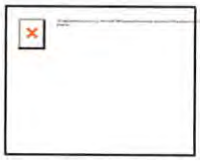
6. If this order is granted under the provisions of Penal Code section 1203.4 or 1203.41:
   a. The petitioner is required to disclose the above conviction in response to any direct question contained in any questionnaire or application for public office, or for licensure by any state or local agency, or for contracting with the California State Lottery Commission.
   b. Dismissal of the conviction does not *automatically* relieve petitioner from the requirement to register as a sex offender. (See, e.g., Pen. Code, § 290.5.)

7. If the order is granted under the provisions of Penal Code section 1203.49, the Department of Justice is hereby notified that the petitioner was a victim of human trafficking when he or she committed the crime, and the relief ordered.

In any subsequent prosecution of the petitioner for any other offense, the prior conviction may be pleaded and proved and shall have the same effect as if probation had not been granted or the accusation or information dismissed. The dismissal does not permit a person to own, possess, or have in his or her control a firearm if prevented by Penal Code sections 29800 or 29900 (formerly sections 12021 and 12021.1). Dismissal of a conviction does not permit a person prohibited from holding public office as a result of that conviction to hold public office.



9. In addition, as required by Penal Code section 299(f), relief under Penal Code sections 17(b), 17(d)(2), 1203.4, 1203.4a, 1203.41, or 1203.49 does *not* release petitioner from the separate administrative duty to provide specimens, samples, or print impressions under the DNA and Forensic Identification Database and Data Bank Act (Pen. Code, § 295 et seq.) if petitioner was found guilty by a trier of fact, not guilty by reason of insanity, or pled no contest to a qualifying offense as defined in Penal Code section 296(a).

|---|---|---|

# I. PURPOSE AND SCOPE

This procedure outlines how the pharmacy ensures cleaning, disinfection, and monitoring of controlled air environments are completed in accordance with the current version of USP Chapter 797 and in accordance with individual state boards of pharmacy requirements.

# II. RESPONSIBILITIES

| Role | Responsibility |
|---|---|
| VP of Pharmacy Operations | Ensures the Pharmacist in Charge (PIC) is trained on this procedure. |
| Pharmacist in Charge (PIC) | Ensures all applicable personnel are trained and adhere to this procedure. |
| Pharmacy Manager(s) / Supervisor(s) | Assumes the role of the PIC in their absence. |
| Operations Management | In conjunction with the PIC, ensures all applicable personnel are trained and adhere to this procedure. |
| Pharmacist(s) & Pharmacy Technician(s) | Adhere to this procedure. |

# III. DEFINITIONS

| Term | Definition |
|---|---|
| Air Changes Per Hour (ACPH) | A measure of the air volume added to or removed from a space divided by the volume of the space. |
| Ante-Room (Non-hazardous) | An ISO Class 8 or cleaner room with fixed walls where personnel hand hygiene, garbing procedures, and other activities that generate high particulate levels may be performed. The ante-room is the transition room between the unclassified area of the facility and the buffer room. |
| Buffer Room | An ISO Class 7 or cleaner room with fixed walls and doors where PEC(s) that generate and maintain and ISO Class 5 environment are physically located. The buffer room may only be accessed through the ante-room. |
| Cleaning | The process of removing soil (e.g., organic and inorganic material) from objects and surfaces, normally accomplished by manually or mechanically using water with detergents or enzymatic products. |
| Cleaning Agent | An agent for the removal of residues (e.g., dirt, debris, microbes, and residual drugs or chemicals) from surfaces. |
| Colony Forming Unit (CFU) | A unit used to estimate the concentration of microorganisms in a test sample. |
| Disinfectant | A chemical or physical agent used on inanimate surfaces and objects to destroy fungi, viruses, and bacteria. Sporicidal disinfectant agents are considered a special class of disinfectants that also are effective against bacterial and fungal spores. |
| Disinfection | The process of inhibiting or destroying microorganisms. |
| Garb | See personal protective equipment (PPE). |
| High Efficiency Particulate Air Filtration (HEPA) | An extended medium, dry type filter in a rigid frame, having a minimum particle collection efficiency of 99.97% for particles with a mass median diameter of 0.3 µm when tested at a rated airflow in accordance with MIL STD 282 using IEST Recommended Standard RP-CC001.5. |

| Term | Definition |
|---|---|
| ISO Class | An air quality classification from the International Organization for Standardization. |
| Personal Protective Equipment (PPE) | Items such as gloves, gowns, respirators, goggles, face shields, and others that protect individual workers from hazardous physical or chemical exposures. |
| Primary Engineering Control (PEC) | A device or zone that provides an ISO Class 5 air quality environment for sterile compounding. |
| Secondary Engineering Control (SEC) | The area where the PEC is placed (e.g., a cleanroom suite). It incorporates specific design and operational parameters required to minimize the risk of contamination within the compounding area. |
| Standard Operating Procedure (SOP) | Established or prescribed methods to be followed routinely for the performance of designated operations or in designated situations. For pharmacy facilities this term includes policies, procedures, work instructions, and forms. |
| United States Pharmacopeia (USP) | Organization that publishes content with a mission to improve global health through public standards and related programs that help ensure the quality, safety, and benefit of medicines and foods. Monographs for drug substances, dosage forms, and compounded preparations are contained in the USP. Monographs for dietary supplements and ingredients appear in a separate section of the USP. |

# IV. PROCEDURE

1. Cleaning and Disinfection
    A. Cleaning supplies used in sterile compounding environments must be non-shedding and dedicated for use in the buffer room and ante-room.
    B. Cleaning agents, disinfectants including disinfectants containing sporicidal agents used in sterile compounding environments should be dedicated for use in the buffer room and ante-room.
        i. Disinfectants including disinfectants containing sporicidal agents should be rotated periodically
        ii. Disinfectants including those with sporicidal agents will be used based on the frequency specified in site specific cleaning logs.
        iii. Disinfectants including those with sporicidal agents should be applied with adequate dwell time on surfaces per manufacturer's instructions.
        iv. Isopropyl alcohol used in all controlled air environments must be sterile.

                i. Cleaning and disinfection should occur from cleanest to dirtiest areas (i.e., top to bottom and back to front)
                ii. Documented daily on facility specific cleaning log.

ii. Buffer Rooms and Ante-rooms
    a. Carts are to be cleaned and disinfected before and after use as follows:
        i. If the cart stays in the controlled environment area sterile 70% isopropyl alcohol should be used to clean and disinfect.
        ii. If the cart leaves the controlled environment area and reenters, sporicidal should be used to clean and disinfect.

  e. Document monthly cleaning and disinfection completion on facility log.

2. Certification of Engineering Controls
  A. Primary and secondary engineering controls (also known as ISO areas) must be certified by an authorized service provider every six (6) months.
  B. In addition, these engineering controls must also be certified by an authorized service provider after facility maintenance and equipment maintenance.
  C. Certification must include:
    i. Viable and nonviable particle sampling
      a. Viable particle sampling must include testing for bacteria and fungus.
    ii. HEPA filter integrity
    iii. Air exchanges
    iv. Differential pressure
    v. Vapor profiles both static and dynamic
  D. Documentation from the certification of engineering controls must be provided by the authorized service provider to the PIC or other designated supervising personnel.
    i. The PIC or other designated supervising personnel will review the certification results to ensure the controlled environments comply with the proper air cleanliness, room pressures, and ACPHs.
      a. Any results that indicate the engineering controls are not maintaining proper environments must be remediated prior to allowing sterile compounding to commence.
    ii. Certification records must be filed either in electronic or hard copy format per Record Retention for Pharmacy Documents Work Instruction.

3. Monitoring and Recording of Differential Pressures
    A. Sterile compounding is performed in a PEC situated in an ISO Class 7 or better buffer room and minimum differential pressure of 0.02 to 0.05-inch water column.
        i. Laminar air flow hoods should remain on 24 hours a day.
        ii. If turned off for any reason, the laminar air flow hood must be turned on and allowed to run for at least 30 minutes and thoroughly cleaned prior to compounding.
    B. The pressure between the ISO Class 7 or better buffer room and the general pharmacy area must not be less than 0.02-inch water column.
    C. Documenting of pressure differentials will occur by a continuous recording device.
        i. Notify the PIC or other designated supervising personnel if the pressure differential is out of range.
4. Viable Air Sampling
    A. Every 6 months an approved third-party vendor will complete viable air sampling.
        i. The PIC and other designated supervising personnel must approve the testing plan by the third-party vendor prior to the testing start.
    B. Viable air sampling includes sterile ISO areas, pressure monitoring, dynamic and static air flow testing, and surface sampling. The third-party vendor will provide the following program testing information in the final report provided to the pharmacy:
        i. Definition of sampling locations
        ii. Method of collection
        iii. Volume of air sampled
        iv. Activity in the compounding area during sampling
        v. Results of all testing.
    C. These documented results will be reviewed by the PIC or other designated supervising personnel.
    D. If testing does not meet acceptable limits as stated in item 5 below, remediation steps must be completed, and retesting must be completed prior to allowing sterile compounding to commence.
5. Viable Air Sampling Identification and Remediation
    A. Results that present any counts of colony forming units (CFUs) will initiate further review and speciation analysis by an appropriate credentialed laboratory.
    B. Microbial bioburden will be captured as a CFU using an impaction air sampler.
    C. Results for the speciation analysis will be submitted to the PIC and other designated supervising personnel.
    D. Corrective actions will be dictated by the identification of the microorganism recovered. Corrective actions include:
        i. Closure of the sterile compounding area(s) for cleaning.
        ii. Resampling performed with a passing result within acceptable limits.
    E. Highly pathogenic microorganisms (e.g., gram negative rods, coagulase positive staphylococcus, molds, and yeasts) must be immediately remedied with the assistance of a microbiologist, infection control professional or industrial hygienist.
6. Surface Sampling Program and Action Level Requirements
    A. Samples must be taken from the following areas: PECs, buffer room, ante-room, and mixing room.
        i. Surface sampling program will be performed per pharmacy specific SOP Sterile Compounding Surface Sampling Work Instruction.

B. Samples will be taken at least monthly.
C. Document results of surface samples on appropriate form.
D. Notify the PIC or other designated supervising person if CFUs exceed the following limits:
    i. CFU>0 Initial three gloved fingertip tests, see SOPs on Sterile Compounding Training & Competency Program for additional details.
    ii. CFU> 3 Fingertips
    iii. CFU> 3 for ISO Class 5
    iv. CFU> 5 for ISO Class 7
    v. CFU>100 for ISO Class 8
E. If CFUs exceed the acceptable limits as stated above, a thorough cleaning and/or review of aseptic technique and manipulative skills and/or appropriate review of disinfecting of non-sterile components when introducing them into the clean room should be performed and documented on the appropriate facility specific form. To validate, implement, take corrective action, and make any improvements or changes to procedures, surface testing is to be performed every week for three consecutive weeks, then at least monthly.

| United States Pharmacopeia (USP) | Organization that publishes content with a mission to improve global health through public standards and related programs that help ensure the quality, safety, and benefit of medicines and foods. Monographs for drug substances, dosage forms, and compounded preparations are contained in the USP. Monographs for dietary supplements and ingredients appear in a separate section of the USP. |
| Validation | The action of checking or proving the validity or accuracy of something. Establishment of documented evidence that a method, process, or system meets its intended requirements. |
| Verification | The process of establishing the proof of something. Confirmation that an established method, process, or system meets predetermined acceptance criteria. |

## IV. PROCEDURE

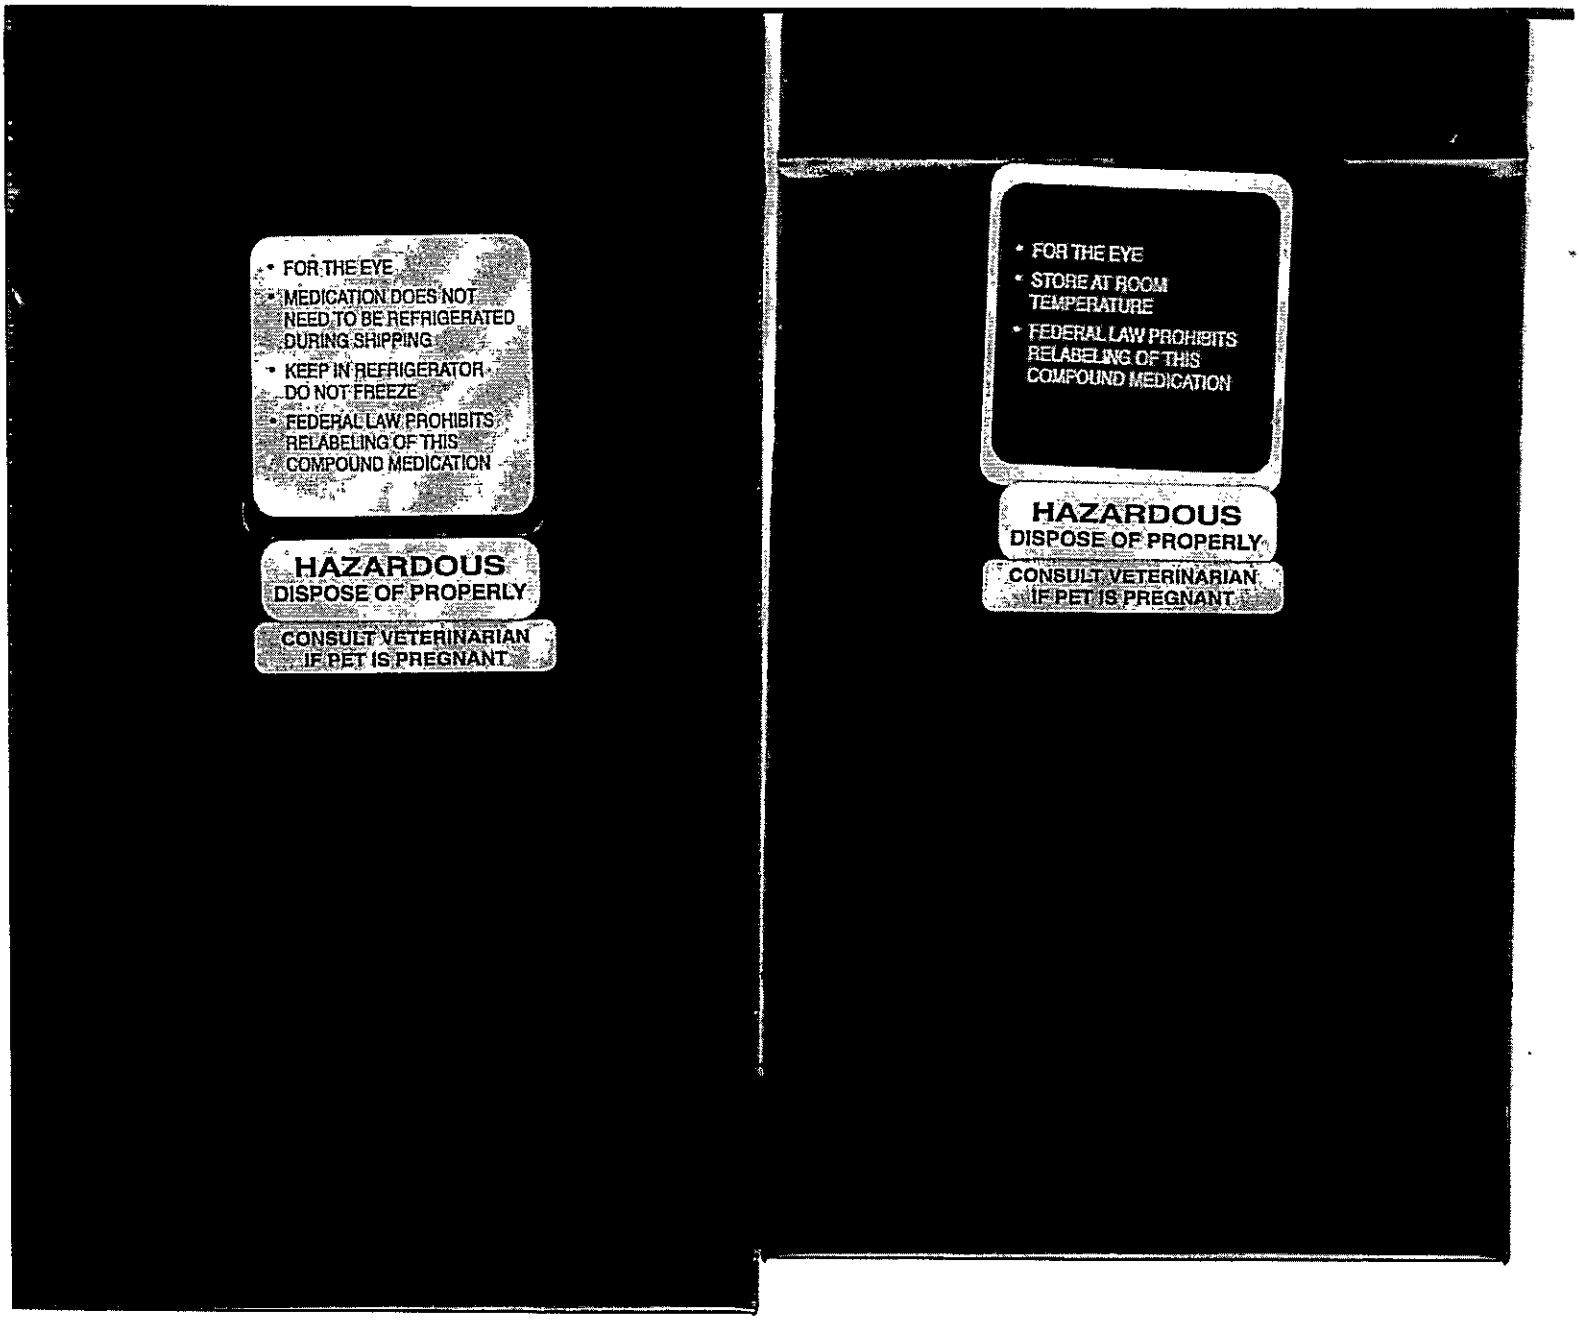
1. Pharmacies will ensure that pharmaceuticals and compounded preparations are maintained under appropriate conditions of sanitation, light, and temperatures in the course of deliveries.
    A. Temperatures to be included are:

i. Room temperature, 20°-25°C (68°-77°F)
ii. Refrigerated, 2°-8°C (36°-46°F)

B. Pharmacies will maintain the above storage conditions in accordance with manufacturer, USP, and/or other applicable requirements by utilizing secondary containers and packing materials, including but not limited to:
   i. Coolers
   ii. Gel packs, both frozen and room temperature
   iii. Resealable plastic bags
   iv. Amber resealable plastic bags
   v. Heat sealed plastic bags
   vi. Thermopod envelopes
   vii. Padded envelopes
   viii. Bubble wrap
   ix. Packing paper
   x. Cardboard boxes
   xi. Air pillows
   xii. Tape
C. Pharmaceuticals will be dispensed in the original manufacturers packaging when possible. If this is not an option, the medication will be dispensed in USP approved containers.
   i. Drug monographs will be used to determine appropriate shipping requirements.
      a. If shipping requirements cannot be determined utilizing drug monographs, the package inserts may be used to determine appropriate shipping requirements. If warranted the manufacturer will be contacted to determine appropriate shipping requirements.
         i. Documentation will be requested and kept on file if provided by the manufacturer.
D. Compounded preparations will be dispensed and shipped based on information from drug monographs or supporting beyond use date (BUD) data found on the master formulation records (MFR).
E. See work instructions for specific packing and shipping steps.
   i. A monthly audit of packing and shipping will be completed to ensure proper steps were used to maintain integrity of the items during transport to the client/patient.
      a. This audit will be documented in Qualityze, and results given to the QAA or Designee for trending and reporting in the monthly PI meeting.
      b. A random combination of ten packages will be pulled from the shipping station.
      c. Auditor will open all packages and validate that the correct items were included, and proper packing techniques were utilized.
      d. Any non-conformances (NC) found will be reviewed with the warehouse/shipping associate and will be fixed prior to continuing with the shipment.
         i. Non-conformances with corresponding corrective action/preventative action should be documented in Qualityze.
         ii. Retraining will be completed when necessary.
      e. QAA or Designee will trend and report on results in monthly PI meeting.

2. Pharmacies educate the client/patient on the appropriate conditions of storage for pharmaceuticals and compounded preparations in the home environment.

A. When necessary, the pharmacist will provide guidance to ensure that appropriate conditions are achieved or maintained.
B. The pharmacy will provide clients/patients with medication guides for pharmaceuticals, when applicable, that will outline appropriate conditions of storage.
C. For compounded preparations, auxiliary stickers will be placed on the compounded preparation for those items that require special conditions of storage in the home environment.



3. The shipping system utilized will be tested periodically under the typical conditions that the pharmacy shipments experience (i.e., extreme summer heat and winter cold). The testing will take into consideration initial medication start temperature, payload size/weight, types of used insulation, thickness of insulation, weight of gel packs, gel packs start temperature, and various ambient temperatures experienced by the package in transit with the goal of keeping the medication within specified temperature requirements.
   A. The pharmacy will complete quarterly verifications for room temperature and refrigerated medications.
      i. See work instructions for steps for completing quarterly verifications.
   B. If testing indicates a change in packing or shipping methods is needed, adjustments will be completed.
   C. In addition to the quarterly testing, client/patient complaints or grievances will be monitored and trended monthly by QAA or Designee.
      i. Any increasing trends noted in medication integrity due to extreme shipping conditions will be evaluated and modifications of packing parameters will be made as needed based on identified trends.

ALABAMA STATE BOARD OF PHARMACY

By: Donna C. Yeatman
Executive Secretary

EXHIBIT A

BEFORE THE KANSAS BOARD OF PHARMACY

In the Matter of

Nicholas Kirkpatrick

License No. 1-106207

Case No. 20-224

## SUMMARY ORDER

NOW, on this 30th day of July 2020, comes before the Kansas Board of Pharmacy (the "Board"), through its Executive Secretary, the matter of Nicholas Kirkpatrick ("Respondent").

Pursuant to the authority granted to the Board by the Kansas Pharmacy Act, K.S.A. 65-1625, *et seq*., and in accordance with the Kansas Administrative Procedure Act, K.S.A. 77-501, *et seq*., the Board's Executive Secretary enters this Summary Order in the above-captioned matter. After reviewing the investigation materials and being otherwise duly advised in the premises, the Board makes the following findings, conclusions and order:

### FINDINGS OF FACT

1. The Board has previously issued Respondent License No. 1-106207 which entitles Respondent to practice as a pharmacist in the State of Kansas.

2. On May 28, 2020, Respondent resigned as Pharmacist-in-Charge ("PIC") from Tailor Made Compounding (22-108376), effective immediately.

3. On June 26, 2020, the Board received a Change in PIC Form BA-50, notifying of the resignation of Respondent as PIC effective May 28, 2020.

4. On or about July 9, 2020, the Board processed the PIC change.

## CONCLUSIONS OF LAW

1. Pursuant to K.S.A. 65-1658, the Board may assess a civil fine not to exceed $5,000, after notice and an opportunity to be heard, to any registrant for violation of the pharmacy act of the state of Kansas or any other rules or regulations of the state board of pharmacy.

