Re: Mumm, Georgianna

Date of Incident: September 2007

Date Settled: November 2010.

Involvement: Treating Physician.

Case Settled in Clark County, Nevada.

Allegation: Patient (Mumm) Underwent Laparoscopic Radical Nephrectomy for Renal Cell Carcinoma and Biopsy of retroperitoneal mass. Patient sustained pancreatic injury requiring reoperation and prolonged hospital stay.

Patient filed suit in September 2008, and Dr. Grigoriev denied allegations of negligence as the case was complicated cancer surgery in severely compromised patient. This was corroborated by an expert opinion of board certified urologist Stuart Boyd, M.D. This case ultimately settled in November 2010 to resolve this otherwise disputed claim.

CASE SUMMARY

Patient underwent right radical nephrectomy for Renal Cell Carcinoma and removal of possible metastic retroperitoneal/mesenteric mass.
During surgery patient sustained injury to the pancreas and had subsequent repair. Post operatively patient had pancreatitis and prolonged hospital course, but, eventually recovered and returned to normal activities.
I documented findings of the surgery in the chart and in the operating report which was dictated immediately. I also asked for multiple consultations immediately after surgery. The initial operating report was not found and I redictated the report when it became apparent that the initial report was not in a chart.

Patient subsequently initialed a law suit.

To Whom It May Concern:

Re: [redacted]

Patient is 55 year old female who had episode of acute nephrolithiasis in October 2002, her pain has resolved and she failed to return for follow up.

One year late (July 2003) patient had another episode of acute ureteral colic. She underwent ureteroscopy and stone extraction.

Patient subsequently developed ureteral stricture.

She elected to follow up with another physician. She underwent surgery in October 2003 by another urologist. At the time of surgery stricture could not be repaired and patient had to undergo nephrectomy.

She recovered well and returned to work within 1-2 months. Patient has been subsequently fully employed and in fact has advanced to a position at the same institution.

Patient alleges that complications from operation has lead to additional operation.

Re: Goodell

Date of Incident: July 2003

Date of Dismissal: August 2007

Involvement: Treating Physician.

Allegation Patient (Goodell) underwent removal of Ureteral Stone and Subsequently developed Ureteral Stricture

ureter

In July 2003 Dr. Grigoriev performed ureteroscopy and laser lithotripsy for obstructing ureteral stone. It was alleged that patient sustained injury to ~~urethra~~ as a result of alleged negligence. The patient filed suit in June 2005. Dr. Grigoriev denied allegations of negligence. Thereafter the Plaintiff dropped the case resulting in formal dismissal in September 2007.

Re: Gilbert , Jeff

This summary is in response to your request about my treatment of Mr. Jeff Gilbert.

Mr. Gilbert was diagnosed with prostate cancer which was discovered because of rising/elevated PSA and subsequent prostate biopsy.

On July 7, 2009 patient underwent Robotically Assisted Laparoscopic Radical Prostatectomy at Summerlin Hospital. (see attached operative report)

Although patient did well initially, patient failed to progress as expected. He developed renal insufficiency with creatinine rising from baseline of 1.2 to 2.5 by the second postoperative day.

No immediate cause for that was found and I obtained medical consultation on first postoperative date (7/8/2009), pulmonary and renal consultation on the 2nd postoperative date (July 9, 2009). Subsequently consultation was obtained from and Infectious disease on 7/11/2009 .

Once it became apparent that source of infection was intestine, general surgeon was consulted and patient underwent exploratory laparotomy , right colon resection and diverting colostomy on July 13,2009.

He subsequently recovered and was discharge from the hospital 2 weeks later.

Patient's creatinine was 1.5 at the time of discharge on July 31,2009.

CIVIL ACTION FILE NO:

CIVIL TORT CLAIM FOR MEDICAL MALPRACTICE AND NEGLIGENCE

COMES NOW THE PLAINTIFF, TIMOTHY LEROY WILLIAMS, PROCEEDING BY AND FOR HIS PROPER PERSON, SUBMITTING TO THIS HONORABLE COURT HIS CIVIL TORT CLAIM FOR INJURY AGAINST HIS PERSON, AT THE HANDS OF ABOVE-NAME DEFENDANT, TO BE CONSIDERED, ADDRESSED, AND DECIDED.

THIS CLAIM IS MADE AND BASED UPON THE FOLLOWING STATEMENT OF FACTS, TRUE AND CORRECT, AND INFORMATION BELIEVED TO BE TRUE TO PLAINTIFF.

I. STATEMENT OF FACTS

1) ON OR ABOUT 1 DECEMBER 2015, PLAINTIFF WAS DELIVERED TO DEFENDANT'S

PLACE OF BUSINESS FOR A CONSULT IN RE POSSIBLE DIAGNOSIS OF PROSTATE CANCER.

2) UPON ARRIVAL PLAINTIFF WAS SEEN AND EVALUATED BY (JANE DOE #1) PYSICIAN ATTENDING, AND A RECOMMENDATION OF BIOPSY WAS SUBMITTED AS RESULT.

3) ON OR ABOUT 21 DECEMBER 2015 PLAINTIFF WAS DELIVERED TO DEFENDANT'S SECOND PLACE OF BUSINESS FOR PROSTATE BIOPSY PROCEDURE, PERFOAMED BY DR. GRIGORDVICH (? GREGORVIC ?)

4) ON OR ABOUT 26 FEBRUARY 2016 PLAINTIFF WAS APPRISED OF THE RESULTS OF BIOPSY, IN WHICH A POSITIVE DIAGNOSIS OF CANCER WAS MADE.

5) DIAGNOSIS WAS DESCRIBED AS HAVING FULLY INVOLVED ONE-HALF OF HIS PROSTATE, FAST-GROWING AND AGGRESSIVE, HAVING A 'GLEASON' SCORE OF SEVEN (7).

6) ON OR ABOUT 3 MARCH 2016, PLAINTIFF WAS TRANSPORTED TO STIENBERG DIAGNOSTICS FOR AN (M.R.I) TO DETERMINE POSITION AND INVOLVEMENT OF CANCER.

7) ON OR ABOUT 17 MARCH 2016 PLAINTIFF WAS DELIVERED TO DEFENDANTS PLACE OF BUSINESS TO CONSULT REGARDING (M.R.I.) RESULT. DR. GRIGORVICH STATED THAT THE BEST COURSE OF ACTION WOULD BE TO REMOVE THE PROSTATE AS THE CANCER WAS SMALL AND PROGNOSIS WAS GOOD.

8) ON 26 MAY 2016 PLAINTIFF ADMITTED TO MOUNTAIN VIEW HOSPITAL FOR SURGERY.

9) PLAINTIFF REMAINED IN HOSPITAL FOR RECOVERY UNTIL ON OR ABOUT 1 JUNE 2016, DR. GRIGORVICH MADE ONE (1) CURSORY VISIT DURING THAT TIME.

11) ON OR ABOUT 24 AUGUST 2016 PLAINTIFF WAS DELIVERED TO DEFENDANTS PLACE OF BUSINESS, LAS VEGAS UROLOGY CLINIC, AND MET WITH DR. GRIGOROVICH AND (JANE DOE).

12) DURING THE COURSE OF SAID MEETING, PLAINTIFF WAS EXAMINED BY DR.

GRIGORIVICH AND PROCLAIMED IN SATISFACTORY CONDITION.

13) PLAINTIFF WAS THEN INFORMED BY (JANE DOE) THAT HE WOULD BE SCHEDULED FOR ANOTHER EIGHTEEN (18) MONTHS WORTH OF FOLLOW-UPS AT NINETY (90) DAY INTERVALS. PLAINTIFF WAS FURTHER APPRISED HIS P.S.A. LEVEL WAS 0.01.

II. POINTS AND AUTHORITIES

1) PLAINTIFF HEREBY ATTESTS THAT 24 AUGUST 2016 WAS THE LAST TIME HE WAS SEEN BY DEFENDANTS FOR ANY REASON.

2) PLAINTIFF CONTENDS THAT THE STATEMENT MADE IN RE FOLLOW-UP SCHEDULING ACCOUNTS AS AN ORAL CONTRACT, BREACH OF WHICH CONSTITUTES FAILURE TO PROVIDE PROPER STANDARD OF CARE.

3) OVER THE NINE (9) MONTHS FOLLOWING, PLAINTIFF'S PSA LEVEL HAS RISEN TO OVER 0.6, THREE TIMES THE STANDARD SET BY THE AMERICAN UROLOGISTS ASSOCIATION (0.2 FOR PEOPLE HAVING UNDERGONE PROSTATECTOMY SURGERY).

4) PLAINTIFF HEREBY CONTENDS THAT FOLLOW-UP TESTING AND APPOINTMENTS WOULD HAVE DETECTED THIS INCREASE SOONER, AND THAT SAID DETECTION WOULD HAVE RESULTED IN A COURSE OF TREATMENT.

5) IT IS PLAINTIFF'S BELIEF THAT HIS STATUS AS A 'CONVICTED PERSON' PLAYED A MAJOR ROLE IN THE NEGLECT OF HIS CONDITIONS, AND FURTHER ASCRIBED HIM A DIFFERENT STANDARD OF CARE THAN THAT AFFORDED SOCIETY.

6) PLAINTIFF FURTHER CONTENDS THAT THE VERITABLE ABANDONMENT OF HIS COURSE OF TREATMENT HAS CAUSED HIM CONSIDERABLE ANXIETY, AND THE INCREASING PSA VALUE IS CAUSING ON-GOING MENTAL ANGUISH DUE TO THE FACT THAT NOW CANCER IS YET PRESENT, BUT INVISIBLE.

III - CONCLUSION

PLAINTIFF HEREIN CONCLUDES THAT THE ACTIONS PERPETRATED UPON HIM ARE FAR BEYOND WHAT ANYONE, PRISONER OR FREE, SHOULD BE SUBJECTED TO AT THE HANDS OF ONE SWORN TO SAVE LIVES. THE VERY LACK OF COMPASSION AND EMPATHY SPEAK VOLUMES, AND DIRECTED AT ONE DISADVANTAGED TO BEGIN WITH IS TOTALLY WITHOUT HUMANENESS OF ANY KIND.

IV - RELIEF SOUGHT

PLAINTIFF PRAYS THIS COURT GRANT RELIEF IN THE FOLLOWING DAMAGES FROM ALL DEFENDANTS, BOTH SEPERATELY AND IN JOINDER:

1) COMPENSATORY DAMAGES IN THE AMOUNT OF FIFTY THOUSAND DOLLARS ($50,000.) EACH---

2) PUNITIVE DAMAGES IN THE AMOUNT OF ONE HUNDRED THOUSAND DOLLARS ($100,000.) EACH ---

3) SATISFACTION OF ANY AND ALL OUTSTANDING ACCOUNTS---

4) ALL COURT FEES---

5) ANY FURTHER AWARDS THIS HONORABLE COURT MAY DEEM APPROPRIATE.

WHEREFORE PLAINTIFF, TIMOTHY ~~HERLEY~~ WILLIAMS, PRAYS THIS HONORABLE COURT GRANT ALL RELIEF TO WHICH IT DEEMS HE MAY BE ENTITLED.

RE: BME CASE #: 17-17424
PATIENT: [redacted]

Dear Dr. Grigoryev Grigg:

We have received information and a complaint regarding your inability to provide the Board with your treatment plan for the above named patient in a timely manner.

It is alleged:

1. You did not provide a written statement of your treatment plan for the above named patient in a timely manner.
2. On September 13, 2017, you were sent a letter requesting a "Thorough, written explanation of your treatment plan for the patient" and to provide healthcare records.
3. The Board received the records on October 18, 2017; however, you did not provide a thoroughly written statement of your treatment plan.
4. You were sent a second request letter on January 24, 2018.
5. You only provided the Board with a minimal two sentence statement and it did not arrive until February 13, 2018, five months after the first request was originally sent.

It is further alleged:

1. Your lack of response to a request for information from the Board has delayed this investigation.
2. Therefore, you may be in violation of NRS 629.061 and/or NRS 630.3062 (1)(d).

According to these allegations, you may have violated the Nevada Medical Practice Act, Nevada Revised Statutes, Chapters 629 and 630, and Nevada Administrative Code, Chapters 629 and 630 (NMPA).

In order to determine whether or not there has been a violation of the NMPA, **please provide a written response to the allegations noted above.** Please include any further information you believe would be useful for the Board to make a determination in this matter. **Please reply to this request within 21 calendar days.**

The Nevada State Board of Medical Examiners investigates all information received concerning possible violations of the NMPA. We make no determination as to whether or not there has been a violation of the NMPA until a thorough investigation is completed. As a physician under investigation by the Board, you are required by the NMPA to provide the requested information, and your cooperation is not subject to the whistle-blower protections provided to physicians in NRS 630.364(3).

Please be advised that if the particular allegations referenced above did occur, and depending on the facts and circumstances, then you may have violated the NMPA, specifically including but not limited to: **NRS 629.061 and NRS 630.3062 (1)(d).**

Response Letter of Victor Grigoryev Grigg, M.D.

Ms. Gustafson:

Thank you for the opportunity to respond to the Board's March 11th letter and the additional time in which to do so. I am enclosing an additional copy of my office chartfor the patient. The letter alleges that I failed to timely provide a written statement of my treatment plan for patient, Evelyn Washington when one was previously requested by the Board. As stated in the letter, the Board received medical records from my office for Ms. Washington on October 18, 2017, but no written statement from me was received. First, I apologize for my delayed response. I sent the requested records but did not include a thorough written explanation of the treatment plan for the patient. As I was not a respondent in the original matter, I did not understand the importance of a written statement from me. Further, because I had not seen the patient in more than 4 years, I had no recollection outside the medical records. However, I should have timely communicated that information to the Board and made my best effort to thoroughly summarize the medical records documenting my treatment of the patient, regardless of

my having no independent recollection. It was certainly not my intent to delay the Board's investigation, as I take my obligations to the Board very seriously. I hope my unintentional failings do not lead the Board to conclude otherwise.

Per Ms. Washington's medical records, I saw her in consultation on January 13, 2012. She was referred to me by Dr. James Zeluff. Her history was significant for a hysterectomy on July 6, 2009 performed by Lawson Richter, M.D., as well as recurrent urinary tract infections and a vaginal prolapse. During her hysterectomy, the Sunrise Hospital records I have reflect she also had a cystoscopy, anterior colporrhaphy, paravaginal repair and iliococcygeal vault suspension with mesh performed by Gregory Hsieh, M.D. to address her vaginal prolapse.

At her first visit with me on January 13, 2012, she was complaining of stomach bleeding and mesh erosion. In addition to her hysterectomy and bladder repair, she reported a history of bypass surgery and smoking. In her answers to the Voiding Questionnaire my patients are provided, Ms. Washington indicated she had urinary leakage for 15 months and was taking medication for the issue. She also indicated that her incontinence issues were greatly affecting her life. During my examination, she explained that the mesh was placed in 2009 and she experienced bleeding and some discomfort. As documented in my note, I thought the bleeding was likely the bigger issue, as opposed to stress incontinence but I wanted to further evaluate her. I planned to schedule her for cystoscopy and also wanted an MRI with contrast to better evaluate the mesh and whether she might have a mass affect. Following completion of these studies, I wanted to see Ms. Washington back in follow-up.

After this visit, my office sent a STAT request for medical records from Sunrise Hospital and those records were subsequently received by my office. Per my office chart, Ms.

Washington was scheduled for an MRI at Desert Radiologists on January 24, 2012 at 8:00 a.m. She ultimately had the MRI on January 27, 2012. The study was read by radiologist, Rajashree Vyas, M.D. Dr. Vyas's findings were of a moderately distended bladder with no definitive abnormality. With the exception of multiple inguinal lymph nodes, all of his findings were normal.

On March 28, 2012, I performed a cystoscopy for Ms. Washington. During the procedure, I found no evidence of carcinoma in situ, tumors, stones or other abnormalities. I also scoped the vagina, which showed possibly erosion deep in the cuff with noticeable bleeding. The cystoscopy was completed without incident. A urine culture was also sent out to Quest Diagnostics. As documented in my note, I discussed with the patient that her bleeding was likely caused by her Prolift mesh and I wanted to perform a robotic revision of the mesh. As is my normal practice, I discussed the mesh revisionl and associated risks and potential benefits. I also wanted to do a pressure flow to better evaluate her voiding issues before revising or removing the mesh. She was to return to me for the recommended pressure flow but did not do so.

Per my chart, Ms. Washington did not return to my office until March 10, 2014. At that time, she was complaining of bleeding in her stomach and blood in her urine. I noted that I had treated her 2 years earlier for Prolift exposure and she returned with worsening pain and blood. By this visit, she reported she had stopped smoking. On physical examination, she had deep tightness, discharge and mesh exposure. She was also complaining of pain. We took a urine culture and sent it to the lab for analysis. Given the length of time since her last treatment, I recommended a cystoscopy for further evaluation of her hematuria. Her urinalysis was negative and her cystoscopy was scheduled for April 3, 2014.

Ms. Washington ultimately did not proceed with the cystoscopy and did not return to see me after her March 10th visit. As I mentioned above, I have no independent recollection of this patient and my summary is based upon review of my medical records as well as my custom and practice.

I regret not better explaining that I had no recollection of the patient earlier, when the Board initially requested. I apologize for any misunderstanding and hope this summary provides the information necessary for the Board to complete its investigation. It was never my intent to disregard the Board or to impede its ability to timely investigate Ms. Washington's care and treatment. Please contact me if the Board has any further questions and I will make every effort to provide any additional information that is needed.

Thank You,

Victor Grigoriev, M.D.

DATE OF DISCHARGE: 07/09/2009

This patient is a 58-year-old African-American female gravida 2, para 2 with symptomatic vaginal prolapse who on the day of admission underwent an exam under anesthesia, cystoscopy, anterior colporrhaphy, paravaginal repair and iliococcygeal vault suspension with mesh augmentation (anterior Prolift with ureterolysis and abdominal hysterectomy that was performed by her OB/GYN Dr. Richter. Postoperatively, she recovered without event. On the first postoperative day, she was not passing any flatus and tolerating liquids. Vitals remained stable with no fever, O2 saturation on room air was 95%-100%, urinary output my shift 550 mL. The abdominal examination was benign. The incision was covered with a dry dressing. Postoperative labs: Creatinine 0.72, white count 8100, hemoglobin 9.3, platelets 207,000. Her diet was advanced as tolerated, was passing flatus. She having adequate pain control with an epidural and she was advised to increase her activity. These were all achieved in the following day and apparently was discharged home by Dr. Richter on 7/8/09 for routine followup.

As per anesthesia.

OPERATIVE PROCEDURE:
With informed consent signed, time-out for identification of the patient and the operative site, testing for the adequacy of anesthesia, the patient was prepped and draped in the dorsal supine position with the Allen stirrups on. Sharp and blunt dissection was used to gain entrance into the skin with a midline incision down through the skin and subcutaneous fat and down to the fascial layer. The fascia was nicked superior and inferior and then entrance into the parietal peritoneum was affected without incident.
Because of the patient's past history of abdominoplasty, great care was taken to get inside the uterus and this was accomplished. Massive adhesions were encountered and these were slowly lysed and taken down. Eventually the uterus was found. Pans were used at the angles so as to allow traction, as well as Lahey clamp. The round ligaments were transected bilaterally. Please see Dr. Hsieh's dictation for ureterolysis, which was seen to be necessary in order to go forward with the hysterectomy because of the massive adhesions and distortion of the pelvic contents. Eventually, 0 Vicryl with clamp and tie technique was used to go down through the uterus to eventually include the uterosacral ligaments. These were held long. The maximum portion of the vagina was saved, so as to allow for normal relations and not to shorten the vagina. The vaginal cuff was closed in 5 locations with 0 Vicryl and the good hemostasis.
Needle and sponge counts were deemed correct x1. Seprafilm was used to cover the cul-de-sac after the placement of _____ and the parietal peritoneum, as well as the abdominal rectus muscles were located in 3 locations. Then the second needle and sponge counts were deemed correct. The fascia was closed using double-looped PDS to _____ this, the inferior angle meeting in the midline. This stitch was subsequently buried by using 2-0 Rapide. With the third needle and sponge counts deemed correct, the skin was subsequently closed using staples.

During the course of the operation, it was seen that the patient drained

approximately 125 mL of clear amber urine. She was stable and doing fine. At this point, the incision was covered with a sterile drape and the surgeon went to the perineum. _____ were repositioned. Please refers to Dr. Hsieh's dictation for the subsequent surgeries.

The patient did well and was eventually taken to the recovery room in stable condition.

DATE OF ADMISSION: 07/06/2009

The patient is a 58-year-old African-American female , gravida 2, para 2, who is planning to undergo hysterectomy with her obstetrician/gynecologist, Dr. Richter. She was referred for evaluation and for concomitant prolapse. She complains of vaginal pressure and significant urinary urgency. She has a history of urinary tract infections, status post recent treatment with antibiotics. Her hysterectomy was previously scheduled; however, canceled due to recurrent urinary tract infections. She did undergo multichannel urodynamic testing with prolapse reduction that showed no evidence of potential stress incontinence.

ALLERGIES:
No known drug allergies.

MEDICATIONS:
Lortab, aspirin and finished a course of some type of penicillin derivative.

PAST MEDICAL HISTORY:
As above.

PAST SURGICAL HISTORY:
Gastric bypass, myomectomy.

OBSTETRIC HISTORY:
Two vaginal deliveries, largest infant 6 pounds 7 ounces.

GYNECOLOGY HISTORY:
The patient is sexually active. Last Pap 07/2008. Mammograms 05/2009.

SOCIAL HISTORY:
Denies alcohol or drug use. Smokes cigarettes.

PHYSICAL EXAMINATION:
HEENT exam is grossly normal. Neck is supple without mass or goiter. Lungs are clear to auscultation bilaterally. Cardiac exam: Regular rate and rhythm. Abdomen is soft, nontender, no masses. Back: No CVA tenderness. Pelvic exam: A hypermobile urethra is confirmed by Q-Tip test. External genitalia without lesions. Cervix and uterus were normal. Uterus is enlarged at 10 to 12 weeks size. Adnexa: No masses, nontender. Prolapse examination shows grade 2 to 3 cystocele, grade 1 rectocele, grade 1 uterine descensus.

ASSESSMENT:
Symptomatic vaginal prolapse with urinary urgency and recurrent urinary tract infection.

PLAN:
In addition to Dr. Richter's hysterectomy, she will also undergo cystoscopy, anterior colporrhaphy, paravaginal repair and iliococcygeal vault suspension with mesh augmentation to address her vaginal prolapse. She was instructed to discontinue use of aspirin 1 week prior to surgery.

SPEC #1 82-909-63761 PATIENT: WASHINGTON, EVELYN L. #D0099810427 (Continued)

GROSS DESCRIPTION

A. The specimen is received fresh labeled "Washington, Evelyn L., uterus, both tubes and ovaries." Excluding bilateral adnexa, the uterus and attached cervix weigh 131 gm and are 11.0 cm long by 5.5 cm between the cornua by 6.0 cm in AP thickness. The serosa is tan-pink and roughened by congested adhesions. The ectocervix is tan-pink to hyperemic. The cervical os, endocervical canal and uterine cavity are patent. The endometrium is tan-pink and 0.2 cm thick. The trabeculated myometrium ranges up to 3.5 cm thick and demonstrates multiple intramural submucosal and subserosal nodules that range from 0.7 to 3.0 cm in maximum dimension. Also identified is a subtle whorled cystic area devoid of contents. No other abnormality is identified. The right ovary is 3.5 x 2.0 x 1.0 cm. The capsule is tan-pink and intact. Sectioning demonstrates grossly unremarkable ovarian parenchyma. The adjacent focally adherent fimbriated fallopian tube is 4.5 cm long by 0.7 cm in diameter and is grossly unremarkable. The left ovary is 3.5 x 2.5 x 1.3 cm. The capsule is tan-pink and intact. Sectioning demonstrates grossly unremarkable ovarian parenchyma throughout. The adjacent focally adherent fimbriated fallopian tube is 4.5 cm long by 0.5 cm in diameter and is grossly unremarkable. Representative sections are submitted as A1 serosa; A2 cervix; A3 endomyometrium; A4-A5 discrete gray-white whorled nodules; A6 subtle whorled cystic area; A7 right tube and ovary; A8 left tube and ovary. (MT/MAE/vxt)

MICROSCOPIC/COMMENT

A. Sections of the cervix show that it is lined by mature ectocervical squamous mucosa and mature endocervical glandular mucosa. No squamous dysplasia or endocervical glandular atypia is identified.

Sections of the endometrium show an atrophic pattern. No endometrial hyperplasia or malignancy is identified. Features of chronic endometritis are not present.

Sections of the grossly identified myometrial nodules show that they are composed of mature smooth muscle, consistent with leiomyomas. Focal adenomyosis is also present (slide A6). No myometrial malignancy is identified. The overlying uterine serosa contains fibrovascular adhesions, but is otherwise unremarkable.

Sections of both ovaries show preservation of the normal architecture with the usual spindled stroma. No malignancy is identified.

Sections of both fallopian tubes are unremarkable. (JHH/mdm)

Patient comes in because Dr. James Zeluff asked for urologic consultation.

(Letter detailing recommendations and copy of consultations faxed to the referring physician).

Chief Complaint: Problems after mesh done in 2009

History of Present Illness: The patient had mesh placed in 2009 during a hysterectomy which was done by Dr. Rector or maybe Dr. Lawson and Dr. Hsieh I believe did a repair. It is not clear what exactly she had placed. The patient was noted to have some bleeding. She was referred to me by Dr. Zeluff. The patient is mostly bothered by bleeding, although there is some discomfort as well. She does wear a couple of pads a day, but I believe it is mostly from bleeding, but not necessarily from stress urinary incontinence. She does not have any nocturia and she does not have significant frequency.

PHYSICAL EXAMINATION: See intake form for vital signs.

General:	·Well developed, well nourished female, normal in appearance.
Neuropsychiatric:	·Alert and oriented, mood normal.
Skin:	·Normal without rash or jaundice.
Neck:	·Normal without JVD.
Thyroid:	·Normal to palpatation.
Respiratory:	·Normal effort, clear to auscultation.
Cardiovascular:	·Regular in rate and rhythm, no murmurs or rubs.
Peripheral:	·Normal pulses, no edema or cyanosis.
Lymphatic:	·No neck, groin or axillary adenopathy felt.
Gastrointestinal:	·Abdomen soft without mass, guarding or rebound tenderness. No bladder distension felt. Kidneys not palpable. ·No hepatosplenomegaly felt. ·No hernias felt. ·Stool specimen not indicated.
Genitourinary:	·External genitalia normal. ·Urethral meatus normal. ·Urethra without mass or tenderness. ·Bladder normal without mass. ·Vagina, appears to have very deep erosion. ·Anus and perineum normal.

Assessment:

Discussion:
Plan: I will schedule the patient for cystoscopy. I would also like to get an MRI because I am still not clear if there might be a mass affect deep and I would like to evaluate the mesh better; therefore, we will get an MRI with contrast and with a full bladder.

PHYSICIAN-PATIENT ARBITRATION AGREEMENT

Article 1: **Agreement to Arbitrate:** It is understood that any dispute as to medical malpractice, that is as to whether any medical services rendered under this contract were unnecessary or unauthorized or were improperly, negligently or incompetently rendered, will be determined by submission to arbitration as provided by Nevada law, and not by a lawsuit or resort to court process except as Nevada law provides for judicial review of arbitration proceedings. Both parties to this contract, by entering into it, are voluntarily giving up their constitutional right to have any such dispute decided in a court of law before a jury, and instead are accepting the use of binding arbitration.

Article 2: **All Claims Must Be Arbitrated:** It is the intention of the parties that this agreement shall cover all existing or subsequent claims or controversies whether in tort, contract or otherwise, and shall bind all parties whose claims may arise out of or in any way relate to treatment or services provided or not provided by the below identified physician, medical group or association, their partners, associates, associations, corporations, partnerships, employees, agents, clinics, and/or providers (hereinafter collectively referred to as "Physician") to a patient, including any spouse or heirs of the patient and any children, whether born or unborn, at the time of the occurrence giving rise to any claim. In the case of any pregnant mother, the term "patient" herein shall mean both the mother and the mother's expected child or children.

Filing by Physician of any action in any court by the physician to collect any fee from the patient shall not waive the right to compel arbitration of any malpractice claim. However, following the assertion of any claim against Physician, any fee dispute, whether or not the subject of any existing court action, shall also be resolved by arbitration.

Article 3: **Procedures and Applicable Law:** A notice or demand for arbitration must be communicated in writing by U.S. mail, postage prepaid, to all parties, describing the claim against Physician, the amount of damages sought, and the names, addresses and telephone numbers of the patient, and (if applicable) his/her attorney. The parties shall thereafter select an arbitrator to preside over the matter who was previously a court judge. Both parties agree the arbitration shall be governed pursuant to Nevada Revised Statutes (NRS) 38.206 – 38.248, 41A.035, .045, .097, .100, .110, .120, 42.005 and .021 and the Federal Arbitration Act (9 U.S.C. §§ 1-4), and that they have the absolute right to arbitrate separately the issues of liability and damages upon written request to the arbitrator. The parties shall bear their own costs, fees and expenses, along with a pro rata share of the arbitrator's fees and expenses, and hereby waive the provisions of NRS 38.238.

Article 4: **Revocation:** This agreement may be revoked by written notice delivered to Physician within 30 days of signature and if not revoked will govern all medical services received by the patient.

Article 5: **Severability Provision:** In the event any provision(s) of this Agreement is declared void and/or unenforceable, such provision(s) shall be deemed severed therefrom and the remainder of the Agreement enforced in accordance with Nevada and federal law.

Article 6: **Condition of Treatment:** I understand that signing this arbitration agreement is not a condition of my receiving medical treatment.

I understand that I have the right to receive a copy of this agreement. By my signature below, I acknowledge that I have received a copy.

NOTICE: BY SIGNING THIS CONTRACT YOU ARE AGREEING TO HAVE ANY ISSUE OF MEDICAL MALPRACTICE DECIDED BY NEUTRAL ARBITRATION AND YOU ARE GIVING UP YOUR RIGHT TO A JURY OR COURT TRIAL. SEE ARTICLE 1 OF THIS CONTRACT.

EW *INITIAL HERE TO INDICATE THAT YOU HAVE BEEN GIVEN THE DOCUMENT TITLED "A BRIEF LOOK AT ARBITRATION FOR THE PATIENT."*

MR PELVIS WO W CONTRAST

HISTORY: Status post hysterectomy. Microscopic hematuria. Please assess for mesh erosion.

COMPARISON: None.

TECHNIQUE: Before and after the uneventful administration of IV contrast, multiple different pulse sequences in multiple planes were used to image the pelvis

CONTRAST: 10 cc of OptiMARK IV.

FINDINGS:

Patient is status post hysterectomy. Susceptibility artifact is noted within the pelvis likely postsurgical in nature.

The bladder is moderately distended and demonstrates no definitive abnormality involving the bladder wall. Multiple bilateral inguinal lymph nodes are noted, the largest on the right measuring 10 mm in short axis.

There is no intrapelvic free fluid.

Bowel loops are unremarkable to the extent assessed by MRI.

Bone marrow demonstrates normal signal characteristics.

No abnormal postcontrast enhancement.

CONSENT FORM

I, [redacted] hereby authorize **Victor E. Grigoriev MD** and/or his medical assistant to perform the below listed procedure(s). The risks and benefits have been explained by the doctor and/or his medical assistant to my satisfaction. I also understand that the doctor makes no guarantee as to the success of this procedure in delineating and/or diagnosing the condition that I presented with. In some cases, these procedures will need to be repeated.

Cystoscopy
PROCEDURE

CYSTOSCOPY is performed to survey the urethra, prostate, and/or bladder to search for causes of urinary obstruction, incontinence, bleeding, and/or irritative urinary symptoms. This involves putting an endoscope through the urethra after some numbing jelly is instilled, under sterile technique. The risks of this procedure include worsening of my obstructive or irritative voiding symptoms, bleeding (potentially requiring more aggressive interventional procedures), painful urination, bladder or urethral perforation, and infection.

I understand that I will be given adequate and appropriate postprocedure instructions and will do my best to comply with them along with following up at the appropriate postprocedural interval. I know to call the doctor immediately for any side affects, especially those with high fever, bleeding, or pain.

Encounter Note by Victor E. Grigorlev MD (DOS: 03/28/2012)

Chief Complaint: cystoscopy.
Onset Date: not entered

Cystoscopy

Informed Consent was obtained, and prophylactic antibiotic was given p.o.

PROCEDURE IN DETAIL:
The patient was brought into the clinical cystoscopy room. She was prepped and draped in the usual sterile fashion. The flexible cystoscope was advanced through the urethra.

FINDINGS FROM SURGERY:
The urethra itself demonstrated no stricture or diverticulum. The bladder was then surveyed. It demonstrated no evidence of carcinoma in situ, bladder tumors, bladder stones or other bladder abnormalities. There were no trabeculations, and the ureteral orifices were of normal position and configuration bilaterally. I also scoped the vagina which showed possibly erosion deep in the cuff with bleeding coming from the cuff and a significant amount of induration.

Urethra was **easily** calibrated to 26 French.

Assessment:

Diagnosis Type	Description
Definitive	625.9 - UNSPECIFIED SYMPTOM ASSOCIATED WITH FEMALE GENITAL ORGANS

Discussion:
Discussion: The patient has some urgency and frequency, but her main complaint is bleeding. I believe this is from the Prolift. Because of the location, probably the best way to access is going to be from a robotic revision of it. She understands the risks of bowel injury, bladder injury, fistula formation, worsening pain and that I might not be able to remove the whole mesh. I would like to do a pressure flow to better evaluate her voiding situation prior to arranging for a robotic/vaginal revision of the vaginal vault suspension of the mesh due to erosion.

As the employed/contracted pharmacist, for (ASC/RC Name): Henderson Ambulatory Surgery Center for Minimally Invasive Procedures:

I understand that I am responsible for establishing policies and procedures which (NAC 639.4996):

a) Are consistent with the policies and procedures developed pursuant to NAC 639.447;
b) Require to maintain records in accordance with the provisions of NAC 639.485 and 639.485;
c) Address the purchase, storage, maintenance of records and dispensing of drugs and investigational drugs;
d) Require maintenance of a perpetual inventory of all controlled substances;
e) Prescribe the procedure for quarantining and destroying drugs and investigational drugs that are expired, adulterated, mislabeled or otherwise unsafe for human use;
f) Require the storage of drugs and investigational drugs in accordance with the specifications of the manufacturer;
g) Ensure that the ASC and RC dispenses drugs and investigational drugs pursuant to chart orders and in accordance with applicable state and federal laws; and
h) Ensure that all compounding is
    a. Performed by a registered pharmacist in accordance with the provisions of NRS and NAC 639; or
    b. If performed by an employee of the ASC or RC, other than a registered pharmacist, performed:
        i. In accordance with the provisions of NRS and NAC 639;
        ii. In a location designated for compounding that is clean and disinfected before each act of compounding; and
        iii. By a person who has completed training for the type of compounding that will be performed.

I understand that I shall (NAC 639.4998):

a) Visit the ASC or RC at least once each month to:
    a. Evaluate the effectiveness of the policies and procedures established pursuant to NAC 693.4996; and
    b. Confirm that the ASC or RC is complying with those policies and procedures, the below provisions.
b) Maintain documentation of each visit that the pharmacist makes;
c) Conduct an audit at least once each month using a sufficient number of records of the ASC or RC, including, without limitation, records of patients and records relating to the purchasing, storing and dispensing of drugs and investigational drugs, which must be randomly selected, to determine whether:
    a. The records indicate that the drugs and investigational drugs are dispensed in a safe and effective manner in accordance with accepted standards of practice and the specifications of the manufacturer;
    b. Drugs and investigational drugs are diluted in accordance with accepted standards of practice or pursuant to the specifications of the manufacturer;
    c. The records demonstrate:
        i. That a discrepancy does not exist in the number of drugs and investigational drugs that are in vials designated by the manufacturer for a single use which are dispensed and the number of patients who receive such drugs and investigational drugs; and
        ii. That drugs, not including investigational drugs, which are in vials designated by the manufacturer for a single use and any remaining medication in those vials are discarded after use;
    d. The records demonstrate that drugs, not including investigational drugs, which are in vials designated by the manufacturer for more than one use are discarded when the medication in the vials has expired or not more than 28 days after the initial breach of the vial;
    e. The employees of the ASC or RC properly maintain accurate records relating to drugs and investigational drugs; and
    f. The employees of the ASC or RC properly monitor and maintain the perpetual inventory required pursuant to paragraph (d) of subsection 1 of NAC 639.4996; and
d) Submit a written report, including, without limitation, a written explanation, to the Board not later than 5 business days after the pharmacist determines that:
    a. The ASC or RC is violating a state or federal law which affects the care and safety of a patient;
    b. There is a discrepancy of 5 percent or more between the actual quantity of a controlled substance in the possession of the ASC or RC and the amount of the controlled substance that should be in the possession of the ASC or RC according to the records of the ASC or RC, including, without limitation:
        i. Purchase orders and invoices for the controlled substance;
        ii. Records which indicate the removal of the controlled substance from the storage area;
        iii. Patient records;
        iv. Records which indicate the return of the controlled substance to the manufacturer;
        v. Records which indicate that the controlled substance was destroyed; and
        vi. Any other record for the controlled substance;
    c. The recovery center or surgical center has intentionally or recklessly failed to create or maintain a record required by the policies and procedures established pursuant to NAC 639.4996;
    d. The recovery center or surgical center is administering a drug or an investigational drug in violation of accepted standards of practice or the specifications of the manufacturer; or

Mary Grear	

Name of Business/Industry/Entity
PRN, Inc.

Provide explanation below:

A complaint was made concerning grants made by the Board of Pharmacy to PRN, Inc. under the care of Mary Grear, Executive Director. The Board of Pharmacy sent notice of a request for hearing to the wrong mailing address even though the corect address was on file at the Board Office. This resulted in my not being aware that I needed to appear until after the Board Meeting. I subsequently prepared the requested documents and submitted them to the Board Auditors who found no discrepencies in the funds granted by the Board of Pharmacy to PRN and ethe expense record under my administration. A rehearing was held and the case was closed finding all monies were accounted for the PRN, Inc. grants.

Provide explanation below:

I was a defendant in a case entitled Scott Salkoff v. Neville Campbell, M.D., et. al. (Clark County Case No. A-19-801381-C) which was filed on September 5, 2019. Plaintiff Scott Salkoff was a patient at my clinic, Center for Wellness and Pain Care of Las Vegas, from June 2016 through December 2018. During this timeframe he saw Dr. Ruben Alexander and me for pain management. Mr. Salkoff had a long history of bilateral leg and low back pain since his L5-S1 fusion surgery in 2012. Mr. Salkoff expressed an interest in weaning off his pain medications. After conservative treatment, it was determined that Mr. Salkoff was an appropriate candidate for spinal stimulator implantation.
Mr. Salkoff underwent a spinal stimulator trial procedure on April 23, 2018 and reported complete pain relief in his back and legs. He then chose to proceed with permanent implant placement.
Mr. Salkoff was scheduled for permanent spinal stimulator implantation on November 2, 2018 at Parkway Surgery Center in Las Vegas. Dr. Alexander was the surgeon and I was the anesthesiologist. Although my office provided preoperative instructions to Mr. Salkoff, including an instruction not to eat or drink anything at least 6 hours prior to his check-in time, he advised the preoperative nurse that he had eaten earlier that day. The nurse then advised me that Mr. Salkoff had eaten that day but did not provide details. I then personally interviewed Mr. Salkoff before the procedure asking about what he had eaten and when. Mr. Salkoff told me that he had a light meal at noon that day. Since anesthesia for the procedure would begin no earlier than 6pm, we proceeded with surgery after advising Mr. Salkoff of the potential risk of aspiration and obtaining his consent.
Mr. Salkoff ultimately had a complication during the procedure which included aspiration of gastric contents and required intubation.
The lawsuit contends that Dr. Alexander and I should have cancelled the surgery because Mr. Salkoff had eaten earlier that day. I have maintained, and continue to maintain, that all my treatment of Mr. Salkoff was appropriate and complied with the standard of care.

NEVADA STATE BOARD OF PHARMACY

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **MICHAEL BURKINTAS, RPH,** **Certificate of Registration No. 15419,** **Respondent.**	**CASE NO. 22-063-RPH-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under Nevada Revised Statutes ("NRS") 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Michael Burkintas ("Burkintas"), Certificate of Registration No. 15419, was a pharmacist registered with the Board.

FACTUAL ALLEGATIONS

2. Respondent Burkintas was a pharmacist employed by Desert View Hospital Alliance ("Desert"), located on 360 S. Lola Lane in Pahrump, Nevada.

3. On or about February 18, 2022, Respondent Burkintas and other staff were asked to submit to a random drug and alcohol screening by Desert in connection with an investigation of possible drug diversion by a Desert employee/staff.

4. The test result of Respondent Burkintas' urinalysis was positive for amphetamines, a controlled substance in schedule II.

5. A medical officer of the drug and alcohol testing company contacted Respondent Burkintas by telephone for a potential medical reason or explanation for the positive result.

Respondent Burkintas confirmed that he was not prescribed any legal medication which would explain the positive result.

6. A review of Respondent Burkintas' prescription monitoring program ("PMP") report from April 20, 2017 to April 20, 2022 showed no amphetamines prescribed.

7. Desert terminated Respondent Burkintas on March 3, 2022 as a result of Desert's zero tolerance drug policy.

8. On or about March 29, 2022, Board staff interviewed Respondent Burkintas, who believed that the amphetamine test result was a false positive. He explained that the false positive may have occurred because he was taking over-the-counter medication and supplements, which included Loratadine/Pseudoephedrine, Chlorpheniramine, Phenylephrine, GHR, T-Max, and TermoRip. However, he did not request additional testing from Desert to contradict the "false positive", did not voluntarily test again on his own, nor did he contest his termination from Desert.

9. Respondent Burkintas stated that he would be taking a few months off from pharmacy work because of some physical ailments.

APPLICABLE LAW

10. NRS 453.331(1)(d) states, in relevant part, that "[i]t is unlawful for a person knowingly or intentionally to . . . [a]cquire or obtain . . . possession of a controlled substance . . . by misrepresentation, fraud, forgery, deception, subterfuge or alteration." Violating, attempting to violate, assisting or abetting in the violation of or conspiring to violate any law or regulation relating to drugs, the manufacture or distribution of drugs or the practice of pharmacy is grounds for suspension or revocation of any license issued by the Board. *See* NRS 639.210(12).

11. NRS 453.336(1) states, in relevant part, that "a person shall not knowingly or intentionally possess a controlled substance, unless the substance was obtained directly from, or pursuant to, a [lawful] prescription or order of a [practitioner]". Violating, attempting to violate, assisting or abetting in the violation of or conspiring to violate any law or regulation relating to

drugs, the manufacture or distribution of drugs or the practice of pharmacy is grounds for suspension or revocation of any license issued by the Board. *See* NRS 639.210(12).

12. "Performing or in any way being a party to any fraudulent or deceitful practice or transaction" constitutes "unprofessional conduct and conduct contrary to the public interest." NAC 639.945(1)(h). Conduct that is unprofessional or contrary to the public interest is grounds for suspension or revocation of any certificate, license or permit licensed by the Board. *See* NRS 639.210(4).

13. Violating any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs is grounds for suspension or revocation of any license issued by the Board. *See* NRS 639.210(11).

14. Respondent is subject to disciplinary action pursuant to NRS 639.210, and/or NRS 639.255.

COUNT ONE
Unlawful Acquisition of Controlled Substances

15. By unlawfully acquiring or diverting amphetamines, a controlled substance in schedule II, without a prescription as alleged herein, Respondent Burkintas violated, or attempted to violate, NRS 453.331(1)(d) and is subject to discipline pursuant to NRS 639.210(12), and/or NRS 639.255.

COUNT TWO
Unlawful Possession of Controlled Substances

16. By unlawfully possessing amphetamines, a controlled substance in schedule II, without a prescription as alleged herein, Respondent Burkintas violated, or attempted to violate, NRS 453.336(1) and is subject to discipline pursuant to NRS 639.210(12), and/or NRS 639.255.

COUNT THREE
Unprofessional Conduct - Deceitful Practice

17. By acquiring or diverting amphetamines, a controlled substance in schedule II, as alleged herein, and untruthfully denying such use, Respondent Burkintas was a party to any fraudulent or deceitful practice or transaction, engaged in unprofessional conduct and conduct

contrary to the public interest pursuant to NAC 639.945(1)(h) and is subject to discipline pursuant to NRS 639.210(4), and/or NRS 639.255.

COUNT FOUR
Violations of Federal Law

18. By ingesting and testing positive for amphetamines, a controlled substance in schedule II as alleged herein, Respondent Burkintas violated, or attempted to violate, 21 U.S.C. § 841(a), 21 U.S.C. § 842(a), and 21 U.S.C.§ 844, and is subject to discipline pursuant to NRS 639.210(11), and/or NRS 639.255.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of this Respondent.

Signed this 25th day of APRIL, 2022.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3); NRS 639.241. To do so, you must complete and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Notice of Intended Action and Accusation. NRS 622A.320; NRS 639.243. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **MICHAEL BURKINTAS, RPH,** **Certificate of Registration No. 15419,** **Respondent.**	**CASE NO. 22-063-RPH-S** **STATEMENT TO THE RESPONDENT AND NOTICE OF HEARING**

TO THE RESPONDENT ABOVE-NAMED: PLEASE TAKE NOTICE THAT:

1. Pursuant to the authority and jurisdiction conferred upon the Nevada State Board of Pharmacy (Board) by NRS 639.241 to NRS 639.2576, inclusive, and NRS chapter 233B and 622A, a Notice of Intended Action and Accusation has been filed with the Board by the Petitioner, J. David Wuest, Executive Secretary for the Board, alleging grounds for imposition of disciplinary action by the Board against you, as is more fully explained and set forth in the Notice of Intended Action and Accusation served herewith and hereby incorporated reference herein.

2. You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3); NRS 639.241. To do so, you must complete and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Statement and Notice, and of the Notice of Intended Action and Accusation served within. NRS 622A.320; NRS 639.243.

3. **The Board has scheduled your hearing on this matter for Wednesday, June 1, 2022, at 9:00 AM PST or soon thereafter at the following location:**

Hilton Garden Inn Las Vegas Strip South
7830 S. Las Vegas Blvd
Las Vegas, NV 89123

4. Pursuant to NRS 241.033 and 241.034, please be advised that the hearing is a public meeting, and the Board may, without further notice, take administrative action against you if the Board determines that such administrative action is warranted after considering your character, alleged misconduct, professional competence, or physical or mental health. The Board at its discretion may go into closed session to consider your character, alleged misconduct, professional competence, or physical or mental health. You may attend any closed session, have an attorney or other representative of your choosing present during any closed session, and present written evidence, provide testimony, and present witnesses relating to your character, alleged misconduct, professional competence, or physical or mental health during any closed session.

5. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350.

DATED this 25th day of APRIL 2022.

NEVADA STATE BOARD OR PHARMACY Petitioner, v. MICHAEL BURKINTAS, RPH Certificate of Registration No. 15419 Respondent.	CASE NO.: 22-063-RPH-S ANSWER AND NOTICE OF DEFENSE

Mr. Michael Burkintas, RPH, ("Mr. Burkintas"), by and through his counsel of record MURPHY JONES APC, in answer to the Notice of Intended Action and Accusation ("Accusation") filed in the above-entitled matter before the Nevada State Board of Pharmacy ("Board"), declares as follows:

1. Objection to the Notice of Intended Action and Accusation as being incomplete or failing to state clearly the charges against him, is hereby interposed on the following grounds:

None.

2. That, in answer to the Notice of Intended Action and Accusation, Mr. Burkintas admits, denies and alleges as follows:

Mr. Burkintas has recently retained legal counsel who is conducting an independent investigation into the allegations espoused in the Accusation, including, but not limited to, efforts to determine the root cause of the false positive urinalysis screen. Mr. Burkintas requests a hearing in the matter, on the merits of the case, and will provide additional information and produce relevant documentation, after his legal counsel has been afforded the opportunity to adequately prepare a defense to the Accusation. With the afore-referenced reservation, Mr. Burkintas admits and denies the allegations espoused in the Notice of Intended Action and Accusation as follows:

////

I.

Mr. Burkintas admits that the Board has jurisdiction over this matter.

II - III.

Mr. Burkintas admits that he was employed by Desert View Hospital and voluntarily submitted a random urinalysis specimen on February 18, 2022.

IV - IX.

Mr. Burkintas is without knowledge or information sufficient to form a belief as to the truth or falsity of the allegations contained in paragraph IV-IX and therefore denies the same.

COUNT ONE
(Unlawful Acquisition of Controlled Substance)

Mr. Burkintas states that the allegations contained in paragraph XV contain legal conclusions and therefore denies the same.

COUNT TWO
(Unlawful Acquisition of Controlled Substances)

Mr. Burkintas states that the allegations contained in paragraph XVI contain legal conclusions and therefore denies the same.

COUNT THREE
(Unprofessional Conduct – Deceitful Practice)

Mr. Burkintas states that the allegations contained in paragraph XVII contain legal conclusions and therefore denies the same.

COUNT FOUR
(Violations of Federal Law)

Mr. Burkintas states that the allegations contained in paragraph XVIII contain legal conclusions and therefore denies the same.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **CVS PHARMACY #10861,** **Pharmacy License No. PH03798,** **YUNA EUN, RPH,** **Certificate of Registration No. 19627, and** **CYNTHIA TO, RPH,** **Certificate of Registration No. 19604,** **Respondents.**	**CASE NOS. 18-008-PH-S** **18-008-RPH-A-S** **18-008-RPH-B-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because at the time of the events alleged herein, Respondent CVS Pharmacy #10861 ("CVS") held a Nevada Pharmacy License No. PH03798, Respondent Yuna Eun, RPh, ("Eun") held a Nevada Pharmacist Certificate of Registration No. 19627, and Respondent Cynthia To, RPh, ("To") held a Nevada Pharmacist Certificate of Registration No. 19604, all issued by the Board.

FACTUAL ALLEGATIONS

2. Respondent CVS is located at 8491 Farm Road in Las Vegas, Nevada.

3. Respondent Eun was employed as the pharmacy manager of CVS during the alleged and relevant timeframes.

4. Respondent To was employed as a staff pharmacist of CVS during the alleged and relevant timeframes.

5. On or about January 10, 2018, Dr. N.H. wrote a prescription for patient E.R. for a quantity of sixty (60) trazodone HCI 50 mg tablets with instructions to take 1-2 tablets at bedtime. Trazodone is generally prescribed as a sleep aid, to treat depression, and/or to treat anxiety.

6. Patient E.R. presented the written prescription to CVS, and CVS designated prescription number 109100.

7. During the data entry process, Respondent To mistakenly selected tramadol instead of trazodone from the drop-down menu in the computer. A label was printed, and PT A.M. filled the prescription with tramadol 50 mg. Tramadol is a schedule IV strong opioid pain killer.

8. Respondent Eun performed data entry verification, drug utilization review ("DUR") overrides, and final verification. DURs included three (3) hard-stop warnings and twelve (12) soft-stop warnings. The three hard-stop warnings consisted of (1) drug allergy to Norco, (2) drug allergy to tramadol, and (3) duplicate therapy oxycodone-acetaminophen filled on December 29, 2017.

9. Prescription number 109100 containing the wrong medication ***tramadol*** 50mg instead of the correct medication, **trazodone HCI 50 mg,** was sold/dispensed to patient E.R. at 6:26 p.m. on January 10, 2018.

10. At the time of dispensing, Respondent Eun did not verbally provide counseling to patient E.R. and did not document whether counseling was provided or refused.

11. Patient E.R. experienced symptoms of itchiness and urinary retention after taking 4 total pills, so she discontinued taking the misfilled tramadol medication as it did not help her to fall sleep.

APPLICABLE LAW

12. A pharmacy must be managed by a registered pharmacist who is responsible for compliance by the pharmacy and personnel with all state, and federal laws and regulations regarding the operation of the pharmacy. NRS 639.220(1).

13. Unprofessional conduct includes a licensee failing strictly to follow the instructions of the prescribing practitioner in filling of and/or content of the label of the prescription. NAC 639.945(1)(d).

14. Unprofessional conduct includes a licensee performing his or her duties in an "incompetent, unskillful, or negligent manner." NAC 639.945(1)(i).

15. A pharmacist shall provide verbal counseling to a patient concerning the name and use of the drug, and shall document whether counseling was provided or refused. NAC 639.707(1), (2), and (6)(b).

16. A managing pharmacist is responsible for overseeing and verifying the work of employees. A managing pharmacist is also responsible for violations committed by the pharmacy's employees. NAC 639.702.

17. A pharmacy owner is responsible for violations committed by the pharmacy's employees. NRS 639.230; NAC 639.702; NAC 639.945.

18. Respondents are subject to discipline for violations pursuant to NRS 639.210 and/or NRS 639.255.

FIRST COUNT
Unprofessional Conduct – Failure to Strictly Follow Instructions of Prescribing Practitioner (Respondents Eun and To)

19. Respondent To engaged in unprofessional conduct when she failed to enter the prescription data correctly, therefore failed to strictly follow the instructions of the prescribing practitioner N.H. to fill **trazodone** instead of the incorrect medication ***tramadol*** in violation of NAC 639.945(1)(d), and is therefore subject to discipline pursuant to NRS 639.210(4), (12), and/or NRS 639.255.

20. Respondent Eun engaged in unprofessional conduct when she failed to recognize the incorrect filling of the prescription pursuant to the instructions of the prescribing practitioner upon data entry verification, DUR, and final verification resulting in the sale of tramadol instead of the correct prescribed medication trazodone in violation of NAC 639.945(1)(d), and is therefore subject to discipline pursuant to NRS 639.210(4), (12), and/or NRS 639.255.

SECOND COUNT
Unprofessional Conduct – Incompetent, Unskillful and Negligent Conduct (Respondents Eun and To)

21. Respondent To engaged in unprofessional conduct and conduct contrary to the public interest, and performed her duties in an incompetent, unskillful or negligent manner when she failed to enter the prescription of trazodone correctly, and is therefore subject to discipline pursuant to NRS 639.210(4), (12), and/or NRS 639.255.

22. Respondent Eun engaged in unprofessional conduct and conduct contrary to the public interest, and performed her duties in an incompetent, unskillful or negligent manner when she failed to correctly verify the prescription of trazodone at data entry verification, DUR, and final verification, and is therefore subject to discipline pursuant to NRS 639.210(4), (12), and/or NRS 639.255.

///

///

///

THIRD COUNT
Failure to Provide/Document Counseling
(Respondent Eun)

23. Respondent Eun failed to provide counseling to patient E.R. and did not document if counseling was provided or refused in violation of NAC 639.707(1), (2), and (6)(b), and is therefore subject to discipline pursuant to NRS 639.210(12), (15), and/or NRS 639.255.

FOURTH COUNT
Pharmacy/Pharmacy Owner Responsibility
(Respondent CVS)

24. As the pharmacy/pharmacy owner at which the violations of law alleged herein occurred, CVS is responsible for those violations, including those of the pharmacy's employees, pursuant to NAC 639.702, NAC 639.945(2) and is therefore subject to discipline pursuant to NRS 639.210 and/or NRS 639.255.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the license(s)/registration(s) of these Respondents.

Signed this 31st day of August 2022.

Courtney K. Lee, General Counsel for Petitioner, the Nevada State Board of Pharmacy ("Board"), and Respondent Cynthia To, RPh ("To"), Certificate of Registration No. 19604, by and through counsel Kevin Murphy, Esq., of the law firm of Murphy Jones APC, **HEREBY STIPULATE AND AGREE THAT**:

1. The Board has jurisdiction over Respondent To and these matters.

2. On or about August 31, 2022, Board Staff served Respondent To with the Notice of Intended Action and Accusation ("Accusation") on file in this matter together with the Statement to Respondent and Notice of Hearing.

3. Respondent, in lieu of filing an Answer, submits this Stipulation and Order for the Board's consideration.

4. Respondent is aware of the right to seek the advice of counsel in this matter and obtained the advice of counsel prior to entering this Stipulation.

5. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, their right to reconsideration, their right to appeal, and any and all other rights which may be accorded pursuant to NRS Chapter 233B, Nevada Administrative Procedure Act, NRS Chapter 622A, Administrative Procedure Before Certain Regulatory Bodies, and NRS Chapter 639, Nevada Pharmacy Act.

6. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondent has failed to comply with the provisions of this Stipulation, Respondent hereby freely and voluntarily waives her rights to a hearing, reconsideration, appeal and any and all other rights related to this action that may be accorded to them by NRS Chapter 233B, Nevada Administrative Procedure Act, NRS Chapter 622A, Administrative Procedure Before Certain Regulatory Bodies, and NRS Chapter 639, Nevada Pharmacy Act.

7. Respondent admits that evidence exists, and that Board's staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for certain of the violations alleged in the Accusation, that:

A. Respondent To engaged in unprofessional conduct when she failed entered the prescription data correctly, therefore failed to strictly follow the instructions of the prescribing practitioner N.H. to fill **trazodone** instead of the incorrect medication ***tramadol*** for patient E.R., prescription number 109100, in violation of NAC 639.945(1)(d) and (i).

8. These violations are plead with particularity in the Accusation, and are grounds for disciplinary action against Respondent pursuant to NRS 639.210 and/or NRS 639.255.

9. In order to resolve this matter without incurring any further costs or the expense associated with a hearing, the Board and Respondent To, Certificate of Registration No. 19604, stipulate to the following penalties and/or conditions:

A. Respondent To shall pay a fine of One-Thousand Dollars ($1,000.00) for the violations; and

B. Respondent To shall pay Five-Hundred Dollars ($500.00) to partially reimburse the Board for recoverable attorney's fees and investigative costs.

10. Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing the non-compliant Respondent(s) to appear before the Board at the next regularly-scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation

of this Order by any Respondent, the Board may impose additional discipline upon the non-compliant Respondent consistent with the provisions of NRS Chapter 639.

11. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on January 11, 2023. Respondent will appear in person at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent or counsel are not present at the meeting.

12. The Board has discretion to accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 USC § 1396r–2 and 45 CFR Part 60.

13. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the merits of this matter may be heard by the Board on the same day or at a later date. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

14. Upon approval of this Stipulation by the Board, Respondent shall pay the fines agreed to herein by *personal check, business check, cashier's check* or *certified check* or *money order* made payable to "**State of Nevada, Office of the Treasurer**," to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within thirty (30) days of entry of this Order.

15. Upon approval of this Stipulation by the Board, Respondent shall pay the attorney's fees and investigative costs agreed to herein by *personal check, business check, cashier's check* or *certified check* or *money order* made payable to "**Nevada State Board of Pharmacy**," to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within thirty (30) days of entry of this Order.

16. Subject to the approval of this Stipulation by the Board, the Board and Respondent agrees to release one another from any and all additional claims arising from the

facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order.

Respondent has fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and has freely and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

AGREED:

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **ABDEL M. KHALEK, MD,** **Certificate of Registration Nos. CS19745 and PD00722,** **ROBERT CHANCELLOR, MD,** **Certificate of Registration Nos. CS22616 and PD27416, and** **LINDSAY HOFFMAN, PA-C,** **Certificate of Registration Nos. CS18262 and PD00177,** **Respondents.**	**Case Nos. 19-003-CS-A-S** **19-003-CS-B-S** **19-003-CS-C-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter because at the time of the events alleged herein, Respondent Abdel M. Khalek, MD (Khalek), held a controlled substance registration, Certificate of Registration No. CS19745, and dispensing practitioner registration, Certificate of Registration No. PD00722; Respondent Robert Chancellor, MD (Chancellor), held a controlled substance registration, Certificate of Registration No. CS22616, and dispensing practitioner registration, Certificate of Registration No. PD27416; and Lindsay Hoffman, PA-C (Hoffman), held a controlled substance registration, Certificate of Registration No. CS18262, and dispensing practitioner registration, Certificate of Registration No. PD00177, all issued by the Board.

FACTUAL ALLEGATIONS

2. Vinay Kumar Bararia, MD (Bararia) was not registered with the Board at the time of the events alleged herein.

3. Bararia voluntarily surrendered his license to practice medicine, License No. 11355, to the Nevada State Board of Medical Examiners (NSBME) on March 8, 2013, and was sentenced in federal court for distribution of controlled substances in September 2014.

4. Bararia has owned and operated Nevada Health Services, LLC aka Trimcare (Trimcare), located at 5375 South Fort Apache Road, Suites 102 and 103, in Las Vegas, since August 2018.

5. Khalek co-owned and/or was employed at Trimcare from October 2018 to April 2019.

6. Chancellor co-owned and/or was employed by Trimcare from November 2018 to the present.

7. Hoffman was employed by Trimcare from August 2018 to present.

8. Ageless Aesthetics (Ageless Aesthetics), an unnamed third party, is a medical spa that operates at 5375 South Fort Apache Road, Suite 101, Las Vegas, Nevada 89148, next door to Trimcare, for which Khalek was the medical director from approximately October 2018 to April 2019.

9. Investigators from the Board, the Nevada State Board of Medical Examiners (BME) and the Drug Enforcement Administration (DEA) conducted a joint investigation of Trimcare and found evidence of misconduct and violations involving the unlawful possession, administration, prescribing and dispensing of controlled substances and/or dangerous drugs.

10. Khalek, Chancellor and Hoffman permitted Bararia, who was not a licensed practitioner, in the course of operating Trimcare to purchase, access, store, possess, administer, furnish, prescribe and/or dispense controlled substances and dangerous drugs under another

practitioner's name, without that practitioner having a bona fide therapeutic relationship with any such patient or the practitioner being present at the time the prescription was dispensed, and/or otherwise falsely represent himself as a practitioner entitled to write prescriptions in this state.

11. Khalek unlawfully prescribed controlled substances and/or dangerous drugs, including, without limitation, Testosterone, Phentermine, Phendimetrazine, Topamax, Botox, and Juvederm, for at least two-hundred ninety-eight (298) patients with whom he did not have a bona fide therapeutic relationship from September 2018 to April 2019 by pre-signing prescriptions, providing his log-on information to e-scribing systems to Bararia, and/or failing to secure his secondary authenticator for e-scribing CII medications.

12. Chancellor unlawfully prescribed controlled substances and/or dangerous drugs, including, without limitation, Adderall, Phentermine, and Topamax, for at least ten (10) patients with whom he did not have a bona fide therapeutic relationship from November 2018 to present by pre-signing prescriptions, his log-on information to e-scribing systems to Bararia, and/or failing to secure his secondary authenticator for e-scribing CII medications.

13. Hoffman unlawfully prescribed controlled substances/dangerous drugs, including, but not limited to, Phentermine, and Topamax for at least two (2) patients with whom she did not have a bona fide therapeutic relationship in April 2019 by pre-signing prescriptions.

14. Khalek, Chancellor and Hoffman permitted access of their inventory of controlled substances and dangerous drugs to unlicensed employees of Trimcare and/or Ageless Aesthetics.

15. Khalek, Chancellor and Hoffman failed to issue a written prescription for each medication dispensed, failed to verify medications for accuracy prior to dispensing, failed to maintain complete, accurate and readily retrievable records of all controlled substances and dangerous drugs purchased and dispensed, failed to inventory controlled substances at least once every two (2) years, failed to properly store and maintain the inventory, failed to maintain the

security of the inventory from unauthorized access, and failed to segregate and/or dispose of adulterated and/or expired dangerous drugs.

16. Chancellor and Hoffman had possession of pre-drawn, unlabeled syringes containing an unidentified dangerous drug.

17. On or about July 7, 2020, Board staff served Bararia with an order pursuant to NRS 639.2895(1) to immediately cease and desist possessing, administering, prescribing and/or dispensing controlled substances and dangerous drugs for Nevada patients from Trimcare.

APPLICABLE LAW

18. No person other than a practitioner holding a license to practice his or her profession in this State may prescribe or write a prescription. NRS 639.235(1).

19. A prescription for a controlled substance may be issued only for a legitimate medical purpose and in the usual course of his or her professional practice by an individual practitioner who holds a DEA registration and is authorized to prescribe controlled substances by the jurisdiction in which he is licensed to practice his profession. 21 U.S.C. § 822(a)(2); 21 U.S.C. § 823(f); 21 CFR § 1306.03(a)(1); NRS 453.381(1).

20. It is unlawful for a practitioner to prescribe or dispense a controlled substance or dangerous drug except as authorized by law. NRS 453.226(1); NRS 453.321(1)(a); NRS 454.215; NRS 454.301, NRS 639.100(1); NRS 639.23505; NAC 453.410; NAC 639.742; NAC 639.745.

21. It is unlawful for a person to purchase, possess, administer or furnish a dangerous drug except as authorized by law. NRS 454.213(1); NRS 454.221; NRS 454.311; NRS 454.316; NRS 454.321 and/or NRS 454.356.

22. It is a felony offense to falsify a prescription for a controlled substance or otherwise purchase or possess a controlled substance except as authorized by law. 21 U.S.C. § 841(a); 21 U.S.C. § 842(a); NRS 453.331(1)(c), (d), (f), (h) and (i).

23. Falsely representing oneself as a practitioner entitled to write prescriptions in this state is a felony offense. 21 U.S.C. § 841(a); 21 U.S.C. § 842(a); NRS 639.281(1); NRS 639.2813(1).

24. Conspiring to violate the Controlled Substances Act is a felony offense. 21 U.S.C. § 846; NRS 453.401(1)(a).

25. A dispensing practitioner must issue a written prescription for each medication dispensed, verify medications for accuracy prior to dispensing, maintain complete, accurate and readily retrievable records of all controlled substances and dangerous drugs purchased and dispensed, inventory controlled substances at least once every two (2) years, properly store and maintain the inventory, maintain the security of the inventory from unauthorized access, and segregate and/or dispose of adulterated and/or expired dangerous drugs. 26. Performing or in any way being a party to any fraudulent or deceitful practice or transaction constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(h) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

27. Performing any duties as the holder of a controlled substance registration or a dispensing practitioner registration in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(i) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

28. Aiding or abetting a person not licensed to practice pharmacy in the State of Nevada constitutes unprofessional conduct or conduct contrary to the public interest pursuant to

NAC 639.945(1)(j) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

29. Dispensing a drug as a dispensing practitioner or prescribing a drug as a prescribing practitioner to a patient with whom the practitioner does not have a bona fide therapeutic relationship constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(n) and (o) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

30. Violating any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(11).

31. Violating, attempting to violate, assisting or abetting in the violation of or conspiring to violate any law or regulation relating to drugs is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(12).

32. The Board may suspend or revoke a registration issued pursuant to NRS 453.231 to prescribe or otherwise dispense a controlled substance upon a finding that the registrant has committed an act that would render registration inconsistent with the public interest. NRS 453.236(1)(d) and NRS 453.241(1).

FIRST CAUSE OF ACTION

Unprofessional Conduct – Party to a Fraudulent/Deceitful Practice/Transaction

33. By permitting Bararia, who was not a licensed practitioner, in the course of operating Trimcare to purchase, access, store, possess, administer, furnish, prescribe and/or dispense controlled substances and dangerous drugs under another practitioner's name, without that practitioner having a bona fide therapeutic relationship with any such patient or the practitioner being present at the time the prescription was dispensed, and/or otherwise falsely represent himself as a practitioner entitled to write prescriptions in this state, including pre-

signing prescriptions, providing log-on information to e-scribing systems to Bararia, and failing to secure secondary authenticator for e-scribing CII medications, Khalek, Chancellor and Hoffman were party to a fraudulent or deceitful practice or transaction and engaged in unprofessional conduct and conduct contrary to the public interest in violation of NAC 639.945(1)(h), and are subject to discipline pursuant to NRS 453.236(1) and NRS 639.210(4).

SECOND CAUSE OF ACTION
Unprofessional Conduct – Incompetent, Unskillful or Negligent Performance of Duties

34. By permitting Bararia, who was not a licensed practitioner, in the course of operating Trimcare to purchase, access, store, possess, administer, furnish, prescribe and/or dispense controlled substances and dangerous drugs under another practitioner's name, without that practitioner having a bona fide therapeutic relationship with any such patient or the practitioner being present at the time the prescription was dispensed, and/or otherwise falsely represent himself as a practitioner entitled to write prescriptions in this state, including pre-signing prescriptions, providing log-on information to e-scribing systems to Bararia, and failing to secure secondary authenticator for e-scribing CII medications, Khalek, Chancellor and Hoffman performed their duties as the holders of controlled substance registrations and dispensing practitioner registrations in an incompetent, unskillful or negligent manner and engaged in unprofessional conduct and conduct contrary to the public interest in violation of NAC 639.945(1)(i), and are subject to discipline pursuant to NRS 453.236(1) and NRS 639.210(4).

THIRD CAUSE OF ACTION
Unprofessional Conduct – Aiding and Abetting Unlicensed Practice

35. By permitting Bararia, who was not a licensed practitioner, in the course of operating Trimcare to purchase, access, store, possess, administer, furnish, prescribe and/or dispense controlled substances and dangerous drugs under another practitioner's name, without that practitioner having a bona fide therapeutic relationship with any such patient or the

practitioner being present at the time the prescription was dispensed, and/or otherwise falsely represent himself as a practitioner entitled to write prescriptions in this state, including pre-signing prescriptions, providing log-on information to e-scribing systems to Bararia, and failing to secure secondary authenticator for e-scribing CII medications, Khalek, Chancellor and Hoffman aided or abetted a person not licensed to practice pharmacy in the State of Nevada and engaged in unprofessional conduct and conduct contrary to the public interest in violation of NAC 639.945(1)(j), and are subject to discipline pursuant to NRS 453.236(1) and NRS 639.210(4).

FOURTH CAUSE OF ACTION
Unprofessional Conduct – Prescribing/Dispensing Without Bona Fide Therapeutic Relationship

36. By unlawfully prescribing and dispensing controlled substances to patients with whom they did not have a bonda fide therapeutic relationship, Khalek, Chancellor and Hoffman engaged in unprofessional conduct and conduct contrary to the public interest in violation of NAC 639.945(1)(n) and (o), and are subject to discipline pursuant to NRS 453.236(1) and NRS 639.210(4).

FIFTH CAUSE OF ACTION
Violations of Federal Controlled Substances Act

37. By permitting Bararia, who was not a licensed practitioner, in the course of operating Trimcare to purchase, access, store, possess, administer, furnish, prescribe and/or dispense controlled substances and dangerous drugs under another practitioner's name, without that practitioner having a bona fide therapeutic relationship with any such patient or the practitioner being present at the time the prescription was dispensed, and/or otherwise falsely represent himself as a practitioner entitled to write prescriptions in this state, including pre-signing prescriptions, providing log-on information to e-scribing systems to Bararia, and failing to secure secondary authenticator for e-scribing CII medications, Khalek, Chancellor and

Hoffman violated, attempted to violate, assisted or abetted in the violation of or conspired to violate 21 U.S.C. § 822(a)(2), 21 U.S.C. § 823(f), 21 U.S.C. § 841(a), 21 U.S.C. § 842(a), 21 U.S.C. § 846 and 21 CFR §§ 1306.03–1306.05, and are subject to discipline pursuant to NRS 453.236(1) and NRS 639.210(11).

SIXTH CAUSE OF ACTION
Violations of State Law for Unlicensed Practice

38. By permitting Bararia, who was not a licensed practitioner, in the course of operating Trimcare to purchase, access, store, possess, administer, furnish, prescribe and/or dispense controlled substances and dangerous drugs under another practitioner's name, without that practitioner having a bona fide therapeutic relationship with any such patient or the practitioner being present at the time the prescription was dispensed, and/or otherwise falsely represent himself as a practitioner entitled to write prescriptions in this state, including pre-signing prescriptions, providing log-on information to e-scribing systems to Bararia, and failing to secure secondary authenticator for e-scribing CII medications, Khalek, Chancellor and Hoffman violated, attempted to violate, assisted or abetted in the violation of or conspired to violate, or knowingly permitted, allowed, condoned or failed to report a violation of NRS 453.226, NRS 453.316, NRS 453.321(1)(a), NRS 453.331 (1)(c)(d)(f)&(i), NRS 453.381(1), NRS 453.401(l)(a), NRS 454.213, NRS 454.215, NRS 454.221, NRS 454.311, NRS 454.316, NRS 454.321, NRS 639.100(1), NRS 639.235, NRS 639.23505, NRS 639.281, NRS 639.2813 and NRS 639.310, and are subject to discipline pursuant to NRS 453.236(1) and NRS 639.210(12).

SEVENTH CAUSE OF ACTION
Failure to Maintain Security of Controlled Substances or Dangerous Drugs

39. By failing to maintain proper locked security of their inventory of controlled substances and dangerous drugs and/or permitting unauthorized access to their inventory by Bararia and/or other unlicensed employees of Trimcare and/or Ageless Aesthetics, Khalek,

Chancellor and Hoffman violated NAC 453.400, NAC 453.410(1)(d), NAC 454.040, NAC 639.742(3)(c), NAC 639.742(3)(a)(b)(c)&(e), and NAC 639.745(1)(c), and are subject to discipline pursuant to NRS 453.236(1) and NRS 639.210(12).

EIGHTH CAUSE OF ACTION
Failure to Maintain Records for Controlled Substances Dispensed

40. By failing to keep complete, accurate, and readily retrievable records of all controlled substances dispensed, including failing to issue a written prescription for each medication dispensed and failing to inform the patient that he or she may request a written prescription to have it filled at another location of their choice, Khalek, Chancellor, and Hoffman violated NRS 453.246, NAC 453.410(1)(a)(B) and (2), NAC 639.745(2) and (3)(b)(2), 21 U.S.C. § 842(a)(5), 21 CFR 1304.11 and 21 CFR § 1304.21, and are subject to discipline pursuant to NRS 453.236(1) and NRS 639.210(11), (12) and (17).

NINTH CAUSE OF ACTION
Failure to Verify Dispensed Medications for Accuracy

41. By failing to verify medications for accuracy prior to dispensing, Khalek, Chancellor, and Hoffman violated NAC 639.743(2)(a) and (b), and are subject to discipline pursuant to NRS 453.236(1) and NRS 639.210(12).

TENTH CAUSE OF ACTION
Failure to Inventory Controlled Substances Every Two Years

42. By failing to inventory controlled substances at least once every two (2) years, Khalek, Chancellor, and Hoffman violated NRS 453.246, NAC 453.475(1)(b), 21 U.S.C. § 842(a)(5), 21 CFR 1304.11 and 21 CFR § 1304.21 and are subject to discipline pursuant to NRS 453.236(1) and NRS 639.210(11), (12) and (17).

ELEVENTH CAUSE OF ACTION

Failure to Properly Segregate/Dispose Adulterated/Expired Drugs

43. By failing to properly segregate and/or dispose of adulterated and/or expired dangerous drugs for administration, Khalek, Chancellor, and Hoffman violated NRS 585.370(1), NRS 639.282(1)(d), NAC 639.050(2), NAC 639.473(1) and (3), NAC 639.510(3) and NAC 639.601(1), and are subject to discipline pursuant to NRS 453.236(1) and NRS 639.210(12).

TWELFTH CAUSE OF ACTION

Failure to Properly Label Pre-Filled Syringes Against

44. By pre-filling syringes without proper labels and/or temperature control, Chancellor and Hoffman violated NRS 585.420, NRS 639.282 (1)(e), NAC 639.476 and NAC 639.510, and are subject to discipline pursuant to NRS 453.236(1) and NRS 639.210 (12).

THIRTEENTH CAUSE OF ACTION

Commission of Acts that Render Registration Inconsistent with the Public Interest

45. By their actions as set forth herein, Khalek, Chancellor and Hoffman have committed acts that render their registrations to prescribe or otherwise dispense a controlled substance inconsistent with the public interest pursuant to NRS 453.231, and are subject to discipline pursuant to NRS 453.236(1)(d) and NRS 453.241(1).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of these respondents.

DATED this 24th day of July, 2020.

Nevada State Board of Pharmacy

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **ROBERT CHANCELLOR, MD,** **Certificate of Registration Nos. CS22616 and PD27416,** **Respondent.**	**CASE NO. 19-003-CS-B-S** **STATEMENT TO THE RESPONDENT AND NOTICE OF HEARING**

TO THE RESPONDENT ABOVE-NAMED: PLEASE TAKE NOTICE THAT:

I.

Pursuant to the authority and jurisdiction conferred upon the Nevada State Board of Pharmacy (Board) by NRS 639.241 to NRS 639.2576, inclusive, and NRS chapter 233B and 622A, a Notice of Intended Action and Accusation has been filed with the Board by the Petitioner, J. David Wuest, Executive Secretary for the Board, alleging grounds for imposition of disciplinary action by the Board against you, as is more fully explained and set forth in the Notice of Intended Action and Accusation served herewith and hereby incorporated reference herein.

II.

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3); NRS 639.241. To do so, you must complete and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Statement and Notice, and of the Notice of Intended Action and Accusation served within. NRS 639.320; NRS 639.243.

III.

The Board has scheduled your hearing on this matter for Wednesday, September 2, 2020, at 9:00 a.m. or soon thereafter. The hearing will occur at the Hilton Garden Inn, 7830 S. Las Vegas Blvd., Las Vegas, Nevada.

IV.

Pursuant to NRS 241.033 and 241.034, please be advised that the hearing is a public meeting, and the Board may, without further notice, take administrative action against you if the Board determines that such administrative action is warranted after considering your character, alleged misconduct, professional competence, or physical or mental health. The Board at its discretion may go into closed session to consider your character, alleged misconduct, professional competence, or physical or mental health. You may attend any closed session, have an attorney or other representative of your choosing present during any closed session, and present written evidence, provide testimony, and present witnesses relating to your character, alleged misconduct, professional competence, or physical or mental health during any closed session.

V.

Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350.

DATED this 24th day of July, 2020.

Keegan, Esq., and Respondent Robert Chancellor, MD ("Chancellor"), Certificate of Registration Nos. CS22616 and PD27416, and Respondent Lindsay Hoffman, PA-C ("Hoffman"), Certificate of Registration Nos. CS18262 and PD00177, by and through counsel, E. Brent Bryson, Esq., **HEREBY STIPULATE AND AGREE THAT**:

1. The Board has jurisdiction over Respondents Chancellor and Hoffman and this matter.

2. On or about July 24, 2020, Board Staff served Respondents Chancellor and Hoffman with the Notice of Intended Action and Accusation ("Accusation") on file in this matter together with the Statement to Respondent(s) and Notice of Hearing.

3. On or about August 17, 2020, Respondent Chancellor filed an Answer and Notice of Defense ("Answer") *in proper person*. Respondent Chancellor subsequently retained counsel E. Brent Bryson, Esq.

4. On or about August 17, 2020, Respondent Hoffman filed an Answer and Notice of Defense ("Answer") *in proper person.* Respondent Hoffman subsequently retained counsel E. Brent Bryson, Esq.

5. Respondents Chancellor and Hoffman are fully aware of the right to seek the advice of counsel in this matter and obtained the advice of counsel prior to entering this Stipulation.

6. Respondents Chancellor and Hoffman are aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration, the right to appeal, and any and all other rights which may be accorded pursuant to NRS Chapter 233B, Nevada Administrative Procedure Act, NRS Chapter 622A, Administrative Procedure Before Certain Regulatory Bodies, and NRS Chapter 639, Nevada Pharmacy Act.

7. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondents Chancellor and Hoffman failed to comply with the provisions of this Stipulation and Order, Respondents hereby freely and voluntarily waive their right to a hearing, reconsideration, appeal and any and all other rights related to this action that may be accorded to them by NRS Chapter 233B, Nevada Administrative Procedure Act, NRS Chapter 622A, Administrative Procedure Before Certain Regulatory Bodies, and NRS Chapter 639, Nevada Pharmacy Act.

8. Respondent Chancellor admits that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for certain of the violations alleged in the Accusation, that Respondent Chancellor:

A. Permitted unlicensed staff to access and/or possess controlled substances and/or dangerous drugs, in violation of NRS 415.336(1) NRS 454.213(1); NRS 639.100(1); NRS 639.235(1); NAC 639.742(2)(e); NAC 639.743(1); and/or NRS 63.210(4) pursuant to NAC 639.945(1)(i) and (j).

B. Failed to maintain effective security controls by allowing unregistered persons key access to controlled substances and/or dangerous drugs in violation of NAC 453.400; and NAC 454.040.

C. Failed to issue a written prescription for each medication dispensed, failed to verify medications for accuracy prior to dispensing, failed to maintain complete, accurate and readily retrievable records of all controlled substances and/or dangerous drugs purchased and dispensed, failed to inventory controlled substances at least once every two (2) years, failed to properly store and maintain the inventory, and failed to segregate and/or dispose of adulterated and/or expired dangerous drugs in violation of NRS 453.246; NAC 453.410(1)(a-b) and (2); NRS 454.286; NRS 454.301; and NRS 639.745(1- 3).

D. Possessed pre-drawn, unlabeled syringes containing unidentified dangerous drugs in violation of NRS 639.2801; and NRS 585.420.

9. These violations are plead with particularity in the Accusation, and are grounds for disciplinary action pursuant to NRS 453.236; NRS 453.241; NRS 639.210(4), (12), and (17); and/or NRS 639.255(3).

10. In order to resolve this matter without incurring any further costs or the expense associated with a hearing, and with Chancellor not conceding or admitting to such allegations, the Board and Chancellor stipulate to the following penalties and conditions.

A. Respondent Chancellor's Certificate of Registration to Dispense Controlled Substances and Dispensing Practitioner Registration, Certificates of Registration Nos. CS22616 and PD27416, are hereby suspended, but the suspension is stayed, and Chancellor shall be placed on probation for a period of one year. During the one-year probationary period, Chancellor's dispensing practice located at 5052 S. Jones Blvd. #145, Las Vegas, Nevada 89118, shall undergo two (2) inspections by the Board of Pharmacy, at Chancellor's expense. Additionally, Chancellor shall provide proof to the

Board inspectors, within six months of the effective date of this Order, that he has updated the policies and procedures for the following:

i. Security of medications on site;
ii. Procedure for security of electronic prescribing of controlled substance two-factor authentication;
iii. Procedure for ordering medications;
iv. Procedure for the prescribing and dispensing medications;
v. Procedure for inventorying controlled substance medications;
vi. Procedure for identifying and quarantining expired medications;
vii. Procedure for prescription record keeping; and
viii. Procedure for administering medications (including information on drawing syringes from single-use and multi-use vials).

B. Chancellor shall pay a fine of FIVE THOUSAND DOLLARS ($5,000.00) for the alleged violations;

C. Chancellor shall pay ONE THOUSAND DOLLARS ($1,000.00) to partially reimburse the Board for recoverable attorney's fees and investigative costs incurred; and

D. Upon the successful completion of the one-year probationary period, successful inspections; provision of updated policies; and payment of the above-referenced finds, Respondent Chancellor's Certificates of Registration Nos. CS22616 and PD27416 shall be fully restored.

11. Respondent Hoffman admits that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for certain of the violations alleged in the Accusation, that Respondent Hoffman:

A. Unlawfully authorized dispensation of medications to patients when she was not present in violation of NAC 639.742(2)(e).

B. Failed to maintain effective security controls by allowing unregistered persons key access to controlled substances and/or dangerous drugs in violation of NAC 453.400; and NAC 454.040.

C. Failed to issue a written prescription for each medication dispensed, failed to verify medications for accuracy prior to dispensing, failed to maintain complete, accurate and readily retrievable records of all controlled substances and/or dangerous drugs purchased and dispensed, failed to inventory controlled substances at least once every two (2) years, failed to properly store and maintain the inventory, and failed to segregate and/or dispose of adulterated and/or expired dangerous drugs in violation of NRS 453.246; NAC 453.410(1)(a-b) and (2); NRS 454.286; NRS 454.301; and NRS 639.745(1-3).

D. Possessed pre-drawn, unlabeled syringes containing unidentified dangerous drugs in violation of NRS 639.2801; and NRS 585.420.

12. These violations are plead with particularity in the Accusation, and are grounds for disciplinary action pursuant to NRS 453.236; NRS 453.241; NRS 639.210(4), (12), and (17); and/or NRS 639.255(3).

13. In order to resolve this matter without incurring any further costs or the expense associated with a hearing, and with Hoffman not conceding or admitting to such allegations, the Board and Hoffman stipulate to the following penalties and conditions. Respondent Hoffman, PA-C, Certificate of Registration Nos. CS18262 shall:

A. Pay a fine of TWO THOUSAND FIVE HUNDRED DOLLARS ($2,500.00) for the alleged violations; and

B. Pay ONE THOUSAND DOLLARS ($1,000.00) to partially reimburse the Board for recoverable attorney's fees and investigative costs incurred.

14. Any failure by any Respondents to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing that Respondents to appear before the Board at the next regularly scheduled meeting for a show cause hearing. The Board may impose additional discipline upon that Respondents consistent with the provisions of NRS Chapter 453, Chapter 454, and/or Chapter 639.

15. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on March 8, 2023. Respondents will appear in person and/or through counsel at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondents or counsel are not present at the meeting.

16. The Board has discretion to accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 USC § 1396r–2 and 45 CFR Part 60.

17. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the merits of this matter may be heard by the Board the same day or at a later date. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

18. Upon approval of this Stipulation by the Board, Respondents shall pay the fines agreed to herein by *personal check, business check, cashier's check* or *certified check* or *money order* made payable to "**State of Nevada, Office of the Treasurer**," to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within thirty (30) of the effective date of this Order.

19. Upon approval of this Stipulation by the Board, Respondents shall pay the attorney's fees and costs agreed to herein by *personal check, business check, cashier's check* or *certified check* or *money order* made payable to "**Nevada State Board of Pharmacy**," to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within thirty (30) of the effective date of this Order.

20. Subject to the approval of this Stipulation by the Board, the Board and Respondents agree to release one another from any and all additional claims arising from the

facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order.

Respondents have fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and have freely and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

AGREED:

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **LINDSAY HOFFMAN, PA-C,** **Certificate of Registration Nos. CS18262 and PD00177,** **Respondent.**	**CASE NO. 19-003-CS-C-S** **STATEMENT TO THE RESPONDENT AND NOTICE OF HEARING**

TO THE RESPONDENT ABOVE-NAMED: PLEASE TAKE NOTICE THAT:

I.

Pursuant to the authority and jurisdiction conferred upon the Nevada State Board of Pharmacy (Board) by NRS 639.241 to NRS 639.2576, inclusive, and NRS chapter 233B and 622A, a Notice of Intended Action and Accusation has been filed with the Board by the Petitioner, J. David Wuest, Executive Secretary for the Board, alleging grounds for imposition of disciplinary action by the Board against you, as is more fully explained and set forth in the Notice of Intended Action and Accusation served herewith and hereby incorporated reference herein.

II.

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3); NRS 639.241. To do so, you must complete and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Statement and Notice, and of the Notice of Intended Action and Accusation served within. NRS 639.320; NRS 639.243.

III.

The Board has scheduled your hearing on this matter for Wednesday, September 2, 2020, at 9:00 a.m. or soon thereafter. The hearing will occur at the Hilton Garden Inn, 7830 S. Las Vegas Blvd., Las Vegas, Nevada.

IV.

Pursuant to NRS 241.033 and 241.034, please be advised that the hearing is a public meeting, and the Board may, without further notice, take administrative action against you if the Board determines that such administrative action is warranted after considering your character, alleged misconduct, professional competence, or physical or mental health. The Board at its discretion may go into closed session to consider your character, alleged misconduct, professional competence, or physical or mental health. You may attend any closed session, have an attorney or other representative of your choosing present during any closed session, and present written evidence, provide testimony, and present witnesses relating to your character, alleged misconduct, professional competence, or physical or mental health during any closed session.

V.

Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350.

DATED this 24th day of July, 2020.

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **WESLEY ROBERTSON, MD,** **Certificate of Registration No. CS07810,** **Respondent.**	**Case No. 21-063-CS-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter because at the time of the events alleged herein, Respondent Wesley Robertson, MD ("Robertson"), held a controlled substance registration, Certificate of Registration No. CS07810 issued by the Board.

FACTUAL ALLEGATIONS

2. Respondent Robertson owned and operated a medical practice called Sunshine Valley Pediatrics located at 9091 W. Post Road, Las Vegas, Nevada during the relevant timeframes.

3. On or about May 1, 2021, the Board received a complaint that Dr. Robertson was unlawfully prescribing controlled substances and/or dangerous drugs, by allowing his medical assistant ("MA") K.S. to possess and utilize his secondary authenticator for his e-prescribing system. Board staff investigated this complaint.

4. On June 17, 2021, Dr. Robertson submitted a written statement indicating that he gave his secondary authenticator or hard token to his MA K.S. to electronically "sign" the

controlled substance prescriptions on his behalf because he was uncertain of the technical requirements.

APPLICABLE LAW

5. No person other than a practitioner holding a license to practice his or her profession in this State may prescribe or write a prescription. NRS 639.235(1).

6. A prescription for a controlled substance may be issued only for a legitimate medical purpose and in the usual course of his or her professional practice by an individual practitioner who holds a DEA registration and is authorized to prescribe controlled substances by the jurisdiction in which he is licensed to practice his profession. 21 U.S.C. § 822(a)(2); 21 U.S.C. § 823(f); 21 CFR § 1306.03(a)(1); NRS 453.381(1).

7. It is unlawful for a practitioner to prescribe a controlled substance or dangerous drug except as authorized by law. NRS 453.226(1); NRS 453.321(1)(a); NRS 454.215; NRS 639.100(1).

8. A practitioner must retain sole possession of the hard token, and must not share password or other knowledge factor, biometric information with another person or allow any other person to enter knowledge factor or other identification means to sign controlled substance prescriptions. 21 CFR § 1311.102.

9. Conspiring to violate the Controlled Substances Act is a felony offense. 21 U.S.C. § 846; NRS 453.401(1)(a).

10. Performing or in any way being a party to any fraudulent or deceitful practice or transaction constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(h) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

11. Performing any duties as the holder of a controlled substance registration in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct

contrary to the public interest pursuant to NAC 639.945(1)(i) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

12. Aiding or abetting a person not licensed to practice pharmacy in the State of Nevada constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(j) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

13. Violating any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(11).

14. Violating, attempting to violate, assisting, or abetting in the violation of or conspiring to violate any state law or regulation relating to drugs is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(12).

15. The Board may suspend or revoke a registration issued pursuant to NRS 453.231 to prescribe or otherwise dispense a controlled substance upon a finding that the registrant has committed an act that would render registration inconsistent with the public interest. NRS 453.236(1)(d), NRS 453.241(1), NRS 639.210, and/or NRS 639.255.

COUNT ONE
Unprofessional Conduct – Party to a Fraudulent/Deceitful Practice/Transaction

16. By permitting MA K.S., who did not have prescribing authority to sign controlled substances prescriptions, to access Respondent's hard token or secondary authenticator to electronically sign for controlled substance prescriptions in violation of 21 CFR § 1311.102, or provide log-on information to e-scribing systems to MA K.S., and/or failing to secure secondary authenticator for e-prescribing controlled substance medications, Respondent Robertson was a party to a fraudulent or deceitful practice or transaction and engaged in unprofessional conduct

and conduct contrary to the public interest in violation of NAC 639.945(1)(h), and is subject to discipline pursuant to NRS 453.236(1) and NRS 639.210(4).

COUNT TWO
Unprofessional Conduct – Incompetent, Unskillful or Negligent Performance of Duties

17. By permitting MA K.S., who did not have prescribing authority to electronically sign controlled substances prescriptions, to access Respondent's hard token or secondary authenticator to digitally sign controlled substance prescriptions in violation of 21 CFR § 1311.102, or provide log-on information to e-scribing systems to MA K.S., and/or failing to secure secondary authenticator for e-scribing controlled substance medications, Respondent Robertson performed his duties as the holder of a controlled substance registration in an incompetent, unskillful or negligent manner and engaged in unprofessional conduct and conduct contrary to the public interest in violation of NAC 639.945(1)(i), and is subject to discipline pursuant to NRS 453.236(1) and NRS 639.210(4).

COUNT THREE
Unprofessional Conduct – Aiding and Abetting Unlicensed Practice

18. By permitting MA K.S., who did not have prescribing authority to sign controlled substances prescriptions, to access Respondent's hard token or secondary authenticator to electronically sign controlled substance prescriptions in violation of 21 CFR § 1311.102, or provide log-on information to e-scribing systems to MA K.S., and/or failing to secure secondary authenticator for e-prescribing controlled substance medications, Respondent Robertson aided or abetted a person not licensed to practice pharmacy in the State of Nevada and engaged in unprofessional conduct and conduct contrary to the public interest in violation of NAC 639.945(1)(j), and is subject to discipline pursuant to NRS 453.236(1) and NRS 639.210(4).

///

///

COUNT FOUR
Violations of Federal Controlled Substances Act

19. By permitting MA K.S., who did not have prescribing authority to sign controlled substances prescriptions, to access Respondent's hard token or secondary authenticator to electronically sign controlled substance prescriptions in violation of 21 CFR § 1311.102, or provide log-on information to e-scribing systems to MA K.S., and/or failing to secure secondary authenticator for e-scribing controlled substance medications, Respondent Robertson violated, attempted to violate, assisted or abetted in the violation of or conspired to violate 21 U.S.C. § 822(a)(2), 21 U.S.C. § 823(f), 21 U.S.C. § 846 and 21 CFR § 1306.03, and is subject to discipline pursuant to NRS 453.236(1) and NRS 639.210(11).

COUNT FIVE
Commission of Acts that Render Registration Inconsistent with the Public Interest

20. By his actions as set forth herein, Robertson has committed acts that render his registration to prescribe controlled substances inconsistent with the public interest pursuant to NRS 453.231, and are subject to discipline pursuant to NRS 453.236(1)(d) and NRS 453.241(1).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of this Respondent.

DATED this 2nd day of May, 2022.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3); NRS 639.241. To do so, you must complete and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Notice of Intended Action and Accusation. NRS 622A.320; NRS 639.243. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **WESLEY ROBERTSON, MD,** **Certificate of Registration No. CS07810,** **Respondent.**	**CASE NO. 21-063-CS-S** **STATEMENT TO THE RESPONDENT AND NOTICE OF HEARING**

TO THE RESPONDENT ABOVE-NAMED: PLEASE TAKE NOTICE THAT:

1. Pursuant to the authority and jurisdiction conferred upon the Nevada State Board of Pharmacy (Board) by NRS 639.241 to NRS 639.2576, inclusive, and NRS chapter 233B and 622A, a Notice of Intended Action and Accusation has been filed with the Board by the Petitioner, J. David Wuest, Executive Secretary for the Board, alleging grounds for imposition of disciplinary action by the Board against you, as is more fully explained and set forth in the Notice of Intended Action and Accusation served herewith and hereby incorporated reference herein.

2. You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3); NRS 639.241. To do so, you must complete and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Statement and Notice, and of the Notice of Intended Action and Accusation served within. NRS 622A.320; NRS 639.243.

3. **The Board has scheduled your hearing on this matter for Wednesday, September 7, 2022, at 9:00 AM PST or soon thereafter at the following location:**

Hilton Garden Inn Las Vegas Strip South
7830 S. Las Vegas Blvd
Las Vegas, NV 89123

4. Pursuant to NRS 241.033 and 241.034, please be advised that the hearing is a public meeting, and the Board may, without further notice, take administrative action against you if the Board determines that such administrative action is warranted after considering your character, alleged misconduct, professional competence, or physical or mental health. The Board at its discretion may go into closed session to consider your character, alleged misconduct, professional competence, or physical or mental health. You may attend any closed session, have an attorney or other representative of your choosing present during any closed session, and present written evidence, provide testimony, and present witnesses relating to your character, alleged misconduct, professional competence, or physical or mental health during any closed session.

5. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. COMES NOW, Respondent WESLEY ROBERTSON, M.D. ("Dr. Robertson"), as a licensed Medical Doctor and holder of a controlled substance registration, subject to the jurisdiction of the Nevada State Board of Pharmacy ("Board"), based upon information, belief, and personal knowledge, by and through his counsel of record, and responds the Board's Notice of Intended Action and Accusation ("Complaint"), as follows:

JURISDICTION

1. Dr. Robertson admits that at all times relative to the Complaint he was a medical doctor holding a controlled substance registration issued by the Board (Cert. of Registration No. CS07810);

FACTUAL ALLEGATIONS

2. Dr. Robertson admits that he owned and operated Sunshine Valley Pediatrics located at 9091 W. Post Road, Las Vegas, Nevada during the relevant time period.

3. Dr. Robertson does not have actual knowledge or possession of the May 1,

2021, complaint received by the Board against him, and on that basis denies the allegations contained in Paragraph 3 of the Board's Complaint.

4. Dr. Robertson admits that he submitted a written statement on June 17, 2021, to the Board indicating that he gave his secondary authenticator token to his MA K.S. However, Dr. Robertson denies that he delegated his signing authority to his MA K.S. Rather, he only provided her with the secondary authenticator token so MA K.S. could electronically enter the prescriptions that were prescribed and signed by Dr. Robertson only. Dr. Robertson denies any remaining allegations contained in Paragraph 4 of the Board's Complaint against Him.

APPLICABLE LAW

5. Dr. Robertson presently lacks sufficient information to determine the veracity of the allegations contained in Paragraphs 5-15 of the Board's Complaint, and on that basis denies the same.

COUNT ONE
(Unprofessional Conduct – Party to a Fraudulent/Deceitful Practice/Transaction)

6. Dr. Robertson denies the allegations contained in Paragraph 16 of the Board's Complaint.

COUNT TWO
(Unprofessional Conduct – Incompetent, Unskillful or Negligent Performance of Duties)

7. Dr. Robertson denies the allegations contained in Paragraph 17 of the Board's Complaint.

COUNT THREE
(Unprofessional Conduct – Aiding and Abetting Unlicensed Practice)

8. Dr. Robertson denies the allegations contained in Paragraph 18 of the Board's Complaint.

COUNT FOUR
(Violations of Federal Controlled Substances Act)

7. Dr. Robertson denies the allegations contained in Paragraph 18 of the Board's Complaint.

COUNT FIVE
(Commission of Acts that Render Registration Inconsistent with the Public Interest)

8. Dr. Robertson denies the allegations contained in Paragraph 20 of the Board's Complaint.

AFFIRMATIVE DEFENSES

1. Respondent denies he committed malpractice as defined in Nevada Administrative Code Section 630.040.

2. Respondent denies that he violated any other state or federal statute or regulation, including but not limited to NRS Chapters 453, 454, 639, 21 U.S.C. §§ 822, 823, 846, and 21 CFR §§ 1306, 1311.

3. Respondent contends that in all professional services rendered by Respondent, Respondent possessed and exercised that degree of skill ordinarily possessed and exercised by reasonably well-qualified pediatricians practicing in the same field and acting under the same or similar conditions. At no time was Respondent guilty of negligence or improper treatment.

4. The allegations in the Complaint with respect to Respondent and each and every purported cause for discipline fail to allege facts sufficient, or facts at all, to constitute a cause or causes for discipline against the Respondent.

5. By responding to this Complaint, Respondent does not stipulate to the authenticity or admissibility of any medical records as they are hearsay.

6. The Complaint, or portions thereof, should be dismissed on grounds of due process and equal protection, including the right to an unbiased investigation. *See Mishler v. Clift, M.D. et al*, 191 F.3d 998 (9th Cir. 1999).

7. Any scope of practice allegations should be dismissed, as the statutes and regulations are unconstitutionally vague and ambiguous as applied to the subject matter of this case, and do not clearly prohibit the conduct which the Board seeks to discipline.

8. Respondent objects to the Complaint on the ground that it does not state acts or omissions upon which the agency may proceed.

9. NRS 622.400 is unconstitutional on due process and/or equal protection grounds. Alternatively, if such provision is constitutional, the statute should be interpreted as mutual and reciprocal, and Respondent is entitled to and hereby prays for an award against the Complainant of the Respondent's costs and/or fees in his investigation, preparation and defense to the Board's charges herein, to the extent that he prevails. If not reciprocal, then Complainant should receive a cost recovery, if at all, proportionate to the extent it prevails.

10. The Nevada State Board of Pharmacy exceeded its regulatory function by proceeding to file a Complaint prior to meeting the statutory requirements.

11. This Complaint does not further the goal of public protection or protection of the public health, safety or morals as there is no allegation or evidence of injury to the patients.

12. The Complaint, or portions thereof, should be dismissed on grounds of equitable estoppel.

Based on the above, Respondent Dr. Robertson respectfully requests that he be assessed no administrative penalty or any sanctions.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **WESLEY ROBERTSON, MD,** **Certificate of Registration No. CS07810,** **Respondent.**	**Case No. 21-063-CS-S** **STIPULATION AND ORDER**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, by and through its Assistant General Counsel, Peter K. Keegan, Esq., and Respondent Wesley Robertson, MD ("Robertson"), Certificate of Registration No. CS07810, by and through counsel, Lora Schneider, Esq. of Collinson, Daehnke, Inlow & Greco, **HEREBY STIPULATE AND AGREE THAT**:

1. The Board has jurisdiction over Respondent and this matter.

2. On or about May 25, 2022, Board Staff served Respondent Robertson with the Notice of Intended Action and Accusation ("Accusation") on file in this matter together with the Statement to Respondent and Notice of Hearing.

3. Respondent Robertson is fully aware of the right to seek the advice of counsel in this matter and obtained the advice of counsel prior to entering this Stipulation.

4. Respondent Robertson is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration, the right to appeal, and any and all other rights which may be accorded pursuant to NRS Chapter 233B, Nevada Administrative Procedure Act, NRS Chapter 622A, Administrative Procedure Before Certain Regulatory Bodies, and NRS Chapter 639, Nevada Pharmacy Act.

5. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondent Robertson failed to comply with the provisions of this Stipulation and Order, Respondent hereby freely and voluntarily waives

his right to a hearing, reconsideration, appeal and any and all other rights related to this action that may be accorded to him by NRS Chapter 233B, Nevada Administrative Procedure Act, NRS Chapter 622A, Administrative Procedure Before Certain Regulatory Bodies, and NRS Chapter 639, Nevada Pharmacy Act.

6. In order to resolve the Accusation in this matter; specifically, Counts Two, Four, and Five, alleging that Respondent unlawfully permitted an employee or staff member to access and utilize his secondary hard token authenticator, and/or provided log-on information to his employee or staff member with instructions to e-prescribe prescriptions in violation of 21 CFR § 1311.102 and NRS 453.236(1)(e), Respondent Robertson and the Board hereby stipulate to the following penalties and conditions.

A. The Board shall:

i. Dismiss Count One and Count Three of the Accusation in this matter.

B. Robertson shall:

i. Pay a fine of Four Thousand Dollars ($4,000.00) within thirty (30) days of this Stipulation and Order to resolve the remaining alleged violations;

ii. Pay Five Hundred Dollars ($500.00) within thirty (30) days of this Stipulation and Order, to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter; and

iii. Complete an additional two (2) hours of continuing education, in addition to any medical continuing education hours required, regarding prescribing controlled substances, within thirty (30) days of this Stipulation and Order.

7. This Stipulation constitutes a full and final resolution of the Accusation in Case No. 21-063-CS-S. However, any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing that Respondent to appear before the Board at the next regularly-scheduled meeting for

a show cause hearing. The Board may impose additional discipline upon that Respondent consistent with the provisions of NRS Chapter 453 and/or Chapter 639.

8. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on June 14, 2023. Respondent will appear in person or through counsel at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent or counsel are not present at the meeting.

9. The Board has discretion to accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 USC § 1396r–2 and 45 CFR Part 60.

10. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the merits of this matter may be heard by the Board the same day or at a later date. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

11. Upon approval of this Stipulation by the Board, Respondent shall pay the fines agreed to herein by *personal check, business check, cashier's check* or *certified check* or *money order* made payable to **"State of Nevada, Office of the Treasurer,"** to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Order.

12. Upon approval of this Stipulation by the Board, Respondent shall pay the attorney's fees and costs agreed to herein by *personal check, business check, cashier's check* or *certified check* or *money order* made payable to **"Nevada State Board of Pharmacy,"** to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Order.

13. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release one another from any and all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order.

Respondent has fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and has freely and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Walgreens Pharmacy #3844 ("Walgreens #3844"), Pharmacy License No. PH01123, Respondent Kerry S. Otero, RPH ("Otero"), Certificate of Registration No. 20516, and Respondent Morgan A. Towler ("Towler"), Certificate of Registration No. PT23168, were licensed/registered with the Board.

FACTUAL ALLEGATIONS

2. Respondent Walgreens #3844 is located at 5011 E. Sahara Avenue, in Las Vegas, Nevada.

3. Respondent Otero was the managing pharmacist at Walgreens #3844 during the alleged events and relevant timeframes.

4. Respondent Towler was employed by Walgreens #3844 as a pharmaceutical technician in training during the alleged events and relevant timeframes.

5. On or about March 24, 2022, Respondent Otero submitted a Licensee Record of ANY Controlled Substance Loss or Theft ("Loss or Theft report") on behalf of Walgreens #3844 to the Board which reported a suspected loss on March 23, 2022, of eighty-eight (88) Oxycodone 5mg tablets, forty-five (45) Methylphenidate 5 mg tablets, and seventy (70) Oxycodone 7.5mg/325mg.

6. On or about March 30, 2022, Respondent Otero submitted a second Loss or Theft report on behalf of Walgreens #3844 to the Board containing revisions which reported a suspected employee theft discovered on March 23, 2022, and increasing the shortage counts to one hundred ninety-three (193) Oxycodone HCL acetaminophen 10/325 mg tablets, ninety-six (96) Oxycodone HCL 5 mg tablets, and sixty (60) Methylphenidate 5 mg tablets.

