Fiscal 2022 Pharmaceutical segment profit was positively impacted by a $16 million judgment for lost profits related to an ordinary course intellectual property rights claim.

Medical Segment Profit

Fiscal 2022 Medical segment profit decreased largely due to net inflationary impacts (which primarily related to increased transportation and commodities costs, partially offset by price increases), the adverse impact of global supply chain constraints and the divestiture of the Cordis business. The year-over-year comparison of Medical segment profit was also impacted favorably by the prior-year inventory reserve recorded to reduce the carrying value of certain PPE, primarily certain categories of gloves, to net realizable value, and unfavorably by the prior-year net positive impact of PPE sales.

Corporate

The changes in Corporate during fiscal 2022 are due to the factors discussed in the Other Components of Consolidated Operating Earnings/(Loss) section that follows.

Other Components of Consolidated Operating Earnings/(Loss)

In addition to revenue, gross margin, and SG&A expenses discussed previously, consolidated operating earnings/(loss) were impacted by the following:

(in millions)	2022	2021
Restructuring and employee severance	$ 101	$ 114
Amortization and other acquisition-related costs	324	451
Impairments and (gain)/loss on disposal of assets, net	2,050	79
Litigation (recoveries)/charges, net	109	1,129

Restructuring and Employee Severance
In fiscal 2022, restructuring costs were primarily related to the implementation of certain enterprise-wide cost-savings measures, which includes facility exit costs related to decreasing our overall office space, and the divestiture of the Cordis business.

Amortization and Other Acquisition-Related Costs
Amortization of acquisition-related intangible assets was $311 million and $428 million for fiscal 2022 and 2021, respectively. The decrease in amortization of acquisition-related intangible assets was primarily due to the divestiture of the Cordis business.

Impairments and (Gain)/Loss on Disposal of Assets, Net
During fiscal 2022, we recognized $2.1 billion of pre-tax non-cash goodwill impairment charges related to our Medical segment, as discussed further in the "Critical Accounting Policies and Sensitive Accounting Estimates" section of this MD&A and Note 4 of the "Notes to Consolidated Financial Statements."

During fiscal 2021, we recognized a $60 million pre-tax write-down of the assets held for sale from the divestiture of the Cordis business.

Litigation (Recoveries)/Charges, Net
During fiscal 2022 and 2021, we recognized estimated losses and legal defense costs associated with the IVC filter product liability claims of $87 million and $56 million, respectively. See Note 7 of the "Notes to Consolidated Financial Statements" for additional information.

During fiscal 2022, we incurred a one-time contingent attorneys' fee of $18 million related to the finalization of the Settlement Agreement resulting in the settlement of the vast majority of opioid lawsuits filed by state and local governmental entities. Due to the unique nature and significance of the Settlement Agreement, and the one-time, contingent nature of the fee, this fee was included in litigation (recoveries)/charges, net.

During fiscal 2022 and 2021, we recognized income of $18 million and $112 million, respectively, for recoveries in class action antitrust lawsuits in which we were a class member.

During fiscal 2021, we recognized pre-tax charges of $1.17 billion associated with certain opioid matters. See Significant Developments in Fiscal 2022 and Trends section in this MD&A and Note 7 of the "Notes to Consolidated Financial Statements" for additional information.

During fiscal 2021, we recognized a $13 million charge in connection with a civil investigation by the United States Attorney's Office for the District of Massachusetts related to discounts and rebates offered or provided to certain Specialty Solutions customers, as described further in Note 7 of the "Notes to Consolidated Financial Statements" for additional information.

Other Components of Earnings/(Loss) Before Income Taxes

In addition to the items discussed above, earnings/(loss) before income taxes was impacted by the following:

(in millions)	2022	2021	Change
Other (income)/expense, net	$ 16	$ (47)	N.M.
Interest expense, net	149	180	(17)%
Loss on early extinguishment of debt	10	14	N.M.
(Gain)/Loss on sale of equity interest in naviHealth	(2)	2	N.M.

Other (Income)/Expense, Net

During fiscal 2022, other (income)/expense, net was unfavorable compared to the prior-year period primarily due to a decrease in the value of our deferred compensation plan investments, which offsets fluctuations included within SG&A expenses and is discussed further in Note 9 of the "Notes to Consolidated Financial Statements." The year-over-year comparison was also adversely impacted from net losses on investments in non-marketable equity securities recognized during fiscal 2022 compared to net gains recognized in fiscal 2021.

Interest Expense, Net
Fiscal 2022 interest expense decreased from fiscal 2021 primarily due to less debt outstanding.

Loss On Early Extinguishment of Debt
During fiscal 2022 and 2021, we recognized losses of $10 million and $14 million, respectively, in connection with the redemption and early debt repurchases as described further in Note 6 of the "Notes to Consolidated Financial Statements."

Provision for Income Taxes

Fluctuations in the effective tax rates are primarily due to the impact of the goodwill impairment charges recognized in the Medical segment in fiscal 2022, the opioid litigation accrual recognized in fiscal 2021, as well as the impact of the carryback claim filed in accordance with the CARES Act provision in fiscal year 2021.
A reconciliation of the provision based on the federal statutory income tax rate to our effective income tax rate from continuing operations is as follows (see Note 8 of the "Notes to Consolidated Financial Statements" for additional information):

	2022 [1]	2021 [1]
Provision at Federal statutory rate	21.0 %	21.0 %
State and local income taxes, net of federal benefit	2.2	3.2
Tax effect of foreign operations	3.5	0.7
Nondeductible/nontaxable items [2]	1.2	1.6
Impact of Divestitures	(4.9)	7.0
Withholding Taxes [2]	(1.1)	9.0
Change in Valuation Allowances	3.5	(1.4)
US Taxes on International Income [2][3]	3.2	(6.7)
Impact of Resolutions with IRS and other related matters [2]	(0.6)	(13.6)
Opioid litigation	(0.5)	17.7
Goodwill Impairment	(49.5)	—
Loss Carryback Claims	—	(129.9)
Other [2]	0.8	1.7
Effective income tax rate	(21.2)%	(89.7)%

(1) The table represents the following fiscal 2022 is pretax loss with tax expense and fiscal 2021 is pretax income with tax benefit.

(2) Certain prior year amounts have been reclassified to conform to current year presentation.

(3) Includes the tax impact of Global Intangible Low-Taxed Income ("GILTI") tax, the Foreign-Derived Intangible Income deduction and other foreign income that is taxable under the U.S. tax code.

Fiscal 2022 Compared to Fiscal 2021

During fiscal 2022 and 2021, the effective tax rate was (21.2) percent and (89.7) percent, respectively. Included in the effective tax rate for fiscal 2022 was $150 million of benefit related to the impairment of goodwill within the Medical segment. Included in the effective tax rate for fiscal 2021 was a $424 million benefit from the net operating loss carryback primarily related to a self-insurance pre-tax loss and net tax benefits related to the treatment of the tax impacts of the fiscal 2021 opioid litigation charges.

Tax Effects of Goodwill Impairment Charge
During fiscal 2022, we recognized year-to-date cumulative pre-tax charges of $2.1 billion for goodwill impairment related to the Medical Unit. The net tax benefit related to these charges was $150 million for fiscal 2022.

Tax Effects of Self-Insurance Pre-tax Loss

During fiscal 2021, our wholly-owned insurance subsidiary recorded a self-insurance pre-tax loss in its fiscal 2020 statutory financial statements primarily related to opioid litigation. This self-insurance pre-tax loss, which did not impact our pre-tax consolidated results, was deducted on our fiscal 2020 consolidated federal income tax return and contributed to a significant net operating loss for tax purposes. The net operating loss was carried back and applied to adjust our taxable income for fiscal 2015, 2016, 2017, and 2018 as permitted under the CARES Act enacted by the United States Congress in March 2020.

Accordingly, our provision for income taxes during fiscal 2021 included a $424 million benefit from the net operating loss carryback primarily to reflect the difference between the federal statutory income tax rate during the fiscal years from 2015 to 2018 (35 percent for fiscal 2015, 2016, and 2017 and 28 percent for fiscal 2018) and the current federal statutory income tax rate of 21 percent.

During fiscal 2022, we received a U.S. federal income tax refund of $966 million in connection with this matter. We also increased our non-current deferred tax liability by approximately $700 million during fiscal 2021 related to this matter.

Tax Effect of Opioid Litigation Charges

The net tax benefits associated with the opioid litigation charges were $228 million for fiscal 2021. Our tax benefits are estimates, which reflect our current assessment of the estimated future deductibility of the amount that may be paid under the accrual taken in connection with the opioid litigation and are net of unrecognized tax benefits of $219 million. The fiscal 2021 net tax benefit and unrecognized tax benefits were primarily due to our assessment of the specific terms of the Settlement Agreement. Our assumptions and estimates around this benefit and uncertain tax position require significant judgment and the actual amount of tax benefit may differ materially from these estimates.

Ongoing Audits

We file income tax returns in the U.S. federal jurisdiction, various U.S. state jurisdictions and various foreign jurisdictions. With few exceptions, we are subject to audit by taxing authorities for fiscal years 2015 through the current fiscal year. Tax laws are complex and subject to varying interpretations. New challenges related to future audits may adversely affect our effective tax rate or tax payments.

Maria

Thanks so much for the response. None of the states where CONMED has facilities require a license for medical device distribution or manufacture.

I did include a good standing for Delaware dated March 2022, but we will request one today and provide so that you have a more up to date certificate.

Cathy Suttmeier

Forward Looking Statements

This Annual Report on Form 10-K for the Fiscal Year Ended December 31, 2021 ("Form 10-K") contains certain forward-looking statements (as such term is defined in the Private Securities Litigation Reform Act of 1995) and information relating to CONMED Corporation ("CONMED", the "Company", "we" or "us" — references to "CONMED", the "Company", "we" or "us" shall be deemed to include our direct and indirect subsidiaries unless the context otherwise requires) which are based on the beliefs of our management, as well as assumptions made by and information currently available to our management.

When used in this Form 10-K, the words "estimate", "project", "believe", "anticipate", "intend", "expect" and similar expressions are intended to identify forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors, including those identified under the caption "Item 1A-Risk Factors" and elsewhere in this Form 10-K which may cause our actual results, performance or achievements, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, among others, the following:

- *general economic and business conditions;*
- *compliance with and changes in regulatory requirements;*
- *the COVID-19 global pandemic poses significant risks to our business, financial condition and results of operations which may be heightened as the pandemic, government and hospital responses to it, continue;*
- *the possibility that United States or foreign regulatory and/or administrative agencies may initiate enforcement actions against us or our distributors;*
- *the introduction and acceptance of new products;*
- *the risk of an information security breach, including a cybersecurity breach;*
- *competition;*
- *changes in customer preferences;*
- *changes in technology;*
- *the availability and cost of materials, including inflation and ongoing supply chain challenges;*
- *cyclical customer purchasing patterns due to budgetary, staff shortages and other constraints;*
- *environmental compliance risks, including lack of availability of sterilization with Ethylene Oxide ("EtO") or other compliance costs associated with the use of EtO;*
- *the quality of our management and business abilities and the judgment of our personnel, as well as our ability to attract, motivate, and retain employees at all levels of the Company;*
- *the availability, terms and deployment of capital;*
- *future levels of indebtedness and capital spending;*
- *changes in foreign exchange and interest rates;*
- *the ability to evaluate, finance and integrate acquired businesses, products and companies;*
- *changes in business strategy;*
- *the risk of a lack of allograft tissues due to reduced donations of such tissues or due to tissues not meeting the appropriate high standards for screening and/or processing of such tissues;*
- *the ability to defend and enforce intellectual property, including the risks related to theft or compromise of intellectual property in connection with our international operations;*
- *the risk of patent, product and other litigation as well as the cost associated with such litigation;*
- *trade protection measures, tariffs and other border taxes, and import or export licensing requirements;*
- *weather related events which may disrupt our operations; and*
- *various other factors referenced in this Form 10-K.*

See "Item 7-Management's Discussion and Analysis of Financial Condition and Results of Operations", "Item 1-Business" and "Item 1A-Risk Factors" for a further discussion of these factors. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. We do not undertake any obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date of this Form 10-K or to reflect the occurrence of unanticipated events.

General

CONMED Corporation was incorporated under the laws of the State of New York in 1970 and became a Delaware corporation in May 2020. CONMED is a medical technology company that provides devices and equipment for surgical procedures. The Company's products are used by surgeons and other healthcare professionals in a variety of specialties including orthopedics, general surgery, gynecology, thoracic surgery and gastroenterology. The Company's 3,800 employees distribute its products worldwide from three primary manufacturing locations. In January 2021, we changed the designation of our headquarters from Utica, New York to Largo, Florida.

We have historically used strategic business acquisitions, internal product development and distribution relationships to diversify our product offerings, increase our market share in certain product lines, realize economies of scale and take advantage of growth opportunities in the healthcare field.

We are committed to offering products with the highest standards of quality, technological excellence and customer service. Substantially all of our facilities have attained certification under the ISO international quality standards and other domestic and international quality accreditations.

Our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports are accessible free of charge through the Investor Relations section of our website (http://www.conmed.com) as soon as practicable after such materials have been electronically filed with, or furnished to, the United States Securities and Exchange Commission (the "SEC"). In addition, the SEC maintains an Internet site (http:/www.sec.gov) containing reports, proxy and information statements and other information regarding issuers that file with the SEC.

COVID-19

Our business continues to be impacted by the COVID-19 pandemic as variants of the virus emerge, with hospitals and surgery centers reducing the number of, or postponing, non-urgent surgical procedures in order to minimize the risk of infection and allow for proper staffing. We continue to restrict access to our facilities while maintaining production and distribution. While revenues increased in 2021 compared to 2020, we believe we will continue to experience market variability as a result of the pandemic that could influence sales, suppliers, patients and customers. There remains significant uncertainty related to the COVID-19 pandemic, including the duration and severity of future impacts to the business. See additional discussion under Item 1A Risk Factors and Item 7 – Management's Discussion and Analysis of Financial Condition and Results of Operations, Liquidity and Capital Resources.

Business Strategy

CONMED's vision is to empower healthcare providers worldwide to deliver exceptional outcomes for patients through the following initiatives:

- **Introduction of New Products and Product Enhancements.** We pursue organic growth through developing new products and enhancing existing products. We seek to develop new technologies which improve the durability, performance and usability of existing products. In addition to our internal research and development efforts, we receive new ideas for products and technologies, particularly in procedure-specific areas, from surgeons, inventors and other healthcare professionals.

- **Pursue Strategic Acquisitions.** We pursue strategic acquisitions, distribution and similar arrangements in existing and new growth markets to achieve increased operating efficiencies, geographic diversification and market penetration. Targeted companies have historically included those with proven technologies and established brand names which provide potential sales, marketing and manufacturing synergies. This includes the February 11, 2019 acquisition of Buffalo Filter.

- **Realize Manufacturing and Operating Efficiencies.** We continually review our production systems for opportunities to reduce operating costs, consolidate product lines or process flows, reduce inventory and optimize existing processes.

•**Geographic Diversification.** We believe that significant growth opportunities exist for our surgical products outside the United States. Principal international markets for our products include Europe, Latin America, Canada and the Asia/Pacific Rim.

•**Active Participation in the Medical Community.** We believe that excellent working relationships with physicians and others in the medical industry enable us to gain an understanding of trends and emerging opportunities. Active participation allows us to quickly respond to the changing needs of physicians and patients. In addition, we are an active sponsor of medical education both in the United States and internationally, offering training on new and innovative surgical techniques as well as other medical education programs on the use of our products.

Products

The following table sets forth the percentage of net sales for each of our product lines during each of the three years ended December 31:

	Year Ended Decem	
	2021	**2020**
Orthopedic surgery	43 %	4
General surgery	57	5
Consolidated net sales	100 %	10
Net sales (in thousands)	$ 1,010,635	$ 862,45

Orthopedic Surgery

We provide products that support sports medicine, the repair of soft tissue in the knee, hip, shoulder and increasingly in the upper and lower extremities. In these procedures, we offer products such as TruShot® with Y-Knot® All-In-One Soft Tissue Fixation System, Y-knot® All-Suture Anchors, and PopLok® Knotless Suture Anchors which provide unique clinical solutions to orthopedic surgeons for the repair of soft tissue injuries. In addition to the implants, we offer the supporting products that enable surgeons to perform minimally invasive sports medicine surgeries. These products include powered resection instruments as well as fluid management and visualization systems and the related disposables which are marketed under a number of brands, including CONMED Linvatec®, Concept® and Shutt®. In sports medicine, we compete with Smith & Nephew, plc; Arthrex, Inc.; Stryker Corporation; Johnson & Johnson: DePuy Mitek, Inc. and Zimmer Biomet, Inc.

We also provide our customers with a comprehensive line of battery-powered, autoclavable, large and small bone power tool systems for use in orthopedic, arthroscopic, oral/maxillofacial, podiatric, spinal and cardiothoracic surgeries. These products are marketed under the Hall® surgical brand name, a pioneer in power surgical tools in the United States. In powered instruments, our competition includes Stryker Corporation; Medtronic plc; Johnson & Johnson: DePuy Synthes, Inc.; and Zimmer Biomet, Inc.

In 2021, approximately 71% of orthopedic surgery revenue came from single-use products that are expected to be recurring.

General Surgery

Our general surgery product line offers a large range of products in the areas of advanced surgical and advanced endoscopic technologies.

Our advanced surgical product offering includes the leading clinical insufflation system (AirSeal®). AirSeal® includes the proprietary valveless access ports that deliver significant benefits to traditional minimally invasive surgery and robotic surgical procedures. The Buffalo Filter acquisition complemented the CONMED portfolio of smoke removal devices, which provides the Company with the broadest portfolio of disposable and capital smoke evacuation products available in the medical device market today. In addition to AirSeal® and the Buffalo Filter® products, the Company manufactures and sells an extensive energy line and a broad offering of endomechanical products. The electrosurgical offering consists of monopolar and bipolar generators, argon beam coagulation generators, handpieces, smoke management systems and other accessories. Our endomechanical products offer a full line of instruments, including the Anchor[1] line of tissue retrieval bags, trocars, suction irrigation devices, graspers, scissors and dissectors, used in minimally invasive surgery. Our competition includes Medtronic

[1]Anchor is a trademark of the Anchor Products Company, Addison, Illinois.

plc; Johnson & Johnson: Ethicon Endo-Surgery, Inc.; Stryker Endoscopy, Olympus, ERBE Elektromedizin GmbH; and Applied Medical Resources Corporation.

Our advanced endoscopic technologies offering includes a comprehensive line of therapeutic and diagnostic products used in gastroenterology procedures which utilize flexible endoscopes, as well as patient monitoring products. In addition to these offerings, we offer a unique energy platform specifically designed for gastroenterology and pulmonology procedures. Devices include products for dilatation, hemostasis, biliary structure management, infection prevention and patient monitoring. Patient monitoring includes ECG electrodes, EEG electrodes and cardiac defibrillation pads. Our competition includes Boston Scientific Corporation - Endoscopy; Cook Medical, Inc.; Merit Medical Endotek; Olympus, Inc.; STERIS Corporation - U.S. Endoscopy and Cantel Medical- Medivators, Inc., Cardinal and 3M Company.

In 2021, approximately 89% of general surgery revenue came from single-use products that are expected to be recurring.

International

Expanding our international presence is an important component of our long-term growth plan. Our products are sold in over 100 foreign countries. International sales efforts are coordinated through local country dealers (including sub-distributors or sales agents) or through direct in-country sales. We distribute our products through sales subsidiaries and branches with offices located in Australia, Austria, Belgium, Brazil, Canada, China, Denmark, Finland, France, Germany, Italy, Japan, Korea, the Netherlands, Poland, Spain, Sweden and the United Kingdom. In these countries, our sales are denominated in the local currency and amounted to approximately 34% of our total net sales in 2021. In the remaining countries where our products are sold through independent distributors, sales are denominated in United States dollars.

Competition

We compete in orthopedic and general surgery medical device markets across the world. Our competitors range from large manufacturers with multiple business units to smaller manufacturers with limited product offerings. We believe we have appropriate product offerings and adequate market share to compete effectively in these markets. The global markets are constantly changing due to technological advances. We seek to closely align our research and development with our key business objectives, namely developing and improving products and processes, applying innovative technology to the manufacture of products for new global markets and reducing the cost of producing core products.

The breadth of our product lines in our key product areas enables us to meet a wide range of customer requirements and preferences. This has enhanced our ability to market our products to surgeons, hospitals, surgery centers, group purchasing organizations ("GPOs"), integrated delivery networks ("IDNs") and other customers, particularly as institutions seek to reduce costs and minimize the number of suppliers.

Marketing

A significant portion of our products are distributed domestically directly to more than 6,000 hospitals, surgery centers and other healthcare institutions as well as through medical specialty distributors. We are not dependent on any single customer and no single customer accounted for more than 10% of our net sales in 2021, 2020 and 2019.

A significant portion of our U.S. sales are to customers affiliated with GPOs, IDNs and other large national or regional accounts, as well as to the Veterans Administration and other hospitals operated by the Federal government. For hospital inventory management purposes, some of our customers prefer to purchase our products through independent third-party medical product distributors.

Our employee sales representatives are extensively trained in our various product offerings. Each employee sales representative is assigned a defined geographic area and compensated on a commission basis or through a combination of salary and commission. The sales force is supervised and supported by either area directors or district managers. In certain geographies, sales agent groups are used in the United States to sell our orthopedic products. These sales agent groups are paid a commission for sales made to customers while home office sales and marketing management provide the overall direction and training for marketing and positioning of our products. Our sales professionals provide surgeons and other healthcare professionals with information relating to the technical features and benefits of our products.

Our healthcare systems organization is responsible for interacting with large regional and national accounts (e.g. GPOs, IDNs, etc.). We have contracts with many such organizations and believe that the loss of any individual group purchasing contract would not materially impact our business.

We sell to a diversified base of customers around the world and, therefore, believe there is no material concentration of credit risk.

Manufacturing

Raw material costs constitute a substantial portion of our cost of production. Substantially all of our raw materials and select components used in the manufacturing process are procured from external suppliers. Where possible, we work closely with multiple suppliers to ensure continuity of supply while maintaining high quality and reliability. As a consequence of supply chain best practices, new product development and acquisitions, we often form strategic partnerships with key suppliers. As a result, components and raw materials may be sole sourced. We continuously seek to manage our supply chain to mitigate supply disruptions that may pose an overall material adverse effect on our financial and operational performance. We seek to schedule production and maintain adequate levels of safety stock based on a number of factors, including experience, knowledge of customer ordering patterns, demand, manufacturing lead times and optimal quantities required to maintain the highest possible service levels. Customer orders are generally processed for immediate shipment and backlog of firm orders is therefore not generally material to an understanding of our business.

Research and Development

New and improved products play a critical role in our continued sales growth. Internal research and development efforts focus on the development of new products and technological and design improvements. We maintain close working relationships with surgeons, inventors and other healthcare professionals who often suggest to us new product and technology ideas, principally in procedure-specific areas. In certain cases, we seek to obtain rights to these ideas through negotiated agreements. Such agreements typically compensate the originator through payments based upon a percentage of licensed product net sales. Annual royalty expense approximated $2.0 million, $1.5 million and $2.0 million in 2021, 2020 and 2019, respectively.

Amounts expended for Company research and development were approximately $43.6 million, $40.5 million and $45.5 million during 2021, 2020 and 2019, respectively.

Intellectual Property

Patents and other proprietary rights, in general, are important to our business. We have rights to intellectual property, including United States patents and foreign equivalent patents which cover a wide range of our products with expiration dates from 2022 to 2040. We own a majority of these patents and have exclusive and non-exclusive licensing rights to the remainder. We believe that the development of new products and technological and design improvements to existing products will continue to be important to our competitive position.

Government Regulation and Quality Systems

The development, manufacture, sale and distribution of our products are subject to regulation by numerous agencies and legislative bodies, including the U.S. Food and Drug Administration ("FDA") and comparable foreign counterparts. In the United States, these regulations were enacted under the Medical Device Amendments of 1976 to the Federal Food, Drug and Cosmetic Act and its subsequent amendments, and the regulations issued or proposed thereunder.

The FDA's Quality System Regulations set forth requirements for our product design and manufacturing processes, require the maintenance of certain records, provide for on-site inspection of our facilities and continuing review by the FDA. Many of our products are also subject to industry-defined standards. Authorization to commercially market our products in the U.S. is granted by the FDA under a procedure referred to as a 510(k) pre-market notification and clearance or Premarket Approval ("PMA"). We believe that our products and processes presently meet applicable standards in all material respects.

Medical device regulations continue to evolve world-wide. Products marketed in the European Union and other countries require preparation of technical files and design dossiers which demonstrate compliance with applicable international regulations. As government regulations continue to change, there is a risk that the distribution of some of our products may be interrupted or discontinued if they do not meet the country specific requirements.

We market our products in numerous foreign countries and therefore are subject to regulations affecting, among other things, product standards, sterilization, packaging requirements, labeling requirements, import laws and on-site inspection by independent bodies with the authority to issue or not issue certifications we may require to be able to sell products in certain countries. Many of the regulations applicable to our devices and products in these countries are similar to those of the FDA. The member countries of the European Union ("EU") follow the requirements under the EU Medical Device Regulation ("EU MDR") which replaced a single set of regulations in May 2017 for all member countries. EU MDR imposes stricter requirements for the marketing and sale of medical devices, including in the areas of clinical evaluation requirements, quality systems, labeling and post-market surveillance with an effective date of May 2021. During the transition period, medical devices with notified body

certificates issued under the EU MDD prior to May 2021 may continue to be placed on the market for the earlier of the remaining validity of the certificate or May 2024. These regulations require companies that wish to manufacture and distribute medical devices in the European Union to maintain quality system certifications through European Union recognized Notified Bodies. These Notified Bodies authorize the use of the CE Mark allowing free movement of our products throughout the member countries. Requirements pertaining to our products vary widely from country to country, ranging from simple product registrations to detailed submissions such as those required by the FDA. We believe that our products and quality procedures currently meet applicable standards for the countries in which they are marketed.

As noted above, our facilities are subject to periodic inspection by the United States Food and Drug Administration ("FDA") and foreign regulatory agencies or notified bodies for, among other things, conformance to Quality System Regulation and Current Good Manufacturing Practice ("CGMP") requirements and foreign or international standards. Refer to Note 13 for further discussion.

We are also subject to various environmental health and safety laws and regulations both in the United States and internationally, as are our suppliers and sterilization service providers. Our operations involve the use of substances regulated under environmental laws, primarily in manufacturing and sterilization processes. We believe our policies, practices and procedures are properly designed to comply, in all material respects, with applicable environmental laws and regulations. We do not expect internal compliance with these requirements to have a material effect on purchases of property, plant and equipment, cash flows, net income or our competitive position. Refer to Item 1A, Risk Factors, for further discussion of the use of outside EtO sterilization service providers.

CONMED Workforce Overview

One of CONMED's core values is our belief in the power of engaged talent. As of December 31, 2021, we had approximately 3,800 full-time employees, including approximately 2,400 in operations and the remaining in sales, marketing, research and development and administration.

We know that our people are our most important assets and crucial to our ability to deliver on our mission. Accordingly, the success and growth of our business depends in large part on our ability to attract, engage and develop a diverse population of talented employees at all levels of our organization.

Talent Management and Succession Planning

All levels of Company management are engaged in talent management practices. The Board reviews the Company's people strategy in support of its business strategy at least annually and frequently discusses talent opportunities, including a detailed discussion of the Company's global leadership talent and succession plans with a focus on key positions at the senior executive level. High-potential leaders are given exposure and visibility to Board members through formal presentations and informal events. More broadly, the Board is regularly updated on key talent indicators for the overall workforce, including diversity, recruitment and development programs.

Competitive Pay and Benefits

Our compensation programs are designed to align the compensation of our employees with CONMED's performance and to provide the proper incentives to attract, retain and motivate employees to achieve positive results. The structure of our compensation programs balances incentive earnings for both short-term and long-term performance. Our compensation programs are evaluated regularly not only for market competitiveness but as importantly for equality and fairness.

Diversity and Inclusion

A demonstrated commitment to diversity and inclusion is vital to CONMED's success as we seek out individuals who bring their unique capabilities to our Company. We believe that diverse teams stimulate innovation, enhance our understanding of the needs of our global customer base and ultimately deliver better results for our stakeholders. We value individual strengths and are committed to hiring and retaining employees of all different backgrounds and experiences. Tracking representation of diversity in our workforce helps us to understand where our opportunities exist. These metrics are reviewed on a regular basis at the senior executive level. We also recognize that representation of diversity in the workforce is not enough to have the impact desired, so we encourage inclusion and belonging in addition to representation.

Development

Development at CONMED comes in many forms to serve the diverse interests and needs of our global workforce and to support our culture and strategy by ensuring the development of key skills. Development offerings include company-wide and job-specific in person and e-learning training, as well management and leadership training and coaching. Additionally, we offer tuition reimbursement programs to support ongoing education at all levels. Employees are encouraged to partner with their manager and HR representative to create an individual plan to guide their own learning and development path that incorporates CONMED development and training resources and opportunities.

Employee Engagement

Measuring our team members' engagement helps us understand what is working well and where we have opportunities to improve. CONMED utilizes an annual anonymous employee engagement survey both to measure engagement across the organization, and to provide a basis for the individual team action planning session. Survey results are reviewed both at the individual manager level and corporate wide at the senior executive level to continuously drive and support employee engagement. Managers at all levels are provided with training and coaching resources to act on insights gained through surveys and feedback sessions in partnership with their team members.

Item 1A. Risk Factors

An investment in our securities, including our common stock, involves a high degree of risk. Investors should carefully consider the specific factors set forth below as well as the other information included or incorporated by reference in this Form 10-K. See "Forward Looking Statements".

(i) Risks Related to Our Business and the Medical Device Industry

Our financial performance is dependent on conditions in the healthcare industry and the broader economy.

The results of our business are directly tied to the economic conditions in the healthcare industry and the broader economy as a whole. We will continue to monitor and manage the impact of the overall economic environment on the Company.

In this regard, approximately 19% of our revenues are derived from the sale of capital products. The sales of such products may be negatively impacted if hospitals and other healthcare providers are unable to secure the financing necessary to purchase these products or otherwise defer purchases.

The COVID-19 global pandemic may pose significant risks to our business if the pandemic, and various responses to it, continue for an extended period of time.

The actions undertaken to reduce or respond to the spread of the virus, including its variants, have created and may continue to create significant disruptions with respect to the demand for non-urgent surgeries in hospitals and surgery centers and hospital and ambulatory surgery center operating volumes.

As of the date of this report:

1.In some geographies or territories, our field-based sales representatives are limited in their ability to travel to service or call on customers, with in-person visits in many cases dependent on requests by physicians to cover surgeries, the policies of individual hospitals, surgery centers or other institutions, and the availability of appropriate personal protective equipment, testing or vaccines;

2.Our office-based employees continue to work remotely,

3.Our manufacturing facilities and warehouses continue to operate with precautions, including increased hygiene and cleaning within facilities, social distancing and personal protective equipment.

4.Some hospitals have delayed certain procedures to reserve space for COVID patients, or have experienced slowdowns due to staffing shortages.

As such, the COVID-19 pandemic has directly and indirectly adversely impacted the Company's business, financial condition and operating results. The extent to which this will continue will depend on numerous evolving factors that are highly uncertain, rapidly changing and cannot be predicted with precision or certainty at this time, including:

•the duration and scope of the COVID-19 pandemic, including any resurgence of new strains, as well as the effectiveness of vaccines, and the extent to which they are administered;

•governmental, business and individual actions that have been, continue to be, or may in the future be taken in response to the COVID-19 pandemic including, for example, business and travel restrictions, quarantines, and slowdowns or delays of commercial activity;

•the effect of the COVID-19 pandemic on our partners and customers, including their conduct of surgeries, continued purchase of our products, or their decision to do so consistently at normal procedure volumes;

•the effect of the COVID-19 pandemic and the various responses thereto on the budgets and staffing of our partners and customers;

•our ability during the COVID-19 pandemic to continue operations in an efficient manner, as a result of periodic variations in demand and/or availability of raw materials from our suppliers;

•periodic reductions in demand for certain surgeries or for certain of our products;

•the effect of the COVID-19 pandemic on our supply chain's reliability and costs;

•costs incurred as a result of actions intended to protect the health and safety of our employees and continued operations, including enhanced cleaning processes and protocols designed to implement appropriate social distancing practices;

•our ability to comply with the financial covenants in our debt agreements if a material economic downturn as a result of the COVID-19 pandemic results in substantially increased indebtedness and/or lower earnings; and

•the exacerbation of negative impacts resulting from the COVID-19 pandemic.

We continue to monitor our spending and expenses in light of the uncertainty concerning forecasting demand, and consequently revenues. While the results of operations support continued recovery, there remains uncertainty in the financial markets related to the COVID-19 pandemic which may have an impact on the demand for post-pandemic surgery levels that are difficult to predict. If the downturn is more severe and prolonged than we currently expect, we may need to take further steps to reduce our costs, or to refinance our debt.

Limitations on the availability of Ethylene Oxide ("EtO") sterilization services may limit our ability to sell certain sterile products.

Approximately 32% of our products when measured in terms of revenues, are sterilized by third-party sterilizers using ethylene oxide, a chemical which, when present or used in high levels or concentrations, has raised some environmental concerns in some areas within the United States, with the result that some EtO sterilization facilities have closed, or are threatened with closure, either temporarily or permanently, in connection with government enforcement actions or enhanced regulations prompted by environmental concerns. We have been able to secure EtO sterilization services to date, and do not currently expect sterilization availability to have a material impact on our business. If, however, there are further restrictions on capacity or further government actions adverse to EtO sterilization, it is possible that we could be impacted materially in the future.

As a manufacturer of medical devices that interacts with physicians and health care providers domestically and internationally, we face risks under domestic and foreign regulations, including the Foreign Corrupt Practices Act.

Manufacturers of medical devices have been the subject of various investigations or enforcement actions relating to interactions with health care providers domestically or internationally. The interactions with domestic health care providers are subject to regulations, known as the Anti-Kickback Statute, the Stark Act and the False Claims Act, that generally govern incentives for health care providers, or methods of reimbursement funded in whole or in part by the government. Similarly, the Foreign Corrupt Practices Act ("FCPA"), and similar foreign laws, prohibit certain conduct by manufacturers, generally described as bribery, with respect to interactions, either directly through foreign subsidiaries or indirectly through distributors, with health care providers who may be considered government officials because they are affiliated with public hospitals. The FCPA also imposes obligations on manufacturers listed on U.S. stock exchanges to maintain accurate books and records, and maintain internal accounting controls sufficient to provide assurance that transactions are accurately recorded, lawful and in accordance with management's authorization. The FCPA can pose unique challenges for manufacturers who operate in foreign cultures where conduct prohibited by the FCPA may not be viewed as illegal in local jurisdictions, and because, in some cases, a United States manufacturer may face risks under the FCPA based on the conduct of third parties over whom the manufacturer may not have complete control.

In this regard, from time to time, the Company may receive an information request or subpoena from a government agency, such as the Securities and Exchange Commission, Department of Justice, Equal Employment Opportunity Commission, the Occupational Safety and Health Administration, the United States Food and Drug Administration, the Department of Labor, the Treasury Department or other federal and state agencies or foreign governments or government agencies. Alternatively, employees or private parties may provide us with reports of alleged misconduct. These information requests or subpoenas may or may not be routine inquiries, or may begin as informal or routine inquiries and over time develop into investigations or enforcement actions of various types under the FCPA or otherwise. Similarly, the employee and third party reports may prompt us to conduct internal investigations into the alleged misconduct. As a medical device company, CONMED's operations and interactions with government

hospitals, healthcare professionals and purchasers may be subject to various federal and state regulations, including the federal False Claims Act, which provides, in part, that the federal government may bring a lawsuit against any person or entity that it believes has knowingly presented, or caused to be presented, a false or fraudulent request for payment to the government, or has made or used, or caused to be made or used, a false statement or false record material to a false claim. In addition, in certain circumstances, private parties may bring so-called Qui Tam claims as plaintiffs purportedly on behalf of the government asserting claims arising under the False Claims Act. A violation of the False Claims Act may result in fines up to $11,000 for each false claim, plus up to three times the amount of damages sustained by the government, and may also provide the basis for the imposition of administrative penalties and exclusion from participation in federal healthcare programs. Many states have enacted false claims acts that are similar to the federal False Claims Act. No inquiry or claim that the Company currently faces or has faced to date, and no report of misconduct that the Company has received to date, has had a material adverse effect on our financial condition, results of operations or cash flows. There can be no assurance, however, that any pending inquiries will not become investigations or enforcement actions, or the costs associated with responding to such inquiries, investigations, enforcement actions or investigations relating to reports of misconduct will not have a material adverse effect on our financial condition, results of operations or cash flows.

Failure to comply with regulatory requirements may result in recalls, loss of revenues, fines or materially adverse implications.

Substantially all of our products are classified as class II medical devices subject to regulation by numerous agencies and legislative bodies, including the U.S. Food and Drug Administration ("FDA") and comparable international counterparts. As a manufacturer of medical devices, our manufacturing processes and facilities are subject to on-site inspection and continuing review by the FDA for compliance with the Quality System Regulations. We may have future inspections at our sites and there can be no assurance that the costs of responding to such inspections will not be material.

Manufacturing and sales of our products outside the United States are also subject to international regulatory requirements which vary from country to country. Moreover, we are generally required to obtain regulatory clearance or approval prior to marketing a new product. The time required to obtain approvals from foreign countries may be longer or shorter than that required for FDA clearance, and requirements for such approvals may differ from FDA requirements. Failure to comply with applicable domestic and/or foreign regulatory requirements may result in:

- fines or other enforcement actions;
- recall or seizure of products;
- total or partial suspension of production;
- loss of certification;

- withdrawal of existing product approvals or clearances;
- refusal to approve or clear new applications or notices;
- increased quality control costs; or
- criminal prosecution.

In addition to the Quality System Regulations, many of our products are also subject to industry-defined standards. We may not be able to comply with these regulations and standards due to deficiencies in component parts or our manufacturing processes. If we are not able to comply with the Quality System Regulations or industry-defined standards, we may not be able to fill customer orders and we may decide to cease production or sale of non-compliant products. Failure to produce products could affect our revenues, profit margins and could lead to loss of customers.

Our products are subject to product recall and we have conducted product recalls in the past. Although no recall has had a material adverse effect on our business or financial condition, we cannot be certain that regulatory issues will not have a material adverse effect on our business, financial condition or results of operations in the future or that product recalls will not harm our reputation and our customer relationships.

The highly competitive market for our products may create adverse pricing pressures.

The market for our products is highly competitive and our customers have alternative suppliers. Many of our competitors offer a range of products in areas other than those in which we compete, which may make such competitors more attractive to surgeons, hospitals, group purchasing organizations and others. In addition, many of our competitors are large, technically competent firms with substantial assets. Competitive pricing pressures or the introduction of new products by our competitors could have an adverse effect on our revenues. See "Products" in Item 1 - Business for a further discussion of these competitive forces.

Factors which may influence our customers' choice of competitor products include:

•changes in surgeon preferences;
•increases or decreases in healthcare spending related to medical devices;
•our inability to supply products to them as a result of product recall, market withdrawal or back-order;
•the introduction by competitors of new products or new features to existing products;
•the introduction by competitors of alternative surgical technology; and
•advances in surgical procedures, discoveries or developments in the healthcare industry.

Cost reduction efforts in the healthcare industry could put pressures on our prices and margins.

In recent years, the healthcare industry has undergone significant change driven by various efforts to reduce costs. Such efforts include national healthcare reform, trends towards managed care, cuts in Medicare reimbursement for procedures, consolidation of healthcare distribution companies and collective purchasing arrangements by GPOs and IDNs. Demand and prices for our products may be adversely affected by such trends.

We use a variety of raw materials in our businesses, and significant shortages, inflation or price increases could increase our operating costs and adversely impact the competitive positions of our products.

Our reliance on certain suppliers and commodity markets to secure raw materials used in our products exposes us to volatility in the prices and availability of raw materials. In some instances, we participate in commodity markets that may be subject to allocations by suppliers. A disruption in deliveries from our suppliers, price increases or decreased availability of raw materials or commodities could have an adverse effect on our ability to meet our commitments to customers or increase our operating efficiencies and/or costs. The increases in costs or availability of raw materials may be exacerbated as a result of the COVID-19 pandemic and ongoing global supply chain challenges. In addition, increased inflation in wages and materials may also increase our costs. We believe that our supply management practices are based on an appropriate balancing of the foreseeable risks and the costs of alternative practices. Nonetheless, price increases or the unavailability of some raw materials may have an adverse effect on our results of operations or financial condition.

We may not be able to keep pace with technological change or to successfully develop new products with wide market acceptance, which could cause us to lose business to competitors.

The market for our products is characterized by rapidly changing technology. Our future financial performance will depend in part on our ability to develop and manufacture new products on a cost-effective basis, to introduce them to the market on a timely basis and to have them accepted by surgeons and other healthcare professionals.

We may not be able to keep pace with technology or to develop viable new products. In addition, many of our competitors are substantially larger with greater financial resources which may allow them to more rapidly develop

new products. Factors which may result in delays of new product introductions or cancellation of our plans to manufacture and market new products include:

•research and development delays;
•capital and other financial constraints;
•delays in securing regulatory approvals; and
•changes in the competitive landscape, including the emergence of alternative products or solutions which reduce or eliminate the markets for pending products.

Ordering patterns of our customers may change resulting in reductions in sales.

Our hospital and surgery center customers purchase our products in quantities sufficient to meet their anticipated demand. Likewise, our healthcare distributor customers purchase our products for ultimate resale to healthcare providers in quantities sufficient to meet the anticipated requirements of the distributors' customers. Hospitals and customers may experience reduced demand if they reserve space for COVID patients or in response to staff shortages. Should inventories of our products owned by our hospital, surgery center and distributor customers grow to levels higher than their requirements, our customers may reduce the ordering of products from us. This could result in reduced sales.

(ii) Risks Related to Our Indebtedness

The terms of our indebtedness outstanding from time to time, including our senior credit agreement, may restrict our current and future operations, particularly our ability to respond to changes or to take certain actions.

The senior credit agreement contains, and future credit facilities are expected to contain, a number of restrictive covenants that impose significant operating and financial restrictions on us and may limit our ability to respond to changes in our business or competitive activities, or to otherwise engage in acts that may be in our long-term best interest, including restrictions on our ability to:

•incur indebtedness;
•allow for liens to be placed on our assets;
•make investments;
•engage in transactions with affiliates;
•make certain restricted payments;
•enter into certain restrictive agreements;
•enter into certain swap agreements;
•change our line of business;
•pay dividends or make other distributions on, or redeem or repurchase, capital stock;
•consolidate, merge or sell all or substantially all of our assets;
•prepay and/or modify the terms of certain indebtedness; and
•pursue acquisitions.

These covenants, unless waived, may prevent us from pursuing and/or securing acquisitions, significantly limit our operating and financial flexibility and limit our ability to respond to changes in our business or competitive activities. Our ability to comply with such provisions may be affected by events beyond our control. In the event of any default under our credit agreement, the credit agreement lenders may elect to declare all amounts borrowed under our credit agreement, together with accrued interest, to be due and payable. If we were unable to repay such borrowings, the credit agreement lenders could proceed against collateral securing the credit agreement which consists of substantially all of our property and assets. Our credit agreement also contains a material adverse effect clause which may limit our ability to access additional funding under our credit agreement should a material adverse change in our business occur.

We may not be able to generate sufficient cash to service our indebtedness, and, our leverage and debt service requirements may require us to adopt alternative business strategies.

As of December 31, 2021, we had $712.6 million of debt outstanding, representing 47% of total capitalization. We may not have sufficient cash flow available to enable us to meet our obligations. If we are unable to service our indebtedness, we will be forced to adopt an alternative strategy that may include actions such as foregoing acquisitions, reducing or delaying capital expenditures, selling assets, restructuring or refinancing our indebtedness or seeking additional equity capital. We cannot be certain that any of these strategies could be implemented on terms acceptable to us, if at all. See "Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources" and Note 7.

The degree to which we are leveraged could have important consequences to investors, including but not limited to the following:

- a portion of our cash flow from operations must be dedicated to debt service and will not be available for operations, capital expenditures, acquisitions, dividends and other purposes;
- our ability to obtain additional financing in the future for working capital, capital expenditures, acquisitions or general corporate purposes may be limited or impaired or may be at higher interest rates;
- we may be at a competitive disadvantage when compared to competitors that are less leveraged;
- we may be hindered in our ability to adjust rapidly to market conditions;
- our degree of leverage could make us more vulnerable in the event of a downturn in general economic conditions or other adverse circumstances applicable to us; and
- our interest expense could increase if interest rates in general increase because a portion of our borrowings, including our borrowings under our credit agreement, are and will continue to be at variable rates of interest.

Our variable rate indebtedness subjects us to interest rate risk, which could cause our debt service obligations to increase significantly.

Borrowings under our senior credit agreement are at variable rates of interest and expose us to interest rate risk. If interest rates were to increase, our debt service obligations on the variable rate indebtedness would increase even though the amount borrowed remained the same, and our net income and cash flows, including cash available for servicing our indebtedness, will correspondingly decrease. In the future, we may enter into interest rate swaps that involve the exchange of floating for fixed rate interest payments in order to reduce interest rate volatility. However, we may not maintain interest rate swaps with respect to all of our variable rate indebtedness, and any swaps we enter into may not fully mitigate our interest rate risk.

Our interest rates may be impacted by the phase out of LIBOR.

LIBOR, the London Interbank Offered Rate, is the basic rate of interest used in lending transactions between banks on the London interbank market and is widely used as a reference for setting the interest rate on loans globally. Certain of the interest rates applicable to our seventh amended and restated senior credit agreement are calculated using LIBOR. On July 27, 2017, the United Kingdom's Financial Conduct Authority, which regulates LIBOR, announced that it intends to phase out LIBOR. It is currently anticipated that LIBOR will be completely phased out by June 30, 2023. A reference rate based on the Secured Overnight Financing Rate, or another alternative benchmark rate, is expected to be established to replace LIBOR. While our seventh amended and restated credit agreement includes provisions for establishing alternative reference rates in the event that LIBOR is no longer available or the determination is made to adopt an alternative reference rate, any such alternative reference rate could be higher and more volatile than LIBOR or may otherwise perform differently than LIBOR. The consequences of the adoption of any such alternative reference rates cannot be predicted at this time and may result in exposure to additional interest rate risk and increase the cost of indebtedness under our seventh amended and restated credit agreement.

Despite our current level of indebtedness, we and our subsidiaries may still be able to incur substantially more debt. This could further exacerbate the risks to our financial condition described above.

We may incur substantial additional indebtedness, including secured indebtedness. As of December 31, 2021, we have $442.5 million of availability under the senior credit agreement. If we incur secured indebtedness and such secured indebtedness is either accelerated or becomes subject to a bankruptcy, liquidation or reorganization, our assets would be used to satisfy obligations with respect to the indebtedness secured thereby before any payment could be made on the debt that is not similarly secured. If new debt or other liabilities are added to our current debt levels, the related risks that we now face could intensify. Our senior credit agreement restricts our ability to incur additional indebtedness, including secured indebtedness, but if the facilities mature or are repaid, we may not be subject to such restrictions under the terms of any subsequent indebtedness.

The conditional conversion features of our 2.625% Convertible Notes due 2024 (the "Convertible Notes"), if triggered, may adversely affect our financial condition.

In the event the conditional conversion features of the Convertible Notes issued on January 29, 2019 are triggered, holders of the Convertible Notes will be entitled to convert the Convertible Notes at any time during specified periods at their option. If one or more holders elect to convert their Convertible Notes, unless we elect to satisfy our conversion obligation by delivering solely shares of our common stock, we would be required to make cash payments to satisfy all or a portion of our conversion obligation based on the conversion rate, which could adversely affect our liquidity. In addition, even if holders do not elect to convert their Convertible Notes, we could be required under applicable accounting rules to reclassify all or a portion of the outstanding principal of the Convertible Notes as a current rather than long-term liability, which could result in a material reduction of our net working capital. Refer to Note 7 for further details on the Convertible Notes.

The convertible notes hedge and warrant transactions that we entered into in connection with the offering of the Convertible Notes may affect the value of the Convertible Notes and our common stock.

In connection with the offering of the Convertible Notes, we entered into convertible notes hedge transactions with certain option counterparties (each an "Option Counterparty"). The convertible notes hedge transactions are expected generally to reduce the potential dilution upon conversion of the Convertible Notes and/or offset any cash payments we are required to make in excess of the principal amount of converted Convertible Notes, as the case may be. We also entered into warrant transactions with each Option Counterparty. The warrant transactions could separately have a dilutive effect on our common stock to the extent that the market price per share of our common stock exceeds the strike price of the warrants, unless we elect to settle the warrants in cash. In connection with establishing its initial hedge of the convertible notes hedge and warrant transactions, each Option Counterparty or an affiliate thereof may have entered into various derivative transactions with respect to our common stock concurrently with or shortly after the pricing of the Convertible Notes. This activity could increase (or reduce the size of any decrease in) the market price of our common stock or the Convertible Notes at that time. In addition, each Option Counterparty or an affiliate thereof may modify its hedge position by entering into or unwinding various derivatives with respect to our common stock and/or purchasing or selling our common stock or other securities of ours in secondary market transactions prior to the maturity of the Convertible Notes (and is likely to do so during any observation period related to a conversion of the Convertible Notes). This activity could also cause or avoid an increase or a decrease in the market price of our common stock or the Convertible Notes. In addition, if any such convertible notes hedge and warrant transactions fail to become effective, each Option Counterparty may unwind its hedge position with respect to our common stock, which could adversely affect the value of our common stock and the value of the Convertible Notes.

We are subject to counterparty risk with respect to the convertible notes hedge transactions.

Each Option Counterparty to the convertible notes hedge transactions is a financial institution whose obligation to perform under the convertible notes hedge transaction will not be secured by any collateral. If an Option Counterparty becomes subject to insolvency proceedings, we will become an unsecured creditor in those proceedings with a claim equal to our exposure at that time under our transactions with the Option Counterparty. Our exposure will generally

correlate to the increase in the market price and in the volatility of our common stock. In addition, upon a default by an Option Counterparty, we may suffer adverse tax consequences and more dilution than we currently anticipate with respect to our common stock. Although these counterparties are large, reputable U.S. financial institutions, we can provide no assurances as to the financial stability or viability of any Option Counterparty.

(iii) Risks Related to Our Acquisition Strategy

Our financial performance is subject to the risks inherent in any acquisition, including the effects of increased borrowing and integration of newly acquired businesses or product lines.

A key element of our business strategy has been to expand through acquisitions and we may seek to pursue additional acquisitions in the future. Our success in pursuing acquisitions depends on our ability to identify target companies or product lines that are available for sale, and, negotiating successful terms with the sellers, as the sellers may also be negotiating with other bidders with greater financial resources than we have. Even when we win a bid, our success is also dependent in part upon our ability to integrate acquired companies or product lines into our existing operations. We may not have sufficient management and other resources to accomplish the integration of our past and future acquisitions, which may strain our relationship with customers, suppliers, distributors, personnel or others. There can be no assurance that we will be able to identify and make acquisitions, or that we will be able to obtain financing for such acquisitions, on acceptable terms. In addition, while we are generally entitled to customary indemnification from sellers of businesses or coverage from representation and warranty insurance for any difficulties that may have arisen prior to our acquisition of each business,

---

acquisitions may involve exposure to unknown liabilities and the amount and time for claiming under these indemnification provisions is often limited. As a result, our financial performance is now, and will continue to be, subject to various risks associated with the acquisition of businesses, including the financial effects associated with any increased borrowing required to fund such acquisitions or with the integration of such businesses.

