Provide explanation below:

This is in conjunction with Question # 5. This is a pharmacy I am no longer affiliated with. A disgruntled former employee had stolen documents, including controlled substance reports, then filed a complaint with DOPL, which led to an inspection. I met with three DOPL inspectors as part of the inspection and explained that a couple times during the COVID staffing crisis I was asked by this disgruntled employee to help fill medications as there was no other way our patients would have gotten their medications. I received a fine, which I paid.

Name: Nelson Labs

Address: 6280 s redwood rd

City: Salt Lake City State: UT Zip: 84123

Telephone: 8012907500

13. What is your procedure for visual inspection of compounded sterile products?

Visual inspection procedure:
Inspect under controlled lighting: Use both black and white backgrounds to conduct the inspection.
Every container must be inspected to ensure it is free of defects and particulates.
Gently swirl or invert the container and inspect it against a black background for 5 seconds, then repeat the process against a white background for 5 seconds.
Observe for defects. Look for any visible, undissolved particles other than gas bubbles.
Check for cracks, chips, or other physical defects in the container, such as vials or ampoules.
Leaks. Inspect the container, such as bags or vials, for any signs of leakage.

14. How often do you perform glove fingertip and medial fill testing?

every 6 months

15. Describe your initial and ongoing training program for all personnel performing sterile compounding:

Initial training procedure: Cover all fundamental aspects required for sterile compounding. Hand hygiene and personnel preparation. Proper donning of protective gear (garb). Cleaning and disinfection of the compounding environment and supplies. Calculations and measurement of ingredients. Aseptic technique, including aseptic manipulation of components. Correct use of primary engineering controls and associated equipment. Principles of movement of materials and personnel within the compounding area. Didactic materials. Practical, hands-on skills training.Competency validation.
Ongoing training procedure: Frequency: every 6 months. Focus on reinforcing best practices and addressing any identified quality gaps. Regularly review standard operating procedures (SOPs) at least annually. Reinforce the importance of maintaining a sterile compounding environment and following all cleaning and disinfection protocols.

16. Describe the cleaning procedure for your primary and secondary engineering controls, including the frequency of cleaning and the names of cleaning, disinfectant, sporicidal, and/or deactivation and decontamination agents used:

Daily cleaning: Wipe down walls and windows from top to bottom, using a damp, non-shedding cloth or sponge and an approved solution like deionized water or IPA. Mop floors in a one-way, overlapping motion, working from the farthest corner of the room toward the exit. Use a multi-bucket mopping system to keep clean and dirty solutions separate.
Wipe down all work benches, equipment, and other surfaces. Replace tacky mats at the cleanroom entrance as needed.
Store and cover any products or supplies not in use.
Weekly or monthly cleaning: Wash ceilings with a damp sponge and a designated solution. Clean light fixtures and vent covers. Disinfect all surfaces after the initial cleaning and drying steps, ensuring the contact time specified by the manufacturer is met.
Use a top-down, left-to-right approach, starting with ceilings and working your way down to floors, using approved, non-shedding materials. Always work from top to bottom to prevent particles from falling onto already cleaned surfaces.
Use lint-free wipes and non-shedding cloths to avoid reintroducing particles. Move slowly and deliberately to minimize air turbulence.

17. Who performs the sterile compounding process at your facility?

Pharmacists and pharmacy technicians

18. Who is responsible and accountable for the sterile compounding process at your facility?

Pharmacist in charge

19. If products are shipped/mailed, what shipping conditions are used to ensure product safety/efficacy?

Products are shipped in foam insulated containers with ice to keep cool and stable during transit.

1. What type of primary engineering controls will you be using in your facility?		
2. Are you complying with all USP 800 guidelines?	Yes	No
3. Have your employees who compound with hazardous drugs signed an acknowledgement that they understand the risks associated with this process?	Yes	No
4. Is your BSC or CACI vented 100% to the outside?	Yes	No
5. Do you have a negative pressure buffer room at your facility?	Yes	No
6. Will you be compounding with antineoplastic HDs or HD API?	Yes	No
7. If yes, are the drugs stored in an externally ventilated, negative pressure room?	Yes	No
8. Will you be utilizing a closed system transfer device?	Yes	No
9. If yes, list the name of the device:		

10. What information is provided to the patient or consumer on the proper handling and disposal of hazardous drugs products/containers?

11. Describe your initial process for training new employees prior to compounding sterile hazardous drugs?

Section 4: Sterile Category 3 Compounding Questions (Complete this section ONLY if you will be performing Category 3 Compounding:)

1. List the specific Category 3 sterile products that your facility compounds:

2. What is the frequency for ongoing garbing, gloved fingertip and thumb sampling, and media fill testing for compounding personnel?

3. Is the pharmacy meeting all of the additional garbing requirements for compounding Category 3 CSPs as defined by the revised USP-797 guidelines? Yes No

4. What is the frequency for completing volumetric active air sampling?

5. What is the frequency for completing surface sampling?		
6. What is the frequency for using sporicidal agents?		
7. Is an endotoxin test performed for all products compounded from one or more nonsterile component?	Yes	No
8. Is the BUD assigned supported by stability data obtained using a stability-indicating analytical method?	Yes	No

- ☑ the inventory records shall be maintained for a period of five years and be readily available for inspection
- ☑ the inventory records shall be filed separately from all other records
- ☑ the inventory may be taken either as the opening of the business or the close of business on the inventory date;
- ☑ the person taking the inventory and the PIC shall indicate the time the inventory was taken and shall sign and date the inventory with the date the inventory was taken. The signature of the PIC and the date of the inventory shall be documented within 72 hours or three working days of the completed initial, annual, change of ownership and closing inventory.

☑ the inventory of Schedule I and II controlled substances shall be listed separately from the inventory of Schedule III, IV and V controlled substances;

☑ if the pharmacy maintains a perpetual inventory of any of the drugs required to be inventories, the perpetual inventory shall be reconciled on the date of the inventory.

47 ☑ ☐ All pharmacies shall maintain a perpetual inventory of all Schedule II controlled substances that shall be reconciled according to facility policy. [UAC R156-17b-605(6)]

48 ☑ ☐ The pharmacy does reconcile its controlled substance inventory to account for shortages of controlled substances. [UAC R156-17b-603 (3) (k) & R156-37-502(4)]

49 ☑ ☐ Any facility who experiences any theft, including diversion, or significant loss of controlled substances shall immediately file the appropriate forms with the Drug Enforcement Administration, with a copy to the Division directed to the attention of the Investigation Bureau Division; and report the incident to the local law enforcement agency. [UAC R156-37-602 (2)]

50 ☑ ☐ Pharmacists or other responsible individuals do verify that the suppliers' invoices of controlled substances, listed on the invoices were actually received by clearly recording their initials and the actual date of receipt of the controlled substances. [UAC R156-17b-614a (11)]

51 ☑ ☐ The facility shall maintain a record of suppliers' credit memos for controlled substances. [UAC R156-17b-614a (12)]

52 ☑ ☐ The facility does maintain a copy 3 of DEA order form (form 222) which has been properly dated, initialed, and filed and all copies of each unaccepted or defective order form and any attached statements or other documents. [UAC R156-17b-614a(9)(a-c)]

53 ☑ ☐ The Division shall implement on a statewide basis, including non-resident pharmacies as defined in Section 58-17b-102, the following two options for a pharmacist to submit information: real-time submission of the information required to be submitted under this part of the controlled substance database; and 24-hour daily or next business day, whichever is later, batch submission of the information required to be submitted under this part to the controlled substance database. [UCA 58-37f-203(1)(a)(i,ii)]

54 ☑ ☐ In accordance with 58-37f-203(6), the pharmacist-in-charge and the pharmacist identified in Subsections 58-37f-203(2) and (3) shall provide the following data fields to the Division: the state that issued identification, type of identification used, identification number used and first and last name of individual picking up dispensed drug. [UCA R156-37f-203 (4) (bb-ff)]

55 ☐ ☑ The pharmacy maintains emergency kits in nursing homes, long-term care facilities, or other entities (such as hospice, EMT's, ambulances)? If the answer is "yes", note name(s) of facilities or entities.

56 ☐ ☑ The pharmacy maintains automated prescription dispensing devices outside the pharmacy such as Pyxis in a nursing home? If the answer is "yes", note type and location.

57 ☐ ☑ The pharmacy utilizes an Automated Pharmacy System? If the answer is "yes" to this question, a automation questionnaire must be completed. [UAC R156-17b-620]

58 ☐ ☑ The facility is engaged in hazardous drug compounding as defined by USP-NF Chapter 800. If you answer "yes" to this question, a compounding questionnaire must be completed.

59 ☐ ☑ The facility is engaged in simple, medium, or complex compounding activities as defined by USP 35 Chapter 795. If you answer "yes" to this question, a compounding questionnaire must be completed. [(UAC R156-17b-614a (2)]

60 ☑ ☐ The facility is engaged in low, medium, or high risk *sterile* compounding as defined by USP 35 Chapter 797. If you answer "yes" to this question, a compounding questionnaire must be completed. [UAC R156-17b-614a (2)]

COMMENTS

* Assisted by Owner Alan Ha and PIC Sara Dewitt.

* List of Licensees compliant.

* Temperature Monitoring compliant.

* Initial controlled inventories compliant, with no controlled substances currently on site.

* Controlled invoices are not present due to not currently having controlled substances on site.

* Sink has hot and cold water.

* Pharmacy security is compliant.

* Pharmacy has a drop ceiling that does not extend to the next floor. The pharmacy will be implementing additional prevention measures. Once complete, send updated prevention measures to jevans@utah.gov.

* No outdated medication in pharmacy inventory.

* No Automation.

* Sterile compounding inspection conducted.

* Pharmacy is preparing to conduct non-sterile compounding, but is not yet engaged in the compounding. A dedicated non-sterile compounding room is currently under construction. When the pharmacy begins non-sterile compounding, contact Jolene Evans at jevans@utah.gov. An inspection will be required at that time.

☑ By checking this box it is indicated that the undersigned Division Investigator has reviewed the above inspection report and comments made with the undersigned "Responsible Party."

Compounding Facilities engaged in simple, moderate or complex non-sterile or any level of sterile compounding activities shall be required to maintain proper records and procedure manuals and establish quality control measures to ensure stability, equivalency where applicable and sterility. The following requirements shall be met:(a)Shall follow USP-NF Chapter 795, compounding of non-sterile preparations, and USP-NF Chapter 797 if compounding sterile preparations [UAC R156-17b-614a (3)]

	Yes	No	GENERAL OPERATIONS AND INFORMATION **Which categories of compounding does the facility perform?**
1.	☑	☐	The pharmacy does perform compounding identified as **low-risk** [USP-NF Chapter 797- *USP Microbial Contamination Risk Levels- Low-Risk Level CSPs]* ☑ The CSPs are compounded with aseptic manipulations entirely within ISO Class 5 or better air quality using only sterile ingredients, products, components, and devices. ☑ The compounding involves only transfer, measuring, and mixing manipulations using not more than three commercially manufactured packages of sterile products and not more than two entries into any one sterile container or package (e.g., bag, vial) of sterile product or administration container/ device to prepare the CSP. ☑ Manipulations are limited to aseptically opening ampules, penetrating disinfected stoppers on vials with sterile needles and syringes, and transferring sterile liquids in sterile syringes to sterile administration devices, package containers of other sterile products, and containers for storage and dispensing. ☑ For a low-risk level preparation, in the absence of passing a sterility teste (see Sterility Tests <71>) the storage periods cannot exceed the following time periods: before administration, the CSPs are properly stored and are exposed for not more than 48 hours at controlled room temperature (see General Notices and Requirements), and for 45 days in solid frozen state between -25°and -10°.
	☑	☐	The pharmacy does perform compounding identified as **medium-risk.** When CSPs are compounded aseptically under Low-Risk Conditions and one or more of the following conditions exist, such CSPs are at a medium risk of contamination. [USP-NF Chapter 797- *USP Microbial Contamination Risk Levels- Medium-Risk Levels CSPs]* ☑ Multiple individual or small doses of sterile products are combined or pooled to prepare a CSP that will be administered to either multiple patients or to one patient on multiple occasions. ☑ The compounding process includes complex aseptic manipulations other than the single-volume transfer. ☑ The compounding process requires unusually long duration, such as that required to compete dissolution or homogenous mixing. ☑ For a medium-risk preparation, in the absence of passing a sterility test (see Sterility Tests <71>0, the storage periods cannot exceed the following time periods: before administration, the CSPs are properly stored and are exposed for not more than 30 hours at controlled room temperature (see Generals Notices and Requirements), and for 45 days in solid frozen state between 25°and -10°.

☑ ☐ The pharmacy does perform compounding identified as **high-risk** [USP-NF Chapter 797- *USP Microbial Contamination Risk Levels- High-Risk Levels CSPs]*
☑ Non sterile ingredients, including manufactured products not intended for sterile routes of administration (e.g. oral), are incorporated or a non-sterile device is employed before terminal sterilization.
☑ Any of the following are exposed to air quality worse than ISO 5 for more than 1 hour (see *Immediate-Use CSPs*):
☑Sterile contents of commercially manufactured products,
☑CSPs that lack effective antimicrobial preservative, and
☑Sterile surfaces of devices and containers for the preparation, transfer, sterilization, and packaging of CSPs

☑Compounding personnel are improperly garbed and gloved (see *Personnel Cleansing and Use of Barrier Protective Equipment).*
☑ Nonsterile water-containing preparations are stored for more than 6 hours before being sterilized.
☑ It is assumed, and not verified by examination of labeling and documentation from suppliers or by direct determination, that the chemical purity and content strength of ingredients meet their original or compendia specifications in unopened or in opened packages of bulk ingredients (see *Ingredient Selection under Pharmaceutical Compounding- Non-Sterile Preparations <795>).*
☑ In the absence of passing a sterility test, the storage periods cannot exceed the following time periods: before administration, the CSPs are properly stored and are exposed for not more than 24 hours at controlled room temperature (see *General Notices and Requirements),* for not more than 3 days at a cold temperature (*see General Notices and Requirements),* and for 45 days in a solid frozen state between 25°and -10°.

☑ ☐ **Immediate-use provision in intended only for those situation where there is a need for emergency or immediate patient administration of a CSP.** Such situations may include cardiopulmonary resuscitation, emergency room treatment, preparation of diagnostic agents, or critical therapy where the preparation of the CSP under conditions described for Low-Risk Level CSPs subjects the patient to additional risk due to delays in therapy. Immediate-use CSPs are not intended for storage for anticipated needs or batch compounding. Preparations that are medium-risk level and high-risk level CSPs shall not be prepared as immediate-use CSPs. [USP-NF Chapter 797- *Immediate-use CSPs*]

☑ ☐ **Immediate-use CSPs** are exempt from the requirements described for Low-Risk Label CSPs only when all of the following are met: [USP-NF Chapter 797- *Immediate-use CSPs]*
☑ The compounding process involves simple transfer of not more than three commercially manufactured packages of sterile nonhazardous products or diagnostic radiopharmaceutical products from the manufacturer's' original containers and not more than two entries into any one container or package (e.g., bag, vial) of sterile infusion solution or administration container/device. For example, anti-neoplastics shall not be prepared as immediate-use CSPs because they are hazardous drugs.
☑ Unless required for the preparation, the compounding procedure is a continuous process not to exceed 1 hour.
☑During preparation, aseptic technique is followed and, if not immediately administered, the finished CSP is under continuous supervision to minimize the potential for contact with nonsterile surfaces, introduction of particulate matter or biological fluids, mixups with other CSPs, and direct contact of outside surfaces.
☑ Administration begins not later than 1 hour following the start of the preparation of the CSP.
☑Unless immediately and completely administered by the person who prepared it or immediate and complete administration is witnessed by the preparer, the CSP shall bear a label listing patient identification information, the names and amounts of all ingredients, the name or initials of the person who prepared the CSP, and the exact 1-hour BUD and time.
☑ If administration has not begun within 1 hour following the start of preparing the CSP, the CSP shall be promptly, properly, and safely discarded.

2. ☑ ☐ Does the facility dispense sterile compounded preparations pursuant to a prescription?

3. ☐ ☑ Does the facility make sterile compounded preparations that are delivered to a practitioner for administration to a patient in an office, clinic, or facility?

4. ☑ ☐ A pharmacy licensed under this chapter may, subject to rules established by the Division, repackage or compound a prescription drug for sale to a practitioner if: the prescription drug: does not include a compounded drug; or includes a compounded drug; and is not a controlled substance; the pharmacy labels the prescription drug "for office use only"; the practitioner administers the drug to a patient in the practitioner's office or facility; and except in accordance with Title 58, Chapter 17b, Part 8, Dispensing Medical Practitioner and Dispensing Medical

Practitioner Clinic Pharmacy, the practitioner does not dispense the drug to the patient. [UCA 58-17b-624(1)(a)(i)(ii)(A)(B)(b)(c)(d)] Pursuant to Section 58-17b-624, a pharmacy may repackage or compound a prescription drug for sale to a practitioner for office use provided that it is in compliance with all applicable federal and state laws and regulations regarding the practice of pharmacy, including, but not limited to the Food, Drug, and Cosmetic Act, 21 U.S.C A § 301 et seq. [R156-17b-624]

5. ☐ ☑ Does the facility distribute sterile compounded preparations to hospitals, clinics, or surgery centers?

6. ☐ ☑ Does the facility have a sales force that distributes samples containing active ingredients? If so, list samples on separate sheet.

7. ☐ ☑ Does the facility compound sterile preparations for veterinary use?

8. ☐ ☑ Is the facility registered with the FDA as an "Outsourcing Facility"?

9. ☑ ☐ The facility does compound:

☐ allergen extracts	☐ baths and soaks for live organs and tissues
☑ parental solutions	oral or nasal inhalation preparations
☑ parenteral suspensions	irrigations for wounds and body cavities
☐ preservative-free parenterals	ophthalmic preparations

10. ☐ ☑ Does the facility compound investigational drugs? If so, list on separate sheet.

11. ☑ ☐ The facility does not prepare a prescription drug in a dosage form which is regularly and commonly available from a manufacturer in quantities and strengths prescribed by a practitioner. [UAC 58-17b-102(18)(b)(ii)]

12. ☑ ☐ The facility does not prepare a prescription drug for sale to another pharmacist or pharmaceutical facility. [UAC 58-17b-102 (18)(b)(i)]

13. ☑ ☐ The facility does not prepare a prescription drug, sterile product, or device which has been withdrawn from the market for safety reasons. [UAC 58-17b-102 (18)(b)(iii)

14. ☑ ☐ Does the pharmacy makes sterile compounded preparations using bulk powder Active Pharmaceutical Ingredients?

15. ☑ ☐ Bulk active ingredients must be procured from a facility registered with the federal Food and Drug Administration and must not be listed on the federal Food and Drug Administration list of drug products withdrawn or removed from the market for reasons of safety or effectiveness. [UAC R156-17b-614a (3)(c)(i)(ii)]

16. ☐ ☑ Does the facility have a lyophilizer?

17. ☑ ☐ **The compounding facility shall have written, properly approved SOPs** designed to ensure the quality of the environment in which a CSP is prepared. [USP-NF Chapter 797-*Responsibility of Compounding Personnel-Suggested Standard Operating Procedures (SOPs)]*

a. ☑ Procedures for **measuring, mixing, dilution, purification, sterilization, packaging, and labeling** conform to the correct sequence and quality established for the specified CSP. [USP-NF Chapter 797- *Responsibility of Compounding Personnel*]

h. ☑ All **cleaning and disinfecting** practices and policies for the compounding of CSPs shall be included in written SOPs and shall be followed by all compounding personnel. [USP-NF Chapter 797- *Environmental Quality and Control and Disinfecting the Compounding Area*]

- ☑ ISO Class 5 PEC (e.g. LAFW, BSC, CAI, CACI)
- ☑ Counters and easily cleanable work surfaces
- ☑ Floors
- ☑ Walls
- ☑ Ceiling
- ☑ Storage Shelving

c. ☑ It is necessary that **equipment, apparatus, and devices** used to compound a CSP be consistently capable of operating properly and within acceptable tolerance limits. [USP-NF Chapter 797- *Element of Quality Control, Equipment]*

- ☑ Equipment calibration
- ☑ Annual maintenance
- ☑ Monitoring for proper function and controlled procedures for use of the equipment and specified time frames for these activities
- ☑ Routine maintenance and frequencies

d. ☑ The principles of HEPA-filtered unidirectional airflow in the work environment shall be understood and practiced in the compounding process in order to achieve the desired environmental conditions. Policies and procedures for **maintaining and working within the PEC** area shall be written and followed. The policies and procedure will be determined by the scope and risk levels of the aseptic compounding activities utilized during the preparation of the CSPs. [USP-NF Chapter 797- *Environmental Quality and Control, Facility Design and Environmental Control]*

e. ☑ When compounding activities require **the manipulation of a patient's blood-derived or other biological material (e.g., radiolabeling a patient's or donor's white blood cells), the manipulations shall be clearly separated from routine material-handling** procedures and equipment used in CSP preparation activities, and they shall be controlled by specific SOPs in order to avoid any cross contamination. [USP-NF Chapter 797- *Environmental Quality and Control- Additional Personnel Requirements*]

f. ☑ **Double-checking compounding** accuracy shall be followed for every CSP during preparation and immediately prior to release. [USP-NF Chapter 797- *Preparation Release Checks and Tests, Compounding Accuracy Checks*]

g. ☑ When **high-risk level CSPs are dispensed before receiving the results of their sterility tests**, there shall be a written procedure requiring daily observations of the incubating test specimens and immediate recall of the dispensed CSPs when there is any evidence of microbial growth in the test specimens. [USP-NF Chapter 797- *Finished Preparation Release Checks and Tests, Sterility Testing*]

h. ☑ **Verifying the correct identity and quality** of CSPs before they are dispensed and administered: [USP-NF Chapter 797- *Finished Preparation Release Checks and Tests, Identify and Strength Verification of Ingredients*]

- ☑ Labels of CSPs bear correct names and amounts **or** concentrations of ingredients, the total volume, the BUD, the appropriate route(s) of administration, the storage conditions, and other information for safe use.
- ☑ That there are correct identities, purities, and amounts of ingredients by comparing the original written order with the written compounding record for the CSP.
- ☑ That correct fill volumes in CSPs and correct quantities of filled units of the CSPs were obtained. When the strength of finished CSPs cannot be confirmed to be accurate, based on the above three inspections, the CSPs shall be assayed by methods that are specific for the active ingredients.

i. ☑ To ensure consistent practices in determining and assigning BUDs, the compounding facility should have written policies and procedures governing the **determination of the BUDs** for all compounded products. The SOP manual of the compounding facility and each specific CSP formula record shall describe the general basis used to assign the BUD and storage conditions. [USP-NF Chapter 797- *Storage and Beyond-Use Dating*]

j. ☑ The **compounding procedures and sterilization methods** for CSPs correspond to correctly designed and verified written documentation in the compounding facility. Verification requires planned testing, monitoring, and documentation to demonstrate adherence to environmental quality requirements, personnel practices, and procedures critical to achieving and maintaining sterility, accuracy, and purity of finished CSPs. [USP-NF Chapter 797- *Verification of Compounding Accuracy and Stability*]

k. ☑ Commercially available sterile drug products, sterile ready-to-use containers, and devices are examples of sterile components. A written procedure for **unit-by-unit physical inspection preparatory to use** is followed to ensure that these components are sterile, free from defects, and otherwise suitable for their intended use. [USP-NF Chapter 797- *Elements of Quality Control- Ingredients and Devices- Sterile Ingredients and Devices*]

l. ☑ Compounding personnel shall ensure proper storage and security of CSPs prepared by or dispensed from the compounding facility until either their BUDs are reached or they are administered to patients. In fulfilling this general responsibility, the compounding facility is responsible for the proper **packaging, handling, transport, and storage of CSPs prepared by or dispensed from it, including the appropriate education, training, and supervision of compounding personnel assigned to these functions**. The compounding facility should assist in the education and training of noncompounding personnel responsible for carrying out any aspect of these functions. Establishing, maintaining, and ensuring compliance with comprehensive written policies and procedures encompassing these responsibilities is a further responsibility of the compounding facility. Where noncompounding personnel are assigned tasks involving any of these responsibilities, the policies and procedures encompassing those tasks should be developed by compounding supervisors. [USP-NF Chapter 797- Maintaining Sterility, Purity, and Stability of Dispensed and Distributed CSPs]

m. ☑ Inappropriate processes or techniques involved with packaging, handling, and transport can adversely affect quality and package integrity of CSPs. Although compounding personnel routinely perform many of the tasks associated with these functions, some tasks, such as **transport, handling, and placement into storage, may be fulfilled by noncompounding personnel** who are not under the direct administrative control of the compounding facility. Under these circumstances, appropriate SOPs shall be established by the compounding facility with the involvement of other departments or services whose personnel are responsible for carrying out those CSP-related functions for which the compounding facility has a direct interest. The performance of the noncompounding personnel is monitored for compliance to established policies and procedures. [USP- NF Chapter 797- *Maintaining Sterility, Purity, and Stability of Dispensed and Distributed CSPs- Packaging, Handling, and Transport*]

n. ☑ **When CSPs are distributed to locations outside the premises** in which they are compounded, compounding personnel select packing containers and materials that are **expected to maintain physical integrity, sterility, and stability of CSPs during transit.** Packing is selected that simultaneously protects CSPs from damage, leakage, contamination, and degradation, and protects personnel who transport packed CSPs from harm. The SOP manual of the compounding facility specifically describes appropriate packing containers and insulating and stuffing materials, based on information from product specifications, vendors, and experience of compounding personnel. Written instructions that clearly explain how to safely open containers of packed CSPs are provided to patients and other recipients. [USP-NF Chapter 797- *Maintaining Sterility, Purity, and Stability of Dispensed and Distributed CSPs- Packing and Transporting CSPs- Packing CSPs for Transit*]

o. ☑ SOPs must exist to ensure that **storage conditions in the patient-care setting** are suitable for the CSP-specific storage requirements. [USP-NF Chapter 797- *Maintaining Sterility, Purity, and Stability of Dispensed and Distributed CSPs- Packing and Transporting CSPs, Use and Storage*]

☑ Procedures include daily monitoring and documentation of drug storage refrigerators to ensure temperatures between 2° and 8°

☑ and the monthly inspection of all drug storage locations by compounding personnel.

p. ☑ The SOP manuals of compounding facilities shall describe **specific instructions for receiving, acknowledging, and dating receipts, and for recording, or filing, and evaluating reports of adverse events and of the quality of preparation** claimed to be associated with CSPs. Reports of adverse events with CSPs shall be reviewed promptly and thoroughly by compounding supervisors to correct and prevent future occurrences. Compounding personnel are encouraged to participate in adverse event reporting and product defects programs of the FDA and USP. [USP-NF Chapter 797- *Patient Monitoring and Adverse Events Reporting*]

Personnel Training and Requirements

18. ☑ ☐ A written description of specific training and performance evaluation program for individuals involved in the use of aseptic techniques for the preparation of sterile products shall be developed for each site. This program equips personnel with the appropriate knowledge and trains them in the required skills necessary to perform the assigned tasks. **Each person assigned to the aseptic area in the preparation of sterile products shall successfully complete specialized training in aseptic techniques and aseptic area practices prior to preparing CSPs** (see Personnel Training and Evaluation in Aseptic Manipulation Skills and Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices and Cleaning/Disinfection Procedures). [USP-NF Chapter 797 - *Elements of Quality Control*]

19. ☑ ☐ **Personnel who prepare CSPs shall be trained** conscientiously and skillfully **by expert personnel, multi-media instructional sources, and professional publications** in the theoretical principles and practical skills of **garbing procedures, aseptic work practices, achieving and maintaining ISO Class 5 environmental conditions, and cleaning and disinfection procedures.** [USP-NF Chapter 797- *Appendix I-Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices and Cleaning/Disinfection Procedures*]

20. ☑ ☐ Compounding personnel shall complete: [USP-NF Chapter 797- *Appendices- Appendix I-Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices and Cleaning/Disinfection Procedures*]

☑ didactic training, ☑ pass written competence assessments,

☑ undergo skill assessment using observational audit tools, ☑ and media-fill testing.

21. ☑ ☐ **Compounding personnel shall be visually observed during the process of performing hand hygiene and garbing procedures** (see *Personnel Cleansing* and *Garbing* under *Personnel Training and Evaluation in Aseptic Manipulation Skills* above). **The visual observation shall be documented** on a form such as the Sample Form for Assessing Hand Hygiene and Garbing Related Practices of Compounding Personnel (see Appendix III) and maintained to provide a permanent record and long-term assessment of personnel competency. [USP-NF Chapter

797- *Environmental Quality and Control - Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices, and Cleaning/Disinfection Procedures- Competency Evaluation of Garbing and Aseptic Work Practice*]

22. ☑ ☐ **Sampling of compounding personnel glove fingertips shall be performed for all CSP risk level compounding** because direct touch contamination is the most likely source of introducing microorganisms into CSPs prepared by humans. Glove fingertip sampling **shall be used to evaluate the competency of personnel in performing hand hygiene and garbing procedures in addition to educating compounding personnel on proper work practices, which include frequent and repeated glove disinfection using sterile 70% IPA during actual compounding of CSPs.** All personnel shall demonstrate competency in proper hand hygiene and garbing procedures and in aseptic work practices (e.g., disinfection of component surfaces, routine disinfection of gloved hands). [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices, and Cleaning/Disinfection Procedures- Competency Evaluation of Garbing and Aseptic Work Practice*]

23. ☑ ☐ **Sterile contact agar plates shall be used to sample the gloved fingertips** of compounding personnel **after garbing** in order to assess garbing competency and **after completing the media-fill preparation** (without applying sterile 70% IPA) in order to assess the adequacy of aseptic work practices prior to being initially allowed to prepare CSPs for human use and for more experienced personnel to maintain their qualifications to prepare CSPs for human use. [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices, and Cleaning/Disinfection Procedures- Competency Evaluation of Garbing and Aseptic Work Practice*]

24. ☑ ☐ **All compounding personnel shall successfully complete an initial competency evaluation and gloved fingertip/thumb sampling procedure (zero cfu) no less than three times before initially being allowed to compound CSPs for human use.** Immediately after the compounding employee completes the hand hygiene and garbing procedure (e.g., donning of sterile gloves prior to any disinfection with sterile 70% IPA), the evaluator will collect a gloved fingertip and thumb sample from both hands of the compounding employee onto appropriate agar plates by lightly pressing each fingertip into the agar. The plates will be incubated for the appropriate incubation period and at the appropriate temperature (see Incubation Period). **After completing the initial gowning and gloving competency evaluation, re-evaluation of all compounding personnel for this competency shall occur at least annually for personnel who compound low- and medium-risk level CSPs and semi-annually for personnel who compound high-risk level CSPs** using one or more sample collections during any media-fill test procedure before they are allowed to continue compounding CSPs for human use. [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices, and Cleaning/Disinfection Procedures- Competency Evaluation of Garbing and Aseptic Work Practice*]

25. ☑ ☐ **After successful completion of an initial Hand Hygiene and Garbing Competency Evaluation, all compounding personnel shall have their aseptic technique and related practice competency evaluated initially during the Media-Fill Test Procedure and subsequent annual or semi-annual Media-Fill Test Procedures.** Records of these evaluations will be maintained using a form such as the Sample Form for Assessing Aseptic Technique and Related Practices of Compounding Personnel (see Appendix IV) and maintained to provide a permanent record of and long-term assessment of personnel competency. [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices, and Cleaning/Disinfection Procedures- Competency Evaluation of Garbing and Aseptic Work Practice*]

26. ☑ ☐ **Compounding personnel shall perform didactic review and pass written and media-fill testing of aseptic manipulative skills initially, at least annually thereafter for low- and medium-risk level compounding, and semiannually for high-risk level compounding.** Compounding personnel who fail written tests or whose media-fill test vials result in gross microbial colonization shall be immediately re-instructed and re-evaluated by expert compounding personnel to ensure correction of all aseptic practice deficiencies. [USP-NF Chapter 797- *Personnel Training and Evaluation in Aseptic Manipulation Skills*]

27. ☑ ☐ **Compounding personnel and other personnel responsible for cleaning shall be visually observed during** the process of performing **cleaning and disinfecting procedures**, during **initial personnel training** on cleaning procedures, during **changes in cleaning staff**, and at the **completion of any media-fill test procedure** (see Cleaning and Disinfecting of Compounding Areas). [USP-NF Chapter 797- Environmental Quality and Control - Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices, and Cleaning/ Disinfection- Procedures, Surface Cleaning and Disinfection Sampling and Assessment]

28. ☑ ☐ **In the event that cleaning and disinfecting procedures are also performed by other support personnel** (e.g., institutional environmental services, housekeeping), thorough training of proper hand hygiene, garbing, and cleaning and disinfection procedures shall be done by a qualified aseptic compounding expert. After completion of training, support **personnel shall routinely undergo performance evaluation of proper hand hygiene, garbing, and all applicable cleaning and disinfecting procedures conducted by a qualified aseptic compounding expert.** [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices, and Cleaning/Disinfection Procedures*]

29. ☐ ☑ **Compounding personnel of reproductive capability shall confirm in writing that they understand the risks of handling hazardous drugs. The training shall include** at least the following: [USP- NF Chapter 797- *Hazardous Drugs as CSPs*]
- ☐ safe aseptic manipulation practices;
- ☐ negative pressure techniques when utilizing a BSC or CACI;
- ☐ correct use of CSTD devices;
- ☐ containment, cleanup, and disposal procedures for breakages and spills; and
- ☐ treatment of personnel contact and inhalation exposure.

Handwashing and Garbing

30. ☑ ☐ **When individuals are experiencing rashes, sunburn, weeping sores, conjunctivitis, active respiratory infection, as well as when they wear cosmetics, they shed these particles at even higher rates.** Particles shed from compounding personnel pose an increased risk of microbial contamination of critical sites of CSPs. **Therefore, compounding personnel with such conditions as mentioned above shall be excluded from working in ISO Class 5 (see Table 1) and ISO Class 7 (see Table 1) compounding areas until their conditions are remedied.** [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Cleansing and Garbing*]

31. ☑ ☐ **Before entering the buffer area or segregated compounding area** (see Low-Risk Level CSPs with 12-Hour or Less BUD), **compounding personnel shall remove personal outer garments** (e.g., bandannas, coats, hats, jackets, scarves, sweaters, vests); **all cosmetics, because they shed flakes and particles; and all hand, wrist, and other visible jewelry or piercings** (e.g., earrings, lip or eyebrow piercings) that can interfere with the effectiveness of PPE (e.g., fit of gloves and cuffs of sleeves). **The wearing of artificial nails or extenders is prohibited** while working in the sterile compounding environment. **Natural nails shall be kept neat and trimmed.** [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Cleansing and Garbing*]

32. ☑ ☐ **Personnel shall don the following PPE in an order that proceeds from those activities considered the dirtiest to those considered the cleanest.** Garbing activities considered the dirtiest include donning of ☑ dedicated shoes or shoe covers, ☑ head and facial hair covers (e.g., beard covers in addition to face masks), and ☑ face masks/eye shields. Eye shields are optional unless working with irritants such as germicidal disinfecting agents or when preparing hazardous drugs. [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Cleansing and Garbing*]

33. ☑ ☐ **After donning dedicated shoes or shoe covers, head and facial hair covers, and face masks, a hand cleansing procedure shall be performed by removing debris from underneath fingernails using a nail cleaner under running warm water followed by vigorous hand washing. Hands and forearms shall be washed to the elbows for at least 30 seconds with soap (either nonantimicrobial or antimicrobial) and water while in the ante-area.** The use of antimicrobial scrub brushes is not recommended because they can cause skin irritation and skin damage. Hands and forearms to the elbows will be completely dried using either lintfree disposable towels or an electronic hand dryer. ☑ **After completion of hand washing, a nonshedding gown with sleeves that fit snugly around the wrists and enclosed at the neck is donned.** Gowns designated for buffer area use shall be worn, and **preferably they should be disposable. If reusable gowns are worn, they should be laundered appropriately for buffer area use.** [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Cleansing and Garbing*]

34. ☑ ☐ **Once inside the buffer area or segregated compounding area** (see Low-Risk Level CSPs with 12-Hour or Less BUD), and **prior to donning sterile powder-free gloves, antiseptic hand cleansing shall be performed using a waterless alcohol-based surgical hand scrub with persistent activity following manufacturers' recommendations. Hands are allowed to dry thoroughly before donning sterile gloves. [USP-NF Chapter 797- Environmental Quality and Control - Personnel Cleansing and Garbing]**

35. ☑ ☐ **Sterile gloves shall be the last item donned before compounding begins.** Gloves become contaminated when they contact nonsterile surfaces during compounding activities. Disinfection of contaminated gloved hands may be accomplished by wiping or rubbing sterile 70% IPA to all contact surface areas of the gloves and letting the gloved hands dry thoroughly. Only use gloves that have been tested for compatibility with alcohol disinfection by the manufacturer. **Routine application of sterile 70% IPA shall occur throughout the compounding process** and whenever nonsterile surfaces (e.g. vials, counter tops, chairs, carts) are touched. **Gloves on bands shall also be routinely inspected for holes, punctures, or tears and replaced immediately if sucb are detected.** Antiseptic hand cleansing shall be performed as indicated above. Compounding personnel. [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Cleansing and Garbing*]

36. ☑ ☐ **When compounding personnel exit the compounding area** during a work shift, the exterior gown may be removed and retained in the compounding area if not visibly soiled, to be re-donned during that same work shift only. However, **shoe covers, hair and facial bair covers, face masks/eye shields, and gloves shall be replaced with new ones before re-entering the compounding area, and proper hand hygiene shall be performed.** [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Cleansing and Garbing*]

37. ☑ ☐ **During bigh-risk compounding activities that precede terminal sterilization, such as weighing and mixing of nonsterile ingredients, compounding personnel sball be garbed and gloved the same as when performing compounding in an ISO Class 5** (see Table 1) environment. Properly garbed and gloved **compounding personnel who are exposed to air quality that is either known or suspected to be worse than ISO Class 7 (see Table 1) shall re-garb PPE along with washing their hands properly, performing antiseptic hand cleansing with a waterless alcohol-based surgical hand scrub, and donning sterile gloves upon reentering the ISO Class 7 (see Table 1) buffer area. When CAIs and CACIs are the source of the ISO Class 5 (see Table 1) environment, the garbing and gloving requirements for compounding personnel should be as described above, unless the isolator manufacturer can provide written documentation based on validated environmental testing that any component(s) of PPE or personnel cleansing are not required.** [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Cleansing and Garbing*]

38. ☑ ☐ **Cleaning and disinfecting sball occur before compounding is performed.** Items shall be removed from all areas to be cleaned, and surfaces shall be cleaned by removing loose material and residue from spills; for example, water soluble solid residues are removed with sterile water (for injection or irrigation) and lowshedding wipes. This shall be followed by wiping with a residue-free disinfecting agent such as sterile 70% IPA, which is allowed to dry before compounding begins. [USP-NF Chapter 797- *Environmental Quality and Control - Cleaning and Disinfecting the Compounding Area*]

39. ☑ ☐ <u>Cleaning Requirements</u>

Cleaning and disinfecting surfaces in the **LAFWs, BSCs, CAIs, and CACIs** are the most critical practices before the preparation of CSPs. Consequently, such **surfaces shall be cleaned and disinfected frequently, including at the beginning of each work shift, before each batch preparation is started, every 30 minutes during continuous compounding periods of individual CSPs, when there are spills, and when surface contamination is known or suspected from procedural breaches.** [USP-NF Chapter 797- *Environmental Quality and Control - Cleaning and Disinfecting the Compounding Area*]

40. ☑ ☐ **Work surfaces in the ISO Class 7 (see Table 1) buffer areas and ISO Class 8 (see Table 1) ante-areas as well as segregated compounding areas shall be cleaned and disinfected at least daily,** and dust and debris shall be removed when necessary from storage sites for compounding ingredients and supplies using a method that does not degrade the ISO Class 7 or 8 (see Table 1) air quality (see Disinfectants and Antiseptics <1072>). [USP-NF Chapter 797- *Environmental Quality and Control - Cleaning and Disinfecting the Compounding Area*]

41. ☑ ☐ **Floors in the buffer or clean area, ante-area, and segregated compounding area are cleaned by mopping with a cleaning and disinfecting agent once daily at a time when no aseptic operations are in progress.** Mopping shall be performed by trained personnel using approved agents and procedures described in the

written SOPs. It is incumbent on compounding personnel to ensure that such cleaning is performed properly. [USP-NF Chapter 797- *Environmental Quality and Control - Cleaning and Disinfecting the Compounding Area*]

42. ☑ ☐ In the buffer or clean area, ante-area, and segregated compounding area, walls, ceilings, and shelving shall be cleaned and disinfected monthly. [USP-NF Chapter 797- *Environmental Quality and Control - Cleaning and Disinfecting the Compounding Area*]

43. ☑ ☐ **Cleaning and disinfecting agents** are to be used with careful consideration of compatibilities, effectiveness, and inappropriate or toxic residues (see Appendix II). Their **schedules of use and methods of application shall be in accordance with written SOPs and followed by custodial or compounding personnel.** [USP-NF Chapter 797- *Environmental Quality and Control - Cleaning and Disinfecting the Compounding Area*]

44. ☑ ☐ All **cleaning materials, such as wipers, sponges, and mops, shall be nonshedding**, preferably composed of synthetic micro fibers, and **dedicated to use in the buffer or clean area, ante-area, and segregated compounding areas and shall not be removed from these areas except for disposal.** Floor mops may be used in both the buffer or clean area and ante-area, but only in that order. Ideally, all cleaning tools are discarded after one use by collection in suitable plastic bags and removed with minimal agitation. If cleaning materials (e.g., mops) are reused, procedures shall be developed (based on manufacturers' recommendations) that ensure that the effectiveness of the cleaning device is maintained and that repeated use does not add to the bioburden of the area being cleaned. [USP-NF Chapter 797- *Environmental Quality and Control - Cleaning and Disinfecting the Compounding Area*]

45. ☑ ☐ **Supplies and equipment removed from shipping cartons shall be wiped with a suitable disinfecting agent** (e.g., sterile 70% IPA) delivered from a spray bottle or other suitable delivery method. After the disinfectant is sprayed or wiped on a surface to be disinfected, the disinfectant **shall be allowed to dry, during which time the item shall not be used for compounding purposes.** [USP-NF Chapter 797- *Environmental Quality and Control - Cleaning and Disinfecting the Compounding Area*]

Facilities and Environmental Monitoring

46. ☑ ☐ Surface sampling is an important component of the maintenance of a suitable microbially controlled environment for compounding CSPs, especially since transfer of microbial contamination from improperly disinfected work surfaces via inadvertent touch contact by compounding personnel can be a potential source of contamination into CSPs. It is useful for evaluating facility and work surface cleaning and disinfecting procedures and employee competency in work practices such as disinfection of component/vial surface cleaning. **Surface sampling shall be performed in all ISO classified areas on a periodic basis.** Sampling can be accomplished using contact plates or swabs, and it **shall be done at the conclusion of compounding. Locations to be sampled shall be defined in a sample plan or on a form.** The size of the plate to be used for each sampled location usually ranges from 24 to 30 cm2. Contact plates are filled with general solid agar growth medium and neutralizing agents above the rim of the plate, and they are used for sampling regular or flat surfaces. Swabs may be used for sampling irregular surfaces, especially for equipment (see Microbiological Control and Monitoring of Aseptic Processing Environments <1116>). [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices, and Cleaning/Disinfection Procedures- Surface Cleaning and Disinfection Sampling and Assessment*]

47. ☑ ☐ The value of viable microbial monitoring of gloved fingertips and surfaces of components and the compounding environment are realized when the data are used to identify and correct an unacceptable work practice. **Sampling data shall be collected and reviewed on a routine basis as a means of evaluating the overall control of the compounding environment. If an activity consistently shows elevated levels of microbial growth, competent microbiology personnel shall be consulted.** [USP-NF Chapter 797- *Environmental Quality and Control - Action Levels, Documentation, and Data Evaluation*]

48. ☑ ☐ Food, drinks, and materials exposed in patient care and treatment areas shall not enter ante-areas, buffer areas, or segregated compounding areas where components and ingredients of CSPs are present. [USP-NF Chapter 797- Environmental Quality and Control- Additional Personnel Requirements]

49. ☑ ☐ **Compounding facilities shall have an adequate space that is specifically designated for compounding of prescriptions. This space shall provide for the orderly placement of equipment and materials to prevent mixups** among ingredients, containers, labels, in-process materials, and finished preparations and is designed, arranged, and used to prevent adventitious cross-contamination. Areas used for sterile preparations shall be separated and distinct from the nonsterile compounding area (see Pharmaceutical Compounding—Sterile Preparations <797>, Environmental Quality and Control). [USP-NF Chapter 795- Compounding Facilities]

50. ☑ ☐ The surfaces of ceilings, walls, floors, fixtures, shelving, counters, and cabinets in the buffer area shall be smooth, impervious, free from cracks and crevices, and nonshedding, thereby promoting cleanability, and minimizing spaces in which microorganisms and other contaminants may accumulate. The surfaces shall be resistant to damage by disinfectant agents. [USP-NF Chapter 797- *Environmental Quality and Control- Facility Design and Environmental Controls]*

51. ☑ ☐ Junctures of ceilings to walls shall be coved or caulked to avoid cracks and crevices where dirt can accumulate. If ceilings consist of inlaid panels, the panels shall be impregnated with a polymer to render them impervious and hydrophobic, and they shall be caulked around each perimeter to seal them to the support frame. [USP-NF Chapter 797- *Environmental Quality and Control- Facility Design and Environmental Controls*]

52. ☑ ☐ Any other penetrations through the ceiling or walls shall be sealed. [USP-NF Chapter 797- *Environmental Quality and Control- Facility Design and Environmental Controls*]

53. ☑ ☐ The buffer area shall not contain sources of water (sinks) or floor drains. [USP-NF Chapter 797- *Environmental Quality and Control- Facility Design and Environmental Controls*]

54. ☑ ☐ Work surfaces shall be constructed of smooth, impervious materials, such as stainless steel or molded plastic, so that they are easily cleaned and disinfected. [USP-NF Chapter 797- *Environmental Quality and Control- Facility Design and Environmental Controls*]

55. ☑ ☐ Storage shelving, counters, and cabinets shall be smooth, impervious, free from cracks and crevices, nonshedding, cleanable, and disinfectable; their number, design, and manner of installation shall promote effective cleaning and disinfection. [USP-NF Chapter 797- *Environmental Quality and Control- Facility Design and Environmental Controls*]

56. ☑ ☐ There shall be some demarcation designation that separates the ante-area from the buffer area. [USP-NF Chapter 797-Environmental Quality and Control- Additional Personnel Requirements]

57. ☑ ☐ **To ensure that product potency is retained through the manufacturer's labeled expiration date, compounding personnel shall monitor the drug storage areas within the compounding facility.** Controlled temperature areas in compounding facilities include controlled room temperature, 20° to 25° with mean kinetic temperature 25°; controlled cold temperature, 2° to 8° with mean kinetic temperature 8°; cold temperature, 2° to 8°; freezing temperature, −25° and −10° (see General Notices and Requirements) if needed to achieve freezing, and the media-specific temperature range for microbial culture media. **A controlled temperature area shall be monitored at least once daily and the results documented on a temperature log. Additionally, compounding personnel shall note the storage temperature when placing the product into or removing the product from the storage unit in order to monitor any temperature aberrations.** Suitable temperature recording devices may include a calibrated continuous recording device or a National Institute of Standards and Technology (NIST) calibrated thermometer that has adequate accuracy and sensitivity for the intended purpose, and it shall be properly calibrated at suitable intervals. **If the compounding facility uses a continuous temperature recording device, compounding personnel shall verify at least once daily that the recording device itself is functioning properly.** [USP-NF Chapter 797- *Storage and Beyond Use Dating- Monitoring Controlled Storage Areas*]

58. ☑ ☐ **Certification that each ISO classified area, for example, ISO Class 5, 7, and 8 (see Table 1), is within established guidelines shall be performed no less than every 6 months and whenever the LAFW, BSC, CAI, or CACI is relocated or the physical structure of the buffer area or ante-area has been altered.** Testing shall be performed by qualified operators using current, state-of-the-art electronic equipment with results of the following: [USP-NF Chapter 797- *Environmental Quality and Control- Viable and Nonviable Environmental Sampling (ES) Testing- Total Particle Counts*]

☑ ISO Class 5: not more than 3520 particles 0.5 mm and larger size per cubic meter of air for any LAFW, BSC, CAI, and CACI;
☑ ISO Class 7: not more than 352,000 particles of 0.5 mm size and larger per cubic meter of air for any buffer area;
☑ ISO Class 8: not more than 3,520,000 particles or 0.5 mm size and larger per cubic meter of air for any ante-area.

59. ☑ ☐ **All certification records shall be maintained and reviewed by supervising personnel or other designated employees** to ensure that the controlled environments comply with the proper air cleanliness, room pressures, and ACPHs. [USP-NF Chapter 797- *Environmental Quality and Control- Viable and Nonviable Environmental Sampling (ES) Testing- Total Particle Counts*]

60. ☑ ☐ A **pressure gauge or velocity meter shall be installed to monitor the pressure** differential or airflow between the buffer area and the ante-area and between the ante-area and the general environment outside the compounding area. [USP-NF Chapter 797- *Environmental Quality and Control- Viable and Nonviable Environmental Sampling (ES) Testing- Pressure Differential Monitoring*]

61. ☑ ☐ **The results shall be reviewed and documented on a log at least every work shift** (minimum frequency shall be at least daily) or by a continuous recording device. [USP-NF Chapter 797- *Environmental Quality and Control- Viable and Nonviable Environmental Sampling (ES) Testing- Pressure Differential Monitoring*]

62. ☑ ☐ **The pressure between the ISO Class 7 (see Table 1) and the general pharmacy area shall not be less than 5 Pa (0.02 inch water column). In facilities where low- and medium-risk level CSPs are prepared, differential airflow shall maintain a minimum velocity of 0.2 meters per second (40 feet per minute) between buffer area and ante-area.** [USP-NF Chapter 797- *Environmental Quality and Control- Viable and Nonviable Environmental Sampling (ES) Testing- Pressure Differential Monitoring*]

63. ☑ ☐ **The buffer area shall maintain at least ISO Class 7 (see Table 1) conditions for 0.5-mm and larger particles under dynamic operating conditions.** The room shall be segregated from surrounding, unclassified spaces to reduce the risk of contaminants being blown, dragged, or otherwise introduced into the filtered unidirectional airflow environment, and this segregation shall be continuously monitored. [USP-NF Chapter 797 - *Environmental Quality and Control- Facility Design and Environmental Controls*]

64. ☑ ☐ For rooms providing a physical separation through the use of walls, doors, and pass-throughs, a minimum differential positive pressure of 0.02- to 0.05- inch water column is required. [USP-NF Chapter 797 - *Environmental Quality and Control- Facility Design and Environmental Controls*]

65. ☑ ☐ For buffer areas not physically separated from the ante-areas, the principle of displacement airflow shall be employed. This concept utilizes a low pressure differential, high airflow principle. Using displacement airflow typically requires an air velocity of 40 ft per minute or more from the buffer area across the line of demarcation into the ante-area. [USP-NF Chapter 797 - *Environmental Quality and Control- Facility Design and Environmental Controls*]

66. ☑ ☐ **An ISO Class 7 (see Table 1) buffer area and ante-area supplied with HEPA-filtered air shall receive an ACPH of not less than 30.** The PEC is a good augmentation to generating air changes in the air supply of an area but cannot be the sole source of HEPA-filtered air. If the area has an ISO Class 5 (see Table 1) recirculating device, a minimum of 15 ACPHs through the area supply HEPA filters is adequate, providing the combined ACPH is not less than 30. [USP-NF Chapter 797- *Environmental Quality and Control- Facility Design and Environmental Controls*]

67. ☑ ☐ **HEPA-filtered supply air shall be introduced at the ceiling, and returns should be mounted low on the wall,** creating a general top-down dilution of area air with HEPA-filtered make-up air. Ceiling-mounted returns are not recommended. [USP-NF Chapter 797- *Environmental Quality and Control- Facility Design and Environmental Controls*]

68. ☑ ☐ **Activities and tasks carried out within the buffer area shall be limited to only those necessary when working within a controlled environment.** Only the **furniture, equipment, supplies, and other material required for the compounding activities to be performed shall be brought into the area, and they shall be nonpermeable, nonshedding, cleanable, and resistant to disinfectants.** Whenever such items are **brought into the area, they shall first be cleaned and disinfected.** Whenever possible, **equipment and other items used in the buffer area shall not be taken out of the area except for calibration, servicing, or other activities associated with the proper maintenance of the item.** [USP-NF Chapter 797- Environmental Quality and Control- Facility Design and Environmental Controls]

69. ☑ ☐ Secondary engineering controls such as buffer areas and ante-areas generally serve as a core for the location of the PEC. **Buffer areas are designed to maintain at least ISO Class 7 (see Table 1) conditions for 0.5-mm particles under dynamic conditions and ISO Class 8 (see Table 1) conditions for 0.5-mm and larger particles under dynamic conditions for the ante-areas.** [USP-NF Chapter 797 *Environmental Quality and Control, Facility Design and Environmental Controls*]

70. ☑ ☐ **PECs (LAFWs, BSCs, CAIs, and CACIs) and secondary engineering controls (buffer and ante-areas)** are essential components of the overall contamination control strategy for aseptic compounding. As such, it is imperative that they perform as designed and that the resulting levels of contamination be within acceptable limits. **Certification procedures such as those outlined in Certification Guide for Sterile Compounding Facilities (CAG-003-2006) shall be performed by a qualified individual no less than every 6 months and whenever the device or room is relocated or altered or major service to the facility is performed.** [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Nonviable Particle Testing Program*]

71. ☑ ☐ PECs typically include, but are not limited to, LAFWs, BSCs, CAIs, and CACIs, which provide an ISO Class 5 (see Table 1) environment for the exposure of critical sites. **PECs shall maintain ISO Class 5 (see Table 1) or better conditions for 0.5-mm particles (dynamic operating conditions) while compounding CSPs.** [USP-NF Chapter 797 -*Environmental Quality and Control, Facility Design and Environmental Controls*]

72. ☑ ☐ **The PEC shall be placed within a buffer area in such a manner as to avoid conditions that could adversely affect their operation.** For example, strong air currents from opened doors, personnel traffic, or air streams from the HVAC systems can disrupt the unidirectional airflow in open-faced workbenches. [USP-NF Chapter 797 - *Environmental Quality and Control, Facility Design and Environmental Controls*]

73. ☑ ☐ **PECs (LAFWs, BSCs, CAIs, and CACIs) shall be located within a restricted access ISO Class 7 (see Table 1) buffer area (see Figure 1),** with the following CAI/CACI exceptions below: [USP-NF Chapter 797 - *Environmental Quality and Control, Facility Design and Environmental Controls*]
☑ Only authorized personnel and materials required for compounding and cleaning shall be permitted in the buffer area.
☑ Presterilization procedures for high-risk level CSPs, such as weighing and mixing, shall be completed in no worse than an ISO Class 8 (see Table 1) environment.
☑ PECs shall be located out of traffic patterns and away from room air currents that could disrupt the intended airflow patterns.

74. ☑ ☐ **CAIs and CACIs shall be placed in an ISO Class 7 (see Table 1) buffer area <u>unless they meet all of the following conditions</u>:** [USP-NF Chapter 797 - *Environmental Quality and Control, Facility Design and Environmental Controls*]
☑ The isolator shall provide isolation from the room and maintain ISO Class 5 (see Table 1) during dynamic operating conditions, including transferring ingredients, components, and devices into and out of the isolator and during preparation of CSPs.
☑ Particle counts sampled approximately 6 to 12 inches upstream of the critical exposure site shall maintain ISO Class 5 (see Table 1) levels during compounding operations.
☑ Not more than 3520 particles (0.5 mm and larger) per m3 shall be counted during material transfer, with the particle counter probe located as near to the transfer door as possible without obstructing the transfer.

75. ☑ ☐ **If the PEC is a CAI or CACI that does not meet the requirements above or is a LAFW or BSC that cannot be located within an ISO Class 7 (see Table 1) buffer area,** then only low-risk level nonhazardous and radiopharmaceutical CSPs pursuant to a physician order for a specific patient may be prepared, and administration of the CSP shall commence within 12 hours of preparation or as recommended in the manufacturer's package insert, whichever is less. [USP-NF Chapter 797 - *Environmental Quality and Control, Facility Design and Environmental Controls*]

76. ☑ ☐ When isolators are used for sterile compounding, the recovery time to achieve ISO Class 5 (see Table 1) air quality shall be documented and internal procedures developed to ensure that adequate recovery time is allowed after material transfer before and during compounding operations. [USP-NF Chapter 797 - Environmental Quality and Control, Facility Design and Environmental Controls]

77. ☑ ☐ Airborne contamination control is achieved in the PEC through the use of HEPA filters. **The airflow in the PEC shall be unidirectional (laminar flow),** and because of the particle collection efficiency of the filter, the "first air" at the face of the filter is, for the purposes of aseptic compounding, **free from airborne particulate contamination. HEPA-filtered air shall be supplied in critical areas (ISO Class 5, see Table 1) at a velocity sufficient to sweep particles away from the compounding area and maintain unidirectional airflow during operations.** Proper design and control prevents turbulence and stagnant air in the critical area. [USP-NF Chapter 797- *Environmental Quality and Control, Facility Design and Environmental Controls*]

78. ☑ ☐ **In situ air pattern analysis via smoke studies shall be conducted** at the critical area to demonstrate unidirectional airflow and sweeping action over and away from the product under dynamic conditions. [USP-NF Chapter 797- *Environmental Quality and Control, Facility Design and Environmental Controls*]

79. ☑ ☐ **Environmental sampling shall occur as part a comprehensive quality management program** and shall occur minimally under any of the following conditions: [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing*]

- ☑ as part of the commissioning and certification of new facilities and equipment;
- ☑ following any servicing of facilities and equipment;
- ☑ as part of the re-certification of facilities and equipment (i.e., every 6 months);
- ☑ in response to identified problems with end products or staff technique; or
- ☑ in response to issues with CSPs, observed compounding personnel work practices, or patient-related infections (where the CSP is being considered as a potential source of the infection).

