## AVEO to Become the U.S. Foundation for LG Chem Life Sciences' Oncology Division

SEOUL, South Korea, Jan. 19, 2023 (GLOBE NEWSWIRE) -- LG Chem, Ltd. ("LG Chem") (KOSPI: 051910) today announced that it has completed its previously announced acquisition of AVEO Oncology ("AVEO"), a commercial stage, oncology-focused biopharmaceutical company committed to delivering medicines that provide a better life for patients with cancer, in an all-cash transaction with an implied equity value of $571M on a fully diluted basis.

"We are excited to complete LG Chem's acquisition of AVEO, which will position us to deliver on our mission of becoming one of the world's leading oncology companies with a robust clinical pipeline of innovative therapies," said Shin Hak-Cheol, Chief Executive Officer of LG Chem.

AVEO plans to accelerate the commercialization of new anti-cancer drugs developed by LG Chem Life Sciences. With strong capabilities in early-stage R&D and production process, LG Chem Life Sciences will be positioned to pursue promising anti-cancer therapies and commercial processes for pre-clinical and early clinical trials, while AVEO, with its broad expertise in clinical development and sales in the U.S. market, will oversee clinical development and commercialization.

"The merger extends LG Chem Life Sciences' commercial footprint to the U.S., diversifies our pipeline and advances our combined capabilities with AVEO, accelerating our ability to develop, commercialize and acquire world-class cancer therapies," said Dr. Son Jeewoong, President of LG Chem Life Sciences. "We look forward to working closely with AVEO's experienced and talented team as we welcome them to the LG Chem family."

"This transaction delivered significant value to our shareholders and AVEO is now positioned to benefit from the support and resources of LG Chem as we advance our mission of improving the lives of patients with cancer," said Michael Bailey, President and Chief Executive Officer of AVEO. "We look forward to our next chapter of growth as we realize the tremendous potential of our promising pipeline and leverage our combined capabilities to deliver continued progress across our clinical and pre-clinical stage anti-cancer therapies."

Re: **Department of Business & Professional Regulation v. Catalent Pharma Solutions, LLC, Case Number 2014-008409**

Dear Sir/Madam:

On or about March 17, 2014 through March 19, 2014, the Department of Business & Business Professional Regulation, Drugs, Devices, and Cosmetics Division (hereafter "Department"), conducted an on-site inspection of Catalent Pharma Solutions, LLC (hereafter "Catalent") located 2725 Scherer Drive, St. Petersburg, Florida 33716. Catalent is permitted by the Department to operate as a prescription drug manufacturer, permit number 20:117; over the counter drug manufacturer, permit number 20:118; product registrant, permit number 08:1723, all of which expire on November 30, 2014, and as a diethyl ether purchaser, permit number 10:1300003, which expires on September 30, 2014.

During the on-site inspection, the Department determined that Catalent is a contract manufacturer for Boehringer Ingelheim, Binger Strabe 173, 55216 Ingelheim am, Rhein Germany (hereafter "BI-Germany"). Catalent received prescription drugs from BI-Germany for the manufacturing of finished dosage forms of the prescription drugs, BI-Germany is not permitted by the Department, and does not qualify for an exemption from licensure.

The Department determined that Catalent, received, shipped, manufactured and/or distributed prescription drug active pharmaceutical ingredient (API) from en

unauthorized source and failed to register and report the distribution of controlled substances.

The Department is authorized by Rule 61N-1.024(8), Florida Administrative Code, to issue a Notice of Violation for any alleged violations of Chapter 499, Florida Statutes, in order to facilitate the uncontested settlement of all issues related to a complaint or investigation. The Notice of Violation is to be done at the completion of the investigation and prior to filing of any Administrative Complaint. The Notice of Violation will advise the alleged violator of the statutory violation and provide a proposed penalty for settlement of the disciplinary matter related to a complaint.

The Department believes Catalent committed the following violations of Chapter 499, Florida Statutes and the administrative Rules promulgated pursuant thereto:

1. Section 499.005(14), Florida Statutes (2013); provides that the purchase or receipt of a prescription drug from a person that is not authorized under this chapter to distribute prescription drugs to that purchaser or recipient is unlawful.

During the on-site inspection, the Department obtained purchasing and receiving specification sheets for prescription drugs, and/or active pharmaceutical ingredients (API); Catalent received that identify the distributor as BI-Germany. Records show Catalent was in receipt of four shipments from BI-Germany as follows:

1. Item number OET 00309819-Tipranavir-BI, dated 11/1/13; lot number 7648849, supplier/manufacturer lot number 1044065, 200kg.

2. Item number OET 00309819-Tipranavir-BI, dated 11/1/13; lot number 7648845, supplier/manufacturer lot number 1043891, 20kg.

3. Item number OET 00309819-Tipranavir-BI, dated 11/1/13; lot number 7648848, supplier/manufacturer lot number 1043888, 60kg.

4. Item number OET 00308819-Tipranavir-BI, dated 9/12/13; lot number 7490105, supplier/manufacturer lot number 1043891, 280kg.

Because BI-Germany manufactured the prescription drug API Tipranavir, in Germany, and distributed it to Catalent, located in Florida, without having a permit to do so, Catalent received prescription drugs from an unauthorized source in violation of Section 499.005(14), Florida Statutes (2013).

**Range of Penalty per violation: An Administrative Complaint with a fine ranging from $1000 to $3000 per violation and up to permanent suspension or revocation of permit(s).**

**Fine assessed by the Department: $6,000**

2. Section 499.006(10), Florida Statutes, (2013), provides that a drug is adulterated that has been purchased, held, sold, or distributed at any time by a person not authorized under federal or state law to do so. Section 499.005(1), Florida Statute (2013), provides that the manufacture, repackaging, sale, delivery or holding or offering for sale of any drug that is adulterated or misbranded is unlawful.

Catalent informed the Department it receives the prescription drug API, Tipranavir, manufactured by the unauthorized source BI-Germany. Catalent manufactures the commercial prescription drug into a finished dosage form and ships it to Roxane Laboratories, Inc., located at 1809 Wilson Road, Columbus, Ohio 43288. Because BI-Germany, located in Germany, is not authorized to distribute prescription drugs into Florida, and Catalent manufactured the unauthorized prescription drugs, Catalent caused them to become adulterated.

Catalent violated Section 499.005(1), Florida Statutes (2013), by manufacturing the adulterated prescription drug Tipranavir, on at least four occasions, received from BI-Germany, within the meaning of Section 499.006(10), Florida Statutes (2013).

**Range of Penalty per violation: An Administrative Complaint with a fine ranging from $1,000 to $3,000 per violation and up to permanent suspension or revocation of permits.**

**Fine assessed by the Department: $3,000**

3. Section 499.006(10), Florida Statutes (2013), provides that a drug is adulterated that has been purchased, held, sold, or distributed at any time by a person not authorized under federal or state law to do so. Section 499.005(4), Florida Statutes (2013), provides that the sale, distribution, purchase, trade, holding, or offering of any drug is unlawful.

Catalent distributed the adulterated prescription drug API Tipranavir, on at least four occasions, to Roxane Laboratories, in violation of Section 499.005(4), Florida Statutes (2013), within the meaning of Section 499.006(10), Florida Statutes (2013.

**Range of Penalty per violation: An Administrative Complaint with a fine ranging from $1000 to $3000 per violation and up to permanent suspension or revocation of permit(s).**

**Fine assessed by the Department: $3,000**

4. Section 499.0121(14), Florida Statutes (2013), provides:

**(14) DISTRIBUTION REPORTING.**—Each prescription drug wholesale distributor, out-of-state prescription drug wholesale distributor, retail pharmacy

drug wholesale distributor, manufacturer, or repackager that engages in the wholesale distribution of controlled substances as defined in s. 893.02 shall submit a report to the department of its receipts and distributions of controlled substances listed in Schedule II, Schedule III, Schedule IV, or Schedule V as provided in s. 893.03. Wholesale distributor facilities located within this state shall report all transactions involving controlled substances, and wholesale distributor facilities located outside this state shall report all distributions to entities located in this state. If the prescription drug wholesale distributor, out-of-state prescription drug wholesale distributor, retail pharmacy drug wholesale distributor, manufacturer, or repackager does not have any controlled substance distributions for the month, a report shall be sent indicating that no distributions occurred in the period. The report shall be submitted monthly by the 20th of the next month, in the electronic format used for controlled substance reporting to the Automation of Reports and Consolidated Orders System division of the federal Drug Enforcement Administration. Submission of electronic data must be made in a secured Internet environment that allows for manual or automated transmission. Upon successful transmission, an acknowledgment page must be displayed to confirm receipt. The report must contain the following information:

(a) The federal Drug Enforcement Administration registration number of the wholesale distributing location.

(b) The federal Drug Enforcement Administration registration number of the entity to which the drugs are distributed or from which the drugs are received.

(c) The transaction code that indicates the type of transaction.

(d) The National Drug Code identifier of the product and the quantity distributed or received.

(e) The Drug Enforcement Administration Form 222 number or Controlled Substance Ordering System identifier on all Schedule II transactions.

(f) The date of the transaction.

The department must share the reported data with the Department of Law Enforcement and local law enforcement agencies upon request and must monitor purchasing to identify purchasing levels that are inconsistent with the purchasing entity's clinical needs. The Department of Law Enforcement shall investigate purchases at levels that are inconsistent with the purchasing entity's clinical needs to determine whether violations of chapter 893 have occurred.

Catalent advised the Department they had registered to report controlled substances but failed to report in a timely matter since August of 2012.

Catalent violated Section 499.0121(14), Florida Statutes (2013), by failing to register and report the distribution of control substances monthly to the Department as required, from August 2012 through July 2013.

**Range of Penalty per violation: An Administrative Complaint with a fine ranging from $1000 to $3000 per violation and up to permanent suspension or revocation of permits.**

**Fine assessed by the Department: $3,000**

5. Section 499.0121, Florida Statutes (2013), provides:

(4) EXAMINATION OF MATERIALS AND RECORDS.—The department shall adopt rules that require keeping such records of prescription drugs as are necessary for the protection of the public health.

(c) The recordkeeping requirements in subsection (6) must be followed for all incoming and outgoing prescription drugs.

(6) RECORDKEEPING.—The department shall adopt rules that require keeping such records of prescription drugs as are necessary for the protection of the public health.