2. Pursuant to K.A.R. 68-2-5, each pharmacist shall notify the board in writing within five days of ceasing to serve as the pharmacist-in-charge at a pharmacy or registrant required to have a pharmacist-in-charge. The notice shall include the pharmacist's name, the name and address of the pharmacy or registrant, and the date the pharmacist ceased to serve as the pharmacist-in-charge.

3. Respondent had five days to notify the Board of his resignation as PIC effective [illegible] 28, 2020, or until June 2, 2020.

4. Respondent failed to notify the Board of his resignation as PIC until June 26, 2020 - twenty-four (24) days past the deadline.

5. Respondent violated K.A.R. 68-2-5 by failing to notify the Board of his resignation as PIC within five days.

## ORDER

Based upon the foregoing findings of fact and conclusions of law, Respondent is ordered to pay a fine to the Board. A violation of K.A.R. 68-2-5 warrants a base fine of $5.00 per day that Respondent is in violation of the regulation, not to exceed $200.00. Because Respondent provided notice to the Board twenty-four (24) days past the deadline, the total fine is $120. Respondent has 30 days from the date of this order to pay the fine.

NOTICES

The Respondent is hereby notified as follows:

Case No. 20-224

## SUMMARY ORDER

NOW, on this 30th day of July 2020, comes before the Kansas Board of Pharmacy (the "Board"), through its Executive Secretary, the matter of Nicholas Kirkpatrick ("Respondent").

Pursuant to the authority granted to the Board by the Kansas Pharmacy Act, K.S.A. 65-1625, *et seq.*, and in accordance with the Kansas Administrative Procedure Act, K.S.A. 77-501, *et seq.*, the Board's Executive Secretary enters this Summary Order in the above-captioned matter. After reviewing the investigation materials and being otherwise duly advised in the premises, the Board makes the following findings, conclusions and order:

### FINDINGS OF FACT

1. The Board has previously issued Respondent License No. 1-106207 which entitles Respondent to practice as a pharmacist in the State of Kansas.

2. On May 28, 2020, Respondent resigned as Pharmacist-in-Charge ("PIC") from Tailor Made Compounding (22-108376), effective immediately.

3. On June 26, 2020, the Board received a Change in PIC Form BA-50, notifying of the resignation of Respondent as PIC effective May 28, 2020.

4. On or about July 9, 2020, the Board processed the PIC change.

## CONCLUSIONS OF LAW

1. Pursuant to K.S.A. 65-1658, the Board may assess a civil fine not to exceed $5,000, after notice and an opportunity to be heard, to any registrant for violation of the pharmacy act of the state of Kansas or any other rules or regulations of the state board of pharmacy.

2. Pursuant to K.A.R. 68-2-5, each pharmacist shall notify the board in writing within five days of ceasing to serve as the pharmacist-in-charge at a pharmacy or registrant required to have a pharmacist-in-charge. The notice shall include the pharmacist's name, the name and address of the pharmacy or registrant, and the date the pharmacist ceased to serve as the pharmacist-in-charge.

3. Respondent had five days to notify the Board of his resignation as PIC effective May 28, 2020, or until June 2, 2020.

4. Respondent failed to notify the Board of his resignation as PIC until June 26, 2020 – twenty-four (24) days past the deadline.

5. Respondent violated K.A.R. 68-2-5 by failing to notify the Board of his resignation as PIC within five days.

## ORDER

Based upon the foregoing findings of fact and conclusions of law, Respondent is ordered to pay a fine to the Board. A violation of K.A.R. 68-2-5 warrants a base fine of $5.00 per day that Respondent is in violation of the regulation, not to exceed $200.00. Because Respondent provided notice to the Board twenty-four (24) days past the deadline, the total fine is $120. Respondent has 30 days from the date of this order to pay the fine.

## NOTICES

The Respondent is hereby notified as follows:

1. The Respondent may request a hearing pursuant to the Kansas Administrative Procedure Act by filing a written request with the Kansas Board of Pharmacy, 800 SW Jackson, Suite 1414, Topeka, KS 66612-1231 within fifteen (15) days after service of this order.

2. If a hearing is not requested as described above, the Order shall become a final order of the Board, effective upon the expiration of the time to request a hearing.

3. Within fifteen (15) days after entry of a final agency order, either party may file a petition for reconsideration pursuant to K.S.A. 77-529.

4. Within the time limits established in K.S.A. 77-613, either party may seek judicial review of a final agency order, pursuant to said statute. The agency officer designated to receive service of a petition for judicial review is:

*Post compounding visual inspection should be done promptly after compounding has been completed and prior to labeling. Post-compounding inspection consists of: particulate inspection, container closure inspection, and other apparent defects inspection. Pharmacists performing post compounding visual inspection must be adequately trained in visual inspection, particularly pertaining to the detection of visible foreign particulate matter.*

- *Particulate inspection-CSPs should be essentially free from visible foreign particulate matter. The presence of particulates should be assessed by placing the vial under a bright, high-intensity light against a black and a white background for a minimum of 5 seconds per background. Minimal agitation should be used to suspend and visualize any particulates through a combination of gentle inversion and gentle swirling. Care must be taken to avoid the production of air bubbles as this significantly hinders detection of particulates. Vials that contain visible foreign particulate matter shall be rejected. Particulate inspection should be done in a manner that allows for sufficient breaks to prevent eye-strain and facilitate particulate detection.*
    - *Key Aspects of particulate inspection:*
        - *100% inspection*
        - *High intensity light*
        - *Black and white background; 5 seconds minimum per background*
        - *Gentle inversion/swirling; minimal air bubbles*
        - *Rejection of all vials containing visible particulates*
    - *Particulate inspection shall be modified and combined with particle size inspection for suspensions. Particulate inspection of suspensions should be done under a bright light against a dark background.*
- *Contoiner Closure inspection- Container closure system shall be inspected and determined to be robust enough to prevent microbial penetration.*

- *Other apparent defects inspection- Vials should be inspected for any other defects (i.e. glass imperfections) that might affect the quality of CSPs.*
- *CSP Characteristics- Solutions shall retain the characteristics described in the log (color, clarity, etc.). Suspensions shall retain the characteristics described in the log and additionally have a uniform, small particle size. Articles which have not retained proper CSP characteristics shall be discarded. Rejection of the entire batch may be warranted at the discretion of the inspecting pharmacist if a significant number of articles do not retain the expected CSP characteristics.*
- *Quality Limit- Based on 100% inspection and current process capabilities, the acceptable quality limit for rejects is set at 10% of the octual batch yield. Any lot that does not meet the acceptable quality limit shall be investigated thoroughly.*

*Pre-release visual inspection shall be done immediately prior to release of CSPs from quorantine and is a brief inspection compared to post-compounding inspection. The primary objective of pre-release visual inspection is to ensure that no changes have occurred during storage in the quarantine area.*

- *CSP appearance inspection- CSPs shall be inspected and appearance determined to be consistent with desired properties (i.e. clarity of solutions, ease of dispersion for suspensions).*
- *Container closure inspection- Cantainer closure shall be briefly inspected to ensure that the closure system still prevents microbial penetration.*

*Pre-dispensing visual inspection shall be done immediately prior to dispensing of CSPs and is a brief inspection during final verification. The primary objective of pre-dispensing visual inspection is to ensure that no changes hove occurred during storoge prior to dispensing.*

- *CSP appearance inspection- CSPs shall be inspected and appearance determined to be consistent with desired properties (i.e. clarity of solutions, ease of dispersion for suspensions).*
- *Contoiner closure inspection- Container clasure shall be briefly inspected to ensure that the closure system still prevents microbial penetration.*

***POLICY:***

*Primary Engineering Control (Isolator) Cleaning*

***PURPOSE:***

*To clean, disinfect and decontaminate the isolator. The isolator is cleaned daily with a weekly deep clean. Isolator cleaning is critical to contamination control and bioburden reduction.*

***RESPONSIBILITY:***

*It is the responsibility of the PIC, the supervising pharmacist, and the Aseptic Technician to ensure that the cleaning is being completed appropriately and on schedule.*

***PROCEDURE:***

*Garbing: Proper garbing is vital to ensuring the PEC is cleaned appropriately. Before isolator cleaning is begun, re-check all garb.* ***Don new sterile gloves prior to isolator cleaning.***

*Cleaning/Disinfecting Agent(s): Refer to the cleaning schedule to determine what shall be used to clean the isolator. In general, intermediate-level disinfectants are used daily with a weekly high-level/sporicidal agent. Refer to manufacturer recommendations for contact (dwell) times. Contact (dwell) time shall be defined as the time which the surface being disinfected shall be left undisturbed. Cleaning agents may include: Covicide Pre-Saturated Wipes, Sterile Alcohal Wipes, Sterile 70% IPA, Peridox RTU, Sodium Hypochlarite, or other cleaning agents at the discretion of the PIC/supervising pharmacist.*

***Daily Cleaning of the Isolator:***

*Daily cleaning occurs at the beginning and end of each designated shift, at a minimum. If an isolator has not been used since the previous daily cleaning occurred, cleaning may be deferred to the next shift in which the isolator will be used at the discretion of the supervising pharmacist and noted on the cleaning log as such.*

*When possible, cleaning shall occur with sterile wipes/agents. Isolator cleaning tools can be used to clean hard to reach areas. Refer to the cleaning schedule or supervising pharmacist to determine which agents shall be used.*

*Daily cleaning shall occur with the isolator main chamber open. The main chamber shall be cleaned first, with the pass-through(s) cleaned after the main chamber. Each area shall be cleaned in the following*

*order: top, back, sides, front/sleeves, items on deck, and deck. Cleaning shall be done cleanest to dirtiest.*

*The HEPA filter and HEPA filter grate shall NEVER be sprayed directly.*

*The isolator shall be pre-cleaned with sterile water, if necessary, to remove any water soluble physical contaminants that might reduce the effectiveness of cleaning agents.*

*Wipes shall be folded into quarters in a manner that will provide 8 different sections per wipe for cleaning. A new, clean section shall be used for each area to reduce the chance of contamination spread.*

*Strokes shall be overlapping and result in a visibly wetted surface.*

*Once cleaning has finished, isolator gloves shall be replaced with new sterile gloves immediately prior to closing the isolator.*

*Allow the isolator to run for the manufacturer recommended period of time prior to compounding. All surfaces must be allowed to dry prior to compounding.*

***Cleaning the Isolator between CSPs – Compound Sterile Preparations***

*Cleaning of the isolator between separate CSPs during the same designated shift shall occur in the same manner as the minimum required daily cleaning, paying particular attention to any physical contaminants which might be present.*

***Cleaning the Isolator during Compounding***

*Cleaning during continuous compounding is done with the isolator closed to maintain the ISO 5 classification. Cleaning shall occur at a minimum of every 30 minutes, when spills occur, or when contamination is suspected. When cleaning occurs during ongoing compounding, special attention shall be given to the way in which cleaning is done and any possible effect on the unidirectional movement of first air. Cleaning includes oll easily reachable areas/items.*

***Weekly Deep Clean***

*Weekly deep clean shall occur utilizing a high-level/sporicidal disinfectant. Deep cleaning shall include all areas of the isolator (i.e. under the deck) and shall be an in-depth clean beyond what is done during daily cleaning. To achieve sporicidal efficacy, the isolator blower may be briefly turned off to allow for appropriate high level disinfection.*

## *Cleaning and Sanitizing Procedures for Sterile Areas*

| | *Name* | *Signature* | *Date* |
|---|---|---|---|
| *Pharmacist-In-Charge* | | | |
| *Employee Signature of Acceptance:* | | | |

***PURPOSE:*** *To develop and maintain an organized and clean environment for the preparation of Sterile preparations.*

***RESPONSIBLE:*** *The PIC, the head Aseptic Pharmacist and the Aseptic Technicians are responsible for ensuring compliance with this protocol.*
*Charts and logs are maintained as a means of compliance. The PIC shall verify that all cleaning is being sufficiently completed according to protocol and that staff performing the cleaning have been adequately trained.*

***INFORMATION:*** *All individuals entering the room are expected to wear head and shoe covers, as well as appropriate garb, as minimum attire. See Gowning and Garbing P&P for details.*

*In general, cleaning should be done from the cleanest area to the dirtiest area. To minimize cross-contamination, cleaning should also be done from top to bottom. For example, in a monthly cleaning, the order would be: ceilings; walls and windows; exteriors of process equipment and cabinets; countertops and other horizantal surfaces; and at last, floors.*

*This is the respansibility of trained pharmacy staff (pharmacists and technicians), and should be performed at the beginning of each shift. Spills and residue in the hood and adjacent surfaces should be disinfected with 70% isopropyl alcohol as necessary. The isopropyl alcohol should be allowed to dry before compounding is begun. All cleaning tools should be for single-use only, non-shedding, and for use only in controlled area.*

*During Shifts: Surfaces in the isolator within arm's reach can be cleaned using wipers and solutions - 70% isopropyl alcohol (IPA). Wipers should be "low-linting" — that is, wipers should not leave particles and fibers behind when they are used to clean surfaces. A non-woven polyester/cellulose wiper can be used. Wipers that are pre-wetted with 70% IPA shall be used. They can be also be wetted at the time of use with the solution of choice. Be sure wipers are not dripping with solution — an overly wet wiper can redisperse contaminants and can increase the chances of the solution itself becoming a contamination source. The isopropyl alcohol should be allowed to dry before compounding is begun. Wipers should be folded so that the entire surface of the wiper can be used. Typically wipers are quarter folded, and then refolded after every wipe of the surface, to contain and remove the contamination. In this manner, there are eight different surfaces of the wiper exposed and able to be used for wiping. Wiping should be done in overlapping linear strokes from clean to dirty or dry to wet. After all eight surfaces have been used, the wiper (and its captured contamination) should be discarded in an appropriate container. The appropriate cleaning tool may be used to clean the isolator.*

# Version # 005.001

*The ante, buffer and clean room(s), will be cleaned and disinfected according to guidelines below: In addition to the sterile compounding areas, counters and work surfaces shall be cleaned and disinfected daily. Floors in all areas, including the buffer area, anteroom, and compounding area, are to be cleaned and disinfected daily. All mopping should take place when no compounding is in progress.*

*Walls and ceilings shall be cleaned monthly when no compounding is in process.*

*All other surfaces, carts, and storage area shelving, shall be cleaned and disinfected at least monthly, again when no compounding is in progress. Storage shelving in the buffer or clean area should be emptied of all supplies, and then cleaned.*

*Floors in the buffer area, as well as the anteroom area, should be mopped daily with a multi-purpose antifungal, antivirucidal and antibacterial agent, when no aseptic operations are in progress. Mopping should be performed using approved agents described in written procedures. Only approved cleaning and sanitizing agents are used with careful consideration of compatibilities, effectiveness, and inappropriate or toxic residues. Their schedules of use and methods of application are in accord with written procedures. All cleaning tools, such as wipers, sponges, and mops are non-shedding and dedicated to use in the buffer or clean area. Floors are cleaned using flat mops with a bucketless system where mop covers are either pre-wetted with the cleaning or rinsing solutians, or the operator sprays the mop covers with a cleaning salution after the covers have been placed on the mop head. The mopping should be done in linear overlapping strokes from clean to dirty, dry to wet, the same procedure that is recommended for wiping. In a cleanroom, the corners furthest away from the entry doors are usually the cleanest areas since they have the least foot traffic. Aisles and entry doors sustain the greatest traffic and are usually the dirtiest areas. So mopping is done from far corners to aisles and entry doors (cleanest to dirtiest). Swabs wetted with a cleaning solution, IPA, or sterile water can be used to address very tight areas. Some possible candidates for swab cleaning are: vents in the back wall or front surface, the junction of the walls with the floor and ceiling of the cabinet, surface dimples surrounding rivets ar screws, connectors to hoses or filters, etc.*

*All surfaces are cleaned with a multi-purpose antifungal, antivirucidal and antibacterial agent daily.*

*Wipers are discarded after one use. If cleaning tools are reused, their cleanliness is maintained by thorough rinsing and sanitization or cleaning and autoclaving after use and by storing in a clean environment between uses.*

*Trash receptacles should be emptied daily or more frequently according ta the needs of the area. Trash should be collected in suitable plastic bags and removed with minimal agitation.*

*Supplies, if appropriate, and equipment to be placed in the buffer or clean room environment or isolator, must be unpackaged in the anteroom area and wiped with a sanitizing agent, such as sterile 70% isopropyl alcohol. Alternatively, if supplies are planned to be received in sealed pouches, the pouches can be removed as the supplies are introduced into the buffer or clean area without the need to sanitize the individual supply items.*

*No shipping or other external cartons (e.g., corrugated cardboard) may be taken into either the buffer or ante room areas.*

*Disinfectants should be alternated periodically to prevent the development of resistant organisms.*

*Problems with equipment (burned out lights, computer malfunctions, laminar flow hood problem, etc.) should be reported to the Pharmacist in Charge.*

**Autoclave should be cleaned weekly per manufacturer with approved cleaning agent.**

*Refer to rotation schedule for specifics on cleaning*

***TRAINING***

*Training, based on written protocols, is essential for proper cleaning of a cleanroom. Cleanroom personnel are assigned responsibilities. Cleaning logs with check-offs for daily, weekly, and monthly cleaning are completed by the responsible personnel.*

*Personnel are trained using these SOPs, and then tested to ensure proficiency in cleaning and maintenance procedures. Personnel is retrained on a regular schedule. The PIC shall ensure training is completed and will ensure audits are completed when necessary.*

***POLICY:***

*This policy describes the process of washing reusable materials.*

***PURPOSE:***

*All reusable materials (beakers, spin bars, etc.) shall be thoroughly and completely cleaned following use in compounding and prior to depyrogenation/sterilization (if applicable). Thorough cleaning shall be done to prevent the possibility of cross-contamination of CSPs.*

***RESPONSIBILITY:***

*The pharmacist-in-charge and sterile compounding supervisor are responsible to ensure that this procedure is followed.*

***PROCEDURE:***

*Initial cleaning shall be done using an appropriate low residue detergent with thorough scrubbing and rinsing. Particular attention should be given to difficult to remove preparations (i.e. oils, high active concentrations, etc.) and areas of the material that might be difficult to clean (lip of beaker, spout of beaker, crevices, etc.). Several rounds of detergent use and rinsing may be necessary to achieve completely clean materials. Initial cleaning and rinsing is critical to ensuring that reusable materials do not pose a cross-contamination risk and that they are maintained in an acceptable condition. During depyrogenation/sterilization, left-over residues can be burned onto the surface of materials, creating unacceptable conditions for re-use as they pose contamination risks in addition to appearing insanitary.*

*Once materials are cleaned thoroughly and all detergent residues removed, materials shall be rinsed briefly with sIPA.*

*Following sIPA rinse, materials shall be rinsed with sterile water.*

*Materials shall then be placed on the drying rack and allawed to dry completely.*

***Policy:***
*This procedure describes the process of steam sterilization.*

***Purpose:***
*This procedure describes the process of steam sterilization and the required actions to be taken to ensure that steam sterilization occurs in a correct and repeatable manner that ensures that appropriate sterilization has occurred.*

***Responsibility:***

*Proper hand hygiene is critical to contamination control. Personnel are a major source of contomination and appropriate hand hygiene can help reduce bioburden and the possibility of contamination. Hand hygiene should be performed in the following manner in the dedicated area at the appropriate time during the garbing process:*

1. *Fingernails should be kept short, clean, and natural.*
2. *Remove debris from underneath fingernails with a disposable nail cleoner ond warm water.*
3. *Wash hands and forearms to the elbow for at least 30 seconds with antimicrobial soap and water. Hond washing should be vigorous and thorough, paying careful ottention to frequently missed areas (i.e. tips of fingers, thumb, in between fingers)*
4. *Rinse well in warm water at an adequate flow rate. Water should flow from fingertips to elbows and droin into the sink. Be sure to remove all soap from skin.*
5. *Carefully dry hands and arms with a lint-free towel.*

***Purpose:***
*To evaluate clean room personnel's aseptic manipulation skills.*

***Responsible:*** *The PIC is responsible for overseeing and reviewing this procedure.*

***Procedure:***
*Startup Protocol - Use to: (1) validate current pharmacists and technicians who manipulate sterile preparations and (2) validate each newly hired staff member before they begin performing any manipulation requiring impeccable aseptic technique.*

1. *In a powder safe hood, weigh 3 grams of Soybean-Casein Digest Media (Tryptic Soy Broth).*
2. *Dissolve 3 grams of Soybean-Casein Digest Media (Tryptic Soy Broth) in 100 mL of sterile water in a depyrogenated beaker to make a 3% solution.*
3. *Place the beaker on the magnetic stir plate with a cleaned stir bar in the beaker and turn the magnetic stir bar to medium speed to allow for complete dissolution.*
4. *While the SCDM is dissolving, assemble the repeater pump and materials for sterilization filtration and filling.*
5. *Once the SCDM is dissolved and a homogenous solution has been obtained, place the spike of the repeater pump tubing in the beaker. In the ISO 5 isolator and before attaching the sterilizing filter, fill and seal three separate clear 10 mL vials with 5 mL of non-sterile SCDM. These will serve as positive controls as indicated by turbidity upon incubation.*
6. *Using aseptic technique, attach a 0.2 or 0.22 um sterilizing filter. Filter and fill 5 mL of the SCDM into six separate clear 10 mL vials. Seal the vials using appropriate aseptic technique. These will serve as the medial fill validation vials.*
7. ***DO NOT STERILIZE GLOVES WITH 70% sIPA POST MEDIA-FILL.*** *Gloved fingertip sampling will immediately follow media fill and must be done without sterilizing gloves to prevent false negative results. Refer to the GFS SOP for proper procedure.*
8. *Transfer materials out of the isolator and label appropriately.*
9. ***Auditing pharmacist: Observe cleaning technique per USP <797> requirements and record results on the appropriate competency form.***
10. *Incubate vials at 30°C - 35°C for 14 days.*

11. *Maintenance Protocol - Perform at least annually for low-risk level, annually or more frequently for medium-risk level and semiannually for high-risk level, or whenever unacceptable technique is observed.*
12. *Duplicate the procedure(s) used to initially validate personnel. The procedure must be successfully completed without contamination. Any validation procedure that yields a positive result must be repeated until no positives are observed.*
13. *Positives should be analyzed to determine the probable break in aseptic technique that lead to the contamination. Conduct additional training and supervise as necessary to improve the individual's aseptic technique.*
14. *Record results in the log provided in each.*
15. *Enter results in the individual's personnel record.*

*A pharmacist shall review and sign off on all Media-Fill logs.*

***Procedure:*** *Glaved Fingertip Testing Pracedure*

***Responsible:*** *The PIC and aseptic compounding supervisor are responsible for overseeing and reviewing this procedure*

***Procedure:***
*All aseptic employees shall successfully complete an initial competency evaluation and gloved fingertip/thumb sampling procedure (0 cfu) no less than three times before initially being allowed to compound CSPs. On-going gloved fingertip testing shall be completed every six months immediately following the employees media fill challenge.*

*Visually inspect the contact plate for signs of contamination or dryness. Label each plate in correspondence to the areas to be tested on the surface sampling chart. Do not disinfect gloves priar to sampling. Operator should perform this test inside the ISO Class 5 Isolator. Aseptic technique shauld be used to remove the lids from each plate. It is impartant to remember not ta disinfect gloves prior to sampling as this may interfere with the accurocy of results.*

*Using aseptic technique, remove the lid and gently roll each of the five fingers (as if ink fingerprinting) acrass the sample area, transferring any microorganisms present on the surface onto the agar. The four fingers and thumb for each hand should be pressed into their respective contact plates. When done correctly, a visual impression of each finger will be present. Lids should be carefully replaced when finished, again using aseptic technique, so as not to contaminate the samples.*

*After obtaining the sample, replace the lid and label with technician name and hand tested (R or L). Da not touch or in any way contaminate the agar to be tested.*

*A phormacist shall review and sign off on all Gloved Fingertip Testing.*

*It is best to select media with ingredients to neutralize any residual surface disinfectants that may be on the fingertips, in order to reduce the likelihood of a false result.*

*Record the manufacturer, lat number, expirotion date on the environmental log. Label the bottom of each plate with the operator's initials, date and locatian (right hand/left hand).*

*Incubate at 30 – 35 degrees C for 48 to 72 hours. Record results on the environmental log.*

*Logs are submitted to the PIC or the aseptic compounding director upon completion for review.*

*Maintenance Protocol – Perform to validate a new employee (Zero CFU's required). Repeat every six months immediately following the employees media fill challenge.*

- *Homogeneity of mixture*
- *pH*
- *Particle size*
- *Appearance/Characteristics*
- *Density*
- *Final volume*

*Results of pre-sterilization inspection shall be documented on the compounding log. Any required inspection checks should be described in the directions for the specific CSP. The supervising pharmacist may perform additional inspection when deemed appropriate.*

*Release*

*The supervising pharmacist shall review all available information (log, weights, in-process checks, and inspection) and release the CSP for sterilization/further compounding. To whom it may concern,

The intent of this letter is to provide information to the Nevada State Board of Pharmacy about a misdemeanor charge issued to the Compliance Officer of Eclipse Meds, LLC.

