BOARD OF PHARMACY
DEPARTMENT OF COMMERCE AND CONSUMER AFFAIRS
STATE OF HAWAII

In the Matter of the Wholesale Prescription Drug Distributor's License of MEDLINE INDUSTRIES INC., Respondent.	PHA 2009-7-L SETTLEMENT AGREEMENT PRIOR TO FILING OF PETITION FOR DISCIPLINARY ACTION AND BOARD'S FINAL ORDER; EXHIBIT "1"

241092407

SETTLEMENT AGREEMENT PRIOR TO FILING OF PETITION
FOR DISCIPLINARY ACTION AND BOARD'S FINAL ORDER

Petitioner, DEPARTMENT OF COMMERCE AND CONSUMER AFFAIRS' REGULATED INDUSTRIES COMPLAINTS OFFICE (hereinafter "RICO" or "Petitioner"), through its undersigned attorneys, and Respondent MEDLINE INDUSTRIES INC. (hereinafter "Respondent"), enter into this Settlement Agreement on the terms and conditions set forth below.

A. UNCONTESTED FACTS

1. At all relevant times herein, Respondent was licensed by the Board of Pharmacy (hereinafter the "Board") as a wholesale prescription drug distributor under License Number PWD 115. The license was issued on or about October 3, 2005. The license will expire on or about December 31, 2009.

I HEREBY CERTIFY THAT THE ATTACHED IS A TRUE AND CORRECT COPY OF THE ORIGINAL ON FILE IN THE DEPARTMENT OF COMMERCE & CONSUMER AFFAIRS.

2. Respondent's mailing address for purposes of this action is Dianna Wolfe, Corporate Regulatory Affairs Specialist, Medline Industries, Inc., One Medline Place, Mundelein, Illinois 60060.

3. Respondent timely reported that disciplinary action had been taken against Respondent by the State of Wisconsin. Respondent had entered into a Stipulation with the State of Wisconsin's Pharmacy Examining Board. Pursuant to the terms of a Final Order, Respondent was reprimanded and ordered to pay a forfeiture in the amount of $2,000.00. This action was based on the results of an inspection which revealed that certain policies were missing and that Respondent was storing pre-packaged kits for surgeries (which included various types and quantities of prescription drugs) in a warehouse that was shared with another company. These kits were not secured and employees of the other company had access to the kits. A true and correct copy of the Stipulation and Final Decision and Order which was approved on February 4, 2009 is attached as Exhibit "1."

4. RICO alleges that Respondent was disciplined by another state for a reason provided by the licensing laws in Hawaii. Specifically, the Respondent was disciplined for professional misconduct.

5. The foregoing allegations, if proven at an administrative hearing before the Board, would constitute violations of the following statute(s) and/or rule(s): Hawaii Revised Statutes ("HRS") § 436B-19(13) (disciplinary action by another state) and § 461-21(a)(2) (professional misconduct). Per Hawaii Administrative Rules §§ 16-95-30(c)(6) and (9), a licensee's facility must be secure from unauthorized entry and entry into areas where prescription drugs are held must be limited to authorized personnel.

6. The Board has jurisdiction over the subject matter herein and over the parties hereto.

B. REPRESENTATIONS BY RESPONDENT:

1. Respondent is fully aware that Respondent has the right to be represented by an attorney and voluntarily waives that right.

2. Respondent enters into this Settlement Agreement freely, knowingly, voluntarily, and under no coercion or duress.

3. Respondent is aware of the right to have a hearing to adjudicate the issues in the case. Pursuant to HRS § 91-9(d), Respondent freely, knowingly, and voluntarily waives the right to a hearing and agrees to dispose of this case in accordance with the terms and conditions of this Settlement Agreement.

4. Respondent being at all times relevant herein licensed as a wholesale prescription drug distributor by the Board acknowledges that Respondent is subject to penalties including but not limited to, revocation, suspension or limitation of the license and administrative fines, if the foregoing allegations are proven at hearing.

5. Respondent does not admit to violating any law or rule, but acknowledges that RICO has sufficient cause to file a Petition for Disciplinary Action against Respondent's license.

6. Respondent enters into this Settlement Agreement as a compromise of the claims and to conserve on the expenses of proceeding with an administrative hearing on this matter.

7. Respondent agrees that this Settlement Agreement is intended to resolve the issues raised in RICO's investigation in RICO Case No. PHA 2009-7-L.

C. TERMS OF SETTLEMENT:

1. Administrative fine. Respondent agrees to pay a fine in the amount of ONE THOUSAND AND NO/100 DOLLARS ($1,000.00). Payment shall be made by **cashier's check, company check, or money order made payable to "DCCA - Compliance Resolution Fund"** and mailed to the Regulated Industries Complaints Office, Attn: Bobbi Lum-Mew, Esq., 235 S. Beretania Street, 9th Floor, Honolulu, Hawaii 96813. Payment of the fine shall be due within thirty (30) days after this Settlement Agreement is approved by the Board.

2. Failure to Comply with Settlement Agreement. If Respondent fails to fully and timely comply with the terms of this Settlement Agreement as set forth in paragraph C.1 above, Respondent's license shall be automatically revoked upon RICO's filing of an affidavit with the Board attesting to such failure. In case of such revocation, Respondent shall turn in all indicia of the license to the Executive Officer of the Board within ten (10) days after receipt of notice of the revocation. In case of such revocation, Respondent understands Respondent cannot apply for a new license until the expiration of at least five (5) years after the effective date of the revocation. Respondent understands that if Respondent desires to become licensed again, Respondent must apply to the Board for a new license pursuant to and subject to HRS §§ 92-17, 436B-21, and all other applicable laws and rules in effect at the time.

3. Possible further sanction. The Board, at its discretion, may pursue additional disciplinary action as provided by law to include further fines and other sanctions as the Board may deem appropriate if Respondent violates any provision of the statutes or rules governing the conduct of wholesale prescription drug distributors in the State of Hawaii, or if Respondent fails to abide by the terms of this Settlement Agreement.

4. Approval of the Board. Respondent agrees that, except for the representations, agreements and covenants contained in Paragraphs C.5, C.6, C.7 and C.8 below, this Settlement Agreement shall not be binding on any of the parties unless and until it is approved by the Board.

5. No Objection if Board Fails to Approve. If the Board does not approve this Settlement Agreement, does not issue an order pursuant thereto, or does not approve a lesser remedy, but instead an administrative hearing is conducted against Respondent in the Board's usual and customary fashion pursuant to the Administrative Procedure Act, Respondent agrees that neither Respondent nor any attorney that Respondent may retain, will raise as an objection in any administrative proceeding or in any judicial action, to the Board's proceeding against Respondent on the basis that the Board has become disqualified to consider the case because of its review and consideration of this Settlement Agreement.

6. Any Ambiguities Shall be Construed to Protect the Consuming Public. It is agreed that any ambiguity in this Settlement Agreement is to be read in the manner that most completely protects the interests of the consuming public.

7. No Reliance on Representations by RICO. Other than the matters specifically stated in this Settlement Agreement, neither RICO nor anyone acting on its behalf has made any representation of fact, opinion or promise to Respondent to induce entry into this Settlement Agreement, and Respondent is not relying upon any statement, representation or opinion or promise made by RICO or any of its agents, employees, representatives or attorneys concerning the nature, extent or duration of exposure to legal liability arising from the subject matter of this Settlement Agreement or concerning any other matter.

8. Complete Agreement. This Settlement Agreement is a complete settlement of the rights, responsibilities and liabilities of the parties hereto with respect to the subject matter hereof; contains the entire agreement of the parties; and may only be modified, changed or amended by written instrument duly executed by all parties hereto.

IN WITNESS WHEREOF, the parties have signed this Settlement Agreement on the date(s) set forth below.

STATE OF COLORADO

Case No. 2010-002994

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF DISCIPLINARY PROCEEDINGS REGARDING THE LICENSE TO PRACTICE AS A OUT-OF-STATE WHOLESALER IN THE STATE OF COLORADO OF MEDLINE INDUSTRIES, INC.,

Wholesaler Applicant.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and Medline Industries, Inc. ("Wholesaler Applicant") to resolve all matters pertaining to Board Case Number 2010-002994 as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Wholesaler Applicant, its application for registration as an out-of-state wholesaler and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the provisions of the Pharmaceuticals and Pharmacists Act at Title 12, Article 22, C.R.S.

2. Wholesaler Applicant admits these findings and hereby waives any further proof in this proceeding before the Board regarding the following facts.

3. Wholesaler Applicant entered into a Settlement Agreement with the Missouri State Board of Pharmacy, which was effective on August 3, 2005 ("Missouri Settlement Agreement").

4. In the Missouri Settlement Agreement, Wholesaler Applicant was placed on probation for five (5) years for various violations of Missouri state and federal law involving recordkeeping, storage of prescription drugs, change of location without informing the Missouri Board of Pharmacy, lack of a policy and procedure manual, and distribution of prescription drugs under a lapsed registration.

5. Wholesaler Applicant's conduct, as set forth above, constitutes violations of the following sections of the Colorado Revised Statutes:

12-22-125. Unprofessional conduct - grounds for discipline.

(1) The board may suspend, revoke, refuse to renew, or otherwise discipline any license or registration issued by it, after a hearing held in accordance with the provisions of this section, upon proof that the licensee or registrant:

(c) Has violated:

(III) Any state or federal law pertaining to drugs.

12-22-125.2. Disciplinary actions.

(1) The board may deny or discipline an applicant, licensee, or registrant when the board determines that such applicant, licensee, or registrant has engaged in activities that are grounds for discipline.

6. On January 14, 2010, Wholesaler Applicant submitted an out-of-state wholesaler application, which application was denied by the Board.

7. On March 1, 2010, Wholesaler Applicant submitted a written request asking that the Board accept its application by granting a conditional license.

8. The Board finds and concludes, and Wholesaler Applicant agrees, that based upon Wholesaler Applicant's above-described violations of the Pharmaceuticals and Pharmacists Act and relevant rules and regulations, the following discipline is just and appropriate under the circumstances as a condition of its registration as an out-of-state wholesaler.

DISPOSITION

Conditional Registration / Probation / Compliance / Terms

9. **Conditional Registration.** Wholesaler Applicant shall be granted a registration as an out-of-state wholesaler upon execution of this Final Agency Order and satisfaction of the terms and conditions set forth herein.

10. **Probation.** Wholesaler Applicant's registration shall be placed on probation for a period of time equal to the time of probation remaining under the Missouri Settlement Agreement. Credit toward satisfying the period of probation under this Final Agency Order shall be given only during such periods of time that Respondent is in total compliance with all provisions of this Final Agency Order and the Missouri Settlement Agreement.

11. **Compliance.** Wholesaler Applicant shall at all times remain in compliance with §§12-22-801, *et seq.* C.R.S. and shall not at any time distribute prescription drugs into Colorado without being registered as an out-of-state wholesaler in the State of Colorado at the time of distribution.

12. **Other Requirements.** Wholesaler Applicant acknowledges and agrees that, as a condition of this Final Agency Order and probation, Wholesaler Applicant shall:

    a. promptly pay all Wholesaler Applicant's own fees and costs associated with this Final Agency Order;

    b. comply fully with this Final Agency Order; and

    c. comply fully with the Pharmacists and Pharmaceuticals Act, all Board rules and regulations, and any other state and federal laws and regulations related to pharmacists and pharmaceuticals in the State of Colorado.

13. **Discharge.** Discharge from the requirements of this Final Agency Order must be requested in writing by Wholesaler Applicant. The Board will consider any request for discharge during the ordinary course of business. In any request for discharge it shall be Wholesaler Applicant's sole responsibility to establish, through written and other documentation, that Wholesaler Applicant has met all terms and conditions of this Final Agency Order and, in addition, has been released from probation by the Missouri Board of Pharmacy under the Missouri Settlement Agreement. Wholesaler Applicant's probation under this Final Agency Order shall continue until formally discharged by the Board by way of Board order.

14. **Advisements and Waivers.** Wholesaler Applicant enters into this Final Agency Order freely and voluntarily, whether or not Wholesaler Applicant has consulted with legal counsel. Wholesaler Applicant acknowledges its understanding that it has the following rights:

    a. To have a formal notice of hearing and charges served upon it;
    b. To respond to said formal notice of charges;
    c. To have a formal disciplinary hearing pursuant to §12-22-125, C.R.S.; and
    d. To appeal this Board order.

    Wholesaler Applicant freely **waives** these rights, and acknowledges that such waiver is made voluntarily in consideration for Board's limiting the action taken against it to the sanctions imposed herein.

15. **Acknowledgments.** The undersigned authorized agent of Wholesaler Applicant has read this Final Agency Order in its entirety and acknowledges, whether or not Wholesaler Applicant has consulted with legal counsel, that Wholesaler Applicant

understands the legal consequences and agrees that none of the terms or conditions herein are unconscionable.

16. **Violations.** Time is of the essence to this Final Agency Order. It is the responsibility of Wholesaler Applicant to take all appropriate steps to comply fully with this Final Agency Order. Wholesaler Applicant acknowledges and agrees that any violation of this Final Agency Order may be sanctioned as provided under §12-22-125.2(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of its registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Wholesaler Applicant to comply with all terms and conditions of this Final Agency Order.

17. **Integration and Severability.** Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.

18. **Public Record.** Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.

19. **Effective Date.** This Final Agency Order shall become effective upon signature of a Board member or representative.

Medline Industries, Inc. distribution center at 1501 Harris Rd Libertyville, IL 60048 (OH License #01-1985050) entered into a settlement agreement with the Ohio Board of Pharmacy for the sale of dangerous drugs to an unlicensed entity. Medline maintained a current and valid DEA license on file rather than the correct Terminal Distributor Dangerous Drugs license (TDDD). The facility's TDDD license expired at the time of the sale. Case resolved via Settlement Agreement effective 01/06/2021.

Corrective Actions:
Medline updated its customer license requirements for Ohio customers. Medline completed a review of all Ohio customers to verify the correct license type was on file and implemented increased verification checks of Ohio licenses.

Provide explanation below:

Medline Industries, LP distribution center at 1040 Enterprise Parkway South, West Jefferson, OH 43162 (OH License #01-30000190) entered a settlement agreement with the Ohio Board of Pharmacy for alleged sales of dangerous drugs to an unlicensed entity. Medline maintained a physician license on file instead of the correct Terminal Distributor Dangerous Drugs license (TDDD). The TDDD license was added in May 2022. During the period of July 2021 to March 2022, the customer's TDDD license lapsed, and Medline shipped the customer product under the valid practitioner license. Case resolved via Settlement Agreement effective 11/01/2022.

Corrective Actions:
Medline updated customer licensing requirements for Ohio customers following OH Case # A-2020-0054. Provide explanation below:

Medline Industries, LP distribution center at 9670 NW 112th Ave, Miami, FL 33178 (FL WDD# #2220297) entered a settlement agreement for alleged violations of selling prescription drugs to an unauthorized recipient and failure to maintain proper records. Medline accepted a physician license for a customer which should have maintained a Healthcare Clinic Establishment Permit. The recordkeeping allegation related to missing NDC numbers on outbound packing slips and invoices.

Corrective Actions:
Medline updated customer licensing requirements for Florida customers and completed an extensive review of all FL customer licenses to verify the correct license type was on file. Medline determined the missing NDC number on the packing slip and invoice occurred due to an internal system error. The error was limited to DSCSA exempt products, i.e. IV fluids. A fix was implemented to correct the issue.

Forward-looking statements include all statements that are not historical facts. Words such as "anticipate," "assume," "believe" "contemplate," "continue," "could," "estimate," "expect," "foreseeable," "intend," "may," "plan," "potentially," "predict," "project," "seek," "should," "will," or "would," or similar words or phrases that convey uncertainty of future events or outcomes, are intended to identify forward-looking statements in this Annual Report. These forward-looking statements relate to matters such as our industry, business strategy, costs, and costs savings, impacts of accounting standards and guidance, goals and expectations, market position, future operations, margins, profitability, capital expenditures, liquidity and capital resources, legal matters, trends, and other financial and operating information. The forward-looking statements are based on management's current expectations and are subject to various risks, uncertainty, and changes in circumstances, many of which are beyond our control, that could cause actual results to differ materially. Although we believe that the assumptions underlying the forward-looking statements are reasonable, we cannot guarantee future results, level of activity, performance, or achievements. Factors that may cause actual results to differ from expected results include those described in Part I, "Item 1A—Risk Factors" and Part II, "Item 7—Management's Discussion and Analysis of Financial Condition and Results of Operations". The forward-looking statements included in this Annual Report speak only as of the date of this Annual Report or as of the date they are made, as applicable. Except as otherwise required by law, we disclaim any intent or obligation to update any "forward-looking statement" made in this Annual Report to reflect changed assumptions, the occurrence of unanticipated events, or changes to future operating results over time.

INTRODUCTORY NOTE

Medline Inc. was incorporated as a Delaware corporation on November 6, 2024. Prior to the completion of its initial public offering (the "IPO") on December 18, 2025, Medline Inc. undertook certain reorganization transactions (the "Reorganization") such that Medline Inc. is now a holding company, and its sole material assets are its equity interests held directly or indirectly through wholly owned subsidiaries in Medline Holdings, LP ("Medline Holdings"). Following the IPO, Medline Holdings is the predecessor of Medline Inc. for financial reporting purposes. As the general partner of Medline Holdings, Medline Inc. now operates and controls all of the business and affairs of Medline Holdings and, through Medline Holdings and its subsidiaries, conducts its business. The Reorganization lacks economic substance and therefore is accounted for in a manner consistent with a reorganization of entities under common control. As a result, the consolidated financial statements of Medline Inc. recognize the assets and liabilities received in the Reorganization at their historical carrying amounts, as reflected in the historical financial statements of Medline Holdings. Medline Inc. will consolidate Medline Holdings on its consolidated financial statements and record a non-controlling interest related to the Units (as defined herein) held by the Continuing Unitholders (as defined herein) on its consolidated balance sheets and statements of comprehensive income.

Medline Inc. had no significant business transactions or activities prior to the Reorganization, and, as a result, the historical financial information reflects that of Medline Holdings.

Basis of Presentation

The consolidated financial statements and accompanying notes included herein are prepared in accordance with United States generally accepted accounting principles ("GAAP"). The results of businesses acquired or disposed of are included in the consolidated financial statements from the date of the acquisition or up to the date of disposal, respectively. All adjustments, in the opinion of management, necessary to a fair statement of the results for the annual periods presented have been made.

Certain monetary amounts, percentages, and other figures included in this Annual Report have been subject to rounding adjustments. Percentage amounts included in this Annual Report have been calculated, in some cases, not on the basis of such rounded figures, but on the basis of such amounts prior to rounding. For this reason, percentage amounts in this Annual Report may vary from those obtained by performing the same calculations using the figures, on the face of our consolidated financial statements included elsewhere in this Annual Report. Certain other amounts that appear in this Annual Report may not sum due to rounding.

In December 2024, we changed the name of Medline Holdings from Mozart Holdings, LP to Medline Holdings, LP. We will not distinguish between the prior and current name of Medline Holdings and will refer to the current name of Medline Holdings throughout this Annual Report. References in this Annual Report to "Medline," the "Company," "we," "us," and "our" refer (1) prior to the consummation of the IPO, to Medline Holdings, LP and its consolidated subsidiaries and (2) after the IPO to Medline Inc. and its consolidated subsidiaries.

CERTAIN DEFINITIONS

As used in this Annual Report, unless otherwise noted or the context requires otherwise, the following terms have the following meanings:

- "Class A Units" refers to the interests in Medline Holdings called "Class A Units" that were outstanding prior to the Reclassification. - "Class B Units" refers to the interests in Medline Holdings called "Class B Units" that were outstanding prior to the Reclassification, and does not include CUPI Units. In connection with the Reclassification, (i) Class B Units held by Incentive Unitholders were converted into Incentive Units and (ii) Class B Units held by Exchanging Class B Unitholders were directly or indirectly exchanged for shares of Class A common stock (in the case of vested Class B Units) and/or restricted shares of Class A common stock (in the case of unvested Class B Units).

- "Reclassification" refers to the reclassification of the partnership interests of Medline Holdings prior to the IPO.

- "Units" refers collectively to Common Units and Incentive Units.

Summary of Risk Factors

The following is a summary of the principal factors that make an investment in our securities speculative or risky, all of which are more fully described below. This summary should be read together with the risk factors described under Part I, "Item 1A—Risk Factors" and should not be relied upon as an exhaustive summary of the material risks facing our business. In addition to the following summary, you should consider the information set forth below and the other information contained in this Annual Report before investing in our securities.

- Our global operations are subject to inherent risks that could materially adversely affect our business, results of operations, and financial condition.
- We may be unable to derive fully the anticipated benefits from our existing or future acquisitions, joint ventures, investments, dispositions, or other strategic transactions.
- Consolidation in the healthcare industry could have an adverse effect on our business, results of operations, and financial condition.
- We operate in a highly competitive industry, with accelerating pricing pressure and changes in technology.
- Changes to the U.S. and global healthcare environments may not be favorable to us.
- Increases in shipping costs or service issues with our third-party shippers could harm our business.

- Significant challenges or delays in our sourcing of new products and technologies could have an adverse impact on our long-term success.
- We have concentration in and dependence on certain healthcare provider customers and GPOs.
- Our business and operations depend on the proper functioning of our critical facilities and distribution networks and could be negatively impacted by events outside our control.
- Quality problems and product liability claims have in the past led, and could in the future lead, to recalls or safety alerts, reputational harm, adverse verdicts, or costly settlements, and could have a material adverse effect on our business, results of operations, and financial condition.
- Our failure to establish and maintain Prime Vendor relationships may cause our revenue to decline.
- If we experience increased pressure to maintain or decrease the price of our goods and services and we are unable to reduce our expenses, there may be a material adverse effect on our business, results of operations, and financial condition.
- Any failure by or loss of a third-party manufacturer or supplier or other manufacturing or supply-related impacts could result in delays and increased costs, which may adversely affect our business.
- We rely on the proper function, security, and availability of our information technology systems and data, as well as those of third parties throughout our global supply chain, to operate our business.
- We are subject to extensive and complex laws and governmental regulations and any adverse regulatory action may materially adversely affect our business, results of operations, and financial condition both inside and outside the United States.
- We are subject to complex and rapidly evolving data privacy, security, and data protection laws and regulations and the costs to comply with such laws and regulations or any ineffective compliance efforts with such laws and regulations may adversely impact our business.
- Our use or our third-party service providers' or business partners' use of AI, automated decision-making and machine learning technologies and the evolving regulatory framework in this area may subject us to risks or heightened costs that could adversely affect business, results of operation and financial condition.
- Our failure to comply with laws and regulations relating to reimbursement of healthcare goods and services may subject us to penalties and adversely impact our reputation, business, results of operations, financial condition, and cash flows.
- Uncertain global and domestic macro-economic and political conditions could materially adversely affect our business, results of operations, and financial condition.
- Our substantial indebtedness could adversely affect our financial condition, our ability to operate our business or react to changes in the economy or our industry, prevent us from fulfilling our obligations under our debts, and divert our cash flow from operations for debt payments.
- The credit agreement that governs the Senior Secured Credit Facilities and the indentures that govern the Senior Notes will each impose significant operating and financial restrictions on our subsidiaries, which may prevent us from capitalizing on business opportunities.
- Medline Inc. is a holding company and its only material assets are its equity interests held directly or indirectly through wholly owned subsidiaries in Medline Holdings, and it is accordingly dependent upon distributions from Medline Holdings to pay taxes, make payments under the tax receivable agreement, and pay any dividends.
- The Designating Stockholders hold a significant percentage of our stock, and their interests may conflict with ours or yours in the future.
- Our amended and restated certificate of incorporation does not limit the ability of our Sponsors, the Mills family, and certain other pre-IPO investors to compete with us, and they may have investments in businesses whose interests conflict with ours.

The market price of shares of our Class A common stock may be volatile or may decline regardless of our operating performance, which could cause the value of your investment to decline.

Market and Industry Data

Unless otherwise indicated, information contained in this Annual Report concerning our industry, competitive position, and the markets in which we operate is based on information from independent industry and research organizations, other third-party sources and management estimates. Although we believe that these third-party sources are reliable, we do not guarantee the accuracy or completeness of this information, and we have not independently verified this information. Management estimates are derived from information obtained from surveys, reports by market research firms, our customers, distributors, suppliers, trade and business organizations, and other contacts in the markets in which we operate and have not been verified by independent sources, and are based on assumptions made by us upon reviewing such data, and our experience in, and knowledge of, such industry and markets, which we believe to be reasonable. In addition, assumptions and estimates of our and our industry's future performance are subject to a high degree of uncertainty and risk due to a variety of factors, including those described in Part I, "Item 1A—Risk Factors" and "Cautionary Note Regarding Forward-Looking Statements." These and other factors could cause results to differ materially from those expressed in the estimates made by the independent parties and by us.

Statements regarding our market position (including statements that we are the largest company in a particular market), unless otherwise noted, are based on our 2025 net sales in the relevant market relative to the publicly reported net sales of our competitors in such market, including with respect to our statement of being the largest provider of med-surg products and supply chain solutions serving all points of care, as that statement is based on our 2025 net sales relative to the publicly reported net sales of med-surg products by companies that are both med-surg manufacturers and distributors.

Trademarks

We own or have the right to use trademarks, trade names, and service marks used in connection with our business, including, but not limited to, Medline, Curad, Microtek, Hudson, and Proxima. All trademarks, trade names, and service marks referred to in this Annual Report are the property of their respective owners. We do not intend our use or display of other companies' trade names, trademarks, or service marks to imply a relationship with, or endorsement or sponsorship of us by, these other companies. Solely for convenience, our trademarks, trade names, and service marks referred to in this Annual Report may appear without the ®, ™ or SM symbols, but such references are not intended to indicate, in any way, that we will not assert, to the fullest extent under applicable law, our rights or the right of the applicable licensor to these trademarks, trade names, and service marks.

PART I

Item 1. Business

General

Medline Inc. (together with its subsidiaries, "Medline", "the Company", "we", "ours" and "us") is the largest provider of medical-surgical ("med-surg") products and supply chain solutions serving all points of care, based on total net sales of med-surg products. Medline was founded in 1966 and today delivers mission-critical products used daily across the full range of care settings, from hospitals and surgery centers to physician offices and post-acute facilities. Our mission is to make healthcare run better by delivering improved clinical, financial, and operational outcomes.

We have two reportable segments, Medline Brand and Supply Chain Solutions, the combination of which addresses critical needs in the market through a comprehensive solution. They are both supported by our Prime Vendor model, differentiated distribution network, and robust commercial platform. Through our two segments, we offer approximately 335,000 med-surg products, including surgical and procedural kits, gloves and protective apparel, urological and incontinence care, wound care, and consumable lab and diagnostics products. We distribute these products through our expansive network of global distribution facilities and our owned fleet of MedTrans trucks.

Medline Brand

As of December 31, 2025, we offer our customers approximately 190,000 med-surg products through our Medline Brand segment and hold leading positions across many key product families for our Medline Brand products. Our Medline Brand products are organized into three product categories: Front Line Care, Surgical Solutions, and Laboratory and Diagnostics.

- *Front Line Care* offers mission-critical med-surg products for patient-facing needs, including wound care products, exam gloves, skin care and incontinence products, environment cleaning supplies, textiles, hand sanitizer, durable medical equipment, patient plastics, and decolonization and infection control products.
- *Surgical Solutions* offers operating room and perioperative environment product solutions, including surgical procedure trays, drapes and gowns, personal protective equipment, sterile wraps, surgical instruments, surgeon's gloves, procedure kits, and orthopedic implants.
- *Laboratory and Diagnostics* offers a full range of laboratory and diagnostic product solutions, including point of care testing, analyzers and instrumentation, lab and diagnostic consumables, diagnostic instruments, vital signs monitors, and anatomic pathology and phlebotomy products.

Our product development approach incorporates customer feedback and ongoing innovation. We are also committed to delivering products of the highest standard, which is reflected by our robust quality team embedded across our manufacturing and sourcing locations. The expertise of our research and development team and quality team helps ensure products bearing the Medline brand meet both our rigorous quality standards and our customers' expectations.

Supply Chain Solutions

As of December 31, 2025, we offer approximately 145,000 med-surg products from over 1,300 third-party suppliers, including nearly all leading national brands, through our Supply Chain Solutions segment. We also provide our customers with supply chain optimization services such as consulting engagements, outsourced warehouse and technology management, put-away-ready packaging, third-party logistics, inventory rationalization, and route planning. Our third-party suppliers are primarily responsible for costs related to import and inbound freight, whereas we are primarily responsible for costs related to outbound freight from our distribution centers. Our supply chain expertise allows us to provide additional service offerings to optimize our customers' supply chain and inventory workflows, helping these customers cost-effectively manage their supply chain while building strong relationships and enhancing retention.

Our Prime Vendor Model

A Prime Vendor relationship is a relationship for which there is a multi-year distribution agreement between Medline and a customer, whereby the customer agrees to use Medline for the vast majority of its med-surg product needs.

In our Prime Vendor relationships, we enter into long-term agreements, typically structured with five-year terms, to act as the primary consolidated logistics partner for these customers' med-surg product needs. These agreements have been and are expected to continue to be a key contributor to our growth. Our customers realize efficiencies by partnering with one supply chain partner to consolidate their med-surg purchase volume. Prior to the market adoption of the Prime Vendor model, customers sourced such products individually from a highly fragmented base of suppliers. The Prime Vendor model instead centralizes procurement and distribution, which in turn drives efficiency and higher service levels.

As Prime Vendor, we drive significant cost savings to our customers. Our scale allows us to deliver consistently lower prices and better service levels on Medline Brand products relative to third-party alternatives, while also lowering the distribution cost for delivery of the full range of med-surg products. This often motivates customers to purchase more Medline Brand products over time. The opportunity is even greater in certain non-acute settings, where we sell a more focused product portfolio. Our Prime Vendor model allows us to provide cost savings to Prime Vendor customers, which, over time, supports incremental purchasing of our Medline Brand products and greater scale across our operations. As our scale grows, we are able to realize further efficiencies by offering superior or similar quality to third-party products at a more cost-effective price. We believe that Medline Brand conversion is mutually beneficial for both our customers and us-the value we provide customers at the outset of a Prime Vendor agreement meaningfully increases over time, as they accrue savings by purchasing our lower cost Medline Brand products, while our profitability grows given the enhanced margin profile of Medline Brand products. This compelling value proposition and supply chain relationship with our customers supports our greater than 98% average Prime Vendor retention rate over the past five years.

A portion of Supply Chain Solutions products sold to existing Prime Vendor customers has like-for-like Medline Brand product equivalents, representing a potential gross profit uplift consistent with our historical margin differentials if such products were converted for Medline Brand products. While we historically have earned higher margins upon conversion from third-party national brand products to like-for-like Medline Brand products, because of the lower average prices for Medline Brand products, there is typically a negative impact on net sales upon the conversion of Supply Chain Solutions products to like-for-like Medline Brand products if volume is assumed to be constant. For additional information on potential risks relating to this conversion opportunity, please see Part I, "Item 1A—Risk Factors—Risks Related to Our Business, Industry and Operations—Our failure to establish and maintain Prime Vendor relationships may cause our revenue to decline."

Our Distribution Network

We have a differentiated distribution network of 70 global distribution centers, warehouses, cross-docks, and transship facilities, 45 of which are in the United States, strategically located to provide next-day delivery to 95% of our U.S. customer base. We utilize artificial intelligence ("AI") and robotics technology in over 26 million square feet of warehouse space in the United States to improve efficiency and capacity to optimize distribution logistics and maximize utilization. The products we distribute are packaged to meet each customer's individual needs and to be "put-away-ready," which streamlines the customer's unloading and shelving process. We also operate our own fleet of more than 2,100 MedTrans trucks that deliver our products across care settings within the United States. As of December 31, 2025, we had approximately 25% in incremental capacity across our platform to support our long-term growth.

Our Commercial Platform

Our deep connectivity to our customers is driven by the strength of our dedicated and tenured commercial team. We have a U.S. commercial team of approximately 4,000 people across all points of care, which includes account managers, product specialists, specialized clinical resources, customer service representatives, supply chain specialists, Prime Vendor analysts, and a robust leadership team dedicated to driving efficiencies for our customers through their teams. We have created an entrepreneurial environment that empowers our salesforce to work with our product managers to create innovative products that meet market demand. We have a team devoted to each channel in the United States and each region or country internationally, which allows our salesforce teams to develop market-specific knowledge.

Research and Development

We have a track record of successfully bringing new products to market, with more than 2,300 granted patents and more than 450 U.S. Food and Drug Administration ("FDA") 510(k) clearances. Over the last three years, we have successfully launched more than 250 new products.

Competition

Our value proposition is derived from our integrated business model, the breadth of our Medline Brand portfolio, our differentiated supply chain, and the overall quality and cost of our products. As a result of our integrated business model, our competitors include both other leading med-surg product manufacturers and distributors.

Similar to us, other leading med-surg product manufacturers produce a wide range of med-surg supplies. However, unlike us, many of these competitors are reliant upon third-party distributors to deliver their products to customers. By nature of being a distributor, Medline has direct access to and manages the end customer relationships. This enables us to offer a complete solution as a manufacturer and a distributor, offering our customers what we believe to be best-in-class supply chain logistics, and driving value through our brand.

Additionally, other distributors of med-surg products similarly connect the fragmented supplier and provider bases and aggregate inventory from suppliers to deliver products to customers, such as McKesson, Cardinal Health, Owens & Minor, and Henry Schein. These distribution companies compete with us for Prime Vendor agreements. However, we believe that many of these competitors do not benefit from the scale and scope of our vertical integration or commercial excellence, and thus are not able to provide the same magnitude of cost savings, value, and holistic solutions that we deliver for our customers.

Production and Raw Materials

We manufacture approximately one-third of our Medline Brand products, which are primarily Class I and II medical devices, through our 30 manufacturing facilities, of which 24 are in North America. We purchase many of the components and raw materials used in manufacturing our products from numerous suppliers. We focus our manufacturing capabilities on products where we can leverage technology and automation to drive higher quality and lower costs to better serve our customers. For the vast majority of the other two-thirds of our Medline Brand products, we work closely with our network of more than 600 global partners across approximately 40 countries, many of whom have decades-long exclusive relationships with us. The breadth of our global sourcing partnerships provides diversification and strengthens our resiliency, with no single sourcing partner accounting for more than 5% of total spend as of December 31, 2025.

We also have plans and measures in place to help ensure continuity of supply while maintaining high quality and reliability. Generally, we have been able to obtain adequate supplies of such raw materials and components. However, due to the FDA's manufacturing requirements and those of other regulatory authorities, we may not be able to quickly establish additional or replacement sources for certain components, materials or processes if we experience a sudden or unexpected reduction or interruption in supply or services and are unable to develop alternative sources.

Human Capital Resources

At Medline, our relentless focus on the customer drives our human capital strategy, which revolves around attracting, developing, and retaining employees to provide the best products and services for our customers. We have developed a strong foundation that drives our recruitment, retention and development efforts. We are committed to supporting the personal and professional development of our employees, as well as providing competitive benefits and a safe, inclusive workplace.

As of December 31, 2025, we employed over 45,000 employees worldwide, with over 26,000 located in the United States. Our largest non-U.S. employee populations are in Mexico, Dominican Republic, India, Canada, Slovakia, France, China, Japan, Germany, and Australia. None of our employees in the United States are unionized, though some of our employees in Mexico belong to unions. In Germany and the Netherlands, employees are represented through Works Councils; in France and Spain, employees are represented through both Works Councils and industry-wide collective bargaining agreements; and in Belgium and Italy, employees are also represented through industry-wide collective bargaining agreements. In Australia, certain employees are represented by an enterprise bargaining agreement; in Japan, employees are represented through a Work Council; and in Vietnam, employees are represented through a collective bargaining agreement. We believe that our positive employee relations and total employee experience drive the continual growth of our workforce.

Culture and Values

Our culture is grounded in a customer-focused, collaborative, and performance-driven approach, guided by core values emphasizing relentless customer focus, agility and flexibility, problem-solving, drive to succeed, purposeful candor, and the importance of relationships. Employees are encouraged to exercise judgment, work transparently with customers, and contribute meaningfully to our mission to make healthcare run better.

Talent Attraction and Development

We seek to attract employees whose skills, experience, and motivation align with our operational and technical needs. Through continual improvement of internal processes, an awareness of market and candidate driven trends, and in partnership with vendors and other outside organizations, our talent acquisition programs focus on efficient hiring processes, market awareness, and building a diverse pipeline of candidates. We support development through consistent performance management processes and early career opportunities to take on additional responsibilities to demonstrate their competencies and drive to succeed and on-the-job responsibility augmented by formal training and development to refine technical and leadership skills. New sales representatives participate in comprehensive training programs, and product managers have targeted development pathways through all stages of their careers, from mandatory onboarding offerings to advanced classes that provide the necessary skills with increasing levels of responsibility, to support progression over time.

Employee Engagement and Inclusion

We believe our employees' ability to communicate and cooperate effectively across functional and departmental teams positively impacts our performance. We engage in various listening strategies and foster engagement through survey feedback mechanisms, anonymous employee feedback platform, focus groups, increased attention to onboarding and offboarding feedback, pulse surveys on remote work needs, and other listening strategies. Insights from these efforts inform workplace improvements. We also support an inclusive environment through Employee Resource Groups and leadership training initiatives designed to reduce bias in talent decisions and strengthen representation across the company.

Health, Safety, and Well-Being

We are committed to maintaining a safe workplace and supporting the physical, emotional, and financial well-being of our employees. We provide competitive health and benefits programs, access to assistance resources where available, and opportunities for community involvement through charitable giving, including financial giving and in-kind giving such as product donations.

Intellectual Property

We rely upon patents, trademarks, copyrights, trade secrets and other intellectual property rights to maintain and improve our competitive position. We have a large portfolio of intellectual property, including more than 2,300 granted patents as well as trademark registrations protecting our notable brands, including Medline, Curad, Microtek, Hudson, and Proxima.

We consider the trademarks and know-how that we own to be material to our business. However, other than the Medline mark, we do not consider our business to be materially dependent upon any individual trademark registration or trade secret. In the aggregate, we consider our more than 2,300 granted patents to be material to our business. However, no single patent or group of related patents is material to our business as a whole or any segment of our business.

We believe that we have taken all necessary steps to protect our intellectual property rights, but no assurance can be given that we will be able to successfully enforce or protect our rights in the event that they are infringed upon or challenged by a third party. See Part I, "Item 1A —Risk Factors—Risks Related to Regulation and Legal Proceedings—Any failure to obtain, maintain, protect and enforce our intellectual property rights, or the failure of the strength or scope of our intellectual property rights, could harm our business, financial condition, and results of operations" and "—Risks Related to Regulation and Legal Proceedings—We may become subject to litigation brought by third parties claiming infringement, misappropriation, or other violation by us of their intellectual property rights."

Government Regulation

Our operations and products are subject to extensive regulation by numerous governmental regulatory authorities, including U.S. and other international regulatory authorities, and other government agencies inside and outside the United States. To varying degrees, each of these agencies requires us to comply with laws and regulations governing the development, design, materials, testing, safety, efficacy, quality, purity, manufacturing, methods, controls, testing, screening, recordkeeping, reporting, processing, storage, registration, authorization, licensing, permitting, labeling, advertising, marketing, distribution, offer for sale, sale, use, expiration, pricing, reimbursement, import, export, clinical trials, post-marketing surveillance of our products, the registration of our facilities, and the claims that we make about our products. The United States and other countries where we sell healthcare and other regulated products, including drugs, human cell and tissue products, dietary supplements, cosmetics, certain foods, and consumer products subject such products to their own clearance, authorization, approval, registration, listing, labeling, manufacturing, recordkeeping, reporting, and other regulatory requirements regarding the performance, safety, and quality of such products. We are also subject to healthcare and other regulations and enforcement by the federal government and the states and foreign governments and authorities in the locations in which we conduct our business. The U.S. governmental and regulatory authorities that enforce such laws and rules, and that issue guidance on compliance with such laws and rules include, without limitation, the FDA, the Centers for Medicare & Medicaid Services ("CMS"), other divisions of the U.S. Department of Health and Human Services ("HHS"), the HHS Office of Inspector General, U.S. Environmental Protection Agency ("EPA"), the Federal Trade Commission ("the FTC"), Consumer Product Safety Commission ("CPSC"), the U.S. Department of Justice ("DOJ") and individual U.S. Attorney offices within the DOJ, as well as state and local governments. Our business is also affected by patient and data privacy and security laws, government payer cost containment initiatives, government reimbursement laws and regulations, environmental, health, and safety laws and regulations, as well as laws and regulations with respect to the sale, transportation, storage, handling, and disposal of hazardous or potentially hazardous substances, and safe working conditions. Our business also maintains contracts with governmental agencies and such contracts are subject to various government procurement laws and regulations, required contract provisions, and other requirements relating to contract formation, administration and performance. Failure to comply with applicable laws and regulations or with contractual or other requirements may result in monetary damages and criminal or civil penalties as well as termination of our government contracts or our suspension or debarment from government contract work.

The regulations to which we are subject are complex and have tended to become more stringent over time. If our business expands in certain ways, including through the offering of new products and services or entering into new geographic areas, we may be subject to new and additional regulatory requirements. The foreign, federal, state, and local regulatory authorities have broad inspection and enforcement powers, including the ability to suspend or limit the distribution of products, suspend, revoke, or terminate our product and facility licenses, permits, and authorizations, request the cessation of distribution and shipments of certain products due to regulatory, safety, or other issues, seize or order the recall of our products, issue safety, quality, or other communications to the public or healthcare providers, enforce laws related to marketing, including promotion of off-label uses of products, and impose injunctions and significant criminal, civil, and administrative sanctions for violations of laws and regulations. Any adverse regulatory or other action, including any adverse press releases or other communications from regulators, may impact our business practices and operations, including by limiting our ability to effectively market, ship, and sell our products, affecting the production and distribution of products by our manufacturing facilities, subjecting us to significant liability, and limiting our ability to obtain future authorizations. Although we are subject to international government regulations in the international end markets where we operate and/or provide our products, these regulations do not have a material impact on our products as no international market represents more than 3% of our net sales.

Government Regulation of Medical Devices

Our medical devices are subject to regulation by numerous government agencies, including the FDA and comparable state and foreign agencies. Regulations of the FDA and other regulatory agencies in and outside the United States impose extensive compliance and monitoring obligations on portions of our business. The FDA and other U.S. and foreign governmental agencies regulate, among other things, with respect to medical devices: design, development, and manufacturing; testing, registration, listing, labeling, content, and language of instructions for use and storage; clinical trials; product safety; marketing, sales, and distribution; licensing and permit requirements; premarket clearance, approval and authorization; record keeping procedures; advertising and promotion; recalls and field safety corrective actions; post-market surveillance, including reporting of deaths or serious injuries and malfunctions that, if they were to recur, could lead to death or serious injury; post-market approval studies; and product import and export. The regulations to which we are subject are complex and have tended to become more stringent over time. If our business expands in certain ways, we may be subject to new and additional regulatory requirements. The FDA and state regulatory authorities have broad inspection and enforcement powers, including the ability to suspend or limit the distribution of products by our distribution centers; seize or order the recall of products; terminate, suspend, or revoke licenses and permits; and impose significant criminal, civil, and administrative sanctions for violations of these laws and regulations. Foreign regulations subject us to similar foreign enforcement powers. In addition, the FDA and other governmental and regulatory authorities, both in and outside the United States (including the FTC, the HHS Office of the Inspector General, the DOJ, and various state Attorneys General), monitor the promotion and advertising of our products. Any adverse regulatory or other action, including any adverse press releases or other communications from regulators, depending on its magnitude, may limit our ability to effectively market, ship, and sell our products, limit our ability to obtain future premarket authorizations, or result in a substantial modification to our business practices and operations.

FDA Premarket Clearance and Approval Requirements

Each medical device we wish to distribute commercially in the United States requires marketing authorization from the FDA prior to distribution, unless the device is exempt from premarket notification requirements. The type of marketing authorization necessary is generally linked to the classification of the device. The FDA classifies medical devices into one of three classes-Class I, II, or III-based on the degree of risk associated with a device and the level of regulatory control deemed necessary to ensure its safety and effectiveness. Class I devices that pose the least risk are subject only to General Controls applicable to all devices, such as requirements for device labeling, premarket notification, and adherence to current good manufacturing practices for devices as set forth in the Quality System Regulation ("QSR"). Class II devices that pose a moderate risk are subject to General Controls and may also be subject to Special Controls, such as performance standards, product-specific guidance documents, special labeling requirements, patient registries, or post-market surveillance. Class III devices are those for which insufficient information exists to assure safety and effectiveness solely through General and Special Controls, including devices that support or sustain human life, are of substantial importance in preventing impairment of human health, or which present a potential unreasonable risk of illness or injury.