80. ☑ ☐ Sampling Plan—**An appropriate environmental sampling plan shall be developed for airborne viable particles based on a risk assessment of compounding activities performed. Selected sampling sites shall include locations within each ISO Class 5 (see Table 1) environment and in the ISO Class 7 and 8 (see Table 1) areas and in the segregated compounding areas at greatest risk of contamination** (e.g., work areas near the ISO Class 5 [see Table 1] environment, counters near doors, pass-through boxes). **The plan shall include sample location, method of collection, frequency of sampling, volume of air sampled, and time of day as related to activity in the compounding area and action levels.** [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Viable Airborne Particle Testing Program, Sampling Plan*]

81. ☑ ☐ Growth Medium—**A general microbiological growth medium such as Soybean–Casein Digest Medium shall be used to support the growth of bacteria. Malt extract agar or some other media that supports the growth of fungi shall be used in highrisk level compounding environments.** Media used for surface sampling must be supplemented with additives to neutralize the effects of disinfecting agents (e.g., TSA with lecithin and polysorbate 80). [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Viable Airborne Particle Testing Program, Sampling Plan*]

82. ☑ ☐ Viable Air Sampling—**Evaluation of airborne microorganisms using volumetric collection methods in the controlled air environments** (LAFWs, CAIs, clean room or buffer areas, and ante-areas) **shall be performed by properly trained individuals for all compounding risk levels. Impaction shall be the preferred method of volumetric air sampling.** Use of settling plates for qualitative air sampling may not be able to determine adequately the quality of air in the controlled environment. [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Viable Airborne Particle Testing Program*]

83. ☑ ☐ **For low-, medium-, and high-risk level compounding, air sampling shall be performed at locations that are prone to contamination during compounding activities and during other activities such as staging, labeling, gowning, and cleaning.** Locations shall include zones of air backwash turbulence within LAFW and other areas where air backwash turbulence may enter the compounding area (doorways, in and around ISO Class 5 [see Table 1] PEC and environments). [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Viable Airborne Particle Testing Program*]

84. ☑ ☐ **For low-risk level CSPs with 12-hour or less BUD prepared in a PEC** (LAFWs, BSCs, CAIs) **that maintains an**

ISO Class 5 (see Table 1), **air sampling shall be performed at locations inside the ISO Class 5** (see Table 1) **environment and other areas that are in close proximity to the ISO Class 5** (see Table 1) **environment during the certification of the PEC.** [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Viable Airborne Particle Testing Program*]

85. ☑ ☐ Air Sampling Devices—There are a number of manufacturers of electronic air sampling equipment. It is important that personnel refer to the manufacturer's recommended procedures when using the equipment to perform volumetric air sampling procedures. The instructions in the manufacturer's user's manual for verification and use of electric air samplers that actively collect volumes of air for evaluation must be followed. A **sufficient volume of air (400 to 1000 liters) shall be tested at each location in order to maximize sensitivity. The volumetric air sampling devices need to be serviced and calibrated as recommended by the manufacturer.** [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Viable Airborne Particle Testing Program*]

86. ☑ ☐ Air Sampling Frequency and Process—**Air sampling shall be performed at least semiannually (i.e., every 6 months) as part of the re-certification of facilities and equipment.** If compounding occurs in multiple locations within an institution (e.g., main pharmacy, satellites), environmental sampling is required for each individual compounding area. A sufficient volume of air shall be sampled and the manufacturer's guidelines for use of the electronic air sampling equipment followed. Any facility construction or equipment servicing may require that air sampling be performed during these events. [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Viable Airborne Particle Testing Program*]

87. ☑ ☐ Action Levels, Documentation, and Data Evaluation—The value of viable microbial sampling of the air in the compounding environment is realized when the data are used to identify and correct an unacceptable situation. **Sampling data shall be collected and reviewed on a periodic basis as a means of evaluating the overall control of the compounding environment. If an activity consistently shows elevated levels of microbial growth, competent microbiology personnel shall be consulted.** [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Viable Airborne Particle Testing Program*]

88. ☑ ☐ **Any cfu count that exceeds its respective action level (see Table 2) should prompt a re-evaluation of the adequacy of personnel work practices, cleaning procedures, operational procedures, and air filtration efficiency within the aseptic compounding location. An investigation into the source of the contamination shall be conducted.** Sources could include HVAC systems, damaged HEPA filters, and changes in personnel garbing or work practices. **The source of the problem shall be eliminated, the affected area cleaned, and resampling performed.** [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Viable Airborne Particle Testing Program*]

89. ☑ ☐ The intermediate precision of the **ACD** can be determined on the basis of the day-to-day variations in performance of the accuracy measures. Thus, **compounding personnel shall keep a daily record of the above-described accuracy assessments and review the results over time. This review shall occur at least at weekly intervals to avoid potentially clinically significant cumulative errors over time.** [USP-NF Chapter 797 - *Elements of Quality Control- Verification of Automated Compounding Devices (ACDs) for Parenteral Nutrition Compounding- Precision*]

90. ☑ ☐ **Compounding personnel shall ensure proper storage and security of CSPs prepared hy or dispensed from the compounding facility until either their BUDs are reached or they are administered to patients.** In fulfilling this general responsibility, the compounding facility is responsible for the proper packaging, handling, transport, and storage of CSPs prepared by or dispensed from it, including the appropriate education, training, and supervision of compounding personnel assigned to these functions. The compounding facility should assist in the education and training of noncompounding personnel responsible for carrying out any aspect of these functions. [USP-NF Chapter 797- *Maintaining Sterility, Purity, and Stability of Dispensed and Distributed CSPs*]

91. ☑ ☐ CSPs, as well as all other drug products, shall be stored in the patient-care area in such a way as to secure them from unauthorized personnel, visitors, and patients. [USP-NF Chapter 797- *Maintaining Sterility, Purity, and Stability of Dispensed and Distributed CSPs- Use and Storage*]

Documentation

All facilities that dispense prescriptions must comply with the record keeping requirements of their State Boards of Pharmacy. When a facility compounds a preparation according to the manufacturer's labeling instructions, then further documentation is not required. All other compounded preparations require further documentation as described in this section. [UAC R 156-17b-614a (3)(d)]

92. ☑ ☐ A master formulation record shall be approved by a pharmacist or DMP for each batch of sterile or non-sterile pharmaceuticals to be prepared. Once approved, a duplicate of the master formulation record shall be used as the compounding record from which each batch is prepared and on which all documentation for that batch occurs. The master worksheet sheet may be stored electronically and shall contain at a minimum: [UAC R156-17b-614a(3)(e)(i-xiii)]

☑ official or assigned name
☑ strength
☑ dosage form of the preparation
☑ calculations needed to determine and verify quantities of components and doses of active pharmaceutical ingredients dosage form of the preparation
☑ description of ingredients and their quantities
☑ compatibility and stability information, including references when available
☑ equipment needed to prepare the preparation
☑ container used in dispensing
☑ packaging and storage requirements
☑ description of final preparation
☑ quality control procedures and expected results;
☑ mixing instructions, which shall include: ☑order of mixing ☑ mixing temperatures or other environmental controls ☑ duration of mixing ☑ other factors pertinent to the replication of the preparation as compounded
☑ sample labeling information, which shall contain, in addition to legally required information: ☑ generic name and quantity or concentration of each active ingredient ☑ assigned beyond use date ☑ storage conditions ☑ prescription or control number, whichever is applicable

93. ☑ ☐ A compounding record for each batch of sterile or non-sterile pharmaceuticals shall document the following: [UAC R156-17b-614a(3)(f) (i-xix)]

☑ official or assigned name;
☑ strength and dosage of the preparation;
☑ Master Formulation Record reference for the preparation;
☑ names and quantities of all components
☑ sources, lot numbers, and expiration dates of components;
☑ total quantity compounded;
☑ name of the person who prepared the preparation
☑ name of the compounder who approved the preparation
☑ name of the person who performed the quality control procedures
☑ date of preparation
☑ assigned control, if for anticipation of use or prescription number, if patient specific, whichever is applicable
☑ duplicate label as described in the Master Formulation Record means the sample labeling information that is dispensed on the final product given to the patient and shall at minimum contain: ☑ active ingredients ☑ beyond use date ☑ storage conditions and ☑ lot number;
☑ proof of the duplicate labeling information, which proof shall: ☑ be kept at the pharmacy ☑ be immediately retrievable ☑ include an audit trail for any altered form; and ☑ be reproduced in: the original format that was dispensed, an electronic format, or a scanned electronic version
☑ description of final preparation
☑ results of quality control procedures (e.g. weight range of filled capsules, pH of aqueous liquids); and
☑ documentation of any quality control issues and any adverse reactions or preparation problems reported by the patient or caregiver.

94. ☑ ☐ Compounding records including the master worksheet, preparation worksheet, and MSDS files shall be kept for a minimum of five years and should be immediately retrievable in written or electronic format. [UAC R156-17b-612 (4)]

95. ☑ ☐ The facility maintains documentation regarding an ongoing quality control program that monitors and evaluates personnel performance, equipment and facility's compliance with following the USP-NF Chapters 795 and 797 standards. [UAC R156-17b-614a(3)(h)]

96. ☑ ☐ Results from the equipment calibration, annual maintenance reports, and routine maintenance are kept on file for the lifetime of the equipment. [USP-NF Chapter 797- *Elements of Quality Control- Equipment*]

Compounding Procedures

97. ☑ ☐ **Opened or needle-punctured single-dose containers**, such as bags, bottles, syringes, and vials of sterile products and CSPs **shall be used within 1 hour if opened in worse than ISO Class 5** (see Table 1) air quality (see Immediate-Use CSPs), **and any remaining contents must be discarded.** [USP-NF Chapter 797- *Single-Dose and Multiple-Dose Containers]*

98. ☑ ☐ ☑**Single-dose vials exposed to ISO Class 5** (see Table 1) **or cleaner air may be used up to 6 hours after initial needle puncture.** ☑**Opened single-dose ampuls shall not be stored for any time period.** ☑**Multiple-dose containers** (e.g., vials) **are formulated for removal of portions on multiple occasions because they usually contain antimicrobial preservatives.** The ☑**BUD after initially entering or opening (e.g., needle-punctured) multiple-dose containers is 28 days** (see Antimicrobial Effectiveness Testing <51>) unless otherwise specified by the manufacturer. [USP-NF Chapter 797- *Single-Dose and Multiple-Dose Containers]*

99. ☑ ☐ Wiping with small sterile 70% IPA swabs that are commercially available in individual foil-sealed packages (or a comparable method) is preferred for disinfecting entry points on bags and vials, allowing the IPA to dry before piercing stoppers with sterile needles and breaking necks of ampuls. The **surface of the sterile 70% IPA swabs used for disinfecting entry points of sterile packages and devices sball not contact any other object before contacting the surface of the entry point. Sterile 70% IPA wetted gauze pads or other particle-generating material shall not be used to disinfect the sterile entry points of packages and devices.** [USP-NF Chapter 797- *Environmental Quality and Control - Cleaning and Disinfecting the Compounding Area*]

100. ☑ ☐ Pharmacy Bulk Package (see Containers for Injections under Injections <1>)—A container of a sterile preparation for parenteral use that contains many single doses. The contents are intended for use in a pharmacy admixture program and are restricted to the preparation of admixtures for infusion or, through a sterile transfer device, for the filling of empty sterile syringes. **The closure shall be penetrated only one time after constitution with a suitable sterile transfer device or dispensing set, which allows measured dispensing of the contents.** The pharmacy bulk package is to be used only in a suitable work area such as a laminar flow hood (or an equivalent clean air compounding area). **Where a container is offered as a pharmacy bulk package, the label shall (a) state prominently "Pharmacy Bulk Package—Not for Direct Infusion," (b) contain or refer to information on proper techniques to help ensure safe use of the product, and (c) bear a statement limiting the time frame in which the container may be used once it has been entered, provided it is held under the labeled storage conditions.** [USP-NF Chapter 797- *Definitions*]

101. ☑ ☐ **The licensed healthcare professionals who supervise compounding shall be responsible for determining that the selected sterilization method** (see Methods of Sterilization under Sterilization and Sterility Assurance of Compendial Articles <1211>) both sterilizes and maintains the strength, purity, quality, and packaging integrity of CSPs. [USP-NF Chapter 797 - *Verification of Compounding Accuracy and Sterility, Sterilization Methods*]

102. ☑ ☐ Critical sites are locations that include any component or fluid pathway surfaces (e.g., vial septa, injection ports, beakers) or openings (e.g., opened ampuls, needle hubs) exposed and at risk of direct contact with air (e.g., ambient room or HEPA filtered), moisture (e.g., oral and mucosal secretions), or touch contamination. Protection of critical sites by precluding physical contact and airborne contamination shall be given the highest priority in sterile compounding practice. [USP-NF Chapter 797 - Exposure of Critical Sites]

103. ☑ ☐ **All high-risk level CSPs that are prepared in groups of more than 25 identical individual single-dose packages** (e.g., ampuls, bags, syringes, vials) **or in multiple-dose vials (MDVs) for administration to multiple patients or that are exposed longer than 12 hours at 2° to 8° and longer than 6 hours at warmer than 8° before they are sterilized shall meet the sterility test** (see Sterility Tests <71>) **before they are dispensed or administered.** [USP-NF Chapter 797- *Finished Preparation Release Checks and Tests- Sterility Testing*]

104. ☑ ☐ **All high-risk level CSPs, except those for inhalation and ophthalmic administration, that are prepared in groups of more than 25 identical individual single-dose packages (e.g., ampuls, bags, syringes, vials) or in MDVs for administration to multiple patients or that are exposed longer than 12 hours at 2° to 8° and longer than 6 hours at warmer than 8° before they are sterilized shall be tested to ensure that they do not contain excessive bacterial endotoxins** (see Bacterial Endotoxins Test <85> and Pyrogen Test <151>). In the absence of a bacterial endotoxins limit in the official monograph or other CSP formula source, the CSP shall not exceed the amount of USP Endotoxin Units (per hour per kilogram of body weight or square meters of body surface area) specified in Bacterial Endotoxins Test <85> referenced above for the appropriate route of administration. [USP-NF Chapter 797- *Finished Preparation Release Checks and Tests- Bacterial Endotoxin (Pyrogen) Testing*]

105. ☐ ☑ **Does the facility participate in the following** (check all applicable):
☐ Hazardous Drugs ☐ Radiopharmaceuticals ☐ Allergen Extracts as CSPs

Hazardous Drugs

106. ☐ ☐ **All personnel who compound hazardous drugs shall be fully trained** in the **storage, handling, and disposal** of these drugs. This training **shall occur prior to preparing or handling hazardous CSPs**, and **its effectiveness shall be verified by testing specific hazardous drugs preparation techniques**. Such verification **shall be documented for each person at least annually.** This **training shall include didactic overview** of hazardous drugs, including mutagenic, teratogenic, and carcinogenic properties, and it **shall include ongoing training for each new hazardous drug that enters the marketplace.** [USP- NF Chapter 797- *Hazardous Drugs as CSPs*]

107. ☐ ☐ **Compounding personnel of reproductive capability shall confirm in writing that they understand the risks of handling hazardous drugs.** The training **shall include** at least the following: [USP- NF Chapter 797- *Hazardous Drugs as CSPs*]
- ☐ safe aseptic manipulation practices;
- ☐ negative pressure techniques when utilizing a BSC or CACI;
- ☐ correct use of CSTD devices;
- ☐ containment, cleanup, and disposal procedures for breakages and spills; and
- ☐ treatment of personnel contact and inhalation exposure.

108. ☐ ☐ Hazardous drugs shall be prepared for administration only under conditions that protect the healthcare workers and other personnel in the preparation and storage areas. [USP-NF Chapter 797- *Hazardous Drugs as CSPs*]

109. ☐ ☐ Hazardous drugs shall be stored separately from other inventory in a manner to prevent contamination and personnel exposure. [USP-NF Chapter 797- *Hazardous Drugs as CSPs*]

110. ☐ ☐ Hazardous drugs shall be handled with caution at all times using appropriate chemotherapy gloves during receiving, distribution, stocking, inventorying, preparation for administration, and disposal. [USP-NF Chapter 797- *Hazardous Drugs as CSPs*]

111. ☐ ☐ Hazardous drugs shall be prepared in an ISO Class 5 (see Table 1) environment with protective engineering controls in place and following aseptic practices specified for the appropriate contamination risk levels defined in this chapter. [USP-NF Chapter 797- *Hazardous Drugs as CSPs*]

112. ☐ ☐ Access shall be limited to areas where drugs are stored and prepared to protect persons not involved in drug preparation. [USP-NF Chapter 797- *Hazardous Drugs as CSPs*]

113. ☐ ☐ **All hazardous drugs shall be prepared in a BSC or a CACI that meets or exceeds the standards for CACI in this chapter. The ISO Class 5** (see Table 1) **BSC or CACI shall be placed in an ISO Class 7** (see Table 1) **area that is physically separated** (i.e., a different area from other preparation areas) **and optimally has not less than 0.01-inch water column negative pressure to adjacent positive pressure ISO Class 7** (see Table 1) **or better ante-areas, thus providing inward airflow to contain any airborne drug. A pressure indicator shall be installed that can be readily monitored for correct room pressurization.** [USP-NF Chapter 797- *Hazardous Drugs as CSPs*]

114. ☐ ☐ If a CACI that meets the requirements of this chapter is used outside of a buffer area, the compounding area shall maintain a minimum negative pressure of 0.01-inch water column and have a minimum of 12 ACPHs. [USP-NF Chapter 797- *Hazardous Drugs as CSPs*]

115. ☐ ☐ **When closed-system vial-transfer devices** (CSTDs) (i.e., vial-transfer systems that allow no venting or exposure of hazardous substance to the environment) **are used, they shall be used within the ISO Class 5 (see Table 1) environment of a BSC or CACI.** The use of a CSTD is preferred because of their inherent closed system process. In facilities that prepare a low volume of hazardous drugs, the use of two tiers of containment (e.g., CSTD within a BSC or CACI that is located in a non-negative pressure room) is acceptable. [USP-NF Chapter 797- *Hazardous Drugs as CSPs*]

116. ☐ ☐ **Appropriate personnel protective equipment (PPE) shall be worn when compounding in a BSC or CACI and when using CSTD devices.** PPE should include gowns, face masks, eye protection, hair covers, shoe covers or dedicated shoes, double gloving with sterile chemo-type gloves, and compliance with manufacturers' recommendations when using a CACI. [USP-NF Chapter 797- *Hazardous Drugs as CSPs*]

117. ☐ ☐ Compounding personnel of reproductive capability shall confirm in writing that they understand the risks of handling hazardous drugs. [USP-NF Chapter 797- *Hazardous Drugs as CSPs*]

118. ☐ ☐ All personnel who compound hazardous drugs shall be fully trained in the storage, handling, and disposal of these drugs. This training shall occur prior to preparing or handling hazardous CSPs, and its effectiveness shall be verified by testing specific hazardous drugs preparation techniques. Such verification shall be documented for each person at least annually. This training shall include didactic overview of hazardous drugs, including mutagenic, teratogenic, and carcinogenic properties, and it shall include ongoing training for each new hazardous drug that enters the marketplace. [USP-NF Chapter 797- *Hazardous Drugs as CSPs*]

119. ☐ ☐ **Disposal of all hazardous drug wastes shall comply with all applicable federal and state regulations.** All **personnel** who perform routine custodial waste removal and cleaning activities in storage and preparation areas for hazardous drugs **shall be trained** in appropriate procedures to protect themselves and prevent contamination. [USP-NF Chapter 797- *Hazardous Drugs as CSPs*]

<u>Radiopharmaceuticals</u>

120. ☐ ☐ For the purposes of this chapter, **radiopharmaceuticals compounded from sterile components in closed sterile containers and with a volume of 100 mL or less for a single-dose injection or not more than 30 mL taken from a multiple-dose container (see Injections <1>) shall be designated as, and conform to, the standards for Low-Risk Level CSPs.** These radiopharmaceuticals **shall be compounded using appropriately shielded vials and syringes in a properly functioning and certified ISO Class 5 (see Table 1) PEC located in an ISO Class 8 (see Table 1) or cleaner air environment to permit compliance with special handling, shielding, and negative air flow requirements.** [USP-NF Chapter 797- *Radiopharmaceuticals as CSPs*]

121. ☐ ☐ **Radiopharmaceuticals prepared as Low-Risk Level CSPs with 12-Hour or Less BUD shall be prepared in a segregated compounding area.** A line of demarcation defining the segregated compounding area shall be established. Materials and garb exposed in a patient care and treatment area shall not cross a line of demarcation into the segregated compounding area. [USP-NF Chapter 797- *Radiopharmaceuticals as CSPs*]

<u>Allergen Extracts as CSPs</u>

122. ☐ ☐ Allergen extracts as CSPs are single-dose and multiple-dose intradermal or subcutaneous injections that are prepared by specially trained physicians and personnel under their direct supervision. **Allergen extracts as CSPs are not subject to the personnel, environmental, and storage requirements for all CSP Microbial Contamination Risk Levels in this chapter only when all of the following criteria are met:** [USP-NF Chapter 797- Allergen Extracts as CSPs]

☐ The compounding process involves simple transfer via sterile needles and syringes of commercial sterile allergen products and appropriate sterile added substances (e.g., glycerin, phenol in sodium chloride injection).
☐ All allergen extracts as CSPs shall contain appropriate substances in effective concentrations to prevent the growth of microorganisms. Nonpreserved allergen extracts shall comply with the appropriate CSP risk level requirements in the chapter.
☐ Before beginning compounding activities, personnel perform a thorough hand-cleansing procedure by removing debris from under fingernails using a nail cleaner under running warm water followed by vigorous hand and arm washing to the elbows for at least 30 seconds with either nonantimicrobial or antimicrobial soap and water.
☐ Compounding personnel don hair covers, facial hair covers, gowns, and face masks.
☐ Compounding personnel perform antiseptic hand cleansing with an alcohol-based surgical hand scrub with persistent activity.
☐ Compounding personnel don powder-free sterile gloves that are compatible with sterile 70% isopropyl alcohol (IPA) before beginning compounding manipulations.
☐ Compounding personnel disinfect their gloves intermittently with sterile 70% IPA when preparing multiple allergen extracts as CSPs.
☐ Ampul necks and vial stoppers on packages of manufactured sterile ingredients are disinfected by careful wiping with sterile 70% IPA swabs to ensure that the critical sites are wet for at least 10 seconds and allowed to dry before they are used to compound allergen extracts as CSPs.
☐ The aseptic compounding manipulations minimize direct contact contamination (e.g., from glove fingertips, blood, nasal and oral secretions, shed skin and cosmetics, other nonsterile materials) of critical sites (e.g., needles, opened ampuls, vial stoppers).
☐ The label of each multiple-dose vial (MDV) of allergen extracts as CSPs lists the name of one specific patient and a BUD and storage temperature range that is assigned based on manufacturers' recommendations or peer-reviewed publications.
☐ Single-dose allergen extracts as CSPs shall not be stored for subsequent additional use.

Sterilization

123. ☑ ☐ Does the facility participate in the following (check all applicable):
☑ Filter Sterilization in an ISO class 5 ☐ Steam Sterilization ☐ Dry Heat Sterilization

124. ☑ ☐ **(Filter Sterilization in an ISO class 5)**
Commercially available sterile filters shall be approved for human-use applications in sterilizing pharmaceutical fluids. **Sterile filters used to sterilize CSPs shall be pyrogen free and have a nominal pore size of 0.2 or 0.22 mm.** They shall be certified by the manufacturer to retain at least 107 microorganisms of a strain of Brevundimonas (Pseudomonas) diminuta on each square centimeter of upstream filter surface area under conditions similar to those in which the CSPs will be sterilized (see High-Risk Conditions in High-Risk Level CSPs). [USP-NF Chapter 797 - *Verification of Compounding Accuracy and Sterility- Sterilization Methods- Sterilization of High-Risk Level CSPs by Filtration*]

125. ☑ ☐ **The compounding supervisor shall ensure,** directly or from appropriate documentation, that **the filters** are chemically and physically stable at the pressure and temperature conditions to be used, that they have enough capacity to filter the required volumes, and that they will achieve sterility and maintain prefiltration pharmaceutical quality, including strength of ingredients of the specific CSP. [USP-NF Chapter 797 - *Verification of Compounding Accuracy and Sterility- Sterilization Methods- Sterilization of High-Risk Level CSPs by Filtration*]

126. ☑ ☐ The filter dimensions and liquid material to be sterile-filtered shall permit the sterilization process to be completed rapidly, without the replacement of the filter during the process. [USP-NF Chapter 797 - *Verification of Compounding Accuracy and Sterility- Sterilization Methods- Sterilization of High-Risk Level CSPs by Filtration*]

127. ☑ ☐ Filter units used to sterilize CSPs shall also be subjected to manufacturers' recommended integrity test, such as the bubble point test. [USP-NF Chapter 797 - *Verification of Compounding Accuracy and Sterility- Sterilization Methods- Sterilization of High-Risk Level CSPs by Filtration*]

128. ☑ ☐ Compounding personnel shall ascertain that selected filters will achieve sterilization of the particular CSPs being sterilized. [USP-NF Chapter 797 - *Verification of Compounding Accuracy and Sterility- Sterilization Methods- Sterilization of High-Risk Level CSPs by Filtration*]

129. ☐ ☐ **(Steam Sterilization)**
The process of thermal sterilization employing saturated steam under pressure, or autoclaving, is the preferred method to terminally sterilize aqueous preparations that have been verified to maintain their full chemical and physical stability under the conditions employed (see Steam Sterilization under Sterilization and Sterility Assurance of Compendial Articles <1211>).**To achieve sterility, all materials are to be exposed to steam at 121° under a pressure of about 1 atmosphere or 15 psi for the duration verified by testing to achieve sterility of the items, which is usually 20 to 60 minutes for CSPs.** An allowance shall be made for the time required for the material to reach 121° before the sterilization exposure duration is timed. [USP-NF Chapter 797- *Verification of Compounding Accuracy and Sterility- Sterilization Methods- Sterilization of High-Risk Level CSPs by Steam*]

130. ☐ ☐ Not directly exposing items to pressurized steam may result in survival of microbial organisms and spores. Before their sterilization, plastic, glass, and metal devices are tightly wrapped in low-particle-shedding paper or fabrics or sealed in envelopes that prevent poststerilization microbial penetration. **Immediately before filling ampuls and vials that will be steam sterilized, solutions are passed through a filter having a nominal pore size not larger than 1.2 mm for removal of particulate matter. Sealed containers shall be able to generate steam internally; thus, stoppered and crimped empty vials shall contain a small amount of moisture to generate steam.** [USP-NF Chapter 797- *Verification of Compounding Accuracy and Sterility- Sterilization Methods- Sterilization of High-Risk Level CSPs by Steam*]

131. ☐ ☐ The description of steam sterilization conditions and duration for specific CSPs shall be included in written documentation in the compounding facility. The effectiveness of steam sterilization shall be verified using appropriate BIs of Bacillus stearothermophilus (see Biological Indicators <1035>) and other confirmation methods such as temperature-sensing devices (see Sterilization and Sterility Assurance of Compendial Articles <1211> and Sterility Tests <71>). [USP-NF Chapter 797- *Verification of Compounding Accuracy and Sterility- Sterilization Methods- Sterilization of High-Risk Level CSPs by Steam*]

132. ☐ ☐ **(Dry Heat Sterilization)**
Dry heat sterilization is usually done as a batch process in an oven designed for sterilization. **Heated filtered air shall be evenly distributed throughout the chamber by a blower device.** [USP-NF Chapters 797- *Verification of Compounding Accuracy and Sterility- Sterilization Method- Sterilization of High-Risk Level CSPs by Dry Heat*]

133. ☐ ☐ **Dry heat shall be used only for those materials that cannot be sterilized by steam,** when either the moisture would damage the material or the material is impermeable. [USP-NF Chapters 797- *Verification of Compounding Accuracy and Sterility-, Sterilization Method- Sterilization of High-Risk Level CSPs by Dry Heat*]

134. ☐ ☐ During sterilization, sufficient space shall be left between materials to allow for good circulation of the hot air. [USP-NF Chapters 797- *Verification of Compounding Accuracy and Sterility- Sterilization Method- Sterilization of High-Risk Level CSPs by Dry Heat*]

135. ☐ ☐ The description of dry heat sterilization conditions and duration for specific CSPs shall be included in written documentation in the compounding facility. [USP-NF Chapters 797- *Verification of Compounding Accuracy and Sterility- Sterilization Method- Sterilization of High-Risk Level CSPs by Dry Heat*]

136. ☐ ☐ The effectiveness of dry heat sterilization shall be verified using appropriate BIs of Bacillus subtilis (see Biological Indicators <1035>) and other confirmation methods such as temperature- sensing devices (see Sterilization and Sterility Assurance of Compendial Articles <1211> and Sterility Tests <71>). [USP-NF Chapters 797- *Verification of Compounding Accuracy and Sterility- Sterilization Method- Sterilization of High-Risk Level CSPs by Dry Heat*]

Finished Preparation Release Checks and Tests

137. ☑ ☐ **All CSPs that are intended to be solutions shall be visually examined for the presence of particulate matter and not administered or dispensed when such matter is observed.** The prescription orders, written compounding procedure, preparation records, and expended materials used to make CSPs at all contamination risk levels are inspected for accuracy of correct identities and amounts of ingredients, aseptic mixing and sterilization, packaging, labeling, and expected physical appearance before they are administered or dispensed. [USP- NF Chapter 797- Finished Preparation Release Checks and Tests- Inspection of Solution Dosage Forms and Review of Compounding Procedures

138. ☑ ☐ **The accuracy of identities, concentrations, amounts, and purities of ingredients in CSPs shall be confirmed by reviewing labels on packages, observing and documenting correct measurements with approved and correctly standardized devices, and reviewing information in labeling and certificates of analysis provided by suppliers.** When the correct identity, purity, strength, and sterility of ingredients and components of CSPs cannot be confirmed (in cases of, for example, unlabeled syringes, opened ampuls, punctured stoppers of vials and bags, containers of ingredients with incomplete labeling), such ingredients and components shall be discarded immediately. [USP-NF Chapter 797- *Verification of Compounding Accuracy and Sterility*]

139. ☑ ☐ The label of each batch prepared of sterile or non-sterile pharmaceuticals shall bear at a minimum: [UAC R156-17b-614a (3)(g)(i-vi)

☑ the unique lot number assigned to the batch;
☑ all active solution and ingredient names, amounts strengths and concentrations, where applicable
☑ quantity
☑ beyond use date and time, when applicable
☑ appropriate ancillary instructions, such as storage instructions or cautionary statements, including cytotoxic warning labels where appropriate; and
☑ device-specific instructions, where appropriate.

140. ☑ ☐ All prescription labels for compounded sterile and non-sterile medications when dispensed to the ultimate user or agent shall bear at a minimum in addition to what is required in Section 58-17b-602 the following: [R156-17b-614a (3)(h)(i)(ii)(iii)

☑ generic name a quantity or concentration of each active ingredient. In the instance of a sterile preparation for parenteral use, labeling shall include the name and base solution for infusion preparation;
☑ assigned compounding record or lot number; and
☑ "this is a compounded preparation" or similar language

Packaging and Storage

141. ☑ ☐ Compounding facilities that ship CSPs to locations outside their own premises shall select modes of transport that are expected to deliver properly packed CSPs in undamaged, sterile, and stable condition to recipients. [USP-NF Chapter 797- *Maintaining Sterility, Purity, and Stability of Dispensed and Distributed CSPs- Packing and Transporting CSPs- Transit of CSPs*]

142. ☑ ☐ Compounding personnel should ascertain that temperatures of CSPs during transit by the selected mode will not exceed the warmest temperature specified on the storage temperature range on CSP labels. It is recommended that compounding personnel communicate directly with the couriers to learn shipping durations and exposure conditions that CSPs may encounter. [USP-NF Chapter 797- *Maintaining Sterility, Purity, and Stability of Dispensed and Distributed CSPs- Packing and Transporting CSPs- Transit of CSPs*]

143. ☑ ☐ Compounding facilities that ship CSPs to patients and other recipients outside their own premises shall ascertain or provide, whichever is appropriate, the following assurances: [USP-NF Chapter 797- *Maintaining Sterility, Purity, and Stability of Dispensed and Distributed CSP- Storage in Locations Outside Compounding Facilities*]

☑ Labels and accessory labeling for CSPs include clearly readable BUDs, storage instructions, and disposal instructions for out-of-date units.
☑ Each patient or other recipient is able to store the CSPs properly, including the use of a properly functioning refrigerator and freezer if CSPs are labeled for such storage.

144. ☑ ☐ **Inspections shall confirm compliance with appropriate storage conditions, separation of drugs and food, proper use of MDVs, and the avoidance of using single-dose products as MDVs.** CSPs, as well as all other drug products, shall be stored in the patient-care area in such a way as to secure them from unauthorized personnel, visitors, and patients. [USP- NF Chapter 797- *Finished Preparation Release Checks and Tests- Monitoring Controlled Storage Areas*]

145. ☑ ☐ Personnel who prepare, dispense, and administer CSPs shall store them strictly in accordance with the conditions stated on the label of ingredient products and finished CSPs. [USP-NF Chapter 797- Storage and Beyond-use Dating]

Quality Assurance Program

146. ☑ ☐ The assurance of CSPs' quality and packaging integrity is highly dependent on the proper adherence of all personnel to the pertinent SOPs. **Compounding personnel shall design, implement, and maintain a formal education, training, and competency assessment program that encompasses all the functions and tasks addressed in the foregoing sections and all personnel to whom such functions and tasks are assigned.** This program includes the assessment and documentation of procedural breaches, administration mishaps, side effects, allergic reactions, and complications associated with dosage or administration, such as extravasation. This program should be coordinated with the institution's adverse-events and incident reporting programs. [USP-NF Chapter 797- *Maintaining Sterility, Purity, and Stability of Dispensed and Distributed CSPs- Education and Training*]

147. ☑ ☐ **A provider of CSPs shall have in place a formal QA program intended to provide a mechanism for monitoring, evaluating, correcting, and improving the activities and processes described in this chapter.** Emphasis in the QA program is placed on maintaining and improving the quality of systems and the provision of patient care. In addition, the QA program ensures that any plan aimed at correcting identified problems also includes appropriate follow-up to make certain that effective corrective actions were performed. Characteristics of a QA program include the following: [USP-NF Chapter 797- *Quality Assurance (QA) Program*]

☑ Formalization in writing;
☑ Consideration of all aspects of the preparations and dispensing of products as described in this chapter, including environmental testing and verification results;
☑ Description of specific monitoring and evaluation activities;
☑ Specification of how results are to be reported and evaluated;
☑ Identification of appropriate follow-up mechanisms when action limits or thresholds are exceeded; and
☑ Delineation of the individuals responsible for each aspect of the QA program.

148. ☑ ☐ A written quality assurance procedure includes the following in-process checks that are applied, as appropriate, to specific CSPs: [USP-NF Chapter 797- *Responsibilities of Compounding Personnel*]

☑ accuracy and precision of measuring and weighing;
☑ the requirement for sterility;
☑ methods of sterilization and purification;
☑ safe limits and ranges for strength of ingredients, bacterial endotoxins, and particulate matter;
☑ pH;
☑ labeling accuracy and completeness;
☑ BUD assignment;
☑ and packaging and storage requirements.

149. ☑ ☐ Compounding facilities shall clinically monitor patients treated with CSPs according to the regulations and guidelines of their respective state healthcare practitioner licensure boards or of accepted standards of practice. **Compounding facilities shall provide patients and other recipients of CSPs with a way to address their questions and report any concerns that they may have with CSPs and their administration devices.** [USP-NF Chapter 797- *Patient Monitoring and Adverse Events Reporting*]

COMMENTS
(Use an additional sheet if necessary.)

* Assisted by Owner Alan Ha and PIC Sara Dewitt.

* Tour of compounding area conducted.

* Pharmacy is currently compounding solely Semaglutide and tirzepatide. All compounded drug is pursuant to a prescription.

* Patient labeling compliant.

* Pharmacy uses an ISO 5 LAFW within an ISO 8 and ISO 7 room.

* Compounding procedures witnessed.

* Clean room certification reviewed. Compliant.

* Cleaning procedures and documentation reviewed.

* Training procedures and documentation reviewed.

* Media-fill testing and fingertip sampling reviewed.

* Hand garbing and gowning procedures reviewed.

* Equipment calibration procedures and documentation reviewed.

* Compounding Records (CR) reviewed.

* Clean room temperature monitoring reviewed. Compliant.

* Clean room pressures reviewed. Compliant.

* SOPs reviewed. I recommend modifying SOPs to accurately reflect the compounding procedures being conducted at the pharmacy.

INSPECTION

	YES	NO	
1	☑	☐	The facility shall maintain a current list of licensed employees involved in the practice of the pharmacy at the facility. The list shall include individual licensee names, license classifications, license numbers, and license expiration dates. The list shall be readily retrievable. The list may be maintained in paper or electronic form. [UAC R156-17b-614a (5)(a)(i-vi)(b)]
2	☑	☐	Notification has been provided to the Division in regards to the unique email address used for self audits or pharmacy alerts. The pharmacy will notify the division of any change in the email address within seven days of the change. [UAC R156-17b-603 (2) and (3) (t) (i-ii)]
3	☑	☐	Notification has been provided to the Division in regards to the assignment of the PIC at the above stated pharmacy. The Division is notified of a change in PIC within 30 days of the change. [UAC R156-17b-603 (3) (s)]
4	☑	☐	If the facility has a pharmacy technician training program, the program and curriculum of education and training, meets standards established by Division rule made in collaboration with the Board. [UAC R156-17b-303a (3)] ☐ N/A
5	☑	☐	A pharmacy technician trainee shall practice only under the direct supervision of a pharmacist, and in a ratio not to exceed one pharmacy technician trainee to one pharmacist or two pharmacy technician trainees to one pharmacist, if a licensed pharmacy technician or intern is working during the same shift. [UAC R156-17b-601(4)(a)(i-ii)]
6	☑	☐	A licensed pharmacy technician shall practice under the general supervision of a licensed pharmacist. [UCA 58-17b-102 (57)]
7	☑	☐	A pharmacy technician may administer vaccines and emergency medications pursuant to delegation by a pharmacist... And is under "direct", on-site supervision by the delegating pharmacist as defined in R156-1-102a(4)(a); [UAC R156-17b-601 (3)(b)]
8	☑	☐	The operating standards for a Pharmacist acting as a preceptor includes meeting the following criteria by providing direct, on-site supervision to no more than two pharmacy interns during a working shift. [UAC R156-17b-606(3)(a)]
9	☑	☐	In accordance with Subsecton 58-17b-102(72)(b) all supportive personnel shall be under the supervision of a licensed pharmacist or DMP. The licensed pharmacist or DMP shall be present in the area where the person being supervised is performing services and shall be immediately available to assist the person being supervised in the serivces being performed expect for the delivery of pre-filled prescriptions as provided in Subsection (1)(g) above. [UAC R156-17b-607 (3)]
10	☑	☐	In accordance with Subsection 58-17b-102(72)(a), supportive personnel may assist in any tasks not related to drug preparation or processing, including: [UAC R156-17b-607 (1)(a-g)]

- ☑ stock ordering and restocking;
- ☑ cashiering;
- ☑ billing;

☑ filing;
☑ receiving a written prescription and delivering it to the pharmacist, pharmacy intern, pharmacy technician, pharmacy technician trainee, DMP, or DMP designee;
☑ housekeeping;
☑ delivering a pre-filled prescription to a patient.

11 ☑ ☐ The pharmacist-in-charge (PIC) is responsible for assuring that no pharmacy or pharmacist operates the pharmacy or allows operation of the pharmacy with a ratio of pharmacist to pharmacy personnel which, under the circumstances of the particular practice setting, results in, or reasonably would be expected to result in, an unreasonable risk of harm to public health, safety, and welfare. [UAC R156-17b-603 (3) (r)]

12 ☑ ☐ All individuals employed in a pharmacy facility having any contact with the public or patients receiving services from that pharmacy facility does wear on their person a clearly visible and readable identification showing the individual's name and position. [UCA 58-17b-603 (1)]

13 ☑ ☐ When communicating by any means, written, verbal, or electronic, pharmacy personnel do identify themselves as to licensure classification. [UCA 58-17b-603 (2)]

14 ☑ ☐ The facility or parent company shall maintain a record for not less than five years of the initials or identification codes that identify each dispensing pharmacist by name. The initials or identification code shall be unique to ensure that each pharmacist can be identified; therefore identical initials or identification codes shall not be used. [UAC R156-17b-614a (8)]

15 ☑ ☐ The facility does have current and retrievable editions of the following reference publications in print or electronic format and readily available and retrievable to facility personnel: [UAC R156-17b-614a (4) (a-k)]

☑ UCA 58-1 (DOPL Licensing Act)
☑ UAC R156-1 (General Rules of DOPL)
☑ UCA 58-17b (Pharmacy Practice Act)

☑ FDA Approved Drug Product(Orange Book)
☑ General Drug References

16 ☑ ☐ The facility is well lighted, ventilated, clean and sanitary. [UAC R156-17b-614a (1) (a)]

17 ☑ ☐ If transferring a drug from a manufacturer's or distributor's original container to another container, the dispensing area, shall have a sink with hot and cold culinary water separate and apart from restroom facilities. All required equipment shall be clean and in good operating condition. [UAC R156-17b-614a (1) (b)]

18 ☑ ☐ The facility is equipped to permit the orderly storage of prescription drugs and durable medical equipment in a manner to permit clear identification, separation and easy retrieval of products and an environment necessary to maintain the integrity of the product inventory. [UAC R156-17b-614a (1) (c)]

19 ☑ ☐ The facility is equipped to permit practice within the standards and ethics of the profession as dictated by the usual and ordinary scope of practice to be conducted within that facility. [UAC R156-17b-614a (1) (e)]

20 ☑ ☐ All out of date legend drugs and controlled substances shall be removed from the inventory at regular intervals and in correlation to the beyond use date imprinted on the label. [UAC R156-17b-605(1)]

21 ☑ ☐ The facility is stocked with the quality and quantity of product necessary for the facility to meet its scope of practice in a manner consistent with the public health, safety and welfare. [UAC R156-17b-614a (1) (f)]

22 ☑ ☐ If dispensing controlled substances, the facility is equipped with a security system to permit detection of entry at all times when the facility is closed, and provide notice of unauthorized entry to an individual, and be equipped with a lock on any entrances to the facility where drugs are stored. [UAC R156-17b-614a (1)(g)(i-ii)(h)(i-ii)]

23 ☐ ☑ If the pharmacy does not store drugs in a locked cabinet and has a drop/false ceiling, the pharmacy's perimeter walls shall extend to the hard deck, or other measures shall be taken to prevent unauthorized entry into the pharmacy. [UAC R156-17b-614a (15)] ☐ N/A

24 ☑ ☐ Only a licensed Utah pharmacist or authorized pharmacy personnel does have access to the pharmacy when the pharmacy is closed. [UAC R156-17b-614a (7)]

25 ☑ ☐ A pharmacy shall not dispense a prescription drug or device to a patient unless a pharmacist is physically present and immediately available in the facility. [UAC R156- 17b-614a (6)]

26 ☑ ☐ The temperature of the pharmacy is maintained within a range compatible with the proper storage of the drugs. [UAC R156-17b-614a (3)]

27 ☑ ☐ The temperature of the refrigerator and freezer is maintained within a range compatible with the proper storage of drugs requiring refrigeration or freezing. Remarks

The buffer room floor had cracks & crevices.

The entrance to the buffer area is not hands free.

The pharmacy compounds glp-1 (Semeglutide/Pyridoxine and Tirzepatide/Pyridoxine), IDPN, IPN.

Powder hood is inside buffer room with LAFW.

The pharmacy establishes BUDs for CSP- TPNs 10 days refrigerated and GLP-1 45 days (sterility tested)

The pharmacy does not perform prefiltered terminal sterilzation high risk sterile solutions.

The ante-area sink has one lever and the water was warm. Per owner, the sink temperature can be adjusted.

High-risk CSPs are compounded in a buffer area that does not provide physical separation from other compounding areas.

An inspector from a Qualified Vendor has inspected your pharmacy on behalf of the Texas State Board of Pharmacy. The results of this inspection are noted. The inspection report will be submitted to the Texas State Board of Pharmacy for further review.

Section 2: Sterile Compounding Questions (Use a separate piece of paper if additional space is needed.)

1. What risk level sterile compounding will your facility be performing (check all that apply)?

☐ Category 1 ■ Category 2 ■ Category 3

If you marked "**Category 3**", you must also complete **section 4.**

2. If compounding Category 2 products is the location performing sterility and endotoxin testing (if required) to obtain extended beyond-use dates? ■ Yes ☐ No

3. If compounding Category 2 products is the location performing aseptically processed CSPs or terminally sterilized CSPs? ■ Aseptic ☐ Terminal

4. Is the pharmacy following the new garbing requirements listed in the revised USP-797 guidelines? ■ Yes ☐ No

5. When was the most recent certification for the ISO classified areas? December 2025

6. What is the frequency of the recertification for the ISO classified areas? every 6 months

7. Were there any follow-up items required from the most recent certification report? ☐ Yes ■ No

8. If preparing Category 2 or Category 3 CSPs from non-sterile starting components are the pre-sterilization procedures such as weighing and mixing completed in an ISO Class 8 or better environment? ■ Yes ☐ No

9. If compounding Category 1 CSPs and Category 2 CSPs how often is surface sampling of all classified areas and pass-through chambers conducted? weekly surface sampling

10. Will you be performing sterile hazardous drug compounding? ■ Yes ☐ No

If you marked "**Yes**", you must also complete **section 3.**

11. List the sterile compounded products that you will be compounding for Nevada patients or consumers:

Leuprolide 200 mcg/mL (from Acetate)(Microdose) Injection (10 mL vial)
Leuprolide 5 mg/mL (from acetate) (0.4 mL) Syringe
Leuprolide 5 mg/mL (from acetate) (0.8 mL) Syringe
LEUPROLIDE ACETATE 500MCG/ML (5ML VIAL) SOLUTION
Progesterone 50 mg/mL Ethyl Oleate Injection (10 mL vial)
Progesterone 100 mg/mL Ethyl Oleate Injection (10 mL vial)

12. What laboratory performs your sterility or endotoxin testing?

Name: Pharmetric Lab

Address: 11880 28th Street North Suite #210

City: St. Petersburg State: FL Zip: 33716

Telephone: 727-209-5778

13. What is your procedure for visual inspection of compounded sterile products?
3.2.3 Visually inspect for: Container leaks
Integrity
Cloudiness or separation
Appropriate color, odor
Appropriate volume, viscosity
Particles (swirl against light/dark)
Under white and UV light.

14. How often do you perform glove fingertip and medial fill testing?
3 x gloved fingertip first time - then once every 3 months - gloved fingertip.
1 media fill first time, then once every 3 months - media fill

15. Describe your initial and ongoing training program for all personnel performing sterile compounding:
3.9 All staff involved with compounding activities must undergo continuing education related to pharmacy compounding and annual competency assessment
Equipment training and competency assessment must be performed before using equipment (or overseeing the use of equipment) and upon evidence of poor technique.Compounding technique must be observed by a qualified person with media fills (and observed competency assessments that includes interviewing personnel) to assess sterile compounding skills prior to first performing sterile compounding (or overseeing sterile compounding) and repeated every three months (Category 3 compounders) and every six months (Category 2 compounders) and every twelve months (Oversight personnel who do not compound) and upon evidence of poor technique.

16. Describe the cleaning procedure for your primary and secondary engineering controls, including the frequency of cleaning and the names of cleaning, disinfectant, sporicidal, and/or deactivation and decontamination agents used:
Nonhazardous PEC cleaned and disinfected at the beginning of each day use with TB1, when spills occur, and when contamination is known or suspected. then same process with sterile water within the PEC, then followed by sterile 70%IPA applied to horizontal work surface until try before compounding each batch and at least every 30 minutes. If the compounding process takes more than 30 minutes, compounding will not be disrupted, and the work surface must be wiped immediately after compounding. SEC Work surfaces, pass-throughs, high tough areas, sink, and floors cleaned each day compounding occurs with dedicated mops. Hazardous PEC and surface areas - Peridox RTU must be used as follows to deactivate, decontaminate, clean, and disinfect HD areas Remove excess liquid from surface to be treated using a dry wiper. Saturate a new dry wiper with Peridox RTU solution. Clean the surface with the saturated wiper, utilizing overlapping, unidirectional strokes. Repeat steps 2-3. Leave the surface wet with Peridox RTU for at least 3 minutes. Finish by wiping surface with 70% Isopropyl alcohol. Discard contaminated wipers in trace hazardous waste container.
All surface areas for all PEC and SEC are cleaned every week. All areas including ceilings and walls are cleaned every month with TB1, Peridox (x 2 if hazardous)(x 1 if nonhazardous), and IPA 70% thereafter.

17. Who performs the sterile compounding process at your facility?

Pharmacy technicians who are sterile compounding certified with 40 CEU programs (includes performance evaluations to

18. Who is responsible and accountable for the sterile compounding process at your facility?
Designated person(s)&
Joah Sundrani VP of Compliance and Compounding Innovation

19. If products are shipped/mailed, what shipping conditions are used to ensure product safety/efficacy?
Packaging
o Kangaroo Packaging 12 x 14"
o Cold Shipping 24-ounce brick Nordic Ice (x 2 during hotter temperatures)

Section 3: Sterile Hazardous Compounding Questions (Complete this section ONLY if you be performing Sterile Hazardous Compounding.)		
1. What type of primary engineering controls will you be using in your facility? LAFW for nonhazardous BSC for hazardous		
2. Are you complying with all USP 800 guidelines?	■ Yes	☐ No
3. Have your employees who compound with hazardous drugs signed an acknowledgement that they understand the risks associated with this process?	■ Yes	☐ No
4. Is your BSC or CACI vented 100% to the outside?	■ Yes	☐ No
5. Do you have a negative pressure buffer room at your facility?	■ Yes	☐ No
6. Will you be compounding with antineoplastic HDs or HD API?	■ Yes	☐ No
7. If yes, are the drugs stored in an externally ventilated, negative pressure room?	☐ Yes	■ No
8. Will you be utilizing a closed system transfer device?	☐ Yes	■ No
9. If yes, list the name of the device: hazardous drugs are stored in a negatively pressured room		

10. What information is provided to the patient or consumer on the proper handling and disposal of hazardous drugs products/containers?

Safe Handling of Hazardous drug statement is on patient education sheets.
Wash your hands before and after handling the hazardous medicine.
Use disposable gloves, medicine cups, or gowns if you are handling any hazardous medicines.
Throw away any used gloves, syringes, medicine cups, or bottles in a two-ply, heavy duty trash bag.
Tie or seal the plastic bag.
Be sure to keep this trash out of reach of children or pets.
To ensure proper disposal, you may visit this website to find the closest drug disposals near you: https://safe.pharmacy
Check with your city ordinance on how to properly discard your hazardous drugs.
It is not recommended that you flush down the toilet or rinse in your sinks as it impacts the local water system.
If you are pregnant or are trying to become pregnant, you should not be handling hazardous medicines.
If you are a caretaker that is pregnant or trying to become pregnant, please speak to your nurse, doctor, or pharmacist about how to safely take care of the patient.

Make sure that it is closed with a lid that screws on tightly.
Check with your city ordinance on how to discard your sharps.
To ensure proper disposal, you may visit this website to find the closest drug disposals near you: https://safe.pharmacy

11. Describe your initial process for training new employees prior to compounding sterile hazardous drugs?

Employees are scheduled to get fit-tested for the N-95s that are provided by the pharmacy.
They sign the hazardous drug exposure attestment.
Complete hazardous drug competency assessments which includes knowledge checks of SDS, chemical spills, garbing assessments, procedure on locating eye wash cleaning hazardous drug areas and hazardous drug handling.
Occupational safety program, hazard communication program use of safety data sheets, designation of HD areas, hand hygiene and use of PPE based on their activity, storage, receipt, and didactic training as provided by Pharmacy Stars when handling hazardous drugs.

Section 4: Sterile Category 3 Compounding Questions (Complete this section ONLY if you will be performing Category 3 Compounding.)

1. List the specific Category 3 sterile products that your facility compounds:

Leuprolide 200 mcg/mL (from Acetate)(Microdose) Injection (10 mL vial)
LEUPROLIDE ACETATE 500MCG/ML (5ML VIAL) SOLUTION
Progesterone 50 mg/mL Ethyl Oleate Injection (10 mL vial)
Progesterone 100 mg/mL Ethyl Oleate Injection (10 mL vial)

2. What is the frequency for ongoing garbing, gloved fingertip and thumb sampling, and media fill testing for compounding personnel?

Every 3 months for active compounders and pharmacist(s)
Every 6 months for overseeing staff
Every year for supervising pharmacists not compounding

3. Is the pharmacy meeting all of the additional garbing requirements for compounding Category 3 CSPs as defined by the revised USP-797 guidelines? ☒ Yes ☐ No

4. What is the frequency for completing volumetric active air sampling?

Every month in all ISO classified areas.

5. What is the frequency for completing surface sampling? every week on all surface areas every batch for category 3 in PEC every month as well along with air viables	
6. What is the frequency for using sporicidal agents? nonhazardous areas - once a month for monthly clean - hazardous areas - before and after each batch - weekly surface clean - monthly clean	
7. Is an endotoxin test performed for all products compounded from one or more nonsterile component?	■ Yes ☐ No
8. Is the BUD assigned supported by stability data obtained using a stability-indicating analytical method?	■ Yes ☐ No

Does the pharmacy use lyophilizer?	*No*

Environment (Sterile)

S109. Is the cleanroom clean and free of objects that shed particles?	*Satisfactory*
S110. Is the cleanroom used only for sterile preparations?	*Satisfactory*
S119. Does the cleanroom contain only appropriate supplies?	*Satisfactory*
S101. Does the ante-area provide at least ISO Class 8 air quality under dynamic conditions?	*Satisfactory*
S115. Does the ante-area contain a hands-free sink with hot and cold running water?	*Satisfactory*
S102. Does the buffer area provide at least ISO Class 7 air quality under dynamic conditions?	*Satisfactory*
S106. Is the buffer area free from sources of water (e.g., sink, floor drains)?	*Satisfactory*
S108. Is there hands-free access to the buffer area?	*Satisfactory*
S113. Are floors, walls, ceilings & fixtures smooth, impervious and free from cracks & crevices?	*Satisfactory*
S112. Does the floor covering enable regular disinfection?	*Satisfactory*
S118. Are supplies stored above the floor to permit adequate floor cleaning?	*Satisfactory*

S127. Does the clean room have a pressure gauge or velocity meter to monitor pressure differential between buffer area and ante-area and between the ante-area and the general environment? Is the pressure differential at least 0.02" wc?	*Satisfactory*
S116. Are temperature and humidity monitored, documented and within the required range?	*Satisfactory*
S167. Is there a thermometer available for the cleanroom and refrigerator(s)?	*Satisfactory*

Primary Engineering Control (PECs) Device

S126. Is the laminar air flow hood located in a buffer area that has a minimum differential positive pressure of 0.02" wc?	*Satisfactory*
S121. Is the PEC able to maintain at least ISO Class 5 conditions while compounding sterile preparations?	*Satisfactory*
S246. Are hazardous drugs prepared in a Class II/III vertical flow BSC or CACI located in an ISO Class 7 area physically separated from other areas?	*Satisfactory*
S247. Does the area where the BSC or CACI is located have not less than 0.01" wc negative pressure adjacent to the positive pressure ISO Class 7 area?	*Satisfactory*
S105. Does the CAI or CACI provide unidirectional airflow?	*Not Applicable*
S104. If the CAI or CACI is used for high-risk sterile compounding, is it placed in an ISO Class 8 area?	*Not Applicable*
S122. If the CAI is not required to be placed in an ISO Class 7 area, does the pharmacy maintain documentation from the manufacturer?	*Not Applicable*
S124. Is the PEC certified by an independent contractor every 6 months and when relocated?	*Satisfactory*
S125. Are prefilters inspected periodically and replaced as needed?	*Satisfactory*
S128. Are differential pressures monitored and documented at least every work shift (at a minimum daily) or by a continuous recording device?	*Satisfactory*

Equipment and Supplies

S174. Does the pharmacy have disposable needles, syringes, and other required or applicable supplies?	*Satisfactory*
S177. Does the pharmacy have lint-free towels or wipes?	*Satisfactory*
S180. Does the pharmacy have masks, caps, gowns with tight cuffs, shoes covers, and beard covers (if applicable)?	*Satisfactory*
S176. Does the pharmacy have handwashing agents with bactericidal action?	*Satisfactory*
S175. Does the pharmacy have disinfectant cleaning solutions and dedicated cleaning supplies?	*Satisfactory*
S179. Does the pharmacy have hazardous spill kits, if applicable?	*Satisfactory*
S171. Does the pharmacy have appropriate containers for needles and syringes?	*Satisfactory*
S170. Does the pharmacy have sterile isopropyl alcohol, sterile gloves, and waterless alcohol-based surgical hand scrub?	*Satisfactory*

S178. Does the pharmacy have appropriate filters and filtration equipment?	*Satisfactory*
S181. If an automated compounding device is used, does the pharmacy calibrate & verify the device for accuracy, and document at least daily?	*Satisfactory*
S172. Does the pharmacy have packaging or delivery containers to maintain proper storage conditions for sterile preparations?	*Satisfactory*

High Risk CSPs

S103. If high-risk CSPs are compounded, does the buffer area provide physical separation from other compounding areas?	*Satisfactory*
S231. Is sterility testing performed if CSPs are prepared in groups > 25, or	*Satisfactory*
S232. If MDVs are prepared for multiple patients or when exposed > 12 hours at 2-8 degrees C before sterilized, or	*Not Applicable*
S233. If exposed > 6 hours at warmer than 8 degrees C before sterilized?	*Not Applicoble*
S237. Are all non-sterile measuring, mixing, and purifying devices rinsed thoroughly with pyrogen-free or depyrogenated sterile water, and then thoroughly drained or dried immediately before use for high-risk sterile compounding?	*Satisfactory*
S238. Are all high-risk sterile solutions subjected to terminal sterilization prefiltered using no larger than a 1.2-micron filter to remove particulate matter? Is sterilization by filtration performed with a sterile 0.2 – 0.22 micrometer pore size filter within an ISO Class 5 environment or better?	*Satisfactory*
S165. Are filter integrity tests being performed and documented (e.g., bubble point test)?	*Satisfactory*
S239. Are pre-sterilization procedures (weighing and mixing) completed in an ISO Class 8 environment or better?	*Satisfactory*

Sterile Library

S154. Does the pharmacy have a reference on injectable drugs?	*Satisfactory*
S155. Does the pharmacy have a specialty reference?	*Satisfactory*
S156. Does the pharmacy have all of the required (USP chapters 71, 85, 795, 797, 1163) and applicable USP chapters?	*Satisfactory*

Hazardous CSPs

S242. Do personnel wear protective apparel at all times when hazardous drugs are handled?	*Satisfactory*
S243. Do personnel use appropriate safety and containment techniques when preparing hazardous CSPs?	*Sotisfactory*
S244. Do personnel dispose of hazardous waste in compliance with local, state, and federal regulations?	*Satisfactory*
S245. Do personnel affix a proper label, including proper precautions inside and outside of the packaging?	*Satisfactory*

S248. Does the pharmacy have a pressure indicator that can be readily monitored for correct room pressurization?	*Satisfactory*
S249. Does the pharmacy meet the requirements for low volume preparation of hazardous drugs by using a device that provides two-tiers of containment (e.g., closed-system vial transfer device within a BSC)?	*Not Applicable*
S250. Are hazardous drugs stored separately from other inventory in a manner to prevent contamination and personnel exposure?	*Satisfactory*
Does the pharmacy have a plan to comply with USP <800> by the implementation date?	*Yes*
Are hazardous drugs stored separately in compliance with USP <800> (negative pressure at least -0.01" wc to adjacent areas and with at least 12 ACPH)?	*Yes*
Is hazardous drug waste quarantined in a designated area?	*Yes*
Are Safety Data Sheets (SDS) [formerly known as Material Safety Data Sheets (MSDS)] available to personnel for drugs and chemicals used in the pharmacy (including those for compounding, if applicable)?	*Yes*

Personnel Cleansing, Garbing, Hand Hygiene

S202. Does hand sanitizing and gowning occur in the ante-area (outside of the buffer area)?	*Satisfactory*
S180. Do compounding personnel don clean non-shedding gowns with sleeves that fit snugly around the wrists and enclose at the neck? Is the order of garbing appropriate (dirtiest to cleanest)?	*Satisfactory*
S194. Before entering the buffer area, do compounding personnel remove cosmetics?	*Satisfactory*
S195. Before entering the buffer area, do compounding personnel remove all hand, wrist, and other body jewelry/piercings?	*Satisfactory*
S196. Are natural nails kept neat and trim and no wearing of artificial nails or extenders?	*Satisfactory*
S200. Do compounding personnel remove debris from underneath fingernails using a nail cleaner under running warm water?	*Satisfactory*
S192. Are personnel with an apparent illness or open lesions compounding sterile preparations?	*Satisfactory*
S241. When compounding personnel temporarily exit the ISO Class 7 environment, are re-donning procedures properly followed?	*Satisfactory*
S201. Do compounding personnel engage in proper hand hygiene?	*Satisfactory*
S203. Do compounding personnel completely dry hands and forearms using lint-free disposable towels or hand dryer?	*Satisfactory*
S204. Is antiseptic hand cleansing performed using waterless alcohol-based surgical scrub once inside the buffer area and prior to donning sterile gloves?	*Satisfactory*
S206. Is sterile isopropyl alcohol applied to gloves throughout the day and when non-sterile surfaces are touched?	*Satisfactory*

Cleaning/Disinfection Procedures

S182. Does the pharmacy have written procedures on the cleaning and disinfecting of the direct and contiguous compounding areas (e.g., beginning of shift, every 30 minutes, before each batch, spills)?	*Satisfactory*
S230. Is cleaning performed by trained personnel using approved agents (described in written SOPs)?	*Satisfactory*
S228. Are supplies & equipment that are removed from shipping cartons wiped with a disinfecting agent (e.g., sterile IPA)?	*Satisfactory*
S226. Are work surfaces and floors in the ante-area and buffer area cleaned and disinfected daily with dedicated supplies?	*Satisfactory*
S227. Are walls, ceilings and shelving in the ante-area and buffer area cleaned and disinfected at least monthly?	*Satisfactory*
S229. Does the pharmacy maintain documentation of cleaning procedures (i.e., date/time of cleaning, type of cleaning, name of individual who performed the cleaning)?	*Satisfactory*

Environmental Sampling

S270. Is surface sampling conducted in all ISO classified areas on a periodic basis?	*Satisfactory*
S272. Is viable air sampling performed?	*Satisfactory*
S273. Is viable air sampling documented by properly trained individuals for all risk levels every 6 months?	*Satisfactory*
S271. Are environmental sampling results evaluated and addressed (i.e., action levels followed)?	*Satisfactory*

Records of CSPs

S252. Does the pharmacy maintain records relating to CSPs for a minimum of 2 years?	*Satisfactory*
S253. Do compounding records include the date and time of preparation of a CSP?	*Satisfactory*
S254. Do compounding records include the complete formula of a CSP?	*Satisfactory*
S257. Do compounding records include the quantities of materials used in a CSP?	*Satisfactory*
S255. Do compounding records include the signature or initials of who prepared a CSP?	*Satisfactory*
S256. Do compounding records include the signature or initials of who conducted the final check of a CSP?	*Satisfactory*
S258. Do compounding records include the container used and the number of units prepared for a CSP?	*Satisfactory*
S259. Do compounding records include the criteria used to determine the beyond-use date of a CSP?	*Satisfactory*
S260. Do compounding records include the documentation of performance of quality control procedures?	*Satisfactory*
S261. Are master worksheets and preparation worksheets for batch compounding complete?	*Satisfactory*
S262. Are master worksheets developed and approved by a pharmacist?	*Satisfactory*

General Operational Requirements

S166. Is a pharmacist available at all times (24/7)? *Satisfactory*

S187. Are written SOPs developed and implemented for all significant procedures in the compounding area to include at a minimum: the facility, equipment, personnel, preparation evaluation, quality assurance, preparation recall, packaging, and storage of CSPs? *Satisfactory*

S188. Does the pharmacy have all required written policies (e.g., pharmaceutical care services, sampling plan, recalls)? *Satisfactory*

S158. If the pharmacy compounds commercially available products, does the pharmacy document the need by verifying and monitoring a drug shortage list (including if the preparation is quarantined/not available once removed from the shortage list)? Or, *Satisfactory*

291.133(d)(1)(C).

Operational Standards. General Requirements. Commercially available products may be compounded for dispensing to individual patients or for office use provided the following conditions are met:

(i) the commercial product is not reasonably available from normal distribution channels in a timely manner to meet individual patient's needs;

(ii) the pharmacy maintains documentation that the product is not reasonably available due to a drug shortage or unavailability from the manufacturer; and

(iii) the prescribing practitioner has requested that the drug be compounded as described in subparagraph (D) of this paragraph.

Comment

Advised to ensure the pharmacy documents the need for compounding commercially available products by verifying and monitoring a drug shortage list or by maintaining documentation from the prescribing practitioner the individual patient need for the compounded preparation.

S158. Does the pharmacy document the need for compounding commercially available products by individual patient needs determined by the prescribing practitioner (i.e, hypersensitivity to inactive ingredients or alternate dosage form)? *Not Applicable*

S275. If the pharmacy dispenses prescriptions to patients in other states, does the pharmacy have proper licensure in those states? *Satisfactory*

Comment

Pharmacy maintains active licenses in multiple states.

