  Repeat the process with each of the three syringes, injecting 10 ml aliquots into each of two, 10 ml sterile vials. On all 6 vials, write the name and date of person taking this test.
- Step 5: Affix sterile adhesive seals to the closure of the nine vials, and incubate them at 20-25° C for 7 days follows by 30-35°C for 7 days. Inspect for microbial growth over 14 days. Sterile vials will remain clear and without bubbles, precipitate, cloudiness or changes in turbidity. Cloudiness, turbidity, bubbles or a precipitate on the bottom of any of the vials indicates bacterial contamination. All 6 vials must be sterile to constitute a passed test. The 3 control vials should become turbid or develop a precipitate demonstrating bacterial growth.

A positive media fill test sample indicates that the compounder has introduced microorganisms into the "product" and has failed the test. Infusion pharmacist will instruct the compounder with aseptic techniques and reinforce the SOPs.

The visual observation and the result of the media fill test will be documented on the "Assessing aseptic technique and related practices and media-fill test results *High Complexity Media Fill*" page of the Initial and Periodic training packets.

Gloved Fingertip Test to validate Aseptic Technique of Media-Fill Procedure

- Immediately after the compounder completes the media-fill test, the evaluator will collect a gloved fingertip and thumb sample from both hands of the compounder onto TSA agar plates by lightly pressing each fingertip into the agar. *Note—the compounder should NOT apply isopropyl alcohol to gloves just before sample is collected as this can cause a false-negative result.
- The agar plates will be incubated at 30° to 35° C for at least 48 hours followed by incubation at 20° to 25° C for at least 5 days
- **Results: Pass: 3 CFU or less / Fail: > 3 CFU. This is based on the TOTAL CFU from both hands.** If compounding personnel fail this glove fingertip sampling, infusion pharmacist will instruct the compounder with aseptic techniques and reinforce the SOPs. Compounding personnel should redo the media fill, gloved fingertip sampling and surface collection.

  These gloved fingertip samples will be documented on the "Periodic GFT & surface sample form"

Surface Sample Collection to validate Aseptic Technique of Media-Fill Procedure

- Immediately after the compounder completes the media-fill test, AND BEFORE CLEANING, the evaluator will collect a surface sample of the direct compounding area where the media fill test was performed. Appropriate TSA agar plates with L&T will be used for surface sample collection. Manufacturers recommendations will be followed for collection technique.
- The agar plates will be incubated at 30° to 35° C for at least 48 hours followed by incubation at 20° to 25° C for at least 5 days
- **Results: Pass: 3 CFU or less / Fail: > 3 CFU.**
  If compounding personnel fail the surface sample collection, infusion pharmacist will instruct the compounder with aseptic techniques and reinforce the SOPs. Compounding personnel should redo the media fill, gloved fingertip sampling and surface collection.

  The surface sample collection will be documented on the "Periodic GFT & surface sample form"

Cleaning and Disinfecting Competency Evaluation

- All compounding personnel should read SOP regarding cleaning and disinfecting
- Infusion pharmacist should observe all compounding personnel performing the cleaning and disinfecting procedures during personnel training on cleaning procedures and at the completion of any media-fill test procedure. Infusion pharmacist will determine whether further study and training are needed.

The visual observation shall be documented in the following form: "Assessing Cleaning and Disinfecting Procedures".

Sterile Compounding Training Requirements Every 6 Months:

(every 3 months if compounding Category 3 CSPs from nonsterile ingredients)

Demonstration of Proper Garbing and Hand Hygiene followed by Gloved Fingertip Test

- Cache Valley Pharmacy will not allow individuals experiencing rashes, sunburn, weeping sores, conjunctivitis, active respiratory infection, as well as when they wear cosmetics, to work in the compounding area.
- Before entering the ante-room, compounding personnel shall remove personal outer garments (e.g., bandannas, coats, hats, jackets, scarves, sweaters, vests); all cosmetics, because they shed flakes and particles; all hand, wrist, and other visible jewelry or piercings (e.g., earrings, lip or eyebrow piercings). The wearing of artificial nails or extenders is prohibited.
- Eyeglasses (if worn) need to be wiped
- Cache Valley Pharmacy requires compounding personnel to don PPE in the following order
    8. Put on one shoe cover and cross the demarcation line
    9. Put on other shoe cover
    10. Put on head and facial hair covers
    11. Put one face masks
    12. Hand cleaning procedure:
        Remove debris from underneath fingernails using a nail pick
        Hands and forearms shall be washed to the elbow for at least 30 seconds with soap and water
    13. Put on a non-shedding gown with sleeves that fit snugly around the wrists and enclosed at the neck. Red Rock Pharmacy only uses disposable gowns.
    14. All the PPE will be disposed after compounder comes out of the ante room. Exception: If the gown is clean and free of damage, it may be reused by the same employee until the end of the shift.
- Once inside the buffer room and prior to donning sterile powder-free gloves, compounder is required to perform antiseptic hand cleansing using a waterless alcohol-based surgical hand antiseptic.
- Before compounding begins, compounder shall don sterile gloves. (Pharmacy only uses sterile gloves that have been proven to be compatible with alcohol). Compounder should apply sterile 70% IPA routinely throughout the compounding process and whenever nonsterile surfaces (e.g.: vials) are touched. Gloves on hands shall also be routinely inspected for holes, punctures or tears and replaced immediately if such are detected.

Sterile compounding personnel are required to study Cache Valley Pharmacy SOPs pertaining to personal cleaning and garbing as well as the Hand hygiene and garbing practices training form. All the compounding personnel should be trained conscientiously and skillfully by infusion pharmacist on all the personal cleaning and garbing processes. Infusion pharmacist will observe them performing personal cleaning and garbing and decide whether they pass the training.

The visual observation will be documented on the form "Assessing hand hygiene and garbing related practice of compounding personnel" within the training packet.

Gloved Fingertip Test to validate Hand Hygiene and Garbing

- Immediately after the compounder completes the hand hygiene and garbing procedure (e.g.: donning of sterile gloves prior to any disinfection with sterile 70% IPA), the evaluator will collect a gloved fingertip and thumb sample from both hands of the compounder onto TSA agar plates by lightly pressing each fingertip into the agar.
- The agar plates will be incubated at 30° to 35° C for at least 48 hours followed by incubation at 20° to 25° C for at least 5 days
  Results: Pass: 0 CFU / Fail: > 0 CFU
  If compounding personnel fail the glove fingertip sampling, infusion pharmacist will redo the training of hand hygiene and garbing procedures and compounding personnel should redo the glove fingertip sampling.

  Gloved fingertip samples performed every 6 months will be documented on the "Periodic GFT & surface sample form"

Aseptic Manipulation Competency Evaluation through Media-Fill Test, Followed by Gloved Fingertip Test and Surface Sample

Cache Valley Pharmacy requires all compounding personnel read SOP regarding aseptic compounding procedures. Aseptic manipulation competency will be evaluated by media-fill test followed by a gloved fingertip test and a surface sample of the direct compounding area where the media-fill test was performed. Infusion pharmacist will observe the process of the media-fill test and assess aseptic technique and related practice as well.

Media-Fill Procedure
Pharmacy will used the IVQA (or similar) brand High Complexity Media Fill Test Kit to perform the media-fill test

Test Kit Materials: 1 vial containing 3 grams of media, 9 Crimped Top 10 mL empty sterile vials.
Other Required Materials: 3 x 30mL syringes, 100mL non-bacteriostatic water, 3 x 0.22 micron sterile filters, 3 Adhesive Seals.

- Step 1: Outside an ISO class 5 air quality environment, dissolve 3 gm of nonsterile commercially available Soybean-Casein Digest Medium in 100 ml of non-bacteriostatic water to make a 3% solution.
- Step 2: Withdraw 25 ml of the medium into each of three 30-ml sterile syringes.
- Step 3: Transfer 5 ml from each syringe into separate sterile 10-ml vials. Label these vials as controls. These vials will generate exponential microbial growth, indicated by visible turbidity upon incubation.
- Step 4: Under aseptic conditions (in an ISO class S air quality environment), and using aseptic techniques, affix a sterile 0.2-µm porosity filter unit and a 20-gauge needle to each syringe. Inject 10 ml from each syringe into each of two, 10 ml sterile vials.

Repeat the process with each of the three syringes, injecting 10 ml aliquots into each of two, 10 ml sterile vials. On all 6 vials, write the name and date of person taking this test.

- Step 5: Affix sterile adhesive seals to the closure of the nine vials, and incubate them at 20-25° C for 7 days follows by 30-35°C for 7 days. Inspect for microbial growth over 14 days. Sterile vials will remain clear and without bubbles, precipitate, cloudiness or changes in turbidity. Cloudiness, turbidity, bubbles or a precipitate on the bottom of any of the vials indicates bacterial contamination. All 6 vials must be sterile to constitute a passed test. The 3 control vials should become turbid or develop a precipitate demonstrating bacterial growth.

A positive media fill test sample indicates that the compounder has introduced microorganisms into the "product" and has failed the test. Infusion pharmacist will instruct the compounder with aseptic techniques and reinforce the SOPs.

The visual observation and the result of the media fill test will be documented on the "Assessing aseptic technique and related practices and media-fill test results *High Complexity Media Fill*" page of the Initial and Periodic training packets.

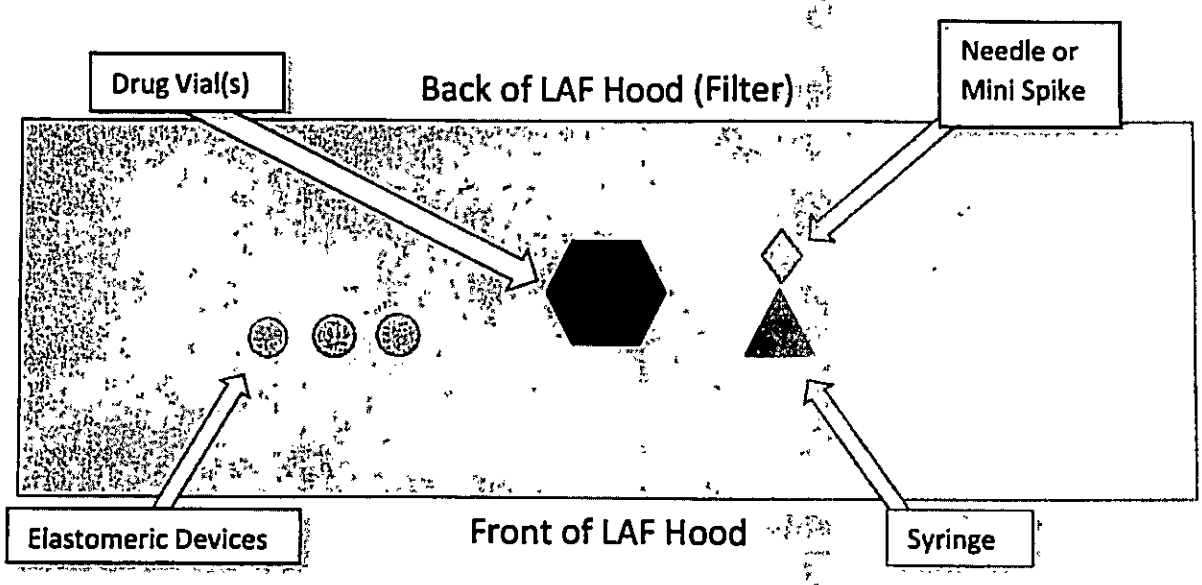
STERILE COMPOUNDING PROCESSES

Once paperwork is done and processed and the drug vials have been pulled you may enter the Ante room.

Step 1: Begin by wiping down all vials and totes with Sterile Isopropyl Alcohol before putting them over the demarcation line on the floor.

Step 2: Follow proper garbing and handwashing technique as illustrated below:



Compounding Process

Step 3: Clean the hood prior to compounding. Spray 70% Isopropyl alcohol on a lint-free cloth. DO NOT SPRAY ALCOHOL DIRECTLY TOWARD THE FILTER. Starting with the back filter if in a LAF hood, wipe in one direction starting at the top and working your way down. Next you will clean the ceiling, bar, walls, and finally work space on the hood. Repeating the process of one direction wiping from back of the hood to the front with a fresh cloth for each section of the hood.

Step 4: Once hood is clean grab all supplies needed to complete the IV order. Syringe, Needles, Sterile Alcohol wipes, elastomeric devices, etc..

Step 5: Spray all supplies and vials down with sterile alcohol before placing in the hood.

Step 6: Align all vials 6 inches from the back and the front of the hood. Allowing "First Air" to flow over the top of them.

Step 7: Spray gloves with Sterile Isopropyl Alcohol once all supplies are in the hood. Wipe vial top with a Sterile Alcohol pad.

Step 8: Using Sterile Water or Normal Saline, reconstitute the vial as per the package instructions or Compounding record.

Step 9: Allow vial to completely reconstitute before drawing up contents

Step 10: Wipe vial with Sterile Alcohol pad before puncturing to draw out contents.

Step 11: Verify compounding record for recipe for compound

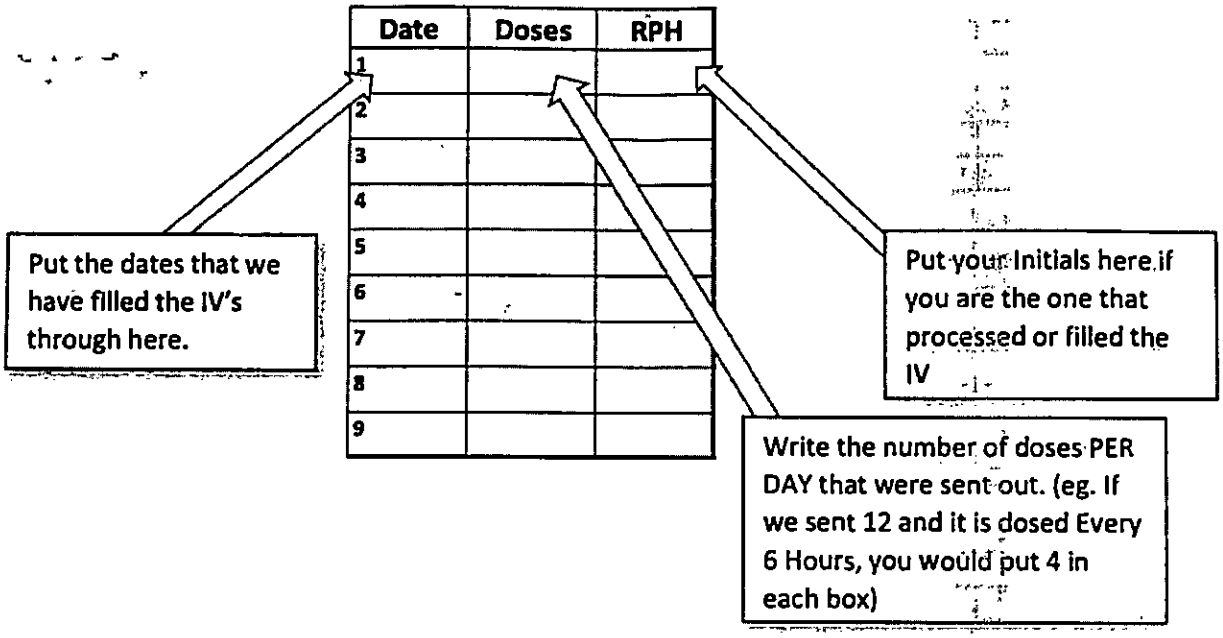
Step 12: Draw out correct mLs for dose and remove air from syringe

Step 13: Remove needle and attach syringe to Elastomeric. Depress plunger to inject contents into device. Place filled device to the side of the hood. DO NOT remove hands from hood to place in tote. Repeat until all doses are made.

Step 14: Place empty vial in tote along with filled Elastomerics. Discard all used items correctly, Place needle in sharps container.

Step 15: Repeat Step 3 and clean the hood using the proper process. (If there are multiple IV's being made, make sure you repeat this step by cleaning the workspace between each drug.)

Step 16: In the Ante room to de-garb all PPE, follow Step 2 in the opposite order. Removing shoe covers one at a time over the demarcation line.



Labeling Process

To label the Elastomeric Device, wrap the label around the tubing to flag it. Once all of the devices have been labeled, put them in the bag and then place in the tote with the filled-out compounding record (as talked about in the previous section) and the vial that was used. This will help the Pharmacist checking to know what was used in filling the compound.

Filling out the IV Order card

When you get a new IV you will need to fill out an IV order card if the therapy is going to last more than a day or two. This helps you know what IVs will need to be processed on the next processing day. Follow the instructions on the following page to correctly fill out the IV order card.

Nightly Cleaning Process

Follow these steps nightly to ensure proper cleaning of the IV ante and clean room.

Step 1: Garb up completely before entering the clean room.

Step 2: Clean and remove all debris off the floor and surfaces in the ante and clean room.

Step 3: Clean compounding hoods first. Using the technique shown in Step 3 of Compounding Process. Clean with a lint free towel damp with sterile alcohol. Remove sharps containers when cleaning inside the hood. Wipe down before returning to the hood.

Step 4: Remove all spiked Sterile Water or NS bags and their tubing from the hood. These are only to be used for 24 hours and need to be discarded at the end of the day.

Step 5: Clean all tables and other surfaces (eg. Trash cans and stools) using sterile 70% Isopropyl alcohol and lint free towels.

Step 6: Starting in the furthest corner of the room, soak a lint-free towel in Cavicide or other preferred disinfectant. Wipe the floor toward the door with the Cavicide. Once the whole floor has bee wiped down, let the Cavicide sit for two to three minutes.

Step 7: Once this is done, return to the clean room and repeat the floor cleaning step, this time with Sterile 70% Isopropyl Alcohol.

Step 8: To clean the Ante room, clean sink and other contact surfaces with Isopropyl alcohol.

Step 9: Repeat the floor cleaning process from the clean room in the ante room. Wipe floor from the furthest point in the ante room toward the door. First with Cavicide and then with Isopropyl alcohol.

Step 10: Replace sticky mat in front of ante room.

Monthly Cleaning Process

At the end of the month the clean room must be deep cleaned using a sporicidal cleaning agent. Every surface and container must have items removed and cleaned.

Step 1: Due to the nature of the sporicidal agents being used, more protective gear must be worn. Respirator and goggles must be added to normal garbing processes. Follow the normal garbing procedure and don sterile gloves as entering the Clean room.

Step 2: Move all wire racks and shelving off the wall.

Step 3: Remove all items from plastic containers and prepare them for cleaning.

Step 4: Clean the interior of the hoods using a damp lint-free towel soaked in the sporicidal agent. Follow the same cleaning order as detailed above (back, ceiling, bar, side walls, main work surface). Let it sit for the appropriate dwell-time (check sporicidal manufacturer information). Then thoroughly re-clean with sterile 70% isopropyl alcohol in the appropriate order.

Step 5: Clean the ceiling of the clean-room with damp lint-free towel soaked in the sporicidal agent. Start in the corner furthest from the door and work toward the door. Allow to sit for appropriate dwell-time according to sporicidal manufacturer. Then thoroughly re-clean with sterile 70% isopropyl alcohol in the same order.

Step 6: Clean the walls of the clean-room with damp lint-free towel soaked in the sporicidal agent. Start with walls furthest from the door and work toward the door and work from top to bottom on each wall. Allow to sit for appropriate dwell-time according to sporicidal manufacturer. Then thoroughly re-clean with sterile 70% isopropyl alcohol in the same order.

Step 7: Clean hood exteriors, racks, work tables, stools, garbage cans, and totes with damp lint-free towel soaked in the sporicidal agent. Be sure to get inside and outside of garbage can. Allow to sit for appropriate dwell-time according to sporicidal manufacturer. Then thoroughly re-clean with sterile 70% isopropyl alcohol.

Step 8: Clean the floor of the clean-room with damp lint-free towel soaked in the sporicidal agent. Start in the corner furthest from the door and work toward the door. Allow to sit for appropriate dwell-time according to sporicidal manufacturer. Then thoroughly re-clean with sterile 70% isopropyl alcohol in the same order.

Step 9: Clean the ante room following the same steps as the clean room on everything over the demarcation line. Starting with the ceiling and walls. Clean with a damp lint-free towel soaked with sporicidal agent. Let sit for the appropriate dwell time. Then thoroughly re-clean with sterile 70% isopropyl alcohol.

Step 10: Clean all surfaces in the ante room on the clean side of the demarcation line with a damp lint-free towel soaked in sporicidal agent. These include: the sink, any carts, wire racks, and totes. After letting it sit the appropriate dwell time, thoroughly re-clean all surfaces with sterile 70%Isopropyl alcohol.

Step 11: Clean the floor of the ante room with a damp lint-free towel soaked in sporicidal agent. Let it sit for the appropriate dwell time. Thoroughly re-clean with sterile 70% isopropyl alcohol.

Step 12: Remove and discard any used PPE that cannot be thoroughly wiped down and sanitized.

Step 13: Pull up and remove sticky mat in front of the ante room and replace with a fresh one for the next day.

Compounding Facilities engaged in simple, moderate or complex non-sterile or any level of sterile compounding activities shall be required to maintain proper records and procedure manuals and establish quality control measures to ensure stability, equivalency where applicable and sterility. The following requirements shall be met:(a)Shall follow USP-NF Chapter 795, compounding of non-sterile preparations, and USP-NF Chapter 797 if compounding sterile preparations [UAC R156-17b-614a (3)]

	Yes	No	GENERAL OPERATIONS AND INFORMATION
			Which categories of compounding does the facility perform?
1.	☐	☑	The pharmacy does perform compounding identified as **low-risk** [USP-NF Chapter 797- *USP Microbial Contamination Risk Levels- Low-Risk Level CSPs]*

☐ The CSPs are compounded with aseptic manipulations entirely within ISO Class 5 or better air quality using only sterile ingredients, products, components, and devices.

☐ The compounding involves only transfer, measuring, and mixing manipulations using not more than three commercially manufactured packages of sterile products and not more than two entries into any one sterile container or package (e.g., bag, vial) of sterile product or administration container/ device to prepare the CSP.

☐ Manipulations are limited to aseptically opening ampules, penetrating disinfected stoppers on vials with sterile needles and syringes, and transferring sterile liquids in sterile syringes to sterile administration devices, package containers of other sterile products, and containers for storage and dispensing.

☐ For a low-risk level preparation, in the absence of passing a sterility teste (see Sterility Tests <71>) the storage periods cannot exceed the following time periods: before administration, the CSPs are properly stored and are exposed for not more than 48 hours at controlled room temperature (see General Notices and Requirements), and for 45 days in solid frozen state between -25°and -10°.

☐ ☑ The pharmacy does perform compounding identified as **medium-risk**. When CSPs are compounded aseptically under Low-Risk Conditions and one or more of the following conditions exist, such CSPs are at a medium risk of contamination. [USP-NF Chapter 797- *USP Microbial Contamination Risk Levels- Medium-Risk Levels CSPs]*

☐ Multiple individual or small doses of sterile products are combined or pooled to prepare a CSP that will be administered to either multiple patients or to one patient on multiple occasions.

☐ The compounding process includes complex aseptic manipulations other than the single-volume transfer.

☐ The compounding process requires unusually long duration, such as that required to compete dissolution or homogenous mixing.

☐ For a medium-risk preparation, in the absence of passing a sterility test (see Sterility Tests <71>0, the storage periods cannot exceed the following time periods: before administration, the CSPs are properly stored and are exposed for not more than 30 hours at controlled room temperature (see Generals Notices and Requirements), and for 45 days in solid frozen state between 25°and -10°.

☑ ☐ The pharmacy does perform compounding identified as **high-risk** [USP-NF Chapter 797- *USP Microbial Contamination Risk Levels- High-Risk Levels CSPs]*

☑ Non sterile ingredients, including manufactured products not intended for sterile routes of administration (e.g. oral), are incorporated or a non-sterile device is employed before terminal sterilization.

☐ Any of the following are exposed to air quality worse than ISO 5 for more than 1 hour (see *Immediate-Use CSPs*):

- ☐ Sterile contents of commercially manufactured products;
- ☐ CSPs that lack effective antimicrobial preservative, and
- ☐ Sterile surfaces of devices and containers for the preparation, transfer, sterilization, and packaging of CSPs

☐ Compounding personnel are improperly garbed and gloved (see *Personnel Cleansing and Use of Barrier Protective Equipment).*

☐ Nonsterile water-containing preparations are stored for more than 6 hours before being sterilized.

☐ It is assumed, and not verified by examination of labeling and documentation from suppliers or by direct determination, that the chemical purity and content strength of ingredients meet their original or compendia specifications in unopened or in opened packages of bulk ingredients (see *Ingredient Selection under Pharmaceutical Compounding- Non-Sterile Preparations <795>).*

☐ In the absence of passing a sterility test, the storage periods cannot exceed the following time periods: before administration, the CSPs are properly stored and are exposed for not more than 24 hours at controlled room temperature (see *General Notices and Requirements),* for not more than 3 days at a cold temperature (*see General Notices and Requirements),* and for 45 days in a solid frozen state between 25°and -10°.

☐ ☑ **Immediate-use provision in intended only for those situation where there is a need for emergency or immediate patient administration of a CSP.** Such situations may include cardiopulmonary resuscitation, emergency room treatment, preparation of diagnostic agents, or critical therapy where the preparation of the CSP under conditions described for Low-Risk Level CSPs subjects the patient to additional risk due to delays in therapy. Immediate-use CSPs are not intended for storage for anticipated needs or batch compounding. Preparations that are medium-risk level and high-risk level CSPs shall not be prepared as immediate-use CSPs. [USP-NF Chapter 797- *Immediate-use CSPs*]

☐ ☑ **Immediate-use CSPs** are exempt from the requirements described for Low-Risk Label CSPs only when all of the following are met: [USP-NF Chapter 797- *Immediate-use CSPs]*

☐ The compounding process involves simple transfer of not more than three commercially manufactured packages of sterile nonhazardous products or diagnostic radiopharmaceutical products from the manufacturer's' original containers and not more than two entries into any one container or package (e.g., bag, vial) of sterile infusion solution or administration container/device. For example, anti-neoplastics shall not be prepared as immediate-use CSPs because they are hazardous drugs.

☐ Unless required for the preparation, the compounding procedure is a continuous process not to exceed 1 hour.

☐ During preparation, aseptic technique is followed and, if not immediately administered, the finished CSP is under continuous supervision to minimize the potential for contact with nonsterile surfaces, introduction of particulate matter or biological fluids, mixups with other CSPs, and direct contact of outside surfaces.

☐ Administration begins not later than 1 hour following the start of the preparation of the CSP.

☐ Unless immediately and completely administered by the person who prepared it or immediate and complete administration is witnessed by the preparer, the CSP shall bear a label listing patient identification information, the names and amounts of all ingredients, the name or initials of the person who prepared the CSP, and the exact 1-hour BUD and time.

☐ If administration has not begun within 1 hour following the start of preparing the CSP, the CSP shall be promptly, properly, and safely discarded.

h. ☑ **Verifying the correct identity and quality** of CSPs before they are dispensed and administered: [USP-NF Chapter 797- *Finished Preparation Release Checks and Tests, Identity and Strength Verification of Ingredients*]

- ☑ Labels of CSPs bear correct names and amounts or concentrations of ingredients, the total volume, the BUD, the appropriate route(s) of administration, the storage conditions, and other information for safe use.
- ☑ That there are correct identities, purities, and amounts of ingredients by comparing the original written order with the written compounding record for the CSP.
- ☑ That correct fill volumes in CSPs and correct quantities of filled units of the CSPs were obtained. When the strength of finished CSPs cannot be confirmed to be accurate, based on the above three inspections, the CSPs shall be assayed by methods that are specific for the active ingredients.

i. ☑ To ensure consistent practices in determining and assigning BUDs, the compounding facility should have written policies and procedures governing the **determination of the BUDs** for all compounded products. The SOP manual of the compounding facility and each specific CSP formula record shall describe the general basis used to assign the BUD and storage conditions. [USP-NF Chapter 797- *Storage and Beyond-Use Dating*]

j. ☑ The **compounding procedures and sterilization methods** for CSPs correspond to correctly designed and verified written documentation in the compounding facility. Establishing, maintaining, and ensuring compliance with comprehensive written policies and procedures encompassing these responsibilities is a further responsibility of the compounding facility. Where noncompounding personnel are assigned tasks involving any of these responsibilities, the policies and procedures encompassing those tasks should be developed by compounding supervisors. [USP-NF Chapter 797- Maintaining Sterility, Purity, and Stability of Dispensed and Distributed CSPs]

m. ☑ Inappropriate processes or techniques involved with packaging, handling, and transport can adversely affect quality and package integrity of CSPs. Although compounding personnel routinely perform many of the tasks associated with these functions, some tasks, such as **transport, handling, and placement into storage, may be fulfilled by noncompounding personnel** who are not under the direct administrative control of the compounding facility. Under these circumstances, appropriate SOPs shall be established by the compounding facility with the involvement of other departments or services whose personnel are responsible for carrying out those CSP-related functions for which the compounding facility has a direct interest. The performance of the noncompounding personnel is monitored for compliance to established policies and procedures. [USP- NF Chapter 797- *Maintaining Sterility, Purity, and Stability of Dispensed and Distributed CSPs- Packaging, Handling, and Transport*]

n. ☑ **When CSPs are distributed to locations outside the premises** in which they are compounded, compounding personnel select packing containers and materials that are **expected to maintain physical integrity, sterility, and stability of CSPs during transit.** Packing is selected that simultaneously protects CSPs from damage, leakage, contamination, and degradation, and protects personnel who transport packed CSPs from harm. The SOP manual of the compounding facility specifically describes appropriate packing containers and insulating and stuffing materials, based on information from product specifications, vendors, and experience of compounding personnel. Written instructions that clearly explain how to safely open containers of packed CSPs are provided to patients and other recipients. [USP-NF Chapter 797- *Maintaining Sterility, Purity, and Stability of Dispensed and Distributed CSPs- Packing and Transporting CSPs- Packing CSPs for Transit*]

o. N/A ☐ SOPs must exist to ensure that **storage conditions in the patient-care setting** are suitable for the CSP-specific storage requirements. [USP-NF Chapter 797- *Maintaining Sterility, Purity, and Stability of Dispensed and Distributed CSPs- Packing and Transporting CSPs, Use and Storage*]

☐ Procedures include daily monitoring and documentation of drug storage refrigerators to ensure temperatures between 2° and 8°

☐ and the monthly inspection of all drug storage locations by compounding personnel.

p. ☑ The SOP manuals of compounding facilities shall describe **specific instructions for receiving, acknowledging, and dating receipts, and for recording, or filing, and evaluating reports of adverse events and of the quality of preparation** claimed to be associated with CSPs. Reports of adverse events with CSPs shall be reviewed promptly and thoroughly by compounding supervisors to correct and prevent future occurrences. Compounding personnel are encouraged to participate in adverse event reporting and product defects programs of the FDA and USP. [USP-NF Chapter 797- *Patient Monitoring and Adverse Events Reporting*]

Personnel Training and Requirements

18. ☑ ☐ A written description of specific training and performance evaluation program for individuals involved in the use of aseptic techniques for the preparation of sterile products shall be developed for each site. This program equips personnel with the appropriate knowledge and trains them in the required skills necessary to perform the assigned tasks. **Each person assigned to the aseptic area in the preparation of sterile products shall successfully complete specialized training in aseptic techniques and aseptic area practices prior to preparing CSPs** (see Personnel Training and Evaluation in Aseptic Manipulation Skills and Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices and Cleaning/Disinfection Procedures). [USP-NF Chapter 797 - *Elements of Quality Control*]

19. ☑ ☐ **Personnel who prepare CSPs shall be trained** conscientiously and skillfully **by expert personnel, multi-media instructional sources, and professional publications** in the theoretical principles and practical skills of **garbing procedures, aseptic work practices, achieving and maintaining ISO Class 5 environmental conditions, and cleaning and disinfection procedures.** [USP-NF Chapter 797- *Appendix I-Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices and Cleaning/Disinfection Procedures*]

20. ☑ ☐ Compounding personnel shall complete: [USP-NF Chapter 797- *Appendices- Appendix I-Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices and Cleaning/Disinfection Procedures*]

☑ didactic training, ☑ pass written competence assessments,

☑ undergo skill assessment using observational audit tools, ☑ and media-fill testing.

21. ☑ ☐ **Compounding personnel shall be visually observed during the process of performing hand hygiene and garbing procedures** (see *Personnel Cleansing* and *Garbing* under *Personnel Training and Evaluation in Aseptic Manipulation Skills* above). **The visual observation shall be documented** on a form such as the Sample Form for Assessing Hand Hygiene and Garbing Related Practices of Compounding Personnel (see Appendix III) and maintained to provide a permanent record and long-term assessment of personnel competency. [USP-NF Chapter

797- *Environmental Quality and Control - Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices, and Cleaning/Disinfection Procedures- Competency Evaluation of Garbing and Aseptic Work Practice*]

22. ☑ ☐ **Sampling of compounding personnel glove fingertips shall be performed for all CSP risk level compounding** because direct touch contamination is the most likely source of introducing microorganisms into CSPs prepared by humans. Glove fingertip sampling **shall be used to evaluate the competency of personnel in performing hand hygiene and garbing procedures in addition to educating compounding personnel on proper work practices, which include frequent and repeated glove disinfection using sterile 70% IPA during actual compounding of CSPs.** All personnel shall demonstrate competency in proper hand hygiene and garbing procedures and in aseptic work practices (e.g., disinfection of component surfaces, routine disinfection of gloved hands). [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices, and Cleaning/Disinfection Procedures- Competency Evaluation of Garbing and Aseptic Work Practice*]

23. ☑ ☐ **Sterile contact agar plates shall be used to sample the gloved fingertips** of compounding personnel **after garbing** in order to assess garbing competency and **after completing the media-fill preparation** (without applying sterile 70% IPA) in order to assess the adequacy of aseptic work practices prior to being initially allowed to prepare CSPs for human use and for more experienced personnel to maintain their qualifications to prepare CSPs for human use. [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices, and Cleaning/Disinfection Procedures- Competency Evaluation of Garbing and Aseptic Work Practice*]

24. ☑ ☐ **All compounding personnel shall successfully complete an initial competency evaluation and gloved fingertip/thumb sampling procedure (zero cfu) no less than three times before initially being allowed to compound CSPs for human use.** Immediately after the compounding employee completes the hand hygiene and garbing procedure (e.g., donning of sterile gloves prior to any disinfection with sterile 70% IPA), the evaluator will collect a gloved fingertip and thumb sample from both hands of the compounding employee onto appropriate agar plates by lightly pressing each fingertip into the agar. The plates will be incubated for the appropriate incubation period and at the appropriate temperature (see Incubation Period). **After completing the initial gowning and gloving competency evaluation, re-evaluation of all compounding personnel for this competency shall occur at least annually for personnel who compound low- and medium-risk level CSPs and semi-annually for personnel who compound high-risk level CSPs** using one or more sample collections during any media-fill test procedure before they are allowed to continue compounding CSPs for human use. [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices, and Cleaning/Disinfection Procedures- Competency Evaluation of Garbing and Aseptic Work Practice*]

25. ☑ ☐ **After successful completion of an initial Hand Hygiene and Garbing Competency Evaluation, all compounding personnel shall have their aseptic technique and related practice competency evaluated initially during the Media-Fill Test Procedure and subsequent annual or semi-annual Media-Fill Test Procedures.** Records of these evaluations will be maintained using a form such as the Sample Form for Assessing Aseptic Technique and Related Practices of Compounding Personnel (see Appendix IV) and maintained to provide a permanent record of and long-term assessment of personnel competency. [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices, and Cleaning/Disinfection Procedures- Competency Evaluation of Garbing and Aseptic Work Practice*]

26. ☑ ☐ **Compounding personnel shall perform didactic review and pass written and media-fill testing of aseptic manipulative skills initially, at least annually thereafter for low- and medium-risk level compounding, and semiannually for high-risk level compounding.** Compounding personnel who fail written tests or whose media-fill test vials result in gross microbial colonization shall be immediately re-instructed and re-evaluated by expert compounding personnel to ensure correction of all aseptic practice deficiencies. [USP-NF Chapter 797- *Personnel Training and Evaluation in Aseptic Manipulation Skills*]

27. ☑ ☐ **Compounding personnel and other personnel responsible for cleaning shall be visually observed during** the process of performing **cleaning and disinfecting procedures**, during **initial personnel training** on cleaning procedures, during **changes in cleaning staff**, and at the **completion of any media-fill test procedure** (see Cleaning and Disinfecting of Compounding Areas). [USP-NF Chapter 797- Environmental Quality and Control - Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices, and Cleaning/ Disinfection-Procedures, Surface Cleaning and Disinfection Sampling and Assessment]

28. ☑ ☐ **In the event that cleaning and disinfecting procedures are also performed by other support personnel** (e.g., institutional environmental services, housekeeping), thorough training of proper hand hygiene, garbing, and cleaning and disinfection procedures shall be done by a qualified aseptic compounding expert. After completion of training, support **personnel shall routinely undergo performance evaluation of proper hand hygiene, garbing, and all applicable cleaning and disinfecting procedures conducted by a qualified aseptic compounding expert.** [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices, and Cleaning/Disinfection Procedures*]

29. ☐ ☐ **Compounding personnel of reproductive capability shall confirm in writing that they understand the risks of handling hazardous drugs.** The **training shall include** at least the following: [USP- NF Chapter 797- *Hazardous Drugs as CSPs*]

N/A
- ☐ safe aseptic manipulation practices;
- ☐ negative pressure techniques when utilizing a BSC or CACI;
- ☐ correct use of CSTD devices;
- ☐ containment, cleanup, and disposal procedures for breakages and spills; and
- ☐ treatment of personnel contact and inhalation exposure.

Handwashing and Garbing

30. ☑ ☐ **When individuals are experiencing rashes, sunburn, weeping sores, conjunctivitis, active respiratory infection, as well as when they wear cosmetics, they shed these particles at even higher rates.** Particles shed from compounding personnel pose an increased risk of microbial contamination of critical sites of CSPs. **Therefore, compounding personnel with such conditions as mentioned above shall be excluded from working in ISO Class 5 (see Table 1) and ISO Class 7 (see Table 1) compounding areas until their conditions are remedied.** [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Cleansing and Garbing*]

31. ☑ ☐ **Before entering the buffer area or segregated compounding area** (see Low-Risk Level CSPs with 12-Hour or Less BUD), **compounding personnel shall remove personal outer garments** (e.g., bandannas, coats, hats, jackets, scarves, sweaters, vests); **all cosmetics, because they shed flakes and particles; and all hand, wrist, and other visible jewelry or piercings** (e.g., earrings, lip or eyebrow piercings) that can interfere with the effectiveness of PPE (e.g., fit of gloves and cuffs of sleeves). **The wearing of artificial nails or extenders is prohibited** while working in the sterile compounding environment. **Natural nails shall be kept neat and trimmed.** [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Cleansing and Garbing*]

32. ☑ ☐ **Personnel shall don the following PPE in an order that proceeds from those activities considered the dirtiest to those considered the cleanest.** Garbing activities considered the dirtiest include donning of ☑ dedicated shoes or shoe covers, ☑ head and facial hair covers (e.g., beard covers in addition to face masks), and ☑ face masks/eye shields. Eye shields are optional unless working with irritants such as germicidal disinfecting agents or when preparing hazardous drugs. [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Cleansing and Garbing*]

33. ☑ ☐ **After donning dedicated shoes or shoe covers, head and facial hair covers, and face masks, a hand cleansing procedure shall be performed by removing debris from underneath fingernails using a nail cleaner under running warm water followed by vigorous hand washing. Hands and forearms shall be washed to the elbows for at least 30 seconds with soap (either nonantimicrobial or antimicrobial) and water while in the ante-area.** The use of antimicrobial scrub brushes is not recommended because they can cause skin irritation and skin damage. Hands and forearms to the elbows will be completely dried using either lintfree disposable towels or an electronic hand dryer. ☑ **After completion of hand washing, a nonshedding gown with sleeves that fit snugly around the wrists and enclosed at the neck is donned.** Gowns designated for buffer area use shall be worn, and **preferably they should be disposable. If reusable gowns are worn, they should be laundered appropriately for buffer area use.** [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Cleansing and Garbing*]

34. ☑ ☐ **Once inside the buffer area or segregated compounding area** (see Low-Risk Level CSPs with 12-Hour or Less BUD), and **prior to donning sterile powder-free gloves, antiseptic hand cleansing shall be performed using a waterless alcohol-based surgical hand scrub with persistent activity following manufacturers' recommendations. Hands are allowed to dry thoroughly before donning sterile gloves. [USP-NF Chapter 797- Environmental Quality and Control - Personnel Cleansing and Garbing].**

35. ☑ ☐ **Sterile gloves shall be the last item donned before compounding begins.** Gloves become contaminated when they contact nonsterile surfaces during compounding activities. Disinfection of contaminated gloved hands may be accomplished by wiping or rubbing sterile 70% IPA to all contact surface areas of the gloves and letting the gloved hands dry thoroughly. Only use gloves that have been tested for compatibility with alcohol disinfection by the manufacturer. **Routine application of sterile 70% IPA shall occur throughout the compounding process** and whenever nonsterile surfaces (e.g. vials, counter tops, chairs, carts) are touched. **Gloves on hands shall also be routinely inspected for holes, punctures, or tears and replaced immediately if such are detected.** Antiseptic hand cleansing shall be performed as indicated above. Compounding personnel. [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Cleansing and Garbing*]

36. ☑ ☐ **When compounding personnel exit the compounding area** during a work shift, the exterior gown may be removed and retained in the compounding area if not visibly soiled, to be re-donned during that same work shift only. However, **shoe covers, hair and facial hair covers, face masks/eye shields, and gloves shall be replaced with new ones before re-entering the compounding area, and proper hand hygiene shall be performed.** [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Cleansing and Garbing*]

37. ☑ ☐ **During high-risk compounding activities that precede terminal sterilization, such as weighing and mixing of nonsterile ingredients, compounding personnel shall be garbed and gloved the same as when performing compounding in an ISO Class 5** (see Table 1) environment. Properly garbed and gloved **compounding personnel who are exposed to air quality that is either known or suspected to be worse than ISO Class 7 (see Table 1) shall re-garb PPE along with washing their hands properly, performing antiseptic hand cleansing with a waterless alcohol-based surgical hand scrub, and donning sterile gloves upon reentering the ISO Class 7 (see Table 1) buffer area. When CAIs and CACIs are the source of the ISO Class 5 (see Table 1) environment, the garbing and gloving requirements for compounding personnel should be as described above, unless the isolator manufacturer can provide written documentation based on validated environmental testing that any component(s) of PPE or personnel cleansing are not required.** [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Cleansing and Garbing*]

38. ☑ ☐ **Cleaning and disinfecting shall occur before compounding is performed.** Items shall be removed from all areas to be cleaned, and surfaces shall be cleaned by removing loose material and residue from spills; for example, water soluble solid residues are removed with sterile water (for injection or irrigation) and lowshedding wipes. This shall be followed by wiping with a residue-free disinfecting agent such as sterile 70% IPA, which is allowed to dry before compounding begins. [USP-NF Chapter 797- *Environmental Quality and Control - Cleaning and Disinfecting the Compounding Area*]

39. ☑ ☐ <u>Cleaning Requirements</u>

Cleaning and disinfecting surfaces in the **LAFWs, BSCs, CAIs, and CACIs** are the most critical practices before the preparation of CSPs. Consequently, such **surfaces shall be cleaned and disinfected frequently, including at the beginning of each work shift, before each batch preparation is started, every 30 minutes during continuous compounding periods of individual CSPs, when there are spills, and when surface contamination is known or suspected from procedural breaches.** [USP-NF Chapter 797- *Environmental Quality and Control - Cleaning and Disinfecting the Compounding Area*]

40. ☑ ☐ **Work surfaces in the ISO Class 7 (see Table 1) buffer areas and ISO Class 8 (see Table 1) ante-areas as well as segregated compounding areas shall be cleaned and disinfected at least daily,** and dust and debris shall be removed when necessary from storage sites for compounding ingredients and supplies using a method that does not degrade the ISO Class 7 or 8 (see Table 1) air quality (see Disinfectants and Antiseptics <1072>). [USP-NF Chapter 797- *Environmental Quality and Control - Cleaning and Disinfecting the Compounding Area*]

41. ☑ ☐ **Floors in the buffer or clean area, ante-area, and segregated compounding area are cleaned by mopping with a cleaning and disinfecting agent once daily at a time when no aseptic operations are in progress.** Mopping shall be performed by trained personnel using approved agents and procedures described in the

written SOPs. It is incumbent on compounding personnel to ensure that such cleaning is performed properly. [USP-NF Chapter 797- *Environmental Quality and Control - Cleaning and Disinfecting the Compounding Area*]

42. ☑ ☐ In the buffer or clean area, ante-area, and segregated compounding area, walls, ceilings, and shelving shall be cleaned and disinfected monthly. [USP-NF Chapter 797- *Environmental Quality and Control - Cleaning and Disinfecting the Compounding Area*]

43. ☑ ☐ **Cleaning and disinfecting agents** are to be used with careful consideration of compatibilities, effectiveness, and inappropriate or toxic residues (see Appendix II). Their **schedules of use and methods of application shall be in accordance with written SOPs and followed by custodial or compounding personnel.** [USP-NF Chapter 797- *Environmental Quality and Control - Cleaning and Disinfecting the Compounding Area*]

44. ☑ ☐ All **cleaning materials, such as wipers, sponges, and mops, shall be nonshedding**, preferably composed of synthetic micro fibers, and **dedicated to use in the buffer or clean area, ante-area, and segregated compounding areas and shall not be removed from these areas except for disposal.** Floor mops may be used in both the buffer or clean area and ante-area, but only in that order. Ideally, all cleaning tools are discarded after one use by collection in suitable plastic bags and removed with minimal agitation. If cleaning materials (e.g., mops) are reused, procedures shall be developed (based on manufacturers' recommendations) that ensure that the effectiveness of the cleaning device is maintained and that repeated use does not add to the bioburden of the area being cleaned. [USP-NF Chapter 797- *Environmental Quality and Control - Cleaning and Disinfecting the Compounding Area*]

45. ☑ ☐ **Supplies and equipment removed from shipping cartons shall be wiped with a suitable disinfecting agent** (e.g., sterile 70% IPA) delivered from a spray bottle or other suitable delivery method. After the disinfectant is sprayed or wiped on a surface to be disinfected, the disinfectant **shall be allowed to dry, during which time the item shall not be used for compounding purposes.** [USP-NF Chapter 797- *Environmental Quality and Control - Cleaning and Disinfecting the Compounding Area*]

Facilities and Environmental Monitoring

46. ☑ ☐ Surface sampling is an important component of the maintenance of a suitable microbially controlled environment for compounding CSPs, especially since transfer of microbial contamination from improperly disinfected work surfaces via inadvertent touch contact by compounding personnel can be a potential source of contamination into CSPs. It is useful for evaluating facility and work surface cleaning and disinfecting procedures and employee competency in work practices such as disinfection of component/vial surface cleaning. **Surface sampling shall be performed in all ISO classified areas on a periodic basis.** Sampling can be accomplished using contact plates or swabs, and it **shall be done at the conclusion of compounding. Locations to be sampled shall be defined in a sample plan or on a form.** The size of the plate to be used for each sampled location usually ranges from 24 to 30 cm2. Contact plates are filled with general solid agar growth medium and neutralizing agents above the rim of the plate, and they are used for sampling regular or flat surfaces. Swabs may be used for sampling irregular surfaces, especially for equipment (see Microbiological Control and Monitoring of Aseptic Processing Environments <1116>). [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices, and Cleaning/Disinfection Procedures- Surface Cleaning and Disinfection Sampling and Assessment*]

47. ☑ ☐ The value of viable microbial monitoring of gloved fingertips and surfaces of components and the compounding environment are realized when the data are used to identify and correct an unacceptable work practice. **Sampling data shall be collected and reviewed on a routine basis as a means of evaluating the overall control of the compounding environment. If an activity consistently shows elevated levels of microbial growth, competent microbiology personnel shall be consulted.** [USP-NF Chapter 797- *Environmental Quality and Control - Action Levels, Documentation, and Data Evaluation*]

48. ☑ ☐ Food, drinks, and materials exposed in patient care and treatment areas shall not enter ante-areas, buffer areas, or segregated compounding areas where components and ingredients of CSPs are present. [USP-NF Chapter 797- Environmental Quality and Control- Additional Personnel Requirements]

49. ☑ ☐ **Compounding facilities shall have an adequate space that is specifically designated for compounding of prescriptions. This space shall provide for the orderly placement of equipment and materials to prevent mixups** among ingredients, containers, labels, in-process materials, and finished preparations and is designed, arranged, and used to prevent adventitious cross-contamination. Areas used for sterile preparations shall be separated and distinct from the nonsterile compounding area (see Pharmaceutical Compounding—Sterile Preparations <797>, Environmental Quality and Control). [USP-NF Chapter 795- Compounding Facilities]

50. ☐ ☑ The surfaces of ceilings, walls, floors, fixtures, shelving, counters, and cabinets in the buffer area shall be smooth, impervious, free from cracks and crevices, and nonshedding, thereby promoting cleanability, and minimizing spaces in which microorganisms and other contaminants may accumulate. The surfaces shall be resistant to damage by disinfectant agents. [USP-NF Chapter 797- *Environmental Quality and Control- Facility Design and Environmental Controls]*

See notes

51. ☑ ☐ Junctures of ceilings to walls shall be coved or caulked to avoid cracks and crevices where dirt can accumulate. If ceilings consist of inlaid panels, the panels shall be impregnated with a polymer to render them impervious and hydrophobic, and they shall be caulked around each perimeter to seal them to the support frame. [USP-NF Chapter 797- *Environmental Quality and Control- Facility Design and Environmental Controls*]

52. ☑ ☐ Any other penetrations through the ceiling or walls shall be sealed. [USP-NF Chapter 797- *Environmental Quality and Control- Facility Design and Environmental Controls*]

53. ☑ ☐ The buffer area shall not contain sources of water (sinks) or floor drains. [USP-NF Chapter 797- *Environmental Quality and Control- Facility Design and Environmental Controls*]

54. ☑ ☐ Work surfaces shall be constructed of smooth, impervious materials, such as stainless steel or molded plastic, so that they are easily cleaned and disinfected. [USP-NF Chapter 797- *Environmental Quality and Control- Facility Design and Environmental Controls*]

55. ☑ ☐ Storage shelving, counters, and cabinets shall be smooth, impervious, free from cracks and crevices, nonshedding, cleanable, and disinfectable; their number, design, and manner of installation shall promote effective cleaning and disinfection. [USP-NF Chapter 797- *Environmental Quality and Control- Facility Design and Environmental Controls*]

56. ☑ ☐ There shall be some demarcation designation that separates the ante-area from the buffer area. [USP-NF Chapter 797-Environmental Quality and Control- Additional Personnel Requirements]

57. ☐ ☑ **To ensure that product potency is retained through the manufacturer's labeled expiration date, compounding personnel shall monitor the drug storage areas within the compounding facility.** Controlled temperature areas in compounding facilities include controlled room temperature, 20° to 25° with mean kinetic temperature 25°; controlled cold temperature, 2° to 8° with mean kinetic temperature 8°; cold temperature, 2° to 8°; freezing temperature, –25° and –10° (see General Notices and Requirements) if needed to achieve freezing, and the media-specific temperature range for microbial culture media. A **controlled temperature area shall be monitored at least once daily and the results documented on a temperature log. Additionally, compounding personnel shall note the storage temperature when placing the product into or removing the product from the storage unit in order to monitor any temperature aberrations.** Suitable temperature recording devices may include a calibrated continuous recording device or a National Institute of Standards and Technology (NIST) calibrated thermometer that has adequate accuracy and sensitivity for the intended purpose, and it shall be properly calibrated at suitable intervals. **If the compounding facility uses a continuous temperature recording device, compounding personnel shall verify at least once daily that the recording device itself is functioning properly.** [USP-NF Chapter 797- *Storage and Beyond Use Dating- Monitoring Controlled Storage Areas*]

See Notes

58. ☑ ☐ **Certification that each ISO classified area, for example, ISO Class 5, 7, and 8 (see Table 1), is within established guidelines shall be performed no less than every 6 months and whenever the LAFW, BSC, CAI, or CACI is relocated or the physical structure of the buffer area or ante-area has been altered.** Testing shall be performed by qualified operators using current, state-of-the-art electronic equipment with results of the following: [USP-NF Chapter 797- *Environmental Quality and Control- Viable and Nonviable Environmental Sampling (ES) Testing- Total Particle Counts*]

☑ ISO Class 5: not more than 3520 particles 0.5 mm and larger size per cubic meter of air for any LAFW, BSC, CAI, and CACI;
☑ ISO Class 7: not more than 352,000 particles of 0.5 mm size and larger per cubic meter of air for any buffer area;
☑ ISO Class 8: not more than 3,520,000 particles or 0.5 mm size and larger per cubic meter of air for any ante-area.