The terms of any future preferred equity or debt financing may give holders of any preferred securities or debt securities rights that are senior to rights of our common shareholders or impose more stringent operating restrictions on our company.

Debt or equity financing may not be available to us on acceptable terms. If we incur additional debt or raise equity through the issuance of preferred stock or convertible securities, the terms of the debt or the preferred stock issued may give the holders rights, preferences and privileges senior to those of holders of our common stock, particularly in the event of liquidation. The terms of the debt may also impose additional and more stringent restrictions on our operations. If we raise funds through the issuance of additional equity, the ownership percentage of our existing shareholders would be diluted.

(iv) Other Risks Related to Our Business

We could experience a failure of a key information technology system, process or site or a breach of information security, including a cybersecurity breach or failure of one or more key information technology systems, networks, processes, associated sites or service providers, and could potentially become liable for a breach of various data privacy regulations.

We rely extensively on information technology ("IT") systems for the storage, processing, and transmission of our electronic, business-related, information assets used in or necessary to conduct business. We leverage our internal IT infrastructures, and those of our business partners or other third parties, to enable, sustain, and support our global business activities. In addition, we rely on networks and services, including internet sites, data hosting and processing facilities and tools and other hardware, software and technical applications and platforms, some of which are managed, hosted, provided and/or used by third-parties or their vendors, to assist in conducting our business. The data we store

and process may include customer payment information, personal information concerning our employees, confidential financial information, and other types of sensitive business-related information. In limited instances, we may also come into possession of information related to patients of our physician customers. Numerous and evolving cybersecurity threats pose potential risks to the security of our IT systems, networks and services, as well as the confidentiality, availability and integrity of our data. In addition, the laws and regulations governing security of data on IT systems and otherwise collected, processed, stored, transmitted, disclosed and disposed of by companies are evolving, adding another layer of complexity in the form of new requirements. We have made, and continue to make investments, seeking to address these threats, including monitoring of networks and systems, hiring of third party service providers with expertise in cybersecurity, employee training and security policies for employees and third-party providers. The techniques used in these attacks change frequently and may be difficult to detect for periods of time and difficult to anticipate by implementing adequate preventative measures.

Our worldwide operations mean that we are subject to laws and regulations, including data protection and cybersecurity laws and regulations, in many jurisdictions. For example, the European Union ("EU") General Data Protection Regulation ("GDPR") requires us to manage personal data in the EU and may impose fines of up to four percent of our global revenue in the event of certain violations. Likewise, the California Consumer Privacy Act imposes obligations on companies that conduct business in California, and meet other requirements, with respect to the collection or sale of specified personal information. Other jurisdictions are also implementing or proposing a variety of data privacy laws and regulations. Further, there has been a developing trend of civil lawsuits and class actions relating to breaches of consumer data held by large companies or incidents arising from other cyber-attacks. Any data security breaches, cyber-attacks, malicious intrusions or significant disruptions could result in actions by regulatory bodies and/or civil litigation, any of which could materially and adversely affect our business, results of operations, financial condition, cash flows, reputation or competitive position.

The costs of attempting to protect IT systems and data may increase, and there can be no assurance that these added security efforts will prevent all breaches of our IT systems or thefts of our data. If our IT systems are damaged or cease to function properly, the networks or service providers we rely upon fail to function properly, we fail to comply with an applicable law or regulation, such as the GDPR, or we or one of our third-party providers suffer a loss or disclosure of our business or stakeholder information due to any number of causes ranging from catastrophic events or power outages to improper data handling or security breaches and our business continuity plans do not effectively address these failures on a timely basis, we may be exposed to potential disruption in operations, loss of customers, reputational, competitive and business harm, and significant costs from remediation, litigation and regulatory actions.

We rely on a third party to obtain, process and distribute sports medicine allograft tissue. If such tissue cannot be obtained, is not accepted by the market or is not accepted under numerous government regulations, our results of operations could be negatively impacted.

A portion of our orthopedic revenues relate to our share of the service fees from the Musculoskeletal Transplant Foundation ("MTF") allograft tissues for which we have exclusive worldwide sales representation, marketing and promotion rights, as further described in our revenue recognition policy in Note 1. Our primary costs related to these revenues come from our commission expense and certain marketing costs. Our ability to increase the service fees may be constrained by certain factors which are outside of our control, such as the limited supply of donors and donated tissue that meets the quality standards of MTF. Similarly, under the terms of the agreement, MTF remains responsible for tissue procurement and processing, shipment of tissues and invoicing of service fees to customers. To the extent MTF's performance does not meet customer expectations or otherwise fails, CONMED may be unable to increase the allograft service fees or to find a suitable replacement for MTF on terms that are acceptable.

The FDA and several states have statutory authority to regulate allograft processing and allograft-based materials. The FDA could identify deficiencies in future inspections of MTF or MTF's suppliers or promulgate future regulatory rulings that could disrupt our business, reducing profitability.

We distribute some products for third-party companies, and cannot ensure that our rights to distribute such third-party products will continue indefinitely.

While we generally own the products' designs and rights to the products we sell, in some cases we distribute products for third-parties. While these third-parties may have business reasons for contracting with us to distribute their products, we may face the risk that the third-parties may seek alternate distribution partners when their distribution contracts with us expire or are scheduled for renewal. If we lose the distribution rights to such products, we may not be able to find replacement products that are acceptable to our customers, or to us.

If we lose our patents or they are held to be invalid, or if our products or services infringe on third party patents, we could become subject to liability and our competitive position could be harmed.

Much of the technology used in the markets in which we compete is covered by patents. We have numerous U.S. patents and corresponding international patents on products expiring at various dates from 2022 through 2040 and have additional patent applications pending. See Item 1 Business "Research and Development" and "Intellectual Property" for a further description of our patents. The loss of our patents could reduce the value of the related products and any related competitive advantage. Competitors may also be able to design around our patents and to compete effectively with our products. In addition, the cost of enforcing our patents against third parties and defending our products against patent infringement actions by others could be substantial, and we may not prevail.

While we seek to take reasonable steps to avoid infringing on patents we do not own or license, we cannot be sure that our services and products do not infringe on the intellectual property rights of third parties, and we may have infringement claims asserted against us. These claims could cost us money, prevent us from offering some services or products, or damage our reputation. We cannot be certain that:

- pending patent applications will result in issued patents;
- patents issued to or licensed by us will not be challenged by competitors;
- our patents will be found to be valid or sufficiently broad to protect our technology or provide us with a competitive advantage; or
- we will be successful in defending against pending or future patent infringement claims asserted against our products.

We may be sued for product liability claims and our insurance coverage may be insufficient to cover the nature and amount of any product liability claims.

Even if our products are properly designed and perform as intended, we may be sued. The nature of our products as medical devices, and the litigious environment, should be regarded as potential risks which could significantly and adversely affect our financial condition and results of operations. The insurance we maintain to protect against claims associated with the use of our products has deductibles and may not adequately cover the amount or nature of any claim asserted against us. We are also exposed to the risk that our insurers may become insolvent or that premiums may increase substantially. See "Item 3 - Legal Proceedings" for a further discussion of the risk of product liability actions and our insurance coverage.

License Information

Fee Reduction

Pursuant to 2017 Wisconsin Act 319, beginning August 1, 2018, an applicant for an initial credential may apply for a reduction of the initial credential fee that is equal to 10% of the initial fee. Qualification is based on the federal adjusted gross income being at or below 180% of the federal poverty guideline prescribed for the applicant's family household size by the United States Department of Health and Human Services. To determine eligibility please visit the United States Department of Health and Human Services website at https://aspe.hhs.gov/poverty-guidelines, prior to submitting Form 3217.

Per Wisconsin State Statutes 440.08 (2), the required renewal date for the Wholesale Distributor of Prescription Drugs credential is 05/31/even years. Should you receive your initial credential in the months leading up to this date, you are still required to renew your license by the statutorily defined date.

Requirements for Licensure

- A distributor's license authorizes a facility to sell prescription drugs or devices to pharmacists, pharmacies, researchers, hospitals, authorized agents of the federal government and other distributors. A distributor's license does not authorize a facility to dispense prescription drugs directly to patients pursuant to a prescriber's prescription order. Dispensing directly to patients under a prescription order requires a pharmacy license.
- Out-of-state or in-state wholesale distributors of prescription drugs are required to obtain a distributor's license in Wisconsin for each facility from which the prescription drugs are distributed.
- Submit Wholesale Distributor of Prescription Drugs Application (see below), including required documentation and fee(s).

Application Process

- A designated representative must be identified on the application.
- All designated representatives must be fingerprinted as described in the application materials.
- All distributors are required to submit a surety bond (Form #2819) or irrevocable letter of credit (Form #2824) with the application in the amount of $5,000.
- Meet Inspection Requirements (see below).
- Distributors must comply with any applicable federal track and trace pedigree system.
- Register with the Drug Enforcement Administration (if applicable).
- Determination to grant credential.

Prescription Medical Device Distributors

No longer need a wholesale distributor of prescription drug license to ship medical device products into Wisconsin. Print this web page for your records verifying no license is needed.

Prescription Medical Device or Drug Manufacturers

- Need to hold a WI Drug or Device Manufacturer license only if your facility is physically located in the state of WI. Print this web page for your records verifying no license is needed.
- No longer need to hold the Wholesale Distributor of Prescription Drug license. Print this web page for your records verifying no license is needed.
- Manufacturers must maintain a list of distributors of record and update the list monthly.

Inspection Requirements

- Whole sale distributors are advised that they must have an inspection completed before the application is filed.
- An approved inspection must be completed and passed within three years prior to the application date.

Approved Inspections Include:

- National Association of Boards of Pharmacy (NABP) Drug Distributor Accreditation (DDA). Go to: http://www.nabp.net or call the NABP at (847) 391-4406.
- Inspections completed by another State Board of Pharmacy.
- Inspections completed by the Wisconsin Department of Safety and Professional Services (for facilities physically located in Wisconsin only).
- For wholesale distributors of prescription drugs physically located in Wisconsin, inspection requests of the Department of Safety and Professional Services should be submitted as soon as possible to allow time to plan for an inspection.

CERTIFICATE OF LIABILITY INSURANCE

DATE(MM/DD/YYYY) 05/25/2022

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. THIS CERTIFICATE OF INSURANCE DOES NOT CONSTITUTE A CONTRACT BETWEEN THE ISSUING INSURER(S), AUTHORIZED REPRESENTATIVE OR PRODUCER, AND THE CERTIFICATE HOLDER.

IMPORTANT: If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must have ADDITIONAL INSURED provisions or be endorsed. If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).

PART I

ITEM 1. Business

General

Henry Schein, Inc. is a solutions company for health care professionals powered by a network of people and technology. We believe we are the world's largest provider of health care products and services primarily to office-based dental and medical practitioners, as well as alternate sites of care. Our philosophy is grounded in our commitment to help customers operate a more efficient and successful business so the practitioner can provide better clinical care.

With more than 89 years of experience distributing health care products, we have built a vast set of small, mid-sized and large customers in the dental and medical markets, serving more than one million customers worldwide across dental practices, laboratories, physician practices, and ambulatory surgery centers, as well as government, institutional health care clinics and other alternate care clinics.

We are headquartered in Melville, New York, employ more than 21,600 people (of which approximately 10,700 are based outside the United States) and have operations or affiliates in 32 countries and territories. Our broad global footprint has evolved over time through our organic success as well as through contribution from strategic acquisitions.

We offer a comprehensive selection of more than 120,000 branded products and Henry Schein private brand products in stock, as well as more than 180,000 additional products available as special-order items. Our infrastructure, including over 3.8 million square feet of space in 27 strategically located distribution centers around the world, enables us to historically provide rapid and accurate order fulfillment, better serve our customers and increase our operating efficiency. This infrastructure, together with broad product and service offerings at competitive prices, and a strong commitment to customer service, enables us to be a single source of supply for our customers' needs.

We conduct our business through two reportable segments: (i) health care distribution and (ii) technology and value-added services. These segments offer different products and services to the same customer base. Our dental businesses serve office-based dental practitioners, dental laboratories, schools, government and other institutions. Our medical businesses serve physician offices, urgent care centers, ambulatory care sites, emergency medical technicians, dialysis centers, home health, federal and state governments and large enterprises, such as group practices and integrated delivery networks, among other providers across a wide range of specialties.

The health care distribution reportable segment, combining our global dental and medical businesses, distributes consumable products, dental specialty products, small equipment, laboratory products, large equipment, equipment repair services, branded and generic pharmaceuticals, vaccines, surgical products, diagnostic tests, infection-control products and vitamins. While our primary go-to-market strategy is in our capacity as a distributor, we also market and sell under our own private label portfolio of cost-effective, high-quality consumable merchandise products, and manufacture certain dental specialty products in the areas of implants, orthodontics and endodontics.

The technology and value-added services reportable segment provides software, technology and other value-added services to health care practitioners. Henry Schein One, the largest contributor of sales to this category, offers dental practice management solutions for dental and medical practitioners. In addition, we offer dentists and physicians a broad suite of electronic health records, integrated revenue cycle management, patient communication services including electronic marketing and web-site design, analytics and patient demand generation. Finally, our value-added practice solutions include practice consultancy, education, and the facilitation of financial service offerings (on a non-recourse basis) to help dentists and physicians operate and expand their business operations. We believe our hands-on consultative approach to provide solutions to support practice decision-making is a key differentiator for our business.

Recent Developments

See "Management's Discussion and Analysis of Financial Condition and Results of Operations – Recent Developments" herein for a discussion related to the COVID-19 pandemic and recent corporate transactions.

Industry

The global health care distribution industry, as it relates to office-based health care practitioners, is fragmented and diverse. The industry ranges from sole practitioners working out of relatively small offices to mid-sized and large group practices ranging in size from a few practitioners to several hundred practices owned or operated by dental support organizations (DSOs), medical group purchasing organizations (GPOs), hospital systems or integrated delivery networks (IDNs).

Due in part to the inability of office-based health care practitioners to store and manage large quantities of supplies in their offices, the distribution of health care supplies and small equipment to office-based health care practitioners has been characterized by frequent, small quantity orders, and a need for rapid, reliable and substantially complete order fulfillment. The purchasing decisions within an office-based health care practice are typically made by the practitioner, hygienist or office manager. Supplies and small equipment are generally purchased from more than one distributor, with one generally serving as the primary supplier.

The health care distribution industry continues to experience growth due to demand driven by the aging population, increased health care awareness and the importance of preventative care, an increasing understanding of the connection between good oral health and overall health, improved access to care globally, the proliferation of medical technology and testing, new pharmacology treatments and expanded third-party insurance coverage, partially offset by the effects of unemployment on insurance coverage and technological improvements, including the advancement of software and services, prosthetic solutions and telemedicine. In addition, the non-acute market continues to benefit from the shift of procedures and diagnostic testing from acute care settings to alternate-care sites, particularly physicians' offices and ambulatory surgery centers.

We believe that consolidation within the industry will continue to result in a number of distributors, particularly those with limited financial, operating and marketing resources, seeking to combine with larger companies that can provide growth opportunities. This consolidation also may continue to result in distributors seeking to acquire companies that can enhance their current product and service offerings or provide opportunities to serve a broader customer base.

In addition, customer consolidation will likely lead to multiple locations under common management and the movement of more procedures from the hospital setting to the physician or alternate care setting as the health care industry is increasingly focused on efficiency and cost containment. This trend has benefited distributors capable of providing a broad array of products and services at low prices. It also has accelerated the growth of health maintenance organizations ("HMOs"), group practices, other managed care accounts and collective buying groups, which, in addition to their emphasis on obtaining products at competitive prices, tend to favor distributors capable of providing specialized management information support. We believe that the trend towards cost containment has the potential to favorably affect demand for technology solutions, including software, which can enhance the efficiency and facilitation of practice management.

Competition

The distribution and manufacture of health care supplies and equipment is highly competitive. Many of the health care products we sell are available to our customers from a number of suppliers. In addition, our competitors could obtain exclusive rights from manufacturers to market particular products. Manufacturers also could seek to sell directly to end-users, and thereby eliminate or reduce our role and that of other distributors. In certain parts of the dental end market, such as those related to dental specialty products, and medical end market manufacturers already sell directly to end customers.

In North America, we compete with other distributors, as well as several manufacturers, of dental and medical products, primarily on the basis of price, breadth of product line, e-commerce capabilities, customer service and

value-added products and services. In the dental market, our primary competitors in the U.S. are the Patterson Dental division of Patterson Companies, Inc. and Benco Dental Supply Company. In addition, we compete against a number of other distributors that operate on a national, regional and local level. Our primary competitors in the U.S. medical market, which accounts for the large majority of our global medical sales, are McKesson Corporation and Medline Industries, Inc., which are national distributors. We also compete with a number of regional and local medical distributors, as well as a number of manufacturers that sell directly to physicians. With regard to our dental software, we compete against numerous companies, including the Patterson Dental division of Patterson Companies, Inc., Carestream Health, Inc., Open Dental Software, Inc., PlanetDDS LLC, Good Methods Global Inc. (d.b.a. CareStack) and Curve Dental, LLC. In other software end markets, including revenue cycle management, patient relationship management and patient demand generation, we compete with companies such as Vyne Therapeutics Inc., EDI-Health Group, Inc. (d.b.a. Dental X Change, Inc.), Weave Communications, Inc., Solutionreach, Inc., ZocDoc, Inc., LocalMed Inc. and Prosites Inc. The medical practice management and electronic medical records market is fragmented and we compete with numerous companies such as the NextGen division of Quality Systems, Inc., eClinicalWorks, Allscripts Healthcare Solutions, Inc. and Epic Systems Corporation.

Outside of the U.S., we believe we are the only global distributor of supplies and equipment to dental practices and our competitors are primarily local and regional companies. We also face significant competition internationally, where we compete on the basis of price and customer service against several large competitors, including the GACD Group, Proclinic SA, Lifco AB, Planmeca Oy and Billericay Dental Supply Co. Ltd., as well as a large number of other dental and medical product distributors and manufacturers in international countries and territories we serve.

Competitive Strengths

We have more than 89 years of experience in distributing products to health care practitioners resulting in strong awareness of the Henry Schein® brand. Our competitive strengths include:

A focus on meeting our customers' unique needs. We are committed to providing customized solutions to our customers that are driven by our understanding of the end markets we serve and reflect the technology-driven products and services best suited for their practice needs. We are committed to continuing to enhance these offerings through organic investment in our products and our teams, as well as through the acquisition of new products and services that may help us better serve our customers.

Direct sales and marketing expertise. Our sales and marketing efforts are designed to establish and solidify customer relationships through personal or virtual visits by field sales representatives, frequent direct marketing and telesales contact, emphasizing our broad product lines, including exclusive distribution agreements, competitive prices and ease of order placement, particularly through our e-commerce platforms. The key elements of our direct sales and marketing efforts are:

- *Field sales consultants.* We have over 3,450 field sales consultants, including equipment sales specialists, covering major North American, European and other international markets. These consultants complement our direct marketing and telesales efforts and enable us to better market, service and support the sale of more sophisticated products and equipment.

- *Marketing.* During 2021, we marketed to existing and prospective office-based health care providers through a combination of owned, earned and paid digital channels, as well as through catalogs, flyers, direct mail and other promotional materials. Our strategies included an emphasis on educational content through webinars and content marketing initiatives. We continue to enhance our marketing technology to improve our targeting capability and the relevance of messaging and offers.

- *Telesales.* We support our direct marketing effort with approximately 2,100 inbound and outbound telesales representatives, who facilitate order processing, generate new sales through direct and frequent contact with customers and stay abreast of market developments and the hundreds of new products, services and technologies introduced each year to educate practice personnel.

- *Electronic commerce solutions.* We provide our customers and sales teams with innovative and competitive e-commerce solutions. We continue to invest in our e-commerce platform to offer enhanced content management so customers can more easily find the products they need and to enable an engaging purchase experience, supported by excellent customer service.

- *Social media.* Our operating entities and employees engage our customers and supplier partners through various social media platforms, which are an important element of our communications and marketing efforts. We continue to expand our social media presence to raise awareness about issues, engage customers beyond a sale and deliver services and solutions to specialized audiences.

Broad product and service offerings at competitive prices. We offer a broad range of products and services to our customers, at competitive prices, in the following categories:

- *Consumable supplies and equipment.* We distribute consumable products, small equipment, laboratory products, large equipment, equipment repair services, branded and generic pharmaceuticals, vaccines, dental specialty products, diagnostic tests, infection-control products and vitamins. We offer over 120,000 Stock Keeping Units, or SKUs, to our customers. We offer over 180,000 additional SKUs to our customers in the form of special order items. We also market and sell our own private label portfolio of cost-effective, high-quality consumable merchandise products and manufacture certain dental specialty products in the areas of implants, orthodontics and endodontics.

- *Technology and other value-added products and services.* We sell practice management, business analytics, patient engagement and patient demand creation software solutions to our dental customers. Our practice management solutions provide practitioners with electronic medical records, patient treatment history, analytics, billing, accounts receivable analyses and management, appointment calendars, electronic claims processing and word processing programs, network and hardware services, e-commerce and electronic marketing services, sourcing third party patient payment plans, transition services and training and education programs for practitioners. We also sell medical software for practice management, certified electronic health records ("EHR") and e-Prescribe medications and prescription solutions through MicroMD®. We have approximately 950 technical representatives supporting customers using our practice management solutions and services. As of December 25, 2021, we had an active user base of approximately 95,700 practices and 400,000 consumers, including users of AxiUm, Dentally®, Dentrix Ascend®, Dental Vision®, Dentrix® Dental Systems, Dentrix® Enterprise, Easy Dental®, EndoVision®, Evolution® and EXACT®, Gesden®, Jarvis Analytics™, Julie® Software, Oasis, OMSVision®, Orisline®, PBS Endo®, PerioVision®, Power Practice® Px, PowerDent, and Viive® and subscriptions for Demandforce®, Sesame, and Lighthouse360® for dental practices and DentalPlans.com® for dental patients; and MicroMD® for physician practices.

- *Repair services.* We have over 140 equipment sales and service centers worldwide that provide a variety of repair, installation and technical services for our health care customers. Our over 2,175 technicians provide installation and repair services for: dental handpieces; dental and medical small equipment; table-top sterilizers and large dental equipment.

- *Financial services.* We offer our customers solutions in operating their practices more efficiently by providing access to a number of financial services and products provided by third party suppliers (including non-recourse financing for equipment, technology and software products, non-recourse practice financing for leasehold improvements, business debt consolidation and commercial real estate, non-recourse patient financing and credit card processing) at rates that we believe are generally lower than what our customers would be able to secure independently. We also provide staffing services, dental practice valuation and brokerage services.

Commitment to superior customer service. We maintain a strong commitment to providing superior customer service. We frequently monitor our customer service through customer surveys, focus groups and statistical reports. Our customer service policy primarily focuses on:

- *Exceptional order fulfillment.* We ship an average of approximately 156,000 cartons daily. Historically, approximately 99% of items have been shipped without back ordering and were shipped on the same business day the order is received. Due to the significant increase in demand for personal protective equipment ("PPE"), as a result of COVID-19, during the year ended December 25, 2021, approximately 96% of items ordered were shipped without back ordering. As the demand for PPE stabilizes, we expect our percentage of items shipped without back-ordering and shipped on the same day to return to historical levels.

- *Comprehensive ordering process.* Customers may place orders 24 hours a day, 7 days a week via e-commerce solutions, telephone, fax, e-mail and mail.

Integrated management information systems. Our information systems generally allow for centralized management of key functions, including accounts receivable, inventory, accounts payable, payroll, purchasing, sales, order fulfillment and financial and operational reporting. These systems allow us to manage our growth, deliver superior customer service, properly target customers, manage financial performance and monitor daily operational statistics.

Cost-effective purchasing. We believe that cost-effective purchasing is a key element to maintaining and enhancing our position as a competitively priced provider of health care products. We continuously evaluate our purchase requirements and suppliers' offerings and prices in order to obtain products at the lowest possible cost. In 2021, our top 10 health care distribution suppliers and our single largest supplier accounted for approximately 30% and 4%, respectively, of our aggregate purchases.

Efficient distribution. We distribute our products from our strategically located distribution centers. We strive to maintain optimal inventory levels in order to satisfy customer demand for prompt delivery and complete order fulfillment. These inventory levels are managed on a daily basis with the aid of our management information systems. Once an order is entered, it is electronically transmitted to the distribution center nearest the customer's location for order fulfillment.

Products and Services

The following table sets forth the percentage of consolidated net sales by principal categories of products and services offered through our health care distribution and technology and value-added services reportable segments:

	December 25, 2021	December 26, 2020	December 28, 2019
Health care distribution:			
Dental products [1]	60.8%	58.4%	64.2%
Medical products [2]	34.0	35.8	29.8
Total health care distribution	94.8	94.2	94.0
Technology and value-added services:			
Software and related products and other value-added products [3]	5.2	5.1	5.2
Total excluding Corporate TSA revenues	100.0	99.3	99.2
Corporate TSA revenues [4]	-	0.7	0.8
Total	100.0	100.0	100.0

(1) Includes infection-control products, handpieces, preventatives, impression materials, composites, anesthetics, teeth, dental implants, gypsum, acrylics, articulators, abrasives, dental chairs, delivery units and lights, X-ray supplies and equipment, PPE, equipment repair and high-tech and digital restoration equipment.

(2) Includes branded and generic pharmaceuticals, vaccines, surgical products, diagnostic tests, infection-control products, X-ray products, equipment, PPE and vitamins.

(3) Consists of practice management software and other value-added products, which are distributed primarily to health care providers, and financial services on a non-recourse basis, e-services, continuing education services for practitioners, consulting and other services.

(4) Corporate TSA revenues represents sales of certain products to Covetrus under the transition services agreement entered into in connection with the Animal Health Spin-off, which ended in December 2020. See Note-23 Related Party Transactions for further information.

Business Strategy

Our objective is to continue to expand as a global value-added provider of health care products and services to office-based dental and medical practitioners by increasing their efficiency and success. To accomplish this, we apply our competitive strengths in executing the following strategies:

- *Increase penetration of our existing customer base.* We have over 1 million customers worldwide and we intend to increase sales to our existing customer base and enhance our position as their primary supplier. We believe our offering of a broad range of products, services and support, including software solutions that can help drive improved workflow efficiency and patient communications for practices, coupled with our full-service value proposition, helps us to retain and grow our customer base.

- *Increase the number of customers we serve.* This strategy includes increasing the productivity of our field sales consultants and telesales team, as well as using our customer database to focus our marketing efforts in all of our operating segments. In the dental business, we provide products and services to independent practices, mid-market groups, and large DSOs as well as community health centers and government sites of care. Leveraging our broad array of assets and capabilities, we offer solutions to address these new markets. In the medical business, we have expanded to serve customers located in settings outside of the traditional office, such as urgent care clinics, retail, occupational health and home health settings. As settings of health care shift, we remain committed to serving these practitioners and providing them with the products and services they need.

- *Leverage our value-added products and services.* We continue to increase cross-selling efforts for key product lines utilizing a consultative selling process. In the dental business, we have significant cross-selling opportunities between our dental software users and our dental distribution customers. In the medical business, we have opportunities to expand our vaccine, injectables and other pharmaceuticals sales to health care practitioners, as well as cross-selling EHR systems and software when we sell our core products. Our strategy extends to providing health systems, integrated delivery networks and other large group and multi-site health care organizations, including physician clinics, these same value added products and services. As physicians and health systems closely align, we have increased access to opportunities for cross-marketing and selling our product and service portfolios.

- *Pursue strategic acquisitions and joint ventures.* Our acquisition strategy is focused on investments in companies that add new customers and sales teams, increase our geographic footprint (whether entering a new country, such as emerging markets, or building scale where we have already invested in businesses), and finally, those that enable us to access new products and technologies.

Markets Served

Demographic trends indicate that our markets are growing, as an aging U.S. population is increasingly using health care services. According to the U.S. Census Bureau's International Database, between 2021 and 2031, the 45 and older population is expected to grow by approximately 11%. Between 2021 and 2041, this age group is expected to grow by approximately 22%. This compares with expected total U.S. population growth rates of approximately 7% between 2021 and 2031 and approximately 12% between 2021 and 2041.

In the dental industry, there is predicted to be a rise in oral health care expenditures as the 45-and-older segment of the population increases. There is increasing demand for new technologies that allow dentists to increase productivity, and this is being driven in the U.S. by lower insurance reimbursement rates. At the same time, there is an expected increase in dental insurance coverage.

In the medical market, there continues to be a migration of procedures from acute-care settings to physicians' offices and home health settings, a trend that we believe provides additional opportunities for us. There also is the continuing use of vaccines, injectables and other pharmaceuticals in alternate-care settings. We believe we have established a leading position as a vaccine supplier to the office-based physician practitioner.

We support our dental and medical professionals through the many SKUs that we offer, as well as through important value-added services, including practice management software, electronic claims processing, financial services and continuing education, all designed to help maximize a practitioner's efficiency.

Additionally, we seek to expand our dental full-service model and medical offerings in countries where opportunities exist. We do this through both direct sales and by partnering with local distribution companies.

For information on revenues and long-lived assets by geographic area, see Note 3 – Segment and Geographic Data of "Notes to Consolidated Financial Statements."

Seasonality and Other Factors Affecting Our Business and Quarterly Results

We experience fluctuations in quarterly earnings. As a result, we may fail to meet or exceed the expectations of securities analysts and investors, which could cause our stock price to decline.

Our business is subject to seasonal and other quarterly fluctuations. Sales and profitability generally have been higher in the third and fourth quarters due to the timing of sales of seasonal products (including influenza vaccine) purchasing patterns of office-based health care practitioners for certain products (including equipment and software) and year-end promotions. Sales and profitability may also be impacted by the timing of certain annual and biennial dental tradeshows where equipment promotions are offered. In addition, some dental practices delay equipment purchases in the U.S. until year-end due to tax incentives. We expect our historical seasonality of sales to continue in the foreseeable future.

Governmental Regulations

We strive to be compliant with the applicable laws, regulations and guidance described below, and believe we have effective compliance programs and other controls in place to ensure substantial compliance. However, compliance is not guaranteed either now or in the future, as certain laws, regulations and guidance may be subject to varying and evolving interpretations that could affect our ability to comply, as well as future changes, additions and enforcement approaches, including political changes. President Biden's administration (the "Biden Administration") has indicated that it will be more aggressive in its pursuit of alleged violations of law, and it has revoked certain guidance that would have limited governmental use of informal agency guidance to pursue potential violations, as well as that it was more prepared to pursue individuals for corporate law violations, including an aggressive approach to anti-corruption activities. Changes to applicable laws, regulations and guidance described below, as well as related administrative or judicial interpretations, may require us to update or revise our operations, services, marketing practices and compliance programs and controls, and may impose additional and unforeseen costs on us, pose new or previously immaterial risks to us, or may otherwise have a material adverse effect on our business.

Government

Certain of our businesses involve the distribution, importation, exportation, marketing and sale of, and third party payment for, pharmaceuticals and medical devices, and in this regard, we are subject to extensive local, state, federal and foreign governmental laws and regulations, including as applicable to our wholesale distribution of pharmaceuticals and medical devices, and as part of our specialty home medical supply business that distributes and sells medical equipment and supplies directly to patients. The federal government and state governments have also increased enforcement activity in the health care sector, particularly in areas of fraud and abuse, anti-bribery and corruption, controlled substances handling, medical device regulations and data privacy and security standards.

Government and private insurance programs fund a large portion of the total cost of medical care, and there have been efforts to limit such private and government insurance programs, including efforts, thus far unsuccessful, to seek repeal of the entire United States Patient Protection and Affordable Care Act, as amended by the Health Care and Education Reconciliation Act, each enacted in March 2010, (as amended, the "ACA"). In addition, activities to control medical costs, including laws and regulations lowering reimbursement rates for pharmaceuticals, medical devices and/or medical treatments or services, are ongoing. Many of these laws and regulations are subject to change and their evolving implementation may impact our operations and our financial performance.

Our businesses are also generally subject to numerous other laws and regulations that could impact our financial performance, including securities, antitrust, consumer protection, anti-bribery and anti-kickback, customer interaction transparency, data privacy, data security, government contracting, price gouging and other laws and regulations.

Failure to comply with laws, rules or regulations could have a material adverse effect on our business.

Operating, Security and Licensure Standards

Certain of our businesses are subject to local, state and federal governmental laws and regulations relating to the distribution of pharmaceuticals and medical devices and supplies. Among the United States federal laws applicable to us are the Controlled Substances Act, the Federal Food, Drug, and Cosmetic Act, as amended ("FDC Act"), and Section 361 of the Public Health Service Act, as well as laws regulating the billing of and reimbursement from government programs, such as Medicare and Medicaid, and from commercial payers. We are also subject to comparable foreign regulations.

The FDC Act, the Controlled Substances Act, their implementing regulations, and similar foreign laws generally regulate the introduction, manufacture, advertising, marketing and promotion, sampling, pricing and reimbursement, labeling, packaging, storage, handling, returning or recalling, reporting, and distribution of, and record keeping for, pharmaceuticals and medical devices shipped in interstate commerce, and states may similarly regulate such activities within the state. Furthermore, Section 361 of the Public Health Service Act, which provides authority to prevent the introduction, transmission or spread of communicable diseases, serves as the legal basis for the United States Food and Drug Administration's ("FDA") regulation of human cells, tissues and cellular and tissue-based products, also known as "HCT/P products."

The Federal Drug Quality and Security Act of 2013 brought about significant changes with respect to pharmaceutical supply chain requirements. Title II of this measure, known as the Drug Supply Chain Security Act ("DSCSA"), is being phased in over a period of ten years, and is intended to build a national electronic, interoperable system by November 27, 2023, that will identify and trace certain prescription drugs as they are distributed in the United States. The law's track and trace requirements applicable to manufacturers, wholesalers, repackagers and dispensers (e.g., pharmacies) of prescription drugs took effect in January 2015, and continues to be implemented. The DSCSA product tracing requirements replace the former FDA drug pedigree requirements and pre-empt certain state requirements that are inconsistent with, more stringent than, or in addition to, the DSCSA requirements.

The DSCSA also establishes certain requirements for the licensing and operation of prescription drug wholesalers and third-party logistics providers ("3PLs"), and includes the eventual creation of national wholesaler and 3PL licenses in cases where states do not license such entities. The DSCSA requires that wholesalers and 3PLs distribute drugs in accordance with certain standards regarding the recordkeeping, storage and handling of prescription drugs. The DSCSA requires wholesalers and 3PLs to submit annual reports to the FDA, which include information regarding each state where the wholesaler or 3PL is licensed, the name and address of each facility and contact information. According to FDA guidance, states are pre-empted from imposing any licensing requirements that are inconsistent with, less stringent than, directly related to, or covered by the standards established by federal law in this area. Current state licensing requirements concerning wholesalers will remain in effect until the FDA issues new regulations as directed by the DSCSA. In addition, with respect to our specialty home medical supply business, we are subject to certain state licensure laws (including state pharmacy laws), and also certain accreditation standards, including to qualify for reimbursement from Medicare and other third-party payers.

The Food and Drug Administration Amendments Act of 2007 and the Food and Drug Administration Safety and Innovation Act of 2012 amended the FDC Act to require the FDA to promulgate regulations to implement a unique device identification ("UDI") system. The UDI rule phased in the implementation of the UDI regulations, generally beginning with the highest-risk devices (i.e., Class III medical devices) and ending with the lowest-risk devices. Most compliance dates were reached as of September 24, 2018, with a final set of requirements for low risk devices being reached on September 24, 2022, which will complete the phase in. However, in May 2021, the FDA issued an enforcement policy stating that it does not intend to object to the use of legacy identification numbers on device labels and packages for finished devices manufactured and labeled prior to September 24, 2023.

The UDI regulations require "labelers" to include unique device identifiers ("UDIs"), with a content and format prescribed by the FDA and issued under a system operated by an FDA-accredited issuing agency, on the labels and packages of medical devices (including, but not limited to, certain software that qualifies as a medical device under FDA rules), and to directly mark certain devices with UDIs. The UDI regulations also require labelers to submit certain information concerning UDI-labeled devices to the FDA, much of which information is publicly available on an FDA database, the Global Unique Device Identification Database. The UDI regulations and subsequent FDA guidance regarding the UDI requirements provide for certain exceptions, alternatives and time extensions. For example, the UDI regulations include a general exception for Class I devices exempt from the Quality System Regulation (other than record-keeping requirements and complaint files). Regulated labelers include entities such as device manufacturers, repackagers, reprocessors and relabelers that cause a device's label to be applied or modified, with the intent that the device will be commercially distributed without any subsequent replacement or modification of the label and include certain of our businesses.

Under the Controlled Substances Act, as a distributor of controlled substances, we are required to obtain and renew annually registrations for our facilities from the United States Drug Enforcement Administration ("DEA") permitting us to handle controlled substances. We are also subject to other statutory and regulatory requirements relating to the storage, sale, marketing, handling, reporting, record-keeping and distribution of such drugs, in accordance with the Controlled Substances Act and its implementing regulations, and these requirements have been subject to heightened enforcement activity in recent times. We are subject to inspection by the DEA. Certain of our businesses are also required to register for permits and/or licenses with, and comply with operating and security standards of, the DEA, the FDA, the United States Department of Health and Human Services ("HHS"), and various state boards of pharmacy, state health departments and/or comparable state agencies as well as comparable foreign agencies, and certain accrediting bodies, depending on the type of operations and location of product distribution, manufacturing or sale. These businesses include those that distribute, manufacture and/or repackage prescription pharmaceuticals and/or medical devices and/or HCT/P products, or own pharmacy operations, or install, maintain or repair equipment.

In addition, Section 301 of the National Organ Transplant Act, and a number of comparable state laws, impose civil and/or criminal penalties for the transfer of certain human tissue (for example, human bone products) for valuable consideration, while generally permitting payments for the reasonable costs incurred in procuring, processing, storing and distributing that tissue. We are also subject to foreign government regulation of such products. The DEA, the FDA and state regulatory authorities have broad inspection and enforcement powers, including the ability to suspend or limit the distribution of products by our distribution centers, seize or order the recall of products and impose significant criminal, civil and administrative sanctions for violations of these laws and regulations. Foreign regulations subject us to similar foreign enforcement powers.

EU Regulation of Medicinal and Dental Products

European Union ("EU") member states regulate their own healthcare systems, as does EU law. The latter regulates certain matters, most notably medicinal products and medical devices. Medicinal products are defined, broadly, as substances or combinations of substances having certain functionalities and may not include medical devices. EU "regulations" apply in all Member States, whereas "directives" are implemented by the individual laws of member states.

On medicines for humans, we are regulated under Directive No. 2001/83/EC of 6 November 2001, as amended by Directive 2003/63/EC of 25 June 2003, and EU Regulation (EC) No. 726/2004 of 31 March 2004. These rules provide for the authorization of products, and regulate their manufacture, importation, marketing and distribution. It implements requirements which may be implemented without warning, as well as a national pharmacovigilance system under which marketing authorizations may be withdrawn, and includes potential sanctions for breaches of the rules, and on other bases such as harmfulness or inefficiency.

EU Regulation No. 1223/2009 of 30 November 2009 *on cosmetic products* requires that cosmetic products (which includes dental products) be safe for human health when used under normal or reasonably foreseeable conditions of use and comply with certain obligations which apply to manufacturer, importer and distributor. It includes market surveillance, and non-compliance may result in the recall or withdrawal of products, along with other sanctions.

In the EU, the EU Medical Device Regulation No. 2017/745 of 5 April 2017 ("EU MDR") covers a wide scope of our activities, from dental material to X-ray machines, and certain software. It was meant to become applicable three years after publication (i.e., May 26, 2020). However, on April 23, 2020, to allow European Economic Area ("EEA") national authorities, notified bodies, manufacturers and other actors to focus fully on urgent priorities related to the COVID-19 pandemic, the European Council and Parliament adopted Regulation 2020/561, postponing the date of application of the EU MDR by one year (to May 26, 2021).

The EU MDR significantly modifies and intensifies the regulatory compliance requirements for the medical device industry as a whole. Among other things, the EU MDR:

- strengthens the rules on placing devices on the market and reinforces surveillance once they are available;
- establishes explicit provisions on manufacturers' responsibilities for the follow-up of the quality, performance and safety of devices placed on the market;
- improves the traceability of medical devices throughout the supply chain to the end-user or patient through a unique identification number;
- sets up a central database to provide patients, healthcare professionals and the public with comprehensive information on products available in the EU;
- strengthens rules for the assessment of certain high-risk devices, such as implants, which may have to undergo an additional check by experts before they are placed on the market; and
- identifies importers and distributors and medical device products through registration in a database (EUDAMED not due until May 26, 2022 and after).

In particular, the EU MDR imposes stricter requirements for the confirmation that a product meets the regulatory requirements, including regarding a product's clinical evaluation and a company's quality systems, and for the distribution, marketing and sale of medical devices, including post-market surveillance. Medical devices that have been assessed and/or certified under the EU Medical Device Directive may continue to be placed on the market until 2024 (or until the expiry of their certificates, if applicable and earlier); however, requirements regarding the distribution, marketing and sale including quality systems and post-market surveillance have to be observed by manufacturers, importers and distributors as of the application date.

Other EU regulations that may apply under appropriate circumstances include EU Regulation No. 1907/2006 of 18 December 2006 *concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals*, which requires importers to register substances or mixtures that they import in the EU beyond certain quantities, and the EU Regulation No. 1272/2008 of 16 December 2008 on classification, labelling and packaging of substances and mixtures, which sets various obligations with respect to the labelling and packaging of concerned substances and mixtures.

Furthermore, compliance with legal requirements has required and may in the future require us to delay product release, sale or distribution, or institute voluntary recalls of, or other corrective action with respect, to products we sell, each of which could result in regulatory and enforcement actions, financial losses and potential reputational harm. Our customers are also subject to significant federal, state, local and foreign governmental regulation, which may affect our interactions with customers, including the design and functionality of our products.

Certain of our businesses are subject to various additional federal, state, local and foreign laws and regulations, including with respect to the sale, transportation, storage, handling and disposal of hazardous or potentially hazardous substances, and safe working conditions. In addition, certain of our businesses must operate in compliance with a variety of burdensome and complex billing and record-keeping requirements in order to substantiate claims for payment under federal, state and commercial healthcare reimbursement programs. One of these businesses was recently suspended by CMS from receiving payments from Medicare, although it is permitted to continue to perform and bill for Medicare services. The amounts billed are being deposited in an escrow account pending resolution of an audit. The Company has not recognized revenue for these services and has currently deferred slightly over $4 million in revenue.

Certain of our businesses also maintain contracts with governmental agencies and are subject to certain regulatory requirements specific to government contractors.

Antitrust and Consumer Protection

The federal government of the United States, most U.S. states and many foreign countries have antitrust laws that prohibit certain types of conduct deemed to be anti-competitive, as well as consumer protection laws that seek to protect consumers from improper business practices. At the U.S. federal level, the Federal Trade Commission oversees enforcement of these types of laws, and states have similar government agencies. Violations of antitrust or consumer protection laws may result in various sanctions, including criminal and civil penalties. Private plaintiffs may also bring civil lawsuits against us in the United States for alleged antitrust law violations, including claims for treble damages. EU law also regulates competition and provides for detailed rules protecting consumers. The Biden Administration has indicated increased antitrust enforcement and has been more aggressive in enforcement activities.

Health Care Fraud

Certain of our businesses are subject to federal and state (and similar foreign) health care fraud and abuse, referral and reimbursement laws and regulations with respect to their operations. Some of these laws, referred to as "false claims laws," prohibit the submission or causing the submission of false or fraudulent claims for reimbursement to federal, state and other health care payers and programs. Other laws, referred to as "anti-kickback laws," prohibit soliciting, offering, receiving or paying remuneration in order to induce the referral of a patient or ordering, purchasing, leasing or arranging for, or recommending ordering, purchasing or leasing of, items or services that are paid for by federal, state and other health care payers and programs. Certain additional state and federal laws, such as the federal Physician Self-Referral Law, commonly known as the "Stark Law," prohibit physicians and other health professionals from referring a patient to an entity with which the physician (or family member) has a financial relationship, for the furnishing of certain designated health services (for example, durable medical equipment and medical supplies), unless an exception applies. Violations of Anti-Kickback Statutes or the Stark Law may be enforced as violations of the federal False Claims Act.

The fraud and abuse laws and regulations have been subject to heightened enforcement activity over the past few years, and significant enforcement activity has been the result of "relators" who serve as whistleblowers by filing complaints in the name of the United States (and if applicable, particular states) under applicable false claims laws, and who may receive up to 30% of total government recoveries. Penalties under fraud and abuse laws may be severe, including treble damages and substantial civil penalties under the federal False Claims Act, as well as potential loss of licenses and the ability to participate in federal and state health care programs, criminal penalties, or imposition of a corporate compliance monitor which could have a material adverse effect on our business. Also, these measures may be interpreted or applied by a prosecutorial, regulatory or judicial authority in a manner that could require us to make changes in our operations or incur substantial defense and settlement expenses. Even unsuccessful challenges by regulatory authorities or private relators could result in reputational harm and the incurring of substantial costs. Most states have adopted similar state false claims laws, and these state laws have their own penalties, which may be in addition to federal False Claims Act penalties, as well as other fraud and abuse laws.

With respect to measures of this type, the United States government (among others) has expressed concerns about financial relationships between suppliers on the one hand and physicians and dentists on the other. As a result, we regularly review and revise our marketing practices as necessary to facilitate compliance.

We also are subject to certain United States and foreign laws and regulations concerning the conduct of our foreign operations, including the U.S. Foreign Corrupt Practices Act, the U.K. Bribery Act, German anti-corruption laws and other anti-bribery laws and laws pertaining to the accuracy of our internal books and records, which have been the focus of increasing enforcement activity globally in recent years.

While we believe that we are substantially compliant with applicable fraud and abuse laws and regulations, and have adequate compliance programs and controls in place to ensure substantial compliance, we cannot predict whether changes in applicable law, or interpretation of laws, or changes in our services or marketing practices in response to changes in applicable law or interpretation of laws, or failure to comply with applicable law, could have a material adverse effect on our business.

Affordable Care Act and Other Insurance Reform

The ACA increased federal oversight of private health insurance plans and included a number of provisions designed to reduce Medicare expenditures and the cost of health care generally, to reduce fraud and abuse, and to provide access to increased health coverage. The ACA also materially expanded the number of individuals in the United States with health insurance.

The ACA has faced frequent legal challenges, including litigation seeking to invalidate and Congressional action seeking to repeal some of or all of the law or the manner in which it has been implemented. In 2012, the United States Supreme Court, in upholding the constitutionality of the ACA and its individual mandate provision requiring that people buy health insurance or else face a penalty, simultaneously limited ACA provisions requiring Medicaid expansion, making such expansion a state-by-state decision. In addition, one of the major political parties in the United States remains committed to seeking the ACA's legislative repeal, but legislative efforts to do so have previously failed to pass both chambers of Congress. Under President Trump's administration, a number of administrative actions were taken to materially weaken the ACA, including, without limitation, by permitting the use of less robust plans with lower coverage and eliminating "premium support" for insurers providing policies under the ACA. The Tax Cuts and Jobs Act enacted in 2017, which contains a broad range of tax reform provisions that impact the individual and corporate tax rates, international tax provisions, income tax add-back provisions and deductions, also effectively repealed the ACA's individual mandate by zeroing out the penalty for non-compliance. In the most recent ACA litigation, the federal Fifth Circuit Court of Appeals found the individual mandate to be unconstitutional, and returned the case to the District Court for the Northern District of Texas for consideration of whether the remainder of the ACA could survive the excision of the individual mandate. The Fifth Circuit's decision was appealed to the United States Supreme Court. The Supreme Court issued a decision on June 17, 2021. Without reaching the merits of the case, the Supreme Court held that the plaintiffs in the case did not have standing to challenge the ACA. Any outcomes of future cases that change the ACA, in addition to future legislation, regulation, guidance and/or Executive Orders that do the same, could have a significant impact on the U.S. healthcare industry. For instance, the American Rescue Plan Act of 2021 enhanced premium tax credits, which has resulted in an expansion of the number of people covered under the ACA. These changes are time-limited, with some enhancements in place for 2021 only and others available through the end of 2022.

An ACA provision, generally referred to as the Physician Payment Sunshine Act or Open Payments Program (the "Sunshine Act"), imposes annual reporting and disclosure requirements for drug and device manufacturers and distributors with regard to payments or other transfers of value made to certain covered recipients (including physicians, dentists, teaching hospitals, physician assistants, nurse practitioners, clinical nurse specialists, certified registered nurse anesthesiologist assistants, and certified nurse midwives), and for such manufacturers and distributors and for group purchasing organizations, with regard to certain ownership interests held by covered recipients in the reporting entity. The Centers for Medicare and Medicaid Services ("CMS") publishes information from these reports on a publicly available website, including amounts transferred and physician, dentist, teaching hospital, and non-physician practitioner identities. The Sunshine Act pre-empts similar state reporting laws, although we or our subsidiaries may be required to report under certain state transparency laws that address circumstances not covered by the Sunshine Act, and some of these state laws, as well as the federal law, can be unclear. We are also subject to foreign regulations requiring transparency of certain interactions between suppliers and their customers.

In the United States, government actions to seek to increase health-related price transparency may also affect our business.

Another notable Medicare health care reform initiative, the Medicare Access and CHIP Reauthorization Act of 2015 ("MACRA"), enacted on April 16, 2015, established a new payment framework, which modified certain Medicare payments to "eligible clinicians," including physicians, dentists and other practitioners. Under MACRA, certain eligible clinicians are required to participate in Medicare through the Merit-Based Incentive Payment System ("MIPS") or Advanced Alternative Payment Models, through which Medicare reimbursement to eligible clinicians includes both positive and negative payment adjustments that take into account quality, promoting interoperability, cost and improvement activities. Data collected in the first MIPS performance year (2017) determined payment adjustments that began January 1, 2019. MACRA standards and payment levels continue to evolve, and reflect a fundamental change in physician reimbursement that is expected to provide substantial

financial incentives for physicians to participate in risk contracts, and to increase physician information technology and reporting obligations. The implications of the implementation of MACRA are uncertain and will depend on future regulatory activity and physician activity in the marketplace. New state-level payment and delivery system reform programs, including those modeled after such federal programs, are also increasingly being rolled out through Medicaid administrators, as well as through the private sector, which may further alter the marketplace and impact our business.