Most Class I devices and some Class II devices are exempted by regulation from the 510(k) clearance requirement and can be marketed without prior authorization from the FDA. Class I and II devices that are not exempted are eligible for marketing through the 510(k) clearance pathway. By contrast, devices placed in Class III generally require premarket approval ("PMA") or de novo clearance prior to commercial marketing. The PMA approval process is more stringent, time-consuming and expensive than the 510(k) clearance process; however, the 510(k) clearance process has also become increasingly stringent and expensive. None of our products are currently approved under a PMA, and we have no plans for any indication or system improvement or extension that we believe would require a PMA. If, in the future, we were to file a PMA, we may be subject to additional regulatory requirements.

510(k) Clearance Process

To obtain 510(k) clearance, we must submit a premarket notification to the FDA demonstrating the proposed device to be substantially equivalent to a predicate device. A device is substantially equivalent if, with respect to the predicate device, it has the same intended use and it has either the same technological characteristics, or it has different technological characteristics, but the information provided in the 510(k) submission demonstrates that the device does not raise new questions of safety or effectiveness. The standard review process for 510(k)s is between six to nine months, dependent upon the type of 510(k) filing submitted. Although many 510(k) premarket notifications are cleared without clinical data, in some cases, the FDA may require clinical data to support substantial equivalence. In reviewing a premarket notification, the FDA may request additional information, including clinical data, which may significantly prolong the review process and clearance is never assured. Clinical trials generally require the submission of an investigational device exemption ("IDE") to the FDA for a specified number of patients and study sites, unless the product is deemed a non-significant risk device eligible for more abbreviated IDE requirements. Clinical trials are subject to numerous requirements and institutional review board approval, oversight, and monitoring. Even if a trial is conducted, the results of clinical testing may not adequately demonstrate the safety and effectiveness of the device or be sufficient to obtain FDA clearance or approval for marketing.

After a device receives 510(k) clearance, any subsequent modification of the device that could significantly affect its safety or effectiveness, or that would constitute a major change in its intended use, requires a new 510(k) clearance or could require submission and approval of a de novo 510(k) or a PMA application in cases where new indications are sought for which there is no predicate. Non-significant changes are handled via internal documentation by the Company. Each manufacturer must judge the significance of modifications based on FDA 510(k) regulatory requirements and guidance documents. The FDA may review any such decision and may disagree with a manufacturer's determination. If the FDA disagrees with a manufacturer's determination, the FDA may require the manufacturer to cease marketing and distribution and/or recall the modified device until 510(k) clearance or PMA approval is obtained. In the future, we may make modifications to our products after they have received FDA clearance and, in appropriate circumstances, determine that new clearance is unnecessary. However, the FDA may disagree with our determination, and, if the FDA requires us to seek 510(k) clearance or submit new PMA applications for any modifications to a previously cleared product, we may be required to cease marketing or distributing or recall the modified device until we obtain the required clearance or approval. We may also market or acquire products that are marketed without a 510(k) clearance, appropriate labeling, or that otherwise are marketed in violation of FDA requirements, since medical devices can be marketed only for the indications for which they are cleared or approved. Under these circumstances, we may also be subject to warning letters, significant regulatory fines, or other penalties, and we may no longer be able to market particular products for which a 510(k) clearance is required.

Post-Marketing Requirements

Numerous FDA regulatory requirements apply to devices we manufacture and distribute, including: compliance with the QSR, which require manufacturers and their suppliers to follow the applicable design, testing, processes, control, documentation, labeling, and other quality assurance procedures during the manufacturing process; establishment registration, which requires establishments involved in the production and distribution of medical devices intended for commercial distribution in the United States to register with the FDA; medical device listing, which requires manufacturers to list the devices they have in commercial distribution with the FDA; labeling regulations, which prohibit "misbranded" devices from entering the market, as well as prohibit the promotion of products for unapproved or off-label uses and impose other restrictions on labeling; post-market surveillance, including medical device reporting requirements which requires manufacturers to report to the FDA if their device may have caused or contributed to a death or serious injury, or malfunctioned in a way that would likely cause or contribute to a death or serious injury if it were to recur; and corrections and removal reporting regulations, which require that manufacturers report to the FDA field corrections and product recalls or removals if undertaken to reduce a risk to health posed by the device or to remedy a violation of the Federal Food, Drug, and Cosmetic Act that may present a risk to health. The FDA and other governmental and regulatory authorities actively enforce the laws and regulations prohibiting the promotion of off-label uses, and a company that is found to have improperly promoted off-label uses may be subject to significant liability.

The FDA enforces these requirements by inspection and market surveillance. Domestic facility records and manufacturing processes are subject to periodic unscheduled inspections by the FDA. The FDA may also inspect foreign facilities that export products to the United States. Failure to comply with applicable regulatory requirements may result in enforcement action or other actions by the FDA, which may include one or more of the following sanctions: adverse press releases and safety communications; requests to stop shipments; untitled letters or warning letters; fines, injunctions, and civil penalties; mandatory recall or seizure of our products; customer notifications and repairs or replacements; administrative detention or banning of our products; consent decrees; operating restrictions, partial suspension or total shutdown of production; refusing our request for 510(k) clearances for new product versions or modifications to existing product versions; revocation of 510(k) clearances previously granted; refusal to grant export approval for our products; and criminal prosecution and penalties. If any of these events were to occur, they could have a material adverse effect on our business, financial condition, and results of operations.

International Regulation of Medical Devices

Sales of medical devices outside the United States are subject to foreign government regulations, which vary substantially from country to country. In order to market our products in other countries, we must comply with applicable regulatory requirements and authorizations and approvals and safety and quality regulations in each country in which the product is marketed. The time required to obtain authorization, approval, or certification by a foreign country may be longer or shorter than that required for FDA clearance, and the requirements may differ significantly.

EU Regulation of Medical Devices

In the European Union ("EU") until May 25, 2021, medical devices were regulated by the Council Directive 93/42/EEC, which has been repealed and replaced by the Medical Device Regulation ("EU MDR"). Unlike directives, regulations are directly applicable in all EU member states without the need for member states to implement into national law. The EU extended the EU MDR transitional periods for certain medical devices until December 31, 2027 or December 31, 2028, depending on a device's risk class and subject to certain conditions to ensure continued access to medical devices for patients and to allow medical devices already placed on the market in accordance with the current legal framework to remain on the market, provided that the requirements of the transitional provisions are fulfilled.

In the EU, there is currently no premarket government review of medical devices. However, all medical devices placed on the EU market must meet general safety and performance requirements, and compliance with the general safety and performance requirements is a prerequisite for European conformity marking without which medical devices cannot be marketed or sold in the EU. EU MDR requirements regarding the distribution, marketing, and sale, including quality systems and post-market surveillance, have to be observed by manufacturers, importers, and distributors as of the application date (i.e., since May 26, 2021), including registration of economic operators and of devices (once the relevant modules of Eudamed are functional), surveillance, and vigilance requirements. The aforementioned EU rules are generally applicable in the European Economic Area which consists of the 27 EU member states plus Norway, Liechtenstein, and Iceland.

The NDA Approval Process

For any new drug products regulated under the Federal Food, Drug, and Cosmetic Act such as our ReadyPrep CHG cloth, a sponsor must submit a New Drug Application ("NDA"), to the FDA for review and approval. The NDA review and approval process may take multiple years and involves steps including the following:

- completion of preclinical studies and analytical and stability testing in accordance with applicable regulations;
- submission to the FDA of an Investigational New Drug ("IND") application, which must become effective before clinical trials may begin and must be updated annually and amended when certain changes are made;
- approval by an institutional review board, or IRB, or independent ethics committee, or IEC, at each clinical trial site before each trial may be initiated;
- performance of adequate and well-controlled clinical trials in accordance with applicable IND regulations, good clinical practice, or GCP, requirements, including informed consent, financial disclosure by investigators, and other clinical trial-related regulations, to establish the safety and efficacy of the investigational product for each proposed indication and other condition of use;
- preparation and submission to the FDA of an NDA;

- satisfactory completion of one or more FDA pre-approval inspections of the manufacturing facility or facilities where the drug will be produced to assess compliance;
- satisfactory completion of FDA inspection of select clinical trial sites involved in conducting pivotal studies that generated the data in support of the NDA;
- payment of user fees for FDA review of the NDA; and
- FDA review and approval of the NDA, including of the proposed prescribing information and, where applicable, consideration of the views of any FDA advisory committee, prior to any commercial marketing or sale of the drug in the United States.

Any approvals that we may ultimately receive could be withdrawn if required post-marketing trials or analyses do not meet the FDA requirements, which could materially harm the commercial prospects for our products.

Even if a product candidate receives regulatory approval, the approval may be limited to specific disease states, patient populations and dosages, or might contain significant limitations on use in the form of warnings, precautions or contraindications, or in the form of onerous risk management plans, restrictions on distribution, or post-marketing study requirements. Further, even after regulatory approval is obtained, later discovery of previously unknown problems with a product may result in restrictions on the product or even complete withdrawal of the product from the market. Delay in obtaining, or failure to obtain, regulatory approval for our candidate products, or obtaining approval but for significantly limited use, would harm our business. In addition, we cannot predict what adverse governmental regulations may arise from future U.S. or foreign governmental action.

Trade Regulations

The movement of products, services, and investment across borders subjects us to extensive trade regulations. A variety of laws and regulations in the countries in which we transact business apply to the sale, shipment, and provision of goods, services, and technology across borders. These laws and regulations govern, among other things, our import, export, and other business activities. We are also subject to the risk that these laws and regulations could change in a way that would expose us to additional costs, penalties, or liabilities. Some governments also impose economic sanctions against certain countries, governments, persons, and entities, both for unlawful or malign conduct and to discourage or prevent entities from abiding by other countries' laws. In addition to our need to comply with such regulations in connection with our direct activities, we also sell and provide goods, technology, and services to agents, representatives, and distributors who may export such items to customers and end-users. If we, or the third parties through which we do business, are not in compliance with applicable import, export control, or economic sanctions laws and regulations, we may be subject to civil or criminal enforcement action and varying degrees of liability. Such actions may disrupt or delay sales of our products or services or result in restrictions on our distribution and sales of products or services that may materially impact our business.

Anti-Boycott Laws

Under U.S. laws and regulations, U.S. companies and their subsidiaries and affiliates are prohibited from participating or agreeing to participate in unsanctioned foreign boycotts in connection with certain business activities, including the sale, purchase, transfer, shipping, or financing of goods or services within the United States or between the United States and countries outside of the United States. If we, or certain third parties through which we sell or provide goods or services, violate U.S. anti-boycott laws and regulations, we may be subject to civil or criminal enforcement action and varying degrees of liability.

Medline challenged several violations, resulting in most being substantially reduced or removed. All issues were addressed and resolved to the satisfaction of the FL DOH. A settlement agreement was reached to resolve all matters and approved on 09/06/2008. **Corrective Actions** Medline instituted a Florida specific pedigree system to address the pedigree issues. The updated pedigree ensures that all applicable shipments to Florida have the required Florida documentation and comply with FL pedigree requirements (Note - these requirements have since been preempted by the federal Drug Supply Chain Security Act). Medline instituted a new procedure for obtaining and maintaining customer licenses for all prescription drug purchases- this procedure generates an automatic block for any prescription drug order by an unlicensed customer. The prescription drug item unintentionally stored in the raw materials facility was properly disposed of and waste disposal procedures updated to prevent this from occurring in the future.

1. Respondent's drug distributor license shall be placed on PROBATION for five (5) years pursuant to the provisions of Chapters 338 and 620, RSMo. During the period of

probation, Respondent will be entitled to operate as a drug distributor pursuant to Chapter 338, RSMo provided Respondent adheres to the following terms of probation:

A. Respondent shall report to the Board, on a preprinted form supplied by the Board office, once every six (6) months, beginning six (6) months after this Order/Agreement becomes effective, stating truthfully whether or not it has complied with all terms and conditions of this disciplinary order.

B. Respondent shall pay all required fees for licensing to the Board and shall renew its license prior to October 31 for each licensing year.

C. Respondent shall comply with all provisions of Chapter 338, Chapter 195, and all applicable federal and state drug laws, rules and regulations and with all federal and state criminal laws. "State" here includes the State of Missouri and all other states and territories of the United States.

D. If, after disciplinary sanctions have been imposed, Respondent ceases to keep its Missouri license current, the period of unlicensed status shall not be deemed or taken as any part of the time of discipline so imposed.

2. Upon the expiration of said discipline, Respondent's license as a drug distributor in Missouri shall be fully restored if all other requirements of law have been satisfied; provided, however, that in the event the Board determines that the Respondent has violated any term or condition of this Settlement Agreement, the Board may, in its discretion, after an evidentiary

hearing, vacate and set aside the discipline imposed herein and may suspend, revoke, or otherwise lawfully discipline the Respondent.

3. No order shall be entered by the Board pursuant to the preceding paragraph of this Settlement Agreement without notice and an opportunity for hearing before the Board in accordance with the provisions of Chapter 536, RSMo.

4. If the Board determines that Respondent has violated a term or condition of this Settlement Agreement, which violation would also be actionable in a proceeding before the Administrative Hearing Commission or the circuit court, the Board may elect to pursue any lawful remedies or procedures afforded it and is not bound by this Settlement Agreement in its determination of appropriate legal actions concerning that violation. If any alleged violation of this Settlement Agreement occurred during the disciplinary period, the Board may choose to conduct a hearing before it either during the disciplinary period, or as soon thereafter as a hearing can be held to determine whether a violation occurred and, if so, it may impose further discipline. The Board retains jurisdiction to hold a hearing to determine if a violation of this Settlement Agreement has occurred.

5. The terms of this Settlement Agreement are contractual, legally enforceable, binding, and not merely recitals. Except as otherwise contained herein, neither this Settlement Agreement nor any of its provisions may be changed, waived, discharged, or terminated, except by an instrument in writing signed by the party against whom the enforcement of the change, waiver, discharge, or termination is sought.

6. Respondent hereby waives and releases the Board, its members and any of its employees, agents, or attorneys, including any former board members, employees, agents, and

attorneys, of, or from, any liability, claim, actions, causes of action, fees, costs and expenses, and compensation, including, but not limited to, any claims for attorney's fees and expenses, including any claims pursuant to § 536.087, RSMo, or any claim arising under 42 U.S.C. § 1983, which may be based upon, arise out of, or relate to any of the matters raised in this litigation, or from the negotiation or execution of this Settlement Agreement. The parties acknowledge that this paragraph is severable from the remaining portions of this Settlement Agreement in that it survives in perpetuity even in the event that any court of law deems this Settlement Agreement or any portion thereof void or unenforceable.

CERTIFIED MAIL/RETURN RECEIPT REQUESTED

December 7, 2006

Andrew Stolarski
Vice President of Operations
Medline Industries, Inc.
9101 Riverside Parkway
Lithia Springs, GA 30122

RE: Prescription Drug Wholesaler Permit No. 23:01470

Dear Mr. Stolarski:

This letter serves as notification that the department intends to suspend permit no. 23:01470 issued to Medline Industries, Inc. as an Out of State Prescription Drug Wholesaler based upon the following facts, grounds and considerations:

Section 499.067(1)(a), Florida Statutes (F.S.), authorizes the department to deny, suspend, or revoke a permit if it finds that there has been substantial failure to comply with § 499.001-499.081, F.S., or Chapter 465, Chapter 501, or Chapter 893, the rules adopted under any of those sections or chapters, any final order of the department, or applicable federal laws or regulations or other state laws or rules governing drugs, devices, or cosmetics. The department may also suspend a permit if the applicant has not met the requirements for the permit.

Pursuant to s. 499.012(11)(a), F.S., each establishment that is issued an initial or renewal permit as a prescription drug wholesaler or an out-of-state prescription drug wholesaler must designate in writing to the department at least one natural person to serve as the designated representative of the wholesaler. Such person must have an active certification as a designated representative from the department and must also meet the requirements of Section 499.012 (11) (d) F.S.

Pursuant to s. 499.012(11)(f), F.S., a wholesale distributor may not operate under a prescription drug wholesaler permit or an out-of-state prescription drug wholesaler permit for more than 10 business days after the designated representative leaves the employ of the wholesale distributor, unless the wholesale distributor employs another designated representative and notifies the department within 10 business days of the identity of the new designated representative. Mr. David L. Magruder, the designated representative identified for permit no. 23:01470 has resigned his position. We have not received a "Notification of Designated Representative" form identifying a certified individual to replace him. As a result Medline Industries, Inc. does not have a designated representative as required by s. 499.012(11), F.S.

Pursuant to s. 499.012(11)(b)4., F.S., to be certified as a designated representative, a person must receive a passing score of at least 75 percent on an examination given by the department regarding federal laws governing distribution of prescription drugs and ss. 499.001-499.081 and the rules adopted by the department governing the wholesale distribution of prescription drugs.

Accordingly, and pursuant to the above referenced facts and law, the department hereby intends to suspend permit no. 23:01470 issued to Medline Industries, Inc. as an Out of State Prescription Drug Wholesaler because you have not complied with s. 499.012(11)(f), F.S. and otherwise do not have a designated certified representative on file with the Department that meets the requirements of Section 499.012 (11) F.S. which is a substantial failure to comply with ss. 499.001 – 499.081, F.S. and is a failure to meet the requirements for the permit, for which the suspension is authorized pursuant to Sections 499.067 (1) (a); 499.067 (1) (b) 2. F.S.

Therefore, the department concludes that Medline Industries, Inc. no longer meets the requirements to continue to operate as an Out of State Prescription Drug Wholesaler in Florida and the permit will be suspended until you have designated in writing to the department a person with an active certification to serve as a designated representative who meets the requirements of Section 499.012 (11) F.S.

NOTICE OF RIGHTS TO HEARING AND APPEAL

You have the right to request an administrative hearing pursuant to sections 120.569 and 120.57, F.S., if you wish to challenge the intended agency action to suspend your permit. Such proceedings are governed by sections 120.569 and 120.57, F.S., and Rules 28-106 and 28-107, Florida Administrative Code. Request for a hearing, formal or informal, must comply with Rule 28-107.004, Florida Administrative Code.

You have the right to be represented by counsel or other qualified representative, at your expense; to present evidence and argument; to call and cross-examine witnesses; and to have subpoena and subpoena duces tecum issued on your behalf if a hearing is requested.

A petition for administrative hearing must be in writing and must be received by the Agency Clerk for the Department, within twenty-one (21) days from the receipt of this complaint. The address of the Agency Clerk is 4052 Bald Cypress Way, BIN # A02, Tallahassee FL 32399-1703. The Agency Clerk's facsimile number is 850-410-1448.

Mediation is not available as an alternative remedy.

Your failure to submit a petition for hearing within 21 days from receipt of this complaint will constitute a waiver of your right to an administrative hearing, under Florida Administrative Code Rule 28-106.111 and this complaint shall become a "final order".

Should this correspondence become a final order, a party who is adversely affected by it is entitled to judicial review pursuant to s 120.68, F.S. Review proceedings are governed by the Florida Rules of Appellate Procedure. Such proceedings may be commenced by filing one copy of a Notice of Appeal with the Agency Clerk of the Department of Health and a second copy, accompanied by the filing fees required by law, with the Court of Appeal in the appropriate District Court. The notice must be filed within 30 days of rendition of the final order.

Upon consideration of the evidence presented to the Board, this Consent Order is voluntarily entered into by and between Respondent and the Board. Respondent acting through its authorized agent, hereby waives formal Notice of and its attendance at the Evidentiary Hearing for presentation of the Consent Order to the Board. However, as a condition precedent to submission of the proposed Consent Order to the Board, Respondent hereby acknowledges and understands that information may be presented to the Board with regards to the details of the case for the Board to understand the circumstances. It is further acknowledged and understood by Respondent that in the event the Board is not agreeable to enter into the proposed Consent Order and an Administrative Hearing is ultimately conducted, the Board which will be presiding over the case will possibly have heard information which may later be submitted at the scheduled hearing. If such hearing occurs, Respondent waives any right that it may have to recuse or remove any or all members of the Board for the purposes of an Administrative Hearing in the event the proposed Consent Order is not accepted by the Board, or if Respondent withdraws his consent to the proposed Consent Order prior to its final approval by the Board. Furthermore, Respondent has had the opportunity to, or has in fact consulted with, legal counsel with regards to the Consent Order and the waivers contained herein.

FINDINGS OF FACTS

1. Respondent possesses Louisiana License No. 4318 issued by the Board to wholesale distribute legend drugs and devices in the State of Louisiana. Such license was in effect on 3/5/2008 through the date of the evidentiary hearing in this matter.

2. Pursuant to LAC 46:XCI.311.D, a licensee is required to maintain copies of current licenses for customer who are authorized by law or regulation to procure or possess legend drugs or devices for all customers that are shipped or sold legend drugs or devices; if these license copies are maintained off site, a list of customers with customer names, addresses, license number, and license expiration dates shall be maintained on site for all customers shipped or sold legend drugs or devices.
3. On 3/5/2008, an inspection was conducted by the Board's representative which revealed that copies of customer licenses were not at the Covington LA facility. A verbal request to provide a customer listing which should be maintained at the Covington LA facility was made. The customer license list was not available.
4. Information was thereafter submitted by Respondent to the Board's inspector as per the inspector's request. In review of a customer listing ("Pedigree List") as provided by the Respondent, the inspector requested copies of customer licenses for 15 of the customers listed. Verbal explanation was given was that customer licenses are verified and the customer is entered electronically into the system as an authorized recipient but that no hard copy of the customer license is being maintained.
5. Respondent's conduct in failing to maintain customer license documents and/or a customer listing at the Covington LA site is in violation of the Louisiana Revised Statutes and Louisiana Administrative Codes for Wholesale Drug Distributors, specifically LAC 46:XCI.311.D.
6. Disciplinary sanctions and/or fines are applicable against Respondent in accordance with the Louisiana Revised Statutes and Louisiana Administrative Codes for Wholesale Drug Distributors.

2. It is unlawful for Respondent, as a licensee to wholesale distribute legend drugs and devices, to violate any of the provisions of the Louisiana Revised Statutes and Louisiana Administrative Codes for Wholesale Drug Distributors. La. R.S. 37:3474.1 and LAC 46:XCI.101
3. Respondent's violations of the provisions of the Louisiana Revised Statutes and Louisiana Administrative Codes for Wholesale Drug Distributors constitute lawful grounds for the Louisiana Board of Wholesale Drug Distributors, upon due notice of hearing and proof of such violations, to assess a fine, revoke, suspend, or otherwise discipline Respondent's license as provided by law. La. R.S. 37:3474.1 and LAC 46:XCI.701 et seq.

DECISION

4. Respondent is hereby assessed a fine in the amount of $2,000 for its failure to properly maintain copies of current licenses for customers shipped or sold legend drugs or devices and/or a customer listing on site. Said fine to be paid on the effective date of

Administrative Docket No. 2008006

CERTIFIED MAIL
No. 7007 3020 0000 1431 0031
Return Receipt Requested

Dear Lara Simmons:

As you may recall, the Board is mandated by law to license and regulate the wholesale distribution of legend drugs and devices in Louisiana in accordance with the Louisiana Revised Statutes and Louisiana Administrative Codes for wholesale drug distributors. This letter will acknowledge receipt of your response dated 4/3/2008. This letter is also intended to respond to any inquiries you may have regarding the deficiencies found during the inspection which occurred on 3/5/2008 at MEDLINE INDUSTRIES, INC.'s Covington LA distribution facility.

Pursuant to the Louisiana Revised Statutes and Louisiana Administrative Codes, specifically LAC 46:XCI.311.D, a licensee should maintain copies of current licenses which authorizes a customer to procure and possess legend drugs and devices. If these customer licenses are maintained off site, a list of customers including customer names, addresses, license number, and the license expiration dates shall be maintained for all customers that are shipped or sold drugs or devices.

On 3/5/2008, the Board's inspector discovered that copies of customer licenses which authorize the customer to procure and possess legend drugs/devices or a listing of customers' license information were not being maintained at the Covington LA facility.

A verbal request was made by the inspector of a customer list which should have been maintained at the Covington LA facility. After receiving and reviewing a copy of the customer list, as referred to by Medline as their "Pedigree List", the inspector requested copies of 30 customer licenses from the listing. Of the requested customer license copies, the inspector found that 70% of the licenses requested were either not acceptable licenses or were not available.

It is evident that MEDLINE INDUSTRIES, INC. was in violation of LAC 46:XCI.311.D at the time of the inspection on 3/5/2008. The Louisiana Revised Statutes and Louisiana Administrative Codes for wholesale drug distributors, more particularly LA RS 37:3474.1, provides that, after due notice and hearing, MEDLINE INDUSTRIES, INC.'s license may be sanctioned and/or it may be assessed a fine for its actions or omissions. Fines alone may include an assessment of $1,000 per violation

Bob Broadus, Chairman; William Crates, Vice-Chairman; Randall Brooks, Secretary/Treasurer; John Liggio, Executive Director/Inspector
Hershal Paul, Board Member; Andy Milligan, Board Member; Wayne Gremillion, Board Member; Eric Vidrine, Board Member; Kimberly B. Barper, Executive Assistant

per day. It is the Board's objective to regulate the industry by correcting behavior. Such is accomplished by imposing sanctions for wrongful conduct.

It is hoped that the above detailed violation(s) as corrected will not occur in the future. Therefore, in an effort to amicably resolve the issues regarding the violation(s) which did occur, I, as the Board's appointed investigating/compliance officer, extend an offer to you which would impose a total fine of $2,000. This proposed sanction does not impose any restrictions on MEDLINE INDUSTRIES, INC.'s license.

If MEDLINE INDUSTRIES, INC. is agreeable to these terms, I have enclosed a Consent Order for your review and execution. Please have an authorized representative for your company sign the Consent Order in front of a Notary and two witnesses. Return the original, executed Consent Order along with a check made to the Louisiana Board of Wholesale Drug Distributors in the amount of the $2,000 fine to the Board's office within fifteen (15) days of receipt of this letter. You and/or a company representative will not be required to attend the evidentiary hearing at which the executed Consent Order will be presented to the full Board for acceptance, however you and/or another representative are welcome to attend.

In the event MEDLINE INDUSTRIES, INC. is not agreeable to this amicable resolution and wishes to contest the investigative findings in a hearing before the full Board, it has the right to do so. If such occurs, the current offer being proposed in this letter will no longer be viable.

We would like to bring this matter to disposition either by this amicable resolution or the pursuit of a formal hearing against MEDLINE INDUSTRIES, INC. before the Board at the next scheduled Board meeting. To do so, either way, we will need to prepare the necessary paperwork with all resolution documents. Again, please respond to this offer either by returning the executed Consent Order and fine payment or by written request for an administrative hearing. If your response is not received at the Board office within fifteen (15) days of receipt of this letter, the Board will begin steps towards the formal hearing with the issuance of subpoenas for witnesses and records.

We wish to keep an open line of communication with you. Please contact the Board office in the event you have any questions. Thank you for your cooperation in this matter.

Respectfully,

Wayne Gremillion
Board Member/Compliance Officer

Provide explanation below:

Medline Industries Inc. and Medline Manufacturing & Services, LLC was cited for several violations related to distribution centers in Florida, including, failure to pass and maintain a Florida compliant pedigree, maintaining the wrong permit type for the activities performed (Florida required a repackager permit in addition to the existing manufacturer permit), distribution of saline to an unauthorized recipient, and storage of a prescription drug in an unlicensed raw materials storage facility. Medline challenged several violations, resulting in most being substantially reduced or removed. All issues were addressed and resolved to the satisfaction of the FL DOH. A settlement agreement was reached to resolve all matters and approved on 09/06/2008.

Corrective Actions
Medline instituted a Florida specific pedigree system to address the pedigree issues. The updated pedigree ensures that all applicable shipments to Florida have the required Florida documentation and comply with FL pedigree requirements (Note - these requirements have since been preempted by the federal Drug Supply Chain Security Act). Medline secured the repackaging permit to address the missing permit type. Medline instituted a new procedure for obtaining and maintaining customer licenses for all prescription drug purchases- this procedure generates an automatic block for any prescription drug order by an unlicensed customer. The prescription drug item unintentionally stored in the raw materials facility was properly disposed of and waste disposal procedures updated to prevent this from occurring in the future.

Re: 08 PHM 037

Dear Ms. Hornick:

As you know, an inspector for the Department of Regulation and Licensing inspected Medline Industries on May 9, 2008. He found that several policies were missing, and the facility was storing prescription drugs in a non-secure location. It has been determined that these violations are grounds for discipline. I am the prosecuting attorney assigned to the case.

I have enclosed a proposed stipulation and order, which would resolve this matter without a hearing. If you are willing to resolve this case by agreement, please sign and return the stipulation and order by **December 9, 2008**. I will then present it to the Pharmacy Examining Board at its next meeting. The stipulation and order is not binding unless and until it is accepted by the board.

If you do not return the signed stipulation and order by December 9, 2008, I will file a formal complaint and initiate the hearing process. Please be aware that it is the policy of the Department to assess costs against respondents whenever any discipline is imposed. Your costs are presently $100. If we have to take this matter through a hearing, they will escalate quickly and could reach several thousand dollars.

Please call if you have any questions.

Sincerely,

SETTLEMENT AGREEMENT PRIOR TO FILING OF PETITION
FOR DISCIPLINARY ACTION AND BOARD'S FINAL ORDER

Petitioner, DEPARTMENT OF COMMERCE AND CONSUMER AFFAIRS' REGULATED INDUSTRIES COMPLAINTS OFFICE (hereinafter "RICO" or "Petitioner"), through its undersigned attorneys, and Respondent MEDLINE INDUSTRIES INC. (hereinafter "Respondent"), enter into this Settlement Agreement on the terms and conditions set forth below.

A. UNCONTESTED FACTS

1. At all relevant times herein, Respondent was licensed by the Board of Pharmacy (hereinafter the "Board") as a wholesale prescription drug distributor under License Number PWD 115. The license was issued on or about October 3, 2005. The license will expire on or about December 31, 2009.

I HEREBY CERTIFY THAT THE ATTACHED IS A TRUE AND CORRECT COPY OF THE ORIGINAL ON FILE IN THE DEPARTMENT OF COMMERCE & CONSUMER AFFAIRS.

2. Respondent's mailing address for purposes of this action is Dianna Wolfe, Corporate Regulatory Affairs Specialist, Medline Industries, Inc., One Medline Place, Mundelein, Illinois 60060.

3. Respondent timely reported that disciplinary action had been taken against Respondent by the State of Wisconsin. Respondent had entered into a Stipulation with the State of Wisconsin's Pharmacy Examining Board. Pursuant to the terms of a Final Order, Respondent was reprimanded and ordered to pay a forfeiture in the amount of $2,000.00. This action was based on the results of an inspection which revealed that certain policies were missing and that Respondent was storing pre-packaged kits for surgeries (which included various types and quantities of prescription drugs) in a warehouse that was shared with another company. These kits were not secured and employees of the other company had access to the kits. A true and correct copy of the Stipulation and Final Decision and Order which was approved on February 4, 2009 is attached as Exhibit "1."

4. RICO alleges that Respondent was disciplined by another state for a reason provided by the licensing laws in Hawaii. Specifically, the Respondent was disciplined for professional misconduct.

5. The foregoing allegations, if proven at an administrative hearing before the Board, would constitute violations of the following statute(s) and/or rule(s): Hawaii Revised Statutes ("HRS") § 436B-19(13) (disciplinary action by another state) and § 461-21(a)(2) (professional misconduct). Per Hawaii Administrative Rules §§ 16-95-30(c)(6) and (9), a licensee's facility must be secure from unauthorized entry and entry into areas where prescription drugs are held must be limited to authorized personnel.

6. The Board has jurisdiction over the subject matter herein and over the parties hereto.

B. REPRESENTATIONS BY RESPONDENT:

1. Respondent is fully aware that Respondent has the right to be represented by an attorney and voluntarily waives that right.

2. Respondent enters into this Settlement Agreement freely, knowingly, voluntarily, and under no coercion or duress.

3. Respondent is aware of the right to have a hearing to adjudicate the issues in the case. Pursuant to HRS § 91-9(d), Respondent freely, knowingly, and voluntarily waives the right to a hearing and agrees to dispose of this case in accordance with the terms and conditions of this Settlement Agreement.

4. Respondent being at all times relevant herein licensed as a wholesale prescription drug distributor by the Board acknowledges that Respondent is subject to penalties including but not limited to, revocation, suspension or limitation of the license and administrative fines, if the foregoing allegations are proven at hearing.

5. Respondent does not admit to violating any law or rule, but acknowledges that RICO has sufficient cause to file a Petition for Disciplinary Action against Respondent's license.

6. Respondent enters into this Settlement Agreement as a compromise of the claims and to conserve on the expenses of proceeding with an administrative hearing on this matter.

7. Respondent agrees that this Settlement Agreement is intended to resolve the issues raised in RICO's investigation in RICO Case No. PHA 2009-7-L.

C. TERMS OF SETTLEMENT:

1. Administrative fine. Respondent agrees to pay a fine in the amount of ONE THOUSAND AND NO/100 DOLLARS ($1,000.00). Payment shall be made by **cashier's check, company check, or money order made payable to "DCCA - Compliance Resolution Fund"** and mailed to the Regulated Industries Complaints Office, Attn: Bobbi Lum-Mew, Esq., 235 S. Beretania Street, 9th Floor, Honolulu, Hawaii 96813. Payment of the fine shall be due within thirty (30) days after this Settlement Agreement is approved by the Board.

2. Failure to Comply with Settlement Agreement. If Respondent fails to fully and timely comply with the terms of this Settlement Agreement as set forth in paragraph C.1 above, Respondent's license shall be automatically revoked upon RICO's filing of an affidavit with the Board attesting to such failure. In case of such revocation, Respondent shall turn in all indicia of the license to the Executive Officer of the Board within ten (10) days after receipt of notice of the revocation. In case of such revocation, Respondent understands Respondent cannot apply for a new license until the expiration of at least five (5) years after the effective date of the revocation. Respondent understands that if Respondent desires to become licensed again, Respondent must apply to the Board for a new license pursuant to and subject to HRS §§ 92-17, 436B-21, and all other applicable laws and rules in effect at the time.

3. Possible further sanction. The Board, at its discretion, may pursue additional disciplinary action as provided by law to include further fines and other sanctions as the Board may deem appropriate if Respondent violates any provision of the statutes or rules governing the conduct of wholesale prescription drug distributors in the State of Hawaii, or if Respondent fails to abide by the terms of this Settlement Agreement.

4. Approval of the Board. Respondent agrees that, except for the representations, agreements and covenants contained in Paragraphs C.5, C.6, C.7 and C.8 below, this Settlement Agreement shall not be binding on any of the parties unless and until it is approved by the Board.

5. No Objection if Board Fails to Approve. If the Board does not approve this Settlement Agreement, does not issue an order pursuant thereto, or does not approve a lesser remedy, but instead an administrative hearing is conducted against Respondent in the Board's usual and customary fashion pursuant to the Administrative Procedure Act, Respondent agrees that neither Respondent nor any attorney that Respondent may retain, will raise as an objection in any administrative proceeding or in any judicial action, to the Board's proceeding against Respondent on the basis that the Board has become disqualified to consider the case because of its review and consideration of this Settlement Agreement.

6. Any Ambiguities Shall be Construed to Protect the Consuming Public. It is agreed that any ambiguity in this Settlement Agreement is to be read in the manner that most completely protects the interests of the consuming public.

7. No Reliance on Representations by RICO. Other than the matters specifically stated in this Settlement Agreement, neither RICO nor anyone acting on its behalf has made any representation of fact, opinion or promise to Respondent to induce entry into this Settlement Agreement, and Respondent is not relying upon any statement, representation or opinion or promise made by RICO or any of its agents, employees, representatives or attorneys concerning the nature, extent or duration of exposure to legal liability arising from the subject matter of this Settlement Agreement or concerning any other matter.

8. Complete Agreement. This Settlement Agreement is a complete settlement of the rights, responsibilities and liabilities of the parties hereto with respect to the subject matter hereof; contains the entire agreement of the parties; and may only be modified, changed or amended by written instrument duly executed by all parties hereto.

IN WITNESS WHEREOF, the parties have signed this Settlement Agreement on the date(s) set forth below.

STATE OF COLORADO

Case No. 2010-002994

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF DISCIPLINARY PROCEEDINGS REGARDING THE LICENSE TO PRACTICE AS A OUT-OF-STATE WHOLESALER IN THE STATE OF COLORADO OF MEDLINE INDUSTRIES, INC.,

Wholesaler Applicant.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and Medline Industries, Inc. ("Wholesaler Applicant") to resolve all matters pertaining to Board Case Number 2010-002994 as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Wholesaler Applicant, its application for registration as an out-of-state wholesaler and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the provisions of the Pharmaceuticals and Pharmacists Act at Title 12, Article 22, C.R.S.

2. Wholesaler Applicant admits these findings and hereby waives any further proof in this proceeding before the Board regarding the following facts.

3. Wholesaler Applicant entered into a Settlement Agreement with the Missouri State Board of Pharmacy, which was effective on August 3, 2005 ("Missouri Settlement Agreement").

4. In the Missouri Settlement Agreement, Wholesaler Applicant was placed on probation for five (5) years for various violations of Missouri state and federal law involving recordkeeping, storage of prescription drugs, change of location without informing the Missouri Board of Pharmacy, lack of a policy and procedure manual, and distribution of prescription drugs under a lapsed registration.

5. Wholesaler Applicant's conduct, as set forth above, constitutes violations of the following sections of the Colorado Revised Statutes:

12-22-125. Unprofessional conduct - grounds for discipline.

(1) The board may suspend, revoke, refuse to renew, or otherwise discipline any license or registration issued by it, after a hearing held in accordance with the provisions of this section, upon proof that the licensee or registrant:

(c) Has violated:

(III) Any state or federal law pertaining to drugs.

12-22-125.2. Disciplinary actions.

(1) The board may deny or discipline an applicant, licensee, or registrant when the board determines that such applicant, licensee, or registrant has engaged in activities that are grounds for discipline.

6. On January 14, 2010, Wholesaler Applicant submitted an out-of-state wholesaler application, which application was denied by the Board.

7. On March 1, 2010, Wholesaler Applicant submitted a written request asking that the Board accept its application by granting a conditional license.

8. The Board finds and concludes, and Wholesaler Applicant agrees, that based upon Wholesaler Applicant's above-described violations of the Pharmaceuticals and Pharmacists Act and relevant rules and regulations, the following discipline is just and appropriate under the circumstances as a condition of its registration as an out-of-state wholesaler.

DISPOSITION

Conditional Registration / Probation / Compliance / Terms

9. **Conditional Registration.** Wholesaler Applicant shall be granted a registration as an out-of-state wholesaler upon execution of this Final Agency Order and satisfaction of the terms and conditions set forth herein.

10. **Probation.** Wholesaler Applicant's registration shall be placed on probation for a period of time equal to the time of probation remaining under the Missouri Settlement Agreement. Credit toward satisfying the period of probation under this Final Agency Order shall be given only during such periods of time that Respondent is in total compliance with all provisions of this Final Agency Order and the Missouri Settlement Agreement.

11. **Compliance.** Wholesaler Applicant shall at all times remain in compliance with §§12-22-801, *et seq.* C.R.S. and shall not at any time distribute prescription drugs into Colorado without being registered as an out-of-state wholesaler in the State of Colorado at the time of distribution.

12. **Other Requirements.** Wholesaler Applicant acknowledges and agrees that, as a condition of this Final Agency Order and probation, Wholesaler Applicant shall:

    a. promptly pay all Wholesaler Applicant's own fees and costs associated with this Final Agency Order;

Provide explanation below:

Medline Industries, LP distribution center at 9670 NW 112th Ave, Miami, FL 33178 (FL WDD# #2220297) entered a settlement agreement for alleged violations of selling prescription drugs to an unauthorized recipient and failure to maintain proper records. Medline accepted a physician license for a customer which should have maintained a Healthcare Clinic Establishment Permit. The recordkeeping allegation related to missing NDC numbers on outbound packing slips and invoices.

Corrective Actions:
Medline updated customer licensing requirements for Florida customers and completed an extensive review of all FL customer licenses to verify the correct license type was on file. Medline determined the missing NDC number on the packing slip and invoice occurred due to an internal system error. The error was limited to DSCSA exempt products, i.e. IV fluids. A fix was implemented to correct the issue.

Cautionary Note Regarding Forward-Looking Statements

This Annual Report on Form 10-K (this "Annual Report") contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in Section 27A of the Securities Act of 1933, as amended (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Forward-looking statements include all statements that are not historical facts. Words such as "anticipate," "assume," "believe" "contemplate," "continue," "could," "estimate," "expect," "foreseeable," "intend," "may," "plan," "potentially," "predict," "project," "seek," "should," "will," or "would," or similar words or phrases that convey uncertainty of future events or outcomes, are intended to identify forward-looking statements in this Annual Report. These forward-looking statements relate to matters such as our industry, business strategy, costs, and costs savings, impacts of accounting standards and guidance, goals and expectations, market position, future operations, margins, profitability, capital expenditures, liquidity and capital resources, legal matters, trends, and other financial and operating information. The forward-looking statements are based on management's current expectations and are subject to various risks, uncertainty, and changes in circumstances, many of which are beyond our control, that could cause actual results to differ materially. Although we believe that the assumptions underlying the forward-looking statements are reasonable, we cannot guarantee future results, level of activity, performance, or achievements. Factors that may cause actual results to differ from expected results include those described in Part I, "Item 1A—Risk Factors" and Part II, "Item 7—Management's Discussion and Analysis of Financial Condition and Results of Operations". The forward-looking statements included in this Annual Report speak only as of the date of this Annual Report or as of the date they are made, as applicable. Except as otherwise required by law, we disclaim any intent or obligation to update any "forward-looking statement" made in this Annual Report to reflect changed assumptions, the occurrence of unanticipated events, or changes to future operating results over time.

INTRODUCTORY NOTE

Medline Inc. was incorporated as a Delaware corporation on November 6, 2024. Prior to the completion of its initial public offering (the "IPO") on December 18, 2025, Medline Inc. undertook certain reorganization transactions (the "Reorganization") such that Medline Inc. is now a holding company, and its sole material assets are its equity interests held directly or indirectly through wholly owned subsidiaries in Medline Holdings, LP ("Medline Holdings"). Following the IPO, Medline Holdings is the predecessor of Medline Inc. for financial reporting purposes. As the general partner of Medline Holdings, Medline Inc. now operates and controls all of the business and affairs of Medline Holdings and, through Medline Holdings and its subsidiaries, conducts its business. The Reorganization lacks economic substance and therefore is accounted for in a manner consistent with a reorganization of entities under common control. As a result, the consolidated financial statements of Medline Inc. recognize the assets and liabilities received in the Reorganization at their historical carrying amounts, as reflected in the historical financial statements of Medline Holdings. Medline Inc. will consolidate Medline Holdings on its consolidated financial statements and record a non-controlling interest related to the Units (as defined herein) held by the Continuing Unitholders (as defined herein) on its consolidated balance sheets and statements of comprehensive income.

Medline Inc. had no significant business transactions or activities prior to the Reorganization, and, as a result, the historical financial information reflects that of Medline Holdings.

Basis of Presentation

The consolidated financial statements and accompanying notes included herein are prepared in accordance with United States generally accepted accounting principles ("GAAP"). The results of businesses acquired or disposed of are included in the consolidated financial statements from the date of the acquisition or up to the date of disposal, respectively. All adjustments, in the opinion of management, necessary to a fair statement of the results for the annual periods presented have been made.

Certain monetary amounts, percentages, and other figures included in this Annual Report have been subject to rounding adjustments. Percentage amounts included in this Annual Report have been calculated, in some cases, not on the basis of such rounded figures, but on the basis of such amounts prior to rounding. For this reason, percentage amounts in this Annual Report may vary from those obtained by performing the same calculations using the figures, on the face of our consolidated financial statements included elsewhere in this Annual Report. Certain other amounts that appear in this Annual Report may not sum due to rounding.