59. ☑ ☐ **All certification records shall be maintained and reviewed by supervising personnel or other designated employees** to ensure that the controlled environments comply with the proper air cleanliness, room pressures, and ACPHs. [USP-NF Chapter 797- *Environmental Quality and Control- Viable and Nonviable Environmental Sampling (ES) Testing- Total Particle Counts*]

60. ☑ ☐ **A pressure gauge or velocity meter shall be installed to monitor the pressure** differential or airflow between the buffer area and the ante-area and between the ante-area and the general environment outside the compounding area. [USP-NF Chapter 797- *Environmental Quality and Control- Viable and Nonviable Environmental Sampling (ES) Testing- Pressure Differential Monitoring*]

61. ☑ ☐ **The results shall be reviewed and documented on a log at least every work shift** (minimum frequency shall be at least daily) or by a continuous recording device. [USP-NF Chapter 797- *Environmental Quality and Control- Viable and Nonviable Environmental Sampling (ES) Testing- Pressure Differential Monitoring*]

62. ☑ ☐ **The pressure between the ISO Class 7 (see Table 1) and the general pharmacy area shall not be less than 5 Pa (0.02 inch water column). In facilities where low- and medium-risk level CSPs are prepared, differential airflow shall maintain a minimum velocity of 0.2 meters per second (40 feet per minute) between buffer area and ante-area.** [USP-NF Chapter 797- *Environmental Quality and Control- Viable and Nonviable Environmental Sampling (ES) Testing- Pressure Differential Monitoring*]

63. ☑ ☐ **The buffer area shall maintain at least ISO Class 7 (see Table 1) conditions for 0.5-mm and larger particles under dynamic operating conditions.** The room shall be segregated from surrounding, unclassified spaces to reduce the risk of contaminants being blown, dragged, or otherwise introduced into the filtered unidirectional airflow environment, and this segregation shall be continuously monitored. [USP-NF Chapter 797 - *Environmental Quality and Control- Facility Design and Environmental Controls*]

64. ☑ ☐ For rooms providing a physical separation through the use of walls, doors, and pass-throughs, a minimum differential positive pressure of 0.02- to 0.05- inch water column is required. [USP-NF Chapter 797 - *Environmental Quality and Control- Facility Design and Environmental Controls*]

65. ☑ ☐ For buffer areas not physically separated from the ante-areas, the principle of displacement airflow shall be employed. This concept utilizes a low pressure differential, high airflow principle. Using displacement airflow typically requires an air velocity of 40 ft per minute or more from the buffer area across the line of demarcation into the ante-area. [USP-NF Chapter 797 - *Environmental Quality and Control- Facility Design and Environmental Controls*]

66. ☑ ☐ **An ISO Class 7 (see Table 1) buffer area and ante-area supplied with HEPA-filtered air shall receive an ACPH of not less than 30.** The PEC is a good augmentation to generating air changes in the air supply of an area but cannot be the sole source of HEPA-filtered air. If the area has an ISO Class 5 (see Table 1) recirculating device, a minimum of 15 ACPHs through the area supply HEPA filters is adequate, providing the combined ACPH is not less than 30. [USP-NF Chapter 797- *Environmental Quality and Control- Facility Design and Environmental Controls*]

67. ☑ ☐ **HEPA-filtered supply air shall be introduced at the ceiling, and returns should be mounted low on the wall,** creating a general top-down dilution of area air with HEPA-filtered make-up air. Ceiling-mounted returns are not recommended. [USP-NF Chapter 797- *Environmental Quality and Control- Facility Design and Environmental Controls*]

68. ☑ ☐ **Activities and tasks carried out within the buffer area shall be limited to only those necessary when working within a controlled environment.** Only the **furniture, equipment, supplies, and other material required for the compounding activities to be performed shall be brought into the area, and they shall be nonpermeable, nonshedding, cleanable, and resistant to disinfectants.** Whenever such items are **brought into the area, they shall first be cleaned and disinfected.** Whenever possible, **equipment and other items used in the buffer area shall not be taken out of the area except for calibration, servicing, or other activities associated with the proper maintenance of the item.** [USP-NF Chapter 797- Environmental Quality and Control- Facility Design and Environmental Controls]

69. ☑ ☐ Secondary engineering controls such as buffer areas and ante-areas generally serve as a core for the location of the PEC. **Buffer areas are designed to maintain at least ISO Class 7 (see Table 1) conditions for 0.5-mm particles under dynamic conditions and ISO Class 8 (see Table 1) conditions for 0.5-mm and larger particles under dynamic conditions for the ante-areas.** [USP-NF Chapter 797 *Environmental Quality and Control, Facility Design and Environmental Controls*]

70. ☑ ☐ **PECs (LAFWs, BSCs, CAIs, and CACIs) and secondary engineering controls (buffer and ante-areas)** are essential components of the overall contamination control strategy for aseptic compounding. As such, it is imperative that they perform as designed and that the resulting levels of contamination be within acceptable limits. **Certification procedures such as those outlined in Certification Guide for Sterile Compounding Facilities (CAG-003-2006) shall be performed by a qualified individual no less than every 6 months and whenever the device or room is relocated or altered or major service to the facility is performed.** [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Nonviable Particle Testing Program*]

71. ☑ ☐ PECs typically include, but are not limited to, LAFWs, BSCs, CAIs, and CACIs, which provide an ISO Class 5 (see Table 1) environment for the exposure of critical sites. **PECs shall maintain ISO Class 5 (see Table 1) or better conditions for 0.5-mm particles (dynamic operating conditions) while compounding CSPs.** [USP-NF Chapter 797 -*Environmental Quality and Control, Facility Design and Environmental Controls*]

72. ☑ ☐ **The PEC shall be placed within a buffer area in such a manner as to avoid conditions that could adversely affect their operation.** For example, strong air currents from opened doors, personnel traffic, or air streams from the HVAC systems can disrupt the unidirectional airflow in open-faced workbenches. [USP-NF Chapter 797 - *Environmental Quality and Control, Facility Design and Environmental Controls*]

73. ☑ ☐ **PECs (LAFWs, BSCs, CAIs, and CACIs) shall be located within a restricted access ISO Class 7 (see Table 1) buffer area (see Figure 1),** with the following CAI/CACI exceptions below: [USP-NF Chapter 797 - *Environmental Quality and Control, Facility Design and Environmental Controls*]
☐ Only authorized personnel and materials required for compounding and cleaning shall be permitted in the buffer area.
☑ Presterilization procedures for high-risk level CSPs, such as weighing and mixing, shall be completed in no worse than an ISO Class 8 (see Table 1) environment.
☐ PECs shall be located out of traffic patterns and away from room air currents that could disrupt the intended airflow patterns.

74. ☑ ☐ **CAIs and CACIs shall be placed in an ISO Class 7 (see Table 1) buffer area <u>unless they meet all of the following conditions</u>:** [USP-NF Chapter 797 - *Environmental Quality and Control, Facility Design and Environmental Controls*]
☑ The isolator shall provide isolation from the room and maintain ISO Class 5 (see Table 1) during dynamic operating conditions, including transferring ingredients, components, and devices into and out of the isolator and during preparation of CSPs.
☑ Particle counts sampled approximately 6 to 12 inches upstream of the critical exposure site shall maintain ISO Class 5 (see Table 1) levels during compounding operations.
☑ Not more than 3520 particles (0.5 mm and larger) per m3 shall be counted during material transfer, with the particle counter probe located as near to the transfer door as possible without obstructing the transfer.

75. ☑ ☐ **If the PEC is a CAI or CACI that does not meet the requirements above or is a LAFW or BSC that cannot be located within an ISO Class 7 (see Table 1) buffer area,** then only low-risk level nonhazardous and radiopharmaceutical CSPs pursuant to a physician order for a specific patient may be prepared, and administration of the CSP shall commence within 12 hours of preparation or as recommended in the manufacturer's package insert, whichever is less. [USP-NF Chapter 797 - *Environmental Quality and Control, Facility Design and Environmental Controls*]

76. ☑ ☐ When isolators are used for sterile compounding, the recovery time to achieve ISO Class 5 (see Table 1) air quality shall be documented and internal procedures developed to ensure that adequate recovery time is allowed after material transfer before and during compounding operations. [USP-NF Chapter 797 - Environmental Quality and Control, Facility Design and Environmental Controls]

77. ☑ ☐ Airborne contamination control is achieved in the PEC through the use of HEPA filters. **The airflow in the PEC shall be unidirectional (laminar flow),** and because of the particle collection efficiency of the filter, the "first air" at the face of the filter is, for the purposes of aseptic compounding, **free from airborne particulate contamination. HEPA-filtered air shall be supplied in critical areas (ISO Class 5, see Table 1) at a velocity sufficient to sweep particles away from the compounding area and maintain unidirectional airflow during operations.** Proper design and control prevents turbulence and stagnant air in the critical area. [USP-NF Chapter 797- *Environmental Quality and Control, Facility Design and Environmental Controls*]

78. ☑ ☐ **In situ air pattern analysis via smoke studies shall be conducted** at the critical area to demonstrate unidirectional airflow and sweeping action over and away from the product under dynamic conditions. [USP-NF Chapter 797- *Environmental Quality and Control, Facility Design and Environmental Controls*]

79. ☑ ☐ **Environmental sampling shall occur as part a comprehensive quality management program** and shall occur minimally under any of the following conditions: [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing*]

- ☑ as part of the commissioning and certification of new facilities and equipment;
- ☑ following any servicing of facilities and equipment;
- ☑ as part of the re-certification of facilities and equipment (i.e., every 6 months);
- ☑ in response to identified problems with end products or staff technique; or
- ☑ in response to issues with CSPs, observed compounding personnel work practices, or patient-related infections (where the CSP is being considered as a potential source of the infection).

80. ☑ ☐ Sampling Plan—**An appropriate environmental sampling plan shall be developed for airborne viable particles based on a risk assessment of compounding activities performed. Selected sampling sites shall include locations within each ISO Class 5 (see Table 1) environment and in the ISO Class 7 and 8 (see Table 1) areas and in the segregated compounding areas at greatest risk of contamination** (e.g., work areas near the ISO Class 5 [see Table 1] environment, counters near doors, pass-through boxes). **The plan shall include sample location, method of collection, frequency of sampling, volume of air sampled, and time of day as related to activity in the compounding area and action levels.** [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Viable Airborne Particle Testing Program, Sampling Plan*]

81. ☑ ☐ Growth Medium—**A general microbiological growth medium such as Soybean–Casein Digest Medium shall be used to support the growth of bacteria. Malt extract agar or some other media that supports the growth of fungi shall be used in highrisk level compounding environments.** Media used for surface sampling must be supplemented with additives to neutralize the effects of disinfecting agents (e.g., TSA with lecithin and polysorbate 80). [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Viable Airborne Particle Testing Program, Sampling Plan*]

82. ☑ ☐ Viable Air Sampling—**Evaluation of airborne microorganisms using volumetric collection methods in the controlled air environments** (LAFWs, CAIs, clean room or buffer areas, and ante-areas) **shall be performed by properly trained individuals for all compounding risk levels. Impaction shall be the preferred method of volumetric air sampling.** Use of settling plates for qualitative air sampling may not be able to determine adequately the quality of air in the controlled environment. [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Viable Airborne Particle Testing Program*]

83. ☑ ☐ **For low-, medium-, and high-risk level compounding, air sampling shall be performed at locations that are prone to contamination during compounding activities and during other activities such as staging, labeling, gowning, and cleaning.** Locations shall include zones of air backwash turbulence within LAFW and other areas where air backwash turbulence may enter the compounding area (doorways, in and around ISO Class 5 [see Table 1] PEC and environments). [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Viable Airborne Particle Testing Program*]

84. ☑ ☐ **For low-risk level CSPs with 12-hour or less BUD prepared in a PEC** (LAFWs, BSCs, CAIs) **that maintains an**

ISO Class 5 (see Table 1), **air sampling shall be performed at locations inside the ISO Class 5** (see Table 1) **environment and other areas that are in close proximity to the ISO Class 5** (see Table 1) **environment during the certification of the PEC.** [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Viable Airborne Particle Testing Program*]

85. ☑ ☐ Air Sampling Devices—There are a number of manufacturers of electronic air sampling equipment. It is important that personnel refer to the manufacturer's recommended procedures when using the equipment to perform volumetric air sampling procedures. The instructions in the manufacturer's user's manual for verification and use of electric air samplers that actively collect volumes of air for evaluation must be followed. **A sufficient volume of air (400 to 1000 liters) shall be tested at each location in order to maximize sensitivity. The volumetric air sampling devices need to be serviced and calibrated as recommended by the manufacturer.** [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Viable Airborne Particle Testing Program*]

86. ☑ ☐ Air Sampling Frequency and Process—**Air sampling shall be performed at least semiannually (i.e., every 6 months) as part of the re-certification of facilities and equipment.** If compounding occurs in multiple locations within an institution (e.g., main pharmacy, satellites), environmental sampling is required for each individual compounding area. A sufficient volume of air shall be sampled and the manufacturer's guidelines for use of the electronic air sampling equipment followed. Any facility construction or equipment servicing may require that air sampling be performed during these events. [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Viable Airborne Particle Testing Program*]

87. ☑ ☐ Action Levels, Documentation, and Data Evaluation—The value of viable microbial sampling of the air in the compounding environment is realized when the data are used to identify and correct an unacceptable situation. **Sampling data shall be collected and reviewed on a periodic basis as a means of evaluating the overall control of the compounding environment. If an activity consistently shows elevated levels of microbial growth, competent microbiology personnel shall be consulted.** [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Viable Airborne Particle Testing Program*]

88. ☑ ☐ **Any cfu count that exceeds its respective action level (see Table 2) should prompt a re-evaluation of the adequacy of personnel work practices, cleaning procedures, operational procedures, and air filtration efficiency within the aseptic compounding location. An investigation into the source of the contamination shall be conducted.** Sources could include HVAC systems, damaged HEPA filters, and changes in personnel garbing or work practices. **The source of the problem shall be eliminated, the affected area cleaned, and resampling performed.** [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Viable Airborne Particle Testing Program*]

89. ☑ ☐ The intermediate precision of the **ACD** can be determined on the basis of the day-to-day variations in performance of the accuracy measures. Thus, **compounding personnel shall keep a daily record of the above-described accuracy assessments and review the results over time. This review shall occur at least at weekly intervals to avoid potentially clinically significant cumulative errors over time.** [USP-NF Chapter 797 - *Elements of Quality Control- Verification of Automated Compounding Devices (ACDs) for Parenteral Nutrition Compounding- Precision*]

90. ☑ ☐ **Compounding personnel shall ensure proper storage and security of CSPs prepared by or dispensed from the compounding facility until either their BUDs are reached or they are administered to patients.** In fulfilling this general responsibility, the compounding facility is responsible for the proper packaging, handling, transport, and storage of CSPs prepared by or dispensed from it, including the appropriate education, training, and supervision of compounding personnel assigned to these functions. The compounding facility should assist in the education and training of noncompounding personnel responsible for carrying out any aspect of these functions. [USP-NF Chapter 797- *Maintaining Sterility, Purity, and Stability of Dispensed and Distributed CSPs*]

91. ☑ ☐ CSPs, as well as all other drug products, shall be stored in the patient-care area in such a way as to secure them from unauthorized personnel, visitors, and patients. [USP-NF Chapter 797- *Maintaining Sterility, Purity, and Stability of Dispensed and Distributed CSPs- Use and Storage*]

[USP-NF Chapter 797 - *Verification of Compounding Accuracy and Sterility, Sterilization Methods*]

102. ☑ ☐ Critical sites are locations that include any component or fluid pathway surfaces (e.g., vial septa, injection ports, beakers) or openings (e.g., opened ampuls, needle hubs) exposed and at risk of direct contact with air (e.g., ambient room or HEPA filtered), moisture (e.g., oral and mucosal secretions), or touch contamination. Sterilization

123. ☑ ☐ Does the facility participate in the following (check all applicable):
☑ Filter Sterilization in an ISO class 5 ☐ Steam Sterilization ☐ Dry Heat Sterilization

124. ☑ ☐ **(Filter Sterilization in an ISO class 5)**
Commercially available sterile filters shall be approved for human-use applications in sterilizing pharmaceutical fluids. **Sterile filters used to sterilize CSPs shall be pyrogen free and have a nominal pore size of 0.2 or 0.22 mm.** They shall be certified by the manufacturer to retain at least 107 microorganisms of a strain of Brevundimonas (Pseudomonas) diminuta on each square centimeter of upstream filter surface area under conditions similar to those in which the CSPs will be sterilized (see High-Risk Conditions in High-Risk Level CSPs). [USP-NF Chapter 797 - *Verification of Compounding Accuracy and Sterility- Sterilization Methods- Sterilization of High-Risk Level CSPs by Filtration*]

125. ☑ ☐ **The compounding supervisor shall ensure,** directly or from appropriate documentation, that **the filters** are chemically and physically stable at the pressure and temperature conditions to be used, that they have enough capacity to filter the required volumes, and that they will achieve sterility and maintain prefiltration pharmaceutical quality, including strength of ingredients of the specific CSP. The process of thermal sterilization employing saturated steam under pressure, or autoclaving, is the preferred method to terminally sterilize aqueous preparations that have been verified to maintain their full chemical and physical stability under the conditions employed (see Steam Sterilization under Sterilization and Sterility Assurance of Compendial Articles <1211>).**To achieve sterility, all materials are to be exposed to steam at 121° under a pressure of about 1 atmosphere or 15 psi for the duration verified by testing to achieve sterility of the items, which is usually 20 to 60 minutes for CSPs.** An allowance shall be made for the time required for the material to reach 121° before the sterilization exposure duration is timed. [USP-NF Chapter 797- *Verification of Compounding Accuracy and Sterility- Sterilization Methods- Sterilization of High-Risk Level CSPs by Steam*]

130. ☐ ☐ Not directly exposing items to pressurized steam may result in survival of microbial organisms and spores. Before their sterilization, plastic, glass, and metal devices are tightly wrapped in low-particle-shedding paper or fabrics or sealed in envelopes that prevent poststerilization microbial penetration. **Immediately before filling ampuls and vials that will be steam sterilized, solutions are passed through a filter having a nominal pore size not larger than 1.2 mm for removal of particulate matter. Sealed containers shall be able to generate steam internally; thus, stoppered and crimped empty vials shall contain a small amount of moisture to generate steam.** [USP-NF Chapter 797- *Verification of Compounding Accuracy and Sterility- Sterilization Methods- Sterilization of High-Risk Level CSPs by Steam*]

Packaging and Storage

141. ☑ ☐ Compounding facilities that ship CSPs to locations outside their own premises shall select modes of transport that are expected to deliver properly packed CSPs in undamaged, sterile, and stable condition to recipients. [USP-NF Chapter 797- *Maintaining Sterility, Purity, and Stability of Dispensed and Distributed CSPs- Packing and Transporting CSPs- Transit of CSPs*]

142. ☑ ☐ Compounding personnel should ascertain that temperatures of CSPs during transit by the selected mode will not exceed the warmest temperature specified on the storage temperature range on CSP labels. It is recommended that compounding personnel communicate directly with the couriers to learn shipping durations and exposure conditions that CSPs may encounter. [USP-NF Chapter 797- *Maintaining Sterility, Purity, and Stability of Dispensed and Distributed CSPs- Packing and Transporting CSPs- Transit of CSPs*]

COMMENTS
(Use an additional sheet if necessary.)

Assisted by Caleb Cowley Tech.

Sterile compounding only Monday and Wednesday.

Isaak Gibbons (Tech), September Koerner (tech), and Mark Lindhardt (RPh) are the only ones to be sterile compounding.

Currently, the facility is compounding tirzepatide/glycine (two strengths) and semaglutide/levocarnitine (one strength)

A review of facility Sterile compounding products was conducted. One expired product was found.

COAs for tirzepatide and semaglutide were reviewed and present.

A review of the facility SOPs was conducted and found compliant. I'd recommend both removing unnecessary SOPs such as dry heat sterilization and creating a table of contents for each book, so that it is easier to find certain SOPs.

A review of Training documents was conducted. Both Isaak and Mark had completed their training, yet had some boxes that were missed on the documents.

No temperature log for both the ante room or buffer room have been logged. Caleb agreed to immediately remedy this.

Handwashing before entering the anteroom is done in the bathroom, just outside of the compounding area.

The floor in the buffer room has two crossing grout lines filled with silicone sealant. Caleb explained that the floor is smooth. I recommend placing a linoleum floor over the current floor and up on the coving, so that the floor is one smooth surface.

Surface sampling and hood certification was conducted by Heninger Enterprises. The facility was found compliant.

A review of both master formulary records and compounding records was conducted and compliant. I recommend that the facility write the 0.2 micron filter lot and expiration date on the compounding records.

A review of 5 semaglutide prescriptions was conducted. It was found that 2 of the 5 did not have a physician signature. Informed Stephanie that a signature is required for all prescriptions, and to make sure that they have this in the future.

Facility does not compound hazardous medications.

Facility utilizes terminal filtration for sterilization.

Facility has a compliant QA/QC protocol.

"Red Flags" Checklist for Pharmacies

YOU MIGHT BE A PILL MILL IF...

Check all that apply:

	(1) Your pharmacy fills a discernable pattern of prescriptions for prescribers who write essentially the same prescriptions for numerous persons, indicating a lack of individual drug therapy.
	(2) Your pharmacy operates with limited hours of operation or closes after a certain threshold of controlled substance prescriptions are dispensed, and has overall low prescription dispensing volume.
	(3) Prescriptions presented to the pharmacy are for controlled substances with popularity as street drugs, such as opiates, benzodiazepines, muscle relaxants, psychostimulants, and/or cough syrups, or any combination of these drugs.
	(4) The prescriptions for controlled substances contain nonspecific or no diagnoses.
	(5) The prescriptions are commonly for the highest strength of the drug and/or for large quantities.
	(6) Dangerous drugs or OTC products (such as multi-vitamins or laxatives) are added to the controlled substance prescriptions, maintaining relatively consistent 1:1 ratio of controlled substances to dangerous drugs and/or OTC products dispensed as prescriptions.
	(7) Prescriptions are authorized by the same prescriber with what appears to be different handwriting on the hardcopy prescription drug order forms.
	(8) Upon contact with the prescriber's office, you are unable to engage in comprehensive discussion with the actual prescriber, or he/she is unconcerned about your apprehensions regarding his/her prescribing practices or unwilling to provide additional information, such as treatment goals and/or prognosis with prescribed drug therapy.
	(9) You rely solely on the prescriber's representation, or on the representation of the individual answering the phone at the number on the prescription, that prescriptions are legitimate.
	(10) The prescriber's clinic is not registered as a pain management clinic by the Texas Medical Board, despite routinely receiving prescriptions from the prescriber for opiates, benzodiazepines, and/or muscle relaxants.
	(11) Drugs prescribed are inconsistent with the prescriber's area of practice.
	(12) The prescriber of the drugs is located a significant distance from your pharmacy.
	(13) The prescriber has been subject to disciplinary action by the licensing board, had his/her DEA registration removed, or been subject to criminal action.
	(14) The Texas PMP system indicates that persons are obtaining prescriptions for the same drugs from multiple prescribers or that persons are filling prescriptions for the same drugs at multiple pharmacies.
	(15) The person's address is a significant distance from your pharmacy and/or from the prescriber's office.
	(16) Multiple persons with the same address present prescriptions from the same prescriber.
	(17) Persons pay with cash or credit card more often than through insurance.
	(18) Persons presenting controlled substance prescriptions are doing so in such a manner that varies from seeking routine pharmacy services (e.g., willing to wait in long lines to receive drugs, persons arrive in the same vehicle with prescriptions from same prescriber, one person presents to pick up prescriptions for multiple others, persons refer to drugs by "street names" and/or comment on drug's color, persons seek early refills, persons travel from outside reasonable trade area of pharmacy).
	(19) Your pharmacy charges and persons are willing to pay more for controlled substances than they would at nearby pharmacies.
	(20) Your pharmacy routinely orders controlled substances from more than one drug supplier, or your pharmacy has been discontinued by a drug supplier related to controlled substance orders.
	(21) Sporadic and non-consistent dispensing volume (including zero dispensing) varies from day to day and week to week, and your pharmacy does not maintain operational hours each week on Monday through Friday.
	(22) Your pharmacy employs or contracts security personnel during operational hours to prevent problems.
	(23) Your pharmacy has been previously warned or disciplined by the Texas State Board of Pharmacy for inappropriate dispensing of controlled substances (i.e., corresponding responsibility).

If you checked any of the above items, you should review the laws and rules regarding corresponding responsibility and non-therapeutic dispensing, especially Board rule §291.29, in the law book or on our website, www.pharmacy.texas.gov (click on Texas Pharmacy Rules and Laws). Additional educational material is available at http://www.pharmacy.texas.gov/Nontherapeutic.asp. Failure of pharmacies and pharmacists to detect patterns of inappropriate dispensing of prescription drugs is unprofessional practice and constitutes grounds for disciplinary action.

Re: Information on California initial licensure denial for FarmaKeio Outsourcing

---

On May 17, 2022, the California State Board of Pharmacy, as required for **initial** licensure, conducted a 3-day onsite inspection of our FDA registered 503B facility FarmaKeio Outsourcing, located in Southlake, TX. This facility currently holds active licensure in 48 states, including the District of Columbia. A summary of details of this inspection included content "In-Support of" facility and compounding compliance within the Quality Management System, Facilities, Equipment, Control of Component, Packaging and Labeling Controls, Holding and Distribution, Laboratory Controls, and Records & Reports. In addition to this supporting documentation, the Inspection Report makes notation of observations the inspectors determined needed improvement prior to extending an active licensure for our facility. These observations were assessed and addressed, with changes implemented and integrated into our overall operation, including updates to our Quality Management System. Ultimately, California, even with our corrections, chose not to extend us an active NR Outsourcing Licensure at this time. As recently as last year, FarmaKeio Outsourcing reapplied for licensure as a Non-Resident FDA registered outsourcing facility in California and currently await our date of inspection, most likely occurring within the next several months. In light of the initial denial of licensure, we began an initiative to build a more robust Quality Management System and hired a highly experienced leader from the multinational pharmaceutical industry whose impact has positively improved all aspects of our operational, quality, and compliance as our full time Quality Director. We continue to strive for excellence within the space of 503B pharmaceutical compounding. Please do not hesitate to reach out regarding any further questions or concerns. Thank you.

Section 8: Arrests, Detentions, Litigations, Arbitrations

Daniel DeNeui

1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)

Yes.

On December 13, 2024, Dan DeNeui, CEO of FarmaKeio was cited by the Las Vegas Metropolitan Police Department with a Class C Misdemeanor for an interaction with the founder of the Coalition for Responsible Compounding ("CFRC"). CFRC has been sending letters to state boards of pharmacy claiming that FarmaKeio is engaged in the improper marketing, sale, and/or distribution of certain compounded drug products. That claim, of course, is false. But, in addition, the letters omit a material fact: that CFRC is a front for FarmaKeio's competition. CFRC was founded by a major competitor of FarmaKeio. These letters sent to state boards of pharmacy appear to be an anticompetitive campaign to disparage and defame FarmaKeio—a competitor of the CFRC's founder—in the eyes of regulatory bodies across the country.

2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?

No.

3. Have you ever had a civil or criminal record expunged or sealed by a court order?

Dan DeNeui, CEO of FarmaKeio was charged with felony assault of law enforcement officers and other counts related to January 6, 2021. On January 20, 2025, President Trump directed the Attorney General to pursue dismissal with prejudice to the government of all pending indictments against individuals for their conduct related to the events at or near the United States Capitol on January 6, 2021.

4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever **been a party to a lawsuit** as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)

A. Dan DeNeui was a defendant in BIOTE MEDICAL, LLC v. Kent JACOBSEN, et al. 406 F.Supp.3d 575 United States District Court, E.D. Texas, Sherman Division. Signed 08/21/2019.

Background: Hormone replacement therapy provider brought action alleging that, inter alia, competitors engaged in false and misleading advertising in violation of the Lanham Act. Provider sought preliminary injunctive relief.

Holding: The District Court, Amos L. Mazzant, J., held that provider failed to show a substantial threat that it would suffer irreparable harm if preliminary injunction was not granted.

Motion denied.

B. Dan DeNeui was a defendant in West v. Farmakeio Superior Compound Pharmacy et al. Case No. 3:24-cv-00279. Filed July 8, 2025

RECOMMENDATION

*8 Based on the foregoing, it is respectfully RECOMMENDED that:

(1) The motion for summary judgment filed by Defendants Dan DeNeui, Dustin DeNeui, and Justin Graves (Docket Entry No. 23) be GRANTED and that they be granted summary judgment in their favor and be DISMISSED WITH PREJUDICE.

(2) Defendant North American Custom Laboratories, LLC d/b/a FarmaKeio Compounding be DISMISSED WITHOUT PREJUDICE pursuant to Fed. R. Civ. P. 4(m) for lack of service of process.

C. See also, response to question 6 below for licensing Board matters.

5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) **been a party to a lawsuit** (including any administrative proceedings before a licensing board), arbitration or bankruptcy?

A. FarmaKeio Outsourcing, a company owned in part by Dan DeNeui, is a Plaintiff in Farmakeio Outsourcing, LLC v. United States Food and Drug Administration et al. Case No. 4:24-cv-01040. Filed October 25, 2024.

Complaint alleging, inter alia, trademark infringement.

F. FarmaKeio Outsourcing, a company owned in part by Dan DeNeui, is a Plaintiff in FarmaKeio Outsourcing v. Coalition for Responsible Compounding, No. N24C-05-327 (Del. Super. Ct. May 31, 2024)

Complaint alleging defamation against CFRC as described in response to question 1 above.

G. See also, response to question 6 below for licensing Board matters.

6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever **appeared before any licensing agency** or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?

A. California Letter of Admonishment issued to FarmaKeio Outsourcing.

B. California Board of Pharmacy accusation against North American Custom Laboratories dba Farmakeio including Dan DeNeui and Michael Cole.

Alleging (1) attempting to subvert an investigation, (2) unprofessional conduct for shipping pellets into California, (3) Adulterated preparations for use of non compliant bulk drug substances, and (4) use of non compliant bulk drug substances.

C. FarmaKeio Outsourcing entered into a settlement agreement with the Ohio Board of pharmacy effective October 01, 2024 in which FarmaKeio Outsourcing received a written reprimand acknowledging it neither admits nor denies allegations regarding sales of non-narcotic prescription drugs to a single facility operating without an Ohio issued license.

D. Various Boards of pharmacy opened inquiries, we believe, based on allegations made by CFRC as described in response to question 1 above. While a mere inquiry from a state

Board for certain records may not rise to the level requested in this question, in the interest of ensuring transparent reporting in response to "appearances before licensing agencies for any reason," we include the inquiries below. The inquiries have thus far been dismissed or are pending. We believe the below to be a complete list of inquiries sent to either North American Custom Compounding (FarmaKeio), FarmaKeio AR, or FarmaKeio Outsourcing:

Colorado Board of Pharmacy
California Board of Pharmacy
Illinois Board of Pharmacy
Iowa Board of Pharmacy
Kansas Board of Pharmacy
Kentucky Board of Pharmacy
Main Board of Pharmacy
Missouri Board of Pharmacy
Nevada Board of Pharmacy
Oregon Board of Pharmacy
Tennessee Board of Pharmacy
Washington Board of Pharmacy
Wisconsin Board of Pharmacy
Arizona Board of Pharmacy
Maryland Board of Pharmacy
Connecticut Board of Pharmacy
Louisiana Board of Pharmacy

We note that primary source verification for each of the Board's licenses issued to North American Custom Compounding (FarmaKeio) and FarmaKeio Outsourcing will show as clear except for Ohio and California as described herein.

E. Massachusetts Board of Pharmacy opened a complaint against FarmaKeio Outsourcing on December 10, 2024 alleging failure to notify the Board of the Ohio discipline within the required timeline. FarmaKeio Outsourcing notified the Board on day 30 following the Ohio settlement. The matter has not yet been closed.

7. Have you ever been denied a **personal** license, permit, certificate or registration for a privileged, occupational or professional activity?

No.

8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever **been refused a business license**.

A. FarmaKeio Outsourcing, despite being properly licensed in at least 45 other jurisdictions, has been twice denied an Outsourcing Facility permit by the California Board of Pharmacy based on purported unsatisfactory inspections. FarmaKeio

Outsourcing's most recent Texas (resident state) inspection was provided with the application.

9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever **surrendered a license**, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).

No.

10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?

RECOMMENDATION

*8 Based on the foregoing, it is respectfully RECOMMENDED that:

(1) The motion for summary judgment filed by Defendants Dan DeNeui, Dustin DeNeui, and Justin Graves (Docket Entry No. 23) be GRANTED and that they be granted summary judgment in their favor and be DISMISSED WITH PREJUDICE.

(2) Defendant North American Custom Laboratories, LLC d/b/a FarmaKeio Compounding be DISMISSED WITHOUT PREJUDICE pursuant to Fed. R. Civ. P. 4(m) for lack of service of process.

B. California Letter of Admonishment issued to FarmaKeio Outsourcing.

C. California Board of Pharmacy accusation against North American Custom Laboratories dba Farmakeio including Dan DeNeui and Michael Cole.

Alleging (1) attempting to subvert an investigation, (2) unprofessional conduct for shipping pellets into California, (3) Adulterated preparations for use of non compliant bulk drug substances, and (4) use of non compliant bulk drug substances.

D. FarmaKeio Outsourcing entered into a settlement agreement with the Ohio Board of pharmacy effective October 01, 2024 in which FarmaKeio Outsourcing received a written reprimand acknowledging it neither admits nor denies allegations regarding sales of non-narcotic prescription drugs to a single facility operating without an Ohio issued license.

E. Various Boards of pharmacy opened inquiries, we believe,
based on allegations made by CFRC as described in response to question 1 above. While a mere inquiry from a state Board for certain records may not rise to the level requested in this question, in the interest of ensuring transparent reporting in response to "appearances before licensing agencies for any reason," we include the inquiries below. The inquiries have thus far been dismissed or are pending. We believe the below to be a complete list of inquiries sent to either North American Custom Compounding (FarmaKeio), FarmaKeio AR, or FarmaKeio Outsourcing:

Colorado Board of Pharmacy
California Board of Pharmacy
Illinois Board of Pharmacy
Iowa Board of Pharmacy
Kansas Board of Pharmacy
Kentucky Board of Pharmacy

Missouri Board of Pharmacy

Nevada Board of Pharmacy
Oregon Board of Pharmacy
Tennessee Board of Pharmacy
Washington Board of Pharmacy
Wisconsin Board of Pharmacy
Arizona Board of Pharmacy
Maryland Board of Pharmacy
Connecticut Board of Pharmacy
Louisiana Board of Pharmacy

We note that primary source verification for each of the Board's licenses issued to North American Custom Compounding (FarmaKeio) and FarmaKeio Outsourcing will show as clear except for Ohio and California as described herein.

F. Massachusetts Board of Pharmacy opened a complaint against FarmaKeio Outsourcing on December 10, 2024 alleging failure to notify the Board of the Ohio discipline within the required timeline. FarmaKeio Outsourcing notified the Board on day 30 following the Ohio settlement. The matter has not yet been closed.

Whom It May Concern,

I, Joseph Poling, am writing to inform your department of the stipulation that is on my record from the Colorado State Board of Pharmacy. In October of 2015, I was the Pharmacists in Charge (PIC) of Good Day Pharmacy (NCPDP # 0608779). The pharmacy received an order for a suspension for a child. The original order was written for tablets to be compounded but the pharmacy altered the prescription to use a powder form without consulting with the doctor and without documenting the change. We were not able to provide studies for beyond use dating in the compounding record nor could a formulation record for the compounded prescription be presented to the board of pharmacy. I was not the pharmacist that verified the prescription, but because I was the PIC at the time it ultimately was put on me as well.

The Colorado Board of Pharmacy placed my license on probation for a period of 2 years. During the time my license was on probation I was ordered to complete 10 hours of continuing education related to compounding. I successfully completed all the requirements that the Colorado Board of Pharmacy set forth in July of 2018. Should your department need further explanation please feel free to reach out to me at jpoling@gooddaypharmacy.com .

Sincerely,

Joseph Poling President/COO Good Day Pharmacy

BEFORE THE STATE BOARD OF PHARMACY

STATE OF COLORADO

Case No. 2016-1482

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF DISCIPLINARY PROCEEDINGS REGARDING THE LICENSE TO PRACTICE PHARMACY IN THE STATE OF COLORADO OF JOSEPH DAVID POLING, R.Ph., LICENSE NO. PHA. 19580,

Respondent.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and Joseph Poling, R.Ph. ("Respondent") to resolve all matters pertaining to Board Case Number 2016-1482, as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Respondent, his license to practice pharmacy, and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the provisions of the Pharmacists, Pharmacy Businesses, and Pharmaceuticals Act at Title 12, Article 42.5, C.R.S. (2016).

2. Respondent was originally licensed to practice as a pharmacist in the State of Colorado on or about August 7, 2012, being issued license number PHA 19580, and has been so licensed at all times relevant to this disciplinary action.

3. Joseph Poling, as the manager of a prescription drug outlet is responsible for the operation of the outlet in compliance with all state and federal laws, regulations, and rules.

4. Respondent admits these findings and hereby waives any further proof in this or any other proceeding before the Board regarding the following facts:

   a. On or about October 22, 2015, Respondent was the pharmacy manager at Good Day Pharmacy, PDO 82-12.

   b. A practitioner's prescription order for a clonidine suspension called for the use of tablets to compound the preparation ("prescription").

c. The prescription was altered to substitute clonidine powder for the clonidine tablets without consulting the prescribing practitioner, and without documenting the change from what was written on the prescription.

d. Respondent was unable to provide stability studies from the pharmacy for the beyond use dating on the compounding record for the prescription.

e. Respondent was unable to provide a uniform, readily retrievable formulation record for the compounded prescription. Specifically, the formulation record did not detail the calculations needed to determine and verify quantities or concentrations of components and dose of the active pharmaceutical ingredients ("API").

f. The label on the compounded medication did not include the correct assigned beyond use date. It included a 30-day BUD rather than the correct 14-day BUD.

5. Respondent admits that his conduct, as set forth above and as the manager of the prescription drug outlet, constitutes violations of the following sections of the Colorado Revised Statutes and Board Rules, and provides grounds for disciplinary action against Respondent's Colorado pharmacist license.

Colorado Revised Statutes

§12-42.5-123. Unprofessional conduct – grounds for discipline.

(1) The board may suspend, revoke, refuse to renew, or otherwise discipline any license or registration issued by it, after a hearing held in accordance with the provisions of this section, upon proof that the licensee or registrant:

(...)

(c) Has violated:

(I) Any of the provisions of this article, including commission of an act declared unlawful in section 12-42.5-126;

(II) The lawful rules of the board; or

(...)

(k) Has failed to meet generally accepted standards of pharmacy practice.

Pharmacy Board Rules and Regulations

2.01.20 Additional Information. The following shall also appear on the prescription or LTCF chart order when appropriate:

a. Any change in or clarification of an order shall be documented on the order and shall bear the initials of the responsible pharmacist or intern, the date contacted and the name of the individual conveying such change or clarification.

7.00.30 Compliance of Outlet:

a. The manager of a prescription drug outlet is responsible for the operation of the outlet in compliance with all state and federal laws, regulations, and rules.

21.10.80 Storage and Beyond-Use Dating

b. In the absence of stability information that is applicable to the lowest and highest dose or concentration of a specific preparation compounded at the outlet, the following maximum beyond-use dates are to be used for non-sterile compounded preparations that are packaged in tight, light-resistant containers and stored at controlled room temperature unless otherwise indicated.

(...)

(2) For water-containing oral formulations prepared from ingredients in solid form, regardless of whether an ingredient contains water or water by itself is an ingredient, the beyond-use date shall not be greater than 14-days when stored at cold temperatures;

(...)

(5) The beyond-use date limits may be exceeded when there is supporting valid scientific stability information that is directly applicable to the specific preparation. This information shall be retained on-site at the outlet and be available for inspection.

21.10.90 Formulation Record.

a. For each compounded preparation, a uniform, readily retrievable formulation record shall be maintained and available for inspection for two years from the date last utilized, documenting:

(...)

(2) Calculations needed to determine and verify quantities or concentrations of components and doses of APIs

21.11.10 Labeling of Non-Sterile Compounded Preparations.

a. Labeling of non-sterile compounded products dispensed pursuant to a prescription order or LTCF chart order shall include at least the following:

(...)