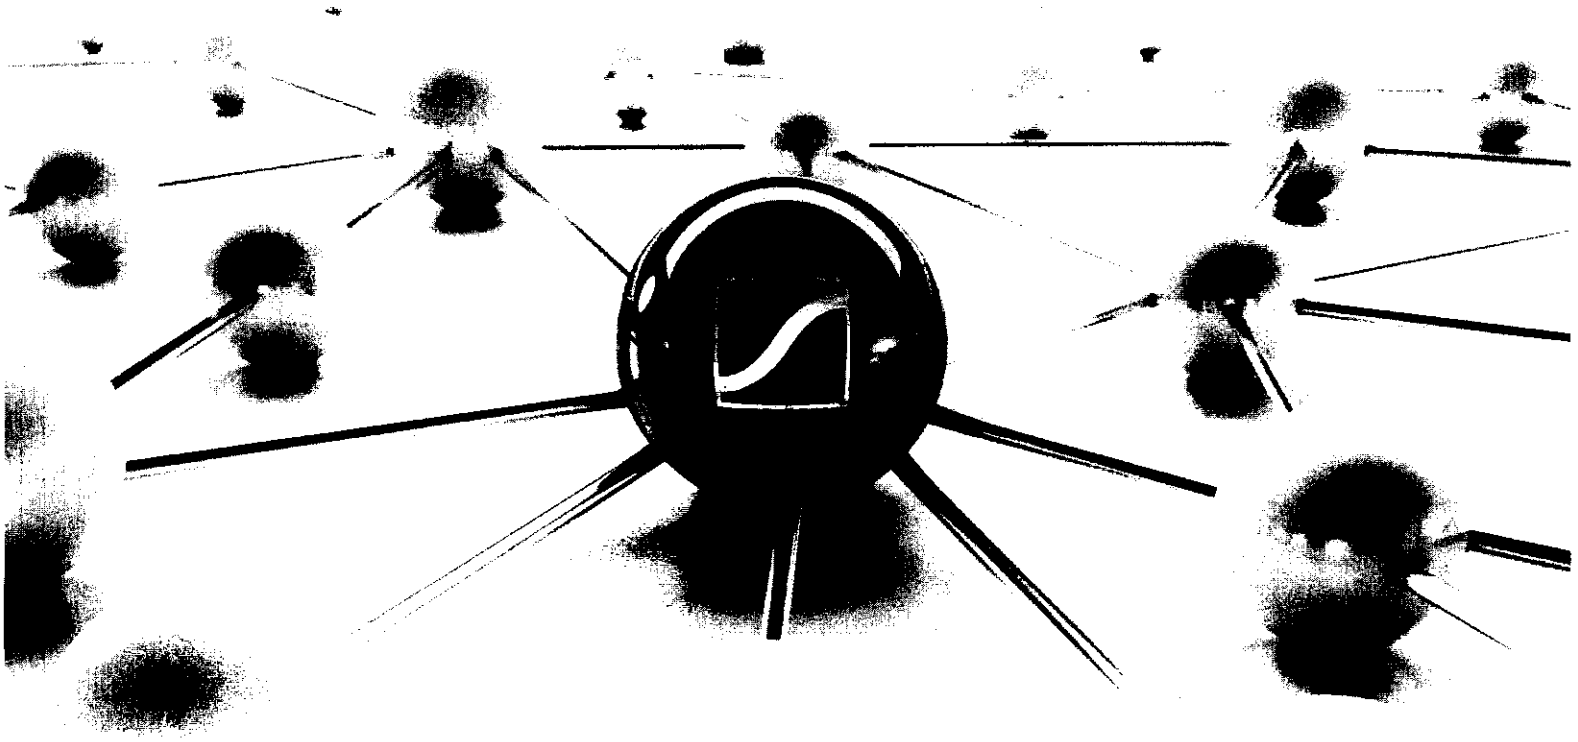
Recently, in addition to other government efforts to control health care costs, there has been increased scrutiny on drug pricing and concurrent efforts to control or reduce drug costs by Congress, the President, executive branch agencies and various states. At the state level, several states have adopted laws that require drug manufacturers to provide advance notice of certain price increases and to report information relating to those price increases, while others have taken legislative or administrative action to establish prescription drug affordability boards or multi-payer purchasing pools to reduce the cost of prescription drugs. At the federal level, several related bills have been introduced and regulations proposed which, if enacted or finalized, respectively, would impact drug pricing and related costs.

As a result of political, economic and regulatory influences, the health care distribution industry in the United States is under intense scrutiny and subject to fundamental changes. We cannot predict what further reform proposals, if any, will be adopted, when they may be adopted, or what impact they may have on us.

EU Directive on the pricing and reimbursement of medicinal products

EU law provides for the regulation of the pricing of medicinal products which are implemented by EU member states (Directive No. 89/105/EC of 21 December 1988 *relating to the transparency of measures regulating the pricing of medicinal products for human use and their inclusion in the scope of national health insurance systems*). Member states may, subject notably to transparency conditions and to the statement of reasons based upon objective and verifiable criteria, regulate the price charged (or its increases) for authorized medicines and their level of reimbursement, or they may freeze prices, place controls on the profitability of persons responsible for placing medicinal products on the market, and include or exclude the medicine on the list of products covered by national health insurance systems.

EU law does not expressly include provisions like those of the Sunshine Act in the United States, but a growing number of EU member states (such as France since 2011) have enacted laws to increase the transparency of relationships in the healthcare sector. The scope of these laws varies from one member state to another and may, for example, include the relations between healthcare industry players and physicians or their associations, students preparing for medical professions or their associations, teachers, health establishments or publishers of prescription and dispensing assistance software.



Regulated Software; Electronic Health Records

The FDA has become increasingly active in addressing the regulation of computer software and digital health products intended for use in health care settings. The 21st Century Cures Act (the "Cures Act"), signed into law on December 13, 2016, among other things, amended the medical device definition to exclude certain software from FDA regulation, including clinical decision support software that meets certain criteria. On September 27, 2019, the FDA issued a suite of guidance documents on digital health products, which incorporated applicable Cures Act standards, including regarding the types of clinical decision support tools and other software that are exempt from regulation by the FDA as medical devices, and continues to issue new guidance in this area. Certain of our businesses involve the development and sale of software and related products to support physician and dental practice management, and it is possible that the FDA or foreign government authorities could determine that one or more of our products is a medical device, which could subject us or one or more of our businesses to substantial additional requirements with respect to these products.

In addition, our businesses that involve physician and dental practice management products, and our specialty home medical supply business, include electronic information technology systems that store and process personal health, clinical, financial and other sensitive information of individuals. These information technology systems may be vulnerable to breakdown, wrongful intrusions, data breaches and malicious attack, which could require us to

BOLDLY CREATING VALUE FOR OUR STAKEHOLDERS

ANNUAL REPORT 2021

HENRY SCHEIN®
SOLUTIONS FOR HEALTH CARE PROFESSIONALS

A MESSAGE FROM THE CHAIRMAN OF THE BOARD AND CHIEF EXECUTIVE OFFICER

To My Fellow Stakeholders,

As we enter the 90th year of the history of our Company, we are energized by the extraordinary effort of Team Schein to help our customers and our business recover from the challenges of the past two years, pleased by the resulting financial achievements, and enthusiastic and optimistic for our future.

Even as the global supply chain remained unsettled in 2021, Henry Schein delivered for our stakeholders. As vaccines and other infection-control measures allowed society to begin resuming normal activities, we recorded net sales in 2021 of $12.4 billion, up 22.6% compared with 2020. GAAP diluted EPS for 2021 increased 58.4%, or an increase of 52.2%* on a non-GAAP basis, largely reflecting a rebound in patient traffic from the early days of the pandemic and elevated demand for our products and services, including personal protective equipment (PPE) and COVID-related products. We delivered full-year operating cash flow from continuing operations of $709.6 million versus $593.5 million in 2020, and we invested $570.6 million in acquisitions and $401.2 million in stock repurchases. Our strategy of supporting organic growth with acquisitions remained a key element of our success, with acquisitions representing 4.2% of 2021's total revenue increase.

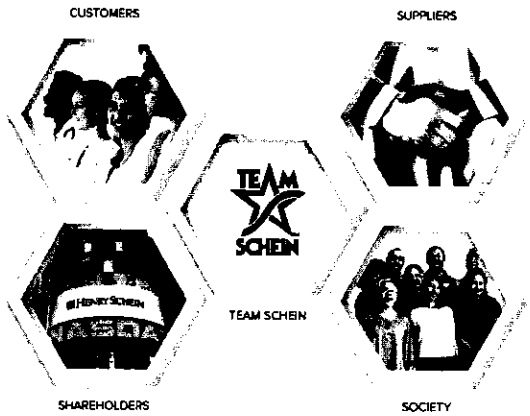
In 2021, Henry Schein continued to increase our exposure to faster-growing and higher-margin products and services through organic growth and acquisitions. Our portfolio of complementary software and specialty products, as well as services offerings, represent an ever-increasing percentage of Henry Schein's operating margin and total operating income, generating full-year revenue of $928.6 million, a 27.2% increase in local currencies. This offering includes what we refer to as Dental Specialty Products, which encompasses oral surgery, implant and bone regeneration products as well as endodontic and orthodontic products, plus our Technology & Value-Added Services, including Henry Schein One, a provider of integrated software and services to the dental profession. In 2021, growth was strong in each of our three Dental Specialty Product categories.

Our BOLD+1 Strategy Positions Us for the Future

Our optimism for the future stems in large part from the many actions our Company took in 2021 to further position Henry Schein for growth and profitability. Two of these actions are especially meaningful – the development of our 2022–2024 BOLD+1 Strategic Plan, a key goal of which is to expand our faster-growing, higher-margin software and specialty products, and services offerings, while investing for growth in our core distribution businesses, and the implementation of a new leadership structure for our distribution businesses to support the plan.

In 2021, we established the North America Distribution Group and the International Distribution Group, representing an evolution of our "One Distribution" strategy to more tightly integrate the management of our Dental and Medical distribution businesses. The new structure is designed to better leverage functions, talent, processes, and systems across Henry Schein's distribution businesses to enhance our customer experience and maximize efficiency and performance, thereby driving growth in sales and related operating income in absolute terms.

Our operating model provides the basis for us to leverage a "One Schein" offering to customers, who increasingly rely upon Henry Schein's comprehensive network of innovative solutions and services, along with our distribution capabilities, to provide an exceptional experience that helps make their practices more successful and improve patient outcomes. **Together, we make the world healthier.**



In short, our 2022–2024 **BOLD+1** Strategic Plan positions our Company to **BUILD ("B")** complementary software, specialty, and services businesses for high growth; **OPERATIONALIZE ("O")** One Distribution to deliver exceptional customer experience, increased efficiency, and growth; **LEVERAGE ("L")** One Schein to broaden and deepen relationships with our customers; and **DRIVE ("D")** digital transformation for our customers and for Henry Schein.

+1 = Pursuing Profits and Purpose

Our BOLD+1 strategy is driven by our long-standing belief in the intersection of profits and purpose.

We carefully balance the goals of our five constituencies (the "+1") – Team Schein, customers, suppliers, investors, and society – through Henry Schein's management philosophy, the "Mosaic of Success." By giving back to society in concert with our team, customers, and suppliers, we strive to generate greater value for our investors.

HENRY SCHEIN®
SOLUTIONS FOR HEALTH CARE PROFESSIONALS

In 2021, we once again took numerous steps toward fulfilling our commitment to the constituents we serve within the context of what is now known as the Environmental, Social & Governance (ESG) movement. Here, in brief, is a summary of the work we pursued in 2021 to advance our ESG approach to business.

Addressing climate change and ensuring a healthy environment are among our generation's most difficult and important challenges, and within this effort Henry Schein can and will play a meaningful role where opportunity for impact exists. For example, we signed the Business Ambition for 1.5°C Initiative and joined the Race to Zero. We are also a member of the World Economic Forum (WEF) Alliance of CEO Climate Leaders and the National Academy of Medicine Action Collaborative on Decarbonization of the Health Care Sector. Through these initiatives, we are working to reduce the climate impact of our own operations and within the wider health care industry supply chain.

The "Social" pillar of the ESG movement is where Henry Schein is actively advocating for the equitable distribution of health care services to underserved and underrepresented populations is a core tenet of our health equity work as well as emergency health care response. In 2021, we committed to donating at least $50 million in cash and product through Henry Schein Cares and the Henry Schein Cares Foundation, Inc. by 2025 to advance health equity.

In the area of diversity and inclusion, we are focused on increasing the representation of women and other underrepresented groups in senior operating roles and promoting inclusivity training and education to elevate and support a diverse network of TSMs, fostering an environment where all TSMs can thrive individually and collectively. In 2021, we added to our existing roster of Employee Resource Groups (ERGs) with the establishment of COLEGAS, for our Hispanic and Latin American TSMs, and announced the formation of ERGs for our Pan-Asian, Military Veteran, and Disabled communities. All of our ERGs are open to all TSMs. Additionally, Henry Schein has a long record of advancing diversity in the professions we serve, including our support of the American Dental Association's Institute for Diversity in Leadership and the National Dental Association, among other organizations and initiatives.

We also strengthened our investment this year in what we believe is our greatest competitive advantage—our Team Schein Members. In these challenging times, we increased our emphasis on mental wellness and stress management as part of a broader effort to recruit and retain the extraordinary individuals who comprise Team Schein.

Underlying our ESG efforts is a commitment to ethical corporate governance, which starts with our largely independent and diverse Board of Directors, including five Board Committees, and governed by our Nominating and Governance Committee. Through our Sustainability Committee, a cross-functional team of senior and middle management that reviews our progress regularly, we continue to steadily advance our sustainability work.

As of this writing, the world is witnessing a rise in geopolitical instability of a magnitude not seen since 1945. As with prior humanitarian crises – in Haiti, Syria, Libya, Yemen, Sudan, and other parts of the world – Team Schein is committed to responding to the health care needs of the Ukrainian people and other refugees, working in partnership with philanthropic partners, customers, and suppliers. In moments such as these, we more fully appreciate the role we can play to help alleviate the suffering of those in need, and we have committed at least $1 million in cash and products in this regard.

Our ability to give back to society in times of crisis is a direct result of our business success, and that success reflects the extraordinary commitment, hard work, and dedication of Team Schein. For 90 years, this Company has been blessed with a team that rises to every challenge and pulls together to overcome any obstacle. I am overwhelmed with gratitude.

Finally, to ensure public accountability for each of these activities, we committed to providing reporting in 2022 in accordance with the Global Reporting Initiative and the Sustainability Accounting Standards Board, along with issuing our initial Task Force on Climate-Related Financial Disclosures report in 2022.

Boldly Creating Value for Our Stakeholders

The 2022–2024 BOLD+1 Strategic Plan builds on our previous strategic plans by focusing on those markets and geographies where Henry Schein can make a real difference for the ultimate benefit of our customers and their patients. And in doing so,

we will enable our customers to become more successful and improve patient outcomes while creating value for our stakeholders—that's **BOLD+1**.

We intend to advance the seamless, unified integration of our suite of products and service solutions while demonstrating a deep commitment to giving back to society. These activities are mutually reinforcing and benefit all of our stakeholders.

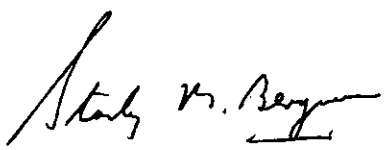
The theme of this year's annual report – **Boldly Creating Value for Our Stakeholders** – brings together all the individual elements of our new strategic plan.

Gratitude for Our People and Performance

I would like to take special note of the bittersweet retirements of Steve Paladino, Gerry Benjamin, and Barry Alperin.

At the end of April 2022, our Chief Financial Officer, Steven Paladino, will retire after 35 years of dedicated service at Henry Schein, including 29 years as CFO. Steven joined Henry Schein in our finance department in 1987 when the business generated approximately $125 million in revenue, and our success since then reflects the considerable contributions made by Steven. We are pleased Steven will remain a member of our Board of Directors and an adviser to Henry Schein. Succeeding Steven is Ronald N. South, Henry Schein's Vice President, Corporate Finance, since 2008 and Chief Accounting Officer since 2013, who will become the Company's Senior Vice President and Chief Financial Officer. Olga Timoshkina, who joined Henry Schein this past September as Vice President, Corporate Controller, will succeed Ron as Vice President, Corporate Finance and Chief Accounting Officer, while Graham Stanley was appointed as Vice President, Investor Relations and Strategic Financial Project Officer on September 15, 2021. We implemented this succession plan to complement our talented group of corporate senior finance leaders and business unit CFOs.

Additionally, Gerry Benjamin, our Executive Vice President and Chief Administrative Officer since 2000, is retiring on July 1, 2022, after 34 years with the Company. Gerry joined Henry Schein in 1988 and led the continuous transformation of our Global Services Group to meet the needs of each of our constituencies as we grew from being a private, domestic mail-order business into an international, full-service, publicly traded company with nearly 22,000 Team Schein Members and operations in 32 countries. His leadership was instrumental in maintaining the operational excellence for our customers over the years. We are pleased that Gerry will continue to be an adviser to Henry Schein following his retirement.



Succeeding Gerry is Michael Ettinger, who has been promoted to Executive Vice President and Chief Operating Officer. Mr. Ettinger joined the Company in 1994 and has been Senior Vice President, Corporate Affairs since 2013. Prior to his current position, Michael served as General Counsel for the Company. The Global Services leadership team reporting to Michael includes Lorelei McGlynn, Senior Vice President, Chief Human Resources Officer, Jim Mullins, Senior Vice President, Global Supply Chain, Chris Pendergast, Senior Vice President and Chief Technology Officer, and Shirley Taylor, Vice President, Global Chief Security and Safety Officer.

Barry Alperin will retire from our Board of Directors after 26 years of exceptional service, having joined our board in 1996, shortly after the Company's initial public offering. Joining our Board in 2021 were Mohamad Ali, Deborah Derby, Dr. Reed V. Tuckson, and Scott Serota, who will undoubtedly provide valuable perspectives to the Company.

We wish Steven, Gerry, and Barry the very best in their retirement and thank them for their many contributions to the Company.

Along with the entire Henry Schein Board of Directors, I would like to express my utmost confidence in Henry Schein's strategy, leadership, and Team Schein. I again offer my sincerest thanks to our Team Schein Members across the globe for their dedication, and also thank our customers, supplier partners, and investors for their continued trust. We intend to reward your faith in us.

Sincerely,

Stanley M. Bergman

Chairman of the Board
and Chief Executive Officer
March 2022

*See reconciliation of GAAP and non-GAAP measures on page 6.

NON-GAAP DISCLOSURES

The following table sets forth, for the applicable periods, a reconciliation of accounting principles generally accepted in the United States ("GAAP") operating income, net income from continuing operations attributable to Henry Schein, Inc., and diluted earnings per share from continuing operations adjusted to reflect the effects of restructuring costs, litigation settlement, and other adjustments.

USE OF NON-GAAP MEASURES

The information in the table includes financial measures that are not calculated and presented in accordance with GAAP. The table reconciles differences between each of operating income from continuing operations, net income from continuing operations attributable to Henry Schein, Inc., and diluted earnings per share from continuing operations attributable to Henry Schein, Inc., each as presented in accordance with GAAP, and comparable non-GAAP amounts as adjusted to eliminate the effect of the items listed below.

We eliminated the effect of the items listed below to assist in evaluating the underlying operational performance of our business, excluding such costs, over the periods presented. Management believes that non-GAAP financial measures provide investors with useful supplemental information about the financial performance of our business, enable comparison of financial results between periods where certain items may vary independent of business performance and allow for greater transparency with respect to key metrics used by management in operating our business. These non-GAAP financial measures are presented solely for informational and comparative purposes and should not be regarded as a replacement for corresponding, similarly captioned, GAAP measures.

	Year Ended December 25, 2021	Year Ended December 26, 2020	Year Ended December 28, 2019
	(in thousands, except per share data)		
Operating income from continuing operations	$ 851,656	$ 535,303	$ 718,261
Operating margin from continuing operations	6.9%	5.3%	7.2%
Adjustments:			
Restructuring costs (1)	$ 7,939	$ 32,093	$ 14,705
Litigation settlement (2)	$ 15,750	$ --	$ --
Adjusted operating income from continuing operations	$ 875,345	$ 567,396	$ 732,966
Adjusted operating margin from continuing operations	7.1%	5.6%	7.3%
Net income from continuing operations attributable to Henry Schein, Inc.:	$ 631,232	$ 402,808	$ 700,691
Adjustments, net of tax:			
Restructuring costs (1)	$ 5,954	$ 24,070	$ 11,029
Litigation settlement (2)	$ 10,705	--	--
Net gain on sale of equity investments (3)	$ (7,318)	$ (1,572)	$ (186,769)
Tax credit related to Animal Health spin-off (4)	--	--	$ (1,333)
Adjusted net income from continuing operations attributable to Henry Schein, Inc.:	$ 640,573	$ 425,306	$ 523,618
Diluted earnings per share from continuing operations attributable to Henry Schein, Inc.:	$ 4.45	$ 2.81	$ 4.69
Adjusted diluted earnings per share from continuing operations attributable to Henry Schein, Inc.:	$ 4.52	$ 2.97	$ 3.51
Diluted weighted-average common shares outstanding:	141,773	143,404	149,257

NOTES

(1) During 2021, we recorded restructuring costs of $7.9 million, pre-tax ($6.0 million net of tax). During 2020, we recorded restructuring costs of $32.1 million pre-tax ($24.1 million net of tax). During 2019, we recorded restructuring costs of $14.7 million pre-tax ($11.0 million net of tax). The effect that these charges had on earnings per diluted share from continuing operations attributable to Henry Schein, Inc. was ($0.04), ($0.17) and ($0.07), respectively.

(2) Represents a 2021 pre-tax charge of $15.8 million, net of $1.5 million of noncontrolling interests, related to settlement and litigation costs, net of a tax benefit of $3.6 million, resulting in a net after-tax charge of $10.7 million. The effect that this charge had on earnings per diluted share from continuing operations attributed to Henry Schein, Inc. was ($0.08).

(3) In 2021 we received contingent proceeds of $9.8 million from the 2019 sale of Hu-Friedy resulting in the recognition of an additional after-tax gain of $7.3 million. Represents net after-tax gains on the sale of equity investments recorded during 2020 and 2019. The effect that these transactions had on earnings per diluted share from continuing operations attributed to Henry Schein, Inc. for the years ended December 25, 2021, December 26, 2020 and December 28, 2019 was $0.05, $0.01 and $1.25, respectively.

(4) Represents a change in estimate to income tax expense as a result of a reorganization of legal entities completed in preparation for the Animal Health spin-off, which was completed on February 7, 2019. The effect this change had on earnings per diluted share from continuing operations attributed to Henry Schein, Inc. was $0.01.

Re: Alabama State Board of Pharmacy Action Against
McKesson Medical-Surgical Inc.'s Roseville, CA NV-wH0237
McKesson Medical-Surgical Inc.'s Manteno, IL -NV-WH02927
McKesson Corporation's Aurora, IL NV-wH01292

To Whom It May Concern:

Please accept these notices of disciplinary actions on behalf of McKesson Medical-Surgical Inc and McKesson Corporation pursuant to McKesson's wholesaler licensure notification requirements.

McKesson Medical-Surgical Inc.'s Roseville, CA License No(s): WH02437

On December 20, 2022, McKesson Medical-Surgical Inc.'s Roseville, CA facility entered into a Deferral Agreement with the Alabama State Board of Pharmacy in connection with an Administrative Compliant from November 2022. The Administrative Complaint is a result of alleged reciprocal discipline for failure to notify the Board of Designated Representative changes that occurred at the facility in violation Rule 680-X-2.23(2)(h)(1)(ii). Pursuant to the Deferral Agreement, the alleged violation will be deferred, deemed non-disciplinary and will be dismissed in 12/31/2023 upon compliance with the Deferral Agreement and payment of $2,500.00 costs to the Board.

McKesson Medical-Surgical Inc.'s Manteno, IL License No(s): WH02927

On December 20, 2022, McKesson Medical-Surgical Inc.'s Manteno, IL facility entered into a Deferral Agreement with the Alabama State Board of Pharmacy in connection with an Administrative Compliant from September 2022. The Administrative Complaint is a result of alleged reciprocal discipline for failure to notify the Board of Designated Representative changes that occurred at the facility in violation of Rule 680-X-2.23(2)(h)(1)(ii). Pursuant to the Deferral Agreement, the alleged violation will be deferred, deemed non-disciplinary and will be dismissed in 12/31/2023 upon compliance with the Deferral Agreement and payment of $2,500.00 costs to the Board.

McKesson Corporation Aurora, IL License No(s): WH01292

On December 20, 2022, McKesson Corporation's Aurora, IL facility entered into a Deferral Agreement with the Alabama State Board of Pharmacy in connection with an Administrative Compliant from September 2022. The Administrative Complaint is a result of alleged failure comply with certain licensing requirements required to maintain a license in violation of Rule 680-X-2.23(g)(3). Pursuant to the Deferral Agreement, the alleged violation will be deferred, deemed non-disciplinary and will be dismissed in 12/31/2023 upon compliance with the Deferral Agreement and payment of $2,500.00 costs to the Board.

Notwithstanding the action taken by the Boards of Pharmacy in these instances, McKesson has already satisfied all of its obligations under the terms of the Deferral Agreements. The facilities listed above have active licenses in good standing in all states where they currently operate.

If you have any questions or require additional information, please do not hesitate to contact me at beatrix.erdei@mckesson.com.

Sincerely,

Beatrix Erdei
Senior Manager, McKesson Corporation

JAN 11 2023

Please note that the disciplinary actions described below do NOT pertain to operations at the location set forth in this application.

McKesson Corporation and its wholly owned subsidiaries (hereinafter "McKesson") delivers pharmaceutical and medical products and business services to retail pharmacies and institutional providers like hospitals and health systems throughout North America and globally. Over the past 185 years, McKesson has developed multiple businesses that operate pharmacies, medical supply distribution centers, wholesale drug distribution centers, 3PL facilities, repackaging facilities, and other entities subject to federal and state regulation. Currently, McKesson owns and operates over 100 facilities in the United States that are licensed, permitted, or registered with the respective state agency with jurisdiction over its business type. Due to the breadth of its operations, it is practical that we limit this summary to disciplinary actions taken against these facilities during the last five years or the time frame specified in the question. ***The information in this statement is provided to the best of our knowledge and belief and includes all public disciplinary actions. This statement does not include any fines that are deemed non-disciplinary by the issuing state (for example, it does not include non-disciplinary Citations and Fines issued by California). Please let us know if your state requires information regarding non-disciplinary fines.***

In January 2017, **McKesson** entered into an agreement (the "DEA Settlement") with the DEA and DOJ to settle all potential administrative and civil claims stemming from investigation into McKesson's practices for identifying and reporting suspicious orders of controlled substances, beginning in 2009. Under the settlement McKesson agreed to pay $150 million and to implement remedial measures related to its controlled substances monitoring program. In addition, the following distribution centers' DEA registrations were or will be suspended for the following specified products and time periods: Aurora, Colorado - all controlled substances from January 17, 2017 to January 17, 2020; Livonia, Michigan - all controlled substances from January 17, 2017 to January 17, 2019; Washington Court House, Ohio - all controlled substances for the two-year period following completion of the Livonia suspension, from February 17, 2019 to February 17, 2021; and Lakeland, Florida - hydromorphone products from January 17, 2017 to January 17, 2018. The terms of the suspensions of the Livonia, Washington Court House, and Lakeland facilities permit those distribution centers to continue shipping controlled substances to customers that purchase products under McKesson's contract with the Department of Veterans Affairs.

In March 2017, in response to the DEA Settlement, the New York State Department of Health, Bureau of Narcotic Enforcement, suspended the Class 2A (Out-of-State) controlled substance license for **McKesson**'s Livonia, Michigan distribution center. The permit was suspended until January 1, 2019, consistent with the suspension timeframes of the DEA Settlement. No other suspensions or fines were issued, and the New York action aligned with the suspension periods and expectations agreed to in the DEA Settlement.

In June 2017, in response to the DEA Settlement, the Idaho Board of Pharmacy suspended the Controlled Substance Registrations of **McKesson** distribution centers in Washington Court House, Ohio and the Livonia, Michigan. The Livonia Idaho controlled substance registration was suspended for two years, effective 6/17/17 to 1/17/19. The Washington Court House Idaho controlled substance registration is suspended for two years, effective 1/18/19 to 1/18/21. No other suspensions or fines were issued, and the Idaho action aligns with the suspension periods and expectations agreed to in the DEA Settlement.

In September 2017, in response to the DEA Settlement, the Colorado State Board of Pharmacy placed the wholesaler registration of **McKesson**'s distribution center in Aurora, Colorado (14500 39th Ave) on probation. McKesson also agreed to pay a fine of $45,000, with an additional surcharge of 15%, totaling $51,750. No other suspensions or fines were issued.

In November 2017, in response to the DEA Settlement, the Louisiana Board of Pharmacy suspended the Controlled Substance Registrations of **McKesson** distribution centers in Washington Court House, Ohio and the Livonia, Michigan. The Livonia Louisiana controlled substance registration was suspended for two years, effective 6/17/17 to 1/17/19. The Washington Court House Louisiana controlled substance registration is suspended for two years, effective 1/18/19 to 1/18/21. McKesson also agreed to reimburse the Louisiana Board $250.00 for administrative costs No other suspensions or fines were issued, and the Louisiana action aligns with the suspension periods and expectations agreed to in the DEA Settlement.

In December 2017, in response to the DEA Settlement, the New Hampshire Board of Pharmacy suspended the right of **McKesson's** distribution centers in Washington Court House, Ohio and Livonia, Michigan to distribute controlled substances. The Livonia distribution center's ability to distribute controlled substance was suspended, effective 12/12/17 to 1/17/19. The Washington Court House distribution center's ability to distribute controlled substance will be suspended for two years, effective 1/18/19 to 1/18/21. McKesson also agreed to pay an administrative fine of $2,000.00. No other suspensions of fines were issued, and the New Hampshire action aligns with the suspension periods and expectations agreed to in the DEA Settlement.

In February 2018, in response to the DEA Settlement, the Florida Department of Business & Professional Regulation and **McKesson Corporation** (Lakeland distribution center) entered in a Settlement Agreement as disposition of an alleged violation of Section 499.0121(10), Florida Statutes (2008-2017), by operating not in compliance with applicable federal laws and regulations. McKesson also agreed to pay a settlement amount of $10,000.00. No other suspensions of fines were issued.

On March 14, 2018, in response to the DEA Settlement, the Iowa Board of Pharmacy voted to issue Controlled Substance Act registrations for two of **McKesson Corporation**'s distribution centers. The Board issued the registrations pursuant to Controlled Substances Act Registration by Consent Agreements (the "Agreements"). The Agreements are applicable only to the registrations and do not impose discipline upon the distribution center's wholesale permits. The general terms of the Agreements are summarized below:

- Livonia, Michigan - the facility's Iowa controlled substance registration was issued but was restricted. The facility was prohibited from distributing controlled substances into the state

until 1/17/2019 except for various exceptions that mirror exceptions in the DEA settlement; and

- Washington Court House, Ohio - the facility's Iowa controlled substance registration was issued but is restricted and the facility will be prohibited from distributing controlled substances into the state from 1/18/19 to 1/18/2021 except for various exceptions that mirror exceptions in the DEA settlement.

On March 20, 2018, in response to the DEA Settlement, the Maryland State Board of Pharmacy suspended the right of **McKesson**'s distribution center in Washington Court House, Ohio to distribute controlled substances. The distribution center's ability to distribute controlled substance will be suspended for two years, effective 1/18/19 to 1/18/21. No other suspensions of fines were issued, and the Maryland action aligns with the suspension periods and expectations agreed to in the DEA Settlement.

On April 9, 2018, in response to the DEA Settlement, **McKesson** entered into stipulations with the Utah Board of Pharmacy. The stipulations apply to the McKesson distribution centers located in Washington Court House, Ohio and Aurora, Colorado. The Washington Court House facility's right to distribute controlled substances into Utah has been suspended effective 1/18/2019 to 1/18/2021 and the Aurora facility's right to distribute controlled substances into Utah has been suspended from 4/9/2018 to 1/17/2020. The Utah Board of Pharmacy's action mirrors the suspension and exceptions agreed to in McKesson's settlement with the DEA Settlement.

On May 31, 2018, in response to the DEA Settlement, **McKesson** entered into a consent agreement with the Oregon Board of Pharmacy (the "Oregon Consent"). The Oregon Consent applies to the McKesson distribution center located in Washington Court House, Ohio. The Washington Court House facility's right to distribute controlled substances into Oregon has been suspended effective 1/18/2019 to 1/18/2021. The suspension period imposed by Oregon aligns with the federal DEA suspensions and with those imposed by other states that have taken reciprocal action based on the DEA Settlement.

On November 7, 2018, the Colorado Department of Regulatory Agencies cited **McKesson Medical-Surgical Inc.** concerning its Denver, Colorado distribution center for failure to submit in a timely manner, an application to the Board detailing a change of designated representative. A fine of $1,150 was imposed and paid November 29, 2018. The Board released McKesson Medical-Surgical Inc. from the terms and conditions of the December 6, 2018, Stipulation and Final Agency Order and restored the Registration to unencumbered status.

On December 17, 2018, in response to the DEA Settlement, **McKesson** entered into a consent agreement with the Virginia Board of Pharmacy (the "Virginia Consent"). The Virginia Consent applies to the McKesson distribution center located in Livonia, Michigan. The Livonia facility's right to distribute controlled substances into Virginia was suspended until 1/17/2019. The suspension period imposed by Virginia aligns with the federal DEA suspensions and with those imposed by other states that have taken reciprocal action based on the DEA Settlement.

On January 14, 2019 **McKesson Corporation** entered into a settlement for a payment of $10,000 on behalf of a now-closed facility in Connecticut. This settlement arose from the failure of employees of McKesson's contracted local delivery carrier to secure their vehicles when making

deliveries within Connecticut. Importantly, there were never any reports of theft or loss based on this failure and McKesson's contract with the local delivery carrier specifically required security measures, including the securing of vehicles.

On February 27, 2019, in response to the DEA Settlement, **McKesson** entered into a consent agreement with the Wisconsin Pharmacy Examining Board (the "Wisconsin Consent"). Under the terms of the consent, the Livonia, Michigan facility was fined and the facility's right to distribute controlled substances into Wisconsin was suspended from 1/17/17 to 1/17/19. The Washington Court House, Ohio facility was fined and the facility's ability to distribute controlled substances into Wisconsin has been suspended effective 1/17/19 to 1/17/2021. The suspension period imposed by Wisconsin aligns with the federal DEA suspensions and with those imposed by other states that have taken reciprocal action based on the DEA Settlement.

On March 1, 2019, the Ohio Board of Pharmacy sent a Notice of Opportunity for Hearing to the **McKesson Medical-Surgical Inc.** distribution center in Urbancrest, OH, which outlined the allegations and provided notice of its right to a hearing, its rights in such hearing, and its right to submit contentions in writing. The allegations relate to an investigation that McKesson Medical-Surgical Inc. shipped dangerous drugs to an unlicensed site in September 2017. A monetary penalty of $4,5000 was imposed and paid on March 27, 2019.

On May 10, 2019, in response to the DEA Settlement, **McKesson** entered into the stipulated agreement with the New Mexico Board of Pharmacy (the "New Mexico Agreement"). The New Mexico Agreement applies to the McKesson distribution center located in Washington Court House, Ohio. The facility's ability to distribute controlled substances into New Mexico has been suspended until February 16, 2021. The suspension period imposed by New Mexico aligns with the federal DEA suspensions and with those imposed by other states that have taken reciprocal action based on the DEA Settlement.

On May 21, 2019, in response to the DEA Settlement, **McKesson** entered into a consent order with the Alabama Board of Pharmacy (the "Alabama Consent"). The Alabama Consent applies to the McKesson distribution centers located in Washington Court House, Ohio and Livonia, Michigan. Under the terms of the Alabama Consent, each facility was subject to a fine of fifteen thousand dollars ($15,000).

On June 10, 2019, in response to the DEA Settlement, **McKesson** entered into a consent agreement with the Virginia Board of Pharmacy (the "WCH Virginia Consent"). The WCH Virginia Consent applies to the McKesson distribution center located in Washington Court House, Ohio. The facility's right to distribute controlled substances into Virginia has been suspended from June 10, 2019 to February 16, 2021. The WCH Virginia Consent originates from McKesson's report to Virginia of settlements that McKesson entered into with the DEA and Louisiana Board of Pharmacy.

On June 29, 2019, in response to the DEA Settlement, the California Board of Pharmacy approved a Stipulated Settlement and Disciplinary Order for Public Reproval with **McKesson** (the "California Settlement"). The California Settlement is effective on August 28, 2019 and applies to both the Washington Court House, Ohio and Livonia, MI distribution centers. Subject to the terms of the settlement, McKesson was issued a public letter of Reproval, agreed to pay $4,000 in investigative fees.

On August 29, 2019, **McKesson** received a Letter of Admonition from the Colorado State Board of Pharmacy due to the delinquent notification of a change in the Designated Representative at its distribution center located at in O'Fallon, MO ("McKesson St. Louis").

On August 29, 2019, **McKesson** entered into a Stipulation and Final Agency Order with the Colorado State Board of Pharmacy regarding the delinquent notification of a change in the Designated Representative at its distribution center located in Aurora, IL ("**McKesson Chicagoland**"). The terms of the settlement included a fine in the amount of $1,150.00.

On January 7, 2020, **McKesson Corporation** entered into a Consent Agreement and Final Order with the Iowa Board of Pharmacy regarding pseudoephedrine products that had not been included in the McKesson's Clear Lake, IA facility's annual controlled substance inventory and butalbital products that continued to be treated as legend drugs after such products became schedule III products in the state on June 26, 2019 (the "2020 Clear Lake Consent").

On January 14, 2020, **McKesson Medical-Surgical Inc.** entered into a Consent Agreement with the Arizona State Board of Pharmacy, regarding its Tempe, AZ distribution center, for shipping prescription drugs to an entity that was not properly licensed to receive them. A monetary civil penalty of $1,000 was imposed and paid on January 14, 2020.

On February 20, 2020, in response to the DEA Settlement, **McKesson** entered into a final agreement with the Indiana Board of Pharmacy. The agreement applies to the McKesson distribution center located in Washington Court House, Ohio. The facility's right to distribute controlled substances into Indiana has been placed on indefinite probation until the facility's DEA Registration is fully re-instated on or about February 16, 2021. The suspension period imposed by Indiana aligns with the federal DEA suspensions and with those imposed by other states that have taken reciprocal action based on the DEA Settlement.

On May 29, 2020, the Colorado Department of Regulatory Agencies cited **McKesson Medical-Surgical Inc.** concerning its Roseville, CA distribution center for failure to submit in a timely manner, an application to the Board detailing a change of designated representative. A fine of $1,150 was imposed and paid on July 1, 2020.

On April 20, 2021 **McKesson Medical-Surgical Inc.** entered into a Consent Agreement with the Ohio Board of Pharmacy, regarding its Leetsdale, PA distribution center, for shipping prescription drugs to an entity that was not properly licensed to receive them. A monetary civil penalty of $1,125 was imposed and paid on April 20, 2021.

On May 05, 2021 **McKesson Medical-Surgical Inc.** entered into a Consent Agreement with the Maine Board of Pharmacy, regarding its Roseville, CA distribution center, in relation to the late reporting of a disciplinary action that was imposed by the Colorado Board of Pharmacy, for failure to report a change of designated representative within the required timeframe. A $500 civil penalty/fine was paid on 5/7/2021.

On May 22, 2021, in response to the DEA Settlement, **McKesson Corporation** entered into a final agreement with the Illinois Department of Financial and Professional Regulation. The Illinois Consent Order applies to the McKesson distribution centers located in Aurora, Colorado, Livonia, Michigan and Washington Court House, Ohio.

- Aurora, Colorado - the facility's Illinois controlled substance was restricted. The facility was prohibited from distributing controlled substances into the state until 1/17/2020 except for various exceptions that mirror exceptions in the DEA settlement;

- Livonia, Michigan - the facility's Illinois controlled substance was restricted. The facility was prohibited from distributing controlled substances into the state until 1/17/2019 except for various exceptions that mirror exceptions in the DEA settlement; and

- Washington Court House, Ohio - the facility's Illinois controlled substance was restricted. The facility was prohibited from distributing controlled substances into the state until 1/18/2021 except for various exceptions that mirror exceptions in the DEA settlement.

On May 27, 2021, **McKesson Corporation** entered into a consent agreement with the Maine Board of Pharmacy regarding its Aurora, IL distribution center failing to report the Colorado disciplinary action to the Maine Board of Pharmacy within 10 days as required. The Colorado disciplinary action is now reported to the Maine Board of Pharmacy. The terms of the consent agreement included a fine in the amount of $500.00.

On June 6, 2021 **McKesson Medical-Surgical Inc.** entered into a Settlement Agreement with the Ohio Board of Pharmacy, regarding its Leetsdale, PA distribution center, for shipping prescription drugs to an entity that was not properly licensed to receive them. A monetary civil penalty of $500 was imposed and paid on June 8, 2021.

On June 15, 2021 **McKesson Medical-Surgical Inc.** entered into a Settlement Agreement with the Ohio Board of Pharmacy, regarding its Urbancrest, OH distribution center, for shipping prescription drugs to an entity that was not properly licensed to receive them. A monetary civil penalty of $3000.00 was imposed and paid on June 15, 2021.

On June 23, 2021 **McKesson Medical-Surgical Inc.** entered into a Settlement Agreement with the Ohio Board of Pharmacy, regarding its Urbancrest, OH distribution center, for shipping prescription drugs to an entity that was not properly licensed to receive them. A monetary civil penalty of $125 was imposed and paid on June 23, 2021.

On October 14, 2021, in response to the DEA Settlement, **McKesson Corporation** entered into a Settlement Agreement with the Ohio Board of Pharmacy (the "WCH Ohio Settlement"). The WCH Ohio Settlement applies to the McKesson distribution center located in Washington Court House, Ohio. The Ohio Settlement also resolved allegations of suspicious order reporting violations related to sales occurring between 2011 and 2017. Under the terms of terms of the WCH Ohio Settlement, there were no findings of any violation of law and McKesson made no admissions to the same. McKesson was subject to a reprimand and a fine of twenty-thousand dollars ($20,000).

On December 20, 2021, **McKesson Corporation** entered into a Consent Order with the Division of Professional Regulation of the Illinois Department of Financial and Professional Regulation (the "IDFPR") based on reciprocal state action from the 2020 Clear Lake Consent. The Illinois Consent applied to McKesson's Clear Lake, IA distribution center. Under the terms of the Illinois Consent Order, the facility was subject to a public reprimand by the IDFPR.

On January 18, 2022, **McKesson Medical-Surgical Inc.** entered into a Settlement Agreement with the Ohio Board of Pharmacy, regarding its Urbancrest, OH distribution center, for shipping prescription drugs to an entity that was not properly licensed to receive them. A monetary civil penalty of $500 was imposed and paid on January 18, 2022.

February 15, 2022, **McKesson Corporation** entered into a Settlement Agreement with the United States Department of Justice, the United States Attorney's Office for the Western District of Tennessee, and the Drug Enforcement Administration resolving allegations of recordkeeping and reporting deficiencies at one of its packaging facilities located in Memphis, Tennessee, known as McKesson **RxPak**. McKesson RxPak ceased all operations on March 4, 2020 and is no longer in business. There are no admissions of liability or wrongdoing under the terms of the Settlement Agreement

On March 24, 2022, **McKesson Corporation** and the California Board of Pharmacy (the "Board") entered into a settlement agreement which resolved allegations against McKesson relating to the sale of controlled substances in 2017 and 2018 to an outpatient hospital pharmacy that the pharmacy discovered were being stolen by a pharmacy employee. Pursuant to the settlement agreement, the Board publicly reproved McKesson's Santa Fe Springs distribution center permit, and McKesson agreed to pay the board's costs related to the investigation and enforcement of the matter. As set forth in the settlement agreement, McKesson denies any allegation that it violated California laws regarding the distribution of controlled substances and there are no findings of any violation of state or federal laws.

On May 20, 2022, **McKesson Medical Surgical, Inc.**'s Urbancrest, Ohio facility entered into a consent order with the MI Dept of Licensing in connection with an Administrative Compliant from January 2022. The Administrative Complaint is a result of two settlement agreements with the Ohio BOP. Michigan states that these settlement agreements violated MCL 333.17768(2)(d). A $500.00 fine was imposed.

Commonwealth of Virginia

State Corporation Commission

CERTIFICATE OF GOOD STANDING

I Certify the Following from the Records of the Commission:

That McKesson Medical-Surgical Inc. is duly incorporated under the law of the Commonwealth of Virginia;

That the corporation was incorporated on February 27, 1980;

That the corporation's period of duration is perpetual; and

That the corporation is in existence and in good standing in the Commonwealth of Virginia as of the date set forth below.

Nothing more is hereby certified.

Signed and Sealed at Richmond on this Date:

January 20, 2023

Bernard J. Logan, Clerk of the Commission

AZENTA
LIFE SCIENCES

azenta.com
Azenta US Inc.
2910 Fortune Circle West
Indianapolis, IN 46241

Description of Business Model

Azenta Life Sciences is a contract services provider to the Pharmaceutical Industry that focuses on the collection, logistics, processing, and storage of biological samples from patients participating in clinical trials, plus research use biological samples from humans and animals. Biological samples include blood, tissue, stool, and saliva, with samples stored at Ambient, 4C, -20C, -80C, and -190C.

We are seeking licensure to expand our services to include distributing vaccines to the United States Army Reserve Health Readiness Program. The Reserve Heath Readiness Program is the Department of Defense, Defense Health Agency, program that provides individual medial readiness (IMR), Dental Readiness, and deployment services to active duty and reserve service members geographically remote from military treatment facilities. RHRP mission is as follows:

Mission: Provide remote individual medical readiness for DOD service members beyond those available through military treatment facilities and organic capabilities

Purpose: Support DOD health readiness mission through delivery of medical and dental services required to meet Individual Medical Readiness (IMR) and Deployment Health standards

Success: Cost effective application of Service Component funding, maximizing the number of IMR, deployment, and approved services in the quantity, time, and place required.

Azenta US, Inc. also operates out of 4 US biorepositories in Indiana, California, and Ohio, plus international locations in Germany, Singapore, China, and Canada. Azenta Life Sciences manages more than 40M samples across all sites and has approximately 440 employees globally.

The Indianapolis, IN biorepository manages 33M samples stored in more than 1900 storage environments out of 2 adjacent locations of biorepository, laboratory, logistics, and office space. The location at 2910 Fortune Circle Drive West, Suite E, Indianapolis, IN 46241 has 120,000 sq. ft in space.

The Indianapolis site is ISO 9001:2015 registered, CAP accredited, holds a Japanese Foreign Manufacturers Accreditation for Storage, is licensed by the NRC and 6 U.S. States for tissue distribution, and regularly audited by FDA to GTP and by EMA to GMP.

The business model sees Azenta transport newly collected and established sample collections from US and international locations to Indianapolis where they are individually registered with up to 999 data elements per sample and stored at the requested temperature. All sample storage environments are fully qualified before use via IQ/OQ/PQ and are continuously monitored by validated, Part 11 compliant temperature monitoring software. All entrances to the facility are controlled via HID card access, with biorepository access only granted to individuals who work regularly in this area (operations, facilities, QA, etc.). Azenta uses a qualified security provider for perimeter security after hours and employs video cameras in the biorepository and on the exterior of the building.

AZENTA
LIFE SCIENCES

Approximately 400 shipments arrive/leave the Indianapolis facilities weekly. Samples are collected or transported from clinical trial sites e.g. hospitals, and from Pharmaceutical Company sites or their CRO partners. Within the USA samples are transported using Azenta owned mobile repositories or by established 3rd party couriers. Samples are transported into and out of the USA by 3rd party couriers.

Given its expertise in biological sample management clients are asking the Company to store and transport biological prescription drug products including emerging cell and gene therapies, and consequently the Company is seeking the required approvals to be able to provide this service at its 2 adjacent Indianapolis locations.

We are also Drug Distributor accredited (DDA) by the National Association of Board of Pharmacy (NABP).

CERTIFICATE OF EXISTENCE

To Whom These Presents Come, Greeting:

I, DIEGO MORALES, Secretary of State of Indiana, do hereby certify that I am, by virtue of the laws of the State of Indiana, the custodian of the corporate records and the proper official to execute this certificate.

I further certify that records of this office disclose that

AZENTA US, INC.

duly filed the requisite documents to commence business activities under the laws of the State of Indiana on January 23, 2004, and was in existence or authorized to transact business in the State of Indiana on April 07, 2023.

I further certify this Foreign For-Profit Corporation has filed its most recent report required by Indiana law with the Secretary of State, or is not yet required to file such report, and that no notice of withdrawal, dissolution, or expiration has been filed or taken place. All fees, taxes, interest, and penalties owed to Indiana by the domestic or foreign entity and collected by the Secretary of State have been paid.

In Witness Whereof, I have caused to be affixed my signature and the seal of the State of Indiana, at the City of Indianapolis, April 07, 2023

CERTIFICATE OF AMENDMENT

TO

CERTIFICATE OF INCORPORATION

OF

BROOKS LIFE SCIENCES, INC.

It is hereby certified that:

1. The name of the corporation (hereinafter called the "Corporation") is Brooks Life Sciences, Inc.

2. The date of filing of the original Certificate of Incorporation of the Corporation with the Secretary of State of the State of Delaware was December 19, 2003. A Restated Certificate of Incorporation of the Corporation was filed with the Secretary of State of the State of Delaware on November 30, 2015, as amended by a Certificate of Amendment to Certificate of Incorporation of the Corporation filed with the Secretary of State of the State of Delaware on September 30, 2019.

3. The Restated Certificate of Incorporation, as amended, is hereby further amended by deleting Article First in its entirety and by adding the following new Article First in lieu thereof:

"*FIRST*: The name of the corporation (hereinafter called the "Corporation") is

Azenta US, Inc."

4. The amendment of the Restated Certificate of Incorporation, as amended, herein certified, has been duly adopted in accordance with the provisions of Section 141 and Section 242 of the General Corporation Law of the State of Delaware.

[The remainder of this page is intentionally left blank.]

DocuSign Envelope ID: 3C2E8F95-EC07-442F-A7FB-AAE6235A6F61

IN WITNESS WHEREOF, the Corporation has caused this Certificate of Amendment to Certificate of Incorporation of the Corporation to be signed by its duly authorized officer on the 1st day of November, 2021.

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. CIC1923434

Application/License No. _____

Azenta US, Inc., doing or intending to do business as a
(Applicant/Principal)
pharmaceutical wholesaler, whose address for purposes of service is
2910 Fortune Circle West, Suite E, Indianapolis, IN 46241, as
(Address of Applicant/Principal)
PRINCIPAL, and Capitol Indemnity Corporation, a
(Surety Company)
corporation organized under the laws of the state of Wisconsin
(State of Incorporation)
and authorized to transact a general surety business in the State of

Nevada, whose address for purposes of service is
P.O. Box 5900, Madison, WI 53705-0900 as
(Address of Surety)
SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of ONE HUNDRED THOUSAND DOLLARS ($100,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on October 17th, 2022.
(Effective Date)

WHEREAS, the provisions of Nevada Revised Statutes (NRS) 639.515 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $100,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS
639.515. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 6th day of October, 2022.

CAPITOL INDEMNITY CORPORATION
POWER OF ATTORNEY

CIC1923434
Bond Number

KNOW ALL MEN BY THESE PRESENTS, That the **CAPITOL INDEMNITY CORPORATION**, a corporation of the State of Wisconsin, having its principal offices in the City of Middleton, Wisconsin, does make, constitute and appoint

------ANETT CARDINALE; SARAH HANCOCK; KATHRYN KLEINSCHMIDT; BRIAN MCCARTER; JOSEPH R. WILLIAMS; ANNETTE WISONG-------

its true and lawful Attorney(s)-in-fact, to make, execute, seal and deliver for and on its behalf, as surety, and as its act and deed, any and all bonds, undertakings and contracts of suretyship, provided that no bond or undertaking or contract of suretyship executed under this authority shall exceed in amount the sum of

---------- ALL WRITTEN INSTRUMENTS IN AN AMOUNT NOT TO EXCEED: $20,000,000.00 ----------

This Power of Attorney is granted and is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of **CAPITOL INDEMNITY CORPORATION** at a meeting duly called and beld on the 15th day of May, 2002.