7. On or about March 31, 2022, Respondent Otero submitted a third Loss or Theft report on behalf of Walgreens #3844 to the Board concerning the March 23, 2022, shortage discovery. The March 31, 2022, version reported a suspected employee theft of one hundred ninety-three (193) Oxycodone HCL acetaminophen 7.5mg/325 mg tablets and ninety-six (96) Oxycodone HCL 5 mg tablets.

8. On or about May 3, 2022, Respondent Otero submitted a fourth Loss or Theft report for Walgreens #3844 to the Board concerning the March 23, 2022, shortage discovery. The May 3, 2022, version reported a suspected employee theft of one hundred ninety-three (193) Oxycodone HCL acetaminophen 7.5mg/325 mg tablets.

9. On or about May 2, 2022, Respondent Otero submitted a DEA Form-106 Report of Theft of Loss of Controlled Substances ("DEA 106") on behalf of Walgreens #3844 for the March 23, 2022, shortage discovery. The May 2, 2022, DEA Form-106 reported a suspected employee theft of one hundred ninety-three (193) Oxycodone HCL acetaminophen 10/325 mg tablets.

10. Investigation records reflect on or about February 28, 2022, Respondent Otero submitted a Loss or Theft report on behalf of Walgreens #3844 to the Board which reported a suspected large employee theft dating back to December 17, 2021, of four thousand seven (4,007) Oxycodone-acetaminophen 10/325 mg tablets and six thousand seventy-two (6,072) hydrocodone acetaminophen 10/325 mg tablets.

11. On or about February 1, 2022, and again on August 9, 2022, Krystal Bernard submitted a DEA Form-106 on behalf of Walgreens #3844 for the December 17, 2021, shortage discovery. Both the February 1, 2022, and the August 9, 2022, DEA Form-106 reported a suspected employee theft of four thousand seven (4,007) Oxycodone-acetaminophen 10/325 mg tablets and six thousand seventy-two (6,072) hydrocodone acetaminophen 10/325 mg tablets.

12. On or about July 8, 2022, Respondent Otero submitted a Loss or Theft report on behalf of Walgreens #3844 to the Board which reported a suspected employee theft on June 24, 2022, of fifty-eight (58) Dextroamp-Amphetamine 20 mg tablets, eighty-nine (89) Mixed Salt amphetamine 20 mg tablets, forty-three (43) Carisoprodol 350 mg tablets, one thousand two hundred nineteen (1,219) Carisoprodol 350 mg tablets, and two hundred twenty-nine (229) Carisoprodol 350 mg tablets.

13. On or about August 16, 2022, Michael Virtuoso submitted a DEA Form-106 on behalf of Walgreens #3844 for the June 24 2022, shortage discovery. The August 16, 2022, DEA Form-106 reported a suspected employee theft of fifty-eight (58) Dextroamp-Amphetamine 20 mg tablets, eighty-nine (89) Dextroamp-Amphetamine 20 mg, forty-three (43) Carisoprodol 350 mg tablets, one thousand two hundred nineteen (1,219) Carisoprodol 350 mg tablets, and two hundred twenty-nine (229) Carisoprodol 350 mg tablets.

14. On or about August 19, 2022, Respondent Otero submitted a Loss or Theft report on behalf of Walgreens #3844 to the Board which reported a suspected employee theft on July 26, 2022, of one hundred forty-eight (148) Alprazolam 1 mg tablets, seven hundred fifty-three (753)

Alprazolam 2 mg tablets, two hundred twelve (212) oxycodone acetaminophen 7.5/325 mg tablets, and one hundred forty-two (142) Carisoprodol 350 mg tablets.

15. On or about August 19, 2022, Respondent Otero submitted a DEA Form-106 on behalf of Walgreens #3844 for the July 26 2022, shortage discovery. The August 19, 2022, DEA Form-106 reported a suspected employee theft of one hundred forty-eight (148) Alprazolam 1 mg tablets, seven hundred fifty-three (753) Alprazolam 2 mg tablets, two hundred twelve (212) oxycodone acetaminophen 7.5/325 mg tablets, and one hundred forty-two (142) Carisoprodol 350 mg tablets.

16. In order to uncover the source(s) of the losses, Walgreens' Asset Management Team interviewed employees, reviewed months of security camera footage, reviewed controlled substances in schedule II ("CII") invoices, compared invoices to DEA 222 forms, DEA Controlled Substance Ordering System ("CSOS"), and Walgreens' inventory system AS-400. However, no invoicing or posting errors were found; therefore, the losses were attributed to internal diversion.

17. On or about August 6, 2022, Respondent Towler was interviewed by Walgreens #3844's Asset Protection Manager. During the interview, Towler admitted to taking drugs from Walgreens #3844 beginning in December 2021. Towler admitted to diverting drugs from the pharmacy, including 500 "Norcos" (Norco or hydrocodone, CII) and 500 "Percs" (Percocet or oxycodone, CII) and 120 "Somas" (Soma or carisoprodol, CIV), for financial gain. Towler's admission constitutes fraudulent and/or deceitful conduct.

18. Respondent Towler possessed and/or distributed controlled substances without a valid certificate of registration to dispense controlled substances.

19. Based upon the varying Theft or Loss reports submitted by Respondent Otero to the Board on behalf of Walgreens #3844 on March 24, 2022; March 30, 2022; March 31, 2022; and May 3, 2022; each related to the March 23, 2022, suspected employee theft, it is apparent

Walgreens #3844 and Respondent Otero failed to maintain an accurate controlled substance inventory, including perpetual inventory records.

20. Respondent Otero and Walgreens #3844 failed to report the December 17, 2021, June 24, 2022, and July 26, 2022, suspected employee thefts of controlled substances to the Board within 10 days after the date of discovery of the theft or loss, as required by Nevada law.

21. Respondent Otero and Walgreens #3844 failed to report the December 17, 2021, March 23, 2022, June 24, 2022, and July 26, 2022, suspected employee thefts of controlled substances to the DEA within the 1 day after the date of discovery of the theft or loss, as required by federal law.

22. On or about August 8, 2022, a Las Vegas Metropolitan police report was filed, a copy of Respondent Towler's admission of theft statement was included.

23. Respondent Towler was terminated from Walgreens #3844.

24. On or about September 23, 2022, Respondent Towler's Certificate of Registration No. PT23168 was summarily suspended by the Board's Executive Secretary pursuant to NRS 233B.127(3), and a notice of hearing for October 12, 2022, was served upon Towler's last known address.

25. The Board heard the matter on October 12, 2022, and Respondent Towler failed to appear, whereupon the Board found that the continuation of Towler's hearing was warranted.

APPLICABLE LAW

26. Supplying or diverting drugs which are legally sold in pharmacies constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(g) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

27. Performing or in any way being a party to any fraudulent or deceitful practice or transaction constitutes unprofessional conduct or conduct contrary to the public interest pursuant

to NAC 639.945(1)(h) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

28. Violating any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(11).

29. Violating, attempting to violate, assisting, or abetting in the violation of or conspiring to violate any law or regulation relating to drugs is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(12).

30. The Board may suspend or revoke any certificate, license, registration or permit issued pursuant to NRS Chapter 639 if it finds a managing pharmacist has violated any provision or regulation concerning recordkeeping or inventory in a store over which he or she presides, or has knowingly allowed a violation of any provision of this chapter or other state of federal laws or regulations relating to the practice of pharmacy by personnel of the pharmacy under his or her supervision. NRS 639.210(15).

31. It is unlawful to possess and/or distribute controlled substances without a valid registration. 21 USC § 841(a), NRS 453.321, NRS 453.331(1), NRS 453.336.

32. A pharmacy shall maintain complete and accurate controlled substance records in a readily retrievable manner, including initial, biennial and perpetual inventories. 21 CFR §§ 1304.03-.21, NRS 453.246, NAC 453.475, NAC 453.485, NAC 639.485.

33. State law requires that all theft or loss of controlled substances must be reported within ten (10) days after discovery of theft or loss. NRS 453.568.

34. Federal law requires that theft or significant loss of controlled substances must be reported the next business day after discovery of theft or loss. 21 CFR § 1301.76(b).

35. "Any violation of any of the provisions of this chapter [NRS Chapter 639] by a managing pharmacist or by personnel of the pharmacy under the supervision of the managing

pharmacist is cause for the suspension or revocation of the license of the pharmacy by the Board." NRS 639.230(5).

36. "The owner of a pharmacy, the managing pharmacist of the pharmacy and the registered pharmacist on duty at the pharmacy are responsible for the acts and omissions of pharmaceutical technicians and other personnel who are not pharmacists working in or for the pharmacy, including, but not limited to, any errors committed or unauthorized work performed by such personnel, if the owner, managing pharmacist or registered pharmacist knew or reasonably should have known of the act or omission." NAC 639.702.

37. A pharmacy owner is responsible for violations committed by the pharmacy's employees. NAC 639.945(2).

38. The Board may impose a fine upon the holder of a certificate, license, or permit issued by the Board for up to $10,000.00 for each violation. NRS 639.255(3).

COUNT ONE
Unprofessional Conduct- Fraudulent or Deceitful Practice
(Respondent Towler)

39. Respondent Towler engaged in fraudulent or deceitful practice when she diverted controlled substances, including Norco, Percocet, and Soma, from Walgreens #3844 as defined in NAC 639.945(1)(h), and is therefore subject to discipline pursuant to NRS 639.210(4) and/or NRS 639.255(3).

COUNT TWO
Violations of Federal and State Controlled Substances Act
(Respondent Towler)

40. Respondent Towler violated federal and state law by possessing and distributing controlled substances, including Norco, Percocet, and Soma, without the requisite registration/license in violation of 21 USC 841(a), NRS 453.321, 453.331(1), NRS 453.336, and

is therefore subject to discipline pursuant to NRS 639.210(4) and/or NRS 639.210(11) and/or NRS 639.210(12) and/or NRS 639.255(3).

COUNT THREE
Failure to Keep Complete and Accurate Records
(Respondents Otero and Walgreens #3844)

41. As the managing pharmacist, Respondent Otero failed to keep complete and accurate controlled substance records, including perpetual inventories, as demonstrated by the four (4) different versions of Loss or Theft reports submitted to the Board for the suspected employee theft on March 23, 2022, as well as the large and delinquent Theft or Loss reports submitted to the Board on February 28, 2022, July 8, 2022, and August 19, 2022, as required by NAC 453.475, and/or NAC 639.485(2), and/or 21 CFR §§ 1304.03-.21; and is therefore subject to discipline pursuant to and/or NRS 639.210(15) and/or NRS 639.255(3).

42. Respondent Walgreens #3844 failed to keep complete and accurate records, including perpetual inventories, as demonstrated by the four (4) different versions of Loss or Theft reports submitted to the Board for the suspected employee theft on March 23, 2022, as well as the large and delinquent Theft or Loss reports submitted to the Board on February 28, 2022, July 8, 2022, and August 19, 2022, in violation of 21 CFR §§ 1304.03-.21, and/or NAC 453.475, and/or NAC 639.485(2), and is therefore subject to discipline pursuant to NAC 639.702 and/or NAC 639.945(2) and/or NRS 639.210(11) and/or NRS 639.210(12) and/or NRS 639.210(15) and/or NRS 639.255(3).

\\\

\\\

\\\

COUNT FOUR
Managing Pharmacist Responsibility
(Respondents Walgreens #3844 and Otero)

43. As the managing pharmacist of Walgreens #3844 at the time of the violations alleged herein, Respondent Otero is responsible for those violations, including those of the pharmacy's employees pursuant to NAC 639.702, and is subject to discipline pursuant to NRS 639.210(4) and/or NRS 639.210(12) and/or NRS639.210(15) and/or NRS 639.230(5), and/or NRS 639.255(3).

COUNT FIVE
Failure to Timely Report Theft/Losses Pursuant to Federal and State Law
(Respondent Walgreens #3844)

44. Respondent Walgreens #3844 violated 21 CFR § 1301.76(b) and/or NRS 453.568, when it failed to timely report losses or thefts of controlled substances discovered on December 17, 2021, June 24, 2022, and July 26, 2022; therefore, Walgreens #3844 is subject to discipline pursuant to NRS 639.210(12) and/or NRS 639.255(3).

COUNT SIX
Pharmacy/Pharmacy Owner Responsibility
(Respondent Walgreens #3844)

45. As the pharmacy where Respondents Otero, and Respondent Towler, violated the laws as alleged herein, Walgreens #3844 is responsible for those violations pursuant to NAC 639.702, and NAC 639.945(2). Respondent Walgreens #3844 is therefore subject to discipline pursuant to NRS 639.210(12), NRS 639.230(5), and/or NRS 639.255(3).

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3). The hearing shall be conducted pursuant to NRS 639.241 through NRS 639.258. To be entitled to a hearing, you must complete and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Notice of Intended Action and Accusation. NRS 622A.320; NRS 639.243. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350. A regulatory body may recover from a person reasonable attorney's fees and costs that are incurred by the regulatory body as a part of its investigative, administrative, and disciplinary proceedings against the person if the regulatory body finds that the person has violated any provision of this title. NRS 622.400(1).

In the Matter of the Investigation of: **MORGAN TOWLER, PTT,** **Certificate of Registration No. PT23168**	**CASE NO. 22-096-PTT-S** **ORDER OF SUMMARY SUSPENSION AND NOTICE OF HEARING**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy ("Board"), has determined that Morgan Towler's ("Towler") actions impact public health, safety or welfare which imperatively require emergency action pursuant to NRS 233B.127(3). Board staff has previously provided the Executive Secretary information, and other documentary evidence, which substantiates the preliminary findings that:

1. Towler was a pharmacy technician in training at the Walgreens Pharmacy #3844 ("Walgreens") located at 5011 W. Sahara Avenue, Las Vegas, NV 89142. Although Towler completed her hours of pharmacy technician training, she did not complete her application to be registered as a pharmacy technician.

2. On or about March 24, 2022, Walgreens reported controlled substances losses to the Board which involved 88 oxycodone HCL/acetaminophen 10/325 tablets, 70 oxycodone HCL mg tablets, and 45 methylphenidate 5 mg tablets. The Board initiated an investigation that uncovered other larger, previously unexplained losses, including a loss of 10,079 tablets of oxycodone-acetaminophen and hydrocodone-acetaminophen tablets on or about December 17, 2021.

3. On or about August 6, 2022, Towler was interviewed by Walgreens Asset Manager. Towler admitted to diverting drugs from the pharmacy, including 500 "Norcos" and 500 "Percs" and 120 "Somas". A police report was filed with the same admission of theft by Towler to sell for personal financial gain.

4. Shortly thereafter, Towler was terminated from Walgreens.

Accordingly, the Executive Secretary has reasonably determined that the summary suspension of Towler's pharmacy technician in training registration is emergently required pursuant to NRS 233B.127(3), and therefore:

ORDERS that Morgan Towler's Certificate of Registration No. PT23168 is **SUMMARILY SUSPENDED**;

IT IS FURTHER ORDERED that a hearing to determine whether the suspension may continue has been set for **Wednesday, October 12, 2022 at 9:00 am** or soon thereafter at Hilton Garden Inn, 7830 Las Vegas Boulevard South, Las Vegas, NV 89123.

IT IS SO ORDERED.

Dated this 23rd day of September, 2022.

J. David Wuest, RPH, Executive Secretary
Nevada State Board of Pharmacy

NOTICE OF HEARING

HEARING DATE, TIME, AND PLACE:

Wednesday, October 12, 2022
9:00 am or soon thereafter
Hilton Garden Inn
7830 Las Vegas Boulevard South
Las Vegas, NV 89123

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to present evidence and argument on all issues involved in your summary suspension, either personally or through counsel. NRS 233B.121; NRS 233B.127(3). Please be advised that the hearing before the Board will be open to the public pursuant to NRS 241.033 and NRS 241.034.

In addition, the Board may at its discretion, conduct a closed session to consider your character, alleged misconduct, professional competence, and/or physical or mental health. NRS 241.030. You may attend your closed session, and have counsel or other representative of your choice present during your closed session. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the suspension hearing, the Board may accept the Executive Secretary's preliminary findings as true and may proceed to consider the continuation of your summary suspension.

If warranted, the Board through Board's staff may take additional administrative action by serving an accusation against you after considering your character, alleged misconduct, professional competence, and/or physical or mental health at the suspension hearing. NRS 622A.300; NRS 639.241.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **WALGREENS PHARMACY #3842, Pharmacy License No. PH01249,** **KRISTI NGUYEN, RPH, Certificate of Registration No. 18861,** **CHERYL METTUS, RPH, Certificate of Registration No. 17225, and** **THUY TRANDAC, RPH, Certificate of Registration No. 17658,** **Respondents.**	**Case No.** **17-105-PH-S** **17-105-RPH-A-S** **17-105-RPH-B-S** **17-105-RPH-C-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and/or NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter because at the time of the events alleged herein, Respondent Kristi Nguyen, RPH (Nguyen), Certificate of Registration No. 18861, Respondent Cheryl Mettus, RPH (Mettus), Certificate of Registration No. 17225, and Respondent Thuy TranDac, RPH (TranDac), Certificate of Registration No. 17658, were pharmacists registered with the Board, and Respondent Walgreens Pharmacy #3842, Pharmacy License No. PH01249, was a pharmacy licensed by the Board.

FACTUAL ALLEGATIONS

2. Respondents Nguyen, Mettus and TranDac were employed by Walgreens Pharmacy #3842 at the time of the events alleged herein.

3. Patient T.M. was being treated by several different providers for memory issues, pain, and other health conditions. B.H. was assisting T.M. with his medications because of T.M.'s memory issues.

4. On or about August 13, 2017, an electronic prescription from practitioner M.S. was transmitted to Walgreens Pharmacy #3842 for gabapentin 600 mg tablets for T.M., designated prescription no. 2933151, and dispensed to the patient.

5. On or about August 16, 2017, T.M. tendered a written prescription from practitioner E.S. for gabapentin 300 mg capsules for T.M to Walgreens Pharmacy #3842; this was designated prescription no. 2933209. On or about August 18, 2017, Respondent Mettus overrode a drug utilization review (DUR) alert for prescription no. 2933209 and dispensed to the patient. Respondent Mettus failed to contact the prescriber(s) to clarify the potential duplication error prior to overriding the DUR alerts. Therefore, both gabapentin prescriptions nos. 2933151 and 2933209 were dispensed, duplicating the same medication in different dosages within days.

6. On or about August 29, 2017, T.M. tendered two (2) written prescriptions from practitioner Z.G. for T.M to Walgreens Pharmacy #3842: 1) Aricept (generic donepezil) 5 mg, designated prescription no. 2939936; and 2) Seroquel (generic quetiapine) 100 mg, designated prescription no. 2939938. Prescription no. 2939936 included an order to discontinue Zaleplon 5 mg capsules previously prescribed by practitioner W.T. and designated prescription no. 2933781. However, Respondent Nguyen failed to discontinue the Zaleplon 5 mg prescription no. 2933781 as directed.

7. On or about September 13, 2017, T.M. tendered a written prescription from practitioner Z.G. for Zyprexa (generic olanzapine) 10 mg tablets for T.M. to Walgreens Pharmacy #3842; this was designated prescription no. 2948045. The prescription also had an order to discontinue Seroquel (generic quetiapine). However, Respondent Nguyen failed to discontinue the Seroquel (generic quetiapine) 100mg prescription no. 2939938 as directed,

overrode a DUR alert that olanzapine and quetiapine are similar therapies, and refilled prescription no. 2939938 for quetiapine 100 mg tablets.

8. On or about September 24, 2017, Respondent TranDac refilled prescription no. 2939936. However, Respondent TranDac failed to discontinue the Zaleplon 5 mg prescription no. 2933781 as previously directed and overrode a DUR alert.

9. On or about September 27, 2017, Respondent Mettus performed final product review and dispensed Seroquel (generic quetiapine) 200 mg tablets for prescription no. 2942008, in violation of the prior order from practitioner Z.G. on prescription no. 2948045 to discontinue Seroquel (generic quetiapine). Respondent Mettus also refilled prescription no. 2939938 for quetiapine 100 mg tablets on the same day and failed to contact the prescribing practitioner(s) to confer about the potential error/duplication. DUR alerts were overridden by an out-of-state pharmacist.[1]

10. On or about September 27, 2017, Respondent Mettus overrode a DUR alert and refilled prescription no. 2933781 for Zaleplone 5 mg, in violation of the prior order from practitioner Z.G. on prescription no. 2939936 to discontinue the Zaleplon 5 mg prescription no. 2933781.

COUNT ONE
Failure to Verify Dispensed Medication/Unprofessional Conduct
(Respondents Nguyen, Mettus, TranDac)

11. Unprofessional conduct includes the failure by a registrant to follow strictly the instructions of a practitioner when filling, labeling, and dispensing a prescription. NAC 639.945(1)(d). Unprofessional conduct also includes failing to confer with the person writing or ordering a prescription if there is an error or omission which should be questioned. NAC

[1] The DUR alerts for prescription no. 2939938 were overridden by a Walgreens' pharmacist located in an out-of-state central fill facility, who was not licensed by the Board.

639.945(1)(e). Unprofessional conduct also includes a licensee performing his or her duties in an "incompetent, unskillful, or negligent manner." NAC 639.945(1)(i).

12. A pharmacist shall review a patient's record before dispensing a prescription to determine its therapeutic appropriateness, including overutilization, therapeutic duplications, contraindications and interactions. NAC 639.707(4).

13. As alleged in paragraphs 4 through 10 herein, Nguyen, Mettus and TranDac each violated NAC 639.707(4) and engaged in unprofessional conduct as defined in NAC 639.945(1)(d), (e) and/or (i) when they verified the final product as accurate, failed to contact the prescriber(s) to clarify potential duplication errors, overrode DUR alerts and/or erroneously dispensed medication, and each is therefore subject to discipline pursuant to NRS 639.210(4) and/or (12).

COUNT TWO
Pharmacy/Pharmacy Owner Responsibility
(Respondent Walgreens Pharmacy #3842)

14. NRS 639.230(5) provides: "Any violation of any of the provisions of this chapter [NRS Chapter 639] by a managing pharmacist or by personnel of the pharmacy under the supervision of the managing pharmacist is cause for the suspension or revocation of the license of the pharmacy by the Board." *See also* NAC 639.702. Further, the owner of any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(2).

15. As the pharmacy/pharmacy owner at which the violations of law alleged herein occurred, including the acts and omissions of Respondents Nguyen, Mettus and TranDac, Walgreens Pharmacy #3842 is responsible for those violations pursuant to NRS 639.230(5), NAC 639.702 and/or NAC 639.945(2).

WHEREFORE, it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the pharmacy license, and certificates of registrations of these Respondents.

Signed this 6th day of February 2023.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

NOTICE TO RESPONDENTS

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3). The hearing shall be conducted pursuant to NRS 639.241 through NRS 639.258. To be entitled to a hearing, you must complete, and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Notice of Intended Action and Accusation. NRS 622A.320; NRS 639.243. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350. A regulatory body may recover from a person reasonable attorney's fees and costs that are incurred by the regulatory body as a part of its investigative, administrative, and disciplinary proceedings against the person if the regulatory body finds that the person has violated any provision of this title. 4. Pursuant to NRS 241.033 and 241.034, please be advised that the hearing is a public meeting, and the Board may, without further notice, take administrative action against you if the Board determines that such administrative action is warranted after considering your character, alleged misconduct, professional competence, or physical or mental health. The Board at its discretion may go into closed session to consider your character, alleged misconduct, professional competence, or physical or mental health. You may attend any closed session, have an attorney or other representative of your choosing present during any closed session, and present written evidence, provide testimony, and present witnesses relating to your character, alleged misconduct, professional competence, or physical or mental health during any closed session.

5. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NEVADA STATE BOARD OF PHARMACY, Petitioner, v. CHERYL METTUS, RPC, Certification of Registration No. 17725, Respondent.	CASE N0. 17-105-RPH-B-S ANSWER AND NOTICE OF DEFENSE

Respondent above named, in answer to the Notice of Intended Action and Accusation filed in the above-entitled matter before the Nevada State Board of Pharmacy, declares:

1. **That her objection before the Notice of Intended Action and Accusation as being incomplete or failing to state clearly the charges against her, is hereby interposed on the following grounds:** Your Intended Action is frivolous. I am no longer a practicing pharmacist. I have not been a practicing pharmacist for over four years. I last worked as a pharmacist with Walgreens. My last workday as a pharmacist was January 16, 2019. I have not renewed my license (Certificate of Registration No. 17725), I have no intention of renewing my license, I am retired. I have been notified that I am past the point that I could renew my license. Based on the above, I am no longer subject to any disciplinary actions by the Nevada State Board of Pharmacy.

2. That, in answer to the Notice of Intended Action and Accusation, she admits, denies and alleges as follows: I deny I committed any unprofessional conduct as alleged in your Notice of Intended Action and Accusation. Additionally, this Notice of Intended Action is frivolous in that I am no longer a practicing pharmacist and as such I am not subject to any disciplinary actions by your Nevada State Board of Pharmacy.

If you still believe your Intended Action is not frivolous, that I am still subject to your disciplinary powers, I will attend the meeting on March 8, 2023. I trust you will not require me to attend unless you have a good faith belief that I am subject to your disciplinary powers. I know you are aware that if you abuse your authority under the NRS, you could be subject to appropriate disciplinary penalties and fees.

I have attached a copy of a letter I sent to a Walgreens supervisor, Holly Prievo, back on December 11, 2018. I wrote this letter after meeting with your investigator, Mr. Kenneth Scheuber. This letter would be my best recollection of this incident from over four years ago. I have reviewed that letter and it accurately reflects what occurred and properly summarizes my denial of your allegations.

I hereby declare, under penalty of perjury, that the foregoing Answer and Notice of Defense, and all facts therein stated, are true and correct to the best of my knowledge.

Attn: Kenneth Scheuber
Re: Case 17-105-S
Walgreens #03842

On November 20th, 2018 I met with Mr. Kenneth Scheuber, Pharmacy Board Investigator, and Holly Prievo of Walgreens to discuss a letter written to the board in regards to prescriptions I filled on 9/27/2017 at Walgreens #3842. I am a staff pharmacist at this store location.

Patient T[redacted]M[redacted] and I spoke that day regarding refilling medications. The phone call took place 15 months ago as I write my response, and I truly do not recall the specifics of the conversation. The medications which were refilled were Quetiapine 200mg, Quetiapine 100mg, and Zaleplon 5mg. All three medications had active refills.

It was brought to my attention at the meeting that a prescription filled at the store on 8/29/17 had a note from the physician to discontinue the Zaleplon. The pharmacist of record that day should have closed the prescription for the Zaleplon 5mg but this did not happen. It was also discussed at the meeting that Walgreens has CPO (Central Processing Operation) locations that have pharmacists entering and reviewing prescriptions and overriding drug utilization reviews. A pharmacist at a CPO location is on record for the review of the prescription that day. Walgreen's system does not notify in-store pharmacists of the actions of CPO pharmacists. Mr. Scheuber shared with me at the meeting that the Nevada Board of Pharmacy does not recognize the responsibility of CPO pharmacists. This information was never shared with me by Walgreens. This causes me great concern for patient safety and places me in a situation where I am responsible for another pharmacist's actions.

There was review of the filling of a Gabapentin 300mg prescription on or near 8/16/2017 which overlapped an active Gabapentin 600mg prescription for the patient. I shared with Mr. Scheuber that patients will alternate between medication strengths. This may be due to dose changes by the physician or the actual tablet or capsule size may be difficult for the patient to physically swallow.

It was discussed that Mr. M[redacted] was having difficulty managing his medications. He expressed confusion over his medications on a regular basis. He also had identified a caregiver who was helping him with his medications. The Pharmacy Manager had requested numerous times for proper HIPPA documentation to be completed and filed to facilitate communication with Mr. M[redacted]s caregiver, but this was never completed to my knowledge. Having either the patient

independently, the caregiver, or both on a conference call to discuss medications was causing additional difficulty helping the patient manage his medications.

It was shared that the refilled medications were not taken by Mr. M[redacted] and that no harm came to the patient. I would never want a patient to be concerned or to question their medication use. I take great pride in providing all of my patients the highest level of quality pharmacy care. I have been practicing pharmacy for 41 years, and this is the first time that I have had to respond to an investigation.

Please do not hesitate to contact me if you need any additional information.

Sincerely,

Cheryl Mettus RPH

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **WALGREENS PHARMACY #6425, Pharmacy License No. PH01594, and** **JUAN PEIDRA FLORES, RPH, Certificate of Registration No. 20887,** **Respondents.**	**CASE NOS. 22-359-PH-S** **22-359-RPH-S** **FIRST AMENDED NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter because at the time of the events alleged herein, Respondent Juan Peidra Flores, RPh (Flores), Certificate of Registration No. 20887, was a pharmacist registered with the Board, and Respondent Walgreens Pharmacy #6425, Pharmacy License No. PH01594, was a pharmacy licensed by the Board.

FACTUAL ALLEGATIONS

2. Flores was employed as managing pharmacist by Walgreens Pharmacy #6425 at the time of the events alleged herein.

3. On or about June 13, 2022, patient R.C. visited an urgent care facility experiencing a scalp rash and was prescribed hydrocortisone 2.5% crème containing propylene glycol.

4. On the same date R.C. presented the prescription to Walgreens Pharmacy #6425, where it was scanned into the computer system, designated prescription no. 1949022 and subsequently processed, filled, and dispensed to the patient by Flores.

5. In the process of dispensing prescription no. 1949022 Flores twice overrode drug utilization review (DUR) warnings noting that R.C. has an allergy to propylene glycol and failed to contact the prescriber for alternative medication.

6. Upon use of the medication R.C. experienced an allegoric reaction including hair loss.

COUNT ONE

Error in Dispensing Prescription/Unprofessional Conduct
(Respondent Flores)

7. Unprofessional conduct includes the failure by a licensee to confer with the prescriber if there is an error or omission in it which should be questioned. NAC 639.945(1)(e). It also includes a licensee performing his or her duties in an "incompetent, unskillful, or negligent manner." NAC 639.945(1)(i).

8. Flores engaged in unprofessional conduct as defined in NAC 639.945(1)(e) and (i) when he twice overrode drug utilization review (DUR) warnings noting that R.C. has an allergy to propylene glycol and failed to contact the prescriber for alternative medication prior to dispensing prescription no. 1949022. Flores is therefore subject to discipline pursuant to NRS 639.210(4).

COUNT TWO

Pharmacy/Pharmacy Owner Responsibility
(Respondent Walgreens Pharmacy #6425)

9. Any violation of any of the provisions of NRS Chapter 639 by a managing pharmacist or by personnel of the pharmacy is cause for the suspension or revocation of the license of the pharmacy by the Board. NRS 639.230(5); NAC 639.702. Further, the owner of any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(2).

10. As the pharmacy/pharmacy owner at which the violations of law alleged herein occurred, Respondent Walgreens Pharmacy #6425 is responsible for those violations, including all errors and omissions of Flores, pursuant to NRS 639.230(5), NAC 639.702 and/or NAC 639.945(2).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration/licenses of these respondents.

DATED this 4th day of MAY, 2023.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the First Amended Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3). The hearing shall be conducted pursuant to NRS 639.241 through NRS 639.258. To be entitled to a hearing, you must complete and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this First Amended Notice of Intended Action and Accusation. NRS 622A.320; NRS 639.243. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350. A regulatory body may recover from a person reasonable attorney's fees and costs that are incurred by the regulatory body as a part of its investigative, administrative, and disciplinary proceedings against the person if the regulatory body finds that the person has violated any provision of this title. 2. Nguyen was previously subject to discipline in case nos. 13-006-RPH-S and18-055-RPH-A-S, and currently a named respondent in case no. 19-100-RPH-S.

FACTUAL ALLEGATIONS

3. Nguyen was employed as managing pharmacist and Efstathiou and Cruz were employed as staff pharmacists by Walgreens Pharmacy #4854 at the time of the events alleged herein.

4. On or about October 7, 2017, Dr. C.C. wrote three (3) separate prescriptions for patient L.S. for Adderall, 30 mg tablets, quantity 90 tablets, with instructions to take 1 tablet three times per day. The first prescription was for immediate fill, the second prescription stated, "Do not fill before 11/7/2017", and the third prescription stated, "Do not fill before 12/7/2017".

5. On or about October 9, 2017, all three prescriptions were presented by patient L.S. to Walgreens Pharmacy #4854 and scanned into the computer system.

6. The first prescription was designated prescription no. 1850877 and subsequently processed, filled, and dispensed to patient L.S. on or about October I1, 2017.

7. The prescription post-dated 11/07/2017 was designated prescription no. 1863870 and placed on hold; however, the prescription number was not written on the original hard copy of the prescription.

8. The prescription post-dated 12/07/2017 was designated prescription no. 1896898 and placed on hold; however, the prescription number was not written on the original hard copy of the prescription.

9. On or about October 14, 2017, the original hard copy of the prescription post-dated 11/07/2017 was erroneously re-scanned and designated a second prescription no. 1874629, and the original hard copy of the prescription post-dated 12/07/2017 was erroneously re-scanned and designated a second prescription no. 1886042.

10. On or about November 18, 2017, prescription no. 1893870, post-dated 11/07/2017, was processed, filled and dispensed. Data entry review and final verification were

performed by Efstathiou, who failed to place a fill sticker on the back of the original hard copy of the prescription.

11. On or about December 24, 2017, prescription no. 1874629, post-dated 11/07/2017, was processed, filled and dispensed. Data entry review was performed by Cruz, who failed to identify the duplication with prescription no. 1863870.

12. On or about January 29, 2018, prescription no. 1886042, post-dated 12/07/2017, was processed, filled and dispensed. Data entry review and final verification were performed by Nguyen, who failed to place a fill sticker on the back of the original hard copy of the prescription and failed to identify that patient L.S. had already received the three fills prescribed on her patient profile.

13. On or about February 28, 2018, prescription no. 1896898, post-dated 12/07/2017, was processed, filled and dispensed. Data entry review was performed by Cruz, who failed to identify the duplication with prescription no. 1886042.

COUNT ONE

Recordkeeping Violations

(Respondents Nguyen and Efstathiou)

14. Prescription records must be maintained in pertinent part in conformance with NRS 639.236, NAC 639.706 and/or NAC 639.910.

15. By failing to place a fill sticker on the back of the original hard copy of the prescription when filling prescription no. 1893870, Efstathiou violated NRS 639.236(2) and is subject to discipline pursuant to NRS 639.210(12). By failing to place a fill sticker on the back of the original hard copy of the prescription when filling prescription no. 1886042, Nguyen violated NRS 639.236(2) and is subject to discipline pursuant to NRS 639.210(12).

COUNT TWO

Failure to Identify Duplicate Dispensed Medication/Unprofessional Conduct

(Respondents Nguyen and Cruz)

16. Unprofessional conduct includes the failure by a licensee to follow strictly the instructions of a practitioner when filling, labeling, and dispensing a prescription. NAC 639.945(1)(d). It also includes a licensee performing his or her duties in an "incompetent, unskillful, or negligent manner." NAC 639.945(1)(i).

17. Nguyen engaged in unprofessional conduct as defined in NAC 639.945(1)(d) and (i) when she performed data entry review and final verification on prescription no. 1886042 and failed to identify that patient L.S. had already received the three fills prescribed on her patient profile. Nguyen is therefore subject to discipline pursuant to NRS 639.210(4).

18. Cruz engaged in unprofessional conduct as defined in NAC 639.945(1)(d) and (i) when she performed data entry review on prescription no. 1874629 and failed to identify the duplication with prescription no. 1863870, and again when she performed data entry review on prescription no. 1896898 and failed to identify the duplication with prescription no. 1886042. Cruz is therefore subject to discipline pursuant to NRS 639.210(4).

COUNT THREE

Managing Pharmacist Responsibility

(Respondent Nguyen)

19. As the managing pharmacist of Walgreens Pharmacy #4854 at the time of the violations alleged herein, including the failure to note the prescription number on the original hard copy of prescriptions, in violation of NRS 639.236, NAC 639.706 and/or NAC 639.910, resulting in the duplicate prescriptions, Nguyen is responsible for those violations and subject to discipline pursuant to NRS 639.210(12) and (15), NRS 639.220(1) and/or NAC 639.702.

COUNT FOUR
Pharmacy/Pharmacy Owner Responsibility
(Respondent Walgreens Pharmacy #4854)

20. Any violation of any of the provisions of NRS Chapter 639 by a managing pharmacist or by personnel of the pharmacy is cause for the suspension or revocation of the license of the pharmacy by the Board. NRS 639.230(5); NAC 639.702. Further, the owner of any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(2).

21. As the pharmacy/pharmacy owner at which the violations of law alleged herein occurred, Walgreens Pharmacy #4854 is responsible for those violations, including all errors and omissions of Nguyen, Efstathiou and Cruz, pursuant to NRS 639.230(5), NAC 639.702 and/or NAC 639.945(2).

WHEREFORE, it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the pharmacy license, and certificates of registrations of these Respondents.

Signed this 6th day of February 2023.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3). The hearing shall be conducted pursuant to NRS 639.241 through NRS 639.258. To be entitled to a hearing, you must complete, and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Notice of Intended Action and Accusation. NRS 622A.320; NRS 639.243. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350. A regulatory body may recover from a person reasonable attorney's fees and costs that are incurred by the regulatory body as a part of its investigative, administrative, and disciplinary proceedings against the person if the regulatory body finds that the person has violated any provision of this title. NRS 622.400(1).

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **WALGREENS PHARMACY #4854, Pharmacy License No. PH01293, and** **MINHQUANG D. NGUYEN, RPH, Certificate of Registration No. 15913,** **Respondents.**	**CASE NOS. 19-100-PH-S** **19-100-RPH-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because at the time of the events alleged herein, Respondent Walgreens Pharmacy #4854 ("Walgreens") held a Nevada Pharmacy License No. PH01293, Respondent Minhquang D. Nguyen, RPh, ("M. Nguyen") held a Nevada Pharmacist Certificate of Registration No. 15913, all issued by the Board.

FACTUAL ALLEGATIONS

2. Respondent Walgreens is located at 4771 W. Craig Road in North Las Vegas, Nevada.

3. Respondent Nguyen was employed as the pharmacy manager of Walgreens during the alleged and relevant timeframes.

4. On April 15, 2019, Board Inspector Leo Basch ("Basch") found certain violations, or expired drugs/medications.

Probiotic – expiration date 2/2019

Humalog mix 50/50 vial – expiration date 7/2018

Promethazine suppositories – expiration date 12/2018

5. In addition, there was a manufacturer's box of promethazine suppositories with an expiration date of 12/2018, which contained a partial quantity.

6. Eight (8) boxes of Protofoam were in the refrigerator, when the packaging specifically state "do not refrigerate".

7. MMR vaccine, expiration date 5/18/2018, and diluent, expiration date 4/21/2019 were found in the freezer. Even though the MMR box had the letters "EXP" written on it, the MMR was still in the pharmacy's active inventory.

8. In room temperature storage, numerous expired drugs were discovered. Some were in manufacturers' original bottles and some with Walgreens amber vials with patient labels that had apparently been returned to stock.

9. Inspector Basch notified Respondent Nguyen that corrective actions included removing expired refrigerated products within three (3) days and removing expired non-refrigerated products within fourteen (14) days. Further, staff was instructed to review all active inventory to remove expired medications/drugs.

10. On or about April 26, 2019, Respondent Nguyen sent an email to the Board inspector stating that the tasks to review expired drugs in refrigeration and active inventory was completed.

11. However, on May 1, 2019, when Board inspectors returned to re-inspect Walgreens, Board inspectors discovered six (6) expired medications in Walgreens' amber vials, and found an additional violation of unlabeled liquid in an amber bottle on a shelf of active

inventory. Further, it appeared that the same expired medications noted on the original inspection were still on the pharmacy shelves in active inventory.

APPLICABLE LAW

12. A pharmacy must be managed by a registered pharmacist who is responsible for compliance by the pharmacy and personnel with all state, and federal laws and regulations regarding the operation of the pharmacy. NRS 639.220(1).

13. Unprofessional conduct includes a licensee performing his or her duties in an "incompetent, unskillful, or negligent manner." NAC 639.945(1)(i).

14. Drugs are deemed adulterated if they consist in whole or in part any filthy or decomposed substance. NRS 585.370.

15. A prescription drug that is outdated, damaged, or deteriorated must be separated from other prescription drugs until it is destroyed or returned to the supplier. NAC 639.601.

16. False statements to the Board or its representatives are grounds for the suspension or revocation of a license/registration. NRS 629.210(9).

17. A managing pharmacist is responsible for overseeing and verifying the work of employees. A managing pharmacist is also responsible for violations committed by the pharmacy's employees. NAC 639.702.

18. A pharmacy owner is responsible for violations committed by the pharmacy's employees. NRS 639.230; NAC 639.702; NAC 639.945.

19. Respondents are subject to discipline for violations pursuant to NRS 639.210 and/or NRS 639.255.

FIRST COUNT

Unprofessional Conduct – Failure to Separate and Remove Expired Drug Stock
(Respondent Nguyen)

20. Respondent Nguyen engaged in unprofessional conduct and conduct contrary to the public interest in violation of NAC 639.945(1)(i) and performed his duties in an incompetent, unskillful or negligent manner when he failed to separate, and clear inventory of expired medications or adulterated drugs in violation of NRS 585.370, NAC 639.601, and is therefore subject to discipline pursuant to NRS 639.210(4) and/or NRS 639.255.

SECOND COUNT

Unprofessional Conduct – Providing False Statement to Board's Representative
(Respondent Nguyen)

21. Respondent Nguyen engaged in unprofessional conduct and conduct contrary to the public interest in violation of NAC 639.945(1) when he misrepresented to the Board's inspector that the expired medications were properly disposed when they were not, and is therefore subject to discipline pursuant to NRS 639.210(9) and/or NRS 639.255.

THIRD COUNT

Pharmacy/Pharmacy Owner Responsibility
(Respondent Walgreens)

22. As the pharmacy/pharmacy owner at which the violations of law alleged herein occurred, Walgreens is responsible for those violations, including those of the pharmacy's employees, pursuant to NAC 639.945(2) and is therefore subject to discipline pursuant to NRS 639.210 and/or NRS 639.255.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of license/registration of these Respondents.

Signed this 14th day of OCTOBER 2022.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **VICTOR BRUCE, MD** **Certificate of Registration No. CS33714,** **Respondent.**	**Case No. 22-228-CS-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and Respondent Victor Bruce, MD, Certificate of Registration No. CS33714.

FACTUAL ALLEGATIONS

2. Respondent previously held a controlled substance registration, Certificate of Registration No. CS09470, which expired on October 31, 2016.

3. On August 31, 2021, the Board denied Respondent's application for a controlled substance registration pursuant to NRS 453.231(1). Respondent petitioned for reconsideration of denial pursuant to NRS 639.139.

4. On December 2, 2021, and January 13, 2022, Respondent appeared with counsel before the Board to answer questions and give testimony and evidence regarding his petition. The Board granted the petition and authorized the issuance of a restricted controlled substance registration to Respondent.

5. On January 26, 2022, Board staff notified Respondent that his controlled substance registration had been initiated pending proof of registration with the U.S. Drug Enforcement Administration (DEA).

6. On or about May 17, 2022, Respondent executed a Memorandum of Agreement with the DEA and was issued a restricted controlled substance registration, DEA Registration No. FB1503792. However, Respondent failed to submit proof of his DEA registration to the Board until July 14, 2022.

7. Respondent wrote seven (7) controlled substance prescriptions for Nevada patients between June 29 and July 1, 2022, without a valid Nevada controlled substance registration and without accessing the Prescription Monitoring Program (PMP) database to review a patient utilization report.

8. Respondent was issued Certificate of Registration No. CS33714 on or about July 19, 2022.

APPLICABLE LAW

9. It is unlawful to prescribe a controlled substance except as authorized by law. NRS 453.321(1)(a).

10. A prescription for a controlled substance may be issued only for a legitimate medical purpose and in the usual course of his or her professional practice by an individual practitioner who holds a DEA registration and is authorized to prescribe controlled substances by the jurisdiction in which he is licensed to practice his profession. 21 U.S.C. § 822(a)(2); 21 U.S.C. § 823(f); 21 CFR § 1306.03(a)(1); NRS 453.226(1); NRS 453.321(1)(a); NRS 639.100(1); NRS 639.235(1).

11. Falsely representing oneself as a practitioner entitled to write prescriptions in this state is a felony offense. 21 U.S.C. § 841(a); 21 U.S.C. § 842(a); NRS 453.321(1)(a); NRS 453.232; NRS 639.2813(1).

12. A practitioner who is required to register with the Board to prescribe controlled substances shall enroll for PMP database access and shall thereafter review a patient utilization report

as required before issuing a prescription for a controlled substance. NRS 453.226(1); NRS 639.23507; NAC 453.065.

13. Performing any act, task or operation for which licensure, certification or registration is required without the required license, certificate or registration constitutes unprofessional conduct and conduct contrary to the public interest pursuant to NAC 639.945(1)(k) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 453.236(1) and NRS 639.210(4).

14. The Board may suspend or revoke a registration if the holder has violated any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs. NRS 639.210(11).

15. The Board may suspend or revoke a registration if the holder has violated, attempted to violate, assisted or abetted in the violation of or conspired to violate any law or regulation relating to drugs, the manufacture or distribution of drugs or the practice of pharmacy. NRS 639.210(12).

16. The Board may suspend or revoke a registration to prescribe a controlled substance upon a finding that the registrant has committed an act that would render registration inconsistent with the public interest as determined pursuant to NRS 453.231. NRS 453.236(1)(e) and NRS 453.241(1).

COUNT ONE
Violation of Federal Controlled Substances Act

17. By prescribing controlled substances without a valid registration as alleged herein, Respondent falsely represented himself as a practitioner entitled to write prescriptions in this state and violated, attempted to violate, assisted or abetted in the violation of or conspired to violate 21 U.S.C. § 822(a)(2), 21 U.S.C. § 823(f), 21 U.S.C. § 841(a), 21 U.S.C. § 842(a) and/or 21 CFR § 1306.03(a)(1), and is subject to discipline pursuant to NRS 453.236(1) and/or NRS 639.210(11).

COUNT TWO
Violation of State Controlled Substances Act

18. By prescribing controlled substances without a valid registration as alleged herein, Respondent falsely represented himself as a practitioner entitled to write prescriptions in this state and violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 453.226(1), NRS 453.232, NRS 453.321(1)(a), NRS 639.100(1), NRS 639.235(1) and/or NRS 639.2813(1), and is subject to discipline pursuant to NRS 453.236(1) and/or NRS 639.210(12).

COUNT THREE
Unprofessional Conduct – Prescribing without a Valid Registration

19. By prescribing controlled substances without a valid registration as alleged herein, Respondent engaged in unprofessional conduct and conduct contrary to the public interest pursuant to NAC 639.945(1)(k), and is subject to discipline pursuant to NRS 453.236(l) and/or NRS 639.210(4).

COUNT FOUR
Violations of State Law - Prescription Monitoring Program

20. By failing to enroll for PMP database access and failing to review a patient utilization report as required before issuing a prescription for a controlled substance, as alleged in Paragraph 7 herein, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 453.226(1), NRS 639.23507 and/or NAC 453.065, and is subject to discipline pursuant to NRS 453.236(1)(d) and (e), NRS 453.241(1), NRS 639.210(12) and/or NRS 639.23916(3)(b).

COUNT FIVE
Commission of Acts that Render Registration Inconsistent with the Public Interest

21. By prescribing controlled substances without a valid registration as alleged herein, and by falsely representing himself as a practitioner entitled to write prescriptions in this state, Respondent has committed acts that render his Nevada controlled substance registration inconsistent with the public interest, and is subject to discipline pursuant to NRS 453.236(1)(e) and NRS 453.241(1).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of this respondent.

DATED this 30th day of JANUARY, 2023.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3). The hearing shall be conducted pursuant to NRS 639.241 through NRS 639.258. To be entitled to a hearing, you must complete and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Notice of Intended Action and Accusation. NRS 622A.320; NRS 639.243. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350. A regulatory body may recover from a person reasonable attorney's fees and costs that are incurred by the regulatory body as a part of its investigative, administrative, and disciplinary proceedings against the person if the regulatory body finds that the person has violated any provision of this title. Pursuant to NRS 241.033 and 241.034, please be advised that the hearing is a public meeting, and the Board may, without further notice, take administrative action against you if the Board determines that such administrative action is warranted after considering your character, alleged misconduct, professional competence, or physical or mental health. The Board at its discretion may go into closed session to consider your character, alleged misconduct, professional competence, or physical or mental health. You may attend any closed session, have an attorney or other representative of your choosing present during any closed session, and present written evidence, provide testimony, and present witnesses relating to your character, alleged misconduct, professional competence, or physical or mental health during any closed session.

5. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350.

DATED this 30th day of January, 2023.

NEVADA STATE BOARD OF PHARMACY,

Petitioner,

vs.

VICTOR BRUCE, MD
Certificate of Registration No. CS33714,

Respondent.

Case Nos. **22-228-CS-S**

ANSWER AND NOTICE OF DEFENSE OF RESPONDENT, VICTOR BRUCE, MD

Respondent, Victor Bruce, MD ("Dr. Bruce"), by and through counsel, hereby submit his Answer and Notice of Defense ("Answer"), pursuant to NRS 639.244[1], to the *Notice of Intended Action and Accusation* filed January 30, 2023 ("Accusation"), with the Nevada State Board of Pharmacy (the "Board"), in the above-captioned action.

1. Pursuant to NRS 639.244(1)(a), Dr. Bruce objects to the Accusation as being incomplete

[1] **NRS 639.244 Notice of Defense: Form; effect of failure to file.**
1. The form for the Notice of Defense must be prepared and furnished by the Board and permit the respondent, by completing and signing the notice, to:
(a) Object to the accusation as being incomplete and failing to set forth clearly the charges; and
(b) Deny or admit, in part or in whole, the violations alleged.
2. The Notice of Defense must be signed by the respondent or his or her attorney under penalty of perjury. Failure to file a Notice of Defense constitutes a waiver of the respondent's right to a hearing, but the Board may grant a hearing.

and failing to set forth clearly the charges against him.

2. Pursuant to NRS 639.244(1)(b), Dr. Bruce denies in whole the violations alleged against him in the Accusation.

3. Pursuant to NRS 639.244(2), by filing this Answer, Dr. Bruce has not waived the right to a hearing before the Board.

AFFIRMATIVE DEFENSES

1. The allegations contained in the Board's Accusation fail to state a cause of action upon which relief can be granted.

2. The violations alleged against Respondent in the Board's Accusation are subject to a demand/application pursuant to NRS 233B.121(2)(d) for a more definite and detailed statement. By this defense, Dr. Bruce specifically provides that he does not waive the right to such a demand/application even in light of this Answer.

3. Pursuant to NRS 622A.330, even though Dr. Bruce has provided this Answer, he specifically reserves the right to request a copy of all documents and other evidence intended to be presented by the Board at the hearing in support of its Accusation, as well as a list of proposed witnesses it intends to call at the hearing.

4. The answering Respondent hereby incorporates by reference those affirmative defenses enumerated in Rule 8 of the Nevada Rules of Civil Procedure as if fully set forth herein. In the event further investigation or discovery reveals the applicability of such defenses, this answering

Respondent reserves the right to seek leave of the Board or appropriate authority to amend this Answer to specifically assert the same. Such defenses are herein incorporated by reference for the specific purpose of not waiving the same.

5. It has been necessary for this answering Respondent to employ the services of an attorney to defend this action and a reasonable sum should be allowed as and for attorney's fees, together with the costs expended in this action.

WHEREFORE, Dr. Bruce prays the Accusation be dismissed, no discipline issue, that the initiating party take nothing by way of its Accusation and go hence with its costs.

Pursuant to NRS 639.244(2), this Answer is hereby signed by the answering Respondent's attorney.

Respectfully submitted this 21 day of February, 2023.

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **VICTOR BRUCE, MD** **Certificate of Registration No. CS33714,** **Respondent.**	**Case No. 22-228-CS-S** **STIPULATION AND ORDER**

Brett Kandt, General Counsel for Petitioner the Nevada State Board of Pharmacy (Board), and Respondent, Victor Bruce, MD, Certificate of Registration No. CS33714, by and through counsel, John A. Hunt, Esq., **HEREBY STIPULATE AND AGREE THAT**:

1. The Board has jurisdiction over Respondent and this matter.

2. On or about January 30, 2023, Respondent was served with the Notice of Intended Action and Accusation (Accusation) on file in this matter together with the Statement to Respondent and Notice of Hearing, and Respondent filed an Answer and Notice of Defense to the Accusation on February 21, 2023.

3. Respondent is fully aware of the right to seek the advice of counsel in this matter and obtained the advice of counsel prior to entering into this Stipulation and Order (Stipulation).

4. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration, the right to appeal and any and all other rights which may be accorded to him pursuant to NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

5. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondent has failed to comply with

the provisions of this Stipulation, Respondent hereby knowingly and voluntarily waives his rights to a hearing, reconsideration, appeal and any and all other rights related to this action that may be accorded to him by NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

6. Respondent's acknowledgement of Reasonable Basis to Proceed. Respondent acknowledges the Board believes it has a reasonable basis to allege that Respondent engaged in conduct that is grounds for discipline as alleged in the Accusation, *to wit*, that:

A. On January 13, 2022, the Board entered an Order Granting Petition (Order) in Case 19-242-D-S which, pertinent part, provides:

> The Board granted the petition and approved the issuance of a controlled substance registration to Bruce subject to the following terms, conditions and restrictions:
>
> 1. Bruce may only prescribe the controlled substances listed in the attached Exhibit 1;
>
> 2. Bruce shall access the database of the Prescription Monitoring Program established pursuant to NRS 453.162 at least monthly to review his prescriber activity through the MyRx function and shall timely report any discrepancies or fraudulent activity to Board staff; and
>
> 3. Bruce shall petition the Board for prior authorization to make any amendments to the list of controlled substances he may prescribe.
>
> Any failure by Bruce to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing Bruce to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order, the Board may impose additional discipline not inconsistent with the provisions of NRS Chapters 453 and 639.

Id., pgs. 1-2.

B. Consistent with the Order, on or about May 17, 2022, Respondent executed a Memorandum of Agreement with the U.S. Drug Enforcement Administration (DEA) and was issued a restricted controlled substance registration No. FB1503792. Respondent,

whether unintentionally and/or subject to excusable neglect, failed to submit proof of his DEA registration to the Board until July 14, 2022, and failed to enroll for Prescription Monitoring Program (PMP) database access pursuant to NRS 453.226(1), NRS 639.23507 and NAC 453.065.

C. The Board subsequently issued Respondent Certificate of Registration No. CS33714 on or about July 19, 2022. However, between May 17, 2022 (when Respondent executed a Memorandum of Agreement with the U.S. Drug Enforcement Administration (DEA) and was issued a restricted controlled substance registration No. FB1503792) and July 19, 2022 (when the Board issued Respondent Certificate of Registration No. CS33714), Respondent issued seven (7) controlled substance prescriptions for Nevada patients. The Board does not allege the prescriptions were not issued for a legitimate medical purpose or otherwise violated the Order.

D. Respondent's actions, as addressed herein and above, whether unintentional and/or subject to excusable neglect, are grounds for disciplinary action against Respondent pursuant to NRS 639.219(4), (11) and/or (12) in that said actions violate federal and state law and constitute unprofessional conduct or conduct contrary to the public interest.

The Board acknowledges Respondent is not admitting that the Accusation's allegations have merit. The parties are agreeing to resolve this matter to avoid the costs of a hearing and potential subsequent litigation. Respondent asserts if this matter were to proceed to hearing, he has evidence, witnesses, expert witness(es) and defenses to the allegations alleged in the Accusation, but for the purposes of resolving the matter and for no other purpose, Respondent waives the presentation of evidence, witnesses, expert witnesses, and defenses in order to effectuate this Stipulation.

7. To resolve this matter the Board and Respondent, Victor Bruce, MD, Certificate of Registration No. CS33714, stipulate to the following penalties:

A. Pursuant to NRS 639.255(1)(f) and NAC 639.955(5), Respondent shall pay a fine of Five Thousand Dollars ($5,000.00) for the violations, by personal, business, certified or cashier's check or money order made payable to "State of Nevada, Office of the Treasurer," to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within sixty (60) days of the effective date of this Order; and

B. Pursuant to NRS 622.400, Respondent shall pay Five Hundred Dollars ($500.00) to partially reimburse the Board for reasonable attorney's fees and recoverable costs incurred in investigating and prosecuting this matter. Payment shall be made by personal, business, certified or cashier's check or money order made payable to the "Nevada State Board of Pharmacy" to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within sixty (60) days of entry of this Order.

8. Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may impose additional discipline upon Respondent not inconsistent with the provisions of NRS Chapters 453 and 639.

9. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on June 14, 2023. Respondent will appear at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent is not present at the meeting.

10. The Board has discretion to accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r–2 and 45 CFR Part 60.

11. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the merits of this matter may be heard by the Board. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

12. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any and all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order.

Respondent has fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and has knowingly and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **JONATHAN R. SORELLE, MD, Certificate of Registration Nos. CS16072 and PD00567,** **Respondent.**	**Case No. 22-027-CS-S** **FIRST AMENDED NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter because at the time of the events alleged herein, Respondent Jonathan R. Sorelle, MD, held a controlled substance registration, Certificate of Registration No. CS16072, and dispensing practitioner registration, Certificate of Registration No. PD00567, issued by the Board.

FACTUAL ALLEGATIONS

2. On or about May 9, 2019, Board staff conducted an annual inspection of Respondent's practice, the Minimally Invasive Hand Institute, located at 9080 W. Post Road #200 in Las Vegas. The inspection revealed that Respondent failed to properly segregate and/or dispose of expired dangerous drugs, including, without limitation:

A. Losartan 50mg – Expiration 12/2017

B. Ciprofloxacin 500mg – Expiration 12/2018

C. Marcaine 50ml vial – Expiration 12/2018

3. The inspection also revealed that Respondent failed to verify the accuracy of dispensed prescriptions filled by dispensing technicians.

4. A subsequent investigation revealed one-hundred twenty-one (121) fraudulent prescriptions for Oxycodone 30mg, 90 tablets were issued from July 13, 2020, to September 9, 2021, falsely documenting Respondent as the prescribing physician, resulting in the unlawful diversion of a total of 10,890 Oxycodone tablets.

5. Respondent failed to review his prescriber activity in the Prescription Monitoring Program (PMP) between September 23, 2016, and December 8, 2022.

6. Prior to December 2022, Respondent regularly permitted unauthorized persons who were not licensed practitioners, including without limitation, Leticia Tamayo, Shelby Jackson, and Gary Gaje, to use Respondent's credentials to access the PMP and/or to issue electronic prescriptions for controlled substances.

APPLICABLE LAW

7. It is unlawful for any person to have in his or her possession, or under his or her control, for the purpose of resale, or to sell or offer to sell or dispense or give away, any pharmaceutical preparation, drug or chemical which . . . is no longer safe or effective for use, as indicated by the expiration date appearing on its label. NRS 639.282(1)(d); 21 CFR § 211.137.

8. A prescription drug that is outdated, damaged, deteriorated, misbranded or adulterated must be separated from other prescription drugs until it is destroyed or returned to the supplier. NAC 639.601(1).

9. A dispensing practitioner who allows a dispensing technician to perform any function for filling and dispensing a prescription is responsible for the performance of that function by the dispensing technician. Each prescription with respect to which a dispensing technician performed such a function:

(a) Must be checked by the dispensing practitioner, and the dispensing practitioner shall indicate on the label of the prescription and in his or her record regarding the prescription that the dispensing practitioner has checked the work performed by the dispensing technician; and

(b) Must not be dispensed to the patient without the initials of the dispensing practitioner thereon.

NAC 639.743(2) (a) & (b).

10. A prescription for a controlled substance may be issued only for a legitimate medical purpose and in the usual course of his or her professional practice by an individual practitioner who holds a DEA registration and is authorized to prescribe controlled substances by the jurisdiction in which he is licensed to practice his profession. 21 U.S.C. § 822(a)(2); 21 U.S.C. § 823(f); 21 CFR § 1306.03(a); 21 CFR § 1306.04(a); NRS 453.381(1); NRS 639.235(1).

11. An electronic prescription for a controlled substance must be issued in compliance with 21 CFR § 1311.100, NRS 639.23535 and NAC 639.7105, and a practitioner must retain sole possession of the hard token, where applicable, and must not share the password or other knowledge factor, or biometric information, with any other person, and must not allow any other person to use the token or enter the knowledge factor or other identification means to sign prescriptions for controlled substances. 21 CFR § 1311.102.

12. A practitioner with a controlled substance registration shall review his prescriber activity in the PMP at least once every 6 months and shall review a patient's utilization report as required before issuing a prescription for a controlled substance. NRS 453.164(7); NRS 639.23507.

13. Patient utilization reports and all data in the PMP database constitute Protected Health Information (PHI); unauthorized access constitutes a criminal offense. 42 U.S.C. §1320d-6; 45 C.F.R. Part 160 and Part 164, Subparts A and E; NRS 453.164(8); NRS 453.552(2).

14. It is a felony offense to falsify a prescription for a controlled substance or otherwise purchase or possess a controlled substance except as authorized by law. 21 U.S.C. § 841(a); 21 U.S.C. § 842(a); NRS 453.331(1)(c), (d), (f), (h) and (i); NRS 639.281(1); NRS 639.2813(1).

15. Conspiring to violate the Controlled Substances Act is a felony offense. 21 U.S.C. § 846; NRS 453.401(l)(a).

16. Performing or in any way being a party to any fraudulent or deceitful practice or transaction constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(h) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 453.236(1) and NRS 639.210(4).

17. Performing any duties as the holder of a registration in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(i) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 453.236(1) and NRS 639.210(4).

18. Aiding or abetting a person not licensed to practice in the State of Nevada constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(j) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 453.236(1) and NRS 639.210(4).

19. Violating any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(11).

20. Violating, attempting to violate, assisting or abetting in the violation of or conspiring to violate any law or regulation relating to drugs is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(12).

21. The Board may suspend or revoke a registration issued pursuant to NRS 453.231 upon a finding that the registrant has committed an act that renders registration inconsistent with the public interest. NRS 453.236(1)(e) and NRS 453.241(1).

COUNT ONE
Violations of Federal Controlled Substances Act – Diversion

22. By failing to review his prescriber activity in the PMP and enabling persons to act under Respondent's authority to issue one-hundred twenty-one (121) fraudulent prescriptions for Oxycodone 30mg, 90 tablets, resulting in the unlawful diversion of 10,890 Oxycodone tablets as alleged in Paragraphs 4 and 5 herein, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate, or knowingly permitted, allowed, condoned or failed to report a violation of 21 U.S.C. § 822(a)(2), 21 U.S.C. § 823(f), 21 U.S.C. § 841(a), 21 U.S.C. § 842(a), 21 U.S.C. § 846, CFR § 1306.03(a), 21 CFR § 1306.04(a), 21 CFR § 1311.100 and/or 21 CFR § 1311.102, and is subject to discipline pursuant to NRS 453.236(1) and NRS 639.210(11).

COUNT TWO
Violations of State Law – Diversion

23. By failing to review his prescriber activity in the PMP and enabling persons to act under Respondent's authority to issue one-hundred twenty-one (121) fraudulent prescriptions for Oxycodone 30mg, 90 tablets, resulting in the unlawful diversion of 10,890 Oxycodone tablets as alleged in Paragraphs 4 and 5 herein, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate, or knowingly permitted, allowed, condoned or failed to report a violation of NRS 453.331(1)(c), (d), (f), (h) and (i), NRS 453.381(1), NRS 453.401(1)(a), NRS 639.235(1), NRS 639.23535, NRS 639.281(1), NRS 639.2813(1) and/or NAC 639.7105, and is subject to discipline pursuant to NRS 453.236(1) and NRS 639.210(12).

COUNT THREE

Violations of Federal Controlled Substances Act – Unlawfully Issuing Electronic Prescriptions for Controlled Substances

24. By permitting persons not licensed as practitioners in Nevada to regularly use his credentials and act under his authority to issue electronic prescriptions for controlled substances, as alleged in Paragraph 6 herein, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate, or knowingly permitted, allowed, condoned or failed to report a violation of 21 U.S.C. § 822(a)(2), 21 U.S.C. § 823(f), 21 U.S.C. § 841(a), 21 U.S.C. § 842(a), 21 U.S.C. § 846, CFR § 1306.03(a), 21 CFR § 1306.04(a), 21 CFR § 1311.100 and/or 21 CFR § 1311.102, and is subject to discipline pursuant to NRS 453.236(1)(d) and (e), NRS 453.241(1), NRS 639.210(11) and/or NRS 639.23916(3)(b).

COUNT FOUR

Violations of State Law – Unlawfully Issuing Electronic Prescriptions for Controlled Substances

25. By permitting persons not licensed as practitioners in Nevada to regularly use his credentials and act under his authority to issue electronic prescriptions for controlled substances, as alleged in Paragraph 6 herein, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate, or knowingly permitted, allowed, condoned or failed to report a violation of NRS 453.331(1)(c), (d), (f), (h) and (i), NRS 453.381(1), NRS 453.401(l)(a), NRS 639.235(1), NRS 639.23535, NRS 639.281(1), NRS 639.2813(1) and/or NAC 639.7105, and is subject to discipline pursuant to NRS 453.236(1)(d) and (e), NRS 453.241(1), NRS 639.210(12) and/or NRS 639.23916(3)(b).

COUNT FIVE

Violations of Law - Prescription Monitoring Program

26. By failing to review his prescriber activity in the PMP between September 23, 2016, and December 8, 2022, and by permitting unauthorized persons to access the PMP and PHI using Respondent's credentials, as alleged in Paragraphs 5 and 6 herein, Respondent

violated, attempted to violate, assisted or abetted in the violation of or conspired to violate 42 U.S.C. §1320d-6, 45 C.F.R. Part 160 and Part 164, Subparts A and E, NRS 453.164(7) and (8), NRS 453.552(2) and/or NRS 639.23507, and is subject to discipline pursuant to NRS 453.236(1)(d) and (e), NRS 453.241(1), NRS 639.210(12) and/or NRS 639.23916(3)(b).

COUNT SIX

Violations of Law - Failure to Properly Segregate and Dispose of Expired Drugs

27. By failing to properly segregate and/or dispose of expired dangerous drugs to ensure they could not be administered or dispensed to patients as alleged in Paragraph 2 herein, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate 21 CFR § 211.137, NRS 639.282(1)(d) and/or NAC 639.601(1), and is subject to discipline pursuant to NRS 453.236(1) and NRS 639.210(11) and (12).

COUNT SEVEN

Violations of Law - Failure to Verify Accuracy of Dispensed Prescriptions

28. By failing to verify the accuracy of dispensed prescriptions and to initial each prescription as alleged in Paragraph 3 herein, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NAC 639.743(2) (a) & (b), and is subject to discipline pursuant to NRS 639.210 (12).

COUNT EIGHT

Unprofessional Conduct - Party to Fraudulent or Deceitful Practice or Transaction

29. By permitting persons not licensed as practitioners in Nevada to regularly use his credentials and act under his authority to access the PMP and issue electronic prescriptions for controlled substances, as alleged in Paragraph 6 herein, Respondent was party to a fraudulent or deceitful practice or transaction and engaged in unprofessional conduct and conduct contrary to the public interest as defined in NAC 639.945(1)(h), and is subject to discipline pursuant to NRS 453.236(1)(e), NRS 453.241(1) and/or NRS 639.210(4).

COUNT NINE

Unprofessional Conduct – Incompetent, Unskillful or Negligent Performance of Duties

30. By his actions as alleged herein, Respondent has performed his duties as the holder of a Nevada controlled substance registration and a Nevada dispensing practitioner registration in an incompetent, unskillful or negligent manner and engaged in unprofessional conduct as defined in NAC 639.945(1)(i), and is subject to discipline pursuant to NRS 453.236(1)(e), NRS 453.241(1) and NRS 639.210(4).

COUNT TEN

Unprofessional Conduct – Aiding and Abetting Unlicensed Practice

31. By permitting persons not licensed as practitioners in Nevada to regularly use his credentials and act under his authority to access the PMP and issue electronic prescriptions for controlled substances, as alleged in Paragraph 6 herein, Respondent aided and abetted unlicensed practice and engaged in unprofessional conduct as defined in NAC 639.945(1)(j), and is subject to discipline pursuant to NRS 453.236(1)(e), NRS 453.241(1) and/or NRS 639.210(4).

COUNT ELEVEN

Commission of Acts that Render Registration Inconsistent with the Public Interest

32. By his actions as alleged herein, Respondent has committed acts that render his registration inconsistent with the public interest and is subject to discipline pursuant to NRS 453.236(1)(e) and NRS 453.241(1).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of this respondent.

DATED this 20th day of APRIL 2023.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3). The hearing shall be conducted pursuant to NRS 639.241 through NRS 639.258. To be entitled to a hearing, you must complete and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this First Amended Notice of Intended Action and Accusation. NRS 622A.320; NRS 639.243. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350. A regulatory body may recover from a person reasonable attorney's fees and costs that are incurred by the regulatory body as a part of its investigative, administrative, and disciplinary proceedings against the person if the regulatory body finds that the person has violated any provision of this title. NRS 622.400(1).

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **JONATHAN R. SORELLE, MD, Certificate of Registration Nos. CS16072 and PD00567,** **Respondent.**	**CASE NO. 22-027-CS-S** **STATEMENT TO THE RESPONDENT AND NOTICE OF HEARING**

TO THE RESPONDENT ABOVE-NAMED: PLEASE TAKE NOTICE THAT:

1. Pursuant to the authority and jurisdiction conferred upon the Nevada State Board of Pharmacy (Board) by NRS 639.241 to NRS 639.2576, inclusive, and NRS chapter 233B and 622A, a First Amended Notice of Intended Action and Accusation has been filed with the Board by the Petitioner, J. David Wuest, Executive Secretary for the Board, alleging grounds for imposition of disciplinary action by the Board against you, as is more fully explained and set forth in the First Amended Notice of Intended Action and Accusation served herewith and hereby incorporated reference herein.

2. You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the First Amended Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3); NRS 639.241. To do so, you must complete and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Statement and Notice, and of the First Amended Notice of Intended Action and Accusation served within. NRS 622A.320; NRS 639.243.

3. **The Board has scheduled your hearing on this matter for Wednesday, June 14, 2023, at 9:00 AM PST or soon thereafter at the following location:**

Respondent Jonathan R. Sorelle, MD ("Dr. Sorelle"), by and through his counsel of record, Bailey❖Kennedy, hereby answers the Nevada State Board of Pharmacy's First Amended Notice of Intended Action and Accusation as follows:

JURISDICTION

1. Answering paragraph 1, Dr. Sorelle states that the allegations contained therein constitute a legal conclusion to which no response is required; to the extent a response is required, Dr. Sorelle denies any allegations to the extent they are contrary to or inconsistent with the law.

FACTUAL ALLEGATIONS

2. Answering paragraph 2, Dr. Sorelle admits that on or about May 9, 2019, Board staff performed an annual inspection of Respondent's practice, The Minimally Invasive Hand Institute, located at 9080 W. Post Road #200 in Las Vegas. Dr. Sorelle further admits that a small number of the medications identified in paragraph 2, were expired. Dr. Sorelle further states that: (i) this was an

isolated incident related to a particular employee; (ii) this employee was relieved from full-time employment at the Minimally Invasive Hand Institute; (iii) these expired medications were promptly and properly disposed of; (iv) additional measures were put into place to ensure this does not happen again; and (v) no such issue has been identified in subsequent inspections.

3. Answering paragraph 3, Dr. Sorelle denies knowingly not verifying the accuracy of dispensed prescriptions filled by a dispensing technician. Dr. Sorelle further states that, as a matter of practice, he verifies each prescription. However, an isolated incident occurred where a now former employee (the same employee referred to above) did not present a small number of dispensed prescriptions to him for his initials. No such issue has been identified in subsequent inspections.

4. Answering paragraph 4, Dr. Sorelle does not have personal knowledge of what the investigation revealed. Dr. Sorelle denies any involvement in or knowledge of the false documentation that resulted in any unlawful diversion of Oxycodone tablets.

5. Dr. Sorelle denies the allegations contained in paragraph 5.

6. Answering paragraph 6, Dr. Sorelle denies regularly permitting unauthorized persons to utilize his credentials to access the PMP. Dr. Sorelle admits that he formerly permitted select employees to obtain PMP patient utilization reports prior to Dr. Sorelle's issuance of controlled substance prescriptions. Dr. Sorelle further states that he subsequently appointed two employees to serve as his PMP delegates, and that these employees may only access the PMP under their own credentials. Dr. Sorelle denies any remaining allegations.

APPLICABLE LAW

7. Answering paragraph 7, Dr. Sorelle states that the allegations contained in paragraph 7 call for legal conclusions to which no response is required; to the extent a response is required, Dr. Sorelle denies any allegations to the extent that they are contrary to or are inconsistent with the law.

8. Answering paragraph 8, Dr. Sorelle states that the allegations contained in paragraph 8 call for legal conclusions to which no response is required; to the extent a response is required, Dr. Sorelle denies any allegations to the extent that they are contrary to or are inconsistent with the law.

AFFIRMATIVE DEFENSES

1. The Pharmacy Board fails to state a cognizable claim upon which relief may be granted.

2. The Pharmacy Board's claims are barred, in whole or in part, because at all relevant times Dr. Sorelle acted in compliance with all lawful requirements for the retention of his controlled substance and dispensing practitioner registrations.

3. The Pharmacy Board's causes of action are barred, in whole or in part, because the Pharmacy Board is unable to prove the commission of the alleged violations by a preponderance of the evidence as required under Nevada law.

4. The First Amended Notice of Intended Action and Accusation violates Dr. Sorelle's right to due process by failing to sufficiently apprise him of the nature of the proceedings so that he has an adequate opportunity to prepare, as is required under Nevada law.

5. The Pharmacy Board's causes of action are barred, in whole or in part, because the applicable statutes and regulations are unconstitutional/unconstitutionally vague as applied to Dr. Sorelle's actions.

6. The applicable statute of limitations bars all and/or some of the Pharmacy Board's causes of action.

7. Any and all alleged problems and damages were proximately caused or contributed to by the acts of other persons and/or entities, and that said acts were an intervening and/or superseding cause of the problems and damages, if any.

8. The Pharmacy Board's claims are barred, in whole or in part, because Dr. Sorelle's actions were justified under the circumstances.

9. The Pharmacy Board's claims are barred, in whole or in part, by the equitable doctrines of laches, estoppel, and/or unclean hands.

10. The Pharmacy Board's claims are barred, in whole or in part, because the Pharmacy Board has acted in an arbitrary and capricious manner.

Dr. Sorelle reserves the right to assert additional affirmative defenses, and gives notice that he intends to rely upon, any other affirmative defense(s) that may become available or appear during discovery or otherwise in this matter, and reserves the right to amend this Answer to assert any such additional affirmative defenses.

NEVADA STATE BOARD OF PHARMACY

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **ERIC SHYU, DDS,** **Certificate of Registration No. CS32185,** **Respondent.**	**CASE NO. 21-102-CS-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has personal jurisdiction over Respondent Eric Shyu, DDS (Respondent), because Respondent currently holds a certificate of registration issued by the Board pursuant to NRS 453.231, authorizing him to dispense controlled substances.

2. The Board has jurisdiction over the subject matter of this accusation because the alleged violations involve the unregistered dispensing of controlled substances. *See* NRS 639.070(1)(l). Under Nevada law, the term "dispense" is defined to include the act of prescribing controlled substances. *See* NRS 453.056(1); NRS 639.0065(1).

FACTUAL ALLEGATIONS

3. Respondent is licensed by the Nevada State Board of Dental Examiners as a Doctor of Dental Surgery. At the time of the violations alleged herein, Respondent was a "practitioner" as that term is defined at NRS 453.126(2) and NRS 639.0125(3).

4. Between September 20, 2017, and October 31, 2018, Respondent held a certificate of registration issued by the Board pursuant to NRS 453.226, authorizing him to prescribe controlled

substances. Respondent did not renew his certificate of registration when it expired on October 31, 2018.

5. Between November 1, 2018, and August 26, 2021, Respondent was engaged at various times in the practice of dentistry within the State of Nevada. As relevant to this accusation, Respondent practiced dentistry in 2019 as a member of Divine Dental, located at 7035 West Ann Road in Las Vegas, Nevada.

6. In 2019, while a member of Divine Dental, Respondent issued three prescriptions for the following controlled substances: a prescription for hydrocodone-acetaminophen, written on August 22, 2019; a prescription for triazolam, written on August 23, 2019; and a prescription for triazolam, written on September 20, 2019. These prescriptions were filled for Respondent's patients at the Walgreen's Pharmacy on Ann Road in Las Vegas, the Walgreen Pharmacy on South Jones Boulevard in Las Vegas, and the Wal-Mart Pharmacy on North Nellis Boulevard in Las Vegas.

7. In 2019, Respondent did not hold a valid certificate of registration issued by the Board authorizing him to prescribe controlled substances, and he was not enrolled in Nevada's prescription monitoring program (PMP).

8. In a written statement dated October 11, 2021, in response to questions posed by Investigator Kenneth Scheuber, Respondent explained that he had been unaware of Nevada's controlled substance registration requirements. Respondent stated that he held a current registration with the federal Drug Enforcement Administration, leading him to believe that he was authorized to prescribe controlled substances in Nevada.

9. Respondent obtained his current certificate of registration from the Board on August 26, 2021, shortly after Board staff advised Respondent that his prior registration had expired effective October 31, 2018.

APPLICABLE LAW

10. In Nevada, it is unlawful to dispense a controlled substance except as authorized by NRS Chapter 453. *See* NRS 453.321(1)(a). "Dispense" is defined to include the act of prescribing a controlled substance. *See* NRS 453.056.

11. Every practitioner who intends to prescribe controlled substances in Nevada must first apply for and obtain a certificate of registration from the Board. NRS 453.226(1)(a); NRS 453.231(3). A practitioner who fails to so register may be subject to criminal and/or civil penalties for prescribing controlled substances without a registration. *See* NRS 453.232; NRS 453.553; NRS 453.5531.

12. A practitioner shall, before issuing an initial prescription for a controlled substance, and at least once every 90 days thereafter for the duration of the course of treatment using the controlled substance, obtain a patient utilization report regarding the patient from the PMP. *See* NRS 639.23507.

13. A practitioner registered with the Board to write prescriptions for controlled substances must access his or her prescriber activity in the PMP at least once every 6 months to review prescriptions issued by the practitioner and to verify for the Board that he or she continues to have access to the PMP. *See* NRS 453.164(7).

14. In addition to any criminal or civil penalties that may apply, the Board may revoke or suspend the existing registration of any practitioner who has been guilty of unprofessional conduct or conduct contrary to the public interest. *See* NRS 639.210(4).

15. A practitioner's conduct is deemed unprofessional and/or contrary to the public interest if the practitioner performs, without the required registration, any task or operation for which registration is required, or performs his or her duties in an incompetent, unskillful or negligent manner. *See* NAC 639.945(1)(i) and (k).

16. A practitioner's conduct is deemed unprofessional and/or contrary to the public interest if the practitioner performs or is in any way a party to any fraudulent or deceitful practice or transaction. See NAC 639.945(1)(h).

17. A practitioner's conduct is deemed unprofessional and/or contrary to the public interest if the practitioner fails to provide any document, data, or information that is required to be made and maintained pursuant to the statutes and regulations governing the PMP. *See* NAC 639.945(1)(m).

18. In addition to or in lieu of revoking or suspending a practitioner's certificate of registration due to any violation described herein, the Board may impose an administrative fine upon such practitioner. The fine may not exceed $10,000 for each offense. *See* NRS 639.255(1)(f) and (3).

COUNT ONE
Prescribing Without a Valid Nevada Registration

19. In 2019, as alleged above, Respondent prescribed controlled substances in Nevada even though he had not held a valid certificate of registration since October 31, 2018. This constitutes a violation of Nevada law for which the Board may impose administrative discipline. *See* NRS 453.321(1)(a); NRS 639.210(12). It also constitutes unprofessional conduct for which the Board may impose administrative discipline. *See* NRS 639.210(4); NAC 639.945(1)(k).

COUNT TWO
False Representations Regarding Authority to Prescribe

20. By prescribing controlled substances without a certificate of registration as alleged herein, Respondent impliedly represented to dispensing pharmacists and/or patients that he was authorized by the Board to write prescriptions for controlled substances.

21. On one or more occasions prior to October 31, 2018, the Board and/or the Board's staff notified Respondent that his original certificate of registration was not valid beyond October 31, 2018. Based upon such notification(s), Respondent knew or should have known that his implied representations regarding his authority to prescribe controlled substances were untrue.

22. By falsely representing to dispensing pharmacists and/or patients that he was a practitioner authorized to prescribe controlled substances, Respondent violated NRS 639.2813. This constitutes a violation of state law for which the Board may impose administrative discipline. See NRS 639.210(12). It also constitutes unprofessional conduct for which the Board may impose administrative discipline. *See* NRS 639.210(4); NAC 639.945(1)(h).

COUNT THREE
Performing Duties in Negligent Manner

23. By prescribing controlled substances without a valid certificate of registration as alleged herein, Respondent exposed patients and/or dispensing pharmacists to potential criminal and/or civil liability for violating state and/or federal laws governing the distribution, use, and/or possession of controlled substances.

24. By exposing others to potential liability as described above, Respondent performed his duties as the holder of a certificate issued by the Board in an incompetent, unskillful or negligent manner. This constitutes unprofessional conduct for which the Board may impose administrative discipline. *See* NRS 639.210(4); NAC 639.945(1)(i).

COUNT FOUR
Noncompliance with Prescription Monitoring Program

25. In 2019, Respondent failed to establish an account with the PMP. By reason of such failure, Respondent was unable to access and/or query the PMP database as required by law.

26. By failing to query the PMP database to review a patient's utilization report prior to issuing a prescription for a controlled substance and to review his prescriber activity, Respondent violated NRS 453.164(7) and NRS 639.23507. This is a violation of state law and an act that renders Respondent's Nevada controlled substance registration inconsistent with the public interest. Therefore, the Board may impose administrative discipline. *See* NRS 639.210(4) and (12); NRS 639.255(3), NRS 453.236(1)(d) and (e), and NRS 453.241(1).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the current certificate of registration of this respondent.

DATED this 20th day of APRIL 2023.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **ERIC SHYU, DDS,** **Certificate of Registration No. CS32185,** **Respondent.**	**Case No. 21-102-CS-S** **STIPULATION AND ORDER**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, by and through its Senior General Counsel, Gregory L. Zunino, and Respondent Eric Shyu, DDS ("Respondent"), Certificate of Registration No. CS32185, hereby stipulate and agree as follows:

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent and this matter.

2. The Board's staff properly served Respondent with the Notice of Intended Action and Accusation ("Accusation") on file in this matter, together with the Statement to Respondent and Notice of Hearing.

3. Respondent understands and acknowledges that he may consult with an attorney, at his own expense, prior to executing this Stipulation. Respondent knowingly and voluntarily waives the right to retain an attorney in connection with this matter.

4. Respondent is aware of his right to a hearing on the matters alleged in the Accusation, his right to reconsideration of a Board determination in a contested case, his right to appeal a Board determination in a contested case, and all other rights afforded him under NRS Chapter 233B, the Nevada Administrative Procedure Act, NRS Chapters 622 and 622A, which govern administrative procedure before the Board, NRS Chapter 639, the Nevada Pharmacy Act, and NRS Chapter 453, the Nevada Uniform Controlled Substances Act.

5. Conditioned on the acceptance of this Stipulation by the Board, and excluding the right to challenge any determination that Respondent has failed to comply with the provisions of the

paragraphs below, Respondent voluntarily waives his rights to a hearing, reconsideration, appeal, and other rights related to this action as identified above.

6. Respondent admits that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the violation alleged in Count One of the Accusation, *to wit*:

A. Between November 1, 2018, and August 26, 2021, Respondent was engaged at various times in the practice of dentistry within the State of Nevada. As relevant to this accusation, Respondent practiced dentistry in 2019 as a member of Divine Dental, located at 7035 West Ann Road in Las Vegas, Nevada.

B. In 2019, while a member of Divine Dental, Respondent issued three prescriptions for the following controlled substances: a prescription for hydrocodone-acetaminophen, written on August 22, 2019; a prescription for triazolam, written on August 23, 2019; and a prescription for triazolam, written on September 20, 2019. In 2019, Respondent did not hold a valid certificate of registration issued by the Board authorizing him to prescribe controlled substances.

C. As alleged above, Respondent prescribed controlled substances in Nevada even though he did not hold a valid certificate of registration. This constitutes a violation of Nevada law for which the Board may impose administrative discipline. *See* NRS 453.321(1)(a); NRS 639.210(12). It also constitutes unprofessional conduct for which the Board may impose administrative discipline. *See* NRS 639.210(4); NAC 639.945(1)(k).

7. Respondent currently holds a valid certificate of registration issued by the Board. In the spirit of compromise and given the amount of time that passed between the alleged violations and the filing and service of the Accusation, Count Two through Count Four of the Accusation shall be dismissed upon the approval of this Stipulation by the Board.

8. To resolve this matter without incurring any further costs or the expenses associated with a hearing, the Board and Respondent agree to the imposition of the following:

A. Respondent shall pay an administrative fine of Five Thousand Dollars ($5000.00) for the violation alleged in paragraph 6 above; and

B. Respondent shall pay Five Hundred Dollars ($500.00) to partially reimburse the Board for attorney's fees and costs recoverable pursuant to NRS 622.400 for the expense of investigating and prosecuting this matter.

9. Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause, pursuant to NAC 639.965, directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may impose additional discipline upon Respondent not inconsistent with the provisions of NRS Chapter 639.

10. The Board's Senior General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on June 14, 2023, in Las Vegas, Nevada. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent fails to appear for the meeting. However, Respondent understands and acknowledges that the Board expects him to personally appear for the hearing and may choose to reject this Stipulation if Respondent fails to personally appear for the hearing.

11. The Board may accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r–2 and 45 CFR Part 60.

12. If the Board rejects any part or all this Stipulation, and unless the parties reach an alternative agreement on the record during the hearing, the parties agree that the Board may hear a full contested hearing on the merits of all alleged violations as stated in the Accusation. The terms and admissions herein may not be used, relied upon, or referred to by any party during any such hearing.

13. Upon approval of this Stipulation by the Board, Respondent shall pay the fine agreed to herein by *personal, cashiers,* or *certified check* or *money order* made payable to **"State of Nevada,**

Office of the Treasurer." Respondent shall remit payment to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521. The applicable fine of Five Thousand Dollars ($5,000) may be paid in full, or it may be paid in ten (10) equal monthly installments of Five Hundred Dollars ($500). If Respondent elects to pay the fine in equal monthly installments, the first installment shall be due within thirty (30) days after the effective date of the Board's Order as stated below, and subsequent instalments shall be due on or before the 15th day of each successive month until paid in full.

14. Upon approval of this Stipulation by the Board, Respondent shall pay the attorney's fees and costs agreed to herein by *personal, cashiers,* or *certified check* or *money order* made payable to **"Nevada State Board of Pharmacy."** Respondent shall remit the applicable reimbursement of Five Hundred Dollars ($500), in full, to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521. This payment shall be remitted within thirty (30) days of the effective date of the Board's Order as stated below.

15. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any or all additional claims arising from the facts set forth in the Accusation on file herein.

Respondent has fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and has freely and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

AGREED:

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **HEATHER DENISE HARVEY, APRN, Certificate of Registration No. CS35130,** **Respondent.**	**CASE NO. 23-074-PR-O** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has personal jurisdiction over Respondent Heather Denise Harvey, APRN (Respondent), because Respondent holds a certificate of registration issued by the Board pursuant to NRS 453.226, authorizing her to prescribe controlled substances.

2. The Board has jurisdiction over the subject matter of this accusation because, at the time of the violations alleged herein, Respondent held a certificate of registration issued by the Board pursuant to NRS 639.1375, authorizing her to dispense drugs other than controlled substances. While subject to the Board's jurisdiction to regulate Respondent's prescribing activity, Respondent exceeded the scope of her existing registration by prescribing controlled substances without having obtained the required certificate of registration to prescribe controlled substances.

FACTUAL ALLEGATIONS

3. Respondent is licensed by the Nevada State Board of Nursing as an advanced practice registered nurse. At the time of the violations alleged herein, Respondent was a "practitioner" as that term is defined at NRS 453.126(2) and NRS 639.0125(3). As such, Respondent was authorized to

prescribe only such dangerous drugs and controlled substances as were then authorized by the Board pursuant to NRS 639.1375 and NRS 453.226.

4. Respondent maintains a medical practice in Alabama. Between May 17, 2022, and March 8, 2023, Respondent was authorized by the Board to prescribe dangerous drugs other than controlled substances.

5. On or about February 21, 2023, Respondent applied to the Board for a certificate of registration to prescribe controlled substances in Nevada. By letter dated February 22, 2023, Board staff notified Respondent that her application for a certificate of registration to prescribe controlled substances was incomplete because she did not return it with an original signature. In early March 2023, Respondent returned the application with her original signature.

6. On November 30, 2022, February 18, 2023, and March 6, 2023, Respondent wrote prescriptions for ketamine HCL powder, a Schedule III Controlled Substance. Respondent wrote these prescriptions for three different Nevada patients. Each prescription was filled by Tailor Made Compounding, a Nevada-licensed compounding pharmacy located in Nicholasville, Kentucky.

7. The Board first authorized Respondent to prescribe controlled substances on March 9, 2023, when it issued to her a certificate of registration pursuant to NRS 453.226. Prior to that time, Respondent was without authority to prescribe controlled substances for patients in Nevada, and she did not have an account with Nevada's Prescription Monitoring Program (PMP).

APPLICABLE LAW

8. In Nevada, it is unlawful to dispense a controlled substance except as authorized by NRS Chapter 453. *See* NRS 453.321(1)(a). "Dispense" is defined to include the act of prescribing a controlled substance. *See* NRS 453.056.

9. Every practitioner who intends to prescribe controlled substances in Nevada must first apply for and obtain a certificate of registration from the Board. NRS 453.226(1)(a); NRS 453.231(3). A practitioner who fails to so register may be subject to criminal and/or civil penalties for prescribing controlled substances without a registration. *See* NRS 453.232; NRS 453.553; NRS 453.5531.

10. A practitioner shall, before issuing an initial prescription for a controlled substance, and at least once every 90 days thereafter for the duration of the course of treatment using the controlled substance, obtain a patient utilization report regarding the patient from the PMP. *See* NRS 639.23507.

11. A practitioner registered with the Board to write prescriptions for controlled substances must access his or her prescriber activity in the PMP at least once every 6 months to review prescriptions issued by the practitioner and to verify for the Board that he or she continues to have access to the PMP. *See* NRS 453.164(7).

12. In addition to any criminal or civil penalties that may apply, the Board may revoke or suspend the existing registration of any practitioner who has been guilty of unprofessional conduct or conduct contrary to the public interest. *See* NRS 639.210(4).

13. A practitioner's conduct is deemed unprofessional and/or contrary to the public interest if the practitioner performs, without the required registration, any task or operation for which registration is required, or performs his or her duties in an incompetent, unskillful or negligent manner. *See* NAC 639.945(1)(i) and (k).

14. A practitioner's conduct is deemed unprofessional and/or contrary to the public interest if the practitioner performs or is in any way a party to any fraudulent or deceitful practice or transaction. See NAC 639.945(1)(h).

15. A practitioner's conduct is deemed unprofessional and/or contrary to the public interest if the practitioner fails to provide any document, data, or information that is required to be made and maintained pursuant to the statutes and regulations governing the PMP. *See* NAC 639.945(1)(m).

16. In addition to or in lieu of revoking or suspending a practitioner's certificate of registration due to any violation described herein, the Board may impose an administrative fine upon such practitioner. The fine may not exceed $10,000 for each offense. *See* NRS 639.255(1)(f) and (3).

COUNT ONE
Prescribing Without a Valid Nevada Registration

17. Between November 30, 2022, and March 6, 2023, Respondent prescribed controlled substances in Nevada without a certificate of registration issued by the Board pursuant to NRS 453.231. This constitutes a violation of Nevada law for which the Board may impose administrative discipline. *See* NRS 453.321(1)(a); NRS 639.210(12). It also constitutes unprofessional conduct for which the Board may impose administrative discipline. *See* NRS 639.210(4); NAC 639.945(1)(k).

COUNT TWO
False Representations Regarding Authority to Prescribe

18. By prescribing controlled substances without a certificate of registration as alleged herein, Respondent impliedly represented to dispensing pharmacists and/or patients that she was authorized by the Board to write prescriptions for controlled substances.

19. On or about February 22, 2023, Board staff notified Respondent that she had not completed her application for a certificate of registration to prescribe controlled substances. Based upon this correspondence, Respondent knew or should have known that she had not yet been authorized by the Board to prescribe controlled substances in Nevada.

20. On or about March 6, 2023, Respondent wrote a prescription for ketamine HCL powder with actual or constructive knowledge that she was not then authorized to write such a prescription in Nevada. This amounted to a false representation concerning Respondent's authority to prescribe controlled substances in Nevada.

21. By falsely representing to dispensing pharmacists and/or patients that she was a practitioner authorized to prescribe controlled substances, Respondent violated NRS 638.2813. This constitutes a violation of state law for which the Board may impose administrative discipline. See NRS 639.210(12). It also constitutes unprofessional conduct for which the Board may impose administrative discipline. *See* NRS 639.210(4); NAC 639.945(1)(h).

COUNT THREE
Performing Duties in a Negligent Manner

22. By prescribing controlled substances without a valid certificate of registration as alleged herein, Respondent exposed patients and/or dispensing pharmacists to potential criminal and/or civil liability for violating state and/or federal laws governing the distribution, use, and/or possession of controlled substances.

23. By exposing others to potential liability as described above, Respondent performed her duties as the holder of a certificate issued by the Board in an incompetent, unskillful or negligent manner. This constitutes unprofessional conduct for which the Board may impose administrative discipline. *See* NRS 639.210(4); NAC 639.945(1)(i).

COUNT FOUR
Noncompliance with Prescription Monitoring Program

24. Between November 30, 2022, and March 9, 2023, Respondent failed to establish an account with the PMP. By reason of such failure, Respondent was unable to access and/or query the PMP database as required by law.

25. By failing to query the PMP database to review a patient's utilization report prior to issuing a prescription for a controlled substance and to review her prescriber activity, Respondent violated NRS 453.164(7) and NRS 639.23507. This is a violation of state law and an act that renders Respondent's Nevada controlled substance registration inconsistent with the public interest. Therefore, the Board may impose administrative discipline. *See* NRS 639.210(4) and (12); NRS 639.255(3), NRS 453.236(1)(d) and (e), and NRS 453.241(1).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of this respondent.

DATED this 20th day of APRIL 2023.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, Petitioner, v. HEATHER DENISE HARVEY, APRN Certificate of Registration No. CS35130, Respondent.	CASE NO.: 23-074-PR-O **ANSWER AND NOTICE OF DEFENSE**

Respondent above named, in answer to the Notice of Intended Action and Accusation filed in the above-titled matter before the Nevada States Board of Pharmacy (the "Board"), admits, denies, and alleges as follows:

A. With regard to Paragraph 1, Respondent admits the allegations contained therein.

B. With regard to Paragraph 2, Respondent admits that at the time of the alleged violations she held a certificate of registration issued by the Board authorizing her to prescribe other than controlled substances, and that the Board has subject matter jurisdiction in this case. Respondent denies the remaining allegations in these paragraphs.

C. With regard to Paragraph 3, Respondent admits the allegations in this paragraph.

D. With regard to Paragraph 4, Respondent states she resides in and is licensed to practice in Alabama, but denies maintaining a practice there. Respondent admits the remaining

allegations in this paragraph.

E. With regard to Paragraphs 5 and 6, Respondent admits the allegations in these paragraphs.

F. With regard to Paragraph 7, Respondent admits that a certificate of registration to prescribe controlled substances was issued to her by the Board on or about March 9, 2023. Respondent denies the remaining allegations in this paragraph.

G. Paragraphs 8 through 16 do not contain allegations against the Respondent. To the extent an answer is required, the Respondent denies the allegations in these paragraphs.

H. With regard to Paragraphs 17 through 25, Respondent denies the allegations therein.

1. Respondent's employer from July 2022 to present, a multistate telemedicine company ("Employer"), managed Respondent's licensure and certification in each state in which she was to provide telehealth services, including Nevada.

2. When Respondent onboarded with Employer, she was told that she did not need a separate controlled substances registration for Nevada due to the exception granted by the Drug Enforcement Administration, effective March 23, 2020 through the pendency of the COVID-19 Public Health Emergency ("PHE") declared by the U.S. Department of Health and Human Services (HHS) ("DEA Exception"). Under the DEA Exception, practitioners were not required to obtain separate DEA registrations for each state in which they prescribed controlled substances, provided certain criteria were met including state-level reciprocity.

3. Employer's guidance was memorialized in an email to Respondent dated December 29, 2023, which stated in pertinent part:

a. Employer's clinicians were not required or expected to report their prescriptions directly into a state's prescription monitoring program ("PMP");

b. using Employer's Athena electronic medical record system to check patients' prescription history through PMP Interconnect would also meet state law requirements for checking PMP prior to prescription, with the exception of California, Nebraska, and Missouri; and

c. Employer's internal and external legal counsel determined that the DEA Exception permitted practitioners to prescribe controlled substances without separate registrations in each state provided they were licensed to prescribe controlled substances in their

"home state".

4. Under Directive 11 issued April 1, 2020, Nevada temporarily waived licensure requirements for medical professionals licensed in good standing in other states.

5. Accordingly, Petitioner temporarily offered prescribing registration waivers for practitioners licensed to prescribe controlled substances in other states.

6. Nevada's COVID-19 state of emergency was terminated effective May 20, 2022.

7. The Federal PHE did not expire until May 11, 2023.

8. Unbeknownst to Respondent, the registration exception/waiver guidance provided by Employer was no longer valid for the State of Nevada when her employment with Employer commenced.

9. Respondent detrimentally relied on Employer's guidance and explicit instructions, represented by Employer as having come from its legal counsel, that she did not need a separate controlled substances registration in order to prescribe in Nevada.

I hereby declare, under penalty of perjury, that the foregoing Answer and Notice of Defense, and all facts therein stated, are true and correct to best of my knowledge.

Dated this 15th day of May 2023.

OF PHARMACY

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **MALCOLM PAUL, M.D.,** **Respondent.**	**Case No. 22-479-S** **STATEMENT TO THE RESPONDENT AND NOTICE OF HEARING**

TO THE RESPONDENT ABOVE-NAMED: PLEASE TAKE NOTICE THAT:

Pursuant to the authority and jurisdiction conferred upon the Nevada State Board of Pharmacy ("Board") by NRS 639.070 and NRS 639.2895 and NRS 233B.121-.126, *inclusive*, on or about December 29, 2022, a Citation and Fine was served upon Respondent Malcolm Paul, M.D. ("Respondent"), alleging the violations of Nevada law as set forth herein.

FACTUAL ALLEGATIONS

1. On or about December 27, 2022, Respondent was issued a Certificate of Registration to Dispense Controlled Substances, Certificate No. CS34652.

2. Prior to obtaining his Nevada Certificate of Registration to Dispense Controlled Substances, Respondent authorized one or more controlled substance prescription(s) for Nevada patients.

3. On or about December 20, 2022, the Board served Respondent with a Cease-and-Desist/Citation requiring payment of a FIVE THOUSAND DOLLAR FINE ($5,000.00) for unauthorized prescribing of controlled substances.

4. Respondent submitted his appeal of the Citation-and-Fine to the Board.

APPLICABLE LAW

5. Every practitioner or other person who dispenses controlled substances within this State or who proposes to engage in the dispensing of any controlled substances within this State shall obtain biennially a registration issued by the Board in accordance with its regulations. A

person must present proof that he or she is authorized to access the database of the program established pursuant to NRS 453.162 before the Board may issue or renew a registration. NRS 453.226(1).

6. It is unlawful for any person to engage in wholesale distribution, sell or dispense, or permit to be disturbed at wholesale, any drug, poison, medicine, chemical, or to dispense, or permit to be dispensed any prescription of a practitioner unless the person holds the appropriate certificate, license, or permit required by Nevada Revised Statutes ("NRS") Chapters 639, 453, or 454 and the person complies with the regulations adopted by the Board under Nevada Administrative Code ("NAC") Chapter 639. NRS 639.100(1).

7. The Board may impose an administrative fine of not more than $5,000.00 against any person who the Board determined violated NRS 639.100(1) or NRS 639.285(1). Each activity in which the person is engaged constitutes a separate offense for which a separate citation may be issued. NRS 639.2895(1-4).

8. It is unlawful to prescribe a controlled substance except as authorized by law. NRS 453.321(1)(a).

9. A prescription for a controlled substance may be issued only for a legitimate medical purpose and in the usual course of his or her professional practice by an individual practitioner who holds a DEA registration and is authorized to prescribe controlled substances by the jurisdiction in which he or she is licensed to practice their profession. 21 U.S.C. § 822(a)(2); 21 U.S.C. § 823(f); 21 CFR § 1306.03(a)(1); NRS 453.226(1); NRS 453.321(1)(a); NRS 639.100(1); NRS 639.235(1).

10. The Board shall register an applicant to dispense controlled substances included in schedules I to V inclusive, unless it determines that the issuance of that registration would be inconsistent with the public interest, the Board shall consider the following factors: (a) Maintenance of effective controls against diversion of controlled substances into other than legitimate medical, scientific, research or industrial channels; (b) Compliance with state and

local law; (c) Promotion of technical advances in the art of manufacturing controlled substances and the development of new substances; (d) Convictions of the applicant pursuant to laws of another country or federal or state laws relating to a controlled substance; (e) Past experience of the applicant in the manufacture or distribution of controlled substances, and the existence in the applicant's establishment of effective controls against diversion of controlled substances into other than legitimate medical, scientific research or industrial channels; (f) Furnishing by the applicant of false or fraudulent material in an application filed pursuant to the provisions of NRS 453.011 to 453.552, inclusive;(g) Suspension or revocation of the applicant's federal registration to manufacture, distribute, possess, administer or dispense controlled substances as authorized by federal law; and (h) Any other factors relevant to and consistent with the public health and safety. NRS 453.231.

11. Performing any act, task or operation for which licensure, certification or registration is required without the required license, certificate or registration constitutes unprofessional conduct and conduct contrary to the public interest pursuant to NAC 639.945(1)(k) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 453.231(1).

12. Pursuant to NRS 622.400(1), a regulatory body may recover from a person reasonable attorney's fees and costs that are incurred by the regulatory body as part of its investigation, administrative and disciplinary proceedings against the person if the regulatory body enters a final order in which it finds that the person has violated any provision which the regulatory body has authority to enforce, any regulation adopted pursuant thereto or any order of the regulatory body.

COUNT ONE

Prescribing of Controlled Substances in Violation of Nevada Controlled Substances Act

13. By prescribing controlled substances to Nevada patient(s) without a valid Certificate of Registration to Dispense Controlled Substances as alleged herein, Respondent

violated NRS 453.226(1); and/or NRS 453.162; and/or NRS 453.231(1); and/or NRS 453.321(1); and/or NRS 639.100(1); and/or NRS 639.235(1); therefore, Respondent is subject to discipline pursuant to NRS 639.2895(1-4), which authorizes the Board to impose upon Respondent an administrative fine of not more than $5,000.00.

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 639.2895(2); NRS 233B.127(3). You have the right to a hearing before the Board to answer the allegations and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.127(3); NRS 622A.300(1) and (3). If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350. A regulatory body may recover from a person reasonable attorney's fees and costs that are incurred by the regulatory body as a part of its investigative, administrative, and disciplinary proceedings against the person if the regulatory body finds that the person has violated any provision of this title. NRS 622.400(1).

The Board has scheduled your hearing on this matter for Wednesday, April 12, 2023, at 9:00 a.m. or soon thereafter. The hearing will occur at the at the Hyatt Place Reno-Tahoe Airport, 1790 E. Plumb Lane, Reno, Nevada 89502.

Pursuant to NRS 241.033 and 241.034, please be advised that the hearing is a public meeting, and the Board may, without further notice, take administrative action against you if the Board determines that such administrative action is warranted after considering your character, alleged misconduct, professional competence, or physical or mental health. You may request and the Board may at its discretion may go into closed session to consider your character, alleged misconduct, professional competence, or physical or mental health. You may attend any closed session, have an attorney or other representative of your choosing present during any closed

session, and present written evidence, provide testimony, and present witnesses relating to your character, alleged misconduct, professional competence, or physical or mental health during any closed session. NRS 241.030 and NRS 241.033.

DATED this 13th day of March 2023.

Re: CEASE and DESIST/CITATION: Unlicensed Practice (Case No. 22-479)

Dear Dr. Paul:

The Nevada State Board of Pharmacy ("BOP") has determined that you are prescribing controlled substances for Nevada patients from your practice in violation of federal and state law. Specifically, your do not have an active controlled substance registration from BOP. You are prohibited from prescribing controlled substances until and unless you receive a controlled substance registration from BOP, and any other concurrent licensure needed to prescribe controlled substances.