(3) Assigned BUD

6. The Board finds and concludes, and Respondent agrees, that based upon Respondent's above-described violations of the Pharmacists, Pharmacy Businesses, and Pharmaceuticals Act and relevant rules and regulations, the following discipline is just and appropriate under the circumstances.

DISPOSITION

7. **Probation.** Respondent's license shall be placed on probation for a period of two (2) years. Credit toward satisfying the period of probation shall be given only during such periods of time that Respondent is in total compliance with all provisions of this Final Agency Order.

The prescribed period of probation shall not run during any period of time where:

a. Respondent is not employed a minimum of sixty (60) hours per month, engaged in the practice of pharmacy in the State of Colorado; and

b. Respondent is not otherwise in full compliance with the terms of this Final Agency Order.

8. Continuing Education. Within one (1) year of the effective date of this Final Agency Order, Respondent shall complete ten (10) hours of continuing education approved by the Accreditation Council for Pharmacy Education related to compounding. Before enrolling in any course, Respondent shall request and obtain Board staff approval for each continuing education course. The Board may reject any course that it does not approve in advance. Respondent cannot apply these continuing education hours toward the continuing education hours required to renew his pharmacy license or to meet any other licensure requirements. Respondent shall provide the Board with documented proof of completion within thirty (30) days of successful completion of the continuing education course(s).

9. **Other Requirements.** Respondent acknowledges and agrees that, as a condition of this Final Agency Order and probation:

a. Respondent is responsible for his own fees and costs associated with this Final Agency Order;

b. Respondent must comply fully with this Final Agency Order; and

c. Respondent must comply fully with the Pharmacists, Pharmacy Businesses and Pharmaceuticals Act, all Board rules and regulations, and any other state and federal laws and regulations related to pharmacists and pharmaceuticals in the State of Colorado.

10. **Violations.** Time is of the essence in this Final Agency Order. It is the responsibility of Respondent to take all appropriate steps to comply fully with this Final Agency Order. Respondent acknowledges and agrees that any violation of this Final Agency Order shall constitute a willful violation of a lawful Board order, may be sanctioned as provided under § 12-42.5-125(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of Respondent's license. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Respondent to comply with all terms and conditions of this Final Agency Order.

11. **Completion of Terms.** Respondent must make a written request to the Board to end the terms and conditions of this Final Agency Order. In any request, it shall be Respondent's sole responsibility to establish, through written and other documentation, that Respondent has met all terms of this Final Agency Order. Respondent's probation shall continue until the Board or its designated authority has verified that Respondent has completed all terms of this Final Agency Order. The Board will consider Respondent's request during the ordinary course of business.

12. **Advisements and Waivers.** Respondent enters into this Final Agency Order freely and voluntarily, after having the opportunity to consult with legal counsel. Respondent acknowledges his understanding that he has the following rights:

a. to have formal notice of hearing and charges served upon him;

b. to respond to said formal notice of charges;

c. to have a formal disciplinary hearing pursuant to §§ 12-42.5-123 and 12-42.5-124, C.R.S.; and

d. to appeal this Final Agency Order.

Respondent freely waives these rights and acknowledges that such waiver is made voluntarily in consideration for the Board's limiting the action taken against Respondent to the sanctions imposed herein.

13. **Acknowledgments.** Respondent has read this Final Agency Order in its entirety and acknowledges, after having the opportunity to consult with legal counsel, that Respondent understands its legal consequences and agrees that none of

its terms or conditions is unconscionable. Respondent is not relying on any statements, promises, or representations from the Board other than as may be contained in this Final Agency Order. Respondent further acknowledges that he is not entering into this Final Agency Order under any duress.

14. **Integration and Severability**. Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of the Final Agency Order shall be given full force and effect.

15. **Public Record**. Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.

16. **Board Order**. This Final Agency Order shall become an order of the Board when it is accepted and signed by the Program Director or authorized Board representative.

17. **Effective Date**. This Final Agency Order shall become effective upon (a) mailing by first-class mail to Respondent at Respondent's address of record with the Board, or (b) service by electronic means on Respondent. Respondent hereby consents to service by electronic means if Respondent has an electronic address on file with the Board.

Safeway Pharmacy #4905 entered into a stipulated settlement that includes a two-year probation with the California Board of Pharmacy. Safeway Pharmacy #4905 has engaged an independent consultant to ensure ongoing compliance with all compounding laws. While on probation, #4905 received a non-disciplinary cite and fine in the amount of $4,500 for "failure to perform required end product testing on non-sterile to sterile batch compounded products." Until December 23, 2016, the California Board of Pharmacy adopted the USP 797 definition of "batch." Safeway Pharmacy #4905 strictly followed USP 797 guidelines for non-sterile to sterile injectables. In January of 2017, new California compounding regulations went into effect, which added new definitions and deviated greatly from USP 797 requirements. Under USP 797, a "batch" is more than one unit and has to contain at least 25 single-dose packages before end product testing is required. Under the new California rules (which are currently being revamped due to their confusing nature), a single multi-use vial for one patient is a "batch." Upon learning of this, we immediately changed our practices. Because this new Board action occurred while #4905 was on probation, its probation was extended while we awaited resolution of the new Board action. That Board action was resolved on January 23, 2020 and probation at Safeway #4905 has ended. On February 23, 2021, #4905 entered into a Settlement Agreement with the Hawaii Department of Commerce and Consumer Affairs Regulated Industries Complaints Office related to the 2016 disciplinary action taken by the California Board of Pharmacy. As a result of this reciprocal discipline, #4905 was ordered to pay an administrative fine in the amount of $1,000. There are no additional restrictions being placed on the pharmacy's registration that would affect its ability to operate as a pharmacy in the State of Hawaii. No other Safeway pharmacy registrations are impacted by this settlement.	Completed	CA BOP HI BOP

Unprofessional Conduct-: Business and Professions Code Section 4301 and 4301(o). Business and Professions Code Section 4301 states the board shall take action against any holder of a license who is guilty of unprofessional conduct or whose license has been issued by mistake. Unprofessional conduct shall include, but is not limited to, any of the following: (o) violating or attempting to violate, directly or indirectly, or assisting in or abetting the violation of or conspiring to violate any provision or term of this chapter or of the applicable federal and state laws and regulations governing pharmacy, including regulations established by the board or by any other state or federal regulatory agency. Specifically, on 8/6/2019, it was found Albertsons- Safeway Pharmacy #4705 (PHY53318) located at 12871 Florence Ave, Santa Fe Springs, CA 90670 aided and abetted in unlicensed activity by Albertson Specialty Care located at 250 E. Park Center Blvd., Boise, ID 83706. Alberson Specialty Care (unlicensed) performed order entry, drug utilization review, and provided consultation to patients in CA without a non-resident pharmacy permit on behalf of Albertsons-Safeway Pharmacy #4705(PHY53318). In addition to sharing work Albertson-Safeway Pharmacy #4705 was aware Albertson Specialty Care was not licensed and also shared a common telephone number so the calls were also routed to unlicensed Albertson Speciaty Care when a patient called Albertson-Safeway #4705. Aiding and abetting unlicensed activity was non-compliance with Business and Professions Code Section 4301 and 4301(o).

CONDUCT:

Duty to Consult California Code of Regulations 1707.2(a)(3) requires a pharmacist to provide oral consultation to the patient whenever the prescription drug has not previously been dispensed to a patient. Specifically, on 5/18/23, Safeway Pharmacy #1825 (PHY52328) located at 6498 Pony Express Trail in Pollock Pines, Ca. failed to provide consultation to new prescriptions when clerk asked for consultation override. Pharmacist overrode the computer system to allow sale without knowing the prescription was refill or new. Failing to provide consultation on a new prescription is a violation of CCR 1707.2(a)(3).

Reconciliation Reports of Controlled Substances California Code of Regulations 1715.65 (e) states (e)(1) An inventory reconciliation report shall be dated and signed by the pharmacist-in-charge or professional director (if a clinic), in addition to any signature required by subdivision (c)(1). An individual may use a digital or electronic signature or biometric identifier in lieu of a physical signature under this section if, in addition, the individual physically signs a printed statement confirming the accuracy of the inventory or report. The signature shall be dated, and the signed and dated statement shall be retained on file pursuant to paragraph (2). (2)The report, and all records used to compile the report, shall be readily retrievable in the pharmacy or clinic for three years. Specifically, on 5/18/23, Safeway Pharmacy #1825 (PHY52328) located at 6498 Pony Express Trail in Pollock Pines, Ca. failed to provide me the most recent reconciliation report of controlled substances (conducted on 3/26/23). Later, Safeway Pharmacy's district leader admitted that such physical report with PIC's date and signature could not be located. PIC failing to sign and date the controlled substance reconciliation report and failing to keep such records in a readily retrievable manner, was a violation of CCR 1715.65 (e).

VIOLATION CODE SECTION(S)	OFFENSE(S)	AMT OF FINE(S)
Bus. & Prof. Code § 4113.7	Chain community pharmacy; Quota for pharmacist or pharmacy technician duties prohibited	$15,000.00

CONDUCT:

Quotas

Business and Professions Code Section 4113.7 states in part,

(a) A chain community pharmacy, as defined in subdivision (c) of Section 4001, shall not establish a quota related to the duties for which a pharmacist or pharmacy technician license is required.

(b) A chain community pharmacy shall not, through employees, contractors, or third parties, communicate the existence of quotas, that are illegal pursuant to this section, to pharmacists or pharmacy technicians who are employees of the chain community pharmacy or with whom the chain community pharmacy contracts.

(c) (1) For purposes of this section, "quota" means a fixed number or formula related to the duties for which a pharmacist or pharmacy technician license is required, against which the chain community pharmacy or its agent measures or evaluates the number of times either an individual pharmacist or pharmacy technician performs tasks or provides services while on duty. "Quota" includes a fixed number or formula related to any of the following:

(A) Prescriptions filled.

(B) Services rendered to patients.

(C) Programs offered to patients.

(D) Revenue obtained.

(2) For purposes of this section, "quota" does not mean any of the following:

(A) A measurement of the revenue earned by a particular licensed chain community pharmacy not calculated in relation to, or measured by, the tasks performed, or services provided by, individual pharmacists or pharmacy technicians.

(B) Any evaluation or measurement of the competence, performance, or quality of care provided to patients of a pharmacist or pharmacy technician if the evaluation does not use quotas, as defined in paragraph (1).

As such, these quotas are prohibited by Business and Professions Code section 4113.7. This was a violation of pharmacy law.

James R. Notte arrest details and explanation - [illegible]

When I was 18 and 19 years old (all before starting my sophomore year of college), I was arrested multiple times for misdermeanor offenses. On 10/01/1999, I was arrested for Underage Intoxication at a fraternity party near my college in Cleveland Heights, OH. The cops were called to the house for a noise violation, and since most of the party was underage college kids, arrests for underage drinking ensued. I pled no contest, and completed a years probation and an alcohol education class. On 3/09/2000 in Ashtabula, OH , I was pulled over for a headlight violation and then charged with OMVI. The charge was reduced to Physical Control of a Vehicle, and I lost my drivers license for a year and completed a weekend DUI class. On 5/14/2000 in Ashtabula, OH, I attended an after prom party with several of my best friends. The party was at a hotel and me and a few friends were still there when the cops showed up, and since it was past midnight and after curfew, I was cited for Contributing to Unruliness of a minor since 2 of my friends were still only 17. Eventually pled guilty to Disorderely Conduct and paid a fine. On 8/01/2000 in Ashtabula, OH, I was again charged with underage consumption after cops came to party at a friends house. I pled guilty and sucessfully completed 2 years probation. Finally, on 11/02/2003, in my last semster of undergrad, I attended the Halloween festivities at Ohio University in Athens, OH with my girlfriend and other friends. We were originally supposed to stay with friends on campus (so no driving involved), but my girlfriend ending getting real sick early in the night, and I was placed in a situation of trying to best take care of her. I regretfully made the mistake of thinking I completely sobered up before driving, but was pulled over on the way to a hotel and charged with DUI. I pled no contest, lost my drivers license for 6 months, and successfully completed a drivers intervention class and 2 years probation.

I am embarrassed by all of these events. For the first several incidents, I was a young, wild, and stupid 18/19 year old kid, and was hanging out with the party crowd both at college and back home. After getting in so much trouble in such a short period of time, I finally had enough and started to mature. I decided to make some committed changes in my life by disassociating with the actions, situations, and people that I was continually getting into trouble with. And that is why the last event in 2003 is the most embarrasing. When my girlfriend started to get sick that night, I stopped drinking, ate a big dinner and drank a lot of water, along with waiting close to 2 hours to drive. And it still wasn't enough. All of these incidents are over 20 years old, most 25 years. I rarely ever drink alcohol anymore, and never drink and drive. After graduating pharmacy school, I had to endure a long, stressful, and thourogh vetting process to get my pharmacist license in Texas that included full drug/alcohol assessments, various interviews, and a multitude of explanations. I have never been in any trouble- both personally and professionally- since before I decided to return to school in 2005 and pursue a career in pharmacy. Thank you for your consideration.

James R. Notte details and explanation for 10/01/1999 arrest- Intoxication

I was a little over a month into my freshman year of college at John Carroll University in University Heights, Ohio when I, along with a bunch of my friends and dorm mates, were invited to a fraternity prospective pledge party at a house outside of campus in nearby Cleveland Heights, OH. This was a college frat party so there was a lot of alcohol consumption there, and the cops were eventually called to the house for a noise violation. I, along with multiple other underage (of 21) freshman were arrested for underage intoxication. I spent the night in jail. When I went to court on 10/12/1999, I pled No Contest to the charges and was ordered to pay a fine, complete a weekend alcohol education program, along with 3 months active and 9 months inactive probation. I also had to write a paper, that was published in the school newspaper, that was titled 'The Consequences of Partying and Drinking in Cleveland Heights.' I completed all the necessary requirements of my court orders.

James R. Notte details and explanation for 3/09/2000 arrest- OMVI (Operating Motor Vehicle Intoxicated)

I was home from my year of college on spring break, and like many 18 year kids was mostly concerned with meeting girls and partying with my friends. I drank a few beers with friends on this day, then hung out at my neighbors house for a couple of hours before deciding to go get some food at Taco Bell. I believed I was fine to drive since I quit drinking earlier, but was pulled over down the road from my parents because only my parking lights were on (this was just after dark, inside lights were on b/c parking lights were on, and couldn't tell full lights not on due to brightness of street lights on the road). Ended up being charged with OMVI, and going to jail that night. At court, I made deal with solicitor and charges were amended to Physical Control violation. I was sentenced to 10 days jail (I had to take and completed a 3 day DUI class, and the other 7 days were deferred), lost my drivers license for 1 year, had one year probation, and had to pay fines/court costs. This was the 2nd of 3 incidents that occurred in my first year of college, when I was young, wild, and stupid.

James R Notte Incident on 5/14/2000

In May of 2000, just after my freshman year of college when I was 18, I attended an after prom party with my girlfriend and many of my best friends, some of which were still 17. This party was at a hotel, and eventually the Sheriffs department showed up after midnight. When they arrived, I was in the parking lot still with multiple friends, waiting for a ride home since I wasn't driving. Two of my friends were still 17, so they were in violation of the curfew ordinance, and I along with several other friends were cited for Contributing to the Delinquency of a Minor. I eventually appeared in Ashtabula Juvenile Court and pled guilty to a charge of Disorderly Conduct, and paid the fines I was assessed

James R. Notte details and explanation for 8/01/2000 in Ashtabula, OH

I was still home on summer break after my freshman year of college, and hanging out with some friends from high school when we stopped at another friends house who was having a small get together. One of the girls at his house had drank too much and was throwing up outside in the front yard just as a police officer was driving by and eventually stopped. Most of the people there, including myself, were under 21 and had been drinking alcohol at some point that night. I was arrested for Underage Consumption of alcohol because the police officer smelled beer on my breath, and spent the night in jail. I pled guilty and was sentenced to 3 days in jail which were suspended per successfully completing 2 years probation which I did. After getting into so much trouble with the law (and my parents) in such a short period of time, I took a hard, honest look at my life and decided to make some changes in order to stay out of trouble, live healthier and grow up. This included distancing myself from the party crowd, and to not put myself into any situations where I would ever be arrested again.

James R. Notte details and explanation for arrest on 11/02/2003

While the other 3 incidents are embarrassing, they occurred when I was 18 and 19 years old and was young, wild and dumb. I matured and made the needed changes in my life to put all of that behind me, and that was why this last incident in 2003 is definitely the most embarrassing and regretted. I went down to Ohio University with my girlfriend and some hometown friends for the annual Halloween party for the university and town. We planned to stay with friends on town (so no driving was planned), but my girlfriend ended up getting really sick earlier on in the night, and I was placed in the situation of trying to best take care of her and made a bad judgement call. I stopped drinking, and ate a big dinner with plenty of water, and believed I had sobered up (around 90 minutes later) enough to drive her to a hotel, but was pulled over on the way and charged with DUI. I pled No Contest to the charges, again lost my driver license (6 months) and completed another weekend DUI class as well as 2 years probation. I decided I was never going to put myself in another situation like that again, and I haven't. This incident occurred over 20 years ago. I rarely drink alcohol now besides an occasional glass of wine, and I never drive after drinking anything at all. I have never been in any trouble, personally or professionally, through my entire professional career.

Helping personal injury victims get transportation on lien™ and pharmacy assistance on lien | Working with personal injury law firms and healthcare providers to cut treatment gaps and create much better client outcomes.
Austin, Texas, United States

Summary

As the Managing Partner of Compliant Clients, I'm focused on helping personal injury clients get the transportation and pharmacy services they need on lien. We work with law firms and healthcare providers across the United States to eliminate treatment gaps and create better client outcomes.

Today, Compliant Clients is a fast-growing business that delights thousands of claimants by relieving them of stress, worry and out-of-pocket costs. But not so long ago, the service was just an idea.

After receiving my Doctorate in Pharmacy from the University of Houston, I helped to grow multiple, successful pharmacy businesses across Texas. As the founder and Chief Practice Development Officer of MediMental Care, I used my medical training to identify gaps in patient treatment, while creating new service models within the personal injury space.

These models of care help injured litigants get better treatment and avoid undue medical deterioration during their legal actions.

But I also saw a pressing need in the personal injury space. Many people desperately require help managing claim-related medical transportation and pharmacy. And that's how Compliant Clients was born.

I'm proud to say Compliant Clients is now a leader and innovator in our field. We've helped thousands of people get to appointments on time, reducing the treatment gaps that can torpedo claims.

Through customized medical transport solutions and end-to-end pharmacy support, we make it easier for litigants to get the outcome

they deserve. Plus, we help personal injury attorneys reduce costs, eliminate admin headaches, and improve their success rate.

Although still a pharmacist at heart, I consider myself to be a true advocate for personal injury patient-litigants. You'll often find me in the halls of the Texas Capitol, testifying before legislative committees in support of patient rights.

My team members and I are always happy to hop on a call with personal injury attorneys and healthcare providers. We're on a mission to help claimants across the US get the treatment and compensation they need, without stress, expense, or worry.

"Red Flags" Checklist for Pharmacies

YOU MIGHT BE A PILL MILL IF...

Check all that apply:

	(1) Your pharmacy fills a discernable pattern of prescriptions for prescribers who write essentially the same prescriptions for numerous persons, indicating a lack of individual drug therapy
	(2) Your pharmacy operates with limited hours of operation or closes after a certain threshold of controlled substance prescriptions are dispensed, and has overall low prescription dispensing volume.
	(3) Prescriptions presented to the pharmacy are for controlled substances with popularity as street drugs, such as opiates, benzodiazepines, muscle relaxants, psychostimulants, and/or cough syrups, or any combination of these drugs.
	(4) The prescriptions for controlled substances contain nonspecific or no diagnoses.
	(5) The prescriptions are commonly for the highest strength of the drug and/or for large quantities.
	(6) Dangerous drugs or OTC products (such as multi-vitamins or laxatives) are added to the controlled substance prescriptions, maintaining relatively consistent 1:1 ratio of controlled substances to dangerous drugs and/or OTC products dispensed as prescriptions.
	(7) Prescriptions are authorized by the same prescriber with what appears to be different handwriting on the hardcopy prescription drug order forms.
	(8) Upon contact with the prescriber's office, you are unable to engage in comprehensive discussion with the actual prescriber, or he/she is unconcerned about your apprehensions regarding his/her prescribing practices or unwilling to provide additional information, such as treatment goals and/or prognosis with prescribed drug therapy.
	(9) You rely solely on the prescriber's representation, or on the representation of the individual answering the phone at the number on the prescription, that prescriptions are legitimate.
	(10) The prescriber's clinic is not registered as a pain management clinic by the Texas Medical Board, despite routinely receiving prescriptions from the prescriber foropiates, benzodiazepines, and/or muscle relaxants.
	(11) Drugs prescribed are inconsistent with the prescriber's area of practice.
	(12) The prescriber of the drugs is located a significant distance from your pharmacy.
	(13) The prescriber has been subject to disciplinary action by the licensing board, had his/her DEA registration removed, or been subject to criminal action.
	(14) The Texas PMP system indicates that persons are obtaining prescriptions for the same drugs from multiple prescribers or that persons are filling prescriptions for the same drugs at multiple pharmacies.
	(15) The person's address is a significant distance from your pharmacy and/or from the prescriber's office.
	(16) Multiple persons with the same address present prescriptions from the same prescriber.
	(17) Persons pay with cash or credit card more often than through insurance.
	(18) Persons presenting controlled substance prescriptions are doing so in such a manner that varies from seeking routine pharmacy services (e.g., willing to wait in long lines to receive drugs, persons arrive in the same vehicle with prescriptions from same prescriber, one person presents to pick up prescriptions for multiple others, persons refer to drugs by "street names" and/or comment on drug's color, persons seek early refills, persons travel from outside reasonable trade area of pharmacy).
	(19) Your pharmacy charges and persons are willing to pay more for controlled substances than they would at nearby pharmacies.
	(20) Your pharmacy routinely orders controlled substances from more than one drug supplier, or your pharmacy has been discontinued by a drug supplier related to controlled substance orders.
	(21) Sporadic and non-consistent dispensing volume (including zero dispensing) varies from day to day and week to week, and your pharmacy does not maintain operational hours each week on Monday through Friday.
	(22) Your pharmacy employs or contracts security personnel during operational hours to prevent problems.
	(23) Your pharmacy has been previously warned or disciplined by the Texas State Board of Pharmacy for inappropriate dispensing of controlled substances (i.e., corresponding responsibility).

If you checked any of the above items, you should review the laws and rules regarding corresponding responsibility and non-therapeutic dispensing, especially Board rule §291.29, in the law book or on our website: www.pharmacy.texas.gov (click on Texas Pharmacy Rules and Laws). Additional educational material is available at: http://www.pharmacy.texas.gov/Nontherapeutic.asp. Failure of pharmacies and pharmacists to detect patterns of inappropriate dispensing of prescription drugs is unprofessional practice and constitutes grounds for disciplinary action.

Texas State Board of Pharmacy

"Red Flags" Checklist for Pharmacies

YOU MIGHT BE A PILL MILL IF...

Check all that apply:

	(1) Your pharmacy fills a discernable pattern of prescriptions for prescribers who write essentially the same prescriptions for numerous persons, indicating a lack of individual drug therapy
	(2) Your pharmacy operates with limited hours of operation or closes after a certain threshold of controlled substance prescriptions are dispensed, and has overall low prescription dispensing volume.
	(3) Prescriptions presented to the pharmacy are for controlled substances with popularity as street drugs, such as opiates, benzodiazepines, muscle relaxants, psychostimulants, and/or cough syrups, or any combination of these drugs.
	(4) The prescriptions for controlled substances contain nonspecific or no diagnoses.
	(5) The prescriptions are commonly for the highest strength of the drug and/or for large quantities.
	(6) Dangerous drugs or OTC products (such as multi-vitamins or laxatives) are added to the controlled substance prescriptions, maintaining relatively consistent 1:1 ratio of controlled substances to dangerous drugs and/or OTC products dispensed as prescriptions.
	(7) Prescriptions are authorized by the same prescriber with what appears to be different handwriting on the hardcopy prescription drug order forms.
	(8) Upon contact with the prescriber's office, you are unable to engage in comprehensive discussion with the actual prescriber, or he/she is unconcerned about your apprehensions regarding his/her prescribing practices or unwilling to provide additional information, such as treatment goals and/or prognosis with prescribed drug therapy.
	(9) You rely solely on the prescriber's representation, or on the representation of the individual answering the phone at the number on the prescription, that prescriptions are legitimate.
	(10) The prescriber's clinic is not registered as a pain management clinic by the Texas Medical Board, despite routinely receiving prescriptions from the prescriber foropiates, benzodiazepines, and/or muscle relaxants.
	(11) Drugs prescribed are inconsistent with the prescriber's area of practice.
	(12) The prescriber of the drugs is located a significant distance from your pharmacy.
	(13) The prescriber has been subject to disciplinary action by the licensing board, had his/her DEA registration removed, or been subject to criminal action.
	(14) The Texas PMP system indicates that persons are obtaining prescriptions for the same drugs from multiple prescribers or that persons are filling prescriptions for the same drugs at multiple pharmacies.
	(15) The person's address is a significant distance from your pharmacy and/or from the prescriber's office.
	(16) Multiple persons with the same address present prescriptions from the same prescriber.
	(17) Persons pay with cash or credit card more often than through insurance.
	(18) Persons presenting controlled substance prescriptions are doing so in such a manner that varies from seeking routine pharmacy services (e.g., willing to wait in long lines to receive drugs, persons arrive in the same vehicle with prescriptions from same prescriber, one person presents to pick up prescriptions for multiple others, persons refer to drugs by "street names" and/or comment on drug's color, persons seek early refills, persons travel from outside reasonable trade area of pharmacy).
	(19) Your pharmacy charges and persons are willing to pay more for controlled substances than they would at nearby pharmacies.
	(20) Your pharmacy routinely orders controlled substances from more than one drug supplier, or your pharmacy has been discontinued by a drug supplier related to controlled substance orders.
	(21) Sporadic and non-consistent dispensing volume (including zero dispensing) varies from day to day and week to week, and your pharmacy does not maintain operational hours each week on Monday through Friday.
	(22) Your pharmacy employs or contracts security personnel during operational hours to prevent problems.
	(23) Your pharmacy has been previously warned or disciplined by the Texas State Board of Pharmacy for inappropriate dispensing of controlled substances (i.e., corresponding responsibility).

If you checked any of the above items, you should review the laws and rules regarding corresponding responsibility and non-therapeutic dispensing, especially Board rule §291.29, in the law book or on our website: www.pharmacy.texas.gov (click on Texas Pharmacy Rules and Laws). Additional educational material is available at: http://www.pharmacy.texas.gov/Nontherapeutic.asp. Failure of pharmacies and pharmacists to detect patterns of inappropriate dispensing of prescription drugs is unprofessional practice and constitutes grounds for disciplinary action.

Regulatory Action and Legal Proceedings Disclosure

Discipline Associated with the Applicant Provider Facility

None of the managing employees, officers, directors or owners (as those persons are defined under 42 CFR § 455.100 – 106) named in response to any questions in this Application, have ever:

- had disciplinary action taken against any business or professional license held by them in this or any other state;
- had a license to practice restricted, reduced, or revoked in this or any other state;
- been previously found by a licensing, certifying, or professional standards board or agency to have violated the standards or conditions relating to licensure or certification or the quality of services provided; or
- entered into a Consent Order issued by a licensing, certifying, or professional standards board or agency.

Disciplinary Action by Regulatory Agencies

The Applicant, Walmart Inc., and the various Walmart subsidiaries ("Walmart") operates nearly four thousand, six hundred retail pharmacies across the United States, five pharmacy distribution centers, a mail order pharmacy, a specialty pharmacy and over three thousand Vision Centers™ ("Provider Facilities") in the United States through Walmart Inc. and its other subsidiary companies (collectively the "Operating Entities"). The Pharmacy Facilities employ tens of thousands of Pharmacy Employees, many of whom own shares of the publicly-traded stock of, and thus have a financial interest in, Walmart Inc. In connection with operating the Pharmacy Facilities, the Walmart applies for and holds thousands of permits, licenses, and certificates of authority with federal, state and local agencies, including state professional licenses as well as state and federal controlled substance registrations, some of which have been subjected to discipline as described below.

Walmart has never had a pharmacy license or pharmacy federal registration revoked. Walmart has never surrendered a license or federal registration in lieu of being disciplined, or otherwise in connection with any threatened discipline. From time to time, state agencies with criminal, civil and/or administrative enforcement authority have taken disciplinary action against Walmart and/or Walmart's Pharmacy Facilities. None of these actions, however, has ever had a material adverse effect on the ability of Walmart or the Walmart Pharmacy Facilities to continue to provide pharmacy services in any state where Walmart holds such permits, licenses or registrations.

However, from time to time, agencies with criminal, civil and/or administrative enforcement authority have taken disciplinary action against Walmart, Walmart's Pharmacy Facilities and Walmart's Pharmacy Employees. To the best of Walmart's knowledge, **Exhibit B** to this Application provides a summary of those final actions that have been taken against Sam's East, Inc.'s Pharmacy Facilities' and Pharmacy Employees' respective registrations and licenses for the last two years. **Exhibit B** summarizes the nature of the action taken, the regulatory authority, the reason for the action, and the resolution of the action with the regulatory authority.

There are four regulatory actions involving a license suspension or probation for a Walmart retail pharmacy facility that took place over ten years ago and not included in the Disciplinary Action Chart referenced above. These suspensions were at facilities operated by Wal-Mart Stores East LP, except as indicated. These instances are discussed in more detail below.

An administrative one (1) day suspension of a state pharmacy board license occurred on September 21, 2010 at Walmart's Pharmacy in Gastonia, North Carolina, Store #10-1385. The suspension occurred due to recurring issues of technician scheduling exceeding recommended pharmacist/technician ratios.

An administrative suspension of a state pharmacy board license occurred on October 27, 2009 at Walmart Pharmacy #10-5131 in Trevose, Pennsylvania. The suspension occurred due to procedural failures when store management failed to timely notify the Pennsylvania Board of Pharmacy of a PIC (Pharmacist-in-Charge) change and then further failed to respond to related notices of citations and fines. None of the notices, citations or fines was addressed to Walmart's Home Office. Upon being made aware of the situation, Walmart's Home Office personnel were able to have the suspension lifted on or about November 4, 2009.

Walmart Pharmacy #10-0044 in Eldon, Missouri, operated under probation with the Missouri Department of Health and Senior Services, Bureau of Narcotics and Dangerous Drugs (the "Department"). Probation was implemented pursuant to a Settlement Agreement dated February 28, 2008 resulting from the Department's investigation into the accuracy and completeness of controlled substance inventory (receipt and disposition) documentation. Under the terms of the Settlement Agreement, Walmart corrected the claimed deficiencies and revised the manner in which it received its controlled substances.

Walmart Pharmacy #10-1199 in Avon, Colorado, operated under probation with the Colorado Board of Pharmacy from July 18, 2006 to July 17, 2010. This retail pharmacy is operated by Walmart, Inc. Probation was implemented pursuant to a Stipulation and Final Agency Order resulting from the Colorado Board's investigation into the accuracy and completeness of controlled substance inventories and the inability of facility personnel to provide records of return-to-stock documentation. Under the terms of the Stipulation and Final Agency Order, Walmart corrected the claimed deficiencies and served under probation without any further incidents.

Notes

1. The "initial date of registration as an outsourcing facility" is the date the facility was first registered (i.e., the date FDA determined that the initial registration information submitted for the facility was complete, and the establishment fee was paid in full).

   Under section 503B(b) of the FD&C Act, after the initial registration, a facility that elects to continue to be registered with FDA as an outsourcing facility must re-register annually. A facility that elects to register (or re-register) with FDA as an outsourcing facility must pay an annual establishment fee. The "date of most recent registration as an outsourcing facility" reflects the date FDA determined the most recently submitted registration information was complete and the annual establishment fee for that fiscal year paid in full.

   Unless a previously registered outsourcing facility re-registers and pays the annual establishment fee in full during the registration period (between October 1 and December 31 of each calendar year), the facility will be removed from the list of registered outsourcing facilities on January 1 of the next calendar year.

2. Once an outsourcing facility is registered, the facility will be added to the list of facilities FDA intends to inspect according to a risk-based schedule. FDA plans to inspect outsourcing facilities within a reasonable period of time following initial registration, once it is confirmed that the facility has initiated drug production and distribution. However, the exact timing of the inspections can be affected by a number of variables, including the number of outsourcing facility registrants, other inspection priorities, and the operational status of the newly registered outsourcing facility.

   Inspections identified in this table are associated with the facility at the listed address. A company may own or operate more than one registered outsourcing facility. FDA's web page Compounding: Inspections, Recalls, and other Actions (/drugs/human-drug-compounding/compounding-inspections-recalls-and-other-actions) may contain information about compounding facilities under the same ownership as the listed registered outsourcing facility.

   Inspections may take place over several days, weeks or longer. The date of the inspection is the date a Form FDA 483 listing the investigators' observations was issued. If no FDA Form 483 was issued, the date is the last day of the inspection.

3. A Form FDA 483 is issued when investigators observe any significant objectionable conditions. It does not constitute a final agency determination of whether any condition is in violation of the FD&C Act or any relevant regulations.
4. This table does not include State Board of Pharmacy actions, if any. To determine whether a registered outsourcing facility has been the subject of a state enforcement action, check with the State Board of Pharmacy for the state in which the facility is located. Some states post disciplinary or other actions on their web sites.
5. "Closed" means the inspection has been closed without further action. "Open" means FDA has not determined whether further action will be taken. If an action has been taken, it will be listed. Possible FDA actions include warning letter, seizure or injunction.
6. The information in this column was provided by the registered outsourcing facility at the time of registration and has not been verified by FDA. "N/A" indicates the registered outsourcing facility has not provided this information.
7. This outsourcing facility was the subject of at least one previous inspection relating to compounding that resulted in a Form FDA 483, warning letter or other action. For information about such inspections and resulting actions, visit Compounding: Inspections, Recalls, and other Actions (/drugs/human-drug-compounding/compounding-inspections-recalls-and-other-actions).
8. A remote regulatory assessment (RRA) is an examination of an FDA-regulated establishment and/or its records, conducted remotely, to evaluate compliance with applicable FDA requirements. These assessments assist in protecting human and animal health, inform regulatory decisions and verify certain information submitted to the agency.
9. Based on inspectional findings, the inspection revealed significant issues. As a result, the outsourcing facility may have either initiated a recall on their own following conversation(s) with the FDA investigator or FDA recommended a recall at the conclusion of the inspection or both. Additionally, the outsourcing facility may have conducted multiple recalls or recalled multiple drugs.

This document lists observations made by the FDA representative(s) during the inspection of your facility. They are inspectional observations, and do not represent a final Agency determination regarding your compliance. If you have an objection regarding an observation, or have implemented, or plan to implement, corrective action in response to an observation, you may discuss the objection or action with the FDA representative(s) during the inspection or submit this information to FDA at the address above. If you have any questions, please contact FDA at the phone number and address above.

DURING AN INSPECTION OF YOUR FIRM I OBSERVED:

OBSERVATION 1

Failure to conduct media fills that closely simulate aseptic production operations under the worst-case, most-challenging, and stressful conditions.

Specifically,

Your executed media fill lots 32001001A, 32001002A, and 32001003A all performed in May 2023, were compounded and then filled using a 1 mL fill volume in 3 mL syringe size configuration. This does not replicate your actual commercial batch production configuration of 10 mL fill volume in 10 mL syringes for Phenylephrine HCL (1000 mcg / 10 mL), lot 32108007A, manufactured on 06/27/2023, Expiration date 12/24/2023. Your firm currently compounds no commercial product filled into 3 mL syringes and only fills into 10 mL syringes. Batch size for media fill and commercial lots both yield approximately 4000 units; however, the total volume filled for media fill lots is approximately 4 Liters whereas commercial lots is approximately 40 Liters.

OBSERVATION 2

Aseptic processing areas are deficient regarding the system for monitoring environmental conditions.

Mr. Nicholas Lyons
Director of Compliance Branch

Subject: Response to FDA Form 483 dated October 4, 2023
FEI: 3025336457

Dear Program Division Director,

This letter is in response to the FDA Form 483 issued to STAQ Pharma of Ohio, LLC. at 255 Phillipi Rd. Columbus, OH 43228 on October 4, 2023 (see Attachment #1). As an introductory comment, STAQ appreciates the time invested by the FDA inspection team in evaluating our facility.

With respect to the October inspection observations, we appreciate the professionalism of Mr. Andrew Barrowcliff. We acknowledge the FDA's inspectional observations in the FDA Form 483 issued on October 4, 2023. While this letter responds to the specific observations as noted in the FDA Form 483, we fully recognize that the FDA Form 483 addressed specific observations and that it is the responsibility of STAQ to be in full compliance with the regulations and relevant 503B guidance as issued by the FDA.

The following responds to the specific observations from the FDA Form 483 in the same order found in the FDA Form 483. The investigator's observation is restated in bold, and the STAQ response follows.

Observation 1 –
Failure to conduct media fills that closely simulate aseptic production operations under the worst-case, most-challenging, and stressful conditions.
Specifically,
Your executed media fill lots 32001001A, 32001002A, and 32001003A all performed in May 2023, were compounded and then filled using a 1 mL fill volume in 3 mL syringe size configuration. This does not replicate your actual commercial batch production configuration of 10 mL fill volume in 10 mL syringes for Phenylephrine HCL (1000 mcg / 10 mL), lot 32108007A, manufactured on 06/27/2023, Expiration date 12/24/2023. Your firm currently compounds no commercial product filled into 3 mL syringes and only fills into 10 mL syringes. Batch size for media fill and commercial lots both yield approximately 4000 units; however, the total volume filled for media fill lots is approximately 4 Liters whereas commercial lots is approximately 40 Liters.

STAQ's response to Observation 1:

- STAQ Pharma established in SOP338.A "Aseptic Process Simulation (Media Fill) – OH" section 3.3.13 that "Any container size and fill volume may be used for aspect processing simulations as long as the filling process is representative, and the container closures are identical to what is anticipated during production of commercial batches."
  - We have revised SOP338 *Aseptic Process Simulation (Media Fill) – OH* to include the use of bracketing of fill volumes and container sizes with the same container closure.
    - See Attachment 2 – Revised SOP338.B *Aseptic Process Simulation (Media Fill) – OH*
    - See Attachment 3 – Training forms for SOP338.B *Aseptic Process Simulation (Media Fill) – OH*

- STAQ Pharma will be conducting our next semi-annual media fill in November 2023 and will incorporate the 10 mL fill in 10 mL BD syringes using a total of 40 Liters to fulfill our bracketing approach. These media fill activities will allow us to further evaluate our aseptic production operations under the worst-case, most-challenging, and stressful conditions.
  - The FDA will be updated with the final report summarizing the study once complete in December 2023.

Observation 2 - Aseptic processing areas are deficient regarding the system for monitoring environmental conditions.

Specifically,

The location of your viable and nonviable particle sample collection points inside your ISO-5 Horizontal Laminar Flow Hood in room 115B is inadequate as they are situated directly adjacent to the HEPA air filter grate at the back of the hood. Samples collected evaluate only the air flowing immediately out of the HEPA filter, not air that is representative of the operational sterile filling area where manual aseptic filling manipulations are being conducted.

STAQ's response to Observation 2:

- While STAQ Pharma's location of the viable and non-viable particle sample collection is within the recommended 1 foot from the critical aseptic processing zone (see 2004 Guidance for Industry – Sterile Drug Products Produced by Aseptic Processing – Current Good Manufacturing Practice, Section IV Buildings and Facilities, A. Critical Area – Class 100 (ISO 5) on location of sample collections during Aseptic operations), STAQ recognizes the opportunity for continuous improvement.
-
  - STAQ Pharma evaluated an adjusted location of the viable and nonviable particle sample collection points.

    The adjusted location of the non-viable particle sample collection is approximately 4 inches from the HEPA grate located at the back of the hood (previously approximately 2 inches) and approximately 10.5 inches from the critical area (previously approximately 12 inches).

    The adjusted location of the viable particle sample collection is approximately 4 inches from the HEPA grate located at the back of the hood (previously approximately 1.5 inches) and approximately 10.5 inches from the critical area (previously approximately 12 inches).
    - See Attachment 4 – Pictures of original location and adjusted location of viable and non-viable sample collection points.

  - STAQ Pharma created SOP220 *Critical Area Process Setup* which provides instruction for the placement of the viable and non-viable sampling equipment in the critical area.
    - See Attachment 5 – SOP220.A *Critical Area Process Setup*
    - See Attachment 6 – Training forms for SOP220.A *Critical Area Process Setup*

  - STAQ Pharma executed an addendum to OH-PRT-23-039 *Dynamic and Static Airflow Visualization Study of Manual Syringe Filling Using Repeater Pumps in Horizontal Laminar Flow Hood.* This addendum (OH-PRT-23-039-Add-01) evaluated the activities which may have been affected by the adjusted location of the viable and non-viable particle sample collection points on the expected air flow

characteristics for the ISO 5 aseptic processing space. There was no impact to the activities which may have been affected.

- See Attachment 7 – Video Footage of OH-PRT-23-039-Add-01
- See Attachment 8 – Final Report of OH-PRT-23-039-Add-01

Regarding the overall response, our intent is to provide the FDA with an electronic update to this response in December once all commitments have been completed. Our continued response will have attachments to demonstrate the implementation of the above changes.

Sincerely,

24OCT2023

STAQ Pharma has created and revised Standard Operating Procedures, performed media fills following the revised SOP, and executed an additional addendum to the protocol evaluating the changes to our dynamic and static airflow visualization study. STAQ Pharma believes the corrective actions that have been implemented address the FDA's observations on the Form 483 issued on October 04, 2023. This will be STAQ Pharma's final response to the FDA Form 483 unless otherwise requested or directed by the FDA.

13. What is your procedure for visual inspection of compounded sterile products?

The visual inspection procedure ensures that all personnel performing inspections are properly trained and have current vision testing, Jaeger for near-field and Ishihara for color vision, coordinated annually by Human Resources. Manual inspection sessions are conducted in 30-minute intervals with 5-minute breaks to prevent fatigue, while semi-automated inspections follow similar documentation and defect segregation requirements. All defects are documented, categorized as critical, major, or minor, and trended quarterly to identify the need for investigation. Quality oversees acceptance sampling (AQL), re-inspection of failed lots, and maintenance of both image and physical defect libraries for training and reference.

14. How often do you perform glove fingertip and medial fill testing?

Operators perform gowning and glove finger tip testing every 6 months. Operators participate in media fill testing annually.

15. Describe your initial and ongoing training program for all personnel performing sterile compounding:

The Training Program ensures all employees receive, complete, and document training necessary to perform their job functions in compliance with quality and safety standards. New employees undergo Company Introduction and New Employee Orientation within two weeks of hire, followed by role-specific and CGMP training assigned by management and Quality. Training methods include Read & Understand, Instructor-Led, On-the-Job, and Qualification Training, each documented on controlled forms and requiring demonstration of competency before independent work. Qualification Training involves observation, guided practice, and independent demonstrations, with requalification required at defined intervals. The Quality Department maintains all training records, and ensures all training assignments, completions, and requalifications are properly tracked and filed.

16. Describe the cleaning procedure for your primary and secondary engineering controls, including the frequency of cleaning and the names of cleaning, disinfectant, sporicidal, and/or deactivation and decontamination agents used:

The primary and secondary engineering controls are cleaned using a controlled, unidirectional or "S" pattern technique with sterile, low-linting wipes or mop heads fully saturated in the designated cleaning agents. Cleaning progresses from the cleanest to least clean areas (ISO 5 to ISO 8) and from top to bottom—beginning with ceilings, followed by walls, equipment, and floors—to prevent recontamination. Routine cleaning includes daily disinfection with sterile 70% IPA for equipment and residue removal, and sterile CyQuanol for general surface cleaning and disinfection. Monthly cleaning incorporates sterile Peridox RTU as the sporicidal agent to eliminate microbial spores, with a minimum three-minute contact time. When hazardous drug products are processed, Peridox RTU is also used for deactivation and decontamination of all contacted surfaces and equipment. Residue removal is performed daily or as needed using sterile 70% IPA to maintain surface integrity and appearance. All disposable cleaning supplies are sterile and dedicated to specific room classifications to prevent cross-contamination. Cleaning frequencies are established by room classification and activity (daily, weekly, and monthly) and all cleaning actions are documented in the associated logbooks with a second-person verification. Specialty cleaning may be initiated by the Quality department when necessary.

17. Who performs the sterile compounding process at your facility?

Level 3 Production Techs

18. Who is responsible and accountable for the sterile compounding process at your facility?

Arron Joiner - Head of Operations

19. If products are shipped/mailed, what shipping conditions are used to ensure product safety/efficacy?

Each shipment includes a Certificate of Analysis, secure packaging with foam or bubble wrap, and is sealed with tamper-evident tape. Controlled substances require authorized handling, signature delivery, and unmarked containers to prevent tampering.

This document lists observations made by the FDA representative(s) during the inspection of your facility. They are inspectional observations, and do not represent a final Agency determination regarding your compliance. If you have an objection regarding an observation, or have implemented, or plan to implement, corrective action in response to an observation, you may discuss the objection or action with the FDA representative(s) during the inspection or submit this information to FDA at the address above. If you have any questions, please contact FDA at the phone number and address above.

DURING AN INSPECTION OF YOUR FIRM WE OBSERVED:

OBSERVATION 1

There is a failure to thoroughly review the failure of a batch or any of its components to meet any of its specifications whether or not the batch has been already distributed.

Specifically, you did not perform an investigation to identify the root cause(s) for critical defects observed during the 100% visual inspection and the subsequent Accepted Quality Limit (AQL) inspection process.

You observed particulate matter that you determine to be critical and major defects during the visual inspection of Dexmedetomidine Hydrochloride 4 mcg/mL, 5mL in a 5mL syringe, Lot 42123092A. The initial 100% visual inspection identified 85 defects (74 critical, 9 major and 2 not classified). After this 100% visual inspection, followed by a failed AQL inspection which identified 1 critical defect. After you confirmed the AQL failure you did not initiate an investigation to determine the root cause of the critical defect. Instead, you performed a second 100% visual inspection for the same lot. The second 100% visual inspection identified 94 defects (87 critical and 7 major categories), which was more than the first 100% visual inspection. Even after observing the 94 defects (87 of which were determined to be critical) you released and distributed the lot. In addition, the particulate (orange particle inside syringe barrel) discovered during the AQL inspection was not characterized, and no corrective actions were implemented.