"**RESOLVED,** that the President, Executive Vice President, Vice President, Secretary or Treasurer, acting individually or otherwise, be and they hereby are granted the power and authorization to appoint by a Power of Attorney for the purposes only of executing and attesting bonds and undertakings, and other writings obligatory in tbe nature thereof, one or more resident vice-presidents, assistant secretaries and attorney(s)-in-fact, each appointee to have the powers and duties usual to such offices to the business of this company; the signature of such officers and seal of the Company may be affixed to any such power of attorney or to any certificate relating thereto by facsimile, and any such power of attorney or certificate bearing such facsimile signatures or facsimile seal shall be valid and binding upon the Company, and any such power so executed and certified by facsimile signatures and facsimile seal shall be valid and binding upon the Company in the future with respect to any bond or undertaking or other writing obligatory in the nature thereof to which it is attached. Any such appointment may be revoked, for cause, or without cause, by any of said officers, at any time."

In connection with obligations in favor of the Florida Department of Transportation only, it is agreed that the power and authority herehy given to the Attorney-in-Fact includes any and all consents for the release of retained percentages and/or final estimates on engineering and construction contracts required by the State of Florida Department of Transportation. It is fully understood that consenting to the State of Florida Department of Transportation making payment of the final estimate to the Contractor and/or its assignee, shall not relieve this surety company of any of its obligations under its bond.

In connection with obligations in favor of the Kentucky Department of Highways only, it is agreed that the power and authority hereby given to the Attorney-in-Fact cannot be modified or revoked unless prior written personal notice of such intent has been given to the Commissioner – Department of Highways of the Commonwealth of Kentucky at least thirty (30) days prior to the modification or revocation.

IN WITNESS WHEREOF, the **CAPITOL INDEMNITY CORPORATION** has caused these presents to be signed by its officer undersigned and its corporate seal to he hereto affixed duly attested, this 1st day of Septemher, 2022.

Inspector Notes: Azenta stores APIs for Eli Lilly and Company. APIs are stored temporarily for Lilly and shipped back to Lilly as needed. This facility is strictly a 3PL, and will continue to operate as a 3PL when it distributes vaccines in the near future. There is no insulin stocked at this facility so there was no ReliOn insulin. In a review of the license list and the states into which Azenta ships, the facility is shipping only clinical trial materials to the following states for which it is not licensed as a 3PL: CA, DC, GA, MA, MD, NY, PA, RI, VA, and WA. Mr. Tillman states that a 3PL license is not required to ship clinical trial materials. Mr. Tillman also states the tissue sample owner must be licensed as IRB, Institutional Review Board, in those states to which Azenta is shipping and unlicensed as a 3PL. When they ship the vaccines they will distribute in the future, they will be licensed as a 3PL in all states where required.

Type(s) of Operations Type "X" for all that apply			
AD - API Distributor		AR - API Repackager	
DD - Prescription Medical Device Distributor		IND - Investigational New Drug Distributor	
MFR - Manufacturer		OF - Outsourcing Facility	
OTC - OTC Medical Device Distributor		RD - Reverse Distributor	
RPKG - Repackager of Finished Prescription Drugs		SD - Sample Distributor	
VD - Virtual Distributor		VET - Veterinary Prescription Drug Distributor	
VM - Virtual Manufacturer		WD - Wholesale Distributor of Prescription Drugs	
3PL - Third Party Logistics Provider	X	Other	

Provide a brief description of the operations at the facility:

Azenta Life Sciences is a third party logistics provider (3PL) that handles biological samples from individuals under clinical trial, as well as biologics such as tissues for transplant. The business currently houses clinical trial material for AlloVir. For the states in which the facility ships the clinical trial material for AlloVir, they are not required to be licensed, however, the tissue sample owner must be licensed by the IRB, Institutional Review Board. These states include: CA, DC, GA, MA, MD, NY, PA, RI, VA, and WA. They currently store about 50 million samples for their clients. The facility stores APIs for Eli Lilly and Company (Eli Lilly). APIs are stored temporarily for Eli Lilly and shipped back to Eli Lilly as needed. Going forward they will continue to hold biological samples from clinical trials, research trials, and tissues from clients. In the future, the facility will add commercial vaccines and other therapeutics to the 3PL inventory. Their plan is to store and transport biologics including emerging cell and gene therapies for manufacturers. The facility will obtain the additional 3PL licensure needed when the inventory expands.

National Association of Boards of Pharmacy®
Supply Chain Inspection Form

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
	A. Background		
1	Is the DR (or facility manager/director) present for the inspection? ***If no, list the DR designee/alternative on duty and present for the inspection.***	Yes	
2	Is the DR employed full-time at the facility? ***Record the number of hours worked per week on site.***	Yes	The DR works about 45 to 50 hours per week.
3	Are there any businesses adjacent to the facility that are involved in the sale, purchase, trade, delivery, handling, storage, receipt, dispensation, or administration of prescription drugs/devices? ***If yes, list the adjacent businesses.***	No	
4	If yes to the question above, are the adjacent businesses affiliates?	N/A	
5	Are any businesses co-located with the facility? ***If yes, list the co-located businesses.***	No	
6	If yes to the question above, are the co-located businesses affiliates?	N/A	
7	Do any inter (or intra)-company transfers occur between affiliate businesses (co-located and otherwise)? ***If yes, a description of the transfers is needed.***	No	

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
8	If the facility is a manufacturer or repackager/labeler, does the facility label drug products that appear in FDA's NDC directory? ***If yes, take photos of what's labelled.****	N/A	This facility operates strictly as a 3PL.
9	What is the approximate number of prescription drug and/or device orders shipped per day? ***Please specify the measurement used (eg, lines, SKUs, eaches).***		There are no prescription drugs or Rx/OTC devices shipped. There are about 28 shipments per day of biologics/clinical trial material.
10	What is the number of customers to whom the facility ships prescription drugs and/or devices? ***Request a list of all customers to whom they ship prescription drugs and/or devices, sorted alphabetically, by city/state and by type (WD/3PL/Pharmacy/Clinic/Practitioner/Hospital/Gov't Entity, etc).***		NA-There are no prescription drugs or devices shipped.
11	What is the facility's number of prescription drug sources? ***Request a list of prescription drug and/or device sources, sorted alphabetically and by type (MFR/WD). Compare this list to the list provided with the application.*** ***List any new sources.***		NA-There are no prescription drugs or devices shipped.
12	What is the number of non-manufacturer prescription drug and/or device sources?		NA- There are no prescription drugs or devices. Sources are either from a manufacturer or they are patient specific tissue samples for a clinical trial.
13	What are the types of sources for prescription drugs, prescription medical devices, OTC medical devices (eg, manufacturer, repackager, wholesale distributors)?		NA- There are no prescription drugs or devices. Sources are either from a manufacturer or they are patient specific tissue samples for a clinical trial.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
14	What are the facility's sourcing requirements for prescription drugs, prescription medical devices, OTC medical devices (eg. direct from a MFR, from a NABP Drug Distributor accredited WD who purchases directly from a MFR, or purchased the OTC medical device from the manufacturer or a distributor who purchased the OTC medical device from the manufacturer, etc)?		NA- There are no prescription drugs or devices. Sources are either from a manufacturer or they are patient specific tissue samples for a clinical trial.
15	List the types of products distributed by the facility (eg, Rx drugs, OTC drugs, API, Vet, samples, compounded, Rx device, OTC device (eg, diabetic test strips)).		The facility distributes clinical trial material and stores patient specific tissue samples for a clinical trial. Vaccines will be shipped as soon as the new contract is in place.
16	What is the approximate percentage of brand name prescription drugs that are sourced directly from the manufacturer?		All biologics are in clinical trials and are not branded; however, 100% of the clinical trial biologics come from the manufacturers.
17	What is the approximate percentage of all prescription drugs and/or devices that are sourced from non-manufacturers?		All biologics are in clinical trials and are not branded, so zero percent comes from non-manufacturers.
	B. Additional Record Requests/Reviews		
18	Are facility licenses, permits and registrations (state, controlled substances, DEA, FDA, etc) available and current? ***If any are expired or not posted or available for viewing, record which ones are expired and/or describe the situation.***	Yes	

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
19	IF there are sources other than manufacturers/primary wholesale distributors on the Source List that was requested in Question 9; OR IF there are additional sources on the Source List generated in Question 9 when compared to the Source List submitted with their application. ***Request the facility's Accounts Payable for the prescription drugs/devices for up to six months dependent on volume.*** ***List any additional sources not previously disclosed.***		NA- This facility operates strictly as a 3PL.
	C. DSCSA Compliance (Section 582 of the FD&C Act)		
20	Does the facility receive product tracing data and document its receipt? ***Describe.***	N/A	This facility operates strictly as a 3PL.
21	Does the facility provide product tracing data to each subsequent owner prior to or at the time of the transaction? ***Describe.***	N/A	This facility operates strictly as a 3PL.
22	Does the facility have systems in place to enable compliance with the verification requirements for suspect and illegitimate products? ***If yes, describe.***	N/A	This facility operates strictly as a 3PL.
23	Does the facility have a process for quarantining suspect products? ***If yes, describe.***	N/A	This facility operates strictly as a 3PL.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
24	Does the facility have a process for investigating suspect products to determine if they are illegitimate? ***If yes, describe.***	N/A	This facility operates strictly as a 3PL.
25	Does the facility have a process for validating applicable transaction information/transaction history (TI/TH) when suspect product determinations are made? ***If yes, describe.***	N/A	This facility operates strictly as a 3PL.
26	Does the facility have a process for maintaining records of suspect product investigations for six years? ***If yes, describe.***	N/A	This facility operates strictly as a 3PL.
27	Does the facility have a process for coordinating illegitimate product determinations with the manufacturer? ***If yes, describe.***	N/A	This facility operates strictly as a 3PL.
28	Does the facility have a process for dispositioning illegitimate products? ***If yes, describe.***	N/A	This facility operates strictly as a 3PL.
29	Does the facility have a process for assisting other trading partners in dispositioning illegitimate product? ***If yes, describe.***	N/A	This facility operates strictly as a 3PL.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
	D. Legitimate OTC Medical Device Determination		
35	Does the facility have systems in place to enable compliance with the verification requirements for legitimate OTC medical devices? ***If yes, describe.***	N/A	This facility operates strictly as a 3PL.
36	Does the facility have a process for quarantining the medical device within their possession until such medical device is cleared or dispositioned? ***If yes, describe.***	N/A	This facility operates strictly as a 3PL.
37	Does the facility have a process for conducting an investigation in coordination with manufacturers, vendors, and customers, as applicable, to determine whether the medical device is legitimate? ***If yes, describe.***	N/A	This facility operates strictly as a 3PL.
38	Does the facility have a process for maintaining the records of a suspect product investigation for no less than three years after the conclusion of the investigation?	N/A	This facility operates strictly as a 3PL.
	E. Laws/Regulations		
39	Is the facility and/or its owners/officers the subject of any open or pending regulatory, civil, or criminal matters related to the distribution of drugs or devices? ***Provide details, if applicable.***	No	

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
30	Does the facility have a process for retaining samples of illegitimate products? ***If yes, describe.***	N/A	This facility operates strictly as a 3PL.
31	Does the facility have a process for notifying FDA and all immediate trading partners within 24 hours of illegitimate product determinations? ***If yes, describe.***	N/A	This facility operates strictly as a 3PL.
32	Does the facility have a process for responding to illegitimate product notifications from FDA and trading partners? ***If yes, describe.***	N/A	This facility operates strictly as a 3PL.
33	Does the facility have a process for terminating illegitimate product notifications in consultation with FDA? ***If yes, describe.***	N/A	This facility operates strictly as a 3PL.
34	Does the facility have a process for maintaining records of the disposition of an illegitimate product for not less than six years? ***If yes, describe.***	N/A	This facility operates strictly as a 3PL.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
40	Does the facility have a process for monitoring changes in applicable state and federal laws and regulations? ***If yes, describe the process.*** ***If no, describe how the facility becomes aware of changes in state/federal laws/regulations that may impact their operations.***	Yes	The Azenta regulatory department tracks all changes in state and federal regulations. They are on the mailing list for all state regulatory agencies in the states to which they ship. The facility also receives communication from the FDA for drugs and tissue management.
	F. Reporting and Notifications		
41	Has the facility received any suspect prescription drugs/devices and/or OTC medical device verification requests from FDA?	No	This facility operates strictly as a 3PL and does not handle prescription drugs/devices or OTC medical devices.
42	If suspect verification requests were received from FDA, does the facility have records of corresponding suspect product investigations? ***Review records (requested in advance) and note relevant observations (eg, what was the facility's role? Is the facility utilizing the same source? What products were involved?).***	N/A	This facility operates strictly as a 3PL and does not handle prescription drugs/devices or OTC medical devices.
43	Has the facility made any illegitimate prescription drugs/devices and/or OTC medical device notifications to FDA and immediate trading partners?	No	This facility operates strictly as a 3PL and does not handle prescription drugs/devices or OTC medical devices.
44	If illegitimate notifications to FDA and immediate trading partners were made, does the facility have records of corresponding illegitimate product dispositions? ***Review records (requested in advance) and note relevant observations (eg, what was the facility's role? Is the facility utilizing the same source? What products were involved?).***	N/A	This facility operates strictly as a 3PL and does not handle prescription drugs/devices or OTC medical devices.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
45	Has the facility received any illegitimate prescription drugs/devices and/or OTC medical device notifications from FDA or trading partners?	No	This facility operates strictly as a 3PL and does not handle prescription drugs/devices or OTC medical devices.
46	If illegitimate notifications from FDA or trading partners were received, does the facility have records of corresponding suspect product investigations? ***Review records (requested in advance) and note relevant observations (eg, what was the facility's role? Is the facility utilizing the same source? What products were involved?).***	N/A	This facility operates strictly as a 3PL and does not handle prescription drugs/devices or OTC medical devices.
	G. Facility Licenses/Permits/Registrations		
47	Has the facility been inspected or visited by the DEA? ***If yes, request to see the inspection report, and indicate the inspection/visit date and note any deficiencies.***	N/A	There are no controlled substances.
48	Using the Customer List generated by the facility, compare it to the License List. Are there any customers in states where the facility is not licensed?	Yes	In a review of the license list and the states into which Azenta ships, the facility is shipping only clinical trial materials to the following states for which it is not licensed as a 3PL: CA, DC, GA, MA, MD, NY, PA, RI, VA, and WA. Mr. Tillman stated that a 3PL license is not required to ship clinical trial materials. Mr. Tillman also stated the tissue sample owner must be licensed as an IRB (Institutional Review Board) in those states to which Azenta is shipping and unlicensed as a 3PL. When they ship the vaccines in the future they will be licensed as a 3PL in all states where required.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
49	***If yes, list any states where the facility is not licensed.***		In a review of the license list and the states into which Azenta ships, the facility is shipping only clinical trial materials to the following states for which it is not licensed as a 3PL: CA, DC, GA, MA, MD, NY, PA, RI, VA, and WA. Mr. Tillman sates that a 3PL license is not required to ship clinical trial materials. Mr. Tillman also states the tissue sample owner must be licensed as IRB (Institutional Review Board) in those states to which Azenta is shipping and unlicensed as a 3PL. When they ship the vaccines in the future they will be licensed as a 3PL in all states where required.
50	If the facility is a wholesale distributor or 3PL: Has the facility reported to the FDA as such? ***Confirm.*** ***If no, describe why the facility has not reported.***	Yes	The printout from www.fda.gov indicating reporting from the facility to the FDA was observed.
51	Does the facility have a process for preventing the distribution of products to states where it is not licensed, where licensure is required? ***If yes, describe the process.***	Yes	The software system provides controls that will prevent shipments to states in which a license is required but not held.
	H. Personnel		
52	Review the employee files (requested in advance) for two staff members plus a supervisor and the designated representative to review the following: initial criminal background check and toxicology screening, general training records (new hire and recurring training), and specific job training including P&Ps, safety training, and performance reviews, including any disciplinary actions. ***Describe any missing information in the employee files provided.***		Files were reviewed for: two (2) BioBank Regulated Product Specialists, a BioBank Team Supervisor and the DR. There were no issues observed.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
53	Does the facility conduct initial criminal background checks?	Yes	
54	Does the facility conduct for cause criminal background checks?	Yes	
55	Does the facility conduct initial toxicology screening?	Yes	
56	Does the facility conduct for cause toxicology screening?	Yes	
57	Does the facility conduct initial training for new employees related to their assigned tasks?	Yes	
58	Does the facility conduct ongoing training for employees related to their assigned tasks?	Yes	
	I. Source/Vendor Verification		
59	Can the facility demonstrate how they determine that their sources are legitimate/authorized Trading Partners? ***Select sources (one of each different types, MFR, WD, 3PL, etc.) and have the facility demonstrate how they verify that each source is legitimate or authorized under the FD&C Act.*** ***If yes, describe their process.***	Yes	The Compliance team, Henry Tillman and Rosalind Norris, use primary source verification to determine legitimacy of all clients.
60	Does the facility ensure trading partners provide prescription drugs/devices that were legitimately obtained by each previous owner? ***If yes, describe their process.***	N/A	This facility operates strictly as a 3PL and does not handle prescription drugs/devices.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
61	Does the facility ensure that the prescription drugs and/or devices it receives were not previously distributed to pharmacies or healthcare entities; or, were not distributed in violation of contracts for "own use" or other restrictions limited by group purchasing contracts or federal purchasing programs, such as 340B? ***If yes, describe their process.***	N/A	This facility operates strictly as a 3PL and does not handle prescription drugs/devices.
62	Does the facility have a process to ensure OTC medical devices are purchased or received directly from the manufacturer or from a distributor that purchased from the manufacturer? ***Describe their process.***	N/A	There are no OTC medical devices.
63	Does the facility purchase APIs?	No	This facility operates strictly as a 3PL but does store APIs for Eli Lilly and Company (Eli Lilly). The facility will store the API until directed by Eli Lilly to ship the API back to Eli Lilly.
64	If purchasing APIs, does the facility establish the legitimacy of the APIs? ***If yes, describe how this is performed.***	N/A	This facility operates strictly as a 3PL but does store APIs for Eli Lilly and Company (Eli Lilly). The facility will store the API until directed by Eli Lilly to ship the API back to Eli Lilly.
65	If purchasing APIs, does the facility establish the legitimacy of its API suppliers? ***If yes, describe how this is performed.***	N/A	This facility operates strictly as a 3PL but does store APIs for Eli Lilly and Company (Eli Lilly). The facility will store the API until directed by Eli Lilly to ship the API back to Eli Lilly.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
	J. Customer Verification		
66	Can the facility demonstrate how customers are determined to be legitimate/authorized Trading Partners? ***Select customers (select one of each type such as pharmacy, clinic, medical doctor, wholesale distributor, etc.) and have the facility demonstrate how they verify that each customer is legitimate or authorized under the FD&C Act.*** ***If yes, describe their process.***	No	Shipments are made to "customers" as advised by the client and biologics owner.
	K. Facility		
67	What is the approximate size of the entire facility?		117,784 square feet
68	What is the approximate size of the storage and handling area?		75,020 square feet
69	Is the facility of sufficient size, construction, and design to provide adequate lighting, separation of work areas, and storage and movement of product in an orderly and safe manner? ***Describe deficiencies, if applicable.***	Yes	There were no deficiencies observed.
70	Are restrictions enforced on food, drink, and/or personal items (purses, backpacks, large coats) in the prescription processing and storage areas? ***Describe observations.***	Yes	There were no deficiencies observed.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences

e-Profile ID: 1570416

Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
71	Are housekeeping functions sufficient to ensure the facility is kept in a clean and well-maintained manner at all times? ***Describe their process.***	Yes	The facility uses an outside cleaning service, QBM, for the office area. There is a weekly cleaning schedule managed by employees for the balance of the facility, which is signed off by team leaders.
72	*Does the facility have a pest control process, including documented periodic inspections?* ***Describe their process.*** ***Request and review the three most recent inspection reports.*** ***Document any observations.***	Yes	W. B. McCloud of Memphis, TN manages pest control and comes monthly. Reports reviewed indicated minimal to no activity.
73	Does the facility have a crisis plan?	Yes	
74	***If yes, describe what their plan of action is in the event the facility structure is compromised, especially for those facilities with controlled substances.***		Damage is assessed and the area is secured with on site management until contracted security arrives on site. There are no controlled substances.
75	Does the facility protect critical records (paper and electronic) during emergency conditions? ***If yes, describe how.***	Yes	Paper records are stored in a fireproof room and all electronic records are backed up in real time to an Amazon cloud.
76	Does staff receive training related to crisis operations? ***If yes, describe the training and frequency of this training (at time of hiring, annually, etc).***	Yes	Training is upon hire and annually.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
77	Does the facility staff receive training on how to conduct after-action assessments of prescription drugs and/or devices to ensure their integrity following a crisis? ***If yes, describe the training and frequency of this training (at time of hiring, annually, etc).***	Yes	This training is at time of hire and annually.
78	Does the facility have a method to maintain adequate power (such as a generator) during emergency conditions? ***If yes, describe.***	Yes	There are 6 on site generators that operate the entire facility if required. The power may be maintained for 5 to 7 days dependent on usage required.
79	*If the facility has a generator, does the facility perform preventative maintenance and regular testing to ensure functionality when needed?* ***If yes, describe what is in place.***	Yes	There is a quarterly preventative maintenance provided by Cummins, as well as an annual load test by Cummins. The Azenta maintenance team also tests the system weekly.
80	If preventative maintenance and testing is performed, is it documented? ***If yes, describe how.***	Yes	Documentation is managed electronically via Blue Mountain, which provides a written work order documenting the maintenance.
81	If components of crisis operation procedures are outsourced (such as security or climate controlled off-site storage facilities), are contracts/formal agreements in place guaranteeing the availability of the services at time of a crisis? ***Provide details.***	Yes	There is a contract with Securitas for security for crisis operation.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
	L. Security		
82	Does the facility have perimeter lighting? ***Describe* the perimeter lighting.**	Yes	Perimeter lighting is provided by LED lighting. The small parking lot is lighted by the perimeter lighting on the building.
83	Is the facility/property enclosed to prevent unauthorized access (eg, fenced, gated, etc)? ***If yes, describe.***	No	
84	Does the facility have a security system? ***Describe the facility's security system (contact alarms, motion detectors, glass break detectors, etc) for its product storage areas. Does it include all entrances/exits or other openings (windows that open, skylights, roof access doors) during and after business hours?***	Yes	Security is provided by Hoosier Security. Electronic badge access is a Galaxy system at all exterior doors and limited access interior doors. CCTV is provided by Avigilon, and there are approximately 80 cameras internally and externally. There are no opening windows or skylights and one roof access protected by a key lock.
85	Does the facility have a contract with a vendor to provide building security? ***If yes, document the name of the company and describe the services provided by the security vendor.***	No	
86	Are visitors required to sign in and sign out and are escorts required while in the facility? ***Describe their process.***	Yes	Visitors must sign in and complete a questionnaire at sign in. A photo ID/pass is generated, and the visitor must be escorted at all times.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
87	Does the facility have a process for monitoring trash to prevent diversion of prescription drugs and prescription medical devices/OTC devices (prevention of prescription drugs and prescription medical devices/OTC devices being hidden in refuse and retrieved afterward)? ***Describe their process.***	Yes	All trash is placed in an internal compactor and is picked up by the vendor, Republic. There are no prescription drugs or devices in the facility.
88	Is any area of the facility shared with another business? ***If yes, identify and describe the other business (eg, pharmacy, other facility, reverse distributor, repackager, etc).***	No	
89	If the facility is shared with another business, does the facility engage in prescription drug transactions or other distributions with the co-located business? ***If yes, describe.***	N/A	
90	If the facility is shared with another business, ***describe how the facility ensures physical and financial operations are properly separated.***		
91	Are computers password-protected?	Yes	
92	Does the facility maintain computer system access security? ***If yes, describe the process (eg, frequent password changes, strength of password methodology, biometric, etc).***	Yes	Passwords must be changed every 90 days and must contain a minimum of 8 characters, with 3 of 4 criteria met, including upper case letters, lower case letters, numerals, and one non-alphanumeric symbol.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences

e-Profile ID: 1570416

Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
93	Is access to data and systems limited to critical tasks related to an employee's job? ***If yes, describe the process used to prevent employees from accessing data/systems unrelated to their job critical task.***	Yes	Access is requested by the employee's supervisor and requires approval by the DR.
94	Is computer data backed up? ***If yes, describe how often data is backed-up.***	Yes	Data is backed up in real time.
95	Is backup data stored off-site? ***If yes, describe where.***	Yes	Data is backed up in an Amazon cloud.
96	Do others (corporate, related divisions, or other companies) have access to computer data? ***If yes, provide details that include security of the transmitted information (encryptions/SSL or other).***	Yes	Corporate has access to all data. All transmissions are on the corporate computer system and do not require special encryption.
	M. In-Bound Product and Receiving		
97	Do employees demonstrate knowledge of and techniques in each of the following areas ***(if not actively receiving product at the time of the inspection, have employee describe process):***		
98	The process for examining the physical package, case, or tote for signs or prior opening, broken seals, damage, leaks, repairs, or alterations? ***Describe the process.***	Yes	All items are examined upon delivery for obvious damage prior to acceptance.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences

e-Profile ID: 1570416

Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
99	The process for **not** receiving or entering products into inventory under certain circumstances, which may include: damaged product, lack of transaction documents, etc? ***Describe the process.***	N/A	Shipments are never refused, but may be placed in quarantine status with the client contacted for direction should there be issues such as damage.
100	The process they follow when the receipt does not match the purchase order and packing slip? ***Describe the process.***	Yes	Item is quarantined and the client/owner is contacted for resolution.
101	The process for moving applicable prescription drugs and/or devices to quarantine when the preceding issues are detected? ***Describe the process.***	Yes	While there are no prescription drugs or devices, items are immediately quarantined physically and electronically when necessary.
102	The process for identifying temperature sensitive items and ensuring that temperatures have been maintained within labeled requirements during transit? ***Describe the process.***	Yes	The external package is frequently marked and identified as temperature sensitive and the packing list may also identify the item. A project screen in the computer system may also advise that a temperature monitoring device is in the shipment.
103	The process for moving temperature sensitive inventory to its appropriate temperature storage location. ***Describe the process.***	Yes	The project screen in the computer system advises personnel at which temperature the item is to be stored. If there is no project in the system for the material sent, the client is contacted or the item is stocked based on how it was shipped from the client.
104	The process for ensuring product tracing information is received, when applicable, prior to placing products into active stock? ***Describe the process.***	N/A	This facility operates strictly as a 3PL, and does not have tracing information.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
105	The process for identifying returned items and moving them to quarantine in a timely manner? ***Describe the process.***	Yes	Clinical trial samples may be accepted for return but are not quarantined and are returned to inventory. For the vaccines that will be distributed, the process has not yet been established but will be quarantined until specific criteria has been met as established by the client/owner.
	N. Product Tracing/Product Integrity		
106	Does the facility distinguish whether the prescription drugs it has sold or distributed are products subject to product tracing requirements under the DSCSA? ***If yes, describe their process.***	N/A	This facility operates strictly as a 3PL.
107	Does the facility distribute prescription drugs that are not products under the DSCSA? ***If yes, describe the types of prescription drugs distributed that are not products.***	N/A	This facility operates strictly as a 3PL.
108	Does the facility purchase, sell, and/or distribute compounding kits? ***Describe the components of the kits (diluents, excipients, base, etc).*** ***Take photos of kit label that includes NDC, or if any medical claims are made, and contents of the kit itself.****	N/A	This facility operates strictly as a 3PL.
109	***If yes, list the sources of the kits and include the manufacturer(s) name.***		
110	***If yes, describe the components of the kits (diluents, excipients, base, etc).*** ***Take photos of kit label that includes NDC, or if any medical claims made, and contents of the kit itself.****		

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
111	***Request complete product tracing records:*** transaction information, transaction history, and transaction statement (TI, TH, TS). Select at least five transactions from the previously-requested receipt and sales reports. ***Using the transactions data, review and answer Questions 112 - 116 below.***		This facility operates strictly as a 3PL.
112	Was the facility able to produce complete product tracing records: transaction information, transaction history, and transaction statement (TI, TH, TS) for each product? ***Describe any challenges with this request.***	N/A	This facility operates strictly as a 3PL.
113	Do all the transaction histories begin with the manufacturer (a repackager is not a manufacturer) or include a direct purchase statement from the facility that purchased the product directly from the manufacturer? ***Describe anything suspicious.***	N/A	This facility operates strictly as a 3PL.
114	Were all the direct sources referenced in the transaction histories included in the source list provided by the facility? ***Document any sources not included in the source list, include their shipping address.***	N/A	This facility operates strictly as a 3PL.
115	Do any sources in the transaction histories (or source list) appear to be pharmacies? ***Document any sources that appear to be pharmacies, include their shipping address.***	N/A	This facility operates strictly as a 3PL.
116	Do any of the direct sources/previous owners referenced in the transaction histories appear to be otherwise suspect? ***If yes, describe.***	N/A	This facility operates strictly as a 3PL.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
117	***During the facility walk-through, do any of the drug products observed exhibit signs of diversion/counterfeiting:*** -Missing inserts or outserts with different paper thickness or print types; -Dirty or worn looking labels; -Labels that look crooked or different from the rest; -Glue residues (from prescription labels that were removed during the diversion process); -Numerous loose bottles consisting of multiple lot numbers; or -Bottles that stand out/look different from the rest (different caps or other packaging features)? ***Describe observations.*** ***Request that the facility quarantine any products that exhibit signs of diversion/counterfeiting and record product names/descriptions/lot numbers/quantities/locations when applicable.*** ***Pictures of the suspect products may also be appropriate.**** ***Record product information, lot number, etc.***	N/A	There are no drug products distributed and no vaccines in stock at this time. There were no issues observed in the tour.
	O. Temperature and Humidity		
118	Does the facility have both heating and cooling (HVAC) for all product storage areas? ***Describe the heating and cooling (HVAC) system.***	Yes	There are approximately 35 HVAC units on the roof which provide cooling and heating for the facility, mostly controlled by facilities management. Some rooms such as conference rooms have thermostats. Heating is by natural gas, with electrical heat in the office areas.
119	Does the facility maintain an electromechanical or electronic recording and monitoring system that operates continuously (24/7/365) in all prescription drug/device storage areas?	Yes	

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
120	***If yes, describe the process by which the facility captures temperature/humidity data in each temperature environment (CRT, refrigerator, freezer).***		The electronic monitoring system which captures all temperatures and humidity is Ocea. There are monitors in all areas of the facility including CRT, and all refrigerated and frozen areas.
121	Are personnel made aware of excursions in real time?	Yes	
122	***If yes, describe the manner in which the notifications are made and to whom.***		Notifications are made to the on-call team (6 people that rotate weekly) via email, and phone call.
123	Are temperature/humidity data reviewed periodically?	No	
124	***If yes, describe the frequency the temperature/humidity data is reviewed and who reviews them.***		There is no scheduled review, unless there is an excursion or alert.
125	Has the facility experienced any temperature excursions within any of their different temperature storage environments?	Yes	
126	***If yes, describe what steps were taken by the facility, to include product assessment and corrective actions.***		The on-call team reviews the excursion and may move the material if the excursion requires inventory movement and the issue cannot be immediately resolved.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences

e-Profile ID: 1570416

Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
127	Are probes calibrated and what is the frequency of calibration? Request the most recent calibration records for the temperature/humidity recording devices. ***Record the calibration frequency and date of the last calibration or replacement.***	Yes	Probes are calibrated or replaced annually. The last calibration/replacement was 9/15/2022.
128	Does the facility store prescription drugs and/or devices requiring controlled room temperature (CRT) (20°C - 25°C/68°F - 77°F)?	Yes	
129	***If yes, record the current temperatures in each CRT area within the facility.***		The current CRT area is 20.2 degrees C.
130	Does the facility have temperature alarm settings for each CRT area within the facility?	Yes	
131	***If yes, record the temperature alarm settings for each CRT area within the facility.***		The alarm settings are 19.9 to 25.1 degrees C.
132	Is the current temperature(s) within alarm settings?	Yes	

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences

e-Profile ID: 1570416

Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
133	***If temperatures are outside the alarm settings, describe the facility's response?***		Phone calls and emails are sent to the on-call team who investigates the issue, and makes adjustments or moves inventory as required by the issue.
134	Request CRT temperature data from the previous January and July for review. Are there any excursions identified in the review of requested temperature data?	Yes	
135	***If yes, record the events (date, length of time, temperatures realized during the excursion), what corrective actions were taken and include product assessment.***		Excursions noted were: 1/15/2022, the CRT temperature rose to 25.4 C for 20 minutes before dropping below the excursion range. No action was required or taken due to the minimal excursion noted.
136	Do any prescription drugs and/or devices have refrigerated temperature requirements (2°C - 8°C/36°F - 46°F)? ***Record the number of refrigerators used for prescription drug/device storage.***	Yes	There are no prescription drugs or devices; however, there is one refrigerated area.
137	***If yes, record the current temperatures of each refrigerator.***		The refrigerated area, with 8 probes, is currently at a range of 4.2 to 6.2 degrees C.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
138	Does the facility have temperature alarm settings for each refrigerator within the facility?	Yes	
139	***If yes, record the temperature alarm settings for each refrigerator.***		The range is 1.9 to 8.1 degrees C.
140	Is the current temperature(s) within alarm settings?	Yes	
141	***If temperatures are outside the alarm settings, describe the facility's response?***		The on-call team reviews the excursion and may move the material if the excursion requires inventory movement and the issue cannot be immediately resolved.
142	Request temperature data from the previous January and July for each refrigerator. Are there any excursions identified in the review of the requested temperature data?	No	Data was not available for January 2022 as this is a new walk-in cooler which was activated 3/8/2022. The July 2022 data was reviewed.
143	***If yes, record the events (date, length of time, temperatures realized during the excursion), what corrective actions were taken and include product assessment.***		
144	Do any prescription drugs/devices have frozen/freezer temperature requirements (-25°C to 10°C/-13°F to 14°F)? ***Record the number of freezers used for prescription drug/device storage.***	Yes	There is one walk-in freezer maintained at -20 degrees C. There are 450 freezers maintained at -70 degrees C, 1100 freezers maintained at -80 C, and 1400 liquid nitrogen freezers.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
145	***If yes, record the current temperatures of each freezer.***		All freezer temperatures were within range.
146	Does the facility have temperature alarm settings for each freezer within the facility?	Yes	
147	***If yes, record the temperature alarm settings for each***		The range for -20 degrees C freezers is -15 to -25 C. The range for the -70 degrees C freezers is -60 to -80 degrees C. The range for the -80 degrees C freezers is -70 to -90 degrees C. The range for the liquid nitrogen freezers is -70 to -196 degrees C.
148	Is the current temperature within alarm settings?	Yes	
149	***If temperatures are outside the alarm settings, describe the facility's response?***		The on-call team reviews the excursion and may move the material if the excursion requires inventory movement and the issue cannot be immediately resolved.
150	Request temperature data from the previous January and July for each freezer. Are there any excursions identified in the review of the requested temperature data?	No	
151	***If yes, record the events (date, length of time, temperatures realized during the excursion), what corrective actions were taken and include product assessment.***		
152	Does the facility have products with humidity storage requirements (ie, APIs, medical devices, etc.)?	Yes	APIs stocked are owned by Eli Lilly and Company.
153	***If yes, record the current humidity settings.***		Humidity settings are 10% or less as required by the client.

National Association of Boards of Pharmacy®
Supply Chain Inspection Form

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
154	Does the facility have humidity alarm settings?	Yes	
155	***If yes, record the current humidity settings.***		10.1% is the alarm setting.
156	Is the current humidity level(s) within alarm settings?	Yes	
157	***If humidity is outside the alarm settings, describe the facility's response?***		The on-call team reviews the excursion and may move the material if the excursion requires inventory movement and the issue cannot be immediately resolved.
158	Request humidity data from the previous January and July. Are there any excursions identified in the review of the requested humidity data?	N/A	This is new service for the client starting July 7, 2022. Therefore, there was no January data for review.
159	***If yes, record the events (date, length of time, humidity levels realized during the excursion), what corrective actions were taken and include product assessment.***		The only excursion noted was during the first loading event on July 7, 2022. The humidity was restored within the range in 7 days after the material was loaded into the appliance. No corrective action was required or taken and time was required for the acclimation.
160	Is temperature mapping used to determine the placement and number of temperature/humidity probes in all areas where drugs/devices are stored (warehouse, refrigerator(s), freezer(s)? ***If yes, describe when the last mapping occurred and who performed the mapping.***	Yes	Mapping was performed by the Facilities Management team when the facility opened in 2012.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
161	If temperature mapping was not used, ***describe*** what the basis is for determining the placement and numbers of temperature/humidity probes in all storage ranges in the facility.		
	P. Quarantine		
162	Are quarantined products segregated from saleable inventory in a secured area? ***Describe how.***	Yes	Quarantined inventory is segregated physically and electronically.
163	Is there a segregated quarantine area in the refrigerator and freezer (if applicable)? ***Describe the location and provisions to prevent co-mingling.***	Yes	Inventory is in a quarantine freezer, and marked physically and electronically.
164	Are processes present to ensure security of quarantined controlled substances? ***Describe the process.***	N/A	There are no controlled substances.
165	Does the facility determine the disposition of quarantined prescription items (ie, destruction vs return to active stock)?	No	There are no prescription drugs, however, the biologics owner/client would determine disposition of all quarantined inventory.
166	***If yes, describe how.***		

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
167	***Describe who is responsible for making the disposition and how the disposition is recorded.***		The biologics owner/client would determine disposition of all quarantined inventory.
168	Does the facility have processes for handling recalled drugs/devices (prescription or OTC)? ***If yes, describe their process.***	N/A	There are no prescription drugs or devices distributed. Recalls are quarantined until disposition instructions are provided by the biologics owner/client.
169	Does the facility accept returned goods?	Yes	
170	If yes, are returned goods ever dispositioned to be returned to saleable stock? ***If no, describe what the facility's action plan when returned goods arrive.***	Yes	Biologics may be returned to inventory. The process for the return to stock for vaccines has yet to be developed but is will be in place prior to acceptance of vaccines.
171	Does the facility determine whether returned saleable stock was originally obtained from its facility? ***If yes, describe the process.*** ***If there is no process, describe how the facility establishes the legitimacy of these products?***	Yes	At this time, clinical trial material is simply returned, as it could have come only from this facility. In the future, for vaccines, the facility is developing a returned goods process.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
172	Does the facility establishes the integrity of saleable returns (eg, does the facility require customers to provide a record, evidence, or signed statement that the saleable returns were stored and shipped under conditions to preserve product integrity?)? ***If yes, describe the process.***	Yes	At this time, clinical trial material is simply returned, as it could have come only from this facility. In the future, for vaccines, the facility is developing a returned goods process.
173	Do prescription drug/device destruction occur in-house?	No	Stericycle manages this process.
174	***If yes, are disposals/destructions documented and witnessed by an appropriately authorized person?***	N/A	
175	Does the facility have a process for destroying/defacing drug and device cartons, empty containers/bottles, overwraps, package inserts, and packaging waste generated as part of regular operations to prevent its retrieval and use for counterfeiting or diversion? ***Describe the process.***	Yes	All packaging material is either shredded by Shredit or is placed in the secure dumpster.
176	Does the facility determine the hazard classification of its waste stream? ***If yes, describe the process.***	Yes	The client manages this at the time of the project and the Environmental Health and Safety group reviews all waste and determines the classification.
177	Are prescription drugs/devices are sent to a reverse distributor for destruction?	Yes	There are no prescription drugs or devices; however, Stericyle is the reverse distributor.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences

e-Profile ID: 1570416

Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
178	If yes, does the facility receive proof of destruction (i.e., certificate of destruction) to ensure what was sent for destruction was actually destroyed. ***If the facility does receive proofs of destruction, request to review the most recently received proof of destruction document.***	Yes	The last proof of destruction reviewed was dated 8/30/2022
	Q. Inventory		
179	Does the facility have an inventory management system. ***If yes, describe.***	Yes	BioInventory is the proprietary inventory management system. The system tracks all relevant data in real time. Full traceability is included, as well as biologics life from receipt to outgoing shipment, quarantine, lot numbers, expiration dates and all other related inventory information.
180	Is the facility inventory management system 21 CFR Part 11 compliant? ***If not, describe.***	Yes	
181	Do employees demonstrate knowledge of and techniques in each of the following areas:		
182	The processes related to monitoring prescription products for first-in, first-out expiration dates? ***Describe the process.***	Yes	There are no prescription products, and currently the client makes all decisions on FIFO. A new system under development will manage FIFO for vaccines.
183	The processes related to identifying and then moving out-of-date inventory to quarantine? ***Describe the process.***	Yes	There are no prescription products, and currently the client makes all decisions on FIFO. A new system under development will manage FIFO for vaccines.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences

e-Profile ID: 1570416

Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
184	The processes related to identifying and then moving open packages to quarantine? ***Describe the process.***	Yes	Staff would notify the team lead who would start the process for moving inventory to quarantine.
185	The processes related to identifying and then moving stock subjected to temperature and/or humidity excursions to quarantine? ***Describe the process.***	Yes	QA identifies the inventory as quarantine required, and directs the Operations Leader to move the inventory to quarantine.
186	The processes for identifying and then moving stock suspected of being adulterated, misbranded, and/or compromised to quarantine? ***Describe the process.***	Yes	QA identifies the inventory as quarantine required, and directs the Operations Leader to move the inventory to quarantine.
187	Are cycle counts used to identify product shortages and/or losses (theft)? ***Describe the process.***	No	At this time there are no cycle counts but a perpetual inventory is maintained. When vaccine is stocked, cycle counts will be quarterly.
188	If yes, how often are cycle counts performed?		Cycle counts will be performed quarterly.
189	Are investigations conducted into inventory discrepancies identified? ***Describe the investigation process.***	Yes	Inbound and outbound shipment records are reviewed and compared to the perpetual inventory to pinpoint the discrepancy.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
190	Who has the authority to adjust inventory-related discrepancies? ***Record the title(s) of those with authority to make inventory adjustments.***		The QA team reports discrepancies to the DR with a recommendation for resolution.
191	Does the same individual that makes inventory adjustments also sign the adjustment records? ***Anyone additional?***	Yes	The QA team also must approve the adjustment.
192	Is inventory of the quarantine area documented? ***If yes, describe the process.***	Yes	This is included in the perpetual inventory.
193	Are inventory records archived? ***If yes, how long are inventory records archived?***	Yes	These are maintained indefinitely.
194	Are intransit losses/thefts investigated with the carrier's involvement?	Yes	
195	Are intransit losses/thefts trended for use when evaluating the carrier's continued service? ***Describe the process.***	Yes	The QA team manages this process through a Supplier Corrective Action Report.

National Association of Boards of Pharmacy®
Supply Chain Inspection Form

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
196	Audit **six** prescription items (***in cells below***) by taking a physical count of the product and comparing it to the totals listed in the inventory records for the applicable period. If the totals do not match, then audit another product in the same category. Please choose one product in each of the following categories for the audit: 1. Note a product that is in the quarantine area to audit to determine if active product and quarantined product are both indicated in the computer system 2. High priced prescription product 3. A controlled substance II-V 4. High volume product 5. Compounding kits 6. Diabetic test strips, if applicable. ***Indicate if there were any discrepancies found in audited drugs.***		There were no discrepancies noted in the audited items. There were no controlled substances and no items in quarantine. Six items were selected at random for the audit.

NOTE: If an above category is not in inventory at this facility, choose product(s) from other categories.

	Product Name/Inventory Record	Actual Count/Discrepancy
1	AlloVir Kit Box #1373454/8	8/0
2	AlloVir Kit Box #1398278/8	8/0
3	AlloVir Kit Box #1399584/1	1/0
4	AlloVir Novaseptum Bag #1398287/7	7/0
5	AlloVir Kit Box #1398233/8	8/0
6	AlloVir Kit Box #1371914/8	8/0

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences

e-Profile ID: 1570416

Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
197	***Request complete product tracing records for the five items chosen above IF THE FACILITY ONLY SOURCES FROM MANUFACTURERS and/or PRIMARY WHOLESALE DISTRIBUTORS:*** transaction information, transaction history, and transaction statement (TI, TH, TS). Select at least five transactions from the previously requested receipt and sales reports. ***Using the transactions data, review and answer questions 198 - 202 below.***		This facility operates strictly as a 3PL
198	Was the facility able to produce complete product tracing records: transaction information, transaction history, and transaction statement (TI, TH, TS) for each product? ***Describe any challenges with this request.***	N/A	This facility operates strictly as a 3PL
199	Do all the transaction histories begin with the manufacturer (a repackager is not a manufacturer) or include a direct purchase statement from the facility that purchased the product directly from the manufacturer? ***Describe anything suspicious.***	N/A	This facility operates strictly as a 3PL
200	Were all the direct sources referenced in the transaction histories included in the source list provided by the facility? ***Document any sources not included in the source list, include their shipping address.***	N/A	This facility operates strictly as a 3PL
201	Do any sources in the transaction histories (or source list) appear to be pharmacies? ***Document any sources that appear to be pharmacies, include their shipping address.***	N/A	This facility operates strictly as a 3PL

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
202	Do any of the direct sources/previous owners referenced in the transaction histories appear to be otherwise suspect? ***Describe.***	N/A	This facility operates strictly as a 3PL
	R. Order Fulfillment and Shipping		
203	Does the facility have a process for monitoring purchasing activity of customers and to identify suspicious orders of prescription drugs (non-controlled substances) and/or prescription/OTC medical devices? ***If yes, describe the system.***	No	Suspicious order monitoring is managed by the biologics owner/client.
204	If shipping refrigerator and/or frozen prescription drugs/devices, is the facility using qualified shipping containers? ***If yes, request a copy of the qualification report.****	Yes	Shipping containers are prescribed by the biologics owner/client, and the biologics owner/client is responsible for ensuring qualified shipping containers are used.
205	If the facility is not using pre-qualified containers, does the facility perform its own qualification of shipping containers? ***If yes, request a copy of the qualification report.**** ***Describe this process.***	N/A	
206	Does the facility ship items outside of labeled requirements?	No	

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
207	If yes, does the facility have documentation from the MFR of the product that describes this shipping method as acceptable and the parameters are included? ***Request a copy.****	N/A	
208	Does the facility use temperature indicators in every shipment for both cold and warm climates?	No	All shipments do not contain a temperature indicator. This is prescribed by the biologics owner/client. All vaccine shipments will contain a TempTale.
209	***If yes, describe at what temperatures the devices indicate an excursion.***		The range for excursions for vaccines has not been established but will be established by the manufacturer/owner before vaccine is stocked and shipped.
210	If yes, does the facility provide instructions to the recipient on how to "read" the temperature indicator included in the shipment and who to contact in the event of an excursion? ***Describe how the instructions are provided.***	N/A	Instructions will be provided to the site, but delivery method has yet to be determined.
	S. Controlled Substances (NA for Virtuals)		
211	Do employees demonstrate knowledge of and techniques in the process for identifying controlled substances and securing them upon receipt? ***Describe the process.***	N/A	There are no controlled substances distributed.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
212	Does the facility have a process for monitoring its customers' controlled substances purchases to identify suspicious orders? ***If yes, describe the system.***	N/A	There are no controlled substances distributed.
213	Are CIII-CV controlled substances stored in a DEA-approved cage? ***If yes, record square footage.***	N/A	There are no controlled substances distributed.
214	Is the storage area of sufficient size to accommodate inventory amount?	N/A	There are no controlled substances distributed.
215	Are CII controlled substances stored in a DEA-approved vault? ***If yes, record square footage.***	N/A	There are no controlled substances distributed.
216	Is the storage area of sufficient size to accommodate inventory amount?	N/A	There are no controlled substances distributed.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
217	Are there any hazardous controlled substances? ***If yes, describe how they are stored.***	N/A	There are no controlled substances distributed.
218	Does the facility identify personnel authorized to access the controlled substance cage/vault?	N/A	There are no controlled substances distributed.
219	Is the controlled substance cage and/or vault equipped to ensure entry is limited to only those authorized personnel?	N/A	There are no controlled substances distributed.
220	Does the facility allow visitors into the controlled substance storage areas?	N/A	There are no controlled substances distributed.
221	If yes, are they accompanied by authorized personnel?	N/A	There are no controlled substances distributed.
222	Are non-controlled substances stored within the DEA cage/vault?	N/A	There are no controlled substances distributed.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences

e-Profile ID: 1570416

Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
223	If yes, does the facility have written permission from DEA to do so? ***Request the written permission, review, and list the prescription drugs/devices allowed to be stored within the DEA cage/vault.***	N/A	There are no controlled substances distributed.
224	Are processes in place for handling List I chemicals (eg, receipt, storage, monitoring for diversion, and reporting losses)? ***Describe the process.***	N/A	There are no List 1 chemicals.
225	Are required inventories performed and reconciled for Schedule II controlled substances? ***If yes, how often?*** ***Request and review the last two biennials conducted.*** ***Indicate the dates of last two biennial inventories and any relevant observations.***	N/A	There are no controlled substances distributed.
226	Are required inventories and reconciliations performed for Schedule III-Schedule V controlled substances? ***If yes, how often?*** ***Request and review the last two biennials conducted.*** ***Indicate the dates of last two biennial inventories and any relevant observations.***	N/A	There are no controlled substances distributed.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
227	Are DEA 106 forms on file? ***Request and review forms from the most recent 12-month period.*** ***How many forms did they have on file and which schedules were noted?***	N/A	There are no controlled substances distributed.
228	If DEA 106 forms are on file, was follow-up conducted regarding the losses? ***Describe the investigation, including who was contacted.***	N/A	There are no controlled substances distributed.

230	If DEA 106 forms are on file, are patterns of losses evident in the reports? ***If yes, describe.***	N/A	There are no controlled substances distributed.
231	Is the facility operating under a DEA directive? ***If yes, request a copy of the directive.******	N/A	There are no controlled substances distributed.