You have violated, attempted to violate, assisted or abetted in the violation of or conspired to violate, without limitation, 21 U.S.C. § 822(a)(2), 21 U.S.C. § 841(a), 21 U.S.C. § 842(a), and 21 CFR § 1306.03, NRS 453.226, NRS 453.321(1)(a), NRS 453.331, NRS 639.100(1), NRS 639.23505, NRS 639.281, NRS 639.2813, NRS 639.310.

You are hereby ordered pursuant to NRS 639.2895(1) to immediately CEASE and DESIST possessing, administering, prescribing and/or dispensing controlled substances for Nevada patients from your practice. This letter shall serve as a CITATION pursuant to NRS 639.2895(2) for your unlicensed practice. The Board has assessed you an administrative fine of five thousand dollars ($5,000.00) pursuant to NRS 639.2895(3).

You must pay this administrative fine within 30 days of receipt of this citation, or otherwise contact Board staff to request an alternative payment plan. Payment must be by *cashier's check*, *certified check* or *money order* made payable to "State of Nevada, Office of the Treasurer," to be received at the Board's Reno office, located at 985 Damonte Ranch Parkway – Suite 206, Reno, NV 89521.

You have the right to appeal this citation by submitting a written request for a hearing to the Board at the Board's Reno office no later than 30 days after receipt of this letter. *See* NRS 639.2895(2).

Please be aware that the foregoing does not preclude a formal investigation or filing of criminal charges. If you have any questions, please do not hesitate to contact me at 775-850-1440 or c.lee@pharmacy.nv.gov.

Re: Nevada Board of Pharmacy Investigative Case 22-479

To whom it may concern,

This letter is in response to and to appeal the December 13, 2022, Nevada Board of Pharmacy case. On 12/01/2020, I arrived in Las Vegas, NV from Newport Beach, CA after 47 years of practice with the intent to retire. During my retirement, I decided to get back into medical care on a part-time basis. Therefore, I immediately applied for a Nevada medical license, DEA, and to the Nevada Board of Pharmacy, as I was advised by the medical board. I was also awarded an electronic prescribing fob, from our electronic medical records software, after extensive security measures.

After practicing over 47 years in California, I only had to have a California medical license and our DEA certificate to prescribe controlled substances. The California Board of Pharmacy was optional and regulates the pharmacy practice of pharmacists, interns, and pharmacy technicians. Consequently, I thought the same applied to Nevada. In November 2021, I did apply for the NVBOP, but I do not believe I heard back from them, therefore gave it no thought, considering what I experienced in California. Until recently, I was seeking to get credentialling at our local hospital and found that I had not received a NVBOP license. Therefore, I re-applied recently in November 2022.

After reviewing my history from 03/01/2022 – 12/13/2022, the prescribing history and accuracy show to be correct. I am extremely apologetic and look to rectify the situation immediately.

On November 21, 2022, I applied for the Nevada Board of Pharmacy license. I've attached my DEA license issued to me on 12/27/21 and valid through 3/21/2025, as well as my Nevada Medical License issued on 09/28/2021 and valid through 06/03/2023. I have also applied to get personal access to the Nevada Prescription Monitoring Program. I've received my temporary NVBOP access number and I'm awaiting approval.

Please feel free to call me directly on my cell at [redacted] should you have any questions.

Respectfully,

Dr. Malcolm Paul

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **MARCIA A. CLEVESY, APRN,** **Certificate of Registration No. CS14237,** **Respondent.**	**Case No. 21-214-CS-S** **STIPULATION AND ORDER TO SET ASIDE ORDER OF DEFAULT AND ENTER A PAYMENT PLAN**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, by and through its General Counsel, Peter Keegan, Esq., and Respondent Marcia Clevesy, APRN, ("Respondent") Certificate of Registration No. CS14237, **HEREBY STIPULATE AND AGREE THAT**:

1. The Board has jurisdiction over Respondent and this matter.

2. On or about January 26, 2022, Board Staff attempted to serve Respondent with the Notice of Intended Action and Accusation ("Accusation") on file in this matter, together with the Statement to Respondent and Notice of Hearing by certified mail, return receipt requested, addressed to the Respondent at her last address of record.

3. On Tuesday, March 3, 2022, this matter came before the Nevada State Board of Pharmacy ("Board") at its regularly scheduled meeting in Las Vegas, Nevada. Peter Keegan, Esq. prosecuted the case on behalf of the Board, Respondent failed to appear at the hearing, and the Board entered its Order of Default on March 3, 2022.

4. On March 29, 2023, Respondent contacted counsel for the Board concerning the Order of Default.

5. Respondent is fully aware of the right to seek the advice of counsel in this matter and obtained the advice of counsel prior to entering this Stipulation.

6. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration, the right to appeal, and any and all other rights which may be accorded

pursuant to NRS Chapter 233B, Nevada Administrative Procedure Act, NRS Chapter 622A, Administrative Procedure Before Certain Regulatory Bodies, and NRS Chapter 639, Nevada Pharmacy Act.

7. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondent failed to comply with the provisions of this Stipulation and Order, Respondent hereby freely and voluntarily waives the right to a hearing, reconsideration, appeal and any and all other rights related to this action that may be accorded by NRS Chapter 233B, Nevada Administrative Procedure Act, NRS Chapter 622A, Administrative Procedure Before Certain Regulatory Bodies, and NRS Chapter 639, Nevada Pharmacy Act.

8. Respondent admits that evidence exists, and that Board's staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for certain of the violations alleged in the Accusation, that:

A. Respondent's Certificate of Registration No. CS14237 expired on October 31, 2018, and Respondent authorized one or more controlled substance prescriptions for Nevada patients in violation of 21 U.S.C. **§** 822(a)(2); 21 U.S.C. **§** 823(f); 21 U.S.C. § 841(a), 21 U.S.C. § 842(a); 21 CFR § 1306.03(a)(1); NRS 453.226(1); NRS 453.232; NRS 453.321(1); NRS 639.100(1); and NRS 639.235(1); and

B. These violations are grounds for disciplinary action pursuant to NRS 453.236(1)(d-e); NRS 453.241(1); NRS 639.210(4), (11-12); and NRS 639.255(3).

9. In order to resolve the Accusation in this matter; specifically, Counts Two, Four, and Five, alleging that Respondent unlawfully permitted an employee or staff member to access and utilize his secondary hard token authenticator, and/or provided log-on information to his employee or staff member with instructions to e-prescribe prescriptions in violation of 21 CFR § 1311.102 and NRS 453.236(1)(e), Respondent Clevesy and the Board hereby stipulate to the following penalties and conditions.

A. The Board shall:

i. Set Aside the Order of Default filed on March 3, 2022, and replace the documentation reported to the National Practitioner's Data Bank with this Stipulation and Order.

B. Respondent shall:

i. Pay a fine of Five-Thousand Dollars ($5000.00) for the violations alleged in the accusation in ten (10) monthly installment of FIVE HUNDRED DOLLARS ($500.00); and

ii. Pay SEVEN HUNDRED FIFTEEN DOLLARS and 87/100 Cents ($715.87) to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter.

10. This Stipulation constitutes a full and final resolution of the Accusation in Case No. 21-214-CS-S. However, any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing that Respondent to appear before the Board at the next regularly-scheduled meeting for a show cause hearing. The Board may impose additional discipline upon that Respondent consistent with the provisions of NRS Chapter 453 and/or Chapter 639.

11. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on June 14, 2023. Respondent will appear in person or through counsel at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent or counsel are not present at the meeting.

12. The Board has discretion to accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 USC § 1396r–2 and 45 CFR Part 60.

13. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the merits of this

matter may be heard by the Board the same day or at a later date. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

14. Upon approval of this Stipulation by the Board, Respondent shall pay the fines agreed to herein by *personal check, business check*, *cashier's check* or *certified check* or *money order* made payable to **"State of Nevada, Office of the Treasurer."** The first monthly installment of FIVE HUNDRED DOLLARS and 00/100 Cents ($500.00) is due on July 1, 2023, and shall be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521. Each of the nine (9) remaining monthly installments shall be due to the Board's Office on the first of every succeeding month, with the final payment due on April 1, 2024.

15. Upon approval of this Stipulation by the Board, Respondent shall pay the attorney's fees and costs agreed to herein by *personal check, business check, cashier's check* or *certified check* or *money order* made payable to **"Nevada State Board of Pharmacy,"** to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Order.

16. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release one another from any and all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order.

Respondent has fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and has freely and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

AGREED:

Respondent.

Case No. 21-214-CS-S

ORDER OF DEFAULT

This matter came before the Nevada State Board of Pharmacy ("Board") at its regularly scheduled meeting on Tuesday, March 3, 2022, in Las Vegas, Nevada. Peter Keegan, Esq. prosecuted the case on behalf of the Board. Respondent Marcia Clevesy, APRN, ("Respondent") Certificate of Registration No. CS14237, failed to appear at the hearing. The Board heard the case and, based on the evidence presented, the Board makes the following Findings of Fact, Conclusions of Law, and Order.

FINDINGS OF FACT

The Board finds that probative evidence exists in the record to establish each of the following facts by a preponderance of the evidence:

1. On or about January 28, 2022, Board staff attempted service of the Notice of Intended Action and Accusation, Statement to Respondent and Notice of Hearing on Respondent by certified mail, return receipt requested, addressed to the Respondent at her last address of record.

2. On or about February 22, 2022, Board staff attempted to contact the Respondent via email and telephone at her last known email address and telephone number.

3. Respondent did not file an Answer in this matter and has not responded in any way to the allegations set out in the Notice of Intended Action and Accusation ("Accusation") on file herein.

4. At the time of the events set forth herein, Respondent held an expired Nevada controlled substance registration, Certificate of Registration No. CS14237, issued by the Board.

5. Respondent failed to timely renew Certificate of Registration No. CS14237, which expired on October 31, 2018.

6. Respondent wrote one or more controlled substance prescriptions for Nevada patients after October 31, 2018, without a valid registration.

7. Board staff incurred at least Seven Hundred Fifteen Dollars and 87/100 Cents ($715.87) in attorney's fees and recoverable costs investigating and prosecuting this administrative action. The attorney's fees are reasonable based upon legal counsel's professional qualities, the nature of this administrative enforcement action, the work performed, and the result as evidenced by this Order.

CONCLUSIONS OF LAW

Based on the forgoing findings of fact, the Board concludes as a matter of law:

1. The Board has jurisdiction over this matter and this respondent, because at the time of the events herein, Respondent held a controlled substance registration issued by the Board.

2. The applicable law in this matter is as follows:

A. It is unlawful to prescribe a controlled substance except as authorized by law. NRS 453.321(1)(a).

B. A prescription for a controlled substance may be issued only for a legitimate medical purpose and in the usual course of his or her professional practice by an individual practitioner who holds a DEA registration and is authorized to prescribe controlled substances by the jurisdiction in which he or she is licensed to practice his profession. 21 U.S.C. § 822(a)(2); 21 U.S.C. § 823(f); 21 CFR § 1306.03(a)(1); NRS 453.226(1); NRS 453.321(1)(a); NRS 639.100(1); NRS 639.235(1).

C. Falsely representing oneself as a practitioner entitled to write prescriptions in this state is a felony offense. 21 U.S.C. § 841(a); 21 U.S.C. § 842(a); NRS 453.321(1)(a); NRS 453.232; NRS 639.2813(1).

D. Performing any act, task or operation for which licensure, certification or registration is required without the required license, certificate or registration constitutes unprofessional conduct and conduct contrary to the public interest

pursuant to NAC 639.945(1)(k) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 453.236(1) and NRS 639.210(4).

E. The Board may suspend or revoke a registration if the holder has violated any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs. NRS 639.210(11).

F. The Board may suspend or revoke a registration if the holder has violated, attempted to violate, assisted, or abetted in the violation of or conspired to violate any law or regulation relating to drugs, the manufacture or distribution of drugs or the practice of pharmacy. NRS 639.210(12).

G. The Board may suspend or revoke a registration if the holder has failed to renew a certificate of registration by failing to timely submit the application for renewal. NRS 639.210(13).

H. The Board may suspend or revoke a registration to prescribe a controlled substance upon a finding that the registrant has committed an act that would render registration inconsistent with the public interest as determined pursuant to NRS 453.231. NRS 453.236(1)(e) and NRS 453.241(1).

3. Respondent failed to file a Notice of Defense to the Accusation, which constituted a waiver of the respondent's right to a hearing. NRS 639.244(2).

4. Board staff satisfied the notice and service requirements of NRS 233B.127(3), NRS 639.242, and NRS 639.245, and Respondent was given sufficient legal notice of the hearing.

5. Having failed to appear at the March 3, 2022, hearing, pursuant to NRS 622A.350, the Board accepted the following alleged violations of law contained in the Accusation against the Respondent as true, and found Respondent guilty of the following:

A. Count 1, for failing to timely renew Certificate of Registration CS14237. Respondent is subject to discipline pursuant to NRS 453.236(1) and/or NRS 639.210(13).

B. Count 2, for prescribing controlled substances without a valid registration as alleged herein, Respondent falsely represented herself as a practitioner entitled to write prescriptions in this state and violated, attempted to violate, assisted or abetted in the violation of or conspired to violate 21 U.S.C. § 822(a)(2), 21 U.S.C. § 823(f), 21 U.S.C. § 841(a), 21 U.S.C. § 842(a) and/or 21 CFR § 1306.03(a)(1), and is subject to discipline pursuant to NRS 453.236(1) and/or NRS 639.210(11).

C. Count 3, for prescribing controlled substances without a valid registration as alleged herein, Respondent falsely represented herself as a practitioner entitled to write prescriptions in this state and violated, attempted to violate, assisted, or abetted in the violation of or conspired to violate NRS 453.226(1), NRS 453.232, NRS 453.321(1)(a), NRS 639.100(1), NRS 639.235(1) and/or NRS 639.2813(1), and is subject to discipline pursuant to NRS 453.236(1) and/or NRS 639.210(12).

D. Count 4, for prescribing controlled substances without a valid registration as alleged herein, Respondent engaged in unprofessional conduct and conduct contrary to the public interest pursuant to NAC 639.945(1)(k) and is subject to discipline pursuant to NRS 453.236(l) and/or NRS 639.210(4).

E. Count 5, for prescribing controlled substances without a valid registration as alleged herein, and by falsely representing herself as a practitioner entitled to write prescriptions in this state, Respondent has committed acts that render his Nevada controlled substance registration inconsistent with the public interest and is subject to discipline pursuant to NRS 453.236(1)(e) and NRS 453.241(1).

ORDER

THEREFORE, THE BOARD HEREBY ORDERS AS FOLLOWS:

1. The certificate of registration of Respondent Marcia A. Clevesy, APRN, Certificate of Registration No. CS14237, is revoked pursuant to NRS 453.236(1)(e) and NRS 453.241(1)(b), or, alternatively, forfeited pursuant to NRS 639.180(6).

2. Respondent may not possess (except pursuant to the lawful order of a practitioner), administer, prescribe, or dispense a controlled substance until she petitions the Board for reinstatement of her Certificate of Registration No. CS14237 pursuant to NRS 622A.410 and NRS 639.257.

3. Pursuant to NRS 622A.410(1), Respondent may not petition for reinstatement of her Certificate of Registration No. CS14237 for a period of one (1) year from the effective date of this Order.

4. In the event Respondent petitions for reinstatement, or applies for any other certificate, license or permit with the Board, she shall appear before the Board to answer questions and give testimony regarding her application, her compliance with this Order, the facts and circumstances underlying this matter.

5. Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may impose additional discipline upon Respondent not inconsistent with the provisions of NRS Chapter 453 and/or NRS Chapter 639.

6. Pursuant to NRS 622.400, Respondent shall pay Seven Hundred Fifteen Dollars and 87/100 Cents ($715.87) to partially reimburse the Board for reasonable attorney's fees and recoverable costs incurred in investigating and prosecuting this matter. Payment shall be made by *cashier's check*, *certified check* or *money order* made payable to the "Nevada State Board of Pharmacy" to be received

by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within thirty (30) days of entry of this Order.

7. This Order constitutes a final decision in a contested case and a public record pursuant to NRS 639.255(5) and shall be reported to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r–2 and 45 CFR Part 60.

8. This Order is effective immediately.

IT IS SO ORDERED.

Entered this 3rd day of March 2022.

CEASE AND DESIST ORDER: Case No. 21-214-CS-S

Controlled Substance Registration CS 14237 – Expired 10/31/2018

Marcia A. Clevesy:

The Nevada State Board of Pharmacy ("Board") has determined that you wrote and/or authorized controlled substance prescriptions for Nevada patients after the expiration of your controlled substance registration.

This constitutes a violation of federal and state law, including, without limitation, NRS 453.226(1), NRS 453.321(1)(a), NRS 453.331(1)(e), NRS 629.515, NRS 639.100(1), NRS 639.235(1), NRS 639.281(1), NRS 639.2813(1), 21 U.S.C. § 822(a)(2), 21 U.S.C. § 823(f), 21 U.S.C. § 841(a), 21 U.S.C. § 842(a) and 21 CFR § 1306.03. Falsely representing oneself as a practitioner entitled to write prescriptions in this state is a felony offense. 21 U.S.C. § 841(a); 21 U.S.C. § 842(a); NRS 453.321(1)(a); NRS 453.232; NRS 639.2813(1).

You are hereby ordered pursuant to NRS 639.2895(1) to immediately CEASE and DESIST prescribing controlled substances for Nevada patients until you hold the requisite controlled substance registration.

Please be aware that the forgoing cease and desist order does not preclude further investigation or the filing of administrative or criminal charges. If you have any questions, please do not hesitate to contact me at 775-850-1440 or p.keegan@pharmacy.nv.gov.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **MARCIA A. CLEVESY, APRN,** **Certificate of Registration No. CS14237,** **Respondent.**	**Case No. 21-214-CS-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter and this respondent because at the time of the alleged events, Respondent Marcia A. Clevesy, APRN ("Respondent"), held an expired Nevada controlled substance registration, Certificate of Registration No. CS14237, issued by the Board.

FACTUAL ALLEGATIONS

2. Respondent failed to timely renew Certificate of Registration No. CS14237, which expired on October 31, 2018.

3. Respondent wrote one or more controlled substance prescriptions for Nevada patients after October 31, 2018, without a valid registration.

APPLICABLE LAW

4. It is unlawful to prescribe a controlled substance except as authorized by law. NRS 453.321(1)(a).

5. A prescription for a controlled substance may be issued only for a legitimate medical purpose and in the usual course of his or her professional practice by an individual practitioner who holds a DEA registration and is authorized to prescribe controlled substances by the jurisdiction in

which he or she is licensed to practice his profession. 21 U.S.C. § 822(a)(2); 21 U.S.C. § 823(f); 21 CFR § 1306.03(a)(1); NRS 453.226(1); NRS 453.321(1)(a); NRS 639.100(1); NRS 639.235(1).

6. Falsely representing oneself as a practitioner entitled to write prescriptions in this state is a felony offense. 21 U.S.C. § 841(a); 21 U.S.C. § 842(a); NRS 453.321(1)(a); NRS 453.232; NRS 639.2813(1).

7. Performing any act, task or operation for which licensure, certification or registration is required without the required license, certificate or registration constitutes unprofessional conduct and conduct contrary to the public interest pursuant to NAC 639.945(1)(k) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 453.236(1) and NRS 639.210(4).

8. The Board may suspend or revoke a registration if the holder has violated any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs. NRS 639.210(11).

9. The Board may suspend or revoke a registration if the holder has violated, attempted to violate, assisted or abetted in the violation of or conspired to violate any law or regulation relating to drugs, the manufacture or distribution of drugs or the practice of pharmacy. NRS 639.210(12).

10. The Board may suspend or revoke a registration if the holder has failed to renew a certificate of registration by failing to timely submit the application for renewal. NRS 639.210(13).

11. The Board may suspend or revoke a registration to prescribe a controlled substance upon a finding that the registrant has committed an act that would render registration inconsistent with the public interest as determined pursuant to NRS 453.231. NRS 453.236(1)(e) and NRS 453.241(1).

FIRST COUNT

Failure to Time Renew Controlled Substance Registration

12. By failing to timely renew Certificate of Registration CS14237, Respondent is subject to discipline pursuant to NRS 453.236(1) and/or NRS 639.210(13).

SECOND COUNT
Violation of Federal Controlled Substances Act

13. By prescribing controlled substances without a valid registration as alleged herein, Respondent falsely represented himself as a practitioner entitled to write prescriptions in this state and violated, attempted to violate, assisted or abetted in the violation of or conspired to violate 21 U.S.C. § 822(a)(2), 21 U.S.C. § 823(f), 21 U.S.C. § 841(a), 21 U.S.C. § 842(a) and/or 21 CFR § 1306.03(a)(1), and is subject to discipline pursuant to NRS 453.236(1) and/or NRS 639.210(11).

THIRD COUNT
Violation of State Controlled Substances Act

14. By prescribing controlled substances without a valid registration as alleged herein, Respondent falsely represented himself as a practitioner entitled to write prescriptions in this state and violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 453.226(1), NRS 453.232, NRS 453.321(1)(a), NRS 639.100(1), NRS 639.235(1) and/or NRS 639.2813(1), and is subject to discipline pursuant to NRS 453.236(1) and/or NRS 639.210(12).

FOURTH COUNT
Unprofessional Conduct – Prescribing without a Valid Registration

15. By prescribing controlled substances without a valid registration as alleged herein, Respondent engaged in unprofessional conduct and conduct contrary to the public interest pursuant to NAC 639.945(1)(k) and is subject to discipline pursuant to NRS 453.236(l) and/or NRS 639.210(4).

FIFTH COUNT
Commission of Acts that Render Registration Inconsistent with the Public Interest

16. By prescribing controlled substances without a valid registration as alleged herein, and by falsely representing himself as a practitioner entitled to write prescriptions in this state, Respondent has committed acts that render his Nevada controlled substance registration inconsistent with the public interest and is subject to discipline pursuant to NRS 453.236(1)(e) and NRS 453.241(1).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of this respondent.

DATED this 21st day of January, 2022.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). Managing Pharmacist Name: KARL S. VILLALUZ, PharmD, RPh Pharmacist Registration #: 23374

Pharmacy Name: FAMILY MEDICAL PHARMACY, LLC.

Initial each statement below to indicate you have read and agree with the following:

KV I understand that as the managing pharmacist I am responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the pharmacy and the practice of pharmacy. I understand my license can be revoked or that I can be subject of disciplinary action if such laws or regulations are knowingly violated in the pharmacy in which I am the managing pharmacist.

KV I understand within 48 hours after I report for duty as the managing pharmacist, I shall complete an inventory of all controlled substances of the pharmacy pursuant to 21 CFR Part 1304 and maintain a copy of the inventory in the file at the pharmacy.

KV I understand that if I cease to be managing pharmacist of the above-named pharmacy, I will jointly, with the new managing pharmacist, take an inventory of all controlled substances.

KV I understand that as the managing pharmacist I must ensure that all loss or theft of controlled substances are reported on forms provided by the Nevada State Board of Pharmacy and Department of Public Safety within 10 days after the date of discovery of theft or loss. NRS 453.568. Federal regulations require that registrants notify the Field Division Office of the Administration in his area, in writing, of the theft or significant loss of any controlled substance, disposal receptacles or listed chemicals within one business day of discovery of such loss or theft. The registrant shall also complete and submit to the Field Division Office in his area, DEA Form 106 regarding the loss or theft (21 C.F.R. §1301.76(b) and 21 U.S.C. §830(b)(1)(C)).

KV I understand that as the managing pharmacist I must notify the Nevada State Board of Pharmacy of all employment changes of pharmacy staff within 10 days of the change. NAC 639.540

Initial each statement below to indicate you have read and agree with the following:

NKS — I understand that as the managing pharmacist I am responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the pharmacy and the practice of pharmacy. I understand my license can be revoked or that I can be subject of disciplinary action if such laws or regulations are knowingly violated in the pharmacy in which I am the managing pharmacist.

NKS — I understand within 48 hours after I report for duty as the managing pharmacist, I shall complete an inventory of all controlled substances of the pharmacy pursuant to 21 CFR Part 1304 and maintain a copy of the inventory in the file at the pharmacy.

NKS — I understand that if I cease to be managing pharmacist of the above-named pharmacy, I will jointly, with the new managing pharmacist, take an inventory of all controlled substances.

NKS — I understand that as the managing pharmacist I must ensure that all loss or theft of controlled substances are reported on forms provided by the Nevada State Board of Pharmacy and Department of Public Safety within 10 days after the date of discovery of theft or loss. NRS 453.568. Federal regulations require that registrants notify the Field Division Office of the Administration in his area, in writing, of the theft or significant loss of any controlled substance, disposal receptacles or listed chemicals within one business day of discovery of such loss or theft. The registrant shall also complete and submit to the Field Division Office in his area, DEA Form 106 regarding the loss or theft (21 C.F.R. §1301.76(b) and 21 U.S.C. §830(b)(1)(C)).

NKS — I understand that as the managing pharmacist I must notify the Nevada State Board of Pharmacy of all employment changes of pharmacy staff within 10 days of the change. NAC 639.540

I understand my license can be revoked or that I can be subject of disciplinary action if such laws or regulations are knowingly violated in the pharmacy in which I am the managing pharmacist.

✓ I understand within 48 hours after I report for duty as the managing pharmacist, I shall complete an inventory of all controlled substances of the pharmacy pursuant to 21 CFR Part 1304 and maintain a copy of the inventory in the file at the pharmacy.

✓ I understand that if I cease to be managing pharmacist of the above-named pharmacy, I will jointly, with the new managing pharmacist, take an inventory of all controlled substances.

✓ I understand that as the managing pharmacist I must ensure that all loss or theft of controlled substances are reported on forms provided by the Nevada State Board of Pharmacy and Department of Public Safety within 10 days after the date of discovery of theft or loss. NRS 453.568. Federal regulations require that registrants notify the Field Division Office of the Administration in his area, in writing, of the theft or significant loss of any controlled substance, disposal receptacles or listed chemicals within one business day of discovery of such loss or theft. The registrant shall also complete and submit to the Field Division Office in his area, DEA Form 106 regarding the loss or theft (21 C.F.R. §1301.76(b) and 21 U.S.C. §830(b)(1)(C)).

✓ I understand that as the managing pharmacist I must notify the Nevada State Board of Pharmacy of all employment changes of pharmacy staff within 10 days of the change. NAC 639.540

Section 11: Managing Pharmacist Acknowledgement, Professional/Personal History – REQUIRED TO BE COMPLETED BY THE MANAGING PHARMACIST FOR NEVADA LOCATED PHARMACY APPLICANTS ONLY

Managing Pharmacist Name: Daniel Chiti Pharmacist Registration #: 17640

Pharmacy Name: Vax Squad

Initial each statement below to indicate you have read and agree with the following:

DC I understand that as the managing pharmacist I am responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the pharmacy and the practice of pharmacy. I understand my license can be revoked or that I can be subject of disciplinary action if such laws or regulations are knowingly violated in the pharmacy in which I am the managing pharmacist.

DC I understand within 48 hours after I report for duty as the managing pharmacist, I shall complete an inventory of all controlled substances of the pharmacy pursuant to 21 CFR Part 1304 and maintain a copy of the inventory in the file at the pharmacy.

DC I understand that if I cease to be managing pharmacist of the above-named pharmacy, I will jointly, with the new managing pharmacist, take an inventory of all controlled substances.

DC I understand that as the managing pharmacist I must ensure that all loss or theft of controlled substances are reported on forms provided by the Nevada State Board of Pharmacy and Department of Public Safety within 10 days after the date of discovery of theft or loss. NRS 453.568. Federal regulations require that registrants notify the Field Division Office of the Administration in his area, in writing, of the theft or significant loss of any controlled substance, disposal receptacles or listed chemicals within one business day of discovery of such loss or theft. The registrant shall also complete and submit to the Field Division Office in his area, DEA Form 106 regarding the loss or theft (21 C.F.R. §1301.76(b) and 21 U.S.C. §830(b)(1)(C)).

DC I understand that as the managing pharmacist I must notify the Nevada State Board of Pharmacy of all employment changes of pharmacy staff within 10 days of the change. NAC 639.540

Initial each statement below to indicate you have read and agree with the following:

TD I understand that as the managing pharmacist I am responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the pharmacy and the practice of pharmacy. I understand my license can be revoked or that I can be subject of disciplinary action if such laws or regulations are knowingly violated in the pharmacy in which I am the managing pharmacist.

TD I understand within 48 hours after I report for duty as the managing pharmacist, I shall complete an inventory of all controlled substances of the pharmacy pursuant to 21 CFR Part 1304 and maintain a copy of the inventory in the file at the pharmacy.

TD I understand that if I cease to be managing pharmacist of the above-named pharmacy, I will jointly, with the new managing pharmacist, take an inventory of all controlled substances.

TD I understand that as the managing pharmacist I must ensure that all loss or theft of controlled substances are reported on forms provided by the Nevada State Board of Pharmacy and Department of Public Safety within 10 days after the date of discovery of theft or loss. NRS 453.568. Federal regulations require that registrants notify the Field Division Office of the Administration in his area, in writing, of the theft or significant loss of any controlled substance, disposal receptacles or listed chemicals within one business day of discovery of such loss or theft. The registrant shall also complete and submit to the Field Division Office in his area, DEA Form 106 regarding the loss or theft (21 C.F.R. §1301.76(b) and 21 U.S.C. §830(b)(1)(C)).

TD I understand that as the managing pharmacist I must notify the Nevada State Board of Pharmacy of all employment changes of pharmacy staff within 10 days of the change. NAC 639.540

Provide explanation below:

I had a disciplinary action on my pharmacy license during the Nevada Board of Pharmacy meeting April 15, 2015. The Board presented evidence that I had incorrectly verified and dispensed guafacine 2mg to the wrong patient. I have received a letter of reprimand and paid the Board a fine for this error. President Gandhi informed the Board that this case would be divided into three parts.

Board Staff requested the Board to withdraw the First Cause of Action against Mr. Satroplus. Mr. Edwards stated that after further examination and communication with Mr. Satroplus' counsel, Board Staff determined that there was no wrongdoing by Mr. Satroplus.

Joseph Yost, pharmacist, appeared and was sworn in by President Gandhi prior to answering questions or offering testimony.

Leslie Hart was present as counsel representing Mr. Yost.

Kirk Wentworth disclosed to the Board that he knows of Mr. Yost as they both practice pharmacy in Carson City. He stated it will not affect his ability to make any determinations in this case.

Mr. Edwards presented a Stipulation and Order regarding Mr. Yost for the Board's consideration. Mr. Yost agreed that evidence exists to establish a factual basis for the violations alleged in the Accusation. Mr. Yost filled and dispensed a patient's prescription with clonidine HCL 0.1 mg tablets, rather than clonazepam 1 mg tablets as prescribed. Mr. Yost filled and dispensed a patient's prescription with trazodone 50 mg tablets, rather than tramadol tablets as prescribed.

Mr. Yost shall receive a public letter of reprimand from the Board's Executive Secretary, pay a fine of $1,500.00, pay an administrative fee of $250.00, and complete two hours CE on the topic of error prevention and one hour CE on the elements of a valid prescription.

Board Action:

Motion: Cheryl Blomstrom moved to approve the Stipulation and Order as presented.

Second: Kevin Desmond

Action: Passed Unanimously

Thao Willick, pharmacist, appeared and was sworn in by President Gandhi before answering questions or offering testimony.

Mr. Edwards presented a Stipulation and Order regarding Ms. Willick for the Board's consideration. Ms. Willick agreed that evidence exists to establish a factual basis for the violations alleged in the Accusation. Ms. Willick incorrectly verified and dispensed guanfacine 2 mg to the wrong patient.

Ms. Willick shall receive a public letter of reprimand from the Board's Executive Secretary, pay a fine of $500.00, pay an administrative fee of $250.00, and complete two hours CE on the topic of error prevention and one hour CE on the elements of a valid prescription.

Board Action:

Motion: Kevin Desmond moved to approve the Stipulation and Order as presented.

Second: Cheryl Blomstrom

Action: Passed Unanimously

Greg Satroplus, Pharmacy Manager, appeared and was sworn in by President Gandhi before answering questions or offering testimony. Mr. Satroplus was dismissed from the First Cause of Action and was present representing Rite Aid Pharmacy (Rite Aid).

Mike Dyer was present as counsel representing Rite Aid.

Mr. Edwards presented a Stipulation and Order regarding Rite Aid for the Board's consideration. He explained that the facts in the matter of Rite Aid are the same as the facts in Ms. Willick's and Mr. Yost's cases. Rite Aid agreed the violations alleged in the Accusation, excluding the First Cause of Action, constitute grounds for discipline whereby Rite Aid is statutorily responsible for the acts of its employees, Mr. Yost and Ms. Willick.

Rite Aid shall pay an administrative fee of $250.00 and pay a combined total fine of $1,500.00.

Mr. Edwards explained that Rite Aid no longer holds a contract with Douglas County Jail, therefore future fills of the patients' prescriptions will be handled at another pharmacy. He also stated Mr. Yost and Ms. Willick are no longer employed by Rite Aid and Mr. Satroplus

S. Paul Edwards, General Counsel for petitioner the Nevada State Board of Pharmacy (Board), and respondent Thao K. Willick, R.Ph., Certificate of Registration No. 17589 (Ms. Willick)

HEREBY STIPULATE AND AGREE THAT:

1. The Board has jurisdiction over this matter.

2. The Board properly served a Notice of Intended Action and Accusation (Accusation) on Ms. Willick in connection with this action on or about October 23, 2014.

3. Ms. Willick is fully aware of her right to seek the advice of counsel in this matter, and either obtained the advice of counsel, or voluntarily waives her right to seek the advice of counsel, prior to entering into this Stipulation.

4. Ms. Willick is aware of her right to a hearing on the matters alleged in the Accusation, her right to reconsideration, her right to appeal and any and all other rights which may be accorded to her pursuant to the Nevada Administrative Procedure Act and the Nevada Pharmacy Act.

5. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that she failed to comply with the provisions of Paragraph 9 below, Ms. Willick hereby freely and voluntarily waives her rights to a hearing, reconsideration, appeal and any and all other rights related to this action that may be accorded to her by the Nevada Administrative Procedure Act and the Nevada Pharmacy Act.

6. Ms. Willick admits that evidence exists, which Board Counsel could present at a hearing, to establish a factual basis for the violations alleged in the Accusation.

7. Ms. Willick admits that the violations asserted in the Accusation, if proven, could constitute grounds for discipline against her pursuant to NRS 639.210(4), (11) and (12), and NRS 639.255.

8. The foregoing admissions are for the purposes of this proceeding only, and shall have no force or effect in any other case or proceeding before the Board.

9. Based upon the Accusation and the foregoing admissions, the Board and Respondent Ms. Willick stipulate to the following penalties. Ms. Willick shall:

a. Receive a public letter of reprimand from the Board's Executive Secretary;

b. Pay a fine of $500 in association with the fourth cause of action stated in the Accusation;

c. Pay an administrative fee of $250.00 in connection with the Board's costs and expenses associated with this action;

d. Complete two (2) hours of continuing education on the topics of error prevention (1 hour) and the elements of valid prescriptions (1 hour), in addition to the hours required for the maintenance of her pharmacy license.

10. Board Counsel will present this stipulation to the Board Members for approval at the Board's regularly scheduled meeting on Wednesday, March 4, 2015 in Reno, NV. Ms. Willick will appear at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent and/or her counsel are not present at the meeting.

11. Respondent shall pay the fine agreed to herein by *cashier's check* or *certified check* or *money order* made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office located at 431 W. Plumb Lane, Reno, NV 89509, within 60 days of the effective date of the Board's Order.

12. Respondent shall pay the administrative fee agreed to herein by *cashier's check, certified check* or *money order* made payable to the "Nevada State Board of Pharmacy" to be received by the Board's Reno office located at 431 W. Plumb Lane, Reno, NV 89509, within 60 days of the effective date of the Board's Order.

13. Subject to applicable due process rights, any failure by Respondent Ms. Willick to satisfy the obligations stated herein may result in additional discipline, up to and including suspension or revocation of her license, until all terms have been complied with.

14. The Board and Ms. Willick, and each of them, agree to release each other from any and all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown, that might otherwise have existed on or before the effective date of the Board's Order in this matter.

Respondent Ms. Willick has fully considered the charges and allegations contained in the Notice of Intended Action and Accusation in this matter, and the terms of this Stipulation. I hereby freely and voluntarily agree to the terms set forth herein, and waive certain rights, as stated herein.

NEVADA STATE BOARD OF PHARMACY, Petitioner, v. GREGORY N. SATROPLUS, RPH Certificate of Registration No. 13627, JOSEPH G. YOST, RPH Certificate of Registration No. 12838, THAO K. WILLICK, RPH Certificate of Registration No. 17589, and RITE AID PHARMACY #6121 Certificate of Registration No. PH01237, Respondents.	CASE NO. 14-003-RPH-A-N CASE NO. 14-003-RPH-B-N CASE NO. 14-003-RPH-C-N CASE NO. 14-003-RPH-N NOTICE OF INTENDED ACTION AND ACCUSATION

Larry L. Pinson, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under Nevada Revised Statutes (NRS) 233B.127(3), and as an accusation under NRS 639.241.

I.

The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Gregory N. Satroplus (Mr. Satroplus), Certificate of Registration No. 13627; Respondent Joseph G. Yost (Mr. Yost), Certificate of Registration No. 12838; and Respondent Thao K. Willick (Mr. Willick), Certificate of Registration No. 17589, were pharmacists registered with the Board, and Respondent Rite Aid Pharmacy #6121 (Rite Aid), Certificate of Registration No. PH01237, was a pharmacy registered with the Board.

NEVADA STATE BOARD OF PHARMACY
OCT 23 2014
FILED

II.

On or about January 9, 2014, the Board Office received a complaint from Sgt. Amy Savage of the Douglas County Sheriff's Office alleging that Rite Aid misfilled a number of prescriptions for inmates of the Douglas County Jail. Two of those errors are as follows:

1. PRESCRIPTION NO. 670663 - CLONAZEPAM 1 MG. TABLETS[1]

III.

On October 31, 2013, Dr. David Johnson saw patient A.S-F., an inmate at the Douglas County Jail. Dr. Johnson prescribed #14 clonazepam 1 mg. tablets with instructions to take 1 tablet by mouth twice a day.

IV.

Jail Nurse Pat Brown called the prescription into Rite Aid.

V.

Respondent Mr. Satroplus transcribed the telephone order from Nurse Brown by writing "Refill #0668962 OK 1x Pat." He did not write the drug name, strength, dosage or the prescriber's instructions.

VI.

The prescription number (0668962) that Mr. Satroplus wrote down as a "refill" request referred to a previous prescription for A.S-F, which Rite Aid filled on October 24, 2013. That prescription was for #14 clonazepam 1 mg. tablets with instructions to take 1 tablet by mouth twice a day. That prescription had no authorized refills.

VII.

On November 7, 2013, during a routine audit of A.S-F.'s medications, Nurse Brown discovered that Rite Aid had dispensed *clonidine* HCL 0.1 mg. tablets, rather than the *clonazepam* 1 mg. tablets the doctor prescribed. Nurse Brown discontinued administration of the incorrect medication, reported the error to Rite Aid and ordered the correct medication.

[1] Reference Investigation Case Nos. 14-003-RPH-A-N and 14-003-RPH-B-N.

VIII.

A.S-F. ingested thirteen (13) doses of the incorrect medication over a six (6) day period. He reported no adverse effects.

IX.

Pharmaceutical technician Vicki Gennarini initiated the data entry of A.S-F.'s misfilled medication into Rite Aid's pharmacy computer system. She assigned Nurse Brown's order a new prescription number (670663), and she entered the incorrect drug name (clonidine HCL 0.1 mg. tablet). Ms. Gennarini then staged the stock bottle of medication, the filled and labeled prescription bottle, label sets and the original hard-copy of the oral order for pharmacist verification.

X.

Managing pharmacist Joseph Yost performed the final verification of A.S-F.'s medication. He failed to detect that the computer screen data was inaccurate when he verified the final product.

XI.

Because the hard-copy of the oral order only referenced the previous prescription number from the October 24, 2013 fill, and no other drug information, Mr. Yost speculates that he may have relied on the computer screen data to perform the verification.

2. **PRESCRIPTION NO. 0672060 - TRAZODONE 50 MG. TABLETS**[2]

XII.

On November 5, 2013, Dr. David Johnson saw patient A.R-O., an inmate at the Douglas County Jail, and subsequently prescribed #30 tramadol 50 mg. tablets with instructions to take 1 tablet by mouth at bedtime.

[2] Reference Investigation Case No. 14-006-RPH-N.

XIII.

Jail Nurse Sherry Dixon called the prescription into Rite Aid. Managing pharmacist Joseph Yost (Mr. Yost) transcribed the prescription that afternoon.

XIV.

On the evening of November 8, 2013, while distributing medications to the inmates, Douglas County Deputy Dickens asked A.R-O. why he was started on trazodone. A.R-O. replied, "I don't know, but when I woke up this morning, I was really dizzy and I fell." Deputy Dickens subsequently reviewed A.R-O.'s medication chart and discovered that neither Dr. Johnson, nor any other medical staff, ordered a trazodone prescription for A.R-O.

XV.

The error occurred when Nurse Dixon telephoned A.R-O.'s prescription for *tramadol* into Rite Aid, but Respondent Mr. Yost wrote the drug name as *trazodone*. Mr. Yost then wrote the name and the date of birth of another inmate, A.S-F., at the bottom of A.R-O.'s phoned in prescription.

XVI.

In an interview during the Board's investigation, Mr. Yost speculated that after crossing out A.S-F.'s name and date of birth on A.R-O.'s prescription, he noticed the error—he wrote *trazodone*, rather than *tramadol*—and decided to write a new prescription. Mr. Yost correctly filled and dispensed A.R-O.'s new prescription for tramadol (No. 0671800) later that evening. Mr. Yost did not dispose of the original transcription for the incorrect medication, trazodone.

XVII.

On November 6, 2013, the initial prescription that Mr. Yost transcribed in error for inmate A.R-O. made its way to the data entry terminal. Pharmaceutical technician Melissa Jaquish completed the data entry (Prescription No. 0672060) and sent the prescription to the filling queue. After the filling process, Ms. Jaquish staged the stock bottle, filled and labeled prescription bottle, label sets and original hard-copy of the oral order for pharmacist verification.

XVIII.

Mr. Yost performed the final verification of prescription 0672060. He verified the trazodone prescription as accurate and complete. During verification, Mr. Yost failed to recognize that the hard-copy oral order was the erred trazodone oral order that he mistakenly transcribed the previous day.

XIX.

After experiencing the errors cited above in November and December 2013, Rite Aid managing pharmacist Respondent Joseph Yost and members of the Douglas County Jail medical staff met to discuss methods to avoid future errors. The group discussed the difficulties in transcribing multiple oral orders received at the same time.

XX.

As a result of their discussion, Rite Aid and the jail personnel determined that jail personnel would create and fax an "Inmate Medication Call In/Pick-Up List" to the pharmacy, instead of calling in multiple prescriptions. The list would include the inmates' names and the drugs prescribed. It would serve as a "master prescription" for all of the inmates listed. The "master prescription", however, did not meet federal and state requirements for a valid prescription.

XXI.

Filling errors occurred at Rite Aid after it implemented the "master prescription" program described above, including:

3. **PRESCRIPTION NO. 0681511 - GUANFACINE 2 MG. TABLETS**[3]

XXII.

On December 26, 2013, Douglas County Jail Nurse Pat Brown faxed an Inmate Medication Call In/Pick-Up List to Rite Aid Pharmacy #6121 (Rite Aid). The list included nine prescriptions for seven inmates.

[3] Reference Investigation Case No. 14-007-RPH-N.

XXIII.

At approximately 6:00 p.m. that evening, Deputy Mark Dickens picked up the inmate's prescriptions from Rite Aid and delivered them to the Douglas County Jail.

XXIV.

Later that evening, inmate A.L. ingested one guanfacine 2 mg. tablet given to him by jail personnel. A routine medication audit the next evening revealed that medical staff did not order a prescription of guanfacine for A.L.

XXV.

A.L. ingested one dose of the guanfacine, but reported no adverse effects.

XXVI.

Pharmaceutical technician Rosemary McQuigg initiated the data entry for all of the inmates listed on the December 26, 2013, Inmate Medication Call In/Pick-Up List.

XXVII.

During data entry for inmate B.S.'s guanfacine prescription, Ms. McQuigg inadvertently brought up prescription data for inmate A.L. A.L. was not one of the patients listed on the current Medication Call In/Pick-Up List to receive a prescription.

XXIII.

Ms. McQuigg subsequently applied B.S.'s guanfacine prescription information to patient A.L. She filled the prescription and staged the final product and label sets for pharmacist verification.

XXIX.

Respondent Mr. Willick performed the final verification of the prescription. During the verification process, he failed to detect that B.S.'s prescription for guanfacine had inadvertently been dispensed to A.L.

XXX.

During the investigation of these matters, the Board Investigator learned that the Rite Aid pharmacy computer system does not capture the identity of the filling pharmaceutical technician, and the pharmacy no longer maintains a paper refill log with handwritten initials.

FIRST CAUSE OF ACTION
(Respondent Greg Satroplus)

XXXI.

In failing to accurately transcribe an oral order for A.S-F.—by failing to include the drug name, strength, quantity, and directions for use—Respondent Gregory Satroplus violated Nevada Revised Statutes (NRS) 639.2353(2), (3) and/or (4), and Nevada Administrative Code (NAC) 639.945(1)(d), (e) and/or (i), which violations are grounds for action pursuant to NRS 639.210(4), (11) and/or (12), and or alternatively under NRS 639.255.

SECOND CAUSE OF ACTION
(Respondent Joseph Yost)

XXXII.

In failing to strictly follow the instructions of A.S-F.'s prescriber by verifying and dispensing *clonidine* HCL 0.1 mg. tablets, rather than the *clonazepam* 1 mg. tablets that A.S-F.s physician prescribed, Respondent Joseph Yost violated NAC 639.945(1)(d) and/or (i), which violations are grounds for action under NRS 639.210(4), (11) and/or (12), and/or NRS 639.255.

THIRD CAUSE OF ACTION
(Respondent Joseph Yost)

XXXIII.

In failing to strictly follow the instructions of A.R-O.'s prescriber by verifying and dispensing an invalid prescription, namely, #30 *trazodone* 50 mg. tablets, rather than the *tramadol* A.R-O's physician prescribed, Respondent Joseph Yost violated NAC 639.945(1)(d) and (i), which is grounds for action pursuant to NRS 639.210(4), (11) and/or (12), and/or NRS 639.255.

FOURTH CAUSE OF ACTION
(Respondent Thao Willick)

XXXIV.

By incorrectly verifying and dispensing a prescription, namely, #30 guanfacine 2 mg. tablets, to inmate A.L., that was prescribed to inmate B.S., Respondent Thao Willick violated NAC 639.945(1)(d) and (i), which violations are grounds for action pursuant to NRS 639.210(4), (11) and/or (12), or alternatively under NRS 639.255.

FIFTH CAUSE OF ACTION
(Respondent Rite Aid)

XXXV.

As the pharmacy in which the above violations involving A.S-F. occurred, Rite Aid Pharmacy #6121 is responsible for the acts of its employees pursuant to NAC 639.945(2), and therefore subject to discipline pursuant to NRS 639.210(4), (11) and/or (12), and or alternatively under NRS 639.255.

SIXTH CAUSE OF ACTION
(Respondent Rite Aid)

XXXVI.

As the pharmacy in which the above violations involving A.R-O. occurred, Rite Aid Pharmacy #6121 is responsible for the acts of its employees pursuant to NAC 639.945(2), and therefore subject to discipline pursuant to NRS 639.210(4), (11) and/or (12), and or alternatively under NRS 639.255.

SEVENTH CAUSE OF ACTION
(Respondent Rite Aid)

XXXVII.

As the pharmacy in which the above violations involving A.L. and B.S. occurred, Rite Aid Pharmacy #6121 is responsible for the acts of its employees pursuant to NAC 639.945(2), and therefore subject to discipline pursuant to NRS 639.210(4), (11) and/or (12), and or alternatively under NRS 639.255.

EIGHTH CAUSE OF ACTION
(Respondent Rite Aid)

XXXVIII.

By accepting and dispensing dangerous drugs and controlled substances pursuant to the "master prescription", which did not meet federal and state requirements for a valid prescription under NRS 454.223, NRS 639.2353(2), (3) and (4) and NAC 453.440, Rite Aid Pharmacy #6121 violated NRS 454.221, NRS 453.256(1) and/or (3), and NAC 639.945(1)(i), and is therefore subject to discipline pursuant to NRS 639.210(4), (11) and/or (12), and or alternatively under NRS 639.255.

Therefore, it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of these respondents.

Signed this 23rd day of October, 2014.

Attn: Greg Zunino, Senior General Counsel

RE: Status of Sterile Compounding Questionnaire Submission
Partell Pharmacy Sterile Compounding

Dear Mr. Zunino and Members of the Nevada Board of Pharmacy,

As requested, a Sterile Compounding Questionnaire (SCQ) was tendered to the NVBOP on February 3, 2023. Receipt of said SCQ was confirmed by NVBOP counsel Paul Edwards when directly queried by Jeff Lang, PIC, in early March, 2023. A subsequent tracked follow-up written request for confirmation of receipt of the SCQ was sent and received by the NVBOP on March 6, 2023. (See attached.)

Due to an apparent delay in response by the NVBOP, I am writing to again request an update on the current status of our SCQ submission to the NVBOP. To date, Partell Pharmacy has received neither written updates nor requests for additional pertinent information that may have basis. Please know that Partell Pharmacy's sterile compounding lab has undergone extensive remodel and upgrades and we plan to reopen our sterile product compounding laboratory very soon.

We have been informed by NVBOP staff that "approval" of the SCQ is required before we can engage in sterile product compounding. However, we cannot find any pertinent statutes or regulations which require a separate approval or license for sterile compounding from the NVBOP. Absent any conflict of interest within the NVBOP, we find no regulation or statute that requires a public meeting for discussion, approval, or dissent of our existing pharmacy's sterile product compounding operation given our active Nevada pharmacy license.

Partell Pharmacy employs a highly competent staff, trained and experienced in sterile product compounding. Previous conversations with Board counsel noted that the company would submit a request before resuming sterile product compounding. As the owner, I do not recall making a commitment to notify the Board before restarting sterile product compounding, nor

does current management. PIC Jeff Lang manages the pharmacy and will oversee the sterile product compounding laboratory. Mr. Lang is trained in sterile product compounding. During previous conversations with staff Board, comments were made about the delay in reopening Partell Pharmacy's sterile product compounding laboratory from the time the company's previous PIC was employed. While an explanation is not required by any statute or regulation, we are willing to inform the Board that the delay in reopening the laboratory is related mostly to the previous PIC's unwillingness to train for sterile product compounding. The delay was also impacted by Covid-19, which caused a scarcity of necessary equipment, materials, and contractor services necessary for our desired changes to the lab. The lab is now complete.

Partell Pharmacy takes its obligations as a compounding pharmacy seriously and is committed to operating in full compliance with all applicable Nevada laws and regulations. We believe that we have provided all necessary information to the Board and have taken all necessary steps to ensure the safety and quality of our compounding practices. Furthermore, the original sterile compounding questionnaire was submitted February 3, 2023 and the Board has had ample time to review it and respond.

Finally, we kindly request that Board counsel confirm there is no regulation or statute that gives the Board the right to decline approval of Partell Pharmacy's sterile product compounding operation. We also request that the Board respond to this letter within five days of receipt. We appreciate your attention to this matter and look forward to your prompt response.

Sincerely,

Re: Notice of Denial - Application for Out-of-State Compounding Pharmacy License

Dear Mr. Hanna:

This constitutes notice pursuant to NRS 639.138 that the Nevada State Board of Pharmacy (Board) on January 13, 2021, denied your application pursuant to NRS 639.2328 for an out-of-state compounding pharmacy license. The Board denied your application pursuant to NRS 639.23282 due to your failure to present evidence satisfactory to the Board as to competency, qualifications and credentials. That denial was based on information and testimony presented during the hearing on the application; a copy of the audio recording of the hearing is available to you upon request.

Pursuant to NRS 639.139 you have the right to petition the Board for reconsideration of your application within thirty (30) days of receipt of this notice, and the right to submit evidence to controvert the basis for denial. To petition for reconsideration please submit the petition and all evidence in support thereof to the Board at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521.

To Whom It May Concern:

The application for licensure as a non-resident pharmacy with the state of Nevada was denied. Per the Nevada board of pharmacy, approval would be considered given additional training and competencies of the sterile compounding staff. 1st Choice Pharmacy is currently providing additional sterile compounding trainings to the compounding staff and gathering materials to submit to the Nevada Board to prove competency. Compounding staff is also completing several continuing education courses on the subject of sterile compounds. 1st Choice Pharmacy plans to re-apply to Nevada as a non-resident pharmacy in the near future with this new evidence. If you have any questions, please don't hesitate to reach out.

To Whom It May Concern:

The application for licensure as a non-resident pharmacy with the state of Arkansas was denied. Per the Arkansas board of pharmacy, approval would be considered pursuant to attendance at a board meeting and explaining certain practices. The practices that were in question are using a lyophilizer, a measurement on a certification report showing that the hazardous room went out of range for the negative pressure, and the compounding of peptides pursuant to legitimate prescriptions. 1st Choice Pharmacy is appealing this decision with Arkansas with these explanations. If you have any questions, please don't hesitate to reach out.

Safe Handling of Hazardous Medicines in the Home

Some medicines need special handling because they can be hazardous (harmful) to the people giving them. This is because some studies show that people who care for patients taking these special medicines can also have changes within their own body's cells. These changes can be avoided by following certain steps. Exposure can occur from spills, splashes, breathing in the medicine's vapors or powder, and from coming in contact with the patient's vomit, urine or stool.

The medicine that needs safe handling is:

_____

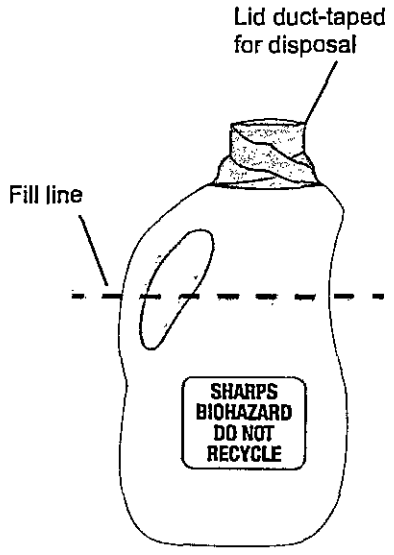
The risk of danger from handling small amounts of these hazardous medicines is small, but it is a good idea to avoid exposure if possible. Here are suggestions for things you can do at home to limit exposure.

Supplies you may need

- Disposable gloves (Picture 1) – Get them from your local pharmacy or 1st Choice Compounding Pharmacy
- Disposable gown – if you are handling liquid medicines
- Household soap or detergent – any brand can be used for cleaning
- Disposable towel – in case of an accidental spill
- Two-ply, heavy duty trash bag – for used supplies
- Disposable plastic medicine cups and oral syringes – depending on what kind of medicine is being taken

Picture 1 Putting on disposable gloves.

- Needle disposal or "sharps" container – needed if you are handling injectable (given by needle or IV) medicines



Continued...

Safety measures for handling hazardous medicines

- Wash your hands **before and after** handling hazardous medicines.
- Use disposable gloves if you are touching any type of hazardous medicine. Do not use torn or punctured gloves.
- Use disposable plastic medicine cups to move a pill from a medicine bottle.
- Throw away any used gloves, gowns, medicine cups, oral syringes, or bottles in a two-ply, heavy-duty trash bag. Tie or seal the plastic bag and place it in your household trash bag for disposal. Be sure to keep this trash out of the reach of pets and children.
- If you are pregnant or trying to become pregnant, you should not handle hazardous medicines. If you are the primary caregiver, speak to your nurse, doctor, or pharmacist about safe ways to care for the patient.

Handling hazardous medicines at home – needles and sharps

- Do not recap the used needle. Do not bend or break off the needle.
- Do not remove the needle from the syringe.
- All sharps or needles must be thrown away in a safe 'sharps container.' If you do not have a hospital-issued sharps container, use a container made of **heavy-duty plastic. This can be a laundry detergent bottle or liquid laundry softener bottle (Picture 2).** It must close with a lid that screws on tightly. Needles should not be able to poke through (puncture) the lid. The container must be leak-proof, and able to sit up and not fall over (stable).

Picture 2 Hard plastic laundry detergent bottle and fill line.

- Place the container in the middle of a full, heavy duty trash bag. You are allowed to put the trash bag out for regular trash pick-up. DO NOT put the container in the recycling.

Storing hazardous medicines

- Your pharmacist or nurse will tell you if there are any special storage instructions.
- Keep all drugs out of reach of children or pets.
- Keep hazardous medicines separate from all other medicines.
- If the medicine needs to be refrigerated, separate it from other foods. Use a separate bin in the refrigerator or place the medicine in a container.
- Keep the hazardous medicine in its original bottle or container. Do not place it in a pill box with other non-hazardous medicines.

Taking hazardous medicines

- Your physician, nurse, or pharmacist will explain to you how and when to take your medicine.
- It is important for you to take these drugs exactly as told. Do not skip a dose without discussing it with your physician.
- If you forget to take a dose, do not take double the dose the next time. Contact your physician's office or pharmacist to discuss what to do if this happens.

Accidental hazardous medicine spills

- If you are taking a hazardous medicine and it spills, wear a disposable gown and two pairs of gloves to clean up the spill. Cover the spill with a disposable towel, and then thoroughly wipe up the spill. The area should then be cleaned three times with a home cleaning product. This is to make sure that no medicine is left on the surface. All materials should be thrown away in a heavy-duty sealed trash bag and placed in a trash can that is out of reach of pets and children.
- Hazardous liquid medicines spilled on your skin may cause irritation. Wash the area well with soap and water and dry. If redness or irritation occurs within 7 days, contact your doctor.
- If the drug splashes in the eye, rinse the eye with tap water for at least 15 minutes and contact your doctor.

During clinic visits, be sure to tell the staff about any hazardous drugs you may have taken at home. If you have any other questions or concerns, ask your doctor, pharmacist, or nurse.

Documentation of a valid, unexpired pharmacy license, permit or registration in the state in which the dispensing facility is located and from which the medicinal drugs shall be dispensed. [465.0197(3)(a) F.S]	

Remarks:

Pharmacy at this location has Life File and PK software and Prime rx. PDM states this retail establishment has been sold to MMG Pharma LLC dba Cross Pharmacy at 2208 US 19N however retail permit is still maintained at 2228 US Hwy 19, Holiday, FL for non-sterile compounding.
The closed system pharmacy PH30309 was moved to 2049 Welbilt Blvd and is operating under A&Eof Tampa Bay LLC, dba 1st Choice LTC Pharmacy, Suite A.

I have read and have had this inspection report and the laws and regulations concerned herein explained, and do affirm that the information given herein is true and correct to the best of my knowledge. I have received e copy of the Licensee Bill of Rights.

INV797 - Sterile Compounding

LOW RISK

1. Low risk CSP's are properly identified: Aseptic manipulations within an ISO Class 5 environment using three or fewer sterile products and no more than two entries into any container. [CSP MICROBIAL CONTAMINATION RISK LEVELS : Low-Risk Level CSPs]	
2. Low Risk CSP's, in absence of passing sterility test, stored not more than 48 hours at controlled room temperature, 14 days at cold temperature, or 45 days in solid frozen state at -25° to -10° or colder. [CSP MICROBIAL CONTAMINATION RISK LEVELS : Low-Risk Level CSPs]	
3. Low Risk CSP's with 12 hour BUD are properly identified and comply with all four specific criteria. 1. PEC in Segregated Compounding area 2. Away from windows, doors , high traffic areas 3. Hygiene & garbing required, sinks not adjacent to PEC. 4. Cleaning & Disinfecting, Personnel training, Competency evaluation, Garbing, Aseptic work practices, Viable and non-viable environmental sampling apply. [CSP MICROBIAL CONTAMINATION RISK LEVELS : Low-Risk Level CSPs]	

MEDIUM RISK

4. Medium Risk CSP's are properly identified: Aseptic manipulations within an ISO Class 5 environment using prolonged and complex mixing and transfer, more than three sterile products and entries into any container, and pooling ingredients from multiple starile products to prepare multiple CSPs. [CSP MICROBIAL CONTAMINATION RISK LEVELS : Medium-Risk Level CSPs]	
5. Medium Risk CSP's, in absence of passing sterility test, stored not more than 30 hours at controlled room temperature, 9 days at cold temperature, or 45 days in solid frozen state at -25° to -10° or colder. [CSP MICROBIAL CONTAMINATION RISK LEVELS : Medium-Risk Level CSPs]	

HIGH RISK

6. Presterilization procedures for high-risk level CSPs, such as weighing and mixing, are completed in no worse than an ISO Class 8 environmenL [ENVIRONMENTAL QUALITY AND CONTROL : Placement of Primary Engineering Controls Within ISO Class 7 Buffer Areas]	Yes
7. High Risk CSP's are properly identified: Confirmed presence of nonsterile ingredients and devices, or confirmed or suspected exposure of starile ingredients for more than one hour to air quality inferior to ISO Class 5 before final sterilization. [CSP MICROBIAL CONTAMINATION RISK LEVELS : High-Risk Level CSPs] *Pharmacy compounds Peptides in the ISO 5 HD BSC where the lyophilizer is attached. The pharmacy no longer compounds Trimix or Alprostadil stock solution based on records provided.*	Yes
8. High Risk CSP's, in absence of passing sterility test are not stored more than 24 hours at controlled room temperature, 3 days at cold temperature, or 45 days in solid frozen state at -25° to -10° or colder. [CSP MICROBIAL CONTAMINATION RISK LEVELS : High-Risk Level CSPs]	Yes
9. A 0.2-µm certified sterilizing membrane filter is used that is chemically and physically compatible with the CSP. Filtration is completed rapidly without filter replacement. Sterilization method is verified to achieve sterility for the quantity and type of containers. [VERIFICATION OF COMPOUNDING ACCURACY AND STERILITY : Sterilization of High-Risk Level CSPs by Filtration] *Sterilizing filter MDI Asepticap is not capable of accomodating 5 L volume.*	Yes
10. Sterilization method used has documentation that acceptable strength and purity of ingredients and integrity of containers is maintained. [CSP MICROBIAL CONTAMINATION RISK LEVELS : High-Risk Level CSPs]	Yes
11. The manufacturer recommended filter integrity (e.g., bubble point) test is performed and documented for all sterilizing filters after filtering CSPs. [VERIFICATION OF COMPOUNDING ACCURACY AND STERILITY : Sterilization of High-Risk Level CSPs by Filtration]	Yes
12. Autoclave cycle has been verified using appropriate biological indicators. Solutions are passed through a 1.2-µm or smaller filter into final containers to remove particulates before sterilization. [VERIFICATION OF COMPOUNDING ACCURACY AND STERILITY : Sterilization of High-Risk Level CSPs by Steam] *Tuttnauer Autoclave Steam Sterilizer SN 21030347 study demonstrates temp of 121 C duration 30 mins, dry times 60 mins-validated by Pharmetric April 1, 2022.* *Pharmacy autoclaves rubber stoppers, flip caps, mop cover and foam beds (pre use) then discards mop cover. BI's are 3M Attest. Autoclave not used to terminally sterilitze CSP's.*	Yes
13. Dry heat ovens used for sterilization have filtered forced air. Only those items that will be damaged by steam are sterilized by dry heat. [VERIFICATION OF COMPOUNDING ACCURACY AND STERILITY : Sterilization of High-Risk Level CSPs by Dry Heat] *Dry Heat oven does have filtered forced air. Pharmacy does not terminally sterilize solutions in the dry heat oven. Oven is used to sterilize beakers with stirrers, vials.*	N/A
14. The description of dry heat sterilization conditions and duration for specific CSPs is included in written documentation in the compounding facility. The effectiveness of dry heat sterilization is verified using appropriate biological indicators and other confirmation. [VERIFICATION OF COMPOUNDING ACCURACY AND STERILITY : Sterilization of High-Risk Level CSPs by Dry Heat]	N/A
15. Dry heat depyrogenation is used to render glassware or containers, such as vials free from pyrogens as well as viable microbes. The description of the dry heat depyrogenation cycle and duration for specific load items is included in written documentation in the compounding facility. The effectiveness of the dry heat depyrogenation cycle is verified using endotoxin challenge vials (ECVs). [VERIFICATION OF COMPOUNDING ACCURACY AND STERILITY : Depyrogenation by Dry Heat] *Pharmetric Dry Heat Oven validated Nov 2, 2021 with Endosafe cartridges to demonstrate a 6.1 log reduction in ET*	Yes
16. Sterility testing is completed for all High-risk level CSPs prepared in batches of more than 25 identical containers, or exposed longer than 12 hours at 2° to 8°, and 6 hours at warmer than 8° before being sterilized. [FINISHED PREPARATION RELEASE CHECKS AND TESTS : Sterility Testing]	Yes

USP <71> STERILITY TESTING (Outsourced)

17. Outsourced sterility testing results indicate that it is compliant with USP<71>. A method not described in the USP may be used if validation demonstrates that the alternative is at least as effective and reliable. [STERILITY TEST USP<71>]	Yes
18. Outsourced: The number of articles tested are appropriate according to USP<71>. [STERILITY TEST USP<71> : Number of Articles to Be Tested]	Yes
19. Outsourced: The volume/quantity tested is according to USP<71>. [STERILITY TEST USP<71> : Number of Articles to Be Tested]	Yes

INV797-Sterile Compounding

Insp # 178092 | POPE SHENOUDA LLC | File # 22731

20. Outsourced: A USP<71> method suitability test has been done with appropriate inoculum, additives and rinses. [STERILITY TEST USP<71> : Method Suitability Test] *Hercules compound has undergone method suitability-23 vials were compounded on 2-18-2022*	Yes
21. Outsourced: Sterility testing reports are reviewed and appropriate actions taken and documented. [FINISHED PREPARATION RELEASE CHECKS AND TESTS]	Yes

USP <71> STERILITY TESTING

22. On site: Membrane filtration is used if appropriate. (The technique of membrane filtration is used whenever the nature of the product permits; that is, for filterable aqueous preparations, for alcoholic or oily preparations, and for preparations miscible with, or soluble in, aqueous or oily solvents, provided these solvents do not have an antimicrobial effect in the conditions of the test.) Filters are rinsed according to USP<71>. [FINISHED PREPARATION RELEASE CHECKS AND TESTS : Sterility Testing]	
23. On site: Direct inoculation is done only when membrane filtration cannot be carried out. Volume to be inoculated does not exceed 10% of the culture media volume. [FINISHED PREPARATION RELEASE CHECKS AND TESTS : Sterility Testing]	
24. On site: The number of articles tested are appropriate according to USP<71>. [STERILITY TEST USP<71> : Number of Articles to Be Tested]	
25. On site: The volume/quantity tested is according to USP<71>. [STERILITY TEST USP<71> : Number of Articles to Be Tested]	
26. On site: A growth promotion test has been done on the media with the 5 specified organisms (not more than 100 CFU) according to USP<71>. [STERILITY TEST USP<71> : Growth Promotion Test of Aerobes, Anaerobes, and Fungi]	
27. On site: A USP<71> method suitability test has been done with appropriate inoculum, additives and rinses. [STERILITY TEST USP<71> : Method Suitability Test]	
28. On site: TSB or SCD is incubated at 20-25 C for 14 days (2 incubators present). [STERILITY TEST USP<71> : Culture Media and Incubation Temperatures]	
29. On site: FTM is incubated at 30-35 C for 14 days (2 incubators present). [STERILITY TEST USP<71> : Culture Media and Incubation Temperatures]	
30. On site: Sterility testing is documented including lot numbers and expiration dates of media. [FINISHED PREPARATION RELEASE CHECKS AND TESTS]	
31. On site: Sterility testing reports are reviewed and appropriate actions taken and documented. [FINISHED PREPARATION RELEASE CHECKS AND TESTS]	

ENDOTOXIN TESTING

32. Endotoxin testing is conducted for High-risk level CSP's that are prepared in batches of more than 25 identical containers, or exposed longer than 12 hours at 2° to 8°, and 6 hours at warmer than 8°, before being sterilized or in multidose containers for administration to multiple patients. (excluding those for inhalation and ophthalmic administration) [FINISHED PREPARATION RELEASE CHECKS AND TESTS : Bacterial Endotoxin (Pyrogen) Testing] *Done by Pharmetric*	Yes
33. Endotoxin testing process indicates that it is compliant with USP<85>. [BACTERIAL ENDOTOXINS TEST USP<85>]	Yes
34. High Risk CSP's are within allowable limits for bacterial endotoxins. [FINISHED PREPARATION RELEASE CHECKS AND TESTS : Bacterial Endotoxin (Pyrogen) Testing]	Yes

IMMEDIATE USE COMPOUNDING

35. Immediate-use compounding complies with all six specified criteria. 1. Low-risk sterile nonhazardous products or diagnostic radiopharmaceutical products from the manufacturers' original containers. Anti-neoplastics shall not be prepared as immediate-use CSPs because they are hazardous drugs. 2. Unless required for the preparation, the compounding procedure is a continuous process not to exceed 1 hour. 3. During preparation, aseptic technique is followed and, if not immediately administered, the finished CSP is under continuous supervision to minimize the potential for contact with nonsterile surfaces, introduction of particulate matter or biological fluids, mix-ups with other CSPs, and direct contact of outside surfaces. 4. Administration begins not later than 1 hour following the start of the preparation of the CSP. 5. Unless immediately and completely administered by the person who prepared it or immediate and complete administration is witnessed by the preparer, the CSP shall bear a label listing patient identification information, the names and amounts of all ingredients, the name or initials of the person who prepared the CSP, and the exact 1-hour BUD and time. 6. If administration has not begun within 1 hour following the start of prepering the CSP, the CSP shall be promptly, properly, and safely discarded. [IMMEDIATE-USE CSPs]	N/A

SINGLE/MULTIPLE DOSE CONTAINER BUD

36. Beyond-use date does not exceed 28 days for multiple-dose containers after initial opening or entry, unless specified otherwise by the manufacturer. [SINGLE-DOSE AND MULTIPLE-DOSE CONTAINERS]	N/A
37. Beyond-use time does not exceed 6 hours for closure sealed single-dose containers in ISO Class 5 or cleaner air after initial opening or entry, unless specified otherwise by the manufacturer. [SINGLE-DOSE AND MULTIPLE-DOSE CONTAINERS]	Yes
38. Beyond-use time does not exceed 1 hour for closure sealed single-dose containers after being opened or entered in worse than ISO Class 5 air. [SINGLE-DOSE AND MULTIPLE-DOSE CONTAINERS]	N/A
39. Single-dose ampules are discarded immediately after use. [SINGLE-DOSE AND MULTIPLE-DOSE CONTAINERS]	N/A

HAZARDOUS DRUGS

40. A pressure indicator is installed and differential pressures are monitored and documented daily for hazardous buffer room. [HAZARDOUS DRUGS AS CSPs]	Yes
41. Hazardous drug buffer room is at least 0.01 inch water column negative pressure with 30 ACPH of HEPA filtered air. [HAZARDOUS DRUGS AS CSPs] *Per MTA Feb 15, 2022 report, ACPH documented for negative sterile buffer room was 38*	Yes
42. At least 0.01 inch water column negative pressure and 12 air changes per hour in non-cleanrooms in which CACIs are located. FAC: USP Chapter 797 requires that: "When closed-system vial-transfer devices (CSTDs) (i.e., vial-transfer systems that allow no venting or exposure of hazardous substance to the environment) are used, they shall be used within an ISO Class 5 environment of a BSC or CACI. The use of the CSTD is preferred because of their inherent closed system process. In facilities that prepare a low volume of hazardous drugs, the use of two tiers of containment (e.g., CSTD within a BSC or CACI that is located in a non-negative pressure room) is acceptable." For purpose of said provision, a "low volume of hazardous drugs" is defined as less than 40 doses per month. [HAZARDOUS DRUGS AS CSPs]	N/A
43. Personnel compounding hazardous drugs wear appropriate personal protective equipment. [HAZARDOUS DRUGS AS CSPs]	Yes

INV797-Sterile Compounding

Insp # 178092 | POPE SHENOUDA LLC | File # 22731

44. Hazardous drugs are handled with caution at all times using appropriate chemotherapy gloves during receiving, distribution, stocking, inventorying, preparing for administration, and disposal. Spill kits are available. [HAZARDOUS DRUGS AS CSPs] *Using BioClean Emerald Sterile Nitrile Cleanroom Gloves rated to handle HD's.*	Yes
45. Hazardous drugs are prepared in an ISO Class 5 environment (BSC or CACI) with protective engineering controls in place, following aseptic practices specified for the appropriate contamination risk levels. [HAZARDOUS DRUGS AS CSPs] *HD's such as Testosterone and Nandrolone compounded in the same BSC where Peptides such as Semaglutide, Sermorelin, Ipamorelin and CJC combinations are compounded. These HD's may pose a risk of contamination to the non-HD peptide where partially stoppered vials are lyophilized over several hours and then removed and crimped in the BSC. The pharmacy is decontaminating the BSC after each batch with Peridox.*	No
46. Hazardous drugs are stored separately from other inventory in a manner to prevent contamination and personnel exposure. [HAZARDOUS DRUGS AS CSPs]	Yes
47. Access to hazardous drug preparation areas is limited to authorized compounding personnel. [HAZARDOUS DRUGS AS CSPs]	Yes
48. Annual documentation of hazardous drug training of personnel regarding storage, handling, containment techniques and disposal of hazardous drugs is available. [HAZARDOUS DRUGS AS CSPs] *Critical Point*	Yes
49. Compounding personnel of reproductive capability have confirmed in writing that they understand the risks of handling hazardous drugs. [HAZARDOUS DRUGS AS CSPs] *No risk attestation for HD compounding -JB- he is currently under training.*	Yes
50. Facility maintains appropriate disposal containers for all hazardous waste. [HAZARDOUS DRUGS AS CSPs]	Yes

FACILITY DESIGN AND CERTIFICATION

51. Certification and testing of primary (LAFWs, BSCs, CAIs and CACIs) and secondary engineering controls (buffer and ante areas) have been performed by a qualified individual no less than every six months and whenever the device or room is relocated, altered, or major service to the facility is performed. Corrective action for deficiencies are documented. Certification procedures such as those outlined in the CETA Certification Guide for Sterile Compounding Facilities (CAG-003-2006) are conducted under dynamic conditions. [ENVIRONMENTAL QUALITY AND CONTROL : Environmental Nonviable Particle Testing Program] *MTA certification Feb 15, 2022, Aug 9, 2021* *MTA Feb 2, 2021 and Aug 13, 2020 for positive pressure cleanroom,* *SEC's: Ante room ISO 8, IV buffer room ISO 7, PEC's: Air Clean Systems HLF-1432 AC6000HLF-1432 ISO 5* *Pass-through #2 ISO 8 (anteroom to non-HD buffer room), Buffer room pass through (ISO 7) Sink (ISO 8)* *HD cleanroom* *HD SEC's: ISO 7 anteroom, negative pressure IV buffer room certified as ISO 7* *HD PEC: Esco Class II A2 BSC-142292 SN 2019-142292 certified as ISO 5* *HD room has a built in Lyophilizer SP Scientific model ADP-C2-S2EL-EVA-X SN 325488 (certified as ISO 5 in Feb 2022)* *Ante room Pass through certified as ISO 7*	Yes
52. Primary engineering controls provide unidirectional (i.e., laminar) HEPA filtered air. Air pattern analysis via smoke studies are conducted at the critical site to demonstrate unidirectional airflow and sweeping action over and away from the product under dynamic conditions.[ENVIRONMENTAL QUALITY AND CONTROL : Facility Design and Environmental Controls] *Smoke studies performed in the BSC with the lyophilizer attached to the right of the hood under dynamic operational conditions but lacking a demonstration showing completely covered skin as partially stoppered vials inside BSC are transferred to the lyophilizer in the contiguous ISO 5 environment in the HD room.*	Yes
53. The primary engineering controls are placed within a buffer area in such a manner as to avoid conditions that could adversely affect their operation. The PEC is placed out of the traffic flow and in a manner to avoid disruption from the HVAC system and room cross drafts. [ENVIRONMENTAL QUALITY AND CONTROL : Facility Design and Environmental Controls]	Yes
54. All HEPA filters are leak tested after installation and every six months thereafter. [ENVIRONMENTAL QUALITY AND CONTROL : Facility Design and Environmental Controls] *Feb 15, 2022-Hepa Filter #1 and #2 in ante room, Hepa filter #1 for non-HD room with no leaks, HD cleanroom with 1 ante room Hepa filter and 1 IV room* *hepa filter without leaks. PEC Hepa filters also demonstrated no leaks*	Yes

ISOLATORS

55. CAIs are proven to maintain ISO Class 5 air when particle counts are sampled 6 to 12 inches upstream of critical site exposure areas during performance of normal inward and outward transfer of materials, and compounding manipulations when such CAIs are located in air quality worse than ISO Class 7. [ENVIRONMENTAL QUALITY AND CONTROL : Placement of Primary Engineering Controls Within ISO Class 7 Buffer Areas]	
56. Adequate recovery time for isolators to achieve ISO Class 5 air quality is allowed after material transfer before and during compounding operations. [ENVIRONMENTAL QUALITY AND CONTROL : Placement of Primary Engineering Controls Within ISO Class 7 Buffer Areas]	
57. Personnel garbing requirements are followed for CAIs unless manufacturer provides written documentation based on validated testing that any components of PPE are not required to maintain sterility of CSPs. [ENVIRONMENTAL QUALITY AND CONTROL : Personnel Cleansing and Garbing]	

FACILITY DESIGN AND CERTIFICATION (Secondary Engineering Controls)

58. Facility has pressure gauges or velocity meters to monitor the pressure differential or airflow between the buffer area and ante-area, and the ante-area and the general environment outside the compounding area. The results are reviewed and documented on a log at least daily or by a continuous recording device. The pressures differentials meet or exceed 5 Pa (0.02 inch water column (w.c.)). Alternatively, in facilities where low- and medium-risk level CSPs are prepared, differential airflow is maintained at a minimum velocity of 0.2 meter/second (40 fpm) across a line of demarcation between buffer area and ante-area. [ENVIRONMENTAL QUALITY AND CONTROL : Pressure Differential Monitoring]	Yes
59. Clean rooms for nonhazardous and nonradioactive CSPs are supplied with HEPA filtered air that enters from ceilings with return vents low on walls, and that provides not less than 30 air changes per hour or qualifies for exception in 64B16-27.797(4)(c). [ENVIRONMENTAL QUALITY AND CONTROL : Facility Design and Environmental Controls] *IV Buffer room ACPH documented as 51 from Feb 15, 2022.*	Yes
60. Activities and tasks carried out within the buffer area are limited to only those necessary when working within a controlled environment. [ENVIRONMENTAL QUALITY AND CONTROL : Facility Design and Environmental Controls]	Yes
61. Only the furniture, equipment, supplies, and other material required for the compounding activities to be performed are brought into the buffer room. [ENVIRONMENTAL QUALITY AND CONTROL : Facility Design and Environmental Controls]	Yes
62. Surfaces and essential furniture in buffer rooms or zones and clean rooms are nonporous, smooth, non-shedding, impermeable, cleanable, and resistant to disinfectants. [ENVIRONMENTAL QUALITY AND CONTROL : Facility Design and Environmental Controls] *Peridox applied in pass through of non-HD IV room did not remove stain or residue in the center of the pass-through, some screws still noted to be discolored and rusted on rivets/threshold in between the ante area and buffer room. The rusty nail was fixed during the inspection as well as threshold cleaner. There is a cart with slightly rusted legs visible and somewhat comes off when wiped off. Cleanroom has ledges in this modular unit-ledges are not recommended by USP.*	No

INV797-Sterile Compounding

Insp # 178092 POPE SHENOUDA LLC File # 22731

63. The surfaces of ceilings, walls, floors, fixtures, shelving, counters, and cabinets in the buffer area are smooth, impervious, free from cracks and crevices, and non-shedding, thereby promoting cleanability, and minimizing spaces in which microorganisms and other contaminants may accumulate. [ENVIRONMENTAL QUALITY AND CONTROL : Facility Design and Environmental Controls]	Yes
64. Ceiling tiles are caulked around each perimeter and to walls to seal them to the support frame. The exterior lens surface of ceiling lighting fixtures is smooth, mounted flush, and sealed. All other penetrations through the ceiling or walls are sealed. [ENVIRONMENTAL QUALITY AND CONTROL : Facility Design and Environmental Controls] *Ceiling tiles sealed and caulked*	Yes
65. The buffer area does not contain sources of water (sinks) or floor drains. Work surfaces are constructed of smooth, impervious materials, such as stainless steel or molded plastic, so that they are easily cleaned and disinfected. [ENVIRONMENTAL QUALITY AND CONTROL : Facility Design and Environmental Controls]	Yes
66. Storage shelving, counters, cabinets and carts/casters in the buffer area are smooth, impervious, free from cracks and crevices, non-shedding, non-porous, cleanable, and disinfectable. [ENVIRONMENTAL QUALITY AND CONTROL : Facility Design and Environmental Controls]	Yes
67. When devices (e.g., computers and printers) and objects (e.g., carts and cabinets) are placed in buffer areas, air quality is verified by particle counts on certification. [ENVIRONMENTAL QUALITY AND CONTROL : ISO Class 5 Air Sources, Buffer Areas, and Ante-Areas] *Repeater pump placed outside the hood.*	Yes

QUALITY AND CONTROL

68. An appropriate environmental sampling plan has been developed for airborne viable particles based on a risk assessment of compounding activities performed. Volumetric air sampling is conducted every six months and sites include locations within each ISO Class 5 environment and in the ISO Class 7 and 8 areas, and the areas at greatest risk of contamination (e.g., work areas near the ISO Class 5 environment, counters near doors, pass-through boxes). The plan includes sample locations, method of collection, frequency of sampling, volume of air sampled, and time of day as related to activity in the compounding area and action levels. [ENVIRONMENTAL QUALITY AND CONTROL : Environmental Viable Airborne Particle Testing Program—Sampling Plan] *VAS conducted by MTA Feb 15, 2022, Aug 9, 2021.*	Yes
69. Evaluation of airborne microorganisms using volumetric collection methods in the controlled air environments is performed by properly trained individuals for all compounding risk levels. [ENVIRONMENTAL QUALITY AND CONTROL : Viable Air Sampling] *Feb 15, 2022*	Yes
70. Volumetric air sampling using malt extract agar (MEA) or some other media that supports the growth of fungi is used in high-risk level compounding environments. [ENVIRONMENTAL QUALITY AND CONTROL : Growth Media]	Yes
71. For low-risk level CSPs with 12-hour or less BUD, air sampling is performed at locations inside the ISO Class 5 environment and other areas that are in close proximity to the ISO class 5 environment. [ENVIRONMENTAL QUALITY AND CONTROL : Viable Air Sampling]	N/A
72. The number of discrete colonies of microorganisms is counted and reported as colony-forming units (cfu) and documented on an environmental monitoring form. Counts from air monitoring are transformed into cfu/cubic meter of air and evaluated for adverse trends. [ENVIRONMENTAL QUALITY AND CONTROL : Incubation Period] *Trended by MTA for air and surface samples every 6 months*	Yes
73. Surface sampling is accomplished in all ISO classified areas on a periodic basis using TSA contact plates with lecithin and polysorbate 80 and/or swabs and is done at the conclusion of compounding. [ENVIRONMENTAL QUALITY AND CONTROL : Surface Cleaning and Disinfection Sampling and Assessment] *Pharmacy does monthly surface sampling.*	Yes
74. Sampling data is collected and reviewed on a periodic basis as a means of evaluating the overall state of control of the compounding environment. [ENVIRONMENTAL QUALITY AND CONTROL : Action Levels, Documentation and Data Evaluation] *Policy on surface sampling states 1st choice to conduct ss with every single compound.*	Yes
75. Competent microbiology personnel are consulted if an environmental sampling consistently shows elevated levels of microbial growth. If any mold, yeast, coagulase positive staphylococcus, or gram negative rods are detected immediate remediation and investigation into the cause and source was conducted. [ENVIRONMENTAL QUALITY AND CONTROL : Action Levels, Documentation and Data Evaluation]	N/A
76. Surfaces in the LAFWs, BSCs, CAIs, and CACIs are cleaned and disinfected frequently, including at the beginning of each work shift, before each batch preparation is started, every 30 minutes during continuous compounding periods of individual CSPs, when there are spills, and when surface contamination is known or suspected from procedural breaches. [ENVIRONMENTAL QUALITY AND CONTROL : Cleaning and Disinfecting the Sterile Compounding Areas]	Yes
77. Cleaning and disinfecting occurs before compounding is performed. Items are removed from all areas to be cleaned, and surfaces are cleaned by removing loose material and residue from spills, e.g., water-soluble solid residues are removed with Sterile Water and low-shedding wipes. This shall be followed by wiping with a residue-free disinfecting agent, such as sterile 70% IPA, which is allowed to dry before compounding begins. [ENVIRONMENTAL QUALITY AND CONTROL : Cleaning and Disinfecting the Sterile Compounding Areas]	Yes
78. Cleaning and disinfecting agents and methods of application are in accordance with written SOPs and followed by custodial and/or compounding personnel. [ENVIRONMENTAL QUALITY AND CONTROL : Cleaning and Disinfecting the Sterile Compounding Areas] *Daily cleaning log reviewed -demonstrates Hyp-chlor followed by Peridox RTU and SIPA, however documents show hypochlor is used, but none in cleanroom, Decon spore used. Each PEC is listed and Lyophilizer listed. Cleaning documentation -procedure does not match policy.*	No
79. Cleaning materials, such as wipes, sponges, and mops, are non-shedding, preferably composed of synthetic micro fibers, and dedicated to use in the buffer area, ante-area, and segregated compounding areas and are not removed from these areas except for disposal. If cleaning materials are reused (e.g., mops), there are procedures based on manufacturer recommendations that ensure that the effectiveness of the cleaning device is maintained and repeated use does not add to the bioburden of the area being cleaned. [ENVIRONMENTAL QUALITY AND CONTROL : Cleaning and Disinfecting the Sterile Compounding Areas] *Mop covers from Contec and foam are sterilized using the autoclave*	Yes
80. Supplies and equipment removed from shipping cartons are wiped with a suitable disinfecting agent (e.g., sterile 70% IPA). [ENVIRONMENTAL QUALITY AND CONTROL : Cleaning and Disinfecting the Sterile Compounding Areas]	Yes
81. Disinfectant sprayed or wiped on a surface to be disinfected is allowed to dry, and during this time the item is not be used for compounding purposes. [ENVIRONMENTAL QUALITY AND CONTROL : Cleaning and Disinfecting the Sterile Compounding Areas]	Yes
82. Sterile 70% IPA pads are used to disinfect the sterile entry points of packages and devices. Wetted gauze pads or other particle-generating material are not appropriate. [ENVIRONMENTAL QUALITY AND CONTROL : Cleaning and Disinfecting the Sterile Compounding Areas]	Yes

QUALITY AND CONTROL (Secondary Engineering Controls)

83. Work surfaces in ISO Class 7 and 8 areas and segregated compounding areas are cleaned at least daily. IPA (70% isopropyl alcohol) remains on surfaces to be disinfected for at least 30 seconds before such surfaces are used to prepare CSPs. [ENVIRONMENTAL QUALITY AND CONTROL : Cleaning and Disinfecting the Sterile Compounding Areas]	Yes
84. Floors in ISO Class 7 and 8 areas are mopped daily by trained personnel at a time when no aseptic operations are in progress using approved agents and procedures described in written SOP's. [ENVIRONMENTAL QUALITY AND CONTROL : Cleaning and Disinfecting the Sterile Compounding Areas]	Yes

85. Shelving, walls, and ceilings in ante-areas and buffer areas are cleaned and disinfected at least monthly. [ENVIRONMENTAL QUALITY AND CONTROL : Cleaning and Disinfecting the Sterile Compounding Areas] *For months of Feb, used Peridox and SIPA, however, only documented a disinfecting agent for monthly cleaning using Decon-Ahol and IPA*	No

PERSONNEL CLEANSING, GARBING & COMPETENCY EVALUATION

86. Personnel preparing CSP's are free from rashes, sunburn, weeping sores, conjunctivitis, and active respiratory infections. [ENVIRONMENTAL QUALITY AND CONTROL : Personnel Cleansing and Garbing]	Yes
87. Compounding personnel remove personal outer garments; cosmetics; artificial nails; hand, wrist, and body jewelry that can interfere with the fit of gowns and gloves; and visible body piercing above the neck. [ENVIRONMENTAL QUALITY AND CONTROL : Personnel Cleansing and Garbing]	Yes
88. Facility has adequate supplies to meet PPE requirements of USP<797>. [ENVIRONMENTAL QUALITY AND CONTROL : Personnel Cleansing and Garbing]	Yes
89. Garbing and hand hygiene are accomplished in the ante-area in order of dirtiest to cleanest: shoes or shoe covers, head and facial hair covers, face mask, fingernail cleansing, hand and forearm washing and drying; non-shedding gown. [ENVIRONMENTAL QUALITY AND CONTROL : Personnel Cleansing and Garbing] *Nail cleansers inside sealed brush/sponge kit*	Yes
90. Sterile gloves are donned in the buffer room/isolator after hand cleansing with an alcohol-based product with persistent activity and hands are allowed to dry. [ENVIRONMENTAL QUALITY AND CONTROL : Personnel Cleansing and Garbing] *Non HD cleanroom-Purell Waterless Surgical Scrub, HD cleanroom: Avagard donned prior to donning sterile gloves.*	Yes
91. Gloves are routinely disinfected with sterile 70% IPA after contacting nonsterile objects. [ENVIRONMENTAL QUALITY AND CONTROL : Personnel Cleansing and Garbing]	Yes
92. Personnel repeat garbing and hand hygiene after they are exposed to direct contact contamination or worse than ISO Class 8 air. Gowns may be hung in the anteroom and reused during the same workshift. [ENVIRONMENTAL QUALITY AND CONTROL : Personnel Cleansing and Garbing]	N/A
93. Low/Medium Risk media-fill tests that closely simulate the most challenging or stressful conditions encountered during compounding are completed at least annually by compounding personnel. Media-filled vials are appropriately incubated for 14 days. [CSP MICROBIAL CONTAMINATION RISK LEVELS : Medium-Risk Level CSPs]	N/A
94. High Risk Media-fill tests that closely simulate the most challenging or stressful conditions encountered during compounding have been completed at least semiannually by compounding personnel. Media-filled vials are appropriately incubated for 14 days. [CSP MICROBIAL CONTAMINATION RISK LEVELS : High-Risk Level CSPs] *JB completed media fill 4/20/22 (still incubating) representing HD lyo. Inspector noted 179 media fill vials lying on the shelf in the back room incubating all 14 days at 20-25 degrees -pharmacy has these temps documented-these represent the batch for the compounding pharmacist JB who is new to the role.* *DH completed media fill 2-2-22 and 300 vials of 10ml and 8/13/21 simulating HD compounding, MH completed media fill for sterile non -HD 300 vials of 10ml, GH completed media fill simulating aqueous solutions 4/5/2022 (qty 155 vials 10ml representing non-HD Oct 8, 2021, MS completed media fill 4-22-22 and 10/15/21.*	Yes
95. Documentation indicates compounding personnel have successfully completed didactic training, passed written competency assessments, undergone skill assessment using observational audit tools (hand hygiene, garbing, aseptic technique) and media-fill testing annually or semiannually (high risk) and before any compounding personnel begin to prepare CSPs . [ENVIRONMENTAL QUALITY AND CONTROL : Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices and Cleaning/Disinfection Procedures] *Documents of observational assessments for hand hygiene and garbing do not assess process for specific donning of coveralls to completely cover all exposed skin during lyophilization process.* *Documentation of written and didactic assessments available from Critical Point.*	No
96. Compounding personnel who fail written tests, observational audits, or whose media-fill test vials have one or more units showing visible microbial contamination, are reinstructed and re-evaluated by expert compounding personnel to ensure correction of all aseptic work practice deficiencies. Corrective action is documented. Compounding personnel pass all evaluations prior to resuming compounding of sterile preparations. [ENVIRONMENTAL QUALITY AND CONTROL : Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices and Cleaning/Disinfection Procedures]	Yes
97. Other cleaning personnel performing cleaning and disinfecting procedures (e.g. environmental) are thoroughly trained in proper hand hygiene, and garbing, cleaning, and disinfection procedures by a qualified aseptic compounding expert. [ENVIRONMENTAL QUALITY AND CONTROL : Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices and Cleaning/Disinfection Procedures]	N/A
98. Compounding personnel and other personnel responsible for cleaning routinely undergo performance evaluation of proper hand hygiene, garbing, and all applicable cleaning and disinfecting procedures conducted by a qualified aseptic compounding expert. Visual observation of hand hygiene, garbing and cleaning is documented and maintained to provide a permanent record and long-term assessment of personnel competency. [ENVIRONMENTAL QUALITY AND CONTROL : Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices and Cleaning/Disinfection Procedures]	Yes
99. Immediataly after the compounder completes the hand hygiene and garbing procedure, the evaluator collects a gloved fingertip and thumb sample from both hands of the compounder onto appropriate agar plates. The plates are incubated at 30-35° for 2–3 days. All compounding personnel have successfully completed an initial competency evaluation and gloved fingertip/thumb sampling procedure (0 cfu) no less than three times before initially being allowed to compound CSPs for human use. [ENVIRONMENTAL QUALITY AND CONTROL : Gloved Fingertip Sampling] *Temps for MEA plates not properly documented for RPT MH-these indicate they are incubated at 30-33 degrees C on test date of 11-3-21. It is not documented the plates used for GFS have L&T.*	No
100. Re-evaluation of glove fingertip testing onto appropriate agar plates (Trypticase soy agar (TSA) with lecithin and polysorbate 80) for all compounding personnel occurs at least annually for low- and medium-risk level CSPs and semiannually for high-risk level CSPs before being allowed to continue compounding CSPs. Gloves shall not be disinfected with sterile 70% IPA prior to testing. The cfu action level is based on the total number of cfu on both gloves and not per hand. [ENVIRONMENTAL QUALITY AND CONTROL : Gloved Fingertip Sampling] *See comments in #99.*	No

VERIFICATION

101. Labels of CSPs contain name and address of pharmacy, correct names and amounts or concentrations of ingredients, total volumes, beyond-use dates, storage conditions, and route(s) of administration. [FINISHED PREPARATION RELEASE CHECKS AND TESTS : Identity and Strength Verification of Ingredients] *Labels do not contain Benzyl Benzoate preservative lot 04132022@15 on the label, also noted on Lipo C lot 03112022@16 Benzyl Alcohol not listed as a preservative.* *Several vials such as Myers Cocktail do not contain the Federal Legend, specifically lot 04252022@5 or Magnesium Chloride/Taurine compound lot 03232022@19. These vials were noted to have black and white labels.*	No
102. Facility has documentation that procedures have been followed to ensure sterility, purity, correct identities and amounts of ingredients, and stability. [FINISHED PREPARATION RELEASE CHECKS AND TESTS : Inspection of Solution Dosage Forms and Review of Compounding Procedures]	Yes
103. CSP's are visually inspected for abnormal particulate matter and color, and intact containers and seals. [FINISHED PREPARATION RELEASE CHECKS AND TESTS : Inspection of Solution Dosage Forms and Review of Compounding Procedures]	Yes
104. Beyond Use Dates are assigned using direct stability-indicating assays or authoritative literature that supports the assigned BUD. [STORAGE AND BEYOND-USE DATING : Determining Beyond-Use Dates]	Yes

DISPENSING/DISTRIBUTION

106. Facility has written procedures for proper packaging, storage, and transportation conditions to maintain sterility, quality, purity, and strength of CSPs. [MAINTAINING STERILITY, PURITY, AND STABILITY OF DISPENSED AND DISTRIBUTED CSPs :]	Yes
107. Modes of transport are used that maintain appropriate temperatures and prevent damage to CSPs. [MAINTAINING STERILITY, PURITY, AND STABILITY OF DISPENSED AND DISTRIBUTED CSPs : Packaging and Transporting CSPs]	Yes
108. Facility provides a multiple component formal training program to ensure patients and caregivers understand the proper storage, handling, use, and disposal of CSPs. [PATIENT OR CAREGIVER TRAINING] *Lyophilized peptides do not have any drug information provided to the patient.*	No

POLICY/PROCEDURE

109. Written procedures detail cleaning and disinfecting the sterile compounding areas including cleansers, disinfectants, and non-shedding wipe and mop materials. [ENVIRONMENTAL QUALITY AND CONTROL : Cleaning and Disinfecting the Sterile Compounding Areas] *Reviewed SOP 304.7*	Yes
110. A written procedure is in place for cleaning and disinfecting the Direct Compounding Areas. [ENVIRONMENTAL QUALITY AND CONTROL : Cleaning and Disinfecting the Sterile Compounding Areas]	Yes
111. Facility has written procedures to verify correct identity, quality, amounts, and purities of ingredients used in CSPs. [FINISHED PREPARATION RELEASE CHECKS AND TESTS : Identity and Strength Verification of Ingredients]	Yes
112. Policies address packaging to maintain physical integrity, sterility, stability, and purity of CSPs. [MAINTAINING STERILITY, PURITY, AND STABILITY OF DISPENSED AND DISTRIBUTED CSPs : Packaging and Transporting CSPs]	Yes
113. Written standard procedures describe means for patients to ask questions and report concerns and adverse events with CSPs, and for compounding pharmacists to correct and prevent future problems. [PATIENT MONITORING AND ADVERSE EVENTS REPORTING] *Documented on a QRE form*	Yes

RADIOPHARMACEUTICALS

114. Facility has appropriate primary engineering controls and radioactivity containment and shielding. Location of primary engineering controls permitted in ISO Class 8 controlled environment. [RADIOPHARMACEUTICALS AS CSPs]

LYOPHILIZATION

INV797-Sterile Compounding

Insp # 178092 | POPE SHENOUDA LLC | File # 22731

135. Sterile products prepared for lyophilization are maintained in ISO 5 unidirectional laminar flow air throughout sterilization, filling and transport to the lyophilizer. [64B16-27.797(5) F.A.C.]	Yes
136. A recorded smoke study is available and demonstrates that transport from the PEC to the lyophilizer is accomplished in ISO 5 laminar flow air at all times. [64B16-27.797(5) F.A.C.] *available for Feb 2022-performed by MTA*	Yes
137.The pharmacy has established and follows policies and procedures for the high-level disinfection of the lyophilizer chamber, piping, and all other areas of the unit which pose a potential risk for contamination of the product. [64B16-27.797(5) F.A.C.] *Contact time not adhered to based on study from Pharmetric*	No
138. The pharmacy validated the high-level disinfection procedure initially, and after changes to the cleaning process or agents. Documentation of studies is available for inspection. [64B16-27.797(5) F.A.C.] *Performed by Pharmetric on stainless steel; borosilicate glass (door) of the lyophilizer on Aug 17, 2020 : Cleaning agents documented are Peridox (contact time studied 10 mins), Decon-Phene 10 mins, SIPA 10 mins.*	Yes
139. Validation studies for high level disinfection are performed with the 5-aerobic bacterial and fungal ATCC organisms referenced in USP<71> are conducted by an external vendor unless the firm has an internal laboratory capable of performing the studies. An internal laboratory is separate from the compounding and work areas of the pharmacy to prevent contamination in the pharmacy. [64B16-27.797(5) F.A.C.] *Pharmetric conducted an evaluation on the stainless steel and borosilicate glass of the SP Scientific Lyophilizer SN SN 325488. attached to Esco HD vertical flow Class II A2 BSC on Aug 17, 2020*	Yes
140. Policies and procedures are established and followed for cleaning the lyophilizer prior to disinfection and include cleaning agents and schedules. Documentation of cleaning is maintained and available for inspection. [64B16-27.797(5) F.A.C.] *Procedures for use of Cleaning agents for the lyophilizer and dwell times used are not according the study done by Pharmetric lab on Aug 17, 2020 which documents a dwell time of 10 mins for Peridox and Decon Phene as well as SIPA. Infact only Hypo Chlor listed on cleaning log which has not been studied, Peridox and SIPA (no dwell times specified)* *The pharmacy has a cleaning document "Daily Cleaning Log for Controlled Sterile Compounding Environments & Adjacent Areas" which has documented daily cleaning stating "Lyophilize (if no compound inside)", and reviewed "Maintenance and check the Lyophilizer" which has documented on production days March 2022 as "Weekly Inside the ISO 5" activity of cleaning Gaskets, Trays and shelves, Door and the handle", however this latter document only states "Wipe the lyo with SIPA" for outside the lyp.*	No
141. Policies and procedures are established for the maintenance of the lyophilizer and at a minimum include the manufacturers recommendations. [64B16-27.797(5) F.A.C.] *Pharmacy provided Intrutech Vacuum Geuge Celibration Certificate dated 10/6/21, Air Eze Scientific services did preventative maintenance for SP Scientific Freeze Dryer on 4-5-21.*	Yes
142. The maintenance schedule includes provisions for periodic testing of the chamber for leaks and all other recommended procedures described by the equipment manufacturer. Documentation of routine maintenance is available for inspection. [64B16-27.797(5) F.A.C.] *Testing for chamber leaks occurs monthly and is documented.*	Yes
143.SOPs and quality assurance program established to include validation of the filling process, container closure integrity, frequent monitoring of fill volumes, identification of over fills and underfills, assessment of personnel involved in compounding for lyophilization, equipment qualification, formula verification, and evaluation of finished product for conformance to specifications. [64B16-27.797(5) F.A.C.]	Yes
144. The pharmacy has provisions for sterilizing, with filters, the inert gas or air used for backfilling during the vacuum release phase. These Sterilizing filters undergo the manufacturers recommended integrity test. [64B16-27.797(5) F.A.C.] *Documented on the batch record for lyophilized compounds.*	Yes
145. Media fills are conducted every six months using the maximum batch size and demonstrate the filling, transport to the lyophilizer, loading and stoppering operations. Media is NOT frozen during the media fill operation. [64B16-27.797(5) F.A.C.] *Media fills are approximately the representative batch size for compounded peptides.*	Yes
146. Personnel preparing sterile compounds for lyophilization wear sterile Personal Protective Equipment that covers all exposed skin.[64B16-27.797(5) F.A.C.]	Yes
147. Glove Fingertip Sampling is performed with every batch after fill and transport into the lyophilizer on all personnel compounding for lyophilization. The results are incorporated into the batch record. [64B16-27.797(5) F.A.C.] *Documented on batch record for all Peptides, specifically noted to be TSA+ and MEA+ but does not specify L&T for compound Ipamorelin/Sermorelin PF 15mg/15mg Inj lot 01262022@15, compounding technician was DH. SOP 613 "Cleaning and maintenance of a SP Scientific Lyophilizer" does not specify the TSA plates for surface sampling.-see line 15. Observed correct TSA with L&T and MEA with L&T plates in refrigerator. Incubation temps are incorrect for MEA plates used-stated to be 30-33 degrees C.*	No
148. In-process acceptance criteria such as color, moisture limits and visual appearance are established for each lyophilized product.[64B16-27.797(5) F.A.C.] *Inspector identified vials of lyophilized compound which appear to be product ejection, specifically BPC-157 Acetate lot 01102022@16. This may impact product quality attributes. Other CSP's noted to have this visual defect: Semaglutide 5mg inj (not released).* *In process criteria for rejection of different cake quality such as color, moisture, cake appearance not fully established to allow the inspector of the cake to reject or accept the end product.*	No
149. A 100% visual examination of the finished product is conducted to determine that the product conforms to the established visual criteria and is incorporated into the batch record. [64B16-27.797(5) F.A.C.] *See note above in #148- rejection criteria not established for some vials in this lot and has been released to patient.*	No
150. Finished product testing is conducted on all batches. Procedures have been established for selecting test samples from the batch and are written and followed. Such procedures may include location of vials in the lyophilizer and positions in the fill line. [64B16-27.797(5) F.A.C.] *On each batch record but not in SOP 613*	Yes
151. Finished product testing includes sterility testing using a USP<71> method unless an alternative test method has been validated and shown to be equivalent or better. Diluents used to reconstitute the sample vials for testing are preservative free. [64B16-27.797(5) F.A.C.]	Yes
152. Each batch of lyophilized product with a beyond use date that falls within the USP<797> guidelines and is not tested for sterility, has viable air and surface sampling that is collected in critical areas of ISO 5 locations as well as sampling of the gloves and sleeves of personnel documented in the batch record. [64B16-27.797(5) F.A.C.]	Yes
153. Every lyophilized product has established endotoxin levels Each batch of lyophilized product is tested for endotoxin in accordance with USP<85> and confirmed to fall within the set limits and documented in the batch record. [64B16-27.797(5) F.A.C.]	Yes
154. Potency, radiochemical purity or applicable test to assure label claim is conducted on every batch and documented in the batch record. In lieu of potency testing, weight based verification may occur based on formula verification. Potency testing shall be based on the USP monograph if one is available. [64B16-27.797(5) F.A.C.]	Yes

CORRECTIVE ACTION PLAN

155. A corrective action plan is required to be submitted within 30 days for the non-compliant items listed above.	No

Remarks:

The relail pharmacy inventory is no longer at this location-medicinal drugs are missing and have been moved to Cross pharmacy. According to the PDM, the medicinal drugs were sold to MMG Pharma. The pharmacy compounds non-sterile and sterile compounds at this location.
Inspectors were informed, the pharmacy is not licensed in Texas or California but ships patient specific CSP to the physician clinic who then mails it to the patient. The pharmacy does document decontamination with cleaning agents after each batch.
Inspection conducted with Mina Shenouda, Pharmacy Intern and George Hanna, PDM and Joseph Bishay, pharmacist.
3 computer systems: PK for compounding, Life file (e-prescribed) and Prime (retail which has been discontinued).