Office Use Compounding & Distribution of CSPs

S163. Does the pharmacy have a written agreement with the prescriber that meets all requirements to distribute compounded sterile preparations to practitioners for office use? *Not Applicable*

S162. If the pharmacy is distributing CSPs to another pharmacy, does the pharmacy meet the requirements for such distribution? *Not Applicable*

Is the pharmacy registered with the FDA as an Outsourcing Facility (503B)? *No*

Quality Control & Verification of Compounding Accuracy

S207. Does a pharmacist review all compounding records for accuracy and perform the final check of a CSP?	*Satisfactory*
S185. Are periodic in-process checks for CSPs defined in written procedures and conducted as defined?	*Satisfactory*
S191. Are all drug components USP/NF grade substances manufactured in an FDA-registered facility? If USP/NF grade substances are not available, are the drug components of chemical grade in CP, AR, ACS, or Food Chemical Codex categories?	*Satisfactory*
S191. Is a Certificate of Analysis available for all components of the preparation if materials are not purchased through an FDA-registered facility?	*Satisfactory*
S191. Are any CSPs prepared by the pharmacy listed on the federal FDA list of drug products that are withdrawn or removed from the market for safety reasons?	*Satisfactory*

Veterinary Compounding

Are APIs or other components labeled for veterinary use segregated or marked to prevent use for human compounding?	*Not Applicable*
Does the pharmacy meet the same standards for animal compounding as human compounding?	*Not Applicable*
Is the pharmacist knowledgeable or does the pharmacy have up-to-date references regarding species limits that can result in toxicity when compounding with particular drugs/excipients?	*Not Applicable*
Does the pharmacy document if the animal is a pet or used for food?	*Not Applicable*
Is the pharmacist familiar with, or does the pharmacy have the most up-to date references regarding drug residues in the food chain and withdrawal times if compounding for food-producing animals?	*Not Applicable*
Does the pharmacy have a list of drugs and components that have been designated by state or federal authorities as prohibited ingredients in CSPs for food-producing animals?	*Not Applicable*
Is the pharmacist familiar with, or does the pharmacy have the most up-to-date reference regarding regulations for drug use in performance animals?	*Not Applicable*

Label

S209. Is the CSP properly labeled to include the generic name(s), and	*Satisfactory*
S210. For outpatient prescriptions, does the label include a statement that the CSP has been compounded by the pharmacy?	*Satisfactory*
S211. Does the label include a beyond-use date?	*Satisfactory*
S213. If the CSP is compounded as a batch, does the label contain a unique lot number assigned to the batch, and	*Satisfactory*
S214. Quantity, and	*Satisfactory*
S215. Appropriate ancillary instructions, such as storage or cautionary statements, and	*Satisfactory*
S216. Any device-specific instructions, if appropriate?	*Satisfactory*

S220. Are CSPs assigned a beyond-use date based on the specified labeling for the drug, appropriate literature sources, or direct testing? *Satisfactory*

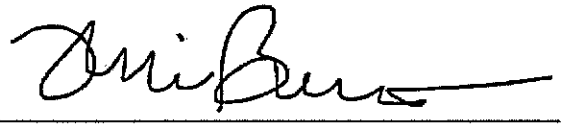
Training & Competency Testing

S129. Has each pharmacist completed the required education and training prior to engaging in sterile compounding? *Satisfactory*

S130. Has each pharmacy technician completed the required education and training prior to engaging in sterile compounding? *Satisfactory*

S142. Does the pharmacy maintain documentation to demonstrate that all compounding personnel have successfully passed initial competency evaluation/testing (e.g., media-fill testing, gloved fingertip/thumb testing)? Does the pharmacy have an on-the-job training program? *Satisfactory*

S144. Does the pharmacy maintain documentation of on-going training and testing for all compounding personnel (e.g., observation of aseptic technique, media-fill testing, gloved fingertip/thumb testing, continuing education)? *Satisfactory*



Signatures

An agent of the Texas State Board of Pharmacy has inspected your pharmacy. The results of this inspection have been noted.

- Items designated as "Refer to Legal" must be rectified immediately. In addition, the matter discovered during the inspection and deemed to be a serious violation by the inspector will be referred to the Legal Division for review and possible disciplinary action; and
- Items designated as "Warning Notice" must be corrected by the deadline noted to ensure compliance with the laws and rules governing the practice of pharmacy (Note: A "Warning Notice" is issued for a minor violation, and does not equate to disciplinary action).

91.02	Incidents involving malfunctioning or defective medical equipment or devices (blood glucose meters, DME, injection devices, etc) are documented and reported to the manufacturer or distributor.	Yes	
92.00	**Quality Self-Audits** are performed by the pharmacy at least quarterly (and upon change in PIC) to determine whether the occurrence of QREs has decreased and whether there has been compliance with preventative procedures, and to develop a plan for improved adherence with the CQI program in the future.	Yes	
93.00	**Consumer Surveys** are conducted at least yearly of patients who receive pharmaceutical products and services at the pharmacy. A statistically valid sampling technique may be used in lieu of surveying every patient. Each pharmacy should use the results of its consumer survey to evaluate its own performance at a particular time and over a period of time.	No	
94.00	**Patient Complaints** are documented, tracked, and investigated as appropriate and the information is used as part of the CQI program.	Yes

Inspection Date: 9/29/2025 & 9/30/2025

		Observation	Inspector Notes	USP Reference(s)
	Standard Operating Procedures for Compounded Nonsterile Preparations (CNSPs)		**Please note NABP did not review each SOP for alignment on USP <795>. The SOP(s) described below is/are a reflection of any self-assessment completed by the pharmacy and/or shared with the inspector during the onsite inspection.**	
1.0	Does the pharmacy have standard operating procedures (SOPs) on all aspects of the compounding operation that cover the minimum topic requirements in USP <795> standards? ***If no, document "missing" in Inspector Notes*** ***If yes, document the name, number, and version of each SOP in the Inspector Notes.***	Yes		11
1.1	**Buildings and Facilities:** The pharmacy has an SOP for the compounding facility. ***Inspector note: Per USP <795>, there is a written SOP for "the method of designation" for the area designated specifically for nonsterile compounding and processes for maintaining, cleaning, and sanitizing the compounding area and equipment.***			4.1, 5, 11
1.2	**Personnel Training and Evaluation:** The pharmacy has an SOP describing the training program, the frequency of training, and the process for evaluating the competency of personnel. ***Inspector note: Per USP <795>, "Facility SOPs must describe procedures for monitoring and observing of compounding activities and personnel."***			2, 11
1.3	**Personal Hygiene and Garbing:** The pharmacy has an SOP regarding personal hygiene, glove, and garbing requirements consistent with compounding activities. ***Inspector note: Per USP <795>, "Garbing requirements and frequency of changing garb must be determined by the facility and documented in the facility's SOPs."***			3.3, 11
1.4	**Components:** The pharmacy has an SOP describing selection, handling, storage, and inventory control of all components used in compounding. ***Inspector note: Per USP <795>, "The compounding facility must have written SOPs for the selection and inventory control of all components from receipt to use in a CNSP."***			6.2, 11

		Observation	Inspector Notes	USP Reference(s)
1.5	**Temperature Monitoring:** The pharmacy has an SOP regarding temperature monitoring and handling of excursions. ***Inspector note: Per USP <795>, "The compounding facility must adhere to SOPs to detect and reduce the risk of temperature excursions within the storage area(s)."***			4.2, 11
1.6	**Equipment:** The pharmacy has an SOP for assessment of need for closed system processing devices (based on the types of CNSPs prepared). ***Inspector note: Per USP <795>, "Weighing, measuring, or otherwise manipulating components that could generate airborne chemical particles (e.g., active pharmaceutical ingredients [APIs], added substances, and conventionally manufactured products) must be evaluated to determine if these activities must be performed in a closed-system processing device to reduce the potential exposure to personnel or contamination of the facility or CNSPs. Examples of closed-system processing devices include containment ventilated enclosures (CVEs), biological safety cabinets (BSCs), and single-use containment glove bags. The process evaluation must be carried out in accordance with the facility's SOPs, and the assessment must be documented."***			6.1, 11
1.7	**Safety Data Sheet (SDS)/Spill Management:** The pharmacy has an SOP describing spill management and disposal. ***Inspector note: Per USP <795>, "The management and documentation of nonhazardous component spills and disposal must be described in the facility's SOPs."***			6.2.5, 11
1.8	**Master Formulation Records (MFR):** The pharmacy has an SOP on the process for MFR creation and content. ***Inspector note: Per USP <795>, "Any changes or alterations to a Master Formulation Record are approved and documented in accordance with the facility's written SOP."***			7.1, 11
1.9	**Labeling:** The pharmacy has an SOP on the processes for labeling, label verification (confirming against the prescription or medication order, the MFR, and the compounding record (CR)) in order to prevent errors and CNSP mix-ups and required displayed information. ***Inspector note: Per USP <795>, "Labeling procedures must be followed as described in the facility's SOPs to prevent labeling errors and CNSP mix-ups."***			9, 11

	Equipment and Components FDA defines manufacturer... as used in section 510 of the Federal Food, Drug, and Cosmetic Act, includes the activities of relabelers, repackers, and salvagers. When not modified by "domestic" or "foreign," the term includes both domestic manufacturers and foreign manufacturers.			
17.0	Does the pharmacy use a closed-system processing device (eg, CVE, BSC, and single-use containment glove bags)? ***Inspector note: Per USP, examples of closed-system processing devices include: containment ventilated enclosures (CVEs), biological safety cabinets (BSCs), and single-use containment glove bags.*** ***If yes, list the type(s) in the Inspector Notes.***	N/A		6.1
18.0	Does the pharmacy select, store, clean, and maintain equipment in compliance with USP <795> standards? ***Inspector note: Per USP <795>, "Equipment surfaces that contact components are not reactive, additive, or sorptive, and must not alter the quality of CNSPs."*** ***Review certification reports, calibration records, and cleaning logs.*** ***If no, go to compliance statements.***	Yes		6.1
18.1	Equipment and supplies are readily available at the pharmacy for the types of CNSPs prepared. ***Inspector note: For example, if the pharmacy compounds with API as a component, which must be weighed, a scale or balance would be expected.***	Yes		6.1
18.2	Pharmacy has evaluated and documented the nonsterile compounding pharmacy activities for weighing, measuring, and otherwise manipulating for an assessment of risk. ***Inspector note: Per USP, "components that could generate airborne chemical particles (eg, active pharmaceutical ingredients [APIs], added substances, and conventionally manufactured products) must be evaluated to determine if these activities must be performed in a closed-system processing device to reduce the potential exposure to personnel or contamination of the facility or CNSPs."*** ***If no, inspector should describe observations.***	Yes		6.1

18.3	The equipment and devices used for compounding CNSPs are clean and stored in a manner and frequency that minimizes the risk of contamination. ***Inspector note: Per USP <795>, "After compounding, the equipment must be cleaned to prevent cross contamination of the next preparation." Additionally, per Table 2:*** ***- CVE/BSC are cleaned and sanitized at the beginning and end of each shift when compounding occurs, after spills, and when surface contamination (e.g., from splashes) is known or suspected;*** ***- CVE/BSC horizontal surfaces are cleaned and sanitized between compounding of different components;*** ***- Under the work surface of a BSC is cleaned and sanitized at least monthly; and*** ***- Other devices and equipment used in compounding are cleaned before initial use, in between compounding CNSPs with different components, and following manufacturer recommendations.*** ***If no, inspector should describe observations.***	Yes		6.1 Table 2
18.4	Equipment and devices used in compounding or testing of CNSPs are inspected prior to use (to ensure they are in good working order). ***Inspector note: For example, the pharmacy may need to tare a scale and/or balance prior to use.***	Yes		6.1
18.5	Equipment and devices are verified for accuracy as recommended by the manufacturer (at the frequency recommended by the manufacturer or at least every 12 months, whichever is more frequent). ***If the pharmacy does not compound CNSPs that require equipment or devices that must be calibrated for accuracy (such as ones needed for weighing or measuring), the inspector should answer this statement as N/A.***	Yes		6.1
18.6	If a CVE or BSC is used by the pharmacy, it is certified at least every 12 months, according to the manufacturer specifications or regulations of the applicable regulatory jurisdiction. ***If the pharmacy does not have the record or documentation of the certification and maintenance of the CVE/BSC, the inspector should answer this statement as no. If the pharmacy does not have a CVE or BSC, the inspector should answer this statement as N/A.***	Yes		6.1

Inspection Date: 9/29/2025 & 9/30/2025

		Observation	Inspector Notes	USP Reference(s)
19.0	Does the pharmacy compounding CNSPs use APIs?	Yes		6.2
20.0	Does the pharmacy select APIs that comply with the requirements in USP <795> standards? ***Verify by selecting products from the shelf from different suppliers and ask to see the COAs for those products.*** ***If no, go to compliance statements.***	No		6.2.1
20.1	APIs comply with criteria in the USP-NF monograph, if one exists. ***If the pharmacy does not compound any CSPs that have an available USP monograph, the inspector should answer this statement as N/A.***	Yes		6.2.1
20.2	All APIs used have a COA that includes the specifications (eg, compendial requirements for quality) and that the test results for the component show the API meets expected quality. ***Inspector note: Per USP, the API should be checked to ensure it is pharmaceutical grade and meets the requirements in the chemical monograph. COA will report an assay has been performed and will include water content (so any corrections/calculations can be performed).***	No	Upon review, the C of A for melatonin was not obtained by the repackager from an FDA registered manufacturer, the facility will be conducting more stringent due diligence with their chemical suppliers going forward.	6.2.1
20.3	All APIs used are manufactured by an FDA-registered facility. ***Inspector note: This is a Federal Food, Drug, and Cosmetic Act, Section 503A, requirement as well. Inspector should verify the pharmacy looks up the name of the manufacturer listed on the COA to determine if they are registered as an FDA drug establishment https://dps.fda.gov/decrs.***	No	Upon review, the C of A for melatonin was not obtained by the repackager from an FDA registered manufacturer, the facility will be conducting more stringent due diligence with their chemical suppliers going forward.	6.2.1
21.0	When formulations indicate the inclusion of water, is purified water or better quality (eg, sterile water for irrigation) used in compliance with USP <795> standards?	Yes		6.2.1
22.0	What type(s) of water is used for compounding CNSP? ***List the type(s) in the Inspector Notes.***		Sterile Water for injection.	6.2.1

		Observation	Inspector Notes	USP Reference(s)
23.0	Do the pharmacy's component receipt processes comply with the requirements in USP <795> standards? ***If no, go to compliance statements.***	No	Upon review, the C of A for Melatonin was not obtained by the repackager from an FDA registered manufacturer, the facility will be conducting more stringent due diligence with their chemical suppliers going forward.	6.2.2
23.1	For non-conventionally manufactured components, the COA is reviewed upon receipt. ***Inspector note: Per USP, "the COA must be reviewed to ensure that the component has met the acceptance criteria in an appropriate USP–NF monograph, if one exists." Pharmacy's review should be documented. Alternatively, the pharmacy can demonstrate how it's been reviewed (for example, there are notes to show a water content calculation back to 100% based on the specific COA). Inspector can verify the COA is retrievable.***	Yes		6.2.2
23.2	The pharmacy documents specific information according to the facility's SOP, including: receipt date, quantity received, supplier name, lot number, expiration date, and the results of any testing performed (whether performed in-house or through a third-party).	Yes		6.2.2, 14
23.3	For all components that lack a vendor expiration date, the pharmacy clearly and indelibly marks on each packaging system received the date the component must no longer be used by the pharmacy. ***Inspector note: Per USP, "Packaging systems of components (i.e., API and added substances) that lack a vendor's expiration date must not be used by the compounding facility after 3 years from the date of receipt. A shorter expiration date must be assigned according to Pharmaceutical Compounding—Sterile Preparations , 797, 9.3.2 Component receipt if the same component container is also used in sterile compounding or if the ingredient is known to be susceptible to degradation."***	Yes		6.2.2
23.4	Any component found to be of unacceptable quality upon receipt or reinspection prior to use is promptly rejected, clearly labeled as rejected, and segregated from active stock to prevent use before appropriate disposal.	Yes		6.2.2
23.5	Any other lots of that (rejected) component from that vendor are examined to determine whether other lots have the same defect.	Yes		6.2.2

24.0	Does the pharmacy re-inspect all components before use and handle them in compliance with USP <795> standards? ***If no, go to compliance statements.***	Yes		6.2.3, 6.2.4
24.1	Compounding personnel visually re-inspect each component, including packaging system (any evidence of container breakage, looseness of cap or closure) and deviation from the expected appearance or texture of the contents (that might have changed during storage).	Yes		6.2.3
24.2	Compounding personnel ascertain before use that components are the correct identity based on labeling, that they have been stored under required conditions, and there is no evidence of deterioration or other aspects of unacceptable quality before use of component.	Yes		6.2.3
24.3	Components where correct identity, strength, purity, and quality cannot be confirmed (eg, containers with damaged or incomplete labeling), are immediately rejected and if not immediately discarded, labeled as rejected and segregated from active stock.	Yes		6.2.3
24.4	Compounding personnel handle all components following facility SOPs, manufacturer's instructions/labeling, and laws/regulations of the applicable regulatory jurisdiction.	Yes		1.1.3, 6.2.4
24.5	All components are handled in a manner that minimizes the risk of contamination, mix-ups, and deterioration.	Yes		6.2.4
25.0	When components are removed from the original container and not used in compounding (eg, excess after weighing), are they discarded and not returned to the original container (to minimize risk of contamination of the original component container)? ***Inspector note: This is a USP recommendation.***	Yes		6.2.4

31.7	The label on the immediate container includes the dosage form.	Yes		9
31.8	The label on the immediate container includes the total amount or volume, if it is not obvious from the container.	Yes		9
32.0	Does the labeling on the dispensed CNSP include the route of administration? ***Inspector note: This is a USP recommendation.***	Yes		9
33.0	Does the labeling contain information identifying the CNSP as a compounded preparation? ***Inspector note: Per USP, this is a recommendation.***	Yes		9 USP <7>
34.0	Does the labeling on the dispensed CNSP display any applicable special handling instructions or warning statements? ***Inspector note: This is a USP recommendation.***	Yes		9
35.0	Does the labeling on the dispensed CNSP display the name of the compounding facility and contact information if the CNSP was to be sent outside of the facility or health care system? ***Inspector note: This is a USP recommendation.*** ***If the pharmacy only compounds CNSPs for patient use onsite (eg, a health care facility), inspector should answer this question as N/A.***	Yes		9
	Establishing Beyond Use Dating (BUDs)			
36.0	Is each CNSP assigned and labeled with a BUD in compliance with USP <795> standards? ***Inspector note: Per USP, the BUD is defined as, "The date, or hour and date, after which a CNSP must not be used, stored, or transported. The date is determined from the date or time the preparation is compounded." This is not the same term as "expiration date."*** ***If no, go to compliance statements.***	Yes		10 USP <7>
36.1	CNSP label has a BUD that specifies the date, or the hour and date, beyond which the preparation cannot be used and must be discarded.	Yes		10.1

36.3	BUDs are assigned from the date (and time) of preparation.	Yes		10.1
36.4	BUDs are assigned based on dispensing in tight, light resistant containers/overpacks. ***Inspector note: Per USP, the Table 4 maximum limits for BUD are, "based on the ability of the CNSP to maintain chemical and physical stability and to suppress microbial growth. These BUDs represent the limit for CNSPs that are packaged in tight, light-resistant containers unless conditions in 10.4 CNSPs Requiring Shorter BUDs or 10.5 Extending BUDs for CNSPs apply."***	Yes		10.3
36.5	The BUD assigned to the CNSP does not exceed the shortest remaining expiration date of any of the commercially available starting components.	Yes		10.4
37.0	Does the pharmacy ensure the assigned BUD does not exceed the shortest BUD of any individual compounded components? ***Inspector note: Per USP, "For CNSPs prepared from one or more compounded components, the BUD should generally not exceed the shortest BUD of any of the individual compounded components. However, there may be acceptable instances when the BUD of the final CNSP exceeds the BUD assigned to compounded components (e.g., pH-altering solutions). If the assigned BUD of the final CNSP exceeds the BUD of the compounded components, the physical, chemical, and microbiological quality of the final CNSP must not be negatively impacted." Another example of these "acceptable instances" (similar to pH-altering components mentioned above) inspectors may see are stock solutions (and other formulas within a formula) such as methocel 1%.*** ***If no, inspector should describe the observations, including the name of the component whose BUD was shorter than the assigned BUD of the final CSP.***	Yes		10.4
38.0	Does the designated person(s) evaluate a CNSP formulation to establish the maximum BUD? ***If no, who establishes the maximum BUD for a MFR?***	Yes		7.1, 10.2, 10.3

		Observation	Inspector Notes	USP Reference(s)
44.7	Aqueous CNSPs whose labeled BUDs are extended beyond Table 4, have: - been tested for antimicrobial effectiveness at least once for each formulation in the type of (with the same material composition of the) container closure system that will be used; - received study results from an FDA-registered facility (for the same CNSP formulation using the same material composition of the container closure system); or - a study published from peer-reviewed literature (for the same CNSP formulation using the same material composition of the container closure system). ***Inspector note: Pharmacy may rely on a bracketed study from the above options as long as the bracketed study information includes the low and high concentration of each active ingredient in the formulation. Per USP, this is "to establish preservative effectiveness across various strengths of the same formulation (e.g., bracketing). The concentration of all other ingredients (including preservatives) must fall within the bracketed range.***	N/A		10.5
	Quality Assurance (QA), Quality Control (QC), and Quality Management (QM) Inspector to review at least one complaint, one adverse event, and one recall (if applicable).			
45.0	Does the pharmacy have a QA/QC program to ensure that CNSPs are prepared per the requirements in USP <795> standards and any applicable regulatory requirements? ***If no, go to compliance statements.***	Yes		1.1.3, 12
45.1	The pharmacy has a formal QA/QC program with documented activities. ***Inspector note: Per USP, "A facility's QA and QC programs must be formally established and documented in the facility's SOPs that ensure that all aspects of the preparation of CNSPs are conducted in accordance with the requirements in this chapter (<795>) and the laws and regulations of the applicable regulatory jurisdiction."***	Yes		12
45.2	The QA/QC programs address adherence to procedures.	Yes		12

Nonsterile <795> Employee File Records Review

Select the PIC, designated person, a staff pharmacist that checks compounded preparations, and two to three compounding pharmacy technicians. *Do not record the employee name, list only their title or position.
From the drop-down List:
*Mark as "Yes" if the document is present in the records and the competency evaluation was conducted in compliance with USP <795> requirements.
*Mark as "No" if the document is present in the records but is not in compliance with USP <795> requirements.
*Mark as "Missing" if any part of the record is missing and explain in Notes column.
*Mark as "N/A" if the training does not apply (eg; long-term employee may not have initial training available). Document further in the Notes column.

Glossary & References	USP <795>
Active Pharmaceutical Ingredient (API)	Any substance or mixture of substances intended to be used in the compounding of a preparation, thereby becoming the active ingredient in that preparation and furnishing pharmacological activity or other direct effect in the diagnosis, cure, mitigation, treatment, or prevention of disease in humans or animals or affecting the structure and function of the body. Also referred to as a bulk drug substance. A conventionally manufactured drug product is not an API but is typically manufactured from an API(s).
Added Substance	An ingredient that is necessary to compound a preparation but is not intended or expected to cause a pharmacologic response if administered alone in the amount or concentration contained in a single dose of the compounded preparation. The term is used synonymously with inactive ingredient, excipient, and pharmaceutical ingredient.
Administration	The preparation of a nonsterile pharmacologic or other therapeutic agent for ingesting, inserting, applying, or otherwise providing a nonsterile medication in its final form to a single patient. This includes crushing a tablet(s) or opening a capsule(s) to mix with food or liquids to facilitate patient dosing.
Alcohol-based hand rub	An alcohol-containing preparation (liquid, gel, or foam) designed for application to the hands of health care personnel to inactivate microorganisms and/or temporarily suppress their growth. Such preparations may contain one or more types of alcohol, other active ingredients, excipients, and humectants.
Assigned trainer	One or more individuals assigned by the designated person(s) to be responsible and accountable for directly providing the training, observation, and/or evaluation of personnel for the preparation of CNSPs.
Beyond-use date (BUD)	The date, or hour and date, after which a CNSP must not be used, stored, or transported. The date is determined from the date or time the preparation is compounded.
Biological Safety Cabinet (BSC)	A ventilated cabinet that may be used for compounding. These cabinets are divided into three general classes (Class I, Class II, and Class III). Class II BSCs are further divided into types (Type A1, Type A2, Type B1, Type B2, and Type C1).
Bulk drug substance	See the entry for Active Pharmaceutical Ingredient.
Certificate of analysis (COA)	A report from the supplier of a component, container, or closure that accompanies the supplier's material and contains the specifications and results of all analyses and a description of the material.
Cleaning	The process of removing substances (eg, organic and inorganic material) from objects and surfaces, normally accomplished by manually or mechanically using water with detergents or enzymatic products.
Cleaning agent	An agent, usually containing a surfactant, used for the removal of substances (eg, dirt, debris, microbes, and residual drugs or chemicals) from surfaces.
Closed-system processing device	A device designed to reduce the potential exposure to personnel or contamination of the facility or CNSPs. Examples include CVEs, BSCs, or single-use containment glove bags.
Component	Any ingredient used in the compounding of a preparation, including any API, added substance, or conventionally manufactured product.
Compounded nonsterile preparation (CNSP)	A preparation not intended to be sterile that is created by combining, admixing, diluting, pooling, reconstituting other than as provided in the manufacturer's labeling, or otherwise altering a drug product or bulk drug substance.

Glossary & References	USP <795>
Compounding	The process of combining, admixing, diluting, pooling, reconstituting other than as provided in the manufacturer's labeling, or otherwise altering a drug product or bulk drug substance to create a nonsterile preparation.
Compounding area	An area that is specifically designated for nonsterile compounding.
Compounding personnel	Personnel trained to compound or oversee compounding of preparations.
Compounding record (CR)	Documents the compounding of each CNSP.
Container closure system	Packaging system components that together contain and protect the dosage form. This includes primary packaging system components and secondary packaging system components if the latter are intended to provide additional protection.
Containment glove bag	A single-use disposable glove bag that is capable of containing airborne chemical particles.
Containment ventilated enclosure (CVE)	A full or partial enclosure that uses ventilation principles to capture, contain, and remove airborne contaminants through high-efficiency particulate air (HEPA) filtration and to prevent their release into the work environment.
Conventionally manufactured product	A pharmaceutical dosage form, usually the subject of an application approved by the applicable national regulatory agency, that is manufactured under current good manufacturing practice conditions.
Designated person(s)	One or more individuals assigned to be responsible and accountable for the performance and operation of the facility and personnel as related to the preparation of CNSPs.
FDA	US Food and Drug Administration
Formulation	The specific qualitative and quantitative composition of the final CNSP.
Hazardous Drug (HD)	Any drug identified by at least one of the following criteria: carcinogenicity, teratogenicity or developmental toxicity; reproductive toxicity in humans; organ toxicity at low dose in humans or animals; genotoxicity or new drugs that mimic existing HDs in structure or toxicity. See <800>.
Label	The part of the labeling on the immediate container.
Labeling	All labels and other written, printed, or graphic matter on the immediate container or on or inside any packaging system or wrapper in which the article is enclosed, except for any outer shipping container.
Master formulation record (MFR)	A detailed record of procedures that describes how the CNSP is to be prepared.
Monograph	A quality documentary standard within USP–NF that articulates the quality expectations for a medicine including for its identity, strength, purity, and performance. It also describes the tests to validate that a medicine and its ingredients meet these criteria.
Oversight	The review, monitoring, and supervision of actions taken by personnel; bearing responsibility for those actions; and being available if and when needed for consultation, even if not physically present.
Preservative	A substance added to inhibit microbial growth.
Purified water	The minimal quality of source water for the production of Purified Water is drinking water whose attributes are prescribed by the US Environmental Protection Agency (EPA), the European Union, Japan, or the World Health Organization (WHO). This source water may be purified using unit operations that include deionization, distillation, ion exchange, reverse osmosis, filtration, or other suitable purification procedures. (See <1231>, 3.1.1 Purified Water.)

Glossary & References	USP <795>
Quality Assurance (QA)	A system of procedures, activities, and oversight that ensures that the compounding process consistently meets quality standards.
Quality Control (QC)	The sampling, testing, and documentation of results that, taken together, ensure that specifications have been met for the CNSP.
Reconstitution	The process of adding a diluent to a conventionally manufactured product to prepare a solution or suspension.
Release inspection and testing	Visual inspection and testing performed to ensure that a preparation meets appropriate quality characteristics.
Sanitizing agent	An agent for reducing, on inanimate surfaces, the number of microorganisms (eg, 70% isopropyl alcohol).
SDS	Safety data sheet.
SOP	Standard operating procedure.
Specification	The tests, analytical methods, and acceptance criteria to which any components, CNSP, container closure system, equipment, or other material used in the compounding of CNSPs must conform to be considered acceptable for its intended use.
Stability	The extent to which a product or preparation retains physical and chemical properties and characteristics within specified limits throughout its expiration or BUD.
Verify	To confirm that a method, process, system, or equipment will perform as expected under the conditions of actual use.
Water activity (a_w)	A measure of the fraction of total water that is unbound and freely available to participate in chemical, biochemical, or physicochemical reactions or provide an environment that can support microbial growth. Note that a_w is not water content.

		Observation	Inspector Notes	USP Reference(s)
18.6	The pharmacy controls temperature and humidity to maintain appropriate working conditions if no overnight drug storage occurs and/or is following the most restrictive drug label. ***Inspector note: Per USP <797>, the cleanroom suite should be maintained at a temperature of 20°C or cooler and a relative humidity of 60% or below to minimize the risk of microbial proliferation and to provide comfortable conditions for compounding personnel attired in the required garb. CRT is defined as 20°C-25°C per USP <659>.***	Yes		4.2, 9.3.4, 19.1
18.7	The placement of the HVAC unit does not cause cross contamination or interfere with the functioning of the classified area. ***Inspector note: Air streams from the HVAC system(s) can disrupt the unidirectional airflow of an open faced PEC such as a laminar airflow workbench (LAFW).***	Yes		4, 4.2
18.8	Temperature monitoring devices are verified for accuracy at least every 12 months or as required by the manufacturer. ***Inspector note: Monitoring devices are typically calibrated or replaced.***	Yes		4.2, 9.3.4
18.9	Humidity monitoring devices are verified for accuracy at least every 12 months or as required by the manufacturer. ***Inspector note: Monitoring devices are typically calibrated or replaced.***	Yes		4.2, 9.3.4

e-Profile ID: 1866128
Inspection Date: 9/29/2025 & 9/30/2025

		Observation	Inspector Notes	USP Reference(s)
35.6	Results from the environmental monitoring program (eg, viable air and/or surface monitoring) are reviewed in response to changes that could impact the sterile compounding environment (eg, change in cleaning agents) and in conjunction with personnel data (ie, training records, visual observations, competency assessments) to assess the state of control and to identify potential risks of contamination. ***Inspector note: Per USP, the program is reviewed to "assess risks for contamination, potential routes of contamination, and the adequacy of cleaning and disinfecting agents and procedures. Regular review of the sampling data must be performed to detect trends and the results of the review must be documented."***	Yes		6, 6.1, 6.2, 20 Table 4, Table 7, Table 8
35.7	The pharmacy ensures that viable air and surface sampling is performed by a trained and competent individual who is familiar with the methods and procedures for air sampling and surface testing. ***If sampling is conducted by internal personnel, inspector should verify that documented training and competencies are located in the employee file.***	Yes		6, 6.1, 6.2
35.8	Environmental monitoring program (eg, viable air and/or surface monitoring) describes/identifies corrective actions to minimize the risk of CSP contamination and that these corrective actions are documented.	Yes		6, 20
36.0	Is surface sampling performed at the end of a compounding activity or shift but before the area has been cleaned and disinfected (to obtain a sample that is representative of the typical compounding conditions at the pharmacy)? ***Inspector note: this is a USP recommendation.***	Yes		6.1, 6.3

		Observation	Inspector Notes	USP Reference(s)
37.0	Does the pharmacy send out all air quality for viable airborne samples to an external lab (third party) for incubation and processing? ***If pharmacy exclusively does internal incubation and results processing, inspector should answer statement as N/A.***	Yes		6.2.2
38.0	Does the pharmacy send out all surfaces for viable particle samples to an external lab (third party) for incubation and processing? ***If pharmacy exclusively does internal incubation and results processing, inspector should answer statement as N/A.***	Yes		6.3
39.0	For any samples that are sent to an external lab (third party), does the pharmacy receive a report from the third party confirming incubation parameters meet USP <797> requirements (eg, the correct temperature and the correct length of incubation time are documented in the report)? ***Inspector note: Incubation parameters are the same as seen in statements 40.6-40.7 and 41.4-41.5.*** ***This question applies for any air or surface sample sent to an external lab. If no, describe observations.***	Yes		6.2.2
40.0	Are processes for sampling and monitoring **air quality for viable airborne** particles in compliance with USP <797> standards? ***Inspector note: Per USP <797>, facilities performing any Category 3 compounding must adhere to the increased environmental monitoring requirements for all classified areas where Category 3 CSPs are compounded and increased environmental monitoring requirements apply at all times regardless of whether Category 3 CSPs are being compounded on a given day.*** ***Review six months of air sampling data to verify. 		Observation	Inspector Notes	USP Reference(s)
40.6	The pharmacy incubates all air samples for time and temperature in compliance with USP <797> following the one media device method. ***Inspector notes: Per USP <797> (Box 5), when using the one media device method, sampling media is to be covered, inverted, and incubated at 30°C–35°C for no less than 48 hours. Then, after examination and recording of results, further incubated at 20°C–25°C for no less than five additional days.*** ***If the pharmacy does not utilize this method or sends offsite, inspector should answer statement as N/A.***	Yes		6.2.2 Box 5
40.7	The pharmacy incubates all air samples for time and temperature in compliance with USP <797> following the alternative two media device method. ***Inspector note: Per USP <797> (Box 5), two samples may be collected for each sample location and incubated concurrently to shorten the overall incubation period. Both samples are TSA, or one sample is TSA and the other fungal media (eg, malt extract agar [MEA] or sabouraud dextrose agar [SDA]). Each sample is incubated in a separate incubator, one sample at 30°C-35°C for no less than 48 hours the other sample at 20°C-25°C for no less than five days. If fungal media is used, incubate at 20°C-25°C for no less than five days.*** ***If the pharmacy does not utilize this method or sends offsite, inspector should answer statement as N/A.***	Yes		6.2.2 Box 6
40.8	Results for all plates are recorded for each sample and did not exceed USP <797> Table 7 action levels (or internal action levels if more restrictive). **ISO Class 5: >1 cfu/m^3/device** **ISO Class 7: >10 cfu/m^3/device** **ISO Class 8: > 100 cfu/m^3/device** ***Inspector note: Per USP <797>, if two sampling media devices are collected at a single location, all recovered growth on each must be documented and action levels applied to each sampling media separately.***	Yes		6.2.3 Table 7

		Observation	Inspector Notes	USP Reference(s)
58.5	Before any item is introduced into the PEC, it is wiped with sterile 70% IPA using sterile low-lint wipers and allowed to dry before use. ***Inspector note: Per USP, "When sterile items are received in sealed containers designed to keep them sterile until opening, the sterile items may be removed from the covering as the supplies are introduced into the ISO Class 5 PEC without the need to wipe the individual sterile supply items with sterile 70% IPA. The wiping procedure must not render the product label unreadable."***	Yes		8.2
58.6	Aseptic processes and manipulations are performed in a manner intended to minimize the risk of contamination. ***Inspector note: Observe the compounder's technique to ensure proper aseptic technique is utilized such as: preparation occurs in the direct compounding area (DCA); the compounder does not interrupt first air during the compounding process; proper set up of equipment, supplies, and components that ensure first air is not interrupted; the compounder handles the syringe in a manner that does not introduce contaminates (touch contamination on the plunger rod); proper entry and exit of materials in ISO Class 5 PEC; and frequent sanitization of gloves.***	Yes		2.3
58.7	All critical sites (eg, vial stoppers, ampule necks, and IV bag septums) are wiped with sterile 70% IPA in the PEC and allowed to dry before puncturing.	Yes		7, 8.3
58.8	Gloves are disinfected with sterile 70% IPA immediately before compounding and regularly throughout the compounding process. ***Inspector note: Per USP, best practice is to re-sanitize each time hands re-enter the PEC. This may not occur when compounder is staging the next batch.***	Yes		3.3

58.9	Gloves are regularly inspected for holes, punctures, or tears, and are replaced immediately if such defects are detected.	Yes		3.3
59.0	Do compounding personnel adhere to the USP established time limits for components after initial puncture or entry in compliance with USP <797> standards? ***Look at punctured, stored containers and confirm if puncture time or BUD is noted on the container and stored within time limits. If no, go to the compliance statements.***	Yes		15
59.1	Single dose containers (entered or punctured only in an ISO Class 5 air or cleaner air) are not used beyond 12 hours after initial puncture or entry or assigned BUD, whichever is shorter. ***Inspector note: This applies to conventionally manufactured single-dose vials, compounded single-dose CSPs used as components, and CSP stock solutions. The labeled storage requirements during that 12-hour period must be maintained. Additionally, per USP, "This time limit for entering or puncturing (a single-dose CSP or CSP stock solution) is not intended to restrict the BUD of the final CSP."***	Yes		15.1, 16.2
59.2	Multiple-use containers are not used for more than 28 days after initial puncture or entry, manufacturer specifications, or assigned BUD, whichever is shorter. ***Inspector note: This applies to conventionally manufactured multiple-dose vials and compounded multiple-dose CSPs used as components. Multiple-dose CSPs are required to meet the criteria for antimicrobial effectiveness testing (USP <51>) and must be stored under the conditions upon which its BUD is based (eg, refrigerator or controlled room temperature).***	Yes		14.5, 15.2, 16.1

		Observation	Inspector Notes	USP Reference(s)
67.0	**Dry Heat Sterilization:** Does the pharmacy use the appropriate type of sterilization method, equipment, documentation, and testing in compliance with USP <797> standards? ***Inspector note: The sterilization method used must sterilize the CSP without degrading its physical and chemical stability (eg, affecting its strength, purity, or quality) or the packaging integrity. USP <1229.8> also applies.*** ***View documentation on compounding records for CSPs sterilized by dry heat to confirm. If no, go to compliance statements.*** ***If the pharmacy does not use this sterilization method, inspector should answer question as N/A.***	N/A		10.4 USP <1229.8>
67.1	The pharmacy has the appropriate dry heat sterilization equipment. ***Inspector note: Dry heat sterilization is usually performed in an oven designed for sterilization at 160°C or higher. The dry heat oven should be able to get to the appropriate temperature and pressure, for example, not be a toaster oven.***	N/A		10.4
67.2	Solutions are passed through a 1.2 micron or smaller filter into the final containers to remove particulates before sterilization.	N/A		10.4
67.3	During sterilization, sufficient space is left between materials to allow for circulation of hot air.	N/A		10.4
67.4	CSPs and other items are exposed to dry heat for the length of time necessary for all items to reach sterilizing temperature of 160°C or higher. ***Inspector note: Per USP <797>, if lower temperatures are used, they are validated by biological indicators (see USP <1229.8>, Validation of Dry Heat Sterilization, Biological Indicators). The calibrated oven must be equipped with temperature controls and a timer.***	N/A		10.4

		Observation	Inspector Notes	USP Reference(s)
67.5	The appropriate biological indicators are used to verify the effectiveness each sterilization run or load and documented in the compounding record. ***Inspector note: Per USP <797>, "The effectiveness of dry heat sterilization must be verified and documented with each sterilization run or load by using appropriate biological indicators, such as spores of Bacillus atrophaeus (ATCC 9372; see Biological Indicators for Sterilization USP <1229.5>) and other confirmation methods (e.g., temperature-sensing devices). The date, run, and load numbers of the dry heat oven used to sterilize a CSP must be documented in the CR."***	N/A		10.4 USP <1229.5>
67.6	A calibrated data recorder or chart is used to monitor each cycle and the data is reviewed to identify cycle irregularities (eg, deviations in temperature or exposure time) and results documented on the CR.	N/A		10.4, 20
68.0	**Dry Heat Depyrogenation:** Is the appropriate depyrogenation method used and documented in compliance with USP <797> standards? ***View documentation records of items depyrogenated to confirm. If the pharmacy does not use this method, inspector should answer question as N/A.***	Yes		10.1 USP <1228.1>
68.1	Glassware, metal, and other thermostable containers are exposed to dry heat for the length of time necessary for all items to be rendered pyrogen free.	Yes		10.1

75.9	**Category 3 CSPs** undergo an evaluation for the container closure system. ***Inspector note: The container closure system used is evaluated for and conforms to container closure integrity to the end of the BUD (see USP <1207> Package Integrity Evaluation— Sterile Products). Evaluation must be done once for each formulation and for each container closure system in which it will be packaged.***	N/A		14.4.3 Table 14 USP <1207>
76.0	Are **multiple-dose CSPs prepared** in compliance with USP <797> standards? ***If no, go to compliance statements.*** ***If the pharmacy does not prepare multiple-dose CSPs, inspector should answer question as N/A.***	Yes		14.5
76.1	Multiple-dose CSPs are prepared as a Category 2 or Category 3 CSP only.	Yes		14.5
76.2	When preservatives are used, they are appropriate for the CSP formulation and the route of administration. Inspector note: Per USP <797>, "The preservative must not be inactivated by any ingredients in the CSP, and some preservatives are not always appropriate for the patient (eg, neonates) or route of administration (eg, intrathecal or ophthalmic injection)." 		Observation	Inspector Notes	USP Reference(s)
76.3	Aqueous multiple-dose CSPs pass antimicrobial effectiveness testing in accordance with USP <51>. ***Inspector note: Per USP <797>, a test can be one test done for each formulation in the particular container-closure system in which it will be packaged, or test results provided by an FDA-registered facility or in appropriate peer-reviewed literature,, provided the sterile compounded preparation formulation and container-closure system used are exactly the same as those tested, unless a bracketing study is performed. The concentration of all other ingredients (including preservatives) must be the same throughout the bracketing study. Additionally, multiple-dose, nonpreserved, aqueous topical, and topical ophthalmic CSPs prepared as a Category 2 or Category 3 CSP are not required to pass antimicrobial effectiveness testing if the preparation is: For use by a single patient, labeled (in the label or labeling) to indicate that, once opened, it must be discarded after 24 hours when stored at controlled room temperature and/or that, once opened, it must be discarded after 72 hours when stored under refrigeration.***	N/A		14.5 USP <51>
76.4	Multiple-dose CSPs are labeled to indicate the beyond use date of the CSP once it is opened or punctured. ***Inspector note: Labeling on the CSP should indicate that once the CSP container is entered or punctured, it must not be used for longer than the assigned BUD or 28 days (if supported by antimicrobial effectiveness testing results), whichever is shorter.*** ***Inspector should review the CR or final compounded preparation to verify the label contains this information.***	Yes		14.5
76.5	Container-closure systems used are evaluated for maintaining integrity (USP <1207>) for each formulation and fill volume. ***Inspector note: Per USP <797>, the container closure integrity test needs to be conducted only once on each formulation and on fill volume in the particular container closure system in which the multiple-dose CSP will be packaged.***	Yes		14.5 USP <1207>

Sterile Compounding Personnel Records Review

Select personnel with compounding responsibilities for your records review; preferably select staff performing compounding duties at time of inspection or staff identified during CR review.
- **Recommend also pulling supervising personnel file.**
- **Inspector can consider pulling non-compounder employee file ("Other") who cleans and stocks compounding area but who does not compound (Note: frequency of competency assessment will be defined by pharmacy SOPs).**

Review five (5) personnel files and document your observations. (For applicants seeking a Class E-S Non-Resident Sterile Compounding Inspection (Texas Sampling), review a total of 10 personnel records.)
- ***Note: long-term employees may not have initial training available, if this is the case, you may select an alternative file. If an alternate file is not available, document length of service of long-term employee.**

Inspector Note: soybean casein digest medium and trypticase soy broth are the same media.

Inspector Instructions	Demonstrating Knowledge and Competency of Core Skills (Section 2:1)
1. Use the drop-down list and make the appropriate selection for the Employee Title, Personnel Function, and CSP Category Type for the files reviewed. *Do not record the employee name, only the title or position. **2. Review the selected files to verify that the required training and competency records are present in the personnel file and comply with USP <797> standards for training and demonstrated competency.** **3. Select the appropriate response for each item reviewed.** **-Select "Yes" if the document is present in the records and the competency evaluation was conducted in compliance USP <797> standards.** **-Select "No" if the document is present but is not compliant with USP <797> standards (eg, incorrect frequency of test, GFT and surface sample was not conducted after media-fill, failed tests did not include a corrective action, etc). Document the area(s) of non-compliance in the notes column.** **-Select "Missing" if the document is not present in the file.** **-Select "N/A" if the training does not apply, eg, long-term employees may not have initial training available. Document further in the notes column.** **4. Use the notes column to document any pertinent information.**	**USP requirements:** **1. Personnel who perform or oversee compounding *or support activities* must be trained in the SOPs and trained on maintaining the quality of the environment (See Table 2).** **2. Compounding personnel and supervising personnel must complete training needed to demonstrate knowledge of principles and competency of skills for performing sterile manipulations and achieving and maintaining appropriate environmental conditions (See Table 2 and Table 3). This must be completed initially and every 12 months in at least the following areas:** **-Hand hygiene** **-Garbing** **-Cleaning and disinfection** **-Calculations, measuring, and mixing** **-Aseptic technique** **-Achieving and/or maintaining sterility (and apyrogenicity if compounding with nonsterile components)** **-Use of equipment** **-Documentation of the compounding process (eg, master formulation and compounding records)** **-Principles of high-efficiency particulate air (HEPA)-filtered unidirectional airflow within the ISO Class 5 area** **-Proper use of PECs** **-Principles of movement of materials and personnel within the compounding area** **3. Personnel who only perform restocking or cleaning and disinfecting duties outside of the primary engineering control (PEC) must complete ongoing training as required by the facility's SOPs (See Table 3).** **4. Personnel compounding only immediate-use CSPs must complete training as required by the facility's SOPs (See Table 3).** **5. All training and evaluations must be documented.**

Inspector Instructions	Hand Hygiene and Garbing Competency Evaluation (Section 2.2)
1. Use the drop-down list and make the appropriate selection for the Employee Title, Personnel Function, and CSP Category Type for the files reviewed. *Do not record the employee name, only the title or position. 2. Review the selected files to verify that the required training and competency records are present in the personnel file and comply with USP <797> standards for training and demonstrated competency. 3. Select the appropriate response for each item reviewed. -Select "Yes" if the document is present in the records and the competency evaluation was conducted in compliance USP <797> standards. -Select "No" if the document is present but is not compliant with USP <797> standards (eg, incorrect frequency of test, GFT and surface sample was not conducted after media-fill, failed tests did not include a corrective action, etc). Document the area(s) of non-compliance in the notes column. -Select "Missing" if the document is not present in the file. -Select "N/A" if the training does not apply, eg, long-term employees may not have initial training available. Document further in the notes column. 4. Use the notes column to document any pertinent information.	USP requirements: 1. The garbing and hand hygiene competency evaluation consists of a visual observation and gloved fingertip and thumb sampling (GFT) of both hands. 2. The initial competency evaluation consists of three (3) separate and complete hand hygiene observation, followed by a full garbing procedure and a GFT after garbing. The initial three (3) successful completions must be in succession—failure of any of the three (3) initial garbing competency evaluations requires repeat testing until personnel successfully complete three (3) evaluations in a row. 3. The pharmacy uses a microbiological growth media device (eg, plates, paddles, or slides) containing general microbial growth agar (eg, trypticase soy agar [TSA]) supplemented with neutralizing additives (eg, lecithin and polysorbate 80) that supports both bacterial and fungal growth. 4. The media device is incubated at 30°C-35°C for no less than 48h and then at 20°C-25°C for no less than an additional five days. 5. Failure is indicated by visual observation of improper hand hygiene and garbing procedures and/or GFT results that exceed the defined action levels. Action level after garbing: >0 cfu/total from both hands. 6. Documentation includes, at minimum: -Name of the person evaluated -Evaluation date and time -Media and components used including manufacturer, expiration date, and lot number -Starting temperature for each interval of incubation -Dates of incubation -Results (the number of cfu per hand must be recorded; microbial identification of the cfu is not required by the chapter for GFT) -Results of the evaluation and any corrective actions -Name of the observer and personnel reading and documenting the results

Inspector Instructions	Aseptic Manipulation Competency (Section 2.3)
1. Use the drop-down list and make the appropriate selection for the Employee Title, Personnel Function, and CSP Category Type for the files reviewed. *Do not record the employee name, only the title or position. 2. Review the selected files to verify that the required training and competency records are present in the personnel file and comply with USP <797> standards for training and demonstrated competency. 3. Select the appropriate response for each item reviewed. -Select "Yes" if the document is present in the records and the competency evaluation was conducted in compliance USP <797> standards. -Select "No" if the document is present but is not compliant with USP <797> standards (eg, incorrect frequency of test, GFT and surface sample was not conducted after media-fill, failed tests did not include a corrective action, etc). Document the area(s) of non-compliance in the notes column. -Select "Missing" if the document is not present in the file. -Select "N/A" if the training does not apply, eg, long-term employees may not have initial training available. Document further in the notes column. 4. Use the notes column to document any pertinent information. 5. Document in notes if initial aseptic manipulation competencies are present in files (*unless long-term employee).	USP requirements: 1. Media-fill testing procedures simulate the most difficult compounding procedures encountered by personnel. 2. The pharmacy conducts media-fill testing as described in Box 2. 3. The final containers are incubated at 20°C-25°C and 30°C-35°C for a minimum of seven days at each temperature band. 4. Failure is indicated by visible turbidity or other visual manifestations of growth in the media in one or more container closure unit(s) on or before 14 days. 5. Immediately following the media-fill test, GFT is performed on both hands and inside of an ISO Class 5 PEC. Failure is indicated by visual observation of GFT results that exceed defined action levels. Action level after media-fill testing: >3 cfu/total from both hands. 6. Immediately following the GFT, a surface sample of the direct compounding area inside the PEC is performed in accordance with USP standards for surface sample monitoring and action levels. Action level ISO Class 5: >3 cfu/media device. 7. Failure in the media fill, GFT, or surface sampling constitutes an overall failure of the aseptic manipulation competency. 8. Documentation includes, at minimum: -Name of the person evaluated -Evaluation date and time -Media and components used including manufacturer, expiration date, and lot number -Starting temperature for each interval of incubation -Dates of incubation -Results (for GFT, the number of cfu per hand must be recorded and for surface samples, the number of cfu per sample must be recorded. Note: microbial identification of the cfu is not required for media-fill testing) -Results of the evaluation and any corrective actions -Name of the observer and personnel reading and documenting the results

GLOSSARY USP <797>
ACD: Automated compounding device.
ACPH: Air changes per hour.
Active pharmaceutical ingredient (API): Any substance or mixture of substances intended to be used in the compounding of a preparation, thereby becoming the active ingredient in that preparation and furnishing pharmacological activity or other direct effect in the diagnosis, cure, mitigation, treatment, or prevention of disease in humans and animals or affecting the structure and function of the body. Also referred to as *Bulk drug substance*. A conventionally manufactured drug product is not an API but is typically manufactured from an API(s).
Added substance: An ingredient that is necessary to compound a preparation but is not intended or expected to cause a pharmacologic response if administered alone in the amount or concentration contained in a single dose of the compounded preparation. The term is used synonymously with the terms *inactive ingredient, excipient, and pharmaceutical ingredient.*
Administration: The direct application of a sterile product or preparation to a single patient by injecting, infusing, or otherwise providing a sterile product or preparation in its final form.
Airlock: A space with interlocked doors, constructed to maintain air pressure control when items move between two adjoining areas (generally with different air cleanliness standards). The intent of an airlock is to prevent ingress of particulate matter and microbial contamination from a lesser-controlled area.
Alcohol-based hand rub: An alcohol-containing preparation (liquid, gel, or foam) designed for application to the hands of health care personnel to inactivate microorganisms and/or temporarily suppress their growth. Such preparations may contain one or more types of alcohol, other active ingredients, excipients, and humectants.
Allergenic extract compounding area (AECA): A designated space, area, or room that is not required to be classified, with a visible perimeter that is suitable for preparation of allergenic extract prescription sets.
Allergenic extract prescription set: Combinations of licensed allergenic extracts that would be mixed and diluted to provide subcutaneous immunotherapy to an individual patient, even though these allergenic extract combinations are not specified in the approved BLAs for the licensed biological products.
Allergenic extract: A biological substance used for the diagnosis and/or treatment of allergic diseases such as allergic rhinitis, allergic sinusitis, allergic conjunctivitis, bee venom allergy, and food allergy.
Anteroom: An ISO Class 8 or cleaner room with fixed walls and doors where personnel hand hygiene, garbing procedures, and other activities that generate high particulate levels may be performed. The anteroom is the transition room between the unclassified area of the facility and the buffer room.

GLOSSARY USP <797>
Aseptic processing: A method by which separate, sterile components (eg, drugs, containers, or closures) are brought together under conditions that maintain their sterility. The components can either be purchased as sterile or, when starting with nonsterile components, can be separately sterilized prior to combining (eg, by membrane filtration or by autoclave).
Aseptic technique: A set of methods used to keep objects and areas free of microorganisms and thereby minimize infection risk to the patient. It is accomplished through practices that maintain the microbe count at an irreducible minimum.
Assigned trainer: One or more individuals assigned by the designated person(s) to be responsible and accountable for directly providing the training, observation, and/or evaluation of personnel for the preparation of CSPs.
Batch: More than one CSP prepared as described in the MFR in a single, discrete process, and expected to have uniform character and quality, within specified limits.
Beyond-use date (BUD): The date, or the hour and date, after which a CSP must not be used, stored, or transported. The date is determined from the date and time the preparation is compounded.
Biological safety cabinet (BSC), Class II: A ventilated cabinet with an open front and inward and downward unidirectional HEPA-filtered airflow and HEPA-filtered exhaust. A BSC used to prepare a CSP must be capable of providing an ISO Class 5 or better environment for preparation of the CSPs.
Biological safety cabinet (BSC): A ventilated cabinet that may be used for compounding. These cabinets are divided into three general classes (Class I, Class II, and Class III). Class II BSCs are further divided into types (Type A1, Type A2, Type B1, Type B2, and Type C1).
BLA: Biological license application.
Blood components: Any therapeutic constituent of blood separated by physical or mechanical means (eg, white cells, red cells, platelets, plasma, serum). It is not intended to include plasma-derived products (eg, albumin, coagulation factors, immunoglobulins) manufactured under an approved BLA or equivalent.
BMBL: Biosafety in Microbiological and Biomedical Laboratories.
Buffer room: An ISO Class 7 or cleaner room with fixed walls and doors where PEC(s) that generate and maintain an ISO Class 5 environment are physically located. The buffer room may only be accessed through the anteroom or another buffer room.
Bulk drug substance: See the entry for *Active pharmaceutical ingredient*.

GLOSSARY USP <797>
Category 1 CSP: A CSP that is assigned a BUD of 12 hours or less at controlled room temperature or 24 hours or less refrigerated that is compounded in accordance with all applicable requirements for Category 1 CSPs in this chapter.
Category 2 CSP: A CSP that may be assigned a BUD of greater than 12 hours at controlled room temperature or greater than 24 hours refrigerated that is compounded in accordance with all applicable requirements for Category 2 CSPs in this chapter.
Category 3 CSP: A CSP that may be assigned a BUD exceeding the limits in *Table 13* for Category 2 CSPs and is compounded in accordance with all applicable requirements for Category 3 CSPs in this chapter.
CDC: Centers for Disease Control and Prevention.
Certificate of analysis (COA): A report from the supplier of a component, container, or closure that accompanies the supplier's material and contains the specifications and results of all analyses and a description of the material.
CFU: Colony-forming units.
Classified area: An area that maintains an air quality classification based on the ISO standards required in this chapter (see also the definition for *ISO class).*
Cleaning agent: An agent, usually containing a surfactant, used for the removal of substances (eg, dirt, debris, microbes, and residual drugs or chemicals) from surfaces.
Cleaning: The process of removing substances (eg, organic and inorganic material) from objects and surfaces, normally accomplished by manually or mechanically using water with detergents or enzymatic products.
Cleanroom suite: A classified area that consists of both an anteroom and buffer room.
Component: Any ingredient used in the compounding of a preparation, including any active ingredient, added substance, or conventionally manufactured product.
Compounded sterile preparation (CSP): A preparation intended to be sterile that is created by combining, admixing, diluting, pooling, reconstituting, repackaging, or otherwise altering a drug product or bulk drug substance.
Compounded stock solution: A sterile mixture of components that is used to compound additional CSPs.
Compounding area: The area where compounding is occurring (ie, a cleanroom suite, inside the perimeter of the SCA, or AECA).

GLOSSARY USP <797>
Compounding aseptic containment isolator (CACI): A type of RABS that uses HEPA filtration to provide an ISO Class 5 unidirectional air environment designed for the compounding of sterile HDs.
Compounding aseptic isolator (CAI): A type of RABS that uses HEPA filtration to provide an ISO Class 5 unidirectional air environment designed for compounding of sterile non-HDs.
Compounding record (CR): Documents the compounding of each CSP.
Compounding: The process of combining, admixing, diluting, pooling, reconstituting, repackaging, or otherwise altering a drug product or bulk drug substance to create a sterile preparation.
Container closure system: Packaging components that together contain and protect the dosage form. This includes primary packaging components and secondary packaging components, if the latter are intended to provide additional protection.
Containment glove bag: A single-use disposable glove bag that is capable of containing airborne chemical particles.
Containment ventilated enclosure (CVE): A non-ISO classified full or partial enclosure that uses ventilation principles to capture, contain, and remove airborne contaminants through HEPA filtration and prevent their release into the work environment.
Conventionally manufactured product: A pharmaceutical dosage form, usually the subject of an application approved by the applicable national regulatory agency, that is manufactured under current good manufacturing practice conditions.
Critical site: A location that includes any component or fluid pathway surfaces (eg, vial septa, injection ports, and beakers) or openings (eg, opened ampules and needle hubs) that are exposed and at risk of direct contact with air (eg, ambient room or HEPA filtered), moisture (eg, oral and mucosal secretions), or touch contamination.
Designated person(s): One or more individuals assigned to be responsible and accountable for the performance and operation of the facility and personnel as related to the preparation of CSPs.
Direct compounding area (DCA): A critical area within the ISO Class 5 PEC where critical sites are exposed to unidirectional HEPA-filtered air, also known as first air.
Disinfectant: A chemical or physical agent used on inanimate surfaces and objects to destroy fungi, viruses, and bacteria. Sporicidal disinfectants are considered a special class of disinfectants that also are effective against bacterial and fungal spores.
Dynamic airflow smoke pattern test: A PEC test in which a visible source of smoke, which is neutrally buoyant, is used to observe air patterns within the unidirectional space (i.e., the DCA) under dynamic operating conditions (see the entry for *Dynamic operating conditions).* This test is not appropriate for ISO Class 7 or ISO Class 8 cleanrooms that do not have unidirectional airflow (see the entry for *Visual smoke study).*

GLOSSARY USP <797>
Dynamic operating conditions: Conditions in the compounding area in which operating personnel are present and simulating or performing compounding. The conditions should reflect the largest number of personnel and highest complexity of compounding expected during routine operations as determined by the designated person(s).
ECV: Endotoxin challenge vial.
EPA: US Environmental Protection Agency.
Excipient: See the entry for *Added substance.*
FDA: US Food and Drug Administration.
Filter integrity test: A test (eg, bubble point test) of the integrity of a sterilizing-grade filter performed after the filtration process to detect whether the integrity of the filter has been compromised.
Final yield: The total number of containers prepared at the end of the compounding process prior to release testing.
First air: The air exiting the HEPA filter in a unidirectional air stream.
Formulation: The specific qualitative and quantitative composition of the final CSP.
Garb: Items such as gloves, garments (eg, gowns), shoe covers, head and facial hair covers, masks, and other items designed to reduce particle shedding from personnel and minimize the risk of contamination of CSP(s).
GFT: Gloved fingertip and thumb testing.
Hazardous drug (HD): Any drug identified by at least one of the following six criteria: carcinogenicity, teratogenicity or developmental toxicity, reproductive toxicity in humans, organ toxicity at low dose in humans or animals, genotoxicity, or new drugs that mimic existing HDs in structure or toxicity.
High-efficiency particulate air (HEPA) filtration: Being, using, or containing a filter designed to remove 99.97% of airborne particles measuring 0.3-micron or greater in diameter passing through it.
HVAC: Heating, ventilation, and air conditioning.
Integrated vertical laminar flow zone (IVLFZ): A designated ISO Class 5 area serving as the PEC within an ISO Class 7 or cleaner buffer room. In the IVLFZ, unidirectional airflow is created by placing HEPA filters over the entire surface of the worktables and by effective placement of air returns.
IPA: Isopropyl alcohol.

GLOSSARY USP <797>
ISO class: An air-quality classification from the International Organization for Standardization.
ISO: International Organization for Standardization.
Label: The part of the labeling on the immediate container.
Labeling: All labels and other written, printed, or graphic matter on the immediate container or on or inside any packaging system or wrapper in which the article is enclosed, except any outer shipping container.
Laminar airflow system (LAFS): A device or zone within a buffer room that provides an ISO Class 5 or better air quality environment for sterile compounding. The system provides a unidirectional HEPA-filtered airflow.
Laminar airflow workbench (LAFW): A device that is a type of LAFS that provides an ISO Class 5 or better air quality environment for sterile compounding. The device provides a unidirectional HEPA-filtered airflow.
Line of demarcation: A visible line on the floor that separates the clean and dirty sides of the anteroom.
Low-lint wiper: A wiper exhibiting few, if any, fibers or other contamination, visible without magnification, which is separate from or easily removed from the wiper material in a dry condition.
Master formulation record (MFR): A detailed record of procedures that describes how the CSP is to be prepared.
MEA: Malt extract agar.
Media-fill test: A simulation used to qualify processes and personnel engaged in sterile compounding to ensure that the processes and personnel are able to prepare CSPs without contamination.
Monograph: A quality documentary standard within *USP–NF* that articulates the quality expectations for a medicine including for its identity, strength, purity, and performance. It also describes the tests to validate that a medicine and its ingredients meet these criteria.
Multiple-dose container: A container of sterile product for parenteral administration (eg, injection or infusion) that is designed to contain more than one dose of the sterile product. A multiple-dose container is usually required to meet the antimicrobial effectiveness testing criteria. See <659>Injection Packaging Systems, Multiple-dose container.
One-step disinfectant cleaner: A product with an EPA-registered (or equivalent) claim that it can clean and disinfect a nonporous surface in the presence of light to moderate organic soiling without a separate cleaning step.