In December 2024, we changed the name of Medline Holdings from Mozart Holdings, LP to Medline Holdings, LP. We will not distinguish between the prior and current name of Medline Holdings and will refer to the current name of Medline Holdings throughout this Annual Report. References in this Annual Report to "Medline," the "Company," "we," "us," and "our" refer (1) prior to the consummation of the IPO, to Medline Holdings, LP and its consolidated subsidiaries and (2) after the IPO to Medline Inc. and its consolidated subsidiaries.

CERTAIN DEFINITIONS

As used in this Annual Report, unless otherwise noted or the context requires otherwise, the following terms have the following meanings:

- "Class A Units" refers to the interests in Medline Holdings called "Class A Units" that were outstanding prior to the Reclassification. In connection with the Reclassification, (i) Class A Units held by Common Unitholders were converted into Common Units and (ii) Class A Units held by Exchanging Class A Unitholders were directly or indirectly exchanged for shares of Class A common stock.
- "Class B Units" refers to the interests in Medline Holdings called "Class B Units" that were outstanding prior to the Reclassification, and does not include CUPI Units. In connection with the Reclassification, (i) Class B Units held by Incentive Unitholders were converted into Incentive Units and (ii) Class B Units held by Exchanging Class B Unitholders were directly or indirectly exchanged for shares of Class A common stock (in the case of vested Class B Units) and/or restricted shares of Class A common stock (in the case of unvested Class B Units).

- "Common Units" refers to the new class of units of Medline Holdings created by the Reclassification and does not include Incentive Units.
- "Common Unitholders" refers to certain pre-IPO holders of Class A Units and/or CUPI Units who hold Common Units following the Reclassification.
- "Incentive Unitholders" refers to certain pre-IPO holders of Class B Units who will hold Incentive Units following the Reclassification, as described under "Organizational Structure."
- "Continuing Unitholders" refers collectively to Common Unitholders and Incentive Unitholders.
- "CUPI Units" refers to the interests in Medline Holdings that were designated as "Catch-Up Class B Units" and outstanding prior to the Reclassification. In connection with the Reclassification, (i) CUPI Units held by Common Unitholders were converted into Common Units and (ii) CUPI Units held by Exchanging CUPI Unitholders were directly or indirectly exchanged for shares of Class A common stock.
- "Designating Stockholder" refers to each of our Principal Stockholders with whom we entered into separate director nomination agreements.
- "Exchanging Class A Unitholder" refers to pre-IPO holders of Class A Units whose Class A Units were directly or indirectly exchanged for shares of Class A common stock following the Reclassification.
- "Exchanging Class B Unitholder" refers to pre-IPO holders of Class B Units whose Class B Units were directly or indirectly exchanged for shares of Class A common stock (in the case of vested Class B Units) and/or restricted shares of Class A common stock (in the case of unvested Class B Units) following the Reclassification.

- "Exchanging Unitholders" refers collectively to Exchanging Class A Unitholders, Exchanging CUPI Unitholders, and Exchanging Class B Unitholders.
- "Incentive Units" refers to the new class of units of Medline Holdings created by the reclassification of the Class B Units in the Reclassification. The Incentive Units are "profit interests" having economic characteristics similar to stock appreciation rights and having the right to share in any equity value of Medline Holdings above specified participation thresholds. - "Principal Stockholders" refers collectively to investment funds associated with Blackstone Inc., The Carlyle Group Inc. and Hellman & Friedman LLC, and members of the Mills family.
- "Reclassification" refers to the reclassification of the partnership interests of Medline Holdings prior to the IPO.
- "Sponsors" refers collectively to Blackstone Inc., The Carlyle Group Inc., and Hellman & Friedman LLC.
- "Units" refers collectively to Common Units and Incentive Units.

Summary of Risk Factors

The following is a summary of the principal factors that make an investment in our securities speculative or risky, all of which are more fully described below. This summary should be read together with the risk factors described under Part I, "Item 1A—Risk Factors" and should not be relied upon as an exhaustive summary of the material risks facing our business. In addition to the following summary, you should consider the information set forth below and the other information contained in this Annual Report before investing in our securities.

- Our global operations are subject to inherent risks that could materially adversely affect our business, results of operations, and financial condition.
- We may be unable to derive fully the anticipated benefits from our existing or future acquisitions, joint ventures, investments, dispositions, or other strategic transactions.
- Consolidation in the healthcare industry could have an adverse effect on our business, results of operations, and financial condition.
- We operate in a highly competitive industry, with accelerating pricing pressure and changes in technology.
- Changes to the U.S. and global healthcare environments may not be favorable to us.
- Increases in shipping costs or service issues with our third-party shippers could harm our business.

- Significant challenges or delays in our sourcing of new products and technologies could have an adverse impact on our long-term success.
- We have concentration in and dependence on certain healthcare provider customers and GPOs.
- Our business and operations depend on the proper functioning of our critical facilities and distribution networks and could be negatively impacted by events outside our control.
- Quality problems and product liability claims have in the past led, and could in the future lead, to recalls or safety alerts, reputational harm, adverse verdicts, or costly settlements, and could have a material adverse effect on our business, results of operations, and financial condition.
- Our failure to establish and maintain Prime Vendor relationships may cause our revenue to decline.
- If we experience increased pressure to maintain or decrease the price of our goods and services and we are unable to reduce our expenses, there may be a material adverse effect on our business, results of operations, and financial condition.
- Any failure by or loss of a third-party manufacturer or supplier or other manufacturing or supply-related impacts could result in delays and increased costs, which may adversely affect our business.
- We rely on the proper function, security, and availability of our information technology systems and data, as well as those of third parties throughout our global supply chain, to operate our business.
- We are subject to extensive and complex laws and governmental regulations and any adverse regulatory action may materially adversely affect our business, results of operations, and financial condition both inside and outside the United States.
- We are subject to complex and rapidly evolving data privacy, security, and data protection laws and regulations and the costs to comply with such laws and regulations or any ineffective compliance efforts with such laws and regulations may adversely impact our business.
- Our use or our third-party service providers' or business partners' use of AI, automated decision-making and machine learning technologies and the evolving regulatory framework in this area may subject us to risks or heightened costs that could adversely affect business, results of operation and financial condition.
- Our failure to comply with laws and regulations relating to reimbursement of healthcare goods and services may subject us to penalties and adversely impact our reputation, business, results of operations, financial condition, and cash flows.
- Uncertain global and domestic macro-economic and political conditions could materially adversely affect our business, results of operations, and financial condition.
- Our substantial indebtedness could adversely affect our financial condition, our ability to operate our business or react to changes in the economy or our industry, prevent us from fulfilling our obligations under our debts, and divert our cash flow from operations for debt payments.
- The credit agreement that governs the Senior Secured Credit Facilities and the indentures that govern the Senior Notes will each impose significant operating and financial restrictions on our subsidiaries, which may prevent us from capitalizing on business opportunities.
- Medline Inc. is a holding company and its only material assets are its equity interests held directly or indirectly through wholly owned subsidiaries in Medline Holdings, and it is accordingly dependent upon distributions from Medline Holdings to pay taxes, make payments under the tax receivable agreement, and pay any dividends.
- The Designating Stockholders hold a significant percentage of our stock, and their interests may conflict with ours or yours in the future.
- Our amended and restated certificate of incorporation does not limit the ability of our Sponsors, the Mills family, and certain other pre-IPO investors to compete with us, and they may have investments in businesses whose interests conflict with ours.

The market price of shares of our Class A common stock may be volatile or may decline regardless of our operating performance, which could cause the value of your investment to decline.

Market and Industry Data

Unless otherwise indicated, information contained in this Annual Report concerning our industry, competitive position, and the markets in which we operate is based on information from independent industry and research organizations, other third-party sources and management estimates. Although we believe that these third-party sources are reliable, we do not guarantee the accuracy or completeness of this information, and we have not independently verified this information. Management estimates are derived from information obtained from surveys, reports by market research firms, our customers, distributors, suppliers, trade and business organizations, and other contacts in the markets in which we operate and have not been verified by independent sources, and are based on assumptions made by us upon reviewing such data, and our experience in, and knowledge of, such industry and markets, which we believe to be reasonable. In addition, assumptions and estimates of our and our industry's future performance are subject to a high degree of uncertainty and risk due to a variety of factors, including those described in Part I, "Item 1A—Risk Factors" and "Cautionary Note Regarding Forward-Looking Statements." These and other factors could cause results to differ materially from those expressed in the estimates made by the independent parties and by us.

Statements regarding our market position (including statements that we are the largest company in a particular market), unless otherwise noted, are based on our 2025 net sales in the relevant market relative to the publicly reported net sales of our competitors in such market, including with respect to our statement of being the largest provider of med-surg products and supply chain solutions serving all points of care, as that statement is based on our 2025 net sales relative to the publicly reported net sales of med-surg products by companies that are both med-surg manufacturers and distributors.

Trademarks

We own or have the right to use trademarks, trade names, and service marks used in connection with our business, including, but not limited to, Medline, Curad, Microtek, Hudson, and Proxima. All trademarks, trade names, and service marks referred to in this Annual Report are the property of their respective owners. We do not intend our use or display of other companies' trade names, trademarks, or service marks to imply a relationship with, or endorsement or sponsorship of us by, these other companies. Solely for convenience, our trademarks, trade names, and service marks referred to in this Annual Report may appear without the ®, ™ or SM symbols, but such references are not intended to indicate, in any way, that we will not assert, to the fullest extent under applicable law, our rights or the right of the applicable licensor to these trademarks, trade names, and service marks.

PART I

Item 1. Business

General

Medline Inc. (together with its subsidiaries, "Medline", "the Company", "we", "ours" and "us") is the largest provider of medical-surgical ("med-surg") products and supply chain solutions serving all points of care, based on total net sales of med-surg products. Medline was founded in 1966 and today delivers mission-critical products used daily across the full range of care settings, from hospitals and surgery centers to physician offices and post-acute facilities. Our mission is to make healthcare run better by delivering improved clinical, financial, and operational outcomes.

We have two reportable segments, Medline Brand and Supply Chain Solutions, the combination of which addresses critical needs in the market through a comprehensive solution. They are both supported by our Prime Vendor model, differentiated distribution network, and robust commercial platform. Through our two segments, we offer approximately 335,000 med-surg products, including surgical and procedural kits, gloves and protective apparel, urological and incontinence care, wound care, and consumable lab and diagnostics products. We distribute these products through our expansive network of global distribution facilities and our owned fleet of MedTrans trucks.

As of December 31, 2025, we offer our customers approximately 190,000 med-surg products through our Medline Brand segment and hold leading positions across many key product families for our Medline Brand products. Our Medline Brand products are organized into three product categories: Front Line Care, Surgical Solutions, and Laboratory and Diagnostics.

- *Front Line Care* offers mission-critical med-surg products for patient-facing needs, including wound care products, exam gloves, skin care and incontinence products, environment cleaning supplies, textiles, hand sanitizer, durable medical equipment, patient plastics, and decolonization and infection control products.
- *Surgical Solutions* offers operating room and perioperative environment product solutions, including surgical procedure trays, drapes and gowns, personal protective equipment, sterile wraps, surgical instruments, surgeon's gloves, procedure kits, and orthopedic implants.
- *Laboratory and Diagnostics* offers a full range of laboratory and diagnostic product solutions, including point of care testing, analyzers and instrumentation, lab and diagnostic consumables, diagnostic instruments, vital signs monitors, and anatomic pathology and phlebotomy products.

Our product development approach incorporates customer feedback and ongoing innovation. We are also committed to delivering products of the highest standard, which is reflected by our robust quality team embedded across our manufacturing and sourcing locations. The expertise of our research and development team and quality team helps ensure products bearing the Medline brand meet both our rigorous quality standards and our customers' expectations.

Supply Chain Solutions

As of December 31, 2025, we offer approximately 145,000 med-surg products from over 1,300 third-party suppliers, including nearly all leading national brands, through our Supply Chain Solutions segment. We also provide our customers with supply chain optimization services such as consulting engagements, outsourced warehouse and technology management, put-away-ready packaging, third-party logistics, inventory rationalization, and route planning. Our third-party suppliers are primarily responsible for costs related to import and inbound freight, whereas we are primarily responsible for costs related to outbound freight from our distribution centers. Our supply chain expertise allows us to provide additional service offerings to optimize our customers' supply chain and inventory workflows, helping these customers cost-effectively manage their supply chain while building strong relationships and enhancing retention.

Our Prime Vendor Model

A Prime Vendor relationship is a relationship for which there is a multi-year distribution agreement between Medline and a customer, whereby the customer agrees to use Medline for the vast majority of its med-surg product needs.

In our Prime Vendor relationships, we enter into long-term agreements, typically structured with five-year terms, to act as the primary consolidated logistics partner for these customers' med-surg product needs. These agreements have been and are expected to continue to be a key contributor to our growth. Our customers realize efficiencies by partnering with one supply chain partner to consolidate their med-surg purchase volume. Prior to the market adoption of the Prime Vendor model, customers sourced such products individually from a highly fragmented base of suppliers. The Prime Vendor model instead centralizes procurement and distribution, which in turn drives efficiency and higher service levels.

As Prime Vendor, we drive significant cost savings to our customers. Our scale allows us to deliver consistently lower prices and better service levels on Medline Brand products relative to third-party alternatives, while also lowering the distribution cost for delivery of the full range of med-surg products. This often motivates customers to purchase more Medline Brand products over time. The opportunity is even greater in certain non-acute settings, where we sell a more focused product portfolio. Our Prime Vendor model allows us to provide cost savings to Prime Vendor customers, which, over time, supports incremental purchasing of our Medline Brand products and greater scale across our operations. As our scale grows, we are able to realize further efficiencies by offering superior or similar quality to third-party products at a more cost-effective price. We believe that Medline Brand conversion is mutually beneficial for both our customers and us-the value we provide customers at the outset of a Prime Vendor agreement meaningfully increases over time, as they accrue savings by purchasing our lower cost Medline Brand products, while our profitability grows given the enhanced margin profile of Medline Brand products. This compelling value proposition and supply chain relationship with our customers supports our greater than 98% average Prime Vendor retention rate over the past five years.

A portion of Supply Chain Solutions products sold to existing Prime Vendor customers has like-for-like Medline Brand product equivalents, representing a potential gross profit uplift consistent with our historical margin differentials if such products were converted for Medline Brand products. While we historically have earned higher margins upon conversion from third-party national brand products to like-for-like Medline Brand products, because of the lower average prices for Medline Brand products, there is typically a negative impact on net sales upon the conversion of Supply Chain Solutions products to like-for-like Medline Brand products if volume is assumed to be constant. For additional information on potential risks relating to this conversion opportunity, please see Part I, "Item 1A—Risk Factors—Risks Related to Our Business, Industry and Operations—Our failure to establish and maintain Prime Vendor relationships may cause our revenue to decline."

Our Distribution Network

We have a differentiated distribution network of 70 global distribution centers, warehouses, cross-docks, and transship facilities, 45 of which are in the United States, strategically located to provide next-day delivery to 95% of our U.S. customer base. We utilize artificial intelligence ("AI") and robotics technology in over 26 million square feet of warehouse space in the United States to improve efficiency and capacity to optimize distribution logistics and maximize utilization. The products we distribute are packaged to meet each customer's individual needs and to be "put-away-ready," which streamlines the customer's unloading and shelving process. We also operate our own fleet of more than 2,100 MedTrans trucks that deliver our products across care settings within the United States. As of December 31, 2025, we had approximately 25% in incremental capacity across our platform to support our long-term growth.

Our Commercial Platform

Our deep connectivity to our customers is driven by the strength of our dedicated and tenured commercial team. We have a U.S. commercial team of approximately 4,000 people across all points of care, which includes account managers, product specialists, specialized clinical resources, customer service representatives, supply chain specialists, Prime Vendor analysts, and a robust leadership team dedicated to driving efficiencies for our customers through their teams. We have created an entrepreneurial environment that empowers our salesforce to work with our product managers to create innovative products that meet market demand. We have a team devoted to each channel in the United States and each region or country internationally, which allows our salesforce teams to develop market-specific knowledge.

Research and Development

We have a track record of successfully bringing new products to market, with more than 2,300 granted patents and more than 450 U.S. Food and Drug Administration ("FDA") 510(k) clearances. Over the last three years, we have successfully launched more than 250 new products.

Competition

Our value proposition is derived from our integrated business model, the breadth of our Medline Brand portfolio, our differentiated supply chain, and the overall quality and cost of our products. As a result of our integrated business model, our competitors include both other leading med-surg product manufacturers and distributors.

Similar to us, other leading med-surg product manufacturers produce a wide range of med-surg supplies. However, unlike us, many of these competitors are reliant upon third-party distributors to deliver their products to customers. By nature of being a distributor, Medline has direct access to and manages the end customer relationships. This enables us to offer a complete solution as a manufacturer and a distributor, offering our customers what we believe to be best-in-class supply chain logistics, and driving value through our brand.

Additionally, other distributors of med-surg products similarly connect the fragmented supplier and provider bases and aggregate inventory from suppliers to deliver products to customers, such as McKesson, Cardinal Health, Owens & Minor, and Henry Schein. These distribution companies compete with us for Prime Vendor agreements. However, we believe that many of these competitors do not benefit from the scale and scope of our vertical integration or commercial excellence, and thus are not able to provide the same magnitude of cost savings, value, and holistic solutions that we deliver for our customers.

Production and Raw Materials

We manufacture approximately one-third of our Medline Brand products, which are primarily Class I and II medical devices, through our 30 manufacturing facilities, of which 24 are in North America. We purchase many of the components and raw materials used in manufacturing our products from numerous suppliers. We focus our manufacturing capabilities on products where we can leverage technology and automation to drive higher quality and lower costs to better serve our customers. For the vast majority of the other two-thirds of our Medline Brand products, we work closely with our network of more than 600 global partners across approximately 40 countries, many of whom have decades-long exclusive relationships with us. The breadth of our global sourcing partnerships provides diversification and strengthens our resiliency, with no single sourcing partner accounting for more than 5% of total spend as of December 31, 2025.

We also have plans and measures in place to help ensure continuity of supply while maintaining high quality and reliability. Generally, we have been able to obtain adequate supplies of such raw materials and components. However, due to the FDA's manufacturing requirements and those of other regulatory authorities, we may not be able to quickly establish additional or replacement sources for certain components, materials or processes if we experience a sudden or unexpected reduction or interruption in supply or services and are unable to develop alternative sources.

Human Capital Resources

At Medline, our relentless focus on the customer drives our human capital strategy, which revolves around attracting, developing, and retaining employees to provide the best products and services for our customers. We have developed a strong foundation that drives our recruitment, retention and development efforts. We are committed to supporting the personal and professional development of our employees, as well as providing competitive benefits and a safe, inclusive workplace.

As of December 31, 2025, we employed over 45,000 employees worldwide, with over 26,000 located in the United States. Our largest non-U.S. employee populations are in Mexico, Dominican Republic, India, Canada, Slovakia, France, China, Japan, Germany, and Australia. None of our employees in the United States are unionized, though some of our employees in Mexico belong to unions. In Germany and the Netherlands, employees are represented through Works Councils; in France and Spain, employees are represented through both Works Councils and industry-wide collective bargaining agreements; and in Belgium and Italy, employees are also represented through industry-wide collective bargaining agreements. In Australia, certain employees are represented by an enterprise bargaining agreement; in Japan, employees are represented through a Work Council; and in Vietnam, employees are represented through a collective bargaining agreement. We believe that our positive employee relations and total employee experience drive the continual growth of our workforce.

Culture and Values

Our culture is grounded in a customer-focused, collaborative, and performance-driven approach, guided by core values emphasizing relentless customer focus, agility and flexibility, problem-solving, drive to succeed, purposeful candor, and the importance of relationships. Employees are encouraged to exercise judgment, work transparently with customers, and contribute meaningfully to our mission to make healthcare run better.

Talent Attraction and Development

We seek to attract employees whose skills, experience, and motivation align with our operational and technical needs. Through continual improvement of internal processes, an awareness of market and candidate driven trends, and in partnership with vendors and other outside organizations, our talent acquisition programs focus on efficient hiring processes, market awareness, and building a diverse pipeline of candidates. We support development through consistent performance management processes and early career opportunities to take on additional responsibilities to demonstrate their competencies and drive to succeed and on-the-job responsibility augmented by formal training and development to refine technical and leadership skills. New sales representatives participate in comprehensive training programs, and product managers have targeted development pathways through all stages of their careers, from mandatory onboarding offerings to advanced classes that provide the necessary skills with increasing levels of responsibility, to support progression over time.

Employee Engagement and Inclusion

We believe our employees' ability to communicate and cooperate effectively across functional and departmental teams positively impacts our performance. We engage in various listening strategies and foster engagement through survey feedback mechanisms, anonymous employee feedback platform, focus groups, increased attention to onboarding and offboarding feedback, pulse surveys on remote work needs, and other listening strategies. Insights from these efforts inform workplace improvements. We also support an inclusive environment through Employee Resource Groups and leadership training initiatives designed to reduce bias in talent decisions and strengthen representation across the company.

Health, Safety, and Well-Being

We are committed to maintaining a safe workplace and supporting the physical, emotional, and financial well-being of our employees. We provide competitive health and benefits programs, access to assistance resources where available, and opportunities for community involvement through charitable giving, including financial giving and in-kind giving such as product donations.

Intellectual Property

We rely upon patents, trademarks, copyrights, trade secrets and other intellectual property rights to maintain and improve our competitive position. We have a large portfolio of intellectual property, including more than 2,300 granted patents as well as trademark registrations protecting our notable brands, including Medline, Curad, Microtek, Hudson, and Proxima.

We consider the trademarks and know-how that we own to be material to our business. However, other than the Medline mark, we do not consider our business to be materially dependent upon any individual trademark registration or trade secret. In the aggregate, we consider our more than 2,300 granted patents to be material to our business. However, no single patent or group of related patents is material to our business as a whole or any segment of our business.

We believe that we have taken all necessary steps to protect our intellectual property rights, but no assurance can be given that we will be able to successfully enforce or protect our rights in the event that they are infringed upon or challenged by a third party. See Part I, "Item 1A —Risk Factors—Risks Related to Regulation and Legal Proceedings—Any failure to obtain, maintain, protect and enforce our intellectual property rights, or the failure of the strength or scope of our intellectual property rights, could harm our business, financial condition, and results of operations" and "—Risks Related to Regulation and Legal Proceedings—We may become subject to litigation brought by third parties claiming infringement, misappropriation, or other violation by us of their intellectual property rights."

Government Regulation

Our operations and products are subject to extensive regulation by numerous governmental regulatory authorities, including U.S. and other international regulatory authorities, and other government agencies inside and outside the United States. To varying degrees, each of these agencies requires us to comply with laws and regulations governing the development, design, materials, testing, safety, efficacy, quality, purity, manufacturing, methods, controls, testing, screening, recordkeeping, reporting, processing, storage, registration, authorization, licensing, permitting, labeling, advertising, marketing, distribution, offer for sale, sale, use, expiration, pricing, reimbursement, import, export, clinical trials, post-marketing surveillance of our products, the registration of our facilities, and the claims that we make about our products. The United States and other countries where we sell healthcare and other regulated products, including drugs, human cell and tissue products, dietary supplements, cosmetics, certain foods, and consumer products subject such products to their own clearance, authorization, approval, registration, listing, labeling, manufacturing, recordkeeping, reporting, and other regulatory requirements regarding the performance, safety, and quality of such products. We are also subject to healthcare and other regulations and enforcement by the federal government and the states and foreign governments and authorities in the locations in which we conduct our business. The U.S. governmental and regulatory authorities that enforce such laws and rules, and that issue guidance on compliance with such laws and rules include, without limitation, the FDA, the Centers for Medicare & Medicaid Services ("CMS"), other divisions of the U.S. Department of Health and Human Services ("HHS"), the HHS Office of Inspector General, U.S. Environmental Protection Agency ("EPA"), the Federal Trade Commission ("the FTC"), Consumer Product Safety Commission ("CPSC"), the U.S. Department of Justice ("DOJ") and individual U.S. Attorney offices within the DOJ, as well as state and local governments. Our business is also affected by patient and data privacy and security laws, government payer cost containment initiatives, government reimbursement laws and regulations, environmental, health, and safety laws and regulations, as well as laws and regulations with respect to the sale, transportation, storage, handling, and disposal of hazardous or potentially hazardous substances, and safe working conditions. Our business also maintains contracts with governmental agencies and such contracts are subject to various government procurement laws and regulations, required contract provisions, and other requirements relating to contract formation, administration and performance. Failure to comply with applicable laws and regulations or with contractual or other requirements may result in monetary damages and criminal or civil penalties as well as termination of our government contracts or our suspension or debarment from government contract work.

The regulations to which we are subject are complex and have tended to become more stringent over time. If our business expands in certain ways, including through the offering of new products and services or entering into new geographic areas, we may be subject to new and additional regulatory requirements. The foreign, federal, state, and local regulatory authorities have broad inspection and enforcement powers, including the ability to suspend or limit the distribution of products, suspend, revoke, or terminate our product and facility licenses, permits, and authorizations, request the cessation of distribution and shipments of certain products due to regulatory, safety, or other issues, seize or order the recall of our products, issue safety, quality, or other communications to the public or healthcare providers, enforce laws related to marketing, including promotion of off-label uses of products, and impose injunctions and significant criminal, civil, and administrative sanctions for violations of laws and regulations. Any adverse regulatory or other action, including any adverse press releases or other communications from regulators, may impact our business practices and operations, including by limiting our ability to effectively market, ship, and sell our products, affecting the production and distribution of products by our manufacturing facilities, subjecting us to significant liability, and limiting our ability to obtain future authorizations. Although we are subject to international government regulations in the international end markets where we operate and/or provide our products, these regulations do not have a material impact on our products as no international market represents more than 3% of our net sales.

Government Regulation of Medical Devices

Our medical devices are subject to regulation by numerous government agencies, including the FDA and comparable state and foreign agencies. Regulations of the FDA and other regulatory agencies in and outside the United States impose extensive compliance and monitoring obligations on portions of our business. The FDA and other U.S. and foreign governmental agencies regulate, among other things, with respect to medical devices: design, development, and manufacturing; testing, registration, listing, labeling, content, and language of instructions for use and storage; clinical trials; product safety; marketing, sales, and distribution; licensing and permit requirements; premarket clearance, approval and authorization; record keeping procedures; advertising and promotion; recalls and field safety corrective actions; post-market surveillance, including reporting of deaths or serious injuries and malfunctions that, if they were to recur, could lead to death or serious injury; post-market approval studies; and product import and export. The regulations to which we are subject are complex and have tended to become more stringent over time. If our business expands in certain ways, we may be subject to new and additional regulatory requirements. The FDA and state regulatory authorities have broad inspection and enforcement powers, including the ability to suspend or limit the distribution of products by our distribution centers; seize or order the recall of products; terminate, suspend, or revoke licenses and permits; and impose significant criminal, civil, and administrative sanctions for violations of these laws and regulations. Foreign regulations subject us to similar foreign enforcement powers. In addition, the FDA and other governmental and regulatory authorities, both in and outside the United States (including the FTC, the HHS Office of the Inspector General, the DOJ, and various state Attorneys General), monitor the promotion and advertising of our products. Any adverse regulatory or other action, including any adverse press releases or other communications from regulators, depending on its magnitude, may limit our ability to effectively market, ship, and sell our products, limit our ability to obtain future premarket authorizations, or result in a substantial modification to our business practices and operations.

FDA Premarket Clearance and Approval Requirements

Each medical device we wish to distribute commercially in the United States requires marketing authorization from the FDA prior to distribution, unless the device is exempt from premarket notification requirements. The type of marketing authorization necessary is generally linked to the classification of the device. The FDA classifies medical devices into one of three classes-Class I, II, or III-based on the degree of risk associated with a device and the level of regulatory control deemed necessary to ensure its safety and effectiveness. Class I devices that pose the least risk are subject only to General Controls applicable to all devices, such as requirements for device labeling, premarket notification, and adherence to current good manufacturing practices for devices as set forth in the Quality System Regulation ("QSR"). Class II devices that pose a moderate risk are subject to General Controls and may also be subject to Special Controls, such as performance standards, product-specific guidance documents, special labeling requirements, patient registries, or post-market surveillance. Class III devices are those for which insufficient information exists to assure safety and effectiveness solely through General and Special Controls, including devices that support or sustain human life, are of substantial importance in preventing impairment of human health, or which present a potential unreasonable risk of illness or injury.

Most Class I devices and some Class II devices are exempted by regulation from the 510(k) clearance requirement and can be marketed without prior authorization from the FDA. Class I and II devices that are not exempted are eligible for marketing through the 510(k) clearance pathway. By contrast, devices placed in Class III generally require premarket approval ("PMA") or de novo clearance prior to commercial marketing. The PMA approval process is more stringent, time-consuming and expensive than the 510(k) clearance process; however, the 510(k) clearance process has also become increasingly stringent and expensive. None of our products are currently approved under a PMA, and we have no plans for any indication or system improvement or extension that we believe would require a PMA. If, in the future, we were to file a PMA, we may be subject to additional regulatory requirements.

510(k) Clearance Process

To obtain 510(k) clearance, we must submit a premarket notification to the FDA demonstrating the proposed device to be substantially equivalent to a predicate device. A device is substantially equivalent if, with respect to the predicate device, it has the same intended use and it has either the same technological characteristics, or it has different technological characteristics, but the information provided in the 510(k) submission demonstrates that the device does not raise new questions of safety or effectiveness. The standard review process for 510(k)s is between six to nine months, dependent upon the type of 510(k) filing submitted. Although many 510(k) premarket notifications are cleared without clinical data, in some cases, the FDA may require clinical data to support substantial equivalence. In reviewing a premarket notification, the FDA may request additional information, including clinical data, which may significantly prolong the review process and clearance is never assured. Clinical trials generally require the submission of an investigational device exemption ("IDE") to the FDA for a specified number of patients and study sites, unless the product is deemed a non-significant risk device eligible for more abbreviated IDE requirements. Clinical trials are subject to numerous requirements and institutional review board approval, oversight, and monitoring. Even if a trial is conducted, the results of clinical testing may not adequately demonstrate the safety and effectiveness of the device or be sufficient to obtain FDA clearance or approval for marketing.

After a device receives 510(k) clearance, any subsequent modification of the device that could significantly affect its safety or effectiveness, or that would constitute a major change in its intended use, requires a new 510(k) clearance or could require submission and approval of a de novo 510(k) or a PMA application in cases where new indications are sought for which there is no predicate. Non-significant changes are handled via internal documentation by the Company. Each manufacturer must judge the significance of modifications based on FDA 510(k) regulatory requirements and guidance documents. The FDA may review any such decision and may disagree with a manufacturer's determination. If the FDA disagrees with a manufacturer's determination, the FDA may require the manufacturer to cease marketing and distribution and/or recall the modified device until 510(k) clearance or PMA approval is obtained. In the future, we may make modifications to our products after they have received FDA clearance and, in appropriate circumstances, determine that new clearance is unnecessary. However, the FDA may disagree with our determination, and, if the FDA requires us to seek 510(k) clearance or submit new PMA applications for any modifications to a previously cleared product, we may be required to cease marketing or distributing or recall the modified device until we obtain the required clearance or approval. We may also market or acquire products that are marketed without a 510(k) clearance, appropriate labeling, or that otherwise are marketed in violation of FDA requirements, since medical devices can be marketed only for the indications for which they are cleared or approved. Under these circumstances, we may also be subject to warning letters, significant regulatory fines, or other penalties, and we may no longer be able to market particular products for which a 510(k) clearance is required.

Post-Marketing Requirements

Numerous FDA regulatory requirements apply to devices we manufacture and distribute, including: compliance with the QSR, which require manufacturers and their suppliers to follow the applicable design, testing, processes, control, documentation, labeling, and other quality assurance procedures during the manufacturing process; establishment registration, which requires establishments involved in the production and distribution of medical devices intended for commercial distribution in the United States to register with the FDA; medical device listing, which requires manufacturers to list the devices they have in commercial distribution with the FDA; labeling regulations, which prohibit "misbranded" devices from entering the market, as well as prohibit the promotion of products for unapproved or off-label uses and impose other restrictions on labeling; post-market surveillance, including medical device reporting requirements which requires manufacturers to report to the FDA if their device may have caused or contributed to a death or serious injury, or malfunctioned in a way that would likely cause or contribute to a death or serious injury if it were to recur; and corrections and removal reporting regulations, which require that manufacturers report to the FDA field corrections and product recalls or removals if undertaken to reduce a risk to health posed by the device or to remedy a violation of the Federal Food, Drug, and Cosmetic Act that may present a risk to health. The FDA and other governmental and regulatory authorities actively enforce the laws and regulations prohibiting the promotion of off-label uses, and a company that is found to have improperly promoted off-label uses may be subject to significant liability.

The FDA enforces these requirements by inspection and market surveillance. Domestic facility records and manufacturing processes are subject to periodic unscheduled inspections by the FDA. The FDA may also inspect foreign facilities that export products to the United States. Failure to comply with applicable regulatory requirements may result in enforcement action or other actions by the FDA, which may include one or more of the following sanctions: adverse press releases and safety communications; requests to stop shipments; untitled letters or warning letters; fines, injunctions, and civil penalties; mandatory recall or seizure of our products; customer notifications and repairs or replacements; administrative detention or banning of our products; consent decrees; operating restrictions, partial suspension or total shutdown of production; refusing our request for 510(k) clearances for new product versions or modifications to existing product versions; revocation of 510(k) clearances previously granted; refusal to grant export approval for our products; and criminal prosecution and penalties. If any of these events were to occur, they could have a material adverse effect on our business, financial condition, and results of operations.

International Regulation of Medical Devices

Sales of medical devices outside the United States are subject to foreign government regulations, which vary substantially from country to country. In order to market our products in other countries, we must comply with applicable regulatory requirements and authorizations and approvals and safety and quality regulations in each country in which the product is marketed. The time required to obtain authorization, approval, or certification by a foreign country may be longer or shorter than that required for FDA clearance, and the requirements may differ significantly.

EU Regulation of Medical Devices

In the European Union ("EU") until May 25, 2021, medical devices were regulated by the Council Directive 93/42/EEC, which has been repealed and replaced by the Medical Device Regulation ("EU MDR"). Unlike directives, regulations are directly applicable in all EU member states without the need for member states to implement into national law. The EU extended the EU MDR transitional periods for certain medical devices until December 31, 2027 or December 31, 2028, depending on a device's risk class and subject to certain conditions to ensure continued access to medical devices for patients and to allow medical devices already placed on the market in accordance with the current legal framework to remain on the market, provided that the requirements of the transitional provisions are fulfilled.

In the EU, there is currently no premarket government review of medical devices. However, all medical devices placed on the EU market must meet general safety and performance requirements, and compliance with the general safety and performance requirements is a prerequisite for European conformity marking without which medical devices cannot be marketed or sold in the EU. EU MDR requirements regarding the distribution, marketing, and sale, including quality systems and post-market surveillance, have to be observed by manufacturers, importers, and distributors as of the application date (i.e., since May 26, 2021), including registration of economic operators and of devices (once the relevant modules of Eudamed are functional), surveillance, and vigilance requirements. The aforementioned EU rules are generally applicable in the European Economic Area which consists of the 27 EU member states plus Norway, Liechtenstein, and Iceland.

The NDA Approval Process

For any new drug products regulated under the Federal Food, Drug, and Cosmetic Act such as our ReadyPrep CHG cloth, a sponsor must submit a New Drug Application ("NDA"), to the FDA for review and approval. The NDA review and approval process may take multiple years and involves steps including the following:

- completion of preclinical studies and analytical and stability testing in accordance with applicable regulations;
- submission to the FDA of an Investigational New Drug ("IND") application, which must become effective before clinical trials may begin and must be updated annually and amended when certain changes are made;
- approval by an institutional review board, or IRB, or independent ethics committee, or IEC, at each clinical trial site before each trial may be initiated;
- performance of adequate and well-controlled clinical trials in accordance with applicable IND regulations, good clinical practice, or GCP, requirements, including informed consent, financial disclosure by investigators, and other clinical trial-related regulations, to establish the safety and efficacy of the investigational product for each proposed indication and other condition of use;
- preparation and submission to the FDA of an NDA;

- satisfactory completion of one or more FDA pre-approval inspections of the manufacturing facility or facilities where the drug will be produced to assess compliance;
- satisfactory completion of FDA inspection of select clinical trial sites involved in conducting pivotal studies that generated the data in support of the NDA;
- payment of user fees for FDA review of the NDA; and
- FDA review and approval of the NDA, including of the proposed prescribing information and, where applicable, consideration of the views of any FDA advisory committee, prior to any commercial marketing or sale of the drug in the United States.

Any approvals that we may ultimately receive could be withdrawn if required post-marketing trials or analyses do not meet the FDA requirements, which could materially harm the commercial prospects for our products.

Even if a product candidate receives regulatory approval, the approval may be limited to specific disease states, patient populations and dosages, or might contain significant limitations on use in the form of warnings, precautions or contraindications, or in the form of onerous risk management plans, restrictions on distribution, or post-marketing study requirements. Further, even after regulatory approval is obtained, later discovery of previously unknown problems with a product may result in restrictions on the product or even complete withdrawal of the product from the market. Delay in obtaining, or failure to obtain, regulatory approval for our candidate products, or obtaining approval but for significantly limited use, would harm our business. In addition, we cannot predict what adverse governmental regulations may arise from future U.S. or foreign governmental action.

Trade Regulations

The movement of products, services, and investment across borders subjects us to extensive trade regulations. A variety of laws and regulations in the countries in which we transact business apply to the sale, shipment, and provision of goods, services, and technology across borders. These laws and regulations govern, among other things, our import, export, and other business activities. We are also subject to the risk that these laws and regulations could change in a way that would expose us to additional costs, penalties, or liabilities. Some governments also impose economic sanctions against certain countries, governments, persons, and entities, both for unlawful or malign conduct and to discourage or prevent entities from abiding by other countries' laws. In addition to our need to comply with such regulations in connection with our direct activities, we also sell and provide goods, technology, and services to agents, representatives, and distributors who may export such items to customers and end-users. If we, or the third parties through which we do business, are not in compliance with applicable import, export control, or economic sanctions laws and regulations, we may be subject to civil or criminal enforcement action and varying degrees of liability. Such actions may disrupt or delay sales of our products or services or result in restrictions on our distribution and sales of products or services that may materially impact our business.

Anti-Boycott Laws

Under U.S. laws and regulations, U.S. companies and their subsidiaries and affiliates are prohibited from participating or agreeing to participate in unsanctioned foreign boycotts in connection with certain business activities, including the sale, purchase, transfer, shipping, or financing of goods or services within the United States or between the United States and countries outside of the United States. If we, or certain third parties through which we sell or provide goods or services, violate U.S. anti-boycott laws and regulations, we may be subject to civil or criminal enforcement action and varying degrees of liability.

Joint Agreed Disciplinary Order

Based upon the foregoing, the parties mutually agree and stipulate that the following shall constitute the disciplinary order entered by the Board in this matter under the authority of §621.045.3, RSMo (2000):

1. Respondent's drug distributor license shall be placed on PROBATION for five (5) years pursuant to the provisions of Chapters 338 and 620, RSMo. During the period of

probation, Respondent will be entitled to operate as a drug distributor pursuant to Chapter 338, RSMo provided Respondent adheres to the following terms of probation:

A. Respondent shall report to the Board, on a preprinted form supplied by the Board office, once every six (6) months, beginning six (6) months after this Order/Agreement becomes effective, stating truthfully whether or not it has complied with all terms and conditions of this disciplinary order.

B. Respondent shall pay all required fees for licensing to the Board and shall renew its license prior to October 31 for each licensing year.

C. Respondent shall comply with all provisions of Chapter 338, Chapter 195, and all applicable federal and state drug laws, rules and regulations and with all federal and state criminal laws. "State" here includes the State of Missouri and all other states and territories of the United States.

D. If, after disciplinary sanctions have been imposed, Respondent ceases to keep its Missouri license current, the period of unlicensed status shall not be deemed or taken as any part of the time of discipline so imposed.

E. The parties to this Order/Agreement understand that the Board of Pharmacy will maintain this Order/Agreement as an open record of the Board as provided in Chapters 338, 610 and 620, RSMo.

2. Upon the expiration of said discipline, Respondent's license as a drug distributor in Missouri shall be fully restored if all other requirements of law have been satisfied; provided, however, that in the event the Board determines that the Respondent has violated any term or condition of this Settlement Agreement, the Board may, in its discretion, after an evidentiary

hearing, vacate and set aside the discipline imposed herein and may suspend, revoke, or otherwise lawfully discipline the Respondent.

3. No order shall be entered by the Board pursuant to the preceding paragraph of this Settlement Agreement without notice and an opportunity for hearing before the Board in accordance with the provisions of Chapter 536, RSMo.

4. If the Board determines that Respondent has violated a term or condition of this Settlement Agreement, which violation would also be actionable in a proceeding before the Administrative Hearing Commission or the circuit court, the Board may elect to pursue any lawful remedies or procedures afforded it and is not bound by this Settlement Agreement in its determination of appropriate legal actions concerning that violation. If any alleged violation of this Settlement Agreement occurred during the disciplinary period, the Board may choose to conduct a hearing before it either during the disciplinary period, or as soon thereafter as a hearing can be held to determine whether a violation occurred and, if so, it may impose further discipline. The Board retains jurisdiction to hold a hearing to determine if a violation of this Settlement Agreement has occurred.

5. The terms of this Settlement Agreement are contractual, legally enforceable, binding, and not merely recitals. Except as otherwise contained herein, neither this Settlement Agreement nor any of its provisions may be changed, waived, discharged, or terminated, except by an instrument in writing signed by the party against whom the enforcement of the change, waiver, discharge, or termination is sought.

6. Respondent hereby waives and releases the Board, its members and any of its employees, agents, or attorneys, including any former board members, employees, agents, and

attorneys, of, or from, any liability, claim, actions, causes of action, fees, costs and expenses, and compensation, including, but not limited to, any claims for attorney's fees and expenses, including any claims pursuant to § 536.087, RSMo, or any claim arising under 42 U.S.C. § 1983, which may be based upon, arise out of, or relate to any of the matters raised in this litigation, or from the negotiation or execution of this Settlement Agreement. The parties acknowledge that this paragraph is severable from the remaining portions of this Settlement Agreement in that it survives in perpetuity even in the event that any court of law deems this Settlement Agreement or any portion thereof void or unenforceable.

Effective the date the Administrative Hearing Commission determines that the Settlement Agreement sets forth cause for disciplining Respondent's license, the agreed upon discipline set forth herein shall go into effect.

If Respondent has not requested review by the Administrative Hearing Commission, the

Settlement agreement goes into effect 15 days after the document is signed by the Board's Executive Director.

CERTIFIED MAIL/RETURN RECEIPT REQUESTED

December 7, 2006

Andrew Stolarski
Vice President of Operations
Medline Industries, Inc.
9101 Riverside Parkway
Lithia Springs, GA 30122

RE: Prescription Drug Wholesaler Permit No. 23:01470

Dear Mr. Stolarski:

This letter serves as notification that the department intends to suspend permit no. 23:01470 issued to Medline Industries, Inc. as an Out of State Prescription Drug Wholesaler based upon the following facts, grounds and considerations:

Section 499.067(1)(a), Florida Statutes (F.S.), authorizes the department to deny, suspend, or revoke a permit if it finds that there has been substantial failure to comply with § 499.001-499.081, F.S., or Chapter 465, Chapter 501, or Chapter 893, the rules adopted under any of those sections or chapters, any final order of the department, or applicable federal laws or regulations or other state laws or rules governing drugs, devices, or cosmetics. The department may also suspend a permit if the applicant has not met the requirements for the permit.

Pursuant to s. 499.012(11)(a), F.S., each establishment that is issued an initial or renewal permit as a prescription drug wholesaler or an out-of-state prescription drug wholesaler must designate in writing to the department at least one natural person to serve as the designated representative of the wholesaler. Such person must have an active certification as a designated representative from the department and must also meet the requirements of Section 499.012 (11) (d) F.S.

Pursuant to s. 499.012(11)(f), F.S., a wholesale distributor may not operate under a prescription drug wholesaler permit or an out-of-state prescription drug wholesaler permit for more than 10 business days after the designated representative leaves the employ of the wholesale distributor, unless the wholesale distributor employs another designated representative and notifies the department within 10 business days of the identity of the new designated representative. Mr. David L. Magruder, the designated representative identified for permit no. 23:01470 has resigned his position. We have not received a "Notification of Designated Representative" form identifying a certified individual to replace him. As a result Medline Industries, Inc. does not have a designated representative as required by s. 499.012(11), F.S.