RE: State of Florida Department of Health Investigative Services INV797 – Sterile Compounding, File # 22731, Insp # 178902, Date 4/28/2022, Pharmacy Permit 20208

The State of Florida Department of Health Investigative Services, represented by Ms. Mala Cullipher, Completed an inspection on April 28th, 2022. Although no Corrective Action Plan or follow-up was requested by inspector, 1st Choice Compounding Pharmacy submits the following Corrective Actions for deficiencies that were listed on the INV797 – Sterile Compounding:

Item #	Type	Inspection Item	Inspection Notes	Facility Response/Corrective Action/Comments
45	[HAZARDOUS DRUGS AS CSPs]	Hazardous drugs are prepared in an ISO Class 5 environment (BSC or CACI) with protective engineering controls in place, following aseptic practices specified for the appropriate contamination risk levels.	HD's such as Testosterone and Nandrolone compounded in the same BSC where Peptides such as Semaglutide, Sermorelin, Ipamorelin and CJC combinations are compounded. These HD's may pose a risk of contamination to the non-HD peptide where partially stoppered vials are lyophilized over several hours and then removed and crimped in the BSC. The pharmacy is decontaminating the BSC after each batch with Peridox.	The pharmacy, as noted by the inspector, is decontaminating the BSC after each batch using an approved operating procedure and the approved materials including Peridox RTU. Peridox RTU has been demonstrated to be an effective decontaminate when used as directed, thereby eliminating the cross-contamination risk between batches of drugs.
62	[ENVIRONMENTAL QUALITY AND CONTROL: Facility Design and Environmental Controls]	Surfaces and essential furniture in buffer rooms or zones and clean rooms are nonporous, smooth, non-shedding, impermeable, cleanable, and resistant to disinfectants.	Peridox applied in pass through of non-HD IV room did not remove stain or residue in the center of the pass-through, some screws still noted to be discolored and rusted on rivets/threshold in between the ante area and buffer room. The rusty nail was fixed during the inspection as well as threshold cleaner. There is a cart with	All discolored rivets and screws have been coated with an oxidizer and then coated with silicone. The cart legs have also been coated with oxidizer and sealed using enamel paint. All horizontal surfaces required for structural stability and safety meet all requirements of USP, including being non-porous,

1st Choice Pharmacy

			slightly rusted legs visible and somewhat comes off when wiped off. Cleanroom has ledges in this modular unit-ledges are not recommended by USP.	smooth, non-shedding, impermeable, cleanable, and resistant to disinfectants. As noted by inspector, recommendations are not requirements.
78	[ENVIRONMENTAL QUALITY AND CONTROL: Cleaning and Disinfecting the Sterile Compounding Areas]	Cleaning and disinfecting agents and methods of application are in accordance with written SOPs and followed by custodial and/or compounding personnel.	Daily cleaning log reviewed - demonstrates Hyp-chlor followed by Peridox RTU and SIPA, however documents show hypochlor is used, but none in cleanroom, Decon spore used. Each PEC is listed and Lyophilizer listed. Cleaning documentation - procedure does not match policy.	Policy & Procedure (SOP 304.8) has been updated to include only Sterile Water for irrigation, Peridox RTU as cleaning agents, and Sterile IPA as the disinfectant.
85	[ENVIRONMENTAL QUALITY AND CONTROL: Cleaning and Disinfecting the Sterile Compounding Areas]	Shelving, walls, and ceilings in ante-areas and buffer areas are cleaned and disinfected at least monthly.	For months of Feb, used Peridox and SIPA, however, only documented a disinfecting agent for monthly cleaning using Decon-Ahol and IPA	Please see response to #78
95	[ENVIRONMENTAL QUALITY AND CONTROL: Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices and Cleaning/Disinfection Procedures]	Documentation indicates compounding personnel have successfully completed didactic training, passed written competency assessments, undergone skill assessment using observational audit tools (hand hygiene, garbing, aseptic technique) and media-fill testing annually or semiannually (high risk) and before any compounding personnel begin to prepare CSPs .	Documents of observational assessments for hand hygiene and garbing do not assess process for specific donning of coveralls to completely cover all exposed skin during lyophilization process. Documentation of written and didactic assessments available from Critical Point.	Policy & Procedure SOP F-410.a - Gowning and Gloving has been updated to include measures to minimize the potential to create external contamination when garbing using sterile hoods which cover all exposed skin when using sterile goggles.

1st Choice Pharmacy

99	[ENVIRONMENTAL QUALITY AND CONTROL: Gloved Fingertip Sampling]	Immediately after the compounder completes the hand hygiene and garbing procedure, the evaluator collects a gloved fingertip and thumb sample from both hands of the compounder onto appropriate agar plates. The plates are incubated at 30-35° for 2–3 days. All compounding personnel have successfully completed an initial competency evaluation and gloved fingertip/thumb sampling procedure (0 cfu) no less than three times before initially being allowed to compound CSPs for human use.	Temps for MEA plates not properly documented for RPT MH-these indicate they are incubated at 30-33 degrees C on test date of 11-3-21. It is not documented the plates used for GFS have L&T.	SOP F-202.b has been updated to reflect that all plates used for GFS contain lecithin and polysorbate 80
100	[ENVIRONMENTAL QUALITY AND CONTROL: Gloved Fingertip Sampling]	Re-evaluation of glove fingertip testing onto appropriate agar plates (Trypticase soy agar (TSA) with lecithin and polysorbate 80) for all compounding personnel occurs at least annually for low- and medium-risk level CSPs and semiannually for high-risk level CSPs before being allowed to continue compounding CSPs. Gloves shall not be disinfected with sterile 70% IPA prior to testing. The cfu action level is based on the total number of cfu on	See comments in #99.	Please see the reply for #99.

1st Choice Pharmacy

		both gloves and not per hand.		
101	[FINISHED PREPARATION RELEASE CHECKS AND TESTS: Identity and Strength Verification of Ingredients]	Labels of CSPs contain name and address of pharmacy, correct names and amounts or concentrations of ingredients, total volumes, beyond-use dates, storage conditions, and route(s) of administration.	Labels do not contain Benzyl Benzoate preservative lot 04132022@15 on the label, also noted on Lipo C lot 03112022@16 Benzyl Alcohol not listed as a preservative. Several vials such as Myers Cocktail do not contain the Federal Legend, specifically lot 04252022@5 or Magnesium Chloride/Taurine compound lot 03232022@19. These vials were noted to have black and white labels.	All printed dispensing labels shall be updated to include preservative content, federal legend and shall be printed in color.
108	[PATIENT OR CAREGIVER TRAINING]	Facility provides a multiple component formal training program to ensure patients and caregivers understand the proper storage, handling, use, and disposal of CSPs.	Lyophilized peptides do not have any drug information provided to the patient	Package inserts have been updated for all peptides.

137	[64B16-27.797(5) F.A.C.]	The pharmacy has established and follows policies and procedures for the high-level disinfection of the lyophilizer chamber, piping, and all other areas of the unit which pose a potential risk for contamination of the product.	Contact time not adhered to based on study from Pharmetric	SOP 613.1updated to correct contact time.
140	[64B16-27.797(5) F.A.C.]	Policies and procedures are established and followed for cleaning the lyophilizer prior to disinfection and include cleaning agents and schedules. Documentation of cleaning is maintained and available for inspection.	Procedures for use of Cleaning agents for the lyophilizer and dwell times used are not according the study done by Pharmetric lab on Aug 17, 2020 which documents a dwell time of 10 mins for Peridox and Decon Phene as well as SIPA. Infact only Hypo Chlor listed on cleaning log which has not been studied, Peridox and SIPA (no dwell times specified) The pharmacy has a cleaning document "Daily Cleaning Log for Controlled Sterile Compounding Environments & Adjacent Areas" which has documented daily cleaning stating "Lyophilize (if no compound inside)", and reviewed "Maintenance and check the Lyophilizer" which has documented on production days March 2022 as "Weekly Inside	Please see reply for #137.

147	[64B16-27.797(5) F.A.C.]	Glove Fingertip Sampling is performed with every batch after fill and transport into the lyophilizer on all personnel compounding for lyophilization. The results are incorporated into the batch record.	Documented on batch record for all Peptides, specifically noted to be TSA+ and MEA+ but does not specify L&T for compound Ipamorelin/Sermorelin PF 15mg/15mg Inj lot 01262022@15, compounding technician was DH. SOP 613 "Cleaning and maintenance of a SP Scientific Lyophilizer" does not specify the TSA plates for surface sampling. -see line 15. Observed correct TSA with L&T and MEA with L&T plates in refrigerator. Incubation temps are incorrect for MEA plates used-stated to be 30-33 degrees C.	Please see reply for #99.
148	[64B16-27.797(5) F.A.C.]	In-process acceptance criteria such as color, moisture limits and visual appearance are established for each lyophilized product.	Inspector identified vials of lyophilized compound which appear to be product ejection, specifically BPC-157 Acetate lot 01102022@16. This may impact product quality attributes. Other CSP's noted to have this visual defect: Semaglutide 5mg inj (not released). In process criteria for rejection of different cake quality such as color, moisture, cake appearance not fully established to allow the inspector of the cake to reject or accept the end product	The lyophilized product labeled by the inspector "which appear to be product ejection" are, in fact, not product ejection but are actually just droplets from the fill process which splash and collect on the inner surface of the vial and sublimate. "Visual defects" in this case do NOT affect the product quality attributes based on potency testing and beyond use date testing. SOP 616.1 has been updated to establish criteria for rejection of different cake qualities.

Custom Rx, LLC DBA Custom Rx Pharmacy and Wellness Concepts

Disciplinary Action Explanation

On November 7, 2017, Custom Rx, LLC DBA Custom Rx Pharmacy and Wellness Concepts ("*Custom Rx*") and the Texas State Board of Pharmacy ("*Texas Board*") entered into an Agreed Board Order for two counts of alleged misconduct that resulted in a discipline and an administrative fine of $1,000. A copy of the Order is attached hereto. Custom Rx paid the fine in full and its Texas license is currently active and in good standing.

AGREED BOARD ORDER #K-17-007

RE: IN THE MATTER OF
CUSTOM RX PHARMACY AND
WELLNESS CONCEPTS
(PHARMACY LICENSE #29144)

BEFORE THE TEXAS STATE
BOARD OF PHARMACY

On this day came on to be considered by the Texas State Board of Pharmacy (Board) the matter of pharmacy license number 29144 issued to Custom Rx Pharmacy and Wellness Concepts (Respondent), 3510 North Ridge Road, Suite 900, Wichita, Kansas 67205.

By letter dated June 26, 2017, the Board gave preliminary notice to Respondent of its intent to take disciplinary action. This action was taken as a result of an investigation which produced evidence indicating that Respondent may have violated:

Sections 560.001(b); 561.002; 561.003(b); 561.0031; 561.005; 562.101(f); 565.002(a)(3) and (4) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Title 3, Subtitle J (2015); and

Sections 291.14; 291.103; and 291.104(a)(3) of the Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2017), in that allegedly:

COUNTS

(1) From on or about May 13, 2016, through on or about July 12, 2016, Custom Rx Pharmacy and Wellness Concepts, 3510 North Ridge Road, Suite 900, Wichita, Kansas 67205, was unlawfully operating, in that the pharmacy shipped 9 prescriptions into Texas with an expired license. On or about April 14, 2016, Custom Rx Pharmacy and Wellness Concepts submitted a renewal application for a non-resident pharmacy indicating that the pharmacy was engaged in sterile compounding, but failed to provide an inspection report. On or about June 22, 2016, an inspection was conducted by an approved vendor and the report was subsequently submitted to the Texas State Board of Pharmacy (Board). On or about July 13, 2016, the pharmacy submitted an application to change non-resident pharmacy license classification to compounding sterile preparations, which was approved by the Board, and the pharmacy's license was renewed on the same day.

(2) On or about September 1, 2016, through on or about August 29, 2017, Custom Rx Pharmacy and Wellness Concepts, 3510 North Ridge Road, Suite 900, Wichita, Kansas 67205, was engaged in the operation of a non-resident pharmacy in violation of Texas Pharmacy Board Rules, in that the pharmacy was not under the supervision of a pharmacist-in-charge licensed as a pharmacist in Texas.

An informal conference was held in the Board's office on September 13, 2017. Respondent was not in attendance; however, Nicolas Levi Branam, Pharmacist-in-Charge, on behalf of

Respondent, submitted a written statement. The informal conference was heard by a Board panel comprised of: Christopher M. Dembny, R.Ph., Board Member; Gay Dodson, R.Ph., Executive Director/Secretary; and Carol Fisher, R.Ph., M.P.A., Director of Enforcement; with Kerstin Arnold, General Counsel. Mary Martha Murphy, Staff Attorney, was also in attendance.

By appearing via written statement, Jan Gerber, Corporate President, Custom Rx, LLC, waived the right to be represented by legal counsel. By signing this Order, Jan Gerber neither admits nor denies the truth of the matters previously set out in this Order, and agrees that the Board has jurisdiction in this matter and waives the right to notice of hearing, formal administrative hearing, and judicial review of this Order.

ORDER OF THE BOARD

THEREFORE, PREMISES CONSIDERED, the Board does hereby ORDER that:

(1) Respondent shall pay an administrative penalty of one thousand dollars ($1,000) due one hundred twenty (120) days after the entry of this Order.

(2) Respondent shall develop and implement policies and procedures for the verification of valid licensure and registration status for pharmacists, pharmacist interns, and pharmacy technicians during the hiring process and on an on-going basis, and to ensure compliance with pharmacy and pharmacist licensure requirements from licensing entities in states where Respondent operates or seeks to operate as a pharmacy or wholesale facility. A written report of such policies and procedures shall be submitted to Board staff within one hundred twenty (120) days after the entry of this Order.

(3) Respondent shall be responsible for all costs relating to compliance with the requirements of this Order.

(4) Failure to comply with any of the requirements in this Order constitutes a violation and shall be grounds for further disciplinary action. The requirements of this Order are subject to the Texas Pharmacy Act, TEX. OCC. CODE ANN., Title 3, Subtitle J (2017), and Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2017).

And it is so ORDERED.

THIS ORDER IS A PUBLIC RECORD.

SIGNED AND ENTERED ON THIS 7th day of November, 2017.

Section 2: Sterile Compounding Questions (Use a separate piece of paper if additional space is needed.)

1. What risk level sterile compounding will your facility be performing (check all that apply)? ■ Low ■ Medium ■ High
If you marked "High", you must also complete section 4.

2. Will you be performing sterile hazardous drug compounding? ■ Yes ☐ No
If you marked "Yes", you must also complete section 3.

3. List the sterile compounded products that you will be compounding for Nevada patients or consumers:
Testosterone Cypionate/Propionate 45/5 mg/mL - 1mL; Ascorbic acid (PF, corn free) 50ml Vial 500mg/ml injectable; glutathione (L) injection - 10ml vial 200mg/ml soln;progesterone in oil 100mg/ml injectable; testosterone cyp/testosterone prop (GS) 195/5 mg/ml injectable; trimix 30/1/0.01 mg/ml injectable; Methylcobalamin 1mg/ml injectable;edetate disodium injectable (PF) 20mg vial 150mg/ml solution; hydroxocobalamin - 10ml vial 1mg/ml injectable

4. Will you be utilizing beyond use dates in excess of USP-797? ☐ Yes ■ No

5. If yes, describe the additional testing performed on your products to validate the extended BUD:

6. What laboratory performs this additional testing?

Name: _____

Address: _____

City: _____ State: _____ Zip: _____

Telephone: _____

7. What is your procedure for visual inspection of compounded sterile products?
See SOP ST-4.050, Finished Preparation & Testing Requirements

10.3 Physical Testing requirements
- 10.3.1 The end product will be visually inspected for:
  - 10.3.1.1 Container leaks
  - 10.3.1.2 Integrity
  - 10.3.1.3 Solution cloudiness or phase separation
  - 10.3.1.4 Appropriate color
  - 10.3.1.5 Volume
- 10.3.2 Particulate Testing
  - 10.3.2.1 All units should be examined after production and, if stored as inventory, immediately before shipping.
  - 10.3.2.2 A damp, non-linting wipe shall be used to remove any external particles.
  - 10.3.2.3 With powder-free gloves the compounder will hold the container by its top and swirl the contents by rotating the wrist in a circular motion.
  - 10.3.2.4 Holding the container horizontally about four inches below the light source against a white and/or black background and move the container back and forth.
  - 10.3.2.5 If no particles are observed the container will be slowly inverted to watch for heavy particles that may be on the bottom on the container and slide down the container walls.

8. How often do you perform glove fingertip and medial fill testing?
Semi-Annually (twice a year)

9. What is your policy if an employee fails a glove fingertip or media-fill test?
See SOP ST-2.010 Personnel - Training and Competence
10.5 Failed Media Fill Tests or Fingertip Testing will result in a cessation of compounding by that person.
The test should be repeated until a passing result is achieved and documented.
10.5.1 One or more of the following may also be performed as deemed appropriate by the Pharmacist-In-Charge (PIC):
10.5.1.1 Retraining
10.5.1.2 Observation
10.5.1.3 Interview
10.5.1.4 Didactic Examination
10.5.1.5 Root Cause Analysis

10. Describe your initial and annual training program for all personnel performing sterile compounding:
See SOP ST-2.010 Personnel - Training and Competence

9.1 Before working independently in the sterile lab, personnel should complete the training required.
9.2 All personnel must successfully complete 3 gloved fingertip test post-garb before compounding.
9.2.1 See SOP ST 2.020 – Personnel Validation – Aseptic Media Fill
9.2.2 For these initial fingertip tests, any growth will constitute failure. Personnel must achieve 0 CFUs on all 5 plates, instead of the usual action level of 3 CFUs per plate.
9.3 All personnel must successfully complete a Media Fill Test appropriate to the type of compounding they will be performing.
9.3.1 See SOP ST 2.020 – Personnel Validation – Aseptic Media Fill
9.3.2 A Standard Media Fill may be completed for individual prescription compounding, or small batch compounding.
9.3.3 A Large Batch Media Fill should be completed for large batch compounding.
9.3.4 Cloudiness or turbidity in containers shows that the container did not achieve or maintain sterility.
9.3.4.1 Any containers not part of the control group that demonstrate cloudiness or turbidity will constitute a failed test.
10.0 Procedure – Competency
10.1 Personnel must successfully complete a Media Fill Test appropriate to the type(s) of compounding they perform; at least semi-annually.
10.2 Personnel must successfully complete both post-garb and post-compound gloved fingertip testing semi-annually.
10.3 Personnel must successfully complete didactic training and/or written testing covering the theory and practice of aseptic manipulations.
10.4 Personnel must successfully complete the following Observational Audits at least semi-annually:
10.4.1 Hand hygiene and garbing
10.4.2 Aseptic manipulations
10.4.3 Cleaning
10.4.4 Filtration integrity testing

11. Describe the cleaning procedure for your primary and secondary engineering controls, including the frequency of cleaning and the names of cleaning, disinfectant, sporicidal, and/or deactivation and decontamination agents used:
See SOP ST-3.040 - Cleaning and Maintenance of the <797> Compounding Area

8.1 Cleaners for the clean room consist of Sterile 70% Isopropyl Alcohol (70%IPA), and Peridox RTU.
8.2 NOTE: Peridox RTU is sporicidal and does not require a cleaning rotation.
Peridox should maintain site contact for 3 minutes on all non-porous surfaces to retain sporicidal activity. See product documentation for more information

9.1 Daily Cleaning
9.1.1 Each area will be cleaned after each compound (scale, powder hood, workstation, and isolator) using the Sterile 70%IPA
9.1.1.1 The Deck of the ISO 5 PEC shall be cleaned before and after every compound, and every 30 minutes during continuous compounding activity.
9.1.1.2 Peridox RTU can and should be used for excessive soiling or any potential contamination
9.1.2 The entire lab will be cleaned at the end of each day when the sterile lab is in use with Peridox RTU.
9.1.2.1 This includes all counter tops, cart tops, cabinet handles, keyboard, mouse, phone, powder hood, scales, stir plates, outside of the autoclave, incubator, oven, stool, fridge, and floor.

9.2 Monthly cleaning
9.2.1 The monthly clean is a complete, detailed clean with Peridox RTU, and should include all surfaces not cleaned during normal daily cleaning.

12. Who performs the sterile compounding process at your facility?
Ashley Robb, CPhT
Cindy Jacks, CPhT

13. Who is responsible and accountable for the sterile compounding process at your facility?
Nicolas Branam, Pharm.D.

14. If products are shipped/mailed, what shipping conditions are used to ensure product safety/efficacy?
Compounded medications are labeled with the correct auxiliary labels if they have special storage instructions, i.e. refrigeration. Shipping procedure is chosen based on the specific storage instructions listed on the formulation record. Proper equipment is used to maintain cold chain shipping conditions, including insulated shipping containers, gel packs, cold packs, bubble mailers, etc. as required. U-line S-6710 Temperature Indicators and TEMPTIME® TransTracker® are used to verify integrity of compounded preparations that are to be stored at room temperature and in the refrigerator, respectively.

Section 3: Sterile Hazardous Compounding Questions (Complete this section ONLY if you be performing Sterile Hazardous Compounding.)

1. What type of primary engineering controls will you be using in your facility?
Esco AC2-4S9-NS BSC, Class II, Type A2
Baker Model EG-6252 LAFW Clean Bench

2. Is your BSC or CACI vented 100% to the outside?	☐ Yes	☑ No
3. Do you have a negative pressure buffer room at your facility?	☐ Yes	☑ No
4. Will you be compounding with antineoplastic HDs or HD API?	☐ Yes	☑ No
5. If yes, are the drugs stored in an externally ventilated, negative pressure room?	☐ Yes	☐ No
6. Will you be utilizing a closed system transfer device?	☐ Yes	☑ No

7. If yes, list the name of the device:
N/A

8. What information is provided to the patient or consumer on the proper handling and disposal of hazardous drugs products/containers?
Handout - How to dispose of medications properly (EPA)
Handout - Safety Measures for Handling Hazardous Medicines
Website referral - Where and How to Dispose of Unused Medicines - FDA
Website referral - Dispose of Medications Safely (Kansas Board of Pharmacy)

9. Describe your initial process for training new employees prior to compounding sterile hazardous drugs?
See SOP ST-2.010 Personnel - Training and Competence (details on previous question)

Each compounder is also trained on SOP 1.060 - Hazardous Materials

Custom Rx is transitioning to be fully USP 800 compliant by the implementation date of 11/1/23.

Section 4: Sterile High Risk Compounding Questions (Complete this section ONLY if you will be performing High Risk Compounding.)

1. List the specific high risk sterile products that your facility compounds:
Testosterone Cypionate/Propionate 45/5 mg/mL - 1mL; Ascorbic acid (PF, corn free) 50ml Vial 500mg/ml injectable; glutathione (L) injection - 10ml vial 200mg/ml soln;progesterone in oil 100mg/ml injectable; testosterone cyp/testosterone prop (GS) 195/5 mg/ml injectable; trimix 30/1/0.01 mg/ml injectable; Methylcobalamin 1mg/ml injectable;edetate disodium injectable (PF) 20mg vial 150mg/ml solution; hydroxocobalamin - 10ml vial 1mg/ml injectable

2. What sterilization methods are utilized at your facility?
Dry Heat Sterilization
Filtration

3. Does your facility utilize biological indicators? ☑ Yes ☐ No

4. If yes, describe how they are utilized:
With each batch of product sterilized, product is quarantined until BI results are confirmed.

1.0 PURPOSE

1.1 The purpose of this procedure is to establish requirements and documentation for finished preparation testing.

2.0 SCOPE

2.1 This procedure applies to all compounding personnel at Custom Rx Pharmacy.

2.2 This procedure includes testing requirements for physical examination, accuracy, sterility, pyrogen and potency assay.

3.0 PERSONNEL

3.1 The pharmacist-in-charge shall supervise this procedure and document that all personnel responsible for finished preparation testing comply with this procedure.

8.0 GENERAL INFORMATION

8.1 8.1 This procedure is designed for planned testing to verify and demonstrate effectiveness of all procedures critical to the accuracy and purity of finished compounded product.

8.1.1 8.1.1 It is Custom Rx's responsibility to review and assess the contract laboratory for appropriate regulatory compliance

Title: Finished Preparation & Testing Requirements

Procedure No.: ST-4.050

Date Effective: 05/05/2020

8.2 8.2 All compounded sterile products must be tested according to USP <797> and other referenced chapters and monographs.

8.2.1 8.2.1 Specifically, USP <71> must be followed when a sterility test is required. Within chapter <71>, the number of units and volume per unit and specific methods are discussed (see attachment 1).

8.3 8.3 USP <71> states, "The following culture media have been found to be suitable for the test for sterility. Fluid Thioglycollate Medium is primarily intended for the culture of anaerobic bacteria. However, it will also detect aerobic bacteria. Soybean-Casein Digest Medium is suitable for the culture of both fungi and aerobic bacteria."

9.0 IN PROCESS CHECKS

9.1 In-Process Checks

9.1.1 Order of Mixing

9.1.1.1 Every formula worksheet contains uniquely numbered steps, which are to occur in the numbered order written.

9.1.1.2 Such numbering should occur in a certain logical order, immediately apparent to the compounder.

9.1.1.3 For consistency and clarity, Custom Rx has trained all personnel that for any procedure in which the order of mixing isn't explicitly recorded, the ingredients are to be used/mixed in the order presented on the compounding record.

9.1.1.4 Any such ambiguous records are to be verified and updated by a pharmacist to confirm, clarify, and ensure consistent mixing order.

9.1.2 Pharmacist verification is used to confirm the following:

9.1.2.1 Correct Chemical – confirmed via barcode integration with uniquely assigned ID chemical identifier

9.1.2.2 Correct Weight – confirmed via real-time scale integration using barcode system

9.1.2.3 Analytical Weights – down to 0.1mg measured via Ohaus Explorer Analytical EX124. Weights are printed and attached to the physical copy of the compounding record (worksheet)

9.1.2.4 QA/QC for each batch, to include color, texture, consistency, weight, volume, etc as required for Pharmacist Verification

9.1.2.5 Additional Pharmacist supervision or checks during the compounding process should be used as required for anything that requires additional clarity or additional pharmacist supervision in such a way that final RPh verification would be unable to confirm.

Title: Finished Preparation & Testing Requirements

Procedure No.: ST-4.050

Date Effective: 05/05/2020

9.1.2.6 Additionally, pharmacist is to verify volumes of each quantity via syringe pullback method or direct observation of the compounding process.

9.1.2.7 The Compounding Record (CR), also known as the formula worksheet, is to record the number of unique vials/containers created, the number sent for testing, a finished product batch label, and any additional clarification as needed.

10.0 PROCEDURE

10.1 Sterility Testing

10.1.1 Sterility testing is required for all high-risk CSPs that are:

10.1.1.1 Prepared in groups of more than 25 identical individual single dose packages.

10.1.1.2 Prepared in multiple dose containers for administration to multiple patients.

10.1.1.3 Exposed longer than 12 hours at 2-8C, and longer than 6 hours at warmer than 8C before being sterilized.

10.1.2 Sterile batches are quarantined in a lockable tote using sequential uniquely-identified tamper-evident seals while sterility/endotoxin tests are performed.

10.1.2.1 Sterile batches are only to be released once sterility/endotoxin tests are received and attached to the CR as part of the batch verification process.

10.1.2.2 No products are to be "released under risk" prior to receipt of the appropriate testing.

10.1.3 Sterility testing is required for any compound with an assigned beyond use date (BUD) longer than the standard BUDs listed in USP <797>.

10.1.4 Sterility sampling requirements will follow the tables in USP <71> Sterility Testing.

10.1.5 Sterility methods will follow USP <71> membrane filtration where feasible, if not other methods outlined in USP <71> are acceptable.

10.1.6 If a rapid sterility test is used it must be demonstrated that it is at least as effective and reliable as the USP Membrane Filtration method or the Direct Inoculation of the Culture Medium method.

10.1.7 Product samples will be randomly selected from the entire batch.

10.1.7.1 Samples shall be chosen from the beginning, middle, and end of a batch run.

10.2 Endotoxin (Pyrogen) Testing

10.2.1 Endotoxin testing is required for all high-risk CSPs (except those for inhalation or ophthalmic administration) that are:

10.2.1.1 Prepared in groups of more than 25 identical individual single dose packages.

10.2.1.2 Prepared in multiple dose containers for administration to multiple patients.

10.2.1.3 Exposed longer than 12 hours at 2-8C, and longer than 6 hours at warmer than 8C before being sterilized.

10.2.2 Endotoxin testing is required for any compound with an assigned beyond use date (BUD) longer than the standard BUDs listed in USP <797>.

10.2.3 The endotoxin testing will use USP <85> Bacterial Endotoxin Test Method

10.2.4 In the absence of a bacterial endotoxin limit in the official monograph or other CSP formula source, the CSP must not exceed the amount of USP Endotoxin Units (EU per hour per kg of body weight or m2 of body surface area) specified in USP <85> for the appropriate route of administration.

10.2.5 Product samples will be randomly selected from the entire batch.

10.2.5.1 Samples shall be chosen from the beginning, middle, and end of a batch run.

10.3 **Physical Testing requirements**

10.3.1 The end product will be visually inspected for:

10.3.1.1 Container leaks

10.3.1.2 Integrity

10.3.1.3 Solution cloudiness or phase separation

10.3.1.4 Appropriate color

10.3.1.5 Volume

10.3.2 Particulate Testing

10.3.2.1 All units should be examined after production and, if stored as inventory, immediately before shipping.

10.3.2.2 A damp, non-linting wipe shall be used to remove any external particles.

10.3.2.3 With powder-free gloves the compounder will hold the container by its top and swirl the contents by rotating the wrist in a circular motion.

10.3.2.4 Holding the container horizontally about four inches below the light source against a white and/or black background and move the container back and forth.

10.3.2.5 If no particles are observed the container will be slowly inverted to watch for heavy particles that may be on the bottom on the container and slide down the container walls.

10.4 **Accuracy requirements**

10.4.1 Accuracy must meet Appropriate State Board requirements.

10.4.2 Verify all calculations and volumes on the formulation sheet.

10.4.2.1 Example: if the total volume is to be 5mL, then fill 5mL of water into the same shape and size of the container and visually compare.

10.4.3 The used additive containers and for those additives for which the entire container was not expended, the syringe(s) used to measure the additive should be quarantined with the final products until the final product check is completed.

10.5 **Potency (identity and strength) requirements**

10.5.1 Verify the label has the correct:

10.5.1.1 Names

10.5.1.2 Amounts or concentrations of ingredients

10.5.1.3 Total volume

10.5.1.4 Beyond use date

10.5.1.5 Appropriate route of administration

10.5.1.6 Storage conditions

10.5.1.7 Other safe use information as needed

10.5.2 Verify the compounding record to the original written order for correct:

10.5.2.1 Identities

10.5.2.2 Purities

10.5.2.3 Amounts of ingredients

10.5.3 Verify correct fill volumes and quantity of units were prepared.

10.5.4 If any of the steps in 9.5 cannot be confirmed accurate based on the above three inspections the preparation must be assayed by methods that are specific for the active ingredients based on USP monographs.

10.6 **pH**

Title: Finished Preparation & Testing Requirements

Procedure No.: ST-4.050

Date Effective: 05/05/2020

10.6.1 If a pH requirement exists, follow pH meter manufacturer's instructions or send to contract laboratory

10.7 If any of the finished product testing is out of specification, the product should be quarantined and an investigation should occur.

8.1 N/A

9.0 PROCEDURE – Training

9.1 Before working independently in the sterile lab, personnel should complete the training required.

9.2 All personnel must successfully complete 3 gloved fingertip test post-garb before compounding.

9.2.1 See SOP ST 2.020 – Personnel Validation – Aseptic Media Fill

9.2.2 For these initial fingertip tests, any growth will constitute failure. Personnel must achieve 0 CFUs on all 6 plates, instead of the usual action level of 3 CFUs per plate.

9.3 All personnel must successfully complete a Media Fill Test appropriate to the type of compounding they will be performing.

9.3.1 See SOP ST 2.020 – Personnel Validation – Aseptic Media Fill

9.3.2 A Standard Media Fill may be completed for individual prescription compounding, or small batch compounding.

9.3.3 A Large Batch Media Fill should be completed for large batch compounding.

9.3.4 Cloudiness or turbidity in containers shows that the container did not achieve or maintain sterility.

9.3.4.1 Any containers not part of the control group that demonstrate cloudiness or turbidity will constitute a failed test.

10.0 Procedure – Competency

10.1 Personnel must successfully complete a Media Fill Test appropriate to the type(s) of compounding they perform; at least semi-annually.

10.2 Personnel must successfully complete both post-garb and post-compound gloved fingertip testing semi-annually.

10.3 Personnel must successfully complete didactic training and/or written testing covering the theory and practice of aseptic manipulations.

10.4 Personnel must successfully complete the following Observational Audits at least semi-annually:

10.4.1 Hand hygiene and garbing

10.4.2 Aseptic manipulations

10.4.3 Cleaning

10.4.4 Filtration integrity testing

Title: Personnel – Training, and Competence

10.5 Failed Media Fill Tests will result in a cessation of compounding by that person. The test should be repeated until a passing result is achieved and documented.

10.5.1 One ore more of the following may also be performed:

10.5.1.1 Retraining

10.5.1.2 Observation

8.1 Cleaners for the clean room consist of Sterile 70% Isopropyl Alcohol (70%IPA), and Peridox RTU.

8.2 NOTE: Peridox RTU is sporicidal and does not require a cleaning rotation. Peridox should maintain site contact for 3 minutes on all non-porous surfaces to retain sporicidal activity. See product documentation for more information

8.3 Alternative cleaners (must be used in a rotating manner if used):

8.3.1 Vesphene IIst,

8.3.2 LPh IIst,

8.3.3 Acidified bleach (see formula worksheet for acidified bleach and note expiration dating).

8.4 Following any of the above cleaning agents, sterile isopropyl alcohol or sterile water may be used if necessary to remove residue buildup.

8.5 All cleaning must be performed while wearing appropriate garb for the area being cleaned. See SOP ST 3.020 – Required Garb for Cleanroom Area Access.

9.0 PROCEDURE

9.1 Daily Cleaning

9.1.1 Each area will be cleaned after each compound (scale, powder hood, workstation, and isolator) using the Sterile 70%IPA.

9.1.1.1 Peridox RTU can be used for excessive soiling or potential contamination

9.1.2 The entire lab will be cleaned at the end of each day when the sterile lab is in use with Peridox RTU.

9.1.2.1 This includes all counter tops, cart tops, cabinet handles, keyboard, mouse, phone, powder hood, scales, stir plates, outside of the autoclave, incubator, oven, stool, fridge, and floor.

9.1.3 Wet a non-linting towel with the appropriate cleaner, and wipe from back to front and top to bottom.

9.1.4 Begin from the cleanest area and work outward.

9.1.5 The PEC must be cleaned with the appropriate daily cleaning agent each day it is used. Cleaning should take place before the first use of the shift, as needed throughout the day, and again at the end of the shift.

9.1.5.1 Always directly wet the wipe you will be using, do not spray any of the hood surfaces.

9.1.5.1.1. NOTE: When using Peridox RTU, always use a controlled pour top bottle; spray bottles should not be used.

9.1.5.2 Wipes must be sterile, with the package having been opened inside the ISO 5 environment that day. At the end of the day, the opened package can be removed from the hood to be used as a NON-STERILE wipe for items being transported into the ISO 5 environment.

9.1.5.3 Use sterile cleaning agents in the ISO 5 environment. These cleaners should be opened in the hood and left inside until disposed of.

9.1.5.4 Using a sterile non-shedding wipe, clean from top to bottom and back to front (from clean air out).

9.1.5.4.1. Primary movement (first priority) should be from back to front, moving from the HEPA filter towards the front of the hood (bringing debris away from first air, towards the front of the unit).

9.1.5.4.2. Secondary movement (less priority) should be from top to bottom.

9.1.6 Dispose of towels in the appropriate waste bin.

9.1.7 For floors, place a new, clean mop head on the floor and wet with appropriate cleaner, then attach mop.

9.1.7.1 Separate mops should be used for the ISO 7 and ISO 8 areas.

9.1.7.2 The ISO 7 area should be cleaned before the ISO 8 area.

9.1.7.3 Mop from back to front, in a figure 8 pattern, making sure to allow the edge of the mop to clean the bottom edge of the walls.

9.1.7.4 Start at the HEPA filter (cleanest area) and move outward (towards the door).

9.1.7.5 Move carts and stool as appropriate, making sure to move them some distance onto the clean floor so that the wheels contact the cleaning solution.

9.1.8 Dispose of mop heads in the appropriate waste bin.

9.1.9 Tacky mats should be changed daily or more often if needed.

9.2 **Monthly cleaning**

9.2.1 The monthly clean is a complete, detailed clean with Peridox RTU, and should include all surfaces not cleaned during normal daily cleaning.

9.2.2 Any bins must be emptied and cleaned out.

9.2.3 Carts must be cleaned top to bottom, including underneath, inside the supports, and wheels.

9.2.4 Wire racks must be cleaned, including vertical supports, top and bottom of shelves, and wheels.

9.2.5 Fridge should be cleaned inside and out, including inside drawers and undersides of shelves.

9.2.6 Ceiling and walls should be cleaned using an approved mop with a new head, starting with the ceiling and moving to walls, going top to bottom and starting at the HEPA filter and moving outward.

9.2.6.1 Separate mops and mop heads are to be used for ceiling/walls and floor.

Title: Cleaning and Maintenance of the <797> Compounding Area

Procedure No.: ST-3.040

Date Effective: 01/03/2011

9.2.7 When using Peridox RTU as the monthly cleaning agent, a full-face respirator should be used.

9.3 Any equipment from the cleaning process that is to be reused (e.g. mops) must be rinsed in clean water and sanitized using an appropriate cleaning agent.

9.3.1 This equipment should be stored in a clean location until it is needed again.

9.4 Document all cleaning on the appropriate monthly or daily form.

5.0 DEFINITIONS

5.1 **Hazardous Drug:** Any drug identified by at least one of the following six criteria:

Title: Hazardous Materials – Storage and Handling

Procedure No.: 1.060

Date Effective: 05/08/2020

5.1.1 Carcinogenicity

5.1.2 Teratogenicity or developmental toxicity

5.1.3 Reproductive toxicity in humans

5.1.4 Organ toxicity at low doses in humans or animals

5.1.5 Genotoxicity

5.1.6 New Drugs that mimic existing hazardous drugs in structure or toxicity.

5.2 **Hazardous Chemical:** Any substance that has the potential to cause harm. This includes, but is not limited to the following (Chemical Hazard Codes in parentheses):

5.2.1 Poisonous Substances (P)

5.2.2 Corrosive Substances (C)

5.2.3 Irritating Substances (I)

5.2.4 Harmful Substances (H)

5.2.5 Flammable Substances (F)

5.2.6 Oxidizing Substances (O)

5.2.7 Reproductive Hazards (R)

5.2.8 May be Habit Forming (M)

5.2.9 Hazardous Chemicals may also be labeled with the NFPA (National Fire Protection Association) Label, which is a multicolored label containing numbers that indicate Health Hazards, Flammability, Instability, and/or Special Hazards. (See attachments for further explanation)

5.3 For the purposes of Custom Rx Pharmacy & Wellness Concepts, the following are considered hazardous chemicals:

5.3.1 A chemical with any Chemical Hazard Code other than "Non-Hazardous" (N)

5.3.2 A chemical with a National Fire Protection Association (NFPA) label that contains any number other than "zero"

5.3.3 Any chemical referenced on the NIOSH list as potentially hazardous.

8.0 GENERAL INFORMATION

8.1 Chemical hazard information can be found on the SDS, Certificate of Analysis, or chemical label for each item. If unable to document, consult the NIOSH list. If unable to locate hazard codes or classification, treat the chemical as hazardous.

8.2 At the time of the most recent revision of this SOP, USP <800> is informational only. See attached USP <800> Status Log for updates.

8.3 Hazardous drugs include 3 types: antineoplastic, non-antineoplastic, and reproductive risk

8.4 An Assessment of Risk should be performed prior to compounding with any hazardous drug. This assessment should consider the following elements:

8.4.1 Type of Hazardous Drug (antineoplastic, non-antineoplastic, or reproductive risk)

8.4.2 Risk of exposure

8.4.3 Packaging

8.4.4 Manipulations required to compound

9.1.1 Employees are to fill out Attachment 3 (Informed Consent and Assumption of Risks) annually. A current initialed copy of Attachment 3 is to be kept in each employee file.

9.1.2 Hazardous drugs shall be handled with caution at all times. Appropriate chemotherapy gloves should be worn when handling hazardous drugs for any reason, including receiving, inventory, preparation, and disposal.

9.1.3 When checking in new chemicals, the product labeling should be inspected for Chemical Hazard Codes or NFPA labels. If determined to be hazardous, the chemical shall be stored with other hazardous chemicals.

Title: Hazardous Materials – Storage and Handling

Procedure No.: 1.060

Date Effective: 05/08/2020

9.1.4 Chemicals on the NIOSH list are considered hazardous.

9.1.5 If unable to determine the chemical hazard and the chemical is not on the NIOSH list, the MSDS or Certificate of Analysis should be consulted.

9.1.6 Other sources (chemical supply catalogs, merck index, etc.) may be consulted if necessary for determination.

9.1.7 If unable to determine a chemical hazard, the item shall be treated as hazardous.

9.1.8 Hazardous chemicals shall be labeled as distinct from non-hazardous chemicals.

9.1.9 Hazardous chemicals should be used for compounding only in the presence of trained personnel wearing the appropriate level of PPE/garb (see SOP 3.020 for details) and within a powder hood (at a minimum).

9.1.10 Hazardous chemicals should be compounded and handled within the appropriate PEC/SEC environment.

9.1.11 NIOSH/Hazardous chemicals are to be designated as such within the compounding software.

9.1.12 Hazardous and non-hazardous compounding are to use separate glassware, utensils, and equipment. Separate dishwashers are to be used to clean these items.

9.2 **Storage**

9.2.1 Hazardous materials are to be labeled distinctly and stored separately from non-hazardous materials in a negative pressure environment.

9.2.2 Glassware, utensils, and equipment utilized for hazardous and non-hazardous compounding are to be stored separately.

9.2.3 If it is unclear whether an item is hazardous (lack of a chemical hazard code, unclear labeling from manufacturer, etc), it shall be treated, labeled, and stored as hazardous unless documented otherwise.

Section 2: Sterile Compounding Questions (Use a separate piece of paper if additional space is needed.)

1. What risk level sterile compounding will your facility be performing (check all that apply)? ☑ Low ☑ Medium ☐ High
If you marked "High", you must also complete section 4.

2. Will you be performing sterile hazardous drug compounding? ☐ Yes ☑ No
If you marked "Yes", you must also complete section 3.

3. List the sterile compounded products that you will be compounding for Nevada patients or consumers:
Sterile to sterile transfer of treprostinil to Remunity cartridges for subcutaneous infusion.

4. Will you be utilizing beyond use dates in excess of USP-797? ☐ Yes ☑ No

5. If yes, describe the additional testing performed on your products to validate the extended BUD:

6. What laboratory performs this additional testing?

Name: _____

Address: _____

City: _____ State: _____ Zip: _____

Telephone: _____

7. What is your procedure for visual inspection of compounded sterile products?
Each medication draw will be visually inspected in the syringe prior to adding to the cartridge. Medication name, strength, lot, exp and volume drawn up will be checked against a compunding worksheet for every cartridge. Prepared cartridge / end product will be checked again to check label and product for accuracy prior to packing for delivery. (visual inspection of the final product for leaks, cracks and overall appearance.

8. How often do you perform glove fingertip and medial fill testing?

Upon hire (fingertip x3) and then annually.

9. What is your policy if an employee fails a glove fingertip or media-fill test?

Any microbial growth identified on sampling plates or within the media fill unit shall be identified down to the genus level by a certified laboratory. The Pharmacist in Charge or Compounding Supervisor will initiate the Root Cause Analysis (RCA) process as outlined in SPO-061213 for action level results occurring during a process validation.

10. Describe your initial and annual training program for all personnel performing sterile compounding:

Initial training includes didactic training, completion of an approved aseptic training program, completion of all applicable corporate learning system courses, review of USP chapter 797: Pharmaceutical Compounding and review of all SOP's regarding aseptic technique and compounding. On an annual basis, all compounders and supervising pharmacists will complete 2 hours of ACPE-approved continuing education on non-sterile compounding and 2 hours of ACPE-approved continuing education on sterile compounding. Additionally, all compounding staff must review all SOP's regarding Aspectic Technique and compounding and complete the attestation.

11. Describe the cleaning procedure for your primary and secondary engineering controls, including the frequency of cleaning and the names of cleaning, disinfectant, sporicidal, and/or deactivation and decontamination agents used:

Use non-linting wipes, mops must be disposable with non-shedding heads, use separate equipment for each compounding and prep area, use only approved detergent/disinfectant which are Opti-cide/Cavicide, Peridox RTU, Sterile 70% Isopropyl alcohol and bleach diluted to 1000ppm.
Cleaning schedules: Daily cleaning consists of full interior of ISO 5 work area, any equipment used for compounding, counters and easily cleanable work surfaces in the cleanroom and anteroom, collect trash in cleanroom and anteroom and mopping of the floors starting in the cleanroom outwards to the anteroom. Monthly cleaning consists of using a sporicidal agent to clean compounding room ceilings, walls, windows, and carts. clean walls from top to bottom. Clean anteroom ceilings, walls, shelving and storage bins. Clean permanent dedicated equipment in all rooms, totes or containers. Inspect wall chase return filter(s) in cleanroom and anteroom and inspect the LAFW prefilter.

12. Who performs the sterile compounding process at your facility?

Certified Compounding Technicians

13. Who is responsible and accountable for the sterile compounding process at your facility?

Pharmacist in Charge

14. If products are shipped/mailed, what shipping conditions are used to ensure product safety/efficacy?

All orders are shipped through a system that ensures the carrier and mode election is aligned with the needs of the specific order, which is based on the scheduled delivery timeline set with each patient.
In addition, for orders with additional temperature sensitive needs, another state of the art system ensures that specific packaging is used for each order depending upon NDC, weather, the calendar, time, etc

Section 3: Sterile Hazardous Compounding Questions (Complete this section ONLY if you be performing Sterile Hazardous Compounding.)

Sterile Compounding Inspection Form

The Maryland Board of Pharmacy developed this inspection form in coordination with NABP and other state boards of pharmacies in an attempt to apply a uniformed approach to inspection of sterile compounding pharmacies, wherever located, for compliance of USP 797 standards. Thus, this form includes requirements of other states, items related to best practices, and informational questions related to the Board's health oversight functions. These items are highlighted with an asterisk.

The information and comments obtained in the Nonsterile Compounding and Sterile Compounding Inspections are based on USP Chapters <795> and <797>.

An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

Final Comments:

Reviewed sterile inspection (virtual) with Mischelle Smoot, and Gina Cohenour. Requirements as listed above were observed through documented communication with the facility staff to ensure that this facility meets the minimum requirement by state law. Documents attached to this inspection were provided during virtual communication with Mischelle Smoot, and Gina Cohenour.

Pharmacy is not currently compounding due to COVID, only preparations for 1 patient have been prepared over the past year. Pharmacy sends medications in manufacturers vials to patients for preparation and administration. All patients have a nurse to assist with administration. Security includes card swipe, security alarm system, and cameras.

Cleanroom consists of a positive pressure anteroom and buffer room with 2 LAFWs. One hood is dedicated to compounding of biologics. ENV Services performed viable sampling and certification on 9/30/2021, next sampling scheduled 3/30/2022.

Recommend working with certifier to confirm environmental sampling is being performed correctly.

All documents can be sent to Jered Pasay by email at jered.pasay@maryland.gov or faxed to 410-384-4137. Unresolved matters will be brought to the Board for review.

Requirements may not apply if a barrier isolator is used to compound sterile preparations.

10. TRAINING OF STAFF, PATIENT, AND CAREGIVER COMAR 10.34.19.14

O Yes O No O N/A In non-hospital environments: Consultation shall be available to the patient and/or primary caregiver concerning proper use of compounded sterile preparations and related supplies furnished by the pharmacy. COMAR 10.34.19.14A

O Yes O No O N/A The supervising pharmacist shall ensure all personnel engaging in compounding sterile drug preparations shall have training and demonstrate on-going competence in the safe handling and compounding of sterile drug preparations including cytotoxic agents if applicable. COMAR 10.34.19.14B

Yes No N/A Pharmacies must establish and follow a written program of training performance evaluation designed to ensure that each person working in the designated area has the knowledge and skills necessary to perform their assigned tasks properly, COMAR 10.34.19.14E(1)

Yes No N/A The program of training and evaluation addresses the following:

Yes No N/A Aseptic technique

Yes No N/A Pharmaceutical calculations/terminology

Yes No N/A Sterile preparations compounding documentation

Yes No N/A Quality assurance procedures

Yes No N/A Aseptic preparation procedures

Yes No N/A Proper cleansing and garbing techniques

Yes No N/A General conduct in the controlled area

Yes No N/A Cleaning/sanitizing and maintaining equipment used in the controlled area

Yes No N/A Sterilization techniques if applicable See COMAR 10.34.19.14E(1)(a) – (i) for above

Yes No N/A Handling, storage, and delivery of sterile compounded preparations

Yes No N/A Equipment training COMAR 10.34.19.14E(1)(j)

Yes No N/A Competency assessment COMAR 10.34.19.14B

Yes No N/A Equipment and closure system selection COMAR 10.34.19.14E(1)(j)

Yes No N/A Each person assigned to the controlled area must successfully complete practical skills training in aseptic technique and aseptic area practices. COMAR 10.34.19.14E(2)

Yes No N/A Evaluations must include written testing and a written protocol of periodic routine performance checks involving adherence to aseptic area policies and procedures. COMAR 10.34.19.14E(3)

Yes No N/A Each person's proficiency and continuing training needs must be reassessed every 12 months (every 6 months for high-risk compounding). COMAR 10.34.19.14E(1)(a)

Yes No N/A Records of training and demonstrated competence shall be available for each individual and shall be retained for three (3) years beyond the period of employment. 5 years for employees. COMAR 10.34.19.14C

Comments:

11. DISPOSAL OF WASTE MATERIAL

Yes No N/A Pharmacies compounding sterile preparations shall have written policies and procedures for disposal of infectious materials and/or materials containing cytotoxic residue or hazardous waste. COMAR 10.34.19.12C(18)

Yes No N/A Procedures must include cleanup of spills and shall be in conformance with local health jurisdictions. COMAR 10.34.19.12C(4)

Comments:

12. QUALITY ASSURANCE AND PROCESS VERIFICATION COMAR 10.34.19.15

Yes No N/A Each pharmacy shall have a documented, ongoing quality assurance program that monitors personnel performance, equipment and facilities. COMAR 10.34.19.12C; COMAR 10.34.19.15

Yes No N/A The Quality Assurance Program shall include documentation of monitoring to assure successful:

Yes No N/A Cleaning and sanitization of the parenteral medication preparation area. COMAR 10.34.19.15E

Yes No N/A The storage of compounded parenteral preparations in the pharmacy and periodic documentation of refrigeration/freezer temperature. COMAR 10.34.19.15B

Yes No N/A Steps taken in the event of a drug recall. COMAR 10.34.19.12C(6)(h)

Yes No N/A Written justification including literature references of the chosen beyond use dates for compounded sterile preparations.

Yes No N/A Written policies and procedures for implementing the immediate use exemption for admixtures.

Yes No N/A Each individual involved in the preparation of compounded sterile preparations must successfully complete a verification process before being allowed to prepare sterile preparations. COMAR 10.34.19.14B

Yes No N/A The verification process shall be carried out using the same personnel, procedures, equipment, and materials as normal production, except that an appropriate microbiological growth medium is used in the compounding process to verify the sterility of the final preparation. COMAR 10.34.19.12C(11); COMAR 10.34.19.15C

Yes No N/A Completed media samples must be incubated according to currently accepted standards. COMAR 10.34.19.15C

Yes No N/A If microbial growth is detected, then the sterile preparation process must be evaluated, corrective action taken, and the verification process repeated.

Yes No N/A Personnel competency must be re-verified at least every 12 months (every 6 months for highrisk), whenever the quality assurance program yields an unacceptable result, or whenever improper aseptic technique is observed.

Yes No N/A The verification and re-verification process must be documented. COMAR 10.34.19.07B(3)

Yes No N/A Other personnel monitoring requirements as required by current standards must be performed, such as fingertip touch testing.

Yes No N/A There must be current and appropriate reference materials regarding the compounding of sterile preparations located in or immediately available to the pharmacy. COMAR 10.34.19.16

Yes No N/A Written documentation that the end product has been tested on a periodic sampling basis for microbial contamination and steps taken in the event that testing for contamination proves positive, if applicable. COMAR 10.34.19.15C

Section 2: Sterile Compounding Questions (Use a separate piece of paper if additional space is needed.)

1. What risk level sterile compounding will your facility be performing (check all that apply)? ■ Low ■ Medium ■ High
If you marked "High", you must also complete section 4.

2. Will you be performing sterile hazardous drug compounding? ■ Yes ☐ No
If you marked "Yes", you must also complete section 3.

3. List the sterile compounded products that you will be compounding for Nevada patients or consumers:
Leuprolide
Progesterone Inj

4. Will you be utilizing beyond use dates in excess of USP-797? ■ Yes ☐ No

5. If yes, describe the additional testing performed on your products to validate the extended BUD:
We perform the following tests:
* USP 85
* USP 71
* HPLC Chemistry

6. What laboratory performs this additional testing?
Name: Nelson Labs
Address: 122 Fairfield Rd
City: Fairfield State: NJ Zip: 07004
Telephone: 973-227-6882

7. What is your procedure for visual inspection of compounded sterile products?
Inspected against black and white backgrouds

8. How often do you perform glove fingertip and medial fill testing?
Glove fingertip is performed once a week.
Media fill is performed every 6 months.

9. What is your policy if an employee fails a glove fingertip or media-fill test?

Employees exceeding zero CFUs for gloved fingertip/thumb sampling shall be removed from compounding and retrained, observed, and retested. The employee may return to compounding upon passing with zero CFUs for gloved fingertip/thumb sampling.

10. Describe your initial and annual training program for all personnel performing sterile compounding:
All pharmacists and technicians are required to pass the following: didactic coursework; practical skills assessments through competency evaluation; media-fill testing and direct observation by qualified staff, both initially and on an ongoing basis.
IV Ongoing competency evaluation and media-fill testing must, at a minimum, be completed annually for employees working in pharmacies performing low/medium risk level compounding and semiannually for pharmacies performing high risk level compounding.V Personnel who fail written or media-fill tests, will be immediately reinstructed and reevaluated by
expert compounding personnel to ensure correction to all aseptic processes as well as demonstrate the ability to pass repeated written and/or media-fill tests.
VI Failure of follow up written exams requires the re-testing and passing of such tests

11. Describe the cleaning procedure for your primary and secondary engineering controls, including the frequency of cleaning and the names of cleaning, disinfectant, sporicidal, and/or deactivation and decontamination agents used:
Perform Cleaning and Maintenance in the following order: 1 Clean/Sanitize the inside surfaces of ISO Class 5 PECs per applicable policy. 2 Discard all trash. 3 Clean/Sanitize the Ante Storage Units a All storage bins must have contents removed; bins cleaned inside and out, allowed to dry and contents replaced. b All surfaces in room including doors, door handles, pass throughs, permanent shelving, etc. 4 Clean/Sanitize the Waste Receptacle(s) 5 Clean/Sanitize Counters and easily cleanable work surfaces in the clean room/buffer area (stool tops, metro cart shelves, etc. (including underside, legs and feet/wheels)). 6 Wipe down equipment 7 Floors will be moped with PeridoxRTU and left to for 3 minutes followed by 70% Sterile Alcohol. 8 Mop floors in the buffer area/clean room from farthest point away from the door progressing toward the door to the ante-area while moving carts and shelving. 9 Counters sink and easily cleanable work surfaces in the ante-area as long as those areas are on the " clean side " of the line of demarcation. 10 Counters and easily cleanable work surfaces in the ante-area/room beyond the line of demarcation (" dirty side "). 11 Mop floors in the ante-area/room from the clean room/buffer area entrance to the exit door. 12 Perform any required daily activities related to cleaning the general preparation area as required

12. Who performs the sterile compounding process at your facility?
Gennady Levin, RPh

13. Who is responsible and accountable for the sterile compounding process at your facility?
Gennady Levin

14. If products are shipped/mailed, what shipping conditions are used to ensure product safety/efficacy?
See attached

Section 3: Sterile Hazardous Compounding Questions (Complete this section ONLY if you be performing Sterile Hazardous Compounding.)		
1. What type of primary engineering controls will you be using in your facility? Biological Safety Cabinet (BSC)		
2. Is your BSC or CACI vented 100% to the outside?	☑ Yes	☐ No
3. Do you have a negative pressure buffer room at your facility?	☑ Yes	☐ No
4. Will you be compounding with antineoplastic HDs or HD API?	☑ Yes	☐ No
5. If yes, are the drugs stored in an externally ventilated, negative pressure room?	☑ Yes	☐ No
6. Will you be utilizing a closed system transfer device?	☑ Yes	☐ No
7. If yes, list the name of the device: Onguard		
8. What information is provided to the patient or consumer on the proper handling and disposal of hazardous drugs products/containers? See attached		
9. Describe your initial process for training new employees prior to compounding sterile hazardous drugs? Any personnel who may have contact with a hazardous drug preparation(s) shall complete a formal written training program before working with the preparations. The program shall include at least the following components. A Potential and known risks of the drug preparations B How to handle the drug preparations C How to clean up a hazardous drug spill using hazardous drug spill kits. This includes in the pharmacy, in the delivery vehicle, and in the patient ' s home. D How to use MSDS files E How to interpret warning codes on the labels of hazardous drug preparations F How to store and transport hazardous drug preparations G Proper compounding technique and equipment use for hazardous drug preparations H Proper garb procedures I How to use the eyewash station and safety shower J Proper use of hazardous drug waste containers K Proper labeling of hazardous drug preparations L Proper documentation of the preparation of hazardous drug preparations		

Section 4: Sterile High Risk Compounding Questions (Complete this section ONLY if you will be performing High Risk Compounding.)

1. List the specific high risk sterile products that your facility compounds:
Progesterone in olive oil

2. What sterilization methods are utilized at your facility?
Convection Oven

3. Does your facility utilize biological indicators? ■ Yes ☐ No

4. If yes, describe how they are utilized:
Placed inside the oven during sterilization process

14. Shipping

Kings maintains processes for selecting appropriate packaging for specific drugs, based on specific medication temperature requirements, light sensitivity of medication, fragility of product, size of product, and manufacturer guidelines.

Medications are packaged to maintain the appropriate temperatures throughout the delivery process; all packages are stable for 24 hours. Refrigerated products are maintained between 2-8°C, (36-46°F) and room temperature products are maintained between 20°C to 25°C (68-77°F). Kings conducts initial and ongoing qualification testing for new packaging products/processes and when products or shipping process are modified, to demonstrate the ability to maintain appropriate temperature ranges and ensure product stability/efficacy. Qualification testing is based on different geographic areas served and different temperature profiles.

8. Hazardous products

Kings Pharmacy provides all patients with education and counseling related to proper handling, storage, and disposal of medications and ancillary supplies, including hazardous drug products/containers. The following information is provided to patients/consumers who receive hazardous products:

Handling:

- Wash hands before and after handling hazardous products

- Use disposable gloves, and examine them to ensure they are not torn or punctured.

- Use disposable medicine cups when handling hazardous pills.

- If using sharps or needles, do not recap the used needle, or remove it from the syringe.

- If you are pregnant or trying to conceive, do not handle any hazardous drugs/products.

Disposal:

- Throw away any protective equipment (e.g. disposable gloves), disposable medicine cups, oral syringes, or bottles in a two-ply heavy-duty trash bag. Tie or seal the plastic bag and place it in your household trash bag for disposal. Be sure to keep this trash out of the reach of pets and children.

- All sharps or needles must be thrown away in a safe 'sharps container.' If you do not have one, use a container made of heavy-duty plastic (e.g. laundry detergent bottle), and close the cap tightly. Containers more than half full should be disposed of at a sharps collection site.

INSPECTION REPORT

Pharmacists on call 24 hours

According to documents provided by PIC:
No physical layout changes to the sterile compounding facility in the past 12 months
Changes to the sterile compounding equipment in the past 12 months: removal of Exacta-mix 2400 compounder for TPNs
No changes in types of sterile products compounded in the past 12 months
No adverse events related to pharmacy's CSPs from the past 12 months
No recalls issued for CSPs in the past 12 months
No FDA, DEA, or accreditation inspections in past 12 months
No changes to list of sterile medications compounded in the past 12 months
No pharmacy law waivers in use
Wholesaler: McKesson
Waste: Stericycle

Compounding Area:
Non-sterile compounding room containing refrigerators and incubator leading into ISO 7 anteroom containing sink and garbing supplies leading into two rooms:

- Positive pressure ISO 7 buffer room containing two ISO 5 Nuaire LAFWs
- Negative pressure ISO 7 buffer room containing two externally vented ISO 5 Germfree BSCs

Certification: performed in all ISO areas by RC Testing Service on 12/14/2021 under operational/dynamic conditions:

- Viable and non-viable air sampling performed (acceptable growth in all three rooms)
  - 1 CFU in IV room
  - 3 CFUs in anteroom
  - 6 CFUs in chemo room
- Surface sampling performed – in-house weekly surface sampling of ISO 5 areas
- Air changes per hour criteria met
- HEPA filters leak test passed
- Video of smoke studies viewed onsite

Items Reviewed:

- Compounding self-assessment
- Master formula, compounding log, label example for leuprolide 4mg/0.8ml
- Patient centered labels: route, rate, BUD, compounded by pharmacy verbiage
- References materials include: Lexicomp, PCCA, Medisca
- Room, refrigerator, incubator temperature logs- paper logs (Nov/Dec 2021)
- Humidity logs – paper logs (Nov/Dec 2021)
- Differential pressure logs- paper logs (Nov/Dec 2021)
- No automated compounding devices
- Cleaning logs, rooms and hoods - daily, weekly, monthly (Nov/Dec 2021)
- In house surface sampling (Oct/Nov/Dec 2021)

INSPECTION REPORT

• QA: End-Product Testing: performed by Nelson Labs on gentamicin 1.6mg/ml solution in 10ml vial, compounded on 5/20/2021 (potency) and 5/26/2021 (sterility)

Items Observed:

- License posted
- Visual inspection of compounding areas and hoods
  - Did not enter past anteroom, able to see through windows
  - Only HD room in use for sterile compounding
  - Non-HD room maintained but not being used
  - Only RPH compounding
- Discussed staff garbing and gowning/handwashing (no compounding occurring)
- Drug storage (HD stored separate from non -HD)
- Pressure differentials between rooms
- Room/refrigerator/incubator temperatures
- Hot/cold running water
- Eye wash area
- Cleaning supplies: Peridox RTU, sIPA
- **Hazardous Compounding**:
  - No chemo
  - Spill kit
  - Exhausted IV hood in negative pressure buffer room
  - PPE
  - Hazardous auxiliary labels/bags

Policies and Procedures Reviewed:

- Annual review of Policies & Procedures by PIC, proof of completion
- Staff notification of any changes in processes or to the policy and procedure manual
- Hand hygiene and garbing
- Facility & Equipment cleaning & sanitizing
- Equipment maintenance, storage, calibration, cleaning and disinfection
- Plan for drug recall
- End-Product testing- sterility, potency at least annually and action plan if a compounded product is outside minimum standards
- Sterilization and Depyrogenation
- Beyond Use Dating
- Storage of compounded preparations
- Action for responding when drug storage temperatures are out of range
- Compounding, filling and labeling of sterile drug preparations
- Viable air, surface sampling, and gloved fingertip- action to be taken when CFUs have been exceeded
- Action level for CFUs detected during viable surface sampling, gloved fingertip, and viable air sampling

INSPECTION REPORT

- Hazardous drug spill
- Staff training

Training: Reviewed for both RPH Dmitry Vagman and TCH Jude Prescott (no longer working)

- Gloved fingertip sampling
- Media fill
- Aseptic technique/compounding competencies
- Didactic and math skills assessment
- Hazardous drug training

Discussion:

- Recommend using the latest version of the self-assessments for best practice to maintain compliance with current California pharmacy laws.
- Recommend adding cleaning agents and dwell times to cleaning logs. Best practice for policy compliance.
- Master formula for leuprolide trigger 0.8ml in 3ml syringe lacked required elements per CCR 1735.2(e) when initially emailed in response to request for documents. BUD ("estimated to be 14 days"), rationale or reference for determination of BUD, and quality reviews required at each step of preparation were lacking. PIC educated and the master formula was updated during the inspection process.
- Compounding log for leuprolide trigger 0.8ml in 3ml syringe lacked documentation of quality reviews as required per CCR 1735.3(a)(2)(J) when initially emailed in response to request for documents. PIC educated and the compounding log was updated during the inspection process.

S115. Does the ante-area contain a hands-free sink with hot and cold running water?	*Satisfoctory*
S102. Does the buffer area provide at least ISO Class 7 air quality under dynamic conditions?	*Satisfactory*
S106. Is the buffer area free from sources of water (e.g., sink, floor drains)?	*Satisfactory*
S108. Is there hands-free access to the buffer area?	*Satisfactary*
S113. Are floors, walls, ceilings & fixtures smooth, impervious and free from cracks & crevices?	*Satisfactory*
S112. Does the floor covering enable regular disinfection?	*Satisfactory*
S118. Are supplies stored above the floor to permit adequate floor cleaning?	*Satisfactory*
S127. Does the clean room have a pressure gauge or velocity meter to monitor pressure differential between buffer area and ante-area and between the ante-area and the general environment? Is the pressure differential at least 0.02" wc?	*Sotisfactory*
S116. Are temperature and humidity monitored, documented and within the required range?	*Satisfactory*

291.133(d)(6)(A)(ii).

Environment. Compounding facilities shall be physically designed and environmentally controlled to minimize airborne contamination from contacting critical sites. Low and Medium Risk Preparations. A pharmacy that prepares low- and medium-risk preparations shall have a clean room for the compounding of sterile preparations that is constructed to minimize the opportunities for particulate and microbial contamination. The clean room shall:

be maintained at a temperature of 20 degrees Celsius or cooler and at a humidity below 60%

S116. Are temperature and humidity monitored, documented and within the required range? *(continued)* — *Satisfactory*

Comment

Advised to maintain temperature at 60 degrees F or cooler and and humidity below 60%.

S167. Is there a thermometer available for the cleanroom and refrigerator(s)? — *Satisfactory*

Primary Engineering Control (PECs) Device

S126. Is the laminar air flow hood located in a buffer area that has a minimum differential positive pressure of 0.02" wc? — *Satisfactory*

S121. Is the PEC able to maintain at least ISO Class 5 conditions while compounding sterile preparations? — *Satisfactory*

S246. Are hazardous drugs prepared in a Class II/III vertical flow BSC or CACI located in an ISO Class 7 area physically separated from other areas? — *Satisfactory*

S247. Does the area where the BSC or CACI is located have not less than 0.01" wc negative pressure adjacent to the positive pressure ISO Class 7 area? — *Satisfactory*

S105. Does the CAI or CACI provide unidirectional airflow? — *Not Applicable*

S104. If the CAI or CACI is used for high-risk sterile compounding, is it placed in an ISO Class 8 area? — *Not Applicable*

S122. If the CAI is not required to be placed in an ISO Class 7 area, does the pharmacy maintain documentation from the manufacturer? — *Not Applicable*

S124. Is the PEC certified by an independent contractor every 6 months and when relocated? — *Satisfactory*

S125. Are prefilters inspected periodically and replaced as needed? — *Satisfactory*

S128. Are differential pressures monitored and documented at least every work shift (at a minimum daily) or by a continuous recording device? — *Satisfactory*

Equipment and Supplies

S174. Does the pharmacy have disposable needles, syringes, and other required or applicable supplies? — *Satisfactory*

S177. Does the pharmacy have lint-free towels or wipes? — *Satisfactory*

S176. Does the pharmacy have handwashing agents with bactericidal action? — *Satisfactory*

S175. Does the pharmacy have disinfectant cleaning solutions and dedicated cleaning supplies? — *Satisfactory*

S179. Does the pharmacy have hazardous spill kits, if applicable? — *Satisfactory*

S171. Does the pharmacy have appropriate containers for needles and syringes? — *Satisfactory*

S170. Does the pharmacy have sterile isopropyl alcohol, sterile gloves, and waterless alcohol-based surgical hand scrub?	*Satisfactory*
S178. Does the pharmacy have appropriate filters and filtration equipment?	*Satisfactory*
S181. If an automated compounding device is used, does the pharmacy calibrate & verify the device for accuracy, and document at least daily?	*Satisfactory*
S172. Does the pharmacy have packaging or delivery containers to maintain proper storage conditions for sterile preparations?	*Satisfactory*

High Risk CSPs

S103. If high-risk CSPs are compounded, does the buffer area provide physical separation from other compounding areas?	*Satisfactory*
S231. Is sterility testing performed if CSPs are prepared in groups > 25, or	*Satisfactory*
S232. If MDVs are prepared for multiple patients or when exposed > 12 hours at 2-8 degrees C before sterilized, or	*Satisfactory*
S233. If exposed > 6 hours at warmer than 8 degrees C before sterilized?	*Satisfactory*
S237. Are all non-sterile measuring, mixing, and purifying devices rinsed thoroughly with pyrogen-free or depyrogenated sterile water, and then thoroughly drained or dried immediately before use for high-risk sterile compounding?	*Satisfactory*
S238. Are all high-risk sterile solutions subjected to terminal sterilization prefiltered using no larger than a 1.2-micron filter to remove particulate matter? Is sterilization by filtration performed with a sterile 0.2 – 0.22 micrometer pore size filter within an ISO Class 5 environment or better?	*Satisfactory*
S165. Are filter integrity tests being performed and documented (e.g., bubble point test)?	*Satisfactory*
S239. Are pre-sterilization procedures (weighing and mixing) completed in an ISO Class 8 environment or better?	*Satisfactory*

Sterile Library

S154. Does the pharmacy have a reference on injectable drugs?	*Satisfactory*
S155. Does the pharmacy have a specialty reference?	*Satisfactory*
S156. Does the pharmacy have all of the required (USP chapters 71, 85, 795, 797, 1163) and applicable USP chapters?	*Satisfactory*

Hazardous CSPs

S242. Do personnel wear protective apparel at all times when hazardous drugs are handled?	*Not Applicable*
S243. Do personnel use appropriate safety and containment techniques when preparing hazardous CSPs?	*Not Applicable*
S244. Do personnel dispose of hazardous waste in compliance with local, state, and federal regulations?	*Not Applicable*

S245. Do personnel affix a proper label, including proper precautions inside and outside of the packaging?	*Not Applicable*
S248. Does the pharmacy have a pressure indicator that can be readily monitored for correct room pressurization?	*Not Applicable*
S249. Does the pharmacy meet the requirements for low volume preparation of hazardous drugs by using a device that provides two-tiers of containment (e.g., closed-system vial transfer device within a BSC)?	*Not Applicable*
S250. Are hazardous drugs stored separately from other inventory in a manner to prevent contamination and personnel exposure?	*Not Applicable*
Does the pharmacy have a plan to comply with USP <800> by the implementation date?	*Not Applicable*
Are hazardous drugs stored separately in compliance with USP <800> (negative pressure at least -0.01" wc to adjacent areas and with at least 12 ACPH)?	*Not Applicable*
Is hazardous drug waste quarantined in a designated area?	*Not Applicable*
Are Safety Data Sheets (SDS) [formerly known as Material Safety Data Sheets (MSDS)] available to personnel for drugs and chemicals used in the pharmacy (including those for compounding, if applicable)?	*Not Applicable*

Personnel Cleansing, Garbing, Hand Hygiene

S202. Does hand sanitizing and gowning occur in the ante-area (outside of the buffer area)?	*Satisfactory*
S180. Do compounding personnel don clean non-shedding gowns with sleeves that fit snugly around the wrists and enclose at the neck? Is the order of garbing appropriate (dirtiest to cleanest)?	*Satisfactory*
S194. Before entering the buffer area, do compounding personnel remove cosmetics?	*Satisfactory*
S195. Before entering the buffer area, do compounding personnel remove all hand, wrist, and other body jewelry/piercings?	*Satisfactory*
S196. Are natural nails kept neat and trim and no wearing of artificial nails or extenders?	*Satisfactory*
S200. Do compounding personnel remove debris from underneath fingernails using a nail cleaner under running warm water?	*Satisfactory*
S192. Are personnel with an apparent illness or open lesions compounding sterile preparations?	*Satisfactory*
S241. When compounding personnel temporarily exit the ISO Class 7 environment, are re-donning procedures properly followed?	*Satisfactory*
S201. Do compounding personnel engage in proper hand hygiene?	*Satisfactory*
S203. Do compounding personnel completely dry hands and forearms using lint-free disposable towels or hand dryer?	*Satisfactory*
S204. Is antiseptic hand cleansing performed using waterless alcohol-based surgical scrub once inside the buffer area and prior to donning sterile gloves?	*Satisfactory*
S206. Is sterile isopropyl alcohol applied to gloves throughout the day and when non-sterile surfaces are touched?	*Satisfactory*

Cleaning/Disinfection Procedures

S182. Does the pharmacy have written procedures on the cleaning and disinfecting of the direct and contiguous compounding areas (e.g., beginning of shift, every 30 minutes, before each batch, spills)?	*Satisfactory*
S230. Is cleaning performed by trained personnel using approved agents (described in written SOPs)?	*Satisfactory*
S228. Are supplies & equipment that are removed from shipping cartons wiped with a disinfecting agent (e.g., sterile IPA)?	*Satisfactory*
S226. Are work surfaces and floors in the ante-area and buffer area cleaned and disinfected daily with dedicated supplies?	*Satisfactory*
S227. Are walls, ceilings and shelving in the ante-area and buffer area cleaned and disinfected at least monthly?	*Satisfactory*
S229. Does the pharmacy maintain documentation of cleaning procedures (i.e., date/time of cleaning, type of cleaning, name of individual who performed the cleaning)?	*Satisfactory*

Environmental Sampling

S270. Is surface sampling conducted in all ISO classified areas on a periodic basis?	*Satisfactory*
S272. Is viable air sampling performed?	*Satisfactory*
S273. Is viable air sampling documented by properly trained individuals for all risk levels every 6 months?	*Satisfactory*
S271. Are environmental sampling results evaluated and addressed (i.e., action levels followed)?	*Satisfactory*

Records of CSPs

S252. Does the pharmacy maintain records relating to CSPs for a minimum of 2 years?	*Satisfactory*
S253. Do compounding records include the date and time of preparation of a CSP?	*Satisfactory*
S254. Do compounding records include the complete formula of a CSP?	*Satisfactory*
S257. Do compounding records include the quantities of materials used in a CSP?	*Satisfactory*
S255. Do compounding records include the signature or initials of who prepared a CSP?	*Satisfactory*
S256. Do compounding records include the signature or initials of who conducted the final check of a CSP?	*Satisfactory*
S258. Do compounding records include the container used and the number of units prepared for a CSP?	*Satisfactory*
S259. Do compounding records include the criteria used to determine the beyond-use date of a CSP?	*Satisfactory*
S260. Do compounding records include the documentation of performance of quality control procedures?	*Satisfactory*

S261. Are master worksheets and preparation worksheets for batch compounding complete?	*Satisfactory*
S262. Are master worksheets developed and approved by a pharmacist?	*Satisfactory*

General Operational Requirements

S166. Is a pharmacist available at all times (24/7)?	*Satisfactory*
S187. Are written SOPs developed and implemented for all significant procedures in the compounding area to include at a minimum: the facility, equipment, personnel, preparation evaluation, quality assurance, preparation recall, packaging, and storage of CSPs?	*Satisfactory*

Texas State Board of Pharmacy
"Red Flags" Checklist for Pharmacies
YOU MIGHT BE A PILL MILL IF...

Check all that apply:

	(1) Your pharmacy fills a discernable pattern of prescriptions for prescribers who write essentially the same prescriptions for numerous persons, indicating a lack of individual drug therapy
	(2) Your pharmacy operates with limited hours of operation or closes after a certain threshold of controlled substance prescriptions are dispensed, and has overall low prescription dispensing volume.
	(3) Prescriptions presented to the pharmacy are for controlled substances with popularity as street drugs, such as opiates, benzodiazepines, muscle relaxants, psychostimulants, and/or cough syrups, or any combination of these drugs.
	(4) The prescriptions for controlled substances contain nonspecific or no diagnoses.
	(5) The prescriptions are commonly for the highest strength of the drug and/or for large quantities.
	(6) Dangerous drugs or OTC products (such as multi-vitamins or laxatives) are added to the controlled substance prescriptions, maintaining relatively consistent 1:1 ratio of controlled substances to dangerous drugs and/or OTC products dispensed as prescriptions.
	(7) Prescriptions are authorized by the same prescriber with what appears to be different handwriting on the hardcopy prescription drug order forms.
	(8) Upon contact with the prescriber's office, you are unable to engage in comprehensive discussion with the actual prescriber, or he/she is unconcerned about your apprehensions regarding his/her prescribing practices or unwilling to provide additional information, such as treatment goals and/or prognosis with prescribed drug therapy.
	(9) You rely solely on the prescriber's representation, or on the representation of the individual answering the phone at the number on the prescription, that prescriptions are legitimate.
	(10) The prescriber's clinic is not registered as a pain management clinic by the Texas Medical Board, despite routinely receiving prescriptions from the prescriber foropiates, benzodiazepines, and/or muscle relaxants.
	(11) Drugs prescribed are inconsistent with the prescriber's area of practice.
	(12) The prescriber of the drugs is located a significant distance from your pharmacy.
	(13) The prescriber has been subject to disciplinary action by the licensing board, had his/her DEA registration removed, or been subject to criminal action.
	(14) The Texas PMP system indicates that persons are obtaining prescriptions for the same drugs from multiple prescribers or that persons are filling prescriptions for the same drugs at multiple pharmacies.
	(15) The person's address is a significant distance from your pharmacy and/or from the prescriber's office.
	(16) Multiple persons with the same address present prescriptions from the same prescriber.
	(17) Persons pay with cash or credit card more often than through insurance.
	(18) Persons presenting controlled substance prescriptions are doing so in such a manner that varies from seeking routine pharmacy services (e.g., willing to wait in long lines to receive drugs, persons arrive in the same vehicle with prescriptions from same prescriber, one person presents to pick up prescriptions for multiple others, persons refer to drugs by "street names" and/or comment on drug's color, persons seek early refills, persons travel from outside reasonable trade area of pharmacy).
	(19) Your pharmacy charges and persons are willing to pay more for controlled substances than they would at nearby pharmacies.
	(20) Your pharmacy routinely orders controlled substances from more than one drug supplier, or your pharmacy has been discontinued by a drug supplier related to controlled substance orders.
	(21) Sporadic and non-consistent dispensing volume (including zero dispensing) varies from day to day and week to week, and your pharmacy does not maintain operational hours each week on Monday through Friday.
	(22) Your pharmacy employs or contracts security personnel during operational hours to prevent problems.
	(23) Your pharmacy has been previously warned or disciplined by the Texas State Board of Pharmacy for inappropriate dispensing of controlled substances (i.e., corresponding responsibility).

If you checked any of the above items, you should review the laws and rules regarding corresponding responsibility and non-therapeutic dispensing, especially Board rule §291.29, in the law book or on our website: www.pharmacy.texas.gov (click on Texas Pharmacy Rules and Laws). Additional educational material is available at: http://www.pharmacy.texas.gov/Nontherapeutic.asp. Failure of pharmacies and pharmacists to detect patterns of inappropriate dispensing of prescription drugs is unprofessional practice and constitutes grounds for disciplinary action.

1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		✓
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		✓
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		✓
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)		✓
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		✓
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?	✓	
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✓
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✓
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✓
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✓

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

RE: Signed Consent Agreement

Dear Sir/Madam:

Attached is a copy of the signed consent agreement that was approved by the Board. Please contact the Board if you have any questions.

Sincerely,

General Counsel

BEFORE THE ARKANSAS STATE BOARD OF PHARMACY

IN THE MATTER OF
Paula Hooper
LICENSE NUMBER: PD12462 CASE NUMBER: 2021CE-026

CONSENT AGREEMENT

WHEREAS, Respondent Paula Hooper is licensed as a pharmacist and holds license number ; PD12462

WHEREAS, Board Regulation 02-06-0003 (b) required that Respondent complete thirty (30) hours of continuing education during 2018-2019, including twelve (12) live contact hours and twelve (12) ACPE hours;

WHEREAS, Respondent failed to acquire the number of continuing hours required by Board regulations;

WHEREAS, Respondent was short a total of 15 hours, which includes 12 general continuing education hours and 3 live continuing education hours, and is required to make up twice the hours missed per category;

WHEREAS, Respondent may be charged with violations of Board Regulation 02-06-0003 (b);

WHEREAS, Respondent makes no admission of guilt but wishes to resolve these charges informally; Respondent and the Board therefore agree that this Agreement shall not constitute disciplinary action, but rather an informal resolution of these charges. Respondent expressly waives his/her right to an administrative hearing and consents to the terms incorporated into this Agreement. Respondent further consents to the *ex parte* presentation of this Agreement to the Board and agrees that, if the Agreement is not accepted by the Board, the presentation and consideration of this Consent Agreement by the Board shall not constitute a basis for disqualification of the Board or any of its members from further participation in this matter, including a formal hearing; and

WHEREAS, Respondent acknowledges that this Consent Agreement is not effective until its acceptance by the Board, that the Respondent has had the opportunity to consult with legal counsel of his/her own choosing concerning the advisability, meaning and effect of this Consent Agreement, that the Board shall retain jurisdiction to enforce the provisions of this Consent Agreement and that failure to comply with the terms and conditions of this agreement shall be grounds for further disciplinary action in the form of a civil penalty and/or suspension or revocation of Respondent's license, registration, or permit.

THEREFORE, Respondent consents to the following terms in full resolution of this complaint:

1. Respondent willingly agrees and stipulates that they shall successfully complete and deliver documentation to the Board of 30 hours of continuing pharmacy education, of which shall include twice the number of live continuing education hours, (6 hours)

and twice the number of general continuing education hours due (24 hours), due on or before June 1st, 2021; said hours of continuing education shall be in addition to those hours from 2020-2021 that Respondent is required by Board Regulation 02-06-0003 (c) to acquire for renewal of Respondent's pharmacist license for 2022-2023.

2. Respondent shall submit required CE and pay a monetary penalty of $1500.00 to the Board on or before June 1st, 2021.

EXECUTED this 23 day of April, 2021

Sterile Compounding Questionnaire

Rev (08/02/2022)

This application cannot be returned by fax or email.
We must have an original signature to process.

Approval of this completed questionnaire is required for an existing pharmacy, new pharmacy and/or out-sourcing facility applicant who wish to engage in preparing, compounding, dispensing, and furnishing sterile compounded products to Nevada patients or consumers.

Please provide a thorough response to the questions below and provide any necessary supporting documents.
-For a new pharmacy or out-sourcing facility applicant, submit this completed form with your application.
-For an existing pharmacy, send the completed form to the address indicated above.

Telephone of Person with direct knowledge of compounding procedures: 832-562-3993

Section 2: Sterile Compounding Questions (Use a separate piece of paper if additional space is needed.)

1. What risk level sterile compounding will your facility be performing (check all that apply)? ☒ Low ☒ Medium ☒ High
If you marked "High", you must also complete section 4.

2. Will you be performing sterile hazardous drug compounding? ☐ Yes ☒ No
If you marked "Yes", you must also complete section 3.

3. List the sterile compounded products that you will be compounding for Nevada patients or consumers:
n/a

4. Will you be utilizing beyond use dates in excess of USP-797? ☒ Yes ☐ No

5. If yes, describe the additional testing performed on your products to validate the extended BUD:
Please see attached, SOP 9.050 Title: Beyond-Use Dating (BUD) of Sterile Compounded Preparations.

6. What laboratory performs this additional testing?
Name: Eagle Analytical
Address: 11111 S. Wilcrest Dr, Suite S1000
City: Houston State: TX Zip: 77099
Telephone: 800-745-8916

7. What is your procedure for visual inspection of compounded sterile products?
The end product is visually inspected and verified by the pharmacist for container leaks, integrity, solution cloudiness or phase separation, appropriate color, and appropriate volume.

8. How often do you perform glove fingertip and medial fill testing?

Gloved Fingertip sampling and media fill testing occurs during initial competency evaluation after garbing, and every 6 months.

9. What is your policy if an employee fails a glove fingertip or media-fill test?

All failures must have a formal investigation completed. See attached, SOP 205.5 Title Invest & Remed in Event Sampling Exceeds Alert of Act

10. Describe your initial and annual training program for all personnel performing sterile compounding:

Initial training for all personnel performing sterile compounding must complete the procedures described in SOP 2.010 Title Employee Training, SOP 2.020 Compounding Personnel Orientation Program

11. Describe the cleaning procedure for your primary and secondary engineering controls, including the frequency of cleaning and the names of cleaning, disinfectant, sporicidal, and/or deactivation and decontamination agents used:

Please see attached SOP 3.020 titled Cleaning and Maintenance of the Clean Room Facility for the details of the cleaning procedure for our primary and secondary engineering controls.

All hood surfaces are cleaned with sterile 70% Isopropyl Alcohol and non-shedding sterile wipes, then with TX 650 (RTU) Disinfectant from TexQ and non-shedding sterile wipes.

When cleaning the primary and secondary engineering controls, designated tasks are completed daily, weekly, and monthly. Sterile 70% isopropyl alcholol, TX 650 (RTU) disinfectant from TexQ, sterile sporicidal (Peridox RTU from Contec) non-shedding sterile wipes and cleaning supplies, used solely for the primary and secondary engineering controls, are used and stored separate from the cleaning supplies used at the rest of the pharmacy.

12. Who performs the sterile compounding process at your facility?

Pharmacists and pharmacy technicians who completed and passed the sterile compounding training program perform the sterile compounding process at our facility.

13. Who is responsible and accountable for the sterile compounding process at your facility?

The Pharmacist in Charge is responsible and accountable for the sterile compounding process at our facility.

14. If products are shipped/mailed, what shipping conditions are used to ensure product safety/efficacy?

Please see attached SOP titled, "Shipping / Delivery Out of State."

Section 3: Sterile Hazardous Compounding Questions (Complete this section ONLY if you be performing Sterile Hazardous Compounding.)		
1. What type of primary engineering controls will you be using in your facility? n/a		
2. Is your BSC or CACI vented 100% to the outside?	☐ Yes	☐ No
3. Do you have a negative pressure buffer room at your facility?	☐ Yes	☐ No
4. Will you be compounding with antineoplastic HDs or HD API?	☐ Yes	☐ No
5. If yes, are the drugs stored in an externally ventilated, negative pressure room?	☐ Yes	☐ No
6. Will you be utilizing a closed system transfer device?	☐ Yes	☐ No
7. If yes, list the name of the device:		
8. What information is provided to the patient or consumer on the proper handling and disposal of hazardous drugs products/containers?		
9. Describe your initial process for training new employees prior to compounding sterile hazardous drugs?		

Section 4: Sterile High Risk Compounding Questions (Complete this section ONLY if you will be performing High Risk Compounding.)

1. List the specific high risk sterile products that your facility compounds:

Ophthalmic products

2. What sterilization methods are utilized at your facility?

0.2 micron sterile filters
Steam sterilizer (autoclave)
Dry heat sterilization

3. Does your facility utilize biological indicators? ☒ Yes ☐ No

4. If yes, describe how they are utilized:

Biological indicators are used to assure the sterilization process.

I certify under penalty of perjury that the information contained in this form is accurate, true and complete in all material respects. 1.0 PURPOSE

1.1 The purpose of this procedure is to establish requirements for determining a beyond-use date (BUD) for sterile compounded preparations.

2.0 SCOPE

2.1 This procedure applies to all compounding personnel at Primera Professional Pharmacy

3.0 RESPONSIBILITY

3.1 The Pharmacist-in-charge shall supervise this procedure and document that all personnel responsible for compounding will comply with this procedure.

4.0 REFERENCES

4.1 USP Current Version <797> "Pharmaceutical Compounding – Sterile Preparations"

4.2 USP Current Version <1150> "Pharmaceutical Stability"

5.0 DEFINITIONS

5.1 BUD – Beyond-use date

6.0 FREQUENCY

6.1 This procedure shall be performed for each compounded preparation.

7.0 EQUIPMENT & SUPPLIES

7.1 Appropriate reference materials

8.0 GENERAL INFORMATION

8.1 All compounded preparations must have an appropriate BUD.

9.0 PROCEDURE

9.1 BUDs shall be assigned based on current drug stability information and sterility considerations.

9.2 Consideration shall be given to all aspects of the finished product including drug reservoir, concentration and storage conditions.

9.3 A reliable method for determining BUDs shall be established, including laboratory testing of product stability, pyrogenicity and chemical content when necessary.

9.3.1 **Physical stability** of the compounded preparation shall signify that the preparation has retained the original physical properties of the preparation, such as appearance, palatability, uniformity, dissolution and suspendability.

9.3.2 **Chemical stability** of the compounded preparation shall signify that each active ingredient has retained its chemical integrity and labeled potency within specified limits.

9.3.3 **Microbiological stability** of the compounded preparation shall signify that sterility or resistance to microbial growth has been retained according to the specified

requirements. Antimicrobial agents that are present shall retain their effectiveness within the specified limits.

9.3.4 Additional factors that affect the stability of the final preparation, and shall be considered, include pH, temperature, solvent, light, air, humidity, particle size, ionic strength, dielectric constant, polymorphism, crystallization, vaporization and absorption.

9.4 In the absence of stability information that is applicable to a specific drug and preparation, the following maximum BUDs are recommended for sterile compounded preparations packaged in tight, light-resistant containers and stored at controlled room temperature, refrigerator, or freezer when indicated:

9.4.1 Category 1 CSPs that may be prepared in an unclassified segregated compounding area, and does not require sterility testing.

9.4.2 Category 2 CSPs are dictated by the method of sterilization, whether or not a sterility test is performed, passed, and the temperature of the preparation.

9.4.1. For Category 1 CSPs, the BUDs are shown in Table 10 from USP <797>.

Table 10. BUDs for Category 1 CSPs

9.5 Applicable publications shall be referenced to obtain relevant stability, compatibility and degradation information regarding a drug or its congeners.

9.5.1 A compounding pharmacy reference library will be available for compounding laboratory personnel so they may access critical information in a timely manner.

9.5.2 Referenced publications shall be available for compounding personnel. The reference library may include, but not be limited to, the following publications:

Section Name: Facility and Personnel Monitoring	SOP Name: Investigation and Remediation in the Event Sampling Exceeds Alert or Action Levels
	Date of Initial: 08/02/21
SOP/Version #: 205.5	Last Revision/Review: 09/16/21

1.0 Purpose Statement

This SOP defines what an excursion is and establishes when and how action is taken to regain a microbial state of control. It outlines a logical set of information sought during initial and ongoing investigations of microbial excursions in environmental and personnel sampling. No document can provide all-encompassing guidance for specific investigation and remediation of new or ongoing excursions, but Matrix of Actions for First-Time Excursions; F-205.b and Matrix of Actions for Consecutive and Repeat Excursions; F-205.c provide actions to be considered in these instances. This SOP also provides the general guidance followed in any investigation as well as parameters that are included and the documentation of these actions.

2.0 Policy Statements

2.1 It is not alarming and is, in fact, expected that small numbers of CFUs (below designated action levels) will be found in ISO 7 and 8 environments and even 1 CFU in ISO 5 spaces.

2.2 The occurrence of consistent 0 CFU returns in viable air, surface, or gloved fingertip sampling prompts a high degree of suspicion that sampling procedures and activities are flawed.

2.3 USP 797 (2019) requires the identification of growth in viable air and surface samples when growth exceeds the action level (as specified for each type of sampling per USP 797).

2.4 An excursion is said to exist under the following conditions:

2.4.1 Action level: When the CFUs counted in any sample (air, surface, gloved fingertip) exceed the established action level for the type of sampling. Refer to specific SOPs on each type of sampling for action levels. All sections of Facility and Personnel Sampling Action Report; F-205.a must be completed.

2.4.2 Alert level: When the CFUs counted in any sample (air, surface, gloved fingertip) exceed the established alert level but are below the established action level for the type of sampling. Refer to specific SOPs on each type of sampling for alert levels. Facility and Personnel Sampling Action Report; F-205.a is used as a tool to evaluate factors that could be contributing to elevated microbial levels. The use of alert levels is not required by USP 797 but is a best practice recommendation.

2.4.3 Organism of concern: When the CFUs counted in any sample (air, surface, gloved fingertip) are *below* the established alert and action levels for the type of sampling, but an organism of concern is recovered. Organisms of concern are certain gram-positive spore-forming rods, certain gram-negative rods, coagulase-positive *Staphylococcus*, and some yeasts and molds. Facility and Personnel Sampling Action Report; F-205.a is used as a tool to evaluate factors that could be contributing to recovery of organisms that are not typically seen as part of the facility's microbial population or should be further investigated if they are being repeatedly recovered in the facility.

2.5 There are three types of excursions.

2.5.1 First excursion: The very first time a location has an EM excursion.

2.5.2 Consecutive excursion: When a location has back-to-back EM excursions, either organisms of concern or an exceeded action level.

2.5.3 Repeat excursion: When a location has an excursion again, either organisms of concern or an exceeded action level, but the excursions have not occurred consecutively.

2.6 Facility has established a contractual relationship with a properly licensed pharmaceutical microbiology laboratory that has been accredited to ISO 17025 and is registered with the FDA.

2.7 Plates are sent to the laboratory for identification of growth for the following reasons:

2.7.1 Anytime an established action level is exceeded for viable air and surface samples, the growth is identified as required by USP 797.

2.7.2 Consideration may be given to performing identifications when an established alert level in a specific location is exceeded more than once. Gathering additional information may be helpful in identifying the source of the microorganisms.

2.7.3 If sample counts are below the action and alert levels but an organism of concern is recovered, identification of the microorganism may be sought to provide additional information about an unexpected change in work practices or facility control.

4.0 Specific Work Practices and Procedure Descriptions

Section Name: Facility and Personnel Monitoring	SOP Name: Investigation and Remediation in the Event Sampling Exceeds Alert or Action Levels
SOP/Version #: 205.5	Last Revision/Review: 09/16/21

4.1 When an excursion is realized, the following forms are used: Facility and Personnel Sampling Action Report; F-205.a and Matrix of Actions for First-Time Excursions; F-205.b. For a consecutive or repeat excursion, use Matrix of Actions for Consecutive and Repeat Excursions; F-205.c.

4.1.1 If the number of CFUs recovered exceeds the action level, all sections of F-205.a are completed.

4.1.2 If the number of CFUs recovered exceeds the alert level but falls below the action level, F-205.a is used to document the evaluation that must occur.

4.1.2.1 Follow-up sampling is not required but may be considered during the first occasion that a sample location alert level is exceeded (but below the action level).

4.1.2.2 In the event an alert level is exceeded during two consecutive samplings for a given location, an investigation, remediation, and resampling are required.

4.1.3 If the number of CFUs recovered is below the alert level (if applicable) or below the action level but an organism of concern is recovered, F-205.a may be used to determine the possible source of the microorganism and identify any work practice changes.

4.2 F-205.a is used to guide the investigation and to document actions. By completing the first section of F-205.a, the appropriate information is collected, identifying the proper actions to be taken as described on F-205.b.

4.3 Take the actions as outlined on F-205.b based on whether the sample is a viable air, surface, or gloved fingertip sample and the ISO classification of the space.

4.4 Additional actions may be required beyond the actions specified in F-205.b if the first set of remedial actions does not reestablish a microbial state of control. Follow F-205.c.

4.5 Continue completing F-205.a as information becomes available.

4.6 The investigation described on F-205.a includes identification and documentation of any or all of the following:

4.6.1 Type of sample and conditions under which sampling occurred

4.6.2 Type of excursion

4.6.3 Verification that activities related to sampling were performed correctly

4.6.4 Microbial control actions taken since sampling and before receiving results

4.6.5 Evaluation of certification reports, work logs (pressure, cleaning, humidity, etc.), competencies

4.6.6 Review of the environmental sampling results, which is to include the following questions:

4.6.6.1 Was growth isolated to one location?

4.6.6.2 Was growth found in adjacent sites?

4.6.6.3 If so, was the organism the same in contiguous sites?

4.6.7 Evaluation of historical growth trends and determination of the frequency of the organism's recovery, which is to include the following questions:

4.6.7.1 Was the location positive for this growth in last 6 months?

4.6.7.2 Has the location been retested previously?

4.6.7.3 Has the employee had other positive findings?

4.6.7.4 If so, what were they?

4.6.8 Review of the microbiological results, which is to include the following questions:

4.6.8.1 Was the typical reservoir for the microbe or microbes identified?

4.6.8.2 What is the typical reservoir?

4.6.8.3 Was the excursion found close to a location that would be considered a typical reservoir?

4.7 All excursions require remediation, and the plan of remediation is documented on F-205.a.

4.7.1 It may take several follow-up actions and samples to identify, remediate, and bring the sample location back into a state of control.

4.7.2 Those initial and follow-up actions and their results are documented on the form.

4.7.3 The excursion and any follow-up action must be concluded, and the date that the remediation plan is closed must be documented and reviewed by the designated person(s).

4.8 Any additional aspects related to the excursion that are included in the investigation must be thoroughly documented, including dates of action, specific action taken, and the outcome of the actions.

5.0 Documentation Elements

5.1 When using Facility and Personnel Sampling Action Report; F-205.a, consider the following:

5.1.1 Any line items that are not required or used must be checked as not applicable or an explanation given.

5.1.2 Any action level requires a complete investigation, which is documented by completing Section 2 of the form; and a specific plan of remedial action must be developed, executed, and documented in Section 3 of the form.

5.1.3 Serial documentation of actions and outcomes must be documented on page 4 of the form.

5.2 Additional pages may be attached if needed, and the added pages must be clearly numbered.

5.3 The dates when the investigation and remediation are officially closed must be documented on the form and signed by the designated person(s).

Facility and Personnel Sampling Action Report

Section 1: Initial Investigation Actions Taken

Action began at: ☐ Interim read: _____ day or ☐ Final read

Type of environmental sample: ☐ **Viable air sampling (VAS)** ➡ ☐ Single sample or ☐ Multiple samples

Check all that apply: ☐ ISO 5 ☐ ISO 7 ☐ ISO 8 ☐ Non-ISO classified ☐ Negative space ☐ Positive space

Performed under which conditions: ☐ Static ☐ Dynamic

Describe specific location(s) from ESP:_____ Date sampled:_____

☐ **Surface sampling (SS)** ➡ ☐ Single sample or ☐ Multiple samples

Check all that apply: ☐ ISO 5 ☐ ISO 7 ☐ ISO 8 ☐ Non-ISO classified ☐ Negative space ☐ Positive space

Performed under which conditions: ☐ Static ☐ Dynamic

Describe unit(s) location based on ESP:_____ Date sampled:_____

Type of personnel sample: sampled ☐ randomly or ☐ during predetermined testing occurrence

☐ ***Initial* GFS** ➡ # CFU L hand: ____ R hand: ____ Date sampled: _____

☐ ***Ongoing* GFS** (during compounding) ➡ # CFU L hand: ____ R hand: ____ Date sampled: _____

☐ ***Surface sample*** (during compounding) ➡ # CFU L hand: ____ R hand: ____ Date sampled: _____

☐ ***Media-fill unit (MFU)*** ➡ # units made: _____ # units positive: _____ Date units prepared: _____

Type of excursion:

☐ **Below action level AND organism of concern** (see SOP-205)

☐ **Alert level exceeded:** If alert level is exceeded but the action level is not, then perform an evaluation of appropriate facility engineering controls, personnel, work practice changes, and environmental factors that could be causing this increase in personnel or environmental findings in an effort to regain microbial control. Document review, conclusions, and actions taken.

☐ **Action level exceeded:** Complete all sections of this form

Complete the following actions, and document additional information in the space provided below:

1. Date pharmacy manager notified:_____
2. Was there evidence that incubated samples/MFUs were exposed/leaking during incubation? ☐ Yes ☐ No

Send samples for microbial identification:

☐ N/A (if alert level triggered and decision made not to send for ID)

☐ Digital image taken of each sample/MFU at end of incubation if action level was exceeded. By:_____

☐ Name and contact info for laboratory performing ID:_____

☐ Completed documentation and prepared units in packaging per lab instruction. By:_____

☐ Transport to lab via: ☐ Hand delivered ☐ Third-party carrier:_____Tracking #:_____

Expected delivery:_____

Areas in red must be addressed in Section 3: Plan of Remediation

Primera

Microbiological results: ☐ N/A (if alert level and no ID performed) ☐ Results attached (number pages): _____)

Date results received:_____

What is the typical reservoir for the microbe or microbes identified?_____

Was the location of the excursion in close proximity to the location of the typical reservoir? ☐ Yes ☐ No

Has this organism(s) been found at this location previously? ☐ Yes ☐ No

Section 2: Additional Investigation Actions Taken

1. **Were there additional microbial control provisions that have occurred between when the sampling occurred and the microbial results were received?** ☐ Yes ☐ No

   If yes, describe those microbial control provisions:_____

2. **Was certification documentation of SEC/PEC associated with samples reviewed?** ☐ Yes ☐ No

   Did the review identify any discrepancies or issues that were previously unidentified? ☐ Yes ☐ No

   If yes, describe the discrepancies: _____

3. **Were documentation/logs of relevant work practices associated with the finding reviewed?** ☐ Yes ☐ No

   a. Based on review of documentations and staff interviews, was correct procedure followed?

☐ GFS ☐ Yes ☐ No	☐ MFU ☐ Yes ☐ No	☐ VAS ☐ Yes ☐ No	☐ SS ☐ Yes ☐ No

   b. Check all that apply, and dates checked:

   ☐ Cleaning logs; date: _____ ☐ ES logs; date: _____ ☐ Medi-fill logs; date: _____

   ☐ Pressure logs; date: _____ ☐ Temperature records; date: _____ ☐ Humidity records; date: _____

   ☐ Garbing competency; date: _____ ☐ Aseptic technique competency; date: _____

   ☐ Other: _____; date: _____

   c. Did the review identify any discrepancies or issues that were previously unidentified? ☐ Yes ☐ No

   If yes, describe the discrepancies: _____

4. **Was the area recleaned after receiving this microbiological identification?** ☐ N/A ☐ Yes ☐ No

   If yes, what agent(s) was the area treated with? _____

   If yes, when was the area recleaned (include date and time): _____

5. **Was the area taken out of service (compounding suspended)?** ☐ N/A ☐ Yes ☐ No

   If yes, explain what was done: _____

6. **Was the SEC/PEC checked or repaired by authorized personnel?** ☐ N/A ☐ Yes ☐ No

   If yes, what was the date and company, and attach documentation: _____and number pages _____

   If work done inside a PEC or SEC, was area triple cleaned per policy? ☐ N/A ☐ Yes ☐ No

7. **Were assigned BUDs shortened for any period of time?** ☐ N/A ☐ Yes ☐ No

   If yes, explain what was done: _____

Areas in red must be addressed in Section 3: Plan of Remediation

Primera

Additional Investigation Actions Taken (continued)

8. ***Environmental* findings only:** ☐ VAS ☐ SS (other than that taken during compounding)

   a. Was historical trend of sample location reviewed? ☐ Yes ☐ No

   b. Has this location(s) had other positive findings within the last 6 months? ☐ Yes ☐ No

   c. Are there multiple excursions found in the room? ☐ Yes ☐ No

   d. Was the area(s) retested? ☐ N/A ☐ Yes ☐ No

   e. If yes, date of retest: _____

   f. Microbiological results of retest: Date results received: _____ ☐ Number pages attached: _____

   g. Comparison of retest results to initial finding (check all that apply):

   ☐ Below alert level ☐ Below action level ☐ Exceeds alert level ☐ Exceeds action level

   Discussion of findings: _____

   _____

9. ***Personnel* findings only:** ☐ *Initial* GFS ☐ *Subsequent* GFS ☐ MFU ☐ SS (taken during compounding)

   a. Has this employee had other positive findings within the past 2 years? ☐ N/A ☐ Yes ☐ No

   b. If yes, explain: _____

   c. Employee removed from compounding (if subsequent GFS/SS during compounding) ☐ N/A ☐ Yes ☐ No

   d. Were personnel retested after unacceptable results? ☐ N/A ☐ Yes ☐ No

   e. If yes, date of retest: _____

   f. Microbiological results of retest: Date results received: _____ ☐ Number pages attached: _____

   g. Comparison of retest results to initial finding (check all that apply):

   ☐ Below alert level ☐ Below action level ☐ Exceeds alert level ☐ Exceeds action level

   Discussion of findings: _____

   _____

   h. Did personnel successfully complete each of the following (attach forms)?

