4.024 SHIPPING AND VALIDATION FOR COMPOUNDED PREPARATIONS

Authorized by: **Date:**

1.0 PURPOSE

1.1 The purpose of the standard operating procedure is to describe the general procedure for verifying shipping conditions of Compounded Preparations at SaveWay Compounding Pharmacy.

2.0 SCOPE

2.1 Shipping and Receiving personnel are responsible for monitoring and recording weather conditions.

2.2 This SOP is directed toward the Shipping and Receiving Department and Customer Service Representatives (CSRs) but must be followed by all personnel at SaveWay Compounding Pharmacy (SWCP).

3.0 RESPONSIBILITY

3.1 The Pharmacist-in-charge shall supervise this procedure and is responsible for employee training.

5.0 DEFINITIONS

5.1 N/A

6.0 FREQUENCY

6.1 Monthly for one year and then quarterly or as needed with extreme changes in weather.

7.0 EQUIPMENT & SUPPLIES

7.1 Appropriate packaging supplies (e.g., cushioned envelope, small boxes, packaging paper, bubble wrap)

- **7.1.1** Designated bin/area set up appropriately for prescriptions to be shipped
- **7.1.2** Ice packs (for possible storage and/or shipping)
- **7.1.3** Patient's information (address, phone number)
- 7.1.4 Shipping labels
- 7.1.5 Plastic thermometer
- 7.1.6 F.4.024.1 Shipping Validation Log

8.0 GENERAL INFORMATION

8.1 SaveWay Compounding Pharmacy ships to locations outside of our own premises. Shipping Personnel shall select modes of transport that are expected to deliver properly packed compounded preparations in undamaged, sterile, and stable condition to recipients.

8.2 Compounding personnel should ascertain that temperatures of compounded preparations during transport by the selected mode will not exceed the warmest temperature specified on the storage temperature range on compounded preparation labels. It is recommended that shipping and receiving personnel or compounding personnel communicate directly with the couriers to learn shipping durations and exposure conditions that compounded preparations may encounter.

8.3 Compounding personnel shall include specific handling an exposure instruction on the exteriors of containers packed with combative preparations to be transported and obtain reasonable assurance of compliance therewith from transporters.

8.4 Management at the compounding facility shall periodically review the delivery performance of couriers to ascertain that the compounded preparations are being efficiently and properly transported.

8.5 Inappropriate processes or techniques involved with packaging, handling, and transport can adversely affect quality and packaging integrity of compound preparations. Although compounding personnel routinely performed many of the tasks associated with these functions, some tasks, such as transport, handling, and placement into storage, may be fulfilled by non-compounding personnel. The performance of the non-compounding personnel is monitored for compliance to established policies and procedures.

9.0 PROCEDURE

9.1 A successful shipping verification procedure ensures that compounded preparations that require refrigeration, remain at the recommended temperature until delivered at their destination.

9.2 In extreme heat or cold conditions, the shipping validation procedure shall be performed as well to ensure that compounded preparations that require refrigeration, remain at the recommended temperature until delivered at their destination.

9.2.1 Designated shipping personnel shall check the weekly weather forecast to monitor for extreme heat (over ninety-five degrees Fahrenheit) or extreme cold (below thirty-two degrees Fahrenheit).

9.3 Monthly or as needed for extreme heat or cold, the Quality Assurance Officer shall perform a shipping validation. The steps to perform this are as followed:

9.3.1 Pack a plastic thermometer, a fattibase placebo suppository, 1ml amoxicillin/clavulanate transdermal gel, and a 30ml potassium bromide solution into an appropriately sized foil shipping pack. The size and number of ice packs needed is dependent on the weather conditions. Use the following guidelines to determine the size and quantity of ice pack needed:

9.3.1.1 95 degrees or greater – 2 X 24oz and a Styrofoam cooler
9.3.1.2 80-94 degrees – 2 X 24oz
9.3.1.3 70-80 degrees – 1 X 24oz & 1 X 16oz
9.3.1.4 Less than 70 degrees – 2 X 16oz
9.3.1.5 ** For Tablet Triturates only – 1 X 8oz

9.3.2 Seal the foil pack and place into an appropriately sized cardboard box.

9.3.3 Seal the box with shipping tape.

9.3.4 Place the sealed box into the trunk or a vehicle for seventy-two hours.

9.3.5 Once the seventy-two hours have been completed, remove the sealed box from the trunk of the vehicle, unpack the thermometer, and record the temperature on the appropriate sheet.

9.4 If the shipping validation process fails, then additional ice pack and shipping materials shall be used with each refrigerated compounded preparation. If the temperature is too extreme to where it potentially can harm a compounded preparation or the patient, then it

shall be the decision of the Director of Operations to hold all refrigerated shipping or find an alternate route of delivery.

9.5 **Shipping of Prescriptions**

9.5.1 Courier Companies

9.5.1.1 United Postal Service (UPS) is the designated courier for the shipping of prescriptions.

9.5.1.2 Under certain conditions, such as arrival time, cost, distance to be shipped, or clients with a Post Office Box or at the patients/ caregiver's request may a prescription be shipped via the United States Postal Service (USPS).

9.6 **Area Setup**

9.6.1 Prescriptions that must be shipped are transported to the shipping department after they are paid, filled, and checked.

9.6.2 Shipping personnel are responsible for processing items to be shipped throughout the day.

9.6.3 Shipping personnel must check all departments at least 30 minutes prior to the courier pickup time to check for prescriptions that must be shipped.

9.7 **Prescription Shipping**

9.7.1 When compounded preparations are distributed to locations outside the premises of SaveWay Compounding Pharmacy where they are compounded, compounding personnel select packaging containers and materials that are expected to maintain physical integrity, stability, and stability of compound preparations during transit. Packaging is selected based on environmental conditions so that it simultaneously protects compounded preparations from damage, leakage, contamination, and degradation, and protects personnel who transport packaged compounded preparations from harm.

9.7.2 SaveWay Compounding Pharmacy ships compounded preparations to locations outside their own premises and shall select modes of transport that are expected to deliver properly packaged compounded preparations in undamaged, sterile, and stable condition to recipients.

9.7.3 Each prescription to be shipped will be indicated with either "CC/Ship", "Inv/Ship", or "SR/Ship" at the time of prescription/ refill intake.

9.7.4 Final check must be performed on the prescription.

9.7.5 Place the prescription in either the bin for awaiting payment or the bin awaiting a shipping label.

9.7.6 The shipping charge for prescriptions is $12.00 in addition to the cost of the prescription.

9.7.6.1 Orders $150.00 and over are exempt from the shipping charge.

9.7.6.2 Sterile items will be charged the shipping charge regardless of cost.

9.7.7 If the shipment is for a medical office and requires it to be delivered the next day, then the office shall be charged the actual shipping cost rounded to the nearest whole dollar rather than the standard $12.00.

9.7.8 Confirm the invoice reflects the correct cost for shipping. If the invoice needs to be adjusted, then it must be given to the bookkeeper.

9.7.9 Tightly close and ensure that the prescription is spill-proof and that all needed patient/caregiver administration supplies are included with the prescription. (I.E suppository inserts, Transdermal information sheets, syringes, bottle inserts, etc.)

9.7.10 Complete a shipping label to include the pharmacy's name and address on the label and the patient's name and delivery information, perform final check of information confirming that the shipping label is correct.

9.7.11 New patients/caregivers that have not had a prescription shipped to them previously, must be contacted to verify shipping information prior to the prescription being shipped.

9.7.12 Place the prescription in the appropriate shipping container, which may include insulated bubble mailers, Styrofoam, or other temperature-resistant containers.

9.7.12.1 Critical requirements are that packaging integrity must protect the compound in preparation. Inappropriate transport and handling can adversely affect the quality of certain compound preparations having unique stability concerns.

9.7.12.1.1 Secure packaging must prevent the depression of syringe plungers or dislodging of syringe tips during handling and transport.

9.7.12.1.2 Liquids shall be placed plastic in zip-loc bags in case of leakage during transport.

9.7.12.1.3 Transdermal gels must be protected from extreme cold during transport.

9.7.12.1.4 Hazardous Drug (HD) substances in compounded preparations require safeguards to maintain the integrity of the compound preparation and to minimize the exposure potential of these preparations to the environment and two personnel who may come in contact with them. Special requirements associated with the packaging, transport, and handling of these agents include the prevention of accidental exposures or spills and the training of personnel in the event of an exposure or spill.

9.7.12.1.4.1 Examples of special requirements of these agents include exposure reducing strategies such as the use of luer lock syringes and connections, syringe caps, the capping of container ports, sealed plastic bags, impact resistant containers, and cautionary labeling.

9.7.13 Shipping personnel shall periodically review the delivery performance of couriers to ascertain that compounded preparations are being efficiently and properly transported.

9.7.14 Shipping personnel should ascertain that temperatures of compounded preparations during transit by the selected mode will not exceed the warmest temperature specified on the storage temperature range on combative preparation labels. It is recommended that shipping personnel communicate directly with the couriers to learn shipping durations and exposure conditions that compound preparations may encounter.

9.7.15 Shipping personnel shall include specific handling and exposure instructions on the exteriors of containers packed with compound preparations to be transported and obtain reasonable assurance of compliance therewith from transporters.

9.7.15.1 Add ice packs if applicable. Guidelines for ice packs are as follows;

9.7.15.1.1 95 degrees or greater – 2 X 24oz and a Styrofoam cooler

9.7.15.1.2 80-94 degrees – 2 X 24oz

9.7.15.1.3 70-80 degrees – 1 X 24oz & 1 X 16oz

9.7.15.1.4 Less than 70 degrees – 2 X 16oz

9.7.15.1.5 ** For Tablet Triturates only – 1 X 8oz

9.7.16 After carefully packaging the compounded preparation, seal the shipping container.

9.7.17 Affix the shipping label onto the appropriate shipping container.

9.7.18 Place a piece of shipping tape over the patient/ caregiver shipping information to prevent any damage to the label that could result in shipping errors.

1.0 PURPOSE

1.1 This standard operating procedure (SOP) describes the process of performing final checks on compounded preparations at SaveWay Compounding Pharmacy. Certain quality criteria must be met before releasing a preparation to be dispensed.

2.0 SCOPE

2.1 This procedure applies to all compounding personnel at SaveWay Compounding Pharmacy (SWCP).

3.0 RESPONSIBILITY

3.1 The Pharmacist-in-charge (PIC) must supervise this procedure and ensure personnel training.

8.0 GENERAL INFORMATION

8.1 The safety, quality, and performance of compounder preparations depend on the correct ingredients and calculations, accurate and precise measurements, appropriate formulation conditions and procedures, and prudent pharmaceutical judgment.

8.2 As a final check, the compounder must review each procedure in the compounding process.

8.3 To ensure accuracy and completeness, the compounder must observe the finished preparation to ensure that appear as expected in must investigate any discrepancies and take appropriate corrective action before the prescription is dispensed to the patient

9.0 PROCEDURE

9.1 The compounder must check the procedure at each stage of the process. Where possible, a trained second person should verify each critical step in the compounding process.

9.2 At the completion of compounding, before releasing and dispensing, the CNSP or CSP must be visually inspected to determine whether the physical appearance is as expected.

9.2.1 Some visual characteristics to observe would be color, texture, physical uniformity, particle size, smoothness, etc.

9.3 This SOP discusses the established written procedures that describe the tests or examinations conducted on the compound in preparation to ensure their uniformity and integrity.

9.4 Appropriate control procedures have been established to monitor the output and to verify the performance of compounding processes and equipment that may be responsible for causing variability in the final compounded preparations.

9.5 Staff pharmacists must perform a final check on each prescription and/or compounded preparation, checking for the following, as applicable.

9.5.1 Logs of formulas created using compounded software

9.5.1.1 Calculations

9.5.1.2 Lot numbers, manufacturer, beyond-use dates, and expiration dates

9.5.1.3 Printouts of scale weights

9.5.1.3.1 Hand recorded volumes of non-dry ingredients

9.5.1.3.2 For sterile compounding, the syringes used to measure wet ingredients should have the plunger pulled back and kept with the log until the final check.

9.5.1.4 Bubble point testing—for CSPs aseptically sterilized by filtration.

9.5.1.5 Technician's signature/initials

9.5.2 All of the following must be included in the final check, as applicable.

9.5.2.1 Patient

9.5.2.2 Patient information

9.5.2.2.1 Phone, address, date of birth

9.5.2.2.2 Medical condition, medication allergies

9.5.2.15.3 Finger cots

9.5.2.15.4 Appropriate applicator

9.5.2.15.5 Handouts

9.5.3 Visual inspection of prescriptions

9.5.3.1 Color and appearance (e.g., cloudiness or phase separation) as well as the following:

9.5.3.1.1 Suspensions are examined for uniform particle size and even distribution and the ability to resuspend upon shaking

9.5.3.1.2 Solutions are examined for clarity

9.5.3.1.3 Treats are examined for fullness and wholeness and proper texture

9.5.3.1.4 Capsules are examined for fullness and lack of damage to capsule shell.

9.5.3.1.5 Creams, ointments, and gels are examined for smoothness and consistency.

9.5.3.1.5.1 Cream should not be broken.

9.5.3.1.6 Transdermal gel syringes are examined for air bubbles, cracking and fullness

9.5.3.1.7 Suppositories, troches, and tablet triturates are examined for fractures or cracking and fullness

9.5.3.2 Quality release checks are an important mechanism through which a final assessment of the overall quality of a finished CNSP or CSP is made. There are multiple checks and balances that must occur during the compounding process to ensure the preparation was made correctly.

9.5.3.3 Final quality release checks must be documented on the compounding record via signature of the pharmacist on duty.

9.5.3.4 SWCP personnel responsible for performing final quality release checks on CSPS must be properly trained.

9.5.3.5 Any CSP failing quality release checks must be quarantined and segregated from others, so it is not dispensed erroneously.

9.5.3.6 Aseptic processing compounding personnel and staff pharmacists at SWCP have the responsibility to ensure through a series of in process and finished process checks, continued compliance with USP Chapter <797>. Elements of Quality Release Checks for CSPs include:

9.5.3.6.1 Component selection

9.5.3.6.1.1 Compounding personnel must ascertain before use that components for CSPS are of correct identity, appropriate quality, within expiry date and have been stored under appropriate conditions.

9.5.3.6.1.2 CoAs must be reviewed to ensure the accuracy, identity and purity of all bulk nonsterile components used in the preparation of CSPs.

9.5.3.6.1.2.1 Calculations must be performed to ensure accuracy of potency of final preparation.

9.5.3.6.2 Staffing oversight is critical during compounding activities

9.5.3.6.2.1 Compounding personnel present the greatest opportunity for variability in the process and subsequent opportunity for microbial contamination. This is especially true during aseptic processing.

9.5.3.6.2.2 Due to risk of microbial control, those that oversee compounding personnel must ensure that the compounding personnel follow facility SOPs for

hand hygiene and garbing and clean room behavior as any deviations from acceptable practice may result in contaminated CSPs.

9.5.3.6.3 Environment

9.5.3.6.3.1 Environmental monitoring (EM) and personnel monitoring (PM) facilitate early detection of contamination and its source.

9.5.3.6.3.2 Personnel performing quality checks must be aware of the state of control of the facility in which the CSP was made.

9.5.3.6.4 Equipment and supplies

9.5.3.6.4.1 Equipment used in compounding must be of suitable condition such that the surfaces that contact components are not reactive, additive, or sorptive.

9.5.3.6.4.2 Equipment must be stored in a manner that facilitates its use, maintenance, and cleaning for compounding operations.

9.5.3.6.5 Weights and volume

9.5.3.6.5.1 Weight and volume measurements of ingredients should be obtained and documented, with secondary review verification by a compounder prior to preparation. This can be done by an in person visual verification or camera system in order to capture what is actually being measured and mixed.

9.5.3.6.5.2 The compounding record must be reviewed and double checked to ensure accurate documentation.

9.5.3.6.6 Filter integrity testing

9.5.3.6.6.1 Filter integrity testing, or bubble point testing, is required if nonsterile to sterile compounding is performed and the solution is sterilized with a sterilizing filter. Every sterilizing filter must be tested before the CSP is dispensed to ensure the filter has not been compromised.

9.5.3.6.6.2 The results of the filter integrity testing must be recorded on the compounding record.

9.5.3.6.7 Visual inspection

9.5.3.6.7.1 USP 797 requires 100% visual inspection of CSPS at the time of labeling and before dispensing and again if the CSPs are stored for more than a day before dispensing.

9.5.3.6.7.2 Visual inspection of CSPs can be enhanced by using a magnifying glass, a white and black background, LED lighting and other mechanisms That provide visual aid.

9.5.3.6.7.3 In addition to examining the actual CSP For proper color, clarity, odor, cloudiness, precipitation, or particulates, the inspector must also review labeling and container closure integrity.

9.5.3.6.7.4 Sterility and endotoxin testing results must be reviewed by the quality control officer (QCO) before a CSP is released.

9.5.3.6.7.5 CSPs are dispense before receiving the results of their sterility test, there must be a written procedure requiring daily observation of the incubating test specimens (See SOP 6.008 Sterility Testing and SOP 4.025 Biological Indicators) and an immediate recall of the dispensed CSP when there is any evidence of microbial growth in the test specimens. In addition, the patient and physician of the patient to whom a potentially contaminated CSP was administered are notified of the potential risk.

9.5.3.6.7.6 All injectable and IV infusion CSPs made from non-sterile ingredients must undergo endotoxin testing or assigned a BUD of 72 hours (3 days).

9.5.3.6.8 Sterile compounded solutions must be inspected for visible particulate matter. In the event of finding particulates, the compounded preparations must be rejected, quarantined, disposed of, and not dispensed.

9.5.3.6.8.1 Best practice when examining for particulates is to wear gloves, to not leave fingerprints obscuring the visual inspection.

9.5.3.6.8.2 Hold the vial by the top and gently swirl the contents, rotating in a circular motion (air bubbles will rise and particles will sink to the bottom of the container).

9.5.3.7 Proper storage and handling requirements must be noted and followed.

9.5.4 Quality checks that result in a failure must be investigated to determine the root cause. Investigation results should be used to identify weaknesses, revise SOPs, retrain staff, reduce errors, and identify areas of improvement (processes, equipment, aseptic technique, environment, etc.)

9.5.5 Corrections and improvements must be documented as part of the investigation and filed according to documented procedure. Documentation of quality release checks provides evidence that every CSP was reviewed to ensure it is free from defects and has all the expected quality characteristics.

9.5.6 When the final check is complete, the pharmacist must sign off on the formula log or worksheet, the original prescription, and/or initial off on the prescription labels/receipt attached to the dispensing bag.

Re: New Pharmacy Application for Saveway Compounding Pharmacy, LLC

Dear Board Members:

Enclosed is our New Pharmacy Application for Saveway Compounding Pharmacy, LLC ("SaveWay"). SaveWay is a wholly-owned subsidiary of Myonex, LLC ("Myonex"). Myonex, LLC is a subsidiary (97.1% owned) of Myonex Holdings, Inc. ("Myonex Holdings"). Out of an abundance of caution, we have included Personal History Applications for each of the following individuals:

Robert Cohen, who is an officer of SaveWay, Myonex, and Myonex Holdings and an owner (30%) of Myonex Holdings.

Michael Cohen, who is an officer of SaveWay, Myonex, and Myonex Holdings and an owner (34.95%) of Myonex Holdings.

James Lovett, who is an officer of SaveWay and Myonex.

Greg Lavin, who is an officer of SaveWay, Myonex, and Myonex Holdings.

The remaining portion of Myonex Holdings is owned 20% by a trust, for which Michael Cohen is the trustee and primary beneficiary, and by other trusts, none of which owns more than 10% individually.

Furthermore, this letter shall serve as confirmation that **Pradeep Chilakapati** (Pharmacist-in-Charge for SaveWay) is authorized to appear before the Board of Pharmacy on behalf of SaveWay as SaveWay's designated representative. Attached is a Written Consent of the Sole Member of Saveway Compounding Pharmacy, LLC evidencing my status as an officer of SaveWay.

Thank you in advance for your time and consideration of our New Pharmacy Application.

Sincerely,

Greg Lavin
Chief Financial Officer

Discussion/Education:
1) **California Code of Regulations Section 1732.5 – Pharmacist Renewal Requirement:** Pharmacist are required to complete 2 of the 30 hours of Continuing Education in the prior 24 months to renew their pharmacist license by participation in a Board provided CE course in Law and Ethics. The two hours of continuing education are currently posted on the board's website at www.pharmacy.ca.gov. Pharmacist renewing their licenses which expires on or after July 1, 2019 are subject to this requirement. Print certificate of completion after online course is completed and maintain for four years.Available on Board's website:
http://www.pharmacy.ca.gov/licensees/webinars/law_ethics.shtml.
2) Recommend reviewing USP 795, which becomes official and enforceable on 11/1/2023.
3) Recommend not compounding hazardous compounded drug products until the hazardous compounding room has been certified to have at least 12 air changes per hour and maintain negative pressure in the range of (-0.01-0.03" water column). On top of modular room the fan motor has a red light today. Fan or motor may have stopped working today. The pressure was last checked at 930am today and was -0.03" water column.
4) Recommend labeling the compounded drug quarantine area (currently red "on-hold labels placed on quarantined compounded drugs which are placed in an area away from active inventory, a green label is then placed on the compounded drugs over the red label when they are approved and released for use).
5) Recommend revising cleaning document for area where pharmacists work, it states they are cleaning compounding work surfaces.
6) Recommend revising SOP 6.004 for non-sterile compounding finished preparation testing, as it states all compounded products shall be quarantined until documentaiton of results of release testing and inspections are complete which is not the current practice.

