		Observation	Inspector Notes	USP Reference(s)
18.3	The equipment and devices used for compounding CNSPs are clean and stored in a manner and frequency that minimizes the risk of contamination. ***Inspector note: Per USP <795>, "After compounding, the equipment must be cleaned to prevent cross contamination of the next preparation." Additionally, per Table 2:*** ***- CVE/BSC are cleaned and sanitized at the beginning and end of each shift when compounding occurs, after spills, and when surface contamination (e.g., from splashes) is known or suspected;*** ***- CVE/BSC horizontal surfaces are cleaned and sanitized between compounding of different components;*** ***- Under the work surface of a BSC is cleaned and sanitized at least monthly; and*** ***- Other devices and equipment used in compounding are cleaned before initial use, in between compounding CNSPs with different components, and following manufacturer recommendations.*** ***If no, inspector should describe observations.***	No	Clean equipment is stored next to the sink without any protective covering or barrier once cleaned.	6.1 Table 2
18.4	Equipment and devices used in compounding or testing of CNSPs are inspected prior to use (to ensure they are in good working order). ***Inspector note: For example, the pharmacy may need to tare a scale and/or balance prior to use.***	Yes		6.1
18.5	Equipment and devices are verified for accuracy as recommended by the manufacturer (at the frequency recommended by the manufacturer or at least every 12 months, whichever is more frequent). ***If the pharmacy does not compound CNSPs that require equipment or devices that must be calibrated for accuracy (such as ones needed for weighing or measuring), the inspector should answer this statement as N/A.***	N/A	No scales or mechanical devices are used for compounding.	6.1

		Observation	Inspector Notes	USP Reference(s)
18.6	If a CVE or BSC is used by the pharmacy, it is certified at least every 12 months, according to the manufacturer specifications or regulations of the applicable regulatory jurisdiction. ***If the pharmacy does not have the record or documentation of the certification and maintenance of the CVE/BSC, the inspector should answer this statement as no. If the pharmacy does not have a CVE or BSC, the inspector should answer this statement as N/A.***	N/A		6.1
19.0	Does the pharmacy compounding CNSPs use APIs?	No		6.2
20.0	Does the pharmacy select APIs that comply with the requirements in USP <795> standards? ***Verify by selecting products from the shelf from different suppliers and ask to see the COAs for those products.*** ***If no, go to compliance statements.***	N/A		6.2.1
20.1	APIs comply with criteria in the USP-NF monograph, if one exists. ***If the pharmacy does not compound any CSPs that have an available USP monograph, the inspector should answer this statement as N/A.***	N/A		6.2.1
20.2	All APIs used have a COA that includes the specifications (eg, compendial requirements for quality) and that the test results for the component show the API meets expected quality. ***Inspector note: Per USP, the API should be checked to ensure it is pharmaceutical grade and meets the requirements in the chemical monograph. COA will report an assay has been performed and will include water content (so any corrections/calculations can be performed).***	N/A		6.2.1

20.3	All APIs used are manufactured by an FDA-registered facility. ***Inspector note: This is a Federal Food, Drug, and Cosmetic Act, Section 503A, requirement as well. Inspector should verify the pharmacy looks up the name of the manufacturer listed on the COA to determine if they are registered as an FDA drug establishment https://dps.fda.gov/decrs.***	N/A		6.2.1
21.0	When formulations indicate the inclusion of water, is purified water or better quality (eg, sterile water for irrigation) used in compliance with USP <795> standards?	No	Distilled water is used for compounding.	6.2.1
22.0	What type(s) of water is used for compounding CNSP? ***List the type(s) in the Inspector Notes.***		Distilled water is used for compounding.	6.2.1
23.0	Do the pharmacy's component receipt processes comply with the requirements in USP <795> standards? ***If no, go to compliance statements.***	N/A		6.2.2
23.1	For non-conventionally manufactured components, the COA is reviewed upon receipt. ***Inspector note: Per USP, "the COA must be reviewed to ensure that the component has met the acceptance criteria in an appropriate USP–NF monograph, if one exists." Pharmacy's review should be documented. Alternatively, the pharmacy can demonstrate how it's been reviewed (for example, there are notes to show a water content calculation back to 100% based on the specific COA). Inspector can verify the COA is retrievable.***	N/A		6.2.2

		Observation	Inspector Notes	USP Reference(s)
36.5	The BUD assigned to the CNSP does not exceed the shortest remaining expiration date of any of the commercially available starting components.	Yes		10.4
37.0	Does the pharmacy ensure the assigned BUD does not exceed the shortest BUD of any individual compounded components? ***Inspector note: Per USP, "For CNSPs prepared from one or more compounded components, the BUD should generally not exceed the shortest BUD of any of the individual compounded components. However, there may be acceptable instances when the BUD of the final CNSP exceeds the BUD assigned to compounded components (e.g., pH-altering solutions). If the assigned BUD of the final CNSP exceeds the BUD of the compounded components, the physical, chemical, and microbiological quality of the final CNSP must not be negatively impacted." Inspection Date: 10/09/2025 & 10/14/2025

		Observation	Inspector Notes	USP Reference(s)
58.10	The compounding personnel compound the CNSP according to the MFR. ***If no, inspector needs to describe in detail their observations in the Inspector Notes and collect a copy of the MFR and CR (no PHI or PII to be collected).***	Yes		7.1, 7.2 Box 2
58.11	The compounding personnel document any required steps listed in the MFR on the CR. ***Inspector note: This would include any weights, volume, and any in-process checks needed.***	Yes		7.2, 14 Box 3
58.12	Documentation in the CR is legible. ***If no, collect copy of record that is illegible. Redact any PHI on record.***	Yes		14
58.13	The compounding personnel verify the correct BUD in accordance with the MFR requirements in USP <795>.	Yes		10 Table 3, Table 4
58.14	The compounding personnel performed any quality control steps specified in the MFR. ***Inspector note: Examples of this include, but are not limited to: testing of pH for a suspension, weighing of capsules, and visual inspection against product description specifications.*** ***If no, describe observations in Inspector Notes.***	Yes		7.2, 8, 8.1, 12 Box 3
58.15	The compounding personnel placed the CNSP into the proper container closure system.	Yes		8.1 Box 2
58.16	The compounding personnel labeled the CNSP. ***Inspector note: Storage requirements must be included on the label if refrigerated or frozen (so patient can identify the storage temperature requirements).***	Yes	Verbalized by the pharmacy technician.	9

Nonsterile <795> Employee File Records Review

Select the PIC, designated person, a staff pharmacist that checks compounded preparations, and two to three compounding pharmacy technicians. *Do not record the employee name, list only their title or position.
From the drop-down List:
*Mark as "Yes" if the document is present in the records and the competency evaluation was conducted in compliance with USP <795> requirements.
*Mark as "No" if the document is present in the records but is not in compliance with USP <795> requirements.
*Mark as "Missing" if any part of the record is missing and explain in Notes column.
*Mark as "N/A" if the training does not apply (eg, long-term employee may not have initial training available). Document further in the Notes column.

Glossary & References	USP <795>
Active Pharmaceutical Ingredient (API)	Any substance or mixture of substances intended to be used in the compounding of a preparation, thereby becoming the active ingredient in that preparation and furnishing pharmacological activity or other direct effect in the diagnosis, cure, mitigation, treatment, or prevention of disease in humans or animals or affecting the structure and function of the body. Also referred to as a bulk drug substance. A conventionally manufactured drug product is not an API but is typically manufactured from an API(s).
Added Substance	An ingredient that is necessary to compound a preparation but is not intended or expected to cause a pharmacologic response if administered alone in the amount or concentration contained in a single dose of the compounded preparation. The term is used synonymously with inactive ingredient, excipient, and pharmaceutical ingredient.
Administration	The preparation of a nonsterile pharmacologic or other therapeutic agent for ingesting, inserting, applying, or otherwise providing a nonsterile medication in its final form to a single patient. This includes crushing a tablet(s) or opening a capsule(s) to mix with food or liquids to facilitate patient dosing.
Alcohol-based hand rub	An alcohol-containing preparation (liquid, gel, or foam) designed for application to the hands of health care personnel to inactivate microorganisms and/or temporarily suppress their growth. Such preparations may contain one or more types of alcohol, other active ingredients, excipients, and humectants.
Assigned trainer	One or more individuals assigned by the designated person(s) to be responsible and accountable for directly providing the training, observation, and/or evaluation of personnel for the preparation of CNSPs.
Beyond-use date (BUD)	The date, or hour and date, after which a CNSP must not be used, stored, or transported. The date is determined from the date or time the preparation is compounded.
Biological Safety Cabinet (BSC)	A ventilated cabinet that may be used for compounding. These cabinets are divided into three general classes (Class I, Class II, and Class III). Class II BSCs are further divided into types (Type A1, Type A2, Type B1, Type B2, and Type C1).
Bulk drug substance	See the entry for Active Pharmaceutical Ingredient.
Certificate of analysis (COA)	A report from the supplier of a component, container, or closure that accompanies the supplier's material and contains the specifications and results of all analyses and a description of the material.
Cleaning	The process of removing substances (eg, organic and inorganic material) from objects and surfaces, normally accomplished by manually or mechanically using water with detergents or enzymatic products.
Cleaning agent	An agent, usually containing a surfactant, used for the removal of substances (eg, dirt, debris, microbes, and residual drugs or chemicals) from surfaces.
Closed-system processing device	A device designed to reduce the potential exposure to personnel or contamination of the facility or CNSPs. Examples include CVEs, BSCs, or single-use containment glove bags.

Glossary & References	USP <795>
Component	Any ingredient used in the compounding of a preparation, including any API, added substance, or conventionally manufactured product.
Compounded nonsterile preparation (CNSP)	A preparation not intended to be sterile that is created by combining, admixing, diluting, pooling, reconstituting other than as provided in the manufacturer's labeling, or otherwise altering a drug product or bulk drug substance.
Compounding	The process of combining, admixing, diluting, pooling, reconstituting other than as provided in the manufacturer's labeling, or otherwise altering a drug product or bulk drug substance to create a nonsterile preparation.
Compounding area	An area that is specifically designated for nonsterile compounding.
Compounding personnel	Personnel trained to compound or oversee compounding of preparations.
Compounding record (CR)	Documents the compounding of each CNSP.
Container closure system	Packaging system components that together contain and protect the dosage form. This includes primary packaging system components and secondary packaging system components if the latter are intended to provide additional protection.
Containment glove bag	A single-use disposable glove bag that is capable of containing airborne chemical particles.
Containment ventilated enclosure (CVE)	A full or partial enclosure that uses ventilation principles to capture, contain, and remove airborne contaminants through high-efficiency particulate air (HEPA) filtration and to prevent their release into the work environment.
Conventionally manufactured product	A pharmaceutical dosage form, usually the subject of an application approved by the applicable national regulatory agency, that is manufactured under current good manufacturing practice conditions.
Designated person(s)	One or more individuals assigned to be responsible and accountable for the performance and operation of the facility and personnel as related to the preparation of CNSPs.
FDA	US Food and Drug Administration
Formulation	The specific qualitative and quantitative composition of the final CNSP.
Hazardous Drug (HD)	Any drug identified by at least one of the following criteria: carcinogenicity, teratogenicity or developmental toxicity; reproductive toxicity in humans; organ toxicity at low dose in humans or animals; genotoxicity or new drugs that mimic existing HDs in structure or toxicity. See <800>.
Label	The part of the labeling on the immediate container.
Labeling	All labels and other written, printed, or graphic matter on the immediate container or on or inside any packaging system or wrapper in which the article is enclosed, except for any outer shipping container.

Glossary & References	USP <795>
Master formulation record (MFR)	A detailed record of procedures that describes how the CNSP is to be prepared.
Monograph	A quality documentary standard within USP–NF that articulates the quality expectations for a medicine including for its identity, strength, purity, and performance. It also describes the tests to validate that a medicine and its ingredients meet these criteria.
Oversight	The review, monitoring, and supervision of actions taken by personnel; bearing responsibility for those actions; and being available if and when needed for consultation, even if not physically present.
Preservative	A substance added to inhibit microbial growth.
Purified water	The minimal quality of source water for the production of Purified Water is drinking water whose attributes are prescribed by the US Environmental Protection Agency (EPA), the European Union, Japan, or the World Health Organization (WHO). This source water may be purified using unit operations that include deionization, distillation, ion exchange, reverse osmosis, filtration, or other suitable purification procedures. (See <1231>, 3.1.1 Purified Water.)
Quality Assurance (QA)	A system of procedures, activities, and oversight that ensures that the compounding process consistently meets quality standards.
Quality Control (QC)	The sampling, testing, and documentation of results that, taken together, ensure that specifications have been met for the CNSP.
Reconstitution	The process of adding a diluent to a conventionally manufactured product to prepare a solution or suspension.
Release inspection and testing	Visual inspection and testing performed to ensure that a preparation meets appropriate quality characteristics.
Sanitizing agent	An agent for reducing, on inanimate surfaces, the number of microorganisms (eg, 70% isopropyl alcohol).
SDS	Safety data sheet.
SOP	Standard operating procedure.
Specification	The tests, analytical methods, and acceptance criteria to which any components, CNSP, container closure system, equipment, or other material used in the compounding of CNSPs must conform to be considered acceptable for its intended use.
Stability	The extent to which a product or preparation retains physical and chemical properties and characteristics within specified limits throughout its expiration or BUD.
Verify	To confirm that a method, process, system, or equipment will perform as expected under the conditions of actual use.
Water activity (a_w)	A measure of the fraction of total water that is unbound and freely available to participate in chemical, biochemical, or physicochemical reactions or provide an environment that can support microbial growth. Note that a_w is not water content.

Disciplinary Actions

Has the corporation, any owner(s), shareholder(s) or partner(s) with any interest, ever been subject of an administrative action, board citation, cite fine, or proceeding relating to the pharmaceutical industry?

CenterWell Pharmacy, Inc. See attached Action Summary.

CenterWell Pharmacy

Summary of Actions

Maine Board of Pharmacy Complaint 2008-PHA-4787
In 2008, CenterWell Pharmacy, Inc. (formerly Humana Pharmacy, Inc.) located at 4302 W. Buckeye Rd., Phoenix, AZ 85043 admitted to a violation as a result of a complaint 2008-PHA-4787 where a prescription order was shipped to a patient who did not order the medication. There was no ingestion of the medication, and no patient harm. The root cause of the issue was Human Error. The Maine Board of Pharmacy offered a Consent Agreement where there was an admitted violation, a warning from the Board, and a $100 fine. This Agreement was previously reported to the Board.

Colorado Department of Commerce and Consumer Affair's Regulated Industries Complaints Office
CenterWell Pharmacy, Inc. (formerly Humana Pharmacy, Inc.) located at 4302 W. Buckeye Rd., Phoenix, AZ 85043 entered into a Stipulation and Final Agency Order with the Colorado State Board of Pharmacy on 5/19/2011. CenterWell Pharmacy, Inc. admitted to a violation of Board Rule 5.00.70 in which the pharmacy failed to timely submit the required applications and fees to the Colorado Board detailing a change in Pharmacist Managers. The violation was unintentional and root cause of the error was investigated and found to be an administrative error. The error was corrected, and imposed fees were paid. This Order was previously reported to the Board.

Hawaii Board of Pharmacy (PHA 2011-21-L and PHA 2010-32-L)
In December 2008, CenterWell Pharmacy, Inc. (formerly Humana Pharmacy, Inc.) located at 4302 W. Buckeye Rd., Phoenix, AZ 85043 entered into a Consent Agreement with the Maine Board of Pharmacy. Per Hawaii Revised Statutes, disciplinary decisions must be reported within 30 days. It is important to note that Humana Pharmacy, Inc. did notify the Hawaii Board of Pharmacy of the Consent Agreement. However, the notification exceeded the timeframe required by HRS 436B-19(15). PHA 2011-21-L is due to CenterWell Pharmacy, Inc. (formerly Humana Pharmacy, Inc.) receiving disciplinary action by another state agency. These agreements were previously reported to the Board.

Iowa Board of Pharmacy
CenterWell Pharmacy, Inc. (formerly Humana Pharmacy, Inc.) located at 4302 W. Buckeye Rd., Phoenix, AZ 85043 entered into a Settlement Agreement and Final Order with the Iowa Board of Pharmacy in August 2013. Pursuant to this Settlement Agreement and Final Order,

the Iowa Board of Pharmacy cited CenterWell Pharmacy, Inc. for having disciplinary action taken against it by another state licensing board. This action taken by the Iowa Board of Pharmacy is based entirely on the Settlement Agreement with the Hawaii Board of Pharmacy, and no new violations occurred. The Agreement was previously reported to the Board.

Michigan Board of Pharmacy
CenterWell Pharmacy, Inc. (formerly Humana Pharmacy, Inc.) located at 4302 W. Buckeye Rd., Phoenix, AZ 85043 entered into a Consent Order and Stipulation with the Michigan Department of Licensing and Regulatory Affairs which was received by CenterWell Pharmacy, Inc. in April 2014. The Administrative Complaint resulting in the Consent Order is in response to CenterWell Pharmacy, Inc. having violated section 17768(2) (d) of the Public Health Code due to receiving disciplinary action by other Regulatory Agencies. The Consent Order is based entirely on previously reported Settlement Agreements, and no new violations have occurred. The Order was previously reported to the Board.

Alaska Board of Pharmacy
CenterWell Pharmacy, Inc. (formerly Humana Pharmacy, Inc.) located at 4302 W. Buckeye Rd., Phoenix, AZ 85043 accepted an Imposition of Civil Fine without reprimand from the Alaska Board of Pharmacy in August 2014 due to a misinterpretation of a question on a 2010 renewal application. CenterWell Pharmacy, Inc. did not intentionally answer the question incorrectly, and it was answered based off of the interpretation of the question at that time. The action was previously reported to the Board.

IN RE:	)	
	)	
HUMANA PHARMACY, INC.	)	CONSENT AGREEMENT
	)	
Complaint No. 2008-PHA-4787	)	

PARTIES

This document is a Consent Agreement regarding disciplinary action against Humana Pharmacy Inc.'s license to operate a mail order prescription pharmacy dispensing prescription drugs to patients residing in the State of Maine. The parties to this Consent Agreement are: Humana Pharmacy, Inc. ("Humana") with a principal place of business in Phoenix, Arizona, the State of Maine Board of Pharmacy ("the Board") and the Maine Office of the Attorney General ("the Attorney General"). This Consent Agreement is entered into pursuant to 10 M.R.S. § 8003(5-A).

FACTS

1. At all times pertinent to this matter, Humana was licensed by the Board to operate a mail order prescription pharmacy in Phoenix, Arizona dispensing prescription drugs to patients residing in Maine, license number MO40000472.
2. On or about July 10, 2008, the Board received a complaint against Humana pertaining to an alleged prescription order that was improperly sent to a consumer in Maine.
3. The Board docketed the complaint as Complaint No. 2008-PHA-4787.
4. The complaint alleges that on or about June 26, 2008, Humana sent a consumer residing in Maine prescription drugs that the consumer did not order.

5. The drug container was labeled by Humana with the name of the Maine resident and indicated that the prescribing practitioner was a physician from Florida.
6. Humana charged the cost of the drugs to the credit card of the Maine consumer and to Medicare.
7. On November 18, 2008, following a presentation of the complaint, the Board voted to offer Humana this Consent Agreement, in order to resolve Complaint No. 2008-PHA-4787. Absent acceptance of this Consent Agreement by signing and dating it and returning it to Kelly McLaughlin, Board Clerk, Board of Pharmacy, 35 State House Station, Augusta, Maine 04333-0035 by January 5, 2009, the Board will resolve this matter by holding an adjudicatory hearing.

COVENANTS

8. Humana admits that it was responsible for dispensing the erroneously filled prescription as described in paragraphs 4 through 6 above and admits that such conduct constitutes grounds for disciplining it pursuant to 10 M.R.S. § 8003(5-A)(A)(5), for violating a rule of the Board as follows:
    a. Chapter 30 § 15 by failing to establish and maintain effective controls to prevent prescription errors or misfills; and
    b. Chapter 30 § 16 by failing to address or attempt to resolve a possible prescription error which was apparent or should have been apparent.

9. As DISCIPLINE for the conduct admitted in paragraph 8 above, Humana agrees to

   a. Accept a WARNING; and

   b. Pay a CIVIL PENALTY in the amount of one hundred dollars ($100.00), which shall be made by check or money order payable to the "Treasurer, State of Maine" and delivered to Kelly McLaughlin, Board Clerk, Board of Pharmacy, 35 State House Station, Augusta, Maine 04333-0035, within thirty (30) days of the execution of this Consent Agreement.

10. Violation of any of the terms or conditions of this Consent Agreement by Humana shall constitute grounds for discipline, including but not limited to modification, suspension, or revocation of licensure or the denial of licensure or re-licensure.

11. This Consent Agreement is not appealable and is effective until modified or rescinded by the parties hereto.

12. The Board and the Office of the Attorney General may communicate and cooperate regarding any matter related to this Consent Agreement.

13. This Consent Agreement is a public record within the meaning of 1 M.R.S. § 402 and will be available for inspection and copying by the public pursuant to 1 M.R.S. § 408.

14. Nothing in this Consent Agreement shall be construed to affect any right or interest of any person not a party hereto.

15. Humana acknowledges by signature of an authorized representative hereto that it has read this Consent Agreement, that it has had an opportunity to consult with an attorney before executing this Consent Agreement, that it executed this Consent Agreement of its own free will, and that it agrees to abide by all terms and conditions set forth herein.

STATE OF COLORADO

Case Nos. 2011-1151 and 2011-1153

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF DISCIPLINARY PROCEEDING REGARDING THE NON-RESIDENT PRESCRIPTION DRUG OUTLET REGISTRATION OF **HUMANA PHARMACY, INC.**, REGISTRATION NO. OSP 5672,

Respondent Pharmacy.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and Humana Pharmacy, Inc. ("Respondent Pharmacy") to resolve all matters pertaining to Board Case Numbers 2011-1151 and 2011-1153, as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Respondent Pharmacy, its registration as a non-resident prescription drug outlet, and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the provisions of the Pharmaceuticals and Pharmacists Act at Title 12, Article 22, C.R.S. (2010).

2. Respondent Pharmacy was originally registered as an non-resident prescription drug outlet in the State of Colorado on November 7, 2006, being issued registration number OSP 5672, and has been so registered at all times relevant to this disciplinary action.

3. Respondent Pharmacy admits these findings and hereby waives any further proof in this proceeding before the Board regarding the following facts.

4. Respondent Pharmacy's address of record with the Board and current location is 4302 West Buckeye Road, Phoenix, Arizona 85043.

5. On two separate occasions, Respondent Pharmacy failed to timely submit the required applications and fees to the Board detailing changes in pharmacist managers. In Board Case No. 2011-1151, a new pharmacist manager sent a letter to the Board on June 2, 2008 informing it that he had taken over as the new pharmacist manager, and asking if there was "anying further" required of him. However, the required application and fee were never submitted detailing him as the pharmacist manager during the 562-day time period that pharmacist served as manager between May 12, 2008 and February 1, 2010. In Board Case No. 2011-1153, 198 days elapsed during which time he served as interim pharmacist manager between February 1, 2010 and August 19, 2010 when the application and fee were received detailing him as the new pharmacist manager.

6. Respondent Pharmacy's conduct, as set forth above, constitutes violations of the following sections of the Colorado Revised Statutes and Board Regulations:

12-22-125. Unprofessional conduct - grounds for discipline.

(1) The board may suspend, revoke, refuse to renew, or otherwise discipline any license or registration issued by it, after a hearing held in accordance with the provisions of this section, upon proof that the licensee or registrant:

(c) Has violated:

(I) Any of the provisions of this part 1, including but not limited to any acts in section 12-22-126;

(II) The lawful rules of the board; or

(III) Any state or federal law pertaining to drugs.

12-22-130. Nonresident prescription drug outlet - registration.

(4) (a) The board may deny, revoke, or suspend a nonresident prescription drug outlet registration for failure to comply with any provision of this section or with any reasonable rule promulgated by the board.

* * *

Pharmacy Board Rules

5.00.70 Change in Pharmacist Manager.

b. The registration of any in-state and non-resident prescription drug outlet shall become void if the pharmacist manager in whose name the registration was issued ceases to be engaged as the manager, and the owner shall close the outlet unless such owner has employed a pharmacist manager and, within fourteen days after termination of the former manager's employment, has made application to transfer the registration to the new pharmacist manager and has paid the transfer fee therefor.

* * *

7. The Board finds and concludes, and Respondent Pharmacy agrees, that based upon Respondent Pharmacy's above-described violations of the Pharmaceuticals and Pharmacists Act and relevant rules and regulations, the following discipline is just and appropriate under the circumstances.

TERMS OF DISCIPLINE

8. **Fine with Surcharge.** Pursuant to §12-22-125.2(5), C.R.S., Respondent Pharmacy shall pay a fine of Five Thousand Dollars and No Cents ($5,000.00). Respondent Pharmacy understands and acknowledges that, pursuant to §24-34-108, C.R.S., the Executive Director of the Department of Regulatory Agencies shall impose an additional surcharge of 10% of this fine. Respondent Pharmacy shall therefore pay a total amount of Five Thousand Five Hundred Dollars and No Cents ($5,500.00). The total amount shall be payable to the State of Colorado and shall be remitted in one lump sum to be included when Respondent Pharmacy submits this signed Final Agency Order to the Board.

9. **Compliance.** Respondent Pharmacy shall submit all future applications, on the form prescribed by the Board, to the Board detailing changes in pharmacist manager and fees within fourteen (14) days of the previous pharmacist manager ceasing the position.

10. **Other Requirements.** Respondent Pharmacy acknowledges and agrees that, as a condition of this Final Agency Order and probation, it shall:

    a. promptly pay all its own fees and costs associated with this Final Agency Order;

    b. comply fully with this Final Agency Order; and

    c. comply fully with the Pharmacists and Pharmaceuticals Act, all Board rules and regulations, and any other state and federal laws and regulations related to pharmacists and pharmaceuticals in the State of Colorado.

11. **Advisements and Waivers.** Respondent Pharmacy enters into this Final Agency Order freely and voluntarily, after having consulted with legal counsel. Respondent Pharmacy acknowledges its understanding that it has the following rights:

    a. to have formal notice of hearing and charges served upon it;

    b. to respond to said formal notice of charges;

    c. to have a formal disciplinary hearing pursuant to Sections 12-22-125 and 12-22-125.2(2)(a), C.R.S.; and

    d. to appeal this Final Agency Order.

    Respondent Pharmacy freely waives these rights, and acknowledges that such waiver is made voluntarily in consideration for the Board's limiting the action taken against Respondent Pharmacy to the sanctions imposed herein.

12. **Acknowledgments.** Respondent Pharmacy has read this Final Agency Order in its entirety and acknowledges, after having consulted with legal counsel, that Respondent Pharmacy

understands its legal consequences and agrees that none of its terms or conditions is unconscionable. Respondent Pharmacy is not relying on any statements, promises or representations from the Board other than as may be contained in this Final Agency Order. Respondent Pharmacy further acknowledges that it is not entering into this Final Agency Order under any duress.

13. **Violations.** Time is of the essence in this Final Agency Order. It is the responsibility of Respondent Pharmacy to take all appropriate steps to comply fully with this Final Agency Order. Respondent Pharmacy acknowledges and agrees that any violation of this Final Agency Order shall constitute a willful violation of a lawful Board order, may be sanctioned as provided under §12-22-125.2(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of Respondent Pharmacy's registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Respondent Pharmacy to comply with all terms and conditions of this Final Agency Order.

14. **Integration and Severability.** Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.

15. **Public Record.** Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.

Effective Date. This Final Agency Order shall become effective upon signature by a Board representative.

In the Matter of the Miscellaneous Permit of HUMANA PHARMACY, INC., doing business as RIGHTSOURCE, Respondent.	PHA 2010-32-L SETTLEMENT AGREEMENT PRIOR TO FILING OF PETITION FOR DISCIPLINARY ACTION AND BOARD'S FINAL ORDER; EXHIBIT "1"

248040108

SETTLEMENT AGREEMENT PRIOR TO FILING OF PETITION
FOR DISCIPLINARY ACTION AND BOARD'S FINAL ORDER

Petitioner, DEPARTMENT OF COMMERCE AND CONSUMER AFFAIRS' REGULATED INDUSTRIES COMPLAINTS OFFICE (hereinafter "RICO" or "Petitioner"), through its undersigned attorneys, and Respondent HUMANA PHARMACY, INC., doing business as RIGHTSOURCE (hereinafter "Respondent"), enter into this Settlement Agreement on the terms and conditions set forth below.

A. UNCONTESTED FACTS:

1. At all relevant times herein, Respondent was permitted by the Board of Pharmacy (hereinafter the "Board") as a pharmacy under Miscellaneous Permit Number PMP 473. The

I HEREBY CERTIFY THAT THE ATTACHED IS A TRUE AND CORRECT COPY OF THE ORIGINAL ON FILE IN THE DEPARTMENT OF COMMERCE & CONSUMER AFFAIRS.

permit was issued on or about June 13, 2006. The permit will forfeit or expire on or about December 31, 2013.

2. Respondent's mailing address for purposes of this action is 4302 W. Buckeye Road, Phoenix, Arizona 85043.

3. RICO received information that, on or about December 18, 2008, Respondent entered into a Consent Agreement with the Maine Board of Pharmacy in In Re: Humana Pharmacy, Inc./Complaint No. 2008-PHA-4787 ("Maine Agreement"). A true and correct copy of the Maine Agreement is attached hereto as Exhibit "1."

4. RICO alleges although Respondent disclosed the Maine Agreement on a Renewal Application dated December 7, 2009, Respondent failed to report the Maine Agreement to the Board within thirty days of its issuance.

5. The foregoing allegations, if proven at an administrative hearing before the Board, would constitute violations of the following statute(s) and/or rule(s): Hawaii Revised Statutes ("HRS") § 436B-19(15) (failure to report disciplinary decision within thirty days) and § 436B-19(17) (violating applicable licensing laws).

6. The Board has jurisdiction over the subject matter herein and over the parties hereto.

B. REPRESENTATIONS BY RESPONDENT:

1. Respondent is fully aware that Respondent has the right to be represented by an attorney and voluntarily waives that right.

2. Respondent enters into this Settlement Agreement freely, knowingly, voluntarily, and under no coercion or duress.

3. Respondent is aware of the right to have a hearing to adjudicate the issues in the case. Pursuant to HRS § 91-9(d), Respondent freely, knowingly, and voluntarily waives the right to a hearing and agrees to dispose of this case in accordance with the terms and conditions of this Settlement Agreement.

4. Respondent being at all times relevant herein permitted as a pharmacy by the Board acknowledges that Respondent is subject to penalties including but not limited to, revocation, suspension or limitation of the permit and administrative fines, if the foregoing allegations are proven at hearing.

5. Respondent does not admit to violating any law or rule, but acknowledges that RICO has sufficient cause to file a Petition for Disciplinary Action against Respondent's permit.

6. Respondent enters into this Settlement Agreement as a compromise of the claims and to conserve on the expenses of proceeding with an administrative hearing on this matter.

7. Respondent agrees that this Settlement Agreement is intended to resolve the issues raised in RICO's investigation in RICO Case No. PHA 2010-32-L.

8. Respondent understands this Settlement Agreement is public record pursuant to Hawaii Revised Statutes chapter 92F.

C. TERMS OF SETTLEMENT:

1. Administrative Fine. Respondent agrees to pay a fine in the amount of ONE THOUSAND AND NO/100 DOLLARS ($1,000.00). Payment shall be made by cashier's check or money order made payable to "DCCA - Compliance Resolution Fund" and mailed to the Regulated Industries Complaints Office, Attn: Denise P. Balanay, Esq., 235 S. Beretania Street, 9th Floor, Honolulu, Hawaii 96813. Payment of the fine shall be due at the time this fully executed Settlement Agreement is returned to RICO.

2. Failure to Comply with Settlement Agreement. If Respondent fails to fully and timely comply with the terms of this Settlement Agreement as set forth in paragraph(s) C.1 above, Respondent's permit shall be automatically revoked upon RICO's filing of an affidavit with the Board attesting to such failure. In case of such revocation, Respondent shall turn in all indicia of the permit to the Executive Officer of the Board within ten (10) days after receipt of notice of the revocation. In case of such revocation, Respondent understands Respondent cannot apply for a new permit until the expiration of at least five (5) years after the effective date of the revocation. Respondent understands that if Respondent desires to become permitted again, Respondent must apply to the Board for a new permit pursuant to and subject to HRS §§ 92-17, 436B-21, and all other applicable laws and rules in effect at the time.

3. Possible Further Sanction. The Board, at its discretion, may pursue additional disciplinary action as provided by law to include further fines and other sanctions as the Board may deem appropriate if Respondent violates any provision of the statutes or rules governing the conduct of pharmacies in the State of Hawaii, or if Respondent fails to abide by the terms of this Settlement Agreement.

4. Approval of the Board. Respondent agrees that, except for the representations, agreements and covenants contained in Paragraphs C.5, C.6, C.7 and C.8 below, this Settlement Agreement shall not be binding on any of the parties unless and until it is approved by the Board.

5. No Objection if Board Fails to Approve. If the Board does not approve this Settlement Agreement, does not issue an order pursuant thereto, or does not approve a lesser remedy, but instead an administrative hearing is conducted against Respondent in the Board's usual and customary fashion pursuant to the Administrative Procedure Act, Respondent agrees that neither Respondent nor any attorney that Respondent may retain will raise as an objection in

any administrative proceeding or in any judicial action, to the Board's proceeding against Respondent on the basis that the Board has become disqualified to consider the case because of its review and consideration of this Settlement Agreement.

6. Any Ambiguities Shall be Construed to Protect the Consuming Public. It is agreed that any ambiguity in this Settlement Agreement is to be read in the manner that most completely protects the interests of the consuming public.

7. No Reliance on Representations by RICO. Other than the matters specifically stated in this Settlement Agreement, neither RICO nor anyone acting on its behalf has made any representation of fact, opinion or promise to Respondent to induce entry into this Settlement Agreement, and Respondent is not relying upon any statement, representation or opinion or promise made by RICO or any of its agents, employees, representatives or attorneys concerning the nature, extent or duration of exposure to legal liability arising from the subject matter of this Settlement Agreement or concerning any other matter.

8. Complete Agreement. This Settlement Agreement is a complete settlement of the rights, responsibilities and liabilities of the parties hereto with respect to the subject matter hereof; contains the entire agreement of the parties; and may only be modified, changed or amended by written instrument duly executed by all parties hereto.

IN WITNESS WHEREOF, the parties have signed this Settlement Agreement on the date(s) set forth below.

IN RE:	)	
	)	
HUMANA PHARMACY, INC.	)	CONSENT AGREEMENT
	)	
Complaint No. 2008-PHA-4787	)	

PARTIES

This document is a Consent Agreement regarding disciplinary action against Humana Pharmacy Inc.'s license to operate a mail order prescription pharmacy dispensing prescription drugs to patients residing in the State of Maine. The parties to this Consent Agreement are: Humana Pharmacy, Inc. ("Humana") with a principal place of business in Phoenix, Arizona, the State of Maine Board of Pharmacy ("the Board") and the Maine Office of the Attorney General ("the Attorney General"). This Consent Agreement is entered into pursuant to 10 M.R.S. § 8003(5-A).

FACTS

1. At all times pertinent to this matter, Humana was licensed by the Board to operate a mail order prescription pharmacy in Phoenix, Arizona dispensing prescription drugs to patients residing in Maine, license number MO40000472.
2. On or about July 10, 2008, the Board received a complaint against Humana pertaining to an alleged prescription order that was improperly sent to a consumer in Maine.
3. The Board docketed the complaint as Complaint No. 2008-PHA-4787.
4. The complaint alleges that on or about June 26, 2008, Humana sent a consumer residing in Maine prescription drugs that the consumer did not order.

EXHIBIT 1

5. The drug container was labeled by Humana with the name of the Maine resident and indicated that the prescribing practitioner was a physician from Florida.
6. Humana charged the cost of the drugs to the credit card of the Maine consumer and to Medicare.
7. On November 18, 2008, following a presentation of the complaint, the Board voted to offer Humana this Consent Agreement, in order to resolve Complaint No. 2008-PHA-4787. Absent acceptance of this Consent Agreement by signing and dating it and returning it to Kelly McLaughlin, Board Clerk, Board of Pharmacy, 35 State House Station, Augusta, Maine 04333-0035 by January 5, 2009, the Board will resolve this matter by holding an adjudicatory hearing.

COVENANTS

8. Humana admits that it was responsible for dispensing the erroneously filled prescription as described in paragraphs 4 through 6 above and admits that such conduct constitutes grounds for disciplining it pursuant to 10 M.R.S. § 8003(5-A)(A)(5), for violating a rule of the Board as follows:
    a. Chapter 30 § 15 by failing to establish and maintain effective controls to prevent prescription errors or misfills; and
    b. Chapter 30 § 16 by failing to address or attempt to resolve a possible prescription error which was apparent or should have been apparent.

9. As DISCIPLINE for the conduct admitted in paragraph 8 above, Humana agrees to

   a. Accept a WARNING; and

   b. Pay a CIVIL PENALTY in the amount of one hundred dollars ($100.00), which shall be made by check or money order payable to the "Treasurer, State of Maine" and delivered to Kelly McLaughlin, Board Clerk, Board of Pharmacy, 35 State House Station, Augusta, Maine 04333-0035, within thirty (30) days of the execution of this Consent Agreement.

10. Violation of any of the terms or conditions of this Consent Agreement by Humana shall constitute grounds for discipline, including but not limited to modification, suspension, or revocation of licensure or the denial of licensure or re-licensure.

11. This Consent Agreement is not appealable and is effective until modified or rescinded by the parties hereto.

12. The Board and the Office of the Attorney General may communicate and cooperate regarding any matter related to this Consent Agreement.

13. This Consent Agreement is a public record within the meaning of 1 M.R.S. § 402 and will be available for inspection and copying by the public pursuant to 1 M.R.S. § 408.

14. Nothing in this Consent Agreement shall be construed to affect any right or interest of any person not a party hereto.

15. Humana acknowledges by signature of an authorized representative hereto that it has read this Consent Agreement, that it has had an opportunity to consult with an attorney before executing this Consent Agreement, that it executed this Consent Agreement of its own free will, and that it agrees to abide by all terms and conditions set forth herein.

Petitioner, DEPARTMENT OF COMMERCE AND CONSUMER AFFAIRS' REGULATED INDUSTRIES COMPLAINTS OFFICE (hereinafter "RICO" or "Petitioner"), through its undersigned attorneys, and Respondent HUMANA PHARMACY, INC., doing business as RIGHTSOURCE (hereinafter "Respondent"), enter into this Settlement Agreement on the terms and conditions set forth below.

A. UNCONTESTED FACTS:

1. At all relevant times herein, Respondent was permitted by the Board of Pharmacy (hereinafter the "Board") as a pharmacy under Miscellaneous Permit Number PMP 473.

I HEREBY CERTIFY THAT THE ATTACHED IS A TRUE AND CORRECT COPY OF THE ORIGINAL ON FILE IN THE DEPARTMENT OF COMMERCE & CONSUMER AFFAIRS.

The permit was issued on or about June 13, 2006. The permit will forfeit or expire on or about December 31, 2013.

2. Respondent's mailing address for purposes of this action is 4302 W. Buckeye Road, Phoenix, Arizona 85043.

3. RICO received information that, on or about May 9, 2011, Respondent entered into a Stipulation and Final Agency Order with the State Board of Pharmacy for the State of Colorado ("Stipulation"). A true and correct copy of the Stipulation is attached as Exhibit "1."

4. The foregoing allegations, if proven at an administrative hearing before the Board, would constitute violations of the following statute(s): Hawaii Revised Statutes ("HRS") § 436B-19(13) (disciplinary action by another state or federal agency for any reason provided by licensing laws) and § 436B-19(17) (violating applicable licensing laws).

5. The Board has jurisdiction over the subject matter herein and over the parties hereto.

B. REPRESENTATIONS BY RESPONDENT:

1. Respondent is fully aware that Respondent has the right to be represented by an attorney and voluntarily waives that right.

2. Respondent enters into this Settlement Agreement freely, knowingly, voluntarily, and under no coercion or duress.

3. Respondent is aware of the right to have a hearing to adjudicate the issues in the case. Pursuant to HRS § 91-9(d), Respondent freely, knowingly, and voluntarily waives the right to a hearing and agrees to dispose of this case in accordance with the terms and conditions of this Settlement Agreement.

4. Respondent being at all times relevant herein permitted as a pharmacy by the Board acknowledges that Respondent is subject to penalties including but not limited to, revocation, suspension or limitation of the permit and administrative fines, if the foregoing allegations are proven at hearing.

5. Respondent does not admit to violating any law or rule, but acknowledges that RICO has sufficient cause to file a Petition for Disciplinary Action against Respondent's permit.

6. Respondent enters into this Settlement Agreement as a compromise of the claims and to conserve on the expenses of proceeding with an administrative hearing on this matter.

7. Respondent agrees that this Settlement Agreement is intended to resolve the issues raised in RICO's investigation in RICO Case No. PHA 2011-21-L.

8. Respondent understands this Settlement Agreement is public record pursuant to Hawaii Revised Statutes chapter 92F.

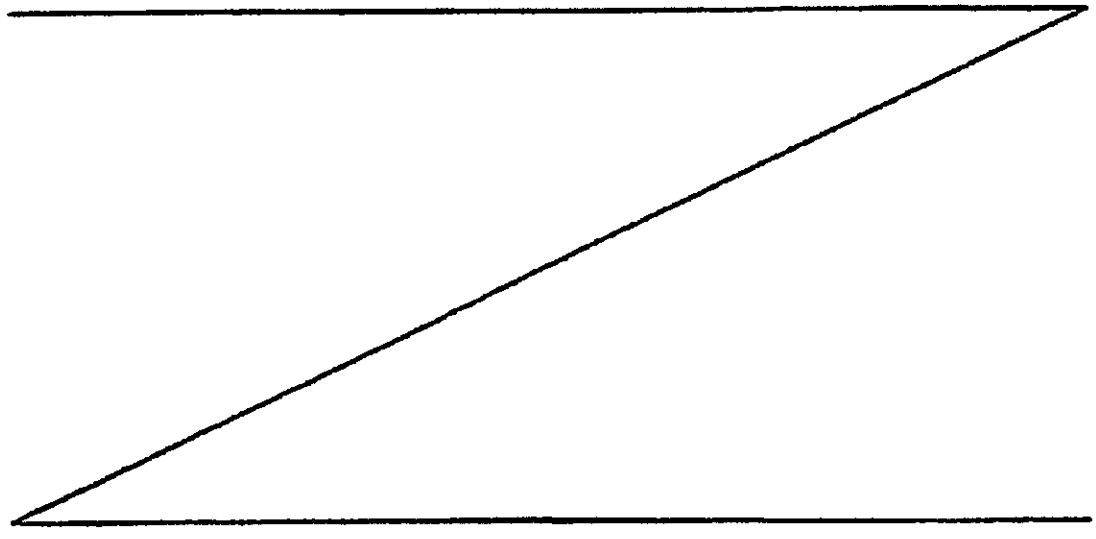
C. TERMS OF SETTLEMENT:

1. Administrative Fine. Respondent agrees to pay a fine in the amount of FIVE HUNDRED AND NO/100 DOLLARS ($500.00). Payment shall be made by cashier's check or money order made payable to "DCCA - Compliance Resolution Fund" and mailed to the Regulated Industries Complaints Office, Attn: Denise P. Balanay, Esq., 235 S. Beretania Street, 9th Floor, Honolulu, Hawaii 96813. Payment of the fine shall be due at the time this fully executed Settlement Agreement is returned to RICO.

2. Failure to Comply with Settlement Agreement. If Respondent fails to fully and timely comply with the terms of this Settlement Agreement as set forth in paragraph(s) C.1 above, Respondent's permit shall be automatically revoked upon RICO's filing of an affidavit with the Board attesting to such failure. In case of such revocation, Respondent shall turn in all

indicia of the permit to the Executive Officer of the Board within ten (10) days after receipt of notice of the revocation. In case of such revocation, Respondent understands Respondent cannot apply for a new permit until the expiration of at least five (5) years after the effective date of the revocation. Respondent understands that if Respondent desires to become permitted again, Respondent must apply to the Board for a new permit pursuant to and subject to HRS §§ 92-17, 436B-21, and all other applicable laws and rules in effect at the time.

3. Possible Further Sanction. The Board, at its discretion, may pursue additional disciplinary action as provided by law to include further fines and other sanctions as the Board may deem appropriate if Respondent violates any provision of the statutes or rules governing the conduct of pharmacies in the State of Hawaii, or if Respondent fails to abide by the terms of this Settlement Agreement.



4. Approval of the Board. Respondent agrees that, except for the representations, agreements and covenants contained in Paragraphs C.5, C.6, C.7 and C.8 below, this Settlement Agreement shall not be binding on any of the parties unless and until it is approved by the Board.

5. No Objection if Board Fails to Approve. If the Board does not approve this Settlement Agreement, does not issue an order pursuant thereto, or does not approve a lesser remedy, but instead an administrative hearing is conducted against Respondent in the Board's usual and customary fashion pursuant to the Administrative Procedure Act, Respondent agrees that neither Respondent nor any attorney that Respondent may retain will raise as an objection in any administrative proceeding or in any judicial action, to the Board's proceeding against Respondent on the basis that the Board has become disqualified to consider the case because of its review and consideration of this Settlement Agreement.

6. Any Ambiguities Shall be Construed to Protect the Consuming Public. It is agreed that any ambiguity in this Settlement Agreement is to be read in the manner that most completely protects the interests of the consuming public.

7. No Reliance on Representations by RICO. Other than the matters specifically stated in this Settlement Agreement, neither RICO nor anyone acting on its behalf has made any representation of fact, opinion or promise to Respondent to induce entry into this Settlement Agreement, and Respondent is not relying upon any statement, representation or opinion or promise made by RICO or any of its agents, employees, representatives or attorneys concerning the nature, extent or duration of exposure to legal liability arising from the subject matter of this Settlement Agreement or concerning any other matter.

8. Complete Agreement. This Settlement Agreement is a complete settlement of the rights, responsibilities and liabilities of the parties hereto with respect to the subject matter hereof; contains the entire agreement of the parties; and may only be modified, changed or amended by written instrument duly executed by all parties hereto.

Case Nos. 2011-1151 and 2011-1153

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF DISCIPLINARY PROCEEDING REGARDING THE NON-RESIDENT PRESCRIPTION DRUG OUTLET REGISTRATION OF HUMANA PHARMACY, INC., REGISTRATION NO. OSP 5672,

Respondent Pharmacy.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and Humana Pharmacy, Inc. ("Respondent Pharmacy") to resolve all matters pertaining to Board Case Numbers 2011-1151 and 2011-1153, as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Respondent Pharmacy, its registration as a non-resident prescription drug outlet, and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the provisions of the Pharmaceuticals and Pharmacists Act at Title 12, Article 22, C.R.S. (2010).

2. Respondent Pharmacy was originally registered as an non-resident prescription drug outlet in the State of Colorado on November 7, 2006, being issued registration number OSP 5672, and has been so registered at all times relevant to this disciplinary action.

3. Respondent Pharmacy admits these findings and hereby waives any further proof in this proceeding before the Board regarding the following facts.

4. Respondent Pharmacy's address of record with the Board and current location is 4302 West Buckeye Road, Phoenix, Arizona 85043.

5. On two separate occasions, Respondent Pharmacy failed to timely submit the required applications and fees to the Board detailing changes in pharmacist managers. In Board Case No. 2011-1151, a new pharmacist manager sent a letter to the Board on June 2, 2008 informing it that he had taken over as the new pharmacist manager, and asking if there was "anying further" required of him. However, the required application and fee were never submitted detailing him as the pharmacist manager during the 562-day time period that pharmacist served as manager between May 12, 2008 and February 1, 2010. In Board Case No. 2011-1153, 198 days elapsed during which time he served as the pharmacist manager between February 1, 2010 and August 19, 2010 when the application and fee were received detailing him as the new pharmacist manager.

6. Respondent Pharmacy's conduct, as set forth above, constitutes violations of the following sections of the Colorado Revised Statutes and Board Regulations:

12-22-125. Unprofessional conduct - grounds for discipline.

(1) The board may suspend, revoke, refuse to renew, or otherwise discipline any license or registration issued by it, after a hearing held in accordance with the provisions of this section, upon proof that the licensee or registrant:

(c) Has violated:

(I) Any of the provisions of this part 1, including but not limited to any acts in section 12-22-126;

(II) The lawful rules of the board; or

(III) Any state or federal law pertaining to drugs.

12-22-130. Nonresident prescription drug outlet - registration.

(4) (a) The board may deny, revoke, or suspend a nonresident prescription drug outlet registration for failure to comply with any provision of this section or with any reasonable rule promulgated by the board.

* * *

Pharmacy Board Rules

5.00.70 Change in Pharmacist Manager.

b. The registration of any in-state and non-resident prescription drug outlet shall become void if the pharmacist manager in whose name the registration was issued ceases to be engaged as the manager, and the owner shall close the outlet unless such owner has employed a pharmacist manager and, within fourteen days after termination of the former manager's employment, has made application to transfer the registration to the new pharmacist manager and has paid the transfer fee therefor.

7. The Board finds and concludes, and Respondent Pharmacy agrees, that based upon Respondent Pharmacy's above-described violations of the Pharmaceuticals and Pharmacists Act and relevant rules and regulations, the following discipline is just and appropriate under the circumstances.

TERMS OF DISCIPLINE

8. Fine with Surcharge. Pursuant to §12-22-125.2(5), C.R.S., Respondent Pharmacy shall pay a fine of Five Thousand Dollars and No Cents ($5,000.00). Respondent Pharmacy understands and acknowledges that, pursuant to §24-34-108, C.R.S., the Executive Director of the Department of Regulatory Agencies shall impose an additional surcharge of 10% of this fine. Respondent Pharmacy shall therefore pay a total amount of Five Thousand Five Hundred Dollars and No Cents ($5,500.00). The total amount shall be payable to the State of Colorado and shall be remitted in one lump sum to be included when Respondent Pharmacy submits this signed Final Agency Order to the Board.

9. Compliance. Respondent Pharmacy shall submit all future applications, on the form prescribed by the Board, to the Board detailing changes in pharmacist manager and fees within fourteen (14) days of the previous pharmacist manager ceasing the position.

10. Other Requirements. Respondent Pharmacy acknowledges and agrees that, as a condition of this Final Agency Order and probation, it shall:

    a. promptly pay all its own fees and costs associated with this Final Agency Order;

    b. comply fully with this Final Agency Order; and

    c. comply fully with the Pharmacists and Pharmaceuticals Act, all Board rules and regulations, and any other state and federal laws and regulations related to pharmacists and pharmaceuticals in the State of Colorado.

11. Advisements and Waivers. Respondent Pharmacy enters into this Final Agency Order freely and voluntarily, after having consulted with legal counsel. Respondent Pharmacy acknowledges its understanding that it has the following rights:

    a. to have formal notice of hearing and charges served upon it;

    b. to respond to said formal notice of charges;

    c. to have a formal disciplinary hearing pursuant to Sections 12-22-125 and 12-22-125.2(2)(a), C.R.S.; and

    d. to appeal this Final Agency Order.

    Respondent Pharmacy freely waives these rights, and acknowledges that such waiver is made voluntarily in consideration for the Board's limiting the action taken against Respondent Pharmacy to the sanctions imposed herein.

12. Acknowledgments. Respondent Pharmacy has read this Final Agency Order in its entirety and acknowledges, after having consulted with legal counsel, that Respondent Pharmacy

understands its legal consequences and agrees that none of its terms or conditions is unconscionable. Respondent Pharmacy is not relying on any statements, promises or representations from the Board other than as may be contained in this Final Agency Order. Respondent Pharmacy further acknowledges that it is not entering into this Final Agency Order under any duress.

13. Violations. Time is of the essence in this Final Agency Order. It is the responsibility of Respondent Pharmacy to take all appropriate steps to comply fully with this Final Agency Order. Respondent Pharmacy acknowledges and agrees that any violation of this Final Agency Order shall constitute a willful violation of a lawful Board order, may be sanctioned as provided under §12-22-125.2(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of Respondent Pharmacy's registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Respondent Pharmacy to comply with all terms and conditions of this Final Agency Order.

14. Integration and Severability. Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.

15. Public Record. Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.

Effective Date. This Final Agency Order shall become effective upon signature by a Board representative.

Re: Nonresident Pharmacy License of **RIGHTSOURCE** License No. 3659 Respondent.	)))))))	Case No. 2012-14 **SETTLEMENT AGREEMENT AND FINAL ORDER**

Pursuant to Iowa Code §§ 17A.10 and 272C.3(4) (2013), the Iowa Board of Pharmacy and RightSource, Respondent, enter into this Settlement Agreement and Final Order to settle the licensee disciplinary proceeding currently pending before the Board.

The allegations contained in a Statement of Charges against Respondent shall be resolved without proceeding to hearing, as the Board and Respondent stipulate as follows:

1. Respondent was issued Nonresident Pharmacy License No. 3659. That license is active and will expire on December 31, 2013.
2. A Statement of Charges was filed against Respondent on April 23, 2013. Subsequent to April 23, 2013, the parties entered into ongoing discussions regarding the allegations set forth in the Statement of Charges.
3. At all times relevant to the Statement of Charges, Respondent operated a nonresident pharmacy in Phoenix, Arizona.

RECEIVED
AUG 22 2013
IOWA BOARD OF PHARMACY

4. The Board has jurisdiction over the parties and the subject matter of these proceedings.

5. Respondent has chosen not to contest the allegations in the Statement of Charges and acknowledges that the allegations, if proven in a contested case proceeding, would constitute grounds for the discipline agreed to in this Order.

6. Respondent is hereby CITED for having disciplinary action taken against it by another state licensing board, and is hereby WARNED that future violations of the law governing the practice of pharmacy in Iowa could result in further disciplinary action.

7. Respondent agrees to pay a civil penalty in the amount of $1000. This civil penalty shall be made payable to the Treasurer of Iowa and mailed to the executive director of the Board within twenty (20) days of the Board's approval of this Settlement Agreement and Final Order. All civil penalty payments shall be deposited into the State of Iowa general fund.

8. This Settlement Agreement and Final Order is the resolution of a contested case. By entering into this Settlement Agreement and Final Order, Respondent waives all rights to a contested case hearing on the allegations contained in the Statement of Charges, and waives any objections to this Final Order.

9. The State's legal counsel may present this Settlement Agreement and Final Order to the Board.

10. This Settlement Agreement and Final Order is subject to approval by a majority of the full Board. If the Board fails to approve this settlement, it shall be

of no force or effect to either the Board or Respondent. If the Board approves this Settlement Agreement and Final Order, it shall be the full and final resolution of this matter.

11. The Board's approval of this Settlement Agreement and Final Order shall constitute a FINAL ORDER of the Board.

This Settlement Agreement and Final Order is voluntarily submitted by Respondent to the Board for its consideration on the 15 day of August, 2013.

For Respondent

By this signature, Scott Greenwell acknowledges s/he is authorized to sign this Settlement Agreement and Final Order on behalf of RightSource.

This Stipulation and Consent Order is accepted by the Iowa Board of Pharmacy on the 28th day of August 2013.

CONSENT ORDER AND STIPULATION

CONSENT ORDER

WHEREAS, an Administrative Complaint, hereafter Complaint, was issued on August 8, 2013, charging Right Source, a/k/a Humana Pharmacy, Inc., hereafter Respondent Pharmacy, with having violated section 17768(2)(d) of the Public Health Code, 1978 PA 368, as amended; MCL 333.1101 et seq; and

WHEREAS, Respondent Pharmacy neither admits nor denies the facts alleged in the Complaint dated August 8, 2013, but agrees that the Disciplinary Subcommittee of the Michigan Board of Pharmacy, hereafter Disciplinary Subcommittee, shall treat the allegations as true for the purposes of this Consent Order, which findings shall have the same force and effect as if evidence and argument were presented in support of the allegations; and

WHEREAS, the Disciplinary Subcommittee has reviewed the Stipulation and, based upon the matters asserted therein, agrees that the public interest is best served by resolution of the outstanding Complaint; now therefore,

IT IS HEREBY FOUND that the facts alleged in the Complaint are true, for the purposes of this Consent Order, and constitute a violation of section 17768(2)(d) of the Public Health Code, supra.

Accordingly,

IT IS HEREBY ORDERED that for the cited violation of the Public Health Code, Respondent Pharmacy is FINED in the amount of $1,500.00 to be paid to the State of Michigan within 60 days of the effective date of this Order.

IT IS FURTHER ORDERED that the fine shall be mailed to the **Department of Licensing and Regulatory Affairs, Enforcement Division, Sanction Monitoring, P.O. Box 30189, Lansing, MI 48909**. The fine shall be paid by check or money order, made payable to the State of Michigan, and the check or money order shall clearly display file number **53-13-128340**.

IT IS FURTHER ORDERED that in the event Respondent Pharmacy violates any provision of this Order, the Disciplinary Subcommittee may proceed to take disciplinary action pursuant to 1996 AACS, R 338.1632 and section 16221(h) of the Public Health Code, supra.

IT IS FURTHER ORDERED that this Order shall be effective 30 days from the date signed by the Disciplinary Subcommittee, as set forth below.

STIPULATION

1. Respondent Pharmacy neither admits nor denies the facts alleged in the Complaint dated August 8, 2013, but agrees that the Disciplinary Subcommittee shall treat the allegations as true for the purposes of this Consent Order, which findings shall have the same force and effect as if evidence and argument were presented in support thereof.

2. Respondent Pharmacy understands and intends that by signing this Stipulation Respondent Pharmacy is waiving the right, pursuant to the Public Health Code, the rules promulgated thereunder, and the Administrative Procedures Act of 1969, 1969 PA 306, as amended; MCL 24.201 et seq, to require the Department of Licensing and Regulatory Affairs, hereafter Department, to prove the charges set forth in the Complaint by presentation of evidence and legal authority, and Respondent Pharmacy is waiving the right to appear with an attorney and such witnesses as Respondent Pharmacy may desire to present a defense to the charges.

3. Patricia Smeelink, R.Ph., a member of the Michigan Board of Pharmacy who supports this proposal, and the Department's representative are both free to discuss this matter with the Disciplinary Subcommittee and recommend acceptance of the resolution set forth in the foregoing Consent Order.

4. The foregoing Consent Order is approved as to form and substance by Respondent Pharmacy and the Department and may be entered as the final order of the Disciplinary Subcommittee in this cause.

5. The foregoing proposal is conditioned upon acceptance by the Disciplinary Subcommittee, Respondent Pharmacy and the Department expressly reserving the right to further proceedings without prejudice should the Consent Order be rejected.

IMPOSITION OF CIVIL FINE
Case # 2014-000669

RightSource admits and agrees that the Alaska Board of Pharmacy (Board) has jurisdiction over the subject matter of their license in Alaska and over this Imposition of Civil Fine.

1. The Board alleges that RightSource during their Biennial license renewal periods from 2010-2012 and 2012-2014, failed to disclose information concerning prior licensing actions taken against one of their companies in 2008 which is in violation of 12 AAC 52.920 (a)(13) and 12 AAC 052.991.

2. RightSource admits this error was an oversight on their part and that they have taken steps to ensure this error does not occur again.

RightSource does not contest that the Board's allegations, which if proven could be grounds for possible denial of licensure or other disciplinary sanctions of their license pursuant to AS 08.80.030 (b)(5), AS 08.01.075, AS 08.80.261 and 12 AAC 52.920. In order to resolve this matter, RightSource is agreeing to this Imposition of a Civil Fine of one thousand dollars ($1000) in cash, certified check, or money order payable to the "State of Alaska" within ninety (90) days after this Imposition of Civil Fine is accepted by the Board

RightSource has the right to consult with an attorney and the right to have an administrative hearing on the facts in this case. RightSource understands and agrees that by voluntarily signing this Imposition of Civil Fine, they are waiving their rights to counsel and to a hearing on this matter.

Section 10: Affidavit for Pharmacies- MUST BE COMPLETED by pharmacies NOT CURRENTLY PERFORMING Sterile Compounding

Affidavit for Pharmacy License

I, Gregory Lucas hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the Pharmacist-in-Charge (title) for PANTHERx Specialty, LLC (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

Section 10: Affidavit for Pharmacies- MUST BE COMPLETED by pharmacies NOT CURRENTLY PERFORMING Sterile Compounding

Affidavit for Pharmacy License

I, Dina DelPizzo Mawhinney hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the Pharmacist-in-Charge (title) for PANTHERx Specialty, LLC (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

Educational topics

1. BPC 4052.04 – Pharmacist may furnish COVID-19 oral therapeutics following a positive test.
   - "COVID-19 oral therapeutics" means drugs that are approved or authorized by the FDA for the treatment of COVID-19 and administered orally.
   - Prior to furnishing COVID-19 oral therapeutics, a pharmacist shall utilize relevant and appropriate evidence-based clinical guidelines published by FDA in providing these patient care services.
   - A pharmacist who furnishes COVID-19 oral therapeutics shall notify patient's PCP or enter appropriate information into patient record system shared with PCP, as permitted by that PCP. If the patient does not have a PCP, the pharmacist shall provide the patient with a written record of the drugs furnished and advise the patient to consult a physician of the patient's choice.
   - Document the kind and amounts of COVID-19 oral therapeutics furnished, as well as any information regarding testing services provided, in the patient's record in the record system maintained by the pharmacy.
   - Retain records for 3 years.
2. BPC 4113 – PIC authority to make staffing decisions
   - PIC may make staffing decisions to ensure sufficient personnel are present in the pharmacy to prevent fatigue, distraction, or other conditions that may interfere with a pharmacist's ability to practice competently and safely.
   - If PIC is not available, a pharmacist on duty may adjust staffing according to workload if needed.
   - PIC or pharmacist on duty shall immediately notify the store management of any conditions that present an immediate risk of death, illness, or irreparable harm to patients, personnel, or pharmacy staff. If the conditions are not resolved within 24 hours, the PIC or RPH on duty shall ensure the BOP is timely notified. Conditions that present an immediate risk of death, illness, or irreparable harm to patients, personnel, or pharmacy staff include, but are not limited to:

INSPECTION REPORT

- Workplace safety and health hazards that present an immediate risk of death, illness or irreparable harm to patients, personnel, or pharmacy staff.
- Sustained temperatures that could impact ambient temperature drug stability according to manufacturer data on acceptable drug storage conditions.
- Vermin infestation that poses a risk to the safety or efficacy of medicine.

3. BPC 4113.1 – Reporting medication errors within 14 days from discovery.
   - Applies to "community pharmacies" – *i.e.,* any pharmacy that dispenses medication to an outpatient (but not including facilities of CDCR).
   - Per the BOP's AB 1286 Implementation Statement, the reporting of medication errors under BPC 4113.1 will not be required until the BOP approves an entity to receive the reports.
4. BPC 4113.6 – Chain community pharmacy subject to BPC 4113.5 must be staffed at all times with at least one clerk or pharmacy technician fully dedicated to performing pharmacy-related services. The BOP will not take action against a pharmacy for violation of this staffing requirement if any of the following conditions apply:
   - RPH on duty waives the requirement in writing during specified hours based on workload need.
   - The pharmacy is open beyond normal business hours (*i.e.,* before 8am, after 7pm). During the hours before 8am and after 7pm, the staffing requirement shall not apply.
   - The pharmacy's prescription volume per day on average is less than 75 prescriptions per day based on the average daily prescription volume for the past calendar year. However, if the pharmacist is also expected to provide additional pharmacy services (such as immunizations or CLIA-waived tests) this exception does not apply.

   When staffing of pharmacist hours within a chain community pharmacy does not overlap sufficiently, scheduled closures for lunch time for all pharmacy staff shall be established and publicly posted, and included on the outgoing telephone message.
5. BPC 4115 – Pharmacy technician may, under the direct supervision and control of a pharmacy, prepare and administer influenza and COVID-19 vaccines via injection or intranasally, prepare and administer epinephrine, perform specimen collection for tests that are CLIA waived, receive prescription transfers, and accept clarification on prescriptions under certain specified conditions.
6. BPC 4231 – CE required for pharmacists to renew their pharmacist license must now include at least one hour of participation in a cultural competency course which meets specified requirements.

Compounding Information

November 1, 2023, is the compendial date for several USP General Chapters, including General Chapters <795> Pharmaceutical Compounding—Nonsterile Preparations, <797> Pharmaceutical Compounding—Sterile Preparations, <800> Hazardous Drugs—Handling in Healthcare Settings, and <825> Radiopharmaceuticals—Preparation, Compounding, Dispensing, and Repackaging. Consistent with the policy statement the Board released on September 12, 2023, it is the Board's expectation that licensees are moving forward with all necessary implementation activities to comply with the updated USP compounding standards.

The Board has undertaken a review of its compounding regulations and identified changes necessary to clarify or make more specific requirements of federal law and USP General Chapters.

During this transition period, licensees are encouraged to monitor the regulation process for updates, including signing up for the Board's subscriber alert system and by checking the Board's website.

Walgreen Co. ("Walgreens") has operated retail drug stores since 1901. Walgreens and its wholly owned subsidiaries currently own and operate over 8,100 stores in the United States and Puerto Rico.

In the normal course of its business operations, Walgreens' pharmacies are periodically subject to inspection and, on occasion, administrative action by state agencies that regulate the practice of pharmacy. Typically, the pharmacy is given an opportunity to correct the deficiency within a specified period of time and, if it does so, the matter is closed without disciplinary or adverse licensure action.

During the course of the last reporting period, one or more pharmacies owned directly or indirectly by Walgreen Co. have been disciplined and/or required, as part of a corrective action plan, to pay an administrative fine to a state and/or federal agency. We can confirm, however, that none of the pharmacies subject to these actions had their retail pharmacy license in any way suspended, restricted, or denied as a result.

B. NAC 639 - For a registered pharmacist who is employed by or under contract with a Nevada licensed pharmacy or a Nevada State Government entity.

For a registered pharmacist who is employed by or under contract with a pharmacy or who is an employee of the State Government may engage in the practice of pharmacy at a location other than the site of a licensed pharmacy shall not engage in the practice of pharmacy at a location other than the site of a licensed pharmacy unless he or she is provided with the same computerized system and access to data regarding a patient for whom a prescription has been submitted that is available to a registered pharmacist in the pharmacy. Such data must include, without limitation:

a. A legible copy of the prescription that is available as an electronic copy or a scanned image in the computerized system of the pharmacy or by facsimile machine; and
b. Any information that is available in the computerized system of the pharmacy that is relevant or necessary for the registered pharmacist to provide pharmaceutical services.

C. NAC 639.403 - For a registered pharmacist who is NOT employed by or under contract with a Nevada licensed pharmacy or a Nevada State Government entity.

For a registered pharmacist who is NOT employed by or under contract with a pharmacy or who is an employee of the State Government shall not engage in the practice of pharmacy at a site other than the site of a licensed pharmacy unless he or she obtains the approval of the Board to engage in the practice of pharmacy at a site other than the site of a licensed pharmacy. To request such approval, the registered pharmacist must submit this application. The application must be approved before a registered pharmacist may commence any practice.

D. NAC 639.4916 - For a registered pharmacist who is employed by or under contract with a Nevada licensed pharmacy located within a hospital or correctional institution.

1. A registered pharmacist who is employed by or under contract with a pharmacy located within a hospital or correctional institution to provide the remote chart order processing services to the hospital or correctional institution that the pharmacy is required by NAC 639.4915 to provide must:
    a. Be trained in the policies and procedures of the hospital or correctional institution regarding all policies and procedures of the hospital or correctional institution with which the registered pharmacist must comply, including, without limitation, the provisions of pharmaceutical services, security, and confidentiality of patient records; and
    b. Be provided with the same computerized system and access to data regarding a patient for whom a chart order has been submitted that would be available to a registered pharmacist employe by the pharmacy located within the hospital or correctional institution, including, without limitation:
        i. The height, weight and age of the patient and any allergies that the patient may have;
        ii. The medical records regarding any medications prescribed to the patient;
        iii. The results of any relevant laboratory tests;
        iv. The health history and notes regarding physical examinations, to the extent that the information is available in the computerized system of the hospital or correctional institution;
        v. Any notes provided by a physician, nurse or other medical staff of the institution, to the extent that those notes are available in the computerized system of the hospital or correctional institution;
        vi. A legible copy of the chart order that is available through a scanned image in the computerized system of the hospital or correctional institution or by facsimile machine; and
        vii. Any other information that is available in the computerized system of the hospital or correctional institution that is relevant or necessary for the registered pharmacist to provide pharmaceutical services.
2. Before a registered pharmacist who is employed by or under contract with a pharmacy located within a hospital or correctional institution provides remote chart order processing services to the hospital or correctional institution, the registered pharmacist must review any relevant information regarding the patient for whom a chart order has been submitted. The registered pharmacist must, before approving a chart order to be filled, evaluate:
    a. The overutilization or underutilization of a medication;
    b. Therapeutic duplication;
    c. The appropriateness of the prescribed dosage and route of administration;
    d. The appropriateness of the directions for use of the medication;
    e. The appropriateness of the duration of the treatment with the prescribed medication;
    f. Any contraindication of the medication and a particular disease, ailment or allergy of the patient;
    g. Any contraindication or interactions between multiple medications prescribed for the patient; and
    h. The potential abuse or misuse of a medication.
3. A registered pharmacist who is employed by or under contract with a pharmacy located within a hospital or correctional institution provides remote chart order processing services to the hospital or correctional institution shall comply with the requirements of Section 7 (A) to the same extent as a registered pharmacist engaging in the practice of pharmacy at a location other than the site of a licensed pharmacy pursuant to the provisions in Section 7 (B) and Section 7 (C).
4. In an emergency, a registered pharmacist who is employed by or under contract with a pharmacy located within a hospital or correctional institution to provide remote chart order processing services to the hospital or correctional institution may render remote chart order processing services without being provided with all the information required by paragraph (b) of subsection 1 of Section 7 (D) if the registered pharmacist believes, in his or her professional judgement, that he or she has received sufficient information from the staff of the hospital or correctional institution to render the services.
5. A registered pharmacist who is employed by or under contract with a pharmacy located within a hospital or correctional institution to provide remote chart order processing services to the hospital or correctional institution may refuse to approve the filling of a chart order if, in the judgement of the registered pharmacist, the chart order is not safe or reasonable for the patient. A registered pharmacist who refuses to approve the filling of a chart order pursuant to this subsection must notify the hospital or correctional institution as soon as practicable that he or she has refused to approve the filling of the chart order.
6. Each time that a registered pharmacist who is employed by or under contract with a pharmacy located within a hospital or correctional institution to provide remote chart order processing services to the hospital or correctional institution

provides remote chart order processing services pursuant to this section, the registered pharmacist shall make a notation in the computerized system of the hospital or correctional institution that indicates:

a. The name or identifier of the registered pharmacist;
b. The date and time that the registered pharmacist provided the services and, if applicable, approved the filling of a chart order; and
c. The specific services provided by the registered pharmacist.

7. The managing pharmacist of a pharmacy located within a hospital or a correctional institution may limit the remote chart order processing services provided pursuant to this section (Section 7 (D)).

I certify under penalty of perjury that the information contained in this application is accurate, true and complete in all material respects. I understand that making any false representation in this application is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire application and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event this application is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

I attest to the knowledge of and compliance with the guidelines of the Centers for Disease Control and Prevention concerning the prevention of transmission of infectious agents through safe and appropriate injection practices. NRS 639.132

I understand that Nevada law requires a registered pharmacist who, in their professional or occupational capacity, knows or has reasonable cause to believe a child has been abused/neglected to report the abuse/neglect to an agency which provides child welfare services or to a local law enforcement agency, and make such a report as soon as reasonably practicable but not later than 24 hours after the person knows or has reasonable cause to believe that the child has been abused/neglected. NEVADA STATE BOARD OF PHARMACY,

Petitioner,

v.

MARILOU REYES, RPH,
Certificate of Registration No. 11763,

AND,

CVS PHARMACY #9168,
Pharmacy License No. PH00506,

Respondents.

Case No. 24-010-RPH-N
24-010-PH-N

NOTICE OF INTENDED ACTION AND ACCUSATION

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent Marilou Reyes ("Respondent Reyes"), because Respondent Reyes holds a certificate of registration issued by the Board pursuant to NRS 639.127, authorizing her to engage in the practice of pharmacy in the state of Nevada.

2. The Board has jurisdiction over CVS Pharmacy #9168 ("Respondent CVS" or "CVS"), because Respondent holds a license issued by the Board pursuant to NRS 639.230, authorizing Respondent CVS to operate a pharmacy located at 1119 California Ave., Reno, Nevada 90523.

FACTUAL ALLEGATIONS

3. On November 21, 2023, at approximately 9 a.m., patient L.A., a California resident, requested that prescriptions maintained by Kaiser Permanente Pharmacy in Los Angeles,

California ("Kaiser") be transferred on an emergency basis to CVS while she was visiting her sister in Reno.

4. While at CVS, L.A. informed two pharmaceutical technicians that she has epilepsy, had traveled without her medications, and needed an immediate transfer of her anti-seizure medication, Tegretol.

5. CVS technicians refused to contact Kaiser regarding the transfer request and informed L.A. that she should seek assistance from another, less busy, pharmacy.

6. L.A. remained at CVS and contacted Kaiser herself to initiate the transfer request.

7. Subsequently, Kaiser transferred, by way of facsimile, all of L.A.'s active prescriptions, totaling seven (7), two (2) of which were additional re-fills. The transferred medications included Tegretol, Metoprolol, Gabapentin, Levothyroxine (with additional re-fill), and Fluoxetine (with additional re-fill).

8. Respondent Reyes communicated directly with the Kaiser pharmacist regarding the transfer and accepted the facsimile transmission of the transferred prescriptions.

9. Kaiser records documented the successful facsimile transmission of all seven (7) transferred prescriptions to CVS. Kaiser also facsimiled detailed notes for each prescription, including the medication name, strength, quantity, and supply.

10. CVS utilizes an electronic facsimile system. All incoming facsimiles are initially placed in a queue pending retrieval by pharmacy staff. Once retrieved, the facsimile is printed and scanned, and the prescription information is then manually entered into CVS's pharmacy system.

11. CVS Pharmaceutical technician Shirley Donnelly only entered five (5) of L.A.'s seven (7) facsimiled prescriptions into its system and assigned prescription numbers for Gabapentin, Levothyroxine, Fluoxetine (with additional refill), and Metoprolol. Respondent Reyes verified the five (5) prescriptions.

12. While waiting for her prescription to be dispensed by CVS, L.A.'s condition deteriorated, and she became unable to effectively communicate.

13. After learning of L.A.'s condition during a telephone call with her, L.A.'s sister went to CVS at approximately 1:00 p.m. where she observed L.A. slumped over in a chair near the pharmacy counter unable to speak or otherwise communicate.

14. Shortly thereafter, a CVS employee dispensed Gabapentin, Levothyroxine, Fluoxetin, and Metoprolol to L.A.'s sister who immediately gave L.A. the medication while still in the pharmacy.

15. Later that day, L.A. experienced a seizure and was transported to Renown hospital by paramedics. The paramedics confirmed that none of the medications dispensed to Respondent earlier that day were to treat seizures.

16. During L.A.'s hospitalization, she experienced status epilepticus (continuous seizures), was admitted to the intensive care unit, and placed on a ventilator. She remained hospitalized from November 21, 2023 through November 24, 2023.

17. Following her discharge, L.A. experienced memory loss and was ordered to stop driving for six months.

18. Kaiser records reflect that L.A.'s Tegretol prescription had been transferred to Respondent CVS, while Respondent CVS records reflect no prescription for Tegretol.

19. The facsimile records maintained by CVS consisted of scanned pages marked "2/6," "3/6," "4/6", and "5/6." CVS did not maintain records of the pages marked "1/6" and "6/6", and Respondent CVS was unable to account for the missing pages or determine their contents.

20. CVS was further unable to retrieve the original transmission because facsimiles are immediately deleted from the system after they are entered into CVS's records. Pursuant to CVS's computer system, deleted facsimiles are moved to the "Delete Triage" and are only recoverable that same day.

21. CVS Corporate can only retrieve deleted records within 30 days of being sent to the "Deleted Triage."

PRIOR DISCIPLINE

22. In 1998, the Board disciplined Respondent CVS for a dispensing error and imposed a $400 fine.

23. In 2010, the Board disciplined Respondent CVS for a dispensing error and imposed a $1,000 fine.

24. In 2010, the Board disciplined Respondent CVS for mislabeling a prescription's directions, resulting in patient harm. The Board imposed a $750 fine.

APPLICABLE LAW

25. A pharmacist has a duty to review a patient's record before dispensing a prescription to determine its therapeutic appropriateness. NAC 639.707(4). The pharmacist may consider, among other things, diseases which the patient has.

26. A pharmacist has a duty to keep facsimile prescriptions for at least two (2) years after receipt. If the paper is not of sufficient quality to last for at least 2 years, the facsimile prescription must be reproduced on permanent paper, or the pharmacist must reduce the prescription to writing and attach the original transmission of the prescription to the reproduced copy or the prescription reduced to writing. NAC 639.711(5).

27. A pharmacist who receives a prescription to fill, including a prescription that is written, transcribed from an oral order or transferred to the pharmacy, shall mark on the prescription a unique serial number issued for that prescription. NAC 639.706(1).

28. A pharmacist shall maintain a physical record in the files of prescriptions that accurately explains or accounts for any serial number issued for a prescription that is not filled, including a serial number issued in error or for a prescription that is later rendered void. NAC 639.706(3).

29. A person who is issued a license to conduct a pharmacy shall ensure that the pharmacy uses a computerized system for recording information concerning prescriptions. NAC 639.924.

30. Any computerized system used by a pharmacy for recording information concerning prescriptions must be designed in such a manner that it provides a readily retrievable printed record of the information relating to a prescription or a patient which the pharmacy is required to maintain pursuant to state or federal law, including, without limitation, information relating to the original prescription or the refill or modification of that prescription. NAC 639.910(1)(a).

31. Any computerized system used by a pharmacy for recording information concerning prescriptions must be designed in such a manner that it provides a procedure that may be conducted at least once each day to ensure that the information which is recorded in the system is not lost or destroyed. NAC 639.910(1)(m).

32. Unprofessional conduct by a pharmacist includes, "performing any of his or her duties . . . in an incompetent, unskillful or negligent manner." NAC 639.945(1)(i).

33. The owner of any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(3).

34. The Board may discipline a licensee who has violated any provisions of a regulation relating to the practice of pharmacy. NRS 639.210(12).

35. In lieu of, or in addition to, revoking or suspending a license holder's registration for violating the law or engaging in unprofessional conduct, the Board may impose fines as a disciplinary measure. *See* NRS 639.255; NAC 639.955.

COUNT ONE
Unprofessional Conduct – Failure to Exercise Professional Judgment
(Respondents Reyes and CVS)

36. As alleged above, Respondent Reyes verified and dispensed only five (5) of L.A.'s seven (7) facsimile prescriptions, failing to verify and dispense, among others, L.A.'s prescription for Tegretol.

37. Respondent Reyes failed to locate L.A.'s prescription for Tegretol despite pharmacy staff being aware of L.A.'s epilepsy diagnosis and deteriorating condition near the pharmacy counter.

38. Based upon the foregoing, Respondent Reyes knew or reasonably should have known that L.A. was awaiting an anti-seizure medication, among others.

39. Respondent Reyes breached her duty under NAC 639.707(4) to evaluate whether the prescriptions that she had verified for L.A. were therapeutically appropriate to control L.A.'s epileptic seizures.