On December 31, 2015, I, Joe Jimenez, Jr., was arrested by the Arlington Police Department under the suspicion of Driving While Intoxicated (DWI).

On July 20, 2016, I entered a plea of guilty to the Tarrant County Criminal Court (TCCC), Case No. 1445743, and was charged with a class B misdemeanor. I was fined and ordered Community Supervision Probation which expired without any issues on October 19, 2017.

Immediately, this information was relayed to the Texas State Board of Pharmacy (TSBP) in which I held a pharmacy technician license. While I have not practiced as a technician since 2012, this license was active at the time of penalty. The license number is 109199. I was not issued any disciplinary action by the TSBP.

I have enclosed a copy of the Probation Order which includes all pertinent information regarding the case in point and disciplinary actions placed upon me by the TCCC. If you need any further information, I am willing to provide as much help as needed to accommodate your agency as needed.

Sincerely,

Joe Jimenez, Jr.
Compliance Officer

## Prior Litigation involving First M&F Corporation and Samuel B. Potts

In February 2013, First M&F Corporation (a publicly owned bank holding company, "FMFC") announced that its Board of Directors had entered into a merger agreement with Renasant Corporation, a publicly owned bank holding company, and Renasant Bank (collectively "Renasant"), which agreement allowed Renasant to take over FMFC. At that time, Samuel B. Potts ("S. Potts") was a member of the Board of Directors of FMFC (the, "FMFC Board").

On March 5, 2013, a class action lawsuit styled Zeng v Potts, et al., in the U.S. District Court (the "Federal Court") for the Northern District of Mississippi, Greenville Division (Case No. 4:13-CV-40MPM-JMV, the "*Zeng Action*"). Also a shareholder derivative lawsuit was filed on April 5, 2013, in a State of Mississippi Court in Attala County, styled Silverii v Potts, et al., (the "*Silverii Action*")(together these cases are the "Actions"). The Actions challenged the merger of FMFC into Renasant. S. Potts was named as a defendant in the Actions because he was then a member of the FMFC Board.

On June 5, 2013, counsel for all parties to the Actions reached an agreement to settle the Actions, and that settlement agreement was approved by the Federal Court on December 19, 2013, when it entered a Final Judgment and Order of Dismissal with Prejudice in the *Zeng Action* (the "Order of Dismissal"). The Order of Dismissal in the *Zeng Action* recognized the dismissal of the *Silverii Action* in the Mississippi State Court, which dismissal was effected when the state court entered an Agreed Order in the *Silverii Action* on June 7, 2013.

For a full description of the settlement of the Actions, see attached hereto a copy of the Final Judgment and Order of Dismissal with Prejudice in the Federal Action, which was entered by the Federal Court on December 19, 2013.

**FINAL JUDGMENT AND ORDER OF DISMISSAL WITH PREJUDICE**

This matter came before the Court for hearing pursuant to the Order of this Court, on the application of the Parties for approval of the settlement set forth in the Stipulation of Settlement, dated October 3, 2013 (the "Stipulation"), a copy of which is attached hereto as Exhibit 1. Due and adequate notice having been given to the Class (as defined below) as required in said Order and the Federal Rules of Civil Procedure, and the Court having considered all papers filed and proceedings had herein, and good cause appearing,

**IT IS HEREBY ORDERED, ADJUDGED, AND DECREED** that:

1. This Final Judgment and Order of Dismissal with Prejudice ("Final Judgment and Order") incorporates by reference the definitions in the Stipulation, and all terms used herein shall have the same meanings as set forth in the Stipulation.

2. This Court has jurisdiction over the subject matter of the putative class action styled *Zeng v. Potts, et al.*, No. 4:13-CV-MPM-JMV (the "*Zeng* Action") and over all Parties to the litigation, including all members of the Class.

3. For settlement purposes only, the Court finds that the requirements of Federal Rules of Civil Procedure 23(a), 23(b)(1), and 23(b)(2) have been satisfied and hereby certifies a mandatory non-opt out class action on behalf of a class consisting of all First M&F Corporation ("FMFC") common shareholders, including all persons or entities that were record holders or beneficial holders of FMFC common stock, from October 15, 2012 through September 1, 2013, including any and all of their respective successors in interest, predecessors, representatives, trustees, executors, administrators, heirs, assigns or transferees, immediate and remote, and any person or entity acting for or on behalf of, or claiming under, any and each of them (the "Class"). Excluded from the Class are Defendants, members of the immediate family of any Defendant, and any entity in which a Defendant has or had a controlling interest.

4. With respect to the Class, this Court finds and concludes that: (a) the Class members are so numerous that joinder of all members is impracticable; (b) there are questions of law or fact common to the Class; (c) Plaintiffs' claims are typical of the claims of the Class; (d) Plaintiffs, Lead Counsel, and Liaison Counsel will fairly and adequately protect the interests of the Class; (e) prosecuting separate actions by individual members of the Class would create a risk of inconsistent or varying adjudications with respect to individual members of the Class that would establish incompatible standards of conduct for Defendants; (f) prosecuting separate actions by individual members of the Class would create a risk of adjudications with respect to individual members of the Class that, as a practical matter, would be dispositive of the interests of the other members not parties to the individual adjudications or would substantially impair or impede their ability to protect their interests; and (g) Defendants have acted or refused to act on grounds that apply generally to the Class, so that final injunctive relief would be appropriate respecting the Class as a whole.

5. This Court hereby approves the Settlement set forth in the Stipulation and finds that said Settlement is in all respects fair, reasonable, and adequate to the Class, and the Parties are hereby directed to perform its terms.

6. This Court hereby completely discharges and dismisses with prejudice the *Zeng* Action without costs to any Party (except as otherwise provided herein).

7. The following claims are fully, finally, and forever released, discharged, and settled: all known and unknown claims, demands, rights, liabilities, damages, costs, expenses, actions, suits, and controversies of every nature and description whatsoever against the Released Parties (defined below) that have been or could have been asserted by Plaintiffs or any member of the Class in their capacity as shareholders, or by any company on whose behalf claims have

been or could be asserted derivatively, including class, individual, derivative, or other claims, in state or federal court, based upon, arising from, or related to the claims or allegations in the Actions, including but not limited to claims or allegations based upon, arising from, or related to the negotiation, consideration, approval, drafting, execution, consummation, and any other matter related to or arising out of the Merger and/or any disclosures relating to the Merger (collectively, the "Settled Claims"). The "Released Parties" refers to Hugh S. Potts, Jr., Eddie J. Briggs, K. Michael Heidelberg, Jeffrey B. Lacey, John Clark Love, III, Lawrence D. Terrell, James I. Tims, Samuel B. Potts, Scott M. Wiggers, Hollis C. Cheek, Jon A. Crocker, James D. Frerer, Otho E. Pettit, Jr., Julie B. Taylor, Lawrence D. Terrell, Jr., Michael L. Nelson, Renasant Corporation, Renasant Bank, Merchants and Farmers Bank, FMFC, and their respective predecessors, successors-in-interest, parents, subsidiaries, affiliates, consultants, representatives, agents, trustees, executors, heirs, spouses, marital communities, assigns or transferees, and any person or entity acting for or on behalf of any and each of them (including, without limitation, any present or former investment bankers or financial advisors, accountants, insurers, reinsurers or attorneys and any past, present or future officers, directors and employees of any of them). The Settled Claims, however, shall not include the right of Plaintiffs or any member of the Class to enforce in this Court the terms of the Stipulation and the MOU. The Settled Claims shall also not include claims under the federal securities laws against Renasant Corporation that are not based upon, arising from, or related to the claims or allegations in the Actions, the Merger, Merger Agreement and the transactions contemplated therein.

8. The release of the Settled Claims extends to claims that the parties granting the release (the "Releasing Parties") do not know or suspect to exist at the time of the release, which if known might have affected the Releasing Parties' decision to enter into the release. The

Releasing Parties shall be deemed to relinquish, to the extent applicable and to the full extent permitted by law, the provisions, rights, and benefits of Section 1542 of the California Civil Code, which provides that "A general release does not extend to claims which the creditor does not know or suspect to exist in his or her favor at the time of executing the release, which if known by him or her must have materially affected his or her settlement with the debtor." The Releasing Parties shall also be deemed to waive any and all provisions, rights, and benefits conferred by any law of any state or territory of the United States, or principle of common law, which is similar, comparable, or equivalent to California Civil Code Section 1542.

9. Defendants and the Released Parties release Plaintiffs, Plaintiffs' Counsel, and members of the Class and their counsel, from all claims arising out of the institution, prosecution, settlement, or resolution of the Actions; provided however, that the Defendants and Released Parties shall retain the right to enforce in this Court the terms of the Stipulation or MOU.

10. The notice of the settlement given to the Class, including the individual notice to all members of the Class who could be identified through reasonable effort, was appropriate and adequate. The notice given provided the best notice practicable under the circumstances to all persons entitled to such notice of these proceedings and of the matters set forth therein, including the proposed Settlement set forth in the Stipulation. The notice given fully satisfied the requirements of Federal Rule of Civil Procedure 23(e), the Private Securities Litigation Reform Act, and due process, and constituted due and sufficient notice to all persons entitled thereto.

11. Defendants have denied, and continue to deny, that any of them have committed or aided and abetted any violations of law or breaches of duty to the Plaintiffs, the Class, FMFC, Merchants and Farmers Bank, or anyone else, and that any additional disclosures (including the

Supplemental Disclosures) were or are required under any applicable rule, regulation, statute, or law, and Defendants maintain that they diligently and scrupulously complied with their fiduciary duties.

12. Defendants entered into the Settlement solely because it will eliminate the uncertainty, distraction, burden, and expense of further litigation, and put to rest and terminate all the claims that were or could have been asserted against Defendants in the Actions, which will benefit the shareholders.

13. Plaintiffs and their counsel believe that Defendants have asserted and would continue to assert significant legal and factual defenses to Plaintiffs' claims made in the Actions, and as a result, that the terms of the Stipulation and the terms of the Merger are fair, reasonable, adequate, and in the best interest of Plaintiffs, all members of the Class, and FMFC.

14. The provisions contained in the Stipulation and all negotiations of the Settlement shall not be deemed a presumption, concession, or admission by any Defendant of any fault, liability, or wrongdoing as to any facts or claims that have been or might be alleged or asserted in the Actions or any other action or proceeding that has been, will be, or could be brought, and shall not be interpreted, construed, deemed, invoked, offered, received in evidence, or otherwise used by any person in the Actions or any other action or proceeding, whether civil, criminal or administrative, for any purpose other than as expressly provided in the Stipulation. If the Settlement does not become final for any reason, the Parties shall revert to their respective litigation positions as if the Settlement, the Stipulation, and the MOU never existed.

15. If any action is filed in state or federal court asserting claims that are related to the Settled Claims prior to final court approval of the proposed Settlement and the exhaustion of any right to appeal or seek other review or any time thereafter, Plaintiffs shall cooperate with

Defendants in obtaining the dismissal or withdrawal of such related litigation, including, where appropriate, joining in any motion to dismiss such litigation.

16. In the event the Settlement does not become final for any reason, Defendants reserve the right to oppose certification of any class in future proceedings.

17. All Defendants shall have the right to withdraw from the Settlement in the event that (a) any court enjoins or otherwise precludes the Merger or (b) any claim related to the subject matter of the Actions, the Merger, or the Settled Claims is commenced or prosecuted against any of the Released Parties in any court prior to final approval of the Settlement and the exhaustion of any right to appeal or seek review of that approval, and (following a motion by any Defendant) any such claim is not dismissed with prejudice.

18. The Settlement, Stipulation, and MOU shall be null and void and of no force and effect, unless otherwise agreed to by the Parties pursuant to the terms of the Stipulation, if the final dismissal with prejudice of the Actions, including the exhaustion of any right to appeal or seek other review, fails to occur. The Court's (or any appellate court's) failure to approve the fees and expenses for Plaintiffs' Counsel shall not be a basis to nullify or void the Settlement, Stipulation, or MOU. In the event of nullification of the Settlement, Stipulation, and MOU, the Parties shall be deemed to be in the position they were in prior to the execution of the MOU, and the statements made in the Settlement, Stipulation, and MOU, and in connection with the negotiation of the MOU, the Stipulation, or the Settlement shall not be deemed to prejudice in any way the positions of the Parties or to constitute an admission of fact or wrongdoing by any of the Parties. If the Settlement, Stipulation, and MOU are nullified, neither the existence of the Settlement, the Stipulation, or the MOU, nor any of their contents, nor any statements made in connection with the negotiation of the MOU, the Stipulation, the Settlement, nor any other

settlement communications shall be admissible in evidence or referred to for any purpose in the Actions or any other litigation or judicial proceeding, except in connection with any proceeding to enforce the terms of the MOU, the Stipulation, or the Settlement.

19. Plaintiffs and all members of the Class are forever barred and enjoined from commencing, prosecuting, instigating, or in any way participating in the commencement or prosecution of any action asserting any Settled Claims, either directly, representatively, derivatively, or in any other capacity, against any Released Party.

20. All Parties and their counsel complied with the provisions of Federal Rule of Civil Procedure 11 and Mississippi Rule of Civil Procedure 11.

21. The Settlement and payment of attorneys' fees are conditioned on the Merger having become effective under Mississippi law.

22. Without affecting the finality of this Final Judgment and Order in any way, this Court hereby retains continuing jurisdiction over: (a) implementation of this Settlement; and (b) all Parties hereto for the purpose of construing, enforcing, and administering the Stipulation.

23. Pursuant to Federal Rule of Civil Procedure 42(h), the Court hereby awards Lead Counsel and Liaison Counsel (as defined in the Stipulation) fees and expenses of $435,000.00 to be paid in accordance with Section 14 of the Stipulation. Any reversal or modification of the attorneys' fees awarded in this Final Judgment and Order shall not affect the validity of the Settlement, including the dismissal with prejudice of the *Zeng* Action and the release of the Settled Claims, and the award of attorneys' fees may be considered separately from the rest of this Final Judgment and Order. In the event that this award of attorneys' fees is reversed or modified on appeal or otherwise, or any specified condition to the Settlement is not satisfied, Plaintiffs' Counsel shall refund to Defendants the advanced amount and all interest accrued or

accumulated thereon within ten (10) business days from entry of an order providing for such reversal or modification. Except as provided in the Stipulation, the Released Parties shall bear no other expenses, costs, damages, or fees alleged or incurred by the named Plaintiffs in the Actions, by any member of the Class, or by any of their attorneys, experts, advisors, agents, or representatives.

IT IS SO ORDERED.

Signed this 19th day of December, 2013

## STIPULATION OF SETTLEMENT

This Stipulation of Settlement (the "Stipulation") is made and entered into by and among the Parties (as defined below) to the above-captioned litigation. The Stipulation is intended by the Parties to fully and finally resolve, discharge, and settle the Settled Claims (as defined below), upon and subject to the terms and conditions herein, and, upon final Court approval, to fully and finally dismiss the above-captioned litigation with prejudice.

## I. BACKGROUND OF THE LITIGATION

Currently pending before the Court is a putative class action styled *Zeng v. Potts, et al.*, No. 4:13-CV-40-MPM-JMV (the "*Zeng* Action"). A putative derivative lawsuit was also filed in Attalla County styled *Silverii v. Potts, et al.*, No. 13-0049 (Miss. Cir. Ct. 5th Jud. Dist. Attala Cnty.) (the "*Silverii* action") (together, the "Actions").

The Actions challenged the merger of First M&F Corporation ("FMFC") and Merchants and Farmers Bank into Renasant Corporation and Renasant Bank through a merger agreement dated February 6, 2013, whereby FMFC shareholders received 0.6425 shares of Renasant Corporation stock for each share of FMFC stock they owned (the "Merger"). The Actions name as defendants: Hugh S. Potts, Jr., Eddie J. Briggs, K. Michael Heidelberg, Jeffrey B. Lacey, John Clark Love, III, Lawrence D. Terrell, James I. Tims, Samuel B. Potts, Scott M. Wiggers, Hollis C. Cheek, Jon A. Crocker, James D. Frerer, Otho E. Pettit, Jr., Julie B. Taylor, Lawrence D. Terrell, Jr., Michael L. Nelson, Renasant Corporation, Renasant Bank, Merchants and Farmers Bank, and FMFC (collectively, the "Defendants").

The Merger was publically announced on February 7, 2013 in a press release and Form 8-K filed with the Securities and Exchange Commission ("SEC"). On June 25, 2013, shareholders of FMFC and Renasant Corporation approved the Merger Agreement, and the Merger was consummated on September 1, 2013 at 12:01 a.m.

Sherman H. Zeng and Stanley J. Silverii (collectively, "Plaintiffs," and together with Defendants, the "Parties") were appointed as Lead Plaintiffs in the *Zeng* Action. In addition, Robbins Geller Rudman & Dowd LLP was appointed as Lead Counsel and Pigott & Johnson, P.A. was appointed as Liaison Counsel in the *Zeng* Action (collectively, along with Levi & Korsinsky, LLP and the Pratt Law Firm, PLLC, constituting "Plaintiffs' Counsel").

## II. THE SETTLEMENT OF THE ACTIONS

Counsel for Defendants and Plaintiffs engaged in extensive arm's-length negotiations concerning a settlement of the Actions. On June 5, 2013, counsel for all parties to the Actions reached an agreement regarding settlement of the Actions and entered into a Memorandum of Understanding (the "MOU"). The MOU provides for the settlement of the Actions between and among Plaintiffs—on behalf of themselves and the putative Class (defined below) and derivatively on behalf of FMFC—and Defendants, on the terms and subject to the conditions set forth in the MOU and this Stipulation, which is intended to be a full and final resolution of the Settled Claims (the "Settlement").

In accordance with the terms of the MOU, on June 7, 2013, the parties in the *Silverii* action filed an Agreed Order of Dismissal With Prejudice. Also on June 7, 2013, the court in the *Silverii* Action signed that Agreed Order and dismissed the claims in the *Silverii* Action with prejudice. On June 6, 2013, Plaintiffs in the *Zeng* Action filed an Agreed Withdrawal of Plaintiff's Pending Motion for a Preliminary Injunction and Motion to Cancel Corresponding June 14, 2013 Hearing. On June 12, 2013, the Court dismissed the motion for a preliminary injunction as moot and canceled the hearing on that motion.

Defendants have expressly denied, and continue to deny, all allegations of wrongdoing, fault, liability, or damage to Plaintiffs, the Class, FMFC, or Merchants and Farmers Bank; deny that they breached any fiduciary duties or aided and abetted any such breaches, or engaged in any wrongdoing or violation of law; deny that they acted improperly in any way; and maintain that they have committed no disclosure violations or any other breach of duty whatsoever in connection with the Merger or any public disclosures. Defendants, to avoid the costs, disruption, and distraction of further litigation, and without admitting the validity of any allegations made in

the Actions, or any liability with respect thereto, have concluded that it is desirable that the claims against them be settled and dismissed on the terms reflected in this Stipulation.

Plaintiffs' Counsel has determined that Defendants have and would continue to assert significant factual and legal defenses to the claims in the Actions and that settlement of the Actions on the terms reflected in the MOU and this Stipulation is fair, reasonable, adequate, and in the best interests of Plaintiffs, the putative Class, and FMFC.

## III. AGREEMENT OF SETTLEMENT AND STIPULATION

NOW, THEREFORE, as a result of the foregoing and the negotiations among counsel for the Parties, the Parties have agreed as follows:

1. In connection with the Settlement of the Actions and as a result of the agreements contained in the MOU, Defendants made additional disclosures regarding the Merger in a Form 8-K filed with the SEC on June 11, 2013 (the "Supplemental Disclosures"). The Form 8-K containing the Supplemental Disclosures is attached hereto as Exhibit A. Without admitting any wrongdoing, Defendants acknowledge that the filing and prosecution of the Actions and discussions with Plaintiffs' Counsel were principal causes of their decision to make the Supplemental Disclosures.

2. Prior to entering into the MOU, Plaintiffs conducted discovery that consisted of the review and analysis of approximately 2,000 pages of non-public documents and the deposition of FMFC's Chief Executive Officer. As agreed upon by the Parties in the MOU, Defendants have provided Plaintiffs and their counsel with confirmatory discovery in the form of a deposition of a representative of Keefe, Bruyette & Woods, Inc., knowledgeable about the Merger to confirm the fairness and adequacy of the Settlement, including the Supplemental Disclosures (the "Confirmatory Discovery"). After obtaining and reviewing the Confirmatory Discovery, Plaintiffs, Lead Counsel, and Liaison Counsel have concluded, and Plaintiffs hereby

stipulate on behalf of the Class, that the Settlement memorialized herein is fair, adequate, reasonable, and in the best interests of Plaintiffs, the Class, and FMFC.

3. The Parties have agreed to use their best efforts to promptly agree upon, execute, and present to the Court this Stipulation and such other documents as may be necessary and appropriate to obtain Court approval of the Settlement and the dismissal with prejudice of the claims in the *Zeng* Action in the manner contemplated in the MOU, including, without limitation, the [Proposed] Preliminary Approval Order attached hereto as Exhibit B; the Notice of Pendency of Class Action, Proposed Class Action Settlement, Settlement Hearing and Right to Appear attached hereto as Exhibit B-1; and the [Proposed] Final Judgment and Order of Dismissal with Prejudice attached hereto as Exhibit C.

4. Pending final Court approval of the Settlement, all proceedings in the *Zeng* Action, except for settlement-related proceedings, are and shall be stayed until the settlement-related proceedings are concluded.