Corrections/Violations:
1) CCR 1735.4(a)(3): There are no storage instructions on the compounded drug prescription label.
2) CCR 1735.4(a)(5): The date compounded is not listed on the compounded drug prescription label.
3) CCR 1735.6(e)(1): Hazardous non-sterile compounding room does not have the number of air changes per hour documented by a certification company.
4) CCR 1735.63(e)(2): Hazardous non-sterile compounding room had positive pressure on the ENV cerification report from 4/7/2022 (0.0343" water column), instead of negative pressure. During the inspection, the room had positive pressure noted by PIC and Inspector by feeling airflow on hands coming out of the vent in the door to the room and the magnahelic gauge read 0.01" positive pressure. However, the print out of the electronic pressure was -0.03 " water column today at 9:34.
5) CCR 1735.3(a)(2)(F): The compounding records reviewed showed the manufacturer does not always print out under the ingredients used in compounding the drug product. For ingredients compounded in house, please be sure they state (compounded in house or similar).
6) BPC 4076.7: Opioids are dispensed without a warning of risk of overdose and addiction.

WARNING:

erik.clausen@bravacare.com

Hi Denise,

Please find attached the following documents:

1. CCR 1735.3(a) - a sample worksheet for Methimazole showing manufacturer information for the methimazole lot in question. We identified that the lot number for the methimazole that was missing from the manufacturer was due to that lot number coming over incorrectly during the data transition from our old software to the new software. We re-added the lot number under the correct manufacturer so it will be accurate moving forward. For our anhydrous suspension base, we added "manf in house" to the title to meet the requirement. See the attached master formula. We have not yet used a new batch, so it is still printing without the manufacturer, but all future batches should indicate that in the title. In the meantime, we are putting it in the notes (see methimazole sample formula). We also notified staff that if they see a similar situation moving forward with any other products, to a) notify management so we can rectify and b) notate the manufacturer in the notes until the problem is resolved.
2. CCR 1735.4(a)(5) - a sample label showing the "date compounded" on the label. This was actually something that the software was doing, but the date compounded was cut off on the sample label provided to you that day.
3. CCR 1735.4(a)(3) - a sample label showing the room temperature storage requirement added to the label. All room temperature formulations are currently being updated to reflect this requirement.
4. CCR 1735.6(e)(1) - an updated certification report showing negative pressure and air changes per hour in the USP 800 Hazardous Lab
5. CCR 1735.6(e)(2) - an updated certification report showing negative pressure and air changes per hour in the USP 800 Hazardous Lab as well as previous documentation showing that the HVAC units were being serviced at the time of the inspection resulting in the positive pressure at that time.
6. BPC 4076.7 - A sample of the opioid auxiliary label in use since the inspection

Please let me know if there is anything else that you should need from me. Thank you very much for your time and guidance.

Regards,

Erik Clausen

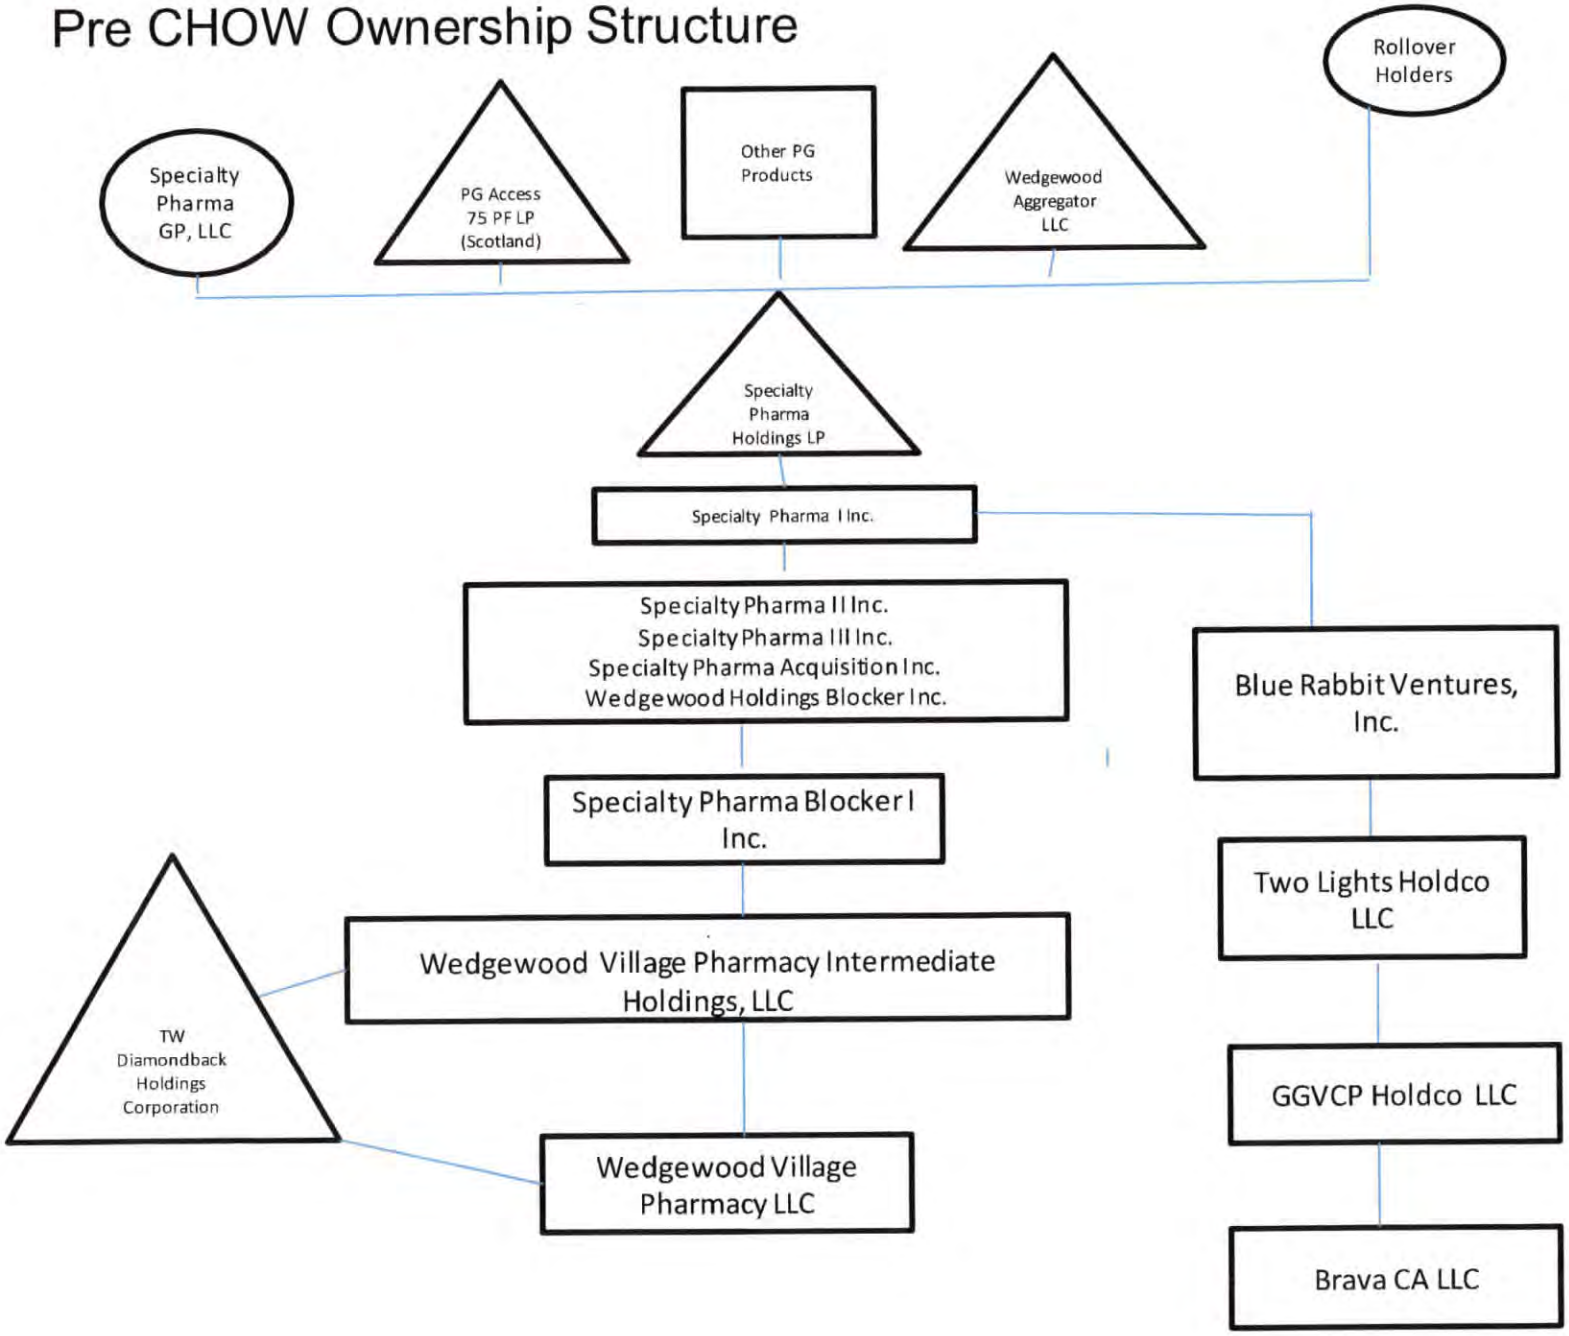
RE: Change of Ownership Brava CA LLC
License Number: PH04110

Dear Sir/Madam:

Enclosed please find an application for the change of ownership of Brava CA LLC ("Brava"). Brava is a compounding pharmacy located in Novato, California that compounds non-sterile medications for veterinary use.

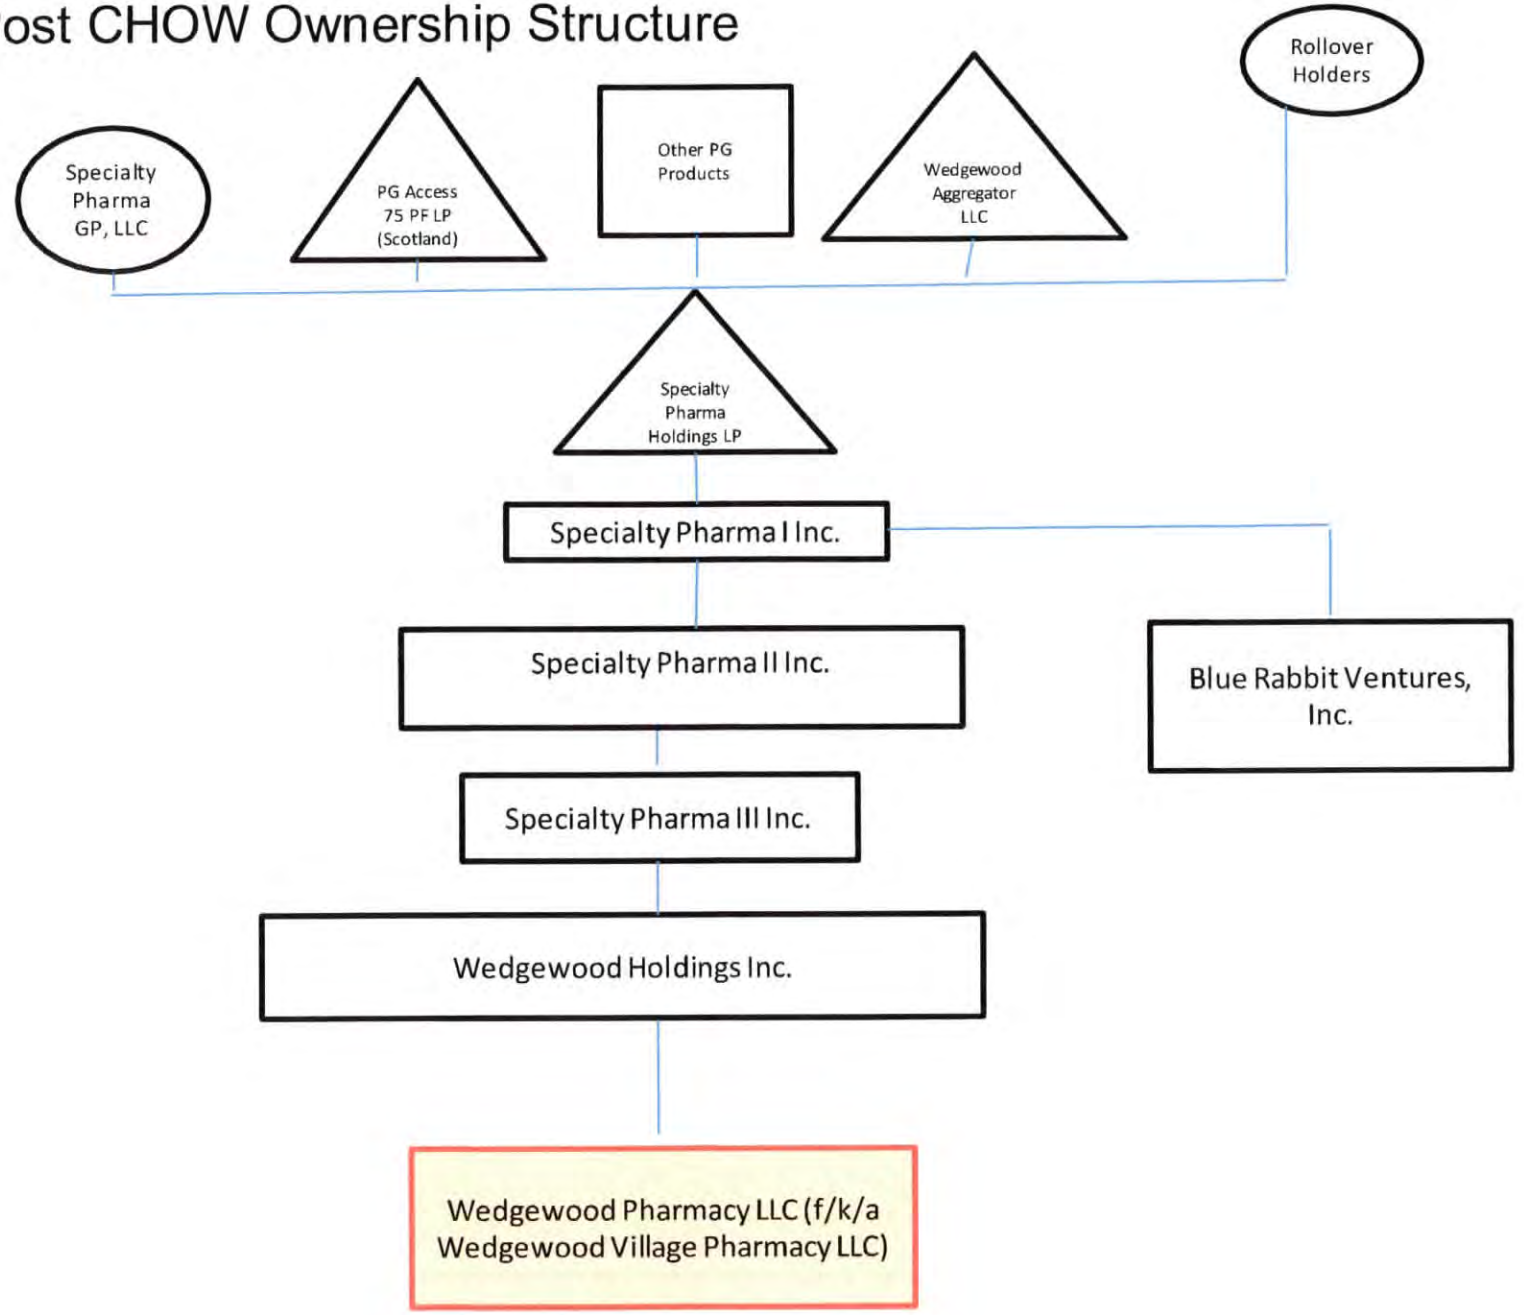
As part of an internal reorganization to be completed on or about April 30, 2024, Brava will merge into Wedgewood Pharmacy LLC. Please note that Wedgewood Pharmacy LLC is the new name of Wedgewood Village Pharmacy LLC and the change of name is occurring concurrently with the internal reorganization. This aspect of the reorganization is a name change only as the FEIN and type of legal entity is not changing.

Wedgewood Pharmacy's parent companies will change to more streamline the company's organizational structure. These changes are all internal restructuring and no new external investments are being made into the company.



For your reference, we have enclosed before and after organization structure charts demonstrating the nature of the change as well as updated ownership information.

Should you have any questions or require additional information, please do not hesitate to contact me at (559) 361 - 2342 or rachel.taggs@precisionpharmacy.com.



Sincerely,

Rachel Taggs

Section 3: History of Company

3. Has the corporation, any owner(s), shareholder(s) or partner(s) with any interest, ever been subject of an administrative action, board citation, cite fine, or proceeding relating to the pharmaceutical industry?

Discipline and Closed Matters for Wedgewood Village Pharmacy LLC, Swedesboro, NJ Location

The list includes prior matters that have previously been reported to the Board in an effort to provide full transparency with the application.

03/19/2015 – MN/MI/AL Consent Orders

On March 19, 2015, Wedgewood entered into a consent order with the Minnesota Board of Pharmacy ("*Minnesota Consent Order*"). Wedgewood subsequently entered into consent orders with the Michigan Department of Licensing and Regulatory Affairs ("*Michigan LARA*") and the Alabama Board of Pharmacy ("Alabama BOP") to resolve "sister state" actions that arose out of the Minnesota Consent Order.

The basis for the Minnesota Consent Order are as follows:

Acting on a reasonable and good-faith interpretation of Minnesota law, Wedgewood from its NJ location, dispensed compounds to licensed veterinarians in Minnesota, pursuant to a veterinarian's order for office use. The Minnesota Board asserted that Wedgewood needed a wholesale license to engage in this activity. For the purposes of settlement only, Wedgewood entered into the Minnesota Consent Order whereby it agreed to a $10,000 civil penalty but admitted no wrongdoing.

Wedgewood subsequently entered into a consent order with the Michigan LARA to resolve a "sister state" action brought by Michigan based on the Minnesota Consent Order. Wedgewood entered into a similar consent order with the Alabama BOP to resolve a sister state action brought by Alabama based on the Minnesota Consent Order. There was no finding in the Michigan or the Alabama Consent Order that Wedgewood violated any provisions of Michigan or Alabama state law outside of these states' prohibitions on sister state actions.

10/22/2015 – New Jersey Consent Agreement

On October 22, 2015, Wedgewood Village Pharmacy, Inc., entered into a Consent Agreement with the New Jersey Board of Pharmacy resolving a dispute between the parties on the application of "beyond use dating" regulations for sterile compounds.

This is the same order that is referenced on the Swedesboro, NJ facility's home license however, per the terms of the Agreement, it is not to be construed as discipline and any reimbursement paid to the Board is not considered a fine or other sanction.

10/13/2017 – California Citation & Fine

Issued as a result of an investigation by the CA BOP into an unlicensed individual who fraudulently set up an account with Wedgewood as a veterinarian using valid prescriber license information he acquired unlawfully. An administrative citation was issued and Wedgewood paid a nominal fine.

07/20/2018 - DEA Memorandum of Agreement

While Wedgewood does not consider there to be a restriction on its handling of CDS or disciplinary action, however, out of an abundance of caution, Wedgewood is disclosing the following:

As a condition of issuing Wedgewood located in Swedesboro, New Jersey a DEA manufacturer registration, Wedgewood and the DEA entered into a Memorandum of Agreement ("MOA") for a period of five years (until July 20, 2023) during which Wedgewood agreed not to use the DEA manufacturer license to manufacture or distribute controlled substances for human use. Wedgewood obtained a DEA manufacturer registration for the sole purposes of providing controlled substance compounds solely for veterinarians to use for office use.

12/5/2018 – California Citation

The California Board of Pharmacy issued a non-disciplinary, Administrative Citation with no penalty or fine based on a California Board inspector's interpretation of California regulations. In the Inspector's opinion, providing a 15ml ophthalmic container to a veterinarian for office use exceeded the "reasonable quantity" limitation for office use compounds.

Wedgewood discontinued sales of all 15ml ophthalmic container for office use to California veterinarians. The Board issued a Close Out letter on March 1, 2019. No penalty or fine was assessed.

6/17/2021 – California Citation & Fine

Received notification of a non-disciplinary, Administrative Citation which was finalized on 07/29/2021. A fine was paid as part of the final citation. The basis for the citation was that Wedgewood did not have the necessary data to support the "beyond use dates" Wedgewood used.

3/22/24 – California Stipulation Settlement and Disciplinary Order for Public Reproval

On February 21, 2024, the California Board of Pharmacy (the "Board") approved a Stipulated Settlement and Disciplinary Order for Public Reproval entered into with Wedgewood Village Pharmacy LLC relating to claims made by the Board regarding assignment of unsupported beyond use dates and other matters. The Order became effective on March 22, 2024 and Wedgewood agreed to pay the Board $11,054.75 as reimbursement of its costs in connection with this matter.