GLOSSARY USP <797>
Oversight: The review, monitoring, and supervision of actions taken by personnel, bearing responsibility for those actions, and being available for consultation if and when needed, even if not physically present.
Pass-through chamber: An enclosure with sealed doors on both sides that should be interlocked. The pass-through chamber is positioned between two spaces for the purpose of minimizing particulate transfer while moving materials from one space to another.
Perimeter: A visible demarcation (such as a door, walls, or visible marking on the floor) that defines the SCA or AECA.
Pharmaceutical isolator: An enclosure that provides HEPA-filtered ISO Class 5 unidirectional air operated at a continuously higher pressure than its surrounding environment and is decontaminated using an automated system. It uses only decontaminated interfaces or rapid transfer ports for materials transfer. [Note—A CAI or CACI is not a pharmaceutical isolator.]
Pharmacy bulk package: A conventionally manufactured sterile product for parenteral use that contains many single doses intended for use in a pharmacy admixture program. A pharmacy bulk package may either be used to prepare admixtures for infusion or, through a sterile transfer device, for filling sterile containers. See <659>*Injection Packaging Systems, Pharmacy bulk package.*
Positive-pressure room: A room that is maintained at higher pressure than the adjacent spaces, and therefore the net airflow is out of the room.
PPE: Personal protective equipment.
Preservative: A substance added to inhibit microbial growth.
Primary engineering control (PEC): A device or zone that provides an ISO Class 5 air quality environment for sterile compounding.
Probability of a nonsterile unit (PNSU): The probability of an item being nonsterile after it has been exposed to a verified sterilization process. A PNSU value can only be applied to terminal sterilization. [Note—This is also called the sterility assurance level (SAL).]
Pyrogen: A substance that induces a febrile reaction in a patient.
Quality assurance (QA): A system of procedures, activities, and oversight that ensures that the compounding process consistently meets quality standards.
Quality control (QC): The sampling, testing, and documentation of results that, taken together, ensure that specifications have been met before release of the CSP.
Reconstitution: The process of adding a diluent to a conventionally manufactured product to prepare a sterile solution or suspension.
Release inspection and testing: Visual inspection and testing performed to ensure that a preparation meets appropriate quality characteristics.

GLOSSARY USP <797>
Repackaging: The act of removing a sterile product or preparation from its original primary container and placing it into another primary container, usually of smaller size without further manipulation.
Restricted-access barrier system (RABS): An enclosure that provides HEPA-filtered ISO Class 5 unidirectional air that allows for the ingress and/or egress of materials through defined openings that have been designed and validated to preclude the transfer of contamination, and that generally are not to be opened during operations. Examples of RABS include CAIs and CACIs.
SDA: Sabouraud dextrose agar.
Secondary engineering control (SEC): The area where the PEC is placed (eg, a cleanroom suite or an SCA). It incorporates specific design and operational parameters required to minimize the risk of contamination within the compounding area.
Segregated compounding area (SCA): A designated space, area, or room that is not required to be classified and is defined with a visible perimeter. The SCA must contain a PEC and is suitable for preparation of Category 1 CSPs only.
Single-dose containers: A container of sterile product for parenteral administration (eg, injection or infusion) that is designed for use with a single patient as a single injection/infusion. A single-dose container usually does not contain a preservative. See <659> Injection Packaging Systems, Single-dose container.
SOP: Standard operating procedure.
Specification: The tests, analytical methods, and acceptance criteria to which any component, CSP, container closure system, equipment, or other material used in compounding CSPs must conform to be considered acceptable for its intended use.
Sporicidal disinfectant: A chemical or physical agent that destroys bacterial and fungal spores when used in sufficient concentration for a specified contact time. It is expected to kill all vegetative microorganisms.
Stability: The extent to which a product or preparation retains physical and chemical properties and characteristics within specified limits throughout its expiration or BUD.
Sterility assurance level (SAL): See the entry for *Probability of a nonsterile unit* (PNSU).
Sterility: The absence of viable microorganisms.
Sterilization by filtration: Passage of a gas or liquid through a sterilizing-grade membrane to yield filtrates that are sterile.

GLOSSARY USP <797>
Sterilizing-grade filter: Filter membranes that are documented to retain 100% of a culture of 10^7 microorganisms of a strain of *Brevundimonas diminuta* per square centimeters of membrane surface under a pressure of not less than 30 psi. Such filter membranes are nominally 0.22- or 0.2-µm pore size.
Terminal sterilization: The application of a lethal process (eg, steam, dry heat, irradiation) to sealed containers for the purpose of achieving a predetermined PNSU of greater than 10−6 or a probability of less than one in one million of a nonsterile unit.
TSA: Trypticase soy agar.
Unclassified space: A space not required to meet any air cleanliness classification based on the ISO.
Unidirectional airflow: Air within a PEC moving in a single direction in a uniform manner and at sufficient velocity to sweep particles away from the DCA.
Verify: To confirm that a method, process, system, or equipment will perform as expected under the conditions of actual use.
Visual smoke study: A test, used in ISO Class 7 and ISO Class 8 rooms that do not have unidirectional airflow, in which a visible source of smoke, which is neutrally buoyant, is used to verify an absence of stagnant airflow. This test does not need to be performed under dynamic operating conditions and is not appropriate for PECs (see the entry for *Dynamic airflow smoke pattern test*).
Workflow management system: Technology comprised of hardware and/or software that allows for automation to assist in the verification of components of, and preparation of, CSPs and to document components and processes.

Hazardous Drugs - Handling in Health Care Settings

The information and comments obtained in the Hazardous Drugs - Handling in Health Care Settings inspection is based on USP Chapter <800>.
Any items marked "Recommendation" are considered "best practices" and are not considered requirements for compliance with USP standards, but the information is collected as it may be a requirement under state law.
An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

		Observation	Notes
General Information and Scope:			
1.00	Does the pharmacy handle any drugs on the National Institute for Occupational Safety and Health (NIOSH) list that **require** all the containment requirements of USP <800>?	No	
1.01	Does the pharmacy handle any ***hazardous drug*** active pharmaceutical ingredients (HD API)? *If yes, please list.*	Yes	Testosterone USP
1.02	Does the pharmacy handle any antineoplastic requiring manipulations (which can produce particles, aerosols, or gasses)? *If yes, please list.*	No	
2.00	Does the pharmacy handle any drugs on the NIOSH list that **do not** require all containment requirements of <800>?	No	
2.01	Does the pharmacy handle any final dosage forms of HDs (either compounded or manufactured unless required by the manufacturer) that do not require further manipulation other than counting and repackaging? *If yes, please list.*	No	
2.02	Does the pharmacy handle any dosage forms of other HDs **that are handled in full compliance** with containment requirements of <800>? *If yes, please list.*	No	
2.03	Does the pharmacy handle any dosage forms of other HDs **that are not handled** using all containment requirements of <800>? *If yes, please list.*	No

Hazardous Drugs - Handling in Health Care Settings

The Information and comments obtained in the Hazardous Drugs - Handling in Health Care Settings Inspection is based on USP Chapter <800>.
Any items marked "Recommendation" are considered "best practices" and are not considered requirements for compliance with USP standards, but the information is collected as it may be a requirement under state law.
An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

		Observation	Notes
	List of Hazardous Drugs		
3.00	The pharmacy maintains a list of any items it handles that are included on the current NIOSH list of antineoplastic and other HDs. ***Review and attach list.*** *Verify that pharmacy has access to a copy of current NIOSH list.*	Yes	
4.00	The pharmacy reviews this list at least every 12 months for additions, deletions, or other changes and documents the review. *Verify documentation and* ***list date*** *of last change/review.*	Yes	
5.00	The pharmacy reviews this list whenever the pharmacy adds a new agent or dosage form to the items it handles.	Yes	
6.00	The pharmacy has a system in place for the evaluation of new drugs (purchased, stored, handled, and/or dispensed) to determine whether they are considered HD.	Yes	
6.01	Pharmacy evaluates the drugs against the current version of the NIOSH list.	Yes	
6.02	In the absence of information, the pharmacy treats any new drug as an HD.	Yes	
7.00	If the pharmacy handles any HDs not using all containment requirements of <800>, an assessment of risk was performed for each drug and dosage form individually to determine alternative containment strategies, if needed, and work practices for each. *Review documentation of assessment and SOPs related to work practices/alternative containment.*	Yes

30.05	Gowns are changed in accordance with the manufacturer's instructions, or if no permeation information is available, they are changed every two to three hours or immediately after a spill or splash.	Yes	
30.06	Gowns worn in HD areas are not worn to other areas.	Yes	
31.00	**Head, hair** (beard and moustache, if appropriate), **and shoe and sleeve covers.** The pharmacy is using appropriate head, hair, and shoe and sleeve covers for the type of compounding based on standards or assessment of risk to provide protection from contact with HD residue, if required.	Yes	
31.01	When HD compounding, a second pair of shoe covers are donned before entering the C-SEC and doffed when exiting the C-SEC.	Yes	
31.02	Shoe covers worn in HD areas are not worn into other areas of the facility.	Yes	
32.00	**Eye and Face Protection:** The pharmacy is using appropriate eye and face PPE protection for the activities conducted (based on assessment of risk that HDs are irritating to the eyes and mucous membranes, where there is risk of spills or splashes when working outside of a C-PEC), if required.	Yes

Box 1. Gloved Fingertip and Thumb Sampling Procedures

- Use one sampling media device (e.g., plates, paddles, or slides) per hand, containing general microbial growth agar (e.g., trypticase soy agar [TSA]) supplemented with neutralizing additives (e.g., lecithin and polysorbate 80) as this agar supports both bacterial and fungal growth.
- Label each media device with a personnel identifier, right or left hand, and the date and time of sampling.
- Do not apply sterile 70% isopropyl alcohol (IPA) to gloves immediately before touching the media device because this could cause

- Do not apply sterile 70% isopropyl alcohol (IPA) to gloves immediately before touching the media device because this could cause a false-negative result. Using a separate media device for each hand, collect samples from all gloved fingertips and thumbs from both hands by rolling fingertip pads and thumb pad over the agar surface.
- Incubate the media device at 30°–35° for no less than 48 h and then at 20°–25° for no less than 5 additional days. Samples must be incubated in an incubator. Handle and store media devices to avoid contamination and prevent condensate from dropping onto the agar during incubation and affecting the accuracy of the cfu reading (e.g., invert plates).
- Record the number of cfu per hand (left hand, right hand).
- Determine whether the cfu action level is exceeded by counting the total number of cfu from both hands.

7. Compounding personnel or personnel who have direct oversite of compounding personnel, have completed an initial aseptic manipulation competency evaluation. (USP 797 - (2.3)

- *visual observation*
- *Media-fill testing*
- *Gloved fingertip and thumb sampling after media fill*
  - *No more than 3 CFU's total from both hands*
- *Surface sampling of the direct compounding area after media fill*
  - *No more than 3 CFU's in ISO class 5*

Box 2. Media-Fill Testing Procedures

- If all of the starting components are sterile to begin with, manipulate them in a manner that simulates sterile-to-sterile compounding activities, and transfer the sterile soybean–casein digest media into the same types of container closure systems commonly used at the facility. Do not further dilute the media unless specified by the manufacturer.
- If some of the starting components are nonsterile to begin with, dissolve a commercially available nonsterile soybean–casein digest powder in nonbacteriostatic water to make a 3% nonsterile solution. Manipulate it in a manner that simulates nonsterile-to-sterile compounding activities. Prepare at least 1 container as the positive control to demonstrate growth promotion, which is indicated by visible turbidity upon incubation.
- Once the compounding simulation is completed and the final containers are filled with the test media, perform a gloved fingertip and thumb sample on each hand and surface sample of the direct compounding area inside the PEC. Take the samples prior to

disinfecting gloves and PEC. Handle and store samples to avoid contamination and prevent condensate from dropping onto the agar during incubation and affecting the accuracy of the cfu reading (e.g., invert containers)

- Incubate the final containers at 20°–25° and 30°–35° for a minimum of 7 days at each temperature band to detect a broad spectrum of microorganisms. The order of the incubation temperatures must be described in the facility's SOPs. Final containers must be incubated in an incubator.
- Failure is indicated by visible turbidity or other visual manifestations of growth in the media in one or more container closure unit(s) on or before 14 days.

Personal Hygiene and Garbing

	Yes	No	N/A
1. Before entering a compounding area, individuals must remove any items that are not easily cleanable or are not necessary for compounding. (USP 797 - (3.1) ***- Remove personal outer garments, cosmetics, exposed jewelry/piercings, artificial nails*** ***- no earbuds or headphones*** ***- No electronic devices that are not necessary for compounding*** ***- Wipe eyeglasses if worn*** ***The designated person may permit accommodations as long as the quality of the CSP and environment will not be affected.***	X		

	Yes	No	N/A
2. Hand washing includes removing debris under fingernails, washing hands and forearms with soap for at least 30 seconds, and low-lint disposable towels or wipes to dry hands. (USP 797 - (3.2) ***- If hand washing is performed outside of the ante-room, alcohol based hand rub must be applied before donning garb. (USP 797 - (3.3)***	X		

	Yes	No	N/A
3. Garb must be donned and doffed in an order that reduces risk of contamination and is documented in the policies and procedures. (USP 797 - (3.3)	X		

	Yes	No	N/A
4. Category 1 and Category 2 garbing includes the following. (USP 797 - (3.3) ***- Low-lint garment with sleeves that fit snugly around the wrists with an enclosed neck*** ***- Low-lint covers for shoes*** ***- Low-lint cover for head that covers the hair and ears, and if applicable, a cover for facial hair.*** ***- Low-lint face mask*** ***- Sterile powder-free gloves***	X		

5. Category 3 garbing includes the following additional requirements. (USP 797 - (3.3) - *No exposed skin in the buffer room* - *All low-lint outer garb must be sterile* - *Disposable garbing items must not be reused, and laundered garb must not be reused without being laundered and resterilized with a validation cycle*	Yes	No	N/A
			X

6. Alcohol based hand rub is applied before donning sterile gloves. (USP 797 - (3.2) - *Sterile gloves are donned in a classified room or SCA.*	Yes	No	N/A

Facility Design - Cleanroom Suite

1. The pharmacy has an ISO classified anteroom and buffer room separated from the surrounding unclassified areas of the facility by fixed walls and doors with controls in place to minimize the flow of lower-quality air in the more controlled areas. USP 797 - (4.2.1)	Yes	No	N/A
	X		

2. The anteroom and buffer room is supplied with High-efficiency Particulate Air Filtration (HEPA). (USP 797 - (4.2.1) - *HEPA filters are located in ceiling* - *Air returns in the cleanroom suite are low on the wall.* - *If air returns are not low on the wall, a visual smoke study has been performed to show the absence of stagnant airflow.*	Yes	No	N/A
	X		

3. The anteroom has a line of demarcation to separate the clean side from the dirty side. (USP 797 - (4.2.1)	Yes	No	N/A
	X		

4. A sink with hot and cold running water is available for hand hygiene is located in the ante room. (USP 797 - (4.4) - *If located outside of ante room, it is in a clean space to minimize the risks of bringing contaminants into the anteroom.*	Yes	No	N/A
	X		

5. All surfaces of ceilings, walls, floors, doors, door frames, fixtures, shelving, work surfaces, counters, and cabinets in the classified area must be smooth, impervious, free from cracks and crevices, and Non shedding. (USP 797 - (4.3.1)	yes	No	N/A
	X		

6. Floors must include coving to the sidewall, or the juncture between the floor and the wall must be caulked. (USP 797 - (4.3.1)	Yes	No	N/A
	X		

7. Walls must be constructed of, or may be covered with, durable material (e.g., epoxy painted wall or heavy-gauge polymer) and the integrity of the surface must be maintained. (USP 797 - (4.3.1)	Yes	No	N/A
	X		

8. If ceilings consist of inlaid panels, the panels must be caulked around each panel to seal them to the support frame. (USP 797 - (4.3.1)	Yes	No	N/A
			X

9. Junctures between the ceiling and the walls and between the walls and floor must be sealed to eliminate cracks and crevices. (USP 797 - (4.3.1)	Yes	No	N/A
	X		

10. Doors in the anteroom and buffer room are coordinated to prevent both being open at the same time by interlocking, training, or signage. (USP 797 - (4.2.1) - *No tacky mats in ISO rated areas.*	Yes	No	N/A
	X		

11. Pass-through chambers are coordinated to prevent both from being open at the same time by interlocking, training, or signage. USP 797 - (4.2.1)	Yes	No	N/A
Not equipped			X

12. Buffer room does not contain plumbed water sources such as a sink, eyewash station, showers, or floor drains. (USP 797 - (4.4)	Yes	No	N/A
	X		

Environmental Controls - cleanroom suite

1. Certification of the cleanroom suite must be performed initially and recertification must be performed at least every 6 months and includes: (USP 797 - (5)	Yes	No	N/A
- *Airflow testing* - *HEPA filter integrity testing* - *Total particle count testing* - *Dynamic airflow smoke pattern test in each PEC*	X		
Last conducted 2/1/2024 by TSS			

2. Total airborne particle count testing is conducted in all classified areas every 6 months. (USP 797 - (5.1)	Yes	No	N/A
	X		

3. Anteroom is certified as ISO 8 having less than 3,520,000 particles, greater than or equal to 0.5 microns, per cubic meter of air. (USP 797 - (4.1.2) - (Table 4)	Yes	No	N/A
	X		

4. Buffer room is certified as ISO 7 having less than 352,000 particles, greater than or equal to 0.5 microns, per cubic meter of air. (USP 797 - (4.1.2) - (Table 4)	Yes	No	N/A
	X		

5. A minimum differential positive pressure of 0.02 inch water column is required between adjacent ISO-classified areas. (USP 797 - (4.2.5)	Yes	No	N/A
- *Anteroom is at least 0.02" w.c. positive pressure to unclassified area.* - *Buffer room is at least 0.02" w.c. positive pressure to anteroom* - *Pressures are continuously monitored by a pressure differential monitoring device.* - *The results from the pressure monitoring device are reviewed and documented at least daily.*	X		

6. ISO 7 buffer room is certified as having a minimum of 30 total HEPA filtered Air Changes Per Hour (ACPH). (USP 797 - (4.2.4)

- At least 15 ACPH of the total air change rate in a room must come from the HVAC through HEPA filter located in the ceiling.

- The HEPA filtered air from the PEC, when added to the HVAC supplied HEPA filtered air, must increase the total HEPA filtered ACPH to at least 30 ACPH.

- The ACPH from HVAC, ACPH contributed from the PEC, and the total ACPH must be documented on the certification report.

Yes	No	N/A
X		

7. ISO 8 anteroom is certified as having a minimum of 20 total HEPA filtered ACPH. (USP 797 - (4.2.4)

- At least 15 ACPH of the total air change rate in a room must come from the HVAC through HEPA filters located in the ceiling

- The total ACPH must be documented on the certification report.

Yes	No	N/A
X		

8. All HEPA filters in the cleanroom suite are leak tested. (USP 797 - (5)

Yes	No	N/A
X		

9. The temperature and humidity of each room in the cleanroom suite is monitored. (USP 797 - (4.2)

- Temperature should be 20 degrees C (68 degrees F) or cooler and a relative humidity of 60%.

- Readings are documented at least daily or stored on continuous reading device.

- Must be controlled by HVAC system

- No free-standing air conditioners, humidifiers, or dehumidifiers

- Monitoring devices must be verified for accuracy every 12 months or as required by manufacturer.

Yes	No	N/A
X		

10. Microbiological air and/or surface monitoring is conducted in all classified areas during dynamic operations. (USP 797 - (6.1)

- In conjunction with the certification of new facilities and equipment

- After any servicing of facilities or equipment

- In response to identified problems (e.g., positive growth in sterility tests of CSP's)

- In response to identified trends

- In response to changes that could impact the sterile compounding environment.

Yes	No	N/A
X		

11. Viable air sampling is conducted in all classified areas during dynamic operating conditions. (USP 797 - (6.1) - *Sampling is performed using a volumetric impaction air sampler* - *At least 1 cubic meter or 1000 Liters of air is sampled.* - *Diagram of sampling locations and procedures for collecting samples (frequency, time of day, action levels)*	Yes	No	N/A
	X		

12. Pharmacies that compound category 1 and category 2 compounds, viable air sampling is performed every 6 months. (USP 797 - (6.2.1)	Yes	No	N/A
	X		

13. Category 3 compounding pharmacies perform monthly viable air sampling. (USP 797 - (6.2.1) - *Must be completed at least 30 days prior to the commencement of any category 3 compounding.*	Yes	No	N/A
			X

14. Viable air sampling procedures are in compliance with Active Air Sampling Procedures for Viable Airborne Monitoring outlined in USP 797. (USP 797 - (Box 5)	Yes	No	N/A
	X		

Box 5

1. Follow the manufacturer's instructions for operation of the impaction air sampler, including placement of media device(s).
2. Using the impaction air sampler, test at least 1 cubic meter or 1000 L of air from each location sampled.
3. At the end of each sampling period, retrieve the media device and cover it. Handle and store media devices to avoid contamination and prevent condensate from dropping onto the agar during incubation and affecting the accuracy of the cfu reading (e.g., invert plates).
4. Incubate the media device at 30°–35° for no less than 48 h. Examine for growth. Record the total number of discrete colonies of microorganisms on each media device as cfu per cubic meter of air on an environmental sampling form based on sample type (i.e., viable air), sample location, and sample date.
5. Then incubate the media device at 20°–25° for no less than 5 additional days. Examine for growth. Record the total number of discrete colonies of microorganisms on each media device as cfu per cubic meter of air on an environmental sampling form based on sample type (i.e., viable air), sample location, and sample date.

b. Alternatively, to shorten the overall incubation period, two sampling media devices may be collected for each sample location and incubated concurrently.

A. Both media devices could be TSA or one media device could be TSA and the other fungal media (e.g., malt extract agar [MEA] or Sabouraud dextrose agar [SDA]).

B. Incubate each media device in a separate incubator. Incubate one media device at 30°–35° for no less than 48 h, and incubate the other media device at 20°–25° for no less than 5 days. If fungal media are used as one of the samples, incubate the fungal media sample at 20°–25° for no less than 5 days.

C. Count the total number of discrete colonies of microorganisms on each media device, and record these results as cfu per cubic meter of air.

D. Record the results of the sampling on an environmental sampling form based on sample type (i.e., viable air), and include the sample location and sample date.

15. A general microbiological growth media that supports the growth of bacteria and fungi is used. (USP 797 - (6.2.2)

Yes	No	N/A
X		

- COA's from the manufacturer verify that the sampling media devices meet the expected growth promotion, pH, and sterilization requirements

16. Total CFU count of viable air samples at each ISO rated location did not exceed action levels. (USP 797 - (Table 7)

Yes	No	N/A
X		

- ISO 5 No more than 1
- ISO 7 No more than 10
- ISO 8 No more than 100

17. If the total CFU count of viable air samples at each ISO rated location exceeded action levels. (USP 797 - (6.2.3)

Yes	No	N/A
X		

- Cause investigated
- Corrective action taken
- Data collected in response to corrective action must be reviewed to confirm the actions have been effective.

- Attempt made to identify any microorganism recovered to genus level
- corrective action should include resampling of failed areas to confirm corrective action was successful

18. Surface sampling includes diagram of sampling locations and procedures for collecting samples (frequency, time of day, action levels) (USP 797 - (6.1)	Yes	No	N/A
	X		

19. Surface sampling is conducted in each of the following. (USP 797 - (6.3.1) - *Each ISO rated area* - *Pass through chambers* - *Equipment contained withing the PEC* - *Staging or work areas near the PEC* - *Frequently touched surfaces*	Yes	No	N/A
	X		

20. Pharmacies that compound category 1 and category 2 compounds, surface sampling is conducted monthly. (USP 797 - (6.3.1)	Yes	No	N/A
	X		

21. Category 3 compounding pharmacies perform surface sampling weekly and prior to assigning extended beyond use dating. (USP 797 - (6.3.1) - *Conducted in the PEC at the end of each batch before cleaning and disinfection.*	Yes	No	N/A
			X

22. Surface sampling is in compliance with surface sampling procedures outlined in USP 797. (USP 797 - (Box 6)	Yes	No	N/A
	X		

Box 6

1. Remove the cover from the surface sampling media device. Using a rolling motion, firmly press the media surface onto the surface to be sampled. The media device will leave a residue of growth media on the sample site. After sampling, clean and disinfect the sampled area to remove the residue from the surface.
2. Cover each media device. Handle and store media devices to avoid contamination and prevent condensate from dropping onto the agar during incubation and affecting the accuracy of the cfu reading (e.g., invert plates).
3. Incubate media device(s) at 30°–35° for no less than 48 h. Examine for growth. Record the total number of discrete colonies of microorganisms on each media device as cfu per media device on an environmental sampling form based on sample type (i.e., surface), sample location, and sample date.
4. Incubate the media device at 20°–25° for no less than 5 additional days. Examine for growth. Record the total number of discrete colonies of microorganisms on each media device (cfu per sample) on the environmental sampling record based on sample type (i.e., surface), sample location, and sample date.
5. Alternatively, to shorten the overall incubation period, two surface sampling media devices may be collected for each sample location and incubated concurrently.

   A: Both media devices could be TSA or one media device could be TSA and the other fungal media (e.g., malt extract agar

(MEA) or Sabouraud dextrose agar (SDA)). Media must be supplemented with neutralizing additives (e.g., lecithin and polysorbate 80).

B. Incubate each media device in a separate incubator. Incubate one media device at 30°–35° for no less than 48 h, and incubate the other media device at 20°–25° for no less than 5 days. If fungal media are used, incubate the fungal media device at 20°–25° for no less than 5 days.

C. Count the total number of discrete colonies of microorganisms on each media device, and record these results as cfu per media device.

D. Record the results of the sampling on an environmental sampling form based on sample type (i.e., surface), and include the sample location and sample date.

23. Surface sampling media contains a general microbial growth media (e.g., TSA) supplemented with neutralizing additives (e.g., lecithin and polysorbate 80). (USP 797 - (6.3.2)

Yes	No	N/A

- *Sporicidal disinfectant applied Monthly.*
- *Manufacturer's directions for contact time is followed.*

	Yes	No	N/A
3. Category 3 compounding pharmacies clean and disinfect the PEC and equipment inside the PEC daily when compounding occurs. (USP 797 - (7) (Table 10) - *70% sterile IPA is applied after cleaning and disinfecting* - *All cleaning, disinfecting and sporicidal agents used in PEC are sterile (7.1.1)* - *Sporicidal disinfectant is applied Weekly* - *Manufacturers direction for contact time is followed.*			X
4. Pharmacies compounding Category 1 and Category 2 CSP's, work surfaces, floors, sink(s) and pass-through chamber(s) are cleaned and disinfected daily when compounding occurs. (USP 797 - (7) (Table 10) - *Sporicidal disinfectant applied Monthly.* - *Manufacturer's directions for contact time is followed.*			X
5. Category 3 compounding pharmacies perform daily cleaning and disinfecting of work surfaces, floors, sink(s) and pass-through chambers daily. (USP 797 - (7) (Table 10) - *Sporicidal disinfectant is applied Weekly* - *Manufacturers direction for contact time is followed.*			X
6. Pharmacies compounding Category 1, Category 2, and Category 3 CSP's, walls, doors, ceiling, storage shelving, bins, and equipment is cleaned and disinfected monthly. (USP 797 - (7) (Table 10) - *Ceilings of SCA are only required to be cleaned and disinfected when visibly soiled or when surface contamination is suspected.* - *Manufacturers direction for contact time is followed.*			X
7. All cleaning and disinfecting supplies (wipers, sponges, pads, and mop heads) must be low lint. (USP 797 - (7.1.2)			X

Compounding Procedures

	Yes	No	N/A
1. Compounding personnel verify that CSP components are the correct identity, quantity, storage conditions, and within expiration date before compounding. (USP 797 - (9.3.3)			X

	Yes	No	N/A
2. Compounding was observed or simulated during the inspection.			X

	Yes	No	N/A
3. Before items are introduced into the clean side of the ante room, placed into pass-through chambers, or brought into the SCA, they are wiped with a disinfectant. (USP 797 - (8.1) *- sporicidal disinfectant, EPA-registered disinfectant or sterile 70% IPA is used.* *- Low lint wipers are used by personnel wearing gloves.*			X

	Yes	No	N/A
4. The PEC is disinfected with sterile 70% IPA before initiating compounding. (USP 797 - (7)			X

	Yes	No	N/A
5. Before items are introduced into the PEC, items are wiped with sterile 70% IPA and allowed to dry. (USP 797 - (8.2)			X

		No	N/A
6. Critical sites (vial stoppers, ampule necks, and intravenous bag septums) are wiped with sterile 70% IPA. (USP 797 - (8.3)			X

	Yes	No	N/A
7. Compounding personnel use appropriate aseptic technique. (USP 797 - (2) *- Proper use of 1st air* *- Gloves are disinfected with sterile 70% IPA before compounding and regularly throughout the compounding process*			X

Equipment, Supplies, and Components

	Yes	No	N/A
1. The equipment used in compounding is appropriate, clean and capable of operating properly. (USP 797 - (9.1) *- Equipment is of suitable composition and not reactive or sorptive.* *- Calibration and maintenance is based on manufacturer's recommendations.*	X		

- *Daily record of accuracy assessment is maintained.*

	Yes	No	N/A
2. Automated Compounding Devices (ACD's) have an accuracy assessment conducted each day before being used to compound CSP's. (USP 797 - (9.1)			
- *Daily record maintained*	X		

	Yes	No	N/A
3. Equipment designed to deliver a specific volume of solution(s) and/or scales have an accuracy assessment conducted each day before being used to compound CSP's. (USP 797 - (9.1) / (34-23-153)			
- *Daily record maintained*	X		

	Yes	No	N/A
4. All Active Pharmaceutical Ingredients (API's) are evaluated for suitability for use in sterile drug preparations. (USP 797 - (9.3.1)			
- *Components or API's are NOT labeled "not for pharmaceutical use", "not for injectable use", "not for human use", or an equivalent statement.*			X

	Yes	No	N/A
5. Active Pharmaceutical Ingredients (API's) and Components: (USP 797 - (9.3.1)			
- *Comply with the criteria in the USP-NF monograph if one exists*			X
- *Have a Certificate of Analysis (COA) that includes the specifications and meets the expected quality.*			
- *Manufactured in a FDA registered facility*			
- *In expiry date and stored within manufacturers guidelines*			
- *Stored in a manner to prevent contamination, mix-ups, and deterioration*			

	Yes	No	N/A
6. Components that cannot be obtained from FDA-registered facilities, the compounding facility must establish the identity, strength, purity, and quality of the ingredients. (USP 797 - (9.3.1)			X

	Yes	No	N/A
7. The temperature and humidity where all API's and components are stored is monitored. (USP 797 - (9.3.4)			
- *Daily log maintained*			X

- *Manitoring equipment is callbrated or verified for accuracy as recommended by the manufacturer or every 12 months.*

	Yes	No	N/A
8. Any API or component found to be of unacceptable quality is labeled as rejected and segregated from active stock. (USP 797 - (9.3.3)			X

	Yes	No	N/A
If a component is transferred from the original container, the new container has the following information: (34-23-157)			X

- *Component name*
- *Manufacturer*
- *Lot number*
- *Expiration date*

Compounding Records (CR), Visual Inspection, and Final Check

	Yes	No	N/A
1. A master formulation (MFR) is created for all CSP's prepared from nonsterile ingredients or CSP's prepared for more than one patient. (USP 797 - (11.1)	X		

- *Name, strength or activity, and dosage form of the CSP*
- *Identities and amounts of all ingredients*
- *Type and size of container closure system*

- *Complete instructions for preparing the CSP, including equipment, supplies, description of the compounding steps, and any special precautions*
- *Physical description of the final CSP*
- *BUD and storage requirements*
- *Reference source to support the stability of the CSP*
- *Quality control procedures (e.g., pH testing, filter integrity testing)*
- *Other information needed to describe the compounding process to ensure repeatability*

	Yes	No	N/A
2. A Compounding Record (CR) is created for all Category 1, Category 2, and Category 3 CSP's. (USP 797 - (11.2)	X		

- *A prescription or medication order or label may serve as the CR*
- *Required information may be stored electronically*

3. The Compounding Record (CR) contains the following information. (USP 797 - (11.2)

Yes	No	N/A
X		

- *Name, strength or activity, and dosage form of the CSP*
- *Date and time of preparation of the CSP*
- *Assigned internal identification number (Prescription, order, lot number)*
- *A method to identify the individuals involved in the compounding process*
- *Name of each component*
- *Weight or volume of each component*
- *Strength or activity of each component*
- *Total quantity compounded*
- *Final yield (quantity, containers, number or units)*
- *Assigned BUD and storage requirements*
- *Results of QC procedures*
- *If Applicable*
  - *Vendor, lot number, and expiration date for each component for CSP's prepared for more than one patient and for CSP's prepared from nonsterile ingredients*
  - *MFR reference for the CSP*
  - *Calculations made to determine and verify quantities and/or concentrations of components*

4. A visual inspection of the final compounded product is performed. (USP 797 - (12.1)

Yes	No	N/A
X		

- *Physical appearance (particulate matter, discoloration)*

- *Container closure integrity*

	Yes	No	N/A
5. The label on the CSP contains the following. (680-x-2-.13) (USP 797 - (13)			
- *Name and address of the dispensing pharmacy*	X		
- *Directions for use*			
- *Assigned internal identification number (prescription, barcode, lot number)*			
- *Active ingredients and their amounts, activities, or concentration*			
- *Storage conditions*			
- *Beyond Use Date*			
- *Dosage form*			
- *Total amount or volume*			
- *Type of dose container (single, multiple)*			
- *Routes of administration*			
- *Special handling instructions and warning statements*			

	Yes	No	N/A
6. A final verification and check is performed by a pharmacist before the CSP is dispensed. (680-x-2-.14e) (USP 797 - (12) - (12.1)			
- *Visual check of the CSP and container*	X		
- *Prescription/orders and label*			
- *Compounding record (medications, amounts, calculations, quality control)*			

	Yes	No	N/A
7. If a CSP is dispensed or administered before the results of release testing (endotoxin and sterility testing) are known, the following procedures are in place. (USP 797 - (18.1)			
- *Immediately notify the prescriber of the failure*	X		
- *Recall any unused dispensed CSP's and quarantine any remaining stock*			
- *Investigate if other lots are affected*			

- *Procedure to determine the distribution of any affected CSP*
- *Procedure to identify patients who may have received CSP*
- *Procedure to investigate and document the reason for the failure*

8. The pharmacy has a SOP for handling complaints such as quality, labeling, or possible adverse reactions. (USP 797 - (18.2)	Yes	No	N/A
	X		

- *Investigation into the cause of the problem*
- *Corrective action*
- *Documentation (nature, date received, response)*

Product Dating / Beyond Use Dates

1. Compounded products are assigned beyond use dates in compliance with USP 797 limits. (Table 12 / Tabe 13 / Table 14)	Yes	No	N/A

[1] A shelf-life extension based on appropriate physical and chemical stability data may be assigned.

2. A manufactured single dose container may be used up to 12 hrs. after initial entry if entered in an ISO 5. (USP 797 - (15.1)	Yes	No	N/A
	X		

3. Opened single dose ampules are not stored. (USP 797 - (15.1)	Yes	No	N/A
			X

4. Manufactured multiple-dose containers are given a beyond use date of 28 days after initial entry if entered in ISO 5. (USP 797 - (15.2)	Yes	No	N/A
	X		

5. Manufactured pharmacy bulk packages are used according to the manufacturer's labeling and entered in ISO 5. (USP 797 - (15.3)	Yes	No	N/A
	X		

6. A CSP used a component is assigned a BUD consistent with USP Table 14 (Establishing Beyond-Use Dates). (USP 797 - (16)	Yes	No	N/A
- The final CSP is assigned a BUD consistent with USP Table 14 (Establishing Beyond-Use Dates)			X

7. A compounded multiple dose product that contains a preservative must be compounded as a Category 2 or Category 3 compound, pass antimicrobial effectives testing in accordance with <51> and have a container closure integrity test conducted. (USP 797 - (14.5)	Yes	No	N/A
- Antimicrobial effectiveness testing is conducted once for each formulation in the particular container closure system in which it will be packaged.			X

- *antimicrobial effectiveness testing results from an FDA-registered facility or published in peer-reviewed literature sources if the formulation and container closure system are exactly the same.*
- *Antimicrobial effectiveness testing may be performed on a low concentration and on a high concentration of the active ingredient*

	Yes	No	N/A
8. Non preserved compounded multiple-dose aqueous topical and topical Opthalmic products, antimicrobial effectiveness testing is not required if. (USP 797 - (14.5)			
- *Prepared as a Category 2 or Category 3, and* - *For use by a single patient, and* - *Labeled to indicate that once opened, it must be discarded after 24 hr. room temperature once opened and 73 hr. when refrigerated.*			X

	Yes	No	N/A
9. Compounded stock solutions and compounded single dose products. (USP 797 - (16.2)			
- *Must be entered in ISO and stored under conditions BUD is based.* - *May be used for compounding up to 12 hrs. or its assigned BUD and remainder discarded.* - *The time limit for entering or puncturing is not intended to restrict the final BUD of the CSP.*			X

Extended Beyond Use Dating / Non-Sterile Components

	Yes	No	N/A
1. If preparing Category 2 or Category 3 CSP's from nonsterile components, presterilization procedures, such as weighing and mixing, are completed in an ISO 8 or better environment. (USP 797 - (4.2.6)			
- *Performed in a containment ventilated enclosure (CVE), single use containment glove bag, BCS, or CACI.* - *The CVE used is certified at least every six months.*			X

	Yes	No	N/A
2. Injectable CSP's that contain nonsterile components or that come in contact with nonsterile devices (e.g., containers, tubing) during any phase of the compounding process are sterilized within 6 hr. after completing the preparation. (USP 797 - (10)			
			X

3. Sterility testing is performed on Category 2 CSP's assigned a BUD that requires sterility testing. (USP 797 - (12.2)

- *Sterility testing is performed according to <71>*
- *Appropriate number of CSP's are sent for testing.*
- *Or a validated alternative method (see 1223) that is not inferior to <71>.*

Yes	No	N/A
		X

4. Bacterial endotoxin testing is performed on Category 2 injectable CSP's compounded from one or more nonsterile components and assigned a BUD that requires sterility testing. (USP 797 - (12.3)

- *In the absence of a bacterial endotoxin limit in an official USP-NF monograph, must not exceed limit calculated in <85> for the appropriate route of administration for humans.*

Yes	No	N/A
		X

5. Depyrogenation by dry heat. (USP 797 - (10.1)

- *Glass, metal, or other thermostable containers that come in contact with the CSP are depyrogenated by dry heat. (9.2)*
- *Duration and exposure period must include sufficient time for the items to reach the depyrogenation temperature.*
- *The effectiveness of the cycle is verified using endotoxin challenge vials (ECV's) initially and at least once annually after.*

Yes	No	N/A
		X

6. Sterilization by filtration. (USP 797 - (10.2)

- *Sterilizing filter are 0.22 micron or smaller, sterile, depyrogenated and appropriate for pharmaceutical use.*
- *Chemically and physically compatible with all ingredients of the CSP*
- *Filters are certified by the manufacturer to retain at least 107 microorganisms of a strain of Brevundimonas Diminuta on each square centimeter upstream filter surface area under conditions similar to those in which the CSP will be filtered (pressure, flow rate, volume)*
- *Filters do not contain a label that states "for laboratory use only" or similar wording.*
- *Each filter used to sterilize the CSP must undergo the manufacturers recommended integrity testing.*

Yes	No	N/A
		X

7. Sterilization of CSP's by steam heat. (Usp 797 - (10.3)

Yes	No	N/A

		X

- CSP's must be directly exposed to steam under adequate pressure for the length of time necessary (e.g., 20-60 minutes at 121 degrees saturated steam under a pressure of 15 psi, depending on the volume or size of the CSP being sterilized)

- CSP must be placed to allow steam to reach the CSP without entrapment of air and must include sufficient time for the entire contents of the CSP to reach sterilizing temperature.

- Immediately before filling containers that will be steam sterilized, solutions must be passed through a filter with a nominal pore size of not larger that 1.2 micron for removal of particulate matter.

- The effectiveness of steam sterilization must be verified with each sterilization run or load by using appropriate biological indicators, such as spores of Geobacillus Stearothermophilus.

8. Sterilization by dry heat. (USP 797 - (10.4)

Yes	No	N/A
		X

- The duration of the exposure period must include sufficient time for the entire contents of the CSP to reach sterilizing temperature and remain for the duration of the sterilizing period.

- Immediately before filling containers that will be sterilized by dry heat, solutions must be passed through a filter with a nominal pore size of not larger that 1.2 micron for removal of particulate matter.

- The dry heat oven must be certified and equipped with temperature controls and a timer.

- The effectiveness of dry heat sterilization must be verified with each sterilization run or load by using appropriate biological indicators, such as spores of Bacillus Astophaeus.

9. Each time a Category 3 CSP is prepared, sterility testing is performed. (USP 797 - (14.4.4)

Yes	No	N/A
		X

- Sterility testing is performed according to <71>

- Appropriate number of CSP's are sent for testing.

- Or a validated alternative method (see 1223) that is not inferior to <71>.

10. Each time a Category 3 CSP is prepared, bacterial endotoxin testing is performed. (USP 797 - (14.4.4)

Yes	No	N/A

- In the absence of a bacterial endotoxin limit in an official USP-NF monograph, must not exceed limit calculated in <85> for the appropriate route of administration for humans.			X

	Yes	No	N/A
11. The BUD assigned to Category 3 CSP's must be supported by stability data obtained using a stability-indicating analytical method validated based on characteristics described in <1225>. (USP 797 - (14.4.3)			
- Able to distinguish the active ingredient from its degradants and impurities (e.g., by forced degradation studies) and quantify the amount of the active ingredient.			X
- Must be prepared according to the exact formulation from which the stability data are derived and same container closure system.			
- Documentation of the stability study, description of methodology, validation of the method, the stability-indicating analytical method, and all results of the study.			

	Yes	No	N/A
12. If the Category 3 CSP is an injection or ophthalmic solution, particulate-matter testing has been conducted once for each formulation and container closure system. (USP 797 - (14.4.3)			X

	Yes	No	N/A
13. Category 3 CSP's do not exceed to BUD's permitted by USP 797. (USP 797 - (Table 14)			X

Hazardous Drugs. USP 800

	Yes	No	N/A
1. For final dosage forms of hazardous drugs that do not require further manipulation and are not required to follow the containment requirements of USP 800, an assessment of risk with alternative containment strategies/and or work practices has been performed. (USP 800 - (2), (Box 1)			
- *Type of HD*			
- *Dosage form*			
- *Risk of exposure*			
- *Packaging*			
- *Manipulation*			X

- *Reviewed every 12 months*

2. Antineoplastic HDs and all HD API's are unpacked in an area that is neutral/normal or negative pressure areas. (USP 800 - (5.1)/ (10)

Yes	No	N/A
		X

INSTRUCTIONS

The wording of all Jurats completed in California after January 1, 2015 must be in the form as set forth within this Jurat. There are no exceptions. If a Jurat to be completed does not follow this form, the notary must correct the verbiage by using a jurat stamp containing the correct wording or attaching a separate jurat form such as this one with does contain the proper wording. In addition, the notary must require an oath or affirmation from the document signer regarding the truthfulness of the contents of the document. The document must be signed AFTER the oath or affirmation. If the document was previously signed, it must be re-signed in front of the notary public during the jurat process.

- State and county information must be the state and county where the document signer(s) personally appeared before the notary public.
- Date of notarization must be the date the signer(s) personally appeared which must also be the same date the jurat process is completed.
- Print the name(s) of the document signer(s) who personally appear at the time of notarization.
- Signature of the notary public must match the signature on file with the office of the county clerk.
- The notary seal impression must be clear and photographically reproducible. Impression must not cover text or lines. If seal impression smudges, re-seal if a sufficient area permits, otherwise complete a different jurat form.
  - Additional information is not required but could help to ensure this jurat is not misused or attached to a different document.
  - Indicate title or type of attached document, number of pages and date.
- Securely attach this document to the signed document with a staple.

Topics to Educate

1. BPC 4052.04 – Pharmacist may furnish COVID-19 oral therapeutics following a positive test.
   - "COVID-19 oral therapeutics" means drugs that are approved or authorized by the FDA for the treatment of COVID-19 and administered orally.
   - Prior to furnishing COVID-19 oral therapeutics, a pharmacist shall utilize relevant and appropriate evidence-based clinical guidelines published by FDA in providing these patient care services.
   - A pharmacist who furnishes COVID-19 oral therapeutics shall notify patient's PCP or enter appropriate information into patient record system shared with PCP, as permitted by that PCP. If the patient does not have a PCP, the pharmacist shall provide the patient with a written record of the drugs furnished and advise the patient to consult a physician of the patient's choice.
   - Document the kind and amounts of COVID-19 oral therapeutics furnished, as well as any information regarding testing services provided, in the patient's record in the record system maintained by the pharmacy.
   - Retain records for 3 years.
2. BPC 4113 – PIC authority to make staffing decisions
   - PIC may make staffing decisions to ensure sufficient personnel are present in the pharmacy to prevent fatigue, distraction, or other conditions that may interfere with a pharmacist's ability to practice competently and safely.
   - If PIC is not available, a pharmacist on duty may adjust staffing according to workload if needed.
   - PIC or pharmacist on duty shall immediately notify the store management of any conditions that present an immediate risk of death, illness, or irreparable harm to patients, personnel, or pharmacy staff. If the conditions are not resolved within 24 hours, the PIC or RPH on duty shall ensure the BOP is timely notified. Conditions that present an immediate risk of death, illness, or irreparable harm to patients, personnel, or pharmacy staff include, but are not limited to:
     - Workplace safety and health hazards that present an immediate risk of death, illness or irreparable harm to patients, personnel, or pharmacy staff.
     - Sustained temperatures that could impact ambient temperature drug stability according to manufacturer data on acceptable drug storage conditions.
     - Vermin infestation that poses a risk to the safety or efficacy of medicine.
3. BPC 4113.1 – Reporting medication errors within 14 days from discovery.
   - Applies to "community pharmacies" – *i.e.*, any pharmacy that dispenses medication to an outpatient (but not including facilities of CDCR).
   - Per the BOP's AB 1286 Implementation Statement, the reporting of medication errors under BPC 4113.1 will not be required until the BOP approves an entity to receive the reports.
4. BPC 4113.6 – Chain community pharmacy subject to BPC 4113.5 must be staffed at all times with at least one clerk or pharmacy technician fully dedicated to performing pharmacy-related services. The BOP will not take action against a pharmacy for violation of this staffing requirement if any of the following conditions apply:
   - RPH on duty waives the requirement in writing during specified hours based on workload need.
   - The pharmacy is open beyond normal business hours (*i.e.*, before 8am, after 7pm). During the hours before 8am and after 7pm, the staffing requirement shall not apply.
   - The pharmacy's prescription volume per day on average is less than 75 prescriptions per day based on the average daily prescription volume for the past calendar year. However, if the pharmacist is also expected to provide additional pharmacy services (such as immunizations or CLIA-waived tests) this exception does not apply.

   When staffing of pharmacist hours within a chain community pharmacy does not overlap sufficiently, scheduled closures for lunch time for all pharmacy staff shall be established and publicly posted, and included on the outgoing telephone message.
5. BPC 4115 – Pharmacy technician may, under the direct supervision and control of a pharmacy, prepare and administer influenza and COVID-19 vaccines via injection or intranasally, prepare and administer epinephrine, perform specimen collection for tests that are

Affidavit for Pharmacy License

I, WILLIAM HERBERT hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the PIC/OWNER (title) for H&H PHARMACY (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

As the undersigned representative of the licensee, I affirm that the information provided during the inspection is true and accurate to the best of my knowledge. I understand that the licensee is responsible for the legal operations of the facility and I am executing this inspection form as, or on behalf of the licensee.

The alleged violator has voluntarily entered into an Opportunity to Correct Plan with the Indiana Professional Licensing Agency (PLA). Pursuant to IC 4-21.5-2.5-7, the alleged violator enters into a written Corrective Plan to correct the alleged violation(s) set forth above before the agency institutes an enforcement action which may include the filing of a Consumer Complaint with the Office of the Indiana Attorney General. Upon notice that the alleged violation(s) has been corrected, this Agency shall re-inspect not more than thirty (30) days after to determine if you have substantially complied with the applicable rule or state statute. If subsequent inspection identifies a failure to address previous violations the facility will "fail" the inspection and additional enforcement actions may be initiated against licensure.

In order to avoid additional enforcement action, the alleged violator must submit the Corrective Plan within five (5) business days after the initial inspection. A plan of corrective action can be either emailed to PLACompliance@pla.in.gov, or mailed to: Indiana Professional Licensing Agency, Attn: Compliance Division, 402 W. Washington St. RM W072, Indianapolis, IN 46204.

INSPECTOR'S COMMENTS:

This inspection was reviewed with pharmacist Viviane Tang.

This pharmacy had their opening inspection on October 7, 2025 .

At the time of this inspection, this pharmacy only has 1 medication in stock.

This pharmacy is a consignment pharmacy that will help patients get medications at no cost or discounted when medications are not covered under insurance. The manufacturer will send the medication to the pharmacy for the pharmacy to fill the prescription and then mail to the patient. The prescriptions will either be filled through the consignment contract with the manufacturer or for cash. At the time of this inspection, this pharmacy has 1 contract with a manufacturer for this consignment program. This pharmacy is a closed door pharmacy and will not be serving the general public, only patients who are enrolled in the consignment program through the manufacturer.

At the time of this inspection, this pharmacy has not ordered, stocked, or dispensed any CII or CIII to CV medications since opening.

This pharmacy is licensed with 41 other states. See attached list.

These matters may be forwarded to the Board for review.

Re: **Notification of Consent Order – Nufactor, Inc.**

Attention: Nevada State Board of Pharmacy:

In accordance with state pharmacy licensing and reporting requirements, Nufactor, Inc. is notifying the Board of a reprimand imposed by the North Carolina Board of Pharmacy on July 8, 2025.

The matter involved the inadvertent shipment of approximately four prescriptions for a single patient into North Carolina from our New York pharmacy location prior to the issuance of our North Carolina pharmacy permit. These prescriptions could have appropriately been filled and shipped through our licensed North Carolina pharmacy but were misrouted due to an internal error.

The North Carolina Board approved our pharmacy permit application, and as part of that approval process, we entered into a Consent Order of Reprimand addressing the shipments. No fine, suspension, or restriction was imposed, and our North Carolina permit is active and in good standing. For your reference, we have enclosed a copy of the Consent Order issued by the North Carolina Board of Pharmacy.

Nufactor, Inc. takes regulatory compliance seriously and has taken corrective steps to ensure all prescriptions are shipped only from duly licensed locations. We are making this disclosure now to ensure full transparency and compliance with each state's requirements.

Please let us know if the Board requires any additional information.

Sincerely,

Menas Philippides, RPh, IgCP
Director, Pharmacy
Nufactor, Inc.

Enclosure: North Carolina Board of Pharmacy Consent Order

FFF: Internal Use Only

STATE OF NORTH CAROLINA
NORTH CAROLINA BOARD OF PHARMACY

IN THE MATTER OF	)	
	)	
NUFACTOR, INC,	)	**CONSENT ORDER**
	)	**OF DISCIPLINE**
Permit Applicant.	)	

THIS MATTER came to be considered before a member of the North Carolina Board of Pharmacy (hereinafter, the "Board") pursuant to 21 N.C.A.C. 46 .2008. The Conference was scheduled for Monday, September 16, 2025, and, after appropriate notice, was heard on that day by a board member. Permit Applicant Nufactor, Inc., was informed of its right to be present at the pre-hearing conference and declined. The Board's General Counsel, Clinton R. Pinyan, represented the Board.

Respondent has agreed to waive a formal hearing in the above-referenced matter. It stipulates and agrees to the findings of fact and conclusions of law recited herein and to the order of discipline imposed. By its consent, Respondent also stipulates that it waives its right to appeal this Consent Order or challenge in any way the sufficiency of the findings of this Order as a basis for the action taken. Based upon the consent of the parties, the Board hereby enters the following:

FINDINGS OF FACT

1. On March 28, 2025, the Board received a permit application from Nufactor, Inc., located at 701 Koehler Avenue, Units 2+3, Ronkonkoma, New York ("Nufactor").

2. With that application, Nufactor disclosed that it had previously shipped four prescriptions into North Carolina. These were all non-controlled prescriptions shipped to one patient.

3. Nufactor represents, and the Board accepts, that these are the only prescriptions that Nufactor has dispensed from this pharmacy into North Carolina, and that it did so erroneously, as the prescriptions should have been dispensed from its North Carolina in-state permitted location.

CONCLUSIONS OF LAW

Dispensing drugs into the State of North Carolina without a permit violated G.S. § 90-85.38(b).

IT IS THEREFORE ORDERED:

Respondent Nufactor's permit application is **APPROVED,** and that permit is **REPRIMANDED.**

This is the _____ day of _____, 2025.

NORTH CAROLINA BOARD OF PHARMACY

By: _____
Keith A. Vance
President

Respondent Nufactor, Inc. has full knowledge that it has the right to a formal hearing, at which it would have the right to be represented at its expense by counsel, in this matter. Respondent freely, knowingly and voluntarily waives its right to such a hearing by entering into this Consent Order.

Respondent understands and agrees that by entering into this Consent Order, it certifies that it has read the foregoing Consent Order and that it voluntarily consents to the terms and conditions set forth therein and relinquishes any right to judicial review of Board actions that may be taken concerning this matter.

Respondent further understands that should it violate the terms and conditions of this Consent Order, the Board may take additional action.

Respondent understands and agrees that this Consent Order will not become effective unless and until approved by the Board.

Respondent understands that it has the right to have counsel of its choice review and advise them with respect to their rights and this Consent Order, and represents that it enters this Consent Order after consultation with counsel or after knowingly and voluntarily choosing not to consult with counsel. Respondent further agrees that the person who is executing this Consent Order has been duly authorized by any required corporation action to execute on behalf of Respondent.

Re: Explanation of Prior Administrative Disciplinary Matter – Pharmacy Express Inc.

Dear Members of the Nevada State Board of Pharmacy,

Pharmacy Express Inc. respectfully submits this letter to provide clarification regarding a prior administrative matter disclosed in our licensure application.

On March 4, 2024, during a routine inspection conducted by the New Jersey State Board of Pharmacy, the inspector observed that an updated copy of a required general pharmacy reference text was not immediately available within the pharmacy's reference library at the time of inspection. This matter was strictly administrative in nature and did not involve patient care or professional judgment.

For clarity:

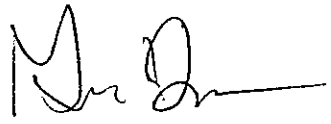
- The issue was documentation-related only and not clinical.
- No patient care or dispensing errors were identified.
- No patient harm occurred.
- No medication safety issues were involved.
- No controlled substance, diversion, or recordkeeping violations were cited.
- The matter was not criminal in nature.

The New Jersey Board treated the issue as a minor compliance deficiency and assessed a $200 civil penalty along with a corrective action requirement.

Pharmacy Express Inc. promptly addressed and resolved the matter by:

- Immediately obtaining and maintaining the updated required reference text.
- Implementing a formal annual review process for all required pharmacy reference materials.
- Assigning designated staff responsibility for compliance monitoring.
- Establishing documentation logs to ensure ongoing compliance and prevent recurrence.

The matter was fully corrected and formally closed with the New Jersey State Board of Pharmacy.



Pharmacy Express Inc. maintains a strong culture of regulatory compliance and is committed to the highest standards of pharmacy practice, patient safety, and operational integrity. This isolated administrative oversight does not reflect our overall compliance practices or standard of care.

We respectfully submit this explanation for the Board's review and would be pleased to provide any additional documentation or clarification if requested.

Thank you for your time and consideration.

Sincerely,

Gemha Demir
President

CERTIFICATION

I, Gemha Demir, hereby acknowledge that I have read and reviewed the Board's letter dated February 03, 2025, regarding allegations of violations of the Board's enabling act and/or regulations.

Please Check One:

[✓] I acknowledge the conduct which has been charged and agree to:

1. **Cease and desist from engaging in the conduct alleged and pay a penalty in the amount of $200.00** (to be paid upon signing of this Certification).
2. **Send a Letter of Corrective Action,** as requested by the Board, with this Certification.
3. **Return this letter with the Certification page signed and the selected box checked.**

I am also aware that the action taken against me by the Board herein is a matter of public record, and that the Board's letter and this Certification are public documents.

[ ] I hereby waive any rights I may have to a hearing in this matter and defend myself against any charges, but ask the Board to consider my explanation before rendering its final decisions. I understand that the Board may order any of the terms specified in its letter and that the Certification are public documents.

[ ] I request a formal administrative hearing to contest the charges specified by the Board. I understand that I will be advised of the time, date and place for that hearing at another time. I am aware that I may be represented by an attorney and that at the time of the hearing I may submit to the Board testimony and documentation relevant to the charges. I understand that in making its final decision, the Board may, if unlawful activity has been proven, assess civil penalties in an amount greater than that herein offered in its letter and may order such other remedies as it may deem appropriate. I am also aware that this proceeding is a matter of public record and that the Board's letter and this Certification are public documents.

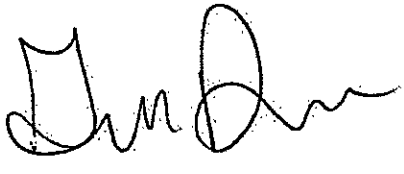
Subject: Corrective Action Plan Regarding Inspection Findings

Dear Members of the New Jersey Board of Pharmacy,

Pharmacy Express acknowledges the findings from the inspection conducted on March 4, 2024, which identified that our pharmacy library lacked an up-to-date general practice of pharmacy reference text. We take this matter seriously and have taken corrective action to ensure compliance with all applicable regulations.

On March 26, 2024, we provided evidence that an acceptable and current pharmacy reference text was purchased and is now available within our pharmacy. To prevent this issue from recurring, we have implemented the following corrective measures:

1. **Annual Review of Reference Materials** – We will conduct an annual assessment of our pharmacy reference library to ensure all required texts remain up to date and compliant with current standards.
2. **Designation of Responsible Staff** – A designated staff member will be assigned to oversee the maintenance and review of pharmacy reference materials.
3. **Documentation and Compliance Monitoring** – A record of all pharmacy reference materials, including purchase and review dates, will be maintained for inspection purposes.



Pharmacy Express is committed to upholding the highest standards of pharmacy practice and regulatory compliance. We appreciate the Board's guidance in this matter and will continue to take proactive steps to ensure full compliance with all regulatory requirements.

Please do not hesitate to contact us if any further information or clarification is needed.

Sincerely,

Gemha Demir

Re: Inspection # 8-6820-23-1845
Date of Inspection: 03/04/2024

Dear Ms. Huzovic,

This letter is to advise you that the New Jersey State Board of Pharmacy has had an opportunity to review information concerning the above inspection report.

Upon review of all available information, the Board has preliminarily found that you have violated those items listed on Attachment A.

The Board has determined that it will offer you an opportunity to settle this matter and thereby avoid the initiation of further disciplinary proceedings. Should you wish to avail yourself of this opportunity, you **MUST SIGN THE ATTACHED CERTIFICATION** and agree to the following:

PAY A PENALTY IN THE AMOUNT OF $200.00 and **PROVIDE TO THE BOARD A LETTER OF CORRECTIVE ACTION.** (To be paid immediately upon your signing of the attached acknowledgment.)

Alternatively you may waive your right to a hearing and submit a written statement or explanation to the Board. The Board will then consider your submission and render a final decision, which may include any of the terms set forth above. This disposition will be a public record. Please take notice that if the Board determines that the initial inspection findings require a re-inspection to ensure that cited deficiencies have been properly addressed, you may be subject to any costs associated with the re-inspection.

If you do not wish to settle this matter, you may request a hearing. In that event, this letter will serve as notice of the charges against you and a hearing will be scheduled before the Board. At that hearing you may, either personally or with the assistance of an attorney, submit determination concerning the

charges of unlawful activity. You should be aware that in making its final decision, the Board may, if unlawful activity has been proven, assess civil penalties in an amount greater than that herein offered in this letter. Additionally, the Board may, if the facts are found to so warrant, enter an order, requiring you to reimburse certain monies, direction you to cease and desist from engaging in unlawful acts and/or requiring you to pay costs incurred by the Board. Should you have any questions concerning this letter or the settlement offer herein, I suggest that you contact the Board at (973) 504-6450.

The enclosed Certification MUST be completed and returned to the Board within fifteen (15) days following your receipt of this letter. In the event that the Board receives no response from you within this time, the Board's settlement offer will be withdrawn, and the allegations contained herein shall be deemed admitted, and the Board will proceed to finally review that matter and enter an appropriate order.

CERTIFICATION

I, Gemha Demir, hereby acknowledge that I have read and reviewed the Board's letter dated February 03, 2025, regarding allegations of violations of the Board's enabling act and/or regulations.

Please Check One:

[✓] I acknowledge the conduct which has been charged and agree to:

1. **Cease and desist from engaging in the conduct alleged and pay a penalty in the amount of $200.00** (to be paid upon signing of this Certification).
2. **Send a Letter of Corrective Action,** as requested by the Board, with this Certification.
3. **Return this letter with the Certification page signed and the selected box checked.**

I am also aware that the action taken against me by the Board herein is a matter of public record, and that the Board's letter and this Certification are public documents.