(a) Wholesale distributors must establish and maintain inventories and records of all transactions regarding the receipt and distribution or other disposition of prescription drugs. These records must provide a complete audit trail from receipt to sale or other disposition, be readily retrievable for inspection, and include, at a minimum, the following information:

2. The name, principal address, and state license, permit or registration number of the person authorized to purchase prescription drugs; [Emphasis supplied].

Rule 61N-1.012 provides:

(1)(a) Records to document the movement of drugs, devices or cosmetics must provide a complete audit trail from a person's receipt or acquisition to sale or other disposition of the product or component. A complete audit trail includes records which document each transaction or step in the receipt, manufacture, shipping, transfer, or other steps in the channel of trade of that person, whether or not physical possession or handling of the product or component occurs. At a minimum, records shall consist of invoices from the supplier or source which document acquisition of each product by the person and invoices of sale or other transfer by the person to the recipient. Retail sales transactions to the consumer of over-the-counter drugs, non-restricted devices, or cosmetics are exempt from the requirements of this rule. Additional recordkeeping is required for persons permitted by the department as further stated in this rule.

(b) A person engaged in the distribution of drugs, devices, or cosmetics is not required to maintain documentation from a common carrier that the designated recipient received the product shipped; however, the person must obtain such documentation from the common

carrier and make it available to the department upon specific request of the department.

(2) Any person engaged in the manufacture of prescription drugs, the wholesale distribution of prescription drugs, or otherwise receiving or distributing prescription drugs must maintain records as follows:

(a) For each step in the channel of trade, records containing the information required by Section 499.0121(6)(a), F.S., and the Florida permit or license number which authorizes the source to possess and transfer prescription drugs in or into Florida must appear on one document. If delivery of prescription drugs is made to a person other than the purchaser, the name, address or location where the prescription drugs are delivered, and the state license, permit or registration number for that location must be included also. [Emphasis supplied].

Invoices and packlists for the prescription drug API Tipranavir provided to Catalent from BI-Germany failed to contain Catalent's Florida permit number, in violation of Section 499.0121(4)(c), Florida Statutes (2013), within the meaning of Section 499.0121(6)(a)2., Florida Statutes (2013), and Rule 61N-1.012, Florida Administrative Code.

**Range of Penalty per violation: An Administrative Complaint with a fine ranging from $1,000 to $3,000 per violation and up to permanent suspension or revocation of permits.**

**Fine assessed by the Department: $1,000**

In order to resolve this matter, the Department proposes the following alternatives, either of which must be accomplished by your company within twenty-one (21) days of receipt of this letter:

1. If your company does not contest the findings in this letter, and further agrees to waive its right to an administrative hearing pursuant to Sections 120.569 and 120.57, Florida Statutes, the Department and Catalent Pharma Solutions, LLC may resolve this matter. 2. However, if you believe circumstances exist that the Department should consider before concluding this investigation, you may provide the Department your rationale and evidence to support your position within twenty-one (21) days of receipt of this letter.

If the Department does not concur, or we are unable to reach a satisfactory resolution of this matter, the Department may initiate appropriate legal action after expiration of the above referenced 21-day time period given. Appropriate legal action may include:

(a) Filing and serving an administrative complaint for a hearing pursuant to Chapter 120, Florida Statutes (2011). |---|---|
| **In the Matter of:**<br><br>**Catalent Pharma Solutions, LLC,**<br><br>**Applicant.** | **ORDER** |

This matter first came before the Nonresident Permit Subcommittee ("Committee"), appointed by the State Board of Pharmacy ("Board"), on April 25, 2017, for a hearing on the application of the above-named applicant ("Applicant") for a nonresident wholesaler/distributor/manufacturer permit. The Applicant appeared before the Committee through its designated representative, Terry Jackson, as well as its Associate General Counsel for Regulatory Matters, Robert Ciolek, Esquire. Applicant was represented by Jon Wallace, Esquire. At its June 14, 2017, meeting with a quorum present, the Board considered the Committee's recommendation and the transcript of the Committee's hearing. The Board adopted the Committee's recommendation that the application be approved, and the permit shall issued subject to the prior payment of a civil penalty in the amount of Five Thousand and 00/100 ($5,000.00) Dollars for shipping into South Carolina without a permit. Since the hearing, Applicant has tendered the fine to the Board.

Applications of this type are governed by S.C. Code §§ 40-43-83, 40-43-86, 40-43-89 (2011, as amended), and/or Reg. 99-43, as amended.

## FINDINGS OF FACT

1. Applicant applied for a permit for its facility located in Philadelphia, PA.

2. Applicant manufactures clinical supply materials.

3. Applicant's representative admitted that Applicant has previously shipped prescription drugs to South Carolina without first obtaining a permit from this Board.

4. Applicant otherwise meets the requirements for the Permit for which it applied.

## CONCLUSIONS OF LAW

In an application hearing, "(t)he applicant shall demonstrate to the satisfaction of the board that the applicant meets all requirements for the issuance of a license." S.C. Code Ann. § 40-1-130 (2011, as amended). Thus, the burden of proof in an application for licensure or certification is on the Applicant to provide full, complete, and accurate responses to all questions on the application

and to demonstrate that it is qualified for the license sought.

S.C. Code Ann. §40-43-83(I)(2011) requires a permit for the sale or distribution of legend (prescription) drugs in this state, and expressly includes manufacturers within or without the state. S.C. Code Ann. § 40-43-89 (2011) requires a facility located outside of this State that distributes prescription drugs or devices in this State to have a permit issued by the Board prior to distribution. S.C. Code Ann. § 40-43-140(A)(3) states that facilities requiring permits may not operate unless a permit has been issued by the board. Pursuant to S.C. Code Ann. § 40-43-140(A)(1)(2011), the Board may suspend, revoke, deny, or refuse to renew the permit or impose disciplinary action authorized for violations of the Pharmacy Act. Pursuant to S.C. Code Ann. §§ 40-43-140(A)(2), a person who distributes or delivers drugs or devices in this State without a required permit is subject to a fine imposed by the Board not to exceed one thousand dollars for each offense, in addition to such other disciplinary action the Board may take.

Applicant has met the qualifications for the permit, but violated the Pharmacy Practice Act by regularly distributing prescription drugs or devices into this State without a permit. Therefore, the Board concludes that it is appropriate to issue the permit subject to the prior payment of a civil penalty in the amount of Five Thousand and 00/100 ($5,000.00) Dollars.

**NOW, THEREFORE, IT IS ORDERED THAT:**

The Application is approved, and the permit shall be issued subject to the payment of a civil penalty in the amount of Five Thousand and 00/100 ($5,000.00) Dollars, receipt of which is hereby acknowledged by the Board.

**AND IT IS SO ORDERED.**

**RE: Coloplast Corp. Wholesaler Application – Ontario, CA Facility**

To Whom It May Concern:

By this letter, Coloplast Corp. is providing to the Nevada State Board of Pharmacy (BOP) its wholesaler application as discussed on a June 6, 2023 teleconference with me, Tara Farrington and from the BOP, Mr. Zunino, Mr. Wuest and Mr. Cedars. This wholesaler application is made for Coloplast Corp. (Coloplast) at 4495 E Wall Street facility in Ontario, CA 91761 (CA Application).

I am providing the following information to supplement the CA Application.

Coloplast Corp. (Applicant) is a Delaware Corporation and a wholly owned subsidiary of Coloplast A/S which, in turn, is a Danish company that is publicly traded on the Danish stock exchange. Applicant is the U.S. based operating company and is based at the address shown above and in the CA Application. Coloplast A/S and Applicant are medical device manufacturers operating in the U.S (principally through Applicant) and globally, principally through Coloplast A/S. Neither Coloplast A/S nor Applicant manufactures or distributes drugs or controlled substances. The information in this paragraph may be helpful for Sectian 9. Page 5, of the CA Application in bullet three ("all corporation shareholders" for Coloplast Corp).

Coloplast Manufacturing US, LLC is a wholly owned subsidiary and operating unit of Coloplast Corp., the Applicant. Coloplast Manufacturing US, LLC operates a facility in Ontario, CA. The information in this paragraph may be helpful for Section 8, page 5 of the CA Application as Coloplast Manufacturing US, LLC is listed with the Applicant, Coloplast Corp., on the public FDA registration website and in the FDA registration materials included in the CA Application. The information in this paragraph may also be helpful for Section 9 of the CA Application, bullet 11 (license in the city where wholesaler is located).

Coloplast has included a list of the management and leadership employees at the Applicant's CA address, rather than listing every involved employee's name and other information in detail. The management and leadership employees that are identified in the CA Application are responsible for the Applicant's activities at the address set out in this letter. The information in this paragroph may be helpful for Section 9 of the CA Application in bullet 10 ("list containing each employee").

The Personal Record History Record Application described in bullet 7 of CA Application Section 9 is not applicable to Coloplast Corp.

In a separate letter, copy attached, Coloplast is requesting, as discussed in a June 6, 2023 email from Mr. Cedars to me, a temporary license for CA Applicant's facility.

## POLICYHOLDER DISCLOSURE
## NOTICE OF TERRORISM INSURANCE COVERAGE

### TERRORISM RISK INSURANCE ACT

Under the Terrorism Risk Insurance Act of 2002, as amended pursuant to the Terrorism Risk Insurance Program Reauthorization Act of 2019 (the "Act"), you have a right to purchase insurance coverage for losses arising out of acts of terrorism, as defined in Section 102(1) of the Act: The term "certified acts of terrorism" means any act that is certified by the Secretary of the Treasury—in consultation with the Secretary of Homeland Security, and the Attorney General of the United States—to be an act of terrorism; to be a violent act or an act that is dangerous to human life, property, or infrastructure; to have resulted in damage within the United States, or outside the United States in the case of certain air carriers or vessels or the premises of a United States mission; to have been committed by an individual or individuals as part of an effort to coerce the civilian population of the United States or to influence the policy or affect the conduct of the United States Government by coercion.

You should know that where coverage is provided by this policy for losses resulting from "certified acts of terrorism," such losses may be partially reimbursed by the United States Government under a formula established by federal law. However, your policy may contain other exclusions which might affect your coverage, such as an exclusion for nuclear, chemical, biological or radioactive events. Under the formula, the United States Government agrees to reimburse eighty percent (80%) of covered terrorism losses that exceed the statutorily established deductible paid by the insurance company providing the coverage. The premium charged for this coverage is provided below and does not include any charges for the portion of loss that may be covered by the Federal Government under the Act.