BOARD OF PHARMACY

In the Matter of
Wedgewood Pharmacy, Non-Resident Pharmacy
License Number: 262173

STIPULATION AND CONSENT ORDER

STIPULATION

Wedgewood Pharmacy ("Pharmacy" or "Licensee") and the Minnesota Board of Pharmacy Complaint Review Panel ("Review Panel") agree the above-referenced matter may be resolved without trial of any issue or fact as follows:

I.

JURISDICTION

1. The Minnesota Board of Pharmacy ("Board") is authorized pursuant to Minnesota Statutes chapter 151 to register and regulate pharmacies and to take disciplinary action as appropriate.

2. Wedgewood has been licensed as a non-resident pharmacy in Minnesota since October 22, 2002. As such, Wedgewood is subject to the jurisdiction of the Board with respect to the matters referred to in this Stipulation and Consent Order.

II.

CONFERENCE

3. On December 4, 2013, Wedgewood representatives attended a conference with the Review Panel to discuss the allegations described in a Notice of Conference. The Review Panel was composed of Board members Karen Bergrud and Bob Goetz. Bryan D. Huffman, Assistant Attorney General, represented the Review Panel in this matter. Wedgewood was represented by Greg Bulinski, Esq., of Bassford Remele and Rachael G. Pontikes, Esq., of Dunne Morris,

III.

FACTS

4. Licensee is not, nor has it ever been, licensed as a drug wholesaler by the Board.

5. Licensee shipped drugs to licensed veterinarians in Minnesota without patient-specific prescriptions.

6. Beginning January 7, 2013, Licensee dispensed drugs only pursuant to patient-specific prescriptions.

IV.

ISSUES

7. Licensee asserts it was acting on a good-faith interpretation of Minnesota law when it shipped drugs to licensed veterinarians in Minnesota without patient-specific prescriptions. Minn. Stat. § 151.01, subd. 30 (2012) defined "dispense or dispensing," in part, as meaning "the preparation or delivery of a drug pursuant to a lawful order. . . ." Licensee asserts that it reasonably and in good faith interpreted "lawful order" to include an order by a veterinarian for office use.

8. The Board asserts that Licensee's conduct described in section III. above constitutes violations of Minn. Stat. §§ 151.06, subd. 1(a)(7)(ix) and 151.47, subd. 1(b). The Board asserts that Minnesota law at all times relevant hereto prohibited Licensee from shipping drugs for office use without being licensed as a wholesaler.

9. For purposes of the settlement of this matter only, and for no other purposes civil, administrative or criminal, Licensee agrees that the disciplinary action described below may be imposed by the Board.

V.

DISCIPLINARY ACTION

The parties agree the Board may take the following disciplinary action and require compliance with the following terms:

10. The Board imposes a CIVIL PENALTY in the amount of $10,000 for the conduct described in section III above. The civil penalty must be paid by cashier's check or money order made payable to the Minnesota Board of Pharmacy, c/o Cody Wiberg, Executive Director, 2829 University Avenue S.E., Suite 530, Minneapolis, Minnesota 55414, within 60 days of the date of this Order.

VI.

CONSEQUENCES FOR NONCOMPLIANCE OR ADDITIONAL VIOLATIONS

11. If Licensee fails to comply with or violates this Stipulation and Consent Order, the Review Panel may, in its discretion, seek additional discipline either by initiating a contested case proceeding pursuant to Minnesota Statutes chapter 14 or by bringing the matter directly to the Board pursuant to the following procedure:

a. The Review Panel must schedule a hearing before the Board. At least 20 days before the hearing, the Review Panel must mail Licensee a notice of the violation(s) alleged by the Review Panel. In addition, the notice must designate the time and place of the hearing. Within ten days after the notice is mailed, Licensee must submit a written response to the allegations. If Licensee does not submit a timely response to the Board, the allegations may be deemed admitted.

b. The Review Panel, in its discretion, may schedule a conference with Licensee prior to the hearing before the Board to discuss the allegations and to attempt to resolve the allegations through agreement.

c. Prior to the hearing before the Board, the Review Panel and Licensee may submit affidavits and written argument in support of their positions. At the hearing, the Review Panel and Licensee may present oral argument. Argument may not refer to matters outside the record. The evidentiary record must be limited to the affidavits submitted prior to the hearing and this Stipulation and Consent Order. The Review Panel will have the burden of proving by a preponderance of the evidence that a violation has occurred. If Licensee has failed to submit a timely response to the allegations, Licensee may not contest the allegations but may present argument concerning the appropriateness of additional discipline. Licensee waives a hearing before an administrative law judge, discovery, cross-examination of adverse witnesses, and other procedures governing hearings pursuant to Minnesota Statutes chapter 14.

d. Licensee's correction of a violation before the conference, hearing, or meeting of the Board may be taken into account by the Board but will not limit the Board's authority to impose discipline for the violation. A decision by the Review Panel not to seek discipline when it first learns of a violation shall not waive the Review Panel's right to later seek discipline for that violation, either alone or in combination with other violations, at any time while Licensee's registration is in a conditional status.

e. Following the hearing, the Board will deliberate confidentially. If the allegations are not proved, the Board must dismiss the allegations. If a violation is proved, the Board may impose additional discipline, including conditions or limitations on Licensee's future practice or suspension or revocation of Licensee's registration.

f. Nothing herein limits the Review Panel's or the Board's right to temporarily suspend Licensee's license pursuant to Minnesota Statutes section 151.06, subdivision 1(b), based on a violation of this Stipulation and Consent Order or based on conduct of Licensee not specifically referred to herein.

VII.

ADDITIONAL INFORMATION

12. Licensee waives the contested case hearing and all other procedures before the Board to which Licensee may be entitled under the Minnesota and United States constitutions, statutes, or rules.

13. Licensee waives any claims against the Board, the Minnesota Attorney General, the State of Minnesota, and their agents, employees, and representatives related to the investigation of the conduct herein, or the negotiation or execution of this Stipulation and Consent Order, which may otherwise be available to Licensee.

14. This Stipulation and Consent Order, the files, records, and proceedings associated with this matter will constitute the entire record and may be reviewed by the Board in its consideration of this matter.

15. Either party may seek enforcement of this Stipulation and Consent Order in any appropriate civil court.

16. Licensee has read, understands, and agrees to this Stipulation and Consent Order and has voluntarily signed the Stipulation and Consent Order. Licensee is aware this Stipulation and Consent Order must be approved by the Board before it goes into effect. The Board may either approve the Stipulation and Consent Order as proposed, approve it subject to specified change, or reject it. If the changes are acceptable to Licensee, the Stipulation and Consent Order

will take effect and the order as modified will be issued. If the changes are unacceptable to Licensee or the Board rejects the Stipulation and Consent Order, it will be of no effect except as specified in the following paragraph.

17. Licensee agrees that if the Board rejects this Stipulation and Consent Order or a lesser remedy than indicated in this settlement, and this case comes again before the Board, Licensee will assert no claim that the Board was prejudiced by its review and discussion of this Stipulation and Consent Order or of any records relating to it.

18. This Stipulation and Consent Order does not limit the Board's authority to proceed against Licensee by initiating a contested case hearing or by other appropriate means on the basis of any act, conduct, or admission of Licensee which constitutes grounds for disciplinary action and which is not directly related to the specific facts and circumstances set forth in this document.

VIII.

DATA PRACTICES NOTICES

19. This Stipulation and Consent Order constitutes disciplinary action by the Board and is classified as public data pursuant to Minnesota Statutes section 13.41, subdivision 5. Data regarding this action will be provided to data banks as required by Federal law or consistent with Board policy. While this Stipulation and Consent Order is in effect, information obtained by the Board pursuant to this Order is considered active investigative data on a licensed person, and as such, is classified as protected nonpublic data pursuant to Minnesota Statutes sections 13.39, subdivision 2, and 13.02, subdivision 13.

20. This Stipulation contains the entire agreement between the parties, there being no other agreement of any kind, verbal or otherwise, which varies this Stipulation.

Wedgewood further waives any objection to the attorney for the Board preparing, drafting or making this Order, including the waiver of any objection or right pursuant to Code of Alabama (1975), §41-22-18.

4. By execution of this Consent Order, Wedgewood hereby releases the Board, its members, agents, representatives, servants and employees from any and all liability, claims, damages, fees or expenses arising out of or made in connection with the matters relating to this Consent Order and Statement.

Secretary

EXHIBIT "A"

BEFORE THE MINNESOTA

BOARD OF PHARMACY

In the Matter of
Wedgewood Pharmacy, Non-Resident Pharmacy
License Number: 262173

STIPULATION AND
CONSENT ORDER

STIPULATION

Wedgewood Pharmacy ("Pharmacy" or "Licensee") and the Minnesota Board of Pharmacy Complaint Review Panel ("Review Panel") agree the above-referenced matter may be resolved without trial of any issue or fact as follows:

I.

JURISDICTION

1. The Minnesota Board of Pharmacy ("Board") is authorized pursuant to Minnesota Statutes chapter 151 to register and regulate pharmacies and to take disciplinary action as appropriate.

2. Wedgewood has been licensed as a non-resident pharmacy in Minnesota since October 22, 2002. As such, Wedgewood is subject to the jurisdiction of the Board with respect to the matters referred to in this Stipulation and Consent Order.

II.

CONFERENCE

3. On December 4, 2013, Wedgewood representatives attended a conference with the Review Panel to discuss the allegations described in a Notice of Conference. The Review Panel was composed of Board members Karen Bergrud and Bob Goelz. Bryan D. Huffman, Assistant Attorney General, represented the Review Panel in this matter. Wedgewood was represented by Greg Bullock, Esq., of Hansford Reneis and Rachael G. Fentiker, Esq., of Duane Morris.

III.

FACTS

4. Licensee is not, nor has it ever been, licensed as a drug wholesaler by the Board.

5. Licensee shipped drugs to licensed veterinarians in Minnesota without patient-specific prescriptions.

6. Beginning January 7, 2013, Licensee dispensed drugs only pursuant to patient-specific prescriptions.

IV.

ISSUES

7. Licensee asserts it was acting on a good-faith interpretation of Minnesota law when it shipped drugs to licensed veterinarians in Minnesota without patient-specific prescriptions. Minn. Stat. § 151.01, subd. 30 (2012) defined "dispense or dispensing," in part, as meaning "the preparation or delivery of a drug pursuant to a lawful order. . . ." Licensee asserts that it reasonably and in good faith interpreted "lawful order" to include an order by a veterinarian for office use.

8. The Board asserts that Licensee's conduct described in section III. above constitutes violations of Minn. Stat. §§ 151.06, subd. 1(a)(7)(ix) and 151.47, subd. 1(b). The Board asserts that Minnesota law at all times relevant hereto prohibited Licensee from shipping drugs for office use without being licensed as a wholesaler.

9. For purposes of the settlement of this matter only, and for no other purposes civil, administrative or criminal, Licensee agrees that the disciplinary action described below may be imposed by the Board.

V.

DISCIPLINARY ACTION

The parties agree the Board may take the following disciplinary action and require compliance with the following terms:

10. The Board imposes a CIVIL PENALTY in the amount of $10,000 for the conduct described in section III above. The civil penalty must be paid by cashier's check or money order made payable to the Minnesota Board of Pharmacy, c/o Cody Wiberg, Executive Director, 2829 University Avenue S.E., Suite 530, Minneapolis, Minnesota 55414, within 60 days of the date of this Order.

VI.

CONSEQUENCES FOR NONCOMPLIANCE OR ADDITIONAL VIOLATIONS

11. If Licensee fails to comply with or violates this Stipulation and Consent Order, the Review Panel may, in its discretion, seek additional discipline either by initiating a contested case proceeding pursuant to Minnesota Statutes chapter 14 or by bringing the matter directly to the Board pursuant to the following procedures:

a. The Review Panel must schedule a hearing before the Board. At least 20 days before the hearing, the Review Panel must mail Licensee a notice of the violation(s) alleged by the Review Panel. In addition, the notice must designate the time and place of the hearing. Within ten days after the notice is mailed, Licensee must submit a written response to the allegations. If Licensee does not submit a timely response to the Board, the allegations may be deemed admitted.

b. The Review Panel, in its discretion, may schedule a conference with Licensee prior to the hearing before the Board to discuss the allegations and to attempt to resolve the allegations through agreement.

c. Prior to the hearing before the Board, the Review Panel and Licensee may submit affidavits and written argument in support of their positions. At the hearing, the Review Panel and Licensee may present oral argument. Argument may not refer to matters outside the record. The evidentiary record must be limited to the affidavits submitted prior to the hearing and this Stipulation and Consent Order. The Review Panel will have the burden of proving by a preponderance of the evidence that a violation has occurred. If Licensee has failed to submit a timely response to the allegations, Licensee may not contest the allegations but may present argument concerning the appropriateness of additional discipline. Licensee waives a hearing before an administrative law judge, discovery, cross-examination of adverse witnesses, and other procedures governing hearings pursuant to Minnesota Statutes chapter 14.

d. Licensee's correction of a violation before the conference, hearing, or meeting of the Board may be taken into account by the Board but will not limit the Board's authority to impose discipline for the violation. A decision by the Review Panel not to seek discipline when it first learns of a violation shall not waive the Review Panel's right to later seek discipline for that violation, either alone or in combination with other violations, at any time while Licensee's registration is in a conditional status.

e. Following the hearing, the Board will deliberate confidentially. If the allegations are not proved, the Board must dismiss the allegations. If a violation is proved, the Board may impose additional discipline, including conditions or limitations on Licensee's future practice or suspension or revocation of Licensee's registration.

11. Nothing herein limits the Review Panel's or the Board's right to temporarily suspend Licensee's license pursuant to Minnesota Statutes section 151.06, subdivision 1(b), based on a violation of this Stipulation and Consent Order or based on conduct of Licensee not specifically referred to herein.

VII.

ADDITIONAL INFORMATION

12. Licensee waives the contested case hearing and all other procedures before the Board to which Licensee may be entitled under the Minnesota and United States constitutions, statutes, or rules.

13. Licensee waives any claims against the Board, the Minnesota Attorney General, the State of Minnesota, and their agents, employees, and representatives related to the investigation of the conduct herein, or the negotiation or execution of this Stipulation and Consent Order, which may otherwise be available to Licensee.

14. This Stipulation and Consent Order, the files, records, and proceedings associated with this matter will constitute the entire record and may be reviewed by the Board in its consideration of this matter.

15. Either party may seek enforcement of this Stipulation and Consent Order in any appropriate civil court.

16. Licensee has read, understands, and agrees to this Stipulation and Consent Order and has voluntarily signed the Stipulation and Consent Order. Licensee is aware this Stipulation and Consent Order must be approved by the Board before it goes into effect. The Board may either approve the Stipulation and Consent Order as proposed, approve it subject to specified changes, or reject it. If the changes are acceptable to Licensee, the Stipulation and Consent Order

will take effect and the order as modified will be issued. If the changes are unacceptable to Licensee or the Board rejects the Stipulation and Consent Order, it will be of no effect except as specified in the following paragraph.

17. Licensee agrees that if the Board rejects this Stipulation and Consent Order or a lesser remedy than indicated in this settlement, and this case comes again before the Board, Licensee will assert no claim that the Board was prejudiced by its review and discussion of this Stipulation and Consent Order or of any records relating to it.

18. This Stipulation and Consent Order does not limit the Board's authority to proceed against Licensee by initiating a contested case hearing or by other appropriate means on the basis of any act, conduct, or omission of Licensee which constitutes grounds for disciplinary action and which is not directly related to the specific facts and circumstances set forth in this document.

VIII.

DATA PRACTICES NOTICES

19. This Stipulation and Consent Order constitutes disciplinary action by the Board and is classified as public data pursuant to Minnesota Statutes section 13.41, subdivision 5. Data regarding this action will be provided to data banks as required by Federal law or consistent with Board policy. While this Stipulation and Consent Order is in effect, information obtained by the Board pursuant to this Order is considered active investigative data on a licensed person, and as such, is classified as protected nonpublic data pursuant to Minnesota Statutes sections 13.39, subdivision 2, and 13.02, subdivision 13.

20. This Stipulation contains the entire agreement between the parties, there being no other agreement of any kind, verbal or otherwise, which varies this Stipulation.

CONSENT ORDER AND STIPULATION

CONSENT ORDER

An administrative complaint was filed with the Disciplinary Subcommittee of the Board of Pharmacy on July 24, 2015, charging Wedgewood Village Pharmacy, Inc. (Respondent) with having violated section 17768(2)(d) of the Public Health Code, 1978 PA 368, as amended, MCL 333.1101 *et seq.*

The parties have stipulated that the Disciplinary Subcommittee may enter this consent order. The Disciplinary Subcommittee has reviewed the stipulation contained in this document and agrees that the public interest is best served by resolution of the outstanding complaint. Therefore, the Disciplinary Subcommittee finds that the allegations of fact contained in the complaint are true and that Respondent has violated section 17768(2)(d) of the Public Health Code.

Accordingly, for this violation, IT IS ORDERED:

Respondent is FINED $500.00 (Five Hundred Dollars) to be paid by check, money order or cashier's check made payable to the State of Michigan (with complaint number 58-15-137238 clearly indicated on the check or money order), and

shall be payable within 60 days of the effective date of this order. The timely payment of the fine shall be Respondent's responsibility. Respondent shall mail the fine to: Sanction Monitoring, Bureau of Professional Licensing, Enforcement Division -- Compliance Section, Department of Licensing and Regulatory Affairs, P.O. Box 30189, Lansing, Michigan 48909.

This order shall be effective on the date signed by the Chairperson of the Disciplinary Subcommittee or the Disciplinary Subcommittee's authorized representative, as set forth below.

Chairperson, Disciplinary Subcommittee

STIPULATION

The parties stipulate as follows:

1. Respondent does not contest the allegations of fact and law in the complaint. Respondent understands that, by pleading no contest, it does not admit the truth of the allegations but agrees that the Disciplinary Subcommittee may treat the allegations as true for resolution of the complaint and may enter an order treating the allegations as true.

2. Respondent understands and intends that, by signing this stipulation, it is waiving the right under the Public Health Code, rules promulgated under the Public Health Code, and the Administrative Procedures Act of 1969, 1969 PA 306,

as amended, MCL 24.201 *et seq.*, to require the Department to prove the charges set forth in the complaint by presentation of evidence and legal authority, and to present a defense to the charges before the Disciplinary Subcommittee or its authorized representative. Should the Disciplinary Subcommittee reject the proposed consent order, the parties reserve the right to proceed to hearing.

3. The Disciplinary Subcommittee may enter the above Consent Order, supported by Board conferee Patti Smeelink, R.Ph. Ms. Smeelink or an attorney from the Licensing and Regulation Division may discuss this matter with the Disciplinary Subcommittee in order to recommend acceptance of this resolution.

4. Conferee Smeelink and the parties considered the following factors in reaching this agreement:

A. Respondent has fully cooperated in this matter and since initially licensed in 2004, Respondent has never had any disciplinary action taken against its Michigan Pharmacy license prior to this incident.

B. Respondent timely reported the Minnesota Board of Pharmacy Stipulation and Consent Order to the Department.

C. The violation of MCL 333.17768(d)(2) as alleged in the Complaint is based solely on a "sister-state" action taken against Respondent's Pharmacy license by the Minnesota Board of Pharmacy that was based on Respondent's former practice in 2012 of dispensing compounded veterinary medications for office-use to licensed veterinarians in Minnesota, which according to the Minnesota Board of Pharmacy, required a wholesaler's license. However, this practice did not implicate Respondent's practice of pharmacy in the State of Michigan and Respondent has not been found to have violated the Michigan Public Health Code or Board of Pharmacy Administrative Rules, except as provided herein.

By signing this stipulation, the parties confirm that they have read, understand and agree with the terms of the consent order.

CONSENT ORDER

This matter was opened to the New Jersey Board of Pharmacy ("the Board") upon receipt of reports of inspection of the facility at Wedgewood Village Pharmacy, Inc. ("Wedgewood") which occurred on November 14 and 15, 2012. The reports document potential violations of the Board's regulations regarding sterile compounding. Wedgewood engages in high risk sterile compounding.

Among other things, the inspection reports highlighted routine professional practices suggesting that thousands of units of medication were dispensed with disregard for the following regulatory requirements:

- Use-by dates exceed 30 days after preparation in violation of N.J.A.C. 13:39-11.11.

- Failure to include date and time of preparation on prescription labels in violation of N.J.A.C. 13:39-11.10(a)(1).

- Failure to include the use-by date and use-by time on prescription labels as required by N.J.A.C. 13:39-11.10(a)(7).

No evidence of contamination was found. Wedgewood denies the allegations of violations and has been fully cooperative with the Board's investigation. There have been significant changes in management of Wedgewood since the time of the events in question. The pharmacy permit holder at the time of these events is now deceased and his wife now holds the permit. Wedgewood has agreed to replace the registered pharmacist-in-charge. Wedgewood represents that it is now in compliance with New Jersey statutes and regulations and with the USP guidelines. Wedgewood further represents that 100% of all sterile compounds are currently being tested for sterility and that all use-by dates are properly supported. Accordingly, the Board has determined that the monitoring requirements imposed herein are sufficient to protect the public health, safety and

welfare.