[ ] I hereby waive any rights I may have to a hearing in this matter and defend myself against any charges, but ask the Board to consider my explanation before rendering its final decisions. I understand that the Board may order any of the terms specified in its letter and that the Certification are public documents.

[ ] I request a formal administrative hearing to contest the charges specified by the Board. I understand that I will be advised of the time, date and place for that hearing at another time. I am aware that I may be represented by an attorney and that at the time of the hearing I may submit to the Board testimony and documentation relevant to the charges. I understand that in making its final decision, the Board may, if unlawful activity has been proven, assess civil penalties in an amount greater than that herein offered in its letter and may order such other remedies as it may deem appropriate. I am also aware that this proceeding is a matter of public record and that the Board's letter and this Certification are public documents.

Subject: Corrective Action Plan Regarding Inspection Findings

Dear Members of the New Jersey Board of Pharmacy,

Pharmacy Express acknowledges the findings from the inspection conducted on March 4, 2024, which identified that our pharmacy library lacked an up-to-date general practice of pharmacy reference text. We take this matter seriously and have taken corrective action to ensure compliance with all applicable regulations.

On March 26, 2024, we provided evidence that an acceptable and current pharmacy reference text was purchased and is now available within our pharmacy. To prevent this issue from recurring, we have implemented the following corrective measures:

1. **Annual Review of Reference Materials** – We will conduct an annual assessment of our pharmacy reference library to ensure all required texts remain up to date and compliant with current standards.
2. **Designation of Responsible Staff** – A designated staff member will be assigned to oversee the maintenance and review of pharmacy reference materials.
3. **Documentation and Compliance Monitoring** – A record of all pharmacy reference materials, including purchase and review dates, will be maintained for inspection purposes.

Pharmacy Express is committed to upholding the highest standards of pharmacy practice and regulatory compliance. We appreciate the Board's guidance in this matter and will continue to take proactive steps to ensure full compliance with all regulatory requirements.

Please do not hesitate to contact us if any further information or clarification is needed.

Sincerely,

Gemha Demir

The medications that were selected to be examined could potentially have been dispensed, and did not include any segments of the inventory that may already have been separated for future return to their respective manufacturers, or had been placed aside for proper disposal. The medications that were found to be in violation of the regulatory disciplines were segregated by the inspector, and then recorded below. The line entries are categorized by the deficiency for which the medication had been set apart, along with the appropriate regulatory cite. It is requested that you accept your option to compare each package of medication that has been separated as deficient against its collateral entry and, if you concur, place your initials in the left-hand column. As the employed/contracted pharmacist, for (ASC/RC Name): Ear, Nose, & Throat Surgery Center :

I understand that I am responsible for establishing policies and procedures which (NAC 639.4996):

a) Are consistent with the policies and procedures developed pursuant to NAC 639.447;
b) Require to maintain records in accordance with the provisions of NAC 639.485 and 639.485;
c) Address the purchase, storage, maintenance of records and dispensing of drugs and investigational drugs;
d) Require maintenance of a perpetual inventory of all controlled substances;
e) Prescribe the procedure for quarantining and destroying drugs and investigational drugs that are expired, adulterated, mislabeled or otherwise unsafe for human use;
f) Require the storage of drugs and investigational drugs in accordance with the specifications of the manufacturer;
g) Ensure that the ASC and RC dispenses drugs and investigational drugs pursuant to chart orders and in accordance with applicable state and federal laws; and
h) Ensure that all compounding is
    a. Performed by a registered pharmacist in accordance with the provisions of NRS and NAC 639; or
    b. If performed by an employee of the ASC or RC, other than a registered pharmacist, performed:
        i. In accordance with the provisions of NRS and NAC 639;
        ii. In a location designated for compounding that is clean and disinfected before each act of compounding; and
        iii. By a person who has completed training for the type of compounding that will be performed.

I understand that I shall (NAC 639.4998):

a) Visit the ASC or RC at least once each month to:
    a. Evaluate the effectiveness of the policies and procedures established pursuant to NAC 693.4996; and
    b. Confirm that the ASC or RC is complying with those policies and procedures, the below provisions.
b) Maintain documentation of each visit that the pharmacist makes;
c) Conduct an audit at least once each month using a sufficient number of records of the ASC or RC, including, without limitation, records of patients and records relating to the purchasing, storing and dispensing of drugs and investigational drugs, which must be randomly selected, to determine whether:
    a. The records indicate that the drugs and investigational drugs are dispensed in a safe and effective manner in accordance with accepted standards of practice and the specifications of the manufacturer;
    b. Drugs and investigational drugs are diluted in accordance with accepted standards of practice or pursuant to the specifications of the manufacturer;
    c. The records demonstrate:
        i. That a discrepancy does not exist in the number of drugs and investigational drugs that are in vials designated by the manufacturer for a single use which are dispensed and the number of patients who receive such drugs and investigational drugs; and
        ii. That drugs, not including investigational drugs, which are in vials designated by the manufacturer for a single use and any remaining medication in those vials are discarded after use;
    d. The records demonstrate that drugs, not including investigational drugs, which are in vials designated by the manufacturer for more than one use are discarded when the medication in the vials has expired or not more than 28 days after the initial breach of the vial;
    e. The employees of the ASC or RC properly maintain accurate records relating to drugs and investigational drugs; and
    f. The employees of the ASC or RC properly monitor and maintain the perpetual inventory required pursuant to paragraph (d) of subsection 1 of NAC 639.4996; and
d) Submit a written report, including, without limitation, a written explanation, to the Board not later than 5 business days after the pharmacist determines that:
    a. The ASC or RC is violating a state or federal law which affects the care and safety of a patient;
    b. There is a discrepancy of 5 percent or more between the actual quantity of a controlled substance in the possession of the ASC or RC and the amount of the controlled substance that should be in the possession of the ASC or RC according to the records of the ASC or RC, including, without limitation:
        i. Purchase orders and invoices for the controlled substance;
        ii. Records which indicate the removal of the controlled substance from the storage area;
        iii. Patient records;
        iv. Records which indicate the return of the controlled substance to the manufacturer;
        v. Records which indicate that the controlled substance was destroyed; and
        vi. Any other record for the controlled substance;
    c. The recovery center or surgical center has intentionally or recklessly failed to create or maintain a record required by the policies and procedures established pursuant to NAC 639.4996;
    d. The recovery center or surgical center is administering a drug or an investigational drug in violation of accepted standards of practice or the specifications of the manufacturer; or
    e. The recovery center or surgical center is engaged in a practice which endangers the health, safety or welfare of a patient or employee of the recovery center or surgical center.

Information request for non-publicly traded business type	Response
List all Officers and Directors. NRS 639.231(2)(b), NAC 639.214(5)(a)	ENT Surgicenter, LLC (the "***Applicant Entity***") does not have any officers or directors. The Applicant Entity is managed by one of its owners, Surgicare of ENT SC, LLC (the "***Managing Member***"). The Managing Member is a limited liability company rather than a corporation and has managers rather than directors. Any officers and managers of the Managing Member do not fall under the definition of a "person beneficially interested" in the Applicant Entity under NRS 639.231(2) and have not been listed.
List the top four stockholders and their percent ownership. NRS 639.231(3).	The Applicant Entity expects to acquire substantially all of the assets of Ear, Nose, & Throat Surgery Center (the "***ASC***") no earlier than August 1, 2026. The ASC is currently owned by Ear, Nose & Throat Surgery Center, LLC (the "***Current Owner***"). I understand that I am responsible for establishing policies and procedures which (NAC 639.4996):

a) Are consistent with the policies and procedures developed pursuant to NAC 639.477;
b) Require to maintain records in accordance with the provisions of NAC 639.485 and 639.486;
c) Address the purchase, storage, maintenance of records and dispensing of drugs and investigational drugs;
d) Require maintenance of a perpetual inventory of all controlled substances;
e) Prescribe the procedure for quarantining and destroying drugs and investigational drugs that are expired, adulterated, mislabeled or otherwise unsafe for human use;
f) Require the storage of drugs and investigational drugs in accordance with the specifications of the manufacturer;
g) Ensure that the ASC and RC dispenses drugs and investigational drugs pursuant to chart orders and in accordance with applicable state and federal laws; and
h) Ensure that all compounding is
    a. Performed by a registered pharmacist in accordance with the provisions of NRS and NAC 639; or
    b. If performed by an employee of the ASC or RC, other than a registered pharmacist, performed:
        i. In accordance with the provisions of NRS and NAC 639;
        ii. In a location designated for compounding that is clean and disinfected before each act of compounding; and
        iii. By a person who has completed training for the type of compounding that will be performed.

I understand that I shall (NAC 639.4998):

a) Visit the ASC or RC at least once each month to:
    a. Evaluate the effectiveness of the policies and procedures established pursuant to NAC 693.4996; and
    b. Confirm that the ASC or RC is complying with those policies and procedures, the below provisions.
b) Maintain documentation of each visit that the pharmacist makes;
c) Conduct an audit at least once each month using a sufficient number of records of the ASC or RC, including, without limitation, records of patients and records relating to the purchasing, storing and dispensing of drugs and investigational drugs, which must be randomly selected, to determine whether:
    a. The records indicate that the drugs and investigational drugs are dispensed in a safe and effective manner in accordance with accepted standards of practice and the specifications of the manufacturer;
    b. Drugs and investigational drugs are diluted in accordance with accepted standards of practice or pursuant to the specifications of the manufacturer;
    c. The records demonstrate:
        i. That a discrepancy does not exist in the number of drugs and investigational drugs that are in vials designated by the manufacturer for a single use which are dispensed and the number of patients who receive such drugs and investigational drugs; and
        ii. That drugs, not including investigational drugs, which are in vials designated by the manufacturer for a single use and any remaining medication in those vials are discarded after use;
    d. The records demonstrate that drugs, not including investigational drugs, which are in vials designated by the manufacturer for more than one use are discarded when the medication in the vials has expired or not more than 28 days after the initial breach of the vial;
    e. The employees of the ASC or RC properly maintain accurate records relating to drugs and investigational drugs; and
    f. The employees of the ASC or RC properly monitor and maintain the perpetual inventory required pursuant to paragraph (d) of subsection 1 of NAC 639.4996; and
d) Submit a written report, including, without limitation, a written explanation, to the Board not later than 5 business days after the pharmacist determines that:
    a. The ASC or RC is violating a state or federal law which affects the care and safety of a patient;
    b. There is a discrepancy of 5 percent or more between the actual quantity of a controlled substance in the possession of the ASC or RC and the amount of the controlled substance that should be in the possession of the ASC or RC according to the records of the ASC or RC, including, without limitation:
        i. Purchase orders and invoices for the controlled substance;
        ii. Records which indicate the removal of the controlled substance from the storage area;
        iii. Patient records;
        iv. Records which indicate the return of the controlled substance to the manufacturer;
        v. Records which indicate that the controlled substance was destroyed; and

Section 6: NAC 639.403 A registered pharmacist who is NOT employed by or under contract with a pharmacy and who is NOT an employee of the State Government MUST complete this section.

1. Provide a description of the services that you intend to provide at the site, to include only those services listed in Section 7 (A) of this application.

I plan to operate as an independent clinical provider with the intent to focus purely on:

- Clinical Assessments (1-on-1): Performed via secure, HIPAA-compliant telehealth (e.g., in a private, non-residential consulting suite/workspace).

- Preventative Care: Utilizing the Statewide Protocols for HIV PrEP and PEP (pursuant to NRS 639.28085).

- SUD/OUD Recovery: Assessing and e-prescribing maintenance therapy for Opioid Use Disorder (MAT) pursuant to NRS 639.28079 and other applicable laws.

2. Provide the identification of the types of patients or other persons to whom you intend to provide services.

Services will be provided to adult residents of Nevada (aged 18 and older) who require localized, independent clinical pharmacist interventions which inlcudes:

- Individuals Seeking HIV Preventative Care
- Individuals with Opioid Use Disorder (OUD)
- Telehealth and Underserved Populations

3. Provide a description of all resources, both paper and electronic, that will be available to you in the course of providing the services.

- Electronic Resources: Secure, cloud-based EHR for charting and e-prescribing; NV PMP portal; clinical decision support databases (Lexicomp/Uptodate/Lancet/Oxford Academy); and secure telehealth communication platforms.
- National Guidelines: Current clinical guidance from the CDC, DHHS/HIV.gov (PrEP/PEP antiretroviral protocols), SAMHSA (MAT/Buprenorphine Quick Start toolkits), and USPSTF screening recommendations.
- Paper Resources: Physical copies of Nevada Statewide Protocols, emergency clinical intake/consent backup templates, and manufacturer-provided patient education printouts.

4. Provide an explanation of the policy for users of the services when you are unavailable.

Scheduled Absences: Patients are notified in advance. Telehealth portals and voicemails will state return dates and non-emergency triage timelines (24 48 hours).

Emergencies: For immediate clinical or psychiatric crises, automated email/text auto-responders and voicemail instructions direct patients to call 911 or go to the nearest emergency department.

Crisis Support: Patients requiring acute substance use or mental health care are directed to 24/7 resources: the 988 Suicide & Crisis Lifeline or the SAMHSA Helpline (1-800-662-4357).

5. Provide an explanation of the policy regarding the confidentiality and security of the patient data that will be gathered, made, and maintained as part of the services which are provided, including without limitation, paper and electronic records.

- Electronic Records: All digital data, including charting, e-prescribing, and telehealth communications, is maintained within a secure, Board approved EHR platform featuring end-to-end encryption, multi-factor authentication (MFA), and role-based access controls. System access is strictly restricted to authorized clinical personnel to ensure full compliance with HIPAA Security Rules.

- Paper Records: Any physical documents, including clinical intake backup forms, consent templates, or printed protocols, are stored in a locked filing cabinet within a secure, restricted-access commercial business suite.

6. Provide a description of the business plan for the services provided.

Service Model: Independent clinical pharmacist consultancy offering 1-on-1, point-of-care screening (HIV PrEP/PEP statewide protocols) and Medication-Assisted Treatment (MAT) maintenance for opioid use disorder.

Operations: Services are delivered via a secure, HIPAA-compliant telehealth platform, supplemented by a private, non-residential commercial office suite for administrative infrastructure.

Revenue Strategy: Direct-to-patient service fees and insurance reimbursement utilizing standardized medical billing codes for clinical consultations. Marketing will target local healthcare networks, community organizations, and digital outreach to underserved Nevada populations.

Section 7: Laws pertaining to engaging in the practice of pharmacy at a location other than the site of a licensed pharmacy. Please read Section 7 in its entirety. By signing this application, you attest you have read and understood the components in this section.

A. NAC 639 - For all registered pharmacists engaging in the practice of pharmacy at a location other than the site of a licensed pharmacy

1. While engaging in the practice of pharmacy at a location other than the site of a licensed pharmacy, a registered pharmacist may perform only:
    a. The functions described in paragraphs (b), (c), (d) and (g) to (j), inclusive, of subsection 1 or NRS 639.0124, except for dispensing or administering drugs;
    b. The functions described in section 4 of LCB File No. R036.21, except for dispensing a self-administered hormonal contraceptive; and
    c. The administration of immunizations pursuant to a written protocol established in accordance with NAC 639.297 to 639.2978, inclusive.
2. A registered pharmacist who engages in the practice of pharmacy at a location other than the site of a licensed pharmacy shall:
    a. Provide written notice of the site of practice to the Executive Secretary in accordance with NAC 639.225 on this application; (NAC 639.225 states that a Nevada pharmacist, within 10 days after changing residence or place of practice, must give written notice of the change to the Board.)
    b. Ensure that the records of the registered pharmacist are made readily accessible to members of the Board and employees, agents and designees of the Board; and
    c. Comply with all applicable federal and state laws and regulations, including, without limitation:
        i. The Health Insurance Portability and Accountability Act of 1996, Public Law 104-191, and the regulations adopted pursuant thereto, and any other applicable federal or state law concerning the privacy of information regarding health care; and
        ii. Requirements relating to the maintenance or records.
3. A registered pharmacist who engages in the practice of pharmacy at a location other than the site of a licensed pharmacy shall not maintain an inventory of drugs at that location.
4. A registered pharmacist shall not engage in the practice of pharmacy at a location other than the site of a licensed pharmacy if he or she:
    a. Serves as a managing pharmacist; or
    b. Provides pharmaceutical services at:
        i. A facility for modified medical detoxification, as defined in NRS 449.00385;
        ii. An independent center for emergency medical care, as defined in NRS 449.013;
        iii. A facility for intermediate care, as defined in NRS 449.0038;
        iv. A facility for skilled nursing, as defined in NRS 449.0039; or
        v. A surgical center for ambulatory patients, as defined in NRS 449.019.

B. NAC 639 - For a registered pharmacist who is employed by or under contract with a Nevada licensed pharmacy or a Nevada State Government entity.

For a registered pharmacist who is employed by or under contract with a pharmacy or who is an employee of the State Government may engage in the practice of pharmacy at a location other than the site of a licensed pharmacy shall not engage in the practice of pharmacy at a location other than the site of a licensed pharmacy unless he or she is provided with the same computerized system and access to data regarding a patient for whom a prescription has been submitted that is available to a registered pharmacist in the pharmacy. Such data must include, without limitation:

a. A legible copy of the prescription that is available as an electronic copy or a scanned image in the computerized system of the pharmacy or by facsimile machine; and
b. Any information that is available in the computerized system of the pharmacy that is relevant or necessary for the registered pharmacist to provide pharmaceutical services.

C. NAC 639.403 - For a registered pharmacist who is NOT employed by or under contract with a Nevada licensed pharmacy or a Nevada State Government entity.

For a registered pharmacist who is NOT employed by or under contract with a pharmacy or who is an employee of the State Government shall not engage in the practice of pharmacy at a site other than the site of a licensed pharmacy unless he or she obtains the approval of the Board to engage in the practice of pharmacy at a site other than the site of a licensed pharmacy. To request such approval, the registered pharmacist must submit this application. The application must be approved before a registered pharmacist may commence any practice.

D. NAC 639.4916 - For a registered pharmacist who is employed by or under contract with a Nevada licensed pharmacy located within a hospital or correctional institution.

1. A registered pharmacist who is employed by or under contract with a pharmacy located within a hospital or correctional institution to provide the remote chart order processing services to the hospital or correctional institution that the pharmacy is required by NAC 639.4915 to provide must:
    a. Be trained in the policies and procedures of the hospital or correctional institution regarding all policies and procedures of the hospital or correctional institution with which the registered pharmacist must comply, including, without limitation, the provisions of pharmaceutical services, security, and confidentiality of patient records; and
    b. Be provided with the same computerized system and access to data regarding a patient for whom a chart order has been submitted that would be available to a registered pharmacist employe by the pharmacy located within the hospital or correctional institution, including, without limitation:
        i. The height, weight and age of the patient and any allergies that the patient may have;
        ii. The medical records regarding any medications prescribed to the patient;
        iii. The results of any relevant laboratory tests;
        iv. The health history and notes regarding physical examinations, to the extent that the information is available in the computerized system of the hospital or correctional institution;
        v. Any notes provided by a physician, nurse or other medical staff of the institution, to the extent that those notes are available in the computerized system of the hospital or correctional institution;
        vi. A legible copy of the chart order that is available through a scanned image in the computerized system of the hospital or correctional institution or by facsimile machine; and
        vii. Any other information that is available in the computerized system of the hospital or correctional institution that is relevant or necessary for the registered pharmacist to provide pharmaceutical services.
2. Before a registered pharmacist who is employed by or under contract with a pharmacy located within a hospital or correctional institution provides remote chart order processing services to the hospital or correctional institution, the registered pharmacist must review any relevant information regarding the patient for whom a chart order has been submitted. The registered pharmacist must, before approving a chart order to be filled, evaluate:
    a. The overutilization or underutilization of a medication;
    b. Therapeutic duplication;
    c. The appropriateness of the prescribed dosage and route of administration;
    d. The appropriateness of the directions for use of the medication;
    e. The appropriateness of the duration of the treatment with the prescribed medication;
    f. Any contraindication of the medication and a particular disease, ailment or allergy of the patient;
    g. Any contraindication or interactions between multiple medications prescribed for the patient; and
    h. The potential abuse or misuse of a medication.
3. A registered pharmacist who is employed by or under contract with a pharmacy located within a hospital or correctional institution provides remote chart order processing services to the hospital or correctional institution shall comply with the requirements of Section 7 (A) to the same extent as a registered pharmacist engaging in the practice of pharmacy at a location other than the site of a licensed pharmacy pursuant to the provisions in Section 7 (B) and Section 7 (C).
4. In an emergency, a registered pharmacist who is employed by or under contract with a pharmacy located within a hospital or correctional institution to provide remote chart order processing services to the hospital or correctional institution may render remote chart order processing services without being provided with all the information required by paragraph (b) of subsection 1 of Section 7 (D) if the registered pharmacist believes, in his or her professional judgement, that he or she has received sufficient information from the staff of the hospital or correctional institution to render the services.
5. A registered pharmacist who is employed by or under contract with a pharmacy located within a hospital or correctional institution to provide remote chart order processing services to the hospital or correctional institution may refuse to approve the filling of a chart order if, in the judgement of the registered pharmacist, the chart order is not safe or reasonable for the patient. A registered pharmacist who refuses to approve the filling of a chart order pursuant to this subsection must notify the hospital or correctional institution as soon as practicable that he or she has refused to approve the filling of the chart order.
6. Each time that a registered pharmacist who is employed by or under contract with a pharmacy located within a hospital or correctional institution to provide remote chart order processing services to the hospital or correctional institution

provides remote chart order processing services pursuant to this section, the registered pharmacist shall make a notation in the computerized system of the hospital or correctional institution that indicates:

a. The name or identifier of the registered pharmacist;
b. The date and time that the registered pharmacist provided the services and, if applicable, approved the filling of a chart order; and
c. The specific services provided by the registered pharmacist.

7. The managing pharmacist of a pharmacy located within a hospital or a correctional institution may limit the remote chart order processing services provided pursuant to this section (Section 7 (D)).

I certify under penalty of perjury that the information contained in this application is accurate, true and complete in all material respects. I understand that making any false representation in this application is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire application and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event this application is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

I attest to the knowledge of and compliance with the guidelines of the Centers for Disease Control and Prevention concerning the prevention of transmission of infectious agents through safe and appropriate injection practices. NRS 639.132

I understand that Nevada law requires a registered pharmacist who, in their professional or occupational capacity, knows or has reasonable cause to believe a child has been abused/neglected to report the abuse/neglect to an agency which provides child welfare services or to a local law enforcement agency, and make such a report as soon as reasonably practicable but not later than 24 hours after the person knows or has reasonable cause to believe that the child has been abused/neglected. Any disclosure of records beyond those permitted for Treatment, Payment, and Health Care Operations (TPO) will require a valid patient authorization or other legally permitted disclosure under applicable federal and state law. All authorizations and disclosures will be documented and logged within the EMR system.
6. Provide a description of the business plan for the services provided. Professional pharmacist services will be rendered to individual patients upon establishing a patient-provider relationship and will either be billed to patients directly at a cash pay fee for service rate or may be billed to a patient's medical benefit plan.

Section 7: Laws pertaining to engaging in the practice of pharmacy at a location other than the site of a licensed pharmacy. Please read Section 7 in its entirety. By signing this application, you attest you have read and understood the components in this section.

A. NAC 639 - For all registered pharmacists engaging in the practice of pharmacy at a location other than the site of a licensed pharmacy

1. While engaging in the practice of pharmacy at a location other than the site of a licensed pharmacy, a registered pharmacist may perform only:
    a. The functions described in paragraphs (b), (c), (d) and (g) to (j), inclusive, of subsection 1 or NRS 639.0124, except for dispensing or administering drugs;
    b. The functions described in section 4 of LCB File No. R036.21, except for dispensing a self-administered hormonal contraceptive; and
    c. The administration of immunizations pursuant to a written protocol established in accordance with NAC 639.297 to 639.2978, inclusive.
2. A registered pharmacist who engages in the practice of pharmacy at a location other than the site of a licensed pharmacy shall:
    a. Provide written notice of the site of practice to the Executive Secretary in accordance with NAC 639.225 on this application; (NAC 639.225 states that a Nevada pharmacist, within 10 days after changing residence or place of practice, must give written notice of the change to the Board.)
    b. Ensure that the records of the registered pharmacist are made readily accessible to members of the Board and employees, agents and designees of the Board; and
    c. Comply with all applicable federal and state laws and regulations, including, without limitation:
        i. The Health Insurance Portability and Accountability Act of 1996, Public Law 104-191, and the regulations adopted pursuant thereto, and any other applicable federal or state law concerning the privacy of information regarding health care; and
        ii. Requirements relating to the maintenance or records.
3. A registered pharmacist who engages in the practice of pharmacy at a location other than the site of a licensed pharmacy shall not maintain an inventory of drugs at that location.
4. A registered pharmacist shall not engage in the practice of pharmacy at a location other than the site of a licensed pharmacy if he or she:
    a. Serves as a managing pharmacist; or
    b. Provides pharmaceutical services at:
        i. A facility for modified medical detoxification, as defined in NRS 449.00385;
        ii. An independent center for emergency medical care, as defined in NRS 449.013;
        iii. A facility for intermediate care, as defined in NRS 449.0038;
        iv. A facility for skilled nursing, as defined in NRS 449.0039; or
        v. A surgical center for ambulatory patients, as defined in NRS 449.019.

B. NAC 639 - For a registered pharmacist who is employed by or under contract with a Nevada licensed pharmacy or a Nevada State Government entity.

For a registered pharmacist who is employed by or under contract with a pharmacy or who is an employee of the State Government may engage in the practice of pharmacy at a location other than the site of a licensed pharmacy shall not engage in the practice of pharmacy at a location other than the site of a licensed pharmacy unless he or she is provided with the same computerized system and access to data regarding a patient for whom a prescription has been submitted that is available to a registered pharmacist in the pharmacy. Such data must include, without limitation:

a. A legible copy of the prescription that is available as an electronic copy or a scanned image in the computerized system of the pharmacy or by facsimile machine; and
b. Any information that is available in the computerized system of the pharmacy that is relevant or necessary for the registered pharmacist to provide pharmaceutical services.

C. NAC 639.403 - For a registered pharmacist who is NOT employed by or under contract with a Nevada licensed pharmacy or a Nevada State Government entity.

For a registered pharmacist who is NOT employed by or under contract with a pharmacy or who is an employee of the State Government shall not engage in the practice of pharmacy at a site other than the site of a licensed pharmacy unless he or she obtains the approval of the Board to engage in the practice of pharmacy at a site other than the site of a licensed pharmacy. To request such approval, the registered pharmacist must submit this application. The application must be approved before a registered pharmacist may commence any practice.

D. NAC 639.4916 - For a registered pharmacist who is employed by or under contract with a Nevada licensed pharmacy located within a hospital or correctional institution.

1. A registered pharmacist who is employed by or under contract with a pharmacy located within a hospital or correctional institution to provide the remote chart order processing services to the hospital or correctional institution that the pharmacy is required by NAC 639.4915 to provide must:
    a. Be trained in the policies and procedures of the hospital or correctional institution regarding all policies and procedures of the hospital or correctional institution with which the registered pharmacist must comply, including, without limitation, the provisions of pharmaceutical services, security, and confidentiality of patient records; and
    b. Be provided with the same computerized system and access to data regarding a patient for whom a chart order has been submitted that would be available to a registered pharmacist employe by the pharmacy located within the hospital or correctional institution, including, without limitation:
        i. The height, weight and age of the patient and any allergies that the patient may have;
        ii. The medical records regarding any medications prescribed to the patient;
        iii. The results of any relevant laboratory tests;
        iv. The health history and notes regarding physical examinations, to the extent that the information is available in the computerized system of the hospital or correctional institution;
        v. Any notes provided by a physician, nurse or other medical staff of the institution, to the extent that those notes are available in the computerized system of the hospital or correctional institution;
        vi. A legible copy of the chart order that is available through a scanned image in the computerized system of the hospital or correctional institution or by facsimile machine; and
        vii. Any other information that is available in the computerized system of the hospital or correctional institution that is relevant or necessary for the registered pharmacist to provide pharmaceutical services.
2. Before a registered pharmacist who is employed by or under contract with a pharmacy located within a hospital or correctional institution provides remote chart order processing services to the hospital or correctional institution, the registered pharmacist must review any relevant information regarding the patient for whom a chart order has been submitted. The registered pharmacist must, before approving a chart order to be filled, evaluate:
    a. The overutilization or underutilization of a medication;
    b. Therapeutic duplication;
    c. The appropriateness of the prescribed dosage and route of administration;
    d. The appropriateness of the directions for use of the medication;
    e. The appropriateness of the duration of the treatment with the prescribed medication;
    f. Any contraindication of the medication and a particular disease, ailment or allergy of the patient;
    g. Any contraindication or interactions between multiple medications prescribed for the patient; and
    h. The potential abuse or misuse of a medication.
3. A registered pharmacist who is employed by or under contract with a pharmacy located within a hospital or correctional institution provides remote chart order processing services to the hospital or correctional institution shall comply with the requirements of Section 7 (A) to the same extent as a registered pharmacist engaging in the practice of pharmacy at a location other than the site of a licensed pharmacy pursuant to the provisions in Section 7 (B) and Section 7 (C).
4. In an emergency, a registered pharmacist who is employed by or under contract with a pharmacy located within a hospital or correctional institution to provide remote chart order processing services to the hospital or correctional institution may render remote chart order processing services without being provided with all the information required by paragraph (b) of subsection 1 of Section 7 (D) if the registered pharmacist believes, in his or her professional judgement, that he or she has received sufficient information from the staff of the hospital or correctional institution to render the services.
5. A registered pharmacist who is employed by or under contract with a pharmacy located within a hospital or correctional institution to provide remote chart order processing services to the hospital or correctional institution may refuse to approve the filling of a chart order if, in the judgement of the registered pharmacist, the chart order is not safe or reasonable for the patient. A registered pharmacist who refuses to approve the filling of a chart order pursuant to this subsection must notify the hospital or correctional institution as soon as practicable that he or she has refused to approve the filling of the chart order.
6. Each time that a registered pharmacist who is employed by or under contract with a pharmacy located within a hospital or correctional institution to provide remote chart order processing services to the hospital or correctional institution

provides remote chart order processing services pursuant to this section, the registered pharmacist shall make a notation in the computerized system of the hospital or correctional institution that indicates:

a. The name or identifier of the registered pharmacist;
b. The date and time that the registered pharmacist provided the services and, if applicable, approved the filling of a chart order; and
c. The specific services provided by the registered pharmacist.

7. The managing pharmacist of a pharmacy located within a hospital or a correctional institution may limit the remote chart order processing services provided pursuant to this section (Section 7 (D)).

I certify under penalty of perjury that the information contained in this application is accurate, true and complete in all material respects. I understand that making any false representation in this application is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire application and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event this application is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

I attest to the knowledge of and compliance with the guidelines of the Centers for Disease Control and Prevention concerning the prevention of transmission of infectious agents through safe and appropriate injection practices. NRS 639.132

I understand that Nevada law requires a registered pharmacist who, in their professional or occupational capacity, knows or has reasonable cause to believe a child has been abused/neglected to report the abuse/neglect to an agency which provides child welfare services or to a local law enforcement agency, and make such a report as soon as reasonably practicable but not later than 24 hours after the person knows or has reasonable cause to believe that the child has been abused/neglected. Section 6: NAC 639.403 A registered pharmacist who is NOT employed by or under contract with a pharmacy and who is NOT an employee of the State Government MUST complete this section:

1. Provide a description of the services that you intend to provide at the site, to include only those services listed in Section 7 (A) of this application.

MOUD, HIV Prevention, Contraception, MTM and CPA services excluding drug administration or dispensing.

-Advising of the therapeutic value, reaction, drug interaction, hazard and use of a drug.
-Medication-assisted treatment of opioid use disorder (NRS 639.28079)
-Prescribing of drugs for preventing the acquisition of HIV and ordering and conducting laboratory tests necessary for therapy that uses such drugs pursuant to the protocol prescribed pursuant to NRS 639.28085.
-Implementation and modification of drug therapy and ordering and performing tests in accordance with a collaborative practice agreement.
-Self-administered hormonal contraceptive pursuant to NRS 639.28078

2. Provide the identification of the types of patients or other persons to whom you intend to provide services.

Patients will be individuals in NV age 16 and older upon proper consent and establishment of a valid patient-pharmacist relationship.

3. Provide a description of all resources, both paper and electronic, that will be available to you in the course of providing the services.

Electronic Access:
-Drug Databases such as epocrates
-Clinical Guidelines
-Evidence Based Clinical Reference such as Up To Date or Dynamed
-BoP Statutes and Regulations

4. Provide an explanation of the policy for users of the services when you are unavailable.

-A partner pharmacist in the practice will generally be available for patient needs in my personal absence or time off, or to their PCP. Patients will be instructed to contact 911 or present to the nearest ER for medical emergencies.

5. Provide an explanation of the policy regarding the confidentiality and security of the patient data that will be gathered, made, and maintained as part of the services which are provided, including without limitation, paper and electronic records.

All patient data and records will be created, maintained, and stored electronically. A HIPAA-compliant, cloud-based Electronic Medical Record (EMR) system with role-based access controls will be utilized to maintain records and facilitate communication with patients. All uses and disclosures of protected health information will comply with HIPAA and 42 CFR Part 2 confidentiality and privacy requirements. Any disclosure of records beyond those permitted for Treatment, Payment, and Health Care Operations (TPO) will require a valid patient authorization or other legally permitted disclosure under applicable federal and state law. All authorizations and disclosures will be documented and logged within the EMR system.

6. Provide a description of the business plan for the services provided.

Professional pharmacist services will be rendered to individual patients upon establishing a patient-provider relationship and will either be billed to patients directly at a cash pay fee for service rate or may be billed to a patient's medical benefit plan.

Section 7: Laws pertaining to engaging in the practice of pharmacy at a location other than the site of a licensed pharmacy. Please read Section 7 in its entirety. By signing this application, you attest you have read and understood the components in this section.

A. NAC 639 - For all registered pharmacists engaging in the practice of pharmacy at a location other than the site of a licensed pharmacy.

1. While engaging in the practice of pharmacy at a location other than the site of a licensed pharmacy, a registered pharmacist may perform only:
    a. The functions described in paragraphs (b), (c), (d) and (g) to (j), inclusive, of subsection 1 or NRS 639.0124, except for dispensing or administering drugs;
    b. The functions described in section 4 of LCB File No. R036.21, except for dispensing a self-administered hormonal contraceptive; and
    c. The administration of immunizations pursuant to a written protocol established in accordance with NAC 639.297 to 639.2978, inclusive.
2. A registered pharmacist who engages in the practice of pharmacy at a location other than the site of a licensed pharmacy shall:
    a. Provide written notice of the site of practice to the Executive Secretary in accordance with NAC 639.225 on this application; (NAC 639.225 states that a Nevada pharmacist, within 10 days after changing residence or place of practice, must give written notice of the change to the Board.)
    b. Ensure that the records of the registered pharmacist are made readily accessible to members of the Board and employees, agents and designees of the Board; and
    c. Comply with all applicable federal and state laws and regulations, including, without limitation:
        i. The Health Insurance Portability and Accountability Act of 1996, Public Law 104-191, and the regulations adopted pursuant thereto, and any other applicable federal or state law concerning the privacy of information regarding health care; and
        ii. Requirements relating to the maintenance or records.
3. A registered pharmacist who engages in the practice of pharmacy at a location other than the site of a licensed pharmacy shall not maintain an inventory of drugs at that location.
4. A registered pharmacist shall not engage in the practice of pharmacy at a location other than the site of a licensed pharmacy if he or she:
    a. Serves as a managing pharmacist; or
    b. Provides pharmaceutical services at:
        i. A facility for modified medical detoxification, as defined in NRS 449.00385;
        ii. An independent center for emergency medical care, as defined in NRS 449.013;
        iii. A facility for intermediate care, as defined in NRS 449.0038;
        iv. A facility for skilled nursing, as defined in NRS 449.0039; or
        v. A surgical center for ambulatory patients, as defined in NRS 449.019.

B. NAC 639 - For a registered pharmacist who is employed by or under contract with a Nevada licensed pharmacy or a Nevada State Government entity.

For a registered pharmacist who is employed by or under contract with a pharmacy or who is an employee of the State Government may engage in the practice of pharmacy at a location other than the site of a licensed pharmacy shall not engage in the practice of pharmacy at a location other than the site of a licensed pharmacy unless he or she is provided with the same computerized system and access to data regarding a patient for whom a prescription has been submitted that is available to a registered pharmacist in the pharmacy. Such data must include, without limitation:

a. A legible copy of the prescription that is available as an electronic copy or a scanned image in the computerized system of the pharmacy or by facsimile machine; and
b. Any information that is available in the computerized system of the pharmacy that is relevant or necessary for the registered pharmacist to provide pharmaceutical services.

C. NAC 639.403 - For a registered pharmacist who is NOT employed by or under contract with a Nevada licensed pharmacy or a Nevada State Government entity.

For a registered pharmacist who is NOT employed by or under contract with a pharmacy or who is an employee of the State Government shall not engage in the practice of pharmacy at a site other than the site of a licensed pharmacy unless he or she obtains the approval of the Board to engage in the practice of pharmacy at a site other than the site of a licensed pharmacy. To request such approval, the registered pharmacist must submit this application. The application must be approved before a registered pharmacist may commence any practice.

D. NAC 639.4916 - For a registered pharmacist who is employed by or under contract with a Nevada licensed pharmacy located within a hospital or correctional institution.

1. A registered pharmacist who is employed by or under contract with a pharmacy located within a hospital or correctional institution to provide the remote chart order processing services to the hospital or correctional institution that the pharmacy is required by NAC 639.4915 to provide must:
    a. Be trained in the policies and procedures of the hospital or correctional institution regarding all policies and procedures of the hospital or correctional institution with which the registered pharmacist must comply, including, without limitation, the provisions of pharmaceutical services, security, and confidentiality of patient records; and
    b. Be provided with the same computerized system and access to data regarding a patient for whom a chart order has been submitted that would be available to a registered pharmacist employe by the pharmacy located within the hospital or correctional institution, including, without limitation:
        i. The height, weight and age of the patient and any allergies that the patient may have;
        ii. The medical records regarding any medications prescribed to the patient;
        iii. The results of any relevant laboratory tests;
        iv. The health history and notes regarding physical examinations, to the extent that the information is available in the computerized system of the hospital or correctional institution;
        v. Any notes provided by a physician, nurse or other medical staff of the institution, to the extent that those notes are available in the computerized system of the hospital or correctional institution;
        vi. A legible copy of the chart order that is available through a scanned image in the computerized system of the hospital or correctional institution or by facsimile machine; and
        vii. Any other information that is available in the computerized system of the hospital or correctional institution that is relevant or necessary for the registered pharmacist to provide pharmaceutical services.
2. Before a registered pharmacist who is employed by or under contract with a pharmacy located within a hospital or correctional institution provides remote chart order processing services to the hospital or correctional institution, the registered pharmacist must review any relevant information regarding the patient for whom a chart order has been submitted. The registered pharmacist must, before approving a chart order to be filled, evaluate:
    a. The overutilization or underutilization of a medication;
    b. Therapeutic duplication;
    c. The appropriateness of the prescribed dosage and route of administration;
    d. The appropriateness of the directions for use of the medication;
    e. The appropriateness of the duration of the treatment with the prescribed medication;
    f. Any contraindication of the medication and a particular disease, ailment or allergy of the patient;
    g. Any contraindication or interactions between multiple medications prescribed for the patient; and
    h. The potential abuse or misuse of a medication.
3. A registered pharmacist who is employed by or under contract with a pharmacy located within a hospital or correctional institution provides remote chart order processing services to the hospital or correctional institution shall comply with the requirements of Section 7 (A) to the same extent as a registered pharmacist engaging in the practice of pharmacy at a location other than the site of a licensed pharmacy pursuant to the provisions in Section 7 (B) and Section 7 (C).
4. In an emergency, a registered pharmacist who is employed by or under contract with a pharmacy located within a hospital or correctional institution to provide remote chart order processing services to the hospital or correctional institution may render remote chart order processing services without being provided with all the information required by paragraph (b) of subsection 1 of Section 7 (D) if the registered pharmacist believes, in his or her professional judgement, that he or she has received sufficient information from the staff of the hospital or correctional institution to render the services.
5. A registered pharmacist who is employed by or under contract with a pharmacy located within a hospital or correctional institution to provide remote chart order processing services to the hospital or correctional institution may refuse to approve the filling of a chart order if, in the judgement of the registered pharmacist, the chart order is not safe or reasonable for the patient. A registered pharmacist who refuses to approve the filling of a chart order pursuant to this subsection must notify the hospital or correctional institution as soon as practicable that he or she has refused to approve the filling of the chart order.
6. Each time that a registered pharmacist who is employed by or under contract with a pharmacy located within a hospital or correctional institution to provide remote chart order processing services to the hospital or correctional institution

provides remote chart order processing services pursuant to this section, the registered pharmacist shall make a notation in the computerized system of the hospital or correctional institution that indicates:

a. The name or identifier of the registered pharmacist;
b. The date and time that the registered pharmacist provided the services and, if applicable, approved the filling of a chart order; and
c. The specific services provided by the registered pharmacist.

7. The managing pharmacist of a pharmacy located within a hospital or a correctional institution may limit the remote chart order processing services provided pursuant to this section (Section 7 (D)).

I certify under penalty of perjury that the information contained in this application is accurate, true and complete in all material respects. I understand that making any false representation in this application is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire application and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event this application is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

I attest to the knowledge of and compliance with the guidelines of the Centers for Disease Control and Prevention concerning the prevention of transmission of infectious agents through safe and appropriate injection practices. NRS 639.132

I understand that Nevada law requires a registered pharmacist who, in their professional or occupational capacity, knows or has reasonable cause to believe a child has been abused/neglected to report the abuse/neglect to an agency which provides child welfare services or to a local law enforcement agency, and make such a report as soon as reasonably practicable but not later than 24 hours after the person knows or has reasonable cause to believe that the child has been abused/neglected. FIRST AMENDED NOTICE OF INTENDED ACTION AND ACCUSATION

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and these Respondents because at the time of the events alleged herein, Respondent Matthew E. Apel MD (Apel), held Certificate of Registration Nos. CS24505 and PD00589, Respondent Thomas Umbach, MD (Umbach), held Certificate of Registration Nos. CS16064 and PD00512, all issued by the Board.

FACTUAL ALLEGATIONS

2. On or about December 28, 2023, an inspection of Apel's and Umbach's practice at Blossom Bariatric, located at 7385 S. Pecos Road – Ste 101 in Las Vegas, revealed numerous violations of law related to controlled substances.

3. Apel failed to indicate on the biennial inventory if the count was taken either as of the opening or as of the close of business, in violation of 21 U.S.C. § 842(a)(5), 21 CFR § 1304.11(a), NRS 453.246, NRS 453.326(1)(a) and NAC 453.475.

4. Apel and Umbach failed to make and/or maintain acquisition and distribution records of tramadol, a schedule IV substance, transfers from Umbach to Apel, in violation of 21 U.S.C. § 842(a)(5), 21 CFR § 1304.22(a)(2)(iv) and (vii), NRS 453.246 and NRS 453.326(1)(a).

5. Apel failed to record the address of the patient on tramadol dispensing records, in violation of 21 U.S.C. § 842(a)(5), 21 CFR § 1304.22(c), NRS 453.246, NRS 453.326(1)(a) and NAC 453.410(1)(b)(1).

6. Umbach failed to design and operate a system to disclose suspicious orders of controlled substances, in violation of 21 U.S.C. § 832(a), 21 CFR § 1301.74(b), NRS 453.246 and NRS 453.326(1)(a).

7. Umbach failed to register with the Drug Enforcement Administration as a distributor after distributing more than five percent of the total number of dosage units of all controlled substances distributed and dispensed during the same calendar year, in violation of 21 U.S.C. § 822(a) and 21 CFR § 1307.11(b).

8. On or about January 17, 2024, Apel submitted DEA Form 106 documentation and together with a NRS 453.568 Report to the Board reporting the loss of 765 tramadol 50mg tablets resulting from Respondents' failure to provide effective controls and procedures to guard against the theft and diversion of controlled substances and to ensure all drugs were account for, in violation of 21 CFR § 1301.71(a), NAC 453.400 and NAC 639.742(3)(b).

6. Umbach failed to design and operate a system to disclose suspicious orders of controlled substances, in violation of 21 U.S.C. § 832(a), 21 CFR § 1301.74(b), NRS 453.246 and NRS 453.326(1)(a).

7. Umbach failed to register with the Drug Enforcement Administration as a distributor after distributing more than five percent of the total number of dosage units of all controlled substances distributed and dispensed during the same calendar year, in violation of 21 U.S.C. § 822(a) and 21 CFR § 1307.11(b).

8. On or about January 17, 2024, Apel submitted DEA Form 106 documentation and together with a NRS 453.568 Report to the Board reporting the loss of 765 tramadol 50mg tablets resulting from Respondents' failure to provide effective controls and procedures to guard against the theft and diversion of controlled substances and to ensure all drugs were account for, in violation of 21 CFR § 1301.71(a), NAC 453.400 and NAC 639.742(3)(b).

APPLICABLE LAW

9. The owner of any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(3); NAC 639.7445.

10. Performing any duties as the holder of a controlled substance registration or a dispensing practitioner registration in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(i) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 453.236(1) and NRS 639.210(4).

11. Violating any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs is grounds for suspension or revocation of any license or registration issued by the Board. NRS 453.236(1) and NRS 639.210(11).

12. Violating, attempting to violate, assisting or abetting in the violation of or conspiring to violate any law or regulation relating to drugs is grounds for suspension or revocation of any license or registration issued by the Board. NRS 453.236(1) and NRS 639.210(12).

13. The Board may suspend or revoke a registration issued pursuant to NRS 453.226 to prescribe or otherwise dispense a controlled substance upon a finding that the registrant has committed an act that would render registration inconsistent with the public interest. CS16064 and PD00512,** **Respondents.**	**Case No. 24-044-PD-A-S** **24-044-PD-B-S** **ANSWER AND NOTICE OF DEFENSE TO FIRST AMENDED NOTICE OF INTENDED ACTION AND ACCUSATION**

Respondents, above named, in answer to the First Amended Notice of Intended Action and Accusation filed in the above-entitled matter before the Nevada State Board of Pharmacy, declare:

1. Dr. Umbach and Dr. Apel are bariatric surgeons who perform hundreds of surgeries every year on morbidly obese patients. Their clinic is Blossom Bariatrics in Las Vegas. Dr. Apel and Dr. Umbach are licensed as "dispensing practitioners" pursuant to the Nevada Administrative Code §§ 639.742 through 639.745.

2. A large majority of the patients of Blossom Bariatrics are from out-of-state. They typically fly in to Las Vegas from all over the country and stay in hotels for the few days that their surgeries require. On the first day, the patients go to Blossom to have preparatory medical work done. This includes testing their blood pressure, having blood work, taking cardiology exams to determine if their hearts are healthy enough for surgery, and getting an endoscopy.

They talk with the staff and the doctors about what to expect, and if they pass all their tests, they are scheduled for surgery the next day at an ambulatory surgical center.

3. In an effort to provide the best care for their patients, Dr. Umbach opened a small facility at Blossom and registered himself and Dr. Apel as "dispensing practitioners." They used the facility for one purpose only which was to provide one drug – tramadol – to their patients for use after their surgery the next day.[1] Each patient received a single bottle of tramadol containing 15 pills and each patient was instructed by the doctor or staff to take one pill every 4 to 6 hours after surgery for pain in doses of 50 milligrams with a maximum of 300 milligrams per day, thus allowing the patient to treat pain for about 2 days after surgery. No patient was ever given more than one bottle, or more than 15 pills.

4. Dr. Umbach wanted to provide the tramadol directly to the patients because it was difficult for most of them to find a pharmacy, given that they were typically from out-of-town and did not know where a pharmacy was, and they had no relationship with any local pharmacy. Also, the patients needed the tramadol for their surgery the next morning, and not every pharmacy had tramadol on hand when patients showed up with their prescription. Dr. Umbach believed that, by making tramadol available at the clinic, he was providing them the best and most convenient care and helping them prepare for their surgery.

5. Therefore, Drs. Apel and Umbach registered as "dispensing practitioners" and used their onsite drug facility for Blossom's patients only. Blossom ordered its one drug – tramadol – from Quality Care Partners ("QCP"), a legitimate pharmaceutical supplier. Blossom operated its practitioner-dispensing inhouse facility for five years, and the Nevada Pharmacy

---

[1] Drs. Umbach and Apel also gave each patient a stool softener and a pill for nausea but these were not controlled substances.

Board inspected its operations annually and knew that Blossom was getting its tramadol from QCP.

6. Drs. Umbach and Apel strived to make its ordering, dispensing and tracking of tramadol error-free by using a software created by MDScripts, a nationally known company that helps medical providers document and track their dispensing practices.

7. Drs. Umbach and Apel tracked every bottle of tramadol they ordered by:

(A) order date;

(B) the date their clinic received it;

(C) the shipment number; and

(D) the lot number.

8. Each patient who received a bottle of tramadol had it documented in his or her medical record, with both the patient's signature confirming receipt, and the dispensing physician's signature as well. The original signed copy with the patient's and the physician's signatures was maintained on-site at the clinic.

9. The tramadol bottles received by the clinic were stored in a closet which required a 4-digit code to enter, and inside the closet, the tramadol was stored in cabinets which had a double lock and therefore required 2 separate keys to unlock.

10. During the time that Blossom had its facility, 84 bottles of tramadol were ordered by Dr. Umbach and then transferred to Dr. Apel to give to patients in the clinic before surgery. Dr. Umbach and Dr. Apel assumed that because they worked together in the same clinic, it would not matter that the drug was ordered by one doctor but used by the other doctor since this is how medical supplies generally were treated and shared. Both Dr. Umbach and Dr. Apel were unaware of the legal limit of such transfers between doctors, and the need to register

as a "distributor" if more than 5% of the total number of dosage units of all controlled substances was exceeded.

11. On the day before surgery, each patient received a single bottle of tramadol containing 15 pills and was instructed by Dr. Umbach, Dr. Apel or the clinic staff to take one pill every 4 to 6 hours after surgery for pain in doses of 50 milligrams with a maximum of 300 milligrams per day, thus allowing the patient to treat pain for about 2 days after surgery.

12. No refills were ever given to any patient.

13. All of these intended precautions did not go according to plan. Although the MDScripts software was difficult for Blossom staff to use because it was new to them, Blossom brought in a MDScripts representatives who helped them use the software to track all the bottles of tramadol.

14. Despite its best efforts, Drs. Umbach and Apel found some discrepancies and in late 2023, they notified the DEA.

15. In December 2023, an investigator from the federal Drug Enforcement Administration visited Blossom to investigate drugs that were allegedly missing to determine if the drugs had been lost or stolen or were otherwise unaccounted for.

16. During the DEA's investigation, Blossom generated a report that showed definitively that Blossom had ordered and received a total of 750 bottles of tramadol between November 28, 2022 and October 31, 2023. Of this 750 total bottles, 706 were dispensed to patients. Dr. Apel dispensed 680 of these bottles, and Dr. Umbach dispensed 16, for a total of 696 bottles. Of this total of 696 bottles that were dispensed, 10 bottles were "voided" by Blossom. This meant that the patient was given a bottle of tramadol at the clinic the day before surgery, but the patient subsequently did not go through with the surgery, typically because their

medical condition, such as blood work or heart issues or pregnancy, made surgery too risky or they just simply changed their minds and no longer wanted the surgery. Drs. Umbach and Apel could not confirm that these 10 patients' bottles of tramadol were placed back in the inventory.

17. The bottom line of the investigation was that a total of 54 bottles of tramadol that Blossom ordered and received during the 11 months between November 28, 2022 and October 31, 2023 could not be accounted for. These 54 bottles were presumed to be stolen or lost between February 13, 2023 and November 17, 2023.

18. As soon as the Blossom staff discovered the theft/loss during the DEA investigation, Dr. Apel and Dr. Umbach directed the clinic staff to do the following:

(A) ***Police report.*** They filed a police report with the Las Vegas police department and indicated their willingness to cooperate in any investigation or provide any information the police requested.

(B) ***Interviews of both current and former staff.*** They interviewed all current staff and former staff to determine if any of them knew anything about the missing prescription bottles and what happened to them. Those employees who were currently employed were interviewed. Blossom physically interviewed all of its former staff who had been employed by Blossom and had access to the locked closet where the tramadol was stored during the one-year period in question to determine if any former staff knew anything about the suspected loss or theft.

19. ***Shutting down the in-house pharmacy facility completely.*** Despite Dr. Umbach and Dr. Apel's efforts to account for the missing 54 bottles by investigating past and current staff and numerous detailed reviews of the software records, no explanation was found, and the bottles were presumed lost or stolen. Drs. Umbach and Apel confirm that after – and as a

result of – the DEA investigation, they did not dispense any drugs at all to anyone after December 2024. In December 2024, the doctors shut down their in-house pharmacy facility completely. Since that time, neither Dr. Umbach nor Dr. Apel has dispensed any drugs at all to any patients whatsoever. Since December of 2024, Drs. Umbach and Apel have instead worked with an outside third-party independent pharmacy to dispense the drugs that they prescribe for their patients prior to surgery.

20. Dr. Apel admits that he failed to indicate on the biennial inventory if the count was taken either as of the opening of business or the close of business. He ***did*** perform the biennial inventory, he merely failed to indicate whether he performed it at the opening or closing of business.

21. Dr. Apel believed he had met these requirements of the federal and state laws including 21 U.S.C. § 842(a)(5) and 21 CFR § 1304.22(c) which requires that "records shall be maintained" of the units or volume dispensed, including "the name and address of the person to whom it was dispensed." The statute, importantly, does not say *where* the "record" of "the patient's address" should be kept, and Dr. Apel met this federal requirement by recording and keeping each patient's address in the patient's medical record. Similarly, NAC § 453.410(1)b)(1) states that the dispensing practitioner shall "ensure that each record of a controlled substance which is dispensed contains the name of the patient and, if not readily available from the practitioner's record, the patient's address." Since the patient's address *was, in fact, readily available in the patient's medical record,* the express language of this regulation does not require that it also be in the dispensing record. Hence, Dr. Apel met the legal requirements because when the tramadol was dispensed, each patient's receipt of the tramadol was recorded in the patient's medical record– *where the patient's address was clearly written and recorded* – and

both the dispensing physician and the patient personally signed for the receipt of the tramadol.

22. Dr. Apel and Dr. Umbach admit that they failed to make acquisition and distribution records of tramadol transfers from Umbach to Apel, in violation of 21 U.S.C. § 842(a)(5), 21 CFR § 1304.22(a)(2)(iv) and (vii), NRS 453.245 and NRS 453.326(1)(a). The software that Blossom purchased tracked these transfers as "pod moves," but even the software's detailed records of such transfers failed to account for the missing bottles of tramadol.

23. Dr. Apel admits that he failed to record the patient's address on the tramadol dispensing records in violation of 21 U.S.C. § 842(a)(5), 21 CFR § 1304.22(c), NRS 453.246, NRS 453.326(1)a) and NAC 453.410(1)(b)(1).

24. Blossom, the clinic and medical practice, but not Dr. Umbach personally, admits that it failed to design and operate a system to disclose suspicious orders of controlled substances in violation of 21 U.S.C. § 832(a), 21 CFR § 1301.74(b), NRS 453.246 and NRS 453.326(1)(a). Dr. Umbach believed that the clinic had designed a system that would prevent theft or loss by its use of a nationally recognized software program that would make its ordering, dispensing and tracking of tramadol error-free, and by storing the tramadol in a closet which required a 4-digit code to enter, limiting the knowledge of that code only to certain staff, and inside the closet, storing the tramadol in a cabinets which had double locks and required 2 separate keys to unlock. Despite taking every reasonable measure it thought of, Blossom's efforts failed.

25. Dr. Umbach admits that he failed to register with the Drug Enforcement Administration as a distributor because he did not realize or understand that such a registration was necessary if he transferred more than 5% of the total number of dosage units of all controlled substance distribution or dispensed during a calendar year, as required by 21 U.S.C. § 822(a) and 21 CFR § 1307.11(b). Dr. Umbach thought that such transfers between doctors working in the

same clinic would be legally permissible as are all such transfers of medical equipment and medical supplies between practitioners working together in the same medical practice or the same clinic.

26. Dr. Apel admits that on or about January 17, 2024, he submitted DEA Form 106 documentation and together with a NRS 453.568 Report to the Board reporting the loss of 765 tramadol 50mg tablets resulting from Blossom's failure to provide effective controls and procedures to guard against the theft and diversion of controlled substances and to ensure all drugs were accounted for, in violation of 21 CFR § 1031.71(a), NAC 453.400 and NAC 639.742(3)(b). Dr. Apel, as stated in more detail above, thought he and Dr. Umbach and Blossom had taken every reasonable step to safeguard the tramadol supply from theft or loss, but those efforts turned out to be inadequate.

27. ***The DEA.*** Dr. Apel and Dr. Umbach were investigated by the federal Drug Enforcement Administration and the DEA's investigation was resolved when the parties completely shut down their in-house pharmacy facility and no longer dispensed any drugs at all after December 2024. No further action was taken by the DEA against either Dr. Apel or Dr. Umbach.

COUNT ONE

28. Dr. Apel and Dr. Umbach deny that they knowingly, willfully or intentionally violated, attempted to violate, assisted in violating, or conspired to violate 21 CFR § 1301.71(a), NAC 453.400 or NAC 639.742(3)(b).

COUNT TWO

29. Dr. Apel and Dr. Umbach deny that they knowingly, willfully or intentionally violated, attempted to violate, assisted in violating, or conspired to violate 21 U.S.C. § 822(a), 21

U.S.C. § 832(a), 21 U.S.C. § 842(a)(5), 21 CFR § 1304.11(a), 21 CFR § 1307.11(b), 21 CFR § 1304.22(a)(2)(iv) and (vii), 21 CFR § 1304.22(c), 21 CFR § 1301.74(b), NRS 453.246, NRS 453.326(1)(a), NAC 453.410(1)(b)(1) and NAC 453.475.

COUNT THREE

30. Dr. Apel and Dr. Umbach deny that they knowingly, willfully or intentionally performed their duties as the holders of controlled substance and dispensing practitioner registrations in an incompetent, unskillful or negligence manner or engaged in unprofessional conduct and conduct contrary to the public interest as defined in NAC 639.945(1)(i).

COUNT FOUR

31. Dr. Apel and Dr. Umbach deny that they have knowingly, willfully or intentionally committed acts that render their registration inconsistent with the public interest and therefore should not be subject to discipline.

32. Dr. Apel and Dr. Umbach and Blossom have shut down their pharmacy and have not dispensed any drugs to any patient at all since December 2024.

DEFENSE

33. Dr. Apel and Dr. Umbach, individually and through their clinic staff, made every reasonable effort to comply with the requirements for a dispensing practitioner set out in NAC §§ 639.742 through 639.745, and did, in fact, satisfy and comply with most of the requirements.

WHEREFORE, it is requested that:

(A) the Nevada State Board of Pharmacy not discipline Dr. Apel or Dr. Umbach;

(B) Dr. Apel, Dr. Umbach and Blossom request a hearing before the Board to answer the First Amended Notice of Intended Action and Accusation and present

evidence and argument on all issues involved.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **HISBAY HAIDER ALI, MD,** **Certificate of Registration No., CS31898,** **Respondent.**	**Case No. 24-444-CS-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and this Respondent because at the time of the events alleged herein, Respondent Hisbay Haider Ali, MD, held a Nevada controlled substance registration, Certificate of Registration No. CS31898, issued by the Board.

FACTUAL ALLEGATIONS

2. From October 11, 2022, to October 11, 2024, Respondent issued four thousand six hundred and twenty (4,620) controlled substance prescriptions for five hundred and sixty-five (565) unique patients, but only reviewed a patient's utilization report in the Prescription Monitoring Program (PMP) database on ten (10) occasions.

3. Respondent has failed to query and review for accuracy his MyRx prescriber activity report in the PMP database at least once every 6 months as required by law.

4. On or about October 11, 2024, the Nevada State Board of Medical Examiners (NSBME) filed charges and summarily suspended Respondent's License No. 20660 to practice

medicine for engaging in conduct in violation of NRS Chapter 630 in Case Nos. 24-53581-1, 24-53581-2 and 24-53581-3.

5. On or about November 4, 2024, Board staff served Respondent with notice that the suspension of his NSBME License No. 20660 to practice medicine operated as an immediate suspension of his Certificate of Registration No. CS31898 with the Board pursuant to NRS 639.2107, and that Respondent must immediately cease and desist possessing, administering and/or prescribing controlled substances for Nevada patients.

6. On or about November 7, 2024, Respondent surrendered his Registration No. FA6780779 to the Drug Enforcement Administration by executing a DEA Form 104 – "Surrender for Cause of DEA Certificate of Registration."

7. Respondent failed to fully disclose to the Board the pending charges in NSBME Case Nos. 24-53581-1, 24-53581-2 and 24-53581-3 on his 2024 biennial renewal application for Certificate of Registration No. CS31898.

8. On June 6, 2025, the NSBME and Respondent entered into a settlement agreement in Case Nos. 24-53581-1, 24-53581-2 and 24-53581-3 imposing discipline upon Respondent; Respondent admitted to most of the charges and Respondent's License No. 20660 to practice medicine remained suspended for six (6) months.

9. On March 3, 2026, the NSBME filed charges and summarily suspended Respondent's License No. 20660 to practice medicine in Case No. 26-53581-1 for violating the settlement agreement in Case Nos. 24-53581-1, 24-53581-2 and 24-53581-3.

10. On March 4, 2026, Respondent appeared before Board on an application to have his controlled substance registration reinstated and while under oath failed to disclose the current suspension of his NSBME License No. 20660 to practice medicine; the Board approved his application.