   Competency assessment for Hand Hygiene and Garbing (F-410.a) ☐ N/A ☐ Yes ☐ No

   Competency assessment for Aseptic Technique (F-410.b) ☐ N/A ☐ Yes ☐ No

10. **Was any personnel retraining conducted?** ☐ N/A ☐ Yes ☐ No

    If yes, explain what was done; attach training logs and other information (total # of pages attached: _____)

    _____

11. **Based on the investigation, were work practices changed?** ☐ N/A ☐ Yes ☐ No

    If yes, which SOPs or forms were changed: _____

_____

_____ _____

Signature of person completing sections 1 and 2 Date sections completed in entirety

Section 3: Plan of Remediation

Document specific plan, actions taken, outcomes, and follow-up. Any area checked in red in Section 2 must be explained in detail. Each entry (if multiple entries) must be dated and signed by the person making the entry if the plan was not documented during one instance.

Section 4: Resampling and Results

Type of environmental resample:

☐ **Viable air sampling (VAS)** ➡ ☐ Single sample or ☐ Multiple samples

Performed under which conditions: ☐ Static ☐ Dynamic ☐ Static and dynamic for ISO 5

Describe specific location(s) from ESP: _____ Date sampled: _____

☐ **Surface sampling (SS)** ➡ ☐ Single sample or ☐ Multiple samples

Performed under which conditions: ☐ Static ☐ Dynamic ☐ Static and Dynamic for ISO 5

Describe specific location(s) from ESP: _____ Date sampled: _____

Type of personnel resample: sampled ☐ randomly or ☐ during predetermined testing occurrence

☐ ***Initial* GFS** ➡ # CFU L hand: _____ R hand: _____ Date sampled: _____

1.0 PURPOSE

1.1 This procedure defines the requirements for new employee orientation and provides a standard method for training.

2.0 SCOPE

2.1 This procedure applies to all employees training at Primera Compounding Pharmacy and includes, but is not limited to, compounding training, procedural training and professional development.

3.0 RESPONSIBILITY

3.1 It is the responsibility of the Pharmacist-in-charge to provide initial orientation training, ensure that each employee is properly trained and provide the time for employees to remain current with their training.

3.2 Training files shall be maintained by the Pharmacist-in-charge.

4.0 REFERENCES

4.1 SOP 1.010 "Policies and Procedures"

8.0 GENERAL INFORMATION

8.1 Documentation

8.1.1 If group training is conducted, details of the training session should be provided in the individual employee files. The original training record for training activities are filed in the training folder or binder, and copies of the training record are placed in the folders of each trainee on the list.

8.1.2 Job Qualification Records/Resumes are completed as documented evidence that the employee is qualified to perform his/her function.

TITLE: EMPLOYEE TRAINING	
SOP NUMBER: 2.010	VERSION NUMBER: 1.0
Date Effective:	

8.2 The Employee Training Record (Attachment 1) is completed and filed whenever an employee participates in any training activity.

8.3 Only qualified personnel may administer training.

9.0 PROCEDURE

9.1 Personnel will go through new employee orientation upon employment at Primera Professional Pharmacy (refer to SOP 2.020, "Compounding Personnel Orientation Program").

9.2 Designee will review the organizational chart, quality policy, work and lunch hours, employee benefits and company policies.

9.3 The Pharmacist-in-charge will review specific job performance objectives and job descriptions, give staff introductions and provide a building tour, workspace, keys, and any necessary supplies. The Pharmacist-in-charge will also discuss performance review and facilities issues and will review training requirements.

9.4 For specific task training, the employee will observe the test being performed (where applicable) and will then perform the test under direct supervision. Where appropriate, training checklists will be used to document the training and indicate that the employee is able to complete the tasks independently.

9.5 Additional training or re-training may be necessary for any one of the following reasons: employment development, new technology or equipment, changed position or position requirements or an employee does not meet the requirements of the current position.

9.5.1 The Pharmacist-in-charge is responsible for determining and/or pre-approving specific training needs of each employee on a periodic basis.

9.5.2 All additional training that is not considered continuing education training will be documented on the Employee Training Record (Attachment 1) whenever the employee participates in any of the following training activities:

9.5.2.1 Formal Coursework

9.5.2.2 Seminars

9.5.2.3 Workshops

9.5.2.4 Internal Primera Professional Pharmacy courses

9.5.3 A certificate from an outside training course or seminar may take the place of the Employee Training Record. If no certificate was presented, complete Attachment 1, reference the course material in the "Description of Training" section and retain a copy of the course for reference.

9.6 Employees must receive annual training on quality systems. It is the responsibility of the Pharmacist-in-charge to schedule, perform and document annual training.

9.6.1 New and updated procedure training is covered in the SOP 1.010, "Policies and Procedures."

9.7 Personnel training files shall be maintained by the Pharmacist-in-charge.

8.0 GENERAL INFORMATION

8.1 Cleaning Solutions

8.1.1 2% acidified bleach solution – to be prepared as needed (5 day expiration).

8.1.2 Sterile 70% IPA – for use in areas with equipment that may be damaged by the use of bleach. **All IPA designated for use in the clean room facility must be sterile.**

8.1.3 Nova-Clean or Spor-Klenz® – may be used at a dilution of 1:10 for daily cleaning or other equivalent disinfectant.

8.2 Cleaning effectiveness of the clean room is checked by periodic environmental surveys as per SOP 3.030 "Environmental Monitoring of the Clean Room Facility."

8.3 A bleach or undiluted Spor-Klenz® soak is recommended once a month in rooms where 70% IPA is used.

8.4 A minimum contact time of 10 minutes is recommended for maximum disinfection efficacy when using bleach.

8.5 Document the disinfectant in use on the Cleaning and Maintenance of the Clean Room Facility form (Attachment 1).

9.0 PROCEDURE

9.1 Personnel must remove all makeup and jewelry prior to entering the clean room facility.

9.2 Personnel must gown appropriately for the areas to be cleaned following the appropriate gowning procedure.

9.3 The necessary cleaning materials are dedicated solely to cleaning the clean room facility. These materials shall be stored in the ante room of the clean room facility and shall be kept separate from other cleaning materials.

9.4 Cleaning solutions shall be prepared as needed.

9.4.1 Do not combine disinfectants or use them in concentrations other than those outlined in the SOPs or manufacturers' recommendations.

9.5 Clean with tacky roller mop to remove any particulate material.

9.6 Cleaning shall be performed using a detergent followed by sanitization. A damp, non-shedding material shall be used for cleaning.

9.7 Except for sanitization of the LAFW, cleaning of the sterile compounding area is prohibited during compounding operations.

9.7.1 Ensure all compounding operations are completed and all equipment has been removed from the LAFW prior to sanitization.

9.7.2 The operator must clean and sanitize the exposed work surfaces (counters and walls) of the LAFW immediately before and after each work day and the counter between each batch preparation, every thirty minutes during continuous compounding periods and immediately should a spill occur.

9.8 The order of cleaning within the clean room facility is as follows:

9.8.1 LAFW (ISO 5)

9.8.2 Buffer room (ISO 7)

9.8.3 Anteroom (ISO 8)

9.8.4 Prep room (ISO 8)

9.9 Daily Requirements (when sterile compounding has occurred)

9.9.1 Temperature, humidity and pressure readings shall be taken in all areas of the clean room facility (buffer room and anteroom).

9.9.1.1 The temperature and humidity in the clean room facility can be monitored electronically.

9.9.1.2 The humidity should be maintained in the range of 30%–65%.

9.9.1.3 The temperature shall be maintained between 63°F–77°F (17°C-25°C).

9.9.1.4 The pressure shall be a minimum of 0.02 inches of water.

9.9.1.5 Document results on the Temperature and Humidity Monitoring of the Clean Room Facility form (Attachment 2) or attach printout and date and initial.

9.9.2 Clean and sanitize the LAFW including all equipment.

9.9.3 Clean and sanitize counter tops.

9.9.4 Wipe down equipment and devices.

Title of SOP: Shipping / Delivery Out of State

Original: Yes _____ No _____ Revision: Yes _____ No _____Revision No._____

Responsibility:

The pharmacist-in-charge is responsible for this procedure.

Purpose:

1. To ensure shipping/delivery will occur only to states in which the pharmacy holds a Non-Resident License
2. To ensure that prescriptions are shipped/delivered in a timely manner to the correct patient.
3. To ensure that prescriptions shipped/delivered out of state are handled safely and properly.
4. To define what procedures are used in cases of lost shipments, delivery errors, and delivery delays.

Equipment/Supplies Required:

- Appropriate packaging supplies (boxes, cooler boxes, insulated mailers, packing tape, packing inserts, scissors)
- Computer with internet access
- Cold packs
- Shipping Log
- Shipping Temperature Test Log
- Label Printer
- Labels for printer supplied by shipper

Procedure:

Normal Delivery Protocols and Delivery Times

The pharmacy will only accept out of state prescriptions for states in which the pharmacy holds an active Non-Resident Pharmacy License. The toll free phone number (800-610-2521) will be provided to all patients.

Patients residing outside of Texas will be contacted upon receipt of a new prescription for verification of patient information and establish a patient profile, consent to receive prescription from the pharmacy, and counseling on medication. Patients will be contacted five to seven days prior to refill due, or instructed to contact us five to seven days prior to refill due dates to ensure a

Approved by _____ Date _____

continuous supply of medications. Patients not consenting to receiving the prescription from the pharmacy will have the prescription transferred as legally allowed to the pharmacy of their choice.

Prescriptions may be shipped via FedEx regular two to three business days, standard overnight, or priority overnight. Out of state patients receiving medical care locally will have the ability to pick up the prescription. Each patient is contacted by the pharmacy team for address verification, counseling from a pharmacist on the medication, and anticipated time of delivery prior to scheduling. A designated area is set up in the pharmacy for packaging and shipping. Each prescription is reviewed and checked by a pharmacist before dispensing or delivery. Each delivery will include:

- HIPAA information and Privacy Practices
- Medication information, patient education materials

Packaging

Each medication will be package with the appropriate shipping materials. Picked-up and deliveries containing medications that require refrigeration will be sent standard overnight and will be packed into non-descript cardboard shipping boxes with fitted foam dividers, sealed with tape along with any required paperwork, and frozen cold packs as appropriate. For room temperature medications, frozen cold packs are added in each box when outside temperature reaches 80 ^{o} F or above. Contents will not be identified on the outside of package to protect privacy and discourage theft or diversion. Patients will be aware of incoming delivery and advised to contact pharmacy if package is damaged, appears tampered or does not arrive as expected.

Shipping Temperature Verification

Shipping temperature maintenance will be verified twice annually with an actual shipping test. A package will be sent standard overnight delivery with a temperature monitoring device to a designated location in the coldest months of the year and the hottest months of the year. The Shipping Temperature Test Log will be completed and sent with the package. Upon arrival the temperature will be validated and the remainder of the Shipping Temperature Test Log will be completed on arrival to ensure package arrives with medication in the desired storage range. If an exception is found, packaging and shipping processes will be reevaluated and revised. Repeat testing will occur with any changes to shipping/packaging processes are made.

Shipping Tracking and Monitoring

All FedEx shipments are sent based on the convenience for the patient, regular two to three business days, standard overnight delivered by 8pm the next day, or priority overnight delivered by 10am next day unless the service is not supported for the specific region or patients request a later date. Changes to overnight delivery times will be adjusted depending on the mediation.

Approved by _____ Date _____

Implemented by _____ Date_____

Electronic logs are maintained for all packages shipped via FedEx. Logs include the name of the patient, shipping address, prescriptions numbers in shipment, and tracking numbers. FedE shipping logs are archived weekly and electronically filed. All shipping logs are maintained for two years.

Electronic logs are downloaded daily and reviewed to ensure that all packages are delivered to the recipient in the time frame chosen. Packages delayed or not delivered will be reviewed and responded to within 48 hours.

Packages shipped through FedEx are picked up on Monday through Thursday before 5:00PM, unless the patient requests Saturday delivery.

Delivery Accuracy

Every patient will have a delivery ticket that is created during the delivery preparation step. The delivery ticket will include all medications, information and supplies provided to the patient. A daily log for all deliveries and the method of delivery (FedEx) will be noted on the log unless otherwise specified. Anytime an error occurs in the delivery process (wrong patient, wrong address) a complaint will be documented.

When Medication is Not Available or Delivery is Delayed

Upon receipt of a new prescription if the pharmacy is unable to fill the medication or the medication has to be ordered, the patient will be contacted. For new prescriptions, delivery will be coordinated with the patient to ensure patient can start medication as soon as needed. For immediate need, the pharmacist will transfer the prescription to another pharmacy more convenient to the patient. For prescription refills, the patient will be asked if they have a sufficient supply of medication to last until the medication can be delivered. If the patient does not have a sufficient supply of medication, the prescription will be transferred to another pharmacy more convenient to the patient.

If FedEx notifies the pharmacy due to weather or logistics of a delayed shipment, the patient will be notified as soon as possible of the delay. The patient will be asked if they have a sufficient supply of medication to last until the medication can be delivered. If the patient does not have a sufficient supply of medication, the pharmacist will reship the medication immediately, or transfer the prescription to another pharmacy more convenient to the patient. The pharmacy will re-route the original package to be returned to the pharmacy.

Prescriptions for Acute Illness

Upon receipt of a prescription for an acute condition, the patient will be contacted and delivery will be coordinated to ensure the patient can start medication as soon as needed. For immediate need, the pharmacist will transfer the prescription to another pharmacy more convenient to the patient. For prescription refills, the patient will be asked if they have a sufficient supply of medication to last

until the medication can be delivered. If the patient does not have a sufficient supply of medication, the prescription will be transferred to another pharmacy more convenient to the patient.

When Medication Did Not Arrive As Scheduled

If the pharmacy discovers a delay in delivery or when a patient reports delayed or lost shipment, pharmacy personnel will refer to shipment log to verify shipment information and contact appropriate courier and track the package for the patient. If shipment is further delayed, lost, or incorrect a replacement supply is sent overnight to the patient. A signature authorization is required for the second delivery. The pharmacy will re-route the original package to be returned to the pharmacy. If the patient does not have a sufficient supply of medication, the pharmacist will transfer the prescription to another pharmacy more convenient to the patient. If the patient does not wish to continue to receive the medication from the pharmacy, the pharmacist will have the prescription transferred as legally allowed to the pharmacy of their choice

All SOP's are reviewed at the end of each calendar year and when policy changes are made. Revisions, if deemed necessary, are added as amendments to the original SOP.

Initial each statement below to indicate you have read and agree with the following:

JLT I understand that as the managing pharmacist I am responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the pharmacy and the practice of pharmacy. I understand my license can be revoked or that I can be subject of disciplinary action if such laws or regulations are knowingly violated in the pharmacy in which I am the managing pharmacist.

JLT I understand within 48 hours after I report for duty as the managing pharmacist, I shall complete an inventory of all controlled substances of the pharmacy pursuant to 21 CFR Part 1304 and maintain a copy of the inventory in the file at the pharmacy.

JLT I understand that if I cease to be managing pharmacist of the above-named pharmacy, I will jointly, with the new managing pharmacist, take an inventory of all controlled substances.

JLT I understand that as the managing pharmacist I must ensure that all loss or theft of controlled substances are reported on forms provided by the Nevada State Board of Pharmacy and Department of Public Safety within 10 days after the date of discovery of theft or loss. NRS 453.568. Federal regulations require that registrants notify the Field Division Office of the Administration in his area, in writing, of the theft or significant loss of any controlled substance, disposal receptacles or listed chemicals within one business day of discovery of such loss or theft. The registrant shall also complete and submit to the Field Division Office in his area, DEA Form 106 regarding the loss or theft (21 C.F.R. §1301.76(b) and 21 U.S.C. §830(b)(1)(C)).

JLT I understand that as the managing pharmacist I must notify the Nevada State Board of Pharmacy of all employment changes of pharmacy staff within 10 days of the change. NAC 639.540

Nonsterile Compounding Inspection

The information and comments obtained in the Nonsterile Compounding and Sterile Compounding inspections are based on USP Chapters <795> and <797>. An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

Facility Name: Town Total Compounding Centers, LLC dba Town Total Compounding Center
e-Profile ID: 824605
Inspection Date: 06/02/2021 - 06/03/2021

		Finding	Notes
20.06	Does the facility QA program identify action limits or thresholds and the appropriate follow-up mechanisms when action limits or thresholds are exceeded including a recall system?	Yes	
20.07	Does the recall system include communication with both the patient and the physician/prescriber regarding the affected nonsterile compounded preparation?	Yes	Patient and doctor.
20.08	Are QREs involving nonsterile compounded preparations or are recalled by the pharmacy reported to the Board of Pharmacy?	Yes	
	Component Selection and Use		
	Total Non-Compliant (Includes Unknowns)	**0**	
21.00	**Active Pharmaceutical Ingredients (APIs), bulk drug substances:** All bulk drug substances (APIs) used are: 1) Compliant with the standards of an applicable USP or NF monograph, if one exists; or 2) A component of an FDA-approved human drug product; or 3) On the list of bulk drug substances for use in compounding developed by the FDA and issued through regulation (note: must comply with (1) or (2) above until the FDA list is issued)	Compliant	
21.01	Certificates of analysis (COAs) obtained for all bulk APIs used for compounding. *Verify by selecting products from the shelf from different suppliers and ask to see the COAs for those products.* NOTE: The COA for an API should be reviewed upon receipt of the API to verify the quality of the API before using to compound.	Compliant	See attachments: Doc_01_NS_21.00_TownTotalCompounding_Woodbury_NY- Doc_05_NS_21.00_TownTotalCompounding_Woodbury_NY.
21.02	USP- or NF-grade substances used, if available	Compliant	
21.03	If compendia quality components are not available, chemically pure, analytical reagent grade or American Chemical Society-certified components are used and are determined to be free from impurities.	Compliant	
21.04	APIs or other components have labeling indicating use for pharmaceutical compounding or manufacturing. Labels do not indicate "for research purposes only", "not for drug use", or are handwritten labels from other pharmacies. *Photograph and describe if found. Request copies of the invoices for products with questionable labels.*	Compliant	
21.05	If compounding for both humans and animals, APIs or other components that are labeled for veterinary use only are segregated or marked in such a way to prevent them from being used for human compounding	N/A

Facility Name: Town Total Compounding Centers, LLC dba Town Total Compounding Center
e-Profile ID: 824605
Inspection Date: 06/02/2021 - 06/03/2021

		Finding	Notes
21.06	All substances and components have a complete label including a batch control or lot number, and an expiration date.	Compliant	
21.07	For APIs without an expiration date assigned by the manufacturer or supplier, the pharmacy assigns a conservative expiration date. The expiration date assigned does not exceed three (3) years for ingredients used for non-sterile compounding and does not exceed one (1) year for ingredients used for sterile compounding. *Note: purity and quality testing may be performed to extend.*	Compliant	
21.08	All APIs and components received without an expiration date are labeled with the date they were received.	Compliant	
21.09	If the pharmacy repackages APIs into smaller containers for ease of use, the expiration date assigned is conservative (typically the lesser of one year or the actual expiration from the original container). Product may be tested to extend the expiration date but may not exceed the original package expiration date.	n/a	
21.10	Bulk component containers are labeled with appropriate OSHA hazard communication labels and hazardous substances are segregated (including hormones).	Compliant	
22.00	Where water is an ingredient, purified or distilled water is used.	Compliant	Purified.
23.00	Ingredients used for dietary or nutritional supplements meet USP, Food Chemicals Codex (FCC), or NF standards, or the pharmacy has alternate means to determine if the ingredients meet food-grade quality.	Compliant	
24.00	Pharmacy confirms that there are no preparations for human use made or ingredients used that appear on the FDA list of drug products withdrawn or removed from the market for safety reasons (facility has a copy of the list or other way to determine).	Compliant	
25.00	When manufactured products are used for compounding, all the other excipients in the product are considered relative to the use, effectiveness, and stability of the compounded preparation to be made.	Compliant	
26.00	For animal compounding: The compounding meets the same standards as compounding for human patients.	N/A	
26.01	The pharmacist is knowledgeable or has references regarding the individual species' limitations in physiology and metabolic capacity that can result in toxicity when certain drugs or excipients are used.	N/A

26.02	It is determined and documented if the animal is used for food (meat, milk, eggs, etc.) or that the animal is a pet.	N/A	
26.03	The pharmacist familiar with, or has a reference regarding drug residues in the food chain and withdrawal times if compounding for food-producing animals.	N/A	
26.04	The facility has a list of drugs and components not allowed when compounding for food-producing animals.	N/A	
26.05	The pharmacist is familiar with, or has a reference regarding regulations for drug use in performance animals (e.g., race or show horses, racing dogs)	N/A	
Beyond Use Dating (BUD)			
	Total Non-Compliant (Includes Unknowns)	**0**	
27.00	BUDs are assigned from the day of preparation.	Compliant	
28.00	BUDs are assigned based on dispensing in tight, light-resistant containers/overpacks.	Compliant	
29.00	Extended BUDs are supported by testing data. *View documentation used, preparation must exactly match formulation upon which data was obtained.*	Compliant	
29.01	Extended BUDs are assigned and the facility has performed its own stability testing. *View records, preparation must exactly match the preparation tested by the facility including concentration of all active ingredients, excipients, etc.*	compliant	
30.00	BUDs for nonaqueous formulations are not later than the remaining time until the earliest expiration date of any API and not later than six (6) months.	Compliant	
31.00	BUDs for water-containing oral formulations are not later than 14 days when stored at controlled cold temperatures (refrigerated).	Compliant	
32.00	BUDs for water-containing topical/dermal and mucosal liquid and semisolid formulations not later than 30 days.	Compliant

		Finding	Notes
Environment			
	Total Non-Compliant (includes Unknowns)	**0**	
33.00	The non-sterile compounding area is a controlled environment and separate from the general pharmacy.	Compliant	
34.00	There sufficient space available for the type and amount of compounding performed and the space is orderly to prevent mix-ups between ingredients, containers, labels, in-process materials, and finished preparations.	Compliant	
35.00	Only one preparation compounded at a time.	Compliant	
36.00	Procedures are implemented to prevent cross-contamination, especially when compounding with drugs such as hazardous drugs and known allergens like penicillin that require special precautions.	Compliant	
37.00	The compounding area is well lit.	Compliant	
38.00	The pharmacy performs hazardous non-sterile compounding in a ventilated cabinet such as a BSC, CAI, or CACI. *Note: CAI may not be used for hazardous drugs that may volatilize (NIOSH requirement referenced in USP<795>. Note that proposed USP Chapter <800> will change hazardous drug compounding requirements.)*	Compliant	
38.01	Ventilated cabinets (BSC, CAI, CACI) used for hazardous compounding are certified or tested periodically.	Compliant	Every 6 months.
38.02	If the hoods or isolators are not located in a closed, controlled room environment, there is documentation from the manufacturer and site testing to verify proper functioning of equipment under dynamic conditions for the safety of personnel.	Compliant	
39.00	Appropriate protective attire (gowns, gloves, masks, etc.) is available.	Compliant	
39.01	If hazardous drugs are used, appropriate protective attire is available (gowns, gloves, hair and shoe covers, eye and face protection, etc.).	Compliant	
40.00	There is a sink in the compounding area with hot and cold potable water, soap or detergent, and air-driers or single-use towels.	Compliant	
41.00	There is adequate space to wash equipment and utensils including access to water for rinsing. *(Purified water is recommended - not required)*	Compliant	Purified used.

		Finding	Notes
46.00	If the clean/buffer room and anteroom are not fully enclosed (open or with plastic strips - no door that closes), the air flow is measured across the openings.	n/a	
46.01	The air flow is at least 40 feet per minute across the entire opening.	Compliant	
46.02	Airflow is read and recorded each shift (minimum of once daily) or continuously recorded. *View logs.*	Compliant	
46.03	Written plan in place to detect and react to air flow measurements outside of limits	Compliant	
46.04	This area is used only for low- and medium-risk compounding (HD and high-risk not allowed).	Compliant	
47.00	**Temperature:** The temperature of all compounding and drug storage areas shall be maintained in accordance with standards, and a written plan shall be in place and followed to address any excursions.	Compliant	20.1 C
47.01	Temperature in the compounding area is maintained to provide comfortable working conditions for compounding personnel of 20° C or cooler (68° F or cooler). Temperature can be more restrictive if warranted by specific drug product storage requirements. *Temperature records are maintained.*	Compliant	20.2 C
47.02	If drugs are stored in the compounding area, temperature monitoring is in place to detect any excursions (24/7) by continuous monitoring or retroactive detection using min/max. *Temperature records are maintained.*	Compliant	Continuous by Lighthouse and manual daily.
47.03	Temperature monitoring is also performed in drug storage areas (if separate from the compounding areas). Temperature is maintained at controlled room temperature of 20° - 25° C (68° - 77° F) or as specified by FDA approved labeling for drug product storage.	Compliant	20.2 C
47.04	Temperature monitoring in the drug storage area is performed at least once daily and documented. *Temperature records are maintained.*	Compliant	
47.05	Temperature in the refrigerator or cooler is maintained to provide controlled cold temperature of 2° to 8°C (36° to 46°F) or as specified by FDA approved labeling for drug product storage.	Compliant	2.6 C

		Finding	Notes
47.06	Temperature monitoring in the refrigerator is performed at least once daily and documented. Additionally, compounding personnel shall note the storage temperature when placing the product into or removing the product from the storage unit in order to monitor any temperature aberration. Alternatively, continuous monitoring or retroactive detection using min/max may be used. *Temperature records are maintained.*	Compliant	Continuous by Lighthouse and manual daily.
47.07	Temperature in the freezer is maintained to provide controlled frozen temperature of -25° to -10°C (-13° to 14°F) or as specified by FDA approved labeling for drug product storage.	Compliant	Recorded as -18.2C.
47.08	Temperature monitoring in the freezer is performed at least once daily and documented. Additionally, compounding personnel shall note the storage temperature when placing the product into or removing the product from the storage unit in order to monitor any temperature aberration. *Temperature records are maintained.*	Compliant	Continuous by Lighthouse and manual daily.
47.09	Action plan in place for any temperature excursions including evaluating excursion effects on drug product integrity for all temperature monitored areas.	Compliant	
48.00	Humidity: If warranted by specific drug products, humidity in the compounding area is maintained to provide humidity within the specified ranges. If drug products require storage in a "dry place", humidity is not to exceed 40%. *[Generally recommended range is 35-60% for performing sterile compounding.]*	Compliant	53.1 RH
48.01	If applicable, humidity monitoring in place to detect any excursions (24/7) by continuous monitoring or retroactive detection using min/max. Humidity records are maintained.	Compliant	By Lighthouse continuously.
48.02	If applicable, excursion action plan in place including evaluating excursion effects on drug product integrity.	Compliant	
48.03	If applicable, humidity monitoring is also performed in drug storage areas (if separate from the compounding areas).	Compliant	
49.00	Blowers on ISO 5 PECs are operated continuously during compounding activity, including during interruptions of less than eight hours.	Compliant	
50.00	When the ISO 5 PEC blower is turned off, and before other personnel enter to perform compounding activities, only one garbed person is allowed to enter the buffer area for the purposes of turning on the blower (for at least 30 minutes) and of sanitizing the work surfaces.	Compliant

		Finding	Notes
90.00	Hand cleaning is performed in the anteroom and includes removing debris from under the nails with a nail cleaner followed by a vigorous washing of the hands and forearms with soap for at least 30 seconds with hands and arms then dried with a non-linting disposable towel or a hand dryer. *Scrub brushes are NOT recommended as they cause skin irritation and damage.*	Compliant	
91.00	The gown is nonshedding with sleeves that fit snugly around the wrists and enclosed at the neck.	Compliant	
92.00	All bare skin is covered on the arms and the legs (no bare ankles, wrists, etc.).	Compliant	
93.00	Prior to donning sterile gloves, a waterless alcohol based surgical hand scrub with persistent activity is used and hands allowed to dry. *Note: regular Purell Hand Sanitizer is NOT appropriate. Purell or other brand surgical hand scrub is appropriate - must have residual activity.*	Compliant	Purell Surgical scrub with persistent activity.
94.00	Upon leaving the sterile product compounding area, gowns are taken off and disposed of, or if used for nonhazardous compounding they are left in the anteroom and not reused for longer than one shift.	Compliant	
95.00	Pharmacists or other personnel do NOT enter the anteroom and cross the line of demarcation without donning shoe covers or dedicated shoes. *Watch for personnel traversing back and forth across the line of demarcation without doffing and donning new shoe covers or dedicated shoes.*	Compliant	
96.00	Pharmacists or other personnel do NOT enter the clean/buffer room without fully washing and garbing (wearing just a mask to check technician's work, for example)	Compliant

		Finding	Notes
97.03	Certification is performed at least every six months (view date of previous certification) and whenever a device or room is relocated or altered, or major service to the facility is performed. *If non-compliant, record the date of the previous certification.*	Compliant	12/18/2020 by Charles Solana and Sons.
97.04	Certification is performed to the Controlled Environment Testing Association (CETA) guide (USP: CETA CAG-003-2006 Certification Guide for Sterile Compounding Facilities) and is noted on the report.	Compliant	
97.05	If the certification standard used and noted on the report is NOT CETA CAG-003-2006, the facility has performed a comparison and determined the standard used is the same or better than the CETA CAG-003-2006 guide.	N/A	
97.06	The PIC/compounding supervisor is familiar with what testing is required and interpretation of results; ensures all testing is performed appropriately (under dynamic conditions where appropriate); has action levels identified, evaluates results to detect issues or trends, and action levels are further customized based on trended data of performance.	Compliant	
98.00	The certification report includes information about the equipment used for performing each test including: identification of the equipment used by model, serial number, last calibration date (or date when next calibration is due).	Compliant	
98.01	The equipment used had not exceeded its calibration date at the time of certification.	Compliant	
99.00	The HEPA filtered air changes per hour (ACPH) were measured for the compounding rooms.	Compliant	
99.01	ISO Class 7 sterile compounding room is certified as having a minimum of 30 ACPH with at least 15 ACPH from outside air sources. *Recirculated air from the PECs may account for up to 15 ACPH in nonhazardous classified rooms only.*	Compliant	
99.02	ISO class 7 anteroom is certified as having a minimum of 30 ACPH. *Anteroom must be ISO class 7 if connected to a NIOSH hazardous compounding clean/buffer room.*	Compliant	
99.03	ISO class 7 hazardous sterile compounding room is certified as having a minimum of 30 ACPH. *Typically all of the air will be from outside.*	Compliant	
99.04	If a CACI is used in a non-HEPA filtered room, the room is certified to maintain a minimum of 12 ACPH.	N/A

		Finding	Notes
100.00	Air pattern analysis using smoke testing was performed under dynamic conditions (people working in the PECs and rooms). The smoke flow is described in the report for the various tests such as turbulent, sluggish, smooth, etc.	Compliant	
100.01	Air pattern analysis was conducted at the critical area (direct compounding area inside the ISO Class 5 PEC) to demonstrate unidirectional airflow and sweeping action over and away from the product under dynamic conditions (personnel compounding or simulating compounding in PEC).	Compliant	
100.02	Air pattern analysis was conducted to confirm positive pressure (and negative pressure into hazardous compounding rooms) at all points around all openings, doorways, and pass-throughs	Compliant	
100.03	Air pattern analysis conducted around particle generating equipment *while the equipment was in operation* to confirm air flow.	Compliant	
101.00	Differential air pressure between rooms was measured.	Compliant	
101.01	The differential pressure measured was at least 0.02" water column positive from the cleanroom to the anteroom and between the anteroom and all adjacent spaces with the doors closed.	Compliant	
101.02	The differential pressure measured was at least 0.01" water column negative from the hazardous clean/buffer room to the anteroom with the doors closed.	Compliant	
102.00	Displacement airflow between rooms or areas was measured. This is for a clean/buffer room without a door that closes to the anteroom - may be an open space or may have plastic strips in doorways.	N/A	
102.01	Displacement airflow (for low and medium-risk non-hazardous rooms only) was measured at a minimum differential velocity of 40 feet per minute from the cleanroom to the anteroom. *Note that it is very important to maintain this velocity across the entire opening and the report should indicate multiple points of measure across all openings.*	N/A	
103.00	Particle counts of particles 0.5um and larger were measured under dynamic conditions.	Compliant	
103.01	ISO Class 5 areas and PECs are certified as having less than 3,520 particles per cubic meter of air (100 particles per cubic foot).	Compliant	
103.02	ISO Class 7 areas are certified as having less than 352,000 particles per cubic meter of air (10,000 particles per cubic foot).	Compliant

105.00	PECs with failed tests are not used for compounding until the conditions are corrected and verified by subsequent testing.	compliant	
106.00	Viable air (every six months) and surface sampling (periodically) tests have been conducted as required. *Document frequency.*	Compliant	Viable air every 6 months, surface sampling every month.
106.01	Appropriate growth media used (containing tryptic soy agar medium with polysorbate and lecithin (TSApl) added to neutralize cleaning agents for surface sampling) with appropriate corresponding incubation time and temperature used. *Required to use media that supports both bacterial and fungal growth for high risk compounding.*	Compliant	
106.02	Viable air sampling by active impaction using a volumetric air sampling device. *NOTE: Passive air sampling or settling plates are not compliant with USP Chapter <797>.*	Compliant	
106.03	Air samples were taken in each ISO Class 5 PEC, and in each sterile compounding room and anteroom and volume sufficient volume of air (400-1000L) was collected? *Note: 1000L must be collected in ISO Class 5 PECs to be able to detect the action level. Room samples can be 400-1000L.*	Compliant	
106.04	Surface samples performed on all direct compounding areas inside of each ISO 5 PEC, in each ISO classified room, inside any pass-throughs, and on surfaces likely to be contaminated due to position relative to doorways, etc.	Compliant

Section 2: Sterile Compounding Questions (Use a separate piece of paper if additional space is needed.)

1. What risk level sterile compounding will your facility be performing (check all that apply)? ☐ Low ☒ Medium ☒ High
If you marked "High", you must also complete section 4.

2. Will you be performing sterile hazardous drug compounding? ☒ Yes ☐ No
If you marked "Yes", you must also complete section 3.

3. List the sterile compounded products that you will be compounding for Nevada patients or consumers:
Testosterone Cypionate, Testosterone Enanthate, Testosterone Propionate, Nandrolone, Anastrozole, DHEA, Levocarnitine, Glutamine, Arginine, Leucine, Isoleucine, Valine, Ornithine, Lysine, Methionine, Inositol, Choline Chloride, Vitamin D3, Chromium Picolinate, Methylcobalamin, Phenylephrine, Papaverine, Phentolamine, Alprostadil, Atropine, ABP-7, AOD-9604, ARA-290, BPC-157, CJC-1295, Delta Sleep Inducing Peptide, Epithalon, GHK-Cu, Gonadorelin, IGF-1, Ipamorelin, Kisspeptin, LL-37, Melanotan II, Met-Enkephalin, MOTs-C, NAD+, PEG-MGF, PT-141, Semax, Semaglutide, Sermorelin, Terzepatide, Thymulin.

4. Will you be utilizing beyond use dates in excess of USP-797? ☒ Yes ☐ No

5. If yes, describe the additional testing performed on your products to validate the extended BUD:
The following testing protocol is followed for products to received extended BUD's -
Container closure integrity testing - Day 0 and at end of test period (e.g. Day 90 or Day 180)
Sterility and Endotoxin testing - Day 0 and at end of test period (e.g. Day 90 or Day 180)
Potency testing - Day 0 and (at minimum) end of test period - generally tested every 30 days during study to track any decline in potency in storage.

These studies are transitioning to incorporate stability-indicating-assay tests this year to comply with the updated USP <797> chapter and maximum beyond use dates will conform the maximums given in the chapter.

6. What laboratory performs this additional testing?
Name: ARL Bio Pharma
Address: 840 Research Parkway, Ste. 546
City: Oklahoma City State: OK Zip: 73104
Telephone: 800-393-1595

7. What is your procedure for visual inspection of compounded sterile products?
Finished sterile products are inspected by a Quality Control technician and a Sterile Compounding Pharmacist in a light box with both white and black backgrounds to detect particles present in the solution and to inspect for any flaws in the vial or closure. Each batch is inspected twice - by QC and by a Pharmacist - before release.

8. How often do you perform glove fingertip and medial fill testing?

Glove fingertip testing is performed at the completion of every sterile compounded batch. Gowning validation and media fill testing is performed semi-annually for sterile compounding staff.

9. What is your policy if an employee fails a glove fingertip or media-fill test?

Employee will not be permitted to enter the ISO 7 Buffer Area until gowning validation has passed. If an alert limit is observed on a end-of-production batch plate, the entire batch will be destroyed. If a media fill test is failed, the employee will not be permitted to perform any duties related to sterile compounding until a media fill test is passed.

10. Describe your initial and annual training program for all personnel performing sterile compounding:

Personnel must attend a professional sterile compounding training course before being allowed to begin on-the-job training. Personnel must then complete a computer-based in-house didactic sterile compounding training course. Gowning validation must be performed three times consecutively with no failures before personnel can enter the clean room during compounding. Personnel are trained in cleaning and decontamination of the clean room suite and the process of disinfection of materials to be brought into the clean room suite prior to being allowed to commence a media fill test. A media fill test conducted under the most challenging conditions must be completed prior to being involved in the compounding process - whether as compounder or as support. These are repeated semi-annually. Any personnel responsible for mixing sterile compounds must pass a finished product assay (four ingredients are assayed) test to establish their ability to mix products to the required specifications.

11. Describe the cleaning procedure for your primary and secondary engineering controls, including the frequency of cleaning and the names of cleaning, disinfectant, sporicidal, and/or deactivation and decontamination agents used:

Interior surfaces of ISO 5 primary engineering controls and exterior surfaces in ISO 7 Buffer Area are cleaned with sporicidal disinfectant (Spor-Klenz) at the beginning of each day upon which sterile compounding occurs. The ISO 5 work surfaces are cleaned after each product compounded with a deactivation/decontamination agent (Peridox RTU). The counters and floors of the ISO 7 secondary engineering controls (Buffer Area) are cleaned at the conclusion of compounding with sporicidal disinfectant (Spor-Klenz). The floors of each ISO-classified area are disinfected at the end of each day upon which they have been entered. Additionally, the walls and ceilings of all ISO-classified areas are disinfected on a monthly basis. A breach clean is performed following 1) entry to lab by non-certified personnel such as outside contractors, maintenance personnel or semi-annual certification personnel, 2) the completion of any repair or maintenance work which has the capacity to disrupt pressure differentials or generate viable or non-viable particles, 3)

12. Who performs the sterile compounding process at your facility?

Sterile compounding pharmacist - Kim Hiddessen
Sterile compounding technicians - Kristen Salinas, Evie Jerdee, Ruth Muentes, Jaime Rosa

13. Who is responsible and accountable for the sterile compounding process at your facility?

Kim Hiddessen - Pharmacist-in-Charge

14. If products are shipped/mailed, what shipping conditions are used to ensure product safety/efficacy?

Packaged in insulated mailing pouches with frozen cold packs. Volume of cold packs is increased during warmer months. Shipping speed (same-day courier, Next-Day Air or Second Day Air) is determined as required by outdoor weather conditions, storage requirements of the medication being shipped and the travel distance for the medication to arrive at the appropriate storage temperature.

Section 3: Sterile Hazardous Compounding Questions (Complete this section ONLY if you be performing Sterile Hazardous Compounding.)

1. What type of primary engineering controls will you be using in your facility?

ISO-5 Integrated Vertical Laminar Flow Zone

2. Is your BSC or CACI vented 100% to the outside?	☐ Yes	■ No
3. Do you have a negative pressure buffer room at your facility?	☐ Yes	■ No
4. Will you be compounding with antineoplastic HDs or HD API?	■ Yes	☐ No
5. If yes, are the drugs stored in an externally ventilated, negative pressure room?	☐ Yes	■ No
6. Will you be utilizing a closed system transfer device?	☐ Yes	■ No

7. If yes, list the name of the device:

8. What information is provided to the patient or consumer on the proper handling and disposal of hazardous drugs products/containers?

Guidance is provided with each prescription dispensed covering the following topics:
1. Proper storage of medications
2. Preventing contamination of sterile medications
3. Proper disposal of expired and unused medications
4. Proper disposal of unused, expired or discontinued injectable medications
5. Descriptions of physical appearances of products which indicate a potential problem with the medication - e.g. broken capsules, cloudy solutions, broken emulsions.
6. Explanation of drop-off sites and National Take Back Day for drug disposal.
7. Contact information for staff pharmacist for patients and providers to obtain additional information.

9. Describe your initial process for training new employees prior to compounding sterile hazardous drugs?

Gowning validation must be performed three times consecutively with no failures before personnel can enter the clean room during compounding.
Personnel are trained in cleaning and decontamination of the clean room suite and the process of disinfection of materials to be brought into the clean room suite prior to being allowed to commence a media fill test.
A media fill test conducted under the most challenging conditions must be completed prior to being involved in the compounding process - whether as compounder or as support. These are repeated semi-annually. Any personnel responsible for mixing sterile compounds must pass a finished product assay (four ingredients are assayed) test to establish their ability to mix products to the required specifications.
Specific to hazardous drugs, personnel are trained in the proper safe handling and containment of chemicals and materials. Specific gowning items (gloves, sleeves and masks) are utilized. Personnel are made aware of the risks involved with compounding and handling hazardous drugs and the importance of proper PPE to minimize the potential for exposure.

Section 4: Sterile High Risk Compounding Questions (Complete this section ONLY if you will be performing High Risk Compounding.)

1. List the specific high risk sterile products that your facility compounds:

Testosterone Cypionate, Testosterone Enanthate, Testosterone Propionate, Nandrolone, Anastrozole, DHEA, Levocarnitine, Glutamine, Arginine, Leucine, Isoleucine, Valine, Ornithine, Lysine, Methionine, Inositol, Choline Chloride, Vitamin D3, Chromium Picolinate, Methylcobalamin, Phenylephrine, Papaverine, Phentolamine, Alprostadil, Atropine, ABP-7, AOD-9604, ARA-290, BPC-157, CJC-1295, Delta Sleep Inducing Peptide, Epithalon, GHK-Cu, Gonadorelin, IGF-1, Ipamorelin, Kisspeptin, LL-37, Melanotan II, Met-Enkephalin, MOTs-C, NAD+, PEG-MGF, PT-141, Semax, Semaglutide, Sermorelin, Terzepatide, Thymulin.

2. What sterilization methods are utilized at your facility?

Sterilization is achieved by 0.2 micron filtration in an ISO 5 environment using aseptic technique and sterile instruments.

3. Does your facility utilize biological indicators? ☑ Yes ☐ No

4. If yes, describe how they are utilized:

Biological indicators and endotoxin challenge vials are used for initial performance qualification and routine of the autoclaves and depyrogenation oven. Dry heat indicators and steam indicators are used to validate every sterilization cycle.

I certify under penalty of perjury that the information contained in this form is accurate, true and complete in all material respects. I understand that making any false representation in this form is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire form and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. process. At a minimum, SOPs shall be developed for: (i) the facility; (ii) equipment; (iii) personnel; (iv) preparation evaluation; (v) quality assurance; (vi) preparation recall; (vii) packaging; and (viii) storage of compounded preparations. (B) Any compounded preparation with an official monograph in the USP/NF shall be compounded, labeled, and packaged in conformity with the USP/NF monograph for the drug. (C) Any person with an apparent illness or open lesion that may adversely affect the safety or quality of a drug product being compounded shall be excluded from direct contact with components, drug product containers, closures, any materials involved in the compounding process, and drug products until the condition is corrected. (D) Personnel engaged in the compounding of drug preparations shall wear clean clothing appropriate to the operation being performed. Protective apparel, such as coats/jackets, aprons, hair nets, gowns, hand or arm coverings, or masks shall be worn as necessary to protect personnel from chemical exposure and drug preparations from contamination. (E) At each step of the compounding process, the pharmacist shall ensure that components used in compounding are accurately weighed, measured, or subdivided as appropriate to conform to the formula being prepared.

S200. Do compounding personnel remove debris from underneath fingernails using a nail cleaner under running warm water?	*Satisfactory*
S192. Are personnel with an apparent illness or open lesions compounding sterile preparations?	*Satisfactory*
S241. When compounding personnel temporarily exit the ISO Class 7 environment, are re-donning procedures properly followed?	*Satisfactory*
S201. Do compounding personnel engage in proper hand hygiene?	*Satisfactory*
S203. Do compounding personnel completely dry hands and forearms using lint-free disposable towels or hand dryer?	*Satisfactory*
S204. Is antiseptic hand cleansing performed using waterless alcohol-based surgical scrub once inside the buffer area and prior to donning sterile gloves?	*Satisfactory*

Comment

Advised to apply waterless alcohol-based surgical scrub on hands, use sterile IPA on gloves.

S206. Is sterile isopropyl alcohol applied to gloves throughout the day and when non-sterile surfaces are touched?	*Satisfactory*

Cleaning/Disinfection Procedures

S182. Does the pharmacy have written procedures on the cleaning and disinfecting of the direct and contiguous compounding areas (e.g., beginning of shift, every 30 minutes, before each batch, spills)?	*Satisfactory*
S230. Is cleaning performed by trained personnel using approved agents (described in written SOPs)?	*Satisfactory*
S228. Are supplies & equipment that are removed from shipping cartons wiped with a disinfecting agent (e.g., sterile IPA)?	*Satisfactory*
S226. Are work surfaces and floors in the ante-area and buffer area cleaned and disinfected daily with dedicated supplies?	*Satisfactory*
S227. Are walls, ceilings and shelving in the ante-area and buffer area cleaned and disinfected at least monthly?	*Satisfactory*
S229. Does the pharmacy maintain documentation of cleaning procedures (i.e., date/time of cleaning, type of cleaning, name of individual who performed the cleaning)?	*Satisfactory*

Environmental Sampling

S270. Is surface sampling conducted in all ISO classified areas on a periodic basis?	*Satisfactory*
S272. Is viable air sampling performed?	*Satisfactory*
S273. Is viable air sampling documented by properly trained individuals for all risk levels every 6 months?	*Satisfactory*

Comment

Advised to maintain documentation of training for individual performing viable air sampling.

S271. Are environmental sampling results evaluated and addressed (i.e., action levels followed)?	*Satisfactory*

Records of CSPs

S252. Does the pharmacy maintain records relating to CSPs for a minimum of 2 years?	*Satisfactory*
S253. Do compounding records include the date and time of preparation of a CSP?	*Satisfactory*

Comment

Advised to ensure compounding records contain the time of preparation of the compounded sterile preparation.

S254. Do compounding records include the complete formula of a CSP?	*Satisfactory*

291.133(g).

Recall Procedures.
(1) The pharmacy shall have written procedures for the recall of any compounded sterile preparation provided to a patient, to a practitioner for office use, or a pharmacy for administration. Written procedures shall include, but not be limited to the requirements as specified in paragraph (3) of this subsection.
(2) The pharmacy shall immediately initiate a recall of any sterile preparation compounded by the pharmacy upon identification of a potential or confirmed harm to a patient.
(3) In the event of a recall, the pharmacist-in-charge shall ensure that:
(A) each practitioner, facility, and/or pharmacy to which the preparation was distributed is notified, in writing, of the recall;
(B) each patient to whom the preparation was dispensed is notified, in writing, of the recall;
(C) the board is notified of the recall, in writing, not later than 24 hours after the recall is issued;
(D) if the preparation is distributed for office use, the Texas Department of State Health Services, Drugs and Medical Devices Group, is notified of the recall, in writing;
(E) the preparation is quarantined; and
(F) the pharmacy keeps a written record of the recall including all actions taken to notify all parties and steps taken to ensure corrective measures.
(4) If a pharmacy fails to initiate a recall, the board may require a pharmacy to initiate a recall if there is potential for or confirmed harm to a patient.
(5) A pharmacy that compounds sterile preparations shall notify the board immediately of any adverse effects reported to the pharmacy or that are known by the pharmacy to be potentially attributable to a sterile preparation compounded by the pharmacy.

Texas State Board of Pharmacy
"Red Flags" Checklist for Pharmacies
YOU MIGHT BE A PILL MILL IF...

Check all that apply:

	(1) Your pharmacy fills a discernable pattern of prescriptions for prescribers who write essentially the same prescriptions for numerous persons, indicating a lack of individual drug therapy
	(2) Your pharmacy operates with limited hours of operation or closes after a certain threshold of controlled substance prescriptions are dispensed, and has overall low prescription dispensing volume.
	(3) Prescriptions presented to the pharmacy are for controlled substances with popularity as street drugs, such as opiates, benzodiazepines, muscle relaxants, psychostimulants, and/or cough syrups, or any combination of these drugs.
	(4) The prescriptions for controlled substances contain nonspecific or no diagnoses.
	(5) The prescriptions are commonly for the highest strength of the drug and/or for large quantities.
	(6) Dangerous drugs or OTC products (such as multi-vitamins or laxatives) are added to the controlled substance prescriptions, maintaining relatively consistent 1:1 ratio of controlled substances to dangerous drugs and/or OTC products dispensed as prescriptions.
	(7) Prescriptions are authorized by the same prescriber with what appears to be different handwriting on the hardcopy prescription drug order forms.
	(8) Upon contact with the prescriber's office, you are unable to engage in comprehensive discussion with the actual prescriber, or he/she is unconcerned about your apprehensions regarding his/her prescribing practices or unwilling to provide additional information, such as treatment goals and/or prognosis with prescribed drug therapy.
	(9) You rely solely on the prescriber's representation, or on the representation of the individual answering the phone at the number on the prescription, that prescriptions are legitimate.
	(10) The prescriber's clinic is not registered as a pain management clinic by the Texas Medical Board, despite routinely receiving prescriptions from the prescriber foropiates, benzodiazepines, and/or muscle relaxants.
	(11) Drugs prescribed are inconsistent with the prescriber's area of practice.
	(12) The prescriber of the drugs is located a significant distance from your pharmacy.
	(13) The prescriber has been subject to disciplinary action by the licensing board, had his/her DEA registration removed, or been subject to criminal action.
	(14) The Texas PMP system indicates that persons are obtaining prescriptions for the same drugs from multiple prescribers or that persons are filling prescriptions for the same drugs at multiple pharmacies.
	(15) The person's address is a significant distance from your pharmacy and/or from the prescriber's office.
	(16) Multiple persons with the same address present prescriptions from the same prescriber.
	(17) Persons pay with cash or credit card more often than through insurance.
	(18) Persons presenting controlled substance prescriptions are doing so in such a manner that varies from seeking routine pharmacy services (e.g., willing to wait in long lines to receive drugs, persons arrive in the same vehicle with prescriptions from same prescriber, one person presents to pick up prescriptions for multiple others, persons refer to drugs by "street names" and/or comment on drug's color, persons seek early refills, persons travel from outside reasonable trade area of pharmacy).
	(19) Your pharmacy charges and persons are willing to pay more for controlled substances than they would at nearby pharmacies.
	(20) Your pharmacy routinely orders controlled substances from more than one drug supplier, or your pharmacy has been discontinued by a drug supplier related to controlled substance orders.
	(21) Sporadic and non-consistent dispensing volume (including zero dispensing) varies from day to day and week to week, and your pharmacy does not maintain operational hours each week on Monday through Friday.
	(22) Your pharmacy employs or contracts security personnel during operational hours to prevent problems.
	(23) Your pharmacy has been previously warned or disciplined by the Texas State Board of Pharmacy for inappropriate dispensing of controlled substances (i.e., corresponding responsibility).

If you checked any of the above items, you should review the laws and rules regarding corresponding responsibility and non-therapeutic dispensing, especially 8oard rule §291.29, in the law book or on our website: www.pharmacy.texas.gov (click on Texas Pharmacy Rules and Laws). Additional educational material is available at: http://www.pharmacy.texas.gov/Nontherapeutic.asp. Failure of pharmacies and pharmacists to detect patterns of inappropriate dispensing of prescription drugs is unprofessional practice and constitutes grounds for disciplinary action.

1. INTRODUCTION

It is an absolute necessity that a system exists to rapidly remove a medicinal product from use if a defect is identified that could lead to the safety, quality or efficacy of the product being compromised and hence render the product unsuitable for its intended use.

The FDA is committed to providing assistance during a recall. Recall coordinators provide information about the recall process and are available to work closely with an organization throughout the course of the recall. If assistance is needed, contact a Division Recall Coordinator within the FDA Office of Regulatory Affairs (ORA). For a comprehensive list of FDA Recall Coordinator contact information by product type and location, please visit:
https://www.fda.gov/Safety/Recalls/IndustryGuidance/ucm129334.htm

2. SCOPE

This procedure describes the processing of information liable to result in medicinal product corrective action (PCA) and the organization of the systems set up at WP Pharma Labs (WPPL) for medicinal product Lot recall. The systems afford the possibility of rapidly and efficiently withdrawing manufactured products from the market in case of detection or suspicion of anomalies, and also the appropriate communication to ensure products supplied and distributed by WPPL are handled accordingly (e.g. quarantined, withdrawn, etc).

QA is not available, the Site Manager/PIC will assume the QA responsibilities for the product recall procedure.

5.2. The QA Manager approves all recall decisions. If the QA Manager is not available, the responsibility may be fulfilled by the Operations Manager.

5.3. Any person becoming aware of information liable to result in Product Corrective Action (e.g. Lot recall) is to forward the information immediately to the relevant Site QA and Management should be alerted immediately.

6. DEFINITIONS

Consignee – Anyone who received, purchased, or used the product being recalled.

Recall – as defined by the FDA, is a voluntary action by manufacturers to protect the public health from products that present a risk of injury or are defective. Recalls are applicable only to products that have been distributed and are not in the control of the manufacturer.

Note: Products enroute or products that have yet to be received by a customer are still considered to be in control by WP Pharma Labs, Inc.

7. PROCEDURE: NON-STERILE

7.1. The pharmacy shall immediately initiate a recall of any non-sterile preparation compounded by the pharmacy upon identification of a potential or confirmed harm to a patient.

7.2. Investigate the problem

7.2.1. QA department should investigate a potential problem with a product, which may include:

7.2.1.1. A timely investigation to determine whether a deviation in manufacturing occurred and, as applicable, whether the safety, purity, or potency of distributed products may have been affected

7.2.1.2. A prompt evaluation by a qualified person (Technical and Clinical evaluation by a Pharmacist and Management) and following established criteria, to ensure that potential risks are consistently assessed and investigated for products potentially affected.

7.3. Processing of the Information Liable to Result in Product Corrective Action

7.3.1. Product Corrective Action including medicinal product Lot recall of manufactured product is a decision taken in the event of:

7.3.1.1. Reports of adverse reactions (SOP 9.320) that could constitute a risk to public health, for which a causal relationship with the product administered, cannot be excluded and which are not listed in the summary of product characteristics as already identified effects.

7.3.1.2. Complaints evidencing, or giving rise to suspicion of, a quality defect.

7.4. Practical Conditions

7.4.1. The Site QA will notify the head of QA, the Site Manager/Pharmacist-in-Charge, or designee of the possibility of the need for a recall.

7.4.2. The Lot in question should be immediately quarantined, if a portion of the Lot is on site, and the need to examine other lots which could present the same defect is to be examined.

7.4.3. The Lot record and the quality control tests for the Lot will be examined in depth. Product distribution records and contact details should be immediately gathered.

7.5. Notification of the FDA

7.5.1. If upon completion of a risk assessment there is a significant community risk, the FDA will be notified by the head of QA if a decision is made to recall a product due to detection of anomalies with distributed and unused product.

7.5.2. The FDA assigns the recall classification listed below based on an evaluation of the health hazard presented by the product:

7.5.3. Class I Recall: A situation in which there is a reasonable probability that the use of or exposure to a violative product will cause serious adverse health consequences or death.

7.5.4. Class II Recall: A situation in which use of or exposure to a violative product may cause temporary or medically reversible adverse health consequences, or where the probability of serious adverse health consequences is remote.

7.5.5. Class III Recall: A situation in which use of or exposure to a violative product is not likely to cause adverse health consequences.

7.6. Recall Actions

7.6.1. When the recall decision has been taken, the QA department will execute Attachment 1 - Internal Notification of Product Recall and ensures that the following measures are immediately implemented.

7.6.1.1. Halt all shipments of the medicinal product Lot involved

7.6.1.2. Place the product, if available, in physical quarantine in an identified zone.

7.7. Identification of Customers

7.7.1. Site QA and Site Manager/Pharmacist-in-Charge obtains a list of customers to whom the product has been shipped.

7.7.2. The list states the quantities that have been shipped and the contact details.

7.7.3. Delivery companies will be contacted to allow a halt to distribution if the product is enroute.

7.8. Customer Information and Product Recall

7.8.1. It is necessary to alert all users (i.e. Physicians/Patients) of the affected product Lot or Lots requesting immediate discontinuation of use.

7.8.2. If deemed appropriate, a press release will also be used to notify patients.

7.8.3. In parallel, a Customer Notification Form (Attachment 2 - Customer Notification of Product Recall Example) is also completed and signed by the head of QA and forwarded by fax or email as rapidly as possible.

7.9. Effectiveness Checks

7.9.1. The purpose of effectiveness checks is to verify that all consignees (Physicians, Patients) have received notification about the recall and have taken appropriate action.

7.9.2. Consignees will be requested to complete Attachment 3 - Recall Response Form Example or may be contacted by personal visits, telephone calls, letters, or a combination thereof.

7.9.3. The recall strategy will specify the method(s) to be used for and the level of effectiveness checks that will be conducted, as follows:

7.9.3.1. Level A - 100 percent of the total number of consignees to be contacted;

7.9.3.2. Level B - Some percentage of the total number of consignees to be contacted, which percentage is to be determined on a case-by-case basis, but is greater than 10 percent and less than 100 percent of the total number of consignees;

7.9.3.3. Level C - 10 percent of the total number of consignees to be contacted;

7.9.3.5. Level E - No effectiveness checks

7.10. Notification of Regulatory Authorities

7.10.1. The local FDA district office should be informed immediately when a decision is made to recall a product. Each site should maintain contact information for their local FDA district office.

7.10.2. State Boards in which the affected site is licensed will be notified within 12 hours after the recall details have been finalized with CDER.

7.10.2.1. If the preparation is prepared as a batch, the board is notified of the recall in writing

7.10.2.2. If the preparation is distributed for office use (for WPPL purposes Vet only), the Texas Dept. of State Health Services, Drugs, and Medical Devices Group, will be notified of the recall in writing

7.11. Organization and Management of Returned Products

7.11.1. In the case of product return, it is to be implemented in compliance with the appropriate legislation.

7.11.2. The recalled products returned are clearly identified and stored separately in a defined rejected area.

7.11.3. A comparative balance of the quantities distributed and recovered (or destroyed in the user departments) is compiled and a full investigation is conducted and reported.

7.11.4. The Product Recall Report (Attachment 4) is completed and approved by the Site QA or designee.

7.12. Third-Party Recalls

7.12.1. In the event that a Vendor issues a recall on a product (i.e. drug product or device) that has been used in the preparation of a WP Pharma Labs product, a reconciliation (Attachment 5 - Third Party Product Recall Form) must be completed and customers who have received affected product will be notified (Attachment 6 - Customer Notification of Third-Party Product Recall Example).

7.13. Records

7.13.1. The records and archiving of the documents relating to medicinal product Lot recall are placed under the authority of the site QA. Refer to SOP 9.190 Record Retention.

7.13.2. A paper and hardcopy file are maintained which contains all details relevant to the inquiry including follow up investigations and the recommended corrective and/or preventative actions.

8. PROCEDURE – STERILE

8.1. The pharmacy shall immediately initiate a recall of any sterile preparation compounded by the pharmacy upon identification of a potential or confirmed harm to a patient.

8.2. Investigate the problem

8.2.1. QA department should investigate a potential problem with a product, which may include:

8.2.1.1. A timely investigation to determine whether a deviation in manufacturing occurred and, as applicable, whether the safety, purity, or potency of distributed products may have been affected

8.10. Notification of Regulatory Authorities

8.10.1. The local FDA district office should be informed immediately when a decision is made to recall a product. Each site should maintain contact information for their local FDA district office.

8.10.2. State Boards in which the affected site is licensed will be notified within 12 hours after the recall details have been finalized with CDER.

8.10.2.1. WPPL shall notify the board immediately of any adverse effects reported to the pharmacy or that are known by the pharmacy to be potentially attributable to a sterile preparation compounded by the pharmacy

8.10.2.2. If the preparation is prepared as a batch, the board is notified of the recall in writing

8.10.2.3. If the preparation is distributed for office use (not applicable), the Texas Dept. of State Health Services, Drugs, and Medical Devices Group, will be notified of the recall in writing

8.11. Organization and Management of Returned Products

8.11.1. In the case of product return, it is to be implemented in compliance with the appropriate legislation.

8.11.2. The recalled products returned are clearly identified and stored separately in a defined rejected area.

8.11.3. A comparative balance of the quantities distributed and recovered (or destroyed in the user departments) is compiled and a full investigation is conducted and reported.

NOTICE: U. S. TREASURY DEPARTMENT'S OFFICE OF FOREIGN ASSETS CONTROL (OFAC)

No coverage is provided by this Notice nor can it be construed to replace any provisions of any surety bond or other surety coverage provided. This Notice provides information concerning possible impact on your surety coverage due to directives issued by OFAC. **Please read this Notice carefully.**

The Office of Foreign Assets Control (OFAC) administers and enforces sanctions policy, based on Presidential declarations of "national emergency". OFAC has identified and listed numerous foreign agents, front organizations, terrorists, terrorist organizations, and narcotics traffickers as "Specially Designated Nationals and Blocked Persons". This list can be located on the United States Treasury's website – https://www.treasury.gov/resource-center/sanctions/SDN-List.

In accordance with OFAC regulations, if it is determined that you or any other person or entity claiming the benefits of any coverage has violated U.S. sanctions law or is a Specially Designated National and Blocked Person, as identified by OFAC, any coverage will be considered a blocked or frozen contract and all provisions of any coverage provided are immediately subject to OFAC. When a surety bond or other form of surety coverage is considered to be such a blocked or frozen contract, no payments nor premium refunds may be made without authorization from OFAC. Other limitations on the premiums and payments may also apply.

BEFORE THE

DEPARTMENT OF HEALTH CARE ACCESS AND INFORMATION

STATE OF CALIFORNIA

In the Matter of the Penalty Issued to: **VISTAPHARM INC.** Appellant.	HCAI No. 21-030-Q1

PROPOSED DECISION

This matter was heard before Michelle Church-Reeves, Hearing Officer, Department of Health Care Access and Information ("HCAI"), successor to the Office of Statewide Health Planning and Development ("OSHPD"),[1] State of California, on Wednesday, March 16, 2022, beginning at 10:32 a.m. PDT.

HCAI was represented by Geoffrey Trautman, Attorney. Dionne Evans-Dean, Staff Services Manager II, Cost Transparency in Prescription Drug Pricing ("CTRx") Section, Jacob Rivera, Staff Services Manager I, CTRx, and Rodney Garcia, Associate Governmental Program Analyst for CTRx, were also present on behalf of HCAI.

VistaPharm Inc., "Appellant," was represented by Samantha Kirkland, Sate License Servicing, Inc., contractor for Appellant, Ivan Cartagena, VistaPharm Vice President for Technical Operations, Noel Greenburger, Vertice Chief Commercial Officer, and James Farley, Vertice Senior Business Analyst. VistaPharm was acquired by Vertice Pharma in 2015.

Both documentary and testamentary evidence was received. The matter was submitted

[1] Stat. 2021, Ch. 143 (A.B. 133), §§ 30, 31.

for decision and the record was closed on Wednesday, March 16, 2022, at 11:26 a.m. PDT.

PROCEDURAL FINDINGS

1. On October 4, 2021, HCAI assessed a penalty against Appellant in the amount of $18,000 for the late filing of its quarterly Wholesale Acquisition Cost ("WAC") Increase Report.

2. Appellant appealed the penalty by submitting a Request for Administrative Hearing form dated October 18, 2021 and received via email by the Hearing Office on October 18, 2021.

3. Appellant submitted its appeal within the required thirty days from the date of the penalty notice.[2]

4. The hearing was held electronically using videoconferencing at the election of the Hearing Office. No party requested an in-person hearing or objected to an electronic hearing.

5. HCAI submitted written exhibits to the Hearing Office and Appellant in advance of the hearing in a timely manner. Exhibits 1 through 14 were found to be authentic and relevant; and admitted to the record.

6. Appellant submitted a written statement to the Hearing Office and HCAI at the time of appeal. The written statement was found to be authentic and relevant; and admitted to the record.

FACTUAL FINDINGS

1. Prior to the CTRx program implementation, Appellant was mailed the Notice of Proposed Rulemaking.[3] Appellant did not dispute its receipt.

2. On or about January 7, 2021, a representative for Appellant, Walter Ayala, registered with the CTRx program.[4] He was advised at the time that he should "add at least one additional, authorized user to the CTRx system."

---

[2] Health & Saf. Code, § 127681(f).
[3] Exhibits 1 and 2.
[4] Exhibits 3, 4, and 5.

3. On or about February 10, 2021, Appellant submitted a New Drug Report.[5]

4. On or about July 9, 2021, HCAI sent a reminder email to Appellant's primary contact, Mr. Ayala, for the Saturday, July 31, 2021, due date.[6]

5. On or about July 30, 2021, Appellant contacted Mr. Garcia and requested that Walter Ayala be removed as the primary contact for Appellant and replaced by James Farley. Mr. Garcia updated Appellant's registration at approximately 12:13 p.m. PDT and confirmed that Mr. Farley had access for Appellant at approximately 1:50 p.m. PDT on Friday, July 30, 2021.[7]

6. At approximately 6:49 a.m. PDT on Monday, August 2, 2021, Mr. Farley logged in and updated his user profile.[8]

7. On or about August 18, 2021, Appellant submitted the quarterly WAC Increase Report at issue.[9]

8. Appellant was required under Health and Safety Code section 127679 to file its WAC Increase Quarterly Report for Donnatal Elixir by Saturday, July 31, 2021, at 11:59 p.m. Pacific Time.[10] Penalties accrued from August 1, 2021 until August 18, 2021 when the report was filed.

9. In accordance with Health and Safety Code section 127679, subsection (e), HCAI assessed penalties in the amount of $1,000 per day for 18 days, resulting in a total penalty amount of $18,000.[11] The Penalty Notice was transmitted to Appellant on October 4, 2021. Ms. Schneider of State License Servicing, Inc. contacted Mr. Garcia that same day to ask why the emailed report was not accepted. Mr. Garcia responded that he was unable to submit a report on behalf of a manufacturer.[12]

10. These facts were substantiated both by oral statements made under oath by Mr. Garcia at the hearing and written exhibits.

[12] Exhibit 13. *See also* Cal. Code Regs., tit. 22, § 96078.

11. Under Health and Safety Code section 127679, subsection (f), a penalty may "be reviewed on appeal, and the penalty may be reduced or waived for good cause."

12. Appellant submitted a written statement with its appeal and made oral statements of facts it believes show good cause why its reports were not submitted in a timely manner.

13. Appellant testified that it was aware of, registered with, and participating in the CTRx program prior to the report at issue. Appellant further testified that the CTRx team was not able to reassign login credentials prior to close of business on Friday, July 30, 2021. Appellant included an emailed spreadsheet with its communications with HCAI on Friday July 30, 2021, which it argued fulfilled the filing requirements as it was submitted in the Department's format. Appellant further testified that Mr. Farley was unable to add its report preparer, Jennifer Schneider, for several weeks after he was granted access.

14. Appellant further testified that its previous representative, Mr. Ayala, left employment on or about May of 2021.

15. These facts were substantiated by oral statements made under oath by Ms. Kirkland at the hearing and written exhibits.

16. The initial statements of both parties were not rebutted.

17. Mr. Garcia further testified that he had no reason to believe the emailed spreadsheet was lacking data elements or materially different from the data that was submitted on August 18, 2021. The emailed spreadsheet was not attached to the exhibits submitted by either party.

DISCUSSION AND LEGAL CONCLUSIONS

1. The issue here is whether Appellant had good cause, as required by Health and Safety Code section 127679, for failing to file its Donnatal Elixir quarterly WAC Increase Report by July 31, 2021, and whether the penalty should be reduced or waived.

2. In *Waters v. Superior Court*, the California Supreme Court stated that, "good cause may be equated to a good reason for a party's failure to perform that specific requirement from which

he seeks to be excused."[13] Good cause is sometimes defined as circumstances beyond the party's control, and not related to the party's own negligent act or failure to act. On an individual basis, courts and administrative bodies have often found that hospitalization, incapacitation, accident involvement, or loss or unavailability of records may constitute good cause.[14] However, good cause is not limited to the listed reasons, or to factors outside the control of the party. The determination of good cause in a particular context should utilize common sense based upon the totality of the circumstances, including the purpose of the underlying statutory scheme.[15]

3. A party's diligence is a factor in determining good cause for an extension or a delay.[16] The substantiated facts show that Appellant was aware that its reports were coming due through its own processes. However, Appellant's primary contact left employment and Appellant took no steps to update its contact information with the CTRx program until Friday, July 30, 2021, the day before the report at issue was due. HCAI staff acted on Appellant's request to change its primary contact that same day and within normal business hours, albeit at approximately 4:50 p.m. EDT. Appellant further testified it made a good faith effort to comply with law by submitting the required information via email. In addition, Appellant testified has always acted in good faith; it registered with the CTRx program before its first reports were due and timely filed one previous report. This testimony was not rebutted and is credible.

4. However, Mr. Farley also accessed the filing system on behalf of Appellant on Monday, August 2, 2021, but Appellant failed to submit the report at issue for more than two weeks. Appellant merely offered that Mr. Farley had difficulty adding Ms. Schneider to the system as its only explanation for the additional delay between August 2, 2021 and August 18, 2021. Nor did

Appellant offer any explanation for the delay in submitting its request to update its primary contact between May of 2021 and July 30, 2021. This failure occurred because, although Appellant had months to add additional users and update its primary contact information, it negligently waited until the last minute to do so. For these reasons, Appellant did not establish good cause for its delay.

5. HCAI regulations clearly state that CTRx reports "shall be submitted to the Office through the Office's website using the report submission portal at https://oshpd.ca.gov/data-and-reports/cost-transparency/rx/."[17] Appellant did email the information in good faith, and there is no evidence which indicates that that email did not contain the elements required by statute. However, this did not comply with HCAI regulations. Furthermore, the fact that the report at issue was eventually submitted online using the CTRx system makes it clear that Appellant was aware that submitting the report via email was not an authorized submission method, and Appellant provided insufficient justification for the additional delay.

6. These facts taken together demonstrate that the circumstances which contributed to the late filing were largely within the Appellant's control. Therefore, Appellant has not demonstrated good cause for a reduction or waiver of the $18,000 penalty.

CONCLUSION

For the reasons set forth above, the $18,000 penalty assessed against Appellant for failure to timely file the quarterly WAC Increase Report for Donnatal Elixir by July 31, 2021 is upheld.

The attached Citation and Fine, ("Citation") is being issued pursuant to Business and Professions Code section 125.9 and California Code of Regulations, title 16, section 1775 et. seq., for violations of the laws and regulations that govern the practice of pharmacy in California. (For exact language refer to the California Pharmacy Law and Index, located on the Board's web site, at www.pharmacy.ca.gov, under Pharmacy Law and Regulation).

The attached Citation references the specific statutes and regulations violated, defines each violation charged and specifies any fine(s) assessed. The attached Citation details the conduct that resulted in the issuance of the Citation.

IT IS YOUR RESPONSIBILITY TO READ THE ENTIRE CITATION AND INSTRUCTIONS, TO UNDERSTAND THE PROCESS FOR CONTESTING THE CITATION AND TO RESPOND TO THE CITATION WITHIN THE FOLLOWING TIME FRAMES:

- November 19, 2021: Unless the Citation is contested payment of fine(s) must be received by the Board.
- November 03, 2021: Any contest of the Citation by request for an informal Office Conference must be received by the Board.
- November 19, 2021: Any contest of the Citation by request for a formal Appeal must be received by the Board.

The issuance of a Citation by the Board of Pharmacy is considered an administrative action and substantiated resolution of a complaint and/or investigation. If a hearing is not requested to contest the Citation(s), payment of any fine(s) shall not constitute an admission of the violation(s) charged. Payment in full of the fine(s) assessed shall be represented as a satisfactory resolution of the matter in any public disclosure. (Business and Professions Code section 125.9; California Code of Regulations section 1775).

Additionally, if, at the time of license renewal, the Board has not received full payment of assessed fine(s) and a request to contest the Citation has not been received within the time frames specified, the license shall not be renewed until the assessed fine(s) and renewal fee/s are paid in full.

If you have any questions regarding this Citation please contact Joshua Monforte, Citation and Fine Analyst at (916) 518-3014.

INSTRUCTION

Read the Following Carefully and Thoroughly

You are hereby served with a Citation issued by the Executive Officer of the California State Board of Pharmacy or her designee. The following instructions are provided to assist you in your timely completion of the Citation process.

PAYMENT OF FINE

- Payment must be made by **November 19, 2021.**
- Make check or money order payable to the Board of Pharmacy. Do not submit cash.
- Attach the enclosed "copy" of your Citation

Mail payment to: State Board of Pharmacy
Attn: Cashier
2720 Gateway Oaks Drive, Suite 100
Sacramento, CA 95833

Unless contested, Citations are final 30 days from the date of service. Payment of a fine is not an admission of the violation charged. A Citation becomes part of your record, and remains there for five years. It can be used as an aggravating factor for future violations. Citations are public information and as such may be released to the public in accordance with the Public Records Act and Information Practices Act.

CONTESTING THE CITATION (CCR §1775.4)

If you wish to contest all or part of your Citation you may request an informal office conference or an appeal before an administrative law judge, or both. If you wish to request both you must submit both forms. If you prevail at the office conference your request for an appeal shall be deemed withdrawn. Please note that the time frames that allow you to request an office conference and an appeal run concurrently. You must submit your request(s) according to the following instructions:

REQUEST FOR OFFICE CONFERENCE (CCR §1775.4 subd. (b))

- Complete attached "Request for Office Conference".
- Mail form to arrive at the Board office no later than November 03, 2021 to the address at the bottom of the form.
- You will be advised by the Board in writing as to the date and time of your appearance.
- You are allowed one postponement.

An office conference is not a hearing. It is an informal discussion of the events that took place, and an opportunity for you to present information and mitigating factors pertaining to the Citation that you would like considered. The Executive Officer and or her designee represent the Board of Pharmacy at this meeting. One other individual of your choice may accompany you to this meeting. Office conferences are not open to the public. There is no discovery available in this process. You will not be allowed to present or question witnesses. However, you may present any written statements or documents that you believe are relevant.

After your office conference, the Citation may be affirmed, modified or dismissed. You will be advised of the decision in writing within 14 calendar days from the date of the conference. If the Citation is affirmed you will have 30 days from the date of the decision letter to comply with the conditions of your Citation. If the Citation is modified, the Citation originally issued shall be considered withdrawn and a new Citation will be issued. The decision issued after the office conference shall be deemed to be a final order with regard to the Citation issued, including the administrative fine levied, and/or an order of abatement.

REQUEST FOR APPEAL (CCR § 1775.4 subd. (a))

- Complete attached "Request for Hearing".
- Mail form to arrive at the Board office no later than November 19, 2021 to the address at the bottom of the form.
- You will be advised in writing as to the date and time of your hearing.

An appeal is a formal adjudicative hearing before an Administrative Law Judge. A Deputy Attorney General will represent the Board of Pharmacy at this hearing. These proceedings shall be conducted in accordance with the provisions of Chapter 5, commencing with Section 11500 of Part 1 of Division 3 of Title 2 of the Government Code.

If you have any questions regarding any documents enclosed please contact Joshua Monforte, Citation and Fine Analyst at (916) 518-3014.

VISTAPHARM, INC.,

Respondent.

Case Nos.: 2019-013525
2019-017710
2019-017716
2019-017304

SETTLEMENT AGREEMENT

Pursuant to Section 120.57(4), Florida Statutes, the above-named parties hereby enter into this Settlement Agreement (hereinafter, "this agreement") as disposition of the alleged violations described in the Notice of Violation in case numbers 2019-013525, 2019-017710, 2019-017716, and 2019-017304 (hereinafter, "the allegations"). The terms herein become effective upon rendition of the final order, which shall incorporate this agreement.

The State of Florida, Department of Business & Professional Regulation, Division of Drugs, Devices, and Cosmetics (hereinafter, "the Department") is charged with regulating Drugs, Devices, and Cosmetics pursuant to Section 20.165 and Chapter 499, Florida Statutes.

STIPULATED FACTS

1. VistaPharm, Inc. (hereinafter, "Respondent") is permitted as an over-the-counter drug manufacturer, a prescription drug wholesale distributor, and a prescription drug repackager by the Department, having been issued permit numbers 21:790, 22:20237, and 27:63 respectively.

2. Respondent's address of record is 7265 Ulmerton Road, Largo, Florida 33771.

3. Respondent was issued a Notice of Violation on September 24, 2019, alleging that

it committed certain violations of Chapter 499, Florida Statutes, and the administrative rules adopted pursuant thereto.

CONCLUSIONS OF LAW

4. Respondent, by and through its undersigned agent, admits that it is subject to the applicable provisions of Chapter 499, Florida Statutes, and the relevant jurisdiction of the Department for this specific matter and allegations.

5. Respondent neither admits nor denies the allegations in the Notice of Violation issued in case numbers 2019-013525, 2019-017710, 2019-017716, and 2019-017304, but enters into this agreement for the purpose of resolving the issues raised by the Department.

SETTLEMENT TERMS

6. Respondent affirms that it currently is or will be in compliance with Chapter 499, Florida Statutes, within 60 days of the adoption of this agreement in a final order by the Department.

7. Respondent agrees to pay a settlement amount of sixteen-thousand dollars ($16,000.00). **Payment of the settlement amount shall be made only by corporate check, cashier's check, or money order to the Professional Regulation Trust Fund, and shall be remitted to The Florida Department of Business & Professional Regulation, Division of Drugs, Devices and Cosmetics, 2601 Blair Stone Road, Tallahassee, Florida 32399-1047, Attention: George Coukoulis, Administrative Assistant.** Respondent acknowledges that payment is enclosed with this agreement. The payment and execution of this agreement by Respondent are absolute conditions precedent to the Department's execution of this agreement, and all allegations contained herein will be resolved.

8. The acceptance of this agreement constitutes disciplinary action within the meaning of Section 499.066, Florida Statutes and Rule 61N-1.024, Florida Administrative

Code. While Respondent understands that certain disclosures must be made by Florida Public Records Law, Respondent agrees to only the minimum exposure under the Public Records Law and reserves the right to protect all trade/secret confidential information as described under federal FOIA regulations, FDA regulations and Florida law.

STANDARD PROVISIONS

9. It is expressly understood that a violation of the terms of this agreement shall be considered a violation of Chapter 499, Florida Statutes, for which disciplinary action may be taken.

10. The parties agree that this agreement will be incorporated into a final order that will be filed with the Department agency clerk and will be a public document. The final order will contain no material terms other than those in this agreement. **The final order shall operate to close case numbers** 2019-013525, 2019-017710, 2019-017716, and 2019-017304. **The final order shall be the final disposition in this proceeding and shall constitute final agency action with respect thereto.**

11. Respondent expressly waives all further procedural steps and expressly waives all rights to seek judicial review of, or to otherwise challenge or contest the validity of, this agreement and the final order in which this agreement is incorporated, provided the final order does not conflict with this agreement.

12. Respondent waives the right to seek any attorney's fees or costs from the Department in connection with this proceeding.

13. This agreement may be executed in any number of counterparts including, without limitation, telecopies and facsimile transmission copies, all of which together shall constitute a single document.

14. The parties agree that this agreement represents a fair, appropriate, and reasonable resolution to, and final disposition of, all disputes and matters made subject hereof.

15. The terms and provisions of this agreement are severable and, if any term or provision is declared or deemed void, invalid, illegal, or otherwise unenforceable, then all remaining terms and provisions shall remain in full force and effect.

16. It is expressly understood that this agreement is subject to approval of the Division of Drugs, Devices, and Cosmetics, and has no force or effect until the Division accepts this agreement and adopts it in a final order.

17. The signatories hereto are vested with the authority to execute this agreement on behalf of their respective principals and, as duly designated representatives, to fully bind such principals.

Gentlemen –

Attached is the Administrator license application. The original has been mailed via the US Mail.

Note, the address in the Administrator license is slightly different from the original application – the correct address is on the Administrator license. According to the administrator license application form, the medical provider should be able to service the medical products sold, including repair and maintenance, and we are to employ people to provide these services. Our administrator wanted to make it clear that most of our medical devices are implants and must be implanted by surgeons. After implantation, we cannot repair or maintain the implants. We do provide representatives that are available for the surgeries so that the surgeon can ask questions about the implants. Additionally, he is available to direct questions to the appropriate person if any issues arise.

Item 1.01 Entry into a Material Definitive Agreement.

On August 19, 2022, Zimmer Biomet Holdings, Inc. (the "Company") entered into a new five-year revolving credit agreement and a new 364-day revolving credit agreement, as described below.

The Five-Year Revolving Credit Agreement, dated as of August 19, 2022, among the Company, the lenders party thereto and JPMorgan Chase Bank, N.A., as administrative agent (the "Five-Year Credit Agreement"), is a five-year unsecured revolving facility of $1.5 billion (the "Five-Year Revolving Facility"). The Five-Year Credit Agreement will mature on August 19, 2027, with two one-year extensions exercisable at the Company's discretion and subject to required lender consent. The Five-Year Credit Agreement also includes an uncommitted incremental feature allowing the Company to request an increase of the facility by an aggregate amount of up to $500.0 million. Borrowings under the Five-Year Revolving Facility will be used for general corporate purposes.

Borrowings under the Five-Year Credit Agreement will bear interest at floating rates, based upon either an adjusted Term secured overnight financing rate ("SOFR") for the applicable interest period or an alternate base rate, in each case, plus an applicable margin determined by reference to the Company's senior unsecured long-term debt credit rating. The Company will pay a facility fee on the aggregate amount of the Five-Year Revolving Facility at a rate determined by reference to the Company's senior unsecured long-term debt credit rating.

The Five-Year Credit Agreement contains customary affirmative and negative covenants and events of default for unsecured financing arrangements, including, among other things, limitations on consolidations, mergers, and sales of assets. The Five-Year Credit Agreement also requires that the Company maintain a consolidated indebtedness to consolidated EBITDA ratio of no greater than 4.5 to 1.0 as of the last day of any period of four consecutive fiscal quarters (with such ratio subject to increase to 5.0 to 1.0 in connection with a qualified material acquisition and certain other restrictions).

The 364-Day Revolving Credit Agreement, dated as of August 19, 2022, among the Company, the lenders party thereto and JPMorgan Chase Bank, N.A., as administrative agent (the "364-Day Credit Agreement"), is an unsecured revolving credit facility in the principal amount of $1.0 billion (the "364-Day Revolving Facility"). The 364-Day Credit Agreement will mature on August 18, 2023, and borrowings under the 364-Day Revolving Facility will be used for general corporate purposes.

Borrowings under the 364-Day Credit Agreement will bear interest at floating rates based upon either an adjusted Term SOFR for the applicable interest period or an alternate base rate, in each case, plus an applicable margin determined by reference to the Company's senior unsecured long-term debt credit rating. The Company will pay a facility fee on the aggregate amount of the 364-Day Revolving Facility at a rate determined by reference to its senior unsecured long-term debt credit rating.

The 364-Day Credit Agreement contains customary affirmative and negative covenants and events of default for an unsecured financing arrangement, including, among other things, limitations on consolidations, mergers and sales of assets. The 364-Day Credit Agreement also requires that the Company maintain a consolidated indebtedness to consolidated EBITDA ratio of no greater than 4.5 to 1.0 as of the last day of any period of four consecutive fiscal quarters (with such ratio subject to increase to 5.0 to 1.0 in connection with a qualified material acquisition and certain other restrictions).

The foregoing descriptions of the Five-Year Credit Agreement and the 364-Day Credit Agreement are qualified in their entirety by reference to the full text of the Five-Year Credit Agreement and the 364-Day Credit Agreement, which are filed as Exhibit 10.1 and Exhibit 10.2 hereto, respectively, and are incorporated herein by reference.

In the ordinary course of business, certain of the lenders under the Five-Year Credit Agreement and/or the 364-Day Credit Agreement and their affiliates have provided, and may in the future provide, investment banking,

commercial banking, cash management, foreign exchange or other financial services to the Company and its affiliates for which they have received, and may in the future receive, compensation.

Item 1.02 Termination of a Material Definitive Agreement.

In connection with the entry into the Five-Year Credit Agreement and the 364-Day Credit Agreement, on August 19, 2022, the Five-Year Revolving Credit Agreement dated as of August 20, 2021, among the Company, JPMorgan Chase Bank, N.A., as administrative agent, and the lenders party thereto (the "2021 Five-Year Credit Agreement"), and the 364-Day Revolving Credit Agreement dated as of August 20, 2021, among the Company, JPMorgan Chase Bank, N.A., as administrative agent, and the lenders party thereto (the "2021 364-Day Credit Agreement" and, together with the 2021 Five-Year Credit Agreement, the "Prior Credit Agreements") were terminated and are of no further force or effect (except with respect to any obligations and provisions that survive the termination thereof). There were no borrowings outstanding under either of the Prior Credit Agreements at the time they were terminated, and all existing letters of credit issued under the 2021 Five-Year Credit Agreement were transitioned to, and now constitute outstanding letters of credit under, the Five-Year Credit Agreement.

Item 2.03 Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.

The disclosure required by this Item is included in Item 1.01, which is incorporated herein by reference.

Item 9.01 Financial Statements and Exhibits.

FIVE-YEAR REVOLVING CREDIT AGREEMENT dated as of August 19, 2022 (as amended and in effect from time to time, this "Agreement"), among ZIMMER BIOMET HOLDINGS, INC., a Delaware corporation (the "Borrower"), the LENDERS party hereto and JPMORGAN CHASE BANK, N.A., as administrative agent.

The Borrower has requested that the Lenders, on the terms and subject to the conditions herein set forth, extend credit to the Borrower in the form of Loans at any time and from time to time prior to the Maturity Date in an aggregate principal amount not in excess of $1,500,000,000 at any time outstanding. The proceeds of the Loans shall be used for general corporate purposes. The Borrower has also requested that the Issuing Lenders, on the terms and subject to the conditions herein set forth, issue Letters of Credit in an aggregate face amount at any time outstanding not in excess of $50,000,000 to support payment obligations incurred for general corporate purposes of the Borrower and the Subsidiaries.

Accordingly, the parties hereto agree as follows:

ARTICLE I

Definitions

SECTION 1.01. Defined Terms. As used in this Agreement, the following terms have the meanings specified below:

"ABR Borrowing" shall mean any Borrowing comprised of ABR Loans.

"ABR Loan" shall mean any Loan that bears interest at a rate determined by reference to the Alternate Base Rate.

"Additional Amount" shall have the meaning set forth in Section 5.12(a).

"Adjusted Daily Simple SOFR" shall mean an interest rate per annum equal to (a) the Daily Simple SOFR plus (b) 0.10% per annum; provided that if the Adjusted Daily Simple SOFR as so determined would be less than zero, such rate shall be deemed to be zero.

"Adjusted Term SOFR" shall mean, for any Interest Period, an interest rate per annum equal to (a) the Term SOFR for such Interest Period plus (b) 0.10% per annum; provided that if the Adjusted Term SOFR as so determined would be less than zero, such rate shall be deemed to be zero.

"Administrative Agent" shall mean JPMorgan in its capacity as administrative agent under any of the Loan Documents, or any successor administrative agent.

"Administrative Questionnaire" shall mean an administrative questionnaire in the form supplied by the Administrative Agent.

"Affected Financial Institution" shall mean (a) any EEA Financial Institution or (b) any UK Financial Institution.

"Affiliate" shall mean, when used with respect to a specified Person, another Person that directly or indirectly Controls or is Controlled by or is under common Control with the Person specified.

"Agent Parties" shall have the meaning set forth in Section 12.01(c).

"Aggregate Commitments" shall mean, at any time, the Commitments of all the Lenders at such time.

"Agreement" shall have the meaning set forth in the preamble.

"Alternate Base Rate" shall mean, for any day, a rate per annum equal to the greatest of (a) the Prime Rate in effect on such day, (b) the NYFRB Rate in effect on such day plus ½ of 1% per annum and (c) the Adjusted Term SOFR for a one-month Interest Period as published two U.S. Government Securities Business Days prior to such day (or, if such day is not a U.S. Government Securities Business Day, the immediately preceding U.S. Government Securities Business Day) plus 1% per annum. For purposes of clause (c) above, the Adjusted Term SOFR for any day shall be based on the Term SOFR Reference Rate at approximately 5:00 a.m., Chicago time, on such day (or any amended publication time for the Term SOFR Reference Rate, as specified by the CME Term SOFR Administrator in the Term SOFR Reference Rate methodology); provided that (i) if such rate shall be less than zero, such rate shall be deemed to be zero and (ii) if such rate is not available or cannot be determined, such rate shall be deemed to be zero. Any change in the Alternate Base Rate due to a change in the Prime Rate, the NYFRB Rate or the Adjusted Term SOFR shall be effective from and including the effective date of such change in the Prime Rate, the NYFRB Rate or the Adjusted Term SOFR, as the case may be.

"Ancillary Document" shall have the meaning set forth in Section 12.10(b).

"Anti-Corruption Laws" shall mean all laws, rules, and regulations of any jurisdiction applicable to the Borrower or any of its Affiliates from time to time concerning or relating to bribery, corruption or money laundering, including the United States Foreign Corrupt Practices Act of 1977 and the UK Bribery Act of 2010 (and any regulations promulgated thereunder).

"Applicable Margin" shall mean, for each Loan, the applicable rate per annum determined pursuant to the Pricing Grid.

"Applicable Percentage" shall mean, with respect to any Lender at any time, the percentage (carried out to the ninth decimal place) of the Aggregate Commitments represented by such Lender's Commitment at such time; provided that, for purposes of Section 5.15 when a Defaulting Lender shall exist, "Applicable Percentage" shall mean, with respect to any Lender at any time, the percentage (carried out to the ninth decimal place) of the Aggregate Commitments (but disregarding any Defaulting Lender's Commitment) represented by such Lender's Commitment at such time. If the Commitment of each Lender has been terminated pursuant to Article X or if the Aggregate Commitments have expired, then the Applicable Percentage of each Lender shall be determined based on the Applicable Percentage of such Lender most recently in effect, giving effect to any subsequent assignments and to any Lender's status as a Defaulting Lender at the time of determination.

"Approved Fund" shall mean any Person (other than a natural person, or a holding company, investment vehicle or trust for, or owned and operated for the primary benefit of, a natural person) that is (or will be) engaged in making, purchasing, holding or investing in bank loans and similar extensions of credit in the ordinary course of its business and that is administered or managed by (a) a Lender, (b) an Affiliate of a Lender or (c) an entity or an Affiliate of an entity that administers or manages a Lender.

"Arranger" shall mean each of JPMorgan, BofA Securities, Inc., Barclays Bank PLC, BNP Paribas Securities Corp., Citibank, N.A., DNB Markets, Inc., Goldman Sachs Bank USA, HSBC Securities (USA) Inc., Mizuho Bank, Ltd., Morgan Stanley MUFG Loan Partners, LLC, acting through Morgan Stanley Senior Funding, Inc. and MUFG Bank, Ltd., RBC Capital Markets and Sumitomo Mitsui Banking Corporation, in each case in its capacities as a joint lead arranger and a joint bookrunner for the credit facilities established hereunder.

"Assignment and Assumption" shall mean an assignment and assumption entered into by a Lender and an Eligible Assignee in the form of Exhibit A, or such other form as shall be approved by the Administrative Agent (including electronic documentation generated by use of an electronic platform).

"Available Tenor" shall mean, as of any date of determination and with respect to the then-current Benchmark, as applicable, any tenor for such Benchmark (or component thereof) or payment period for interest calculated with reference to such Benchmark (or component thereof), as applicable, that is or may be used for determining the length of an Interest Period for any term rate or otherwise for determining any frequency of making payments of interest calculated pursuant to this Agreement as of such date and not including, for the avoidance of doubt, any tenor for such Benchmark that is then-removed from the definition of "Interest Period" pursuant to Section 5.09(b)(iv).

"Bail-In Action" shall mean the exercise of any Write-Down and Conversion Powers by the applicable Resolution Authority in respect of any liability of an Affected Financial Institution.

"Bail-In Legislation" shall mean (a) with respect to any EEA Member Country implementing Article 55 of Directive 2014/59/EU of the European Parliament and of the Council of the European Union, the implementing law, rule, regulation or requirement for such EEA Member Country from time to time which is described in the EU Bail-In Legislation Schedule, and (b) with respect to the United Kingdom, Part I of the United Kingdom Banking Act 2009 and any other law, regulation or rule applicable in the United Kingdom relating to the resolution of unsound or failing banks, investment firms or other financial institutions or their affiliates (other than through liquidation, administration or other insolvency proceedings).

"Bankruptcy Event" shall mean, with respect to any Person, that such Person has become the subject of a voluntary or involuntary bankruptcy or insolvency proceeding, or has had a receiver, conservator, trustee, administrator, custodian, assignee for the benefit of creditors or similar Person charged with the reorganization or liquidation of its business appointed for it, or, in the good faith determination of the Administrative Agent, has taken any action in furtherance of, or indicating its consent to, approval of or acquiescence in, any such proceeding or appointment

or has had any order for relief in such proceeding entered in respect thereof; provided that a Bankruptcy Event shall not result solely by virtue of (a) any ownership interest, or the acquisition of any ownership interest, in such Person by a Governmental Authority so long as such ownership interest does not result in or provide such Person with immunity from the jurisdiction of courts within the United States or from the enforcement of judgments or writs of attachment on its assets or permit such Person (or such Governmental Authority) to reject, repudiate, disavow or disaffirm any contracts or agreements made by such Person or (b) an Undisclosed Administration.

"Benchmark" shall mean, initially, the Term SOFR; provided that if a Benchmark Transition Event and the related Benchmark Replacement Date have occurred with respect to the Term SOFR or the then-current Benchmark, then "Benchmark" shall mean the applicable Benchmark Replacement to the extent that such Benchmark Replacement has replaced such prior benchmark rate pursuant to Section 5.09(b)(i).

"Benchmark Replacement" shall mean, for any Available Tenor, the first alternative set forth in the order below that can be determined by the Administrative Agent for the applicable Benchmark Replacement Date:

(1) the Adjusted Daily Simple SOFR; and

(2) the sum of: (a) the alternate benchmark rate that has been selected by the Administrative Agent and the Borrower as the replacement for the then-current Benchmark for the applicable Corresponding Tenor giving due consideration to (i) any selection or recommendation of a replacement benchmark rate or the mechanism for determining such a rate by the Relevant Governmental Body and/or (ii) any evolving or then-prevailing market convention for determining a benchmark rate as a replacement for the then-current Benchmark for Dollar-denominated syndicated credit facilities at such time in the United States; and (b) the related Benchmark Replacement Adjustment.

If the Benchmark Replacement as determined pursuant to clause (1) or (2) above would be less than the Floor, the Benchmark Replacement will be deemed to be the Floor for the purposes of this Agreement and the other Loan Documents.

"Benchmark Replacement Adjustment" shall mean, with respect to any replacement of the then-current Benchmark with an Unadjusted Benchmark Replacement for any applicable Interest Period and Available Tenor for any setting of such Unadjusted Benchmark Replacement, the spread adjustment, or method for calculating or determining such spread adjustment, (which may be a positive or negative value or zero) that has been selected by the Administrative Agent and the Borrower for the applicable Corresponding Tenor giving due consideration to (a) any selection or recommendation of a spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of such Benchmark with the applicable Unadjusted Benchmark Replacement by the Relevant Governmental Body on the applicable Benchmark Replacement Date and/or (b) any evolving or then-prevailing market convention for determining a spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of such Benchmark with the applicable Unadjusted Benchmark Replacement for Dollar-denominated syndicated credit facilities at such time in the United States.

Re: CEASE and DESIST/CITATION: Case No. 22-223
Unlicensed Activity in Nevada

Dear Sir or Madam:

The Nevada State Board of Pharmacy ("Board") has determined, based upon an audit conducted by Board's staff, that Zimmer Biomet ("Zimmer") has engaged in the business of wholesaling, and/or distributing prescription drugs/medical products or devices into this State without a license. This constitutes a violation of Nevada law, including, without limitation, NRS 639.100, NRS 639.233, NRS 639.288, NRS 639.310, NAC 639.593, and NAC 639.6944.

Zimmer is hereby ordered pursuant to NRS 639.2895(1) to CEASE and DESIST from engaging in the business of furnishing medical products/devices in this State unless and until a license is fully approved and issued. This letter shall serve as a CITATION pursuant to NRS 639.2895(2), for unlicensed operation of activity. The Board has assessed an administrative fine of five thousand dollars ($5,000.00) pursuant to NRS 639.2895(3).

Zimmer must pay this administrative fine within 30 days of receipt of this citation, or otherwise contact Board staff to request an alternative payment plan. Payment must be by *cashier's check, certified check* or *money order* made payable to "State of Nevada, Office of the Treasurer," to be received at the Board's Reno office, located at 985 Damonte Ranch Parkway – Suite 206, Reno, NV 89521.

Zimmer has the right to appeal this citation by submitting a written request for a hearing to the Board at the Board's Reno office no later than 30 days after receipt of this letter. *See* NRS 639.2895(2).

Please be aware that the foregoing does not preclude a formal investigation or filing of criminal charges. If you have any questions, please do not hesitate to contact me at 775-850-1440 or c.lee@pharmacy.nv.gov.

Sincerely,

Courtney K. Lee

Unlicensed Activity in Nevada
SECOND NOTICE

Dear Sir or Madam:

The Nevada State Board of Pharmacy ("Board") has determined, based upon an audit conducted by Board's staff, that Zimmer Biomet ("Zimmer") has CONTINUED TO engage in the business of wholesaling, and/or distributing prescription drugs/medical products or devices into this State without a license. This constitutes a violation of Nevada law, including, without limitation, NRS 639.100, NRS 639.233, NRS 639.288, NRS 639.310, NAC 639.593, and NAC 639.6944.

Zimmer is hereby ordered pursuant to NRS 639.2895(1) to CEASE and DESIST from engaging in the business of furnishing medical products/devices in this State unless and until a license is fully approved and issued. This letter shall serve as a CITATION pursuant to NRS 639.2895(2), for unlicensed operation of activity. The Board has assessed another administrative fine of five thousand dollars ($5,000.00) pursuant to NRS 639.2895(3).

Zimmer must pay this administrative fine within 30 days of receipt of this citation, or otherwise contact Board staff to request an alternative payment plan. Payment must be by *cashier's check, certified check* or *money order* made payable to "State of Nevada, Office of the Treasurer," to be received at the Board's Reno office, located at 985 Damonte Ranch Parkway – Suite 206, Reno, NV 89521.

Zimmer has the right to appeal this citation by submitting a written request for a hearing to the Board at the Board's Reno office no later than 30 days after receipt of this letter. *See* NRS 639.2895(2).

Please be aware that the foregoing does not preclude a formal investigation or filing of criminal charges. If you have any questions, please do not hesitate to contact me at 775-850-1440 or c.lee@pharmacy.nv.gov.

Section 2: Sterile Compounding Questions (Use a separate piece of paper if additional space is needed.)

1. What risk level sterile compounding will your facility be performing (check all that apply)? ☐ Low ☐ Medium ■ High
If you marked "High", you must also complete section 4.

2. Will you be performing sterile hazardous drug compounding? ☐ Yes ■ No
If you marked "Yes", you must also complete section 3.

3. List the sterile compounded products that you will be compounding for Nevada patients or consumers:
Currently produced one batch of Testosterone Pellets (225mg), distributed one order each to two FL wellness clinics.

Future plans for vials and prefilled syringe products to hospitals and diagnostic clinics.

We are a full generic drug manufacturer with 12 sterile products on the commercial market.

4. Will you be utilizing beyond use dates in excess of USP-797? ■ Yes ☐ No

5. If yes, describe the additional testing performed on your products to validate the extended BUD:

We follow the same robust stability program executed with our commercial products. The SOP (IQC-002) is included for review.

6. What laboratory performs this additional testing?

Name: Medizap (for e beam terminal sterilization of pellets only) -- Everything else in-house (full R&D, QC, Micro Labs)

Address: 600 B St Suite 300, San Diego, CA 92101

City: San Diego State: CA Zip: 92101

Telephone: (775) 386-6677

7. What is your procedure for visual inspection of compounded sterile products?

I have included the SOP (IPD-007) for visual inspection.

8. How often do you perform glove fingertip and medial fill testing?
Media fill testing is completed every six months. We have fully contained robotic filling isolators. There is glove access to the sterile areas without breaching the isolators, the gloves fingertips are tested with touchplates after every batch. The gloves are also tested for punctures before each batch begins.

9. What is your policy if an employee fails a glove fingertip or media-fill test?
It would not be an employee, but if one of the glove sets fails, then a full investigation would be initiated.

10. Describe your initial and annual training program for all personnel performing sterile compounding:
Initital and annual trainning SOP (ITD-001) is provided.

11. Describe the cleaning procedure for your primary and secondary engineering controls, including the frequency of cleaning and the names of cleaning, disinfectant, sporicidal, and/or deactivation and decontamination agents used:
Cleaning of Processing and Non-Processing Rooms SOP (IGN-028) is provided.

12. Who performs the sterile compounding process at your facility?
Robotic fill machines, assisted by Engineers and production technicians.

13. Who is responsible and accountable for the sterile compounding process at your facility?
All personel involved in the manufacturing process, 503B products under the supervision of the licensed pharmacist, with Quality Assurance checks and final release of batch.

14. If products are shipped/mailed, what shipping conditions are used to ensure product safety/efficacy?
Specifications and standard test methods for all containers and closures are generated for primary and secondary packaging components (testing types include description, physical tests, sterility and endotoxin (if applicable), and C of A check).

Final product shipping studies are performed (drop/ship test) utilizing primary and secondary containers.

Stability and freeze thaw studies are performed to document product behavior during temperature excursions.

Section 3: Sterile Hazardous Compounding Questions (Complete this section ONLY if you be performing Sterile Hazardous Compounding.)		
1. What type of primary engineering controls will you be using in your facility? N/A - No sterile Hazardous Compounding		
2. Is your BSC or CACI vented 100% to the outside?	☐ Yes	☐ No
3. Do you have a negative pressure buffer room at your facility?	☐ Yes	☐ No
4. Will you be compounding with antineoplastic HDs or HD API?	☐ Yes	☐ No
5. If yes, are the drugs stored in an externally ventilated, negative pressure room?	☐ Yes	☐ No
6. Will you be utilizing a closed system transfer device?	☐ Yes	☐ No
7. If yes, list the name of the device:		
8. What information is provided to the patient or consumer on the proper handling and disposal of hazardous drugs products/containers?		
9. Describe your initial process for training new employees prior to compounding sterile hazardous drugs?		

Section 4: Sterile High Risk Compounding Questions (Complete this section ONLY if you will be performing High Risk Compounding.)

1. List the specific high risk sterile products that your facility compounds:
503B : Testosterone Pellets 225mg (10 count blister pack)

Current Commercial products include :
Hyoscyamine Sulfate Inj, USP 0.5mg/mL (NDC 54288-111-01),
Epinephrine Inj, USP 10mg/10mL (NDC 54288-120-01),
Epinephrine Chloride Nasal Solution 10mg/10mL (NDC 54288-123-01),
Tetracaine HCL Inj, USP 20mg/2mL (NDC 54288-127-01),
Phenobarbital Sodium Inj, USP 65mg/mL (NDC 54288-136-01) ,
Phenobarbital Sodium Inj, USP 130mg/mL (NDC 54288-137-01) ,
Papaverine HCl Inj, USP 60mg/2mL (NDC 54288-142-01),
Methylene Blue Inj, USP 100mg/10mL (NDC 54288-147-01),
Epinephrine Chloride Nasal Solution 30mg/30mL (NDC 54288-154-01)

2. What sterilization methods are utilized at your facility?
A 3 step 0.22 micron filtration process with one time use sterile bags and tubing. Autoclave for any glassware or components used during the mixing process.

3. Does your facility utilize biological indicators? ■ Yes ☐ No

4. If yes, describe how they are utilized:
In the robotic machines, a risk assessment is established. BIs are placed , VPHP cycles are run, results are assessed and guidelines are established after achievieving acceptable levels.

BIs are also utilized n the component prep and filter tubing process, those that undergo autoclaving.

I certify under penalty of perjury that the information contained in this form is accurate, true and complete in all material respects. I understand that making any false representation in this form is a crime under NRS 639.281. 1.0 PURPOSE

To outline the procedure for training personnel to perform their job functions in compliance with cGMP requirements and all federal and state regulations applicable to BPI Labs. This document will describe training requirements and procedures in terms of new employee orientation, continuing training program, cGMP training, new / revised documents, and other training, and qualification techniques.

2.0 SCOPE

This procedure applies to all personnel employed at the company as full time, part time, or temporary basis.

Training activities are coordinated by the Quality Assurance Department.

3.0 RESPONSIBILITY

3.1 All employees are responsible to attend the new employee orientation at the time of hiring, conduct training on a continuous basis as per approved curriculum and qualification technique, attend to cGMP training at least once a year, and perform training on new and revised documents, as required.

3.2 Quality Assurance Department is responsible for:

3.2.1 Determining the training requirements and qualification techniques (when applicable) for employees together with department managers.