The parties, having agreed to resolution of this matter without formal proceedings, and Wedgewood, having agreed and given voluntary consent to the within order and waiving any right to a hearing, and the Board finding the within disposition adequately protective of the public health, safety, and welfare, and other good cause having been shown;

IT IS THEREFORE on this 22nd day of OCTOBER, 2015,

ORDERED AND AGREED that

1. Wedgewood shall contract with a third-party monitor (the "Monitor") pre-approved by the Board to review all compounding operations of the pharmacy. For the purposes of this Order, LDT Health Solutions, Inc. is an approved Monitor. Within 30 days of the entry of this Order, the Monitor shall furnish the Board directly with a report which demonstrates review of all processes and procedures, and attests to compliance with all Board regulations and USP standards. Wedgewood shall conduct environmental testing, pressure differential monitoring, and air and surface sampling for bacteria and fungi and make these test results available to the Monitor prior to the Monitor issuing its report and directly to the Board. Wedgewood shall continue to contract with the Monitor and the Monitor will submit reports directly to the Board on the first day of each month until the Monitor

reports directly to the Board that Wedgewood has complied with all recommendations made by the Monitor and is operating in full compliance with all Board regulations and USP standards. All costs associated with the monitoring outlined in this Order shall be the responsibility of, and paid directly by, Wedgewood.

2. Within 30 days of the entry of this order, Wedgewood shall appoint a new pharmacist-in-charge and shall ensure that a pharmacist with sterile compounding expertise (either the pharmacist-in-charge or another employee) directly supervises the daily sterile compounding operations to further ensure the quality and integrity of their products. "Directly supervise" for the purpose of this paragraph means ensure that all proper checks and balances are being performed during the compounding process; help identify and eliminate errors and mistakes; ensure training and testing of personnel testing is occurring; and generally help to ensure that proper aseptic technique is being used to help implement a Quality System and Environment to produce compounded sterile product.

3. Prior to hiring any pharmacist-in-charge or pharmacist to directly supervise daily sterile compounding operations, Wedgewood shall ensure that the individual is competent and that his/her license is not restricted in such a way as to preclude them from fulfilling their job responsibilities.

Wedgewood shall not hire an individual to be pharmacist-in-charge or to directly supervise the daily sterile compounding operations if Wedgewood is aware that the individual is subject to a pending Board investigation.

4. Wedgewood agrees to pay the Board the sum of $500,000.00 in two equal installments due on or before November 31, 2015 and December 31, 2015. This payment will reimburse the Board for attorney's fees and investigative costs and the remainder will be applied toward the Board's ongoing efforts to inspect, investigate and educate pharmacies involved in sterile compounding. Wedgewood and the Board acknowledge and agree that the payment described herein is not a fine, sanction, warning letter or penalty, or payment in lieu thereof. Payment shall be made by bank check, money order, wire transfer or credit card made payable to the New Jersey Board of Pharmacy.

5. This Consent Order shall not be construed to be a disciplinary action or sanction of any kind, nor as an admission of liability of the pharmacy.

RE: Complaint Investigation CI 2016 72146

Dear Pharmacist-in-Charge:

The Board of Pharmacy has completed its investigation of Wedgewood Village Pharmacy.

As a regulatory agency, when conducting an investigation, the Board must adhere to violations prohibited in pharmacy law. Specifically, the information and documentation obtained during the course of an investigation must clearly demonstrate that a violation of pharmacy law occurred.

The Board's analysis of the information and documentation received did not identify sufficient evidence to determine that a violation of pharmacy law occurred. Accordingly, the Board is closing the matter and will be taking no action against the pharmacy or its licensees.

Although we are closing this matter, please be advised that it is your professional responsibility to assure compliance with all pharmacy laws.

We would like to thank you for your cooperation and assistance. If you should have any questions, please contact the Board at the above address or telephone number.

COST RECOVERY

14. Section 125.3 of the Code states, in pertinent part, that the Board may request the administrative law judge to direct a licentiate found to have committed a violation or violations of the licensing act to pay a sum not to exceed the reasonable costs of the investigation and enforcement of the case.

DRUG PREPARATIONS

15. Tacrolimus Ophthalmic Suspension is an eye drop generally prescribed to dogs to treat dry eyes, particularly when caused by low tear production or tears of poor quality. It is a dangerous drug pursuant to Code section 4022.

16. Protirelin is an injectable drug product generally prescribed for horses as a thyrotropin-releasing hormone in order to test for certain metabolic disorders or illnesses. It is a dangerous drug pursuant to Code section 4022.

17. Cyclosporine in MCT oil solution is an eye drop generally prescribed to dogs. It is used to decrease inflammation in the eye and tear glands and increase tear production. It is a dangerous drug pursuant to Code section 4022.

18. Edetate Disodium (EDTA) is a chelating agent generally prescribed to treat corneal ulcers in dogs, cats, and horses. It is a dangerous drug pursuant to Code section 4022.

FACTUAL ALLEGATIONS

19. Respondents own and operate a nonresident pharmacy which also possesses a nonresident sterile compounding pharmacy permit, and is located in the State of New Jersey.

20. On or about April 1, 2021, due to a change in the ownership structure of certain parent corporations that own the corporations that own Respondent Original Licensee, successor licensees, both a nonresident pharmacy permit and a nonresident sterile compounding pharmacy permit, were issued to the same immediate ownership structure. Nearly all of the immediate owners and officers of Respondent Original Licensee remained with Respondent Successor Licensee. The conduct set forth in this accusation came to the attention of the Board due to the change of ownership inspection that is required by pharmacy law. Therefore, all of the actions were taken on dates on which Respondent Original Licensee was the owner and operator of the pharmacy. However, since the immediate ownership structure did not change, the owners and operators of Respondent Successor Licensee are responsible for the actions of Respondent Original Licensee.

21. Respondents specialize in veterinary compounding.

22. On January 1, 2017, the Board's sterile compounding regulations became effective.

23. In 2017, Board inspector S.P. issued a written warning to Respondents due to Respondents issuing many of its drug preparations extended beyond use dates (BUDs) without the appropriate data to support those BUDs.

24. In 2018, and again in 2020, during inspections of Respondents facility, Board inspector S.P. discussed with Respondents the documentation Respondents needed to provide, obtain, or test for, in order determine and assign extended BUDs and noted that Respondents had not obtained, tested for, or provided this documentation such that the extended BUDs were still inappropriate.

25. After the 2020 inspection, the Board issued a citation to Respondents for providing 120-day extended BUDs without having the tests and studies required to support the extended BUDs.

///

26. On and between approximately March 17, 2021, and May 28, 2021, Board Inspector M.V. conducted a change of ownership inspection regarding Respondents as discussed in additional depth, above. Due to the COVID-19 pandemic, the inspection was conducted remotely via records review. The investigation report is dated March 1, 2022 (March 1, 2022 Inspection Report).

27. On or about March 19, 2021, Board Inspector M.V. requested five specific compounding logs for review, including certificates of analyses, end-product release testing, documentation supporting any extended BUDs assigned to preparations, sample labels, and training records for Respondents' compounding pharmacist and compounding pharmacy technician. M.V.'s review of just these five compounding logs lead to the causes for discipline set forth below.

FIRST CAUSE FOR DISCIPLINE

(Assignment of Unsupported Extended Beyond Use Dates)

28. Respondents are subject to disciplinary action for unprofessional conduct pursuant to Code section 4301, subdivisions (j) and (o), for failing to follow laws and regulations governing pharmacy and regulating dangerous drugs in that Respondents violated Regulations 1735.2, subdivision (i). The circumstances are as follows:

A. On or about July 1, 2020, Respondents compounded 623 bottles of Tacrolimus 0.03% ophthalmic aqueous suspensions and gave an extended BUD of 160 days. Respondents only had data to support a 45-day BUD for this drug product.

B. On or about November 27, 2020, Respondents compounded 581 bottles of Cyclosporine 2% in MCT oil ophthalmic solutions and gave an extended BUD of 180 days. Respondents only had data to support a 45-day BUD for this drug product.

C. On or about February 8, 2021, Respondents compounded 353 vials of Protirelin Acetate 1mg/ml injectable solution and gave an extended BUD of 240 days. Respondents had no data to support an extended BUD for this product.

///

///

D. On or about March 10, 2020, Respondents compounded 53 bottles (15mL) of Edetate Disodium and gave an extended BUD of 240 days. Respondents had no data to support an extended BUD for the product.

SECOND CAUSE FOR DISCIPLINE

(Incomplete Compounding Records)

29. Respondents are subject to disciplinary action for unprofessional conduct pursuant to Code section 4301, subdivisions (j) and (o), for failing to follow laws and regulations governing pharmacy and regulating dangerous drugs in that Respondents violated Regulations section 1735.3, subdivision (a)(2). The circumstances are that Respondents' compounding logs reviewed by Board Inspector M.V. failed to list the manufacturers of the drug components Respondents used for compounding.

THIRD CAUSE FOR DISCIPLINE

(Gross Negligence)

30. Respondents are subject to disciplinary action for unprofessional conduct pursuant to Code section 4301, subdivision (c), in that Respondents committed acts constituting gross negligence when Respondents assigned extended BUDs without having the required data to support those BUDs.

FOURTH CAUSE FOR DISCIPLINE

(Knowingly Making or Signing a False Document)

31. Respondents are subject to disciplinary action for unprofessional conduct pursuant to Code section 4301, subdivision (g), in that Respondents knowingly made or signed false documents when Respondents assigned extended BUDs without having the required data to support those BUDs.

FIFTH CAUSE FOR DISCIPLINE

(Acts Involving Moral Turpitude, Dishonesty, Fraud, Deceit, or Corruption)

32. Respondents are subject to disciplinary action for unprofessional conduct pursuant to Code section 4301, subdivision (g), in that Respondents committed acts involving moral turpitude, dishonesty, fraud, deceit, or corruption when Respondents continued to assign extended

BUDs and ship the compounded drugs to patients without having the required data to support those BUDs.

33. On or about June 17, 2021, Citation number CI 2020 90874 was issued to Respondent Original Licensee's Nonresident Pharmacy permit for violation of Regulations section 1735.2, subdivision (i)(3), for assigning an extended BUD without the required data. The citation did not order a fine, it was not appealed, and it is final.

34. On or about June 17, 2021, Citation number CI 2020 89042 was issued to Respondent Original Licensee's Nonresident Sterile Compounding Pharmacy permit for violation of Regulations section 1735.2, subdivision (i)(3), for assigning an extended BUD without the required data. The citation ordered a $2,500 fine, and required proof of abatement regarding justification for assigning extended BUDs for antibacterial eye ointment. The citation was not appealed and is final.

35. On or about December 5, 2018, Citation number CI 2018 82132 was issued to Respondent Original Licensee's Nonresident Pharmacy permit f or violation of Regulations section 1735.2, subdivisions (c)(1), and (c)(4) for furnishing over 2,200 unites of compounded ophthalmic drops to a prescriber for office use. This amount exceeds the reasonable quantity that may be furnished and Respondent Original Licensee failed to have a credible basis for determining a reasonable quantity for office use. 36. State Disciplinary Actions

1. **Oregon - 2008-0097 - 12/09/08**

   The case with the state of Oregon was opened on Dec 9th, 2008, and settled with a consent order dated February 18th, 2009. There was a civil fine of $750 due to Allivet shipping to Oregon in early 2008 without an out of state license. This was an unintentional oversight as Allivet was a new pharmacy and was in the process of obtaining all licenses.

2. **Indiana - 2011 IBP 0053 - 09/28/11**

   Allivet began shipping prescription orders into the state of Indiana while the pharmacy application was still in process. Because of that, Indiana sent a stop-ship order dated September 28th, 2011. Allivet received its out of state pharmacy license from the state of Indiana in December 2011 and was able to continue operating without any further issues.

3. **Alabama-16-L-0130 - 02/28/17**

   This action was a ***derivative action*** referencing the following disciplinary actions:

   - Oregon - 2008-0097 - 12/09/08
   - Indiana - 2011 IBP 0053 - 09/28/11

4. **Colorado - CO-2013-534 - 12/19/13**

   Allivet was fined $1,100 by Colorado for dispensing medications without a wholesale license to a veterinarian. At the time of the incident in 2011, Isoxsuprine was on manufacturer backorder, but Allivet had the product in stock. Due to the product's constrains Allivet was contacted by a veterinarian urgently requiring this medicine for his pet owners in Colorado. Allivet provided the medication, unaware of the wholesale licensing requirements. Allivet does not engage in any wholesale pharmacy transactions to ensure full compliance with state regulations.

5. **Alabama-AL-2015-001 - 10/10/15**

   Allivet applied for a Pharmacist-in-Charge (PIC) license with the Alabama Board of Pharmacy on November 10, 2014, to facilitate the renewal of its pharmacy license for 2015. Alabama scheduled a meeting for Allivet's pharmacist in February 2015, beyond the expiration date of the license on December 31, 2014. To address this, Allivet contacted the Board of Alabama to request an earlier meeting and to confirm that its renewal would not be affected by the schedule. During this time, it was assured that Allivet's pharmacy license would remain in good standing until the in-person meeting, and the Board's website indicated the license as active. Operating under this assumption, Allivet continued shipping products. When questioned about early 2015 shipments, Allivet explained that it believed it was permitted to do so based on prior communications. As a result, Allivet was fined $500 for shipping into the state without an Alabama-licensed Pharmacist-in-Charge.

6. **Arkansas-AR-2015-049 - 10/13/15**

   In 2015, a technical issue in Allivet's system compromised the designated safety measures to prevent shipment of prescription items without active licenses. As a result, orders placed over the phone were processed and shipped into Arkansas without a valid license in 2015.

7. **Alabama-17-L-0050 - 05/18/17**

   This action was a ***derivative action*** referencing the following disciplinary action:

   - Arkansas-AR-2015-049 - 10/13/15

   - Arkansas-AR-2015-049 - 10/13/15

9. **Michigan-53-17-148216 - 06/25/18**

   Action I:
   In late 2008, Allivet changed locations and failed to report the change of location within 30 days to the Michigan Board of Pharmacy. This was an unintentional oversight as Allivet had just opened its pharmacy in 2007. At the following renewal date, Allivet noted the new address which triggered the action.

   Action II:
   This action was a ***derivative action*** referencing the following disciplinary actions:
   - Oregon - 2008-0097 - 12/09/08
   - Alabama-AL-2015-001 - 10/10/15

Action II:
On September 1st, 2016, the Texas Board of Pharmacy changed the requirement for non-resident pharmacies to have a licensed Texas Pharmacist in Charge. Allivet immediately began the process to obtain licensure for its pharmacist, but due to the lengthy process, the license was not granted until May 2017. Therefore, due to the Texas regulatory change, Allivet operated without a Texas-licensed Pharmacist-in-Charge from September 1, 2016, to May 21, 2017. Currently, Allivet holds an active license and is in good standing with the state of Texas.

This censure derived from selling rabies vaccines to consumers in Nebraska, instead of the prescribing veterinarian. Non-Disciplinary Communications

1. Tennessee – Consent Letter – 01/25/2024 Case No. 2023026981

In June 2023, the company changed the Pharmacist in Charge (PIC) at its Miami facility and as required, notified each State Board of Pharmacy. Unfortunately, the notification sent to Tennessee contained an incorrect date, suggesting that there was a brief period when the Miami facility did not have a PIC. This was merely a clerical error. The company has provided all requested records to the Tennessee Board, along with an affidavit from the PIC, demonstrating compliance with PIC regulations at all times. On October 16, 2024, the Tennessee Attorney General for the Board of Pharmacy communicated that the case was closed. No discipline was imposed.

As the undersigned representative of the licensee, I affirm that the information provided during the inspection is true and accurate to the best of my knowledge. I understand that the licensee is responsible for the legal operations of the facility and I am executing this inspection form as, or on behalf of the licensee.

The alleged violator has voluntarily entered into an Opportunity to Correct Plan with the Indiana Professional Licensing Agency (PLA). Pursuant to IC 4-21.5-2.5-7, the alleged violator enters into a written Corrective Plan to correct the alleged violation(s) set forth above before the agency institutes an enforcement action which may include the filing of a Consumer Complaint with the Office of the Indiana Attorney General. Upon notice that the alleged violation(s) has been corrected, this Agency shall re-inspect not more than thirty (30) days after to determine if you have substantially complied with the applicable rule or state statute. If subsequent inspection identifies a failure to address previous violations the facility will "fail" the inspection and additional enforcement actions may be initiated against licensure.

In order to avoid additional enforcement action, the alleged violator must submit the Corrective Plan within five (5) business days after the initial inspection. A plan of corrective action can be either emailed to PLACompliance@pla.in.gov, or mailed to: Indiana Professional Licensing Agency, Attn: Compliance Division, 402 W. State Disciplinary Actions

1. **Oregon - 2008-0097 - 12/09/08**

   The case with the state of Oregon was opened on Dec 9th, 2008, and settled with a consent order dated February 18th, 2009. There was a civil fine of $750 due to Allivet shipping to Oregon in early 2008 without an out of state license. This was an unintentional oversight as Allivet was a new pharmacy and was in the process of obtaining all licenses.

2. **Indiana - 2011 IBP 0053 - 09/28/11**

   Allivet began shipping prescription orders into the state of Indiana while the pharmacy application was still in process. Because of that, Indiana sent a stop-ship order dated September 28th, 2011. Allivet received its out of state pharmacy license from the state of Indiana in December 2011 and was able to continue operating without any further issues.

3. **Alabama-16-L-0130 - 02/28/17**

   This action was a ***derivative action*** referencing the following disciplinary actions:

   - Oregon - 2008-0097 - 12/09/08
   - Indiana - 2011 IBP 0053 - 09/28/11

4. **Colorado - CO-2013-534 - 12/19/13**

   Allivet was fined $1,100 by Colorado for dispensing medications without a wholesale license to a veterinarian. At the time of the incident in 2011, Isoxsuprine was on manufacturer backorder, but Allivet had the product in stock. Due to the product's constrains Allivet was contacted by a veterinarian urgently requiring this medicine for his pet owners in Colorado. Allivet provided the medication, unaware of the wholesale licensing requirements. Allivet does not engage in any wholesale pharmacy transactions to ensure full compliance with state regulations.

5. **Alabama-AL-2015-001 - 10/10/15**

   Allivet applied for a Pharmacist-in-Charge (PIC) license with the Alabama Board of Pharmacy on November 10, 2014, to facilitate the renewal of its pharmacy license for 2015. Alabama scheduled a meeting for Allivet's pharmacist in February 2015, beyond the expiration date of the license on December 31, 2014. To address this, Allivet contacted the Board of Alabama to request an earlier meeting and to confirm that its renewal would not be affected by the schedule. During this time, it was assured that Allivet's pharmacy license would remain in good standing until the in-person meeting, and the Board's website indicated the license as active. Operating under this assumption, Allivet continued shipping products. When questioned about early 2015 shipments, Allivet explained that it believed it was permitted to do so based on prior communications. As a result, Allivet was fined $500 for shipping into the state without an Alabama-licensed Pharmacist-in-Charge.

6. **Arkansas-AR-2015-049 - 10/13/15**

   In 2015, a technical issue in Allivet's system compromised the designated safety measures to prevent shipment of prescription items without active licenses. As a result, orders placed over the phone were processed and shipped into Arkansas without a valid license in 2015.

7. **Alabama-17-L-0050 - 05/18/17**

   This action was a ***derivative action*** referencing the following disciplinary action:

   - Arkansas-AR-2015-049 - 10/13/15

   This action was a ***derivative action*** referencing the following disciplinary action:

   - Arkansas-AR-2015-049 - 10/13/15

9. **Michigan-53-17-148216 - 06/25/18**

   Action I:
   In late 2008, Allivet changed locations and failed to report the change of location within 30 days to the Michigan Board of Pharmacy. This was an unintentional oversight as Allivet had just opened its pharmacy in 2007. At the following renewal date, Allivet noted the new address which triggered the action.

   Action II:
   This action was a ***derivative action*** referencing the following disciplinary actions:
   - Oregon - 2008-0097 - 12/09/08
   - Alabama-AL-2015-001 - 10/10/15

Action II:
On September 1st, 2016, the Texas Board of Pharmacy changed the requirement for non-resident pharmacies to have a licensed Texas Pharmacist in Charge. Allivet immediately began the process to obtain licensure for its pharmacist, but due to the lengthy process, the license was not granted until May 2017. Therefore, due to the Texas regulatory change, Allivet operated without a Texas-licensed Pharmacist-in-Charge from September 1, 2016, to May 21, 2017. Currently, Allivet holds an active license and is in good standing with the state of Texas.

This censure derived from selling rabies vaccines to consumers in Nebraska, instead of the prescribing veterinarian. Dismissal order matter was approved by Hearing Officer on 07/09/2020.

Non-Disciplinary Communications

1. Tennessee – Consent Letter – 01/25/2024 Case No. 2023026981

In June 2023, the company changed the Pharmacist in Charge (PIC) at its Miami facility and as required, notified each State Board of Pharmacy. Unfortunately, the notification sent to Tennessee contained an incorrect date, suggesting that there was a brief period when the Miami facility did not have a PIC. This was merely a clerical error. The company has provided all requested records to the Tennessee Board, along with an affidavit from the PIC, demonstrating compliance with PIC regulations at all times. On October 16, 2024, the Tennessee Attorney General for the Board of Pharmacy communicated that the case was closed. No discipline was imposed.