APPLICABLE LAW

11. A practitioner must hold a license to practice his or her profession in this State and be registered with both the DEA and the Board to possess, administer, prescribe and/or otherwise dispense any controlled substance in Nevada. 21 U.S.C. § 822(a)(2) and (e)(1); 21 U.S.C. § 823(f); 21 C.F.R. § 1301.12; 21 CFR § 1306.03(a)(1); NRS 453.226(1); NRS 453.321(1)(a); NRS 639.100(1); NRS 639.235(1).

12. A practitioner shall only issue a controlled substance prescription after review of a patient's utilization report in the PMP database in conformance with NRS 639.23507.

13. A practitioner shall review his or her MyRx prescriber activity report in the PMP database for accuracy at least once every 6 months. NRS 453.164(7).

14. It is unlawful for a person knowingly or intentionally to furnish false or fraudulent material information in, or omit any material information from, any application for registration under NRS Chapter 639. NRS 639.281(1).

15. Performing any duties as the holder of a controlled substance registration in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(i) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

16. Willfully making to the Board any false statement which is material to the administration or enforcement of Nevada law is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(9).

17. Obtaining any registration by the filing of an application, or any record, affidavit or other information in support thereof, which is false or fraudulent, is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(10).

18. The Board may suspend or revoke a registration if the holder has violated any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs. NRS 639.210(11).

19. The Board may suspend or revoke a registration if the holder has violated, attempted to violate, assisted or abetted in the violation of or conspired to violate any law or regulation relating to drugs, the manufacture or distribution of drugs or the practice of pharmacy. NRS 639.210(12).

20. The Board may suspend or revoke a registration issued pursuant to NRS 453.226 to prescribe or otherwise dispense a controlled substance upon a finding that the registrant has committed an act that would render registration inconsistent with the public interest. NRS 453.236(1)(e) and NRS 453.241(1).

COUNT ONE

Violation of State Law – Failure to Review Patient Utilization Report

21. By failing to review patient utilization reports in the PMP database prior to issuing controlled substance prescriptions as alleged in paragraph 2 herein, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 639.23507, and is subject to discipline pursuant to NRS 453.236(1)(d) and (e), NRS 453.241(1), NRS 639.210(12) and/or NRS 639.23916(3)(b).

COUNT TWO

Violations of State Law – Failure to Review MyRx Prescriber Activity Report

22. By failing to query to query and review for accuracy his MyRx prescriber activity report in the PMP database as alleged in paragraph 3 herein, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 453.164(7), and is subject to discipline pursuant to NRS 453.236(1)(d) and (e), NRS 453.241(1), NRS 639.210(12) and/or NRS 639.23916(3)(b).

COUNT THREE

Furnishing False Material Information to Board

23. By failing to fully disclose to the Board the pending charges in NSBME Case Nos. 24-53581-1, 24-53581-2 and 24-53581-3 on his 2024 biennial renewal application for Certificate of Registration No. CS31898 as alleged in paragraph 7 herein, and by failing to

disclose the current suspension of his NSBME License No. 20660 to practice medicine when appearing before the Board on March 4, 2026, as alleged in paragraph 10 herein, Respondent violated NRS 639.281(1) and is subject to discipline pursuant to NRS 639.210(9) and/or NRS 639.210(12).

COUNT FOUR

Obtaining Registration by False or Fraudulent Application

24. By failing to fully disclose to the Board the pending charges in NSBME Case Nos. 24-53581-1, 24-53581-2 and 24-53581-3 on his 2024 biennial renewal application for Certificate of Registration No. CS31898 as alleged in paragraph 7 herein, and by failing to disclose the current suspension of his NSBME License No. 20660 to practice medicine when current suspension of his NSBME License No. 20660 to practice medicine when appearing before the Board on March 4, 2026, as alleged in paragraph 10 herein, Respondent is subject to discipline pursuant to NRS 639.210(10).

COUNT FIVE

Unprofessional Conduct – Incompetent, Unskillful or Negligent Performance of Duties

25. By his actions and omissions as alleged herein, Respondent has performed his duties as the holder of a controlled substance registration in an incompetent, unskillful or negligent manner and engaged in unprofessional conduct and conduct contrary to the public interest as defined in NAC 639.945(1)(i), and is subject to discipline pursuant to NRS 453.236(1), NRS 453.241(1), NRS 639.210(4) and/or NRS 639.23916(3)(b).

COUNT SIX

Commission of Acts that Render Registration Inconsistent with the Public Interest

26. By his actions and omissions as alleged herein, Respondent has committed acts that render his registration inconsistent with the public interest and is subject to discipline pursuant to NRS 453.236(1)(e) and NRS 453.241(1).

\\\

\\\

COUNT SEVEN
Not Qualified for Registration

27. By the suspension of his NSBME License No. 20660 to practice medicine and the surrender of his DEA Registration No. FA6780779 for cause, Respondent no longer qualifies for registration to dispense controlled substances under federal or state law and his Certificate of Registration No. CS31898 is subject to revocation pursuant to NRS 453.236(1) and NRS 453.241(1).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of this Respondent.

Signed this 15th day of JUNE 2026.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **MARIKA LENEE KERR, APRN,** **Certificate of Registration No. CS26747,** **Respondent.**	**CASE NO. 25-146-CS-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300 and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and this Respondent because, at the time of the events alleged herein, Respondent Marika Lenee Kerr, APRN, held a Nevada controlled substance registration, Certificate of Registration No. CS26747, issued by the Board.

FACTUAL ALLEGATIONS

2. Respondent has prior discipline from the Board in case no. 17-118-CS-S for permitting non-practitioners to unlawfully access, possess and administer dangerous drugs to patients without direct practitioner supervision, to patients with whom Respondent had not established a bona fide therapeutic relationship.

3. Respondent was engaged in practice at Carolina Skin Care, located at 9484 W Flamingo Rd. in Las Vegas, during the relevant times frame herein.

4. Carolina Molina owns and operates Carolina Skin Care and is not a Nevada-licensed practitioner.

5. On or about April 16, 2025, a Board investigator in the course of an on-site investigation at Carolina Skin Care determined that Respondent permitted Molina to use Respondent's credentials as a Nevada-licensed practitioner to purchase dangerous drugs, to maintain an unsecured inventory of dangerous drugs, and to access those medications outside Respondent's presence and without Respondent's supervision.

6. Respondent permitted Molina to independently access, possess, furnish and administer dangerous drugs to patients, and to provide on-site medical treatment at Carolina Skin Care, including the administration of dangerous drugs by injection, and including, without limitation, glutathione, lipotropics, semaglutides, neuromodulators and dermal fillers, without direct practitioner supervision, to patients with whom Respondent had not established a bona fide therapeutic relationship, and for whom Respondent had neither diagnosed nor determined that a dangerous drug was medically necessary.

7. Respondent regularly issued prescriptions for dangerous drugs falsely identifying Molina and other individuals as the patient to Meta Pharmacy Services, located at 8352 W. Warm Springs Road in Las Vegas, in order to obtain those drugs for office administration to multiple patients, and administered and/or permitted the administration of patient-specific prescription medications to multiple patients.

8. Respondent failed to keep and maintain complete, accurate and readily retrievable records accounting for all patients and dangerous drugs.

APPLICABLE LAW

9. No person may possess or administer a dangerous drug in Nevada, including administration by injection, without specific statutory authority to do so. NRS 200.840(1); NRS 454.213; NRS 454.217; NRS 454.221; NRS 454.316; NRS 454.321; NRS 454.356; NRS 454.510; NRS 639.100(1).

10. All controlled substances and dangerous drugs in the possession of an advanced practice registered nurse must be kept in a locked storage area with access restricted to authorized persons. NAC 639.898(1).

11. The Board may suspend or revoke the certificate of registration of an advanced practice registered nurse that has failed to maintain the security of his or her drug supply. NAC 639.900(12).

12. A practitioner may prescribe a dangerous drug for a specific patient in conformance with NRS 454.223 and NRS 639.2353.

13. It is a felony offense to sell or administer a misbranded or adulterated drug. NRS 585.520; NAC 639.601(1).

14. It is a felony offense to falsify a prescription for a dangerous drug or obtain a dangerous drug by a fraudulent prescription. NRS 454.311.

15. It is a felony offense for an unlicensed person to sell, display or offer for sale a prescription drug. NRS 639.285.

16. A practitioner may purchase supplies of dangerous drugs from a pharmacy, and a pharmacy may sell a dangerous drug to a practitioner who will be administering the drug to a patient; the quantity must not exceed the amount necessary for the practitioner to serve the present needs of the patients of the practitioner. NRS 639.268(1)(a) and NAC 639.757(4) and (5).

17. A practitioner shall keep and maintain complete, accurate and readily retrievable records accounting for all patients and dangerous drugs; NRS 454.286; NRS 629.051.

18. Performing or in any way being a party to any fraudulent or deceitful practice or transaction constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(h) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4); NAC 639.900(4).

19. Performing any duties as the holder of a controlled substance registration in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(i) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4); NAC 639.900(4).

20. Aiding or abetting a person in unlicensed practice constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(j) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4); NAC 639.900(4).

21. Dispensing a drug to any patient with whom the practitioner does not have a bona fide therapeutic relationship constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(n) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4); NAC 639.900(4).

22. Violating, attempting to violate, assisting or abetting in the violation of or conspiring to violate any law or regulation relating to drugs, including, without limitation, any provision of chapter 453, 454,585 or 639 of NRS or any regulation pertaining thereto, is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(12); NAC 639.900(14).

23. The Board may suspend or revoke a registration issued pursuant to NRS 453.226 to prescribe or otherwise dispense a controlled substance upon a finding that the registrant has committed an act that would render registration inconsistent with the public interest. NRS 453.236(1)(e) and NRS 453.241(1).

COUNT ONE

Violations of State Law - Failure to Maintain Security of Dangerous Drugs

24. By permitting Molina to use Respondent's credentials as a Nevada-licensed practitioner to purchase dangerous drugs, to maintain an unsecured inventory of dangerous drugs, and to access those medications outside Respondent's presence and without Respondent's supervision, as alleged in paragraph 5 herein, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 454.213 and/or NAC 639.898(1), and is subject to discipline pursuant to NRS 453.236(1)(e), NRS 453.241(1), NAC 639.900(12) and/or (14) and/or NRS 639.210(12).

COUNT TWO

Violations of State Law - Unlawful Possession & Administration of Dangerous Drugs

25. By permitting Molina to independently access, possess, furnish and administer dangerous drugs to patients, and to provide on-site medical treatment at Carolina Skin Care, including the administration of dangerous drugs by injection, and including, without limitation, glutathione, lipotropics, semaglutides, neuromodulators and dermal fillers, as alleged in paragraph 6 herein, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 200.840(1), NRS 454.213, NRS 454.217, NRS 454.221, NRS 454.316, NRS 454.321, NRS 454.356, NRS 454.510, NRS 639.100(1) and/or NRS 639.285, and is subject to discipline pursuant to NRS 453.236(1)(e), NRS 453.241(1), NAC 639.900(14) and/or NRS 639.210(12).

COUNT THREE

Violations of State Law - Issuing Frandulent Prescriptions

26. By issuing prescriptions for dangerous drugs to Meta Pharmacy Services falsely identifying Molina and other individuals as the patient in order to obtain those drugs for office administration to multiple patients, as alleged in paragraph 7 herein, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 454.223, NRS 454.311(1), NRS 454.316(2), NRS 639.2353, NRS 639.268(1)(a) and/or NAC 639.757(4)

and (5), and is subject to discipline pursuant to NRS 453.236(1), NRS 453.241(1), NAC 639.900(14) and/or NRS 639.210(12).

COUNT FOUR

Violation of State Law - Administration of Patient-Specific Prescription Medications to Multiple Patients

24. By permitting the administration of patient-specific prescription medications to multiple patients, as alleged in paragraph 7 herein, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 454.221(1), NRS 585.520(1) and/or (2) and/or NAC 639.601(1), and is subject to discipline pursuant to NRS 453.236(1)(e), NRS 453.241(1), NAC 639.900(14) and/or NRS 639.210(12).

COUNT FIVE

Unprofessional Conduct - Unlawful Possession & Administration of Dangerous Drugs

25. By her conduct as alleged in paragraphs 5 and 6 herein, Respondent was party to a fraudulent or deceitful practice or transaction, performed her duties as the holder of a controlled substance registration in an incompetent, unskillful or negligent manner, aided and abetted Molina in unlicensed practice, and engaged in, or aided and abetted Molina to engage in, unprofessional conduct as defined in NAC 639.945(h), (i), (j) and (n)(1), and Respondent is subject to discipline pursuant to NRS 453.236(1)(e), NRS 453.241(1), NAC 639.900(4) and/or NRS 639.210(12).

COUNT SIX

Unprofessional Conduct - Issuing Fraudulent Prescriptions

26. By issuing prescriptions for dangerous drugs to Meta Pharmacy Services falsely identifying Molina and other individuals as the patient in order to obtain those drugs for office administration to multiple patients, and permitting the administration of patient-specific prescription medications to multiple patients, as alleged in paragraph 7 herein, Respondent was party to a fraudulent or deceitful practice or transaction, performed her duties as the holder of a controlled substance registration in an incompetent, unskillful or negligent manner, engaged in unprofessional conduct and conduct contrary to the public interest as defined in NAC

639.945(1)(h) and (i), and is subject to discipline pursuant to NRS 453.236(1)(e), NRS 453.241(1), NAC 639.900(4) and/or NRS 639.210(12).

COUNT SEVEN

Violations of State Law - Recordkeeping

27. By failing to keep and maintain complete, accurate and readily retrievable records accounting for all patients and dangerous drugs as alleged in paragraph 8 herein, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 454.286 and/or NAC 629.051, and is therefore subject to discipline pursuant to NRS 453.236(1)(e), NRS 453.241(1), NAC 639.900(14) and/or NRS 639.210(12).

COUNT EIGHT

Commission of Acts that Render Registration Inconsistent with the Public Interest

28. By her acts as alleged herein, Respondent has committed acts that render her registration inconsistent with the public interest and is subject to discipline pursuant to NRS 453.236(1) and NRS 453.241(1).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of this Respondent.

Signed this 7th day of January 2026.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **MARIKA LENEE KERR, APRN,** **Certificate of Registration No. CS26747,** **Respondent.**	**CASE NO. 25-146-CS-S** **STIPULATION AND ORDER**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy (Board), by and through General Counsel Brett Kandt, and Respondent Marika Lenee Kerr, APRN, Certificate of Registration No. CS26747, **HEREBY STIPULATE AND AGREE THAT**:.

1. On or about January 8, 2026, Respondent was served with the Notice of Intended Action and Accusation (Accusation) on file in this matter together with the Statement to Respondent and Notice of Hearing. Respondent is entering this Stipulation in lieu of filing an Answer and Notice of Defense to the Accusation.

2. Respondent is fully aware of the right to seek the advice of counsel in this matter prior to entering into this Stipulation.

3. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration, the right to appeal and any and all other rights which may be accorded to her pursuant to NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

4. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondent has failed to comply with

the provisions of this Stipulation, Respondent hereby freely and voluntarily waives her rights to a hearing, reconsideration, appeal and any and all other rights related to this action that may be accorded to her by NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

5. Respondent does not contest the allegations in the Accusation, but acknowledges that Board staff prosecuting this case could present such evidence at an administrative hearing to establish a factual basis for the violations alleged therein, *to wit*:

A. Respondent was engaged in practice at Carolina Skin Care; Carolina Molina owns and operates Carolina Skin Care and is not a Nevada-licensed practitioner.

B. By permitting Molina to use Respondent's credentials as a Nevada-licensed practitioner to purchase dangerous drugs, to maintain an unsecured inventory of dangerous drugs, and to access those medications outside Respondent's presence and without Respondent's supervision, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 454.213 and/or NAC 639.898(1).

C. By permitting Molina to independently access, possess, furnish and administer dangerous drugs to patients, and to provide on-site medical treatment at Carolina Skin Care, including the administration of dangerous drugs by injection, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 200.840(1), NRS 454.213, NRS 454.217, NRS 454.221, NRS 454.316, NRS 454.321, NRS 454.356, NRS 454.510, NRS 639.100(1) and/or NRS 639.285.

D. By issuing prescriptions for dangerous drugs to Meta Pharmacy Services falsely identifying Molina and other individuals as the patient in order to obtain those drugs for office administration to multiple patients, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 454.223, NRS 454.311(1), NRS 454.316(2), NRS 639.2353, NRS 639.268(1)(a) and/or NAC 639.757(4) and (5).

E. By permitting the administration of patient-specific prescription medications to multiple patients, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 454.221(1), NRS 585.520(1) and/or (2) and/or NAC 639.601(1).

F. By her conduct Respondent was party to a fraudulent or deceitful practice or transaction, performed her duties as the holder of a controlled substance registration in an incompetent, unskillful or negligent manner, aided and abetted Molina in unlicensed practice, and engaged in, or aided and abetted Molina to engage in, unprofessional conduct.

G. By issuing prescriptions for dangerous drugs to Meta Pharmacy Services falsely identifying Molina and other individuals as the patient in order to obtain those drugs for office administration to multiple patients, and permitting the administration of patient-specific prescription medications to multiple patients, Respondent was party to a fraudulent or deceitful practice or transaction, performed her duties as the holder of a controlled substance registration in an incompetent, unskillful or negligent manner, engaged in unprofessional conduct.

H. By failing to keep and maintain complete, accurate and readily retrievable records accounting for all patients and dangerous drugs, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 454.286 and/or NAC 629.051.

I. By her acts Respondent has committed acts that render her registration inconsistent with the public interest and is subject to discipline pursuant to NRS 453.236(1) and NRS 453.241(1).

6. Those violations are plead with particularity in the Accusation, and are grounds for action pursuant to NRS 453.236(1)(e), NRS 453.241(1), NRS 639.210, NRS 639.255 and/or NAC 639.900.

7. In order to resolve this matter without incurring any further costs or the expense associated with a hearing, the Board and Respondent stipulate to the following penalties. The

controlled substance registration of Respondent Marika Lenee Kerr, APRN, Certificate of Registration No. CS26747, is suspended for a period of two (2) years pursuant to NRS 453.241(1)(a). The suspension is stayed, and Respondent is placed on probation pursuant to NRS 639.255(1)(b) subject to the following conditions:

A. Respondent shall accept this Stipulation and Order as a public reprimand regarding her duties and responsibilities as a practitioner under NRS Chapters 453, 454 and 639;

B. Pursuant to NRS 639.255(1)(f) and NAC 639.955(5), Respondent shall pay a fine of Five Thousand Dollars ($5,000.00) for the violations, by personal, business, certified or cashier's check or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, due and payable by July 14, 2027;

C. Pursuant to NRS 622.400, Respondent shall pay One Thousand Dollars ($1,000.00) to partially reimburse the Board for reasonable attorney's fees and recoverable costs incurred in investigating and prosecuting this matter, by personal, business, certified or cashier's check or money order made payable to the "Nevada State Board of Pharmacy" to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, due and payable by July 14, 2027; and

D. While on probation, Respondent shall comply with all federal and state statutes and regulations regarding controlled substances, dangerous drugs, and the practice of pharmacy, shall have no additional administrative charges filed by the Board, and shall have no action taken that would be reportable pursuant to NAC 639.229.

Upon successful completion of probation, Respondent's Certificate of Registration No. CS26747 will be fully restored.

8. Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing Respondent to appear before the Board at the next regularly scheduled meeting for a

show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may lift the stay and immediately suspend Respondent's Certificate of Registration No. CS26747 and impose additional discipline upon Respondent not inconsistent with the provisions of NRS Chapters 453 and 639.

9. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on July 15, 2026. Respondent will appear in person or through counsel at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent or counsel are not present at the meeting.

10. The Board has discretion to accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 USC § 1396r–2 and 45 CFR Part 60, and shall be further reported pursuant to NAC 639.960.

11. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the merits of this matter may be heard by the Board. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

12. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any and all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order.

Respondent has fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and has knowingly and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **DAVID KAYLE McCLEVE, PA-C,** **Certificate of Registration No. CS22331,** **Respondent.**	**CASE NO. 26-125-CS-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300 and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and this Respondent because, at the time of the events alleged herein, Respondent David Kayle McCleve, PA-C, held a Nevada controlled substance registration, Certificate of Registration No. CS22331, issued by the Board.

FACTUAL ALLEGATIONS

2. On or about March 26, 2026, the Nevada State Board of Medical Examiners (NSBME) entered an order in Case No. 24-42281-1, revoking Respondent's License No. PA1526 to practice medicine for cause.

3. On or about March 30, 2026, Board staff served Respondent with notice that the revocation of his NSBME License No. PA1526 to practice medicine operated as an immediate suspension of his Certificate of Registration No. CS22331 with the Board pursuant to NRS 639.2107, and that Respondent must immediately cease and desist possessing, administering and/or prescribing controlled substances or dangerous drugs for Nevada patients.

APPLICABLE LAW

4. A physician assistant must hold a license to practice his or her profession in this State and be registered with both the DEA and the Board to possess, administer, prescribe and/or otherwise dispense any controlled substance or dangerous drug. 21 U.S.C. § 822(a)(2); 21 U.S.C. § 823(f); 21 CFR § 1306.03(a)(1); NRS 453.226(1); NRS 453.321(1)(a); NRS 639.100(1); NRS 639.1373(1); NRS 639.235(1).

5. Performing any duties as the holder of a controlled substance registration in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(i) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4); NAC 639.295(4).

6. The Board may suspend or revoke a registration upon a finding that the registrant has committed an act that would render registration inconsistent with the public interest as determined pursuant to NRS 453.231. NRS 453.236(1)(e) and NRS 453.241(1).

7. The surrender, revocation or a suspension that has not been stayed of any certificate, license or registration of a practitioner, as defined in NRS 453.126, NRS 454.00958 or NRS 639.0125, by a licensing board or the Drug Enforcement Administration operates as an immediate suspension of a certificate, license, registration or permit issued by the Board pursuant to NRS chapters 453, 454 or 639 to possess, administer, prescribe or dispense drugs. NRS 639.2107.

8. The pre-hearing suspension of any certificate, license or registration of a practitioner pursuant to NRS 233B.127(3), NRS 453.241(3) and/or NRS 639.2107 is subject to review by the Board. *Barry v. Barchi*, 443 U.S. 55, 99 S. Ct. 2642 (1979); *Spiegel v. Ryan*, 946 F.2d 1435, 1439 (9th Cir. 1991).

COUNT ONE

Unprofessional Conduct – Incompetent, Unskillful or Negligent Performance of Duties

9. By the revocation of his NSBME License No. PA1526 to practice medicine for cause as detailed in the NSBME's Order in Case No. 24-42281-1, Respondent has performed his duties as the holder of a Nevada controlled substance registration in an incompetent, unskillful or negligent manner and engaged in unprofessional conduct as defined in NAC 639.945(1)(i) and is subject to discipline pursuant to NRS 453.236(1) and NRS 639.210(4).

COUNT TWO

Revocation of NSBME License for Cause

10. By the revocation of his NSBME License No. PA1526 to practice medicine for cause as detailed in the NSBME's Order in Case No. 24-42281-1, Respondent no longer qualifies as a practitioner for registration to dispense controlled substances under federal or state law and his Certificate of Registration No. CS22331 is subject to revocation pursuant to NRS 453.236(1) and NRS 453.241(1).

COUNT THREE

Commission of Acts that Render Registration Inconsistent with the Public Interest

11. By the revocation of his NSBME License No. PA1526 to practice medicine for cause as detailed in the NSBME's Order in Case No. 24-42281-1, Respondent has committed acts that render his registration inconsistent with the public interest and is subject to discipline pursuant to NRS 453.236(1)(e) and NRS 453.241(1).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of this respondent.

DATED this 11th day of May 2026.

FINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER

The above-entitled matter came on regularly for decision before the Nevada State Board of Medical Examiners (Board), on March 6, 2026, at the Board's office located at 325 E. Warm Springs Road, Suite 225, Las Vegas, NV 89119, on the Complaint filed herein. David Kayle McCleve, PA-C, (Respondent), who was duly served with notice of the adjudication, was present and represented by his counsel, Lisa J. Zastrow, Esq., who appeared by telephone. The adjudicating members of the Board participating in these Findings of Fact, Conclusions of Law, and Order (FOFCOL) were Bret W. Frey, M.D., Chowdhury H. Ahsan, M.D., Ph.D., FACC, Ms. Pamela J. Beal, Jospeh Olivarez, P.A.-C, Apeksha Desai, M.D., MBA, and Ms. Kathleen A. Conaboy. Rosalie M. Bordelove, Esq., Chief Deputy Attorney General, served as legal counsel to the Board.

The Board, having received and read the Complaint and exhibits admitted in the matter and filed into the record in this case, the "Findings and Recommendations" prepared by the Hearing Officer, Patricia Halstead, Esq., who presided over the hearing, and the transcript of the hearing, proceeded to make a decision pursuant to the provisions of Nevada Revised Statutes (NRS) Chapter 630 and Nevada Administrative Code (NAC) Chapter 630 (collectively, the Nevada Medical Practice Act or NMPA), NRS Chapter 622, NRS Chapter 622A, and NRS Chapter 233B, as applicable.

The Board, after due consideration of the record, evidence and law, and being fully advised in the premises, makes its FINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER in this matter, as follows:

FINDINGS OF FACT

I.

Respondent held a license to practice as a physician assistant in the State of Nevada issued by the Board at all relevant times, and specifically on April 8, 2023, the date of the incident at issue in this case.

II.

On November 22, 2024, the Investigative Committee (IC) of the Board filed its formal Complaint in Case No. 24-42281-1 alleging Respondent violated the NMPA. Respondent was served with the Complaint on or about January 6, 2025, at an address in Las Vegas, Nevada, which was on file with the Board for Respondent, and on December 6, 2024, at an address in Holbrook, Arizona, which was on file with the Board for Respondent. The Complaint alleged four (4) violations of the NMPA, including: one (1) violation of NRS 630.301(4), Malpractice (Count I); one (1) violation of NRS 630.3062(1)(a), Failure to Maintain Appropriate Medical Records (Count II); one (1) violation of NRS 630.306(1)(b)(2), Violation of Standards of Practice Established by Regulation (Count III); and one (1) violation of NRS 630.306(1)(e), Practice Beyond the Scope of License (Count IV). Respondent filed an answer in response to the allegations set forth in the Complaint on January 29, 2025.

III.

An Order was filed on February 5, 2025, scheduling the Early Case Conference (ECC) for the pending matter for February 13, 2025. This Order was served upon Respondent's counsel by email and U.S. Mail. The Early Case Conference (ECC) was held at the scheduled time wherein all parties appeared telephonically. As a result of the ECC, a Scheduling Order was issued and filed February 14, 2025, setting dates for prehearing and hearing. The Prehearing Conference was scheduled for May 9, 2025, and a hearing date was set for July 11, 2025. Respondent's counsel was served a copy of the Scheduling Order by email and U.S. Mail. At the time fixed for the

Prehearing Conference, legal counsel for the IC, Deonne E. Contine, General Counsel, and Sarah A. Bradley, Deputy Executive Director, appeared, as well as the Hearing Officer, Patricia Halstead, Esq., and counsel for Respondent, Lisa J. Zastrow, Esq. At the Prehearing Conference, counsel for the IC and Respondent provided the Hearing Officer with the mandated Prehearing Conference Disclosures and had copies of both the Prehearing Conference Statement and the mandated Prehearing Disclosures available for the parties. Respondent was timely and properly served with the Prehearing Conference Statement and the mandated Prehearing Disclosures in accord with NRS and NAC Chapters 630, NRS Chapters 241, 622, 622A and 233B, and the requirements of due process. On July 31, 2025, an Order Rescheduling Evidentiary Hearing was issued and filed, re-setting the dates for hearing to September 17, 2025, September 18, 2025, and September 22, 2025, if necessary.

In an Order filed on September 15, 2025, the Hearing Officer issued an Order Denying Respondent's Motion in Limine seeking to exclude the testimony of the IC's witnesses. Respondents Motion was filed on May 27, 2025, and the IC filed its Opposition on June 5, 2025.

IV.

On September 17, 2025, September 18, 2025, and September 22, 2025, a contested case hearing was held before the Hearing Officer to receive evidence and to hear arguments. The Hearing Officer received the complete Record of Proceedings, including the transcript of the hearing testimony and the exhibits admitted. Upon receipt of the Record of Proceedings, the hearing was closed. The Hearing Officer filed the Findings and Recommendations on November 26, 2025. In her Findings and Recommendations, the Hearing Officer recommended that the Board find that Counts II and IV, as alleged in the Complaint, were proven by a preponderance of evidence. The Hearing Officer's Findings and Recommendations recommended that the Board not find that the IC had met its burden of proof with regard to Counts I and III, as alleged in the Complaint. Respondent was served with the Findings and Recommendations via U.S. Certified Mail, with a copy by email on November 26, 2025.

On December 10, 2025, the IC filed a Motion for Reconsideration, requesting that the Hearing Officer reconsider her Findings and Recommendations with respect to Counts I and III, as

contained in the Complaint, and to issue an amended Findings and Recommendations recommending that the Board find that Counts I and III were proven by a preponderance of evidence. The motion was fully briefed, with Respondent filing its opposition on January 16, 2026. After considering all points and authorities, raised by the IC, the Hearing Officer issued an Order Denying Motion for Reconsideration, which was filed on January 29, 2026.

The matter was scheduled for final adjudication on March 6, 2026, at a regularly scheduled Board meeting. The notice of the adjudication was mailed to Respondent on February 3, 2026, via U.S. Certified Mail, with a copy sent by email. Additionally, on February 24, 2026, via Fed Ex Overnight mail, Respondent was provided with a copy of the Investigative Committee's Memorandum of Costs and Disbursements and Attorneys' Fees and a packet of the adjudication materials to be presented at the March 6, 2026 Board meeting.

V.

Pursuant to NRS 622A.300(5)(a), the Board hereby approves the Hearing Officer's Findings and Recommendations with respect to Count II and Count IV, and those Findings and Recommendations are hereby approved by the Board in their entirety and are hereby specifically incorporated and made a part of this Order by reference. *See* **Exhibit 1**.

With regard to the Hearing Officer's Findings and Recommendations concerning Count I and Count III, the Board hereby modifies those Findings and Recommendations and substitutes its own as authorized by NRS 622A.300(5)(a). In reaching this determination, the Board relies on the evidence, including testimony presented at the hearing, and the experience, technical competence and specialized knowledge of the individual Board members when evaluating this evidence. *See* NRS 233B.123(5). The Board does not disagree with the Hearing Officer regarding the credibility of individual witnesses, however, the Board disagrees with the her application of the law to the facts as stated in her Findings and Recommendations with respect to Count I and Count III. The Board hereby determines that the IC proved Count I and Count III by a preponderance of evidence.

VI.

The Board cites the following in support of its determination that the IC proved by a preponderance of evidence Count I as alleged in the Complaint.

NAC 630.040, as amended by R171-20 and R069-23, defines malpractice as "the failure of a physician, physician assistant, anesthesiologist assistant, practitioner of respiratory care or perfusionist, in treating a patient, to use the reasonable care, skill, or knowledge ordinarily used under similar circumstances." NAC 630.040 is an attempt to add a "reasonable provider" standard to determining whether conduct by a named licensee constitutes malpractice. If the Board finds by a preponderance of the evidence that a licensee has committed malpractice that is grounds for disciplinary action against that licensee pursuant to NRS 630.301(4).

In this case, the Board finds that Respondent's injection of botulism type A (Botox) into Patient A in the emergency room during his emergency department shift at North Vista Hospital was not reasonable conduct. This conclusion is supported by testimony from all three health care provider witnesses at the hearing. The IC's witness, Ms. Elmquist, a physician assistant practicing in emergency medicine like the Respondent, indicated that performing an "unauthorized cosmetic procedure in the hospital emergency room," Findings at 3:22–23, was "unreasonable in consideration of the fact that the injections were done in a location where they were not sanctioned and Botox was administered to a patient that was not registered [at the hospital] and no records were made." Findings at 4:20–22. Respondent himself conceded in his testimony that "inviting a patient to a hospital to receive cosmetic injections is 'not normal' and was against hospital policy." Findings at 6:19–20. Respondent further indicated that "medically what he did was fine but ethically it was not." Findings at 9:1. Dr. Sheep, who was Respondent's supervising physician of record,[1] stated "that the location for services [that he previously authorized and supervised] was not North Vista Hospital and that he would never have authorized Respondent to perform a cosmetic procedure there." Findings at 10:24–11:1. Dr. Sheep further testified that

[1] Dr. Sheep was Respondent's supervising physician as shown in the Board's records, but the Board does not find that Dr. Sheep was supervising Respondent with regard to the services provided to Patient A on April 8, 2023, because the Agreement required a practice location wherein Dr. Sheep would be supervising Respondent's provision of medical services. The address provided on this form was not North Vista Hospital. *See* Exhibit 12, NSBME (Reb) at 36. Further, Dr. Sheep's written response to the Board regarding this incident, and Dr. Sheep's testimony at the hearing support that Dr. Sheep had not authorized Respondent to perform these services at this location.

"Respondent injecting Botox in a hospital emergency department to a patient that was not registered was not reasonable." Findings at 11:27–12:1. In short, all the health care providers that testified at the hearing, including Respondent, agree that Respondent's injection of Botox into Patient A as alleged in the complaint was not appropriate. Dr. Sheep and Ms. Elmquist both go further stating that Respondent's conduct was not reasonable. Based on the testimony from the three health care provider witnesses at the hearing and the Board's own experience, technical competence, and specialized knowledge, Respondent's conduct in performing a cosmetic procedure by injecting a private pay patient during a break in his hospital shift as an emergency department physician assistant while at the hospital, without registering the patient with the hospital, and without creating medical records of his treatment was not what a provider using reasonable care, skill and knowledge would ordinarily do under similar circumstances. These actions by Respondent constitute malpractice as defined in NAC 630.040. Therefore, the evidence presented at the hearing was sufficient to support the allegations contained in Count I, Malpractice, by a preponderance of the evidence, and, accordingly, the Board finds that Count I has been proven. Consequently, Respondent is subject to disciplinary action pursuant to NRS 630.301(4).

VII.

The Board cites the following in support of its determination that the IC proved by a preponderance of evidence Count III as alleged in the Complaint.

Count III in the IC's Complaint alleges that Respondent violated NAC 630.340(2) by providing medical services to Patient A without having a supervision agreement on file with the Board for such services. Such a violation is grounds for disciplinary action pursuant to NRS 630.306(1)(b)(2).

On April 8, 2023, when Respondent injected Patient A with Botox while on shift at the emergency department at North Vista Hospital, Respondent had an active supervision agreement with Dr. Sheep for cosmetic services on file with the Board. However, Dr. Sheep indicated both

(775) 688-2559

in a written response to the Board and in his testimony at the hearing, that he was not aware that this agreement was still active after October 1, 2021.[2] Dr. Sheep testified that he was no longer supervising Respondent's provision of cosmetic services after October 1, 2021, when he left MyShape Lipo, Findings at 10:9–11, the incident at issue occurred on April 8, 2023, and Respondent himself indicated, in his testimony, that he had not provided Botox services since 2017, which was prior to the date of the supervision agreement he had on file with Dr. Sheep. Findings at 6:24–25; Exhibit 12, NSBME (Reb) at 36. If Botox was not a service that Respondent had performed since 2017 and the supervision agreement on file between Dr. Sheep and Respondent was dated March 12, 2021[3], Respondent had no basis to reasonably believe that Botox was a service that Dr. Sheep would be supervising him to perform on April 8, 2023.

The hearing testimony supports that Dr. Sheep and Respondent were going to "commence a cosmetic treatment partnership," Findings at 4:6–7,[4] but that had not occurred as of April 8, 2023. The purported reason that Respondent injected Patient A with Botox in the emergency department of Vista Hospital on April 8, 2023, was to impress a medical spa owner that he was ***hoping to do business with***. Findings at 8:13–14 (emphasis added). Respondent testified that it was "his hope to start a business providing services to medical spas as supervises by Dr. Sheep, who had supervised Respondent when he did liposuction with MyShape Lipo." Findings 8:10–12. Logically, if Respondent did not yet have a cosmetic venture in place with Dr. Sheep for the provision of Botox services to medical spa clients, Dr. Sheep could not and was not supervising him during the provision of the service to Patient A on April 8, 2023.

Dr. Sheep testified that "he knew Respondent was working towards establishing a boutique medicine business venture but was unaware that Respondent was going to start or had started providing cosmetic procedures, and the first he learned of it was after the fact in relation to the Botox injections at issue" in this case. Findings at 12:3–6. Dr. Sheep further stated, "the Botox

---

[2] Dr. Sheep said that he only learned that the agreement was still active when the Board asked him in June 2023 about the April 8, 2023 incident involving Respondent. Shortly after that conversation, Dr. Sheep terminated the Agreement.

[3] *See* Exhibit 12, NSBME (Reb) at 36.

[4] *See also* Findings at 5:8–11. "Respondent admitted to there being no formal business agreement with Dr. Sheep or a medical spa owner when he was called to provide cosmetic services to a 'VIP' client of a medical spa." The conversations that Dr. Sheep and Respondent were having at this time "were not in a supervisory context" and were "about a venture into boutique medicine" that had not yet occurred. Findings at 11:25–26.

injections Respondent undertook were not under his supervision and he was not aware that the supervisory agreement was still on file or that Respondent was going to commence undertaking esthetic procedures." Findings at 12:6–9. Dr. Sheep testified that he "was not meeting with Respondent on a regular basis nor in a supervisory capacity, and, to that end, it would not have been reasonable for Respondent to believe that he was still subject to Dr. Sheep's supervision." Findings at 12:9–12. Dr. Sheep further testified that "he was willing to supervise Respondent for esthetic procedures but no formal workings for the business venture contemplated had been finalized." Findings at 12:15–17. In other words, Dr. Sheep contemplated possibly supervising Respondent's provision of cosmetic services at some point in the future, but he was unaware that Respondent was engaging in cosmetic services on April 8, 2023, and he had not authorized Respondent to provide cosmetic services to Patient A on that day.

At the hearing, Respondent indicated that "Dr. Sheep had not authorized him to inject Botox at any specific location," Findings at 7:13, and "Dr. Sheep was not supervising him that day in his capacity working in emergency medicine but was supervising him with respect to carrying out the Botox procedure," Findings at 7:15–17. However, Respondent acknowledged that "Dr. Sheep does not have privileges at North Valley Hospital where Respondent undertook the Botox injections." Findings at 7:18–19.

Based on the testimony of both Dr. Sheep and Respondent, as well as the exhibits admitted into evidence at the hearing, including Respondent's own statement in Exhibit 2,[5] Dr. Sheep's statement in Exhibit 4,[6] and the supervision agreement between Dr. Sheep and Respondent in Exhibit 12,[7] the Board finds that Respondent did not have a supervising physician in place for the services that he provided to Patient A at North Vista Hospital on April 8, 2023. The record is clear that Respondent had a supervising physician in place for his provision of emergency medicine services at North Vista Hospital, as of April 8, 2023, and an old supervision agreement with Dr. Sheep on file as of April 8, 2023. However, Dr. Sheep was not performing the duties required in NAC 630.370 when supervising a physician assistant with regard to Respondent on

[5] Exhibit 2, NSBME at 3–6.

April 8, 2023,[8] Dr. Sheep was not aware that the old supervision agreement was active based on his written statement and testimony, and Dr. Sheep terminated the old supervision agreement on June 14, 2023 after learning that it was still active.[9] Therefore, the two supervision agreements for Respondent that were on file with the Board, as of April 8, 2023, did not cover the services that Respondent provided to Patient A on that day. Respondent even admitted that initially in his response as contained in Exhibit 2.[10] Accordingly, the Board finds by a preponderance of the evidence that Respondent's provision of Botox to Patient A on April 8, 2023, was performed in absence of a supervision agreement for those services in violation of NAC 630.340(2) and that Count III has been proven. Consequently, Respondent is subject to disciplinary action for this violation pursuant to NRS 630.306(1)(b)(2).

VIII.

If any of the foregoing Findings of Fact are more properly deemed a Conclusion of Law, it may be so construed.

CONCLUSIONS OF LAW

I.

The Board has jurisdiction over Respondent and the Complaint, and an adjudication of this matter by the Board members as set forth herein is proper.

II.

Respondent was timely and properly served with the Complaint, and all notices and orders in advance of the hearing and adjudication thereon, in accord with NRS and NAC Chapters 630, NRS Chapters 241, 622A and 233B, and the requirements of due process.

III.

With respect to the allegations of the Complaint, the Board concludes that Respondent has violated NRS 630.301(4), Malpractice (Count I); one (1) violation of NRS 630.3062(1)(a), Failure to Maintain Appropriate Medical Records (Count II); one (1) violation of NRS 630.306(1)(b)(2),

---

[8] Dr. Sheep's written statement and testimony at the hearing both indicate that Dr. Sheep had ceased performing supervision duties after October 1, 2021. Findings at 10:9–11; Exhibit 4, NSBME at 9.

Violation of Standards of Practice Established by Regulation (Count III); and one (1) violation of NRS 630.306(1)(e), Practice Beyond the Scope of License (Count IV). Accordingly, Respondent is subject to discipline pursuant to NRS 630.352.

IV.

The Board finds that, pursuant to NRS 622.400, it may recover from Respondent reasonable and necessary attorneys' fees and costs incurred by the Board as part of its investigative, administrative and disciplinary proceedings against Respondent as it hereby enters this Findings of Fact, Conclusions of Law, and Order finding that Respondent has violated the NMPA, which the Board has the authority to enforce.

V.

The Board has reviewed the Investigative Committee's Memorandum of Costs and Disbursements and Attorneys' Fees, and the Board finds these costs and fees to be necessary and actually incurred by the Board as part of its investigative, administrative and disciplinary proceedings against Respondent. The Board further finds them to be reasonable based on: (1) the abilities, training, education, experience, professional standing and skill demonstrated by Board staff and attorneys; (2) the character of the work done, its difficulty, its intricacy, its importance, the time and skill required, the responsibility imposed and the prominence and character of the parties where, as in this case, they affected the importance of the litigation; (3) the work actually performed by the Board's attorneys and staff, and the skill, time and attention given to that work; and (4) the product of the work and benefits to the Board and the people of Nevada that were derived therefrom.

VI.

If any of the foregoing Conclusions of Law is more properly deemed a Finding of Fact, it may be so construed.

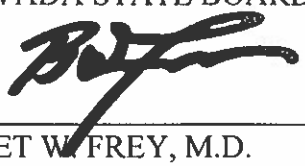
ORDER

Based upon the foregoing Findings of Fact and Conclusions of Law, and good cause appearing therefore,

IT IS HEREBY ORDERED that pursuant to NRS 630.352, NRS 622A.410, and NRS 622.400:

1. Respondent's license to practice as a physician assistant shall be revoked and, pursuant to NRS 622A.410, he may not re-apply for licensure until two (2) years after the date of the Board's Order;

2. Pursuant to NRS 622.400, Respondent shall reimburse the Board the reasonable and necessary costs and expenses actually incurred in the investigation and prosecution of this case in the amount of thirty-two thousand one hundred thirty-one dollars and ten cents ($32,131.10) if/when Respondent re-applies for licensure, and these costs and expenses must be paid in full upon submission of Respondent's re-application for licensure;



3. Respondent shall be issued a Public Letter of Reprimand; and

4. Respondent's discipline shall be reported to the appropriate entities, including but not limited to, the National Practitioner Databank (NPDB).

IT IS SO ORDERED.

FINDINGS AND RECOMMENDATIONS

The above-referenced matter came for hearing on September 17, 2025, and was conducted remotely via the Zoom application by consent of the parties. The Investigative Committee of the State of Nevada Board of Medical Examiners was present and represented by Sarah Bradley, Esq. (the "IC"). Also present was David Kayle McCleve, PA-C, referred to throughout the hearing by his legal counsel as "Kayle" ("Respondent"), as was his legal counsel Lisa Zastrow, Esq.

The charges at issue are set forth in a Complaint filed on November 22, 2024, and consist of Count I, Malpractice, a violation of NRS 630.301(4), premised upon the allegation that Respondent failed to use the reasonable care, skill, or knowledge ordinarily used under similar circumstances when on April 8, 2023, he injected a patient with botulism type A (referred to herein as "Botox") sometime during his emergency department shift at North Vista Hospital, did not conduct a medical examination or history, and failed to create any related medical

documentation; Count II, Failure to Maintain Complete Medical Records, a violation of NRS 630.3062(1)(a), premised upon the allegation that Respondent failed to maintain complete medical records relating to the diagnosis, treatment, and care of a patient in a timely, legible, accurate and complete manner; Count III, Violation of Standard of Practice Established by Regulation, a violation of NRS 630.306(1)(b)(2), premised upon the allegation that Respondent undertook to administer Botox without having a supervisory agreement on file with the Board; and Count IV, Practice Beyond Scope of License, a violation of NRS 630.306(1)(e), premised upon the allegation that Respondent acted outside the scope of his license by injecting Botox without the authorization of his supervising physician. T2 22.

The hearing commenced with Respondent requesting reconsideration of the September 12, 2025, Order Denying Motion in Limine to Exclude Testimony of Johnna LaRue, Ernesto Diaz, Kory Linn, and Stephanie Elmquist, PA-C. Transcript of Hearing Proceedings, September 17, 2025, pp. 7-16 ("TR"). Respondent then sought to preclude IC witness testimony by alleging that the IC failed to summarize witness testimony as established by NAC 630.465 and/or NRS 622A.330. That motion was also denied. TR 16-29.

Opening statements were then given and the parties moved to testimony commencing with the IC's case. The IC called Ernesto Diaz, the Chief of Investigations of the Nevada State Board of Medical Examiners who addressed his professional experience and his experience with this matter. T 43-48. By and through Mr. Diaz, Exhibits 1-4, 8-9 were admitted. T. 48-62.

On cross-examination, Respondent inquired about a peer review report, which is part of the investigative file not relied upon by the IC for the hearing and was addressed in that context and in light of its confidentiality. T. 63-68. Respondent then inquired about the allegation letter, Exhibit 1, the testimony regarding which addressed that the allegation letter did not inquire about Respondent practicing outside the scope of his supervision, nor did the IC take further action to inquire about the specific medical spa Respondent claimed to be working for. T 69-76, 80-81, 91. Exhibit 5 was then admitted. T 79. Timing of the formal complaint was then inquired about, as were allegations in the formal complaint, particularly concerning the allegations of the patient being found unresponsive outside of the hospital shortly after Respondent had administered the

Botox injections, with clarification by counsel that the Patient's subsequent condition was not a result of the actions taken by Respondent. T 82-108. On redirect, the IC addressed the allegation letter and its scope. T 114-119.

The IC next intended to call Johnna LaRue, which prompted the admission of Exhibits 6 - 7 by stipulation. T 122-125. Ms. LaRue was then called by the IC and she testified as to her position with the IC as its Deputy Chief of Investigations, followed by testimony of her professional experience. T 125-127. Ms. LaRue further addressed the allegation letter and its response (Exhibits 1 and 2), followed by testimony regarding Dr. Harris' supervision of Respondent, which was limited to emergency department services that did not encompass Respondent's administration of Botox at the hospital (*see* Exhibit 6). T 128-132.

On cross-examination, Respondent inquired about his supervision agreements (*see* Exhibit 7) and Ms. LaRue' knowledge of another pending matter, discussion of which was limited. T 133-140. On redirect, Ms. LaRue acknowledged that physician assistants can have more than one supervising physician, and that such supervision is subject to an address of the location where the physician's assistant is being supervised. T 142-143. On re-cross, Ms. LaRue was asked about Dr. Sheep failing to contacted the Board about "leaving My Shape Lipo," the location of which is the address provided on Respondent's supervising agreement with Dr. Sheep. T 143-144.

The IC's next witness was Stephanie Elmquist, a licensed physician's assistant who practices in emergency medicine and who testified as to her professional background as reflected in Exhibit 9, which had been admitted. T 148-153. Ms. Elmquist testified that Respondent did not meet the standard of care because he failed to appropriately document the medical treatment of the patient, inclusive of failing to document the patient's history; undertook an unauthorized cosmetic procedure in the hospital emergency room; and performed outside the scope of his emergency room supervisory agreement. T 156-175. As to supervision, Ms. Elmquist testified that, while Respondent had an emergency room supervising physician, the physician that was to be overseeing Respondent for cosmetic procedures had not realized he was still to be supervising Respondent and that performing the cosmetic procedure at the hospital emergency room went beyond the scope of his emergency room duties. T 176-177.

On cross examination, it was established that a physician's assistant is able to perform the work permitted by their supervising physician. T 178-177. Respondent then utilized questioning to contrast emergency room procedures with the comparatively simple task of injecting Botox. T 180-181, 201-202. Questioning was then posed regarding Respondent's supervision agreement with Dr. Sheep, covering the time within which Respondent undertook the Botox injections, which was on April 8, 2021, and related circumstances – that being Respondent's understanding that he and Dr. Sheep would commence a cosmetic treatment partnership. T182-184, 195-196. With respect to the Botox treatment in particular, Ms. Elmquist testified that it was impossible to know whether its administration fell below the applicable standard of care because no records were made in relation thereto, although Respondent attempted to paint his report to the emergency room physician given after the patient was found in the hospital parking lot unresponsive as a medical report. T 185-194, 197-201, 205-209, 242-244. Ms. Elmquist further testified she was not aware that Respondent was supervised by a Doctor of Osteopathy, had not reviewed any records in relation thereto, and that she was not testifying that the patient suffered any adverse reaction from the Botox. T 212-218.[1]

On redirect, Ms. Elmquist reiterated that without records to review, proper treatment of the patient cannot be determined, so one could not say how the patient was treated, which falls below the standard of care. T 239-240. In that same vein, Ms. Elmquist further testified that she could not emphatically state that the situation constitutes malpractice because she cannot definitively determine what happened but that such actions were unreasonable in consideration of the fact that the injections were done in a location where they were not sanctioned and Botox was administered to a patient that was not registered and no records were made, which could be deemed malpractice, and which was reframed on re-cross to be a conclusion of malpractice based

[1] Paragraph 7 of the formal Complaint, filed on November 22, 2024, provides, "Records show that on April 8, 2023, less than one (1) hour after the procedure, Patient A was found unresponsive in the North Vista Hospital parking lot. Patient A was wheeled into the emergency room in an altered mental state, intubated for airway protection, and transferred by ambulance to Sunrise Hospital for a higher level of care." Despite the implication of the paragraph, Patient A's condition was not attributed to Respondent or the Botox he administered (*see* Exhibit 8). T 103-108, 219. Questions were also posed regarding Respondent being supervised by a Doctor of Osteopathy but no evidence regarding any such supervision was presented and questions of counsel are not evidence. T 233-37

upon a lack of record keeping. T 248-256. It was further confirmed on re-cross that Ms. Elmquist does not have training in cosmetic procedures. T 256-260.

Testimony recommenced the following day, at which time the IC called Respondent to testify. Trial Transcript, September 18, 2025 ("T2"). Respondent testified that he has been licensed as a physician's assistant in Nevada since 2014, and was licensed in Arizona prior. T2 9. Respondent testified that his licensing with the Board of Osteopathic Medicine expired on December 31, 2022. T2 10. Respondent testified to the accuracy of his representations in his response to the Board's allegation letter as provided at Exhibit 2. T2 10. Respondent admitted to there being no formal business agreement with Dr. Sheep or a medical spa owner when he was called to provide cosmetic services to a "VIP" client of a medical spa that was not identified in his response letter. T2 9-10. In addressing his ability to do so, Respondent testified that Dr. Sheep had already signed a supervising agreement that was on file with the Board. T2 11. Respondent also suggested he has medical notes about the procedure in the medical spa's EMR system and had notes and photographs in his phone, which included pictures of the vial, the lot number, his "mental notes of what actually transpired," and how he administered the Botox. T2 11, 13. Notably, no such records were ever formally produced, and Respondent says he never offered them even though they were requested in the allegation letter, which Respondent submitted without formal counsel (although two attorneys, including Respondent's current legal counsel, were carbon copied on the email). T2 11-13, 15-16, 72-73, 75.

At the time at issue, Respondent had supervising agreements on file with Dr. Sheep and Dr. Harris, who supervised Respondent in the emergency room of North Vista Hospital. T2 16-17, 21, 23, 155, 164. Respondent was aware of an address for services on his supervisory agreements but attempted to justify working outside the identified address by testifying that he was working on a new business venture with Dr. Sheep and a new address had not yet been established. T2 18, 184.

Respondent sought to clarify that Dr. Sheep was not his supervisor at North Vista Hospital where he administered the Botox to the patient, but that Dr. Sheep had authorized Respondent to act under Dr. Sheep's license and supervision at any medical spa at any location based upon them

developing a "non-traditional business model" where they go into medical spas to provide cosmetic care. T2 19-20, 22, 29. To that end, it was Respondent's testimony that he undertook the Botox procedure at issue at North Vista Hospital in accordance with the supervisory agreement with Dr. Sheep. T2 25-26.

As to monthly meeting requirements for physician supervision as provided for by NAC 630.370, Respondent testified that he satisfied the requirement of meeting with Dr. Sheep once a month by and through their ongoing communication but did not satisfy the select chart review requirement because the patient at issue was their first, although the requirement had been satisfied prior with respect to other work at My Shape Lipo. T2 32-34, 84-87.

Respondent testified that Dr. Sheep, who is board certified in emergency medicine and has a certification with respect to tumescent liposuction, was aware that Respondent was providing the services at issue based upon their longstanding agreement that Respondent could provide cosmetic services under Dr. Sheep's supervision. T2 35-36.

With respect to Respondent's background, in addition to his training that he testified to at T2 38-39, Respondent testified that he had worked in emergency medicine, dermatology, liposuction, and currently works in orthopedic spine surgery and pain management. T2 39. Respondent also testified that he has several current certifications (T 39-40), and that he has trained with a cosmetic surgeon and other doctors that provide cosmetic services. T2 41-42.

Respondent concedes that inviting a patient to a hospital to receive cosmetic injections is "not normal" and was against hospital policy but states that the care provided was reasonable under the circumstances, testifying that there was no meaningful distinction between the hospital and a medical spa in terms of location. T2 54-58, 64. Respondent confirmed that he is trained to administer Botox and testified that when he was working in dermatology he administered Botox daily and has done so throughout his career intermittently but had not done Botox procedures since 2017. T2 58, 60-61.

Respondent maintains that the notes he put in his phone, which were never formally produced and admitted, are applicable records but testified that he is unsure if they meet the appropriate record keeping standard even though he deems them complete. T2 66-68.

Respondent articulated the requirements for complete records, which expanded well beyond the information he stated he entered on his phone and indicated that the "appropriate disclosures" had been handed by the medical spa owner who referred the patient. T2 69-71, 207-209. Respondent also emphasized that he gave pertinent related information to Dr. Clark when the patient was admitted after having been found unresponsive in the parking lot. T2 72-73.

The IC questioned Respondent regarding Exhibit 10, which was admitted and was an email between Respondent and the IC, dated March 17, 2023, that addressed the sharing of vials of Botox, which Respondent says he sent the Board prior to the incident at issue in an effort to seek clarification. T2 78-83. The IC also asked Respondent if he had submitted any documentation evidencing his qualifications to administer Botox, to which Respondent stated the IC has his CV from another case. T2 83-85. Respondent further testified that he had discussed the patient at issue with Dr. Sheep "within a couple of days," and clarified that Dr. Sheep had not authorized him to inject Botox at any specific location as opposed to authorizing him to inject Botox in medical offices, presumably medical spas that Respondent was in talks with. T2 88-89. As to supervision for injecting Botox on the occasion at issue, Respondent testified that Dr. Sheep was not supervising him that day in his capacity working in emergency medicine but was supervising him with respect to carrying out the Botox procedure. T2 89-90. In response to follow up by the IC, Respondent acknowledged that Dr. Sheep does not have privileges at North Valley Hospital where Respondent undertook the Botox injections but maintained that, nonetheless, he was being supervised by Dr. Sheep and reference was made by the IC to Exhibit 7, which demonstrates dates of association with supervising doctors. T2 88-93.

On cross-examination, Respondent inferred that Exhibit 10, the March 17, 2023 email with the Board regarding the sharing of a Botox vial, should have demonstrated to the Board that Respondent was performing or was going to be performing cosmetic procedures and that the Board should have let him know if that was problematic. T2 96-97. Respondent then explained that he is frustrated with the IC because he admitted to and had been punished for violating hospital policy for injecting the patient with Botox during his emergency room shift at the hospital. Respondent also testified that he acknowledged poor record keeping (admitting to it at

T2 131-132) and, therefore, does not believe the other counts alleged are warranted given the care he delivered "was on point." T2 97-109.

With respect to his experience "administer[ing] paralytics," Respondent testified he had undertaken injections prior to this incident "hundreds, maybe thousands of times" and that he is "well-versed with Botox." T2 109-110, 126-127. Respondent then turned his attention to Exhibit 4, which is a letter by Dr. Sheep by which Dr. Sheep wrote that he had not supervised Respondent since October 1, 2021. According to Respondent, Dr. Sheep's statements made therein are inaccurate, although specific statements were not addressed. T2 110-112.

Respondent then addressed Exhibit 2, which was his response to the IC's allegation letter, testifying that it was his intent to be fully transparent, and it was his hope to start a business providing services to medical spas as supervised by Dr. Sheep, who had supervised Respondent when he did liposuction with My Shape Lipo. T2 112-113. According to Respondent, what prompted him to inject Patient A with Botox was a call from a medical spa owner whom he was hoping to forge a relationship with and who had asked Respondent to assist with the Botox injections on an urgent basis. Unable to access the medical spa, Respondent went to his shift in the emergency department at North Vista Hospital, after which the patient called him and asked if Respondent could inject the Botox in the parking lot, upon which Respondent directed the patient to come to the hospital where Respondent took him into the emergency room and administered the Botox. Although the patient offered to pay Respondent $2,000, Respondent states he did not accept. T2 123.

Approximately forty-five minutes later, the patient had "a reaction" and went back into the hospital where the patient was treated by Dr. Clark, whom Respondent then reported to about the Botox injections. T2 116-118. Respondent indicates that he went through "an entire medical encounter" and asked the patient "all of the screening questions necessary" prior to administering the Botox. T2 118. According to Respondent, he injected the patient with 50 units and kept a picture of the vial. T2 119-120.

For having performed the Botox procedure on the patient at the hospital, Respondent lost his job, the basis for which was violating hospital policy. T2 123. Respondent maintained that

medically what he did was fine but ethically it was not. T2 125. To reiterate, the Board should understand that the patient is not believed to have suffered an adverse reaction because of the Botox. T2 126, 129-130, 160-61 (*see* ftn 1).

Respondent again testified that he injected the patient with Botox pursuant to his supervision agreement with Dr. Sheep. T2 141-142. As far as Dr. Sheep's qualifications to supervise him for the Botox administration, Respondent testified that Dr. Sheep had indicated that he was proficient in the procedures that were intended to be performed under the umbrella of "boutique medicine." T2 145-146. Respondent also testified that Dr. Harris knew he worked outside the emergency department under the supervision of another physician as acknowledged in Exhibit 5. T2 156-157. Further, according to Respondent, he did not need Dr. Sheep's permission to administer the Botox to the patient. T2 166-167, 183.

On redirect, Respondent testified that the patient's recreational drug use, which the patient had admitted to prior to the Botox administration, had no bearing on whether it was appropriate to administer Botox to the patient. T2 188-191, 203, 211.

The IC's next witness was Kory Linn, the Chief of Licensing for the Board who testified as to the supervisory agreement form. T2 213-218. Ms. Linn then addressed Dr. Sheep's supervisory agreement, Exhibit 7, testifying that it has an association date of March 16, 2021, and a disassociation date of June 27, 2023. The blank supervisory form with cited statutory authority that had been used for reference was then admitted as Exhibit 11. T2 218-221.

On cross-examination, Ms. Linn testified that the supervisory form is what is required for a physician's assistant to be linked to a physician in the Board's system (T2 226); that the form does not indicate the scope of services being supervised (T2 228); that Respondent was licensed (T2 229); that the scope under which a physician's assistant works is determined by the physician (T2 230-232); and that Respondent had a supervision agreement at the time at issue with both Dr. Harris and Dr. Sheep (T2 232). On redirect, testimony was elicited regarding the location of services as indicated on the supervisory form. T2 233-234.

The last witness called was Dr. Andrew Sheep who was called by the IC in rebuttal to Respondent's testimony. T2 235-244. Dr. Sheep testified that he is employed by Team Health,

has been licensed in Nevada since 2019, and that he practices in emergency medicine. T 244-245. Dr. Sheep identified Respondent as a friend and someone who he had worked with and spoke with about doing esthetic procedures together. T2 245. Dr. Sheep also testified that he had never supervised Respondent with respect to emergency medicine. T2 245.

As for the supervisory form, Dr. Sheep testified that for other physician assistants he supervises, he would usually list Sunrise Hospital and Medical Center for the location of services but could not recall the location he had listed for Respondent, although he did recall that the location as not North Vista Hospital. T2 248-249.

The IC next inquired of Dr. Sheep regarding Exhibit 4, which Dr. Sheep testified was accurate, and that any services performed by Respondent after October 1, 2021, would not have been authorized under Dr. Sheep's supervision. T2 250, 256. Per Dr. Sheep he spoke with Respondent after October 1, 2021, but not in a "professional manner," so he was not meeting with him to review charts and had not spoken with him about the incident at issue until after it took place. T2 249-250, 252. Although the supervisory agreement between Dr. Sheep and Respondent was still on file and had not been terminated as of the date at issue, Dr. Sheep testified that it was his understanding that after October 1, 2021, Dr. Roberts would be supervising Respondent and that he had not met with Respondent thereafter in a supervisory capacity.[2] T2 252-253. The supervisory location for Respondent per Dr. Sheep was at My Shape Lipo and possibly some other medical spas but that would have been prior to October 1, 2021, and only the My Shape Lipo address is listed – *see* Exhibit 12. T2 253-255. Dr. Sheep's supervision was limited to what was provided for "on the credential list" but no "credential list" was made part of the record. T2 255.