Supply Chain Inspection

Facility Name: Azenta US, Inc dba Azenta Life Sciences
e-Profile ID: 1570416
Inspection Date: 09/20/2022 - 09/21/2022

		Observations	Notes
	T. Recordkeeping and Record Retention		
232	Does the facility's record keeping process maintain all records pertaining to the purchase, receipt, storage, and shipping of prescription drugs/devices?	Yes	
233	***If yes, describe retention period for each record type.***		All records are maintained indefinitely.
234	Is record keeping electronic, manual or both? ***Describe.***	Yes	Record keeping is both hard copy and electronic. All records are maintained indefinitely.
235	Are any records located off-site? ***If so, where are they located?***	Yes	Electronic records are stored electronically on an Amazon cloud.
236	Does records-retention include DEA records that track the receipt, distribution, or other disposition of controlled substances?	N/A	There are no controlled substances.
237	***If yes, how long are they kept?***		

Inspector Comments:

Acronym	Description
3PL	Third Party Logistics Provider
AD	API Distributor
AR	API Repackager
API	Active Pharmaceutical Ingredient
BOP	Board of Pharmacy
BSC	Biologizal Safety Cabinet
BUD	Beyond-Use Date
CACI	Compounding Aseptic Containment Isolator
CAI	Compounding Aseptic Isolator
CDC	Center for Disease Control and Prevention
CFR	Code of Federal Regulations
COA	Certificate of Analysis
COC	Certificate of Compliance
COQ	Certificate of Quality
CRT	Controlled Room Temperature
CS	Controlled substance
DBA	Doing business as
DD	Rx Medical Device Distributor
DEA	Drug Enforcement Administration
DME	Durable Medical Equipment
DR	Designated Representative
DSCSA	Drug Supply Chain Security Act
EM	Environmental Monitoring
EPA	Environmental Protection Agency
FDA	Food and Drug Administration
FD&C	Food, Drug, and Cosmetic (Act)
HD	Hazardous Drug
HVAC	Heating, Ventilation, Air Conditioning
IND	Investigational New Drug Distributor
ISO	International Organization for Standardization
MFR	Manufacturer
NDC	National Drug Code
OF	Outsourcing Facility (503B)
OIG	Office of the Inspector General
OOS	Out of Specification
OTC	Over-the-Counter Medical Device Distributor
P&P	Policies and Procedures
PEC	Primary Engineering Control
PHI	Protected Health Information
PM	Personnel Monitoring
QA	Quality Assurance
QI	Quality Improvement

RPKG	Repackager of finished Rx Drugs
Rx	Prescription
SD	Sample Distributor
SEC	Secondary Engineering Control
SOP	Standard Operating Procedure
SSL	Secure Sockets Layer
TH	Transaction History
TI	Transaction Information
TS	Transaction Statement
VD	Virtual Distributor
VET	Veterinary Rx Human Drug Distributor
VM	Virtual Manufacturer
USP	United States Pharmacopeia
WD	Rx Drug Wholesale Distributor

Term	Definition
Affiliate	A business entity that has a relationship with a second business entity it, if directly or indirectly – (A) one business entity controls, or has the power to control, the other business entity; or (B) a third party controls, or has the power to control, both of the business entities.
Authorized	(A) in the case of a manufacturer or repackager, having a valid registration in accordance with section 510; (B) in the case of a wholesale distributor, having a valid license under State law or section 583, in accordance with section 582(a)(6), and complying with the licensure reporting requirements under section 503(e), as amended by the Drug Supply Chain Security Act; (C) in the case of a third-party logistics provider, having a valid license under State law or section 584(a)(1), in accordance with section 582(a)(7), and complying with the licensure reporting requirements under section 584(b); and (D) in the case of a dispenser, having a valid license under State law.

Term	Definition
Controlled Room Temperature (CRT)	The temperature maintained thermostatically that encompasses the usual and customary working environment of 20°–25° (68°–77° F). ▲MKT may be used during an excursion provided: 1) MKT does not exceed 25° (77° F); 2) excursion between 15° and 30° (59° and 86° F); 3) transient excursions are NMT 40° (104° F); and 4) excursion time is NMT 24 h.2 These limits (time and temperature) and the calculated MKT must be documented. ▲ (USP 1-Dec-2020) Articles may be labeled for storage at "controlled room temperature" or at "20°–25°", or other wording based on the same MKT. ▲ (See 1079.2.) ▲ (USP 1-Dec-2020) An article for which storage at Controlled room temperature is directed may, alternatively, be stored and shipped in a cool place or refrigerated, unless otherwise specified in the individual monograph or on the label. ▲Storage time in controlled cold or cool place cannot be used to calculate excursion temperature outside of controlled room temperature ranges. ▲ (USP 1-Dec-2020)
Diagnostic OTC medical device	A device used in medical diagnosis (eg, blood glucose test strips).
Distribute or distribution	The sale, purchase, trade, delivery, handling, storage, or receipt of a product, and does not include the dispensing of a product pursuant to a prescription executed in accordance with section 503(b)(1) or the dispensing of a product approved under section 512(b)
Distributor	A business entity that distributes to someone other than a consumer or patient.
Exclusive distributor	The wholesale distributor that directly purchased the product from the manufacturer and is the sole distributor of that manufacturer's product to a subsequent repackager, wholesale distributor, or dispenser.

Term	Definition
Exempt prescription drugs (See Product definition below)	For purposes of section 582, does not include blood or blood components intended for transfusion, radioactive drugs or radioactive biological products (as defined in section 600.3(ee) of title 21, Code of Federal Regulations) that are regulated by the Nuclear Regulatory Commission or by a State pursuant to an agreement with such Commission under section 274 of the Atomic Energy Act of 1954 (42 U.S.C. 2021), imaging drugs, an intravenous product described in clause (xiv), (xv), or (xvi) of paragraph (24)(B), any medical gas (as defined in section 575), homeopathic drugs marketed in accordance with applicable guidance under this Act, or a drug compounded in compliance with section 503A or 503B.
Freezer	A place in which the temperature is controlled between −25° and −10° (−13° and 14° F). It is noted that, in some instances, articles may have a recommended storage condition below −20° (−4° F). In such cases, the temperature of the storage location should be controlled to ±10°▲ of the recommended storage condition▲ (USP 1-Dec-2020).
Illegitimate product	A product for which credible evidence shows that the product (A) is counterfeit, diverted, or stolen; (B) is intentionally adulterated such that the product would result in serious adverse health consequences or death to humans; (C) is the subject of a fraudulent transaction; or (D) appears otherwise unfit for distribution such that the product would be reasonably likely to result in serious adverse health consequences or death to humans.
Licensed	(A) in the case of a wholesale distributor, having a valid license in accordance with section 503(e) or section 582(a)(6), as applicable; (B) in the case of a third-party logistics provider, having a valid license in accordance with section 584(a) or section 582(a)(7), as applicable; and (C) in the case of a dispenser, having a valid license under State law.

Term	Definition
Manufacturer	with respect to a product— (A) a person that holds an application approved under section 505 or a license issued under section 351 of the Public Health Service Act for such product, or if such product is not the subject of an approved application or license, the person who manufactured the product; (B) a co-licensed partner of the person described in subparagraph (A) that obtains the product directly from a person described in this subparagraph or subparagraph (A) or (C); or (C) an affiliate of a person described in subparagraph (A) or (B) that receives the product directly from a person described in this subparagraph or subparagraph (A) or (B).
Outsourcing Facility (503B)	A facility at one geographical location or address that is engaged in the compounding of sterile drugs, has elected to register as an outsourcing facility and complies with all of the requirements of the section 503B of the FD&C Act.
Prescription Drug	A drug for human use subject to section 503(b)(1).
Product	A prescription drug in a finished dosage form for administration to a patient without substantial further manufacturing (such as capsules, tablets, and lyophilized products before reconstitution), but for purposes of section 582, **does not include blood or blood components intended for transfusion, radioactive drugs or radioactive biological products (as defined in section 600.3(ee) of title 21, Code of Federal Regulations) that are regulated by the Nuclear Regulatory Commission or by a State pursuant to an agreement with such Commission under section 274 of the Atomic Energy Act of 1954 (42 U.S.C. 2021), imaging drugs, an intravenous product described in clause (xiv), (xv), or (xvi) of paragraph (24)(B), any medical gas (as defined in section 575), homeopathic drugs marketed in accordance with applicable guidance under this Act, or a drug compounded in compliance with section 503A or 503B.**

Term	Definition
Product (exemptions)	For purposes of section 582, does not include blood or blood components intended for transfusion, radioactive drugs or radioactive biological products (as defined in section 600.3(ee) of title 21, Code of Federal Regulations) that are regulated by the Nuclear Regulatory Commission or by a State pursuant to an agreement with such Commission under section 274 of the Atomic Energy Act of 1954 (42 U.S.C. 2021), imaging drugs, an intravenous product described in clause (xiv), (xv), or (xvi) of paragraph (24)(B), any medical gas (as defined in section 575), homeopathic drugs marketed in accordance with applicable guidance under this Act, or a drug compounded in compliance with section 503A or 503B.
Quarantine	The storage or identification of a product, to prevent distribution or transfer of the product, in a physically separate area clearly identified for such use or through other procedures.
Refrigerator	A cold place in which the temperature is controlled between 2° and 8° (36° and 46° F).
Repackager	A person who owns or operates an establishment that repacks and relabels a product or package for— (A) further sale; or (B) distribution without a further transaction.
Suspect Product	A product for which there is reason to believe that such product— (A) is potentially counterfeit, diverted, or stolen; (B) is potentially intentionally adulterated such that the product would result in serious adverse health consequences or death to humans; (C) is potentially the subject of a fraudulent transaction; or (D) appears otherwise unfit for distribution such that the product would result in serious adverse health consequences or death to humans.

Term	Definition
Third-party Logistics Provider	An entity that provides or coordinates warehousing, or other logistics services of a product in interstate commerce on behalf of a manufacturer, wholesale distributor, or dispenser of a product, but does not take ownership of the product, nor have responsibility to direct the sale or disposition of the product.
Trading Partner	(A) a manufacturer, repackager, wholesale distributor, or dispenser from whom a manufacturer, repackager, wholesale distributor, or dispenser accepts direct ownership of a product or to whom a manufacturer, repackager, wholesale distributor, or dispenser transfers direct ownership of a product; or (B) a third-party logistics provider from whom a manufacturer, repackager, wholesale distributor, or dispenser accepts direct possession of a product or to whom a manufacturer, repackager, wholesale distributor, or dispenser transfers direct possession of a product.
Transaction	The transfer of "product" between persons in which a change of ownership occurs.

Term	Definition
	The term `transaction' does not include-- ``(i) intracompany distribution of any product between members of an affiliate or within a manufacturer; ``(ii) the distribution of a product among hospitals or other health care entities that are under common control; ``(iii) the distribution of a product for emergency medical reasons including a public health emergency declaration pursuant to section 319 of the Public Health Service Act, except that a drug shortage not caused by a public health emergency shall not constitute an emergency medical reason; ``(iv) the dispensing of a product pursuant to a prescription executed in accordance with section 503(b)(1); ``(v) the distribution of product samples by a manufacturer or a licensed wholesale distributor in accordance with section 503(d); ``(vi) the distribution of blood or blood components intended for transfusion; ``(vii) the distribution of minimal quantities of product by a licensed retail pharmacy to a licensed practitioner for office use; ``(viii) the sale, purchase, or trade of a drug or an offer to sell, purchase, or trade a drug by a charitable organization described in section 501(c)(3) of the Internal Revenue Code of 1986 to a nonprofit affiliate of the organization to the extent otherwise permitted by law;

Term	Definition
	``(ix) the distribution of a product pursuant to the sale or merger of a pharmacy or pharmacies or a wholesale distributor or wholesale distributors, except that any records required to be maintained for the product shall be transferred to the new owner of the pharmacy or pharmacies or wholesale distributor or wholesale distributors; ``(x) the dispensing of a product approved under section 512(c); ``(xi) products transferred to or from any facility that is licensed by the Nuclear Regulatory Commission or by a State pursuant to an agreement with such Commission under section 274 of the Atomic Energy Act of 1954 (42 U.S.C. 2021); ``(xii) a combination product that is not subject to approval under section 505 or licensure under section 351 the Public Health Service Act, and that is-- ``(I) a product comprised of a device and 1 or more other regulated components (such as a drug/device, biologic/device, or drug/device/biologic) that are physically, chemically, or otherwise combined or mixed and produced as a single entity;

Term	Definition
Transaction (exemptions)	``(II) 2 or more separate products packaged together in a single package or as a unit and comprised of a drug and device or device and biological product; or ``(III) 2 or more finished medical devices plus one or more drug or biological products that are packaged together in what is referred to as a `medical convenience kit' as described in clause (xiii); ``(xiii) the distribution of a collection of finished medical devices, which may include a product or biological product, assembled in kit form strictly for the convenience of the purchaser or user (referred to in this clause as a `medical convenience kit') if-- ``(I) the medical convenience kit is assembled in an establishment that is registered with the Food and Drug Administration as a device manufacturer in accordance with section 510(b)(2); ``(II) the medical convenience kit does not contain a controlled substance that appears in a schedule contained in the Comprehensive Drug Abuse Prevention and Control Act of 1970;

Term	Definition
	``(III) in the case of a medical convenience kit that includes a product, the person that manufacturers the kit-- ``(aa) purchased such product directly from the pharmaceutical manufacturer or from a wholesale distributor that purchased the product directly from the pharmaceutical manufacturer; and ``(bb) does not alter the primary container or label of the product as purchased from the manufacturer or wholesale distributor; and ``(IV) in the case of a medical convenience kit that includes a product, the product is-- ``(aa) an intravenous solution intended for the replenishment of fluids and electrolytes; ``(bb) a product intended to maintain the equilibrium of water and minerals in the body; ``(cc) a product intended for irrigation or reconstitution; ``(dd) an anesthetic; ``(ee) an anticoagulant; ``(ff) a vasopressor; or

Term	Definition
	``(gg) a sympathomimetic; ``(xiv) the distribution of an intravenous product that, by its formulation, is intended for the replenishment of fluids and electrolytes (such as sodium, chloride, and potassium) or calories (such as dextrose and amino acids); ``(xv) the distribution of an intravenous product used to maintain the equilibrium of water and minerals in the body, such as dialysis solutions; ``(xvi) the distribution of a product that is intended for irrigation, or sterile water, whether intended for such purposes or for injection; ``(xvii) the distribution of a medical gas (as defined in section 575); or ``(xviii) the distribution or sale of any licensed product under section 351 of the Public Health Service Act that meets the definition of a device under section 201(h).
Transaction History	A statement in paper or electronic form, including the transaction information for each prior transaction going back to the manufacturer of the product.
Transaction Information	(A) the proprietary or established name or names of the product; (B) the strength and dosage form of the product; (C) the National Drug Code number of the product; (D) the container size; (E) the number of containers; (F) the lot number of the product; (G) the date of the transaction; (H) the date of the shipment, if more than 24 hours after the date of the transaction; (I) the business name and address of the person from whom ownership is being transferred; and (J) the business name and address of the person to whom ownership is being transferred.

Term	Definition
Transaction Statement	A statement, in paper or electronic form, that the entity transferring ownership in a transaction— (A) is authorized as required under the Drug Supply Chain Security Act; (B) received the product from a person that is authorized as required under the Drug Supply Chain Security Act; (C) received transaction information and a transaction statement from the prior owner of the product, as required under section 582; (D) did not knowingly ship a suspect or illegitimate product; (E) had systems and processes in place to comply with verification requirements under section 582; (F) did not knowingly provide false transaction information; and (G) did not knowingly alter the transaction history.
Virtual Distributor	A wholesale distributor that sells a prescription drug or device but never physically possesses the product.
Virtual Manufacturer	A person that owns the new drug application or abbreviated new drug application for a drug or device and which contracts with others for the actual manufacturing of the drug or device but never physically possesses the product.
Wholesale Distributor	A person (other than a manufacturer, a manufacturer's co-licensed partner, a third-party logistics provider, or repackager) engaged in wholesale distribution (as defined in section 503(e)(4), as amended by the Drug Supply Chain Security Act).

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. 0788835

Application/License No. _____

Independent Pharmacy Distributor LLC (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 1107 West Market Center Dr. High Point, NC 27260 (Address of Applicant/Principal), as PRINCIPAL, and Harco National Insurance Company (Surety Company), a corporation organized under the laws of the state of Illinois (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is 702 Oberlin Road Raleigh, NC 27605 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of TWENTY-FIVE THOUSAND DOLLARS ($25,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on 12/08/2020 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statue (NRS) 639.515 and Nevada Administrative Code (NAC) 639.5937 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $25,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and NAC 639.5937 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515 and NAC 639.5937. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 8th day of December, 2020.

POWER OF ATTORNEY

Bond # 0788835

HARCO NATIONAL INSURANCE COMPANY
INTERNATIONAL FIDELITY INSURANCE COMPANY

Member companies of IAT Insurance Group, Headquartered: 702 Oberlin Road, Raleigh, North Carolina 27605

KNOW ALL MEN BY THESE PRESENTS: That **HARCO NATIONAL INSURANCE COMPANY**, a corporation organized and existing under the laws of the State of Illinois, and **INTERNATIONAL FIDELITY INSURANCE COMPANY**, a corporation organized and existing under the laws of the State of New Jersey, and having their principal offices located respectively in the cities of Rolling Meadows, Illinois and Newark, New Jersey, do hereby constitute and appoint

MICHAEL D. WILLAMS, JEREMY CRAWFORD

Golden Valley, MN

their true and lawful attorney(s)-in-fact to execute, seal and deliver for and on its behalf as surety, any and all bonds and undertakings, contracts of indemnity and other writings obligatory in the nature thereof, which are or may be allowed, required or permitted by law, statute, rule, regulation, contract or otherwise, and the execution of such instrument(s) in pursuance of these presents, shall be as binding upon the said **HARCO NATIONAL INSURANCE COMPANY** and **INTERNATIONAL FIDELITY INSURANCE COMPANY**, as fully and amply, to all intents and purposes, as if the same had been duly executed and acknowledged by their regularly elected officers at their principal offices.

This Power of Attorney is executed, and may be revoked, pursuant to and by authority of the By-Laws of **HARCO NATIONAL INSURANCE COMPANY** and **INTERNATIONAL FIDELITY INSURANCE COMPANY** and is granted under and by authority of the following resolution adopted by the Board of Directors of **INTERNATIONAL FIDELITY INSURANCE COMPANY** at a meeting duly held on the 13th day of December, 2018 and by the Board of Directors of **HARCO NATIONAL INSURANCE COMPANY** at a meeting held on the 13th day of December, 2018

"**RESOLVED**, that (1) the Chief Executive Officer, President, Executive Vice President, Senior Vice President, Vice President, or Secretary of the Corporation shall have the power to appoint, and to revoke the appointments of, Attorneys-in-Fact or agents with power and authority as defined or limited in their respective powers of attorney, and to execute on behalf of the Corporation and affix the Corporation's seal thereto, bonds, undertakings, recognizances, contracts of indemnity and other written obligations in the nature thereof or related thereto, and (2) any such Officers of the Corporation may appoint and revoke the appointments of joint-control custodians, agents for acceptance of process, and Attorneys-in-fact with authority to execute waivers and consents on behalf of the Corporation; and (3) the signature of any such Officer of the Corporation and the Corporation's seal may be affixed by facsimile to any power of attorney or certification given for the execution of any bond, undertaking, recognizance, contract of indemnity or other written obligation in the nature thereof or related thereto, such signature and seals when so used whether heretofore or hereafter, being hereby adopted by the Corporation as the original signature of such officer and the original seal of the Corporation, to be valid and binding upon the Corporation with the same force and effect as though manually affixed."

IN WITNESS WHEREOF, **HARCO NATIONAL INSURANCE COMPANY** and **INTERNATIONAL FIDELITY INSURANCE COMPANY** have each executed and attested these presents on this 31st day of December, 2018

STATE OF NEW JERSEY
County of Essex

STATE OF ILLINOIS
County of Cook

Kenneth Chapman
Executive Vice President, Harco National Insurance Company
and International Fidelity Insurance Company

On this 31st day of December, 2018, before me came the individual who executed the preceding instrument, to me personally known, and, being by me duly sworn, said he is the therein described and authorized officer of **HARCO NATIONAL INSURANCE COMPANY** and **INTERNATIONAL FIDELITY INSURANCE COMPANY**, that the seals affixed to said instrument are the Corporate Seals of said Companies, that the said Corporate Seals and his signature were duly affixed by order of the Boards of Directors of said Companies.

IN TESTIMONY WHEREOF, I have hereunto set my hand affixed my Official Seal, at the City of Newark, New Jersey the day and year first above written.

Shirelle A. Outley a Notary Public of New Jersey
My Commission Expires April 4, 2023

CERTIFICATION

I, the undersigned officer of **HARCO NATIONAL INSURANCE COMPANY** and **INTERNATIONAL FIDELITY INSURANCE COMPANY** do hereby certify that I have compared the foregoing copy of the Power of Attorney and affidavit, and the copy of the Sections of the By-Laws of said Companies as set forth in said Power of Attorney, with the originals on file in the home office of said companies, and that the same are correct transcripts thereof, and of the whole of the said originals, and that the said Power of Attorney has not been revoked and is now in full force and effect.

IN TESTIMONY WHEREOF, I have hereunto set my hand on this day, December 08, 2020

A02712

Irene Martins, Assistant Secretary

Acknowledgment of Surety

State of Minnesota
County of Anoka

On this 8th day of December, 2020 before me personally appeared **Jeremy Crawford** who acknowledged that he or she is the attorney in fact who is authorized to sign on behalf of **Harco National Insurance Company** (surety company), the foregoing instrument, and he thereupon duly acknowledged to me that he executed the same.

Medline Industries, LP- Discipline *Confidential*

Date	Facility	Description of State Action	Corrective Actions
8/3/2005	1401 N. Universal Ave Kansas City, MO 64120	**FILE CLOSED 2010** Medline Industries' Kansas City, MO facility (#2003031660) was disciplined for failure to renew on time and for deficient temperature control procedures. Medline was placed on probation for 5 years. The state conducted multiple inspections of the facility throughout the probationary period and found Medline to comply with all requirements. The probationary period closed in August 2010.	Medline's Regulatory Affairs Department was significantly expanded to include a team of 7 Licensing Specialists that monitor and ensure our licenses are renewed on time. A temperature control room was constructed at the facility to ensure product is stored at the appropriate temperature and humidity. These control rooms are now a standard feature at our distribution centers. We worked closely with NABP to ensure that our temperature control facilities and procedures align with industry best practices throughout our distribution network.
12/7/2006	9101 Riverside Pkwy Lithia Springs, GA 30122	**FILE CLOSED 2008** The Florida Certified Designated Representative at the Georgia facility unexpectedly resigned. The state of Florida suspended Medline's Florida Out of State Rx Drug Wholesale Distributor Permit (#23:1470) until a new licensed Florida CDR was hired at the facility.	To prevent this for occurring in the future, all Florida licensed Medline facilities are required to have multiple Florida Certified Designated Representatives on staff.
11/16/2007	10601 Southport Dr. Orlando, FL 32824 401 Commerce Blvd. Oldsmar, FL 34677 4750 118th Ave N Clearwater, FL 33762	**FILE CLOSED 2008** Medline Industries was cited for several violations. Failure to pass and maintain a Florida compliant pedigree. Maintaining the wrong permit type for the activities performed in the facilities (in addition to a manufacturing permit, Florida required the facility a repackager permit). Distribution of saline to an unauthorized recipient. Additionally an Rx drug item was found at an unlicensed raw materials storage facility. Medline challenged several violations, resulting in most being substantially reduced or removed. Medline was assessed and paid a fine for these violations. All issues were addressed and resolved to the satisfaction of the FL DOH. After duly notifying state authorities, as required by law, Medline received a fined from New York for out-of-state professional misconduct. (Cal. No. 27278)	To address the pedigree issues, Medline instituted a Florida specific pedigree system. This program ensured that any pedigree shipments within our distribution network with potential to end up in Florida has the required Florida documentation. (Note - these requirements have since been preempted by federal law). To address the issue of the wrong permit type, Medline secured the repackaging permit. To address the sale of saline to an unauthorized person, Medline instituted a new procedure for obtaining and maintaining customer licenses for all Rx Drug purchases- this procedure generates an automatic block for any Rx Drug order by an unlicensed customer. The Rx Drug item unintentionally stored in the raw materials facility was properly disposed of. Waste disposal procedures were updated to ensure that this mistake would not recur.
11/26/2007	2708 NE Waldo Rd. Gainesville, FL 32609	**FILE CLOSED 2008** Medline Industries' FL license (# 22:1022) was suspended for violations identified during a Florida BOP facility inspection. Medline, through Counsel, addressed the issues raised in the inspection and established that the suspension was unjustified. The suspension was lifted 3 days later on January 22, 2008. In 2010, Medline made an unrelated business decision to close this facility. (Case # 2007-37412)	After this inspection, Medline conducted a thorough review of its policies and procedures. Additionally, Medline implemented an internal auditing program to ensure that all distribution centers comply with internal policies and procedures and state and federal regulations.
3/5/2008	149 New Camellia Blvd. Covington, LA 70433	**FILE CLOSED 2008** Medline Industries (LA #4318) was cited for failure to properly maintain copies of current customer licenses on-site. Medline was assessed and paid a fine. (Louisiana Administrative Docket #2008006). After duly notifying state authorities, as required by law, Medline received a fine from New York for out-of-state professional misconduct. (Cal. No. 27278)	In addition to storing copies of customers' licenses at headquarters, these licenses are now stored digitally so they can be accessed by our distribution centers.
5/9/2008	5450 W. Stewart Ave. Wausau, WI 54401	**FILE CLOSED 2009** Medline Industries (WI # 1116-045) was cited and fined by the Wisconsin Department of Regulation & Licensing following a facility inspection. Medline managed a portion of a Wisconsin hospital's warehouse. The inspector cited Medline for failure to install a dividing fence between the Medline warehouse and the hospital portion of the facility. All of the hospital products were owned by the hospital. Medline was also cited for failure to access policies and procedures during the inspection. Corrections were made and the facility re-inspected, to the satisfaction of the state (Case #08	Immediately after the inspection, Medline and the owner of the facility erected a locked fence to divide the faculty. Medline also reviewed all of its other facilities to make sure no similar situations existed. In addition, training on where and how to access current policies and procedures was increased for distribution center personnel. This training is in addition to the training they receive on the policies and procedures themselves.

Medline Industries, LP- Discipline *Confidential*

		PHM 037). In 2010, Medline made an unrelated business decision to close this facility. After duly notifying state authorities, as required by law, Medline received a fine from the states of Hawaii (Case #PHA 2009-7-L) and New York (Cal. No. 27278) for out-of-state professional misconduct.	
8/21/2008	94-1420 Moaniani St. Waipahu, HI 96797	**FILE CLOSED 2013** Medline Industries, Inc. (PWD 115) was fined $5000 and placed on probation for 5 years for failure to report disciplinary actions within 30 days. Medline submitted all required notices, but missed the 30-day deadline. The probationary period ended in August 2013. (Case # PHA 2008-17-L)	Medline implemented a new process to notify the necessary licensing boards of future disciplinary actions within the required reporting timelines.
3/19/2010	1401 N. Universal Ave. Kansas City, MO 64120	**FILE CLOSED 2010** Medline Industries, Inc. applied for a Colorado Out-of-State Wholesaler license for the Kansas City, MO distribution center. The CO Board of Pharmacy issued a conditional license until the facility's MO probation period ended. (See 8/3/2005 discipline). Medline informed the CO Board when the MO probationary period was completed. Upon completion of probation, the Board issued a full license.	See 8/3/2005 discipline for corrective actions related to the underlying sanction.
1/6/2021	1501 Harris Rd Libertyville, IL 60048	**FILE CLOSED 2021** Medline Industries, Inc. (OH License #01-1985050) received a fine of $250 from the Ohio Board of Pharmacy for the sale of dangerous drugs to an unlicensed entity. Medline maintained a current and valid DEA license on file for the physician rather than the TDDD license for the facility. The facility's TDDD license at the time of the sale had expired. The fine was paid on January 21, 2021 and the case was closed. (Case No. A-2020-0054 I-2019-0972-B.) After duly notifying state authorities, as required by law, Medline received a $500 fine from the Alabama State Board of Pharmacy for the same underlying conduct as the Ohio matter. The fine was paid and the matter closed. (Case No:21-L-0048)	Medline takes this matter very seriously. Medline reviewed the customer licensing policies and procedures and updated internal requirements for the type of license required for customers in Ohio. Efforts were taken by Customer Licensing to research, ensure the proper type, and check license status for a large number of existing Ohio licenses. The Ohio TDDD licenses are reviewed on an annual basis to ensure compliance.
11/1/2022	1040 Enterprise Parkway South West Jefferson, OH 43162	**FILE CLOSURE PENDING** Medline Industries, LP (OH License #01-30000190) entered a settlement agreement and agreed to pay a fine of $1,125.00 to the Ohio Board of Pharmacy for alleged sales of dangerous drugs to an unlicensed entity. Medline maintained a physician license on file versus a Terminal Distributor (TDDD) license. The TDDD license was added in May 2022- prior to this investigation. During the period of July 2021 to March 2022, the customer's TDDD license lapsed and Medline was unaware. Medline is in the process of notifying states of this fine.	Medline is committed to following all applicable state and federal statutes and regulations, including customer license requirements. Medline updated customer licensing requirements after the 01/06/2021 fine. This incident occurred while Medline was in the process of updating a large number of Ohio accounts. Medline is implementing additional steps to ensure compliance, including, increasing staffing, training, and resources for the customer licensing team.

SIGNATURE

(For the protection of our professional license holders, this license contains hidden security features to prevent counterfeiting. Unauthorized reproduction is strictly prohibited and will be prosecuted to the fullest extent of the law)

The Department of Business and Professional Regulation (DBPR), issues licenses for many licensed businesses and practitioners in the State of Florida.

DBPR is changing the way you interact with state government. Many of DBPR's services are available online at www.MyFloridaLicense.com. We encourage you to utilize these services to make address changes, licensing changes or to renew your license.

Name changes require legal documentation verifying the name change, which must be mailed to the DBPR. An original, a certified copy or a duplicate copy of an original or certified copy of a document that shows the legal name change will be accepted, unless the DBPR has a question about the authenticity of the document.

If applicable, the DBPR will send a renewal notice to your last known address or email address of record. If you have not received your renewal notice, please call our Customer Contact Center at 850.487.1395 or online at www.MyFloridaLicense.com/contactus.

Please refer to your profession's governing statutes and Administrative codes for further information regarding renewals. These may be accessed from our website.

SALES/OPERATIONS/LOGISTICS MANAGEMENT – MULTI MILLION DOLLAR REVENUE

25 year plus experience in distribution center and supply chain management - distinguished by accelerated and continued advancements.

Successful in both startup and turnaround management roles - propelled multiple stores to excellence in sales and customer satisfaction while lowering shrink and staff turnover

Comprehensive background in leading all aspects of wholesale & supply chain operations

Top ranked sales professional - proven history of success in the wholesale industry. Adept at building a strong bond with customers through consultative, solution based approach.

EXPERIENCE

07/14/2014 – PRESENT

DIRECTOR OF OPERATIONS, MEDLINE INDUSTRIES, LP – AUBURNDALE, FL

- Manage a team composed of Managers and Warehouse Associates within an 800,000 SQ FT distribution center.
- Personally involved in the handling, distribution, shipping and record keeping of prescription drugs at the facility.
- Developed a warehouse schedule that diminished overtime and reduced shipping times.
- Lead monthly meetings with staff to communicate and ensure goals are being met.

05/2010 – 07/2014

MANAGER, DISTRIBUTION AND LOGISTICS, PIEDMONT HEALTHCARE CORPORATION – ATLANTA, GA

- Plan, direct and administer all aspects of the Piedmont Healthcare Distribution Center. Ensure productivity targets are met through leveraging warehouse and inventory management system, distribution center layout. Develop and maintain key performance/financial indicators focused on cost reduction, customer and staff satisfaction and operational performance.
- Partnered with site leaders at acute care centers and key supply chain personnel to identify productivity initiatives, cost savings potential, and service enhancements.
- Successfully implement ERP initiative.
- Developed and enhanced procedures relating to customer returns, inventory control, space utilization and time management for warehouse personnel.

- Reduced personnel expense by converting from a 6 to 5 day work week, as well as reduced delivery expense to 5 acute care hospitals, all without impact to the customer.
- First department within supply chain operations to change from a fixed to variable cost center.
- Implemented a previously non-existent safety program for the distribution center
- Responsible for establishing and maintaining logistics for 100 plus physicians clinics throughout the Metro Atlanta area.

02/2008 – 10/2009

BRANCH SALES/OPERATIONS MANAGER, REXEL USA – COLLEGE PARK, GA

- Oversee daily sales and operations. Manage and direct all departments (warehouse, sales & quotations), enforce sound merchandising and loss control strategies. Execute corporate programs and policies, and motivate optimal customer satisfaction, associate productivity and P&L results.
- Exceeded sales and gross profit goals by 30% and 19% respectively in the first year. Excelled in recruiting, training and motivating quality personnel. Developed many entry level associates into top performing team members.
- Improved customer account profitability while reducing outstanding account balance and minimizing debt exposure.
- Developed strong relationships with executive level management of top customers.

05/2004 – 02/2008

BRANCH SALES/OPERATIONS MANAGER, HD SUPPLY, A DIVISION OF HOME DEPOT – MCDONOUGH, GA

- Provided strategic, operational and fiscal leadership and maintained excellent service standards.
- Propelled a near worst to first turn around, transforming one the district's lowest ranked stores to top ten finish in sales and improved bottom line profitability.
- Analyzed and implemented price matrix improvements to maximize branches' profitability while maintaining competitive edge.
- Created sales campaigns that catapulted market share gains to dominate specialized markets within the industry.

09/1985 – 05/2004

DISTRIBUTION CENTER MANAGER, HUGHES SUPPLY, INC. – FOREST PARK, GA

- Promoted to manage all aspects of 180,000 square foot distribution center with annual sales of $90 million, supported by an average inventory of $9 million.
- Accomplished sales growth of 20% by directing team members in daily operations to ensure high degree of safety, service and quality (implementation of RF system).
- Executed the efficient and timely flow of merchandise delivery to over l 00 locations in the U.S. on a daily basis through planning and effective management resources, as wells as developing key relationships with the company's logistics team and core carriers.

EDUCATION

BACHELOR OF SCIENCE – MAJOR IN ACCOUNTING, SAINT JOSEPH'S COLLEGE – WINDHAM, ME

SKILLS

- P&L Management
- Budgeting & Cost Controls
- Shrink Reduction/Loss Control
- Process Improvement
- Customer Service Excellence
- Team Building/Training/Supervision
- Inventory Management

NEVADA STATE BOARD OF PHARMACY

985 Damonte Ranch Parkway, Suite 206 – Reno, NV 89521 – 775-850-1440

Designated Representative Application

Rev (05/12/2022)

An application for a license, or a licensee with a license, to conduct a pharmacy or to operate as a wholesaler shall designate at least one natural person to serve as the representative of the pharmacy or wholesaler. The Board will not issue or renew a license of an applicant or licensee that is required to designate a representative of a pharmacy or wholesaler unless the Board determines that the designated natural person meets the following qualifications per NAC 639.5005 (Pharmacy) or NAC 639.5935 (Wholesaler):

1. Is at least 21 years of age;
2. Has been employed for at least 6,000 hours in a pharmacy or with a wholesaler in a capacity related to the dispensing and distribution of, and recordkeeping related to, prescription drugs.

The designated representative of a pharmacy or a wholesaler:

1. Must be actively involved in and aware of the actual daily operations of the pharmacy or wholesaler;
2. Must be employed full-time in a managerial level position with the pharmacy or wholesaler;
3. Must be physically present at site of the pharmacy or at the facility of the wholesaler during regular business hours, except when the absence of the representative is authorized, including sick leaves, vacation leaves and other authorized absences; and
4. May serve in this representative capacity for only one pharmacy or wholesaler at a time

A pharmacy or wholesaler that is required to designate a natural person as its representative shall not open or operate the pharmacy or wholesaler unless that representative is actually employed full-time in the operation of the pharmacy or wholesaler and is physically present at the site of the pharmacy or wholesaler during regular working hours, not including sick leave, vacation leave and other authorized absences from work. If the natural person designated as the representative of a pharmacy leaves the employ of the pharmacy or wholesaler, thus leaving the pharmacy or wholesaler without a representative in violation of this section, the pharmacy or wholesaler shall:

1. Immediately cease conducting business until another qualified natural person is approved by the Board to serve as the representative of the pharmacy or wholesaler; and
2. Not later than 48 hours after that person leaves its employ, notify the Board that the person designated as the representative of the pharmacy or wholesaler has left the employ of the pharmacy or wholesaler.

Before a pharmacy or wholesaler, that is in violation of NAC 639.5005 (Pharmacy) or NAC 639.5935 (Wholesaler) because the natural person designated as the representative of the pharmacy or wholesaler left the employ of the pharmacy or wholesaler, may continue conducting business:

1. The pharmacy or wholesaler must designate, on a form provided by the Board, a new natural person to serve as the representative of the pharmacy; and
2. The Board must approve the natural person so designated.

I, Lawrence Randall, **certify that as the MDEG Administrator for**

Medline Industries, LP,

that I (initial that you have read and meet the following requirements):

1. LR Have a high school diploma or its equivalent;
2. LR Have
   a. At least 1,500 hours of verifiable work experience relating to the products provided by the medical products provider or medical products wholesaler; or
   b. An associate's degree or higher degree from an accredited college or university in a field of study that is directly related to patient health care;
3. LR Will be employed by the medical products provider or medical products wholesaler at the place of business or facility of the employer at least 40 hours per week or during all regular business hours if the business or facility is regularly open less than 40 hours per week; and
4. LR Will ensure that the operation of the business or facility complies with all applicable federal, state and local laws, regulations and rules.

I certify under penalty of perjury that the information contained in this application is accurate, true and complete in all material respects. I understand that making any false representation in this application is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire application and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event this application is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

Robert L. Raney, Senior Vice President

On this the **3rd** day of **February**, **2017**, before me personally appeared **Robert L. Raney**, who acknowledged himself to be the Senior Vice President of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, and that he, as such, being authorized so to do, executed the foregoing instrument for the purposes therein contained by signing on behalf of the corporations by himself as a duly authorized officer.

In Witness Whereof, I hereunto set my hand and official seal.

My Commission expires the **30th** day of **June**, **2021**

Marie C. Tetreault
Marie C. Tetreault, Notary Public

This Power of Attorney is granted under and by the authority of the following resolutions adopted by the Boards of Directors of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, which resolutions are now in full force and effect, reading as follows:

RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President, any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary may appoint Attorneys-in-Fact and Agents to act for and on behalf of the Company and may give such appointee such authority as his or her certificate of authority may prescribe to sign with the Company's name and seal with the Company's seal bonds, recognizances, contracts of indemnity, and other writings obligatory in the nature of a bond, recognizance, or conditional undertaking, and any of said officers or the Board of Directors at any time may remove any such appointee and revoke the power given him or her; and it is

FURTHER RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President may delegate all or any part of the foregoing authority to one or more officers or employees of this Company, provided that each such delegation is in writing and a copy thereof is filed in the office of the Secretary; and it is

FURTHER RESOLVED, that any bond, recognizance, contract of indemnity, or writing obligatory in the nature of a bond, recognizance, or conditional undertaking shall be valid and binding upon the Company when (a) signed by the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary and duly attested and sealed with the Company's seal by a Secretary or Assistant Secretary; or (b) duly executed (under seal, if required) by one or more Attorneys-in-Fact and Agents pursuant to the power prescribed in his or her certificate or their certificates of authority or by one or more Company officers pursuant to a written delegation of authority; and it is

FURTHER RESOLVED, that the signature of each of the following officers: President, any Executive Vice President, any Senior Vice President, any Vice President, any Assistant Vice President, any Secretary, any Assistant Secretary, and the seal of the Company may be affixed by facsimile to any Power of Attorney or to any certificate relating thereto appointing Resident Vice Presidents, Resident Assistant Secretaries or Attorneys-in-Fact for purposes only of executing and attesting bonds and undertakings and other writings obligatory in the nature thereof, and any such Power of Attorney or certificate bearing such facsimile signature or facsimile seal shall be valid and binding upon the Company and any such power so executed and certified by such facsimile signature and facsimile seal shall be valid and binding on the Company in the future with respect to any bond or understanding to which it is attached.

I, **Kevin E. Hughes**, the undersigned, Assistant Secretary of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, do hereby certify that the above and foregoing is a true and correct copy of the Power of Attorney executed by said Companies, which remains in full force and effect.

Medline Industries, LP- Discipline *Confidential*

Date	Facility	Description of State Action	Corrective Actions
8/3/2005	1401 N. Universal Ave Kansas City, MO 64120	**FILE CLOSED 2010** Medline Industries' Kansas City, MO facility (#2003031660) was disciplined for failure to renew on time and for deficient temperature control procedures. Medline was placed on probation for 5 years. The state conducted multiple inspections of the facility throughout the probationary period and found Medline to comply with all requirements. The probationary period closed in August 2010.	Medline's Regulatory Affairs Department was significantly expanded to include a team of 7 Licensing Specialists that monitor and ensure our licenses are renewed on time. A temperature control room was constructed at the facility to ensure product is stored at the appropriate temperature and humidity. These control rooms are now a standard feature at our distribution centers. We worked closely with NABP to ensure that our temperature control facilities and procedures align with industry best practices throughout our distribution network.
12/7/2006	9101 Riverside Pkwy Lithia Springs, GA 30122	**FILE CLOSED 2008** The Florida Certified Designated Representative at the Georgia facility unexpectedly resigned. The state of Florida suspended Medline's Florida Out of State Rx Drug Wholesale Distributor Permit (#23:1470) until a new licensed Florida CDR was hired at the facility.	To prevent this for occurring in the future, all Florida licensed Medline facilities are required to have multiple Florida Certified Designated Representatives on staff.
11/16/2007	10601 Southport Dr. Orlando, FL 32824 401 Commerce Blvd. Oldsmar, FL 34677 4750 118th Ave N Clearwater, FL 33762	**FILE CLOSED 2008** Medline Industries was cited for several violations. Failure to pass and maintain a Florida compliant pedigree. Maintaining the wrong permit type for the activities performed in the facilities (in addition to a manufacturing permit, Florida required the facility a repackager permit). Distribution of saline to an unauthorized recipient. Additionally an Rx drug item was found at an unlicensed raw materials storage facility. Medline challenged several violations, resulting in most being substantially reduced or removed. Medline was assessed and paid a fine for these violations. All issues were addressed and resolved to the satisfaction of the FL DOH. After duly notifying state authorities, as required by law, Medline received a fined from New York for out-of-state professional misconduct. (Cal. No. 27278)	To address the pedigree issues, Medline instituted a Florida specific pedigree system. This program ensured that any pedigree shipments within our distribution network with potential to end up in Florida has the required Florida documentation. (Note - these requirements have since been preempted by federal law). To address the issue of the wrong permit type, Medline secured the repackaging permit. To address the sale of saline to an unauthorized person, Medline instituted a new procedure for obtaining and maintaining customer licenses for all Rx Drug purchases- this procedure generates an automatic block for any Rx Drug order by an unlicensed customer. The Rx Drug item unintentionally stored in the raw materials facility was properly disposed of. Waste disposal procedures were updated to ensure that this mistake would not recur.
11/26/2007	2708 NE Waldo Rd. Gainesville, FL 32609	**FILE CLOSED 2008** Medline Industries' FL license (# 22:1022) was suspended for violations identified during a Florida BOP facility inspection. Medline, through Counsel, addressed the issues raised in the inspection and established that the suspension was unjustified. The suspension was lifted 3 days later on January 22, 2008. In 2010, Medline made an unrelated business decision to close this facility. (Case # 2007-37412)	After this inspection, Medline conducted a thorough review of its policies and procedures. Additionally, Medline implemented an internal auditing program to ensure that all distribution centers comply with internal policies and procedures and state and federal regulations.
3/5/2008	149 New Camellia Blvd. Covington, LA 70433	**FILE CLOSED 2008** Medline Industries (LA #4318) was cited for failure to properly maintain copies of current customer licenses on-site. Medline was assessed and paid a fine. (Louisiana Administrative Docket #2008006). After duly notifying state authorities, as required by law, Medline received a fine from New York for out-of-state professional misconduct. (Cal. No. 27278)	In addition to storing copies of customers' licenses at headquarters, these licenses are now stored digitally so they can be accessed by our distribution centers.
5/9/2008	5450 W. Stewart Ave. Wausau, WI 54401	**FILE CLOSED 2009** Medline Industries (WI # 1116-045) was cited and fined by the Wisconsin Department of Regulation & Licensing following a facility inspection. Medline managed a portion of a Wisconsin hospital's warehouse. The inspector cited Medline for failure to install a dividing fence between the Medline warehouse and the hospital portion of the facility. All of the hospital products were owned by the hospital. Medline was also cited for failure to access policies and procedures during the inspection. Corrections were made and the facility re-inspected, to the satisfaction of the state (Case #08	Immediately after the inspection, Medline and the owner of the facility erected a locked fence to divide the faculty. Medline also reviewed all of its other facilities to make sure no similar situations existed. In addition, training on where and how to access current policies and procedures was increased for distribution center personnel. This training is in addition to the training they receive on the policies and procedures themselves.

Medline Industries, LP- Discipline *Confidential*

		PHM 037). In 2010, Medline made an unrelated business decision to close this facility. After duly notifying state authorities, as required by law, Medline received a fine from the states of Hawaii (Case #PHA 2009-7-L) and New York (Cal. No. 27278) for out-of-state professional misconduct.	
8/21/2008	94-1420 Moaniani St. Waipahu, HI 96797	**FILE CLOSED 2013** Medline Industries, Inc. (PWD 115) was fined $5000 and placed on probation for 5 years for failure to report disciplinary actions within 30 days. Medline submitted all required notices, but missed the 30-day deadline. The probationary period ended in August 2013. (Case # PHA 2008-17-L)	Medline implemented a new process to notify the necessary licensing boards of future disciplinary actions within the required reporting timelines.
3/19/2010	1401 N. Universal Ave. Kansas City, MO 64120	**FILE CLOSED 2010** Medline Industries, Inc. applied for a Colorado Out-of-State Wholesaler license for the Kansas City, MO distribution center. The CO Board of Pharmacy issued a conditional license until the facility's MO probation period ended. (See 8/3/2005 discipline). Medline informed the CO Board when the MO probationary period was completed. Upon completion of probation, the Board issued a full license.	See 8/3/2005 discipline for corrective actions related to the underlying sanction.
1/6/2021	1501 Harris Rd Libertyville, IL 60048	**FILE CLOSED 2021** Medline Industries, Inc. (OH License #01-1985050) received a fine of $250 from the Ohio Board of Pharmacy for the sale of dangerous drugs to an unlicensed entity. Medline maintained a current and valid DEA license on file for the physician rather than the TDDD license for the facility. The facility's TDDD license at the time of the sale had expired. The fine was paid on January 21, 2021 and the case was closed. (Case No. A-2020-0054 I-2019-0972-B.) After duly notifying state authorities, as required by law, Medline received a $500 fine from the Alabama State Board of Pharmacy for the same underlying conduct as the Ohio matter. The fine was paid and the matter closed. (Case No:21-L-0048)	Medline takes this matter very seriously. Medline reviewed the customer licensing policies and procedures and updated internal requirements for the type of license required for customers in Ohio. Efforts were taken by Customer Licensing to research, ensure the proper type, and check license status for a large number of existing Ohio licenses. The Ohio TDDD licenses are reviewed on an annual basis to ensure compliance.
11/1/2022	1040 Enterprise Parkway South West Jefferson, OH 43162	**FILE CLOSURE PENDING** Medline Industries, LP (OH License #01-30000190) entered a settlement agreement and agreed to pay a fine of $1,125.00 to the Ohio Board of Pharmacy for alleged sales of dangerous drugs to an unlicensed entity. Medline maintained a physician license on file versus a Terminal Distributor (TDDD) license. The TDDD license was added in May 2022- prior to this investigation. During the period of July 2021 to March 2022, the customer's TDDD license lapsed and Medline was unaware. Medline is in the process of notifying states of this fine.	Medline is committed to following all applicable state and federal statutes and regulations, including customer license requirements. Medline updated customer licensing requirements after the 01/06/2021 fine. This incident occurred while Medline was in the process of updating a large number of Ohio accounts. Medline is implementing additional steps to ensure compliance, including, increasing staffing, training, and resources for the customer licensing team.

By: _____
Robert L. Raney, Senior Vice President

On this the **3rd** day of **February, 2017**, before me personally appeared **Robert L. Raney**, who acknowledged himself to be the Senior Vice President of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, and that he, as such, being authorized so to do, executed the foregoing instrument for the purposes therein contained by signing on behalf of the corporations by himself as a duly authorized officer.

In Witness Whereof, I hereunto set my hand and official seal.

My Commission expires the **30th** day of **June, 2021**

Marie C Tetreault
Marie C. Tetreault, Notary Public

This Power of Attorney is granted under and by the authority of the following resolutions adopted by the Boards of Directors of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, which resolutions are now in full force and effect, reading as follows:

RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President, any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary may appoint Attorneys-in-Fact and Agents to act for and on behalf of the Company and may give such appointee such authority as his or her certificate of authority may prescribe to sign with the Company's name and seal with the Company's seal bonds, recognizances, contracts of indemnity, and other writings obligatory in the nature of a bond, recognizance, or conditional undertaking, and any of said officers or the Board of Directors at any time may remove any such appointee and revoke the power given him or her; and it is

FURTHER RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President may delegate all or any part of the foregoing authority to one or more officers or employees of this Company, provided that each such delegation is in writing and a copy thereof is filed in the office of the Secretary; and it is

FURTHER RESOLVED, that any bond, recognizance, contract of indemnity, or writing obligatory in the nature of a bond, recognizance, or conditional undertaking shall be valid and binding upon the Company when (a) signed by the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary and duly attested and sealed with the Company's seal by a Secretary or Assistant Secretary; or (b) duly executed (under seal, if required) by one or more Attorneys-in-Fact and Agents pursuant to the power prescribed in his or her certificate or their certificates of authority or by one or more Company officers pursuant to a written delegation of authority; and it is

FURTHER RESOLVED, that the signature of each of the following officers: President, any Executive Vice President, any Senior Vice President, any Vice President, any Assistant Vice President, any Secretary, any Assistant Secretary, and the seal of the Company may be affixed by facsimile to any Power of Attorney or to any certificate relating thereto appointing Resident Vice Presidents, Resident Assistant Secretaries or Attorneys-in-Fact for purposes only of executing and attesting bonds and undertakings and other writings obligatory in the nature thereof, and any such Power of Attorney or certificate bearing such facsimile signature or facsimile seal shall be valid and binding upon the Company and any such power so executed and certified by such facsimile signature and facsimile seal shall be valid and binding on the Company in the future with respect to any bond or understanding to which it is attached.

I, **Kevin E. Hughes**, the undersigned, Assistant Secretary of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, do hereby certify that the above and foregoing is a true and correct copy of the Power of Attorney executed by said Companies, which remains in full force and effect.