Topics to Educate

1. BPC 4052.04 – Pharmacist may furnish COVID-19 oral therapeutics following a positive test.
   - "COVID-19 oral therapeutics" means drugs that are approved or authorized by the FDA for the treatment of COVID-19 and administered orally.
   - Prior to furnishing COVID-19 oral therapeutics, a pharmacist shall utilize relevant and appropriate evidence-based clinical

INSPECTION REPORT

guidelines published by FDA in providing these patient care services.

- A pharmacist who furnishes COVID-19 oral therapeutics shall notify patient's PCP or enter appropriate information into patient record system shared with PCP, as permitted by that PCP. If the patient does not have a PCP, the pharmacist shall provide the patient with a written record of the drugs furnished and advise the patient to consult a physician of the patient's choice.
- Document the kind and amounts of COVID-19 oral therapeutics furnished, as well as any information regarding testing services provided, in the patient's record in the record system maintained by the pharmacy.
- Retain records for 3 years.

2. BPC 4113 – PIC authority to make staffing decisions
   - PIC may make staffing decisions to ensure sufficient personnel are present in the pharmacy to prevent fatigue, distraction, or other conditions that may interfere with a pharmacist's ability to practice competently and safely.
   - If PIC is not available, a pharmacist on duty may adjust staffing according to workload if needed.
   - PIC or pharmacist on duty shall immediately notify the store management of any conditions that present an immediate risk of death, illness, or irreparable harm to patients, personnel, or pharmacy staff. If the conditions are not resolved within 24 hours, the PIC or RPH on duty shall ensure the BOP is timely notified. Conditions that present an immediate risk of death, illness, or irreparable harm to patients, personnel, or pharmacy staff include, but are not limited to:
     - Workplace safety and health hazards that present an immediate risk of death, illness or irreparable harm to patients, personnel, or pharmacy staff.
     - Sustained temperatures that could impact ambient temperature drug stability according to manufacturer data on acceptable drug storage conditions.
     - Vermin infestation that poses a risk to the safety or efficacy of medicine.
3. BPC 4113.1 – Reporting medication errors within 14 days from discovery.
   - Applies to "community pharmacies" – *i.e.*, any pharmacy that dispenses medication to an outpatient (but not including facilities of CDCR).
   - Per the BOP's AB 1286 Implementation Statement, the reporting of medication errors under BPC 4113.1 will not be required until the BOP approves an entity to receive the reports.
4. BPC 4113.6 – Chain community pharmacy subject to BPC 4113.5 must be staffed at all times with at least one clerk or pharmacy technician fully dedicated to performing pharmacy-related services. The BOP will not take action against a pharmacy for violation of this staffing requirement if any of the following conditions apply:
   - RPH on duty waives the requirement in writing during specified hours based on workload need.
   - The pharmacy is open beyond normal business hours (*i.e.*, before 8am, after 7pm). During the hours before 8am and after 7pm, the staffing requirement shall not apply.
   - The pharmacy's prescription volume per day on average is less than 75 prescriptions per day based on the average daily prescription volume for the past calendar year. However, if the pharmacist is also expected to provide additional pharmacy services (such as immunizations or CLIA-waived tests) this exception does not apply.

   When staffing of pharmacist hours within a chain community pharmacy does not overlap sufficiently, scheduled closures for lunch time for all pharmacy staff shall be established and publicly posted, and included on the outgoing telephone message.
5. BPC 4115 – Pharmacy technician may, under the direct supervision and control of a pharmacy, prepare and administer influenza and COVID-19 vaccines via injection or intranasally, prepare and administer epinephrine, perform specimen collection for tests that are CLIA waived, receive prescription transfers, and accept clarification on prescriptions under certain specified conditions.
6. BPC 4231 – CE required for pharmacists to renew their pharmacist license must now include at least one hour of participation in a cultural competency course which meets specified requirements.

Provide explanation below:

In March 1999, I was disciplined by the North Carolina Board of Pharmacy for a violation of 21 NCAC 46.2504 in November 1998. An undercover investigator with the Board presented a prescription and was not offered counseling on that prescription. The pharmacy's procedure at the time of dispensing was that the pharmacy technician would make the offer to counsel on behalf of the pharmacist, but inadequate training on how to make a positive offer to counsel to encourage acceptance resulted in this violation. At a prehearing conference that I attended along with my Pharmacist-Manager and another pharmacist, who were also found in violation, I accepted the Board's disciplinary action as reflected in the attached document. I was involved in restructuring the policy and training provided by the pharmacy and no further violations have occurred. As a result of this incident, I have ensured throughout my career that my patients are appropriately counseled and that policies are in place to ensure a high level of pharmaceutical care. I have not had any other disciplinary actions of any kind since this occurrence.

On March 8, 1999, the North Carolina Board of Pharmacy issued notice to Drugs America, Julie Della-Mea, Jason Foil and Brian Monroe, pursuant to 21 North Carolina Administrative Code 46.2008, which scheduled a pre-hearing conference for March 25, 1999, at the Board office, 104-C Carrboro Plaza, Hwy. 54 Bypass, Carrboro, NC. The pre-hearing conference was scheduled in response to investigative findings suggesting that pharmacists at Drugs America had committed acts in violation of 21 NCAC 46.2504.

On March 25, 1999, the pre-hearing conference was conducted as scheduled. RPh. Della-Mea, Foil and Monroe were present without counsel. RPh. Dwight Ayscue was present for the permit. Present for the Board were Board member Robert Crocker, Director of Investigations Steve Hudson, and Board Investigators Josh Kohler and Lisa Dumire. Investigators Kohler and Dumire presented the investigative findings in this matter. After consideration of those findings and the pharmacist's response, Mr. Crocker proposed the following Finding of Fact, Conclusion of Law, and Disciplinary Action.

FINDING OF FACT

1. Jason Michael Foil (Respondent Foil) was issued license number 14357 by the Board on June 26, 1998. RPh. Brian Douglas Monroe (Respondent Monroe) was issued license number 13972 by the Board on July 1, 1997. Drugs America (Respondent permit) was issued permit number 4945 by the Board on April 5, 1988 and last renewed on December 11, 1998 with RPh. Julie Della-Mea as the RPh. Manager.

2. On November 12, 1998, Respondent Foil dispensed Erythromycin to Investigator Dumire, who was working in an undercover capacity, without making an offer to counsel her about the product.

4. On November 30, 1998, Respondent Monroe dispensed Doxycycline to Investigator Dumire, who was working in an undercover capacity, without making an offer to counsel her about the product.

5. Respondent permit and Respondents Foil and Monroe hereby waive any further Finding of Fact in this matter.

CONCLUSION OF LAW

Respondent permit and Respondents Foil and Monroe admit that they have violated 21 NCAC 46.2504 and that this conduct constitutes sufficient grounds for disciplinary action by the Board under GS 90-85.38 (a), (6), and (7).

Based on the foregoing, and with the consent of Respondents, IT IS THEREFORE THE

ORDER OF THE BOARD

1. That the permit issued to RPh. Julie Della-Mea and Mast Drug Company is hereby suspended for 7 days, which suspension is stayed for a period of two years upon the following conditions:

The State of Ohio Board of Pharmacy encourages all healthcare professionals who may be struggling with substance use disorder or mental health condition to seek help. The following are resources that can assist healthcare professionals in getting help: (the resources listed here are for informational purposes only and do not constitute an endorsement by the State of Ohio Board of Pharmacy. CONSENT ORDER FOR REINSTATEMENT

THIS MATTER comes before the Tennessee Board of Pharmacy upon Respondent's request for the reinstatement of his license to engage in the practice of pharmacy in the State of Tennessee.

Respondent, Kevin Hartman, voluntarily enters into this Consent Order and agrees to the reinstatement terms stipulated herein.

AUTHORITY AND JURISDICTION

Tenn. Code Ann. §63-10-505 states in pertinent part and Rule 1140-8-.01 of the Rules of the Tennessee Board of Pharmacy, which authorize the Board to revoke, suspend, place on probation or refuse to issue or renew any license or registration of a licensee and/or impose civil penalties on a licensee or an individual who is required to be licensed to engage in the practice of pharmacy in the State of Tennessee. The Board may impose civil penalties not to exceed one thousand dollars ($1,000.00) per violation of the applicable law and rules of the State of Tennessee and/or applicable laws of the United States relating to drugs or to the practice of pharmacy. Pursuant to Tenn. Code Ann. §63-10-504(f)(3), the Tennessee Board of Pharmacy also has the authority to reinstate a

licensee's license to engage in the practice of pharmacy in the State of Tennessee after revocation, upon a showing of good cause.

FINDING OF FACT

The Respondent's license to the engage in the practice of pharmacy in the State of Tennessee was revoked by the Respondent signing a Consent Order for the revocation of his license because he was seeking treatment for chemical dependency. At the May 14, 2003 Pharmacy Board meeting, the Respondent sought reinstatement of his Tennessee pharmacy license since he has completed chemical dependency treatment and is currently in the aftercare program with the Tennessee Pharmacists Recovery Network (TPRN).

CONCLUSION OF LAW

Tenn. Code Ann. §63-10-504(f)(3) states in pertinent part as follows: The board has the authority upon a proper showing and for good cause to reinstate any license or certificates revoked by it.

STIPULATED RESOLUTION

1. Respondent does hereby agree to the reinstatement of license number C-~~4947~~ 9071 with the following probationary conditions. Said probation shall remain in effect for a period of five (5) years, from May 14, 2003 to May 14, 2008:

(a) The Respondent shall completely abstain from the consumption of alcohol and controlled substances, except as prescribed by a duly licensed practitioner for a legitimate purpose;

(b) The Respondent shall consume no medications unless they are prescribed by his primary physician, Dr. Lee Tucker, M.D. The Respondent shall immediately notify the Board office of the name of his primary physician each time the Respondent changes primary physicians;

(c) The Respondent shall destroy any unused controlled substances prescribed under the provisions of subsection (b) no later than thirty (30) days following the completion of the prescribed course of treatment;

(d) The Respondent shall report to the Board, in writing, the ingestion of any and all legend drugs or controlled substances (a copy of the prescription will satisfy the requirement);

(e) The Respondent shall be subject to perpetual, random sampling of urine, blood or bodily tissues, at his own expense, by agents of the Board;

(f) Should any sampling indicate the presence of drugs for which the Respondent does not have a valid prescription, a show cause order will be issued to determine why the probation and the Respondent's license should not be immediately revoked;

(g) The Respondent shall comply with all terms and conditions of the extended aftercare contract he entered into with Tennessee Pharmacists Recovery Network. Respondent shall return a copy of said contract with this Consent Order to the Board office;

(h) The Respondent shall not serve as pharmacist-in-charge for a period of three (3) years; however, after a period of two (2) years, the Respondent may petition the Board for a modification of this Consent Order to remove

the restrictions upon a show of good cause. The Respondent shall not work as a "floater" for a period of three (3) years, meaning that the Respondent shall not work at more than one (1) pharmacy location at the same time without the permission of the Board;

(i) The Respondent shall provide written notice requesting an active license, satisfy all past due continuing education and pay all cumulative license renewal fees and any applicable penalties;

(j) The Respondent shall comply with all of the laws of the State of Tennessee and of the United States as they pertain to the practice of pharmacy;

(k) Since the Respondent's license has been inactive for less than one (1) year, the Respondent shall provide the Board with written notice requesting an active license, shall satisfy all past due continuing pharmaceutical education and shall pay all cumulative license renewal fees and any applicable penalties.

1. The presentation of this Consent Order to the Board shall not serve to disqualify any Board members from participating in a contested case hearing or probation revocation hearing should the Respondent fail to abide by the terms of this Consent Order for any reason.

2. The Board shall not seek additional punitive action as a consequence of the violations admitted in the Consent Order revoking the Respondent's license, if the Respondent complies with the terms and conditions of this Consent Order. If the Respondent breaches this Consent Order and/or fails to comply with the terms

and conditions of his probation, then the Board may hold a contested case hearing for the purpose of probation revocation and may seek remedies through the Courts.

3. The Respondent expressly waives the right to a contested case proceeding governed by the Uniform Administrative Procedures Act, Tenn. Code Ann. Title 4, Chapter 5, in order to settle this matter.

4. The Respondent expressly waives all rights to seek judicial review of this Consent Order or to otherwise contest its validity.

5. The Respondent has read and understands this Consent Order and has signed same of his own free will and without duress or coercion.

I entered residential treatment for alcoholism/chemical dependency on November 20, 2002. While in treatment, I voluntarily surrendered my Tennessee pharmacist license (#9071) to the Tennessee Board of Pharmacy. Additionally, while in treatment, I signed a monitoring and advocacy contract with the Tennessee Pharmacists Recovery Network (TPRN). I successfully completed treatment on February 14, 2003. I appeared before the Tennessee Board of Pharmacy requesting license reinstatement on May 14, 2003. My Tennessee pharmacist license was successfully reinstated on May 14, 2003. Since leaving treatment, I have been active in TPRN, initially as a participant, completing my monitoring contract in May of 2008. In 2006 I also became an advocate and peer monitor with TPRN and remain active in TPRN to this day. I continue to attend regular 12 step meetings and have now been sober for over 21 years.

"Red Flags" Checklist for Pharmacies

YOU MIGHT BE A PILL MILL IF...

Check all that apply:

	(1) Your pharmacy fills a discernable pattern of prescriptions for prescribers who write essentially the same prescriptions for numerous persons, indicating a lack of individual drug therapy
	(2) Your pharmacy operates with limited hours of operation or closes after a certain threshold of controlled substance prescriptions are dispensed, and has overall low prescription dispensing volume.
	(3) Prescriptions presented to the pharmacy are for controlled substances with popularity as street drugs, such as opiates, benzodiazepines, muscle relaxants, psychostimulants, and/or cough syrups, or any combination of these drugs.
	(4) The prescriptions for controlled substances contain nonspecific or no diagnoses.
	(5) The prescriptions are commonly for the highest strength of the drug and/or for large quantities.
	(6) Dangerous drugs or OTC products (such as multi-vitamins or laxatives) are added to the controlled substance prescriptions, maintaining relatively consistent 1:1 ratio of controlled substances to dangerous drugs and/or OTC products dispensed as prescriptions.
	(7) Prescriptions are authorized by the same prescriber with what appears to be different handwriting on the hardcopy prescription drug order forms.
	(8) Upon contact with the prescriber's office, you are unable to engage in comprehensive discussion with the actual prescriber, or he/she is unconcerned about your apprehensions regarding his/her prescribing practices or unwilling to provide additional information, such as treatment goals and/or prognosis with prescribed drug therapy.
	(9) You rely solely on the prescriber's representation, or on the representation of the individual answering the phone at the number on the prescription, that prescriptions are legitimate.
	(10) The prescriber's clinic is not registered as a pain management clinic by the Texas Medical Board, despite routinely receiving prescriptions from the prescriber foropiates, benzodiazepines, and/or muscle relaxants.
	(11) Drugs prescribed are inconsistent with the prescriber's area of practice.
	(12) The prescriber of the drugs is located a significant distance from your pharmacy.
	(13) The prescriber has been subject to disciplinary action by the licensing board, had his/her DEA registration removed, or been subject to criminal action.
	(14) The Texas PMP system indicates that persons are obtaining prescriptions for the same drugs from multiple prescribers or that persons are filling prescriptions for the same drugs at multiple pharmacies.
	(15) The person's address is a significant distance from your pharmacy and/or from the prescriber's office.
	(16) Multiple persons with the same address present prescriptions from the same prescriber.
	(17) Persons pay with cash or credit card more often than through insurance.
	(18) Persons presenting controlled substance prescriptions are doing so in such a manner that varies from seeking routine pharmacy services (e.g., willing to wait in long lines to receive drugs, persons arrive in the same vehicle with prescriptions from same prescriber, one person presents to pick up prescriptions for multiple others, persons refer to drugs by "street names" and/or comment on drug's color, persons seek early refills, persons travel from outside reasonable trade area of pharmacy).
	(19) Your pharmacy charges and persons are willing to pay more for controlled substances than they would at nearby pharmacies.
	(20) Your pharmacy routinely orders controlled substances from more than one drug supplier, or your pharmacy has been discontinued by a drug supplier related to controlled substance orders.
	(21) Sporadic and non-consistent dispensing volume (including zero dispensing) varies from day to day and week to week, and your pharmacy does not maintain operational hours each week on Monday through Friday.
	(22) Your pharmacy employs or contracts security personnel during operational hours to prevent problems.
	(23) Your pharmacy has been previously warned or disciplined by the Texas State Board of Pharmacy for inappropriate dispensing of controlled substances (i.e., corresponding responsibility).

If you checked any of the above items, you should review the laws and rules regarding corresponding responsibility and non-therapeutic dispensing, especially Board rule §291.29, in the law book or on our website: www.pharmacy.texas.gov (click on Texas Pharmacy Rules and Laws). Additional educational material is available at: http://www.pharmacy.texas.gov/Nontherapeutic.asp. Failure of pharmacies and pharmacists to detect patterns of inappropriate dispensing of prescription drugs is unprofessional practice and constitutes grounds for disciplinary action.

Respondent Samuel Yu Ph.D. FNP APRN ("Respondent Yu"), in answer to the Notice of Intended Action and Accusation filed in the above-entitled matter before the Nevada State Board of Pharmacy, declares:

1. That his objection to the Notice of Intended Action and Accusation as being incomplete or failing to state clearly the charges against him, is hereby interposed on the following grounds:

   a. Respondent Yu was hired as a medical director in May 2022. As stated in the Medical Director Agreement dated May 5, 2022, one of Respondent Yu's stated duties were to perform remote telehealth services to consult with patients utilizing electronic video communication. As such, he did not physically work inside the clinic located at 68750 W Spring Mountain Rd #102, Las Vegas, Nevada 89146 prior to the June 23, 2022, inspection, but only worked remotely.

b. Respondent Yu was unaware of this Nevada requirement to keep the dangerous drugs independently inaccessible to RNs until the Board inspection of the facility on June 23, 2022.

c. After the Board's inspection on June 23, 2022, when Respondent Yu first became aware of Nevada's locked access requirements, he immediately took steps to ensure that all dangerous drugs were kept in locked storage that only he had access to, that no one could independently access, and he prepared written protocols and guidelines to be followed.

d. Respondent Yu did not authorize the purchase of illegal drugs from non-US entities; this was put into practice by the medical director Mee Han ("Han"), who convinced the owner, Lee, that these practices were legal, when in fact they were not.

e. Respondent Yu was unaware Opus Face and Body ("Opus") was using or purchasing illegal drugs, the owner was also unaware of it because she relied upon Mee Han for this information. Because Respondent Yu was operating remotely as the medical director from May 5, 2022 until June 23, 2022, he was unaware of any of this illegal activity until June 23, 2022, at which time the use of these items ceased.

f. Opus was closed permanently after the June 23, 20222 incident, so no more Opus medical spa business has been operating since then.

g. The accusations fail to distinguish between the actions or inactions of Respondent Yu and Respondent Han, making the accusations appear that Respondent Yu consented to and participated equally and/or jointly in

continuation or furtherance of the illegal and/or improper activities with the prior medical director, Respondent Mee Han.

h. The accusation is incomplete in that it fails to enumerate the things Respondent Yu did after learning about Nevada requirements on June 23, 2022, and the illegal activities of former medical director Han.

2. That, in answer to the Notice of Intended Action and Accusation, he admits, denies and alleges as follows:

a. Respondent Yu admits paragraph 1.

b. As to paragraph 2, Respondent Yu does not know the commencement of Han's tenure as medical director therefore denies this part; Respondent Yu admits that Han's tenure continued through May 26, 2022; Respondent Yu and admits that his appointment as medical director was effective on May 5, 2022, and overlapped Han's tenure;

c. Respondent Yu admits this occurred until June 23, 2022. Respondent Yu denies this continued to occur after that date.

d. As to paragraph 3, Respondent Yu admits the allegations occurred until June 23, 2022.

e. As to paragraph 4, Respondent Yu denies all allegations contained therein as to himself, except he admits the RNs had independent access to the dangerous drugs set forth therein until June 23, 2022.

f. As to paragraph 5, Respondent Yu admits that these allegations, up to June 23, 2022.

g. Respondent Yu admits paragraph 6, and also states that Opus has been is permanently closed.

h. As to paragraphs 7 through 16, Respondent Yu does not dispute the express wording of the United States Code ("U.S.C."), the Nevada Revised Statutes ("NRS"), or the Nevada Administrative Code ("NAC") as set forth in these paragraphs but is without sufficient legal knowledge to comment as to their interpretation or application as set forth in this Notice of Intended Action and Accusation, therefore must deny to that extent, and will rely on his attorney for counsel and advice.

i. Respondent Yu denies intentionally or knowingly committing any violations of State or Federal law set forth in paragraphs 17 through 21.

I hereby declare, under penalty of perjury, that the foregoing Answer and Notice of Defense, and all facts therein stated, are true and correct to the best of my knowledge.

Upon successful completion of probation, Respondent's Certificate of Registration No. CS22622 will be fully restored.

11. Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may lift the stay and immediately suspend Respondent's Certificate of Registration No. CS22622 and impose additional discipline upon Respondent not inconsistent with the provisions of NRS Chapters 453 and 639.

12. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on January 15, 2025. FACTUAL ALLEGATIONS

Respondent Safe Chain Solutions, LLC, by and through its counsel William J. Stilling, of and for Stilling & Harrison, PLLC, files this Amended Answer and Notice of Defense.