5. The Parties hereby stipulate to, and jointly request that the Court enter, a final order and judgment providing:

(a) for the conditional certification, for settlement purposes only, of the *Zeng* Action as a mandatory non-opt out class action pursuant to Federal Rules of Civil Procedure 23(b)(1) and 23(b)(2) on behalf of a Class consisting of all FMFC common shareholders, including all persons or entities that were record holders or beneficial holders of FMFC common stock, from October 15, 2012 through September 1, 2013, including any and all of their respective successors in interest, predecessors, representatives, trustees, executors, administrators, heirs, assigns or transferees, immediate and remote, and any person or entity acting for or on behalf of, or claiming under, any and each of them (the "Class"). Excluded from

the Class are Defendants, members of the immediate family of any Defendant, and any entity in which a Defendant has or had a controlling interest;

(b) for the complete discharge, dismissal with prejudice on the merits, release, and settlement, to the fullest extent permitted by law, of all known and unknown claims, demands, rights, liabilities, damages, costs, expenses, actions, suits, and controversies of every nature and description whatsoever against the Released Parties (defined below) that have been or could have been asserted by Plaintiffs or any member of the Class in their capacity as shareholders, or by any company on whose behalf claims have been or could be asserted derivatively, including class, individual, derivative, or other claims, in state or federal court, based upon, arising from, or related to the claims or allegations in the Actions, including but not limited to claims or allegations based upon, arising from, or related to the negotiation, consideration, approval, drafting, execution, consummation, and any other matter related to or arising out of the Merger and/or any disclosures relating to the Merger (collectively, the "Settled Claims"). The "Released Parties" refers to Defendants and their respective predecessors, successors-in-interest, parents, subsidiaries, affiliates, consultants, representatives, agents, trustees, executors, heirs, spouses, marital communities, assigns or transferees, and any person or entity acting for or on behalf of any and each of them (including, without limitation, any present or former investment bankers or financial advisors, accountants, insurers, reinsurers or attorneys and any past, present or future officers, directors and employees of any of them). The Settled Claims, however, shall not include the right of Plaintiffs or any members of the Class to enforce in this Court the terms of this Stipulation and the MOU. The Settled Claims shall also not include claims under the federal securities laws against Renasant Corporation that are not based

upon, arising from, or related to the claims or allegations in the Actions, the Merger, Merger Agreement and the transactions contemplated therein;

(c) that Defendants and the Released Parties release Plaintiffs, Plaintiffs' Counsel, and members of the Class and their counsel from all claims arising out of the institution, prosecution, settlement, or resolution of the Actions; provided however, that the Defendants and Released Parties shall retain the right to enforce in this Court the terms of this Stipulation and the MOU;

(d) that: (i) the release contemplated by this Stipulation shall extend to claims that the parties granting the release (the "Releasing Parties") do not know or suspect to exist at the time of the release, which if known might have affected the Releasing Parties' decision to enter into the release; (ii) the Releasing Parties shall be deemed to relinquish, to the extent applicable and to the full extent permitted by law, the provisions, rights, and benefits of Section 1542 of the California Civil Code, which provides that "A general release does not extend to claims which the creditor does not know or suspect to exist in his or her favor at the time of executing the release, which if known by him or her must have materially affected his or her settlement with the debtor"; and (iii) the Releasing Parties shall be deemed to waive any and all provisions, rights, and benefits conferred by any law of any state or territory of the United States, or principle of common law, which is similar, comparable, or equivalent to California Civil Code Section 1542;

(e) that Defendants have denied, and continue to deny, that any of them have committed or aided and abetted any violations of law or breaches of duty to the Plaintiffs, the Class, FMFC, Merchants and Farmers Bank, or anyone else, and that any additional disclosures (including the Supplemental Disclosures) were or are required under any applicable rule,

regulation, statute, or law, and that Defendants maintain that they diligently and scrupulously complied with their fiduciary duties;

(f) that Defendants entered into the Settlement solely because it will eliminate the uncertainty, distraction, burden, and expense of further litigation, and put to rest and terminate all the claims that were or could have been asserted against Defendants in the Actions, which will benefit the shareholders;

(g) that Plaintiffs and their counsel believe that Defendants have asserted and would continue to assert significant legal and factual defenses to Plaintiffs' claims made in the Actions, and as a result, that the terms of this Stipulation and the terms of the Merger are fair, reasonable, adequate, and in the best interest of Plaintiffs, all members of the Class, and FMFC;

(h) that, in the event the Settlement does not become final for any reason, Defendants reserve the right to oppose certification of any class in future proceedings;

(i) that all Defendants shall have the right to withdraw from the Settlement in the event that (a) any court enjoins or otherwise precludes the Merger or (b) any claim related to the subject matter of the Actions, the Merger, or the Settled Claims is commenced or prosecuted against any of the Released Parties in any court prior to final approval of the Settlement and the exhaustion of any right to appeal or seek review of that approval, and (following a motion by any Defendant) any such claim is not dismissed with prejudice;

(j) that, subject to the Order of the Court, upon final determination that the Settlement should be approved, Plaintiffs and all members of the Class are forever barred and enjoined from commencing, prosecuting, instigating, or in any way participating in the commencement or prosecution of any action asserting any Settled Claims, either directly, representatively, derivatively, or in any other capacity, against any Released Party;

(k) that all Parties and their counsel complied with the provisions of Federal Rule of Civil Procedure 11 and Mississippi Rule of Civil Procedure 11;

(l) for entry of a final and binding judgment dismissing the *Zeng* Action with prejudice and, except as set forth in Paragraphs 14 and 17 herein, without costs to any of the Parties; and

(m) that the Settlement and the payment of attorneys' fees awarded by the Court pursuant to the settlement are expressly conditioned on the Merger having become effective under Mississippi law.

6. This Stipulation, as well as the MOU, shall be null and void and of no force and effect, unless otherwise agreed to by the Parties pursuant to the terms hereof, if: (a) the Settlement and the terms of this Stipulation (not including any agreement as to Plaintiffs' Counsel's fees and expenses) does not obtain final Court approval for any reason; or (b) the final dismissal with prejudice of the Actions, including the exhaustion of any right to appeal or seek other review, fails to occur. The Court's (or any appellate court's) failure to approve the fees and expenses for Plaintiffs' Counsel shall not be a basis to nullify or void the agreements to settle the Actions or to release the Settled Claims described herein. Additionally, all Defendants may, but are not obligated to, declare this Stipulation null and void in the event that any Settled Claims are prosecuted against any of the Released Parties prior to final court approval of the Settlement and exhaustion of any right to seek appeal or other relief and such claims are not dismissed with prejudice or stayed in contemplation of dismissal of the Actions. In the event of nullification of this Stipulation, the Parties shall be deemed to be in the position they were in prior to the execution of the MOU, and the statements made herein, in the MOU, and in connection with the negotiation of the MOU, the Stipulation, or the Settlement shall not be

deemed to prejudice in any way the positions of the Parties or to constitute an admission of fact or wrongdoing by any of the Parties. If the Stipulation is nullified, neither the existence of this Stipulation, nor its contents, nor any statements made in connection with the negotiation of the MOU or this Stipulation, nor any other settlement communications shall be admissible in evidence or referred to for any purpose in the Actions or any other litigation or judicial proceeding, except in connection with any proceeding to enforce the terms of the MOU or this Stipulation.

7. If any action is filed in state or federal court asserting claims that are related to the Settled Claims prior to final court approval of the proposed Settlement and the exhaustion of any right to appeal or seek other review or any time thereafter, Plaintiffs shall cooperate with Defendants in obtaining the dismissal or withdrawal of such related litigation, including, where appropriate, joining in any motion to dismiss such litigation.

8. Plaintiffs and their counsel agree that within ten (10) days of receipt of a written request by any producing party following final court approval of the Settlement, they will return to the producing party all discovery material obtained from the producing party, including all documents produced by and/or deposition testimony given by, any of the Defendants (including, without limitation, their employees, affiliates, agents, representatives, attorneys, and third party advisors) and any materials containing or reflecting such discovery material (the "Discovery Material"), or certify in writing that such Discovery Material has been destroyed. Counsel for Plaintiffs, however, shall be entitled to retain all filings, court papers, and attorney work product containing or reflecting Discovery Material, subject to the requirement that they shall not disclose any Discovery Material contained or referenced in such documents to any person except

pursuant to court order or agreement with Defendants. The Parties agree to submit to this Court any dispute concerning the return or destruction of Discovery Material.

9. This Stipulation has been executed by counsel for the Parties to the Actions, each of whom represents and warrants that they have the authority from their client(s) to enter into this Stipulation and bind their client(s) thereto, that Plaintiffs are the only holders and owners of their claims asserted in the Actions or their other causes of action related to the Settled Claims, and that none of Plaintiffs' claims or causes of action referred to in any complaint in the Actions or this Stipulation have been assigned, encumbered, or in any manner transferred in whole or in part.

10. This Stipulation, the MOU, and the Settlement shall be governed by and construed in accordance with the laws of the State of Mississippi without regard to Mississippi's principles governing choice of law. As to any dispute arising out of or relating in any way to this Stipulation, the MOU, or the Settlement, the Parties agree that: (a) the dispute shall not be litigated or otherwise pursued in any forum or venue other than the United States District Court for the Northern District of Mississippi; (b) they expressly waive any right to demand a jury trial; (c) they irrevocably submit to the personal jurisdiction of this Court, as well as any court to which an appeal may be taken from this Court, and will not contest such jurisdiction; and (d) they waive and will not assert any defense that this Court is an inconvenient forum. The prevailing parties in any proceeding to enforce the terms of this Stipulation, the Settlement, or the MOU shall be entitled to the payment of their reasonable legal fees and costs.

11. This Stipulation and agreements made herein may be modified or amended only by a writing, signed by all of the signatories hereto, that refers specifically to this Stipulation.

12. The provisions contained in this Stipulation and all negotiations of the Settlement shall not be deemed a presumption, concession, or admission by any Defendant of any fault, liability, or wrongdoing as to any facts or claims that have been or might be alleged or asserted in the Actions or any other action or proceeding that has been, will be, or could be brought, and shall not be interpreted, construed, deemed, invoked, offered, received in evidence, or otherwise used by any person in the Actions or any other action or proceeding, whether civil, criminal or administrative, for any purpose other than as expressly provided herein. If the Settlement does not receive final court approval, the Parties shall revert to their respective litigation positions as if this Stipulation and the MOU never existed.

13. This Stipulation shall be binding upon and inure to the benefit of the Parties and their respective agents, executors, heirs, successors, and assigns; provided that the Parties shall not assign or delegate their rights or responsibilities under this Stipulation without prior written consent of the other Parties. The Released Parties who are not signatories hereto shall be third party beneficiaries under this Stipulation entitled to enforce this Stipulation in accordance with its terms.

14. Subject to the terms and conditions of this Stipulation and the MOU, and subject to final approval of the Settlement of both Actions, the dismissal with prejudice of both Actions, and the approval of such fees by the Court, FMFC (or its successor), on behalf of itself and for the benefit of the other Defendants in the Actions, shall pay up to $435,000 to Plaintiffs' Counsel for their fees and expenses in the Actions. This proposed fee amount of $435,000, which is unopposed by Defendants, shall constitute a cap on fees and expenses to be paid to Plaintiffs' Counsel without regard to the fees awarded by the Court. The awarding of this fee or any fee is not a precondition to the dismissal with prejudice of the Actions and release of the Settled

Claims in accordance with this Settlement. Any failure by the Court to approve the amount of any fees or expenses shall not affect the validity of the Settlement, and the award of attorneys' fees may be considered separately from the rest of the proposed Settlement. FMFC or its successor shall pay the fees and expenses award to Robbins Geller Rudman & Dowd LLP, as receiving agent for Plaintiffs' Counsel, within ten (10) business days of entry of the order of the Court in the *Zeng* Action providing final approval of the Settlement or the dismissal with prejudice of both Actions, whichever date is later. In the event that such order or dismissal is reversed or modified on appeal or otherwise, or any specified condition to the Settlement is not satisfied, Plaintiffs' Counsel shall refund to Defendants the advanced amount and all interest accrued or accumulated thereon within ten (10) business days of entry of an order providing for such reversal or modification. Except as provided herein, the Released Parties shall bear no other expenses, costs, damages, or fees alleged or incurred by the named Plaintiffs in the Actions, by any member of the Class, or by any of their attorneys, experts, advisors, agents, or representatives.

15. Plaintiffs and their counsel reserve their rights to seek an award of attorneys' fees and costs if the Merger is not consummated or if the Settlement is not approved by the Court. Defendants reserve their rights to oppose any such fee application.

16. The Parties intend the Settlement to be a final and complete resolution of all claims or disputes asserted or which could have been asserted by Plaintiffs, the Class, or shareholders derivatively on behalf of FMFC or Merchants and Farmers Bank against the Released Parties with respect to the Settled Claims. The Parties agree that the terms of this Stipulation were negotiated at arm's-length and in good faith by the Parties, and reflect a settlement that was reached voluntarily after consultation with legal counsel. Plaintiffs, on

behalf of the Class, confirm and agree that, in arriving at their decision to enter into this Stipulation releasing the Settled Claims, they have not relied upon any representations, warranties, or statements of any nature whatsoever, whether written or oral, by any Released Parties or their counsel except as expressly identified herein. The Parties agree to take such actions as are reasonably necessary to accomplish the Settlement intended by this Stipulation.

17. Defendants shall be responsible for providing notice of the Settlement to the members of the Class. Defendants shall pay all costs and expenses incurred in providing notice of the Settlement to the members of the Class, with the understanding that notice shall be effected by mail and/or public dissemination as authorized by the Court in the *Zeng* Action.

18. The "Effective Date" of the Settlement of the Actions shall be the date on which the Order of the Court approving the settlement of the *Zeng* Action and the dismissal with prejudice of the *Silverii* action have both become final and no longer subject to further appeal or review, whether by exhaustion of any possible appeal or writ of certiorari, lapse of time, or otherwise.

19. This Stipulation may be executed in any number of actual or telecopied counterparts and by each of the different Parties on several counterparts, each of which when so executed and delivered will be an original. The executed signature page(s) from each actual or telecopied counterpart may be joined together and attached and will constitute one and the same instrument.

20. Should any part of this Stipulation be rendered or declared invalid by a court of competent jurisdiction, the invalidation of such part or portion of this Stipulation should not invalidate the remaining portions thereof, and they shall remain in full force and effect.

IN WITNESS WHEREOF, the Parties have executed this Stipulation as of the date set forth below.

Unit [redacted]
Scottsdale, AZ 85251

SSN: XXX-XX-[redacted]

Brian Bogdanowicz:

Due to substance misuse/abuse, you were referred to First Advantage Workplace Services and assessed by Brendan Beggs, LPC, Workplace Services local assessor on June 13, 2017. As a result of this assessment, Workplace Services has recommended that you attend treatment and self-help meetings.

In order for you to be considered eligible to return to the workplace, you must comply with the following:

1. Abstain from the use of illicit drugs, alcohol and prescription drugs that have not been prescribed by a physician. There may be situations when a physician's prescription may be questioned by Workplace Services due to the addictive nature of the drug prescribed. In this situation, a release of information must be signed so that Workplace Services and/or the Medical Director can speak directly with the prescribing physician.

2. **Document participation in and completion of a structured intensive outpatient chemical dependency program. This program must meet for a minimum of 4-7 weeks with at least 3-7 group sessions per week (totaling 9-20 hours per week).**

3. **You must call Calvary Addiction Recovery Center, 720 E. Montebello Avenue, Phoenix, AZ 85014 at 602-297-1468 ext. 141 to schedule an intake or first appointment and notify First Advantage Workplace Services (800-200-4819) of your appointment time within 24 hours of receiving this letter.** You must accept the first available appointment offered by the treatment center. **We recommend that you take this letter to your appointment to ensure that you are evaluated for the appropriate program.**

   Workplace Services must receive documentation that you have attended the initial intake session. Please send the enclosed **"Intake Verification Form"** completed by the intake treatment clinician within 24 hours from your initial intake date. The form can be submitted either by fax at 877-205-9731 or by email to complmonitoring@fadv.com. It is your responsibility to assure that Workplace Services receives the documentation in a timely manner.

   Once you have started the program, you will need to document your participation in the program. Enclosed are forms entitled, **"Documentation of Compliance to Treatment and Aftercare Plan."** You must give these forms to your treatment clinician to complete on a *weekly* basis. It is your responsibility to assure that Workplace Services receives the documentation in a timely manner. The forms are to be faxed to 877-205-9731 or emailed to complmonitoring@fadv.com and they must be received within three days of completion of the weekly requirement. All absences must be pre-approved by Workplace

Services and will need to be made-up. Absences from treatment that are not pre-approved may result in a report of non-compliance to Walgreens Co. Your case number **41802** should appear on the forms.

Once you have completed four (4) weeks of treatment or have entered into aftercare, you will need to give your treatment clinician the enclosed **"Summary of Treatment and Aftercare Recommendation"** form to complete. **This will facilitate your face-to-face re-evaluation in order to be returned to your original position.** The form is to be faxed to 877-205-9731 or emailed to complmonitoring@fadv.com and it must be received within three days of completion of the treatment phase.

4. **Documented attendance at 90 self-help meetings (for example: AA/NA) in 90 days** for the duration of treatment. You must begin attending these meetings when you receive this letter and you must continue attending these meetings throughout your treatment. You cannot document attendance to more than one meeting per day. Your treatment clinician should monitor your attendance to self-help. Document attendance on the enclosed "Documentation of Compliance for Self-Help Meetings" form.

5. **Schedule an appointment for an evaluation with a psychiatrist**. Your counselor should be able to assist you in locating an appropriate psychiatrist within your insurance. This psychiatrist must work in conjunction with the treatment facility and Workplace Services. **Submit documentation of the results of this evaluation on the enclosed "Documentation of Compliance to Psychiatric Evaluation" prior to your completion of treatment and prior to your return to work.** Document continued participation with this psychiatrist as directed. Documentation should be submitted on the enclosed "Documentation of Compliance to Medication Management" form.

6. **Once Workplace Services' reassessment process is completed, you will be notified to take a return-to-duty drug and breath alcohol test. When you go to test, you will need to take the appropriate forms with you. Enclosed are both the Forensic Drug Testing Custody and Control Form (CCF) and Walgreens Breath Alcohol Testing Form.** You will need to make additional copies of the breath alcohol testing form. Both tests must be negative in order to be eligible to return to work. **A non-negative test will result in a report of non-compliance to your employer. If you do not take a test before close of business of the collection site on the required testing day, you will be reported non-compliant and subject to termination of employment. Concentra Medical Center, 950 W. Southern Avenue, Tempe, AZ 85282** is your test site. The phone number is **480-968-7200**. You will need to contact the collection site to verify the hours of collection. ## "Last Chance" Agreement for Drug and/or Alcohol Misuse

This letter of Agreement ("Agreement") is entered into by and between Walgreens family of companies (the Company) and Brian Bogdanowicz *(name of team member)* on this date 6/7/17 *(insert date)* in lieu of termination of my employment with the Company as a result of the following (check all that apply):

- ☐ a positive drug test for _____ *[name of substance(s)]*

- ☒ self-identification of substance misuse

I understand that as a result of my confirmed positive drug/alcohol test result or my self-identification of substance misuse, I must comply with the conditions specified in this Agreement in order to continue my employment with Walgreens family of companies. The conditions are as follows:

1. I must undergo an assessment by a Substance Abuse Professional (SAP), who will determine my need for a program of education, treatment, and/or rehabilitation regarding the misuse of alcohol and/or the misuse of controlled or illicit substances. I further understand that:
   a. I am financially responsible for all costs associated with the rehabilitation program and any after-care requirements. The Company will pay for case management and assessments, as well as any compliance monitoring costs.
   b. I must comply with all terms of the rehabilitation, education, and/or treatment program(s).
   c. I must comply with a written after-care plan received from the Company's Substance Abuse Professional (SAP), First Advantage Corporation (FADV) SAP Services; I authorize the release of a copy of this plan to Walgreens family of companies' management on a need to know basis.

   e. I must execute and not revoke any written consents necessary to authorize the release of medical information from my personal physician and/or other necessary medical practitioners to the assessor, treatment provider, FADV Medical Review Officer (MRO), or FADV SAP for the purpose of determining level of care and compliance monitoring.
   f. I must execute and not revoke any written consents necessary to authorize the assessor, treatment provider, FADV MRO, FADV SAP, and the Company Insurance and Human Resources departments/divisions to release information to each other and to my manager regarding my participation in, attendance at, and compliance with the program, the after-care plan, and the return-to-work letter.
   g. I understand that my failure to comply with any portion of the program as required, or to discontinue my participation in the program, will result in being reported non-compliant by FADV SAP Services, which will result in termination of my employment with Walgreens family of companies.

   b. I must schedule the initial assessment with a local Substance Abuse Professional within 72 hours of the referral by FADV SAP Services. I will take the local Substance Abuse Professional's first available appointment.
   c. Following the initial assessment, FADV SAP Services will work with the local SAP to make recommendations for my care. I must schedule any required appointments to start compliance with FADV SAP's recommendations within 72 hours of receipt of the recommendations and will take the first available appointment. Educational treatment will begin as soon as possible.
   d. I understand that failure to abide by this timeline will result in termination of my employment.

3. I will submit to periodic, unannounced drug and/or alcohol testing at any location specified by FADV SAP Services both prior to returning to work and for the period specified by FADV SAP Services following my return to work. I understand that for the first year of this program, I will be required to call an 800 number daily to determine if I am required to take a follow-up drug test. I also understand that my employment will be terminated with Walgreens family of companies if any test I am required to take is positive.

I understand that the above conditions will be binding upon me for a period of one to five years (as determined by FADV SAP Services) commencing on the date shown below. It will be my obligation to observe all of the conditions set forth in this letter. Violation of any of these conditions may result in termination of my employment. I understand that this Agreement does not alter my right to resign with or without notice, nor is it intended to alter the Company's right to terminate my employment "at will" for any reason it deems sufficient, with or without notice. If at any time, FADV no longer acts as the Company's SAP, I understand that this agreement will continue and that I will comply with all directions provided to me by the Company's new SAP and that I will provide the written consents referenced in paragraphs 1(e) and 1(f) above to the Company's new SAP.

I have read and understand this Agreement and certify that I am entering into it knowingly, voluntarily and with full knowledge of its significance. I have not been coerced, threatened, or intimidated into signing this Agreement and have had a reasonable period of time to consider the Agreement. **(4) the Defendant has NO pending DUI (felony or misdemeanor) cases other than this case.**
**(5) the Defendant has 0 prior misdemeanor DUI convictions.**

If the Defendant fails to appear for sentencing, the court may disregard the stipulated sentence and impose any lawful sentence which is the same as or exceeds the stipulated sentence in the plea agreement. In the event the court rejects the plea, or either the State or the Defendant withdraws the plea, the Defendant hereby waives and gives up his/her right to a preliminary hearing or other probable cause determination on the original charges.

(BB) 6. Unless this plea is rejected by the court or withdrawn by either party, the Defendant hereby waives and gives up any and all motions, defenses, objections, or requests which he/she has made or raised, or could assert hereafter, to the court's entry of judgment against him/her and imposition of a sentence upon him/her consistent with this agreement. By entering this agreement, the Defendant further waives and gives up the right to appeal.