40. Had Respondent Reyes properly reviewed and considered L.A.'s known diagnosis of epilepsy and deteriorating condition when determining the therapeutic appropriateness of dispensing drugs that did not include an anti-seizure medication, Respondent Reyes likely would have discovered the omission to fill L.A.'s prescription for Tegretol.

41. As alleged above, Respondent Reyes performed her duties as a pharmacist in a negligent, unskillful or incompetent manner, thus engaging in unprofessional conduct.

42. As the owner/operator of the pharmacy at which Respondent Reyes was employed, Respondent CVS is responsible for Respondent Reyes' conduct as alleged above. Accordingly, the Board may discipline Respondent CVS pursuant to NRS 639.230(5), NAC 639.702 and NAC 639.945(2).

COUNT TWO
Unprofessional Conduct – Failure to Properly Serialize Prescriptions and/or Maintain Prescription Records Transmitted Via Facsimile (Respondents Reyes and CVS)

43. As the CVS pharmacist on duty on November 21, 2023, Respondent Reyes had a duty to assign unique serial numbers to each of the prescriptions transferred from Kaiser on behalf of L.A.

44. As the CVS pharmacist on duty on November 21, 2023, Respondent Reyes had a duty to generate a record or summary explaining or accounting for any serial numbers issued for prescriptions that were not filled by CVS for L.A.

45. As the CVS pharmacist on duty on November 21, 2023, Respondent Reyes had a duty to generate a record or summary documenting all the pertinent prescription information transferred from Kaiser on behalf of L.A.

46. Based upon the prescription information received from Kaiser, Respondent Reyes knew or reasonably should have known that there were seven (7) prescriptions requiring serialization and/or documentation. Respondent Reyes failed to serialize and/or document two of those prescriptions.

47. Given that L.A. was visibly distressed within the pharmacy, Respondent Reyes knew or reasonably should have known that it was critically important to fully and accurately serialize and document the prescriptions transferred from Kaiser on behalf of L.A.

48. By failing to fully and accurately serialize and document the prescriptions transferred from Kaiser on behalf of L.A., Respondent Reyes performed her duties as a pharmacist in a negligent, unskillful or incompetent manner, thus engaging in unprofessional conduct. NRS 639.210(4). See also NAC 639.945(1)(i).

49. As the owner/operator of the pharmacy at which Respondent Reyes was employed, Respondent CVS is responsible for Respondent Reyes' unprofessional conduct as alleged above. Accordingly, the Board may discipline Respondent CVS pursuant to NRS 639.230(5), NAC 639.702 and NAC 639.945(2).

COUNT THREE
Unprofessional Conduct – Failure to Maintain a Compliant Computerized System (Respondent CVS)

50. Respondent CVS had a duty to maintain a computerized system that has readily retrievable records and that has a procedure in place to ensure that recorded information is not deleted. NAC 639.910.

51. Respondent CVS performed its duties in an incompetent, unskillful, or negligent manner because it did not have a procedure in place to ensure that its original incoming facsimiles are readily retrievable. *See* NAC 639.910(1)(m); NAC 639.945(1)(i).

52. Having engaged in unprofessional conduct as alleged above, Respondent CVS is subject to discipline by the Board. NRS 639.210(4); NRS 639.255; NAC 639.945; and NAC 639.955.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration for Respondent CVS Pharmacy #9168 and Respondent Reyes.

DATED this 21st day of July 2026.

Nevada State Board of Pharmacy

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **MARILOU REYES, RPH,** **Certificate of Registration No. 11763, and** **CVS PHARMACY #9168,** **Pharmacy License No. PH00506,** **Respondents.**	**Case Nos. 24-010-RPH-N** **24-010-PH-N** **STIPULATION AND ORDER** **[CVS PHARMACY #9168 ONLY]**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy ("Board"), by and through counsel, Amy K. Steelman, Esq., and CVS Pharmacy #9168, Pharmacy License No. PH00506, ("Respondent"), by and through counsel, Joseph Lavino, Esq., **HEREBY STIPULATE AND AGREE THAT:**

1. On or about July 23, 2026, Respondent was served with the Notice of Intended Accusation ("Accusation") on file in this matter, together with the Statement to Respondent and Notice of Hearing.

2. Respondent is fully aware of the right to seek the advice of counsel in this matter and obtained the advice of counsel prior to entering into this Stipulation.

3. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration, the right to appeal, and any and all other rights which may be accorded pursuant to NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

4. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondent has failed to comply with the provisions of this Stipulation, Respondent hereby knowingly and voluntarily waives the rights to a hearing, reconsideration, appeal, and any and all other rights related to this action that may be accorded by the

Nevada Administrative Procedure Act, Administrative Procedure Before Certain Regulatory Bodies, and the Nevada Pharmacy Act.

5. Respondent contests the allegations stated in Count One, Count Two, and Count Three the Accusation, but acknowledges that Board staff prosecuting this case could present such evidence at an administrative hearing to establish a factual basis for the violations alleged therein. This Stipulation shall not be construed as an admission of liability by Respondent nor a concession by the Board that the Accusation is not based upon sufficient evidence.

A. While acting as an employee of Respondent, Pharmacist Reyes verified and dispensed four facsimile prescriptions for patient L.A.

B. Kaiser reported that additional prescriptions, including L.A.'s prescription for Tegretol, were also faxed; CVS disputes that any additional prescriptions for L.A. were received. CVS contends that there is a lack of evidence that any additional prescriptions were successfully transmitted to or received by CVS, entered into any CVS system, or subsequently deleted by CVS or pharmacy personnel.

C. Taking into consideration the marking of the pages received by CVS as "2/6," "3/6," "4/6," and "5/6", L.A.'s reported epilepsy diagnosis, and L.A.'s specific request to fill her prescription for Tegretol, Pharmacist Reyes could have recognized that there might have been additional prescriptions requiring serialization and/or documentation and/or that the medications dispensed were not therapeutically appropriate to control L.A.'s epileptic seizures. Pharmacist Reyes failed to serialize and/or document the two additional pages that are alleged to have been faxed from Kaiser and failed to dispense L.A.'s prescription for Tegretol.

D. Based on the conduct as alleged, Pharmacist Reyes violated NAC 639.706 and/or engaged in unprofessional conduct as defined by NAC 639.945(1)(i).

E. As the pharmacy/pharmacy owner at which unprofessional conduct and violations of law are alleged by the Board to have occurred, Respondent CVS Pharmacy #9168 is legally responsible for those violations, including all errors and omissions of employee

Marilou Reyes and any other pharmacy personnel, and is subject to professional discipline pursuant to NRS 639.230(5), NAC 639.702, and/or NAC 639.945(3).

F. Respondent CVS had a duty to maintain a computerized system that has readily retrievable records and that has a procedure in place to ensure that recorded information is not deleted. NAC 639.910. Facsimile prescriptions must be maintained for at least two (2) years after receipt. NAC 639.711(5).

G. Respondent CVS's computer system did not maintain records of the facsimile pages from Kaiser marked "1/6" and "6/6". Kaiser records indicate that 7 prescriptions, including 2 duplicates, were sent to CVS and a notification of "success" was received following the transmission. CVS's system maintains deleted records for 24 hours locally and 30 days on the corporate level. CVS has identified no system record, transmission confirmation, audit trail, or other evidence showing that any additional prescriptions for L.A. were received and subsequently deleted.

H. Based on the violations as alleged, the Board may impose discipline against Respondent CVS # 9168 pursuant to NRS 639.210(12).

6. Those violations are pled with particularity in the Accusation and are grounds for action pursuant to NRS 639.210 and NRS 639.255.

7. To resolve this matter without incurring any further costs or the expense associated with a hearing and to avoid the uncertainty of a contested hearing, the Board and Respondent stipulate to the following penalties:

A. Respondent shall pay an administrative fine of **Six Thousand and 00/100 Dollars ($6,000.00)**, payable by *personal, business, certified or cashier's check, or money order* written to the "**State of Nevada, Office of the Treasurer.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, on or before November 13, 2026.

B. Respondent shall pay the sum of **Six Hundred Fifty and 00/100 Dollars ($650.00)** to partially reimburse the Board for recoverable attorney's fees and costs incurred in

investigating and prosecuting this matter. This sum shall be payable by *personal, business, certified or cashier's check, or money order* written to the "**Nevada State Board of Pharmacy.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, on or before November 13, 2026.

C. Respondent acknowledges its duty to implement and maintain a system that retains all facsimile prescriptions received by CVS pharmacies for a period of no less than two (2) years from the date of receipt in accordance with NAC 639.711(5). On or before January 15, 2027, Respondent shall provide Board staff with written notification confirming its compliance with NAC 639.711(5), including a description of CVS's system, the policies or procedures governing the retention and retrieval of such fax prescriptions, and any changes made thereto as a result of this incident.

D. Respondent shall distribute a written communication to all CVS pharmacies reminding pharmacy personnel to carefully review facsimile prescriptions received by the pharmacy and, when questions arise concerning the quality, completeness, legibility, pagination, or accuracy of a facsimile transmission, to identify and contact the prescriber for clarification prior to processing or dispensing. On or before January 15, 2027, Respondent shall provide Board staff with written notification that such communication has been distributed.

8. This Stipulation constitutes a full and final resolution of the Accusation in Case No. 24-010-PH-N. However, Respondent understands and acknowledges that its failure to comply with the terms stated herein may result in issuance by the Executive Secretary of an order to show cause, pursuant to NAC 639.965, directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation by Respondent, the Board may impose additional discipline not inconsistent with the provisions of NRS Chapter 639.

9. The Board's General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on October 14, 2026, in Las Vegas, Nevada. Respondent will appear in person or through counsel at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent fails to appear for the meeting.

10. The Board may accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330, shall be reported to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r–2 and 45 CFR Part 60, and shall be further reported pursuant to NAC 639.960.

11. If the Board rejects any part or all this Stipulation, and unless the parties reach an alternative agreement on the record during the hearing, the parties agree that the Board may hear a full contested hearing on the merits of all alleged violations as stated in the Accusation. The terms and admissions herein may not be used, relied upon, or referred to by any party during any such hearing.

12. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any or all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown, that might otherwise have been asserted by the Board on or before the effective date of this Order.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **MARILOU REYES, RPH,** **Certificate of Registration No. 11763,** **AND,** **CVS PHARMACY #9168,** **Pharmacy License No. PH00506,** **Respondents.**	**Case No. 24-010-RPH-N** **24-010-PH-N** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent Marilou Reyes ("Respondent Reyes"), because Respondent Reyes holds a certificate of registration issued by the Board pursuant to NRS 639.127, authorizing her to engage in the practice of pharmacy in the state of Nevada.

2. The Board has jurisdiction over CVS Pharmacy #9168 ("Respondent CVS" or "CVS"), because Respondent holds a license issued by the Board pursuant to NRS 639.230, authorizing Respondent CVS to operate a pharmacy located at 1119 California Ave., Reno, Nevada 90523.

FACTUAL ALLEGATIONS

3. On November 21, 2023, at approximately 9 a.m., patient L.A., a California resident, requested that prescriptions maintained by Kaiser Permanente Pharmacy in Los Angeles,

California ("Kaiser") be transferred on an emergency basis to CVS while she was visiting her sister in Reno.

4. While at CVS, L.A. informed two pharmaceutical technicians that she has epilepsy, had traveled without her medications, and needed an immediate transfer of her anti-seizure medication, Tegretol.

5. CVS technicians refused to contact Kaiser regarding the transfer request and informed L.A. that she should seek assistance from another, less busy, pharmacy.

6. L.A. remained at CVS and contacted Kaiser herself to initiate the transfer request.

7. Subsequently, Kaiser transferred, by way of facsimile, all of L.A.'s active prescriptions, totaling seven (7), two (2) of which were additional re-fills. The transferred medications included Tegretol, Metoprolol, Gabapentin, Levothyroxine (with additional re-fill), and Fluoxetine (with additional re-fill).

8. Respondent Reyes communicated directly with the Kaiser pharmacist regarding the transfer and accepted the facsimile transmission of the transferred prescriptions.

9. Kaiser records documented the successful facsimile transmission of all seven (7) transferred prescriptions to CVS. Kaiser also facsimiled detailed notes for each prescription, including the medication name, strength, quantity, and supply.

10. CVS utilizes an electronic facsimile system. All incoming facsimiles are initially placed in a queue pending retrieval by pharmacy staff. Once retrieved, the facsimile is printed and scanned, and the prescription information is then manually entered into CVS's pharmacy system.

11. CVS Pharmaceutical technician Shirley Donnelly only entered five (5) of L.A.'s seven (7) facsimiled prescriptions into its system and assigned prescription numbers for Gabapentin, Levothyroxine, Fluoxetine (with additional refill), and Metoprolol. Respondent Reyes verified the five (5) prescriptions.

12. While waiting for her prescription to be dispensed by CVS, L.A.'s condition deteriorated, and she became unable to effectively communicate.

13. After learning of L.A.'s condition during a telephone call with her, L.A.'s sister went to CVS at approximately 1:00 p.m. where she observed L.A. slumped over in a chair near the pharmacy counter unable to speak or otherwise communicate.

14. Shortly thereafter, a CVS employee dispensed Gabapentin, Levothyroxine, Fluoxetin, and Metoprolol to L.A.'s sister who immediately gave L.A. the medication while still in the pharmacy.

15. Later that day, L.A. experienced a seizure and was transported to Renown hospital by paramedics. The paramedics confirmed that none of the medications dispensed to Respondent earlier that day were to treat seizures.

16. During L.A.'s hospitalization, she experienced status epilepticus (continuous seizures), was admitted to the intensive care unit, and placed on a ventilator. She remained hospitalized from November 21, 2023 through November 24, 2023.

17. Following her discharge, L.A. experienced memory loss and was ordered to stop driving for six months.

18. Kaiser records reflect that L.A.'s Tegretol prescription had been transferred to Respondent CVS, while Respondent CVS records reflect no prescription for Tegretol.

19. The facsimile records maintained by CVS consisted of scanned pages marked "2/6," "3/6," "4/6", and "5/6." CVS did not maintain records of the pages marked "1/6" and "6/6", and Respondent CVS was unable to account for the missing pages or determine their contents.

20. CVS was further unable to retrieve the original transmission because facsimiles are immediately deleted from the system after they are entered into CVS's records. Pursuant to CVS's computer system, deleted facsimiles are moved to the "Delete Triage" and are only recoverable that same day.

21. CVS Corporate can only retrieve deleted records within 30 days of being sent to the "Deleted Triage."

PRIOR DISCIPLINE

22. In 1998, the Board disciplined Respondent CVS for a dispensing error and imposed a $400 fine.

23. In 2010, the Board disciplined Respondent CVS for a dispensing error and imposed a $1,000 fine.

24. In 2010, the Board disciplined Respondent CVS for mislabeling a prescription's directions, resulting in patient harm. The Board imposed a $750 fine.

APPLICABLE LAW

25. A pharmacist has a duty to review a patient's record before dispensing a prescription to determine its therapeutic appropriateness. NAC 639.707(4). The pharmacist may consider, among other things, diseases which the patient has.

26. A pharmacist has a duty to keep facsimile prescriptions for at least two (2) years after receipt. If the paper is not of sufficient quality to last for at least 2 years, the facsimile prescription must be reproduced on permanent paper, or the pharmacist must reduce the prescription to writing and attach the original transmission of the prescription to the reproduced copy or the prescription reduced to writing. NAC 639.711(5).

27. A pharmacist who receives a prescription to fill, including a prescription that is written, transcribed from an oral order or transferred to the pharmacy, shall mark on the prescription a unique serial number issued for that prescription. NAC 639.706(1).

28. A pharmacist shall maintain a physical record in the files of prescriptions that accurately explains or accounts for any serial number issued for a prescription that is not filled, including a serial number issued in error or for a prescription that is later rendered void. NAC 639.706(3).

29. A person who is issued a license to conduct a pharmacy shall ensure that the pharmacy uses a computerized system for recording information concerning prescriptions. NAC 639.924.

30. Any computerized system used by a pharmacy for recording information concerning prescriptions must be designed in such a manner that it provides a readily retrievable printed record of the information relating to a prescription or a patient which the pharmacy is required to maintain pursuant to state or federal law, including, without limitation, information relating to the original prescription or the refill or modification of that prescription. NAC 639.910(1)(a).

31. Any computerized system used by a pharmacy for recording information concerning prescriptions must be designed in such a manner that it provides a procedure that may be conducted at least once each day to ensure that the information which is recorded in the system is not lost or destroyed. NAC 639.910(1)(m).

32. Unprofessional conduct by a pharmacist includes, "performing any of his or her duties . . . in an incompetent, unskillful or negligent manner." NAC 639.945(1)(i).

33. The owner of any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(3).

34. The Board may discipline a licensee who has violated any provisions of a regulation relating to the practice of pharmacy. NRS 639.210(12).

35. In lieu of, or in addition to, revoking or suspending a license holder's registration for violating the law or engaging in unprofessional conduct, the Board may impose fines as a disciplinary measure. *See* NRS 639.255; NAC 639.955.

COUNT ONE
Unprofessional Conduct – Failure to Exercise Professional Judgment
(Respondents Reyes and CVS)

36. As alleged above, Respondent Reyes verified and dispensed only five (5) of L.A.'s seven (7) facsimile prescriptions, failing to verify and dispense, among others, L.A.'s prescription for Tegretol.

37. Respondent Reyes failed to locate L.A.'s prescription for Tegretol despite pharmacy staff being aware of L.A.'s epilepsy diagnosis and deteriorating condition near the pharmacy counter.

38. Based upon the foregoing, Respondent Reyes knew or reasonably should have known that L.A. was awaiting an anti-seizure medication, among others.

39. Respondent Reyes breached her duty under NAC 639.707(4) to evaluate whether the prescriptions that she had verified for L.A. were therapeutically appropriate to control L.A.'s epileptic seizures.

40. Had Respondent Reyes properly reviewed and considered L.A.'s known diagnosis of epilepsy and deteriorating condition when determining the therapeutic appropriateness of dispensing drugs that did not include an anti-seizure medication, Respondent Reyes likely would have discovered the omission to fill L.A.'s prescription for Tegretol.

41. As alleged above, Respondent Reyes performed her duties as a pharmacist in a negligent, unskillful or incompetent manner, thus engaging in unprofessional conduct.

42. As the owner/operator of the pharmacy at which Respondent Reyes was employed, Respondent CVS is responsible for Respondent Reyes' conduct as alleged above. Accordingly, the Board may discipline Respondent CVS pursuant to NRS 639.230(5), NAC 639.702 and NAC 639.945(2).

COUNT TWO
Unprofessional Conduct – Failure to Properly Serialize Prescriptions and/or Maintain Prescription Records Transmitted Via Facsimile (Respondents Reyes and CVS)

43. As the CVS pharmacist on duty on November 21, 2023, Respondent Reyes had a duty to assign unique serial numbers to each of the prescriptions transferred from Kaiser on behalf of L.A.

44. As the CVS pharmacist on duty on November 21, 2023, Respondent Reyes had a duty to generate a record or summary explaining or accounting for any serial numbers issued for prescriptions that were not filled by CVS for L.A.

45. As the CVS pharmacist on duty on November 21, 2023, Respondent Reyes had a duty to generate a record or summary documenting all the pertinent prescription information transferred from Kaiser on behalf of L.A.

46. Based upon the prescription information received from Kaiser, Respondent Reyes knew or reasonably should have known that there were seven (7) prescriptions requiring serialization and/or documentation. Respondent Reyes failed to serialize and/or document two of those prescriptions.

47. Given that L.A. was visibly distressed within the pharmacy, Respondent Reyes knew or reasonably should have known that it was critically important to fully and accurately serialize and document the prescriptions transferred from Kaiser on behalf of L.A.

48. By failing to fully and accurately serialize and document the prescriptions transferred from Kaiser on behalf of L.A., Respondent Reyes performed her duties as a pharmacist in a negligent, unskillful or incompetent manner, thus engaging in unprofessional conduct. NRS 639.210(4). See also NAC 639.945(1)(i).

49. As the owner/operator of the pharmacy at which Respondent Reyes was employed, Respondent CVS is responsible for Respondent Reyes' unprofessional conduct as alleged above. Accordingly, the Board may discipline Respondent CVS pursuant to NRS 639.230(5), NAC 639.702 and NAC 639.945(2).

COUNT THREE
Unprofessional Conduct – Failure to Maintain a Compliant Computerized System (Respondent CVS)

50. Respondent CVS had a duty to maintain a computerized system that has readily retrievable records and that has a procedure in place to ensure that recorded information is not deleted. NAC 639.910.

51. Respondent CVS performed its duties in an incompetent, unskillful, or negligent manner because it did not have a procedure in place to ensure that its original incoming facsimiles are readily retrievable. *See* NAC 639.910(1)(m); NAC 639.945(1)(i).

52. Having engaged in unprofessional conduct as alleged above, Respondent CVS is subject to discipline by the Board. NRS 639.210(4); NRS 639.255; NAC 639.945; and NAC 639.955.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration for Respondent CVS Pharmacy #9168 and Respondent Reyes.

DATED this 21st day of July 2026.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3). The hearing shall be conducted pursuant to NRS 639.241 through NRS 639.258. To be entitled to a hearing, you must complete, and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Notice of Intended Action and Accusation. NRS 622A.320; NRS 639.243. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350. A regulatory body may recover from a person reasonable attorney's fees and costs that are incurred by the regulatory body as a part of its investigative, administrative, and disciplinary proceedings against the person if the regulatory body finds that the person has violated any provision of this title. NRS 622.400(1).

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy ("Board"), by and through counsel, Amy K. Steelman, Esq., and Marilou Reyes, RPh, Certificate of Registration No. 11763, ("Respondent"), **HEREBY STIPULATE AND AGREE THAT:**

1. On or about July 27, 2026, Respondent was served with the Notice of Intended Accusation ("Accusation") on file in this matter, together with the Statement to Respondent and Notice of Hearing.

2. Respondent is fully aware of the right to seek the advice of counsel in this matter prior to entering into this Stipulation.

3. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration, the right to appeal, and any and all other rights which may be accorded pursuant to NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

4. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondent has failed to comply with the provisions of this Stipulation, Respondent hereby knowingly and voluntarily waives the rights to a hearing, reconsideration, appeal, and any and all other rights related to this action that may be accorded by the

Nevada Administrative Procedure Act, Administrative Procedure Before Certain Regulatory Bodies, and the Nevada Pharmacy Act.

5. Respondent contests the allegations stated in Count One and Count Two of the Accusation, but acknowledges that Board staff prosecuting this case could present such evidence at an administrative hearing to establish a factual basis for the violations alleged therein. This Stipulation shall not be construed as an admission of liability by Respondent nor a concession by the Board that the Accusation is not based upon sufficient evidence.

A. Respondent verified and dispensed four facsimile prescriptions for patient L.A.

B. Kaiser reported that additional prescriptions, including L.A.'s prescription for Tegretol, were also faxed; CVS disputes that any additional prescriptions for L.A. were received. CVS contends that there is a lack of evidence that any additional prescriptions were successfully transmitted to or received by CVS, cntered into any CVS system, or subsequently deleted by CVS or pharmacy personnel.

C. Taking into consideration the marking of the pages received by CVS as "2/6," "3/6," "4/6," and "5/6", L.A.'s reported epilepsy diagnosis, and L.A.'s specific request to fill her prescription for Tegretol, Respondent could have recognized that there might have been additional prescriptions requiring serialization and/or documentation and/or that the medications dispensed were not therapeutically appropriate to control L.A.'s epileptic seizures. Respondent failed to serialize and/or document the two additional pages that are alleged to have been faxed from Kaiser and failed to dispense L.A.'s prescription for Tegretol.

D. Based on the conduct as alleged, Respondent violated NAC 639.706 and/or engaged in unprofessional conduct as defined by NAC 639.945(1)(i) and is subject to discipline pursuant to NRS 639.210(4) and/or NRS 639.210(12).

6. Those violations are pled with particularity in the Accusation and are grounds for action pursuant to NRS 639.210 and NRS 639.255.

7. To resolve this matter without incurring any further costs or the expenses associated with a hearing and to avoid the uncertainty of a contested hearing, the Board and Respondent stipulate to the following penalties:

A. Respondent shall pay an administrative fine of **Four Thousand and 00/100 Dollars ($4,000.00)**, payable by *personal, business, certified, or cashier's check* or *money order* written to the **"State of Nevada, Office of the Treasurer."** Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, on or before November 13, 2026.

B. Respondent shall pay the sum of **Six Hundred Fifty and 00/100 Dollars ($650.00)** to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter. This sum shall be payable by *personal, business, certified, or cashier's check* or *money order* written to the **"Nevada State Board of Pharmacy."** Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, on or before November 13, 2026.

8. This Stipulation constitutes a full and final resolution of the Accusation in Case No. 24-010-RPH-N. However, Respondent understands and acknowledges that her failure to comply with the terms stated herein may result in issuance by the Executive Secretary of an order to show cause, pursuant to NAC 639.965, directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation by Respondent, the Board may impose additional discipline not inconsistent with the provisions of NRS Chapter 639.

9. The Board's General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on October 14, 2026, in Las Vegas, Nevada. Respondent will appear in person or through counsel at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent fails to appear for the meeting.

10. The Board may accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330, shall be reported to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r–2 and 45 CFR Part 60, and shall be further reported pursuant to NAC 639.960.

11. If the Board rejects any part or all this Stipulation, and unless the parties reach an alternative agreement on the record during the hearing, the parties agree that the Board may hear a full contested hearing on the merits of all alleged violations as stated in the Accusation. The terms and admissions herein may not be used, relied upon, or referred to by any party during any such hearing.

12. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any or all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have been asserted by the Board on or before the effective date of this Order.

Respondent has fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and has knowingly and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **QUALITY COMPOUNDING RX OF AMERICA, License No. PH02986,** **Respondent.**	**CASE NO. 25-253-PH-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and this respondent because Quality Compounding Rx of America (Respondent) holds a pharmacy license issued by the Board, Pharmacy License No. PH02986.

FACTUAL ALLEGATIONS

2. On or about August 1, 2013, Respondent was initially licensed by the Board to dispense dangerous drugs and controlled substances to patients in Nevada. In July 2026, Respondent submitted to the Board an application for ownership change.

3. Respondent is a 503A pharmacy that dispenses sterile compounded drug products to patients in Nevada as the term compound is defined at NRS 639.0053. Respondent's practice is governed by NRS Chapters 453, 454, and 639, and by Section 503A of the federal Food, Drug and Cosmetic Act (FD&C Act).

4. A Board investigation found that, between at least April 22, 2025, and September 11, 2025, Respondent distributed or dispensed hundreds of compounded semaglutide prescriptions and compounded tirzepatide prescriptions to Nevada patients. These drugs are essentially copies

of commercially available drug products manufactured under the brand names Ozempic, Wegovy, Mounjaro, and/or Zepbound.

5. Board investigators reviewed the documentation for a sample of ten (10) compounded semaglutide prescriptions and ten (10) compounded tirzepatide prescriptions Respondent distributed or dispensed in Nevada. Of these prescriptions, only four (4) contained a clear statement of material difference from the prescribing practitioner attesting to a patient-specific need for a compounded variation of the commercially available drug product.

6. None of the compounded semaglutide or tirzepatide prescriptions Respondent distributed or dispensed in Nevada contained a drug or an active pharmaceutical ingredient that appeared on the FDA's shortage list at the time of dispensing or distribution.

7. The compounded semaglutide and tirzepatide drug products Respondent distributed or dispensed in Nevada were packaged in a container and with a label branded with "Quality Compounding Rx of America."

8. Respondent distributed the compounded semaglutide and tirzepatide drug products in interstate commerce.

APPLICABLE LAW

9. The Board may revoke the license or registration of any licensee or registrant who has violated any provision of the FD&C Act or any other federal law or regulation relating to prescription drugs. NRS 639.210(11).

10. Generally, if a compounding pharmacy wishes to produce a drug in a manner that does not comply with section 503A of the FD&C Act, it must submit a new drug application pursuant to section 505 of the FD&C Act. *See* 21 U.S.C. § 355.

11. To comply with section 503A of the FD&C Act, a compounding pharmacy may not "compound regularly or in inordinate amounts . . . any drug products that are essentially copies of a commercially available drug product." 21 U.S.C. § 353a(b)(1)(D). Drug products are not essentially copies if "there is a change, made for an identified individual patient, which produces

for that patient a significant difference, *as determined by the prescribing practitioner*, between the compounded drug and the comparable commercially available drug product." 21 U.S.C. § 353a(b)(2) (emphasis added).

12. The FDA has published guidance concerning compounded drug products that are essentially copies of commercially available drugs. *See Compounded Drug Products That Are Essentially Copies of a Commercially Available Drug Product Under Section 503A of the Federal Food, Drug, and Cosmetic Act Guidance for Industry*, 83 Fed. Reg. 2790 (January 19, 2018); *Compounded Drug Products That Are Essentially Copies of a Commercially Available Drug Product Under Section 503B of the Federal Food, Drug, and Cosmetic Act Guidance for Industry*, 83 Fed. Reg. 2786 (January 18, 2018). This guidance sets forth the generally accepted standard of care that a compounding pharmacy must adhere to when producing compounded drug products with pharmacological properties that mimic those of commercially available drugs.

13. Under section 502 of the FD&C Act, a drug is misbranded if it bears a false or misleading label or is packaged in a container suggesting that it is proprietary to the seller when it is, in fact, an imitation of some other manufacturer's patented drug product. 21 U.S.C. § 352(i).

14. Under section 301 of the FD&C Act, it is unlawful to distribute a misbranded drug in interstate commerce. *See* 21 U.S.C. § 335.

15. The Board may revoke or suspend the license or registration of any licensee or registrant who has engaged in unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4).

16. It is unprofessional conduct and/or contrary to the public interest for a pharmacy to compound or dispense or permit to be compounded or dispensed substandard drug products. NAC 639.945(1)(a).

17. It is unprofessional conduct and/or contrary to the public interest for a pharmacy to perform or in any way be a party to any fraudulent or deceitful practice or transaction. NAC 639.945(1)(h).

COUNT ONE

Violations of Sections 301, 502, and 505 of the FD&C Act

18. As alleged above, Respondent produced and dispensed compounded drug products that were essentially copies of commercially available drug products manufactured under the brand names Ozempic, Wegovy, Mounjaro, and/or Zepbound.

19. Respondent failed to document a shortage of said commercially available drugs and/or, in some cases, failed to document a specific patient need for some compounded variation thereof in accordance with FDA guidance.

20. Respondent routinely affixed patient-specific labels to product containers even when the formulations for the drugs were not developed pursuant to a statement of significant different issued by the prescribing practitioner.

21. The patient-specific labels were a subterfuge intended to avoid the requirement to file a new drug application pursuant to section 505 of the FD&C Act and/or to conceal the fact that the sterile compounds were essentially copies of commercially available drug products manufactured under the brand names Ozempic, Wegovy, Mounjaro, and/or Zepbound.

22. By producing and dispensing the sterile compounds in the manner described above, Respondent distributed "misbranded" drugs within the meaning of section 502 of the FD&C Act. *See* 21 U.S.C. § 352(i).

23. By distributing misbranded products in interstate commerce, Respondent violated section 301 of the FD&C. *See* 21 U.S.C. § 331.

24. Respondent produced copies of commercially available drugs in a manner requiring the submission of a new drug application pursuant to section 505 of the FD&C Act.

25. By failing to submit a new drug application to the FDA as required by section 505 of the FD&C, Respondent violated section 505 of the FD&C Act.

26. Based on the foregoing, the Board may discipline Respondent pursuant to NRS 639.210(11) for violating the FD&C Act.

COUNT TWO
Unprofessional Conduct

27. As alleged above, Respondent produced and dispensed sterile compounded drug products that were essentially copies of commercially available drug products manufactured under the brand names Ozempic, Wegovy, Mounjaro, and/or Zepbound.

28. Respondent failed to adhere to applicable FDA guidance when it produced drug products that were essentially copies of commercially available drug products. As a result, Respondent compounded and dispensed substandard drug products, which is unprofessional conduct as defined by NAC 639.945(1)(a).

29. Respondent marketed and packaged its sterile compounds in a manner intended to conceal the fact that its compounds were essentially copies of commercially available drug products. In so doing, Respondent engaged in deceitful practices, which is unprofessional conduct as defined by NAC 639.945(1)(h).

30. Based on the foregoing, the Board may discipline Respondent for unprofessional conduct pursuant to NRS 639.210(4).

WHEREFORE, it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the pharmacy license of Quality Compounding Rx of America.

DATED this 15th day of September 2026.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3). The hearing shall be conducted pursuant to NRS 639.241 through NRS 639.258. To be entitled to a hearing, you must complete, and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Notice of Intended Action and Accusation. NRS 622A.320; NRS 639.243. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350. A regulatory body may recover from a person reasonable attorney's fees and costs that are incurred by the regulatory body as a part of its investigative, administrative, and disciplinary proceedings against the person if the regulatory body finds that the person has violated any provision of this title. NRS 622.400(1).

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because, at the time of the events alleged herein, David M. Snipper, M.D. ("Respondent") held a controlled substance registration issued by the Board, Certificate of Registration No. CS33549.

FACTUAL ALLEGATIONS

2. Respondent was licensed by the Nevada State Board of Medical Examiners ("Medical Board") as a medical doctor, specializing in anesthesiology, until December 12, 2025.

3. Pursuant to a Settlement Agreement and Order in the Medical Board's Case No. 25-8772-2 ("SAO"), approved on December 12, 2025, Respondent voluntarily surrendered his license with the Medical Board. The SAO included a provision that Respondent will not apply for reinstatement of his license for a period of one year from the effective date of the SAO.

4. According to the terms of the SAO, Respondent admitted that he knowingly and willfully failed to comply with a Medical Board order in violation of NRS 630.3065(2)(a).

5. Specifically, the Medical Board directed Respondent to undergo an observed urine and hair drug test related to concerns that he was under the influence of illegal drugs. Respondent failed to complete the required drug screening in the time provided in the Medical Board's order.

6. The SAO was supported by reasonable evidence, including documentation and witness statements.

7. On or about September 25, 2025, after learning that Respondent's medical license had been suspended pending investigation, the Board placed Respondent's certificate of registration to prescribe controlled substances on concurrent suspension pursuant to NRS 639.2107.

8. On or about October 21, 2025, Respondent signed a surrender for cause of his Drug Enforcement Administration certificate of registration.

APPLICABLE LAW

9. The Board may revoke or suspend the registration to prescribe controlled substances of any practitioner whose federal registration to dispense controlled substances has been surrendered, suspended, or revoked. NRS 453.236(1)(c); NRS 639.2107.

10. The Board may suspend the registration of any practitioner whose license has been surrendered to or revoked or suspended by another licensing board. NRS 639.2107.

11. The Board may revoke or suspend the registration of any practitioner who is guilty of unprofessional conduct or conduct contrary to the public interest. *See* NRS 639.210(4); NRS 453.236(1)(e); NRS 453.231(1)(h).

COUNT ONE

Failure to Maintain Drug Enforcement Administration Registration

12. As alleged above, by agreeing to surrender his Drug Enforcement Administration registration for cause, Respondent has failed to maintain his required federal registration to dispense controlled substances and is subject to discipline pursuant to NRS 453.236(1)(c) and NRS 639.2107.

COUNT TWO

Unprofessional Conduct – Failure to Comply with Licensing Board

13. As alleged above, by violating NRS 630.3065(2)(a) as detailed in the Medical Board's SAO in Case No. 25-8772-2, Respondent has behaved in an unprofessional manner and is subject to discipline pursuant to NRS 453.236(1)(e), NRS 453.231(1)(h), NRS 639.210(4), and/or NRS 639.2107.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of David M. Snipper.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and this respondent because at the time of the events alleged herein, Respondent Las Vegas Community Pharmacy, License No. PH04396, was a pharmacy licensed by the Board, Natalie Nhu Nguyen, RPh (Nguyen), Certificate of Registration No. 18735, was a pharmacist registered with the Board, and Ali Macintosh, PT (Macintosh), Certificate of Registration No. PT26920, was a pharmaceutical technician registered with the Board.

FACTUAL ALLEGATIONS

2. Macintosh owned Las Vegas Community Pharmacy at the time of the events alleged herein.

3. Nguyen was employed as managing pharmacist by Las Vegas Community Pharmacy from August 31, 2023, until approximately October 14, 2024; however, Nguyen was

employed on a part-time basis and not on duty in the pharmacy and active in the management of the pharmacy full-time.

4. On or about April 10, 2024, an annual inspection of Las Vegas Community Pharmacy revealed evidence in the form of supplier invoices and shipping confirmations that the pharmacy purchased drug products through MatchRX.

5. MatchRX, located in Michigan, is not licensed to engage in business as a wholesaler in Nevada.

6. Macintosh placed the orders with MatchRX in Nguyen's absence.

7. On or about October 10, 2024, the Board issued and served upon MatchRX an Order to Cease-and-Desist together with Citation and Fine for unlicensed wholesale distribution into Nevada.

APPLICABLE LAW

8. The Drug Supply Chain Security Act (DSCSA) (Title II of Public Law 113-54), enacted by Congress on November 27, 2013, added Section 582 to the Federal Food, Drug, and Cosmetic Act (FD&C Act). Section 582 of the FD&C Act (21 U.S.C. § 360eee-1) establishes the requirements that certain entities in the pharmaceutical distribution supply chain, including pharmacies, must follow related to product tracing, verification, and authorized trading partners. Failure to comply is a prohibited act under 21 U.S.C. § 331(t).

9. Any person who engages in the business of wholesale distribution or furnishing controlled substances, poisons, drugs, devices or appliances that are restricted by federal law to sale by or on the order of a physician to any person located within this State shall obtain a license pursuant to the provisions of NRS Chapter 639. NRS 639.100; NRS 639.233(1). Engaging in the business of wholesale distribution without a license is a felony. NRS 639.100(2).

10. Every wholesale distributor who engages in wholesale distributions of prescription drugs in interstate commerce must be licensed by the state into which the drug is distributed. 21 U.S.C. § 353(e)(1)(A); 21 CFR § 205.4.

11. Purchasing a drug from an unlicensed wholesaler does not constitute a bona fide transaction. NRS 639.595.

12. Performing any duties as the holder of a license, certificate or registration issued by the Board, or as the owner of a business or an entity licensed by the Board, in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(i) and is grounds for suspension or revocation of any license issued by the Board. NRS 639.210(4).

13. Aiding or abetting a person not licensed in the State of Nevada constitutes unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(j) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

14. Violating any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs is grounds for suspension or revocation of any license issued by the Board. NRS 639.210(11).

15. Violating, attempting to violate, assisting or abetting in the violation of or conspiring to violate any law or regulation relating to drugs is grounds for suspension or revocation of any issued by the Board. NRS 639.210(12).

16. A managing pharmacist is responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the pharmacy and the practice of pharmacy. NRS 639.210(12) and (15); NRS 639.220(1); NAC 639.702.

17. A managing pharmacist shall be on duty in the pharmacy and active in the management of the pharmacy full-time. NRS 639.220(3)(b).

18. A managing pharmacist of a pharmacy shall be responsible for, and must have knowledge and control of, the acquisition and disposition by the pharmacy of the stock of the pharmacy and shall ensure that the records relating to the acquisition or disposition of the stock of the pharmacy are maintained as required by law. NAC 639.510(2).

19. A pharmaceutical technician may only performs those functions permitted by law. NRS 639.1371(5); NAC 639.245; NAC 639.700; NAC 639.702.

20. Any violation of any of the provisions of NRS Chapter 639 by a managing pharmacist or by personnel of the pharmacy is cause for the suspension or revocation of the license of the pharmacy by the Board. NRS 639.230(5); NAC 639.702. Further, the owner of any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(3).

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and this respondent because at the time of the events alleged herein, Respondent Las Vegas Community Pharmacy, License No. PH04396, was a pharmacy licensed by the Board.

FACTUAL ALLEGATIONS

2. On or about April 10, 2024, an annual inspection of Las Vegas Community Pharmacy revealed evidence in the form of supplier invoices and shipping confirmations that Respondent purchased drug products through MatchRX.

3. MatchRX, located in Michigan, is not licensed to engage in business as a wholesaler in Nevada.

4. On or about October 10, 2024, the Board issued and served upon MatchRX an Order to Cease-and-Desist together with Citation and Fine for unlicensed wholesale distribution into Nevada.

APPLICABLE LAW

5. The Drug Supply Chain Security Act (DSCSA) (Title II of Public Law 113-54), enacted by Congress on November 27, 2013, added Section 582 to the Federal Food, Drug, and Cosmetic Act (FD&C Act). Section 582 of the FD&C Act (21 U.S.C. § 360eee-1) establishes the requirements that certain entities in the pharmaceutical distribution supply chain, including pharmacies, must follow related to product tracing, verification, and authorized trading partners. Failure to comply is a prohibited act under 21 U.S.C. § 331(t).

6. Any person who engages in the business of wholesale distribution or furnishing controlled substances, poisons, drugs, devices or appliances that are restricted by federal law to sale by or on the order of a physician to any person located within this State shall obtain a license pursuant to the provisions of NRS Chapter 639. NRS 639.100; NRS 639.233(1). Engaging in the business of wholesale distribution without a license is a felony. NRS 639.100(2).

7. Every wholesale distributor who engages in wholesale distributions of prescription drugs in interstate commerce must be licensed by the state into which the drug is distributed. 21 U.S.C. § 353(e)(1)(A); 21 CFR § 205.4.

8. Purchasing a drug from an unlicensed wholesaler does not constitute a bona fide transaction. NRS 639.595.

9. Performing any duties as the owner of a business or an entity licensed by the Board in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(i) and is grounds for suspension or revocation of any license issued by the Board. NRS 639.210(4).

10. Aiding or abetting a person not licensed in the State of Nevada constitutes unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(j) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

11. Violating any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs is grounds for suspension or revocation of any license issued by the Board. NRS 639.210(11).

12. Violating, attempting to violate, assisting or abetting in the violation of or conspiring to violate any law or regulation relating to drugs is grounds for suspension or revocation of any issued by the Board. NRS 639.210(12).

13. Any violation of any of the provisions of NRS Chapter 639 or NAC Chapter 639 by personnel of the pharmacy is cause for the suspension or revocation of the license of the pharmacy by the Board. NRS 639.230(5). Further, the owner of any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(3).

COUNT ONE

Violation of Federal Law - Aiding and Abetting Unlicensed Wholesale Distribution

14. By purchasing drug products through MatchRX, a company not licensed to engage in the business of wholesale distribution into Nevada, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate 21 U.S.C. § 360eee-1, 21 U.S.C. § 331(t), 21 U.S.C. § 353(e)(1)(A) and/or 21 CFR Part 205, and is subject to discipline pursuant to NRS 639.210(11).

COUNT TWO

Violation of State Law - Aiding and Abetting Unlicensed Wholesale Distribution

15. By purchasing drug products through MatchRX, a company not licensed to engage in the business of wholesale distribution into Nevada, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 639.100, NRS 639.233(1) and/or NRS 639.595, and is subject to discipline pursuant to NRS 639.210(12).

COUNT THREE

Unprofessional Conduct – Incompetent, Unskillful or Negligent Performance of Duties

16. By purchasing drug products through MatchRX, a company not licensed to engage in the business of wholesale distribution into Nevada, Respondent performed its duties as the owner of a pharmacy licensed by the Board in an incompetent, unskillful or negligent manner, engaged in unprofessional conduct as defined in NAC 639.945(1)(i), and is subject to discipline pursuant to NRS 639.210(4), NRS 639.230(5) and/or NAC 639.945(3).

COUNT FOUR

Unprofessional Conduct – Aiding and Abetting Unlicensed Wholesale Distribution

17. By purchasing drug products through MatchRX, a company not licensed to engage in the business of wholesale distribution into Nevada, Respondent aided and abetted unlicensed wholesale distribution, engaged in unprofessional conduct as defined in NAC 639.945(1)((j), and is subject to discipline pursuant to NRS 639.210(4), NRS 639.230(5) and/or NAC 639.945(3).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to pharmacy license of this Respondent.

NEVADA STATE BOARD OF PHARMACY, Petitioner, vs. LAS VEGAS COMMUNITY PHARMACY, Pharmacy License No. PH04396, Respondent.	Case No. 24-133-PH-S ANSWER AND NOTICE OF DEFENSE

Respondent above named, in answer to the Notice of Intended Action and Accusation filed in the above-entitled matter before the Nevada State Board of Pharmacy, declares:

1. **That Las Vegas Community Pharmacy's objection to the Notice of Intended Action and Accusation as being incomplete or failing to state clearly the charges, is hereby interposed on the following grounds:**

The allegations are not properly substantiated and attempt to include violation references to Acts, Policies, and Laws that pertain to the wholesale distributor and not to Respondent. Pursuant to 21 USC 360eee-1(d), Respondent maintains all records of traceability as required under the Code. The Notice refers to the wholesale distributor, MatchRx, who, unknowingly to Respondent, was allegedly not licensed to transact business in the state of Nevada. Respondent relied on statements from its vendor on proper licensing and, once contrary information was obtained from the Board of Pharmacy, as done in this situation, Respondent immediately ceased doing business with the vendor. In this case, the vendor's invoices and other communications implied DSCSA compliance. Respondent later learned of the licensing issue with MatchRx directly by a Board of Pharmacy inspector and, at that time, Respondent immediately ceased using MatchRx for any and all future orders.

Furthermore, in Nevada, any claim of attempt to violate, assist or abet in the violation of, or conspire to violate, requires the knowledge by the Respondent. *See* Ungaro v. Desert Palace, Inc. 732 F.Supp. 1522, 1533, n3 (D. Nev.1989). In this case, Respondent was, at the relevant times, not knowledgeable about the alleged licensing issue with MatchRx. Additionally, the Notice fails to establish the damage resulting from such act(s)—another requirement to justify a claim of assisting, aiding, abetting, and/or conspiracy. *Id.* As such, any attempt to penalize Respondent based on these allegations must be denied and/or rejected.

2. **That, in answer to the Notice of Intended Action and Accusation, Las Vegas Community Pharmacy admits, denies, and alleges as follows:**

A. I, Ali Macintosh, President of Las Vegus Community Pharmacy, Inc., dba Las Vegas Community Pharmacy (the "Respondent"), respectfully submit this Answer and Notice of Defense within 20 days of receipt of the Notice of Intended Action and Accusation (the "Notice"). I personally received the Notice on or around September 3, 2025 after returning from travels outside of the country.

B. On or about April 10, 2024, invoices and shipping confirmations were provided by the Respondent to a Board of Pharmacy inspector, as requested, including some related to purchases from MatchRx.

C. At the time of the April 2024 inspection, the inspector recommended that Respondent not buy products from MatchRX and purchase only from local sources. The inspector neither restricted nor properly explained the reason for this recommendation. In fact, the inspector noted "Good Inspection" on the final report—implying no significant wrongdoing.

D. The Respondent can neither confirm nor deny the main business location and/or Nevada licensing status of MatchRX.

E. The Respondent can neither confirm nor deny the October 2024 issuance of a Cease-and-Desist Order served upon MatchRX since, at that time, a copy of such issuance was not provided to Respondent.

F. On or about March 13, 2025, invoices and shipping confirmations were, again, provided by the Respondent to a Board of Pharmacy inspector, as requested, including some related to purchases from MatchRx.

G. At the time of the March 2025 inspection, the inspector advised Respondent that MatchRx is not properly licensed to sell products in Nevada. Once given this information, Respondent immediately ceased ordering any and all products from MatchRx.

H. Respondent admits the existence of the "Applicable Law" cited in the Notice, but denies its relevancy to the Respondent, as stated in Paragraph 1, above.

3. Respondent concludes that:

In regard to COUNT ONE, Respondent neither violated, attempted to violate, assisted or abetted in the violation of, nor conspired to violate 21 USC 360eee-1, 21 USC 331(t), 21 USC 353(e)(1)(A), and/or 21 CFR Part 205, because Respondent relied on vendor communication and lack of notice from the Board of Pharmacy inspector. As such, Respondent is not subject to discipline pursuant to NRS 639.210(11).

In regard to COUNT TWO, Respondent neither violated, attempted to violate, assisted or abetted in the violation of, nor conspired to violate NRS 639.100, NRS 639.233(1) and/or NRS 639.595, and is not subject to discipline pursuant to NRS 639.210(12).

In regard to COUNT THREE, Respondent performed its duties in a competent, skillful, and professional manner as defined in NAC 639.945(1)(i), and is not subject to discipline pursuant to NRS 639.210(4), NRS 639.230(5), and/or NAC 639.945(3).

In regard to COUNT FOUR, Respondent neither aided nor abetted unlicensed wholesale distribution and, as always, engaged in professional conduct as defined in NAC 639.945(1)j), and is not subject to discipline pursuant to NRS 639.210(4), NRS 639.230(5), and/or NAC 639.945(3).

Based on this Answer and Notice of Defense, any attempt to penalize Respondent based on the allegations in the Notice must be denied and/or rejected.

I hereby declare, under penalty of perjury, that the foregoing Answer and Notice of Defense, and all facts therein stated, are true and correct to the best of my knowledge.

DATED this 22 day of September 2025.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and this respondent because at the time of the events alleged herein, Respondent Las Vegas Community Pharmacy, License No. PH04396, was a pharmacy licensed by the Board, Natalie Nhu Nguyen, RPh (Nguyen), Certificate of Registration No. 18735, was a pharmacist registered with the Board, and Ali Macintosh, PT (Macintosh), Certificate of Registration No. PT26920, was a pharmaceutical technician registered with the Board.

FACTUAL ALLEGATIONS

2. Macintosh owned Las Vegas Community Pharmacy at the time of the events alleged herein.

3. Nguyen was employed as managing pharmacist by Las Vegas Community Pharmacy from August 31, 2023, until approximately October 14, 2024; however, Nguyen was

employed on a part-time basis and not on duty in the pharmacy and active in the management of the pharmacy full-time.

4. On or about April 10, 2024, an annual inspection of Las Vegas Community Pharmacy revealed evidence in the form of supplier invoices and shipping confirmations that the pharmacy purchased drug products through MatchRX.

5. MatchRX, located in Michigan, is not licensed to engage in business as a wholesaler in Nevada.

6. Macintosh placed the orders with MatchRX in Nguyen's absence.

7. On or about October 10, 2024, the Board issued and served upon MatchRX an Order to Cease-and-Desist together with Citation and Fine for unlicensed wholesale distribution into Nevada.

APPLICABLE LAW

8. The Drug Supply Chain Security Act (DSCSA) (Title II of Public Law 113-54), enacted by Congress on November 27, 2013, added Section 582 to the Federal Food, Drug, and Cosmetic Act (FD&C Act). Section 582 of the FD&C Act (21 U.S.C. § 360eee-1) establishes the requirements that certain entities in the pharmaceutical distribution supply chain, including pharmacies, must follow related to product tracing, verification, and authorized trading partners. Failure to comply is a prohibited act under 21 U.S.C. § 331(t).

9. Any person who engages in the business of wholesale distribution or furnishing controlled substances, poisons, drugs, devices or appliances that are restricted by federal law to sale by or on the order of a physician to any person located within this State shall obtain a license pursuant to the provisions of NRS Chapter 639. NRS 639.100; NRS 639.233(1). Engaging in the business of wholesale distribution without a license is a felony. NRS 639.100(2).

10. Every wholesale distributor who engages in wholesale distributions of prescription drugs in interstate commerce must be licensed by the state into which the drug is distributed. 21 U.S.C. § 353(e)(1)(A); 21 CFR § 205.4.

11. Purchasing a drug from an unlicensed wholesaler does not constitute a bona fide transaction. NRS 639.595.

12. Performing any duties as the holder of a license, certificate or registration issued by the Board, or as the owner of a business or an entity licensed by the Board, in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(i) and is grounds for suspension or revocation of any license issued by the Board. NRS 639.210(4).

13. Aiding or abetting a person not licensed in the State of Nevada constitutes unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(j) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

14. Violating any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs is grounds for suspension or revocation of any license issued by the Board. NRS 639.210(11).

15. Violating, attempting to violate, assisting or abetting in the violation of or conspiring to violate any law or regulation relating to drugs is grounds for suspension or revocation of any issued by the Board. NRS 639.210(12).

16. A managing pharmacist is responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the pharmacy and the practice of pharmacy. NRS 639.210(12) and (15); NRS 639.220(1); NAC 639.702.

17. A managing pharmacist shall be on duty in the pharmacy and active in the management of the pharmacy full-time. NRS 639.220(3)(b).

18. A managing pharmacist of a pharmacy shall be responsible for, and must have knowledge and control of, the acquisition and disposition by the pharmacy of the stock of the pharmacy and shall ensure that the records relating to the acquisition or disposition of the stock of the pharmacy are maintained as required by law. NAC 639.510(2).

19. A pharmaceutical technician may only performs those functions permitted by law. NRS 639.1371(5); NAC 639.245; NAC 639.700; NAC 639.702.

20. Any violation of any of the provisions of NRS Chapter 639 by a managing pharmacist or by personnel of the pharmacy is cause for the suspension or revocation of the license of the pharmacy by the Board. NRS 639.230(5); NAC 639.702. Further, the owner of any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(3).

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **HISBAY HAIDER ALI, MD,** **Certificate of Registration No., CS31898,** **Respondent.**	**Case No. 24-444-CS-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and this Respondent because at the time of the events alleged herein, Respondent Hisbay Haider Ali, MD, held a Nevada controlled substance registration, Certificate of Registration No. CS31898, issued by the Board.

FACTUAL ALLEGATIONS

2. From October 11, 2022, to October 11, 2024, Respondent issued four thousand six hundred and twenty (4,620) controlled substance prescriptions for five hundred and sixty-five (565) unique patients, but only reviewed a patient's utilization report in the Prescription Monitoring Program (PMP) database on ten (10) occasions.

3. Respondent has failed to query and review for accuracy his MyRx prescriber activity report in the PMP database at least once every 6 months as required by law.

4. On or about October 11, 2024, the Nevada State Board of Medical Examiners (NSBME) filed charges and summarily suspended Respondent's License No. 20660 to practice

medicine for engaging in conduct in violation of NRS Chapter 630 in Case Nos. 24-53581-1, 24-53581-2 and 24-53581-3.

5. On or about November 4, 2024, Board staff served Respondent with notice that the suspension of his NSBME License No. 20660 to practice medicine operated as an immediate suspension of his Certificate of Registration No. CS31898 with the Board pursuant to NRS 639.2107, and that Respondent must immediately cease and desist possessing, administering and/or prescribing controlled substances for Nevada patients.

6. On or about November 7, 2024, Respondent surrendered his Registration No. FA6780779 to the Drug Enforcement Administration by executing a DEA Form 104 – "Surrender for Cause of DEA Certificate of Registration."

7. Respondent failed to fully disclose to the Board the pending charges in NSBME Case Nos. 24-53581-1, 24-53581-2 and 24-53581-3 on his 2024 biennial renewal application for Certificate of Registration No. CS31898.

8. On June 6, 2025, the NSBME and Respondent entered into a settlement agreement in Case Nos. 24-53581-1, 24-53581-2 and 24-53581-3 imposing discipline upon Respondent; Respondent admitted to most of the charges and Respondent's License No. 20660 to practice medicine remained suspended for six (6) months.

9. On March 3, 2026, the NSBME filed charges and summarily suspended Respondent's License No. 20660 to practice medicine in Case No. 26-53581-1 for violating the settlement agreement in Case Nos. 24-53581-1, 24-53581-2 and 24-53581-3.

10. On March 4, 2026, Respondent appeared before Board on an application to have his controlled substance registration reinstated and while under oath failed to disclose the current suspension of his NSBME License No. 20660 to practice medicine; the Board approved his application.

APPLICABLE LAW

11. A practitioner must hold a license to practice his or her profession in this State and be registered with both the DEA and the Board to possess, administer, prescribe and/or otherwise dispense any controlled substance in Nevada. 21 U.S.C. § 822(a)(2) and (e)(1); 21 U.S.C. § 823(f); 21 C.F.R. § 1301.12; 21 CFR § 1306.03(a)(1); NRS 453.226(1); NRS 453.321(1)(a); NRS 639.100(1); NRS 639.235(1).

12. A practitioner shall only issue a controlled substance prescription after review of a patient's utilization report in the PMP database in conformance with NRS 639.23507.

13. A practitioner shall review his or her MyRx prescriber activity report in the PMP database for accuracy at least once every 6 months. NRS 453.164(7).

14. It is unlawful for a person knowingly or intentionally to furnish false or fraudulent material information in, or omit any material information from, any application for registration under NRS Chapter 639. NRS 639.281(1).

15. Performing any duties as the holder of a controlled substance registration in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(i) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

16. Willfully making to the Board any false statement which is material to the administration or enforcement of Nevada law is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(9).

17. Obtaining any registration by the filing of an application, or any record, affidavit or other information in support thereof, which is false or fraudulent, is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(10).

18. The Board may suspend or revoke a registration if the holder has violated any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs. NRS 639.210(11).

19. The Board may suspend or revoke a registration if the holder has violated, attempted to violate, assisted or abetted in the violation of or conspired to violate any law or regulation relating to drugs, the manufacture or distribution of drugs or the practice of pharmacy. NRS 639.210(12).

20. The Board may suspend or revoke a registration issued pursuant to NRS 453.226 to prescribe or otherwise dispense a controlled substance upon a finding that the registrant has committed an act that would render registration inconsistent with the public interest. NRS 453.236(1)(e) and NRS 453.241(1).

COUNT ONE

Violation of State Law – Failure to Review Patient Utilization Report

21. By failing to review patient utilization reports in the PMP database prior to issuing controlled substance prescriptions as alleged in paragraph 2 herein, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 639.23507, and is subject to discipline pursuant to NRS 453.236(1)(d) and (e), NRS 453.241(1), NRS 639.210(12) and/or NRS 639.23916(3)(b).

COUNT TWO

Violations of State Law – Failure to Review MyRx Prescriber Activity Report

22. By failing to query to query and review for accuracy his MyRx prescriber activity report in the PMP database as alleged in paragraph 3 herein, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 453.164(7), and is subject to discipline pursuant to NRS 453.236(1)(d) and (e), NRS 453.241(1), NRS 639.210(12) and/or NRS 639.23916(3)(b).

COUNT THREE

Furnishing False Material Information to Board

23. By failing to fully disclose to the Board the pending charges in NSBME Case Nos. 24-53581-1, 24-53581-2 and 24-53581-3 on his 2024 biennial renewal application for Certificate of Registration No. CS31898 as alleged in paragraph 7 herein, and by failing to

disclose the current suspension of his NSBME License No. 20660 to practice medicine when appearing before the Board on March 4, 2026, as alleged in paragraph 10 herein, Respondent violated NRS 639.281(1) and is subject to discipline pursuant to NRS 639.210(9) and/or NRS 639.210(12).

COUNT FOUR

Obtaining Registration by False or Fraudulent Application

24. By failing to fully disclose to the Board the pending charges in NSBME Case Nos. 24-53581-1, 24-53581-2 and 24-53581-3 on his 2024 biennial renewal application for Certificate of Registration No. CS31898 as alleged in paragraph 7 herein, and by failing to disclose the current suspension of his NSBME License No. 20660 to practice medicine when current suspension of his NSBME License No. 20660 to practice medicine when appearing before the Board on March 4, 2026, as alleged in paragraph 10 herein, Respondent is subject to discipline pursuant to NRS 639.210(10).

COUNT FIVE

Unprofessional Conduct – Incompetent, Unskillful or Negligent Performance of Duties

25. By his actions and omissions as alleged herein, Respondent has performed his duties as the holder of a controlled substance registration in an incompetent, unskillful or negligent manner and engaged in unprofessional conduct and conduct contrary to the public interest as defined in NAC 639.945(1)(i), and is subject to discipline pursuant to NRS 453.236(1), NRS 453.241(1), NRS 639.210(4) and/or NRS 639.23916(3)(b).

COUNT SIX

Commission of Acts that Render Registration Inconsistent with the Public Interest

26. By his actions and omissions as alleged herein, Respondent has committed acts that render his registration inconsistent with the public interest and is subject to discipline pursuant to NRS 453.236(1)(e) and NRS 453.241(1).

\\\

\\\

COUNT SEVEN
Not Qualified for Registration

27. By the suspension of his NSBME License No. 20660 to practice medicine and the surrender of his DEA Registration No. FA6780779 for cause, Respondent no longer qualifies for registration to dispense controlled substances under federal or state law and his Certificate of Registration No. CS31898 is subject to revocation pursuant to NRS 453.236(1) and NRS 453.241(1).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of this Respondent.

Signed this 15th day of JUNE 2026.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300 and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and these Respondents because at the time of the events alleged herein, Respondent Fernesser Tracey, RPh (Tracey), Certificate of Registration No. 09913, was a pharmacist registered with the Board, and Respondent US Pharmacy, Pharmacy License No. PH04415, was a pharmacy licensed by the Board.

FACTUAL ALLEGATIONS

2. Respondent Tracey was managing pharmacist of Respondent US Pharmacy, located in Las Vegas, during the relevant times frame herein.

3. In May 2025, Board staff investigating Respondent US Pharmacy's operations determined that US Pharmacy's computer system does not capture, nor has the option to record, the initials of the pharmaceutical technician performing functions pursuant to NAC 639.245(2)(b), specifically, counting medication that will be dispensed to a patient. Additionally, if a modification is made to a prescription, US Pharmacy's computer system does not capture the type of modification made.

4. A prescription prepared by a pharmaceutical technician must bear the legible initials of the pharmaceutical technician, either handwritten or recorded in the pharmacy's computer system. NAC 639.252(1); NAC 639.751.

5. Any computerized system used by a pharmacy for recording information concerning prescriptions must be designed in such a manner that it provides a readily retrievable printed record of the information relating to a prescription or a patient which the pharmacy is required to maintain pursuant to state or federal law, including, without limitation, information relating to the original prescription or the refill or modification of that prescription. NAC 639.910(1)(a).

6. A pharmacy's computer system must conform to the requirements of NAC 639.930 with safeguards against access to and modification or manipulation of information.

7. A pharmacy's computer system must conform to the requirements of NAC 639.935, and be able to produce a printed record of history of each prescription filled by the pharmacy, including the modification or manipulation of information concerning the prescription.

8. The Board may suspend or revoke a license if the holder has violated any law or regulation relating to drugs, the manufacture or distribution of drugs or the practice of pharmacy. NRS 639.210(12).

9. A managing pharmacist is responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the pharmacy and the practice of pharmacy, including recordkeeping. NRS 639.210(12) and (15); NRS 639.220(1).

10. Any violation of any of the provisions of NRS Chapter 639 by a managing pharmacist or by personnel of the pharmacy is cause for the suspension or revocation of the license of the pharmacy by the Board. NRS 639.230(5). Further, the owner of any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(3).

COUNT ONE
Violations of State Law – Recordkeeping
(Respondent US Pharmacy)

11. Respondent US Pharmacy, Respondent Tracey and/or pharmacy personnel violated NAC 639.252, 639.751, 639.910, 639.930 and/or 639.935 as alleged in paragraph 3 herein, and are subject to discipline pursuant to NRS 639.210(12) and (15), NRS 639.220(1), NRS 639.230(5) and/or NAC 639.945(3).

COUNT TWO
Managing Pharmacist Responsibility
(Respondent Tracey)

11. As the managing pharmacist of Respondent US Pharmacy at the time of the errors, omissions and violations alleged herein, Respondent Tracey is responsible and subject to discipline pursuant to NRS 639.210(15) and/or NRS 639.220(1).

COUNT THREE
Pharmacy/Pharmacy Owner Responsibility
(Respondent US Pharmacy)

12. As the pharmacy/pharmacy owner at the time of the errors, omissions and violations alleged herein, Respondent US Pharmacy is responsible pursuant to NRS 639.230(5) and/or NAC 639.945(3).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration and pharmacy license of these Respondents.

Signed this 30th day of MARCH 2026.

(Respondent US Pharmacy)

11. Answering Paragraph 11 of the Complaint, Respondent denies the allegations contained in said paragraph.

COUNT TWO

Managing Pharmacist Responsibility
(Respondent Tracey)

12. Answering Paragraph 12 of the Complaint, Respondent denies the allegations contained in said paragraph.

AFFIRMATIVE DEFENSES

FIRST AFFIRMATIVE DEFENSE

The Complaint fails to state claims against Respondent upon which relief can be granted.

SECOND AFFIRMATIVE DEFENSE

The Complaint does not give Respondent the necessary and appropriate notice of claims against it, which is a violation of Respondent's due process rights.

THIRD AFFIRMATIVE DEFENSE

Respondent denies each and every allegation of the Board's Complaint not specifically

admitted or otherwise pled to herein.

FOURTH AFFIRMATIVE DEFENSE

All possible Affirmative Defenses may not have been alleged herein insofar as sufficient facts were not available after reasonable inquiry upon the filing of Respondent's Answer, and therefore, Respondent reserves the right to amend its Answer to allege additional Affirmative Defenses if subsequent investigation warrants.

FIFTH AFFIRMATIVE DEFENSE

Respondent hereby incorporates by reference those affirmative defenses enumerated in NRCP 8 and 12, as if fully set forth herein. In the event further investigation or discovery reveals the applicability of any such defenses, Respondent reserves the right to seek leave of Court to amend her Answer to specifically assert any such defense(s). Such defenses are herein incorporated by reference for the specific purpose of not waiving any such defense.

SIXTH AFFIRMATIVE DEFENSE

It has been necessary for Respondent to employ the services of an attorney to defend this action and a reasonable sum should be allowed to Respondent for attorneys' fees, together with costs of suit incurred herein.

PRAYER FOR RELIEF

WHEREFORE, Respondent prays for judgment as follows:

1. That the Board takes nothing by virtue of its Complaint, and that all allegations against Respondent are dismissed with prejudice;

2. For reasonable attorneys' fees and costs of suit incurred herein;

3. For costs and disbursements incurred herein; and

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy (Board), by and through General Counsel Brett Kandt, and Respondent Fernesser Tracey, RPh (Tracey), Certificate of Registration No. 09913, and Respondent US Pharmacy, Pharmacy License No. PH04415, by and through counsel, Jessica R. Gandy, Esq., **HEREBY STIPULATE AND AGREE THAT**:

1. On or about March 31, 2026, Respondents were served with the Notice of Intended Action and Accusation (Accusation) on file in this matter together with the Statement to Respondent and Notice of Hearing.

2. On or about May 1, 2026, Respondents filed an Answer and Notice of Defense to the Accusation.

3. Respondents are fully aware of the right to seek the advice of counsel in this matter and obtained the advice of counsel prior to entering into this Stipulation.

4. Respondents are aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration, the right to appeal and any and all other rights which may be accorded pursuant to NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

5. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondents have failed to comply with the provisions of this Stipulation, Respondents hereby knowingly and voluntarily waive the rights to a hearing, reconsideration, appeal and any and all other rights related to this action that may be accorded by NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

6. Respondents do not contest the allegations in the Accusation, but acknowledge that Board staff prosecuting this case could present such evidence at an administrative hearing to establish a factual basis for the violations alleged therein, *to wit*:

A. In May 2025, Board staff investigating Respondent US Pharmacy's operations determined that US Pharmacy's computer system did not comply with the recordkeeping requirements of NAC 639.252, 639.751, 639.910, 639.930 and/or 639.935;

B. As the managing pharmacist of Respondent US Pharmacy at the time of the errors, omissions and violations alleged herein, Respondent Tracey is responsible and subject to discipline pursuant to NRS 639.210(15) and/or NRS 639.220(1); and

C. As the pharmacy/pharmacy owner at the time of the errors, omissions and violations alleged herein, Respondent US Pharmacy is responsible pursuant to NRS 639.230(5) and/or NAC 639.945(3).

7. Board staff has verified that Respondent US Pharmacy's computer system now fully complies with the recordkeeping requirements of Nevada law.

8. Those violations are plead with particularity in the Amended Accusation and grounds for action pursuant to NRS 639.210 and NRS 639.255.

9. To resolve this matter without incurring any further costs or the expense associated with a hearing, the Board and Respondent Fernesser Tracey, RPh, Certificate of Registration No. 09913, stipulate to the following penalties:

A. Pursuant to NRS 639.255(1)(f) and NAC 639.955(5), Respondent Tracey shall pay a fine of Two Thousand Dollars ($2,000.00) for the violations; and

B. Pursuant to NRS 622.400, Respondent Tracey shall pay One Thousand Dollars ($1000.00) to partially reimburse the Board for recoverable attorney's fees and investigative costs.

10. To resolve this matter without incurring any further costs or the expense associated with a hearing, the Board and Respondent US Pharmacy, Pharmacy License No. PH04415, stipulate to the following penalties:

A. Pursuant to NRS 639.255(1)(f) and NAC 639.955(5), Respondent US Pharmacy shall pay a fine of Four Thousand Dollars ($4,000.00) for the violations; and

B. Pursuant to NRS 622.400, Respondent US Pharmacy shall pay One Thousand Dollars ($1,000.00) to partially reimburse the Board for recoverable attorney's fees and investigative costs.

11. Any failure by either Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing the non-compliant Respondent(s) to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by any Respondent, the Board may impose additional discipline upon the non-compliant Respondent(s) consistent with the provisions of NRS Chapter 639.

12. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on October 14, 2026. Respondents will appear in person at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondents or counsel are not present at the meeting.

13. The Board has discretion to accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330

and shall be reported to the National Practitioner Data Bank pursuant to 42 USC § 1396r–2 and 45 CFR Part 60, and shall be further reported pursuant to NAC 639.960.

14. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the merits of this matter may be heard by the Board at a later date. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

15. Upon approval of this Stipulation by the Board, Respondents shall pay the fines agreed to herein by personal, business, certified or cashier's check or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, due and payable by December 1, 2026.

16. Upon approval of this Stipulation by the Board, Respondents shall pay the attorney's fees and investigative costs agreed to herein by personal, business, certified or cashier's check or money order made payable to the "Nevada State Board of Pharmacy" to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, due and payable by December 1, 2026.

17. Subject to the approval of this Stipulation by the Board, the Board and Respondents agree to release one another from any and all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order.

Respondents have fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and have knowingly and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **US PHARMACY,** **Pharmacy License No. PH04415, and** **FERNESSER TRACEY, RPH,** **Certificate of Registration No. 09913,** **Respondents.**	**CASE NOS. 25-175-PH-S** **25-175-RPH-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300 and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and these Respondents because at the time of the events alleged herein, Respondent Fernesser Tracey, RPh (Tracey), Certificate of Registration No. 09913, was a pharmacist registered with the Board, and Respondent US Pharmacy, Pharmacy License No. PH04415, was a pharmacy licensed by the Board.

FACTUAL ALLEGATIONS

2. Respondent Tracey was managing pharmacist of Respondent US Pharmacy, located in Las Vegas, during the relevant times frame herein.

3. In May 2025, Board staff investigating Respondent US Pharmacy's operations determined that US Pharmacy's computer system does not capture, nor has the option to record, the initials of the pharmaceutical technician performing functions pursuant to NAC 639.245(2)(b), specifically, counting medication that will be dispensed to a patient. Additionally, if a modification is made to a prescription, US Pharmacy's computer system does not capture the type of modification made.

APPLICABLE LAW

4. A prescription prepared by a pharmaceutical technician must bear the legible initials of the pharmaceutical technician, either handwritten or recorded in the pharmacy's computer system. NAC 639.252(1); NAC 639.751.

5. Any computerized system used by a pharmacy for recording information concerning prescriptions must be designed in such a manner that it provides a readily retrievable printed record of the information relating to a prescription or a patient which the pharmacy is required to maintain pursuant to state or federal law, including, without limitation, information relating to the original prescription or the refill or modification of that prescription. NAC 639.910(1)(a).

6. A pharmacy's computer system must conform to the requirements of NAC 639.930 with safeguards against access to and modification or manipulation of information.

7. A pharmacy's computer system must conform to the requirements of NAC 639.935, and be able to produce a printed record of history of each prescription filled by the pharmacy, including the modification or manipulation of information concerning the prescription.

8. The Board may suspend or revoke a license if the holder has violated any law or regulation relating to drugs, the manufacture or distribution of drugs or the practice of pharmacy. NRS 639.210(12).

9. A managing pharmacist is responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the pharmacy and the practice of pharmacy, including recordkeeping. NRS 639.210(12) and (15); NRS 639.220(1).

10. Any violation of any of the provisions of NRS Chapter 639 by a managing pharmacist or by personnel of the pharmacy is cause for the suspension or revocation of the license of the pharmacy by the Board. NRS 639.230(5). Further, the owner of any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(3).

COUNT ONE
Violations of State Law – Recordkeeping
(Respondent US Pharmacy)

11. Respondent US Pharmacy, Respondent Tracey and/or pharmacy personnel violated NAC 639.252, 639.751, 639.910, 639.930 and/or 639.935 as alleged in paragraph 3 herein, and are subject to discipline pursuant to NRS 639.210(12) and (15), NRS 639.220(1), NRS 639.230(5) and/or NAC 639.945(3).

COUNT TWO
Managing Pharmacist Responsibility
(Respondent Tracey)

11. As the managing pharmacist of Respondent US Pharmacy at the time of the errors, omissions and violations alleged herein, Respondent Tracey is responsible and subject to discipline pursuant to NRS 639.210(15) and/or NRS 639.220(1).

COUNT THREE
Pharmacy/Pharmacy Owner Responsibility
(Respondent US Pharmacy)

12. As the pharmacy/pharmacy owner at the time of the errors, omissions and violations alleged herein, Respondent US Pharmacy is responsible pursuant to NRS 639.230(5) and/or NAC 639.945(3).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration and pharmacy license of these Respondents.

Signed this 30 day of MARCH 2026.

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3). The hearing shall be conducted pursuant to NRS 639.241 through NRS 639.258. To be entitled to a hearing, you must complete, and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Notice of Intended Action and Accusation. NRS 622A.320; NRS 639.243. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350. A regulatory body may recover from a person reasonable attorney's fees and costs that are incurred by the regulatory body as a part of its investigative, administrative, and disciplinary proceedings against the person if the regulatory body finds that the person has violated any provision of this title. NRS 622.400(1).

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy (Board), by and through General Counsel Brett Kandt, and Respondent Fernesser Tracey, RPh (Tracey), Certificate of Registration No. 09913, and Respondent US Pharmacy, Pharmacy License No. PH04415, by and through counsel, Jessica R. Gandy, Esq., **HEREBY STIPULATE AND AGREE THAT**:

1. On or about March 31, 2026, Respondents were served with the Notice of Intended Action and Accusation (Accusation) on file in this matter together with the Statement to Respondent and Notice of Hearing.

2. On or about May 1, 2026, Respondents filed an Answer and Notice of Defense to the Accusation.

3. Respondents are fully aware of the right to seek the advice of counsel in this matter and obtained the advice of counsel prior to entering into this Stipulation.

4. Respondents are aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration, the right to appeal and any and all other rights which may be accorded pursuant to NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

5. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondents have failed to comply with the provisions of this Stipulation, Respondents hereby knowingly and voluntarily waive the rights to a hearing, reconsideration, appeal and any and all other rights related to this action that may be accorded by NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

6. Respondents do not contest the allegations in the Accusation, but acknowledge that Board staff prosecuting this case could present such evidence at an administrative hearing to establish a factual basis for the violations alleged therein, *to wit*:

A. In May 2025, Board staff investigating Respondent US Pharmacy's operations determined that US Pharmacy's computer system did not comply with the recordkeeping requirements of NAC 639.252, 639.751, 639.910, 639.930 and/or 639.935;

B. As the managing pharmacist of Respondent US Pharmacy at the time of the errors, omissions and violations alleged herein, Respondent Tracey is responsible and subject to discipline pursuant to NRS 639.210(15) and/or NRS 639.220(1); and

C. As the pharmacy/pharmacy owner at the time of the errors, omissions and violations alleged herein, Respondent US Pharmacy is responsible pursuant to NRS 639.230(5) and/or NAC 639.945(3).

7. Board staff has verified that Respondent US Pharmacy's computer system now fully complies with the recordkeeping requirements of Nevada law.

8. Those violations are plead with particularity in the Amended Accusation and grounds for action pursuant to NRS 639.210 and NRS 639.255.

9. To resolve this matter without incurring any further costs or the expense associated with a hearing, the Board and Respondent Fernesser Tracey, RPh, Certificate of Registration No. 09913, stipulate to the following penalties:

A. Pursuant to NRS 639.255(1)(f) and NAC 639.955(5), Respondent Tracey shall pay a fine of Two Thousand Dollars ($2,000.00) for the violations; and

B. Pursuant to NRS 622.400, Respondent Tracey shall pay One Thousand Dollars ($1000.00) to partially reimburse the Board for recoverable attorney's fees and investigative costs.

10. To resolve this matter without incurring any further costs or the expense associated with a hearing, the Board and Respondent US Pharmacy, Pharmacy License No. PH04415, stipulate to the following penalties:

A. Pursuant to NRS 639.255(1)(f) and NAC 639.955(5), Respondent US Pharmacy shall pay a fine of Four Thousand Dollars ($4,000.00) for the violations; and

B. Pursuant to NRS 622.400, Respondent US Pharmacy shall pay One Thousand Dollars ($1,000.00) to partially reimburse the Board for recoverable attorney's fees and investigative costs.

11. Any failure by either Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing the non-compliant Respondent(s) to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by any Respondent, the Board may impose additional discipline upon the non-compliant Respondent(s) consistent with the provisions of NRS Chapter 639.

12. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on October 14, 2026. Respondents will appear in person at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondents or counsel are not present at the meeting.

13. The Board has discretion to accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330

and shall be reported to the National Practitioner Data Bank pursuant to 42 USC § 1396r–2 and 45 CFR Part 60, and shall be further reported pursuant to NAC 639.960.

14. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the merits of this matter may be heard by the Board at a later date. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

15. Upon approval of this Stipulation by the Board, Respondents shall pay the fines agreed to herein by personal, business, certified or cashier's check or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, due and payable by December 1, 2026.

16. Upon approval of this Stipulation by the Board, Respondents shall pay the attorney's fees and investigative costs agreed to herein by personal, business, certified or cashier's check or money order made payable to the "Nevada State Board of Pharmacy" to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, due and payable by December 1, 2026.

17. Subject to the approval of this Stipulation by the Board, the Board and Respondents agree to release one another from any and all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order.

Respondents have fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and have knowingly and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **AMERICAN WELLNESS PHARMACY, Pharmacy License No. PH02705, and** **JAMES MICHAEL BARBER, RPH, Certificate of Registration No. 24357,** **Respondents.**	**CASE NOS. 25-464-PH-S** **25-464-RPH-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300 and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and these Respondents because at the time of the events alleged herein, Respondent James Michael Barber, RPh (Barber), Certificate of Registration No. 24357, was a pharmacist registered with the Board, and Respondent American Wellness Pharmacy, Pharmacy License No. PH02705, was a pharmacy licensed by the Board.

FACTUAL ALLEGATIONS

2. Respondent American Wellness Pharmacy has a record of prior discipline from the Board in case no. 23-063-PH-S, a stipulated settlement entered September 4, 2024, and amended October 16, 2024, and January 15, 2025, arising from Respondent's compounding and dispensing drug products in violation of NAC 639.661-.690, *inclusive*, and related federal law, 21 U.S.C. § 353a.

3. Barber was employed as managing pharmacist by American Wellness Pharmacy at the time of the events alleged herein.

4. Board staff determined during an inspection/audit in November 2025 that Respondents compounded and dispensed sterile injectable drug products to patients in Nevada that were essentially copies of tirzepatide while the drug product was commercially available, and without a "statement of significant difference" for each prescription documenting a medical need specific to the patient for the compounded product, including, without limitation, the following prescriptions for tirzepatide w/ B6 12-0.1 mg/ml 1ml vial injection:

Prescription No. 6091671: patient J.P.; issued 9/22/25 and dispensed 9/25/25

Prescription No. 6091666: patient M.K.; issued 9/22/25 and dispensed 9/25/25

Prescription No. 6091767: patient M.G.; issued 9/24/25 and dispensed 9/25/25

Prescription No. 6092002: patient J.T.; issued 9/30/25 and dispensed 9/30/25

Prescription No. 6092081: patient E.B.; issued 10/1/25 and dispensed 10/1/25

5. During that inspection/audit Board staff also determined that Respondents accepted and filled dangerous drug prescriptions with a stamped signature from the practitioner.