Medline Industries, LP- Discipline *Confidential*

Date	Facility	Description of State Action	Corrective Actions
8/3/2005	1401 N. Universal Ave Kansas City, MO 64120	**FILE CLOSED 2010** Medline Industries' Kansas City, MO facility (#2003031660) was disciplined for failure to renew on time and for deficient temperature control procedures. Medline was placed on probation for 5 years. The state conducted multiple inspections of the facility throughout the probationary period and found Medline to comply with all requirements. The probationary period closed in August 2010.	Medline's Regulatory Affairs Department was significantly expanded to include a team of 7 Licensing Specialists that monitor and ensure our licenses are renewed on time. A temperature control room was constructed at the facility to ensure product is stored at the appropriate temperature and humidity. These control rooms are now a standard feature at our distribution centers. We worked closely with NABP to ensure that our temperature control facilities and procedures align with industry best practices throughout our distribution network.
12/7/2006	9101 Riverside Pkwy Lithia Springs, GA 30122	**FILE CLOSED 2008** The Florida Certified Designated Representative at the Georgia facility unexpectedly resigned. The state of Florida suspended Medline's Florida Out of State Rx Drug Wholesale Distributor Permit (#23:1470) until a new licensed Florida CDR was hired at the facility.	To prevent this for occurring in the future, all Florida licensed Medline facilities are required to have multiple Florida Certified Designated Representatives on staff.
11/16/2007	10601 Southport Dr. Orlando, FL 32824 --- 401 Commerce Blvd. Oldsmar, FL 34677 --- 4750 118th Ave N Clearwater, FL 33762	**FILE CLOSED 2008** Medline Industries was cited for several violations. Failure to pass and maintain a Florida compliant pedigree. Maintaining the wrong permit type for the activities performed in the facilities (in addition to a manufacturing permit, Florida required the facility a repackager permit). Distribution of saline to an unauthorized recipient. Additionally an Rx drug item was found at an unlicensed raw materials storage facility. Medline challenged several violations, resulting in most being substantially reduced or removed. Medline was assessed and paid a fine for these violations. All issues were addressed and resolved to the satisfaction of the FL DOH. After duly notifying state authorities, as required by law, Medline received a fined from New York for out-of-state professional misconduct. (Cal. No. 27278)	To address the pedigree issues, Medline instituted a Florida specific pedigree system. This program ensured that any pedigree shipments within our distribution network with potential to end up in Florida has the required Florida documentation. (Note - these requirements have since been preempted by federal law). To address the issue of the wrong permit type, Medline secured the repackaging permit. To address the sale of saline to an unauthorized person, Medline instituted a new procedure for obtaining and maintaining customer licenses for all Rx Drug purchases- this procedure generates an automatic block for any Rx Drug order by an unlicensed customer. The Rx Drug item unintentionally stored in the raw materials facility was properly disposed of. Waste disposal procedures were updated to ensure that this mistake would not recur.
11/26/2007	2708 NE Waldo Rd. Gainesville, FL 32609	**FILE CLOSED 2008** Medline Industries' FL license (# 22:1022) was suspended for violations identified during a Florida BOP facility inspection. Medline, through Counsel, addressed the issues raised in the inspection and established that the suspension was unjustified. The suspension was lifted 3 days later on January 22, 2008. In 2010, Medline made an unrelated business decision to close this facility. (Case # 2007-37412)	After this inspection, Medline conducted a thorough review of its policies and procedures. Additionally, Medline implemented an internal auditing program to ensure that all distribution centers comply with internal policies and procedures and state and federal regulations.
3/5/2008	149 New Camellia Blvd. Covington, LA 70433	**FILE CLOSED 2008** Medline Industries (LA #4318) was cited for failure to properly maintain copies of current customer licenses on-site. Medline was assessed and paid a fine. (Louisiana Administrative Docket #2008006). After duly notifying state authorities, as required by law, Medline received a fine from New York for out-of-state professional misconduct. (Cal. No. 27278)	In addition to storing copies of customers' licenses at headquarters, these licenses are now stored digitally so they can be accessed by our distribution centers.
5/9/2008	5450 W. Stewart Ave. Wausau, WI 54401	**FILE CLOSED 2009** Medline Industries (WI # 1116-045) was cited and fined by the Wisconsin Department of Regulation & Licensing following a facility inspection. Medline managed a portion of a Wisconsin hospital's warehouse. The inspector cited Medline for failure to install a dividing fence between the Medline warehouse and the hospital portion of the facility. All of the hospital products were owned by the hospital. Medline was also cited for failure to access policies and procedures during the inspection. Corrections were made and the facility re-inspected, to the satisfaction of the state (Case #08	Immediately after the inspection, Medline and the owner of the facility erected a locked fence to divide the faculty. Medline also reviewed all of its other facilities to make sure no similar situations existed. In addition, training on where and how to access current policies and procedures was increased for distribution center personnel. This training is in addition to the training they receive on the policies and procedures themselves.

Medline Industries, LP- Discipline *Confidential*

		PHM 037). In 2010, Medline made an unrelated business decision to close this facility. After duly notifying state authorities, as required by law, Medline received a fine from the states of Hawaii (Case #PHA 2009-7-L) and New York (Cal. No. 27278) for out-of-state professional misconduct.	
8/21/2008	94-1420 Moaniani St. Waipahu, HI 96797	**FILE CLOSED 2013** Medline Industries, Inc. (PWD 115) was fined $5000 and placed on probation for 5 years for failure to report disciplinary actions within 30 days. Medline submitted all required notices, but missed the 30-day deadline. The probationary period ended in August 2013. (Case # PHA 2008-17-L)	Medline implemented a new process to notify the necessary licensing boards of future disciplinary actions within the required reporting timelines.
3/19/2010	1401 N. Universal Ave. Kansas City, MO 64120	**FILE CLOSED 2010** Medline Industries, Inc. applied for a Colorado Out-of-State Wholesaler license for the Kansas City, MO distribution center. The CO Board of Pharmacy issued a conditional license until the facility's MO probation period ended. (See 8/3/2005 discipline). Medline informed the CO Board when the MO probationary period was completed. Upon completion of probation, the Board issued a full license.	See 8/3/2005 discipline for corrective actions related to the underlying sanction.
1/6/2021	1501 Harris Rd Libertyville, IL 60048	**FILE CLOSED 2021** Medline Industries, Inc. (OH License #01-1985050) received a fine of $250 from the Ohio Board of Pharmacy for the sale of dangerous drugs to an unlicensed entity. Medline maintained a current and valid DEA license on file for the physician rather than the TDDD license for the facility. The facility's TDDD license at the time of the sale had expired. The fine was paid on January 21, 2021 and the case was closed. (Case No. A-2020-0054 I-2019-0972-B.) After duly notifying state authorities, as required by law, Medline received a $500 fine from the Alabama State Board of Pharmacy for the same underlying conduct as the Ohio matter. The fine was paid and the matter closed. (Case No:21-L-0048)	Medline takes this matter very seriously. Medline reviewed the customer licensing policies and procedures and updated internal requirements for the type of license required for customers in Ohio. Efforts were taken by Customer Licensing to research, ensure the proper type, and check license status for a large number of existing Ohio licenses. The Ohio TDDD licenses are reviewed on an annual basis to ensure compliance.
11/1/2022	1040 Enterprise Parkway South West Jefferson, OH 43162	**FILE CLOSURE PENDING** Medline Industries, LP (OH License #01-30000190) entered a settlement agreement and agreed to pay a fine of $1,125.00 to the Ohio Board of Pharmacy for alleged sales of dangerous drugs to an unlicensed entity. Medline maintained a physician license on file versus a Terminal Distributor (TDDD) license. The TDDD license was added in May 2022- prior to this investigation. During the period of July 2021 to March 2022, the customer's TDDD license lapsed and Medline was unaware. Medline is in the process of notifying states of this fine.	Medline is committed to following all applicable state and federal statutes and regulations, including customer license requirements. Medline updated customer licensing requirements after the 01/06/2021 fine. This incident occurred while Medline was in the process of updating a large number of Ohio accounts. Medline is implementing additional steps to ensure compliance, including, increasing staffing, training, and resources for the customer licensing team.

Section 8: Arrests, Detentions, Litigations, Arbitrations.	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		✓
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		✓
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		✓
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)	✓	
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?	✓	
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?	✓	
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✓
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✓
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✓
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✓

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

This is in response to Question # 4,5,6. **Provide all the following *where applicable*:**

***Use current or renewal date.**

TRAVELERS

Travelers Casualty and Surety Company of America
Travelers Casualty and Surety Company
St. Paul Fire and Marine Insurance Company

POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS: That Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company are corporations duly organized under the laws of the State of Connecticut (herein collectively called the "Companies"), and that the Companies do hereby make, constitute and appoint **Peter S. Forker** of **Rolling Meadows**, **Illinois**, their true and lawful Attorney-in-Fact to sign, execute, seal and acknowledge any and all bonds, recognizances, conditional undertakings and other writings obligatory in the nature thereof on behalf of the Companies in their business of guaranteeing the fidelity of persons, guaranteeing the performance of contracts and executing or guaranteeing bonds and undertakings required or permitted in any actions or proceedings allowed by law.

IN WITNESS WHEREOF, the Companies have caused this instrument to be signed, and their corporate seals to be hereto affixed, this **3rd** day of **February**, **2017.**

State of Connecticut

City of Hartford ss.

By: _____
Robert L. Raney, Senior Vice President

On this the **3rd** day of **February**, **2017**, before me personally appeared **Robert L. Raney**, who acknowledged himself to be the Senior Vice President of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, and that he, as such, being authorized so to do, executed the foregoing instrument for the purposes therein contained by signing on behalf of the corporations by himself as a duly authorized officer.

In Witness Whereof, I hereunto set my hand and official seal.

My Commission expires the **30th** day of **June**, **2021**

Marie C Tetreault
Marie C. Tetreault, Notary Public

This Power of Attorney is granted under and by the authority of the following resolutions adopted by the Boards of Directors of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, which resolutions are now in full force and effect, reading as follows:

RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President, any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary may appoint Attorneys-in-Fact and Agents to act for and on behalf of the Company and may give such appointee such authority as his or her certificate of authority may prescribe to sign with the Company's name and seal with the Company's seal bonds, recognizances, contracts of indemnity, and other writings obligatory in the nature of a bond, recognizance, or conditional undertaking, and any of said officers or the Board of Directors at any time may remove any such appointee and revoke the power given him or her; and it is

FURTHER RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President may delegate all or any part of the foregoing authority to one or more officers or employees of this Company, provided that each such delegation is in writing and a copy thereof is filed in the office of the Secretary; and it is

FURTHER RESOLVED, that any bond, recognizance, contract of indemnity, or writing obligatory in the nature of a bond, recognizance, or conditional undertaking shall be valid and binding upon the Company when (a) signed by the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary and duly attested and sealed with the Company's seal by a Secretary or Assistant Secretary; or (b) duly executed (under seal, if required) by one or more Attorneys-in-Fact and Agents pursuant to the power prescribed in his or her certificate or their certificates of authority or by one or more Company officers pursuant to a written delegation of authority; and it is

FURTHER RESOLVED, that the signature of each of the following officers: President, any Executive Vice President, any Senior Vice President, any Vice President, any Assistant Vice President, any Secretary, any Assistant Secretary, and the seal of the Company may be affixed by facsimile to any Power of Attorney or to any certificate relating thereto appointing Resident Vice Presidents, Resident Assistant Secretaries or Attorneys-in-Fact for purposes only of executing and attesting bonds and undertakings and other writings obligatory in the nature thereof, and any such Power of Attorney or certificate bearing such facsimile signature or facsimile seal shall be valid and binding upon the Company and any such power so executed and certified by such facsimile signature and facsimile seal shall be valid and binding on the Company in the future with respect to any bond or understanding to which it is attached.

I, **Kevin E. Hughes**, the undersigned, Assistant Secretary of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, do hereby certify that the above and foregoing is a true and correct copy of the Power of Attorney executed by said Companies, which remains in full force and effect.

Dated this 22nd day of September 2020

Kevin E. Hughes, Assistant Secretary

To verify the authenticity of this Power of Attorney, please call us at 1-800-421-3880.
Please refer to the above-named Attorney-in-Fact and the details of the bond to which the power is attached.

Robert L. Raney, Senior Vice President

On this the **21st** day of **April, 2021**, before me personally appeared **Robert L. Raney**, who acknowledged himself to be the Senior Vice President of each of the Companies, and that he, as such, being authorized so to do, executed the foregoing instrument for the purposes therein contained by signing on behalf of said Companies by himself as a duly authorized officer.

IN WITNESS WHEREOF, I hereunto set my hand and official seal.

My Commission expires the **30th** day of **June, 2026**

_____
Anna P. Nowik, Notary Public

This Power of Attorney is granted under and by the authority of the following resolutions adopted by the Boards of Directors of each of the Companies, which resolutions are now in full force and effect, reading as follows:

RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President, any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary may appoint Attorneys-in-Fact and Agents to act for and on behalf of the Company and may give such appointee such authority as his or her certificate of authority may prescribe to sign with the Company's name and seal with the Company's seal bonds, recognizances, contracts of indemnity, and other writings obligatory in the nature of a bond, recognizance, or conditional undertaking, and any of said officers or the Board of Directors at any time may remove any such appointee and revoke the power given him or her; and it is

FURTHER RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President may delegate all or any part of the foregoing authority to one or more officers or employees of this Company, provided that each such delegation is in writing and a copy thereof is filed in the office of the Secretary; and it is

FURTHER RESOLVED, that any bond, recognizance, contract of indemnity, or writing obligatory in the nature of a bond, recognizance, or conditional undertaking shall be valid and binding upon the Company when (a) signed by the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary and duly attested and sealed with the Company's seal by a Secretary or Assistant Secretary; or (b) duly executed (under seal, if required) by one or more Attorneys-in-Fact and Agents pursuant to the power prescribed in his or her certificate or their certificates of authority or by one or more Company officers pursuant to a written delegation of authority; and it is

FURTHER RESOLVED, that the signature of each of the following officers: President, any Executive Vice President, any Senior Vice President, any Vice President, any Assistant Vice President, any Secretary, any Assistant Secretary, and the seal of the Company may be affixed by facsimile to any Power of Attorney or to any certificate relating thereto appointing Resident Vice Presidents, Resident Assistant Secretaries or Attorneys-in-Fact for purposes only of executing and attesting bonds and undertakings and other writings obligatory in the nature thereof, and any such Power of Attorney or certificate bearing such facsimile signature or facsimile seal shall be valid and binding upon the Company and any such power so executed and certified by such facsimile signature and facsimile seal shall be valid and binding on the Company in the future with respect to any bond or understanding to which it is attached.

I, **Kevin E. Hughes**, the undersigned, Assistant Secretary of each of the Companies, do hereby certify that the above and foregoing is a true and correct copy of the Power of Attorney executed by said Companies, which remains in full force and effect.

Dated this 10th day of December 2021

Medline Industries, LP- Discipline *Confidential*

Date	Facility	Description of State Action	Corrective Actions
8/3/2005	1401 N. Universal Ave Kansas City, MO 64120	**FILE CLOSED 2010** Medline Industries' Kansas City, MO facility (#2003031660) was disciplined for failure to renew on time and for deficient temperature control procedures. Medline was placed on probation for 5 years. The state conducted multiple inspections of the facility throughout the probationary period and found Medline to comply with all requirements. The probationary period closed in August 2010.	Medline's Regulatory Affairs Department was significantly expanded to include a team of 7 Licensing Specialists that monitor and ensure our licenses are renewed on time. A temperature control room was constructed at the facility to ensure product is stored at the appropriate temperature and humidity. These control rooms are now a standard feature at our distribution centers. We worked closely with NABP to ensure that our temperature control facilities and procedures align with industry best practices throughout our distribution network.
12/7/2006	9101 Riverside Pkwy Lithia Springs, GA 30122	**FILE CLOSED 2008** The Florida Certified Designated Representative at the Georgia facility unexpectedly resigned. The state of Florida suspended Medline's Florida Out of State Rx Drug Wholesale Distributor Permit (#23:1470) until a new licensed Florida CDR was hired at the facility.	To prevent this for occurring in the future, all Florida licensed Medline facilities are required to have multiple Florida Certified Designated Representatives on staff.
11/16/2007	10601 Southport Dr. Orlando, FL 32824 401 Commerce Blvd. Oldsmar, FL 34677 4750 118th Ave N Clearwater, FL 33762	**FILE CLOSED 2008** Medline Industries was cited for several violations. Failure to pass and maintain a Florida compliant pedigree. Maintaining the wrong permit type for the activities performed in the facilities (in addition to a manufacturing permit, Florida required the facility a repackager permit). Distribution of saline to an unauthorized recipient. Additionally an Rx drug item was found at an unlicensed raw materials storage facility. Medline challenged several violations, resulting in most being substantially reduced or removed. Medline was assessed and paid a fine for these violations. All issues were addressed and resolved to the satisfaction of the FL DOH. After duly notifying state authorities, as required by law, Medline received a fined from New York for out-of-state professional misconduct. (Cal. No. 27278)	To address the pedigree issues, Medline instituted a Florida specific pedigree system. This program ensured that any pedigree shipments within our distribution network with potential to end up in Florida has the required Florida documentation. (Note - these requirements have since been preempted by federal law). To address the issue of the wrong permit type, Medline secured the repackaging permit. To address the sale of saline to an unauthorized person, Medline instituted a new procedure for obtaining and maintaining customer licenses for all Rx Drug purchases- this procedure generates an automatic block for any Rx Drug order by an unlicensed customer. The Rx Drug item unintentionally stored in the raw materials facility was properly disposed of. Waste disposal procedures were updated to ensure that this mistake would not recur.
11/26/2007	2708 NE Waldo Rd. Gainesville, FL 32609	**FILE CLOSED 2008** Medline Industries' FL license (# 22:1022) was suspended for violations identified during a Florida BOP facility inspection. Medline, through Counsel, addressed the issues raised in the inspection and established that the suspension was unjustified. The suspension was lifted 3 days later on January 22, 2008. In 2010, Medline made an unrelated business decision to close this facility. (Case # 2007-37412)	After this inspection, Medline conducted a thorough review of its policies and procedures. Additionally, Medline implemented an internal auditing program to ensure that all distribution centers comply with internal policies and procedures and state and federal regulations.
3/5/2008	149 New Camellia Blvd. Covington, LA 70433	**FILE CLOSED 2008** Medline Industries (LA #4318) was cited for failure to properly maintain copies of current customer licenses on-site. Medline was assessed and paid a fine. (Louisiana Administrative Docket #2008006). After duly notifying state authorities, as required by law, Medline received a fine from New York for out-of-state professional misconduct. (Cal. No. 27278)	In addition to storing copies of customers' licenses at headquarters, these licenses are now stored digitally so they can be accessed by our distribution centers.
5/9/2008	5450 W. Stewart Ave. Wausau, WI 54401	**FILE CLOSED 2009** Medline Industries (WI # 1116-045) was cited and fined by the Wisconsin Department of Regulation & Licensing following a facility inspection. Medline managed a portion of a Wisconsin hospital's warehouse. The inspector cited Medline for failure to install a dividing fence between the Medline warehouse and the hospital portion of the facility. All of the hospital products were owned by the hospital. Medline was also cited for failure to access policies and procedures during the inspection. Corrections were made and the facility re-inspected, to the satisfaction of the state (Case #08	Immediately after the inspection, Medline and the owner of the facility erected a locked fence to divide the faculty. Medline also reviewed all of its other facilities to make sure no similar situations existed. In addition, training on where and how to access current policies and procedures was increased for distribution center personnel. This training is in addition to the training they receive on the policies and procedures themselves.

Medline Industries, LP- Discipline *Confidential*

		PHM 037). In 2010, Medline made an unrelated business decision to close this facility. After duly notifying state authorities, as required by law, Medline received a fine from the states of Hawaii (Case #PHA 2009-7-L) and New York (Cal. No. 27278) for out-of-state professional misconduct.	
8/21/2008	94-1420 Moaniani St. Waipahu, HI 96797	**FILE CLOSED 2013** Medline Industries, Inc. (PWD 115) was fined $5000 and placed on probation for 5 years for failure to report disciplinary actions within 30 days. Medline submitted all required notices, but missed the 30-day deadline. The probationary period ended in August 2013. (Case # PHA 2008-17-L)	Medline implemented a new process to notify the necessary licensing boards of future disciplinary actions within the required reporting timelines.
3/19/2010	1401 N. Universal Ave. Kansas City, MO 64120	**FILE CLOSED 2010** Medline Industries, Inc. applied for a Colorado Out-of-State Wholesaler license for the Kansas City, MO distribution center. The CO Board of Pharmacy issued a conditional license until the facility's MO probation period ended. (See 8/3/2005 discipline). Medline informed the CO Board when the MO probationary period was completed. Upon completion of probation, the Board issued a full license.	See 8/3/2005 discipline for corrective actions related to the underlying sanction.
1/6/2021	1501 Harris Rd Libertyville, IL 60048	**FILE CLOSED 2021** Medline Industries, Inc. (OH License #01-1985050) received a fine of $250 from the Ohio Board of Pharmacy for the sale of dangerous drugs to an unlicensed entity. Medline maintained a current and valid DEA license on file for the physician rather than the TDDD license for the facility. The facility's TDDD license at the time of the sale had expired. The fine was paid on January 21, 2021 and the case was closed. (Case No. A-2020-0054 I-2019-0972-B.) After duly notifying state authorities, as required by law, Medline received a $500 fine from the Alabama State Board of Pharmacy for the same underlying conduct as the Ohio matter. The fine was paid and the matter closed. (Case No:21-L-0048)	Medline takes this matter very seriously. Medline reviewed the customer licensing policies and procedures and updated internal requirements for the type of license required for customers in Ohio. Efforts were taken by Customer Licensing to research, ensure the proper type, and check license status for a large number of existing Ohio licenses. The Ohio TDDD licenses are reviewed on an annual basis to ensure compliance.
11/1/2022	1040 Enterprise Parkway South West Jefferson, OH 43162	**FILE CLOSURE PENDING** Medline Industries, LP (OH License #01-30000190) entered a settlement agreement and agreed to pay a fine of $1,125.00 to the Ohio Board of Pharmacy for alleged sales of dangerous drugs to an unlicensed entity. Medline maintained a physician license on file versus a Terminal Distributor (TDDD) license. The TDDD license was added in May 2022- prior to this investigation. During the period of July 2021 to March 2022, the customer's TDDD license lapsed and Medline was unaware. Medline is in the process of notifying states of this fine.	Medline is committed to following all applicable state and federal statutes and regulations, including customer license requirements. Medline updated customer licensing requirements after the 01/06/2021 fine. This incident occurred while Medline was in the process of updating a large number of Ohio accounts. Medline is implementing additional steps to ensure compliance, including, increasing staffing, training, and resources for the customer licensing team.

CERTIFICATE OF LIABILITY INSURANCE

DATE (MM/DD/YYYY): 06/24/2022

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. THIS CERTIFICATE OF INSURANCE DOES NOT CONSTITUTE A CONTRACT BETWEEN THE ISSUING INSURER(S), AUTHORIZED REPRESENTATIVE OR PRODUCER, AND THE CERTIFICATE HOLDER.

IMPORTANT: If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must have ADDITIONAL INSURED provisions or be endorsed. If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).

Section 8: Arrests, Detentions, Litigations, Arbitrations.	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		✓
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		✓
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		✓
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)	✓	
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?	✓	
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?	✓	
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✓
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✓
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✓
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✓

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

This is in response to Question # 4,5,6. **Provide all the following *where applicable*:**

Raney**, who acknowledged himself to be the Senior Vice President of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, and that he, as such, being authorized so to do, executed the foregoing instrument for the purposes therein contained by signing on behalf of the corporations by himself as a duly authorized officer.

In Witness Whereof, I hereunto set my hand and official seal.

My Commission expires the **30th** day of **June, 2021**

Marie C. Tetreault
Marie C. Tetreault, Notary Public

This Power of Attorney is granted under and by the authority of the following resolutions adopted by the Boards of Directors of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, which resolutions are now in full force and effect, reading as follows:

RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President, any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary may appoint Attorneys-in-Fact and Agents to act for and on behalf of the Company and may give such appointee such authority as his or her certificate of authority may prescribe to sign with the Company's name and seal with the Company's seal bonds, recognizances, contracts of indemnity, and other writings obligatory in the nature of a bond, recognizance, or conditional undertaking, and any of said officers or the Board of Directors at any time may remove any such appointee and revoke the power given him or her; and it is

FURTHER RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President may delegate all or any part of the foregoing authority to one or more officers or employees of this Company, provided that each such delegation is in writing and a copy thereof is filed in the office of the Secretary; and it is

FURTHER RESOLVED, that any bond, recognizance, contract of indemnity, or writing obligatory in the nature of a bond, recognizance, or conditional undertaking shall be valid and binding upon the Company when (a) signed by the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary and duly attested and sealed with the Company's seal by a Secretary or Assistant Secretary; or (b) duly executed (under seal, if required) by one or more Attorneys-in-Fact and Agents pursuant to the power prescribed in his or her certificate or their certificates of authority or by one or more Company officers pursuant to a written delegation of authority; and it is

FURTHER RESOLVED, that the signature of each of the following officers: President, any Executive Vice President, any Senior Vice President, any Vice President, any Assistant Vice President, any Secretary, any Assistant Secretary, and the seal of the Company may be affixed by facsimile to any Power of Attorney or to any certificate relating thereto appointing Resident Vice Presidents, Resident Assistant Secretaries or Attorneys-in-Fact for purposes only of executing and attesting bonds and undertakings and other writings obligatory in the nature thereof, and any such Power of Attorney or certificate bearing such facsimile signature or facsimile seal shall be valid and binding upon the Company and any such power so executed and certified by such facsimile signature and facsimile seal shall be valid and binding on the Company in the future with respect to any bond or understanding to which it is attached.

I, **Kevin E. Hughes**, the undersigned, Assistant Secretary of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, do hereby certify that the above and foregoing is a true and correct copy of the Power of Attorney executed by said Companies, which remains in full force and effect.

(MONTH, DAY, YEAR)

Travelers Casualty and Surety Company of America

SURETY

BY

Peter S. Forker, ATTORNEY-IN-FACT

TRAVELERS

Travelers Casualty and Surety Company of America
Travelers Casualty and Surety Company
St. Paul Fire and Marine Insurance Company

POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS: That Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company are corporations duly organized under the laws of the State of Connecticut (herein collectively called the "Companies"), and that the Companies do hereby make, constitute and appoint **Peter S Forker** of **ROLLING MEADOWS**, **Illinois**, their true and lawful Attorney(s)-in-Fact to sign, execute, seal and acknowledge any and all bonds, recognizances, conditional undertakings and other writings obligatory in the nature thereof on behalf of the Companies in their business of guaranteeing the fidelity of persons, guaranteeing the performance of contracts and executing or guaranteeing bonds and undertakings required or permitted in any actions or proceedings allowed by law.

IN WITNESS WHEREOF, the Companies have caused this instrument to be signed, and their corporate seals to be hereto affixed, this **21st** day of **April, 2021**.

State of Connecticut

City of Hartford ss.

By: _____
Robert L. Raney, Senior Vice President

On this the **21st** day of **April, 2021**, before me personally appeared **Robert L. Raney**, who acknowledged himself to be the Senior Vice President of each of the Companies, and that he, as such, being authorized so to do, executed the foregoing instrument for the purposes therein contained by signing on behalf of said Companies by himself as a duly authorized officer.

IN WITNESS WHEREOF, I hereunto set my hand and official seal.

My Commission expires the **30th** day of **June, 2026**

_____
Anna P. Nowik, Notary Public

This Power of Attorney is granted under and by the authority of the following resolutions adopted by the Boards of Directors of each of the Companies, which resolutions are now in full force and effect, reading as follows:

RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President, any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary may appoint Attorneys-in-Fact and Agents to act for and on behalf of the Company and may give such appointee such authority as his or her certificate of authority may prescribe to sign with the Company's name and seal with the Company's seal bonds, recognizances, contracts of indemnity, and other writings obligatory in the nature of a bond, recognizance, or conditional undertaking, and any of said officers or the Board of Directors at any time may remove any such appointee and revoke the power given him or her; and it is

FURTHER RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President may delegate all or any part of the foregoing authority to one or more officers or employees of this Company, provided that each such delegation is in writing and a copy thereof is filed in the office of the Secretary; and it is

FURTHER RESOLVED, that any bond, recognizance, contract of indemnity, or writing obligatory in the nature of a bond, recognizance, or conditional undertaking shall be valid and binding upon the Company when (a) signed by the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary and duly attested and sealed with the Company's seal by a Secretary or Assistant Secretary; or (b) duly executed (under seal, if required) by one or more Attorneys-in-Fact and Agents pursuant to the power prescribed in his or her certificate or their certificates of authority or by one or more Company officers pursuant to a written delegation of authority; and it is

FURTHER RESOLVED, that the signature of each of the following officers: President, any Executive Vice President, any Senior Vice President, any Vice President, any Assistant Vice President, any Secretary, any Assistant Secretary, and the seal of the Company may be affixed by facsimile to any Power of Attorney or to any certificate relating thereto appointing Resident Vice Presidents, Resident Assistant Secretaries or Attorneys-in-Fact for purposes only of executing and attesting bonds and undertakings and other writings obligatory in the nature thereof, and any such Power of Attorney or certificate bearing such facsimile signature or facsimile seal shall be valid and binding upon the Company and any such power so executed and certified by such facsimile signature and facsimile seal shall be valid and binding on the Company in the future with respect to any bond or understanding to which it is attached.

I, **Kevin E. Hughes**, the undersigned, Assistant Secretary of each of the Companies, do hereby certify that the above and foregoing is a true and correct copy of the Power of Attorney executed by said Companies, which remains in full force and effect.

Dated this 10th day of December 2021

_____
Kevin E. Hughes, Assistant Secretary

To verify the authenticity of this Power of Attorney, please call us at 1-800-421-3880.
Please refer to the above-named Attorney(s)-in-Fact and the details of the bond to which this Power of Attorney is attached.

ACKNOWLEDGMENT BY SURETY

STATE OF Illinois }

Medline Industries, LP- Discipline *Confidential*

Date	Facility	Description of State Action	Corrective Actions
8/3/2005	1401 N. Universal Ave Kansas City, MO 64120	**FILE CLOSED 2010** Medline Industries' Kansas City, MO facility (#2003031660) was disciplined for failure to renew on time and for deficient temperature control procedures. Medline was placed on probation for 5 years. The state conducted multiple inspections of the facility throughout the probationary period and found Medline to comply with all requirements. The probationary period closed in August 2010.	Medline's Regulatory Affairs Department was significantly expanded to include a team of 7 Licensing Specialists that monitor and ensure our licenses are renewed on time. A temperature control room was constructed at the facility to ensure product is stored at the appropriate temperature and humidity. These control rooms are now a standard feature at our distribution centers. We worked closely with NABP to ensure that our temperature control facilities and procedures align with industry best practices throughout our distribution network.
12/7/2006	9101 Riverside Pkwy Lithia Springs, GA 30122	**FILE CLOSED 2008** The Florida Certified Designated Representative at the Georgia facility unexpectedly resigned. The state of Florida suspended Medline's Florida Out of State Rx Drug Wholesale Distributor Permit (#23:1470) until a new licensed Florida CDR was hired at the facility.	To prevent this for occurring in the future, all Florida licensed Medline facilities are required to have multiple Florida Certified Designated Representatives on staff.
11/16/2007	10601 Southport Dr. Orlando, FL 32824 401 Commerce Blvd. Oldsmar, FL 34677 4750 118th Ave N Clearwater, FL 33762	**FILE CLOSED 2008** Medline Industries was cited for several violations. Failure to pass and maintain a Florida compliant pedigree. Maintaining the wrong permit type for the activities performed in the facilities (in addition to a manufacturing permit, Florida required the facility a repackager permit). Distribution of saline to an unauthorized recipient. Additionally an Rx drug item was found at an unlicensed raw materials storage facility. Medline challenged several violations, resulting in most being substantially reduced or removed. Medline was assessed and paid a fine for these violations. All issues were addressed and resolved to the satisfaction of the FL DOH. After duly notifying state authorities, as required by law, Medline received a fined from New York for out-of-state professional misconduct. (Cal. No. 27278)	To address the pedigree issues, Medline instituted a Florida specific pedigree system. This program ensured that any pedigree shipments within our distribution network with potential to end up in Florida has the required Florida documentation. (Note - these requirements have since been preempted by federal law). To address the issue of the wrong permit type, Medline secured the repackaging permit. To address the sale of saline to an unauthorized person, Medline instituted a new procedure for obtaining and maintaining customer licenses for all Rx Drug purchases- this procedure generates an automatic block for any Rx Drug order by an unlicensed customer. The Rx Drug item unintentionally stored in the raw materials facility was properly disposed of. Waste disposal procedures were updated to ensure that this mistake would not recur.
11/26/2007	2708 NE Waldo Rd. Gainesville, FL 32609	**FILE CLOSED 2008** Medline Industries' FL license (# 22:1022) was suspended for violations identified during a Florida BOP facility inspection. Medline, through Counsel, addressed the issues raised in the inspection and established that the suspension was unjustified. The suspension was lifted 3 days later on January 22, 2008. In 2010, Medline made an unrelated business decision to close this facility. (Case # 2007-37412)	After this inspection, Medline conducted a thorough review of its policies and procedures. Additionally, Medline implemented an internal auditing program to ensure that all distribution centers comply with internal policies and procedures and state and federal regulations.
3/5/2008	149 New Camellia Blvd. Covington, LA 70433	**FILE CLOSED 2008** Medline Industries (LA #4318) was cited for failure to properly maintain copies of current customer licenses on-site. Medline was assessed and paid a fine. (Louisiana Administrative Docket #2008006). After duly notifying state authorities, as required by law, Medline received a fine from New York for out-of-state professional misconduct. (Cal. No. 27278)	In addition to storing copies of customers' licenses at headquarters, these licenses are now stored digitally so they can be accessed by our distribution centers.
5/9/2008	5450 W. Stewart Ave. Wausau, WI 54401	**FILE CLOSED 2009** Medline Industries (WI # 1116-045) was cited and fined by the Wisconsin Department of Regulation & Licensing following a facility inspection. Medline managed a portion of a Wisconsin hospital's warehouse. The inspector cited Medline for failure to install a dividing fence between the Medline warehouse and the hospital portion of the facility. All of the hospital products were owned by the hospital. Medline was also cited for failure to access policies and procedures during the inspection. Corrections were made and the facility re-inspected, to the satisfaction of the state (Case #08	Immediately after the inspection, Medline and the owner of the facility erected a locked fence to divide the faculty. Medline also reviewed all of its other facilities to make sure no similar situations existed. In addition, training on where and how to access current policies and procedures was increased for distribution center personnel. This training is in addition to the training they receive on the policies and procedures themselves.

Medline Industries, LP- Discipline *Confidential*

		PHM 037). In 2010, Medline made an unrelated business decision to close this facility. After duly notifying state authorities, as required by law, Medline received a fine from the states of Hawaii (Case #PHA 2009-7-L) and New York (Cal. No. 27278) for out-of-state professional misconduct.	
8/21/2008	94-1420 Moaniani St. Waipahu, HI 96797	**FILE CLOSED 2013** Medline Industries, Inc. (PWD 115) was fined $5000 and placed on probation for 5 years for failure to report disciplinary actions within 30 days. Medline submitted all required notices, but missed the 30-day deadline. The probationary period ended in August 2013. (Case # PHA 2008-17-L)	Medline implemented a new process to notify the necessary licensing boards of future disciplinary actions within the required reporting timelines.
3/19/2010	1401 N. Universal Ave. Kansas City, MO 64120	**FILE CLOSED 2010** Medline Industries, Inc. applied for a Colorado Out-of-State Wholesaler license for the Kansas City, MO distribution center. The CO Board of Pharmacy issued a conditional license until the facility's MO probation period ended. (See 8/3/2005 discipline). Medline informed the CO Board when the MO probationary period was completed. Upon completion of probation, the Board issued a full license.	See 8/3/2005 discipline for corrective actions related to the underlying sanction.
1/6/2021	1501 Harris Rd Libertyville, IL 60048	**FILE CLOSED 2021** Medline Industries, Inc. (OH License #01-1985050) received a fine of $250 from the Ohio Board of Pharmacy for the sale of dangerous drugs to an unlicensed entity. Medline maintained a current and valid DEA license on file for the physician rather than the TDDD license for the facility. The facility's TDDD license at the time of the sale had expired. The fine was paid on January 21, 2021 and the case was closed. (Case No. A-2020-0054 I-2019-0972-B.) After duly notifying state authorities, as required by law, Medline received a $500 fine from the Alabama State Board of Pharmacy for the same underlying conduct as the Ohio matter. The fine was paid and the matter closed. (Case No:21-L-0048)	Medline takes this matter very seriously. Medline reviewed the customer licensing policies and procedures and updated internal requirements for the type of license required for customers in Ohio. Efforts were taken by Customer Licensing to research, ensure the proper type, and check license status for a large number of existing Ohio licenses. The Ohio TDDD licenses are reviewed on an annual basis to ensure compliance.
11/1/2022	1040 Enterprise Parkway South West Jefferson, OH 43162	**FILE CLOSURE PENDING** Medline Industries, LP (OH License #01-30000190) entered a settlement agreement and agreed to pay a fine of $1,125.00 to the Ohio Board of Pharmacy for alleged sales of dangerous drugs to an unlicensed entity. Medline maintained a physician license on file versus a Terminal Distributor (TDDD) license. The TDDD license was added in May 2022- prior to this investigation. During the period of July 2021 to March 2022, the customer's TDDD license lapsed and Medline was unaware. Medline is in the process of notifying states of this fine.	Medline is committed to following all applicable state and federal statutes and regulations, including customer license requirements. Medline updated customer licensing requirements after the 01/06/2021 fine. This incident occurred while Medline was in the process of updating a large number of Ohio accounts. Medline is implementing additional steps to ensure compliance, including, increasing staffing, training, and resources for the customer licensing team.

CERTIFICATE OF LIABILITY INSURANCE

DATE (MM/DD/YYYY): 06/24/2022

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. THIS CERTIFICATE OF INSURANCE DOES NOT CONSTITUTE A CONTRACT BETWEEN THE ISSUING INSURER(S), AUTHORIZED REPRESENTATIVE OR PRODUCER, AND THE CERTIFICATE HOLDER.

IMPORTANT: If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must have ADDITIONAL INSURED provisions or be endorsed. If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).

POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS: That Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company are corporations duly organized under the laws of the State of Connecticut (herein collectively called the "Companies"), and that the Companies do hereby make, constitute and appoint **Peter S. Forker** of **Rolling Meadows, Illinois**, their true and lawful Attorney-in-Fact to sign, execute, seal and acknowledge any and all bonds, recognizances, conditional undertakings and other writings obligatory in the nature thereof on behalf of the Companies in their business of guaranteeing the fidelity of persons, guaranteeing the performance of contracts and executing or guaranteeing bonds and undertakings required or permitted in any actions or proceedings allowed by law.

IN WITNESS WHEREOF, the Companies have caused this instrument to be signed, and their corporate seals to be hereto affixed, this **3rd** day of **February, 2017.**

State of Connecticut

City of Hartford ss.

By: _____
Robert L. Raney, Senior Vice President

On this the **3rd** day of **February, 2017**, before me personally appeared **Robert L. Raney**, who acknowledged himself to be the Senior Vice President of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, and that he, as such, being authorized so to do, executed the foregoing instrument for the purposes therein contained by signing on behalf of the corporations by himself as a duly authorized officer.

In Witness Whereof, I hereunto set my hand and official seal.

My Commission expires the **30th** day of **June, 2021**

Marie C. Tetreault
Marie C. Tetreault, Notary Public

This Power of Attorney is granted under and by the authority of the following resolutions adopted by the Boards of Directors of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, which resolutions are now in full force and effect, reading as follows:

RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President, any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary may appoint Attorneys-in-Fact and Agents to act for and on behalf of the Company and may give such appointee such authority as his or her certificate of authority may prescribe to sign with the Company's name and seal with the Company's seal bonds, recognizances, contracts of indemnity, and other writings obligatory in the nature of a bond, recognizance, or conditional undertaking, and any of said officers or the Board of Directors at any time may remove any such appointee and revoke the power given him or her; and it is

FURTHER RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President may delegate all or any part of the foregoing authority to one or more officers or employees of this Company, provided that each such delegation is in writing and a copy thereof is filed in the office of the Secretary; and it is

FURTHER RESOLVED, that any bond, recognizance, contract of indemnity, or writing obligatory in the nature of a bond, recognizance, or conditional undertaking shall be valid and binding upon the Company when (a) signed by the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary and duly attested and sealed with the Company's seal by a Secretary or Assistant Secretary; or (b) duly executed (under seal, if required) by one or more Attorneys-in-Fact and Agents pursuant to the power prescribed in his or her certificate or their certificates of authority or by one or more Company officers pursuant to a written delegation of authority; and it is

FURTHER RESOLVED, that the signature of each of the following officers: President, any Executive Vice President, any Senior Vice President, any Vice President, any Assistant Vice President, any Secretary, any Assistant Secretary, and the seal of the Company may be affixed by facsimile to any Power of Attorney or to any certificate relating thereto appointing Resident Vice Presidents, Resident Assistant Secretaries or Attorneys-in-Fact for purposes only of executing and attesting bonds and undertakings and other writings obligatory in the nature thereof, and any such Power of Attorney or certificate bearing such facsimile signature or facsimile seal shall be valid and binding upon the Company and any such power so executed and certified by such facsimile signature and facsimile seal shall be valid and binding on the Company in the future with respect to any bond or understanding to which it is attached.

I, **Kevin E. Hughes**, the undersigned, Assistant Secretary of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, do hereby certify that the above and foregoing is a true and correct copy of the Power of Attorney executed by said Companies, which remains in full force and effect.

Dated this 22nd day of September 2020

Medline Industries, LP- Discipline *Confidential*

Date	Facility	Description of State Action	Corrective Actions
8/3/2005	1401 N. Universal Ave Kansas City, MO 64120	**FILE CLOSED 2010** Medline Industries' Kansas City, MO facility (#2003031660) was disciplined for failure to renew on time and for deficient temperature control procedures. Medline was placed on probation for 5 years. The state conducted multiple inspections of the facility throughout the probationary period and found Medline to comply with all requirements. The probationary period closed in August 2010.	Medline's Regulatory Affairs Department was significantly expanded to include a team of 7 Licensing Specialists that monitor and ensure our licenses are renewed on time. A temperature control room was constructed at the facility to ensure product is stored at the appropriate temperature and humidity. These control rooms are now a standard feature at our distribution centers. We worked closely with NABP to ensure that our temperature control facilities and procedures align with industry best practices throughout our distribution network.
12/7/2006	9101 Riverside Pkwy Lithia Springs, GA 30122	**FILE CLOSED 2008** The Florida Certified Designated Representative at the Georgia facility unexpectedly resigned. The state of Florida suspended Medline's Florida Out of State Rx Drug Wholesale Distributor Permit (#23:1470) until a new licensed Florida CDR was hired at the facility.	To prevent this for occurring in the future, all Florida licensed Medline facilities are required to have multiple Florida Certified Designated Representatives on staff.
11/16/2007	10601 Southport Dr. Orlando, FL 32824 401 Commerce Blvd. Oldsmar, FL 34677 4750 118th Ave N Clearwater, FL 33762	**FILE CLOSED 2008** Medline Industries was cited for several violations. Failure to pass and maintain a Florida compliant pedigree. Maintaining the wrong permit type for the activities performed in the facilities (in addition to a manufacturing permit, Florida required the facility a repackager permit). Distribution of saline to an unauthorized recipient. Additionally an Rx drug item was found at an unlicensed raw materials storage facility. Medline challenged several violations, resulting in most being substantially reduced or removed. Medline was assessed and paid a fine for these violations. All issues were addressed and resolved to the satisfaction of the FL DOH. After duly notifying state authorities, as required by law, Medline received a fined from New York for out-of-state professional misconduct. (Cal. No. 27278)	To address the pedigree issues, Medline instituted a Florida specific pedigree system. This program ensured that any pedigree shipments within our distribution network with potential to end up in Florida has the required Florida documentation. (Note - these requirements have since been preempted by federal law). To address the issue of the wrong permit type, Medline secured the repackaging permit. To address the sale of saline to an unauthorized person, Medline instituted a new procedure for obtaining and maintaining customer licenses for all Rx Drug purchases- this procedure generates an automatic block for any Rx Drug order by an unlicensed customer. The Rx Drug item unintentionally stored in the raw materials facility was properly disposed of. Waste disposal procedures were updated to ensure that this mistake would not recur.
11/26/2007	2708 NE Waldo Rd. Gainesville, FL 32609	**FILE CLOSED 2008** Medline Industries' FL license (# 22:1022) was suspended for violations identified during a Florida BOP facility inspection. Medline, through Counsel, addressed the issues raised in the inspection and established that the suspension was unjustified. The suspension was lifted 3 days later on January 22, 2008. In 2010, Medline made an unrelated business decision to close this facility. (Case # 2007-37412)	After this inspection, Medline conducted a thorough review of its policies and procedures. Additionally, Medline implemented an internal auditing program to ensure that all distribution centers comply with internal policies and procedures and state and federal regulations.
3/5/2008	149 New Camellia Blvd. Covington, LA 70433	**FILE CLOSED 2008** Medline Industries (LA #4318) was cited for failure to properly maintain copies of current customer licenses on-site. Medline was assessed and paid a fine. (Louisiana Administrative Docket #2008006). After duly notifying state authorities, as required by law, Medline received a fine from New York for out-of-state professional misconduct. (Cal. No. 27278)	In addition to storing copies of customers' licenses at headquarters, these licenses are now stored digitally so they can be accessed by our distribution centers.
5/9/2008	5450 W. Stewart Ave. Wausau, WI 54401	**FILE CLOSED 2009** Medline Industries (WI # 1116-045) was cited and fined by the Wisconsin Department of Regulation & Licensing following a facility inspection. Medline managed a portion of a Wisconsin hospital's warehouse. The inspector cited Medline for failure to install a dividing fence between the Medline warehouse and the hospital portion of the facility. All of the hospital products were owned by the hospital. Medline was also cited for failure to access policies and procedures during the inspection. Corrections were made and the facility re-inspected, to the satisfaction of the state (Case #08	Immediately after the inspection, Medline and the owner of the facility erected a locked fence to divide the faculty. Medline also reviewed all of its other facilities to make sure no similar situations existed. In addition, training on where and how to access current policies and procedures was increased for distribution center personnel. This training is in addition to the training they receive on the policies and procedures themselves.

Medline Industries, LP- Discipline *Confidential*

		PHM 037). In 2010, Medline made an unrelated business decision to close this facility. After duly notifying state authorities, as required by law, Medline received a fine from the states of Hawaii (Case #PHA 2009-7-L) and New York (Cal. No. 27278) for out-of-state professional misconduct.	
8/21/2008	94-1420 Moaniani St. Waipahu, HI 96797	**FILE CLOSED 2013** Medline Industries, Inc. (PWD 115) was fined $5000 and placed on probation for 5 years for failure to report disciplinary actions within 30 days. Medline submitted all required notices, but missed the 30-day deadline. The probationary period ended in August 2013. (Case # PHA 2008-17-L)	Medline implemented a new process to notify the necessary licensing boards of future disciplinary actions within the required reporting timelines.
3/19/2010	1401 N. Universal Ave. Kansas City, MO 64120	**FILE CLOSED 2010** Medline Industries, Inc. applied for a Colorado Out-of-State Wholesaler license for the Kansas City, MO distribution center. The CO Board of Pharmacy issued a conditional license until the facility's MO probation period ended. (See 8/3/2005 discipline). Medline informed the CO Board when the MO probationary period was completed. Upon completion of probation, the Board issued a full license.	See 8/3/2005 discipline for corrective actions related to the underlying sanction.
1/6/2021	1501 Harris Rd Libertyville, IL 60048	**FILE CLOSED 2021** Medline Industries, Inc. (OH License #01-1985050) received a fine of $250 from the Ohio Board of Pharmacy for the sale of dangerous drugs to an unlicensed entity. Medline maintained a current and valid DEA license on file for the physician rather than the TDDD license for the facility. The facility's TDDD license at the time of the sale had expired. The fine was paid on January 21, 2021 and the case was closed. (Case No. A-2020-0054 I-2019-0972-B.) After duly notifying state authorities, as required by law, Medline received a $500 fine from the Alabama State Board of Pharmacy for the same underlying conduct as the Ohio matter. The fine was paid and the matter closed. (Case No:21-L-0048)	Medline takes this matter very seriously. Medline reviewed the customer licensing policies and procedures and updated internal requirements for the type of license required for customers in Ohio. Efforts were taken by Customer Licensing to research, ensure the proper type, and check license status for a large number of existing Ohio licenses. The Ohio TDDD licenses are reviewed on an annual basis to ensure compliance.
11/1/2022	1040 Enterprise Parkway South West Jefferson, OH 43162	**FILE CLOSURE PENDING** Medline Industries, LP (OH License #01-30000190) entered a settlement agreement and agreed to pay a fine of $1,125.00 to the Ohio Board of Pharmacy for alleged sales of dangerous drugs to an unlicensed entity. Medline maintained a physician license on file versus a Terminal Distributor (TDDD) license. The TDDD license was added in May 2022- prior to this investigation. During the period of July 2021 to March 2022, the customer's TDDD license lapsed and Medline was unaware. Medline is in the process of notifying states of this fine.	Medline is committed to following all applicable state and federal statutes and regulations, including customer license requirements. Medline updated customer licensing requirements after the 01/06/2021 fine. This incident occurred while Medline was in the process of updating a large number of Ohio accounts. Medline is implementing additional steps to ensure compliance, including, increasing staffing, training, and resources for the customer licensing team.

- **Permit holder(s) must display permit in the location to which it is issued.**
- **Please note it is your responsibility to keep this license/permit current.**

Important Information

LICENSE HOLDER (pharmacist, intern, technician, technician-trainee)

- Holder of this license number, printed above, is authorized in accordance with A.A.C. R4-23-201(A), A.A.C. R4-23-301(A) or A.A.C R4-23-1101(A), to perform the duties associated within their profession. By holding this license, the licensee agrees to comply with state & federal law.
- You are required by law to notify the Board of any home address and/or employment change within 10 business days

PERMIT HOLDER (pharmacy, non-prescription retailer (OTC), wholesale, manufacture, CMG, DME)

- Holder of this permit number, printed above, is authorized to conduct business according to the classification specified in A.R.S. § 32-1908(A); A.A.C. R4-23-601 and A.A.C. R4-23-607. By holding this permit, the permittee agrees to comply with state & federal law
- In-state pharmacy, wholesaler & manufacture permit holder(s) who plan to remodel or move locations, must submit a change-of-location/remodel form within 30 days prior to move/remodel. In-state non-prescription (OTC), compressed medical gas (CMG) & DME providers who plan to move locations must notify the board within 10 business days of move.
- Out-of-State permit holders must notify the Board of location changes, in writing, within 10 business days of move. A revised copy of your state permit shall be submitted to the Board, when available.
- Permits are non-transferable. Ownership changes of more than 30% require that a new application be submitted to the Board.

Section 8: Arrests, Detentions, Litigations, Arbitrations.	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		✓
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		✓
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		✓
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)	✓	
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?	✓	
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?	✓	
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?	✓	
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✓
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✓
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✓

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

This is in response to Question # 4,5,6. **Provide all the following *where applicable*:**

TRAVELERS

Travelers Casualty and Surety Company of America
Travelers Casualty and Surety Company
St. Paul Fire and Marine Insurance Company

POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS: That Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company are corporations duly organized under the laws of the State of Connecticut (herein collectively called the "Companies"), and that the Companies do hereby make, constitute and appoint **Peter S Forker** of **ROLLING MEADOWS**, **Illinois**, their true and lawful Attorney(s)-in-Fact to sign, execute, seal and acknowledge any and all bonds, recognizances, conditional undertakings and other writings obligatory in the nature thereof on behalf of the Companies in their business of guaranteeing the fidelity of persons, guaranteeing the performance of contracts and executing or guaranteeing bonds and undertakings required or permitted in any actions or proceedings allowed by law.

IN WITNESS WHEREOF, the Companies have caused this instrument to be signed, and their corporate seals to be hereto affixed, this **21st** day of **April, 2021**.

State of Connecticut

City of Hartford ss.

By: _____
Robert L. Raney, Senior Vice President

On this the **21st** day of **April, 2021**, before me personally appeared **Robert L. Raney**, who acknowledged himself to be the Senior Vice President of each of the Companies, and that he, as such, being authorized so to do, executed the foregoing instrument for the purposes therein contained by signing on behalf of said Companies by himself as a duly authorized officer.

IN WITNESS WHEREOF, I hereunto set my hand and official seal.