Dexmedetomidine Hydrochloride 4 mcg/mL, 5mL in a 5mL syringe, Lot 42123092A, exp. 06/08/2025, was deemed free from defective units and suitable for release. Lot 42123092A, was released by Quality

OBSERVATION 2

Your firm failed to establish adequate written procedures for production and process controls designed to assure that the drug products have the identity, strength, purity, and quality that they are purported or represented to possess.

Specifically,

A The acceptance sampling inspection governed by procedure SOP-0052 "Sampling Plans" Rev 2, Effective Date 09 Feb 2024 does not clearly define reinspection parameters, fails to establish scientifically sound acceptance criteria following reinspection, or require lots that fail to meet initial Acceptable Quality Limits (AQL) to be rejected.

B-The 100% visual inspection program governed by procedure OH-SOP-0012 "Visual Inspection – OH" Rev 5, Effective Date 26 Mar 2025 does not establish acceptance criteria for each defect categories (critical, major, or minor defects), and does not require trending of the different defect categories.

C-The use of brighter light for inspecting colored vials is not established. Your firm produces methotrexate drug product that are dispensed in amber (colored) vials. Additionally, there is no documentation of under what light intensity setting the product is inspected. Dabrico DIH-15 Manual Inspection Hood used in visual inspection of amber vials are qualified at lower light intensity.

Subject: Response to FDA Form 483 dated May 16, 2025
FEI: 3025336457

Dear Compounding Facility Inspections Team,

This letter is STAQ Pharma's follow up response to the FDA Form 483 issued to STAQ Pharma of Ohio, LLC. at 255 Phillipi Rd. Columbus, OH 43228 on May 16, 2025; original response sent on June 06, 2025.

With respect to the May inspection observations, we appreciate the professionalism of Dr. Tekalign Wondimu, Dr. Yaharn Su, and Mr. Claude Noel Y Zanetsie. We acknowledge the FDA's inspectional observations in the FDA Form 483 issued on May 16, 2025. While this letter responds to the specific observations as noted in the FDA Form 483, we fully recognize that the FDA Form 483 addressed specific observations and that it is the responsibility of STAQ to be in full compliance with the regulations and relevant 503B guidance as issued by the FDA.

The following responds to the specific observations from the FDA Form 483 in the same order found in the FDA Form 483. The investigator's observation is restated in bold, followed by the STAQ initial response and any additional updates provided (in blue color).

Observation 1 –
There is a failure to thoroughly review the failure of a batch or any of its components to meet any of its specifications whether or not the batch has been already distributed.

Specifically, you did not perform an investigation to identify the root cause(s) for critical defects observed during the 100% visual inspection and the subsequent Accepted Quality Limit (AQL) inspection process.

You observed particulate matter that you determine to be critical and major defects during the visual inspection of Dexmedetomidine Hydrochloride 4 mcg/mL, 5mL in a 5mL syringe, Lot 42123092A. The initial 100% visual inspection identified 85 defects (74 critical, 9 major and 2 not classified). After this 100% visual inspection, followed by a failed AQL inspection which identified 1 critical defect. After you confirmed the AQL failure you did not initiate an investigation to determine the root cause of the critical defect. Instead, you performed a second 100% visual inspection for the same lot. The second 100% visual inspection identified 94 defects (87 critical and 7 major categories), which was more than the first 100% visual inspection. Even after observing the 94 defects (87 of which were determined to be critical) you released and distributed the lot. In addition, the particulate (orange particle inside syringe barrel) discovered during the AQL inspection was not characterized, and no corrective actions were implemented.

Dexmedetomidine Hydrochloride 4 mcg/mL, 5mL in a 5mL syringe, Lot 42123092A, exp. 06/08/2025, was deemed free from defective units and suitable for release. Lot 42123092A, was released by Quality Assurance on 01/30/2025.

STAQ's response to Observation 1:

- Dexmedetomidine Hydrochloride 4 mcg/mL, 5 mL fill in 5 mL syringe, Lot 42123092A which expires on 06/08/2025 was released after meeting quality standards. There is no concern for the product safety, quality, identity, purity, or potency.
    - STAQ Pharma has revised Visual Inspection Procedure SOP-0009 to create a company-wide SOP applicable to both the STAQ Pharma of Ohio (Columbus, OH) and the STAQ Pharma, Inc. (Denver, CO) facilities.
        - See STAQ's response to Observation 2 for full details on the updates for the Visual Inspection Procedure SOP-0009.
    - STAQ Pharma has revised Sampling Plans SOP-0052 to require the initial investigation be performed per the Deviations and Investigations SOP-0042 and that AQL be performed following secondary 100% inspection at a tightened level.
        - See STAQ's response to Observation 2 for full details on the updates for the Sampling Plans SOP-0052.
- STAQ Pharma, Inc., our FDA registered 503B Outsourcing Facility in Denver, CO, had previously identified the orange particle in the syringe barrel. STAQ Pharma of Ohio had conferred with STAQ Denver that an orange particle in the syringe barrel had been evaluated by the third-party laboratory, McCrone Associates.
    - See Attachment #2 for the report from McCrone Associates which discusses the results from the particle evaluation.
- STAQ Pharma evaluated all other batches that had been commercially produced from 07NOV2024 until the time of this response, as these were the commercial lots still within expiration.
    - 50 commercial batches were produced during this time frame and no other batches had a failed AQL inspection.
- Please see Attachment #3 for the defect evaluation of Dexmedetomidine Hydrochloride 4 mcg/mL, 5 mL fill in 5 mL syringe, Lot 42123092A which expires on 06/08/2025.
    - The additional defects that were seen during the second inspection were classified at the time as particle adhered to container and were later determined by laboratory identification to be ink-like stearate marks embedded in the barrel of the syringe.
    - During the first 100% inspection there was one particle in solution found and no particles in solution found during the second 100% inspection
    - During the second 100% inspection there were no particles adhered to container that were found which were not ink or silicone, which are native and common features of the syringe.

Observation 2 –

Your firm failed to establish adequate written procedures for production and process controls designed to assure that the drug products have the identity, strength, purity, and quality that they are purported or represented to possess.

Specifically,

A-The acceptance sampling inspection governed by procedure SOP-0052 "Sampling Plans" Rev 2, Effective Date 09 Feb 2024 does not clearly define reinspection parameters, fails to establish scientifically sound acceptance criteria following reinspection, or require lots that fail to meet initial Acceptable Quality Limits (AQL) to be rejected.

B-The 100% visual inspection program governed by procedure OH-SOP-0012 "Visual Inspection- OH" Rev 5, Effective Date 26 Mar 2025 does not establish acceptance criteria for each defect categories (critical, major, or minor defects), and does not require trending of the different defect categories.

C-The use of brighter light for inspecting colored vials is not established. Your firm produces methotrexate drug product that are dispensed in amber (colored) vials. Additionally, there is no documentation of under what light intensity setting the product is inspected. Dabrico DIH-15 Manual Inspection Hood used in visual inspection of amber vials are qualified at lower light intensity.

On 15 Jan 2025, you released 1017 vials of Methotrexate 25 mg/mL, 40 mL in 50 mL, lot 42168075A out of which 12 vials were distributed to a customer.

STAQ's response to Observation 2:

06JUN2025 – Initial Response

- A
  - STAQ Pharma has revised the Sampling Plans SOP-0052 to require the investigation be performed per the Deviations and Investigations SOP-0042 if there is a failure of the first AQL. The Acceptance Sampling (AQL) FORM-0140 has been updated to require an investigation per SOP-0042 and that AQL be performed following secondary 100% inspection at a tightened level noted in SOP-0052 and Additional Acceptance Sampling (AQL) Inspection FORM-0012.
    - See Attachment #4 for the revised Sampling Plans SOP-0052
      - See Attachment #5 for Sampling Plans SOP-0052 training record
    - See Attachment #6 for the revised Acceptance Sampling (AQL) Inspection Form, FORM-0140
    - See Attachment #7 for the new Additional Acceptance Sampling (AQL) Inspection Form, FORM-0012
- B
  - STAQ Pharma has revised Visual Inspection Procedure SOP-0009 to create a global SOP applicable to both the STAQ Pharma of Ohio and the STAQ Pharma, Inc. facilities.
    - See Attachment #8 for the Visual Inspection Procedure SOP-0009. The updates to the SOP include:
      - A shared defect library.
      - That if a lot fails AQL following the first 100% inspection, it may only be 100% re-inspected with appropriate investigation, retraining, and scientific justification per SOP-0052.
      - A re-training step of visual inspection operators will follow AQL failure based on the AQL failure type.
      - That product and defect risk assessments must be reviewed during the investigation to determine the criticality and risk of performing additional inspection.
      - That re-inspection can only be performed one and only one time.
      - The establishment of limits of each defect criticality to evaluate on a per batch basis and to be evaluated during quarterly trending.
    - The SOP will be effective in July 2025 and training records will be provided in the next response.
  - STAQ Pharma has revised Quality Trending SOP-0051 to incorporate the review of visual inspection defect rates for commercial batches on a quarterly basis.
    - See Attachment #9 for Quality Trending SOP-0051

- Training records will be provided at the next response as the SOP will be effective 30 June 2025.

- STAQ Pharma is conducting and documenting risk assessments for each container type and known defect and will be provide the risk assessment documents at the next response.
  - See Attachment #10 for Quality Risk Management SOP-0007

- C
  - STAQ Pharma executed addenda to all Dabrico Manual Inspection Hood qualifications which established a designated inspection area within the hoods that meets increased light intensity requirements for amber (colored) vials. The designated inspection area within each inspection hood exhibits a minimum light intensity of 8000 lux (USP <1790>) and is reflected in OH-WI-0021 Use of Dabrico Manual Inspection Hood-OH Section 1.3.
    - See Attachment #11 – Dabrico Manual Inspection Hood qualification addendum documentation which captures the testing and results of inspection hood qualification for higher light intensity for visual inspection of amber vials.
    - See Attachment #12 – revised OH-WI-0021 Use of Dabrico Manual Inspection Hood-OH.

- STAQ has executed a study to determine the manual inspection baseline for particulate observed in amber vials. The (baseline) study utilized a standardized set of seeded defect containers and acceptable containers to determine the probability of detection (PoD) of each container in the set. The results of the baseline study were the disposition of twelve particulate defect types which meet the criteria for a reject unit under STAQ visual inspection procedures. The results and conclusions of the baseline study were used to define the minimum particle size an inspector must be able to detect in the amber vial qualification set for inspector qualifications. The qualification set also includes representations of other defects expected for the product.
  - See Attachment # 13 – determination of manual inspection baseline study for particulate in amber glass vials and the associated final report.
  - STAQ Pharma of Ohio Visual Inspection personnel have undergone visual inspection qualifications using the established amber vial qualification set which contained critical and major defects.
    - See Attachment #14 – contents of the amber vial qualification set, VTS-101.
    - See Attachment #15 – visual inspection operator qualification documentation.

15AUG2025 – Response

- STAQ Pharma has completed Risk Assessment documentation which includes the established acceptance criteria for each defect category.
  - See Attachment #17 for the risk assessment for polypropylene syringes.
  - See Attachment #18 for the risk assessment for glass vials.
- STAQ Pharma has provided the training records for the Visual Inspection Procedure SOP-0009 and Quality Trending SOP-0051.
  - See Attachment #19 for the training records for Visual Inspection Procedure SOP-0009.
  - See Attachment #20 for the training records for Quality Trending SOP-0051.

Observation 3 –

The labels of your outsourcing facility's drug products do not include information required by section 503B(a)(I0)(A) of the Federal Food, Drug, and Cosmetic Act (FD&C Act).

Specifically, your labels do not include the following information:

S·T·A·Q PHARMA

Safety | Availability | Quality

Subject to paragraph (B)(i), a list of active ingredient(s), identified by established name and the quantity or proportion of the active ingredient(s).

Examples of your drug product labels that do not contain this information include, but are not limited to:

- **Phenylephrine HCl 100 mcg/5 mL**
- **Succinylcholine Cl 100 mg/5 mL**
- **Succinylcholine Cl 200 mg/10 mL**

STAQ's response to Observation 3:

- STAQ Pharma evaluated all secondary labels, and while the active ingredients were listed at the top of the label, STAQ Pharm has added the active ingredients listed on the label to the list of active and inactive ingredients so that they are located in the same location to provide better clarity.
    - See Attachment #16 for updated secondary labels.

Summary relating to the Inspection Response

Observation 1 – STAQ Pharma evaluated lot 42123092A discussed during the inspection and ensured the evaluation included an expanded scope for all batches within expiry.
Observation 2 – STAQ Pharma also updated and created Standard Operating Procedures, forms, and Risk Assessments to further improve our visual inspection program and associated written procedures. Operators were trained on the new procedures.
Observation 3 – STAQ Pharma updated labeling to provide further clarity for all components of our drug products.

STAQ Pharma will remain focused on continuous improvement, ensuring compliance with regulations and relevant guidance, and appreciates the opportunity to work with the Agency to better STAQ Pharma's processes. STAQ Pharma believes the corrective actions that have been implemented address the FDA's observations on the Form 483 issued on May 16, 2025. This will be STAQ Pharma's final response to the FDA Form 483 unless otherwise requested or directed by the FDA.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and these Respondents because at the time of the events alleged herein, Respondent Karlo Nikko Arceo, RPh (Arceo), Certificate of Registration No. 19679, was a pharmacist registered with the Board, and Respondent CVS Pharmacy #8824, Pharmacy License No. PH00947, was a pharmacy licensed by the Board.

FACTUAL ALLEGATIONS

2. Arceo was employed as a staff pharmacist by CVS Pharmacy #8824 at the time of the events alleged herein.

3. On or about November 27, 2022, patient K.M. requested that two existing prescriptions for cephalexin 500mg capsules and ondansetron 4mg tablets be transferred to CVS Pharmacy #8824. The pharmacy instead erroneously transferred one prescription for cephalexin 500mg capsules, designated prescription no. 2554970, and one prescription for misoprostol 200mcg tablets, designated prescription no. 2554971.

4. On or about November 27, 2022, Arceo filled and dispensed both prescription no. 2554970 and prescription no. 2554971 from CVS Pharmacy #8824; no counseling was performed for either prescription although neither prescription had previously been dispensed from CVS Pharmacy #8824.

5. Misoprostol may be prescribed off-label to induce a medical abortion. K.M. was pregnant at the time and after ingesting one misoprostol tablet orally experienced discomfort but did not require intervention or treatment.

7. Unprofessional conduct includes a registrant performing his or her duties in an "incompetent, unskillful, or negligent manner." NAC 639.945(1)(i).

8. Respondent Arceo violated NRS 639.266 and/or NAC 639.707(1) and/or (4) and/or engaged in unprofessional conduct as defined in NAC 639.945(1)(i) when he failed to provide medication counseling to K.M. for prescription nos. 2554970 and 2554971, neither of which had previously been dispensed from CVS Pharmacy #8824, and is therefore subject to discipline pursuant to NRS 639.210(4) and (12).

COUNT TWO

(Respondent CVS Pharmacy #8824)

9. Any violation of any of the provisions of NRS Chapter 639 by a managing pharmacist or by personnel of the pharmacy is cause for the suspension or revocation of the license of the pharmacy by the Board. NRS 639.230(5); NAC 639.702. Further, the owner of any business

or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(3).

NEVADA STATE BOARD OF PHARMACY, Petitioner, v. RODELYN ARCEO, APRN, Certificate of Registration No. CS30228, Respondent.	Case No. 23-353-CS-S ANSWER AND NOTICE OF DEFENSE

Respondent Rodelyn Arceo, APRN ("Respondent"), by and through her undersigned counsel, Michael M. Lin, Esq. of Lin Law Group, hereby submits the following Answer and Notice of Defense in response to the Notice of Intended Action and Accusation ("Accusation") filed by the Nevada State Board of Pharmacy ("Board").

I. JURISDICTION

1. Respondent admits the jurisdictional allegations set forth in Paragraph 1 of the Accusation.

II. FACTUAL ALLEGATIONS

2. Respondent admits the allegations in Paragraph 2 in part. She entered into an independent contractor agreement with Natural Beauty International LLC ("Natural Beauty") on or about March 11, 2021, to serve as its Medical Director and served in that role during the relevant time period.

3. Respondent denies the allegations in Paragraph 3 in part. While both Respondent and Olivia Pernsteiner had physical keys to the secured medication storage, Ms. Pernsteiner was permitted access only upon Respondent's express authorization, typically when Respondent was offsite. On August 17, 2023, during an unannounced inspection, Ms. Pernsteiner mistakenly believed she was required and authorized to comply with the Board investigator's request. This isolated incident was contrary to standing protocol and has since been corrected through additional staff training and written clarification of access policies.

4. Respondent denies the allegations in Paragraph 4. At all relevant times, Respondent maintained direct clinical oversight of all patient care. Registered nurses ("RNs") at Natural Beauty were not authorized to independently diagnose, prescribe, or determine medical necessity. All treatments were preceded by in-person or telemedicine consultations conducted by Respondent, followed by patient-specific medical orders. Patients completed intake documentation and informed consents. While occasional EMR technical issues may have impaired signature capture, the electronic records confirm that all medical encounters occurred under Respondent's supervision, consistent with legal requirements. Complete electronic records substantiate the existence of bona fide therapeutic relationships prior to any drug administration.

APPLICABLE LAW

5. Respondent acknowledges the statutory and regulatory provisions referenced in Paragraphs 5 through 13 of the Accusation but denies any violation thereof. Respondent asserts compliance with all applicable provisions of NRS Chapters 453, 454, and 639, and NAC Chapter 639.

COUNT ONE

Violations of State Law – Failure to Maintain Security of Dangerous Drugs

Docusign Envelope ID: 8394FCF1-42B0-492C-BBC0-31E967484C13

6. Respondent denies the allegations in Paragraph 14. She took reasonable precautions to maintain security and restrict access to dangerous drugs pursuant to NAC 639.898(1). The single incident on August 17, 2023, was an isolated misunderstanding, not reflective of regular practice or policy. To prevent recurrence, Respondent has since implemented corrective measures including additional staff training and documented reaffirmation of medication security policies.

COUNT TWO

Violations of State Law – Unlawful Possession & Administration of Dangerous Drugs

7. Respondent denies the allegations in Paragraph 15. All dangerous drugs were possessed and administered in accordance with NRS 454.213(1)(c). Respondent conducted a good faith examination, issued individualized treatment orders, and maintained oversight of RNs who operated within the bounds of delegated authority. Respondent never authorized RNs to act autonomously in diagnosing or initiating treatment.

COUNT THREE

Unprofessional Conduct – Unlawful Possession & Administration of Dangerous Drugs

8. Respondent denies the allegations in Paragraph 16. Her conduct did not constitute incompetence, unskillfulness, negligence, or facilitation of unlicensed practice. Respondent actively managed patient care, and her supervision was documented through EMR entries and telemedicine encounters. Any misperception created by limited chart access during the inspection has been clarified with supporting EMR records.

COUNT FOUR

Commission of Acts that Render Registration Inconsistent with the Public Interest

9. Respondent denies the allegations in Paragraph 17. She has no prior disciplinary history and has taken affirmative steps to correct any procedural lapses. She maintains a strong

professional reputation and has demonstrated a continued commitment to patient safety, documentation integrity, and lawful practice. She has continuously acted in good faith, with diligence and integrity, to safeguard public health and comply with Board standards. Continued registration is consistent with the public interest under NRS 453.236 and 453.241.

PRAYER FOR RELIEF

WHEREFORE, Respondent respectfully requests that the Nevada State Board of Pharmacy:

1. Find that Respondent has not violated the provisions of NRS Chapters 453, 454, or 639, or NAC Chapter 639 as alleged;
2. Dismiss the Notice of Intended Action and Accusation in its entirety;
3. Permit Respondent to retain her controlled substance registration without restriction; and

ANSWER AND NOTICE OF DEFENSE

I. Preliminary Objections

1. Respondent objects to the Notice of Intended Action and Accusation as incomplete, vague, and lacking in factual detail sufficient to provide constitutionally adequate notice.

2. Respondent objects on due process grounds, as the Nevada State Board of Pharmacy failed to respond to counsel's April 19, 2024 written response and follow-up emails in May 2024, which expressly requested the complaint, investigative file, and an extension. The Board's failure to provide timely disclosure prejudiced Respondent's ability to file an Answer within the original deadline.

3. Respondent further objects that duplicative discipline by both the Board of

Pharmacy and the Nevada State Board of Nursing for the same conduct violates principles of fairness and proportionality.

II. General Denials

4. Respondent denies each and every allegation not specifically admitted herein.

III. Specific Responses

5. Respondent admits that during 2022–2023 he wrote prescriptions for Mounjaro (tirzepatide).

6. Respondent denies that these prescriptions were issued without legitimate medical purpose. Only two patients (Beverly Garman and Loida Merida) filled prescriptions, both for legitimate treatment purposes.

7. The remaining seven individuals, primarily family and friends, never filled prescriptions due to insurance denials, thereby negating any theory of diversion or resale.

8. Respondent admits he no longer has access to certain patient records due to change of employment, but these records remain in the custody of prior employers or Trinity Pharmacy.

IV. Affirmative Defenses

9. Due Process: The Board failed to provide timely notice and disclosures despite Respondent's counsel's April 19, 2024 appearance and follow-up communications.

10. Duplicative Discipline: Respondent has already entered into a negotiated Agreement for Reprimand and Continuing Education with the Nevada State Board of Nursing (Case No. 2023100094), resolving the same factual allegations. Additional discipline would be disproportionate and duplicative.

11. Legitimate Medical Purpose: Prescriptions were written for valid clinical reasons, including diabetes treatment and weight management consistent with FDA-approved tirzepatide formulations.

V. Request for Relief

12. Respondent respectfully requests that the Nevada State Board of Pharmacy accept this late-filed Answer pursuant to stipulation and order of counsel.

13. Respondent further requests that the Board permit him to fully defend against the charges.

14. Respondent further requests that the Board consider the prior resolution with the Board of Nursing as a mitigating factor and avoid duplicative discipline.

15. Respondent requests such other and further relief as is just and proper.

6. Respondent does not contest the allegations in the Accusation, but acknowledges that Board staff prosecuting this case could present such evidence at an administrative hearing to establish a factual basis for the violations alleged therein, *to wit*:

D. Respondent shall comply with all federal and state statutes and regulations regarding controlled substances and dangerous drugs, and have no additional charges filed against him while on probation.

Upon successful completion of probation, Respondent's Certificate of Registration No. CS31815 will be fully restored.

9. Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may lift the stay and immediately suspend Respondent's Certificate of Registration No. CS31815 and impose additional discipline upon Respondent not inconsistent with the provisions of NRS Chapters 453 and 639.

To: J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

Mr. Wuest,

I am writing in response to the Notice of Intended Action and Accusation for Case No. 24-224-S. I have reviewed the documents and am providing this Answer to you regarding my actions.

I would like to explain, but not excuse, why I was improperly dispensing medication from my office. I practiced as an Osteopathic Primary Care Physician for nearly 40 years in the state of Indiana. During that time, I never received a complaint, judgement, or disciplinary action. In nearly all of those practice years in Indiana we dispensed medications from our office to the patients. In Indiana, having my DEA Certificate, State CSR, and more recently registering with PMPAware/Indiana to report any controlled substance prescriptions was the dispensing requirement.

In December 2020, I retired from my practice there and moved to southern Nevada to spend time with my young grandsons. For over 2 years I did not practice, but maintained my license and CME requirements for Board Certification and state compliance.

In February of 2023 I took a part time position with Infinite Wellness Las Vegas. The practice focus was on improving wellness. In an effort to expand practice growth and because of my 22 years running a weight loss clinic in conjunction with my primary care practice in Indiana, I recommended adding weight loss to the Infinite Wellness Practice.

I received my Nevada location DEA certificate, my Nevada CSR, and set up an account with PMPAware/NV when I began practicing again. In August of 2023 we began seeing patients for the treatment of Overweight and Obesity. We ordered a small amount of medication to dispense from a reputable supplier, which was sent without restriction. We subscribed to and installed MDScripts software to allow patient and medication tracking and monitoring in office without any notification from them we required anything more. During the last 10 months I dispensed 11 prescriptions of Phentermine to 5 unique patients under my care.

I wrongly assumed that the requirements would be the same as I had experienced in Indiana for dispensing medication. I am personally disappointed in myself and regret that I did not perform adequate due diligence in researching Nevada regulations and statutes. At no time did I intend to circumvent any rules, laws, or statutes.

As for not initially searching in PMPAware each of the five patients which I dispensed phentermine to, I was unaware of the update in the procedure. Again, this was my fault for not investigating the proper use of the PMPAware system in Nevada in late 2023. I erroneously believed the system was to look for suspicious patient activity and to monitor long term use or overuse. I understand the seriousness of my deviations from prescribed practice regulations as these programs are established to protect patients, physicians, pharmacists, and the state of Nevada from misuse and abuse of prescription medication leading to drug abuse and its devastating effects.

I received the notice for the Hearing on the Accusation scheduled before the Board on Wednesday January 14, 2026 and will be in attendance. I am available to you, the Board of Pharmacy, and the Osteopathic Licensing Board at any time and will fully cooperate to resolve and correct this matter. I have already taken the following actions:

1. Cessation of any medication dispensing as of June 12, 2024
2. Contacted PMPAware/NV as I was at the time unable to access my online account
3. Reviewed and studied Nevada Prescribing and Practice Rules and Statutes
4. Will take any next steps that you, the Pharmacy Board or Osteopathic Board deem necessary.

Thank you for your time reviewing my letter.

Sincerely,

Gregory A Oliver D.O.

6. Respondent does not contest the allegations in the Accusation, but acknowledges that Board staff prosecuting this case could present such evidence at an administrative hearing to establish a factual basis for the violations alleged therein, *to wit*, that:

A. By dispensing controlled substances to patients at Infinite Wellness LV without a valid dispensing practitioner registration, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate 21 U.S.C. § 823(f), NRS 453.226, NRS 453.321, NRS 453.377, NRS 453.381, NRS 639.100, NRS 639.23505 and/or NAC 639.742;

8. The parties note that the Accusation incorrectly identifies Respondent as a medical doctor (MD); Respondent is licensed by the Nevada State Board of Osteopathic Medicine, License No. DO2219.

Upon successful completion of probation, Respondent's Certificate of Registration No. CS35044 will be fully restored.

10. Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965

directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may lift the stay and immediately suspend Respondent's Certificate of Registration No. CS35044 and impose additional discipline upon Respondent not inconsistent with the provisions of NRS Chapters 453 and 639.

11. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on January 14, 2026. JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and these Respondents because at the time of the events alleged herein, Respondent Chi Vu, RPh (Vu), Certificate of Registration No. 18811, was a pharmacist registered with the Board, and Respondent Costco Pharmacy #673, Pharmacy License No. PH00825, was a pharmacy licensed by the Board.

FACTUAL ALLEGATIONS

2. Vu was employed as a staff pharmacist by Costco Pharmacy #673 at the time of the events alleged herein.

3. On or about August 8, 2024, prescriber G.J.Y. issued an electronic prescription to Capital Care Pharmacy LLC for patient C.A. for Wegovy 0.25MG/0.5ML subcutaneous solution auto-injector; the pharmacy computer system designated this prescription no. 103501.

4. Because Capital Care Pharmacy LLC did not have the medication in stock, on or about August 13, 2024, patient C.A. called Costco Pharmacy #673 and request the prescription be transferred.

5. The prescription was transferred to Costco Pharmacy #673, where in the course of transcribing the prescription, Vu erroneously wrote "2.4MG/0.50ML."

6. Pharmaceutical technician C.L. performed data entry and informed Vu that the Wegovy 2.4MG pen did not come in a concentration of 0.50ML, but rather 0.75ML.

7. Without consulting the prescribing practitioner, Vu caused the transferred prescription to be entered into the Costco computer system as "2.4MG/0.75ML" where it was designated prescription no. 6671119.

8. Vu performed final product verification for prescription no. 6671119 and the prescription with the erroneous dosage was dispensed to the patient on August 13, 2024.

9. Patient C.A. administered the medication with the erroneous dosage and suffered severe nausea and vomiting.

COUNT ONE

Unprofessional Conduct – Error in Dispensing Prescription

(Respondent Vu)

10. Unprofessional conduct includes the failure by a registrant to follow strictly the instructions of a practitioner when filling, labeling, and dispensing a prescription. NAC 639.945(1)(d). NAC 639.945(1)(f). Unprofessional conduct also includes a registrant performing his or her duties in an "incompetent, unskillful, or negligent manner." NAC 639.945(1)(i).

11. Vu engaged in unprofessional conduct as defined in NAC 639.945(1)(d), (f) and (i) when she erroneously transcribed the transferred prescription as "2.4MG/0.50ML" and then caused the transferred prescription to be entered into the Costco computer system as

"2.4MG/0.75ML" without contacting the prescribing practitioner for clarification before filling and dispensing prescription no. 6671119 with the erroneous dosage, and is therefore subject to discipline pursuant to NRS 639.210(4).

COUNT TWO

Pharmacy/Pharmacy Owner Responsibility

(Respondent Costco Pharmacy #673)

12. Any violation of any of the provisions of NRS Chapter 639 by a managing pharmacist or by personnel of the pharmacy is cause for the suspension or revocation of the license of the pharmacy by the Board. NRS 639.230(5); NAC 639.702. Further, the owner of any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(3).

13. As the pharmacy/pharmacy owner at which the violations of law alleged herein occurred, Respondent Costco Pharmacy #673 is responsible for those violations, including all errors and omissions of Respondent Vu and other pharmacy personnel in filling and dispensing prescription no. 6671119 with the erroneous dosage, pursuant to NRS 639.230(5), NAC 639.702 and/or NAC 639.945(3).

From time to time, Quarles & Brady LLP (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. OF PHARMACY

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **COSTCO PHARMACY #673,** **Pharmacy License No. PH00825, and** **CHI VU, RPH,** **Certificate of Registration No. 18811,** **Respondents.**	**CASE NOS. 24-462-PH-S** **24-462-RPH-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and these Respondents because at the time of the events alleged herein, Respondent Chi Vu, RPh (Vu), Certificate of Registration No. 18811, was a pharmacist registered with the Board, and Respondent Costco Pharmacy #673, Pharmacy License No. PH00825, was a pharmacy licensed by the Board.

FACTUAL ALLEGATIONS

2. Vu was employed as a staff pharmacist by Costco Pharmacy #673 at the time of the events alleged herein.

3. On or about August 8, 2024, prescriber G.J.Y. issued an electronic prescription to Capital Care Pharmacy LLC for patient C.A. for Wegovy 0.25MG/0.5ML subcutaneous solution auto-injector; the pharmacy computer system designated this prescription no. 103501.

4. Because Capital Care Pharmacy LLC did not have the medication in stock, on or about August 13, 2024, patient C.A. called Costco Pharmacy #673 and request the prescription be transferred.

5. The prescription was transferred to Costco Pharmacy #673, where in the course of transcribing the prescription, Vu erroneously wrote "2.4MG/0.50ML."

6. Pharmaceutical technician C.L. performed data entry and informed Vu that the Wegovy 2.4MG pen did not come in a concentration of 0.50ML, but rather 0.75ML.

7. Without consulting the prescribing practitioner, Vu caused the transferred prescription to be entered into the Costco computer system as "2.4MG/0.75ML" where it was designated prescription no. 6671119.

8. Vu performed final product verification for prescription no. 6671119 and the prescription with the erroneous dosage was dispensed to the patient on August 13, 2024.

9. Patient C.A. administered the medication with the erroneous dosage and suffered severe nausea and vomiting.

COUNT ONE

Unprofessional Conduct – Error in Dispensing Prescription

(Respondent Vu)

10. Unprofessional conduct includes the failure by a registrant to follow strictly the instructions of a practitioner when filling, labeling, and dispensing a prescription. NAC 639.945(1)(d). Unprofessional conduct also includes the failure by a registrant to confer with the person writing . . . a prescription . . . if there is an error or omission in it which should be questioned." NAC 639.945(1)(f). Unprofessional conduct also includes a registrant performing his or her duties in an "incompetent, unskillful, or negligent manner." NAC 639.945(1)(i).

11. Vu engaged in unprofessional conduct as defined in NAC 639.945(1)(d), (f) and (i) when she erroneously transcribed the transferred prescription as "2.4MG/0.50ML" and then caused the transferred prescription to be entered into the Costco computer system as

"2.4MG/0.75ML" without contacting the prescribing practitioner for clarification before filling and dispensing prescription no. 6671119 with the erroneous dosage, and is therefore subject to discipline pursuant to NRS 639.210(4).

COUNT TWO

Pharmacy/Pharmacy Owner Responsibility

(Respondent Costco Pharmacy #673)

12. Any violation of any of the provisions of NRS Chapter 639 by a managing pharmacist or by personnel of the pharmacy is cause for the suspension or revocation of the license of the pharmacy by the Board. NRS 639.230(5); NAC 639.702. Further, the owner of any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(3).

13. As the pharmacy/pharmacy owner at which the violations of law alleged herein occurred, Respondent Costco Pharmacy #673 is responsible for those violations, including all errors and omissions of Respondent Vu and other pharmacy personnel in filling and dispensing prescription no. 6671119 with the erroneous dosage, pursuant to NRS 639.230(5), NAC 639.702 and/or NAC 639.945(3).

WHEREFORE, it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the pharmacy license and certificate of registration of these Respondents.

Signed this 23rd day of October 2025.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

From time to time, Quarles & Brady LLP (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

NEVADA STATE BOARD OF PHARMACY, Petitioner, v. DANNY YOUNG, M.D., Certificate of Registration No. CS06484, Respondent.	CASE NO.: 24-498-CS-S **ANSWER AND NOTICE OF DEFENSE**

Respondent above named, in answer to the Notice of Intended Action and Accusation filed in the above-titled matter before the Nevada States Board of Pharmacy (the "Board"), declares:

1. That his objections to the Notice of Intended Action and Accusation (the "Notice") as being incomplete or failing to state clearly the charges against him, is hereby interposed on the following grounds:

a. This action is barred by the doctrine of laches. The Notice addresses information it purports to have obtained during "an investigation of Inspire Medical Aesthetics" on January 21, 2025.[1] The Board filed its Complaint on October 23, 2025, approximately nine (9) months after its alleged inspection of Inspire Medical Aesthetics - and potentially far longer after the alleged conduct - without a valid excuse for such delay, as a result of which Dr. Young was

[1] The basis for the "investigation" is not articulated in the Notice and, thus, may have been based on conduct occurring long before the January 21, 2025 "investigation." Moreover, the "investigation" alleged did not even entail an actual physical inspection of Inspire Medical Aesthetics.

prejudiced. Implicit in the Board's statutes (NRS 639.241, *et. seq.*) and its regulations (NAC 639.120, *et. seq.*) is an obligation to proceed promptly and fairly against Respondent. Because the Board did not promptly determine whether the Notice would be filed against Dr. Young, it would be inequitable and unjust to proceed.

b. The Board is estopped from taking action against Dr. Young's license because it purports to take action that has been expressly approved by the Nevada State Board of Nursing. Although estoppel against the government is applied sparingly, Nevada law recognizes that it may lie in extraordinary cases to "avoid manifest injustice and hardship to the injured party." *S. Nevada Mem'l Hosp. v. State, Dep't of Hum. Res.*, 101 Nev. 387, 390, 705 P.2d 139, 141 (1985). The doctrine of equitable estoppel consists of four elements: (1) the party to be estopped must be apprised of the true facts; (2) he must intend that his conduct shall be acted upon, or must so act that the party asserting estoppel has the right to believe it was so intended; (3) the party asserting the estoppel must be ignorant of the true state of facts; (4) he must have relied to his detriment on the conduct of the party to be estopped. 101 Nev. at 391, 705 P.2d at 142. Here, the Nevada State Board of Nursing issued a Practice Advisory Decision on the "Scope of Practice Requirement and Limitations for RNs and LPNs Performing Aesthetic/Cosmetologic Procedures" on which Dr. Young and Jeanine Young, RN justifiably relied. Taking action against Dr. Young's license at this juncture would work a manifest injustice against him.

c. Respondent steadfastly denies that he ever knowingly or intentionally violated any state law or regulation, including, but not limited to NAC 453.410(1)(d), NAC 639.742(3)(c), NAC 639.745(1)(c), NRS 200.840(1), any provision in NRS 454, or any provision in NRS 639.

2. That, in answer to the Notice, he admits, denies, and alleges as follows:

a. Respondent admits that the Board has jurisdiction over this matter.

b. Respondent admits the allegations in Paragraph 2 of the Notice.

c. Respondent denies the allegation in Paragraph 3 of the Notice.

d. Respondent is without sufficient knowledge to know what "a Board investigator determined" in the course of her investigation and therefore denies the allegation in Paragraph 4. Respondent denies the remaining allegation in Paragraph 4.

e. Respondent denies the allegations in Paragraph 5.

f. The allegations in Paragraphs 6 through 14 contain a conclusions of law for

which no response is required.

g. For the reasons set forth in his objections, and based on his admissions and denials of the allegations in the preceding paragraphs, Respondent denies the allegations in Counts One through Four.

h. Respondent hereby declares, under penalty of perjury, that the foregoing Answer and Notice of Defense, and all facts therein stated, are true and correct to best of my knowledge.

Re: ANSWER AND NOTICE OF DEFENSE
Respondent: Aaron Jposeph Webb (Registration Number: 22724)
Case Number 24-505-RPH-O

Dear Mr. Wuest,

I represent Aaron Joseph Webb ("Mr. Webb") with respect to the referenced case that is pending before the Nevada State Board of Pharmacy (the "Nevada Board"). The allegations contained in the Nevada Board's complaint occurred while Mr. Webb was working as a staff pharmacist at Sole Health's specialty pharmacy, located at 415 S. 48th Street, Suite 101, Phoenix, Arizona (the "Pharmacy"). This correspondence shall serve as Mr. Webb's verified answer and notice of defense.

I. BACKGROUND.

In 2021 and again in 2024, Mr. Webb improperly obtained prescription medication (Xanax) that was validly prescribed for and dispensed to another family member (the "Medication"). Mr. Webb did not have a valid prescription for the Medication he obtained, nor did he divert the Medication from the Pharmacy.

On July 8 – 10, 2025, Mr. Webb took the Medication and, while engaged in the practice of pharmacy, he became overly sedated. Mr. Webb did not fill or dispense any prescription drugs to patients who were located in Arizona during this time period. [CONFIRM]

On July 17, 2024, Mr. Webb entered into an intensive outpatient program ("IOP").

On July 25, 2024, Mr. Webb contacted the Arizona State Bord of Pharmacy (the "Arizona Board") and self-reported that he had taken the Medication while engaged in the practice of pharmacy.

On August 12, 2024, Mr. Webb was evaluated by Monica Faria, M.D.

On August 23, 2024, Mr. Webb and the Arizona Board entered into an Interim Consent Agreement wherein Mr. Webb's pharmacist license was suspended pending completion of the substance abuse/use evaluation with a fitness for duty component.

On October 29, 2024, Mr. Webb and the Arizona Board entered into a Consent Agreement ("Consent Agreement") and agreed to the following:

- The suspension of Mr. Webb's pharmacy license, which was imposed by the Interim Consent Agreement, was lifted,
- Mr. Webb's pharmacy license was placed on probation for five (5) years, subject to the following:
    - Successful completion of IOP Program;
    - Enter into a rehabilitation and monitoring contract with the Arizona Pharmacy Foundation: Professionals Assisting Professionals ("PAPA") Program;
    - Abide by the terms of the PAPA Program, including: 24-48 random drug screens per year, three 12-step meetings per week, weekly relapse prevention meetings and bi-annual reviews;
    - Abstain from the use of alcohol;
    - Continue to see psychiatric provider, who shall provide quarterly reports to the PAPA Program and the Arizona Board; and
    - Prohibited from being Pharmacist-In-Charge or pharmacy owner.
- If during the five-year period of probation Mr. Webb fails to renew his Arizona license, such license will not expire, but will be immediately suspended.
- If Mr. Webb violates the Arizona Consent Agreement, the Arizona Board may revoke, suspend, or take other disciplinary actions against his license.

II. ARGUMENT AND AUTHORITIES

Mr. Webb files his verified Answer to the Notice of Intended Action and Accusations and responds as follows:

A. Count One – Unlawful Acquisition of Controlled Substances.

Mr. Webb denies violating 21 U.S.C. §841(a) because he did not knowingly or intentionally: (1) manufacture, distribute, or dispense, or possess with intent to manufacture, distribute, or dispense, a controlled substance; or (2) create, distribute, or dispense, or possess with intent to distribute or dispense, a counterfeit substance.

Mr. Webb denies violating 21 U.S.C. §843(a)(3) because he did not knowingly or intentionally obtain possession of a controlled substance by misrepresentation, fraud, forgery, deception, or subterfuge.

Mr. Webb denies violating 21 U.S.C. §846 because he did not conspire or attempts to conspires to commit any of the referenced federal offenses.

Mr. Webb denies violating NRS §453.331(1)(d) because he did not acquire or obtain or attempt to acquire or obtain possession of a controlled substance or a prescription for a controlled substance by misrepresentation, fraud, forgery, deception, subterfuge or alteration.

Mr. Webb denies violating NRS §453.391(1) because he did not unlawfully take, obtain or attempt to take or obtain a controlled substance or a prescription for a controlled substance from a manufacturer, wholesaler, pharmacist, physician, physician assistant, dentist, advanced practice registered nurse, certified registered nurse anesthetist, veterinarian or any other person authorized to administer, dispense or possess controlled substances.

If such a hearing results in a finding of a violation of this Order by Respondent, the Board may impose additional discipline upon Respondent not inconsistent with the provisions of NRS Chapter 639.

10. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on January 14, 2026. Respondent will appear in person or through counsel at the meeting to answer questions from the Board

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and these respondents because at the time of the events alleged herein, Respondent Robert Seik (Seik), Certificate of Registration No. 13574, and Respondent David Whitehouse (Whitehouse), Certificate of Registration No. 13635, were pharmacists registered with the Board, and Respondent Partell Pharmacy (Partell Pharmacy), Pharmacy License No. PH02028, was a pharmacy licensed by the Board.

FACTUAL ALLEGATIONS

2. Seik owns Partell Pharmacy and served as the managing pharmacist of Partell Pharmacy from August 21, 2023, to September 19, 2023, and from January 6, 2024, to present.

3. Whitehouse served as the managing pharmacist of Partell Pharmacy from September 20, 2023, to January 5, 2024.

4. Partell Pharmacy contracted with The Wellness Company (TWC), based in Boca Raton, Florida, to dispense various prescription drug products to TWC patients.

5. One product was an "Emergency Kit" including: 1) Amoxicillin-Clavulanate 875-125mg (28 tablets); 2) Azithromycin 250mg (12 tablets); 3) Bactrim DS 800mg-160mg (28 tablets); 4) Doxycycline Hyclate 100mg (60 capsules); 5) Fluconazole 150mg (2 tablets); 6) Ivermectin 18mg (7 capsules); 7) Metronidazole 500mg (30 tablets); and 8) Ondansetron 4mg (6 tablets).

6. Another product was a "COVID Kit" including: 1) Hydroxychloroquine 200mg (20 tablets); 2) Azithromycin 250mg (12 tablets); 3) Budesonide .5mg (10 vials); and 4) Ivermectin 12mg (25 capsules).

7. Each prescription transmitted to Partell Pharmacy only indicated that the pharmacy was to dispense an "Emergency Kit" or "COVID Kit" to the patient – the drugs in each kit were not identified on the prescription.

8. When a practitioner associated with TWC prescribed either of the two kits, Partell Pharmacy staff used a mutually agreed upon "pharmacy script" template that specified the drugs to be included in each kit.

9. Partell Pharmacy dispensed at least 512 prescriptions issued for an "Emergency Kit" or "COVID Kit" under this scheme.

10. Partell Pharmacy regularly substituted Budesonide in the "COVID Kit" with a Medrol DosePak and Albuterol without consulting the prescribing practitioner, and continued billing TWC for the cost of Budesonide while substituting cheaper medications.

11. None of the counseling materials for each kit included any information on Medrol DosePaks or Albuterol. No further action was taken by Partell Pharmacy, Seik or Whitehouse to correct the counseling materials or provide any information regarding the substituted medications.

APPLICABLE LAW

14. A pharmacist shall provide medication counseling to a patient when dispensing a prescription and a pharmacy shall maintain documentation of medication counseling in conformance with NRS 639.266, NAC 639.707 and NAC 639.708.

15. Dispensing or causing to be dispensed a different drug or brand of drug in place of the drug or brand of drug prescribed, unless the express permission of the prescriber is obtained, constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(b) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

16. Performing or in any way being a party to any fraudulent or deceitful practice or transaction constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(h) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

17. Performing any duties as the holder of a registration in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(i) and is grounds for suspension or revocation of any license issued by the Board. NRS 639.210(4).

18. The Board may suspend or revoke a license if the holder has violated any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs. NRS 639.210(11).

STIPULATION AND ORDER (Respondent Whitehouse Only)

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, by and through its Senior General Counsel, Gregory L. Zunino, and Respondent David Whitehouse ("Respondent"), hereby stipulate and agree as follows:

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent and this matter.

2. The Board's staff properly served Respondent with the Notice of Intended Action and Accusation ("Accusation") on file in this matter, together with the Statement to Respondent and Notice of Hearing.

3. The Board and Respondent agreed to delay the date for submitting a Notice of Answer and Defense as the parties pursued settlement negotiations.

4. Respondent acknowledges that he understands the terms of this Stipulation and Proposed Order ("Stipulation"), and he has executed it knowingly and voluntarily.

5. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration of a Board determination in a contested case, the right to appeal a Board determination in a contested case, and all other rights afforded to Respondent under NRS Chapter 233B, the Nevada Administrative Procedure Act, NRS Chapter 622A, which governs administrative procedure before the Board, and NRS Chapter 639, the Nevada Pharmacy Act.

6. Conditioned on the acceptance of this Stipulation by the Board and excluding the right to challenge any determination that Respondent has failed to comply with the provisions of this Stipulation, Respondent hereby freely and voluntarily waives his rights to a hearing, reconsideration, appeal, and other rights related to this action as identified above.

7. Respondent does not contest the allegations stated in the Accusations on file herein, and he further admits that evidence exists, and that the Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the violations alleged against him in the Accusation.

8. To resolve this case without incurring any further costs or the expenses associated with a hearing, the Board and Respondent agree to the following:

A. Respondent accepts this Stipulation as a public reprimand issued pursuant to NRS 639.255(1)(e).

B. Respondent understands and acknowledges that Certificate of Registration No. 13635 has been forfeited pursuant to NRS 639.180(6) because Respondent failed to renew it when it came due for renewal on November 1, 2025.