Exhibit 12, which was Dr. Sheep's supervisory agreement for Respondent was marked and admitted, with respect to which Dr. Sheep testified that the location for services was not North Vista Hospital and that he would have never authorized Respondent to perform a cosmetic

[2] In Exhibit 4, Dr. Sheep writes that he was unaware as of October 1, 2021, that a physician's assistant could have more than one supervising physician and, therefore, assumed that when Dr. Roberts began to supervise Respondent, Dr. Sheep's supervisory agreement would no longer be effective.

procedure there. T2 258-263. Dr. Sheep also testified that the address on the supervisory agreement was neither of the medical spas where he had supervised Respondent prior (although that does not appear to be accurate because the address on the supervisory agreement is for My Shape Lipo, a medical spa that Dr. Sheep had testified just prior was a location where he supervised Respondent), and that he formally terminated the supervisory agreement on June 14, 2023, when he learned that he was still listed as a supervising physician. T2 264. Dr. Sheep further testified that he did not recall if he had a conversation with Respondent about terminating the supervisory agreement as opposed to merely discussing the fact that he was leaving My Shape Lipo. T2 265-267, 280.

On cross-examination, Dr. Sheep acknowledged that he was required to give notice to the Board of when he was no longer supervising Respondent. T2 274-275. Dr. Sheep acknowledged discussing doing esthetic procedures with Respondent and had previously worked with Respondent at multiple locations. T2 275-279, 280-281. Dr. Sheep reiterated that he did not know he still had a supervisory agreement for Respondent on file and repeatedly stated he did not recall reminding Respondent that the supervisory agreement was still on file when they were discussing working together to do esthetic procedures, with respect to which they had also met with some medical spa owners. Despite denying having spoken about the supervisory agreement with Respondent, Dr. Sheep nonetheless testified that he would have no reason to disagree with Respondent if Respondent had believed the supervisory agreement to have still been on file at the time at issue. T2 279-284.

Dr. Sheep acknowledged that a physician's assistant could act as authorized by a physician and was not subject to constant supervision. T2 285-286. According to Dr. Sheep, Respondent is an excellent physician's assistant, as a result of which Dr. Sheep assisted Respondent to obtain work and he believed Respondent to be trained in neurotoxins. T2 287-288.

On redirect, Dr. Sheep testified that he had been talking with Respondent about a venture into boutique medicine but such conversations were not in a supervisory context, and that Respondent injecting Botox in a hospital emergency department to a patient that was not

registered was not reasonable. T2 289-292. On re-cross, Dr. Sheep acknowledged he was not asked to consider the standard of care in terms of the actual treatment. T2 293-297.

In responding to questioning by the undersigned, Dr. Sheep testified that he knew Respondent was working towards establishing a boutique medicine business venture but was unaware that Respondent was going to start or had started providing cosmetic procedures, and the first he learned of it was after the fact in relation to the Botox injections at issue. T2 295-299. Per Dr. Sheep, the Botox injections Respondent undertook were not under his supervision and he was not aware that the supervisory agreement was still on file or that Respondent was going to commence undertaking esthetic procedures. T2 299. Lending to Dr. Sheep's understanding was the fact that Dr. Sheep was not meeting with Respondent on a regular basis nor in a supervisory capacity and, to that end, it would not have been reasonable for Respondent to believe he was still subject to Dr. Sheep's supervision. T2 302, 311-313. However, upon further questioning by Respondent, Dr. Sheep stated that it was possible that Respondent believed Dr. Sheep was still his supervising physician even though Dr. Sheep himself did not believe so. T2 304-306, 310. Upon final questioning from the IC, Dr. Sheep testified that he was willing to supervise Respondent for esthetic procedures but no formal workings for the business venture contemplated had been finalized. T2 311.

With the consent of the IC, Respondent once more testified, stating that in the spring of 2023, he and Dr. Sheep agreed to move forward with a "boutique thing" with Dr. Sheep supervising him to be able to administer Botox. T2 317. According to Respondent, it was Dr. Sheep who stated that it would work out to move forward given that the supervisory agreement with Dr. Sheep was still in effect, and the lack of chart review was attributable to the fact that the patient at issue was the first patient Respondent undertook to inject with Botox under the contemplated business agreement and that Respondent did so in an attempt to establish good will with the medical spa owner who referred the patient. T2 317-320. According to Respondent, Dr. Sheep was aware that he was Respondent's supervising physician for the Botox injections based upon their business plan and prior discussions, and that Dr. Sheep's cooperation with the IC is premised upon Dr. Sheep himself being subject to a Board investigation. T2 320-321.

Closing statements were given remotely on Monday, September 22, 2025, and were likewise transcribed. In summary, the IC argued that the business venture discussed between Dr. Sheep and Respondent had not been formalized and, therefore, putting aside the problems with injecting the patient with Botox at North Vista Hospital while on an emergency room shift, it was unreasonable to perceive the supervisory agreement as being applicable, particularly when Dr. Sheep was not aware that Respondent had commenced to provide esthetic services. The IC argued that no medical records as required to be maintained had been created, and that Respondent's judgement was so bad as to constitute medical malpractice in having undertaken the Botox injections at the hospital, the location of which was not listed in the supervisory agreement, and having failed to create required documentation in relation thereto. As for Count IV, practicing beyond the scope of a license, the IC argued that the premise of the count was that the Botox injections were not authorized by Dr. Sheep, having acknowledged that Respondent had performed such procedures in the past and "so maybe there's not concerns like his competence or how he might perform them." T3 24.

Respondent, in closing, took issue with the IC's motivation and the manner in which the case was pleaded, and argued that Respondent had conceded the records violation although some records had been made and pertinent information had been provided by Respondent when the patient was formally admitted to the emergency room for reasons unrelated to the Botox injections. Respondent takes issue with the malpractice count, arguing that it applies to a physician and not a physician's assistant but that, regardless, the actual administration of the Botox was not below the standard of care. Respondent addressed the supervisory agreement and how it was in place with Dr. Sheep for supervision of cosmetic procedures, having originally been for liposuction and was believed to be still in effect by Respondent, and Respondent emphasized his ability to perform Botox injections. Respondent further argued that the IC is commingling allegations to bolster counts that are not supported by the legal standards that apply to them and takes issue with disciplinary options that the IC deems to be applicable.

The crux of this matter is that Respondent, on his own accord and without the knowledge of his purported supervising physician, administered Botox to a patient at a location that he should

not have and, in relation thereto, failed to create relevant medical records. The dispute as to the charges by the IC in relation thereto rests with how such action falls within the counts pleaded by the IC.

Count II, Failure to Maintain Complete Medical Records, a violation of NRS 630.3062(1)(a) is undisputed and supported by the lack of medical records created. *See, e.g.* T3 p. 40 (Respondent's counsel: "Mr. McCleve admitted to the records violations . . ."). Given the admission of the violation of Count II, Respondent should be held accountable for the same and undersigned will address the remaining counts, commencing with Count I, Malpractice, a violation of NRS 630.301(4).

As an initial matter, NRS 630.301(4) provides that malpractice of a physician's assistant is grounds for initiating disciplinary action. It is the definition of malpractice at NAC 630.040 with which Respondent takes issue given that the definition as of April 8, 2023, when the action at issue was taken by Respondent, refers to a physician in particular. That said, NAC 630.040 was amended as reflected by LCB File No. R171-20, filed on June 2, 2023, to specifically include a physician's assistant in the definition of "malpractice." To the extent that definition was amended after the incident at issue to include all regulated health care providers including, but not limited to a physician's assistant, the applicable definition of malpractice itself was nonetheless unchanged and remained the failure in treating a patient to use reasonable care, skill, or knowledge ordinarily used under similar circumstances. *See also* NRS 41A.015, which defines "professional negligence" as the failure of a health care provider, in rendering services, to use the reasonable care, skill or knowledge ordinarily used under similar circumstances by similarly trained and experienced providers of health care.

With that, the inquiry rests upon the *treatment* of Patient A. As testified to by Ms. Elmquist, she was unable to address malpractice as to Respondent's actual treatment because of his lack of record keeping. However, evidence of malpractice does not always rest in records but is also evidenced in subsequent adverse reactions or harm suffered by a patient. Here, the adverse condition of Patient A was not related to the Botox injections administered by Respondent as was

addressed on the record and reflected in Exhibit 8. Thus, there was no evidence to demonstrate that the harm suffered by Patient A derived from Respondent's treatment.

Perhaps to overcome this, the IC's pleading of the malpractice count focused on the setting where the Botox was administered, the allegation that Respondent did not conduct a medical examination or history, and the fact that Respondent failed to document his treatment by creating related medical records. While the location where the Botox was administered could go to treatment, NRS 629.086 permits the administration of Botox at a "medical facility," and NRS 449.0151 specifically includes a hospital in the definition of a "medical facility." As such, a finding of malpractice cannot appropriately rest on Respondent having administered the Botox at the hospital. That is not to say that it was appropriate for Respondent to do so. To the contrary, it was completely inappropriate for all the reasons argued by the IC and Respondent was fittingly fired for it. However, it remains that the hospital is a medical facility and Respondent indicated that he "prepared a location within the hospital" to administer the Botox and, as such, the location itself does not properly subject Respondent to a finding of malpractice. *See* Exhibit 2.

With respect to the IC's allegation that Respondent failed to conduct a medical examination or history, Respondent testified and indicated in Exhibit 2 that he undertook a proper medical screening. T2 118, 189; Exhibit 2. While his statements as to such could be deemed self-serving, there is no evidence to contradict his testimony and there is no reason to believe that he did not actually do so, particularly given the specifics described by Respondent as to what was divulged by the patient as to prior drug use. Such information was reflected in Exhibit 8 and would necessarily have been conveyed by Respondent given that Patient A was unresponsive and the urine drug screen result was normal and negative for illicit drug use.

The last basis the IC pleads in support of its malpractice claim is that Respondent failed to create any medical documentation related to his treatment of Patient A. While that is true, that does not go to Respondent's actual treatment and is encompassed within Count II, which Respondent has admitted to. Thus, based upon the foregoing considerations, I cannot recommend a finding of malpractice; although, at first blush, to paint Respondent's actions as such is seemingly appropriate.

Count III is for the alleged violation of a standard of practice established by regulation and is premised upon Respondent not having a supervision agreement on file that would allow him to undertake the Botox injections he administered to Patient A. Unfortunately, this issue is murky and Dr. Sheep failed to shed much light on it. Whether that was by design on Dr. Sheep's part given concern about his own licensing, loyalty to Respondent whom he considered a friend once faced by Respondent during his testimony, or for any other number of possible reasons, it remains that Dr. Sheep's testimony was not entirely consistent with his statements in Exhibit 4 nor definitive as to he and Respondent's contemplated boutique medical endeavor.

Although Dr. Sheep was clear that he did not lead Respondent to believe that he was to supervise Respondent with respect to cosmetic procedures, Dr. Sheep vouched for Respondent's credibility and said he could not refute Respondent's understanding to the contrary. Dr. Sheep also substantiated Respondent's ability to administer Botox. It also makes little sense that the two would be in discussions to pursue a cosmetic practice partnership if Dr. Sheep would not be Respondent's supervising physician in relation thereto. That said, there was no formal business plan or agreement between the two, and Dr. Sheep was unaware that Respondent had commenced cosmetic procedures.

With little definitive testimony, what is irrefutable is that there was a supervisory agreement on file between Dr. Sheep and Respondent effective April 8, 2023, when Respondent administered the Botox to Patient A, and there was no basis established from which to conclude that a prior address listed on the form was fatal to its purpose. Given the complaint pleads the count on the premise that no such supervision agreement was on file, and in consideration of the ambiguous testimony that precludes a finding by a preponderance of the evidence, undersigned cannot recommend a finding that Respondent violated Count III.

Count IV, practice beyond the scope of license, is premised upon Respondent not being authorized by Dr. Sheep to administer Botox to Patient A. It is evident that Respondent and Dr. Sheep had contemplated a business arrangement that would encompass the treatment Respondent provided to Patient A; however, Dr. Sheep made it clear that he was unaware that Respondent had any intention to commence actually undertaking cosmetic procedures as of April 8, 2023, and

Respondent himself acknowledged that he administered the Botox at the behest of a third party or parties and only in anticipation of a formal business agreement eventually being undertaken. In addition, Respondent only informed Dr. Sheep of the treatment after it was undertaken. As the IC argued, Respondent "jumped the gun." Having a supervisory agreement on file is one thing, but presuming to perform a service thereunder that one has not performed in approximately six years without the knowledge and prior approval of a supervising physician is another.

The IC premised the allegation on a violation of NRS 630.306(1)(e), which supports disciplinary action for "[p]racticing or offering to practice beyond the scope permitted by law or performing services which the licensee knows or has reason to know that he or she is not competent to perform or which are beyond the scope of his or her training." Given there was no evidence refuting Respondent's training and ability to administer the Botox injections, what is left is the scope of his actions as permitted by law.

NAC 630.360 provides that the medical services a physician's assistant is authorized to provide must be commensurate with the education, training, experience and level of competence of the physician's assistant and within the scope of practice of the supervising physician of the physician's assistant. At the time the Botox injections were administered by Respondent, Dr. Sheep's scope of practice was emergency medicine. By all accounts, no foray into a boutique cosmetic practice had yet been established.

With that, it is evident that Dr. Sheep had not authorized Respondent to recommence cosmetic services and, therefore, Respondent practiced beyond the scope permitted by law in that Dr. Sheep's scope of practice, without having made any shift back to cosmetic medicine, was limited at the time to emergency medicine.[3] As such, it would be appropriate to hold Respondent accountable for practicing outside the scope of his license.

BASED UPON THE FOREGOING, it is recommended that the Board find Respondent David Kayle McCleve, P.A.-C in violation of NRS 630.3062(1)(a), Failure to Maintain Complete Medical Records, as alleged in Count II of the Complaint field on November 22, 2024; and NRS

[3] Whether Dr. Sheep was qualified to supervise the cosmetic procedure that Respondent performed is a question undersigned does not reach.

630.306(1)(e), Practice Beyond Scope of License, as alleged in Count IV of the Complaint. Undersigned defers to the Board as to determining appropriate sanctions.

Re: NOTICE OF SUSPENSION - Registration No. CS22331 (Case No. 26-125-CS-S)

Dear Mr. McCleve:

The Nevada State Board of Pharmacy (Board) has been notified that your License No. PA1526 to practice medicine was revoked by the Nevada State Board of Medical Examiners pursuant to an order entered March 26, 2026. Please be advised that pursuant to NRS 639.2107 this operates as an IMMEDIATE SUSPENSION of your Certificate of Registration No. CS22331 with the Board.

You may not possess (except pursuant to the lawful order of a practitioner), administer, prescribe or dispense a controlled substance or dangerous drug until you petition the Board for reinstatement pursuant to NRS 639.2565 and the Board reinstates your certificate of registration. Your PMP account is also suspended pursuant to NAC 453.078.

You may request a hearing before the Board to contest the suspension of your certificate of registration by submitting a written request to the Board's Reno office, located at 985 Damonte Ranch Parkway – Suite 206, Reno, NV 89521.

Regards,

Brett Kandt

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **IRENE MOSQUEDA BENLIRO, APRN, Certificate of Registration No. CS17652; PD01110, and** **JOANNE GEROCHE MOSQUEDA, APRN, Certificate of Registration No. CS24366; PD27887,** **Respondents.**	**Case No. 25-266-PD-A-S** **25-266-PD-B-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Irene Mosqueda Benliro, APRN (Benliro) held registrations issued by the Board, Certificate of Registration No. CS17652 and PD01110, and Respondent Joanne Geroche Mosqueda, APRN (Mosqueda) held registrations issued by the Board, Certificate of Registration No. CS24366 and PD27887.

FACTUAL ALLEGATIONS

2. Benliro is an advanced practice registered nurse (APRN) who has been licensed by the Nevada State Board of Nursing since August 2007. She has been registered to prescribe dangerous drugs and controlled substances since December 2008 and has been registered to dispense since July 2009.

3. Mosqueda is an APRN who has been licensed by the Nevada State Board of Nursing since July 2015. She has been registered to prescribe dangerous drugs and controlled substances since March 2016 and has been registered to dispense since December 2023.

4. At all times relevant, both Benliro and Mosqueda have been employed at Medical Weight Loss & Family Clinic (Medical Weight Loss), located at 9017 S. Pecos Road, Suite 4425 in Henderson. Medical Weight Loss offers weight loss services, in addition to other medical services.

5. On or about April 18, 2025, patient D.G. filed a complaint with the Board stating that she had been going to Medical Weight Loss for more than a year. In her complaint, patient D.G. said she received two (2) filled syringes of retatrutide from Benliro. Retatrutide is not approved by the FDA and is currently in phase 3 clinical trials.[1]

6. Patient D.G. experienced a rash on her face and a rapid heart rate from taking retatrutide.

7. According to Medical Weight Loss practices, Benliro and Mosqueda would start patients on semaglutide. If the patient's weight loss plateaued, Benliro and Mosqueda switched the patient to tirzepatide. If the patient's weight loss plateaued again, Benliro and Mosqueda would start the patient on retatrutide.

8. On or about July 10, 2025, Board Investigator Dena McClish (McClish) and Inspector John Castaldo (Cataldo) made a site visit to Medical Weight Loss while Benliro was present. During the inspection, McClish and Castaldo observed unlocked cabinets being used as storage for dangerous drugs used to treat common conditions such as high blood pressure.

9. Castaldo found that many of the dangerous drugs at Medical Weight Loss were expired and were kept along with unopened and unexpired dangerous drugs.

10. Castaldo also found that Medical Weight Loss had a separate storage room with a refrigerator and large cabinets containing GLP-1 medications, other injectable medications, and dangerous drugs. Many of the drugs contained labels from manufacturers and wholesalers that are not licensed by the Board to in engage in wholesale activity in the State of Nevada, including: American Peptide Co., LLC, Alpha BioMed, TopDoc Rx, Preferred Rxx, Monarch Sciences, GLP-1 Sciences, and Ousia Pharmacy. Furthermore, at least one of the wholesalers, Alpha BioMed, has a disclaimer on its website stating that it is not 503a or 503b facility as defined under the Federal Food, Drug, and Cosmetic Act.

11. Castaldo also found used and/or punctured multi-dose vials with no puncture date or beyond use date noted. Additionally, Castaldo found several pre-filled syringes containing GLP-1 medications and other injectable medications that were not properly labeled and did not contain information about when they were drawn, beyond use date, storage conditions, or full directions for use.

12. Castaldo found several zip-lock bags filled with pre-filled syringes of GLP-1 medication hidden in several places in Benliro's office, including in a small suitcase and a shopping bag that contained food items.

13. At all relevant times, Benliro and Mosqueda did not keep prescription records for GLP-1 medications or other injectable medication dispensations.

14. At all relevant times, Benliro and Mosqueda did not create any prescription or patient labels for GLP-1 medications or other injectable medication dispensations.

15. At all relevant times, Benliro and Mosqueda did not maintain copies of invoices for the dangerous drugs, GLP-1s, or any other injectable medicines found at the Medical Weight Loss. During the inspection, Benliro was only able to produce one invoice for the purchase of retatrutide, from American Peptide Co., LLC. American Peptide Co., LLC does not have a license with the Board to engage in wholesaling into or within the State of Nevada.

16. Mosqueda provided a report of dispensed prescriptions showing that, from April 2025 to June 2025, she dispensed at least 11 retatrutide prescriptions, 563 semaglutide prescriptions, and 215 tirzepatide prescriptions.

17. Benliro provided a report of dispensed prescriptions showing that, from April 2025 to June 2025, she dispensed at least 26 retatrutide prescriptions, 536 semaglutide prescriptions, and 146 tirzepatide prescriptions.

APPLICABLE LAW

18. "'Dispense' means to deliver a controlled substance or dangerous drug to an ultimate user, patient or subject of research by or pursuant to the lawful order of a practitioner, including the prescribing by a practitioner, administering, packaging, labeling or compounding necessary to prepare the substance for that delivery." NRS 639.0065.

19. To dispense dangerous drugs or controlled substances in Nevada, a practitioner must apply for and obtain a certificate of registration issued pursuant to NAC 639.742.

20. A practitioner must keep complete, accurate and readily retrievable records of each controlled substance and dangerous drug purchased and dispensed. NAC 639.745(1)(a).

21. It is unlawful to sell dangerous drugs at wholesale, or to permit dangerous drugs to be sold at wholesale, unless the seller holds a wholesaler license issued by the Board. NRS 639.100(1); NRS 639.233; NAC 639.593.

22. It is unlawful to introduce into interstate commerce, or to receive in interstate commerce any drug that is misbranded or that may not be lawfully introduced into interstate commerce. 21 U.S.C.A. § 331; NRS 454.351.

23. A drug is misbranded if its labeling is false or misleading in any particular. 21 U.S.C.A. § 352(a)(1).

24. A drug is misbranded if it was manufactured in an establishment not registered with the FDA, or if it was imported by a commercial importer of drugs not registered with the FDA. 21 U.S.C.A. § 352(o).

25. It is unlawful for a practitioner to store dangerous drugs that are not in stock containers properly labeled and procured from a manufacturer, wholesaler or pharmacy. NRS 454.316.

26. All controlled substances and dangerous drugs that are in the possession of an advanced practice registered nurse must be kept in a locked storage area. NAC 639.898.

27. A practitioner who maintains a stock of controlled substances and/or dangerous drugs must not commingle expired substances and unexpired substances in a storage area from which the substances are withdrawn from inventory for administering or dispensing to patients. NAC 639.050(2); NAC 639.473.

28. The sale or delivery or holding or offering for sale any drug that is adulterated is prohibited under Nevada law. NRS 585.520(1). A drug shall be deemed adulterated if it is a drug recognized in an official compendium and its quality or purity falls below the standard set forth in the compendium. NRS 585.380.

29. The Board may suspend or revoke any registration if the holder or applicant: 1) has violated, attempted to violate, assisted, or abetted in the violation of or conspired to violate any of the provisions of NRS chapter 639 or any law or regulation relating to drugs; or 2) is guilty of unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4) and (12).

30. Furthermore, the Board may suspend or revoke the certificate of registration of any advanced practice registered nurse who is guilty of unprofessional conduct or conduct contrary to the public interest. NAC 639.900(4).

31. Unprofessional conduct includes performing any act, task or operation for which licensure, certification or registration is required without the required license, certificate or registration. NAC 639.945(1)(k). Unprofessional conduct also includes performing any duties as the holder of a license, certificate or registration issued by the Board, or as the owner of a business or an entity licensed by the Board, in an incompetent, unskillful or negligent manner. NAC

639.945(1)(i). It also includes aiding or abetting unlicensed activity in Nevada. NAC 639.945(1)(j).

32. The Board may suspend or revoke the registration to dispense a controlled substance if the registrant has committed an act that would render registration inconsistent with the public interest as determined pursuant to that section. NRS 453.236(1)(e). *See also* NRS 453.231(1)(h).

COUNT ONE

Violations of State Law - Failure to Maintain Security of Dangerous Drugs (Respondents Benliro and Mosqueda)

33. As alleged above, Respondents Benliro and Mosqueda stored several dangerous drugs in unlocked desk drawers and on cabinet shelves.

34. As alleged above, Respondent Benliro kept zip-lock bags of pre-filled syringes of dangerous drugs in zip-lock bags in a suitcase and shopping bag in her office.

35. As alleged above, Respondents Benliro and Mosqueda failed to maintain the security of the dangerous drugs within her possession in violation of NAC 639.898.

36. Respondents Benliro and Mosqueda violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NAC 639.898.

37. This is a violation of law for which the Board may impose administrative discipline. *See* NRS 639.210(4) and (12); NRS 453.236(1)(e); NRS 453.231(1)(h).

COUNT TWO

Negligence and/or Violation of State Law – Holding for Sale An Adulterated Drug (Respondents Benliro and Mosqueda)

38. As alleged above, Respondents Benliro and Mosqueda engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(i) when Respondents held for sale adulterated drugs in violation of NRS 585.520(1).

39. As alleged above, Respondents engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(i) when Respondents commingled expired substances and unexpired substances in a storage area from which the substances are withdrawn from inventory for administering or dispensing to patients in violation of NAC 639.050(2) and NAC 639.473.

40. Based upon the facts or circumstances surrounding her professional knowledge of dangerous drugs, Respondents knew or should have known that holding for sale an expired prescription drug and commingling expired and unexpired drugs was not safe.

41. By holding for sale into interstate commerce adulterated dangerous drugs, Respondents possessed adulterated drugs in violation of 21 U.S.C.A. § 331 and/or NRS 454.351.

42. As alleged above, Respondents performed their duties as the holders of a registration issued by the Board in a negligent, unskillful, or incompetent manner.

43. This is a violation of law for which the Board may impose administrative discipline. *See* NRS 639.210(4) and (12); NRS 453.236(1)(e); NRS 453.231(1)(h).

COUNT THREE
Violation of State Law Pertaining to Drugs
(Respondents Benliro and Mosqueda)

44. As alleged above, Respondents Benliro and Mosqueda failed to keep an accurate and complete record of dangerous drugs dispensed from Medical Weight Loss.

45. By failing to keep an accurate and complete record of dangerous drugs dispensed at Medical Weight Loss, Respondents Benliro and Mosqueda violated NAC 639.745(1)(a).

46. Having violated state law pertaining to dangerous drugs, Respondents Benliro and Mosqueda are subject to discipline pursuant to NRS 639.210(12) and/or NRS 453.236(1)(e).

COUNT FOUR
Violation of State Law – Possessing, Selling, Furnishing Drugs Not Approved in the United States
(Respondents Benliro and Mosqueda)

47. As alleged above, Respondents Benliro and Mosqueda dispensed at least 37 retatrutide prescriptions, which has not been approved by the FDA.

48. By purchasing, possessing, selling, furnishing and/or administering drug products not approved for distribution or use in the U.S., Respondents Benliro and Mosqueda violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 454.351(1) and/or NRS 585.490

49. 44. Having violated state law pertaining to dangerous drugs, Respondents Benliro and Mosqueda are subject to discipline pursuant to NAC 639.295(10), NRS 639.210(11), NRS 639.210(12), and/or NRS 453.236(1)(e).

COUNT FIVE

Unprofessional Conduct -Performing Duties in an Incompetent, Unskillful, or Negligent Manner (Respondent Benliro)

50. As alleged above, Respondent Benliro acquired dangerous drugs from American Peptide Co., LLC, Alpha BioMed, TopDoc Rx, Preferred Rxx, Monarch Sciences, GLP-1 Sciences, and Ousia Pharmacy.

51. During the relevant time period, the wholesalers/manufacturers were not licensed by the Board to sell or distribute dangerous drugs at wholesale.

52. Respondent Benliro knew or should have known that American Peptide Co., LLC, Alpha BioMed, TopDoc Rx, Preferred Rxx, Monarch Sciences, GLP-1 Sciences, and Ousia Pharmacy were not known, reputable sources because they were not licensed in Nevada, and at least one (Alpha BioMed) had disclaimers stating it was not a compound pharmacy according to the FDA.

53. By purchasing drugs from American Peptide Co., LLC, Alpha BioMed, TopDoc Rx, Preferred Rxx, Monarch Sciences, GLP-1 Sciences, and Ousia Pharmacy, who were not licensed wholesalers in Nevada, Respondent Benliro breached her duties as a purchaser and as the

holder of a certificate of registration issued by the Board in an incompetent, unskillful, or negligent manner.

54. Respondent's conduct as alleged above amounts to unprofessional conduct for which the Board may impose administrative discipline. *See* NRS 639.210(4); NAC 639.900(4); NAC 639.945(1)(i).

COUNT SIX

Unprofessional Conduct – Permitting Unlicensed Distribution
(Respondent Benliro)

55. As alleged above, Respondent Benliro acquired dangerous drugs from American Peptide Co., LLC, Alpha BioMed, TopDoc Rx, Preferred Rxx, Monarch Sciences, GLP-1 Sciences, and Ousia Pharmacy.

56. During the relevant time period, the wholesalers/manufacturers were not licensed by the Board to sell or distribute dangerous drugs at wholesale.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, by and through its General Counsel, Laura M. Tucker, and Respondent Irene Mosqueda Benliro, APRN, ("Respondent"), by and through her counsel, Joshua Dickey, Esq., hereby stipulate and agree as follows:

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent and this matter.

2. The Board's staff properly served Respondent with the Notice of Intended Action and Accusation ("Accusation") on file in this matter, together with the Statement to Respondent and Notice of Hearing.

3. Respondent is fully aware of the right to seek the advice of counsel in this matter and obtained the advice of counsel prior to entering into this Stipulation.

4. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration, the right to appeal and any and all other rights which may be accorded pursuant to NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

5. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondent has failed to comply with the provisions of this Stipulation, Respondent hereby knowingly and voluntarily waives the rights to a hearing, reconsideration, appeal and any and all other rights related to this action that may be accorded by NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

6. For purposes of resolving this matter and for no other purpose, Respondent does not contest that Board staff prosecuting this case could present such evidence at an administrative hearing to a establish a factual basis for the violations alleged in Count One, Count Two, Count Three, Count Four, Count Five, and Count Six of the Accusation, *to wit*:

A. At all times relevant, Benliro worked at Medical Weight Loss & Family Clinic (Medical Weight Loss), located at 9017 S. Pecos Road, Suite 4425 in Henderson.

B. Respondent failed to maintain the security of the dangerous drugs within her possession in accordance with NAC 639.898. As such, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NAC 639.898 and is subject to discipline pursuant to NRS 639.210(4) and (12).

C. Respondent engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(i) when Respondent commingled expired substances and unexpired substances in a storage area from which the substances are withdrawn from inventory for administering or dispensing to patients in violation of NAC 639.473.

D. Based upon the facts or circumstances surrounding her professional knowledge of dangerous drugs, Respondent knew or should have known that commingling expired and unexpired drugs was not safe. As such, Respondent performed her duties as the holder of a registration issued by the Board in a negligent, unskillful, or incompetent manner and is subject to discipline pursuant to NRS 639.210(4) and (12).

E. Respondent's record keeping concerning certain dangerous drugs dispensed at Medical Weight Loss did not comply with NAC 639.745(1)(a). As such, Respondent is subject to discipline pursuant to NRS 639.210(12).

F. Respondent dispensed retatrutide, a drug that is undergoing Phase 3 clinical trials but has not yet been approved for distribution or use in the United States, to patients at Medical Weight Loss in violation of NRS 585.490. As such, Respondent violated a state law pertaining to drugs and is subject to discipline pursuant to NAC 639.295(10) and/or NRS 639.210(12).

G. Respondent acquired dangerous drugs (retatrutide) from wholesalers/manufacturers who were not licensed by the Board to sell or distribute drugs at wholesale. In doing so, Respondent breached her duties as a purchaser and as the holder of a certificate of registration issued by the Board and acted in an incompetent, unskillful, or negligent manner. As such, Respondent's actions amount to unprofessional conduct for which the Board may impose administrative discipline pursuant to NRS 639.210(4), NAC 639.900(4), and NAC 639.945(1)(i).

H. Respondent acquired dangerous drugs (retatrutide) from wholesalers/manufacturers who were not licensed by the Board to sell or distribute drugs at wholesale. In doing so, Respondent unknowingly assisted or permitted the unlicensed wholesale distribution of drugs. As such, Respondent's actions amount to unprofessional conduct for which the Board may impose administrative discipline pursuant to NRS 639.210(12), NAC 639.900(4), and NAC 639.945(1)(j).

7. Those violations are pled with particularity in the Accusation and grounds for action pursuant to NRS 639.210 and NRS 639.255.

8. Now, therefore, to resolve the allegations stated in Count One, Count Two, Count Three, Count Four, Count Five, and Count Six of the Accusation without incurring any further costs or the expenses associated with a hearing, the Board and Respondent agree to the imposition of the following penalties:

A. Respondent's certificate of registration no. PD01110 is REVOKED, and Respondent cannot petition for reinstatement of her certificate of registration for a period of five (5) years from the effective date of this Order. Respondent must appear before the Board to petition for reinstatement.

B. Respondent may not be in possession of controlled substances or dangerous drugs at any place of practice for a period of one (1) year from the effective date of this Order unless Respondent is employed at a medical facility as that term is defined in NRS 449.0151, excluding mobile units. Respondent may work at a facility where the drugs maintained are to be used and administered in case of emergency and may be in possession of controlled substances or dangerous drugs if the drugs are prescribed to Respondent for a legitimate medical purpose. Respondent may continue to prescribe controlled substances and dangerous drugs pursuant to her certificate of registration no. CS17652, including during this one-year period.

C. Respondent agrees to pay an administrative fine of **Ten Thousand and 00/100 Dollars ($10,000.00)**, payable by *cashier's check, certified check,* or *money order* written to the "**State of Nevada, Office of the Treasurer.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Order.

D. Respondent shall pay the sum of **One Thousand Six Hundred Eighty-One and 50/100 Dollars ($1,681.50)** to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this case. This sum shall be payable by *cashier's check, certified check,* or *money order* written to the "**Nevada State Board of Pharmacy.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Order.

9. Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a

hearing results in a finding of a violation of this Order by Respondent, the Board may impose additional discipline upon Respondent not inconsistent with the provisions of NRS Chapters 453 and 639.

10. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on July 15, 2026. Respondent will appear at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent or counsel are not present at the meeting.

11. The Board has discretion to accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 USC § 1396r–2 and 45 CFR Part 60, and shall be further reported pursuant to NAC 639.960.

12. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the merits of this matter may be heard by the Board. If the Board rejects this Stipulation, the terms and admissions in this Stipulation shall not be deemed to be an admission by Respondent and this Stipulation, including any terms or admissions, shall not be admissible in any hearing or be used as evidence for any purpose, including a full hearing on the merits of this matter.

13. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any and all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order.

//

//

//

Respondent has fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and has freely and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

Case No. 25-266-PD-A-S
25-266-PD-B-S

NOTICE OF INTENDED ACTION AND ACCUSATION

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Irene Mosqueda Benliro, APRN (Benliro) held registrations issued by the Board, Certificate of Registration No. CS17652 and PD01110, and Respondent Joanne Geroche Mosqueda, APRN (Mosqueda) held registrations issued by the Board, Certificate of Registration No. CS24366 and PD27887.

FACTUAL ALLEGATIONS

2. Benliro is an advanced practice registered nurse (APRN) who has been licensed by the Nevada State Board of Nursing since August 2007. She has been registered to prescribe dangerous drugs and controlled substances since December 2008 and has been registered to dispense since July 2009.

3. Mosqueda is an APRN who has been licensed by the Nevada State Board of Nursing since July 2015. She has been registered to prescribe dangerous drugs and controlled substances since March 2016 and has been registered to dispense since December 2023.

4. At all times relevant, both Benliro and Mosqueda have been employed at Medical Weight Loss & Family Clinic (Medical Weight Loss), located at 9017 S. Pecos Road, Suite 4425 in Henderson. Medical Weight Loss offers weight loss services, in addition to other medical services.

5. On or about April 18, 2025, patient D.G. filed a complaint with the Board stating that she had been going to Medical Weight Loss for more than a year. In her complaint, patient D.G. said she received two (2) filled syringes of retatrutide from Benliro. Retatrutide is not approved by the FDA and is currently in phase 3 clinical trials.[1]

6. Patient D.G. experienced a rash on her face and a rapid heart rate from taking retatrutide.

7. According to Medical Weight Loss practices, Benliro and Mosqueda would start patients on semaglutide. If the patient's weight loss plateaued, Benliro and Mosqueda switched the patient to tirzepatide. If the patient's weight loss plateaued again, Benliro and Mosqueda would start the patient on retatrutide.

8. On or about July 10, 2025, Board Investigator Dena McClish (McClish) and Inspector John Castaldo (Cataldo) made a site visit to Medical Weight Loss while Benliro was present. During the inspection, McClish and Castaldo observed unlocked cabinets being used as storage for dangerous drugs used to treat common conditions such as high blood pressure.

9. Castaldo found that many of the dangerous drugs at Medical Weight Loss were expired and were kept along with unopened and unexpired dangerous drugs.

10. Castaldo also found that Medical Weight Loss had a separate storage room with a refrigerator and large cabinets containing GLP-1 medications, other injectable medications, and dangerous drugs. Many of the drugs contained labels from manufacturers and wholesalers that are not licensed by the Board to in engage in wholesale activity in the State of Nevada, including: American Peptide Co., LLC, Alpha BioMed, TopDoc Rx, Preferred Rxx, Monarch Sciences, GLP-1 Sciences, and Ousia Pharmacy. Furthermore, at least one of the wholesalers, Alpha BioMed, has a disclaimer on its website stating that it is not 503a or 503b facility as defined under the Federal Food, Drug, and Cosmetic Act.

11. Castaldo also found used and/or punctured multi-dose vials with no puncture date or beyond use date noted. Additionally, Castaldo found several pre-filled syringes containing GLP-1 medications and other injectable medications that were not properly labeled and did not contain information about when they were drawn, beyond use date, storage conditions, or full directions for use.

12. Castaldo found several zip-lock bags filled with pre-filled syringes of GLP-1 medication hidden in several places in Benliro's office, including in a small suitcase and a shopping bag that contained food items.

13. At all relevant times, Benliro and Mosqueda did not keep prescription records for GLP-1 medications or other injectable medication dispensations.

14. At all relevant times, Benliro and Mosqueda did not create any prescription or patient labels for GLP-1 medications or other injectable medication dispensations.

15. At all relevant times, Benliro and Mosqueda did not maintain copies of invoices for the dangerous drugs, GLP-1s, or any other injectable medicines found at the Medical Weight Loss. During the inspection, Benliro was only able to produce one invoice for the purchase of retatrutide, from American Peptide Co., LLC. American Peptide Co., LLC does not have a license with the Board to engage in wholesaling into or within the State of Nevada.

16. Mosqueda provided a report of dispensed prescriptions showing that, from April 2025 to June 2025, she dispensed at least 11 retatrutide prescriptions, 563 semaglutide prescriptions, and 215 tirzepatide prescriptions.

17. Benliro provided a report of dispensed prescriptions showing that, from April 2025 to June 2025, she dispensed at least 26 retatrutide prescriptions, 536 semaglutide prescriptions, and 146 tirzepatide prescriptions.

APPLICABLE LAW

18. "'Dispense' means to deliver a controlled substance or dangerous drug to an ultimate user, patient or subject of research by or pursuant to the lawful order of a practitioner, including the prescribing by a practitioner, administering, packaging, labeling or compounding necessary to prepare the substance for that delivery." NRS 639.0065.

19. To dispense dangerous drugs or controlled substances in Nevada, a practitioner must apply for and obtain a certificate of registration issued pursuant to NAC 639.742.

20. A practitioner must keep complete, accurate and readily retrievable records of each controlled substance and dangerous drug purchased and dispensed. NAC 639.745(1)(a).

21. It is unlawful to sell dangerous drugs at wholesale, or to permit dangerous drugs to be sold at wholesale, unless the seller holds a wholesaler license issued by the Board. NRS 639.100(1); NRS 639.233; NAC 639.593.

22. It is unlawful to introduce into interstate commerce, or to receive in interstate commerce any drug that is misbranded or that may not be lawfully introduced into interstate commerce. 21 U.S.C.A. § 331; NRS 454.351.

23. A drug is misbranded if its labeling is false or misleading in any particular. 21 U.S.C.A. § 352(a)(1).

24. A drug is misbranded if it was manufactured in an establishment not registered with the FDA, or if it was imported by a commercial importer of drugs not registered with the FDA. 21 U.S.C.A. § 352(o).

25. It is unlawful for a practitioner to store dangerous drugs that are not in stock containers properly labeled and procured from a manufacturer, wholesaler or pharmacy. NRS 454.316.

26. All controlled substances and dangerous drugs that are in the possession of an advanced practice registered nurse must be kept in a locked storage area. NAC 639.898.

27. A practitioner who maintains a stock of controlled substances and/or dangerous drugs must not commingle expired substances and unexpired substances in a storage area from which the substances are withdrawn from inventory for administering or dispensing to patients. NAC 639.050(2); NAC 639.473.

28. The sale or delivery or holding or offering for sale any drug that is adulterated is prohibited under Nevada law. NRS 585.520(1). A drug shall be deemed adulterated if it is a drug recognized in an official compendium and its quality or purity falls below the standard set forth in the compendium. NRS 585.380.

29. The Board may suspend or revoke any registration if the holder or applicant: 1) has violated, attempted to violate, assisted, or abetted in the violation of or conspired to violate any of the provisions of NRS chapter 639 or any law or regulation relating to drugs; or 2) is guilty of unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4) and (12).

30. Furthermore, the Board may suspend or revoke the certificate of registration of any advanced practice registered nurse who is guilty of unprofessional conduct or conduct contrary to the public interest. NAC 639.900(4).

31. Unprofessional conduct includes performing any act, task or operation for which licensure, certification or registration is required without the required license, certificate or registration. NAC 639.945(1)(k). Unprofessional conduct also includes performing any duties as the holder of a license, certificate or registration issued by the Board, or as the owner of a business or an entity licensed by the Board, in an incompetent, unskillful or negligent manner. NAC

639.945(1)(i). It also includes aiding or abetting unlicensed activity in Nevada. NAC 639.945(1)(j).

32. The Board may suspend or revoke the registration to dispense a controlled substance if the registrant has committed an act that would render registration inconsistent with the public interest as determined pursuant to that section. NRS 453.236(1)(e). *See also* NRS 453.231(1)(h).

COUNT ONE

Violations of State Law - Failure to Maintain Security of Dangerous Drugs (Respondents Benliro and Mosqueda)

33. As alleged above, Respondents Benliro and Mosqueda stored several dangerous drugs in unlocked desk drawers and on cabinet shelves.

34. As alleged above, Respondent Benliro kept zip-lock bags of pre-filled syringes of dangerous drugs in zip-lock bags in a suitcase and shopping bag in her office.

35. As alleged above, Respondents Benliro and Mosqueda failed to maintain the security of the dangerous drugs within her possession in violation of NAC 639.898.

36. Respondents Benliro and Mosqueda violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NAC 639.898.

37. This is a violation of law for which the Board may impose administrative discipline. *See* NRS 639.210(4) and (12); NRS 453.236(1)(e); NRS 453.231(1)(h).

COUNT TWO

Negligence and/or Violation of State Law – Holding for Sale An Adulterated Drug (Respondents Benliro and Mosqueda)

38. As alleged above, Respondents Benliro and Mosqueda engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(i) when Respondents held for sale adulterated drugs in violation of NRS 585.520(1).

39. As alleged above, Respondents engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(i) when Respondents commingled expired substances and unexpired substances in a storage area from which the substances are withdrawn from inventory for administering or dispensing to patients in violation of NAC 639.050(2) and NAC 639.473.

40. Based upon the facts or circumstances surrounding her professional knowledge of dangerous drugs, Respondents knew or should have known that holding for sale an expired prescription drug and commingling expired and unexpired drugs was not safe.

41. By holding for sale into interstate commerce adulterated dangerous drugs, Respondents possessed adulterated drugs in violation of 21 U.S.C.A. § 331 and/or NRS 454.351.

42. As alleged above, Respondents performed their duties as the holders of a registration issued by the Board in a negligent, unskillful, or incompetent manner.

43. This is a violation of law for which the Board may impose administrative discipline. *See* NRS 639.210(4) and (12); NRS 453.236(1)(e); NRS 453.231(1)(h).

COUNT THREE
Violation of State Law Pertaining to Drugs
(Respondents Benliro and Mosqueda)

44. As alleged above, Respondents Benliro and Mosqueda failed to keep an accurate and complete record of dangerous drugs dispensed from Medical Weight Loss.

45. By failing to keep an accurate and complete record of dangerous drugs dispensed at Medical Weight Loss, Respondents Benliro and Mosqueda violated NAC 639.745(1)(a).

46. Having violated state law pertaining to dangerous drugs, Respondents Benliro and Mosqueda are subject to discipline pursuant to NRS 639.210(12) and/or NRS 453.236(1)(e).

COUNT FOUR
Violation of State Law – Possessing, Selling, Furnishing Drugs Not Approved in the United States
(Respondents Benliro and Mosqueda)

47. As alleged above, Respondents Benliro and Mosqueda dispensed at least 37 retatrutide prescriptions, which has not been approved by the FDA.

48. By purchasing, possessing, selling, furnishing and/or administering drug products not approved for distribution or use in the U.S., Respondents Benliro and Mosqueda violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 454.351(1) and/or NRS 585.490

49. 44. Having violated state law pertaining to dangerous drugs, Respondents Benliro and Mosqueda are subject to discipline pursuant to NAC 639.295(10), NRS 639.210(11), NRS 639.210(12), and/or NRS 453.236(1)(e).

COUNT FIVE

Unprofessional Conduct -Performing Duties in an Incompetent, Unskillful, or Negligent Manner (Respondent Benliro)

50. As alleged above, Respondent Benliro acquired dangerous drugs from American Peptide Co., LLC, Alpha BioMed, TopDoc Rx, Preferred Rxx, Monarch Sciences, GLP-1 Sciences, and Ousia Pharmacy.

51. During the relevant time period, the wholesalers/manufacturers were not licensed by the Board to sell or distribute dangerous drugs at wholesale.

52. Respondent Benliro knew or should have known that American Peptide Co., LLC, Alpha BioMed, TopDoc Rx, Preferred Rxx, Monarch Sciences, GLP-1 Sciences, and Ousia Pharmacy were not known, reputable sources because they were not licensed in Nevada, and at least one (Alpha BioMed) had disclaimers stating it was not a compound pharmacy according to the FDA.

53. By purchasing drugs from American Peptide Co., LLC, Alpha BioMed, TopDoc Rx, Preferred Rxx, Monarch Sciences, GLP-1 Sciences, and Ousia Pharmacy, who were not licensed wholesalers in Nevada, Respondent Benliro breached her duties as a purchaser and as the

holder of a certificate of registration issued by the Board in an incompetent, unskillful, or negligent manner.

54. Respondent's conduct as alleged above amounts to unprofessional conduct for which the Board may impose administrative discipline. *See* NRS 639.210(4); NAC 639.900(4); NAC 639.945(1)(i).

COUNT SIX

Unprofessional Conduct – Permitting Unlicensed Distribution
(Respondent Benliro)

55. As alleged above, Respondent Benliro acquired dangerous drugs from American Peptide Co., LLC, Alpha BioMed, TopDoc Rx, Preferred Rxx, Monarch Sciences, GLP-1 Sciences, and Ousia Pharmacy.

56. During the relevant time period, the wholesalers/manufacturers were not licensed by the Board to sell or distribute dangerous drugs at wholesale.

57. Respondent Benliro knew or should have known that American Peptide Co., LLC, Alpha BioMed, TopDoc Rx, Preferred Rxx, Monarch Sciences, GLP-1 Sciences, and Ousia Pharmacy were not known, reputable sources because they were not licensed in Nevada, and at least one (Alpha BioMed) had disclaimers stating it was not a compound pharmacy according to the FDA.

58. By purchasing drugs from American Peptide Co., LLC, Alpha BioMed, TopDoc Rx, Preferred Rxx, Monarch Sciences, GLP-1 Sciences, and Ousia Pharmacy, who were not licensed wholesalers in Nevada, Respondent Benliro assisted or permitted the unlicensed wholesale distribution of drugs in violation of NRS 639.100(1).

59. Respondent Benliro's conduct as alleged above amounts to unprofessional conduct for which the Board may impose administrative discipline. *See* NRS 639.210(12); NAC 639.900(4); NAC 639.945(1)(j).

WHEREFORE it is requested that the Nevada State Board of Pharmacy impose appropriate discipline with respect to Respondent Irene Mosqueda Benliro's Certificates of Registration Nos.

CS17652 and PD01110, and Respondent Joanne Geroche Mosqueda's Certificates of Registration Nos. CS24366 and PD27887.

3. Respondent is fully aware of the right to seek the advice of counsel in this matter and obtained the advice of counsel prior to entering into this Stipulation.

4. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration, the right to appeal and any and all other rights which may be accorded pursuant to NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

5. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondent has failed to comply with the provisions of this Stipulation, Respondent hereby knowingly and voluntarily waives the rights to a hearing, reconsideration, appeal and any and all other rights related to this action that may be accorded by NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

6. For purposes of resolving this matter only and for no other purpose, Respondent does not contest that Board staff prosecuting this case could present such evidence at an administrative hearing to establish a factual basis for the violations alleged in Count One, Count Two, Count Three and Count Four of the Accusation, *to wit*:

A. Respondent worked part-time at Medical Weight Loss & Family Clinic (Medical Weight Loss), located at 9017 S. Pecos Road, Suite 4425 in Henderson.

B. Respondent's record keeping concerning certain dangerous drugs dispensed at Medical Weight Loss did not comply with NAC 639.745(1)(a). As such, Respondent is subject to discipline pursuant to NRS 639.210(12).

C. Respondent dispensed retatrutide, a drug that is undergoing Phase 3 clinical trials but has not yet been approved for distribution or use in the United States, to patients at Medical Weight Loss in violation of NRS 585.490. As such, Respondent violated a state law pertaining to drugs and is subject to discipline pursuant to NAC 639.295(10), and/or NRS 639.210(12).

7. Those violations are pled with particularity in the Accusation and grounds for action pursuant to NRS 639.210 and NRS 639.255.

8. Now, therefore, to resolve the allegations stated in Count One, Count Two, Count Three, and Count Four of the Accusation without incurring any further costs or the expenses associated with a hearing, the Board and Respondent agree to the imposition of the following penalties:

A. Respondent's certificate of registration no. PD27887 is REVOKED, and Respondent cannot petition for reinstatement of her certificate of registration for a period of five (5) years

from the effective date of this Order. Respondent must appear before the Board to petition for reinstatement.

B. Respondent may not be in possession of controlled substances or dangerous drugs at any place of practice for a period of one (1) year from the effective date of this Order, unless Respondent is employed at a medical facility as that term is defined in NRS 449.0151, excluding mobile units. Respondent may work at a facility where the drugs maintained are to be used and administered in case of emergency, and may be in possession of controlled substances or dangerous drugs if the drugs are prescribed to Respondent for a legitimate medical purpose. Respondent may continue to prescribe controlled substances and dangerous drugs pursuant to her certificate of registration no. CS24366, including during this one-year period.

C. Respondent agrees to pay an administrative fine of **Five Thousand and 00/100 Dollars ($5,000.00)**, payable by *cashier's check, certified check,* or *money order* written to the "**State of Nevada, Office of the Treasurer.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Order.

D. Respondent shall pay the sum of **One Thousand Six Hundred Eighty-One and 50/100 Dollars ($1,681.50)** to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this case. This sum shall be payable by *cashier's check, certified check,* or *money order* written to the "**Nevada State Board of Pharmacy.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Order.

9. Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may impose additional discipline upon Respondent not inconsistent with the provisions of NRS Chapters 453 and 639.

10. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on July 15, 2026. Respondent will appear at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent or counsel are not present at the meeting.

11. The Board has discretion to accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 USC § 1396r–2 and 45 CFR Part 60, and shall be further reported pursuant to NAC 639.960.

12. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the merits of this matter may be heard by the Board. If the Board rejects this Stipulation, the terms and admissions in this Stipulation shall not be deemed to be an admission by Respondent and this Stipulation, including any terms or admissions, shall not be admissible in any hearing or be used as evidence for any purpose, including a full hearing on the merits of this matter.

13. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any and all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order.

Respondent has fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and has freely and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

AGREED:

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **IBRAHIM T. FAKHOURI, MD,** **Certificate of Registration No. CS19540, and** **NIRAV SHARAD GANDHI, MD,** **Certificate of Registration No. CS14653,** **Respondents.**	**Case Nos. 25-274-CS-A-S** **25-274-CS-B-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Ibrahim Fakhouri, MD (Fakhouri) held a registration issued by the Board, Certificate of Registration No. CS19540, and Respondent Nirav Gandhi, MD (Ghandi) held a registration issued by the Board, Certificate of Registration No. CS14653.

FACTUAL ALLEGATIONS

2. Fakhouri is a medical doctor who has been licensed by the Nevada State Board of Medical Examiners since June 2011. He has been registered to prescribe controlled substances since August 2011.

3. Ghandi is a medical doctor who has been licensed by the Nevada State Board of Medical Examiners since August 2006. He has been registered to prescribe controlled substances since October 2006.

4. At all times relevant, both Fakhouri and Ghandi have been employed at Nevada Family Care & Wellness Center, located at 861 Coronado Center Drive, Ste 220, in Henderson.

5. On or about July 9, 2025, the Board received a complaint from a practitioner that, during a consultation with a mutual patient of Nevada Family Care & Wellness Center, the patient stated that she received retratrutide from the clinic. Retatrutide is not approved by the FDA and is currently in phase 3 clinical trials.[1]

6. On or about July 29, 2025, Board Investigator Dena McClish (McClish) and Inspector John Castaldo (Castaldo) made a site visit to Nevada Family Care & Wellness Center while Fakhouri was present.

7. During the inspection, McClish and Castaldo found numerous vials of retratutide, cagrilintide[2], semaglutide, human chorionic gonadotropin (HcG), NAD+, and tirzepatide that contained labels from Superior Rx, which is a distributor and/or manufacturer that does not hold a license with the Board.

8. Also during the inspection, Board staff found vials of NAD+ 500 mg, Kisspeptin 10 mg, and Test C100 with NV Extreme Fitness labels. NV Extreme Fitness advertises on Nevada Family Care & Wellness Center's website and shows the same address as the clinic. Some of the vials indicated they were manufactured by Rx Solution LLC, American Industry

[1] *See* Eli Lilly and Co., "What to know about retatrutide: An investigational triple hormone receptor agonist," https://www.lilly.com/news/stories/what-to-know-about-retatrutide (Last visited Dec. 26, 2025).
[2] Cagrilintide is not approved by the FDA and is currently in phase 3 clinical trials.

Inc. and Superior Rx. Neither Rx Solution LLC nor American Industry Inc. are licensed with the Board.

9. Fakhouri purchased the drugs Board staff found from a Nevada-based online retailer, Battle Born Peptides. However, Battle Born Peptides is not licensed by the Board. A Board investigation found that Battle Born Peptides appears to no longer be in business and may have been operating out of a residential location.

10. McClish and Castaldo found various dangerous drugs stored in the cabinets at Nevada Family Care & Wellness Center, including Minoxidil, Spironolactone, Ibuprofen (600mg strength), and sildenafil. The clinic's website also advertises these drugs for sale. These medications are dispensed to patients for home use, but no prescriptions were created for the dispensations, and Fakhouri did not provide a dispensing log to Board staff. Neither Fakhouri nor Ghandi hold a dispensing license with the Board.

11. The clinic stocked several punctured or used multi-dose vials of dangerous drugs with no puncture date or beyond use date noted. Furthermore, various peptide medications in the clinic did not contain any information regarding a compounded date, thaw date, or use by date.

12. Board staff found approximately ten resealable bags with patient names written on them containing four to twelve glass-type syringes. The syringes did not have a label indicating medication name, strength, or dose on the bags or syringes. According to Fakhouri, the syringes contained testosterone. Patients brought the syringes to the office, staff would draw them up for the patient, and the patient was supposed to take the syringes home. However, the syringes remained at the clinic.

PRIOR DISCIPLINE

13. In April 2021, the Board disciplined Fakhouri for failure to adequately supervise a physician's assistant prescribing opioid medication, resulting in a $2,500 fine and probation.

APPLICABLE LAW

14. "'Dispense' means to deliver a controlled substance or dangerous drug to an ultimate user, patient or subject of research by or pursuant to the lawful order of a practitioner, including the prescribing by a practitioner, administering, packaging, labeling or compounding necessary to prepare the substance for that delivery." NRS 639.0065.

15. To dispense dangerous drugs or controlled substances in Nevada, a practitioner must apply for and obtain a certificate of registration issued pursuant to NAC 639.742. *See also* NRS 639.23505.

16. A practitioner must keep complete, accurate and readily retrievable records of each controlled substance and dangerous drug purchased and dispensed. NAC 639.745(1)(a). *See also*, NRS 454.286(1) and (2).

17. It is unlawful to sell dangerous drugs at wholesale, or to permit dangerous drugs to be sold at wholesale, unless the seller holds a wholesaler license issued by the Board. NRS 639.100(1); NRS 639.233; NAC 639.593.

18. It is unlawful to introduce into interstate commerce, or to receive in interstate commerce, any drug that is misbranded or that may not be lawfully introduced into interstate commerce. 21 U.S.C.A. § 331; NRS 454.351.

19. It is unlawful to introduce into intrastate commerce any new drug which is subject to 21 U.S.C. § 355. NRS 585.490.

20. The sale or delivery or holding or offering for sale any drug that is adulterated is prohibited under Nevada law. NRS 585.520(1). A drug shall be deemed adulterated if it is a drug recognized in an official compendium and its quality or purity falls below the standard set forth in the compendium. NRS 585.380.

21. The Board may suspend or revoke any registration if the holder or applicant: 1) has violated, attempted to violate, assisted, or abetted in the violation of or conspired to violate any of the provisions of NRS chapter 639 or any law or regulation relating to drugs; or 2) is guilty of unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4) and (12).

22. Unprofessional conduct includes performing any act, task or operation for which licensure, certification or registration is required without the required license, certificate or registration. NAC 639.945(1)(k). Unprofessional conduct also includes performing any duties as the holder of a license, certificate or registration issued by the Board, or as the owner of a business or an entity licensed by the Board, in an incompetent, unskillful or negligent manner. NAC 639.945(1)(i). It also includes aiding or abetting unlicensed activity in Nevada. NAC 639.945(1)(j).

23. The Board may suspend or revoke the registration to dispense a controlled substance if the registrant has committed an act that would render registration inconsistent with the public interest as determined pursuant to that section. NRS 453.236(1)(e). *See also* NRS 453.231(1)(h).

\\\

\\\

COUNT ONE
Violations of State Law – Dispensing without a License
(Respondent Fakhouri)

24. As alleged above, Respondent Fakhouri engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(k) when he dispensed dangerous drugs without a dispensing practitioner license as required by NRS 454.215(3), NRS 639.23505, and NAC 639.742.

25. This is a violation of law for which the Board may impose administrative discipline. *See* NRS 639.210(4) and (12); NRS 453.236(1)(e); NRS 453.231(1)(h).

COUNT TWO
Negligence and/or Violation of State Law – Improper Storage of Medications
(Respondent Fakhouri)

26. As alleged above, Respondent engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(i) when Respondent improperly stored medications, including storing multi-dose vials that had been punctured without a puncture or beyond use date noted, and syringes of drugs with no label.

27. Based upon the facts or circumstances surrounding his professional knowledge of drugs, Respondent knew or should have known that storing, holding for sale, and administering drugs without labels or that are labeled as multi-dose with no puncture or beyond use date noted was unsafe.

28. As alleged above, Respondent performed his duties as the holder of a registration issued by the Board in a negligent, unskillful, or incompetent manner.

29. This is a violation of law for which the Board may impose administrative discipline. *See* NRS 639.210(4) and (12); NRS 453.236(1)(e); NRS 453.231(1)(h).

COUNT THREE

Violation of State Law Pertaining to Drugs – Failure to Maintain Records
(Respondent Fakhouri)

30. As alleged above, Respondent Fakhouri engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(m) when he failed to maintain and produce to Board staff upon request a complete and accurate record of all dangerous drugs he dispensed to patients as required by NRS 454.286(1) and (2) and NAC 639.745.

31. This is a violation of law for which the Board may impose administrative discipline. *See* NRS 639.210(4) and (12); NRS 453.236(1)(e); NRS 453.231(1)(h).

COUNT FOUR

Violation of State Law – Possessing, Selling, Furnishing Drugs Not Approved in the United States
(Respondents Fakhouri and Ghandi)

32. As alleged above, Respondents Fakhouri and Ghandi administered retatrutide and cagrilintide prescriptions to patients, both of which have not been approved by the FDA.

33. By purchasing, possessing, selling, furnishing and/or administering drug products not approved for distribution or use in the U.S., Respondents Fakhouri and Ghandi violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 454.351(1) and/or NRS 585.490.

34. Having violated state law pertaining to dangerous drugs, Respondents Fakhouri and Ghandi are subject to discipline pursuant to NAC 639.295(10), NRS 639.210(11), NRS 639.210(12), and/or NRS 453.236(1)(e).

COUNT FIVE

Unprofessional Conduct -Performing Duties in an Incompetent, Unskillful, or Negligent Manner
(Respondent Fakhouri)

35. As alleged above, Respondent Fakhouri acquired dangerous drugs from an online retailer, Battle Born Peptides. The drugs contained labels from Superior Rx, Rx Solution LLC, and American Industry Inc.

36. During the relevant time period, the wholesalers/manufacturers were not licensed by the Board to manufacture, sell, or distribute dangerous drugs at wholesale.

37. Respondent Fakhouri knew or should have known that Battle Born Peptides, Superior Rx, Rx Solution LLC, and American Industry Inc. were not known, reputable sources because they were not licensed in Nevada.

38. By purchasing drugs from businesses that were not licensed wholesalers or manufacturers in Nevada, Respondent Fakhouri breached his duties as a purchaser and as the holder of a certificate of registration issued by the Board in an incompetent, unskillful, or negligent manner.

39. Respondent's conduct as alleged above amounts to unprofessional conduct for which the Board may impose administrative discipline. *See* NRS 639.210(4); NAC 639.945(1)(i).

COUNT SIX

Unprofessional Conduct – Permitting Unlicensed Distribution
(Respondent Fakhouri)

40. As alleged above, Respondent Fakhouri acquired dangerous drugs from an online retailer, Battle Born Peptides. The drugs contained labels from Superior Rx, Rx Solution LLC, and American Industry Inc.

41. During the relevant time period, the wholesalers/manufacturers were not licensed by the Board to sell or distribute dangerous drugs at wholesale.

42. Respondent Fakhouri knew or should have known that Battle Born Peptides, Superior Rx, Rx Solution LLC, and American Industry Inc. were not known, reputable sources because they were not licensed in Nevada.

43. By purchasing drugs from companies that were not licensed wholesalers in Nevada, Respondent Fakhouri assisted or permitted the unlicensed wholesale distribution of drugs in violation of NRS 639.100(1).

44. Respondent Fakhouri's conduct as alleged above amounts to unprofessional conduct for which the Board may impose administrative discipline. *See* NRS 639.210(12); NAC 639.945(1)(j).