My Commission expires the **30th** day of **June, 2026**

_____
Anna P. Nowik, Notary Public

This Power of Attorney is granted under and by the authority of the following resolutions adopted by the Boards of Directors of each of the Companies, which resolutions are now in full force and effect, reading as follows:

RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President, any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary may appoint Attorneys-in-Fact and Agents to act for and on behalf of the Company and may give such appointee such authority as his or her certificate of authority may prescribe to sign with the Company's name and seal with the Company's seal bonds, recognizances, contracts of indemnity, and other writings obligatory in the nature of a bond, recognizance, or conditional undertaking, and any of said officers or the Board of Directors at any time may remove any such appointee and revoke the power given him or her; and it is

FURTHER RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President may delegate all or any part of the foregoing authority to one or more officers or employees of this Company, provided that each such delegation is in writing and a copy thereof is filed in the office of the Secretary; and it is

FURTHER RESOLVED, that any bond, recognizance, contract of indemnity, or writing obligatory in the nature of a bond, recognizance, or conditional undertaking shall be valid and binding upon the Company when (a) signed by the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary and duly attested and sealed with the Company's seal by a Secretary or Assistant Secretary; or (b) duly executed (under seal, if required) by one or more Attorneys-in-Fact and Agents pursuant to the power prescribed in his or her certificate or their certificates of authority or by one or more Company officers pursuant to a written delegation of authority; and it is

FURTHER RESOLVED, that the signature of each of the following officers: President, any Executive Vice President, any Senior Vice President, any Vice President, any Assistant Vice President, any Secretary, any Assistant Secretary, and the seal of the Company may be affixed by facsimile to any Power of Attorney or to any certificate relating thereto appointing Resident Vice Presidents, Resident Assistant Secretaries or Attorneys-in-Fact for purposes only of executing and attesting bonds and undertakings and other writings obligatory in the nature thereof, and any such Power of Attorney or certificate bearing such facsimile signature or facsimile seal shall be valid and binding upon the Company and any such power so executed and certified by such facsimile signature and facsimile seal shall be valid and binding on the Company in the future with respect to any bond or understanding to which it is attached.

I, **Kevin E. Hughes**, the undersigned, Assistant Secretary of each of the Companies, do hereby certify that the above and foregoing is a true and correct copy of the Power of Attorney executed by said Companies, which remains in full force and effect.

Dated this 20th day of July, 2022

_____
Kevin E. Hughes, Assistant Secretary

To verify the authenticity of this Power of Attorney, please call us at 1-800-421-3880.
Please refer to the above-named Attorney(s)-in-Fact and the details of the bond to which this Power of Attorney is attached.

ACKNOWLEDGMENT BY SURETY

STATE OF Illinois }

Medline Industries, LP- Discipline *Confidential*

Date	Facility	Description of State Action	Corrective Actions
8/3/2005	1401 N. Universal Ave Kansas City, MO 64120	**FILE CLOSED 2010** Medline Industries' Kansas City, MO facility (#2003031660) was disciplined for failure to renew on time and for deficient temperature control procedures. Medline was placed on probation for 5 years. The state conducted multiple inspections of the facility throughout the probationary period and found Medline to comply with all requirements. The probationary period closed in August 2010.	Medline's Regulatory Affairs Department was significantly expanded to include a team of 7 Licensing Specialists that monitor and ensure our licenses are renewed on time. A temperature control room was constructed at the facility to ensure product is stored at the appropriate temperature and humidity. These control rooms are now a standard feature at our distribution centers. We worked closely with NABP to ensure that our temperature control facilities and procedures align with industry best practices throughout our distribution network.
12/7/2006	9101 Riverside Pkwy Lithia Springs, GA 30122	**FILE CLOSED 2008** The Florida Certified Designated Representative at the Georgia facility unexpectedly resigned. The state of Florida suspended Medline's Florida Out of State Rx Drug Wholesale Distributor Permit (#23:1470) until a new licensed Florida CDR was hired at the facility.	To prevent this for occurring in the future, all Florida licensed Medline facilities are required to have multiple Florida Certified Designated Representatives on staff.
11/16/2007	10601 Southport Dr. Orlando, FL 32824 401 Commerce Blvd. Oldsmar, FL 34677 4750 118th Ave N Clearwater, FL 33762	**FILE CLOSED 2008** Medline Industries was cited for several violations. Failure to pass and maintain a Florida compliant pedigree. Maintaining the wrong permit type for the activities performed in the facilities (in addition to a manufacturing permit, Florida required the facility a repackager permit). Distribution of saline to an unauthorized recipient. Additionally an Rx drug item was found at an unlicensed raw materials storage facility. Medline challenged several violations, resulting in most being substantially reduced or removed. Medline was assessed and paid a fine for these violations. All issues were addressed and resolved to the satisfaction of the FL DOH. After duly notifying state authorities, as required by law, Medline received a fined from New York for out-of-state professional misconduct. (Cal. No. 27278)	To address the pedigree issues, Medline instituted a Florida specific pedigree system. This program ensured that any pedigree shipments within our distribution network with potential to end up in Florida has the required Florida documentation. (Note - these requirements have since been preempted by federal law). To address the issue of the wrong permit type, Medline secured the repackaging permit. To address the sale of saline to an unauthorized person, Medline instituted a new procedure for obtaining and maintaining customer licenses for all Rx Drug purchases- this procedure generates an automatic block for any Rx Drug order by an unlicensed customer. The Rx Drug item unintentionally stored in the raw materials facility was properly disposed of. Waste disposal procedures were updated to ensure that this mistake would not recur.
11/26/2007	2708 NE Waldo Rd. Gainesville, FL 32609	**FILE CLOSED 2008** Medline Industries' FL license (# 22:1022) was suspended for violations identified during a Florida BOP facility inspection. Medline, through Counsel, addressed the issues raised in the inspection and established that the suspension was unjustified. The suspension was lifted 3 days later on January 22, 2008. In 2010, Medline made an unrelated business decision to close this facility. (Case # 2007-37412)	After this inspection, Medline conducted a thorough review of its policies and procedures. Additionally, Medline implemented an internal auditing program to ensure that all distribution centers comply with internal policies and procedures and state and federal regulations.
3/5/2008	149 New Camellia Blvd. Covington, LA 70433	**FILE CLOSED 2008** Medline Industries (LA #4318) was cited for failure to properly maintain copies of current customer licenses on-site. Medline was assessed and paid a fine. (Louisiana Administrative Docket #2008006). After duly notifying state authorities, as required by law, Medline received a fine from New York for out-of-state professional misconduct. (Cal. No. 27278)	In addition to storing copies of customers' licenses at headquarters, these licenses are now stored digitally so they can be accessed by our distribution centers.
5/9/2008	5450 W. Stewart Ave. Wausau, WI 54401	**FILE CLOSED 2009** Medline Industries (WI # 1116-045) was cited and fined by the Wisconsin Department of Regulation & Licensing following a facility inspection. Medline managed a portion of a Wisconsin hospital's warehouse. The inspector cited Medline for failure to install a dividing fence between the Medline warehouse and the hospital portion of the facility. All of the hospital products were owned by the hospital. Medline was also cited for failure to access policies and procedures during the inspection. Corrections were made and the facility re-inspected, to the satisfaction of the state (Case #08	Immediately after the inspection, Medline and the owner of the facility erected a locked fence to divide the faculty. Medline also reviewed all of its other facilities to make sure no similar situations existed. In addition, training on where and how to access current policies and procedures was increased for distribution center personnel. This training is in addition to the training they receive on the policies and procedures themselves.

Medline Industries, LP- Discipline *Confidential*

		PHM 037). In 2010, Medline made an unrelated business decision to close this facility. After duly notifying state authorities, as required by law, Medline received a fine from the states of Hawaii (Case #PHA 2009-7-L) and New York (Cal. No. 27278) for out-of-state professional misconduct.	
8/21/2008	94-1420 Moaniani St. Waipahu, HI 96797	**FILE CLOSED 2013** Medline Industries, Inc. (PWD 115) was fined $5000 and placed on probation for 5 years for failure to report disciplinary actions within 30 days. Medline submitted all required notices, but missed the 30-day deadline. The probationary period ended in August 2013. (Case # PHA 2008-17-L)	Medline implemented a new process to notify the necessary licensing boards of future disciplinary actions within the required reporting timelines.
3/19/2010	1401 N. Universal Ave. Kansas City, MO 64120	**FILE CLOSED 2010** Medline Industries, Inc. applied for a Colorado Out-of-State Wholesaler license for the Kansas City, MO distribution center. The CO Board of Pharmacy issued a conditional license until the facility's MO probation period ended. (See 8/3/2005 discipline). Medline informed the CO Board when the MO probationary period was completed. Upon completion of probation, the Board issued a full license.	See 8/3/2005 discipline for corrective actions related to the underlying sanction.
1/6/2021	1501 Harris Rd Libertyville, IL 60048	**FILE CLOSED 2021** Medline Industries, Inc. (OH License #01-1985050) received a fine of $250 from the Ohio Board of Pharmacy for the sale of dangerous drugs to an unlicensed entity. Medline maintained a current and valid DEA license on file for the physician rather than the TDDD license for the facility. The facility's TDDD license at the time of the sale had expired. The fine was paid on January 21, 2021 and the case was closed. (Case No. A-2020-0054 I-2019-0972-B.) After duly notifying state authorities, as required by law, Medline received a $500 fine from the Alabama State Board of Pharmacy for the same underlying conduct as the Ohio matter. The fine was paid and the matter closed. (Case No:21-L-0048)	Medline takes this matter very seriously. Medline reviewed the customer licensing policies and procedures and updated internal requirements for the type of license required for customers in Ohio. Efforts were taken by Customer Licensing to research, ensure the proper type, and check license status for a large number of existing Ohio licenses. The Ohio TDDD licenses are reviewed on an annual basis to ensure compliance.
11/1/2022	1040 Enterprise Parkway South West Jefferson, OH 43162	**FILE CLOSURE PENDING** Medline Industries, LP (OH License #01-30000190) entered a settlement agreement and agreed to pay a fine of $1,125.00 to the Ohio Board of Pharmacy for alleged sales of dangerous drugs to an unlicensed entity. Medline maintained a physician license on file versus a Terminal Distributor (TDDD) license. The TDDD license was added in May 2022- prior to this investigation. During the period of July 2021 to March 2022, the customer's TDDD license lapsed and Medline was unaware. Medline is in the process of notifying states of this fine.	Medline is committed to following all applicable state and federal statutes and regulations, including customer license requirements. Medline updated customer licensing requirements after the 01/06/2021 fine. This incident occurred while Medline was in the process of updating a large number of Ohio accounts. Medline is implementing additional steps to ensure compliance, including, increasing staffing, training, and resources for the customer licensing team.

CERTIFICATE OF LIABILITY INSURANCE

DATE (MM/DD/YYYY) 06/24/2022

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. THIS CERTIFICATE OF INSURANCE DOES NOT CONSTITUTE A CONTRACT BETWEEN THE ISSUING INSURER(S), AUTHORIZED REPRESENTATIVE OR PRODUCER, AND THE CERTIFICATE HOLDER.

IMPORTANT: If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must have ADDITIONAL INSURED provisions or be endorsed. If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).

PROFESSIONAL EXPERIENCE

Medline Industries, Uxbridge, MA
Global manufacturer and distributor of medical products with patient-centered solutions, services and expertise across the continuum of care.
Director of Operations
January 2022 - Present
Warehouse Manager
May 2019 – December 2021
Direct and oversee all aspects of daily production and order fulfillment ensuring that goals are met by all operational groups. Have an extremely high sense of urgency, personal energy, and stamina. Capable of handling multiple priorities and extensive time demands. High level of personal integrity. Effective communicator in both group and individual settings. Capable of navigating through complex situations, both internal and external that may require multiple decision makers. Embrace positive employee relations at all levels in the organization.

- Operational Excellence – Ensure that operational procedures for activities such as verification of incoming and outgoing shipments, handling and disposition of materials, and maintaining inventory current. Lead and measure all daily activities ensuring order fulfilment and production are completed with excellence. Partner with other leaders to ensure we resolve and overcome daily challenges ensuring that we provide the highest level of customer service.
- Management, Human Capital – Support all human resource processes at local facility. This includes helping with the sourcing and staffing all positions, support and administer the performance process, administer compensation when necessary, ensure that we have a robust training and development program that supports team member growth and advancement
- Inventory management – Monitor processes to ensure that product is received correctly, moved from trailer to racks to shipping as well as all other activity that aides in maintaining a high level of accuracy in the warehouse.
- Sales Support – Support local sales representatives / leadership to deliver the highest level of customer service and support. Provide timely responses to service failures and customer concerns.
- Financial Responsibility - Support and oversee daily and ongoing expenses to ensure that financial capital is used as efficiently as possible. Approves work order for repairs and requisitions for replacement of equipment.
- Safety - Monitor activities of team to ensure that safe practices are in place and being demonstrated. Monitor building to ensure that proper housekeeping is being practiced. Provide guidance to safety committee when necessary.

Rhode Island Hospital, Providence RI
Manager, Supply Chain
June 2015 – November 2018
Providing strategic leadership for 5 business units within the Rhode Island Hospital system, along with 3 additional business units at the Miriam Hospital, Newport Hospital, and the Bradley Hospital location. Effectively communicated with other members of the senior management team across the network to drive down inventory, increase turns and reduce total cost. Managed multiple complex projects with shifting priorities in order to create a sustainable supply chain for a rapidly growing organization capable of addressing increased corporate demands.

- Exceeded 2018 operating budget savings goal by 6.5%
- Created metrics to measure inventory levels, turns, on-time supplier, customer delivery, and supplier quality standards. Set goals for teams in these areas and ensured those goals were met or exceeded
- Work with corporate lead sourcing team to align and leverage direct and indirect spend with strategic corporate suppliers
- Coordinated global inventory management program to support significant increases in order volumes without delivery delays
- Collaborated closely with IT on multiple system projects. Handheld order selection project, Crash cart deployment and tracking projects. Wrote specifications and procedures manual for both systems
- Work with corporate team to identify, qualify, and manage strategic supply base while mitigating risk for single/sole source suppliers
- Negotiate supply, and rebate agreements with multiple suppliers to drive reduced costs and improve cash flow
- Validate all monthly savings reporting numbers for multiple business units and leading senior management level monthly and quarterly reviews
- Guide local sourcing teams through supplier selection and management process. Reviewing supplier performances monthly (locally) and quarterly (Senior Leadership)

Rhode Island Textile, Pawtucket, RI
Cost Manager / Supply Chain Independent Contractor
March 2014 – June 2016
Rhode Island Textile is the largest and most diverse narrow fabric manufacturer in the United States. RITCO is also the parent company of Westminster Pets; a pet supply distributor. The "Ruffin' it" line of products contain eco-friendly materials made from organic cotton and recycled polyester.
As Cost Manager, oversaw and maintained all SKU's developing cost structure for all new items. Conduct necessary laboratory testing and studies to develop pricing and quotations.

- Maintain item specifications
- Cost new items to establish pricing
- Time studies to determine labor cost
- Leadership role in Supply Chain WMS project implementation
    - Install new warehouse management system
    - Managed vendors/suppliers onto new ERP system
    - Negotiated rates and terms on purchased goods across the organization
    - Managed supplier expectations by quarterly review of supplier score cards

By: _____
Robert L. Raney, Senior Vice President

On this the **3rd** day of **February**, **2017**, before me personally appeared **Robert L. Raney**, who acknowledged himself to be the Senior Vice President of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, and that he, as such, being authorized so to do, executed the foregoing instrument for the purposes therein contained by signing on behalf of the corporations by himself as a duly authorized officer.

In Witness Whereof, I hereunto set my hand and official seal.

My Commission expires the **30th** day of **June**, **2021**

Marie C. Tetreault
Marie C. Tetreault, Notary Public

This Power of Attorney is granted under and by the authority of the following resolutions adopted by the Boards of Directors of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, which resolutions are now in full force and effect, reading as follows:

RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President, any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary may appoint Attorneys-in-Fact and Agents to act for and on behalf of the Company and may give such appointee such authority as his or her certificate of authority may prescribe to sign with the Company's name and seal with the Company's seal bonds, recognizances, contracts of indemnity, and other writings obligatory in the nature of a bond, recognizance, or conditional undertaking, and any of said officers or the Board of Directors at any time may remove any such appointee and revoke the power given him or her; and it is

FURTHER RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President may delegate all or any part of the foregoing authority to one or more officers or employees of this Company, provided that each such delegation is in writing and a copy thereof is filed in the office of the Secretary; and it is

FURTHER RESOLVED, that any bond, recognizance, contract of indemnity, or writing obligatory in the nature of a bond, recognizance, or conditional undertaking shall be valid and binding upon the Company when (a) signed by the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary and duly attested and sealed with the Company's seal by a Secretary or Assistant Secretary; or (b) duly executed (under seal, if required) by one or more Attorneys-in-Fact and Agents pursuant to the power prescribed in his or her certificate or their certificates of authority or by one or more Company officers pursuant to a written delegation of authority; and it is

FURTHER RESOLVED, that the signature of each of the following officers: President, any Executive Vice President, any Senior Vice President, any Vice President, any Assistant Vice President, any Secretary, any Assistant Secretary, and the seal of the Company may be affixed by facsimile to any Power of Attorney or to any certificate relating thereto appointing Resident Vice Presidents, Resident Assistant Secretaries or Attorneys-in-Fact for purposes only of executing and attesting bonds and undertakings and other writings obligatory in the nature thereof, and any such Power of Attorney or certificate bearing such facsimile signature or facsimile seal shall be valid and binding upon the Company and any such power so executed and certified by such facsimile signature and facsimile seal shall be valid and binding on the Company in the future with respect to any bond or understanding to which it is attached.

I, **Kevin E. Hughes**, the undersigned, Assistant Secretary of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, do hereby certify that the above and foregoing is a true and correct copy of the Power of Attorney executed by said Companies, which remains in full force and effect.

Medline Industries, LP- Discipline *Confidential*

Date	Facility	Description of State Action	Corrective Actions
8/3/2005	1401 N. Universal Ave Kansas City, MO 64120	**FILE CLOSED 2010** Medline Industries' Kansas City, MO facility (#2003031660) was disciplined for failure to renew on time and for deficient temperature control procedures. Medline was placed on probation for 5 years. The state conducted multiple inspections of the facility throughout the probationary period and found Medline to comply with all requirements. The probationary period closed in August 2010.	Medline's Regulatory Affairs Department was significantly expanded to include a team of 7 Licensing Specialists that monitor and ensure our licenses are renewed on time. A temperature control room was constructed at the facility to ensure product is stored at the appropriate temperature and humidity. These control rooms are now a standard feature at our distribution centers. We worked closely with NABP to ensure that our temperature control facilities and procedures align with industry best practices throughout our distribution network.
12/7/2006	9101 Riverside Pkwy Lithia Springs, GA 30122	**FILE CLOSED 2008** The Florida Certified Designated Representative at the Georgia facility unexpectedly resigned. The state of Florida suspended Medline's Florida Out of State Rx Drug Wholesale Distributor Permit (#23:1470) until a new licensed Florida CDR was hired at the facility.	To prevent this for occurring in the future, all Florida licensed Medline facilities are required to have multiple Florida Certified Designated Representatives on staff.
11/16/2007	10601 Southport Dr. Orlando, FL 32824 --- 401 Commerce Blvd. Oldsmar, FL 34677 --- 4750 118th Ave N Clearwater, FL 33762	**FILE CLOSED 2008** Medline Industries was cited for several violations. Failure to pass and maintain a Florida compliant pedigree. Maintaining the wrong permit type for the activities performed in the facilities (in addition to a manufacturing permit, Florida required the facility a repackager permit). Distribution of saline to an unauthorized recipient. Additionally an Rx drug item was found at an unlicensed raw materials storage facility. Medline challenged several violations, resulting in most being substantially reduced or removed. Medline was assessed and paid a fine for these violations. All issues were addressed and resolved to the satisfaction of the FL DOH. After duly notifying state authorities, as required by law, Medline received a fined from New York for out-of-state professional misconduct. (Cal. No. 27278)	To address the pedigree issues, Medline instituted a Florida specific pedigree system. This program ensured that any pedigree shipments within our distribution network with potential to end up in Florida has the required Florida documentation. (Note - these requirements have since been preempted by federal law). To address the issue of the wrong permit type, Medline secured the repackaging permit. To address the sale of saline to an unauthorized person, Medline instituted a new procedure for obtaining and maintaining customer licenses for all Rx Drug purchases- this procedure generates an automatic block for any Rx Drug order by an unlicensed customer. The Rx Drug item unintentionally stored in the raw materials facility was properly disposed of. Waste disposal procedures were updated to ensure that this mistake would not recur.
11/26/2007	2708 NE Waldo Rd. Gainesville, FL 32609	**FILE CLOSED 2008** Medline Industries' FL license (# 22:1022) was suspended for violations identified during a Florida BOP facility inspection. Medline, through Counsel, addressed the issues raised in the inspection and established that the suspension was unjustified. The suspension was lifted 3 days later on January 22, 2008. In 2010, Medline made an unrelated business decision to close this facility. (Case # 2007-37412)	After this inspection, Medline conducted a thorough review of its policies and procedures. Additionally, Medline implemented an internal auditing program to ensure that all distribution centers comply with internal policies and procedures and state and federal regulations.
3/5/2008	149 New Camellia Blvd. Covington, LA 70433	**FILE CLOSED 2008** Medline Industries (LA #4318) was cited for failure to properly maintain copies of current customer licenses on-site. Medline was assessed and paid a fine. (Louisiana Administrative Docket #2008006). After duly notifying state authorities, as required by law, Medline received a fine from New York for out-of-state professional misconduct. (Cal. No. 27278)	In addition to storing copies of customers' licenses at headquarters, these licenses are now stored digitally so they can be accessed by our distribution centers.
5/9/2008	5450 W. Stewart Ave. Wausau, WI 54401	**FILE CLOSED 2009** Medline Industries (WI # 1116-045) was cited and fined by the Wisconsin Department of Regulation & Licensing following a facility inspection. Medline managed a portion of a Wisconsin hospital's warehouse. The inspector cited Medline for failure to install a dividing fence between the Medline warehouse and the hospital portion of the facility. All of the hospital products were owned by the hospital. Medline was also cited for failure to access policies and procedures during the inspection. Corrections were made and the facility re-inspected, to the satisfaction of the state (Case #08	Immediately after the inspection, Medline and the owner of the facility erected a locked fence to divide the faculty. Medline also reviewed all of its other facilities to make sure no similar situations existed. In addition, training on where and how to access current policies and procedures was increased for distribution center personnel. This training is in addition to the training they receive on the policies and procedures themselves.

Medline Industries, LP- Discipline *Confidential*

		PHM 037). In 2010, Medline made an unrelated business decision to close this facility. After duly notifying state authorities, as required by law, Medline received a fine from the states of Hawaii (Case #PHA 2009-7-L) and New York (Cal. No. 27278) for out-of-state professional misconduct.	
8/21/2008	94-1420 Moaniani St. Waipahu, HI 96797	**FILE CLOSED 2013** Medline Industries, Inc. (PWD 115) was fined $5000 and placed on probation for 5 years for failure to report disciplinary actions within 30 days. Medline submitted all required notices, but missed the 30-day deadline. The probationary period ended in August 2013. (Case # PHA 2008-17-L)	Medline implemented a new process to notify the necessary licensing boards of future disciplinary actions within the required reporting timelines.
3/19/2010	1401 N. Universal Ave. Kansas City, MO 64120	**FILE CLOSED 2010** Medline Industries, Inc. applied for a Colorado Out-of-State Wholesaler license for the Kansas City, MO distribution center. The CO Board of Pharmacy issued a conditional license until the facility's MO probation period ended. (See 8/3/2005 discipline). Medline informed the CO Board when the MO probationary period was completed. Upon completion of probation, the Board issued a full license.	See 8/3/2005 discipline for corrective actions related to the underlying sanction.
1/6/2021	1501 Harris Rd Libertyville, IL 60048	**FILE CLOSED 2021** Medline Industries, Inc. (OH License #01-1985050) received a fine of $250 from the Ohio Board of Pharmacy for the sale of dangerous drugs to an unlicensed entity. Medline maintained a current and valid DEA license on file for the physician rather than the TDDD license for the facility. The facility's TDDD license at the time of the sale had expired. The fine was paid on January 21, 2021 and the case was closed. (Case No. A-2020-0054 I-2019-0972-B.) After duly notifying state authorities, as required by law, Medline received a $500 fine from the Alabama State Board of Pharmacy for the same underlying conduct as the Ohio matter. The fine was paid and the matter closed. (Case No:21-L-0048)	Medline takes this matter very seriously. Medline reviewed the customer licensing policies and procedures and updated internal requirements for the type of license required for customers in Ohio. Efforts were taken by Customer Licensing to research, ensure the proper type, and check license status for a large number of existing Ohio licenses. The Ohio TDDD licenses are reviewed on an annual basis to ensure compliance.
11/1/2022	1040 Enterprise Parkway South West Jefferson, OH 43162	**FILE CLOSURE PENDING** Medline Industries, LP (OH License #01-30000190) entered a settlement agreement and agreed to pay a fine of $1,125.00 to the Ohio Board of Pharmacy for alleged sales of dangerous drugs to an unlicensed entity. Medline maintained a physician license on file versus a Terminal Distributor (TDDD) license. The TDDD license was added in May 2022- prior to this investigation. During the period of July 2021 to March 2022, the customer's TDDD license lapsed and Medline was unaware. Medline is in the process of notifying states of this fine.	Medline is committed to following all applicable state and federal statutes and regulations, including customer license requirements. Medline updated customer licensing requirements after the 01/06/2021 fine. This incident occurred while Medline was in the process of updating a large number of Ohio accounts. Medline is implementing additional steps to ensure compliance, including, increasing staffing, training, and resources for the customer licensing team.

Make copies of this page OR use a separate piece of paper if additional space is needed.

1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		X
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		X
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		X
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)	X	
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?	X	
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the 5tate of Nevada for any reason whatsoever (including any disciplinary or board citation)?	X	
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		X
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		X
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		X
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		X

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

This is in response to Question # 4,5,6 **. Provide all the following *where applicable*:**

Date of Event/Arrest	Disposition Date	State	City	County
Case #		**Governing, licensing, Arresting Presiding Body/Agency/Court**		
Reason/Charge				
Plaintiff/Defendant/Claimant/Respondent			**Lawsuit/Arbitration/Bankruptcy**	
Name of Business/Industry/Entity				

Provide explanation below:

James G Ewbank
Original Signature (electronic, copies or stamps not accepted)

12/15/2022
Date

I, James Eveland, **certify that as the designated representative for**

Medline Industries, LP,

that I (initial that you have read and meet the following requirements) (NAC 639.5005, NAC 639.5935):

1. J.E. I am at least 21 years of age;
3. J.E. I have been employed for at least 6,000 hours in a pharmacy or with a wholesaler in a capacity related to the dispensing and distribution of, and recordkeeping related to, prescription drugs.
4. J.E. I will be actively involved in and aware of the actual daily operations of the pharmacy or wholesaler;
5. J.E. I will be employed full-time in a managerial level position with the pharmacy or wholesaler;
6. J.E. I will be physically present at site of the pharmacy or at the facility of the wholesaler during regular business hours, except when the absence of the representative is authorized, including sick leaves, vacation leaves and other authorized absences; and
7. J.E. I will serve in this representative capacity for only one pharmacy or wholesaler at a time.

[redacted]Running Fox LN Clinton, OH 44216 [redacted]

Summary: High performance team-builder with 16 years of distribution experience. Results oriented manager with a record of critical thinking to produce quality, productivity, and customer service which leads to outstanding cost reduction. Continual improvement achieved by seeking out opportunities to streamline systems and procedures. Proven competence in leadership, development, and motivation of effective work teams.

Areas of expertise include:

P&L Management	Budgeting and Expense Control	Performance Management
Strategic Planning	Inventory Control/Loss Prevention	WMS Development
Contract and Price Negotiation	Distribution Center Design	Lean/Continuous Improvement

Experience: **Medline Industries, LP**, Canton, OH / West Jefferson, Ohio – Largest privately held manufacturer and distributor of Healthcare supplies in the United States, providing more than 350,000 products that serve the entire continuum of care. Over $11 billion in annual sales.

2013 – Present **Sr. Director of Operations** - Direct all aspects of operations for 2 medical supply distribution centers totally 750,000 sq. ft. of space shipping to hospitals, extended-care facilities, surgery centers, physician offices, home care dealers, home health agencies and retail outlets in the Midwest. Manage a 170 person staff, including 1 Branch Manager, 1 Warehouse Manager, 5 Supervisors, 7 Team Leads, 6 Trainers, 2 Maintenance Techs., Quality, 4 Inventory team members and 2 Branch Administrators. Distribution Center responsible for fulfillment of orders that generate annual sales of $380+M.

- Focused on team member development. From 2014-2018 promoted 3 Leads to Supervisor, 1 SIT to Supervisor and a former Supervisor was promoted to WM.
- Built team to support rapid growth by developing and promoting 6 leads and 6 trainers.
- Branch of choice for training new internal and external Supervisors, Managers and Directors.
- Effectively on boarded $100M in new customers including Mercy Health. Trained and developed 90 new team members, expanded shifts while still exceeding TP and Accuracy goals.
- Drives Results – hold weekly staff meeting focused on steps Supervisors will take to improve poor performers, assign Owners to key KPI's and meet regularly with Managers to review MAP results and collaborate to create plans to course correct when needed.
- Successfully transitioned $100M+ of bulk business to LUM in 2018.
- Worked with internal and external partners to set up Annex building with 100,000 sq. ft. in advance of the new Mercy business.
- Finished 2016 as the #1 Branch in Target with 638.8 points.
- Branch of the Year 2014-2016, Accuracy Branch of the Year 2016-2017, Safety Branch of the Year 2017 and Golden Cone Winner 2017.

Experience: **Cardinal/AssuraMed,** (dba: RGH Enterprises Inc., EdgePark Medical, and Independence Medical), Jacksonville, Florida - Nationwide leader in medical supply distribution both for home delivery and wholesale, with over $1 Billion in annual sales.

2009 – 2013 **Distribution Center Manager** - Directed all aspects of operations for a 100,000 sq. ft. medical supply distribution center with $9 M of inventory, shipping to patients and businesses in the Southeastern U.S. Managed a 40-person staff, including 2 supervisors, a facility manager and a continuous improvement coordinator. Distribution Center responsible for fulfillment of orders that generated annual sales in excess of $118 M by shipping over 700,000 cartons annually.

- Actual costs in 2012 10.4% under Operating Expense budget of $2.7 M due primarily to increased productivity from Lean improvements.
- Surpassed Expenses % of Revenue goal by 3.6% in 2012.
- Outperformed 2012 cost per line goal by 6.4% by developing and implementing production standards for all inbound and outbound departments.
- Reduced budgeted overtime in 2012 by 34% by developing and implementing production schedule for two shift operation, managing resources through VTO program and hiring of part time work force.
- Created lean-time position to proactively handle replenishments to prime prior to the start of the outbound operation. Reduced overall replenishments by 37.5%, which also increased picking productivity.

- Developed strategy for slotting project in prime locations, which resulted in a 20% increase to our Lines per Hour (LPH).
- Planned and coordinated move of our diabetic cell to new location, which resulted in a 30% increase to our productivity.
- Initiated employee recognition program and created employee activity and morale committees.
- Created an Incontinence and Enteral cell, which resulted in a 25% increase to productivity (LPH).
- Decreased overall CPO (carton per order) in 2012 by 4.7%.
- Exceeded 2012 cycle count goal by 5%.
- Successfully led distribution center and team through VAWD (Verified-Accredited Wholesale Distributors) accreditation in 2012 and through CHAP (The Community Health Accreditation Program, Inc.) accreditation in 2010.
- Instituted highly effective employee safety and training programs, resulting in no time lost injuries for 960 days.

AssuraMed, Twinsburg, Ohio

2008 – 2009 **Senior Transportation Specialist** – Performed work in transportation policy development, planning and analysis. Participated in negotiations of corporate national contracts with UPS and FedEx, for small parcel spend of over $20 M annually.

- Saved $100,000+ by the utilization of labels at all distribution centers provided at no cost from UPS and FedEx.
- Negotiated a local courier for our West Coast residential deliveries that resulted in $150,000 savings in transportation costs.
- Contributed in the selection of small parcel freight auditing system, which resulted in annual savings over $100,000 from labor savings and miss billed transactions from carrier.
- Planned and coordinated project with customer service and UPS for Expedited Claim filing, which resulted in an additional $25,000 annually from loss/damaged claims.

TMR, Inc., Medina, Ohio – Innovative producer and distributor of media and marketing programs and materials.

2002 – 2008 **Director of Operations** – Directed Operational Goals and Objectives for 2 managers, 4 supervisors and 4 staff positions, overseeing 80 employees in 5 facilities for the following departments: shipping, fulfillment, printing, bindery, production, warehousing, receiving, inventory management, graphics, digital asset management and variable data.

- Saved $500,000 annually from relocating costly and inefficient 150,000 sq. ft. facility to a smaller more efficient space. .
- Identified business process opportunities for operational productivity improvements by consolidating multiple print and production locations to one space. Resulted in leaner operational workflow process and increased productivity by 35%.
- Increased color print engines performance by 20% by reducing downtime by enhancing HVAC cooling capacity and adding humidity controls.
- Reduced transportation costs by $105,000 by renegotiating our small parcel contract with FedEx.
- Created additional revenue of $29,000 a year by tracking time and material cost associated by repackaging or re-taping of boxes sent to TMR. .
- Implemented a new third party parcel insurance program that saved over $20,000 dollars a year for our company and clients.
- Negotiated new contracts with several LTL carriers, which resulted in savings of 30% on all truck shipments.
- Researched a program with carriers, FedEx and UPS to provide over $25,000 dollars towards new shipping system.

Education: Muskingum College- Graduated May, 1991 with a Bachelor of Arts in Business Marketing & History
Financed 100% of college expenses through work-study, student loans and summer employment.

Certifications: Marketing Seminar: Planning and Strategy
Management, Professional and Technical seminars
OSHA Safety Program
Lean Process Training (developed by Rockwell Collins)
Excellence in Leadership Program
Advanced Leadership & Performance Development Workshop – Ed Hendricks

Section 8: Arrests, Detentions, Litigations, Arbitrations.	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		✓
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		✓
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		✓
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)	✓	
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?	✓	
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?	✓	
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✓
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✓
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✓
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✓

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

This is in response to Question # 4,5,6. **Provide all the following *where applicable*:**

Date of Event/Arrest	Disposition Date	State	City	County
Case #		**Governing, licensing, Arresting Presiding Body/Agency/Court**		
Reason/Charge				
Plaintiff/Defendant/Claimant/Respondent			**Lawsuit/Arbitration/Bankruptcy**

Travelers Casualty and Surety Company of America
Travelers Casualty and Surety Company
St. Paul Fire and Marine Insurance Company

POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS: That Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company are corporations duly organized under the laws of the State of Connecticut (herein collectively called the "Companies"), and that the Companies do hereby make, constitute and appoint **Peter S Forker** of **ROLLING MEADOWS**, **Illinois**, their true and lawful Attorney(s)-in-Fact to sign, execute, seal and acknowledge any and all bonds, recognizances, conditional undertakings and other writings obligatory in the nature thereof on behalf of the Companies in their business of guaranteeing the fidelity of persons, guaranteeing the performance of contracts and executing or guaranteeing bonds and undertakings required or permitted in any actions or proceedings allowed by law.

IN WITNESS WHEREOF, the Companies have caused this instrument to be signed, and their corporate seals to be hereto affixed, this **21st** day of **April**, **2021**.

State of Connecticut

City of Hartford ss.

By: _____
Robert L. Raney, Senior Vice President

On this the **21st** day of **April**, **2021**, before me personally appeared **Robert L. Raney**, who acknowledged himself to be the Senior Vice President of each of the Companies, and that he, as such, being authorized so to do, executed the foregoing instrument for the purposes therein contained by signing on behalf of said Companies by himself as a duly authorized officer.

IN WITNESS WHEREOF, I hereunto set my hand and official seal.

My Commission expires the **30th** day of **June**, **2026**

_____
Anna P. Nowik, Notary Public

This Power of Attorney is granted under and by the authority of the following resolutions adopted by the Boards of Directors of each of the Companies, which resolutions are now in full force and effect, reading as follows:

RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President, any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary may appoint Attorneys-in-Fact and Agents to act for and on behalf of the Company and may give such appointee such authority as his or her certificate of authority may prescribe to sign with the Company's name and seal with the Company's seal bonds, recognizances, contracts of indemnity, and other writings obligatory in the nature of a bond, recognizance, or conditional undertaking, and any of said officers or the Board of Directors at any time may remove any such appointee and revoke the power given him or her; and it is

FURTHER RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President may delegate all or any part of the foregoing authority to one or more officers or employees of this Company, provided that each such delegation is in writing and a copy thereof is filed in the office of the Secretary; and it is

FURTHER RESOLVED, that any bond, recognizance, contract of indemnity, or writing obligatory in the nature of a bond, recognizance, or conditional undertaking shall be valid and binding upon the Company when (a) signed by the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary and duly attested and sealed with the Company's seal by a Secretary or Assistant Secretary; or (b) duly executed (under seal, if required) by one or more Attorneys-in-Fact and Agents pursuant to the power prescribed in his or her certificate or their certificates of authority or by one or more Company officers pursuant to a written delegation of authority; and it is

FURTHER RESOLVED, that the signature of each of the following officers: President, any Executive Vice President, any Senior Vice President, any Vice President, any Assistant Vice President, any Secretary, any Assistant Secretary, and the seal of the Company may be affixed by facsimile to any Power of Attorney or to any certificate relating thereto appointing Resident Vice Presidents, Resident Assistant Secretaries or Attorneys-in-Fact for purposes only of executing and attesting bonds and undertakings and other writings obligatory in the nature thereof, and any such Power of Attorney or certificate bearing such facsimile signature or facsimile seal shall be valid and binding upon the Company and any such power so executed and certified by such facsimile signature and facsimile seal shall be valid and binding on the Company in the future with respect to any bond or understanding to which it is attached.

I, **Kevin E. Hughes**, the undersigned, Assistant Secretary of each of the Companies, do hereby certify that the above and foregoing is a true and correct copy of the Power of Attorney executed by said Companies, which remains in full force and effect.

Dated this 10th day of December 2021

Attachment #1

Disciplinary Statement
UPS Supply Chain Solutions, Inc. ("UPS SCS")

WHOLESALE LICENSE

Matters Related to Colorado Order
1645 Satellite Blvd, Duluth, GA

Final

As previously disclosed by UPS Supply Chain Solution, Inc. (UPS SCS), to your agency in 2010, the Colorado Board of Pharmacy's Stipulation and Final Agency Order ("Colorado Order") was effective October 18, 2010, with regard to UPS SCS's Duluth, GA facility's Colorado Out-of-State Wholesaler License # WHO-7462. UPS SCS's Duluth facility did not file Colorado's required notice of change of Designated Representative within Colorado's required 14-day timeframe to file such notice. UPS SCS implemented corrective actions and has successfully completed the terms of the Colorado order. Please note, UPS SCS's Colorado Out-of-State Wholesaler License # WHO-7462 was not and is not restricted, modified, revoked or limited in any way. UPS SCS has a copy of the Colorado Case No. 2011-000273 documentation related to the Colorado Order on file with the UPS SCS Regulatory Affairs Department.

Final

On November 15, 2011, UPS SCS informed your agency of the Iowa Board of Pharmacy's (IBoP) action concerning Iowa Wholesale Drug License #5820 and which became effective November 11, 2011. This Iowa Stipulation and Consent Order (the "Iowa Order") relates to the Colorado Order and the untimely filing of notice regarding the Colorado Order to the IBoP. UPS SCS has successfully completed the terms of the Iowa Order and Iowa Wholesale Drug License #5820 has not and is not restricted, modified, revoked or limited in any way. UPS SCS has a copy of the Iowa Case No. 2010-162 documentation on file with the UPS SCS Regulatory Affairs Department. Note: This Iowa matter is a spin-off of the Colorado matter summarized above. It is based on the same underlying facts that gave rise to the Colorado matter. It is **not** based on an independent set of facts.

Final

On October 18, 2013, UPS SCS informed your agency of the Consent Order and Stipulation between the Michigan Board of Pharmacy (BOP) and UPS SCS based on the underlying Colorado matter summarized above, which was executed by the Michigan BOP on October 9, 2013 (the "Michigan Order"). As previously disclosed to you, pursuant to this Consent Order, UPS SCS paid a fine of two thousand five hundred dollars. The Consent Order and Stipulation specifically provided that "no patient safety issues were involved," and the BOP did not impose any other penalty. UPS SCS's Michigan licenses have not been restricted, modified, revoked, or limited in any way. Note: The Michigan Order is directly related to the Colorado matter summarized above. It is based on the same underlying facts that gave rise to the Colorado matter. It is not based on an independent set of facts.

PHARMACY LICENSE

Matters Related to Kentucky Agreed Orders
1860 Outer Loop Road, Louisville, KY

Final

UPS SCS dispenses medical devices, including diabetes-related pumps, to consumers from its Kentucky licensed pharmacy facility. Not all states recognize the Durable Medical Equipment or Home Medical Equipment provider category for entities that dispense medical devices rather than drugs. Those states that do not recognize these categories require a non-resident or out of state pharmacy permit for dispensing medical devices. Accordingly, UPS SCS obtained a home-state pharmacy permit in Kentucky and numerous non-resident pharmacy permits and DME/HME permits in other states. On September 12, 2012, the Kentucky Board of Pharmacy ("KYBoP") and UPS SCS executed final Agreed Orders relating to minor violations under Kentucky Administrative Regulations 2:270 and Kentucky Revised Statutes Sec. 315.121(6) in connection with late filing of pharmacy technician registrations at UPS SCS's Louisville, Kentucky facility (the "Kentucky Orders"). UPS SCS and the KYBoP agreed to address the Kentucky Orders informally by entering in the aforementioned Agreed Orders in lieu of the KYBoP filing a formal complaint. UPS SCS self-reported this action to your agency on September 18, 2012. UPS SCS takes this and all regulatory matters seriously and has implemented corrective action. Moreover, UPS SCS has instituted internal safeguards to ensure that applicable regulatory compliance is maintained in the future. UPS SCS's Kentucky pharmacy license (Kentucky Pharmacy License #P07277) remains current and in good standing and was not and has not been restricted, modified, revoked, or limited in any way.

Final

On May 14, 2013, UPS SCS informed your agency of the Texas Board of Pharmacy's (TXBoP) action concerning UPS SCS Texas Class E Nonresident Pharmacy License #26160 and which became effective May 7, 2013. As already disclosed to you, on May 14, 2013, the Texas Board of Pharmacy (TXBoP) and UPS SCS executed a final Agreed Board Order (the "Texas Order") relating to the above-mentioned Kentucky Pharmacy License Agreed Orders. Pursuant to the Texas Agreed Board Order, the TXBoP reprimanded UPS SCS's Nonresident Pharmacy License. The Texas Board of Pharmacy did not levy a fine or any other penalty on the License. The License was not and is not restricted, modified, revoked or limited in any way. UPS SCS has a copy of the Texas Agreed Board Order # L-13-004 on file with the UPS SCS Regulatory Affairs Department. Note: The Texas Order is directly related to the Kentucky pharmacy license matter summarized above. It is based on the same underlying facts that gave rise to the Kentucky matter. It is **not** based on an independent set of facts.

Final

On April 22, 2014, UPS SCS informed your agency of the Consent Order and Stipulation between the Michigan Board of Pharmacy (BOP) and UPS SCS based on the Kentucky Order summarized above, which was adopted by the Michigan BOP on April 9, 2014 (the "Michigan Order"). As previously disclosed to you, pursuant to this Consent Order, UPS SCS paid a fine of two hundred fifty dollars. The Consent Order and Stipulation specifically provided that "no patient safety issues were involved," and the BOP did not impose any other penalty. UPS SCS's Michigan licenses have not been restricted, modified, revoked, or limited in any way. Note: The Michigan Order is directly related to the Kentucky matter summarized above. It is based on the same underlying facts that gave rise to the Kentucky matter. It is not based on an independent set of facts.

BEFORE THE STATE BOARD OF PHARMACY

STATE OF COLORADO

Case No. 2011-000273

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF DISCIPLINARY PROCEEDING REGARDING THE NON-RESIDENT PRESCRIPTION DRUG WHOLESALER REGISTRATION OF UPS SUPPLY CHAIN SOLUTIONS, INC., REGISTRATION NO. WHO-7462,

Respondent.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and UPS Supply Chain Solutions, Inc. ("Respondent") to resolve all matters pertaining to Board Case Number 2011-000273, as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Respondent, its registration as a non-resident prescription drug wholesaler, and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the provisions of the Pharmaceuticals and Pharmacists Act at Title 12, Article 22, C.R.S.

2. Respondent was originally registered as an non-resident prescription drug wholesaler in the State of Colorado on December 8, 2008, being issued registration number WHO-7462, and has been so registered at all times relevant to this disciplinary action.

3. Respondent does not contest these findings and hereby waives any further proof in this proceeding before the Board regarding the following findings.

4. Respondent failed to timely submit an application to the Board detailing a change in designated representative and fee. In this case, forty-six (46) days transpired between the date the previous designated representative ceased the position and the date the application and fee were received.

5. Respondent states and affirms that it was never without the proper oversight of a designated representative but failed to timely submit the change application to the Board because of human error. Further, Respondent states and affirms that it has identified the cause of the error and has implemented corrective actions.

6. Respondent does not contest that the conduct described above constitutes violations of the following sections of the Colorado Revised Statutes and Board Regulations:

12-22-125. Unprofessional conduct - grounds for discipline.

(1) The board may suspend, revoke, refuse to renew, or otherwise discipline any license or registration issued by it, after a hearing held in accordance with the provisions of this section, upon proof that the licensee or registrant:

(c) Has violated:

(I) Any of the provisions of this part 1, including but not limited to any acts in section 12-22-126;

(II) The lawful rules of the board; or

(III) Any state or federal law pertaining to drug.

12-22-802. Wholesaler license requirements

(2)(b) An applicant for a license shall pay any reasonable fee required by the accreditation body or the board and comply with any rules promulgated by the board;

(3) (VII) The name of the applicant's designated representative for the facility, the fingerprints of the designated representative, and a personal information statement for the designated representative that includes information as required by the board, including but not limited to the information in subsection (5) of this section; and

(5)(i) Update all of the information required in this part 8 whenever changes occur.

Regulation 15.01.11 Minimum required information for registration.

a. The following minimum information shall be required from each wholesaler as part of the registration:

(8) The name of the applicant's designated representative, who must meet the following requirements:

(a) Be at least twenty-one years of age;

(b) Have at least three years of full-time employment history with a pharmacy or a wholesaler in a capacity related to the dispensing and distribution of and the recordkeeping related to prescription drugs;

(c) Be employed by the applicant in a full-time managerial position;

(d) Be actively involved in and aware of the actual daily operation of the wholesaler;

(e) Be physically present at the facility of the applicant during regular business hours, except when the absence of the designated representative is authorized, including, but not limited to, sick leave and vacation leave;

(f) Serve in the capacity of a designated representative for only one applicant or wholesaler at a time, except where more than one licensed wholesaler is co-located in the same facility and the wholesalers are members of an affiliated group as defined by section 1504 of the federal "Internal Revenue code of 1986."

(g) Not have any convictions under federal, state, or local law relating to wholesale or retail prescription drug distribution or controlled substances;

(h) Not have an felony convictions pursuant to federal, state, or local law; and

(i) Undergo a background check as required by CRS 12-22-803. And

(9) Wholesalers that distribute animal drugs exclusively are exempt from the requirements of 15.01.11(a)(8).

(b) Changes in any information in section 15.01.11 shall be submitted to the Colorado Board of Pharmacy within fourteen calendar days thereof.

Regulation 15.01.14 Change of name, location, or ownership, or designated representative

c. Any change in the designated representative of a wholesaler shall be reported to the board on a form supplied by the board within 14 calendar days of such change. The incoming designated representative must undergo the required background check.

7. The Board finds and concludes, and Respondent agrees, that based upon the above-described violations of the Pharmaceuticals and Pharmacists Act and relevant rules and regulations, the following discipline is just and appropriate under the circumstances.

TERMS OF DISCIPLINE

8. **Fine with Surcharge.** Pursuant to §12-22-125.2(5), C.R.S., Respondent shall pay a fine of Five Thousand Dollars and No Cents ($5,000.00). Respondent understands and acknowledges that, pursuant to §24-34-108, C.R.S., the Executive Director of the Department of Regulatory Agencies shall impose an additional surcharge of 10% of this fine. Respondent shall therefore pay a total amount of Five Thousand Five Hundred Dollars and No Cents ($5,500.00). The total amount shall be payable to the State of Colorado and shall be remitted in one lump sum to be included when Respondent submits this signed Final Agency Order to the Board.

9. **Compliance.** Respondent shall submit all future applications detailing a change in designated representative and fee to the Board within fourteen (14) days of the previous designated representative ceasing the position.

10. **Other Requirements.** Respondent acknowledges and agrees that, as a condition of this Final Agency Order, Respondent shall:

a. promptly pay all Respondent's own fees and costs associated with this Final Agency Order;

b. comply fully with this Final Agency Order; and

c. comply fully with the Pharmacists and Pharmaceuticals Act, all Board rules and regulations, and any other state and federal laws and regulations related to pharmacists and pharmaceuticals in the State of Colorado.

11. **Advisements and Waivers.** Respondent enters into this Final Agency Order freely and voluntarily, whether or not Respondent has consulted with legal counsel. Respondent acknowledges its understanding that it has the following rights:

a. to have formal notice of hearing and charges served upon it;

b. to respond to said formal notice of charges;

c. to have a formal disciplinary hearing pursuant to Sections 12-22-125 and 12-22-125.2(2)(a), C.R.S.; and

d. to appeal this Final Agency Order.

Respondent freely **waives** these rights, and acknowledges that such waiver is made voluntarily in consideration for the Board's limiting the action taken against Respondent to the sanctions imposed herein.

12. **Acknowledgments.** Respondent has read this Final Agency Order in its entirety and acknowledges, whether or not Respondent has consulted with legal counsel, that Respondent understands its legal consequences and agrees that none of its terms or conditions are unconscionable. Respondent is not relying on any statements, promises or representations from the Board other than as may be contained in this Final Agency Order. Respondent further acknowledges that it is not entering into this Final Agency Order under any duress.

13. **Violations.** Time is of the essence in this Final Agency Order. It is the responsibility of Respondent to take all appropriate steps to comply fully with this Final Agency Order. Respondent acknowledges and agrees that any violation of this Final Agency Order shall constitute a willful violation of a lawful Board order, may be sanctioned as provided under §12-22-125.2(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of Respondent's registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Respondent to comply with all terms and conditions of this Final Agency Order.

14. **Integration and Severability.** Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.

15. **Public Record.** Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.

16. **Effective Date.** This Final Agency Order shall become effective upon signature by a Board representative.

Pursuant to Iowa Code §§ 17A.10 and 272C.3(4) (2011), The Iowa Board of Pharmacy (hereinafter, the "Board") and UPS Supply Chain Solutions, L.L.C. (hereinafter, "Respondent"), have agreed to settle a contested case currently on file with the Board. The Statement of Charges filed against Respondent on September 13, 2011, and the licensee disciplinary proceeding related to the charges shall be resolved without a hearing, as the Board and Respondent have agreed to the following Stipulation and Consent Order:

1. Respondent's license to operate a wholesale drug business was renewed November 19, 2010, as evidenced by Wholesale Drug License Number 5820, recorded in the permanent records of the Board.