You should also know that the Act, as amended, contains a $100 billion cap that limits United States Government reimbursement as well as insurers' liability for losses resulting from "certified acts of terrorism" when the amount of such losses in any one calendar year exceeds $100 billion. If the aggregate insured losses for all insurers exceed $100 billion, your coverage may be reduced.

### CONDITIONAL TERRORISM COVERAGE

The federal Terrorism Risk Insurance Program Reauthorization Act of 2019 is scheduled to terminate at the end of December 31, 2027, unless renewed, extended or otherwise continued by the federal government. Should you select Terrorism Coverage provided under the Act and the Act is terminated December 31, 2027, any terrorism coverage as defined by the Act provided in the policy will also terminate.

**Provide explanation below:**

In June 2017, the Idaho State Board of Pharmacy changed the interpretation of their laws regarding Virtual Wholesalers and Virtual Manufacturers. Elanco US Inc. monitors all law changes from the Board of Pharmacies and is notified daily of changes. However, since the change was in interpretation rather than an actual language change we were not aware of the new requirements. When Elanco US Inc. Headquarters, located in Indiana, found this out we applied for a license right away and were issued a license, which we still hold .. However, since we had been shipping into the state using the old interpretation, which didn't require licensure for virtuals, we were out of compliance. Elanco paid a fee to the Idaho Board of Pharmacy to resolve this issue.

**Provide explanation below:**

Elanco US Inc. Headquarters, located in Indiana, received a violation in Florida in December 2020 for a fine we received in Idaho two years prior when Idaho changed their interpretation of the law. We notified Florida of this violation every year we renewed. We monitor all state laws using Porizo Compliance Digest to ensure we are registered correctly.

**Provide explanation below:**

In July 2016, the Ohio State Board of Pharmacy changed its laws regarding Virtual Wholesalers and Virtual Manufacturers requiring either a VAWD Accreditation or a home state license. For our Elanco US Inc. Headquarters site located in Indiana, no home state license is required for veterinary wholesalers or manufacturers. Elanco was in the process of changing over Novartis Animal Health US, Inc. applications to Elanco US Inc. after the acquisition of Novartis Animal Health US, Inc. Since Novartis Animal Health US, Inc. never held a license in Ohio Elanco US Inc. did not get a grace period to comply with these new laws. Elanco US Inc. stopped sales into Ohio for 6 months. Elanco petitioned the Indiana Board of Pharmacy after submitting our VAWD application and an Indiana license was granted. We are now licensed to sell in Ohio.

To Whom It May Concern:

In June 2017, the Idaho State Board of Pharmacy changed the interpretation of their laws regarding Virtual Wholesalers and Virtual Manufacturers. Elanco monitors all law changes from the Board of Pharmacies and is notified daily of changes. However, since the change was in interpretation rather than an actual language change we were not aware of the new requirements. When Elanco found this out we applied for a license right away and were issued a license, which we still hold.. However, since we had been shipping into the state using the old interpretation, which didn't require licensure for virtuals, we were out of compliance. Elanco paid a fee to the Idaho Board of Pharmacy to resolve this issue.

Please let me know if you have any further questions.

WHEREAS, information has been received by the Idaho Board of Pharmacy ("Board") that constitutes sufficient grounds for the initiation of an administrative action against Elanco US Inc. ("Respondent"); and

WHEREAS, the parties wish to expeditiously settle this matter in lieu of proceeding to an administrative hearing before the Board; now, therefore,

IT IS HEREBY STIPULATED AND AGREED between the undersigned parties that this matter shall be settled and resolved upon the following terms:

## A. JURISDICTION OF THE BOARD

1. The Board may regulate the practice of pharmacy in the state of Idaho in accordance with title 54, chapter 17, Idaho Code. The Board is further empowered by title 37, chapter 27, Idaho Code, to administer the regulating provisions of the Uniform Controlled Substances Act in the state of Idaho.

2. Respondent is a licensee of the Board and holds Manufacturer License No. M46280. Respondent's license is subject to the provisions of title 54, chapter 17, Idaho Code, title 37, chapter 27, Idaho Code, and the Board's rules promulgated at IDAPA 27.01.01, *et seq.*

## B. STIPULATED FACTS

1. Respondent is a corporation organized in the state of Indiana and is a manufacturer of drugs as defined by Idaho Code § 54-1705(24).

2. Respondent previously held Manufacturer Registration No. M21204, which expired June 30, 2016. The Board received the new Manufacturer Registration Application submitted by Respondent on July 10, 2017. In the course of reviewing the application, Board staff discovered they had a previous registration and contacted Respondent to request a list of medications shipped into Idaho for the time period of June 30, 2016, through the date of the application. Respondent provided Board Staff with a listing of the drug products shipped into the state of Idaho during the period of June 2016 through May 2017.

3. According to the list provided by Respondent, Respondent shipped 548 drug products to veterinary medical providers in the state of Idaho between June 2016 and May 2017. Each product shipped during the period in which Respondent was unlicensed in the state of Idaho is a violation of Idaho law and Board rules.

4. While Respondent's error may have been unintentional, Respondent acknowledges its actions constituted violations of the statutes and rules governing the practice of pharmacy in Idaho. More specifically, Respondent admits the violations are subject to the following statutes and rules:

a. Idaho Code § 54-1726(1)(f) (the Board may suspend, revoke or restrict the license or registration of any person, upon one or more of the following grounds. . .being found by the Board to be in violation of any of the provisions of this chapter, chapter 27, title 37, or rules adopted pursuant to either chapter);

b. Idaho Code § 54-1729(2)(c) (each drug or device outlet shall apply for a certificate of registration or a license in one of the following classifications . . . (c) manufacturer);

c. Idaho Code § 54-1728(1)(f) (upon the finding of the existence of grounds for discipline the Board may impose one or more of the following penalties . . . (f)

imposition of an administrative fine not to exceed two thousand dollars ($2,000) plus costs of prosecution and administrative costs);

d. Idaho Code § 54-1732(1) (no drug outlet designated in § 54-1729 shall be operated until a certificate of registration has been issued to said facility by the Board . . . upon the finding of a violation of this subsection, the Board may impose one or more of the penalties enumerated in § 54-1728, Idaho Code);

e. IDAPA 27.01.01.060 (a license or a certificate of registration, as applicable, is required for drug outlets doing business in or into Idaho); and

f. IDAPA 27.01.01.501 (the Board may suspend, revoke or restrict the registration of an individual on one or more of the grounds provided in Idaho Code § 54-1726);

5. Respondent, in lieu of proceeding with a formal disciplinary hearing, hereby agrees the Board may enter a final order against its license as set forth in Section C below.

## C. STIPULATED PENALTIES

1. The parties agree that under the facts presented and the regulations that apply to such facts, the Board has the authority pursuant to Idaho Code § 54-1728(f) to impose an administrative fine of Two Thousand Dollars ($2,000) per occurrence for each drug product shipped into the state of Idaho during the time it was unlicensed. In the interests of efficiency and economy, it is agreed that Respondent shall pay a fine of Forty Thousand Dollars ($40,000) for the violations outlined above in Section B. This fine shall become due only after the Board approves and executes the Order incorporating this Stipulation and shall be paid to the Board within 180 days of the date the Order is executed.

2. Failure to comply with any of the terms of this Stipulation and Consent Order may result in additional action being taken against Respondent's manufacturer license.

3. All costs associated with Respondent's compliance with the terms of this Stipulation and Order shall be borne solely by Respondent.

## D. COMPLIANCE WITH STIPULATION AND CONSENT ORDER

1. The Board has authority to enforce compliance with the terms and conditions of this Stipulation. By signing this Stipulation, Respondent waives its ability to challenge the Board's lack of authority to enforce compliance on appeal to a district court. If there is reason to believe Respondent has violated any of the terms or conditions of this Stipulation, the Executive Director of the Board shall file an administrative complaint, setting forth the allegations of non-compliance and notifying Respondent, and its attorney, if applicable, that Respondent may request a hearing regarding the allegations of non-compliance. If Respondent does not request a hearing on the administrative complaint, any allegations of non-compliance will be deemed admitted.

2. If Respondent fails to comply with this Stipulation, Respondent's license may be subject to further discipline, up to and including suspension or revocation. Therefore, the Board retains jurisdiction over this proceeding until all matters are finally resolved as set forth in this Stipulation. Any action taken by the Board to enforce compliance with this Stipulation shall be in accordance with this section.

3. Any additional costs and/or attorney fees incurred by the Board in any enforcement action shall be borne solely by Respondent.

## E. ACKNOWLEDGMENTS AND WAIVER OF RIGHTS

Respondent, by signature of its authorized representative hereto, hereby acknowledges the following:

1. Respondent admits to the allegations stated above in Section B. Respondent understands these allegations constitute cause for disciplinary terms upon its license. Respondent agrees the Board has jurisdiction to proceed in this matter with its consent as indicated by signature

on its behalf hereto.

2. Respondent has read the above Stipulation fully and has had the opportunity to discuss it with legal counsel. Respondent understands and acknowledges that by its terms it is waiving certain rights provided under Idaho law.

3. Respondent understands that it has, among other rights, the right to a full and complete hearing; the right to confront and cross-examine witnesses; the right to present evidence or to call witnesses, or to so testify on its own behalf; the right to reconsideration; the right to appeal this matter to district court; and all rights provided by the Idaho Administrative Procedure Act and the laws and rules governing the practice of pharmacy in Idaho. Respondent hereby freely and voluntarily waives these rights, without further process, in order to enter into this Stipulation as a resolution of the allegations contained herein.

4. Respondent understands that in signing this Stipulation, it is enabling the Board to impose disciplinary terms upon its license as set forth in Section C without further process.

5. Respondent understands the Board may approve this Stipulation as proposed, approve it subject to specified changes, or reject it. Respondent understands that, if approved as proposed, the Board will execute and issue this Stipulation and Consent Order according to the aforementioned terms, and Respondent hereby agrees to the above Stipulation for settlement. If the Board approves this Stipulation subject to changes, and those changes are acceptable, Respondent acknowledges the Stipulation will take effect, and an order modifying the terms of the Stipulation will be issued. If the changes are unacceptable or the Board rejects this Stipulation, this Stipulation will be of no effect. Admissions in this Stipulation and negotiations preceding the signing of this Stipulation will not be admissible at any subsequent disciplinary hearing.