3.2.2 Maintaining training curriculums and qualification techniques (when applicable) for job functions.

3.2.3 Coordinating and conducting new hire training with department managers.

3.2.4 Conducting cGMP training for all employees at least once a year.

3.2.5 Coordinating and/or conducting training of existing employees with department managers.

3.2.6 Maintaining training records for all employees.

3.2.7 Identifying and training trainers within the company.

3.2.8 Identifying and hiring external training resources when required.

3.2.9 Ensuring trainers possess the necessary qualifications to conduct training.

3.2.10 Assessing training effectiveness.

3.2.11 Providing training tracking and trending information for Management Reviews.

3.3 Department Managers are responsible to:

SOP No.	Title	Revision No.
ITD-001	TRAINING SYSTEM	04

3.3.1 Ensure that all new employees attend to the new employee orientation at the time of hiring.

3.3.2 Assure that their employees are trained on the documents and job skills relevant to their area.

3.3.3 Ensuring their personnel do not perform job tasks or functions for which they are not appropriately trained.

3.3.4 Creating with the assistance of Quality Assurance training curriculums and qualification techniques for their employees.

3.3.5 Conducting on the job training of employees.

3.3.6 Identifying via performance evaluations training deficiencies of their reportees.

3.3.7 Coordinating and conducting training to promptly resolve training deficiencies of their reportees.

3.4 BPI Labs management is responsible for providing the necessary resources to implement a training system compliant with cGMPs and all federal and state regulations applicable to the company.

6.0 PROCEDURE

6.1 General requirements:

6.1.1 Documentation and Filing of Training Records:

6.1.1.1 A training record (Forms ITD-001-F1 and ITD-001-F2) is documented accordingly for any type of training upon training completion. Form ITD-001-F1 is used to document all trainings other than self training. Form ITD-001-F2 is utilized to document self training only. Following sections shall be completed:

6.1.1.1.1 Topic or Document Name.

6.1.1.1.2 Document Number and its Document Revision, when applicable.

6.1.1.1.3 Type of Training (what kind of training).

6.1.1.1.4 Method of Training (how is the training conducted). This is not applicable on Form ITD-001-F2.

6.1.1.1.5 Trainer. This is not applicable on Form ITD-001-F2.

6.1.1.1.6 Date of Training.

6.1.1.1.7 Employee Name, Department, and Signature.

6.1.1.1.8 Acknowledgement of Training Understanding. This is not applicable on Form ITD-001-F1.

6.1.1.2 Upon training completion, employees, department head, or designee submit all original training records to Training and Development.

6.1.1.3 Training and Development verifies the training record for accuracy and completeness and files training records appropriately.

6.1.1.4 Training and Development keeps all employees training records and any other document pertaining to training.

NOTES:

a) Training curriculums and qualification techniques are also considered a training record since these documents are used by personnel to acknowledge the completion of self training.

b) The signature log included in the batch and packaging records is also considered a training record since the personnel involved during the manufacturing, packaging, and inspection activities of the product use this record to acknowledge their competence and understanding of the work to be done and the precautions required during the execution of each activity.

6.2 Type of Training:

6.2.1 New Employee Orientation:

6.2.1.1 At the time of hiring all new employees are required to attend the new employee orientation program following general and specific training.

6.2.1.2 New Employee Training (General and Specific Training):

6.2.1.2.1 General Training consist in an overview and completion of respective forms, overview of general safety, overview of cGMPs, overview of quality systems, and a general SOP self training session as per Training Curriculum TC-IGN-001. A combination of group training and self-training method is used as part of the training session and discussion.

6.2.1.2.2 Discussion and completion of respective forms (i.e., Employee Signature List, Employee Screening Questionnaire, Respiratory Medical Evaluation Questionnaire, Respiratory Fitness Test, Company Safety Policies) is coordinated by Training and Development and acknowledged on respective Training Curriculum TC-IGN-001.

6.2.1.2.3 An overview of federal regulations, current Good Manufacturing Practices based on 21 CFR Parts 210, 211, 820, and 4, WHO Guidelines – Hormones, FDA Guidance – 503B, DBPR, DOH, internal audits, warning letters, and annual trend of 483s, overview of general safety, and overview of quality systems is coordinated by Training and Development and documented on respective Training Curriculum TC-IGN-001.

6.2.1.2.4 General SOP Self Training (coordinated by Training and Development) identifies a list of SOPs / documents required to complete general SOP self-training session. New employees are required to read each SOP / document according to section 6.3.1; self training record is documented upon completion using the respective Training Curriculum TC-IGN-001. Training and Development coordinates questions and answers session upon self training session completion to ensure trainee has comprehended the material read.

6.2.1.2.5 Upon completion of General cGMP Training, General Department Core Training and Specific Training Curriculum are issued to employee on the respective employee's training folder for execution. Respective training is coordinated by each department supervisor or designee based on respective training curriculums and depending on functions to be performed.

6.2.1.2.6 An assessment is done by the department head or designee based on the person's education, job experience, and previous training to determine the extent of the training and its method of training (i.e., self-training, on the job training).

6.2.1.2.7 Conducted self-training is documented on respective General Department Core Training Curriculum, and Specific Training Curriculum assigned to employee's training folder. In addition, conducted on the Job / Hands on Training is documented using Form ITD-001-F1.

6.2.1.2.8 Upon completion of respective training curriculums, the department head or designee informs by any means (i.e., via e-mail) to Training and Development.

6.2.1.2.9 Training and Development ensures that all trainings were properly performed and documented, and acknowledgement of completion of

respective training curriculums is performed by employee, supervisor and training group accordingly by placing signatures and date on respective section at the end of Department and Specific Training Curriculums (refer to section 6.5 for details of training evaluation).

6.2.1.2.10 After acknowledgement of completion of training curriculum, final release is performed. Employee is required to sign on respective section of Training Curriculum TC-IGN-001 (i.e., Completion of Department General Training section). Lastly, employee and supervisor are required to perform respective acknowledgment of completion of new employee training by placing respective signatures and date on the Acknowledgement of Completion of New Employee Training section using Training Curriculum TC-IGN-001. Training Group releases the trainee for normal activities by informing the department head or designee by any means (i.e., via e-mail) if all training requirements were met using TC-IGN-001.

NOTE: As a general practice, new employees should complete the new employee orientation training ideally within 3 months from their hiring date.

6.2.2 Biennial Training (Continuing Training Program):

6.2.2.1 Training curriculums are used as a tool to assure that training is performed on a continuing basis. They include the list of documents and skills training that are required to perform assigned position adequately. Training curriculums need to be executed by employees at least once every two years.

6.2.2.2 Each department supervisor prepares training curriculums by position following SOP IQA-002, contacts at the beginning of the period his / her employees to plan for the execution of the training curriculum throughout the two-year period, identifies additional training needs, updates training curriculums as needed, and coordinates any extra training not included in the training curriculum.

6.2.2.3 After completion of respective training curriculum, acknowledgement of completion of training curriculum is performed as part of employee evaluation. Signature and date are placed by employee, supervisor, and training group on respective section as part of an overall evaluation of the training curriculum (refer to section 6.5 for details of training evaluation).

NOTES:

a) **Employee's training folder is prepared using the training plan. The training plan is established after discussing with the supervisor / manager to include all the applicable training curriculums based on the employee's job functions and responsibilities.**

b) **Training and Development group prepares a training folder using the training plan by employee including the applicable training curriculums to be executed during the respective training period (i.e., TC-IGN-002, TC-IGN-003, General Department Training Curriculum). Applicable training curriculums are distributed to respective employee's training folder based on each employee's applicable job functions and responsibilities.**

c) The Training and Development group keeps track of the progress of the employee's biennial training curriculum on a quarterly basis.

d) Training curriculum impact assessment is performed each time a training curriculum is revised via change control in order to assess that the respective document is not impacted by the change and to determine the need of distribution to respective training folders (i.e., if an additional SOP is added to the training curriculum, that training curriculum might not require to be distributed within the training period if respective training has been completed as part of change control).

e) Training plan is assessed for the employees who are transferred to other functions or departments. The training plan is updated accordingly for such employees and the progress about completion of the issued training curriculums as per the updated training plan is tracked by Training and Development group for completeness. As a general practice, this training should be completed ideally within 3 months from the transfer / new functions date.

6.2.3 Annual Training (Update of Forms, cGMP Training and General Safety Training):

6.2.3.1 Update of Forms (i.e., Employee Signature List, Employee Screening Questionnaire, Respiratory Medical Evaluation Questionnaire, Respiratory Fitness Test, Company Safety Policies) are discussed and coordinated by Training and Development at least once a year and acknowledged by employee on respective Training Curriculum TC-IGN-002.

6.2.3.2 cGMP training is conducted for all employees by Training and Development at least once a year as per Training Curriculum TC-IGN-002. Topics are selected from federal regulations (i.e., 21 CFR Parts 210, 211, 820, and 4, WHO Guidelines – Hormones, FDA Guidance – 503B, DBPR, DOH, internal audits, warning letters, and annual trend of 483s), documentation practices, data integrity, compliance programs, among others.

6.2.3.3 General Safety Training is conducted for all employees by Training and Development at least once a year as per Training Curriculum TC-IGN-002. Training consists of a refreshment of the company's safety program standard operating procedures.

6.2.3.4 Conducted cGMP and General Safety trainings are documented on respective group training form ITD-001-F1, and acknowledgement of completion of training is documented by employee on training curriculum TC-IGN-002 located on each employee respective training folder.

6.2.3.5 Completion of Training Curriculum TC-IGN-002 is acknowledged by employee, supervisor, and training group by placing respective signature and date on "Acknowledgement of Completion of Annual General Employee Training Section" at the end of respective training curriculum.

6.2.4 New / Revised Documents Training:

6.2.4.1 As a general practice, training on new / revised documents is applicable at least to SOPs, Forms, STMs, Master Batch Records, and Master Packaging Records before they become effective.

6.2.4.2 When a document is written or revised and that document is needed by users that are not the authors, reviewers, or approvers, training should be conducted.

6.2.4.3 During the change control approval process, area management and Quality Assurance evaluate the impact of changes against the established training curriculums in the quality system and training needs and decide the extent and the method of training (i.e., individual training, group training, practical training) as well as determine all the individuals affected with the change; this decision is documented on the change control form. Upon training notification from Quality Assurance, area management or designee coordinates the execution of the training ideally in not more than fifteen (15) business days from the training notification date.

6.2.4.4 Training sessions can be coordinated by the subject matter expert (i.e., author) depending on the topic of the activity (i.e., change control system). A training assessment quiz might be administered to the employees, as required by trainer, Quality Assurance, and / or area management.

6.2.4.5 Upon completion of the training the designee informs Training and Development / Document Control and submits all training records accordingly.

6.2.4.6 Each department destroys the training document copies (training copy) upon training completion. Under no circumstances the training copy can be used for reference, nor can it replace the official effective copy.

6.2.4.7 Once training requirements are met, Training and Development and Document Control confirm each other to ensure that the document can be made effective.

6.2.4.8 Only employees trained in the most recent version of the document can be released to perform the work described in the document.

6.2.4.9 Following the initial training period, the department supervisor conducts training of the missing employees (i.e., for those who are on short term disability or leave) and documents this activity in a separate training record.

6.2.4.10 Department head is responsible for assuring that all reporting personnel are trained on job-related documents.

NOTES:

a) Minor changes to documents such as but not limited to editorial updates to documents, creation or revision of documents used for reference only (i.e., official list), change in revision number and revision history without any change in the content of the document as a result of triennial review, and change due to typographical errors, might not require training. This decision is documented on the change control form.

b) Major changes to documents such as but not limited to addition of equipment in master batch records and master batch packaging records, update of processes and parameters in master batch records and master batch packaging records, revision of analytical procedure in test methods, update of practices in SOPs, and implementation of new Forms require training.

6.2.5 Other Training:

6.2.5.1 Department supervisor, Training and Development and / or Quality Assurance may determine that one or more employees need training or retraining. If that is the case, a trainer is designated, and a training session is conducted. Whenever retraining is conducted the training record should be identified as such.

6.2.5.2 Department supervisors identify outside training needs for their employees, as required, and coordinate the registration for the courses. Employees submit copy of the training certificate to Training and Development department upon completion.

6.3 Method of Training:

6.3.1 Self Training:

6.3.1.1 Training conducted by one person and considered as a read and understanding session. Training shall be performed following these steps:

6.3.1.1.1 Overview the document briefly. Get familiarized with it. Review its sections and any additional parts of it (i.e., forms, charts, tables, etc.). Perform these activities before starting reading.

6.3.1.1.2 Read slowly and if possible loud enough that one can hear himself / herself.

6.3.1.1.3 Ensure to understand what it is read. Have a paper and pen to write down any question and/or suggestion to be later discussed with supervisor, co-worker, trainer, or designee.

6.3.1.1.4 A self training record (Form ITD-001-F2) is documented accordingly.

NOTE: Training curriculums and qualification techniques can be used to acknowledge the completion of self training. In these cases, Form ITD-001-F2 is not required.

6.3.1.2 Upon training completion, self training conducted by the employee is evaluated by discussing respective topic between employee and supervisor or designee (refer to section 6.5 for details of training evaluation). Respective evaluation is documented accordingly in the respective section of the training record as follows:

6.3.1.2.1 For self training using Form ITD-001-F2, supervisor or designee performs evaluation of respective topic (s) with employee by asking random questions of the topic (s) to the employee for discussion in order to measure the level of understanding. At the end of the evaluation, supervisor or designee acknowledges that the employee has understood respective material read on the appropriate section of the form.

6.3.1.2.2 For self training using training curriculums and qualification techniques, supervisor or designee performs evaluation of respective topic (s) with employee during the training period by asking random questions of the topic (s) to the employee for discussion and by assessing performance of the employee related to job functions and assigned tasks, in order to confirm the appropriateness of the extent of the training in line with the work responsibilities. Overall evaluation and acknowledgment of completion of the training is performed by the supervisor or designee

using the respective section of the training curriculums and qualification techniques at the end of the training period.

NOTE: If during the training evaluation performed by the supervisor or designee an opportunity of additional training is identified to enhance the level of understanding of the topic, the extent and method of training are determined and coordinated accordingly as per this SOP.

6.3.2 Group Training:

6.3.2.1 Training conducted between two or more persons and considered as a read, understand, and discussion session. Trainer can be the second person.

6.3.2.2 A training record (Form ITD-001-F1) is documented accordingly.

6.3.3 On The Job Training / Hands-on Training / Practical Training:

6.3.3.1 On the Job Training (OJT) is a training that takes place while employees are actually working; this means the skills are gained while trainees are carrying out their jobs. This training can be executed following below tasks. Equivalent approaches are considered acceptable as long as the process leads to proficiency for specific job tasks.

6.3.3.2 Department head or designee assigns a trainer to work with the trainee.

NOTE:

Authorized Trainers: BPI Labs employees or contractors who have the education, training and experience or any combination thereof, that enables them to conduct training. This includes but is not limited to:

a) The training coordinator.

b) External trainers upon approval of Quality Assurance via verification of their credentials.

c) All supervisors and managers after completion of their training curriculum unless pre-employment qualifications to conduct training are provided and approved by Quality Assurance.

d) Personnel designated by department managers or supervisors upon approval of Quality Assurance via verification of qualifications that include, but are not limited to:

- **Submission of a resume.**
- **Completion of the training curriculum for their position.**
- **Completion of the qualification technique for the unit operation, module or technique.**
- **Verifiable experience of outside training (certifications, diplomas, etc.)**

6.3.3.3 The trainer shall be an employee well experienced, knowledgeable, and fully trained on the topics to be covered and shall have good training / communication skills.

6.3.3.4 The trainee performs a self training according to section 6.3.1 for all documents included in the training curriculum in addition to others assigned by the Department head or designee.

6.3.3.5 The trainer performs the job and the trainee observes. The trainer goes over the procedure together with the trainee and in the work area showing where every equipment, files, documents, or any other item related to the training are located and, when applicable, its function and/or operation. Every practice, and method, is followed by the trainee with the written procedure and discussed / explained by the trainer, as needed. Trainer and trainee review the written procedures. This step can be repeated, as required. A training record (Form ITD-001-F1) is documented accordingly and identified as On the Job Training.

NOTE: As part of execution of qualification techniques, these documents are used to acknowledge the completion of this step. In these cases, Form ITD-001-F1 is not required.

6.3.3.6 Trainee performs the job with the reference of the written procedure, in presence of the trainer, and with the help and guidance of the trainer.

6.3.3.6.1 The trainer observes and verifies performance and execution against the written procedure. The activity or task performed are initialed / signed and dated by the trainee and trainer using appropriate records according to the activity. This record confirms that trainer has been present at the time of the task execution.

NOTE: During execution of qualification techniques, these documents are used to acknowledge the completion of this step. In these cases, Form ITD-001-F1 is not required.

6.3.3.6.2 Trainer conducts a question and answer session with the trainee. The trainer clarifies any doubt. Trainer verifies for comprehension.

6.3.3.6.3 This step can be performed as needed at the discretion of the trainer and department head according to performance observed and taking into consideration the trainee's performance, experience, and previous training. In case additional training is needed, trainer informs department head or designee for further instructions.

6.3.3.7 The trainer informs by any means (i.e., via e-mail) to the department head or designee about the completion of on the job training program.

6.4 Qualification Techniques:

6.4.1 Qualification techniques are used by department supervisors as a tool to qualify an employee in regards to a specific unit operation, module, or technique (i.e., sterile filtration, aseptic filling, sampling, HPLC analysis) and to acknowledge his / her competence and qualification on a continuous basis.

6.4.2 Qualification techniques records include, but are not limited to, the list of reference documents, the list of related equipment and measuring devices, the reference for the on the job training completion, and the approval of the exercise.

6.4.3 Each department supervisor prepares qualification techniques as needed based on the criticality of the unit operation, module, or technique, and coordinates execution with the selected employee.

6.4.4 Qualification techniques need to be executed by personnel at least once every three years according to the overall evaluation by the supervisor of the employee's performance throughout the entire certification process taking in consideration job performance, quality / accuracy of work, dependability, ability to work as part of a team, and compliance with company procedures. Acknowledgement of completion of training for the qualification technique unit operation / module is performed by placing employee and supervisor's signatures and date at the respective section of the Qualification Technique Form. Training and Development group assigns the re-certification due date for employees based on above criteria and supervisor's recommendations.

NOTES:

a) **Qualification Technique re-certification for production visual inspection of injections needs to be executed by personnel at least once every year according to the guidelines outlined on SOP IPD-017.**

b) **The qualification techniques for cGMP and Safety (i.e., QT-ITD-001 and QT-IEH-002, respectively) are executed once every two years and annual refreshment training is completed every year to be up to date on all the training needs from time to time.**

6.4.5 The qualification techniques matrix shows the core / primary activities that qualified personnel (i.e., subject matter experts) can perform unsupervised.

NOTES:

a) Training and Development group prepares a training folder by employee including the applicable qualification techniques to be executed during the respective certification period. Respective Qualification Technique Matrix is updated accordingly, and training folders are distributed to respective supervisor or designee upon request.

b) As a general practice, the employees should complete the initial qualification technique ideally within 3 months from the date of issuance.

c) Qualification Technique impact assessment is performed each time a qualification technique is revised via change control in order to assess that the respective document is not impacted by the change and to determine the need of distribution to respective training folders (i.e., if an additional SOP is added to the qualification technique, that qualification technique might not require to be distributed within the training period if respective training has been completed as part of change control).

d) As part of qualification technique recertification exercise, whenever the employee is unable to execute hands on / on the job training verification (Section – 4, Training Reference of Execution by Trainee) at the time of the recertification due period, then the employee must complete the self-training related to the respective qualification technique and inform Training and Development group accordingly to acknowledge this situation in the training system (i.e., Qualification Technique Matrix and corresponding qualification technique). The hands on / on the job training is executed once the activity / unit operation becomes available as per the department's needs.

e) The qualification technique recertification due date is assigned from the date of issuance of the qualification technique for the execution purposes. Whenever the qualification technique is recertified,

Training and Development group updates the Qualification Technique Matrix and re-issues the respective qualification technique for the next period.

f) On a quarterly basis, Training and Development group verifies the Qualification Technique Matrix for the employee's pending recertification for the next quarter. The Training and Development designee prepares a list of all the employees due for recertification and communicates to the employees and the supervisor to inform them about the qualification technique recertification. This list is monitored and updated on a monthly basis by the Training and Development group until completion.

6.5 Evaluation of Training:

6.5.1 Training and Development may, at its sole discretion, conduct an evaluation at any time of any part of the training process (i.e., training sessions, trainees, trainer, training material, retraining, repetitive human mistakes) to verify training effectiveness. Evaluation of training process involves the identification of unwanted trends that are discussed with supervisors and managers in order to determine the further action needed to enhance the performance of the personnel.

6.5.2 Supervisor or designee is fully responsible to evaluate training effectiveness of his / her employees routinely by assessing the job performance, quality and accuracy of work, consistency of work, among others, in order to understand the adequacy of the extent and method of training. The training evaluation is verified continuously and documented in all the available records in the quality system related to training and specific job functions.

6.5.3 In order to further measure the understanding of the training conducted to employees and as part of assessment check to ensure employees comprehend the SOPs related to their job function, Training and Development performs a quarter evaluation of the training system via verification of employee training records, and via review of quality system records such as but not limited to incidents, non-conformances, deviations, laboratory incidents, laboratory out of specifications, laboratory out of trends, CAPAs, and documentation errors with the purpose of identifying unwanted trends including repetitive human errors that may have been contributed due to lack of training understanding. The findings of this evaluation are discussed with supervisors and management to determine improvement plans for the specific employee in case a negative tendency is observed. The improvement plan, when needed, is designed between supervisor, employee, and Training and Development and executed accordingly to enhance the performance of personnel.

7.0 REVISION HISTORY

Revision No.	Effective Date	Description of Changes
01	SEP 22 2017	Original SOP
02	FEB 14 2018	1. Add a note for training record associated with training curriculums and qualification techniques under Sections 6.1.1 and 6.3.1.1.4 2. Update procedure of completion of training record in Sections 6.2.1.2.2 and 6.2.1.2.3 3. Add a note for preparation of training folder by employee under Sections 6.2.2.2 and 6.4.6 4. Remove statement related to training not required for other documents in Section 6.2.4.1 5. Update on the job training procedure after Section 6.3.3.4 6. Update re-certification frequency for qualification techniques in Section 6.4.4 7. Make editorial corrections throughout the whole document

Revision No.	Effective Date	Description of Changes
03	MAR 19 2019	1.To mention qualification techniques into sections 1.0 and 3.0. 2. To update section 4.0 to include Training Curriculums TC-IGN-001, TC-IGN-002, and TC-IGN-003. 3. To add section 6.1.1.1.8 to mention that Acknowledgement of Training Understanding is not applicable for Form ITD-001-F1. 4. To remove section 6.1.2 and move the content to section 6.5 as section 6.5.1. 5. To update and combine section 6.2.1.2 and 6.2.1.3 to explain training and final release process as part of Training Curriculum TC-IGN-001. 6. To add section 6.2.2.3 to include acknowledgement of completion of training curriculum. 7. To Modify section 6.2.3 to explain the process of Annual Training as part of Training Curriculum TC-IGN-002. 8. To add section 6.3.1.2 to explain self training evaluation process. 9. To add a point on section d) of section 6.3.3.2 to mention completion of qualification technique verification. 10. To update section 6.4.4 to explain acknowledgment of completion of training for the qualification technique unit operation / module and qualification technique re-certification for visual inspection of Injections. 11. To update the "Notes" section on section 6.4 to mention qualification technique matrix, training folders, and qualification technique impact assessment. 12. To add section 6.5 to explain evaluation of training.
04	JUL 2 7 2022	1. Add qualification techniques in the Reference Section 4.0 2. Add 21 CFR Part 4, WHO Guidelines – Hormones, FDA Guidance – 503B, DBPR, DOH, internal audits, warning letters, and annual trend of 483s under Sections 6.2.1 New Employee Orientation and 6.2.3 Annual Training. 3. Add notes under Section 6.2.2 Biennial Training (Continuing Training Program) related to preparation, issuance, and tracking of training curriculums. 4. Add notes under Section 6.4 related to qualification techniques to explain the issuance tracking and completion of the qualification technique for initial and recertification purposes. 5. Remove Section 6.4.6 from Revision 03. 6. Editorial changes made throughout the entire procedure.

1.0 PURPOSE

To establish a standard operating procedure that describes about the stability studies conducted at long term, accelerated, and intermediate storage conditions to establish the shelf life and labeled storage conditions of drug products and medical devices.

2.0 SCOPE

This procedure is applicable to drug products and medical devices manufactured by BPI Labs.

3.0 RESPONSIBILITY

3.1 Product Development designee is responsible to initiate the stability studies for R&D products.

3.2 Quality Assurance designee is responsible to initiate the stability studies for commercial products.

3.3 Quality Assurance and Quality Control management are responsible for proper implementation of this SOP.

6.0 PROCEDURE

6.1 Definitions / Acronyms:

6.1.1 Stability:

The capacity of a drug product to remain within specifications established to ensure its identity, strength, quality, and purity.

6.1.2 Accelerated Testing:

Studies designed to increase the rate of chemical degradation or physical change of a drug substance or a drug product by using exaggerated storage conditions as part of the formal stability studies.

6.1.3 Long-term Testing:

Stability studies under the recommended storage condition for the retest period or shelf life proposed (or approved) for labeling.

6.1.4 Intermediate Testing:

If any "Significant Changes" occur at any time during testing at the accelerated storage condition, additional testing at the intermediate storage condition should be conducted.

6.2 Materials and Equipment:

6.2.1 Chambers or Walk-in Stability Room:

6.2.1.1 Controlled Room Temperature (CRT) / Long-term:

Environmental chamber / Walk-in Stability Room capable of controlling temperature to 25°C ± 2°C and relative humidity to 60%RH ± 5%RH.

6.2.1.2 Accelerated (AA):

Environmental chamber capable of controlling temperature to 40°C ± 2°C and relative humidity to 75%RH ± 5%RH.

6.2.1.3 Intermediate:

Environmental chamber capable of controlling temperature to 30°C ± 2°C and relative humidity to 65%RH ± 5%RH.

6.2.1.4 Refrigerator:

Environmental chamber capable of controlling temperature to 5 °C ± 3 °C.

6.2.2 Quality Assurance department shall arrange to calibrate the chambers / monitoring devices either in-house or coordinate with the external calibration consultants. Calibrate all the chambers every year.

6.3 Monitoring:

6.3.1 The actual temperature and relative humidity for all chambers and walk-in stability rooms will be monitored and recorded by Quality Assurance Department and Quality Control Department.

6.3.2 All monitoring devices (prints / charts / graphs) will be read and reviewed on a daily basis (business days) by the Quality Assurance Department.

6.3.3 The Quality Assurance Department shall inform to Quality Control Department whenever the temperature and relative humidity reading exceeds out of the temperature and relative humidity tolerances of ± 2°C and / or ± 5%RH, respectively.

6.3.4 All the chambers and walk-in stability rooms are connected to the Security System. This system sends a notification to Security System Operator in case any temperature and relative humidity reading exceeds out of the temperature and relative humidity tolerances of ± 2°C and / or ± 5%RH, respectively. The Security System Operator informs to concerned persons at BPI Labs immediately.

6.3.5 The Security monitoring system of Stability Chambers / Walk-in Stability Room is checked once in every six months by maintenance department in coordination with Security System Company.

6.3.6 After checking the Security monitoring system, details are entered in Form IGN-030-F1 Security Monitoring of Environment Controlled Chambers by maintenance department. The form is submitted to QA for final approval and filing.

6.4 Excursions:

6.4.1 Short term spikes due to opening of doors are acceptable as unavoidable.

6.4.2 If for any reason (e.g., power, equipment failures, etc.), chamber / walk-in stability room is in excursion that exceeds the defined tolerances for more than 24 hours, samples in the chamber / walk-in stability room shall be transferred into back-up chamber. If back-up chamber / walk-in stability room is not available, samples shall be stored at room temperature maximum up to three working days. Once the chamber / walk-in stability room is ready, the samples shall be moved to the original stability condition. If exceeds three working days, the pulling date shall be extended for Accelerated and Intermediate conditions. For CRT condition, it is not required to extend the pulling dates. The impact of such excursion will be assessed.

6.5 Storage Conditions (General Case):

6.5.1 Accelerated Stability (AA):

Samples are stored at 40°C ± 2°C and 75% RH ± 5% RH for a period of six (6) months (i.e., 180 days) for ANDA / ANADA / NDA / NADA. Test intervals are set at 1 month, 2 months, 3 months, and 6 months (i.e.,180 days).

6.5.2 Intermediate Stability (INT):

Samples are stored at 30°C ± 2°C and 65% RH ± 5% RH for a period of twelve (12) months for ANDA / ANADA / NDA / NADA. Test intervals are set at 1 month, 2 months, 3 months, 6 months (i.e.,180 days), 9 months, and 12 months.

6.5.3 Where "significant change" occurs in the samples of accelerated storage conditions, additional testing at the intermediate storage conditions (i.e., 30°C ± 2°C and 65% RH ± 5% RH) shall be conducted.

6.5.3.1 "Significant Change" at the accelerated condition is defined as:

A. A 5% potency loss from the initial assay value of a batch.

B. Any specified degradant exceeding its specification limit.

C. Dissolution exceeding the specification limits for 12 Dosage units (USP Stage 2).

D. Failure to meet specifications for appearance and physical properties.

E. Failure to meet the acceptance criterion for pH.

6.5.4 Long-term Stability (CRT):

Samples are stored at 25°C ± 2°C and 60% RH ± 5% RH (controlled room temperature) for up to shelf life for ANDA / ANADA and may be longer for NDA / NADA. Test intervals are at 3 months, 6 months (i.e., 180 days), 9 months, 12 months, 18 months, 24 months, and on an annual basis up to the proposed shelf life for NDA / NADA / ANDA / ANADA. Additional intervals can be assigned on a case-by-case basis.

6.6 Storage Conditions (Drug Product Intended for Storage in a Refrigerator):

6.6.1 Accelerated Stability (AA):

Samples are stored at 25°C ± 2°C and 60% RH ± 5% RH for a period of six (6) months for ANDA / ANADA / NDA / NADA. Test intervals are set at 1 month, 2 months, 3 months, and 6 months (i.e.,180 days).

6.6.2 Long-term Stability:

Samples are stored at 5°C ± 3°C in a refrigerator for a period of twelve (12) months for ANDA / ANADA / NDA / NADA. Test intervals are set at 3 months, 6 months (i.e.,180 days), 9 months, 12 months, 18 months and 24 months. Additional intervals can be assigned on a case-by-case basis.

6.7 Storage Conditions (Drug Product Intended for Storage in a Freezer):

6.7.1 Long-term Stability:

Samples are stored at - 20°C ± 5°C in a freezer for a period of twelve (12) months for ANDA / ANADA / NDA / NADA. Test intervals are set at 3 months, 6 months (i.e.,180 days), 9 months, 12

months, 18 months and 24 months. Additional intervals can be assigned on a case-by-case basis.

6.7.2 Testing on a single batch at an elevated temperature (e.g., 5°C ± 3°C or 25°C ± 2°C) for an appropriate time period should be conducted to address the effect of short-term excursions outside the proposed label storage condition.

6.8 Storage Conditions (Drug Product Intended for Storage Below - 20°C):

6.8.1 Drug products intended for storage below - 20°C should be treated on a case-by-case basis.

NOTE: If a drug product is required to be stored at condition different from above mentioned storage conditions, a separate stability protocol will be initiated that will contain all the critical information such as storage condition, test intervals, etc.

6.9 Preparation of Stability Protocol:

6.9.1 Stability protocols shall be prepared by Product Development for R&D products and by Quality Assurance for commercial products before the stability study is initiated.

6.9.2 Stability protocols shall include all specific details of the product and stability study such as, but not limited to, product name and strength, code number, active pharmaceutical ingredient associated, batch size, pack size and packaging configuration, study purpose, storage conditions, testing frequency, tests, number of containers to be pulled per sampling point, and number of samples to be collected.

6.9.3 Bracketing and Matrixing designs for stability testing of drug products can be applied according to ICH Guidance Q1D: Bracketing and Matrixing Designs for Stability Testing of New Drug Substances and Products.

6.9.4 Stability protocols are approved in the quality system via change control following instructions documented in SOP IQA-001.

6.10 Initiation of Stability Study:

6.10.1 Stability study for R&D products is initiated by Product Development Department using the approved stability protocol. Stability samples are collected by Quality Assurance and submitted to Quality Control accordingly.

6.10.2 Stability study for commercial products (including validation) is initiated by Quality Assurance Department using the approved stability protocol and Form IQA-006-F4 (Initiation of Stability Study). Stability samples are collected by Quality Assurance and submitted to Quality Control accordingly.

6.10.3 Upon receipt, Quality Control Department verifies stability samples for correctness and integrity and ensures that an approved stability protocol associated with this stability study is available and that information documented in the protocol or Form IQA-006-F4 is accurate.

6.10.4 The stability samples shall be labelled as Upright (U), Inverted (I) and On the Side (OTS) orientations on the cartons as per stability protocol and the samples shall be loaded carefully into chambers as per orientation.

SOP No.	Title	Revision No.
IQC-002	STABILITY PROGRAM	05

6.11 Scheduling:

6.11.1 The stability system scheduling shall be documented in stability protocol (i.e., R&D products) or using Form IQA-006-F4 (i.e., commercial products) upon initiations of any new stability studies for the products.

6.11.2 When the stability samples are loaded into the stability chamber, stability group or designee shall enter the initiating information into the stability logbook.

6.11.3 Stability samples (i.e., exhibit batches) can be loaded into the stability chambers after packaging without waiting for the release of time zero data to save the stability study time.

6.12 Sample Retrieval:

6.12.1 A monthly calendar with the products to be tested for that month will be generated from the Excel sheet / Microsoft outlook according to the approved stability protocol or Form IQA-006-F4.

6.12.2 The Stability Coordinator or designee will remove the appropriate quantity of samples according to stability protocol or Form IQA-006-F4 from storage, document such retrieval in the respective stability protocol or Form IQA-006-F4, and submit stability samples to the laboratory for testing.

6.12.3 When the stability samples are retrieved from the stability chamber, stability group or designee shall reflect this activity in the stability logbook.

6.12.4 The samples will be logged in the Stability Samples Logbook in Quality Control Department as per SOP IQC-003.

NOTE: Ensure to submit samples required for Microbiology testing (as per stability protocol) on the same day of retrieval (if applicable).

6.12.5 For pull dates, which fall on non-working days, samples will be pulled on the next working day.

6.13 Testing:

6.13.1 Samples will be tested in accordance with approved Stability Protocol using approved test methods, which are specific, and stability indicating.

6.13.2 For testing, sampling of dosage units from a given container should be done randomly with each individual unit having an equal chance to be selected. The chemist must inspect samples before testing and report any untoward appearance / findings to their supervisor or manager.

6.13.3 Accelerated and intermediate storage conditions samples testing should be completed within 15 calendar days of retrieval.

NOTE: In case of Microbiology testing, testing must be completed within 30 calendar days (excluding weekends / holidays) of retrieval.

6.13.4 Long term storage conditions samples testing should be completed within 15 working days.

NOTE: In case of Microbiology testing, testing must be completed within 30 calendar days (excluding weekends / holidays) of retrieval.

6.13.5 If testing is delayed, then the reasons and the impact for the delays shall be clearly documented and approved by the responsible Quality Control Manager or designee and submitted to Quality Assurance Department along with the stability data report.

6.14 Recording Results:

6.14.1 Results of testing are recorded as they are completed and checked against any previous data by group auditor or designee.

6.14.2 Test result failures shall be brought to the immediate attention of the Quality Control Manager or designee who shall notify the Quality Assurance Management consequently. Investigation of out of specifications or out of trends shall be conducted according to SOP IQC-001.

6.14.3 The SOP IQC-001 Investigating Out of Specification (OOS) and Out of Trend (OOT) Test Results, is not applicable for RLD and Experimental drug products.

6.15 Analysis Reporting Data:

6.15.1 Stability reports will be reported using product approved specification and analytical reports and according to stability data compilation sheets included in the stability protocol and will be submitted to Quality Assurance for review. The data should be submitted within 40 calendar days.

6.15.2 Stability reports will be provided to Regulatory Affairs for annual reports and other FDA submissions, as needed.

6.16 Documentation:

6.16.1 A stability project file will be maintained for each product initiated into the program.

6.16.2 Quality Control Manager or designee will ensure the current finished product specification is used for reporting purposes.

6.16.3 Initial release test results (time zero data) need to be available for all samples.

6.16.4 If more than 30 days have passed since the initial release date, stability initiator must submit additional samples for retest.

6.16.5 The Stability Chamber Logbooks as well as documentation included in the stability protocol or Form IQA-006-F4 will serve as documentation of the stability samples pulls.

6.17 Transportation of Stability Samples:

6.17.1 The Quality Control Manager or designee sending stability samples should ensure that the samples transported for loading into the stability chambers of any subsidiary or third party are transported as per the label storage conditions.

6.17.2 If there is any damage to the integrity of the container closure system of the sample during transit, the sample will not be loaded in the stability chambers.

6.17.3 The stability samples received for only loading into the stability chambers need to follow the stability conditions provided along with the samples.

6.18 Post-approval Stability Commitment:

6.18.1 If the submission does not include stability data on production batches, a commitment should be written in a specific stability protocol.

6.18.2 The stability protocol used for the studies on commitment batches should be the same as that for the primary batches, unless otherwise scientifically justified.

6.18.3 The commitment shall include the stability studies at intended long term storage conditions (at 25°C ± 2°C / 60% RH ± 5% RH) on the first three production batches in each packaging size.

6.18.4 In addition to the first three production batches, stability studies at 25°C ± 2°C / 60% RH ± 5% RH will be conducted on a minimum of one production batch per year for each packaging size.

6.18.5 The stability results for the drug product shall be reported in the annual report of the ANDA.

6.19 Changes or Cancellations:

6.19.1 Any change or termination of stability testing must be submitted in writing to the Quality Assurance Management with a completed Discontinuation of Stability Study Form (IQC-002-F1) in the stability Protocol. The stability system shall be updated immediately.

7.0 REVISION HISTORY

Revision No.	Effective Date	Description of Changes
01	JAN 10 2018	Original SOP
02	AUG 12 2019	1.Alignment was updated. 2.Added a note following point 6.12.4 detailing samples for microbiology laboratory must be submitted on same day of retrieval. 3.Added a note following point 6.13.3 and 6.13.4 describing microbiology testing must be completed in 30 working days.
03	NOV 22 2019	1. Changed 6.5.3.1 from "12 capsules or tablets" to "12 Dosage units" 2. Added 6.2.1.4 Refrigerator and its condition temperature. 3. Added Subsection E in section 6.5.3.1
04	SEP 29 2020	1. Added section 6.10.4 for introducing orientation of stability samples 2. Editorial changes were made throughout the SOP wherever applicable
05	MAR 1 1 2021	1.Removed the form IQC-002-F2 form sections 4.0 and 6.3.6 and added the form IGN-030-F1. 2.Added the SOP#IGN-030 and Form# IGN-030-F1 in the references section

1.0 PURPOSE

The purpose of this procedure is to provide standard operating instructions for the visual inspection of injections.

2.0 SCOPE

This procedure is applicable to personnel performing visual inspection of injections at BPI Labs facility, Suite #450.

3.0 RESPONSIBILITY

3.1 It is the responsibility of personnel performing visual inspection of injections to follow these instructions. It is also the responsibility of the Production Supervisor to implement and ensure that the procedure is being followed.

3.2 It is the responsibility of Production (PD) department and Production Supervisor to compile visual inspection results for trending. It is the responsibility of Quality Assurance (QA) department to prepare trending report.

6.0 PROCEDURE

6.1 General:

6.1.1 In general, unless specified in the manufacturing batch record, Visual Inspection is performed for all cGMP Products. The inspection program is designed to understand the nature of defects and establish appropriate controls to eliminate them based on the product life cycle.

6.1.2 Personnel participating in Visual Inspection of Injections must be trained and qualified as per SOP IPD-017 Qualification and Validation of Inspection Processes.

6.1.3 Inspectors must have their eyes examined by an optometrist at least once a year as per specifications listed in SOP IPD-017. The frequency may be increased if the inspectors complain of headache, eye fatigue, or other complaints directly attributable to visual performance.

6.1.4 Supervisors must be informed if any inspectors are suffering from eye allergies, eye infections, eye fatigue, headache, or any other concerns that affect the performance of inspection.

6.1.5 Inspectors must gown with hair net, beard cover (if facial hair is present), lab coat, and gloves when entering the visual inspection room. Inspectors must degown within respective visual inspection room prior to exiting.

6.1.5.1 Gowning materials such as lab coat must be dedicated to a single batch. If inspections are performed in multiple rooms then separate gowning materials are required.

6.1.6 Avoid glare and direct viewing of the light source at high intensities as this may result in eye strain or fatigue.

6.1.7 Check the intensity of light before the start of a batch and after completion of each batch.

6.1.8 After every 55-65 minutes of visual inspection, a no less than 5-minute break MUST be taken to relax eyes. Document inspection and break times in Form IPD-007-F1 section II.

6.1.8.1 When a break is required, the inspector should finish the tub or tray they are inspecting before taking a break. If they are unable to finish, they must keep inspected and uninspected units separate and secure before taking a break and upon returning, must start with the same uninspected tub/tray.

6.1.8.2 The inspection times and break times should be sequential. For example, an inspector inspects on 07/24/19 from 11:00 to 12:03 and he/she takes a break from 12:03 to 12:08. This will be documented on one line, from left to right, in section II of IPD-007-F1 and initialed by the inspector.

6.1.8.3 All open entries in section II of form IPD-007-F1 should be closed on the same day of completion.

6.1.9 Visual inspection rooms must be locked if visual inspection personnel are not in the room. Visual inspection personnel are responsible for locking the visual inspection room door during breaks and at end of business day.

6.1.10 Visual inspectors are not required to use a magnifier or wear safety glasses during the inspection. Magnification should only be used for critical examination of a small number of units, as may be needed during an investigation. The use of the magnifier will be determined by a supervisor or designee.

6.1.11 There are three different categories of defects representing the risk to the patient, as defined below.

6.1.11.1 Critical Defect:

A defect which poses risk to the patient, especially risk of injury to patient and integrity breach of container closure (sterility of the product) and indicates the inspected article is likely to:

A. Result in hazardous or unsafe conditions for individuals using, maintaining, or relying on the product; or

B. May prevent performance of the product or material or failure to meet specifications. A critical defect is a unit of product that contains one or more critical defects.

Examples: Critical defects include cracks in the glass of the vial or syringe, missing stopper/plunger, etc.

6.1.11.2 Major Defect:

A condition/non-conformity, other than critical, that carries the risk of a temporary impairment or medically reversible reaction or involves a remote probability of a serious adverse reaction or reduce the usability of the unit of product for its intended purpose. A major defect is a unit of product that contains one or more major defects.

Examples: Major defects include contamination intrinsic to the manufacturing process such as fibers or particles and issues associated with the filling/stoppering process such as low fill, high fill, or empty container.

6.1.11.3 Minor Defect:

A minor defect is a condition/non-conformity that is not likely to reduce the usability of the unit of product for its intended purpose or is a departure from established standards having little bearing on the effective use, safety or operation of the unit of product. A minor defect is a unit of product that contains one or more defects. They are often cosmetic in nature, affecting only product appearance or pharmaceutical elegance.

Examples: Minor defects include cosmetic issues such as scratches/scuffs on the body of the vial/syringe, dents on the container/cap, etc.

6.2 Handling of the Visual Inspection Booths:

6.2.1 Setup:

6.2.1.1 Setup inspection booth on the workbench for safe and comfortable operation.

6.2.1.2 Connect to 120 Volts power source and turn ON the light switch and ensure lights are illuminating with no flickering. If the lights do not function properly, contact area supervisor and initiate a maintenance request as per SOP IGN-020.

6.2.2 Operation:

6.2.2.1 Log equipment usage into appropriate Cleaning, Use, and Maintenance Logbook.

6.2.2.2 Ensure the light is turned on and verify in the appropriate logbook that the Visual Inspection Booth is cleaned prior to use. If not, follow step 6.2.3 as applicable.

6.2.2.3 When inspecting filled product, hold the units approximately 8-10 inches below the light source and NMT 5 inches from the center line.

6.2.2.4 When finished with operation, ensure the light is turned off.

6.2.3 Cleaning:

6.2.3.1 Minor Cleaning:

A. Ensure the power is turned OFF.

B. Remove all evidence of the previous batch, including all filled product, both inspected and rejected.

C. Wipe down the interior of the inspection booth with 70% Isopropyl Alcohol (IPA).

D. Record the activities into the proper Cleaning, Use, and Maintenance logbook and ensure the cleaning is verified by a Supervisor or designee.

E. Place a "CLEAN" label on the Visual Inspection Booth

6.2.3.2 Major Cleaning:

A. Ensure the power is turned OFF.

B. Remove all evidence of the previous batch, including all filled product, both inspected and rejected.

C. Wipe down the interior and exterior of the inspection booth and the magnifying glass with a lint-free cloth and 70% IPA.

D. Record the activities into the proper Cleaning, Use, and Maintenance logbook and ensure the cleaning is verified by a Supervisor or designee.

E. Place a "CLEAN" label on the Visual Inspection Booth.

6.2.4 Verification of Light Intensity:

6.2.4.1 Light intensity verification will be performed annually for all Visual Inspection Booths using NIST calibrated standard Light Intensity Meter. Measure the light intensities at the locations specified in Form IPD-007-F2 and record values in Form.

6.2.4.2 Light intensity should be NLT 2100 lux at the furthest specified point. If the light intensity fails to meet the acceptance criteria, initiate a maintenance request as per SOP IGN-020 and repeat verification after maintenance is performed.

6.2.5 Corrective Maintenance:

6.2.5.1 In case of equipment break down, contact maintenance personnel for necessary actions. Refer to SOP IGN-020 for repair/maintenance procedure.

6.3 Visual Inspection Requirements per Product Type:

6.3.1 Manual visual inspection requirements are based on product type. Refer to Table 1 for inspection requirements per batch type and corresponding procedure section.

Table 1: General Visual Inspection Requirements Based on Product Type

Product Type	Inspection Requirement	Procedure Section
Research and Development (Exhibit / Stability / Pivotal)	100% Inspection (One Time)	6.4
Initial Commercial (i.e., Initial Process Validation)	First and Second 100% Inspections (Two Times)	6.5
Commercial Certified for Reduced Inspection	100% Inspection (One Time)	6.7
Difficult to Inspect (i.e., Colored Products for Research and Development & Commercial)	100% Inspection (One Time) Destructive Testing	6.8

6.3.1.1 Research and Development products (Exhibit / Stability / Pivotal) are one time 100% inspected by Production personnel.

6.3.1.2 Initial Commercial products (if not qualified under reduced inspection program) are two times (First 100% and Second 100%) inspected by Production personnel. Although regulatory expectations require only 100% inspection, Second 100% inspection is

performed to better understand the life cycle of the product, common defects types, and provide product quality assurance.

6.3.1.3 Commercial products certified for the Reduced Inspection Certification Program are one time 100% inspected by Production personnel. To determine if the product is qualified for reduced inspection program, refer to the respective Product Validated List (i.e., EOL I-034).

6.3.1.4 Difficult to inspect products (i.e., colored products for Research and Development & Commercial) are one time 100% inspected by Production personnel and then tested as per supplemental destructive testing.

NOTE: Whenever samples are required to be submitted to Quality Control and Microbiology for testing prior to the completion of visual inspection of the entire batch, visual inspection can be performed on representative tub or tray of filled units from beginning, middle, and end of the run using the appropriate procedure. Record inspection of such selected tub or tray using form IPD-007-F1, i.e., if a batch has 100 tub or tray, 10,000 units are filled (100 units per tub or tray), and 45 units of samples are required for Quality Control and Microbiology testing, select tub or tray 1, 50, and 100 for the inspection. Upon completion of the inspection of all units in the three tubs or trays, notify QA to collect representative samples as per SOP IQA-007.

6.3.2 Production department requests visual inspection forms with Batch Manufacturing Record using Form IQA-006-F1 "Batch / Packaging Record Request Form". Production department will verify the visual inspection requirements (either First 100% and Second 100% inspections or only First 100% inspection) using the respective Product Validated List (i.e., EOL I-034) to determine the amount of visual inspection forms needed.

6.3.3 Form IPD-007-F1 "Visual Inspection of Injections Report" is issued for each individual involved in visual inspection. Form IPD-007-F3 "Log for Visual Inspection of Injections" is issued per batch. These forms are issued with the Batch Manufacturing Record by QA department.

6.4 **Inspection of Research and Development Products:**

6.4.1.1 Research and Development (Exhibit / Stability / Pivotal) products are one time 100% inspected by Production personnel. Refer to Figure 1 for a general overview of research and development product inspections.

SOP No.	Title	Revision No.
IPD-007	VISUAL INSPECTION OF INJECTIONS	09

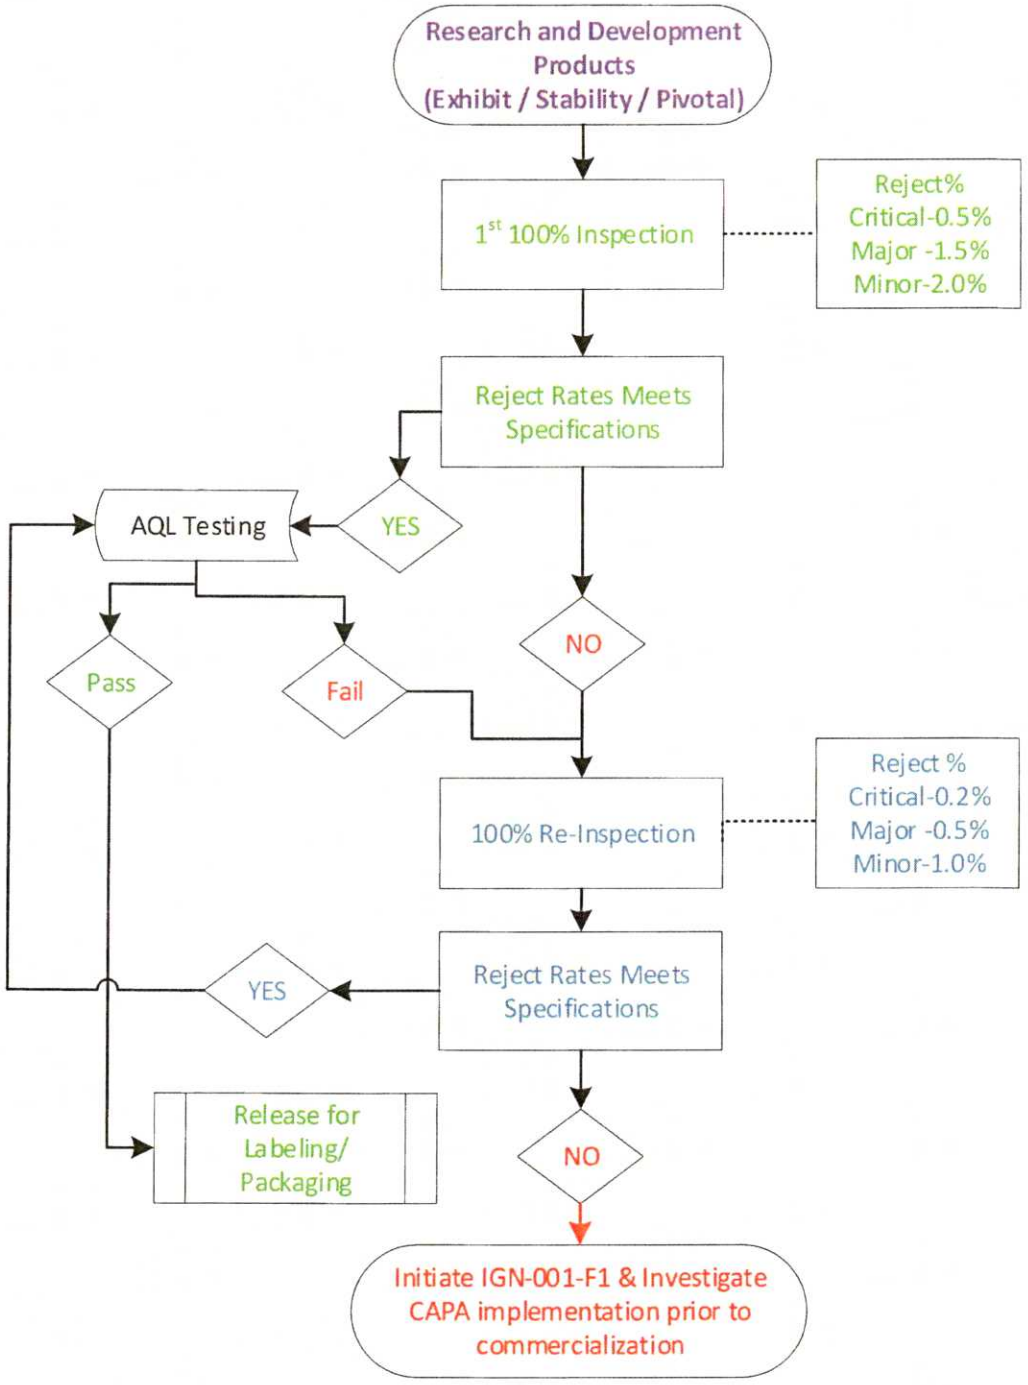

Figure 1: General Visual Inspection Process for Research and Development Products

6.4.1.2 Before QA issues line clearance, ensure the product is secured (e.g., cage with fastener and lock, rack that has been wrapped) and there is no sign of tampering. If there is evidence of tampering, notify supervisor or designee immediately to determine how to proceed.

6.4.1.3 Once line clearance has been given, bring product into the room and place a STATUS label on the rack/cage containing filled product (Status should be: To Be Inspected).

6.4.1.4 Place a STATUS label on the receiving rack/cage with appropriate status (e.g., First 100% inspected product, 100% re-inspected product)

6.4.1.5 Test light intensity using NIST calibrated standard Lux Meter prior to inspection start, and record results in Form IPD-007-F1. Light intensity should be NLT 2100 lux approximately 8-10 inches from the light source. If the light intensity is less than 2100 lux the booth cannot be used for inspection, initiate a maintenance request as per SOP IGN-020.

6.4.1.6 Collect one Filled Units tub/tray to be inspected at a time from the batch of filled units. If filled units are in tubs count the number of units available for inspection and record number of units in the appropriate space on form IPD-007-F1 and check the First 100% inspection box. If filled units are in trays, prepare another empty tray to place inspected units.

6.4.1.7 Pick up and hold the units in between finger and thumb in horizontal position (with bottom of the vial/syringe touching the thumb) approximately 8-10 inches below the light source and NMT 5 inches from the center line. Rotate and observe the containers, slowly, for five seconds in such a way that the complete body of the containers, including neck and bottom, are visible for inspection. Observe the containers for following defects:

A. For inspection of vials with Liquid Product:

a. Scratches/Scuff Marks on Body
b. Dents on Container
c. Dents on Flip-cap
d. Dirt on Exterior Surface
e. Empty Container
f. Cracked vial
g. Leakage
h. Missing Stopper
i. Missing Flip-cap
j. Incomplete seal/cap
k. Wrong color stopper/cap
l. Crimp defect (loose crimp or non-uniform crimp)

NOTE: When inspecting for incomplete seal/cap, rotate unit between fingers and ensure the cap is leveled with the vial and the seal is securely locked from all points. Holding in one hand, move the cap head side to side and ensure the securing flanges do not move past the crown of the vial.

B. For inspection of syringes with Liquid Product:

a. Scratches/Scuff Marks on Body
b. Dents on Container
c. Dents on needle sheath or luer lock
d. Dirt on Exterior Surface
e. Empty syringe
f. Cracked or broken syringes
g. Missing stopper
h. Wrong stopper position (stopper upside down) with reference to standard
i. Liquid between stopper ribs
j. Partially Inserted Stopper, with reference to standard

6.4.1.8 Gently swirl or invert the vials/syringes making sure that minimal air bubbles are introduced and bring back to an upright position. Inspect the product in front of the **black background** for minimum five seconds and check for the defects mentioned below, as applicable for vials or syringes with liquid product.

A. For inspection of Liquid Product in either vials or syringes:

a. Low Fill Level
b. High Fill Level
c. Discolored, or Cloudy/Precipitate
d. Colored particles
e. Black Particles
f. White Particles
g. Glass Particles
h. Fibers

6.4.1.9 Invert the vials/syringes momentarily and bring to an upright position and inspect the product in front of the **white background** for minimum five seconds and check for the defects mentioned below.

A. Black/Brown Particles
B. Fibers
C. Colored Particles

NOTE: As each unit is inspected in front of black and white background each for a minimum of five seconds, and maximum of 2 containers are inspected at a time, it will take 20 seconds to inspect 2 units. No more than 360 units should be inspected per hour.

6.4.1.10 Accepted vials/syringes will be placed into their respective tub/tray. Rejected vials/syringes will be marked with the defect code number as listed in IPD-007-F1 form section III and placed into the appropriate labeled reject bin (i.e., critical reject bin, major reject bin, minor reject bin).

NOTE: If an inspector has a doubt about a defect category, another qualified inspector may inspect and confirm.

6.4.1.11 At the end of inspection process, test light intensity using NIST calibrated standard Lux Meter, and record in Form IPD-007-F1. Light intensity should be NLT 2100 lux approximately 8-10 inches from the light source; if the light intensity does not meet specification, initiate a maintenance request as per SOP IGN-020. All units inspected in this booth must be re-inspected after taking corrective action/repair or perform inspection in any other inspection booth.

6.4.1.12 Individual operators will reconcile the inspected units and rejects in his/her form and attach to the batch record.

6.4.1.13 Review total reject rates from the First 100% inspection through respective inspection forms. If it is within the specified limits from batch record, coordinate with Quality Assurance for Acceptable Quality Level (AQL) Inspection. If the reject rates are not specified in the Batch Manufacturing Record, follow the limits specified in Table 2.

Table 2: Research and Development Products Visual Inspection Acceptance Criteria

Type of Defects	% Reject Rates (Action Level)	
	First 100% Inspection	100% Re-inspection
Critical Defects	0.5	0.2
Major Defects	1.5	0.5
Minor Defects	2.0	1.0

A. If the reject rates from the first 100% inspection are NOT within the specified limits, request Quality Assurance Document Control to issue respective Batch record pages and Form IPD-007-F1 for 100% re-inspection as per SOP IQA-006.

B. Review total reject rates from 100% re-inspection. If it is within the specified limits from batch record or Table 2 "**100% Re-inspection**", coordinate with Quality Assurance for Acceptable Quality Level (AQL).

C. If first AQL inspection fails, re-inspection of complete batch is performed with "100% Re-inspection" limits in Table 2. Once re-inspection is complete, a second AQL inspection can be performed with tightened inspection limits, as per SOP IQA-016. If it is NOT within the specified limits, inform supervisor. An investigation must be initiated as per IGN-001, corrective and preventive actions must be implemented prior to commercial batch manufacturing.

6.4.1.14 Once AQL inspection is complete and the batch record has been updated, the filled product can be further released for labeling and packaging.

A. If product is left unattended, ensure the product is secure (e.g., secured in a cage with fastener and lock).

6.4.1.15 If the filled product needs transfer to the warehouse, prepare the transfer by following the procedure in SOP IPK-003.

6.5 Inspection of Initial Commercial Products:

6.5.1.1 Initial Commercial products (i.e., initial process validation batches) are First 100% inspected and then Second 100% inspected, unless they are qualified for Reduced Inspection Program. To determine if the product is qualified for reduced inspection program, refer to the respective Product Validated List (i.e., EOL I-034).

NOTE: Refer to section 6.7 for Inspection of Commercial Products Certified for Reduced Inspection Program.

A. Refer to Figure 2 for the general inspection process for initial Commercial batches.

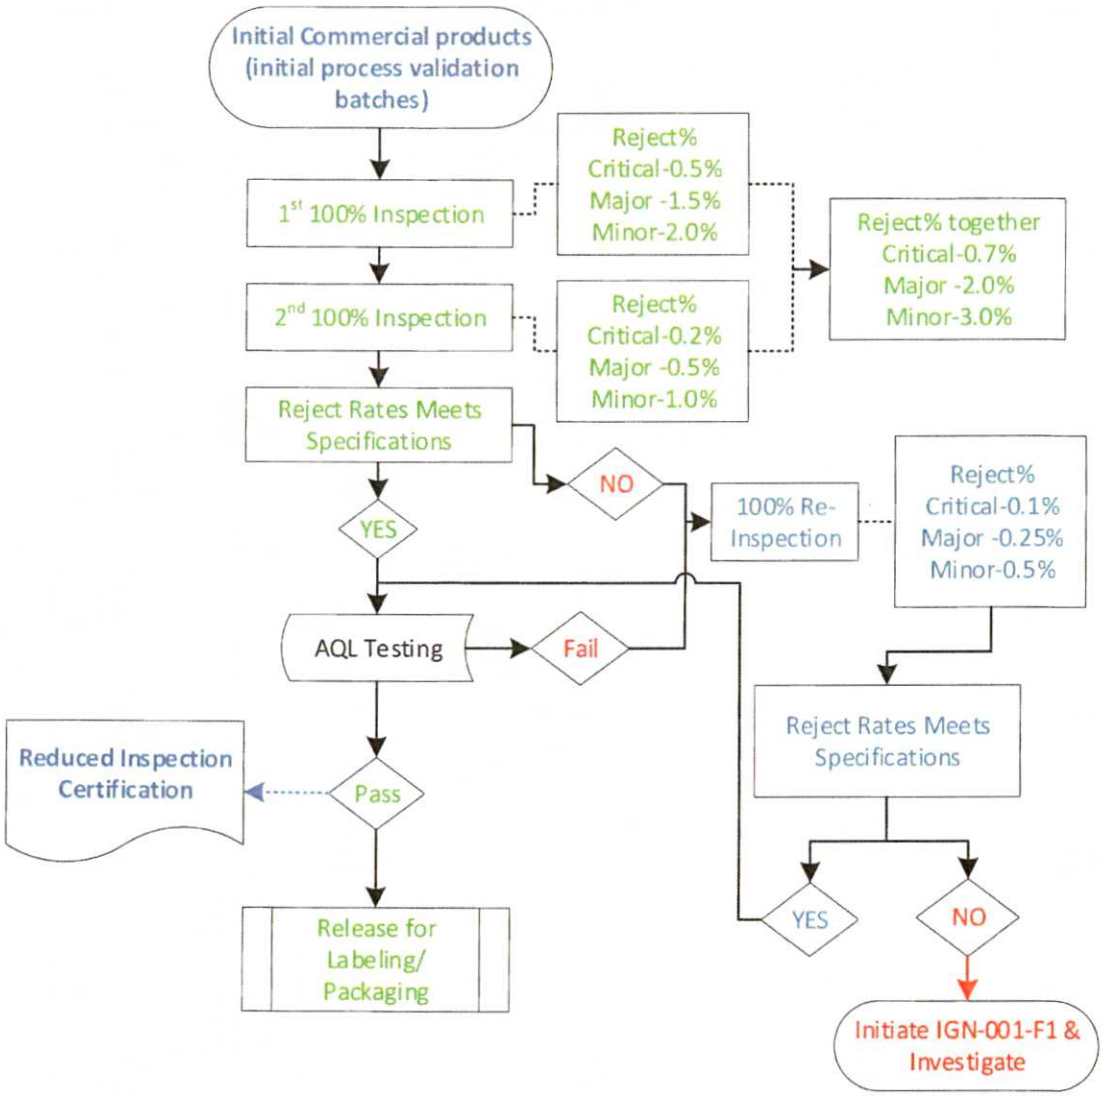

Figure 2: General Visual Inspection Process for Commercial Batches Prior to Reduced Inspection Certification

6.5.1.2 Before QA issues line clearance, ensure the product is secured (e.g., cage with fastener and lock, rack that has been wrapped) and there is no sign of tampering. If there is

evidence of tampering, notify supervisor or designee immediately to determine how to proceed.

6.5.1.3 Once line clearance has been given, bring product into the room and place a STATUS label on the rack/cage containing filled product (Status should be: To Be Inspected).

6.5.1.4 Place a STATUS label on the receiving rack/cage with appropriate status (e.g., First 100% inspected product, Second 100% inspected product, 100% re-inspected product)

6.5.1.5 Test light intensity using NIST calibrated standard Lux Meter prior to inspection start, and record results in Form IPD-007-F1. Light intensity should be NLT 2100 lux approximately 8-10 inches from the light source. If the light intensity is less than 2100 lux the booth cannot be used for inspection, initiate a maintenance request as per SOP IGN-020.

6.5.1.6 Collect one Filled Units tub/tray to be inspected at a time from the batch of filled units. If filled units are in tubs count the number of units available for inspection and record number of units in the appropriate space on form IPD-007-F1 and check the First 100% inspection box. If filled units are in trays, prepare another empty tray to place inspected units.

6.5.1.7 Pick up and hold the units in between finger and thumb in horizontal position (with bottom of the vial/syringe touching the thumb) approximately 8-10 inches below the light source and NMT 5 inches from the center line. Rotate and observe the containers, slowly, for five seconds in such a way that the complete body of the containers, including neck and bottom, is visible for inspection. NOTE: When inspecting for incomplete seal/cap, rotate unit between fingers and ensure the cap is leveled with the vial and the seal is securely locked from all points. Holding in one hand, move the cap head side to side and ensure the securing flanges do not move past the crown of the vial.

B. For inspection of syringes with Liquid Product:

a. Scratches/Scuff Marks on Body
b. Dents on Container
c. Dents on needle sheath or luer lock
d. Dirt on Exterior Surface
e. Empty syringe
f. Cracked or broken syringes
g. Missing stopper

h. Wrong stopper position (stopper upside down) with reference to standard
i. Liquid between stopper ribs
j. Partially Inserted Stopper, with reference to standard

6.5.1.8 Gently swirl or invert the vials/syringes making sure that minimal air bubbles are introduced and bring back to an upright position. Inspect the product in front of the **black background** for minimum five seconds and check for the defects mentioned below, as applicable for vials or syringes with liquid product.

A. For inspection of Liquid Product in both vials and syringes:

a. Low Fill Level
b. High Fill Level
c. Discolored, or Cloudy/Precipitate
d. Colored particles
e. Black Particles
f. White Particles
g. Glass Particles
h. Fibers

6.5.1.9 Invert the vials/syringes momentarily and bring to an upright position and inspect the product in front of the **white background** for minimum five seconds and check for the defects mentioned below.

A. Black/Brown Particles
B. Fibers
C. Colored Particles

NOTE: As each unit is inspected in front of black and white background each for a minimum of five seconds, and maximum of 2 containers are inspected at a time, it will take 20 seconds to inspect 2 units. No more than 360 units should be inspected per hour.

6.5.1.11 At the end of inspection process, test light intensity using NIST calibrated standard Lux Meter, and record in Form IPD-007-F1. Light intensity should be NLT 2100 lux approximately 8-10 inches from the light source; if the light intensity does not meet specification, initiate a maintenance request as per SOP IGN-020. All units inspected in this booth must be re-inspected after taking corrective action/repair or perform inspection in any other inspection booth.

6.5.1.12 Individual operators will reconcile the inspected units and rejects in his/her form and attach to the batch record.

6.5.1.13 Review total reject rates from the first 100% inspection through respective inspection forms, typical "**First 100% Inspection**" % Rejects Rates are listed in Table 3.

SOP No.	Title	Revision No.

Type of Defects	% Reject Rates (Action Level)			
	First 100% Inspection	Second 100% Inspection	Together First & Second Inspection	100% Re-inspection
Critical Defects	0.5	0.2	0.7	0.1
Major Defects	1.5	0.5	2.0	0.25
Minor Defects	2.0	1.0	3.0	0.5

6.5.1.14 Perform a Second 100% inspection following the same procedure as the First 100% inspection, typical "**Second 100% Inspection**" % Rejects Rates are listed in Table 3.

6.5.1.15 Rejected vials/syringes will be marked with the defect code number as listed in IPD-007-F1 form section III and placed into the appropriate labeled reject bin (i.e., critical reject bin, major reject bin, minor reject bin).

6.5.1.16 At the end of inspection process, test light intensity using NIST calibrated standard Lux Meter, and record in Form IPD-007-F1. Light intensity should be NLT 2100 lux approximately 8-10 inches from the light source; if the light intensity does not meet specification, initiate a maintenance request as per SOP IGN-020. All units inspected in this booth must be re-inspected after taking corrective action/repair or perform inspection in any other inspection booth.

6.5.1.17 Individual operators will reconcile the inspected units and rejects in his/her form and attach to the batch record.

6.5.1.18 Once the Second 100% inspection is complete, inform supervisor or designee to summarize overall inspection results in Form IPD-007-F3 and Batch Manufacturing Record.

6.5.1.19 Review total reject rates "**Together First & Second Inspection**" in respective inspection forms. If it is within the specified limits listed in batch record or Table 3, coordinate with Quality Assurance for Acceptable Quality Level (AQL) Inspection.

A. If the reject rates from the "**Together First & Second Inspection**" are NOT within the specified limits, request Quality Assurance Document Control to issue respective Batch record pages and Form IPD-007-F1 for 100% re-inspection as per SOP IQA-006.

B. Review total reject rates from 100% re-inspection. If it is within the specified limits from batch record or Table 3, coordinate with Quality Assurance for Acceptable Quality Level (AQL). If it is NOT within the specified limits, inform supervisor and an investigation must be initiated as per IGN-001.

C. If first AQL testing fails, re-inspection of complete batch is performed with "100% Re-inspection" limits from Table 3. Once re-inspection is complete, a second AQL inspection can be performed with tightened inspection limits, as per IQA-016.

NOTE: Only one re-inspection is allowed. If the reject rates are still NOT within the specified limits, an investigation must be initiated as per IGN-001.

6.5.1.20 Once AQL inspection is complete and the batch record has been updated, the filled product can be further released for labeling and packaging.

A. If product is left unattended, ensure the product is secure (e.g., secured in a cage with fastener and lock).

6.5.1.21 If the filled product needs transfer to the warehouse, prepare the transfer by following the procedure in SOP IPK-003.

6.6 **Reduced Inspection Certification Program for Commercial Products:**

6.6.1 Manufacturing Science & Technology or Production Lead/designee are responsible for compiling results and report for the Reduced Inspection Certification Program.

6.6.2 Reduced Inspection Certification is performed based on the following criteria:

6.6.2.1 Execute First 100% and Second 100% Visual Inspections for three consecutive cGMP commercial manufacturing batches per container closure system or product and filling process line.

6.6.2.2 Once three consecutive cGMP visual inspection results are available, a summary report will be prepared evaluating if the process is well understood, visible particulates type and characteristics are determined, and the visual inspection process is in control to maintain reject rates.

6.6.2.3 The summary report will compare the consistency of results between the batches and ensure the results meet the following criteria.

A. Each defect category in each inspection meets the criteria in Table 3.

B. Defect types are consistent between the batches.

C. The reject rate from the Second 100% inspection is significantly lower than First 100% inspection (typically 50% less than First 100% inspection).

6.6.2.4 The summary report will be reviewed and approved by Quality Assurance Management through change control request.

6.6.2.5 Upon approval of change control, the respective Product Validated List (i.e., I-034) will be updated with reduced inspection for all future cGMP batches.

6.6.2.6 First 100% and Second 100% Visual Inspection should be performed for reduced inspection certified products if:

A. First 100% visual inspection reject rates are significantly higher and any new particle types are identified which originated from the process.

B. Primary container or closure manufacturer changes their process, which may affect particulates from packaging component.

C. Major changes are made in the aseptic fill process/equipment which may impact either particulate generation or particulate retention.

SOP No.	Title	Revision No.
IPD-007	VISUAL INSPECTION OF INJECTIONS	09

6.6.2.7 If the visual inspection results for certified products do not comply with above requirements, an investigation as per SOP IGN-001 is conducted and the product must be removed from the Reduced Inspection Program. The respective Product Validated List (i.e., EOL I-034) must be updated via change control to remove the product from the Reduced Inspection Program. The product will then be First and Second 100% inspected until the criteria is met once again as per the requirements of this SOP.

6.7 Inspection of Commercial Products Certified for Reduced Inspection Program:

6.7.1.1 All commercial products certified for Reduced Inspection Certification Program are one time 100% inspected (i.e., First 100% Inspection). To determine if the product is qualified for reduced inspection program, refer to the respective Product Validated List (i.e., EOL I-034).

A. Refer to Figure 3 for the general inspection process of commercial products certified for reduced inspection.

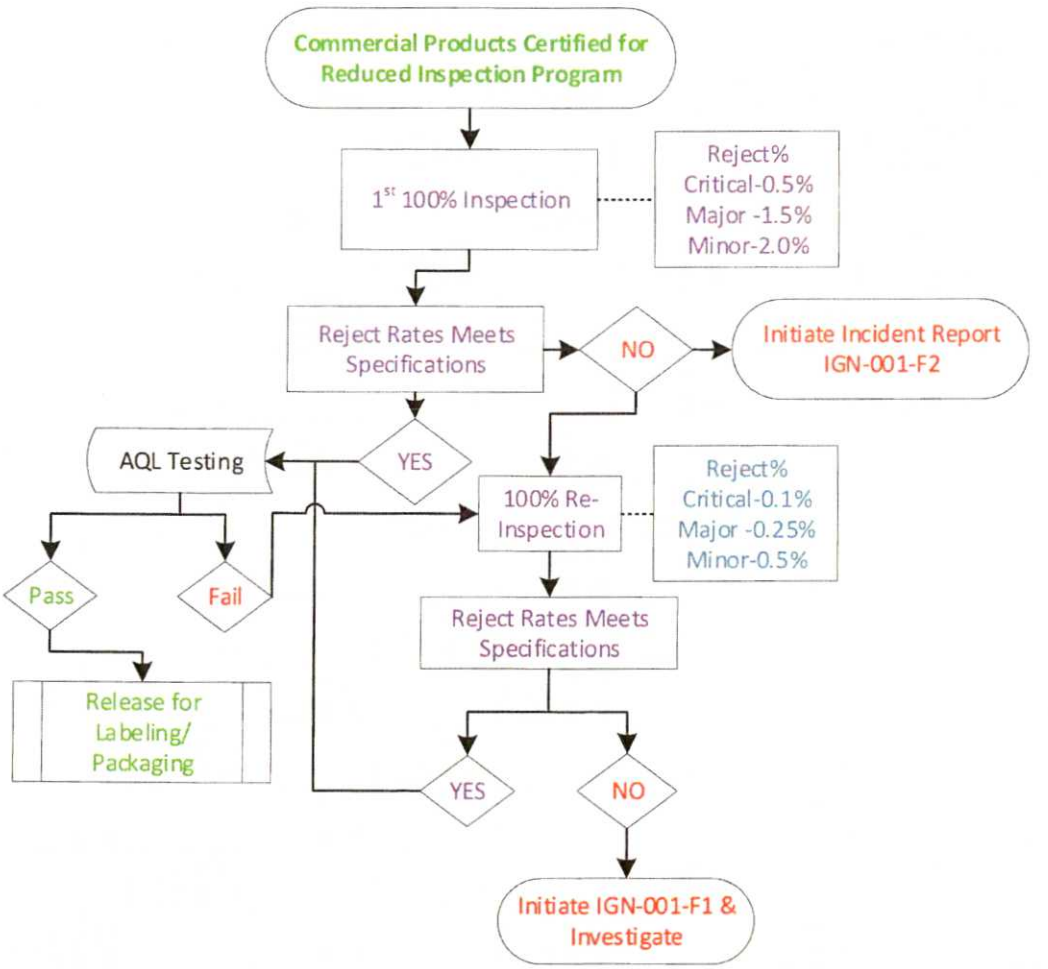

Figure 3: General Visual Inspection of Commercial Products Certified for Reduced Inspection

6.7.1.2 Before QA issues line clearance, ensure the product is secured (e.g., cage with fastener and lock, rack that has been wrapped) and there is no sign of tampering. If there is

evidence of tampering, notify supervisor or designee immediately to determine how to proceed.

6.7.1.3 Once line clearance has been given, bring product into the room and place a STATUS label on the rack/cage containing filled product (Status should be: To Be Inspected).

6.7.1.4 Place a STATUS label on the receiving rack/cage with appropriate status (e.g., First 100% inspected product)

6.7.1.5 Test light intensity using NIST calibrated standard Lux Meter prior to inspection start and record results in Form IPD-007-F1. Light intensity should be NLT 2100 lux approximately 8-10 inches from the light source. If the light intensity is less than 2100 lux the booth cannot be used for inspection, initiate a maintenance request as per SOP IGN-020.

6.7.1.6 Collect one Filled Units tub/tray to be inspected at a time from the batch of filled units. If filled units are in tubs count the number of units available for inspection and record number of units in the appropriate space on form IPD-007-F1 and check the First 100% inspection box. If filled units are in trays, prepare another empty tray to place inspected vials/syringes.

6.7.1.7 Pick up and hold the units in between finger and thumb in horizontal position (with bottom of the vial/syringe touching the thumb) approximately 8-10 inches below the light source and NMT 5 inches from the center line. Rotate and observe the containers, slowly, for five seconds in such a way that the complete body of the containers, including neck and bottom, is visible for inspection. Observe the containers for following defects:

A. For inspection of vials with Liquid Product:

a. Scratches/Scuff Marks on Body
b. Dents on Container
c. Dents on Flip-cap
d. Dirt on Exterior Surface
e. Empty Container
f. Cracked vial
g. Leakage
h. Missing Stopper
i. Missing Flip-cap
j. Incomplete seal/cap
k. Wrong color stopper/cap
l. Crimp defect (loose crimp or non-uniform crimp)

NOTE: When inspecting for incomplete seal/cap, rotate unit between fingers and ensure the cap is leveled with the vial and the seal is securely locked from all points. Holding in one hand, move the cap head side to side and ensure the securing flanges do not move past the crown of the vial.

B. For inspection of syringes with Liquid Product:

a. Scratches/Scuff Marks on Body
b. Dents on Container
c. Dents on needle sheath or luer lock
d. Dirt on Exterior Surface
e. Empty syringe
f. Cracked or broken syringes
g. Missing stopper

h. Wrong stopper position (stopper upside down) with reference to standard
i. Liquid between stopper ribs
j. Partially Inserted Stopper, with reference to standard

6.7.1.8 Gently swirl or invert the vials/syringes making sure that minimal air bubbles are introduced and bring back to an upright position. Inspect the product in front of the **black background** for minimum five seconds and check for the defects mentioned below, as applicable for vials or syringes with liquid product.

A. For inspection of Liquid Product in both vials and syringes:

a. Low Fill Level
b. High Fill Level
c. Discolored, or Cloudy/Precipitate
d. Colored particles
e. Black Particles
f. White Particles
g. Glass Particles
h. Fibers

6.7.1.9 Invert the vials/syringes momentarily and bring to an upright position and inspect the product in front of the **white background** for minimum five seconds and check for the defects mentioned below.

A. Black/Brown Particles
B. Fibers
C. Colored Particles

NOTE: As each unit is inspected in front of black and white background each for a minimum of five seconds, and maximum of 2 containers are inspected at a time, it will take 20 seconds to inspect 2 units. No more than 360 units should be inspected per hour.

6.7.1.10 Accepted vials/syringes will be placed into their respective tub/tray. Rejected vials/syringes will be marked with the defect code number as listed in IPD-007-F1 form section III and placed into the appropriate labeled reject bin (i.e., critical reject bin, major reject bin, minor reject bin).

NOTE: If an inspector has a doubt about a defect category, another qualified inspector may inspect and confirm.

6.7.1.11 At the end of inspection process, test light intensity using NIST calibrated standard Lux Meter, and record in Form IPD-007-F1. Light intensity should be NLT 2100 lux approximately 8-10 inches from the light source; if the light intensity does not meet specification, initiate a maintenance request as per SOP IGN-020. All units inspected in this booth must be re-inspected after taking corrective action/repair or perform inspection in any other inspection booth.

6.7.1.12 Individual operators will reconcile the inspected units and rejects in his/her form and attach to the batch record.

6.7.1.13 Review total reject rates from the first 100% inspection through respective inspection forms. If the reject rate acceptance criteria are not specified in the Batch Manufacturing

Record, follow the limits specified in Table 4. If it is within the specified limits, coordinate with Quality Assurance for Acceptable Quality Level (AQL) Inspection.

Table 4: Reduced Inspection Certified Products Visual Inspection Acceptance Criteria

Type of Defects	% Reject Rates (Action Level)	
	First 100% Inspection	100% Re-inspection
Critical Defects	0.5	0.1
Major Defects	1.5	0.25
Minor Defects	2.0	0.5

NOTE: If First 100% Inspection reject rates are within the specified limits, then a comment should be made in the Batch Manufacturing Record for Second 100% Inspection results referring to the Reduced Inspection Certification.

A. If the reject rates from the first 100% inspection are NOT within the specified limits, initiate an incident report as per SOP IGN-001 and request Quality Assurance Document Control to issue respective Batch record pages and Form IPD-007-F1 for 100% Re-inspection as per SOP IQA-006.

B. Review total reject rates from 100% re-inspection. If it is within the specified limits from batch record or Table 4 "**100% Re-inspection**", coordinate with Quality Assurance for Acceptable Quality Level (AQL).

C. If first AQL testing fails, re-inspection of complete batch is performed with "100% Re-inspection" limits from Table 4 after initiating an incident report as per SOP IGN-001. Once re-inspection is complete, a second AQL inspection can be performed with tightened inspection limits, as per SOP IQA-016. If it is NOT within the specified limits, inform supervisor. An investigation must be initiated as per IGN-001.

NOTE: Whenever the "100% re-inspection" and final AQL pass the requirements, the decision of removing the commercial product from the reduced inspection program is assessed and discussed in the respective incident / investigation report based on the nature of the defect.

6.7.1.14 Once AQL inspection is complete and the batch record has been updated, the filled product can be further released for labeling and packaging.

A. If product is left unattended, ensure the product is secure (e.g., secured in a cage with fastener and lock).

6.7.1.15 If the filled product needs transfer to the warehouse, prepare the transfer by following the procedure in SOP IPK-003.

6.8 Handling of Difficult to Inspect Products:

6.8.1 Some products may be difficult to inspect for particulates (e.g., colored products for Research and Development & Commercial). If a product cannot be reliably inspected following the procedures above, the following method will be used for inspection.

6.8.1.1 The product will undergo first 100% inspection, AQL inspection, and destructive testing. Refer to Figure 4 for the general inspection process for difficult to inspect products.

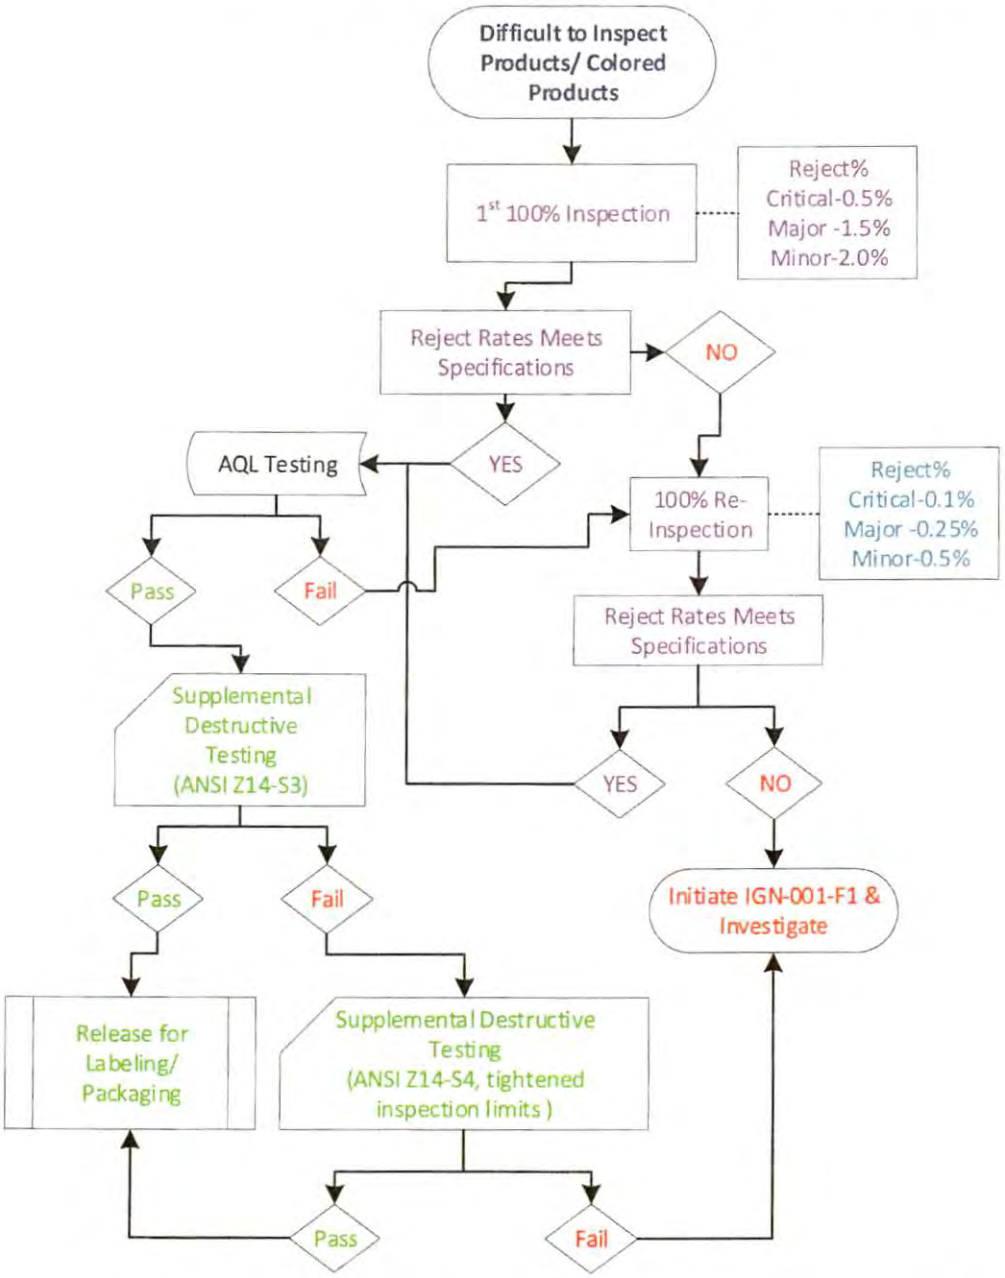

Figure 4: General Visual Inspection Process for Difficult to Inspect Products

6.8.1.2 Review total reject rates from the first 100% inspection through respective inspection forms. If the reject rate acceptance criteria are not specified in the Batch Manufacturing Record, follow the limits specified in Table 5. If it is within the specified limits, coordinate with Quality Assurance for Acceptable Quality Level (AQL) Inspection.

Table 5: Difficult to Inspect Products Visual Inspection Acceptance Criteria

Type of Defects	% Reject Rates (Action Level)	
	First 100% Inspection	100% Re-inspection
Critical Defects	0.5	0.1
Major Defects	1.5	0.25
Minor Defects	2.0	0.5

A. If the reject rates from the first 100% inspection are NOT within the specified limits, request Quality Assurance Document Control to issue respective Batch record pages and Form IPD-007-F1 for 100% re-inspection as per SOP IQA-006.

B. Review total reject rates from 100% re-inspection. If it is within the specified limits from batch record or Table 5 "**100% Re-inspection**", coordinate with Quality Assurance for Acceptable Quality Level (AQL).

C. If first AQL testing fails, re-inspection of complete batch is performed with "100% Re-inspection" limits from Table 5. Once re-inspection is complete, a second AQL inspection can be performed with tightened inspection limits, as per SOP IQA-016. If it is NOT within the specified limits, inform supervisor. An investigation must be initiated as per IGN-001.

6.8.1.3 Once production and AQL inspections are complete, QA department will take samples following Form IQA-016-F2 American National Standard (ANSI Z1.4) Sampling Plan, Special Inspection level S3 for supplemental destructive testing, by either an in-house or outside laboratory.

6.8.1.4 Transfer the samples to in-house laboratory for testing or to Warehouse to prepare samples for shipping.

A. In-house testing is performed as per SOP IMI-038 "Determination of Particulate within Injectables Products using Filtration Method".

B. If supplemental destructive testing does not meet the acceptance criteria, retesting is performed with tightened parameters.

At this time, QA department will take additional samples following Form IQA-016-F2 American National Standard (ANSI Z1.4) Sampling Plan, Special Inspection level S4 with tightened inspection limits for retesting of supplemental destructive testing.

If retesting does not meet the acceptance criteria, an investigation is initiated as per SOP IGN-001.

6.8.1.5 Once AQL inspection and supplemental testing are complete and the batch record has been updated, the filled product can be further released for labeling and packaging.

A. If product is left unattended, ensure the product is secure (e.g., secured in a cage with fastener and lock).

6.8.1.6 If the filled product needs transfer to the warehouse, prepare the transfer by following the procedure in SOP IPK-003.

6.9 Reconciliation of Visually Inspected Product:

6.9.1 After complete inspection, Production Supervisor or designee will review each IPD-007-F1 with IPD-007-F3 to ensure each tub/tray was inspected as per established inspection program and all units are accounted for.

6.9.2 Production Supervisor or designee will check each tub/tray's inspections and acknowledge in respective space in Form IPD-007-F3.

6.9.3 Production Supervisor or designee will then check the number of units available for each inspection, number of units rejected in each inspection, and number of units available after complete inspection.

6.9.4 Form IPD-007-F3 and Batch Manufacturing Record inspection results must be reviewed and found acceptable by Production Supervisor or designee prior to labeling or packaging of visually inspected product.

6.10 Handling of Rejected Units:

6.10.1 Once Visual Inspection is finished and the appropriate forms and Batch Record pages are complete, the rejected units will be placed into a storage container (e.g., box, resealable bags). Production will complete the label shown in Figure 5 and place it on the storage container.

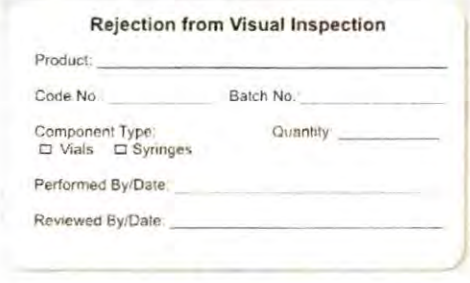

Figure 5: Rejection from Visual Inspection Label Template

6.10.2 Production will take labeled storage container to warehouse. Warehouse and production will place the storage container into the "REJECT" cage and production will document in the appropriate logbook.

6.10.3 Once the batch has been released by QA and no further testing is needed, QA will notify production and warehouse personnel.

6.10.4 Production designee will complete form IGN-024-F1 for the rejected units and give the completed form to warehouse.

6.10.5 Warehouse personnel will follow the waste procedure outlined in IWH-004 to dispose of the rejected units.

6.10.6 If the inspection is outside the specified acceptance criteria, production supervisors may determine that testing and identification of particulates is needed for a product. If so, production will send samples from the respective batch to either an in-house or outside laboratory using the following procedure.

6.10.6.1 Take the rejected units from warehouse to appropriate inspection room.

6.10.6.2 Separate the units into groups of similar particulate types (e.g., colored fiber, white fiber, dark fiber).

6.10.6.3 Choose a representative sample from each particulate type to send for testing.

6.10.6.4 Transfer the representative sample to QC laboratory for testing or to Warehouse to prepare samples for shipping. Return remaining rejected units to the warehouse.

6.11 Trending of Visual Inspection Results:

6.11.1 Visual inspection results for each cGMP batch will be tabulated and trended on a quarterly basis (once every three months) to ensure that manufacturing and inspection processes are operating in control.

6.11.2 Trending is performed to compile results and identify possible anomalies such as abnormal defect type or number of defects observed in a single product or container/closure system.

6.11.3 A report of the trend will be written and reviewed accordingly.

6.11.4 Visual inspection results for products certified for reduced inspection program are reviewed to ensure the product still qualifies for reduced inspections. In case a product no longer qualifies for the reduced inspection program, the product must be removed through change control procedure and revision of respective Product Validated List (i.e., EOL I-034).

6.11.5 Based on the results obtained, Corrective and Preventive Action (CAPA) may be proposed as per SOP IQA-024 if required.

1.0 PURPOSE

The purpose of this SOP is to establish and implement the Aseptic Process Simulation (APS), also called Media Fill Validation to support sterile drug products manufacturing.

The purpose of an Aseptic Process Simulation (APS) is to:

1.1 Assess the capability of an aseptic process under a given manufacturing environment and process controls.

1.2 Demonstrate that appropriately designed and implemented process changes are acceptable.

1.3 Demonstrate compliance with current Good Manufacturing Practices.

1.4 Demonstrate the appropriateness of operating practices used in support of aseptic processing.

1.5 Challenge the aseptic process for microbial contamination vulnerabilities.

2.0 SCOPE

The procedure is applicable for Sterile Drug Products Manufacturing facility at BPI Labs.

3.0 RESPONSIBILITY

3.1 Manufacturing Science & Technology (MS) / Production (PD):

3.1.1 Prepare, review, and execute the media fill Batch Record, Protocol, and the Final Report.

3.1.2 Provide the environmental summary report for non-viable particulate air, relative humidity, temperature, and differential pressure monitoring conducted during the media fill.

3.2 Microbiology:

3.2.1 Incubate and inspect incubated media filled units and remaining bulk media at the completion of incubation.

3.2.2 Provide the summary report for the examination of the media filled units to MS for inclusion with the media fill report.

3.2.3 Provide the environmental summary report for viable air and surface monitoring conducted during the media fill.

3.3 Quality Assurance:

3.3.1 Review and approve the media fill batch record and final media fill report.

3.3.2 Maintain the media fill schedule (every 6 months per filling line and process) to maintain bracketing and ensure the qualified status of the aseptic processing is maintained.

6.0 PROCEDURE

6.1 General:

6.1.1 BPI Labs aseptic fill process is designed to perform within a Grade ISO 5 environment, through use of robotic isolators, both gloved and gloveless.

6.1.2 Gloveless isolators eliminate human interventions and human originated microbial contamination risk is eliminated from aseptic fill in Sterile Drug Products fill finish. Due to this reason, some traditional elements of aseptic process are not applicable, such as, but not limited to, personnel gowning qualification and personnel monitoring during fill.

6.1.3 Gloved Isolators are designed to fill with no direct human interaction. Isolator designed with gloves ports are used in the event of necessary adjustments to the fill machine within ISO 5 environment.

6.1.4 Sterile Drug Products Manufacturing is designed either by means of aseptic filling or aseptic filling followed with terminal sterilization of product in its final container/closure system.

6.1.5 APS is only required for all products manufactured using aseptic process. If terminal sterilization is used, no media fill support is required since these products are subjected to subsequent terminal sterilization. This provides the necessary Sterility Assurance Level (SAL) for those products, provided sufficient pre-sterilization hold time studies have been established.

6.1.6 Processes to be challenged in process simulation:

The conduct of process simulations for aseptically produced parenteral products entails simulation of the process from the point of sterilization of the product and product contact surfaces, including containers and closures, through sealing of the filled container. Process such as weigh dispensing, mixing, pre-sterilization/filtration, and post sealing does not require to be simulated, similarly to the product process.

6.1.6.1 Compounding/Mixing and Sterile Filtration Operation: After sterilization, the medium should be passed through the equipment train. as though it were an actual production batch, and all routine aseptic procedures used in the manufacture of a batch should be performed, e.g., sampling, aseptic connection. Any aseptic manipulations performed during and at the end of the holding period should be simulated as well.

6.1.6.2 Filling Operation: The containers and closures (if necessary), product contact equipment, and filling parts should be prepared using standard operating procedures (SOPs). The filling machine should be operated at the pre-determined conditions for the container size being utilized based on risk assessment and "worst case" conditions.

A. For a process conducted in an isolator or robotic aseptic operations, where there is a low risk of contamination because of the lack of direct human intervention, a standard quantity of NLT 3,500 containers is sufficient to perform operations and interventions. For container formats with larger sizes and less containers per nest (formats greater than 10mL filling volume), a standard of NLT 1,200 containers is sufficient. This would yield a similar or greater number of nests required to complete the batch, similarly allowing for all required operations and interventions to be performed.

B. For traditional aseptic fills under Laminal Air Flow hoods, with manual aseptic operations and interventions:

a. When the production batch size is above 10,000 units, a minimum of 10,000 units is sufficient to perform all operation and interventions.
b. When the production size is below 5,000 units, at least equal the maximum batch size.

6.2 APS Strategy:

6.2.1 Media fill runs and required frequencies are listed in Table 1.

Table 1: Media Fill Strategy

When to Perform	How Many	Action	Reporting System
When a processing line is being initially qualified, including new facility construction and new filling line installation.	At least three separate, consecutive, successful runs	Any one size container	Protocol & Report
When introducing new container/closure size outside of the established bracket.	At least three separate, consecutive, successful runs	Specific container/closure	Protocol & Report
When introducing new container/closure type (e.g. syringes).	At least three separate, consecutive, successful runs	Specific container/closure	Protocol & Report
Once initially qualified, every six (6) months ± 1 month (semi-annually).	One successful run	Alternating with each end of the bracket (e.g., largest, smallest)	Protocol & Report
Facility and equipment modifications, such as breach to the sterile/aseptic area/isolator and line configuration changes.	Revalidation as per Change Control assessment	Impact assessed via Change Control	Protocol & Report
When using alternate filtration or filling assembly, such as Multi-Use flow path instead of Single-Use flow path.	One successful run	Impact assessed via Change Control	Protocol & Report
Minor modifications in Flow paths or sterile filtration/filling assembly, such as alternate use of sterile connector or change in product holding container size, material, etc.	One successful run	Impact assessed via Change Control	Protocol & Report
Anomalies in environmental testing results from filling operation, container closure system changes, extended shutdowns, or sterility testing failure due to fill system failures.	Impact assessed via Change Control	Impact assessed via Change Control	Impact assessed via Change Control

6.2.2 A detailed APS strategy and guidance written in the Validation Master Plan of BPI Labs should be followed to perform media fills.

6.3 Risk Assessment (RA):

6.3.1 Risk Assessment is performed per fill line to determine container closure configurations, identify, and evaluate the aseptic process steps, interventions, and worst-case conditions that can potentially adversely affect the sterility assurance risk to the product and incorporate in the APS.

6.4 Media Fill Matrix:

6.4.1 A matrix will be prepared based on the Risk Assessment to include validated Media Fills.

6.4.2 Specific conditions that represent the worst case(s) will be identified within the matrix. The matrix and specific criteria for assessment and inclusion of Media Fills must be documented and approved by Quality Assurance or designee.

6.5 Execution of Media Fill Validation:

6.5.1 Batch Record preparation and execution:

6.5.1.1 It should be written in the same format as a normal production batch record and contain all the routine data and sign-off requirements. All information applicable to the process simulation, which normally would be attached to a batch record, also should be attached to the simulation batch record, e.g., cleaning and sterilization records for pieces of equipment used, release stickers for the containers and closures, etc. All interventions, whether inherent (integral component of the process) or corrective (required to maintain operation), and stoppages, should be documented in the batch record as the type of intervention, time the intervention occurred, aseptic operators involved with the duration of the intervention or stoppage, and the number of the tub or tray being filled. The executed batch record should include information which is relevant to the performance and completion of the study. This includes but is not limited to:

A. Names of individuals participating in the simulation

B. Media sterilization/filtration

C. Filter identification and membrane integrity test results

D. Record or log of routine and non-routine occurrences including those in the filling room, which may have an effect on the outcome of the study

E. Number of units filled

F. Number of units rejected for cause during pre-incubation inspection (e.g. damaged container, defective seal)

G. Number of units incubated

H. Filled unit incubation time, temperature, and duration

I. Number of units positive and tub or tray number of any positive unit(s)

J. Growth promotion of medium (after incubation)

K. Filled unit accountability

L. Environmental and personnel monitoring (if applicable) results

M. The description and resolution of any discrepancies or deviations to the protocol

N. The executed batch record should be approved, signed, and dated

SOP No.	Title	Revision No.
IGN-025	ASEPTIC PROCESS SIMULATION (APS) OR MEDIA FILL PROGRAM	04

6.5.2 Validation Protocol and Report Preparation:

6.5.2.1 A formal written protocol or procedure should be prepared, approved, and issued prior to the start of the study. The document should include but not limited to the following information:

A. Groups responsible for execution, microbial testing, and approval of study

B. Rationale for the "worst case" parameters chosen as appropriate simulation of routine operations

C. Identification of the process to be simulated

D. Identification of the room or rooms to be used

E. Identification of the filling line and equipment to be used, including fluid path configuration details if multiple configurations are available

F. Type of container/closure to be used

G. Line speed

H. Minimum number of units to be filled

I. Number and type of interventions and stoppages

J. Identification of units to be excluded from incubation and rationale

K. Media to be used

L. Volume of medium to be filled into the containers

M. Incubation time, temperature, and duration for the filled units

N. Environmental monitoring to be performed

O. Accountability requirements

P. Acceptance criteria for all activities

Q. Description of the documentation required for the final report

R. Duration of the aseptic process simulation

S. Duration of routine production fills being simulated

T. Definition of conditions that may cause the simulations to be invalidated and decision-making authority

6.5.3 Pre-Incubation Container Inspection:

6.5.3.1 Prior to incubation 100% media filled units are visually inspected for non-integral units (e.g., missing, or misaligned closures, cracks in container) due to the possible breach of product sterility, according to the Master Batch Manufacturing Record instructions.

6.5.4 Incubation:

6.5.4.1 All pre-inspected media filled units must be incubated for at least 7 days at 22.5°C ± 2.5°C (where vials will be inverted), followed with another at least 7 days at 32.5°C ± 2.5°C (where vials will be upright), in temperature-controlled incubators. Syringes are always incubated upright as product is always in contact with the stopper.

6.5.5 Post-Incubation Container Inspection:

6.5.5.1 At the end of each incubation condition, visual inspection of all units for growth is performed by microbiologist or qualified operator.

6.5.6 Acceptance Criteria:

6.5.6.1 When filling fewer than 5000 units, no contaminated units should be detected.
A. One (1) contaminated unit is considered cause for revalidation, following an investigation.

6.5.6.2 When filling from 5,000 to 10,000 units:

A. One (1) contaminated unit should result in an investigation, including consideration of a repeat media fill.

B. Two (2) contaminated units are considered cause for revalidation, following investigation.

6.5.6.3 When filling more than 10,000 units:

A. One (1) contaminated unit should result in an investigation.

B. Two (2) contaminated units are considered cause for revalidation, following investigation.

6.5.6.4 Leftover Media in the container/bags:

A. Samples are taken from the leftover media in the container/bags and are submitted for incubation. The samples from the leftover media are representative of the container they were attached to, but are not directly representative of the final units being filled as part of the media fill.

6.5.6.5 Investigations should be performed per SOP IGN-001.

6.6 Initial APS:

6.6.1 Initial APS is performed in the events discussed in Table 1.

6.6.2 Upon completion of facility, utility, and equipment qualification, risk assessment is prepared by MS and approved to all departments involved, along with Quality Assurance.

6.6.3 Three (3) consecutive, separate, successful, runs are executed and included in an Effective Official List.

6.6.4 Quality Assurance controls the schedule to re-qualify each media fill based on a six-month period. Schedule is circulated to the concerned departments every month to ensure media fill program to the specific container closure systems are in valid state.

6.7 Continued Process Simulation Verification:

6.7.1 The bracketing approach will be maintained as the basis for requalification. APS is to be performed every six months for each processing line / fill machine, alternating between smallest and largest, as well as alternating container/closure systems, to maintain qualification of the aseptic filling operations.

Example:

Process Simulations for Vanrx Formats are bracketed by 2R vials and 50R vials, as well as 1mL syringes and 10mL syringes. As such, process simulations can be performed in the following order: 2R Vials -> 10mL Syringe -> 1mL Syringe - > 50R Vials. This would repeat back to 2R Vials and the order repeats.

6.7.2 An Initial Protocol will be created for initial qualification. A verification Protocol will be created and reissued for requalification, when applicable. These protocols will be used for execution of media fill runs for the specific run.

6.7.3 Quality Assurance updates media fill history and schedule to ensure that the process bracketing is maintained.

6.8 Disposal of Media Filled Containers and leftover media:

6.8.1 After completion of the incubation, media filled containers are disposed of per SOP IWH-004, unless there is a pending investigation related to the media fill or GPT failure of the media used.

6.9 Media Fill Failure Investigation:

6.9.1 Any contaminated unit cause for an investigation (as per IGN-001) should include a comparison, and analysis, of environmental monitoring performed during the media fill. If an assignable cause is identified, a single re-validation run will be planned. If no root cause is found for a process simulation failure, three consecutive, successful process simulations are required for re-qualification.

6.9.2 The investigation into a failed APS will include the following activities:

6.9.2.1 Identification of microorganisms, preferably to species level, to aid in the determination of the possible sources of the contamination.

6.9.2.2 Review of the data of microbial environmental monitoring and airborne particulate monitoring.

6.9.2.3 Review of the sterilization / depyrogenation cycles of container / closures, components, equipment, and filter integrity test data of filters used for filtration.

6.9.2.4 Review qualification documents of the HEPA Filters (integrity when challenged with aerosol, airflow direction, velocity measurements, air flow patterns, and pressure differentials).