WHEREFORE it is requested that the Nevada State Board of Pharmacy impose appropriate disciplinary action with respect to the certificates of registration for Respondent Ibrahim Fakhouri, MD and Respondent Nirav Gandhi, MD.

Signed this 11th day of May 2026.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, by and through its General Counsel, Laura M. Tucker, and Respondent Ibrahim T. Fakhouri, MD ("Respondent"), by and through his counsel, Maria Nutile, Esq., hereby stipulate and agree as follows:

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent and this matter.

2. The Board's staff properly served Respondent with the Notice of Intended Action and Accusation ("Accusation") on file in this matter, together with the Statement to Respondent and Notice of Hearing.

3. Respondent is fully aware of the right to seek the advice of counsel in this matter and obtained the advice of counsel prior to entering into this Stipulation.

4. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration, the right to appeal and any and all other rights which may be accorded pursuant to NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

5. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondent has failed to comply with the provisions of

this Stipulation, Respondent hereby knowingly and voluntarily waives the rights to a hearing, reconsideration, appeal and any and all other rights related to this action that may be accorded by NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

6. Respondent does not contest the allegations stated in Count One, Count Two, Count Three, Count Four, Count Five, and Count Six of the Accusation, and further admits that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the violations alleged therein, *to wit*:

A. At all times relevant, Respondent worked at Nevada Family Care & Wellness Center, located at 861 Coronado Center Drive, Ste 220, in Henderson.

B. Respondent engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(k) when he dispensed dangerous drugs without a dispensing practitioner license as required by NRS 454.215(3), NRS 639.23505, and NAC 639.742. As such, Respondent is subject to discipline pursuant to NRS 639.210(4) and (12); NRS 453.236(1)(e); NRS 453.231(1)(h).

C. Respondent engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(i) when Respondent improperly stored medications, including storing multi-dose vials that had been punctured without a puncture or beyond use date noted, and syringes of drugs with no label.

D. Based upon the facts or circumstances surrounding his professional knowledge of dangerous drugs, Respondent knew or should have known that storing, holding for sale, and administering drugs without labels or that are labeled as multi-dose with no puncture or beyond use date noted was unsafe. As such, Respondent performed his duties as the holder of a registration issued by the Board in a negligent, unskillful, or incompetent manner and is subject to discipline pursuant to NRS 639.210(4) and (12); NRS 453.236(1)(e); NRS 453.231(1)(h).

E. Respondent engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(m) when he failed to maintain and produce to Board staff upon

request a complete and accurate record of all dangerous drugs he dispensed to patients as required by NRS 454.286(1) and (2) and NAC 639.745 As such, Respondent is subject to discipline pursuant to NRS 639.210(4) and (12); NRS 453.236(1)(e); NRS 453.231(1)(h).

F. Respondent administered retatrutide and cagrilintide prescriptions to patients, both drugs that have not been approved for distribution or use in the United States, to patients at Nevada Family Care & Wellness in violation NRS 454.351(1) and/or NRS 585.490. As such, Respondent violated a state law pertaining to drugs and is subject to discipline pursuant to NAC 639.295(10), NRS 639.210(11), NRS 639.210(12), and/or NRS 453.236(1)(e).

G. Respondent acquired dangerous drugs from wholesalers/manufacturers who were not licensed by the Board to sell or distribute drugs at wholesale. In doing so, Respondent breached his duties as a purchaser and as the holder of a certificate of registration issued by the Board and acted in an incompetent, unskillful, or negligent manner. As such, Respondent's actions amount to unprofessional conduct for which the Board may impose administrative discipline pursuant to NRS 639.210(4) and NAC 639.945(1)(i).

H. Respondent acquired dangerous drugs from wholesalers/manufacturers who were not licensed by the Board to sell or distribute drugs at wholesale. In doing so, Respondent assisted or permitted the unlicensed wholesale distribution of drugs in violation of NRS 639.100(1). As such, Respondent's actions amount to unprofessional conduct for which the Board may impose administrative discipline pursuant to NRS 639.210(12), NAC 639.900(4), and NAC 639.945(1)(j).

7. Those violations are pled with particularity in the Accusation and grounds for action pursuant to NRS 639.210 and NRS 639.255.

8. Now, therefore, to resolve the allegations stated in Count One, Count Two, Count Three, Count Four, Count Five, and Count Six of the Accusation without incurring any further costs or the expenses associated with a hearing, the Board and Respondent agree to the imposition of the following penalties:

A. Respondent's certificate of registration no. CS19540 is SUSPENDED; however, the suspension is STAYED, and Respondent shall be placed on probation for a period of one year from the effective date of this Order.

B. Respondent agrees to pay an administrative fine of **Ten Thousand and 00/100 Dollars ($10,000.00)**, payable by *personal, business, certified or cashier's check or money order* written to the "**State of Nevada, Office of the Treasurer.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Order.

C. Respondent shall pay the sum of **One Thousand and 00/100 Dollars ($1,000.00)** to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this case. This sum shall be payable by *personal, business, certified or cashier's check or money order* written to the "**Nevada State Board of Pharmacy.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Order.

Upon successful completion of the terms and conditions of probation as set forth herein, Respondent's certificate of registration shall be automatically reinstated without conditions or restrictions.

9. Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may impose additional discipline upon Respondent not inconsistent with the provisions of NRS Chapters 453 and 639.

10. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on July 15, 2026. Respondent will appear at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members

and Staff may discuss and deliberate regarding this Stipulation, even if Respondent or counsel are not present at the meeting.

11. The Board has discretion to accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 USC § 1396r–2 and 45 CFR Part 60, and shall be further reported pursuant to NAC 639.960.

12. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the merits of this matter may be heard by the Board. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

13. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any and all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **IBRAHIM T. FAKHOURI, MD,** **Certificate of Registration No. CS19540, and** **NIRAV SHARAD GANDHI, MD,** **Certificate of Registration No. CS14653,** **Respondents.**	**Case Nos. 25-274-CS-A-S** **25-274-CS-B-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Ibrahim Fakhouri, MD (Fakhouri) held a registration issued by the Board, Certificate of Registration No. CS19540, and Respondent Nirav Gandhi, MD (Ghandi) held a registration issued by the Board, Certificate of Registration No. CS14653.

FACTUAL ALLEGATIONS

2. Fakhouri is a medical doctor who has been licensed by the Nevada State Board of Medical Examiners since June 2011. He has been registered to prescribe controlled substances since August 2011.

3. Ghandi is a medical doctor who has been licensed by the Nevada State Board of Medical Examiners since August 2006. He has been registered to prescribe controlled substances since October 2006.

4. At all times relevant, both Fakhouri and Ghandi have been employed at Nevada Family Care & Wellness Center, located at 861 Coronado Center Drive, Ste 220, in Henderson.

5. On or about July 9, 2025, the Board received a complaint from a practitioner that, during a consultation with a mutual patient of Nevada Family Care & Wellness Center, the patient stated that she received retratrutide from the clinic. Retatrutide is not approved by the FDA and is currently in phase 3 clinical trials.[1]

6. On or about July 29, 2025, Board Investigator Dena McClish (McClish) and Inspector John Castaldo (Castaldo) made a site visit to Nevada Family Care & Wellness Center while Fakhouri was present.

7. During the inspection, McClish and Castaldo found numerous vials of retratutide, cagrilintide[2], semaglutide, human chorionic gonadotropin (HcG), NAD+, and tirzepatide that contained labels from Superior Rx, which is a distributor and/or manufacturer that does not hold a license with the Board.

8. Also during the inspection, Board staff found vials of NAD+ 500 mg, Kisspeptin 10 mg, and Test C100 with NV Extreme Fitness labels. NV Extreme Fitness advertises on Nevada Family Care & Wellness Center's website and shows the same address as the clinic. Some of the vials indicated they were manufactured by Rx Solution LLC, American Industry

[1] *See* Eli Lilly and Co., "What to know about retatrutide: An investigational triple hormone receptor agonist," https://www.lilly.com/news/stories/what-to-know-about-retatrutide (Last visited Dec. 26, 2025).
[2] Cagrilintide is not approved by the FDA and is currently in phase 3 clinical trials.

Inc. and Superior Rx. Neither Rx Solution LLC nor American Industry Inc. are licensed with the Board.

9. Fakhouri purchased the drugs Board staff found from a Nevada-based online retailer, Battle Born Peptides. However, Battle Born Peptides is not licensed by the Board. A Board investigation found that Battle Born Peptides appears to no longer be in business and may have been operating out of a residential location.

10. McClish and Castaldo found various dangerous drugs stored in the cabinets at Nevada Family Care & Wellness Center, including Minoxidil, Spironolactone, Ibuprofen (600mg strength), and sildenafil. The clinic's website also advertises these drugs for sale. These medications are dispensed to patients for home use, but no prescriptions were created for the dispensations, and Fakhouri did not provide a dispensing log to Board staff. Neither Fakhouri nor Ghandi hold a dispensing license with the Board.

11. The clinic stocked several punctured or used multi-dose vials of dangerous drugs with no puncture date or beyond use date noted. Furthermore, various peptide medications in the clinic did not contain any information regarding a compounded date, thaw date, or use by date.

12. Board staff found approximately ten resealable bags with patient names written on them containing four to twelve glass-type syringes. The syringes did not have a label indicating medication name, strength, or dose on the bags or syringes. According to Fakhouri, the syringes contained testosterone. Patients brought the syringes to the office, staff would draw them up for the patient, and the patient was supposed to take the syringes home. However, the syringes remained at the clinic.

PRIOR DISCIPLINE

13. In April 2021, the Board disciplined Fakhouri for failure to adequately supervise a physician's assistant prescribing opioid medication, resulting in a $2,500 fine and probation.

APPLICABLE LAW

14. "'Dispense' means to deliver a controlled substance or dangerous drug to an ultimate user, patient or subject of research by or pursuant to the lawful order of a practitioner, including the prescribing by a practitioner, administering, packaging, labeling or compounding necessary to prepare the substance for that delivery." NRS 639.0065.

15. To dispense dangerous drugs or controlled substances in Nevada, a practitioner must apply for and obtain a certificate of registration issued pursuant to NAC 639.742. *See also* NRS 639.23505.

16. A practitioner must keep complete, accurate and readily retrievable records of each controlled substance and dangerous drug purchased and dispensed. NAC 639.745(1)(a). *See also*, NRS 454.286(1) and (2).

17. It is unlawful to sell dangerous drugs at wholesale, or to permit dangerous drugs to be sold at wholesale, unless the seller holds a wholesaler license issued by the Board. NRS 639.100(1); NRS 639.233; NAC 639.593.

18. It is unlawful to introduce into interstate commerce, or to receive in interstate commerce, any drug that is misbranded or that may not be lawfully introduced into interstate commerce. 21 U.S.C.A. § 331; NRS 454.351.

19. It is unlawful to introduce into intrastate commerce any new drug which is subject to 21 U.S.C. § 355. NRS 585.490.

20. The sale or delivery or holding or offering for sale any drug that is adulterated is prohibited under Nevada law. NRS 585.520(1). A drug shall be deemed adulterated if it is a drug recognized in an official compendium and its quality or purity falls below the standard set forth in the compendium. NRS 585.380.

21. The Board may suspend or revoke any registration if the holder or applicant: 1) has violated, attempted to violate, assisted, or abetted in the violation of or conspired to violate any of the provisions of NRS chapter 639 or any law or regulation relating to drugs; or 2) is guilty of unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4) and (12).

22. Unprofessional conduct includes performing any act, task or operation for which licensure, certification or registration is required without the required license, certificate or registration. NAC 639.945(1)(k). Unprofessional conduct also includes performing any duties as the holder of a license, certificate or registration issued by the Board, or as the owner of a business or an entity licensed by the Board, in an incompetent, unskillful or negligent manner. NAC 639.945(1)(i). It also includes aiding or abetting unlicensed activity in Nevada. NAC 639.945(1)(j).

23. The Board may suspend or revoke the registration to dispense a controlled substance if the registrant has committed an act that would render registration inconsistent with the public interest as determined pursuant to that section. NRS 453.236(1)(e). *See also* NRS 453.231(1)(h).

COUNT ONE
Violations of State Law – Dispensing without a License
(Respondent Fakhouri)

24. As alleged above, Respondent Fakhouri engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(k) when he dispensed dangerous drugs without a dispensing practitioner license as required by NRS 454.215(3), NRS 639.23505, and NAC 639.742.

25. This is a violation of law for which the Board may impose administrative discipline. *See* NRS 639.210(4) and (12); NRS 453.236(1)(e); NRS 453.231(1)(h).

COUNT TWO
Negligence and/or Violation of State Law – Improper Storage of Medications
(Respondent Fakhouri)

26. As alleged above, Respondent engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(i) when Respondent improperly stored medications, including storing multi-dose vials that had been punctured without a puncture or beyond use date noted, and syringes of drugs with no label.

27. Based upon the facts or circumstances surrounding his professional knowledge of drugs, Respondent knew or should have known that storing, holding for sale, and administering drugs without labels or that are labeled as multi-dose with no puncture or beyond use date noted was unsafe.

28. As alleged above, Respondent performed his duties as the holder of a registration issued by the Board in a negligent, unskillful, or incompetent manner.

29. This is a violation of law for which the Board may impose administrative discipline. *See* NRS 639.210(4) and (12); NRS 453.236(1)(e); NRS 453.231(1)(h).

COUNT THREE

Violation of State Law Pertaining to Drugs – Failure to Maintain Records
(Respondent Fakhouri)

30. As alleged above, Respondent Fakhouri engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(m) when he failed to maintain and produce to Board staff upon request a complete and accurate record of all dangerous drugs he dispensed to patients as required by NRS 454.286(1) and (2) and NAC 639.745.

31. This is a violation of law for which the Board may impose administrative discipline. *See* NRS 639.210(4) and (12); NRS 453.236(1)(e); NRS 453.231(1)(h).

COUNT FOUR

Violation of State Law – Possessing, Selling, Furnishing Drugs Not Approved in the United States
(Respondents Fakhouri and Ghandi)

32. As alleged above, Respondents Fakhouri and Ghandi administered retatrutide and cagrilintide prescriptions to patients, both of which have not been approved by the FDA.

33. By purchasing, possessing, selling, furnishing and/or adminstering drug products not approved for distribution or use in the U.S., Respondents Fakhouri and Ghandi violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 454.351(1) and/or NRS 585.490.

34. Having violated state law pertaining to dangerous drugs, Respondents Fakhouri and Ghandi are subject to discipline pursuant to NAC 639.295(10), NRS 639.210(11), NRS 639.210(12), and/or NRS 453.236(1)(e).

COUNT FIVE

Unprofessional Conduct -Performing Duties in an Incompetent, Unskillful, or Negligent Manner (Respondent Fakhouri)

35. As alleged above, Respondent Fakhouri acquired dangerous drugs from an online retailer, Battle Born Peptides. The drugs contained labels from Superior Rx, Rx Solution LLC, and American Industry Inc.

36. During the relevant time period, the wholesalers/manufacturers were not licensed by the Board to manufacture, sell, or distribute dangerous drugs at wholesale.

37. Respondent Fakhouri knew or should have known that Battle Born Peptides, Superior Rx, Rx Solution LLC, and American Industry Inc. were not known, reputable sources because they were not licensed in Nevada.

38. By purchasing drugs from businesses that were not licensed wholesalers or manufacturers in Nevada, Respondent Fakhouri breached his duties as a purchaser and as the holder of a certificate of registration issued by the Board in an incompetent, unskillful, or negligent manner.

39. Respondent's conduct as alleged above amounts to unprofessional conduct for which the Board may impose administrative discipline. *See* NRS 639.210(4); NAC 639.945(1)(i).

COUNT SIX

Unprofessional Conduct – Permitting Unlicensed Distribution (Respondent Fakhouri)

40. As alleged above, Respondent Fakhouri acquired dangerous drugs from an online retailer, Battle Born Peptides. The drugs contained labels from Superior Rx, Rx Solution LLC, and American Industry Inc.

41. During the relevant time period, the wholesalers/manufacturers were not licensed by the Board to sell or distribute dangerous drugs at wholesale.

42. Respondent Fakhouri knew or should have known that Battle Born Peptides, Superior Rx, Rx Solution LLC, and American Industry Inc. were not known, reputable sources because they were not licensed in Nevada.

43. By purchasing drugs from companies that were not licensed wholesalers in Nevada, Respondent Fakhouri assisted or permitted the unlicensed wholesale distribution of drugs in violation of NRS 639.100(1).

44. Respondent Fakhouri's conduct as alleged above amounts to unprofessional conduct for which the Board may impose administrative discipline. *See* NRS 639.210(12); NAC 639.945(1)(j).

WHEREFORE it is requested that the Nevada State Board of Pharmacy impose appropriate disciplinary action with respect to the certificates of registration for Respondent Ibrahim Fakhouri, MD and Respondent Nirav Gandhi, MD.

Signed this 11th day of MAY 2026.

Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration, the right to appeal and any and all other rights which may be accorded pursuant to NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

5. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondent has failed to comply with the provisions of this Stipulation, Respondent hereby knowingly and voluntarily waives the rights to a hearing, reconsideration, appeal and any and all other rights related to this action that may be accorded by NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

6. Respondent does not contest the allegations stated in Count Four of the Accusation, and further admits that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the violations alleged therein, *to wit*:

A. At all times relevant, Respondent worked at Nevada Family Care & Wellness Center, located at 861 Coronado Center Drive, Ste 220, in Henderson.

B. Respondent administered retatrutide and cagrilintide prescriptions to patients, both drugs that have not been approved for distribution or use in the United States, to patients at Nevada Family Care & Wellness in violation NRS 454.351(1) and/or NRS 585.490. As such, Respondent violated a state law pertaining to drugs and is subject to discipline pursuant to NAC 639.295(10), NRS 639.210(11), NRS 639.210(12), and/or NRS 453.236(1)(e).

7. Those violations are pled with particularity in the Accusation and grounds for action pursuant to NRS 639.210 and NRS 639.255.

8. Now, therefore, to resolve the allegations stated in Count Four of the Accusation without incurring any further costs or the expenses associated with a hearing, the Board and Respondent agree to the imposition of the following penalties:

A. Respondent's certificate of registration no. CS14653 is SUSPENDED; however, the suspension is STAYED, and Respondent shall be placed on probation for a period of one year from the effective date of this Order.

B. Respondent agrees to pay an administrative fine of **Five Thousand and 00/100 Dollars ($5,000.00)**, payable by *personal, business, certified or cashier's check or money*

order written to the "**State of Nevada, Office of the Treasurer.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Order.

C. Respondent shall pay the sum of **One Thousand and 00/100 Dollars ($1,000.00)** to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this case. This sum shall be payable by *personal, business, certified or cashier's check or money order* written to the "**Nevada State Board of Pharmacy.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Order.

Upon successful completion of the terms and conditions of probation as set forth herein, Respondent's certificate of registration shall be automatically reinstated without conditions or restrictions.

9. Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may impose additional discipline upon Respondent not inconsistent with the provisions of NRS Chapters 453 and 639.

10. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on July 15, 2026. Respondent will appear at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent or counsel are not present at the meeting.

11. The Board has discretion to accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and

shall be reported to the National Practitioner Data Bank pursuant to 42 USC § 1396r–2 and 45 CFR Part 60, and shall be further reported pursuant to NAC 639.960.

12. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the merits of this matter may be heard by the Board. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

13. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any and all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order.

Respondent has fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and has freely and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **DARRELL LINDERS, APRN,** **Certificate of Registration No. CS41067,** **Respondent.**	**Case No. 25-289-CS-O** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter because Darrell Linders, APRN, (Respondent) holds Certificate of Registration No. CS41067 issued by the Board, authorizing him to prescribe dangerous drugs and controlled substances.

FACTUAL ALLEGATIONS

2. Respondent is an advanced practice registered nurse who has been licensed by the Nevada State Board of Nursing since July 9, 2025.

3. Since October 21, 2025, Respondent has held a certificate of registration issued by the Board pursuant to NRS 453.226 and NRS 454.213, authorizing him to prescribe dangerous drugs and controlled substances.

4. On or about July 11 through July 13, 2025, Respondent was engaged by Dr. Kent Holtorf (Holtorf), a physician who is not licensed by the Board or by the Nevada State Board of Medical Examiners, to work at a booth at the Revolution Against Aging and Death (RAAD) Festival, held at Red Rock Resort and Casino in Las Vegas.

5. According to its website,[1] RAAD Festival is a "longevity" event that brings together "researchers, doctors, practitioners, biohackers, and everyday people who believe disease and aging doesn't have to be inevitable."

6. Holtorf operates an anti-aging medical practice in El Segundo, California. At Holtorf's booth, the medical practice offered several different types of injectable drugs, including peptide injections.

7. A Board investigation found that Holtorf purchased the drug products, including, without limitation, MOTS-c 5mg, P21 2.5mg, BPC-157 2.5mg, TB4 2.5mg, Humanin, B-12, ACE-31, and CJC peptides, through Forgotten Formula PMA. Forgotten Formula PMA, located in Justin TX, is not licensed to engage in business as a wholesaler in Nevada.

8. At the time of the events alleged herein, during the RAAD Festival, Respondent did not hold a license from the Board to possess, administer, or prescribe dangerous drugs or controlled substances in Nevada.

9. Holtorf also engaged Han Bao Nguyen (Nguyen), a pharmacist who did not hold a license by the Board to practice pharmacy, to work at his booth at the RAAD Festival. Nguyen's role at RAAD Festival was to assist the nurse practitioners, including Respondent, and physicians in mixing drugs and administering injections at the booth.

10. On July 12, 2025, patient C.R. visited Holtorf's booth at RAAD Fest. Nguyen administered a B-12 injection for patient C.R.

11. On July 13, 2025, patient C.R. returned to the booth for a second B-12 injection, and Nguyen advised her that she should not have another one. Nguyen then mixed her a peptide cocktail consisting of MOTS-c 5mg, P21 2.5mg, BPC-157 2.5mg, and Thymosin Beta-4 2.5mg.

12. Respondent notated his administration of the drug to patient C.R. on a chart note.

13. After Respondent received the prepared injection from Nguyen, Respondent administered the peptide cocktail to patient C.R.

[1] https://www.raadfest.com/faq

14. After receiving the injection, patient C.R. started experiencing double vision and swelling of her tongue and throat. Patient C.R. went to a friend's room at the hotel to try to sleep. While in the room, patient C.R. sent a text message to Respondent.

15. Respondent went up to C.R.'s room and immediately called emergency services. Respondent observed patient C.R. conscious and breathing, but unable to open her eyes, slurring her speech, experiencing mild tongue swelling, and complaining of altered vision and shakiness.

16. Holtorf arrived at the room and administered diphenhydramine 50 mg and epinephrine 0.3 mg.

17. Patient C.R. was taken to a hospital by emergency medical services. She was intubated during transport.

APPLICABLE LAW

18. Pursuant to NRS 639.100(1), it is unlawful for any person to possess, store, administer and/or dispense dangerous drugs, including a hypodermic device, without having secured the appropriate license and/or certificate of registration from the Board. NRS 454.213; NRS 454.316; NRS 454.510; NRS 639.100(1).

19. Only those individuals or practitioners permitted to do so pursuant to NRS 454.213 may possess, store, or administer dangerous drugs. Practitioners include a physician who holds a valid license to practice his or her profession in Nevada, as well as an advanced practice registered nurse who holds a certificate from the State Board of Pharmacy permitting him or her to prescribe. NRS 454.00958(1); (3)(a). *See also* NRS 639.850 (requiring advanced practice registered nurses to apply to the Board for licensure to prescribe controlled substances, dangerous drugs, and devices).

20. Advanced practice registered nurses who are licensed by the Board are authorized to prescribe controlled substances, poisons, dangerous drugs and devices only for a legitimate medical purpose that is within the scope of practice in which the advanced practice registered nurse

is trained, qualified and competent and subject to any limitations prescribed by the State Board of Nursing. NAC 639.854(1).

21. The Board may suspend or revoke any registration if the holder or applicant: 1) has violated, attempted to violate, assisted, or abetted in the violation of or conspired to violate any of the provisions of NRS chapter 639 or any law or regulation relating to drugs; or 2) is guilty of unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4) and (12).

22. Unprofessional conduct includes performing any act, task or operation for which licensure, certification or registration is required without the required license, certificate or registration. NAC 639.945(1)(k).

23. Aiding or abetting a person not licensed to practice pharmacy in the State of Nevada constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(l)(j) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4); NRS 639.255.

24. The Board may suspend or revoke the registration to prescribe a controlled substance if the registrant has committed an act that would render registration inconsistent with the public interest as determined pursuant to that section. NRS 453.236(1)(e). *See also* NRS 453.231(1)(h).

COUNT ONE

Violation of State Law – Administering Drugs without a License

25. As alleged above, Respondent engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(k) when he administered drugs without a license as required by NRS 454.213 and NRS 639.100(1). *See also* NAC 639.945(1)(k).

26. This is a violation of law for which the Board may impose administrative discipline. See NRS 639.210(4) and (12); NRS 453.236(1)(e); NRS 453.231(1)(h).

\\\

\\\

COUNT TWO

Violation of State Law –Prescribing Drugs without a License

27. As alleged above, Respondent violated NAC 639.850 and NAC 639.854(1) when he prescribed a peptide cocktail to patient C.R. pursuant to a chart order without authority and from the Board and without a legitimate medical purpose that is within the scope of practice in which he was trained.

28. This is a violation of law for which the Board may impose administrative discipline. See NRS 639.210 (12); NRS 453.236(1)(e); NRS 453.231(1)(h).

COUNT THREE

Violation of State Law – Possessing Drugs without a License

29. As alleged above, Respondent engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(k) when he possessed drugs without a license as required by NRS 454.213 and NRS 639.100(1). *See also* NAC 639.945(1)(k).

30. This is a violation of law for which the Board may impose administrative discipline. See NRS 639.210(4) and (12); NRS 453.236(1)(e); NRS 453.231(1)(h).

COUNT FOUR

Unprofessional Conduct – Assisting or abetting unlicensed practice

31. As alleged above, Holtorf and Nguyen did not have licenses issued by the Board as required by NRS 639.100(1) and were not practitioners under NRS 454.00958 when they worked a booth at RAAD Fest on July 11 through 13.

32. As alleged above, Respondent assisted Holtorf and Nguyen, as well as other employees at the RAAD Fest booth, in possessing, storing, administering and/or dispensing drugs in Nevada without a license as required by NRS 639.100(1) and NRS 454.213.

33. By assisting the unlicensed activity of Holtorf, Nguyen, and other employees at the booth at RAAD Fest, Respondent engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(j).

34. This is a violation of law for which the Board may impose administrative discipline. *See* NRS 639.210(4), and (12), and/or NRS 639.255.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of Respondent Darrell Linders, APRN.

DATED this 10th day of JUNE 2026.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3). The hearing shall be conducted pursuant to NRS 639.241 through NRS 639.258. To be entitled to a hearing, you must complete, and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Notice of Intended Action and Accusation. NRS 622A.320; NRS 639.243. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350. A regulatory body may recover from a person reasonable attorney's fees and costs that are incurred by the regulatory body as a part of its investigative, administrative, and disciplinary proceedings against the person if the regulatory body finds that the person has violated any provision of this title. NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **TOTAL INFUSION CARE,** **License No. PH02936, and** **MOHAMMAD POURTEYMAUR,** **Certificate of Registration No. 13759,** **Respondents.**	**Case Nos. 25-501-PH-S** **25-501-RPH-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Total Infusion Care, License No. PH02936, held a license by the Board as a pharmacy, and Respondent Mohammad Pourteymaur (Pourteymaur), Certificate of Registration No. 13759, is a pharmacist licensed by the Board.

FACTUAL ALLEGATIONS

2. Total Infusion Care, located at 3041 W. Horizon Ridge Parkway #100 in Henderson, is a home infusion pharmacy that exclusively performs sterile compounding that has been licensed by the Board since 2013.

3. At all times relevant, Pourteymaur was employed as managing pharmacist for sterile compounding at Total Infusion Care. At all times relevant, Pourteymaur was also the designated person, as defined by chapter 797 of the *United States Pharmacopeia – National Formulary* (USP-797 Guidelines), for Total Infusion Care.

4. On December 22, 2025, Board Inspector Joe Dodge (Dodge) performed an inspection of Total Infusion Care. Pourteymaur was on-site at the time of the inspection.

5. During the inspection, Dodge noted several deficiencies from the USP 797-Guidelines, including:

A. Pourteymaur had no knowledge of the compounding standards provided by the revised USP-797 Guidelines that became effective November 15, 2024 and began to be enforced by the Board on February 1, 2025;

B. Pourteymaur was unable to identify what categories of compounding were performed at the Total Infusion Care location;

C. Pourteymaur had no knowledge of the new garbing assessment requirements, and Total Infusion Care had no results for post-garbing gloved finger-tip testing for any compounding employees;

D. Pourteymaur had no knowledge of the new aseptic manipulation assessment requirements, and Total Infusion Care had no surface sampling post-media-fill testing results for any compounding employees;

E. Total Infusion Care had not properly documented gloved finger-tip testing on multiple employees;

F. Total Infusion Care had not completed gloved finger-tip testing on Pourteymaur every six months;

G. Total Infusion Care did not properly document monthly surface sampling;

H. Total Infusion Care failed to provide initial or ongoing competency documentation for compounding staff members;

I. Pourteymaur had no knowledge of his requirement to acknowledge all policies and procedures on an annual basis and could not produce a record of this task being completed when asked by Dodge;

J. Dodge identified at least one compounding form during the inspection that did not contain the name of the person who compounded the product; and

K. Total Infusion Care failed to demonstrate a process for documenting tasks that are due every six (6) months are completed in the time frame.

PRIOR DISCIPLINE

6. In 2007, the Board disciplined Pourteymaur for failing to complete any of the thirty (30) hours of continuing education (CEs) for the renewal period of November 1, 2005 to October 31, 2007 and for falsely attesting that he had completed the required CEs for that renewal period. The Board ordered Pourteymaur to pay a $1,000 fine, complete sixty (60) CEs, and take and pass a written Nevada law examination.

APPLICABLE LAW

7. "Sterile compounded drug product" means a drug product the preparation and dispensing of which require compounding and which is required to be sterile by either the USP-797 Guidelines or the provisions of NAC 639.661 to 639.690, inclusive. NAC 639.6677.

8. A pharmacy engaged in the practice of compounding and dispensing sterile compounded drugs shall require each pharmacist and pharmaceutical technician who compounds sterile compounded drug products to comply with the compounding standards provided by the USP-797 Guidelines. *See* NAC 639.67053, *as amended* by LCB File. No. R053-24 (effective November 15, 2024).

9. The Board follows and enforces the USP-797 Guidelines 2023 edition. *See* NAC 639.670(1)(b), *as amended* by LCB File. No. R053-24 (effective November 15, 2024).

10. A compound pharmacy shall ensure that each pharmacist and pharmaceutical technician engaged in compounding drug products is competent and proficient in compounding the drug products that the pharmacist or pharmaceutical technician will be authorized and expected to compound and receives, on an ongoing basis, sufficient training to maintain that competency and proficiency. NAC 639.67013(1).

11. Records at compounding pharmacies must be maintained by the pharmacy for at least two (2) years after the date the record was made and be available for inspection by the Board or its representative. NAC 639.67019.

12. Each pharmacy must be managed by a registered pharmacist, approved by the Board, who is responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the pharmacy and practice of pharmacy. NRS 639.220(1).

13. A licensee of the Board may be disciplined for unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4).

14. Unprofessional conduct includes performing one's duties as the holder of a license, certificate or registration issued by the Board, or as the owner of a business or an entity licensed by the Board, in an incompetent, unskillful or negligent manner. NAC 639.945(1)(i).

15. Unprofessional conduct includes failing to provide data or information that is required to be made and maintained pursuant to chapter 639 of the NAC to a member of the staff of the Board upon request. NAC 639.945(1)(m).

16. The Board may discipline a licensee who has violated any provisions of a regulation relating to the practice of pharmacy. NRS 639.210(12).

17. The owner of any business or facility licensed by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(3).

18. In lieu of, or in addition to, revoking or suspending a license holder's registration for violating the law or engaging in unprofessional conduct, the Board may impose fines as a disciplinary measure. *See* NRS 639.255; NAC 639.955.

COUNT ONE

Unprofessional Conduct -Performing Duties in an Incompetent, Unskillful, or Negligent Manner
(Respondent Mohammad Pourteymaur)

19. As alleged above, as the managing pharmacist for Total Infusion Care, Pouteymauer was responsible for, among other things, Total Infusion Care's compliance with all state and federal laws and regulations relating to the operation of the pharmacy and practice of pharmacy. NRS 639.220(1).

20. As alleged above, during a Board inspection on December 22, 2025, a Board inspector found that Total Infusion Care was not in compliance with state laws and regulations relating to the operation of the pharmacy. *See* NAC 639.67053, as amended by LCB File. No. R053-24 (effective November 15, 2024); NAC 639.670(1)(b), as amended by LCB File. No. R053-24 (effective November 15, 2024); and NAC 639.67013(1).

21. Pouteymauer's conduct was unprofessional because he failed to perform his duties as required pursuant to NRS 639.220(1). NAC 639.945(1)(i).

22. Respondent Pouteymauer is subject to professional discipline for the conduct described above. NRS 639.210(4).

COUNT TWO

(Respondent Mohammad Pourteymaur)
Violation of State Regulation Related to Practice of Pharmacy – Failing to Maintain Accurate Records

23. As alleged above, Respondent Pouteymauer engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(m) when he failed to maintain and produce to Board staff upon request records required to be kept pursuant to NAC 639.67019.

24. Respondent Pouteymauer is subject to professional discipline for the conduct described above. NAC 639.945(1)(m); NRS 639.210(12).

COUNT THREE
Center/Facility Owner Responsibility
(Respondent Total Infusion Care)

25. As the center/facility at which the unprofessional conduct and violations of law alleged herein occurred, Respondent Total Infusion Care is responsible for those violations, including all errors and omissions of Respondent Pouteymauer and any other pharmacy personnel in the course of violations of any law or regulation related to the practice of pharmacy, pursuant to NAC 639.945(3).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of Respondents Mohammad Pourteymaur and Total Infusion Care.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **TOTAL INFUSION CARE,** **License No. PH02936, and** **MOHAMMAD POURTEYMAUR,** **Certificate of Registration No. 13759,** **Respondents.**	**CASE NOS. 25-501-PH-S** **25-501-RPH-S** **STIPULATION AND ORDER** **[All Respondents]**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, by and through counsel, Laura M. Tucker, Esq., and Total Infusion Care, Pharmacy License No. PH02936, and Mohammad Pourteymaur, Certificate of Registration No. 13759 ("Respondents"), by and through counsel, William J. Stilling, Esq., hereby stipulate and agree as follows:

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondents and this matter.

2. The Board's staff properly served Respondents with the Notice of Intended Action and Accusation ("Accusation") on file in this matter, together with the Statement to Respondents and Notice of Hearing.

3. Respondents are fully aware of the right to seek the advice of counsel in this matter and obtained the advice of counsel prior to entering into this Stipulation.

4. Respondents are aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration, the right to appeal and any and all other rights which may be accorded pursuant to NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

5. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondents have failed to comply with the provisions of this Stipulation, Respondents hereby knowingly and voluntarily waive the rights to a hearing,

reconsideration, appeal and any and all other rights related to this action that may be accorded by NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

6. Without admitting to the alleged facts or legal conclusions, Respondents admit that evidence exists, and that Board's staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the violations alleged in the Accusation, *to wit*:

A. As the managing pharmacist for Respondent, Mohammad Pourteymaur (Pourteymaur) was responsible for, among other things, Respondent's compliance with all state and federal laws and regulations relating to the operation of the pharmacy and practice of pharmacy. NRS 639.220(1).

B. During a Board inspection on December 22, 2025, a Board inspector found that Respondent, Total Infusion Care, was not in compliance with state laws and regulations relating to the operation of the pharmacy. *See* NAC 639.67053, as amended by LCB File. No. R053-24 (effective November 15, 2024); NAC 639.670(1)(b), as amended by LCB File. No. R053-24 (effective November 15, 2024); and NAC 639.67013(1). As a result, Pourteymaur's conduct was unprofessional because he failed to perform his duties as required pursuant to NRS 639.220(1). NAC 639.945(1)(i).

C. Pourteymaur engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(m) when he failed to maintain and produce to Board staff upon request records required to be kept pursuant to NAC 639.67019.

D. As the center/facility at which the unprofessional conduct and violations of law alleged herein occurred, Respondent Total Infusion Care is responsible for those violations, including all errors and omissions of Pourteymaur and any other pharmacy personnel in the course of violations of any law or regulation related to the practice of pharmacy, pursuant to NAC 639.945(3).

7. Those violations are pled with particularity in the Accusation and grounds for action pursuant to NRS 639.210 and NRS 639.255.

8. The Parties agree that the following measures are mitigating circumstances in the case.

A. Immediately after the December 22, 2025, inspection, Pourteymaur and Total Infusion Care began taking steps to ensure full compliance with all applicable laws and regulations.

B. These steps included timely responding to the deadlines the Board investigator set for Respondents.

A. Immediately after learning of the inspection results, BioMatrix secured a USP <797> consultant from the National Sterile Compounding Institute to evaluate policies and procedures, conduct training, and to assist implementing changes.

B. By January 2, 2026, Pourteymaur completed 34.5 hours of continuing education addressing USP <797> standards from TRC Healthcare (Critical Point).

C. Total Infusion Care purchased Simplifi <797>, which was the software used by other pharmacies owned by BioMatrix (now Lux Infusion).

D. Total Infusion Care provided: (i) a revised surface sampling map with corresponding surface sampling results from the sterile complex; (ii) sterile compounding policies, including those for microbial air and surface monitoring; (iii) in-service materials and attestations for pharmacy personnel of education/training received on sterile compounding technique, handwashing, garbing, gloving, disinfection of the cleanroom; (iv) competencies for hand hygiene, garbing, and gloving, and aseptic technique validation for compounding personnel; (v) competencies for the designated person to ensure correct reading of microbial sampling results; (vi) competencies for disinfection of the cleanroom for compounding personnel; (vii) documentation for completion of didactic courses for all pharmacy personnel; and (viii) other information as requested by the Board inspector.

9. Now, therefore, to resolve the allegations stated in Count One and Count Two of the Accusation without incurring any further costs or the expenses associated with a hearing, the Board and Respondent Pourteymaur agree to the imposition of the following penalties:

A. Respondent shall pay an administrative fine of **Five Thousand and 00/100 Dollars ($5,000.00)**, payable by *personal, business, certified or cashier's check or money order* written to the **"State of Nevada, Office of the Treasurer."** Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Stipulation.

B. Respondent shall pay the sum of **One Thousand and 00/100 Dollars ($1,000.00)** to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter. This sum shall be payable by *personal, business, certified or cashier's check or money order* written to the **"Nevada State Board of Pharmacy."** Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Stipulation.

10. Now, therefore, to resolve the allegations stated in Count Three of the Accusation without incurring any further costs or the expenses associated with a hearing, the Board and Respondent Total Infusion Care agree to the imposition of the following penalties:

A. Respondent shall pay an administrative fine of **Five Thousand and 00/100 Dollars ($5,000.00)**, payable by *personal, business, certified or cashier's check or money order* written to the **"State of Nevada, Office of the Treasurer."** Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Stipulation.

B. Respondent shall pay the sum of **One Thousand and 00/100 Dollars ($1,000.00)** to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter. This sum shall be payable by *personal, business, certified or cashier's check or money order* written to the **"Nevada State Board of Pharmacy."** Respondent shall remit payment in full to the Board's Reno

office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Stipulation.

C. Board inspectors shall conduct quarterly inspections of Respondent's pharmacy for a period of one-year from the effective date of this Stipulation, and Respondent shall bear and reimburse the Board for inspection costs.

11. Any failure by either Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing such Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may impose additional discipline upon Respondent not inconsistent with the provisions of NRS Chapters 453 and 639.

12. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on July 15, 2026. Respondent will appear at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent or counsel are not present at the meeting.

13. The Board has discretion to accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 USC § 1396r–2 and 45 CFR Part 60, and shall be further reported pursuant to NAC 639.960.

14. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the merits of this matter may be heard by the Board. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

15. Subject to the approval of this Stipulation by the Board, the Board and Respondents agree to release each other from any and all additional claims arising from the facts set forth in the

Accusation on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order.

Each Respondent has fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and has freely and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **TOTAL INFUSION CARE,** **License No. PH02936, and** **MOHAMMAD POURTEYMAUR,** **Certificate of Registration No. 13759,** **Respondents.**	**Case Nos. 25-501-PH-S** **25-501-RPH-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Total Infusion Care, License No. PH02936, held a license by the Board as a pharmacy, and Respondent Mohammad Pourteymaur (Pourteymaur), Certificate of Registration No. 13759, is a pharmacist licensed by the Board.

FACTUAL ALLEGATIONS

2. Total Infusion Care, located at 3041 W. Horizon Ridge Parkway #100 in Henderson, is a home infusion pharmacy that exclusively performs sterile compounding that has been licensed by the Board since 2013.

3. At all times relevant, Pourteymaur was employed as managing pharmacist for sterile compounding at Total Infusion Care. At all times relevant, Pourteymaur was also the designated person, as defined by chapter 797 of the *United States Pharmacopeia – National Formulary* (USP-797 Guidelines), for Total Infusion Care.

4. On December 22, 2025, Board Inspector Joe Dodge (Dodge) performed an inspection of Total Infusion Care. Pourteymaur was on-site at the time of the inspection.

5. During the inspection, Dodge noted several deficiencies from the USP 797-Guidelines, including:

A. Pourteymaur had no knowledge of the compounding standards provided by the revised USP-797 Guidelines that became effective November 15, 2024 and began to be enforced by the Board on February 1, 2025;

B. Pourteymaur was unable to identify what categories of compounding were performed at the Total Infusion Care location;

C. Pourteymaur had no knowledge of the new garbing assessment requirements, and Total Infusion Care had no results for post-garbing gloved finger-tip testing for any compounding employees;

D. Pourteymaur had no knowledge of the new aseptic manipulation assessment requirements, and Total Infusion Care had no surface sampling post-media-fill testing results for any compounding employees;

E. Total Infusion Care had not properly documented gloved finger-tip testing on multiple employees;

F. Total Infusion Care had not completed gloved finger-tip testing on Pourteymaur every six months;

G. Total Infusion Care did not properly document monthly surface sampling;

H. Total Infusion Care failed to provide initial or ongoing competency documentation for compounding staff members;

I. Pourteymaur had no knowledge of his requirement to acknowledge all policies and procedures on an annual basis and could not produce a record of this task being completed when asked by Dodge;

J. Dodge identified at least one compounding form during the inspection that did not contain the name of the person who compounded the product; and

K. Total Infusion Care failed to demonstrate a process for documenting tasks that are due every six (6) months are completed in the time frame.

PRIOR DISCIPLINE

6. In 2007, the Board disciplined Pourteymaur for failing to complete any of the thirty (30) hours of continuing education (CEs) for the renewal period of November 1, 2005 to October 31, 2007 and for falsely attesting that he had completed the required CEs for that renewal period. The Board ordered Pourteymaur to pay a $1,000 fine, complete sixty (60) CEs, and take and pass a written Nevada law examination.

APPLICABLE LAW

7. "Sterile compounded drug product" means a drug product the preparation and dispensing of which require compounding and which is required to be sterile by either the USP-797 Guidelines or the provisions of NAC 639.661 to 639.690, inclusive. NAC 639.6677.

8. A pharmacy engaged in the practice of compounding and dispensing sterile compounded drugs shall require each pharmacist and pharmaceutical technician who compounds sterile compounded drug products to comply with the compounding standards provided by the USP-797 Guidelines. *See* NAC 639.67053, *as amended* by LCB File. No. R053-24 (effective November 15, 2024).

9. The Board follows and enforces the USP-797 Guidelines 2023 edition. *See* NAC 639.670(1)(b), *as amended* by LCB File. No. R053-24 (effective November 15, 2024).

10. A compound pharmacy shall ensure that each pharmacist and pharmaceutical technician engaged in compounding drug products is competent and proficient in compounding the drug products that the pharmacist or pharmaceutical technician will be authorized and expected to compound and receives, on an ongoing basis, sufficient training to maintain that competency and proficiency. NAC 639.67013(1).

11. Records at compounding pharmacies must be maintained by the pharmacy for at least two (2) years after the date the record was made and be available for inspection by the Board or its representative. NAC 639.67019.

12. Each pharmacy must be managed by a registered pharmacist, approved by the Board, who is responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the pharmacy and practice of pharmacy. NRS 639.220(1).

13. A licensee of the Board may be disciplined for unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4).

14. Unprofessional conduct includes performing one's duties as the holder of a license, certificate or registration issued by the Board, or as the owner of a business or an entity licensed by the Board, in an incompetent, unskillful or negligent manner. NAC 639.945(1)(i).

15. Unprofessional conduct includes failing to provide data or information that is required to be made and maintained pursuant to chapter 639 of the NAC to a member of the staff of the Board upon request. NAC 639.945(1)(m).

16. The Board may discipline a licensee who has violated any provisions of a regulation relating to the practice of pharmacy. NRS 639.210(12).

17. The owner of any business or facility licensed by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(3).

18. In lieu of, or in addition to, revoking or suspending a license holder's registration for violating the law or engaging in unprofessional conduct, the Board may impose fines as a disciplinary measure. *See* NRS 639.255; NAC 639.955.

(Respondent Mohammad Pourteymaur)

19. As alleged above, as the managing pharmacist for Total Infusion Care, Pouteymauer was responsible for, among other things, Total Infusion Care's compliance with all state and federal laws and regulations relating to the operation of the pharmacy and practice of pharmacy. NRS 639.220(1).

20. As alleged above, during a Board inspection on December 22, 2025, a Board inspector found that Total Infusion Care was not in compliance with state laws and regulations relating to the operation of the pharmacy. *See* NAC 639.67053, as amended by LCB File. No. R053-24 (effective November 15, 2024); NAC 639.670(1)(b), as amended by LCB File. No. R053-24 (effective November 15, 2024); and NAC 639.67013(1).

21. Pouteymauer's conduct was unprofessional because he failed to perform his duties as required pursuant to NRS 639.220(1). NAC 639.945(1)(i).

22. Respondent Pouteymauer is subject to professional discipline for the conduct described above. NRS 639.210(4).

COUNT TWO

(Respondent Mohammad Pourteymaur)
Violation of State Regulation Related to Practice of Pharmacy – Failing to Maintain Accurate Records

23. As alleged above, Respondent Pouteymauer engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(m) when he failed to maintain and produce to Board staff upon request records required to be kept pursuant to NAC 639.67019.

24. Respondent Pouteymauer is subject to professional discipline for the conduct described above. NAC 639.945(1)(m); NRS 639.210(12).

COUNT THREE
Center/Facility Owner Responsibility
(Respondent Total Infusion Care)

25. As the center/facility at which the unprofessional conduct and violations of law alleged herein occurred, Respondent Total Infusion Care is responsible for those violations, including all errors and omissions of Respondent Pouteymauer and any other pharmacy personnel in the course of violations of any law or regulation related to the practice of pharmacy, pursuant to NAC 639.945(3).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of Respondents Mohammad Pourteymaur and Total Infusion Care.

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3). The hearing shall be conducted pursuant to NRS 639.241 through NRS 639.258. To be entitled to a hearing, you must complete, and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Notice of Intended Action and Accusation. NRS 622A.320; NRS 639.243. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350. A regulatory body may recover from a person reasonable attorney's fees and costs that are incurred by the regulatory body as a part of its investigative, administrative, and disciplinary proceedings against the person if the regulatory body finds that the person has violated any provision of this title. NRS 622.400(1).

Alternatively, you may file your Answer and Notice of Defense by mailing two (2) copies to Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521. Upon receipt of your Answer and Notice of Defense, a file stamped copy will be returned to you.

4. Pursuant to NRS 241.033 and 241.034, please be advised that the hearing is a public meeting, and the Board may, without further notice, take administrative action against you if the Board determines that such administrative action is warranted after considering your character, alleged misconduct, professional competence, or physical or mental health. The Board at its discretion may go into closed session to consider your character, alleged misconduct, professional competence, or physical or mental health. You may attend any closed session, have an attorney or other representative of your choosing present during any closed session, and present written evidence, provide testimony, and present witnesses relating to your character, alleged misconduct, professional competence, or physical or mental health during any closed session.

5. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **TOTAL INFUSION CARE,** **License No. PH02936, and** **MOHAMMAD POURTEYMAUR,** **Certificate of Registration No. 13759,** **Respondents.**	**CASE NOS. 25-501-PH-S** **25-501-RPH-S** **STIPULATION AND ORDER** **[All Respondents]**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, by and through counsel, Laura M. Tucker, Esq., and Total Infusion Care, Pharmacy License No. PH02936, and Mohammad Pourteymaur, Certificate of Registration No. 13759 ("Respondents"), by and through counsel, William J. Stilling, Esq., hereby stipulate and agree as follows:

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondents and this matter.

2. The Board's staff properly served Respondents with the Notice of Intended Action and Accusation ("Accusation") on file in this matter, together with the Statement to Respondents and Notice of Hearing.

3. Respondents are fully aware of the right to seek the advice of counsel in this matter and obtained the advice of counsel prior to entering into this Stipulation.

4. Respondents are aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration, the right to appeal and any and all other rights which may be accorded pursuant to NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

5. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondents have failed to comply with the provisions of this Stipulation, Respondents hereby knowingly and voluntarily waive the rights to a hearing,

reconsideration, appeal and any and all other rights related to this action that may be accorded by NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

6. Without admitting to the alleged facts or legal conclusions, Respondents admit that evidence exists, and that Board's staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the violations alleged in the Accusation, *to wit*:

A. As the managing pharmacist for Respondent, Mohammad Pourteymaur (Pourteymaur) was responsible for, among other things, Respondent's compliance with all state and federal laws and regulations relating to the operation of the pharmacy and practice of pharmacy. NRS 639.220(1).

B. During a Board inspection on December 22, 2025, a Board inspector found that Respondent, Total Infusion Care, was not in compliance with state laws and regulations relating to the operation of the pharmacy. *See* NAC 639.67053, as amended by LCB File. No. R053-24 (effective November 15, 2024); NAC 639.670(1)(b), as amended by LCB File. No. R053-24 (effective November 15, 2024); and NAC 639.67013(1). As a result, Pourteymaur's conduct was unprofessional because he failed to perform his duties as required pursuant to NRS 639.220(1). NAC 639.945(1)(i).

C. Pourteymaur engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(m) when he failed to maintain and produce to Board staff upon request records required to be kept pursuant to NAC 639.67019.

D. As the center/facility at which the unprofessional conduct and violations of law alleged herein occurred, Respondent Total Infusion Care is responsible for those violations, including all errors and omissions of Pourteymaur and any other pharmacy personnel in the course of violations of any law or regulation related to the practice of pharmacy, pursuant to NAC 639.945(3).

7. Those violations are pled with particularity in the Accusation and grounds for action pursuant to NRS 639.210 and NRS 639.255.

8. The Parties agree that the following measures are mitigating circumstances in the case.

A. Immediately after the December 22, 2025, inspection, Pourteymaur and Total Infusion Care began taking steps to ensure full compliance with all applicable laws and regulations.

B. These steps included timely responding to the deadlines the Board investigator set for Respondents.

A. Immediately after learning of the inspection results, BioMatrix secured a USP <797> consultant from the National Sterile Compounding Institute to evaluate policies and procedures, conduct training, and to assist implementing changes.

B. By January 2, 2026, Pourteymaur completed 34.5 hours of continuing education addressing USP <797> standards from TRC Healthcare (Critical Point).

C. Total Infusion Care purchased Simplifi <797>, which was the software used by other pharmacies owned by BioMatrix (now Lux Infusion).

D. Total Infusion Care provided: (i) a revised surface sampling map with corresponding surface sampling results from the sterile complex; (ii) sterile compounding policies, including those for microbial air and surface monitoring; (iii) in-service materials and attestations for pharmacy personnel of education/training received on sterile compounding technique, handwashing, garbing, gloving, disinfection of the cleanroom; (iv) competencies for hand hygiene, garbing, and gloving, and aseptic technique validation for compounding personnel; (v) competencies for the designated person to ensure correct reading of microbial sampling results; (vi) competencies for disinfection of the cleanroom for compounding personnel; (vii) documentation for completion of didactic courses for all pharmacy personnel; and (viii) other information as requested by the Board inspector.

9. Now, therefore, to resolve the allegations stated in Count One and Count Two of the Accusation without incurring any further costs or the expenses associated with a hearing, the Board and Respondent Pourteymaur agree to the imposition of the following penalties:

A. Respondent shall pay an administrative fine of **Five Thousand and 00/100 Dollars ($5,000.00)**, payable by *personal, business, certified or cashier's check or money order* written to the **"State of Nevada, Office of the Treasurer."** Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Stipulation.

B. Respondent shall pay the sum of **One Thousand and 00/100 Dollars ($1,000.00)** to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter. This sum shall be payable by *personal, business, certified or cashier's check or money order* written to the **"Nevada State Board of Pharmacy."** Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Stipulation.

10. Now, therefore, to resolve the allegations stated in Count Three of the Accusation without incurring any further costs or the expenses associated with a hearing, the Board and Respondent Total Infusion Care agree to the imposition of the following penalties:

A. Respondent shall pay an administrative fine of **Five Thousand and 00/100 Dollars ($5,000.00)**, payable by *personal, business, certified or cashier's check or money order* written to the **"State of Nevada, Office of the Treasurer."** Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Stipulation.

B. Respondent shall pay the sum of **One Thousand and 00/100 Dollars ($1,000.00)** to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter. This sum shall be payable by *personal, business, certified or cashier's check or money order* written to the **"Nevada State Board of Pharmacy."** Respondent shall remit payment in full to the Board's Reno

office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Stipulation.

C. Board inspectors shall conduct quarterly inspections of Respondent's pharmacy for a period of one-year from the effective date of this Stipulation, and Respondent shall bear and reimburse the Board for inspection costs.

11. Any failure by either Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing such Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may impose additional discipline upon Respondent not inconsistent with the provisions of NRS Chapters 453 and 639.

12. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on July 15, 2026. Respondent will appear at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent or counsel are not present at the meeting.

13. The Board has discretion to accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 USC § 1396r–2 and 45 CFR Part 60, and shall be further reported pursuant to NAC 639.960.

14. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the merits of this matter may be heard by the Board. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

15. Subject to the approval of this Stipulation by the Board, the Board and Respondents agree to release each other from any and all additional claims arising from the facts set forth in the

Accusation on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order.

Each Respondent has fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and has freely and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **AURELIA HURTADA-SADOWSKI, RPH, Certificate of Registration No. 15345, and** **SUMMERLIN HOSPITAL MEDICAL CENTER, License No. IA02194,** **Respondents.**	**Case No. 25-209-RPH-S** **25-209-PH-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Aurelia Hurtada-Sadowski, RPh, (Hurtada-Sadowski), Certificate of Registration No. 15345, was a pharmacist licensed by the Board, and Respondent Summerlin Hospital Medical Center (Summerlin Hospital), License No. IA02194, was registered as a pharmacy by the Board.

FACTUAL ALLEGATIONS

2. Hurtada-Sadowski was employed as a pharmacist at Summerlin Hospital, located at 653 N. Town Center Drive in Las Vegas, at the time of the events alleged herein.

3. On May 5, 2025, patient J.B. arrived at the emergency department of Summerlin Hospital and reported that she was experiencing symptoms of an acute multiple sclerosis flare up.

4. Alexander Payne, MD, (Payne) was the medical practitioner on duty when patient J.B. arrived.

5. Patient J.B. informed Payne that she wanted to be treated with Solu-Medrol (methylprednisolone). Patient J.B. told Payne that she had had an allergic reaction to Solu-Medrol in the past, but that she had been able to tolerate it when pre-treated with Benadryl.

6. After consultation with patient J.B., Payne submitted an order for methylprednisolone 125 mg administered via IV piggyback along with Benadryl 50 mg 1 ML administered via IV push.

7. When submitting the order, Payne did not enter into the patient's chart that she had a known allergy to methylprednisolone and did not include any other notes. The order also did not contain a diluent or volume, as is required for an IV piggyback.

8. Hurtada-Sadowski was the pharmacist on duty at the time Payne submitted the order. While Hurtada-Sadowski was processing the order, she received a prompt generated by the computer system indicating that an IV push was the standard practice for methylprednisolone 125 mg.

9. Because the chart order was incomplete, Summerlin Hospital's system would not allow Hurtada-Sadowski to release the product without making a change.

10. Hurtada-Sadowski did not contact or notify Payne about the missing information regarding administration route or lack of accompanying notations and changed the order for methylprednisolone to IV push instead of IV piggyback to reflect the computer's prompting.

11. Registered Nurse George Maldonado (Maldonado) received the order back from Hurtada-Sadowski and pushed 0.55 cc of methylprednisolone over 30 seconds, then paused to assess.

12. After the initial medication push, patient J.B. reported anaphylactic symptoms, and Maldonado contacted Payne, who began treating patient J.B. for anaphylaxis.

13. Despite intervention, patient J.B. was placed on life support that night. She was not taken off life support and died two days later, on May 7, 2025. The cause of death was listed as multisystem organ failure due to cardiac arrest secondary to anaphylaxis.

14. Summerlin Hospital terminated Hurtada-Sadowski a few months later.

PRIOR DISCIPLINE

15. In December 2008, the Board disciplined an employee of Respondent Summerlin Hospital for diversion of controlled substances, resulting in the revocation of the employee's license.

16. In April 2008, the Board disciplined Respondent Summerlin Hospital for the death of an infant patient because of drug overdose, resulting in a $10,000 fine to Respondent Summerlin Hospital.

APPLICABLE LAW

17. Medical facilities must have original chart orders that contain, among other information, the name of the drug, its strength, and the route of administration, as well as directions for use of the drug. NAC 639.484(1)(b),(c).

18. Pursuant to NAC 639.753, a pharmacist may use his or her professional judgment to reasonably decline to fill a prescription after speaking with the prescribing practitioner in a timely manner to discuss and resolve the concerns the pharmacist has regarding the prescription.

19. Pharmacists have a duty to exercise independent judgment regarding patient care pursuant to NAC 639.753.

20. Unprofessional conduct includes a registrant performing his or her duties in an "incompetent, unskillful, or negligent manner." NAC 639.945(1)(i). The Board may suspend or revoke any certificate, license, registration or permit if the holder is guilty of unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4).

21. Any violation of any of the provisions of NRS Chapter 639 by a managing pharmacist or by personnel of the pharmacy is cause for the suspension or revocation of the license by the Board. NRS 639.230(5); NAC 639.702. Furthermore, the owner of any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(3).

22. The Board may discipline a licensee who has violated any provisions of a regulation relating to the practice of pharmacy. NRS 639.210(12).

23. In lieu of, or in addition to, revoking or suspending a license holder's registration for violating the law or engaging in unprofessional conduct, the Board may impose fines as a disciplinary measure. *See* NRS 639.255; NAC 639.955.

COUNT ONE
Unprofessional Conduct by a Pharmacist – Failure to Confer with Healthcare Provider (Respondent Hurtada-Sadowski)

24. As alleged above, on or about May 5, 2025, Respondent Hurtada-Sadowski received a chart that did not contain complete information as required by NAC 639.484(1)(b),(c).

25. As alleged above, Respondent Hurtada-Sadowski filled the chart order for patient J.B. even though she knew or should have known to contact Payne about the incomplete chart order when she received conflicting information from the hospital computer system. Respondent Hurtada-Sadowski's conduct was unprofessional because she failed to confer with patient J.B.'s health care provider regarding the incomplete chart order. NAC 639.753.

26. Having failed to confer directly with a patient's health care provider and changing the chart order of the patient's health care provider, Respondent Hurtada-Sadowski performed her duties in an incompetent, unskillful or negligent manner.

27. Respondent Hurtada-Sadowski's unprofessional conduct may have contributed to patient J.B.'s death.

28. For this unprofessional conduct, the Board may discipline Respondent Hurtada-Sadowski pursuant to NRS 639.210(4), NRS 639.255(1), NAC 639.945, and NAC 639.955.

COUNT TWO
Pharmacy Owner Responsibility
(Respondent Summerlin Hospital)

29. As alleged above, on or about May 5, 2025, Respondent Hurtada-Sadowski changed the chart order for patient J.B. even though she knew or should have known to contact Payne about the incomplete chart order when she received conflicting information from the hospital computer system. Respondent Hurtada-Sadowski's conduct was unprofessional because she failed to confer with patient J.B.'s health care provider regarding the incomplete chart order. Having failed to confer directly with a patient's health care provider and changing the chart order of the patient's health care provider, Respondent Hurtada-Sadowski performed her duties in an incompetent, unskillful or negligent manner.

30. As alleged above, Respondent Summerlin Hospital's computer system would not allow Hurtada-Sadowski to release the chart order without making a change to the order.

31. As the facility at which the unprofessional conduct and violations of law alleged herein occurred, Respondent Summerlin Hospital is responsible for those violations, including all errors and omissions of Respondent Hurtada-Sadowski, Payne, and any other personnel in the course of violations of any law or regulation related to the practice of pharmacy, pursuant NAC 639.945(3). Accordingly, the Board may discipline Summerlin Hospital pursuant to NRS 639.210(4), NRS 639.255(1), NAC 639.945, and NAC 639.955.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of Respondents Aurelia Hurtada-Sadowski and Summerlin Hospital Medical Center.

DATED this 30th day of MARCH 2026.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3). The hearing shall be conducted pursuant to NRS 639.241 through NRS 639.258. To be entitled to a hearing, you must complete, and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Notice of Intended Action and Accusation. NRS 622A.320; NRS 639.243. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350. A regulatory body may recover from a person reasonable attorney's fees and costs that are incurred by the regulatory body as a part of its investigative, administrative, and disciplinary proceedings against the person if the regulatory body finds that the person has violated any provision of this title. NRS 622.400(1).