6. In the event this Stipulation is rejected by the Board or any changes proposed by the Board are not accepted, Respondent waives any right it may have to challenge the Board's

impartiality to hear the allegations in any subsequent administrative complaint based on the fact that the Board has considered and rejected this Stipulation.

7. Respondent understands the Board shall have the right to make full disclosure of this Stipulation and Consent Order to any state, agency or individual requesting information subject to any applicable provisions of the Idaho Public Records Act, title 9, chapter 3, Idaho Code.

8. Respondent understands this Stipulation and Consent Order is the resolution of a contested case and is a **public record**.

9. This Stipulation contains the entire agreement between the parties, and Respondent is not relying on any other agreement or representation of any kind, verbal or otherwise.

10. This Stipulation shall be presented to the Board with a recommendation for approval from the Executive Director of the Board and the Deputy Attorney General responsible for prosecution before the Board at the next regularly-scheduled meeting of the Board.

11. Except for Paragraph E.6., which becomes effective when Respondent signs this Stipulation, this Stipulation shall not become effective until it has been approved by a majority of the Board, and a Board member signs the attached Order.

Kim,

As you can see in the attached email I also provided this information to you before the license expired via email stating I made a mistake in the online application.

Since this information was provided to the board before the license expired and before the deficiency notice was sent do you need the renewal statement?

To Whom It May Concern:

In July 2016, the Ohio State Board of Pharmacy changed its laws regarding Virtual Wholesalers and Virtual Manufacturers requiring either a VAWD Accreditation or a home state license. In Indiana, no home state license is required for veterinary wholesalers or manufacturers. Elanco was in the process of changing over Novartis Animal Health US Inc. applications to Elanco US Inc. after the acquisition. Since Novartis Animal Health US Inc. never held a license in Ohio Elanco US Inc. did not get a grace period to comply with these new laws. Elanco US Inc. stopped sales into Ohio for 6 months. Elanco petitioned the Indiana Board of Pharmacy after submitting our VAWD application and an Indiana license was granted. We are now licensed to sell in Ohio.

Please let me know if you have any further questions.

Re: Application for Virtual Wholesale Distributor of Dangerous Drugs Licensing

Ms. Estela,

We are in receipt of your application for an Ohio Wholesale Distributor of Dangerous Drugs license as a Virtual Manufacturer/Broker. Your application is incomplete because you have not submitted your state license verification where the facility is physically located and/or proof of Verified-Accredited Wholesale Distributors (VAWD) accreditation pursuant to rule 4729-9-28 of the Ohio Administrative Code.

The State of Ohio Board of Pharmacy recognizes that virtual distributors/brokers do not store drugs onsite; however, virtual distributors/brokers are responsible for proper record keeping of wholesale transactions and for ensuring that the dangerous drugs are legitimate, FDA approved drugs. Therefore, the wholesale distributor of dangerous drugs shall possess a current, valid license in the state in which they are physically located and must be in good standing. If the home state does not license virtual wholesale distributors/brokers, one of the requirements for Ohio licensure is that the facility must obtain/maintain VAWD accreditation from the National Association of Boards of Pharmacy (NABP).

**Please resubmit your application with your home state license verification or VAWD accreditation with a copy of this letter within thirty (30) days**. If the requested documents are not received within this time frame, the application will be considered abandoned and the application fee forfeited.

We appreciate your concern regarding this matter. If you need any additional assistance or have any additional questions, please do not hesitate to contact me directly.

Indiana Code 25-26-14-7 states that "'legend drug' has the meaning set forth in IC 16-18-2-199. The term includes any human drug required by federal law or regulation to be dispensed only by a prescription, including finished dosage forms and active ingredients subject to 21 U.S.C. 811 through 812." ## Designated Representative Application

Rev (05/12/2022)

An application for a license, or a licensee with a license, to conduct a pharmacy or to operate as a wholesaler shall designate at least one natural person to serve as the representative of the pharmacy or wholesaler. The Board will not issue or renew a license of an applicant or licensee that is required to designate a representative of a pharmacy or wholesaler unless the Board determines that the designated natural person meets the following qualifications per NAC 639.5005 (Pharmacy) or NAC 639.5935 (Wholesaler):

1. Is at least 21 years of age;
2. Has been employed for at least 6,000 hours in a pharmacy or with a wholesaler in a capacity related to the dispensing and distribution of, and recordkeeping related to, prescription drugs.

The designated representative of a pharmacy or a wholesaler:

1. Must be actively involved in and aware of the actual daily operations of the pharmacy or wholesaler;
2. Must be employed full-time in a managerial level position with the pharmacy or wholesaler;
3. Must be physically present at site of the pharmacy or at the facility of the wholesaler during regular business hours, except when the absence of the representative is authorized, including sick leaves, vacation leaves and other authorized absences; and
4. May serve in this representative capacity for only one pharmacy or wholesaler at a time

A pharmacy or wholesaler that is required to designate a natural person as its representative shall not open or operate the pharmacy or wholesaler unless that representative is actually employed full-time in the operation of the pharmacy or wholesaler and is physically present at the site of the pharmacy or wholesaler during regular working hours, not including sick leave, vacation leave and other authorized absences from work. If the natural person designated as the representative of a pharmacy leaves the employ of the pharmacy or wholesaler, thus leaving the pharmacy or wholesaler without a representative in violation of this section, the pharmacy or wholesaler shall:

1. Immediately cease conducting business until another qualified natural person is approved by the Board to serve as the representative of the pharmacy or wholesaler; and
2. Not later than 48 hours after that person leaves its employ, notify the Board that the person designated as the representative of the pharmacy or wholesaler has left the employ of the pharmacy or wholesaler.

Before a pharmacy or wholesaler, that is in violation of NAC 639.5005 (Pharmacy) or NAC 639.5935 (Wholesaler) because the natural person designated as the representative of the pharmacy or wholesaler left the employ of the pharmacy or wholesaler, may continue conducting business:

1. The pharmacy or wholesaler must designate, on a form provided by the Board, a new natural person to serve as the representative of the pharmacy; and
2. The Board must approve the natural person so designated.

**Provide explanation below:**

In July 2016, the Ohio State Board of Pharmacy changed its laws regarding Virtual Wholesalers and Virtual Manufacturers requiring either a VAWD Accreditation or a home state license. For our Elanco US Inc. Headquarters site located in Indiana, no home state license is required for veterinary wholesalers or manufacturers. Elanco was in the process of changing over Novartis Animal Health US, Inc. applications to Elanco US Inc. after the acquisition of Novartis Animal Health US, Inc. Since Novartis Animal Health US, Inc. never held a license in Ohio Elanco US Inc. did not get a grace period to comply with these new laws. Elanco US Inc. stopped sales into Ohio for 6 months. Elanco petitioned the Indiana Board of Pharmacy after submitting our VAWD application and an Indiana license was granted. We are now licensed to sell in Ohio.

Once this was confirmed to Elanco on January 11th we stopped all shipments into the state until approval was received. We were fined $500.00. This wasn't considered a disciplinary action in Alabama. In June 2017, the Idaho State Board of Pharmacy changed the interpretation of their laws regarding Virtual Wholesalers and Virtual Manufacturers. Elanco US Inc. monitors all law changes from the Board of Pharmacies and is notified daily of changes. However, since the change was in interpretation rather than an actual language change we were not aware of the new requirements. When Elanco US Inc. Headquarters, located in Indiana, found this out we applied for a license right away and were issued a license, which we still hold .. However, since we had been shipping into the state using the old interpretation, which didn't require licensure for virtuals, we were out of compliance. Elanco paid a fee to the Idaho Board of Pharmacy to resolve this issue.

this submission "**Final Printed Carton and Container Labeling for approved NDA 217225**." Approval of this submission by FDA is not required before the labeling is used.

**DATING PERIOD**

Based on the stability data submitted to date, the expiry dating period for IZERVAY (avacincaptad pegol intravitreal solution) shall be 24 months from the date of manufacture when stored at 2°C to 8°C (35°F to 46°F).

**ADVISORY COMMITTEE**

Your application for IZERVAY (avacincaptad pegol intravitreal solution) was not referred to an FDA advisory committee because the clinical trial design is similar to a previously approved product in the class.

**REQUIRED PEDIATRIC ASSESSMENTS**

Under the Pediatric Research Equity Act (PREA) (21 U.S.C. 355c), all applications for new active ingredients (which includes new salts and new fixed combinations), new indications, new dosage forms, new dosing regimens, or new routes of administration are required to contain an assessment of the safety and effectiveness of the product for the claimed indication in pediatric patients unless this requirement is waived, deferred, or inapplicable. We are waiving the pediatric study requirement for this application because necessary studies are impossible or highly impracticable as geographic atrophy secondary to age-related macular degeneration does not occur in the pediatric population.

**POSTMARKETING COMMITMENTS SUBJECT TO REPORTING REQUIREMENTS UNDER SECTION 506B**

We remind you of your postmarketing commitments:

**FULL PRESCRIBING INFORMATION**

## 1 INDICATIONS AND USAGE

IZERVAY™ is indicated for the treatment of geographic atrophy (GA) secondary to age-related macular degeneration (AMD).

## 2 DOSAGE AND ADMINISTRATION

### 2.1 General Dosing Information

IZERVAY must be administered by a qualified physician.

### 2.2 Recommended Dosage

The recommended dose for IZERVAY is 2 mg (0.1 mL of 20 mg/mL solution) administered by intravitreal injection to each affected eye once monthly (approximately every 28 ± 7 days) for up to 12 months.

### 2.3 Preparation for Administration

**Important information you should know before you begin:**

- Read all the instructions carefully before using IZERVAY.
- The IZERVAY kit includes a glass vial, filter needle, and an empty syringe. The glass vial, filter needle, and empty syringe are for single use only.
- Store IZERVAY in the refrigerator at temperatures between 2°C to 8°C (36°F to 46°F). Do not freeze. Do not shake.
- Prior to use, allow IZERVAY to reach room temperature, 20°C to 25°C (68°F to 77°F). The IZERVAY vial may be kept at room temperature for up to 24 hours. Keep the vial in the original carton to protect from light.
- Use aseptic technique to carry out the preparation of the intravitreal injection.
- Each vial should only be used for the treatment of a single eye.