6. Board staff subsequently determined during an investigation in February-March 2026 that Respondents compounded and dispensed additional drug products to patients in Nevada that were essentially copies of commercially available drug products without a "statement of significant difference" for each prescription, including, without limitation, the following prescriptions:

Prescription No. 6093041: patient A.T. from practitioner A.F.; verbally transcribed 10/22/25 for "testosterone cypionate 200mg/ml in MCT oil"

Prescription No. 6094596: patient A.Z. from practitioner R.T.; verbally transcribed for 11/25/25 for "testosterone 50mg/ml"

Prescription No. 6095471: patient S.S. issued electronically 12/12/25 for "tirzepatide-l carnitine12-100 mg/ml INJECTION"

Prescription No. 6095935: patient M.F. issued electronically 12/26/25 for "tirzepatide-l carnitine 12-100 mg/ml injectable"

Prescription No. 6096364: patient M.R. issued electronically 1/6/26 for "testosterone cypionate 50mg/ml" with directions to "compound in grape seed oil"

7. During that investigation Board staff also determined that Respondents accepted and filled controlled substance prescriptions given by oral order from the practitioner, including, without limitation, the following prescriptions:

Prescription No. 6093041: patient A.T. from practitioner A.F.; verbally transcribed 10/22/25 for "testosterone cypionate 200mg/ml in MCT oil"

Prescription No. 6094596: patient A.Z. from practitioner R.T.; verbally transcribed for 11/25/25 for "testosterone 50mg/ml"

Prescription No. 6097319: patient MC. From practitioner J.N.; verbally transcribed 1/23/26 for "testosterone cyp 50mg/ml"

8. On April 1, 2026, Board inspectors conducting an inspection determined that Respondents were compounding sterile and non-sterile drug products out of compliance with chapter 800 of the *United States Pharmacopeia - National Formulary* (USP-800) as follows:

A. The location stores HD API products for non-sterile compounding in a room that is neutral pressure to surrounding areas, is not externally ventilated, and has never been tested for air exchanges per hour. Per USP-800 guidelines all HD API's must be stored in a room that is externally ventilated, has negative pressure to surrounding areas, and has at least 12 air exchanges per hour.

B. The location stores HD API products for sterile compounding in a room that is positive pressure to surrounding areas and is not externally ventilated. See comment #1 for USP-800 requirements.

C. The location compounds non-sterile HD API products in a hood located in a separate room from the retail and sterile compounding area. The room would be defined as the C-SEC (containment secondary engineering control). The room used for non-sterile hazardous

compounding is not externally vented, has never been tested for air exchanges per hour, and is neutral pressure compared to surrounding areas. Per USP-800 guidelines the room must be externally vented, have at least 12 air exchanges per hour, and have a negative pressure between 0.01 and 0.03 inches of water column relative to adjacent areas.

D. The location compounds sterile HD API products in a hood located in an ISO-7 classified buffer room. The room is not externally vented and is positive pressure in relation to adjacent areas. Per USP-800 guidelines the room must be externally vented and have a negative pressure between 0.01 and 0.03 inches of water column relative to adjacent areas.

E. The location compounds sterile HD API products in a biological safety cabinet that has been certified by an outside agency. The BSC is located in an ISO-7 classified buffer room. The BSC is not externally vented. Per USP-800 guidelines the BSC must be externally vented.

F. The location compounds sterile HD API products in an ISO-7 classified buffer room. The adjacent ante room is an ISO-8 classified ante room. Per USP -800 guidelines the ante room for sterile hazardous compounding must be an ISO-7 classified area.

9. On or about April 6, 2026, Board staff served Respondents with an order to cease-and-desist compounding sterile and non-sterile drug products in violation of chapter 800 of the United States Pharmacopeia - National Formulary (USP-800).

APPLICABLE LAW

10. A pharmacy engaged in the practice of compounding drug products and dispensing compounded drug products in Nevada shall comply with the provisions of NAC 639.661 -.690, *inclusive*, as amended by LCB File No. R053-24, and related federal law, 21 U.S.C. § 353a, the Federal Food, Drug, and Cosmetic Act (FD&C Act), establishing national standards for compounding medications. This includes, without limitation, compliance with chapter 800 of the *United States Pharmacopeia - National Formulary* (USP-800) as applicable.

11. Federal law prohibits compounding a drug product that is essentially a copy of a commercially available product. 21 U.S.C. § 353a(b)(1)(D). Pursuant to section 503A(b)(2) of

the FD&C Act (21 U.S.C. § 353a(b)(2)), a compounded drug product is not essentially a copy of a commercially available drug product if a change is made for an identified individual patient, and the prescribing practitioner has determined that the change will produce a significant difference for that patient. If a compounder intends to rely on such a determination to establish that a compounded drug is not essentially a copy of a commercially available drug product, the compounder should ensure that the determination is documented on the prescription in a "statement of significant difference."

12. A written prescription for a dangerous drug must contain in pertinent part the original handwritten signature of the prescribing practitioner in nonerasable ink. NRS 454.223(2)(a); NRS 639.2353(2)(a); NAC 454.060.

13. A prescription for a controlled substance must be given to a pharmacy by electronic transmission in accordance with the regulations adopted by the Board. NRS 639.23535(1); 21 CFR Part 1311.

14. Performing any duties as the holder of a license or registration in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(i) and is grounds for suspension or revocation of any license issued by the Board. NRS 639.210(4).

15. The Board may suspend or revoke a license or registration if the holder has violated any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs. NRS 639.210(11).

16. The Board may suspend or revoke a license or registration if the holder has violated, attempted to violate, assisted or abetted in the violation of or conspired to violate any law or regulation relating to drugs, the manufacture or distribution of drugs or the practice of pharmacy. NRS 639.210(12).

17. A managing pharmacist is responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the

pharmacy and the practice of pharmacy, including recordkeeping. NRS 639.210(12) and (15), NRS 639.220(1) and/or NAC 639.702.

18. Any violation of any of the provisions of NRS Chapter 639 or NAC Chapter 639 by personnel of a pharmacy is cause for the suspension or revocation of the license of the pharmacy by the Board. NRS 639.230(5); NAC 639.702. Further, the owner of any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(3).

COUNT ONE

Violations of Federal and State Law – Compounding Drug Products that are Essentially Copies of Commercially Available Drug Products Without a Statement of Significant Difference

19. By compounding drug products to patients in Nevada that were essentially copies of commercially available drug products, as alleged in paragraphs 4 and 6 herein, Respondents and/or Respondents' personnel violated, attempted to violate, assisted or abetted in the violation of or conspired to violate 21 U.S.C. § 353a(b)(1)(D) and Section 3 of LCB File No. R053-24, and Respondents are therefore subject to discipline pursuant to NRS 639.210(11), (12) and (15), NRS 639.220(1), NRS 639.230(5), NAC 639.702, and/or NAC 639.945(3).

COUNT TWO

Violations of State Law – Filling Dangerous Drug Prescriptions Without an Original Signature from the Prescribing Practitioner

20. By filling and dispensing dangerous drug prescriptions with a stamped signature from the practitioner, as alleged in paragraph 5 herein, Respondents and/or Respondents' personnel violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 454.223(2)(a), NRS 639.2353(2)(a) and/or NAC 454.060, and Respondents are therefore subject to discipline pursuant to NRS 639.210(11), (12) and (15), NRS 639.220(1), NRS 639.230(5), NAC 639.702, and/or NAC 639.945(3).

COUNT THREE

Violations of Federal and State Law – Filling Controlled Substance Not Given by Electronic Transmission from the Prescribing Practitioner

21. By filling and dispensing controlled substance prescriptions given by oral order from the practitioner, as alleged in paragraph 5 herein, Respondents and/or Respondents' personnel violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 639.23535(1) and/or 21 CFR Part 1311, and Respondents are therefore subject to discipline pursuant to NRS 639.210(11), (12) and (15), NRS 639.220(1), NRS 639.230(5), NAC 639.702, and/or NAC 639.945(3).

COUNT FOUR

Violations of Federal and State Law – Compounding Sterile and Non-sterile Drug Products Out of Compliance with USP-800

22. By compounding sterile and non-sterile drug products out of compliance with USP-800, as alleged in paragraph 8 herein, Respondents and/or Respondents' personnel violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NAC 639.661 - .690, *inclusive*, as amended by LCB File No. R053-24, and related federal law, 21 U.S.C. § 353a, and Respondents are therefore subject to discipline pursuant to NRS 639.210(11), (12) and (15), NRS 639.220(1), NRS 639.230(5), NAC 639.702, and/or NAC 639.945(3).

COUNT FIVE

Unprofessional Conduct – Negligence in Compounding and Dispensing Drug Products

23. By their acts as alleged herein, Respondents and/or Respondents' personnel engaged in unprofessional conduct as defined in NAC 639.945(1)((i), and Respondents are therefore subject to discipline pursuant to NRS 639.210(4), NRS 639.220(1), NRS 639.230(5), NAC 639.702, and/or NAC 639.945(3).

COUNT SIX

Managing Pharmacist Responsibility (Respondent Barber)

24. As the managing pharmacist of Respondent American Wellness Pharmacy at the time of the errors, omissions and violations alleged herein, Respondent Barber is responsible and

subject to discipline pursuant to NRS 639.210(4), (11), (12) and (15), NRS 639.220(1) and/or NAC 639.702.

COUNT SEVEN
Pharmacy/Pharmacy Owner Responsibility
(Respondent American Wellness Pharmacy)

25. As the pharmacy/pharmacy owner at the time of the errors, omissions and violations alleged herein, Respondent American Wellness Pharmacy and/or Respondent's owners are responsible pursuant to NRS 639.230(5), NAC 639.702 and/or NAC 639.945(3) and subject to discipline pursuant to NRS 639.210(4), (11) and/or (12).

WHEREFORE, it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration and the pharmacy license of these Respondents.

Signed this 21st day of July 2026.

Nevada State Board of Pharmacy

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3). The hearing shall be conducted pursuant to NRS 639.241 through NRS 639.258. To be entitled to a hearing, you must complete, and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Notice of Intended Action and Accusation. BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY Petitioner, v. AMERICAN WELLNESS PHARMACY, Pharmacy License No. PH02705, and JAMES MICHAEL BARBER, RPH, Certificate of Registration No. 24357, Respondents.	Case Nos. 25-464-PH-S 25-464-RPH-S **ANSWER TO PETITIONER'S NOTICE OF INTENDED ACTION AND ACCUSATION**

Respondent, AMERICAN WELLNESS PHARMACY ("AWP"), by and through undersigned counsel, ANTHONY P. SGRO, ESQ., and COLLEEN N. SAVAGE, ESQ., of the law firm of SGRO & ROGER, answers the Notice of Intended Action and Accusation ("Accusation") as follows. To the extent any allegation is not expressly admitted below, it is denied. AWP further reserves the right to amend or supplement this Answer and Notice of Defense as discovery proceeds, additional documentation is obtained, or the Accusation is amended.

Preliminary Statement

Every fact the Board now charges was known to the Board before it closed AWP's prior probation. The Board audited AWP in November 2025, investigated it in February–March 2026, and inspected it on April 1, 2026, all while AWP was on probation under Case No. 23-063-PH-S. The Board filed no charge during probation. Instead, it issued a Cease-and-Desist Order, supervised AWP's remediation, issued a Satisfaction of Order on June 23, 2026, confirming AWP had satisfied the prior Order, and issued AWP a clear, probation-free license on July 28, 2026. Only then, four weeks after certifying satisfaction, and days after issuing a clean license, did the Board file this Accusation on the same facts it had held all along.

AWP corrected the hazardous-drug facility conditions at the Board's direction; an independent laboratory certified the facility as passing on August 11, 2026; and the Board's own inspectors verified compliance on September 9, 2026. The prescription-level allegations in Counts 1 and 3 misstate the pharmacy's records. On these facts, the Accusation is barred or substantially limited by the parties' prior settlement, by preclusion principles, and by equitable estoppel, laches, and due process, and it fails on the merits.

Responses to Factual Allegations

Jurisdiction

1. AWP admits that at times relevant, it was a pharmacy licensed by the Board under License No. PH02705, and that Mr. Barber was a registered pharmacist. AWP admits the Board has jurisdiction to conduct disciplinary proceedings in the manner provided by law and otherwise denies any allegation inconsistent with the defenses below.

Factual Allegations

2. AWP admits that Case No. 23-063-PH-S was resolved by way of a Stipulation and Order entered September 4, 2024, and amended October 16, 2024, and January 15, 2025. AWP

affirmatively states that it satisfied that Order in full and received a Satisfaction of Order on June 23, 2026. AWP denies any characterization of the prior matter that is inconsistent with the Stipulation and Order and the Satisfaction of Order themselves.

3. AWP admits that Mr. Barber was employed as a managing pharmacist during the period alleged in the Accusation. AWP denies the remaining allegations contained in paragraph 3.

4. AWP denies the allegations contained in paragraph 4.

5. AWP denies the allegations contained in paragraph 5.

6. AWP states that prescriptions 6093041, 60954596, 6095471, 6095935, and 6096364 speak for themselves. AWP denies the remaining allegations contained in paragraph 6.

7. AWP states that prescriptions 6093041, 6094596, and speak for themselves. AWP denies the remaining allegations contained in paragraph 7.

8. AWP admits only that the Board conducted an inspection on April 1, 2026, and documented the facility conditions identified in the inspection. AWP denies any characterization of those conditions that is inconsistent with the Board's inspection records or applicable standards. Without admitting that the April 1, 2026, conditions constituted a violation warranting discipline, AWP affirmatively states that, upon service of the Cease-and-Desist Order, it immediately ceased hazardous-drug compounding; completed a comprehensive containment build-out; and obtained independent third-party certification on August 11, 2026, confirming that the facility satisfied all tested metrics. The Board's inspectors subsequently verified the facility's compliance on September 9, 2026. AWP therefore denies that it is presently out of compliance with USP 800. The prompt remediation and subsequent verification materially mitigate any sanction and undermine any claim that ongoing restrictions, suspension, or revocation are necessary to protect the public

9. AWP admits only that a cease-and-desist order was served on or about April 6, 2026, which speaks for itself. AWP alleges that it has complied with that order.

Responses to Applicable-Law Allegations

10. The allegations of paragraphs 10 through 18 state legal conclusions to which no response is required; to the extent a response is required, AWP denies that it violated any cited statute or regulation and denies that any cited provision supports discipline on these facts.

Responses to the Counts

Count One
Violations of Federal and State Law - Compounding Drug Products that are Essentially Copies of Commercially Available Drug Products Without a Statement of Significant Difference

19. AWP denies the allegations contained in paragraph 19.

Count Two
Violations of State Law - Filling Dangerous Drug Prescriptions Without an Original Signature from the Prescribing Practitioner

20. AWP denies the allegations contained in paragraph 20.

Count Three
Violations of Federal and State Law -Filling Controlled Substance Not Given by Electronic Transmission from the Prescribing Practitioner

21. AWP denies the allegations contained in paragraph 21.

Count Four
Violations of Federal and State Law- Compounding Sterile and Non-sterile Drug Products Out of Compliance with USP-800

22. AWP denies the allegations contained in paragraph 22.

Count Five
Unprofessional Conduct - Negligence in Compounding and Dispensing Drug Products

23. AWP denies the allegations contained in paragraph 23.

Count Six
Managing Pharmacist Responsibility

(Respondent Barber)

24. AWP is without sufficient knowledge or information to form a belief as to the truth of the allegations and therefore denies the allegations contained in paragraph 24.

Count Seven
Pharmacy/Pharmacy Owner Responsibility
(Respondent American Wellness Pharmacy)

25. AWP denies the allegations contained in paragraph 25.

Affirmative Defenses and Notice of Defense

26. The Accusation fails to state acts or omissions constituting grounds for discipline. An accusation must set forth the acts or omissions "in ordinary and concise language ...to the end that the respondent will be able to prepare a defense" and "must not consist merely of charges phrased in language of the statute or regulation." (NRS § 639.241)

27. AWP denies that Count Two is sufficiently supported because the Accusation does not identify the prescription(s) allegedly bearing a stamped signature.

28. The operative Stipulation and Order in Case No. 23-063-PH-S provides that AWP "shall have no new charges filed against American Wellness Pharmacy while on probation." Every factual predicate of this Accusation including the November 2025 audit, the February–March 2026 investigation, and the April 1, 2026, inspection, arose during that probation. The Board elected not to charge during probation, thereby avoiding the show-cause and stay-lifting mechanism it had bargained for; instead, it certified satisfaction and restored AWP's license with full knowledge of these facts. Having taken the benefits of that election, the Board should not be permitted to revive the withheld allegations after probation closed.

29. In the prior Stipulation and Order, "the Board and Respondent agree to release one another from any and all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have existed on or before the

effective date of this Order." A release is construed under contract principles to effectuate the parties' intent, and a release of "any and all" claims, "known or unknown," reaches undiscovered claims existing at the time of the release. (*In re Amerco Derivative Litig.*, 127 Nev. 196, 252 P.3d 681 (2011)). To the extent any count rests on facts within the scope of the prior Accusation and existing on or before the prior Order's effective date, it is barred by the release.

30. A stipulated or consent order is a final judgment carrying claim-preclusive effect on the same claims or causes of action. (*Willerton v. Bassham, by Welfare Div., State, Dep't of Hum. Res.*, 111 Nev. 10, 889 P.2d 823 (1995)); (*Mendenhall v. Tassinari*, 133 Nev. 614, 403 P.3d 364 (2017)) Preclusion principles apply to administrative adjudications where the agency acts in a judicial capacity. (*Britton v. City of N. Las Vegas*, 106 Nev. 690, 799 P.2d 568 (1990)). The hazardous-drug facility conditions charged in Count Four are the same conditions the Board identified on April 1, 2026, and resolved through its April 6 and April 14, 2026, Cease-and-Desist Orders and the ensuing remediation under Case No. 23-063-PH-S, culminating in the June 23, 2026, Satisfaction of Order. Count Four impermissibly re-charges facts the Board already addressed and resolved.

31. Equitable estoppel lies against a governmental agency to avoid manifest injustice where (1) the party to be estopped was apprised of the true facts; (2) it intended its conduct to be acted upon, or so acted that the other party had a right to so believe; (3) the party asserting estoppel was ignorant of the true facts; and (4) it relied to its detriment. (*S. Nevada Mem'l Hosp. v. State, Dep't of Hum. Res.*, 101 Nev. 387, 705 P.2d 139 (1985)); (*State Indus. Ins. Sys. v. Giles,* 110 Nev. 216, 871 P.2d 920 (1994)). The rule barring estoppel against the government is confined to the sovereign asserting title to land and does not shield a licensing board that, with long-standing knowledge of the facts, delayed enforcement while the licensee built and invested in its practice.

(*Manning v. Nevada State Bd. of Acct.*, 99 Nev. 842, 673 P.2d 494 (1983)). The Board possessed every charged fact, issued a Satisfaction of Order and a clear license, and led AWP to proceed with a substantial hazardous-drug facility build-out in reliance. The elements of estoppel are met.

32. Laches bars a claim where there is inexcusable delay, knowledge by the party against whom laches is asserted, and resulting prejudice. (*State v. Rosenthal*, 107 Nev. 772, 819 P.2d 1296 (1991)); (*State ex rel. Dep't of Transp. v. Pub. Employees' Ret. Sys. of Nevada*, 120 Nev. 19, 83 P.3d 815 (2004)). The Board had knowledge of every charged fact no later than April 1, 2026, yet withheld charges until after probation closed and the license was cleared, prejudicing AWP, which reasonably treated the matters as resolved.

33. A professional license is a protected property interest, and due process guarantees of fundamental fairness apply to Board disciplinary proceedings. (*Burgess v. Storey Cnty. Bd. of Comm'rs*, 116 Nev. 121, 992 P.2d 856 (2000)); (*Dutchess Bus. Servs., Inc. v. Nevada State Bd. of Pharmacy*, 124 Nev. 701, 191 P.3d 1159 (2008)). Due process requires that a licensee be put on notice of the specific conduct charged and the standard alleged to have been violated. (*Burgess v. Storey Cnty. Bd. of Comm'rs*, 116 Nev. 121, 992 P.2d 856 (2000)); (*Nevada State Bd. of Pharmacy v. Garrigus*, 88 Nev. 277, 496 P.2d 748 (1972)). Charging AWP for conduct the Board long knew about, after certifying satisfaction and clearing the license, and pleading Count Three on a mismatched factual predicate, deprives AWP of fair notice and fundamental fairness.

34. AWP ceased hazardous-drug compounding, rebuilt the containment area, and installed an externally vented biological safety cabinet, with documented delays caused by the equipment manufacturer's shipping errors rather than any inaction by AWP. AWP's prompt cessation of hazardous-drug compounding, remediation, later certification, and the Board's subsequent

verification substantially mitigate any sanction and undermine any claim that ongoing restrictions, suspension, or revocation are necessary to protect the public.

35. A written dangerous-drug prescription must bear the practitioner's signature only "if the prescription was not transmitted orally." (NRS § 454.223). An electronically transmitted prescription need not contain the practitioner's signature where it bears a facsimile signature, security code, or unique mark, uses an approved biometric or voice-recognition system, or complies with NRS 439.581 to 439.597. (NRS § 639.2353). The handwritten-signature and original-form requirements of NAC 454.060 apply only to written prescriptions. (NAC 454.060). Count Two does not establish a violation as to prescriptions transmitted orally or electronically.

36. The requirement that controlled-substance prescriptions be electronically transmitted is subject to numerous exceptions, including technologic failure, a prescriber who also dispenses, prescriptions not supported by the electronic program, and circumstances where delay would adversely affect the patient, and violations are subject to administrative penalties. (NRS § 639.23535). Count Three neither pleads the absence of any exception nor as noted, identifies the correct supporting facts.

37. The grounds for discipline under (NRS § 639.210) are permissive, not mandatory. Even were any violation shown, the Board's sanction must reflect AWP's prompt and complete remediation, its substantial good-faith investment in compliance, and the favorable results of contemporaneous reviews by other regulators, including Nevada OSHA's closing conference with no citations proposed, and the NABP's acceptance of AWP's compliance. No suspension or revocation is warranted.

38. Investigation is ongoing, and AWP reserves the right to amend this Answer and to assert additional defenses as discovery and the record develop.

Objection To the Accusation

Pursuant to NRS 639.244(1)(a), AWP objects to the Accusation as incomplete and failing to set forth clearly the charges against it.

Request for Hearing and Relief

WHEREFORE, AWP requests that the Nevada State Board of Pharmacy:

1. Accept this Answer and Notice of Defense;

2. Set and conduct a hearing at which AWP may present evidence, witness testimony, and argument;

3. Consider AWP's evidence of remediation, compliance measures, current certification testing, and mitigation;

4. Dismiss the Accusation or, alternatively, decline to impose discipline against AWP; and

5. Grant such further relief as is just.

Compounded Drug Products That Are Essentially Copies of a Commercially Available Drug Product Under Section 503A of the Federal Food, Drug, and Cosmetic Act
Guidance for Industry[1]

This guidance represents the current thinking of the Food and Drug Administration (FDA or the Agency) on this topic. It does not create any rights for any person and is not binding on FDA or the public. You can use an alternative approach if the approach satisfies the requirements of the applicable statutes and regulations. To discuss an alternative approach, contact the FDA office responsible for this guidance as listed in the title page.

I. INTRODUCTION AND SCOPE

To qualify for exemptions under section 503A of the Federal Food, Drug, and Cosmetic Act (FD&C Act), a drug product must be compounded by a licensed pharmacist or physician who does not compound regularly or in inordinate amounts any drug products that are essentially copies of a commercially available drug product, among other conditions. This guidance sets forth FDA's policies regarding this provision of section 503A, including the terms *commercially available*, *essentially a copy of a commercially available drug product*, and *regularly or in inordinate amounts*.[2]

In general, FDA's guidance documents do not establish legally enforceable responsibilities. Instead, guidances describe the Agency's current thinking on a topic and should be viewed only as recommendations, unless specific regulatory or statutory requirements are cited. The use of the word *should* in Agency guidances means that something is suggested or recommended, but not required.

[1] This guidance has been prepared by multiple offices in the Center for Drug Evaluation and Research, in consultation with the Office of Regulatory Affairs at the Food and Drug Administration.

[2] This guidance does not apply to drugs compounded for use in animals, to biological products subject to licensure in a biologics license application, or to repackaged drug products. For policies pertaining to mixing, diluting, and repackaging biological products, see FDA's guidance, *Mixing, Diluting, and Repackaging Biological Products Outside the Scope of an Approved Biologics License Application.* For policies pertaining to repackaged drug products, see FDA's guidance, *Repackaging of Certain Human Drug Products by Pharmacies and Outsourcing Facilities*.

All FDA guidances are available on the FDA guidance web page. FDA updates guidances regularly. To make sure you have the most recent version of a guidance, always consult the guidance web page at http://www.fda.gov/Drugs/GuidanceComplianceRegulatoryInformation/Guidances/default.htm.

II. BACKGROUND

A. Section 503A of the FD&C Act

Section 503A, added to the FD&C Act by the Food and Drug Administration Modernization Act of 1997 and amended by the Drug Quality and Security Act in 2013, describes the conditions that must be satisfied for human drug products compounded by a licensed pharmacist in a State-licensed pharmacy or Federal facility, or by a licensed physician, to qualify for exemptions from the following three sections of the FD&C Act:[3]

- Section 501(a)(2)(B) (concerning current good manufacturing practice (CGMP) requirements)
- Section 502(f)(1) (concerning the labeling of drugs with adequate directions for use)
- Section 505 (concerning the approval of drugs under new drug applications (NDAs) or abbreviated new drug applications (ANDAs))

One of the conditions that must be met for a compounded drug product to qualify for the exemptions under section 503A of the FD&C Act is that it must be compounded by a licensed pharmacist or a licensed physician that "does not compound regularly or in inordinate amounts (as defined by the Secretary) any drug products that are essentially copies of a commercially available drug product."[4]

The statute further states that "the term 'essentially a copy of a commercially available drug product' does not include a drug product in which there is a change, made for an identified individual patient, which produces for that patient a significant difference, as determined by the prescribing practitioner, between the compounded drug and the comparable commercially available drug."[5]

A complete list of the conditions that must be met for a compounded drug product to qualify for the exemptions in section 503A appears in the FDA guidance, *Pharmacy Compounding of Human Drug Products Under Section 503A of the Federal Food, Drug, and Cosmetic Act*.

B. Compounding, Generally

Compounded drug products serve an important role for patients whose clinical needs cannot be met by an FDA-approved drug product, such as a patient who has an allergy and needs a medication to be made without a certain dye, an elderly patient who cannot swallow a pill and needs a medicine in a liquid form that is not otherwise available, or a child who needs a drug in a strength that is lower than that of the commercially available product. Drug products for identified individual patients can be compounded by licensed pharmacists in state-licensed

[3] In addition, under section 581(13) of the FD&C Act, the term "product," for purposes of pharmaceutical supply chain security requirements, does not include a drug compounded in compliance with section 503A.

[4] See section 503A(b)(1)(D).

[5] See section 503A(b)(2).

pharmacies and Federal facilities and by licensed physicians operating under section 503A of the FD&C Act. Drug products can also be compounded by outsourcing facilities under section 503B of the FD&C Act for identified individual patients pursuant to prescriptions or for distribution to health care practitioners without first receiving a prescription.[6] Both sections 503A and 503B restrict compounding drug products that are essentially a copy of a commercially available drug product (section 503A) or an approved drug product (section 503B).

C. Risks Associated with Compounded Drug Products

Although compounded drugs can serve an important need, they can also pose a higher risk to patients than FDA-approved drugs. Compounded drug products are not FDA-approved, which means they have not undergone FDA premarket review for safety, effectiveness, and quality. In addition, licensed pharmacists and licensed physicians who compound drug products in accordance with section 503A are not required to comply with CGMP requirements. Furthermore, FDA does not interact with the vast majority of licensed pharmacists and licensed physicians who compound drug products and seek to qualify for the exemptions under section 503A of the FD&C Act for the drug products that they compound because these compounders are not licensed by FDA and generally do not register their compounding facilities with FDA. Therefore, FDA is often not aware of potential problems with their compounded drug products or compounding practices unless it receives a complaint, such as a report of a serious adverse event or visible contamination.

FDA has investigated numerous serious adverse events associated with compounded drug products that were contaminated or otherwise compounded improperly, including the adverse events associated with the 2012 fungal meningitis outbreak in which contaminated injectable drug products resulted in more than 60 deaths and 750 cases of infection. FDA has also identified many pharmacies that compounded drug products under insanitary conditions such that the drug products may have been contaminated with filth or rendered injurious to health and that shipped the compounded drug products made under these conditions to patients and health care practitioners across the country, sometimes in large amounts.

D. Compounded Drugs That Are Essentially Copies of Commercially Available Drug Products

Section 503A provides exemptions from new drug approval, labeling with adequate directions for use, and CGMP requirements of the FD&C Act, so that drug products can be compounded as customized therapies for identified individual patients whose medical needs cannot be met by commercially available drug products. The restrictions on making drugs that are essentially copies ensure that pharmacists and physicians do not compound drug products under the exemptions for patients who could use a commercially available drug product. Such a practice would create significant public health risks because patients would be unnecessarily exposed to drug products that have not been shown to be safe and effective and that may have been prepared

[6] Section 503B of the FD&C Act describes the conditions that must be met for a human drug product compounded by an outsourcing facility to qualify for exemptions from sections 505, 502(f)(1), and 582 (concerning drug supply chain security requirements) of the FD&C Act. The conditions applicable to outsourcing facilities are discussed in separate guidances applicable to those facilities.

under substandard manufacturing conditions. FDA has investigated serious adverse events in patients who received contaminated compounded drugs when a comparable approved drug, made in a facility subject to CGMP requirements, was available.

In addition to these immediate public health risks, section 503A's limitations on producing a drug product that is essentially a copy of a commercially available drug product protects the integrity and effectiveness of the new drug and abbreviated new drug approval processes that Congress put in place to protect patients from unsafe, ineffective, or poor quality drugs. Furthermore, sponsors may be less likely to invest in and seek approval of innovative, life-saving medications if a compounder could, after a drug is approved, compound "substitutes" that may be less expensive because they have not had to demonstrate safety and effectiveness and are not produced in accordance with CGMP requirements or labeled with adequate directions for use.

Sponsors might also be less likely to seek approval of an ANDA for a generic drug if compounders were permitted to compound drugs that are essentially copies of commercially available drugs without going through the ANDA process. An ANDA must include data to demonstrate that the drug has the same active ingredient and is bioequivalent to an approved drug. FDA also conducts premarketing inspections of proposed manufacturing facilities.

The copies restriction also protects FDA's drug monograph process. FDA has an ongoing process for evaluating the safety and effectiveness of certain over-the-counter (OTC) medications, and if the Agency determines that an OTC drug meets certain conditions and is generally recognized as safe and effective, it will publish a final monograph specifying those conditions. Products that comply with a final monograph may be marketed, but manufacturers are required to meet CGMP standards. Restrictions in section 503A prevent compounders from producing drugs without having to comply with monograph standards, or CGMP requirements.

III. POLICY

As stated above, to qualify for the exemptions under section 503A of the FD&C Act, a drug must be compounded by a licensed pharmacist or a licensed physician that does not compound regularly or in inordinate amounts (as defined by the Secretary) any drug products that are essentially copies of a commercially available drug product.[7] This means that a compounded drug product is not eligible for the exemptions in section 503A if it is (1) essentially a copy of a commercially available drug product, and (2) compounded regularly or in inordinate amounts. Accordingly, and as discussed below, when evaluating whether a drug product meets the condition in section 503A regarding essentially copies, FDA intends to determine whether a compounded drug product is *essentially a copy of a commercially available drug product:* if it is, FDA intends to determine whether the drug product was compounded regularly or in inordinate amounts.[8]

[7] See section 503A(b)(1)(D).

[8] FDA is considering the applicability of the policies described in this guidance to hospitals and health systems and intends to address these issues in separate guidance or rulemaking. FDA regards a health system as collection of hospitals that are owned and operated by the same entity and that share access to databases with drug order information for their patients. There is no definition of "health system" that applies to all sections of the FD&C Act.

FDA's policies with regard to the terms (1) *commercially available drug product*, (2) *essentially a copy of a commercially available drug product*, and (3) *regularly or in inordinate amounts*, are as follows:

A. Commercially Available Drug Product

For purposes of this guidance, a drug product is commercially available if it is a marketed drug product.

We do not consider a drug product to be commercially available if

- the drug product has been discontinued and is no longer marketed[9] or
- the drug product appears on the FDA drug shortage list in effect under section 506E of the FD&C Act.[10] A drug "appears on the drug shortage list in effect under section 506E" if the drug is in "currently in shortage" status (and not in "resolved" status) in FDA's drug shortage database.

Commercially available drugs are available on the market, and they are generally subject to FD&C Act requirements relating to approval, labeling, and CGMP requirements, and the copies restriction applies to all such drugs because section 503A is not intended to provide a means for compounders to produce compounded drugs exempt from the Act's requirements that are essentially copies of commercially available drug products.

B. Essentially a Copy of a Commercially Available Drug Product

1. What is Essentially a Copy?

FDA intends to consider a compounded drug product to be essentially a copy of a commercially available drug product if:

- the compounded drug product has the same active pharmaceutical ingredient(s) (API) as the commercially available drug product;
- the API(s) have the same, similar, or an easily substitutable dosage strength; and

---

However, this is the definition of a "health system" used in section 506F of the Act concerning hospital repackaging of drugs in shortage.

[9] FDA maintains a list of approved drug products that sponsors have indicated are not marketed in the discontinued section of the list of Approved Drug Products with Therapeutic Equivalence Evaluations (Orange Book). See http://www.accessdata.fda.gov/scripts/cder/ob/default.cfm. Specifically, the list includes approved drug products that have never been marketed, are for exportation, are for military use, have been discontinued from marketing and we have not determined were withdrawn for safety or effectiveness reasons, or have had their approvals withdrawn for reasons other than safety or effectiveness subsequent to being discontinued from marketing.

[10] See http://www.accessdata.fda.gov/scripts/drugshortages/default.cfm.

- the commercially available drug product can be used by the same route of administration as prescribed for the compounded drug,

unless, as provided by section 503A(b)(2), a prescriber determines that there is a change, made for an identified individual patient, which produces, for that patient, a significant difference from the commercially available drug product.

The limitations in section 503A(b)(1)(D) apply to the compounding of drug products that are *essentially* copies of a commercially available drug product – not only to drugs that are exact copies or even to drugs that are nearly identical. This is to ensure that compounders do not evade the limits in this section by making relatively small changes to a compounded drug product and then offering the drug to the general public without regard to whether a prescribing practitioner has determined that the change produces for the patient a significant difference. For example, Congress contemplated that a compounded drug may be essentially a copy of a commercially available drug if "minor changes in strength (such as from .08% to .09%) are made that are not known to be significant . . ." for the patient for whom the drug was prescribed.[11]

a. Same API

With regard to the characteristics listed above, an API is the substance in a drug product that is intended to furnish pharmacological activity or other direct effect in the diagnosis, cure, mitigation, treatment, or prevention of disease or to affect the structure or function of the body.[12] When a compounded drug product offers the same API as a commercially available drug product, in the same, similar, or easily substitutable dosage strength and for use through the same route of administration, we generally intend to consider such a drug product *essentially a copy*, unless a prescriber determines that there is a change, made for an identified individual patient, that will produce a significant difference for that patient.

We recognize that, for some patients, a drug product that has the same API, strength, and route of administration may include a change that produces a significant difference for a particular patient. For example, a drug product compounded without a particular inactive ingredient may produce a significant difference for a patient who has an allergy to the inactive ingredient in the commercially available drug product. However, for other patients, this change may produce no difference at all. Congress did not intend for compounders to use, for example, the fact that some patients may have allergies as a basis to compound a drug without the inactive ingredient for other patients who do not have the allergy under the exemptions in section 503A (i.e., without meeting requirements for premarket approval, labeling with adequate directions for use, or

[11] U.S. House. Food and Drug Administration Modernization Act of 1997, *Conference Report* (to Accompany S. 830). (105 H. Rpt. 399).

[12] Section 503A refers to bulk drug substances. A *bulk drug substance* is defined as any substance that is intended for incorporation into a finished drug product and is intended to furnish pharmacological activity or other direct effect in the diagnosis, cure, mitigation, treatment, or prevention of disease, or to affect the structure or any function of the body. It does not include intermediates used in the synthesis of the substance. This definition is the same as the definition of active pharmaceutical ingredient. See 21 CFR 207.1, 207.3.

CGMP requirements).[13] In the context of compounding and consistent with the statute, we generally intend to consider such a drug essentially a copy unless a prescriber determines that there is a change that will produce a significant difference for the patient for whom it is prescribed.

b. Same, Similar or Easily Substitutable Strength

FDA generally intends to consider two drugs to have a similar dosage strength if the dosage strength of the compounded drug is within 10% of the dosage strength of the commercially available drug product.

With regard to the concept of easily substitutable strength, in some cases, the same or similar dosage strength can be achieved by administration of fractional or multiple doses of a drug product. For example, if FDA-approved Drug X tablets have a dosage strength of 25 mg and a patient needs 50 mg of Drug X, FDA would generally consider a compounded Drug X 50 mg tablet to have an easily substitutable strength because the patient could take two Drug X 25 mg tablets to achieve the required dose.[14]

c. Same Route of Administration

Route of administration is a way of administering a drug to a site in a patient (e.g., topical, intravenous, oral).[15] In general, FDA does not intend to consider a compounded drug product with the same API and similar or easily substitutable strength to be essentially a copy of a commercially available drug product if the compounded drug product and the commercially available drug product have different routes of administration (e.g., if the commercially available drug product is oral and the compounded drug product is topical). However, if the compounded drug product has the same API and similar or easily substitutable strength as the commercially available drug product and the commercially available drug product can be used (regardless of how it is labeled) by the route of administration prescribed for the compounded drug, FDA generally intends to consider the compounded drug to be essentially a copy of the commercially available drug. In this case, the compounded drug product generally would not produce a significant difference for an identified individual patient relative to the commercially available drug product.

For example, if the commercially available drug is an injectable drug sold in a vial that is labeled for intra-muscular use, but the drug also can be drawn from the vial by a smaller needle for subcutaneous administration, a compounded drug product with the same API and similar or

[13] *See* note 11.

[14] If a commercially available tablet must be split to achieve the prescribed dosage strength, and such tablet is not suitable for splitting, FDA would not consider the compounded drug made to the prescribed dosage strength to have an easily substitutable strength. For example, some tablets may be too small or crumble too easily when split, making splitting an inappropriate option. Information regarding tablet splitting may be printed in the "HOW SUPPLIED" section of the professional label insert and in the patient package insert of an approved drug product.

[15] See http://www.fda.gov/Drugs/DevelopmentApprovalProcess/FormsSubmissionRequirements/ElectronicSubmissions/DataStandardsManualmonographs/ucm071667.htm.

easily substitutable strength prescribed for sub-cutaneous administration would generally be considered to be essentially a copy, unless the prescriber documents on the prescription that the compounded drug product produces a significant difference for the identified individual patient.

d. Same Characteristics as Two or More Commercially Available Drug Products

FDA intends to consider a compounded drug product to be essentially a copy of a commercially available drug product if the compounded drug product contains the same APIs as two or more commercially available drug products in the same, similar, or easily substitutable strength and if the commercially available drug products can be used (regardless of how they are labeled) by the same route of administration prescribed for the compounded drug, unless there is documentation as described in section III.B.2. Such drug products present the same kinds of concerns as drug products that have a single API and in some respects may be more dangerous because of the potential for unintended drug interactions or formulation issues. For example, if drug X and drug Y are commercially available oral drug products, FDA generally intends to consider a compounded oral drug product that combines drug X and drug Y in strengths that are within 10% of the strengths of the respective commercially available products to be essentially a copy of the commercially available drug product, unless a prescriber determination of a significant difference has been documented.

2. Statement of Significant Difference

Pursuant to section 503A(b)(2) of the FD&C Act, a compounded drug product is not essentially a copy of a commercially available drug product if a change is made for an identified individual patient, and the prescribing practitioner has determined that the change will produce a significant difference for that patient. If a compounder intends to rely on such a determination to establish that a compounded drug is not essentially a copy of a commercially available drug product, the compounder should ensure that the determination is documented on the prescription.

FDA does not believe that a particular format is needed to document the determination, provided that the prescription makes clear that the prescriber identified the relevant change and the significant difference that the change will produce for the patient. For example, the following would be sufficient:

- "No Dye X, patient allergy" (if the comparable drug contains the dye)
- "Liquid form, patient can't swallow tablet" (if the comparable drug is a tablet)
- "6 mg, patient needs higher dose" (if the comparable drug is only available in 5 mg dose)

However, if a prescription identifies only a patient name and drug product formulation, this would not be sufficient to establish that the prescriber made the determination described by section 503A(b)(2). Note also that the significant benefit that the prescriber identifies must be produced by the change the compounder will make to a commercially available drug product (i.e., a change in drug product formulation). Other factors, such as a lower price, are not

sufficient to establish that the compounded drug product is not essentially a copy of the commercially available drug product.[16]

If a prescription does not make clear that the prescriber made the determination required by section 503A(b)(2), or a compounded drug is substituted for the commercially available drug product, the compounder can contact the prescriber and if the prescriber confirms it, make a notation on the prescription that the compounded drug product contains a change that makes a significant difference for the patient. The notations should be as specific as those described above, and the date of the conversation with the prescriber should be included on the prescription.[17]

It is not possible to offer exhaustive guidance about when a difference will be "significant" to an identified individual patient. At this time, FDA generally does not intend to question prescriber determinations that are documented in a prescription or notation. However, we do intend to consider whether a prescription or notation relied upon by a compounder to establish that a drug is not essentially a copy documents that the determination was made.

If the compounder produces drugs in anticipation of receiving valid prescriptions for identified individual patients, and the compounder obtains the statement of significant difference from the prescriber when it receives the prescription for the compounded drug, prior to distribution, FDA does not intend to consider the compounded drug that is then distributed to be essentially a copy.

3. Documentation of Shortage

If the drug was compounded because the approved drug product was not commercially available because it was on the FDA drug shortage list, the prescriber or compounder should include a notation on the prescription that it was on the drug shortage list and the date the list was checked.[18]

4. Regularly or in Inordinate Amounts

A drug product is not eligible for the exemptions in section 503A if it is prepared by a pharmacist or physician who compounds "regularly or in inordinate amounts (as defined by the Secretary)" any drug products that are essentially copies of a commercially available drug

[16] Congress noted that "where it is readily apparent, based on the circumstances, that the 'significant difference' is a mere pretext to allow compounding of products that are essentially copies of commercially available products, such compounding would be considered copying of commercially available products and would not qualify for the compounding exemptions if it is done regularly or in inordinate amounts. Such circumstances may include, for example, instances in which minor changes in strength (such as from .08% to .09%) are made that are not known to be significant or instances in which the prescribing physician is receiving financial remuneration or other financial incentives to write prescriptions for compounded products." *See* the U.S. House. Food and Drug Administration Modernization Act of 1997, *Conference Report* (to Accompany S. 830). (105 H. Rpt. 399).

[17] See section IV of this guidance.

[18] See section IV of this guidance.

product.[19] FDA interprets this to mean that, in order to be compounded in accordance with section 503A, a drug product that is essentially a copy of a commercially available drug product cannot be compounded regularly – i.e., it cannot be compounded at regular times or intervals, usually, or very often. Nor can the amounts compounded be inordinate, in light of the purpose of section 503A.

Section 503A is intended to protect patients from the public health risks of providing compounded drugs to patients whose medical needs could be met by commercially available drug products and to protect the integrity and efficiency of the drug approval process. Under the statutory scheme, only very rarely should a compounded drug product that is essentially a copy of a commercially available drug product be offered to a patient. We conclude, therefore, that a drug product that is essentially a copy of a commercially available drug product is compounded regularly or in inordinate amounts if it is compounded more frequently than needed to address unanticipated, emergency circumstances, or in more than the small quantities needed to address unanticipated, emergency circumstances.

It is important to note that the regularly or in inordinate amounts provision is not implicated if the compounded drug is not essentially a copy of a commercially available drug product. For example, a compounded drug product that has the same API, dosage strength, and route of administration as a drug product on FDA's shortage list would not be considered essentially a copy of a commercially available drug because a drug product is not considered *commercially available* if it is on FDA's drug shortage list. In addition, a compounded drug product is not essentially a copy of a commercially available drug product if a prescriber has determined that the compounded drug has a change that produces a significant difference for a patient.
Once it has been determined that a compounded drug is essentially a copy of a commercially available drug product as described above, the following are examples of factors that may be the basis for concluding that it has been compounded regularly or in inordinate amounts:

- The compounded drug product amounts to more than a small number of prescriptions or a small percentage of the compounded drug products that a compounder prepares.
- The compounder routinely substitutes compounded drugs that are essentially copies of commercially available drugs upon receiving prescriptions for patients.
- The compounder offers pre-printed prescription pads that a prescriber can use to write a prescription for the drug product that is essentially a copy without making a determination that there is a change that will produce a significant difference for a patient.
- The compounded drug product is not compounded on an as-needed basis, but on a routine or pre-set schedule.

The foregoing list is not intended to be exhaustive. Other factors may be appropriate for consideration in a particular case.

To focus enforcement on the most significant cases, as a matter of policy, at this time FDA does not intend to take action against a compounder for compounding a drug product that is

[19] See section 503A(b)(1)(D).

essentially a copy of a commercially available drug product regularly or in inordinate amounts if the compounder fills four or fewer prescriptions for the relevant compounded drug product in a calendar month.[20] As noted above, a compounded drug product is not essentially a copy of a commercially available drug product if a prescriber has determined that the compounded drug has a change that produces a significant difference for a patient; thus, a prescription that documents such a prescriber determination would not be counted towards the four prescriptions.

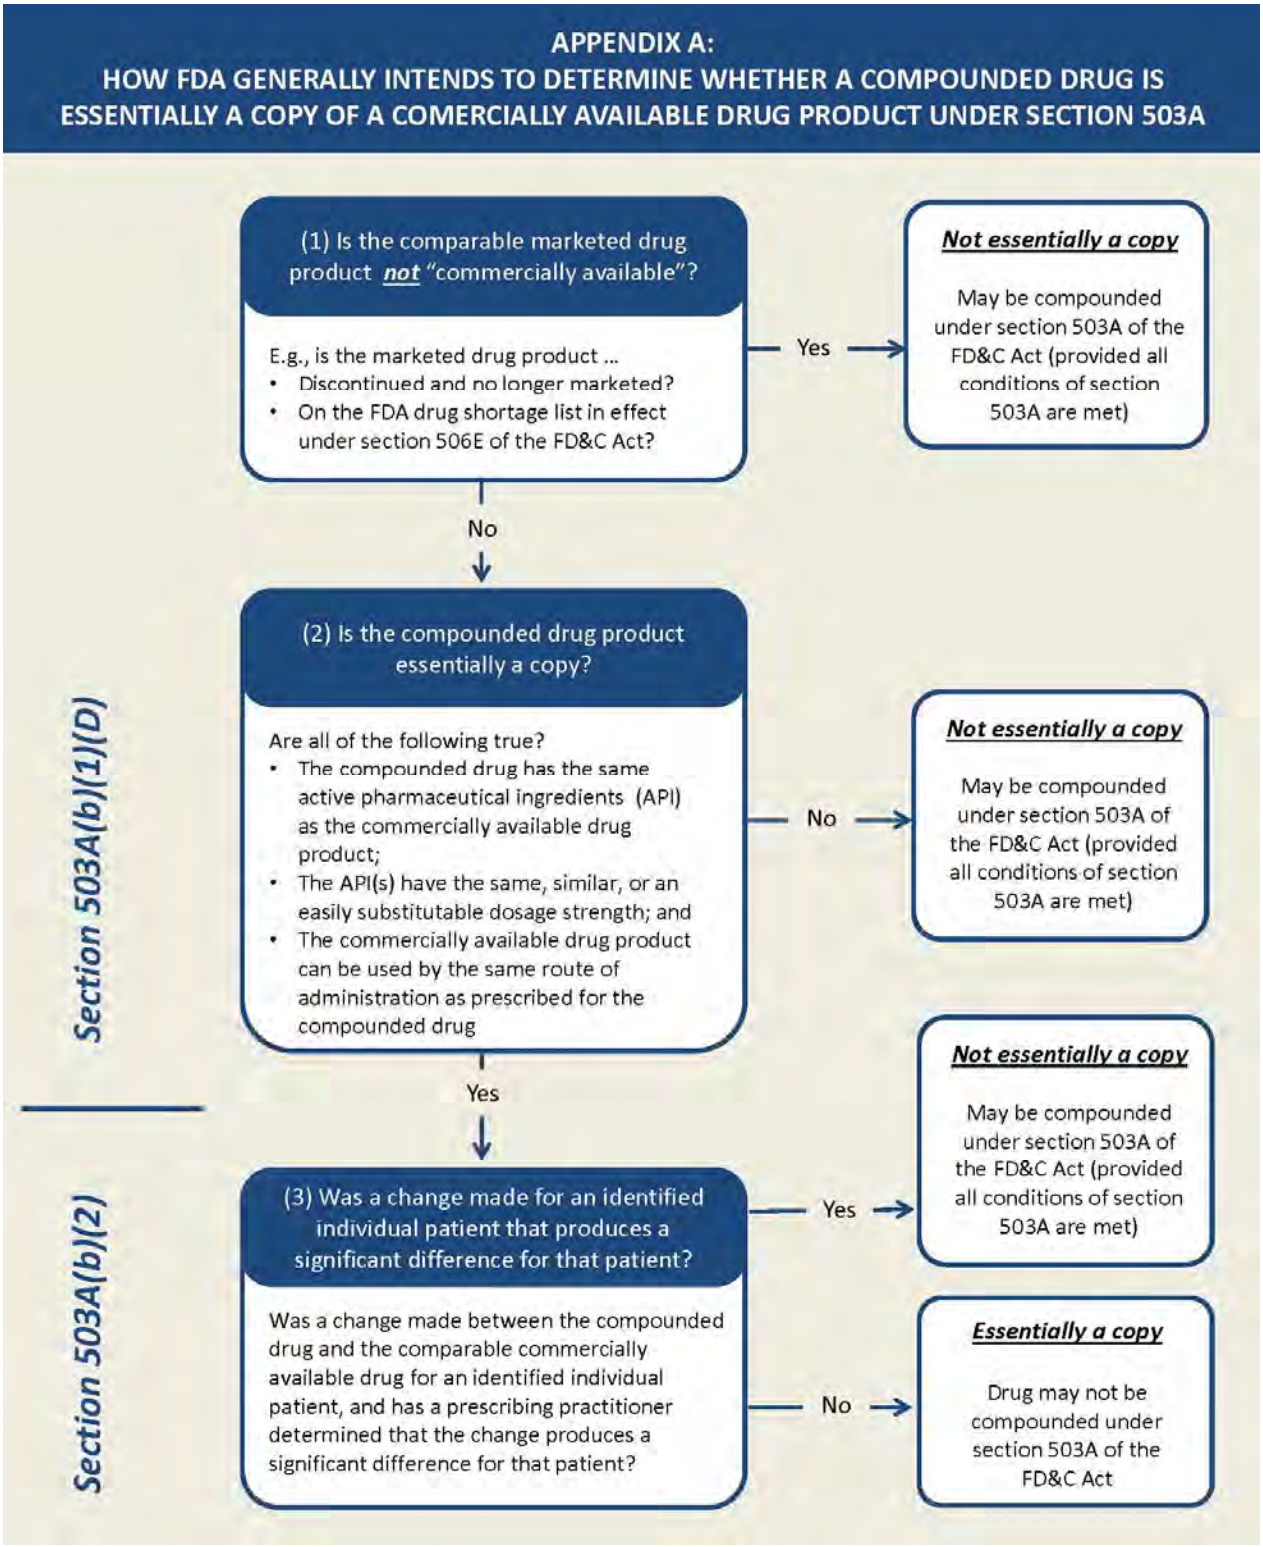
Compounders may produce a limited amount of drugs in anticipation of receiving valid prescriptions for identified individual patients. See section 503A(a)(2). FDA generally intends to consider whether such drugs are essentially a copy at the time the drug is distributed rather than the time it is produced.

5. Recordkeeping

A licensed pharmacist or physician seeking to compound a drug product under section 503A should maintain records to demonstrate compliance with section 503A(b)(1)(D). For example, records should be kept of notations on prescriptions for identified individual patients that a prescriber has determined that the compounded drug has a change that produces a significant difference for the identified patient.

Compounders under section 503A should also maintain records of the frequency in which they have compounded drug products that are essentially copies of commercially available drug products and the number of prescriptions that they have filled for compounded drug products that are essentially copies of commercially available drug products to document that such compounding has not been done regularly or in inordinate amounts.[21]

FDA recommends that compounders maintain the records described above for a period of at least three years.



IV. PAPERWORK REDUCTION ACT

This guidance contains information collection provisions that are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520). See footnotes 17, 18, and 21. These provisions require review and are not in effect until they display a currently valid OMB control number. The information collection provisions in this guidance have been submitted to OMB for review as required by section 3507(d) of the Paperwork Reduction Act of 1995. FDA will publish a notice in the *Federal Register* announcing OMB's decision regarding the information collection provisions in this guidance.

[20] For purposes of this policy, FDA intends to consider each refill of a prescription as an additional prescription.

APPENDIX A.

APPENDIX A:
HOW FDA GENERALLY INTENDS TO DETERMINE WHETHER A COMPOUNDED DRUG IS ESSENTIALLY A COPY OF A COMERCIALLY AVAILABLE DRUG PRODUCT UNDER SECTION 503A
(1) Is the comparable marketed drug product not "commercially available"?
E.g., is the marketed drug product ...
• Discontinued and no longer marketed?
• On the FDA drug shortage list in effect under section 506E of the FD&C Act?
Yes
Not essentially a copy
May be compounded under section 503A of the FD&C Act (provided all conditions of section 503A are met)
No
Section 503A(b)(1)(D)
(2) Is the compounded drug product essentially a copy?
Are all of the following true?
• The compounded drug has the same active pharmaceutical ingredients (API) as the commercially available drug product;
• The API(s) have the same, similar, or an easily substitutable dosage strength; and
• The commercially available drug product can be used by the same route of administration as prescribed for the compounded drug
No
Not essentially a copy
May be compounded under section 503A of the FD&C Act (provided all conditions of section 503A are met)
Yes
Section 503A(b)(2)
(3) Was a change made for an identified individual patient that produces a significant difference for that patient?
Was a change made between the compounded drug and the comparable commercially available drug for an identified individual patient, and has a prescribing practitioner determined that the change produces a significant difference for that patient?
Yes
Not essentially a copy
May be compounded under section 503A of the FD&C Act (provided all conditions of section 503A are met)
No
Essentially a copy
Drug may not be compounded under section 503A of the FD&C Act

NEVADA STATE BOARD OF PHARMACY,

Petitioner,

v.

AMERICAN WELLNESS PHARMACY, Pharmacy License No. PH02705, and

JAMES MICHAEL BARBER, RPH, Certificate of Registration No. 24357,

Respondents.

CASE NOS. 25-464-PH-S
25-464-RPH-S

NOTICE OF INTENDED ACTION AND ACCUSATION

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300 and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and these Respondents because at the time of the events alleged herein, Respondent James Michael Barber, RPh (Barber), Certificate of Registration No. 24357, was a pharmacist registered with the Board, and Respondent American Wellness Pharmacy, Pharmacy License No. PH02705, was a pharmacy licensed by the Board.

FACTUAL ALLEGATIONS

2. Respondent American Wellness Pharmacy has a record of prior discipline from the Board in case no. 23-063-PH-S, a stipulated settlement entered September 4, 2024, and amended October 16, 2024, and January 15, 2025, arising from Respondent's compounding and dispensing drug products in violation of NAC 639.661-.690, *inclusive*, and related federal law, 21 U.S.C. § 353a.

3. Barber was employed as managing pharmacist by American Wellness Pharmacy at the time of the events alleged herein.

4. Board staff determined during an inspection/audit in November 2025 that Respondents compounded and dispensed sterile injectable drug products to patients in Nevada that were essentially copies of tirzepatide while the drug product was commercially available, and without a "statement of significant difference" for each prescription documenting a medical need specific to the patient for the compounded product, including, without limitation, the following prescriptions for tirzepatide w/ B6 12-0.1 mg/ml 1ml vial injection:

Prescription No. 6091671: patient J.P.; issued 9/22/25 and dispensed 9/25/25

Prescription No. 6091666: patient M.K.; issued 9/22/25 and dispensed 9/25/25

Prescription No. 6091767: patient M.G.; issued 9/24/25 and dispensed 9/25/25

Prescription No. 6092002: patient J.T.; issued 9/30/25 and dispensed 9/30/25

Prescription No. 6092081: patient E.B.; issued 10/1/25 and dispensed 10/1/25

5. During that inspection/audit Board staff also determined that Respondents accepted and filled dangerous drug prescriptions with a stamped signature from the practitioner.

6. Board staff subsequently determined during an investigation in February-March 2026 that Respondents compounded and dispensed additional drug products to patients in Nevada that were essentially copies of commercially available drug products without a "statement of significant difference" for each prescription, including, without limitation, the following prescriptions:

Prescription No. 6093041: patient A.T. from practitioner A.F.; verbally transcribed 10/22/25 for "testosterone cypionate 200mg/ml in MCT oil"

Prescription No. 6094596: patient A.Z. from practitioner R.T.; verbally transcribed for 11/25/25 for "testosterone 50mg/ml"

Prescription No. 6095471: patient S.S. issued electronically 12/12/25 for "tirzepatide-l carnitine12-100 mg/ml INJECTION"

Prescription No. 6095935: patient M.F. issued electronically 12/26/25 for "tirzepatide-l carnitine 12-100 mg/ml injectable"

Prescription No. 6096364: patient M.R. issued electronically 1/6/26 for "testosterone cypionate 50mg/ml" with directions to "compound in grape seed oil"

7. During that investigation Board staff also determined that Respondents accepted and filled controlled substance prescriptions given by oral order from the practitioner, including, without limitation, the following prescriptions:

Prescription No. 6093041: patient A.T. from practitioner A.F.; verbally transcribed 10/22/25 for "testosterone cypionate 200mg/ml in MCT oil"

Prescription No. 6094596: patient A.Z. from practitioner R.T.; verbally transcribed for 11/25/25 for "testosterone 50mg/ml"

Prescription No. 6097319: patient MC. From practitioner J.N.; verbally transcribed 1/23/26 for "testosterone cyp 50mg/ml"

8. On April 1, 2026, Board inspectors conducting an inspection determined that Respondents were compounding sterile and non-sterile drug products out of compliance with chapter 800 of the *United States Pharmacopeia - National Formulary* (USP-800) as follows:

A. The location stores HD API products for non-sterile compounding in a room that is neutral pressure to surrounding areas, is not externally ventilated, and has never been tested for air exchanges per hour. Per USP-800 guidelines all HD API's must be stored in a room that is externally ventilated, has negative pressure to surrounding areas, and has at least 12 air exchanges per hour.

B. The location stores HD API products for sterile compounding in a room that is positive pressure to surrounding areas and is not externally ventilated. See comment #1 for USP-800 requirements.

C. The location compounds non-sterile HD API products in a hood located in a separate room from the retail and sterile compounding area. The room would be defined as the C-SEC (containment secondary engineering control). The room used for non-sterile hazardous

compounding is not externally vented, has never been tested for air exchanges per hour, and is neutral pressure compared to surrounding areas. Per USP-800 guidelines the room must be externally vented, have at least 12 air exchanges per hour, and have a negative pressure between 0.01 and 0.03 inches of water column relative to adjacent areas.

D. The location compounds sterile HD API products in a hood located in an ISO-7 classified buffer room. The room is not externally vented and is positive pressure in relation to adjacent areas. Per USP-800 guidelines the room must be externally vented and have a negative pressure between 0.01 and 0.03 inches of water column relative to adjacent areas.

E. The location compounds sterile HD API products in a biological safety cabinet that has been certified by an outside agency. The BSC is located in an ISO-7 classified buffer room. The BSC is not externally vented. Per USP-800 guidelines the BSC must be externally vented.

F. The location compounds sterile HD API products in an ISO-7 classified buffer room. The adjacent ante room is an ISO-8 classified ante room. Per USP -800 guidelines the ante room for sterile hazardous compounding must be an ISO-7 classified area.

9. On or about April 6, 2026, Board staff served Respondents with an order to cease-and-desist compounding sterile and non-sterile drug products in violation of chapter 800 of the United States Pharmacopeia - National Formulary (USP-800).

APPLICABLE LAW

10. A pharmacy engaged in the practice of compounding drug products and dispensing compounded drug products in Nevada shall comply with the provisions of NAC 639.661 -.690, *inclusive*, as amended by LCB File No. R053-24, and related federal law, 21 U.S.C. § 353a, the Federal Food, Drug, and Cosmetic Act (FD&C Act), establishing national standards for compounding medications. This includes, without limitation, compliance with chapter 800 of the *United States Pharmacopeia - National Formulary* (USP-800) as applicable.

11. Federal law prohibits compounding a drug product that is essentially a copy of a commercially available product. 21 U.S.C. § 353a(b)(1)(D). Pursuant to section 503A(b)(2) of

the FD&C Act (21 U.S.C. § 353a(b)(2)), a compounded drug product is not essentially a copy of a commercially available drug product if a change is made for an identified individual patient, and the prescribing practitioner has determined that the change will produce a significant difference for that patient. If a compounder intends to rely on such a determination to establish that a compounded drug is not essentially a copy of a commercially available drug product, the compounder should ensure that the determination is documented on the prescription in a "statement of significant difference."

12. A written prescription for a dangerous drug must contain in pertinent part the original handwritten signature of the prescribing practitioner in nonerasable ink. NRS 454.223(2)(a); NRS 639.2353(2)(a); NAC 454.060.

13. A prescription for a controlled substance must be given to a pharmacy by electronic transmission in accordance with the regulations adopted by the Board. NRS 639.23535(1); 21 CFR Part 1311.

14. Performing any duties as the holder of a license or registration in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(i) and is grounds for suspension or revocation of any license issued by the Board. NRS 639.210(4).

15. The Board may suspend or revoke a license or registration if the holder has violated any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs. NRS 639.210(11).

16. The Board may suspend or revoke a license or registration if the holder has violated, attempted to violate, assisted or abetted in the violation of or conspired to violate any law or regulation relating to drugs, the manufacture or distribution of drugs or the practice of pharmacy. NRS 639.210(12).

17. A managing pharmacist is responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the

pharmacy and the practice of pharmacy, including recordkeeping. NRS 639.210(12) and (15), NRS 639.220(1) and/or NAC 639.702.

18. Any violation of any of the provisions of NRS Chapter 639 or NAC Chapter 639 by personnel of a pharmacy is cause for the suspension or revocation of the license of the pharmacy by the Board. NRS 639.230(5); NAC 639.702. Further, the owner of any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(3).

J. David Wuest, in his capacity as Executive Secretary of the Nevada State Board of Pharmacy (Board), by and through General Counsel Brett Kandt, and Respondent James Michael Barber, RPh (Barber), Certificate of Registration No. 24357, **HEREBY STIPULATE AND AGREE THAT**:

1. On or about July 31, 2026, Respondent Barber was served with the Notice of Intended Action and Accusation (Accusation) on file in this matter together with the Statement to Respondent and Notice of Hearing. Respondent is entering this Stipulation in lieu of filing an Answer and Notice of Defense to the Accusation.

2. Respondent is fully aware of the right to seek the advice of counsel in this matter prior to entering into this Stipulation.

3. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration, the right to appeal and any and all other rights which may be accorded to him pursuant to NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

4. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondent has failed to comply with

the provisions of this Stipulation, Respondent hereby knowingly and voluntarily waives the rights to a hearing, reconsideration, appeal and any and all other rights related to this action that may be accorded to him by NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

5. The allegation in Paragraph 7 of the Accusation is withdrawn and the related cause of action against Respondent as set forth in Count Three, Paragraph 21 of the Accusation, is hereby DISMISSED pursuant to NRS 622A.320(4).

6. Respondent Barber does not contest the remaining allegations in the Accusation, but acknowledges that Board staff prosecuting this case could present such evidence at an administrative hearing to establish a factual basis for the violations alleged therein, *to wit*:

A. By compounding drug products to patients in Nevada that were essentially copies of commercially available drug products, Respondents and/or Respondents' personnel violated, attempted to violate, assisted or abetted in the violation of or conspired to violate 21 U.S.C. § 353a(b)(1)(D) and Section 3 of LCB File No. R053-24, and Respondents are therefore subject to discipline pursuant to NRS 639.210(11), (12) and (15), NRS 639.220(1), NRS 639.230(5), NAC 639.702, and/or NAC 639.945(3).

B. By filling and dispensing dangerous drug prescriptions with a stamped signature from the practitioner, Respondents and/or Respondents' personnel violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 454.223(2)(a), NRS 639.2353(2)(a) and/or NAC 454.060, and Respondents are therefore subject to discipline pursuant to NRS 639.210(11), (12) and (15), NRS 639.220(1), NRS 639.230(5), NAC 639.702, and/or NAC 639.945(3).

C. By compounding sterile and non-sterile drug products out of compliance with USP-800, Respondents and/or Respondents' personnel violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NAC 639.661 -.690, *inclusive*, as amended by LCB File No. R053-24, and related federal law, 21 U.S.C. § 353a, and Respondents are therefore

subject to discipline pursuant to NRS 639.210(11), (12) and (15), NRS 639.220(1), NRS 639.230(5), NAC 639.702, and/or NAC 639.945(3).

D. By their acts Respondents and/or Respondents' personnel engaged in unprofessional conduct as defined in NAC 639.945(1)((i), and Respondents are therefore subject to discipline pursuant to NRS 639.210(4), NRS 639.220(1), NRS 639.230(5), NAC 639.702, and/or NAC 639.945(3).

E. As the managing pharmacist of Respondent American Wellness Pharmacy, Pharmacy License No. PH02705, at the time of the errors, omissions and violations alleged herein, Respondent Barber is responsible and subject to discipline pursuant to NRS 639.210(4), (11), (12) and (15), NRS 639.220(1) and/or NAC 639.702.

7. Those violations are pled with particularity in the Accusation and grounds for action pursuant to NRS 639.210 and NRS 639.255.

8. To resolve this matter without incurring any further costs or the expense associated with a hearing, the Board and Respondent Barber stipulate to the following penalties. Respondent James Michael Barber, RPh, Certificate of Registration No. 24357, is placed on probation pursuant to NRS 639.255(1)(b) for a period of one (1) year subject to the following conditions:

A. Pursuant to NRS 639.255(1)(f) and NAC 639.955(5), Barber shall pay a fine of Two Thousand Dollars ($2000.00) for the violations, by personal, business, certified or cashier's check or money order made payable to "State of Nevada, Office of the Treasurer," to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, due and payable by December 4, 2026;

B. Pursuant to NRS 622.400, Barber shall pay One Thousand Dollars ($1,000.00) to partially reimburse the Board for recoverable attorney's fees and recoverable costs incurred in investigating and prosecuting this matter, by personal, business, certified or cashier's check or money order made payable to the "Nevada State Board of Pharmacy" to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, due and payable by December 4,2026;

C. Barber shall not work as managing pharmacist of any compounding pharmacy licensed by the Board while on probation;

D. Barber shall not engage in the practice of compounding sterile drug products unless and until he completes twenty (20) extra hours of continuing education (CE) on sterile compounding, in addition to the CE hours he must otherwise complete to maintain licensure, and provides certificates demonstrating completion to the Board;

E. Barber shall complete ten (10) extra hours of continuing education (CE) on nonsterile compounding, in addition to the CE hours he must otherwise complete to maintain licensure, and provide certificates demonstrating completion to the Board; and

F. While on probation, Barber shall comply with all federal and state statutes and regulations regarding controlled substances, dangerous drugs, and the practice of pharmacy, shall have no additional administrative charges filed by the Board, and shall have no action taken that would be reportable pursuant to NAC 639.229.

Upon successful completion of probation, Respondent's Certificate of Registration No. 24357 will be fully restored.

9. Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may impose additional discipline upon Respondent not inconsistent with the provisions of NRS Chapter 639.

10. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on October 14, 2026. Respondent will appear in person at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent or counsel are not present at the meeting.

11. The Board has discretion to accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 USC § 1396r–2 and 45 CFR Part 60.

12. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the merits of this matter may be heard by the Board at a later date. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

13. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release one another from any and all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order.

Respondent has fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and have knowingly and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

Compounded Drug Products That Are Essentially Copies of a Commercially Available Drug Product Under Section 503A of the Federal Food, Drug, and Cosmetic Act
Guidance for Industry[1]

This guidance represents the current thinking of the Food and Drug Administration (FDA or the Agency) on this topic. It does not create any rights for any person and is not binding on FDA or the public. You can use an alternative approach if the approach satisfies the requirements of the applicable statutes and regulations. To discuss an alternative approach, contact the FDA office responsible for this guidance as listed in the title page.

I. INTRODUCTION AND SCOPE

To qualify for exemptions under section 503A of the Federal Food, Drug, and Cosmetic Act (FD&C Act), a drug product must be compounded by a licensed pharmacist or physician who does not compound regularly or in inordinate amounts any drug products that are essentially copies of a commercially available drug product, among other conditions. This guidance sets forth FDA's policies regarding this provision of section 503A, including the terms *commercially available*, *essentially a copy of a commercially available drug product*, and *regularly or in inordinate amounts*.[2]

In general, FDA's guidance documents do not establish legally enforceable responsibilities. Instead, guidances describe the Agency's current thinking on a topic and should be viewed only as recommendations, unless specific regulatory or statutory requirements are cited. The use of the word *should* in Agency guidances means that something is suggested or recommended, but not required.

[1] This guidance has been prepared by multiple offices in the Center for Drug Evaluation and Research, in consultation with the Office of Regulatory Affairs at the Food and Drug Administration.

[2] This guidance does not apply to drugs compounded for use in animals, to biological products subject to licensure in a biologics license application, or to repackaged drug products. For policies pertaining to mixing, diluting, and repackaging biological products, see FDA's guidance, *Mixing, Diluting, and Repackaging Biological Products Outside the Scope of an Approved Biologics License Application.* For policies pertaining to repackaged drug products, see FDA's guidance, *Repackaging of Certain Human Drug Products by Pharmacies and Outsourcing Facilities*.

All FDA guidances are available on the FDA guidance web page. FDA updates guidances regularly. To make sure you have the most recent version of a guidance, always consult the guidance web page at http://www.fda.gov/Drugs/GuidanceComplianceRegulatoryInformation/Guidances/default.htm.

II. BACKGROUND

A. Section 503A of the FD&C Act

Section 503A, added to the FD&C Act by the Food and Drug Administration Modernization Act of 1997 and amended by the Drug Quality and Security Act in 2013, describes the conditions that must be satisfied for human drug products compounded by a licensed pharmacist in a State-licensed pharmacy or Federal facility, or by a licensed physician, to qualify for exemptions from the following three sections of the FD&C Act:[3]

- Section 501(a)(2)(B) (concerning current good manufacturing practice (CGMP) requirements)
- Section 502(f)(1) (concerning the labeling of drugs with adequate directions for use)
- Section 505 (concerning the approval of drugs under new drug applications (NDAs) or abbreviated new drug applications (ANDAs))

One of the conditions that must be met for a compounded drug product to qualify for the exemptions under section 503A of the FD&C Act is that it must be compounded by a licensed pharmacist or a licensed physician that "does not compound regularly or in inordinate amounts (as defined by the Secretary) any drug products that are essentially copies of a commercially available drug product."[4]

The statute further states that "the term 'essentially a copy of a commercially available drug product' does not include a drug product in which there is a change, made for an identified individual patient, which produces for that patient a significant difference, as determined by the prescribing practitioner, between the compounded drug and the comparable commercially available drug."[5]

A complete list of the conditions that must be met for a compounded drug product to qualify for the exemptions in section 503A appears in the FDA guidance, *Pharmacy Compounding of Human Drug Products Under Section 503A of the Federal Food, Drug, and Cosmetic Act*.

B. Compounding, Generally

Compounded drug products serve an important role for patients whose clinical needs cannot be met by an FDA-approved drug product, such as a patient who has an allergy and needs a medication to be made without a certain dye, an elderly patient who cannot swallow a pill and needs a medicine in a liquid form that is not otherwise available, or a child who needs a drug in a strength that is lower than that of the commercially available product. Drug products for identified individual patients can be compounded by licensed pharmacists in state-licensed

[3] In addition, under section 581(13) of the FD&C Act, the term "product," for purposes of pharmaceutical supply chain security requirements, does not include a drug compounded in compliance with section 503A.

[4] See section 503A(b)(1)(D).

[5] See section 503A(b)(2).

pharmacies and Federal facilities and by licensed physicians operating under section 503A of the FD&C Act. Drug products can also be compounded by outsourcing facilities under section 503B of the FD&C Act for identified individual patients pursuant to prescriptions or for distribution to health care practitioners without first receiving a prescription.[6] Both sections 503A and 503B restrict compounding drug products that are essentially a copy of a commercially available drug product (section 503A) or an approved drug product (section 503B).

C. Risks Associated with Compounded Drug Products

Although compounded drugs can serve an important need, they can also pose a higher risk to patients than FDA-approved drugs. Compounded drug products are not FDA-approved, which means they have not undergone FDA premarket review for safety, effectiveness, and quality. In addition, licensed pharmacists and licensed physicians who compound drug products in accordance with section 503A are not required to comply with CGMP requirements. Furthermore, FDA does not interact with the vast majority of licensed pharmacists and licensed physicians who compound drug products and seek to qualify for the exemptions under section 503A of the FD&C Act for the drug products that they compound because these compounders are not licensed by FDA and generally do not register their compounding facilities with FDA. Therefore, FDA is often not aware of potential problems with their compounded drug products or compounding practices unless it receives a complaint, such as a report of a serious adverse event or visible contamination.

FDA has investigated numerous serious adverse events associated with compounded drug products that were contaminated or otherwise compounded improperly, including the adverse events associated with the 2012 fungal meningitis outbreak in which contaminated injectable drug products resulted in more than 60 deaths and 750 cases of infection. FDA has also identified many pharmacies that compounded drug products under insanitary conditions such that the drug products may have been contaminated with filth or rendered injurious to health and that shipped the compounded drug products made under these conditions to patients and health care practitioners across the country, sometimes in large amounts.

D. Compounded Drugs That Are Essentially Copies of Commercially Available Drug Products

Section 503A provides exemptions from new drug approval, labeling with adequate directions for use, and CGMP requirements of the FD&C Act, so that drug products can be compounded as customized therapies for identified individual patients whose medical needs cannot be met by commercially available drug products. The restrictions on making drugs that are essentially copies ensure that pharmacists and physicians do not compound drug products under the exemptions for patients who could use a commercially available drug product. Such a practice would create significant public health risks because patients would be unnecessarily exposed to drug products that have not been shown to be safe and effective and that may have been prepared

[6] Section 503B of the FD&C Act describes the conditions that must be met for a human drug product compounded by an outsourcing facility to qualify for exemptions from sections 505, 502(f)(1), and 582 (concerning drug supply chain security requirements) of the FD&C Act. The conditions applicable to outsourcing facilities are discussed in separate guidances applicable to those facilities.

under substandard manufacturing conditions. FDA has investigated serious adverse events in patients who received contaminated compounded drugs when a comparable approved drug, made in a facility subject to CGMP requirements, was available.

In addition to these immediate public health risks, section 503A's limitations on producing a drug product that is essentially a copy of a commercially available drug product protects the integrity and effectiveness of the new drug and abbreviated new drug approval processes that Congress put in place to protect patients from unsafe, ineffective, or poor quality drugs. Furthermore, sponsors may be less likely to invest in and seek approval of innovative, life-saving medications if a compounder could, after a drug is approved, compound "substitutes" that may be less expensive because they have not had to demonstrate safety and effectiveness and are not produced in accordance with CGMP requirements or labeled with adequate directions for use.

Sponsors might also be less likely to seek approval of an ANDA for a generic drug if compounders were permitted to compound drugs that are essentially copies of commercially available drugs without going through the ANDA process. An ANDA must include data to demonstrate that the drug has the same active ingredient and is bioequivalent to an approved drug. FDA also conducts premarketing inspections of proposed manufacturing facilities.

The copies restriction also protects FDA's drug monograph process. FDA has an ongoing process for evaluating the safety and effectiveness of certain over-the-counter (OTC) medications, and if the Agency determines that an OTC drug meets certain conditions and is generally recognized as safe and effective, it will publish a final monograph specifying those conditions. Products that comply with a final monograph may be marketed, but manufacturers are required to meet CGMP standards. Restrictions in section 503A prevent compounders from producing drugs without having to comply with monograph standards, or CGMP requirements.

III. POLICY

As stated above, to qualify for the exemptions under section 503A of the FD&C Act, a drug must be compounded by a licensed pharmacist or a licensed physician that does not compound regularly or in inordinate amounts (as defined by the Secretary) any drug products that are essentially copies of a commercially available drug product.[7] This means that a compounded drug product is not eligible for the exemptions in section 503A if it is (1) essentially a copy of a commercially available drug product, and (2) compounded regularly or in inordinate amounts. Accordingly, and as discussed below, when evaluating whether a drug product meets the condition in section 503A regarding essentially copies, FDA intends to determine whether a compounded drug product is *essentially a copy of a commercially available drug product:* if it is, FDA intends to determine whether the drug product was compounded regularly or in inordinate amounts.[8]

[7] See section 503A(b)(1)(D).

[8] FDA is considering the applicability of the policies described in this guidance to hospitals and health systems and intends to address these issues in separate guidance or rulemaking. FDA regards a health system as collection of hospitals that are owned and operated by the same entity and that share access to databases with drug order information for their patients. There is no definition of "health system" that applies to all sections of the FD&C Act.

FDA's policies with regard to the terms (1) *commercially available drug product*, (2) *essentially a copy of a commercially available drug product*, and (3) *regularly or in inordinate amounts*, are as follows:

A. Commercially Available Drug Product

For purposes of this guidance, a drug product is commercially available if it is a marketed drug product.

We do not consider a drug product to be commercially available if

- the drug product has been discontinued and is no longer marketed[9] or
- the drug product appears on the FDA drug shortage list in effect under section 506E of the FD&C Act.[10] A drug "appears on the drug shortage list in effect under section 506E" if the drug is in "currently in shortage" status (and not in "resolved" status) in FDA's drug shortage database.

Commercially available drugs are available on the market, and they are generally subject to FD&C Act requirements relating to approval, labeling, and CGMP requirements, and the copies restriction applies to all such drugs because section 503A is not intended to provide a means for compounders to produce compounded drugs exempt from the Act's requirements that are essentially copies of commercially available drug products.

B. Essentially a Copy of a Commercially Available Drug Product

1. What is Essentially a Copy?

FDA intends to consider a compounded drug product to be essentially a copy of a commercially available drug product if:

- the compounded drug product has the same active pharmaceutical ingredient(s) (API) as the commercially available drug product;
- the API(s) have the same, similar, or an easily substitutable dosage strength; and

---

However, this is the definition of a "health system" used in section 506F of the Act concerning hospital repackaging of drugs in shortage.