(BB) 7. The parties hereto fully and completely understand and agree that by entering into a plea agreement, the defendant consents to judicial fact finding by preponderance of the evidence as to any aspect or enhancement of sentence and that any sentence either stipulated to or recommended herein in paragraph two is not binding on the court. In making the sentencing determination, the court is not bound by the rules of evidence. The State's participation in this plea agreement is conditional upon the Court's acceptance its terms conditions or provisions. If after accepting this plea the court concludes that any of the plea agreement's terms conditions or provisions regarding the sentence or any other aspect of this plea agreement are inappropriate, it can reject the plea. If the court decides to reject any of the plea agreement's terms conditions or provisions, it must give both the state and the Defendant an opportunity to withdraw from the plea agreement. Should the Court reject this plea agreement, or the State withdraws from the agreement, the Defendant hereby waives all claims of double jeopardy and all original charges will automatically be reinstated. The Defendant in such case waives and gives up his/her right to a probable cause determination on the original charges

(BB) 8. If the court decides to reject the plea agreement provisions regarding sentencing and neither the State nor the Defendant elects to withdraw the plea agreement, then any sentence either stipulated to or recommended herein in paragraph 2 is not binding upon the court, and the court is bound only by the sentencing limits set forth in paragraph 1 and the applicable statutes.

(BB) 9. This plea agreement in no way affects any forfeiture proceedings pursuant to A.R.S. §13-4301 et seq., §13-2314, or § 32-1993, if applicable, nor does the plea agreement in any way compromise or abrogate any civil actions, including actions pursuant to A.R.S. §13-2301 et seq. or §13-4301 et seq., or the provisions of A.R.S. §13-2314 or A.R.S. §13-4310.

(BB) 10. I understand that if I am not a citizen of the United States, or was not a citizen at the time of the commission of the offense to which I am pleading, that my decision to go to trial or enter into a plea agreement may have immigration consequences. Specifically, I understand that pleading guilty or no contest to a crime may affect my immigration status. Admitting guilt may result in deportation even if the charge is later dismissed. My plea or admission of guilt could result in my deportation or removal, could prevent me from ever being able to get legal status in the United States, or could prevent me from becoming a United States citizen. I understand that I am not required to disclose my legal status in the United States to the court.

11. I have read and understand the provisions of pages one, two, and three of this agreement. I have discussed the case and my constitutional rights with my lawyer. My lawyer has explained the nature of the charge(s) and the elements of the crime(s) to which I am pleading. I understand that by pleading GUILTY I will be waiving and giving up my right to a determination of probable cause, to a trial by jury to determine guilt and to determine any fact used to impose a sentence within the range stated above in paragraph one, to confront, cross-examine, compel the attendance of witnesses, to present evidence in my behalf, my right to remain silent, my privilege against self-incrimination, presumption of innocence and right to appeal. I agree to enter my plea as indicated above on the terms and conditions set forth herein. I fully understand that if, as part of this plea agreement, I am granted probation by the court, the terms and conditions thereof are subject to modification at any time during the period of probation. I understand that if I violate any of the written conditions of my probation, my probation may be terminated and I can be sentenced to any term or terms stated above in paragraph one, without limitation.

I have personally and voluntarily placed my initials beside each of the above paragraphs and signed the signature line below to indicate that I read, or had read to me, understood and approved all of the previous paragraphs in this agreement, both individually and as a total binding agreement. My plea is voluntary and not the result of force, or threat, or promises other than those contained in the plea agreement.

**Provide explanation below:**

Explanatory Answer for Section 9, Questions #1

In late February 2021, after speaking with Board investigators regarding the matter discussed further in my answer to Question #3, I sought help regarding my use of substances. I began attending Narcotics Anonymous in late February 2021 and sought individual therapy. I began voluntarily submitting to urine drug screens in March 2021 and have continued doing so until present; all my screens have been negative to date.
In September 2021 I entered the Washington Recovery Assistance Program for Pharmacy and have remained in compliance with all terms of the WRAPP contract.
In May 2023 I sought an updated substance abuse assessment with Mark Chase of the PRN program, a copy of which I am happy to provide to the Board upon request.
I continue to engage in on-going recovery activities including continuing with individual counseling, participation in Narcotics Anonymous, and continue to submit to random monitoring for substances.

Explanatory Answer for Section 9, Question #3

On May 28, 2021, the Nevada Board of Pharmacy issued an Accusation alleging six counts of violations of state and federal law governing the practice of pharmacy. Specifically, the Accusation alleged that I had diverted medications, including controlled substances, for my personal use during my employment as a pharmacist. On July 14, 2021, after a hearing, the Board revoked my Nevada certificate of registration, and I was prohibited from petitioning for reinstatement for a period of two years.
On June 29, 2022, the Washington Pharmacy Quality Assurance Commission filed a Statement of Charges based on the action taken by Nevada against my certificate of registration. On June 30, 2022, Washington summarily suspended my Washington credential to practice as a pharmacist; also based on the Nevada action. On August 18, 2022, the Commission accepted and approved a Stipulated Findings of Fact, Conclusions of Law and Order which lift the summary suspension and indefinitely suspended my Washington credential. I was allowed to petition for reinstatement upon completion of a substance abuse evaluation and entry into the Washington Recovery Assistance Program for Pharmacy (WRAPP). On May 9, 2023, Washington reinstated my pharmacist credential subject to my continued participation and compliance with WRAPP.

Explanatory Answer for Section 9, Question #4

The action taken by the Nevada Board of Pharmacy as described in the explanatory answer to Question #3 was taken for violations of pharmacy/drug laws as described in the Findings of Fact, Conclusions of Law and Order related to diversion of substances for my personal use.

This matter came before the Nevada State Board of Pharmacy (Board) at its regularly scheduled meeting on Wednesday, July 14, 2021. Brett Kandt, Esq., prosecuted the case before the Board. Respondent Aurora Bejto, R.Ph., Certificate of Registration No. 18384, appeared with counsel, Hal Taylor, Esq. The Board heard the case and, based on the evidence presented, the Board makes the following Findings of Fact, Conclusions of Law and Order.

## FINDINGS OF FACT

1. At the time of the events set forth herein, Respondent Aurora Bejto, R.Ph., Certificate of Registration No. 18384, was a pharmacist registered by the Board.

2. Respondent was employed as a pharmacist at both Omnicare of Nevada (Omnicare), located at 9475 Double R Boulevard - Suite 8, Reno, and at several Northern Nevada Raley's pharmacies at the time of the events set forth herein.

3. Omnicare and Raley's submitted DEA Form 106 documentation to the Board reporting the theft of controlled substances in December 2020 and January 2021. The subsequent investigation produced evidence that Respondent diverted the following controlled substances for her personal use:

Omnicare of Nevada [9475 Double R Boulevard - Suite 8, Reno]
43 tablets - 7.5 mg/325 mg Hydrocodone-Acetaminophen
28 tablets - 5 mg/325 mg Hydrocodone-Acetaminophen
20 tablets - 10 mg/325 mg Hydrocodone-Acetaminophen
10 tablets - 5 mg/325 mg Hydrocodone-Acetaminophen
Time period of theft (or first discovery): 12/6/2020 to 12/20/2020

Raley's Pharmacy #105 [1630 Robb Drive, Reno]
99 tablets - 10 mg Zolpidem
101 tablets - 1 mg Alprazolam
Raley's Pharmacy #109 [1363 Hwy. 395 North, Gardnerville]
89 tablets - 10 mg Zolpidem
Raley's Pharmacy #115 [1075 North Hills Boulevard, Reno]
389 tablets - 10 mg Zolpidem
Raley's Pharmacy #122 [1400 State Route 95A, Fernley]
281 tablets - 10 mg Zolpidem
Time period of theft (or first discovery): 1/11/2021 to 2/23/2021

4. On or about February 22, 2021, Board staff contacted Respondent as she reported for work at the Post-Acute Medical Pharmacy in Sparks, at which time she denied working at Omnicare in December 2020, and denied diverting controlled substances from the pharmacy. That afternoon, Respondent was interviewed at the Board office with counsel present; during the course of the interview, she admitted that she began stealing Ambien (Zolpidem) from Omnicare pharmacy while conducting inventory in October 2020, that she diverted Hydrocodone-Acetaminophen on one occasion only while conducting inventory in November 2020, and that she diverted Ambien (Zolpidem) on one occasion from Raley's Pharmacy #106 located at 701 Keystone Avenue, Reno, in December 2020. Respondent denied any other thefts of controlled substances.

5. On or about March 10, 2021, Respondent signed a written admission to diverting Ambien (Zolpidem) from Raley's sometime in September or October 2019, diverting Hydrocodone-Acetaminophen from Omnicare of Nevada during the week of October 19, 2020, and diverting Ambien (Zolpidem) from Omnicare of Nevada on or about December 6, 2020.

6. Board staff incurred at least $3,487.07 in attorney's fees and recoverable costs from investigating and prosecuting this administrative action. The attorney's fees and costs are reasonable based upon legal counsel's professional qualities, the nature of this administrative enforcement action, the work performed, and the result as evidenced by this Order.

## FACTUAL ALLEGATIONS

21. On or about February 20, 2020, a Board Investigator conducted an inspection at Respondent Paseo, following up on an investigation of its controlled substance dispensing practices. Respondent Paseo specialized in non-sterile compounded drug preparations, and was in the process of remodeling in order to compound hazardous drugs. Respondent Stetzer, the Pharmacist in Charge and Respondent Bereliani, staff pharmacist were present during the inspection. On or about February 25, 2020, the Board received records from Respondent Paseo, which included prescription records and a USB drive of electronic dispensing records. The investigation revealed that Respondent Paseo, Respondent Stetzer, Respondent Kohanmehr and Respondent Bereliani dispensed controlled substance prescriptions without ensuring legitimacy. All Respondents failed to fulfill their corresponding responsibility by dispensing controlled substances without resolution of irregularities. These prescriptions were presented with many objective factors of irregularity and red flags of illegitimacy, and all Respondents failed to use available records and professional judgment when dispensing these controlled substances. The investigation revealed that Respondent Stetzer managed and operated Respondent Paseo in an unprofessional manner by dispensing, or allowing to be dispensed, controlled substance prescriptions and ignoring, or not being aware of, objective signs of irregularity and abuse.

**11521.** (a) The agency itself may order a reconsideration of all or part of the case on its own motion or on petition of any party. The agency shall notify a petitioner of the time limits for petitioning for reconsideration. The power to order a reconsideration shall expire 30 days after the delivery or mailing of a decision to a respondent, or on the date set by the agency itself as the effective date of the decision if that date occurs prior to the expiration of the 30-day period or at the termination of a stay of not to exceed 30 days which the agency may grant for the purpose of filing an application for reconsideration. If additional time is needed to evaluate a petition for reconsideration filed prior to the expiration of any of the applicable periods, an agency may grant a stay of that expiration for no more than 10 days, solely for the purpose of considering the petition. If no action is taken on a petition within the time allowed for ordering reconsideration, the petition shall be deemed denied.

(b) The case may be reconsidered by the agency itself on all the pertinent parts of the record and such additional evidence and argument as may be permitted, or may be assigned to an administrative law judge. A reconsideration assigned to an administrative law judge shall be subject to the procedure provided in Section 11517. If oral evidence is introduced before the agency itself, no agency member may vote unless he or she heard the evidence.

57. The Board investigation further determined that that between July 20, 2013, and July 20, 2016, respondent Pharmacy and respondent Ghadishah failed to exercise or implement their best professional judgment or failed to exercise or implement their corresponding responsibility to ensure that controlled substances were dispensed for a legitimate medical purpose. They failed to evaluate the totality of the circumstances to determine whether controlled substances prescriptions they filled and dispensed served legitimate medical purposes, including evaluating information from and about the patients receiving prescriptions for controlled substances, information from and about the physicians prescribing those controlled substances, and information about how the medications prescribed related to patients' diagnoses and their overall course of treatment. They also ignored information available to them that could have helped them determine whether the controlled substance prescriptions they filled were for legitimate medical purpose. Respondent Ghadisha was the PIC of respondent Pharmacy during the period between May 1, 2014 and November 1, 2015.

58. As part of its investigation from December 2016 to February 2017, Board Inspectors reviewed the pharmacy's drug inventories, its drug usage reports, selected patient prescription profiles, drug acquisition records, and reviewed reports from the Controlled Substances Utilization Review and Evaluation System, also known as CURES.

59. CURES is a system for monitoring patient controlled substance history information. (See Health and Safety Code section 11165, and Code section 209.) (See also *In the Matter of the Accusation Against Pacifica Pharmacy; Thang Tran* (August 9, 2013) Board of Pharmacy Case No. 3802, Precedential Decision No. 2013-01, page 6, n.1, available at http://www.pharmacy.ca.gov/enforcement/precedential.shtml.)

60. Health and Safety Code section 11165 requires pharmacies to report within seven (7) days to the California Department of Justice every schedule II, III and IV drug prescription that is written or dispensed, and the information provided establishes the CURES database, which includes information about the drug dispensed, drug quantity and strength, patient name, address, prescriber name, and prescriber authorization number including DEA number and prescription number. (See Health & Safety Code section 11165.) (*In the Matter of the Accusation Against Pacifica Pharmacy; Thang Tran*, *supra*, at p. 6.) The CURES database is intended to allow licensed healthcare prescribers and pharmacists the ability to access patient controlled substance history information. (See Health and Safety Code section 11165, and Code section 209 [requiring DOJ and the Department of Consumer Affairs to streamline process to allow licensed health care practitioners and pharmacists to access CURES and run reports.])

61. The following factors are some that have been determined to constitute red flags that should give a pharmacy and pharmacist inquiry notice of a potential problem with prescriptions for drugs of common abuse and invoke in them a duty of inquiry:

- Irregularities on the face of the prescription itself
- Nervous patient demeanor
- Age or presentation of patient (e.g. youthful patients seeking chronic pain medications)
- Multiple patients at the same address

- Cash payments
- Requests for early refills of prescriptions
- Prescriptions written for an unusually large quantity of drugs
- Prescriptions written for potentially duplicative drugs
- The same combinations of drugs prescribed for multiple patients
- Initial prescriptions written for strong opiates (e.g. OxyContin 80 mg)
- Long distances traveled from the patient's home, to the prescriber's office or pharmacy
- Irregularities in the prescriber's qualifications in relation to the medication(s) prescribed
- Prescriptions that are written outside of the prescriber's medical specialty
- Prescriptions for medications with no logical connection to diagnosis or treatment

62. Board Inspectors reviewed the CURES report for respondent Pharmacy for the period of July 20, 2013 through July 20, 2016. The records provided included all controlled substance prescriptions (Schedule II-IV) filled at respondent Pharmacy within that time frame.

63. According to the CURES data, respondent Pharmacy filled 5,230 controlled substance prescriptions (Schedule II-IV) during the query period. Out of these 5,230 controlled substance prescriptions, 1,572 were filled for generic oxycodone (Schedule II controlled substance); and 12 were filled for OxyContin (Schedule II controlled substance); and 1,428 were filled for generic alprazolam (Schedule IV controlled substance). Out of 1,572 generic oxycodone prescriptions, 1,559 were filled for generic oxycodone 30 mg (which was 99.1% of the total number of prescriptions filled for generic oxycodone). Because the majority of the prescriptions were filled for generic oxycodone 30 mg (a higher strength of oxycodone usually used for an opioid tolerant patient), it was a factor of irregularity or red flag for a prescriber to initially prescribe oxycodone 30 mg instead of 5 to 15 mg, which was then titrated (adjusted) based on the individual patient's response to the initial dose.

64. During the query period (based on the CURES data), approximately 24.41% of generic oxycodone 30 mg prescriptions and 17.65% of alprazolam 2 mg prescriptions filled at

respondent Pharmacy were paid for by billing prescription insurance. Approximately 35.81% of generic oxycodone 30 mg, and 22.02% of alprazolam prescriptions were paid for in "cash," meaning without the assistance of prescription insurance. Because of the higher percentage of prescriptions filled as cash for oxycodone 30 mg and alprazolam 2 mg compared to billing insurances, this was a factor of irregularity or red flag.

65. During the query period, Dr. Goldstein's oxycodone 30 mg prescriptions filled at Respondent Pharmacy by different patients, located at different addresses, had script numbers which were in consecutive order. These consecutively numbered prescriptions were all prescribed on the same day, and the majority of the prescriptions were filled for different patients on the same day, as shown in the table below:

a. Table: Prescriptions filled at respondent Pharmacy that had script numbers in consecutive order.

b. Because nearly all of Dr. Goldstein's prescriptions written for different patients and filled at respondent Pharmacy were in consecutive order (with some of these prescriptions written for different patients filled by respondent Pharmacy on the same day), it was a factor of irregularity or red flag, since it was unlikely that prescriptions written in consecutive order, for different patients, would get filled at one pharmacy, on the same day.

66. During the query period, Dr. Goldstein, Dr. Piety, and Dr. Prosser prescribed the following total count of prescriptions dispensed at respondent Pharmacy, as shown in the table below:

a. Table: Based on CURES, count of oxycodone, alprazolam, and carisoprodol controlled substance prescriptions prescribed by the following doctors at respondent Pharmacy from July 20, 2013 to July 20, 2016.

/ / /

/ / /

| Doctor's Name | Name of Medication | Total Quantity of Prescriptions |
|---|---|---|
| Dr. Goldstein | Oxycodone HCL, 30mg, tab | 27 |
| | Alprazolam, 2mg, tab | 9 |
| | Carisoprodol, 350mg, tab | 4 |
| Dr. Piety | Oxycodone HCL, 30mg, tab | 105 |
| | Alprazolam, 2mg, tab | 14 |
| | Carisoprodol, 350mg, tab | 2 |
| Dr. Prosser | Oxycodone HCL, 30mg, tab | 57 |
| | Alprazolam, 2mg, tab | 17 |
| | Carisoprodol, 350mg, tab | 1 |

67. Because the majority of prescriptions filled at respondent Pharmacy for Dr. Goldstein, Dr. Piety, and Dr. Prosser were written for oxycodone 30mg (a pain reliever) and alprazolam (an anti-anxiety medication), it was a factor of irregularity or red flag for the patients of Dr. Goldstein, Dr. Piety, and Dr. Prosser to suffer from the same aliments necessitating the same combination of medications.

68. Two medications, oxycodone 30 mg, for quantities of 100 to 120 tablets (1,381 prescriptions of oxycodone 30 mg out of 1,572 total prescriptions filled for generic oxycodone); and generic alprazolam 2 mg, for quantities of 30 to 60 tablets (1,026 prescriptions of alprazolam 2 mg) out of 1,428 total prescriptions filled for generic alprazolam) comprised the majority of the controlled substance prescriptions dispensed by respondent Pharmacy during the query period. Because the majority of prescriptions filled at respondent Pharmacy during the query period were dispensed for large quantities of oxycodone 30 mg (the highest strength dosage of the most commonly abused controlled substance) and alprazolam 2 mg (another commonly abused controlled substance) - which were then dispensed to many different patients, this was a factor of irregularity or red flag because it was unlikely for one pharmacy to dispense mostly the same combination of drugs, in this case oxycodone 30 mg and alprazolam 2 mg, to many different patients.

69. After reviewing the CURES data for respondent Pharmacy, Board Inspectors identified patients for Dr. Prosser/Dr. Piety that also had prescriptions issued by Dr. Goldstein, who were obtaining oxycodone 30 mg and were outside of the service area for respondent Pharmacy and/or Dr. Prosser/Dr. Piety. As shown by the table below, these patients were traveling long distances between respondent Pharmacy, the provider and their residence to obtain controlled substances. In most examples, the patients were traveling long distances to both the prescriber and respondent Pharmacy to have their prescriptions filled, which was a factor of irregularity or red flag.

a. Table: Patient, prescriber, and respondent Pharmacy distance evaluation.

b. Prescription blanks for Dr. Goldstein had two or three different addresses listed, which included addresses in the cities of Orange, Van Nuys, and Simi Valley, California. The prescriptions were marked with either the Van Nuys or Simi Valley address. However, all of the prescriptions were typed using Dr. Goldstein's Orange, California address. Dr. Goldstein's

[1] The patients' address information is not provided in the table in order to protect the privacy rights of those individuals.

[2] The Board was unable to fully determine where Dr. Goldstein's office was located, thus only Dr. Piety and Dr. Prosser's office location was used to compare the distance traveled by the patients of Dr. Piety and Dr. Posser to their office and to respondent Pharmacy.

location in Orange, California was approximately 45.6 miles away from respondent Pharmacy, located in Los Angeles, California.

70. The factors of irregularity or red flags with respect to the listed practitioners' prescriptions were such that a prudent pharmacist could have reasonably concluded that these were not medically legitimate prescriptions. The pharmacist reviewing these prescriptions should have noted the highly irregular prescribing patterns of the practitioners, the irregular or non-compliant prescription documents, the distance patients travelled to obtain these prescriptions, and the patients' profiles consisting almost exclusively of controlled substances, often at the highest available does. In addition, the prescribing patterns for Drs. Piety and Prosser appear to be incongruent with the physicians' specialty listed on the California Medical Board website. For example, Dr. Piety and Dr. Prosser, both Family Medicine practitioners, prescribed primarily oxycodone 30 mg, promethazine/codeine cough syrup, and Xanax 2 mg tablets more often than any other medication during the query period. The red flags in the prescribers' prescriptions amounted to significant irregularities or uncertainties the pharmacist was required to address. In addition to these significant irregularities, Drs. Piety and Prosser advised a Board Inspector that they did not write the prescriptions filled at respondent Pharmacy under their prescribing authority. It appears then that Drs. Piety and Prosser would have been able to identify these fraudulent prescriptions if they had been contacted by respondent Pharmacy or respondent Ghadishah to verify or validate the prescriptions.

71. The Board investigation further determined that between July 20, 2013 and July 20, 2016, respondent Pharmacy, respondent Ghadishah, and respondent Mohammadi filled several controlled substance prescriptions under the prescribing authority of Dr. Goldstein, Dr. Prosser, and Dr. Priety, for prescriptions that were written on forms which did not comply with Health and Safety Code section 11162.1, to wit, the check boxes to indicate the number of refills were omitted from these prescription forms. Respondent Ghadishah was the PIC of respondent Pharmacy during the period between May 1, 2014 through November 1, 2015.

**BOARD INVESTIGATION REPORT DATED FEBRUARY 9, 2018**

75. From September 2017 through early February 2018, the Board conducted an investigation of respondent Pharmacy, which included an inspection of respondent Pharmacy. The Board Inspector obtained documents from respondent Pharmacy, along with others from

reliable sources, and thereafter determined that violations of Pharmacy Law occurred.

76. The Board investigation determined that respondent Pharmacy failed to ensure that possession of a key to the pharmacy where dangerous drugs and controlled substances are stored was restricted to a pharmacist. The Board investigation also determined that respondent Pharmacy failed to ensure that when a pharmacy owner has possession of a key to the pharmacy to provide access in case of an emergency, that such key be secured in a tamper-evident container. Specifically, on or about November 2, 2017, at approximately 9:00 a.m., a Board Inspector observed pharmacy technician V.N. (TCH V.N.) open respondent Pharmacy before the arrival of the pharmacist-in-charge at that time. When the pharmacist-in-charge arrived at respondent Pharmacy, the Board Inspector observed TCH V.N. retrieve a key from an amber vial and hand the key over to the pharmacist-in-charge, who then unlocked the door to respondent Pharmacy, where dangerous drugs and/or controlled substances were stored.