**Step 1: Gather Supplies**

Gather the following supplies (*see Figure A*):

a. One IZERVAY vial (included)

b. One sterile 5-micron filter needle 19-gauge x 1½ inch (included)

c. One sterile 1 mL Luer lock syringe with a 0.1 mL dose mark (included)

d. One sterile injection needle 30-gauge x ½ inch (not included)

NOTE: a 30-gauge injection needle is recommended to avoid increased injection forces that could be experienced with smaller diameter needles.

e. Alcohol swab (not included)

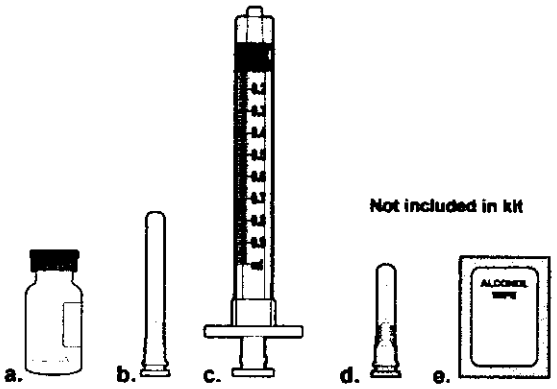

**Figure A**

**Step 2: Inspect Vial**

Inspect the liquid in the vial. It should be a clear to slightly opalescent, colorless to slightly yellow liquid solution (*see Figure B*).

**Do not** use if particulates, cloudiness, or discoloration are visible.

**Do not** use if the packaging, vial, filter needle, injection needle, and/or empty syringe are expired, damaged, or have been tampered with.

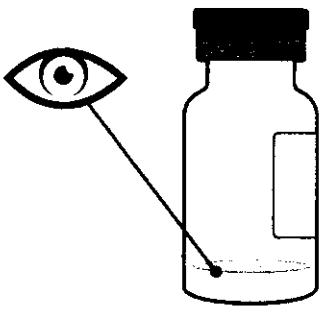

**Figure B**

**Step 3: Orient Vial**

Place the vial upright on a flat surface for about 1 minute after removal from packaging to make sure all liquid settles at the bottom of the vial *(see Figure C).*

Gently tap the vial with your finger to remove any liquid that may stick to the top of the vial *(see Figure D).*

**Figure C**

**Figure D**

**Step 4: Clean Vial**

Remove the flip-off cap from the vial (*see Figure E*).

Gently wipe the vial septum with an alcohol swab (*see Figure F*).

**Figure E**

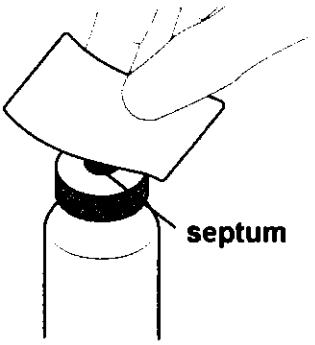

**Figure F**

**Step 5: Attach Filter Needle**

Using aseptic technique, firmly attach the included 19-gauge x 1½ inch filter needle onto the 1 mL Luer lock syringe and twist clockwise to secure *(see Figure G).*

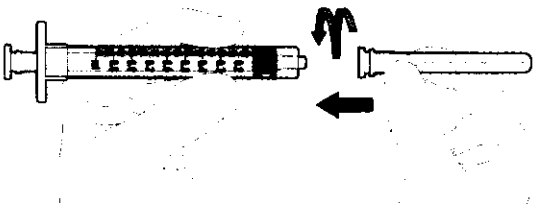

**Figure G**

**Step 6: Insert Filter Needle into Vial**

Using aseptic technique, push the filter needle all the way into the center of the vial septum *(see Figure H).*

Tilt the vial slightly so that the needle touches the bottom edge of the vial *(see Figure I).*

Rotate the filter needle so that the bevel is submerged into the liquid to avoid introduction of air.

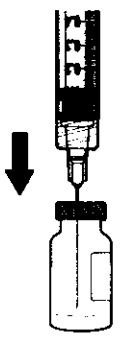

**Figure H**

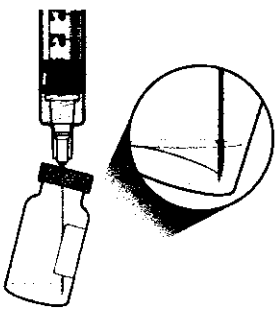

**Figure I**

**Step 7: Withdraw Liquid**

Slowly withdraw all the liquid from the vial (*see Figure J*).

Draw the plunger rod back far enough to completely empty the filter needle.

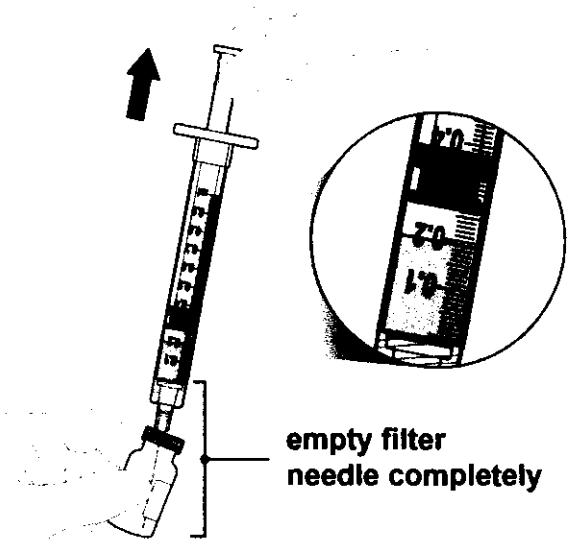

**Figure J**

**Step 8: Disconnect Filter Needle**

Disconnect the filter needle from the syringe and dispose of it in accordance with local regulations (*see Figure K*).

**Do not use the filter needle for the intravitreal injection.**

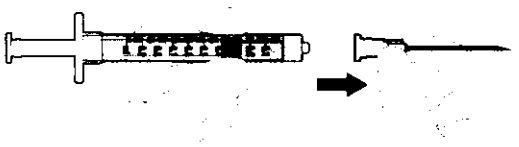

**Figure K**

**Step 9: Attach Injection Needle**

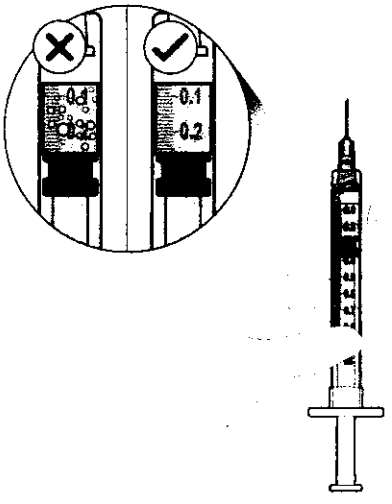
Using aseptic technique, firmly attach the 30-gauge x ½ inch injection needle onto the Luer lock syringe. (*see Figure L*). Carefully remove the plastic needle shield from the needle by pulling it straight off (*see Figure M*).

**Figure L**

**Figure M**

**Step 10: Check Syringe**

Check for air bubbles by holding the syringe with the needle pointing up. If there are any air bubbles, gently tap the syringe with your finger until the bubbles rise to the top *(see Figure N)*.



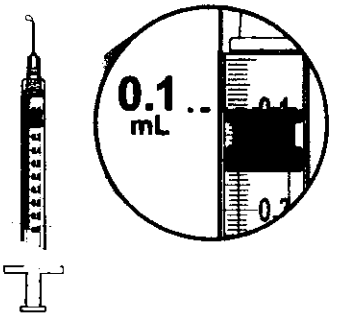


**Figure N**

## 2.4 Injection Procedure

Only 0.1 mL (2 mg) should be administered to deliver a single dose. Any excess volume should be disposed.

Prior to the intravitreal injection, patients should be monitored for elevated intraocular pressure (IOP) using tonometry *[see Warnings and Precautions (5.3)]*. If necessary, ocular hypotensive medication can be given to lower the IOP.

The intravitreal injection procedure must be carried out under controlled aseptic conditions, which includes the use of surgical hand disinfection, sterile gloves, a sterile drape, and a sterile eyelid speculum (or equivalent). Adequate anesthesia and a broad-spectrum topical microbicide should be given prior to the injection.

Inject slowly until the rubber stopper reaches the end of the syringe to deliver the volume of 0.1 mL. Confirm delivery of the full dose by checking that the rubber stopper has reached the end of the syringe barrel.

Immediately following the intravitreal injection, patients should be monitored for elevation in intraocular pressure (IOP). Appropriate monitoring may consist of a check for perfusion of the optic nerve head or tonometry.

Following intravitreal injection, patients should be instructed to report any symptoms suggestive of endophthalmitis (e.g., eye pain, redness of the eye, photophobia, blurring of vision) without delay *[see Patient Counseling Information (17)]*.

Each vial and syringe should only be used for the treatment of a single eye. If the contralateral eye requires treatment, a new vial and syringe should be used and the sterile field, syringe, gloves, drapes, eyelid speculum, filter needle, and injection needle should be changed before IZERVAY is administered to the other eye. Repeat the same procedure steps as above.

Any unused medicinal product or waste material should be disposed of in accordance with local regulations.

## 3 DOSAGE FORMS AND STRENGTHS

Intravitreal solution: 20 mg/mL clear to slightly opalescent, colorless to slightly yellow solution in a single-dose vial.

## 4 CONTRAINDICATIONS

### 4.1 Ocular or Periocular Infections

IZERVAY is contraindicated in patients with ocular or periocular infections.

### 4.2 Active Intraocular Inflammation

IZERVAY is contraindicated in patients with active intraocular inflammation.

## 5 WARNINGS AND PRECAUTIONS

### 5.1 Endophthalmitis and Retinal Detachments

Intravitreal injections may be associated with endophthalmitis and retinal detachments *[see Adverse Reactions (6.1)]*. Proper aseptic injection techniques must always be used when administering IZERVAY in order to minimize the risk of endophthalmitis *[see Dosage and Administration (2.4)]*. Patients should be instructed to report any symptoms suggestive of endophthalmitis or retinal detachment without delay, to permit prompt and appropriate management *[see Patient Counseling Information (17)]*.