C. D. Respondent shall pay the sum of **One Thousand and 00/100 Dollars ($1,000.00)** to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this case. This sum shall be payable by *cashier's check, certified check,* or *money order* written to the "**Nevada State Board of Pharmacy.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, on or before February 28, 2025.

9. This Stipulation constitutes a full and final resolution of the Accusation in Case No. 23-429-RPH-B-S. However, any failure by Respondent to comply with the terms of this Stipulation may result in issuance by the Executive Secretary of an order to show cause, pursuant to NAC 639.965, directing him to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in the finding of a violation by Respondent, the Board may impose additional discipline not inconsistent with the provisions of NRS Chapter 639.

10. The Board's Senior General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on January 14, 2026, in Las Vegas, Nevada. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent fails to appear at the meeting.

11. The Board may accept this Stipulation, but it has no obligation to accept this Stipulation. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r–2 and 45 CFR Part 60.

12. If the Board rejects any part or all of this Stipulation, and unless the parties reach an alternative agreement on the record during the hearing, the parties agree that the Board may hear a full contested hearing on the merits of all alleged violations as stated in the Accusation. The terms and admissions herein may not be used, relied upon, or referred to by any party during any such hearing.

13. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any or all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have been asserted by the Board on or before the date of entry set forth below.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **PHARMERICA, Pharmacy License No. PH02018, and** **CAMILLA KIM, RPH, Certificate of Registration No. 19388,** **Respondents.**	**Case Nos. 24-370-PH-N** **24-370-RPH-N** **FIRST AMENDED NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy (the "Board"), files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Board has jurisdiction over Respondent Pharmerica ("Respondent Pharmerica"), the holder of Pharmacy License No. PH02018, because Respondent Pharmerica is licensed by the Board to operate a pharmacy at 4750 Longley Lane in Reno, Nevada.

2. The Board has jurisdiction over Respondent Camilla Kim, RPh ("Respondent Kim"), the holder of Certificate of Registration No. 19388, because Respondent Kim is registered by the Board to engage in the practice of pharmacy in Nevada.

FACTUAL ALLEGATIONS

3. Respondent Pharmerica operates a retail pharmacy in Reno, Nevada.

4. Respondent Pharmerica dispenses prescriptions for dangerous drugs and controlled substances at its pharmacy location in Reno, Nevada.

5. At all times relevant to this case, Respondent Pharmerica (or a corporate affiliate or subsidiary under its control) employed people in Kentucky who performed one or more of the functions necessary to fill the prescriptions that it dispensed at its pharmacy location in Reno, Nevada.

6. The employees in Kentucky, as described in paragraph 5 above, were not licensed or registered by the Board to work as pharmacists, intern pharmacists or pharmaceutical technicians in the state of Nevada.

7. Respondent Kim was and is a Nevada-licensed pharmacist and the holder of registration no. 19388.

8. Between December 2022 and March 2024, Respondent Pharmerica employed Respondent Kim to work as a pharmacist at its pharmacy location in Reno, Nevada.

9. During her tenure as a pharmacist for Respondent Pharmerica, Respondent Kim supervised one or more of the employees described in paragraph 5 above. Respondent Kim supervised these employees while they performed one or more of the functions necessary to fill the prescriptions that were dispensed to patients in Reno, Nevada.

10. In 2023 and 2024, Respondent Pharmerica was under contract with MorningStar Senior Living of Sparks ("MorningStar"), an assisted living facility, to dispense prescription medication and provide medication management services to residents of the MorningStar facility.

11. Respondent Pharmerica worked cooperatively with the nursing staff at MorningStar to store and deliver prescription medications for the residents of the MorningStar facility.

12. In 2023 and 2024, patient D.P., an 87-year-old female, resided at MorningStar, where she received medication and medication management services from Respondent Pharmerica.

13. In 2023 and 2024, patient D.P. required levothyroxine for hypothyroidism.

14. Between March 2023 and March 2024, Respondent Pharmerica dispensed levothyroxine to patient D.P. without interruption, according to the instructions of patient D.P.'s physician.

15. On March 6, 2024, patient D.P.'s physician issued her a new prescription for levothyroxine. The prescription directed Respondent Pharmerica to dispense an initial 90-day supply of levothyroxine with three refills.

16. On its face, the above prescription sufficed to meet patient D.P.'s medical needs for 12 months.

17. Patient D.P.'s physician electronically transmitted the above prescription to Respondent Pharmerica.

18. Respondent Pharmerica assigned no. 343217 to the above prescription. Per standard operating procedure, Pharmerica processed prescription no. 343217 at a facility in Kentucky using employees who were not licensed or registered with the Board to practice pharmacy in Nevada.

19. At the facility in Kentucky, an employee transferred the information from the electronic prescription to a computerized prescription management system. This person was one of the employees described in paragraph 5 above.

20. When transferring the prescription information, the employee incorrectly entered code "X90D" related to the "duration" of medication treatment. This code suppressed the automatic refill function on the system, thus instructing the system to terminate patient D.P.'s supply of levothyroxine after just 90 days.

21. Since patient D.P.'s levothyroxine was considered a "maintenance" medication, there should not have been a duration code associated with prescription no 343217.

22. In March 2024, before dispensing any medication under prescription no. 343217, Respondent Kim verified the prescription at Pharmerica's facility in Reno.

23. When verifying the above prescription, Respondent Kim failed to notice that the duration code X90D, as described above, was inconsistent with the number of refill authorizations on the prescription itself. As noted above, this code instructed the automated system to terminate patient D.P.'s supply of levothyroxine after just 90 days.

24. In June 2024, due to Respondent Kim's omission as described above, Pharmerica failed to refill patient D.P.'s prescription for levothyroxine as directed by her physician.

25. Between June and September 2024, the nursing staff at MorningStar delivered no levothyroxine to patient D.P., and they made no inquiries of Pharmerica concerning the abrupt cessation of patient D.P.'s medication treatment.

26. In August or September 2024, patient D.P.'s daughter observed that her mother's health had rapidly declined for no apparent reason. She alerted the nursing staff at MorningStar and/or patient D.P.'s physician.

27. In September 2024, Patient D.P. was admitted to the intensive care unit at Renown Hospital, where she was diagnosed with myxedema coma and cellulitis in her left leg. These medical conditions were caused by the cessation of medication treatment with levothyroxine.

These included data entry tasks related to prescription no. 343217 and other prescriptions dispensed in Nevada.

51. Through their conduct as described above, Respondent Pharmerica and Respondent Kim assisted or permitted employees in Kentucky to engage in the unlicensed practice of pharmacy in violation of NRS 639.100(1).

52. Due to their unlawful conduct as described above, Respondent Pharmerica and Respondent Kim are subject to professional discipline pursuant to NRS 639.210(12) and NAC 639.945.

(Respondent Pharmerica)

53. As alleged above, Respondent Pharmerica engaged employees in Kentucky to perform one or more of the functions necessary to prepare prescriptions for dispensing in Nevada.

54. As alleged above, Respondent Pharmerica implemented a standard operating procedure that required Respondent Kim to remotely supervise employees in Kentucky who performed one or more of the functions necessary to prepare prescriptions for dispensing in Nevada.

55. Respondent Pharmerica had a duty to ensure that Kentucky employees were *directly* supervised by a Nevada pharmacist.

56. Respondent Pharmerica had a duty to ensure that Kentucky employees were properly registered with the Board to work as pharmaceutical technicians or pharmaceutical technicians in training.

57. Respondent Pharmerica had a duty to ensure that Respondent Kim was not tasked with supervising more than three pharmaceutical technicians or one pharmaceutical technician and two pharmaceutical technicians in training at one time.

58. Through its conduct as described above, Respondent Pharmerica performed one or more of the above duties in an incompetent, unskillful or negligent manner.

59. For said unprofessional conduct, Respondent Pharmerica is subject to professional discipline pursuant to NRS 639.210(4) and NAC 639.945.

(Respondent Pharmerica)

60. As alleged in Count One, Respondent Kim engaged in unprofessional conduct.

61. As alleged in Count Two, Respondent Kim assisted or permitted the unlicensed practice of pharmacy.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy (the "Board"), files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Board has jurisdiction over Respondent PharMerica ("Respondent PharMerica"), the holder of Pharmacy License No. PH02018, because Respondent PharMerica is licensed by the Board to operate a pharmacy at 4750 Longley Lane in Reno, Nevada.

2. The Board has jurisdiction over Respondent Camilla Kim, RPh ("Respondent Kim"), the holder of Certificate of Registration No. 19388, because Respondent Kim is registered by the Board to engage in the practice of pharmacy in Nevada.

FACTUAL ALLEGATIONS

3. Respondent PharMerica operates a pharmacy in Reno, Nevada.

4. In March 2024, Respondent Kim was employed by Respondent PharMerica as a pharmacist.

5. In 2023 and 2024, Respondent PharMerica was under contract with MorningStar Senior Living of Sparks ("MorningStar"), an assisted living facility, to dispense prescription medication and provide medication management services to residents of the MorningStar facility.

6. Respondent PharMerica worked cooperatively with the nursing staff at MorningStar to store and deliver prescription medications for the residents of the MorningStar facility.

7. In 2023 and 2024, patient D.P., an 87-year-old female, resided at MorningStar, where she received medication and medication management services from Respondent PharMerica.

8. In 2023 and 2024, patient D.P. required levothyroxine for hypothyroidism.

9. Between March 2023 and March 2024, Respondent PharMerica dispensed levothyroxine to patient D.P. without interruption, according to the instructions of patient D.P.'s physician.

10. On March 6, 2024, patient D.P.'s physician issued her a new prescription for levothyroxine. The prescription directed Respondent PharMerica to dispense an initial 90-day supply of levothyroxine with two refills.

11. On its face, the above prescription sufficed to meet patient D.P.'s medical needs for 12 months.

12. Patient D.P.'s physician electronically transmitted the above prescription to Respondent PharMerica.

13. Respondent PharMerica assigned no. 343217 to the above prescription. Per standard operating procedure, PharMerica processed prescription no. 343217 at its facility in Kentucky.

14. At the facility in Kentucky, a pharmaceutical technician transferred the information from the electronic prescription to a computerized prescription management system.

15. When transferring the prescription information, the technician incorrectly entered code "X90D" related to the "duration" of medication treatment. This code suppressed the automatic refill

function on the system, thus instructing the system to terminate patient D.P.'s supply of levothyroxine after just 90 days.

16. Since patient D.P.'s levothyroxine was considered a "maintenance" medication, there should not have been a duration code associated with prescription no 343217.

17. In March 2024, before dispensing any medication under prescription no. 343217, Respondent Kim verified the prescription at PharMerica's facility in Reno.

18. When verifying the above prescription, Respondent Kim failed to notice that the duration code X90D, as described above, was inconsistent with the number of refill authorizations on the prescription itself. As noted above, this code instructed the automated system to terminate patient D.P.'s supply of levothyroxine after just 90 days.

19. In June of 2024, due to Respondent Kim's omission as described above, PharMerica failed to refill patient D.P.'s prescription for levothyroxine as directed by her physician.

20. Between June and September 2024, the nursing staff at MorningStar delivered no levothyroxine to patient D.P., and they made no inquiries of PharMerica concerning the abrupt cessation of patient D.P.'s medication treatment.

21. In August or September 2024, patient D.P.'s daughter observed that her mother's health had rapidly declined for no apparent reason. She alerted the nursing staff at MorningStar and/or patient D.P.'s physician.

22. In September 2024, Patient D.P. was admitted to the intensive care unit at Renown Hospital, where she was diagnosed with myxedema coma and cellulitis in her left leg. These medical conditions were caused by the cessation of medication treatment with levothyroxine.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **PHARMERICA,** **Pharmacy License No. PH0218,** **and** **CAMILLA KIM, RPH,** **Certificate of Registration No. 19388.** **Respondents.**	**Case Nos. 24-370-PH- N** **24-370-RPH-N** **RESPONDENTS' ANSWER AND NOTICE OF DEFENSE**

Respondents PharMerica and Camilla Kim, RPH, hereby file with the Nevada State Board of Pharmacy ("Board"), their Answer and Notice of Defense to the Notice of Intended Action and Accusation ("Accusation") filed on July 24, 2025.

ANSWER TO ACCUSATION

Jurisdiction: Paragraphs 1-2

Paragraph 1: Respondent PharMerica acknowledges that the Board has jurisdiction in this matter as set forth in Paragraph 1.

Paragraph 2: Respondent Kim acknowledges that the Board has jurisdiction in this matter as set forth in Paragraph 2.

Factual Allegations: Paragraphs 3-22

Paragraph 3: Respondent PharMerica acknowledges that it operates a pharmacy located in Reno, Nevada as set forth in Paragraph 3.

Paragraph 4: Respondent Kim acknowledges that she was employed by PharMerica in March 2024 as set forth in Paragraph 4.

Paragraph 5: Respondent PharMerica acknowledges that during the time periods set forth in Paragraph 5, it did dispense prescribed medication to residents of MorningStar Senior Living of Sparks as set forth in Paragraph 5.

Paragraph 6: Respondent PharMerica agrees with the factual assertions set forth in Paragraph 6 to the extent the PharMerica coordinated deliveries of prescribed and dispensed medication to the nursing staff of MorningStar Senior Living.

Paragraph 7: Respondent PharMerica agrees that patient D.P. did receive some medication management services in the time frame noted in Paragraph 7.

Paragraph 8: Respondents are without sufficient personal knowledge to respond to the factual assertions contained in Paragraph 8.

Paragraph 9: Respondent PharMerica agrees with the factual assertions in Paragraph 9 to the extent that patient D.P. received levothyroxine in 2023 through the end of February 2024.

Paragraph 10: Respondent PharMerica agrees with the factual assertions set forth in Paragraph 10 to the extent that a new prescription (no. 343217, the "Prescription") was issued March 6, 2024, by patient D.P.'s physician. However, the directions for the prescription were for one tablet daily for a 90-day duration with three refills, not two refills as noted in Paragraph 10 and further the prescription authorized three refills but did not direct automatic refills of the Prescription.

Paragraph 11: Respondents are without personal knowledge to substantively respond to the factual assertions set forth in Paragraph 11, however Respondents acknowledge that had the Prescription been refilled by patient D.P. as allowed, there would have been approximately twelve months of medication authorized by the physician.

Paragraph 12: Respondent PharMerica acknowledges that it received Prescription no. 343217 electronically.

Paragraph 13: Respondent PharMerica agrees with the factual assertions set forth in Paragraph 13.

Paragraph 14: Based on information and belief, Respondent PharMerica agrees that a PharMerica pharmacy technician would have transcribed the Prescription information into PharMerica's computerized prescription management system.

Paragraph 15: Respondents deny that the pharmacy technician incorrectly entered code "X90D" into the prescription management system. The technician correctly entered the Prescription and directions into the prescription management system; because the Prescription directions included a duration, the prescription management system automatically assigned the code to the Prescription. The prescription management system did not terminate D.P.'s supply of levothyroxine at the end of the initial ninety days; the Prescription was still active and simply needed to be refilled by MorningStar Senior Living.

Paragraph 16: Respondents disagree with the factual assertions contained in Paragraph 16; prescriptions, including prescriptions for "maintenance" medications, often have a duration associated with them.

Paragraph 17: Respondent Kim acknowledges that she verified Prescription no. 343217 before the Prescription was initially dispensed on March 19, 2024.

Paragraph 18: Respondent Kim denies that she failed to notice the duration code and asserts that the Prescription directions included a duration with refills to follow. Nothing indicated that the Prescription was to be automatically refilled. As noted above, the system did not "terminate" the supply of levothyroxine, the Prescription was still active and could be refilled.

Paragraph 19: Respondents deny the factual allegations set forth in Paragraph 19.

Paragraph 20: Respondents are without sufficient personal knowledge to respond to the factual allegations set forth in Paragraph 20.

Paragraph 21: Respondents are without sufficient personal knowledge to respond to the factual allegations set forth in Paragraph 21.

Paragraph 22: Respondents are without sufficient personal knowledge to respond to the factual allegations set forth in Paragraph 22.

Applicable Law: Paragraphs 23-28

Paragraph 23: Respondents agree that Paragraph 23 sufficiently reflects the contents of NRS 639.210(4).

Paragraph 24: Respondents agree that Paragraph 24 sufficiently reflects the contents of NAC 639.945(1)(d).

Paragraph 25: Respondents agree that Paragraph 25 sufficiently reflects the contents of NAC 639.945(1)(i).

Paragraph 26: Respondents agree that Paragraph 26 sufficiently reflects the contents of NAC 639.252(2).

Paragraph 27: Respondents agree that Paragraph 27 sufficiently reflects the contents of NAC 639.918.

Paragraph 28: Respondents agree that Paragraph 28 sufficiently reflects the contents of NRS 639.230(5), NAC 639.702, and NAC 639.945(3).

Count One (Paragraphs 29-35, Respondent Kim

Paragraph 29: Respondent Kim agrees that she verified Prescription no. 343217, which allowed three refills, not two as alleged. However, Respondent Kim denies the remaining allegations contained in Paragraph 29.

Paragraph 30: Respondent Kim does not work in the same location as the pharmacy technician who transcribed the information regarding the Prescription into the PharMerica computerized prescription management system, however Respondent Kim asserts that the technician did not incorrectly input the Prescription into the prescription management system. As described above, the prescription management system grabs the directions of the Prescription for generation of system codes. Regarding Prescription no. 343217, the physician's instructions included a duration and accordingly the system generated the appropriate code.

Paragraph 31: Respondent Kim denies the allegations contained in Paragraph 31 and contends that there was no error.

Paragraph 32: Respondent Kim agrees that she had a duty to strictly follow the instructions of the prescribing physician and that those instructions were indeed followed.

Paragraph 33: Respondent Kim denies the allegations contained in Paragraph 33.

Paragraph 34: Respondent Kim denies the allegations contained in Paragraph 34.

Paragraph 35: Paragraph 35 does not require a response from Respondent Kim.

Count Two (Paragraphs 36-38, Respondent PharMerica):

Paragraph 36: Respondent PharMerica denies the allegations contained in Paragraph 36.

Paragraph 37: Respondent PharMerica agrees it is responsible for Respondent Kim's conduct as an employed pharmacist but again denies that Respondent Kim engaged in unprofessional conduct as set forth in Paragraph 37.

Paragraph 38: Paragraph 38 does not require a substantive response from Respondent PharMerica.

NOTICE OF DEFENSE/MITIGATING INFORMATION

Respondents reserve all legal defenses available to them in this matter.

Respondents further assert that no violation of NRS or NAC Chapters 639 has occurred in this matter. The Prescription was received on March 6, 2024, electronically and was properly entered into the PharMerica computerized prescription management system by a pharmacy technician. The technician appropriately entered the information into the prescription management system, including the duration which was included on the Prescription sent electronically by patient D.P.'s physician. Per the Prescription directions, the prescription management system entered a code of "X90D"; however, that did not terminate the Prescription at the end of 90-days but rather required a refill to be requested. The Prescription, as written, did not direct automatic refills. Respondents are without knowledge of why the nursing staff at MorningStar Senior Living failed to request the refill of levothyroxine, however Respondents assert that neither Respondent PharMerica nor Respondent Kim violated NRS/NAC Chapter 639 as alleged.

Respectfully submitted this 29th of August, 2025.

Based on a peer review event involving clinical competency that required investigation, on April 5, 2024, the Physician voluntarily agreed to refrain from exercising his clinical privileges at the Hospital until such time as the Hospital's Medical Executive Committee ("MEC") was able to fully review the matter. On April 18, 2024, after concluding its review of the peer review event, the MEC unanimously voted to recommend to the Hospital's Board of Trustees that the Physician's Medical Staff membership and clinical privileges be revoked. Under the Hospital's governing policies, the MEC's revocation recommendation triggered the Physician's right to request a fair hearing.

D. SUBJECT STATEMENT

If the subject identified in Section B of this report has submitted a statement, it appears in this section.

Date Submitted: 11/30/2017

I worked for Texas Tech under faculty temporary licenses from October 31, 2013 to October 31, 2016 (#44447, 44773, and 45271). Due to fierce competition and politics within both the surgery department and the institution at Medical Center Hospital (Odessa, TX), I was ultimately forced to withdraw my privileges. Initially, I had my privileges blocked by the surgery department, which is comprised of private practice surgeons and a large locums trauma surgery group run by EmCare. No Texas Tech surgeon had ever been advanced beyond provisional privileges and I, unfortunately, attempted to take on that fight and was not successful. Originally, Texas Tech general council was prepared to proceed with restriction of trade litigation, but as MCH provides salary support for all other departments of Texas Tech, it was decided that this would not be pursued. I was forced to withdraw my privileges "while under investigation". Since that time, the Chair of Surgery, Dr. {NAME DELETED {ND} } had his privileges refused. He withdrew his request before board action was taken. My other 2 partners had their privileges refused at the surgery department meeting, but after a briefing by the hospital general council, the board disregarded routine procedure and granted both of them privileges. Since Dr. {ND} has not been given his privileges and the hospital will not allow our medical students or residents in the institution, giving privileges to our junior partners had no functional effect except to buffer the board if restriction of trade litigation were to be initiated. Most recently, the newest member of the Texas Tech Surgery Department, Dr. {ND}, who had been credentialed at Medical Center for the past 15+ years in private practice, suddenly had his credentials blocked by the hospital surgery department now that he works for Texas Tech. As is standard practice, my "withdrawal of privileges while under investigation" required a review by the Texas Medical Board, which was conducted and has been completed. The board found no quality of care issues. In fact, they indicated to both myself and my attorney, that once they were able to review all the documentation and circumstances of each case (MCH had omitted pertinent parts of the medical record to substantiate their claims), the initial allegations made by the MCH surgery department and Medical Executive Committee were completely unfounded. I received a Remedial Plan, which is non-disciplinary and a non-reportable event. The only finding was illegible handwritten notes when the Texas Tech EMR was not working. The non-disciplinary result is that I am to take an 8-hour medical record keeping

course (for which I am scheduled on Dec 8th in Denver, CO). Although my privileges at MCH were blocked, I was privileged at numerous other hospitals and continued my practice with no adverse issues through the expiration date of my license on November 1st, 2016.

NEVADA STATE BOARD
OF PHARMACY

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **PHARMERICA, Pharmacy License No. PH02018, and** **CAMILLA KIM, RPH, Certificate of Registration No. 19388,** **Respondents.**	**Case Nos. 24-370-PH-N** **24-370-RPH-N** **FIRST AMENDED NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy (the "Board"), files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Board has jurisdiction over Respondent Pharmerica ("Respondent Pharmerica"), the holder of Pharmacy License No. PH02018, because Respondent Pharmerica is licensed by the Board to operate a pharmacy at 4750 Longley Lane in Reno, Nevada.

2. The Board has jurisdiction over Respondent Camilla Kim, RPh ("Respondent Kim"), the holder of Certificate of Registration No. 19388, because Respondent Kim is registered by the Board to engage in the practice of pharmacy in Nevada.

FACTUAL ALLEGATIONS

3. Respondent Pharmerica operates a retail pharmacy in Reno, Nevada.

4. Respondent Pharmerica dispenses prescriptions for dangerous drugs and controlled substances at its pharmacy location in Reno, Nevada.

5. At all times relevant to this case, Respondent Pharmerica (or a corporate affiliate or subsidiary under its control) employed people in Kentucky who performed one or more of the functions necessary to fill the prescriptions that it dispensed at its pharmacy location in Reno, Nevada.

6. The employees in Kentucky, as described in paragraph 5 above, were not licensed or registered by the Board to work as pharmacists, intern pharmacists or pharmaceutical technicians in the state of Nevada.

7. Respondent Kim was and is a Nevada-licensed pharmacist and the holder of registration no. 19388.

8. Between December 2022 and March 2024, Respondent Pharmerica employed Respondent Kim to work as a pharmacist at its pharmacy location in Reno, Nevada.

9. During her tenure as a pharmacist for Respondent Pharmerica, Respondent Kim supervised one or more of the employees described in paragraph 5 above. Respondent Kim supervised these employees while they performed one or more of the functions necessary to fill the prescriptions that were dispensed to patients in Reno, Nevada.

10. In 2023 and 2024, Respondent Pharmerica was under contract with MorningStar Senior Living of Sparks ("MorningStar"), an assisted living facility, to dispense prescription medication and provide medication management services to residents of the MorningStar facility.

11. Respondent Pharmerica worked cooperatively with the nursing staff at MorningStar to store and deliver prescription medications for the residents of the MorningStar facility.

12. In 2023 and 2024, patient D.P., an 87-year-old female, resided at MorningStar, where she received medication and medication management services from Respondent Pharmerica.

13. In 2023 and 2024, patient D.P. required levothyroxine for hypothyroidism.

14. Between March 2023 and March 2024, Respondent Pharmerica dispensed levothyroxine to patient D.P. without interruption, according to the instructions of patient D.P.'s physician.

15. On March 6, 2024, patient D.P.'s physician issued her a new prescription for levothyroxine. The prescription directed Respondent Pharmerica to dispense an initial 90-day supply of levothyroxine with three refills.

16. On its face, the above prescription sufficed to meet patient D.P.'s medical needs for 12 months.

17. Patient D.P.'s physician electronically transmitted the above prescription to Respondent Pharmerica.

18. Respondent Pharmerica assigned no. 343217 to the above prescription. Per standard operating procedure, Pharmerica processed prescription no. 343217 at a facility in Kentucky using employees who were not licensed or registered with the Board to practice pharmacy in Nevada.

19. At the facility in Kentucky, an employee transferred the information from the electronic prescription to a computerized prescription management system. This person was one of the employees described in paragraph 5 above.

20. When transferring the prescription information, the employee incorrectly entered code "X90D" related to the "duration" of medication treatment. This code suppressed the automatic refill function on the system, thus instructing the system to terminate patient D.P.'s supply of levothyroxine after just 90 days.

21. Since patient D.P.'s levothyroxine was considered a "maintenance" medication, there should not have been a duration code associated with prescription no 343217.

22. In March 2024, before dispensing any medication under prescription no. 343217, Respondent Kim verified the prescription at Pharmerica's facility in Reno.

23. When verifying the above prescription, Respondent Kim failed to notice that the duration code X90D, as described above, was inconsistent with the number of refill authorizations on the prescription itself. As noted above, this code instructed the automated system to terminate patient D.P.'s supply of levothyroxine after just 90 days.

24. In June 2024, due to Respondent Kim's omission as described above, Pharmerica failed to refill patient D.P.'s prescription for levothyroxine as directed by her physician.

25. Between June and September 2024, the nursing staff at MorningStar delivered no levothyroxine to patient D.P., and they made no inquiries of Pharmerica concerning the abrupt cessation of patient D.P.'s medication treatment.

26. In August or September 2024, patient D.P.'s daughter observed that her mother's health had rapidly declined for no apparent reason. She alerted the nursing staff at MorningStar and/or patient D.P.'s physician.

27. In September 2024, Patient D.P. was admitted to the intensive care unit at Renown Hospital, where she was diagnosed with myxedema coma and cellulitis in her left leg. These medical conditions were caused by the cessation of medication treatment with levothyroxine.

47. Due to Respondent Kim's unprofessional conduct as described above, patient D.P. suffered harm.

48. For her unprofessional conduct as described above, Respondent Kim is subject to professional discipline pursuant to NRS 639.210(4) and NAC 639.945.

COUNT TWO
Assisting or Permitting Unlicensed Practice
(Respondents Pharmerica and Kim)

50. As alleged above, Respondent Kim attempted to supervise employees in Kentucky while they performed one or more of the functions necessary to prepare prescriptions for dispensing in Nevada. These included data entry tasks related to prescription no. 343217 and other prescriptions dispensed in Nevada.

51. Through their conduct as described above, Respondent Pharmerica and Respondent Kim assisted or permitted employees in Kentucky to engage in the unlicensed practice of pharmacy in violation of NRS 639.100(1).

52. Due to their unlawful conduct as described above, Respondent Pharmerica and Respondent Kim are subject to professional discipline pursuant to NRS 639.210(12) and NAC 639.945.

COUNT THREE
Unprofessional Conduct by a Pharmacy
(Respondent Pharmerica)

53. As alleged above, Respondent Pharmerica engaged employees in Kentucky to perform one or more of the functions necessary to prepare prescriptions for dispensing in Nevada.

54. As alleged above, Respondent Pharmerica implemented a standard operating procedure that required Respondent Kim to remotely supervise employees in Kentucky who performed one or more of the functions necessary to prepare prescriptions for dispensing in Nevada.

55. Respondent Pharmerica had a duty to ensure that Kentucky employees were *directly* supervised by a Nevada pharmacist.

56. Respondent Pharmerica had a duty to ensure that Kentucky employees were properly registered with the Board to work as pharmaceutical technicians or pharmaceutical technicians in training.

57. Respondent Pharmerica had a duty to ensure that Respondent Kim was not tasked with supervising more than three pharmaceutical technicians or one pharmaceutical technician and two pharmaceutical technicians in training at one time.

58. Through its conduct as described above, Respondent Pharmerica performed one or more of the above duties in an incompetent, unskillful or negligent manner.

59. For said unprofessional conduct, Respondent Pharmerica is subject to professional discipline pursuant to NRS 639.210(4) and NAC 639.945.

COUNT FOUR
Employer Liability
(Respondent Pharmerica)

60. As alleged in Count One, Respondent Kim engaged in unprofessional conduct.

61. As alleged in Count Two, Respondent Kim assisted or permitted the unlicensed practice of pharmacy.

62. As Respondent Kim's employer at the time of the above violations, Respondent Pharmerica is responsible for the violations alleged in Count One and Count Two. NRS 639.230(5); NAC 639.702; NAC 639.945(3).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of Respondent Camilla Kim and the pharmacy license of Respondent Pharmerica.

DATED this 10th day of December 2025.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **PHARMERICA,** **Pharmacy License No. PH02018,** **and** **CAMILLA KIM, RPH,** **Certificate of Registration No. 19388,** **Respondents.**	**Case Nos. 24-370-PH-N** **24-370-RPH-N** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy (the "Board"), files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Board has jurisdiction over Respondent PharMerica ("Respondent PharMerica"), the holder of Pharmacy License No. PH02018, because Respondent PharMerica is licensed by the Board to operate a pharmacy at 4750 Longley Lane in Reno, Nevada.

2. The Board has jurisdiction over Respondent Camilla Kim, RPh ("Respondent Kim"), the holder of Certificate of Registration No. 19388, because Respondent Kim is registered by the Board to engage in the practice of pharmacy in Nevada.

FACTUAL ALLEGATIONS

3. Respondent PharMerica operates a pharmacy in Reno, Nevada.

4. In March 2024, Respondent Kim was employed by Respondent PharMerica as a pharmacist.

5. In 2023 and 2024, Respondent PharMerica was under contract with MorningStar Senior Living of Sparks ("MorningStar"), an assisted living facility, to dispense prescription medication and provide medication management services to residents of the MorningStar facility.

6. Respondent PharMerica worked cooperatively with the nursing staff at MorningStar to store and deliver prescription medications for the residents of the MorningStar facility.

7. In 2023 and 2024, patient D.P., an 87-year-old female, resided at MorningStar, where she received medication and medication management services from Respondent PharMerica.

8. In 2023 and 2024, patient D.P. required levothyroxine for hypothyroidism.

9. Between March 2023 and March 2024, Respondent PharMerica dispensed levothyroxine to patient D.P. without interruption, according to the instructions of patient D.P.'s physician.

10. On March 6, 2024, patient D.P.'s physician issued her a new prescription for levothyroxine. The prescription directed Respondent PharMerica to dispense an initial 90-day supply of levothyroxine with two refills.

11. On its face, the above prescription sufficed to meet patient D.P.'s medical needs for 12 months.

12. Patient D.P.'s physician electronically transmitted the above prescription to Respondent PharMerica.

13. Respondent PharMerica assigned no. 343217 to the above prescription. Per standard operating procedure, PharMerica processed prescription no. 343217 at its facility in Kentucky.

14. At the facility in Kentucky, a pharmaceutical technician transferred the information from the electronic prescription to a computerized prescription management system.

15. When transferring the prescription information, the technician incorrectly entered code "X90D" related to the "duration" of medication treatment. This code suppressed the automatic refill

function on the system, thus instructing the system to terminate patient D.P.'s supply of levothyroxine after just 90 days.

16. Since patient D.P.'s levothyroxine was considered a "maintenance" medication, there should not have been a duration code associated with prescription no 343217.

17. In March 2024, before dispensing any medication under prescription no. 343217, Respondent Kim verified the prescription at PharMerica's facility in Reno.

18. When verifying the above prescription, Respondent Kim failed to notice that the duration code X90D, as described above, was inconsistent with the number of refill authorizations on the prescription itself. As noted above, this code instructed the automated system to terminate patient D.P.'s supply of levothyroxine after just 90 days.

19. In June of 2024, due to Respondent Kim's omission as described above, PharMerica failed to refill patient D.P.'s prescription for levothyroxine as directed by her physician.

20. Between June and September 2024, the nursing staff at MorningStar delivered no levothyroxine to patient D.P., and they made no inquiries of PharMerica concerning the abrupt cessation of patient D.P.'s medication treatment.

21. In August or September 2024, patient D.P.'s daughter observed that her mother's health had rapidly declined for no apparent reason. She alerted the nursing staff at MorningStar and/or patient D.P.'s physician.

22. In September 2024, Patient D.P. was admitted to the intensive care unit at Renown Hospital, where she was diagnosed with myxedema coma and cellulitis in her left leg. These medical conditions were caused by the cessation of medication treatment with levothyroxine.

COUNT ONE
Unprofessional Conduct by a Pharmacist
(Respondent Kim)

29. As alleged above, Respondent Kim verified prescription no. 343217 for levothyroxine, including two refills. In verifying the prescription, Respondent Kim failed to notice that a pharmaceutical technician in Kentucky had incorrectly entered a duration code into PharMerica's prescription management system, thus causing the system to suppress the automatic refill function.

30. Respondent Kim had a duty to supervise the pharmaceutical technician in Kentucky who performed data entry tasks related to prescription no. 343217.

31. Respondent Kim had a duty to correct the data entry error described above.

32. Respondent Kim had a duty to strictly follow the instructions of patient D.P.'s physician as to the refilling of no. 343217.

33. Respondent Kim performed the above duties in an incompetent, unskillful or negligent manner.

34. Due to Respondent Kim's unprofessional conduct as described above, patient D.P. suffered harm.

35. For her unprofessional conduct as described above Respondent Kim is subject to professional discipline pursuant to NRS 639.210(4) and NAC 639.945.

COUNT TWO
Employer Liability for Unprofessional Conduct
(Respondent PharMerica)

36. Respondent Kim engaged in unprofessional conduct as described above.

37. As Respondent Kim's employer at the time, Respondent PharMerica is responsible for the unprofessional conduct as described above. NRS 639.230(5), NAC 639.702 and NAC 639.945(3).

38. For said unprofessional conduct, Respondent PharMerica is subject to professional discipline pursuant to NRS 639.210(4) and NAC 639.945.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of Respondent Camilla Kim and the pharmacy license of Respondent PharMerica.

Respondents PharMerica and Camilla Kim, RPH, hereby file with the Nevada State Board of Pharmacy ("Board"), their Answer and Notice of Defense to the Notice of Intended Action and Accusation ("Accusation") filed on July 24, 2025.

ANSWER TO ACCUSATION

Jurisdiction: Paragraphs 1-2

Paragraph 1: Respondent PharMerica acknowledges that the Board has jurisdiction in this matter as set forth in Paragraph 1.

Paragraph 2: Respondent Kim acknowledges that the Board has jurisdiction in this matter as set forth in Paragraph 2.

2026

Factual Allegations: Paragraphs 3-22

Paragraph 3: Respondent PharMerica acknowledges that it operates a pharmacy located in Reno, Nevada as set forth in Paragraph 3.

Paragraph 4: Respondent Kim acknowledges that she was employed by PharMerica in March 2024 as set forth in Paragraph 4.

Paragraph 5: Respondent PharMerica acknowledges that during the time periods set forth in Paragraph 5, it did dispense prescribed medication to residents of MorningStar Senior Living of Sparks as set forth in Paragraph 5.

Paragraph 6: Respondent PharMerica agrees with the factual assertions set forth in Paragraph 6 to the extent the PharMerica coordinated deliveries of prescribed and dispensed medication to the nursing staff of MorningStar Senior Living.

Paragraph 7: Respondent PharMerica agrees that patient D.P. did receive some medication management services in the time frame noted in Paragraph 7.

Paragraph 8: Respondents are without sufficient personal knowledge to respond to the factual assertions contained in Paragraph 8.

Paragraph 9: Respondent PharMerica agrees with the factual assertions in Paragraph 9 to the extent that patient D.P. received levothyroxine in 2023 through the end of February 2024.

Paragraph 10: Respondent PharMerica agrees with the factual assertions set forth in Paragraph 10 to the extent that a new prescription (no. 343217, the "Prescription") was issued March 6, 2024, by patient D.P.'s physician. However, the directions for the prescription were for one tablet daily for a 90-day duration with three refills, not two refills as noted in Paragraph 10 and further the prescription authorized three refills but did not direct automatic refills of the Prescription.

Paragraph 11: Respondents are without personal knowledge to substantively respond to the factual assertions set forth in Paragraph 11, however Respondents acknowledge that had the Prescription been refilled by patient D.P. as allowed, there would have been approximately twelve months of medication authorized by the physician.

Paragraph 12: Respondent PharMerica acknowledges that it received Prescription no. 343217 electronically.

Paragraph 13: Respondent PharMerica agrees with the factual assertions set forth in Paragraph 13.

Paragraph 14: Based on information and belief, Respondent PharMerica agrees that a PharMerica pharmacy technician would have transcribed the Prescription information into PharMerica's computerized prescription management system.

Paragraph 15: Respondents deny that the pharmacy technician incorrectly entered code "X90D" into the prescription management system. The technician correctly entered the Prescription and directions into the prescription management system; because the Prescription directions included a duration, the prescription management system automatically assigned the code to the Prescription. The prescription management system did not terminate D.P.'s supply of levothyroxine at the end of the initial ninety days; the Prescription was still active and simply needed to be refilled by MorningStar Senior Living.

Paragraph 16: Respondents disagree with the factual assertions contained in Paragraph 16; prescriptions, including prescriptions for "maintenance" medications, often have a duration associated with them.

Paragraph 17: Respondent Kim acknowledges that she verified Prescription no. 343217 before the Prescription was initially dispensed on March 19, 2024.

Paragraph 18: Respondent Kim denies that she failed to notice the duration code and asserts that the Prescription directions included a duration with refills to follow. Nothing indicated that the Prescription was to be automatically refilled. As noted above, the system did not "terminate" the supply of levothyroxine, the Prescription was still active and could be refilled.

Paragraph 19: Respondents deny the factual allegations set forth in Paragraph 19.

Paragraph 20: Respondents are without sufficient personal knowledge to respond to the factual allegations set forth in Paragraph 20.

Paragraph 21: Respondents are without sufficient personal knowledge to respond to the factual allegations set forth in Paragraph 21.

Paragraph 22: Respondents are without sufficient personal knowledge to respond to the factual allegations set forth in Paragraph 22.

Applicable Law: Paragraphs 23-28

Paragraph 23: Respondents agree that Paragraph 23 sufficiently reflects the contents of NRS 639.210(4).

Paragraph 24: Respondents agree that Paragraph 24 sufficiently reflects the contents of NAC 639.945(1)(d).

Paragraph 25: Respondents agree that Paragraph 25 sufficiently reflects the contents of NAC 639.945(1)(i).

Paragraph 26: Respondents agree that Paragraph 26 sufficiently reflects the contents of NAC 639.252(2).

Paragraph 27: Respondents agree that Paragraph 27 sufficiently reflects the contents of NAC 639.918.

Paragraph 28: Respondents agree that Paragraph 28 sufficiently reflects the contents of NRS 639.230(5), NAC 639.702, and NAC 639.945(3).

Count One (Paragraphs 29-35, Respondent Kim

Paragraph 29: Respondent Kim agrees that she verified Prescription no. 343217, which allowed three refills, not two as alleged. However, Respondent Kim denies the remaining allegations contained in Paragraph 29.

Paragraph 30: Respondent Kim does not work in the same location as the pharmacy technician who transcribed the information regarding the Prescription into the PharMerica computerized prescription management system, however Respondent Kim asserts that the technician did not incorrectly input the Prescription into the prescription management system. As described above, the prescription management system grabs the directions of the Prescription for generation of system codes. Regarding Prescription no. 343217, the physician's instructions included a duration and accordingly the system generated the appropriate code.

Paragraph 31: Respondent Kim denies the allegations contained in Paragraph 31 and contends that there was no error.

Paragraph 32: Respondent Kim agrees that she had a duty to strictly follow the instructions of the prescribing physician and that those instructions were indeed followed.

Paragraph 33: Respondent Kim denies the allegations contained in Paragraph 33.

Paragraph 34: Respondent Kim denies the allegations contained in Paragraph 34.

Paragraph 35: Paragraph 35 does not require a response from Respondent Kim.

Count Two (Paragraphs 36-38, Respondent PharMerica):

Paragraph 36: Respondent PharMerica denies the allegations contained in Paragraph 36.

Paragraph 37: Respondent PharMerica agrees it is responsible for Respondent Kim's conduct as an employed pharmacist but again denies that Respondent Kim engaged in unprofessional conduct as set forth in Paragraph 37.

Paragraph 38: Paragraph 38 does not require a substantive response from Respondent PharMerica.

NOTICE OF DEFENSE/MITIGATING INFORMATION

Respondents reserve all legal defenses available to them in this matter.

Respondents further assert that no violation of NRS or NAC Chapters 639 has occurred in this matter. The Prescription was received on March 6, 2024, electronically and was properly entered into the PharMerica computerized prescription management system by a pharmacy technician. The technician appropriately entered the information into the prescription management system, including the duration which was included on the Prescription sent electronically by patient D.P.'s physician. Per the Prescription directions, the prescription management system entered a code of "X90D"; however, that did not terminate the Prescription at the end of 90-days but rather required a refill to be requested. The Prescription, as written, did not direct automatic refills. Respondents are without knowledge of why the nursing staff at MorningStar Senior Living failed to request the refill of levothyroxine, however Respondents assert that neither Respondent PharMerica nor Respondent Kim violated NRS/NAC Chapter 639 as alleged.

Description of Subject's Act(s) or Omission(s) or Other Reasons for Action(s) Taken and Description of Action(s) Taken by Reporting Entity:

Based on a peer review event involving clinical competency that required investigation, on April 5, 2024, the Physician voluntarily agreed to refrain from exercising his clinical privileges at the Hospital until such time as the Hospital's Medical Executive Committee ("MEC") was able to fully review the matter. On April 18, 2024, after concluding its review of the peer review event, the MEC unanimously voted to recommend to the Hospital's Board of Trustees that the Physician's Medical Staff membership and clinical privileges be revoked. Under the Hospital's governing policies, the MEC's revocation recommendation triggered the Physician's right to request a fair hearing.

D. SUBJECT STATEMENT

If the subject identified in Section B of this report has submitted a statement, it appears in this section.

Date Submitted: 11/30/2017

I worked for Texas Tech under faculty temporary licenses from October 31, 2013 to October 31, 2016 (#44447, 44773, and 45271). Due to fierce competition and politics within both the surgery department and the institution at Medical Center Hospital (Odessa, TX), I was ultimately forced to withdraw my privileges. Initially, I had my privileges blocked by the surgery department, which is comprised of private practice surgeons and a large locums trauma surgery group run by EmCare. No Texas Tech surgeon had ever been advanced beyond provisional privileges and I, unfortunately, attempted to take on that fight and was not successful. Originally, Texas Tech general council was prepared to proceed with restriction of trade litigation, but as MCH provides salary support for all other departments of Texas Tech, it was decided that this would not be pursued. I was forced to withdraw my privileges "while under investigation". Since that time, the Chair of Surgery, Dr. {NAME DELETED {ND} } had his privileges refused. He withdrew his request before board action was taken. My other 2 partners had their privileges refused at the surgery department meeting, but after a briefing by the hospital general council, the board disregarded routine procedure and granted both of them privileges. Since Dr. {ND} has not been given his privileges and the hospital will not allow our medical students or residents in the institution, giving privileges to our junior partners had no functional effect except to buffer the board if restriction of trade litigation were to be initiated. Most recently, the newest member of the Texas Tech Surgery Department, Dr. {ND}, who had been credentialed at Medical Center for the past 15+ years in private practice, suddenly had his credentials blocked by the hospital surgery department now that he works for Texas Tech. As is standard practice, my "withdrawal of privileges while under investigation" required a review by the Texas Medical Board, which was conducted and has been completed. The board found no quality of care issues. In fact, they indicated to both myself and my attorney, that once they were able to review all the documentation and circumstances of each case (MCH had omitted pertinent parts of the medical record to substantiate their claims), the initial allegations made by the MCH surgery department and Medical Executive Committee were completely unfounded. I received a Remedial Plan, which is non-disciplinary and a non-reportable event. The only finding was illegible handwritten notes when the Texas Tech EMR was not working. The non-disciplinary result is that I am to take an 8-hour medical record keeping

course (for which I am scheduled on Dec 8th in Denver, CO). Although my privileges at MCH were blocked, I was privileged at numerous other hospitals and continued my practice with no adverse issues through the expiration date of my license on November 1st, 2016.

NEVADA STATE BOARD
OF PHARMACY

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY,

Petitioner,

v.

AMY TSENG, M.D.,
Certificate of Registration No. CS08125,

Respondent.

Case No. 24-484-CS-S

NOTICE OF INTENDED ACTION AND ACCUSATION

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has personal jurisdiction over Respondent Amy Tseng, M.D., ("Respondent"), because Respondent holds a certificate of registration issued by the Board authorizing her to prescribe controlled substances in Nevada.

2. The Board has jurisdiction over the subject matter of this accusation because it alleges violations involving the receipt, storage, possession, and/or distribution of dangerous drugs. As used herein, "dangerous drug" has the meaning ascribed to it in NRS 454.201.

FACTUAL ALLEGATIONS

3. Respondent is a physician licensed by the Nevada State Board of Medical Examiners to practice medicine in Nevada.

4. Respondent holds certificate of registration no. CS08125, which was issued by the Board pursuant to NRS 453.226 and 453.231.

5. At all times alleged herein, Respondent was a "practitioner" as that term is defined at NRS 453.126, NRS 454.00958, and NRS 639.0125.

6. In 2024, Respondent maintained a medical practice at 2870 S. Jones Boulevard in Las Vegas, Nevada, where she offered cosmetic treatments for patients with aging and/or wrinkled skin. These included treatments with injectable neuromodulators derived from *Clostridium botulinum* (hereinafter "neuromodulators").