2. Wholesale Drug License Number 5820 issued to and held by Respondent is current and in force until December 31, 2011.

3. The Board has jurisdiction over the parties and the subject matter herein.

4. A Statement of Charges was filed against Respondent on September 13, 2011. The Statement of Charges alleges Respondent violated the pharmacy laws of the State of Colorado and failed to timely report the violation to the Board.

5. The records of the investigation indicate that Respondent has successfully

RECEIVED
OCT 28 2011
IOWA BOARD OF PHARMACY

completed the terms of the Colorado Stipulation and Final Agency Order.

6. Respondent has chosen not to contest the allegations set forth in the Statement of Charges and acknowledges that the allegations, if proven in a contested case proceeding, would constitute grounds for the discipline described herein.

7. Upon the Board's approval of this Stipulation and Consent Order, Respondent shall be assessed a civil penalty in the amount of $1000. The civil penalty payment shall be made by check, payable to the Treasurer of Iowa and mailed to the executive director of the Board within 10 days after Respondent's receipt of notice of the Board's approval of this Stipulation and Consent Order. All civil penalty payments shall be deposited into the State of Iowa general fund. Upon the Board's receipt of the civil penalty, this disciplinary proceeding shall be concluded without further order of the Board.

8. The Board does not mandate any further corrective action.

9. Respondent agrees to obey all federal and state laws, rules, and regulations substantially related to the operation of a wholesale drug business.

10. Should Respondent violate or fail to comply with any of the terms or conditions of this Stipulation and Consent Order, the Board may initiate action to revoke or suspend Respondent's Iowa license to operate a wholesale drug business or to impose other licensee discipline as authorized by Iowa Code chapters 272C and 155A (2011), and 657 Iowa Administrative Code § 36.1.

11. This Stipulation and Consent Order is the resolution of a contested case. By entering into this stipulation, Respondent waives all rights to a contested case

hearing on the allegations contained in the Statement of Charges, and waives any objections to this Stipulation and Consent Order.

12. This Stipulation and Consent Order is a proposed settlement subject to approval by a majority of the full Board. If the Board fails to approve this Stipulation and Consent Order, it shall be of no force or effect to either party. If the Board approves this Stipulation and Consent Order, it shall be the full and final resolution of this matter.

13. The Board's approval of this Stipulation and Consent Order shall constitute a FINAL ORDER of the Board in a disciplinary action.

This Stipulation and Consent Order is voluntarily submitted by UPS Supply Chain Solutions, L.L.C., to the Iowa Board of Pharmacy for its consideration on this 21st day of October 2011.

CONSENT ORDER AND STIPULATION

CONSENT ORDER

WHEREAS, an Administrative Complaint, hereafter Complaint, was issued on September 23, 2011, charging UPS Supply Chain Solutions Inc., hereafter Respondent Wholesaler, with having violated section 17768(2)(d) of the Public Health Code, 1978 PA 368, as amended; MCL 333.1101 et seq; and

WHEREAS, Respondent Wholesaler neither admits nor denies the facts alleged in the Complaint dated September 23, 2011, but agrees that the Disciplinary Subcommittee of the Michigan Board of Pharmacy, hereafter Disciplinary Subcommittee, shall treat the allegations as true, which finding shall have the same force and effect for purposes of this Consent Order as if evidence and arguments were presented in support of the allegations; and

WHEREAS, the Disciplinary Subcommittee reviewed the Stipulation and, based upon the matters asserted therein, agrees that the public interest is best served by resolution of the outstanding Complaint; now, therefore,

IT IS HEREBY FOUND that the facts alleged in the Complaint are true for the purposes of this Consent Order and constitute a violation of section 17768(2)(d) of the Public Health Code, supra.

Accordingly,

IT IS HEREBY ORDERED that for the cited violation of the Public Health Code, Respondent Wholesaler is FINED in the amount of $2,500.00 to be paid to the State of Michigan within 60 days of the effective date of this Order.

IT IS FURTHER ORDERED that the fine shall be mailed to the **Department of Licensing and Regulatory Affairs, Bureau of Health Care Services, Sanction Monitoring, P.O. Box 30189, Lansing, MI 48909**. The fine shall be paid by check or money order, made payable to the State of Michigan, and the check or money order shall clearly display file number **53-10-118763.**

IT IS FURTHER ORDERED that in the event Respondent violates any provision of this Order, the Disciplinary Subcommittee may proceed to take disciplinary action pursuant to 1996 AACS, R338.1632 and section 16221(h) of the Public Health Code, supra.

CONTINUED ON NEXT PAGE

IT IS FURTHER ORDERED that this Order shall be effective 30 days from the date signed by the Disciplinary Subcommittee, as set forth below.

Dated: 10/9/13

MICHIGAN BOARD OF PHARMACY

By _____
Chairperson, Disciplinary Subcommittee

STIPULATION

1. Respondent Wholesaler neither admits nor denies the facts alleged in the Complaint dated September 23, 2011, but agrees that the Disciplinary Subcommittee shall treat the allegations as true, which finding shall have the same force and effect for purposes of this Consent Order as if evidence and arguments were presented in support thereof.

2. Respondent Wholesaler understands and intends that by signing this Stipulation, Respondent Wholesaler is waiving the right, pursuant to the Public Health Code, the rules promulgated thereunder, and the Administrative Procedures Act of 1969, 1969 PA 306, as amended; MCL 24.201 et seq, to require the Department of Licensing and Regulatory Affairs, hereafter Department, to prove the charges set forth in the Complaint by presentation of evidence and legal authority, and Respondent Wholesaler is waiving the right to appear with an attorney and such witnesses as Respondent Wholesaler may desire to present a defense to said charges.

3. Factors taken into consideration in the formulation of the within Consent Order are as follows:

> Subsequent to the adverse actions, Respondent Wholesaler submitted information about steps implemented by Respondent Wholesaler, in the state of Colorado, to ensure that this type of action will not recur, including establishing strategy groups and tactical teams which ensure regulations are met and all locations are compliant. Respondent Wholesaler indicated that a single manager coordinates the local teams to ensure all information is consistently distributed. No patient safety issues were involved in Respondent Wholesaler's actions.
>
> Respondent Wholesaler was cooperative in resolution of this matter. Respondent Wholesaler has been licensed in the state of Michigan since 2008 and has no other complaints against its license.

4. Patricia A. Smeelink, R.Ph., a member of the Michigan Board of Pharmacy who supports this proposal, and the Department's representative are both free to discuss this matter with the Disciplinary Subcommittee and recommend acceptance of the resolution set forth in the foregoing Consent Order.

5. The foregoing Consent Order is approved as to form and substance by Respondent Wholesaler and the Department and may be entered as the final order of the Disciplinary Subcommittee in said cause.

CONTINUED ON NEXT PAGE

6. This proposal is conditioned upon acceptance by the Disciplinary Subcommittee, Respondent Wholesaler and the Department expressly reserving the right to further proceedings without prejudice should the Consent Order be rejected.

BH/PB

COMMONWEALTH OF KENTUCKY
KENTUCKY BOARD OF PHARMACY
Case No. 11-0062A

IN RE: PHARMACY PERMIT NO. P07277 HELD BY UPS SUPPLY CHAIN SOLUTIONS, INC.

AGREED ORDER

Come the parties, the Kentucky Board of Pharmacy ("the Board") and UPS Supply Chain Solutions, Inc. ("Respondent"), and both having been fully informed regarding the matter set forth herein, state as follows:

(1) Respondent is a pharmacy in the Commonwealth of Kentucky, having been assigned pharmacy permit no. P07277.

(2) (a) An investigation of Respondent's pharmacy revealed that numerous technicians worked on various dates in 2010, without being timely registered with the Board. The Respondent assured the technicians that it would take care of ensuring they were properly registered. Respondent subsequently properly registered the technicians. Nonetheless, the Respondent was in violation of KRS 315.121(1)(g).
(b) The technicians that worked without being appropriately registered with the Board were: Chelsea Hutchins, Alisha Netherton, Brittany Barger, Lauren Fisher, Karen Millay, Meghan Rae Yates, Michelle Green, Amanda Gracie, Faith Joway, Taylor Parker, Manoj Bhandari, Jonathan Pruitt, Whitney Wilson, Dustin R. Harris, Fabrice Mboya, Lauren Howell, Coco Boards, Benjamin Bickett, Jessica Horlander, Jason Cope, William Robert Bennett Jr, Thomas Hicks, Nimo Muhumed Mohamud, Harold Keith Newcom, Rodrick G Parrish, Johnathan Borho, Antoya Blackburn, Jonathan Graves, and Leilani Roach.
(c) The above facts subject Respondent to discipline pursuant to KRS 315.121(1) (h).

(3) Respondent takes compliance with KRS 315 seriously and as part of its corporate compliance program presented to the Board a detailed corrective action plan intended to ensure on-going compliance with KRS 315.121(1)(g).

(4) This matter is considered a violation pursuant to KRS 315.121(6) and 201 KAR 2:270.

(5) The Board and Respondent have agreed to address this matter informally by

entering into this Agreed Order, in lieu of the Board filing a formal Complaint.

WHEREFORE, IT IS HEREBY AGREED AND ORDERED THAT:

(A) Respondent shall be fined $2900.00 ($100 per technician) payable by September 5, 2012. Respondent's check shall be made payable to the Kentucky State Treasurer and sent to the Kentucky Board of Pharmacy, State Office Bldg., Annex, Ste. 300, 125 Holmes St., Frankfort, Kentucky 40601.

(B) By entering into this Agreed Order, Respondent expressly acknowledges that Respondent was fully and completely informed of Respondent's right to due process, that Respondent fully understands those rights, and that Respondent knowingly, voluntarily, and willingly agrees to waive those rights and to enter into this Agreed Order.

(C) The above information shall be reported to the National Association of Boards of Pharmacy ("NABP"), and is subject to disclosure under the Kentucky Open Records Act.

AGREED ORDER

Come the parties, the Kentucky Board of Pharmacy ("the Board") and UPS Supply Chain Solutions Inc. ("Respondent"), and both having been fully informed regarding the matter set forth herein, state as follows:

(1) Respondent is a pharmacy in the Commonwealth of Kentucky, having been assigned pharmacy permit no. P07277.

(2) (a) An investigation of Respondent's pharmacy revealed that Sherry Rich worked as a pharmacy technician from April 1, 2010 through November 19, 2010, without being timely registered with the Board. The Respondent assured Ms. Rich that it would take care of ensuring she was properly registered. Respondent subsequently properly registered Ms. Rich with the Board. Nonetheless, the Respondent was in violation of KRS 315.121(1)(g).

(b) The above facts subject Respondent to discipline pursuant to KRS 315.121(1) (h).

(3) Respondent takes compliance with KRS 315 seriously and as part of its corporate compliance program presented to the Board a detailed corrective action plan intended to ensure on-going compliance with KRS 315.121(1)(g).

(4) This matter is considered a violation pursuant to KRS 315.121(6) and 201 KAR 2:270.

(5) The Board and Respondent have agreed to address this matter informally by entering into this Agreed Order, in lieu of the filing of a formal Complaint.

WHEREFORE, IT IS HEREBY AGREED AND ORDERED THAT:

(A) Respondent shall be fined $125.00 payable by September 5, 2012. Respondent's check shall be made payable to the Kentucky State Treasurer and sent to the Kentucky

Board of Pharmacy, State Office Bldg., Annex, Ste. 300, 125 Holmes St., Frankfort, Kentucky 40601.

(B) By entering into this Agreed Order, Respondent expressly acknowledges that Respondent was fully and completely informed of Respondent's right to due process, that Respondent fully understands those rights, and that Respondent knowingly, voluntarily, and willingly agrees to waive those rights and to enter into this Agreed Order.

AGREED BOARD ORDER #L-13-004

RE: IN THE MATTER OF
UPS SUPPLY CHAIN SOLUTIONS, INC.
(CLASS E NONRESIDENT
PHARMACY LICENSE #26160)

BEFORE THE TEXAS STATE
BOARD OF PHARMACY

On this day came on to be considered by the Texas State Board of Pharmacy ("Board") the matter of Class E nonresident pharmacy license number 26160 issued to UPS Supply Chain Solutions, Inc. ("Respondent"), 1860 Outer Loop Road, Louisville, Kentucky 40219.

On September 8, 2012, Respondent self-reported to the Board the entry of two Agreed Orders by the Kentucky Board of Pharmacy, as described below in Counts (1) and (2).

By letter dated February 22, 2013, the Board gave preliminary notice to Respondent of its intent to take disciplinary action. This action was taken as a result of an investigation which produced evidence indicating that Respondent may have violated:

> Section 565.002 (a)(13); and Section 565.002(c) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Title 3, Subtitle J (2011), as alleged in the Counts below.

The conduct described in the Kentucky Board of Pharmacy's Agreed Orders is substantially similar to conduct described in:

> Section 565.002(a)(3); and Section 568.002(a) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Title 3, Subtitle J (2011); and
>
> Section 297.3(a)(1) of the Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2012).

COUNTS

(1) On or about September 12, 2012, the Kentucky Board of Pharmacy entered an Agreed Order in case number 11-0061A against the Kentucky pharmacy permit number P07277 held by UPS Supply Chain Solutions, Inc. The Order was based on allegations that from April through November of 2010, the pharmacy allowed an unregistered individual to perform duties of a pharmacy technician without being registered with the Kentucky Board of Pharmacy. The Order imposed an administrative penalty of $125.

(2) On or about September 12, 2012, the Kentucky Board of Pharmacy entered an Agreed Order in case number 11-0062A against the Kentucky pharmacy permit number P07277 held by UPS Supply Chain Solutions, Inc. The Order was based on allegations that, on various dates in 2010, the pharmacy allowed twenty-nine (29) unregistered individuals to

perform duties of a pharmacy technician without being registered with the Kentucky Board of Pharmacy. The Order imposed an administrative penalty of $2900.

An informal conference was held in the office of the Texas State Board of Pharmacy on April 2, 2013. Phillip Vowels, R.Ph., Pharmacist-in-Charge of Respondent; Sue Young, Director, Global Healthcare Compliance, for Respondent; Amy Carney, Regulatory Affairs Manager, for Respondent; Maureen O'Brien, Senior Quality Assurance Manager, for Respondent; Emily Johnson, Legal Counsel for Respondent; Hannah Heck, Legal Counsel for Respondent; and Michelle Williams, Legal Counsel for Respondent, appeared via teleconference. The informal conference was heard by a Board panel comprised of: Jeanne D. Waggener, R.Ph., Board Member; Gay Dodson, R.Ph., Executive Director/Secretary; and Carol Fisher, R.Ph., M.P.A., Director of Enforcement; with Kerstin E. Arnold, General Counsel. Stacy E. Martyak, Staff Attorney, was also in attendance.

By signing this Order, Daniel Silvernale, Vice President, for and on behalf of Respondent, neither admits nor denies the truth of the matters previously set out in this Order, and agrees that the Board has jurisdiction in this matter and waives the right to notice of hearing, formal administrative hearing, and judicial review of this Order.

The parties acknowledge that this Order resolves the allegations set forth herein, and agree to the terms and conditions set forth in the ORDER OF THE BOARD below.

ORDER OF THE BOARD

THEREFORE, PREMISES CONSIDERED, the Board does hereby ORDER that Respondent's license is hereby reprimanded.

And it is so ORDERED.

THIS ORDER IS A PUBLIC RECORD.

SIGNED AND ENTERED ON THIS 7th day of May, 2013.

CONSENT ORDER AND STIPULATION

CONSENT ORDER

WHEREAS, an Administrative Complaint, hereafter Complaint, was issued on September 27, 2013, charging UPS Supply Chain Solutions Inc., hereafter Respondent Pharmacy, with having violated section 17768(2)(d) of the Public Health Code, 1978 PA 368, as amended; MCL 333.1101 et seq; and

WHEREAS, Respondent neither admits nor denies the facts alleged in the Complaint dated September 27, 2013, but agrees that the Disciplinary Subcommittee of the Michigan Board of Pharmacy, hereafter Disciplinary Subcommittee, shall treat the allegations as true, which finding shall have the same force and effect for purposes of this Consent Order as if evidence and argument were presented in support of the allegations; and

WHEREAS, the Disciplinary Subcommittee has reviewed the Stipulation and, based upon the matters asserted therein, agrees that the public interest is best served by resolution of the outstanding Complaint; now, therefore,

IT IS HEREBY FOUND that the facts alleged in the Complaint are true, for purposes of this Consent Order, and constitute a violation of section 17768(2)(d) of the Public Health Code, supra.

Accordingly, IT IS HEREBY ORDERED, that for the cited violation of the Public Health Code, Respondent Pharmacy is REPRIMANDED.

IT IS FURTHER ORDERED that for the cited violation of the Public Health Code, Respondent Pharmacy is FINED in the amount of $250.00 to be paid to the State of Michigan within 60 days of the effective date of this Order.

IT IS FURTHER ORDERED that the fine shall be mailed to the **Department of Licensing and Regulatory Affairs, Enforcement Division, Sanction Monitoring, P.O. Box 30189, Lansing, MI 48909.** The fine shall be paid by check or money order made payable to the state of Michigan, and the check or money order shall clearly display the file number **53-13-129412.**

IT IS FURTHER ORDERED that in the event Respondent Pharmacy violates any provision of this Order, the Disciplinary Subcommittee may proceed to take disciplinary action pursuant to 1996 AACS, R 338.1632 and section 16221(h) of the Public Health Code, supra.

Chairperson, Disciplinary Subcommittee

STIPULATION

1. Respondent Pharmacy neither admits nor denies the facts alleged in the Complaint dated September 27, 2013, but agrees that the Disciplinary Subcommittee shall treat the allegations as true, which finding shall have the same force and effect for purposes of this Consent Order as if evidence and arguments were presented in support thereof.

2. Respondent Pharmacy understands and intends that by signing this Stipulation Respondent Pharmacy is waiving the right, pursuant to the Public Health Code, the rules promulgated thereunder, and the Administrative Procedures Act of 1969, 1969 PA 306, as amended; MCL 24.201 et seq, to require the Department of Licensing and Regulatory Affairs, hereafter Department, to prove the charges set forth in the Complaint by presentation of evidence and legal authority, and Respondent Pharmacy is waiving the right to appear with an attorney and such witnesses as Respondent Pharmacy may desire to present a defense to the charges.

3. Factors taken into consideration in the formulation of the within Consent Order are as follows:

> Respondent Pharmacy acknowledges the Kentucky Board of Pharmacy disciplinary action which precipitated the Complaint.

4. Harvey Schmidt, R.Ph., a member of the Michigan Board of Pharmacy who supports this proposal, and the Department's representative are both free to discuss this matter with the Disciplinary Subcommittee and recommend acceptance of the resolution set forth in this Consent Order.

5. The foregoing Consent Order is approved as to form and substance by Respondent Pharmacy and the Department and may be entered as the final order of the Disciplinary Subcommittee in this cause.

CONTINUED ON NEXT PAGE

6. The foregoing proposal is conditioned upon acceptance by the Disciplinary Subcommittee, Respondent Pharmacy and the Department expressly reserving the right to further proceedings without prejudice should the Consent Order be rejected.

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. E706520

Application/License No. _____

UPS Supply Chain Solutions, Inc., doing or intending to do business as a
Applicant/Principal
pharmaceutical wholesaler, whose address for purposes of service is
5071 S. Preston Hwy Shepherdsville, KY 40165, as
Address of Applicant/Principal
PRINCIPAL, and Great American Insurance Company, a
Surety Company
corporation organized under the laws of the state of Ohio
State of Incorporation
and authorized to transact a general surety business in the State of

Nevada, whose address for purposes of service is
5071 S. Preston Hwy Shepherdsville, KY 40165 as
Address of Surety
SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of TWENTY-FIVE THOUSAND DOLLARS ($25,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on 06/02/2022.
Effective Date

WHEREAS, the provisions of Nevada Revised Statue (NRS) 639.515 and Nevada Administrative Code (NAC) 639.5937 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $25,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and NAC 639.5937 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515 and NAC 639.5937. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 2nd day of June, 2022

GREAT AMERICAN INSURANCE COMPANY

Assistant Secretary

Divisional Senior Vice President

MARK VICARIO (877-377-2405)

STATE OF OHIO, COUNTY OF HAMILTON - ss:

On this 2nd day of June , 2022 , before me personally appeared MARK VICARIO, to me known, being duly sworn, deposes and says that he resides in Cincinnati, Ohio, that he is a Divisional Senior Vice President of the Bond Division of Great American Insurance Company, the Company described in and which executed the above instrument; that he knows the seal of the said Company; that the seal affixed to the said instrument is such corporate seal; that it was so affixed by authority of his office under the By-Laws of said Company, and that he signed his name thereto by like authority.

SUSAN A KOHORST
Notary Public
State of Ohio
My Comm. Expires
May 18, 2025

This Power of Attorney is granted by authority of the following resolutions adopted by the Board of Directors of Great American Insurance Company by unanimous written consent dated June 9, 2008.

RESOLVED: That the Divisional President, the several Divisional Senior Vice Presidents, Divisional Vice Presidents and Divisonal Assistant Vice Presidents, or any one of them, be and hereby is authorized, from time to time, to appoint one or more Attorneys-in-Fact to execute on behalf of the Company, as surety, any and all bonds, undertakings and contracts of suretyship, or other written obligations in the nature thereof; to prescribe their respective duties and the respective limits of their authority; and to revoke any such appointment at any time.

RESOLVED FURTHER: That the Company seal and the signature of any of the aforesaid officers and any Secretary or Assistant Secretary of the Company may be affixed by facsimile to any power of attorney or certificate of either given for the execution of any bond, undertaking, contract of suretyship, or other written obligation in the nature thereof, such signature and seal when so used being hereby adopted by the Company as the original signature of such officer and the original seal of the Company, to be valid and binding upon the Company with the same force and effect as though manually affixed.

CERTIFICATION

I, STEPHEN C. BERAHA, Assistant Secretary of Great American Insurance Company, do hereby certify that the foregoing Power of Attorney and the Resolutions of the Board of Directors of June 9, 2008 have not been revoked and are now in full force and effect.

Signed and sealed this 2nd day of June , 2022 .

eDRLS - Electronic Drug Registration & Listing System

Current Date: 20-MAR-2019
Labeler DUNS: 849818831
Labeler Name: CorMedix, Inc.
Labeler Code: 72990

The Food and Drug Administration (FDA) has assigned the above Labeler Code to your firm. The number cannot be used until you have confirmed the assignment. Please revise and resubmit your Labeler Code Request SPL to include the assigned number above to complete the process. **To do this, open the previous Labeler Code Request SPL file and fill in the new information (your assigned Labeler Code) without changing the other existing information. Fill in a new root id and new version number with the original set id and the appropriate effective time.**

This Labeler Code should be used to create the NDC (National Drug Code) assigned to all drugs you manufacture or distribute for U.S. commercial distribution. The assignment of NDC is extensively discussed in Title 21 of Code of Federal Regulations (CFR) § 207.35. The NDC for each drug must be submitted as part of drug listing information submitted to FDA. Per 21 CFR Part 207, owners or operators of an establishment entering into the manufacture or processing of a drug or drugs shall drug list, every drug in commercial distribution within 5 days after the beginning of operation. Labeler Codes are assigned by FDA and may be inactivated at any time upon violation of the Federal Food, Drug and Cosmetic Act.

Note that receipt of this letter is not to be construed as Federal Government endorsement or approval of the establishment or its products.

For additional information please visit Drug Registration and Listing System or reply back to this email (edrls@fda.hhs.gov).

EXPERIENCE

CORMEDIX INC. (NASDAQ: CRMD) (May 2022 – Present) **Berkley Heights, NJ**

Chief Executive Officer and Board Member

CEO and member of the board of directors for an emerging biotechnology company with a lead drug awaiting final FDA approval and a target indication for the prevention of bloodstream infections in catheterized hemodialysis patients.

AMNEAL PHARMACEUTICALS, INC (NYSE: AMRX) (2018 – May 2022) **Bridgewater, NJ**

Executive Vice President, Chief Commercial Officer

P&L responsibility for Amneal Specialty, the branded products division of Amneal Pharmaceuticals Inc. Amneal Specialty encompasses two specialty sales teams totaling more than 170 sales representatives and district managers in Neurology and Endocrinology, as well as another 30 employees engaged in business development, marketing, pricing, market access and back office commercial operations support. FY2020 net sales of $360 million, with strong sales growth in key promoted brands Rytary and Unithroid. 2021E net sales trending to ~$380mm. Delivered 14 consecutive quarters of revenue and EBITDA in excess of budgeted goals since 2018.

AMNEAL PHARMACEUTICALS FAMILY OF COMPANIES (2011 – 2018) **Bridgewater, NJ**

Senior Vice President, Global Strategy & International Operations, Amneal Pharmaceuticals LLC (2011-2018)

Responsible for creating and executing the global commercial business strategy for Amneal Pharmaceuticals, one of the fastest growing generic pharmaceutical companies in the United States from 2011-2018. Management oversight responsibility for the Corporate Development and M&A function, as well as P&L responsibility for Amneal's various International Commercial businesses, which comprised more than 100 employees and revenue over USD $140 million. Led Amneal-Impax merger negotiation, diligence and integration.

Co-Founder, CEO, Gemini Laboratories LLC (2013 – 2018)

Co-founded and led Gemini Laboratories LLC, a specialty pharmaceutical company focused on the sales and marketing of niche branded products in the US market. Established as an Affiliate of Amneal and subsequently acquired by Amneal simultaneously with Impax transaction May 7, 2018. Built business from inception, including state licensing, distribution, wholesaler agreements, hiring and training sales staff, and the in-license of the lead asset Unithroid from Jerome Stevens Pharmaceuticals. At the time of acquisition by Amneal, Gemini had 31 employees, 24 of which were sales representatives, and more than $50mm of LTM revenue and $25mm of LTM EBITDA.

RANBAXY, INC. (2007 – 2011) **Princeton, NJ**

Vice President, Business Development & Licensing

Responsible for developing and executing Ranbaxy's North American commercial business strategy in order to maximize region profitability by way of: (i) product in-licensing or acquisitions, (ii) repositioning of existing commercial assets, (iii) cost reduction and manufacturing efficiency initiatives, (iv) product selection for internal development, and (v) management of U.S. paragraph IV litigations and settlement negotiations.

PAR PHARMACEUTICAL, INC. (2003 – 2007) **Woodcliff Lake, NJ**

- ***Director – Business Development & Licensing (9/2004 – 4/2007)***
- ***Senior Project Manager – Scientific Affairs R &D (1/2004 – 9/2004)***
- ***Product Manager – Sales & Marketing (7/2003 – 1/2004)***
- ***Senior Business Development Analyst – Marketing & Business Development (3/2003 – 7/2003)***

Held a wide range of operating and strategy roles and was promoted rapidly throughout my tenure at the organization. Participated or led more than 25 transactions covering a broad range of deal types, including but not limited to, asset acquisitions, product in-licensing, divestitures and brand co-promotes. Experience encompassed both the brand and generic strategic business units.

OPPENHEIMER & COMPANY (2002 – 2003) **New York, NY**

Associate – Investment Banking

Performed financial analysis on a wide range of transaction types, including buy-side and sell side M&A engagements, PIPE financings, and initial public offerings. Experience encompassed multiple industries including pharmaceuticals, healthcare services, information technology and textile manufacturing.

MARSH & MCLENNAN COMPANIES (1998 – 2002) **New York, NY**

Analyst / Account Representative – Private Equity and M&A Services Group

Provided transactional support to Private Equity clients engaged in leveraged buy-out transactions. Support included a detailed risk assessment of the target company's insurance portfolio and liability risk.

Exhibit 99.1

CORMEDIX INC. ANNOUNCES REGULATORY AND MANUFACTURING UPDATES

Berkeley Heights, NJ – March 2, 2023 – CorMedix Inc. (Nasdaq: CRMD), a biopharmaceutical company focused on developing and commercializing therapeutic products for the prevention and treatment of life-threatening diseases and conditions, today announced updates related to the FDA compliance remediation activities at its primary contract manufacturing organization ("CMO") and heparin active pharmaceutical ingredient ("API") supplier, as well as updated timelines for potential resubmission of its New Drug Application ("NDA") under various scenarios. More specifically:

- CorMedix has been informed by its primary CMO ("CMO 1") that all corrective actions stemming from the FDA's June 2022 inspection have been completed and the CMO has provided to FDA documentation showing effectiveness of the corrective actions. The primary CMO awaits feedback from the Agency with respect to the compliance status of the facility.

- CorMedix has been informed by its existing supplier of heparin API ("API 1") that all corrective actions related to its June 2022 FDA Warning Letter for a non-heparin API have been completed and implementation is underway, however it is unclear to the Company based on recent FDA actions if full resolution of the outstanding warning letter would still be required prior to approving the DefenCath NDA with reference to API 1. The supplier has informed CorMedix that it has made updates to the US Heparin Drug Master File ("DMF") clarifying which activities take place at the site which is identified in the warning letter (early-stage processing) and which activities take place at a different FDA registered facility (final processing and release). The supplier has also informed CorMedix that subsequent to those updates, a supplement to an approved application referring to this DMF was recently approved by FDA. Based on this recent approval and the update to the DMF, it is possible that full resolution of the outstanding warning letter is no longer a barrier to FDA approval of the DefenCath NDA. The Company intends to seek confirmation from FDA on this issue as set out below.

Given the progress made by CMO 1 on remediation of the inspectional observations and the potential precedent created by FDA's approval of a supplement referencing the same heparin DMF utilized for DefenCath, the Company intends to submit a Type A meeting request seeking additional guidance from FDA prior to resubmission of the NDA application. The Company is in the process of compiling a briefing package and expects to submit this meeting request by mid-March. FDA typically decides whether to grant Type A meeting requests within 14 days and schedules the meeting within 30 days, however the Agency is not bound to this timeline.

Previously, the Company outlined three manufacturing pathways for resubmission and the targeted timelines for each. Based on today's updates, the Company is communicating revised timelines below for each pathway.

1. CMO 1 + API 1: This scenario potentially remains the fastest pathway to NDA resubmission and approval, provided FDA concurs that CMO 1 has remediated its compliance deficiencies and that the DMF for API 1 can be utilized prior to full resolution of the existing warning letter. CorMedix hopes to obtain guidance from FDA on these two important issues in a Type A meeting. The Company intends to resubmit the application as soon as possible following FDA's positive guidance on these two issues. Given that no new data would be contained in this resubmission, provided no additional site inspections are required, the Company believes this may be classified as a Class 1 submission with a 60-day review.

2. CMO 1 + API 2: The Company manufactured three validation batches in Q4 2022 at CMO 1 utilizing a new source of heparin API ("API 2"). The batches are still undergoing testing and analysis. Should those batches meet specifications, data for submission will be available in mid-April. The ability to resubmit utilizing this data requires FDA clearance of CMO 1. Given that this submission would include new manufacturing data, the Company would expect it to be classified as a Class 2 submission with a 6-month review. CorMedix intends to wait for FDA's guidance from the Type A meeting on pathway #1, prior to pursuing a submission with pathway #2.

3. CMO 2 + API 2: The Company previously guided to the availability of data for submission from an alternate CMO in the first half of 2023; however, due to delays in completing validation, these data are expected to be available by the end of the 3rd quarter of 2023. The Company remains focused on pathways #1 and #2 as its primary strategy, and currently intends to utilize pathway #3 as a back-up manufacturing site. In the event CorMedix elects to resubmit the NDA with pathway #3 as its primary manufacturing site, the Company would expect it to be classified as a Class 2 submission with a 6-month review.

CorMedix will provide additional clarity on these pathways on its year-end earnings call in March, and subsequent updates following its anticipated Type A meeting with FDA.

Joe Todisco, CorMedix CEO stated "I am encouraged by the solid progress made at both our existing CMO and existing heparin supplier toward resolving outstanding compliance deficiencies at their respective sites, as well as the potential precedent set by FDA in recently approving a supplement to an approved application referencing the heparin DMF. I look forward to obtaining FDAs guidance in a Type A meeting. CorMedix's goal is to obtain FDA approval of the DefenCath NDA as quickly as possible, and to do so we have created and strengthened multiple pathways to NDA resubmission. I am hopeful to have additional updates on our year-end earnings call or shortly thereafter."

About CorMedix

CorMedix Inc. is a biopharmaceutical company focused on developing and commercializing therapeutic products for the prevention and treatment of life-threatening conditions and diseases. The Company is focused on developing its lead product DefenCath™, a novel, antibacterial and antifungal solution designed to prevent costly and life-threatening bloodstream infections associated with the use of central venous catheters in patients undergoing chronic hemodialysis. DefenCath has been designated by FDA as Fast Track and as a Qualified Infectious Disease Product (QIDP), and the original New Drug Application (NDA) received priority review in recognition of its potential to address an unmet medical need. QIDP provides for an additional five years of marketing exclusivity, which will be added to the five years granted to a New Chemical Entity upon approval of the NDA. CorMedix also committed to conducting a clinical study in pediatric patients using a central venous catheter for hemodialysis when the NDA is approved, which will add an additional six months of marketing exclusivity when the study is completed. The Company received a Complete Response Letter (CRL) from FDA stating that the original NDA could not be approved until deficiencies at the contract manufacturing organization (CMO) were satisfactorily resolved. FDA notified the Company in a second CRL that the refiled NDA could not be approved until satisfactory resolution of facility deficiencies identified during a pre-approval inspection at and conveyed to the CMO and during an inspection for an unrelated active pharmaceutical ingredient at and conveyed to the manufacturing facility for the heparin supplier for DefenCath. While the CMO and heparin supplier work to resolve outstanding deficiencies, CorMedix is simultaneously working to transfer the technology to an additional CMO and qualify an additional supplier of heparin. CorMedix also intends to develop DefenCath as a catheter lock solution for use in other patient populations. The Company is also working with top-tier researchers to develop taurolidine-based therapies for rare pediatric cancers. For more information visit: www.cormedix.com.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that are subject to risks and uncertainties. All statements, other than statements of historical facts, regarding management's expectations, beliefs, goals, plans or CorMedix's prospects, CorMedix's plans to submit a resubmission of its NDA application for DefenCath and the timing of such submission; CorMedix's future financial position, financing plans, future revenues, projected costs and the sufficiency of our cash and short-term investments to fund our operations should be considered forward-looking. Readers are cautioned that actual results may differ materially from projections or estimates due to a variety of important factors, including: the ability of the CMO to address the deficiencies identified by the FDA; the ability of the Company's heparin supplier to address the manufacturing deficiencies identified in the warning letter for non-heparin API; the resources needed to secure approval of the NDA for DefenCath from the FDA; the risks and uncertainties of the relationships with the additional CMO and supplier of heparin; the ability to submit a supplement to CorMedix's NDA; the ability to secure final FDA approval prior to July 1, 2023 or obtain CMS approval of a resubmitted NTAP application; the risks and uncertainties associated with CorMedix's ability to manage its limited cash resources and the impact on current, planned or future research, including the continued development of DefenCath and research for additional uses for taurolidine; obtaining additional financing to support CorMedix's research and development and clinical activities and operations; preclinical results are not indicative of success in clinical trials and might not be replicated in any subsequent studies or trials; and the ability to retain and hire necessary personnel to staff our operations appropriately. We continue to assess to what extent the uncertainty surrounding the Coronavirus pandemic may impact our business and operations. These and other risks are described in greater detail in CorMedix's filings with the SEC, copies of which are available free of charge at the SEC's website at www.sec.gov or upon request from CorMedix. CorMedix may not actually achieve the goals or plans described in its forward-looking statements, and investors should not place undue reliance on these statements. CorMedix assumes no obligation and does not intend to update these forward-looking statements, except as required by law.

eDRLS - Electronic Drug Registration & Listing System

Current Date: 01-NOV-2022
Labeler DUNS: 605741409
Labeler Name: Mersana Therapeutics, Inc.
Labeler Code Assigned: 83082

The Food and Drug Administration (FDA) has assigned the above Labeler Code to your firm. **The number cannot be used until you have confirmed the assignment. Please revise and resubmit your Labeler Code Request SPL to include the assigned number above to complete the process. To do this, open the previous Labeler Code Request SPL file and fill in the new information (your assigned Labeler Code) without changing the other existing information. Fill in a new root id and new version number with the original set id and the appropriate effective time.**

For CDER Direct Users: Open the previously submitted and accepted Labeler Code Request, click Create New Version, enter the Labeler Code assigned in the field for "Labeler Code", and Submit SPL.

This Labeler Code should be used to create the NDC (National Drug Code) assigned to all drugs you manufacture or distribute for U.S. commercial distribution. The assignment of NDC is extensively discussed in Title 21 of Code of Federal Regulations (CFR) 207.35. The NDC for each drug must be submitted as part of drug listing information submitted to FDA. Per 21 CFR Part 207, owners or operators of an establishment entering into the manufacture or processing of a drug or drugs shall drug list, every drug in commercial distribution within 5 days after the beginning of operation. Labeler Codes are assigned by FDA and may be inactivated at any time upon violation of the Federal Food, Drug and Cosmetic Act.

Note that receipt of this letter is not to be construed as Federal Government endorsement or approval of the establishment or its products.

For additional information please visit Drug Registration and Listing System or reply back to this email (edrls@fda.hhs.gov).

Mersana
THERAPEUTICS

DESCRIPTION OF OPERATIONS

Mersana Therapeutics, Inc. ("Mersana") is a publicly held, Massachusetts-based, biopharmaceutical company specializing in the discovery and development of antibody-drug conjugate (ADC) therapies to treat patients fighting cancer.

THIRD-PARTY LOGISTICS

Mersana's products are manufactured by a contract manufacturer and distributed to customers by their third-party logistics provider, Integrated Commercialization Solutions, Inc.. Mersana utilizes the following facility for distribution of product:

Integrated Commercialization Solutions LLC.
420 International Boulevard
Brooks, Kentucky, 40109
614-205-6198
Krystal.Haynes@ICSconnect.com

CONTRACT MANUFACTURERS

Mersana uses the following contract manufacturer to produce product:

AndersonBrecon Inc. (dba PCI)
1635 New Milford School Road
Rockford, IL 61109
815-484-8967
FEIN: 3003015528

PRODUCTS

As a virtual manufacturer, Mersana does not manufacture, distribute or store product at their Massachusetts facility. At no time do contact manufacturers own Mersana's products, contract with Mersana's customers, invoice or sell Mersana products. Mersana's products are not controlled substances. Accordingly, Mersana is not required to maintain DEA registration.

The system will be offline for updates on Saturday 04/29/2023 from 8:00AM to 8:00PM.

Non-accelerated filer	☐	Smaller reporting company	☐
		Emerging growth company	☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report. ☒

Indicate by check mark whether the registrant is a shell company (as defined by Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

As of June 30, 2021, the last business day of the registrant's most recently completed second fiscal quarter, the aggregate market value of the registrant's common stock held by non-affiliates was $799,836,646, based on the last reported sale price of such stock on the Nasdaq Global Select Market as of such date.

As of February 25, 2022, the registrant had 83,389,806 shares of common stock outstanding at a par value $0.0001 per share.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the registrant's definitive proxy statement that will be filed for the 2022 Annual Meeting of Stockholders within 120 days of the end of the registrant's fiscal year ended December 31, 2021 are incorporated by reference in Part III of this Annual Report on Form 10-K to the extent stated herein.

REFERENCES TO MERSANA

Throughout this Annual Report on Form 10-K, the "Company," "Mersana," "we," "us," and "our," except where the context requires otherwise, refer to Mersana Therapeutics, Inc. and its consolidated subsidiary, and "our board of directors" refers to the board of directors of Mersana Therapeutics, Inc.

FORWARD LOOKING STATEMENTS AND INDUSTRY DATA

This Annual Report on Form 10-K contains forward-looking statements. Forward-looking statements are neither historical facts nor assurances of future performance. Instead, they are based on our current beliefs, expectations and assumptions regarding the future of our business, future plans and strategies, our clinical results and other future conditions. The words "aim," "anticipate," "believe," "contemplate," "continue," "could," "estimate," "expect," "goal," "intend," "may," "on track," "plan," "possible," "potential," "predict," "project," "seek," "should," "target," "will," "would" or the negative of these terms or other similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words.

These forward-looking statements include, among other things, statements about:

- the initiation, cost, timing, progress and results of our current and future research and development activities, preclinical studies and clinical trials;
- the adequacy of our inventory of upifitamab rilsodotin (UpRi) and XMT-1592 to support our ongoing clinical trials, as well as the outcome of planned manufacturing runs;
- the timing of, and our ability to obtain and maintain, regulatory approvals for our product candidates;
- unmet need of ovarian cancer and non-small cell lung cancer;
- our ability to quickly and efficiently identify and develop additional product candidates;
- our ability to advance any product candidate into, and successfully complete, clinical trials;
- our intellectual property position, including with respect to our trade secrets;
- the potential benefits of strategic partnership agreements and our ability to enter into selective strategic partnerships;
- our estimates regarding expenses, future revenues, capital requirements, the sufficiency of our current and expected cash resources and our need for additional financing; and
- the potential impact of the ongoing COVID-19 pandemic.

We may not actually achieve the plans, intentions or expectations disclosed in our forward-looking statements, and you should not place undue reliance on our forward-looking statements. Actual results or events could differ materially from the plans, intentions and expectations disclosed in the forward-looking statements we make. We have included important factors in the cautionary statements included in this Annual Report on Form 10-K, particularly in the "Risk factors" section, that we believe could cause actual results or events to differ materially from the forward-looking statements that we make. Our forward-looking statements do not reflect the potential impact of any future acquisitions, mergers, dispositions, joint ventures or investments we may make.

In addition, the COVID-19 pandemic could adversely affect our preclinical and clinical development efforts, business operations and financial results. The extent of the impact and the value of and market for our common stock will depend on future developments that are highly uncertain and cannot be predicted with confidence at this time, such as the ultimate duration of the pandemic, the emergence of new variants of the virus, travel restrictions, quarantines, physical distancing and business closure requirements in the United States and in other countries, and the effectiveness of actions taken globally to contain and treat the disease.

The forward-looking statements contained herein represent our views as of the date of this Annual Report on Form 10-K and we do not assume any obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law. We anticipate that subsequent events and developments will cause our views to change. You should, therefore, not rely on these forward-looking statements as representing our views as of any date subsequent to the date of this Annual Report on Form 10-K.

This Annual Report on Form 10-K may include industry and market data, which we may obtain from our own internal estimates and research, as well as from industry and general publications and research, surveys, and studies conducted by third parties. Industry publications, studies, and surveys generally state that they have been obtained from sources believed to be reliable, although they do not guarantee the accuracy or completeness of such information. While we believe that such studies and publications are reliable, we have not independently verified market and industry data from third-party sources.

SUMMARY OF RISK FACTORS

Our business is subject to varying degrees of risk and uncertainty. Investors should consider the risks and uncertainties summarized below, as well as the risks and uncertainties discussed in Part I, Item 1A, *Risk Factors* of this Annual Report on Form 10-K.

Our business is subject to the following principal risks and uncertainties:

- We have incurred net losses since our inception, we have no products approved for commercial sale and we anticipate that we will continue to incur substantial operating losses for the foreseeable future.
- We will require substantial additional financing to achieve our goals, and a failure to obtain this necessary capital when needed could force us to delay, limit, reduce or terminate our product development or commercialization efforts.
- We have a credit facility that places certain restrictions on our operating and financial flexibility.
- We face substantial competition, which may result in others discovering, developing or commercializing products before, or more successfully than, we do.
- We only have two product candidates, upifitamab rilsodotin (UpRi) and XMT-1592, in clinical trials. A failure of any of our product candidates in clinical development could adversely affect our business and may require us to discontinue development of other product candidates based on the same technology.
- We can provide no assurance that our clinical product candidates will obtain regulatory approval or that the results of clinical trials will be favorable.
- Drug discovery and development is a complex, time-consuming and expensive process that is fraught with risk and a high rate of failure. We can provide no assurance of the successful and timely development of new antibody drug conjugate, or ADC, products.
- If we fail to attract and retain senior management and key scientific personnel, we may be unable to successfully develop our product candidates, conduct our clinical trials and commercialize our product candidates.
- We may encounter difficulties in managing our growth and expanding our operations successfully.
- Our activities, including our interactions with healthcare providers, third party payors, patients and government officials, are, and will continue to be, subject to extensive regulation involving health care, anti-corruption, data privacy and security and consumer protection laws. Failure to comply with applicable laws could result in substantial penalties, contractual damages, reputational harm, diminished revenues and curtailment or restructuring of our operations.
- We rely upon patents and other intellectual property rights to protect our technology. We may be unable to protect our intellectual property rights, and we may be liable for infringing the intellectual property rights of others.
- Our business is subject to risks arising from the outbreaks of disease, such as epidemics or pandemics, including the COVID-19 pandemic.

Table of Contents

ITEM 1. BUSINESS

Overview

We are a clinical-stage biopharmaceutical company focused on developing antibody drug conjugates, or ADCs, that offer a clinically meaningful benefit for cancer patients with significant unmet need. We have leveraged over 20 years of industry learning in the ADC field to develop proprietary and differentiated technology platforms that enable us to develop ADCs designed to have improved efficacy, safety and tolerability relative to existing ADC therapies.

We believe that our innovative platforms, including Dolaflexin and Dolasynthen, delivering our proprietary auristatin DolaLock payload, as well as Immunosynthen, which delivers our novel proprietary stimulator of interferon genes, or STING, agonist ImmunoLock payload, together comprise a highly efficient product engine that has enabled a robust discovery pipeline for us and our partners. Our ADCs in preclinical studies and clinical trials include first-in-class molecules that target multiple tumor types with high unmet medical need. Our belief is that our novel ADCs may have more favorable safety and efficacy compared to more traditional existing ADCs developed using first-generation technology.

We have assembled a management team with extensive and relevant experience, including specific ADC experience, from prior work at leading pharmaceutical companies such as Millennium Pharmaceuticals, Inc., Takeda Pharmaceuticals, Inc., Bayer AG, Tesaro, Inc., Vertex Pharmaceuticals Inc., Cubist Pharmaceuticals Inc., Bristol Myers Squibb, Constellation Pharmaceuticals, Inc., Sanofi S.A., GlaxoSmithKline plc, Centocor Inc., Sunovion Pharmaceuticals Inc. and Momenta Pharmaceuticals, Inc. We are supported by our board of directors and scientific advisory board, who offer complementary experience in drug discovery and development, as well as expertise in building public companies, management and business development. We believe that our highly differentiated platforms, together with the team we have assembled, position us well to discover and develop life-changing ADCs for patients fighting cancer.

Strategy

Our goal is to become a leading oncology company by leveraging the potential of our innovative and differentiated ADC technologies and the experience and competencies of our management team to discover and develop promising ADC product candidates and to commercialize cancer therapeutics that address unmet medical needs or provide significant benefit to patients. Key components of our strategy to achieve this goal are as follows:

- **Strive to Build UpRi (upifitamab rilsodotin) into a Foundational Medicine in Ovarian Cancer.** Our lead product candidate, upifitamab rilsodotin, which we refer to as UpRi, is a first-in-class Dolaflexin ADC targeting NaPi2b, an antigen broadly expressed in ovarian cancer and other cancers. We are currently evaluating UpRi in platinum-resistant ovarian cancer in a single-arm registrational trial, which we refer to as UPLIFT, for which we expect to complete enrollment in the third quarter of 2022. We are also conducting a Phase 1/2 umbrella combination trial, which we refer to as UPGRADE. The first combination we are exploring is the combination of UpRi with carboplatin, a standard platinum chemotherapy broadly used in the treatment of platinum-sensitive ovarian cancer. We may explore other combinations in the future. We expect to report interim data from UPGRADE in the second half of 2022. In the second quarter of 2022, we expect to initiate enrollment in a randomized placebo-controlled Phase 3 trial, which we refer to as UP-NEXT, to evaluate UpRi as single agent maintenance treatment in patients with platinum-sensitive ovarian cancer that have high NaPi2b expression. Together, data from these trials have the potential to establish the safety and efficacy of UpRi across a wide range of ovarian cancer patients, from those who are platinum-resistant and heavily pre-treated to those in earlier lines of the disease.

- **Strive to Build Out Our Pipeline of Highly Impactful Cancer Medicines.** Our second clinical candidate, XMT-1592, is a NaPi2b- targeted ADC leveraging our Dolasynthen platform. Our strategy is to explore XMT-1592 as an alternative to UpRi in lung and non-small cell lung adenocarcinoma based on preclinical differentiation. We are conducting a Phase 1 dose exploration trial in patients with ovarian cancer and non-small cell lung cancer, or NSCLC, which we expect to complete in the second half of 2022. Additionally, we are advancing XMT-1660, a Dolasynthen ADC targeting B7-H4, an antigen selectively expressed on tumors in areas of high unmet medical need including breast, endometrial and ovarian cancers. We expect to initiate a phase 1 clinical trial of XMT-1660 in solid tumors in mid-2022. Moreover, we have taken ADCs beyond cytotoxics by developing our Immunosynthen platform which may allow tumor-targeted activation of the innate immune system. XMT-2056, an ADC targeting a novel HER2 epitope that is different from those targeted by currently available HER2 therapies, is our first product candidate based on our Immunosynthen STING-agonist platform. We expect to initiate a Phase 1 clinical trial of XMT-2056 in solid tumors in mid-2022. We believe that each of XMT-1660 and XMT-2056 may provide opportunities in areas of high unmet need including, without limitation, breast cancer and other tumor types.

- **Strive to Build Innovation and Scientific Leadership in ADCs.** We intend to establish a leading position in the field of ADCs by continuing to advance platform innovations that further broaden the potential for our ADCs to be first and best in class medicines that deliver clinically meaningful benefit to cancer patients and by pursuing fast-to-market opportunities in areas of high unmet medical need. In addition to the product candidates described above, we also have two earlier stage preclinical candidates, which we refer to as XMT-2068 and XMT-2175, both of which leverage our Immunosynthen platform and target tumor-associated antigens.

- **Strive to Build Mersana as a Top Employer and Strategic Partner.** We aim to attract and retain talented team members with deep experience in drug discovery, development, manufacturing, and commercialization as well as in general business and administration. Our team is driven by a shared passion to advance therapies that make a significant difference in the lives of cancer patients. We will continue to cultivate the collaborative and passionate workplace culture that has allowed us to advance this mission. We also aim to leverage our technical expertise and experience with respect to our innovative and diversified platforms, Dolaflexin, Dolasynthen and Immunosynthen, to attract and cultivate strategic partnerships that facilitate our ability to bring differentiated product candidates to patients. We have established strategic research and development partnerships with Janssen Biotech, Inc., or Janssen, and Merck KGaA for the development and commercialization of additional ADC product candidates leveraging our proprietary Dolasynthen and Dolaflexin platform technologies against a limited number of targets selected by our partners. We believe the potential of our ADC technologies, supported by our scientific and technical expertise and enabled by our intellectual property strategy, all support our independent and collaborative efforts to discover and develop life-changing ADCs for patients fighting cancer.

Our current pipeline is summarized in the chart below:

*NaPi2b antibody used in UpRi (formerly XMT-1536) and XMT-1592 is in-licensed from Recepta Biopharma. Recepta has rights to commercialize UpRi and XMT-1592 in Brazil
**EMD Serono is an affiliate of Merck KGaA

ADC Background

ADCs are a validated therapeutic modality in oncology with 11 products approved for use by the Food and Drug Administration, or the FDA, and over 100 being tested in clinical trials. We believe that the field has not yet realized its full potential because first generation ADCs have several limitations and platform innovation has been limited.