77. The investigation further determined that respondent Pharmacy dispensed controlled substances which deviated from the requirements of the prescriptions without the prior consent of the prescribers. Specifically, a review of respondent Pharmacy's prescription records between 2014 and 2016 revealed that respondent Pharmacy added one additional refill during the process of transferring five (5) prescriptions from Century Discount Pharmacy to respondent Pharmacy, as set forth in more detail in the table, below.

a. Table: Prescriptions filled at respondent Pharmacy with one additional refill added

| Rx No. | Date of Service | Date Written | Comment by Board Inspector |
|---|---|---|---|
| 581210 | 6/2/2015 | 6/2/2015 | Rx No. 476954 was transferred from Century Discount Pharmacy to respondent Pharmacy on 6/2/15. Rx No. 476954 was issued on 3/30/15 by Dr. Manavi with two (2) refills. Last refill date was 5/1/2015 and the remaining refill was one. This means the prescription can only dispense one time. After transferring Rx No. 476954, respondent Pharmacy dispensed Rx No. 581210 on 6/2/2015 with one (1) refill, instead of zero (0) refills. |

|---|---|---|---|
| 581615 | 6/10/2015 | 6/10/2015 | Rx No. 479630 was transferred from Century Discount Pharmacy to respondent Pharmacy on 6/10/15. Rx No. 479630 was issued on 6/10/15 by Dr. Zarian with two (2) refills. This means the prescription can only dispense three times. After transferring Rx No. 479630, respondent Pharmacy dispensed Rx No. 581615 on 6/10/2015 with three (3) refills, instead of two (2) refills. |
| 582285 | 6/29/2015 | 6/29/2015 | Rx No. 477335 was transferred from Century Discount Pharmacy to respondent Pharmacy on 6/29/2015. Rx No. 477335 was issued on 4/13/2015 by Dr. Nourparvar with four (4) refills. Last fill was 6/2/2015 and there were three (3) remaining refills. This means the prescription can only dispense three (3) more times. After transferring Rx No. 477335, respondent Pharmacy dispensed Rx No. 582285 on 6/29/2015 with three (3) refills, instead of two (2) refills. |
| 585320 | 9/16/2015 | 9/16/2015 | Rx No. 474842 was transferred from Century Discount Pharmacy to respondent Pharmacy on 9/16/2015. Rx No. 474842 was issued on 2/13/2015 by Dr. Azizad with three (3) refills. The last fill date was 8/11/2015 and there were two (2) remaining refills. This means the prescription can only dispense two (2) more times. After transferring Rx No. 474842, respondent Pharmacy dispensed Rx No. 585320 on 9/16/2015 with two (2) refills, instead of one (1) refill. |
| 586697 | 10/22/2015 | 10/22/2015 | Rx No. 481285 was transferred from Century Discount Pharmacy to respondent Pharmacy on 10/22/2015. Rx No. 586697 was issued on 8/19/2015 by Dr. Cairo with eleven (11) refills. The last refill date was 9/25/2015 and there were ten (10) remaining refills. This means the prescription can only dispense ten (10) more times. After transferring Rx No. 481285, Respondent Pharmacy dispensed Rx No. 586697 on 10/22/2015 with ten (10) refills, instead of nine (9) refills. |

**SEVENTH CAUSE FOR DISCIPLINE**

**(Dispensing Controlled Substances with Variations from Prescriptions)**

**(As to respondent Pharmacy)**

79. Respondent Pharmacy is subject to disciplinary action under Code section 4301, subdivision (o), for violating Code section 4063 and California Code of Regulations, title 16, section 1716. Complainant hereby incorporates paragraphs 75 and 77 above as though set forth in full herein.

**BOARD INVESTIGATION REPORT DATED SEPTEMBER 8, 2020**

80. A Board investigation at another pharmacy determined that John Korzelius, M.D. Physician's Assistant, JE (PA JE), failed to act in the usual course of her professional practice by prescribing controlled substances to patients for illegitimate medical purposes. A review of CURES records by the Board discovered that respondent Pharmacy also dispensed controlled substance prescriptions written under the prescribing authority of PA JE. Accordingly, an internal Board complaint was filed and an investigation of respondent Pharmacy was initiated to evaluate the legitimacy and appropriateness of respondent Pharmacy's dispensing of controlled substances and/or dangerous drugs.

81. This is a second corresponding responsibility case following one completed in February 2018. An internal review by the Board determined respondent Pharmacy potentially continued failing to exercise their corresponding responsibility to only dispense medically legitimate controlled substance prescriptions. The investigation substantiated the allegations and found the pharmacy continued to dispense controlled substances pursuant to orders written on

non-compliant controlled substance prescription documents, made multiple prescription errors, and operated without a pharmacist-in-charge for a period of greater than 30 days.

82. The Board Inspector analyzed the CURES data for respondent Pharmacy from April 27, 2017 – April 27, 2020 and identified factors of irregularity or red flags consistent with possible illegitimate prescribing and indiscriminate pharmacy dispensing pertaining to multiple other prescribers. Due to the Coronavirus pandemic and shelter-in-place order, the Board Inspector was unable to perform an inspection at respondent Pharmacy. Hence, on April 29, 2020, the Board Inspector sent an e-mail to respondent Pharmacy requesting the following:

- Original prescription documents potentially displaying illegitimate prescribing based on her CURES data analysis.
- Respondent Pharmacy's electronic dispensing records from 04/27/2017 - 04/27/2020.
- Any and all notes pertaining to the requested prescriptions or patients.

83. As part of this investigation, the Board Inspector requested and received from respondent Pharmacy a sample of prescriptions written under the prescribing authority of PA JE and six physicians, to wit: Bhasker Venkateswaralu, M.D., Joseph Dinglasan, M.D., Jared Piety, M.D., Rahil Khan, M.D., Randall Gilbert, M.D., and John Korzelius, M.D.

84. The following is an analysis of respondent Pharmacy's electronic dispensing records from April 27, 2017 through April 27, 2020:

- Respondent Pharmacy dispensed 60,622 prescriptions.
- Non-controlled medications: 57,192 prescriptions (94%).
- Controlled medications: 3,430 prescriptions (6%).
- The number of non-controlled medications that are commercially available is greater than controlled medications, therefore, these percentages were not unusual for a retail pharmacy.
- Payment method for all medications (controlled and non-controlled) dispensed during the query period was approximately 11% cash and 89% third party (this number includes both insurance and discount cards, which are essentially considered cash payment).
- 10% of non-controlled medications were paid for with cash.
- 39% of controlled medications were paid for with cash.

- The percentage of cash payment for controlled substances was approximately four times that of non-controlled substances. Typically, patients do not desire to pay high out-of-pocket costs for medications and therefore prefer the assistance of insurance. The high percentage of cash payment for controlled medications was irregular for a retail pharmacy.
- 65% of the schedule II controlled substance medications were paid for with cash.
- This was almost seven times greater than non-controlled medications and over 1.5 times that of all controlled substances dispensed by respondent Pharmacy, which was a factor of irregularity or red flag.
- The number one drug dispensed by respondent Pharmacy was the highly abused schedule II controlled substance, oxycodone 30 mg.
- As previously mentioned, 94% of the drugs dispensed by respondent Pharmacy were non-controlled substances.
- Schedule II controlled substances only accounted for 3% (l,675/60,622) of the drugs dispensed by the respondent Pharmacy
- Hence, it was a glaring factor of irregularity or red flag for a schedule II controlled substance to be the top drug dispensed by respondent Pharmacy.
- It was also a factor of irregularity for one drug, oxycodone 30 mg, to account for 79% (l,323/1,675) of the schedule II controlled substances dispensed by respondent Pharmacy.
- Oxycodone immediate-release tablets are available in 5, 10, 15, 20 and 30 mg tablets. All but two oxycodone prescriptions dispensed by respondent Pharmacy were for the highest strength oxycodone. This was a factor of irregularity or red flag for the following reasons:
- Given oxycodone therapy should be initiated at the lowest effective dosage as the risk associated with use, especially fatal respiratory depression, increases with higher dosages, one would expect to find lower doses dispensed by respondent Pharmacy at much greater frequencies.
- Additionally, a great variability exists between patients such as age, weight, drug allergies, medical histories, tolerance to narcotic medications, and preferences regarding their drug therapy plan. Due to this interpatient variability, a prescriber would often choose different strengths of the same medication to treat their patients.

- 73% of respondent Pharmacy's oxycodone prescriptions were paid for with cash, which was a factor of irregularity or red flag.

85. The two investigations illuminated the level of respondent Pharmacy's and its pharmacists' incompetence, negligence and flagrant disregard for the laws adopted by the California State Board of Pharmacy to protect patients. Respondent Pharmacy and its pharmacists filled non-compliant controlled substance prescriptions, ignored glaring red flags and factors of irregularity, dispensed high dose opioids to naive patients and made prescription errors. After the initial investigation, either respondent Pharmacy did not understand the underlying principles of red flags and corresponding responsibility and how to apply changes to comply with pharmacy law, or it and its pharmacists deliberately disregarded them in order to turn a profit from the illegitimate distribution of controlled substances. In either case, the actions of respondent Pharmacy were more aligned with those of a pill-mill rather than a legitimate pharmacy entrusted with the public's well-being and safety.

**Allegations against respondent Pharmacy**

86. As documented in the Board Investigation Report dated September 8, 2020, the Board Inspector determined that between April 27, 2017 and April 27, 2020, respondent Pharmacy committed multiple violations of Pharmacy Law, as follows.

87. Respondent Pharmacy dispensed at least 1,274 controlled substance prescriptions (and 122,307.5 units of controlled substances) in the presence of multiple factors of irregularity or red flags, evidencing that they were not written for legitimate medical purposes. These multiple factors of irregularity or red flags included the following:

- A large percentage of the prescription written by various prescribers were for highly abused controlled substances.
- Utilizing cash payment instead of a third party for controlled substances.
- The prescribing profiles of various prescribers being seemingly incongruent with their self- reported areas of practice on the Board of Medicine's online database. Additionally, their prescribing patterns were unusually limited, with a small number of commonly abused controlled substances accounting for a large percentage of the total prescriptions.

- The highest strength of oxycodone, 30 mg, was prescribed by various prescribers to all patients receiving the medication without regard for interpatient variability. Most of the prescriptions listed identical quantities and directions for use.
- Multiple patients being diagnosed with similar or identical ailments by the same prescriber.
- Patients travelling excessive distances between the medical offices of various prescribers and the pharmacy.
- Patients presenting to the pharmacy with prescriptions for identical controlled substances, strengths and directions for use. These prescriptions were assigned consecutive or nearly consecutive pharmacy prescription numbers indicating they were processed sequentially.
- Prescriptions for controlled substances written on prescription documents lacking multiple security features and failing to comply with HSC section 11162.1.
- Respondent Pharmacy dispensed at least 539 controlled substance prescriptions (and 50,427 tablets of controlled substances) written on non-compliant prescription documents.
- Opioid naïve patients (those who had not filled an opioid for over two months) presenting with prescriptions for the highest strength oxycodone, 30 mg, and mostly at total daily doses of almost three times the recommended safe dose.
- Supporting documentation intimated CURES was checked by respondent Pharmacy to inquire about the controlled substance dispensing histories of the various patients. However, the information was either inappropriately scrutinized or simply ignored, as respondent Pharmacy dispensed 446 prescriptions to opioid naïve patients.

88. The Board investigation determined that during the period in question, respondent Pharmacy dispensed 19 prescriptions with incorrect directions for use and two prescriptions written for OxyContin 30 mg as oxycodone 30 mg.

89. The Board investigation further determined that during the period in question, respondent Pharmacy dispensed 539 controlled substance prescriptions which were written on prescription documents lacking multiple required security features and failing to comply with Health and Safety Code section 11162.1.

90. The Board investigation also determined that according to Board of Pharmacy records, respondent Pharmacy was operating without a PIC from February 5, 2019 to April 30, 2019.

**Allegations against respondent Khalifian**

91. As documented in the Board Investigation Report dated September 8, 2020, the Board Inspector determined that between April 27, 2017 and April 27, 2020, respondent Khalifian committed multiple violations of Pharmacy Law, as follows.

92. While respondent Khalifian was employed as PIC at respondent Pharmacy, the pharmacy dispensed at least 357 controlled substance prescriptions (and 31,850 units of controlled substances) in the presence of multiple factors of irregularity or red flags, evidencing that they were not written for legitimate medical purposes. These multiple factors of irregularity or red flags included the following:

- A large percentage of the prescriptions written by various prescribers were for highly abused controlled substances.
- Utilizing cash payment instead of a third party for controlled substances.
- The prescribing profiles of various prescribers being seemingly incongruent with their self- reported areas of practice on the Board of Medicine's online database. Additionally, their prescribing patterns were unusually limited, with a small number of commonly abused controlled substances accounting for a large percentage of the total prescriptions.
- The highest strength of oxycodone, 30 mg, was prescribed by various prescribers to all patients receiving the medication without regard for interpatient variability. Most of the prescriptions listed identical quantities and directions for use.
- Multiple patients being diagnosed with similar or identical ailments by the same prescriber.
- Patients travelling excessive distances between the medical offices of various prescribers and the pharmacy.

- Patients presenting to the pharmacy with prescriptions for identical controlled substances, strengths and directions for use. These prescriptions were assigned consecutive or nearly consecutive pharmacy prescription numbers indicating they were processed sequentially.
- Opioid naïve patients (those who had not filled an opioid for over two months) presenting with prescriptions for the highest strength oxycodone, 30 mg, and mostly at total daily doses of almost three times the recommended safe dose.
- Supporting documentation intimated CURES was checked to inquire about the controlled substance dispensing histories of the various patients. However, the information was either inappropriately scrutinized or simply ignored as respondent Pharmacy dispensed 114 prescriptions to opioid naïve patients.

93. While employed as a pharmacist at respondent Pharmacy, respondent Khalifian personally dispensed:

- At least 190 controlled substance prescriptions (and 16,340 tablets of controlled substances) in the presence of multiple factors of irregularity or red flags.

96. While respondent Ahdoot was employed as PIC at Respondent Pharmacy, the pharmacy dispensed at least 670 controlled substance prescriptions (and 69,357.5 units of controlled substances) in the presence of multiple factors of irregularity or red flags, evidencing that they were not written for legitimate medical purposes. These multiple factors of irregularity or red flags included the following:

**Allegations against respondent Shakeraneh**

110. As documented in the Board Investigation Report dated September 8, 2020, the Board Inspector determined that between April 27, 2017 and April 27, 2020, respondent Shakeraneh committed multiple violations of Pharmacy Law, as follows.

111. While employed as a pharmacist at respondent Pharmacy, respondent Shakeraneh dispensed at least 61 controlled substance prescriptions (and 5,300 tablets of controlled substances) in the presence of multiple factors of irregularity or red flags, evidencing that they were not written for legitimate medical purposes. These multiple factors of irregularity or red flags included the following:

- A large percentage of the prescriptions written by various prescribers were for highly abused controlled substances.
- Utilizing cash payment instead of a third party for controlled substances.

- The prescribing profiles of various prescribers being seemingly incongruent with their self-reported areas of practice on the Board of Medicine's online database. Additionally, their prescribing patterns were unusually limited, with a small number of commonly abused controlled substances accounting for a large percentage of the total prescriptions.
- The highest strength of oxycodone, 30 mg, was prescribed by various prescribers to all patients receiving the medication without regard for interpatient variability. Most of the prescriptions listed identical quantities and directions for use.
- Multiple patients being diagnosed with similar or identical ailments by the same prescriber.
- Patients travelling excessive distances between the medical offices of various prescribers and the pharmacy.
- Patients presenting to the pharmacy with prescriptions for identical controlled substances, strengths and directions for use. These prescriptions were assigned consecutive or nearly consecutive pharmacy prescription numbers indicating they were processed sequentially.
- Opioid naïve patients (those who had not filled an opioid for over two months) presenting with prescriptions for the highest strength oxycodone, 30 mg, and mostly at total daily doses of almost three times the recommended safe dose.
- Supporting documentation intimated CURES was checked to inquire about the controlled substance dispensing histories of various patients. However, the information was either inappropriately scrutinized or simply ignored as respondent Shakeraneh dispensed 23 prescriptions to opioid naïve patients.

112. While employed as a pharmacist at respondent Pharmacy, respondent Shakeraneh dispensed three prescriptions with incorrect directions for use (RXs 628862, 628865 and 628869).

By signing the stipulation, Respondent understands and agrees that she may not withdraw her agreement or seek to rescind the stipulation prior to the time the Board considers and acts upon it. If the Board fails to adopt this stipulation as its Decision and Order, the Stipulated Settlement and Disciplinary Order for Public Reproval shall be of no force or effect, except for this paragraph, it shall be inadmissible in any legal action between the parties, and the Board shall not be disqualified from further action by having considered this matter.

It supersedes any and all prior or contemporaneous agreements, understandings, discussions, negotiations, and commitments (written or oral). This Stipulated Settlement and Disciplinary Order for Public Reproval may not be altered, amended, modified, supplemented, or otherwise changed except by a writing executed by an authorized representative of each of the parties.

15. In consideration of the foregoing admissions and stipulations, the parties agree that the Board may, without further notice or formal proceeding, issue and enter the following Disciplinary Order:

**DISCIPLINARY ORDER**

IT IS HEREBY ORDERED that Pharmacist License Number RPH 49712 issued to Respondent Melanie Denise Joe (Respondent) shall be publicly reproved by the Board of

Pharmacy under Business and Professions Code section 495 in resolution of Accusation Number 6997, attached as Exhibit A. This Decision constitutes a record of discipline and shall become a part of Respondent's license history with the Board.

**Remedial Education**. No later than two years from the effective date of the Decision, Respondent, at her own expense, shall enroll, successfully complete and submit verification of ten (10) hours of remedial education in sterile compounding, including high risk drugs. Within one year of the effective date of the Decision, Respondent shall pay $1,707.78 to the Board for its costs associated with the investigation and enforcement of this matter pursuant to Business and Professions Code Section 125.3. Respondent shall be permitted to pay these costs in a payment plan approved by the Board. If Respondent fails to pay the Board costs as ordered, Respondent shall not be allowed to renew her Pharmacist License until Respondent pays costs in full.

**Full Compliance**. As a resolution of the charges in Accusation Number 6997, this stipulated settlement is contingent upon Respondent's full compliance with all conditions of this Order. If Respondent fails to satisfy any of these conditions, such failure to comply constitutes cause for discipline, including outright revocation, of Respondent's Pharmacist License Number RPH 49712.

## FACTUAL ALLEGATIONS

23. At all times relevant herein, Respondents Bohenek, Hoang, and Joe were employed as licensed pharmacists for the University of California, Irvine Medical Center (Respondent UCIMC). Respondent Joe was the pharmacist in charge of the UCIMC hospital pharmacy.

24. In 2013, Patient J.A. was diagnosed with Medulloblastoma (commonly known as a brain tumor). Patient J.A. received Radiosurgery in August 2017. On or about July 27, 2017, Patient J.A. also began a cycle of intrathecal chemotherapy through Respondent UCIMC.

25. Sometime between July and November, 2017, UCIMC converted its pharmacy software program from "AllScript" to the "EPIC" software program. Part of this transition included the pharmacist manually entering the previous prescriptions into the new system.

26. Among her chemotherapy treatments, Patient J.A. was prescribed 0.5 mg of intrathecal etoposide. On or about November 14, 2017, during one of her treatments, J.A. received a dosage of 100 mg of intrathecal etoposide, 200 times the prescribed dose. Doses of up to 150 mg of etoposide are not uncommon when given intravenously (IV), but such a dose is orders of magnitude outside the accepted range for spinal administration, which normally falls from ranges of 0.5 mg to 2.5 mg.

27. Almost immediately after the November dose, Patient J.A. developed a severe burning headache, nausea, vomiting, dizziness, and restlessness. J.A. was admitted to the hospital and treated for possible chemical meningitis secondary to chemotherapy.

28. Approximately three days after the incorrect dosage, J.A. stopped responding to stimulus, became fully non-responsive, and required a ventilator to breathe. J.A.'s condition did not improve, and on April 8, 2018, J.A. was released from life support and died.

29. The error in dosage was systemic, requiring numerous checks to be failed before a patient could receive such a high dosage of chemotherapy directly into the spinal canal.

30. Respondent Kong incorrectly transferred Patient J.A.'s order from AllScript to EPIC, entering 100 mg intrathecal instead of 0.5 mg intrathecal. The new EPIC program did not have an obvious code for intrathecal administration of the drug; therefore, the transcribing pharmacist used the usual IV code. The transcribing pharmacist, and all subsequent treating pharmacists, should have known that a dose as high as 100 mg was far outside the standard of care for a spinal injection.

31. According to the logged initials within the software program, the erroneous prescription was handled by several pharmacists at UCIMC, none of whom questioned the extremely high dosage for spinal injection, specifically:

a. Respondent Kong transferred the order from the AllScript program to the EPIC program with the incorrect administration procedure, keeping the dosage common for a normal IV treatment, as opposed to a spinal treatment.

b. Respondent Parikh reviewed and verified the treatment plan with the order.

c. Respondent Hoang reviewed and verified the treatment plan with the order.

e. Respondent Bohenek verified the compound preparation and labeling of the order.

f. The EPIC program contained a "detailed" view screen which, if viewed, would have shown the proper route of administration of the drug; however, policy under UCIMC and Respondent Joe did not require the verifying pharmacist to view this data screen to verify the drug delivery method.

32. Though Respondent UCIMC reported the above to the California Department of Public Health, none of the Respondents reported the above to the Board until a civil settlement with the family of J.A. was reached nearly one year later, on or about November 30, 2018.

RE: City of Reno v. Pasang Sherpa
Case No. 23CR-02277

Dear Nevada State Board Pharmacy,

Mr. Pasang Sherpa is participating in the United States Department of Justice sanctioned CAMO-RNO ("*Courts Assisting Military Offenders*") Veteran's Treatment Court, which allows for treatment of veterans who have been charged with a misdemeanor. The treatment court, which occurs over a 12-18 month period, allows, upon successful completion of the program, for the dismissal of charges and sealing of any criminal record within the statutory time frame.

The CAMO-RNO Treatment Court meets ***every Tuesday afternoon at 2:00 p.m.*** as guided by each phase requirement. The best practices as set forth by the National Association of Drug Court Professionals (NADCP) and the U.S. Department of Justice require, at a minimum, weekly participation for the first ninety (90) days of the program. Thereafter, as the participant progresses, the court appearances are reduced to every other week, every three weeks, to monthly, until all four phases of the one (1) year minimum program requirements are met.

We believe that all Veterans and active military, deserve an opportunity to seek and receive treatment for adverse conditions they may experience as a result of their service to our country.

On behalf of Mr. Sherpa, and our entire CAMO-RNO Team, we extend our appreciation to the Nevada State Board of Pharmacy for allowing Mr. Sherpa to apply for the renewal of his professional license, continue providing his public service as a pharmacist to a community in need, and his ongoing treatment with our highly successful program.

Should you have any questions or require further information relative to the Defendant and/or the CAMO-RNO program, please do not hesitate to contact me.