7. Neuromodulators are "dangerous drugs" as that term is defined at NRS 454.201.

8. On December 3, 2024, Respondent was in possession of neuromodulators ostensibly imported from drug manufacturers based in Turkey and South Korea. Their places of origin were evidenced by their packaging.

9. According to Respondent, who was questioned by Board Investigator Dena McClish, Respondent purchased some of the above dangerous drugs from a website called "ActivaDerma.com." Respondent stated that she had administered the drugs to her patients without complications.

10. Respondent stored the above dangerous drugs, among other drugs, at her office at 2870 S. Jones Boulevard in Las Vegas, Nevada.

11. According to Respondent, she typically administered neuromodulators marketed under the brand name "Xeomin." Respondent stated that some of her patients had requested "Dysport" instead of "Xeomin." For these patients, Respondent procured "Dysport" from the ActivaDerm.com website.

19. In addition to being in possession of the dangerous drugs described above, including drugs labeled "Dysport," "Hejeubo" and "Liporase," Respondent was in possession of several pre-drawn syringes containing an unknown liquid substance. Respondent stated that the syringes contained Kenalog, also a dangerous drug.

20. Respondent stated that the syringes containing Kenalog were for her personal use. The syringes were not labeled.

21. On information and belief, Respondent did not acquire Kenalog pursuant to a prescription written by herself or another practitioner.

22. On information and belief, Kenalog was not dispensed to Respondent by a pharmacy or dispensing practitioner.

23. On information and belief, Respondent is not in possession of shipping documents, invoices, or other documents confirming the source of Kenalog allegedly acquired by Respondent for her personal use.

NEVADA STATE BOARD OF PHARMACY,

Petitioner,

v.

AMY TSENG, M.D.,

Certificate of Registration No. CS08125,

Respondent.

CASE NO.: 24-484-CS-S

ANSWER AND NOTICE OF DEFENSE

Respondent above named, in answer to the Notice of Intended Action and Accusation filed in the above-titled matter before the Nevada States Board of Pharmacy (the "Board"), declares:

1. That her objections to the Notice of Intended Action and Accusation (the "Notice") as being incomplete or failing to state clearly the charges against him, is hereby interposed on the following grounds:

a. This action is barred by the doctrine of laches. The Notice addresses information it purports to have obtained during a search of Respondent's office on December 3, 2024, relating to conduct that occurred prior to that. Dr. Tseng addressed the conduct in a detailed letter dated December 30, 2024 to the Board's investigator. The Board filed its Complaint on October 23, 2025, approximately eleven (11) months after its search of Respondent's office and far longer after the alleged conduct, without a valid excuse for such delay, as a result of which Dr. Tseng was prejudiced. Implicit in the Board's statutes (NRS 639.241, *et. seq.*) and its regulations (NAC 639.120, *et. seq.*) is an obligation to proceed

promptly and fairly against Respondent. Because the Board did not promptly make a determination as to whether the Notice would be filed against Dr. Tseng, it would be inequitable and unjust to proceed.

b. The Notice is impermissibly vague, as it repeatedly makes allegations "on information and belief." The due process principles that apply in disciplinary proceedings require that such proceedings be fundamentally fair and afford the respondent attorney a meaningful opportunity to defend against the charges. *See In re Ruffalo*, 390 U.S. 544, 550-51, 88 S.Ct. 1222, 1225-26 (1968) (attorney disciplinary proceedings are "adversary proceedings of a quasi-criminal nature" because a punishment or penalty can be imposed on the licensee, and therefore, entitles the licensee to due process). Allegations "on information and belief" are unconstitutionally vague, deprive Respondent of a meaningful opportunity to respond, and impermissibly shifts the burden from the Board to the Respondent.

c. Respondent steadfastly denies that she ever knowingly or intentionally: (a) received or possessed misbranded drugs in violation of 21 U.S.C.A. § 331 and/or NRS 454.351; (b) assisted or permitted the unlicensed wholesale distribution of drugs in violation fo NRS 639.100(1); or (3) unlawfully possessed Kenalog, a dangerous drug.

d. At the time Dr Tseng purchased a small amount of Dysport through the ActivaDerma website, she did not know it was manufactured in a foreign country and there were no indicia, in the purchasing process that Dysport obtained from ActivaDerma that was allegedly "misbranded".

2. That, in answer to the Notice of Intended Action and Accusation, she admits, denies, and alleges as follows:

a. Respondent admits that the Board has jurisdiction over this matter.

b. Respondent admits the allegations in Paragraphs 2 through 6 of the Notice of Intended Action (the "Notice").

c. The allegations in Paragraph 7 contains a conclusion of law for which no response is required.

d. The allegations in Paragraph 8 are vague due to the use of the word "ostensibly." Because Respondent cannot respond adequately to these allegations, she denies them.

e. Respondent admits the allegations in Paragraph 9 through 12 of the Notice.

f. Respondent denies the allegations in Paragraph 13 of the Notice.

g. Respondent admits the allegations in Paragraph 14 of the Notice.

h. The allegations in Paragraphs 15 through 18 contain conclusions of law for which no response is required.

i. Respondent admits the allegations in Paragraphs 19 and 20.

j. Respondent denies the allegations in Paragraphs 21 through 24.

k. The allegations in Paragraphs 25 through 35 contain conclusions of law for which no response is required.

l. For the reasons set forth in her objections, and based on her admissions and denials of the allegations in the preceding paragraphs, Respondent denies the allegations in Counts One through Three.

k. Respondent hereby declares, under penalty of perjury, that the foregoing Answer and Notice of Defense, and all facts therein stated, are true and correct to best of my knowledge.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **SAMAN SAZEGAR, RPH,** **Certificate of Registration No. 20754,** **Respondent.**	**Case No. 25-420-RPH-S** **STIPULATION AND ORDER**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, by and through its Senior General Counsel, Gregory L. Zunino, and Respondent Saman Sazegar (Respondent), hereby stipulate and agree as follows:

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over Respondent and this matter.

2. The Board's staff properly served Respondent with the Notice of Intended Action and Accusation ("Accusation") on file in this matter, together with the Statement to Respondent and Notice of Hearing.

3. The Board and Respondent agreed to delay the date for submitting a Notice of Answer and Defense as the parties pursued settlement negotiations.

4. Respondent acknowledges that he understands the terms of this Stipulation and Proposed Order (Stipulation), and he has executed it knowingly and voluntarily.

5. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration of a Board determination in a contested case, the right to appeal a Board determination in a contested case, and all other rights afforded to Respondent under NRS Chapter 233B, the Nevada Administrative Procedure Act, NRS Chapter 622A, which governs administrative procedure before the Board, and NRS Chapter 639, the Nevada Pharmacy Act.

6. Conditioned on the acceptance of this Stipulation by the Board and excluding the right to challenge any determination that Respondent has failed to comply with the provisions of this

Stipulation, Respondent hereby freely and voluntarily waives his rights to a hearing, reconsideration, appeal, and other rights related to this action as identified above.

7. Respondent does not contest the allegations in the Accusation, and further admits that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the violations alleged in Count One of the Accusation, to wit:

A. On or about February 19, 2023, Respondent was arrested in California for driving under the influence of drugs and/or alcohol. A subsequent blood test revealed that Respondent had a blood alcohol concentration of 0.05%, and that he had earlier consumed diazepam, a Schedule IV controlled substance.

B. Respondent admitted to California authorities that he had consumed diazepam the day before his arrest on February 19, 2023. He also stated that he obtained the medication pursuant to a prescription issued by a licensed physician in Thailand in September/October 2022 but did not have a valid U.S. prescription or proper authorization to import the controlled substance into the United States.

C. On October 14, 2024, the California State Board of Pharmacy disciplined Respondent for his conduct as described above. The discipline consisted of a public reprimand, an order to complete continuing education on the subject of ethics, and an order to pay costs and fees in the amount of $12,138.80.

8. Respondent has fully satisfied the conditions imposed by the California State Board of Pharmacy as described in Paragraph 7(C) above.

9. Now, therefore, to resolve this case without incurring any further costs or the expenses associated with a hearing, the Board and Respondent agree to the following discipline:

A. Respondent accepts this Stipulation as a public reprimand for having possessed diazepam without a prescription and having violated federal law related to the importation of prescription drugs.

B. Respondent shall pay the sum of **Five Hundred and 00/100 Dollars ($500.00)** to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this case. This sum shall be payable by *cashier's check, certified check,* or *money order* written to the "**Nevada State Board of Pharmacy.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, on or before February 28, 2026.

10. This Stipulation constitutes a full and final resolution of the Accusation in Case No. 25-420-RPH-S. Any failure by Respondent to comply with the terms of this Stipulation may result in issuance by the Executive Secretary of an order to show cause, pursuant to NAC 639.965, directing him to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in the finding of noncompliance by Respondent, the Board may impose additional discipline not inconsistent with the provisions of NRS Chapter 639.

11. The Board's Senior General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on January 14, 2026, in Las Vegas, Nevada. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent fails to appear at the meeting.

12. The Board may accept this Stipulation, but it has no obligation to accept this Stipulation. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r–2 and 45 CFR Part 60.

13. If the Board rejects any part or all of this Stipulation, and unless the parties reach an alternative agreement on the record during the hearing, the parties agree that the Board may hold a contested hearing on the merits of all alleged violations as stated in the Accusation. The terms and admissions herein may not be used, relied upon, or referred to by any party during any such hearing.

14. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any or all additional claims arising from the facts set forth in the Accusation

on file herein, whether known or unknown that might otherwise have been asserted by the Board on or before the date of entry set forth below.

Respondent has fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and has freely and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because, at the time of the events alleged herein, Sunrise Pharmacy (Respondent Sunrise Pharmacy) held a license issued by the Board pursuant to NRS 639.230, authorizing the business to operate as a pharmacy, and Tamara Angeles (Respondent Angeles) held a license to practice as a pharmacist issued by the Board.

FACTUAL ALLEGATIONS

2. Respondent Sunrise Pharmacy, located at 2560 Sunset Road #102 in Las Vegas, Nevada, was licensed by the Board under License No. PH03880 to operate as a pharmacy from April 10, 2018 until October 31, 2020. Respondent Sunrise Pharmacy closed in 2020 and did not renew its license.

3. Michael Peters (Peters) was the owner of Respondent Sunrise Pharmacy at the time of the events alleged herein. Peters is not licensed by the Board and is not a pharmacist.

4. From August 6, 2018 until May 13, 2019, Respondent Angeles, License No. PH03880, was the managing pharmacist for Respondent Sunrise Pharmacy, as the term managing pharmacist is defined by NRS 639.0087.

5. On or about November 19, 2019, the Board received a copy of an investigation and audit from the Special Investigations Unit of health insurance company Humana that included information about Respondent Sunrise Pharmacy's sales activity. Humana's internal audit found that, from October 3, 2018 until March 31, 2019, Respondent Sunrise Pharmacy shipped dangerous drugs to patients in California, Louisiana, Ohio, Texas, and Wisconsin. At the time it made shipments into those states, Respondent Sunrise Pharmacy did not hold a pharmacy, wholesaler, or mail pharmacy license in California, Louisiana, Ohio, Texas, and Wisconsin.

6. Humana's audit also found that, from October 3, 2018 until March 31, 2019, Respondent Sunrise Pharmacy sent sales representatives to market to prescribers in California, Louisiana, Ohio, Texas, and Wisconsin. At the time it sent sales representatives to those states, Respondent Sunrise Pharmacy did not hold a pharmacy, wholesaler, or mail pharmacy license in California, Louisiana, Ohio, Texas, and Wisconsin.

7. The dangerous drugs Respondent Sunrise Pharmacy sent into the states where it did not hold a license included lidocaine-prilocaine cream, diclofenac sodium gel, NYAMAYC/GM powder, clindamycin solution, doxycycline hyclate, voriconazole, vancomycin HCL, calcipotriene, flurbiprofen, and tetracycline.

8. Humana sent the results of the audit to Respondent Sunrise Pharmacy and Peters on May 15, 2019. In response to the Humana audit, on June 11, 2019, Peters admitted that Respondent Sunrise Pharmacy mailed dangerous drugs into those states despite not holding a license to do so.

9. In his response, Peters also admitted that he consulted with Respondent Angeles and that she was aware that Respondent Sunrise Pharmacy mailed the dangerous drugs to states where the pharmacy did not hold a license to do so.

APPLICABLE LAW

10. The Board may revoke or suspend the registration of any practitioner who has violated, attempted to violate, assisted, or abetted in the violation of, or conspired to violate any of the provisions of NRS chapter 639 or any state or federal law or regulation relating to drugs, the manufacture or distribution of drugs, or the practice of pharmacy. NRS 639.210(12).

11. The Board may revoke or suspend the registration of any license holder who is guilty of unprofessional conduct or conduct contrary to the public interest. *See* NRS 639.210(4).

12. A license holder's conduct is deemed unprofessional and contrary to the public interest if the license holder performs any act, task or operation for which licensure, certification or registration is required without the required license, certificate or registration. NAC 639.945(1)(k).

13. "Managing pharmacist" means a registered pharmacist who is responsible for the operation of a pharmacy. NRS 639.0087.

14. The Board may revoke or suspend any managing pharmacist's license if he or she has knowingly allowed a violation of any provision of Chapter 639 or other state law or regulations relating to the practice of pharmacy by personnel of the pharmacy under his or her supervision. NRS 639.210(15).

15. In lieu of, or in addition to revoking or suspending a license holder's registration for violating the law or engaging in unprofessional conduct, the Board may impose fines as a disciplinary measure. *See* NRS 639.255; NAC 639.955.

COUNT ONE

Unprofessional Conduct -Performing an Act, Task or Operation for Which Licensure is Required without the Required License
(Respondent Sunrise Pharmacy and Respondent Angeles)

16. As alleged above, from October 3, 2018 until March 31, 2019, Respondent Sunrise Pharmacy sent sales representatives to solicit sales of and shipped dangerous drugs to patients in

California, Louisiana, Ohio, Texas, and Wisconsin. During that timeframe, Respondent Sunrise Pharmacy was not licensed to sell or furnish drugs in California, Louisiana, Ohio, Texas, or Wisconsin. During that timeframe, Respondent Angeles was responsible for the operations of Respondent Sunrise Pharmacy as its managing pharmacist.

17. By soliciting sales of and shipping dangerous drugs into states where it was not licensed to do so, Respondent Sunrise Pharmacy and Respondent Angeles performed an act for which licensure, certification or registration is required without the required license, certificate or registration. NAC 639.945(1)(k). By performing these acts, Respondent Sunrise Pharmacy and Respondent Angeles engaged in unprofessional conduct and conduct contrary to the public interest. NAC 639.945(1)(k). This is a violation of law for which the Board may impose administrative discipline. *See* NRS 639.210(4).

COUNT TWO
Knowingly Violating a State Law or Regulation
(Respondent Angeles)

18. As alleged above, from October 3, 2018 until March 31, 2019, Respondent Sunrise Pharmacy shipped dangerous drugs to patients in California, Louisiana, Ohio, Texas, and Wisconsin. During that timeframe, Respondent Sunrise Pharmacy was not licensed to sell or furnish drugs in California, Louisiana, Ohio, Texas, or Wisconsin. During that timeframe, Respondent Angeles was responsible for the operations of Respondent Sunrise Pharmacy as its managing pharmacist.

19. As managing pharmacist of Respondent Sunrise Pharmacy, Respondent Angeles oversaw and was responsible for the shipping of dangerous drugs to patients in states where Respondent Sunrise Pharmacy was not licensed and therefore engaged in unprofessional conduct pursuant to NAC 639.945(1)(k). *See also* NRS 639.0087. By performing these acts, Respondent Angeles, as managing pharmacist, knowingly allowed a violation of a provision of Chapter 639 and other state laws or regulations relating to the practice of pharmacy by personnel of the pharmacy under her supervision. NRS 639.210(15). This is a violation of law for which the Board

may suspend or revoke any certificate, license, registration or permit issued by the Board. NRS 639.210.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of Respondent Sunrise Pharmacy and Respondent Angeles.

DATED this 24th day of July 2025.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because, at the time of the events alleged herein, Sunrise Pharmacy (Respondent Sunrise Pharmacy) held a license issued by the Board pursuant to NRS 639.230, authorizing the business to operate as a pharmacy, and Tamara Angeles (Respondent Angeles) held a license to practice as a pharmacist issued by the Board.

FACTUAL ALLEGATIONS

2. Respondent Sunrise Pharmacy, located at 2560 Sunset Road #102 in Las Vegas, Nevada, was licensed by the Board under License No. PH03880 to operate as a pharmacy from April 10, 2018 until October 31, 2020. Respondent Sunrise Pharmacy closed in 2020 and did not renew its license.

3. Michael Peters (Peters) was the owner of Respondent Sunrise Pharmacy at the time of the events alleged herein. Peters is not licensed by the Board and is not a pharmacist.

4. From August 6, 2018 until May 13, 2019, Respondent Angeles, License No. PH03880, was the managing pharmacist for Respondent Sunrise Pharmacy, as the term managing pharmacist is defined by NRS 639.0087.

5. On or about November 19, 2019, the Board received a copy of an investigation and audit from the Special Investigations Unit of health insurance company Humana that included information about Respondent Sunrise Pharmacy's sales activity. Humana's internal audit found that, from October 3, 2018 until March 31, 2019, Respondent Sunrise Pharmacy shipped dangerous drugs to patients in California, Louisiana, Ohio, Texas, and Wisconsin. At the time it made shipments into those states, Respondent Sunrise Pharmacy did not hold a pharmacy, wholesaler, or mail pharmacy license in California, Louisiana, Ohio, Texas, and Wisconsin.

6. Humana's audit also found that, from October 3, 2018 until March 31, 2019, Respondent Sunrise Pharmacy sent sales representatives to market to prescribers in California, Louisiana, Ohio, Texas, and Wisconsin. At the time it sent sales representatives to those states, Respondent Sunrise Pharmacy did not hold a pharmacy, wholesaler, or mail pharmacy license in California, Louisiana, Ohio, Texas, and Wisconsin.

7. The dangerous drugs Respondent Sunrise Pharmacy sent into the states where it did not hold a license included lidocaine-prilocaine cream, diclofenac sodium gel, NYAMAYC/GM powder, clindamycin solution, doxycycline hyclate, voriconazole, vancomycin HCL, calcipotriene, flurbiprofen, and tetracycline.

8. Humana sent the results of the audit to Respondent Sunrise Pharmacy and Peters on May 15, 2019. In response to the Humana audit, on June 11, 2019, Peters admitted that Respondent Sunrise Pharmacy mailed dangerous drugs into those states despite not holding a license to do so.

9. In his response, Peters also admitted that he consulted with Respondent Angeles and that she was aware that Respondent Sunrise Pharmacy mailed the dangerous drugs to states where the pharmacy did not hold a license to do so.

APPLICABLE LAW

10. The Board may revoke or suspend the registration of any practitioner who has violated, attempted to violate, assisted, or abetted in the violation of, or conspired to violate any of the provisions of NRS chapter 639 or any state or federal law or regulation relating to drugs, the manufacture or distribution of drugs, or the practice of pharmacy. NRS 639.210(12).

11. The Board may revoke or suspend the registration of any license holder who is guilty of unprofessional conduct or conduct contrary to the public interest. *See* NRS 639.210(4).

12. A license holder's conduct is deemed unprofessional and contrary to the public interest if the license holder performs any act, task or operation for which licensure, certification or registration is required without the required license, certificate or registration. NAC 639.945(1)(k).

13. "Managing pharmacist" means a registered pharmacist who is responsible for the operation of a pharmacy. NRS 639.0087.

14. The Board may revoke or suspend any managing pharmacist's license if he or she has knowingly allowed a violation of any provision of Chapter 639 or other state law or regulations relating to the practice of pharmacy by personnel of the pharmacy under his or her supervision. NRS 639.210(15).

15. In lieu of, or in addition to revoking or suspending a license holder's registration for violating the law or engaging in unprofessional conduct, the Board may impose fines as a disciplinary measure. *See* NRS 639.255; NAC 639.955.

COUNT ONE

Unprofessional Conduct -Performing an Act, Task or Operation for Which Licensure is Required without the Required License
(Respondent Sunrise Pharmacy and Respondent Angeles)

16. As alleged above, from October 3, 2018 until March 31, 2019, Respondent Sunrise Pharmacy sent sales representatives to solicit sales of and shipped dangerous drugs to patients in

California, Louisiana, Ohio, Texas, and Wisconsin. During that timeframe, Respondent Sunrise Pharmacy was not licensed to sell or furnish drugs in California, Louisiana, Ohio, Texas, or Wisconsin. During that timeframe, Respondent Angeles was responsible for the operations of Respondent Sunrise Pharmacy as its managing pharmacist.

17. By soliciting sales of and shipping dangerous drugs into states where it was not licensed to do so, Respondent Sunrise Pharmacy and Respondent Angeles performed an act for which licensure, certification or registration is required without the required license, certificate or registration. NAC 639.945(1)(k). By performing these acts, Respondent Sunrise Pharmacy and Respondent Angeles engaged in unprofessional conduct and conduct contrary to the public interest. NAC 639.945(1)(k). This is a violation of law for which the Board may impose administrative discipline. *See* NRS 639.210(4).

18. As alleged above, from October 3, 2018 until March 31, 2019, Respondent Sunrise Pharmacy shipped dangerous drugs to patients in California, Louisiana, Ohio, Texas, and Wisconsin. During that timeframe, Respondent Sunrise Pharmacy was not licensed to sell or furnish drugs in California, Louisiana, Ohio, Texas, or Wisconsin. During that timeframe, Respondent Angeles was responsible for the operations of Respondent Sunrise Pharmacy as its managing pharmacist.

19. As managing pharmacist of Respondent Sunrise Pharmacy, Respondent Angeles oversaw and was responsible for the shipping of dangerous drugs to patients in states where Respondent Sunrise Pharmacy was not licensed and therefore engaged in unprofessional conduct pursuant to NAC 639.945(1)(k). *See also* NRS 639.0087. By performing these acts, Respondent Angeles, as managing pharmacist, knowingly allowed a violation of a provision of Chapter 639 and other state laws or regulations relating to the practice of pharmacy by personnel of the pharmacy under her supervision. NRS 639.210(15). This is a violation of law for which the Board

may suspend or revoke any certificate, license, registration or permit issued by the Board. NRS 639.210.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of Respondent Sunrise Pharmacy and Respondent Angeles.

DATED this 24th day of July 2025.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **ROBERT MILNE, MD,** **Certificate of Registration No. CS03445,** **Respondent.**	**Case No. 23-418-CS-S** **STIPULATION AND ORDER**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, by and through counsel, Laura M. Tucker, Esq., and Robert Milne, MD, ("Respondent"), by and through counsel, Christopher R. McCullough, Esq., hereby stipulate and agree as follows:

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent and this matter.

2. The Board's staff properly served Respondent with the Notice of Intended Action and Accusation ("Accusation") on file in this matter, together with the Statement to Respondent and Notice of Hearing.

3. The Board and Respondent agreed to delay the date for submitting a Notice of Answer and Defense as the parties pursued settlement negotiations.

4. Respondent acknowledges that he understands the terms of this Stipulation and Proposed Order ("Stipulation"), and that he has executed it knowingly and voluntarily.

5. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration of a Board determination in a contested case, the right to appeal a Board determination in a contested case, and all other rights afforded to Respondent under NRS Chapter 233B, the Nevada Administrative Procedure Act, NRS Chapter 622A, which governs administrative procedure before the Board, NRS Chapter 639, the Nevada Pharmacy Act, and NRS Chapter 453, the Nevada Uniform Controlled Substances Act.

6. Conditioned on the acceptance of this Stipulation by the Board, and excluding the right to challenge any determination that Respondent has failed to comply with the provisions of this

Stipulation, Respondent hereby freely and voluntarily waives his right to a hearing, reconsideration, appeal, and other rights related to this action as identified above.

7. Respondent believes that he has testimony and evidence that could refute the violations alleged in the Accusation, but acknowledges that Board staff prosecuting this case could present evidence at an administrative hearing to establish a factual basis for the violation alleged in Count One, Count Two, Count Three, and Count Four of the Accusation, *to wit*:

A. Respondent dispensed dangerous drugs without a dispensing license as required by NRS 454.215(3), NRS 639.23505, and NAC 639.742, thereby engaging in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(k).

B. Respondent held for sale an adulterated drug in violation of NRS 585.520(1), thereby engaging in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(i).

C. Respondent failed to maintain and produce to Board staff upon request a complete and accurate record of all dangerous drugs he dispensed to patients as required by NRS 454.286(1) and (2), thereby engaging in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(m).

D. Respondent violated NRS 454.316 when he stored and/or possessed dangerous drugs from patients and employees that were not stock containers properly labeled and procured from a manufacturer, wholesaler or pharmacy. Furthermore, Respondent violated NRS 454.316 when he did not acquire the dangerous drugs from patients and employees pursuant to a prescription written by himself or another practitioner, and/or were not dispensed to Respondent by a pharmacy or dispensing practitioner.

8. Now, therefore, to resolve this matter without incurring any further costs or the expenses associated with a hearing, the Board and Respondent agree to the imposition of the following penalties:

A. Respondent accepts the Stipulation as a public reprimand imposed pursuant to NRS 639.255(1)(e).

B. Respondent shall pay an administrative fine of **Five Thousand and 00/100 Dollars ($5,000.00)**, payable by *cashier's check, certified check,* or *money order* written to the "**State of Nevada, Office of the Treasurer.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Stipulation.

C. Respondent shall pay the sum of **Five Hundred and 00/100 Dollars ($500.00)** to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter. This sum shall be payable by *cashier's check, certified check,* or *money order* written to the "**Nevada State Board of Pharmacy.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Stipulation.

9. This Stipulation constitutes a full and final resolution of the Accusation in Case No. 23-418-CS-S. However, Respondent understands and acknowledges that his failure to comply with the terms stated herein may result in issuance by the Executive Secretary of an order to show cause, pursuant to NAC 639.965, directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation by Respondent, the Board may impose additional discipline not inconsistent with the provisions of NRS Chapter 639.

10. The Board's General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on January 14, 2026, in Las Vegas, Nevada. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent fails to appear for the meeting.

11. The Board may accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r–2 and 45 CFR Part 60.

12. If the Board rejects any part or all this Stipulation, and unless the parties reach an alternative agreement on the record during the hearing, the parties agree that the Board may hear a full

contested hearing on the merits of all alleged violations as stated in the Accusation. The terms and admissions herein may not be used, relied upon, or referred to by any party during any such hearing.

13. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any or all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have been asserted by the Board on or before the effective date of this Order.

Respondent has fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and has freely and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because, at the time of the events alleged herein, Eric Welling, M.D. ("Respondent") held a registration issued by the Board, Certificate of Registration No. CS33340.

FACTUAL ALLEGATIONS

2. Respondent is currently licensed by the Nevada State Board of Medical Examiners as a medical doctor.

3. Respondent currently works as an anesthesiologist at Sunrise Hospital and Medical Center in Las Vegas.

4. On or about September 23, 2021, Davis Hospital and Medical Center in Layton, Utah suspended Respondent's clinical privileges because of health and safety concerns related to a cognitive assessment.

5. On or about October 27, 2021, the Wyoming Board of Medicine (Wyoming Board) opened an investigation into Respondent based upon a National Practitioner Data Bank report about Respondent's suspension.

6. On or about July 22, 2022, following the investigation, the Wyoming Board entered an Order for Alcohol, Substance, Mental Health Examination against Respondent requiring him to submit to a mental health evaluation and summarily suspended his license.

7. Respondent complied with the Wyoming Board's Order in January 2023 and received a mental health evaluation along with treatment recommendations.

8. On or about December 14, 2023, the Wyoming Board made findings that Respondent had not complied with the treatment recommendations from the mental health evaluation. Based on these findings, the Wyoming Board found that Respondent was not fit to practice medicine and that his continued practice presents a danger to the public. As a result, the Wyoming Board entered a Finding of Fact, Conclusion of Law suspending Respondent's medical license.

APPLICABLE LAW

9. The Board may suspend a Nevada practitioner's license if the practitioner's license has been suspended by a licensing board in another state. NRS 639.2107.

10. The Board may revoke or suspend the registration of any practitioner who "[h]as had a certificate, license or permit suspended or revoked in another state on grounds which would cause suspension or revocation of a certificate, license or permit in this State." NRS 639.210(14).

11. The Board may revoke or suspend the registration of any practitioner who is guilty of unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4).

12. Violation of any term or condition of an order issued by the Board of staff of the Board is deemed to be unprofessional conduct or conduct contrary to the public interest. NAC 639(1)(l). *See also* NRS 453.236(1)(e) and NRS 453.231(1)(h).

COUNT ONE

Unprofessional Conduct – License Suspended in Another State

13. As alleged above, Respondent's license to practice medicine was suspended for failure to adhere to an order by the Wyoming Board of Medicine. A Nevada practitioner's

controlled substance registration may be suspended in Nevada because of a suspension in another state. Furthermore, by failing to adhere to the Wyoming order, Respondent is subject to suspension in Nevada because failure to follow a comparable order issued by the Board would be grounds for suspension in Nevada. For the conduct alleged above, Respondent is subject to discipline pursuant to NRS 639.210(14), NRS 639.210(4), and NAC 639.211.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of Respondent.

Respondent above named, in answer to the Notice of Intended Action and Accusation filed in the above-entitled matter before the Nevada State Board of Pharmacy, declares:

1. That his/her objection to the Notice of Intended Action and Accusation as being incomplete or failing to state clearly the charges against him/her, is hereby interposed on the following grounds: (State specific objections or insert "none").

3. I admit that I am licensed and in good standing with the Nevada State Board of Medical Examiners as a medical doctor.

4. I admit that until October 1, 2025 I worked as an anesthesiologist at Sunrise Hospital and Medical Center in Las Vegas where my peer reviews and patient satisfaction scores were very high as an Anesthesiologist.

5. I admit that on September 23, 2021, my clinical medical staff privileges were suspended at Davis Hospital in Layton, UT. I was sent for a cognitive assessment at Acumen Assessments after which I took an indefinite medical leave of absence from Davis Hospital and took a sabbatical for six months. I testify that the Utah Department of Professional Licensing thoroughly investigated this matter and left my UT medical license intact and in good standing. My DEA license also remained intact and in good standing.

6. I admit that the Wyoming Board of Medicine opened an investigation on October 27, 2021 based upon the NPDB report about the medical staff suspension at Davis Hospital.

7. I admit that the Wyoming Medical Board required an additional mental health evaluation (which I completed in January 2023) and summarily suspended my WY medical license. I also admit and testify that this mental health evaluation was for NOT for abuse of controlled substances or alcohol abuse. My Utah Medical License and DEA licenses remained in good standing after the WY suspension.

8. I admit that on December 14, 2023, the WY Board of Medicine claimed that I had not been compliant with treatment recommendations made during the mental health evaluation. I categorically DENY this claim. I showed during the WY Hearing that I was in complete compliance with all treatment recommendations, that I demonstrated FITNESS to practice medicine and was NOT a danger to the public. At the time of this hearing, I had been successfully practicing Anesthesia at Sunrise Hospital for the preceding two years with excellent peer reviews and patient satisfaction scores. I testify that during the WY BOM hearing that the BOM disallowed letters of recommendation and testimony in favor of my fitness to practice medicine from Dustin Mangus, MD, the Chief of Anesthesia at Sunrise Hospital as well as the President of US Anesthesia Partners, Scott Fielden MD, and the Vice Chairman of USAP, Dean Polce MD.

I also testify that the NV Board of Pharmacy was notified of the WY BOM suspension (Johnna LaRue, NV BOP) and also notified that I was attending weekly physician support meetings in Las Vegas, NV with PRN (Professional Resource Network) to maintain compliance with the mental health evaluation and the NV Board of Medicine.

I also testify that solely as a result of the WY medical license suspension and the corresponding NPDB report, my medical licenses in WA, ID, SD, PA, TN, KY, MI, NH, and CA were subsequently summarily suspended.

I also testify that on September 15, 2025, I have made application in the State of WY for Reactivation of my WY medical license for continued compliance with the recommendations given me by the mental health facility, Acumen Assessment.

I appeal to the NV Board of Pharmacy to let the record show that I notified the NV Board of Pharmacy of the actions by the WY BOM, and that I maintained a good practice of medicine at Sunrise Hospital in Las Vegas, NV for nearly three years. I also showed compliance with the recommendations made by Acumen Assessments to attend weekly counseling sessions (originally only prescribed for several months) for three years to maintain good standing with the NV Board of Medicine and the NV Board of Pharmacy.

I appeal to the NV Board of Pharmacy to maintain my Pharmacy license in good standing and active while I seek reinstatement of my WY Medical license with the WY BOM.

2. That, in answer to the Notice of Intended Action and Accusation, he/she admits, denies and alleges as follows:

I hereby declare, under penalty of perjury, that the foregoing Answer and Notice of Defense, and all facts therein stated, are true and correct to the best of my knowledge.

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent and this matter.

2. The Board's staff properly served Respondent with the Notice of Intended Action and Accusation ("Accusation") on file in this matter, together with the Statement to Respondent and Notice of Hearing.

3. Respondent acknowledges that he understands the terms of this Stipulation and Proposed Order ("Stipulation"), and that he has executed it knowingly and voluntarily.

4. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration of a Board determination in a contested case, the right to appeal a Board determination in a contested case, and all other rights afforded to Respondent under NRS Chapter 233B, the Nevada Administrative Procedure Act, NRS Chapter 622A, which governs administrative procedure before the Board, NRS Chapter 639, the Nevada Pharmacy Act, and NRS Chapter 453, the Nevada Uniform Controlled Substances Act.

5. 6. Respondent admits that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the violations alleged the Accusation, and, *to wit*:

A. Respondent did not disclose on his 2022 controlled substances application that he had been the subject of disciplinary action before numerous state boards of medicine in violation of the Board's reporting and application requirements.

7. Now, therefore, to resolve this matter without incurring any further costs or the expenses associated with a hearing, the Board and Respondent agree to the imposition of the following penalties:

C. The evaluator/practitioner shall provide quarterly compliance reports to the Board for the full term of treatment.

8. This Stipulation constitutes a full and final resolution of the Accusation in Case No. 24-078-CS-S. However, Respondent understands and acknowledges that his failure to comply with the terms stated herein may result in issuance by the Executive Secretary of an order to show cause, pursuant to NAC 639.965, directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation by Respondent, the Board may impose additional discipline not inconsistent with the provisions of NRS Chapter 639.

9. The Board's General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on January 14, 2026, in

Las Vegas, Nevada. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent fails to appear for the meeting.

10. The Board may accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r–2 and 45 CFR Part 60.

11. If the Board rejects any part or all this Stipulation, and unless the parties reach an alternative agreement on the record during the hearing, the parties agree that the Board may hear a full contested hearing on the merits of all alleged violations as stated in the Accusation. The terms and admissions herein may not be used, relied upon, or referred to by any party during any such hearing.

12. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any or all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have been asserted by the Board on or before the effective date of this Order.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **MICHAEL J. STELLMACHER, PA, Certificate of Registration No. CS21884,** **Respondent.**	**Case No. 24-364-CS-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Michael J. Stellmacher, PA ("Respondent") held a registration issued by the Board, Certificate of Registration No. CS21884.

FACTUAL ALLEGATIONS

2. At all times relevant to this accusation, Respondent has been employed as the medical director of Premier Beauty, LLC, also known as Channel Pro, (Premier Beauty), located at 4555 S. Fort Apache Road, Suite 104, in Las Vegas, Nevada.

3. Since at least December 28, 2023 until present, Joseph Gillis ("Gillis") owned and/or operated Premier Beauty. Since at least May 9, 2024 until present, Betty Dare ("Dare") was listed as the director of Premier Beauty. Gillis and Dare are not Nevada-licensed practitioners as that term is defined in NRS 639.0125 and NRS 453.126.

4. A Board investigation on August 29, 2024 revealed that Respondent permitted Gillis and Dare to have independent access to the medication storage containing dangerous drugs, and to access those medications outside Respondent's presence without Respondent's supervision.

5. Respondent admitted that he was the medical director of Premier Beauty, but that he rarely was on site and stated that he had no patient records. Respondent was not physically on-site at Premier Beauty while Board investigators were there.

6. Respondent permitted Dare to independently access, possess, furnish, and administer dangerous drugs to patients, to provide on-site medical treatment, including the administration of dangerous drugs through injection, specifically tirzepatide, semaglutide powders, and nicotinamide adenine dinucleotide (NAD), without direct practitioner supervision, to patients with whom Respondent had not established a bona fide therapeutic relationship, and for whom Respondent had neither diagnosed nor determined that a dangerous drug was medically necessary.

7. Furthermore, the investigation revealed that these dangerous drugs were purchased from OUISA Pharmacy Corp. (OUISA), located in Spring Hill, Florida; OUISA not licensed as a wholesaler by the Board. The dangerous drugs were labeled as not for patient use.

8. Respondent permitted Gillis to purchase the drug products using the National Provider Identifier (NPI) number of Dr. Jayendrakumar Amin (Amin) and had the products shipped to California. Amin is located in California and does not hold any license or registration with the Board.

9. Premier Beauty's inventory included multiple vials of various injectable drugs intended for distribution in foreign markets and not approved for distribution or use in the United States, including medytox and other forms of botulinum toxins, multivitamin injections, and glutathione injections.

10. In at least one instance, Respondent's failure to supervise Dare while she administered tirzepatide to a patient resulted in patient harm. On June 7, 2024, Dare injected patient D.S. with tirzepatide and gave D.S. three more shots to take home with her. D.S. went to the emergency room with injuries from the injection. Respondent was not on site during the injection.

11. On or about February 19, 2025, the Board issued a cease-and-desist order with a citation and fine against Premier Beauty, Gillis, and Dare for unlicensed activity. On or about February 25, 2025, the Board issued a cease-and-desist order with a citation and fine against Amin for unlicensed wholesale activity.

Respondents.

ANSWER AND NOTICE OF DEFENSE:

Respondents First Choice Pharmacy, LLC, Kirk Beaulieu, RPh, and Nicole Sy, RPh, hereby submit this Answer and Notice of Defense to the *Notice of Intended Action and Accusation* filed by the Nevada State Board of Pharmacy ("Board"), and respectfully states as follows:

I. PRELIMINARY STATEMENT

1. Respondents deny each and every material allegation contained in the Notice of Intended Action and Accusation, except as expressly admitted herein.
2. Respondent Beaulieu has been a licensed pharmacist for thirty-five (35) years, maintaining licenses in Maine, New Hampshire, and Nevada without any prior disciplinary action.
3. Respondent Beaulieu has consistently conducted himself with integrity, diligence, and transparency in the practice of pharmacy, including during his employment with First Choice Pharmacy beginning December 1, 2023, where he served as Pharmacist-in-Charge ("PIC").
4. The transactions involving Rxeed referenced in the Board's allegations were pre-existing pharmacy practices that began prior to Respondent's employment. Respondents had no prior knowledge or notice that Rxeed was not licensed as a wholesaler in Nevada, and no directive or written communication from the Board, the pharmacy owners, or Rxeed indicated such status.
5. Respondents acted in good faith reliance on the pharmacy's established suppliers and on the Board's prior "good inspection" findings for the facility. At no time did he intend to violate any state or federal law or regulation.

II. RESPONSES TO SPECIFIC COUNTS

COUNT I – Unprofessional Conduct: Performing Duties in an Incompetent, Unskillful, or Negligent Manner

6. Respondents deny the allegations contained in Count I.
7. Respondent Beaulieu did not act incompetently, unskillfully, or negligently. He followed all known compliance practices and relied on prior Board inspections indicating that First Choice Pharmacy operated lawfully.
8. Upon the Board's subsequent notification that Rxeed was an unlicensed marketplace, Respondents immediately ceased all transactions with Rxeed and implemented procedures to verify all current and future wholesalers through the Nevada Board of Pharmacy's licensure database.
9. Respondents have since maintained full compliance and received a "good inspection" on February 11, 2025, from Board Inspector John Castaldo.

COUNT II – Aiding or Abetting Violation of State Law or Regulation

10. Respondents deny the allegations contained in Count II.
11. Respondents did not knowingly or intentionally aid, abet, or assist Rxeed in any unlawful activity. Rxeed the company presented itself as a licensed wholesaler with valid credentials.
12. Respondents had no constructive or actual knowledge of any unlicensed activity until receiving direct instruction from the Board in April 2024, at which point First Choice acted promptly to discontinue all Rxeed use and to verify compliance with NRS 639.239 and NAC 639.510.

COUNT III – Aiding or Abetting Violation of Federal Law or Regulation

13. Respondents deny the allegations contained in Count III.
14. Respondents did not engage in, or knowingly assist, any conduct that violated 21 U.S.C. §§ 331(t), 353(e)(2)(A), or 21 C.F.R. 205.4.
15. Respondents' actions were limited to lawful pharmacy practice in Nevada and in reliance on vendor representations and past inspections that indicated no regulatory issues.

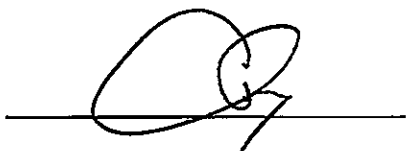
III. MITIGATION AND CORRECTIVE ACTION

16. Respondents respectfully requests that the Board consider their full cooperation with Inspector Leo Basch during the April 5, 2024, inspection, where they provided all invoices and allowed inspection of Rxeed-sourced medications without hesitation or concealment.
17. At no time did Inspector Basch instruct Respondents to cease using Rxeed or indicate that it was unlicensed. The subsequent "good inspection" report further reinforced Respondents' reasonable belief in compliance.
18. Once the Board clarified Rxeed's unlicensed status, Respondents implemented the following corrective measures:

    - Verified the licensure of every wholesaler currently doing business with the pharmacy;
    - Instituted an internal verification SOP for vendor licensing checks;
    - Educated pharmacy staff regarding Nevada wholesaler licensing requirements; and

- Documented all vendor license verifications for future Board inspection review.

19. Respondents have fully cooperated with all Board inquiries and has continued to maintain a compliant and transparent pharmacy operation since the event.



IV. CONCLUSION AND REQUEST FOR RELIEF

20. Respondents respectfully asserts that they acted in good faith, without intent to mislead or violate any law or regulation and corrected any compliance issue immediately upon notice.
21. Respondent Beaulieu's thirty-five-year record of professional service without prior discipline demonstrates his ongoing commitment to the safety and welfare of Nevada patients.
22. Respondents respectfully request that the Board dismiss all counts, or in the alternative, impose no disciplinary action in light of his cooperation, corrective action, and unblemished professional record.

V. VERIFICATION

Filed in a limited, unbundled capacity by Christopher L. Blakesley, Esq., on behalf of Respondents.

FIRST CHOICE PHARMACY, LLC, Pharmacy License No. PH04395, and NICOLE SY, RPH, Certificate of Registration No. 20646, and KIRK BEAULIEU, RPH, Certificate of Registration No. 20184,
Respondents.

ANSWER AND NOTICE OF DEFENSE:

Respondents First Choice Pharmacy, LLC, Kirk Beaulieu, RPh, and Nicole Sy, RPh, hereby submit this Answer and Notice of Defense to the *Notice of Intended Action and Accusation* filed by the Nevada State Board of Pharmacy ("Board"), and respectfully states as follows:

I. PRELIMINARY STATEMENT

1. Respondents deny each and every material allegation contained in the Notice of Intended Action and Accusation, except as expressly admitted herein.
2. Respondent Beaulieu has been a licensed pharmacist for thirty-five (35) years, maintaining licenses in Maine, New Hampshire, and Nevada without any prior disciplinary action.
3. Respondent Beaulieu has consistently conducted himself with integrity, diligence, and transparency in the practice of pharmacy, including during his employment with First Choice Pharmacy beginning December 1, 2023, where he served as Pharmacist-in-Charge ("PIC").
4. The transactions involving Rxeed referenced in the Board's allegations were pre-existing pharmacy practices that began prior to Respondent's employment. Respondents had no prior knowledge or notice that Rxeed was not licensed as a wholesaler in Nevada, and no directive or written communication from the Board, the pharmacy owners, or Rxeed indicated such status.
5. Respondents acted in good faith reliance on the pharmacy's established suppliers and on the Board's prior "good inspection" findings for the facility. At no time did he intend to violate any state or federal law or regulation.

II. RESPONSES TO SPECIFIC COUNTS

COUNT I – Unprofessional Conduct: Performing Duties in an Incompetent, Unskillful, or Negligent Manner

6. Respondents deny the allegations contained in Count I.
7. Respondent Beaulieu did not act incompetently, unskillfully, or negligently. He followed all known compliance practices and relied on prior Board inspections indicating that First Choice Pharmacy operated lawfully.
8. Upon the Board's subsequent notification that Rxeed was an unlicensed marketplace, Respondents immediately ceased all transactions with Rxeed and implemented procedures to verify all current and future wholesalers through the Nevada Board of Pharmacy's licensure database.
9. Respondents have since maintained full compliance and received a "good inspection" on February 11, 2025, from Board Inspector John Castaldo.

COUNT II – Aiding or Abetting Violation of State Law or Regulation

10. Respondents deny the allegations contained in Count II.
11. Respondents did not knowingly or intentionally aid, abet, or assist Rxeed in any unlawful activity. Rxeed the company presented itself as a licensed wholesaler with valid credentials.
12. Respondents had no constructive or actual knowledge of any unlicensed activity until receiving direct instruction from the Board in April 2024, at which point First Choice acted promptly to discontinue all Rxeed use and to verify compliance with NRS 639.239 and NAC 639.510.

COUNT III – Aiding or Abetting Violation of Federal Law or Regulation

13. Respondents deny the allegations contained in Count III.
14. Respondents did not engage in, or knowingly assist, any conduct that violated 21 U.S.C. §§ 331(t), 353(e)(2)(A), or 21 C.F.R. 205.4.
15. Respondents' actions were limited to lawful pharmacy practice in Nevada and in reliance on vendor representations and past inspections that indicated no regulatory issues.

III. MITIGATION AND CORRECTIVE ACTION

16. Respondents respectfully requests that the Board consider their full cooperation with Inspector Leo Basch during the April 5, 2024, inspection, where they provided all invoices and allowed inspection of Rxeed-sourced medications without hesitation or concealment.
17. At no time did Inspector Basch instruct Respondents to cease using Rxeed or indicate that it was unlicensed. The subsequent "good inspection" report further reinforced Respondents' reasonable belief in compliance.
18. Once the Board clarified Rxeed's unlicensed status, Respondents implemented the following corrective measures:

    - Verified the licensure of every wholesaler currently doing business with the pharmacy;
    - Instituted an internal verification SOP for vendor licensing checks;
    - Educated pharmacy staff regarding Nevada wholesaler licensing requirements; and

- Documented all vendor license verifications for future Board inspection review.