### 5.2 Neovascular AMD

In clinical trials, use of IZERVAY was associated with increased rates of neovascular (wet) AMD or choroidal neovascularization (7% when administered monthly and 4% in the sham group) by Month 12. Patients receiving IZERVAY should be monitored for signs of neovascular AMD.

### 5.3 Increase in Intraocular Pressure

Transient increases in intraocular pressure (IOP) have been observed after an intravitreal injection, including with IZERVAY *[see Adverse Reactions (6.1)]*. Perfusion of the optic nerve head should be monitored following the injection and managed as needed *[see Dosage and Administration (2.4)]*.

## 6 ADVERSE REACTIONS

The following potentially serious adverse reactions are described elsewhere in the labeling:

- Ocular and periocular infections *[see Contraindications (4.1)]*
- Active intraocular inflammation *[see Contraindications (4.2)]*
- Endophthalmitis and retinal detachments *[see Warnings and Precautions (5.1)]*

- Neovascular AMD *[see Warnings and Precautions (5.2)]*
- Increase in intraocular pressure *[see Warnings and Precautions (5.3)*

### 6.1 Clinical Trials Experience

Because clinical trials are conducted under widely varying conditions, adverse reaction rates observed in the clinical trials of a drug cannot be directly compared to rates in the clinical trials of another drug and may not reflect the rates observed in practice.

The safety of avacincaptad pegol was evaluated in 733 patients with AMD in two sham-controlled studies (GATHER1 and GATHER2). Of these patients, 292 were treated with intravitreal IZERVAY 2 mg (0.1 mL of 20 mg/mL solution) *[see Clinical Studies (14)]*. Three hundred thirty-two (332) patients were assigned to sham.

Adverse reactions reported in ≥2% of patients who received treatment with IZERVAY pooled across GATHER1 and GATHER2, are listed below in
Table 1.

**Table 1: Common Ocular Adverse Reactions (≥2%) and greater than Sham in Study Eye**

| Adverse Drug Reactions | IZERVAY N=292 | Sham N=332 |
|---|---|---|
| Conjunctival hemorrhage | 13% | 9% |
| Increased IOP | 9% | 1% |
| Blurred vision* | 8% | 5% |
| Choroidal neovascularization | 7% | 4% |
| Eye pain | 4% | 3% |
| Vitreous floaters | 2% | <1% |
| Blepharitis | 2% | <1% |

* Blurred vision includes visual impairment, vision blurred, visual acuity reduced, visual acuity reduced transiently

## 8 USE IN SPECIFIC POPULATIONS

### 8.1 Pregnancy

Risk Summary

There are no adequate and well-controlled studies of IZERVAY administration in pregnant women. The use of IZERVAY may be considered following an assessment of the risks and benefits.

Administration of avacincaptad pegol to pregnant rats and rabbits throughout the period of organogenesis resulted in no evidence of adverse effects to the fetus or pregnant female at intravenous (IV) doses 5.1 times and 3.2 times the human exposure (based on AUC) at the maximum recommended human dose (MRHD) of 2 mg once monthly, respectively *(see Data)*.

In the U.S. general population, the estimated background risks of major birth defects and miscarriage in clinically recognized pregnancies is 2-4% and 15%-20%, respectively.

Data

*Animal Data*

An embryo fetal developmental toxicity study was conducted with pregnant rats. Pregnant rats received daily intravenous (IV) injections of avacincaptad pegol from day 6 to day 17 of gestation at 0.1, 0.4, 1.2 mg/kg/day. No maternal or embryofetal adverse effects were observed at any dose evaluated. An increase in the incidence of a non-adverse skeletal variation, described as short thoracolumbar (ossification site without distal cartilage) supernumerary ribs, was observed at all doses evaluated. The clinical relevance of this finding is unknown. Plasma exposures at the high dose were 5.1 times the MRHD, based on Area Under the Curve (AUC).

An embryo fetal developmental toxicity study was conducted with pregnant rabbits. Pregnant rabbits received daily IV injections of avacincaptad pegol from day 7 to day 19 of gestation at 0.12, 0.4, 1.2 mg/kg/day. No maternal or embryofetal adverse effects were observed at any dose evaluated. Plasma exposure in pregnant rabbits at the highest dose of 1.2 mg/kg/day was 3.2 times the human exposure at the MRHD, based on AUC.

### 8.2 Lactation

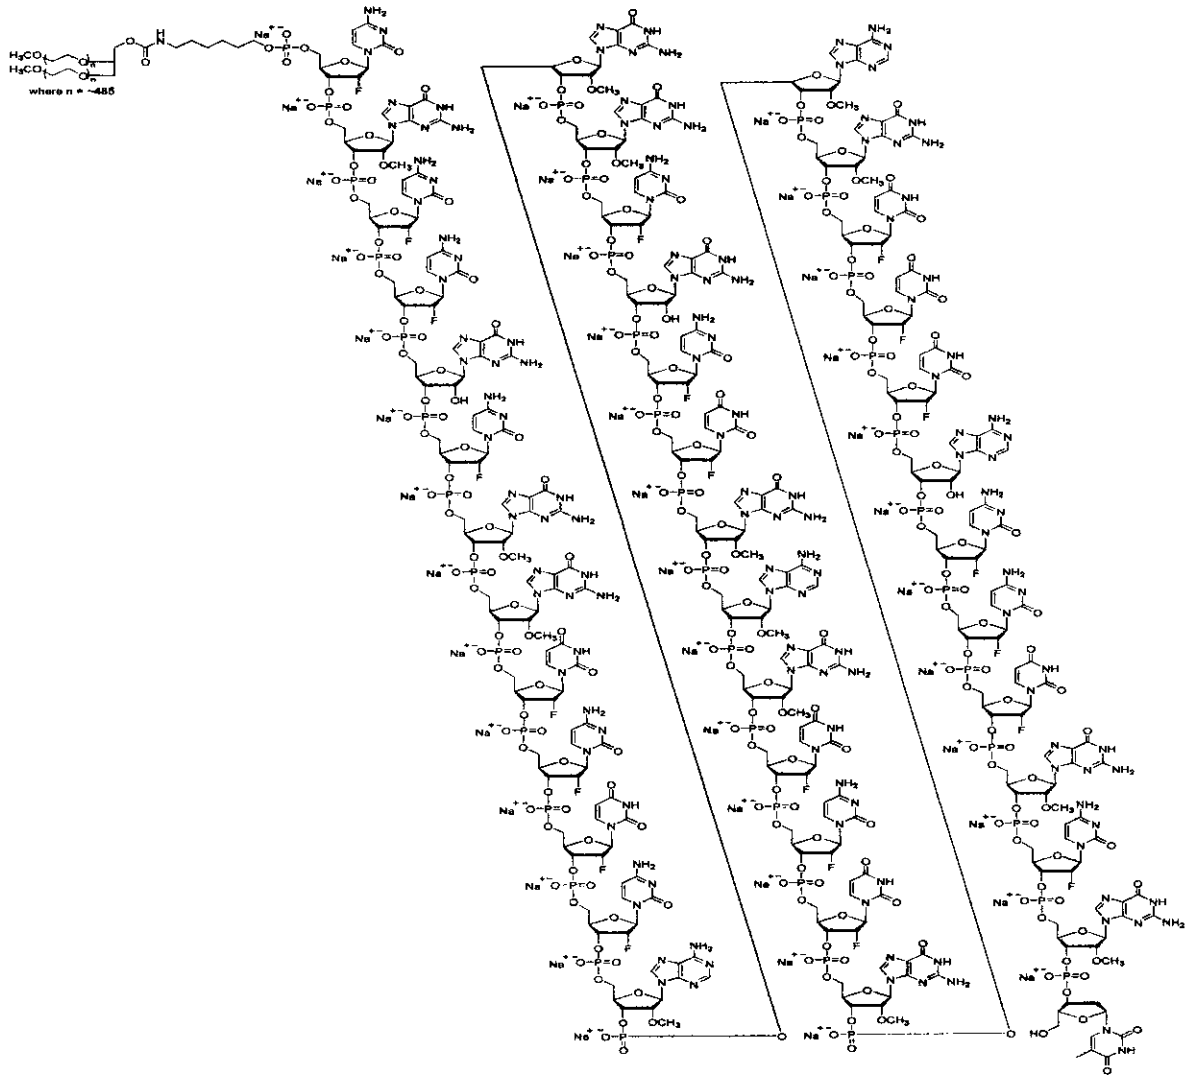
Risk Summary

There is no information regarding the presence of avacincaptad pegol in human milk, the effects of the drug on the breastfed infant, or the effects of avacincaptad pegol on milk production. Many drugs are transferred in human milk with the potential for absorption and adverse reactions in the breastfed child.

The developmental and health benefits of breastfeeding should be considered along with the mother's clinical need for IZERVAY, and any potential adverse effects on the breastfed infant from IZERVAY.

### 8.4 Pediatric Use

Safety and effectiveness of IZERVAY in pediatric patients have not been established.



### 8.5 Geriatric Use

Of the total number of patients who received IZERVAY in the two clinical trials, 90% (263/292) were ≥65 years and 61% (178/292) were ≥75 years of age. No significant differences in efficacy or safety of avacincaptad pegol were seen with increasing age in these studies. No dose adjustment is required in patients 65 years and above.

## 11 DESCRIPTION

IZERVAY contains avacincaptad pegol sodium, a complement C5 inhibitor. Avacincaptad pegol is a ribonucleic acid (RNA) aptamer, covalently bound to an approximately 43-kiloDalton (kDa) branched polyethylene glycol (PEG) molecule.

The molecular formula of avacincaptad pegol (free acid form) is $C_{395}H_{492}N_{142}O_{262}P_{39}F_{21}((CH_2)_2O)_n$ where n~970 and the molecular weight is approximately 56 kDa. The structure of avacincaptad pegol sodium is presented below.

IZERVAY (avacincaptad pegol intravitreal solution) is a sterile, clear to slightly opalescent, colorless to slightly yellowish solution in a single-dose glass vial for intravitreal administration. Each single-dose vial is designed to deliver 0.1 mL of solution containing 2 mg avacincaptad pegol (oligonucleotide basis), 0.198 mg dibasic sodium phosphate heptahydrate, 0.0256 mg monobasic sodium phosphate monohydrate, and 0.83 mg sodium chloride. IZERVAY is formulated in Water for Injection, with a target pH of 7.3. IZERVAY does not contain an anti-microbial preservative.