Sincerely,

RENO MUNICIPAL COURT

Hon. Shelly T. O'Neill

**Provide explanation below:**

On January 28, 2013, a charge was filed by the State of Texas for attempting to possess a controlled substance, alprazolam, by fraud. I did not fully appreciate the gravity of the situation and inadvertently forgot to inform the Texas Board of Veterinary Medical Examiners pending investigation. Thus, an informal conference was held on March 24, 2014. An Agreed Order was agreed upon for the violation of Rule 537.70, Reporting of Criminal Activity.
On October 22, 2014, the Judge Presiding on the case, Lindsey Scott, granted a deferred adjudication order for a "Lesser Included Attempted Possession of a Controlled Substance". I have fully complied with all court orders. Since December 15, 2015, I have maintained an active veterinary license in good standing with the Nevada Veterinary Board. I was enrolled in Professionals Reaching Nevada (PRN) on December 9, 2015 and completed the PRN program on November 29, 2018. On October 16, 2023, I was approached by Curo Pet Management Corporation to become co-owner and medical director of a new veterinary hospital in Las Vegas, Nevada. In order to proceed with the agreement, I must maintain an active DEA registration.

Respondent was indicted for a third degree felony violation of Section 481.129 of the Texas Health and Safety Code.

4. Respondent did not inform the Board of his indictment for a felony.

5. On July 18, 2013, Board staff sent Respondent a letter requesting "in narrative form, the facts and circumstances surrounding [his] indictment. Please provide specific information pertaining to the incident(s) that contributed to this indictment...Please provide the Board with the circumstances pertaining to why this indictment was not reported to the Board as required by Rule 573.70." Respondent failed to provide any written response to this request.

**Conclusions of Law**

1. Respondent is required to comply with the provisions of the Veterinary Licensing Act, Chapter 801, Texas Occupations Code, and with the Board's Rules.

2. Based on Findings of Fact 1 through 8, Respondent has violated Based on the foregoing paragraphs, Dr. Espinosa has violated Rule 573.70, REPORTING OF CRIMINAL ACTIVITY, of the Board's Rules of Professional Conduct, which states that a licensee shall report to the Board any indictment for a felony within 30 days of that indictment.

> 801.402. GENERAL GROUNDS FOR LICENSE DENIAL OR DISCIPLINARY ACTION. A person is subject to denial of a license or to disciplinary action under Section 801.401 if the person:
>

4. Based on Conclusions of Law 1 through 3, Respondent is subject to disciplinary action under Section 801.401 of the Veterinary Licensing Act, Texas Occupations Code:

> 801.401. DISCIPLINARY POWERS OF BOARD. (a) If an applicant or license holder is subject to denial of a license or to disciplinary action under Section 801.402, the Board may:
>
> (1) refuse to examine an applicant or to issue or renew a license;
> (2) revoke or suspend a license;
> (3) place on probation a license holder or person whose license has been

suspended;

(4) reprimand a license holder; or

(5) impose an administrative penalty.

5. Based on Conclusions of Law 2 and 3, Respondent may be disciplined in the manner set out in Section 801.451, IMPOSITION OF ADMINISTRATIVE PENALTY, of the Veterinary Licensing Act, which authorizes an administrative penalty for violations of the Act and Board rules.

NOW, THEREFORE, THE BOARD AND RESPONDENT AGREE AS FOLLOWS:

Based on the above Findings of Fact and Conclusions of Law, the Board ORDERS that DAVID ESPINOSA, D.V.M., receive an INFORMAL REPRIMAND.

The Board ORDERS that Respondent pay, within 45 days of the date of this Order, an ADMINISTRATIVE PENALTY of FIVE HUNDRED DOLLARS ($500.00). If Respondent fails to pay the administrative penalty within 45 days of the date of this Order, the Board may apply any payment to the Board to renew a license to pay any outstanding administrative fee owed to the Board.

2. Respondent shall cooperate with the Board's attorneys, investigators, compliance officers and other employees and agents investigating Respondent's compliance with this Order.

3. Failure by Respondent to comply with the terms of this Agreed Order or with any other provisions of the Licensing Act or the Board Rules, may result in further disciplinary action.

Respondent, by signing this Agreed Order, acknowledges his understanding of the Agreed Order, the notice, and Findings of Fact and Conclusions of Law herein set forth herein, and agrees that he will satisfactorily comply with the mandates of the Agreed Order in a timely manner or be subject to appropriate disciplinary action by the Board.

Respondent, by signing this Agreed Order, waives his right to a formal hearing and any right to seek judicial review of this Agreed Order. Respondent acknowledges that he had the right to be represented by legal counsel in this matter.

**RESPONDENT WAIVES ANY FURTHER HEARINGS OR APPEALS TO THE BOARD OR TO ANY COURT IN REGARD TO ALL TERMS AND CONDITIONS OF THIS AGREED ORDER. NOTHING IN THIS ORDER SHALL BE DEEMED A WAIVER OF RESPONDENT'S RIGHTS UNDER STATUTE OR UNDER THE UNITED STATES OR TEXAS CONSTITUTIONS TO APPEAL AN ORDER OR ACTION OF THE BOARD SUBSEQUENT TO THIS AGREED ORDER EXCEPT AS RESPONDENT MAY HAVE OTHERWISE AGREED TO HEREIN. RESPONDENT AGREES THAT THIS IS A FINAL ORDER.**

The effective date of this Agreed Order shall be the date it is adopted by the Board.

RE: Exemption application for Registered Nurse License No. 9420080

Dear Mr. Murillo:

This letter is to acknowledge receipt of your application for exemption. Enclosed (by mail only) is a copy of your criminal history report. This document is confidential and may not be used for any purpose other than your personal review. If you chose to mail your criminal history report back to the department, your criminal history report may therefor become subject to public disclosure. You are required to provide documentation for each item highlighted in the report:

Our records indicate that we have not received your Livescan results within 90 days of your application. If you have already had your electronic fingerprinting (Livescan) completed, please allow 24-72 hours for receipt of your results. The Department of Health cannot accept hard copy (paper) fingerprint cards.

All applicants for exemption must have electronic fingerprinting completed by a Florida Department of Law Enforcement (FDLE) approved provider. For a list of approved providers and a list of Frequently Asked Questions visit our website at: http://www.flhealthsource.gov/bgs-providers.

You will need to provide the Livescan provider with an ORI (Originating Agency) number. Applicants who use the incorrect ORI number may have their background check results misdirected. Our office will not be able to retrieve misdirected results and this will delay the processing of your application. Your ORI number is: EDOH4420Z. Email a confirmation to mqa.backgroundscreen@flhealth.gov once completed.

Provide arrest reports for all disqualifying offenses. You may obtain these documents by contacting the arresting agency. If documents are not available due to record retention policies, have the arresting agency provide you with a letter, on their letterhead, stating there is no information available.

You must provide all available full court dispositions, regardless of adjudication, to show the outcome of each case. Court documents can be obtained from the Clerk of the Court in the jurisdiction where the offense occurred. If documents are not available due to record retention policies, have the Clerk of Court provide you with a letter, on their letterhead, stating there is no information available.

Provide written documentation that you have completed your sentence requirements, including any probation or confinement. You may obtain a copy of this documentation by contacting the Department of Corrections. The documentation must include the start date of the sentence, end date of the sentence, and show that all conditions were met.

Provide proof of completion of fines, restitution, or other court ordered sanctions for each offense. This documentation can be obtained from the Clerk of Court in the county in which the offense occurred. This must include the date in which the payment/completion of the sanction was satisfied. If the clerk is unable to locate the documents associated with any offense, an official letter from the agency stating the reason is required.

Provide a typed letter detailing the events of all disqualifying offenses listed on your background report. If the offense involved battery or assault, the explanation must include your relationship with the parties involved and their age at the time the offense occurred.

To eliminate further delays, return a copy of this letter along with the required item(s) to:

Florida Department of Health
Attn: Cassie Hurley
4052 Bald Cypress Way, Bin BSU - 01
Tallahassee, FL 32399-3260

If you no longer wish to pursue the application process, please email or fax a written statement indicating your intent to withdraw the application.

If you have any questions, you may contact our office at (850) 488-0595, or e-mail mqa.backgroundscreen@flhealth.gov.

**[Docket No. DEA1258]**

## Schedules of Controlled Substances: Placement of Zuranolone in Schedule IV

**AGENCY:** Drug Enforcement Administration, Department of Justice.

**ACTION:** Interim final rule; request for comments.

**SUMMARY:** On August 4, 2023, the United States Food and Drug Administration approved a new drug application for ZURZUVAE (zuranolone) capsules for the treatment of post-partum depression. The Department of Health and Human Services provided the Drug Enforcement Administration (DEA) with a scheduling recommendation to place zuranolone and its salts in schedule IV of the Controlled Substances Act (CSA). In accordance with the CSA, as amended by the Improving Regulatory Transparency for New Medical Therapies Act, DEA is hereby issuing an interim final rule placing zuranolone, including its salts, in schedule IV of the CSA. This action facilitates the public availability of zuranolone as a schedule IV controlled substance.

**DATES:** This rule is effective October 31, 2023. Comments must be submitted electronically or postmarked on or before November 30, 2023.

Requests for hearing and waivers of an opportunity for a hearing or to participate in a hearing, together with a written statement of position on the matters of fact and law asserted in the hearing, must be received on or before November 30, 2023.

**ADDRESSES:** Interested persons may file written comments on this rulemaking in accordance with 21 U.S.C. 811(j)(3) and 21 CFR 1308.43(g). The electronic Federal Docket Management System will not accept comments after 11:59 p.m. Eastern Time on the last day of the comment period. ### Request for Hearing or Appearance; Waiver

Pursuant to 21 U.S.C. 811(a), this action is a formal rulemaking ''on the record after opportunity for a hearing.'' Such proceedings are conducted pursuant to the provisions of the Administrative Procedure Act (APA), 5 U.S.C. 551–559.[1] Interested persons, as defined in 21 CFR 1300.01(b), may file requests for a hearing in conformity with the requirements of 21 CFR 1308.44(a) and 1316.47(a), and such requests must:

(1) state with particularity the interest of the person in the proceeding;

(2) state with particularity the objections or issues concerning which the person desires to be heard; and

[1] 21 CFR 1308.41–1308.45; 21 CFR part 1316, subpart D.

(3) state briefly the position of the person with regarding to the objections or issues.

Any interested person may file a waiver of an opportunity for a hearing or to participate in a hearing in conformity with the requirements of 21 CFR 1308.44©, together with a written statement of position on the matters of fact and law involved in any hearing.[2]

All requests for hearings and waivers of participation, together with a written statement of position on the matters of fact and law involved in such hearing, must be sent to DEA using the address information provided above. The decision whether a hearing will be needed to address such matters of fact and law in the rulemaking will be made by the Administrator. If a hearing is needed, DEA will publish a notice of hearing on the proposed rulemaking in the **Federal Register**.[3] Further, once the Administrator determines a hearing is needed to address such matters of fact and law in rulemaking, she will then designate an Administrative Law Judge (ALJ) to preside over the hearing. The ALJ's functions shall commence upon designation, as provided in 21 CFR 1316.52.

In accordance with 21 U.S.C. 811 and 812, the purpose of a hearing would be to determine whether zuranolone meets the statutory criteria for placement in schedule IV.

## Background and Legal Authority

Under the Controlled Substances Act (CSA), as amended in 2015 by the Improving Regulatory Transparency for New Medical Therapies Act (section 2(b) of Pub. L. 114–89), DEA is required to commence an expedited scheduling action with respect to certain new drugs approved by the Food and Drug Administration (FDA). As provided in 21 U.S.C. 811(j), this expedited scheduling is required where both of the following conditions apply: (1) The Secretary of the Department of Health and Human Services (HHS) has advised DEA that a New Drug Application (NDA) has been submitted for a drug that has a stimulant, depressant, or hallucinogenic effect on the central nervous system (CNS), and that it appears that such drug has an abuse potential; and (2) the Secretary of HHS recommends that DEA control the drug in schedule II, III, IV, or V pursuant to 21 U.S.C. 811(a) and (b). In these circumstances, DEA is required to issue an interim final rule (IFR) controlling the drug within 90 days.

Subsection 811(j)(2) states that the 90-day timeframe starts the later of (1) the date DEA receives HHS's scientific and medical evaluation/scheduling recommendation, or (2) the date DEA receives notice of the NDA approval by HHS. Subsection 811(j)(3) specifies that the rulemaking shall become immediately effective as an IFR without requiring DEA to demonstrate good cause therefore. Thus, the purpose of subsection 811(j) is to speed the process by which DEA schedules newly approved drugs that are currently either in schedule I or not controlled (but which have sufficient abuse potential to warrant control) so that such drugs may be marketed without undue delay following FDA approval.[4]

Subsection 811(j)(3) further provides that the IFR shall give interested persons the opportunity to comment and to request a hearing. After the conclusion of such proceedings, DEA must issue a final rule in accordance with the scheduling criteria of 21 U.S.C. 811(b) through (d), and 812(b).

Zuranolone (chemically known as 1-[2-[(3*R*,5*R*,8*R*,9*R*,10*S*,13*S*,14*S*,17*S*)-3-hydroxy-3,13-dimethyl-2,4,5,6,7,8,9,10,11,12,14,15,16,17-tetradecahydro-1*H*-cyclopenta[*a*]phenanthren-17-yl]-2-oxoethyl]pyrazole-4-carbonitrile) is a new molecular entity with CNS activity. Zuranolone is a positive allosteric modulator of gamma-aminobutyric acid type A ($GABA_A$) receptors and an inhibitory neurosteroid substance that shares structural features and a pharmacological mechanism of action with progesterone, alfaxalone (schedule IV), and brexanolone (allopregnanolone, schedule IV).

On December 5, 2022, Sage Therapeutics, Inc. submitted an NDA for zuranolone to FDA. On August 4, 2023, FDA approved the NDA for zuranolone to be marketed as a prescription drug (ZURZUVAE, capsule) for the treatment of post-partum depression. DEA received notification that FDA approved the NDA on the same date. Pursuant to its FDA-approved prescription drug labeling, ZURZUVAE, 50 mg, is to be administered orally once in the evening with fat-consuming food for 14 days. The dose may be reduced for patients who cannot tolerate 50 mg.

## Determination To Schedule Zuranolone

On July 12, 2023, DEA received from HHS a scientific and medical evaluation entitled ''Basis for the Recommendation to Control Zuranolone and its Salts in Schedule IV of the Controlled Substances Act'' and a scheduling recommendation. Pursuant to 21 U.S.C. 811(b) and (c), this document contained an eight-factor analysis of the abuse potential, legitimate medical use, and dependence liability of zuranolone, along with HHS's recommendation to control zuranolone and its salts under schedule IV of the CSA.

In response, DEA reviewed the scientific and medical evaluation and scheduling recommendation provided by HHS, along with all other relevant data, and completed its own eight-factor review pursuant to 21 U.S.C. 811(c). DEA concluded that zuranolone meets the 21 U.S.C. 812(b)(4) criteria for placement in schedule IV of the CSA.

Pursuant to subsection 811(j), and based on HHS's scheduling recommendation, the approval of the NDA by HHS/FDA, and DEA's determination, DEA is issuing this IFR to schedule zuranolone as a schedule IV controlled substance under the CSA.

Included below is a brief summary of each factor as analyzed by HHS and DEA, and as considered by DEA in its scheduling action. Please note that both DEA and HHS analyses are available in their entirety under ''Supporting Documents'' in the public docket for this IFR at *https://www.regulations.gov*, under Docket Number ''DEA1258.'' Full analysis of, and citations to, the information referenced in the summary may also be found in the supporting and related material.

### *1. Its Actual or Relative Potential for Abuse*

Zuranolone is a new molecular entity that has not been marketed in the United States or any country. Thus, evidence regarding its diversion, illicit manufacturing, or deliberate ingestion is currently lacking. DEA notes that there are no reports of law enforcement encounters of zuranolone in the National Forensic Laboratory Information System (NFLIS)-Drug database.[5] Zuranolone has sedative effects and is likely to have abuse potential, similar to schedule IV sedatives such as alprazolam. Thus, it is reasonable to assume that zuranolone may be diverted from legitimate channels, used contrary to or without

[2] 21 CFR 1316.49.

[3] 21 CFR 1308.44(b), 1316.53.

[4] Given the parameters of subsection 811(j), in DEA's view, it would not apply to a reformulation of a drug containing a substance currently in schedules II through V for which an NDA has recently been approved.

[5] NFLIS-Drug is a comprehensive information system that includes data from forensic laboratories that handle more than 96% of an estimated 1 million distinct annual State and local drug analysis cases. NFLIS-Drug includes drug chemistry results from completed analyses only. While NFLIS-Drug data is not direct evidence of abuse, it can lead to an inference that a drug has been diverted and abused. *See* 76 FR 77330, 77332 (Dec. 12, 2011). NFLIS data were queried on August 30, 2023.

medical advice, and capable of creating hazards to the users and to the safety of the community. In human abuse potential studies, zuranolone produced positive subjective responses that are similar to those produced by alprazolam (schedule IV). Zuranolone produces rewarding effects that are comparable to those produced by schedule IV sedatives; therefore, zuranolone is likely to be abused for its sedative effects contrary to medical advice.

*2. Scientific Evidence of Its Pharmacological Effects, If Known*

Zuranolone is a selective neuroactive steroid that potentiates synaptic (g subunit-containing) and extra synaptic (d-subunit containing) $GABA_A$ receptor activity. Zuranolone acts on $GABA_A$ receptors to enhance the effects of GABA, a major inhibitory neurotransmitter in the CNS. Zuranolone acts directly through the $GABA_A$ receptor-channel complex to increase the probability that the channel will enter into naturally occurring open states of relatively long duration and allow the influx of chloride. Zuranolone was found to potentiate GABA-evoked current in cells expressing human $GABA_A$ receptor subtypes. HHS noted that these data are consistent with a mechanism of action of zuranolone that is similar to other schedule IV neurosteroids (*e.g.,* brexanolone) as a positive allosteric modulator of $GABA_A$ sites.

In animal studies, zuranolone's effect on the general behavioral profile in male rats showed that it produced behavioral activities, such as decreased activity, ataxia, hypersensitivity to touch and/or sound, and impaired righting reflex at supratherapeutic plasma concentrations. The observations were generally limited to the highest dose test (22.5 mg/kg), although some animals exhibited slight impairments at the lower doses tested (3 and 10 mg/kg).

In a drug discrimination study using male rats trained to discriminate midazolam and saline, intraperitoneally administered zuranolone (0.1, 0.3, 0.5, 1, and 3 mg/kg) produced dose-dependent effects and full substitution to midazolam discriminative stimulus effect at the highest dose tested when considering lever presses over the entire session and not just the first reinforcer (75 percent). However, 3 mg/kg zuranolone produced behavioral impairment, such that only five of ten rodents completed the session. In female rats, intraperitoneally administered zuranolone (0.1, 0.3, 0.5, 1, and 2 mg/kg) also produced dose-dependent effects and full substitution to midazolam discriminative stimulus effect at the highest dose tested when considering lever presses over the entire session and not just the first reinforcer (72.5 percent).

Zuranolone reinforcing properties were assessed by determining whether self-administration behavior was maintained when the drug was substituted for cocaine (schedule II). As stated by HHS in their scientific and medical evaluation, the study found that the selected doses of zuranolone did not maintain robust self-administration in animals with a previous history of cocaine self-administration.

In clinical trials, zuranolone produced significantly greater mean drug liking than placebo. The low (30 mg) and middle (60 mg) doses of zuranolone produced significantly less mean drug liking scores than both alprazolam (schedule IV) doses (1.5 and 3 mg). However, the highest dose of zuranolone produced mean drug liking scores that were similar to both doses of alprazolam (schedule IV).

Zuranolone produced euphoria-related adverse events that are supportive of zuranolone having an abuse potential. However, the abuse-related treatment emergent AE profile of zuranolone was slightly lower than that of alprazolam (a schedule IV benzodiazepine) at a supratherapeutic dose of zuranolone.

Zuranolone produced incidence of euphoria-related adverse events supportive of its abuse potential in animals and humans similar to those of benzodiazepines in schedule IV. These data are consistent with the fact that both drugs share a common mechanism of action involving positive allosteric modulation of the $GABA_A$ receptors.

*3. The State of Current Scientific Knowledge Regarding the Drug or Other Substance*

Zuranolone, chemically known as 1-[2-[(3*R*,5*R*,8*R*,9*R*,10*S*,13*S*,14*S*,17*S*)-3-hydroxy-3,13-dimethyl-2,4,5,6,7,8,9,10,11,12,14,15,16,17-tetradecahydro-1*H*-cyclopenta[*a*]phenanthren-17-yl]-2-oxoethyl]pyrazole-4-carbonitrile, is a new molecular entity.

Zuranolone is a drug product formulated as 20, 25, and 30 mg colored hard-gelatin capsules. The powder is white to off-white in color. Zuranolone is available as an immediate-release formulation and is absorbed with a time to maximum effect of approximately 6 hours and a half-life of 20 hours.

As discussed in the background section, zuranolone has an accepted medical use in the United States.

*4. Its History and Current Pattern of Abuse*

There is no information on the history and current pattern of abuse for zuranolone, since it has not been marketed, legally or illegally, in the United States or any other country. There is no evidence of diversion of zuranolone that has been distributed for research, such as for clinical trials. Data from preclinical and clinical studies indicate that the abuse potential of zuranolone is similar to that of schedule IV sedatives, including benzodiazepines. Consistent with the fact that zuranolone is a new molecular entity, the NFLIS-Drug database had no records of encounters by law enforcement.

In summary, pharmacological data on zuranolone show that it produces abuse-related effects and has an abuse potential similar to that of schedule IV CNS depressants.

*5. The Scope, Duration, and Significance of Abuse*

A search by DEA of the NFLIS-Drug database found no evidence of law enforcement encounters of zuranolone in the United States. Data from preclinical and clinical studies showed that zuranolone has an abuse potential that is similar to that of schedule IV sedatives, including benzodiazepines. Upon availability of zuranolone in the market, it is likely to be abused.

*6. What, if any, Risk There Is to the Public Health*

Zuranolone's abuse potential, similar to that of schedule IV sedatives, is an indication of its public health risk. As such, upon availability for marketing, it is likely to pose risk to public health comparable to schedule IV positive allosteric modulators of the $GABA_A$ receptor such as brexanolone and benzodiazepines. According to evaluation of public health risks conducted by HHS, the most observed adverse effects were somnolence, dizziness, and sedation. An overdose of zuranolone could result in sedation with or without respiratory depression or other severe adverse effects. Two simulated driving studies demonstrated impairment approximately 9 hours after nighttime administration.

Concomitant use with other CNS depressants such as alcohol may potentiate the impairment of psychomotor performance and cognition. HHS noted that zuranolone is not recommended for chronic administration; it is intended for a 14-day treatment course. This may lessen some public health risks compared to

other drugs that are prescribed for longer durations or in larger quantities.

*7. Its Psychic or Physiological Dependence Liability*

Zuranolone's psychic and physiological dependence liability was assessed using data from animal physical dependence studies and clinical evaluations of physical dependence, including measures of withdrawal. As described by HHS, data from a physiologic dependence study conducted in rats demonstrated zuranolone did not induce significant withdrawal-related phenotypes at the doses tested; however, zuranolone produced significant toxic effects in dogs, including convulsions and death in the dog toxicity studies. HHS noted the toxic effects in dogs, such as the early mortalities, may be consistent with withdrawal-type effects observed after cessation of chronic dosing of sedative-hypnotic benzodiazepines.