[9] FDA maintains a list of approved drug products that sponsors have indicated are not marketed in the discontinued section of the list of Approved Drug Products with Therapeutic Equivalence Evaluations (Orange Book). See http://www.accessdata.fda.gov/scripts/cder/ob/default.cfm. Specifically, the list includes approved drug products that have never been marketed, are for exportation, are for military use, have been discontinued from marketing and we have not determined were withdrawn for safety or effectiveness reasons, or have had their approvals withdrawn for reasons other than safety or effectiveness subsequent to being discontinued from marketing.

[10] See http://www.accessdata.fda.gov/scripts/drugshortages/default.cfm.

- the commercially available drug product can be used by the same route of administration as prescribed for the compounded drug,

unless, as provided by section 503A(b)(2), a prescriber determines that there is a change, made for an identified individual patient, which produces, for that patient, a significant difference from the commercially available drug product.

The limitations in section 503A(b)(1)(D) apply to the compounding of drug products that are *essentially* copies of a commercially available drug product – not only to drugs that are exact copies or even to drugs that are nearly identical. This is to ensure that compounders do not evade the limits in this section by making relatively small changes to a compounded drug product and then offering the drug to the general public without regard to whether a prescribing practitioner has determined that the change produces for the patient a significant difference. For example, Congress contemplated that a compounded drug may be essentially a copy of a commercially available drug if "minor changes in strength (such as from .08% to .09%) are made that are not known to be significant . . ." for the patient for whom the drug was prescribed.[11]

a. Same API

With regard to the characteristics listed above, an API is the substance in a drug product that is intended to furnish pharmacological activity or other direct effect in the diagnosis, cure, mitigation, treatment, or prevention of disease or to affect the structure or function of the body.[12] When a compounded drug product offers the same API as a commercially available drug product, in the same, similar, or easily substitutable dosage strength and for use through the same route of administration, we generally intend to consider such a drug product *essentially a copy*, unless a prescriber determines that there is a change, made for an identified individual patient, that will produce a significant difference for that patient.

We recognize that, for some patients, a drug product that has the same API, strength, and route of administration may include a change that produces a significant difference for a particular patient. For example, a drug product compounded without a particular inactive ingredient may produce a significant difference for a patient who has an allergy to the inactive ingredient in the commercially available drug product. However, for other patients, this change may produce no difference at all. Congress did not intend for compounders to use, for example, the fact that some patients may have allergies as a basis to compound a drug without the inactive ingredient for other patients who do not have the allergy under the exemptions in section 503A (i.e., without meeting requirements for premarket approval, labeling with adequate directions for use, or

[11] U.S. House. Food and Drug Administration Modernization Act of 1997, *Conference Report* (to Accompany S. 830). (105 H. Rpt. 399).

[12] Section 503A refers to bulk drug substances. A *bulk drug substance* is defined as any substance that is intended for incorporation into a finished drug product and is intended to furnish pharmacological activity or other direct effect in the diagnosis, cure, mitigation, treatment, or prevention of disease, or to affect the structure or any function of the body. It does not include intermediates used in the synthesis of the substance. This definition is the same as the definition of active pharmaceutical ingredient. See 21 CFR 207.1, 207.3.

CGMP requirements).[13] In the context of compounding and consistent with the statute, we generally intend to consider such a drug essentially a copy unless a prescriber determines that there is a change that will produce a significant difference for the patient for whom it is prescribed.

b. Same, Similar or Easily Substitutable Strength

FDA generally intends to consider two drugs to have a similar dosage strength if the dosage strength of the compounded drug is within 10% of the dosage strength of the commercially available drug product.

With regard to the concept of easily substitutable strength, in some cases, the same or similar dosage strength can be achieved by administration of fractional or multiple doses of a drug product. For example, if FDA-approved Drug X tablets have a dosage strength of 25 mg and a patient needs 50 mg of Drug X, FDA would generally consider a compounded Drug X 50 mg tablet to have an easily substitutable strength because the patient could take two Drug X 25 mg tablets to achieve the required dose.[14]

c. Same Route of Administration

Route of administration is a way of administering a drug to a site in a patient (e.g., topical, intravenous, oral).[15] In general, FDA does not intend to consider a compounded drug product with the same API and similar or easily substitutable strength to be essentially a copy of a commercially available drug product if the compounded drug product and the commercially available drug product have different routes of administration (e.g., if the commercially available drug product is oral and the compounded drug product is topical). However, if the compounded drug product has the same API and similar or easily substitutable strength as the commercially available drug product and the commercially available drug product can be used (regardless of how it is labeled) by the route of administration prescribed for the compounded drug, FDA generally intends to consider the compounded drug to be essentially a copy of the commercially available drug. In this case, the compounded drug product generally would not produce a significant difference for an identified individual patient relative to the commercially available drug product.

For example, if the commercially available drug is an injectable drug sold in a vial that is labeled for intra-muscular use, but the drug also can be drawn from the vial by a smaller needle for subcutaneous administration, a compounded drug product with the same API and similar or

[13] *See* note 11.

[14] If a commercially available tablet must be split to achieve the prescribed dosage strength, and such tablet is not suitable for splitting, FDA would not consider the compounded drug made to the prescribed dosage strength to have an easily substitutable strength. For example, some tablets may be too small or crumble too easily when split, making splitting an inappropriate option. Information regarding tablet splitting may be printed in the "HOW SUPPLIED" section of the professional label insert and in the patient package insert of an approved drug product.

[15] See http://www.fda.gov/Drugs/DevelopmentApprovalProcess/FormsSubmissionRequirements/ElectronicSubmissions/DataStandardsManualmonographs/ucm071667.htm.

easily substitutable strength prescribed for sub-cutaneous administration would generally be considered to be essentially a copy, unless the prescriber documents on the prescription that the compounded drug product produces a significant difference for the identified individual patient.

d. Same Characteristics as Two or More Commercially Available Drug Products

FDA intends to consider a compounded drug product to be essentially a copy of a commercially available drug product if the compounded drug product contains the same APIs as two or more commercially available drug products in the same, similar, or easily substitutable strength and if the commercially available drug products can be used (regardless of how they are labeled) by the same route of administration prescribed for the compounded drug, unless there is documentation as described in section III.B.2. Such drug products present the same kinds of concerns as drug products that have a single API and in some respects may be more dangerous because of the potential for unintended drug interactions or formulation issues. For example, if drug X and drug Y are commercially available oral drug products, FDA generally intends to consider a compounded oral drug product that combines drug X and drug Y in strengths that are within 10% of the strengths of the respective commercially available products to be essentially a copy of the commercially available drug product, unless a prescriber determination of a significant difference has been documented.

2. Statement of Significant Difference

Pursuant to section 503A(b)(2) of the FD&C Act, a compounded drug product is not essentially a copy of a commercially available drug product if a change is made for an identified individual patient, and the prescribing practitioner has determined that the change will produce a significant difference for that patient. If a compounder intends to rely on such a determination to establish that a compounded drug is not essentially a copy of a commercially available drug product, the compounder should ensure that the determination is documented on the prescription.

FDA does not believe that a particular format is needed to document the determination, provided that the prescription makes clear that the prescriber identified the relevant change and the significant difference that the change will produce for the patient. For example, the following would be sufficient:

- "No Dye X, patient allergy" (if the comparable drug contains the dye)
- "Liquid form, patient can't swallow tablet" (if the comparable drug is a tablet)
- "6 mg, patient needs higher dose" (if the comparable drug is only available in 5 mg dose)

However, if a prescription identifies only a patient name and drug product formulation, this would not be sufficient to establish that the prescriber made the determination described by section 503A(b)(2). Note also that the significant benefit that the prescriber identifies must be produced by the change the compounder will make to a commercially available drug product (i.e., a change in drug product formulation). Other factors, such as a lower price, are not

sufficient to establish that the compounded drug product is not essentially a copy of the commercially available drug product.[16]

If a prescription does not make clear that the prescriber made the determination required by section 503A(b)(2), or a compounded drug is substituted for the commercially available drug product, the compounder can contact the prescriber and if the prescriber confirms it, make a notation on the prescription that the compounded drug product contains a change that makes a significant difference for the patient. The notations should be as specific as those described above, and the date of the conversation with the prescriber should be included on the prescription.[17]

It is not possible to offer exhaustive guidance about when a difference will be "significant" to an identified individual patient. At this time, FDA generally does not intend to question prescriber determinations that are documented in a prescription or notation. However, we do intend to consider whether a prescription or notation relied upon by a compounder to establish that a drug is not essentially a copy documents that the determination was made.

If the compounder produces drugs in anticipation of receiving valid prescriptions for identified individual patients, and the compounder obtains the statement of significant difference from the prescriber when it receives the prescription for the compounded drug, prior to distribution, FDA does not intend to consider the compounded drug that is then distributed to be essentially a copy.

3. Documentation of Shortage

If the drug was compounded because the approved drug product was not commercially available because it was on the FDA drug shortage list, the prescriber or compounder should include a notation on the prescription that it was on the drug shortage list and the date the list was checked.[18]

4. Regularly or in Inordinate Amounts

A drug product is not eligible for the exemptions in section 503A if it is prepared by a pharmacist or physician who compounds "regularly or in inordinate amounts (as defined by the Secretary)" any drug products that are essentially copies of a commercially available drug

[16] Congress noted that "where it is readily apparent, based on the circumstances, that the 'significant difference' is a mere pretext to allow compounding of products that are essentially copies of commercially available products, such compounding would be considered copying of commercially available products and would not qualify for the compounding exemptions if it is done regularly or in inordinate amounts. Such circumstances may include, for example, instances in which minor changes in strength (such as from .08% to .09%) are made that are not known to be significant or instances in which the prescribing physician is receiving financial remuneration or other financial incentives to write prescriptions for compounded products." *See* the U.S. House. Food and Drug Administration Modernization Act of 1997, *Conference Report* (to Accompany S. 830). (105 H. Rpt. 399).

[17] See section IV of this guidance.

[18] See section IV of this guidance.

product.[19] FDA interprets this to mean that, in order to be compounded in accordance with section 503A, a drug product that is essentially a copy of a commercially available drug product cannot be compounded regularly – i.e., it cannot be compounded at regular times or intervals, usually, or very often. Nor can the amounts compounded be inordinate, in light of the purpose of section 503A.

Section 503A is intended to protect patients from the public health risks of providing compounded drugs to patients whose medical needs could be met by commercially available drug products and to protect the integrity and efficiency of the drug approval process. Under the statutory scheme, only very rarely should a compounded drug product that is essentially a copy of a commercially available drug product be offered to a patient. We conclude, therefore, that a drug product that is essentially a copy of a commercially available drug product is compounded regularly or in inordinate amounts if it is compounded more frequently than needed to address unanticipated, emergency circumstances, or in more than the small quantities needed to address unanticipated, emergency circumstances.

It is important to note that the regularly or in inordinate amounts provision is not implicated if the compounded drug is not essentially a copy of a commercially available drug product. For example, a compounded drug product that has the same API, dosage strength, and route of administration as a drug product on FDA's shortage list would not be considered essentially a copy of a commercially available drug because a drug product is not considered *commercially available* if it is on FDA's drug shortage list. In addition, a compounded drug product is not essentially a copy of a commercially available drug product if a prescriber has determined that the compounded drug has a change that produces a significant difference for a patient.
Once it has been determined that a compounded drug is essentially a copy of a commercially available drug product as described above, the following are examples of factors that may be the basis for concluding that it has been compounded regularly or in inordinate amounts:

- The compounded drug product amounts to more than a small number of prescriptions or a small percentage of the compounded drug products that a compounder prepares.
- The compounder routinely substitutes compounded drugs that are essentially copies of commercially available drugs upon receiving prescriptions for patients.
- The compounder offers pre-printed prescription pads that a prescriber can use to write a prescription for the drug product that is essentially a copy without making a determination that there is a change that will produce a significant difference for a patient.
- The compounded drug product is not compounded on an as-needed basis, but on a routine or pre-set schedule.

The foregoing list is not intended to be exhaustive. Other factors may be appropriate for consideration in a particular case.

To focus enforcement on the most significant cases, as a matter of policy, at this time FDA does not intend to take action against a compounder for compounding a drug product that is

[19] See section 503A(b)(1)(D).

essentially a copy of a commercially available drug product regularly or in inordinate amounts if the compounder fills four or fewer prescriptions for the relevant compounded drug product in a calendar month.[20] As noted above, a compounded drug product is not essentially a copy of a commercially available drug product if a prescriber has determined that the compounded drug has a change that produces a significant difference for a patient; thus, a prescription that documents such a prescriber determination would not be counted towards the four prescriptions.

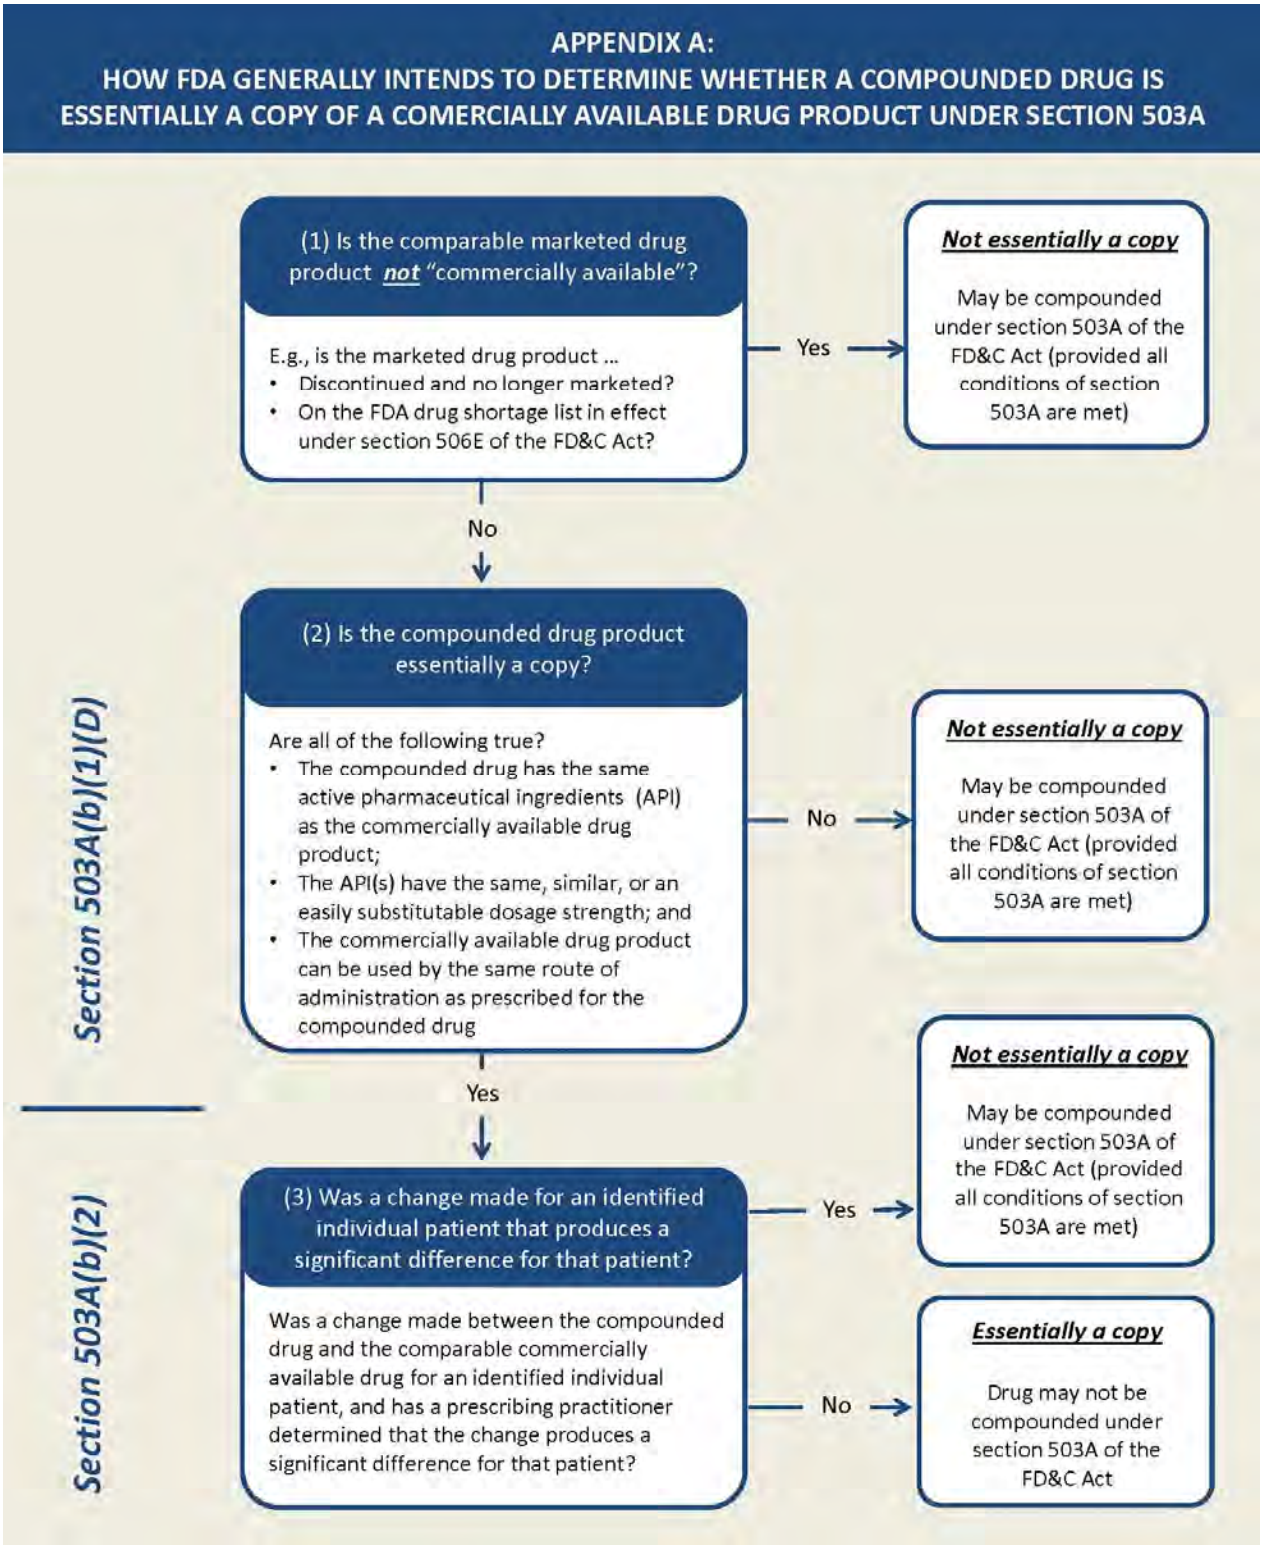
Compounders may produce a limited amount of drugs in anticipation of receiving valid prescriptions for identified individual patients. See section 503A(a)(2). FDA generally intends to consider whether such drugs are essentially a copy at the time the drug is distributed rather than the time it is produced.

5. Recordkeeping

A licensed pharmacist or physician seeking to compound a drug product under section 503A should maintain records to demonstrate compliance with section 503A(b)(1)(D). For example, records should be kept of notations on prescriptions for identified individual patients that a prescriber has determined that the compounded drug has a change that produces a significant difference for the identified patient.

Compounders under section 503A should also maintain records of the frequency in which they have compounded drug products that are essentially copies of commercially available drug products and the number of prescriptions that they have filled for compounded drug products that are essentially copies of commercially available drug products to document that such compounding has not been done regularly or in inordinate amounts.[21]

FDA recommends that compounders maintain the records described above for a period of at least three years.



IV. PAPERWORK REDUCTION ACT

This guidance contains information collection provisions that are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520). See footnotes 17, 18, and 21. These provisions require review and are not in effect until they display a currently valid OMB control number. The information collection provisions in this guidance have been submitted to OMB for review as required by section 3507(d) of the Paperwork Reduction Act of 1995. FDA will publish a notice in the *Federal Register* announcing OMB's decision regarding the information collection provisions in this guidance.

[20] For purposes of this policy, FDA intends to consider each refill of a prescription as an additional prescription.

APPENDIX A.

APPENDIX A:
HOW FDA GENERALLY INTENDS TO DETERMINE WHETHER A COMPOUNDED DRUG IS ESSENTIALLY A COPY OF A COMERCIALLY AVAILABLE DRUG PRODUCT UNDER SECTION 503A
(1) Is the comparable marketed drug product not "commercially available"?
E.g., is the marketed drug product ...
• Discontinued and no longer marketed?
• On the FDA drug shortage list in effect under section 506E of the FD&C Act?
Yes
Not essentially a copy
May be compounded under section 503A of the FD&C Act (provided all conditions of section 503A are met)
No
Section 503A(b)(1)(D)
(2) Is the compounded drug product essentially a copy?
Are all of the following true?
• The compounded drug has the same active pharmaceutical ingredients (API) as the commercially available drug product;
• The API(s) have the same, similar, or an easily substitutable dosage strength; and
• The commercially available drug product can be used by the same route of administration as prescribed for the compounded drug
No
Not essentially a copy
May be compounded under section 503A of the FD&C Act (provided all conditions of section 503A are met)
Yes
Section 503A(b)(2)
(3) Was a change made for an identified individual patient that produces a significant difference for that patient?
Was a change made between the compounded drug and the comparable commercially available drug for an identified individual patient, and has a prescribing practitioner determined that the change produces a significant difference for that patient?
Yes
Not essentially a copy
May be compounded under section 503A of the FD&C Act (provided all conditions of section 503A are met)
No
Essentially a copy
Drug may not be compounded under section 503A of the FD&C Act

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **JAYZLE JOY BOYD JUSTICE, RPH, Certificate of Registration No. 19506,** **Respondent.**	**CASE NO. 26-137-RPH-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300 and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and this Respondent because at the time of the events alleged herein, Respondent Jayzle Joy Boyd Justice, RPh, Certificate of Registration No. 19506, was a pharmacist registered with the Board.

FACTUAL ALLEGATIONS

2. On or about June 10, 2024, in case no. 24-248-RPH-S Board staff issued a citation to Respondent and imposed a $500 fine for failing to complete the thirty (30) hours of continuing education required by NAC 639.330 for the biennial registration period starting November 1, 2021, and ending on October 31, 2023.

3. Respondent failed to complete the thirty (30) hours of continuing education required by NAC 639.330 for the biennial registration period starting November 1, 2023, and ending on October 31, 2025.

4. Respondent attempted to submit the Nevada law continued education credit she claimed in the 2023-25 CE audit for credit.

APPLICABLE LAW

5. The Board shall not renew the certificate of any registered pharmacist until the applicant submits proof to the Board of receipt of 30 continuing education units within the biennium immediately preceding the current renewal period. NRS 639.2174; NAC 639.330(1).

6. Performing any duties as the holder of a registration in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(i) and is grounds for suspension or revocation of any registration issued by the Board. NRS 639.210(4).

7. The Board may suspend or revoke a registration if the holder has violated, attempted to violate, assisted or abetted in the violation of or conspired to violate any law or regulation relating to drugs, the manufacture or distribution of drugs or the practice of pharmacy. NRS 639.210(12).

COUNT ONE

Violation of State Law/Unprofessional Conduct

8. Respondent engaged in unprofessional conduct as defined in NAC 639.945(1)(i) and violated NRS 639.2174 and NAC 639.330(1) when she failed to complete the thirty (30) hours of continuing education required by NAC 639.330 for the biennial registration period, and is subject to discipline pursuant to NRS 639.210(4) and/or (12).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of this Respondent.

Signed this 21st day of JULY 2026.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3). The hearing shall be conducted pursuant to NRS 639.241 through NRS 639.258. To be entitled to a hearing, you must complete, and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Notice of Intended Action and Accusation. NRS 622A.320; NRS 639.243. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. Alternatively, you may file your Answer and Notice of Defense by mailing two (2) copies to Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521. Upon receipt of your Answer and Notice of Defense, a file stamped copy will be returned to you.

4. Pursuant to NRS 241.033 and 241.034, please be advised that the hearing is a public meeting, and the Board may, without further notice, take administrative action against you if the Board determines that such administrative action is warranted after considering your character, alleged misconduct, professional competence, or physical or mental health. The Board at its discretion may go into closed session to consider your character, alleged misconduct, professional competence, or physical or mental health. You may attend any closed session, have an attorney or other representative of your choosing present during any closed session, and present written evidence, provide testimony, and present witnesses relating to your character, alleged misconduct, professional competence, or physical or mental health during any closed session.

5. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. RESPONDENT'S ANSWER TO NOTICE OF INTENDED ACTION AND ACCUSATION

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY,
Petitioner,

v.

JAYZLE JOY BOYD JUSTICE, RPh,
Respondent.

Case No. 26-137-RPH-S

RESPONDENT'S ANSWER TO NOTICE OF INTENDED ACTION AND ACCUSATION

Respondent, **Jayzle Joy Boyd Justice, RPh**, respectfully submits this Answer to the Notice of Intended Action and Accusation and states as follows:

I. GENERAL RESPONSE

Respondent acknowledges the importance of complying with all continuing education requirements applicable to her Nevada pharmacist registration.

Respondent acknowledges that the Nevada Law continuing education requirement applicable to the **November 1, 2023, through October 31, 2025 biennial renewal period** was not completed within the required timeframe.

Respondent respectfully denies, however, that she intentionally engaged in deceptive conduct, falsified any continuing education documentation, or intentionally attempted to circumvent the continuing education requirements of the Nevada State Board of Pharmacy.

Respondent respectfully submits that the circumstances involve a limited continuing education timing and compliance deficiency concerning the required Nevada Law CE, rather than falsification or intentional dishonesty.

As confirmed by Darlene Nases, Board Coordinator and Custodian of Records, the Board's records reflect that Respondent completed the general continuing education requirements for the 2023–2025 biennial period and that the identified deficiency was the failure to complete a Nevada Law CE within the required timeframe.

II. RESPONSE TO FACTUAL ALLEGATIONS

Respondent admits the allegations concerning the jurisdiction of the Nevada State Board of Pharmacy and Respondent's status as a licensed or registered pharmacist, to the extent accurately stated.

Respondent admits that she was previously audited regarding the **November 1, 2021, through October 31, 2023 biennial renewal period**.

The Board determined that Respondent's September 12, 2021 Nevada Law CE did not fall within the applicable audit period and therefore could not be accepted for that biennium. Respondent was subsequently assessed a $500 fine.

Respondent subsequently completed a **2023 Nevada Law CE on April 29, 2024**, which the Board's records reflect satisfied the Nevada Law CE requirement for the prior biennial renewal period.

Respondent acknowledges that the present matter concerns the **November 1, 2023, through October 31, 2025 biennial renewal period.**

Respondent acknowledges that the April 29, 2024 Nevada Law CE was applied to satisfy the requirement associated with the prior biennial period and could not also be applied to satisfy the Nevada Law CE requirement for the 2023–2025 biennium. The Board's records expressly reflect that the April 29, 2024 course was already used to meet the prior renewal requirement.

Respondent respectfully submits, however, that the Board's own records confirm that Respondent **completed the general continuing education requirements** for the 2023–2025 biennial period. The deficiency identified by the Board was limited to the Nevada Law CE requirement.

Respondent admits that she submitted a Nevada Law continuing education certificate during the audit process.

Respondent denies that she submitted any certificate with the intent to deceive the Board or intentionally misrepresent her continuing education compliance.

The Nevada Law CE certificate submitted by Respondent was authentic. Respondent did not create, alter, fabricate, or falsify the certificate.

Respondent acknowledges that the April 29, 2024 Nevada Law CE had already been used to satisfy the prior biennial requirement and therefore could not also be applied to the subsequent 2023–2025 biennium.

Respondent accepts responsibility for failing to ensure that a separate Nevada Law CE was completed within the required timeframe for the subsequent biennium.

III. SUBSEQUENT COMPLETION OF NEVADA LAW CE

After the expiration of the October 31, 2025 deadline, Respondent completed a separate **2025 Nevada Law CE on February 6, 2026.**

The Board's records, as confirmed by Darlene Nases, Board Coordinator and Custodian of Records, reflect that the February 6, 2026 Nevada Law CE can be applied toward the current audit biennial renewal, although the Board considers Respondent noncompliant with the applicable deadline because the course was completed after October 31, 2025.

Respondent respectfully submits that this subsequent completion demonstrates corrective action and a continuing effort to satisfy the Nevada Law CE requirement.

Respondent does not contend that the February 6, 2026 completion occurred before the October 31, 2025 deadline. Rather, Respondent requests that the Board consider the subsequent completion as evidence of corrective action and mitigation in determining the appropriate disposition of this matter.

IV. RESPONSE TO COUNT ONE

Respondent acknowledges her responsibility to complete all required continuing education within the applicable biennial period.

Respondent respectfully denies that the circumstances establish intentional deception, falsification, or intentional misconduct.

The evidence establishes that:

1. Respondent completed the general CE requirements for the 2023–2025 biennium;
2. The deficiency identified by the Board was limited to the Nevada Law CE requirement within the applicable timeframe;
3. Respondent submitted an authentic Nevada Law CE certificate;
4. Respondent did not create, alter, fabricate, or falsify any CE documentation;
5. The April 29, 2024 Nevada Law CE was applied to the prior biennial requirement and could not also be used for the 2023–2025 biennium; and
6. Respondent subsequently completed a separate 2025 Nevada Law CE on February 6, 2026, which the Board's records recognize, although it was completed after the deadline for the biennium at issue.

Respondent respectfully submits that these facts should be considered in determining whether the alleged conduct warrants the discipline sought and, if so, the appropriate level of corrective action.

V. GOOD-FAITH CONDUCT AND MITIGATING CIRCUMSTANCES

Respondent respectfully asks the Board to consider the following mitigating circumstances:

1. **The CE deficiency was limited in scope.** The Board's records reflect that Respondent completed the general continuing education requirements for the 2023–2025 biennium.
2. **The identified deficiency concerned the timing of one Nevada Law CE requirement.** The Board determined that a qualifying Nevada Law CE was not completed within the required biennial timeframe.
3. **The certificate submitted was authentic.** Respondent did not fabricate, alter, or falsify continuing education documentation.
4. **Respondent subsequently completed the Nevada Law CE.** The Board's records show completion of a 2025 Nevada Law CE on February 6, 2026.
5. **Respondent accepts responsibility for the timing deficiency.** Respondent understands that each biennium requires compliance within the applicable period.
6. **Respondent has taken corrective steps.** Respondent has reviewed the continuing education requirements and intends to maintain a more structured system for tracking CE completion dates and biennial applicability.
7. **Respondent is willing to comply with additional corrective requirements.** Respondent is willing to complete any additional Board-approved education or other reasonable corrective measure deemed appropriate.

VI. CORRECTIVE ACTION

Respondent has taken or is taking the following corrective actions:

1. Completed a separate 2025 Nevada Law CE on February 6, 2026;
2. Reviewed the Nevada continuing education requirements applicable to each biennial renewal period;
3. Reviewed her CE records to ensure that courses are assigned to the appropriate biennium;
4. Established a process to track the completion date and expiration of each required CE activity;
5. Will retain CE certificates and supporting documentation for each applicable biennial period; and
6. Will verify compliance with all CE requirements before future renewal and audit deadlines.

VII. REQUEST FOR RELIEF

Respondent respectfully requests that the Board consider the complete factual record, including the Board's own confirmation that:

- Respondent completed the general CE requirements for the 2023–2025 biennium;
- the deficiency was limited to the Nevada Law CE requirement within the applicable timeframe; and
- Respondent subsequently completed a separate Nevada Law CE on February 6, 2026.

Respondent respectfully requests that the Board consider the limited nature of the deficiency, the authenticity of the documentation submitted, the absence of falsification or alteration, Respondent's subsequent completion of the required subject matter, and Respondent's corrective actions.

If the Board determines that discipline is appropriate, Respondent respectfully requests the **least restrictive corrective action appropriate under the circumstances.**

Respondent further respectfully requests that the Board consider a corrective or remedial resolution, rather than suspension or revocation of Respondent's pharmacist registration.

Respondent is willing to comply with reasonable corrective conditions, including additional Board-approved continuing education, if deemed appropriate.

Respectfully submitted,

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **JAYZLE JOY BOYD JUSTICE, RPH,** **Certificate of Registration No. 19506,** **Respondent.**	**CASE NO. 26-137-RPH-S** **STIPULATION AND ORDER**

David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy (Board), by and through General Counsel Brett Kandt, and Respondent Jayzle Joy Boyd Justice, RPh, Certificate of Registration No. 19506, **HEREBY STIPULATE AND AGREE THAT**:

1. On or about July 31, 2026, Respondent was served with the Notice of Intended Action and Accusation (Accusation) on file in this matter together with the Statement to Respondent and Notice of Hearing. R

2. On or about August 20, 2026, Respondent filed an Answer and Notice of Defense to the Accusation.

3. Respondent is fully aware of the right to seek the advice of counsel in this matter and obtained the advice of counsel prior to entering into this Stipulation.

4. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration, the right to appeal and any and all other rights which may be accorded pursuant to NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

5. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondent has failed to comply with

the provisions of this Stipulation, Respondent hereby knowingly and voluntarily waives the rights to a hearing, reconsideration, appeal and any and all other rights related to this action that may be accorded by NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

6. Respondent does not contest the allegations in the Accusation, but acknowledges that Board staff prosecuting this case could present such evidence at an administrative hearing to establish a factual basis for the violations alleged therein, *to wit*:

A. On or about June 10, 2024, in case no. 24-248-RPH-S Board staff issued a citation to Respondent and imposed a $500 fine for failing to complete the thirty (30) hours of continuing education required by NAC 639.330 for the biennial registration period starting November 1, 2021, and ending on October 31, 2023;

B. Respondent failed to complete the thirty (30) hours of continuing education required by NAC 639.330 for the biennial registration period starting November 1, 2023, and ending on October 31, 2025, and attempted to submit the Nevada law continued education credit she claimed in the 2023-25 CE audit for credit; and

C. Respondent engaged in unprofessional conduct as defined in NAC 639.945(1)(i) and violated NRS 639.2174 and NAC 639.330(1) when she failed to complete the thirty (30) hours of continuing education required by NAC 639.330 for the biennial registration period, and is subject to discipline pursuant to NRS 639.210(4) and/or (12).

7. Those violations are plead with particularity in the Accusation and grounds for action pursuant to NRS 639.210 and NRS 639.255.

8. On or about February 6, 2026, Respondent completed the Nevada law continuing education required for the 2023-25 biennial registration period.

9. To resolve this matter without incurring any further costs or the expense associated with a hearing, the Board and Respondent Jayzle Joy Boyd Justice, RPh, Certificate of Registration No. 19506, stipulate to the following penalties:

A. Pursuant to NRS 639.255(1)(f) and NAC 639.955(5), Respondent shall pay a fine of One Thousand Dollars ($1,000.00) for the violations, by personal, business, certified or cashier's check or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, due and payable by December 1, 2026; and

B. Pursuant to NRS 622.400, Respondent shall pay Five Hundred Dollars ($500.00) to partially reimburse the Board for recoverable attorney's fees and investigative costs, by personal, business, certified or cashier's check or money order made payable to the "Nevada State Board of Pharmacy" to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, due and payable by December 1, 2026.

10. Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may impose additional discipline upon Respondent not inconsistent with the provisions of NRS Chapter 639.

11. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on October 14, 2026. Respondent will appear in person or through counsel at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent or counsel are not present at the meeting.

12. The Board has discretion to accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 USC § 1396r–2 and 45 CFR Part 60, and shall be further reported pursuant to NAC 639.960.

13. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the

merits of this matter may be heard by the Board at a later date. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

14. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release one another from any and all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order.

Respondent has fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and has knowingly and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **ABOLFAZL HOSSEINPOUR, RPH, Certificate of Registration No. 13587,** **Respondent.**	**CASE NO. 26-139-RPH-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300 and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and this Respondent because at the time of the events alleged herein, Respondent Abolfazl Hosseinpour, RPh, Certificate of Registration No. 13587, was a pharmacist registered with the Board.

FACTUAL ALLEGATIONS

2. On or about May 22, 2024, in case no. 24-191-RPH-S Board staff issued a citation to Respondent and imposed a $500 fine for failing to complete the thirty (30) hours of continuing education required by NAC 639.330 for the biennial registration period starting November 1, 2021, and ending on October 31, 2023.

3. Respondent failed to complete the thirty (30) hours of continuing education required by NAC 639.330 for the biennial registration period starting November 1, 2023, and ending on October 31, 2025.

APPLICABLE LAW

4. The Board shall not renew the certificate of any registered pharmacist until the applicant submits proof to the Board of receipt of 30 continuing education units within the biennium immediately preceding the current renewal period. NRS 639.2174; NAC 639.330(1).

5. Performing any duties as the holder of a registration in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(i) and is grounds for suspension or revocation of any registration issued by the Board. NRS 639.210(4).

6. The Board may suspend or revoke a registration if the holder has violated, attempted to violate, assisted or abetted in the violation of or conspired to violate any law or regulation relating to drugs, the manufacture or distribution of drugs or the practice of pharmacy. NRS 639.210(12).

COUNT ONE

Violation of State Law/Unprofessional Conduct

7. Respondent engaged in unprofessional conduct as defined in NAC 639.945(1)(i) and violated NRS 639.2174 and NAC 639.330(1) when he failed to complete the thirty (30) hours of continuing education required by NAC 639.330 for the biennial registration period, and is subject to discipline pursuant to NRS 639.210(4) and/or (12).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of this Respondent.

Signed this 21st day of JULY 2026.

2. Since October 17, 2024, VPI, an out-of-state compounding pharmacy located at 7265 S. Revere Parkway, Suite 902, in Centennial, Colorado, has held a pharmacy license in Nevada issued by the Board.

3. Since April 6, 2020, Revive, an out-of-state compounding pharmacy located at 3831 Golf Drive #A, in Houston, Texas, has held a pharmacy license in Nevada issued by the Board.

4. Since February 8, 2024, Strive, an out-of-state compounding pharmacy located at 1275 E. Baseline Road #104, in Gilbert, Arizona, has held a pharmacy license in Nevada issued by the Board.

5. Since on or about March 2022, Magnus Medical Health and Wellness ("Magnus") was a clinic located 8540 S. Eastern Avenue, Suite 160, in Las Vegas, Nevada. On or about September 2024, Magnus was renamed Young4Life.

6. During the timeframe of its operation, Magnus and Young4Life employed at least eight practitioners who transmitted prescriptions for patients to Revive Rx, VPI, and Strive. Two of the practitioners, Paul Branch, MD ("Branch") and Juanita Golden-Allen, APRN ("Golden-Allen) were not licensed by the Board to prescribe dangerous drugs or controlled substances in Nevada.

7. A Board investigation found that Revive Rx dispensed a total of 700 prescriptions sent using Branch's prescribing credentials for controlled substances and dangerous drugs to Nevada patients of Magnus and Young4Life between December 2024 and February 2025. At that time, Branch was not registered by the Board to prescribe drugs in Nevada.

8. A Board investigation found that in May 2024, Revive Rx dispensed one hundred twenty-eight (128) controlled substance prescriptions submitted using Golden-Allen's credentials for ninety-nine (99) unique Nevada patients. At that time, Golden-Allen was not registered by the Board to prescribe controlled substances in Nevada.

9. A Board investigation found that, during the relevant timeframe, in total, Revive dispensed one thousand one hundred and four (1,104) controlled substance prescriptions from Magnus/Young4Life prescribers for five hundred and seventeen (517) unique patients to just sixteen (16) addresses in Las Vegas and Henderson. At least one of the addresses is Magnus/Young4Life's business address, and 15 addresses are residential addresses.

10. A Board investigation found that, during the relevant timeframe, forty-nine (49) controlled substance prescriptions for eight (8) different patients were sent to Magnus/Young4Life's business address and fifteen (15) controlled substance prescriptions for five (5) unique patients were sent to the same residential address. Strive's internal investigation confirmed that multiple prescriptions for unique Magnus/Young4Life patients were sent to the same address.

11. Furthermore, a Board investigation found that between February 2024 and November 2024, some electronic prescriptions Strive received were not compliant with Electronic Prescribing of Controlled Substances standards. Following discovery of the compliance issues, Strive confirmed the findings through an internal investigation and took action to implement stronger two-factor authentication procedures.

12. Because of these compliance issues, from February 2024 and November 2024, at least three prescribers for Magnus/Young4Life did not have two-factor authentication enabled and were not EPCS compliant.

13. A Board investigation found that between March 2025 and May 2025, VPI filled seven prescriptions for seven different Nevada patients from Branch. Branch did not hold a license issued by the Board to prescribe in Nevada.

14. Between March 2022 and March 2024, VPI filled one thousand eight hundred forty-six (1,845) controlled substance prescriptions for seven hundred fourteen (713) unique Nevada patients from Miller-Wilson. According to the PMP report, fifty-two (52) controlled substance prescriptions were listed as "compounded drug product" and did not indicate the active ingredient of the compounded controlled substance.

PRIOR DISCIPLINE

15. On December 3, 2025, the Board disciplined Respondent Revive Rx for dispensing non-FDA approved drugs. The Board placed Respondent Revive Rx on one-year probation beginning on December 3, 2025, and ordered it to pay a $5,000 fine and $4,000 in fees and costs. Additionally, the Board ordered every pharmacist and pharmaceutical technician who engaged in the practice of sterile compounding to complete training related to sterile compounding. The Board also ordered Revive Rx to undergo quarterly inspections by the Board, one inspection by the National Associations of Boards of Pharmacy, and to establish compounding policies and procedures in conformance with Nevada and federal law.

APPLICABLE LAW

16. Pursuant to NRS 639.100(1), it is unlawful for any person to possess, store, administer and/or dispense dangerous drugs without having secured the appropriate license and/or certificate of registration from the Board.

17. Only those individuals or practitioners permitted to do so pursuant to NRS 453.375 may possess, store, or administer controlled substances. Practitioners include physicians who hold a license to practice in their state and who are also registered by the Board to prescribe

controlled substances; advanced practice registered nurses who hold a certificate from the Board authorizing them to prescribe controlled substances; and physician assistants who hold a license from the Nevada State Board of Medical Examiners and are authorized by the Board to prescribe controlled substances under the supervision of physician. NRS 453.126.

18. Pursuant to NRS 639.235(1), no person other than a practitioner holding a license to practice his or her profession in Nevada may prescribe or write a prescription, except that a prescription written by a person who is not licensed to practice in Nevada, but is authorized by the laws of another state to prescribe. If a prescription for a Schedule III controlled substance that is prescribed by a person who is not licensed to practice in Nevada, but is authorized by the laws of another state to prescribe, the pharmacist who is to fulfill the prescription shall establish that the prescription is authentic and that a bona fide relationship between the patient and the person prescribing the controlled substance did exist when the prescription was written. NRS 639.235(2)(b). A pharmacist who fills a prescription from an out-of-state prescriber shall record on the prescription or in the prescription record the details of the conversation. NRS 639.235(3).

19. Pharmacies that use a computerized system concerning prescriptions and that dispense controlled substances must transmit to the Board specific information including, among other information, the actual drug name (product ID). NAC 639.926.

20. The Drug Enforcement Administration outlines the requirements for electronic orders and prescriptions through 21 CFR Part 1311 Subpart C. Among other things, the system must require practitioners to use two-factor authentication when electronically submitting a prescriptions. 21 CFR § 1311.115; § 1311.120; § 1311.145. The pharmacy is responsible for ensuring that the pharmacy application imports, store, and displays the indication or signing and verifies the practitioner's electronic signature. 21 CFR § 1311.200(a).

21. A pharmacist shall not fill a prescription if the pharmacist has reason to believe that it was not issued in the usual course of the professional practice of a physician, physician assistant, dentist, advanced practice registered nurse, certified registered nurse anesthetist, podiatric physician, pharmacist registered pursuant to NRS 639.28079 or veterinarian. NRS 453.381(4).

22. Performing any duties as the holder of a controlled substance registration in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(i) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

23. Any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in its employ. NAC 639.945(3).

24. The Board may suspend or revoke any registration if the holder or applicant: 1) has violated, attempted to violate, assisted, or abetted in the violation of or conspired to violate any of the provisions of NRS chapter 639 or any law or regulation relating to drugs; or 2) is guilty of unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4) and (12).

25. Violating any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(11).

COUNT ONE

Unprofessional Conduct – Filling Prescriptions from Unlicensed Prescribers (Respondents VPI and Revive Rx)

26. As alleged above, during the relevant timeframe, Branch and Golden-Allen were not licensed to prescribe controlled substances in Nevada.

27. Respondents VPI and Revive Rx should have known that Branch was not licensed in Nevada based upon his out-of-state DEA number and other information on the prescriptions.

28. Respondent Revive Rx should have known that Golden-Allen was not licensed in Nevada based on her out-of-state DEA number and other information on the prescriptions.

29. Pursuant to NRS 639.235(2), Respondents Revive Rx and VPI had a duty to investigate the validity of Branch and/or Golden-Allen's prescriptions and failed to do so.

30. Respondents Revive Rx and VPI had a duty to reject prescriptions for controlled substances that they had reason to know were not issued in the ordinary course by a licensed practitioner for a legitimate medical purpose. NRS 453.381(4).

31. By filling controlled substance prescriptions prescribed by a practitioner not licensed to prescribe in Nevada, Respondents VPI and Revive Rx performed their duties in a negligent manner and engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(i),and are subject to discipline pursuant to NRS 639.210(4).

COUNT TWO
Unprofessional Conduct – Negligently Processing Non-Compliant Prescriptions (Respondent Revive Rx)

32. As alleged above, Revive Rx filled 1,104 controlled substance prescriptions transmitted from prescribers at Magnus and/or Young4Life, located at 8540 S. Eastern Avenue, Suite 160, in Las Vegas, Nevada, that were delivered to just 16 different addresses.

33. The prescriptions were written by eight different prescribers, two of whom were not licensed to prescribe controlled substances in Nevada. The unlicensed prescribers included Branch and Golden-Allen, who held DEA licenses that were not associated with an address in Nevada.

34. The patients for whom the prescriptions were written did not reside at the residential addresses where the prescriptions were delivered.

35. Based upon the conflicting information in the prescriptions and the large number of prescriptions received from a single source, Revive Rx knew or should have known that the patients listed on the prescription did not reside at the 16 different addresses.

36. Considered in totality, the above prescriptions contained sufficient information to put Revive Rx on notice that they were invalid, issued in violation of NAC 639.757, and/or not issued in the ordinary course for a legitimate medical purpose.

37. Revive Rx had a duty to exercise reasonable care to ensure that the above prescriptions were issued in compliance with applicable state and federal laws and not outside the ordinary course. NRS 453.380(4).

38. Revive Rx performed that duty in a negligent manner, thus engaging in unprofessional conduct for which the Board may impose administrative discipline. *See* NRS 639.210(4); NAC 639.945(1)(i).

COUNT THREE
Unprofessional Conduct – Negligently Processing Non-Compliant Prescriptions (Respondent Strive)

39. As alleged above, Strive filled at least sixty-four (64) prescriptions transmitted from prescribers at Magnus and/or Young4Life, located at 8540 S. Eastern Avenue, Suite 160, in Las Vegas, Nevada, that were delivered to just two addresses.

40. The prescriptions were written by three different prescribers, one of whom was not licensed to prescribe controlled substances in Nevada. The unlicensed prescriber was Branch, who held a DEA license that were not associated with an address in Nevada.

41. Once filled, 49 prescriptions for 8 patients were shipped by Strive to Magnus/Young4Life's address in Las Vegas.

42. Once filled, 15 prescriptions for 5 patients were shipped by Strive to the same residential street address in Las Vegas.

43. The patients for whom the prescriptions were written did not reside at the addresses.

44. Based upon the conflicting information in the prescriptions and the large number of prescriptions received from a single source, as well as corroboration by an internal investigation, Strive knew or should have known that the patients listed on the prescription did not reside at the addresses.

45. Considered in totality, the above prescriptions contained sufficient information to put Strive on notice that they were invalid, issued in violation of NAC 639.757, and/or not issued in the ordinary course for a legitimate medical purpose.

46. Strive had a duty to exercise reasonable care to ensure that the above prescriptions were issued in compliance with applicable state and federal laws and not outside the ordinary course. NRS 453.380(4).

47. Strive performed that duty in a negligent manner, thus engaging in unprofessional conduct for which the Board may impose administrative discipline. *See* NRS 639.210(4); NAC 639.945(1)(i).

COUNT FOUR
Violation of Federal Regulation Relating to Prescription Drugs/Non-compliance with ECPS
(Respondent Strive)

48. As alleged above, Strive did not have two-factor authentication in place for prescriber registrations and filled prescriptions that did not meet EPCS standards.

49. In filling prescriptions that did not comply with and were not submitted according to EPCS standards, Strive violated federal law. *See* 21 CFR § 1311.115; § 1311.120; § 1311.145; and 21 CFR § 1311.200(a).

50. By violating federal law, Strive is subject to discipline pursuant to NRS 639.210(11).

COUNT FIVE
Violation of State Law – Failing to Correctly Report Dispensations to the Prescription Monitoring Program
(Respondent VPI)

51. As alleged above, at least fifty-two (52) controlled substance prescriptions VPI reported to the Board's Prescription Monitoring Program (PMP) were listed as "compounded drug product" and did not indicate the active ingredient of the compounded controlled substance, in violation of NAC 639.926(e) and (g).

52. By violating NAC 639.926(e) and (g), VPI is subject to discipline pursuant to NRS 639.210(12).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of each of the Respondents herein.

26. As alleged above, during the relevant timeframe, Branch and Golden-Allen were not licensed to prescribe controlled substances in Nevada.

27. Respondents VPI and Revive Rx should have known that Branch was not licensed in Nevada based upon his out-of-state DEA number and other information on the prescriptions.

28. Respondent Revive Rx should have known that Golden-Allen was not licensed in Nevada based on her out-of-state DEA number and other information on the prescriptions.

29. Pursuant to NRS 639.235(2), Respondents Revive Rx and VPI had a duty to investigate the validity of Branch and/or Golden-Allen's prescriptions and failed to do so.

30. Respondents Revive Rx and VPI had a duty to reject prescriptions for controlled substances that they had reason to know were not issued in the ordinary course by a licensed practitioner for a legitimate medical purpose. NRS 453.381(4).

31. By filling controlled substance prescriptions prescribed by a practitioner not licensed to prescribe in Nevada, Respondents VPI and Revive Rx performed their duties in a negligent manner and engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(i),and are subject to discipline pursuant to NRS 639.210(4).

COUNT TWO
Unprofessional Conduct – Negligently Processing Non-Compliant Prescriptions (Respondent Revive Rx)

32. As alleged above, Revive Rx filled 1,104 controlled substance prescriptions transmitted from prescribers at Magnus and/or Young4Life, located at 8540 S. Eastern Avenue, Suite 160, in Las Vegas, Nevada, that were delivered to just 16 different addresses.

33. The prescriptions were written by eight different prescribers, two of whom were not licensed to prescribe controlled substances in Nevada. The unlicensed prescribers included Branch and Golden-Allen, who held DEA licenses that were not associated with an address in Nevada.

34. The patients for whom the prescriptions were written did not reside at the residential addresses where the prescriptions were delivered.

35. Based upon the conflicting information in the prescriptions and the large number of prescriptions received from a single source, Revive Rx knew or should have known that the patients listed on the prescription did not reside at the 16 different addresses.

36. Considered in totality, the above prescriptions contained sufficient information to put Revive Rx on notice that they were invalid, issued in violation of NAC 639.757, and/or not issued in the ordinary course for a legitimate medical purpose.

37. Revive Rx had a duty to exercise reasonable care to ensure that the above prescriptions were issued in compliance with applicable state and federal laws and not outside the ordinary course. NRS 453.380(4).

38. Revive Rx performed that duty in a negligent manner, thus engaging in unprofessional conduct for which the Board may impose administrative discipline. *See* NRS 639.210(4); NAC 639.945(1)(i).

COUNT THREE

Unprofessional Conduct – Negligently Processing Non-Compliant Prescriptions (Respondent Strive)

39. As alleged above, Strive filled at least sixty-four (64) prescriptions transmitted from prescribers at Magnus and/or Young4Life, located at 8540 S. Eastern Avenue, Suite I60, in Las Vegas, Nevada, that were delivered to just two addresses.

40. The prescriptions were written by three different prescribers, one of whom was not licensed to prescribe controlled substances in Nevada. The unlicensed prescriber was Branch, who held a DEA license that were not associated with an address in Nevada.

41. Once filled, 49 prescriptions for 8 patients were shipped by Strive to Magnus/Young4Life's address in Las Vegas.

42. Once filled, 15 prescriptions for 5 patients were shipped by Strive to the same residential street address in Las Vegas.

43. The patients for whom the prescriptions were written did not reside at the addresses.

44. Based upon the conflicting information in the prescriptions and the large number of prescriptions received from a single source, as well as corroboration by an internal investigation, Strive knew or should have known that the patients listed on the prescription did not reside at the addresses.

45. Considered in totality, the above prescriptions contained sufficient information to put Strive on notice that they were invalid, issued in violation of NAC 639.757, and/or not issued in the ordinary course for a legitimate medical purpose.

46. Strive had a duty to exercise reasonable care to ensure that the above prescriptions were issued in compliance with applicable state and federal laws and not outside the ordinary course. NRS 453.380(4).

47. Strive performed that duty in a negligent manner, thus engaging in unprofessional conduct for which the Board may impose administrative discipline. *See* NRS 639.210(4); NAC 639.945(1)(i).

COUNT FOUR
Violation of Federal Regulation Relating to Prescription Drugs/Non-compliance with ECPS
(Respondent Strive)

48. As alleged above, Strive did not have two-factor authentication in place for prescriber registrations and filled prescriptions that did not meet EPCS standards.

49. In filling prescriptions that did not comply with and were not submitted according to EPCS standards, Strive violated federal law. *See* 21 CFR § 1311.115; § 1311.120; § 1311.145; and 21 CFR § 1311.200(a).

50. By violating federal law, Strive is subject to discipline pursuant to NRS 639.210(11).

COUNT FIVE
Violation of State Law – Failing to Correctly Report Dispensations to the Prescription Monitoring Program
(Respondent VPI)

51. As alleged above, at least fifty-two (52) controlled substance prescriptions VPI reported to the Board's Prescription Monitoring Program (PMP) were listed as "compounded drug product" and did not indicate the active ingredient of the compounded controlled substance, in violation of NAC 639.926(e) and (g).

52. By violating NAC 639.926(e) and (g), VPI is subject to discipline pursuant to NRS 639.210(12).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of each of the Respondents herein.

DATED this 24th day of August 2026.

NOTICE OF INTENDED ACTION AND ACCUSATION

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter and these respondents because, at the time of the events alleged herein, Justin Spangler, PA ("Spangler") held a registration issued by the Board, Certificate of Registration No. CS28770; Mikayla Strief, APRN ("Strief") held a registration issued by the Board, Certificate of Registration No. CS37751; Daniel Inglish, DO ("Inglish") held a registration issued by the

Board, Certificate of Registration No. CS22888; Mary Miller-Wilson, APRN ("Miller-Wilson") held a registration issued by the Board, Certificate of Registration No. CS33703; Mark Bernardi, MD ("Bernardi") held a registration issued by the Board, Certificate of Registration No. CS29595; and Tiana Hubbard, APRN ("Hubbard") held a registration issued by the Board, Certificate of Registration No. CS25791.

FACTUAL ALLEGATIONS

2. Respondent Spangler is licensed by the Nevada State Board of Medical Examiners as a physician assistant. At the time of the violations alleged herein, Spangler was a "practitioner" as that term is defined at NRS 453.126(5) and 639.0125(4).

3. Respondents Strief, Miller-Wilson, and Hubbard are licensed by the Nevada State Board of Nursing as advanced practice registered nurses. At the time of the violations alleged herein, Strief, Miller-Wilson, and Hubbard were "practitioners" as that term is defined at NRS 453.126(2) and 639.0125(3).

4. Respondent Inglish is licensed by the Nevada State Board of Osteopathic Medicine as an osteopathic physician. At the time of the violations alleged herein, Inglish was a "practitioner" as that term is defined at NRS 453.126(1) and 639.0125(1).

5. Respondent Bernardi is licensed by the Nevada State Board of Medical Examiners as a physician. At the time of the violations alleged herein, Bernardi was a "practitioner" as that term is defined at NRS 453.126(1) and 639.0125(1).

6. On or about March 2022, David Lindberg ("Lindberg") began operating the wellness clinic D.C.L., LLC, dba Magnus Medical Health and Wellness ("Magnus"), located at 8540 S. Eastern Avenue, Suite 160, in Las Vegas, Nevada. Lindberg is not a licensed practitioner as that term is defined at NRS 453.126(1) and 639.0125(1) and not licensed by the Board or the

Federal Drug Enforcement Administration ("DEA") to possess, administer, prescribe or dispense dangerous drugs or controlled substances.

7. During the relevant timeframe, Respondents Spangler, Strief, Miller-Wilson, Inglish, and Hubbard worked as practitioners at Magnus.

8. On or about September 2024, Lindberg sold Magnus to new owners Donald Min ("Min") and Young Kim ("Kim"), who renamed the business Young4Life. Neither Min nor Kim are licensed practitioners as that term is defined at NRS 453.126(1) and 639.0125(1) or licensed by the Board or DEA to possess, administer, prescribe or dispense dangerous drugs or controlled substances.

9. Min and Kim formed Young4Life in late 2024 and assumed Magnus's established customers and business model. Young4Life retained Lindberg as a marketing consultant.

10. During the relevant timeframe, Respondents Spangler and Bernardi worked as practitioners at Young4Life.

11. A Board investigation found that, as owner of Magnus, between September 2022 and September 2024, Lindberg regularly used several Magnus employees' prescribing credentials to issue prescriptions and access prescribing systems. From September 2024 through at least May 2025, as marketing consultant, Lindberg continued using Young4Life employee's prescribing credentials to issue prescriptions and access prescribing systems.

12. Specifically, during the relevant timeframe, each Respondent permitted Lindberg to access prescribing systems and issue the following controlled substance prescriptions using their electronic prescribing credentials:

A. According to Board records, between May 2024 and November 2024, while employed by Magnus and Young4Life, Spangler authorized 548 controlled

substance prescriptions for 397 unique patients. Furthermore, according to the Board's records, Spangler did not access the PMP database to review his own prescribing activity ("MyRx report") from September 2019 to July 18, 2025. Spangler has only run one patient PMP query, in October 2019.

B. Between May 2024 and November 2024, while employed by Magnus, Strief authorized 170 controlled substance prescriptions for Nevada patients. Strief checked her MyRx report only one time, in December 2024. Strief also did not run any patient PMP queries prior to December 2024.

C. Per company policy, Strief delegated the entire prescribing process to Magnus. As such, Strief sent her prescribing token to Magnus and did not personally authorize any prescriptions for armodafinil, chorionic gonad or ketamine that appeared on her prescribing report from April to November 2024.

D. Between May 2024 and May 2025, while employed by Magnus, Inglish prescribed 63 controlled substances for Nevada patients. Inglish checked his MyRx report two times, in April 2025 and August 2025. He did not check it prior to that date. Inglish has not run any patient PMP queries since June 2022.

E. Between March 2022 and March 2024, while employed by Magnus, Miller-Wilson prescribed 1,846 controlled substances for 714 unique Nevada patients. Miller-Wilson checked her MyRx report once in October 2023. She has been compliant in checking her MyRx report since October 2024.

F. Per company policy, Miller-Wilson delegated the entire prescribing process to Magnus.

G. Between February 2025 and June 25, 2025, while employed by Young4Life, Bernardi prescribed 327 controlled substances for 203 unique Nevada patients. Bernardi has not checked his MyRx report from June 2022 and July 2025. Bernardi did not run any patient PMP queries prior to August 4, 2025.

H. Per company policy at Young4Life, Spangler or another physician's assistant would evaluate patients, generally via telehealth. Bernardi would then sign off on patient charts and prescriptions that were sent via his electronic credentials. Bernardi delegated the issuing of electronic prescriptions to someone else at Young4Life.

I. Between February 2023 and March 2024, while employed by Magnus, Hubbard prescribed 381 controlled substances for 202 unique Nevada patients. Hubbard checked her MyRx report only one time, in October 2024. She has not run any patient PMP queries between April 2019 and May 2025.

13. Between June 30, 2025 through August 20, 2025, Board Investigator Dena McClish (McClish) attempted to communicate with Bernardi to discuss his patient records and employment at Young4Life. Although Bernardi indicated that he would cooperate with McClish's investigation, he ultimately failed to respond to her requests for information.

14. On or about July 1, 2025, McClish attempted to contact Hubbard through certified and regular U.S. Mail and e-mail about her patient records and employment with Magnus. Hubbard failed to respond to her requests for information.

PRIOR DISCIPLINE

15. On December 3, 2025, the Board disciplined Respondent Inglish for allowing unlicensed individuals independent access to dangerous drugs; allowing unlicensed individuals to access, possess, furnish, and administer dangerous drugs; permitting the administration of patient-specific prescription medications to multiple patients; intermingling of adulterated and expired drugs; falsifying prescriptions; and aiding and abetting unlicensed practice. The Board placed Respondent Inglish on one-year probation beginning on December 3, 2025, and ordered him to pay a $5,000 fine and $1,000 in fees and costs.

APPLICABLE LAW

16. Pursuant to NRS 639.100(1), it is unlawful for any person to manufacture, engage in wholesale distribution, compound, sell or dispense, or permit to be manufactured, distributed at wholesale, compounded, sold or dispensed, any drug, poison, medicine or chemical, or to dispense or compound, or permit to be dispensed or compounded drugs without having secured the appropriate license and/or certificate of registration from the Board.

17. Falsifying a prescription for a controlled substance is a felony offense. 21 U.S.C. § 841(a); 21 U.S.C. § 842(a); NRS 453.331(1).

18. A prescription for a controlled substance may be issued only for a legitimate medical purpose and in the usual course of his or her professional practice by an individual practitioner who holds a DEA registration and is authorized to prescribe controlled substances by the jurisdiction in which he is licensed to practice his profession, to a patient with whom the practitioner has established a bona fide therapeutic relationship. 21 U.S.C. § 822(a)(2); 21 U.S.C. § 823(f); 21 CFR § 1306.03(a); 21 CFR § 1306.04(a); NRS 453.381(1); NRS 639.235(1); NRS 639.23911(1)(a); NRS 639.2813(1).

19. A practitioner must retain sole possession of the hard token, where applicable, and must not share the password or other knowledge factor, or biometric information, with any other person. The practitioner must not allow any other person to use the token or enter the knowledge factor or other identification means to sign prescriptions for controlled substances. 21 CFR § 1311.102 and NAC 639.7105(2)(b).

20. The Controlled Substances Act imposes strict liability on registrants to provide effective controls and procedures to guard against theft and diversion, which includes the duty to safeguard prescribing credentials from unauthorized use. *See* 21 CFR 1301.71(a). 21 U.S.C. § 843(a)(2) criminalizes the use of another person's DEA registration number

21. A practitioner shall, before issuing an initial prescription for a controlled substance, and at least once every 90 days thereafter for the duration of the course of treatment using the controlled substance, obtain a patient utilization report regarding the patient from the PMP. NRS 639.23507.

22. A practitioner registered with the Board to write prescriptions for controlled substances must access his or her prescriber activity in the PMP at least once every 6 months to review prescriptions issued by the practitioner and to verify for the Board that he or she continues to have access to the PMP. NRS 453.164(7).

23. Any licensee registered with the Board must provide access to all records of sale and disposition of drugs, medicines or poisons or devices or appliances that are restricted by federal law to sale by or on the order of a physician, to members of the Board, its inspectors, and investigators. NRS 639.090. *See also* NRS 639.239 (duty to provide prescription records); NRS 453.246 (records related to controlled substances).

24. Every practitioner who engages in the practicing of furnishing dangerous drugs to patients shall maintain a complete and accurate record of all dangerous drugs purchased and those sold on prescription, dispensed, furnished or disposed of otherwise. NRS 454.286(1). The records must be retained for a period of 2 years and must be open to inspection by members, inspectors or investigators of the Board. NRS 454.286(2). *See also* 21 U.S.C. § 827 (recordkeeping requirements by registrants); 21 CFR § 1304.06 and 21 CFR § 1311.305 (regarding electronic prescription records).

25. Performing or in any way being a party to any fraudulent or deceitful practice or transaction constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(h) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 453.236(1)(e) and NRS 639.210(4).

26. Prescribing a drug to any patient with whom the prescribing practitioner does not have a bona fide therapeutic relationship constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(n)(2) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4). A bona fide relationship shall be deemed to exist if the patient was examined in person, electronically, telephonically or by fiber optics within or outside of this State or the United States by the practitioner within the 6 months immediately preceding the date the prescription was issued. NAC 639.752.

27. Performing any duties as the holder of a controlled substance registration in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(i) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

28. Aiding or abetting a person in unlicensed practice constitutes unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(j) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

29. Violating any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(11).

30. Violating, attempting to violate, assisting or abetting in the violation of or conspiring to violate any law or regulation relating to drugs is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(12).

31. The Board may suspend or revoke a registration issued pursuant to NRS 453.231 upon a finding that the registrant has committed an act that renders registration inconsistent with the public interest. NRS 453.236(1)(e) and NRS 453.241(1).

COUNT ONE

Unprofessional Conduct -Party to Fraudulent or Deceitful Practice or Transaction by Permitting Use of Credentials
(All Respondents)

32. As alleged above, by permitting Lindberg to use their credentials and act under their authority to fraudulently issue prescriptions for controlled substances, each Respondent was party to a fraudulent or deceitful practice or transaction and engaged in unprofessional conduct and conduct contrary to the public interest as defined in NAC 639.945(1)(h), and is subject to discipline pursuant to NRS 453.236(l)(e), NRS 453.241(1) and/or NRS 639.210(4).

\\\

\\\

COUNT TWO

Unprofessional Conduct -Incompetent, Unskillful or Negligent Performance of Duties by Allowing Prescribing Credentials to be Compromised
(All Respondents)

33. As alleged above, to the extent each Respondent's electronic prescribing credentials were compromised and resulted in the unlawful issuance of fraudulent controlled substance prescriptions by a third party, Respondents failed to comply with 21 CFR § 1311.102, NRS 453.164(7) and NAC 639.7105(2)(b), performed their duties as the holder of a Nevada controlled substance registration in an incompetent, unskillful or negligent manner, and engaged in unprofessional conduct as defined in NAC 639.945(1)(i), committed acts that render their registration inconsistent with the public interest, and is subject to discipline pursuant to NRS 453.236(1), NRS 453.241(1) and/or NRS 639.210(4), (11) and (12).

COUNT THREE

Violations of Federal Controlled Substances Act – Unlawfully Issuing Electronic Prescriptions for Controlled Substances
(All Respondents)

34. As alleged above, by permitting Lindberg to use their credentials and act under their authority to issue electronic prescriptions for controlled substances, each Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate 21 CFR 1301.71(a). 21 U.S.C. § 843(a)(2),21 U.S.C. § 822(a)(2), 21 U.S.C. § 823(f), 21 U.S.C. § 846, 21 CFR § 1306.03(a), 21 CFR § 1306.04(a), 21 CFR § 1311.100 and/or 21 CFR § 1311.102 and is subject to discipline pursuant to NRS 453.236(1)(d) and (e), NRS 453.241(1) and/or NRS 639.210(11).

\\\

\\\

\\\

COUNT FOUR

Unprofessional Conduct – Assisting or abetting unlicensed practice
(All Respondents)

35. As alleged above, Lindberg did not have licensure from the Board as required by NRS 639.100(1) when he used each Respondent's credential and acted under their authority to issue electronic prescriptions for controlled substances.

36. By assisting and abetting Lindberg's unlicensed activity, each Respondent engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(j), and is subject to discipline pursuant to NRS 639.210(4).

COUNT FIVE

Violations of State Law – Unlawfully Issuing Electronic Prescriptions for Controlled Substances
(All Respondents)

37. As alleged above, by permitting Lindberg to use their credentials and act under their authority to issue electronic prescriptions for controlled substances, each Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 453.381(1), NRS 453.385, NRS 453.401(l)(a), NRS 639.235(1), NRS 639.23535, NRS 639.23911(1)(a), NRS 639.2813(1) and/or NAC 639.7105, and is subject to discipline pursuant to NRS 453.236(1)(d) and (e), NRS 453.241(1), NRS 639.210(12) and/or NRS 639.23916(3)(b).

COUNT SIX

Unprofessional Conduct by a Practitioner – Failure to Query PMP Database
(All Respondents)

38. As alleged above, each Respondent failed to query the PMP database regarding his or her patients' histories of using controlled substances as required by law. NRS 639.23507.

39. As alleged above, each Respondent failed to query the PMP database regarding his or her own prescriber activity as required by law. NRS 453.164(7).

40. By failing to query the PMP database to review their patients' utilization reports prior to issuing a prescription for a controlled substance, and by failing to review their own prescriber activity on a semi-annual basis, Respondents violated NRS 453.164(7) and NRS 639.23507.

41. Furthermore, by failing to query the PMP database to review their patients' utilization report prior to issuing a prescription for a controlled substance, and by failing to review their own prescriber activity on a semi-annual basis, each Respondent performed his or her duties as the holder of a certificate issued by the Board in an incompetent, unskillful or negligent manner.

42. As alleged above, each Respondent's conduct constitutes unprofessional conduct for which the Board may impose administrative discipline. NRS 639.210(4); NAC 639.945(1)(i).

COUNT SEVEN
Unprofessional Conduct – Prescribing Without Bona Fide Therapeutic Relationship
(Respondent Bernardi)

43. As alleged above, during the course of Bernardi's employment with Young4Life, a physician's assistant evaluated patients either in-person or via telehealth, and Bernardi reviewed and signed off on patient charts and prescriptions sent under his name.

44. By failing to personally evaluate patients for whom he prescribed controlled substances, Bernardi did not form a bona fide therapeutic relationship as defined in NAC 639.752(4).

45. By permitting the use of his credentials to issue electronic prescriptions for controlled substances to patients with whom he did not have a bona fide therapeutic relationship, Respondent Bernardi engaged in unprofessional conduct and conduct contrary to the public

interest as defined in NAC 639.945(1)(n)(2), and is subject to discipline pursuant to NRS 453.236(1)(e), NRS 453.241(1) and/or NRS 639.210(4).

COUNT EIGHT
Violations of Federal and State Law – Recordkeeping
(Respondents Bernardi and Hubbard)

46. As alleged above, by failing to respond to a Board investigator's requests for information and records related to an investigation into their prescribing activities, Respondents violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 639.090, NRS 454.286(2), NRS 453.246, NRS 639.239, 21 U.S.C. § 827, 21 CFR § 1311.120(28), 21 CFR § 1304.06, 21 CFR § 1311.305, and 21 CFR § 1311.305, and are subject to discipline pursuant to NRS 453.236(1)(e), NRS 453.241(1) and/or NRS 639.210(11) and/or (12).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of each of the Respondents herein.

DATED this 2nd day of AUGUST 2026.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3). The hearing shall be conducted pursuant to NRS 639.241 through NRS 639.258. To be entitled to a hearing, you must complete, and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Notice of Intended Action and Accusation. NRS 622A.320; NRS 639.243. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350. A regulatory body may recover from a person reasonable attorney's fees and costs that are incurred by the regulatory body as a part of its investigative, administrative, and disciplinary proceedings against the person if the regulatory body finds that the person has violated any provision of this title. J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter and these respondents because, at the time of the events alleged herein, Justin Spangler, PA ("Spangler") held a registration issued by the Board, Certificate of Registration No. CS28770; Mikayla Strief, APRN ("Strief") held a registration issued by the Board, Certificate of Registration No. CS37751; Daniel Inglish, DO ("Inglish") held a registration issued by the

Board, Certificate of Registration No. CS22888; Mary Miller-Wilson, APRN ("Miller-Wilson") held a registration issued by the Board, Certificate of Registration No. CS33703; Mark Bernardi, MD ("Bernardi") held a registration issued by the Board, Certificate of Registration No. CS29595; and Tiana Hubbard, APRN ("Hubbard") held a registration issued by the Board, Certificate of Registration No. CS25791.

FACTUAL ALLEGATIONS

2. Respondent Spangler is licensed by the Nevada State Board of Medical Examiners as a physician assistant. At the time of the violations alleged herein, Spangler was a "practitioner" as that term is defined at NRS 453.126(5) and 639.0125(4).

3. Respondents Strief, Miller-Wilson, and Hubbard are licensed by the Nevada State Board of Nursing as advanced practice registered nurses. At the time of the violations alleged herein, Strief, Miller-Wilson, and Hubbard were "practitioners" as that term is defined at NRS 453.126(2) and 639.0125(3).

4. Respondent Inglish is licensed by the Nevada State Board of Osteopathic Medicine as an osteopathic physician. At the time of the violations alleged herein, Inglish was a "practitioner" as that term is defined at NRS 453.126(1) and 639.0125(1).

5. Respondent Bernardi is licensed by the Nevada State Board of Medical Examiners as a physician. At the time of the violations alleged herein, Bernardi was a "practitioner" as that term is defined at NRS 453.126(1) and 639.0125(1).

6. On or about March 2022, David Lindberg ("Lindberg") began operating the wellness clinic D.C.L., LLC, dba Magnus Medical Health and Wellness ("Magnus"), located at 8540 S. Eastern Avenue, Suite 160, in Las Vegas, Nevada. Lindberg is not a licensed practitioner as that term is defined at NRS 453.126(1) and 639.0125(1) and not licensed by the Board or the

Federal Drug Enforcement Administration ("DEA") to possess, administer, prescribe or dispense dangerous drugs or controlled substances.

7. During the relevant timeframe, Respondents Spangler, Strief, Miller-Wilson, Inglish, and Hubbard worked as practitioners at Magnus.

8. On or about September 2024, Lindberg sold Magnus to new owners Donald Min ("Min") and Young Kim ("Kim"), who renamed the business Young4Life. Neither Min nor Kim are licensed practitioners as that term is defined at NRS 453.126(1) and 639.0125(1) or licensed by the Board or DEA to possess, administer, prescribe or dispense dangerous drugs or controlled substances.

9. Min and Kim formed Young4Life in late 2024 and assumed Magnus's established customers and business model. Young4Life retained Lindberg as a marketing consultant.

10. During the relevant timeframe, Respondents Spangler and Bernardi worked as practitioners at Young4Life.

11. A Board investigation found that, as owner of Magnus, between September 2022 and September 2024, Lindberg regularly used several Magnus employees' prescribing credentials to issue prescriptions and access prescribing systems. From September 2024 through at least May 2025, as marketing consultant, Lindberg continued using Young4Life employee's prescribing credentials to issue prescriptions and access prescribing systems.

12. Specifically, during the relevant timeframe, each Respondent permitted Lindberg to access prescribing systems and issue the following controlled substance prescriptions using their electronic prescribing credentials:

A. According to Board records, between May 2024 and November 2024, while employed by Magnus and Young4Life, Spangler authorized 548 controlled

substance prescriptions for 397 unique patients. Furthermore, according to the Board's records, Spangler did not access the PMP database to review his own prescribing activity ("MyRx report") from September 2019 to July 18, 2025. Spangler has only run one patient PMP query, in October 2019.

B. Between May 2024 and November 2024, while employed by Magnus, Strief authorized 170 controlled substance prescriptions for Nevada patients. Strief checked her MyRx report only one time, in December 2024. Strief also did not run any patient PMP queries prior to December 2024.

C. Per company policy, Strief delegated the entire prescribing process to Magnus. As such, Strief sent her prescribing token to Magnus and did not personally authorize any prescriptions for armodafinil, chorionic gonad or ketamine that appeared on her prescribing report from April to November 2024.

D. Between May 2024 and May 2025, while employed by Magnus, Inglish prescribed 63 controlled substances for Nevada patients. Inglish checked his MyRx report two times, in April 2025 and August 2025. He did not check it prior to that date. Inglish has not run any patient PMP queries since June 2022.

E. Between March 2022 and March 2024, while employed by Magnus, Miller-Wilson prescribed 1,846 controlled substances for 714 unique Nevada patients. Miller-Wilson checked her MyRx report once in October 2023. She has been compliant in checking her MyRx report since October 2024.

F. Per company policy, Miller-Wilson delegated the entire prescribing process to Magnus.

G. Between February 2025 and June 25, 2025, while employed by Young4Life, Bernardi prescribed 327 controlled substances for 203 unique Nevada patients. Bernardi has not checked his MyRx report from June 2022 and July 2025. Bernardi did not run any patient PMP queries prior to August 4, 2025.

H. Per company policy at Young4Life, Spangler or another physician's assistant would evaluate patients, generally via telehealth. Bernardi would then sign off on patient charts and prescriptions that were sent via his electronic credentials. Bernardi delegated the issuing of electronic prescriptions to someone else at Young4Life.

I. Between February 2023 and March 2024, while employed by Magnus, Hubbard prescribed 381 controlled substances for 202 unique Nevada patients. Hubbard checked her MyRx report only one time, in October 2024. She has not run any patient PMP queries between April 2019 and May 2025.

13. Between June 30, 2025 through August 20, 2025, Board Investigator Dena McClish (McClish) attempted to communicate with Bernardi to discuss his patient records and employment at Young4Life. Although Bernardi indicated that he would cooperate with McClish's investigation, he ultimately failed to respond to her requests for information.

14. On or about July 1, 2025, McClish attempted to contact Hubbard through certified and regular U.S. Mail and e-mail about her patient records and employment with Magnus. Hubbard failed to respond to her requests for information.

PRIOR DISCIPLINE

15. On December 3, 2025, the Board disciplined Respondent Inglish for allowing unlicensed individuals independent access to dangerous drugs; allowing unlicensed individuals to access, possess, furnish, and administer dangerous drugs; permitting the administration of patient-specific prescription medications to multiple patients; intermingling of adulterated and expired drugs; falsifying prescriptions; and aiding and abetting unlicensed practice. The Board placed Respondent Inglish on one-year probation beginning on December 3, 2025, and ordered him to pay a $5,000 fine and $1,000 in fees and costs.

APPLICABLE LAW

16. Pursuant to NRS 639.100(1), it is unlawful for any person to manufacture, engage in wholesale distribution, compound, sell or dispense, or permit to be manufactured, distributed at wholesale, compounded, sold or dispensed, any drug, poison, medicine or chemical, or to dispense or compound, or permit to be dispensed or compounded drugs without having secured the appropriate license and/or certificate of registration from the Board.

17. Falsifying a prescription for a controlled substance is a felony offense. 21 U.S.C. § 841(a); 21 U.S.C. § 842(a); NRS 453.331(1).

18. A prescription for a controlled substance may be issued only for a legitimate medical purpose and in the usual course of his or her professional practice by an individual practitioner who holds a DEA registration and is authorized to prescribe controlled substances by the jurisdiction in which he is licensed to practice his profession, to a patient with whom the practitioner has established a bona fide therapeutic relationship. 21 U.S.C. § 822(a)(2); 21 U.S.C. § 823(f); 21 CFR § 1306.03(a); 21 CFR § 1306.04(a); NRS 453.381(1); NRS 639.235(1); NRS 639.23911(1)(a); NRS 639.2813(1).

19. A practitioner must retain sole possession of the hard token, where applicable, and must not share the password or other knowledge factor, or biometric information, with any other person. The practitioner must not allow any other person to use the token or enter the knowledge factor or other identification means to sign prescriptions for controlled substances. 21 CFR § 1311.102 and NAC 639.7105(2)(b).

20. The Controlled Substances Act imposes strict liability on registrants to provide effective controls and procedures to guard against theft and diversion, which includes the duty to safeguard prescribing credentials from unauthorized use. *See* 21 CFR 1301.71(a). 21 U.S.C. § 843(a)(2) criminalizes the use of another person's DEA registration number

21. A practitioner shall, before issuing an initial prescription for a controlled substance, and at least once every 90 days thereafter for the duration of the course of treatment using the controlled substance, obtain a patient utilization report regarding the patient from the PMP. NRS 639.23507.