19. Respondents have fully cooperated with all Board inquiries and has continued to maintain a compliant and transparent pharmacy operation since the event.

IV. CONCLUSION AND REQUEST FOR RELIEF

20. Respondents respectfully asserts that they acted in good faith, without intent to mislead or violate any law or regulation and corrected any compliance issue immediately upon notice.
21. Respondent Beaulieu's thirty-five-year record of professional service without prior discipline demonstrates his ongoing commitment to the safety and welfare of Nevada patients.
22. Respondents respectfully request that the Board dismiss all counts, or in the alternative, impose no disciplinary action in light of his cooperation, corrective action, and unblemished professional record.

V. VERIFICATION

Filed in a limited, unbundled capacity by Christopher L. Blakesley, Esq., on behalf of Respondents.

FIRST CHOICE PHARMACY, LLC, Pharmacy License No. PH04395, and NICOLE SY, RPH, Certificate of Registration No. 20646, and KIRK BEAULIEU, RPH, Certificate of Registration No. 20184,
Respondents.

ANSWER AND NOTICE OF DEFENSE:

Respondents First Choice Pharmacy, LLC, Kirk Beaulieu, RPh, and Nicole Sy, RPh, hereby submit this Answer and Notice of Defense to the *Notice of Intended Action and Accusation* filed by the Nevada State Board of Pharmacy ("Board"), and respectfully states as follows:

I. PRELIMINARY STATEMENT

1. Respondents deny each and every material allegation contained in the Notice of Intended Action and Accusation, except as expressly admitted herein.
2. Respondent Beaulieu has been a licensed pharmacist for thirty-five (35) years, maintaining licenses in Maine, New Hampshire, and Nevada without any prior disciplinary action.
3. Respondent Beaulieu has consistently conducted himself with integrity, diligence, and transparency in the practice of pharmacy, including during his employment with First Choice Pharmacy beginning December 1, 2023, where he served as Pharmacist-in-Charge ("PIC").
4. The transactions involving Rxeed referenced in the Board's allegations were pre-existing pharmacy practices that began prior to Respondent's employment. Respondents had no prior knowledge or notice that Rxeed was not licensed as a wholesaler in Nevada, and no directive or written communication from the Board, the pharmacy owners, or Rxeed indicated such status.
5. Respondents acted in good faith reliance on the pharmacy's established suppliers and on the Board's prior "good inspection" findings for the facility. At no time did he intend to violate any state or federal law or regulation.

II. RESPONSES TO SPECIFIC COUNTS

COUNT I – Unprofessional Conduct: Performing Duties in an Incompetent, Unskillful, or Negligent Manner

6. Respondents deny the allegations contained in Count I.
7. Respondent Beaulieu did not act incompetently, unskillfully, or negligently. He followed all known compliance practices and relied on prior Board inspections indicating that First Choice Pharmacy operated lawfully.
8. Upon the Board's subsequent notification that Rxeed was an unlicensed marketplace, Respondents immediately ceased all transactions with Rxeed and implemented procedures to verify all current and future wholesalers through the Nevada Board of Pharmacy's licensure database.
9. Respondents have since maintained full compliance and received a "good inspection" on February 11, 2025, from Board Inspector John Castaldo.

COUNT II – Aiding or Abetting Violation of State Law or Regulation

10. Respondents deny the allegations contained in Count II.
11. Respondents did not knowingly or intentionally aid, abet, or assist Rxeed in any unlawful activity. Rxeed the company presented itself as a licensed wholesaler with valid credentials.
12. Respondents had no constructive or actual knowledge of any unlicensed activity until receiving direct instruction from the Board in April 2024, at which point First Choice acted promptly to discontinue all Rxeed use and to verify compliance with NRS 639.239 and NAC 639.510.

COUNT III – Aiding or Abetting Violation of Federal Law or Regulation

13. Respondents deny the allegations contained in Count III.
14. Respondents did not engage in, or knowingly assist, any conduct that violated 21 U.S.C. §§ 331(t), 353(e)(2)(A), or 21 C.F.R. 205.4.
15. Respondents' actions were limited to lawful pharmacy practice in Nevada and in reliance on vendor representations and past inspections that indicated no regulatory issues.

III. MITIGATION AND CORRECTIVE ACTION

16. Respondents respectfully requests that the Board consider their full cooperation with Inspector Leo Basch during the April 5, 2024, inspection, where they provided all invoices and allowed inspection of Rxeed-sourced medications without hesitation or concealment.
17. At no time did Inspector Basch instruct Respondents to cease using Rxeed or indicate that it was unlicensed. The subsequent "good inspection" report further reinforced Respondents' reasonable belief in compliance.
18. Once the Board clarified Rxeed's unlicensed status, Respondents implemented the following corrective measures:

    - Verified the licensure of every wholesaler currently doing business with the pharmacy;
    - Instituted an internal verification SOP for vendor licensing checks;
    - Educated pharmacy staff regarding Nevada wholesaler licensing requirements; and

- Documented all vendor license verifications for future Board inspection review.

19. Respondents have fully cooperated with all Board inquiries and has continued to maintain a compliant and transparent pharmacy operation since the event.

IV. CONCLUSION AND REQUEST FOR RELIEF

20. Respondents respectfully asserts that they acted in good faith, without intent to mislead or violate any law or regulation and corrected any compliance issue immediately upon notice.
21. Respondent Beaulieu's thirty-five-year record of professional service without prior discipline demonstrates his ongoing commitment to the safety and welfare of Nevada patients.
22. Respondents respectfully request that the Board dismiss all counts, or in the alternative, impose no disciplinary action in light of his cooperation, corrective action, and unblemished professional record.

V. VERIFICATION

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and these Respondents because at the time of the events alleged herein, Respondent Sothy Him, RPh (Him), Certificate of Registration No. 15426, was a pharmacist registered with the Board, and Respondent Walgreens Pharmacy #03842 (Walgreens #03842), Pharmacy License No. PH01249, was a pharmacy licensed by the Board.

FACTUAL ALLEGATIONS

2. Him was employed as a pharmacist of Walgreens #03842, located at 2389 E. Windmill in Las Vegas, at the time of the events alleged herein.

3. On October 19, 2024, Walgreens #03842 refilled a prescription for 30 tablets of 40 mg citalopram, an antidepressant, for patient L.F. The Walgreens pharmacy computer system designated this prescription no. 4614048.

4. Prescription no. 4614048 was prepared using a dispensing machine. After the vial was filled, Him verified prescription no. 4614048 through a visual inspection. Him did not document any problems with prescription no. 4614048.

5. Patient L.F. picked up prescription no. 4614048 on October 20, 2024 from Walgreens #03842.

6. After taking 23 tablets of the medication in prescription no. 4614048, patient L.F. experienced several adverse symptoms, including lightheadedness, dizziness, and weakness. She also felt her depression worsen and had suicidal thoughts. She reported these symptoms to her doctor.

7. At the direction of her doctor, patient L.F. visually inspected her remaining medication and discovered that the citalopram tablets were mixed with other slightly larger white tablets that were later identified as carvedilol, a medication used to treat high blood pressure and heart failure. Of the seven remaining tablets, five were citalopram and two were carvedilol.

8. Patient L.F. called Walgreens #03842 to report the misfill. The pharmacist on duty at the time of the call, Christine Quimbly (Quimbly), conducted an inspection of the dispensing machine. Quimbly found one tablet of carvedilol 25mg in the citalopram 40mg cell of the dispensing machine.

9. In February 2006, the Board disciplined Respondent Walgreens #03842 for a misfill, resulting in a $500 fine.

10. In August 2009, the Board disciplined Respondent Walgreens #03842 for a misfill, resulting in a letter of concern.

11. In June 2023, the Board disciplined Respondent Walgreens #03842 for dispensing a discontinued prescription medication, resulting in a $10,000 fine.

12. In January 2003, the Board disciplined Respondent Him for a misfill, resulting in a $100 fine.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, by and through counsel, Laura M. Tucker, Esq., and Walgreens Pharmacy #03842, Pharmacy License No. PH01249, ("Respondent"), by and through counsel, William J. Stilling, Esq., hereby stipulate and agree as follows:

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent and this matter.

2. The Board's staff properly served Respondent with the Notice of Intended Action and Accusation ("Accusation") on file in this matter, together with the Statement to Respondent and Notice of Hearing.

3. The Board and Respondent agreed to delay the date for submitting a Notice of Answer and Defense as the parties pursued settlement negotiations.

4. Respondent acknowledges that it understands the terms of this Stipulation and Proposed Order ("Stipulation"), and that it has executed it knowingly and voluntarily.

5. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration of a Board determination in a contested case, the right to appeal a Board determination in a contested case, and all other rights afforded to Respondent under NRS Chapter 233B, the Nevada Administrative Procedure Act, NRS Chapter 622A, which governs administrative

6. Conditioned on the acceptance of this Stipulation by the Board, and excluding the right to challenge any determination that Respondent has failed to comply with the provisions of this Stipulation, Respondent hereby freely and voluntarily waives its right to a hearing, reconsideration, appeal, and other rights related to this action as identified above.

7. Respondent admits that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the violations alleged in Count Two of the Accusation.

8. Now, therefore, to resolve this matter without incurring any further costs or the expenses associated with a hearing, the Board and Respondent agree to the imposition of the following penalties:

A. However, Respondent understands and acknowledges that its failure to comply with the terms stated herein may result in issuance by the Executive Secretary of an order to show cause, pursuant to NAC 639.965, directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation by Respondent, the Board may impose additional discipline not inconsistent with the provisions of NRS Chapter 639.

10. The Board's General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on December 3, 2025, in Las Vegas, Nevada. NEVADA STATE BOARD OF PHARMACY, Petitioner, GARY ROYCE WISNER, M.D., Certificate of Registration No. CS28822, Respondent.	Case No.: 22-423-CS-N

MOTION FOR RECONSIDERATION OF DISCIPLINARY ACTION AGAINST DR. GARY WISNER'S CONTROLLED SUBSTANCE REGISTRATION AND REQUEST TO APPEAR BEFORE THE BOARD

COMES NOW, Respondent Gary Royce Wisner, M.D., by and through his counsel Jessica R. Gandy, Esq. of the law firm of Hutchison & Steffen PLLC, and hereby petitions the Nevada State Board of Pharmacy ("Board of Pharmacy") for reconsideration of the five-year suspension of Dr. Wisner's Controlled Substance Registration. This Motion is made based on the following Memorandum of Points and Authorities and any oral argument that the Board may permit at the time of the hearing of this matter, if any.

I. INTRODUCTION

On April 12, 2023, in the case of Nevada State Board of Pharmacy v. Gary Wisner, M.D., Case No. 22-423-CS-N, the Board of Pharmacy filed its Findings of Fact, Conclusions of Law and Order which states on Page 3, in pertinent part, as follows:

> 3. Pursuant to NRS 622A.410(1) and 639.257(1), Respondent may not petition for reinstatement of his certificate of registration for a period of five (5) years from the effective date of this Order.
>
> 4. In the event Respondent applies for reinstatement of his certificate of registration, or applies for any other certificate, license or permit with the Board, he shall appear before the Board to answer questions and give testimony regarding the application, compliance

with this Order, and the facts and circumstances underlying this matter.

Dr. Wisner asserts that this finding was made in violation of his due process rights and the Board should reconsider the action in light of all available information, including, but not limited to:

1. Dr. Wisner has retained his Nevada medical license. Pursuant to his Settlement Agreement with the Nevada Board of Medical Examiners, his license was suspended for one (1) year, followed by a term of probation. Dr. Wisner asserts that this disciplinary action should be persuasive to the Board.

2. Dr. Wisner has complied with the terms and conditions of the Settlement Agreement entered into with the Nevada State Board of Medical Examiners on June 7, 2024, because Dr. Wisner has:

a. Completed the University of San Diego, Physician Assessment and Competency Evaluation Program (PACE), Competency Assessment to the satisfaction of the Nevada State Board of Medical Examiners;

b. Paid the costs and expenses incurred in the investigation and prosecution by the Nevada State Board of Medical Examiners;

b. Paid the fine totaling $5,000; and

c. Completed the one (1) year suspension period.

Effective on June 7, 2025, Dr. Wisner's suspension was lifted and his status was changed to a two (2) year probation period.

3. Dr. Wisner acknowledges the criminal conviction and does not contest the facts related to the violations alleged in the Accusation. Dr. Wisner stands before the Board recognizing the conviction without admitting wrongdoing. As a physician and prescriber of medication, Dr.

Wisner understands his role in overseeing his office.

4. This has been a very humbling experience for Dr. Wisner which has driven home the fact that treating and caring for patients, to include prescribing medication, is a privilege and not a right. Dr. Wisner appreciates that he let his patients down, he let his profession down, and he let the Board of Pharmacy down because of the trust they placed in him. He wants to move forward

5. The Board of Pharmacy can rest assured that Dr. Wisner is committed to maintaining the highest prescribing standards from this point forward if this Petition for Reinstatement of his Controlled Substances Registration is granted.

II. PROCEDURAL HISTORY

A. Nevada State Board of Pharmacy Proceeding

On April 12, 2023, Case No. 22-423-CS-N came before the Nevada State Board of Pharmacy at its regularly scheduled meeting. Dr. Wisner did not appear at the meeting as he was still incarcerated at a California county jail at that time. The Board revoked Dr. Wisner's certificate of registration for a period of five (5) years. *See* **Exhibit A.**

Notably, the Complaint in this matter was filed in March 2023, approximately 30 days prior to the Board meeting wherein the matter was heard. The Board served the documents upon Dr. Wisner's home address while acutely aware that he was incarcerated and unable to appear. This is made clear by the attachment to the Board's Complaint showing that Dr. Wisner had been sentenced to a period of two (2) years of incarceration beginning in September 2022 – only six months prior to the Complaint and Notice of Hearing were sent to Dr. Wisner.

B. Drug Enforcement Administration

On December 7, 2023, Dr. Wisner's DEA Certificate of Registration was revoked due to the Nevada Board of Pharmacy's action. *See* **Exhibit B.**

C. Nevada State Board of Medical Examiners Proceeding

After a full evaluation of all the facts and circumstances regarding the California investigation, trial, and conviction, the Nevada Board of Medical Examiners, the Board that controls Dr. Wisner's license to practice medicine, offered Dr. Wisner the ability to enter into a Settlement Agreement. Notably, there were several phases to this process with the formal Complaint being sent *months* after the notice of investigation, and both of which were done *after* Dr. Wisner was released from custody.

Dr. Wisner entered into a Settlement Agreement with the Nevada State Board of Medical Examiners on June 7, 2024. *See* **Exhibit C.** In this agreement, Dr. Wisner admitted to one (1) violation of NRS 630.301(3), Disciplinary Action by Another State Medical Board. Dr. Wisner agreed to pay the costs and expenses incurred during the investigation and prosecution of the matter, to pay a fine of $5,000, and to complete a competency course approved by the Board pursuant to NRS 630.352. The Board suspended Dr. Wisner's Medical License for one (1) year, followed by two (2) years of probation. The first year of probation requires 25% of Dr. Wisner's patient charts to be monitored on a monthly basis, and the second year of probation requires 10% of Dr. Wisner's patient charts to be monitored.

III. BRIEF STATEMENT OF FACTS

Dr. Wisner is a licensed medical doctor pursuant to Nevada Revised Statute and Nevada Administrative Code Chapter 636; Dr. Wisner is also licensed to practice in Alabama[1] and has previously held a license to practice in other states. *See* **Exhibits D** and **E.** He was initially licensed

[1] Alabama issues licenses for no more than 12 months at a time. Dr. Wisner holds the maximum term of active license renewal allowed. Additionally, Dr. Wisner's Controlled Substances Registration Certificate through the Alabama State Board of Medical Examiners is also renewed for the maximum one year term.

on or about October 1, 1984 in the State of California. Immediately following residency in orthopedic surgery in 1988, he opened an office in Lodi, California where he served his community by providing services relating to general orthopedics, spine, trauma, hand, sports, foot and ankle, joint, pediatric, occupational, non-operative orthopedic, and non-narcotic chronic pain management. Dr. Wisner was Board Certified in 1990. In 1993, Dr. Wisner began a two-year fellowship in spinal surgery to further expand his practice and serve his community. He returned to his clinical practice in California in January 1996, where he continued to practice until June 16, 2022.

During this same period of time, Dr. Wisner was an active member of the physician community at Lodi Memorial Hospital. He served as the Chief of Surgery in 2003 and 2004. He served on the Bylaws Committee in 1992 – 1993, 1997 – 2007. He also served on the Credentialing Committee 1990 – 1993 and 1997 – 2007 as well as several other committees during his tenure at that hospital. Dr. Wisner obtained his Nevada medical license with the intention of establishing a practice in Northern Nevada; however, the Covid-19 pandemic thwarted those plans.

From the time Dr. Wisner obtained his license to practice medicine in 1989 until he resigned his practice in 2022, his license was unblemished. He was not subject to any disciplinary actions by any medical Board, attached hereto as **Exhibit F**. Dr. Wisner estimates that he provided care and treatment to nearly 30,000 patients during his practice.

A. <u>Criminal Investigation and Conviction</u>

On or about July 9, 2018, the California Attorney General filed Complaint 18FE013037 in the Superior Court of the State of California, County of Sacramento, attached hereto as **Exhibit G.** The Complaint alleged ten counts of Felony Health Insurance Fraud stemming from the care and treatment of ten (10) individual patients. *Id.* None of the charges were related to prescribing

medication. The Counts spanned a non-consecutive time frame from January 2013 – December 2016. *Id.* The Complaint was general in nature and alleged healthcare fraud relating to these ten patients without any specificity as to the scope or value of the alleged fraud.

On or about June 16, 2022, after a nine day jury trial, the jury found Dr. Wisner guilty of each of the ten counts. The jury recommended the minimum sentence for each charge and did not include a calculation of damages. *See Guilty Verdict & Sentencing also attached as* **Exhibit G.** Dr. Wisner was subsequently sentenced to a total term of two years in county jail (less one day for time served). The parties subsequently stipulated that restitution for *all counts* would be calculated as $35,200.00. *See* **Exhibit H.** That restitution has been paid. Dr. Wisner was released from county jail on September 2, 2023 and continues to be in good standing in his community.

Notably, Dr. Wisner's medical license was not suspended or otherwise restricted until the time of his conviction. He continued to practice in California without restriction until June 16, 2022.

B. <u>California Medical Board Actions</u>

At the same time as the criminal Complaint was filed, the California Medical Board filed an Accusation based upon the same facts for nine of the ten patients identified in the Complaint, attached hereto as **Exhibit H.** Like the criminal Complaint, the Accusation did not include a calculation of damages, nor did it allege that *all* care and treatment provided by Dr. Wisner was fraudulent. Rather, it alleged that Dr. Wisner "obtained excessive, non-medically necessary and repeated x-rays" without sufficient documentation. *Id.*

The California Medical Board did not independently prosecute its case. Instead, the matter continued without further action until several months after the criminal conviction was entered. *Id.* In or about December 2022, Dr. Wisner, represented by counsel negotiated the surrender of his

California Medical License. In the terms of that surrender, Dr. Wisner does not admit to any of the allegations contained therein. *Id.*

C. Nevada State Board of Pharmacy Action

On March 3, 2023 the Board sent Dr. Wisner an Allegation relating to his California criminal conviction, which was received on March 10. On March 14, the Board sent a Notice of Hearing indicating that Dr. Wisner's matter would be heard on April 12; this was received on March 16. On April 12, 2023, the Nevada State Board of Pharmacy revoked Dr. Wisner's certificate of registration for a period of five (5) years. *See* **Exhibit A.** Notably this hearing and revocation was only 32 days after the Allegation was delivered to Dr. Wisner's home address.

D. Nevada State Board of Medical Examiners Action

On June 7, 2024, Dr. Wisner entered into a Settlement with the Nevada Board of Medical Examiners. The terms of the Agreement included one (1) year of suspension, completion of the San Diego PACE program, two (2) years of probation with chart monitoring, CME completion, and payment of fines and fees. On June 9, 2025, the Nevada State Board of Medical Examiners changed Dr. Wisner's medical license status from Suspended to Active-Probation. *See* **Exhibit I.** He currently has an active licensure through June 30, 2027. *See* **Exhibit J.**

Since June 2025, Dr. Wisner has been practicing medicine in Nye County as part of a medical group. Chart monitoring is completed on a monthly basis and he is consistently found to be in compliance with all terms and conditions, including the limitations on his prescribing given the suspension of his pharmacy license.

IV. LAW

NRS 639.243 requires that the Board allow 20 days for Response after it has served an accusation on a licensee. NRS 639.2445 states that *whenever a hearing has been granted by the*

Board the Executive Secretary shall serve notice on the respondent of the time and place for the hearing. NRS 241.0333 indicates this Notice must be sent no less than 14 days before the hearing.

Service of both the Accusation and the Notice of Hearing is to be served on the respondent by registered or first class mail at his last address of record, or by mail to his or her attorney of record.

V. REASONS WHY RECONSIDERATION IS JUSTIFIED

A. The Board's Actions have Deprived Dr. Wisner of his Due Process Rights Under the Nevada Constitution

The Nevada Constitution requires that "[n]o person shall be deprived of life, liberty, or property, without due process of law." Nev. Const. art. 1, § 8(5). The adjudication of formal disciplinary proceedings against a professional licensee implicates due process protections. *Sarfo v. Bd. of Med. Examiners*, 134 Nev. 709, 712, 429 P.3d 650, 653 (2018) (citing *Hernandez v. Bennett-Haron*, 128 Nev. 580, 591-593, 287 P.3d 305, 313-314 (2012)).

An agency's occupational license revocation proceeding is deserving of due process through the preponderance of the evidence standard. *Nassiri*, at 251, 491. There, Court stated that "the license at issue can be no less deserving of due process than the one at issue in [in another matter] because, [the Nevada Supreme Court] approved of the use of the minimum civil standard of proof. There is no lower standard." *Id.* (internal citations omitted). "If there were a lower standard, it would be nonsensical; it would allow a tribunal to reach a conclusion even after reasoning that the conclusion is more likely to be incorrect than it is to be correct." *Id.* at n.3. Thus, while an administrative proceeding is held to the *lowest evidentiary standard*, it is still required to meet that standard. That is, the finder of fact must determine that the preponderance of the admitted evidence and testimony supports each and every finding.

The *Nassiri* Court went on to cite the Fourth Circuit Court of Appeals case *United States Steel Mining Co* to "clarify[] that, 'to prove by a preponderance of the evidence each element of a claim before an administrative agency, the claimant must present reliable, probative, and substantial evidence of such sufficient quality and quantity that a reasonable [administrative fact-finder] could conclude that the existence of the facts supporting the claim are more probable than their nonexistence.'" *Id.* at 552, 491 (citing *United States Steel Mining Co.*, 187 F.3d 384, 389 (1999)).

Here, at the time of the Accusation and Notice of Hearing Dr. Wisner was serving the sentence for the criminal conviction and was unable to appear before the Board. It is important to note that the Board was ***aware*** of Dr. Wisner's conviction and in-custody status. The Board attached the sentencing documents, which explicitly stated that Dr. Wisner would be incarcerated for a term of two years, less one day credit for time served, to its Complaint. At the formal hearing, the only evidence presented was that of the administrative staff that testified the Complaint and Notice of Hearing were sent to the address on file for Dr. Wisner. It stands to reason that the address would be that where Dr. Wisner's mail was being collected during his incarceration, and certainly not an address where Dr. Wisner could be reliably reached. The Board, knowing full well that Dr. Wisner was incarcerated, made no effort to reach out to Dr. Wisner or the attorney who represented him before the California Board or the California criminal court to determine his availability or whether he would be responding to the Board's charges, the name and contact information of whom was prominent on the documents the Board used to present its case in chief. Dr. Wisner asserts that this is a violation of his due process rights under the Nevada and United States Constitution.

The Accusation and Notice of Hearing were sent to Dr. Wisner's home address, where the

Board knew he was not residing, a mere 4 days apart. Even if Dr. Wisner had been aware of the Accusation, given his in-custody status he could not reasonably be expected to respond to the Accusation and Notice of Hearing within the time frame afforded.

To be clear, from the date of the Accusation to the date of Dr. Wisner's license revocation, only 32 days elapsed. On its face, this is contrary to the plan language of the NRS which requires 20 days for response to the allegation and 14 days Notice of Hearing (a minimum total 34 of days). The NRS provisions do not indicate that the two documents can be sent out simultaneously, as doing so ostensibly deprives a licensee of due process and the ability to respond.

Moreover, as the Board was aware of Dr. Wisner's status, it was also aware that Dr. Wisner could not reach out to the Board in such a short time frame to request a continuance or make any other efforts to advocate on his own behalf. Once again, this is a violation of his due process rights.

It appears that the Board was pushing this matter through because its scheduled meeting was coming up and the Board wanted this matter to be resolved. Despite full knowledge of Dr. Wisner's status, there was no effort to provide him with an opportunity to respond in any meaningful way. Here again, it stands to reason that while the Board claims it followed the *letter* of the law in delivering the documents to Dr. Wisner's address of record, it failed to follow the *spirit* of due process in delivering documents and a notice of hearing to an address where it was acutely aware Dr. Wisner was not.

B. <u>The Nevada State Board of Pharmacy Made their Determination Without the Benefit of all Relevant Information</u>

When the Nevada State Board of Pharmacy made its determination, it did so without the benefit of all relevant information. To be clear, there is no indication that the Board was under any

requirement to act on this Allegation immediately. The conviction and incarceration had been a matter of public record for nearly six months. The Board had no reason to believe Dr. Wisner was actively harming anyone by virtue of his Nevada Pharmacy License; to the contrary, the Board knew that Dr. Wisner ***was not*** using his Pharmacy License. There was no reason to take immediate action on a matter that could have remained pending until Dr. Wisner's release, or at the very least, until such time as the Board was able to affirmatively make contact with Dr. Wisner and not just an individual living at his last known address.

Beyond this, the criminal charges and subsequent convictions were unrelated to prescribing. The charges were relating to an alleged overuse of x-rays and financial impropriety related to the same. Dr. Wisner has always followed the standard of care regarding the care of his patients and their prescription medications. He understands the importance of appropriate prescriptions used in conjunction with the care and treatment of patients is what contributes to their overall health, wellbeing, and recovery.

When the Nevada State Board of Medical Examiners determined the terms of the Settlement Agreement, they had the benefit of letters of recommendation written by Dr. Wisner's colleagues. Dr. Wisner would like to provide these same letters of recommendation for the Nevada State Board of Pharmacy to consider as part of this Petition. *See* **Exhibits K** and **L**.

C. Dr. Wisner has Fully Complied with the Settlement Agreement Entered Into with the Nevada State Board of Medical Examiners

In compliance with the Settlement Agreement entered into with the Nevada State Board of Medical Examiners on June 7, 2024, Dr. Wisner has (1) Completed the University of San Diego, Physician Assessment and Competency Evaluation Program (PACE), Competency Assessment to the satisfaction of the Nevada State Board of Medical Examiners; (2) Paid the costs and expenses

incurred in the investigation and prosecution by the Nevada State Board of Medical Examiners; (3) Paid the fine totaling $5,000; and (4) Completed the one (1) year suspension period.

1. PACE Program

Pursuant to the Settlement Agreement with the Nevada State Board of Medical Examiners, Dr. Wisner attended the Physician Assessment and Clinical Education (PACE) Program at the University of California San Diego School of Medicine. *See* **Exhibit M.**

The PACE Program was of great benefit to Dr. Wisner as he was required to conduct a thorough self-assessment and reflect on how he could improve as a physician. This included reflection on safe prescribing practices. Dr. Wisner has long been a proponent of safe prescribing practices and has long counseled colleagues on the importance of avoiding or minimizing the use of addictive prescriptions.

As a result of the PACE Program, Dr. Wisner's patient assessment skills have improved and he is able to develop a broader range of differential diagnoses for clinical scenarios with the information he has learned. Dr. Wisner is now also able to conduct a more thorough workup regarding a patient's condition.

2. University of Nevada, Reno School of Medicine "Best Practices and Tools for Prescribing Controlled Substances" Course

Dr. Wisner also attended the "Best Practices and Tools for Prescribing Controlled Substances" course at the University of Nevada, Reno School of Medicine. This course taught Dr. Wisner how to prescribe controlled substances safely and helped him recognize substance abuse and patients who are at risk. This course also taught Dr. Wisner to recognize his own personal characteristics which negatively impacted his past practices.

This course helped change Dr. Wisner's perspective and he now realized there are many

alternatives to prescribing opioid medications when patients are experiencing pain and that he must be mindful of the combinations of drugs one prescribes, since these can have addictive effects and be harmful.

D. The Nevada State Board of Medical Examiners Implemented a One (1) Year Suspension with Two (2) Years of Probation

After a full review of the relevant facts and applicable law, the Nevada State Board of Medical Examiners implemented a one (1) year suspension followed by two years of probation. The first year of the Probation Period requires 25% of patient charts be monitored on a monthly basis, and the monitor must report monthly directly to the Board. The second year of the Probation Period requires 10% of patient charts be monitored on a monthly basis, and the monitor must report monthly directly to the Board.

Dr. Wisner is currently in his first year of probation under the Nevada State Board of Medical Examiners.

E. Dr. Wisner Acknowledges his Criminal Conviction

Dr.. Wisner acknowledges the criminal conviction and does not contest the facts related to the violations alleged in the Accusation. Dr. Wisner stands before the Board recognizing the conviction without admitting wrongdoing. As a physician and prescriber of medication, Dr. Wisner understands his role in overseeing his office.

F. Dr. Wisner Appreciates That Practicing Medicine and Prescribing Medications is a Privilege and Not a Right

This has been a very humbling experience for Dr Wisner which has driven home the fact that practicing medicine and prescribing medication is a privilege and not a right. Dr. Wisner appreciates that he let his patients down, he let his profession down, and he let the Board of

Pharmacy down because of the trust they placed in him.

G. Dr. Wisner is Currently Serving the Nevada Community in Pahrump

Dr. Wisner had originally applied for his Nevada Medical license in order to move to Northern Nevada, but was unable to do so due to the COVID-19 Pandemic. Dr. Wisner has been eager to move to Nevada and serve rural members of our community. Dr. Wisner currently resides and practices in Pahrump, Nevada serving the communities medical needs. His intention has always been to give back to a community in need and serving in a rural area in need of medical practitioners. As you are aware, there are a limited number of providers serving in Nevada's rural counties, especially within the orthopedic specialty. Dr. Wisner's current practice, and the level of care he can provide his patients, is limited due to the suspension of his Controlled Substance Registration. Ultimately, it is the community members who suffer the most from the current restriction.

H. Commitment to Maintaining the Highest Standards

Dr. Wisner has never been accused or charged with any charges relating to addiction or overprescribing. Dr. Wisner is committed to maintaining the highest standards within his practice and ensuring his patients receive the appropriate and necessary prescriptions as part of their medical treatment.

The Nevada State Board of Pharmacy can rest assured that Dr. Wisner's commitment to maintaining the highest prescribing standards from this point forward if his Petition for Reinstatement of his Controlled Substance Registration is approved.

I. Dr. Wisner Proposes an Alternate Suspension Term

Dr. Wisner would encourage the Board to reconsider the five-year disciplinary sentence and either reinstate his license with "time served" or consider a probationary period similar to the

one implemented by the Nevada State Medical Board. This would allow the Board of Pharmacy oversight of Dr. Wisner for the duration of the original suspension period and would allow Dr. Wisner to fully serve the Pahrump community. Changing the Board of Pharmacy's suspension term to mirror the Nevada State Board of Medical Examiners' suspension terms would be in line with the interests of justice, the benefit of our Nevada community, and the mission and oversight purpose of the Board of Pharmacy.

VI. CONCLUSION

Dr. Wisner respectfully requests that the Board reconsider the disciplinary action which was undertaken in violation of due process and reinstate his Controlled Substances Registration fully, or in the alternative, reinstate his Controlled Substances Registration to Active-Probation for a probationary period to mirror the one imposed by Nevada State Board of Medical Examiners.

UNITED STATES DEPARTMENT OF JUSTICE
DRUG ENFORCEMENT ADMINISTRATION

GARY R. WISNER, M.D.
DECISION AND ORDER

On March 1, 2023, the Drug Enforcement Administration (DEA or Government) issued an Order to Show Cause (OSC) to Gary R. Wisner, M.D. (Registrant). Request for Final Agency Action (RFAA), Exhibit (RFAAX) 1, at 1, 3. The OSC proposed the revocation of Registrant's Certificates of Registration (COR) Nos. FW8432471 and AW2971073 at the registered addresses of 621 S. Ham Ln., Ste. A, Lodi, California 95242, and 16246 N. Locust Tree Road, Lodi, California 95240, respectively. *Id.* at 1. The OSC alleged that Registrant's registrations should be revoked because Registrant was "without authority to prescribe, administer, dispense, or otherwise handle controlled substances in the State of California, the state in which [he is] registered with DEA." *Id.* at 2 (citing, *inter alia*, 21 U.S.C. § 824(a)(3); 21 C.F.R. § 1301.37(b)).

The OSC notified Registrant of his right to file with DEA a written request for hearing, and that if he failed to file such a request, he would be deemed to be in default. *Id.* at 2 (citing 21 C.F.R. § 1301.43(c)(1)). Here, Registrant did not request a hearing. RFAA, at 1.[1] "A default, unless excused, shall be deemed to constitute a waiver of the [registrant's] right to a hearing and an admission of the factual allegations of the [OSC]." 21 C.F.R. § 1301.43(e).

Further, "[i]n the event that a registrant . . . is deemed to be in default . . . DEA may then file a request for final agency action with the Administrator, along with a record to support its

[1] Based on the Government's submissions in its RFAA dated August 3, 2023, the Agency finds that service of the OSC on Registrant was adequate. Specifically, the included declaration by a DEA Diversion Investigator (DI) indicates that on March 13, 2023, the DI personally "served [Respondent] a copy of the [OSC] by hand delivery." RFAAX 2, at 1.

request. In such circumstances, the Administrator may enter a default final order pursuant to [21 C.F.R.] § 1316.67." *Id.* § 1301.43(f)(1). Here, the Government has requested final agency action based on Registrant's default pursuant to 21 C.F.R. §§ 1301.43(c), (f), and 1301.46. RFAA, at 1.

FINDINGS OF FACT

The Agency finds that, in light of Registrant's default, the factual allegations in the OSC are admitted. According to the OSC, "[e]ffective January 30, 2023, as part of an agreement with the [Medical Board of California] . . . [Registrant] surrendered [his] license to practice medicine in the State of California." RFAAX 1, at 1-2.

According to California's online records, of which the Agency takes official notice, the status of Registrant's physician and surgeon license (type A) is listed as surrendered, and he is not permitted to practice.[2] California Department of Consumer Affairs, License Search, https://search.dca.ca.gov/ (last visited date of signature of this Order). Therefore, the Agency finds that Registrant is not currently authorized to dispense or handle controlled substances in California, the state in which he is registered with DEA.

DISCUSSION

Pursuant to 21 U.S.C. § 824(a)(3), the Attorney General is authorized to suspend or revoke a registration issued under 21 U.S.C. § 823 "upon a finding that the registrant . . . has had

[2] Under the Administrative Procedure Act, an agency "may take official notice of facts at any stage in a proceeding – even in the final decision." United States Department of Justice, Attorney General's Manual on the Administrative Procedure Act 80 (1947) (Wm. W. Gaunt & Sons, Inc., Reprint 1979). Pursuant to 5 U.S.C. § 556(e), "[w]hen an agency decision rests on official notice of a material fact not appearing in the evidence in the record, a party is entitled, on timely request, to an opportunity to show the contrary." Accordingly, Registrant may dispute the Agency's finding by filing a properly supported motion for reconsideration of findings of fact within fifteen calendar days of the date of this Order. Any such motion and response shall be filed and served by e-mail to the other party and to the DEA Office of the Administrator, Drug Enforcement Administration at dea.addo.attorneys@dea.gov.

his State license or registration suspended . . . [or] revoked . . . by competent State authority and is no longer authorized by State law to engage in the . . . dispensing of controlled substances." With respect to a practitioner, DEA has also long held that the possession of authority to dispense controlled substances under the laws of the state in which a practitioner engages in professional practice is a fundamental condition for obtaining and maintaining a practitioner's registration. *See, e.g., James L. Hooper, D.O.*, 76 Fed. Reg. 71,371, 71,372 (2011), *pet. for rev. denied*, 481 F. App'x 826 (4th Cir. 2012); *Frederick Marsh Blanton, D.O.*, 43 Fed. Reg. 27,616, 27,617 (1978).[3]

According to California statute and relevant to Registrant's COR, "[n]o person other than a physician . . . shall write or issue a prescription."[4] Cal. Health & Safety Code § 11150. Further, "physician," as defined by California statute, is a person who is "licensed to practice" in California. *Id.* § 11024.

Here, the evidence in the record is that Registrant currently lacks authority to handle controlled substances in California because his California physician and surgeon license has been surrendered. As already discussed, a person must hold a valid license to dispense a controlled substance in California. Thus, because Registrant lacks authority to handle controlled substances

[3] This rule derives from the text of two provisions of the Controlled Substances Act. First, Congress defined the term "practitioner" to mean "a physician . . . or other person licensed, registered, or otherwise permitted, by . . . the jurisdiction in which he practices . . ., to distribute, dispense, . . . [or] administer . . . a controlled substance in the course of professional practice." 21 U.S.C. § 802(21). Second, in setting the requirements for obtaining a practitioner's registration, Congress directed that "[t]he Attorney General shall register practitioners . . . if the applicant is authorized to dispense . . . controlled substances under the laws of the State in which he practices." 21 U.S.C. § 823(g)(1). Because Congress has clearly mandated that a practitioner possess state authority in order to be deemed a practitioner under the CSA, DEA has held repeatedly that revocation of a practitioner's registration is the appropriate sanction whenever he is no longer authorized to dispense controlled substances under the laws of the state in which he practices. *See, e.g., James L. Hooper*, 76 Fed. Reg. at 71,371-72; *Sheran Arden Yeates, D.O.*, 71 Fed. Reg. 39,130, 39,131 (2006); *Dominick A. Ricci, D.O.*, 58 Fed. Reg. 51,104, 51,105 (1993); *Bobby Watts, D.O.*, 53 Fed. Reg. 11,919, 11,920 (1988); *Frederick Marsh Blanton*, 43 Fed. Reg. at 27,617.

[4] Although additional specified categories of persons are permitted to write or issue prescriptions, none of those practitioner categories are applicable to Registrant.

in California, Registrant is not eligible to maintain a DEA registration. Accordingly, the Agency will order that Registrant's DEA registrations be revoked.

ORDER

Pursuant to 28 C.F.R. § 0.100(b) and the authority vested in me by 21 U.S.C. § 824(a), I hereby revoke DEA Certificates of Registration Nos. FW8432471 and AW2971073 issued to Gary R. Wisner, M.D. Further, pursuant to 28 C.F.R. § 0.100(b) and the authority vested in me by 21 U.S.C. § 823(g)(1), I hereby deny any pending applications of Gary R. Wisner, M.D., to renew or modify these registrations, as well as any other pending application of Gary R. Wisner, M.D., for additional registration in California. 7. **Procedure for Adoption of Agreement**. Failure to comply with the terms of this Agreement, including failure to pay any fines, costs, expenses or fees owed to the Board, is a failure to comply with an order of the Board, which may result in additional disciplinary action being taken against Respondent. ALABAMA STATE BOARD OF MEDICAL EXAMINERS, **Complainant,** **vs.** **GARY ROYCE WISNER, M.D.,** **Respondent.**	**BEFORE THE MEDICAL LICENSURE COMMISSION OF ALABAMA** **CASE NO. 2018-155**

CONSENT DECREE

This matter comes before the Medical Licensure Commission of Alabama (the "Commission") on the Administrative Complaint filed by the Alabama State Board of Medical Examiners (the "Board") on May 8, 2023. The Board and the Respondent, Gary Royce Wisner, M.D. ("Respondent"), have entered into a Joint Settlement Agreement (the "Settlement Agreement"), and have asked the Commission to approve the Settlement Agreement and to embody it in this Consent Decree.

General Provisions

1. **Protection of the Public.** The Board has stipulated and agreed that the terms and conditions of the Settlement Agreement and of this Consent Decree constitute a reasonable disposition of the matters asserted in the Administrative Complaint, and that such disposition adequately protects the public's health and

safety. After review, the Commission also finds that this Consent Decree is a reasonable and appropriate disposition of the matters asserted in the Administrative Complaint, and that the provisions of this Consent Decree will adequately protect the public safety. The Commission therefore approves the Settlement Agreement.

2. **Mutual Agreement and Waiver of Rights.** Respondent has consented and agreed to the entry of this Consent Decree, and has agreed to be bound by the findings of fact, conclusions of law, and terms and conditions stated herein. Respondent has validly waived his rights to an administrative hearing before the Commission, to be represented by an attorney at such hearing, and to further notice and formal adjudication by the Commission of the charges arising from the Administrative Complaint. Respondent has also validly waived any and all rights to judicial review of this Consent Decree pursuant to Ala. Code § 34-24-367, the Alabama Administrative Procedure Act, Ala. Code §§ 41-22-1, *et seq*., by extraordinary writ, or otherwise. If this Consent Decree imposes any term of probation and/or restrictions on Respondent's license to practice medicine in Alabama, then Respondent acknowledges that such term of probation and/or restrictions are mutually negotiated and bargained-for terms, and Respondent waives any right to apply to the Commission for modification of those terms and any right to a hearing under Ala. Code § 34-24-361(h)(9).

3. **Public Documents.** The Settlement Agreement and this Consent Decree shall constitute public records under the laws of the State of Alabama. The Settlement Agreement and this Consent Decree will be reported by the Board and/or the Commission to the Federal National Practitioner Data Bank ("NPDB") and the Federation of State Medical Boards' ("FSMB") disciplinary data bank. The Settlement Agreement and this Consent Decree may otherwise be published or disclosed by the Board and/or the Commission without further notice to Respondent.

4. **Additional Violations.** Any violation of the requirements of this Consent Decree, or any new violation of state or federal laws or regulations, may result in the Board filing a petition to discipline Respondent's medical license. Nothing in this Consent Decree precludes the Board from bringing new administrative charges against Respondent based upon events and circumstances not raised in the Administrative Complaint.

5. **Retention of Jurisdiction.** The Commission retains jurisdiction for the purpose of entering such other and further orders and directives as may be required to implement the provisions of this Consent Decree.

6. **Judicial Notice.** Pursuant to Ala. Code § 41-22-13(4), Respondent is informed that the Board and/or the Commission may at any time take judicial notice of this Consent Decree, and/or any of the Findings of Fact herein, and may deem any

of the findings or conclusions set forth in this Consent Decree to be conclusively established, all without further notice to Respondent.

Findings of Fact

1. Respondent has been licensed to practice medicine in the State of Alabama since April 29, 1996, having been issued license no. MD.19841. Respondent was so licensed at all relevant times.

2. On or about June 13, 2018, the Board received correspondence from Respondent stating that he was scheduled to be arrested in San Joaquin County, California on September 12, 2018, for four felonies related to his treatment of worker's compensation patients from four specific insurance companies in California. He further stated that he only practiced medicine in California despite being licensed in four other states, including Alabama.

3. About a month later, on July 17, 2018, the Board received a second letter from Respondent stating that he was scheduled to be "booked and released at the Sacramento jail on July 14, 2018, for Medi-Cal billing fraud related charges to ten felonies." He explained these charges were related to the four previously-described worker's compensation billing fraud charges that he disclosed to the Board in June 2018.

4. On or about June 18, 2022, the Board received correspondence from Respondent stating that he was convicted on June 16, 2022, of ten felony counts

related to billing fraud against Medi-Cal and Medicare. He stated that he was no longer treating patients at his clinic in California, which was closed, and requested to retain his Alabama medical license.

5. On or about November 4, 2022, the Board received correspondence from Respondent informing the Board of the automatic suspension of his California medical license.

6. Respondent emailed the Alabama Medical Licensure Commission on December 16, 2022, notifying the Commission of his sentencing in Sacramento County, California. Respondent informed the Commission that he was then incarcerated, but was scheduled to be released in September of 2023. He further stated that he pleaded guilty to four counts of worker's compensation billing fraud in San Joaquin County, California, and that his sentences were to be served concurrently.

7. On or about December 12, 2022, Respondent entered into a stipulated surrender of his medical license with the California Medical Board. He had previously been charged with committing acts of gross negligence against eight (8) patients, failing to keep adequate medical records, and unprofessional conduct. Under the terms of the agreement, Respondent's surrender of his medical license is considered a disciplinary action by the California Medical Board. The surrender became effective on or about January 30, 2023.

Conclusions of Law

1. The Commission has jurisdiction over the subject matter of the Administrative Complaint, and over the parties, pursuant to Ala. Code § 34-24-310, *et seq*.

2. The Medical Licensure Commission is authorized to impose professional discipline upon any Alabama physician upon conviction of any felony offense, whether or not the felony conviction is related to the practice of medicine in this State. Ala. Code § 34-24-360(4). The Commission may also impose professional discipline based upon "disciplinary action taken by another state." Ala. Code § 34-24-360(15).

3. The Commission concludes, as a matter of law, that the determined facts constitute violations of Ala. Code § 34-24-360(4) as charged in Counts One and Two of the Administrative Complaint, and a violation of Ala. Code § 34-24-360(15) as charged in Count Three of the Complaint.

Order/Discipline

Based upon the foregoing Findings of Fact and Conclusions of Law, it is ORDERED, ADJUDGED, AND DECREED:

1. That Respondent is adjudged GUILTY of the charges alleged in Counts One, Two, and Three of the Administrative Complaint;

2. That Respondent's license to practice medicine in the State of Alabama is due to be and is hereby REPRIMANDED;

3. That Respondent is ASSESSED administrative fines of five thousand dollars ($5,000.00) as to each of Counts One, Two, and Three, separately and severally, for a total administrative fine of fifteen thousand dollars ($15,000.00), and that in accordance with Ala. Admin. Code r. 545-X-3-.08(8)(d)(i), Respondent is ORDERED to pay the administrative fine within 30 days of this Order;[1]

4. That Respondent's license to practice medicine in the State of Alabama is REVOKED; that pursuant to Ala. Code § 34-24-361(h)(4) such revocation is SUSPENDED, and that Respondent's license to practice medicine in Alabama is placed on PROBATION for a period of twenty-four (24) months, conditioned as follows: that Respondent shall comply with all provisions of this Consent Decree; that Respondent shall comply with all applicable provisions of federal and state law; and that Respondent shall not engage in solo medical practice or in any practice in which he has responsibility for medical billing;

[1] "The refusal or failure by a physician to comply with an order entered by the Medical Licensure Commission" may be a separate instance of "unprofessional conduct." *See* Ala. Admin. Code r. 545-X-4-.06(6).