6.9.2.5 Review of interventions and batch report from filler for any unusual events that occurred during the media fill.

6.9.2.6 Review of the procedure adopted during the intervention.

6.9.2.7 Storage condition of sterile items, disinfection procedures, and training.

6.9.2.8 Review of the equipment qualification, such as autoclave sterilization performance qualifications.

6.9.2.9 Post filter integrity test data of the filters used in the media fill.

6.9.2.10 Evidence of power failure and all deviations that occurred during the process.

6.9.2.11 Evaluation of incubated bulk media.

6.9.2.12 The investigation must be directed towards identification of the root cause of the failure and suggest the corrective and preventive actions to be taken in order to prevent failure. Refer to SOP IQA-024.

6.9.2.13 Based on investigation performed by manufacturing, QA will perform a risk assessment and assess the impact on all product filled on the affected fill line since the last acceptable APS, and determine the disposition of released product, as well as the product in-process.

6.9.2.14 After incubation is underway, any unit found to be damaged should be included in the data for the media fill run, because the units can be representative of drug product released to the market. Any decision to exclude such incubated units (i.e., non-integral) from the final run must be fully justified through a deviation. If a correlation emerges between difficult to detect damage and microbial contamination, a thorough investigation should be conducted to determine its cause.

6.10 Invalidation of APS or abortion of media fill will occur in the following conditions:

6.10.1 When growth promotion test (GPT) of media fails.

6.10.2 When filtered media shows mass growth in bulk solution.

6.10.3 Under circumstances in which written procedures require commercial lots to be equally handled, such as:

6.10.3.1 Filter integrity test failure which would have resulted in product re-filtration or rejection.

6.10.3.2 Failure of physical conditions in the isolator (e.g., power outage).

6.10.3.3 Any major breakdown in the fill equipment, which requires to open the isolator.

6.10.4 If for any reason the media fill run is considered invalid/aborted, containers should not be incubated.

SOP No.	Title	Revision No.
IGN-025	ASEPTIC PROCESS SIMULATION (APS) OR MEDIA FILL PROGRAM	04

6.10.5 All media filled units filled before an incident that would cause an aborted fill must be incubated.

6.10.6 Invalidation of APS or abortion of media fill will be documented through the respective section in the appropriate protocol. Investigation should be performed per SOP IGN-001.

6.11 New Product or Container Closure Introduction:

6.11.1 Change control will be initiated for new product and container closure introduction. The team, including Quality Assurance, will evaluate the need for a media fill.

6.11.2 If the product being evaluated falls in the already validated container closure configuration, no additional media fills are required, e.g. Product "A" container closure system is 2R vial, 13mm neck with 13mm stopper cap as closure, and the new product "B" introduced is also is 2R vial, 13mm neck with 13mm stopper cap as closure.

6.11.3 If the new container closure is out of the bracketing range established, media fill must be performed for at least three consecutive separate successful runs for that container closure. For example, if bracketing is for 2R vial with 13mm neck and 13mm stopper cap, and 10R vial with 20mm neck and 20mm stopper cap, the 4R, 6R, and 8R vials with 20mm neck and 20mm stopper cap do not require media fill, however the 100R vial with 32mm neck with 32mm stopper cap does require 3 consecutive successful media fills.

6.11.4 New product manufacturing process is evaluated for aseptic operations and any additional interventions or process conditions, other than the previously validated, must be reviewed for criticality.

7.0 REVISION HISTORY

Revision No.	Effective Date	Description of Changes
01	DEC 07 2018	Original SOP
02	FEB 04 2011	1. Include Risk Assessment in references section. 2. Include different scenarios in Table 1. 3. Expand on continued process simulation verification in step 6.7.1. Procedure and example included for alternating container closure system.
03	JAN 31 2023	1. Include Risk Assessment for new fill machine (FM02) in references section 2. Split up section 6.1.1 to elaborate the use of both gloved and gloveless isolators 3. Include sections under new 6.1.6.2 detailing the required amount of containers to be challenged during process simulation.
04	APR 2 6 2023	1. Modified Step 6.1.6.2.A to specify that 1,200 containers is sufficient for container/closure formats with a fill volume greater than 10mL 2. Step 6.5.6.4.A reworded to specify that leftover media is incubated from samples taken from the containers. 3. Clarified wording for example in Step 6.7.1

1.0 PURPOSE

The purpose of this SOP is to establish general guidelines for the handling of 503B Injectable Sterile Drug Products at BPI Labs facility Suite 450.

2.0 SCOPE

This procedure is applicable to 503B Injectable Sterile Drug Products manufactured at BPI Labs facility Suite 450.

For Solid Dosage Products manufactured at Suite 420A, refer SOP GN-040 Handling of 503B Products (Solid Dosage).

3.0 RESPONSIBILITY

3.1 It is the responsibility of every department listed in this procedure to follow instructions delineated in each section.

3.2 It is the responsibility of Operations and Quality Assurance Management to ensure that all activities included in this procedure are followed in the development of 503B drug products.

6.0 PROCEDURE

6.1 Quality Assurance Activities:

6.1.1 It is the responsibility of the Quality Assurance Control Unit to ensure that Quality System requirements are effectively established and maintained in accordance with 21 CFR parts 210, 211, and 820.

SOP No.	Title	Revision No.
IGN-033	HANDLING OF 503B PRODUCTS	08

6.1.1.1 The Quality Assurance Control Unit is comprised of all Quality Assurance (QA) Department members / associates that have authority and responsibility to ensure that Quality System requirements are effectively established and maintained (refer to SOP IQA-013 for details).

Printed by sanjana@bricherpharma.com on 26 Apr 2023 at 8:37:36 PM UTC

6.1.1.2 All departments are responsible for reviewing assigned Quality System documents such as Standard Operating Procedures (SOP), Forms, Job Descriptions, and Training Curriculum as well as ensure technical documentation is current and accurate.

6.1.1.3 QA department is responsible for ensuring all official documents such as SOP and Batch Records are approved, implemented, and distributed and that all obsolete editions of revised documents are retrieved (refer to SOPs IQA-001 and IQA-002 for details).

6.1.2 It is the responsibility of Quality and Operation Management to ensure all employees are qualified through a combination of training and experience to complete and maintain their assigned responsibilities (refer to SOP ITD-001 for details).

6.1.3 QA is responsible for the sampling and approval or rejection of raw materials (components), containers, closures, in-process materials, packaging materials, labeling, and finished products as per applicable specification (SPC) and respective quality system procedures (refer to SOPs IQA-007 and IQA-011 for details).

6.1.4 Analytical Chemistry Quality Control (QC) and Microbiology (MI) departments are responsible for the testing of raw material and finished products as per applicable SPC. QC and MI will review these results before release of material and products.

6.1.5 Retention of finished product reserve samples for applicable analytical and microbial SPC testing is the responsibility of QA, QC, and MI departments.

6.1.6 The results from environmental monitoring, water system testing, and media fill program are reviewed and scrutinized by QA department (refer to SOPs IMI-020, IGN-019, and IGN-025 for details).

6.1.7 Personnel monitoring is not applicable because of the nature of the manufacturing process.

6.1.7.1 After compounding, human intervention with the drug product and possibility of contamination is limited because of the use of peristaltic pumps, sterilized components, aseptic connections, sterilizing grade in-line filtration, and robotic aseptic filling and stoppering.

6.1.8 All documentation related to the manufacturing, labeling, and packaging operations of a product such as, but not limited to, Master Batch Manufacturing Record, Master Batch Labeling Record, Master Batch Packaging Record, and laboratory analytical reports shall be reviewed thoroughly before a batch is released (refer to SOP IQA-021 for details).

6.1.8.1 It is mandatory that all the data in all documents comply with the established SOP and product applicable SPC.

6.1.9 In the event of non-conformance or incidence, QA department is responsible for facilitating investigation of root cause and implementation of Corrective and Preventive Actions (CAPA) following guidelines of SOPs IGN-001, IQC-001, IMI-003, IMI-034, and IQA-024, among others.

6.1.10 In the event of formal product complaint or adverse event, QA department is responsible for facilitating investigation of root cause and implementation of CAPA following guidelines of SOPs IQA-009 and IRA-001, among others.

6.2 Facility Design:

6.2.1 The manufacturing facility within 12393 Belcher Road, Suite 450, Largo, Florida is designed to prevent contamination and mix ups, segregate zones of differing cleanliness classification, and facilitate ease of cleaning, maintenance, and operations. Refer to the Project Plan for BPI Labs PLN-I01 for more details.

6.2.1.1 The facility prevents contamination and mix ups by designating areas for specific unit operations for a single product at a time. This is controlled by use of equipment and area labeling, QA line clearance, and Manufacturing Batch Record review.

6.2.2 The facility consists of sealed modular cleanroom walls, ceilings, and walkable ceiling panels to maintain ISO 14644 Class 8 conditions throughout the facility.

6.2.3 Potential risks have been identified and applicable controls have been implemented as per facility design Risk Assessment.

6.2.4 The facility has been qualified through the execution of Performance Qualification Protocol to maintain no less than ISO Class 8 cleanliness by controlling non-viable particulate, viable particulate, number of air changes, and directional airflow in cleanrooms.

6.2.4.1 Clean and ample airflow within the facility is controlled by ensuring all supplies and returns are clear, all HEPA filters are leak tested, and the supply airflow is sufficient for the required number of room changes.

6.2.4.2 Manufacturing Science and Technology (MS) department is responsible for validation, requalification, and calibration of facility control systems (refer to SOP IVD-007 for details).

6.2.5 The facility is designed to aseptically fill and stopper syringe and vial 503B drug products within ISO 5 isolators surrounded by a qualified ISO 8 environment.

6.2.5.1 The temperature, relative humidity, and air pressure differentials of all cleanroom environments are continuously monitored during production and periodically revalidated (refer to SOP IQA-005 for details).

6.2.6 Terminally sterilized 503B products are filled under ISO 5 environment surrounded by ISO 8 environment.

6.2.6.1 Terminal sterilization cycles are validated using appropriate biological indicator challenge for 6-log reduction.

6.2.7 Controls are available to maintain and monitor the facility design including, but not limited to, those documented in SOPs IGN-030, IQA-005, and IMI-020.

6.3 Control Systems and Procedures for Maintaining Suitable Facilities:

6.3.1 The facility is designed to limit the possibility of mix ups and cross contamination by establishing defined areas per unit operation and procedures for personnel flow, material flow, and cleaning (refer to SOPs IGN-017, IGN-018, and IGN-028).

6.3.2 The possibility of cross contamination of hazardous and non-hazardous drugs is limited by designating separate sampling rooms and equipment for dispensing of different drug types.

6.3.2.1 Hazardous drugs are dispensed within containment and dispensing isolators to prevent cross contamination and ensure the safety of operators.

Printed by sanjana.patel@bpilabs.com on 8/31/2021 at 6:37:56 PM UTC

6.3.3 Production equipment follow cleaning schedules based on production schedule and Time Limitations.

6.3.3.1 Time Limitations are established for production and cleaning of process equipment and areas (refer to SOP IPD-006).

6.3.4 Processing, non-processing areas, and cleanroom support areas are kept clean and sanitary with cleaning schedule of WFI, disinfectant, and weekly sporicidal cleaning agent (refer to SOPs IGN-027 and IGN-028 for details).

6.3.4.1 Cleaning technicians are required to be trained on and review facility cleaning SOP, with an emphasis on cleaning schedule and rotating use of disinfectant / sporicidal cleaning agents.

6.3.4.2 Cleaning, Use, and Maintenance Logbooks are designated for each area to ensure the facility is being cleaned on the established schedule.

6.3.4.3 As with all received materials, disinfectant / sporicidal cleaning agents are inspected by QA department and verified with applicable SPC.

6.3.5 Temperature, relative humidity (RH), and pressure differentials within the manufacturing facility are maintained by the central heating, ventilation, and air conditioning (HVAC) system and monitored through Building Management System (BMS) to maintain product quality. The BMS provides trend reports of each condition and alerts personnel in case of an excursion (refer to SOP IGN-030).

6.3.5.1 The facility is designed to maintain 20 ± 2°C, less than 60% RH, and pressure differentials across rooms of differing classification.

6.3.5.2 These conditions are continuously monitored during production and are a requirement of room release (refer to SOP IQA-005).

6.3.5.3 In case of an excursion, impact is assessed, and incident is initiated when necessary.

6.3.6 Calibration schedule for critical instruments such as temperature, relative humidity, and pressure differential sensors in processing areas and equipment is maintained by QA and executed by MS (refer to SOP ICB-001).

6.3.7 Water systems (purified water, water for injection, and pure steam) are monitored every day of production and frequently as per applicable SPC (refer to SOP IGN-019).

6.3.7.1 In case of an excursion from the applicable SPC, impact is assessed, and investigation is initiated when necessary.

IGN-033	HANDLING OF 503B PRODUCTS	08

6.4 Personnel Qualification:

6.4.1 All personnel involved with the compounding of 503B drug products have been trained on established SOP for the dispensing, mixing, and filtration of compounded sterile products (CSP).

Printed by sanjay@beleherpharma.com on 20 Apr 2023 at 1:51:36 PM EDT

6.4.2 Training Curriculums (TC) are established for initial and periodic GMP refreshment training of employees. This curriculum includes on-the-job and self-training on general and department specific roles (refer to SOP ITD-001 for details).

6.4.2.1 Prior to engaging in any commercial batch manufacturing, personnel must have completed their initial qualification for the applicable unit operation.

6.4.3 GMP trainers must be qualified through completion of the Qualification Technique (QT) prior to new employee or refreshment training.

6.4.4 Personnel, production process, container / closure type, and production equipment have been challenged through Aseptic Processing Simulation (APS) media fill studies prior to engaging in commercial batch manufacturing (refer to SOP IGN-025).

6.4.4.1 APS media fill studies must be successfully performed in worst case scenarios to validate routine manufacturing parameters.

A. For example, validating the use of one (1) in-line filter during compounding of successful APS media fill study validates the use of two (2) in-line filters during routine manufacturing.

6.5 Environmental and Personnel Monitoring:

6.5.1 Environmental conditions such as temperature, relative humidity, and air pressure differentials are continuously monitored by Building Monitoring System (BMS) (refer to SOPs IGN-030 and IQA-005).

6.5.1.1 BMS creates trends of environmental conditions able to be monitored and reviewed by trained personnel. QA reviews these trends prior to each unit operation room release.

6.5.1.2 Air pressure differential limits ensure that cascading pressure differentials are maintained during compounding of sterile drug products.

6.5.1.3 BMS automatically notifies Management / responsible personnel in the event of an excursion from ideal conditions.

6.5.2 Passive air (settle plate) and active air Environmental Monitoring (EM) are conducted daily during compounding, filling, and sterilization operations. Surface (contact plate) sampling is conducted at the end of operation, prior to cleaning (refer to SOP IMI-020).

6.5.2.1 The procedure, locations, actions limits, and justification of locations for EM are established (refer to SOP IMI-020).

6.5.2.2 The results from EM are completed in the applicable Forms and results are reviewed with the Master Batch Manufacturing Record.

6.5.3 Sampling data is reviewed after each batch and an extensive review is conducted periodically to identify any issues and scrutinize existing procedures.

6.5.3.1 In the event of results near or above action levels, QA department is responsible for facilitating investigation of potential product impact and root cause.

6.5.4 Personnel monitoring is not implemented because of the nature of the production process. Refer to the Project Plan PLN-I01 for BPI Labs for more details.

Printed by Kirtan Patel on 8/31/2021 at 8:51:38 PM CDT

6.5.4.1 After compounding, human intervention with the drug product and possibility of contamination is limited because of the use of peristaltic pumps, sterilized components, aseptic connections, sterilizing grade in-line filtration, and robotic aseptic filling and stoppering.

6.5.5 Personnel gowning, sanitation, health habits, and health conditions are controlled and established (refer to SOP IGN-010).

6.5.6 Personnel flow and personal protective equipment requirements within the facility are established (refer to SOP IGN-017). It is the responsibility of Production personnel to follow this procedure and Management's responsibility to ensure this procedure is being followed.

6.5.6.1 These procedures control the safety of operators, cleanliness of processing rooms, and limit the possibility of cross contamination.

6.6 Equipment:

6.6.1 Process equipment used for batch production are qualified for use and calibrated on a scheduled maintained by the QA department (refer to SOP ICB-001).

6.6.1.1 The calibration schedule for production equipment and instruments are maintained by QA department and implemented by Manufacturing Science and Technology (MS) department.

6.6.1.2 Product contact surfaces of production equipment must be certified (i.e., certified 316 stainless steel) as non-reactive, non-adsorptive, and non-additive.

6.6.1.3 All documentation concerning material certification and current calibration performed in-house by MS with executed Form or by a third party is maintained by QA department.

6.6.2 Equipment qualifications and validations are approved by QA and executed by MS through Installation, Operation, and Performance Qualification Protocol.

6.6.3 SOP are established for the set up and operation, cleaning, and maintenance of major production equipment and implemented by Production personnel prior to use.

6.6.4 Production department is responsible for training, review, and execution of production equipment cleaning SOPs.

6.6.4.1 Training Record forms are executed at the time of training and maintained by QA department once complete.

6.6.5 Production department is responsible for the use of Cleaning, Use, and Maintenance logbooks to ensure the status of production equipment prior to use.

6.6.6 Refrigerators, freezers, and incubators are monitored with use of calibrated thermometer and, when applicable, relative humidity sensor.

6.6.7 Single-use disposable utensils and components are used for the dispensing, mixing, filtration, and filling of sterile drug products.

6.6.7.1 Inspection and certificate of analyses are used in the verification of these components prior to use.

Printed by sanjay@bpilabpharma.com on 20 Apr 2023 at 6:37:36 PM GMT

6.6.7.2 Components are inspected for damage or contamination prior to and after use via respective batch record.

6.7 Containers and Closures:

6.7.1 Pharmacist / Product Development / Production identifies vendors and materials required for a new project following SOP IPC-001. Materials can be ordered as samples for trial / experimental use; these materials are unaccounted. Once materials and vendors are identified and approved, a code number is requested per SOP IGN-003.

6.7.2 Upon creation of a code number using the appropriate official list, the following activities are coordinated:

6.7.2.1 Pharmacist / Analytical Research / Quality Control Department generates specification (SPC) and standard test method (STM) following instructions delineated in SOP IQA-025. Refer to Table 1 for suggested specification testing for primary and secondary packaging components.

Table 1 – Suggested Specification Testing for Containers and Closures

Type of Material	Suggested Testing Types
Primary Packaging (e.g., vial, syringe, cap, stopper)	Description, Physical Tests, Sterility (if applicable), Endotoxin (if applicable), and Certificate of Compliance Check
Secondary Packaging (e.g., carton)	Description (Visual Inspection), Physical Tests

6.7.2.2 Purchasing Department orders material upon management request following SOP IPC-001.

6.7.3 Warehouse Department receives materials following SOP IWH-001.

6.7.4 QA samples and inspects cGMP materials received following SOP IQA-007. Product Development can use these materials in quarantine for formulation trials only, ensuring sampling has been performed and an identification test has been completed, if required, as a discretion of the user.

6.7.5 Pharmacist / Analytical Research / Quality Control Department tests samples received according to the material specification and standard test method. Full testing is performed for all materials unless vendor has been qualified per SOP IQA-010; if this is the case, reduced testing is coordinated based on the tests specified in the specification. If during testing activities, Analytical Research / Quality Control / Microbiology Department finds that any test does not conform to established specifications, an investigation is performed in accordance with SOPs IQC-001 and IMI-003. Upon testing completion, results and data generated are submitted to Quality Assurance for final disposition.

6.7.5.1 Reduced specification testing is performed for containers and closures as suggested by SOP IQA-010 and applicable packaging component SPC, as seen in Table 2.

Table 2 – Suggested Reduced Specification Testing for Containers and Closures

Type of Material	Suggested Reduced Testing Types
Primary Packaging (e.g., vial, syringe, cap, stopper)	Description, Physical Tests, Sterility (if applicable), Endotoxin (if applicable), and Certificate of Compliance Check
Secondary Packaging (e.g., carton)	Description (Visual Inspection)

Printed by Bhagwati Bhembhema

6.7.6 In case the Product Development Department needs to use a material that is under testing for a cGMP batch, a conditional release request is coordinated as per SOP IQA-011.

6.7.7 The Quality Assurance Department performs final disposition for materials and assigns a retest date (when applicable) and expiration date once inspection and testing is completed as per SOP IQA-011.

NOTE: Analytical testing methods for active raw materials are validated / verified by the Pharmacist / Analytical Research / Quality Control / Microbiology Department based on method validation guidelines.

NOTE: All formal documents are routed for approval using SOP IQA-001.

6.7.8 As a general practice, retesting is not performed for containers and closures.

6.7.9 Containers and closures are stored in the climate-controlled warehouse monitored by BMS.

6.7.10 Quality Agreements must be established with each primary container and closure vendor to ensure the quality of the finished drug product.

6.7.10.1 Only pre-sterile ready to use (RTU) containers and closures are used for batch production. Vendors must perform sterilization cycle validation proven by Certificate of Analysis.

6.7.10.2 The primary packaging of pre-sterile containers and closures are only removed in ISO 5 areas once ready to be filled and stoppered.

6.7.11 Vendors of primary and secondary packaging materials are routinely evaluated as per SOP IPC-001.

6.8 Components:

6.8.1 Pharmacist / Product Development / Production identifies vendors and materials required for a new project following SOP IPC-001. Materials can be ordered as samples for trial / experimental use; these materials are unaccounted. Once materials and vendors are identified and approved, a code number is requested per SOP IGN-003.

6.8.2 The Active Pharmaceutical Ingredient (API) must be manufactured by an establishment that is FDA registered. Quality Agreements must be made with the API suppliers to ensure product quality and that FDA establishment registration is maintained.

6.8.3 Upon creation of a code number using the appropriate official list, the following activities are coordinated:

6.8.3.1 Pharmacist / Research and Development (R&D) / QC / MI Department generates SPC and STM following instructions delineated in SOP IQA-025. Refer to Table 3 for suggested SPC testing for active and inactive components.

Printed by sanjam@beltcherpharma.com on 26 Apr 2023 at 8:37:36 PM UTC

Table 3 – Suggested Specification Testing for Active and Inactive Components

Type of Material	Suggested Testing Types
Active (e.g., API)	Description, Identification, Loss on Drying (water), Assay, Microbial Enumeration Test, Endotoxin
Inactive (e.g., excipient)	Description, Identification, Microbial Enumeration Test (if applicable), Endotoxin (if applicable)

6.8.3.2 Purchasing Department orders materials upon management request as per SOP IPC-001.

6.8.4 Warehouse Department receives materials as per SOP IWH-001.

6.8.5 Active and inactive pharmaceutical ingredients are stored in the climate-controlled warehouse monitored by BMS.

6.8.6 QA Department samples and inspects cGMP materials received as per IQA-007. Pharmacist / Product Development can use these materials in quarantine for formulation trials only, ensuring sampling has been performed and an identification test has been completed, if required, as a discretion of the user.

6.8.6.1 Sampling is conducted within the manufacturing facility with use of complete gowning, Personal Protective Equipment (PPE), and dispensing hood or isolator.

6.8.7 Cleaning validation is not performed for components because of the use of single use systems.

6.8.8 Pharmacist / Analytical Research / Quality Control Department tests samples received according to the material specification and standard test method. Full testing is performed for all materials unless vendor has been qualified per SOP IQA-010; if this is the case, reduced testing is coordinated based on the tests specified in the specification. If during testing activities, Analytical Research / Quality Control / Microbiology Department finds that any test does not conform to established specifications, an investigation is performed in accordance with SOPs IQC-001 and IMI-003. Upon testing completion, results and data generated are submitted to Quality Assurance for final disposition.

6.8.8.1 Reduced specification testing is performed for active and inactive pharmaceutical ingredients as suggested by SOP IQA-010 and applicable packaging component SPC, as seen in Table 4.

Table 4 – Suggested Reduced Specification Testing for Active and Inactive Components

Type of Material	Suggested Reduced Testing Types
Active (e.g., API)	Description, Identification, Loss on Drying (water), Assay, Microbial Enumeration Test (if applicable), Endotoxin (if applicable)
Inactive (e.g., excipient)	Description, Identification, Microbial Enumeration Test (if applicable), Endotoxin (if applicable)

6.8.9 In case the Product Development Department needs to use a material that is under testing for a cGMP batch, a conditional release request is coordinated as per SOP IQA-011.

6.8.10 The Quality Assurance Department performs final disposition for materials and assigns a retest date (when applicable) and expiration date once inspection and testing is completed as per SOP IQA-011.

Printed by sanjana@belcherpharma.com on 26 Apr 2023 at 8:37:36 PM UTC

NOTE: Analytical testing methods for active raw materials are validated / verified by the QC / MI Department based on method validation guidelines.

NOTE: All formal documents are routed for approval through Change Control System.

6.8.11 Retesting is performed for active and inactive components as per SOP IQA-012.

6.8.12 Vendor of active and inactive materials are routinely evaluated as per SOP IPC-001 (i.e., active materials ever year and inactive materials every two years).

6.9 Production and Process Controls:

6.9.1 General Controls:

6.9.1.1 Master batch records prepared for R&D products, proposed commercial products, and scale-up/validation/commercial product products are prepared by Product Development, Pharmacist, and/or Production department.

A. Master batch and packaging records for 503B products should be prepared as per SOP IGN-023.

6.9.1.2 All master batch and packaging records must be reviewed by Pharmacist / Production / Product Development departments and approved by Regulatory Affairs and QA departments.

6.9.1.3 All batch and packaging records are requested by Production designee and issued by QA department as per SOP IQA-006.

6.9.1.4 It is the responsibility of Production department to request room release per production unit operation and the responsibility of QA department to follow clearance procedure as per SOP IQA-014.

6.9.1.5 Time Limitations (refer to SOP IPD-006) and Hold Times must be followed for production process and in-process product as validated through media fill validation program.

A. The storage time limitation of bulk solution is validated through successful results of Hold Time study protocol.

6.9.1.6 503B drug products are aseptically handled by use of peristaltic pumps, aseptic connections, and pre-sterile components, among others.

6.9.1.7 Terminally sterilized 503B products are filled under ISO 5 environment surrounded by ISO 8 environment.

A. Terminal sterilization cycles are validated using appropriate biological indicator challenge for 6-log reduction.

6.9.1.8 Production parameters such as production equipment, process parameters, hold times, and time limitations or validated under worst-case scenario simulation during media fill validation program.

6.9.2 General Production Process:

6.9.2.1 503B manufacturing and packaging operations follow the general production process of documentation release, line clearance, weigh and dispense, mixing, filtration, filling, terminal sterilization (when applicable), packaging, and labeling.

6.9.2.2 Documentation such as batch manufacturing record and applicable forms are requested by Production designee and issued by QA department as per IQA-006.

6.9.2.3 Line clearance / room release is requested by Production department prior to each operation and issued by QA department as per SOP IQA-014.

6.9.2.4 Weighing and dispensing of raw pharmaceutical ingredients (e.g., API, excipient) is performed by use of restricted access isolator or dispensing hoods as per batch record and SOP IPD-002.

6.9.2.5 Raw pharmaceutical ingredients are mixed with pharmaceutical grade Water for Injection (WFI) as per batch record.

6.9.2.6 Mixed unfiltered intermediate product is aseptically filtered by use of sterilizing grade filters into pre-sterile fill path or intermediate bags.

6.9.2.7 Filters used during filtration are sterilizing grade 0.2µ hydrophilic filters. 100% of filters used for batch manufacturing are filter integrity tested, with the results from these tests included within the Batch Manufacturing Record.

6.9.2.8 Filling will occur within controlled ISO 5 environment surrounded by ISO 8 environment.

6.9.2.9 When applicable, terminal sterilization will be performed by use of validated cycle and qualified equipment.

6.9.2.10 Packaging and labeling operation is performed as per packaging record and SOPs IPK-001 and IPK-002.

6.9.3 Research and Development Products:

6.9.3.1 Pharmacist identifies new projects to be developed in the company based on, but not limited to, company and marketing needs, and opportunities nominated by FDA "Bulk Drug Substances Nominated for use in Compounding under Section 503B of Food, Drug, and Cosmetic Act".

6.9.3.2 Pharmacist shall use SOP IPH-002 to determine if the proposed new project is essentially a copy of an approved or unapproved drug product. New projects shall be in compliance with "FDA Guidance for Industry Compounded Drug Products That Are Essentially Copies of Approved Drug Products Under Section 503B of the Federal Food, Drug, and Cosmetic Act".

6.9.3.3 Pharmacist / Product Development Department prepares the marketing trade dress for the project with the purpose of understanding all aspects of the formulation, process, and labeling, among others, of the product. Pharmacist / Product Development Department prepares the R&D checklists for covering project planning and execution activities and ensuring that all project activities have been completed and that the FDA expectations, needs, and requirements have been met.

Printed by sanjana@bpilabs.com on 20 Apr 2022 at 8:31:00 AM IST

6.9.3.4 Pharmacist designs experimental batches in order to analyze product behavior and test different formulations and processes (refer to SOP IPH-001 for details). Generally, these batches are documented and tracked via notebook. At this stage, Pharmacist / R&D / QC Department can analyze experimental samples and coordinate informal stability of the product. All experimental data generated by the Laboratory is submitted to the Pharmacist / Product Development Department for analysis and further action. Experimental batches are disposed according applicable SOP when required.

6.9.3.5 QA Validation Department incorporates the product into the cleaning validation matrix in order to swab cGMP equipment to look for active residue content (if equipment is shared between products). Pharmacist / R&D / QC Department prepares documented method in the laboratory to analyze active residue content of swab samples (refer to SOPs IVD-001, IVD-003, and IQC-005), when applicable.

6.9.3.6 QA Department swabs product contact cGMP equipment following cleaning validation matrix and submits swab samples to R&D / QC Department for analysis as per SOPs IVD-001 and IVD-003.

6.9.3.7 Once Pharmacist / Product Development develops the formulation and processes that are going to be used in the manufacturing of the product for stability / Beyond-use-Dating (BUD) or batch, a code number is requested via SOP IGN-003.

6.9.3.8 Upon creation of code number using the appropriate official list, the following activities are coordinated:

A. Pharmacist / R&D / QC Department generates specification for intermediates and bulk finished products, and STM (refer to SOP IQA-025 for details).

B. Pharmacist / Product Development prepares master batch records and master packaging records for stability batches, ensuring formula number is traceable. The sampling plan requirements are included as part of the master batch records and master packaging records where all instructions are clearly sequentially identified and step by step process is implemented and executed at all times (refer to SOP IGN-023 for details).

C. Pharmacist / R&D / QC / Microbiology Department coordinates method validation of analytical, microbial testing (i.e., Description, Assay, Sterility, Bacterial Endotoxins Test) only for stability products (refer to STMs IMV-I01 and IMV-I02 as well as SOP IQC-005).

6.9.3.9 Pharmacist / Production requests issuance of master batch record and executes batch using a cGMP qualified and validated facility and equipment. Samples of the intermediate and bulk finished products are submitted to Pharmacist / R&D / QC Department for testing. If during testing activities Pharmacist / R&D / QC Department finds that any test does not conform to established specifications, an investigation is performed. Upon testing completion, results and data generated are submitted to QA for final disposition.

SOP No.	Title	Revision No.
IGN-033	HANDLING OF 503B PRODUCTS	08

6.9.3.10 Pharmacist / Production submits executed batch record to QA Department for review and final disposition.

6.9.3.11 Pharmacist / Production requests conditional release of the Bulk Finished Product to QA before packaging operation in case final disposition has not been determined by QA at the time of performing the packaging operation.

6.9.3.12 Pharmacist / Production requests issuance of master packaging record, executes a batch using a cGMP qualified and validated facility and equipment, and submits executed packaging record to QA Department for final disposition.

6.9.4 Scale-up of Products:

6.9.4.1 Pharmacist with the help of Production coordinates the scale-up activities (when required) and prepares the commercial master batch record and the master packaging record (ensuring formula number is traceable with stability batch).

6.9.4.2 Pharmacist / R&D / QC Department coordinates method transfer of the analytical testing during the scale-up activities, if required (refer to SOP IQC-021).

6.9.4.3 The QA Department prepares cleaning validation protocol to be executed accordingly, if necessary (refer to SOP IVD-001 for details).

6.9.4.4 QA Department coordinates preparation of Stability Protocol for commercial batches (refer to SOP IQC-002 for details).

6.9.4.5 Labeling group or designee coordinates preparation of printed labeling material (i.e., product label) to be used in the commercial products (refer to SOP IRA-006 for details).

NOTE: Product checklist is prepared to plan and execute all activities related to the commercial launch.

6.9.5 Validation of Commercial Products:

6.9.5.1 Pharmacist / Production Department requests issuance of commercial master batch records, commercial master packaging records, and process validation protocols (refer to SOP IVD-002 for details).

6.9.5.2 Pharmacist / Production Department with the help of Pharmacist and QA Department executes data requested usually in the first batch using a cGMP qualified and validated facility and equipment.

6.9.6 Commercial Products:

6.9.6.1 Production Department executes validated product and processes based on production schedule using cGMP qualified and validated facility and equipment.

6.9.6.2 Product contact components (filters, tubing, aseptic connections, fill path) are sterilized by use of validated cycles.

A. In-house sterilization cycle validation is performed by use of Biological Indicators (BI) and calibrated thermocouples. The sterilization time of these validated cycles are increased for routine manufacturing overkill potential.

B. Product container / closure are pre-sterile and sealed components sterilized with validated cycles by the manufacturer.

6.9.6.3 The details (BPI receiving number, expiration date, etc.) of each component used in batch manufacturing are logged within Master Batch Manufacturing Record.

A. These details include the expiration date for depyrogenated glassware (vials, syringes, etc.) used in the manufacture of a batch.

6.9.6.4 Upon completion of the batch, the finished drug product will remain in quarantine until being released through inspection, testing, and release facilitated by QA.

A. Visual inspection is conducted by qualified individuals who undergo annual eye exams to ensure 20/20 vision (refer to SOP IPD-007).

6.9.6.5 QA Department reviews all data generated including Master Batch Manufacturing Record and analytical testing from the commercial batches and performs final disposition of each batch before distribution (refer to SOPs IQA-011 and IQA-021).

A. Complete records are maintained with Quality Assurance Control Unit's Document Control (refer to SOP IQA-002).

6.9.6.6 In the event of non-conformance or incidence, QA department is responsible for facilitating investigation of root cause and implementation of Corrective and Preventive Actions (CAPA) following guidelines of SOPs IGN-001, IQC-001, IMI-003, and IQA-024, among others.

6.10 Release Testing:

6.10.1 Specification for each finished 503B drug product is created as per SOP IQA-025 to ensure finished drug product quality.

6.10.2 Generally, product specific SPC tests include chemical, microbial, and physical tests listed in Table 5.

Table 5 - General Release Specification Testing for 503B Finished Drug Products

Test	Specification
Description	As per applicable SPC
Identification A (by HPLC)	As per applicable SPC
pH <USP 791>	As per applicable SPC
Container Content USP <697>	As per applicable SPC
Particulate Matter USP <1>	Foreign matter (Visible particulates): Free from foreign matter.
	Subvisible Particles USP <788> Particles ≥ 10µm: NMT 6000 per container Particles ≥ 25µm: NMT 600 per container
Assay	As per applicable SPC
Bacterial Endotoxins Test USP <85>	As per applicable SPC
Sterility Tests USP <71>	No evidence of microbial growth

6.10.3 Antimicrobial effectiveness test is only performed as necessary for 503B drug products labeled as multiple dose.

6.10.4 Product specification testing may be outsourced to contract laboratory, as needed as per IQC-004.

Printed by kirtan@bpiclinical.com on 20 Apr 2023 at 6:57:36 PM CDT

6.10.5 Prior to product release, it is the responsibility of Pharmacist and QA department to review the executed batch records, microbial environmental monitoring results, and finished product testing results as per SOP IQA-021.

6.10.6 Specification test results are reviewed and finished 503B drug products are released as per SOP IQA-011.

6.11 Laboratory Controls:

6.11.1 Sampling of raw material and finished products is conducted by QA department.

6.11.2 Testing is conducted by QC and MI departments as per product / material specific validated standard test method (STM) and specification (SPC) criteria.

6.11.3 Clear and complete records of laboratory data is kept in laboratory notebook, analytical worksheet, reports, and logbooks for QC, R&D, and MI Departments.

6.11.4 United States Pharmacopoeia (USP) and European Pharmacopoeia (EP) standards are followed for the procedure of preparation, qualification, storage, handling, and use of laboratory analytical standards.

6.11.5 The procedure for approval of contract laboratories, receiving and shipping of samples, coordination of testing, receiving of results and submission of data to QA department is established by SOP IQC-004.

6.11.5.1 Contract laboratory is a BPI qualified and FDA approved independent company that has entered into a Quality Agreement with BPI to test pharmaceutical products such as raw material, in-process samples, and finished products.

A. Quality Agreements are established as per FDA Guidance Contract Manufacturing Agreements for Drugs: Quality Agreements and ISO 17025.

6.11.5.2 Pharmacist / QC department is responsible for reviewing the data for accuracy, completing analytical report and specification, and submitting analytical report to QA department.

6.11.5.3 QA department is responsible for final disposition of product based on the received results.

6.12 Stability / Expiration Dating for Compounded Drug Products:

6.12.1 The expiration date for all products, is established through the conduct of a stability program that includes testing to assess the product's performance against specifications after aging to the desired expiration date (§ 211.137); the conditions are outlined in ICH guidance for industry 4 Q1A(R2) Stability Testing of New Drug Substances and Products.

6.12.1.1 Beyond use Date (BUD), like expiration date, is the number of days or date at which a drug product is no longer acceptable for use. BUD is calculated from the date of manufacture (i.e., compounding date).

6.12.2 The expiration date is presented as month/date/year using the format MM/DD/YY (i.e., 08/20/19) or equivalent.

Printed by Kirtan Patel from BPI Labs.com on 25 Apr 2023 at 8:31:59 PM CT

6.12.3 A listing of established products and their corresponding expiration dating intervals is included in Finished Products Code Number List.

6.12.4 The expiration dating interval is established by obtaining stability data conducted by following an established stability protocol specific for the product (refer to SOP IQC-002 for additional details), as per SOP IQA-019 assignment of expiration dates are given, within requirements listed below.

6.12.4.1 At least 10 percent of the proposed maximum size commercial batch (i.e., pilot scale size) or at least commercial batch size.

6.12.4.2 Stability study condition and test intervals can be found in Table 6.

NOTE: As a general policy, Accelerated (AA) stability studies are only conducted for Stability batches. Long Term (CRT) stability studies are conducted for Stability and Commercial batches.

Table 6 - Temperature, Relative Humidity, Test Interval Conditions for Stability Studies

	Temperature	Relative Humidity	Test Intervals
Long Term (CRT)	25°C ± 2°C	60%RH ± 5%RH	2, 4, 6, 8 months
Accelerated (AA)	40°C ± 2°C	75%RH ± 5%RH	1, 2 months

6.12.4.3 Accelerated studies, combined with basic information of the components, drug products, and container / closure system, may be used to establish a tentative BUD interval provided shelf life studies are not available and are being conducted.

6.12.4.4 For product stored in accelerated conditions that yield acceptable stability results after 30 days (1 month), BUD / expiration dating interval of 240 days (8 months) from the manufacturing date of the batch can be assigned.

Example: If the batch was manufactured on 08/20/19 and stability data shows that the product is stable for 30 days in the accelerated conditions, a tentative BUD/expiration date of 04/15/20 can be assigned to the product, as follows.

Manufacturing Date (Compounding Date): 08/20/19

Beyond Use Date Interval: 240 days

Beyond Use Date (BUD): 08/20/19 + 240 days - 1 day = 04/15/20

NOTE: In case the BUD / expiration dating interval is assigned as 360 days, then the test intervals for the long term stability are adjusted accordingly, i.e., 3, 6, 9, and 12 months.

6.12.4.5 When a tentative expiration dating interval has been established using accelerated test data and the product has been marketed based on that interval, if the product stored at a controlled room temperature fails to conform to all acceptance criteria during stability testing, an investigation is conducted following SOP IGN-001.

6.12.4.6 All official data generated in the development phase is filed by Document Control.

NOTE: Preparation and approval activities of all formal documents are performed using Change Control System.

Printed by sanjay@bpilabs.com on 31 Aug 2021 at 10:17:06 CDT

6.12.4.7 All data generated from the validation including analytical testing are submitted to QA for final disposition and assignment of beyond use date (BUD) based on results of stability data.

6.13 Packaging and Labels:

6.13.1 All units should be packaged and labeled in accordance with SOPs IPK-001 and IPK-002 as well as Master Batch Packaging Record created in Quality System as per SOP IGN-023.

6.13.1.1 Product labels and Master Batch Packaging Record are controlled and released by QA department as per SOP IQA-006.

6.13.2 Labels must contain the following information:

6.13.2.1 The statement: "This is a compounded drug." Or a reasonable comparable alternative statement that prominently identifies the drug as a compounded drug.

6.13.2.2 Name, address, and phone number of the facility.

6.13.2.3 The statement: "Rx Only."

6.13.2.4 The following details of the drug:

A. Established name.
B. Quantity or volume, dosage form, and strength.
C. The date the drug was compounded.
D. Expiration or beyond use date.
E. Lot or Batch Number.
F. Storage and handling instructions.
G. National Drug Code Number (NDC No.) when available.
H. The statement "Not for resale", and, if the drug is dispensed or distributed other than pursuant to a prescription for an individually identified patient, the statement "Office Use Only".
I. A list of active and inactive ingredients identified by established name and the quantity or proportion of each ingredient.

6.13.2.5 FDA website and phone number: "www.fda.gov/medwatch" and "1-800-FDA-1088".

6.13.3 Labeling operation is performed in-house either manually or with use of automated labeler.

6.13.3.1 A specimen label is placed in the master labeling batch record for reference prior to Labeling operation.

6.13.3.2 Labels are placed on the units and labeled units are inspected throughout labeling process as per Master Batch Labeling Record.

6.13.3.3 Labeled units are placed in trays and trays are labeled with "STATUS" label.

NOTE: Serialization as per SOP IGN-036 is not applicable for 503B drug products.

6.13.4 Packaging operation is performed in-house or by an outside packaging contractor.

6.13.4.1 In-house, labeled units will be manually placed in carton holders, filled carton holders will be placed into cartons, and filled cartons will be manually placed into shipping boxes.

Printed by sanjay@bestepharma.com on 26 Apr 2023 at 8:34:58 PM CDT

6.13.4.2 This series of packaging containers as well as labeling equipment inspection ensures stability of containers, prevents mix-up, mechanical abrasion to product containers, and possible product contamination.

6.13.4.3 Unlabeled product or "brite stock" can be stored into inventory for future labeling and packaging (refer to SOP IPK-003 for details).

6.13.5 When labeling process is complete, a reconciliation of the used filled product, labeling materials, and labeling units is performed as per Master Batch Labeling Record.

6.13.5.1 Discrepancies during reconciliation are investigated as per SOP IGN-001.

6.13.5.2 Excess of labels with Lot and control numbers printed are destroyed.

6.14 Reserve Samples:

6.14.1 Retention samples will be taken for each batch of 503B product inline with guidelines included in SOP IQA-020.

6.14.2 As a general practice, the quantity of the retention sample is determined to cover no less than twice the quantity necessary for all analytical and microbial tests as per the applicable specification. The quantity of the retention sample for each product is listed in applicable EOL.

6.14.3 Reserve samples must be retained and stored under the labeled storage conditions and in the same immediate container-closure system in which the drug product is marketed or in one that has essentially the same characteristics (e.g., same material, same headspace for liquids).

6.14.4 Reserve samples must be held for no less than 30 days following the established expiration date.

6.14.5 Reserve samples are collected from the beginning, middle, and end of a packaging run.

6.14.6 Generally, QA department pulls retention samples of packaged product according SOP IQA-020.

6.15 Product Complaint Handling:

6.15.1 The procedure to handle (receipt, logging, investigation, monitoring, trending, and resolution) written and oral product complaints received by the company concerning any of the distributed drug products is established as per SOP IQA-009.

6.15.2 All complaints received are logged into "Complaints" logbook and assigned a complaint number.

6.15.3 Depending on the nature of the complaint, QA or designee may request concerned department for investigation, along with complaint sample if available.

6.15.4 QA or designee will investigate through review of batch record, packaging record, and analytical data looking for deviations, issues, or nonconformance to evaluate the impact and cause of the complaint.

6.15.5 QA or designee will arrange for appropriate physical, chemical, and/or microbial testing of complaint sample.

6.15.6 Once the results are reviewed, an Investigation report is prepared indicating the detailed investigation, most probable root cause, corrective and preventive actions, and conclusions. Corrective and preventive actions are addressed as per applicable SOP.

6.16 Adverse Event Handling:

6.16.1 The procedure for the surveillance, receipt, evaluation, and reporting of Adverse Drug Experiences (ADEs) associated with human and veterinary drug products manufactured at BPI Labs must follow the FDA guideline "Adverse Event Reporting for Outsourcing Facilities under Section 503B of the Federal Food, Drug, and Cosmetic Act".

6.16.2 It is the responsibility of Regulatory Affairs personnel to assure all ADEs (i.e., all serious and unexpected adverse drug experiences) are properly documented, investigated by appropriate personnel, and reported to the FDA (i.e., 15-day Alert Report) as per SOP IRA-001.

6.16.3 Regulation requires reporting of each ADE as soon as possible, but in no case later than 15 calendar days from initial receipt.

6.16.4 All reported ADE must be promptly investigated and a follow-up report must be submitted within 15 calendar days of receipt of new information or as requested by the FDA. If additional information is not obtainable, records should be maintained of the unsuccessful steps taken to seek additional information.

6.16.5 Reports to the FDA concerning ADE must include pertinent identifying details:

6.16.5.1 An identifiable patient.

A. Information on the names and addresses of patients should not be included. A unique code should be assigned for each individual patient.

6.16.5.2 An identifiable reporter.

A. Defined as a patient, consumer, family member, doctor, pharmacist, other health care professional or related individual.
B. A reporter can be identified by one or more of the following: personal identifier (e.g., name), professional identifier (e.g., doctor, nurse, pharmacist), contact information (e.g., e-mail address, phone number).

6.16.5.3 A suspect drug product.

A. Defined as a product suspected as associated with the adverse event.
B. In the case that an adverse event involves multiple suspect drug products compounded by the same facility, the facility should only submit one report with all drug products listed.

6.16.5.4 A serious adverse event.

A. Defined as a patient outcome involving death, life-threatening ADE, inpatient hospitalization, disability or incapacity, or a congenital anomaly or birth defect.

6.16.6 Reports must be submitted with current labeling of drug product, hospital summaries, autopsy/death certificate, relevant laboratory data, and clinical data.

6.16.7 Reports can be submitted through the Safety Reporting Portal (SRP) or the Electronic Submissions Gateway (ESG).

Printed by Kirtan Patel from bpipharma.com on 28 Apr 2023 at 8:37:37 PM UTC

6.16.8 Before submitting electronically for the first time, facilities should notify the FDA Adverse Event Reporting System (FAERS) Electronic Submission Coordinator to assist the facility in its submission.

6.16.9 Regulations require firms to maintain records relating to all ADEs (including raw data and any correspondence relating to the adverse drug experiences) for no less than 10 years and to permit any authorized FDA employee, at all reasonable times, to have access to and copy and verify the records established and maintained under 21 CFR Part 310.305.

6.17 Regulatory Requirements:

6.17.1 Registration with FDA:

6.17.1.1 Refer to the FDA Guidance "Registration of Human Drug Compounding Outsourcing Facilities under Section 503B of the FD&C Act" for all suggestions regarding electronic 503B registration with the FDA.

6.17.1.2 Outsourcing facilities must register initially and each year thereafter during the registration period between October 1st and December 31st.

6.17.1.3 To register as an outsourcing facility, a compounder must provide the following information:

A. Name
B. Place of business.
C. Unique facility identifier.
D. Point of contact email address.
E. Indication whether the facility intends to compound products on FDA's drug shortage list.
F. Indication whether the facility compounds from bulk drug substances, and if so, whether it compounds sterile or nonsterile drugs from bulk drug substances.

6.17.1.4 Facilities intending to register as outsourcing facilities should submit registration using existing Structured Product Labeling (SPL) format.

A. Refer to Section IV of FDA Guidance "Providing Regulatory Submissions in Electronic Format – Drug Establishment Registration and Drug Listing" for complete details for SPL submission.

6.17.1.5 FDA is required to publish a list of registered outsourcing facilities and the facilities' status, as well as, update the list weekly.

6.17.2 Registration with Florida Department of Health Board of Pharmacy:

6.17.2.1 Refer to Rule 64B16-28.100 "Special Sterile Compounding Permit Application and Information" for a complete guidance on application and permitting requirements for special compounding facilities established by Florida Department of Health under Florida Statute Chapter 465.

SOP No.	Title	Revision No.
IGN-033	HANDLING OF 503B PRODUCTS	08

6.17.2.2 Permits are only valid for the name and physical location to which it is issued. Any changes to facility name or location must be requested through Florida Department of Health Board of Pharmacy.

Printed by sanjana@belchergpharma.com on 26 Apr 2023 at 8:37:36 PM UTC

6.17.2.3 An initial onsite inspection is required for issuance of a new permit. The board inspector will document the facility's compliance with all applicable rules and statues.

6.17.2.4 Outsourcing facilities engaged in sterile compounding must obtain and maintain a Special Sterile Compounding Permit by filing an application with form DH-MQA 1270 "Special Sterile Compounding Permit Application and Information".

6.17.2.5 Applicants for a Special Sterile Compounding Permit must comply with all permitting requirements in subsection (1) of Rule 64B16-28.100 and designate a prescription department manager or consultant pharmacist on record.

6.17.2.6 Florida Department of Health reserves the right to inspect outsourcing facilities at any time after the initial inspection.

6.17.3 Reporting to FDA:

6.17.3.1 Outsourcing facilities must submit a product report upon initial registration and twice each year thereafter, once in June and once in December, for products produced during the previous six-month period.

A. Drug product reports submitted between June 1 and June 30 of each year must report products produced from December 1 through May 31.

B. Drug product reports submitted between December 1 and December 30 of each year must report products produced from June 1 through November 30.

6.17.3.2 Each semiannual report must identify all sterile and non-sterile drugs compounded at the outsourcing facility during the previous six-month period and provide the following information for each compounded drug:

A. The active ingredient and strength of active ingredient per unit.
B. The source of the active ingredient.
C. The 10-digit National Drug Code (NDC) number of the source drug or bulk active ingredient, if available.
D. The dosage form and route of administration.
E. The package description.
F. The number of individual units produced.
G. The 10-digit NDC number of the final product, if assigned.

6.17.3.3 Outsourcing facilities must submit drug product reporting electronically in SPL format. Refer to FDA guidance "Electronic Drug Product Reporting for Human Drug Compounding Outsourcing Facilities Under Section 503B of the Federal Food Drug and Cosmetic Act" for more information about drug product reporting.

1.0 PURPOSE

The purpose of this SOP is to describe procedures for cleaning of the manufacturing processing and non-processing rooms, including cleanroom support areas, laboratories, warehouse, and utility areas.

2.0 SCOPE

This procedure is applicable for the cleaning of processing areas (such as samples, formulations, and filling), non-processing areas (such as utility areas, non-cleanroom corridors, laboratories, warehouse, and change rooms), and cleanroom support areas (such as cleanroom corridors, clean equipment room, and cleaning supplies room) located in BPI Labs.

3.0 RESPONSIBILITY

It is the responsibility of the Production Cleaner to follow this procedure and it is the responsibility of the Production / Laboratory Manager or designee to implement and monitor the procedure.

6.0 PROCEDURE

6.1 General Requirement:

6.1.1 When performing cleaning, ensure hazardous energy sources are tagged and locked out.

6.1.2 Review the applicable SDS for handling, instructions, personal protective equipment requirements, and disposal instructions for any chemicals and materials involved in this process.

6.1.3 Use gloves, masks, and safety goggles / face shields while cleaning.

NOTE: After shut-down activities, all rooms must be cleaned as per procedure mentioned in Weekly Cleaning (steps 6.3.9) before being utilized.

6.1.4 All areas under the scope of this SOP are listed in Table 1 below.

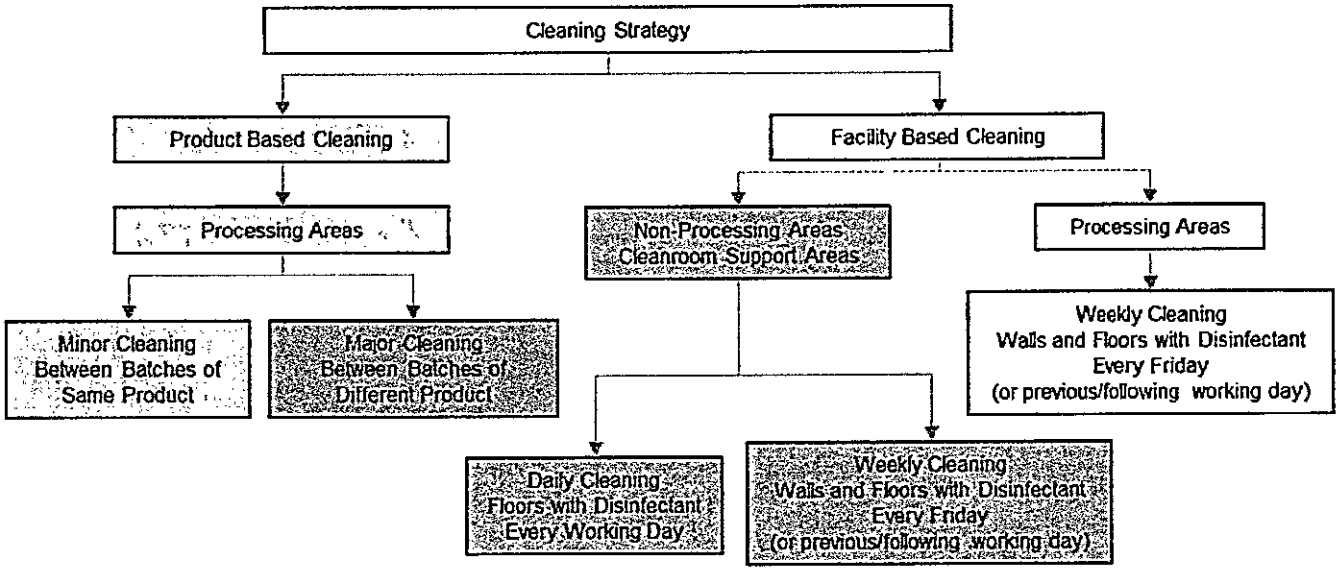
Table 1: Processing, Non-Processing, and Cleanroom Support Areas

Processing Areas	Non-Processing Areas
Filling Rooms (Rooms 312 and 317)	Non-Cleanroom Corridors (Corridors 201, 207, and 409)
Formulation Rooms (Rooms 311 and 316)	Change Rooms / Lockers (Rooms 202 and 203)
Autoclave Load (Room 313)	Quality Control Laboratory (Rooms 103, 104, and 107)
Autoclave Unload (Room 319)	Microbiology Laboratory (Room 205)
Tank WIP Room (Room 315)	MLT Laboratory (Room 211)
Samples Rooms (Rooms 308 and 308A)	Warehouse (Shipping and Receiving) (Rooms 408 and 411)
Sterility Isolator Room (Room 210)	Utility Area / Boiler Room (Rooms 403 and 404)
Cleanroom Support Areas	Tech Space (Room 208)
Cleanroom Corridors (Corridors 310 and 301)	Vestibule (Room 101)
Personnel Gowning Airlock (Room 304)	Restrooms (Rooms 105 and 106)
Personnel De-Gowning Airlock (Room 303)	Inspection and Packaging Rooms (Rooms 405 and 407)
Material Airlocks (Rooms 305, 306, and 309)	Labeling and Packaging Room (Room 412)
Clean Equipment Room (Room 318)	
Component Preparation Room (Room 314)	
Cleaning Supplies Room (Room 302)	
Anteroom (Room 204)	
Airlocks (Rooms 307 and 209)	

6.1.5 Types of Areas:

6.1.5.1 Processing Areas include rooms in cleanroom area that may be used for Production.

6.1.5.2 Cleanroom Support Areas include rooms and corridors that are within cleanroom area but where a Production process would not occur.



6.1.5.3 Non-Processing Areas are rooms and corridors outside the cleanroom area, and where open product would not be exposed.

A. Inspection and Packaging Rooms and Labeling and Packaging Room are areas outside the cleanroom where Finished Product is processed, but always in a sterile, sealed state. As there is no open product, routine Facility Based Cleaning is

performed as per Table 4 and Product Based Cleaning is performed as per Step 6.2.5.

6.1.6 BPI's cleaning strategy is designed considering cross contamination and microbial bioburden. Product Based Cleaning revolves around manufacturing areas and reducing the risk of contamination of the product. Facility Based Cleaning involves areas of all classifications and ensuring there is no introduction of microbial contaminants from lower to higher classified areas. See Figure 1 below.

Figure 1: Cleaning Strategy Flow

6.1.7 Cleaning Strategy:

6.1.7.1 Mops and cleaning supplies used in Non-Processing Areas will NOT be used in Processing Areas or Cleanroom Support Areas, however the same mops and cleaning supplies can be used between Processing Areas and Cleanroom Support Areas. Ensure mops and cleaning supplies are labeled accordingly.

6.1.7.2 Ensure the correct cleaning supplies are used for their respective area by reviewing the labels before the start of cleaning.

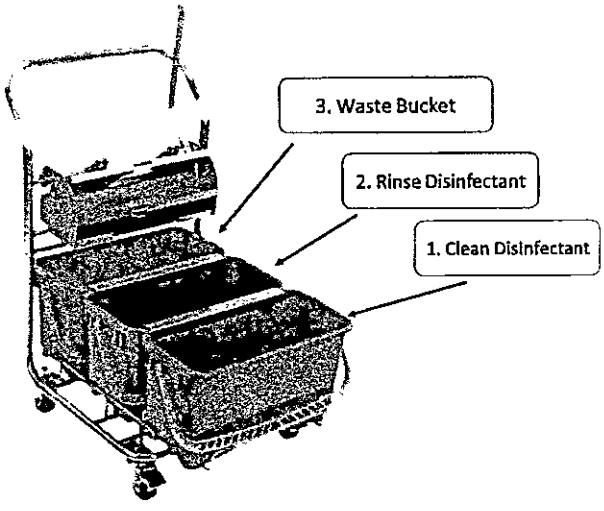
6.1.7.3 Production Cleaner should refer to the cleaning schedule posted in accessible areas for use of the appropriate disinfectant as per rotation.

6.1.7.4 To ensure water ports and transfer equipment are not incidentally contaminated, care should be taken when collecting WFI or Purified Water for cleaning.

A. If a hose or pipe is needed to transfer water, ensure it is securely connected to the water port without leaks. Do not touch the water port directly with bare hands as this may contaminate the water port.
B. Before collecting or using water for cleaning, direct the hose to a drain and flush for NLT 1 minute.
C. Collect water or use for cleaning, then close the water port valve tightly to avoid leaks.

D. Remove the water hose and place it in a designated area to air dry. Ensure the hose is placed in a position that will drain any residual water.

6.1.7.5 Prepare disinfectants as per SOP IGN-027. Document the amount of disinfectant used in the appropriate Preparation of Disinfectant Dilutions Logbook.



6.1.7.6 Production Cleaner should refer to the approved Facility Based Cleaning Flows for Cleanrooms as a guide to which rooms should be cleaned for Daily and Weekly cleaning, as well as provide direction where cleaning should begin and end.

NOTE: Cleaning Flows are only a recommendation. When a specific room cannot be cleaned per the approved flow, due to unavoidable circumstances, cleaning can proceed in the following available room, as needed.

6.1.7.7 The "Three Bucket System" works as follows: first bucket contains a clean disinfectant (or WFI/PW as applicable), second bucket contains a rinse disinfectant and is used to rinse the cleaning agent (or WFI/PW as applicable) from dirty mop, and third bucket is a waste bucket used to wring the mop. See Figure 2.

6.1.7.8 The flow for the "Three Bucket System" is as follows: dip mop into clean disinfectant, then wring mop into waste bucket to remove excess liquid and begin mopping. After mopping, insert mop into rinse bucket to remove dirty liquid, then wring mop to remove excess liquid. Repeat process until cleaning is finished.

Figure 2: Three Bucket System

6.1.7.9 Cleaning should be performed from the highest surface point to the lowest surface point (i.e., walls, equipment, and then floors, in sequential order), as well as, from the furthest surface point to the closest surface point (i.e., farthest corner of the room towards the exit that will be used to leave the room).

6.1.7.10 Cleaning should be performed uniformly in single overlapping strokes, ensuring all areas are reached by the mop without going over a single area multiple times.

6.2 Product Based Cleaning:

6.2.1 Product Based Cleaning is applicable to Process Equipment and Processing Rooms to avoid cross contamination majorly. It is separated as Minor Cleaning and Major Cleaning, and they are performed between batches.

NOTE: Whenever cleaning a processing room along with multiple equipment located in the same room, open each related logbook (i.e., equipment and room) and document the type of cleaning (i.e., major cleaning / minor cleaning) under the "Description" column. Whenever the cleaning of each specific equipment is initiated, log such information in the respective logbook using only the "Start Date" and "Start Time" columns. Additionally, whenever the cleaning of each equipment is completed, document such information in the respective logbook using only the "Finish Date" and "Finish Time". Finally, the room should be cleaned last and the corresponding entries in the logbook related to the initiation and completion of the cleaning process need to be documented accordingly whenever the operation is started and completed. In case of cleanroom supporting areas, enter cleaning details in one single logbook.

6.2.2 Before starting minor or major cleaning, put a check mark against the appropriate box on status label of the room, as applicable.

6.2.3 Minor Cleaning:

6.2.3.1 Minor cleaning is performed between batches of the same product type.

6.2.3.2 Ensure all evidence of the previous batch, including the batch record, all containers produced, and all raw materials, is cleared from the room. Ensure debris is removed off floor, and trash is removed from room.

6.2.3.3 Equipment should be cleaned per respective equipment cleaning SOP.

6.2.3.4 Using sterile 70% IPA, wipe down scales, tables, carts, windows, and doors.

6.2.3.5 Mop the floors using a mop wetted in WFI/PW following the "Three Bucket System" method and allow to dry.

6.2.3.6 After cleaning, sign the Cleaning, Use, and Maintenance Logbook for minor cleaning. Call the supervisor or designee to verify the cleaning.

6.2.3.7 Place a "CLEAN" label on the door with cleaning details.

6.2.3.8 Discard leftover cleaning agents through the drains in the Component Preparation Room, or designated areas. Clean buckets thoroughly with Purified Water after use.

6.2.4 Major Cleaning:

6.2.4.1 Major cleaning is performed between batches of different product type.

6.2.4.2 Ensure all evidence of the previous batch, including the batch record, all containers produced, and all raw materials, is cleared from the room. Ensure debris is removed off floor and trash is removed from room.

6.2.4.3 Cover room temperature / relative humidity monitoring probe in polyethylene bag to avoid water spill and physical damage to probe.

6.2.4.4 Equipment should be cleaned per respective equipment cleaning SOP.

NOTE: Never spray WFI/PW directly on opening of exhaust duct, inlet supply grills, electrical fixtures, and light fixtures.

6.2.4.5 Clean ceilings using a mop wetted in WFI/PW following the "Three Bucket System" method.

6.2.4.6 Clean walls and floors, using a mop wetted in WFI/PW following the "Three Bucket System" method and allow to dry.

6.2.4.7 Using sterile 70% IPA, wipe down scales, tables, carts, windows, and doors.

NOTE: While performing the cleaning of the processing rooms, ensure the personnel and material flow are done in a way that avoids any cross contamination (i.e., do not enter the cleaned rooms while cleaning an un-cleaned room).

6.2.4.8 After cleaning, sign the Cleaning, Use, and Maintenance Logbook for major cleaning and call the Supervisor or designee to verify the cleaning.

6.2.4.9 Place a "CLEAN" label on the door with cleaning details.

6.2.4.10 Discard leftover cleaning agents through the drains in the Component Preparation Room. Or designated areas. Clean buckets thoroughly with Purified Water after use.

6.2.5 Product Based cleaning for **Inspection and Packaging Rooms and Labeling and Packaging Room are** different as they are outside the cleanroom area but there is not open product exposed:

6.2.5.1 Minor cleaning is performed between batches of the same product type as below:

A. Ensure all evidence of the previous batch, including the batch record, all containers produced, and all raw materials, is cleared from the room. Ensure debris is removed off floor and trash is removed from room.

B. Equipment should be cleaned per respective equipment cleaning SOP.

C. Using sterile 70% IPA, wipe down scales, tables, carts, windows, and doors. If any debris or spills are present, mop floor using a mop wetted in WFI/PW.

D. After cleaning, sign the Cleaning, Use, and Maintenance Logbook for minor cleaning. Call the supervisor or designee to verify the cleaning.

E. Place a "CLEAN" label on the door with cleaning details.

F. Discard leftover cleaning agents through the drains in the Utilities Area, or designated areas. Clean buckets thoroughly with Purified Water after use.

6.2.5.2 Major cleaning is performed between batches of different product as below:

A. Ensure all evidence of the previous batch, including the batch record, all containers produced, and all raw materials, is cleared from the room. Ensure debris is removed off floor and trash is removed from room.

B. Equipment should be cleaned per respective equipment cleaning SOP.

C. Using sterile 70% IPA, wipe down scales, tables, carts, windows, and doors.
D. Clean floors, using a mop wetted in WFI/PW and allow to dry.
E. After cleaning, sign the Cleaning, Use, and Maintenance Logbook for major cleaning. Call the supervisor or designee to verify the cleaning.
F. Place a "CLEAN" label on the door with cleaning details.
G. Discard leftover cleaning agents through the drains in the Utilities Area, or designated areas. Clean buckets thoroughly with Purified Water after use.

6.3 Facility Based Cleaning:

6.3.1 Facility Based Cleaning is applicable to Processing Areas only when production is inactive. If Production is active, cleaning may be performed in rooms that are not in use and areas that are in use must been cleaned whenever the activity is done. When production is active, refer to Product Based Cleaning as per section 6.2.

NOTE: Production cleaner should not enter a room with cleaning utensils where production process is occurring.

6.3.2 The different types of cleanings are detailed in Table 2. Types of Cleanings are defined by the frequency of the specific procedure required.

Table 2: Types of Cleanings

Type of Cleaning	Identification	Main Surfaces	When Required
Daily	D	Floors	Every scheduled working day with Decon-Phene or Decon-Quat
Weekly	W	Ceilings, Walls, and Floors	Every Friday, or next working day if it is a holiday/not scheduled with Decon-Phene, Decon-Quat, or Decon-Spore

NOTE: Cleaning types should not overlap (i,e. Daily cleaning and Weekly cleaning should not be performed on the same day).

6.3.3 Daily Cleaning is performed only in Non-Processing Areas and Cleanroom Support Areas (Refer to Table 1) using a disinfectant. Daily Cleaning is not performed in Processing Areas.

6.3.4 Weekly cleaning is performed in Processing Areas, Non-Processing Areas, and Cleanroom Support Areas, using disinfectants and sporicidal agents to reduce microbial bioburden majorly.

6.3.5 Weekly Cleaning supersedes Product Based Major cleaning and can be documented as equals when releasing a room for production.

6.3.6 Disinfectant Type use is determined by the disinfectant rotation as per SOP IGN-027 and approved rotation schedule posted in accessible areas. Table 3 shows an example of four-week period of Disinfectant Rotation.

NOTE: Certain rooms may have different cleaning frequencies than what is stated in Steps 6.3.8 and 6.3.9. Always follow what is specified in Table 4 as a default.

6.3.8 Daily Cleaning:

6.3.8.1 Daily cleaning is performed every scheduled working day in Non-Processing Areas and Cleanroom Support Areas, with exceptions, as listed in Table 4.

6.3.8.2 Prior to cleaning, sweep away dust and debris, and dust-off surfaces as needed.

6.3.8.3 Prepare appropriate cleaning solution and document the amount of disinfectant used in the Preparation of Disinfectant Dilutions Logbook.

NOTE: Cleanroom Cleaning should begin in the highest classified areas (i.e., filling rooms, formulations room) and should end in the least classified areas (i.e., corridor 301, anteroom), as possible. However, ensure personnel and material flow are in a way that avoids cross contamination (i.e., do not enter cleaned rooms from an un-cleaned room). Refer to approved Facility Based Cleaning Flows for Cleanrooms.

6.3.8.4 Using sterile 70% IPA, wipe down windows, handles, and doors. Also wipe any chairs, tables, phones, racks, carts, etc., when applicable.

6.3.8.5 Mop the floors using a mop wetted in disinfectant solution (refer to EOL I-003 Miscellaneous List and refer to SOP IGN-027 for preparation of disinfectant solution), following the "Three Bucket System" method, or other bucket system when applicable, and allow a minimum contact time of 10 minutes. Once contact time has been allowed, confirm the action within the Cleaning, Use, and Maintenance Logbook.

6.3.8.6 Mop the floors using a mop wetted in WFI following the "Three Bucket System" method, or other bucket system when applicable, to remove disinfectant residues and allow to dry.

6.3.8.7 After cleaning, sign the Cleaning, Use, and Maintenance Logbook for daily cleaning and call the Supervisor or designee to verify the cleaning.

6.3.8.8 Discard leftover cleaning agents through the drains in the Component Preparation Room, or designated areas. Clean buckets thoroughly with Purified Water after use.

6.3.9 Weekly Cleaning:

6.3.9.1 Weekly cleaning is performed every Friday (or previous/next working day, as necessary) in Non-Processing Areas, Cleanroom Support Areas and Processing Areas, with exceptions, as listed in Table 4 (if Friday is in production, clean upon completion or next working day). In addition to the daily cleaning procedure performed as per section 6.3.8, ceilings and walls are included as part of weekly cleaning.

NOTE: If management is aware the Weekly cleaning cannot be completed for all rooms on Friday, cleaning may be performed Thursday and Friday. If cleaning is started on Friday but cannot be completed, cleaning may be continued on Monday followed by routine schedule starting on Tuesday or the next working day, as required.

6.3.9.2 Prior to cleaning, sweep away dust and debris, and dust-off surfaces as needed.

6.3.9.3 Prepare appropriate cleaning solution and document the amount of disinfectant used in the Preparation of Disinfectant Dilutions Logbook.

NOTE: Cleanroom Cleaning should begin in the highest classified areas (i.e., filling rooms, formulations room) and should end in the least classified areas (i.e., corridor 301, anteroom), as possible. However, ensure personnel and material flow are in a way that avoids cross contamination (i.e., do not enter cleaned rooms from an un-cleaned room). Refer to approved Facility Based Cleaning Flows for Cleanrooms.

6.3.9.4 Clean ceilings using a mop wetted in WFI following the "Three Bucket System" method.

6.3.9.5 Clean the walls using a mop wetted in disinfectant solution (refer to EOL I-003 Miscellaneous List and refer to SOP IGN-027 for preparation of disinfectant solution), following the "Three Bucket System" method, or other bucket system when applicable, and allow a minimum contact time of 10 minutes.

6.3.9.6 Mop walls using a mop wetted in WFI following the "Three Bucket System" method, or other bucket system when applicable, to remove disinfectant residues and allow to dry.

6.3.9.7 Using sterile 70% IPA, wipe down windows, handles, and doors. Also wipe any chairs, tables, phones, racks, carts, etc., when applicable.

6.3.9.8 Mop the floors using a mop wetted in disinfectant solution (refer to EOL I-003 Miscellaneous List and refer to SOP IGN-027 for preparation of disinfectant solution), following the "Three Bucket System" method, or other bucket system when applicable, and allow a minimum contact time of 10 minutes. Once contact time has been allowed, confirm the action within the Cleaning, Use, and Maintenance Logbook.

6.3.9.9 If any Pass box present in room, clean as per section 6.5.

6.3.9.10 Mop the floors using a mop wetted in WFI following the "Three Bucket System" method, or other bucket system when applicable, to remove disinfectant residues and allow to dry.

6.3.9.11 After cleaning, sign the Cleaning, Use, and Maintenance Logbook for weekly cleaning and call the Supervisor or designee to verify the cleaning.

6.3.9.12 Place "CLEAN" label on the door if cleaning in a Processing Area. Do not place labels in Non-Processing Areas and Cleanroom Support Areas.

NOTE: Label Inspection and Packaging Room and Labeling & Packaging Room after all cleanings.

6.3.9.13 Discard leftover cleaning agents through the drains in the Component Preparation Room. Clean buckets thoroughly with Purified Water after use.

6.4 Return all cleaning products, mops, and pails to the cleaning supplies area after cleaning and sanitizing.

6.4.1 Clean buckets and pails thoroughly inside and out until no visible residue is observed, using Purified Water in the Component Preparation Room, or designated areas. Invert items to allow removal of excess water and wipe with a lint free cloth.

6.4.2 Mop heads should be discarded daily. Discard and replace mop head if it becomes visibly dirty at any point.

6.4.3 Wipe "Three Bucket System" cart with sterile 70% IPA prior to replacing buckets on it.

6.5 Cleaning of Production Passbox:

6.5.1 If any room within Production contains a Pass box for material transfer between two classified rooms or between a classified room and an unclassified room, cleaning for this Pass box is required to be performed on a Weekly Basis.

6.5.1.1 Prior to cleaning, dust-off surfaces as needed.

6.5.1.2 Wipe down interior and exterior surfaces from top to bottom using sterile 70% IPA and a lint free cloth.

7.0 REVISION HISTORY

Revision No.	Effective Date	Description of Changes
01	AUG 29 2018	Original SOP
02	FEB 12 2019	1. Include Room numbers in Table 1 for further description 2. Remove 6.1.8 and 6.1.9 as 6.1.10 covers the same information to advise user that different areas have different supplies that should not be mixed and should be labeled appropriately to prevent that 3. Edit sections 6.2.3.7, 6.2.4.10, 6.3.6.7, and 6.3.7.10 to update the location of where buckets are cleaned as utensils for processing areas should not be taken to non-processing areas. 4. Include disinfectant types in Table 2 5. Edit Tables 3 and 4 for clarification that walls and floors use disinfectant and processing areas should include windows, handles, and doors 6. Note included under section 6.3.7 to address the procedure if weekly cleaning cannot be completed solely on Friday 7. Update section 6.4.1 and 6.4.3 to include the cleaning of buckets in wash room as utensils for processing areas should not be taken to non-processing areas and wipe Three Bucket system cart with 70% IPA 8. Rearrange steps 6.2.4.3 and 6.3.7.3 so that ceilings and walls are cleaned prior to wiping windows with IPA as water streaks from walls may fall on the windows 9. Include section 6.1.10 and 6.1.11 to mention cleaning schedule that will be posted and documenting disinfectant dilution in appropriate logbook. 10. Include wiping of carts, rack, phones, and other items inside rooms, when applicable in sections 6.3.6.3 and 6.3.7.6.
03	SEP 23 2019	1. Table 1 updated to ensure all missing rooms are included. 2. Clarify types of areas in step 6.1.5. 3. Figure 1 updated to better explain room cleaning flow. 4. Step 6.1.7 included for general cleaning strategies. 5. Include Step 6.2.5 to detail cleaning for Visual Inspection and Labeling/Packaging Room as they are outside cleanroom but still used for process. 6. Clarify step 6.3.1 to clarify cleaning may be performed in unused rooms when production is active. 7. Include Step 6.3.5 to specify the Weekly Cleaning supersedes Major cleaning. 8. Table 2 was updated to remove Bi-weekly cleaning as a type of cleaning since it is the same as Weekly procedure wise. Disinfectant rotation is the only difference which is explained in step 6.3.2. Bi-weekly cleaning removed from entire SOP. 9. Note under Table 2 added to clarify that Daily cleaning and Weekly cleaning procedures should not occur on the same day. 10. Table 3 was added to show example of disinfectant rotation. 11. Table 4 updated to include missing rooms and update cleaning frequencies for all rooms. Previous table 3 and 4 were combined to form Table 4.
04	DEC 02 2020	1. Include instruction in steps 6.3.8.5 and 6.3.9.5 about confirming contact time in Cleaning, Use, and Maintenance Logbook.
05	MAR 09 2021	1. Include Step 6.1.7.5 and Note under it to include use of Facility Based Cleaning Flows for Cleanrooms. 2. Revise Notes under steps 6.3.8.3 and 6.3.9.3 to ensure cleaning personnel is aware of flow of cleaning, and also referring to the new approved cleaning flows which will further explain the proper flow.

SOP No.	Title	Revision No.
IGN-028	CLEANING OF PROCESSING AND NON-PROCESSING ROOMS	08

Revision No.	Effective Date	Description of Changes
06	AUG 23 2022	1. Include procedure for cleaning of a Passbox. 2. Update weekly cleaning procedure to reflect proper flow and include Passbox cleaning, when applicable.
07	SEP 08 2022	1. Included Step 6.1.7.4 for collection/use of WFI or Purified Water for cleaning. 2. Removed the mention of R&D Labs 406 and 407 following facility modifications. 3. Updated the wording of Visual Inspection Room to Inspection and Packaging Rooms.
08	JAN 2 7 2023	1. Note under Step 6.2.1 is extended to explain the cleaning activities for Clean Room Supporting areas.

This document lists observations made by the FDA representative(s) during the inspection of your facility. They are inspectional observations, and do not represent a final Agency determination regarding your compliance. If you have an objection regarding an observation, or have implemented, or plan to implement, corrective action in response to an observation, you may discuss the objection or action with the FDA representative(s) during the inspection or submit this information to FDA at the address above. If you have any questions, please contact FDA at the phone number and address above.

DURING AN INSPECTION OF YOUR FIRM WE OBSERVED:
Pre-Approval, NDA #205029 Supplement 10: Epinephrine, USP Pre-Filled Syringes 1mg/mL

OBSERVATION 1

Equipment used in the manufacture, processing, packing or holding of drug products is not of appropriate design to facilitate operations for its intended use.

Specifically, during inspection, it was observed that the equipment "Groinger Plunger Rod and Labelling Machine type SMKE with de-nester" intended for labeling the pre-filled epinephrine syringes referenced in your NDA application has not been installed and qualified for use.

OBSERVATION 2

Potential suppliers were not evaluated and selected based on their ability to meet specified requirements.

Specifically, your firm was not evaluating suppliers based upon their ability to meet requirements established in your *Vendor Management System* procedure (SOP IGN-034) and *Purchasing System* procedure (SOP IPC-001). Your firm's initial qualification (signed 02/26/2019) of your supplier of sterile 1 mL syringes indicates that a "review of collected data shows that the company has a vigorous quality system and capable of meeting customer expectations," but the approved supplier did not provide the information required per your firm's procedures and the questionnaire provided. For example, the initial *Questionnaire for Customers* provided by your supplier as a self-audit indicated that their Site Master File, manufacturing equipment, site maps and

drawings, an explanation of how product is protected from the manufacturing environment, deviation handling procedures, previous deviations and OOS syringes, and an explanation of rejected batches of syringes within the last year were not provided. The supplier indicated that this information could be provided at the next on-site audit. There has not been an on-site audit conducted since this initial qualification nor is one scheduled by the firm. Additionally, this self-assessment indicated that the supplier has not been inspected by a regulating body and doesn't confirm the supplier's understanding of FDA's regulations, which is a requirement of the firm's *Purchasing System* procedure.

OBSERVATION 3

Risk analysis is inadequate.

Specifically, your firm's risk analysis conducted as part of the *Combination Product Compliance 21 CFR Part 4 Drug and Device Constituent Parts* document you identified as the design history file for your firm's 1 mL epinephrine syringe does not adequately identify the hazards, estimated risks, and mitigations associated with the use of your finished combination product.

For example, your firm identifies the glass syringe and rubber plunger components of your finished 1 mL epinephrine syringe as high risk for particulate matter, bacterial endotoxin, and lack of sterility in the *Product Development Report for Epinephrine Injection, USP 1 mG/mL* under section 2.1.3. In your firm's design history file your risk analysis conducted for the finished 1 mL epinephrine syringe device does not evaluate the risk levels for the eight risks identified by your firm. Additionally, one of the mitigations listed for risk of particulates is "incoming materials controls". Your firm's supplier control's do not adequately evaluate your supplier's capabilities of meeting the supplier requirements established by your firm, including technical and regulatory requirements. Your firm's supplier of syringes for this combination product was not subject to a quality

agreement and did not provide evidence to support their abilities to meet your firm's established supplier requirements during their initial self-audit approved on 02/26/2019.

OBSERVATION 4

Procedures for design transfer have not been adequately established.

Specifically, your firm's design history file for your 1 mL epinephrine syringe combination product did not contain a documented design transfer that supported the device's design was correctly translated into production specifications. Under design transfer your firm documented "there is no transfer involved."

OBSERVATION 5

The type and extent of control to be exercised over the product and suppliers was not clearly defined.

Specifically, your firm did not establish a quality agreement with your supplier that defined the type and extent of control to be exercised over the sterile 1 mL syringe that is a component of your firm's sterile 1 mL epinephrine syringe combination product until 04/22/2021. This is required per SOP IGN-034 Section 6.3.6 upon vendor approval. Your firm's supplier of sterile 1 mL syringes was approved on 02/26/2019.

The observations of objectionable conditions and practices listed on the front of this form are reported:

1. Pursuant to Section 704(b) of the Federal Food, Drug and Cosmetic Act, or
2. To assist firms inspected in complying with the Acts and regulations enforced by the Food and Drug Administration.

Section 704(b) of the Federal Food, Drug, and Cosmetic Act (21 USC 374(b)) provides:

"Upon completion of any such inspection of a factory, warehouse, consulting laboratory, or other establishment, and prior to leaving the premises, the officer or employee making the inspection shall give to the owner, operator, or agent in charge a report in writing setting forth any conditions or practices observed by him which, in his judgment, indicate that any food, drug, device, or cosmetic in such establishment (1) consists in whole or in part of any filthy, putrid, or decomposed substance, or (2) has been prepared, packed, or held under insanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered injurious to health. A copy of such report shall be sent promptly to the Secretary."

Subject: Response to FDA Inspectional Observations from 04/19/2021 to 04/30/2021

Dear Madam,

This correspondence is in response to the 04/19/2021 through 04/30/2021 pre-approval inspection of NDA # 205029 Supplement # 9: Epinephrine Injection, USP 10 mg / 10 mL (10 mL Vial) and NDA # 205029 Supplement # 10: Epinephrine Injection, USP 1 mg / mL (1 mL Syringe) to be manufactured commercially by BPI Labs, LLC, at 12393 Belcher Road, Suite # 450, Largo, FL 33773 (FEI Number 3015156709), upon FDA approval.

This communication is in response to the Form FDA 483 Inspectional Observations issued to BPI Labs, LLC ("BPI") specific to its NDA # 205029 Supplement # 10: Epinephrine Injection, USP 1 mg / mL (1 mL Syringe) by FDA Investigators Ms. Saundrea A Munroe and Ms. Emma R Schaefer (collectively, referred to as the "Investigators").

BPI would like to bring to your attention that no FDA 483 observations were issued to NDA # 205029 Supplement # 9: Epinephrine Injection, USP 10 mg / 10 mL (10 mL Vial) at the end of the inspection. Investigators mentioned during the close out meeting that this drug product was going to be recommended for approval. BPI respectfully requests FDA to facilitate the approval of the NDA # 205029 Supplement # 9: Epinephrine Injection, USP 10 mg / 10 mL (10 mL Vial) in order to commence the commercial manufacturing as soon as possible.

In addition, BPI would like to acknowledge that no FDA 483 observations were issued during the 503B outsourcing facility inspection that occurred simultaneously with the pre-approval inspection. The 503B outsourcing facility inspection was conducted by FDA Investigator Ms. Jessica L Pressley.

In regard to the Form FDA 483 Inspectional Observations issued to BPI specifically to its NDA # 205029 Supplement # 10: Epinephrine Injection, USP 1 mg / mL (1 mL Syringe), BPI accepts the Investigators' observations and commits to address the issue expeditiously. BPI believes it has taken and commits to continue to take any and all necessary measures to ensure its customers

well-being and safety. Enclosed please find an attachment that addresses BPI's responses to the FDA Investigators' observations on an individual and systemic basis.

Our corrective action plan will address all issues effectively and comply with Current Good Manufacturing Practices (cGMP) Regulations (Title 21, Code of Federal Regulations, Parts 210, 211, and 4).

BPI would like to inform the Agency that all corrective actions taken have been completed, as can be evidenced from our responses enclosed with this letter, except Observation 1.

BPI expects to complete the qualification of the intended equipment, TechLine Horizontal Roller Syringe Wrap Labeling System Machine, to be used in commercial labeling of NDA # 205029 Supplement # 10: Epinephrine Injection, USP 1 mg / mL (1 mL Syringe) and submit the executed qualification protocols and associated final report to FDA on or before 09/30/2021.

BPI's action plan for Observation 1 includes the specifics of its actions along with targeted timelines. We will closely monitor the implementation of the plan and will provide your Office with updates along with evidence of implementation. Should we change any of our commitments, we will provide you with our reasons and supporting documentation.

Henceforth, upon receipt of BPI's final response related to this FDA 483 observation, BPI respectively requests that the Agency accepts the submitted executed qualification documentation of the TechLine Horizontal Roller Syringe Wrap Labeling System Machine in lieu of a second separate visit to our facility to inspect the qualification exercise of the mentioned machine onsite. Instead, the Agency would be more than welcome to inspect such documentation at our facility at any convenient time, i.e., next BPI cGMP inspection or pre-approval inspection associated with BPI other filed NDAs or ANDAs.

Accordingly, we would like to request a review of our response and action plan at your earliest convenience.

Finally, as per Investigators' request during the close out meeting, BPI is also enclosing along with this response the information related to non-conformance NCR No. I-21004 associated to the sanitization of the Purified Water System.

Please feel free to contact me at (727) 471 0850 Extension 200 if you have any questions or concerns with our responses.

bpiLabs **RESPONSE TO THE FORM 483 OBSERVATIONS ISSUED BY FDA FROM THE INSPECTION OF 04/19/2021 TO 04/30/2021 (FEI NUMBER 3015156709)**

PRE-APPROVAL, NDA # 205029 SUPPLEMENT 10: EPINEPHRINE, USP PRE-FILLED SYRINGES 1 MG/ML

OBSERVATION 1:

Equipment used in the manufacture, processing, packing or holding of drug products is not of appropriate design to facilitate operations for its intended use.

Specifically, during inspection, it was observed that the equipment "Groinger Plunger Rod and Labelling Machine type SMKE with de-nester" intended for labeling the pre-filled epinephrine syringes referenced in your NDA application has not been installed and qualified for use.

BPI'S RESPONSE TO OBSERVATION 1:

BPI acknowledges and accepts the investigator's observation.

BPI's application NDA # 205029 Supplement 10 for Epinephrine, USP Pre-Filled Syringes 1 mg/mL submitted to FDA on 03/19/21 included the current installed and qualified labeling machine, i.e., Labeler (Model #: Q105 Stepper), referenced via SOP IPK-004 "Handling of the Labeler (Model # Q105 Stepper)", as part of the proposed intended commercial Labeling Master No.: PK-I117-0-10 "Master Batch Packaging Record – Labeling Instructions" document for this product (refer to Exhibit – 1.1).

In regards to the observation noted by the FDA, BPI would like to clarify the situation encountered with the Q105 Stepper labeling machine, included in the Supplement information given to FDA as part of the submission, and the "Groinger Plunger Rod and Labelling Machine type SMKE with de-nester" (hereinafter referred to as "Groninger labeling machine") as discussed with the FDA investigators during this inspection.

BPI's initial intention was to utilize the Q105 Stepper labeling machine for the labeling of the pre-filled epinephrine syringes as it was expected to be suitable for both vials and syringes configurations. However, further technical and operational assessment of the Q105 Stepper labeling machine along with discussion with the equipment manufacturer revealed that this equipment will not be the most ideal labeling machine to be used for the pre-filled syringes. This finding identified the need to re-evaluate the need to purchase and commission the Groninger labeling machine for the labeling operation of the pre-filled epinephrine syringes.

At this time, the available quotation received by BPI for this Groninger labeling machine was shown to the FDA investigators (refer to Exhibit – 1.2) and also the explanation of the technical constraints related to the current installed and qualified Q105 Stepper labeling machine for the

pre-filled syringes was presented during the inspection. BPI confirmed that the Groninger labeling machine had not been purchased, installed, and qualified for use.

After the FDA inspection, BPI contacted the manufacturer of the Groninger labeling machine to inquire about its availability based on the past quotation. Unfortunately, the manufacturer confirmed that due to the COVID-19 pandemic this equipment has very long lead time for delivery.

As a result, BPI searched for alternate suitable labeling machines for the labeling operation of pre-filled syringes. BPI identified the TechLine Horizontal Roller Syringe Wrap Labeling System machine, manufactured by Quadrel Labeling Systems, as adequate for the intended use based on the technical specifications and product design (refer to Exhibit – 1.3 for the quotation provided by this firm).

Quadrel Labeling Systems confirmed that the TechLine labeling machine is expected to be delivered to BPI on or before 08/31/21 (refer to Exhibit – 1.4 for copy of purchase order).

BPI commits to install and qualify the TechLine labeling machine and expects to complete this activity and submit the executed qualification protocols and associated final report to the FDA on or before 09/30/21.

OBSERVATION 2:

Potential suppliers were not evaluated and selected based on their ability to meet specified requirements.

Specifically, your firm was not evaluating suppliers based upon their ability to meet requirements established in your *Vendor Management System* procedure (SOP IGN-034) and *Purchasing System* procedure (SOP IPC-001). Your firm's initial qualification (signed 02/26/2019) of your supplier of sterile 1 mL syringes indicates that a "review of collected data shows that the company has a vigorous quality system and capable of meeting customer expectations," but the approved supplier did not provide the information required per your firm's procedures and the questionnaire provided. For example, the initial *Questionnaire for Customers* provided by your supplier as a self-audit indicated that their Site Master File, manufacturing equipment, site maps and drawings, an explanation of how product is protected from the manufacturing environment, deviation handling procedures, previous deviations and OOS syringes, and an explanation of rejected batches of syringes within the last year were not provided. The supplier indicated that this information could be provided at the next on-site audit. There has not been an on-site audit conducted since the initial qualification nor is one scheduled by the firm. Additionally, this self-assessment indicated that the supplier has not been inspected by a regulatory body and doesn't confirm the supplier's understanding of FDA's regulations, which is a requirement of the firm's *Purchasing System* procedure.

BPI'S RESPONSE TO OBSERVATION 2:

BPI acknowledges and accepts the investigator's observation. However, BPI would like to explain to the Agency all the available procedures that were in place at the time of the FDA inspection to evaluate and select potential vendors based on their ability to meet specified requirements.

New vendors are initially approved in the quality system following the requirements documented in SOPs IPC-001 "Purchasing System" and IGN-034 "Vendor Management System." Then, vendors are re-qualified in a periodic manner as per the guidelines written in both mentioned procedures. Both the initial and re-qualification exercises are well defined to assess the adequacy of the vendor performance at all times.

Refer to Exhibit – 5.1 for copy of mentioned SOPs IPC-001 Revision No. 04 and IGN-034 Revision No. 04 that were effective at the time the FDA inspection was conducted.

In regards to the observation noted by the FDA, specifically related to SCHOTT Schweiz AG which is the vendor supplying the syringes for the epinephrine pre-filled syringes 1 mg/mL, BPI would like to clarify the execution of all available procedures that were in place at the time of the

FDA inspection to evaluate and select potential vendors based on their ability to meet specified requirements, consistent with the quality system standards available in both above mentioned SOPs.

Firstly, SCHOTT Schweiz AG was initially approved in the quality system on 02/26/19 (refer to Exhibit – 5.2). SCHOTT Schweiz AG is one of the world's leading manufacturers of special glass and polymers including vials, cartridges, and syringes ready to use for the pharmaceutical industry; this company was established in year 1930.

During the initial qualification of this reputed vendor, BPI requested a variety of technical documentation for the components that were required as part of product development as well as an understanding of the quality principles of this firm. Based on their internal administrative process, SCHOTT Schweiz AG does not complete feedback questionnaires and rather they provide their own self-assessment explaining several information about the company. As part of this initial process, BPI identified few points that were not fully communicated and explained in SCHOTT Schweiz AG's self-assessment and despite making diligent efforts by BPI to clarify such information as further preliminary understanding of the vendor, SCHOTT Schweiz AG did not provide the clarifications requested due to some organizational reason, out of BPI's control. That being said, as stated below BPI has been able to get further clarifications on these points.

Further evaluation of this firm made at the time of initial qualification revealed that a US DMF (i.e., 18416) was filed for the components SCHOTT Schweiz AG intended to distribute to United States. In addition, the technical documentation related to the components BPI was interested to acquire was found highly accurate and complete (refer to Exhibit – 2.1 for an example of technical data). Moreover, SCHOTT Schweiz AG presented certifications from accredited organizations in regards to ISO 9001 and ISO 15378 (refer to Exhibit – 2.2) confirming vendor's understanding in quality (i.e., development, engineering, manufacturing and sales of primary packaging materials made of glass tubing and polymers) and vendor's experience in audits under a regulatory environment. Finally, the vendor reputation verified during initial approval confirmed that SCHOTT Schweiz AG adheres to good quality standards according to available public data.

BPI approved SCHOTT Schweiz AG on 02/26/19 to supply components for research and development use because all data indicated that the vendor had a robust quality system capable of meeting customer expectations, inline with technical data, certifications, vendor history, and DMF filing in United States.

BPI would like to clarify to the Agency that SCHOTT Schweiz AG is a quality focused and highly knowledgeable firm. This company has provided detailed technical documents from day one related to the design, manufacturing, and controls for its components, confirming that this mentioned vendor fully understands the GMP regulations / expectations in an FDA environment.

Secondly, this vendor was re-qualified in the quality system on 02/17/21 (refer to Exhibit – 5.3), based on two years re-qualification period. As part of this re-qualification process, SCHOTT Schweiz AG performance was scrutinized based on technical data, available certifications in ISO 13485, ISO 14001, and ISO 45001 (refer to Exhibit – 2.3), and vendor history with BPI since the initial approval, and found out that six shipments were received, inspected, tested, and released for use at BPI without any problem or unwanted trend, corroborating one more time that this vendor had proper systems in place capable of meeting customer expectations and that BPI had available procedures to evaluate the quality of the components received.

In accordance with above specifics, please be advised that BPI has carefully evaluated SCHOTT Schweiz AG and has selected it based on its ability to meet specified requirements, which has been further substantiated with SCHOTT Schweiz AG's performance since February 2019 to date (i.e., no rejections, no unwanted trends).

It is important to inform to the Agency that all these explanations and evidences were shown and discussed with the FDA investigator during the inspection.

Nonetheless as part of this observation, BPI performed a thorough evaluation of all vendors related to commercial materials and components, and confirmed that adequate initial vendor approval and vendor re-qualification exercises have been systematically conducted including the periodic evaluation of vendor's performance and materials / components quality, inline with the requirements of SOPs IPC-001 and IGN-034. This finding further validates that BPI has been following its internal controls at all times.

As a further assurance, BPI contacted SCHOTT Schweiz AG again to inquire one more time about some information that was not provided by this vendor at the time of initial qualification. As a result SCHOTT has agreed to have a remote audit discussion with BPI with the purpose of clarifying all the pending items, including the ones pointed out by the Agency. During this process conducted on 05/20/21, SCHOTT Schweiz AG explained the majority of the open questions and shared specifics about their controls in place, validating that SCHOTT Schweiz AG has a strong quality system tailored to meet customer needs (refer to Exhibit – 2.4 for the updated SCHOTT Schweiz AG report).

As a further assurance and as part of continuous improvement, BPI revisited the wording of its controls for initial and re-qualification of vendors and identified an opportunity for enhancement to present in a more explicit manner the current expectations and practices on this topic. Consequently, BPI has revised SOP IGN-034 "Vendor Management System" in the quality system to clarify the requirements of initial and re-qualification of vendors, including the addition of handling self-assessments provided by the firms in lieu of BPI's feedback questionnaire. The revised SOP was made effective on 05/18/21 as Revision No. 05; all users of this SOP were part of the review and approval process (refer to Exhibit – 5.7 for a copy of the revised SOP along with the respective change control). BPI believes that clearer instructions on

this SOP would contribute to avoid misinterpretations about the process of evaluating, selecting, and monitoring vendors.

As a final point, BPI would like to clarify to the Agency that SCHOTT Schweiz AG is a vendor classified for research and development use only at this specific time (i.e., no components is currently used in any commercial product) and for this reason on-site audit need as per SOP IGN-034 has not been undertaken yet. Once this vendor is transitioned from research and development to commercial, at that time the requirement of on-site audit will be assessed as per the frequency established in this mentioned SOP, and if selected, this vendor will be added to the "Vendor On-site Audit Tentative Schedule Plan" for on-site audit planning and execution.

In conclusion, BPI believes that procedures that defined the evaluation and selection of vendors based on their ability to meet specified requirements were established in the quality system from day one and were executed effectively, that initial and re-qualification processes for SCHOTT Schweiz AG has been done methodically, and that SCHOTT Schweiz AG is a vendor considered in respectable standards and capable of meeting customer needs, reaffirming that BPI has followed its SOPs and has operational systems to control and monitor vendors in a consistent manner.

OBSERVATION 3:

Risk analysis is inadequate.

Specifically, your firm's risk analysis conducted as part of the *Combination Product Compliance 21 CFR Part 4 Drug and Device Constituent Parts* document you identified as the design history file for your firm's 1 mL epinephrine syringe does not adequately identify the hazards, estimated risks, and mitigations associated with the use of your finished combination product.

For example, your firm identifies the glass syringe and rubber plunger components of your finished 1 mL epinephrine syringe as high risk for particulate matter, bacterial endotoxin, and lack of sterility in the *Product Development Report for Epinephrine Injection, USP 1 mg/mL* under section 2.1.3. In your firm's design history file your risk analysis conducted for the finished 1 mL epinephrine syringe device does not evaluate the risk levels for the eight risks identified by your firm. Additionally, one of the mitigations listed for risk of particulates is "incoming materials controls". Your firm's supplier control's do not adequately evaluate your supplier's capabilities of meeting the supplier requirements established by your firm, including technical and regulatory requirements. Your firm's supplier of syringes for this combination product was not subject to a quality agreement and did not provide evidence to support their abilities to meet your firm's established requirements during their initial self-audit approved on 02/26/2019.

BPI'S RESPONSE TO OBSERVATION 3:

BPI acknowledges and accepts the investigator's observation.

BPI would like to clarify to the Agency that the risk assessment using qualitative tool (high, medium, and low terminology) was performed for the glass syringe and rubber plunger as part of the Product Development Report No. IPT-R-I11 "Epinephrine Injection, USP 1 mg/mL" under Section 2.1.3 (refer to Exhibit – 3.1 for a copy of Section 2.1.3 – only pages 1, 25, 26, and 27 are included in this exhibit; refer to Exhibit 4.1 for a copy of the entire Product Development Report No. IPT-R-I11).

As part of product design for Epinephrine Injection, USP 1 mg/mL, it was determined that the particulate matter, bacterial endotoxin (BET), and sterility of the syringe and rubber plunger pose "high" risk level, hence necessary mitigation controls were established to monitor these risks in a consistent manner (refer to below Table 1 for details). Based on thorough evaluation of these critical quality attributes impacting directly the product quality, it was understood that this high risk could be mitigated by performing adequate internal testing of incoming syringes and rubber plungers prior to release and use for production. In addition, it was defined during product development that the final finished product also needed to be tested for particulate matter,

bacterial endotoxin (BET), and sterility as part of the release specifications to ensure patient safety during usage.

BPI performed risk analysis as per the FDA Guidance for Industry and FDA Staff: Current Good Manufacturing Practice Requirements for Combination Products FINAL GUIDANCE, January 2017, specified in iii. Risk Analysis page 44. BPI believes risk levels, either qualitative or quantitative, can be performed. Quantitative analysis is recommended in order to evaluate if mitigations are required or not, but BPI has implemented mitigations in this case nevertheless to ensure there is no negative impact to product quality.

BPI further reviewed the SOP IGN-035 "Handling of Combination Products" and improvements were made to provide additional instructions on risk analysis related to manufacturing as well as use-related. The revised SOP was made effective on 05/20/21 as Revision No. 03; all users of this SOP were part of the review and approval process (refer to Exhibit – 3.2 for a copy of the revised SOP along with the respective change control). BPI believes that clearer instructions on this SOP would help to assess better the risks associated as part of product design going forward.

Moreover, the combination product document associated with the design of epinephrine pre-filled syringes "Design Controls for Epinephrine Injection, USP 1 mg/mL (1 mL Syringe)", Section No. CP-I11-02, was revised to perform the risk analysis with quantitative risk levels for manufacturing related items of this mentioned product inline with the revised SOP IGN-035. Refer to Exhibit – 4.4 for copy of the revised section.

Additionally, a new section related to the combination product associated with the use-related risk analysis of epinephrine pre-filled syringes "Use-Related Risk Analysis for Epinephrine Injection, USP 1 mg / mL (1 mL Syringe)", Section CP-I11-08, was created to evaluate the use-related risk analysis linked with this mentioned product inline with the revised SOP IGN-035. Refer to Exhibit – 3.3 for copy of the revised section.

On the other hand, it is important to mention that BPI has diligently approved and re-qualified all vendors associated with the cGMP operations, including Schott Schweiz AG which is the supplier of the syringes, to ensure these are evaluated on a periodic basis to confirm their capabilities of meeting BPI requirements. Furthermore, BPI has worked systematically to generate the quality agreement between BPI and Schott Schweiz AG and to approve it in the quality system before the commercial manufacturing of the epinephrine pre-filled syringes product, in agreement with the internal company standards. The quality agreement was provided to the FDA investigators on 04/23/21 during the inspection. Refer to the responses for Observation 2 and Observation 5 to get a clearer and detailed understanding of the available controls at BPI for vendor evaluation and for quality agreements.

Finally, BPI would like to conclude that the hazards, risks, and mitigations associated with the use of the epinephrine pre-filled syringes combination product were further discussed and clarified, and it is believed that this document now reflects a more thorough risk analysis according to the product design and intended use.

OBSERVATION 4:

Procedures for design transfer have not been adequately established.

Specifically, your firm's design history file for your 1 mL epinephrine syringe combination product did not contain a documented design transfer that supported the device's design was correctly translated into product specifications. Under design transfer your firm documents "there is no transfer involved".

BPI'S RESPONSE TO OBSERVATION 4:

BPI acknowledges and accepts the investigator's observation. However, BPI would like to clarify to the Agency the design transfer activities to support the device's design and how BPI has performed this activity.

As a general policy, any product development activity is performed following Quality by Design (QbD) concepts as per US FDA guidance, which includes identification of raw materials and container closure system components, such as syringes and plungers, conducting of several compatibility studies, formulation developments, laboratory experimental batches manufacturing, risk assessments of the formulation variables, manufacturing process developments, initial risk assessments of the drug product manufacturing process, establishment of mitigation controls, and execution of exhibit batches (stability batch) manufacturing and testing activities.

As part of this process, various risk analyses are conducted, necessary specifications are established, test methods, batch manufacturing records, batch packaging records, and stability protocols are generated, among others, and finally technology transfer is executed to transition the product from research and development to production.

Specifically, for Epinephrine Injection, USP 1 mg/mL syringe product all these activities are performed and explicitly written in the Product Development Report (PDR) for this mentioned product (Document No. IPT-R-I11 – refer to Exhibit – 4.1). As the combination product requires Design Controls as per 21 CFR Part 4 Regulation of Combination Products, Guidance for Industry and FDA Staff: Current Good Manufacturing Practice Requirements for Combination Products FINAL GUIDANCE, January 2017, BPI used the activities performed as per above mentioned PDR as a reference and guidance to determine the combination product documentation.

As all design transfer activates were conducted as per the PDR and three batches of Epinephrine Injection, USP 1 mg / mL Pre-Filled Syringes (Batch Numbers I117R002, I117R003, and I117R004) were manufactured and tested for all critical quality attributes per approved

specifications, it was found that the combination product meets the pre-determined specifications. However, BPI accidentally missed to explicitly write the design transfer activity in the first version of the Design Controls document, Section No. CP-I11-02, Revision 01 (refer to Exhibit – 4.2 for copy of this section), and accepts that this unwanted situation created a gap in understanding the design transfer strategy utilized by BPI. From discussions with FDA investigator, BPI modified the Design Controls document, Section No. CP-I11-02, Revision 02, to incorporate the proper documentation associated with design transfer improvements according to the Product Development Report IPT-R-I11 (refer to Exhibit – 4.3 for a copy of the revised section). This revised section was provided to the FDA investigators during the inspection.

As a further assurance and as part of this observation, BPI proactively reviewed again the Design Controls document, Section No. CP-I11-02, Revision 02, specifically design transfer topic, and identified an extra enhancement in regards to making reference of internal SOPs associated with product development procedures, and to acknowledge the adequacy of the design transfer for the epinephrine pre-filled syringes combination product based on the acceptable results of three batches meeting pre-determined specifications and proving the overall design controls established and design transfer are effective. Refer to Exhibit – 4.4 for a copy of the revised Section No. CP-I11-02, Revision 03, Effective Date 05/20/21.