22. A practitioner registered with the Board to write prescriptions for controlled substances must access his or her prescriber activity in the PMP at least once every 6 months to review prescriptions issued by the practitioner and to verify for the Board that he or she continues to have access to the PMP. NRS 453.164(7).

23. Any licensee registered with the Board must provide access to all records of sale and disposition of drugs, medicines or poisons or devices or appliances that are restricted by federal law to sale by or on the order of a physician, to members of the Board, its inspectors, and investigators. NRS 639.090. *See also* NRS 639.239 (duty to provide prescription records); NRS 453.246 (records related to controlled substances).

24. Every practitioner who engages in the practicing of furnishing dangerous drugs to patients shall maintain a complete and accurate record of all dangerous drugs purchased and those sold on prescription, dispensed, furnished or disposed of otherwise. NRS 454.286(1). The records must be retained for a period of 2 years and must be open to inspection by members, inspectors or investigators of the Board. NRS 454.286(2). *See also* 21 U.S.C. § 827 (recordkeeping requirements by registrants); 21 CFR § 1304.06 and 21 CFR § 1311.305 (regarding electronic prescription records).

25. Performing or in any way being a party to any fraudulent or deceitful practice or transaction constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(h) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 453.236(1)(e) and NRS 639.210(4).

26. Prescribing a drug to any patient with whom the prescribing practitioner does not have a bona fide therapeutic relationship constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(n)(2) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4). A bona fide relationship shall be deemed to exist if the patient was examined in person, electronically, telephonically or by fiber optics within or outside of this State or the United States by the practitioner within the 6 months immediately preceding the date the prescription was issued. NAC 639.752.

27. Performing any duties as the holder of a controlled substance registration in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(i) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

28. Aiding or abetting a person in unlicensed practice constitutes unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(j) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

29. Violating any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(11).

30. Violating, attempting to violate, assisting or abetting in the violation of or conspiring to violate any law or regulation relating to drugs is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(12).

31. The Board may suspend or revoke a registration issued pursuant to NRS 453.231 upon a finding that the registrant has committed an act that renders registration inconsistent with the public interest. NRS 453.236(1)(e) and NRS 453.241(1).

COUNT ONE

Unprofessional Conduct -Party to Fraudulent or Deceitful Practice or Transaction by Permitting Use of Credentials
(All Respondents)

32. As alleged above, by permitting Lindberg to use their credentials and act under their authority to fraudulently issue prescriptions for controlled substances, each Respondent was party to a fraudulent or deceitful practice or transaction and engaged in unprofessional conduct and conduct contrary to the public interest as defined in NAC 639.945(1)(h), and is subject to discipline pursuant to NRS 453.236(l)(e), NRS 453.241(1) and/or NRS 639.210(4).

\\\

\\\

COUNT TWO

Unprofessional Conduct -Incompetent, Unskillful or Negligent Performance of Duties by Allowing Prescribing Credentials to be Compromised
(All Respondents)

33. As alleged above, to the extent each Respondent's electronic prescribing credentials were compromised and resulted in the unlawful issuance of fraudulent controlled substance prescriptions by a third party, Respondents failed to comply with 21 CFR § 1311.102, NRS 453.164(7) and NAC 639.7105(2)(b), performed their duties as the holder of a Nevada controlled substance registration in an incompetent, unskillful or negligent manner, and engaged in unprofessional conduct as defined in NAC 639.945(1)(i), committed acts that render their registration inconsistent with the public interest, and is subject to discipline pursuant to NRS 453.236(1), NRS 453.241(1) and/or NRS 639.210(4), (11) and (12).

COUNT THREE

Violations of Federal Controlled Substances Act – Unlawfully Issuing Electronic Prescriptions for Controlled Substances
(All Respondents)

34. As alleged above, by permitting Lindberg to use their credentials and act under their authority to issue electronic prescriptions for controlled substances, each Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate 21 CFR 1301.71(a). 21 U.S.C. § 843(a)(2),21 U.S.C. § 822(a)(2), 21 U.S.C. § 823(f), 21 U.S.C. § 846, 21 CFR § 1306.03(a), 21 CFR § 1306.04(a), 21 CFR § 1311.100 and/or 21 CFR § 1311.102 and is subject to discipline pursuant to NRS 453.236(1)(d) and (e), NRS 453.241(1) and/or NRS 639.210(11).

\\\

\\\

\\\

COUNT FOUR

Unprofessional Conduct – Assisting or abetting unlicensed practice
(All Respondents)

35. As alleged above, Lindberg did not have licensure from the Board as required by NRS 639.100(1) when he used each Respondent's credential and acted under their authority to issue electronic prescriptions for controlled substances.

36. By assisting and abetting Lindberg's unlicensed activity, each Respondent engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(j), and is subject to discipline pursuant to NRS 639.210(4).

COUNT FIVE

Violations of State Law – Unlawfully Issuing Electronic Prescriptions for Controlled Substances
(All Respondents)

37. As alleged above, by permitting Lindberg to use their credentials and act under their authority to issue electronic prescriptions for controlled substances, each Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 453.381(1), NRS 453.385, NRS 453.401(l)(a), NRS 639.235(1), NRS 639.23535, NRS 639.23911(1)(a), NRS 639.2813(1) and/or NAC 639.7105, and is subject to discipline pursuant to NRS 453.236(1)(d) and (e), NRS 453.241(1), NRS 639.210(12) and/or NRS 639.23916(3)(b).

COUNT SIX

Unprofessional Conduct by a Practitioner – Failure to Query PMP Database
(All Respondents)

38. As alleged above, each Respondent failed to query the PMP database regarding his or her patients' histories of using controlled substances as required by law. NRS 639.23507.

39. As alleged above, each Respondent failed to query the PMP database regarding his or her own prescriber activity as required by law. NRS 453.164(7).

40. By failing to query the PMP database to review their patients' utilization reports prior to issuing a prescription for a controlled substance, and by failing to review their own prescriber activity on a semi-annual basis, Respondents violated NRS 453.164(7) and NRS 639.23507.

41. Furthermore, by failing to query the PMP database to review their patients' utilization report prior to issuing a prescription for a controlled substance, and by failing to review their own prescriber activity on a semi-annual basis, each Respondent performed his or her duties as the holder of a certificate issued by the Board in an incompetent, unskillful or negligent manner.

42. As alleged above, each Respondent's conduct constitutes unprofessional conduct for which the Board may impose administrative discipline. NRS 639.210(4); NAC 639.945(1)(i).

COUNT SEVEN
Unprofessional Conduct – Prescribing Without Bona Fide Therapeutic Relationship (Respondent Bernardi)

43. As alleged above, during the course of Bernardi's employment with Young4Life, a physician's assistant evaluated patients either in-person or via telehealth, and Bernardi reviewed and signed off on patient charts and prescriptions sent under his name.

44. By failing to personally evaluate patients for whom he prescribed controlled substances, Bernardi did not form a bona fide therapeutic relationship as defined in NAC 639.752(4).

45. By permitting the use of his credentials to issue electronic prescriptions for controlled substances to patients with whom he did not have a bona fide therapeutic relationship, Respondent Bernardi engaged in unprofessional conduct and conduct contrary to the public

interest as defined in NAC 639.945(1)(n)(2), and is subject to discipline pursuant to NRS 453.236(1)(e), NRS 453.241(1) and/or NRS 639.210(4).

COUNT EIGHT
Violations of Federal and State Law – Recordkeeping
(Respondents Bernardi and Hubbard)

46. As alleged above, by failing to respond to a Board investigator's requests for information and records related to an investigation into their prescribing activities, Respondents violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 639.090, NRS 454.286(2), NRS 453.246, NRS 639.239, 21 U.S.C. § 827, 21 CFR § 1311.120(28), 21 CFR § 1304.06, 21 CFR § 1311.305, and 21 CFR § 1311.305, and are subject to discipline pursuant to NRS 453.236(1)(e), NRS 453.241(1) and/or NRS 639.210(11) and/or (12).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of each of the Respondents herein.

DATED this 28th day of AUGUST 2026.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3). The hearing shall be conducted pursuant to NRS 639.241 through NRS 639.258. To be entitled to a hearing, you must complete, and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Notice of Intended Action and Accusation. NRS 622A.320; NRS 639.243. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350. A regulatory body may recover from a person reasonable attorney's fees and costs that are incurred by the regulatory body as a part of its investigative, administrative, and disciplinary proceedings against the person if the regulatory body finds that the person has violated any provision of this title. NOTICE OF INTENDED ACTION AND ACCUSATION

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter and these respondents because, at the time of the events alleged herein, Justin Spangler, PA ("Spangler") held a registration issued by the Board, Certificate of Registration No. CS28770; Mikayla Strief, APRN ("Strief") held a registration issued by the Board, Certificate of Registration No. CS37751; Daniel Inglish, DO ("Inglish") held a registration issued by the

Board, Certificate of Registration No. CS22888; Mary Miller-Wilson, APRN ("Miller-Wilson") held a registration issued by the Board, Certificate of Registration No. CS33703; Mark Bernardi, MD ("Bernardi") held a registration issued by the Board, Certificate of Registration No. CS29595; and Tiana Hubbard, APRN ("Hubbard") held a registration issued by the Board, Certificate of Registration No. CS25791.

FACTUAL ALLEGATIONS

2. Respondent Spangler is licensed by the Nevada State Board of Medical Examiners as a physician assistant. At the time of the violations alleged herein, Spangler was a "practitioner" as that term is defined at NRS 453.126(5) and 639.0125(4).

3. Respondents Strief, Miller-Wilson, and Hubbard are licensed by the Nevada State Board of Nursing as advanced practice registered nurses. At the time of the violations alleged herein, Strief, Miller-Wilson, and Hubbard were "practitioners" as that term is defined at NRS 453.126(2) and 639.0125(3).

4. Respondent Inglish is licensed by the Nevada State Board of Osteopathic Medicine as an osteopathic physician. At the time of the violations alleged herein, Inglish was a "practitioner" as that term is defined at NRS 453.126(1) and 639.0125(1).

5. Respondent Bernardi is licensed by the Nevada State Board of Medical Examiners as a physician. At the time of the violations alleged herein, Bernardi was a "practitioner" as that term is defined at NRS 453.126(1) and 639.0125(1).

6. On or about March 2022, David Lindberg ("Lindberg") began operating the wellness clinic D.C.L., LLC, dba Magnus Medical Health and Wellness ("Magnus"), located at 8540 S. Eastern Avenue, Suite 160, in Las Vegas, Nevada. Lindberg is not a licensed practitioner as that term is defined at NRS 453.126(1) and 639.0125(1) and not licensed by the Board or the

Federal Drug Enforcement Administration ("DEA") to possess, administer, prescribe or dispense dangerous drugs or controlled substances.

7. During the relevant timeframe, Respondents Spangler, Strief, Miller-Wilson, Inglish, and Hubbard worked as practitioners at Magnus.

8. On or about September 2024, Lindberg sold Magnus to new owners Donald Min ("Min") and Young Kim ("Kim"), who renamed the business Young4Life. Neither Min nor Kim are licensed practitioners as that term is defined at NRS 453.126(1) and 639.0125(1) or licensed by the Board or DEA to possess, administer, prescribe or dispense dangerous drugs or controlled substances.

9. Min and Kim formed Young4Life in late 2024 and assumed Magnus's established customers and business model. Young4Life retained Lindberg as a marketing consultant.

10. During the relevant timeframe, Respondents Spangler and Bernardi worked as practitioners at Young4Life.

11. A Board investigation found that, as owner of Magnus, between September 2022 and September 2024, Lindberg regularly used several Magnus employees' prescribing credentials to issue prescriptions and access prescribing systems. From September 2024 through at least May 2025, as marketing consultant, Lindberg continued using Young4Life employee's prescribing credentials to issue prescriptions and access prescribing systems.

12. Specifically, during the relevant timeframe, each Respondent permitted Lindberg to access prescribing systems and issue the following controlled substance prescriptions using their electronic prescribing credentials:

A. According to Board records, between May 2024 and November 2024, while employed by Magnus and Young4Life, Spangler authorized 548 controlled

substance prescriptions for 397 unique patients. Furthermore, according to the Board's records, Spangler did not access the PMP database to review his own prescribing activity ("MyRx report") from September 2019 to July 18, 2025. Spangler has only run one patient PMP query, in October 2019.

B. Between May 2024 and November 2024, while employed by Magnus, Strief authorized 170 controlled substance prescriptions for Nevada patients. Strief checked her MyRx report only one time, in December 2024. Strief also did not run any patient PMP queries prior to December 2024.

C. Per company policy, Strief delegated the entire prescribing process to Magnus. As such, Strief sent her prescribing token to Magnus and did not personally authorize any prescriptions for armodafinil, chorionic gonad or ketamine that appeared on her prescribing report from April to November 2024.

D. Between May 2024 and May 2025, while employed by Magnus, Inglish prescribed 63 controlled substances for Nevada patients. Inglish checked his MyRx report two times, in April 2025 and August 2025. He did not check it prior to that date. Inglish has not run any patient PMP queries since June 2022.

E. Between March 2022 and March 2024, while employed by Magnus, Miller-Wilson prescribed 1,846 controlled substances for 714 unique Nevada patients. Miller-Wilson checked her MyRx report once in October 2023. She has been compliant in checking her MyRx report since October 2024.

F. Per company policy, Miller-Wilson delegated the entire prescribing process to Magnus.

G. Between February 2025 and June 25, 2025, while employed by Young4Life, Bernardi prescribed 327 controlled substances for 203 unique Nevada patients. Bernardi has not checked his MyRx report from June 2022 and July 2025. Bernardi did not run any patient PMP queries prior to August 4, 2025.

H. Per company policy at Young4Life, Spangler or another physician's assistant would evaluate patients, generally via telehealth. Bernardi would then sign off on patient charts and prescriptions that were sent via his electronic credentials. Bernardi delegated the issuing of electronic prescriptions to someone else at Young4Life.

I. Between February 2023 and March 2024, while employed by Magnus, Hubbard prescribed 381 controlled substances for 202 unique Nevada patients. Hubbard checked her MyRx report only one time, in October 2024. She has not run any patient PMP queries between April 2019 and May 2025.

13. Between June 30, 2025 through August 20, 2025, Board Investigator Dena McClish (McClish) attempted to communicate with Bernardi to discuss his patient records and employment at Young4Life. Although Bernardi indicated that he would cooperate with McClish's investigation, he ultimately failed to respond to her requests for information.

14. On or about July 1, 2025, McClish attempted to contact Hubbard through certified and regular U.S. Mail and e-mail about her patient records and employment with Magnus. Hubbard failed to respond to her requests for information.

PRIOR DISCIPLINE

15. On December 3, 2025, the Board disciplined Respondent Inglish for allowing unlicensed individuals independent access to dangerous drugs; allowing unlicensed individuals to access, possess, furnish, and administer dangerous drugs; permitting the administration of patient-specific prescription medications to multiple patients; intermingling of adulterated and expired drugs; falsifying prescriptions; and aiding and abetting unlicensed practice. The Board placed Respondent Inglish on one-year probation beginning on December 3, 2025, and ordered him to pay a $5,000 fine and $1,000 in fees and costs.

APPLICABLE LAW

16. Pursuant to NRS 639.100(1), it is unlawful for any person to manufacture, engage in wholesale distribution, compound, sell or dispense, or permit to be manufactured, distributed at wholesale, compounded, sold or dispensed, any drug, poison, medicine or chemical, or to dispense or compound, or permit to be dispensed or compounded drugs without having secured the appropriate license and/or certificate of registration from the Board.

17. Falsifying a prescription for a controlled substance is a felony offense. 21 U.S.C. § 841(a); 21 U.S.C. § 842(a); NRS 453.331(1).

18. A prescription for a controlled substance may be issued only for a legitimate medical purpose and in the usual course of his or her professional practice by an individual practitioner who holds a DEA registration and is authorized to prescribe controlled substances by the jurisdiction in which he is licensed to practice his profession, to a patient with whom the practitioner has established a bona fide therapeutic relationship. 21 U.S.C. § 822(a)(2); 21 U.S.C. § 823(f); 21 CFR § 1306.03(a); 21 CFR § 1306.04(a); NRS 453.381(1); NRS 639.235(1); NRS 639.23911(1)(a); NRS 639.2813(1).

19. A practitioner must retain sole possession of the hard token, where applicable, and must not share the password or other knowledge factor, or biometric information, with any other person. The practitioner must not allow any other person to use the token or enter the knowledge factor or other identification means to sign prescriptions for controlled substances. 21 CFR § 1311.102 and NAC 639.7105(2)(b).

20. The Controlled Substances Act imposes strict liability on registrants to provide effective controls and procedures to guard against theft and diversion, which includes the duty to safeguard prescribing credentials from unauthorized use. *See* 21 CFR 1301.71(a). 21 U.S.C. § 843(a)(2) criminalizes the use of another person's DEA registration number

21. A practitioner shall, before issuing an initial prescription for a controlled substance, and at least once every 90 days thereafter for the duration of the course of treatment using the controlled substance, obtain a patient utilization report regarding the patient from the PMP. NRS 639.23507.

22. A practitioner registered with the Board to write prescriptions for controlled substances must access his or her prescriber activity in the PMP at least once every 6 months to review prescriptions issued by the practitioner and to verify for the Board that he or she continues to have access to the PMP. NRS 453.164(7).

23. Any licensee registered with the Board must provide access to all records of sale and disposition of drugs, medicines or poisons or devices or appliances that are restricted by federal law to sale by or on the order of a physician, to members of the Board, its inspectors, and investigators. NRS 639.090. *See also* NRS 639.239 (duty to provide prescription records); NRS 453.246 (records related to controlled substances).

24. Every practitioner who engages in the practicing of furnishing dangerous drugs to patients shall maintain a complete and accurate record of all dangerous drugs purchased and those sold on prescription, dispensed, furnished or disposed of otherwise. NRS 454.286(1). The records must be retained for a period of 2 years and must be open to inspection by members, inspectors or investigators of the Board. NRS 454.286(2). *See also* 21 U.S.C. § 827 (recordkeeping requirements by registrants); 21 CFR § 1304.06 and 21 CFR § 1311.305 (regarding electronic prescription records).

25. Performing or in any way being a party to any fraudulent or deceitful practice or transaction constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(h) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 453.236(1)(e) and NRS 639.210(4).

26. Prescribing a drug to any patient with whom the prescribing practitioner does not have a bona fide therapeutic relationship constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(n)(2) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4). A bona fide relationship shall be deemed to exist if the patient was examined in person, electronically, telephonically or by fiber optics within or outside of this State or the United States by the practitioner within the 6 months immediately preceding the date the prescription was issued. NAC 639.752.

27. Performing any duties as the holder of a controlled substance registration in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(i) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

28. Aiding or abetting a person in unlicensed practice constitutes unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(j) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

29. Violating any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(11).

30. Violating, attempting to violate, assisting or abetting in the violation of or conspiring to violate any law or regulation relating to drugs is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(12).

31. The Board may suspend or revoke a registration issued pursuant to NRS 453.231 upon a finding that the registrant has committed an act that renders registration inconsistent with the public interest. NRS 453.236(1)(e) and NRS 453.241(1).

COUNT ONE

Unprofessional Conduct -Party to Fraudulent or Deceitful Practice or Transaction by Permitting Use of Credentials
(All Respondents)

32. As alleged above, by permitting Lindberg to use their credentials and act under their authority to fraudulently issue prescriptions for controlled substances, each Respondent was party to a fraudulent or deceitful practice or transaction and engaged in unprofessional conduct and conduct contrary to the public interest as defined in NAC 639.945(1)(h), and is subject to discipline pursuant to NRS 453.236(l)(e), NRS 453.241(1) and/or NRS 639.210(4).

\\\

\\\

COUNT TWO

Unprofessional Conduct -Incompetent, Unskillful or Negligent Performance of Duties by Allowing Prescribing Credentials to be Compromised
(All Respondents)

33. As alleged above, to the extent each Respondent's electronic prescribing credentials were compromised and resulted in the unlawful issuance of fraudulent controlled substance prescriptions by a third party, Respondents failed to comply with 21 CFR § 1311.102, NRS 453.164(7) and NAC 639.7105(2)(b), performed their duties as the holder of a Nevada controlled substance registration in an incompetent, unskillful or negligent manner, and engaged in unprofessional conduct as defined in NAC 639.945(1)(i), committed acts that render their registration inconsistent with the public interest, and is subject to discipline pursuant to NRS 453.236(1), NRS 453.241(1) and/or NRS 639.210(4), (11) and (12).

COUNT THREE

Violations of Federal Controlled Substances Act – Unlawfully Issuing Electronic Prescriptions for Controlled Substances
(All Respondents)

34. As alleged above, by permitting Lindberg to use their credentials and act under their authority to issue electronic prescriptions for controlled substances, each Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate 21 CFR 1301.71(a). 21 U.S.C. § 843(a)(2),21 U.S.C. § 822(a)(2), 21 U.S.C. § 823(f), 21 U.S.C. § 846, 21 CFR § 1306.03(a), 21 CFR § 1306.04(a), 21 CFR § 1311.100 and/or 21 CFR § 1311.102 and is subject to discipline pursuant to NRS 453.236(1)(d) and (e), NRS 453.241(1) and/or NRS 639.210(11).

\\\

\\\

\\\

COUNT FOUR

Unprofessional Conduct – Assisting or abetting unlicensed practice
(All Respondents)

35. As alleged above, Lindberg did not have licensure from the Board as required by NRS 639.100(1) when he used each Respondent's credential and acted under their authority to issue electronic prescriptions for controlled substances.

36. By assisting and abetting Lindberg's unlicensed activity, each Respondent engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(j), and is subject to discipline pursuant to NRS 639.210(4).

COUNT FIVE

Violations of State Law – Unlawfully Issuing Electronic Prescriptions for Controlled Substances
(All Respondents)

37. As alleged above, by permitting Lindberg to use their credentials and act under their authority to issue electronic prescriptions for controlled substances, each Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 453.381(1), NRS 453.385, NRS 453.401(l)(a), NRS 639.235(1), NRS 639.23535, NRS 639.23911(1)(a), NRS 639.2813(1) and/or NAC 639.7105, and is subject to discipline pursuant to NRS 453.236(1)(d) and (e), NRS 453.241(1), NRS 639.210(12) and/or NRS 639.23916(3)(b).

COUNT SIX

Unprofessional Conduct by a Practitioner – Failure to Query PMP Database
(All Respondents)

38. As alleged above, each Respondent failed to query the PMP database regarding his or her patients' histories of using controlled substances as required by law. NRS 639.23507.

39. As alleged above, each Respondent failed to query the PMP database regarding his or her own prescriber activity as required by law. NRS 453.164(7).

40. By failing to query the PMP database to review their patients' utilization reports prior to issuing a prescription for a controlled substance, and by failing to review their own prescriber activity on a semi-annual basis, Respondents violated NRS 453.164(7) and NRS 639.23507.

41. Furthermore, by failing to query the PMP database to review their patients' utilization report prior to issuing a prescription for a controlled substance, and by failing to review their own prescriber activity on a semi-annual basis, each Respondent performed his or her duties as the holder of a certificate issued by the Board in an incompetent, unskillful or negligent manner.

42. As alleged above, each Respondent's conduct constitutes unprofessional conduct for which the Board may impose administrative discipline. NRS 639.210(4); NAC 639.945(1)(i).

COUNT SEVEN
Unprofessional Conduct – Prescribing Without Bona Fide Therapeutic Relationship (Respondent Bernardi)

43. As alleged above, during the course of Bernardi's employment with Young4Life, a physician's assistant evaluated patients either in-person or via telehealth, and Bernardi reviewed and signed off on patient charts and prescriptions sent under his name.

44. By failing to personally evaluate patients for whom he prescribed controlled substances, Bernardi did not form a bona fide therapeutic relationship as defined in NAC 639.752(4).

45. By permitting the use of his credentials to issue electronic prescriptions for controlled substances to patients with whom he did not have a bona fide therapeutic relationship, Respondent Bernardi engaged in unprofessional conduct and conduct contrary to the public

interest as defined in NAC 639.945(1)(n)(2), and is subject to discipline pursuant to NRS 453.236(1)(e), NRS 453.241(1) and/or NRS 639.210(4).

COUNT EIGHT
Violations of Federal and State Law – Recordkeeping
(Respondents Bernardi and Hubbard)

46. As alleged above, by failing to respond to a Board investigator's requests for information and records related to an investigation into their prescribing activities, Respondents violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 639.090, NRS 454.286(2), NRS 453.246, NRS 639.239, 21 U.S.C. § 827, 21 CFR § 1311.120(28), 21 CFR § 1304.06, 21 CFR § 1311.305, and 21 CFR § 1311.305, and are subject to discipline pursuant to NRS 453.236(1)(e), NRS 453.241(1) and/or NRS 639.210(11) and/or (12).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of each of the Respondents herein.

DATED this 26th day of AUGUST 2026.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3). The hearing shall be conducted pursuant to NRS 639.241 through NRS 639.258. To be entitled to a hearing, you must complete, and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Notice of Intended Action and Accusation. NRS 622A.320; NRS 639.243. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350. A regulatory body may recover from a person reasonable attorney's fees and costs that are incurred by the regulatory body as a part of its investigative, administrative, and disciplinary proceedings against the person if the regulatory body finds that the person has violated any provision of this title. NRS 622.400(1).

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter and these respondents because, at the time of the events alleged herein, Justin Spangler, PA ("Spangler") held a registration issued by the Board, Certificate of Registration No. CS28770; Mikayla Strief, APRN ("Strief") held a registration issued by the Board, Certificate of Registration No. CS37751; Daniel Inglish, DO ("Inglish") held a registration issued by the

Board, Certificate of Registration No. CS22888; Mary Miller-Wilson, APRN ("Miller-Wilson") held a registration issued by the Board, Certificate of Registration No. CS33703; Mark Bernardi, MD ("Bernardi") held a registration issued by the Board, Certificate of Registration No. CS29595; and Tiana Hubbard, APRN ("Hubbard") held a registration issued by the Board, Certificate of Registration No. CS25791.

FACTUAL ALLEGATIONS

2. Respondent Spangler is licensed by the Nevada State Board of Medical Examiners as a physician assistant. At the time of the violations alleged herein, Spangler was a "practitioner" as that term is defined at NRS 453.126(5) and 639.0125(4).

3. Respondents Strief, Miller-Wilson, and Hubbard are licensed by the Nevada State Board of Nursing as advanced practice registered nurses. At the time of the violations alleged herein, Strief, Miller-Wilson, and Hubbard were "practitioners" as that term is defined at NRS 453.126(2) and 639.0125(3).

4. Respondent Inglish is licensed by the Nevada State Board of Osteopathic Medicine as an osteopathic physician. At the time of the violations alleged herein, Inglish was a "practitioner" as that term is defined at NRS 453.126(1) and 639.0125(1).

5. Respondent Bernardi is licensed by the Nevada State Board of Medical Examiners as a physician. At the time of the violations alleged herein, Bernardi was a "practitioner" as that term is defined at NRS 453.126(1) and 639.0125(1).

6. On or about March 2022, David Lindberg ("Lindberg") began operating the wellness clinic D.C.L., LLC, dba Magnus Medical Health and Wellness ("Magnus"), located at 8540 S. Eastern Avenue, Suite 160, in Las Vegas, Nevada. Lindberg is not a licensed practitioner as that term is defined at NRS 453.126(1) and 639.0125(1) and not licensed by the Board or the

Federal Drug Enforcement Administration ("DEA") to possess, administer, prescribe or dispense dangerous drugs or controlled substances.

7. During the relevant timeframe, Respondents Spangler, Strief, Miller-Wilson, Inglish, and Hubbard worked as practitioners at Magnus.

8. On or about September 2024, Lindberg sold Magnus to new owners Donald Min ("Min") and Young Kim ("Kim"), who renamed the business Young4Life. Neither Min nor Kim are licensed practitioners as that term is defined at NRS 453.126(1) and 639.0125(1) or licensed by the Board or DEA to possess, administer, prescribe or dispense dangerous drugs or controlled substances.

9. Min and Kim formed Young4Life in late 2024 and assumed Magnus's established customers and business model. Young4Life retained Lindberg as a marketing consultant.

10. During the relevant timeframe, Respondents Spangler and Bernardi worked as practitioners at Young4Life.

11. A Board investigation found that, as owner of Magnus, between September 2022 and September 2024, Lindberg regularly used several Magnus employees' prescribing credentials to issue prescriptions and access prescribing systems. From September 2024 through at least May 2025, as marketing consultant, Lindberg continued using Young4Life employee's prescribing credentials to issue prescriptions and access prescribing systems.

12. Specifically, during the relevant timeframe, each Respondent permitted Lindberg to access prescribing systems and issue the following controlled substance prescriptions using their electronic prescribing credentials:

A. According to Board records, between May 2024 and November 2024, while employed by Magnus and Young4Life, Spangler authorized 548 controlled

substance prescriptions for 397 unique patients. Furthermore, according to the Board's records, Spangler did not access the PMP database to review his own prescribing activity ("MyRx report") from September 2019 to July 18, 2025. Spangler has only run one patient PMP query, in October 2019.

B. Between May 2024 and November 2024, while employed by Magnus, Strief authorized 170 controlled substance prescriptions for Nevada patients. Strief checked her MyRx report only one time, in December 2024. Strief also did not run any patient PMP queries prior to December 2024.

C. Per company policy, Strief delegated the entire prescribing process to Magnus. As such, Strief sent her prescribing token to Magnus and did not personally authorize any prescriptions for armodafinil, chorionic gonad or ketamine that appeared on her prescribing report from April to November 2024.

D. Between May 2024 and May 2025, while employed by Magnus, Inglish prescribed 63 controlled substances for Nevada patients. Inglish checked his MyRx report two times, in April 2025 and August 2025. He did not check it prior to that date. Inglish has not run any patient PMP queries since June 2022.

E. Between March 2022 and March 2024, while employed by Magnus, Miller-Wilson prescribed 1,846 controlled substances for 714 unique Nevada patients. Miller-Wilson checked her MyRx report once in October 2023. She has been compliant in checking her MyRx report since October 2024.

F. Per company policy, Miller-Wilson delegated the entire prescribing process to Magnus.

G. Between February 2025 and June 25, 2025, while employed by Young4Life, Bernardi prescribed 327 controlled substances for 203 unique Nevada patients. Bernardi has not checked his MyRx report from June 2022 and July 2025. Bernardi did not run any patient PMP queries prior to August 4, 2025.

H. Per company policy at Young4Life, Spangler or another physician's assistant would evaluate patients, generally via telehealth. Bernardi would then sign off on patient charts and prescriptions that were sent via his electronic credentials. Bernardi delegated the issuing of electronic prescriptions to someone else at Young4Life.

I. Between February 2023 and March 2024, while employed by Magnus, Hubbard prescribed 381 controlled substances for 202 unique Nevada patients. Hubbard checked her MyRx report only one time, in October 2024. She has not run any patient PMP queries between April 2019 and May 2025.

13. Between June 30, 2025 through August 20, 2025, Board Investigator Dena McClish (McClish) attempted to communicate with Bernardi to discuss his patient records and employment at Young4Life. Although Bernardi indicated that he would cooperate with McClish's investigation, he ultimately failed to respond to her requests for information.

14. On or about July 1, 2025, McClish attempted to contact Hubbard through certified and regular U.S. Mail and e-mail about her patient records and employment with Magnus. Hubbard failed to respond to her requests for information.

PRIOR DISCIPLINE

15. On December 3, 2025, the Board disciplined Respondent Inglish for allowing unlicensed individuals independent access to dangerous drugs; allowing unlicensed individuals to access, possess, furnish, and administer dangerous drugs; permitting the administration of patient-specific prescription medications to multiple patients; intermingling of adulterated and expired drugs; falsifying prescriptions; and aiding and abetting unlicensed practice. The Board placed Respondent Inglish on one-year probation beginning on December 3, 2025, and ordered him to pay a $5,000 fine and $1,000 in fees and costs.

APPLICABLE LAW

16. Pursuant to NRS 639.100(1), it is unlawful for any person to manufacture, engage in wholesale distribution, compound, sell or dispense, or permit to be manufactured, distributed at wholesale, compounded, sold or dispensed, any drug, poison, medicine or chemical, or to dispense or compound, or permit to be dispensed or compounded drugs without having secured the appropriate license and/or certificate of registration from the Board.

17. Falsifying a prescription for a controlled substance is a felony offense. 21 U.S.C. § 841(a); 21 U.S.C. § 842(a); NRS 453.331(1).

18. A prescription for a controlled substance may be issued only for a legitimate medical purpose and in the usual course of his or her professional practice by an individual practitioner who holds a DEA registration and is authorized to prescribe controlled substances by the jurisdiction in which he is licensed to practice his profession, to a patient with whom the practitioner has established a bona fide therapeutic relationship. 21 U.S.C. § 822(a)(2); 21 U.S.C. § 823(f); 21 CFR § 1306.03(a); 21 CFR § 1306.04(a); NRS 453.381(1); NRS 639.235(1); NRS 639.23911(1)(a); NRS 639.2813(1).

19. A practitioner must retain sole possession of the hard token, where applicable, and must not share the password or other knowledge factor, or biometric information, with any other person. The practitioner must not allow any other person to use the token or enter the knowledge factor or other identification means to sign prescriptions for controlled substances. 21 CFR § 1311.102 and NAC 639.7105(2)(b).

20. The Controlled Substances Act imposes strict liability on registrants to provide effective controls and procedures to guard against theft and diversion, which includes the duty to safeguard prescribing credentials from unauthorized use. *See* 21 CFR 1301.71(a). 21 U.S.C. § 843(a)(2) criminalizes the use of another person's DEA registration number

21. A practitioner shall, before issuing an initial prescription for a controlled substance, and at least once every 90 days thereafter for the duration of the course of treatment using the controlled substance, obtain a patient utilization report regarding the patient from the PMP. NRS 639.23507.

22. A practitioner registered with the Board to write prescriptions for controlled substances must access his or her prescriber activity in the PMP at least once every 6 months to review prescriptions issued by the practitioner and to verify for the Board that he or she continues to have access to the PMP. NRS 453.164(7).

23. Any licensee registered with the Board must provide access to all records of sale and disposition of drugs, medicines or poisons or devices or appliances that are restricted by federal law to sale by or on the order of a physician, to members of the Board, its inspectors, and investigators. NRS 639.090. *See also* NRS 639.239 (duty to provide prescription records); NRS 453.246 (records related to controlled substances).

24. Every practitioner who engages in the practicing of furnishing dangerous drugs to patients shall maintain a complete and accurate record of all dangerous drugs purchased and those sold on prescription, dispensed, furnished or disposed of otherwise. NRS 454.286(1). The records must be retained for a period of 2 years and must be open to inspection by members, inspectors or investigators of the Board. NRS 454.286(2). *See also* 21 U.S.C. § 827 (recordkeeping requirements by registrants); 21 CFR § 1304.06 and 21 CFR § 1311.305 (regarding electronic prescription records).

25. Performing or in any way being a party to any fraudulent or deceitful practice or transaction constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(h) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 453.236(1)(e) and NRS 639.210(4).

26. Prescribing a drug to any patient with whom the prescribing practitioner does not have a bona fide therapeutic relationship constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(n)(2) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4). A bona fide relationship shall be deemed to exist if the patient was examined in person, electronically, telephonically or by fiber optics within or outside of this State or the United States by the practitioner within the 6 months immediately preceding the date the prescription was issued. NAC 639.752.

27. Performing any duties as the holder of a controlled substance registration in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(i) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

28. Aiding or abetting a person in unlicensed practice constitutes unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(j) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

29. Violating any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(11).

30. Violating, attempting to violate, assisting or abetting in the violation of or conspiring to violate any law or regulation relating to drugs is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(12).

31. The Board may suspend or revoke a registration issued pursuant to NRS 453.231 upon a finding that the registrant has committed an act that renders registration inconsistent with the public interest. NRS 453.236(1)(e) and NRS 453.241(1).

COUNT ONE
Unprofessional Conduct -Party to Fraudulent or Deceitful Practice or Transaction by Permitting Use of Credentials
(All Respondents)

32. As alleged above, by permitting Lindberg to use their credentials and act under their authority to fraudulently issue prescriptions for controlled substances, each Respondent was party to a fraudulent or deceitful practice or transaction and engaged in unprofessional conduct and conduct contrary to the public interest as defined in NAC 639.945(1)(h), and is subject to discipline pursuant to NRS 453.236(l)(e), NRS 453.241(1) and/or NRS 639.210(4).

\\\

\\\

COUNT TWO

Unprofessional Conduct -Incompetent, Unskillful or Negligent Performance of Duties by Allowing Prescribing Credentials to be Compromised
(All Respondents)

33. As alleged above, to the extent each Respondent's electronic prescribing credentials were compromised and resulted in the unlawful issuance of fraudulent controlled substance prescriptions by a third party, Respondents failed to comply with 21 CFR § 1311.102, NRS 453.164(7) and NAC 639.7105(2)(b), performed their duties as the holder of a Nevada controlled substance registration in an incompetent, unskillful or negligent manner, and engaged in unprofessional conduct as defined in NAC 639.945(1)(i), committed acts that render their registration inconsistent with the public interest, and is subject to discipline pursuant to NRS 453.236(1), NRS 453.241(1) and/or NRS 639.210(4), (11) and (12).

COUNT THREE

Violations of Federal Controlled Substances Act – Unlawfully Issuing Electronic Prescriptions for Controlled Substances
(All Respondents)

34. As alleged above, by permitting Lindberg to use their credentials and act under their authority to issue electronic prescriptions for controlled substances, each Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate 21 CFR 1301.71(a). 21 U.S.C. § 843(a)(2),21 U.S.C. § 822(a)(2), 21 U.S.C. § 823(f), 21 U.S.C. § 846, 21 CFR § 1306.03(a), 21 CFR § 1306.04(a), 21 CFR § 1311.100 and/or 21 CFR § 1311.102 and is subject to discipline pursuant to NRS 453.236(1)(d) and (e), NRS 453.241(1) and/or NRS 639.210(11).

\\\

\\\

\\\

COUNT FOUR
Unprofessional Conduct – Assisting or abetting unlicensed practice
(All Respondents)

35. As alleged above, Lindberg did not have licensure from the Board as required by NRS 639.100(1) when he used each Respondent's credential and acted under their authority to issue electronic prescriptions for controlled substances.

36. By assisting and abetting Lindberg's unlicensed activity, each Respondent engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(j), and is subject to discipline pursuant to NRS 639.210(4).

COUNT FIVE
Violations of State Law – Unlawfully Issuing Electronic Prescriptions for Controlled Substances
(All Respondents)

37. As alleged above, by permitting Lindberg to use their credentials and act under their authority to issue electronic prescriptions for controlled substances, each Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 453.381(1), NRS 453.385, NRS 453.401(l)(a), NRS 639.235(1), NRS 639.23535, NRS 639.23911(1)(a), NRS 639.2813(1) and/or NAC 639.7105, and is subject to discipline pursuant to NRS 453.236(1)(d) and (e), NRS 453.241(1), NRS 639.210(12) and/or NRS 639.23916(3)(b).

COUNT SIX
Unprofessional Conduct by a Practitioner – Failure to Query PMP Database
(All Respondents)

38. As alleged above, each Respondent failed to query the PMP database regarding his or her patients' histories of using controlled substances as required by law. NRS 639.23507.

39. As alleged above, each Respondent failed to query the PMP database regarding his or her own prescriber activity as required by law. NRS 453.164(7).

40. By failing to query the PMP database to review their patients' utilization reports prior to issuing a prescription for a controlled substance, and by failing to review their own prescriber activity on a semi-annual basis, Respondents violated NRS 453.164(7) and NRS 639.23507.

41. Furthermore, by failing to query the PMP database to review their patients' utilization report prior to issuing a prescription for a controlled substance, and by failing to review their own prescriber activity on a semi-annual basis, each Respondent performed his or her duties as the holder of a certificate issued by the Board in an incompetent, unskillful or negligent manner.

42. As alleged above, each Respondent's conduct constitutes unprofessional conduct for which the Board may impose administrative discipline. NRS 639.210(4); NAC 639.945(1)(i).

COUNT SEVEN
Unprofessional Conduct – Prescribing Without Bona Fide Therapeutic Relationship
(Respondent Bernardi)

43. As alleged above, during the course of Bernardi's employment with Young4Life, a physician's assistant evaluated patients either in-person or via telehealth, and Bernardi reviewed and signed off on patient charts and prescriptions sent under his name.

44. By failing to personally evaluate patients for whom he prescribed controlled substances, Bernardi did not form a bona fide therapeutic relationship as defined in NAC 639.752(4).

45. By permitting the use of his credentials to issue electronic prescriptions for controlled substances to patients with whom he did not have a bona fide therapeutic relationship, Respondent Bernardi engaged in unprofessional conduct and conduct contrary to the public

interest as defined in NAC 639.945(1)(n)(2), and is subject to discipline pursuant to NRS 453.236(1)(e), NRS 453.241(1) and/or NRS 639.210(4).

COUNT EIGHT
Violations of Federal and State Law – Recordkeeping
(Respondents Bernardi and Hubbard)

46. As alleged above, by failing to respond to a Board investigator's requests for information and records related to an investigation into their prescribing activities, Respondents violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 639.090, NRS 454.286(2), NRS 453.246, NRS 639.239, 21 U.S.C. § 827, 21 CFR § 1311.120(28), 21 CFR § 1304.06, 21 CFR § 1311.305, and 21 CFR § 1311.305, and are subject to discipline pursuant to NRS 453.236(1)(e), NRS 453.241(1) and/or NRS 639.210(11) and/or (12).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of each of the Respondents herein.

DATED this 26th day of AUGUST 2026.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3). The hearing shall be conducted pursuant to NRS 639.241 through NRS 639.258. To be entitled to a hearing, you must complete, and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Notice of Intended Action and Accusation. NRS 622A.320; NRS 639.243. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350. A regulatory body may recover from a person reasonable attorney's fees and costs that are incurred by the regulatory body as a part of its investigative, administrative, and disciplinary proceedings against the person if the regulatory body finds that the person has violated any provision of this title. NRS 622.400(1).

NOTICE OF INTENDED ACTION AND ACCUSATION

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter and these respondents because, at the time of the events alleged herein, Justin Spangler, PA ("Spangler") held a registration issued by the Board, Certificate of Registration No. CS28770; Mikayla Strief, APRN ("Strief") held a registration issued by the Board, Certificate of Registration No. CS37751; Daniel Inglish, DO ("Inglish") held a registration issued by the

Board, Certificate of Registration No. CS22888; Mary Miller-Wilson, APRN ("Miller-Wilson") held a registration issued by the Board, Certificate of Registration No. CS33703; Mark Bernardi, MD ("Bernardi") held a registration issued by the Board, Certificate of Registration No. CS29595; and Tiana Hubbard, APRN ("Hubbard") held a registration issued by the Board, Certificate of Registration No. CS25791.

FACTUAL ALLEGATIONS

2. Respondent Spangler is licensed by the Nevada State Board of Medical Examiners as a physician assistant. At the time of the violations alleged herein, Spangler was a "practitioner" as that term is defined at NRS 453.126(5) and 639.0125(4).

3. Respondents Strief, Miller-Wilson, and Hubbard are licensed by the Nevada State Board of Nursing as advanced practice registered nurses. At the time of the violations alleged herein, Strief, Miller-Wilson, and Hubbard were "practitioners" as that term is defined at NRS 453.126(2) and 639.0125(3).

4. Respondent Inglish is licensed by the Nevada State Board of Osteopathic Medicine as an osteopathic physician. At the time of the violations alleged herein, Inglish was a "practitioner" as that term is defined at NRS 453.126(1) and 639.0125(1).

5. Respondent Bernardi is licensed by the Nevada State Board of Medical Examiners as a physician. At the time of the violations alleged herein, Bernardi was a "practitioner" as that term is defined at NRS 453.126(1) and 639.0125(1).

6. On or about March 2022, David Lindberg ("Lindberg") began operating the wellness clinic D.C.L., LLC, dba Magnus Medical Health and Wellness ("Magnus"), located at 8540 S. Eastern Avenue, Suite 160, in Las Vegas, Nevada. Lindberg is not a licensed practitioner as that term is defined at NRS 453.126(1) and 639.0125(1) and not licensed by the Board or the

Federal Drug Enforcement Administration ("DEA") to possess, administer, prescribe or dispense dangerous drugs or controlled substances.

7. During the relevant timeframe, Respondents Spangler, Strief, Miller-Wilson, Inglish, and Hubbard worked as practitioners at Magnus.

8. On or about September 2024, Lindberg sold Magnus to new owners Donald Min ("Min") and Young Kim ("Kim"), who renamed the business Young4Life. Neither Min nor Kim are licensed practitioners as that term is defined at NRS 453.126(1) and 639.0125(1) or licensed by the Board or DEA to possess, administer, prescribe or dispense dangerous drugs or controlled substances.

9. Min and Kim formed Young4Life in late 2024 and assumed Magnus's established customers and business model. Young4Life retained Lindberg as a marketing consultant.

10. During the relevant timeframe, Respondents Spangler and Bernardi worked as practitioners at Young4Life.

11. A Board investigation found that, as owner of Magnus, between September 2022 and September 2024, Lindberg regularly used several Magnus employees' prescribing credentials to issue prescriptions and access prescribing systems. From September 2024 through at least May 2025, as marketing consultant, Lindberg continued using Young4Life employee's prescribing credentials to issue prescriptions and access prescribing systems.

12. Specifically, during the relevant timeframe, each Respondent permitted Lindberg to access prescribing systems and issue the following controlled substance prescriptions using their electronic prescribing credentials:

A. According to Board records, between May 2024 and November 2024, while employed by Magnus and Young4Life, Spangler authorized 548 controlled

substance prescriptions for 397 unique patients. Furthermore, according to the Board's records, Spangler did not access the PMP database to review his own prescribing activity ("MyRx report") from September 2019 to July 18, 2025. Spangler has only run one patient PMP query, in October 2019.

B. Between May 2024 and November 2024, while employed by Magnus, Strief authorized 170 controlled substance prescriptions for Nevada patients. Strief checked her MyRx report only one time, in December 2024. Strief also did not run any patient PMP queries prior to December 2024.

C. Per company policy, Strief delegated the entire prescribing process to Magnus. As such, Strief sent her prescribing token to Magnus and did not personally authorize any prescriptions for armodafinil, chorionic gonad or ketamine that appeared on her prescribing report from April to November 2024.

D. Between May 2024 and May 2025, while employed by Magnus, Inglish prescribed 63 controlled substances for Nevada patients. Inglish checked his MyRx report two times, in April 2025 and August 2025. He did not check it prior to that date. Inglish has not run any patient PMP queries since June 2022.

E. Between March 2022 and March 2024, while employed by Magnus, Miller-Wilson prescribed 1,846 controlled substances for 714 unique Nevada patients. Miller-Wilson checked her MyRx report once in October 2023. She has been compliant in checking her MyRx report since October 2024.

F. Per company policy, Miller-Wilson delegated the entire prescribing process to Magnus.

G. Between February 2025 and June 25, 2025, while employed by Young4Life, Bernardi prescribed 327 controlled substances for 203 unique Nevada patients. Bernardi has not checked his MyRx report from June 2022 and July 2025. Bernardi did not run any patient PMP queries prior to August 4, 2025.

H. Per company policy at Young4Life, Spangler or another physician's assistant would evaluate patients, generally via telehealth. Bernardi would then sign off on patient charts and prescriptions that were sent via his electronic credentials. Bernardi delegated the issuing of electronic prescriptions to someone else at Young4Life.

I. Between February 2023 and March 2024, while employed by Magnus, Hubbard prescribed 381 controlled substances for 202 unique Nevada patients. Hubbard checked her MyRx report only one time, in October 2024. She has not run any patient PMP queries between April 2019 and May 2025.

13. Between June 30, 2025 through August 20, 2025, Board Investigator Dena McClish (McClish) attempted to communicate with Bernardi to discuss his patient records and employment at Young4Life. Although Bernardi indicated that he would cooperate with McClish's investigation, he ultimately failed to respond to her requests for information.

14. On or about July 1, 2025, McClish attempted to contact Hubbard through certified and regular U.S. Mail and e-mail about her patient records and employment with Magnus. Hubbard failed to respond to her requests for information.

PRIOR DISCIPLINE

15. On December 3, 2025, the Board disciplined Respondent Inglish for allowing unlicensed individuals independent access to dangerous drugs; allowing unlicensed individuals to access, possess, furnish, and administer dangerous drugs; permitting the administration of patient-specific prescription medications to multiple patients; intermingling of adulterated and expired drugs; falsifying prescriptions; and aiding and abetting unlicensed practice. The Board placed Respondent Inglish on one-year probation beginning on December 3, 2025, and ordered him to pay a $5,000 fine and $1,000 in fees and costs.

APPLICABLE LAW

16. Pursuant to NRS 639.100(1), it is unlawful for any person to manufacture, engage in wholesale distribution, compound, sell or dispense, or permit to be manufactured, distributed at wholesale, compounded, sold or dispensed, any drug, poison, medicine or chemical, or to dispense or compound, or permit to be dispensed or compounded drugs without having secured the appropriate license and/or certificate of registration from the Board.

17. Falsifying a prescription for a controlled substance is a felony offense. 21 U.S.C. § 841(a); 21 U.S.C. § 842(a); NRS 453.331(1).

18. A prescription for a controlled substance may be issued only for a legitimate medical purpose and in the usual course of his or her professional practice by an individual practitioner who holds a DEA registration and is authorized to prescribe controlled substances by the jurisdiction in which he is licensed to practice his profession, to a patient with whom the practitioner has established a bona fide therapeutic relationship. 21 U.S.C. § 822(a)(2); 21 U.S.C. § 823(f); 21 CFR § 1306.03(a); 21 CFR § 1306.04(a); NRS 453.381(1); NRS 639.235(1); NRS 639.23911(1)(a); NRS 639.2813(1).

19. A practitioner must retain sole possession of the hard token, where applicable, and must not share the password or other knowledge factor, or biometric information, with any other person. The practitioner must not allow any other person to use the token or enter the knowledge factor or other identification means to sign prescriptions for controlled substances. 21 CFR § 1311.102 and NAC 639.7105(2)(b).

20. The Controlled Substances Act imposes strict liability on registrants to provide effective controls and procedures to guard against theft and diversion, which includes the duty to safeguard prescribing credentials from unauthorized use. *See* 21 CFR 1301.71(a). 21 U.S.C. § 843(a)(2) criminalizes the use of another person's DEA registration number

21. A practitioner shall, before issuing an initial prescription for a controlled substance, and at least once every 90 days thereafter for the duration of the course of treatment using the controlled substance, obtain a patient utilization report regarding the patient from the PMP. NRS 639.23507.

22. A practitioner registered with the Board to write prescriptions for controlled substances must access his or her prescriber activity in the PMP at least once every 6 months to review prescriptions issued by the practitioner and to verify for the Board that he or she continues to have access to the PMP. NRS 453.164(7).

23. Any licensee registered with the Board must provide access to all records of sale and disposition of drugs, medicines or poisons or devices or appliances that are restricted by federal law to sale by or on the order of a physician, to members of the Board, its inspectors, and investigators. NRS 639.090. *See also* NRS 639.239 (duty to provide prescription records); NRS 453.246 (records related to controlled substances).

24. Every practitioner who engages in the practicing of furnishing dangerous drugs to patients shall maintain a complete and accurate record of all dangerous drugs purchased and those sold on prescription, dispensed, furnished or disposed of otherwise. NRS 454.286(1). The records must be retained for a period of 2 years and must be open to inspection by members, inspectors or investigators of the Board. NRS 454.286(2). *See also* 21 U.S.C. § 827 (recordkeeping requirements by registrants); 21 CFR § 1304.06 and 21 CFR § 1311.305 (regarding electronic prescription records).

25. Performing or in any way being a party to any fraudulent or deceitful practice or transaction constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(h) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 453.236(1)(e) and NRS 639.210(4).

26. Prescribing a drug to any patient with whom the prescribing practitioner does not have a bona fide therapeutic relationship constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(n)(2) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4). A bona fide relationship shall be deemed to exist if the patient was examined in person, electronically, telephonically or by fiber optics within or outside of this State or the United States by the practitioner within the 6 months immediately preceding the date the prescription was issued. NAC 639.752.

27. Performing any duties as the holder of a controlled substance registration in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(i) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

28. Aiding or abetting a person in unlicensed practice constitutes unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(j) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

29. Violating any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(11).

30. Violating, attempting to violate, assisting or abetting in the violation of or conspiring to violate any law or regulation relating to drugs is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(12).

31. The Board may suspend or revoke a registration issued pursuant to NRS 453.231 upon a finding that the registrant has committed an act that renders registration inconsistent with the public interest. NRS 453.236(1)(e) and NRS 453.241(1).

COUNT ONE

Unprofessional Conduct -Party to Fraudulent or Deceitful Practice or Transaction by Permitting Use of Credentials
(All Respondents)

32. As alleged above, by permitting Lindberg to use their credentials and act under their authority to fraudulently issue prescriptions for controlled substances, each Respondent was party to a fraudulent or deceitful practice or transaction and engaged in unprofessional conduct and conduct contrary to the public interest as defined in NAC 639.945(1)(h), and is subject to discipline pursuant to NRS 453.236(l)(e), NRS 453.241(1) and/or NRS 639.210(4).

\\\

\\\

COUNT TWO

Unprofessional Conduct -Incompetent, Unskillful or Negligent Performance of Duties by Allowing Prescribing Credentials to be Compromised
(All Respondents)

33. As alleged above, to the extent each Respondent's electronic prescribing credentials were compromised and resulted in the unlawful issuance of fraudulent controlled substance prescriptions by a third party, Respondents failed to comply with 21 CFR § 1311.102, NRS 453.164(7) and NAC 639.7105(2)(b), performed their duties as the holder of a Nevada controlled substance registration in an incompetent, unskillful or negligent manner, and engaged in unprofessional conduct as defined in NAC 639.945(1)(i), committed acts that render their registration inconsistent with the public interest, and is subject to discipline pursuant to NRS 453.236(1), NRS 453.241(1) and/or NRS 639.210(4), (11) and (12).

COUNT THREE

Violations of Federal Controlled Substances Act – Unlawfully Issuing Electronic Prescriptions for Controlled Substances
(All Respondents)

34. As alleged above, by permitting Lindberg to use their credentials and act under their authority to issue electronic prescriptions for controlled substances, each Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate 21 CFR 1301.71(a). 21 U.S.C. § 843(a)(2),21 U.S.C. § 822(a)(2), 21 U.S.C. § 823(f), 21 U.S.C. § 846, 21 CFR § 1306.03(a), 21 CFR § 1306.04(a), 21 CFR § 1311.100 and/or 21 CFR § 1311.102 and is subject to discipline pursuant to NRS 453.236(1)(d) and (e), NRS 453.241(1) and/or NRS 639.210(11).

\\\

\\\

\\\

COUNT FOUR

Unprofessional Conduct – Assisting or abetting unlicensed practice
(All Respondents)

35. As alleged above, Lindberg did not have licensure from the Board as required by NRS 639.100(1) when he used each Respondent's credential and acted under their authority to issue electronic prescriptions for controlled substances.

36. By assisting and abetting Lindberg's unlicensed activity, each Respondent engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(j), and is subject to discipline pursuant to NRS 639.210(4).

COUNT FIVE

Violations of State Law – Unlawfully Issuing Electronic Prescriptions for Controlled Substances
(All Respondents)

37. As alleged above, by permitting Lindberg to use their credentials and act under their authority to issue electronic prescriptions for controlled substances, each Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 453.381(1), NRS 453.385, NRS 453.401(l)(a), NRS 639.235(1), NRS 639.23535, NRS 639.23911(1)(a), NRS 639.2813(1) and/or NAC 639.7105, and is subject to discipline pursuant to NRS 453.236(1)(d) and (e), NRS 453.241(1), NRS 639.210(12) and/or NRS 639.23916(3)(b).

COUNT SIX

Unprofessional Conduct by a Practitioner – Failure to Query PMP Database
(All Respondents)

38. As alleged above, each Respondent failed to query the PMP database regarding his or her patients' histories of using controlled substances as required by law. NRS 639.23507.

39. As alleged above, each Respondent failed to query the PMP database regarding his or her own prescriber activity as required by law. NRS 453.164(7).

40. By failing to query the PMP database to review their patients' utilization reports prior to issuing a prescription for a controlled substance, and by failing to review their own prescriber activity on a semi-annual basis, Respondents violated NRS 453.164(7) and NRS 639.23507.

41. Furthermore, by failing to query the PMP database to review their patients' utilization report prior to issuing a prescription for a controlled substance, and by failing to review their own prescriber activity on a semi-annual basis, each Respondent performed his or her duties as the holder of a certificate issued by the Board in an incompetent, unskillful or negligent manner.

42. As alleged above, each Respondent's conduct constitutes unprofessional conduct for which the Board may impose administrative discipline. NRS 639.210(4); NAC 639.945(1)(i).

COUNT SEVEN
Unprofessional Conduct – Prescribing Without Bona Fide Therapeutic Relationship
(Respondent Bernardi)

43. As alleged above, during the course of Bernardi's employment with Young4Life, a physician's assistant evaluated patients either in-person or via telehealth, and Bernardi reviewed and signed off on patient charts and prescriptions sent under his name.

44. By failing to personally evaluate patients for whom he prescribed controlled substances, Bernardi did not form a bona fide therapeutic relationship as defined in NAC 639.752(4).

45. By permitting the use of his credentials to issue electronic prescriptions for controlled substances to patients with whom he did not have a bona fide therapeutic relationship, Respondent Bernardi engaged in unprofessional conduct and conduct contrary to the public

interest as defined in NAC 639.945(1)(n)(2), and is subject to discipline pursuant to NRS 453.236(1)(e), NRS 453.241(1) and/or NRS 639.210(4).

COUNT EIGHT
Violations of Federal and State Law – Recordkeeping
(Respondents Bernardi and Hubbard)

46. As alleged above, by failing to respond to a Board investigator's requests for information and records related to an investigation into their prescribing activities, Respondents violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 639.090, NRS 454.286(2), NRS 453.246, NRS 639.239, 21 U.S.C. § 827, 21 CFR § 1311.120(28), 21 CFR § 1304.06, 21 CFR § 1311.305, and 21 CFR § 1311.305, and are subject to discipline pursuant to NRS 453.236(1)(e), NRS 453.241(1) and/or NRS 639.210(11) and/or (12).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of each of the Respondents herein.

DATED this 26th day of AUGUST 2026.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3). The hearing shall be conducted pursuant to NRS 639.241 through NRS 639.258. To be entitled to a hearing, you must complete, and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Notice of Intended Action and Accusation. NRS 622A.320; NRS 639.243. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350. A regulatory body may recover from a person reasonable attorney's fees and costs that are incurred by the regulatory body as a part of its investigative, administrative, and disciplinary proceedings against the person if the regulatory body finds that the person has violated any provision of this title. J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter and these respondents because, at the time of the events alleged herein, Justin Spangler, PA ("Spangler") held a registration issued by the Board, Certificate of Registration No. CS28770; Mikayla Strief, APRN ("Strief") held a registration issued by the Board, Certificate of Registration No. CS37751; Daniel Inglish, DO ("Inglish") held a registration issued by the

Board, Certificate of Registration No. CS22888; Mary Miller-Wilson, APRN ("Miller-Wilson") held a registration issued by the Board, Certificate of Registration No. CS33703; Mark Bernardi, MD ("Bernardi") held a registration issued by the Board, Certificate of Registration No. CS29595; and Tiana Hubbard, APRN ("Hubbard") held a registration issued by the Board, Certificate of Registration No. CS25791.

FACTUAL ALLEGATIONS

2. Respondent Spangler is licensed by the Nevada State Board of Medical Examiners as a physician assistant. At the time of the violations alleged herein, Spangler was a "practitioner" as that term is defined at NRS 453.126(5) and 639.0125(4).

3. Respondents Strief, Miller-Wilson, and Hubbard are licensed by the Nevada State Board of Nursing as advanced practice registered nurses. At the time of the violations alleged herein, Strief, Miller-Wilson, and Hubbard were "practitioners" as that term is defined at NRS 453.126(2) and 639.0125(3).

4. Respondent Inglish is licensed by the Nevada State Board of Osteopathic Medicine as an osteopathic physician. At the time of the violations alleged herein, Inglish was a "practitioner" as that term is defined at NRS 453.126(1) and 639.0125(1).

5. Respondent Bernardi is licensed by the Nevada State Board of Medical Examiners as a physician. At the time of the violations alleged herein, Bernardi was a "practitioner" as that term is defined at NRS 453.126(1) and 639.0125(1).

6. On or about March 2022, David Lindberg ("Lindberg") began operating the wellness clinic D.C.L., LLC, dba Magnus Medical Health and Wellness ("Magnus"), located at 8540 S. Eastern Avenue, Suite 160, in Las Vegas, Nevada. Lindberg is not a licensed practitioner as that term is defined at NRS 453.126(1) and 639.0125(1) and not licensed by the Board or the

Federal Drug Enforcement Administration ("DEA") to possess, administer, prescribe or dispense dangerous drugs or controlled substances.

7. During the relevant timeframe, Respondents Spangler, Strief, Miller-Wilson, Inglish, and Hubbard worked as practitioners at Magnus.

8. On or about September 2024, Lindberg sold Magnus to new owners Donald Min ("Min") and Young Kim ("Kim"), who renamed the business Young4Life. Neither Min nor Kim are licensed practitioners as that term is defined at NRS 453.126(1) and 639.0125(1) or licensed by the Board or DEA to possess, administer, prescribe or dispense dangerous drugs or controlled substances.

9. Min and Kim formed Young4Life in late 2024 and assumed Magnus's established customers and business model. Young4Life retained Lindberg as a marketing consultant.

10. During the relevant timeframe, Respondents Spangler and Bernardi worked as practitioners at Young4Life.

11. A Board investigation found that, as owner of Magnus, between September 2022 and September 2024, Lindberg regularly used several Magnus employees' prescribing credentials to issue prescriptions and access prescribing systems. From September 2024 through at least May 2025, as marketing consultant, Lindberg continued using Young4Life employee's prescribing credentials to issue prescriptions and access prescribing systems.

12. Specifically, during the relevant timeframe, each Respondent permitted Lindberg to access prescribing systems and issue the following controlled substance prescriptions using their electronic prescribing credentials:

A. According to Board records, between May 2024 and November 2024, while employed by Magnus and Young4Life, Spangler authorized 548 controlled

substance prescriptions for 397 unique patients. Furthermore, according to the Board's records, Spangler did not access the PMP database to review his own prescribing activity ("MyRx report") from September 2019 to July 18, 2025. Spangler has only run one patient PMP query, in October 2019.

B. Between May 2024 and November 2024, while employed by Magnus, Strief authorized 170 controlled substance prescriptions for Nevada patients. Strief checked her MyRx report only one time, in December 2024. Strief also did not run any patient PMP queries prior to December 2024.

C. Per company policy, Strief delegated the entire prescribing process to Magnus. As such, Strief sent her prescribing token to Magnus and did not personally authorize any prescriptions for armodafinil, chorionic gonad or ketamine that appeared on her prescribing report from April to November 2024.

D. Between May 2024 and May 2025, while employed by Magnus, Inglish prescribed 63 controlled substances for Nevada patients. Inglish checked his MyRx report two times, in April 2025 and August 2025. He did not check it prior to that date. Inglish has not run any patient PMP queries since June 2022.

E. Between March 2022 and March 2024, while employed by Magnus, Miller-Wilson prescribed 1,846 controlled substances for 714 unique Nevada patients. Miller-Wilson checked her MyRx report once in October 2023. She has been compliant in checking her MyRx report since October 2024.

F. Per company policy, Miller-Wilson delegated the entire prescribing process to Magnus.

G. Between February 2025 and June 25, 2025, while employed by Young4Life, Bernardi prescribed 327 controlled substances for 203 unique Nevada patients. Bernardi has not checked his MyRx report from June 2022 and July 2025. Bernardi did not run any patient PMP queries prior to August 4, 2025.

H. Per company policy at Young4Life, Spangler or another physician's assistant would evaluate patients, generally via telehealth. Bernardi would then sign off on patient charts and prescriptions that were sent via his electronic credentials. Bernardi delegated the issuing of electronic prescriptions to someone else at Young4Life.

I. Between February 2023 and March 2024, while employed by Magnus, Hubbard prescribed 381 controlled substances for 202 unique Nevada patients. Hubbard checked her MyRx report only one time, in October 2024. She has not run any patient PMP queries between April 2019 and May 2025.

13. Between June 30, 2025 through August 20, 2025, Board Investigator Dena McClish (McClish) attempted to communicate with Bernardi to discuss his patient records and employment at Young4Life. Although Bernardi indicated that he would cooperate with McClish's investigation, he ultimately failed to respond to her requests for information.

14. On or about July 1, 2025, McClish attempted to contact Hubbard through certified and regular U.S. Mail and e-mail about her patient records and employment with Magnus. Hubbard failed to respond to her requests for information.

PRIOR DISCIPLINE

15. On December 3, 2025, the Board disciplined Respondent Inglish for allowing unlicensed individuals independent access to dangerous drugs; allowing unlicensed individuals to access, possess, furnish, and administer dangerous drugs; permitting the administration of patient-specific prescription medications to multiple patients; intermingling of adulterated and expired drugs; falsifying prescriptions; and aiding and abetting unlicensed practice. The Board placed Respondent Inglish on one-year probation beginning on December 3, 2025, and ordered him to pay a $5,000 fine and $1,000 in fees and costs.

APPLICABLE LAW

16. Pursuant to NRS 639.100(1), it is unlawful for any person to manufacture, engage in wholesale distribution, compound, sell or dispense, or permit to be manufactured, distributed at wholesale, compounded, sold or dispensed, any drug, poison, medicine or chemical, or to dispense or compound, or permit to be dispensed or compounded drugs without having secured the appropriate license and/or certificate of registration from the Board.

17. Falsifying a prescription for a controlled substance is a felony offense. 21 U.S.C. § 841(a); 21 U.S.C. § 842(a); NRS 453.331(1).

18. A prescription for a controlled substance may be issued only for a legitimate medical purpose and in the usual course of his or her professional practice by an individual practitioner who holds a DEA registration and is authorized to prescribe controlled substances by the jurisdiction in which he is licensed to practice his profession, to a patient with whom the practitioner has established a bona fide therapeutic relationship. 21 U.S.C. § 822(a)(2); 21 U.S.C. § 823(f); 21 CFR § 1306.03(a); 21 CFR § 1306.04(a); NRS 453.381(1); NRS 639.235(1); NRS 639.23911(1)(a); NRS 639.2813(1).

19. A practitioner must retain sole possession of the hard token, where applicable, and must not share the password or other knowledge factor, or biometric information, with any other person. The practitioner must not allow any other person to use the token or enter the knowledge factor or other identification means to sign prescriptions for controlled substances. 21 CFR § 1311.102 and NAC 639.7105(2)(b).

20. The Controlled Substances Act imposes strict liability on registrants to provide effective controls and procedures to guard against theft and diversion, which includes the duty to safeguard prescribing credentials from unauthorized use. *See* 21 CFR 1301.71(a). 21 U.S.C. § 843(a)(2) criminalizes the use of another person's DEA registration number

21. A practitioner shall, before issuing an initial prescription for a controlled substance, and at least once every 90 days thereafter for the duration of the course of treatment using the controlled substance, obtain a patient utilization report regarding the patient from the PMP. NRS 639.23507.

22. A practitioner registered with the Board to write prescriptions for controlled substances must access his or her prescriber activity in the PMP at least once every 6 months to review prescriptions issued by the practitioner and to verify for the Board that he or she continues to have access to the PMP. NRS 453.164(7).

23. Any licensee registered with the Board must provide access to all records of sale and disposition of drugs, medicines or poisons or devices or appliances that are restricted by federal law to sale by or on the order of a physician, to members of the Board, its inspectors, and investigators. NRS 639.090. *See also* NRS 639.239 (duty to provide prescription records); NRS 453.246 (records related to controlled substances).

24. Every practitioner who engages in the practicing of furnishing dangerous drugs to patients shall maintain a complete and accurate record of all dangerous drugs purchased and those sold on prescription, dispensed, furnished or disposed of otherwise. NRS 454.286(1). The records must be retained for a period of 2 years and must be open to inspection by members, inspectors or investigators of the Board. NRS 454.286(2). *See also* 21 U.S.C. § 827 (recordkeeping requirements by registrants); 21 CFR § 1304.06 and 21 CFR § 1311.305 (regarding electronic prescription records).

25. Performing or in any way being a party to any fraudulent or deceitful practice or transaction constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(h) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 453.236(1)(e) and NRS 639.210(4).

26. Prescribing a drug to any patient with whom the prescribing practitioner does not have a bona fide therapeutic relationship constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(n)(2) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4). A bona fide relationship shall be deemed to exist if the patient was examined in person, electronically, telephonically or by fiber optics within or outside of this State or the United States by the practitioner within the 6 months immediately preceding the date the prescription was issued. NAC 639.752.

27. Performing any duties as the holder of a controlled substance registration in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(i) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

28. Aiding or abetting a person in unlicensed practice constitutes unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(j) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

29. Violating any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(11).

30. Violating, attempting to violate, assisting or abetting in the violation of or conspiring to violate any law or regulation relating to drugs is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(12).

31. The Board may suspend or revoke a registration issued pursuant to NRS 453.231 upon a finding that the registrant has committed an act that renders registration inconsistent with the public interest. NRS 453.236(1)(e) and NRS 453.241(1).

COUNT ONE

Unprofessional Conduct -Party to Fraudulent or Deceitful Practice or Transaction by Permitting Use of Credentials
(All Respondents)

32. As alleged above, by permitting Lindberg to use their credentials and act under their authority to fraudulently issue prescriptions for controlled substances, each Respondent was party to a fraudulent or deceitful practice or transaction and engaged in unprofessional conduct and conduct contrary to the public interest as defined in NAC 639.945(1)(h), and is subject to discipline pursuant to NRS 453.236(l)(e), NRS 453.241(1) and/or NRS 639.210(4).

\\\

\\\

COUNT TWO

Unprofessional Conduct -Incompetent, Unskillful or Negligent Performance of Duties by Allowing Prescribing Credentials to be Compromised
(All Respondents)

33. As alleged above, to the extent each Respondent's electronic prescribing credentials were compromised and resulted in the unlawful issuance of fraudulent controlled substance prescriptions by a third party, Respondents failed to comply with 21 CFR § 1311.102, NRS 453.164(7) and NAC 639.7105(2)(b), performed their duties as the holder of a Nevada controlled substance registration in an incompetent, unskillful or negligent manner, and engaged in unprofessional conduct as defined in NAC 639.945(1)(i), committed acts that render their registration inconsistent with the public interest, and is subject to discipline pursuant to NRS 453.236(1), NRS 453.241(1) and/or NRS 639.210(4), (11) and (12).

COUNT THREE

Violations of Federal Controlled Substances Act – Unlawfully Issuing Electronic Prescriptions for Controlled Substances
(All Respondents)

34. As alleged above, by permitting Lindberg to use their credentials and act under their authority to issue electronic prescriptions for controlled substances, each Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate 21 CFR 1301.71(a). 21 U.S.C. § 843(a)(2),21 U.S.C. § 822(a)(2), 21 U.S.C. § 823(f), 21 U.S.C. § 846, 21 CFR § 1306.03(a), 21 CFR § 1306.04(a), 21 CFR § 1311.100 and/or 21 CFR § 1311.102 and is subject to discipline pursuant to NRS 453.236(1)(d) and (e), NRS 453.241(1) and/or NRS 639.210(11).

\\\

\\\

\\\

COUNT FOUR

Unprofessional Conduct – Assisting or abetting unlicensed practice
(All Respondents)

35. As alleged above, Lindberg did not have licensure from the Board as required by NRS 639.100(1) when he used each Respondent's credential and acted under their authority to issue electronic prescriptions for controlled substances.

36. By assisting and abetting Lindberg's unlicensed activity, each Respondent engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(j), and is subject to discipline pursuant to NRS 639.210(4).

COUNT FIVE

Violations of State Law – Unlawfully Issuing Electronic Prescriptions for Controlled Substances
(All Respondents)

37. As alleged above, by permitting Lindberg to use their credentials and act under their authority to issue electronic prescriptions for controlled substances, each Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 453.381(1), NRS 453.385, NRS 453.401(l)(a), NRS 639.235(1), NRS 639.23535, NRS 639.23911(1)(a), NRS 639.2813(1) and/or NAC 639.7105, and is subject to discipline pursuant to NRS 453.236(1)(d) and (e), NRS 453.241(1), NRS 639.210(12) and/or NRS 639.23916(3)(b).

COUNT SIX

Unprofessional Conduct by a Practitioner – Failure to Query PMP Database
(All Respondents)

38. As alleged above, each Respondent failed to query the PMP database regarding his or her patients' histories of using controlled substances as required by law. NRS 639.23507.

39. As alleged above, each Respondent failed to query the PMP database regarding his or her own prescriber activity as required by law. NRS 453.164(7).

40. By failing to query the PMP database to review their patients' utilization reports prior to issuing a prescription for a controlled substance, and by failing to review their own prescriber activity on a semi-annual basis, Respondents violated NRS 453.164(7) and NRS 639.23507.

41. Furthermore, by failing to query the PMP database to review their patients' utilization report prior to issuing a prescription for a controlled substance, and by failing to review their own prescriber activity on a semi-annual basis, each Respondent performed his or her duties as the holder of a certificate issued by the Board in an incompetent, unskillful or negligent manner.

42. As alleged above, each Respondent's conduct constitutes unprofessional conduct for which the Board may impose administrative discipline. NRS 639.210(4); NAC 639.945(1)(i).

COUNT SEVEN
Unprofessional Conduct – Prescribing Without Bona Fide Therapeutic Relationship
(Respondent Bernardi)

43. As alleged above, during the course of Bernardi's employment with Young4Life, a physician's assistant evaluated patients either in-person or via telehealth, and Bernardi reviewed and signed off on patient charts and prescriptions sent under his name.

44. By failing to personally evaluate patients for whom he prescribed controlled substances, Bernardi did not form a bona fide therapeutic relationship as defined in NAC 639.752(4).

45. By permitting the use of his credentials to issue electronic prescriptions for controlled substances to patients with whom he did not have a bona fide therapeutic relationship, Respondent Bernardi engaged in unprofessional conduct and conduct contrary to the public

interest as defined in NAC 639.945(1)(n)(2), and is subject to discipline pursuant to NRS 453.236(1)(e), NRS 453.241(1) and/or NRS 639.210(4).

COUNT EIGHT
Violations of Federal and State Law – Recordkeeping
(Respondents Bernardi and Hubbard)

46. As alleged above, by failing to respond to a Board investigator's requests for information and records related to an investigation into their prescribing activities, Respondents violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 639.090, NRS 454.286(2), NRS 453.246, NRS 639.239, 21 U.S.C. § 827, 21 CFR § 1311.120(28), 21 CFR § 1304.06, 21 CFR § 1311.305, and 21 CFR § 1311.305, and are subject to discipline pursuant to NRS 453.236(1)(e), NRS 453.241(1) and/or NRS 639.210(11) and/or (12).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of each of the Respondents herein.

DATED this 28th day of AUGUST 2026.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **AURELIA HURTADA-SADOWSKI, RPH, Certificate of Registration No. 15345, and** **SUMMERLIN HOSPITAL MEDICAL CENTER, License No. IA02194,** **Respondents.**	**Case No. 25-209-RPH-S** **25-209-PH-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Aurelia Hurtada-Sadowski, RPh, (Hurtada-Sadowski), Certificate of Registration No. 15345, was a pharmacist licensed by the Board, and Respondent Summerlin Hospital Medical Center (Summerlin Hospital), License No. IA02194, was registered as a pharmacy by the Board.

FACTUAL ALLEGATIONS

2. Hurtada-Sadowski was employed as a pharmacist at Summerlin Hospital, located at 653 N. Town Center Drive in Las Vegas, at the time of the events alleged herein.

3. On May 5, 2025, patient J.B. arrived at the emergency department of Summerlin Hospital and reported that she was experiencing symptoms of an acute multiple sclerosis flare up.

4. Alexander Payne, MD, (Payne) was the medical practitioner on duty when patient J.B. arrived.

5. Patient J.B. informed Payne that she wanted to be treated with Solu-Medrol (methylprednisolone). Patient J.B. told Payne that she had had an allergic reaction to Solu-Medrol in the past, but that she had been able to tolerate it when pre-treated with Benadryl.

6. After consultation with patient J.B., Payne submitted an order for methylprednisolone 125 mg administered via IV piggyback along with Benadryl 50 mg 1 ML administered via IV push.

7. When submitting the order, Payne did not enter into the patient's chart that she had a known allergy to methylprednisolone and did not include any other notes. The order also did not contain a diluent or volume, as is required for an IV piggyback.

8. Hurtada-Sadowski was the pharmacist on duty at the time Payne submitted the order. While Hurtada-Sadowski was processing the order, she received a prompt generated by the computer system indicating that an IV push was the standard practice for methylprednisolone 125 mg.

9. Because the chart order was incomplete, Summerlin Hospital's system would not allow Hurtada-Sadowski to release the product without making a change.

10. Hurtada-Sadowski did not contact or notify Payne about the missing information regarding administration route or lack of accompanying notations and changed the order for methylprednisolone to IV push instead of IV piggyback to reflect the computer's prompting.

11. Registered Nurse George Maldonado (Maldonado) received the order back from Hurtada-Sadowski and pushed 0.55 cc of methylprednisolone over 30 seconds, then paused to assess.

12. After the initial medication push, patient J.B. reported anaphylactic symptoms, and Maldonado contacted Payne, who began treating patient J.B. for anaphylaxis.

13. Despite intervention, patient J.B. was placed on life support that night. She was not taken off life support and died two days later, on May 7, 2025. The cause of death was listed as multisystem organ failure due to cardiac arrest secondary to anaphylaxis.

14. Summerlin Hospital terminated Hurtada-Sadowski a few months later.

PRIOR DISCIPLINE

15. In December 2008, the Board disciplined an employee of Respondent Summerlin Hospital for diversion of controlled substances, resulting in the revocation of the employee's license.

16. In April 2008, the Board disciplined Respondent Summerlin Hospital for the death of an infant patient because of drug overdose, resulting in a $10,000 fine to Respondent Summerlin Hospital.

APPLICABLE LAW

17. Medical facilities must have original chart orders that contain, among other information, the name of the drug, its strength, and the route of administration, as well as directions for use of the drug. NAC 639.484(1)(b),(c).

18. Pursuant to NAC 639.753, a pharmacist may use his or her professional judgment to reasonably decline to fill a prescription after speaking with the prescribing practitioner in a timely manner to discuss and resolve the concerns the pharmacist has regarding the prescription.

19. Pharmacists have a duty to exercise independent judgment regarding patient care pursuant to NAC 639.753.

20. Unprofessional conduct includes a registrant performing his or her duties in an "incompetent, unskillful, or negligent manner." NAC 639.945(1)(i). The Board may suspend or revoke any certificate, license, registration or permit if the holder is guilty of unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4).

21. Any violation of any of the provisions of NRS Chapter 639 by a managing pharmacist or by personnel of the pharmacy is cause for the suspension or revocation of the license by the Board. NRS 639.230(5); NAC 639.702. Furthermore, the owner of any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(3).

22. The Board may discipline a licensee who has violated any provisions of a regulation relating to the practice of pharmacy. NRS 639.210(12).