5. That Respondent is ORDERED, within 180 days of the date of this Order, to complete the Intensive Course in Medical Ethics, Boundaries, and Professionalism presented by Case Western Reserve University School of Medicine;

6. That the Board is DIRECTED to monitor Respondent's compliance with this Order; and

7. That no administrative costs of this proceeding are assessed against Respondent at this time.

DONE on this the 27th day of November, 2023.

JOINT SETTLEMENT AGREEMENT

COME NOW, the Alabama State Board of Medical Examiners ("the Board") and Gary Royce Wisner, M.D., ("Respondent") (hereinafter collectively referred to as "the Parties") and enter into this Joint Settlement Agreement ("Agreement") to resolve the disciplinary charges filed against Respondent's medical license. In support thereof, the Parties state as follows:

JURISDICTION

1. Respondent was first licensed to practice medicine in Alabama on April 29, 1996, under license number MD.19841. He has maintained licensure at all times material to this agreement.

STIPULATIONS

2. On or about June 13, 2018, the Board received correspondence from Respondent stating he was scheduled to be arrested in San Joaquin County, California on September 12, 2018, for four felonies related to his treatment of worker's compensation patients from four specific insurance companies in California. He further stated that he only practices medicine in California despite being licensed in four other states, including Alabama.

3. About a month later, on July 17, 2018, the Board received a second letter from Respondent stating that he was scheduled to be "booked and released at the Sacramento jail on July 14, 2018, for Medi-Cal billing fraud related charges to ten felonies." He stated he was no longer treating patients at his clinic in California, which is now closed, and requested to retain his Alabama medical license.

5. On or about November 4, 2022, the Board received correspondence from Respondent informing the Board of the automatic suspension of his California medical license.

6. Respondent emailed the Alabama Medical Licensure Commission ("the Commission") on December 16, 2022, notifying them of his sentencing in Sacramento County, California, and stated he is currently incarcerated; scheduled to be released in September of 2023. He further stated that he pleaded guilty to four counts of workman's compensation billing fraud in San Joaquin County, California. These sentences are to be served concurrently.

7. On or about December 12, 2022, Respondent entered into a stipulated surrender of his medical license with the California Medical Board. He had previously been charged with committing acts of gross negligence against eight (8) patients, failing to keep adequate medical records, and unprofessional conduct. Under the terms of the agreement, Respondent's surrender of his medical license is considered a disciplinary action by the California medical board. The surrender became effective on or about January 30, 2023.

8. The Parties enter into this Agreement as a matter of compromise and to eliminate further litigation and issues between them related to the allegations set out in the Board's Administrative Complaint.

9. Respondent acknowledges the authority of the Commission to exercise jurisdiction in this matter. He consents and agrees to the entry by the Commission of a consent order consistent with the terms of this Agreement and agrees to be bound by the findings of fact, conclusions of law, and terms and conditions stated therein. Respondent waives his right to an administrative hearing before the Commission, his right to be represented at such hearing by counsel of his choice and agrees to waive any and all rights to further notice and formal adjudication by the Board and the Commission of charges arising from the facts stated herein. Further, Respondent waives his right to judicial review of the consent order agreed to herein under applicable provisions of the Alabama Administrative Procedure Act, Ala. Code §41-22-1, *et. seq.* If the consent order imposes any term of probation and/or restrictions on Respondent's license to practice medicine in Alabama, then Respondent acknowledges that such term of probation and/or restrictions are mutually negotiated and bargained-for terms, and Respondent waives any right to apply to the Commission for modification of those terms and any right to a hearing under Ala. Code § 34-24-361(h)(9). Respondent understands and acknowledges that the Agreement and Consent Order, if approved and executed by the parties, shall constitute a public record under the laws of the state of Alabama.

10. Respondent acknowledges and agrees that the Agreement and Consent Order constitute a public record of the Board and will be reported by the Board to the Federal National Practitioner Data Bank ("NPDB") and the Federation of State Medical Boards ("FSMB") disciplinary data bank. This Agreement and Consent Order may be released by the Board to any

person or entity requesting information concerning the licensure status in Alabama of Respondent.

11. The Board stipulates and agrees that the terms and conditions of the Agreement and resulting Consent Order entered by the Commission constitute a reasonable disposition of the matter stated herein, and that such disposition protects the public's health and safety.

TERMS OF AGREEMENT

10. Respondent admits to Counts One, Two, and Three of the Administrative Complaint filed in this case and consents to the entry of a consent order by the Commission finding that he committed each of the violations as alleged in Counts One, Two, and Three.

11. Respondent consents to the entry of an order by the Commission reprimanding his medical license and assessing an administrative fine in the amount of $15,000, due and payable within 30 days of the Commission's order issued pursuant to this Agreement.

12. Respondent further consents to the entry of an Order by the Commission revoking his medical license, suspending said revocation, and placing his license on probation for a term of twenty-four (24) months, conditioned as follows: that Respondent shall comply with all provisions of the Consent Decree entered by the Medical Licensure Commission; that Respondent shall comply with all applicable provisions of federal and state law; and that Respondent shall not engage in solo medical practice or in any practice in which he has responsibility for medical billing.

13. Respondent shall abide by all state and federal laws and state and federal regulations related to the practice of medicine.

14. Respondent shall completed the Intensive Course in Medical Ethics, Boundaries, and Professionalism presented by Case Western Reserve University School of Medicine within 180 day of the Commission's order issue pursuant to this Agreement.

15. Respondent acknowledges and understands that the Commission shall retain jurisdiction in this matter to enter any such orders as may be necessary to implement or enforce this Agreement or its own orders.

16. Respondent understands that the Board will monitor his compliance with this Agreement. Respondent understands that the Board reserves the right to file for revocation of his probation or a new administrative complaint in the event that Respondent fails to abide by any term of this Agreement or new violations of state or federal laws and regulations are discovered. Respondent understands that a violation of this Agreement or the Commission's order may constitute unprofessional conduct, a violation Ala. Code § 34-24-360(2). The Parties acknowledge that Respondent will receive notice and opportunity for a fair hearing consistent with the Alabama Administrative Procedures Act and Commission rules prior to any final action adjudicating an alleged violation.

STIPULATED AND AGREED this 22 day of November, 2023.

Case No. 800-2015-016673 OAH No. 2022080426 **STIPULATED SURRENDER OF LICENSE AND ORDER**

IT IS HEREBY STIPULATED AND AGREED by and between the parties to the above-entitled proceedings that the following matters are true:

PARTIES

1. William Prasifka (Complainant) is the Executive Director of the Medical Board of California (Board). He brought this action solely in his official capacity and is represented in this

matter by Rob Bonta, Attorney General of the State of California, by Jannsen Tan, Deputy Attorney General.

2. Gary Royce Wisner, M.D. (Respondent) is represented in this proceeding by attorney, Robert J. Sullivan, Esq., whose address is: 765 University Avenue, Sacramento, CA 95825.

3. On or about October 1, 1984, the Board issued Physician's and Surgeon's Certificate No. A 41236 to Gary Royce Wisner, M.D. (Respondent). The Physician's and Surgeon's Certificate was in full force and effect at all times relevant to the charges brought in Accusation No. 800-2015-016673. On September 2, 2022, Respondent's Physician's and Surgeon's Certificate was suspended after his conviction in a criminal proceeding before the Superior Court of California, County of Sacramento, Case No. 18FE01203.

JURISDICTION

4. Accusation No. 800-2015-016673 was filed before the Board, and is currently pending against Respondent. The Accusation and all other statutorily required documents were properly served on Respondent on July 23, 2018. Respondent timely filed his Notice of Defense contesting the Accusation. A copy of Accusation No. 800-2015-016673 is attached as Exhibit A and incorporated by reference.

ADVISEMENT AND WAIVERS

5. Respondent has carefully read, fully discussed with counsel, and understands the charges and allegations in Accusation No. 800-2015-016673. Respondent also has carefully read, fully discussed with counsel, and understands the effects of this Stipulated Surrender of License and Order.

6. Respondent is fully aware of his legal rights in this matter, including the right to a hearing on the charges and allegations in the Accusation; the right to confront and cross-examine the witnesses against him; the right to present evidence and to testify on his own behalf; the right to the issuance of subpoenas to compel the attendance of witnesses and the production of documents; the right to reconsideration and court review of an adverse decision; and all other rights accorded by the California Administrative Procedure Act and other applicable laws.

///

7. Respondent voluntarily, knowingly, and intelligently waives and gives up each and every right set forth above.

CULPABILITY

8. Respondent understands that the charges and allegations in Accusation No. 800-2015-016673, if proven at a hearing, constitute cause for imposing discipline upon his Physician's and Surgeon's Certificate.

9. For the purpose of resolving the Accusation without the expense and uncertainty of further proceedings, Respondent agrees that, at a hearing, Complainant could establish a factual basis for the charges in the Accusation and that those charges constitute cause for discipline. Respondent hereby gives up his right to contest that cause for discipline exists based on those charges.

10. Respondent understands that by signing this stipulation he enables the Board to issue an order accepting the surrender of his Physician's and Surgeon's Certificate without further process.

RESERVATION

11. The admissions made by Respondent herein are only for the purposes of this proceeding, or any other proceedings in which the Medical Board of California or other professional licensing agency is involved, and shall not be admissible in any other criminal or civil proceeding.

CONTINGENCY

12. Business and Professions Code section 2224, subdivision (b), provides, in pertinent part, that the Medical Board "shall delegate to its executive director the authority to adopt a ... stipulation for surrender of a license."

13. Respondent understands that, by signing this stipulation, he enables the Executive Director of the Board to issue an order, on behalf of the Board, accepting the surrender of his Physician's and Surgeon's Certificate No. A 41236 without further notice to, or opportunity to be heard by, Respondent.

///

14. This Stipulated Surrender of License and Disciplinary Order shall be subject to the approval of the Executive Director on behalf of the Board. The parties agree that this Stipulated Surrender of License and Disciplinary Order shall be submitted to the Executive Director for his consideration in the above-entitled matter and, further, that the Executive Director shall have a reasonable period of time in which to consider and act on this Stipulated Surrender of License and Disciplinary Order after receiving it. By signing this stipulation, Respondent fully understands and agrees that he may not withdraw his agreement or seek to rescind this stipulation prior to the time the Executive Director, on behalf of the Medical Board, considers and acts upon it.

15. The parties agree that this Stipulated Surrender of License and Disciplinary Order shall be null and void and not binding upon the parties unless approved and adopted by the Executive Director on behalf of the Board, except for this paragraph, which shall remain in full force and effect. Respondent fully understands and agrees that in deciding whether or not to approve and adopt this Stipulated Surrender of License and Disciplinary Order, the Executive Director and/or the Board may receive oral and written communications from its staff and/or the Attorney General's Office. Communications pursuant to this paragraph shall not disqualify the Executive Director, the Board, any member thereof, and/or any other person from future participation in this or any other matter affecting or involving respondent. In the event that the Executive Director on behalf of the Board does not, in his discretion, approve and adopt this Stipulated Surrender of License and Disciplinary Order, with the exception of this paragraph, it shall not become effective, shall be of no evidentiary value whatsoever, and shall not be relied upon or introduced in any disciplinary action by either party hereto. Respondent further agrees that should this Stipulated Surrender of License and Disciplinary Order be rejected for any reason by the Executive Director on behalf of the Board, Respondent will assert no claim that the Executive Director, the Board, or any member thereof, was prejudiced by its/his/her review, discussion and/or consideration of this Stipulated Surrender of License and Disciplinary Order or of any matter or matters related hereto.

///

///

ADDITIONAL PROVISIONS

16. This Stipulated Surrender of License and Disciplinary Order is intended by the parties herein to be an integrated writing representing the complete, final and exclusive embodiment of the agreements of the parties in the above-entitled matter.

17. The parties agree that copies of this Stipulated Surrender of License and Disciplinary Order, including copies of the signatures of the parties, may be used in lieu of original documents and signatures and, further, that such copies shall have the same force and effect as originals.

18. In consideration of the foregoing admissions and stipulations, the parties agree the Executive Director of the Board may, without further notice to or opportunity to be heard by Respondent, issue and enter the following Disciplinary Order on behalf of the Board:

ORDER

IT IS HEREBY ORDERED that Physician's and Surgeon's Certificate No. A 41236, issued to Respondent Gary Royce Wisner, M.D., is surrendered and accepted by the Board.

1. The surrender of Respondent's Physician's and Surgeon's Certificate and the acceptance of the surrendered license by the Board shall constitute the imposition of discipline against Respondent. This stipulation constitutes a record of the discipline and shall become a part of Respondent's license history with the Board.

2. Respondent shall lose all rights and privileges as a Physician and Surgeon in California as of the effective date of the Board's Decision and Order.

3. Respondent shall cause to be delivered to the Board his pocket license and, if one was issued, his wall certificate on or before the effective date of the Decision and Order.

4. If Respondent ever files an application for licensure or a petition for reinstatement in the State of California, the Board shall treat it as a petition for reinstatement. Respondent must comply with all the laws, regulations and procedures for reinstatement of a revoked or surrendered license in effect at the time the petition is filed, and all of the charges and allegations contained in Accusation No. 800-2015-016673 shall be deemed to be true, correct and admitted by Respondent when the Board determines whether to grant or deny the petition.

///

5. Respondent shall pay the agency its costs of investigation and enforcement in the amount of $28,696.25 prior to issuance of a new or reinstated license.

ACCEPTANCE

I have carefully read the above Stipulated Surrender of License and Order and have fully discussed it with my attorney Robert J. Sullivan, Esq. I understand the stipulation and the effect it will have on my Physician's and Surgeon's Certificate. Throughout the year, Respondent ordered x-rays of Patient G's left femur 23 times, left knee 23 times, left tibia 22 times, left calcaneus 15 times, left foot 16 times, left ankle 16 times, 7 separate spine studies, x-rays of Patient G's pelvis 11 times, x-rays of Patient G's left hip 16 times, and x-rays of Patient G's right hip 5 times.

107. During the period of January 2016 to June, 2016, Respondent saw Patient G, multiple times for office visits. During these visits, Respondent ordered x-rays of Patient G's pelvis 7 times, left hip 7 times, left femur 9 times, left knee 5 times, left tibia 5 times, calcaneus 2 times, left foot 2 times, left ankle 2 times, and 3 spinal studies.

108. Respondent committed gross negligence in his care and treatment of Patient G in that Respondent ordered excessive and/or non-medically necessary x-rays without complaints specific to that area, and/or without a change in complaint, and/or sufficient time to demonstrate radiographic degenerative changes

EIGHTH CAUSE FOR DISCIPLINE
(Gross Negligence Patient H)

109. On or about December 31, 2015, Respondent first saw Patient H for an office visit. Patient H was a 37-year-old male who was seen by another provider with complaints of "pain in the left knee for 1 month, swelling of the left knee for 4 days." Before being seen by Respondent, Patient H had an MRI which revealed "horizontal cleavage tear left medial meniscus." Patient H was referred to Respondent. Patient H completed a patient questionnaire that noted "meniscus tear 2-3 weeks", and "knee pain." Respondent documented a chief complaint of "both knees left greater than right" and states "patient states he kneeled down and felt some popping and burning." Respondent ordered x-rays of Patient H's left knee, the left femur, left tibia, right knee, right femur, and right tibia. Respondent also ordered an MRI of the right knee to "R/O internal derangement," and extensive laboratory studies including a "CBC, complete chem panel, uric acid, sed rate, C-reactive protein, Lyme disease panel, RA panel."

110. On or about January 15, 2016, Respondent saw Patient H for an office visit. Respondent documented the chief complaint as "bilateral knee pain left greater than right." Under the "history of present illness," Respondent noted "patient states he feels about 80% better since last visit," and "pain radiates into feet." Respondent noted the results of the MRI, revealing "complex tear right medial meniscus." Respondent ordered x-rays of Patient H's full-length left lower extremity x-ray, x-rays of the right ankle, right heel, right tibia, left ankle, left heel, left tibia, and left foot. Respondent prescribed physical therapy and documented a discussion of conservative treatment and surgical intervention options.

111. On or about March 1, 2016, Respondent saw Patient H for an office visit. Respondent documented the chief complaint as "bilateral knees, CTL spine." Under the "history of present illness." Respondent noted "patient states that therapy is helpful and feels about 70% better-occasional pain with activities-pain radiates up into his back at times." Respondent ordered x-rays of Patient H's cervical spine, thoracic spine, lumbar spine, pelvis, and both hips.

112. On or about March 22, 2016, Respondent saw Patient H for an office visit. Respondent documented the chief complaint as "both knees, CTL spine, both shoulders." Under the "history of present illness," Respondent noted "patient states that he feels about 90% better and therapy was helpful. CTL spine and shoulders are doing good." Respondent ordered x-rays of Patient H's cervical spine, lumbar spine, right shoulder, right humerus, left shoulder, left humerus and a full-length right lower extremity.

113. Respondent committed gross negligence in his care and treatment of Patient H in that Respondent obtained excessive, non-medically necessary and repeated x-rays (with the exception of the x-ray of Patient H's left knee) without complaints specific to that area, and/or without a change in complaint, and/or sufficient time to demonstrate radiographic degenerative changes.

NINTH CAUSE FOR DISCIPLINE
(Repeated Negligent Acts)

114. Respondent is further subject to disciplinary action under sections 2227 and 2234, as defined by section 2234, subdivision (c), of the Code, in that he committed repeated negligent

acts in his care and treatment of Patient A, B, C, D, E, F, G, and H, as more particularly alleged hereinafter: Paragraphs 7 through 113, above, are hereby incorporated by reference and realleged as if fully set forth herein.

TENTH CAUSE FOR DISCIPLINE
(Failure to Keep Adequate Records)

115. Respondent is further subject to discipline under sections 2227 and 2334, as defined by section 2266, of the Code, in that he failed to maintain adequate and accurate medical records in the care and treatment of Patient A, B, C, D, E, F, G, and H, as more particularly alleged in paragraphs 7 through 113, above, which are hereby incorporated by reference and realleged as if fully set forth herein.

ELEVENTH CAUSE FOR DISCIPLINE
(General Unprofessional Conduct)

116. Respondent is further subject to discipline under sections 2227 and 2234, as defined by section 2234 of the Code, in that he has engaged in conduct which breaches the rules or ethical code of the medical profession, or conduct which is unbecoming a member in good standing of the medical profession, and which demonstrates an unfitness to practice medicine, as more particularly alleged hereinafter: Paragraphs 7 to 113, above, are hereby incorporated by reference and realleged as if fully set forth herein.

Good Morning Gary

I spoke to the Chief of Licensing, and they will be changing your license status from Suspended to Active-Probation this morning. Once that changes you are okay to start working and seeing patients. I will look for the first report from Dr. Schenk, but have no worries that you will do great!

Let me know if your license status is not changed at the end of the day.

Dear Johnna LaRue:

Thank you for your follow-up communication enclosed below, regarding my completion of the PACE Assessment on May 31, 2025. However, I thought I should have your specific written permission before I start seeing patients in Nevada, in association with my new employer, Dr. Pejman Bady. If you give me permission to do so, I will start seeing patients on this coming week of June 9, 2025.

Thank you for your prior permission of our monthly chart monitoring process, through Dr. Sheldon Schenk, who completely understands the monthly reporting obligations to be sent directly to you, before the end of each month. As such, Dr. Schenk will send his first chart monitoring report for the month June, for 25% of the patients that I see, with a summary report sent to you before July 31, 2025. Dr. Schenk will then continue sending monthly chart reports directly to you thereafter.

But even though it is now June 7, 2025 as the termination date of my medical license suspension, I still thought I should have your specific written permission and clarification that the Suspension status of my medical License #7759 through the Nevada State Board of Medical Examiners is now over. Thank you for all of your time involved with this process.

Respectfully,

Re: Gary R. Wisner, M.D.

To Whom it May Concern:

It is with great pleasure that I offer this letter of recommendation for Gary R. Wisner, M.D.

For the past 36 years I have been the Chairman of the Department of Orthopedic Surgery and the Surgeon In Chief of several of the largest Orthopedic Departments in New York State and for Northwell Heath System which is the largest health care system in the State of New York.

In my role as Chairman, I have had the pleasure of teaching and mentoring many Orthopedic Surgeons and I have also had the responsibility of monitoring the quality of care given by hundreds of Orthopedic surgeons and health care providers under my supervision.

I believe that this has given me the longstanding experience needed to judge the care and behavior of my fellow surgeons and colleagues. I would also like the court to know that I am one of the physicians most qualified to comment on Dr. Gary Wisner as a surgeon and a physician, as well as attest to the integrity and kindness of his character.

I have known Gary Wisner for 40 years. We first met in July 1982 when I was an intern at Mount Sinai Hospital in New York and Dr. Wisner was doing his in Fifth Pathology Program. He was assigned to work with me at Elmhurst County Hospital where we cared for the poor and under privileged. One gets to know who a person really is when you work together covering the emergency room on all night shifts. Gary was caring, compassionate and eager to learn everything he could in order to care for people and be the best possible physician.

At the end of his clinical year, I introduced Gary to Dr. Arthur Aufsis the Chairman of the Department of Surgery for Mount Sinai Hospital and Medical School, one of the premier hospitals in America. Dr. Aufsis, who was the President of the American Academy of Surgeons, was so impressed by Gary's hard work, eagerness to learn and compassionate patient care that he accepted Gary into the General Surgery Residency Program immediately.

During the many hours that we spent together talking into the late hours of the night, Gary spoke of only two things; wanting to be a highly skilled Orthopedic Surgeon so he could help people who had suffered significant injuries return to active, happy lives, and wanting to return to his native Lodi to bring his skills to the community where he had grown up.

I also have had the pleasure of meeting Gary's father, who was a hardworking, honest family man who spent his life caring for his family, neighbors and community. This was Gary's role model and these are the characteristics that Gary inherited and who he became.

Gary was never satisfied being anything but the best physician and surgeon and always sought to improve himself. We remained in close contact throughout his early years in practice (1988-1993) and often met at national conferences.

In 1993 he called me in New York when I was the Surgeon in Chief of the Musculo-Skeletal Institute (MSI) for North Shore University Hospital and asked me to help him with obtaining a fellowship in Spine surgery. Gary applied and was accepted for a one-year spine surgery fellowship at Queens Medical Center in Northern England, one of the most prestigious spine centers in the world.

When he finished his fellowship, he came back to New York and joined the Musculo-Skeletal Institute (MSI), myself and 43 other Orthopedic Surgeons, a renowned neurosurgeon and two plastic surgeon all of whom trained at the finest institutes in America.

Gary and I worked side by side sharing hundreds of patients and surgeries. As Chief of the group, I can attest to the fact that Gary's skills, judgment, integrity, decision making, attitude and work ethics were outstanding.

What struck me most, however, was that Gary had enormous compassion and capacity of caring for others. Certainly, Gary was not driven by economics.

Whereas many of my other colleagues were looking at payer-mix and insurance payments, Gary was the one physician who took all patients including those with no insurance.

Dr. Wisner, MD was the surgeon that was willing to care for anyone, even if they were a "no" pay patient. He provided extensive coverage to the busiest inner city hospital's ER's and would take on the difficult emergencies that other colleges avoided.

Certainly, if Dr. Wisner had been driven by economics, he would have never left his busy thriving practice in Lodi in 1993 in order to pursue further fellowship training in England's premier spine center

In the same vain he would not have left the Musculo-Skeletal Institute in New York where he had an enormously promising career and was loved by his patients and colleagues.

I tried very had to convince Dr. Wisner to remain with our group in New York knowing that his career would be much more lucrative, academic and prestigious then if he returned to Lodi.

Gary was however, very clear in his wishes to return to Lodi so he could serve his community better with the skills he had honed over the past two years and so he could raise his family in the community that he was raised and that he would care for.

I could tell you endless stories and anecdotes about Gary Wisner, MD and the loving and caring physician, father and husband that he is. I am sure that many of his patients, colleagues, and associates will attest to the fineness and honestly of his character.

Having known Dr. Wisner and his family personally for 40 years I am positive he would never do anything deliberately to harm anyone. He is not a person who is capable of malice to anyone and he certainly had not lived his life or charted his career with the *goal* of making more money.

Gary Wisner is one of the only physicians, that I know who has accepted all patient's, including the indigent and those with "Medicaid". The truth is that few physicians are willing to accept these patients because of the poor reimbursement, the known high risk of poor compliance and the high rate of malpractice suits. Of note, is the fact that, prior to Dr. Wisner's criminal charges he was never sued by any his patients.

I realize Dr. Wisner was found guilty; however I remain convinced that he is not a person or a physician who is guilty of malice to anyone. What Gary suffers from is an obsessive-compulsive need to make sure he is not missing a diagnosis, not neglecting a patient, and meticulously following up on patients that can otherwise be lost to needed follow up. That behavior has enabled Gary to provide outstanding care, but also to unintentional excess visits, x-rays, and diagnostic tests.

RE: Gary R. Wisner, M.D.
Professional Medical Testimonial Support

Dear Sir/Madam:

I am writing this strongest letter of professional support for Dr. Gary Wisner who is currently applying for a position in orthopedic surgery in your state. I have personally known Dr. Wisner for over forty years since 1983 when we met and worked together as interns in General Surgery at the Mount Sinai Hospital in New York City, where we trained. At that time, Dr. Wisner and I initiated a professional relationship and friendship that has lasted to date and has included shared collaborated approaches to education, leadership, mentorship, and clinical care of patients. I have come to know Dr. Wisner as an outstanding physician who is extraordinarily responsible and attentive to all details. He is the consummate patient advocate and truly a community - minded altruistic champion for all of his patients. I respect Dr. Wisner immensely.

Dr. Wisner had been convicted of insurance fraud in Sacramento, California for which he has professionally faced and admirably complied with in regard to all legal issues that needed to be addressed. Most importantly throughout Dr. Wisner's professional career, he consistently and always has done the right thing as far as parents are concerned. His recent transgressions are not reflective or consistent with the rest of his practice career or body of work. I have personally remained close with Dr. Wisner and despite noting full awareness of the charges that were directed towards him and his resultant legal ordeal, I cannot say enough to support him in his ability to try to carry on with his life and his career as an orthopedic surgeon dedicated to patient care.

It is my sincere opinion that Dr. Wisner is an individual who should be given another chance to return to practice, which is something he is very focused and passionate about. On a personal note, Dr. Wisner has suffered the loss of a child and he and his wife have made significant efforts to carry on by starting a new family. He now has 4 young children under the age of 20 and his family circumstances should be recognized regarding his determination to return to practicing orthopedics. The ability to forgive another in a setting where isolated behaviors occur and are then corrected should be a fundamental consideration and an essential driver in dealing with an individual who demonstrates insight, mindfulness, and contrition.

I fully support the potential for Dr. Wisner to resuming practice in your state, preserving his medical licensure, and completing the credential in process. I would be happy to discuss the matters personally and can be contacted on my cell for subsequent discussion (516-729-8560). I appreciate your consideration in advance.

NEVADA STATE BOARD
OF PHARMACY

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **GARY ROYCE WISNER, MD,** **Certificate of Registration No. CS28822,** **Respondent.**	**Case No. 22-423-CS-N** **OPPOSITION TO MOTION FOR RECONSIDERATION**

The Nevada State Board of Pharmacy (Board), by and through counsel prosecuting this matter, Brett Kandt, General Counsel, files this opposition to Respondent Gary Royce Wisner, MD's Motion for Reconsideration filed November 14, 2025 (Motion). This opposition is submitted pursuant to NRS 622A.390(3) and based upon the following points and authorities and the pleadings on file herein.

MEMORANDUM OF POINTS AND AUTHORITIES

I. PROCEDURAL BACKGROUND

The Notice of Intended Action and Accusation together with the Statement to Respondent and Notice of Hearing was filed and served on March 3, 2025. On March 14, 2023, Board staff served Respondent with a second notice of hearing. The hearing was noticed for April 12, 2023, at which time Respondent failed to appear, and the Board made default findings of fact, and conclusions of law and entered an order revoking Respondent's Certificate of Registration No. CS28822 pursuant to NRS 453.241(l)(b) (Order). Revocation was based upon Respondent's conviction on 10 felony counts of health care insurance fraud in violation of California Penal Code §550(a). Pursuant to NRS 622A.410(1) and 639.257(1), the Order specifies that Respondent may not petition for reinstatement of his revoked controlled substance registration for a period of 5 years from the effective date of the Order.

II. LEGAL STANDARD

Respondent seeks reconsideration of the Order pursuant to NRS 622A.390(1)(b). A motion requesting reconsideration may be based only on one of the following grounds:

(a) Newly discovered or available evidence.

(b) Error in the hearing or in the findings and recommendations or the decision that would be grounds for reversal of the findings and recommendations or the decision.

(c) The need in the public interest for further consideration of the issues or evidence, or both.

NRS 622A.390(5). *See also Lakeshore House Ltd. v. Bank of W.*, 475 P.3d 397 (Nev. 2020) (articulating a similar standard for granting a motion for reconsideration in district court).

III. ARGUMENT

Respondent's Motion is a thinly veiled petition for reinstatement of his revoked controlled substance registration and should be denied since reinstatement is premature. Furthermore, the Motion is predicated upon erroneous application of the law and Respondent was not denied due process. Nor is there any other basis for reinstatement or for reconsideration of the Order.

A. Respondent's Motion is a Premature Petition for Reinstatement.

The timing of Respondent's Motion bears out that it is essentially a petition for reinstatement. Respondent is seeking reconsideration of the Order 31 months after entry, and shortly after Respondent's License No. 7759 to practice medicine from the Nevada State Board of Medical Examiners (NSBME) was restored after a period of suspension.[1]

NRS 639.257(1) and NRS 622A.410(1) mandate that the Board in a revocation order shall prescribe a period during which the person may not apply for reinstatement of the license; the period must not be less than 1 year and not more than 10 years. In this instance, Respondent may

[1] Respondent previously filed a Petition for Reinstatement on July 21, 2025, that was not placed on the Board's meeting agenda due to the fact that it was premature.

not petition for reinstatement of his revoked Certificate of Registration No. CS28822 before April 12, 2028.

B. Respondent was Given Notice of the Hearing in Compliance with Nevada Law.

Respondent misapprehends and/or misapplies the statutory notice requirements in an attempt to secure reinstatement on a technicality. However, Board staff satisfied the notice and service requirements of NRS 241.0333, NRS 233B.127(3), NRS 639.242 and NRS 639.245, and Respondent was given sufficient legal notice of the April 12, 2023, hearing.

On March 2, 2023, Respondent was served with the Notice of Intended Action and Accusation together with the Statement to Respondent and Notice of Hearing by certified mail, return receipt requested, addressed to the Respondent at his address of record with the Board. On March 14, 2023, Respondent was served with a second Notice of Hearing by certified mail, return receipt requested, addressed to the Respondent at his address of record. This complied with the 14-day notice requirement of NRS 241.0333 and permitted sufficient time for the 20-day statutory period that Respondent was accorded by NRS 622A.320(1) and NRS 639.244 to file a response.

Despite Respondent's assertion to the contrary, there is no requirement that the Notice of Hearing must be filed *after* the 20-day response period.[2] "Courts should avoid hypertechnical constructions that frustrate legislative intent." *Heath v. Kiger*, 176 P.3d 690, 693 (Ariz. 2008) (citations omitted); *see also Beazer Homes Nev., Inc. v. Eighth Judicial Dist. Court*, 97 P.3d 1132, 1135 (Nev. 2004) (the plain language of an unambiguous statute controls); *City of Reno v. Bldg. & Constr. Trades Council of N. Nev.*, 251 P.3d 718, 722 (Nev. 2011) ("this court will not read statutory language in a manner that produces absurd or unreasonable results").

[2] Respondent also mistakenly cites to NRS 639.2445, which is not applicable in this instance.

C. Respondent was Not Denied Due Process.

Respondent's attempt to bootstrap a due process claim to his bid for reinstatement must fail. *See, e.g., State v. Gonzalez*, 535 P.3d 248 (Nev. 2023). While he held a property interest in his Certificate of Registration No. CS28822 that was protected by due process, he was accorded all the necessary due process guarantees of fundamental fairness in the process of revoking his controlled substance registration. *See Dutchess Business Services, Inc. v. Nevada State Bd. of Pharmacy*, 191 P.3d 1159, 1166-69 (Nev. 2008).

Respondent cannot manufacture a due process claim based on his incarceration at the time of the Board's commencement of the administrative action against him. The law imposes no affirmative duty on the Board to take extraordinary measures in such an instance.

D. There is no Compelling Reason to Reinstate Respondent's Registration Now.

Nor is there a due process violation for denying Respondent's plea for reinstatement if the Board has a rational basis for doing so. *See Malfitano v. Cty. of Storey*, 133 Nev. 276, 396 P.3d 815 (Nev. 2017). The Board may deny Respondent's request if it determines that registration would be inconsistent with the public interest. *See* NRS 453.236(1)(e) and NRS 453.241(1). In the process of making such a determination the Board may consider "any . . . factors relevant to and consistent with the public health and safety." NRS 453.231(1)(h). The fact that his criminal conviction was not related to controlled substances is not dispositive.

Aside from claiming remorse for his egregious acts, Respondent's argument for reinstatement at this juncture is largely predicated upon the current status of his NSBME License No. 7759 to practice medicine and his treatment by that board. Yet the Board's authority to take disciplinary action against the holder of a controlled substance registration is independent of any action taken by the NSBME. *See* NRS 453.577. The Board is not bound by the decisions of the NSBME or the terms of the Settlement Agreement between Respondent and the NSBME in Case No. 24-11112-1. The Board is bound only by its statutory mandate to carry out and enforce Nevada law to protect the public. *See* NRS 622.080 and NRS 639.070(1)(a).

IV. CONCLUSION

For the foregoing reasons, the prosecution respectfully submits that reinstatement is not available, nor reconsideration warranted, at this time.

RESPECTFULLY SUBMITTED this 20th day of November 2025.

NEVADA STATE BOARD OF PHARMACY, Petitioner, GARY ROYCE WISNER, M.D., Certificate of Registration No. CS28822, Respondent.	Case No.: 22-423-CS-N

RESPONDENT'S REPLY IN SUPPORT OF HIS MOTION FOR RECONSIDERATION OF DISCIPLINARY ACTION AGAINST DR. GARY WISNER'S CONTROLLED SUBSTANCE REGISTRATION AND REQUEST TO APPEAR BEFORE THE BOARD

COMES NOW, Respondent Gary Royce Wisner, M.D., by and through his counsel Jessica R. Gandy, Esq. of the law firm of Hutchison & Steffen PLLC, and hereby submits this Reply in Support of his petition to the Nevada State Board of Pharmacy ("Board of Pharmacy") for reconsideration of the five-year suspension of Dr. Wisner's Controlled Substance Registration. This Reply is made based on the following Memorandum of Points and Authorities and any oral argument that the Board may permit at the time of the hearing of this matter, if any.

This Reply incorporates all facts and legal arguments set forth in the original Motion.

I. INTRODUCTION

In its Opposition, the Board takes the draconian position that despite lengthy discussion of all of the facts and circumstances surrounding the five-year suspension of Dr. Wisner's controlled substances registration, there was no reason to even *pause to reconsider* the decision making which led to the same. Respondent asserts that this is the true definition of a circumstance under which decisions were made without the benefit of all relevant facts and reconsideration should be afforded under the "need for public interest for further consideration of the issues or evidence, or

both." NRS 622A.390. It is important to recognize that Respondent is not merely *disagreeing* with the Board's decision, but is asserting that the Board made its decision without the benefit of all relevant facts and he was not afforded the opportunity to present the same.

Moreover, and contrary to the Opposition, Dr. Wisner did present a valid reason for his request which serves the public interest: he is currently providing medical care and treatment to the underserved population in Nye County. While he can continue provide medical care without prescribing controlled substances, the complete ban on controlled substance prescription necessarily limits the care and treatment that he can provide.

Beyond that, the previous submission of a Motion for Reinstatement and the immediate rejection of the same does not bar Respondent from requesting relief via a different path.

II. REASONS WHY RECONSIDERATION IS JUSTIFIED

A. The Board's Actions have Deprived Dr. Wisner of his Due Process Rights Under the Nevada Constitution

The Nevada Constitution requires that "[n]o person shall be deprived of life, liberty, or property, without due process of law." Nev. Const. art. 1, § 8(5). The adjudication of formal disciplinary proceedings against a professional licensee implicates due process protections. *Sarfo v. Bd. of Med. Examiners*, 134 Nev. 709, 712, 429 P.3d 650, 653 (2018) (citing *Hernandez v. Bennett-Haron*, 128 Nev. 580, 591-593, 287 P.3d 305, 313-314 (2012)).

An agency's occupational license revocation proceeding is deserving of due process through the preponderance of the evidence standard. *Nassiri*, at 251, 491. There, Court stated that "the license at issue can be no less deserving of due process than the one at issue in [in another matter] because, [the Nevada Supreme Court] approved of the use of the minimum civil standard

of proof. There is no lower standard." *Id.* (internal citations omitted). "If there were a lower standard, it would be nonsensical; it would allow a tribunal to reach a conclusion even after reasoning that the conclusion is more likely to be incorrect than it is to be correct." *Id.* at n.3. Thus, while an administrative proceeding is held to the *lowest evidentiary standard*, it is still required to meet that standard. That is, the finder of fact must determine that the preponderance of the admitted evidence and testimony supports each and every finding.

The *Nassiri* Court went on to cite the Fourth Circuit Court of Appeals case *United States Steel Mining Co* to "clarify[] that, 'to prove by a preponderance of the evidence each element of a claim before an administrative agency, the claimant must present reliable, probative, and substantial evidence of such sufficient quality and quantity that a reasonable [administrative fact-finder] could conclude that the existence of the facts supporting the claim are more probable than their nonexistence.'" *Id.* at 552, 491 (citing *United States Steel Mining Co.*, 187 F.3d 384, 389 (1999)).

The Supreme Court has explained that [a]n elementary and fundamental requirement of due process in any proceeding which is to be accorded finality is notice reasonably calculated, under all the circumstances, to apprise interested parties of the pendency of the action and afford them an opportunity to present their objections. *Mullane v. Cent. Hanover Bank & Trust Co.*, 339 U.S. 306, 314 (1950). *See also Richards v. Jefferson Cnty.*, 517 U.S. 793 (1996) (res judicata may not apply where taxpayer who challenged a county's occupation tax was not informed of prior case and where taxpayer interests were not adequately protected). The notice requirement may include an obligation to take reasonable followup measures that may be available upon learning that an attempt at notice has failed. *Jones v. Flowers*, 547 U.S. 220, 235 (2006) (state's certified letter, intended to notify a property owner that his property would be sold unless he satisfied a tax

delinquency, was returned by the post office marked unclaimed; the state should have taken additional reasonable steps to notify the property owner, as it would have been practicable for it to have done so). Ordinarily, service of notice must be reasonably structured to assure that the person to whom it is directed receives it. *Armstrong v. Manzo*, 380 U.S. 545, 550 (1965); *Robinson v. Hanrahan*, 409 U.S. 38 (1972); *Greene v. Lindsey*, 456 U.S. 444 (1982).

Here, at the time of the Accusation and Notice of Hearing Dr. Wisner was serving the sentence for the criminal conviction and was unable to appear before the Board. It is important to note that the Board was ***aware*** of Dr. Wisner's conviction and in-custody status. The Board attached the sentencing documents, which explicitly stated that Dr. Wisner would be incarcerated for a term of two years, less one day credit for time served, to its Complaint. At the formal hearing, the only evidence presented was that of the administrative staff that testified the Complaint and Notice of Hearing were sent to the address on file for Dr. Wisner.

Respondent asserts that the Board's knowledge of his incarceration combined with the service to Dr. Wisner's home address and lack of reasonable attempt to assure that ***Dr. Wisner*** received notice of the charges against him violates due process, as held by the US Supreme Court. The Court has held time and again that mere mailing without reasonable assurance that the person to whom the notice is addressed will receive the same is insufficient to deprive the individual of a property right, such as a professional license. Here, as asserted in the moving Motion, the Board was acutely aware that Dr. Wisner was not residing at his home address. The charging documents included discussion of his incarceration and included copies of his sentencing order. Pursuant to due process requirements, there should have been *some* reasonable effort to ensure that Dr. Wisner, and not merely some arbitrary individual, was receiving notice of the action. Based on the Board's file, and contrary to the assertions in the Opposition, there was confirmation that the March 14

Notice of Hearing was *delivered* but not that it was delivered to Dr. Wisner or anyone that would be acting on his behalf. Records from the US Postal Service, which were used to confirm "service" merely state that the letter was "left with individual" without so much as confirmation that it was left at the correct address, let alone the *correct* individual.

Respondent asserts that this not only violates the *spirit* of due process, but that it fails to meet the constitutional requirements for the same. The Opposition's claims that due process was met simply because the letter was sent to Dr. Wisner's last known address – not that it was received by Dr. Wisner or that that was any confirmation that Dr. Wisner would receive the same – is sufficient is not enough and does not meet the constitutional requirements.

B. <u>The Nevada State Board of Pharmacy Made their Determination Without the Benefit of all Relevant Information</u>

Once again, it must be stressed that the Board made its decision without the benefit of all relevant information, which would have been provided had the Board afforded Dr. Wisner his due process rights. When the Nevada State Board of Pharmacy made its determination, it did so without considering the full picture. Beyond this, the Opposition's position that the five-year suspension is consistent with its mandate to "protect the public" is truly disingenuous and inconsistent with the facts of this case.

To be clear, and this is undisputed in the Opposition, there is no indication that the Board was under any requirement to act on this Allegation immediately, or could not have acted in such a way which would have suspended Dr. Wisner's registration until such time that he *could* appear before the Board. The conviction and incarceration had been a matter of public record for nearly six months. The Board had no reason to believe Dr. Wisner was actively harming anyone by virtue of his Nevada Pharmacy License; to the contrary, the Board knew that Dr. Wisner ***was not*** using

his Pharmacy License at the time of this suspension. There was no valid interest in "protecting the public" that was served by suspending Dr. Wisner's certificate while he was incarcerated and without hearing his defense.

Beyond this, the criminal charges and subsequent convictions were unrelated to prescribing, a fact which the Board was aware of and again did not dispute in the Opposition. The charges were relating to an alleged overuse of x-rays and financial impropriety related to the same. Dr. Wisner has always followed the standard of care regarding the care of his patients and their prescription medications. He understands the importance of appropriate prescriptions used in conjunction with the care and treatment of patients is what contributes to their overall health, wellbeing, and recovery and has never faced any allegations, let alone criminal charges, relating to the same. There was no "public safety" interest served by immediately and without due process, suspending Dr. Wisner's certificate for five years. The ability to prescribe medications was and remains wholly unrelated to his criminal conviction.

When the Nevada State Board of Medical Examiners determined the terms of the Settlement Agreement, they had the benefit of all of this information as well as letters of recommendation written by Dr. Wisner's colleagues.

To date, Dr. Wisner's care and treatment of patients or prescribing practices have not been subject to any allegations. The allegations which form the basis of his criminal conviction are related to *billing* and not an allegation that he put patients in harms way or fell below the standard of care as it relates to the provision of care and treatment.

C. <u>The Nevada State Board of Medical Examiners Implemented a One (1) Year Suspension with Two (2) Years of Probation</u>

Here again, Dr. Wisner would encourage the Board to consider reconsidering its

disciplinary action and revise its decision to something more consistent with that of the other licensing boards to which Dr. Wisner is subject. Dr. Wisner understands that the Board of Pharmacy has no obligation to consider the Board of Medical Examiners' decisions; however, he believes that the Board of Medical Examiners' decision is indicative of what disciplinary action looks like when there is a full review of all relevant facts and circumstances.

After a full review of the relevant facts and applicable law, the Nevada State Board of Medical Examiners implemented a one (1) year suspension followed by two years of probation. The first year of the Probation Period requires 25% of patient charts be monitored on a monthly basis, and the monitor must report monthly directly to the Board. The second year of the Probation Period requires 10% of patient charts be monitored on a monthly basis, and the monitor must report monthly directly to the Board.

Dr. Wisner is currently halfway through his first year of probation under the Nevada State Board of Medical Examiners and has consistently complied with all terms and conditions of his probationary period. There have been no allegations that he has failed to meet Board requirements or has otherwise acted in a way that violates Medical Board policies and procedures.

D. Dr. Wisner is Currently Serving the Nevada Community in Pahrump

Dr. Wisner asserts that his current position serving rural Nevada does support reconsideration of facts and circumstances for purposes of "public interest" as allowed by NRS. He asserts that Nevada is consistently lamenting the stark lack of physician providers in rural counties, especially those with specialized practices such as Dr. Wisner. He asserts that as the Nevada Medical Board has seen fit to allow him to continue the practice of medicine under supervised probation, he urges this Board to support his desire to continue this service to community and reconsider his five-year suspension.

Dr. Wisner had originally applied for his Nevada Medical license in order to move to Northern Nevada, but was unable to do so due to the COVID-19 Pandemic. Dr. Wisner has been eager to move to Nevada and serve rural members of our community, as he had previously done in California.

Dr. Wisner continues to reside and practice in Pahrump, Nevada serving the communities medical needs. His intention has always been to give back to a community in need and serving in a rural area in need of medical practitioners. He asserts that his years of experience can provide the underserved community in Nye County with a valuable resource. However, Dr. Wisner's current practice, and the level of care he can provide his patients, is limited due to the suspension of his Controlled Substance Registration. Ultimately, it is the community members who suffer the most from the current restriction.

E. Dr. Wisner Proposes an Alternate Suspension Term

Dr. Wisner would encourage the Board to consider all facts and circumstances, including the issues relating to due process under the Nevada and US Constitution and reconsider the five-year disciplinary sentence and either reinstate his license with "time served" or consider a probationary period similar to the one implemented by the Nevada State Medical Board. This would allow the Board of Pharmacy oversight of Dr. Wisner for the duration of the original suspension period and would allow Dr. Wisner to fully serve the Pahrump community. Changing the Board of Pharmacy's suspension term to mirror the Nevada State Board of Medical Examiners' suspension terms would be in line with the interests of justice, the benefit of our Nevada community, and the mission and oversight purpose of the Board of Pharmacy.

. . .

. . .

III. CONCLUSION

Dr. Wisner respectfully requests that the Board reconsider the disciplinary action which was undertaken in violation of due process and reinstate his Controlled Substances Registration fully, or in the alternative, reinstate his Controlled Substances Registration to Active-Probation for a probationary period to mirror the one imposed by Nevada State Board of Medical Examiners.