## 12 CLINICAL PHARMACOLOGY

### 12.1 Mechanism of Action

Avacincaptad pegol is an RNA aptamer, a PEGylated oligonucleotide that binds to and inhibits complement protein C5. By inhibiting C5, avacincaptad pegol may prevent its cleavage to C5a and C5b thus decreasing membrane attack complex (MAC) formation.

## 12.2 Pharmacodynamics

Increased GA area growth is reflective of loss of photoreceptors and AMD disease progression. Reductions in the rate GA growth were observed from baseline through the first year of treatment across avacincaptad pegol treatment groups in studies GATHER1 and GATHER2.

## 12.3 Pharmacokinetics

*Absorption/Distribution*
Following a single dose of avacincaptad pegol, maximum avacincaptad pegol plasma concentrations ($C_{max}$) are estimated to occur approximately 7 days post-dose and mean (CV%) free avacincaptad pegol plasma $C_{max}$ is estimated to be 68.4 ng/mL (57.8%) in neovascular AMD (nAMD) patients. The $AUC_{0\text{-}28}$ days following a single 2 mg dose is 1064 day·ng/mL. Based on a population pharmacokinetic analysis of patients with nAMD, predicted steady state avacincaptad pegol $C_{max}$ is 83.9 ng/mL after monthly intravitreal administration of avacincaptad pegol 2 mg.

In humans, avacincaptad pegol plasma concentrations are predicted to be approximately 7,000-fold lower than vitreal concentrations.

*Metabolism/Elimination*
Metabolism and elimination of avacincaptad pegol has not been fully characterized. Avacincaptad pegol is expected to be catabolized by endonucleases and exonucleases to oligonucleotides of shorter lengths which may be excreted renally, in similar manner to the elimination of endogenous RNA. The estimated apparent systemic half-life of avacincaptad pegol is approximately 12 days.

Specific Populations
Following repeat monthly intravitreal dose administration of 2 mg avacincaptad pegol, no differences in the systemic pharmacokinetics of avacincaptad pegol were observed based on age, gender, and body weight. No special dosage modification is required for any of the populations that have been studied (e.g., age, gender, and body weight). The effect of severe renal impairment or any degree of hepatic impairment on the pharmacokinetics of avacincaptad pegol is unknown. As significant increases in plasma avacincaptad pegol exposures are not expected with intravitreal route of administration, no dosage adjustment is needed based on renal or hepatic impairment status.

## 13 NONCLINICAL TOXICOLOGY

### 13.1 Carcinogenesis, Mutagenesis, and Impairment of Fertility

Carcinogenesis

No studies have been conducted on the carcinogenic potential of avacincaptad pegol.

Mutagenesis

Avacincaptad pegol was negative in *in vitro* (bacterial reverse mutation assay, chromosomal aberration in mammalian cells) and *in vivo* (mouse bone marrow micronucleus) assays.

Impairment of Fertility

Studies to evaluate the effect of avacincaptad pegol on male or female fertility in animals have not been performed.

## 14 CLINICAL STUDIES

The safety and efficacy of IZERVAY were demonstrated in two randomized, multi-center, double-masked, sham-controlled, 18- and 12-month studies (GATHER1-NCT02686658 and GATHER2-NCT04435366, respectively) in patients with GA due to AMD. Patient ages ranged from 51 to 97 years with a mean of 77 years. In total, 292 patients were treated with avacincaptad pegol 2 mg, and 332 patients received sham.

In GATHER1 and GATHER2, the mean rate of GA growth (slope) from baseline to Month 12, measured by Fundus Autofluorescence (FAF) was evaluated at 3 time points: baseline, Month 6, and Month 12. Data are available through month 18 for GATHER1 and month 12 for GATHER2. At any time during the GATHER2 study, patients that developed choroidal neovascularization were concomitantly treated with anti-VEGF therapy.

In each study, over a 12-month period, there was a statistically significant reduction of the rate of GA growth (0.10 mm/year; $p<0.01$ in GATHER1 and 0.05 mm/year; $p<0.01$ in GATHER2 with square root transformed data) in patients treated with IZERVAY compared to sham. The observed results are shown in Table 2, Figure 1, and Figure 2 below.

**Table 2: Efficacy Outcomes at Month 12 in GATHER1 and GATHER2 Studies**

| Primary Efficacy Endpoint (MMRM Analysis) | GATHER1 | | GATHER2 | |
|---|---|---|---|---|
| | IZERVAY N=67 | Sham N=110 | IZERVAY N=225 | Sham N=222 |
| GA Rate of Growth ($mm^2$/year) (observed)[a] | 1.22 | 1.89 | 1.75 | 2.12 |
| Difference (95% CI) ($mm^2$/year) | 0.67 (0.21-1.13) | | 0.38 (0.12-0.63) | |
| Difference %[b] | 35% | | 18% | |

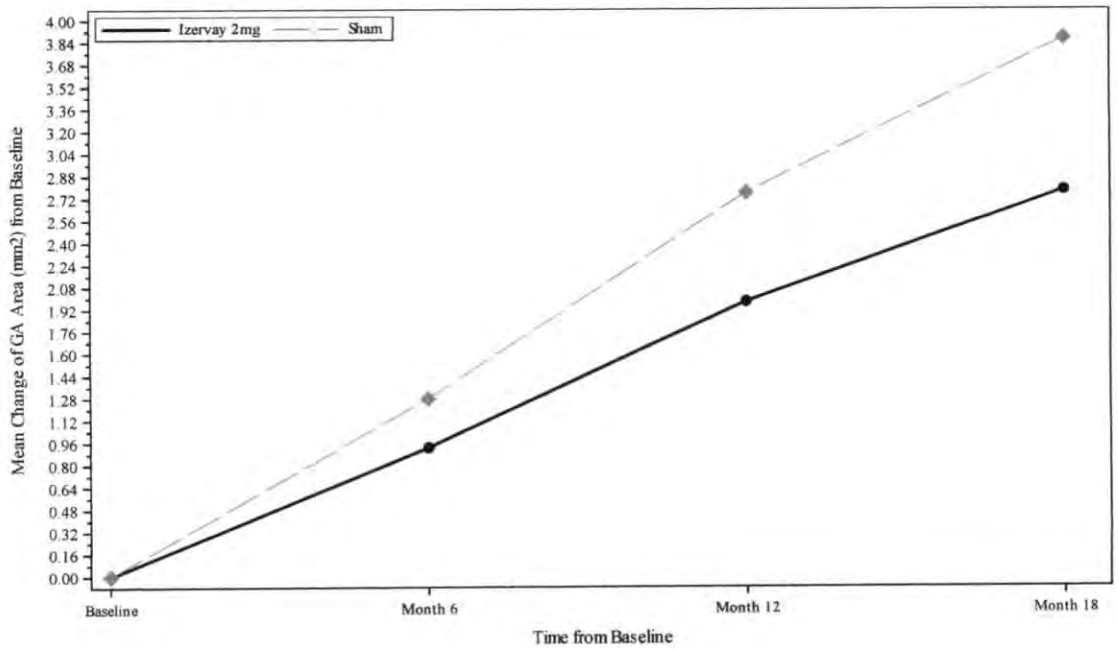
*Figure 1: Mean Change in GA Area ($mm^2$) From Baseline in GATHER1 (Observed data)*



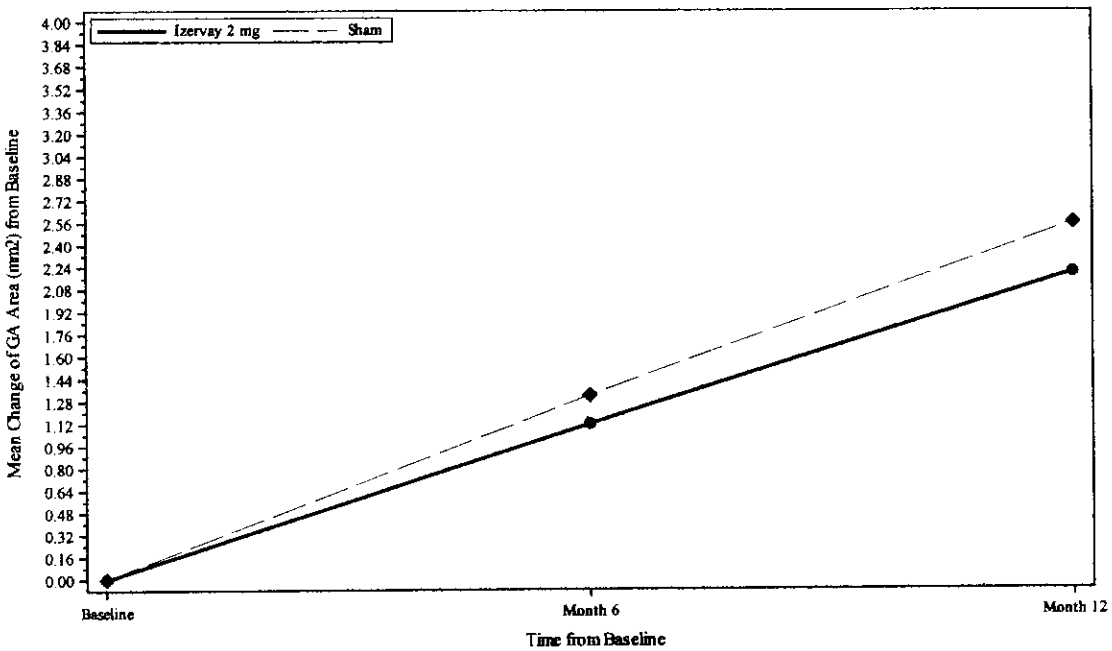


*Figure 2: Mean Change in GA Area ($mm^2$) in GATHER2 (Observed data)*

Treatment effects in all pre-specified subgroups (e.g., age, gender, baseline GA disc area) were consistent with the results in the overall population.