In conclusion, BPI acknowledges the inadvertent gap created in the Design Controls document, Section No. CP-I11-02, Revision 01, associated with the design transfer, even though the available standard SOP IGN-035 "Handling of Combination Products" was appropriate and included the expected discussion on this topic. Furthermore, BPI commits to be more attentive whenever creating any combination product section in the future for any new product to make sure information is accurate and precise reflecting the company's strategy from product development to the intended production environment.

OBSERVATION 5:

The type and extent of control to be exercised over the product and suppliers was not clearly defined.

Specifically, your firm did not establish a quality agreement with your supplier that defined the type and extent of control to be exercised over the sterile 1 mL syringe that is a component of your firm's sterile 1 mL epinephrine syringe combination product until 04/22/2021. This is required per SOP IGN-034 Section 6.3.6 upon vendor approval. Your firm's supplier of sterile 1 mL syringes was approved on 02/26/2019.

BPI'S RESPONSE TO OBSERVATION 5:

BPI acknowledges and accepts the investigator's observation. However, BPI would like to explain to the Agency all the available procedures that were in place at the time of the FDA inspection to define and execute the type and extent of control to be exercised over vendors and components were met.

New vendors are initially approved in the quality system following the requirements documented in SOPs IPC-001 "Purchasing System" and IGN-034 "Vendor Management System". Then, vendors are re-qualified in a periodic manner as per the guidelines written in both mentioned procedures. Both the initial and re-qualification exercises are well defined to assess the adequacy of the vendor performance at all times.

Similarly, new components are initially approved in the quality system following the requirements documented in SOP IGN-003 "Creation and Modification of Code Numbers and National Drug Code Numbers (NDC)"; the components are first introduced in the company for research and development purposes. Specification for each component is generated in the quality system describing all incoming controls to be exercised during physical, chemical, and microbiological testing as part of full testing, retesting, and reduced testing. Moreover, each component is introduced to the qualification program stipulated in SOP IQA-010 "Vendor Qualification Program" defining the type and extent of control to be exercised over the specific component during initial full testing and subsequent reduced testing.

Refer to Exhibit – 5.1 for copy of mentioned SOPs IPC-001 Revision No. 04, IGN-034 Revision No. 04, IGN-003 Revision No. 01, and IQA-010 Revision No. 03 that were effective at the time the FDA inspection was conducted.

In regards to the observation noted by the FDA, specifically related to the Clear Glass Syringes Ready to Use Packaging Component, BPI Code Number I3021, supplied by SCHOTT Schweiz AG, BPI would like to clarify the execution of all available procedures that were in place at the

time of the FDA inspection to define and execute the type and extent of control to be exercised for this vendor and this syringe, consistent with the quality system requirements explained above.

SCHOTT Schweiz AG was initially approved in the quality system on 02/26/19 (refer to Exhibit – 5.2). This vendor was re-qualified in the quality system on 02/17/21 (refer to Exhibit – 5.3), based on two years re-qualification period.

Clear Glass Syringes Ready to Use Packaging Component code number creation was approved in the quality system on 11/11/19 with material type as "Research and Development" and under Code Number I3021 (refer to Exhibit – 5.4).

Specification for Code Number I3021 was initially approved on 12/27/19 as Revision No. 01 (refer to Exhibit – 5.5). This specification clearly defined the full testing, reduced testing, and retesting requirements to be utilized for the type and extent of control of this component during release.

Based on SOP IQA-010, full testing needs to be executed per specification on three consecutive different vendor lots received by BPI; each lot tested needs to conform to established specifications in order to qualify this component for reduced testing. Precisely, BPI has received three shipments of component Code Number I3021 from SCHOTT Schweiz AG and performed successful full testing accordingly to the specification. As of now, this component is still classified as "Full Testing" since one extra consecutive different vendor lot is needed to be received and tested as part of the "Reduced Testing" certification (refer to Exhibit – 5.6 for the full testing data of the three shipments).

The above confirms that BPI has determined clear procedures to define the type and extent of control to be exercised on vendors and components, has executed the procedures in place with SCHOTT Schweiz AG and with the Clear Glass Syringes Ready to Use Packaging Component (Code Number I3021), and hence has full understanding and control about the quality of this component handled by the firm.

On the other hand, BPI has determined the need to generate quality agreements for some vendors depending on the type of component that is being supplied. These quality agreements are intended to provide an overall approach about the implementation of oversight and controls between parties involved with the purpose of establishing each party's key specific roles and manufacturing activities to comply with cGMP. Specifically, quality agreements for ready to use pre-sterile packaging components (i.e., syringes) are only required at BPI for commercial materials (refer to Exhibit – 5.1 for copy of SOPs IPC-001 and IGN-034).

As of today, all components supplied to BPI by SCHOTT Schweiz AG are still categorized under "Research and Development", including the Clear Glass Syringes Ready to Use Packaging

Component (Code Number I3021), and all shipments received so far from this mentioned vendor have only been used for the manufacturing of research and development lots. Accordingly, it is evident that the component pointed out by the Agency is not approved for commercial use until now and therefore the quality agreement was technically not needed yet based on internal BPI's standards stated in SOPs IPC-001 and IGN-034.

BPI started working with SCHOTT Schweiz AG in September 2020 in order to generate the quality agreement between both firms as part of completeness of tasks for potential and upcoming commercial use of this vendor and associated components. For some administrative reasons, SCHOTT Schweiz AG took longer time to finalize this quality agreement despite the frequent and diligent follow up made by BPI. Finally, the quality agreement was approved on 04/22/21 and confirmed to be adequate to initiate the further control of the upcoming commercial shipments. The same was also provided to the investigator during the inspection.

As explained in this response, the Clear Glass Syringes Ready to Use Packaging Component (Code Number I3021) has not been internally approved for commercial use although all incoming and in-process controls for the shipments received so far have been meticulously monitored during release and use and found them to be acceptable and appropriate ratifying the quality and performance of SCHOTT Schweiz AG. Based on all the facts mentioned as part of this answer, BPI believes that there is no negative impact on SCHOTT Schweiz AG and on the Clear Glass Syringes Ready to Use Packaging Component (Code Number I3021) by not having the quality agreement approved before 04/22/21 since the vendor and the component are still under research and development use and BPI has followed strictly its internal standards and controls.

It is important to inform to the Agency that all these explanations and evidences were shown and discussed with the FDA investigator during the inspection.

Nonetheless as part of this observation, BPI performed a thorough evaluation of all commercial materials and components and confirmed that adequate quality agreements are in place and approved prior to any commercial distribution of the associated products, inline with the requirements of SOPs IPC-001 and IGN-034. This finding further validates that BPI has been following its internal controls at all times.

As a further assurance, BPI revisited the wording of its controls for quality agreements and identified an opportunity for improvement to present in a more explicit manner the current expectations and practices on this topic. Consequently, BPI has revised SOP IGN-034 "Vendor Management System" in the quality system to clarify the requirements of quality agreements, including the ones that are required for materials and components transitioning from research and development to commercial use. The revised SOP was made effective on 05/18/21 as Revision No. 05; all users of this SOP were part of the review and approval process (refer to Exhibit – 5.7 for a copy of the revised SOP along with the respective change control). BPI

believes that clearer instructions on this SOP would contribute to avoid misinterpretations about the need and timeliness of the quality agreements, whenever applicable.

Finally, BPI believes that procedures that defined the type and extent of control to be exercised over vendors and components that were incorporated into the quality system from day one and executed effectively, did not require a quality agreement between BPI and SCHOTT Schweiz AG to be in place since 02/26/19, and that quality agreement between both mentioned firms was already approved on 04/22/21 prior to the release of the associated commercial product, reaffirming that BPI has followed its SOPs and has operational systems to control vendors and components intended for commercial purposes.

Case #: 21-PC-007272

I had a girl's night out with some of my high school friends that I hadn't seen in a long time. This occurred on **2/21/2021**. We went out for dinner, drinks, and had plans to go clubbing in order to enjoy the evening. When we finished dinner, we went to the bar, where we had drinks and conversed with each other and people at the bar. Unfortunately, my friends had different intentions then I was aware of and were making different plans then to go to the club. My friends had got up to leave and I followed them to make sure they were okay. I was always told to stay in groups whenever being out since people are likely not to bother you in group.What ended up happening as soon as we started moving as a group we were then arrested my police officers who were under cover. I had no idea what was going on until everything occurred. My friends started getting arrested, and then they decdied to take me as well since I was just following in the background. I was definitely in the wrong place and the wrong time. They had booked and held me for about 7 hours and eventually let me go. Since then, I have not seen these friends since the incident occured. I would hate to be surrounded by people who did not care to tell me what was going on. I was in the booking area for about 7 hours and let go after that.The appointed lawyer to my case went to court for me and got my case closed. After seeking legal advice I was also told to begin to get my record seal and am in the process of doing that as well.

The friends that I was with did not allow me the chance to decide for myself if I wanted to hang out with them considering what they were involved in. Now I am having to defend myself for a situation that was the repercussions of hanging out and catching up with friends I hadn't seen in a while. I ask that you give me empathy in that I am trying to be of service to my community and myself. Since attending NorthWest Career College, it has become more and more clear to me that I want to pursue my education and continue to develop myself as a pharmacy technician, if given the opportunity. Since then the case had been closed and denied and was put under DA Denial which means they did not have enough information to move forward with the case.

Case #: 21-CR-028933

Following this incident another misunderstanding had occured. I ended up going back to the establishment a few months later to grab dinner with my auntie, when I was approached by security guards who informed me that I was trespassing. This occurred on **06/18/2021**. Since the case was closed, I was not made aware that I was banned from being on the premises still. I assumed nothing ever went through, I thought going to the premises once more to celebrate with my auntie would not be an issue. Since the establishment was not made aware of my case being closed, they ended up arresting me for that misunderstanding. I was booked and kept at jail for about 7 hrs where they official closed the case after I pleaded that I was not made aware that this case was even open anymore or that there was any restraining order that involved me not stepping into the establishment.

Since then, I have learned my lesson and have since gotten legal advice on how to handle the situation so that this doesn't happen again. I got myself caught up in an incident that could potentially mess up my life. I know to make sure I do not surround myself with people who might put me in a bad situation

No matter what I am so excited to jump start my career in Pharmacy and continue my education. My intentions are to create a beautiful life and make my family proud. I enrolled myself into NCC in order to make a future for myself. The school helped me believe in myself and find what it is I want to do in life. I intend on living up to that expectation, because I believe everyone deserves a second chance to become a better person. I have been diligently working as a retail associate to keep up with bills, but will continue to aspire to become a pharmacy technician so that I can better myself

Kind Regards,
Amazi Harris

CAREER COLLEGE

02/06/2023

To Whom It May Concern ,

I have known Amazi for some time now, she has excelled tremendously since attending school with us here at Northwest Career College in the Pharmacy Technician program. Amazi graduated with us with a 3.54 GPA. She went to class everyday and aspired to become pharmacy technician as this was something she wanted to do better serve her community.

Amazi is an amazing individual who strives to become better every day. Through meeting her I have learned that she has had some difficulties and misunderstands in the pass, which is why she decided to turn over a new leaf with us here at NCC . Amazi has remained in good contact with me as her graduate advisor so that we may seek potential opportunities for job placement as a Pharmacy Technician. One of the more remarkable things she mentioned to me when we had our introductory meeting was the fact that she learned a lot during her time at her externship and is so excited to jump into a new career field. Amazi Harris completed 240 hours of externship hours during her time at Well Care Closed Door Pharmacy .

Since then we found out there were some misunderstandings occurring between getting her license and her dream job. She has remained in good contact with us to make sure she is doing everything on her end to ensure she can be a step closer to her dream to be pharmacy technician. Amazi and I still talk constantly about the future job she will have one day once she sorts all of this out. Even when faced with challenges, Amazi continues to persevere through it all.

Please do not hesitate to contact me with any additional questions regarding Amazi

FINAL ORDER
APPROVING ORALLY AMENDED SETTLEMENT AGREEMENT

THIS CAUSE came before the Board of Pharmacy (hereinafter the "Board") pursuant to section 120.57(4), *Florida Statutes*, on February 4, 2021, at a duly noticed telephonic public meeting for consideration of a Settlement Agreement (hereinafter "Settlement Agreement" and attached hereto as Exhibit A) entered into between the parties in the above-styled cause. During the presentation and discussion of the Settlement Agreement, the parties orally amended the Settlement Agreement as follows:

> **CONTINUING EDUCATION**: Respondent shall successfully complete a Board approved twelve (12) hour continuing education course on Laws and Rules within one (1) year from the date this Final Order is filed with the Department Clerk. These continuing education hours shall be in addition to the hours required for Respondent's license renewal. Upon completion of the continuing education and receipt of the certificate(s) of completion, Respondent shall mail a copy of the continuing education certificate(s) of completion to the Pharmacy Compliance Officer at the address provided in the Settlement Agreement.

All other terms of the Settlement Agreement remain unchanged.

Upon consideration of the Orally Amended Settlement Agreement, the documents submitted in support thereof and being otherwise advised in the premises, it is hereby **ORDERED AND ADJUDGED:**

1. The Orally Amended Settlement Agreement is hereby approved, adopted, and incorporated herein by reference. Accordingly, the parties shall adhere to and abide by all the terms of the Orally Amended Settlement Agreement.

2. The agreed amount of Costs in this matter are $2,165.33 which shall be paid in the manner outlined in the Settlement Agreement.

This Final Order shall take effect upon being filed with the Clerk of the Department of Health.

DONE AND ORDERED this 22 day of February, 2021.

SETTLEMENT AGREEMENT

Pursuant to Section 120.57(4), Florida Statutes, the parties offer this Settlement Agreement to the Board of Pharmacy ("Board") as disposition of the Administrative Complaint, attached as Exhibit A, in lieu of further administrative proceedings.

STIPULATED FACTS

1. At all times material to this matter, **Hany Samy Soliman Saad, R.Ph.,** was a licensed pharmacist in the state of Florida, having been issued license number PS46978. Respondent's mailing address of record is 12131 Sumter Dr., Orlando, Florida 32824.

2. Respondent was charged by an Administrative Complaint, filed by the Department of Health ("Department") and properly served upon Respondent, with violations of Chapters 456 and 465, Florida Statutes.

STIPULATED LAW

1. Respondent admits that she is subject to the provisions of Chapters 456 and 465, Florida Statutes, and the jurisdiction of the Department.

2. Respondent admits that the allegations in the Administrative Complaint, if proven true, constitute violations of law and cause the Respondent to be subject to discipline by the Board of Pharmacy.

PROPOSED DISPOSITION

1. **Reprimand**- The Board shall REPRIMAND the license of the Respondent.

2. **Costs**- The Board of Pharmacy shall impose the total, administrative costs associated with the investigation and prosecution of this matter in an amount not to exceed **THREE THOUSAND ONE HUNDRED AND TWENTY-ONE DOLLARS AND SEVENTY-THREE CENTS ($3,121.73)** Total costs shall be assessed when the Settlement Agreement is presented to the Board. The costs shall be paid by Respondent to the **Department of Health, Compliance Management Unit, Bin C76, Post Office Box 6320, Tallahassee, Florida 32314-6320,** within **ONE YEAR** from the date the Final Order is filed with the Department Clerk.

3. **COMPLIANCE WITH PRN CONTRACT**- Respondent shall comply with each and every term of her contact with the Professionals Resource Network, Inc. (PRN), entered into on or about January 13, 2020 . Respondent shall comply with any and all conditions imposed by PRN. Respondent's termination from PRN without good cause will constitute a violation of the Board's Final Order incorporating this agreement.

4. **Future Conduct**- Respondent shall not violate Chapter 456, 465, 499 or 893, Florida Statutes; the rules promulgated pursuant thereto; or any other state or federal law, rule, or regulation relating to the practice or to the ability to practice pharmacy.

5. **Violation of Terms**- It is expressly understood that a violation of the provisions of this Settlement Agreement as approved and incorporated into the Final Order of the Board of Pharmacy shall constitute a violation of an order of the Board for which disciplinary action may be initiated against Respondent pursuant to Chapter 465, Florida Statutes.

6. **No Force or Effect until Final Order**- It is expressly understood that this Settlement Agreement is subject to approval by the Board and has no force or effect until the Board incorporates the terms of this Settlement Agreement into its Final Order.

7. **Purpose of Agreement**- This Settlement Agreement is executed by Respondent for the purpose of avoiding further administrative action with respect to

this particular case. In this regard, Respondent authorizes the Board to review and examine all investigative file materials concerning Respondent prior to, or in conjunction with, consideration of the Settlement Agreement. Petitioner and Respondent agree to support this Settlement Agreement at the time it is presented to the Board and shall offer no evidence, testimony, or argument that disputes or contravenes any stipulated fact or conclusion of law. Furthermore, should this Settlement Agreement not be accepted by the Board, it is agreed that the presentation and consideration of this Settlement Agreement and other documents and matters by the Board shall not unfairly or illegally prejudice the Board or any of its members from further participation, consideration, or resolution of these proceedings.

8. **Not Preclude Additional Proceedings**- Respondent and the Department fully understand that this Settlement Agreement as approved and incorporated into the Final Order will not preclude additional proceedings by the Board or Department against Respondent for acts or omissions not specifically set forth in the Administrative Complaint.

9. **Waiver of Attorney's Fees and Costs**- Respondent waives the right to seek any attorney's fees and costs from the Department in connection with this disciplinary proceeding.

10. **Waiver of Procedural Rights**- Respondent waives all rights to further administrative procedure and to appeal and further review of this Settlement Agreement and the Final Order.

11. **Current Addresses**- Respondent shall keep current her mailing address and her practice address with the Board of Pharmacy and the Compliance Officer and shall notify the Board of Pharmacy and the Compliance Officer of any change of mailing address or practice address within 10 days of the change.

12. **Time of the Essence**- Time is of the essence in all respects concerning this agreement.

WHEREFORE, the parties request that the Board enter a Final Order approving and incorporating this Settlement Agreement in resolution of this matter.

ADMINISTRATIVE COMPLAINT

COMES NOW, Petitioner, Department of Health, by and through its undersigned counsel, and files this Administrative Complaint before the Board of Pharmacy against Respondent, Hany Samy Soliman Saad, R.Ph., and in support thereof alleges:

1. Petitioner is the state agency charged with regulating the practice of pharmacy pursuant to Section 20.43, Florida Statutes; Chapter 456, Florida Statutes; and Chapter 465, Florida Statutes.

2. At all times material to this Administrative Complaint, Respondent was a licensed pharmacist within the state of Florida, having been issued license number PS46978.

Exhibit A

3. Respondent's address of record is 12131 Sumter Drive, Orlando, Florida 32824.

4. Respondent's additional mailing address is 1016 Ponce Avenue, Orlando, Florida 32822.

5. At all times material to this Administrative Complaint, Respondent was employed as a pharmacist at Walgreens Pharmacy #7460 ("Walgreens"), located in Orlando, Florida.

6. On or about December 27, 2016, D.G., R.Ph., a pharmacist employed at Walgreens, received a telephone prescription for Respondent from an individual purporting to be Dr. A.R., M.D., for the following medications:

a. 60 tablets of naproxen 500mg; and/or

b. 240 tablets of tramadol 50mg.

7. According to Title 21, Code of Federal Regulations, Section 1308.14, 2-[(dimethylamino)methyl]-1-(3-methoxyphenyl)cyclohexanol, its salts, optical and geometric isomers and salts of these isomers (including tramadol) is a Schedule IV controlled substance.

8. Dr. A.R. denied having called in any prescriptions to Walgreens for Respondent on or about December 27, 2016.

9. Dr. A.R. stated that the last prescription he had written to Respondent for tramadol was on December 2, 2016, for 60 tablets with no refills.

10. Respondent misrepresented himself as Dr. A.R. on a telephone call to Walgreens on or about December 27, 2016, in an attempt to obtain possession of tramadol and/or naproxen without a prescription.

COUNT ONE

11. Petitioner realleges and incorporates paragraphs one through ten as if fully set forth herein.

12. Section 465.016(1)(e), Florida Statutes (2016), provides that violating Title 21, United States Code, Sections 831 et seq., known as the Comprehensive Drug Abuse and Prevention Control Act, constitutes grounds for disciplinary action.

13. Title 21, United States Code, Section 846 provides that any person who attempts or conspires to commit any offense defined in this subchapter shall be subject to the same penalties as those prescribed for the offense, the commission of which was the object of the attempt or conspiracy.

14. Title 21, United States Code, Section 843(a)(3) provides that it shall be unlawful for any person knowingly or intentionally to acquire or obtain possession of a controlled substance by misrepresentation, fraud, forgery, deception, or subterfuge.

15. Respondent knowingly or intentionally attempted to obtain tramadol, a federally controlled substance, by misrepresentation, fraud, forgery, deception, or subterfuge when, on or about December 27, 2016, Respondent misrepresented himself as Dr. A.R. on a telephone call to Walgreens to created fraudulent verbal prescription for tramadol prescribed to himself.

16. Based on the foregoing, Respondent has violated Section 465.016(1)(e), Florida Statutes (2016), by and through a violation of Title 21, United States Code, Sections 843(a)(3) and 846.

COUNT TWO

17. Petitioner realleges and incorporates paragraphs one through ten as if fully set forth herein.

18. Section 456.072(1)(m), Florida Statutes (2016), provides that making deceptive, untrue, or fraudulent representations in or related to the

practice of a profession or employing a trick or scheme in or related to the practice of a profession, constitutes grounds for disciplinary action.

19. Respondent made deceptive, untrue, or fraudulent representations, or employed a trick or scheme, in or related to the practice of his profession as a pharmacist, when Respondent misrepresented himself as Dr. A.R. on a telephone call to Walgreens in order to create a fraudulent verbal prescription for tramadol and/or naproxen prescribed to himself.

20. Based on the foregoing, Respondent has violated Section 456.072(1)(m), Florida Statutes (2016).

97

WHEREFORE, the Petitioner respectfully requests that the Board of Pharmacy enter an order imposing one or more of the following penalties: permanent revocation or suspension of Respondent's license, restriction of practice, imposition of an administrative fine, issuance of a reprimand, placement of the Respondent on probation, corrective action, refund of fees billed or collected, remedial education and/or any other relief that the Board deems appropriate.

Dear Jorge Ysacc Burgos:

On November 15, 2017, the U.S. Office of Personnel Management (OPM) proposed your debarment for a period concurrent with your U.S. Department of Health and Human Services (DHHS) exclusion. OPM's debarment became effective on December 21, 2017.

DHHS has notified us that they have modified your exclusion. Accordingly, I have terminated OPM's debarment effective October 17, 2022, and all Federal Employees Health Benefit Program (FEHBP) carriers will be notified of the change in your status. In addition, your OPM debarment will be removed from the General Services Administration's government wide System for Award Management (SAM), formerly, Excluded Parties List System or EPLS.

Although your eligibility to participate in the FEHBP has been reinstated effective October 17, 2022, your name will remain on SAM until the next monthly update. You should use this letter to demonstrate that you are eligible to participate in the FEHBP until your name is removed from SAM.

If you have any questions or require additional information, please contact the Administrative Sanctions Group by email at debar@opm.gov, or at (202) 606-2436.

RE: Controlled Substance license application
Jorge Burgos, MD

Dear Sir or Madam,

In accordance to the requirements of the Controlled Substance (CS) license application, I provide in this letter the explanation for the positive responses of questions 2 and 3, of Section 5.

Question 2: YES. I was charged with 3 gross misdemeanor charges and I plead guilty on 07/27/2017. I was sentenced to 7 days detention and three years of probation. I was honorably discharged of this probation period on August 6, 2019. I have enclosed copy of the Judge Order for your reference.

Question 3: YES. My medical license 10622 was suspended on from 12/04/2017 until 04/01/2018, and placed on probation until 03/14/2022. This was the Nevada State Board of Medical Examiners (NSBME) response to the criminal case sentencing of 07/27/2017, mentioned above. Please see attached copy of the NSBME Settlement Agreement imposing these sanctions.

On 03/14/2022 the NSBME lifted the probation status of my medical license. A copy of this Order is enclosed.

Should you need more information, please do not hesitate to contact me at 702-622-9345 or by email at jorgeburgos66@aol.com. You can also contact my Office Manager, Natalia Burgos at 702-227-0022 option 5, or by email at jorgeburgosclinic@gmail.com.

Thank you for your time and consideration.

SETTLEMENT AGREEMENT

The Investigative Committee (IC) of the Nevada State Board of Medical Examiners (Board), by and through its General Counsel, Robert Kilroy, Esq., and Jorge Ysacc Burgos, M.D. (Respondent), a licensed physician in Nevada, represented by Crane Pomerantz, Esq., of the law firm of Sklar Williams PLLC, hereby enter into this Settlement Agreement (Agreement) based on the following:[1]

A. Background

1. Respondent is a physician licensed by the Board, pursuant to Chapter 630 of the Nevada Revised Statutes (NRS) and Chapter 630 of the Nevada Administrative Code (NAC) (collectively, the Medical Practice Act), to practice medicine in Nevada since August 27, 2003 (License No. 10622).

2. On August 11, 2017, in Case No. 17-26547-1, the IC filed a First Amended Complaint (Complaint) charging Respondent with Medical Practice Act violations. Specifically, this Complaint alleges: one (1) count of violating of NRS 630.301(9) (engaging in conduct that brings the medical

[1] All agreements and admissions made by Respondent are solely for final disposition of this matter and any subsequent related administrative proceedings or civil litigation involving the Board and Respondent. Therefore, Respondent's agreements and admissions are not intended or made for any other use, such as in the context of another state or federal government regulatory agency proceeding, state or federal civil or criminal proceeding, any state or federal court proceeding, or any credentialing or privileges matter.

profession into disrepute); one (1) count of violating of NRS 630.301(11)(d) (conviction of a sexually related crime); and one (1) count of violating of NRS 630.301(11)(g) (conviction of an offense involving moral turpitude). By reason of the foregoing, Respondent is subject to discipline by the Board as provided in NRS 630.352.

3. Respondent was properly served with a copy of this Complaint, has reviewed and understands this Complaint, and has had the opportunity to consult with competent counsel concerning the nature and significance of this Complaint.

4. Respondent is hereby advised of his rights regarding this administrative matter and his opportunity to defend against the allegations in the Complaint. Specifically, Respondent has certain rights in this administrative matter as set out by the United States Constitution, the Nevada Constitution, the Medical Practice Act, the Nevada Open Meeting Law (OML), which is contained in NRS Chapter 241, and the Nevada Administrative Procedure Act (APA), which is contained in NRS Chapter 233B. These rights include the right to a formal hearing on the allegations in the Complaint, the right to representation by counsel at his own expense in the preparation and presentation of his defense, the right to confront and cross-examine the witnesses and evidence against him, the right to written findings of fact, conclusions of law and order reflecting the final decision of the Board, and the right to judicial review of the Board's Order, if the decision is adverse to him.

5. Respondent understands that, under the Board's charge to protect the public by regulating the practice of medicine, the Board may take disciplinary action against Respondent's license, including license probation, license suspension, license revocation and imposition of administrative fines, as well as any other reasonable requirement or limitation, if the Board concludes that Respondent violated one or more provisions of the Medical Practice Act.

6. Respondent understands and agrees that this Agreement, by and between Respondent and the IC, is not with the Board, and that the IC will present this Agreement to the Board for consideration in open session at a duly noticed and scheduled meeting. Respondent understands that the IC shall advocate for the Board's approval of this Agreement, but that the Board has the right to decide in its own discretion whether or not to approve this Agreement. Respondent further understands and agrees that if the Board approves this Agreement, then the

terms and conditions enumerated below shall be binding and enforceable upon him and the Board.

B. Terms & Conditions

NOW, THEREFORE, in order to resolve the matters addressed herein, i.e., the matters with regard to the Complaint, Respondent and the IC hereby agree to the following terms and conditions:

1. **Jurisdiction**. Respondent is, and at all times relevant to the Complaint has been, a physician licensed to practice medicine in Nevada subject to the jurisdiction of the Board as set forth in the Medical Practice Act.

2. **Representation by Counsel/Knowing, Willing and Intelligent Agreement**. Respondent understands that he may retain and consult counsel prior to entering into this Agreement at his own expense. Respondent acknowledges he is represented by counsel licensed in the State of Nevada and wishes to resolve the matters addressed herein with such counsel. Respondent agrees that if representation in this matter materially changes prior to entering into this Agreement and for the duration of this Agreement, that counsel for the IC will be timely notified of the material change. Respondent agrees that he knowingly, willingly and intelligently enters into this Agreement after deciding to have a full consultation with and upon the advice of legal counsel licensed in the State of Nevada.

3. **Waiver of Rights**. In connection with this Agreement and the associated terms and conditions, Respondent knowingly, willingly and intelligently waives all rights in connection with this administrative matter. Respondent hereby knowingly, willingly and intelligently waives all rights arising under the United States Constitution, the Nevada Constitution, the Medical Practice Act, the OML, the APA and any other legal rights that may be available to him or that may apply to him in connection with the administrative proceedings resulting from the Complaint filed in this matter, including defense of the Complaint, adjudication of the allegations set forth in the Complaint, and imposition of any disciplinary actions or sanctions ordered by the Board. Respondent agrees to settle and resolve the allegations of the Complaint as set out by this Agreement, without a hearing or any further proceedings and without the right to judicial review.

4. **Acknowledgement of Reasonable Basis to Proceed**. Respondent acknowledges that the IC believes it has a reasonable basis to allege that Respondent engaged in conduct that is grounds for discipline pursuant to the Medical Practice Act. The Board acknowledges Respondent is admitting that the Board's claims/counts as alleged in the Complaint have merit and Respondent is agreeing to resolve this matter to avoid the costs of hearing and potential subsequent litigation. Respondent asserts if this matter were to proceed to hearing, he has evidence, witnesses, expert witness(es) and defenses to the counts/claims alleged in the Complaint, but for the purposes of resolving the matter and for no other purpose, Respondent waives the presentation of evidence, witnesses, expert witnesses and defenses in order to effectuate this Agreement.

5. **Consent to Entry of Order**. In order to resolve this Complaint pending against Respondent without incurring any further costs or the expense associated with a hearing, Respondent hereby agrees that the Board may issue an order finding that Respondent engaged in conduct that is grounds for discipline pursuant to the Medical Practice Act. Accordingly, the following terms and conditions are hereby agreed upon:

A. Respondent admits to the following:

(1) One (1) count of violating NRS 630.301(9) (engaging in conduct that brings the medical profession into disrepute);

(2) One (1) count of violating NRS 630.301(11)(d) (conviction of a sexually related crime); and

(3) One (1) count of violating NRS 630.301(11)(g) (conviction of an offense involving moral turpitude).

B. Respondent agrees to allow his license to practice medicine in the State of Nevada to be suspended (Suspension) for FOUR (4) MONTHS (December 2017, January thru March 2018) following the date of this Agreement's acceptance, adoption and approval by the Board, and Respondent will have his suspended license status lifted on Monday, April 2, 2018, which is approximately four months following his Suspension date.

C. Respondent's license shall be subject to a term of probation (Probationary Period) for an indeterminate period of time and he may petition the Board to lift the probationary condition placed upon his license after forty-eight (48) months from the date of the Board's acceptance, adoption and approval of this Agreement. The following terms and conditions shall apply during Respondent's Probationary Period, if and when Respondent intends to practice medicine in Nevada during this Probationary Period:

(1) Respondent must be supervised at all times during any and all interactions with all female patients, with a formal monitoring agreement with approved and identified monitors, throughout the entire Probationary Period or until further order of the Board.

(2) Respondent shall successfully complete all requirements as established by the Eighth Judicial District Court and the Nevada Division of Parole and Probation.

(3) Respondent agrees to abstain from the personal use or possession of controlled substances and prescription drugs, unless such controlled substance or prescription drug is lawfully prescribed to Respondent for a current bona fide illness or condition by a licensed Practitioner. Respondent shall abstain from the use of any and all other mood-altering substances for any other purpose than the purpose for which the substance is intended. Respondent will no longer be allowed to prescribe medications to himself.

(4) Respondent shall complete all terms and conditions of any criminal sanctions incurred before or during the period of this Agreement, including probation or parole, and if, or when, the Nevada Division of Parole and Probation terminates its probationary period of Respondent, then Respondent can petition the Board for a termination of the Board's Probationary Period.

D. Respondent will pay the costs and expenses incurred in the investigation and prosecution of the above-referenced matter within one hundred twenty (120) days of the Board's acceptance, adoption and approval of this Agreement, the current amount

being [$1500.00], not including any costs that may be necessary to finalize this Agreement.

E. Respondent shall take six (6) hours of continuing medical education (CME) related to family practice, boundary issues, and professionalism within the work place within twelve (12) months from the date of the Board's acceptance, adoption and approval of this Agreement. The aforementioned hours of CME shall be in addition to any CME requirements that are regularly imposed upon Respondent as a condition of licensure in the State of Nevada and shall be approved by the Board prior to their completion.

F. This Agreement shall be reported to the appropriate entities and parties as required by law, including, but not limited to, the National Practitioner Data Bank.

G. Respondent shall be issued a Public Letter of Reprimand.

6. **Release From Liability**. In execution of this Agreement, Respondent understands and agrees that the State of Nevada, the Board, and each of its members, staff, counsel, investigators, experts, peer reviewers, committees, panels, hearing officers, consultants and agents are immune from civil liability for any decision or action taken in good faith in response to information acquired by the Board. NRS 630.364(2)(a). Respondent agrees to release the State of Nevada, the Board and each of its members, staff, counsel, investigators, experts, peer reviewers, committees, panels, hearing officers, consultants and agents from any and all manner of actions, causes of action, suits, debts, judgments, executions, claims and demands whatsoever, known and unknown, in law or equity, that Respondent ever had, now has, may have or claim to have, against any or all of the persons, government agencies or entities named in this paragraph arising out of, or by reason of, this investigation, this Agreement or the administration of the case referenced herein.

7. **Procedure for Adoption of Agreement**. The IC and counsel for the IC shall recommend approval and adoption of the terms and conditions of this Agreement by the Board in resolution of this Complaint. In the course of seeking Board acceptance, approval and adoption of this Agreement, counsel for the IC may communicate directly with the Board staff and the adjudicating members of the Board.

Respondent acknowledges that such contacts and communications may be made or conducted ex parte, without notice or opportunity to be heard on his part until the public Board meeting where this Agreement is discussed, and that such contacts and communications may include, but not be limited to, matters concerning this Agreement, the Complaint and any and all information of every nature whatsoever related to this matter. The IC and its counsel agree that Respondent may appear at the Board meeting where this Agreement is discussed and, if requested, respond to any questions that may be addressed to the IC or the IC's counsel.

8. **Effect of Acceptance of Agreement by Board**. In the event the Board accepts, approves and adopts this Agreement, the Board shall issue a final order, making this Agreement an order of the Board.

9. **Effect of Rejection of Agreement by Board**. In the event the Board does not accept, approve and adopt this Agreement, this Agreement shall be null, void and of no force and effect except as to the following agreement regarding adjudications: (1) Respondent agrees that, notwithstanding rejection of this Agreement by the Board, nothing contained in this Agreement and nothing that occurs pursuant to efforts of the IC to seek the Board's acceptance of this Agreement shall disqualify any member of the adjudicating panel of the Board from considering this Complaint and from participating in disciplinary proceedings against Respondent, including adjudication of this case; and (2) Respondent further agrees that he shall not seek to disqualify any such member absent evidence of bad faith.

10. **Binding Effect**. If approved by the Board, Respondent understands that this Agreement is a binding and enforceable contract upon Respondent and the Board.

11. **Forum Selection Clause**. The parties agree that in the event either party is required to seek enforcement of this Agreement in a Nevada state district court, the parties consent to such jurisdiction and agree that exclusive jurisdiction shall be in the Second Judicial District Court, County of Washoe, State of Nevada.

12. **Attorneys' Fees and Costs**. The parties agree that in the event an action is commenced in district court to enforce any provision of this Agreement, the prevailing party shall be entitled to recover reasonable attorneys' fees and costs.

Re: *Dr. Jorge Burgos - Withdrawal Of Application For Controlled Substance License*

Dear Mr. Edwards:

I am writing pursuant to our telephone calls on April 8, 2019 and our brief discussion at the Board of Pharmacy's (the "Board") public meeting on April 11, 2019. As I explained, on or about January 14, 2019, my client, Jorge Burgos, submitted his Controlled Substance Application (the "Application") with the Board. When he submitted the Application, Dr. Burgos was operating under the misapprehension that he required a controlled substance license from the Board to prescribe dangerous drugs. He does not currently have a DEA license to prescribe controlled substances and does not prescribe them as part of his practice. You explained to me that, because of his active medical license, he does not need a separate controlled substance license from the Board to prescribe dangerous drugs.

As a result, Dr. Burgos respectfully seeks to withdraw his Application. He may resubmit an Application once he reapplies for his DEA license and such license is reinstated. Please let me know if this letter suffices to withdraw Dr. Burgos' application or some further action is necessary.

I am very appreciative of your continued courtesy in this matter. Please contact me with any questions or requests for any further information the Board requires.

Very truly yours,

Crane M. Pomerantz

Dear Dr. Burgos:

We are in receipt of your application for a controlled substance license.

After review of the application and documentation, it has been determined you will be required to personally appear before the board at a regularly scheduled board meeting for their consideration to approve or deny your controlled substance registration.

Your required appearance has been scheduled for:

Thursday, April 11, 2019
9:00 am or soon thereafter
Hilton Garden Inn
7830 S Las Vegas Blvd
Las Vegas, Nevada

Pursuant to NRS 241.033 and 241.034, please be advised that the hearing is a public meeting, and the Board may, without further notice, take administrative action against you if the Board determines that such administrative action is warranted after considering your character, alleged misconduct, professional competence, or physical or mental health. The Board at its discretion may go into closed session to consider your character, alleged misconduct, professional competence, or physical or mental health. You may attend any closed session, have an attorney or other representative of your choosing present during any closed session, and present written evidence, provide testimony, and present witnesses relating to your character, alleged misconduct, professional competence, or physical or mental health during any closed session.

You are required to appear at the meeting. If you do not show up to the meeting and have not contacted the board prior to the appearance, the board may take action on the application in your absence.

If you have any questions, please feel free to contact us.

Sincerely,

Re: License Application of Jorge Y. Burgos, MD

Dear Mr. Wuest and Mr. Kandt:

I am writing on behalf of my client Dr. Jorge Burgos. As you know, Dr. Burgos and I appeared before the Nevada State Board of Pharmacy (the "Board") on Thursday, April 13, 2023 with regard to Dr. Burgos' pending Controlled Substance Application. During his appearance, the Board informed us that it sought additional information so that it could assess the merits of his application. The documentation sought accompanies this letter. I respectfully request that the documents appended and this letter be made part of Dr. Burgos' application.

Procedural Background

On or about November 14, 2022, Dr. Burgos submitted his Controlled Substance Application (the "Application") to the Board.[1] In the Application, Dr. Burgos truthfully disclosed that he had previously been convicted of a crime in 2016 and that, as a result, his medical license had been suspended in 2017 by the Nevada State Board of Medical Examiners (the "Medical Board"). The Application identifies the case numbers for both the criminal case and the Medical Board matter number.

The Application was originally placed on the Board's March meeting agenda. The Board subsequently unilaterally moved this agenda item to its April meeting. At no point did any Board representative identify any deficiencies in the Application. At the Board's April 13, 2023 hearing,

---

1 Dr. Burgos had been previously licensed by the Board, but voluntarily resigned that license about five years ago in conjunction with the events described below.

Mr. Kandt explained that the Board could not take action on Dr. Burgos' application because certain information was missing.[2]

The Criminal Case

On September 21, 2016, Dr. Burgos was arrested by the Las Vegas Metropolitan Police Department based on a complaint filed by female patient that Dr. Burgos made unwanted romantic advances towards her. On February 2, 2017, the Clark County District Attorney's Office obtained a three count Amended Indictment against Dr. Burgos. *See* **Exhibit A** (Amended Indictment) and **Exhibit B** (Criminal Case Register of Actions). The Amended Indictment charged three counts of Open and Gross Lewdness in violation of NRS 201.210. These charges are gross misdemeanors. The Amended Indictment alleges instances of conduct which occurred between November 16, 2014 and the October 19, 2016 and relates to conduct in which Dr. Burgos engaged while practicing medicine. The charges do not relate, in any manner whatsoever, to Dr. Burgos' prescribing practices or conduct relating to dangerous drugs or controlled substances.

Dr. Burgos pled guilty to these charges pursuant to a written plea agreement. *See* **Exhibit C** (Plea Agreement). On July 27, 2017, the Hon. Richard Scotti sentenced Dr. Burgos. *See* **Exhibit B.** He imposed the following sentence: (1) seven days of custody, to be served on weekends; and (2) three years of probation. Dr. Burgos also was required to complete sex offender training, attend thirty (30) therapy sessions, and take an online course on victim empathy. *See* **Exhibit B.** A copy of the Amended Judgment of Conviction is appended hereto as **Exhibit D.** On August 9, 2019, about one year prior to the expiration of his three year probationary period, Dr. Burgos was honorably discharged from probation because he "satisfactorily completed all of the conditions of probation." *See* **Exhibit E** (Petition and Order Honorably Discharging Probationer). Thus, it has been almost four years since Dr. Burgos satisfied his obligations on the criminal case. Needless to say, he has not been in any trouble since.

---

[2] As you know, I respect you both immensely. But I have to confess at being deeply disappointed at the manner in which the Board handled this matter. Dr. Burgos' Application has been pending since November 2022. In the *five months* that have elapsed, no one associated with the Board reached out to him about any perceived deficiencies with the Application. Instead, after waiting four and half hours to have his matter called on April 13, 2023, we were summarily informed that the Board needed additional information to make a decision. To me, common courtesy dictates that the Board inform Dr. Burgos (or counsel) that it sought additional information prior to putting his matter on its agenda in the first place. Making matters worse, all of the information sought by the Board is publicly available (from both the Eighth Judicial District Court and the Medical Board), and thus, was equally available to the Board. What transpired was incredibly inefficient and had the effect of embarrassing Dr. Burgos, which I am sure was not your intent, but was the result. For the reasons set forth herein, Dr. Burgos has been through a very difficult period – which he understands was all of his own doing. But the Application is the last step in a process that began *seven years ago* and he simply seeks a prompt and thorough review of his application.

The Discipline that Followed the Criminal Case

On September 27, 2016, Dr. Burgos, through counsel, promptly notified the Medical Board of his arrest. *See* **Exhibit F** (Letter dated September 27, 2016). He subsequently updated the Medical Board on October 24, 2016. *See* **Exhibit G** (Letter dated October 24, 2016). On December 4, 2017, Dr. Burgos entered into a Settlement Agreement with the Medical Board. *See* **Exhibit H** (Medical Board Settlement Agreement). Under the terms of the Settlement Agreement, Dr. Burgos agreed to a four month suspension of his medical license (December 2017 – March 2018). His medical license was placed in probationary status for a period of at least four years, during which time he agreed to be supervised at all times during interactions with female patients, pursuant to a written monitoring agreement. *See* **Exhibit H.** On March 14, 2022, the Medical Board issued an Order removing all conditions and restrictions on Dr. Burgos' medical license.[3] *See* **Exhibit I** (Order Removing Conditions from License).

As a result of both the criminal case and the Medical Board matter, on October 6, 2017, the Drug Enforcement Administration ("DEA") informed Dr. Burgos that it intended to initiate proceedings to revoke his DEA Certificate of Registration. *See* **Exhibit J** (Letter dated October 6, 2017). Instead of contesting the revocation, Dr. Burgos agreed to voluntarily surrender his DEA Certificate of Registration. *See* **Exhibit K** (Letter dated October 30, 2017) and **Exhibit L** (Letter dated October 18, 2017). At every step in this process, Dr. Burgos has promptly accepted responsibility for his conduct.

On October 17, 2022, the Department of Health and Human Services – Office of the Inspector General reinstated Dr. Burgos and reported this to the National Practitioner Databank. *See* **Exhibit M** (Revision to Exclusion/Debarment Action).

Justification for Reinstatement

Dr. Burgos respectfully requests that the Board grant the Application. We submit that the following facts justify approval:

- Dr. Burgos continues to be extremely contrite for the conduct in which he engaged. Nonetheless, the conduct alleged in the criminal case occurred as long as *nine* years ago and the criminal charges are almost *seven* years old;

- Dr. Burgos pled guilty to three gross misdemeanors over *six* years ago, completed all of his legal obligations, and was honorably discharged from probation early, approximately *four* years ago. He has not been in any trouble since;

- The Medical Board reinstated Dr. Burgos' license to practice medicine after completing a four month suspension in early 2018 and removed all conditions on his license over one year ago.

---

[3] Despite the Medical Board's Order, Dr. Burgos continues to have a female staff member present for all interactions with female patients.

- The conduct that formed the basis for the criminal case and the discipline that followed had nothing to do with Dr. Burgos' prescribing practices. While he understands that the Board will make its own independent assessment as to whether the Application should be granted, the Medical Board's decision to reinstate Dr. Burgos fully should inform this Board's decision; and

- Obtaining a controlled substance license is the last step before Dr. Burgos can practice medicine without any restrictions.[4]

In providing this supplemental information, Dr. Burgos has attempted to provide the Board with a fulsome and transparent recitation of the matters he disclosed in the Application. If there is any additional information that the Board believes it needs to assess his application, please contact me, and I will supplement this submission promptly, as appropriate.

Sincerely,

CLARK HILL PLLC

[4] Without a Controlled Substance license, Dr. Burgos cannot be reinstated by the Medicare or Medicaid programs, providing important resources to the North Las Vegas community. Dr. Burgos practices in the medically underserved area of North Las Vegas, where many of his patients are Spanish-speaking, Dr. Burgos' native language. He provides an important service to an area in which it is needed.

CLARK COUNTY, NEVADA

THE STATE OF NEVADA,

Plaintiff,

-vs-

JORGE YSACC BURGOS,

Defendant.

CASE NO: C-16-319451-1

DEPT NO: II

GUILTY PLEA AGREEMENT

I hereby agree to plead guilty to: **COUNTS 1, 2 & 3 - OPEN OR GROSS LEWDNESS (Gross Misdemeanor - NRS 201.210 - NOC 50971)**, as more fully alleged in the charging document attached hereto as Exhibit "1".

My decision to plead guilty is based upon the plea agreement in this case which is as follows:

The State will make no recommendation at rendition of sentence.

I agree to the forfeiture of any and all weapons or any interest in any weapons seized and/or impounded in connection with the instant case and/or any other case negotiated in whole or in part in conjunction with this plea agreement.

I understand and agree that, if I fail to interview with the Department of Parole and Probation (P&P), fail to appear at any subsequent hearings in this case, or an independent magistrate, by affidavit review, confirms probable cause against me for new criminal charges

including reckless driving or DUI, but excluding minor traffic violations, the State will have the unqualified right to argue for any legal sentence and term of confinement allowable for the crime(s) to which I am pleading guilty, including the use of any prior convictions I may have to increase my sentence as an habitual criminal to five (5) to twenty (20) years, Life without the possibility of parole, Life with the possibility of parole after ten (10) years, or a definite twenty-five (25) year term with the possibility of parole after ten (10) years.

Otherwise I am entitled to receive the benefits of these negotiations as stated in this plea agreement.

CONSEQUENCES OF THE PLEA

I understand that by pleading guilty I admit the facts which support all the elements of the offense(s) to which I now plead as set forth in Exhibit "1".

I understand that as a consequence of my plea of guilty I may be imprisoned in the Clark County Detention Center for a period of not more than three hundred sixty-four (364) days and that I may be fined up to $2,000.00, for each count. I understand that the law requires me to pay an Administrative Assessment Fee.

I understand that, if appropriate, I will be ordered to make restitution to the victim of the offense(s) to which I am pleading guilty and to the victim of any related offense which is being dismissed or not prosecuted pursuant to this agreement. I will also be ordered to reimburse the State of Nevada for any expenses related to my extradition, if any.

I understand that if I am pleading guilty to charges of Burglary, Invasion of the Home, Possession of a Controlled Substance with Intent to Sell, Sale of a Controlled Substance, or Gaming Crimes, for which I have prior felony conviction(s), I will not be eligible for probation and may receive a higher sentencing range.

I understand that pursuant to NRS 176.139 and my plea of guilty to a sexual offense for which the suspension of sentence or the granting of probation is permitted, P&P shall arrange for a psychosexual evaluation as part of the Division's Presentence Investigation (PSI) Report to the court.

I understand that I am not eligible for probation pursuant to NRS 176A.110 unless the psychosexual evaluation certifies that I do not represent a high risk to reoffend based upon a currently accepted standard of assessment. I understand that, except as otherwise provided by statute, the question of whether I receive probation is in the discretion of the sentencing judge.

I understand that, before I am eligible for parole a panel consisting of the Administrator of the Mental Health and Developmental Services of the Department of Human Resources or his designee; the Director of the Department of Corrections or his designee; and a psychologist licensed to practice in this state or a psychiatrist licensed to practice medicine in this state certifies that I was under observation while confined in an institution of the department of corrections and that I do not represent a high risk to reoffend based upon a currently accepted standard of assessment.

I understand that the Court will include as part of my sentence, in addition to any other penalties provided by law, pursuant to NRS 179D.441 to 179D.550, inclusive, I must register as a sex offender within forty-eight (48) hours of release from custody onto probation or parole.

I understand that I must submit to blood and/or saliva tests under the direction of P&P to determine genetic markers and/or secretor status.

I understand that if more than one sentence of imprisonment is imposed and I am eligible to serve the sentences concurrently, the sentencing judge has the discretion to order the sentences served concurrently or consecutively.

I understand that information regarding charges not filed, dismissed charges, or charges to be dismissed pursuant to this agreement may be considered by the judge at sentencing.

I have not been promised or guaranteed any particular sentence by anyone. I know that my sentence is to be determined by the Court within the limits prescribed by statute.

I understand that if my attorney or the State of Nevada or both recommend any specific punishment to the Court, the Court is not obligated to accept the recommendation.

I understand that if the State of Nevada has agreed to recommend or stipulate a particular sentence or has agreed not to present argument regarding the sentence, or agreed not to oppose a particular sentence, such agreement is contingent upon my appearance in court on

the initial sentencing date (and any subsequent dates if the sentencing is continued). I understand that if I fail to appear for the scheduled sentencing date or I commit a new criminal offense prior to sentencing the State of Nevada would regain the full right to argue for any lawful sentence.

I understand if the offense(s) to which I am pleading guilty to was committed while I was incarcerated on another charge or while I was on probation or parole that I am not eligible for credit for time served toward the instant offense(s).

I understand that if I am not a United States citizen, any criminal conviction will likely result in serious negative immigration consequences including but not limited to:

1. The removal from the United States through deportation;
2. An inability to reenter the United States;
3. The inability to gain United States citizenship or legal residency;
4. An inability to renew and/or retain any legal residency status; and/or
5. An indeterminate term of confinement, with the United States Federal Government based on my conviction and immigration status.

Regardless of what I have been told by any attorney, no one can promise me that this conviction will not result in negative immigration consequences and/or impact my ability to become a United States citizen and/or a legal resident.

I understand that P&P will prepare a report for the sentencing judge prior to sentencing. This report will include matters relevant to the issue of sentencing, including my criminal history. This report may contain hearsay information regarding my background and criminal history. My attorney and I will each have the opportunity to comment on the information contained in the report at the time of sentencing. Unless the District Attorney has specifically agreed otherwise, then the District Attorney may also comment on this report.

WAIVER OF RIGHTS

By entering my plea of guilty, I understand that I am waiving and forever giving up the following rights and privileges:

1. The constitutional privilege against self-incrimination, including the right to refuse to testify at trial, in which event the prosecution would not be allowed to comment to the jury about my refusal to testify.

///

2. The constitutional right to a speedy and public trial by an impartial jury, free of excessive pretrial publicity prejudicial to the defense, at which trial I would be entitled to the assistance of an attorney, either appointed or retained. At trial the State would bear the burden of proving beyond a reasonable doubt each element of the offense(s) charged.

3. The constitutional right to confront and cross-examine any witnesses who would testify against me.

4. The constitutional right to subpoena witnesses to testify on my behalf.

5. The constitutional right to testify in my own defense.

6. The right to appeal the conviction with the assistance of an attorney, either appointed or retained, unless specifically reserved in writing and agreed upon as provided in NRS 174.035(3). I understand this means I am unconditionally waiving my right to a direct appeal of this conviction, including any challenge based upon reasonable constitutional, jurisdictional or other grounds that challenge the legality of the proceedings as stated in NRS 177.015(4). However, I remain free to challenge my conviction through other post-conviction remedies including a habeas corpus petition pursuant to NRS Chapter 34.

VOLUNTARINESS OF PLEA

I have discussed the elements of all of the original charge(s) against me with my attorney and I understand the nature of the charge(s) against me.

I understand that the State would have to prove each element of the charge(s) against me at trial.

I have discussed with my attorney any possible defenses, defense strategies and circumstances which might be in my favor.

All of the foregoing elements, consequences, rights, and waiver of rights have been thoroughly explained to me by my attorney.

I believe that pleading guilty and accepting this plea bargain is in my best interest, and that a trial would be contrary to my best interest.

I am signing this agreement voluntarily, after consultation with my attorney, and I am not acting under duress or coercion or by virtue of any promises of leniency, except for those

set forth in this agreement.

I am not now under the influence of any intoxicating liquor, a controlled substance or other drug which would in any manner impair my ability to comprehend or understand this agreement or the proceedings surrounding my entry of this plea.

My attorney has answered all my questions regarding this guilty plea agreement and its consequences to my satisfaction and I am satisfied with the services provided by my attorney.

CERTIFICATE OF COUNSEL:

I, the undersigned, as the attorney for the Defendant named herein and as an officer of the court hereby certify that:

1. I have fully explained to the Defendant the allegations contained in the charge(s) to which guilty pleas are being entered.

2. I have advised the Defendant of the penalties for each charge and the restitution that the Defendant may be ordered to pay.

3. I have inquired of Defendant facts concerning Defendant's immigration status and explained to Defendant that if Defendant is not a United States citizen any criminal conviction will most likely result in serious negative immigration consequences including but not limited to:

   a. The removal from the United States through deportation;

   b. An inability to reenter the United States;

   c. The inability to gain United States citizenship or legal residency;

   d. An inability to renew and/or retain any legal residency status; and/or

   e. An indeterminate term of confinement, by with United States Federal Government based on the conviction and immigration status.

   Moreover, I have explained that regardless of what Defendant may have been told by any attorney, no one can promise Defendant that this conviction will not result in negative immigration consequences and/or impact Defendant's ability to become a United States citizen and/or legal resident.

4. All pleas of guilty offered by the Defendant pursuant to this agreement are consistent with the facts known to me and are made with my advice to the Defendant.

5. To the best of my knowledge and belief, the Defendant:

   a. Is competent and understands the charges and the consequences of pleading guilty as provided in this agreement,

   b. Executed this agreement and will enter all guilty pleas pursuant hereto voluntarily, and

   c. Was not under the influence of intoxicating liquor, a controlled substance or other drug at the time I consulted with the Defendant as certified in paragraphs 1 and 2 above.

Re: *Report of Arrest - Jorge Burgos, MD (Lic. # 10622)*

Dear Sir or Madam:

Pursuant to Nevada Revised Statutes ("NRS") §§ 630.30665 and 630.306(l), Dr. Jorge Burgos is making the following voluntary report to the Nevada State Board of Medical Examiners (the "Board"). Attached also please find the Board's 14-Day Sentinel Event Form completed and signed by Dr. Burgos.

On September 21, 2016, Dr. Burgos was arrested by the Las Vegas Metropolitan Police Department ("Metro") on three counts of open and gross lewdness, in violation of NRS 201.210, a gross misdemeanor. Based on information provided by law enforcement to date, it appears that a female patient filed a complaint with Metro alleging that Dr. Burgos made unwanted romantic advances towards her. Dr. Burgos intends to plead not guilty at his upcoming arraignment and maintains his innocence.

While only convictions, and not arrests, are grounds for disciplinary action by the Board pursuant to NRS 630.301, he is reporting this arrest out of an abundance of caution to the extent it constitutes a "sentinel event," pursuant to NRS § 630.30665, or constitutes "any criminal action taken" pursuant to NRS § 630.306(l).

To the extent there is a change in Dr. Burgos' status in relation to these charges, it will be reported as required under the Board's statutes and regulations. Dr. Burgos pledges his full cooperation with the Board.

Please do not hesitate to contact me with any questions.

Very truly yours,

Alan C. Sklar

Re: *Report of Arrest - Jorge Burgos, MD (Lic. # 10622)*

Dear Ms. Castagnola:

I am sending this letter as a supplement to my letter dated September 27, 2016. On October 20, 2016, Dr. Burgos was re-arrested by the Las Vegas Metropolitan Police Department ("Metro") on eleven counts of open and gross lewdness, in violation of Nevada Revised Statutes ("NRS") 201.210, a gross misdemeanor. The nature of the charges against him have not changed; based on information provided by law enforcement to date, it appears that additional female patients have alleged that Dr. Burgos made unwanted romantic advances towards them. Dr. Burgos intends to plead not guilty at his upcoming arraignment and maintains his innocence.

While only convictions, and not arrests, are grounds for disciplinary action by the Nevada State Board of Medical Examiners (the "Board") pursuant to NRS 630.301, he is reporting this arrest out of an abundance of caution to the extent it constitutes a "sentinel event," pursuant to NRS § 630.30665, or constitutes "any criminal action taken" pursuant to NRS § 630.306(1).

To the extent there is a change in Dr. Burgos' status in relation to these charges, it will be reported as required under the Board's statutes and regulations. Dr. Burgos pledges his full cooperation with the Board.

SETTLEMENT AGREEMENT

The Investigative Committee (IC) of the Nevada State Board of Medical Examiners (Board), by and through its General Counsel, Robert Kilroy, Esq., and Jorge Ysacc Burgos, M.D. (Respondent), a licensed physician in Nevada, represented by Crane Pomerantz, Esq., of the law firm of Sklar Williams PLLC, hereby enter into this Settlement Agreement (Agreement) based on the following:[1]

A. Background

1. Respondent is a physician licensed by the Board, pursuant to Chapter 630 of the Nevada Revised Statutes (NRS) and Chapter 630 of the Nevada Administrative Code (NAC) (collectively, the Medical Practice Act), to practice medicine in Nevada since August 27, 2003 (License No. 10622).

2. On August 11, 2017, in Case No. 17-26547-1, the IC filed a First Amended Complaint (Complaint) charging Respondent with Medical Practice Act violations. Specifically, this Complaint alleges: one (1) count of violating of NRS 630.301(9) (engaging in conduct that brings the medical

profession into disrepute); one (1) count of violating of NRS 630.301(11)(d) (conviction of a sexually related crime); and one (1) count of violating of NRS 630.301(11)(g) (conviction of an offense involving moral turpitude). By reason of the foregoing, Respondent is subject to discipline by the Board as provided in NRS 630.352.

3. Respondent was properly served with a copy of this Complaint, has reviewed and understands this Complaint, and has had the opportunity to consult with competent counsel concerning the nature and significance of this Complaint.

4. Respondent is hereby advised of his rights regarding this administrative matter and his opportunity to defend against the allegations in the Complaint. Specifically, Respondent has certain rights in this administrative matter as set out by the United States Constitution, the Nevada Constitution, the Medical Practice Act, the Nevada Open Meeting Law (OML), which is contained in NRS Chapter 241, and the Nevada Administrative Procedure Act (APA), which is contained in NRS Chapter 233B. These rights include the right to a formal hearing on the allegations in the Complaint, the right to representation by counsel at his own expense in the preparation and presentation of his defense, the right to confront and cross-examine the witnesses and evidence against him, the right to written findings of fact, conclusions of law and order reflecting the final decision of the Board, and the right to judicial review of the Board's Order, if the decision is adverse to him.

5. Respondent understands that, under the Board's charge to protect the public by regulating the practice of medicine, the Board may take disciplinary action against Respondent's license, including license probation, license suspension, license revocation and imposition of administrative fines, as well as any other reasonable requirement or limitation, if the Board concludes that Respondent violated one or more provisions of the Medical Practice Act.

6. Respondent understands and agrees that this Agreement, by and between Respondent and the IC, is not with the Board, and that the IC will present this Agreement to the Board for consideration in open session at a duly noticed and scheduled meeting. Respondent understands that the IC shall advocate for the Board's approval of this Agreement, but that the Board has the right to decide in its own discretion whether or not to approve this Agreement. Respondent further understands and agrees that if the Board approves this Agreement, then the

terms and conditions enumerated below shall be binding and enforceable upon him and the Board.

B. Terms & Conditions

NOW, THEREFORE, in order to resolve the matters addressed herein, i.e., the matters with regard to the Complaint, Respondent and the IC hereby agree to the following terms and conditions:

1. **Jurisdiction**. Respondent is, and at all times relevant to the Complaint has been, a physician licensed to practice medicine in Nevada subject to the jurisdiction of the Board as set forth in the Medical Practice Act.

2. **Representation by Counsel/Knowing, Willing and Intelligent Agreement**. Respondent understands that he may retain and consult counsel prior to entering into this Agreement at his own expense. Respondent acknowledges he is represented by counsel licensed in the State of Nevada and wishes to resolve the matters addressed herein with such counsel. Respondent agrees that if representation in this matter materially changes prior to entering into this Agreement and for the duration of this Agreement, that counsel for the IC will be timely notified of the material change. Respondent agrees that he knowingly, willingly and intelligently enters into this Agreement after deciding to have a full consultation with and upon the advice of legal counsel licensed in the State of Nevada.

3. **Waiver of Rights**. In connection with this Agreement and the associated terms and conditions, Respondent knowingly, willingly and intelligently waives all rights in connection with this administrative matter. Respondent hereby knowingly, willingly and intelligently waives all rights arising under the United States Constitution, the Nevada Constitution, the Medical Practice Act, the OML, the APA and any other legal rights that may be available to him or that may apply to him in connection with the administrative proceedings resulting from the Complaint filed in this matter, including defense of the Complaint, adjudication of the allegations set forth in the Complaint, and imposition of any disciplinary actions or sanctions ordered by the Board. Respondent agrees to settle and resolve the allegations of the Complaint as set out by this Agreement, without a hearing or any further proceedings and without the right to judicial review.

4. **Acknowledgement of Reasonable Basis to Proceed**. Respondent acknowledges that the IC believes it has a reasonable basis to allege that Respondent engaged in conduct that is grounds for discipline pursuant to the Medical Practice Act. The Board acknowledges Respondent is admitting that the Board's claims/counts as alleged in the Complaint have merit and Respondent is agreeing to resolve this matter to avoid the costs of hearing and potential subsequent litigation. Respondent asserts if this matter were to proceed to hearing, he has evidence, witnesses, expert witness(es) and defenses to the counts/claims alleged in the Complaint, but for the purposes of resolving the matter and for no other purpose, Respondent waives the presentation of evidence, witnesses, expert witnesses and defenses in order to effectuate this Agreement.

5. **Consent to Entry of Order**. In order to resolve this Complaint pending against Respondent without incurring any further costs or the expense associated with a hearing, Respondent hereby agrees that the Board may issue an order finding that Respondent engaged in conduct that is grounds for discipline pursuant to the Medical Practice Act. Accordingly, the following terms and conditions are hereby agreed upon:

A. Respondent admits to the following:

(1) One (1) count of violating NRS 630.301(9) (engaging in conduct that brings the medical profession into disrepute);

(2) One (1) count of violating NRS 630.301(11)(d) (conviction of a sexually related crime); and

(3) One (1) count of violating NRS 630.301(11)(g) (conviction of an offense involving moral turpitude).

B. Respondent agrees to allow his license to practice medicine in the State of Nevada to be suspended (Suspension) for FOUR (4) MONTHS (December 2017, January thru March 2018) following the date of this Agreement's acceptance, adoption and approval by the Board, and Respondent will have his suspended license status lifted on Monday, April 2, 2018, which is approximately four months following his Suspension date.

C. Respondent's license shall be subject to a term of probation (Probationary Period) for an indeterminate period of time and he may petition the Board to lift the probationary condition placed upon his license after forty-eight (48) months from the date of the Board's acceptance, adoption and approval of this Agreement. The following terms and conditions shall apply during Respondent's Probationary Period, if and when Respondent intends to practice medicine in Nevada during this Probationary Period:

(1) Respondent must be supervised at all times during any and all interactions with all female patients, with a formal monitoring agreement with approved and identified monitors, throughout the entire Probationary Period or until further order of the Board.

(2) Respondent shall successfully complete all requirements as established by the Eighth Judicial District Court and the Nevada Division of Parole and Probation.

(3) Respondent agrees to abstain from the personal use or possession of controlled substances and prescription drugs, unless such controlled substance or prescription drug is lawfully prescribed to Respondent for a current bona fide illness or condition by a licensed Practitioner. Respondent shall abstain from the use of any and all other mood-altering substances for any other purpose than the purpose for which the substance is intended. Respondent will no longer be allowed to prescribe medications to himself.

(4) Respondent shall complete all terms and conditions of any criminal sanctions incurred before or during the period of this Agreement, including probation or parole, and if, or when, the Nevada Division of Parole and Probation terminates its probationary period of Respondent, then Respondent can petition the Board for a termination of the Board's Probationary Period.

D. Respondent will pay the costs and expenses incurred in the investigation and prosecution of the above-referenced matter within one hundred twenty (120) days of the Board's acceptance, adoption and approval of this Agreement, the current amount

being [$1500.00], not including any costs that may be necessary to finalize this Agreement.

E. Respondent shall take six (6) hours of continuing medical education (CME) related to family practice, boundary issues, and professionalism within the work place within twelve (12) months from the date of the Board's acceptance, adoption and approval of this Agreement. The aforementioned hours of CME shall be in addition to any CME requirements that are regularly imposed upon Respondent as a condition of licensure in the State of Nevada and shall be approved by the Board prior to their completion.

F. This Agreement shall be reported to the appropriate entities and parties as required by law, including, but not limited to, the National Practitioner Data Bank.

G. Respondent shall be issued a Public Letter of Reprimand.

6. **Release From Liability**. In execution of this Agreement, Respondent understands and agrees that the State of Nevada, the Board, and each of its members, staff, counsel, investigators, experts, peer reviewers, committees, panels, hearing officers, consultants and agents are immune from civil liability for any decision or action taken in good faith in response to information acquired by the Board. NRS 630.364(2)(a). Respondent agrees to release the State of Nevada, the Board and each of its members, staff, counsel, investigators, experts, peer reviewers, committees, panels, hearing officers, consultants and agents from any and all manner of actions, causes of action, suits, debts, judgments, executions, claims and demands whatsoever, known and unknown, in law or equity, that Respondent ever had, now has, may have or claim to have, against any or all of the persons, government agencies or entities named in this paragraph arising out of, or by reason of, this investigation, this Agreement or the administration of the case referenced herein.

7. **Procedure for Adoption of Agreement**. The IC and counsel for the IC shall recommend approval and adoption of the terms and conditions of this Agreement by the Board in resolution of this Complaint. In the course of seeking Board acceptance, approval and adoption of this Agreement, counsel for the IC may communicate directly with the Board staff and the adjudicating members of the Board.

OFFICE OF THE GENERAL COUNSEL
Nevada State Board of Medical Examiners

Respondent acknowledges that such contacts and communications may be made or conducted ex parte, without notice or opportunity to be heard on his part until the public Board meeting where this Agreement is discussed, and that such contacts and communications may include, but not be limited to, matters concerning this Agreement, the Complaint and any and all information of every nature whatsoever related to this matter. The IC and its counsel agree that Respondent may appear at the Board meeting where this Agreement is discussed and, if requested, respond to any questions that may be addressed to the IC or the IC's counsel.

8. **Effect of Acceptance of Agreement by Board**. In the event the Board accepts, approves and adopts this Agreement, the Board shall issue a final order, making this Agreement an order of the Board.

9. **Effect of Rejection of Agreement by Board**. In the event the Board does not accept, approve and adopt this Agreement, this Agreement shall be null, void and of no force and effect except as to the following agreement regarding adjudications: (1) Respondent agrees that, notwithstanding rejection of this Agreement by the Board, nothing contained in this Agreement and nothing that occurs pursuant to efforts of the IC to seek the Board's acceptance of this Agreement shall disqualify any member of the adjudicating panel of the Board from considering this Complaint and from participating in disciplinary proceedings against Respondent, including adjudication of this case; and (2) Respondent further agrees that he shall not seek to disqualify any such member absent evidence of bad faith.

10. **Binding Effect**. If approved by the Board, Respondent understands that this Agreement is a binding and enforceable contract upon Respondent and the Board.

11. **Forum Selection Clause**. The parties agree that in the event either party is required to seek enforcement of this Agreement in a Nevada state district court, the parties consent to such jurisdiction and agree that exclusive jurisdiction shall be in the Second Judicial District Court, County of Washoe, State of Nevada.

12. **Attorneys' Fees and Costs**. The parties agree that in the event an action is commenced in district court to enforce any provision of this Agreement, the prevailing party shall be entitled to recover reasonable attorneys' fees and costs.

13. Failure to Comply with Terms. Should Respondent fail to comply with any term or condition of this Agreement once the Agreement has been accepted, approved and adopted by the Board, the IC shall be authorized to immediately suspend Respondent's license to practice medicine in Nevada pending an Order To Show Cause Hearing, which will be duly noticed. Failure to comply with the terms of this Agreement, including failure to pay any fines, costs, expenses or fees owed to the Board, is a failure to comply with an order of the Board, which may result in additional disciplinary action being taken against Respondent. NRS 630.3065(2)(a). Further, Respondent's failure to remit payment to the Board for monies agreed to be paid as a condition of this Agreement may subject Respondent to civil collection efforts.

RE: DEA Registration # BB8524123

Dear Dr. Burgos:

Pursuant to the provisions of 21 USC 824(a)(5), a registration pursuant to section 823 of this title to manufacture, distribute, or dispense a controlled substance or list I chemical may be suspended or revoked by the Attorney General upon finding that the registrant has been excluded (or directed to be excluded) from participation in a program pursuant to section1320a-7(a) of Title 42. Therefore, you are currently without authority to prescribe, administer, dispense, or otherwise handle controlled substances in the State of Nevada. Under the provisions of 21 USC 824 and Applicable Administrative Decisions, your current DEA Certificate of Registration is subject to revocation. We are now in the process of requesting such proceedings.

However, if you desire to waive your right to a hearing in this matter, you may voluntarily surrender your DEA registration. A DEA form 104, Voluntary Surrender of Controlled Substances Privileges, has been enclosed for your convenience. If you choose to voluntarily surrender your controlled substances privileges, sign the enclosed form and send your DEA registration certificate, unused order forms, and any controlled substances in your possession to this office within 30 days after the receipt of this letter.

If you have any questions concerning this matter, please contact Diversion Investigator Deanna Way at telephone number (702) 759-8112.

VOLUNTARY SURRENDER OF REGISTRATION

Dear Dr. Burgos;

This letter is to confirm the voluntary surrender of your registration privileges in Schedules II through V on October 17, 2017, under Drug Enforcement Administration (DEA) Registration #BB8524123. By surrendering your registration privileges in Schedules II through V, you have waived your right to an administrative hearing to determine if your registration would be consistent with the public interest under Title 21 U.S.C. 823(f)

Concurrent with the surrender of your registration, you are no longer authorized to order, distribute, possess, dispense, administer, prescribe or engage in any activities with controlled substances.

If you have any questions regarding this matter, you may contact Diversion Investigator Deanna K. Way, 550 S. Main Street, Las Vegas, NV 89101; telephone number (702) 759-8112.

Petition to the NVBOP

To perform the practice of pharmacy

From a remote home office

Pharmacist: Jill Marquardt PharmD

Remote Office Location: 16 Cresta Villa Court, Henderson, NV 89011

The objective is to operate as an independent contractor to perform pharmacy consultation services. The consultation services provided are aimed to provide comprehensive medication reviews to identify and resolve any drug-related problems to improve patient clinical outcomes.

Services to be provided are not limited, but may include; medication therapy review, a personal medication record, medication-related action plans, intervention and/or referrals, documentation and follow-up.

While there is no limit to the types of patients welcome for consultation, the expected patient type is one looking for independent, comprehensive review of medication with sufficient time and accessibility to the pharmacist. Patients can expect the pharmacist to communicate with their other healthcare professionals about effective use of medications in their overall therapy and health. Services will be available to any patient who uses prescription medications, non-prescription medications, herbal and dietary supplements.

To perform and document such services, Jane (www.jane.app) digital platform will be used. The platform will allow for all digital documentation, video consultations, charting, scheduling, and billing. All patient records will be electronic and securely stored on the Jane online platform, which is HIPAA compliant.

The Lexi-comp suite will be used as a primary source of drug information. Pubmed, Medscape, Micromedex, JAMA, and Facts and Comparisons are also information sources I regularly consult in giving accurate and up-to-date counsel.

Scheduled services will be performed from a home office and appointments may be scheduled Monday through Friday at a maximum of 40 hours per week. Scheduled appointments will not fall beyond the window of 8:00 AM to 8:00 PM. Patients will have e-mail access to the pharmacist when off duty. All e-mails and will be responded to within 24 hours unless the pharmacist has scheduled vacation leave at which time the response will be provided by the next scheduled business day.

Services may be contracted directly with an individual patient or by referral from a healthcare provider. Services may also be contracted with online MTM companies or physician offices. Work performed will be done independent of any licensed pharmacy and patients, after consultation, will be free to select their pharmacy of choice for purchasing and dispensing of medications.

Business Plan

NAC 639.7145 Transfer of information between pharmacies: Requirements for transfer by facsimile machine. (NRS 639.070, 639.0745)

1. Information relating to a prescription may be transferred from a pharmacy to another pharmacy by a facsimile machine pursuant to NAC 639.713 if:

(a) The transmission from the transferring pharmacy:

(1) Includes the information required by subsection 2 of NRS 639.2353, which may be provided in the form of an accurate printout of the pharmacy's computerized record of the prescription; and

(2) Except as otherwise provided in subsection 2, includes:

(I) A copy of the original prescription maintained in the records of the transferring pharmacy on which the pharmacist at the transferring pharmacy has signed the copy and written his or her license number; or

(II) The signature and handwritten license number of the pharmacist at the transferring pharmacy and a notation that specifically indicates that the pharmacist intends to transfer the prescription.

(b) The transmission is prepared and transmitted by a pharmaceutical technician or pharmacist at the transferring pharmacy.

(c) Except as otherwise provided in subsection 3, the pharmacist at the transferring pharmacy processes the original prescription in the manner prescribed in paragraph (a) and subparagraphs (1), (2) and (3) of paragraph (b) of subsection 1 of NAC 639.714.

2. A pharmacy may transfer prescriptions by facsimile machine to another pharmacy without complying with the provisions of subparagraph (2) of paragraph (a) of subsection 1 only upon application to and authorization by the Board. The Board may grant that authority to a pharmacy if the Board is satisfied that:

(a) The pharmacy's computer system will accurately represent the identity of the pharmacist responsible for the transfer; and

(b) The identity of the pharmacist responsible for the transfer cannot be falsified, modified, added or otherwise provided without the knowledge and assent of that pharmacist.

3. A pharmacy which maintains its records of prescriptions in a computer system shall invalidate in its system a prescription transferred by a facsimile machine to another pharmacy. A pharmacy which transfers a prescription by a facsimile machine is not required to process the original prescription in the manner prescribed in paragraph (c) of subsection 1 if the pharmacy cancels the prescription stored in its computer system in a manner which ensures that the prescription cannot be refilled by that pharmacy.

NEVADA STATE BOARD OF PHARMACY

POLICY MANUAL 2023

INTRODUCTION

Board members and employees have a duty to carry out and enforce the provisions of Nevada law to protect the health, safety, and welfare of the public. *See* NRS 622.080, NRS 639.070(1)(a), NRS 639.213 and NRS 639.2171(1).

General Purpose and Scope

These policies and procedures apply to all Board members and employees. They are not intended to be exhaustive and do not override the specific provisions of law as applied to a particular set of facts. To the extent possible, these policies and procedures are intended to supplement statutes, regulations and executive orders governing the Board, together with the State Administrative Manual and other statewide policies and procedures that apply to all State Executive Branch agencies. If there is a conflict between such other provisions and the provisions of this manual, the other provisions control. In some instances, certain statewide policies and procedures are incorporated by reference in this manual. The Executive Secretary may implement additional policies and procedures not inconsistent with this manual and applicable law.

Employee Input and Improvements

Throughout the Board's history, its employees have been the best source for innovation and improvement of the Board's operations. All employees are encouraged to comment to the Executive Secretary or the General Counsel upon these policies and procedures at any time. These policies and procedures should accurately reflect the actual operations of the Board and lead to greater efficiency in our service to the public.

Review and Changes to the Policies and Procedures

The Board may require changes to these policies and procedures whenever the Board deems necessary. The Executive Secretary and the General Counsel shall review these policies and procedures at least once biennially and make any recommendations for changes to the Board.

No Third-Party Rights

This manual is intended to guide the internal operations of the Board and its staff and is not intended to create any rights, duties, or obligations regarding any person who is a not Board member or employee.

EMPLOYMENT POLICIES

Board employment policies and practices will conform to the requirements of NRS Chapter 281 and Chapter 613.

Employment At Will

Each employee of the Board is employed at will, meaning that the employee may be terminated for any reason or no given reason and with or without any previous disciplinary action or notice. The Executive Secretary serves at the will of the Board. All other employees serve at the will of the Executive Secretary. The Executive Secretary may enlist the assistance of one or more Board members or the entire Board to review applications, interview candidates, or ratify hiring or termination decisions, but the Executive Secretary may also make any employment decisions without the assistance of the Board, as the Executive Secretary deems in his or her discretion to be appropriate or necessary.

Work Hours

An employee is considered full-time if he or she is expected to regularly work 40 or more hours per week. An employee is considered part-time if he or she is expected to regularly work less than 40 hours but more than 24 hours per week. An employee is considered occasional if he or she is expected to regularly work less than 24 hours per week. Occasional employees receive no benefits unless otherwise provided in these policies and procedures. Unless otherwise allowed by the Executive Secretary, every full-time employee is expected to work 40 hours per week.

Compensatory Time

If an employee works 15 or more minutes beyond his or her regular work day or on a weekend or holiday, he or she may record that time as compensatory time. Compensatory time is kept and used in quarter-hour increments. Each employee is responsible to record his or her own compensatory time. The Executive Secretary shall review each employee's total compensatory time at the end of the calendar year.

An employee may use his or her compensatory time flexibly as long as the use of the compensatory time does not affect pending assignments. An employee needs prior approval from the Executive Secretary or the General Counsel to use compensatory time. Las Vegas employees must also notify the Las Vegas Office Manager of any leave requested before taking any such leave.

An employee may carry forward from one calendar year to the next a maximum amount of compensatory time equal to three times the maximum amount of annual leave he or she is allowed to carry forward from one calendar year to the next. All compensatory time in excess of the allowable maximum will be forfeited on January 1 of each year.

Upon termination of employment, an employee is entitled to be paid for unused compensatory time at his or her regular hourly rate up to the allowable maximum amount, which shall correspond to the maximum amount for annual leave set forth in the table below. Unlike sick leave and annual leave, compensatory time may not be donated to other employees.

Annual Leave

Annual leave for full-time employees shall accrue and may be accumulated based upon the length of time that the employee has worked for the Board according to the following schedule:

Time Employed	Hrs./Pay Period	Max. Accumulation
5 years or less	3.33 hrs./pay period	160 hours
5 to 10 years	5.00 hrs./pay period	160 hours
10 to 20 years	6.65 hrs./pay period	240 hours
More than 20 years	6.65 hrs./pay period	320 hours

A part-time employee shall accrue and may accumulate annual leave at a rate 75% of that rate that would be allowed to a full-time employee with the same number of years of employment.

An employee should notify the Executive Secretary or the General Counsel and schedule his or her use of annual leave upon the Board's master calendar as soon in advance of the use of the leave as possible (and in the usual case no later than three weeks before the leave) so that the Executive Director and the General Counsel can schedule coverage. Las Vegas employees must also notify the Las Vegas Office Manager of any leave requested before taking any such leave. Reasonable leave requests will be granted unless, at the discretion of the Executive Secretary or the General Counsel, such leave would compromise the efficiency or work of the Board. Employees are encouraged not to seek leave during dates of Board meetings or from September 1 through November 15 of each year. The Executive Secretary may grant leave without prior notice to an employee for unforeseen or unanticipated circumstances of personal misfortune (such as a death of a family member or friend).

At the end of each calendar year, an employee will forfeit any annual leave he or she has accumulated that exceeds the maximum accumulation for that particular employee. An employee will be paid for his accumulated annual leave upon any termination of his or her employment with the Board at his or her most recent hourly rate up to a maximum of the number of annual hours he or she could accumulate.

Annual leave must be taken in half-hour increments. An employee must use compensatory time in excess of 20 hours for any absence from the office before he or she may use annual leave. Employees are encouraged to use their leave throughout the year rather than using it all in the last quarter of the calendar year.

An employee may donate accumulated annual leave to another employee. The terms of the donation, including a determination of whether and how the leave will be repaid, must be made in writing between the two employees and must be approved in writing by the Executive Secretary. A copy of the written agreement must be provided to the Administrative Assistant so that the terms of the agreement can be accommodated by the payroll service. The donor employee will be without recourse if the donee employee terminates his or her employment before he or she has repaid the donated leave.

Sick Leave

Full-time employees accrue sick leave at the rate of 5.0 hours per pay period. Part-time employees accrue sick leave at the rate of 3.75 hours per pay period. There is no limit to the number of hours of sick leave that may be accrued by an employee. An employee whose employment is terminated by reason of retirement or death may receive payment for his or her accrued sick leave at his or her most recent hourly pay based upon the number of years of employment by the Board according to the following schedule:

Time Employed	Maximum Paid
Less than 10 years	None
10 to 15 years	$3,750
15 to 20 years	$6,000
20 to 25 years	$9,000
More than 25 years	$12,000

Whenever possible, an employee should notify the Executive Secretary or the General Counsel (and the Las Vegas Office Manager if the employee is a Las Vegas employee) when he or she intends to use sick leave. Sick leave is only to be used if:

- The employee is unable to perform the duties of his or her position because he or she is sick, injured, or physically incapacitated due to a *bona fide* medical condition.
- The employee is quarantined.
- The employee is receiving medical, psychological, optometric, or dental service or examination.
- A member of the employee's family is sick, injured, physically incapacitated, quarantined, or receiving treatment or examination for a *bona fide* medical condition and the employee is needed to minister, transport, or otherwise assist the family member.

An employee may be asked to provide evidence of the reason given for the use of sick leave by the Executive Secretary or the General Counsel. Misuse of sick leave is a cause for discipline up to and including termination.

Extraordinary Leave

An employee may seek from the Executive Secretary or the General Counsel extraordinary leave under such conditions and for such time as the employee deems needed when:

- The employee is unable to perform his or her duties because of his or her own serious, *bona fide* illness or accident which is life threatening or which will require convalescence exceeding ten working days.
- The employee is unable to perform his or her duties because of the serious, *bona fide* illness or accident which is life threatening or which will require convalescence exceeding ten working days for a member of the employee's family or other person who will rely upon the employee's presence.
- The death of a member of the employee's family or close friend that may require the absence of the employee for more than three working days.
- Any other unforeseen or unfortunate personal circumstance that will require the absence of the employee for more than three working days.

The Executive Secretary or the General Counsel will attempt, as much as possible, to accommodate the employee's request for extraordinary leave. Las Vegas employees must also notify the Las Vegas Office Manager of any leave requested before taking any such leave. An employee will use his or her accrued sick leave (when appropriate), compensatory time, and annual leave for extraordinary leave. If the extraordinary leave will continue beyond all such accrued leave, other employees may donate their accrued leave of any type to assist the employee on extraordinary leave. Throughout the period of extraordinary leave, the employee on extraordinary leave shall call the Executive Secretary or the General Counsel to notify him or her of any significant change of circumstances regarding the leave and when the employee might be able to return to work.

If the extraordinary leave will continue beyond all the employee's accrued leave and the other employees' donations of leave are inadequate to cover the employee's extraordinary leave with pay, the employee and the Executive Secretary shall discuss whether the employee will be allowed to go on leave without pay or whether other arrangements, including termination of the employee's employment, are appropriate.

Miscellaneous Special Leave

Administrative Leave – Administrative leave is leave with pay that is not deducted from the employee's annual or compensatory leave amounts. Administrative leave will be granted an employee under the following circumstances:

- Blood Donation – An employee may take leave with pay for the time necessary to donate blood or blood products (such as platelets) as long as the Executive Secretary or the General Counsel has approved the leave in advance.

- Jury or Witness Duty – An employee will be granted administrative leave for the actual time he or she is required to serve as a juror or as a witness in a court or administrative proceeding other than a hearing or meeting with the Board. Any jury or witness fees must be paid to the Board.

Military Service Leave – An employee who is a member of the National Guard or a Reserve unit of the military will be granted leave for training under the same conditions as would apply to any other request for annual or compensatory leave except that such leave can only be denied by the Executive Secretary if the employee's absence would substantially impair the necessary work of the Board.

Holidays

The Board will observe legal holidays as specified in NRS 236.015, for which all employees will be paid based upon their current salary. If a legal holiday falls on a day within the workweek that is not a regular workday for an employee, that employee shall claim 25% of their regular hours per workweek as compensatory time.

Annual Salary Reviews

Every year before the Board's regularly scheduled meeting in May or June, the Executive Secretary shall review the work of each employee to make a recommendation to the Board regarding potential increases to that employee's salary. The Executive Secretary may recommend a merit increase per employee and may recommend different percentages for each employee depending upon the Executive Secretary's evaluation of the employee's work in the preceding year. At its meeting in May or June, the Board may increase each employee's salary by the percentage increase in the Consumer Price Index for All Urban Consumers (CPI-U) for the West Region for the preceding year plus a merit increase based upon the Executive Secretary's recommendation and the Board's own discretion. Salary increases shall be effective July 1 of each year.

Outside Employment

Before an employee may engage in any employment other than his or her employment with the Board, the employee shall discuss such outside employment with the Executive Secretary or the General Counsel. The Executive Secretary or General Counsel may approve the outside employment as long as it does not constitute a conflict of interest with the operations of the Board, does not create the appearance of impropriety, and does not interfere with the employee's ability to perform his or her functions for the Board.

Travel Expenses

Board members and employees in travel status shall receive reimbursement in accordance with NRS 281.160 and Chapter 0200 of the State Administrative Manual.

Use of Board Equipment and Time

Each employee shall, during his or her hours of duty as an employee and subject to such other laws or regulations as pertain thereto, devote his or her full time, attention and efforts to the business of the Board. Employees may make incidental use of their time and Board property for personal use under the following conditions:

- The use of the property does not interfere with the performance of the employee's duties.
- The cost or value related to the use is nominal.
- The use does not create the appearance of impropriety.

An employee should direct any question regarding whether a particular use of Board property complies with this policy to the Executive Secretary or the General Counsel before the employee makes the personal use of the Board property.

Americans with Disabilities Act

The Board will comply with the Americans with Disabilities Act by following the Employment Provisions Guide for State of Nevada Executive Branch Agencies set forth in Appendix A.

Public Employees' Retirement Program

The Board participates in the Public Employees' Retirement Program (PERS) in accordance with NRS Chapter 286 and will follow the PERS Policies and Procedures for the Retirement System available at **https://www.nvpers.org/.** The Board elected to pay all PERS contributions on behalf of its employees pursuant to NRS 286.421(1) prior to July 1, 1983.

Each Board member and employee shall sign the Acceptable Use Agreement governing the use of Board information technology (IT) resources set forth in Appendix D for retention in the individual's personnel file.

ETHICS IN GOVERNMENT

All Board members and employees are subject to the Nevada Ethics in Government Law, NRS Chapter 281A. Each Board employee shall sign the acknowledgment set forth in Appendix E for retention in the individual's personnel file that he or she has read and understands the Nevada Ethics In Government Manual. Each Board employee shall sign the Policies & Procedures for Screening of Staff to Avoid Conflicts of Interest set forth in Appendix F for retention in the individual's personnel file.

PUBLIC RECORDS

The Board Coordinator is the designated records official for the Board responsible for compliance with the Nevada Public Records Act, NRS Chapter 239, together with NAC Chapter 239, Chapter 0400 and Chapter 2000 of the State Administrative Manual, and State records retention schedules. Board members and employees shall not use their personal electronic devices and personal accounts in the transaction of public business since this generates a public record. The Board shall follow the records retention schedules set forth at

http://nsla.libguides.com/state-records-services/retention-schedules

and the Nevada Public Records Manual available at

http://nsla.libguides.com/ld.php?content_id=34967931.

DUTIES OF THE EXECUTIVE SECRETARY

TEMPORARY LICENSES

The Executive Secretary may only consider a request for a temporary license under NAC 639.200 if the person making the request is a pharmacist and has:

- Filed a fully completed an appropriate application,
- Paid all required fees,
- Nothing in his work or life history that would disqualify him or her or would require an appearance before the Board pursuant to NRS 639.210, and
- Demonstrated a compelling reason for the request.

The Executive Secretary may only consider a request for a temporary license under NAC 639.200 if the requesting party is a pharmacy and has:

- Filed a fully completed and appropriate application,
- Paid all required fees,
- Nothing in its operational history that would disqualify it or would require an appearance before the Board pursuant to NRS 639.210,
- Licenses already with the Board for one or more similar pharmacies, and
- Demonstrated a compelling reason for the request.

If the Executive Secretary grants a temporary license, he shall inform the person making the request of the time after which the license will expire, which time is presumptively 90 days. The Executive Secretary shall report to the Board on all temporary licenses granted at each Board meeting.

Responsibility for Employees

The Executive Secretary is responsible for the hiring, discipline, and termination of all employees of the Board. The Executive Secretary has the discretion to assign work among the employees as he or she deems necessary and proper for the efficient and effective function of the Board.

Board members who have questions or concerns regarding the operation of the Board offices or the work of any particular employee should address such questions or concerns to the Executive Secretary. Employees who have questions or concerns regarding their employment or the interpretation of any of these Policies and Procedures should talk with the Executive Secretary regarding their concerns.

Press Relations and Public Speaking

Questions from reporters or the public should be addressed to the Executive Secretary unless another person in the office has been designated by the Executive Secretary to receive such inquiries. Employees should not speak to reporters about anything unless specifically designated to do so by the Executive Secretary. Board members may speak to the press about Board matters, but they are encouraged either to direct the press to the Executive Secretary or to inform the Executive Secretary of the press contact immediately after the press contact. Board members may not speak on behalf of the entire Board unless authorized by the Board to do so. Board members may not discuss with the press anything related to a pending disciplinary matter until the Board has finally ruled in the matter and any judicial review of the matter is concluded.

The Executive Secretary is encouraged to speak to the public regarding issues of interest to the public and the Board related to the practice of pharmacy and the work of the Board. The Executive Secretary may assign public speaking duties to other employees as he or she deems appropriate. The Executive Secretary may seek permission or direction from the Board regarding a given appearance, or from the President if time does not allow for the issue to be raised with the entire Board.

Oversight of Board Finances and Investing of Board Funds

The Executive Secretary has the authority and responsibility to prudently manage the Board's finances. The Executive Secretary may sign contracts on behalf of the Board, may sign negotiable instruments on behalf of the Board, may commit Board funds to investments or other accounts, and may take whatever other action he or she deems necessary to maximize the Board's funds. The Executive Secretary shall present a financial report at each Board meeting.

The Executive Secretary shall invest the Board's funds as follows:

1. **Cash in Board Checking Accounts**: It is the responsibility of the Executive Secretary to maintain cash balances at levels which enable the Board to meet obligations as they become due. The Executive Secretary may establish a zero-balance checking account where excess cash is invested in a short-term Treasury fund that provides for one-day liquidity; or procure overnight repurchase agreements in order to ensure that funds are not at risk. The Board will ensure the following:

- The Board members will annually affirm the decision to exceed the FDIC limit of $250,000 when investing in funds approved by statute.
- The limit of $250,000 is only exceeded in institutions with total assets exceeding $10 billion and with a Thompson BankWatch or equivalent issuer rating of B/C or better.
- Institutions are scrutinized annually to ensure that the high ratings are maintained.

2. **Acceptable investments for funds not required for satisfying current obligations.** The Executive Secretary shall determine the investments based on its cash flow needs and safety and liquidity of investment. The Executive Secretary may invest Board funds that are not needed for current obligations only in the following:

- Savings accounts protected by U.S. Government guarantees, interest bearing demand accounts, time or certificates of deposits in banks and savings and loan institutions physically located within Nevada. The Board will ensure the following:
  - The Board members will annually affirm the decision to exceed the FDIC limit of $250,000.
  - The limit of $250,000 is only exceeded in institutions with total assets exceeding $10 billion and with a Thompson BankWatch or equivalent issuer rating of B/C or better.
  - Institutions are scrutinized annually to ensure that the high ratings are maintained.
- U.S. Treasury bills, notes and bonds. Securities issued by U.S. Government agencies such as: Federal Farm Credits, Federal National Mortgage Association and Federal Home Loan Association. These securities may not have maturities greater than 10 years. Average maturities may not exceed five years. Board will not invest in securities of more than 24 months maturity.

3. **There shall be no investment of Board funds in**:

- State, local, or corporate notes and bonds.
- Equities (common and preferred stocks or long-term investments).
- Short-term Treasury Mutual Funds.
- Money Market Mutual Funds.

Operating Reserves

The Executive Secretary shall ensure compliance with the Board's reserve policy set forth in Appendix G.

Contract Approval

The Executive Secretary shall ensure compliance with the requirements of NRS Chapter 333, NAC Chapter 333, and Chapter 0300 of the State Administrative Manual for all contracts.

Financial Reporting

The Executive Secretary shall ensure compliance with the financial reporting requirements of NRS 218G.400.

Salary:

- 95% of the Governor's Salary

DUTIES OF THE DEPUTY EXECUTIVE SECRETARY

The Deputy Executive Secretary shall be a licensed pharmacist in this State and shall perform those duties assigned by the Executive Secretary, which may include the authority to act on behalf of the Executive Secretary when the Executive Secretary is absent from the Board offices or otherwise unavailable, including, without limitation, the authority to sign accusations on behalf of the Executive Secretary pursuant to NRS 639.241(2). The Deputy Executive Secretary may have signature authority on the Board's bank, investment, and credit accounts.

Salary:

- 95% of the Governor's Salary

BOARD VEHICLES

Investigators and Inspectors will be provided vehicles for their use whenever they are on Board business. Other Board staff and Board members are authorized to use Board vehicles for Board functions. The use of Board vehicles must comply with Chapter 1300 of the State Administrative Manual and the following:

- **Use a Board vehicle when on Board business.** If an employee will be conducting Board business on a given day or portion of a day within 15 minutes of his or her home, the employee may use his or her personal vehicle for his or her own convenience for that day or portion of a day, but such use will not be reimbursed for mileage. If an employee must use his or her personal vehicle because a Board vehicle is unavailable, the employee will be reimbursed at the standard mileage reimbursement rate authorized by the Governor's Finance Office Budget Division.
- **Leave Board vehicles at the Board office when no longer on Board business.** Occasionally an Investigator or Inspector may be asked by a Board member, the Executive Secretary, or the General Counsel to leave a Board car somewhere else, such as at a hotel or airport, in which case the Inspector or Investigator should do so.
- **Pursuant to NRS 204.080 private use of a Board vehicle is prohibited.**
- **Maintain Board vehicles.** Each Inspector or Investigator is responsible to make sure that his or her Board vehicle receives regular maintenance including oil changes (every 3,500 miles), tire rotations, tune-ups, and washings as needed, with prior authorization from the Executive Secretary. The Board will not reimburse inappropriate or unapproved expenses such as running out of fuel, running down the battery, charges for lost keys, parking citations, or traffic tickets or other moving violations.
- **Report traffic tickets.** Any employee or Board member who drives a Board-provided car must report to the Executive Secretary immediately any traffic ticket. Violation of this policy by receiving excessive traffic tickets, by receiving traffic tickets for driving behavior that endangers the employee or the public, or by failing to report a traffic ticket to the Executive Secretary immediately may result in discipline, including termination of employment.
- **Operating a Board vehicle under the influence of alcohol or drugs is prohibited.** Violation of this policy could result in discipline, including termination, regardless of whether the employee was arrested or charged with such conduct.
- **Damage to the car that did not result from an accident must be reported to the Executive Secretary or the General Counsel immediately.**

Accident Procedure

Any Board member or employee who has an accident involving a Board vehicle must follow the provisions of Chapter 2900 of the State Administrative Manual and the following procedure:

- **Remain on the scene and immediately notify the appropriate law enforcement agency, give the exact location and advise them if there are any injuries.**
- **Notify the Executive Secretary or the General Counsel immediately.** The employee must notify the Executive Secretary or the General Counsel of the extent of injuries of all parties involved and the extent of the property damage to the extent this information is available.
- **Obtain the name, address, and car license numbers of other parties and the names and addresses of witnesses, and document the accident with photos or video to the extent feasible.**
- **Complete law enforcement and risk management accident reports. DO NOT SIGN OR MAKE A STATEMENT AS TO RESPONSIBILITY.**
- **The State Accident Report (Form No. RSK-001) MUST be submitted within two working days to the Executive Secretary.** The Executive Secretary must submit the form immediately upon receipt to the Department of Administration Risk Management Division.

FINANCIAL ADMINISTRATION

Internal Accounting and Administrative Control

The Executive Secretary shall implement a system of internal accounting and administrative control for the Board subject to the following limitations:

- Incoming mail shall be logged by Board staff other than the Director of Finance or the Licensing Specialist.
- The Licensing Specialist shall review all checks and money orders for payment of licensing fees and make all deposits.
- The Board shall not accept cash payments.
- Only the Executive Secretary, Deputy Executive Secretary and General Counsel may have signature authority on the Board's bank, investment, and credit accounts.

Grants Management

The Board shall comply with the applicable Grants Management Common Rule for any federal grant funds, including, without limitation, 2 CFR Part 200.

Board Member Salary

Board Members receive a payment of $150, NRS 639.05, per each day they attend a Board Meeting.

LEGAL AND ADMINISTRATIVE ACTIONS

Defense and Indemnification

Generally, the State will defend and indemnify Board members and employees for actions taken in good faith within the scope of their statutory duties. The Board pays premiums into the State Tort Claims Fund pursuant to NRS 622.215. However, Board members and employees must comply with the requirements of NRS Chapter 41 and Chapter 2900 of the State Administrative Manual for defense and indemnification.

Service of Process

Board members and employees shall immediately notify the General Counsel and the Office of the Nevada Attorney General whenever served with a complaint in federal or state court, or a petition for judicial review, or if otherwise presented with legal documents, since service must be effected in strict compliance with FRCP 4(j)(2), NRS 41.031(2) or NRS 233B.130(2), which includes service upon the Office of the Nevada Attorney General.

Documentation of Attorney's Fees and Costs

The Board may recover reasonable attorney's fees and costs that are incurred as part of its investigative, administrative and disciplinary proceedings pursuant to NRS 622.400. In any matter that results in disciplinary action, whether by stipulated settlement or by Board order following a hearing, the Board may order reimbursement for expenses necessarily incurred in protecting the public. This may include, without limitation, time and travel costs incurred by Investigators and the Board Coordinator in the investigation of the matter, the General Counsel in the prosecution of the matter, witnesses and expert witness fees, and the Office of the Nevada Attorney General in serving as Board counsel.

The Board may also recover reasonable attorney's fees and costs that are incurred as a prevailing party in judicial actions related to the Board's enforcement authority pursuant to NRS 622.410.

The Board must document that attorney's fees and costs are both reasonable and actual; therefore, Investigators, the General Counsel and the Board Coordinator will document their time on the investigation and prosecution of any disciplinary matter, or on any litigation related to the Board's enforcement authority, using a timekeeping system approved by the General Counsel.

COMPLAINT INVESTIGATION PROCEDURES

The following procedures for the investigation of complaints should be followed by Investigators in the usual course. Deviation from the procedures may occur from time to time as situations and circumstances require, but such deviations should be approved in advance by the Executive Secretary whenever practicable.

1. **The Executive Director and General Counsel will conduct an initial review of all complaints submitted.** The review will include an initial screening consistent with the Policies & Procedures for Screening of Staff to Avoid Conflicts of Interest set forth in Appendix F. The review will also include a determination of whether the complaint is against licensee(s), whether the matter is within the Board's jurisdiction or the jurisdiction of another board, and whether the complaint states a claim. If the complaint is within the Board's jurisdiction and warrants investigation, the matter will be referred to the Board Coordinator. If the complaint appears within the jurisdiction of another board, it will be referred to the appropriate board. If the complaint does not warrant an investigation and/or fails to state a claim, the General Counsel will respond in writing as necessary.
2. **Board Coordinator logs in complaints, assigns them a number, and routes them to the appropriate Investigator.** The Board Coordinator should process the complaint within one working day of receipt.
3. **The Investigator contacts the complainant within two working days after receiving the complaint.** Unless the Investigator feels that early contact with the complainant would impair the investigation, the Investigator should make initial contact with the complainant as soon as possible.
4. **The complaint is investigated in a timely manner.** The Board staff has broad legal authority to access and inspect premises and records. Investigators should request that the Executive Secretary issue subpoenas for the production of witnesses, documents or papers to the extent necessary. As questions or tactical decisions arise, Investigators should consult the Executive Secretary or General Counsel.
5. **The Investigator submits a report to the Board Coordinator.** Investigators should prepare a detailed narrative report on the standard form. The report should attach copies or references to the evidence collected in the investigation, including written or recorded statements of witnesses. The factual assertions that form the basis for the findings and conclusions in the report and any allegations of violations of law should not be based solely on uncorroborated hearsay but must be supported by direct evidence. The report should also document the time expended by the Investigator on the case.
6. **The Investigative Committee will review the report and determine how to proceed.** The Investigative Committee will be comprised of the Executive Secretary, the General Counsel, the Board Coordinator, and, if required, the Investigator(s) involved in the investigation.

INSPECTION PROCEDURES

The Board staff has broad legal authority to access and inspect premises and records. The following inspection procedures should be followed by Inspectors in the usual course. Deviation from the procedures may occur from time to time as situations and circumstances require, but such deviations should be approved in advance by the Executive Secretary whenever practicable. Following should be the usual steps in the inspection process:

1. **The Administrative Assistant notifies the pharmacies and facilities to be inspected in the first week of the month preceding the month in which the inspection will occur.** The notification will consist of a form letter, a pre-inspection form, and a workplace assessment tool with instructions that the pharmacy would need to have the forms completed and all materials available for a random inspection one month later. (For example, the materials would be provided in the first week of January for facilities that would be inspected in February.)
2. **The Administrative Assistant notifies the Inspector of the pharmacies and facilities to be inspected one week before the inspections will occur.** On a monthly basis, the Administrative Assistant will schedule pharmacies and facilities to be inspected based upon locale and will notify the Inspectors of their upcoming inspections one week before the actual inspections are to occur. The Administrative Assistant shall also notify the General Counsel and the Las Vegas Office Manager of the weekly assignments so that questions of rescheduling or efficiency can be addressed to them.
3. **The Inspector conducts the assigned inspections unannounced.** The Inspector will visit the assigned inspections in such order as he or she deems efficient, as long as the weekly assignments are completed. The managing pharmacist is not required to be present at an inspection, nor are appointments to be made. Inspectors should minimize disruption of the pharmacy's operations by doing inspections as unobtrusively as possible. Inspectors should request the production of any records necessary to an inspection and must note all deficiencies to be addressed and corrected. Inspectors should shall immediately notify the General Counsel if the issuance of an administrative warrant is necessary.
4. **The Inspector sends the completed inspection forms to the Administrative Assistant.** The Administrative Assistant will log in the date of completion of all inspection forms.
5. **The Administrative Assistant responds appropriately to all notes on the inspection forms.** If the Inspector has noted deficiencies, the Administrative Assistant will prepare a letter for the Executive Secretary's signature to the pharmacy or facility informing the pharmacy or facility of the time within which the deficiency must be addressed and corrected. The Administrative Assistant will also log and schedule the follow-up visit (when appropriate) by putting the follow-up visit on the appropriate schedule for the Inspector.

6. **The Administrative Assistant will follow-up on deficiencies.** Where a letter has been sent regarding deficiencies and the deficiencies have not been timely addressed and corrected, the Administrative Assistant will notify the Board Coordinator of the failure to remedy the deficiencies so that the Board Coordinator can open a complaint matter against the pharmacy or facility.
7. **The Administrative Assistant will prepare reports.** The Administrative Assistant will enter the workplace assessment tool data into the Board's computer system within five business days of receipt of the reports from the Inspector. The Administrative Assistant will prepare and provide to the General Counsel at least quarterly a status report of the inspections completed by each Investigator.

ELECTION OF BOARD OFFICERS

NRS 639.040(1) requires the Board to elect a President and a Treasurer from among its members. The election of Board officers will be conducted under the following procedure:

1. The Board will hold an election for the offices of President and Treasurer at the regularly-scheduled meeting in June of even-numbered years.
2. The term of office will commence at the next Board meeting for a period of two years.
3. The outcome of the election will be determined by majority vote.
4. There will be no term limits.
5. In the event of the termination of an officer's tenure on the Board, an election will be held at the next regularly-scheduled Board meeting to fill the vacancy.

DISCIPLINARY HEARINGS

Pursuant to NRS 639.245 the Executive Secretary may continue a hearing for cause shown prior to the posting of notice of the hearing as required by NRS 241.020. Thereafter, the President may rule on a prehearing motion to continue for cause shown before the date of the hearing pursuant to NRS 622A.360(2)(a) and (4) and NRS 639.247(2).