Pursuant to s. 499.012(11)(b)4., F.S., to be certified as a designated representative, a person must receive a passing score of at least 75 percent on an examination given by the department regarding federal laws governing distribution of prescription drugs and ss. 499.001-499.081 and the rules adopted by the department governing the wholesale distribution of prescription drugs.

Accordingly, and pursuant to the above referenced facts and law, the department hereby intends to suspend permit no. 23:01470 issued to Medline Industries, Inc. as an Out of State Prescription Drug Wholesaler because you have not complied with s. 499.012(11)(f), F.S. and otherwise do not have a designated certified representative on file with the Department that meets the requirements of Section 499.012 (11) F.S. which is a substantial failure to comply with ss. 499.001 – 499.081, F.S. and is a failure to meet the requirements for the permit, for which the suspension is authorized pursuant to Sections 499.067 (1) (a); 499.067 (1) (b) 2. F.S.

Therefore, the department concludes that Medline Industries, Inc. no longer meets the requirements to continue to operate as an Out of State Prescription Drug Wholesaler in Florida and the permit will be suspended until you have designated in writing to the department a person with an active certification to serve as a designated representative who meets the requirements of Section 499.012 (11) F.S.

NOTICE OF RIGHTS TO HEARING AND APPEAL

You have the right to request an administrative hearing pursuant to sections 120.569 and 120.57, F.S., if you wish to challenge the intended agency action to suspend your permit. Such proceedings are governed by sections 120.569 and 120.57, F.S., and Rules 28-106 and 28-107, Florida Administrative Code. Request for a hearing, formal or informal, must comply with Rule 28-107.004, Florida Administrative Code.

You have the right to be represented by counsel or other qualified representative, at your expense; to present evidence and argument; to call and cross-examine witnesses; and to have subpoena and subpoena duces tecum issued on your behalf if a hearing is requested.

A petition for administrative hearing must be in writing and must be received by the Agency Clerk for the Department, within twenty-one (21) days from the receipt of this complaint. The address of the Agency Clerk is 4052 Bald Cypress Way, BIN # A02, Tallahassee FL 32399-1703. The Agency Clerk's facsimile number is 850-410-1448.

Mediation is not available as an alternative remedy.

Your failure to submit a petition for hearing within 21 days from receipt of this complaint will constitute a waiver of your right to an administrative hearing, under Florida Administrative Code Rule 28-106.111 and this complaint shall become a "final order".

Should this correspondence become a final order, a party who is adversely affected by it is entitled to judicial review pursuant to s 120.68, F.S. Review proceedings are governed by the Florida Rules of Appellate Procedure. Such proceedings may be commenced by filing one copy of a Notice of Appeal with the Agency Clerk of the Department of Health and a second copy, accompanied by the filing fees required by law, with the Court of Appeal in the appropriate District Court. The notice must be filed within 30 days of rendition of the final order.

La. R.S. 37:3474.1 and LAC 46:XCI.701 et seq.

Administrative Docket No. 2008006

Dear Lara Simmons:

As you may recall, the Board is mandated by law to license and regulate the wholesale distribution of legend drugs and devices in Louisiana in accordance with the Louisiana Revised Statutes and Louisiana Administrative Codes for wholesale drug distributors. This letter will acknowledge receipt of your response dated 4/3/2008. This letter is also intended to respond to any inquiries you may have regarding the deficiencies found during the inspection which occurred on 3/5/2008 at MEDLINE INDUSTRIES, INC.'s Covington LA distribution facility.

Pursuant to the Louisiana Revised Statutes and Louisiana Administrative Codes, specifically LAC 46:XCI.311.D, a licensee should maintain copies of current licenses which authorizes a customer to procure and possess legend drugs and devices. If these customer licenses are maintained off site, a list of customers including customer names, addresses, license number, and the license expiration dates shall be maintained for all customers that are shipped or sold drugs or devices.

On 3/5/2008, the Board's inspector discovered that copies of customer licenses which authorize the customer to procure and possess legend drugs/devices or a listing of customers' license information were not being maintained at the Covington LA facility.

A verbal request was made by the inspector of a customer list which should have been maintained at the Covington LA facility. After receiving and reviewing a copy of the customer list, as referred to by Medline as their "Pedigree List", the inspector requested copies of 30 customer licenses from the listing. Of the requested customer license copies, the inspector found that 70% of the licenses requested were either not acceptable licenses or were not available.

It is evident that MEDLINE INDUSTRIES, INC. was in violation of LAC 46:XCI.311.D at the time of the inspection on 3/5/2008. The Louisiana Revised Statutes and Louisiana Administrative Codes for wholesale drug distributors, more particularly LA RS 37:3474.1, provides that, after due notice and hearing, MEDLINE INDUSTRIES, INC.'s license may be sanctioned and/or it may be assessed a fine for its actions or omissions. Fines alone may include an assessment of $1,000 per violation

per day. It is the Board's objective to regulate the industry by correcting behavior. Such is accomplished by imposing sanctions for wrongful conduct.

It is hoped that the above detailed violation(s) as corrected will not occur in the future. Therefore, in an effort to amicably resolve the issues regarding the violation(s) which did occur, I, as the Board's appointed investigating/compliance officer, extend an offer to you which would impose a total fine of $2,000. This proposed sanction does not impose any restrictions on MEDLINE INDUSTRIES, INC.'s license.

If MEDLINE INDUSTRIES, INC. is agreeable to these terms, I have enclosed a Consent Order for your review and execution. Please have an authorized representative for your company sign the Consent Order in front of a Notary and two witnesses. Return the original, executed Consent Order along with a check made to the Louisiana Board of Wholesale Drug Distributors in the amount of the $2,000 fine to the Board's office within fifteen (15) days of receipt of this letter. You and/or a company representative will not be required to attend the evidentiary hearing at which the executed Consent Order will be presented to the full Board for acceptance, however you and/or another representative are welcome to attend.

In the event MEDLINE INDUSTRIES, INC. is not agreeable to this amicable resolution and wishes to contest the investigative findings in a hearing before the full Board, it has the right to do so. If such occurs, the current offer being proposed in this letter will no longer be viable.

We would like to bring this matter to disposition either by this amicable resolution or the pursuit of a formal hearing against MEDLINE INDUSTRIES, INC. before the Board at the next scheduled Board meeting. To do so, either way, we will need to prepare the necessary paperwork with all resolution documents. Again, please respond to this offer either by returning the executed Consent Order and fine payment or by written request for an administrative hearing. If your response is not received at the Board office within fifteen (15) days of receipt of this letter, the Board will begin steps towards the formal hearing with the issuance of subpoenas for witnesses and records.

We wish to keep an open line of communication with you. Please contact the Board office in the event you have any questions. Thank you for your cooperation in this matter.

Respectfully,

Wayne Gremillion
Board Member/Compliance Officer

Provide explanation below:

Medline Industries Inc. and Medline Manufacturing & Services, LLC was cited for several violations related to distribution centers in Florida, including, failure to pass and maintain a Florida compliant pedigree, maintaining the wrong permit type for the activities performed (Florida required a repackager permit in addition to the existing manufacturer permit), distribution of saline to an unauthorized recipient, and storage of a prescription drug in an unlicensed raw materials storage facility. Medline challenged several violations, resulting in most being substantially reduced or removed. All issues were addressed and resolved to the satisfaction of the FL DOH. A settlement agreement was reached to resolve all matters and approved on 09/06/2008.

Corrective Actions
Medline instituted a Florida specific pedigree system to address the pedigree issues. The updated pedigree ensures that all applicable shipments to Florida have the required Florida documentation and comply with FL pedigree requirements (Note - these requirements have since been preempted by the federal Drug Supply Chain Security Act). Medline secured the repackaging permit to address the missing permit type. Medline instituted a new procedure for obtaining and maintaining customer licenses for all prescription drug purchases- this procedure generates an automatic block for any prescription drug order by an unlicensed customer. The prescription drug item unintentionally stored in the raw materials facility was properly disposed of and waste disposal procedures updated to prevent this from occurring in the future.

Re: 08 PHM 037

Dear Ms. Hornick:

As you know, an inspector for the Department of Regulation and Licensing inspected Medline Industries on May 9, 2008. He found that several policies were missing, and the facility was storing prescription drugs in a non-secure location. It has been determined that these violations are grounds for discipline. I am the prosecuting attorney assigned to the case.

I have enclosed a proposed stipulation and order, which would resolve this matter without a hearing. If you are willing to resolve this case by agreement, please sign and return the stipulation and order by **December 9, 2008**. I will then present it to the Pharmacy Examining Board at its next meeting. The stipulation and order is not binding unless and until it is accepted by the board.

If you do not return the signed stipulation and order by December 9, 2008, I will file a formal complaint and initiate the hearing process. Please be aware that it is the policy of the Department to assess costs against respondents whenever any discipline is imposed. Your costs are presently $100. If we have to take this matter through a hearing, they will escalate quickly and could reach several thousand dollars.

Please call if you have any questions.

Sincerely,

SETTLEMENT AGREEMENT PRIOR TO FILING OF PETITION
FOR DISCIPLINARY ACTION AND BOARD'S FINAL ORDER

Petitioner, DEPARTMENT OF COMMERCE AND CONSUMER AFFAIRS' REGULATED INDUSTRIES COMPLAINTS OFFICE (hereinafter "RICO" or "Petitioner"), through its undersigned attorneys, and Respondent MEDLINE INDUSTRIES INC. (hereinafter "Respondent"), enter into this Settlement Agreement on the terms and conditions set forth below.

A. UNCONTESTED FACTS

1. At all relevant times herein, Respondent was licensed by the Board of Pharmacy (hereinafter the "Board") as a wholesale prescription drug distributor under License Number PWD 115. The license was issued on or about October 3, 2005. The license will expire on or about December 31, 2009.

I HEREBY CERTIFY THAT THE ATTACHED IS A TRUE AND CORRECT COPY OF THE ORIGINAL ON FILE IN THE DEPARTMENT OF COMMERCE & CONSUMER AFFAIRS.

2. Respondent's mailing address for purposes of this action is Dianna Wolfe, Corporate Regulatory Affairs Specialist, Medline Industries, Inc., One Medline Place, Mundelein, Illinois 60060.

3. Respondent timely reported that disciplinary action had been taken against Respondent by the State of Wisconsin. Respondent had entered into a Stipulation with the State of Wisconsin's Pharmacy Examining Board. Pursuant to the terms of a Final Order, Respondent was reprimanded and ordered to pay a forfeiture in the amount of $2,000.00. This action was based on the results of an inspection which revealed that certain policies were missing and that Respondent was storing pre-packaged kits for surgeries (which included various types and quantities of prescription drugs) in a warehouse that was shared with another company. These kits were not secured and employees of the other company had access to the kits. A true and correct copy of the Stipulation and Final Decision and Order which was approved on February 4, 2009 is attached as Exhibit "1."

4. RICO alleges that Respondent was disciplined by another state for a reason provided by the licensing laws in Hawaii. Specifically, the Respondent was disciplined for professional misconduct.

5. The foregoing allegations, if proven at an administrative hearing before the Board, would constitute violations of the following statute(s) and/or rule(s): Hawaii Revised Statutes ("HRS") § 436B-19(13) (disciplinary action by another state) and § 461-21(a)(2) (professional misconduct). Per Hawaii Administrative Rules §§ 16-95-30(c)(6) and (9), a licensee's facility must be secure from unauthorized entry and entry into areas where prescription drugs are held must be limited to authorized personnel.

6. The Board has jurisdiction over the subject matter herein and over the parties hereto.

B. REPRESENTATIONS BY RESPONDENT:

1. Respondent is fully aware that Respondent has the right to be represented by an attorney and voluntarily waives that right.

2. Respondent enters into this Settlement Agreement freely, knowingly, voluntarily, and under no coercion or duress.

3. Respondent is aware of the right to have a hearing to adjudicate the issues in the case. Pursuant to HRS § 91-9(d), Respondent freely, knowingly, and voluntarily waives the right to a hearing and agrees to dispose of this case in accordance with the terms and conditions of this Settlement Agreement.

4. Respondent being at all times relevant herein licensed as a wholesale prescription drug distributor by the Board acknowledges that Respondent is subject to penalties including but not limited to, revocation, suspension or limitation of the license and administrative fines, if the foregoing allegations are proven at hearing.

5. Respondent does not admit to violating any law or rule, but acknowledges that RICO has sufficient cause to file a Petition for Disciplinary Action against Respondent's license.

6. Respondent enters into this Settlement Agreement as a compromise of the claims and to conserve on the expenses of proceeding with an administrative hearing on this matter.

7. Respondent agrees that this Settlement Agreement is intended to resolve the issues raised in RICO's investigation in RICO Case No. PHA 2009-7-L.

C. TERMS OF SETTLEMENT:

1. Administrative fine. Respondent agrees to pay a fine in the amount of ONE THOUSAND AND NO/100 DOLLARS ($1,000.00). Payment shall be made by **cashier's check, company check, or money order made payable to "DCCA - Compliance Resolution Fund"** and mailed to the Regulated Industries Complaints Office, Attn: Bobbi Lum-Mew, Esq., 235 S. Beretania Street, 9th Floor, Honolulu, Hawaii 96813. Payment of the fine shall be due within thirty (30) days after this Settlement Agreement is approved by the Board.

2. Failure to Comply with Settlement Agreement. If Respondent fails to fully and timely comply with the terms of this Settlement Agreement as set forth in paragraph C.1 above, Respondent's license shall be automatically revoked upon RICO's filing of an affidavit with the Board attesting to such failure. In case of such revocation, Respondent shall turn in all indicia of the license to the Executive Officer of the Board within ten (10) days after receipt of notice of the revocation. In case of such revocation, Respondent understands Respondent cannot apply for a new license until the expiration of at least five (5) years after the effective date of the revocation. Respondent understands that if Respondent desires to become licensed again, Respondent must apply to the Board for a new license pursuant to and subject to HRS §§ 92-17, 436B-21, and all other applicable laws and rules in effect at the time.

3. Possible further sanction. The Board, at its discretion, may pursue additional disciplinary action as provided by law to include further fines and other sanctions as the Board may deem appropriate if Respondent violates any provision of the statutes or rules governing the conduct of wholesale prescription drug distributors in the State of Hawaii, or if Respondent fails to abide by the terms of this Settlement Agreement.

4. Approval of the Board. Respondent agrees that, except for the representations, agreements and covenants contained in Paragraphs C.5, C.6, C.7 and C.8 below, this Settlement Agreement shall not be binding on any of the parties unless and until it is approved by the Board.

5. No Objection if Board Fails to Approve. If the Board does not approve this Settlement Agreement, does not issue an order pursuant thereto, or does not approve a lesser remedy, but instead an administrative hearing is conducted against Respondent in the Board's usual and customary fashion pursuant to the Administrative Procedure Act, Respondent agrees that neither Respondent nor any attorney that Respondent may retain, will raise as an objection in any administrative proceeding or in any judicial action, to the Board's proceeding against Respondent on the basis that the Board has become disqualified to consider the case because of its review and consideration of this Settlement Agreement.

6. Any Ambiguities Shall be Construed to Protect the Consuming Public. It is agreed that any ambiguity in this Settlement Agreement is to be read in the manner that most completely protects the interests of the consuming public.

7. No Reliance on Representations by RICO. Other than the matters specifically stated in this Settlement Agreement, neither RICO nor anyone acting on its behalf has made any representation of fact, opinion or promise to Respondent to induce entry into this Settlement Agreement, and Respondent is not relying upon any statement, representation or opinion or promise made by RICO or any of its agents, employees, representatives or attorneys concerning the nature, extent or duration of exposure to legal liability arising from the subject matter of this Settlement Agreement or concerning any other matter.

8. Complete Agreement. This Settlement Agreement is a complete settlement of the rights, responsibilities and liabilities of the parties hereto with respect to the subject matter hereof; contains the entire agreement of the parties; and may only be modified, changed or amended by written instrument duly executed by all parties hereto.

IN WITNESS WHEREOF, the parties have signed this Settlement Agreement on the date(s) set forth below.

(III) Any state or federal law pertaining to drugs.

12-22-125.2. Disciplinary actions.

(1) The board may deny or discipline an applicant, licensee, or registrant when the board determines that such applicant, licensee, or registrant has engaged in activities that are grounds for discipline.

6. On January 14, 2010, Wholesaler Applicant submitted an out-of-state wholesaler application, which application was denied by the Board.

7. On March 1, 2010, Wholesaler Applicant submitted a written request asking that the Board accept its application by granting a conditional license.

8. The Board finds and concludes, and Wholesaler Applicant agrees, that based upon Wholesaler Applicant's above-described violations of the Pharmaceuticals and Pharmacists Act and relevant rules and regulations, the following discipline is just and appropriate under the circumstances as a condition of its registration as an out-of-state wholesaler.

DISPOSITION

Conditional Registration / Probation / Compliance / Terms

9. **Conditional Registration.** Wholesaler Applicant shall be granted a registration as an out-of-state wholesaler upon execution of this Final Agency Order and satisfaction of the terms and conditions set forth herein.

10. **Probation.** Wholesaler Applicant's registration shall be placed on probation for a period of time equal to the time of probation remaining under the Missouri Settlement Agreement. Credit toward satisfying the period of probation under this Final Agency Order shall be given only during such periods of time that Respondent is in total compliance with all provisions of this Final Agency Order and the Missouri Settlement Agreement.

11. **Compliance.** Wholesaler Applicant shall at all times remain in compliance with §§12-22-801, *et seq.* C.R.S. and shall not at any time distribute prescription drugs into Colorado without being registered as an out-of-state wholesaler in the State of Colorado at the time of distribution.

12. **Other Requirements.** Wholesaler Applicant acknowledges and agrees that, as a condition of this Final Agency Order and probation, Wholesaler Applicant shall:

    a. promptly pay all Wholesaler Applicant's own fees and costs associated with this Final Agency Order;

    b. comply fully with this Final Agency Order; and

    c. comply fully with the Pharmacists and Pharmaceuticals Act, all Board rules and regulations, and any other state and federal laws and regulations related to pharmacists and pharmaceuticals in the State of Colorado.

13. **Discharge.** Discharge from the requirements of this Final Agency Order must be requested in writing by Wholesaler Applicant. The Board will consider any request for discharge during the ordinary course of business. In any request for discharge it shall be Wholesaler Applicant's sole responsibility to establish, through written and other documentation, that Wholesaler Applicant has met all terms and conditions of this Final Agency Order and, in addition, has been released from probation by the Missouri Board of Pharmacy under the Missouri Settlement Agreement. Wholesaler Applicant's probation under this Final Agency Order shall continue until formally discharged by the Board by way of Board order.

14. **Advisements and Waivers.** Wholesaler Applicant enters into this Final Agency Order freely and voluntarily, whether or not Wholesaler Applicant has consulted with legal counsel. Wholesaler Applicant acknowledges its understanding that it has the following rights:

    a. To have a formal notice of hearing and charges served upon it;
    b. To respond to said formal notice of charges;
    c. To have a formal disciplinary hearing pursuant to §12-22-125, C.R.S.; and
    d. To appeal this Board order.

    Wholesaler Applicant freely **waives** these rights, and acknowledges that such waiver is made voluntarily in consideration for Board's limiting the action taken against it to the sanctions imposed herein.

15. **Acknowledgments.** The undersigned authorized agent of Wholesaler Applicant has read this Final Agency Order in its entirety and acknowledges, whether or not Wholesaler Applicant has consulted with legal counsel, that Wholesaler Applicant

understands the legal consequences and agrees that none of the terms or conditions herein are unconscionable.

16. **Violations.** Time is of the essence to this Final Agency Order. It is the responsibility of Wholesaler Applicant to take all appropriate steps to comply fully with this Final Agency Order. Wholesaler Applicant acknowledges and agrees that any violation of this Final Agency Order may be sanctioned as provided under §12-22-125.2(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of its registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Wholesaler Applicant to comply with all terms and conditions of this Final Agency Order.

17. **Integration and Severability.** Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.

18. **Public Record.** Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.

19. **Effective Date.** This Final Agency Order shall become effective upon signature of a Board member or representative.

Provide explanation below:

Medline Industries, LP distribution center at 1040 Enterprise Parkway South, West Jefferson, OH 43162 (OH License #01-30000190) entered a settlement agreement with the Ohio Board of Pharmacy for alleged sales of dangerous drugs to an unlicensed entity. Medline maintained a physician license on file instead of the correct Terminal Distributor Dangerous Drugs license (TDDD). The TDDD license was added in May 2022. During the period of July 2021 to March 2022, the customer's TDDD license lapsed, and Medline shipped the customer product under the valid practitioner license. Case resolved via Settlement Agreement effective 11/01/2022.

Corrective Actions:
Medline updated customer licensing requirements for Ohio customers following OH Case # A-2020-0054. The shipments in this matter occurred while Medline was in the process of reviewing and updating all Ohio customer licenses. Medline licensing staff were also provided with additional training on Ohio license requirements.

Provide explanation below:

Medline Industries, LP distribution center at 9670 NW 112th Ave, Miami, FL 33178 (FL WDD# #2220297) entered a settlement agreement for alleged violations of selling prescription drugs to an unauthorized recipient and failure to maintain proper records. Medline accepted a physician license for a customer which should have maintained a Healthcare Clinic Establishment Permit. The recordkeeping allegation related to missing NDC numbers on outbound packing slips and invoices.

Corrective Actions:
Medline updated customer licensing requirements for Florida customers and completed an extensive review of all FL customer licenses to verify the correct license type was on file. Medline determined the missing NDC number on the packing slip and invoice occurred due to an internal system error. The error was limited to DSCSA exempt products, i.e. IV fluids. A fix was implemented to correct the issue.

The forward-looking statements included in this Annual Report speak only as of the date of this Annual Report or as of the date they are made, as applicable. INTRODUCTORY NOTE

Medline Inc. was incorporated as a Delaware corporation on November 6, 2024. Prior to the completion of its initial public offering (the "IPO") on December 18, 2025, Medline Inc. undertook certain reorganization transactions (the "Reorganization") such that Medline Inc. is now a holding company, and its sole material assets are its equity interests held directly or indirectly through wholly owned subsidiaries in Medline Holdings, LP ("Medline Holdings"). Following the IPO, Medline Holdings is the predecessor of Medline Inc. for financial reporting purposes. As the general partner of Medline Holdings, Medline Inc. now operates and controls all of the business and affairs of Medline Holdings and, through Medline Holdings and its subsidiaries, conducts its business. The Reorganization lacks economic substance and therefore is accounted for in a manner consistent with a reorganization of entities under common control. As a result, the consolidated financial statements of Medline Inc. recognize the assets and liabilities received in the Reorganization at their historical carrying amounts, as reflected in the historical financial statements of Medline Holdings. Medline Inc. will consolidate Medline Holdings on its consolidated financial statements and record a non-controlling interest related to the Units (as defined herein) held by the Continuing Unitholders (as defined herein) on its consolidated balance sheets and statements of comprehensive income.

Medline Inc. had no significant business transactions or activities prior to the Reorganization, and, as a result, the historical financial information reflects that of Medline Holdings.

Basis of Presentation

The consolidated financial statements and accompanying notes included herein are prepared in accordance with United States generally accepted accounting principles ("GAAP"). The results of businesses acquired or disposed of are included in the consolidated financial statements from the date of the acquisition or up to the date of disposal, respectively. All adjustments, in the opinion of management, necessary to a fair statement of the results for the annual periods presented have been made.

Certain monetary amounts, percentages, and other figures included in this Annual Report have been subject to rounding adjustments. Percentage amounts included in this Annual Report have been calculated, in some cases, not on the basis of such rounded figures, but on the basis of such amounts prior to rounding. For this reason, percentage amounts in this Annual Report may vary from those obtained by performing the same calculations using the figures, on the face of our consolidated financial statements included elsewhere in this Annual Report. Certain other amounts that appear in this Annual Report may not sum due to rounding.

In December 2024, we changed the name of Medline Holdings from Mozart Holdings, LP to Medline Holdings, LP. We will not distinguish between the prior and current name of Medline Holdings and will refer to the current name of Medline Holdings throughout this Annual Report. References in this Annual Report to "Medline," the "Company," "we," "us," and "our" refer (1) prior to the consummation of the IPO, to Medline Holdings, LP and its consolidated subsidiaries and (2) after the IPO to Medline Inc. and its consolidated subsidiaries.

CERTAIN DEFINITIONS

As used in this Annual Report, unless otherwise noted or the context requires otherwise, the following terms have the following meanings:

- "Class A Units" refers to the interests in Medline Holdings called "Class A Units" that were outstanding prior to the Reclassification. - "Units" refers collectively to Common Units and Incentive Units.

Summary of Risk Factors

The following is a summary of the principal factors that make an investment in our securities speculative or risky, all of which are more fully described below. This summary should be read together with the risk factors described under Part I, "Item 1A—Risk Factors" and should not be relied upon as an exhaustive summary of the material risks facing our business. In addition to the following summary, you should consider the information set forth below and the other information contained in this Annual Report before investing in our securities.

- Our global operations are subject to inherent risks that could materially adversely affect our business, results of operations, and financial condition.
- We may be unable to derive fully the anticipated benefits from our existing or future acquisitions, joint ventures, investments, dispositions, or other strategic transactions.
- Consolidation in the healthcare industry could have an adverse effect on our business, results of operations, and financial condition.
- We operate in a highly competitive industry, with accelerating pricing pressure and changes in technology.
- Changes to the U.S. and global healthcare environments may not be favorable to us.
- Increases in shipping costs or service issues with our third-party shippers could harm our business.

- Significant challenges or delays in our sourcing of new products and technologies could have an adverse impact on our long-term success.
- We have concentration in and dependence on certain healthcare provider customers and GPOs.
- Our business and operations depend on the proper functioning of our critical facilities and distribution networks and could be negatively impacted by events outside our control.
- Quality problems and product liability claims have in the past led, and could in the future lead, to recalls or safety alerts, reputational harm, adverse verdicts, or costly settlements, and could have a material adverse effect on our business, results of operations, and financial condition.
- Our failure to establish and maintain Prime Vendor relationships may cause our revenue to decline.
- If we experience increased pressure to maintain or decrease the price of our goods and services and we are unable to reduce our expenses, there may be a material adverse effect on our business, results of operations, and financial condition.
- Any failure by or loss of a third-party manufacturer or supplier or other manufacturing or supply-related impacts could result in delays and increased costs, which may adversely affect our business.
- We rely on the proper function, security, and availability of our information technology systems and data, as well as those of third parties throughout our global supply chain, to operate our business.
- We are subject to extensive and complex laws and governmental regulations and any adverse regulatory action may materially adversely affect our business, results of operations, and financial condition both inside and outside the United States.
- We are subject to complex and rapidly evolving data privacy, security, and data protection laws and regulations and the costs to comply with such laws and regulations or any ineffective compliance efforts with such laws and regulations may adversely impact our business.
- Our use or our third-party service providers' or business partners' use of AI, automated decision-making and machine learning technologies and the evolving regulatory framework in this area may subject us to risks or heightened costs that could adversely affect business, results of operation and financial condition.
- Our failure to comply with laws and regulations relating to reimbursement of healthcare goods and services may subject us to penalties and adversely impact our reputation, business, results of operations, financial condition, and cash flows.
- Uncertain global and domestic macro-economic and political conditions could materially adversely affect our business, results of operations, and financial condition.
- Our substantial indebtedness could adversely affect our financial condition, our ability to operate our business or react to changes in the economy or our industry, prevent us from fulfilling our obligations under our debts, and divert our cash flow from operations for debt payments.
- The credit agreement that governs the Senior Secured Credit Facilities and the indentures that govern the Senior Notes will each impose significant operating and financial restrictions on our subsidiaries, which may prevent us from capitalizing on business opportunities.
- Medline Inc. is a holding company and its only material assets are its equity interests held directly or indirectly through wholly owned subsidiaries in Medline Holdings, and it is accordingly dependent upon distributions from Medline Holdings to pay taxes, make payments under the tax receivable agreement, and pay any dividends.
- The Designating Stockholders hold a significant percentage of our stock, and their interests may conflict with ours or yours in the future.
- Our amended and restated certificate of incorporation does not limit the ability of our Sponsors, the Mills family, and certain other pre-IPO investors to compete with us, and they may have investments in businesses whose interests conflict with ours.

The market price of shares of our Class A common stock may be volatile or may decline regardless of our operating performance, which could cause the value of your investment to decline.

Market and Industry Data

Unless otherwise indicated, information contained in this Annual Report concerning our industry, competitive position, and the markets in which we operate is based on information from independent industry and research organizations, other third-party sources and management estimates. Although we believe that these third-party sources are reliable, we do not guarantee the accuracy or completeness of this information, and we have not independently verified this information. Management estimates are derived from information obtained from surveys, reports by market research firms, our customers, distributors, suppliers, trade and business organizations, and other contacts in the markets in which we operate and have not been verified by independent sources, and are based on assumptions made by us upon reviewing such data, and our experience in, and knowledge of, such industry and markets, which we believe to be reasonable. In addition, assumptions and estimates of our and our industry's future performance are subject to a high degree of uncertainty and risk due to a variety of factors, including those described in Part I, "Item 1A—Risk Factors" and "Cautionary Note Regarding Forward-Looking Statements." These and other factors could cause results to differ materially from those expressed in the estimates made by the independent parties and by us.

Statements regarding our market position (including statements that we are the largest company in a particular market), unless otherwise noted, are based on our 2025 net sales in the relevant market relative to the publicly reported net sales of our competitors in such market, including with respect to our statement of being the largest provider of med-surg products and supply chain solutions serving all points of care, as that statement is based on our 2025 net sales relative to the publicly reported net sales of med-surg products by companies that are both med-surg manufacturers and distributors.

Trademarks

We own or have the right to use trademarks, trade names, and service marks used in connection with our business, including, but not limited to, Medline, Curad, Microtek, Hudson, and Proxima. All trademarks, trade names, and service marks referred to in this Annual Report are the property of their respective owners. We do not intend our use or display of other companies' trade names, trademarks, or service marks to imply a relationship with, or endorsement or sponsorship of us by, these other companies. Solely for convenience, our trademarks, trade names, and service marks referred to in this Annual Report may appear without the ®, ™ or SM symbols, but such references are not intended to indicate, in any way, that we will not assert, to the fullest extent under applicable law, our rights or the right of the applicable licensor to these trademarks, trade names, and service marks.

PART I

Item 1. Business

General

Medline Inc. (together with its subsidiaries, "Medline", "the Company", "we", "ours" and "us") is the largest provider of medical-surgical ("med-surg") products and supply chain solutions serving all points of care, based on total net sales of med-surg products. Medline was founded in 1966 and today delivers mission-critical products used daily across the full range of care settings, from hospitals and surgery centers to physician offices and post-acute facilities. Our mission is to make healthcare run better by delivering improved clinical, financial, and operational outcomes.

We have two reportable segments, Medline Brand and Supply Chain Solutions, the combination of which addresses critical needs in the market through a comprehensive solution. They are both supported by our Prime Vendor model, differentiated distribution network, and robust commercial platform. Through our two segments, we offer approximately 335,000 med-surg products, including surgical and procedural kits, gloves and protective apparel, urological and incontinence care, wound care, and consumable lab and diagnostics products. We distribute these products through our expansive network of global distribution facilities and our owned fleet of MedTrans trucks.

Medline Brand

As of December 31, 2025, we offer our customers approximately 190,000 med-surg products through our Medline Brand segment and hold leading positions across many key product families for our Medline Brand products. Our Medline Brand products are organized into three product categories: Front Line Care, Surgical Solutions, and Laboratory and Diagnostics.

- *Front Line Care* offers mission-critical med-surg products for patient-facing needs, including wound care products, exam gloves, skin care and incontinence products, environment cleaning supplies, textiles, hand sanitizer, durable medical equipment, patient plastics, and decolonization and infection control products.
- *Surgical Solutions* offers operating room and perioperative environment product solutions, including surgical procedure trays, drapes and gowns, personal protective equipment, sterile wraps, surgical instruments, surgeon's gloves, procedure kits, and orthopedic implants.
- *Laboratory and Diagnostics* offers a full range of laboratory and diagnostic product solutions, including point of care testing, analyzers and instrumentation, lab and diagnostic consumables, diagnostic instruments, vital signs monitors, and anatomic pathology and phlebotomy products.

Our product development approach incorporates customer feedback and ongoing innovation. We are also committed to delivering products of the highest standard, which is reflected by our robust quality team embedded across our manufacturing and sourcing locations. The expertise of our research and development team and quality team helps ensure products bearing the Medline brand meet both our rigorous quality standards and our customers' expectations.

Supply Chain Solutions

As of December 31, 2025, we offer approximately 145,000 med-surg products from over 1,300 third-party suppliers, including nearly all leading national brands, through our Supply Chain Solutions segment. We also provide our customers with supply chain optimization services such as consulting engagements, outsourced warehouse and technology management, put-away-ready packaging, third-party logistics, inventory rationalization, and route planning. Our third-party suppliers are primarily responsible for costs related to import and inbound freight, whereas we are primarily responsible for costs related to outbound freight from our distribution centers. Our supply chain expertise allows us to provide additional service offerings to optimize our customers' supply chain and inventory workflows, helping these customers cost-effectively manage their supply chain while building strong relationships and enhancing retention.

Our Prime Vendor Model

A Prime Vendor relationship is a relationship for which there is a multi-year distribution agreement between Medline and a customer, whereby the customer agrees to use Medline for the vast majority of its med-surg product needs.

In our Prime Vendor relationships, we enter into long-term agreements, typically structured with five-year terms, to act as the primary consolidated logistics partner for these customers' med-surg product needs. These agreements have been and are expected to continue to be a key contributor to our growth. Our customers realize efficiencies by partnering with one supply chain partner to consolidate their med-surg purchase volume. Prior to the market adoption of the Prime Vendor model, customers sourced such products individually from a highly fragmented base of suppliers. The Prime Vendor model instead centralizes procurement and distribution, which in turn drives efficiency and higher service levels.

As Prime Vendor, we drive significant cost savings to our customers. Our scale allows us to deliver consistently lower prices and better service levels on Medline Brand products relative to third-party alternatives, while also lowering the distribution cost for delivery of the full range of med-surg products. This often motivates customers to purchase more Medline Brand products over time. The opportunity is even greater in certain non-acute settings, where we sell a more focused product portfolio. Our Prime Vendor model allows us to provide cost savings to Prime Vendor customers, which, over time, supports incremental purchasing of our Medline Brand products and greater scale across our operations. As our scale grows, we are able to realize further efficiencies by offering superior or similar quality to third-party products at a more cost-effective price. We believe that Medline Brand conversion is mutually beneficial for both our customers and us-the value we provide customers at the outset of a Prime Vendor agreement meaningfully increases over time, as they accrue savings by purchasing our lower cost Medline Brand products, while our profitability grows given the enhanced margin profile of Medline Brand products. This compelling value proposition and supply chain relationship with our customers supports our greater than 98% average Prime Vendor retention rate over the past five years.

A portion of Supply Chain Solutions products sold to existing Prime Vendor customers has like-for-like Medline Brand product equivalents, representing a potential gross profit uplift consistent with our historical margin differentials if such products were converted for Medline Brand products. While we historically have earned higher margins upon conversion from third-party national brand products to like-for-like Medline Brand products, because of the lower average prices for Medline Brand products, there is typically a negative impact on net sales upon the conversion of Supply Chain Solutions products to like-for-like Medline Brand products if volume is assumed to be constant. For additional information on potential risks relating to this conversion opportunity, please see Part I, "Item 1A—Risk Factors—Risks Related to Our Business, Industry and Operations—Our failure to establish and maintain Prime Vendor relationships may cause our revenue to decline."

Our Distribution Network

We have a differentiated distribution network of 70 global distribution centers, warehouses, cross-docks, and transship facilities, 45 of which are in the United States, strategically located to provide next-day delivery to 95% of our U.S. customer base. We utilize artificial intelligence ("AI") and robotics technology in over 26 million square feet of warehouse space in the United States to improve efficiency and capacity to optimize distribution logistics and maximize utilization. The products we distribute are packaged to meet each customer's individual needs and to be "put-away-ready," which streamlines the customer's unloading and shelving process. We also operate our own fleet of more than 2,100 MedTrans trucks that deliver our products across care settings within the United States. As of December 31, 2025, we had approximately 25% in incremental capacity across our platform to support our long-term growth.

Our Commercial Platform

Our deep connectivity to our customers is driven by the strength of our dedicated and tenured commercial team. We have a U.S. commercial team of approximately 4,000 people across all points of care, which includes account managers, product specialists, specialized clinical resources, customer service representatives, supply chain specialists, Prime Vendor analysts, and a robust leadership team dedicated to driving efficiencies for our customers through their teams. We have created an entrepreneurial environment that empowers our salesforce to work with our product managers to create innovative products that meet market demand. We have a team devoted to each channel in the United States and each region or country internationally, which allows our salesforce teams to develop market-specific knowledge.

Research and Development

We have a track record of successfully bringing new products to market, with more than 2,300 granted patents and more than 450 U.S. Food and Drug Administration ("FDA") 510(k) clearances. Over the last three years, we have successfully launched more than 250 new products.

Competition

Our value proposition is derived from our integrated business model, the breadth of our Medline Brand portfolio, our differentiated supply chain, and the overall quality and cost of our products. As a result of our integrated business model, our competitors include both other leading med-surg product manufacturers and distributors.

Similar to us, other leading med-surg product manufacturers produce a wide range of med-surg supplies. However, unlike us, many of these competitors are reliant upon third-party distributors to deliver their products to customers. By nature of being a distributor, Medline has direct access to and manages the end customer relationships. This enables us to offer a complete solution as a manufacturer and a distributor, offering our customers what we believe to be best-in-class supply chain logistics, and driving value through our brand.

Additionally, other distributors of med-surg products similarly connect the fragmented supplier and provider bases and aggregate inventory from suppliers to deliver products to customers, such as McKesson, Cardinal Health, Owens & Minor, and Henry Schein. These distribution companies compete with us for Prime Vendor agreements. However, we believe that many of these competitors do not benefit from the scale and scope of our vertical integration or commercial excellence, and thus are not able to provide the same magnitude of cost savings, value, and holistic solutions that we deliver for our customers.

Production and Raw Materials

We manufacture approximately one-third of our Medline Brand products, which are primarily Class I and II medical devices, through our 30 manufacturing facilities, of which 24 are in North America. We purchase many of the components and raw materials used in manufacturing our products from numerous suppliers. We focus our manufacturing capabilities on products where we can leverage technology and automation to drive higher quality and lower costs to better serve our customers. For the vast majority of the other two-thirds of our Medline Brand products, we work closely with our network of more than 600 global partners across approximately 40 countries, many of whom have decades-long exclusive relationships with us. The breadth of our global sourcing partnerships provides diversification and strengthens our resiliency, with no single sourcing partner accounting for more than 5% of total spend as of December 31, 2025.

We also have plans and measures in place to help ensure continuity of supply while maintaining high quality and reliability. Generally, we have been able to obtain adequate supplies of such raw materials and components. However, due to the FDA's manufacturing requirements and those of other regulatory authorities, we may not be able to quickly establish additional or replacement sources for certain components, materials or processes if we experience a sudden or unexpected reduction or interruption in supply or services and are unable to develop alternative sources.

Human Capital Resources

At Medline, our relentless focus on the customer drives our human capital strategy, which revolves around attracting, developing, and retaining employees to provide the best products and services for our customers. We have developed a strong foundation that drives our recruitment, retention and development efforts. We are committed to supporting the personal and professional development of our employees, as well as providing competitive benefits and a safe, inclusive workplace.

As of December 31, 2025, we employed over 45,000 employees worldwide, with over 26,000 located in the United States. Our largest non-U.S. employee populations are in Mexico, Dominican Republic, India, Canada, Slovakia, France, China, Japan, Germany, and Australia. None of our employees in the United States are unionized, though some of our employees in Mexico belong to unions. In Germany and the Netherlands, employees are represented through Works Councils; in France and Spain, employees are represented through both Works Councils and industry-wide collective bargaining agreements; and in Belgium and Italy, employees are also represented through industry-wide collective bargaining agreements. In Australia, certain employees are represented by an enterprise bargaining agreement; in Japan, employees are represented through a Work Council; and in Vietnam, employees are represented through a collective bargaining agreement. We believe that our positive employee relations and total employee experience drive the continual growth of our workforce.

Culture and Values

Our culture is grounded in a customer-focused, collaborative, and performance-driven approach, guided by core values emphasizing relentless customer focus, agility and flexibility, problem-solving, drive to succeed, purposeful candor, and the importance of relationships. Employees are encouraged to exercise judgment, work transparently with customers, and contribute meaningfully to our mission to make healthcare run better.

Talent Attraction and Development

We seek to attract employees whose skills, experience, and motivation align with our operational and technical needs. Through continual improvement of internal processes, an awareness of market and candidate driven trends, and in partnership with vendors and other outside organizations, our talent acquisition programs focus on efficient hiring processes, market awareness, and building a diverse pipeline of candidates. We support development through consistent performance management processes and early career opportunities to take on additional responsibilities to demonstrate their competencies and drive to succeed and on-the-job responsibility augmented by formal training and development to refine technical and leadership skills. New sales representatives participate in comprehensive training programs, and product managers have targeted development pathways through all stages of their careers, from mandatory onboarding offerings to advanced classes that provide the necessary skills with increasing levels of responsibility, to support progression over time.

Employee Engagement and Inclusion

We believe our employees' ability to communicate and cooperate effectively across functional and departmental teams positively impacts our performance. We engage in various listening strategies and foster engagement through survey feedback mechanisms, anonymous employee feedback platform, focus groups, increased attention to onboarding and offboarding feedback, pulse surveys on remote work needs, and other listening strategies. Insights from these efforts inform workplace improvements. We also support an inclusive environment through Employee Resource Groups and leadership training initiatives designed to reduce bias in talent decisions and strengthen representation across the company.

Health, Safety, and Well-Being

We are committed to maintaining a safe workplace and supporting the physical, emotional, and financial well-being of our employees. We provide competitive health and benefits programs, access to assistance resources where available, and opportunities for community involvement through charitable giving, including financial giving and in-kind giving such as product donations.

Intellectual Property

We rely upon patents, trademarks, copyrights, trade secrets and other intellectual property rights to maintain and improve our competitive position. We have a large portfolio of intellectual property, including more than 2,300 granted patents as well as trademark registrations protecting our notable brands, including Medline, Curad, Microtek, Hudson, and Proxima.

We consider the trademarks and know-how that we own to be material to our business. However, other than the Medline mark, we do not consider our business to be materially dependent upon any individual trademark registration or trade secret. In the aggregate, we consider our more than 2,300 granted patents to be material to our business. However, no single patent or group of related patents is material to our business as a whole or any segment of our business.

We believe that we have taken all necessary steps to protect our intellectual property rights, but no assurance can be given that we will be able to successfully enforce or protect our rights in the event that they are infringed upon or challenged by a third party. See Part I, "Item 1A —Risk Factors—Risks Related to Regulation and Legal Proceedings—Any failure to obtain, maintain, protect and enforce our intellectual property rights, or the failure of the strength or scope of our intellectual property rights, could harm our business, financial condition, and results of operations" and "—Risks Related to Regulation and Legal Proceedings—We may become subject to litigation brought by third parties claiming infringement, misappropriation, or other violation by us of their intellectual property rights."

Government Regulation

Our operations and products are subject to extensive regulation by numerous governmental regulatory authorities, including U.S. and other international regulatory authorities, and other government agencies inside and outside the United States. To varying degrees, each of these agencies requires us to comply with laws and regulations governing the development, design, materials, testing, safety, efficacy, quality, purity, manufacturing, methods, controls, testing, screening, recordkeeping, reporting, processing, storage, registration, authorization, licensing, permitting, labeling, advertising, marketing, distribution, offer for sale, sale, use, expiration, pricing, reimbursement, import, export, clinical trials, post-marketing surveillance of our products, the registration of our facilities, and the claims that we make about our products. The United States and other countries where we sell healthcare and other regulated products, including drugs, human cell and tissue products, dietary supplements, cosmetics, certain foods, and consumer products subject such products to their own clearance, authorization, approval, registration, listing, labeling, manufacturing, recordkeeping, reporting, and other regulatory requirements regarding the performance, safety, and quality of such products. We are also subject to healthcare and other regulations and enforcement by the federal government and the states and foreign governments and authorities in the locations in which we conduct our business. The U.S. governmental and regulatory authorities that enforce such laws and rules, and that issue guidance on compliance with such laws and rules include, without limitation, the FDA, the Centers for Medicare & Medicaid Services ("CMS"), other divisions of the U.S. Department of Health and Human Services ("HHS"), the HHS Office of Inspector General, U.S. Environmental Protection Agency ("EPA"), the Federal Trade Commission ("the FTC"), Consumer Product Safety Commission ("CPSC"), the U.S. Department of Justice ("DOJ") and individual U.S. Attorney offices within the DOJ, as well as state and local governments. Our business is also affected by patient and data privacy and security laws, government payer cost containment initiatives, government reimbursement laws and regulations, environmental, health, and safety laws and regulations, as well as laws and regulations with respect to the sale, transportation, storage, handling, and disposal of hazardous or potentially hazardous substances, and safe working conditions. Our business also maintains contracts with governmental agencies and such contracts are subject to various government procurement laws and regulations, required contract provisions, and other requirements relating to contract formation, administration and performance. Failure to comply with applicable laws and regulations or with contractual or other requirements may result in monetary damages and criminal or civil penalties as well as termination of our government contracts or our suspension or debarment from government contract work.