23. In lieu of, or in addition to, revoking or suspending a license holder's registration for violating the law or engaging in unprofessional conduct, the Board may impose fines as a disciplinary measure. *See* NRS 639.255; NAC 639.955.

COUNT ONE
Unprofessional Conduct by a Pharmacist – Failure to Confer with Healthcare Provider (Respondent Hurtada-Sadowski)

24. As alleged above, on or about May 5, 2025, Respondent Hurtada-Sadowski received a chart that did not contain complete information as required by NAC 639.484(1)(b),(c).

25. As alleged above, Respondent Hurtada-Sadowski filled the chart order for patient J.B. even though she knew or should have known to contact Payne about the incomplete chart order when she received conflicting information from the hospital computer system. Respondent Hurtada-Sadowski's conduct was unprofessional because she failed to confer with patient J.B.'s health care provider regarding the incomplete chart order. NAC 639.753.

26. Having failed to confer directly with a patient's health care provider and changing the chart order of the patient's health care provider, Respondent Hurtada-Sadowski performed her duties in an incompetent, unskillful or negligent manner.

27. Respondent Hurtada-Sadowski's unprofessional conduct may have contributed to patient J.B.'s death.

28. For this unprofessional conduct, the Board may discipline Respondent Hurtada-Sadowski pursuant to NRS 639.210(4), NRS 639.255(1), NAC 639.945, and NAC 639.955.

COUNT TWO
Pharmacy Owner Responsibility
(Respondent Summerlin Hospital)

29. As alleged above, on or about May 5, 2025, Respondent Hurtada-Sadowski changed the chart order for patient J.B. even though she knew or should have known to contact Payne about the incomplete chart order when she received conflicting information from the hospital computer system. Respondent Hurtada-Sadowski's conduct was unprofessional because she failed to confer with patient J.B.'s health care provider regarding the incomplete chart order. Having failed to confer directly with a patient's health care provider and changing the chart order of the patient's health care provider, Respondent Hurtada-Sadowski performed her duties in an incompetent, unskillful or negligent manner.

30. As alleged above, Respondent Summerlin Hospital's computer system would not allow Hurtada-Sadowski to release the chart order without making a change to the order.

31. As the facility at which the unprofessional conduct and violations of law alleged herein occurred, Respondent Summerlin Hospital is responsible for those violations, including all errors and omissions of Respondent Hurtada-Sadowski, Payne, and any other personnel in the course of violations of any law or regulation related to the practice of pharmacy, pursuant NAC 639.945(3). Accordingly, the Board may discipline Summerlin Hospital pursuant to NRS 639.210(4), NRS 639.255(1), NAC 639.945, and NAC 639.955.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of Respondents Aurelia Hurtada-Sadowski and Summerlin Hospital Medical Center.

AFFIRMATIVE DEFENSES

FIRST AFFIRMATIVE DEFENSE

The Complaint fails to state claims against SHMC upon which relief can be granted.

SECOND AFFIRMATIVE DEFENSE

The Complaint does not give SHMC the necessary and appropriate notice of claims against it, which is a violation of SHMC's due process rights.

THIRD AFFIRMATIVE DEFENSE

The injuries, if any, complained of in the Complaint were proximately caused by the acts or omissions of unknown third parties or other persons over whom SHMC exercised no control, and over whom SHMC had no right or duty to control, nor ever had a right or duty to exercise control.

FOURTH AFFIRMATIVE DEFENSE

The damages, if any, alleged were not the result of any acts of omission, or commission, or negligence, but were the result of a known risk which was consented to by Patient J.B. and his/her family/caregivers, such risks being inherent in the nature of the care rendered and such risks were assumed by Patient J.B. and his/her family/caregivers when they consented to treatment.

FIFTH AFFIRMATIVE DEFENSE

In all medical care rendered by SHMC to Patient J.B., SHMC possessed and exercised that degree of skill and learning ordinarily possessed and exercised by the members of its profession in good standing, practicing in similar localities, and that at all times SHMC used reasonable care and diligence in the exercise of its skills and the application of its learning, and at all times acted according to its best judgment; that the medical treatment administered by SHMC was the usual and customary treatment for the physical condition and symptoms exhibited by Patient J.B. and that at no time was SHMC guilty of negligence or improper treatment, that, on the contrary, SHMC did perform each and every act of such treatment in a proper and efficient manner and in a manner

most thoroughly approved and followed by the medical profession generally and under the circumstances and conditions as they existed when such medical attention was rendered.

SIXTH AFFIRMATIVE DEFENSE

At all times mentioned in the Complaint, Patient J.B. was suffering from a medical condition(s) that SHMC did not cause, nor was SHMC responsible for said medical condition(s).

SEVENTH AFFIRMATIVE DEFENSE

Patient J.B.'s maladies and injuries, if any, were caused by inevitable disease processes and not by any act of this Respondent.

EIGHTH AFFIRMATIVE DEFENSE

The injuries complained of in the Complaint, if any, were not the result of willful, malicious or deliberate conduct on the part of SHMC.

NINTH AFFIRMATIVE DEFENSE

SHMC denies each and every allegation of the Board's Complaint not specifically admitted or otherwise pled to herein.

TENTH AFFIRMATIVE DEFENSE

All possible Affirmative Defenses may not have been alleged herein insofar as sufficient facts were not available after reasonable inquiry upon the filing of SHMC's Answer, and therefore, SHMC reserves the right to amend its Answer to allege additional Affirmative Defenses if subsequent investigation warrants.

ELEVENTH AFFIRMATIVE DEFENSE

The damages, if any, alleged in the Board's Complaint are not the result of any acts of omission, commission, or negligence, but were the result of a known risk(s), which was consented to by Patient J.B.

TWELFTH AFFIRMATIVE DEFENSE

SHMC hereby incorporates by reference those affirmative defenses enumerated in NRCP 8 and 12, as if fully set forth herein. In the event further investigation or discovery reveals the

applicability of any such defenses, Respondent reserves the right to seek leave of Court to amend her Answer to specifically assert any such defense(s). Such defenses are herein incorporated by reference for the specific purpose of not waiving any such defense.

THIRTEENTH AFFIRMATIVE DEFENSE

It has been necessary for SHMC to employ the services of an attorney to defend this action and a reasonable sum should be allowed to Respondent for attorneys' fees, together with costs of suit incurred herein.

PRAYER FOR RELIEF

WHEREFORE, SHMC prays for judgment as follows:

1. That the Board takes nothing by virtue of its Complaint, and that all allegations against SHMC are dismissed with prejudice;

2. For reasonable attorneys' fees and costs of suit incurred herein;

3. For costs and disbursements incurred herein; and

4. For such other and further relief as is just and proper.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **AURELIA HURTADA-SADOWSKI, RPH, Certificate of Registration No. 15345, and** **SUMMERLIN HOSPITAL MEDICAL CENTER, License No. IA02194,** **Respondents.**	**CASE NOS. 25-209-RPH-S** **25-209-PH-S** **STIPULATION AND ORDER [SUMMERLIN HOSPITAL MEDICAL CENTER ONLY]**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, by and through counsel, Laura M. Tucker, Esq., and Summerlin Hospital Medical Center, License No. IA02194, ("Respondent"), by and through counsel, Jessica R. Gandy, Esq., hereby stipulate and agree as follows:

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent and this matter.

2. The Board's staff properly served Respondent with the Notice of Intended Action and Accusation ("Accusation") on file in this matter, together with the Statement to Respondent and Notice of Hearing.

3. Respondent is fully aware of the right to seek the advice of counsel in this matter and obtained the advice of counsel prior to entering into this Stipulation.

4. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration, the right to appeal and any and all other rights which may be accorded pursuant to NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

5. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondent has failed to comply with the provisions of

this Stipulation, Respondent hereby knowingly and voluntarily waives the rights to a hearing, reconsideration, appeal and any and all other rights related to this action that may be accorded by NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

6. For the purposes of resolving this matter, without admitting to the alleged facts or legal conclusions, Respondent acknowledges that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the violations alleged in the Accusation, *to wit*:

A. On or about May 5, 2025, Aurelia Hurtada-Sadowski (Hurtada-Sadowski), while employed as a pharmacist by Respondent, received a chart that did not contain complete information as required by NAC 639.484(1)(b),(c).

B. Hurtada-Sadowski engaged in unprofessional conduct as defined in NAC 639.945 when she failed to confer directly with a patient's health care provider and changed the chart order of the patient's health care provider.

C. Respondent's computer system would not allow Hurtada-Sadowski to release the chart order without making a change to the order.

D. As the facility at which the unprofessional conduct and violations of law alleged herein occurred, Respondent is responsible for those violations, including all errors and omissions of Hurtada-Sadowski and any other personnel in the course of violations of any law or regulation related to the practice of pharmacy, pursuant NAC 639.945(3). Accordingly, the Board may discipline Respondent pursuant to NRS 639.210(4), NRS 639.255(1), NAC 639.945, and NAC 639.955.

7. Those violations are pled with particularity in the Accusation and grounds for action pursuant to NRS 639.210 and NRS 639.255.

8. Now, therefore, to resolve the allegations stated in Count Two of the Accusation without incurring any further costs or the expenses associated with a hearing, the Board and Respondent agree to the imposition of the following penalties:

A. Respondent shall pay an administrative fine of **Seven Thousand Five Hundred and 00/100 Dollars ($7,500.00)**, payable by *personal, business, certified or cashier's check or money order* written to the "**State of Nevada, Office of the Treasurer.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Stipulation.

B. Respondent shall pay the sum of **One Thousand Five Hundred and 00/100 Dollars ($1,500.00)** to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter. This sum shall be payable by *personal, business, certified or cashier's check or money order* written to the "**Nevada State Board of Pharmacy.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Stipulation.

C. Within 60 days of the date of the order, Respondent must provide the Board staff with a copy of its updated policy related to the hospital's medication administration policy, including the administration of injectable medications and how pharmacists proceed with incorrect or incomplete medication orders.

9. Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may impose additional discipline upon Respondent not inconsistent with the provisions of NRS Chapters 453 and 639.

10. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on October 14, 2026. Respondent will appear at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent or counsel are not present at the meeting.

11. The Board has discretion to accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 USC § 1396r–2 and 45 CFR Part 60, and shall be further reported pursuant to NAC 639.960.

12. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the merits of this matter may be heard by the Board. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

13. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any and all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order.

//

//

//

//

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **AURELIA HURTADA-SADOWSKI, RPH, Certificate of Registration No. 15345, and** **SUMMERLIN HOSPITAL MEDICAL CENTER, License No. IA02194,** **Respondents.**	**Case No. 25-209-RPH-S** **25-209-PH-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Aurelia Hurtada-Sadowski, RPh, (Hurtada-Sadowski), Certificate of Registration No. 15345, was a pharmacist licensed by the Board, and Respondent Summerlin Hospital Medical Center (Summerlin Hospital), License No. IA02194, was registered as a pharmacy by the Board.

FACTUAL ALLEGATIONS

2. Hurtada-Sadowski was employed as a pharmacist at Summerlin Hospital, located at 653 N. Town Center Drive in Las Vegas, at the time of the events alleged herein.

3. On May 5, 2025, patient J.B. arrived at the emergency department of Summerlin Hospital and reported that she was experiencing symptoms of an acute multiple sclerosis flare up.

4. Alexander Payne, MD, (Payne) was the medical practitioner on duty when patient J.B. arrived.

5. Patient J.B. informed Payne that she wanted to be treated with Solu-Medrol (methylprednisolone). Patient J.B. told Payne that she had had an allergic reaction to Solu-Medrol in the past, but that she had been able to tolerate it when pre-treated with Benadryl.

6. After consultation with patient J.B., Payne submitted an order for methylprednisolone 125 mg administered via IV piggyback along with Benadryl 50 mg 1 ML administered via IV push.

7. When submitting the order, Payne did not enter into the patient's chart that she had a known allergy to methylprednisolone and did not include any other notes. The order also did not contain a diluent or volume, as is required for an IV piggyback.

8. Hurtada-Sadowski was the pharmacist on duty at the time Payne submitted the order. While Hurtada-Sadowski was processing the order, she received a prompt generated by the computer system indicating that an IV push was the standard practice for methylprednisolone 125 mg.

9. Because the chart order was incomplete, Summerlin Hospital's system would not allow Hurtada-Sadowski to release the product without making a change.

10. Hurtada-Sadowski did not contact or notify Payne about the missing information regarding administration route or lack of accompanying notations and changed the order for methylprednisolone to IV push instead of IV piggyback to reflect the computer's prompting.

11. Registered Nurse George Maldonado (Maldonado) received the order back from Hurtada-Sadowski and pushed 0.55 cc of methylprednisolone over 30 seconds, then paused to assess.

12. After the initial medication push, patient J.B. reported anaphylactic symptoms, and Maldonado contacted Payne, who began treating patient J.B. for anaphylaxis.

13. Despite intervention, patient J.B. was placed on life support that night. She was not taken off life support and died two days later, on May 7, 2025. The cause of death was listed as multisystem organ failure due to cardiac arrest secondary to anaphylaxis.

14. Summerlin Hospital terminated Hurtada-Sadowski a few months later.

PRIOR DISCIPLINE

15. In December 2008, the Board disciplined an employee of Respondent Summerlin Hospital for diversion of controlled substances, resulting in the revocation of the employee's license.

16. In April 2008, the Board disciplined Respondent Summerlin Hospital for the death of an infant patient because of drug overdose, resulting in a $10,000 fine to Respondent Summerlin Hospital.

APPLICABLE LAW

17. Medical facilities must have original chart orders that contain, among other information, the name of the drug, its strength, and the route of administration, as well as directions for use of the drug. NAC 639.484(1)(b),(c).

18. Pursuant to NAC 639.753, a pharmacist may use his or her professional judgment to reasonably decline to fill a prescription after speaking with the prescribing practitioner in a timely manner to discuss and resolve the concerns the pharmacist has regarding the prescription.

19. Pharmacists have a duty to exercise independent judgment regarding patient care pursuant to NAC 639.753.

20. Unprofessional conduct includes a registrant performing his or her duties in an "incompetent, unskillful, or negligent manner." NAC 639.945(1)(i). The Board may suspend or revoke any certificate, license, registration or permit if the holder is guilty of unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4).

21. Any violation of any of the provisions of NRS Chapter 639 by a managing pharmacist or by personnel of the pharmacy is cause for the suspension or revocation of the license by the Board. NRS 639.230(5); NAC 639.702. Furthermore, the owner of any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(3).

22. The Board may discipline a licensee who has violated any provisions of a regulation relating to the practice of pharmacy. NRS 639.210(12).

23. In lieu of, or in addition to, revoking or suspending a license holder's registration for violating the law or engaging in unprofessional conduct, the Board may impose fines as a disciplinary measure. *See* NRS 639.255; NAC 639.955.

COUNT ONE
Unprofessional Conduct by a Pharmacist – Failure to Confer with Healthcare Provider (Respondent Hurtada-Sadowski)

24. As alleged above, on or about May 5, 2025, Respondent Hurtada-Sadowski received a chart that did not contain complete information as required by NAC 639.484(1)(b),(c).

25. As alleged above, Respondent Hurtada-Sadowski filled the chart order for patient J.B. even though she knew or should have known to contact Payne about the incomplete chart order when she received conflicting information from the hospital computer system. Respondent Hurtada-Sadowski's conduct was unprofessional because she failed to confer with patient J.B.'s health care provider regarding the incomplete chart order. NAC 639.753.

26. Having failed to confer directly with a patient's health care provider and changing the chart order of the patient's health care provider, Respondent Hurtada-Sadowski performed her duties in an incompetent, unskillful or negligent manner.

27. Respondent Hurtada-Sadowski's unprofessional conduct may have contributed to patient J.B.'s death.

28. For this unprofessional conduct, the Board may discipline Respondent Hurtada-Sadowski pursuant to NRS 639.210(4), NRS 639.255(1), NAC 639.945, and NAC 639.955.

COUNT TWO
Pharmacy Owner Responsibility
(Respondent Summerlin Hospital)

29. As alleged above, on or about May 5, 2025, Respondent Hurtada-Sadowski changed the chart order for patient J.B. even though she knew or should have known to contact Payne about the incomplete chart order when she received conflicting information from the hospital computer system. Respondent Hurtada-Sadowski's conduct was unprofessional because she failed to confer with patient J.B.'s health care provider regarding the incomplete chart order. Having failed to confer directly with a patient's health care provider and changing the chart order of the patient's health care provider, Respondent Hurtada-Sadowski performed her duties in an incompetent, unskillful or negligent manner.

30. As alleged above, Respondent Summerlin Hospital's computer system would not allow Hurtada-Sadowski to release the chart order without making a change to the order.

31. As the facility at which the unprofessional conduct and violations of law alleged herein occurred, Respondent Summerlin Hospital is responsible for those violations, including all errors and omissions of Respondent Hurtada-Sadowski, Payne, and any other personnel in the course of violations of any law or regulation related to the practice of pharmacy, pursuant NAC 639.945(3). Accordingly, the Board may discipline Summerlin Hospital pursuant to NRS 639.210(4), NRS 639.255(1), NAC 639.945, and NAC 639.955.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of Respondents Aurelia Hurtada-Sadowski and Summerlin Hospital Medical Center.

DATED this 30th day of March 2026.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3). The hearing shall be conducted pursuant to NRS 639.241 through NRS 639.258. To be entitled to a hearing, you must complete, and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Notice of Intended Action and Accusation. NRS 622A.320; NRS 639.243. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350. A regulatory body may recover from a person reasonable attorney's fees and costs that are incurred by the regulatory body as a part of its investigative, administrative, and disciplinary proceedings against the person if the regulatory body finds that the person has violated any provision of this title. J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, by and through counsel, Laura M. Tucker, Esq., and Aurelia Hurtada-Sadowski, RPH, Certificate of Registration No. 20104, ("Respondent"), by and through counsel, Jessica R. Gandy, Esq., hereby stipulate and agree as follows:

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent and this matter.

2. The Board's staff properly served Respondent with the Notice of Intended Action and Accusation ("Accusation") on file in this matter, together with the Statement to Respondent and Notice of Hearing.

3. Respondent is fully aware of the right to seek the advice of counsel in this matter and obtained the advice of counsel prior to entering into this Stipulation.

4. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration, the right to appeal and any and all other rights which may be accorded pursuant to NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

5. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondent has failed to comply with the provisions of this Stipulation, Respondent hereby knowingly and voluntarily waives the rights to a hearing,

reconsideration, appeal and any and all other rights related to this action that may be accorded by NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

6. For the purposes of resolving this matter, without admitting to the alleged facts or legal conclusions, Respondent acknowledges that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the violations alleged in the Accusation, *to wit*:

A. On or about May 5, 2025, Respondent received a chart that did not contain complete information as required by NAC 639.484(1)(b),(c). Respondent knew or should have known to contact the patient's health care provider about the incomplete chart order.

B. Respondent engaged in unprofessional conduct as defined in NAC 639.945 when she failed to confer directly with a patient's health care provider and changed the chart order of the patient's health care provider.

C. Having performed her duties in an incompetent, unskillful, or negligent manner, as described above, Respondent is subject to discipline pursuant to NRS 639.210(4), NRS 639.255(1), NAC 639.945, and NAC 639.955.

7. Those violations are pled with particularity in the Accusation and grounds for action pursuant to NRS 639.210 and NRS 639.255.

8. Now, therefore, to resolve the allegations stated in Count One of the Accusation without incurring any further costs or the expenses associated with a hearing, the Board and Respondent agree to the imposition of the following penalties:

A. Respondent's certificate of registration no. 15345 shall be **SUSPENDED**; however, the suspension is **STAYED**, and Respondent shall be placed on probation for a period of one year from the effective date of this Order.

B. Respondent shall pay an administrative fine of **Five Thousand and 00/100 Dollars ($5,000.00)**, payable by *personal, business, certified or cashier's check or money order* written to the "**State of Nevada, Office of the Treasurer.**" Respondent shall remit

payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Stipulation.

C. Respondent shall pay the sum of **One Thousand Five Hundred and 00/100 Dollars ($1,500.00)** to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter. This sum shall be payable by *personal, business, certified or cashier's check or money order* written to the "**Nevada State Board of Pharmacy.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, by January 15, 2027.

D. As a condition of probation, Respondent shall not engage in any conduct for which disciplinary action may be imposed pursuant to the provisions of NRS 639.210 and/or associated regulations.

Upon successful completion of the terms and conditions of probation as forth herein, Respondent's certificate of registration shall be automatically reinstated without conditions or restrictions.

9. Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may impose additional discipline upon Respondent not inconsistent with the provisions of NRS Chapters 453 and 639.

10. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on October 14, 2026. Respondent will appear at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent or counsel are not present at the meeting.

11. The Board has discretion to accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 USC § 1396r–2 and 45 CFR Part 60, and shall be further reported pursuant to NAC 639.960.

12. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the merits of this matter may be heard by the Board. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

13. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any and all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **JUSTIN WAYNE MANSFIELD, MD,** **Certificate of Registration No. CS41165,** **Respondent.**	**Case No. 25-447-CS-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this respondent and this matter because, at the time of the events alleged herein, Justin Wayne Mansfield, MD (Respondent) held a registration issued by the Board, Certificate of Registration No. CS41165.

FACTUAL ALLEGATIONS

2. Respondent is licensed by the Nevada State Board of Medical Examiners as a medical doctor.

3. Since November 6, 2025 through present, Respondent has held a certificate of registration issued by the Board pursuant to NRS 453.226. This certificate authorizes Respondent to prescribe controlled substances.

4. Respondent is also licensed as a medical doctor in Utah and has been the medical director of Physician's Choice Home & Health Hospice in Las Vegas for several years.

5. On May 6, 2021, Respondent applied for a controlled substances license with the Board. However, he did not complete the application, and his license was never issued.

6. On October 13, 2025, Respondent registered for an account for Nevada's Prescription Monitoring Program (PMP) and also applied for a second time for his controlled substances license.

7. On October 28, 2025, Board staff sent Respondent an email advising him that he needed to complete additional steps to complete the PMP registration process, and that his account would also not be active until he submitted his Nevada Drug Enforcement Agency (DEA) certificate.

8. On November 6, 2025, the Board issued Respondent his controlled substances license number and also advised him that he was not authorized to prescribe controlled substances until he submitted his Nevada DEA certificate to the Board.

9. On December 29, 2025, Respondent submitted his Nevada DEA certificate to the Board. On December 30, 2025, the Board activated Respondent's PMP account.

10. Following activation of Respondent's account, a Board investigator ran a prescriber activity report in the PMP database and found that, between January 5, 2020 and December 29, 2025, when he did not have an active controlled substances license with the Board, Respondent prescribed a total of 2,494 controlled substances to Nevada patients. Respondent prescribed the controlled substances using his Utah DEA registration number.

11. During that time, because Respondent was unable to access his PMP account, he would not have been able to run a patient activity report before prescribing, and he would not have been able to run a report to review his own prescribing activity.

12. A Board investigator ran a prescriber activity report and a patient request history for a date range of December 29, 2025 and March 17, 2026 and found that Respondent wrote one hundred sixty-nine (169) unique controlled substances prescriptions for seventy-seven (77) patients. Respondent did not run a patient activity report for any of the patients. Respondent has run a report to review his own prescribing activity every work day since he has obtained his license.

APPLICABLE LAW

13. In Nevada, it is unlawful to dispense a controlled substance except as authorized by NRS Chapter 453. NRS 453.321(1)(a). "Dispense" is defined to include the act of prescribing a controlled substance. NRS 453.056.

14. Every practitioner who intends to prescribe controlled substances in Nevada must first apply for and obtain a certificate of registration from the Board. NRS 453.226(1); NRS 453.231(3). The practitioner must renew the certificate of registration on a biennial basis. *Id.* A practitioner who fails to register or renew may be subject to criminal and/or civil penalties for prescribing controlled substances without a certificate of registration. NRS 453.232; NRS 453.553; NRS 453.5531.

15. It is unlawful for any person to sell or dispense a prescription drug unless the person holds the appropriate certificate, license required pursuant to Chapter 639, Chapter 453, or Chapter 454 of NRS, as applicable, authorizing the person to take such action, and complies with the regulations adopted by the Board. NRS 639.100(1).

16. A practitioner may not prescribe controlled substances until his or her application is granted and a certificate of registration is issued to the person by the Board and unless he or she is registered with the DEA to dispense controlled substances in Nevada and has provided a copy of that registration to the Board. *See* NAC 453.210(1), *as amended* by LCB File No. R197-22 (effective February 27, 2024).

17. When a practitioner first obtains a certificate of registration to prescribe controlled substances, the practitioner must enroll in the PMP and complete a course of instruction concerning the use of the PMP database. NRS 453.164(5) & (6); NAC 453.065.

18. A practitioner shall, before issuing an initial prescription for a controlled substance, and at least once every 90 days thereafter for the duration of the course of treatment using the controlled substance, obtain a patient utilization report regarding the patient from the PMP. NRS 639.23507.

19. A practitioner registered with the Board to write prescriptions for controlled substances must access his or her prescriber activity in the PMP at least once every 6 months to review prescriptions issued by the practitioner and to verify for the Board that he or she continues to have access to the PMP. *See* NRS 453.164(7) and NRS 639.23507.

20. The Board may revoke or suspend the registration of any practitioner who has violated any Nevada statute or regulation relating to drugs, the manufacture or distribution of drugs, or the practice of pharmacy. NRS 639.210(12).

21. The Board may revoke or suspend the existing registration of any practitioner who has engaged in unprofessional conduct or conduct contrary to the public interest. *See* NRS 639.210(4).

22. A practitioner's conduct is deemed unprofessional and/or contrary to the public interest if the practitioner performs his or her duties in an incompetent, unskillful, or negligent manner. NAC 639.945(1)(i).

23. Unprofessional conduct includes performing any act, task or operation for which licensure, certification or registration is required without the required license, certificate or registration. NAC 639.945(1)(k).

24. The Board may suspend or revoke a registrant's controlled substances registration if a registrant has violated any provision of NRS 453.162 to 453.165, inclusive, or 639.23507, or committed an act that would render registration inconsistent with the public interest as determined pursuant to that section. *See also* NRS 453.241(1).

25. In addition to or in lieu of revoking or suspending a practitioner's certificate of registration due to any violation described herein, the Board may impose an administrative fine upon the practitioner. The fine may not exceed $10,000 for each offense. NRS 639.255(1)(f) and (3).

\\\

\\\

COUNT ONE

Unprofessional Conduct/Conduct Contrary to the Public Interest - Noncompliance with Prescription Monitoring Program

26. As alleged above, between January 5, 2020 and December 29, 2025, Respondent failed to query the PMP database regarding his own prescriber activity. The PMP database compiles a report of prescribing activity for any practitioner who makes such a query. This allows the practitioner to evaluate whether anyone has fraudulently used the practitioner's credentials to prescribe controlled substances.

27. As alleged above, between January 5, 2020 and the present, Respondent failed to query the PMP database regarding the patient utilization report before issuing an initial prescription for a controlled substance, and at least once every 90 days thereafter for the duration of the course of treatment using the controlled substance.

28. By failing to review his own prescriber activity on a semi-annual basis, as required by NRS 453.164(7) and NRS 639.23507, and failing to review the patient utilization report prior to issuing an initial prescription, as required by NRS 639.23507, Respondent performed his duties as the holder of a certificate issued by the Board in an incompetent, unskillful or negligent manner. This violation of law renders his Nevada controlled substance registration inconsistent with the public interest.

29. As alleged above, Respondent's conduct constitutes unprofessional conduct for which the Board may impose administrative discipline. NRS 639.210(4) and (12); NRS 639.255(3), NAC 639.945(1)(i), NRS 453.236(1)(d) and (e), and NRS 453.241(1).

\\\

COUNT TWO

Violation of State Law – Performing an Act, Task or Operation for Which Licensure is Required without the Required License

30. As alleged above, between January 5, 2020 and December 29, 2025, Respondent engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(k) when he prescribed controlled substances without a license as required by NRS 453.226(1); NRS 453.231(3); and NRS 639.100(1). *See also* NAC 639.945(1)(k).

31. This is a violation of law for which the Board may impose administrative discipline. See NRS 639.210(4) and (12); NRS 453.236(1)(e); NRS 453.231(1)(h).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of Respondent Justin Wade Mansfield.

DATED this 21st day of JULY 2026.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3). The hearing shall be conducted pursuant to NRS 639.241 through NRS 639.258. To be entitled to a hearing, you must complete, and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Notice of Intended Action and Accusation. NRS 622A.320; NRS 639.243. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350. A regulatory body may recover from a person reasonable attorney's fees and costs that are incurred by the regulatory body as a part of its investigative, administrative, and disciplinary proceedings against the person if the regulatory body finds that the person has violated any provision of this title. NRS 622.400(1).

TO THE RESPONDENT ABOVE-NAMED: PLEASE TAKE NOTICE THAT:

1. Pursuant to the authority and jurisdiction conferred upon the Nevada State Board of Pharmacy ("Board") by NRS 639.241 to NRS 639.2576, inclusive, and NRS chapter 233B and 622A, a Notice of Intended Action and Accusation ("Accusation") has been filed with the Board by the Petitioner, J. David Wuest, Executive Secretary for the Board, alleging grounds for imposition of disciplinary action by the Board against you.

2. **A hearing on the Accusation filed against you has been scheduled before the Board for Wednesday, October 14, 2026, at 9:00 AM PST, or soon thereafter at the following location:**

Hilton Garden Inn Las Vegas Strip South
7830 S. Las Vegas Blvd
Las Vegas, NV 89123

3. At the hearing, you have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). At the hearing, you are entitled to present argument and evidence including witness testimony on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3); NRS 639.241; NRS 639.246. To do so, you must complete, and file two (2) copies of the Answer and Notice of Defense served herewith, within twenty (20) days of your receipt of this Statement and Notice, and the Accusation. NRS 622A.320; NRS 639.243.

You may file your answer electronically by emailing a copy of your Answer and Notice of Defense to the Board's coordinating staff and its prosecuting attorney, Laura Tucker at the email addresses below:

TeamBC@Pharmacy.nv.gov and **L.tucker@pharmacy.nv.gov**

Alternatively, you may file your Answer and Notice of Defense by mailing two (2) copies to Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521. Upon receipt of your Answer and Notice of Defense, a file stamped copy will be returned to you.

4. Pursuant to NRS 241.033 and 241.034, please be advised that the hearing is a public meeting, and the Board may, without further notice, take administrative action against you if the Board determines that such administrative action is warranted after considering your character, alleged misconduct, professional competence, or physical or mental health. The Board at its discretion may go into closed session to consider your character, alleged misconduct, professional competence, or physical or mental health. You may attend any closed session, have an attorney or other representative of your choosing present during any closed session, and present written evidence, provide testimony, and present witnesses relating to your character, alleged misconduct, professional competence, or physical or mental health during any closed session.

5. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy (Board), by and through Senior General Counsel Laura M. Tucker, Esq., and Respondent Justin Wade Mansfield, M.D. (Respondent), Certificate of Registration No. CS41165, by and through counsel, W. Michael Black, Esq., **HEREBY STIPULATE AND AGREE THAT**:

1. On or about July 25, 2026, Respondent was served with the Notice of Intended Action and Accusation (Accusation) on file in this matter together with the Statement to Respondent and Notice of Hearing.

2. On or about August 5, 2026, the Board's General Counsel and Respondent's Counsel agreed to a stay of the deadline for Respondent to file an Answer and Notice of Defense to the Accusation.

3. Respondent is fully aware of the right to seek the advice of counsel in this matter and obtained the advice of counsel prior to entering into this Stipulation.

4. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration, the right to appeal and any and all other rights which may be accorded pursuant to NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

5. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondent has failed to comply with the provisions of this Stipulation, Respondent hereby knowingly and voluntarily waives the rights to a hearing,

reconsideration, appeal and any and all other rights related to this action that may be accorded by the Nevada Administrative Procedure Act, Administrative Procedure Before Certain Regulatory Bodies, and the Nevada Pharmacy Act.

6. Respondent does not contest the allegations in the Accusation, but acknowledges that Board staff prosecuting this case could present such evidence at an administrative hearing to establish a factual basis for the violations alleged therein, *to wit*:

A. On May 6, 2021, Respondent applied for a controlled substances license with the Board. However, he did not complete the application, and his license was never issued.

B. On October 13, 2025, Respondent registered for an account for Nevada's Prescription Monitoring Program (PMP) and also applied for a second time for his controlled substances license.

C. On November 6, 2025, the Board issued Respondent his controlled substances license number and also advised him that he was not authorized to prescribe controlled substances until he submitted his Nevada DEA certificate to the Board.

D. On December 29, 2025, Respondent submitted his Nevada DEA certificate to the Board. On December 30, 2025, the Board activated Respondent's PMP account.

E. Following activation of Respondent's account, a Board investigator ran a prescriber activity report in the PMP database and found that, between January 5, 2020 and December 29, 2025, when he did not have an active controlled substances license with the Board, Respondent prescribed a total of 2,494 controlled substances to Nevada patients. Respondent prescribed the controlled substances using his Utah DEA registration number.

F. A Board investigator ran a prescriber activity report and a patient request history for a date range of December 29, 2025 and March 17, 2026 and found that Respondent wrote one hundred sixty-nine (169) unique controlled substances prescriptions for seventy-seven (77) patients. Respondent did not run a patient activity report for any of the

patients. Respondent has run a report to review his own prescribing activity every work day since he has obtained his license.

G. By failing to review his own prescriber activity on a semi-annual basis, as required by NRS 453.164(7) and NRS 639.23507, and failing to review the patient utilization report prior to issuing an initial prescription, as required by NRS 639.23507, Respondent performed his duties as the holder of a certificate issued by the Board in an incompetent, unskillful or negligent manner. This violation of law renders his Nevada controlled substance registration inconsistent with the public interest. Respondent's conduct constitutes unprofessional conduct for which the Board may impose administrative discipline. NRS 639.210(4) and (12); NRS 639.255(3), NAC 639.945(1)(i), NRS 453.236(1)(d) and (e), and NRS 453.241(1).

H. Between January 5, 2020 and December 29, 2025, Respondent engaged in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(k) when he prescribed controlled substances without a license as required by NRS 453.226(1); NRS 453.231(3); and NRS 639.100(1). *See also* NAC 639.945(1)(k). This is a violation of law for which the Board may impose administrative discipline. See NRS 639.210(4) and (12); NRS 453.236(1)(e); NRS 453.231(1)(h).

7. Those violations are pled with particularity in the Accusation and grounds for action pursuant to NRS 639.210 and NRS 639.255.

8. To resolve this matter without incurring any further costs or the expenses associated with a hearing, the Board and Respondent agrees to the imposition of the following penalties:

A. Respondent shall pay a fine of **Six Thousand Dollars ($6,000.00)** for the alleged violations, payable by *cashier's check* or *check* or *money order* made payable to **"State of Nevada, Office of the Treasurer,"** to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Order;

B. Respondent shall pay **One Thousand Dollars ($1,000.00)** to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter, payable by *cashier's check* or *check* or *money order* made payable to **"Nevada State Board of Pharmacy,"** to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Order;

9. Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may impose additional discipline upon Respondent not inconsistent with the provisions of NRS Chapters 453 and 639.

10. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on October 14, 2026. Respondent will appear at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent or counsel are not present at the meeting.

11. The Board has discretion to accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 USC § 1396r–2 and 45 CFR Part 60, and shall be further reported pursuant to NAC 639.960.

12. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the merits of this matter may be heard by the Board. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

13. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any and all additional claims arising from the facts set forth in the Accusation

on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order.

Respondent has fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and has freely and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **VITA PHARMACY 2,** **License No. PH04645,** **Respondent.**	**CASE NO. 26-344-PH-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and/or NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and this respondent because, at the time of the events alleged herein, Respondent Vita Pharmacy 2, License No. PH04645 (Vita 2), located at 1807 W. Charleston Blvd., Suite 110 in Las Vegas, Nevada, was a pharmacy licensed by the Board.

FACTUAL ALLEGATIONS

2. On or about March 28, 2024, George and Janice Gange submitted an application to operate a pharmacy in Nevada (2024 Application) under the business name District Pharmacy. The 2024 Application identified District Pharmacy Corporation as the owner. The application was approved in September 2024.

3. The 2024 Application identified George Gange as the President and Janice Gange as the managing pharmacist of District Pharmacy.

4. In an action unrelated to District Pharmacy, on or about February 6, 2026, the Board issued a citation-and-fine-order (February Citation) to Ramy Massoud (Massoud) for

unlicensed business activity related to his ownership of Lyfe Pharmacy, located at 9280 W. Sunset Road, Suite 230, Las Vegas, Nevada. Specifically, the Board cited Massoud for operating Lyfe Pharmacy without approval from the Board as a new owner. Massoud subsequently paid the citation.

5. On or about March 5, 2026, Massoud submitted a new pharmacy ownership and name change application for Lyfe Pharmacy, under the new name Vita Pharmacy. In the application, he disclosed the February Citation. The Board approved Vita Pharmacy's license on April 2, 2026, under License No. PH04799.

6. On March 16, 2026, the Board received a letter from Massoud indicating a "fractional change in beneficial ownership" of District Pharmacy. The letter indicated the following ownership structure:

- George Gange, 50 percent ownership;
- Ramy Massoud, 45 percent ownership; and
- Janice Gange, 5 percent ownership.

7. In June 2026, the Board received a change of ownership and name change application for District Pharmacy (June 2026 Application). The application listed Massoud as 100 percent owner and changed the name to Vita Pharmacy 2 (Vita 2).

8. On the Vita 2 application, Massoud did not disclose the February Citation. Specifically, on page 3, Section 3: History of the Company of the June 2026 Application, Massoud marked "No" in response to the question "Has the corporation, any owner(s), shareholder(s) or partner(s) with any interest, ever been subject of an administrative action, board citation, cite fine, or proceeding relating to the pharmaceutical industry?"

9. In addition, in Section 7 of the Personal History Application section of the June 2026 Application, Massoud failed to disclose to the Board his ownership of Vita Pharmacy and Lyfe Pharmacy.

10. Massoud signed and dated the application, acknowledging that the information was true and correct and that making any false representation in the application is a crime pursuant to NRS 639.281.

11. The Board approved Vita 2's application as part of the Board's consent agenda during the July 15, 2026 meeting, and Vita 2 was issued License No. PH004645 on July 16, 2026.

12. On or about August 5, 2026, a Board Investigator recognized that the Board had granted Vita 2's name change and change of ownership application with Massoud as the owner. Upon review of Vita 2's application, the Board Investigator noted the Massoud failed to disclose the February Citation and ownership of Vita Pharmacy.

13. On or about August 11, 2026, the Board issued a cease-and-desist to Vita 2 and Massoud ordering Vita 2 to discontinue operations with Massoud as owner. On August 14, 2026, after further discussion with Board staff, the Board permitted Massoud to continue acting as owner with additional monitoring requirements.

APPLICABLE LAW

14. An applicant to operate a pharmacy or outsourcing facility must submit a complete and accurate application. NAC 639.500(2); NAC 639.6915(1).

15. It is unlawful for a person knowingly or intentionally to furnish false or fraudulent material information in, or omit any material information from, any application for registration under NRS Chapter 639. NRS 639.281(1).

16. Willfully making a materially false statement or falsifying records to the Board is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(9).

17. Obtaining any registration by the filing of an application, or any record, affidavit or other information in support thereof, which is false or fraudulent, is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(10).

18. Violating, attempting to violate, assisting or abetting in the violation of or conspiring to violate any law or regulation relating to drugs is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(12).

19. The owner of any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(3).

COUNT ONE
Furnishing False Material Information to Board/
Violations of State Law/Unprofessional Conduct

20. As alleged above, Vita 2, by and through its owner Massoud, misrepresented and/or failed to fully disclose information material to its application as to the February Citation and Massoud's other pharmacy ownership interests.

21. Pursuant to Nevada law, Vita 2 had a duty to submit a complete and accurate application to the Board. NAC 639.500(2); NAC 639.6915(1).

22. In misrepresenting and/or failing to disclosed information on its application pursuant to Nevada law, Vita 2 breached its duty and violated NRS 639.281(1), and is therefore subject to discipline pursuant to NRS 639.210(9) and/or (12).

COUNT TWO
Obtaining Registration by False or Fraudulent Application

23. As alleged above, Vita 2, by and through its owner Massoud, misrepresented and/or failed to fully disclose information material to its application as to the February Citation and Massoud's other pharmacy ownership interests when obtaining a change of ownership and name change for License No. PH04645.

24. By obtaining a license by filing an application in support thereof that is false or fraudulent, Vita 2 is therefore subject to discipline pursuant to NRS 639.210(10).

COUNT THREE

Pharmacy/Pharmacy Owner Responsibility

25. As the pharmacy/pharmacy owner at which the violations of law alleged herein occurred, Vita 2 is responsible for those violations, including all errors and omissions of Massoud or any other owners and/or officers, pursuant to NAC 639.945(3).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of this respondent.

DATED this 9th day of SEPTEMBER 2026.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **DAVID LINDBERG,** **Respondent.**	**CASE NO. 24-482-A-S** **STATEMENT TO THE RESPONDENT AND NOTICE OF HEARING**

TO THE RESPONDENT ABOVE-NAMED: PLEASE TAKE NOTICE THAT:

Pursuant to the authority and jurisdiction conferred upon the Nevada State Board of Pharmacy (Board) by NRS 639.2895 and NRS 233B.121-.126, *inclusive*, on or about February 11, 2026, a Citation and Fine Order was served upon Respondent David Lindberg (Respondent), former owner/operator of D.C.L., LLC, dba Magnus Medical Health and Wellness (Magnus), alleging violations of Nevada law as set forth herein.

FACTUAL ALLEGATIONS

1. On or about March 2022, Respondent began operating the wellness clinic Magnus, located at 8540 S. Eastern Avenue, Suite 160, in Las Vegas, Nevada. Respondent is not a licensed practitioner as that term is defined at NRS 453.126(1) and 639.0125(1) and not licensed by the Board or the Federal Drug Enforcement Administration (DEA) to possess, administer, prescribe or dispense dangerous drugs or controlled substances.

2. During the relevant timeframe, Justin Spangler, PA (Spangler), Mikayla Strief, APRN (Strief), Mary Miller-Wilson, APRN (Miller-Wilson), Daniel Inglish, DO (Inglish), and Tiana Hubbard, APRN (Hubbard) worked as practitioners at Magnus. Each of the practitioners were licensed by the Board to prescribe controlled substances.

3. On or about September 2024, Respondent sold Magnus to new owners Donald Min (Min) and Young Kim (Kim), who renamed the business Young4Life. Neither Min nor Kim are licensed practitioners as that term is defined at NRS 453.126(1) and 639.0125(1) or licensed by the Board or DEA to possess, administer, prescribe or dispense dangerous drugs or controlled substances.

4. Min and Kim formed Young4Life in late 2024 and assumed Magnus's established customers and business model. Young4Life retained Respondent as a marketing consultant.

5. During the relevant timeframe, Spangler and Mark Bernardi, MD (Bernardi) worked as practitioners at Young4Life. Both were licensed by the Board to prescribe controlled substances.

6. A Board investigation found that, as owner of Magnus, between September 2022 and September 2024, Respondent regularly used several Magnus employees' prescribing credentials to issue prescriptions and access prescribing systems. From September 2024 through at least May 2025, as marketing consultant, Respondent continued using Young4Life employees' prescribing credentials to issue prescriptions and access prescribing systems.

7. Specifically, during the relevant timeframe, each Magnus and/or Young4Life employee practitioner permitted Respondent to access prescribing systems and issue the following controlled substance prescriptions using their electronic prescribing credentials:

a. According to Board records, between May 2024 and November 2024, while employed by Magnus and Young4Life, Spangler authorized 548 controlled substance prescriptions for 397 unique patients. According to a Board investigation, at least some of these prescriptions were actually issued by Respondent using Spangler's credentials without Spangler's knowledge.

b. Between May 2024 and November 2024, while employed by Magnus, Strief authorized 170 controlled substance prescriptions for Nevada patients. According to a Board investigation, at least some of these prescriptions were actually issued by Respondent using Strief's credentials without Strief's knowledge.

c. Per company policy, Strief delegated the entire prescribing process to Magnus. As such, Strief sent her prescribing token to Magnus and did not personally authorize any prescriptions for armodafinil, chorionic gonad or ketamine that appeared on her prescribing report from April to November 2024.

d. Between May 2024 and May 2025, while employed by Magnus, Inglish prescribed 63 controlled substances for Nevada patients. According to a Board investigation, at least some of these prescriptions were actually issued by Respondent using Inglish's credentials without Inglish's knowledge.

e. Between March 2022 and March 2024, while employed by Magnus, Miller-Wilson prescribed 1,846 controlled substances for 714 unique Nevada patients. According to a Board investigation, at least some of these prescriptions were actually issued by Respondent using Miller-Wilson's credentials without Miller-Wilson's knowledge.

f. Per company policy, Miller-Wilson delegated the entire prescribing process to Magnus.

g. Between February 2025 and June 25, 2025, while employed by Young4Life, Bernardi prescribed 327 controlled substances for 203 unique Nevada patients. According to a Board investigation, at least some of these prescriptions were

actually issued by Respondent using Bernardi's credentials without Bernardi's knowledge.

h. Between February 2023 and March 2024, while employed by Magnus, Hubbard prescribed 381 controlled substances for 202 unique Nevada patients. According to a Board investigation, at least some of these prescriptions were actually issued by Respondent using Hubbard's credentials without Hubbard's knowledge.

8. During the relevant timeframe, Respondent also used the prescribing credentials of at least two additional medical professionals who did not hold licenses with the Board to prescribe controlled substances. Specifically, the following unlicensed prescribers permitted Respondent to access prescribing systems and issue the following controlled substance prescriptions using their electronic prescribing credentials:

a. While employed by Magnus and/or Young4Life between November 2024 and May 2025, Paul Branch, MD, (Branch) a doctor who does not hold a license with the Board, prescribed 384 controlled substance prescriptions for 268 unique Nevada patients. According to a Board investigation, at least some of these prescriptions were actually issued by Respondent using Branch's credentials without Branch's knowledge.

b. While employed by Magnus and/or Young4Life on or about May 2024, Juanita Golden-Allen, APRN, who does not hold a license with the Board, prescribed 128 controlled substance prescriptions for 99 unique Nevada patients. According to a Board investigation, at least some of these prescriptions were actually issued by Respondent using Golden-Allen's credentials without Golden-Allen's knowledge.

9. In answer to a Board investigator's questions, some of the practitioners denied having issued any prescriptions for controlled substances.

10. On or about March 9, 2026, Respondent appealed the Citation and Fine and requested a hearing before the Board.

APPLICABLE LAW

11. Pursuant to NRS 639.100(1), it is unlawful for any person to manufacture, engage in wholesale distribution, compound, sell or dispense, or permit to be manufactured, distributed at wholesale, compounded, sold or dispensed, any drug, poison, medicine or chemical, or to dispense or compound, or permit to be dispensed or compounded drugs without having secured the appropriate license and/or certificate of registration from the Board.

12. Only a practitioner as defined in NRS 453.126 who holds a certificate of registration from the Board may compound, furnish, and/or administer a controlled substance in Nevada. NRS 453.226.

13. A prescription for a controlled substance may be issued only for a legitimate medical purpose and in the usual course of his or her professional practice by an individual practitioner who holds a DEA registration and is authorized to prescribe controlled substances by the jurisdiction in which he is licensed to practice his profession, to a patient with whom the practitioner has established a bona fide therapeutic relationship. 21 U.S.C. § 822(a)(2); 21 U.S.C. § 823(f); 21 CFR § 1306.03(a); 21 CFR § 1306.04(a); NRS 453.381(1); NRS 639.235(1); NRS 639.23911(1)(a); NRS 639.2813(1).

14. A practitioner must retain sole possession of the hard token, where applicable, and must not share the password or other knowledge factor, or biometric information, with any other person. The practitioner must not allow any other person to use the token or enter the knowledge

factor or other identification means to sign prescriptions for controlled substances. 21 CFR § 1311.102 and NAC 639.7105(2)(b).

COUNT ONE
Violations of State Law – Unlawful Prescribing of Controlled Substances

15. As alleged above, Respondent is not a licensed practitioner as that term is defined at NRS 453.126(1) and 639.0125(1) and not licensed by the Board pursuant to NRS 453.226 or the DEA to possess, administer, prescribe or dispense dangerous drugs or controlled substances.

16. As alleged above, by using the credentials of at least six licensed practitioners and at least two unlicensed practitioners and acting under their authority without their express knowledge or authorization to fraudulently issue prescriptions for controlled substances, Respondent violated NRS 639.100(1).

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 639.2895(2). You have the right to a hearing before the Board to answer the allegations and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. **The Board has scheduled your hearing on this matter for Wednesday, July 15, 2026, at 9:00 a.m. or soon thereafter. The hearing will occur at Hilton Garden Inn Las Vegas Strip South - 7830 S. Las Vegas Blvd, Las Vegas, NV 89123.**

Pursuant to NRS 241.033 and 241.034, please be advised that the hearing is a public meeting, and the Board may, without further notice, take administrative action against you if the

Board determines that such administrative action is warranted after considering your character, alleged misconduct, professional competence, or physical or mental health. The Board at its discretion may go into closed session to consider your character, alleged misconduct, professional competence, or physical or mental health. You may attend any closed session, have an attorney or other representative of your choosing present during any closed session, and present written evidence, provide testimony, and present witnesses relating to your character, alleged misconduct, professional competence, or physical or mental health during any closed session.

Re: CITATION & FINE: Case No. 24-482-A-S, Unlicensed Prescribing; Accessing Prescribing Systems and Prescribing Prescriptions without Authority

Dear Mr. Lindberg:

The Nevada State Board of Pharmacy (Board) has determined that you, along with your company, Magnus Health/Medical (Magnus), previously located at 8540 S. Eastern Avenue, Suite 160 in Las Vegas, engaged in unlicensed practice related to prescribing controlled substances and accessing prescribing systems without authority in violation of Nevada law. Furthermore, the Board has determined that you continued this conduct as an employee of Young4Life after selling Magnus Health to new owners.

Specifically, the Board found that between September 2022 and May 2025, you regularly used at least eight practitioners' credentials at both Magnus and Young4Life to issue prescriptions and access the prescribing systems without authority. You are not a licensed prescriber with the DEA or the Board.

Under NRS 639.100(1), it is unlawful to purchase, receive, store, possess and/or sell dangerous drugs or controlled substances without having secured the appropriate certificate, license, or permit issued by the Board. In Nevada, a prescription for a controlled substance may be issued only for a legitimate medical purpose and in the usual course of his or her professional practice by an individual practitioner who holds a DEA registration and is authorized by the Board to

prescribe controlled substances, to a patient with whom the practitioner has established a bona fide therapeutic relationship. *See* 21 U.S.C. § 822(a)(2); 21 U.S.C. § 823(f); 21 CFR § 1306.03(a); 21 CFR § 1306.04(a); NRS 453.381(1); NRS 639.235(1); NRS 639.23911(1)(a). An electronic prescription for a controlled substance must be issued in compliance with 21 CFR § 1311.100, NRS 453.385, NRS 639.23535, and NAC 639.7105(2). Furthermore, a practitioner must retain sole possession of the hard token, where applicable, and must not share the password or other knowledge factor, or biometric information, with any other person, and must not allow any other person to use the token or enter the knowledge factor or other identification means to sign prescriptions for controlled substances. 21 CFR § 1311.102.

Accordingly, by accessing the prescribing system and prescribing drugs using at least eight practitioners' credentials and without a license, you have engaged in unlicensed practice related to controlled substances in violation of Nevada law. This letter shall serve as a **CITATION** pursuant to NRS 639.2895(2) for your unlicensed activity and unlawful use of prescribing credentials. Pursuant to NRS 639.2895(3), the Board has assessed an administrative fine against you in the amount of Five Thousand Dollars ($5,000.00) with respect to each of the eight known practitioners whose credentials you used as a means of accessing prescribing systems and issuing prescriptions without lawful authority. The aggregate fine is **Forty Thousand Dollars** ($40,000.00), payable in accordance with the paragraphs below.

You have the right to appeal this citation by submitting a written request for a hearing to the Board at the Board's Reno office no later than 30 days after receipt of this citation. NRS 639.2895(2). Unless you submit a timely appeal, the above fine must be paid within the same time frame. Payment must be tendered in the form of a certified check, cashier's check or money order made payable to "**State of Nevada, Office of the Treasurer**." Please remit payment to the Board's Reno office, located at 985 Damonte Ranch Parkway – Suite 206, Reno, NV 89521.

If you fail to timely pay the above fine or appeal this citation, as applicable, the Board may take further action, including referral to the Nevada Controller's Office for collection. See NRS 353C.195; 45 CFR §§ 60.3, 60.5. Pursuant to the Nevada Public Records Act, this letter constitutes a public record that must be released to anyone who makes a proper request for it. If you have any questions concerning this citation or your right to appeal the above finding, you may contact the Board's General Counsel Laura Tucker at 702-486-6420, ext. 128, or *via* email at l.tucker@pharmacy.nv.gov.

Sincerely,

The Nevada State Board of Pharmacy

Subject: Request for Board Hearing - Medicaid Access Concerns
Date: Wednesday, September 16, 2026 9:28:25 AM

You don't often get email from ymwell2022@gmail.com. Learn why this is important

WARNING - This email originated from outside the State of Nevada. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Nevada State Board of Pharmacy,

I am writing to respectfully request a hearing before the Nevada State Board of Pharmacy at a future Board meeting for consideration of the early termination of probation associated with my pharmacist registration and pharmacy license.

A significant reason for this request is an issue involving access to Medicaid pharmacy services in the Laughlin community. Express Scripts has advised that my pharmacy cannot participate in its provider network while the applicable license remains under active probation. As a result, the probationary status is creating a barrier to our ability to participate as a provider and serve MCO Medicaid patients in our community.

This issue has implications beyond my individual licensure. Laughlin is a geographically isolated community, and access to local pharmacy services is important to its residents, particularly Medicaid patients who may have limited transportation or difficulty obtaining their medications elsewhere.

For this reason, I respectfully request an opportunity to appear before the Board and present the circumstances supporting early termination of probation, and the effect that the continued probationary status is having on our ability to provide pharmacy services to Medicaid patients in Laughlin.

Kathy Ochs, Vice President of the Laughlin Town Advisory Board, would also like to attend the hearing with me and speak on behalf of Laughlin residents and the local community regarding the need for pharmacy access and the impact this situation is having on the community.

If permitted under the Board's procedures, we respectfully request that this matter be placed on the agenda for a future Board meeting.

Please advise me of the appropriate procedure for requesting this hearing, including any petition, supporting documentation, or other materials that must be submitted, applicable deadlines, and whether Ms. Ochs may appear and provide comments or testimony to the Board.

Thank you for your time and consideration.

Sincerely,

Laughlin Pharmacy (License # PH04520) (Case # 24-289-PH-S)

11. Any failure by either Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing the non-compliant Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by the non-compliant Respondent, the Board may lift the stay and immediately revoke the certification or registration or pharmacy license of the non-compliant Respondent, as applicable, and impose additional discipline upon that Respondent not inconsistent with the provisions of NRS Chapter 639.

12. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on December 4, 2024. Respondents will appear at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondents or counsel are not present at the meeting.

13. The Board has discretion to accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 USC § 1396r–2 and 45 CFR Part 60, and shall be further reported pursuant to NAC 639.960.

14. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the merits of this matter may be heard by the Board at a later date. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

NOTICE OF INTENDED ACTION AND ACCUSATION

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300 and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter because at the time of the events alleged herein, Respondent Youjin Seo, RPh (Seo), Certificate of Registration No. 18704, and Respondent Thu Vo, RPh (Vo), Certificate of Registration No. 18661, were pharmacists registered with the Board, and Respondent Laughlin Pharmacy & Wellness Center (Laughlin Pharmacy), Pharmacy License No. PH04520, was a pharmacy licensed by the Board.

FACTUAL ALLEGATIONS

2. Seo and Vo co-owned Laughlin Pharmacy and Vo was managing pharmacist at the time of the events alleged herein.

3. Respondents dispensed and/or directly administered at least 51 syringes of sterile drug products as "weight loss injections" to five (5) different patients between January 3, 2024, and May 24, 2024.

4. The drug products included, without limitation, semaglutide 5mg and tirzepatide 10mg, purchased from and compounded by DeeFlat Pharmacy, Pharmacy License No. PH04171, located in Bullhead City, AZ, using non-sterile methods and adulterated and/or misbranded drugs.

5. The compounded drug products were purchased in vials and dispensed and/or administered in insulin use-only syringes.

6. Respondents maintained no records documenting the purchase of the compounded drug products from DeeFlat Pharmacy.

7. On or about June 5, 2024, Respondent Seo attempted to charge patient M.M-S. an additional cash charge of $90 beyond the required insurance co-pay to fill a prescription for a Dexcom G-7 Sensor.

APPLICABLE LAW

8. Any sterile drug products sold or dispensed by a pharmacy shall be compounded in compliance with NAC 639.6701-.6702, *inclusive*, NAC 639.6705 -.67079, *inclusive*, and related federal law, 21 U.S.C. § 353a and USP-797 standards. NRS 639.100; NRS 639.286.

9. Pursuant to NRS 585.520(1) and (2) it is unlawful to sell or dispense an adulterated or misbranded drug (as defined in NRS 585.380, NRS 585.400, NRS 585.410, NRS 585.420 and/or NRS 585.460). Pursuant to NRS 454.351(1) it is unlawful to sell or dispense any drug which may not be lawfully introduced into interstate commerce under the Federal Food, Drug, and Cosmetic Act.

10. Pursuant to 21 U.S.C. § 331(a), (b) and (c) it is unlawful to engage in the sale and/or distribution of an adulterated or misbranded drug in interstate commerce.

11. No person may administer a dangerous drug without specific statutory authority to do so. NRS 454.213.

12. A pharmacy shall maintain complete, accurate and readily retrievable records of all dangerous drugs purchased and those sold on prescription, dispensed, furnished or disposed of otherwise. NRS 454.286; NRS 454.291; NAC 639.487(2); NAC 639.510(2)(b).

13. Selling or dispensing or permitting to be sold or dispensed substandard drugs or preparations constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(a) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

14. Performing or in any way being a party to any fraudulent or deceitful practice or transaction constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(h) and is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(4).

15. Performing any duties as the holder of a registration in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(i) and is grounds for suspension or revocation of any license issued by the Board. NRS 639.210(4).

16. The Board may suspend or revoke a license if the holder has violated any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs. NRS 639.210(11).

17. The Board may suspend or revoke a license if the holder has violated any law or regulation relating to drugs, the manufacture or distribution of drugs or the practice of pharmacy. NRS 639.210(12).

18. A managing pharmacist is responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the pharmacy and the practice of pharmacy, including recordkeeping. NRS 639.210(15), NRS 639.220(1) and/or NAC 639.510(2)(b).

19. Any violation of any of the provisions of NRS Chapter 639 or NAC Chapter 639 by personnel of the pharmacy is cause for the suspension or revocation of the license of the

pharmacy by the Board. NRS 639.230(5). Further, the owner of any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(3).

COUNT ONE

Violations of Federal Law – Dispensing Adulterated or Misbranded Drugs

20. By dispensing adulterated and/or misbranded sterile drug products that were not compounded in compliance with 21 U.S.C. § 353a and USP-797 guidelines, as alleged in paragraphs 3-5 herein, respondents violated 21 U.S.C. § 331(a), (b) and/or (c), and are therefore subject to discipline pursuant to NRS 639.210(11) and/or (15), NRS 639.220(1) and/or NRS 639.230(5).

COUNT TWO

Violations of State Law – Dispensing Adulterated or Misbranded Drugs

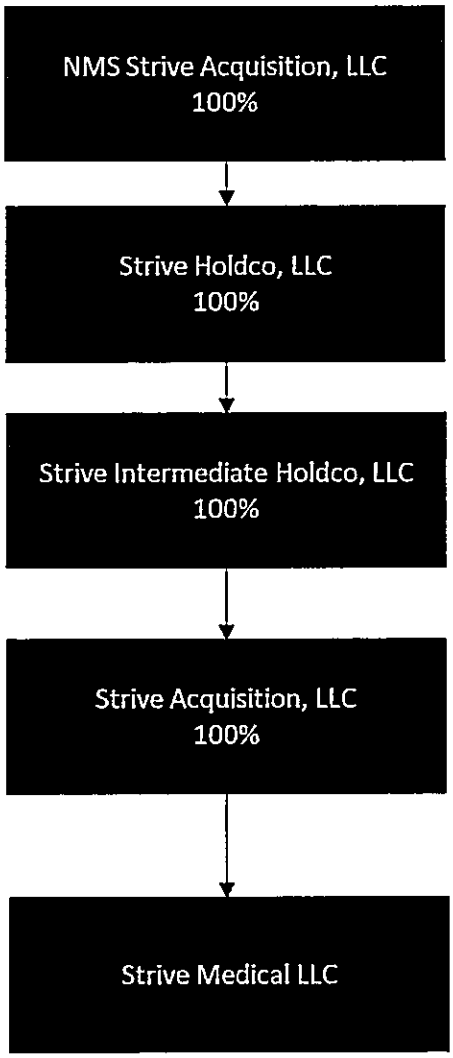
RE: Explanation of Disciplinary History
Strive Medical LLC – Las Vegas, NV

Dear Mr. Wuest:

This letter is provided in conjunction with our affirmative response to question 3 on our application for our Out-of-State Wholesale Distributor License. We have the following discipline to report for great grandparent owner of Strive Medical, LLC ("Strive"), RGH Enterprises, LLC. Importantly, Strive, the entity that is the subject of this application, has no discipline to report.

In March 2015, the RGH pharmacy located in Twinsburg, OH, was issued a citation and fined $500 by the Maine Board of Pharmacy, for failure to timely report a change in the facility's pharmacist-in-charge. This failure to report within the seven-day time frame was due to the unavailability of the corporate official authorized to sign the application. RGH paid the fine to the Maine State Board of Pharmacy; additionally, RGH has undertaken a process to ensure regulatory notifications occur in a timely manner.



In April 2016, the Hawaii Board of Pharmacy took derivative action against the Twinsburg, OH, facility based on the action described above. RGH entered a Settlement Agreement with Hawaii and agreed to pay a $250 fine; the matter was closed on May 6, 2016.

On December 5, 2024, the Wisconsin Pharmacy Board ("Wisconsin Board") entered into a proposed stipulation and order ("Order") with Edgepark's pharmacy under its Wisconsin Nonresident Pharmacy License, License No. 1251-43. The Order resolved complaints arising from issues with the Edgepark's administrative processes associated with insurance verifications and obtaining prior authorizations from services provided by the pharmacy between March 2021 through January 2024. The deficiencies that led to the complaints have been fully resolved by Edgepark's pharmacy. Edgepark received a reprimand and was required to pay a small administrative fine plus costs.

In July 2026, the Pennsylvania Board of Pharmacy ("Pennsylvania Board") took derivative disciplinary action against the Pharmacy based the 2024 disciplinary action taken by the Wisconsin Board against the Pharmacy. On July 28, 2026, Edgepark entered into a Consent Agreement with the Pennsylvania Board to resolve the derivative action. The Consent Agreement imposed a Public Reprimand against Edgepark's Pennsylvania nonresident pharmacy license, which constitutes reportable discipline under Pennsylvania Board laws and rules.

To whom it may concern:

This is a declaration and confirmation by Cardinal Health, Inc. and its subsidiaries exclusively that:

Cardinal Health is self-insured for products, completed operations liability and pharmacist professional liability. You will not be named as additional insured for any of the self-insured retention limits of the product liability, completed operations liability, and pharmacist professional liability coverages. Cardinal Health's self-insurance is backed by its financial strength documented in financial statements found at www.cardinalhealth.com. The existence of self-insurance within Cardinal Health's insurance program does not change any contractual obligation we may have, and shall not be deemed to exceed the scope of coverage and/or limits required, under our written contract or agreement with you.

As respects to the Automobile Liability, Automobile Physical Damage, Comprehensive, and Collision coverage is self-insured for all owned and leased vehicles.

Please direct any questions or concerns to GMB-DUB-RiskManagement@cardinalhealth.com.

RE: Indirect Ownership Change of Strive Medical LLC
Medical Devices Equipment Gas License No. MP01308

Dear Madam or Sir,

On August 3, 2026, RGH Enterprises, LLC ("RGH") acquired 100% of the equity interests in Strive Intermediate Holdco, LLC. The acquisition closed on August 3, 2026 (the "Closing"). As a result of the Closing, RGH became the great-grandparent owner of Strive Medical LLC. We have enclosed pre- and post-Closing organizational charts as Attachment A. Notwithstanding the Closing, Strive Medical LLC's name, address, direct ownership, federal tax identification number, locations, and day-to-day operations remain unchanged.

Additionally, effective as of the Closing, there are changes to Strive Medical LLC's officers. We have enclosed a post-Closing officer list as Attachment B.

The Closing involves only an indirect ownership change at an upper tier of the ownership chain and Strive Medical LLC will continue as the license holder, attached is a new application. Please contact me immediately at licensure@cardinalhealth.com if you have any questions.

Sincerely,

Keegan Chamberlain
Director of Quality and Regulatory Affairs

Initial each statement below to indicate you have read and agree with the following:

HD	I understand that as the managing pharmacist I am responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the pharmacy and the practice of pharmacy. I understand my license can be revoked or that I can be subject of disciplinary action if such laws or regulations are knowingly violated in the pharmacy in which I am the managing pharmacist.
HD	I understand within 48 hours after I report for duty as the managing pharmacist, I shall complete an inventory of all controlled substances of the pharmacy pursuant to 21 CFR Part 1304 and maintain a copy of the inventory in the file at the pharmacy.
HD	I understand that if I cease to be managing pharmacist of the above-named pharmacy, I will jointly, with the new managing pharmacist, take an inventory of all controlled substances.
HD	I understand that as the managing pharmacist I must ensure that all loss or theft of controlled substances are reported on forms provided by the Nevada State Board of Pharmacy and Department of Public Safety within 10 days after the date of discovery of theft or loss. NRS 453.568. Federal regulations require that registrants notify the Field Division Office of the Administration in his area, in writing, of the theft or significant loss of any controlled substance, disposal receptacles or listed chemicals within one business day of discovery of such loss or theft. The registrant shall also complete and submit to the Field Division Office in his area, DEA Form 106 regarding the loss or theft (21 C.F.R. §1301.76(b) and 21 U.S.C. §830(b)(1)(C)).
HD	I understand that as the managing pharmacist I must notify the Nevada State Board of Pharmacy of all employment changes of pharmacy staff within 10 days of the change. NAC 639.540

Initial each statement below to indicate you have read and agree with the following:

I understand that as the managing pharmacist I am responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the pharmacy and the practice of pharmacy. I understand my license can be revoked or that I can be subject of disciplinary action if such laws or regulations are knowingly violated in the pharmacy in which I am the managing pharmacist.

I understand within 48 hours after I report for duty as the managing pharmacist, I shall complete an inventory of all controlled substances of the pharmacy pursuant to 21 CFR Part 1304 and maintain a copy of the inventory in the file at the pharmacy.

I understand that if I cease to be managing pharmacist of the above-named pharmacy, I will jointly, with the new managing pharmacist, take an inventory of all controlled substances.

I understand that as the managing pharmacist I must ensure that all loss or theft of controlled substances are reported on forms provided by the Nevada State Board of Pharmacy and Department of Public Safety within 10 days after the date of discovery of theft or loss. NRS 453.568. Federal regulations require that registrants notify the Field Division Office of the Administration in his area, in writing, of the theft or significant loss of any controlled substance, disposal receptacles or listed chemicals within one business day of discovery of such loss or theft. The registrant shall also complete and submit to the Field Division Office in his area, DEA Form 106 regarding the loss or theft (21 C.F.R. §1301.76(b) and 21 U.S.C. §830(b)(1)(C)).

Section 2: Sterile Compounding Questions (Use a separate piece of paper if additional space is needed.)

1. What risk level sterile compounding will your facility be performing (check all that apply)?

☐ Category 1 ☑ Category 2 ☑ Category 3

If you marked "**Category 3**", you must also complete **section 4.**

2. If compounding Category 2 products is the location performing sterility and endotoxin testing (if required) to obtain extended beyond-use dates? ☑ Yes ☐ No

3. If compounding Category 2 products is the location performing aseptically processed CSPs or terminally sterilized CSPs? ☑ Aseptic ☑ Terminal

4. Is the pharmacy following the new garbing requirements listed in the revised USP-797 guidelines? ☑ Yes ☐ No

5. When was the most recent certification for the ISO classified areas? N/A, new facility, not cerified yet

6. What is the frequency of the recertification for the ISO classified areas? Every 6 months

7. Were there any follow-up items required from the most recent certification report? ☐ Yes ☐ No
N/A, new facility

8. If preparing Category 2 or Category 3 CSPs from non-sterile starting components are the pre-sterilization procedures such as weighing and mixing completed in an ISO Class 8 or better environment? ☑ Yes ☐ No

9. If compounding Category 1 CSPs and Category 2 CSPs how often is surface sampling of all classified areas and pass-through chambers conducted? Cat 3 compounding will be done so Cat 3 requirements will be follow even when Cat 2 compounding performed. SS performed weekly + DCA w each Cat 3 batch.

10. Will you be performing sterile hazardous drug compounding? ✓ Yes No

If you marked "**Yes**", you must also complete **section 3.**

11. List the sterile compounded products that you will be compounding for Nevada patients or consumers:

NAD+ Injection, Glutathione Injection, Methylcobalamin Injection, Sermorelin Injection, Semaglutide/Pyridoxine Injection, Semaglutide/Carnitine Injection, Tirzepatide/Pyridoxine Injection, Tirzepatide/Carnitine Injection, Testosterone/Zinc Injection, B-Complex Injection, Estriol Injection, Estradiol Injection, Trimix injections

12. What laboratory performs your sterility or endotoxin testing?

Name: ARL

Address: 840 Research Parkway, Ste. 546

City: Oklahoma City State: OK Zip: 73104

Telephone: 800-393-1595

13. What is your procedure for visual inspection of compounded sterile products?

Each compounded sterile preparation (CSP) is visually inspected upon completion of compounding and prior to release. The inspection includes evaluation for visible particulate matter, foreign matter, discoloration, precipitation, cloudiness, leakage, container or closure defects, and other unexpected abnormalities. The CSP and its labeling are verified against the patient prescription/medication order, including drug, strength, volume, patient information, and applicable labeling requirements. Prior to dispensing, the pharmacist performs a final independent verification that includes a second visual inspection of the CSP, container-closure integrity, and labeling against the prescription.

Any CSP with an unacceptable appearance or other identified defect is rejected, segregated, and investigated in accordance with facility SOPs. Our quality assurance policy requires that any batch with 10% or greater visual inspection failures be immediately isolated and investigated to determine the cause and appropriate corrective action

14. How often do you perform glove fingertip and medial fill testing?

Every 3 months for compounders and yearly for RPh with direct oversight

15. Describe your initial and ongoing training program for all personnel performing sterile compounding:

Our pharmacy maintains a comprehensive initial and ongoing training and competency program for all personnel performing sterile compounding. Initial training includes both didactic education and hands-on, one-on-one training.
Personnel complete the CriticalPoint (TRC) online sterile compounding course, which provides comprehensive training covering all aspects of sterile compounding. In addition, Pharmacy Stars (Compounding360) provides training in sterile and non-sterile compounding, hazardous drug handling and compounding, and other applicable topics, with quizzes to assess understanding. Pharmacy Stars also contains our pharmacy-specific SOPs, which trainees are required to read, review, and acknowledge as part of their training.
Following the didactic portion, each trainee receives individualized hands-on training using an internally developed training guide. Training covers activities both inside and outside the cleanroom, including garbing and aseptic technique, cleaning and disinfection, compounding procedures, vial washing and sterilization, QC procedures, autoclave processes, labeling and verification, documentation, and other applicable compounding-related tasks. Training consists of observation followed by directly supervised performance by the trainee.
The PIC or designated qualified individual verifies and signs off on completion of the required training and competencies. Once all required training and competencies are successfully completed, the trainee proceeds to the required GFT/Media Fill qualification before being authorized to perform sterile compounding independently.
Ongoing competency is maintained through periodic training and direct oversight, with compounders evaluated every three months and pharmacists annually. Additional training and competency assessment are provided whenever procedures or SOPs change or when retraining is otherwise indicated.

16. Describe the cleaning procedure for your primary and secondary engineering controls, including the frequency of cleaning and the names of cleaning, disinfectant, sporicidal, and/or deactivation and decontamination agents used:

Our facility follows current USP <797> requirements for Category 3 compounding. Primary engineering controls (PECs) are cleaned and disinfected on each day of compounding using sterile TB1-3300 with a 1-minute dwell time, followed by sterile 70% IPA. Sterile 70% IPA is also used for routine and in-process disinfection of PEC work surfaces and prior to compounding. Peridox RTU is used as the facility's sporicidal disinfectant, with a 3-minute dwell time, at the USP <797> Category 3-required frequencies. The PEC interior, pass-through chamber, work surfaces outside the PEC, and floors receive sporicidal treatment at least weekly; removable PEC trays and the area beneath them receive sporicidal treatment monthly.

Secondary engineering controls and other classified-area surfaces, including walls, doors/frames, ceilings, shelving/bins, and applicable equipment, are cleaned and disinfected according to USP <797> Category 3 frequencies. Sterile 70% IPA is used for routine residue-free disinfection where applicable, while Peridox RTU is used for the required sporicidal treatment. All agents are used according to manufacturer-required dwell/contact times, and sterile cleaning and disinfecting agents are used within the PEC. Cleaning and disinfection activities are documented in accordance with facility SOPs.

17. Who performs the sterile compounding process at your facility?

Qualified sterile compounding technicians

18. Who is responsible and accountable for the sterile compounding process at your facility?

PIC or designated person

19. If products are shipped/mailed, what shipping conditions are used to ensure product safety/efficacy?

When compounded products are shipped or mailed, they are packaged in Kangaroo pouch cold-chain mailers using packaging configurations supported by validated shipping studies. The validated packaging system is used to maintain appropriate product temperature, protect the preparation from physical damage, and preserve product quality, safety, and efficacy throughout transit.

Section 3: Sterile Hazardous Compounding Questions (Complete this section ONLY if you be performing Sterile Hazardous Compounding.)		
1. What type of primary engineering controls will you be using in your facility? BSC, CVE, LAFW		
2. Are you complying with all USP 800 guidelines?	✓Yes	No
3. Have your employees who compound with hazardous drugs signed an acknowledgement that they understand the risks associated with this process?	✓Yes	No
4. Is your BSC or CACI vented 100% to the outside?	✓Yes	No
5. Do you have a negative pressure buffer room at your facility?	✓ Yes	No
6. Will you be compounding with antineoplastic HDs or HD API?	✓ Yes	No
7. If yes, are the drugs stored in an externally ventilated, negative pressure room?	✓ Yes	No
8. Will you be utilizing a closed system transfer device?	Yes	✓No
9. If yes, list the name of the device:		

10. What information is provided to the patient or consumer on the proper handling and disposal of hazardous drugs products/containers?

Patients/consumers receiving hazardous drug products are provided with appropriate counseling regarding the proper handling, storage, and disposal of the medication and its container. Product labels include applicable storage requirements and hazardous drug warnings, and auxiliary labels are used to provide additional handling and safety information necessary for the proper use of the product. Counseling and labeling are provided to ensure patients and caregivers are aware of appropriate precautions when handling hazardous drug products and containers.

11. Describe your initial process for training new employees prior to compounding sterile hazardous drugs?

The process for Hazardous sterile training remains essentially the same as mostly the same principles apply in the HD buffer room but there is an emphasis on HD specific training specifically related to garbing, product handling and hazardous drug list, spill management, HD waste, employee exposure, and specific aseptic techniques related to HD compouding.

Section 4: Sterile Category 3 Compounding Questions (Complete this section ONLY if you will be performing Category 3 Compounding.)

1. List the specific Category 3 sterile products that your facility compounds:

NAD+ Injection, Glutathione Injection, Sermorelin Injection, Semaglutide/Pyridoxine Injection, Tirzepatide/Pyridoxine Injection

2. What is the frequency for ongoing garbing, gloved fingertip and thumb sampling, and media fill testing for compounding personnel?

Once every 3 months for compounding technicians and once yearly for pharmacists with direct oversight

3. Is the pharmacy meeting all of the additional garbing requirements for compounding Category 3 CSPs as defined by the revised USP-797 guidelines? ✓ Yes No

4. What is the frequency for completing volumetric active air sampling?

Once monthly

5. What is the frequency for completing surface sampling? Once weekly including DCA of each Cat 3 compounded batch		
6. What is the frequency for using sporicidal agents? *Monthly for entire cleanroom including additional weekly application of PEC surfaces including equipment inside, worksurfaces outside of PEC, floors and pass through chambers*		
7. Is an endotoxin test performed for all products compounded from one or more nonsterile component?	✓ Yes	No
8. Is the BUD assigned supported by stability data obtained using a stability-indicating analytical method?	✓ Yes	No

I certify under penalty of perjury that the information contained in this form is accurate, true and complete in all material respects. I understand that making any false representation in this form is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire form and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. Re: Case No. 2024-0931

The Board of Pharmacy is investigating a complaint regarding Quality Compounding Rx Of America (Quality). The complaint is Quality dispensed and shipped prescription medication to a patient in Oregon without a drug outlet registration.

Please respond by submitting a typed and signed statement by **November 25, 2024**. The statement should indicate if the allegation is true or not. If the allegation is true, please indicate the date this began and provide a report with prescription number, patient name, drug name, address where shipped, and the date drug was shipped into Oregon. Please also describe the problem, explain in detail why it happened, and describe any steps taken to prevent this type of incident from reoccurring.

PLEASE NOTE: Responses are formal statements to the Board's inquiry into this investigation. The Board may use the information provided in the response statements to determine whether disciplinary action is warranted.

If you have any questions, please contact me at joseph.ball@bop.oregon.gov .

Re: Case No. 2024-0931

The Oregon Board of Pharmacy proposes to impose a civil penalty against Quality Compounding Rx of America (Respondent) for the reasons explained in the enclosed Notice of Proposed Civil Penalty (Notice).

The Respondent has the right to contest this action by having a formal hearing before an Administrative Law Judge. The Respondent must be represented by an attorney.

If the Respondent wants a hearing, its **written** request for a hearing must be filed by an attorney for the Respondent and must be received by the Board within twenty-one (21) days from the date the Notice is served.

If the Respondent does **not** want to contest the Board's proposed action, it may agree to it by having an authorized representative sign and return the enclosed Consent Order.

If the Respondent fails to request a hearing within 21 days, the Board will enter a Final Order by Default against the Respondent. The Final Order by Default will impose action as determined by the Board. Pursuant to OAR 137-003-0505 the Board designates its file as the evidentiary record in this proceeding for purposes of establishing a prima facie case in the event of a default.

If you have any questions, or if we can be of further assistance, please contact our office at pharmacy.compliance@bop.oregon.gov. Please provide your name, your preferred contact method and information, and case number as it appears above. Alternatively, you may contact our office at the address and phone number listed above.

