rimegepant during pregnancy with two unexposed control populations: one consisting of women with migraine who have not been exposed to rimegepant before or during pregnancy, and the other consisting of women without migraine. The registry will identify and record pregnancy complications, major and minor congenital malformations, spontaneous abortions, stillbirths, elective terminations, preterm births, small-for-gestational-age births, and any other adverse outcomes, including postnatal growth and development. Outcomes

will be assessed throughout pregnancy. Infant outcomes, including effects on postnatal growth and development, will be assessed through at least the first year of life.

The timetable you submitted on February 21, 2020, states that you will conduct this study according to the following schedule:

Draft Protocol Submission:	09/2020
Final Protocol Submission:	04/2021
Annual Interim Report Submissions:	04/2022
	04/2023
	04/2024
	04/2025
	04/2026
	04/2027
	04/2028
	04/2029
	04/2030
	04/2031
	04/2032
	04/2033
Study Completion:	04/2034
Final Report Submission:	04/2035

3799-7 A pregnancy outcomes study using a different study design than provided for in PMR 3799-6 (for example, a retrospective cohort study using claims or electronic medical record data with outcome validation or a case-control study) to assess major congenital malformations, spontaneous abortions, stillbirths, and small-for-gestational-age births in women exposed to rimegepant during pregnancy compared to an unexposed control population.

The timetable you submitted on February 21, 2020, states that you will conduct this study according to the following schedule:

Draft Protocol Submission:	09/2020
Final Protocol Submission:	04/2021
Annual Interim Report Submissions:	04/2022
	04/2023
	04/2024
	04/2025
	04/2026
	04/2027
Study Completion:	04/2028
Final Report Submission:	04/2029

Finally, we have determined that only a clinical trial (rather than a nonclinical or observational study) will be sufficient to assess a signal of an unexpected serious risk of drug interactions mediated by P-glycoprotein (P-gp) or breast cancer resistance protein (BCRP).

Therefore, based on appropriate scientific data, FDA has determined that you are required to conduct the following trials:

3799-8	Clinical pharmacokinetic trial to evaluate the effect of a known P-gp inhibitor and BCRP inhibitor on the pharmacokinetics of rimegepant to address the potential for excessive drug toxicity. Design and conduct the trial in accordance with the FDA Guidance for Industry entitled "Clinical Drug Interaction Studies — Cytochrome P450 Enzyme- and Transporter-Mediated Drug Interactions."

The timetable you submitted on February 21, 2020, states that you will conduct this trial according to the following schedule:

Draft Protocol Submission:	07/2020
Final Protocol Submission:	09/2020
Trial Completion:	02/2021
Final Report Submission:	09/2021

FDA considers the term *final* to mean that the applicant has submitted a protocol, the FDA review team has sent comments to the applicant, and the protocol has been revised as needed to meet the goal of the study or clinical trial.[4]

Submit clinical protocol(s) to your IND 109886 with a cross-reference letter to this NDA. Submit nonclinical and chemistry, manufacturing, and controls protocols and all final report(s) to your NDA. Prominently identify the submission with the following wording in bold capital letters at the top of the first page of the submission, as appropriate: **Required Postmarketing Protocol Under 505(o), Required Postmarketing Final Report Under 505(o), Required Postmarketing Correspondence Under 505(o).**

Submission of the protocol(s) for required postmarketing observational studies to your IND is for purposes of administrative tracking only. These studies do not constitute clinical investigations pursuant to 21 CFR 312.3(b) and therefore are not subject to the IND requirements under 21 CFR part 312 or FDA's regulations under 21 CFR parts 50 (Protection of Human Subjects) and 56 (Institutional Review Boards).

[4] See the guidance for Industry *Postmarketing Studies and Clinical Trials—Implementation of Section 505(o)(3) of the Federal Food, Drug, and Cosmetic Act (October 2019).* https://www.fda.gov/RegulatoryInformation/Guidances/default.htm.