The regulations to which we are subject are complex and have tended to become more stringent over time. If our business expands in certain ways, including through the offering of new products and services or entering into new geographic areas, we may be subject to new and additional regulatory requirements. The foreign, federal, state, and local regulatory authorities have broad inspection and enforcement powers, including the ability to suspend or limit the distribution of products, suspend, revoke, or terminate our product and facility licenses, permits, and authorizations, request the cessation of distribution and shipments of certain products due to regulatory, safety, or other issues, seize or order the recall of our products, issue safety, quality, or other communications to the public or healthcare providers, enforce laws related to marketing, including promotion of off-label uses of products, and impose injunctions and significant criminal, civil, and administrative sanctions for violations of laws and regulations. Any adverse regulatory or other action, including any adverse press releases or other communications from regulators, may impact our business practices and operations, including by limiting our ability to effectively market, ship, and sell our products, affecting the production and distribution of products by our manufacturing facilities, subjecting us to significant liability, and limiting our ability to obtain future authorizations. Although we are subject to international government regulations in the international end markets where we operate and/or provide our products, these regulations do not have a material impact on our products as no international market represents more than 3% of our net sales.

Government Regulation of Medical Devices

Our medical devices are subject to regulation by numerous government agencies, including the FDA and comparable state and foreign agencies. Regulations of the FDA and other regulatory agencies in and outside the United States impose extensive compliance and monitoring obligations on portions of our business. The FDA and other U.S. and foreign governmental agencies regulate, among other things, with respect to medical devices: design, development, and manufacturing; testing, registration, listing, labeling, content, and language of instructions for use and storage; clinical trials; product safety; marketing, sales, and distribution; licensing and permit requirements; premarket clearance, approval and authorization; record keeping procedures; advertising and promotion; recalls and field safety corrective actions; post-market surveillance, including reporting of deaths or serious injuries and malfunctions that, if they were to recur, could lead to death or serious injury; post-market approval studies; and product import and export. The regulations to which we are subject are complex and have tended to become more stringent over time. If our business expands in certain ways, we may be subject to new and additional regulatory requirements. The FDA and state regulatory authorities have broad inspection and enforcement powers, including the ability to suspend or limit the distribution of products by our distribution centers; seize or order the recall of products; terminate, suspend, or revoke licenses and permits; and impose significant criminal, civil, and administrative sanctions for violations of these laws and regulations. Foreign regulations subject us to similar foreign enforcement powers. In addition, the FDA and other governmental and regulatory authorities, both in and outside the United States (including the FTC, the HHS Office of the Inspector General, the DOJ, and various state Attorneys General), monitor the promotion and advertising of our products. Any adverse regulatory or other action, including any adverse press releases or other communications from regulators, depending on its magnitude, may limit our ability to effectively market, ship, and sell our products, limit our ability to obtain future premarket authorizations, or result in a substantial modification to our business practices and operations.

FDA Premarket Clearance and Approval Requirements

Each medical device we wish to distribute commercially in the United States requires marketing authorization from the FDA prior to distribution, unless the device is exempt from premarket notification requirements. The type of marketing authorization necessary is generally linked to the classification of the device. The FDA classifies medical devices into one of three classes-Class I, II, or III-based on the degree of risk associated with a device and the level of regulatory control deemed necessary to ensure its safety and effectiveness. Class I devices that pose the least risk are subject only to General Controls applicable to all devices, such as requirements for device labeling, premarket notification, and adherence to current good manufacturing practices for devices as set forth in the Quality System Regulation ("QSR"). Class II devices that pose a moderate risk are subject to General Controls and may also be subject to Special Controls, such as performance standards, product-specific guidance documents, special labeling requirements, patient registries, or post-market surveillance. Class III devices are those for which insufficient information exists to assure safety and effectiveness solely through General and Special Controls, including devices that support or sustain human life, are of substantial importance in preventing impairment of human health, or which present a potential unreasonable risk of illness or injury.

Most Class I devices and some Class II devices are exempted by regulation from the 510(k) clearance requirement and can be marketed without prior authorization from the FDA. Class I and II devices that are not exempted are eligible for marketing through the 510(k) clearance pathway. By contrast, devices placed in Class III generally require premarket approval ("PMA") or de novo clearance prior to commercial marketing. The PMA approval process is more stringent, time-consuming and expensive than the 510(k) clearance process; however, the 510(k) clearance process has also become increasingly stringent and expensive. None of our products are currently approved under a PMA, and we have no plans for any indication or system improvement or extension that we believe would require a PMA. If, in the future, we were to file a PMA, we may be subject to additional regulatory requirements.

510(k) Clearance Process

To obtain 510(k) clearance, we must submit a premarket notification to the FDA demonstrating the proposed device to be substantially equivalent to a predicate device. A device is substantially equivalent if, with respect to the predicate device, it has the same intended use and it has either the same technological characteristics, or it has different technological characteristics, but the information provided in the 510(k) submission demonstrates that the device does not raise new questions of safety or effectiveness. The standard review process for 510(k)s is between six to nine months, dependent upon the type of 510(k) filing submitted. Although many 510(k) premarket notifications are cleared without clinical data, in some cases, the FDA may require clinical data to support substantial equivalence. In reviewing a premarket notification, the FDA may request additional information, including clinical data, which may significantly prolong the review process and clearance is never assured. Clinical trials generally require the submission of an investigational device exemption ("IDE") to the FDA for a specified number of patients and study sites, unless the product is deemed a non-significant risk device eligible for more abbreviated IDE requirements. Clinical trials are subject to numerous requirements and institutional review board approval, oversight, and monitoring. Even if a trial is conducted, the results of clinical testing may not adequately demonstrate the safety and effectiveness of the device or be sufficient to obtain FDA clearance or approval for marketing.

After a device receives 510(k) clearance, any subsequent modification of the device that could significantly affect its safety or effectiveness, or that would constitute a major change in its intended use, requires a new 510(k) clearance or could require submission and approval of a de novo 510(k) or a PMA application in cases where new indications are sought for which there is no predicate. Non-significant changes are handled via internal documentation by the Company. Each manufacturer must judge the significance of modifications based on FDA 510(k) regulatory requirements and guidance documents. The FDA may review any such decision and may disagree with a manufacturer's determination. If the FDA disagrees with a manufacturer's determination, the FDA may require the manufacturer to cease marketing and distribution and/or recall the modified device until 510(k) clearance or PMA approval is obtained. In the future, we may make modifications to our products after they have received FDA clearance and, in appropriate circumstances, determine that new clearance is unnecessary. However, the FDA may disagree with our determination, and, if the FDA requires us to seek 510(k) clearance or submit new PMA applications for any modifications to a previously cleared product, we may be required to cease marketing or distributing or recall the modified device until we obtain the required clearance or approval. We may also market or acquire products that are marketed without a 510(k) clearance, appropriate labeling, or that otherwise are marketed in violation of FDA requirements, since medical devices can be marketed only for the indications for which they are cleared or approved. Under these circumstances, we may also be subject to warning letters, significant regulatory fines, or other penalties, and we may no longer be able to market particular products for which a 510(k) clearance is required.

Post-Marketing Requirements

Numerous FDA regulatory requirements apply to devices we manufacture and distribute, including: compliance with the QSR, which require manufacturers and their suppliers to follow the applicable design, testing, processes, control, documentation, labeling, and other quality assurance procedures during the manufacturing process; establishment registration, which requires establishments involved in the production and distribution of medical devices intended for commercial distribution in the United States to register with the FDA; medical device listing, which requires manufacturers to list the devices they have in commercial distribution with the FDA; labeling regulations, which prohibit "misbranded" devices from entering the market, as well as prohibit the promotion of products for unapproved or off-label uses and impose other restrictions on labeling; post-market surveillance, including medical device reporting requirements which requires manufacturers to report to the FDA if their device may have caused or contributed to a death or serious injury, or malfunctioned in a way that would likely cause or contribute to a death or serious injury if it were to recur; and corrections and removal reporting regulations, which require that manufacturers report to the FDA field corrections and product recalls or removals if undertaken to reduce a risk to health posed by the device or to remedy a violation of the Federal Food, Drug, and Cosmetic Act that may present a risk to health. The FDA and other governmental and regulatory authorities actively enforce the laws and regulations prohibiting the promotion of off-label uses, and a company that is found to have improperly promoted off-label uses may be subject to significant liability.

The FDA enforces these requirements by inspection and market surveillance. Domestic facility records and manufacturing processes are subject to periodic unscheduled inspections by the FDA. The FDA may also inspect foreign facilities that export products to the United States. Failure to comply with applicable regulatory requirements may result in enforcement action or other actions by the FDA, which may include one or more of the following sanctions: adverse press releases and safety communications; requests to stop shipments; untitled letters or warning letters; fines, injunctions, and civil penalties; mandatory recall or seizure of our products; customer notifications and repairs or replacements; administrative detention or banning of our products; consent decrees; operating restrictions, partial suspension or total shutdown of production; refusing our request for 510(k) clearances for new product versions or modifications to existing product versions; revocation of 510(k) clearances previously granted; refusal to grant export approval for our products; and criminal prosecution and penalties. If any of these events were to occur, they could have a material adverse effect on our business, financial condition, and results of operations.

International Regulation of Medical Devices

Sales of medical devices outside the United States are subject to foreign government regulations, which vary substantially from country to country. In order to market our products in other countries, we must comply with applicable regulatory requirements and authorizations and approvals and safety and quality regulations in each country in which the product is marketed. The time required to obtain authorization, approval, or certification by a foreign country may be longer or shorter than that required for FDA clearance, and the requirements may differ significantly.

EU Regulation of Medical Devices

In the European Union ("EU") until May 25, 2021, medical devices were regulated by the Council Directive 93/42/EEC, which has been repealed and replaced by the Medical Device Regulation ("EU MDR"). Unlike directives, regulations are directly applicable in all EU member states without the need for member states to implement into national law. The EU extended the EU MDR transitional periods for certain medical devices until December 31, 2027 or December 31, 2028, depending on a device's risk class and subject to certain conditions to ensure continued access to medical devices for patients and to allow medical devices already placed on the market in accordance with the current legal framework to remain on the market, provided that the requirements of the transitional provisions are fulfilled.

In the EU, there is currently no premarket government review of medical devices. However, all medical devices placed on the EU market must meet general safety and performance requirements, and compliance with the general safety and performance requirements is a prerequisite for European conformity marking without which medical devices cannot be marketed or sold in the EU. EU MDR requirements regarding the distribution, marketing, and sale, including quality systems and post-market surveillance, have to be observed by manufacturers, importers, and distributors as of the application date (i.e., since May 26, 2021), including registration of economic operators and of devices (once the relevant modules of Eudamed are functional), surveillance, and vigilance requirements. The aforementioned EU rules are generally applicable in the European Economic Area which consists of the 27 EU member states plus Norway, Liechtenstein, and Iceland.

The NDA Approval Process

For any new drug products regulated under the Federal Food, Drug, and Cosmetic Act such as our ReadyPrep CHG cloth, a sponsor must submit a New Drug Application ("NDA"), to the FDA for review and approval. The NDA review and approval process may take multiple years and involves steps including the following:

- completion of preclinical studies and analytical and stability testing in accordance with applicable regulations;
- submission to the FDA of an Investigational New Drug ("IND") application, which must become effective before clinical trials may begin and must be updated annually and amended when certain changes are made;
- approval by an institutional review board, or IRB, or independent ethics committee, or IEC, at each clinical trial site before each trial may be initiated;
- performance of adequate and well-controlled clinical trials in accordance with applicable IND regulations, good clinical practice, or GCP, requirements, including informed consent, financial disclosure by investigators, and other clinical trial-related regulations, to establish the safety and efficacy of the investigational product for each proposed indication and other condition of use;
- preparation and submission to the FDA of an NDA;

- satisfactory completion of one or more FDA pre-approval inspections of the manufacturing facility or facilities where the drug will be produced to assess compliance;
- satisfactory completion of FDA inspection of select clinical trial sites involved in conducting pivotal studies that generated the data in support of the NDA;
- payment of user fees for FDA review of the NDA; and
- FDA review and approval of the NDA, including of the proposed prescribing information and, where applicable, consideration of the views of any FDA advisory committee, prior to any commercial marketing or sale of the drug in the United States.

Any approvals that we may ultimately receive could be withdrawn if required post-marketing trials or analyses do not meet the FDA requirements, which could materially harm the commercial prospects for our products.

Even if a product candidate receives regulatory approval, the approval may be limited to specific disease states, patient populations and dosages, or might contain significant limitations on use in the form of warnings, precautions or contraindications, or in the form of onerous risk management plans, restrictions on distribution, or post-marketing study requirements. Further, even after regulatory approval is obtained, later discovery of previously unknown problems with a product may result in restrictions on the product or even complete withdrawal of the product from the market. Delay in obtaining, or failure to obtain, regulatory approval for our candidate products, or obtaining approval but for significantly limited use, would harm our business. In addition, we cannot predict what adverse governmental regulations may arise from future U.S. or foreign governmental action.

Trade Regulations

The movement of products, services, and investment across borders subjects us to extensive trade regulations. A variety of laws and regulations in the countries in which we transact business apply to the sale, shipment, and provision of goods, services, and technology across borders. These laws and regulations govern, among other things, our import, export, and other business activities. We are also subject to the risk that these laws and regulations could change in a way that would expose us to additional costs, penalties, or liabilities. Some governments also impose economic sanctions against certain countries, governments, persons, and entities, both for unlawful or malign conduct and to discourage or prevent entities from abiding by other countries' laws. In addition to our need to comply with such regulations in connection with our direct activities, we also sell and provide goods, technology, and services to agents, representatives, and distributors who may export such items to customers and end-users. If we, or the third parties through which we do business, are not in compliance with applicable import, export control, or economic sanctions laws and regulations, we may be subject to civil or criminal enforcement action and varying degrees of liability. Such actions may disrupt or delay sales of our products or services or result in restrictions on our distribution and sales of products or services that may materially impact our business.

Anti-Boycott Laws

Under U.S. laws and regulations, U.S. companies and their subsidiaries and affiliates are prohibited from participating or agreeing to participate in unsanctioned foreign boycotts in connection with certain business activities, including the sale, purchase, transfer, shipping, or financing of goods or services within the United States or between the United States and countries outside of the United States. If we, or certain third parties through which we sell or provide goods or services, violate U.S. anti-boycott laws and regulations, we may be subject to civil or criminal enforcement action and varying degrees of liability.

Medline, through Counsel, addressed the issues raised in the inspection and established that the suspension was unjustified. The suspension was lifted 3 days later on January 22, 2008. Medline Industries, Inc. entered into a settlement agreement on 02/08/2008 with the FL Department of Health to resolve all issues related to the case. **Corrective Actions:** Medline conducted a thorough review of its policies and procedures and implemented an internal auditing program to ensure that all distribution centers comply with internal policies and procedures and state and federal regulations.

Medline challenged several violations, resulting in most being substantially reduced or removed. All issues were addressed and resolved to the satisfaction of the FL DOH. A settlement agreement was reached to resolve all matters and approved on 09/06/2008. **Corrective Actions** Medline instituted a Florida specific pedigree system to address the pedigree issues. The updated pedigree ensures that all applicable shipments to Florida have the required Florida documentation and comply with FL pedigree requirements (Note - these requirements have since been preempted by the federal Drug Supply Chain Security Act). Medline secured the repackaging permit to address the missing permit type. Medline instituted a new procedure for obtaining and maintaining customer licenses for all prescription drug purchases- this procedure generates an automatic block for any prescription drug order by an unlicensed customer. The prescription drug item unintentionally stored in the raw materials facility was properly disposed of and waste disposal procedures updated to prevent this from occurring in the future.

Pursuant to the terms of § 536.060, RSMo (2000), the parties hereto waive the right to a hearing by the Administrative Hearing Commission of the State of Missouri and, additionally, the right to a disciplinary hearing before the Board under § 621.110, RSMo (2000), and stipulate and agree that a final disposition of this matter may be effectuated as described below.

1. Respondent's drug distributor license shall be placed on PROBATION for five (5) years pursuant to the provisions of Chapters 338 and 620, RSMo. During the period of

probation, Respondent will be entitled to operate as a drug distributor pursuant to Chapter 338, RSMo provided Respondent adheres to the following terms of probation:

A. Respondent shall report to the Board, on a preprinted form supplied by the Board office, once every six (6) months, beginning six (6) months after this Order/Agreement becomes effective, stating truthfully whether or not it has complied with all terms and conditions of this disciplinary order.

B. Respondent shall pay all required fees for licensing to the Board and shall renew its license prior to October 31 for each licensing year.

C. Respondent shall comply with all provisions of Chapter 338, Chapter 195, and all applicable federal and state drug laws, rules and regulations and with all federal and state criminal laws. "State" here includes the State of Missouri and all other states and territories of the United States.

D. If, after disciplinary sanctions have been imposed, Respondent ceases to keep its Missouri license current, the period of unlicensed status shall not be deemed or taken as any part of the time of discipline so imposed.

E. The parties to this Order/Agreement understand that the Board of Pharmacy will maintain this Order/Agreement as an open record of the Board as provided in Chapters 338, 610 and 620, RSMo.

2. Upon the expiration of said discipline, Respondent's license as a drug distributor in Missouri shall be fully restored if all other requirements of law have been satisfied; provided, however, that in the event the Board determines that the Respondent has violated any term or condition of this Settlement Agreement, the Board may, in its discretion, after an evidentiary

hearing, vacate and set aside the discipline imposed herein and may suspend, revoke, or otherwise lawfully discipline the Respondent.

3. No order shall be entered by the Board pursuant to the preceding paragraph of this Settlement Agreement without notice and an opportunity for hearing before the Board in accordance with the provisions of Chapter 536, RSMo.

4. If the Board determines that Respondent has violated a term or condition of this Settlement Agreement, which violation would also be actionable in a proceeding before the Administrative Hearing Commission or the circuit court, the Board may elect to pursue any lawful remedies or procedures afforded it and is not bound by this Settlement Agreement in its determination of appropriate legal actions concerning that violation. If any alleged violation of this Settlement Agreement occurred during the disciplinary period, the Board may choose to conduct a hearing before it either during the disciplinary period, or as soon thereafter as a hearing can be held to determine whether a violation occurred and, if so, it may impose further discipline. The Board retains jurisdiction to hold a hearing to determine if a violation of this Settlement Agreement has occurred.

5. The terms of this Settlement Agreement are contractual, legally enforceable, binding, and not merely recitals. Except as otherwise contained herein, neither this Settlement Agreement nor any of its provisions may be changed, waived, discharged, or terminated, except by an instrument in writing signed by the party against whom the enforcement of the change, waiver, discharge, or termination is sought.

6. Respondent hereby waives and releases the Board, its members and any of its employees, agents, or attorneys, including any former board members, employees, agents, and

attorneys, of, or from, any liability, claim, actions, causes of action, fees, costs and expenses, and compensation, including, but not limited to, any claims for attorney's fees and expenses, including any claims pursuant to § 536.087, RSMo, or any claim arising under 42 U.S.C. § 1983, which may be based upon, arise out of, or relate to any of the matters raised in this litigation, or from the negotiation or execution of this Settlement Agreement. The parties acknowledge that this paragraph is severable from the remaining portions of this Settlement Agreement in that it survives in perpetuity even in the event that any court of law deems this Settlement Agreement or any portion thereof void or unenforceable.

CERTIFIED MAIL/RETURN RECEIPT REQUESTED

December 7, 2006

Andrew Stolarski
Vice President of Operations
Medline Industries, Inc.
9101 Riverside Parkway
Lithia Springs, GA 30122

RE: Prescription Drug Wholesaler Permit No. 23:01470

Dear Mr. Stolarski:

This letter serves as notification that the department intends to suspend permit no. 23:01470 issued to Medline Industries, Inc. as an Out of State Prescription Drug Wholesaler based upon the following facts, grounds and considerations:

Section 499.067(1)(a), Florida Statutes (F.S.), authorizes the department to deny, suspend, or revoke a permit if it finds that there has been substantial failure to comply with § 499.001-499.081, F.S., or Chapter 465, Chapter 501, or Chapter 893, the rules adopted under any of those sections or chapters, any final order of the department, or applicable federal laws or regulations or other state laws or rules governing drugs, devices, or cosmetics. The department may also suspend a permit if the applicant has not met the requirements for the permit.

Pursuant to s. 499.012(11)(a), F.S., each establishment that is issued an initial or renewal permit as a prescription drug wholesaler or an out-of-state prescription drug wholesaler must designate in writing to the department at least one natural person to serve as the designated representative of the wholesaler. Such person must have an active certification as a designated representative from the department and must also meet the requirements of Section 499.012 (11) (d) F.S.

Pursuant to s. 499.012(11)(f), F.S., a wholesale distributor may not operate under a prescription drug wholesaler permit or an out-of-state prescription drug wholesaler permit for more than 10 business days after the designated representative leaves the employ of the wholesale distributor, unless the wholesale distributor employs another designated representative and notifies the department within 10 business days of the identity of the new designated representative. Mr. David L. Magruder, the designated representative identified for permit no. 23:01470 has resigned his position. We have not received a "Notification of Designated Representative" form identifying a certified individual to replace him. As a result Medline Industries, Inc. does not have a designated representative as required by s. 499.012(11), F.S.

Pursuant to s. 499.012(11)(b)4., F.S., to be certified as a designated representative, a person must receive a passing score of at least 75 percent on an examination given by the department regarding federal laws governing distribution of prescription drugs and ss. 499.001-499.081 and the rules adopted by the department governing the wholesale distribution of prescription drugs.

Accordingly, and pursuant to the above referenced facts and law, the department hereby intends to suspend permit no. 23:01470 issued to Medline Industries, Inc. as an Out of State Prescription Drug Wholesaler because you have not complied with s. 499.012(11)(f), F.S. and otherwise do not have a designated certified representative on file with the Department that meets the requirements of Section 499.012 (11) F.S. which is a substantial failure to comply with ss. 499.001 – 499.081, F.S. and is a failure to meet the requirements for the permit, for which the suspension is authorized pursuant to Sections 499.067 (1) (a); 499.067 (1) (b) 2. F.S.

Therefore, the department concludes that Medline Industries, Inc. no longer meets the requirements to continue to operate as an Out of State Prescription Drug Wholesaler in Florida and the permit will be suspended until you have designated in writing to the department a person with an active certification to serve as a designated representative who meets the requirements of Section 499.012 (11) F.S.

NOTICE OF RIGHTS TO HEARING AND APPEAL

You have the right to request an administrative hearing pursuant to sections 120.569 and 120.57, F.S., if you wish to challenge the intended agency action to suspend your permit. Such proceedings are governed by sections 120.569 and 120.57, F.S., and Rules 28-106 and 28-107, Florida Administrative Code. Request for a hearing, formal or informal, must comply with Rule 28-107.004, Florida Administrative Code.

You have the right to be represented by counsel or other qualified representative, at your expense; to present evidence and argument; to call and cross-examine witnesses; and to have subpoena and subpoena duces tecum issued on your behalf if a hearing is requested.

A petition for administrative hearing must be in writing and must be received by the Agency Clerk for the Department, within twenty-one (21) days from the receipt of this complaint. The address of the Agency Clerk is 4052 Bald Cypress Way, BIN # A02, Tallahassee FL 32399-1703. The Agency Clerk's facsimile number is 850-410-1448.

Mediation is not available as an alternative remedy.

Your failure to submit a petition for hearing within 21 days from receipt of this complaint will constitute a waiver of your right to an administrative hearing, under Florida Administrative Code Rule 28-106.111 and this complaint shall become a "final order".

Should this correspondence become a final order, a party who is adversely affected by it is entitled to judicial review pursuant to s 120.68, F.S. Review proceedings are governed by the Florida Rules of Appellate Procedure. Such proceedings may be commenced by filing one copy of a Notice of Appeal with the Agency Clerk of the Department of Health and a second copy, accompanied by the filing fees required by law, with the Court of Appeal in the appropriate District Court. The notice must be filed within 30 days of rendition of the final order.

Upon consideration of the evidence presented to the Board, this Consent Order is voluntarily entered into by and between Respondent and the Board. Respondent acting through its authorized agent, hereby waives formal Notice of and its attendance at the Evidentiary Hearing for presentation of the Consent Order to the Board. However, as a condition precedent to submission of the proposed Consent Order to the Board, Respondent hereby acknowledges and understands that information may be presented to the Board with regards to the details of the case for the Board to understand the circumstances. It is further acknowledged and understood by Respondent that in the event the Board is not agreeable to enter into the proposed Consent Order and an Administrative Hearing is ultimately conducted, the Board which will be presiding over the case will possibly have heard information which may later be submitted at the scheduled hearing. If such hearing occurs, Respondent waives any right that it may have to recuse or remove any or all members of the Board for the purposes of an Administrative Hearing in the event the proposed Consent Order is not accepted by the Board, or if Respondent withdraws his consent to the proposed Consent Order prior to its final approval by the Board. Furthermore, Respondent has had the opportunity to, or has in fact consulted with, legal counsel with regards to the Consent Order and the waivers contained herein.

FINDINGS OF FACTS

1. Respondent possesses Louisiana License No. 4318 issued by the Board to wholesale distribute legend drugs and devices in the State of Louisiana. Such license was in effect on 3/5/2008 through the date of the evidentiary hearing in this matter.

2. Pursuant to LAC 46:XCI.311.D, a licensee is required to maintain copies of current licenses for customer who are authorized by law or regulation to procure or possess legend drugs or devices for all customers that are shipped or sold legend drugs or devices; if these license copies are maintained off site, a list of customers with customer names, addresses, license number, and license expiration dates shall be maintained on site for all customers shipped or sold legend drugs or devices.
3. On 3/5/2008, an inspection was conducted by the Board's representative which revealed that copies of customer licenses were not at the Covington LA facility. A verbal request to provide a customer listing which should be maintained at the Covington LA facility was made. The customer license list was not available.
4. Information was thereafter submitted by Respondent to the Board's inspector as per the inspector's request. In review of a customer listing ("Pedigree List") as provided by the Respondent, the inspector requested copies of customer licenses for 15 of the customers listed. Verbal explanation was given was that customer licenses are verified and the customer is entered electronically into the system as an authorized recipient but that no hard copy of the customer license is being maintained.
5. Respondent's conduct in failing to maintain customer license documents and/or a customer listing at the Covington LA site is in violation of the Louisiana Revised Statutes and Louisiana Administrative Codes for Wholesale Drug Distributors, specifically LAC 46:XCI.311.D.
6. Disciplinary sanctions and/or fines are applicable against Respondent in accordance with the Louisiana Revised Statutes and Louisiana Administrative Codes for Wholesale Drug Distributors.

CONCLUSIONS OF LAW

1. It is unlawful for Respondent, as a licensee to wholesale distribute legend drugs and devices, to not maintain current customer license documents and/or a current customer listing on-site. LAC 46:XCI.311.D.
2. It is unlawful for Respondent, as a licensee to wholesale distribute legend drugs and devices, to violate any of the provisions of the Louisiana Revised Statutes and Louisiana Administrative Codes for Wholesale Drug Distributors. La. R.S. 37:3474.1 and LAC 46:XCI.101
3. Respondent's violations of the provisions of the Louisiana Revised Statutes and Louisiana Administrative Codes for Wholesale Drug Distributors constitute lawful grounds for the Louisiana Board of Wholesale Drug Distributors, upon due notice of hearing and proof of such violations, to assess a fine, revoke, suspend, or otherwise discipline Respondent's license as provided by law. La. R.S. 37:3474.1 and LAC 46:XCI.701 et seq.

DECISION

4. Respondent is hereby assessed a fine in the amount of $2,000 for its failure to properly maintain copies of current licenses for customers shipped or sold legend drugs or devices and/or a customer listing on site. Said fine to be paid on the effective date of

Administrative Docket No. 2008006

CERTIFIED MAIL
No. 7007 3020 0000 1431 0031
Return Receipt Requested

Dear Lara Simmons:

As you may recall, the Board is mandated by law to license and regulate the wholesale distribution of legend drugs and devices in Louisiana in accordance with the Louisiana Revised Statutes and Louisiana Administrative Codes for wholesale drug distributors. This letter will acknowledge receipt of your response dated 4/3/2008. This letter is also intended to respond to any inquiries you may have regarding the deficiencies found during the inspection which occurred on 3/5/2008 at MEDLINE INDUSTRIES, INC.'s Covington LA distribution facility.

Pursuant to the Louisiana Revised Statutes and Louisiana Administrative Codes, specifically LAC 46:XCI.311.D, a licensee should maintain copies of current licenses which authorizes a customer to procure and possess legend drugs and devices. If these customer licenses are maintained off site, a list of customers including customer names, addresses, license number, and the license expiration dates shall be maintained for all customers that are shipped or sold drugs or devices.

On 3/5/2008, the Board's inspector discovered that copies of customer licenses which authorize the customer to procure and possess legend drugs/devices or a listing of customers' license information were not being maintained at the Covington LA facility.

A verbal request was made by the inspector of a customer list which should have been maintained at the Covington LA facility. After receiving and reviewing a copy of the customer list, as referred to by Medline as their "Pedigree List", the inspector requested copies of 30 customer licenses from the listing. Of the requested customer license copies, the inspector found that 70% of the licenses requested were either not acceptable licenses or were not available.

It is evident that MEDLINE INDUSTRIES, INC. was in violation of LAC 46:XCI.311.D at the time of the inspection on 3/5/2008. The Louisiana Revised Statutes and Louisiana Administrative Codes for wholesale drug distributors, more particularly LA RS 37:3474.1, provides that, after due notice and hearing, MEDLINE INDUSTRIES, INC.'s license may be sanctioned and/or it may be assessed a fine for its actions or omissions. Fines alone may include an assessment of $1,000 per violation

Bob Broadus, Chairman; William Crates, Vice-Chairman; Randall Brooks, Secretary/Treasurer; John Liggio, Executive Director/Inspector
Hershal Paul, Board Member; Andy Milligan, Board Member; Wayne Gremillion, Board Member; Eric Voitier, Board Member; Kimberly B. Barper, Executive Assistant

per day. It is the Board's objective to regulate the industry by correcting behavior. Such is accomplished by imposing sanctions for wrongful conduct.

It is hoped that the above detailed violation(s) as corrected will not occur in the future. Therefore, in an effort to amicably resolve the issues regarding the violation(s) which did occur, I, as the Board's appointed investigating/compliance officer, extend an offer to you which would impose a total fine of $2,000. This proposed sanction does not impose any restrictions on MEDLINE INDUSTRIES, INC.'s license.

If MEDLINE INDUSTRIES, INC. is agreeable to these terms, I have enclosed a Consent Order for your review and execution. Please have an authorized representative for your company sign the Consent Order in front of a Notary and two witnesses. Return the original, executed Consent Order along with a check made to the Louisiana Board of Wholesale Drug Distributors in the amount of the $2,000 fine to the Board's office within fifteen (15) days of receipt of this letter. You and/or a company representative will not be required to attend the evidentiary hearing at which the executed Consent Order will be presented to the full Board for acceptance, however you and/or another representative are welcome to attend.

In the event MEDLINE INDUSTRIES, INC. is not agreeable to this amicable resolution and wishes to contest the investigative findings in a hearing before the full Board, it has the right to do so. If such occurs, the current offer being proposed in this letter will no longer be viable.

We would like to bring this matter to disposition either by this amicable resolution or the pursuit of a formal hearing against MEDLINE INDUSTRIES, INC. before the Board at the next scheduled Board meeting. To do so, either way, we will need to prepare the necessary paperwork with all resolution documents. Again, please respond to this offer either by returning the executed Consent Order and fine payment or by written request for an administrative hearing. If your response is not received at the Board office within fifteen (15) days of receipt of this letter, the Board will begin steps towards the formal hearing with the issuance of subpoenas for witnesses and records.

We wish to keep an open line of communication with you. Please contact the Board office in the event you have any questions. Thank you for your cooperation in this matter.

Respectfully,

Wayne Gremillion
Board Member/Compliance Officer

Provide explanation below:

Medline Industries Inc. and Medline Manufacturing & Services, LLC was cited for several violations related to distribution centers in Florida, including, failure to pass and maintain a Florida compliant pedigree, maintaining the wrong permit type for the activities performed (Florida required a repackager permit in addition to the existing manufacturer permit), distribution of saline to an unauthorized recipient, and storage of a prescription drug in an unlicensed raw materials storage facility. Medline challenged several violations, resulting in most being substantially reduced or removed. All issues were addressed and resolved to the satisfaction of the FL DOH. A settlement agreement was reached to resolve all matters and approved on 09/06/2008.

Corrective Actions
Medline instituted a Florida specific pedigree system to address the pedigree issues. The updated pedigree ensures that all applicable shipments to Florida have the required Florida documentation and comply with FL pedigree requirements (Note - these requirements have since been preempted by the federal Drug Supply Chain Security Act). Medline secured the repackaging permit to address the missing permit type. Medline instituted a new procedure for obtaining and maintaining customer licenses for all prescription drug purchases- this procedure generates an automatic block for any prescription drug order by an unlicensed customer. The prescription drug item unintentionally stored in the raw materials facility was properly disposed of and waste disposal procedures updated to prevent this from occurring in the future.

Re: 08 PHM 037

Dear Ms. Hornick:

As you know, an inspector for the Department of Regulation and Licensing inspected Medline Industries on May 9, 2008. He found that several policies were missing, and the facility was storing prescription drugs in a non-secure location. It has been determined that these violations are grounds for discipline. I am the prosecuting attorney assigned to the case.

I have enclosed a proposed stipulation and order, which would resolve this matter without a hearing. If you are willing to resolve this case by agreement, please sign and return the stipulation and order by **December 9, 2008**. I will then present it to the Pharmacy Examining Board at its next meeting. The stipulation and order is not binding unless and until it is accepted by the board.

If you do not return the signed stipulation and order by December 9, 2008, I will file a formal complaint and initiate the hearing process. Please be aware that it is the policy of the Department to assess costs against respondents whenever any discipline is imposed. Your costs are presently $100. If we have to take this matter through a hearing, they will escalate quickly and could reach several thousand dollars.

Please call if you have any questions.

Sincerely,

2. Respondent's mailing address for purposes of this action is Dianna Wolfe, Corporate Regulatory Affairs Specialist, Medline Industries, Inc., One Medline Place, Mundelein, Illinois 60060.

3. Respondent timely reported that disciplinary action had been taken against Respondent by the State of Wisconsin. Respondent had entered into a Stipulation with the State of Wisconsin's Pharmacy Examining Board. Pursuant to the terms of a Final Order, Respondent was reprimanded and ordered to pay a forfeiture in the amount of $2,000.00. This action was based on the results of an inspection which revealed that certain policies were missing and that Respondent was storing pre-packaged kits for surgeries (which included various types and quantities of prescription drugs) in a warehouse that was shared with another company. These kits were not secured and employees of the other company had access to the kits. A true and correct copy of the Stipulation and Final Decision and Order which was approved on February 4, 2009 is attached as Exhibit "1."

4. RICO alleges that Respondent was disciplined by another state for a reason provided by the licensing laws in Hawaii. Specifically, the Respondent was disciplined for professional misconduct.

5. The foregoing allegations, if proven at an administrative hearing before the Board, would constitute violations of the following statute(s) and/or rule(s): Hawaii Revised Statutes ("HRS") § 436B-19(13) (disciplinary action by another state) and § 461-21(a)(2) (professional misconduct). Per Hawaii Administrative Rules §§ 16-95-30(c)(6) and (9), a licensee's facility must be secure from unauthorized entry and entry into areas where prescription drugs are held must be limited to authorized personnel.

6. The Board has jurisdiction over the subject matter herein and over the parties hereto.

B. REPRESENTATIONS BY RESPONDENT:

1. Respondent is fully aware that Respondent has the right to be represented by an attorney and voluntarily waives that right.

2. Respondent enters into this Settlement Agreement freely, knowingly, voluntarily, and under no coercion or duress.

3. Respondent is aware of the right to have a hearing to adjudicate the issues in the case. Pursuant to HRS § 91-9(d), Respondent freely, knowingly, and voluntarily waives the right to a hearing and agrees to dispose of this case in accordance with the terms and conditions of this Settlement Agreement.

4. Respondent being at all times relevant herein licensed as a wholesale prescription drug distributor by the Board acknowledges that Respondent is subject to penalties including but not limited to, revocation, suspension or limitation of the license and administrative fines, if the foregoing allegations are proven at hearing.

5. Respondent does not admit to violating any law or rule, but acknowledges that RICO has sufficient cause to file a Petition for Disciplinary Action against Respondent's license.

6. Respondent enters into this Settlement Agreement as a compromise of the claims and to conserve on the expenses of proceeding with an administrative hearing on this matter.

7. Respondent agrees that this Settlement Agreement is intended to resolve the issues raised in RICO's investigation in RICO Case No. PHA 2009-7-L.

C. TERMS OF SETTLEMENT:

1. Administrative fine. Respondent agrees to pay a fine in the amount of ONE THOUSAND AND NO/100 DOLLARS ($1,000.00). Payment shall be made by **cashier's check, company check, or money order made payable to "DCCA - Compliance Resolution Fund"** and mailed to the Regulated Industries Complaints Office, Attn: Bobbi Lum-Mew, Esq., 235 S. Beretania Street, 9th Floor, Honolulu, Hawaii 96813. Payment of the fine shall be due within thirty (30) days after this Settlement Agreement is approved by the Board.

2. Failure to Comply with Settlement Agreement. If Respondent fails to fully and timely comply with the terms of this Settlement Agreement as set forth in paragraph C.1 above, Respondent's license shall be automatically revoked upon RICO's filing of an affidavit with the Board attesting to such failure. In case of such revocation, Respondent shall turn in all indicia of the license to the Executive Officer of the Board within ten (10) days after receipt of notice of the revocation. In case of such revocation, Respondent understands Respondent cannot apply for a new license until the expiration of at least five (5) years after the effective date of the revocation. Respondent understands that if Respondent desires to become licensed again, Respondent must apply to the Board for a new license pursuant to and subject to HRS §§ 92-17, 436B-21, and all other applicable laws and rules in effect at the time.

3. Possible further sanction. The Board, at its discretion, may pursue additional disciplinary action as provided by law to include further fines and other sanctions as the Board may deem appropriate if Respondent violates any provision of the statutes or rules governing the conduct of wholesale prescription drug distributors in the State of Hawaii, or if Respondent fails to abide by the terms of this Settlement Agreement.

4. Approval of the Board. Respondent agrees that, except for the representations, agreements and covenants contained in Paragraphs C.5, C.6, C.7 and C.8 below, this Settlement Agreement shall not be binding on any of the parties unless and until it is approved by the Board.

5. No Objection if Board Fails to Approve. If the Board does not approve this Settlement Agreement, does not issue an order pursuant thereto, or does not approve a lesser remedy, but instead an administrative hearing is conducted against Respondent in the Board's usual and customary fashion pursuant to the Administrative Procedure Act, Respondent agrees that neither Respondent nor any attorney that Respondent may retain, will raise as an objection in any administrative proceeding or in any judicial action, to the Board's proceeding against Respondent on the basis that the Board has become disqualified to consider the case because of its review and consideration of this Settlement Agreement.

6. Any Ambiguities Shall be Construed to Protect the Consuming Public. It is agreed that any ambiguity in this Settlement Agreement is to be read in the manner that most completely protects the interests of the consuming public.

7. No Reliance on Representations by RICO. Other than the matters specifically stated in this Settlement Agreement, neither RICO nor anyone acting on its behalf has made any representation of fact, opinion or promise to Respondent to induce entry into this Settlement Agreement, and Respondent is not relying upon any statement, representation or opinion or promise made by RICO or any of its agents, employees, representatives or attorneys concerning the nature, extent or duration of exposure to legal liability arising from the subject matter of this Settlement Agreement or concerning any other matter.

8. Complete Agreement. This Settlement Agreement is a complete settlement of the rights, responsibilities and liabilities of the parties hereto with respect to the subject matter hereof; contains the entire agreement of the parties; and may only be modified, changed or amended by written instrument duly executed by all parties hereto.

IN WITNESS WHEREOF, the parties have signed this Settlement Agreement on the date(s) set forth below.

STATE OF COLORADO

Case No. 2010-002994

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF DISCIPLINARY PROCEEDINGS REGARDING THE LICENSE TO PRACTICE AS A OUT-OF-STATE WHOLESALER IN THE STATE OF COLORADO OF MEDLINE INDUSTRIES, INC.,

Wholesaler Applicant.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and Medline Industries, Inc. ("Wholesaler Applicant") to resolve all matters pertaining to Board Case Number 2010-002994 as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Wholesaler Applicant, its application for registration as an out-of-state wholesaler and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the provisions of the Pharmaceuticals and Pharmacists Act at Title 12, Article 22, C.R.S.

2. Wholesaler Applicant admits these findings and hereby waives any further proof in this proceeding before the Board regarding the following facts.

3. Wholesaler Applicant entered into a Settlement Agreement with the Missouri State Board of Pharmacy, which was effective on August 3, 2005 ("Missouri Settlement Agreement").

4. In the Missouri Settlement Agreement, Wholesaler Applicant was placed on probation for five (5) years for various violations of Missouri state and federal law involving recordkeeping, storage of prescription drugs, change of location without informing the Missouri Board of Pharmacy, lack of a policy and procedure manual, and distribution of prescription drugs under a lapsed registration.

5. Wholesaler Applicant's conduct, as set forth above, constitutes violations of the following sections of the Colorado Revised Statutes:

12-22-125. Unprofessional conduct - grounds for discipline.

(1) The board may suspend, revoke, refuse to renew, or otherwise discipline any license or registration issued by it, after a hearing held in accordance with the provisions of this section, upon proof that the licensee or registrant:

(c) Has violated:

(III) Any state or federal law pertaining to drugs.

12-22-125.2. Disciplinary actions.

(1) The board may deny or discipline an applicant, licensee, or registrant when the board determines that such applicant, licensee, or registrant has engaged in activities that are grounds for discipline.

6. On January 14, 2010, Wholesaler Applicant submitted an out-of-state wholesaler application, which application was denied by the Board.

7. On March 1, 2010, Wholesaler Applicant submitted a written request asking that the Board accept its application by granting a conditional license.

8. The Board finds and concludes, and Wholesaler Applicant agrees, that based upon Wholesaler Applicant's above-described violations of the Pharmaceuticals and Pharmacists Act and relevant rules and regulations, the following discipline is just and appropriate under the circumstances as a condition of its registration as an out-of-state wholesaler.

DISPOSITION

Conditional Registration / Probation / Compliance / Terms

9. **Conditional Registration.** Wholesaler Applicant shall be granted a registration as an out-of-state wholesaler upon execution of this Final Agency Order and satisfaction of the terms and conditions set forth herein.

10. **Probation.** Wholesaler Applicant's registration shall be placed on probation for a period of time equal to the time of probation remaining under the Missouri Settlement Agreement. Credit toward satisfying the period of probation under this Final Agency Order shall be given only during such periods of time that Respondent is in total compliance with all provisions of this Final Agency Order and the Missouri Settlement Agreement.

11. **Compliance.** Wholesaler Applicant shall at all times remain in compliance with §§12-22-801, *et seq.* C.R.S. and shall not at any time distribute prescription drugs into Colorado without being registered as an out-of-state wholesaler in the State of Colorado at the time of distribution.

12. **Other Requirements.** Wholesaler Applicant acknowledges and agrees that, as a condition of this Final Agency Order and probation, Wholesaler Applicant shall:

    a. promptly pay all Wholesaler Applicant's own fees and costs associated with this Final Agency Order;

    b. comply fully with this Final Agency Order; and

    c. comply fully with the Pharmacists and Pharmaceuticals Act, all Board rules and regulations, and any other state and federal laws and regulations related to pharmacists and pharmaceuticals in the State of Colorado.