## 16 HOW SUPPLIED/STORAGE AND HANDLING

### 16.1 How Supplied

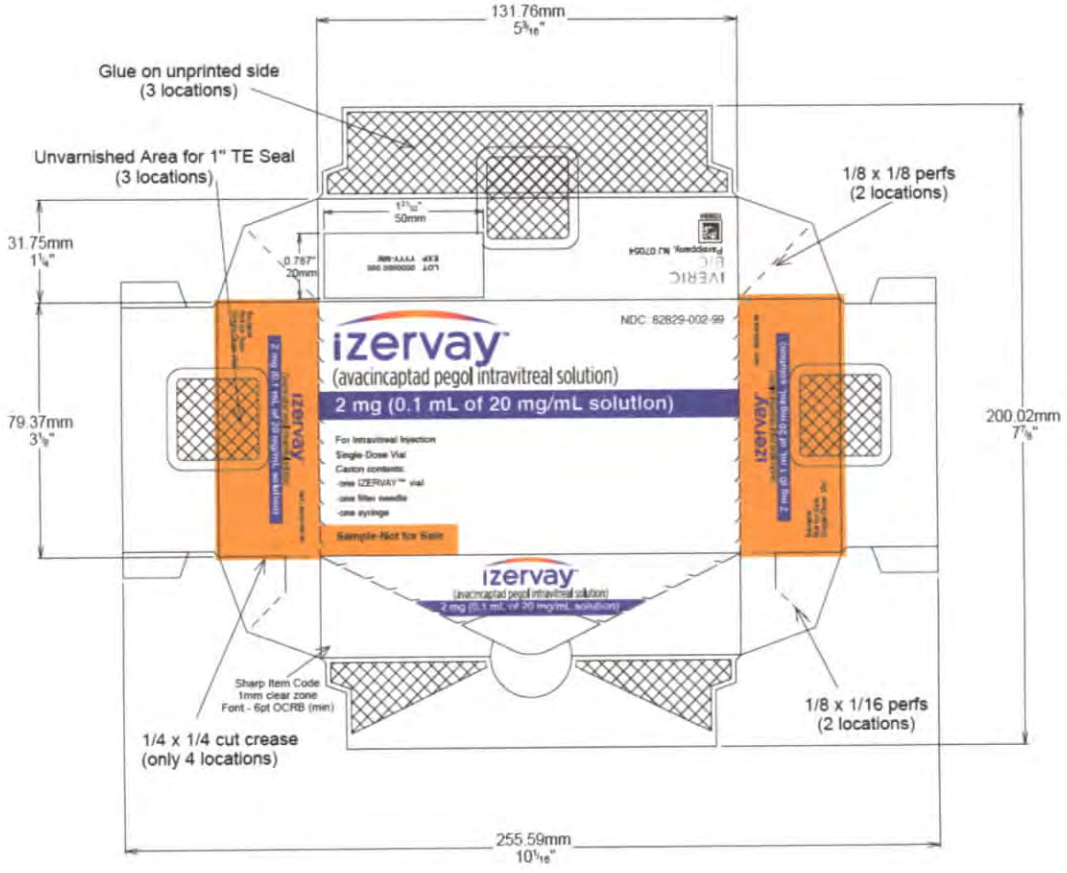
IZERVAY (avacincaptad pegol intravitreal solution) is supplied as a sterile, clear to slightly opalescent, colorless to slightly yellowish 20 mg/mL solution in a single-dose glass vial. Each glass vial contains an overfill amount to allow administration of a single 0.1 mL dose of solution containing 2 mg of avacincaptad pegol (oligonucleotide basis). Each IZERVAY carton (NDC 82829-002-01) contains one glass vial, one sterile 5-micron transfer filter needle (19-gauge x 1½ inch, 1.1 mm x 40 mm), and one sterile 1 mL Luer lock syringe.

### 16.2 Storage and Handling

Store IZERVAY in the refrigerator between 2°C to 8°C (36°F to 46°F). Do not freeze. Do not shake. Keep the vial in the original carton to protect from light.

Prior to use, the unopened glass vial of IZERVAY may be kept at room temperature, 20°C to 25°C (68°F to 77°F), for up to 24 hours. Ensure that the injection is given immediately after preparation of the dose.

## 17 PATIENT COUNSELING INFORMATION



Advise patients that following IZERVAY administration, patients are at risk of developing neovascular AMD, endophthalmitis, elevated intraocular pressure and retinal detachments. If the eye becomes red, sensitive to light, painful, or if a patient develops a change in vision, instruct the patient to seek immediate care from an ophthalmologist *[see Warnings and Precautions (5.1, 5.2)]*.

Patients may experience temporary visual disturbances and blurring after an intravitreal injection with IZERVAY and the associated eye examinations *[see Adverse Reactions (6.1)]*. Advise patients not to drive or use machinery until visual function has recovered sufficiently.

**SUMMARY ORDER**

NOW on this 17th day of March, 2022, comes before the Kansas Board of Pharmacy (the "Board"), through its Executive Director, the matter of Ivy Animal Health, Inc. ("Respondent").

Pursuant to the authority granted to the Board by the Kansas Pharmacy Act, K.S.A. 65-1625, *et seq.*, and in accordance with the Kansas Administrative Procedure Act, K.S.A. 77-501, *et seq.*, the Board's Executive Secretary enters this Summary Order in the above-captioned matter. After reviewing the investigation materials and being otherwise duly advised in the premises, makes the following findings, conclusions and order:

FINDINGS OF FACT

1. The Board has previously issued Respondent Registration No. 4-00115 which entitled Respondent to operate as a manufacturer in the State of Kansas.

2. On March 11, 2019, the ownership of Respondent's facility changed from Ivy Animal Health, Inc. to Elanco Animal Health Incorporated.

3. On February 18, 2022, the Board received from Respondent a Form BA-04 Manufacturer Registration Application, notifying of the change in ownership from Ivy Animal Health, Inc. to Elanco Animal Health Incorporated, effective March 11, 2019, and applying for a new manufacturer registration under the new ownership.

4. On February 25, 2022, the Board approved Respondent's Manufacturer Application, effective immediately, and issued new Registration No. 4-117300.

## CONCLUSIONS OF LAW

1. Pursuant to K.S.A. 65-1658, the Board may assess a civil fine not to exceed $5,000, after notice and an opportunity to be heard, to any registrant for violation of the pharmacy act of the state of Kansas or any other rules or regulations of the state board of pharmacy.

2. Pursuant to K.S.A. 65-1627(f), the Board may take action against a registration to manufacture drugs or devices upon a finding that the registrant has violated the Kansas Pharmacy Practice Act or rules and regulations adopted thereunder.

3. Pursuant to K.S.A. 65-1643(g), it shall be unlawful for any person to manufacture any drugs or devices without first obtaining a registration to do so from the Board.

4. Pursuant to K.S.A. 65-1645(f), any registration issued under K.S.A. 65-1643, and amendments thereto, shall not be transferable.

5. Respondent's failure to submit the complete ownership change application to the Board until February 18, 2022 – almost three years after the change – indicates that Respondent was operating under a manufacturer registration issued to another owner, which is a transfer of the registration in violation of K.S.A. 65-1645(f).

## ORDER

The Board finds and concludes that Respondent's conduct, as described above, violates the Act and such conduct warrants the imposition of a fine pursuant to K.S.A. 65-1658, in the amount of $1,00.00 to be paid within 30 days from the date of this Order.

## NOTICES

The Respondent is hereby notified as follows:

1. The Respondent may request a hearing pursuant to the Kansas Administrative Procedure Act by filing a written request with the Kansas Board of Pharmacy, 800 SW Jackson, Suite 1414, Topeka, KS 66612-1231 within fifteen (15) days after service of this order.

2. If a hearing is not requested as described above, the Order shall become a final order of the Board, effective upon the expiration of the time to request a hearing.

3. Within fifteen (15) days after entry of a final agency order, either party may file a petition for reconsideration pursuant to K.S.A. 77-529.

4. Within the time limits established in K.S.A. 77-613, either party may seek judicial review of a final agency order, pursuant to said statute. The agency officer designated to receive service of a petition for judicial review is:

Mr. Mark Sedar
Nevada State Board of Pharmacy
985 Demonte Ranch Parkway, Suite 206
Reno, NV 89521

Dear Mr. Sedar:

The purpose of this letter is to request a temporary Wholesaler License for Mindray DS USA Inc. (dba Mindray North America). This request accompanies Mindray's formal application for a standard Nevada State Wholesaler License.

Mindray DS USA Inc. acts as a first party distributor for Mindray manufactured and FDA approved medical devices nationwide. These products are essential to patient health and include anesthesia machines, ultrasound machines, and patient monitoring solutions for healthcare facilities. As Mindray's offering consists primarily of capital equipment, installations and on-site training for healthcare professional are often scheduled in conjunction with delivery of product. Rescheduling these activities can be difficult for a number of reasons, including the availability of Nevada based healthcare professionals, and delays may result in disruption of patient care. Continued supply of these medical devices is essential to avoid delay or disruption in care for Nevada's patient population.

In order to ensure continuity of supply, we respectfully request approval to continue sales of Mindray product into Nevada while our formal application moves through the approval process. Please contact me directly should you have any questions or require any additional information.

Sincerely,

James Clifford

**MEMORANDUM**

**Date: August 3rd, 2023**

**To: Nevada Board of Pharmacy**

**From: Nicholas Nading & Kyle Cranfill**

**Subject: Wholesaler Application – Description of Business Operations**

We are writing to you to inform you of the business operations that will be occurring for Strand Health Group located at 2300 West Sahara Ave., Suite 800, Las Vegas, NV 89102.

Kyle and I have been State of Nevada Designated Representatives for multiple organizations with the State of Nevada previously (Terrain Pharmaceuticals and MD Logistics). We understand that sometimes throughout the application process questions may arise, so we felt it important to help provide understanding into the operations of Strand Health Group prior to the application review and scheduled board meeting review in hope to lend overall understanding and clarity.

Strand Health Group is registered with the FDA. We currently utilize CMO's to manufacture our OTC products. We then market and sell these products to medical professionals. Prior to establishing agreements to utilize CMO's to manufacture Rx products, we wanted to ensure we acquired the proper licensing from the State of Nevada as we will be performing our business operations from the Nevada location. We will not be manufacturing, storing, or distributing products out of the offices located at 2300 West Sahara Ave., Suite 800, Las Vegas, NV 89201. We will be utilizing a properly licensed 3PL partner to store and distribute all Rx products.

If you should have any questions, please don't hesitate to reach out to us directly.

Best Regards,