REQUEST FOR HEARING

Respondent requests a hearing on the Notice.

RESPONSES TO ALLEGATIONS AND CAUSES OF ACTION

In answer to the Notice of Intended Action and Accusation, Respondent admits, denies, and alleges as follows. Each reference to a "paragraph" is reference to a paragraph in the Notice.

JURISDICTION

1. Respondent admits the allegations in paragraph 1. Safe Chain is a wholesale pharmaceutical distributor established in 2011 with its headquarters in Cambridge, MD. Safe

Chain provides a wide range of pharmaceuticals and health care products to a diverse network of healthcare facilities nationwide including hospitals, clinics, and surgical centers.

FACTUAL ALLEGATIONS

2. Respondent denies the allegations in paragraph 2.

3. Respondent denies the allegations in paragraph 3. Respondent has never falsified any documents and more specifically has never falsified any documents for products shipped into Nevada.

4. Respondent admits that the FDA issued a warning letter on June 8, 2023, and that the document speaks for itself. Respondent does not admit to observations and statements in the warning letter. A warning letter is not a final action and the assertions in a warning letter are not legally binding conclusions. On June 23, 2023, Safe Chain filed a response to the FDA Warning Letter providing an explanation for each of the observations. Fifteen months later, from September 9 through 11, 2024, the FDA inspected Safe Chain's Maryland facility with a focus on Safe Chain's compliance with the observations raised in the Warning Letter and particularly with verification of trading partners and procedures related to identification of suspect or illegitimate products. At the end of the inspection, the FDA did not communicate any observations of violations to Safe Chain personnel and did not issue an FDA 483 Form.[1] In a conversation between Safe Chain and FDA personnel, FDA personnel explained that it would be issuing a close-out letter. A close-out letter may issue when, based on FDA's evaluation, a company has taken corrective action to address the observations or alleged violations contained in a warning letter.

---

[1] An FDA Form 483 is issued to firm management at the conclusion of an inspection when an investigator(s) has observed any conditions that in their judgment may constitute violations of the Food Drug and Cosmetic (FD&C) Act and related Acts. *See* FDA Form 483 Frequently Asked Questions at https://www.fda.gov/inspections-compliance-enforcement-and-criminal-investigations/inspection-references/fda-form-483-frequently-asked-questions.

5. Without admitting to the statements in the September 30, 2024, Cease & Desist letter, Respondent admits the allegations in paragraph 5. Respondent had previously ceased shipping all Gilead Sciences, Inc. ("Gilead") products as of July 2021. Respondent remains in compliance with the Cease & Desist letter.

Rather, the FDA inspected Safe Chain's Maryland facility September 9 through 11, 2024 with a focus on compliance with provisions of the Food Drug and Cosmetic Act sections referenced in paragraph 4 of the Notice and the FDA did not inform Safe Chain of any observations of violations via an FDA Form 483 or otherwise. Moreover, Nevada has never conducted an inspection of Safe Chain's facility.

22. The Notice fails to plead the specific acts of fraud or deceit with the specificity necessary to defend the allegations.

SETTLEMENT AGREEMENT

The Investigative Committee (IC) of the Nevada State Board of Medical Examiners (Board), by and through Alexander J. Hinman, Deputy General Counsel for the Board and attorney for the IC, and John Timothy Katzen, M.D. (Respondent), a licensed physician in Nevada, hereby enter into this Settlement Agreement (Agreement) based on the following:[1]

A. BACKGROUND

1. Respondent is a medical doctor currently licensed in active status by the Board pursuant to Chapter 630 of the Nevada Revised Statutes (NRS) and Chapter 630 of the Nevada Administrative Code (NAC) (collectively, the Medical Practice Act) to practice medicine in Nevada. His license was originally issued on June 23, 2014 (License No. 15386).

2. On June 28, 2024, in Case No. 24-34676-1, the IC filed a formal Complaint (Complaint) charging Respondent with violating the Medical Practice Act. Specifically, the Complaint alleges one (1) violation of NRS 630.301(3), Disciplinary Action by Another Licensing Board (Count I). By reason of the foregoing, Respondent is subject to discipline by the Board as provided in NRS 630.352.

/ / /

[1] All agreements and admissions made by Respondent are solely for final disposition of this matter and any subsequent related administrative proceedings or civil litigation involving the Board and Respondent. 3. Respondent was properly served with a copy of this Complaint, has reviewed and understands this Complaint, and has had the opportunity to consult with competent counsel concerning the nature and significance of this Complaint.

4. Respondent is hereby advised of his rights regarding this administrative matter, and of his opportunity to defend against the allegations in the Complaint. Specifically, Respondent has certain rights in this administrative matter as set out by the United States Constitution, the Nevada Constitution, the Medical Practice Act, the Nevada Open Meeting Law (OML), which is contained in NRS Chapter 241, and the Nevada Administrative Procedure Act (APA), which is contained in NRS Chapter 233B and 622A. These rights include the right to a formal hearing on the allegations in the Complaint, the right to representation by counsel, at his own expense, in the preparation and presentation of his defense, the right to confront and cross-examine the witnesses and evidence against him, the right to written findings of fact, conclusions of law and order reflecting the final decision of the Board, and the right to judicial review of the Board's order, if the decision is adverse to him.

5. Respondent understands that, under the Board's charge to protect the public by regulating the practice of medicine, the Board may take disciplinary action against Respondent's license, including license probation, license suspension, license revocation and imposition of administrative fines, as well as any other reasonable requirement or limitation, if the Board concludes that Respondent violated one or more provisions of the Medical Practice Act.

6. Respondent understands and agrees that this Agreement, by and between Respondent and the IC, is not with the Board, and that the IC will present this Agreement to the Board for consideration in open session at a duly noticed and scheduled meeting. Respondent understands that the IC shall advocate for the Board's approval of this Agreement, but that the Board has the right to decide in its own discretion whether or not to approve this Agreement. Respondent further understands and agrees that if the Board approves this Agreement, then the terms and conditions enumerated below shall be binding and enforceable upon him and the Board.

e. This Agreement shall be reported to the appropriate entities and parties as required by law, including, but not limited to, the National Practitioner Data Bank.

12. **Failure to Comply with Terms**. Should Respondent fail to comply with any term or condition of this Agreement once the Agreement has been accepted, approved and adopted by the Board, the IC shall be authorized to immediately suspend Respondent's license to practice medicine in Nevada pending an Order to Show Cause Hearing, which will be duly noticed. Failure to comply with the terms of this Agreement, including failure to pay any fines, costs, expenses or fees owed to the Board, is a failure to comply with an order of the Board, which may result in additional disciplinary action being taken against Respondent. NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **JOHN T. KATZEN, MD,** **Certificate of Registration No. CS24228,** **Respondent.**	**CASE NO. 24-389-CS-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300 and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter because, at the time of the events alleged herein, Respondent John T. Katzen, MD, held a Nevada controlled substance registration, Certificate of Registration No. CS24228, issued by the Board.

FACTUAL ALLEGATIONS

2. On or about September 13, 2024, Respondent surrendered his License No. 15386 to practice medicine to the Nevada State Board of Medical Examiners (NSBME) pursuant to a settlement agreement in Case No. 24-34676-1.

3. On or about September 25, 2024, Board staff served Respondent with notice that the surrender of his NSBME License No. 15386 to practice medicine operated as an immediate suspension of his Certificate of Registration No. CS24228 with the Board pursuant to NRS 639.2107, and that Respondent must immediately cease and desist possessing, administering and/or prescribing controlled substances for Nevada patients.

APPLICABLE LAW

4. A practitioner must hold a license to practice his or her profession in this State and be registered with both the DEA and the Board to possess, administer, prescribe and/or otherwise dispense any controlled substance. 21 U.S.C. § 822(a)(2); 21 U.S.C. § 823(f); 21 CFR § 1306.03(a)(1); NRS 453.226(1); NRS 453.321(1)(a); NRS 639.100(1); NRS 639.235(1).

6. The surrender, revocation or a suspension that has not been stayed of any certificate, license or registration of a practitioner, as defined in NRS 453.126, NRS 454.00958 or NRS 639.0125, by a licensing board or the Drug Enforcement Administration operates as an immediate suspension of a certificate, license, registration or permit issued by the Board pursuant to NRS chapters 453, 454 or 639 to possess, administer, prescribe or dispense drugs. NRS 639.2107.

7. The pre-hearing suspension of any certificate, license or registration of a practitioner pursuant to NRS 233B.127(3), NRS 453.241(3) and/or NRS 639.2107 is subject to review by the Board. *Barry v. COUNT ONE
Surrender of NSBME License for Cause

COUNT TWO

Commission of Acts that Render Registration Inconsistent with the Public Interest

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of this respondent.

6. **Release From Liability**. In execution of this Agreement, Respondent understands and agrees that the State of Nevada, the Board, and each of its members, staff, counsel, investigators, experts, peer reviewers, committees, panels, hearing officers, consultants and agents are immune from civil liability for any decision or action taken in good faith in response to information acquired by the Board. NRS 630.364(2)(a). ORDER OF SUSPENSION AND NOTICE OF HEARING

The Investigative Committee[1] (IC) of the Nevada State Board of Medical Examiners (Board) hereby **IMMEDIATELY SUSPENDS** the license of Jon L. Siems, M.D. (Respondent) from the practice of medicine, pursuant to the Board's authority to regulate the practice of medicine in the State of Nevada pursuant to Nevada Revised Statutes (NRS) Chapter 630.

The IC issues this Order of Suspension (Order) based on its determination that Respondent violated a Board Order when he did not satisfy all of the conditions contained in the Settlement Agreement he entered into with the IC on November 29, 2021, and which was approved by the Board on December 3, 2021.

Prior to the preparation of this Order, Board Staff presented to the IC the following:

1. Respondent is a medical doctor licensed to practice medicine in the State of Nevada (License No. 9250). The Board issued his license on December 20, 1999.

2. On November 29, 2021, Respondent entered into a Settlement Agreeement with the IC and the Board approved the agreement on December 3, 2021. *See* **Exhibit 1** (Settlement Agreement and Order).

3. Notably, two (2) of the conditions contained in the Settlement Agreement were for Respondent, Dr. Siems, to unequivocally complete twenty (20) hours of Continued Medical Education (CME) and to complete the Physician Assessment and Clinical Education Program (PACE) within one (1) year of the Board's acceptance, adoption, and approval of the Agreement. The Settlement Agreement was approved and adopted on December 3, 2021, requiring completion of the terms on or before December 3, 2022.

4. Pursuant to the Settlement Agreement and Order, Respondent agreed that his license was suspended, but that the suspension was immediately stayed, thereby subjecting his license to a sixty (60) month term of probation with conditions for continuing the stay of the suspension.

5. As of the writing of this Order on December 27, 2022, Board staff has received no notification that Respondent has enrolled in nor completed either his CMEs or the PACE Program as required by the Settlement Agreement and Order as a condition to continue the stay of the suspension of his license.

6. NRS 630.3065(2)(a) states in pertinent part that [e]xcept as otherwise provided in NRS 630.2672, knowingly or willfully failing to comply with: (a) [a] regulation, subpoena or order of the Board or a committee designated by the Board to investigate a complaint against a physician, constitutes grounds for initiating disciplinary action.

7. Based on the foregoing, the IC finds that Respondent, Jon L. Siems, M.D., has willfully and knowingly violated his Settlement Agreement and Board Order and is immediately suspended from the practice of medicine in the State of Nevada. *See* NRS 630.326(1).

ORDER

IT IS HEREBY ORDERED that the License of Jon L. Siems, M.D. (9250) is immediately **SUSPENDED** until further order of the IC or Board, and Respondent is prohibited from engaging in any acts that constitute the practice of medicine pursuant to NRS 630.020; and

ORDER OF SUSPENSION AND NOTICE OF HEARING

The Investigative Committee[1] (IC) of the Nevada State Board of Medical Examiners (Board) hereby **IMMEDIATELY SUSPENDS** the license of Jon Lane Siems, M.D. (Respondent) from the practice of medicine, pursuant to the Board's authority to regulate the practice of medicine in the State of Nevada pursuant to Nevada Revised Statutes (NRS) Chapter 630.

The IC issues this Order of Suspension (Order) based on its determination that Respondent violated a Board Order when he did not satisfy all of the conditions contained in the discipline issued by the Board after adjudication at the Board meeting on December 1, 2023. *See* **Exhibit 1**.

Prior to the preparation of this Order, Board Staff presented to the IC the following:

1. Respondent is a medical doctor licensed to practice medicine in the State of Nevada (License No. 9250). The Board issued his license on December 20, 1999.

2. On December 27, 2022, in Case No. 19-13009-2, the IC suspended Respondent's license to practice medicine in the State of Nevada pending a show cause hearing regarding the subject of that summary suspension via an Order of Summary Suspension.

3. On January 30, 2023, the IC filed a formal Complaint against Respondent in Case No. 23-13009-1 which facts relate directly back to an Order issued in Case No. 19-13009-2.

4. On February 2, 2023, a show cause hearing was held regarding Respondent's suspension.

5. After attempts to serve Respondent with the formal Complaint on a previous date, Respondent was served with the formal Complaint in Case 23-13009-1 on March 3, 2023.

6. On April 13, 2023, a formal hearing was held in Case No. 23-13009-1.

7. On December 1, 2023, the Board adjudicated the matter and found that Respondent did indeed violate the single count of Knowing or Willful Failure to Comply with a Board Order, as provided by NRS 630.3065(2)(a), and imposed discipline.

8. The discipline the Board imposed was a written public reprimand, that Respondent's license be suspended for a period of one (1) year from December 28, 2022 to December 27, 2023, and on December 28, 2023, Respondent's license status shall be reinstated to an active-probation status; Respondent shall complete the University of San Diego Physician Assessment and Competency Evaluation Program (PACE), Competency Assessment, or substantially similar assessment by another entity approved by the Board within six (6) months of issuance of the Order; that any continuing medical education received for attending the program shall be in addition to the requirements that are regularly imposed upon Respondent as a condition of licensure in the State of Nevada pursuant to NAC 630.153(1); and Respondent was required to reimburse the Board the reasonable and necessary costs and expenses actually incurred in the investigation and prosecution of this case in the amount of seven thousand four hundred and ninety-nine dollars, and twenty cents ($7,499.20) within six (6) months of service of the Order.

9. Respondent received a deadline of June 1, 2024, to pay the fines and costs in Case No. 23-13009-1.

10. Johnna LaRue, CMBI, Compliance Officer for the Board sent Respondent a letter dated December 19, 2023, containing helpful instructions and deadlines to assist Respondent in complying with the Board Order. *See* **Exhibit 2**.

11. As of today's date, Respondent has not paid the costs in the amount of seven thousand four hundred and ninety-nine dollars, and twenty cents ($7,499.20) and is therefore in violation of the Board's Order.

12. NRS 630.3065(2)(a) states in pertinent part that [e]xcept as otherwise provided in NRS 630.2672, knowingly or willfully failing to comply with: (a) [a] regulation, subpoena or order of the Board or a committee designated by the Board to investigate a complaint against a physician, constitutes grounds for initiating disciplinary action.

13. Based on the foregoing, the IC finds that Respondent has willfully and knowingly violated the Board Order and is immediately suspended from the practice of medicine in the State of Nevada. *See* NRS 630.326(1).

ORDER

IT IS HEREBY ORDERED that the License of Jon Lane Siems, M.D. (9250) is immediately **SUSPENDED** until further order of the IC or Board, and Respondent is prohibited from engaging in any acts that constitute the practice of medicine pursuant to NRS 630.020; and

IT IS FURTHER ORDERED that a hearing on this matter is set for the **18th day of October, 2024, at 9:00 a.m.,** at the Board's office located at 9600 Gateway Drive, Reno, Nevada 89521, with video conferencing to the Las Vegas office at 325 E. Respondent was served this Order via USPS Certified Mail on March 6, 2023, at his address of record.

IV.

On April 13, 2023, as duly noticed and ordered, a hearing was held before the Hearing Officer to receive evidence and to hear arguments of both parties. Legal counsel for the Investigative Committee, Donald K. White, Senior Deputy General Counsel appeared, along with Respondent, without legal counsel, and Hearing Officer Charles Woodman, Esq. In the Matter of Charges and Complaint Against JON L. SIEMS, M.D., Respondent.	Case No.: 23-13009-1 (Case No.:19-13009-2)

SYNOPSIS AND ANALYSIS OF THE RECORD

Hearing Officer Charles B. Woodman, having heard a formal pre-hearing conference, as well as the formal Hearing of this matter, hereby presents the Nevada State Board of Medical Examiners with his formal Analysis of this case. This Analysis is based upon all evidence adduced at the formal Hearing, this Hearing Officer's findings of facts and conclusions of law, which findings include the credibility of the witnesses who gave evidence.

RELEVANT BACKGROUND

This is a combined case as shown in the caption, whereby the Investigative Committee ("IC") of the Board of Medical Examiners of the State of Nevada ("Board") alleged that Dr. Jon Lane Siems, M.D., ("Dr. Siems") failed to comply with the Settlement Agreement he entered into as resolution to Board Case 19-13009-2. The final page of that Settlement Agreement contains the Board's order mandating compliance with the Agreement. A duly noticed formal hearing of the matter was held before the undersigned Hearing Officer on April 13, 2023 at the Northern Nevada office of the Board in Reno. Mr. Donald K. White, Esq., Senior Deputy General Counsel appeared on behalf of the Board's IC. Dr. Siems appeared via videoconference from the Board's Southern Nevada office representing himself in pro se. The matter was duly recorded by a licensed reporter and is a matter of public record.

The formal Complaint in Board Case 23-13009-1 alleges a single count of Knowing or Willful Failure to Comply with a Board Order, a violation of NRS 630.3065(2)(a), which states that:

> The following acts, among others, constitute grounds for initiating disciplinary action or denying licensure:
> * * *
> 2. Except as otherwise provided in NRS 630.2672, knowingly or willfully failing to comply with:
> (a) A regulation, subpoena or order of the Board or a committee designated by the Board to investigate a complaint against a physician;

More specifically, the IC alleges at paragraphs 8-9 of the Complaint that:

> 8. Respondent [Dr. Siems] knowingly or willfully failed to comply with an order of the Board when he failed to complete 20 hours of CMEs or the PACE Program by or within the deadline he agree to with the Board [in Case 19-13009-2].
> 9. Additionally, the Settlement Agreement [in Case 19-13009-2] that Respondent signed and was subsequently approved by the Board clearly states that Respondent agreed to be placed on stayed suspension and that if he violated any terms of the agreement that the IC shall be authorized to immediately suspend Respondent's license to practice medicine in Nevada pending an Order to Show Cause hearing.

Accordingly, the two cases are inextricably linked inasmuch as Dr. Siems' alleged violation of the Order at the final page of the Settlement Agreement entered into in Case 19-13009-2 makes up the entirety of the basis for Case 23-13009-1. Further, it appears that the Board may determine to take formal action in both such cases.

At commencement of the formal Hearing of this matter, Dr. Siems was again advised of his right to be represented by counsel, as this Hearing Officer has so advised him in prior proceedings. The Hearing proceeded with Dr. Siems electing to represent himself. See Transcript at page 5 ("T.5").

It is noted very significantly here that the Board has already determined that Dr. Siems "willfully and knowingly violated his Settlement Agreement" via the Board's Order of Suspension And Notice of Hearing filed December 27, 2022. That Order was issued summarily based on evidence proffered by the IC. A duly noticed formal Order to Show

Cause hearing to determine whether that summary suspension should continue was heard before the undersigned on February 2, 2023, with Dr. Siems in attendance, also representing himself at that time. After that hearing and in light of evidence provided by the IC and by Dr. Siems, this Hearing Officer confirmed the suspension pending further decisions by the Board and pending adjudication of the new complaint in Case 23-13009-1. The April 13 hearing was held to formally adjudicate Case 23-13009-1. At the hearing, the IC's burden was to prove by a preponderance of the evidence that Dr. Siems committed the violation alleged in the Complaint in Case 23-13009-1, i.e. that he knowingly or willingly failed to comply with the Board's order confirming his Settlement Agreement.

THE EVIDENCE

The evidence adduced at the April 13 hearing is summarized as follows (bold and italics are inserted by the Hearing Officer):

The IC's Deputy Chief of Investigations and Compliance Officer Johnna LaRue testified that:

Following the Board's approval of the Settlement Agreement entered into between Dr. Siems and the IC, Ms. LaRue mailed notice of the Board's decision to Dr. Siems' then counsel on December 14, 2021. T.15-17;

Ms. LaRue's letter, including a copy of the Settlement Agreement, disclosed the specific requirements with which Dr. Siems would have to comply to meet his obligations under the Settlement Agreement, and the fact that he would have one year from the date of the Board hearing to so comply, which would allow Dr. Siems until December 3, 2022 to meet all the conditions outlined in the Settlement Agreement, and required by the Board's Order thereon. T.18-20;

Receipt of Ms. LaRue's letter containing the Settlement Agreement and Board Order by Dr. Siems' then counsel[1] was confirmed via documentary evidence showing that it was received on December 18, 2021. T.21-22, 26, IC Exhibit 4;

[1] As noted, Dr. Siems was not represented by counsel at the formal Hearing in Case 19-13009-2. However, he retained counsel after the Hearing which culminated in execution of the Settlement Agreement.