OF THE STATE OF OREGON

In the Matter of	)	Case No. 2024-0931
	)	
Quality Compounding Rx of America	)	CONSENT ORDER
	)	
Respondent	)	

WHEREAS, the Board of Pharmacy of the State of Oregon has filed a Notice of Proposed Civil Penalty ("Notice") regarding the Respondent in the above-captioned matter; and

WHEREAS, the above-noted Notice was duly served on the Respondent as required by law; and

WHEREAS, the parties are desirous of resolving and settling those matters contained in the above-noted Notice without further proceedings thereon; and

WHEREAS, the Respondent is aware of the right to a hearing with the assistance of counsel and the right to judicial review of the Board's decision, and hereby freely and voluntarily waives those rights; and

WHEREAS, the Respondent admits that the facts alleged in the above-noted Notice are true, that the Respondents conduct, as admitted, violated the statutes and rules cited in the Notice, and that legal cause exists pursuant to ORS 689.335, 689.405, and 689.445 for disciplinary action by the Board; and

WHEREAS, the Respondent consents to the disciplinary action as set forth herein;

The Board finds that the allegations in the Notice are true and hereby:

1. The Respondent shall pay a civil penalty to the Board in the amount of $10,000 with $9,000 stayed pending no further violation for three years. If respondent violates any term or condition of this Consent Order, within three (3) years of the effective date of this Consent Order, the Board may take action to lift the stayed portion of the civil penalty. Payment of the $1,000 portion of the civil penalty not stayed to be made within ten (10) days from the date this Consent Order becomes final.

2. This Consent Order shall become effective immediately upon issuance by the Board.

3. In the event that the Respondent fails to timely pay the civil penalty as ordered herein, the Board may take further action, after notice and hearing.

CONSENT

I hereby acknowledge that I am the authorized representative of respondent. On behalf of the respondent, I hereby acknowledge that I have read and understand the above-noted Notice and the terms of the Consent Order. I hereby acknowledge that I understand that the Consent Order with incorporated Notice is a public record and shall be available via the Board's online licensure verification; is available upon written request pursuant to public disclosure laws; and shall be reported to the National Practitioner Data Bank as required by federal law. I agree to the Board entering the Consent Order.

Re: Case No. 2024-0931

The Board of Pharmacy is investigating a complaint regarding Quality Compounding Rx Of America (Quality). The complaint is Quality dispensed and shipped prescription medication to a patient in Oregon without a drug outlet registration.

Please respond by submitting a typed and signed statement by **November 25, 2024**. The statement should indicate if the allegation is true or not. If the allegation is true, please indicate the date this began and provide a report with prescription number, patient name, drug name, address where shipped, and the date drug was shipped into Oregon. Please also describe the problem, explain in detail why it happened, and describe any steps taken to prevent this type of incident from reoccurring.

PLEASE NOTE: Responses are formal statements to the Board's inquiry into this investigation. The Board may use the information provided in the response statements to determine whether disciplinary action is warranted.

If you have any questions, please contact me at joseph.ball@bop.oregon.gov .

Initial each statement below to indicate you have read and agree with the following:

VG I understand that as the managing pharmacist I am responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the pharmacy and the practice of pharmacy. I understand my license can be revoked or that I can be subject of disciplinary action if such laws or regulations are knowingly violated in the pharmacy in which I am the managing pharmacist.

VG I understand within 48 hours after I report for duty as the managing pharmacist, I shall complete an inventory of all controlled substances of the pharmacy pursuant to 21 CFR Part 1304 and maintain a copy of the inventory in the file at the pharmacy.

VG I understand that if I cease to be managing pharmacist of the above-named pharmacy, I will jointly, with the new managing pharmacist, take an inventory of all controlled substances.

VG I understand that as the managing pharmacist I must ensure that all loss or theft of controlled substances are reported on forms provided by the Nevada State Board of Pharmacy and Department of Public Safety within 10 days after the date of discovery of theft or loss. NRS 453.568. Federal regulations require that registrants notify the Field Division Office of the Administration in his area, in writing, of the theft or significant loss of any controlled substance, disposal receptacles or listed chemicals within one business day of discovery of such loss or theft. The registrant shall also complete and submit to the Field Division Office in his area, DEA Form 106 regarding the loss or theft (21 C.F.R. §1301.76(b) and 21 U.S.C. §830(b)(1)(C)).

VG I understand that as the managing pharmacist I must notify the Nevada State Board of Pharmacy of all employment changes of pharmacy staff within 10 days of the change. NAC 639.540

Initial each statement below to indicate you have read and agree with the following:

JB I understand that as the managing pharmacist I am responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the pharmacy and the practice of pharmacy. I understand my license can be revoked or that I can be subject of disciplinary action if such laws or regulations are knowingly violated in the pharmacy in which I am the managing pharmacist.

JB I understand within 48 hours after I report for duty as the managing pharmacist, I shall complete an inventory of all controlled substances of the pharmacy pursuant to 21 CFR Part 1304 and maintain a copy of the inventory in the file at the pharmacy.

JB I understand that if I cease to be managing pharmacist of the above-named pharmacy, I will jointly, with the new managing pharmacist, take an inventory of all controlled substances.

JB I understand that as the managing pharmacist I must ensure that all loss or theft of controlled substances are reported on forms provided by the Nevada State Board of Pharmacy and Department of Public Safety within 10 days after the date of discovery of theft or loss. NRS 453.568. Federal regulations require that registrants notify the Field Division Office of the Administration in his area, in writing, of the theft or significant loss of any controlled substance, disposal receptacles or listed chemicals within one business day of discovery of such loss or theft. The registrant shall also complete and submit to the Field Division Office in his area, DEA Form 106 regarding the loss or theft (21 C.F.R. §1301.76(b) and 21 U.S.C. §830(b)(1)(C)).

JB I understand that as the managing pharmacist I must notify the Nevada State Board of Pharmacy of all employment changes of pharmacy staff within 10 days of the change. NAC 639.540

AGREED BOARD ORDER #H-05-006-A

RE: IN THE MATTER OF
JAMES ALVIS BELVIN
(PHARMACIST LICENSE #19413)

BEFORE THE TEXAS STATE
BOARD OF PHARMACY

On this day came on to be considered by the Texas State Board of Pharmacy the matter of pharmacist license number 19413 issued to James Alvis Belvin, 2406 East Mockingbird Lane, Apartment E5, Victoria, Texas 77904-2302; Date of Birth: November 12, 1942.

By letter dated April 6, 2005, the Texas State Board of Pharmacy gave preliminary notice to James Alvis Belvin of its intent to take disciplinary action with respect to pharmacist license number 19413 held by James Alvis Belvin as a result of an investigation which produced evidence indicating that James Alvis Belvin may have violated:

> Section 565.001(a)(1), (2), (12), and (13) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Subtitle J (Vernon 2003);
>
> Section 281.7(a)(12), (13), and (29)(A); Section 291.31(1), (17), and (18); Section 291.32(a)(2)(I); Section 291.32(c)(1)(E) and (F); Section 291.32(c)(2)(B), (C) and (D); and Section 295.3 of the Texas Pharmacy Rules of Procedure, 22 TEX. ADMIN. CODE (2004); and
>
> Section 431.003; Section 431.021(a), (b) and (r); and Section 431.112(a)(1) of the Texas Food Drug and Cosmetic Act, TEX. HEALTH AND SAFETY CODE ANN. (Vernon 2001), in that, allegedly:

COUNTS

On or about May 18, 2004, James Alvis Belvin, while acting as an employee (pharmacist-in-charge) of H.E.B. Pharmacy #434, 101 Calhoun Plaza, Port Lavaca, Texas 77979, dispensed 28 Doxycycline 500 mg capsules to patient L.J., a woman who was breastfeeding a newborn, on a new written prescription calling for 28 Dicloxacillin 500 mg capsules. The prescription bottle was labeled 28 Dicloxacillin 500 mg capsules. The mistake was discovered by the patient before any of the incorrect medication was ingested. The prescription was assigned prescription #6872609.

By letter dated April 6, 2005 James Alvis Belvin was notified that the matters previously set out in this Order could be disposed of without the scheduling of an informal conference or a formal administrative hearing. By his signature on this Order, James Alvis Belvin neither admits nor denies the truth of the matters previously set out in this Order, agrees that the Texas State Board of Pharmacy has jurisdiction in this matter and waives the right to informal conference, to notice of hearing, to a formal administrative hearing, and to judicial review of this Order.

James Alvis Belvin understands that any failure to comply with the terms of this Order is a basis for discipline under the Texas Pharmacy Act.

Should this Order not be accepted by the Board, it is agreed that neither the presentation of the Order to the Board nor the Board's consideration of the Order, will be deemed to have unfairly or illegally prejudiced the Board or its individual members and, therefore, will not be grounds for precluding the Board or any individual member of the Board from further participation in proceedings related to the matters set forth in the Order.

James Alvis Belvin agrees to the entry of an Order disposing of the need for further disciplinary action in this matter and further agrees to comply with the terms and conditions set forth in the ORDER OF THE BOARD below.

ORDER OF THE BOARD

THEREFORE, PREMISES CONSIDERED, the Texas State Board of Pharmacy does hereby ORDER that pharmacist license number 19413 held by James Alvis Belvin (hereinafter referred to as "Respondent") shall be, and such license is, hereby reprimanded.

It is further ORDERED that Respondent shall obtain fifteen (15) hours of continuing education with a portion of such hours relating to the prevention of dispensing errors, which shall be in addition to the hours of continuing education required for renewal. Respondent shall submit proof of completion of the continuing education hours to the Texas State Board of Pharmacy, Enforcement Division, within one (1) year of the entry of this Order. All continuing education must be in compliance with the continuing education requirements set forth in Section 295.8 of the Texas Pharmacy Rules, and must be completed after the entry of this Order and before one (1) year after the entry of this Order.

It is finally ORDERED that failure to comply with any of the terms and conditions in this Order constitutes a violation and shall be grounds for further disciplinary action against the Texas pharmacist license held by Respondent.

And it is so ORDERED.

THIS ORDER IS A PUBLIC RECORD.

SIGNED AND ENTERED ON THIS 10th day of May, 2005.

Case No. 97-044B-RPH-S

THIS MATTER was heard by the Nevada State Board of Pharmacy (hereinafter Board) at its regular meeting on January 21, 1998 in Las Vegas. The Board was represented by Louis Ling, Deputy Attorney General. Respondent Belvin represented himself, and Respondent Express Drug Mart was represented by Dan Hopkins. Based on the testimony and documents presented as well as the public records in the possession and control of the Board, the Board issues the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. Mr. Belvin, Mr. Hopkins, and Staff stipulated that the facts as alleged in the Notice of Intended Action and Accusation in this matter were true and correct and that four exhibits would be admitted into evidence. Based upon the testimony, admissions, and evidence at hearing, the following are found to be the facts of this case.

2. Mr. Hopkins is the owner of Express Drug Mart, which is the only pharmacy in Overton, Nevada. Mr. Belvin is the only pharmacist employed at Express Drug Mart.

3. In the period of April through August 1997, Mr. Belvin made three pharmacy errors that resulted in complaints to the Board. In the first error, Mr. Belvin filled a

prescription for amitriptyline 25 mg. with amitriptyline 50 mg. The patient discovered the error before ingesting any of the incorrect medication. In the second error, Mr. Belvin filled a prescription for Lotensin 10 mg. with Lotensin 20 mg. The patient ingested the incorrect medication and complained of swelling i his legs and feet. In the third error, Mr. Belvin mislabeled a prescription for Imitrex 50 mg. so that the directions for use stated "Take 2 tablets at onset of headache..." rather than "Take 1 tablet at the onset of headache..." The patient ingested the drug according to the incorrect directions and complained of lightheadedness, dizziness, and weakness. In all three instances, Mr. Belvin admitted in written statements to Staff that he had committed the errors.

3. In addition to the above three instances, Mr. Belvin had received a letter dated October 16, 1997 admonishing him regarding two additional incidents where he had misfilled prescriptions that had not been ingested by the patients.

4. At hearing, Mr. Belvin and Mr. Hopkins explained the measures they had taken as a result of the complaints in this matter. This Board is satisfied that if the measures detailed by Mr. Belvin and Mr. Hopkins are consistently implemented, then the safety, efficiency, and accuracy of the pharmacy and Mr. Belvin's practice should be greatly improved.

CONCLUSIONS OF LAW

1. The Nevada State Board of Pharmacy has jurisdiction over this matter because Respondent Express Drug Mart is a pharmacy registered with the Board and Respondent Belvin is a pharmacist licensed by the Board.

2. In incorrectly filling two patient's prescriptions, Mr. Belvin violated NRS 639.210(4) and NAC 639.945(1)(i).

3. In incorrectly labeling a patient's prescription, Mr. Belvin violated NRS 639.210(4) and NAC 639.945(1)(d) and (i).

4. In being repeatedly negligent as was evidenced by the three prescription errors that are the subject of this action, Mr. Belvin violated NRS 639.210(4) and (16) and NAC 639.945(1)(i).

5. In owning and operating the pharmacy in which Mr. Belvin committed the above errors, Express Drug Mart violated NRS 639.210(4) and 639.266 and NAC 639.945(1)(d) and (i) and (2).

ORDER

Based upon the foregoing, the Board hereby orders the following:

1. Mr. Belvin and Express Drug Mart shall develop and produce a written policies and procedures manual. This manual shall detail the various policies and procedures to be used by all Express Drug Mart employees in the handling and filling of prescriptions, the ordering and handling of drugs, the handling of telephone calls, the handling of third-party transactions and Medicaid and Medicare transactions, etc. A copy of the policy and procedures manual, including a signature sheet showing that all employees of Express Drug Mart have read and understood the manual, must be received by the Board office no later than April 15, 1998. The Board shall review the manual at its meeting on April 29 and 30, 1998 and shall either approve the manual or shall suggest additional changes that must be made before approval.

2. Failure by either Respondent to comply with any term or condition of this Order may result in additional discipline, up to and including revocation of that Respondent's license.

Signed and effective this 30th day of January, 1998.

Larry L. Pinson, President
Nevada State Board of Pharmacy

CONCLUSION

Action Taken

1. Policy and procedure program implemented which includes:
   A. Ethics, fraud, waste, and abuse
   B. Compliance with third-party rules and regulations
   C. Best and safe practice programs implemented including:
      - Best procedure for a safe workflow including patient counseling
      - Strict compliance with laws regulating controlled substances
2. Currently, I am in compliance with the Nevada State Board of Pharmacy and Texas State Board of Pharmacy (Board Orders). I continue to be in good standing with both NSBP and TSBP as of this date.

Sincerely,

James A. Belvin

As the undersigned representative of the licensee, I affirm that the information provided during the inspection is true and accurate to the best of my knowledge. I understand that the licensee is responsible for the legal operations of the facility and I am executing this inspection form as, or on behalf of the licensee.

The alleged violator has voluntarily entered into an Opportunity to Correct Plan with the Indiana Professional Licensing Agency (PLA). Pursuant to IC 4-21.5-2.5-7, the alleged violator enters into a written Corrective Plan to correct the alleged violation(s) set forth above before the agency institutes an enforcement action which may include the filing of a Consumer Complaint with the Office of the Indiana Attorney General. Upon notice that the alleged violation(s) has been corrected, this Agency shall re-inspect not more than thirty (30) days after to determine if you have substantially complied with the applicable rule or state statute. If subsequent inspection identifies a failure to address previous violations the facility will "fail" the inspection and additional enforcement actions may be initiated against licensure.

In order to avoid additional enforcement action, the alleged violator must submit the Corrective Plan within five (5) business days after the initial inspection. A plan of corrective action can be either emailed to PLACompliance@pla.in.gov, or mailed to: Indiana Professional Licensing Agency, Attn: Compliance Division, 402 W. Washington St. RM W072, Indianapolis, IN 46204.

understand that the licensee is responsible for the legal operations of the facility and I am executing this inspection form as, or on behalf of the licensee.

The alleged violator has voluntarily entered into an Opportunity to Correct Plan with the Indiana Professional Licensing Agency (PLA). Pursuant to IC 4-21.5-2.5-7, the alleged violator enters into a written Corrective Plan to correct the alleged violation(s) set forth above before the agency institutes an enforcement action which may include the filing of a Consumer Complaint with the Office of the Indiana Attorney General. Upon notice that the alleged violation(s) has been corrected, this Agency shall re-inspect not more than thirty (30) days after to determine if you have substantially complied with the applicable rule or state statute. If subsequent inspection identifies a failure to address previous violations the facility will "fail" the inspection and additional enforcement actions may be initiated against licensure.

In order to avoid additional enforcement action, the alleged violator must submit the Corrective Plan within five (5) business days after the initial inspection. A plan of corrective action can be either emailed to PLACompliance@pla.in.gov, or mailed to: Indiana Professional Licensing Agency, Attn: Compliance Division, 402 W. Washington St. RM W072, Indianapolis, IN 46204.

Re: LillyDirect Pharmacy, LLC
Pharmacy Application

To whom it may concern:

We are writing to provide additional information in support of the pending non-resident pharmacy application for LillyDirect Pharmacy, LLC ("Applicant"), located at 1555 S. Harding St., Ste. 171-B68, Indianapolis, IN 46221, before the Nevada State Board of Pharmacy ("Board").

Specifically, the following statement addresses the affirmative answer to Section 3, Question 3 of the application, which asks "Has the corporation, any owner(s), shareholder(s) or partner(s) with any interest, ever been subject of an administrative action, board citation, cite fine, or proceeding relating to the pharmaceutical industry?"

The question was answered affirmatively for the following reasons:

1. The Board issued a Citation & Fine, dated March 13, 2026 (case no. 25-402-O), to the Applicant that was not resolved at the time of the application submission. That matter has now been resolved pursuant to the Amended Citation & Fine, dated June 1, 2026, attached hereto; and
2. The Applicant's parent company, Eli Lilly and Company, is a publicly traded corporation that has been in business for over 150 years, and encompasses numerous current and historical subsidiaries, affiliates, and divisions across multiple jurisdictions; as such, it is not possible to generate a complete list.

Please let us know if you have any questions or require additional information.

Sincerely,

Joshua Wheat

Re: AMENDED CITATION & FINE: Case No. 25-402-O, Unlicensed Activity

To Whom It May Concern:

This letter shall supersede the Cease & Desist / Citation & Fine dated March 13, 2026 issued to LillyDirect Pharmacy Solutions.

The Nevada State Board of Pharmacy (Board) reasonably determined that LillyDirect Pharmacy, LLC (LillyDirect Pharmacy) engaged in the practice of pharmacy into the State of Nevada without the required Nevada licensure, in violation of Nevada Revised Statutes (NRS) 639.100, NRS 639.233, and Nevada Administrative Code (NAC) NAC 639.6942.

During an October 2025 investigation of a wellness facility in Reno, the Board discovered that Nevada consumers were obtaining prescription drugs, which are dangerous drugs under Nevada law, facilitated by way of LillyDirect. The Board understands that LillyDirect is a digital healthcare platform that connects patients to third-party telehealth services. Although LillyDirect Pharmacy is a non-dispensing pharmacy, its support activities to LillyDirect still fall within the scope of operations that require a license from the Board. Specifically, an unlicensed seller of prescriptions drugs is deemed to be engaged in the business of furnishing prescription drugs in Nevada if the seller solicits or accepts orders for those drugs from a Nevada purchaser regardless of whether the seller actually ships those products into the state. See NRS 639.233(2)(a); cf. NRS 639.233(2)(b). Further, the practice of pharmacy includes the receipt of prescriptions and other confidential information relating to patients. NRS 639.0124.

Because LillyDirect Pharmacy is not a Nevada licensed pharmacy, manufacturer, or wholesaler, it cannot solicit orders for prescription drugs in Nevada. *See* NRS 639.100(1); NRS 639.233. This letter serves as a **CITATION** pursuant to NRS 639.2895(2). Pursuant to NRS 639.2895(3), the Board has assessed an administrative fine against LillyDirect Pharmacy in the amount of **Five Thousand Dollars ($5,000.00).**

You have the right to appeal this citation by submitting a written request for a hearing to the Board at the Board's Reno office no later than 30 days after receipt of this citation. NRS 639.2895(2). Unless you submit a timely appeal, the above fine must be paid within the same time frame. Payment must be tendered in the form of a certified check, cashier's check or money order made payable to "**State of Nevada, Office of the Treasurer**." Please remit payment to the Board's Reno office, located at 985 Damonte Ranch Parkway — Suite 206, Reno, NV 89521.

If you fail to timely pay the above fine or appeal this citation, as applicable, the Board may take further action, including referral to the Nevada Controller's Office for collection. *See* NRS 353C.195. If you have any questions concerning this citation or your right to appeal the above finding, you may contact the Board's Regulatory Compliance Officer Skylar Young at 775-850-1440, ext. 151, or by email at Skylaryoung@pharmacy.nv.gov.

Notes

1. The "initial date of registration as an outsourcing facility" is the date the facility was first registered (i.e., the date FDA determined that the initial registration information submitted for the facility was complete, and the establishment fee was paid in full).

   Under section 503B(b) of the FD&C Act, after the initial registration, a facility that elects to continue to be registered with FDA as an outsourcing facility must re-register annually. A facility that elects to register (or re-register) with FDA as an outsourcing facility must pay an annual establishment fee. The "date of most recent registration as an outsourcing facility" reflects the date FDA determined the most recently submitted registration information was complete and the annual establishment fee for that fiscal year paid in full.

   Unless a previously registered outsourcing facility re-registers and pays the annual establishment fee in full during the registration period (between October 1 and December 31 of each calendar year), the facility will be removed from the list of registered outsourcing facilities on January 1 of the next calendar year.

2. Once an outsourcing facility is registered, the facility will be added to the list of facilities FDA intends to inspect according to a risk-based schedule. FDA plans to inspect outsourcing facilities within a reasonable period of time following initial registration, once it is confirmed that the facility has initiated drug production and distribution. However, the exact timing of the inspections can be affected by a number of variables, including the number of outsourcing facility registrants, other inspection priorities, and the operational status of the newly registered outsourcing facility.

   Inspections identified in this table are associated with the facility at the listed address. A company may own or operate more than one registered outsourcing facility. FDA's web page Compounding: Inspections, Recalls, and other Actions (/node/363232) may contain information about compounding facilities under the same ownership as the listed registered outsourcing facility.

   Inspections may take place over several days, weeks or longer. The date of the inspection is the date a Form FDA 483 listing the investigators' observations was issued. If no FDA Form 483 was issued, the date is the last day of the inspection.

3. A Form FDA 483 is issued when investigators observe any significant objectionable conditions. It does not constitute a final agency determination of whether any condition is in violation of the FD&C Act or any relevant regulations.

4. This table does not include State Board of Pharmacy actions, if any. To determine whether a registered outsourcing facility has been the subject of a state enforcement action, check with the State Board of Pharmacy for the state in which the facility is located. Some states post disciplinary or other actions on their web sites.
5. "Closed" means the inspection has been closed without further action. "Open" means FDA has not determined whether further action will be taken. If an action has been taken, it will be listed. Possible FDA actions include warning letter, seizure or injunction.
6. The information in this column was provided by the registered outsourcing facility at the time of registration and has not been verified by FDA. "N/A" indicates the registered outsourcing facility has not provided this information.
7. This outsourcing facility was the subject of at least one previous inspection relating to compounding that resulted in a Form FDA 483, warning letter or other action. For information about such inspections and resulting actions, visit Compounding: Inspections, Recalls, and other Actions (/node/363232).
8. A remote regulatory assessment (RRA) is an examination of an FDA-regulated establishment and/or its records, conducted remotely, to evaluate compliance with applicable FDA requirements. These assessments assist in protecting human and animal health, inform regulatory decisions and verify certain information submitted to the agency.
9. Based on inspectional findings, the inspection revealed significant issues. As a result, the outsourcing facility may have either initiated a recall on their own following conversation(s) with the FDA investigator or FDA recommended a recall at the conclusion of the inspection or both. Additionally, the outsourcing facility may have conducted multiple recalls or recalled multiple drugs.

Section 2: Sterile Compounding Questions (Use a separate piece of paper if additional space is needed.)

1. What risk level sterile compounding will your facility be performing (check all that apply)?

☐ Category 1 ■ Category 2 ☐ Category 3

If you marked **"Category 3"**, you must also complete **section 4.**

2. If compounding Category 2 products is the location performing sterility and endotoxin testing (if required) to obtain extended beyond-use dates? ☐ Yes ■ No

3. If compounding Category 2 products is the location performing aseptically processed CSPs or terminally sterilized CSPs? ☐ Aseptic ■ Terminal

4. Is the pharmacy following the new garbing requirements listed in the revised USP-797 guidelines? ■ Yes ☐ No

5. When was the most recent certification for the ISO classified areas? February 2026

6. What is the frequency of the recertification for the ISO classified areas? Annually

7. Were there any follow-up items required from the most recent certification report? ☐ Yes ■ No

8. If preparing Category 2 or Category 3 CSPs from non-sterile starting components are the pre-sterilization procedures such as weighing and mixing completed in an ISO Class 8 or better environment? ■ Yes ☐ No

9. If compounding Category 1 CSPs and Category 2 CSPs how often is surface sampling of all classified areas and pass-through chambers conducted? Per environmental monitoring schedule & after significant events, maintenance, & excursion

10. Will you be performing sterile hazardous drug compounding? Yes ■ No

If you marked **"Yes"**, you must also complete **section 3.**

11. List the sterile compounded products that you will be compounding for Nevada patients or consumers:
Sterile compounded preparations containing methylcobalamin, sermorelin, NAD+, glutathione, and gonadorelin.

12. What laboratory performs your sterility or endotoxin testing?

Name: Nelson Laboratories, LLC

Address: 6280 S. Redwood Road

City: Salt Lake City State: UT Zip: 84123

Telephone: 801 290 7625

13. What is your procedure for visual inspection of compounded sterile products?
Each finished compounded sterile product is visually inspected by trained and qualified personnel using manual, semi automated, or automated inspection, as applicable, before release. Inspection includes solution clarity, color, visible particulate matter, container closure integrity, fill volume, stopper and seal integrity, cracks, leaks, cosmetic defects, and labeling accuracy, including lot identification and beyond use date or expiry information. Any unit that does not meet acceptance criteria is rejected and investigated in accordance with written procedures.

14. How often do you perform glove fingertip and medial fill testing?
Glove fingertip and thumb sampling and media fill qualification are completed initially, requalified per procedure, and repeated after failures, major changes, extended absence, or retraining.

15. Describe your initial and ongoing training program for all personnel performing sterile compounding:
All personnel involved in sterile compounding complete initial training before performing any sterile compounding duties independently and complete ongoing requalification thereafter. Training includes personnel hygiene and garbing, aseptic technique, cleanroom behavior, material staging and transfer, equipment operation, environmental monitoring awareness, cleaning and disinfection practices, batch record documentation, deviation reporting, visual inspection, labeling controls, and applicable requirements under USP 797 and the facility quality system. Personnel must successfully complete required practical and written qualification activities, including gowning qualification, glove fingertip and thumb sampling, media fill qualification, and role specific competency assessments.

16. Describe the cleaning procedure for your primary and secondary engineering controls, including the frequency of cleaning and the names of cleaning, disinfectant, sporicidal, and/or deactivation and decontamination agents used:
Primary and secondary engineering controls are cleaned and disinfected in accordance with written procedures and established schedules. Cleaning is performed using qualified cleaning and disinfecting agents before operations begin, at defined intervals during operations as applicable, after compounding is completed, and after any spill, contamination event, or maintenance activity requiring additional cleaning. Disinfecting and sporicidal agents are used at defined routine frequencies under the environmental cleaning program. All cleaning activities are documented in facility logs and reviewed under the quality system. The specific agents used are listed below and are as approved in current procedures: Different types of Liquidnox cleaning agents, isopropyl alcohol (70%) Ready to use (RTU) Peridox, Tex Q, Sporkenz and ionized hydrogen peroxide.

17. Who performs the sterile compounding process at your facility?

Licensed pharmacists and certified pharm. techs perform sterile compounding after training, qualification, & authorization.

18. Who is responsible and accountable for the sterile compounding process at your facility?
Responsibility for sterile compounding rests with the supervising pharmacist, designated person under USP 797, and Quality Assurance, including oversight of personnel qualification, environmental monitoring, deviations, cleaning, disinfection, and procedural compliance.

19. If products are shipped/mailed, what shipping conditions are used to ensure product safety/efficacy?
Products are shipped under labeled storage conditions using qualified packaging, temperature controls, and cold chain packaging and temperature monitoring devices when required. Shipping conditions are documented and reviewed, and any temperature excursion is assessed under written procedures before product disposition.

Subject: Bespoke Pharmaceutical – Corrective Actions and Follow-Up Following NVBP Hearing

WARNING - This email originated from outside the State of Nevada. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Good morning Dave,

Thank you again for taking the time to speak with me yesterday afternoon following the NVBP hearing regarding Bespoke's Outsourcing Facility application. I genuinely appreciate your willingness to have the conversation with me and, more importantly, for providing candid feedback and perspective regarding the concerns raised by the Board and legal counsel. Our conversation was extremely helpful, and I want you to know that I take the Board's feedback very seriously. I also now understand that there was a miscommunication regarding the expectation that ownership be present at the hearing. I regret that we did not have that understanding beforehand. I had made several attempts to connect prior to the meeting, but regardless, I completely understand the Board's perspective and concern and appreciate you taking the time to explain it to me directly. I view our conversation as an important opportunity to make sure we are fully aligned going forward.

Following our discussion, I wanted to personally confirm that we have already taken action on each of the concerns you brought to my attention.

1. Website and Product Advertising

We immediately reviewed our website and external communications to ensure that nothing could be interpreted as representing that Bespoke is currently an approved or operational 503B outsourcing facility. Effective September 3, 2026, we removed all product advertising and product profiles that could potentially suggest that these products are currently available for commercial manufacture or distribution. We have also instructed our team to review all social-media communications and ensure that nothing could imply that Bespoke currently has approval to operate as an outsourcing facility or to manufacture and distribute 503B products. Going forward, we will be extremely careful to clearly distinguish between our future intended capabilities and activities for which we have actually received regulatory authorization. We are also implementing employee retraining to ensure that our entire team understands the importance of this distinction and that this issue does not recur.

2. Incorrect Representation of My Professional Credentials

Thank you for bringing this up to my attention. We immediately addressed the concern regarding the inaccurate public representation of my professional credentials in connection with my roles as Chief of Development & Operations Officer and Designated Representative. I want to assure you that the reference to me as a Medical Doctor was not deliberate or an attempt to misrepresent my qualifications. It was an inadvertent oversight by our IT/content-development team. Nevertheless, we recognize the importance of ensuring that all professional titles, credentials, biographies, and representations are completely accurate. Upon becoming aware of the issue, I immediately directed our team to remove and correct the inaccurate information. Our staff and IT/content-development personnel have also been retrained regarding the importance of accurately representing professional credentials. As an additional preventive measure, we are implementing an enhanced internal review process for all professional titles, credentials, biographies, and regulatory representations before anything is published externally. Bespoke also maintains formal employment and credential-verification procedures through our HR platform, including E-Verify, and our personnel are verified and appropriately qualified as part of our onboarding process. We take the accuracy and integrity of our personnel records very seriously.

3. Pharmacist-in-Charge and 503B Experience

I appreciate the Board's concern regarding the lack of direct 503B experience in our current Pharmacist-in-Charge, and while we believe Magdalena Cybulska's qualifications are substantial, we are taking the concern seriously and proactively addressing it.

Our review of the applicable Nevada and federal regulatory framework indicates that there is not a specific Nevada requirement establishing a minimum number of years of prior 503B experience for a Pharmacist-in-Charge. We understand, however, that the Board has legitimate concerns regarding the experience necessary to appropriately oversee an outsourcing-facility operation. Magdalena is an actively licensed pharmacist and certified GxP professional with more than five years of compounding experience, extensive knowledge of pharmacology and peptide-related development, and a professional record without revocation or disciplinary concerns. She has been practicing since 2016 and has substantial education, training, and practical experience relevant to the responsibilities assigned to her. Nevertheless, we have decided to proactively mitigate the concern by expanding our pharmacy leadership resources. We have instructed our HR leadership to begin recruiting a Nevada-licensed pharmacist with direct 503B experience who could either supplement Magdalena's responsibilities or, if ultimately determined to be more appropriate for the application and the Board's expectations, assume an expanded leadership role. If the Board or anyone associated with the Board is aware of a qualified pharmacist with 503B experience who may be interested in relocating to Las Vegas and becoming part of the Bespoke ONE team, we would sincerely appreciate any referral or introduction. Please also be reminded that we have identified Khoi Vu as a qualified backup pharmacist. Khoi has served as a Pharmacist-in-Charge in Nevada for many years and, to our understanding, has previously been inspected by the Nevada Board of Pharmacy while serving in that capacity without findings. In addition, Bespoke has established a qualified and trained Quality Control Unit with responsibility for our quality systems and appropriate quality oversight. Our objective is to have multiple layers of qualified personnel, pharmacy leadership, and quality oversight rather than relying upon any single individual. Furthermore, we are having Magdalena and Khoi complete their specialized post-licensure credentials, primarily centered around USP <797> and <800> and ASHP compounded sterile preparation certification with the BCSCP and/or ACPE pharmacy program. Please also note that all staff members are GMP, GDP, and Good pharmacovigilance program trained and certified. Our quality control unit is/will be GLP trained and certified.

4. API, Former 503A Inventory, Manufacturing Authorization, and R&D Activities

Bespoke acknowledges that its former Nevada pharmacy license, under which it conducted 503A compounding activities, has been surrendered, that all 503A compounding and dispensing activities have ceased, and that Bespoke does not rely on that former pharmacy license as authority for any current activity; accordingly, any API or excipients remaining from the former pharmacy operation have been segregated and placed under controlled status pending confirmation of their appropriate disposition or lawful transfer under Bespoke's separate, currently effective authorizations. At the same time, we respectfully believe it is important to distinguish the surrendered pharmacy authority from Bespoke's separate Nevada drug-manufacturing authority (attached) and from the lawful procurement and possession of components for bona fide laboratory research and development. Bespoke currently holds Nevada Health Authority credential CL-039-38398 as a "DRUG" establishment, with no restriction listed on the credential, although we recognize that this authorization does not itself authorize premature 503B outsourcing-facility production. Nevada's drug-manufacturing regulations expressly contemplate a licensed manufacturer's receipt and possession of components: NAC 585.380 requires that, "upon receipt," a licensee safely and orderly store and handle components, prevent cross-contamination, and withhold those components from use until they have been identified, sampled, tested against specifications, and approved by the quality control unit; NAC 585.410 further requires records of the component identity and quantity, supplier, supplier lot number, date of receipt, testing, rejection and disposition. In addition, NRS 454.316(2) expressly provides that a prescription is not required for possession of dangerous drugs by manufacturers or laboratories authorized by Nevada law to handle, possess and deal in such drugs when maintained in properly labeled stock containers and procured from a manufacturer, wholesaler or pharmacy. We likewise recognize that NRS 639.100 requires a person engaging in manufacturing, wholesale distribution, compounding, sale or dispensing to hold the appropriate license or permit and comply with Board regulations, and Bespoke is not interpreting its existing manufacturer authorization as permission to conduct 503B production, dispensing or commercial distribution while the Outsourcing Facility application remains pending. Accordingly, our understanding is that the surrender of Bespoke's former pharmacy license does not, by itself, establish a categorical prohibition against Bespoke, acting under its separate lawful manufacturer framework, procuring and possessing appropriately sourced API solely for controlled research and development purposes only, including but not limited to, analytical method development, characterization, laboratory research and other permitted development activities that are not used for unauthorized 503B production, dispensing, distribution, sale or human administration. To ensure complete alignment with the Board, we respectfully request confirmation of this distinction and, if the Board interprets any provision of NRS Chapters 454, 585 or 639, or NAC Chapters 585 or 639, as prohibiting such procurement

or possession while Bespoke's Outsourcing Facility application remains pending, we respectfully request identification of the specific statutory or regulatory provision so that we may immediately incorporate that requirement into our procedures and controls.

5. Facility Inspection and Invitation to the Board

We appreciated the previous inspection and tour of our facility by the NVBP inspector, including the review conducted during the surrender of our 503A license. At the same time, we recognize that transparency and continued access are extremely important as we move through the 503B application process. For that reason, I would like to formally extend an open invitation to you, General Counsel, members of the Nevada Board of Pharmacy, and appropriate Board staff to visit Bespoke at any time that is convenient for the Board. We would welcome the opportunity to personally walk the Board through our facility, infrastructure, controlled areas, SOPs, quality systems, training programs, personnel qualifications, environmental controls, documentation systems, and overall operating practices. Most importantly, we would welcome the opportunity for the Board to meet our ownership and our team directly. We believe that seeing our facility, our people, and our systems firsthand will provide a meaningful opportunity for the Board to see the level of investment, commitment, preparation, and quality culture that has gone into Bespoke. Our doors are open, and we would be pleased to accommodate the Board whenever it believes a visit would be helpful.

6. Clarification of Sterilization Terminology

We also reviewed the language in our Outsourcing Facility application referring to "terminal sterilization." We acknowledge that this terminology was not accurate and want the Board to please make note of that prior to the next hearing. I reviewed the documentation once more to ensure credentials, qualification and information was accurate. Upon my review, I noted that 'terminal sterilization' was marked. Bespoke is not a gamma-irradiation or radiation-sterilization facility and does not represent that we perform terminal sterilization of our finished products. Our intended sterile manufacturing process is based upon validated aseptic processing, which may include, as applicable to the specific product and process, sterilizing filtration, sterilization and depyrogenation of components and containers/closures, aseptic assembly and filling, aseptic closing, and appropriate environmental and process controls. Please let me know if I should correct the application and all supporting documentation so that our sterilization and aseptic-processing capabilities are described accurately and without ambiguity.

Our Commitment to the Board

Dave, I want to personally thank you again for the conversation yesterday. I recognize that the Nevada Board of Pharmacy has an important responsibility to protect patients and ensure that any outsourcing facility operating in Nevada meets the highest standards of safety, quality, integrity, and regulatory compliance. We share that objective completely. Our goal is not simply to obtain a 503B license. Our goal is to build what we believe can become one of the strongest, safest, and most professionally operated outsourcing facilities in the State of Nevada. We want Bespoke to be an organization that the Board can have confidence in and that Nevada can be proud to have within its healthcare ecosystem.

We also see tremendous opportunities to collaborate with the institutions and organizations surrounding our facility, including Roseman University, UNLV, the College of Southern Nevada, Touro University Nevada, and the Las Vegas Chamber of Commerce. We hope to develop partnerships that support education, workforce development, innovation, research, and ultimately better access to high-quality compounded medications for Nevada patients and healthcare providers. Most importantly, I want you to know that I am personally committed to addressing every concern that is brought to my attention. If there is anything else that you, General Counsel, the inspectors, or any member of the Board have identified—whether large or small—I would sincerely appreciate knowing about it as early as possible. My preference is to understand the concern, correct it immediately, document the corrective action, and demonstrate that correction to the Board before the next hearing rather than allow an issue to remain unresolved or misunderstood.

I genuinely appreciate your willingness to provide us with this feedback and guidance. Your support and candor are extremely valuable to me, and I hope our actions demonstrate that we are listening carefully and responding accordingly. I would be honored if you or any of the board can come to our facility and tour it. Please extend the invite to all from the NVBP. Thank you again for your time, your guidance, and your support of Bespoke. We look forward to continuing our collaboration with the NVBP and to earning the Board's confidence through our actions, transparency, and commitment to compliance.

Please do not hesitate to reach out to me directly if there is anything further you would like us to address before the next hearing. We will act promptly.
With sincere appreciation,

SUMMARY

The State Board of Pharmacy was notified of a "Warning Letter" that was issued by the Food and Drug Administration (FDA) on 10/11/22 to Nephron SC, Inc., 4500 12th Street Ext, West Columbia, SC 29172 (Attachment 1).

The "Warning Letter" details, among other things the following:

The U.S. Food and Drug Administration (FDA) inspected your drug manufacturing facility, Nephron SC Inc., FEI 3010892830, at 4500 12th Street Ext., West Columbia, SC from March 28 to April 20, 2022.
This warning letter summarizes significant violations of Current Good Manufacturing Practice (CGMP) regulations for finished pharmaceuticals. See Title 21 Code of Federal Regulations (CFR), parts 210 and 211 (21 CFR parts 210 and 211).

Because your methods, facilities, or controls for manufacturing, processing, packing, or holding do not conform to CGMP, your drug products are adulterated within the meaning of section 501(a)(2)(B) of the Federal Food, Drug, and Cosmetic Act (FD&CAct), 21 U.S.C. 351(a)(2)(B).

In addition, the inspection revealed that your firm failed to submit an NDA Field Alert Report to FDA within three working days of receipt of information concerning significant chemical, physical, or other change or deterioration in a distributed drug product, as required by section 505(k) of the FD&C Act, 21 U.S.C. § 355(k) and stipulated by the regulation 21 C.F.R.§314.81(b)(1)(ii).

1. Your firm failed to thoroughly investigate any unexplained discrepancy or failure of a batch or any of its components to meet any of its specifications, whether or not the batch has already been distributed (21 CFR211.192).

Your firm failed to conduct adequate and timely investigations relating to products made by both terminal sterilization and aseptic processing.

Cross Contamination

Your firm manufactures products that undergo moist heat sterilization, including Sterile Water for Injection, USP, Ketorolac Tromethamine Injection, USP, 60 mg/ 2 mL, Sodium Chloride Injection 0.9%, USP, as well as pending application products undergoing development studies.

Your firm's testing found cross contamination of drugs in at least three lots of drug products. You failed to adequately identify the root cause or scope of potentially impacted lots in a timely manner.
Your investigation was initiated on April 2, 2021, when you detected the presence of the drug Bupivacaine, produced from your outsourcing facility (under section 503B FD&C Act), in a lot of drug product pending application approval, (b)(4). You attributed the root cause to a combination of the nature of terminal sterilization cycles and the permeability of the container closure system (CCS) used to produce your drug products.

It is essential that your firm does not introduce risks through overlap of your outsourcing and conventional production operations by sharing equipment, facilities, processes, or personnel, as the applicable standards significantly differ in certain respects. The attempt to mix these operations and follow two different standards increases complexity and product hazards. Notably, your firm uses common equipment, including blow-fill-seal (BFS) machines and your sterilizing equipment, for 503B compounding operations as well as conventional drug manufacturing operations. You found flaws in your IV bag CCS, including high permeability in the CCS that allows for contamination of the autoclave and infiltration into the containers (e.g., LDPE vials and IV bags) of subsequent batches of drug products produced in the common sterilization equipment.

A phase two investigation related to the cross-contamination was opened on April 30, 2021, and remained open at the time of the inspection, which was initiated on March 28, 2022. Our inspection found that you continued to manufacture drug products with the same CCS and autoclave cycles. Only after FDA's inspection did you perform additional investigation and CAPA. Your lack of a timely and comprehensive investigation failed to identify the extent of the cross-contamination hazard to marketed drug products.

In your response, you provide an updated investigation. It extends the evaluation to other drug products using the same CCS and includes limited studies within the sterilizing equipment and limited testing for cross-contamination of potentially affected drug products.

Your response is inadequate. Your investigation does not consider other sources of contamination. With only limited data, you conclude that the measured level of cross-contamination was "negligible." Furthermore, you indicate that the identified corrective action of running (b)(4) autoclave cycles between products to "clean" this equipment found "a statistically significant reduction in carry-over." However, your investigation does not adequately consider flaws related to your CCS (including, but not limited to, material quality and compatibility with the manufacturing process), and determine whether it provides suitable protection against egress and ingress of cross-contaminants. Your response lacks a commitment

to review your CCS for raw material quality and vendor reliability. This concern not only relates to your current drug products but also your pending application drug products.
You also do not sufficiently address other potential root causes, such as a leak due to a CCS breach, that could be a potential source of cross-contamination within an autoclave. In addition, your investigation does not fully consider the impact of container-closure permeability on sterility assurance or product potency.

Contamination is generally nonuniformly distributed as your own data indicates. The test data in your investigation is limited to a small number of units, and the extent of contaminated units in a batch remains unknown. The number of contaminated units and degree of contamination may far exceed levels identified by your firm. Your study with limited testing shows cross-contamination of Bupivacaine active in Sterile Water for Injection with a wide range of variability of contamination levels (i.e., a four-fold range). However, you conclude that the cross-contamination between medicines is uniform and not at a sufficient level of concern.

Your firm does not consider that the highest result in the range from a very small sample is unlikely to reveal the highest contamination level in a batch. Furthermore, for the drug products tested and reported with results of "not detected," you assume that the result is representative of the entire lot. Testing of your retain samples alone is insufficient to determine the scope of the contamination issues and mitigate risks associated with the contamination. You also state, "The data were assessed within alignment of ICH Q3B impurity thresholds" and "Impurities analysis is governed by ICH Q3B wherein thresholds are set to dictate the level of concern and identification required for impurities." This is an inappropriate interpretation of the ICH Q3B guideline, as it applies to impurities classified as degradation products and excludes extraneous contaminants.

You continued to observe cross-contamination in your drug products without adequately evaluating the scope of impacted lots nearly a year after you initially identified the contamination. On May 27, 2022, approximately a year after the investigation was initiated, you submitted Field Alert Reports (FARs).

On August 2, 2022, FDA held a teleconference with you about your contaminated drugs. On August 10, 2022, you conducted a voluntary recall of lot 023011 of Ketorolac Tromethamine Injection, USP, 60 mg/ 2 mL (and 4 lots of products made as part of your outsourcing operation), as noted on the following FDA website:
https://www.accessdata.fda.gov/scripts/ires/index.cfm?Product=195477.

Microbial Contamination

Your investigation into process simulation (media fill) failures was inadequate as you failed to implement appropriate CAPA to prevent microbial contamination. Your firm experienced two media fill failures, in which Pseudomonas aeruginosa (gram-negative rods) was detected in your BFS mandrel cooling water. It is highly atypical to have gram-negative microbes in the aseptic production cleanroom environment or identified in a media fill. For example, media fill lot M02801 identified Pseudomonasaeruginosa in a large number of turbid units ((b)(4)). You conducted a single repeat media fill to requalify the BFS for production after repairing the water leak from the mandrel, and cleaning and disinfecting the outer surfaces of the BFS. A single media fill is insufficient to support the requalification of your aseptic operations. In this situation, a comprehensive CAPA should be implemented followed by three successful and consecutive runs to requalify your aseptic process after a media fill failure.

You also detected this organism elsewhere in your operation including routine environmental monitoring (EM) and water samples.

For example, following the maintenance of your water for injection (WFI) system on June 4 and June 5, 2020, you identified several instances of Pseudomonas aeruginosa and other species including seven samples that yielded too-numerous-to-count (TNTC) CFU/100mL results. investigation attributed the results to laboratory error, due to a presumed contaminated (b)(4), and invalidated the results without clear evidence establishing laboratory error as the cause. You also based your investigation conclusion on other test results from batches formulated between June 4 to 6, 2020, that did not "recover" Pseudomonas aeruginosa and indicate that drug product testing on June 21, 2020, identified Pseudomonas spp. using the vacuum manifold. You did not confirm the source of the contamination and your CAPA was limited to retraining your microbiology laboratory personnel. Notably, you identified no CAPA for the autoclaving of the (b)(4). Your SOP requires the (b)(4) to be autoclaved (b)(4) but you failed to follow your SOP, determine why the step was not documented and caught in time, and explain how you will be improving your laboratory system to prevent similar future errors.

Your minimal retrospective review of batch data for the presence of Pseudomonas spp. is also inadequate. The presence of highly pathogenic microorganisms in your environment can present severe risks that can be potentially fatal to patients. Their presence should receive urgent and effective remediation. It should also be noted that finished product testing alone cannot establish(https://www.accessdata.fda.gov/scripts/ires/index.cfm?Product=195477) sterility of all units because contamination is typically episodic and not uniformly distributed. Larger contamination problems may go undetected for substantial periods if your firm is placing too much reliance on the final quality control test for sterility to become aware of a problem in aseptic manufacturing.
In your response, you commit to flush the BFS cooling water reservoirs (b)(4) to reduce bioburden to limit the potential for biofilm formation, establish a clean-in-place (CIP) program for the cooling water systems, and conduct trending to determine the optimal flush frequency. Your response also includes a preventative maintenance procedure for your BFS machine that requires a pre-check to inspect for the presence of moisture in the (b)(4). Relying on visual inspection of (b)(4) to detect the presence of moisture is insufficient to prevent the ingress of mandrel cooling water into your BFS filler and will not robustly prevent contamination of sterile medicines made by your firm. Your response is inadequate because you did not review the fundamental design and integrity of your BFS machinery (including, but not limited to, the suitability of the BFS cooling system for its intended use).

2. Your firm failed to establish and follow appropriate written procedures that are designed to prevent microbiological contamination of drug products purporting to be sterile, and that include validation of all aseptic and sterilization processes (21 CFR 211.113(b)).

You did not establish appropriate environmental monitoring (EM) action levels for the ISO 5 critical area where drugs are most vulnerable to contamination. Samples from the ISO 5 critical area should normally yield no microbiological contaminants. Because of the inappropriate action level, you failed to investigate three of six ISO viable EM samples that were > 1 CFU in your BFS lines. Appropriate ISO 5 action levels are a critical part of a robust EM program to prevent microbiological contamination of sterile drug products.

In your response, you state that you have revised your ISO 5 action levels for air, surface, and some personnel monitoring (PM) to(b)(4) CFU/plate. You also state that you investigated microbiological contamination from air sampling within the ISO 5 critical areas that exceeded the action level and conclude that the contamination "posed no negative risk" to the sterility assurance of the lots. However, your response is inadequate because you did not conduct a comprehensive retrospective assessment of historical EM data for actionable events and you failed to provide an assessment of your established EM and PM alert and action levels (e.g., settling plates, chest, head, goggles, forearms) to assure your levels are appropriate to monitor your manufacturing environment.

We also note that your firm has been applying the ISO 5 action level for active air monitoring from USP <797> (Pharmaceutical Compounding - Sterile Preparations) to your sterile drug production operation. USP < 797> is not an appropriate regulatory standard for your operations. If your firm continues to conduct outsourcing activities and conventional drug manufacturing operations at the same site, the higher CGMP standard needs to be followed in the event there are any overlapping (where appropriate) activities. While overlapping activities should be avoided, if any common facilities, personnel and equipment are used, they must be designed, maintained, and controlled in compliance with the standards for conventional manufacturing under the CGMPs for finished pharmaceuticals, 21 CFR 210 and 211. Otherwise, you should fully separate your operations.

3. Your firm failed to establish an adequate system for monitoring environmental conditions in aseptic processing areas (21 CFR 211.42(c)(10)(iv)).

Sampling of the BFS machines in your EM program for ISO 5 active air viable and non-viable monitoring is deficient. You failed to demonstrate that the method used for sample collection for EM (e.g., use of tubing with a length of about (b)(4) and material) provides a meaningful and representative sample of conditions during production. The air sample tubing was held between the door jamb and the door to your BFS, potentially disrupting the air flow to your sampling instruments. Furthermore, your established procedure fails to adequately describe the configuration of the tubing used to monitor viable and non-viable samples to address the potential of compromised airflow within the tubing.
In your response, you provide rationale for the sampling procedure and agree that the sampling should be collected as close to the point of fill as possible without impacting the airflow within the blow fill seal machine environment. In addition, your response includes the manufacturer's recommendation that tubing is free of bends with a radius of less than (b)(4) to minimize the loss of larger particles by impaction and prevents the possibility of tubing collapse.

Your response is inadequate because, you did not provide supportive studies evaluating whether your sampling method is capable of adequality monitoring your ISO 5 environment as intended. You did not revise your procedures to establish the proper configuration of your tubing to assure the airflow path is not impeded. Furthermore, EM instruments should be located and placed in an orientation demonstrated to obtain a meaningful sample.

The aforementioned violations may be considered violations of Colorado Statute 12-280-126. Unprofessional conduct - grounds for discipline. (1) The board may take disciplinary or other action as authorized in section 12-20-404, after a hearing held in accordance with the provisions of sections 12-20-403 and 12-280-127, upon proof that the licensee, certificant, or registrant: (c) has violated: (III) Any state or federal law pertaining to drugs.

Case # 634647

WARNING LETTER

Dear Ms. Kennedy:

The U.S. Food and Drug Administration (FDA) inspected your drug manufacturing facility, Nephron SC Inc., FEI 3010892830, at 4500 12th Street Ext., West Columbia, SC from March 28 to April 20, 2022.

This warning letter summarizes significant violations of Current Good Manufacturing Practice (CGMP) regulations for finished pharmaceuticals. See Title 21 Code of Federal Regulations (CFR), parts 210 and 211 (21 CFR parts 210 and 211).

Because your methods, facilities, or controls for manufacturing, processing, packing, or holding do not conform to CGMP, your drug products are adulterated within the meaning of section 501(a)(2)(B) of the Federal Food, Drug, and Cosmetic Act (FD&C Act), 21 U.S.C. 351(a)(2)(B).

In addition, the inspection revealed that your firm failed to submit an NDA Field Alert Report to FDA within three working days of receipt of information concerning significant chemical, physical, or other change or deterioration in a distributed drug product, as required by section 505(k) of the FD&C Act, 21 U.S.C. § 355(k) and stipulated by the regulation 21 C.F.R.§314.81(b)(1)(ii).

We reviewed your May 11, 2022, response to our Form FDA 483 in detail and acknowledge receipt of your subsequent correspondence.

During our inspection, our investigators observed specific violations including, but not limited to, the following.

1. Your firm failed to thoroughly investigate any unexplained discrepancy or failure of a batch or any of its components to meet any of its specifications, whether or not the batch has already been distributed (21 CFR 211.192).

Your firm failed to conduct adequate and timely investigations relating to products made by both terminal sterilization and aseptic processing.

Cross Contamination

Your firm manufactures products that undergo moist heat sterilization, including Sterile Water for Injection, USP, Ketorolac Tromethamine Injection, USP, 60 mg/ 2 mL, Sodium Chloride Injection 0.9%, USP, as well as pending application products undergoing development studies.

Your firm's testing found cross contamination of drugs in at least three lots of drug products. You failed to adequately identify the root cause or scope of potentially impacted lots in a timely manner.

Your investigation was initiated on April 2, 2021, when you detected the presence of the drug Bupivacaine, produced from your outsourcing facility (under section 503B FD&C Act), in a lot of drug product pending application approval, **(b)(4)**. You attributed the root cause to a combination of the nature of terminal sterilization cycles and the permeability of the container closure system (CCS) used to produce your drug products.

It is essential that your firm does not introduce risks through overlap of your outsourcing and conventional production operations by sharing equipment, facilities, processes, or personnel, as the applicable standards significantly differ in certain respects. The attempt to mix these operations and follow two different standards increases complexity and product hazards. Notably, your firm uses common equipment, including blow-fill-seal (BFS) machines and your sterilizing equipment, for 503B compounding operations as well as conventional drug manufacturing operations. In your response, you provide an updated investigation. It extends the evaluation to other drug products using the same CCS, and includes limited studies within the sterilizing equipment and limited testing for cross-contamination of potentially affected drug products.

Your response is inadequate. Your investigation does not consider other sources of contamination. With only limited data, you conclude that the measured level of cross-contamination was "negligible." Furthermore, you indicate that the identified corrective action of running **(b)(4)** autoclave cycles between products to "clean" this equipment found "a statistically significant reduction in carry-over." However, your investigation does not adequately consider flaws related to your CCS (including, but not limited to, material quality and compatibility with the manufacturing process), and determine whether it provides suitable protection against egress and ingress of cross-contaminants. Microbial Contamination

Your investigation into process simulation (media fill) failures was inadequate as you failed to implement appropriate CAPA to prevent microbial contamination. Your firm experienced two media fill failures, in which *Pseudomonas aeruginosa* (gram-negative rods) was detected in your BFS mandrel cooling water. It is highly atypical to have gram-negative microbes in the aseptic production cleanroom environment or identified in a media fill. For example, media fill lot M02801 identified *Pseudomonas aeruginosa* in a large number of turbid units (**(b)(4)**). You conducted a single repeat media fill to requalify the BFS for production after repairing the water leak from the mandrel, and cleaning and disinfecting the outer surfaces of the BFS. A single media fill is insufficient to support the requalification of your aseptic operations. In this situation, a comprehensive CAPA should be implemented followed by three successful and consecutive runs to requalify your aseptic process after a media fill failure.

You also detected this organism elsewhere in your operation including routine environmental monitoring (EM) and water samples.

For example, following the maintenance of your water for injection (WFI) system on June 4 and June 5, 2020, you identified several instances of *Pseudomonas aeruginosa* and other species including seven samples that yielded too-numerous-to-count (TNTC) CFU/100mL results. Your investigation attributed the results to laboratory error, due to a presumed contaminated **(b)(4)**, and invalidated the results without clear evidence establishing laboratory error as the cause. You also based your investigation conclusion on other test results from batches formulated between June 4 to 6, 2020, that did not "recover" *Pseudomonas aeruginosa* and indicate that drug product testing on June 21, 2020, identified *Pseudomonas spp.* using the vacuum manifold. You did not confirm the source of the contamination and your CAPA was limited to retraining your microbiology laboratory personnel. Notably, you identified no CAPA for the autoclaving of the **(b)(4)**. Your SOP requires the **(b)(4)** to be autoclaved **(b)(4)** but you failed to follow your SOP, determine why the step was not documented and caught in time, and explain how you will be improving your laboratory system to prevent similar future errors.

Your minimal retrospective review of batch data for the presence of Pseudomonas spp. is also inadequate. The presence of highly pathogenic microorganisms in your environment can present severe risks that can be potentially fatal to patients. Their presence should receive urgent and effective remediation. It should also be noted that finished product testing alone cannot establish

sterility of all units because contamination is typically episodic and not uniformly distributed. Larger contamination problems may go undetected for substantial periods if your firm is placing too much reliance on the final quality control test for sterility to become aware of a problem in aseptic manufacturing.

In your response, you commit to flush the BFS cooling water reservoirs **(b)(4)** to reduce bioburden to limit the potential for biofilm formation, establish a clean-in-place (CIP) program for the cooling water systems, and conduct trending to determine the optimal flush frequency. Your response also includes a preventative maintenance procedure for your BFS machine that requires a pre-check to inspect for the presence of moisture in the **(b)(4)**. Relying on visual inspection of **(b)(4)** to detect the presence of moisture is insufficient to prevent the ingress of mandrel cooling water into your BFS filler, and will not robustly prevent contamination of sterile medicines made by your firm. Your response is inadequate because you did not review the fundamental design and integrity of your BFS machinery (including, but not limited to, the suitability of the BFS cooling system for its intended use).

In response to this letter, provide:

- A comprehensive, independent assessment of your overall system for investigating deviations, discrepancies, complaints, OOS results, and failures. Provide a detailed action plan to remediate this system. Your action plan should include, but not be limited to, significant improvements in investigation competencies, scope determination, root cause evaluation, CAPA effectiveness, quality assurance oversight, and written procedures. Address how your firm will ensure all phases of investigations are appropriately conducted. An independent assessment and remediation plan for your CAPA program. Provide a report that evaluates whether the program includes effective root cause analysis, ensures CAPA effectiveness, analyzes investigations trends, improves the CAPA program when needed, implements final quality assurance decisions, and is fully supported by executive management.
- A procedure for your water system monitoring that provides for appropriate daily microbial testing of water to ensure its acceptability for use in each lot of drug products produced by your firm.
- A procedure governing your program for ongoing control, maintenance, and monitoring that ensures the system consistently produces water that meets Purified Water, USP, and WFI USP, monograph specifications and appropriate microbial limits.
- In addition to this holistic remediation, provide specific CAPA activities that are being undertaken to effectively remediate the conditions that caused the specific cross-contamination incidents discussed above. Provide an independent review by your consultant that determines the effectiveness of your CAPA, including but not limited to:

o A list of all enhancements to cleaning and maintenance procedures including specific frequencies and locations to be cleaned in all relevant equipment

o Identify any other sources of cross contamination other than the sterilizing equipment

o Determine the adequacy of your analytical methodology to identify residual carryover

o Supporting evidence to demonstrate that the challenges identified during your study, such as interference of product matrix and co-eluting peaks, were adequately resolved

o Adequacy of scope of the investigation and its related CAPA

- The latest update on your improvements to your cleaning validation program, with special emphasis on incorporating conditions identified as worst case in your drug manufacturing operation. This should include, but not be limited to, identification and evaluation of all worst-case:

o Drugs with higher toxicities

o Drugs with higher drug potencies

o Drugs of lower solubility in their cleaning solvents

o Drugs with characteristics that make them difficult to clean

o Swabbing locations for areas that are most difficult to clean

o Maximum hold times before cleaning

In addition, describe the steps that must be taken in your change management system before introduction of a new drug product or new manufacturing equipment.

- A commitment to conduct testing between lots of autoclaved drug products using sensitive testing techniques such as liquid chromatography mass spectrophotometry (LCMS) prior to release to determine whether there is any cross contamination with your mixed operations.
- An independent assessment to include, but not limited to, the suitability of material composition, reliability of suppliers, fabrication process, and all other factors that influence the CCS quality and integrity. The assessment should evaluate all aspects of CCS suitability including its permeability and ability to provide protection from external factors affecting the sterility assurance or potency of batches of products manufactured in an autoclave or other sterilizing equipment.
- An independent, comprehensive review of the adequacy of design, control, and maintenance of your BFS machinery. When describing the maintenance program, provide all failure modes of water ingress that can occur, a description and the

purpose of the **(b)(4)** in your BFS mandrel design. Based on this comprehensive review, provide a CAPA to prevent recurrence of BFS system contamination with water-borne gram-negative microbes.

2. Your firm failed to establish and follow appropriate written procedures that are designed to prevent microbiological contamination of drug products purporting to be sterile, and that include validation of all aseptic and sterilization processes (21 CFR 211.113(b)).

You did not establish appropriate environmental monitoring (EM) action levels for the ISO 5 critical area where drugs are most vulnerable to contamination. Samples from the ISO 5 critical area should normally yield no microbiological contaminants. Because of the inappropriate action level, you failed to investigate three of six ISO viable EM samples that were ≥ 1 CFU in your BFS lines. Appropriate ISO 5 action levels are a critical part of a robust EM program to prevent microbiological contamination of sterile drug products.

In your response, you state that you have revised your ISO 5 action levels for air, surface, and some personnel monitoring (PM) to **(b)(4)** CFU/plate. You also state that you investigated microbiological contamination from air sampling within the ISO 5 critical areas that exceeded the action level and conclude that the contamination "posed no negative risk" to the sterility assurance of the lots. However, your response is inadequate because you did not conduct a comprehensive retrospective assessment of historical EM data for actionable events and you failed to provide an assessment of your established EM and PM alert and action levels (e.g., settling plates, chest, head, goggles, forearms) to assure your levels are appropriate to monitor your manufacturing environment.

We also note that your firm has been applying the ISO 5 action level for active air monitoring from USP <797> (Pharmaceutical Compounding – Sterile Preparations) to your sterile drug production operation. USP < 797> is not an appropriate regulatory standard for your operations. If your firm continues to conduct outsourcing activities and conventional drug manufacturing operations at the same site, the higher CGMP standard needs to be followed in the event there are any overlapping (where appropriate) activities. While overlapping activities should be avoided, if any common facilities, personnel and equipment are used, they must be designed, maintained, and controlled in compliance with the standards for conventional manufacturing under the CGMPs for finished pharmaceuticals, 21 CFR 210 and 211. Otherwise, you should fully separate your operations.

See FDA's guidance document Sterile Drug Products Produced by Aseptic Processing—Current Good Manufacturing Practice to help you meet the CGMP requirements for establishing appropriate EM and PM action levels when manufacturing sterile drugs using aseptic processing at https://www.fda.gov/media/71026/download (https://www.fda.gov/media/71026/download).

In response to this letter, provide:

- Comprehensive risk assessment of all contamination hazards with respect to your aseptic processes, equipment, and facilities, including an independent assessment that includes, but is not limited to:

o All human interactions within the ISO 5 area
o Equipment placement and ergonomics
o Air quality in the ISO 5 area and surrounding room
o Facility layout
o Personnel Flows and Material Flows (throughout all rooms used to conduct and support sterile operations)

- A detailed remediation plan with timelines to address the findings of the contamination hazards risk assessment. Describe specific tangible improvements to be made to aseptic processing operation design and control.
- Your investigations into all environmental data that reached alert and action levels for the past two years.
- Your plan to review and ensure EM/PM alert levels, action levels, procedures, and CAPA are robust and appropriate.

3. Your firm failed to establish an adequate system for monitoring environmental conditions in aseptic processing areas (21 CFR 211.42(c)(10)(iv)).

Sampling of the BFS machines in your EM program for ISO 5 active air viable and non-viable monitoring is deficient. You failed to demonstrate that the method used for sample collection for EM (e.g., use of tubing with a length of about **(b)(4)** and material) provides a meaningful and representative sample of conditions during production. The air sample tubing was held between the door jamb and the door to your BFS, potentially disrupting the air flow to your sampling instruments. Furthermore, your established procedure fails to adequately describe the configuration of the tubing used to monitor viable and non-viable samples to address the potential of compromised airflow within the tubing.

In your response, you provide rationale for the sampling procedure and agree that the sampling should be collected as close to the point of fill as possible without impacting the airflow within the blow fill seal machine environment. In addition, your response includes the manufacturer's recommendation that tubing is free of bends with a radius of less than **(b)(4)** to minimize the loss of larger particles by impaction and prevents the possibility of tubing collapse.

Your response is inadequate because, you did not provide supportive studies evaluating whether your sampling method is capable of adequality monitoring your ISO 5 environment as intended. You did not revise your procedures to establish the proper configuration of your tubing to assure the airflow path is not impeded. Furthermore, EM instruments should be located and placed in an orientation demonstrated to obtain a meaningful sample.

In response to this letter, provide:

- A thorough, independent assessment, and CAPA for your EM and facility monitoring program. Include a comprehensive evaluation of monitoring, recording, alarm documentation, deviation investigation, data retention and overall environmental control in your assessment.
- Your CAPA plan to implement routine, vigilant operations management oversight of facilities and equipment. This plan should ensure, among other things, prompt detection of equipment/facilities performance issues, effective execution of repairs, adherence to appropriate preventive maintenance schedules, timely technological upgrades to the equipment/facility infrastructure, and improved systems for ongoing management review.
- The actual length of the EM sampling tubing and the distance from the sampling location to the point of fill on your BFS with supporting photographs.
- Studies evaluating whether your program for viable and non-viable EM operates as intended with the configurations you have established.
- Revised procedures that assure EM sampling tubing configuration is suitable for collecting reliable environmental data.

Additional Guidance on Aseptic Processing

See FDA's guidance document *Sterile Drug Products Produced by Aseptic Processing—Current Good Manufacturing Practice* to help you meet the CGMP requirements when manufacturing sterile drugs using aseptic processing at https://www.fda.gov/media/71026/download (https://www.fda.gov/media/71026/download).

Recall and Temporary Suspension of Manufacturing

We acknowledge that you recalled lot 023011 of Ketorolac Tromethamine Injection, USP, 60 mg/ 2 mL drug product as well as four outsourcing facility compounding drug products after the FDA contacted you via telephone on August 2, 2022.

We acknowledge your commitment to temporarily suspend production of some drug products (terminally sterilized by moist heat) at this facility. You indicated that you planned to resume operations on August 23, 2022. Resumption of manufacturing your drugs terminally sterilized by moist heat should only occur once you have implemented effective CAPA and completed appropriate submission requirements.

CGMP Consultant Recommended

Based upon the nature of the violations we identified at your firm, you should engage a consultant qualified as set forth in 21 CFR 211.34 to assist your firm in meeting CGMP requirements. The qualified consultant should also perform a comprehensive audit of your entire operation for CGMP compliance and evaluate the completion and efficacy of all identified corrective actions and preventive actions before you pursue resolution of your firm's compliance status with FDA.

Your use of a consultant does not relieve your firm's obligation to comply with CGMP. Your firm's executive management remains responsible for resolving all deficiencies and systemic flaws to ensure ongoing CGMP compliance.

Field Alert Reporting Violations

The NDA/ANDA Field Alert reporting requirements in 21 CFR 314.81(b)(1)(i) and (ii), effective since May 23, 1985, require holders of NDAs and ANDAs to submit information concerning any bacteriological contamination, or any significant chemical, physical, or other change or deterioration in the distributed drug product to the appropriate FDA district office within three working days of receipt by the applicant. The intent of the 21 CFR 314.81(b)(1) regulation is to establish an early warning system so that significant problems are brought to the FDA's attention by applicant holders in order to prevent potential safety hazards from drug products already in distribution and also to prevent potential safety hazards with drug products manufactured in the future. FARs must be submitted for confirmed and unconfirmed problems meeting the definition of the regulation within three working days of becoming aware of the problem.

From this inspection, in addition to the aforementioned CGMP violations, your firm is in violation of the Field Alert reporting requirements set forth in 21 CFR 314.81(b)(1)(ii). Specifically, on April 2, 2021, you initiated an investigation into the out-of-trend results for stability samples at 6-months related to extractables and leachables for your pending ANDA for **(b)(4)**, USP 10mg/ml, that identified bupivacaine active in your drug product.

On May 27, 2022, you submitted three initial FARs for your approved ANDA products, Sterile Water for Injection, USP, Ketorolac Tromethamine Injection, USP, 60 mg/ 2 mL, and Sodium Chloride Injection 0.9%, USP, notifying the Agency that you were investigating the potential residual active ingredient carryover into manufactured lots for these drug products. The submission of these FARs is more than one year from your initial investigation identifying the potential carryover of drug active.

We are concerned with the CGMP violations demonstrated at your facility and failure to submit FAR-related events within three days of becoming aware of a problem. Please include in your written response the corrective action you plan to take regarding distributed products manufactured at your facility that may be affected by the violations.

Conclusion

The violations cited in this letter are not intended to be an all-inclusive list of violations exist at your facility. You are responsible for investigating and determining the causes of any violations and for preventing their recurrence or the occurrence of other violations.

If you are considering an action that is likely to lead to a disruption in the supply of drugs produced at your facility, FDA requests that you contact CDER's Drug Shortages Staff immediately, at drugshortages@fda.hhs.gov, so that FDA can work with you on the most effective way to bring your operations into compliance with the law. Contacting the Drug Shortages Staff also allows you to meet any obligations you may have to report discontinuances or interruptions in your drug manufacture under 21 U.S.C. 356C(b). This also allows FDA to consider, as soon as possible, what actions, if any, may be needed to avoid shortages and protect the health of patients who depend on your products.

Correct any violations promptly. Failure to promptly and adequately address this matter may result in regulatory or legal action without further notice including, without limitation, seizure and injunction. Unresolved violations may also prevent other Federal agencies from awarding contracts.

Failure to address violations also cause FDA to withhold issuance of Export Certificates. FDA may withhold approval of new applications or supplements listing your firm as a drug manufacturer until any violations are completely addressed and we confirm your compliance with CGMP. We may re-inspect to verify that you have completed corrective actions to address any violations.

This letter notifies you of our findings and provides you an opportunity to address the above deficiencies. After you receive this letter, respond to this office in writing within 15 working days. Specify what you have done to address any violations and to prevent their recurrence. In response to this letter, you may provide additional information for our consideration as we continue to assess your activities and practices. If you cannot complete corrective actions within 15 working days, state your reasons for delay and your schedule for completion.

Please electronically submit your reply on company letterhead to Mark W. Rivero, Compliance Officer, at ORAPHARM2_RESPONSES@fda.hhs.gov. In addition, please submit a signed copy of your response to Mr. Rivero.

If you have questions regarding the contents of this letter, you may contact Mr. Rivero via (954) 527-4239 or mark.rivero@fda.hhs.gov.

Sincerely,
/S/

Re: License Number: WHO.8233
Case Number: 2022-8142

Dear Designated Representative,

The State Board of Pharmacy ("Board") has concluded its inquiry into the aforementioned matter. It was the Board's decision not to commence with formal proceedings against your professional license. However, the Board did determine disciplinary action in the form of this letter of admonition is warranted, pursuant to section 12-280-127(6), C.R.S.

Failure to comply with current Good Manufacturing Practices violates section 12-280-126(1)(c)(I) and (III), C.R.S.

By this letter, the Board takes the formal disciplinary action of admonishing you for the conduct specified above, and warns you that repetition of such practice may lead to imposition of more severe disciplinary action. This letter is an open public record and a reportable action to individuals or entities requesting disciplinary information. The Board strongly encourages you to review and understand the Pharmacists, Pharmacy Business, and Pharmaceuticals Practice Act requirements and obligations for the practice of pharmacy or as a pharmacy technician in Colorado.

In accordance with section 12-20-404(4), C.R.S., the Board advises you that you have the right to make a written request that the Board initiate formal disciplinary proceedings in order to adjudicate the conduct or acts upon which this letter is based. You must make your written request within twenty (20) days after receipt of this letter and address your request to Dmitry Kunin, Program Director, at the address listed below. If you make a timely request, the Board will deem this letter of admonition vacated and may proceed with disciplinary and/or injunctive proceedings in accordance with section 12-20-404(4)(b)(II), C.R.S., and applicable rules.

A Letter of Admonition, when accepted, becomes a permanent, public portion of your record. It is not, however, a restriction on your practice as a professional pharmacist or pharmacy technician.

If you have further questions or concerns, please visit our website at https://www.colorado.gov/dora/dpo or you can contact our office at dora_pharmacyboard@state.co.us or by calling (303) 894-7800.

Sincerely,

CONSENT AGREEMENT FOR REPRIMAND

The Massachusetts Board of Registration in Pharmacy (Board) and Nephron SC, Inc. (Pharmacy), a pharmacy licensed by the Board, license number NO00036, do hereby stipulate and agree that the following information shall be entered into and become a permanent part of the Pharmacy's record maintained by the Board:

1. The Pharmacy acknowledges the Board opened a Complaint against its Massachusetts pharmacy license related to the conduct set forth in Paragraph 2 below, identified as Docket Number PHA-2022-0207 (Complaint).

2. The Pharmacy and the Board agree to resolve this Complaint without making any admissions or findings and without proceeding to a formal adjudicatory hearing. The Complaint alleges the following:

   The Pharmacy was issued a Warning Letter by the United States Food and Drug Administration (FDA) for violations of standards of pharmacy practice. Consequently, the Board may take disciplinary action against the Pharmacy pursuant to Title 247 of the Code of Massachusetts Regulations (CMR) Section 10.03(1).

3. The Board and Pharmacy acknowledge and agree that based upon the information described in Paragraph 2 above, the Board could find the Pharmacy in violation of 247 CMR Section 10.03(1)(v) for committing one or more acts that violate recognized standards of pharmacy practice.

4. The Pharmacy agrees that the Board shall impose a REPRIMAND on its license based on the facts described in Paragraph 2 above, effective as of the date on which the Board signs this Agreement (Effective Date).

5. The Board agrees that in return for the Pharmacy's execution and successful compliance with all the requirements of this Agreement, the Board will not prosecute the Complaint.

6. The Pharmacy understands that it has a right to formal adjudicatory hearing concerning the Complaint and that during said adjudication the Pharmacy would possess the right to confront and cross-examine witnesses, to call witnesses, to present evidence, to testify on its own behalf, to contest the allegations, to present oral argument, to appeal to the courts, and all other rights as set forth in the Massachusetts Administrative Procedures Act, MGL Chapter 30A, and the Standard Adjudicatory Rules of Practice and Procedure, 801 CMR § 1.01, *et seq.* The Pharmacy further understands that by executing this Agreement, the Pharmacy is knowingly and voluntarily waiving its right to a formal adjudication of the Complaint.

7. The Pharmacy acknowledges that it has been at all times represented by Counsel or otherwise free to seek and use legal counsel in connection with the Complaint and this Agreement.

8. The Pharmacy acknowledges that after the Effective Date, the Agreement constitutes a public record of disciplinary action by the Board subject to the Commonwealth of Massachusetts' Public Records Law, MGL Chapter 4, § 7. The Board may forward a copy of this Agreement to other licensing boards, law enforcement entities, and other individuals or entities as required or permitted by law.

9. The Pharmacy understands and agrees that entering into this Agreement is a voluntary and final act and not subject to reconsideration, appeal, or judicial review.

10. The individual signing this Agreement certifies that they are authorized to enter into this Agreement on behalf of the Pharmacy, and that they have read this Agreement.

This document lists observations made by the FDA representative(s) during the inspection of your facility. They are inspectional observations, and do not represent a final Agency determination regarding your compliance. If you have an objection regarding an observation, or have implemented, or plan to implement, corrective action in response to an observation, you may discuss the objection or action with the FDA representative(s) during the inspection or submit this information to FDA at the address above. If you have any questions, please contact FDA at the phone number and address above.

DURING AN INSPECTION OF YOUR FIRM WE OBSERVED:

OBSERVATION 1

Procedures designed to prevent microbiological contamination of drug products purporting to be sterile are not established and written.

commercial operations or worst-case conditions.

1. Media fill protocols and executed records simulate critical interventions only "at least once" rather than at a representative number, type, complexity, and frequency justified by actual production history. This reduces the intervention load and fails to reflect worst-case conditions.

2. Routine production batch records do not consistently document the type, frequency, and timing of interventions, including non-routine/unplanned interventions, preventing data-driven justification of media fill design.

As designed and executed, the media fills do not provide adequate assurance of sterility for commercial operations, increasing the risk of undetected contamination during routine aseptic processing.

D. You have not demonstrated in your disinfectant efficacy study that your established contact time of two (2) minutes for sterile 70% isopropyl alcohol used as a disinfectant in your facility is capable of decontaminating nitrile surfaces. Nitrile gloves are primarily used for operating within the ISO-5 and ISO-7 cleanroom environments where sterile drug products are manufactured.

This is a repeated observation from the inspection performed 11/2023 – 02/2023, 01/29/2024 – 02/09/2024.

OBSERVATION 2

Aseptic processing areas are deficient regarding the system for monitoring environmental conditions.

OBSERVATION 3

There is a failure to thoroughly review the failure of a batch or any of its components to meet any of its specifications whether or not the batch has been already distributed.

Specifically,

Sterile Drug Manufacturing & 503B Outsourcing Facility

1. You have failed to determine root cause and implement effective corrective action for cracked media plates used for environmental monitoring (EM) analysis. You first identified this issue on

02/14/2024, where it then became an on-going issue. In February 2025, you initiated and closed a Corrective Action/Preventative Action (CAPA) without determining the root cause. Since closure of the CAPA, you have generated approximately nine (9) additional cracked plate events. Additionally, during 02/14/2024 – 02/25/2025, you generated approximately 87 events where you discarded and invalidated damaged media samples without incubating them. Discarded media plates largely include personnel monitoring samples that were collected to document the environmental conditions for media fills and the production of sterile drug products.

This is a repeated observation from the inspection performed 01/29/2024 – 02/09/2024

2. You have not determined suitability of your EM sampling process of using settle plates as opposed to RODAC contact plates for performing personnel fingertip monitoring. This change was implemented on 05/14/2024 in response to the cracked/damaged media plates on-going issue that was identified 02/14/2024.

3. You inappropriately invalidated a stability sample at T_0 for sterility for Provocholine (methacholine chloride) Solution for Inhalation 3mg/3 mL Lot#: 324261 Expiration: 07/31/2025. After incubating the SDA canister at 20 – 25 C for one (1) day, you identified turbidity and thereby stopped the incubation process to proceed with subculturing for microbial identification. After failing to obtain viable growth on the subcultures, your quality unit concluded the turbidity observed did not contain viable microorganisms and ultimately invalidated the original sample without determining root cause for the turbidity. Per your written procedure MTM-SC-MB-6308 entitled, "Sterility Test Procedures" Revision: 39 Effective: 18-APR-2025, which is written based on USP <71>, samples are only invalidated for the four (4)

reasons:

a. "The data of the microbiological monitoring of the sterility test environment shows a fault.
b. A review of the testing procedure used during the test in question reveals a fault.
c. Microbial growth is found in the negative controls.
d. Upon determination of the identity of the micro-organisms isolated from the test, the growth of the species isolated may be ascribed unequivocally to faults with respect to the material and/or the technique used in conducting the sterility test."

Per your Director of Microbiology, the invalidated sample did not fall within any of these conditions.

OBSERVATION 4

Your firm failed to establish adequate written procedures for production and process controls designed to assure that the drug products have the identity, strength, purity, and quality that they are purported or represented to possess.