13. **Discharge.** Discharge from the requirements of this Final Agency Order must be requested in writing by Wholesaler Applicant. The Board will consider any request for discharge during the ordinary course of business. In any request for discharge it shall be Wholesaler Applicant's sole responsibility to establish, through written and other documentation, that Wholesaler Applicant has met all terms and conditions of this Final Agency Order and, in addition, has been released from probation by the Missouri Board of Pharmacy under the Missouri Settlement Agreement. Wholesaler Applicant's probation under this Final Agency Order shall continue until formally discharged by the Board by way of Board order.

14. **Advisements and Waivers.** Wholesaler Applicant enters into this Final Agency Order freely and voluntarily, whether or not Wholesaler Applicant has consulted with legal counsel. Wholesaler Applicant acknowledges its understanding that it has the following rights:

    a. To have a formal notice of hearing and charges served upon it;
    b. To respond to said formal notice of charges;
    c. To have a formal disciplinary hearing pursuant to §12-22-125, C.R.S.; and
    d. To appeal this Board order.

    Wholesaler Applicant freely **waives** these rights, and acknowledges that such waiver is made voluntarily in consideration for Board's limiting the action taken against it to the sanctions imposed herein.

15. **Acknowledgments.** The undersigned authorized agent of Wholesaler Applicant has read this Final Agency Order in its entirety and acknowledges, whether or not Wholesaler Applicant has consulted with legal counsel, that Wholesaler Applicant

understands the legal consequences and agrees that none of the terms or conditions herein are unconscionable.

16. **Violations.** Time is of the essence to this Final Agency Order. It is the responsibility of Wholesaler Applicant to take all appropriate steps to comply fully with this Final Agency Order. Wholesaler Applicant acknowledges and agrees that any violation of this Final Agency Order may be sanctioned as provided under §12-22-125.2(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of its registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Wholesaler Applicant to comply with all terms and conditions of this Final Agency Order.

17. **Integration and Severability.** Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.

18. **Public Record.** Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.

19. **Effective Date.** This Final Agency Order shall become effective upon signature of a Board member or representative.

ACCEPTED AND AGREED BY

Provide explanation below:

Medline Industries, LP distribution center at 9670 NW 112th Ave, Miami, FL 33178 (FL WDD# #2220297) entered a settlement agreement for alleged violations of selling prescription drugs to an unauthorized recipient and failure to maintain proper records. Medline accepted a physician license for a customer which should have maintained a Healthcare Clinic Establishment Permit. The recordkeeping allegation related to missing NDC numbers on outbound packing slips and invoices.

Corrective Actions:
Medline updated customer licensing requirements for Florida customers and completed an extensive review of all FL customer licenses to verify the correct license type was on file. Medline determined the missing NDC number on the packing slip and invoice occurred due to an internal system error. The error was limited to DSCSA exempt products, i.e. IV fluids. A fix was implemented to correct the issue.

Cautionary Note Regarding Forward-Looking Statements

This Annual Report on Form 10-K (this "Annual Report") contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in Section 27A of the Securities Act of 1933, as amended (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Forward-looking statements include all statements that are not historical facts. Words such as "anticipate," "assume," "believe" "contemplate," "continue," "could," "estimate," "expect," "foreseeable," "intend," "may," "plan," "potentially," "predict," "project," "seek," "should," "will," or "would," or similar words or phrases that convey uncertainty of future events or outcomes, are intended to identify forward-looking statements in this Annual Report. These forward-looking statements relate to matters such as our industry, business strategy, costs, and costs savings, impacts of accounting standards and guidance, goals and expectations, market position, future operations, margins, profitability, capital expenditures, liquidity and capital resources, legal matters, trends, and other financial and operating information. The forward-looking statements are based on management's current expectations and are subject to various risks, uncertainty, and changes in circumstances, many of which are beyond our control, that could cause actual results to differ materially. Although we believe that the assumptions underlying the forward-looking statements are reasonable, we cannot guarantee future results, level of activity, performance, or achievements. Factors that may cause actual results to differ from expected results include those described in Part I, "Item 1A—Risk Factors" and Part II, "Item 7—Management's Discussion and Analysis of Financial Condition and Results of Operations". The forward-looking statements included in this Annual Report speak only as of the date of this Annual Report or as of the date they are made, as applicable. Except as otherwise required by law, we disclaim any intent or obligation to update any "forward-looking statement" made in this Annual Report to reflect changed assumptions, the occurrence of unanticipated events, or changes to future operating results over time.

INTRODUCTORY NOTE

Medline Inc. was incorporated as a Delaware corporation on November 6, 2024. Prior to the completion of its initial public offering (the "IPO") on December 18, 2025, Medline Inc. undertook certain reorganization transactions (the "Reorganization") such that Medline Inc. is now a holding company, and its sole material assets are its equity interests held directly or indirectly through wholly owned subsidiaries in Medline Holdings, LP ("Medline Holdings"). Following the IPO, Medline Holdings is the predecessor of Medline Inc. for financial reporting purposes. As the general partner of Medline Holdings, Medline Inc. now operates and controls all of the business and affairs of Medline Holdings and, through Medline Holdings and its subsidiaries, conducts its business. The Reorganization lacks economic substance and therefore is accounted for in a manner consistent with a reorganization of entities under common control. As a result, the consolidated financial statements of Medline Inc. recognize the assets and liabilities received in the Reorganization at their historical carrying amounts, as reflected in the historical financial statements of Medline Holdings. Medline Inc. will consolidate Medline Holdings on its consolidated financial statements and record a non-controlling interest related to the Units (as defined herein) held by the Continuing Unitholders (as defined herein) on its consolidated balance sheets and statements of comprehensive income.

Medline Inc. had no significant business transactions or activities prior to the Reorganization, and, as a result, the historical financial information reflects that of Medline Holdings.

Basis of Presentation

The consolidated financial statements and accompanying notes included herein are prepared in accordance with United States generally accepted accounting principles ("GAAP"). The results of businesses acquired or disposed of are included in the consolidated financial statements from the date of the acquisition or up to the date of disposal, respectively. All adjustments, in the opinion of management, necessary to a fair statement of the results for the annual periods presented have been made.

Certain monetary amounts, percentages, and other figures included in this Annual Report have been subject to rounding adjustments. Percentage amounts included in this Annual Report have been calculated, in some cases, not on the basis of such rounded figures, but on the basis of such amounts prior to rounding. For this reason, percentage amounts in this Annual Report may vary from those obtained by performing the same calculations using the figures, on the face of our consolidated financial statements included elsewhere in this Annual Report. Certain other amounts that appear in this Annual Report may not sum due to rounding.

In December 2024, we changed the name of Medline Holdings from Mozart Holdings, LP to Medline Holdings, LP. We will not distinguish between the prior and current name of Medline Holdings and will refer to the current name of Medline Holdings throughout this Annual Report. References in this Annual Report to "Medline," the "Company," "we," "us," and "our" refer (1) prior to the consummation of the IPO, to Medline Holdings, LP and its consolidated subsidiaries and (2) after the IPO to Medline Inc. and its consolidated subsidiaries.

CERTAIN DEFINITIONS

As used in this Annual Report, unless otherwise noted or the context requires otherwise, the following terms have the following meanings:

- "Class A Units" refers to the interests in Medline Holdings called "Class A Units" that were outstanding prior to the Reclassification. In connection with the Reclassification, (i) Class A Units held by Common Unitholders were converted into Common Units and (ii) Class A Units held by Exchanging Class A Unitholders were directly or indirectly exchanged for shares of Class A common stock.
- "Class B Units" refers to the interests in Medline Holdings called "Class B Units" that were outstanding prior to the Reclassification, and does not include CUPI Units. In connection with the Reclassification, (i) Class B Units held by Incentive Unitholders were converted into Incentive Units and (ii) Class B Units held by Exchanging Class B Unitholders were directly or indirectly exchanged for shares of Class A common stock (in the case of vested Class B Units) and/or restricted shares of Class A common stock (in the case of unvested Class B Units).

- "Common Units" refers to the new class of units of Medline Holdings created by the Reclassification and does not include Incentive Units.
- "Common Unitholders" refers to certain pre-IPO holders of Class A Units and/or CUPI Units who hold Common Units following the Reclassification.

- "Continuing Unitholders" refers collectively to Common Unitholders and Incentive Unitholders.
- "CUPI Units" refers to the interests in Medline Holdings that were designated as "Catch-Up Class B Units" and outstanding prior to the Reclassification. - "Reclassification" refers to the reclassification of the partnership interests of Medline Holdings prior to the IPO.
- "Sponsors" refers collectively to Blackstone Inc., The Carlyle Group Inc., and Hellman & Friedman LLC.
- "Units" refers collectively to Common Units and Incentive Units.

- If we experience increased pressure to maintain or decrease the price of our goods and services and we are unable to reduce our expenses, there may be a material adverse effect on our business, results of operations, and financial condition.
- Any failure by or loss of a third-party manufacturer or supplier or other manufacturing or supply-related impacts could result in delays and increased costs, which may adversely affect our business.
- We rely on the proper function, security, and availability of our information technology systems and data, as well as those of third parties throughout our global supply chain, to operate our business.
- We are subject to extensive and complex laws and governmental regulations and any adverse regulatory action may materially adversely affect our business, results of operations, and financial condition both inside and outside the United States.
- We are subject to complex and rapidly evolving data privacy, security, and data protection laws and regulations and the costs to comply with such laws and regulations or any ineffective compliance efforts with such laws and regulations may adversely impact our business.
- Our use or our third-party service providers' or business partners' use of AI, automated decision-making and machine learning technologies and the evolving regulatory framework in this area may subject us to risks or heightened costs that could adversely affect business, results of operation and financial condition.
- Our failure to comply with laws and regulations relating to reimbursement of healthcare goods and services may subject us to penalties and adversely impact our reputation, business, results of operations, financial condition, and cash flows.
- Uncertain global and domestic macro-economic and political conditions could materially adversely affect our business, results of operations, and financial condition.
- Our substantial indebtedness could adversely affect our financial condition, our ability to operate our business or react to changes in the economy or our industry, prevent us from fulfilling our obligations under our debts, and divert our cash flow from operations for debt payments.
- The credit agreement that governs the Senior Secured Credit Facilities and the indentures that govern the Senior Notes will each impose significant operating and financial restrictions on our subsidiaries, which may prevent us from capitalizing on business opportunities.
- Medline Inc. is a holding company and its only material assets are its equity interests held directly or indirectly through wholly owned subsidiaries in Medline Holdings, and it is accordingly dependent upon distributions from Medline Holdings to pay taxes, make payments under the tax receivable agreement, and pay any dividends.
- The Designating Stockholders hold a significant percentage of our stock, and their interests may conflict with ours or yours in the future.
- Our amended and restated certificate of incorporation does not limit the ability of our Sponsors, the Mills family, and certain other pre-IPO investors to compete with us, and they may have investments in businesses whose interests conflict with ours.

The market price of shares of our Class A common stock may be volatile or may decline regardless of our operating performance, which could cause the value of your investment to decline.

Market and Industry Data

Unless otherwise indicated, information contained in this Annual Report concerning our industry, competitive position, and the markets in which we operate is based on information from independent industry and research organizations, other third-party sources and management estimates. Although we believe that these third-party sources are reliable, we do not guarantee the accuracy or completeness of this information, and we have not independently verified this information. Management estimates are derived from information obtained from surveys, reports by market research firms, our customers, distributors, suppliers, trade and business organizations, and other contacts in the markets in which we operate and have not been verified by independent sources, and are based on assumptions made by us upon reviewing such data, and our experience in, and knowledge of, such industry and markets, which we believe to be reasonable. In addition, assumptions and estimates of our and our industry's future performance are subject to a high degree of uncertainty and risk due to a variety of factors, including those described in Part I, "Item 1A—Risk Factors" and "Cautionary Note Regarding Forward-Looking Statements." These and other factors could cause results to differ materially from those expressed in the estimates made by the independent parties and by us.

Statements regarding our market position (including statements that we are the largest company in a particular market), unless otherwise noted, are based on our 2025 net sales in the relevant market relative to the publicly reported net sales of our competitors in such market, including with respect to our statement of being the largest provider of med-surg products and supply chain solutions serving all points of care, as that statement is based on our 2025 net sales relative to the publicly reported net sales of med-surg products by companies that are both med-surg manufacturers and distributors.

Trademarks

We own or have the right to use trademarks, trade names, and service marks used in connection with our business, including, but not limited to, Medline, Curad, Microtek, Hudson, and Proxima. All trademarks, trade names, and service marks referred to in this Annual Report are the property of their respective owners. We do not intend our use or display of other companies' trade names, trademarks, or service marks to imply a relationship with, or endorsement or sponsorship of us by, these other companies. Solely for convenience, our trademarks, trade names, and service marks referred to in this Annual Report may appear without the ®, ™ or SM symbols, but such references are not intended to indicate, in any way, that we will not assert, to the fullest extent under applicable law, our rights or the right of the applicable licensor to these trademarks, trade names, and service marks.

PART I

Item 1. Business

General

Medline Inc. (together with its subsidiaries, "Medline", "the Company", "we", "ours" and "us") is the largest provider of medical-surgical ("med-surg") products and supply chain solutions serving all points of care, based on total net sales of med-surg products. Medline was founded in 1966 and today delivers mission-critical products used daily across the full range of care settings, from hospitals and surgery centers to physician offices and post-acute facilities. Our mission is to make healthcare run better by delivering improved clinical, financial, and operational outcomes.

We have two reportable segments, Medline Brand and Supply Chain Solutions, the combination of which addresses critical needs in the market through a comprehensive solution. They are both supported by our Prime Vendor model, differentiated distribution network, and robust commercial platform. Through our two segments, we offer approximately 335,000 med-surg products, including surgical and procedural kits, gloves and protective apparel, urological and incontinence care, wound care, and consumable lab and diagnostics products. We distribute these products through our expansive network of global distribution facilities and our owned fleet of MedTrans trucks.

Medline Brand

As of December 31, 2025, we offer our customers approximately 190,000 med-surg products through our Medline Brand segment and hold leading positions across many key product families for our Medline Brand products. Our Medline Brand products are organized into three product categories: Front Line Care, Surgical Solutions, and Laboratory and Diagnostics.

- *Front Line Care* offers mission-critical med-surg products for patient-facing needs, including wound care products, exam gloves, skin care and incontinence products, environment cleaning supplies, textiles, hand sanitizer, durable medical equipment, patient plastics, and decolonization and infection control products.
- *Surgical Solutions* offers operating room and perioperative environment product solutions, including surgical procedure trays, drapes and gowns, personal protective equipment, sterile wraps, surgical instruments, surgeon's gloves, procedure kits, and orthopedic implants.
- *Laboratory and Diagnostics* offers a full range of laboratory and diagnostic product solutions, including point of care testing, analyzers and instrumentation, lab and diagnostic consumables, diagnostic instruments, vital signs monitors, and anatomic pathology and phlebotomy products.

Our product development approach incorporates customer feedback and ongoing innovation. We are also committed to delivering products of the highest standard, which is reflected by our robust quality team embedded across our manufacturing and sourcing locations. The expertise of our research and development team and quality team helps ensure products bearing the Medline brand meet both our rigorous quality standards and our customers' expectations.

Supply Chain Solutions

As of December 31, 2025, we offer approximately 145,000 med-surg products from over 1,300 third-party suppliers, including nearly all leading national brands, through our Supply Chain Solutions segment. We also provide our customers with supply chain optimization services such as consulting engagements, outsourced warehouse and technology management, put-away-ready packaging, third-party logistics, inventory rationalization, and route planning. Our third-party suppliers are primarily responsible for costs related to import and inbound freight, whereas we are primarily responsible for costs related to outbound freight from our distribution centers. Our supply chain expertise allows us to provide additional service offerings to optimize our customers' supply chain and inventory workflows, helping these customers cost-effectively manage their supply chain while building strong relationships and enhancing retention.

Our Prime Vendor Model

A Prime Vendor relationship is a relationship for which there is a multi-year distribution agreement between Medline and a customer, whereby the customer agrees to use Medline for the vast majority of its med-surg product needs.

In our Prime Vendor relationships, we enter into long-term agreements, typically structured with five-year terms, to act as the primary consolidated logistics partner for these customers' med-surg product needs. These agreements have been and are expected to continue to be a key contributor to our growth. Our customers realize efficiencies by partnering with one supply chain partner to consolidate their med-surg purchase volume. Prior to the market adoption of the Prime Vendor model, customers sourced such products individually from a highly fragmented base of suppliers. The Prime Vendor model instead centralizes procurement and distribution, which in turn drives efficiency and higher service levels.

As Prime Vendor, we drive significant cost savings to our customers. Our scale allows us to deliver consistently lower prices and better service levels on Medline Brand products relative to third-party alternatives, while also lowering the distribution cost for delivery of the full range of med-surg products. This often motivates customers to purchase more Medline Brand products over time. The opportunity is even greater in certain non-acute settings, where we sell a more focused product portfolio. Our Prime Vendor model allows us to provide cost savings to Prime Vendor customers, which, over time, supports incremental purchasing of our Medline Brand products and greater scale across our operations. As our scale grows, we are able to realize further efficiencies by offering superior or similar quality to third-party products at a more cost-effective price. We believe that Medline Brand conversion is mutually beneficial for both our customers and us-the value we provide customers at the outset of a Prime Vendor agreement meaningfully increases over time, as they accrue savings by purchasing our lower cost Medline Brand products, while our profitability grows given the enhanced margin profile of Medline Brand products. This compelling value proposition and supply chain relationship with our customers supports our greater than 98% average Prime Vendor retention rate over the past five years.

A portion of Supply Chain Solutions products sold to existing Prime Vendor customers has like-for-like Medline Brand product equivalents, representing a potential gross profit uplift consistent with our historical margin differentials if such products were converted for Medline Brand products. While we historically have earned higher margins upon conversion from third-party national brand products to like-for-like Medline Brand products, because of the lower average prices for Medline Brand products, there is typically a negative impact on net sales upon the conversion of Supply Chain Solutions products to like-for-like Medline Brand products if volume is assumed to be constant. For additional information on potential risks relating to this conversion opportunity, please see Part I, "Item 1A—Risk Factors—Risks Related to Our Business, Industry and Operations—Our failure to establish and maintain Prime Vendor relationships may cause our revenue to decline."

Our Distribution Network

We have a differentiated distribution network of 70 global distribution centers, warehouses, cross-docks, and transship facilities, 45 of which are in the United States, strategically located to provide next-day delivery to 95% of our U.S. customer base. We utilize artificial intelligence ("AI") and robotics technology in over 26 million square feet of warehouse space in the United States to improve efficiency and capacity to optimize distribution logistics and maximize utilization. The products we distribute are packaged to meet each customer's individual needs and to be "put-away-ready," which streamlines the customer's unloading and shelving process. We also operate our own fleet of more than 2,100 MedTrans trucks that deliver our products across care settings within the United States. As of December 31, 2025, we had approximately 25% in incremental capacity across our platform to support our long-term growth.

Our Commercial Platform

Our deep connectivity to our customers is driven by the strength of our dedicated and tenured commercial team. We have a U.S. commercial team of approximately 4,000 people across all points of care, which includes account managers, product specialists, specialized clinical resources, customer service representatives, supply chain specialists, Prime Vendor analysts, and a robust leadership team dedicated to driving efficiencies for our customers through their teams. We have created an entrepreneurial environment that empowers our salesforce to work with our product managers to create innovative products that meet market demand. We have a team devoted to each channel in the United States and each region or country internationally, which allows our salesforce teams to develop market-specific knowledge.

Research and Development

We have a track record of successfully bringing new products to market, with more than 2,300 granted patents and more than 450 U.S. Food and Drug Administration ("FDA") 510(k) clearances. Over the last three years, we have successfully launched more than 250 new products.

Competition

Our value proposition is derived from our integrated business model, the breadth of our Medline Brand portfolio, our differentiated supply chain, and the overall quality and cost of our products. As a result of our integrated business model, our competitors include both other leading med-surg product manufacturers and distributors.

Similar to us, other leading med-surg product manufacturers produce a wide range of med-surg supplies. However, unlike us, many of these competitors are reliant upon third-party distributors to deliver their products to customers. By nature of being a distributor, Medline has direct access to and manages the end customer relationships. This enables us to offer a complete solution as a manufacturer and a distributor, offering our customers what we believe to be best-in-class supply chain logistics, and driving value through our brand.

Additionally, other distributors of med-surg products similarly connect the fragmented supplier and provider bases and aggregate inventory from suppliers to deliver products to customers, such as McKesson, Cardinal Health, Owens & Minor, and Henry Schein. These distribution companies compete with us for Prime Vendor agreements. However, we believe that many of these competitors do not benefit from the scale and scope of our vertical integration or commercial excellence, and thus are not able to provide the same magnitude of cost savings, value, and holistic solutions that we deliver for our customers.

Production and Raw Materials

We manufacture approximately one-third of our Medline Brand products, which are primarily Class I and II medical devices, through our 30 manufacturing facilities, of which 24 are in North America. We purchase many of the components and raw materials used in manufacturing our products from numerous suppliers. We focus our manufacturing capabilities on products where we can leverage technology and automation to drive higher quality and lower costs to better serve our customers. For the vast majority of the other two-thirds of our Medline Brand products, we work closely with our network of more than 600 global partners across approximately 40 countries, many of whom have decades-long exclusive relationships with us. The breadth of our global sourcing partnerships provides diversification and strengthens our resiliency, with no single sourcing partner accounting for more than 5% of total spend as of December 31, 2025.

We also have plans and measures in place to help ensure continuity of supply while maintaining high quality and reliability. Generally, we have been able to obtain adequate supplies of such raw materials and components. However, due to the FDA's manufacturing requirements and those of other regulatory authorities, we may not be able to quickly establish additional or replacement sources for certain components, materials or processes if we experience a sudden or unexpected reduction or interruption in supply or services and are unable to develop alternative sources.

Human Capital Resources

At Medline, our relentless focus on the customer drives our human capital strategy, which revolves around attracting, developing, and retaining employees to provide the best products and services for our customers. We have developed a strong foundation that drives our recruitment, retention and development efforts. We are committed to supporting the personal and professional development of our employees, as well as providing competitive benefits and a safe, inclusive workplace.

As of December 31, 2025, we employed over 45,000 employees worldwide, with over 26,000 located in the United States. Our largest non-U.S. employee populations are in Mexico, Dominican Republic, India, Canada, Slovakia, France, China, Japan, Germany, and Australia. None of our employees in the United States are unionized, though some of our employees in Mexico belong to unions. In Germany and the Netherlands, employees are represented through Works Councils; in France and Spain, employees are represented through both Works Councils and industry-wide collective bargaining agreements; and in Belgium and Italy, employees are also represented through industry-wide collective bargaining agreements. In Australia, certain employees are represented by an enterprise bargaining agreement; in Japan, employees are represented through a Work Council; and in Vietnam, employees are represented through a collective bargaining agreement. We believe that our positive employee relations and total employee experience drive the continual growth of our workforce.

Culture and Values

Our culture is grounded in a customer-focused, collaborative, and performance-driven approach, guided by core values emphasizing relentless customer focus, agility and flexibility, problem-solving, drive to succeed, purposeful candor, and the importance of relationships. Employees are encouraged to exercise judgment, work transparently with customers, and contribute meaningfully to our mission to make healthcare run better.

Talent Attraction and Development

We seek to attract employees whose skills, experience, and motivation align with our operational and technical needs. Through continual improvement of internal processes, an awareness of market and candidate driven trends, and in partnership with vendors and other outside organizations, our talent acquisition programs focus on efficient hiring processes, market awareness, and building a diverse pipeline of candidates. We support development through consistent performance management processes and early career opportunities to take on additional responsibilities to demonstrate their competencies and drive to succeed and on-the-job responsibility augmented by formal training and development to refine technical and leadership skills. New sales representatives participate in comprehensive training programs, and product managers have targeted development pathways through all stages of their careers, from mandatory onboarding offerings to advanced classes that provide the necessary skills with increasing levels of responsibility, to support progression over time.

Employee Engagement and Inclusion

We believe our employees' ability to communicate and cooperate effectively across functional and departmental teams positively impacts our performance. We engage in various listening strategies and foster engagement through survey feedback mechanisms, anonymous employee feedback platform, focus groups, increased attention to onboarding and offboarding feedback, pulse surveys on remote work needs, and other listening strategies. Insights from these efforts inform workplace improvements. We also support an inclusive environment through Employee Resource Groups and leadership training initiatives designed to reduce bias in talent decisions and strengthen representation across the company.

Health, Safety, and Well-Being

We are committed to maintaining a safe workplace and supporting the physical, emotional, and financial well-being of our employees. We provide competitive health and benefits programs, access to assistance resources where available, and opportunities for community involvement through charitable giving, including financial giving and in-kind giving such as product donations.

Intellectual Property

We rely upon patents, trademarks, copyrights, trade secrets and other intellectual property rights to maintain and improve our competitive position. We have a large portfolio of intellectual property, including more than 2,300 granted patents as well as trademark registrations protecting our notable brands, including Medline, Curad, Microtek, Hudson, and Proxima.

We consider the trademarks and know-how that we own to be material to our business. However, other than the Medline mark, we do not consider our business to be materially dependent upon any individual trademark registration or trade secret. In the aggregate, we consider our more than 2,300 granted patents to be material to our business. However, no single patent or group of related patents is material to our business as a whole or any segment of our business.

We believe that we have taken all necessary steps to protect our intellectual property rights, but no assurance can be given that we will be able to successfully enforce or protect our rights in the event that they are infringed upon or challenged by a third party. See Part I, "Item 1A —Risk Factors—Risks Related to Regulation and Legal Proceedings—Any failure to obtain, maintain, protect and enforce our intellectual property rights, or the failure of the strength or scope of our intellectual property rights, could harm our business, financial condition, and results of operations" and "—Risks Related to Regulation and Legal Proceedings—We may become subject to litigation brought by third parties claiming infringement, misappropriation, or other violation by us of their intellectual property rights."

Government Regulation

Our operations and products are subject to extensive regulation by numerous governmental regulatory authorities, including U.S. and other international regulatory authorities, and other government agencies inside and outside the United States. To varying degrees, each of these agencies requires us to comply with laws and regulations governing the development, design, materials, testing, safety, efficacy, quality, purity, manufacturing, methods, controls, testing, screening, recordkeeping, reporting, processing, storage, registration, authorization, licensing, permitting, labeling, advertising, marketing, distribution, offer for sale, sale, use, expiration, pricing, reimbursement, import, export, clinical trials, post-marketing surveillance of our products, the registration of our facilities, and the claims that we make about our products. The United States and other countries where we sell healthcare and other regulated products, including drugs, human cell and tissue products, dietary supplements, cosmetics, certain foods, and consumer products subject such products to their own clearance, authorization, approval, registration, listing, labeling, manufacturing, recordkeeping, reporting, and other regulatory requirements regarding the performance, safety, and quality of such products. We are also subject to healthcare and other regulations and enforcement by the federal government and the states and foreign governments and authorities in the locations in which we conduct our business. The U.S. governmental and regulatory authorities that enforce such laws and rules, and that issue guidance on compliance with such laws and rules include, without limitation, the FDA, the Centers for Medicare & Medicaid Services ("CMS"), other divisions of the U.S. Department of Health and Human Services ("HHS"), the HHS Office of Inspector General, U.S. Environmental Protection Agency ("EPA"), the Federal Trade Commission ("the FTC"), Consumer Product Safety Commission ("CPSC"), the U.S. Department of Justice ("DOJ") and individual U.S. Attorney offices within the DOJ, as well as state and local governments. Our business is also affected by patient and data privacy and security laws, government payer cost containment initiatives, government reimbursement laws and regulations, environmental, health, and safety laws and regulations, as well as laws and regulations with respect to the sale, transportation, storage, handling, and disposal of hazardous or potentially hazardous substances, and safe working conditions. Our business also maintains contracts with governmental agencies and such contracts are subject to various government procurement laws and regulations, required contract provisions, and other requirements relating to contract formation, administration and performance. Failure to comply with applicable laws and regulations or with contractual or other requirements may result in monetary damages and criminal or civil penalties as well as termination of our government contracts or our suspension or debarment from government contract work.

The regulations to which we are subject are complex and have tended to become more stringent over time. If our business expands in certain ways, including through the offering of new products and services or entering into new geographic areas, we may be subject to new and additional regulatory requirements. The foreign, federal, state, and local regulatory authorities have broad inspection and enforcement powers, including the ability to suspend or limit the distribution of products, suspend, revoke, or terminate our product and facility licenses, permits, and authorizations, request the cessation of distribution and shipments of certain products due to regulatory, safety, or other issues, seize or order the recall of our products, issue safety, quality, or other communications to the public or healthcare providers, enforce laws related to marketing, including promotion of off-label uses of products, and impose injunctions and significant criminal, civil, and administrative sanctions for violations of laws and regulations. Any adverse regulatory or other action, including any adverse press releases or other communications from regulators, may impact our business practices and operations, including by limiting our ability to effectively market, ship, and sell our products, affecting the production and distribution of products by our manufacturing facilities, subjecting us to significant liability, and limiting our ability to obtain future authorizations. Although we are subject to international government regulations in the international end markets where we operate and/or provide our products, these regulations do not have a material impact on our products as no international market represents more than 3% of our net sales.

Government Regulation of Medical Devices

Our medical devices are subject to regulation by numerous government agencies, including the FDA and comparable state and foreign agencies. Regulations of the FDA and other regulatory agencies in and outside the United States impose extensive compliance and monitoring obligations on portions of our business. The FDA and other U.S. and foreign governmental agencies regulate, among other things, with respect to medical devices: design, development, and manufacturing; testing, registration, listing, labeling, content, and language of instructions for use and storage; clinical trials; product safety; marketing, sales, and distribution; licensing and permit requirements; premarket clearance, approval and authorization; record keeping procedures; advertising and promotion; recalls and field safety corrective actions; post-market surveillance, including reporting of deaths or serious injuries and malfunctions that, if they were to recur, could lead to death or serious injury; post-market approval studies; and product import and export. The regulations to which we are subject are complex and have tended to become more stringent over time. If our business expands in certain ways, we may be subject to new and additional regulatory requirements. The FDA and state regulatory authorities have broad inspection and enforcement powers, including the ability to suspend or limit the distribution of products by our distribution centers; seize or order the recall of products; terminate, suspend, or revoke licenses and permits; and impose significant criminal, civil, and administrative sanctions for violations of these laws and regulations. Foreign regulations subject us to similar foreign enforcement powers. In addition, the FDA and other governmental and regulatory authorities, both in and outside the United States (including the FTC, the HHS Office of the Inspector General, the DOJ, and various state Attorneys General), monitor the promotion and advertising of our products. Any adverse regulatory or other action, including any adverse press releases or other communications from regulators, depending on its magnitude, may limit our ability to effectively market, ship, and sell our products, limit our ability to obtain future premarket authorizations, or result in a substantial modification to our business practices and operations.

FDA Premarket Clearance and Approval Requirements

Each medical device we wish to distribute commercially in the United States requires marketing authorization from the FDA prior to distribution, unless the device is exempt from premarket notification requirements. The type of marketing authorization necessary is generally linked to the classification of the device. The FDA classifies medical devices into one of three classes-Class I, II, or III-based on the degree of risk associated with a device and the level of regulatory control deemed necessary to ensure its safety and effectiveness. Class I devices that pose the least risk are subject only to General Controls applicable to all devices, such as requirements for device labeling, premarket notification, and adherence to current good manufacturing practices for devices as set forth in the Quality System Regulation ("QSR"). Class II devices that pose a moderate risk are subject to General Controls and may also be subject to Special Controls, such as performance standards, product-specific guidance documents, special labeling requirements, patient registries, or post-market surveillance. Class III devices are those for which insufficient information exists to assure safety and effectiveness solely through General and Special Controls, including devices that support or sustain human life, are of substantial importance in preventing impairment of human health, or which present a potential unreasonable risk of illness or injury.

Most Class I devices and some Class II devices are exempted by regulation from the 510(k) clearance requirement and can be marketed without prior authorization from the FDA. Class I and II devices that are not exempted are eligible for marketing through the 510(k) clearance pathway. By contrast, devices placed in Class III generally require premarket approval ("PMA") or de novo clearance prior to commercial marketing. The PMA approval process is more stringent, time-consuming and expensive than the 510(k) clearance process; however, the 510(k) clearance process has also become increasingly stringent and expensive. None of our products are currently approved under a PMA, and we have no plans for any indication or system improvement or extension that we believe would require a PMA. If, in the future, we were to file a PMA, we may be subject to additional regulatory requirements.

510(k) Clearance Process

To obtain 510(k) clearance, we must submit a premarket notification to the FDA demonstrating the proposed device to be substantially equivalent to a predicate device. A device is substantially equivalent if, with respect to the predicate device, it has the same intended use and it has either the same technological characteristics, or it has different technological characteristics, but the information provided in the 510(k) submission demonstrates that the device does not raise new questions of safety or effectiveness. The standard review process for 510(k)s is between six to nine months, dependent upon the type of 510(k) filing submitted. Although many 510(k) premarket notifications are cleared without clinical data, in some cases, the FDA may require clinical data to support substantial equivalence. In reviewing a premarket notification, the FDA may request additional information, including clinical data, which may significantly prolong the review process and clearance is never assured. Clinical trials generally require the submission of an investigational device exemption ("IDE") to the FDA for a specified number of patients and study sites, unless the product is deemed a non-significant risk device eligible for more abbreviated IDE requirements. Clinical trials are subject to numerous requirements and institutional review board approval, oversight, and monitoring. Even if a trial is conducted, the results of clinical testing may not adequately demonstrate the safety and effectiveness of the device or be sufficient to obtain FDA clearance or approval for marketing.

After a device receives 510(k) clearance, any subsequent modification of the device that could significantly affect its safety or effectiveness, or that would constitute a major change in its intended use, requires a new 510(k) clearance or could require submission and approval of a de novo 510(k) or a PMA application in cases where new indications are sought for which there is no predicate. Non-significant changes are handled via internal documentation by the Company. Each manufacturer must judge the significance of modifications based on FDA 510(k) regulatory requirements and guidance documents. The FDA may review any such decision and may disagree with a manufacturer's determination. If the FDA disagrees with a manufacturer's determination, the FDA may require the manufacturer to cease marketing and distribution and/or recall the modified device until 510(k) clearance or PMA approval is obtained. In the future, we may make modifications to our products after they have received FDA clearance and, in appropriate circumstances, determine that new clearance is unnecessary. However, the FDA may disagree with our determination, and, if the FDA requires us to seek 510(k) clearance or submit new PMA applications for any modifications to a previously cleared product, we may be required to cease marketing or distributing or recall the modified device until we obtain the required clearance or approval. We may also market or acquire products that are marketed without a 510(k) clearance, appropriate labeling, or that otherwise are marketed in violation of FDA requirements, since medical devices can be marketed only for the indications for which they are cleared or approved. Under these circumstances, we may also be subject to warning letters, significant regulatory fines, or other penalties, and we may no longer be able to market particular products for which a 510(k) clearance is required.

Post-Marketing Requirements

Numerous FDA regulatory requirements apply to devices we manufacture and distribute, including: compliance with the QSR, which require manufacturers and their suppliers to follow the applicable design, testing, processes, control, documentation, labeling, and other quality assurance procedures during the manufacturing process; establishment registration, which requires establishments involved in the production and distribution of medical devices intended for commercial distribution in the United States to register with the FDA; medical device listing, which requires manufacturers to list the devices they have in commercial distribution with the FDA; labeling regulations, which prohibit "misbranded" devices from entering the market, as well as prohibit the promotion of products for unapproved or off-label uses and impose other restrictions on labeling; post-market surveillance, including medical device reporting requirements which requires manufacturers to report to the FDA if their device may have caused or contributed to a death or serious injury, or malfunctioned in a way that would likely cause or contribute to a death or serious injury if it were to recur; and corrections and removal reporting regulations, which require that manufacturers report to the FDA field corrections and product recalls or removals if undertaken to reduce a risk to health posed by the device or to remedy a violation of the Federal Food, Drug, and Cosmetic Act that may present a risk to health. The FDA and other governmental and regulatory authorities actively enforce the laws and regulations prohibiting the promotion of off-label uses, and a company that is found to have improperly promoted off-label uses may be subject to significant liability.

The FDA enforces these requirements by inspection and market surveillance. Domestic facility records and manufacturing processes are subject to periodic unscheduled inspections by the FDA. The FDA may also inspect foreign facilities that export products to the United States. Failure to comply with applicable regulatory requirements may result in enforcement action or other actions by the FDA, which may include one or more of the following sanctions: adverse press releases and safety communications; requests to stop shipments; untitled letters or warning letters; fines, injunctions, and civil penalties; mandatory recall or seizure of our products; customer notifications and repairs or replacements; administrative detention or banning of our products; consent decrees; operating restrictions, partial suspension or total shutdown of production; refusing our request for 510(k) clearances for new product versions or modifications to existing product versions; revocation of 510(k) clearances previously granted; refusal to grant export approval for our products; and criminal prosecution and penalties. If any of these events were to occur, they could have a material adverse effect on our business, financial condition, and results of operations.

International Regulation of Medical Devices

Sales of medical devices outside the United States are subject to foreign government regulations, which vary substantially from country to country. In order to market our products in other countries, we must comply with applicable regulatory requirements and authorizations and approvals and safety and quality regulations in each country in which the product is marketed. The time required to obtain authorization, approval, or certification by a foreign country may be longer or shorter than that required for FDA clearance, and the requirements may differ significantly.

EU Regulation of Medical Devices

In the European Union ("EU") until May 25, 2021, medical devices were regulated by the Council Directive 93/42/EEC, which has been repealed and replaced by the Medical Device Regulation ("EU MDR"). Unlike directives, regulations are directly applicable in all EU member states without the need for member states to implement into national law. The EU extended the EU MDR transitional periods for certain medical devices until December 31, 2027 or December 31, 2028, depending on a device's risk class and subject to certain conditions to ensure continued access to medical devices for patients and to allow medical devices already placed on the market in accordance with the current legal framework to remain on the market, provided that the requirements of the transitional provisions are fulfilled.

In the EU, there is currently no premarket government review of medical devices. However, all medical devices placed on the EU market must meet general safety and performance requirements, and compliance with the general safety and performance requirements is a prerequisite for European conformity marking without which medical devices cannot be marketed or sold in the EU. EU MDR requirements regarding the distribution, marketing, and sale, including quality systems and post-market surveillance, have to be observed by manufacturers, importers, and distributors as of the application date (i.e., since May 26, 2021), including registration of economic operators and of devices (once the relevant modules of Eudamed are functional), surveillance, and vigilance requirements. The aforementioned EU rules are generally applicable in the European Economic Area which consists of the 27 EU member states plus Norway, Liechtenstein, and Iceland.

The NDA Approval Process

For any new drug products regulated under the Federal Food, Drug, and Cosmetic Act such as our ReadyPrep CHG cloth, a sponsor must submit a New Drug Application ("NDA"), to the FDA for review and approval. The NDA review and approval process may take multiple years and involves steps including the following:

- completion of preclinical studies and analytical and stability testing in accordance with applicable regulations;
- submission to the FDA of an Investigational New Drug ("IND") application, which must become effective before clinical trials may begin and must be updated annually and amended when certain changes are made;
- approval by an institutional review board, or IRB, or independent ethics committee, or IEC, at each clinical trial site before each trial may be initiated;
- performance of adequate and well-controlled clinical trials in accordance with applicable IND regulations, good clinical practice, or GCP, requirements, including informed consent, financial disclosure by investigators, and other clinical trial-related regulations, to establish the safety and efficacy of the investigational product for each proposed indication and other condition of use;
- preparation and submission to the FDA of an NDA;

- satisfactory completion of one or more FDA pre-approval inspections of the manufacturing facility or facilities where the drug will be produced to assess compliance;
- satisfactory completion of FDA inspection of select clinical trial sites involved in conducting pivotal studies that generated the data in support of the NDA;
- payment of user fees for FDA review of the NDA; and
- FDA review and approval of the NDA, including of the proposed prescribing information and, where applicable, consideration of the views of any FDA advisory committee, prior to any commercial marketing or sale of the drug in the United States.

Any approvals that we may ultimately receive could be withdrawn if required post-marketing trials or analyses do not meet the FDA requirements, which could materially harm the commercial prospects for our products.

Even if a product candidate receives regulatory approval, the approval may be limited to specific disease states, patient populations and dosages, or might contain significant limitations on use in the form of warnings, precautions or contraindications, or in the form of onerous risk management plans, restrictions on distribution, or post-marketing study requirements. Further, even after regulatory approval is obtained, later discovery of previously unknown problems with a product may result in restrictions on the product or even complete withdrawal of the product from the market. Delay in obtaining, or failure to obtain, regulatory approval for our candidate products, or obtaining approval but for significantly limited use, would harm our business. In addition, we cannot predict what adverse governmental regulations may arise from future U.S. or foreign governmental action.

Trade Regulations

The movement of products, services, and investment across borders subjects us to extensive trade regulations. A variety of laws and regulations in the countries in which we transact business apply to the sale, shipment, and provision of goods, services, and technology across borders. These laws and regulations govern, among other things, our import, export, and other business activities. We are also subject to the risk that these laws and regulations could change in a way that would expose us to additional costs, penalties, or liabilities. Some governments also impose economic sanctions against certain countries, governments, persons, and entities, both for unlawful or malign conduct and to discourage or prevent entities from abiding by other countries' laws. In addition to our need to comply with such regulations in connection with our direct activities, we also sell and provide goods, technology, and services to agents, representatives, and distributors who may export such items to customers and end-users. If we, or the third parties through which we do business, are not in compliance with applicable import, export control, or economic sanctions laws and regulations, we may be subject to civil or criminal enforcement action and varying degrees of liability. Such actions may disrupt or delay sales of our products or services or result in restrictions on our distribution and sales of products or services that may materially impact our business.

Anti-Boycott Laws

Under U.S. laws and regulations, U.S. companies and their subsidiaries and affiliates are prohibited from participating or agreeing to participate in unsanctioned foreign boycotts in connection with certain business activities, including the sale, purchase, transfer, shipping, or financing of goods or services within the United States or between the United States and countries outside of the United States. If we, or certain third parties through which we sell or provide goods or services, violate U.S. anti-boycott laws and regulations, we may be subject to civil or criminal enforcement action and varying degrees of liability.

Medline challenged several violations, resulting in most being substantially reduced or removed. All issues were addressed and resolved to the satisfaction of the FL DOH. A settlement agreement was reached to resolve all matters and approved on 09/06/2008. **Corrective Actions** Medline instituted a Florida specific pedigree system to address the pedigree issues. Medline instituted a new procedure for obtaining and maintaining customer licenses for all prescription drug purchases- this procedure generates an automatic block for any prescription drug order by an unlicensed customer. The prescription drug item unintentionally stored in the raw materials facility was properly disposed of and waste disposal procedures updated to prevent this from occurring in the future.

1. Respondent's drug distributor license shall be placed on PROBATION for five (5) years pursuant to the provisions of Chapters 338 and 620, RSMo. During the period of

probation, Respondent will be entitled to operate as a drug distributor pursuant to Chapter 338, RSMo provided Respondent adheres to the following terms of probation:

A. Respondent shall report to the Board, on a preprinted form supplied by the Board office, once every six (6) months, beginning six (6) months after this Order/Agreement becomes effective, stating truthfully whether or not it has complied with all terms and conditions of this disciplinary order.

B. Respondent shall pay all required fees for licensing to the Board and shall renew its license prior to October 31 for each licensing year.

C. Respondent shall comply with all provisions of Chapter 338, Chapter 195, and all applicable federal and state drug laws, rules and regulations and with all federal and state criminal laws. "State" here includes the State of Missouri and all other states and territories of the United States.

D. If, after disciplinary sanctions have been imposed, Respondent ceases to keep its Missouri license current, the period of unlicensed status shall not be deemed or taken as any part of the time of discipline so imposed.

2. Upon the expiration of said discipline, Respondent's license as a drug distributor in Missouri shall be fully restored if all other requirements of law have been satisfied; provided, however, that in the event the Board determines that the Respondent has violated any term or condition of this Settlement Agreement, the Board may, in its discretion, after an evidentiary

hearing, vacate and set aside the discipline imposed herein and may suspend, revoke, or otherwise lawfully discipline the Respondent.