Section 505(o)(3)(E)(ii) of the FDCA requires you to report periodically on the status of any study or clinical trial required under this section. This section also requires you to periodically report to FDA on the status of any study or clinical trial otherwise undertaken to investigate a safety issue. Section 506B of the FDCA, as well as 21 CFR 314.81(b)(2)(vii) requires you to report annually on the status of any postmarketing commitments or required studies or clinical trials.

FDA will consider the submission of your annual report under section 506B and 21 CFR 314.81(b)(2)(vii) to satisfy the periodic reporting requirement under section 505(o)(3)(E)(ii) provided that you include the elements listed in 505(o) and 21 CFR 314.81(b)(2)(vii). We remind you that to comply with 505(o), your annual report must also include a report on the status of any study or clinical trial otherwise undertaken to investigate a safety issue. Failure to submit an annual report for studies or clinical trials required under 505(o) on the date required will be considered a violation of FDCA section 505(o)(3)(E)(ii) and could result in enforcement action.

REQUESTED PHARMACOVIGILANCE

We request that you perform postmarketing surveillance for cardiovascular events, cerebrovascular events, and serious gastrointestinal events after exposure to Nurtec ODT. Include comprehensive summaries and analyses of these events quarterly as part of your required postmarketing safety reports [e.g., periodic safety update reports (PSURs)]. Include analyses of the events by age and gender. In the analysis of each case, provide an assessment of causality, with documentation of risk factors and results of all assessments that support the diagnosis or the causality, along with extent of exposure to Nurtec ODT and most recent exposure to Nurtec ODT, concomitant therapies, treatment given for the event, and outcome. Include a comparison to background rates expected in a migraine population of the same age and gender.

PROMOTIONAL MATERIALS

You may request advisory comments on proposed introductory advertising and promotional labeling. To do so, submit, in triplicate, a cover letter requesting advisory comments, the proposed materials in draft or mock-up form with annotated references, and the Prescribing Information, Medication Guide, and Patient Package Insert (as applicable) to:

OPDP Regulatory Project Manager
Food and Drug Administration
Center for Drug Evaluation and Research
Office of Prescription Drug Promotion
5901-B Ammendale Road
Beltsville, MD 20705-1266

Alternatively, you may submit a request for advisory comments electronically in eCTD format. For more information about submitting promotional materials in eCTD format, see the draft guidance for industry *Providing Regulatory Submissions in Electronic and Non-Electronic Format—Promotional Labeling and Advertising Materials for Human Prescription Drugs.*[5]

As required under 21 CFR 314.81(b)(3)(i), you must submit final promotional materials, and the Prescribing Information, at the time of initial dissemination or publication, accompanied by a Form FDA 2253. Form FDA 2253 is available at FDA.gov.[6] Information and Instructions for completing the form can be found at FDA.gov.[7] For more information about submission of promotional materials to the Office of Prescription Drug Promotion (OPDP), see FDA.gov.[8]

REPORTING REQUIREMENTS

We remind you that you must comply with reporting requirements for an approved NDA (21 CFR 314.80 and 314.81).

MEDWATCH-TO-MANUFACTURER PROGRAM

The MedWatch-to-Manufacturer Program provides manufacturers with copies of serious adverse event reports that are received directly by the FDA. New molecular entities and important new biologics qualify for inclusion for three years after approval. Your firm is eligible to receive copies of reports for this product. To participate in the program, please see the enrollment instructions and program description details at FDA.gov.[9]

POST APPROVAL FEEDBACK MEETING

New molecular entities and new biological products qualify for a post approval feedback meeting. Such meetings are used to discuss the quality of the application and to evaluate the communication process during drug development and marketing application review. The purpose is to learn from successful aspects of the review process and to identify areas that could benefit from improvement. If you would like to have such a meeting with us, call the Regulatory Project Manager for this application.

---