In clinical trials, when zuranolone was administered at therapeutic doses (≤50 mg/day) for a minimum of five days, it produced mild-to-moderate withdrawal-related effects in healthy individuals upon abrupt drug discontinuation, including the following: insomnia, palpitations, decreased appetite, nightmare, nausea, hyperhidrosis, and paranoia. Similar effects were not evident in the patient population. HHS provided caveats for why this may be the case, such as the withdrawal effects may have been obscured by the symptoms of the underlying condition (post-partum depression and major depressive disorder) or inadequate assessment of withdrawal in the various Phase 3 studies. However, based on available data provided by HHS, the withdrawal-related symptoms produced by zuranolone after abrupt drug discontinuation are similar to those that are clinically known for benzodiazepines in schedule IV.

The data taken together suggest that zuranolone maybe produce physical dependence, and the risk of physical dependence and withdrawal syndrome upon drug discontinuation is expected to be more severe for individuals who take a higher than the therapeutic dose of zuranolone for an extended period of time, which may include convulsions based on the dog toxicity studies.

*8. Whether the Substance Is an Immediate Precursor of a Substance Already Controlled Under the CSA*

Zuranolone is not an immediate precursor of any controlled substance, as defined by 21 U.S.C. 802(23).

*Conclusion:* After considering the scientific and medical evaluation and scheduling recommendation provided by HHS, and its own eight-factor analysis, DEA has determined that these facts and all relevant data constitute substantial evidence of potential for abuse of zuranolone. As such, DEA hereby schedules zuranolone as a controlled substance under the CSA.

**Determination of Appropriate Schedule**

The CSA lists the findings required to place a drug or other substance in any particular schedule (I, II, III, IV, or V).[6] After consideration of the analysis and recommendation of the Assistant Secretary for Health of HHS and review of all available data, the Administrator of DEA, pursuant to 21 U.S.C. 812(b)(4), finds that:

*(1) Zuranolone has a potential for abuse similar to the drugs or other substances in schedule IV.*

Zuranolone, a neuroactive steroid, is a positive allosteric modulator of $GABA_A$ receptors and produces sedation in general behavioral studies. In a drug discrimination study in animals, zuranolone produced dose-dependent substitution for midazolam (schedule IV) when considering the full session (partial substitution when considering the first reinforcer), demonstrating it has GABA agonist properties. Zuranolone produced positive subjective responses and euphoria-related adverse events similar to that of alprazolam (schedule IV), and greater than that of placebo in a human abuse potential study.

Furthermore, data from other clinical studies show that zuranolone produced incidence of euphoria-like adverse events in 5 percent of healthy individuals, including euphoric mood, feeling drunk, feeling of relaxation, feeling abnormal, and inappropriate effect compared to no incidence following placebo. Therefore, zuranolone has the potential for abuse similar to alprazolam, midazolam, methohexital, and other substances in schedule IV.

*(2) Zuranolone has a currently accepted medical use in treatment in the United States.*

FDA approved the NDA for ZURZUVAE (zuranolone) as a treatment for post-partum depression. Thus, zuranolone has a currently accepted medical use in treatment in the United States.

*(3) Abuse of zuranolone may lead to limited physical dependence or psychological dependence relative to the drugs or other substances in schedule III but similar to other substances in schedule IV.*

Zuranolone shares a similar pharmacology profile with brexanolone (schedule IV) and benzodiazepines (schedule IV). Data from a rat physical dependence study demonstrated that discontinuation of chronic administration of zuranolone at the doses tested did not produce physical dependence or withdrawal syndrome. In a dog toxicity study, drug discontinuation after chronic administration at supratherapeutic doses produced convulsions similar to that of benzodiazepines. Further, upon abrupt discontinuation in humans at the therapeutic dose (≤50 mg per day), zuranolone produced mild to moderate withdrawal-like effects in healthy individuals no worse than what is clinically known for schedule IV benzodiazepines. HHS concluded that there would be higher risk of developing physical dependence and withdrawal syndrome and more severe effects after abrupt drug discontinuation in individuals that took more than the therapeutic dose or for an extended duration. Withdrawal symptoms from physical dependence may include convulsions. Zuranolone produced positive subjective responses and euphoria-related adverse events and may produce psychic dependence. Zuranolone may lead to physical or psychological dependence similar to benzodiazepines in schedule IV.

Based on these findings, the Administrator concludes that zuranolone warrants control in schedule IV of the CSA.[7]

**Requirements for Handling Zuranolone**

Zuranolone is subject to the CSA's schedule IV regulatory controls and administrative, civil, and criminal sanctions applicable to the manufacture, distributing, dispensing, importing, exporting, research, and conduct of instructional activities, including the following:

1. *Registration.* Any person who handles (manufactures, distributes, reverse distributes, dispenses, imports, exports, engages in research, or conducts instructional activities or chemical analysis with, or possesses) zuranolone must be registered with DEA to conduct such activities pursuant to 21 U.S.C. 822, 823, 957, and 958, and in accordance with 21 CFR parts 1301 and 1312. These registration requirements, however, are not applicable to patients (end users) who possess zuranolone pursuant to a lawful prescription.

[6] 21 U.S.C. 812(b).

[7] 21 U.S.C. 812(b)(4).

2. *Disposal of Stocks.* Any person unwilling or unable to obtain a schedule IV registration must surrender all quantities of currently held zuranolone, or may transfer all quantities of currently held zuranolone to a person registered with DEA. Zuranolone is required to be disposed of in accordance with 21 CFR part 1317, in addition to all other applicable Federal, state, local, and tribal laws.

5. *Inventory.* Every DEA registrant who possesses any quantity of zuranolone must have an initial inventory of all stocks of controlled substances (including zuranolone) on hand on the date the registrant first engages in the handling of controlled substances, pursuant to 21 U.S.C. 827, and in accordance with 21 CFR 1304.03, 1304.04, and 1304.11.

Any person who registers with DEA to handle zuranolone must take an initial inventory of all stocks of controlled substances (including zuranolone) on hand on the date the registrant first engages in the handling of controlled substances, pursuant to 21 U.S.C. 827 and 958(e), and in accordance with 21 CFR 1304.03, 1304.04, and 1304.11(a) and (b).

After the initial inventory, every DEA registrant must take inventory of all controlled substances (including zuranolone) on hand every two years, pursuant to 21 U.S.C. 827, and in accordance with 21 CFR 1304.03, 1304.04, and 1304.11. 6. *Records and Reports.* DEA registrants must maintain records and submit reports for zuranolone, pursuant to 21 U.S.C. 827, 832(a), and 958(e), and in accordance with 21 CFR 1301.74(b) and (c) and parts 1304, 1312, and in accordance with 21 CFR 1301.74(b) and (c) and parts 1304, 1312, and 1317.

7. *Prescriptions.* All prescriptions for zuranolone, or products containing zuranolone, must comply with 21 U.S.C. 829, and be issued in accordance with 21 CFR parts 1306 and 1311, subpart C.

8. *Manufacturing and Distributing.* In addition to the general requirements of the CSA and DEA regulations that are applicable to manufacturers and distributors of schedule IV controlled substances, such registrants should be advised that (consistent with the foregoing considerations) any manufacturing or distribution of zuranolone may only be for the legitimate purposes consistent with the drug's labeling, or for research activities authorized by the Federal Food, Drug, and Cosmetic Act (FDCA), as applicable, and the CSA.

9. *Importation and Exportation.* All importation and exportation of zuranolone must be in compliance with 21 U.S.C. 952, 953, 957, and 958, and in accordance with 21 CFR part 1312.

10. *Liability.* Any activity involving zuranolone not authorized by, or in violation of, the CSA or its implementing regulations, is unlawful, and may subject the person to administrative, civil, and/or criminal sanctions.

**Regulatory Analyses**

*Administrative Procedure Act*

Section 553 of the APA (5 U.S.C. 553) generally requires notice and comment for rulemakings. However, 21 U.S.C. 811(j) provides that in cases where a certain new drug is (1) approved by HHS, under section 505(c) of the FDCA, and (2) HHS recommends control in CSA schedule II–V, DEA shall issue an IFR scheduling the drug within 90 days. As stated in the legal authority section, the 90-day time frame is the later of: (1) the date DEA receives HHS's scientific and medical evaluation/scheduling recommendation, or (2) the date DEA receives notice of the NDA approval by HHS. Additionally, subsection 811(j) specifies that the rulemaking shall become immediately effective as an IFR without requiring DEA to demonstrate good cause.

*Executive Orders 12866, 13563, and 14094, Regulatory Review*

In accordance with 21 U.S.C. 811(a), this scheduling action is subject to formal rulemaking procedures performed ''on the record after opportunity for a hearing,'' which are conducted pursuant to the provisions of 5 U.S.C. 556 and 557. The CSA sets forth the procedures and criteria for scheduling a drug or other substance. Such actions are exempt from review by the Office of Management and Budget pursuant to section 3(d)(1) of Executive Order (E.O.) 12866 and the principles reaffirmed in E.O. 13563. E.O. 14094 modernizes the regulatory review process to advance policies that promote the public interest and address national priorities.

*Executive Order 12988, Civil Justice Reform*

This meets the applicable standards set forth in sections 3(a) and 3(b)(2) of E.O. 12988 to eliminate drafting errors and ambiguity, minimize litigation, provide a clear legal standard for affected conduct, and promote simplification and burden reduction.

*Executive Order 13132, Federalism*

This rulemaking does not have federalism implications warranting the application of E.O. 13132. The proposed rule does not have substantial direct effects on the states, on the relationship between the National Government and the states, or on the distribution of power and responsibilities among the various levels of government.

*Executive Order 13175, Consultation and Coordination With Indian Tribal Governments*

This rule does not have tribal implications warranting the application of E.O. 13175. It does not have substantial direct effects on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

*Paperwork Reduction Act*

This proposed action does not impose a new collection of information requirement under the Paperwork Reduction Act, 44 U.S.C. 3501–3521.

*Regulatory Flexibility Act*

The Regulatory Flexibility Act (RFA) (5 U.S.C. 601–612) applies to rules that are subject to notice and comment under section 553(b) of the APA. As noted in the above discussion regarding the applicability of the APA, DEA is not required to publish a general notice of proposed rulemaking. Consequently, the RFA does not apply to this IFR.

*Unfunded Mandates Reform Act of 1995*

In accordance with the Unfunded Mandates Reform Act (UMRA) of 1995, 2 U.S.C. 1501 *et seq.,* DEA has determined and certifies that this proposed action would not result in any Federal mandate that may result ''in the expenditure by State, local, and tribal governments, in the aggregate, or by the

private sector, of $100,000,000 or more (adjusted annually for inflation) in any 1 year * * *.'' Therefore, neither a Small Government Agency Plan nor any other action is required under UMRA of 1995.

*Congressional Review Act*

This rule is not a major rule as defined by the Congressional Review Act (CRA), 5 U.S.C. 804. However, pursuant to the CRA, DEA is submitting a copy of this IFR to both Houses of Congress and to the Comptroller General.

## DEPARTMENT OF JUSTICE

### Drug Enforcement Administration

### 21 CFR Part 1310

**[Docket No. DEA–1098]**

## Designation of Halides of 4-Anilinopiperidine as List I Chemicals

**AGENCY:** Drug Enforcement Administration, Department of Justice.

**ACTION:** Final rule.

**SUMMARY:** The Drug Enforcement Administration (DEA) is finalizing the modification of the listing of the list I chemical, *N*-phenylpiperidin-4-amine (also known as 4-anilinopiperidine; *N*-phenyl-4-piperidinamine; 4–AP) (hereinafter referred to as 4-anilinopiperidine), to include halides of 4-anilinopiperidine. This rule finalizes the modification of the listing of 4-anilinopiperidine as a list I chemical.

**DATES:** This rule is effective November 30, 2023. Persons currently manufacturing, distributing, importing, or exporting halides of 4-anilinopiperidine or a chemical mixture containing halides of 4-anilinopiperidine, if they are not already registered to handle list I chemicals, must apply on or before November 30, 2023, to continue their business pending final action by DEA on their application.

**FOR FURTHER INFORMATION CONTACT:** Terrence L. Boos, Drug and Chemical Evaluation Section, Diversion Control Division, Drug Enforcement Administration; Telephone: (571) 362–3249.

**SUPPLEMENTARY INFORMATION:** The Drug Enforcement Administration (DEA) is extremely concerned with the recent increase in the illicit manufacture and distribution of fentanyl and fentanyl analogues. Therefore, on April 14, 2023, DEA published a Notice of Proposed Rulemaking (NPRM) to include halides of 4-anilinopiperidine as list I chemicals.[1] This rulemaking finalizes that NPRM.

This action subjects handlers of halides of 4-anilinopiperidine to the regulatory provisions of the Controlled Substances Act (CSA) and its implementing regulations regarding list I chemicals. This rulemaking does not establish a threshold for domestic and international transactions of halides of 4-anilinopiperidine. As such, all transactions involving halides of 4-anilinopiperidine, regardless of size, shall be regulated and are subject to control under the CSA. In addition, chemical mixtures containing halides of 4-anilinopiperidine are not exempt from regulatory requirements at any concentration. Therefore, all transactions of chemical mixtures containing any quantity of halides of 4-anilinopiperidine shall be regulated pursuant to the CSA as list I chemicals.

**Legal Authority**

The CSA gives the Attorney General the authority to specify, by regulation, chemicals as list I chemicals.[2] A ''list I chemical'' is a chemical that is used in manufacturing a controlled substance in violation of the CSA and is important to the manufacture of the controlled substances.[3] The current list of all listed chemicals is published at 21 CFR 1310.02(a). Pursuant to 28 CFR 0.100(b), the Attorney General has delegated his authority to designate list I chemicals to the Administrator of DEA (Administrator). The DEA regulations set forth the process by which DEA may add a chemical as a listed chemical. As set forth in 21 CFR 1310.02(c), the agency may do so by publishing a final rule in the **Federal Register** following a published notice of proposed rulemaking with at least 30 days for public comments.

**Background**

DEA previously found that 4-anilinopiperidine is used in the illicit manufacture of the controlled substance fentanyl (a schedule II substance under the CSA) and fentanyl analogues controlled in schedule I of the CSA, and is important to the manufacture of the controlled substance fentanyl and fentanyl analogues, because it cannot be replaced by other chemicals in its respective synthetic pathways that are used in the illicit manufacture of fentanyl and fentanyl analogues.[4] On this basis, DEA previously specified that 4-anilinopiperidine is a list I chemical.[5]

DEA has now found that halides of 4-anilinopiperidine are also used in the illicit manufacture of schedule I controlled substances, such as *para*-fluorofentanyl, *ortho*-fluorofentanyl, and *para*-chlorofentanyl. Accordingly, this action adds halides of 4-anilinopiperidine to the prior listing of 4-anilinopiperidine and thereby subjects handlers of halides of 4-anilinopiperidine to the regulatory provisions of the CSA and its implementing regulations.

October 1, 2023

Dave Wuest
Executive Director
Nevada State Board of Pharmacy

Director Wuest,

Thank you for the opportunity to submit written feedback on the draft regulations R059-23I submitted to LCB on 9/12/2023. The Nevada Psychiatric Association (NPA) has concerns with the broad and vague nature of the current draft and has included nine recommendations for amending the regulation to increase patient protection. These recommendations are supported via a review of current Nevada statute and administrative code for prescribers (physicians, APRNs, and physician assistants) as well as a review of the 11 other states that allow pharmacist prescriptive authority.

While the Nevada Psychiatric Association applauds the legislature on their moves to expand access to medication assisted treatment (MAT), caution with this vulnerable population is needed. Because a patient needs to be in a state of withdrawal to initiate MAT it is unlikely they will find the range of supports they need in a pharmacy. The NPA looks forward to working with pharmacist colleagues on managing this patient population and decreasing the rate of opioid addiction in Nevada.

Thank you for your time and consideration,

Lesley Dickson, MD
Addiction Psychiatrist
State Legislative Representative
Nevada Psychiatric Association

Lea Case
Vice-President
Belz & Case Government Affairs

**Recommendations for regulations related to AB156 and pharmacist diagnosing and prescribing for opioid use disorder**

1) Mirror minimum continuing education standards found in SAMHSA training requirements for the Medication Access and Training Expansion (MACE) Act of 2023, currently 8-hours.
    a. American Society of Hospital Pharmacists (ASHP) offers a 10.5 hour course titled "Medications for Opioid Use Disorder (MOUD) Training Program"
    b. Providers Clinical Support System (SAMHSA based) offers an 8-hour MOUD training program

2) Add continuing education requirements in line with other prescribing professionals including, at minimum, the following:
    a. 2 hours on suicide prevention and awareness
    b. 2 hours of cultural competency
    c. 2 hours of substance use disorder and other addictive disorders and the prescribing of opioids
    d. 2 hours of Screening, Brief Intervention, Referral, and Treatment (SBIRT)

3) Add mandatory professional liability coverage as a requirement to diagnose and prescribe medications for opioid use disorder (OUD) like the requirement found in NRS 639.28085.
    a. Note that pharmacists are not included in the definition of "provider of health care" under NRS 41A.017.

4) For initial licensure and registration under the AB156 protocol, follow the New Mexico regulatory scheme found in 16.19.4.17
    a. 60-hour physical assessment course
    b. 150-hour, 300 patient contact preceptorship supervised by a physician or other practitioner with prescriptive authority
        i. Log of patient encounters must be submitted as part of the application.

5) Require a documented treatment plan, currently a "may" in the regulation draft.
    a. Best practice as stated by the National Association of State Pharmacy Associations "Pharmacist Statewide Protocols: Key Elements for Legislative and Regulatory Authority"

6) Require a collaborative practice agreement with a prescriber (physician or APRN) who has been practicing in addiction medicine for at least one year.

   a. 10 of the 11 states with prescriptive authority require some sort of collaborative or consultative agreement. Only Oregon does not, instead they limit prescriptive authority to a state formulary.

7) Limit prescribing to patients who have been stable on medications for at least 6-months
   a. Request of Nevada Psychiatric Association. Patients must be in withdrawal in order to start on medications to treat an opioid use disorder. The state of withdrawal is dangerous for patients and best managed in a facility specifically designed for addiction treatment.

8) Maintain an active and current list of referral sources for psychiatrists or psychiatric APRN's, substance abuse counselors, step or group programs (such as AA/NA and other sober focused group programming) and detox facilities.

9) Pharmacist must have the ability to collect and test or send for testing, urine drug samples and are required to test patients at least every 2-months.
   a. Results must be stored in the patient record.

**NRS/NAC continuing education and professional liability insurance requirements comparison for prescribing professionals**

**Physicians**: NRS 630.253 requires BME to adopt regulations for continuing education and mandates the following 18-hours in statute:

- 2 hours on suicide prevention and awareness every 4 years
- 4 hours within 2 years of initial licensure on medical consequences of acts of terrorism
- 2 hours of cultural competency if practicing as a psychiatrist
- 2 hours of SUD and other addictive disorders and the prescribing of opioids if treating these populations
- 2 hours of SBIRT within 2 years after initial licensure
- 2 hours encouraged for geriatrics if treating that population
- 2 hours encouraged in diagnosis of rare diseases
- 2 hours encouraged on methods for educating patients on managing medications

NAC 630.153 requires 40 hours of continuing medical education every 2 years and mandates the following in regulation

- 2 hours in medical ethics
- 20 hours in scope of practice or specialty area

Note: professional liability insurance is not mandatory in Nevada statute, but hospitals and other health facilities will not allow a physician access privileges without insurance.

**Advanced Practice Registered Nurses (APRNs)** - NRS 632.343 Requires 30 hours every 2 years. Must include:

- 2 hours on suicide prevention and awareness
- 4 hours within 2 years of initial licensure on medical consequences of acts of terrorism
- 4 hours of cultural competency
- 2 hours of SBIRT within 2 years after initial licensure
- 2 hours encouraged for geriatrics if treating that population
- 2 hours encouraged in diagnosis of rare diseases

NAC 632.291 requires 45 hours of continuing education

Professional liability insurance requirements

NAC 632.2567 requires APRNs not otherwise covered under a policy of professional liability insurance to maintain such a policy

**Osteopathic Physicians** – NRS 633.471 – 16 hours continuing medical education required in statute

- 2 hours on suicide prevention and awareness every 4 years
- 2 hours on ethics, pain management, care of persons with addictive disorders or SBIRT
- 2 hours of cultural competency if practicing as a psychiatrist
- 2 hours of SUD and other addictive disorders and the prescribing of opioids if treating these populations
- 2 hours of SBIRT within 2 years after initial licensure
- 2 hours encouraged for geriatrics if treating that population
- 2 hours encouraged in diagnosis of rare diseases
- 2 hours encouraged on methods for educating patients on managing medications

NAC 633.250 requires at least 35 hours of continuing education

- 10 category 1a courses
- 2 hours on the misuse and abuse of controlled substances, prescribing of opioids, or addiction.

Note: professional liability insurance is not mandatory in Nevada statute, but hospitals and other health facilities will not allow a physician access privileges without insurance.

**Pharmacists** – NRS 639.2171 requires the Board of Pharmacy to adopt requirements by regulation. No mandated hours in statute.

NAC 639.330 – requires 30 continuing education units each biennium.

- 15 hours in accredited programs
- 1 hour in jurisprudence, practice of pharmacy or pharmacy law (includes attending board meetings)

NAC 639.335 includes exemptions from continuing education. New licensees and those residing outside the state. Non accredited programs are allowed for students, active duty and stationed outside the state, residing and practicing outside the state.

Professional liability insurance requirements

NRS 639.28085 requires the board to adopt regulations requiring coverage by adequate liability insurance related to ordering tests, prescribing and dispensing drugs for HIV.

**Comparison of other state requirements for pharmacist prescribing – 11 states**

In 2022, the FDA authorized all state-licensed pharmacists to prescribe Paxlovid to eligible patients as a result of the COVID-19 pandemic. Pharmacists must access and review a patients electronic medical records, which must be under 12 months old and have a conversation with the patients primary provider. The pharmacist must also complete a comprehensive medication review, meaning they must have access to the complete patient medication list. All 50 states allow a pharmacist to prescribe and dispense naloxone, birth control may be prescribed in 20 jurisdictions across the county, and several states allow pharmacists to dispense PrEP and PEP for HIV without a prescription.

11 states have expanded prescribing for pharmacists, mostly categorical prescribing or to treat minor acute conditions (urinary tract infections, allergies, motion sickness prevention, cold sores, etc.). These states are: California, Florida, Idaho, Iowa, Massachusetts, Montana, New Mexico, New York, North Carolina, Ohio. and Oregon. Of these 11 states, 4 require an additional credential on your license: New Mexico, California, Montana, and North Carolina.

California and New Mexico are used as examples below because of their geographic proximity to Nevada, expanded prescribing authority (including diagnosis), and because New Mexico is similar to Nevada in population and geography.

The California model (passed in 2013) includes a new license type, Advanced Practice Pharmacists, these providers must work in collaboration with other healthcare

providers, earn a certificate in their area of practice, and have completed 1500 hours of clinical experience under a collaborative practice agreement or protocol.

In 1993, New Mexico became the first state to allow pharmacists to prescribe in response to a primary care provider shortage. Pharmacists must first obtain the pharmacist clinician certification which requires completing a course on physical assessments and practice under the supervision of a physician or other practitioner with prescribing authority. Pharmacist clinician requirements in New Mexico can be found in 16.19.4.17 and include:

- 60 hour physical assessment course
- 150 hour, 300 patient contact preceptorship supervised by a physician or other practitioner with prescriptive authority
    - Log of patient encounters must be submitted as part of the application

Comparison chart of the 11 states, prescribing ability, advanced license requirements, and types of prescriptive authority can be found here.