Dr. Siems and his counsel both signed the Settlement Agreement. T.28;

Via a November 18, 2022 email to the IC's counsel Mr. White, Dr. Siems' counsel advised Mr. White that he was no longer representing Dr. Siems. T.29-30;

At no time did Dr. Siems' counsel or any other person ever contact Ms. LaRue or anyone else at the Board to request an extension of time for Dr. Siems to complete his requirements under the Settlement Agreement. T.31-33;

Extensions of time to comply with settlement agreement conditions are routinely given under reasonable circumstances. T.33-34;

Dr. Siems did not complete all his CMEs required by the Settlement Agreement within the mandated one-year period, nor did he complete the PACE program. T.34-35. Rather, the last required CMEs were completed within a few days following the February 2, 2023 hearing on the license suspension, (which would have been approximately two months late) . T.35;

Dr. Siems pressed Ms. LaRue on whether the Board should have required him (Dr. Siems) to complete the PACE program when he discovered that the program could not accommodate him. However, Ms. LaRue responded by saying that the Board would have amended the Settlement Agreement had Dr. Siems contacted the Board within the one-year period to advise that PACE could not accommodate him. T.38-43;

In response to Dr. Siems raising the issue of possibly not receiving a copy of the Settlement Agreement from his counsel, Ms. LaRue advised that she had worked a number of times in the past with the same attorney who represented Dr. Siems, and she has never had any issues with practitioners not receiving documents from that attorney. T.45-46;

Had the IC known at any time prior to expiration of his one-year timeline that the PACE program could not presently accommodate Dr. Siems, arrangements would have been made to take the matter back to the Board to alter the terms of the Settlement Agreement. T.47-48;

Dr. Siems recognized a copy of the Settlement Agreement and acknowledged that he signed it. T.51-52;

Dr. Siems acknowledged that he knew his deadline for complying with the terms of the Settlement Agreement was December 3, 2022. T.54;

At some time during December, 2022, Dr. Siems had his manager Isabella call the IC to provide an update on his process of complying with the Settlement Agreement, but not to request an extension of time. T.55-56;

Dr. Siems confirmed that while he does not recall receiving the IC's letter via his counsel following the approval of the Settlement Agreement, that does not mean that he does not remember the "settlement demands." "That's not my claim. I was aware of what the settlement demands were." On questioning by Mr. White, Dr. Siems acknowledged he was aware of the settlement demands as of the date he signed the document, i.e. November 24, 2021. T.57;

Email correspondence between Dr. Siems and the PACE program showed that Dr. Siems was not yet enrolled with PACE as of December 20, 2022, as his outstanding balance due for participation was $10,000.00. The balance due check was dated December 30, 2022, three days after service of the suspension order. T.61, 63-65, Respondent's Exhibits p.0003, 00095;

The first time that Dr. Siems, or his office personnel, contacted the PACE program was October 31, 2022 (or approximately 33 days prior to the compliance deadline in the Settlement Agreement). T.63;

When asked directly if he complied with the terms of the Settlement Agreement, Dr. Siems answered "No." T.65;

Dr. Siems was advised that he had the opportunity to present a defense case, but as the Board and its IC have the burden of proof, he (Dr. Siems) had no obligation to do so. Dr. Siems chose to provide a defense case. T.67-68;

Beginning at page 75 of the transcript, Dr. Siems provided a quite thorough history of some highly traumatic personal crises which began happening in his life in November, 2022, i.e. approximately one month or less before the December 3, 2022 deadline for complying with the Settlement Agreement. Those circumstances include a November 22, 2022 trip to Europe for approximately two weeks due to family medical emergencies,

ongoing emergent care of a young man that Dr. Siems refers to as his step-son upon return to the United States from Europe, and the necessity of a restraining order on December 23, 2022. The undersigned Hearing Officer declines to include details of those matters here to protect the privacy of Dr. Siems' and his family members. Suffice it to say that circumstances involving the mother of his children, and the young man whom Dr. Siems refers to as his step-son, were in crisis stage, which, according to sworn testimony, were physically and emotionally consuming. T.75-141;

Dr. Siems received a letter from the PACE program advising that the program could not accommodate Dr. Siems. That letter was dated April 6, 2023. T.82, Respondent's Exhibits p.0147;

Dr. Siems believes it is the Board's responsibility to determine whether or not the PACE program could accommodate him. Dr. Siems does not feel it is his responsibility to make that determination. T.84;

Dr. Siems testified that he waited four months, i.e. until the PACE program letter of April 6, 2023, to discover / confirm that PACE could not accommodate him. T.89;

Dr. Siems asked his witness Amel Youssef, O.D., if the trauma they jointly experienced because of her son's medical emergencies could distract a person "enough that mundane parts of life, perhaps, were ignored and made oblivious?" She testified in the affirmative. T.114-115;

ANALYSIS

This Hearing Officer did not find any witness who testified at the hearing to have credibility issues. While the witnesses called by Dr. Siems could be argued to be self-serving, those witnesses presented as genuine and factual. This Hearing Officer takes their testimony, along with all of that elicited by the IC, at full face value.

Dr. Siems executed the Settlement Agreement on November 24, 2021. He soon thereafter learned that pursuant to an Order of the Board, he had until December 3, 2022, to complete the conditions of his resolution. He first contacted the PACE program on October 31, 2022, one month and three days before his deadline for full completion of all conditions. That deadline came and went without Dr. Siems handling his CME or PACE

obligations. On December 27, 2022, Dr. Siems' license was summarily suspended for his failure to comply with the conditions of the Settlement Agreement. A formal noticed hearing confirming the suspension was held February 2, 2023. It was after that hearing that Dr. Siems completed his CME requirements, which was more than two months out of compliance. Dr. Siems received a letter confirming that the PACE program could not accommodate him on or after April 6, 2023, just a week prior to the formal Hearing on the Complaint alleging his failure to comply. And while Dr. Siems had his office manager contact the IC with a status update on his compliance at some time in December, 2022, (most likely after his December 3 deadline), at no time – either before or after the deadline - did Dr. Siems or his staff ever request additional time to complete his requirements under the Settlement Agreement.

Dr. Siems offered what is genuinely a compassion-evoking explanation of a series of unfortunate and even tragic events in his life - not the results of his doing - and which no doubt required a great deal of his time and attention. The evidence is clear that he responded well to loved ones in need. His actions were indeed admirable.

Unfortunately, Dr. Siems' defense is measured against three harsh realities. First, as he readily acknowledged, Dr. Siems failed to comply with the terms of his Settlement Agreement and the Board's Order mandating such. Second, Dr. Siems made no contact with the PACE program till he was only thirty-three days away from his deadline. Third, Dr. Siems did not reach out to the IC until after his deadline passed, and even when he had his office manager call, it was to provide a status update and not to seek additional time to comply. Further, it is apparent from the record that the great majority of the challenges that occurred in Dr. Siems' personal life arose either just prior to his compliance deadline – and some even occurred thereafter (such as the necessity of obtaining a restraining order).

Dr. Siems also offers as part of his defense that it should have been the Board's responsibility to ensure that the PACE program could accommodate his area of specialty / expertise before including such in the Settlement Agreement. While not fully articulated in the record, it appears to the Hearing Officer that those involved in crafting the Settlement Agreement had ample cause to believe based on past experience that the PACE program

could serve a physician of Dr. Siems' specialty. It is also apparent from the record that Covid-19 had impacted the ability of the PACE program to accommodate some specialties. Accordingly, the Hearing Officer does not recognize a basis to leave upon the Board sole responsibility for the potential availability of the PACE program to function for Dr. Siems. As stated repeatedly by the IC's counsel Mr. White, had Dr. Siems not waited 333 days to initiate contact with PACE, this case could have been quite different. Ms. LaRue made sufficiently clear that timely notice of any deficiency in the ability of the PACE program to serve in this case would have allowed the Board to amend its requirements. Finally, there is the logical reality that the party on the hook, i.e. the one with his licensure at stake, ought to engage in sufficient due diligence to ensure he is doing all that is required to preserve his valuable practice. Dr. Siems offered no explanation as to why he did not reach out to PACE until October 31, 2022, or why he did not complete his CMEs from the time he signed the Settlement Agreement in November, 2021, until his personal challenges arose in late November 2022. Finally, it must be recognized that Dr. Siems' counsel – who was an extension of Dr. Siems, participated in the negotiating and crafting of the Settlement Agreement. And it was Dr. Siems who executed that Agreement. And accordingly, Dr. Siems shares responsibility for what that Agreement contains.

It is also significant that the statute at issue here is one of strict liability. While Dr. Siems argues that the statute does not prohibit consideration of extenuating circumstances, that does not obviate the plain language of the law that "knowingly or willfully failing to comply with . . . [an] order of the Board constitutes grounds for initiating disciplinary action. The Settlement Agreement became an Order of the Board when the Board approved it. The Order is the final page of the Agreement. Dr. Siems candidly admitted he knew that he did not comply with that Order. The knowing prong of the statute is thus satisfied. And while not a necessary finding or conclusion since either a knowing *or* willful violation will trigger the ramifications of the statute, it can reasonably be determined that Dr. Siems' failure to comply was willful considering the long delay before he took any action whatsoever. The Hearing Officer finds Dr. Siems' passive description of the Board's Order as a "mundane part of life" as a reflection of the amount of concern

he had for the Order, which is further reflected in the long delay before any action was taken whatsoever. In any event, the knowing violation is clear and convincing, thus exceeding the IC's burden of proving their case by a preponderance of the evidence.

CONCLUSION

This Hearing Officer, while readily acknowledging the significant trying life events experienced by Dr. Siems and his family, must recommend that the Board find that Respondent Dr. Jon Lane Siems, M.D., violated the statute as alleged in the Complaint, in that he knowingly failed to comply with the terms of the Order contained within the Settlement Agreement. There is no doubt room for compassion for Dr. Siems in all he experienced in his personal life right around the compliance deadline. But those extenuating circumstances do not negate the knowing failure to meet his mandated obligations, especially when he took no action to inform the Board of those circumstances and/or to seek additional time to comply, or to have the requirements duly amended.

Respectfully submitted this 8th day of May, 2023.

v.

ALEXANDER LEE, M.D.,
Certificate of Registration No. CS18089,

Respondent.

Case No. 22-217-CS-S

NOTICE OF INTENDED ACTION AND ACCUSATION

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

1. The Nevada State Board of Pharmacy ("Board") has personal jurisdiction over Respondent Alexander Lee, M.D. ("Respondent"), because Respondent holds a certificate of registration issued by the Board that authorizes him to prescribe controlled substances in Nevada.

2. The Board has jurisdiction over the subject matter of this accusation because the allegations herein involve the possession, storage, prescribing, and diversion by Respondent of dangerous drugs and controlled substances.

FACTUAL ALLEGATIONS

3. Respondent is a physician licensed by the Nevada Board of Medical Examiners to practice medicine in Nevada. At all times relevant to this accusation, Respondent was a "practitioner" as that term is defined at NRS 639.0125 and NRS 453.126.

4. In 2022, Respondent practiced anesthesiology in the Las Vegas metropolitan area. As an anesthesiologist, Respondent worked at various hospital operating rooms and surgical centers where he anesthetized patients undergoing surgery.

5. The facilities where Respondent practiced anesthesiology in 2022 included the Comprehensive Digestive Surgery Center, located at 8440 W. Warm Springs Road in Las Vegas, Nevada, and the Specialty Surgery Center, located at 7250 Cathedral Rock Drive, in Las Vegas, Nevada. Both facilities are owned and/or operated by HCA Healthcare.

6. Pursuant to NAC 639.4992, the Comprehensive Digestive Surgery Center and the Specialty Surgery Center are both licensed by the Board to operate inpatient pharmacies. These licensed facilities supply all dangerous drugs and controlled substances that are administered by the anesthesiologists and surgeons who perform procedures at the two facilities.

7. Consistent with state and federal law, HCA Healthcare does not allow practitioners to bring their own supplies of dangerous drugs or controlled substances into the procedure rooms where anesthetics are administered to patients before and during surgery.

8. Since November 1, 2020, or earlier, Respondent has held certificate of registration no. CS18089, which was issued by the Board pursuant to NRS 453.226 and NRS 453.231.

9. Respondent's Nevada certificate of registration lists his practice address as 10016 Summit Canyon Drive, Las Vegas, Nevada 89144. Respondent lists no other practice addresses.

10. Since February 21, 2022, or earlier, Respondent has held a controlled substance registration certificate issued by the Drug Enforcement Administration ("DEA") of the U.S. Department of Justice.

11. Respondent's DEA registration certificate lists his practice address as Summerlin Hospital, 657 N. Town Center Drive, Las Vegas, Nevada 89144. Respondent lists no other practice addresses.

12. On July 6, 2022, Respondent anesthetized a patient or patients at the Comprehensive Digestive Surgery Center. On that day, Respondent carried his personal backpack into the procedure room, where he left it unattended. As discussed below, the backpack was later determined to contain a mix of dangerous drugs and controlled substances.

13. On July 6, 2022, staff at the Comprehensive Digestive Surgery Center observed Respondent's personal backpack in the procedure room. Per HCA Healthcare company policy, staff removed the backpack from the procedure room, placed it in an administrative office, and informed Respondent that he was not permitted to bring personal items into the procedure room.

14. On July 6, 2022, staff at the Comprehensive Digestive Surgery Center examined the contents of Respondent's personal backpack and discovered that it contained a mix of dangerous drugs and controlled substances. Staff then took photos of the contents of the backpack. The photos depict a jumble of clear vials inside of a zip lock bag. In the photos, the vials appear to contain a variety of injectable medications.

15. On July 6, 2022, after answering questions about the contents of his personal backpack, Respondent removed his personal backpack and its contents from the administrative office at the Comprehensive Digestive Surgery Center where staff had placed it, and he exited the facility.

16. On July 7, 2022, Respondent anesthetized a patient or patients at the Specialty Surgery Center. On that day, Respondent carried his personal backpack into the procedure room, where he left it unattended. As discussed below, the backpack was later determined to contain a mix of dangerous drugs and controlled substances.

17. On July 7, 2022, staff at the Specialty Surgery Center observed Respondent's personal backpack in the procedure room. Per HCA Healthcare company policy, staff once again removed the backpack from the procedure room, placed it in an administrative office, and reminded Respondent that he was not permitted to bring personal items into the procedure room.

18. On July 7, 2022, staff at the Specialty Surgery Center examined the contents of Respondent's personal backpack and discovered that it contained a mix of dangerous drugs and controlled substances. Some of the drugs and/or controlled substances had expired or were no longer usable due to punctured seals.

19. On July 7, 2022, staff at the Specialty Surgery Center took photographs and prepared a written inventory of the items in the backpack. The inventory revealed that the backpack contained the

following dangerous drugs and controlled substances: Bridion (sugammadex), 6 vials x 200mg/2mL; ketamine, a Schedule III controlled substance, 1 vial x 500mg/10mL; Diprivan (propofol), 1 vial x 200mg/20mL; etomidate, 1 vial x 20mg/10mL; Akovaz (ephedrine sulfate), 50mg/mL; rocuronium, 1 vial x 50mg/5mL; dexamethasone, 10mg/mL; budesonide, 1 vial x 20mg/2mL; hydralazine, 20mg/ml; and albuterol, 90mcg.

20. When questioned about the contents of his personal backpack, Respondent explained that the backpack contained a "stash" of emergency drugs that he carried with him in case the pharmacy at the surgery center did not have what he needed. Respondent indicated that he had taken the drugs from various hospitals and surgery centers in the Las Vegas metropolitan area.

21. During questioning, Respondent emphasized that his stash of dangerous drugs and controlled substances was not for his personal use.

22. Respondent suggested that his practice of removing drugs from certain hospitals and surgery centers, and then administering them in other hospitals and surgery centers, was akin to making "accounting" adjustments. Respondent later clarified, through his attorney, that his conduct was attributable to "an outdated and archaic practice of anesthesiologists—keeping an emergency bag that holds excess medications to ensure patient health/safety in the event a facility lacks needed emergency medication."

23. Respondent has never identified where specifically he obtained the dangerous drugs and controlled substances that were discovered in his personal backpack.

24. In addition to the dangerous drugs and controlled substances described in paragraph 19 above, Respondent's personal backpack contained a vial of clear liquid. The vial had two labels: a manufacturer's label indicating that the vial contained Bridion, and a secondary label indicating that the vial contained fentanyl.

25. When questioned about the conflicting labels described in paragraph 24 above, Respondent stated that he believed the vial contained Bridion, not fentanyl. Respondent suggested that the "fentanyl" label had inadvertently affixed itself to the vial when it was bouncing around in his

backpack. Staff at the Specialty Surgery Center asked Respondent for permission to run a toxicology screen on the contents of the vial. The testing later revealed that the vial contained ethyl alcohol, not Bridion as claimed by Respondent.

26. In addition to the dangerous drugs and controlled substances described in paragraph 19 above, Respondent's personal backpack contained an amber vial of tablets. The label on the amber vial indicated that the tablets were eszopiclone. The label further indicated that the tablets had been prescribed by Respondent for his wife.

27. When questioned about the tablets in the amber vial, Respondent stated that the tablets were metformin, not eszopiclone as indicated on the label. Respondent explained that he had poured his metformin tablets into the amber vial for his own use after his wife had emptied the amber vial. The tablets were later confirmed to be metformin.

28. In addition to practicing anesthesiology, Respondent ostensibly treated patients for endocrine issues and mood and sleep disorders. For example, in 2021 and 2022, Respondent issued six prescriptions for testosterone cypionate, one prescription for clonazepam, one prescription for diazepam, and one prescription for eszopiclone—all controlled substances. The prescriptions were filled by four different pharmacies between October 11, 2021, and May 27, 2022.

29. In 2018, Respondent established an account with the prescription monitoring program ("PMP"). The PMP maintains a database that contains prescription histories for patients who fill their controlled substance prescriptions in Nevada (*see* NRS 453.164). By establishing an account with the PMP, Respondent gained remote access to the PMP database.

30. Respondent did not remotely access or "query" the PMP database until July 13 and 14, 2022, which was well after the above prescriptions were filled (see ¶ 28 above). Respondent queried the PMP database shortly after Board Investigator Dena McClish contacted Respondent concerning the above prescriptions.

31. Respondent later advised Investigator McClish, through his attorney, that he had not previously queried the database because he "experienced technical issues that froze his PMP account

in or around 2018." Respondent further explained, through his attorney, that he was unaware of any legal requirement to query the database in reference to controlled substances other than opiates.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **ALEXANDER LEE, M.D.,** **Certificate of Registration No. CS18089,** **Respondent.**	**Case No. 22-217-CS-S** **ANSWER AND NOTICE OF DEFENSE**

Respondent above named, in answer to the Notice of Intended Action and Accusation filed in the above-entitled matter before the Nevada State Board of Pharmacy, declares:

I. <u>That Alexander Lee, MD's ("Dr. Lee") Objection To The Notice Of Intended Action And Accusation As Being Incomplete Or Failing To State Clearly The Charges Against Him, Is Hereby Interposed On The Following Grounds</u>:

1. Allegations in Paragraphs 7, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 30, 31, 50-84 as listed in the Notice of Action and Accusation contain a number of misstatements, over-generalizations and inaccuracies.

2. Dr. Lee disagrees with the allegations in Paragraphs 13, 14, 15, 16, 17, 18, 19. On July 6th and 7th, 2022, Dr. Lee brought his personal backpack into two different HCA surgery centers. While doing so, he observed other provider backpacks in the facilities. He acknowledges that his backpack contained some emergency medications, but he did not prepare the written inventory of the items in the backpack and was not involved in the inventory process itself.

3. Dr. Lee disagrees with the allegations in Paragraphs 20, 21, which implies improper possession of dangerous drugs and controlled substances. He does not recall making either of those

acknowledgments. However, Dr. Lee recognizes that he failed to properly dispose of leftover or unused medications from procedures by safekeeping them in his backpack under the outdated but good-intentioned emergency bag protocol. He further understands that his actions were inconsistent with facility policy and thus, he has re-familiarized himself with the medication disposal policies at all of the facilities that he is credentialed at.

4. Dr. Lee disagrees with the allegations in Paragraphs 24, 25. He was not involved in the testing process for this vial and thus, he has no idea why the testing results indicated the presence of ethyl alcohol.

5. Dr. Lee disagrees with the allegations in Paragraph 22. Dr. Lee recognizes that his actions raised concerns, and he continuously attempted to assure the Board that this matter did not involve diversion of dangerous drugs and controlled substances for personal and/or professional use. Rather, it arises from an outdated and archaic practice of anesthesiologists keeping an emergency bag that holds excess medications to ensure patients' health/safety in the event a facility lacks needed emergency medication. In addition, medications listed in the inventory provided to the Board were never actually used on a patient at any facility and those medications mostly expired while in the bag. The bag itself was not surreptitiously hidden away, it was in plain sight further substantiating the fact that this was not a diversion. Dr. Lee recognizes that while the practice was well-intentioned, it has no place in hospitals and surgery centers today. Further, Dr. Lee immediately ceased bringing any backpack into facilities where he does procedures in response to what occurred on July 6 and 7, 2022.