3. No order shall be entered by the Board pursuant to the preceding paragraph of this Settlement Agreement without notice and an opportunity for hearing before the Board in accordance with the provisions of Chapter 536, RSMo.

If any alleged violation of this Settlement Agreement occurred during the disciplinary period, the Board may choose to conduct a hearing before it either during the disciplinary period, or as soon thereafter as a hearing can be held to determine whether a violation occurred and, if so, it may impose further discipline. The Board retains jurisdiction to hold a hearing to determine if a violation of this Settlement Agreement has occurred.

5. The terms of this Settlement Agreement are contractual, legally enforceable, binding, and not merely recitals. Except as otherwise contained herein, neither this Settlement Agreement nor any of its provisions may be changed, waived, discharged, or terminated, except by an instrument in writing signed by the party against whom the enforcement of the change, waiver, discharge, or termination is sought.

6. Respondent hereby waives and releases the Board, its members and any of its employees, agents, or attorneys, including any former board members, employees, agents, and

The parties acknowledge that this paragraph is severable from the remaining portions of this Settlement Agreement in that it survives in perpetuity even in the event that any court of law deems this Settlement Agreement or any portion thereof void or unenforceable.

CERTIFIED MAIL/RETURN RECEIPT REQUESTED

December 7, 2006

Andrew Stolarski
Vice President of Operations
Medline Industries, Inc.
9101 Riverside Parkway
Lithia Springs, GA 30122

RE: Prescription Drug Wholesaler Permit No. 23:01470

Dear Mr. Stolarski:

This letter serves as notification that the department intends to suspend permit no. 23:01470 issued to Medline Industries, Inc. as an Out of State Prescription Drug Wholesaler based upon the following facts, grounds and considerations:

Section 499.067(1)(a), Florida Statutes (F.S.), authorizes the department to deny, suspend, or revoke a permit if it finds that there has been substantial failure to comply with § 499.001-499.081, F.S., or Chapter 465, Chapter 501, or Chapter 893, the rules adopted under any of those sections or chapters, any final order of the department, or applicable federal laws or regulations or other state laws or rules governing drugs, devices, or cosmetics. The department may also suspend a permit if the applicant has not met the requirements for the permit.

Pursuant to s. 499.012(11)(a), F.S., each establishment that is issued an initial or renewal permit as a prescription drug wholesaler or an out-of-state prescription drug wholesaler must designate in writing to the department at least one natural person to serve as the designated representative of the wholesaler. Such person must have an active certification as a designated representative from the department and must also meet the requirements of Section 499.012 (11) (d) F.S.

Pursuant to s. 499.012(11)(f), F.S., a wholesale distributor may not operate under a prescription drug wholesaler permit or an out-of-state prescription drug wholesaler permit for more than 10 business days after the designated representative leaves the employ of the wholesale distributor, unless the wholesale distributor employs another designated representative and notifies the department within 10 business days of the identity of the new designated representative. Mr. David L. Magruder, the designated representative identified for permit no. 23:01470 has resigned his position. We have not received a "Notification of Designated Representative" form identifying a certified individual to replace him. As a result Medline Industries, Inc. does not have a designated representative as required by s. 499.012(11), F.S.

Pursuant to s. 499.012(11)(b)4., F.S., to be certified as a designated representative, a person must receive a passing score of at least 75 percent on an examination given by the department regarding federal laws governing distribution of prescription drugs and ss. 499.001-499.081 and the rules adopted by the department governing the wholesale distribution of prescription drugs.

Accordingly, and pursuant to the above referenced facts and law, the department hereby intends to suspend permit no. 23:01470 issued to Medline Industries, Inc. as an Out of State Prescription Drug Wholesaler because you have not complied with s. 499.012(11)(f), F.S. and otherwise do not have a designated certified representative on file with the Department that meets the requirements of Section 499.012 (11) F.S. which is a substantial failure to comply with ss. 499.001 – 499.081, F.S. and is a failure to meet the requirements for the permit, for which the suspension is authorized pursuant to Sections 499.067 (1) (a); 499.067 (1) (b) 2. F.S.

Therefore, the department concludes that Medline Industries, Inc. no longer meets the requirements to continue to operate as an Out of State Prescription Drug Wholesaler in Florida and the permit will be suspended until you have designated in writing to the department a person with an active certification to serve as a designated representative who meets the requirements of Section 499.012 (11) F.S.

NOTICE OF RIGHTS TO HEARING AND APPEAL

Request for a hearing, formal or informal, must comply with Rule 28-107.004, Florida Administrative Code.

You have the right to be represented by counsel or other qualified representative, at your expense; to present evidence and argument; to call and cross-examine witnesses; and to have subpoena and subpoena duces tecum issued on your behalf if a hearing is requested.

A petition for administrative hearing must be in writing and must be received by the Agency Clerk for the Department, within twenty-one (21) days from the receipt of this complaint. The address of the Agency Clerk is 4052 Bald Cypress Way, BIN # A02, Tallahassee FL 32399-1703. The Agency Clerk's facsimile number is 850-410-1448.

Mediation is not available as an alternative remedy.

Your failure to submit a petition for hearing within 21 days from receipt of this complaint will constitute a waiver of your right to an administrative hearing, under Florida Administrative Code Rule 28-106.111 and this complaint shall become a "final order".

Should this correspondence become a final order, a party who is adversely affected by it is entitled to judicial review pursuant to s 120.68, F.S. Review proceedings are governed by the Florida Rules of Appellate Procedure. Such proceedings may be commenced by filing one copy of a Notice of Appeal with the Agency Clerk of the Department of Health and a second copy, accompanied by the filing fees required by law, with the Court of Appeal in the appropriate District Court. Dear Lara Simmons:

As you may recall, the Board is mandated by law to license and regulate the wholesale distribution of legend drugs and devices in Louisiana in accordance with the Louisiana Revised Statutes and Louisiana Administrative Codes for wholesale drug distributors. This letter will acknowledge receipt of your response dated 4/3/2008. This letter is also intended to respond to any inquiries you may have regarding the deficiencies found during the inspection which occurred on 3/5/2008 at MEDLINE INDUSTRIES, INC.'s Covington LA distribution facility.

Pursuant to the Louisiana Revised Statutes and Louisiana Administrative Codes, specifically LAC 46:XCI.311.D, a licensee should maintain copies of current licenses which authorizes a customer to procure and possess legend drugs and devices. If these customer licenses are maintained off site, a list of customers including customer names, addresses, license number, and the license expiration dates shall be maintained for all customers that are shipped or sold drugs or devices.

On 3/5/2008, the Board's inspector discovered that copies of customer licenses which authorize the customer to procure and possess legend drugs/devices or a listing of customers' license information were not being maintained at the Covington LA facility.

A verbal request was made by the inspector of a customer list which should have been maintained at the Covington LA facility. After receiving and reviewing a copy of the customer list, as referred to by Medline as their "Pedigree List", the inspector requested copies of 30 customer licenses from the listing. Of the requested customer license copies, the inspector found that 70% of the licenses requested were either not acceptable licenses or were not available.

It is evident that MEDLINE INDUSTRIES, INC. was in violation of LAC 46:XCI.311.D at the time of the inspection on 3/5/2008. The Louisiana Revised Statutes and Louisiana Administrative Codes for wholesale drug distributors, more particularly LA RS 37:3474.1, provides that, after due notice and hearing, MEDLINE INDUSTRIES, INC.'s license may be sanctioned and/or it may be assessed a fine for its actions or omissions. Fines alone may include an assessment of $1,000 per violation

per day. It is the Board's objective to regulate the industry by correcting behavior. Such is accomplished by imposing sanctions for wrongful conduct.

It is hoped that the above detailed violation(s) as corrected will not occur in the future. Therefore, in an effort to amicably resolve the issues regarding the violation(s) which did occur, I, as the Board's appointed investigating/compliance officer, extend an offer to you which would impose a total fine of $2,000. This proposed sanction does not impose any restrictions on MEDLINE INDUSTRIES, INC.'s license.

If MEDLINE INDUSTRIES, INC. is agreeable to these terms, I have enclosed a Consent Order for your review and execution. Please have an authorized representative for your company sign the Consent Order in front of a Notary and two witnesses. Return the original, executed Consent Order along with a check made to the Louisiana Board of Wholesale Drug Distributors in the amount of the $2,000 fine to the Board's office within fifteen (15) days of receipt of this letter. You and/or a company representative will not be required to attend the evidentiary hearing at which the executed Consent Order will be presented to the full Board for acceptance, however you and/or another representative are welcome to attend.

In the event MEDLINE INDUSTRIES, INC. is not agreeable to this amicable resolution and wishes to contest the investigative findings in a hearing before the full Board, it has the right to do so. If such occurs, the current offer being proposed in this letter will no longer be viable.

We would like to bring this matter to disposition either by this amicable resolution or the pursuit of a formal hearing against MEDLINE INDUSTRIES, INC. before the Board at the next scheduled Board meeting. To do so, either way, we will need to prepare the necessary paperwork with all resolution documents. Again, please respond to this offer either by returning the executed Consent Order and fine payment or by written request for an administrative hearing. If your response is not received at the Board office within fifteen (15) days of receipt of this letter, the Board will begin steps towards the formal hearing with the issuance of subpoenas for witnesses and records.

We wish to keep an open line of communication with you. Please contact the Board office in the event you have any questions. Thank you for your cooperation in this matter.

Respectfully,

Wayne Gremillion
Board Member/Compliance Officer

Re: RICO Case No. PHA 2008-71-L

Dear Ms. Wolfe:

I received the signed Settlement Agreement. One correction had to be made, and I apologize that we did not notice this earlier. On page 3, paragraph 5, the citation to HRS section 436B-19(13) was changed to HRS section 436B-19(15) which is the correct citation. Enclosed is a copy of the corrected replacement page. I will now forward the document to the executive officer of the Board of Pharmacy, and we will be notified as to whether it gets approved or not by the Board.

Very truly yours,

6. Respondent enters into this Settlement Agreement as a compromise of the claims and to conserve on the expenses of proceeding with an administrative hearing on this matter.

7. Respondent agrees that this Settlement Agreement is intended to resolve the issues raised in RICO's investigation in RICO Case No. PHA 2008-17-L.

11. Complete Agreement. This Settlement Agreement is a complete settlement of the rights, responsibilities and liabilities of the parties hereto with respect to the subject matter hereof; contains the entire agreement of the parties; and may only be modified, changed or amended by written instrument duly executed by all parties hereto.

Provide explanation below:

Medline Industries Inc. and Medline Manufacturing & Services, LLC was cited for several violations related to distribution centers in Florida, including, failure to pass and maintain a Florida compliant pedigree, maintaining the wrong permit type for the activities performed (Florida required a repackager permit in addition to the existing manufacturer permit), distribution of saline to an unauthorized recipient, and storage of a prescription drug in an unlicensed raw materials storage facility. Medline challenged several violations, resulting in most being substantially reduced or removed. All issues were addressed and resolved to the satisfaction of the FL DOH. A settlement agreement was reached to resolve all matters and approved on 09/06/2008.

Corrective Actions
Medline instituted a Florida specific pedigree system to address the pedigree issues. The updated pedigree ensures that all applicable shipments to Florida have the required Florida documentation and comply with FL pedigree requirements (Note - these requirements have since been preempted by the federal Drug Supply Chain Security Act). Medline secured the repackaging permit to address the missing permit type. Medline instituted a new procedure for obtaining and maintaining customer licenses for all prescription drug purchases- this procedure generates an automatic block for any prescription drug order by an unlicensed customer. The prescription drug item unintentionally stored in the raw materials facility was properly disposed of and waste disposal procedures updated to prevent this from occurring in the future.

Re: 08 PHM 037

Dear Ms. Hornick:

As you know, an inspector for the Department of Regulation and Licensing inspected Medline Industries on May 9, 2008. He found that several policies were missing, and the facility was storing prescription drugs in a non-secure location. It has been determined that these violations are grounds for discipline. I am the prosecuting attorney assigned to the case.

I have enclosed a proposed stipulation and order, which would resolve this matter without a hearing. If you are willing to resolve this case by agreement, please sign and return the stipulation and order by **December 9, 2008**. I will then present it to the Pharmacy Examining Board at its next meeting. The stipulation and order is not binding unless and until it is accepted by the board.

If you do not return the signed stipulation and order by December 9, 2008, I will file a formal complaint and initiate the hearing process. Please be aware that it is the policy of the Department to assess costs against respondents whenever any discipline is imposed. Your costs are presently $100. If we have to take this matter through a hearing, they will escalate quickly and could reach several thousand dollars.

Please call if you have any questions.

SETTLEMENT AGREEMENT PRIOR TO FILING OF PETITION
FOR DISCIPLINARY ACTION AND BOARD'S FINAL ORDER

Petitioner, DEPARTMENT OF COMMERCE AND CONSUMER AFFAIRS' REGULATED INDUSTRIES COMPLAINTS OFFICE (hereinafter "RICO" or "Petitioner"), through its undersigned attorneys, and Respondent MEDLINE INDUSTRIES INC. (hereinafter "Respondent"), enter into this Settlement Agreement on the terms and conditions set forth below.

A. UNCONTESTED FACTS

1. At all relevant times herein, Respondent was licensed by the Board of Pharmacy (hereinafter the "Board") as a wholesale prescription drug distributor under License Number PWD 115. The license was issued on or about October 3, 2005. The license will expire on or about December 31, 2009.

I HEREBY CERTIFY THAT THE ATTACHED IS A TRUE AND CORRECT COPY OF THE ORIGINAL ON FILE IN THE DEPARTMENT OF COMMERCE & CONSUMER AFFAIRS.

2. Respondent's mailing address for purposes of this action is Dianna Wolfe, Corporate Regulatory Affairs Specialist, Medline Industries, Inc., One Medline Place, Mundelein, Illinois 60060.

3. Respondent timely reported that disciplinary action had been taken against Respondent by the State of Wisconsin. Respondent had entered into a Stipulation with the State of Wisconsin's Pharmacy Examining Board. Pursuant to the terms of a Final Order, Respondent was reprimanded and ordered to pay a forfeiture in the amount of $2,000.00. This action was based on the results of an inspection which revealed that certain policies were missing and that Respondent was storing pre-packaged kits for surgeries (which included various types and quantities of prescription drugs) in a warehouse that was shared with another company. These kits were not secured and employees of the other company had access to the kits. A true and correct copy of the Stipulation and Final Decision and Order which was approved on February 4, 2009 is attached as Exhibit "1."

4. RICO alleges that Respondent was disciplined by another state for a reason provided by the licensing laws in Hawaii. Specifically, the Respondent was disciplined for professional misconduct.

5. The foregoing allegations, if proven at an administrative hearing before the Board, would constitute violations of the following statute(s) and/or rule(s): Hawaii Revised Statutes ("HRS") § 436B-19(13) (disciplinary action by another state) and § 461-21(a)(2) (professional misconduct). Per Hawaii Administrative Rules §§ 16-95-30(c)(6) and (9), a licensee's facility must be secure from unauthorized entry and entry into areas where prescription drugs are held must be limited to authorized personnel.

6. The Board has jurisdiction over the subject matter herein and over the parties hereto.

B. REPRESENTATIONS BY RESPONDENT:

1. Respondent is fully aware that Respondent has the right to be represented by an attorney and voluntarily waives that right.

2. Respondent enters into this Settlement Agreement freely, knowingly, voluntarily, and under no coercion or duress.

3. Respondent is aware of the right to have a hearing to adjudicate the issues in the case. Pursuant to HRS § 91-9(d), Respondent freely, knowingly, and voluntarily waives the right to a hearing and agrees to dispose of this case in accordance with the terms and conditions of this Settlement Agreement.

4. Respondent being at all times relevant herein licensed as a wholesale prescription drug distributor by the Board acknowledges that Respondent is subject to penalties including but not limited to, revocation, suspension or limitation of the license and administrative fines, if the foregoing allegations are proven at hearing.

5. Respondent does not admit to violating any law or rule, but acknowledges that RICO has sufficient cause to file a Petition for Disciplinary Action against Respondent's license.

6. Respondent enters into this Settlement Agreement as a compromise of the claims and to conserve on the expenses of proceeding with an administrative hearing on this matter.

7. Respondent agrees that this Settlement Agreement is intended to resolve the issues raised in RICO's investigation in RICO Case No. PHA 2009-7-L.

C. TERMS OF SETTLEMENT:

1. Administrative fine. Respondent agrees to pay a fine in the amount of ONE THOUSAND AND NO/100 DOLLARS ($1,000.00). Payment shall be made by **cashier's check, company check, or money order made payable to "DCCA - Compliance Resolution Fund"** and mailed to the Regulated Industries Complaints Office, Attn: Bobbi Lum-Mew, Esq., 235 S. Beretania Street, 9th Floor, Honolulu, Hawaii 96813. Payment of the fine shall be due within thirty (30) days after this Settlement Agreement is approved by the Board.

2. Failure to Comply with Settlement Agreement. If Respondent fails to fully and timely comply with the terms of this Settlement Agreement as set forth in paragraph C.1 above, Respondent's license shall be automatically revoked upon RICO's filing of an affidavit with the Board attesting to such failure. In case of such revocation, Respondent shall turn in all indicia of the license to the Executive Officer of the Board within ten (10) days after receipt of notice of the revocation. In case of such revocation, Respondent understands Respondent cannot apply for a new license until the expiration of at least five (5) years after the effective date of the revocation. Respondent understands that if Respondent desires to become licensed again, Respondent must apply to the Board for a new license pursuant to and subject to HRS §§ 92-17, 436B-21, and all other applicable laws and rules in effect at the time.

3. Possible further sanction. The Board, at its discretion, may pursue additional disciplinary action as provided by law to include further fines and other sanctions as the Board may deem appropriate if Respondent violates any provision of the statutes or rules governing the conduct of wholesale prescription drug distributors in the State of Hawaii, or if Respondent fails to abide by the terms of this Settlement Agreement.

4. Approval of the Board. Respondent agrees that, except for the representations, agreements and covenants contained in Paragraphs C.5, C.6, C.7 and C.8 below, this Settlement Agreement shall not be binding on any of the parties unless and until it is approved by the Board.

5. No Objection if Board Fails to Approve. If the Board does not approve this Settlement Agreement, does not issue an order pursuant thereto, or does not approve a lesser remedy, but instead an administrative hearing is conducted against Respondent in the Board's usual and customary fashion pursuant to the Administrative Procedure Act, Respondent agrees that neither Respondent nor any attorney that Respondent may retain, will raise as an objection in any administrative proceeding or in any judicial action, to the Board's proceeding against Respondent on the basis that the Board has become disqualified to consider the case because of its review and consideration of this Settlement Agreement.

6. Any Ambiguities Shall be Construed to Protect the Consuming Public. It is agreed that any ambiguity in this Settlement Agreement is to be read in the manner that most completely protects the interests of the consuming public.

7. No Reliance on Representations by RICO. Other than the matters specifically stated in this Settlement Agreement, neither RICO nor anyone acting on its behalf has made any representation of fact, opinion or promise to Respondent to induce entry into this Settlement Agreement, and Respondent is not relying upon any statement, representation or opinion or promise made by RICO or any of its agents, employees, representatives or attorneys concerning the nature, extent or duration of exposure to legal liability arising from the subject matter of this Settlement Agreement or concerning any other matter.

8. Complete Agreement. This Settlement Agreement is a complete settlement of the rights, responsibilities and liabilities of the parties hereto with respect to the subject matter hereof; contains the entire agreement of the parties; and may only be modified, changed or amended by written instrument duly executed by all parties hereto.

IN WITNESS WHEREOF, the parties have signed this Settlement Agreement on the date(s) set forth below.

STATE OF COLORADO

Case No. 2010-002994

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF DISCIPLINARY PROCEEDINGS REGARDING THE LICENSE TO PRACTICE AS A OUT-OF-STATE WHOLESALER IN THE STATE OF COLORADO OF MEDLINE INDUSTRIES, INC.,

Wholesaler Applicant.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and Medline Industries, Inc. ("Wholesaler Applicant") to resolve all matters pertaining to Board Case Number 2010-002994 as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Wholesaler Applicant, its application for registration as an out-of-state wholesaler and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the provisions of the Pharmaceuticals and Pharmacists Act at Title 12, Article 22, C.R.S.

2. Wholesaler Applicant admits these findings and hereby waives any further proof in this proceeding before the Board regarding the following facts.

3. Wholesaler Applicant entered into a Settlement Agreement with the Missouri State Board of Pharmacy, which was effective on August 3, 2005 ("Missouri Settlement Agreement").

4. In the Missouri Settlement Agreement, Wholesaler Applicant was placed on probation for five (5) years for various violations of Missouri state and federal law involving recordkeeping, storage of prescription drugs, change of location without informing the Missouri Board of Pharmacy, lack of a policy and procedure manual, and distribution of prescription drugs under a lapsed registration.

5. Wholesaler Applicant's conduct, as set forth above, constitutes violations of the following sections of the Colorado Revised Statutes:

12-22-125. Unprofessional conduct - grounds for discipline.

(1) The board may suspend, revoke, refuse to renew, or otherwise discipline any license or registration issued by it, after a hearing held in accordance with the provisions of this section, upon proof that the licensee or registrant:

(c) Has violated:

(III) Any state or federal law pertaining to drugs.

12-22-125.2. Disciplinary actions.

(1) The board may deny or discipline an applicant, licensee, or registrant when the board determines that such applicant, licensee, or registrant has engaged in activities that are grounds for discipline.

6. On January 14, 2010, Wholesaler Applicant submitted an out-of-state wholesaler application, which application was denied by the Board.

7. On March 1, 2010, Wholesaler Applicant submitted a written request asking that the Board accept its application by granting a conditional license.

8. The Board finds and concludes, and Wholesaler Applicant agrees, that based upon Wholesaler Applicant's above-described violations of the Pharmaceuticals and Pharmacists Act and relevant rules and regulations, the following discipline is just and appropriate under the circumstances as a condition of its registration as an out-of-state wholesaler.

DISPOSITION

Conditional Registration / Probation / Compliance / Terms

9. **Conditional Registration.** Wholesaler Applicant shall be granted a registration as an out-of-state wholesaler upon execution of this Final Agency Order and satisfaction of the terms and conditions set forth herein.

10. **Probation.** Wholesaler Applicant's registration shall be placed on probation for a period of time equal to the time of probation remaining under the Missouri Settlement Agreement. Credit toward satisfying the period of probation under this Final Agency Order shall be given only during such periods of time that Respondent is in total compliance with all provisions of this Final Agency Order and the Missouri Settlement Agreement.

11. **Compliance.** Wholesaler Applicant shall at all times remain in compliance with §§12-22-801, *et seq.* C.R.S. and shall not at any time distribute prescription drugs into Colorado without being registered as an out-of-state wholesaler in the State of Colorado at the time of distribution.

12. **Other Requirements.** Wholesaler Applicant acknowledges and agrees that, as a condition of this Final Agency Order and probation, Wholesaler Applicant shall:

    a. promptly pay all Wholesaler Applicant's own fees and costs associated with this Final Agency Order;

    b. comply fully with this Final Agency Order; and

    c. comply fully with the Pharmacists and Pharmaceuticals Act, all Board rules and regulations, and any other state and federal laws and regulations related to pharmacists and pharmaceuticals in the State of Colorado.

13. **Discharge.** Discharge from the requirements of this Final Agency Order must be requested in writing by Wholesaler Applicant. The Board will consider any request for discharge during the ordinary course of business. In any request for discharge it shall be Wholesaler Applicant's sole responsibility to establish, through written and other documentation, that Wholesaler Applicant has met all terms and conditions of this Final Agency Order and, in addition, has been released from probation by the Missouri Board of Pharmacy under the Missouri Settlement Agreement. Wholesaler Applicant's probation under this Final Agency Order shall continue until formally discharged by the Board by way of Board order.

14. **Advisements and Waivers.** Wholesaler Applicant enters into this Final Agency Order freely and voluntarily, whether or not Wholesaler Applicant has consulted with legal counsel. Wholesaler Applicant acknowledges its understanding that it has the following rights:

    a. To have a formal notice of hearing and charges served upon it;
    b. To respond to said formal notice of charges;
    c. To have a formal disciplinary hearing pursuant to §12-22-125, C.R.S.; and
    d. To appeal this Board order.

    Wholesaler Applicant freely **waives** these rights, and acknowledges that such waiver is made voluntarily in consideration for Board's limiting the action taken against it to the sanctions imposed herein.

15. **Acknowledgments.** The undersigned authorized agent of Wholesaler Applicant has read this Final Agency Order in its entirety and acknowledges, whether or not Wholesaler Applicant has consulted with legal counsel, that Wholesaler Applicant

understands the legal consequences and agrees that none of the terms or conditions herein are unconscionable.

16. **Violations.** Time is of the essence to this Final Agency Order. It is the responsibility of Wholesaler Applicant to take all appropriate steps to comply fully with this Final Agency Order. Wholesaler Applicant acknowledges and agrees that any violation of this Final Agency Order may be sanctioned as provided under §12-22-125.2(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of its registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Wholesaler Applicant to comply with all terms and conditions of this Final Agency Order.

17. **Integration and Severability.** Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.

18. **Public Record.** Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.

19. **Effective Date.** This Final Agency Order shall become effective upon signature of a Board member or representative.

Medline Industries, Inc. distribution center at 1501 Harris Rd Libertyville, IL 60048 (OH License #01-1985050) entered into a settlement agreement with the Ohio Board of Pharmacy for the sale of dangerous drugs to an unlicensed entity. Medline maintained a current and valid DEA license on file rather than the correct Terminal Distributor Dangerous Drugs license (TDDD). The facility's TDDD license expired at the time of the sale. Case resolved via Settlement Agreement effective 01/06/2021.

Corrective Actions:
Medline updated its customer license requirements for Ohio customers. Medline completed a review of all Ohio customers to verify the correct license type was on file and implemented increased verification checks of Ohio licenses.

Provide explanation below:

Medline Industries, LP distribution center at 1040 Enterprise Parkway South, West Jefferson, OH 43162 (OH License #01-30000190) entered a settlement agreement with the Ohio Board of Pharmacy for alleged sales of dangerous drugs to an unlicensed entity. Medline maintained a physician license on file instead of the correct Terminal Distributor Dangerous Drugs license (TDDD). The TDDD license was added in May 2022. During the period of July 2021 to March 2022, the customer's TDDD license lapsed, and Medline shipped the customer product under the valid practitioner license. Case resolved via Settlement Agreement effective 11/01/2022.

Corrective Actions:
Medline updated customer licensing requirements for Ohio customers following OH Case # A-2020-0054. Provide explanation below:

Medline Industries, LP distribution center at 9670 NW 112th Ave, Miami, FL 33178 (FL WDD# #2220297) entered a settlement agreement for alleged violations of selling prescription drugs to an unauthorized recipient and failure to maintain proper records. Medline accepted a physician license for a customer which should have maintained a Healthcare Clinic Establishment Permit. The recordkeeping allegation related to missing NDC numbers on outbound packing slips and invoices.

Corrective Actions:
Medline updated customer licensing requirements for Florida customers and completed an extensive review of all FL customer licenses to verify the correct license type was on file. Medline determined the missing NDC number on the packing slip and invoice occurred due to an internal system error. The error was limited to DSCSA exempt products, i.e. IV fluids. A fix was implemented to correct the issue.

Cautionary Note Regarding Forward-Looking Statements

This Annual Report on Form 10-K (this "Annual Report") contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in Section 27A of the Securities Act of 1933, as amended (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Forward-looking statements include all statements that are not historical facts. Words such as "anticipate," "assume," "believe" "contemplate," "continue," "could," "estimate," "expect," "foreseeable," "intend," "may," "plan," "potentially," "predict," "project," "seek," "should," "will," or "would," or similar words or phrases that convey uncertainty of future events or outcomes, are intended to identify forward-looking statements in this Annual Report. These forward-looking statements relate to matters such as our industry, business strategy, costs, and costs savings, impacts of accounting standards and guidance, goals and expectations, market position, future operations, margins, profitability, capital expenditures, liquidity and capital resources, legal matters, trends, and other financial and operating information. The forward-looking statements are based on management's current expectations and are subject to various risks, uncertainty, and changes in circumstances, many of which are beyond our control, that could cause actual results to differ materially. Although we believe that the assumptions underlying the forward-looking statements are reasonable, we cannot guarantee future results, level of activity, performance, or achievements. Factors that may cause actual results to differ from expected results include those described in Part I, "Item 1A—Risk Factors" and Part II, "Item 7—Management's Discussion and Analysis of Financial Condition and Results of Operations". The forward-looking statements included in this Annual Report speak only as of the date of this Annual Report or as of the date they are made, as applicable. Except as otherwise required by law, we disclaim any intent or obligation to update any "forward-looking statement" made in this Annual Report to reflect changed assumptions, the occurrence of unanticipated events, or changes to future operating results over time.

INTRODUCTORY NOTE

Medline Inc. was incorporated as a Delaware corporation on November 6, 2024. Prior to the completion of its initial public offering (the "IPO") on December 18, 2025, Medline Inc. undertook certain reorganization transactions (the "Reorganization") such that Medline Inc. is now a holding company, and its sole material assets are its equity interests held directly or indirectly through wholly owned subsidiaries in Medline Holdings, LP ("Medline Holdings"). Following the IPO, Medline Holdings is the predecessor of Medline Inc. for financial reporting purposes. As the general partner of Medline Holdings, Medline Inc. now operates and controls all of the business and affairs of Medline Holdings and, through Medline Holdings and its subsidiaries, conducts its business. The Reorganization lacks economic substance and therefore is accounted for in a manner consistent with a reorganization of entities under common control. As a result, the consolidated financial statements of Medline Inc. recognize the assets and liabilities received in the Reorganization at their historical carrying amounts, as reflected in the historical financial statements of Medline Holdings. Medline Inc. will consolidate Medline Holdings on its consolidated financial statements and record a non-controlling interest related to the Units (as defined herein) held by the Continuing Unitholders (as defined herein) on its consolidated balance sheets and statements of comprehensive income.

Medline Inc. had no significant business transactions or activities prior to the Reorganization, and, as a result, the historical financial information reflects that of Medline Holdings.

Basis of Presentation

The consolidated financial statements and accompanying notes included herein are prepared in accordance with United States generally accepted accounting principles ("GAAP"). The results of businesses acquired or disposed of are included in the consolidated financial statements from the date of the acquisition or up to the date of disposal, respectively. All adjustments, in the opinion of management, necessary to a fair statement of the results for the annual periods presented have been made.

Certain monetary amounts, percentages, and other figures included in this Annual Report have been subject to rounding adjustments. Percentage amounts included in this Annual Report have been calculated, in some cases, not on the basis of such rounded figures, but on the basis of such amounts prior to rounding. For this reason, percentage amounts in this Annual Report may vary from those obtained by performing the same calculations using the figures, on the face of our consolidated financial statements included elsewhere in this Annual Report. Certain other amounts that appear in this Annual Report may not sum due to rounding.

In December 2024, we changed the name of Medline Holdings from Mozart Holdings, LP to Medline Holdings, LP. We will not distinguish between the prior and current name of Medline Holdings and will refer to the current name of Medline Holdings throughout this Annual Report. References in this Annual Report to "Medline," the "Company," "we," "us," and "our" refer (1) prior to the consummation of the IPO, to Medline Holdings, LP and its consolidated subsidiaries and (2) after the IPO to Medline Inc. and its consolidated subsidiaries.

CERTAIN DEFINITIONS

As used in this Annual Report, unless otherwise noted or the context requires otherwise, the following terms have the following meanings:

Market and Industry Data

Unless otherwise indicated, information contained in this Annual Report concerning our industry, competitive position, and the markets in which we operate is based on information from independent industry and research organizations, other third-party sources and management estimates. Although we believe that these third-party sources are reliable, we do not guarantee the accuracy or completeness of this information, and we have not independently verified this information. Management estimates are derived from information obtained from surveys, reports by market research firms, our customers, distributors, suppliers, trade and business organizations, and other contacts in the markets in which we operate and have not been verified by independent sources, and are based on assumptions made by us upon reviewing such data, and our experience in, and knowledge of, such industry and markets, which we believe to be reasonable. In addition, assumptions and estimates of our and our industry's future performance are subject to a high degree of uncertainty and risk due to a variety of factors, including those described in Part I, "Item 1A—Risk Factors" and "Cautionary Note Regarding Forward-Looking Statements." These and other factors could cause results to differ materially from those expressed in the estimates made by the independent parties and by us.

Statements regarding our market position (including statements that we are the largest company in a particular market), unless otherwise noted, are based on our 2025 net sales in the relevant market relative to the publicly reported net sales of our competitors in such market, including with respect to our statement of being the largest provider of med-surg products and supply chain solutions serving all points of care, as that statement is based on our 2025 net sales relative to the publicly reported net sales of med-surg products by companies that are both med-surg manufacturers and distributors.

We own or have the right to use trademarks, trade names, and service marks used in connection with our business, including, but not limited to, Medline, Curad, Microtek, Hudson, and Proxima. All trademarks, trade names, and service marks referred to in this Annual Report are the property of their respective owners. We do not intend our use or display of other companies' trade names, trademarks, or service marks to imply a relationship with, or endorsement or sponsorship of us by, these other companies. Solely for convenience, our trademarks, trade names, and service marks referred to in this Annual Report may appear without the ®, ™ or SM symbols, but such references are not intended to indicate, in any way, that we will not assert, to the fullest extent under applicable law, our rights or the right of the applicable licensor to these trademarks, trade names, and service marks.

PART I

Item 1. Business

General

Medline Inc. (together with its subsidiaries, "Medline", "the Company", "we", "ours" and "us") is the largest provider of medical-surgical ("med-surg") products and supply chain solutions serving all points of care, based on total net sales of med-surg products. Medline was founded in 1966 and today delivers mission-critical products used daily across the full range of care settings, from hospitals and surgery centers to physician offices and post-acute facilities. Our mission is to make healthcare run better by delivering improved clinical, financial, and operational outcomes.

We have two reportable segments, Medline Brand and Supply Chain Solutions, the combination of which addresses critical needs in the market through a comprehensive solution. They are both supported by our Prime Vendor model, differentiated distribution network, and robust commercial platform. Through our two segments, we offer approximately 335,000 med-surg products, including surgical and procedural kits, gloves and protective apparel, urological and incontinence care, wound care, and consumable lab and diagnostics products. We distribute these products through our expansive network of global distribution facilities and our owned fleet of MedTrans trucks.

Medline Brand

As of December 31, 2025, we offer our customers approximately 190,000 med-surg products through our Medline Brand segment and hold leading positions across many key product families for our Medline Brand products. Our Medline Brand products are organized into three product categories: Front Line Care, Surgical Solutions, and Laboratory and Diagnostics.

- *Front Line Care* offers mission-critical med-surg products for patient-facing needs, including wound care products, exam gloves, skin care and incontinence products, environment cleaning supplies, textiles, hand sanitizer, durable medical equipment, patient plastics, and decolonization and infection control products.
- *Surgical Solutions* offers operating room and perioperative environment product solutions, including surgical procedure trays, drapes and gowns, personal protective equipment, sterile wraps, surgical instruments, surgeon's gloves, procedure kits, and orthopedic implants.
- *Laboratory and Diagnostics* offers a full range of laboratory and diagnostic product solutions, including point of care testing, analyzers and instrumentation, lab and diagnostic consumables, diagnostic instruments, vital signs monitors, and anatomic pathology and phlebotomy products.

Our product development approach incorporates customer feedback and ongoing innovation. We are also committed to delivering products of the highest standard, which is reflected by our robust quality team embedded across our manufacturing and sourcing locations. The expertise of our research and development team and quality team helps ensure products bearing the Medline brand meet both our rigorous quality standards and our customers' expectations.

Supply Chain Solutions

As of December 31, 2025, we offer approximately 145,000 med-surg products from over 1,300 third-party suppliers, including nearly all leading national brands, through our Supply Chain Solutions segment. We also provide our customers with supply chain optimization services such as consulting engagements, outsourced warehouse and technology management, put-away-ready packaging, third-party logistics, inventory rationalization, and route planning. Our third-party suppliers are primarily responsible for costs related to import and inbound freight, whereas we are primarily responsible for costs related to outbound freight from our distribution centers. Our supply chain expertise allows us to provide additional service offerings to optimize our customers' supply chain and inventory workflows, helping these customers cost-effectively manage their supply chain while building strong relationships and enhancing retention.

Our Prime Vendor Model

A Prime Vendor relationship is a relationship for which there is a multi-year distribution agreement between Medline and a customer, whereby the customer agrees to use Medline for the vast majority of its med-surg product needs.

In our Prime Vendor relationships, we enter into long-term agreements, typically structured with five-year terms, to act as the primary consolidated logistics partner for these customers' med-surg product needs. These agreements have been and are expected to continue to be a key contributor to our growth. Our customers realize efficiencies by partnering with one supply chain partner to consolidate their med-surg purchase volume. Prior to the market adoption of the Prime Vendor model, customers sourced such products individually from a highly fragmented base of suppliers. The Prime Vendor model instead centralizes procurement and distribution, which in turn drives efficiency and higher service levels.

As Prime Vendor, we drive significant cost savings to our customers. Our scale allows us to deliver consistently lower prices and better service levels on Medline Brand products relative to third-party alternatives, while also lowering the distribution cost for delivery of the full range of med-surg products. This often motivates customers to purchase more Medline Brand products over time. The opportunity is even greater in certain non-acute settings, where we sell a more focused product portfolio. Our Prime Vendor model allows us to provide cost savings to Prime Vendor customers, which, over time, supports incremental purchasing of our Medline Brand products and greater scale across our operations. As our scale grows, we are able to realize further efficiencies by offering superior or similar quality to third-party products at a more cost-effective price. We believe that Medline Brand conversion is mutually beneficial for both our customers and us-the value we provide customers at the outset of a Prime Vendor agreement meaningfully increases over time, as they accrue savings by purchasing our lower cost Medline Brand products, while our profitability grows given the enhanced margin profile of Medline Brand products. This compelling value proposition and supply chain relationship with our customers supports our greater than 98% average Prime Vendor retention rate over the past five years.

A portion of Supply Chain Solutions products sold to existing Prime Vendor customers has like-for-like Medline Brand product equivalents, representing a potential gross profit uplift consistent with our historical margin differentials if such products were converted for Medline Brand products. While we historically have earned higher margins upon conversion from third-party national brand products to like-for-like Medline Brand products, because of the lower average prices for Medline Brand products, there is typically a negative impact on net sales upon the conversion of Supply Chain Solutions products to like-for-like Medline Brand products if volume is assumed to be constant. For additional information on potential risks relating to this conversion opportunity, please see Part I, "Item 1A—Risk Factors—Risks Related to Our Business, Industry and Operations—Our failure to establish and maintain Prime Vendor relationships may cause our revenue to decline."

Our Distribution Network

We have a differentiated distribution network of 70 global distribution centers, warehouses, cross-docks, and transship facilities, 45 of which are in the United States, strategically located to provide next-day delivery to 95% of our U.S. customer base. We utilize artificial intelligence ("AI") and robotics technology in over 26 million square feet of warehouse space in the United States to improve efficiency and capacity to optimize distribution logistics and maximize utilization. The products we distribute are packaged to meet each customer's individual needs and to be "put-away-ready," which streamlines the customer's unloading and shelving process. We also operate our own fleet of more than 2,100 MedTrans trucks that deliver our products across care settings within the United States. As of December 31, 2025, we had approximately 25% in incremental capacity across our platform to support our long-term growth.

Our Commercial Platform

Our deep connectivity to our customers is driven by the strength of our dedicated and tenured commercial team. We have a U.S. commercial team of approximately 4,000 people across all points of care, which includes account managers, product specialists, specialized clinical resources, customer service representatives, supply chain specialists, Prime Vendor analysts, and a robust leadership team dedicated to driving efficiencies for our customers through their teams. We have created an entrepreneurial environment that empowers our salesforce to work with our product managers to create innovative products that meet market demand. We have a team devoted to each channel in the United States and each region or country internationally, which allows our salesforce teams to develop market-specific knowledge.

Research and Development

We have a track record of successfully bringing new products to market, with more than 2,300 granted patents and more than 450 U.S. Food and Drug Administration ("FDA") 510(k) clearances. Over the last three years, we have successfully launched more than 250 new products.

Competition

Our value proposition is derived from our integrated business model, the breadth of our Medline Brand portfolio, our differentiated supply chain, and the overall quality and cost of our products. As a result of our integrated business model, our competitors include both other leading med-surg product manufacturers and distributors.

Similar to us, other leading med-surg product manufacturers produce a wide range of med-surg supplies. However, unlike us, many of these competitors are reliant upon third-party distributors to deliver their products to customers. By nature of being a distributor, Medline has direct access to and manages the end customer relationships. This enables us to offer a complete solution as a manufacturer and a distributor, offering our customers what we believe to be best-in-class supply chain logistics, and driving value through our brand.

Additionally, other distributors of med-surg products similarly connect the fragmented supplier and provider bases and aggregate inventory from suppliers to deliver products to customers, such as McKesson, Cardinal Health, Owens & Minor, and Henry Schein. These distribution companies compete with us for Prime Vendor agreements. However, we believe that many of these competitors do not benefit from the scale and scope of our vertical integration or commercial excellence, and thus are not able to provide the same magnitude of cost savings, value, and holistic solutions that we deliver for our customers.

Production and Raw Materials

We manufacture approximately one-third of our Medline Brand products, which are primarily Class I and II medical devices, through our 30 manufacturing facilities, of which 24 are in North America. We purchase many of the components and raw materials used in manufacturing our products from numerous suppliers. We focus our manufacturing capabilities on products where we can leverage technology and automation to drive higher quality and lower costs to better serve our customers. For the vast majority of the other two-thirds of our Medline Brand products, we work closely with our network of more than 600 global partners across approximately 40 countries, many of whom have decades-long exclusive relationships with us. The breadth of our global sourcing partnerships provides diversification and strengthens our resiliency, with no single sourcing partner accounting for more than 5% of total spend as of December 31, 2025.

We also have plans and measures in place to help ensure continuity of supply while maintaining high quality and reliability. Generally, we have been able to obtain adequate supplies of such raw materials and components. However, due to the FDA's manufacturing requirements and those of other regulatory authorities, we may not be able to quickly establish additional or replacement sources for certain components, materials or processes if we experience a sudden or unexpected reduction or interruption in supply or services and are unable to develop alternative sources.

Human Capital Resources

At Medline, our relentless focus on the customer drives our human capital strategy, which revolves around attracting, developing, and retaining employees to provide the best products and services for our customers. We have developed a strong foundation that drives our recruitment, retention and development efforts. We are committed to supporting the personal and professional development of our employees, as well as providing competitive benefits and a safe, inclusive workplace.

As of December 31, 2025, we employed over 45,000 employees worldwide, with over 26,000 located in the United States. Our largest non-U.S. employee populations are in Mexico, Dominican Republic, India, Canada, Slovakia, France, China, Japan, Germany, and Australia. None of our employees in the United States are unionized, though some of our employees in Mexico belong to unions. In Germany and the Netherlands, employees are represented through Works Councils; in France and Spain, employees are represented through both Works Councils and industry-wide collective bargaining agreements; and in Belgium and Italy, employees are also represented through industry-wide collective bargaining agreements. In Australia, certain employees are represented by an enterprise bargaining agreement; in Japan, employees are represented through a Work Council; and in Vietnam, employees are represented through a collective bargaining agreement. We believe that our positive employee relations and total employee experience drive the continual growth of our workforce.

Culture and Values

Our culture is grounded in a customer-focused, collaborative, and performance-driven approach, guided by core values emphasizing relentless customer focus, agility and flexibility, problem-solving, drive to succeed, purposeful candor, and the importance of relationships. Employees are encouraged to exercise judgment, work transparently with customers, and contribute meaningfully to our mission to make healthcare run better.

Talent Attraction and Development

We seek to attract employees whose skills, experience, and motivation align with our operational and technical needs. Through continual improvement of internal processes, an awareness of market and candidate driven trends, and in partnership with vendors and other outside organizations, our talent acquisition programs focus on efficient hiring processes, market awareness, and building a diverse pipeline of candidates. We support development through consistent performance management processes and early career opportunities to take on additional responsibilities to demonstrate their competencies and drive to succeed and on-the-job responsibility augmented by formal training and development to refine technical and leadership skills. New sales representatives participate in comprehensive training programs, and product managers have targeted development pathways through all stages of their careers, from mandatory onboarding offerings to advanced classes that provide the necessary skills with increasing levels of responsibility, to support progression over time.