6. Dr. Lee disagrees with the allegations in Paragraph 23. Dr. Lee did not prepare the inventory of medications allegedly contained in his backpack and was not involved in the inventory process itself, so he has no specific knowledge of staffs' assertions. Dr. Lee previously confirmed that none of the medications found in his backpack were administered to patients. Dr. Lee believes the outdated practice of anesthesiologists carrying an emergency bag was in essence

a security blanket of sorts, providing additional comfort to the anesthesiologist that if a patient suffered an emergency and the facility lacked the needed medications, the patient's life could be saved by the anesthesiologist upon administering the emergency medication. Dr. Lee gave an example of this during his Assessment with the Professional Recovery Network when Dr. Lee explained that in extreme cases of asthma, Ketamine was the go-to drug to open the airway. Dr. Lee further provided another example of how a medication like Ketamine could be used for emergency purposes as during a broncospasm episode at a surgery center if the facility did not have proper anesthesia equipment. Lastly, to the best of his ability, Dr. Lee provided information regarding the legitimate sources of these medications.

7. Dr. Lee disagrees with the allegations in Paragraphs 24, 25. Regarding the vial of Bridion that had a fentanyl label on the vial, upon information and belief, Dr. Lee believes the fentanyl sticker was from an old sticker sheet pad that had come loose from the pad and simply attached to this vial.

8. Dr. Lee disagrees with the allegations in Paragraphs 26, 27. Regarding the bottle of eszopiclone tablets that had Dr. Lee's wife's name on it, that was an old bottle that he used to store his own metformin medication that Dr. Lee has a prescription for. Dr. Lee takes metformin twice a day, but because he frequently forgets to take his morning dosage before leaving for work, he carries that medication with him.

9. Dr. Lee disagrees with the allegations in Paragraphs 28, 29, 30, 31. Regarding PMP, Dr. Lee experienced technical issues that froze his PMP account in or around 2018. He sought assistance from the program's technical support, but became frustrated when that support was not successful in helping him fix the problem. After erroneously believing that the system was only required to check for opiates, and because he does not prescribe opiates, Dr. Lee took no further action on his frozen PMP account. Since, Dr. Lee got his account fixed and received education on the usage and importance of the system.

10. Dr. Lee denies the allegations in Paragraph 30 and 31, particularly the claim that his conduct in relation to the storage or handling of medications constitutes an act of intentional or negligent disregard for professional standards. Dr. Lee asserts that all actions taken were consistent with his professional judgment to prioritize patient safety and ensure the availability of emergency medications, and that there was no willful misconduct or intent to violate any regulations.

11. Dr. Lee denies the allegations in Paragraphs 12-31, including any assertion that his possession or transport of medications was unauthorized or in breach of applicable legal or regulatory frameworks. Respondent maintains that the medications in question were acquired and held solely for the legitimate purpose of providing emergency care, and that there was no intent to misuse or improperly handle these substances.

12. Dr. Lee discussed during his evaluation with the Professional Recovery Network and described the now outdated and archaic practice of anesthesiologists - keeping an emergency bag that holds excess medications to ensure patient health/safety in the event a facility lacks needed emergency medication. Dr. Lee recognizes that while he believed such practice was good-intentioned, it has no place in hospitals and surgery centers today. Further, he immediately ceased bringing any backpack into facilities where he does procedures in response to what occurred on July 6th and 7th, 2022.

II. <u>In Answer To The Notice Of Intended Action And Accusation, Dr. Lee Responds As Follows</u>:

1. Dr. Lee is a board-certified anesthesiologist trained at University of California – San Francisco, University of Washington, and University of California-Davis. He has been licensed in Southern Nevada since 2009 and is the Managing Partner of Zen Anesthesia, a 10-member anesthesia services group located in Las Vegas.

2. Dr. Lee denies allegations in Paragraphs 50-64. Dr. Lee recognizes that his actions raised concerns, and Dr. Lee ongoingly attempted to assure the Board that this matter did not involve diversion of dangerous drugs and controlled substances for personal and/or professional use. Dr. Lee re-familiarized himself with surgery center policies and procedures related to disposing of unused drugs during surgery and other policies such as bringing unauthorized items like a backpack into surgery.

3. Failing to properly dispose of unused medications does not rise to the level of transporting and/or storing controlled substances at unregistered location and/or in improper manner.

4. Failure to dispose of unused and/or expired medications does not involve failure to maintain effective controls against theft or misuse of controlled substances.

5. Dr. Lee denies the allegations in Paragraph 50, specifically that his conduct reflects any unauthorized possession, misuse, or diversion of controlled substances. Dr. Lee asserts that his possession of such substances was solely for patient care purposes and within the scope of his professional responsibilities.

6. Dr. Lee denies the allegations in Paragraph 54, denying any intent to circumvent applicable regulations or act in a manner inconsistent with professional or legal standards regarding the handling of medications.

7. Dr. Lee denies the allegations in Paragraph 55, particularly the assertion that he failed to comply with recordkeeping or inventory requirements for controlled substances. Dr. Lee contends that any perceived discrepancy was unintentional and not reflective of a deliberate violation.

8. Dr. Lee denies the allegations in Paragraph 56, asserting that any handling of medications was done to ensure patient safety and not in a manner that constitutes negligence or misconduct.

9. Dr. Lee denies the allegations in Paragraph 59, specifically the claim that his possession of medications reflects a violation of professional or legal obligations. Dr. Lee asserts that his actions were intended to fulfill his duty to provide optimal patient care.

10. Dr. Lee denies the allegations in Paragraph 60, refuting any assertion of impropriety in his handling of medications and affirming that his conduct was consistent with his professional judgement and responsibilities.

11. Dr. Lee denies the allegations in Paragraph 61, and denies any willful misconduct or intent to act outside the bounds of professional or legal standards.

12. Dr. Lee denies the allegations in Paragraph 62, contending that any perceived irregularities in his actions were unintentional and not indicative of negligence or intentional misconduct.

13. Dr. Lee denies the allegations in Paragraph 63, asserting that his conduct was not reckless or irresponsible but was motivated by the need to ensure patient safety in emergencies.

14. Dr. Lee denies the allegations in Paragraph 64, including any claim that his possession or handling of medications was unauthorized or improper.

15. Dr. Lee denies allegations in Paragraphs 65-78. Dr. Lee did not possess culpable mental state to be liable as asserted in allegations in Paragraphs 65-78. These are serious allegations and require a joint operation of act and intention. As previously explained by Dr. Lee and as supported by Mark Chase, Clinical Program Director at the Professional Recovery Network and MEC committees of various medical facilities, Dr. Lee did not possess intent to be found liable. Having medications in his backpack arises from an outdated and archaic practice of anesthesiologists - keeping an emergency bag that holds excess medications to ensure patient health/safety in the event a facility lacks needed emergency medication. Dr. Lee did not acquire any controlled substances through deception or subterfuge as asserted in the Notice of Action and Accusation, but rather he failed to properly dispose of leftover or unused medications from

procedures by safekeeping them in his backpack under the outdated but good intentioned emergency bag protocol. He recognizes that while this practice was good-intentioned, it has no place in hospitals and surgery centers and has ceased this practice.

16. Dr. Lee denies the allegations in Paragraph 65, specifically denying that his conduct constitutes a breach of any specific laws or regulations cited in this paragraph.

17. Dr. Lee denies the allegations in Paragraph 66, asserting that any actions taken with respect to medications were within the scope of his professional judgement and intended solely to benefit patients.

18. Dr. Lee denies the allegations in Paragraph 67, refuting any claim that his actions were inconsistent with legal requirements.

19. Dr. Lee denies the allegations in Paragraph 68, particularly the assertion that his actions were willfully or negligently inconsistent with the standards governing the safe handling, storage, or use of controlled substances and dangerous drugs. Dr. Lee maintains that all medications were stored and utilized in a manner that prioritized patient safety and compliance with applicable laws to the best of Dr. Lee's understanding.

20. Dr. Lee did not prepare the inventory of medications that are listed in the Notice of Action and Accusation, and that were provided to the Board by the facility's staff. Dr. Lee was not involved in the detailed inventory process itself, but he acknowledges that his backpack contained emergency medications. In Dr. Lee's experience, certain emergency medications are not readily available in various surgery centers, the ER or the ICU: etomidate for sedation, Bridion for neuromuscular reversal, and ketamine for asthma exacerbation or sedation.

21. Dr. Lee denies the allegations in Paragraph 71, which suggest that his possession of medications was unauthorized or in violation of regulations. Dr. Lee asserts that all medications in his possession were retained for legitimate medical purposes, specifically to address emergencies and potential shortages in facilities where he provided care.

22. Dr. Lee denies the allegations in Paragraph 75 that his conduct constitutes a violation of any specific provision of law cited therein. Dr. Lee asserts that his practices, while potentially reflective of outdated methodologies, were motivated solely by the need to ensure uninterrupted patient care and were not intended to circumvent legal or regulatory requirements.

23. In addition, the medications allegedly contained in Dr. Lee's backpack were never used on a patient at any facility and as the inventory of medications describes and Notice of Action and Accusation states, those medications mostly expired while in the backpack.

24. Dr. Lee denies the allegations in Paragraph 76, which imply that his actions demonstrated a disregard for regulatory oversight or patient safety. Dr. Lee reiterates his commitment to upholding professional standards and emphasizes that any deviations were unintentional and occurred in the context of ensuring readiness to address patient needs.

25. The bag itself was not surreptitiously hidden away, it was in plain sight further substantiating the fact that this was not diversion, deception or subterfuge.

26. Dr. Lee underwent a professional evaluation in July of 2022, as directed by Southern Hills Hospital. The Evaluation from Mark Chase, Clinical Program Director at the Professional Recovery Network states that Dr. Lee is safe to practice as a medical doctor and be able to exercise his facility privileges without restriction.

27. The evaluator also acknowledges the now outdated protocol of anesthesiologists maintaining an emergency bag of medications and opines that he does not believe that Dr. Lee was stealing leftover or unused drugs. Therefore, allegations in Paragraphs 68-78 are not supported by any admissible evidence but rather refuted by a licensed medical evaluator, Mark Chase.

28. The recommendations in the Evaluation include having Dr. Lee re-familiarize himself with hospital and surgery center policies and procedures related to disposing of unused drugs during surgery and other policies such as bringing unauthorized items like a backpack into surgery.

29. Dr. Lee has completed both of these recommendations and will continue to remain aware about such matters.

30. Importantly, after hearing from Dr. Lee and reviewing the Evaluation, the HCA facilities have taken the following actions:

- Specialty Surgery Center - on August 4, 2022, the MEC lifted the precautionary suspension. No disciplinary or corrective action was imposed.
- Comprehensive Digestive Surgery Center - on August 4, 2022, the MEC lifted the precautionary suspension. No disciplinary or corrective action was imposed.
- Southern Hills Hospital - on August 5, 2022, Dr. Lee was notified that the MEC had terminated his refrain agreement and that he could resume exercising his privileges. No disciplinary or corrective action was imposed.
- Mountain View Hospital – the facility terminated Dr. Lee's refrain agreements and allowed him to resume exercising his privileges. No disciplinary or corrective action was imposed.
- Sunrise Hospital - the facility terminated Dr. Lee's refrain agreements and allowed him to resume exercising his privileges. No disciplinary or corrective action was imposed.
- This further contravenes allegations in Paragraphs 68-78. At no time did Dr. Lee divert medications for unlawful purposes or personal benefit.

31. Dr. Lee denies the allegations in Paragraphs 79-84. As it pertains to PMP allegations, Dr. Lee experienced technical issues that froze his PMP account in or around 2018.

He sought assistance from the program's technical support, but became frustrated when that support was not successful in helping him fix the problem. After erroneously believing that the system was only required to check for opiates, and because he does not prescribe opiates, Dr. Lee took no further action on his frozen PMP account. Dr. Lee got his account fixed and received education on the usage and importance of the system.

32. Any perceived failures to comply with standards for the storage, handling, documentation of medications or PMP access was unintentional and not reflective of willful or negligent misconduct. Dr. Lee has consistently acted in good faith with the intention of safeguarding patient health. Dr. Lee has made efforts to adhere to all applicable laws and regulations to the best of his understanding. If any deficiencies were identified, they are attributable to misunderstanding or misinterpretation rather than intentional disregard for rules and regulations.

33. Nothing herein is or shall be deemed to be a waiver or release of any rights, remedies, or defenses.

34. Dr. Lee reserves the right to present evidence and testimony to clarify and refute the allegations, contained in the Notice of Action and Accusation.

35. Denials as contained in Dr. Lee's Answer and Notice of Defense are made without prejudice to assert additional defenses that may be raised after further review of the allegations and evidence.

36. Dr. Lee reserves the right to provide further evidence and testimony to support these denials and clarify any misunderstandings or inaccuracies in the allegations.

. . .

. . .

. . .

. . .

. . .

Wherefore, Dr. Lee respectfully requests that the Nevada State Board of Pharmacy dismiss the allegations and grant such further relief as deemed just and appropriate.

CEASE-AND-DESIST and CITATION-AND-FINE: Case No. 24-354-PH-O – Unlicensed Operation of a Pharmacy and Practice of Pharmacy in Nevada

To Whom it May Concern:

The Nevada State Board of Pharmacy (hereinafter "Board") has determined that you own and serve as the managing pharmacist of Echo Health LLC, dba Nova Specialty Pharmacy (hereinafter "Nova"). The Board has also found that Nova is operating an unlicensed pharmacy in the state of Nevada. Nova sold or dispensed prescriptions to Nevada-based patients at least 103 times. Additionally, according to an inspection report obtained from the Texas State Board of Pharmacy, Nova failed to maintain quality standards for the compounded drugs that it dispensed to its Nevada-based patients. Failure to adhere to proper quality standards when compounding drugs may result in patient harm.

Under Nevada law, no person (including a pharmacy or pharmacist) may manufacture, engage in wholesale distribution, compound, sell or dispense, or permit to be manufactured, distributed at wholesale, compounded, sold or dispensed, any drug, poison, medicine or chemical, or to dispense or compound, or permit to be dispensed or compounded, any prescription of a practitioner, unless the person holds the appropriate license and complies with the regulations adopted by the Board. NRS 639.100(1). Any person who violates NRS 639.100(1) may be charged with a felony. *See* NRS 639.100(2). Additionally, any person engaged in the unlicensed practice of pharmacy in Nevada may be subject to administrative fines and/or claims for injunctive relief. NRS 639.2895. By shipping prescriptions into the state of Nevada at least 103 times, Nova has sold or dispensed a drug without the appropriate license (a pharmacy license) at least 103 times. Further, as Nova's owner and managing pharmacist, you caused or permitted Nova to sell or dispense drugs on each of these occasions, thereby engaging in the unlicensed practice of pharmacy.

In addition to being properly licensed, a pharmacy and/or pharmacist must comply with all applicable regulations adopted by the Board. Based on the Texas report noted above, Nova failed to comply with compounding regulations adopted by the Board at least 28 times. *See* NRS

639.210(4); NRS 639.210(15); NAC 639.482; NAC 639.485; NAC 639.670; NAC 639.6705; NAC 639.67037; NAC 639.67069; NAC 639.67077; NAC 639.67079; NAC 639.6701; NAC 639.67013; NAC 639.67019; NAC 639.6702; NAC 639.67055; NAC 639.707; NAC 639.708; NAC 639.751; NAC 639.945(1)(a); NAC 639.945(1)(f); NAC 639.945(1)(j); and NAC 639.945(1)(k). Please note that some of the regulations listed previously have been purportedly violated in multiple ways and/or more than once. Finally, the Board also has evidence that Nova failed to employ a Nevada licensed pharmacist during the period of time they shipped drugs into Nevada, in violation of Nevada law. NRS 639.2328.

As noted previously, the Board may seek injunctive relief and/or impose administrative fines against any person engaged in the unlicensed practice of pharmacy in Nevada. In this case, you and/or your employer, Echo Health LLC, dba Nova Specialty Pharmacy, are jointly and severally liable for a fine of up to $5,000 for each of the 131 violations identified above. NRS 639.100(3). NRS 639.2895.

Accordingly, the Board hereby orders you to immediately **CEASE and DESIST** your operation of an unlicensed pharmacy in the state of Nevada. Do not ship any more drugs or fill any more prescriptions for Nevada-based patients. Additionally, this letter shall serve as a **CITATION** pursuant to NRS 639.2895(2) for operating a pharmacy and engaging in the practice of pharmacy in this state without having obtained the required pharmacy license and/or pharmacist registration issued by the Board. Based on the above evidentiary summary, the Board has assessed **administrative fines** against you and/or your employer in the total amount of **Six Hundred and Fifty-Five Thousand Dollars and 00/100 Cents ($655,000.00).**

If you do not intend to contest the above fines, please pay the amount listed above within 30 days of receipt of this citation, or otherwise contact Board staff to request an extension for good cause shown. Payment must be made by *certified check, cashier's check,* or *money order* payable to **"State of Nevada, Office of the Treasurer,"** and it must be received at the Board's Reno office, located at 985 Damonte Ranch Parkway – Suite 206, Reno, NV 89521.

You may appeal this citation by submitting a notice of appeal requesting a public hearing before the Board. You must submit any such notice of appeal not later than 30 days after receipt of this citation. NRS 639.2895(2). Please mail or personally deliver any notice of appeal to the Reno address listed on the letterhead.

Pursuant to the Nevada Public Records Act, this citation constitutes a public record that must be released to anyone who makes a proper request for it. Additionally, once it becomes a final determination in accordance with the Nevada Administrative Procedure Act, this matter will be reported to the National Practitioner Data Bank. If you have any questions, please contact the Board's General Counsel, Gustaf Vanderdonck, at 775-850-1440, ext. 132, or *via* email at gvanderdonck@pharmacy.nv.gov.

Sincerely,

Nevada State Board of Pharmacy

NEVADA STATE BOARD
OF PHARMACY

To Whom It May Concern:

You've probably heard the quote, an entrepreneur leaps first, "then builds the plane on the way down." Well here I am, and this is the story about my leap of faith.

My name is Obiechina N. Ezekwesili, Founder and director of pharmacy at Nova Specialty Pharmacy. I am currently in violation of compliance and write to you to seek reconciliation. It was never my intention to violate any board rules. When I first birth this idea, the dream was to build a pharmacy solutions company, similar to TruePill, for sterile compounding. In my pursuit, an opportunity presented itself to partner with several brands to dispense vitamins and GLP1s, amongst other products. Adhering to the strictest guidelines, policies and procedures, and focusing solely on patient satisfaction and positive outcomes, I leaped.

My journey to pharmacy began on August 19, 1996, in Enugu, Nigeria, the day my father died. My father was poisoned by an evil man, and the antidote to save his life was not in stock due to the poor conditions and lack of funding for the state hospital where he died at. My dream was to grow up and launch a global pharmaceutical non-profit, that would bridge the gap between the desolate and resources they need to survive, making preventable deaths, preventable again. In pursuit of that vision, I launched my first pharmacy during my third year of pharmacy school, Velox Pharmacy Solutions, a discount pharmacy offering prescriptions at the wholesale cost, plus an ethical mark up of $7, similar to what Mark Cuban is doing with his.(https://www.wsaz.com/content/news/Couple-opens-new-pharmacy-to-help-people-afford-medications-565358922.html) I did this by winning several business plan competition in the state of West Virginia, as well as nationally. I highlight his story to show the sincerity of my heart. I am not one of the many that seek this GLP1 goldrush for the monetary value, but rather, I pursue it to provide access to affordable care, as I have always pursued.

I beseech you to have mercy. This plane that I've built, has flown into unauthorized airspace, please don't shoot me down. I was under the impression that becoming 503B would be the solution to allow us to ship nationwide, but that has been proven vague as well. It is my hope that the board will work with my company, to educate us, and allow us an opportunity to become compliant, and continue to serve the people of your state.

I look forward to hearing from you.

At your mercy,

Dr. Obiechina N. Ezekwesili

F. Respondent shall have no new charges filed against American Wellness Pharmacy while on probation.

Upon successful completion of probation, Respondent's License No. PH02705 will be fully restored.

9. Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may lift the stay of suspension and immediately suspend Respondent's License No. PH02705 and may impose additional discipline upon that Respondent not inconsistent with the provisions of NRS Chapter 639.

10. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on September 4, 2024. General Counsel Nevada Board of Pharmacy

Reno, NV 89509

Dear Sir,

This letter is in response to Case Number 14-017-RPH-S and 14-017-PH-S Stipulation and Order item #10 subsection b. (cause of violation and action to prevent future similar reoccurrences)

Venus started her rotation at Advanced Isotopes of Nevada LLC on August 19, 2013. One of the items covered during first day orientation is license verification (see attached Nuclear Pharmacy Rotation curriculum). I accept the original, or a copy of the original as proof of licensure. If the intern does not have it with them I will access the Nevada B.O.P website and print a copy for our records.

Venus presented a copy of an intern license which I looked at, thought to be her valid Nevada intern license, and posted it on our wall with our other licenses. No check of the Nevada B.O.P. website was performed.

Venus worked approximately 213 hours over the next 6 weeks. At the end of her rotation the copy of her intern license was either given back to her or put in the shred bin for destruction. Therefore I have no way to verify if this was an expired NV intern license, or an active CA intern license which also may have been presented.

On Jan 23, 2014 a representative from Roseman University called to inform me of Venus's expired intern license and a pending investigation by the B.O.P.

Going forward I will access the B.O.P website only for all licensure verification prior to the students/employee's start date and will keep copies. If active licensure cannot be verified, the intern/employee will not be allowed to start work and I will inform the B.O.P.

Sincerely,

Christopher G. Southwick R.Ph.