Employee Engagement and Inclusion

We believe our employees' ability to communicate and cooperate effectively across functional and departmental teams positively impacts our performance. We engage in various listening strategies and foster engagement through survey feedback mechanisms, anonymous employee feedback platform, focus groups, increased attention to onboarding and offboarding feedback, pulse surveys on remote work needs, and other listening strategies. Insights from these efforts inform workplace improvements. We also support an inclusive environment through Employee Resource Groups and leadership training initiatives designed to reduce bias in talent decisions and strengthen representation across the company.

Health, Safety, and Well-Being

We are committed to maintaining a safe workplace and supporting the physical, emotional, and financial well-being of our employees. We provide competitive health and benefits programs, access to assistance resources where available, and opportunities for community involvement through charitable giving, including financial giving and in-kind giving such as product donations.

Intellectual Property

We rely upon patents, trademarks, copyrights, trade secrets and other intellectual property rights to maintain and improve our competitive position. We have a large portfolio of intellectual property, including more than 2,300 granted patents as well as trademark registrations protecting our notable brands, including Medline, Curad, Microtek, Hudson, and Proxima.

We consider the trademarks and know-how that we own to be material to our business. However, other than the Medline mark, we do not consider our business to be materially dependent upon any individual trademark registration or trade secret. In the aggregate, we consider our more than 2,300 granted patents to be material to our business. However, no single patent or group of related patents is material to our business as a whole or any segment of our business.

We believe that we have taken all necessary steps to protect our intellectual property rights, but no assurance can be given that we will be able to successfully enforce or protect our rights in the event that they are infringed upon or challenged by a third party. See Part I, "Item 1A —Risk Factors—Risks Related to Regulation and Legal Proceedings—Any failure to obtain, maintain, protect and enforce our intellectual property rights, or the failure of the strength or scope of our intellectual property rights, could harm our business, financial condition, and results of operations" and "—Risks Related to Regulation and Legal Proceedings—We may become subject to litigation brought by third parties claiming infringement, misappropriation, or other violation by us of their intellectual property rights."

Government Regulation

Our operations and products are subject to extensive regulation by numerous governmental regulatory authorities, including U.S. and other international regulatory authorities, and other government agencies inside and outside the United States. To varying degrees, each of these agencies requires us to comply with laws and regulations governing the development, design, materials, testing, safety, efficacy, quality, purity, manufacturing, methods, controls, testing, screening, recordkeeping, reporting, processing, storage, registration, authorization, licensing, permitting, labeling, advertising, marketing, distribution, offer for sale, sale, use, expiration, pricing, reimbursement, import, export, clinical trials, post-marketing surveillance of our products, the registration of our facilities, and the claims that we make about our products. The United States and other countries where we sell healthcare and other regulated products, including drugs, human cell and tissue products, dietary supplements, cosmetics, certain foods, and consumer products subject such products to their own clearance, authorization, approval, registration, listing, labeling, manufacturing, recordkeeping, reporting, and other regulatory requirements regarding the performance, safety, and quality of such products. We are also subject to healthcare and other regulations and enforcement by the federal government and the states and foreign governments and authorities in the locations in which we conduct our business. The U.S. governmental and regulatory authorities that enforce such laws and rules, and that issue guidance on compliance with such laws and rules include, without limitation, the FDA, the Centers for Medicare & Medicaid Services ("CMS"), other divisions of the U.S. Department of Health and Human Services ("HHS"), the HHS Office of Inspector General, U.S. Environmental Protection Agency ("EPA"), the Federal Trade Commission ("the FTC"), Consumer Product Safety Commission ("CPSC"), the U.S. Department of Justice ("DOJ") and individual U.S. Attorney offices within the DOJ, as well as state and local governments. Our business is also affected by patient and data privacy and security laws, government payer cost containment initiatives, government reimbursement laws and regulations, environmental, health, and safety laws and regulations, as well as laws and regulations with respect to the sale, transportation, storage, handling, and disposal of hazardous or potentially hazardous substances, and safe working conditions. Our business also maintains contracts with governmental agencies and such contracts are subject to various government procurement laws and regulations, required contract provisions, and other requirements relating to contract formation, administration and performance. Failure to comply with applicable laws and regulations or with contractual or other requirements may result in monetary damages and criminal or civil penalties as well as termination of our government contracts or our suspension or debarment from government contract work.

The regulations to which we are subject are complex and have tended to become more stringent over time. If our business expands in certain ways, including through the offering of new products and services or entering into new geographic areas, we may be subject to new and additional regulatory requirements. The foreign, federal, state, and local regulatory authorities have broad inspection and enforcement powers, including the ability to suspend or limit the distribution of products, suspend, revoke, or terminate our product and facility licenses, permits, and authorizations, request the cessation of distribution and shipments of certain products due to regulatory, safety, or other issues, seize or order the recall of our products, issue safety, quality, or other communications to the public or healthcare providers, enforce laws related to marketing, including promotion of off-label uses of products, and impose injunctions and significant criminal, civil, and administrative sanctions for violations of laws and regulations. Any adverse regulatory or other action, including any adverse press releases or other communications from regulators, may impact our business practices and operations, including by limiting our ability to effectively market, ship, and sell our products, affecting the production and distribution of products by our manufacturing facilities, subjecting us to significant liability, and limiting our ability to obtain future authorizations. Although we are subject to international government regulations in the international end markets where we operate and/or provide our products, these regulations do not have a material impact on our products as no international market represents more than 3% of our net sales.

Government Regulation of Medical Devices

Our medical devices are subject to regulation by numerous government agencies, including the FDA and comparable state and foreign agencies. Regulations of the FDA and other regulatory agencies in and outside the United States impose extensive compliance and monitoring obligations on portions of our business. The FDA and other U.S. and foreign governmental agencies regulate, among other things, with respect to medical devices: design, development, and manufacturing; testing, registration, listing, labeling, content, and language of instructions for use and storage; clinical trials; product safety; marketing, sales, and distribution; licensing and permit requirements; premarket clearance, approval and authorization; record keeping procedures; advertising and promotion; recalls and field safety corrective actions; post-market surveillance, including reporting of deaths or serious injuries and malfunctions that, if they were to recur, could lead to death or serious injury; post-market approval studies; and product import and export. The regulations to which we are subject are complex and have tended to become more stringent over time. If our business expands in certain ways, we may be subject to new and additional regulatory requirements. The FDA and state regulatory authorities have broad inspection and enforcement powers, including the ability to suspend or limit the distribution of products by our distribution centers; seize or order the recall of products; terminate, suspend, or revoke licenses and permits; and impose significant criminal, civil, and administrative sanctions for violations of these laws and regulations. Foreign regulations subject us to similar foreign enforcement powers. In addition, the FDA and other governmental and regulatory authorities, both in and outside the United States (including the FTC, the HHS Office of the Inspector General, the DOJ, and various state Attorneys General), monitor the promotion and advertising of our products. Any adverse regulatory or other action, including any adverse press releases or other communications from regulators, depending on its magnitude, may limit our ability to effectively market, ship, and sell our products, limit our ability to obtain future premarket authorizations, or result in a substantial modification to our business practices and operations.

FDA Premarket Clearance and Approval Requirements

Each medical device we wish to distribute commercially in the United States requires marketing authorization from the FDA prior to distribution, unless the device is exempt from premarket notification requirements. The type of marketing authorization necessary is generally linked to the classification of the device. The FDA classifies medical devices into one of three classes-Class I, II, or III-based on the degree of risk associated with a device and the level of regulatory control deemed necessary to ensure its safety and effectiveness. Class I devices that pose the least risk are subject only to General Controls applicable to all devices, such as requirements for device labeling, premarket notification, and adherence to current good manufacturing practices for devices as set forth in the Quality System Regulation ("QSR"). Class II devices that pose a moderate risk are subject to General Controls and may also be subject to Special Controls, such as performance standards, product-specific guidance documents, special labeling requirements, patient registries, or post-market surveillance. Class III devices are those for which insufficient information exists to assure safety and effectiveness solely through General and Special Controls, including devices that support or sustain human life, are of substantial importance in preventing impairment of human health, or which present a potential unreasonable risk of illness or injury.

Most Class I devices and some Class II devices are exempted by regulation from the 510(k) clearance requirement and can be marketed without prior authorization from the FDA. Class I and II devices that are not exempted are eligible for marketing through the 510(k) clearance pathway. By contrast, devices placed in Class III generally require premarket approval ("PMA") or de novo clearance prior to commercial marketing. The PMA approval process is more stringent, time-consuming and expensive than the 510(k) clearance process; however, the 510(k) clearance process has also become increasingly stringent and expensive. None of our products are currently approved under a PMA, and we have no plans for any indication or system improvement or extension that we believe would require a PMA. If, in the future, we were to file a PMA, we may be subject to additional regulatory requirements.

510(k) Clearance Process

To obtain 510(k) clearance, we must submit a premarket notification to the FDA demonstrating the proposed device to be substantially equivalent to a predicate device. A device is substantially equivalent if, with respect to the predicate device, it has the same intended use and it has either the same technological characteristics, or it has different technological characteristics, but the information provided in the 510(k) submission demonstrates that the device does not raise new questions of safety or effectiveness. The standard review process for 510(k)s is between six to nine months, dependent upon the type of 510(k) filing submitted. Although many 510(k) premarket notifications are cleared without clinical data, in some cases, the FDA may require clinical data to support substantial equivalence. In reviewing a premarket notification, the FDA may request additional information, including clinical data, which may significantly prolong the review process and clearance is never assured. Clinical trials generally require the submission of an investigational device exemption ("IDE") to the FDA for a specified number of patients and study sites, unless the product is deemed a non-significant risk device eligible for more abbreviated IDE requirements. Clinical trials are subject to numerous requirements and institutional review board approval, oversight, and monitoring. Even if a trial is conducted, the results of clinical testing may not adequately demonstrate the safety and effectiveness of the device or be sufficient to obtain FDA clearance or approval for marketing.

After a device receives 510(k) clearance, any subsequent modification of the device that could significantly affect its safety or effectiveness, or that would constitute a major change in its intended use, requires a new 510(k) clearance or could require submission and approval of a de novo 510(k) or a PMA application in cases where new indications are sought for which there is no predicate. Non-significant changes are handled via internal documentation by the Company. Each manufacturer must judge the significance of modifications based on FDA 510(k) regulatory requirements and guidance documents. The FDA may review any such decision and may disagree with a manufacturer's determination. If the FDA disagrees with a manufacturer's determination, the FDA may require the manufacturer to cease marketing and distribution and/or recall the modified device until 510(k) clearance or PMA approval is obtained. In the future, we may make modifications to our products after they have received FDA clearance and, in appropriate circumstances, determine that new clearance is unnecessary. However, the FDA may disagree with our determination, and, if the FDA requires us to seek 510(k) clearance or submit new PMA applications for any modifications to a previously cleared product, we may be required to cease marketing or distributing or recall the modified device until we obtain the required clearance or approval. We may also market or acquire products that are marketed without a 510(k) clearance, appropriate labeling, or that otherwise are marketed in violation of FDA requirements, since medical devices can be marketed only for the indications for which they are cleared or approved. Under these circumstances, we may also be subject to warning letters, significant regulatory fines, or other penalties, and we may no longer be able to market particular products for which a 510(k) clearance is required.

Post-Marketing Requirements

Numerous FDA regulatory requirements apply to devices we manufacture and distribute, including: compliance with the QSR, which require manufacturers and their suppliers to follow the applicable design, testing, processes, control, documentation, labeling, and other quality assurance procedures during the manufacturing process; establishment registration, which requires establishments involved in the production and distribution of medical devices intended for commercial distribution in the United States to register with the FDA; medical device listing, which requires manufacturers to list the devices they have in commercial distribution with the FDA; labeling regulations, which prohibit "misbranded" devices from entering the market, as well as prohibit the promotion of products for unapproved or off-label uses and impose other restrictions on labeling; post-market surveillance, including medical device reporting requirements which requires manufacturers to report to the FDA if their device may have caused or contributed to a death or serious injury, or malfunctioned in a way that would likely cause or contribute to a death or serious injury if it were to recur; and corrections and removal reporting regulations, which require that manufacturers report to the FDA field corrections and product recalls or removals if undertaken to reduce a risk to health posed by the device or to remedy a violation of the Federal Food, Drug, and Cosmetic Act that may present a risk to health. The FDA and other governmental and regulatory authorities actively enforce the laws and regulations prohibiting the promotion of off-label uses, and a company that is found to have improperly promoted off-label uses may be subject to significant liability.

The FDA enforces these requirements by inspection and market surveillance. Domestic facility records and manufacturing processes are subject to periodic unscheduled inspections by the FDA. The FDA may also inspect foreign facilities that export products to the United States. Failure to comply with applicable regulatory requirements may result in enforcement action or other actions by the FDA, which may include one or more of the following sanctions: adverse press releases and safety communications; requests to stop shipments; untitled letters or warning letters; fines, injunctions, and civil penalties; mandatory recall or seizure of our products; customer notifications and repairs or replacements; administrative detention or banning of our products; consent decrees; operating restrictions, partial suspension or total shutdown of production; refusing our request for 510(k) clearances for new product versions or modifications to existing product versions; revocation of 510(k) clearances previously granted; refusal to grant export approval for our products; and criminal prosecution and penalties. If any of these events were to occur, they could have a material adverse effect on our business, financial condition, and results of operations.

International Regulation of Medical Devices

Sales of medical devices outside the United States are subject to foreign government regulations, which vary substantially from country to country. In order to market our products in other countries, we must comply with applicable regulatory requirements and authorizations and approvals and safety and quality regulations in each country in which the product is marketed. The time required to obtain authorization, approval, or certification by a foreign country may be longer or shorter than that required for FDA clearance, and the requirements may differ significantly.

EU Regulation of Medical Devices

In the European Union ("EU") until May 25, 2021, medical devices were regulated by the Council Directive 93/42/EEC, which has been repealed and replaced by the Medical Device Regulation ("EU MDR"). Unlike directives, regulations are directly applicable in all EU member states without the need for member states to implement into national law. The EU extended the EU MDR transitional periods for certain medical devices until December 31, 2027 or December 31, 2028, depending on a device's risk class and subject to certain conditions to ensure continued access to medical devices for patients and to allow medical devices already placed on the market in accordance with the current legal framework to remain on the market, provided that the requirements of the transitional provisions are fulfilled.

In the EU, there is currently no premarket government review of medical devices. However, all medical devices placed on the EU market must meet general safety and performance requirements, and compliance with the general safety and performance requirements is a prerequisite for European conformity marking without which medical devices cannot be marketed or sold in the EU. EU MDR requirements regarding the distribution, marketing, and sale, including quality systems and post-market surveillance, have to be observed by manufacturers, importers, and distributors as of the application date (i.e., since May 26, 2021), including registration of economic operators and of devices (once the relevant modules of Eudamed are functional), surveillance, and vigilance requirements. The aforementioned EU rules are generally applicable in the European Economic Area which consists of the 27 EU member states plus Norway, Liechtenstein, and Iceland.

The NDA Approval Process

For any new drug products regulated under the Federal Food, Drug, and Cosmetic Act such as our ReadyPrep CHG cloth, a sponsor must submit a New Drug Application ("NDA"), to the FDA for review and approval. The NDA review and approval process may take multiple years and involves steps including the following:

- completion of preclinical studies and analytical and stability testing in accordance with applicable regulations;
- submission to the FDA of an Investigational New Drug ("IND") application, which must become effective before clinical trials may begin and must be updated annually and amended when certain changes are made;
- approval by an institutional review board, or IRB, or independent ethics committee, or IEC, at each clinical trial site before each trial may be initiated;
- performance of adequate and well-controlled clinical trials in accordance with applicable IND regulations, good clinical practice, or GCP, requirements, including informed consent, financial disclosure by investigators, and other clinical trial-related regulations, to establish the safety and efficacy of the investigational product for each proposed indication and other condition of use;
- preparation and submission to the FDA of an NDA;

- satisfactory completion of one or more FDA pre-approval inspections of the manufacturing facility or facilities where the drug will be produced to assess compliance;
- satisfactory completion of FDA inspection of select clinical trial sites involved in conducting pivotal studies that generated the data in support of the NDA;
- payment of user fees for FDA review of the NDA; and
- FDA review and approval of the NDA, including of the proposed prescribing information and, where applicable, consideration of the views of any FDA advisory committee, prior to any commercial marketing or sale of the drug in the United States.

Any approvals that we may ultimately receive could be withdrawn if required post-marketing trials or analyses do not meet the FDA requirements, which could materially harm the commercial prospects for our products.

Even if a product candidate receives regulatory approval, the approval may be limited to specific disease states, patient populations and dosages, or might contain significant limitations on use in the form of warnings, precautions or contraindications, or in the form of onerous risk management plans, restrictions on distribution, or post-marketing study requirements. Further, even after regulatory approval is obtained, later discovery of previously unknown problems with a product may result in restrictions on the product or even complete withdrawal of the product from the market. Delay in obtaining, or failure to obtain, regulatory approval for our candidate products, or obtaining approval but for significantly limited use, would harm our business. In addition, we cannot predict what adverse governmental regulations may arise from future U.S. or foreign governmental action.

Trade Regulations

The movement of products, services, and investment across borders subjects us to extensive trade regulations. A variety of laws and regulations in the countries in which we transact business apply to the sale, shipment, and provision of goods, services, and technology across borders. These laws and regulations govern, among other things, our import, export, and other business activities. We are also subject to the risk that these laws and regulations could change in a way that would expose us to additional costs, penalties, or liabilities. Some governments also impose economic sanctions against certain countries, governments, persons, and entities, both for unlawful or malign conduct and to discourage or prevent entities from abiding by other countries' laws. In addition to our need to comply with such regulations in connection with our direct activities, we also sell and provide goods, technology, and services to agents, representatives, and distributors who may export such items to customers and end-users. If we, or the third parties through which we do business, are not in compliance with applicable import, export control, or economic sanctions laws and regulations, we may be subject to civil or criminal enforcement action and varying degrees of liability. Such actions may disrupt or delay sales of our products or services or result in restrictions on our distribution and sales of products or services that may materially impact our business.

Anti-Boycott Laws

Under U.S. laws and regulations, U.S. companies and their subsidiaries and affiliates are prohibited from participating or agreeing to participate in unsanctioned foreign boycotts in connection with certain business activities, including the sale, purchase, transfer, shipping, or financing of goods or services within the United States or between the United States and countries outside of the United States. If we, or certain third parties through which we sell or provide goods or services, violate U.S. anti-boycott laws and regulations, we may be subject to civil or criminal enforcement action and varying degrees of liability.

09/06/2008	10601 Southport Dr. Orlando, FL 32824 _____ 401 Commerce Blvd. Oldsmar, FL 34677 _____ 4750 118th Ave N Clearwater, FL 33762	**Case #:** 2007-11783; 2007-36555; 2007-38894; 2007-38895; 2007-38896; 2007-39073; 2008-02011; 2008-11215 **Agency:** Florida Department of Health **Entity:** Medline Industries, Inc.; Medline Manufacturing & Services, LLC **Type:** Administrative **Disposition:** Settlement Agreement **Summary:** Medline Industries Inc. and Medline Manufacturing & Services, LLC was cited for several violations related to distribution centers in Florida, including, failure to pass and maintain a Florida compliant pedigree, maintaining the wrong permit type for the activities performed (Florida required a repackager permit in addition to the existing manufacturer permit), distribution of saline to an unauthorized recipient, and storage of a prescription drug in an unlicensed raw materials storage facility. Medline challenged several violations, resulting in most being substantially reduced or removed. All issues were addressed and resolved to the satisfaction of the FL DOH. A settlement agreement was reached to resolve all matters and approved on 09/06/2008. **Corrective Actions** Medline instituted a Florida specific pedigree system to address the pedigree issues. The updated pedigree ensures that all applicable shipments to Florida have the required Florida documentation and comply with FL pedigree requirements (Note - these requirements have since been preempted by the federal Drug Supply Chain Security Act). Medline secured the repackaging permit to address the missing permit type. Medline instituted a new procedure for obtaining and maintaining customer licenses for all prescription drug purchases- this procedure generates an automatic block for any prescription drug order by an unlicensed customer. The prescription drug item unintentionally stored in the raw materials facility was properly disposed of and waste disposal procedures updated to prevent this from occurring in the future.

SETTLEMENT AGREEMENT BETWEEN STATE BOARD OF PHARMACY AND MEDLINE INDUSTRIES, INC.

Come now Medline Industries, Inc. ("Respondent") and the Missouri Board of Pharmacy ("Board" or "Petitioner") and enter into this Settlement Agreement for the purpose of resolving the question of whether Respondent's license as a drug distributor will be subject to discipline.

Pursuant to the terms of § 536.060, RSMo (2000), the parties hereto waive the right to a hearing by the Administrative Hearing Commission of the State of Missouri and, additionally, the right to a disciplinary hearing before the Board under § 621.110, RSMo (2000), and stipulate and agree that a final disposition of this matter may be effectuated as described below.

Respondent acknowledges that it understands the various rights and privileges afforded it by law, including the right to a hearing of the charges against it; the right to appear and be represented by legal counsel; the right to have all charges against it proved upon the record by competent and substantial evidence; the right to cross-examine any witnesses appearing at the hearing against it; the right to a decision upon the record by a fair and impartial administrative hearing commissioner concerning the charges pending against it and, subsequently, the right to a disciplinary hearing before the Board at which time it may present evidence in mitigation of discipline; and the right to recover attorney's fees incurred in defending this action against its license. Being aware of these rights provided it by operation of law, Respondent knowingly and voluntarily waives each and every one of these rights and freely enters into this Settlement Agreement and agrees to abide by the terms of this document, as they pertain to it.

Respondent acknowledges that it has received a copy of the draft complaint to be filed with the Board, the investigative report, and other documents relied upon by the Board in determining there was cause for discipline against Respondent's license. For the purpose of settling this dispute, Respondent stipulates that the factual allegations contained in this

Settlement Agreement are true and stipulates with the Board that Respondent's temporary license as a drug distributor, License Number DD2003031660, is subject to disciplinary action by the Board in accordance with the provisions of Chapter 621 and Chapter 338, RSMo 2000. 1. Respondent's drug distributor license shall be placed on PROBATION for five (5) years pursuant to the provisions of Chapters 338 and 620, RSMo. During the period of

probation, Respondent will be entitled to operate as a drug distributor pursuant to Chapter 338, RSMo provided Respondent adheres to the following terms of probation:

A. Respondent shall report to the Board, on a preprinted form supplied by the Board office, once every six (6) months, beginning six (6) months after this Order/Agreement becomes effective, stating truthfully whether or not it has complied with all terms and conditions of this disciplinary order.

B. Respondent shall pay all required fees for licensing to the Board and shall renew its license prior to October 31 for each licensing year.

C. Respondent shall comply with all provisions of Chapter 338, Chapter 195, and all applicable federal and state drug laws, rules and regulations and with all federal and state criminal laws. "State" here includes the State of Missouri and all other states and territories of the United States.

D. If, after disciplinary sanctions have been imposed, Respondent ceases to keep its Missouri license current, the period of unlicensed status shall not be deemed or taken as any part of the time of discipline so imposed.

E. The parties to this Order/Agreement understand that the Board of Pharmacy will maintain this Order/Agreement as an open record of the Board as provided in Chapters 338, 610 and 620, RSMo.

2. Upon the expiration of said discipline, Respondent's license as a drug distributor in Missouri shall be fully restored if all other requirements of law have been satisfied; provided, however, that in the event the Board determines that the Respondent has violated any term or condition of this Settlement Agreement, the Board may, in its discretion, after an evidentiary

hearing, vacate and set aside the discipline imposed herein and may suspend, revoke, or otherwise lawfully discipline the Respondent.

3. No order shall be entered by the Board pursuant to the preceding paragraph of this Settlement Agreement without notice and an opportunity for hearing before the Board in accordance with the provisions of Chapter 536, RSMo.

4. If the Board determines that Respondent has violated a term or condition of this Settlement Agreement, which violation would also be actionable in a proceeding before the Administrative Hearing Commission or the circuit court, the Board may elect to pursue any lawful remedies or procedures afforded it and is not bound by this Settlement Agreement in its determination of appropriate legal actions concerning that violation. If any alleged violation of this Settlement Agreement occurred during the disciplinary period, the Board may choose to conduct a hearing before it either during the disciplinary period, or as soon thereafter as a hearing can be held to determine whether a violation occurred and, if so, it may impose further discipline. The Board retains jurisdiction to hold a hearing to determine if a violation of this Settlement Agreement has occurred.

5. The terms of this Settlement Agreement are contractual, legally enforceable, binding, and not merely recitals. Except as otherwise contained herein, neither this Settlement Agreement nor any of its provisions may be changed, waived, discharged, or terminated, except by an instrument in writing signed by the party against whom the enforcement of the change, waiver, discharge, or termination is sought.

6. Respondent hereby waives and releases the Board, its members and any of its employees, agents, or attorneys, including any former board members, employees, agents, and

attorneys, of, or from, any liability, claim, actions, causes of action, fees, costs and expenses, and compensation, including, but not limited to, any claims for attorney's fees and expenses, including any claims pursuant to § 536.087, RSMo, or any claim arising under 42 U.S.C. § 1983, which may be based upon, arise out of, or relate to any of the matters raised in this litigation, or from the negotiation or execution of this Settlement Agreement. The parties acknowledge that this paragraph is severable from the remaining portions of this Settlement Agreement in that it survives in perpetuity even in the event that any court of law deems this Settlement Agreement or any portion thereof void or unenforceable.

Andrew Stolarski
Vice President of Operations
Medline Industries, Inc.
9101 Riverside Parkway
Lithia Springs, GA 30122

RE: Prescription Drug Wholesaler Permit No. 23:01470

Dear Mr. Stolarski:

This letter serves as notification that the department intends to suspend permit no. 23:01470 issued to Medline Industries, Inc. as an Out of State Prescription Drug Wholesaler based upon the following facts, grounds and considerations:

Section 499.067(1)(a), Florida Statutes (F.S.), authorizes the department to deny, suspend, or revoke a permit if it finds that there has been substantial failure to comply with § 499.001-499.081, F.S., or Chapter 465, Chapter 501, or Chapter 893, the rules adopted under any of those sections or chapters, any final order of the department, or applicable federal laws or regulations or other state laws or rules governing drugs, devices, or cosmetics. The department may also suspend a permit if the applicant has not met the requirements for the permit.

Pursuant to s. 499.012(11)(a), F.S., each establishment that is issued an initial or renewal permit as a prescription drug wholesaler or an out-of-state prescription drug wholesaler must designate in writing to the department at least one natural person to serve as the designated representative of the wholesaler. Such person must have an active certification as a designated representative from the department and must also meet the requirements of Section 499.012 (11) (d) F.S.

Pursuant to s. 499.012(11)(f), F.S., a wholesale distributor may not operate under a prescription drug wholesaler permit or an out-of-state prescription drug wholesaler permit for more than 10 business days after the designated representative leaves the employ of the wholesale distributor, unless the wholesale distributor employs another designated representative and notifies the department within 10 business days of the identity of the new designated representative. Mr. David L. Magruder, the designated representative identified for permit no. 23:01470 has resigned his position. We have not received a "Notification of Designated Representative" form identifying a certified individual to replace him. As a result Medline Industries, Inc. does not have a designated representative as required by s. 499.012(11), F.S.

Pursuant to s. 499.012(11)(b)4., F.S., to be certified as a designated representative, a person must receive a passing score of at least 75 percent on an examination given by the department regarding federal laws governing distribution of prescription drugs and ss. 499.001-499.081 and the rules adopted by the department governing the wholesale distribution of prescription drugs.

Accordingly, and pursuant to the above referenced facts and law, the department hereby intends to suspend permit no. 23:01470 issued to Medline Industries, Inc. as an Out of State Prescription Drug Wholesaler because you have not complied with s. 499.012(11)(f), F.S. and otherwise do not have a designated certified representative on file with the Department that meets the requirements of Section 499.012 (11) F.S. which is a substantial failure to comply with ss. 499.001 – 499.081, F.S. and is a failure to meet the requirements for the permit, for which the suspension is authorized pursuant to Sections 499.067 (1) (a); 499.067 (1) (b) 2. F.S.

Therefore, the department concludes that Medline Industries, Inc. no longer meets the requirements to continue to operate as an Out of State Prescription Drug Wholesaler in Florida and the permit will be suspended until you have designated in writing to the department a person with an active certification to serve as a designated representative who meets the requirements of Section 499.012 (11) F.S.

NOTICE OF RIGHTS TO HEARING AND APPEAL

This letter will acknowledge receipt of your response dated 4/3/2008. This letter is also intended to respond to any inquiries you may have regarding the deficiencies found during the inspection which occurred on 3/5/2008 at MEDLINE INDUSTRIES, INC.'s Covington LA distribution facility.

Pursuant to the Louisiana Revised Statutes and Louisiana Administrative Codes, specifically LAC 46:XCI.311.D, a licensee should maintain copies of current licenses which authorizes a customer to procure and possess legend drugs and devices. If these customer licenses are maintained off site, a list of customers including customer names, addresses, license number, and the license expiration dates shall be maintained for all customers that are shipped or sold drugs or devices.

On 3/5/2008, the Board's inspector discovered that copies of customer licenses which authorize the customer to procure and possess legend drugs/devices or a listing of customers' license information were not being maintained at the Covington LA facility.

A verbal request was made by the inspector of a customer list which should have been maintained at the Covington LA facility. After receiving and reviewing a copy of the customer list, as referred to by Medline as their "Pedigree List", the inspector requested copies of 30 customer licenses from the listing. Of the requested customer license copies, the inspector found that 70% of the licenses requested were either not acceptable licenses or were not available.

It is evident that MEDLINE INDUSTRIES, INC. was in violation of LAC 46:XCI.311.D at the time of the inspection on 3/5/2008. The Louisiana Revised Statutes and Louisiana Administrative Codes for wholesale drug distributors, more particularly LA RS 37:3474.1, provides that, after due notice and hearing, MEDLINE INDUSTRIES, INC.'s license may be sanctioned and/or it may be assessed a fine for its actions or omissions. Fines alone may include an assessment of $1,000 per violation

per day. It is the Board's objective to regulate the industry by correcting behavior. Such is accomplished by imposing sanctions for wrongful conduct.

It is hoped that the above detailed violation(s) as corrected will not occur in the future. Therefore, in an effort to amicably resolve the issues regarding the violation(s) which did occur, I, as the Board's appointed investigating/compliance officer, extend an offer to you which would impose a total fine of $2,000. This proposed sanction does not impose any restrictions on MEDLINE INDUSTRIES, INC.'s license.

If MEDLINE INDUSTRIES, INC. is agreeable to these terms, I have enclosed a Consent Order for your review and execution. Please have an authorized representative for your company sign the Consent Order in front of a Notary and two witnesses. Return the original, executed Consent Order along with a check made to the Louisiana Board of Wholesale Drug Distributors in the amount of the $2,000 fine to the Board's office within fifteen (15) days of receipt of this letter. You and/or a company representative will not be required to attend the evidentiary hearing at which the executed Consent Order will be presented to the full Board for acceptance, however you and/or another representative are welcome to attend.

In the event MEDLINE INDUSTRIES, INC. is not agreeable to this amicable resolution and wishes to contest the investigative findings in a hearing before the full Board, it has the right to do so. If such occurs, the current offer being proposed in this letter will no longer be viable.

We would like to bring this matter to disposition either by this amicable resolution or the pursuit of a formal hearing against MEDLINE INDUSTRIES, INC. before the Board at the next scheduled Board meeting. To do so, either way, we will need to prepare the necessary paperwork with all resolution documents. Again, please respond to this offer either by returning the executed Consent Order and fine payment or by written request for an administrative hearing. If your response is not received at the Board office within fifteen (15) days of receipt of this letter, the Board will begin steps towards the formal hearing with the issuance of subpoenas for witnesses and records.

We wish to keep an open line of communication with you. Please contact the Board office in the event you have any questions. Thank you for your cooperation in this matter.

Respectfully,

Wayne Gremillion
Board Member/Compliance Officer

Re: RICO Case No. PHA 2008-71-L

Dear Ms. Wolfe:

I received the signed Settlement Agreement. One correction had to be made, and I apologize that we did not notice this earlier. On page 3, paragraph 5, the citation to HRS section 436B-19(13) was changed to HRS section 436B-19(15) which is the correct citation. Enclosed is a copy of the corrected replacement page. I will now forward the document to the executive officer of the Board of Pharmacy, and we will be notified as to whether it gets approved or not by the Board.

Very truly yours,

6. Respondent enters into this Settlement Agreement as a compromise of the claims and to conserve on the expenses of proceeding with an administrative hearing on this matter.

7. Respondent agrees that this Settlement Agreement is intended to resolve the issues raised in RICO's investigation in RICO Case No. PHA 2008-17-L.

11. Complete Agreement. This Settlement Agreement is a complete settlement of the rights, responsibilities and liabilities of the parties hereto with respect to the subject matter hereof; contains the entire agreement of the parties; and may only be modified, changed or amended by written instrument duly executed by all parties hereto.

Provide explanation below:

Medline Industries Inc. and Medline Manufacturing & Services, LLC was cited for several violations related to distribution centers in Florida, including, failure to pass and maintain a Florida compliant pedigree, maintaining the wrong permit type for the activities performed (Florida required a repackager permit in addition to the existing manufacturer permit), distribution of saline to an unauthorized recipient, and storage of a prescription drug in an unlicensed raw materials storage facility. Medline challenged several violations, resulting in most being substantially reduced or removed. All issues were addressed and resolved to the satisfaction of the FL DOH. A settlement agreement was reached to resolve all matters and approved on 09/06/2008.

Corrective Actions
Medline instituted a Florida specific pedigree system to address the pedigree issues. The updated pedigree ensures that all applicable shipments to Florida have the required Florida documentation and comply with FL pedigree requirements (Note - these requirements have since been preempted by the federal Drug Supply Chain Security Act). Medline secured the repackaging permit to address the missing permit type. Medline instituted a new procedure for obtaining and maintaining customer licenses for all prescription drug purchases- this procedure generates an automatic block for any prescription drug order by an unlicensed customer. The prescription drug item unintentionally stored in the raw materials facility was properly disposed of and waste disposal procedures updated to prevent this from occurring in the future.

Dear Ms. Hornick:

As you know, an inspector for the Department of Regulation and Licensing inspected Medline Industries on May 9, 2008. He found that several policies were missing, and the facility was storing prescription drugs in a non-secure location. It has been determined that these violations are grounds for discipline. I am the prosecuting attorney assigned to the case.

I have enclosed a proposed stipulation and order, which would resolve this matter without a hearing. If you are willing to resolve this case by agreement, please sign and return the stipulation and order by **December 9, 2008**. I will then present it to the Pharmacy Examining Board at its next meeting. The stipulation and order is not binding unless and until it is accepted by the board.

If you do not return the signed stipulation and order by December 9, 2008, I will file a formal complaint and initiate the hearing process. Please be aware that it is the policy of the Department to assess costs against respondents whenever any discipline is imposed. Your costs are presently $100. If we have to take this matter through a hearing, they will escalate quickly and could reach several thousand dollars.

Please call if you have any questions.

Sincerely,

Jeanette Lytle

SETTLEMENT AGREEMENT PRIOR TO FILING OF PETITION
FOR DISCIPLINARY ACTION AND BOARD'S FINAL ORDER

Petitioner, DEPARTMENT OF COMMERCE AND CONSUMER AFFAIRS' REGULATED INDUSTRIES COMPLAINTS OFFICE (hereinafter "RICO" or "Petitioner"), through its undersigned attorneys, and Respondent MEDLINE INDUSTRIES INC. (hereinafter "Respondent"), enter into this Settlement Agreement on the terms and conditions set forth below.

A. UNCONTESTED FACTS

1. At all relevant times herein, Respondent was licensed by the Board of Pharmacy (hereinafter the "Board") as a wholesale prescription drug distributor under License Number PWD 115. The license was issued on or about October 3, 2005. The license will expire on or about December 31, 2009.

I HEREBY CERTIFY THAT THE ATTACHED IS A TRUE AND CORRECT COPY OF THE ORIGINAL ON FILE IN THE DEPARTMENT OF COMMERCE & CONSUMER AFFAIRS.

2. Respondent's mailing address for purposes of this action is Dianna Wolfe, Corporate Regulatory Affairs Specialist, Medline Industries, Inc., One Medline Place, Mundelein, Illinois 60060.

3. Respondent timely reported that disciplinary action had been taken against Respondent by the State of Wisconsin. Respondent had entered into a Stipulation with the State of Wisconsin's Pharmacy Examining Board. Pursuant to the terms of a Final Order, Respondent was reprimanded and ordered to pay a forfeiture in the amount of $2,000.00. This action was based on the results of an inspection which revealed that certain policies were missing and that Respondent was storing pre-packaged kits for surgeries (which included various types and quantities of prescription drugs) in a warehouse that was shared with another company. These kits were not secured and employees of the other company had access to the kits. A true and correct copy of the Stipulation and Final Decision and Order which was approved on February 4, 2009 is attached as Exhibit "1."

4. RICO alleges that Respondent was disciplined by another state for a reason provided by the licensing laws in Hawaii. Specifically, the Respondent was disciplined for professional misconduct.

5. The foregoing allegations, if proven at an administrative hearing before the Board, would constitute violations of the following statute(s) and/or rule(s): Hawaii Revised Statutes ("HRS") § 436B-19(13) (disciplinary action by another state) and § 461-21(a)(2) (professional misconduct). Per Hawaii Administrative Rules §§ 16-95-30(c)(6) and (9), a licensee's facility must be secure from unauthorized entry and entry into areas where prescription drugs are held must be limited to authorized personnel.

6. The Board has jurisdiction over the subject matter herein and over the parties hereto.

B. REPRESENTATIONS BY RESPONDENT:

1. Respondent is fully aware that Respondent has the right to be represented by an attorney and voluntarily waives that right.

2. Respondent enters into this Settlement Agreement freely, knowingly, voluntarily, and under no coercion or duress.

3. Respondent is aware of the right to have a hearing to adjudicate the issues in the case. Pursuant to HRS § 91-9(d), Respondent freely, knowingly, and voluntarily waives the right to a hearing and agrees to dispose of this case in accordance with the terms and conditions of this Settlement Agreement.

4. Respondent being at all times relevant herein licensed as a wholesale prescription drug distributor by the Board acknowledges that Respondent is subject to penalties including but not limited to, revocation, suspension or limitation of the license and administrative fines, if the foregoing allegations are proven at hearing.

5. Respondent does not admit to violating any law or rule, but acknowledges that RICO has sufficient cause to file a Petition for Disciplinary Action against Respondent's license.

6. Respondent enters into this Settlement Agreement as a compromise of the claims and to conserve on the expenses of proceeding with an administrative hearing on this matter.

7. Respondent agrees that this Settlement Agreement is intended to resolve the issues raised in RICO's investigation in RICO Case No. PHA 2009-7-L.

C. TERMS OF SETTLEMENT:

1. Administrative fine. Respondent agrees to pay a fine in the amount of ONE THOUSAND AND NO/100 DOLLARS ($1,000.00). Payment shall be made by **cashier's check, company check, or money order made payable to "DCCA - Compliance Resolution Fund"** and mailed to the Regulated Industries Complaints Office, Attn: Bobbi Lum-Mew, Esq., 235 S. Beretania Street, 9th Floor, Honolulu, Hawaii 96813. Payment of the fine shall be due within thirty (30) days after this Settlement Agreement is approved by the Board.

2. Failure to Comply with Settlement Agreement. If Respondent fails to fully and timely comply with the terms of this Settlement Agreement as set forth in paragraph C.1 above, Respondent's license shall be automatically revoked upon RICO's filing of an affidavit with the Board attesting to such failure. In case of such revocation, Respondent shall turn in all indicia of the license to the Executive Officer of the Board within ten (10) days after receipt of notice of the revocation. In case of such revocation, Respondent understands Respondent cannot apply for a new license until the expiration of at least five (5) years after the effective date of the revocation. Respondent understands that if Respondent desires to become licensed again, Respondent must apply to the Board for a new license pursuant to and subject to HRS §§ 92-17, 436B-21, and all other applicable laws and rules in effect at the time.

3. Possible further sanction. The Board, at its discretion, may pursue additional disciplinary action as provided by law to include further fines and other sanctions as the Board may deem appropriate if Respondent violates any provision of the statutes or rules governing the conduct of wholesale prescription drug distributors in the State of Hawaii, or if Respondent fails to abide by the terms of this Settlement Agreement.

4. Approval of the Board. Respondent agrees that, except for the representations, agreements and covenants contained in Paragraphs C.5, C.6, C.7 and C.8 below, this Settlement Agreement shall not be binding on any of the parties unless and until it is approved by the Board.

5. No Objection if Board Fails to Approve. If the Board does not approve this Settlement Agreement, does not issue an order pursuant thereto, or does not approve a lesser remedy, but instead an administrative hearing is conducted against Respondent in the Board's usual and customary fashion pursuant to the Administrative Procedure Act, Respondent agrees that neither Respondent nor any attorney that Respondent may retain, will raise as an objection in any administrative proceeding or in any judicial action, to the Board's proceeding against Respondent on the basis that the Board has become disqualified to consider the case because of its review and consideration of this Settlement Agreement.

6. Any Ambiguities Shall be Construed to Protect the Consuming Public. It is agreed that any ambiguity in this Settlement Agreement is to be read in the manner that most completely protects the interests of the consuming public.

7. No Reliance on Representations by RICO. Other than the matters specifically stated in this Settlement Agreement, neither RICO nor anyone acting on its behalf has made any representation of fact, opinion or promise to Respondent to induce entry into this Settlement Agreement, and Respondent is not relying upon any statement, representation or opinion or promise made by RICO or any of its agents, employees, representatives or attorneys concerning the nature, extent or duration of exposure to legal liability arising from the subject matter of this Settlement Agreement or concerning any other matter.

8. Complete Agreement. This Settlement Agreement is a complete settlement of the rights, responsibilities and liabilities of the parties hereto with respect to the subject matter hereof; contains the entire agreement of the parties; and may only be modified, changed or amended by written instrument duly executed by all parties hereto.

IN WITNESS WHEREOF, the parties have signed this Settlement Agreement on the date(s) set forth below.

STATE OF COLORADO

Case No. 2010-002994

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF DISCIPLINARY PROCEEDINGS REGARDING THE LICENSE TO PRACTICE AS A OUT-OF-STATE WHOLESALER IN THE STATE OF COLORADO OF MEDLINE INDUSTRIES, INC.,

Wholesaler Applicant.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and Medline Industries, Inc. ("Wholesaler Applicant") to resolve all matters pertaining to Board Case Number 2010-002994 as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Wholesaler Applicant, its application for registration as an out-of-state wholesaler and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the provisions of the Pharmaceuticals and Pharmacists Act at Title 12, Article 22, C.R.S.

2. Wholesaler Applicant admits these findings and hereby waives any further proof in this proceeding before the Board regarding the following facts.

3. Wholesaler Applicant entered into a Settlement Agreement with the Missouri State Board of Pharmacy, which was effective on August 3, 2005 ("Missouri Settlement Agreement").

4. In the Missouri Settlement Agreement, Wholesaler Applicant was placed on probation for five (5) years for various violations of Missouri state and federal law involving recordkeeping, storage of prescription drugs, change of location without informing the Missouri Board of Pharmacy, lack of a policy and procedure manual, and distribution of prescription drugs under a lapsed registration.

5. Wholesaler Applicant's conduct, as set forth above, constitutes violations of the following sections of the Colorado Revised Statutes:

12-22-125. Unprofessional conduct - grounds for discipline.

(1) The board may suspend, revoke, refuse to renew, or otherwise discipline any license or registration issued by it, after a hearing held in accordance with the provisions of this section, upon proof that the licensee or registrant:

(c) Has violated:

(III) Any state or federal law pertaining to drugs.

12-22-125.2. Disciplinary actions.

(1) The board may deny or discipline an applicant, licensee, or registrant when the board determines that such applicant, licensee, or registrant has engaged in activities that are grounds for discipline.

6. On January 14, 2010, Wholesaler Applicant submitted an out-of-state wholesaler application, which application was denied by the Board.

7. On March 1, 2010, Wholesaler Applicant submitted a written request asking that the Board accept its application by granting a conditional license.

8. The Board finds and concludes, and Wholesaler Applicant agrees, that based upon Wholesaler Applicant's above-described violations of the Pharmaceuticals and Pharmacists Act and relevant rules and regulations, the following discipline is just and appropriate under the circumstances as a condition of its registration as an out-of-state wholesaler.