Sterile Drug Manufacturing & 503B Outsourcing Facility

Specifically,

1. Your firm's visual inspection methods used for inhalation products are inadequate. Currently, this inspection process for visible particulates, discoloration or turbidity, a critical defect, includes inspecting 50 blow fill seal (BFS) units per hour and AQL sampling at level 0.065%. Your process has not been validated to ensure your inspection method can adequately detect these defects in all products effectively across all inspectors. In 2025, you generated approximately five (5) defects generated for particles, cloudy, white specks, and dark particles.

2. You do not have sound scientific justification for not performing visual inspection for identifying

particulates, a critical defect in blow fill seal ophthalmic products manufactured in your facility.

3. Your 100% visual inspection program used for inspecting injectable products is deficient for the following reasons:

    a. Your 100% visual inspection program does not challenge robust, worst-case conditions for identifying defects of varying criticality for sterile liquid injectable drug products manufactured in your facility. Currently, your program qualifies your inspectors for (1) one hour whereas your shift is for 12 hours. Based on the validated batch sizes for products manufactured at your facility, inspectors are required to demonstrate competency in only a fraction of the units identified below. For example, for Sterile Water for Injection USP, inspectors are deemed qualified after evaluating a single tray containing 296 units with 34 defects at 100% competency, whereas the theoretical batch size yields 636,364 vials. This evaluation can occur up to three (3) times if failures are identified. Your visual inspection qualification does not demonstrate defect detection performance under actual production conditions.

b. You did not establish a process to ensure created test kit defects are not memorized during qualification administration. Visual inspectors who require requalification or fail qualification are retested using the same kits, allowing for potential memorization of defective units. The same kits are reused for second and third attempts, as well as for annual visual inspection testing, increasing the risk that operators become familiar with known defects.

c. Your 100% visual inspection post-test qualification challenges inspector competency on product simulated kits created by visual inspection training supervisors rather than real product. You have not demonstrated these kits along with the created defects are equivalent to products manufactured in your facility and suitable for qualifying inspectors.

d. You have not qualified the inspection procedure used to measure overfill volumes for sterile prefilled syringes for your 100% manual visual inspection processes for 503B operations. Currently, you use the graduations on retrofitted syringes to create sleeves which are used as measuring devices. These sleeves are intended to measure volume that exceeds the graduations applied the product's container closure system. These devices are uncontrolled and lack standardization.

e. The training of your 100% manual visual inspection trainers is inadequate in that they are deemed qualified on the test kits they create. Additionally, per your Quality Operations Sr. Manager, of the three (3) trainers, one (1) is not qualified to perform 100% visual inspection on product and the other two (2) have not performed any visual inspection on finished products manufactured at your facility in at least six (6) years. All trainers have the responsibility of confirming or invalidating defects identified by inspectors during manufacturing operations. For 2025, you generated approximately eight (8) 503B complaints related to missing label, plastic particles, plastic in port and leaking bags.

OBSERVATION 5

Aseptic processing areas are deficient regarding air supply that is filtered through high-efficiency particulate air filters under positive pressure.

Specifically, your firm failed to follow procedures to ensure alarms impacting classified areas are promptly responded to, investigated, and corrected.

For example, during a walkthrough of the facility on 11 Aug 2025, we observed that the alarm for the Blow Fill Seal (BFS) "man" pass-through had been alarming for a significant amount of time. The

Material Transfer Operator (SL) present reported, "I don't do anything about alarms." The Corporate Chief Quality Officer confirmed the alarm had been active since that morning. She further reported that operators are trained to report and escalate alarms to management; however:

a. No operator reported or escalated the alarm.
b. No management oversight or monitoring of the alarm condition was evident.
c. No assessment was made regarding the potential impact of the alarm.
d. No investigation was initiated until we inquired.

Firm management later confirmed that the alarm indicated a differential pressure failure signifying loss of positive pressure from the ISO 7 area, which is the background area for BFS operations, and had a controlled not classified (CNC) area.

Your firm failed to ensure that alarms critical to maintaining aseptic conditions were promptly addressed, escalated, and investigated. These deficiencies in alarm management and oversight create an unacceptable risk of microbial ingress and contamination of sterile products. The lack of effective alarm response undermines sterility assurance and patient safety.

This is a repeated observation from the inspection performed 01/29/2024 – 02/09/2024.

OBSERVATION 6

Your firm failed to ensure adequate control, oversight, and review of electronic records associated with the BFS system, including audit trails and error logs. These failures create significant risk that data critical to batch release decisions may be incomplete, inaccurate, or not available for review. Re: **15 Day Response to the Form FDA 483 Issued on August 22, 2025 to Nephron SC, LLC (FEIN 3010892830)**

This letter and its enclosures represent the 15 Day Response of Nephron SC, LLC ("Nephron") to the Form FDA 483 issued by the U.S. Food and Drug Administration ("FDA") at the conclusion of the inspection which occurred August 11-22, 2025. Nephron is a Section 510-registered manufacturer of FDA-approved prescription drug products, and a Section 503B-registered outsourcing facility located at 4500 12th Street Extension, West Columbia, SC (FEIN 3010892830).

As has been noted in previous communications to FDA concerning this inspection, Nephron had, at FDA's request, separately registered the sterile drug manufacturing (FEIN 3010892830) and outsourcing facility (FEIN 3011158388) operations. On August 11, 2025, a Form FDA 482 was presented to Nephron for each of the two (2) FEINs. It was not until the inspection close-out meeting on August 22, 2025 that Nephron was informed that the organizations would be "combined" and that 3010892830 would be the surviving FEIN. A single Form FDA 483 was issued which includes observations for both operations. On September 3, 2025, Nephron's counsel at Hyman, Phelps, & McNamara P.C. ("HPM") sent a letter to FDA detailing outstanding factual corrections to the Form FDA 483 and observations that we believe were inaccurately identified as repeats (*Attachment I*).

Nephron does not believe the Form FDA 483 as issued on August 22, 2025 accurately reflects the operational and GMP-compliance state of its facility, or the quality of the products manufactured therein. In addition to the concerns already communicated by HPM, Nephron believes that certain observations reflect a misunderstanding of FDA's own guidances, as well as industry standards from the United States Pharmacopeia ("USP"), and the Parenteral Drug Association ("PDA"). For example, Observation 4.1 inappropriately applies parenteral drug

product USP standards to an inhalation solution and Observation 4.2 rejects USP and PDA best practices for difficult to inspect parenteral products.

Additionally, Observations 1.A.b., 2.A, 2.B, and 4.3.d all concern manufacturing equipment (the Bausch 515 Automated Syringe Filler "BART") or container closure systems (prefilled syringes) not currently qualified for commercial use at Nephron. As previously committed, Nephron notified FDA on July 28, 2025 that it anticipated resuming commercial production on Bausch 515 Automated Syringe Filler ("BART") on or about August 27, 2025. Nephron has long been interested in FDA's input on its planned improvements to the BART. However, Nephron questions whether an FDA inspection was the most efficient or effective means to do so.

The investigators were clearly relaying feedback on the BART from FDA subject matter experts ("SMEs") who were off-site during the inspection. We recognize that is standard practice for investigators to consult with SMEs throughout an inspection. However, given that the BART is not commercially active and is currently under qualification, we question whether this was an effective use of resources during a lengthy ten (10) day inspection. Nephron would have appreciated the opportunity to discuss the BART with FDA SMEs directly which would have allowed the FDA investigators and Nephron personnel to focus on systems relevant to current production operations.

Product quality and patient safety are of upmost importance to Nephron. We remain committed to manufacturing both FDA-approved and sterile compounded drug products in accordance with GMP-requirements and respected industry standards. We will provide an update to this response, with the progress of all corrective preventive actions, no later than October 28, 2025. Please do not hesitate to contact Ashley Daugherty (adaugherty@nephronpharm.com), should you have any questions or require further clarification.

Sincerely,

OBSERVATION 1 A:

Procedures designed to prevent microbiological contamination of drug products purporting to be sterile are not established and written.

Specifically,

A. Your firm failed to perform adequate airflow-visualization (smoke) studies under dynamic conditions representative of actual aseptic operations. Specifically, for example, but not limited to, the following:

a. Laminar Flow Hood (LFH) Equipment: Smoke studies for the LFH was not conducted under dynamic conditions representative of actual operations. The studies did not demonstrate unidirectional airflow protection of all critical zones during interventions, including set-up and material manipulations.

b. BART Syringe Filler (Room 282G, Equipment ID/NID # NOF-01117): Airflow visualization (smoke studies) for the BART syringe filler were not performed under dynamic conditions representative of actual aseptic operations, including interventions and operator activities. The current approved study did not demonstrate that unidirectional airflow is maintained over all critical zones to protect exposed sterile product from contamination.

c. Cleanroom Design / LFH Placement: The main cleanroom door is directly in line with the LFH. During filling operations, this door was observed to be opened multiple times, creating the potential for airflow disruption and loss of ISO 5 protection in the LFH critical zone. This scenario was not simulated in your smoke studies and has not been evaluated under actual operational conditions.

Your firm failed to demonstrate through scientifically sound smoke studies that unidirectional airflow and first air are consistently maintained in ISO 5 classified areas during actual aseptic processing an including activity in the background environment which can disrupt airflow. Without adequate airflow visualization, sterile products may be produced in an environment that does not provide sufficient protection against microbiological contamination.

RESPONSE 1.A a.

The Nephron approach to airflow visualization studies within each ISO 5 Laminar Flow Hood (LFH) is in alignment with Annex 1 and FDA's Guidance for Industry, *Sterile Drug Products Produced by Aseptic Processing — Current Good Manufacturing Practice* (October 2004). During the FDA Audit on August 14 and 15, auditors were provided objective evidence, including documentation package and airflow visualization studies (video footage), for LFH NOF 0214 in room M119. The studies demonstrated that critical zones remained protected, and ingress was prevented during interventions and background activities.

Dynamic conditions assessed in the study included LFH pre-use cleaning, setup and purging of the product pathway, material introduction and IV bag outer packaging removal, filling and operator interventions as simulated in media fills, and the number of personnel present for both critical and background activities. The studies were reviewed and approved by Production Management, Microbiology, Validation, and Quality Assurance. Results confirmed that unidirectional airflow was consistently maintained across the ISO 5 filling area, that first-air protection of the critical zones, including luer-lock and transfer port was continuous, and that no turbulence, reverse airflow, or ingress from the surrounding environment was observed.

During the prior inspection (ending September 25, 2024), airflow visualization studies were also demonstrated using the same study design. The equivalent airflow visualization study, provided on LFH NOF 0181 in room M123 was reviewed and deemed acceptable by FDA without comment.

Immediate Actions:
During the inspection on August 14 & 15, 2025, Nephron provided investigators with the executed smoke study protocol (PQ-AVS-2400-NOF0214 Execution Scan) and summary report (PQSR-AVS-2400-NOF0214), hood qualifications and certifications (Attachment 1), and a copy of the study video (PQSR-AVS-2400-NOF0214.mp4, Attachment 2). At the inspectors' request, on August 20, 2025, additional clarifying materials were presented, including a storyboard (Attachment 3) and a risk-based impact assessment (Attachment 4). These emphasized that all ISO 5 interventions were fully captured under dynamic, worst-case conditions consistent with FDA guidance, *Sterile Drug Products Produced by Aseptic Processing* (October 2004). Although not all ISO 7 activities were filmed in full, ISO 7 tasks were risk-assessed and shown not to impact ISO 5 critical zones, and their controls are demonstrated through boundary smoke studies, hood qualifications, pressure cascades, air change rates, and environmental monitoring trends.

b. BART Syringe Filler (Room 282G, Equipment ID/NID # NOF-01117): Airflow visualization (smoke studies) for the BART syringe filler were not performed under dynamic conditions representative of actual aseptic operations, including interventions and operator activities. The current approved study did not demonstrate that unidirectional airflow is maintained over all critical zones to protect exposed sterile product from contamination.

RESPONSE 1 A b:
Airflow visualization studies were recently performed on the ISO 5 barrier of the Bausch 515 Automated Syringe Filler (BART) (Room 282G, Equipment ID/NID # NOF-01117) in accordance with Annex 1 and FDA Guidance, following design enhancements to the system. These studies were performed as part of ongoing qualification activities as the BART syringe filler is not currently used in commercial production. At the auditors' request, study documentation and video footage were provided onsite on August 14 and 15, 2025, demonstrating unidirectional airflow across the machine surface, protection of critical zones, and prevention of ingress during interventions and background activities.

Prior to execution, a design failure modes and effects analysis (dFMEA) was conducted to evaluate the potential impact of design changes on airflow and to identify the most critical interventions requiring evaluation. This risk-based approach ensured that airflow visualization focused on those operations with the greatest potential impact on product sterility.

Dynamic conditions assessed included equipment setup as well as glove-port interventions such as settle plate placement, product purging, syringe loading, cap charging, and jam clearance.

The studies, reviewed and approved by Production Management, Microbiology, Validation, and Quality Assurance, confirmed that unidirectional airflow was consistently maintained across all critical zones, that no ingress of air into ISO 5 areas occurred during interventions, and that no turbulence or reverse airflow was observed that could compromise sterility.

Immediate Actions:
Nephron provided FDA with the *BART Process Rationalization Presentation* (Attachment 3), the executed smoke study protocol (PQ-AVS-2501-282G Protocol 7-10-2025, Attachment 5), and summary report (PQSR-AVS-2501-282G, Attachment 1), the corresponding study video (PQ-AVS-2501-282G.mp4, Attachment 3), and room 282G certification documentation under Action 117 and Action 121.

During review of the airflow visualization study, inspectors relayed concerns that (i) smoke was not clear during settle plate placement (Time Point 47:31- 49:43), (ii) the study did not capture the displacement of caps into the capping bowl (Time Point 33:53 - 34:32), and (iii) glove movement was observed directly above an isokinetic probe (Time Point 46:23 - 4). Inspector feedback was constructively used to strengthen the documentation record. Nephron again affirmed to investigators that the BART syringe filler is not in commercial production and that no syringe products within expiry are on the market.

On August 22, 2025, preliminary reshoots of settle plate placement and cap displacement into the capping bowl were performed, demonstrating that unidirectional airflow was maintained at all times. Because the isokinetic probe is specifically designed to detect particulate generated by interventions within the enclosure, no additional action was warranted for this point.

An addendum protocol (PQ-AVS-2501-282G Addendum 1 Executed, Attachment 6) to the BART smoke study protocol was executed to formally capture the reshoots of settle plate placement (Location 01) and cap displacement into the capping bowl (Location 02). The results further demonstrated that unidirectional airflow was maintained at all times (PQ-AVS-2501-282G Addendum Location #01, PQ-AVS-2501-282G Addendum Location #02, PQSR-AVS-2501-282G Addendum 1 – Summary, see Attachment 7). Additionally, the *BART Process Rationalization Presentation* (Attachment 3) was updated to ensure it is clear the current process requires all operator interventions within the ISO 5 barrier, when product is present, to be performed exclusively via glove ports in accordance with SOP.CM.4924 *Operation of the Bausch 515 Filling and Closing Machine* (Attachment 8).

As the system is not in commercial production, these activities have been appropriately documented within the ongoing change record supporting commercial development.

In summary, Nephron has conducted airflow visualization studies under dynamic, worst-case conditions for the BART syringe filler in accordance with Annex 1 and FDA guidance. Supported by a risk-based design assessment and subsequent clarifications, these studies confirm that unidirectional airflow and first-air protection are consistently maintained across all critical zones. Activities arising from inspector feedback have been integrated into the ongoing change record to ensure the system is fully validated prior to commercial production.

c. Cleanroom Design / LFH Placement: The main cleanroom door is directly in line with the LFH. During filling operations, this door was observed to be opened multiple times, creating the potential for airflow disruption and loss of ISO 5 protection in the LFH critical zone. This scenario was not simulated in your smoke studies and has not been evaluated under actual operational conditions.

RESPONSE 1 A c:
The main cleanroom door adjacent to the LFH was noted by investigators as a potential source of airflow disruption during filling operations, due to door openings observed while aseptic activities were ongoing. The main cleanroom door and LFH have been in their present locations for over 5years, as has been

observed without comment or concern in 4 prior FDA inspections. While prior airflow visualization studies focused on ISO 5 interventions, this specific background scenario had not been directly included in earlier simulations. Industry standards, regulatory guidance, and Nephron's established practice appropriately emphasize airflow visualization of ISO 5 critical zones where sterile product is exposed, as these areas present the highest risk for contamination and are the focus of Annex 1 and FDA's aseptic processing guidance.

Total particulate environmental monitoring data collected in tandem for dynamic room monitoring and continuous hood monitoring was provided to inspectors (Attachment 9) for the filling process observed on August 18, 2025 further demonstrated that both ISO 7 background and ISO 5 LFH conditions remained in a state of control, regardless of door openings or other background activities.

Immediate Actions:
At the time of inspection, FDA feedback was noted in addition to the scientific, industry-aligned evidence already provided, which demonstrated that ISO 5 conditions were in control. As an opportunity for improvement and to further strengthen the airflow visualization record, Nephron executed additional airflow visualization protocols under PQ-AVS-2500-NOF0179 (PQ-AVS-2500-NOF0179 Executed, PQ-AVS-2500-NOF0179 Location #01, PQ-AVS-2500-NOF0179 Location #02, PQ-AVS-2500-NOF0179 Location #03, PQSR-AVS-2500-NOF0179 – Summary, see Attachments 10) and PQ-AVS-2500-NOF0181 (PQ-AVS-2500-NOF0181 Executed, PQ-AVS-2500-NOF0181 Location #01, PQ-AVS-2500-NOF0181 Location #02, PQ-AVS-2500-NOF0181 Location #03, PQSR-AVS-2500-NOF0181 – Summary, see Attachments 11). These studies incorporated representative ISO 7 background activities, including door movement and all representative background activities in filling suites M122 and M123, while ISO 5 LFH operations were underway. The studies, reviewed and approved by Production Management, Microbiology, Validation, and Quality Assurance, demonstrated that unidirectional airflow was consistently maintained across ISO 5 critical zones, that critical connection points (e.g., luer lock and fluid transfer port) remained continuously protected by unobstructed first air, and that no turbulence, reverse airflow, or ingress from ISO 7 areas was observed.

Risk Based-Impact Assessment:
A risk assessment was conducted for each of the observations surrounding cleanroom operations and environmental control, which included all findings within Observation #1A (Attachment 12). All risks associated with airflow due to process design were found to be low-risk due to strength of controls currently established. Data review from existing detectability controls confirmed the system is currently operating in control with no impact to product on the market.

The *Annual Contamination Control Strategy Review: 2024 Summary Report* (Attachment 13) was provided during the inspection on 8/13/2025 in Action 125. On page 38 of 42, a summary of contamination control risk assessments is included. In summary, this report confirmed:

- Data review confirmed the system is operating in control
- Risk assessment updates are planned and in-progress for both Nephron SC LLC and Nephron Sterile Compounding Center LLC
- The contamination control risk assessments for Nephron SC LLC and Nephron Sterile Compounding Center LLC will be combined into one risk assessment for Nephron
- Significant pre-work was acknowledged for risk assessments in-progress for legacy processes, including development of extensive process maps for comprehensive hazard identification

- Priorities for risk assessment updates are driven by most commonly used production processes and introduction of new processes which could impact risk profile

In anticipation of resuming production following BART re-design, design and process risk assessments were prioritized for BART and related Quality Risk Management Plans were provided to inspectors 8/13/2025. Legacy risk assessments were additionally provided in support of the existing laminar flow hood process upon request. Nephron recognizes risk assessments for the laminar flow hood process require update and revisions are underway. Nephron self-identified enhancements to the Quality Risk Management Program were needed following warning letters received in October of 2022. The program enhancements are outlined below:

- **April 2024**: Dedicated Quality Management role developed to build upon the existing Quality Risk Management Program as part of Quality Improvement Plan QIP-23-008, *Compliance Enhancement Plan* (Attachment 14).
- **September to December 2024**: Nephron engaged ValSource, a leading third-party firm in Pharmaceutical Quality Risk Management, to perform a Quality Risk Management Maturity Assessment.
- **February 2025**: Nephron engaged ValSource to hold an intensive on-site training for Quality Risk Facilitators.
- **July 2025**: Quality Risk Management Program restructure initiated through Quality Improvement Plan QIP-25-002 *Quality Risk Management Program Enhancements*.

Corrective and Preventive Actions (CAPA-0000049 due December 11, 2025):

The root cause of the investigation identified that airflow visualization (smoke) study protocols did not fully account for dynamic, worst-case aseptic operations (e.g., material manipulations, background activities, and potential airflow disruptions). This resulted from historical emphasis on ISO 5 zones only, without consistent integration of ISO 7 background simulations and intervention-specific documentation. To address these findings, a CAPA (CAPA-0000049, Attachment 15) has been initiated, targeted for implementation by December 11, 2025.

1. **Corrective Procedural Revisions and Documentation Enhancements**
   SOP-SC-CA-2531, *Airflow Visualization Study Procedure* to require (i) Dynamic simulations including representative interventions, background activities, and door movements, (ii) justification of smoke clip selection and camera angles, (iii) inclusion of ISO 7 activities when they may affect ISO 5 zones.

2. **Preventive Actions**
   - Update and harmonize the Contamination Control Risk Assessment to include LFH aseptic processes.
   - Strengthen connection between airflow visualization and periodic qualification lifecycle review
   - Strengthen training for Production, Microbiology, Validation, and QA personnel on airflow visualization expectations and aseptic interventions.

3. **Effectiveness Check(s)**
   - Audit of at least one smoke study execution under the revised procedure to verify adherence.
   - Confirm risk assessment update includes LFH aseptic processes by documented QA review.

- Trend EM and particulate data for 6 months post-implementation to verify continued control of ISO 5 and ISO 7 zones and no increase trends have been identified.

Collectively, in response to Observation 1.A and its subparts, Nephron has provided objective evidence, conducted confirmatory studies, and implemented enhancements to ensure both immediate remediation and future prevention through strengthened controls. Comprehensive airflow visualization studies under dynamic, worst-case conditions confirm that unidirectional airflow is consistently maintained in both the ISO 5 LFHs and the ISO 5 BART syringe filler barrier during all interventions, regardless of door openings or background activities. These actions reinforce Nephron's commitment to sustainable compliance, robust contamination control, and continuous improvement in full alignment with FDA expectations. Nephron remains fully committed to sustaining these improvements and maintaining a state of control.

OBSERVATION 1 B:

Your firm failed to demonstrate through scientifically sound smoke studies that unidirectional airflow and first air are consistently maintained in ISO 5 classified areas during actual aseptic processing and including activity in the background environment which can disrupt airflow. Without adequate airflow visualization, sterile products may be produced in an environment that does not provide sufficient protection against microbiological contamination.

Specifically,

Your firm failed to adequately control aseptic operations, enforce proper personnel practices and implement effective contamination controls. These deficiencies in aseptic practices create an unacceptable risk of microbial contamination to sterile drug products administered directly to patients' cardiovascular systems. For example, but not limited to, during the aseptic filling of Batch #NC-5128A of 1000 ml Del Nido Cardioplegia Solution in Laminar Flow Hood (LFH)-0179. Room M122, and Batch #NC-5128B in LFH-0181, Room M123, we observed the following poor aseptic practices:

Subparts 1-9:

1. ***Your firm failed to sanitize IV bags prior to their introduction into ISO 5 laminar flow hoods; operators transferred overwrapped IV bags from the ISO 7 area and placed them directly on critical surfaces without wiping with new sterile IPA wipes.***
2. ***Your firm failed to ensure operators performed slow and deliberate movements in the ISO 5 critical area; operators were observed moving rapidly in a manner that disrupted unidirectional airflow.***
3. ***Your firm failed to require operators to sanitize their hands prior to transferring materials into the ISO 5 area.***
4. ***Your firm failed to control the cleanroom environment; trash removal was conducted while filling operations were in progress without halting production.***
5. ***Your firm failed to prevent unnecessary particulate generation; operators moved shelving containing tubs of filled and bulk IV bags during active filling.***
6. ***Your firm failed to maintain segregation and control of critical areas; the main doors to manufacturing rooms were opened during aseptic operations, and in Room M122 the door was directly in line with the critical surface of the LFH.***
7. ***Your firm failed to enforce proper gowning practices; operators were observed removing and replacing sleeves and gloves in the background area during filling operations.***
8. ***Your firm failed to ensure disinfectants and sanitizing materials were used appropriately; IPA wipes intended for single use were reused multiple times after being left exposed on shelving.***

9. ***Your firm failed to ensure the integrity of personnel monitoring data; a microbiologist was observed spraying his hands with disinfectant immediately prior to performing his own personnel monitoring, thereby biasing results.***

Response 1B:
We acknowledge the FDA observation and recognize the critical importance of proper aseptic techniques in maintaining the integrity of sterile drug products and ensuring patient safety. Aseptic practices are a fundamental component of our quality system, and we are fully committed to upholding the highest standards.

Immediate Actions:
During the inspection (08/11/2025 – 08/22/2025), FDA inspectors engaged with Nephron personnel regarding aseptic processes for 503B sterile room IV bag production. In real time, while reviewing production operations, Nephron provided hard copies of governing SOPs including:

- SOP-SC-MB-4509 – *Aseptic Techniques* (Attachment 16)
- SOP.CM.4930 – *Manual IV Bag Filling Operations Procedure* (Attachment 17)
- SOP-SC-MB-4511 – *Environmental and Personnel Monitoring* (Attachment 18)
- SOP.SR.4902 – *Cleaning of Horizontal Laminar Flow Hoods* (Attachment 19)
- SOP-SC-MB-4510 – *Sanitization and Transfer of Parts to a Classified Environment* (Attachment 20)

An internal investigation (DEV-0000116) was opened to evaluate aseptic operations, review video and EM data, and determine the accuracy and impact of each subpart of the observation. As a precaution, Lot# NC5128A and Lot# NC5128B were placed on quality hold until this investigation (DEV-0000116) was completed.

1.B; Subpart 1: Your firm failed to sanitize IV bags prior to their introduction into ISO 5 laminar flow hoods; operators transferred overwrapped IV bags from the ISO 7 area and placed them directly on critical surfaces without wiping with new sterile IPA wipes.

RESPONSE 1.B, Subpart 1:
Investigation confirmed IV bags *were* sanitized prior to introduction into the LFH, per SOP.CM.4930, *Manual IV Bag Filling Operations Procedure*. Video review verified compliance with procedure. SOP-SC-PR-4510, *Sanitization and Transfer of Parts to a Classified Environment* contains specific instructions for sanitizing materials before placement in PEC; all components must be sanitized with sterile 70% IPA before entering ISO 5 areas.

Action:
Nephron self-identified an improvement opportunity prior to the inspection, with revisions actively in-progress. Change Control CC-0000066 was initiated to revise the material transfer process and enhance the LFH process flow.

1.B; Subpart 2:Your firm failed to ensure operators performed slow and deliberate movements in the ISO 5 critical area; operators were observed moving rapidly in a manner that disrupted unidirectional airflow.

RESPONSE 1B; Subpart 2:
Smoke study qualifications and EM results support operator movements do not compromise ISO 5 conditions, as evidenced during quarterly EM trending of ISO 5 laminar flow hoods (Attachment 21 – *Q1 2025 EM/PM Trend Report*, see pages 19-20). Nephron acknowledges an opportunity to reinforce training on slow, deliberate motion in ISO 5, consistent with SOP-SC-MB-4509, *Aseptic Techniques*.

Ongoing compliance with procedure is verified during routine aseptic observations, which are documented on FRM-SC-MB-4509-A, *Aseptic Technique Observation Checklist* (Attachment 22). The checklist contains specific items related to cleanroom behaviors during aseptic filling operations, including verification that personnel perform slow/deliberate movements within the hood.

Action:
Revision to FRM.TD.1603.H, *On The Job (OJT) Certification – 503B Filling – General Aseptic Operations*, (Attachment 23) to include smoke study demonstrations as part of aseptic training. The revision will clearly define operational movement standards in the cleanroom environment and emphasize slow and deliberate movements by utilizing smoke studies to visualize how movements affect airflow.

***1.B; Subpart 3:* Your firm failed to require operators to sanitize their hands prior to transferring materials into the ISO 5 area.**

RESPONSE 1B; Subpart 3:
Review confirmed proper sanitization occurred according to SOP-SC-MB-4509, *Aseptic Techniques* (Attachment 16), and SOP-SC-MB-4551, *Gowning Procedure* (Attachment 24) prior to material transfer into the LFH. Observation was found to be inaccurate.

Ongoing effectiveness verified through environmental and personnel monitoring trending (*Q1 2025 EM/PM Trend Report* – Attachment 21).

***1.B; Subpart 4:* Your firm failed to control the cleanroom environment; trash removal was conducted while filling operations were in progress without halting production.**

RESPONSE 1B; Subpart 4:
Trash was removed from ISO 7 background briefly in sealed bags while filling continued. The EM results, which are retained with the associated batch records for Lot# NC5128A and Lot# NC5128B, demonstrate the ISO 5 area remained in a state of control, as all results were below alert and action limits.

Immediate Action:
Airflow visualization studies, PQ-AVS-2500-NOF0179 and PQ-AVS-2500-NOF0181, were performed in M122 and M123 during operational conditions to demonstrate this activity (Attachments 10, PQ-AVS-2500-NOF0179 Executed, PQ-AVS-2500-NOF0179 Location #01, PQ-AVS-2500-NOF0179 Location #02, PQ-AVS-2500-NOF0179 Location #03, PQSR-AVS-2500-NOF0179 – Summary, PQ-AVS-2500-NOF0181 Executed, PQ-AVS-2500-NOF0181 Location #01, PQ-AVS-2500-NOF0181 Location #02, PQ-AVS-2500-NOF0181 Location #03, PQSR-AVS-2500-NOF0181 – Summary). The

results from both studies demonstrate the activities in the ISO 7 room do not disrupt the airflow patterns within the ISO 5 LFH.

Action:
SOP.CM.4930, *Manual IV Bag Filling Operations Procedure* to be revised to restrict trash removal to defined pauses or post fill only (Attachment 17).

1.B; Subpart 5: Your firm failed to prevent unnecessary particulate generation; operators moved shelving containing tubs of filled and bulk IV bags during active filling.

RESPONSE 1B; Subpart 5:
Investigation confirmed totes on shelving were moved as required by normal operations per SOP.CM.4930, *Manual IV Bag Filling Operations Procedure*. No environmental excursions occurred in the ISO 5 environment, and continuous particle monitoring remained within specifications; therefore, tote manipulation during filling operations was determined to have no impact.

Immediate Action:
Airflow visualization studies, PQ-AVS-2500-NOF0179 and PQ-AVS-2500-NOF0181, were performed in M122 and M123 during operational conditions to demonstrate this activity (PQ-AVS-2500-NOF0179 Executed, PQ-AVS-2500-NOF0179 Location #01, PQ-AVS-2500-NOF0179 Location #02, PQ-AVS-2500-NOF0179 Location #03, PQSR-AVS-2500-NOF0179 – Summary, PQ-AVS-2500-NOF0181 Executed, PQ-AVS-2500-NOF0181 Location #01, PQ-AVS-2500-NOF0181 Location #02, PQ-AVS-2500-NOF0181 Location #03, PQSR-AVS-2500-NOF0181 – Summary). The results from both studies demonstrate the activities in the ISO 7 room do not disrupt the airflow patterns within the ISO 5 LFH.

1.B; Subpart 6: Your firm failed to maintain segregation and control of critical areas; the main doors to manufacturing rooms were opened during aseptic operations, and in Room M122 the door was directly in line with the critical surface of the LFH.

RESPONSE 1B; Subpart 6:
Doors were briefly open; differential pressure remained within specification, with no viable or non-viable excursions.

Immediate Action:
Airflow visualization studies, PQ-AVS-2500-NOF0179 and PQ-AVS-2500-NOF0181, were performed in M122 and M123 during operational conditions to demonstrate this activity (PQ-AVS-2500-NOF0179 Executed, PQ-AVS-2500-NOF0179 Location #01, PQ-AVS-2500-NOF0179 Location #02, PQ-AVS-2500-NOF0179 Location #03, PQSR-AVS-2500-NOF0179 – Summary, PQ-AVS-2500-NOF0181 Executed, PQ-AVS-2500-NOF0181 Location #01, PQ-AVS-2500-NOF0181 Location #02, PQ-AVS-2500-NOF0181 Location #03, PQSR-AVS-2500-NOF0181 – Summary). The results from both studies demonstrate the activities in the ISO 7 room do not disrupt the airflow patterns within the ISO 5 LFH.

Action:

SOP.CM.4930, *Manual IV Bag Filling Operations Procedure,* to be revised to reinforce procedural emphasis on minimizing door openings (Attachment 17).

***1.B; Subpart 7:* Your firm failed to enforce proper gowning practices; operators were observed removing and replacing sleeves and gloves in the background area during filling operations.**

RESPONSE 1B; Subpart 7:
Confirmed sleeve and glove changes occurred by the EM technician as part of personnel monitoring bracketing. It was not a production operator removing/replacing sleeves during filling. Video review corroborates the EM technician completed room monitoring and then performed the glove/sleeve change as required by SOP-SC-MB-4511, *Environmental and Personnel Monitoring* (Attachment 18).

***1.B; Subpart 8:* Your firm failed to ensure disinfectants and sanitizing materials were used appropriately; IPA wipes intended for single use were reused multiple times after being left exposed on shelving.**

RESPONSE 1B; Subpart 8:
No reuse of wipes was identified. One instance of an unused wipe left on shelving after being removed from the original container was investigated; the wipe was discarded, not reused.

***1.B; Subpart 9:* Your firm failed to ensure the integrity of personnel monitoring data; a microbiologist was observed spraying his hands with disinfectant immediately prior to performing his own personnel monitoring, thereby biasing results.**

RESPONSE 1B; Subpart 9:
The investigation confirmed the Environmental Monitoring technician was following established procedural controls as outlined in SOP-SC-MB-4509, *Aseptic Techniques* (Attachment 16) and SOP-SC-MB-4511, *Environmental and Personnel Monitoring* (Attachment 18). While the observation described a microbiologist spraying their gloves with disinfectant immediately prior to performing their own personnel monitoring, our investigation revealed the EM technician first sanitized their gloves prior to plating an operator, and then approximately one minute later, performed his own monitoring. This sequence is in accordance with procedure, which specifically prohibits sanitization immediately before self-plating while requiring EM technicians sanitize gloves in-between operator plating sessions. Although time difference between plating and EM technician glove sanitization is brief, this practice aligns with plating process flow and reduces the risk of the EM technician potentially contaminating the production operator's results, as the EM technician is responsible for manipulating plates for all technicians associated with IV bag filling production.

Risk Based-Impact Assessment:
A risk assessment was conducted for each of the observations surrounding cleanroom operations and environmental control, which included all findings within Observation #1A and #1B (Attachment 26 – *Risk Report*). There were no high or severe risks identified. The risk profile primarily contained low risks, however there were two hazards which Nephron determined mitigation action will be pursued (medium-risk). There was one medium risk which required acceptance, though enhancements will be pursued to strengthen existing controls. These hazards are listed in Table 1.B.9-1, below, with applicable actions. Data review from existing detectability controls confirmed the system is currently operating in control with no impact to product on the market. Specifically, airflow visualization studies, PQ-AVS-2500-NOF0179 and

PQ-AVS-2500-NOF0181, were performed in M122 and M123 during operational conditions to demonstrate this activity (Attachments PQ-AVS-2500-NOF0179 Executed, PQ-AVS-2500-NOF0179 Location #01, PQ-AVS-2500-NOF0179 Location #02, PQ-AVS-2500-NOF0179 Location #03, PQSR-AVS-2500-NOF0179 – Summary, PQ-AVS-2500-NOF0181 Executed, PQ-AVS-2500-NOF0181 Location #01, PQ-AVS-2500-NOF0181 Location #02, PQ-AVS-2500-NOF0181 Location #03, PQSR-AVS-2500-NOF0181 – Summary). The results from both studies demonstrate activities in the ISO 7 room do not disrupt the airflow patterns within the ISO 5 LFH.

Table 1.B.9-1: Overview of Hazards Identified in Risk Based-Impact Assessment

Hazard ID #	Process	Risk Statement	Risk Level	Mitigation Action	Assigned to
1.B.3	Laminar flow hood	If operators do not sanitize their gloves prior to transferring materials into the laminar flow hood during active filling, contamination on gloves could be transferred to materials/surfaces in the laminar flow hood upon transfer, later potentially entering finished product during filling manipulations through mechanical transfer.	R2 - Medium	**Eliminate hazard:** Procedure will be updated to provide instructions for new method of material transfer into laminar flow hood within CC-0000066. Transfer personnel will no longer remove sterile IV bag from outer packaging and packaging will not be placed on surface of laminar flow hood.	Cleanroom Quality Assurance
1.B.8	Laminar flow hood	If sterile wipes are reused to sanitize components, there is potential to inadequately reduce contamination present the outer packaging of components prior to entry into the ISO 5, resulting in the potential for contamination in the ISO-7 environment to be introduced to the surface of the laminar flow hood and potentially enter finished product during filling manipulations through mechanical transfer.	R2 - Medium	**Reduce risk:** Procedure will explicitly clarify a new sterile wipe must be used to sanitize each component within CAPA-0000040.	Cleanroom Quality Assurance
Hazard ID #	**Process**	**Risk Statement**	**Risk Level**	**Rationale for Acceptance**	
1.B.2	Laminar flow hood	If airflow visualization studies for IV bag filling in laminar flow hoods do not demonstrate unidirectional airflow protection over critical zones during dynamic conditions representative of actual operations (e.g. operators moving faster than challenged in smoke study), there is potential to negatively impact airflow resulting in air contaminants potentially entering finished product.	R2 – Medium	There are multiple controls in place, however human factors impact this failure (e.g. operator moving too fast). Additional enhancements for strength of current controls will be implemented in CAPA-0000040 (e.g. use smoke in training under FRM.TD.1603.H for each operator).	

Corrective and Preventive Actions

Nephron has taken this as an opportunity to strengthen aseptic practices, reinforce operator training, and clarify procedural language where needed. Corrective and preventive actions are in process with effectiveness verification to follow. Key enhancements include:

CAPA-0000054 due December 30, 2025 (Attachment 27):

- Update training program, specifically FRM.TD.1603.H ,*OJT Certification – 503B Filling – General Aseptic Operations* (Attachment 23), to incorporate smoke study demonstrations into aseptic training. Smoke-based training module will be implemented to visually demonstrate airflow patterns and the impact of operator movements on first air
- Effectiveness verification will be confirmed through post-training assessments where operators must demonstrate understanding of unidirectional airflow principles. Direct observation of aseptic techniques during simulated or real tasks ensures 100% compliance with airflow protection practices, such as avoiding obstruction of first air and minimizing unnecessary movement.

CAPA-0000040 due October 10, 2025 (Attachment 90):

- SOP.CM.4930, *Manual IV Bag Filling Operations* (Attachment 16) procedure will be revised to restrict trash removal to defined pauses or post fill only.
- SOP-SC-MB-4509, *Aseptic Techniques* (Attachment 16) will be updated to explicitly clarify a new sterile wipe must be used to sanitize each component
    - Retraining operators, quality assurance and EM staff on best practices (e.g., wipe usage, deliberate movements, door handling).

OBSERVATION 1 C:

Procedures designed to prevent microbiological contamination of drug products purporting to be sterile are not established and written.

C. Your firm's media fill program does not ensure simulations are representative of routine commercial operations or worst-case conditions.

1. Media fill protocols and executed records simulate critical interventions only "at least once" rather than at a representative number, type, complexity, and frequency justified by actual production history. This reduces the intervention load and fails to reflect worst-case conditions.

2. Routine production batch records do not consistently document type, frequency, and timing of interventions, including non-routine/unplanned interventions, preventing data-driven justification of media fill design.

RESPONSE 1.C:

The media fill program does ensure simulations are representative of routine commercial operations and worst-case conditions by simulating intervention types, frequency, and complexity representative of production. This observation concerning media fills is written as being applicable to both operations: "Sterile Drug Manufacturing & 503B Outsourcing Facility." As discussed during the inspection close-out meeting on 8/22/2025, this observation only concerns 503B Outsourcing media fills which occur in the laminar flow hood. Media fills for Sterile Drug Manufacturing are not referenced in this observation. The

investigators stated they would revise Observation 1.C to indicate it is only applicable to the 503B Outsourcing Facility, however the change was not made.

Additionally, Observation 1 is indicated as a "repeated observation" from inspections performed 11/2023 – 02/2023 and 01/29/2024 – 02/09/2024. As noted, Observation 1 is applicable only to the 503B Outsourcing Facility. However, the FDA inspection which occurred 01/29/2024 – 02/09/2024 was limited to the Sterile Drug Manufacturing facility, meaning 2025 Observation 1 concerning the 503B Outsourcing Facility could not be a repeat. Additionally, the observation in the Form FDA 483 issued following the 11/2022 – 02/2023 inspection of the 503B Outsourcing Facility referred specifically to validation of aseptic processes which is not repeated in the 2025 Form FDA 483.

Immediate Actions:

During the inspection on 8/21/2025, an intervention assessment was provided to investigators which included intervention data from media fills and production lots. The intervention data confirms media fills include more planned and unplanned interventions than commercial production. The data support media fill studies for manual IV bag filling are representative of the worst-case scenario for commercial production. This information was provided to investigators on 8/21/2025, and discussed in detail with an investigator on 8/22/2025.

During discussions with an investigator on 8/22/2025, it was clarified the intervention documentation process for routine production for both BFS and Automated Syringe Filling ("BART") processes are consistent and in a log format, and the data are trended to support the media fill program. It was also discussed the intervention documentation through batch record notes was only applicable for the manual IV bag filling process, which was acknowledged by the investigator.

There is a consistent process for documenting intervention type, frequency, and timing during routine production, which is used for data-driven justification of media fill design for aseptic processes at Nephron. The only aseptic process does not have an intervention log to consistently document unplanned interventions is the manual IV bag filling in a laminar flow hood.

We would like to clarify a misinterpretation regarding the frequency of interventions performed during media fills.

Interventions are performed more than "at least once" during media fills. The intervention form used during media fills for manual IV bag filling, FRM.CM.1604.D, *Aseptic Process Simulation-IV Bag Intervention Form* (Attachment 25), lists each planned intervention type once for documentation purposes. However, as outlined in the respective media fill protocols, two or more operators participate in each media fill, and each operator executes the full set of planned interventions. As such, each planned intervention is performed multiple times. While this repetition is not individually itemized on the form, it is executed as part of the media fill protocol and verified through batch records and operator sign-offs.

Additionally, inherent interventions occur naturally and frequently during aseptic processing are not simulated separately, as they are inherently represented throughout the process. These are not repeated multiple times on the intervention form, as these activities do not require planned simulation, as they occur throughout the process and are documented in batch notes.

We acknowledge the format of the intervention documentation may have contributed to the misunderstanding, and we are implementing corrective actions to make the frequency and coverage of interventions more transparent in future media fills.

An internal investigation (DEV-0000117 Investigation Finding: Deviation to Media Fill MPL 7.4.1 for Laminar Flow Hood) was initiated to address the concerns regarding intervention trending and documentation during media fills and routine production. The investigation concluded the media fill intervention form does not clearly convey the total number of times each intervention is performed because it does not include a log for inherent/unplanned interventions. The absence of documentation for inherent interventions contributed to the overall perception of limited intervention frequency. Based on these findings, a corrective action plan was developed to address the identified gaps and improve transparency.

The investigation also concluded for routine production (for manual IV bag filling), the method for documenting interventions in batch record notes is difficult to trend, as there is no defined log in place. Therefore, a corrective action plan was developed to enhance the method of documenting interventions during routine manual IV bag filling. Specifically, interventions will be documented in a log format. This format will support data-driven justification of the media fill program and to ensure media fills remain representative of the aseptic process.

Impact Assessment:
There is no impact to marketed product, as media fill studies are representative of the worst-case scenario, including the type and number of interventions occur during production, and the media fill data support the capability of the aseptic process and the appropriateness of validated interventions.

Forty-one (41) batch records of IV bag commercial production lots, produced since the beginning of 2025, were manually reviewed to determine the intervention frequency during routine production. This information was compared to the most recent media fill intervention frequency, and the intervention frequency in media fills was representative of the worst-case scenario, as all intervention types were challenged at a greater frequency than they occurred during any of the production lots reviewed. The data demonstrate manual IV bag media fills simulate production and represent the worst-case scenario by exceeding the number of interventions performed during production. The aseptic process simulations are considered fully representative of the manual IV bag filling process.

Corrective and Preventive Actions (CAPA-0000038 due October 10th, 2025 & CAPA-0000037 due October 23th, 2025) (Attachment 28):
To address this observation and prevent recurrence of inspection misinterpretation, the following corrective actions will be completed:

Procedure Revisions will be captured under CAPA-0000038, *Procedure Updates Related to Intervetion Documentation and Trending* (Attachment 28), due October 10, 2025.

- MPL-SC-MB-0111, *Aseptic Process Simulation - Media Fill - Master Plan* (Attachment 29), will be updated to include details regarding intervention trending for manual IV bag filling.
- The media fill planned intervention form, FRM.CM.1604.D, *Aseptic Process Simulation-IV Bag Intervention Form*, (Attachment 25), will be updated to include a log for documenting inherent and unplanned interventions.

- SOP.CM.4930, *Manual IV Bag Filling Operations Procedure*, (Attachment 17) will be updated to include the list of interventions and describe how each event should be documented during routine production operations.

Intervention Documentation Enhancements will be captured under CAPA-0000037, *Development of Intervention Log for Manual IV Bag Filling* (Attachment 28), due October 23, 2025.

- The method for recording interventions for manual IV bag filling will be updated. A formal intervention log for IV bag filling will be integrated the Electronic Batch Record.

In conclusion, the review of production batch records and media fill data confirms media fills effectively simulate worst-case aseptic conditions, including frequency of planned and inherent interventions. While current practices are adequate, the improvements described above to intervention documentation enhance transparency and support continuous improvement in alignment with regulatory expectations.

OBSERVATION 1 D:

You have not demonstrated in your disinfectant efficacy study that your established contact time of two (2) minutes for sterile 70% isopropyl alcohol used as a disinfectant in your facility is capable of decontaminating nitrile surfaces. Nitrile gloves are primarily used for operating within the ISO-5 and ISO-7 cleanroom environments where sterile drug products are manufactured.

RESPONSE 1 D:

An internal investigation (DEV-000123, *Inspection Finding for Disinfectant Efficacy Study*) determined the nitrile surface type was not present in Nephron disinfectant efficacy studies because regulatory guidance does not currently indicate testing for sterile single-use surfaces. In accordance with USP <1072>, *Disinfectants and Antiseptics*, materials are part of the disinfection program, routinely exposed to disinfectants, and reused in the cleanroom environment should be subject to disinfectant efficacy study. The materials/surfaces in the classified areas at Nephron are routinely exposed to disinfectants as part of disinfection program have been included in disinfectant efficacy studies. The sterile nitrile gloves used in aseptic manufacturing are gamma-irradiated and come with a Certificate of Irradiation and Sterility Assurance Level (SAL 10^{-6}). This validated sterilization process ensures the gloves are sterile prior to introduction into classified areas.

According to SOP-SC-PR-4510, *Sanitization and Transfer of Parts to a Classified Environment*, (Attachment 20) new cleanroom items/material must undergo microbiological assessment prior to use. If a material requires a disinfectant efficacy study according to a microbiology assessment, then a microbiology method validation protocol is initiated. The protocol is written based on the general requirements for microbiology method validations listed in MPL-SC-MB-0110, *Microbiological Test Method Validation Master Plan* (Attachment 91). Clearly defining the differences and testing between materials which undergo disinfection compared to materials which undergo antiseptic sanitization will strengthen the existing program and will be undertaken within CAPA-0000042. Additionally, the master plan detail will be enhanced with regard to assessment of new or modified cleanroom materials and validation of disinfectants and sanitizers. A matrix of materials and chemical agents have been evaluated as a part of the disinfection and sanitization program will also be presented within the master plan.

While a disinfectant efficacy study for disposable glove material was not performed, the observation has been determined to have no impact on product quality or patient safety because personnel monitoring is

conducted for each operator involved in aseptic operations and trending confirms the system is in control. Nevertheless, this observation highlights an area for improvement in the current validation procedure for microbiology test methods. The observation also serves as an opportunity to strengthen our assurance of contamination control and further align our practices with evolving regulatory and industry expectations by performing glove-specific aseptic hand cleaning efficacy studies. In response, a corrective action has been initiated to strengthen the process.

Immediate Actions:
During the inspection from August 11, 2025 to August 22, 2025, when asked about the nitrile material, Nephron indicated the nitrile gloves are single use disposable materials weren't required to be assessed as a part of the disinfectant efficacy study. At no point during the inspection prior to the receipt of this Form FDA 483 observation did the inspectors ask Nephron SMEs any questions or express any concerns with the rationale for this approach to the disinfectant efficacy study. Additionally, Nephron indicated new materials brought into the cleanrooms during maintenance or construction are assessed as a part of the equipment/process changes are opened to for the changes/updates to processes. It was also explained a representative surface testing for the disinfectant efficacy of nitrile surface exists. At the inspector request, chemical compatibility of silicone with disinfectant, standard operating procedures speak to the use of disinfectants, and the most recent disinfectant efficacy study were provided.

Impact Assessment:
There is no potential impact to product safety, identity, strength, purity, or quality (SISPQ) as a result of this observation. Nitrile gloves utilized by Nephron are single-use and sterile. Antiseptic hand cleaning occurs regularly throughout all processes in the ISO 5 and ISO 7 areas per SOP-SC-MB-4509, *Aseptic Techniques*. USP <1072> and EU Annex 1 (2022) do not mandate every surface needs to be tested for disinfectant efficacy and allows for representative or worst-case surface material testing for disinfectant efficacy study. Nitrile gloves are non-porous material similar to polymeric surfaces (PVC, polypropylene, epoxy resin) already included in the disinfectant efficacy study performed by Steris (Attachment 30). Based on the existence of representative surfaces, the disinfectant efficacy of nitrile is reasonably assured.

Routine personnel and environmental monitoring are performed according to SOP-SC-MB-4511, *Environmental and Personnel Monitoring* (Attachment 18), and alert and action levels are established for all microbial monitoring. All action limit excursions are investigated to determine the root cause per SOP-SC-MB-6204, *Microbial Excursions and Deviations* (Attachment 31). Personnel monitoring and environmental monitoring results are trended on a bi-weekly and quarterly basis to assess contamination controls and identify adverse trends. The efficacy of the current antiseptic hand cleaning process and detection of microbial contamination of the sterile nitrile gloves is demonstrated through personnel and environmental monitoring data for the facility.

Contamination recovery rates (CRR) in ISO 5 and ISO 7 environments were assessed over a 24-month period, based on historical environmental monitoring data (Attachment 32). USP <1116>, *Microbiological Control and Monitoring of Aseptic Processing Environments*, recommends maintaining a contamination recovery rate of <1.0% for ISO 5 areas and <5.0% for ISO 7 areas. The environmental monitoring CRR for the reviewed period is 0.09% for ISO 5 samples. The CRR for ISO 7 areas is 0.34%.

Contamination recovery rates (CRR) in ISO 5 and ISO 7 environments were also assessed over the same timeframe, based on historical results from nitrile glove fingertip sampling (Attachment 33). The CRR for ISO 5 glove sampling is 0.03%. The CRR for ISO 7 glove sampling is 0.31%. The CRR for both ISO 5 and

ISO 7 environmental and personnel monitoring results are below the ISO 5 limit recommended by USP. The trending data demonstrates the efficacy of the contamination control strategies, including the antiseptic hand cleaning process, practiced by Nephron.

Corrective and Preventive Actions (CAPA-0000042 Completion of Sanitizer Efficacy Study for Nitrile Gloves due December 12th, 2025) (Attachment 34):

We recognize this observation as an opportunity for continuous improvement. By performing glove specific antiseptic hand cleaning efficacy studies and enhancing our procedures, we can strengthen our assurance of contamination control. The following corrective and preventative actions will be employed to demonstrate Nephron commitment to patient safety and to further align our practices with evolving regulatory and industry expectations.

1. The efficacy of 70% sterile IPA to reduce microbial contamination of nitrile gloves will be validated by performing hand sanitization studies. The studies will challenge the reduction of commonly reported in-house isolates on nitrile singe use gloves according to the EU hand sanitization guidelines in EN1500/12791 validation.
2. Document MPL-SC-MB-0110, *Microbiological Test Method Validation Master Plan* (Attachment 91), will be revised to detail the evaluation required for disinfectant efficacy study applicability when assessing new or modified cleanroom materials. Additionally, the master plan will specify requirements for validating disinfectants and sanitizers, as well as a matrix of materials and chemical agents have been evaluated as a part of the disinfection and sanitization program.
3. Training and awareness will be performed on the updated process following completion of SOP revisions according to SOP-SC-TD-1610, *Training Program* (Attachment 35).

OBSERVATION 2 A:

Aseptic processing areas are deficient regarding the system for monitoring environmental conditions.

A. Your firm failed to establish and implement an adequate environmental monitoring (EM) program that includes all critical surfaces and locations within classified areas.
For example, but not limited to, your firm's EM program does not include sampling of the operator contact portion of the barrier on the Bausch 515 Automated Syringe Filler in Room 282G(BART) Syringe Filler (Equipment ID/NID # NOF-01117) Cap Barrier and Syringe Barrier during aseptic operations. These surfaces are also excluded from your firms cleaning and disinfection program, despite its direct contact with operators and proximity to the ISO 5 critical zone.
Your firm failed to ensure that all high-risk and frequently touched surfaces in classified areas are routinely monitored and disinfected to detect and prevent microbial contamination. These deficiencies in the environmental monitoring and cleaning program create an unacceptable risk of undetected microbial contamination of sterile drug products administered directly to patients' cardiovascular system. The lack of effective contamination control undermines sterility assurance and patient safety.

RESPONSE 2.A:

An internal review confirmed all critical surfaces and locations within classified areas are routinely monitored and included within the cleaning and disinfection program. Nephron disagrees any perceived deficiencies in the environmental monitoring and cleaning program create "an unacceptable risk of undetected microbial contamination of sterile drug products administered directly to patients' cardiovascular system." As was explained multiple times during the inspection, the BART syringe filler is not commercially active and is currently under qualification. On-site inspectors expressed concern for the outside of operator sterile sleeves may touch the bottom of the barrier surrounding the cap addition zone following review of dynamic airflow visualization study video. Those areas are identified in the image below.

Figure 2.A-1: 282G-1 Cap Addition Shroud Locations

Based on the angle of the smoke study video, confirmation of physical contact cannot be definitively determined. However, the inspectors repeatedly declined Nephron offer to view operation of the updated BART machine design in-person. The BART syringe filler (Equipment ID / NID # NOF 0117) operation has been observed by Nephron SMEs during multiple Gemba walks conducted as part of Design Failure Modes and Effects Analysis (DFMEA), Process Failure Modes and Effects Analysis (PFMEA), and environmental monitoring performance qualification (EMPQ) risk assessment design, and contact with the

cap addition shroud barrier was not observed. Although it has not been observed, it is feasible contact with the barrier could be made.

Currently, cleaning and disinfection of the room 282G syringe filler cap addition shroud barrier occurs according to WRK-SC-SR-4530-K, *Cleaning/Sanitizing Automated Filling Suites* (Attachment 36). Step 1.1.2.c specifies the cleaning and disinfection process for cleaning the shroud and step 1.1.2.g details cleaning external panels of the filling machine. The process for drafting and executing environmental monitoring performance qualifications (EMPQ) selection of sample sites within a cleanroom are described in SOP-SC-MB-4542, *Environmental Monitoring Performance Qualification Process* (Attachment 37) and WRK-SC-MB-4542-A, *Instructions for drafting Environmental Monitoring Performance Qualification* (Attachment 38).

Per SOP-SC-MB-4542, *Environmental Monitoring Performance Qualification Process*, risk assessments are performed to determine EMPQ sample sites through assessment of potential "critical points", defined in WRK-SC-MB-4542-A, *Instructions for drafting Environmental Monitoring Performance Qualification* as:

- A location where a process step occurs if contamination is present, would impact the purity, efficacy, or safety associated with product produced in the suite, or
- A location represents an area is likely to have contamination due to frequent contact by operators or materials, a high level of operator traffic, or is difficult to routinely sanitize or clean effectively.

Additional factors considered per SOP-SC-MB-4542, *Environmental Monitoring Performance Qualification Process* include (but are not limited to) proximity to open product or product contact surfaces and activities associated with interventions. Each critical point is then scored to determine the associated risk, which informs decisions related to sample sites.

A risk assessment was performed as part of the environmental monitoring performance qualification PQ-464C, *Addendum to Environmental Monitoring Performance Qualification for Suite 282 (BART)* (Attachment 39) for the determination of sample sites for environmental monitoring (EM) for the BART syringe filler (Equipment ID / NID # NOF 0117) and the 282 Manufacturing Suite. The following sites were determined applicable during Phase I of the EMPQ for the cap addition shroud following risk assessment:

- Contact Plate: Inside left of cap addition shroud
- Swab: Inside cap addition tool scoop
- Swab: Inside cap addition tool handle loop
- Surface Air Sample and Settle Plate: Under cap addition shroud below cap addition port

The hazard surrounding potential operator contact of the bottom edge of the cap addition shroud is preliminarily assessed below with the same structure applied in PQ-464C, *Addendum to Environmental Monitoring Performance Qualification for Suite 282 (BART)* which contains the description of the personnel, material, and process flows in Suite 282. Risk ranking criteria is aligned with SOP-SC-QA-1154, *Risk Management* (Attachment 40), with granularity for the applicable process described within PQ-464C, *Addendum to Environmental Monitoring Performance Qualification for Suite 282 (BART)*. For ease of review, a scoring rationale column is additionally provided to provide context for the risk analysis.

Table 2.A-1: Overview of Hazards Identified in Risk Based-Impact Assessment

Hazard	Potential Failure Mode (Hazard)	Potential Failure Effects	SEVERITY (S)	Potential Causes	OCCURRENCE (O)	DETECTION (D)	RPN	Scoring Rationale
Bottom Edge of Cap Addition Shroud 3	Personnel contact increases potential for microbial contamination on surface	Contamination of edge of edge of primary engineering control	4	Personnel/material contact, insufficient sanitization of the primary engineering control.	2	2	**16**	S- Site is part of the primary engineering control. There is a serious risk to patient safety and product quality as a result. O- EMPQ is being utilized to assess the state of the room. Sample site is assumed could occur at some point until data can be collected in Phase II. Inadequate sanitization could lead to an increase in microbial build up at this site. Personnel are frequently present in the area wearing sterile gloves and sleeves and contact with the site is feasible. Material is both sanitized (outer packaging) and sterile (inner component and autoclaved cap addition tool) within this area. Direct contact with the site is not expected for operation, but possible. D- Multiple sites exist along the process path including swab sampling, personnel monitoring, surface testing, and continuous viable air testing. Trending for data collected within the area is performed and any contamination within the area is likely to be detected by sampling within the same area performed within 12 inches of the sample location. Product testing for product filled in the room would provide a pathway to detect contamination in the absence of room monitoring.

Along with the risks identified through the PQ-464C, *Addendum to Environmental Monitoring Performance Qualification for Suite 282 (BART)* risk assessment, this hazard will be integrated within the PFMEA conducted within QRM-503B-25-002 *Bausch 515029 Filling and Closing Machine Process* for lifecycle management through the Quality Risk Management program.

3673

By design, operators within BART do not touch critical surfaces during operations according to SOP.CM.4924, *Operation of the Bausch 515 Filling and Closing Machine,*(Attachment 8) section 17.2.2.2. The new BART design and resulting process involves the use of autoclaved tools to add components into the machine per SOP.CM.4924, *Operation of the Bausch 515 Filling and Closing Machine,* Attachment 5. Autoclaved parts are transferred into the machine according to SOP.CM.4924, *Operation of the Bausch 515 Filling and Closing Machine,* section 9.1. The cap addition shroud barrier is separated from the manufacturing shroud of the Bausch 515 Automated Syringe Filler in Room 282G(BART) (Equipment ID/NID # NOF 0117) where sterile product is exposed during filling operations. These areas within the new barriers for component addition are classified as ISO 5, in addition to the separate main barrier. Handles were designed in accordance with the Bausch 515029 Design Failure Modes and Effects analysis (DFMEA) to ensure the critical surface which touches the components does not require contact and does not block airflow for use. The main barrier, which separates component addition from the filling zone, is only accessible through glove ports during operations in the revised BART process in accordance with standard operating procedure SOP.CM.4924, *Operation of the Bausch 515 Filling and Closing Machine,* steps 18.1.2 and 18.1.3. All frequently contacted surfaces are sanitized every 30 minutes during operations, per SOP.CM.4924, *Operation of the Bausch 515 Filling and Closing Machine,* step 20.2.2 "During the 30-minute glove check, the frequently contacted surfaces within the room and the machine shall be sanitized."

Alert and action levels are established for all microbial monitoring according to SOP-SC-MB-4511, *Environmental and Personnel Monitoring* (Attachment 18). The action limit for the ISO-5 area is ≥1 colony forming unit (CFU) and all recoveries in ISO 5 areas are investigated to determine the root cause of the environmental monitoring (EM) excursion per SOP-SC-MB-6204, *Microbiological Excursions and Investigations* (Attachment 31). The ISO 5 manufacturing suite 282 data from 08-2024 to 08-2025 was reviewed for contamination recovery rate (CRR) (Attachment 41 – 282 Suite CRR Viable Trend), and the ISO 5 area including 282G and 282G-1 had zero (0) recoveries out of 1403 samples for a CRR of 0% which is within the limit of <1% per USP <1116>. This demonstrates the area is within a state of control.

We recognize this observation as an opportunity for continuous improvement and the hazard identified will be added to the current PFMEA in progress for life-cycle review.

Immediate Actions:

During the inspection on August 13, 2025, and several days thereafter, Nephron clarified the BART syringe filler is not commercially active and is currently under qualification. The completed risk assessment for the environmental monitoring performance qualification (which considered personnel, material, and process flow) was provided to inspectors on 8/13/2025, in addition to the Quality Risk Management Plans for the Design Failure Modes and Effects Analysis (DFMEA) and the Process Failure Modes and Effects Analysis (PFMEA). The risk analysis phase of the DFMEA was completed prior to smoke study execution and the PFMEA remains in-progress to ensure all hazards identified through design and process challenges are captured within the risk assessment.

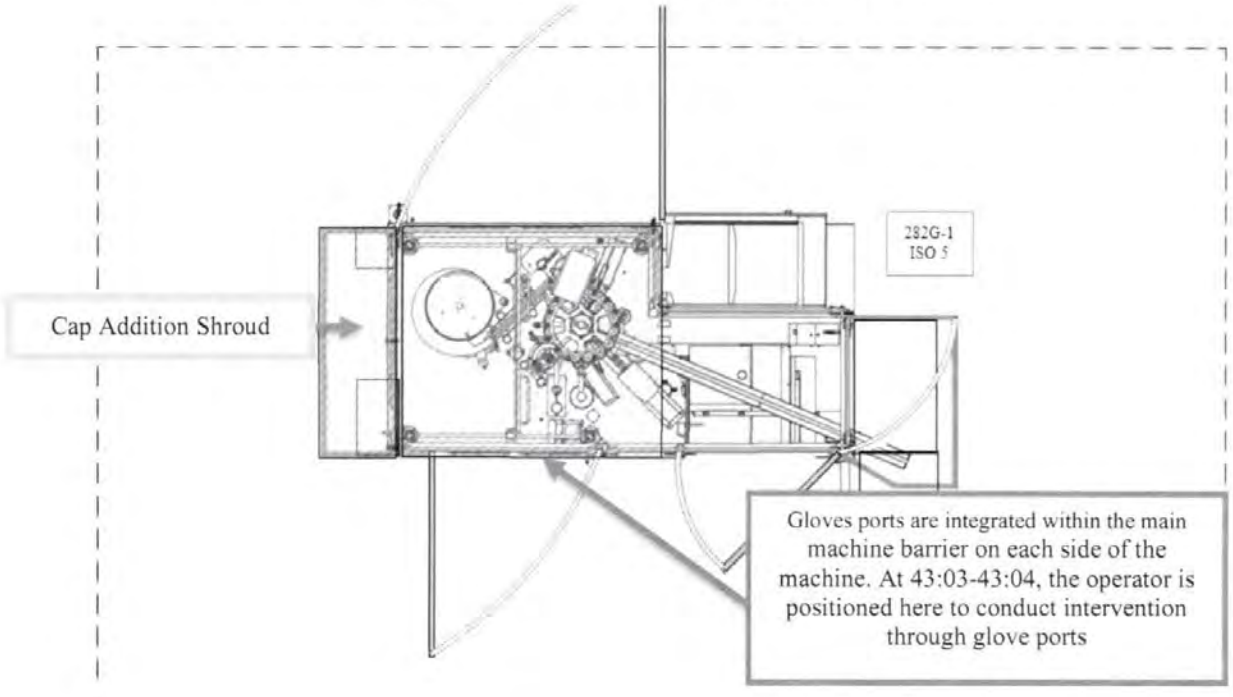
OBSERVATION 2 B:

Aseptic processing areas are deficient regarding the system for monitoring environmental conditions.

B. Your firm's personnel monitoring program does not include all areas of the gown or body that may contact critical surfaces during operations. For example, the operator's forearm, identified by your firm as a frequent recovery site, is not routinely sampled when loading caps on the Bausch 515 Automated Syringe Filler (Equipment ID / NID # NOF 01117) in Room 282 (BART Syringe Filler). Your firm failed to established and follow an adequate personnel monitoring program designed to detect contamination on high-risk operator surfaces in proximity to aseptic operations. For example, during review of smoke study footage for the Bausch 515 Automated Syringe Filler (Equipment ID / NID # NOF-01117) in Room 282G (BART Syringe Filler) at time point 43:03-43:04, we observed the top of the operator's forearm contacting the underside of the operator contact barrier, which separates the operator from the ISO 5 critical zone. This location is not included in your firm's routine personnel monitoring program.

Your firm's management acknowledged that the forearm is a common recovery site of objectionable organisms. Despite this, your personnel monitoring program does not include routine sampling of this point on the forearms, and the contact surface itself is excluded from your environmental monitoring and cleaning programs.

Your firm failed to implement an adequate personnel monitoring program to identify and control microbial risks associated with operator interactions at the barrier system. These deficiencies create an unacceptable risk of microbial contamination to sterile drug products and undermine sterility assurance and patient safety.



RESPONSE 2B:

Nephron disagrees with any perceived deficiencies in personnel monitoring "create an unacceptable risk of undetected microbial contamination of sterile drug products administered and undermine sterility assurance and patient safety" as BART is not currently used in commercial production as it is currently under qualification. Following review of dynamic airflow visualization study video, the inspectors expressed concern for the outside of operator sterile sleeves may, theoretically, touch the bottom of the barrier surrounding the cap addition shroud while loading caps. However, Nephron does not believe this concern is reflected in at the timepoint referenced in this observation (43:03-43:04) as no operator was present in the cap addition shroud. An intervention was occurring through glove ports at this time which could not result in contact to the underside of the operator contact barrier (see images below).

Figure 2.B-1: Smoke Study Video Provided at 43:04

Figure 2.B-2: Overview Map of 282G-1

Operators are within cap introduction shroud at timepoints 33:53- 34:32 in the provided smoke study video. As noted in response to observation 2.A, based on the angle of the smoke study video, confirmation of physical contact cannot be definitively determined.

Additionally, the inspectors repeatedly declined Nephron offer to view operation of the updated BART machine process in-person.

Personnel monitoring locations currently include the following locations:

- Right sterile glove fingertips
- Left sterile glove fingertips
- Inside forearm of right sterile sleeve
- Inside forearm of left sterile sleeve
- Chest – zipper of gown
- Top of hood
- Side wall of goggles where strap connects

These sites were determined through a Personnel Monitoring Program Assessment prepared for the previous BART process, prior to the addition of the two new shrouds for component addition. Through this assessment, the involvement of cleanroom personnel was assessed per each applicable process and personnel monitoring site locations on the gown of operators were determined. In order to dispense caps in the previous process, the aseptic machine operator forearm and glove entered the environment within the 515029 machine, as there was only one barrier around the filling operation in the previous process. The operator sterile gloves and sterile sleeves now only enter the new component addition ISO-5 shrouds and no operator gowning enters the area where sterile product is exposed during filling operations. The monitoring sites determined based on the previous process are still applicable and appropriate to the new process because operator sterile gloves and sleeves enter the component addition shrouds, however additional protection is provided for the filling process because it is now physically separated from operator gowning and only accessible through integrated glove ports during production operations.

Per PQ-464C *Addendum to Environmental Monitoring Performance Qualification for Suite 282 (BART)* (Attachment 39) and the Personnel Monitoring Program Assessment, personnel operating within the ISO 5 515029 BART filling machine, prior to leaving the cleanroom suite or upon conclusion of operations, must perform personnel monitoring on all gown sites listed within the Personnel Monitoring Program Assessment and personnel monitoring of the gloves and forearms prior to doffing gloves and sleeves for any reason.

For clarification, Nephron management did not acknowledge the forearm is a common site for recovery of objectionable organisms as objectionable organisms are **not** frequently recovered from the forearm of BART operators. Since re-design, there have been 0 recoveries from forearms of operators within the ISO 5 282G area. Across the entire site within the last 12-month period, there have been 13 recoveries out of 12099 samples from the forearms in an ISO 5 area for a contamination recovery rate (CRR) of 0.11% which is within the limit of <1% per USP <1116>. This demonstrates personnel monitoring of forearms is within a state of control. Alert and action levels are established for all microbial monitoring according to SOP-SC-MB-4511, *Environmental and Personnel Monitoring* (Attachment 18).

The action limit for the ISO-5 area is ≥1 colony forming units (CFU) and all recoveries in ISO 5 areas are investigated to determine the root cause of the environmental monitoring (EM) excursion per SOP-SC-MB-6204, *Microbiological Excursions and Investigations* (Attachment 31).

Immediate Actions:

During the inspection, Nephron clarified the BART syringe filler is not commercially active and is currently under qualification. The completed risk assessment for the environmental monitoring performance qualification was provided to inspectors on 8/13/2025 in addition to the Quality Risk Management Plans for the Design Failure modes and Effects Analysis (DFMEA) and the Process Failure Modes and Effects Analysis (PFMEA). The risk analysis phase of the DFMEA was completed prior to smoke studies.

OBSERVATION 3.1:

There is a failure to thoroughly review the failure of a batch or any of its components to meet any of its specifications whether or not the batch has already been distributed.

Specifically,

3.1 You have failed to determine root cause and implement effective corrective action for cracked media plates used for environmental monitoring (EM) analysis. You first identified this issue on 02/14/2024, where it then became an ongoing issue. In February of 2025, you initiated and closed a Corrective Action/Preventative Action (CAPA) without determining the root cause. Since closure of the CAPA, you have generated approximately nine (9) additional cracked plate events. Additionally, during 02/14/2024-02/25/2025 you generated approximately 87 events where you discarded media plates largely to include personnel monitoring samples that were collected to document the environmental conditions for media fills and the production of sterile drug products.

RESPONSE 3.1:

This Observation is specific to the 503B Outsourcing Facility and is referenced as a "repeated observation from the inspection performed 01/29/2024 – 02/09/2024." However, the Form FDA 483 issued in February 2024 did not include any observations related to a failure to thoroughly review the failure of a batch or any of its components to meet any of its specifications (21 CFR § 211.192). An internal review confirmed corrective and preventive actions have been put into place following investigations related to cracked media plates used for environmental monitoring (EM) analysis. Quality Event Project Record, PR# 1031030 (Attachment 42) was initiated for a damaged personnel monitoring (PM) sample had been submitted to the Microbiology Laboratory with damage to the surface of the agar. The event identified sampling technique was the root cause of the event. Based on this finding, Corrective Action/Preventive Action (CAPA) projects 1031440 and 1031442 (Attachment 43 and 44) were initiated to add supplemental oversight to the program and create a sampling visual aid which is captured in a work instruction document, WRK-SC-MB-4511-I, *Personnel Monitoring Work Instruction* (Attachment 45). After implementation, the occurrence rate of damaged plates being submitted to the laboratory decreased. Refer to Attachment 46 (CAPA Summary Table). Based on these findings, the ability to prevent and detect cracked plates prior to incubation has been effective as evidenced by the low rate of occurrence.

In response to the 87 events where plates were submitted to the laboratory damaged, the topic was escalated to Microbiology and Quality Assurance Management, and quality events were initiated to investigate the samples. The samples were not processed for incubation per WRK-SC-MB-6220-C, *Sample Incubation Decision Tree,* Version 1.0, Section 1.2.1 which stated, "Samples that are significantly damaged, mishandled, or exposed to non-cleanroom conditions should not be incubated." During the investigations opened for these events, assessments were conducted per SOP-SC-QA-1220, *Deviations and Investigations.* The impact for each sample was assessed based on the sample type, role of the technician if the samples were personnel monitoring, and proximity to the aseptic process. A summary of these events was provided in Action 254 during the inspection (Attachment 47).

The incubation process was updated in February 2025 to process all samples for incubation regardless of damage to the agar, and the sampling process was updated to instruct personnel to inspect samples in the cleanroom and re-sample in the event damage is observed. Both the original sample as well as the additional sample are retained and processed through incubation. These updates were captured in SOP-SC-MB-4511, Environmental Monitoring, version 49.0.

Nephron acknowledges there have been nine (9) additional observations of cracked media plates since implementation of these corrective actions. In response to this observation, an investigation was opened under DEV-0000124 to complete an evaluation of historical events to review the occurrences and conduct a holistic investigation to determine root cause and an impact assessment. Through investigation it was determined corrective actions have been effective at reducing the observations of damaged plates being submitted to the Microbiology Laboratory for incubation. While this is the case, additional corrective actions have been put into place through procedural revisions as outlined above. At this time, any observation of damaged samples is escalated per SOP-SC-MB-6220, *Environmental Monitoring Incubation and Enumeration (Attachment 48)* and WRK-SC-MB-6220-C, *Sample Incubation Decision Tree (Attachment 49)*. This ensures visibility and investigation into these events as necessary.

Immediate Actions:

On August 19, 2025, Nephron provided documentation to the investigator demonstrating the decrease in events of plates identified to be damaged prior to incubation. Refer to Action 254 (Attachment 47). This documentation included a spreadsheet which detailed the root cause and conclusion of impact assessment for each investigation conducted. A storyboard presentation, in PowerPoint format, describing each event was provided to the investigators.

As a result of these investigations, multiple corrective and preventive actions were put into place to mitigate the occurrence of damaged plates. These corrective actions, detailed in the storyboard, and provided within Action 254 to the investigator, demonstrated the decrease in number of events from February 2024 through August 2025. These documents were discussed with the Nephron SME on August 19, 2025.

During investigation (DEV-0000124), two root causes were identified. The first, a gap was identified in the robustness of media qualification, and lack of clarity for the sample transport process. Remel media has not been sufficiently challenged for extended LFH exposure or storage in the cleanroom once opened. While QC testing including sterility and growth promotion testing confirmed baseline suitability, the media has not been sufficiently challenged for extended LFH exposure, opened sleeve storage.

The second root cause was identified that the CAPA actions from CAPA PR# 1032568 were not effectively implemented to prevent damage of samples during transport to the Microbiology laboratory after sampling prior to incubation.

Impact Assessment:
The impact of these deficiencies is limited to environmental monitoring results and does not extend to product quality. Since February 2025, all plates, including those with visible damage, have been incubated to ensure recovery of any potential microorganisms and maintain the integrity of environmental monitoring data. No adverse impact to product sterility assurance has been identified, as incubation of all samples provides assurance that microbial recovery would not have been compromised by surface damage to the agar. Contributing factors such as personnel technique during sampling and localized airflow conditions were identified as secondary influences but do not represent systemic gaps in aseptic control.

The samples reported to be damaged prior to 02/14/2025 that were not incubated were assessed through independent investigations and were considered "missing samples". The impact of the missing samples was evaluated through each of these investigations. Those events were evaluated based on the type of sample, location of the sample, and potential impact of that sample on the associated product lot if applicable. After procedural revision on 02/14/2025, all plates, including those with visible damage, were processed for incubation.

From February to August 2025, 112,778 EM samples were collected, with only 9 cracked plate events (0.01%). Sterility assurance and EM program sensitivity were not compromised. The long- and short-term EM/PM trend indicates this remains under the CRR limit required per USP <1116> (CRR <1% for ISO 5 and <5% for ISO 7). Historical results remain valid as QC and growth promotion testing confirmed media suitability.

Corrective and Preventive Actions (CAPA-0000053, *Definition of Sample Transport Process for EM and PM Samples* due October 27, 2025, and CAPA-0000052, *Incorporation of Media Qualification Plan* due December 31, 2025 (Attachment 51 and Attachment 50))

A review of environmental monitoring (EM) media qualification revealed that while key parameters such as hold times, exposure durations, and incubation ranges have been studied and qualified, not all aspects were fully addressed (e.g., opened container storage, desiccation, and moisture loss).

The following commitments will be captured through Corrective Action/Preventive Action CAPA-0000052, and CAPA-0000053:

- MPL-SC-MB-0110, *Method Validation Master Plan*, will be revised to include detailed onboarding requirements for EM media, and a formal qualification protocol will be executed to close the identified gaps. Preventive measures, including a qualification matrix, protocol-driven onboarding of new media, and periodic review, will ensure long-term control. Effectiveness will be verified through documentation audits and trending of EM data post-implementation.
- The transport process will be redefined through procedural updates to clarify storage and transport of samples within the cleanroom.

The Microbiology EM program is used for regular monitoring of the manufacturing environment, surfaces, and personnel on a pre-determined frequency. The EM data collected from these activities are trended on a short-and long-term basis to demonstrate environmental and personnel controls per SOP-SC-MB-6265 (Attachment 52), *Environmental Action Committee*, and SOP-SC-MB-4516, *Environmental Monitoring Quarterly Trend Report* (Attachment 53). Additionally, the EM and Personnel Monitoring (PM) Alert and Action Limits allow responses individual events based on their severity, and each response includes an assessment regarding the impact of these events upon product quality to ensure patient safety. The long and short-term trending of this area and surrounding spaces indicates a contamination recovery rate (CRR) of <1% for ISO 5 spaces, <5% for ISO 7 spaces established by USP <1116>.

OBSERVATION 3.2:

There is a failure to thoroughly review the failure of a batch or any of its components to meet any of its specifications whether or not the batch has already been distributed.

Specifically,

3.2 You have not determined suitability of your EM sampling process of using settle plates as opposed to RODAC contact plates for performing personnel fingertip monitoring. This change was implemented on 05/14/2025 in response to the cracked/damaged media places on-going issue that was identified 02/14/2024.

RESPONSE 3.2:

The use of 90 mm Tryptic Soy Agar (TSA) plates for personnel monitoring was assessed through Change Record CR# 12505 (Attachment 54), closed on May 17, 2024. The 90 mm settle plates currently used for glove plating were selected for the larger surface area allowing for greater ease of sampling for personnel gloved fingertips, as well as reduce potential for inadvertent contact with the agar during the sampling process. These changes were made to comply with the guidance in the 2022 EU Annex 1, *The Rules Governing Medicinal Products in the European Union Volume 4 EU Guidelines for Good Manufacturing Practice for Medicinal Products for Human and Veterinary Use*—not "in response in response to the cracked/damaged media plates on-going issue" as stated in the observation.

Immediate Action

During the inspection on August 15, 2025, Nephron provided the documented assessment from QIP-23-001 (Action 199, see Attachment 56), completed August 1, 2024. The EM program was evaluated to identify improvements against industry standards including FDA Guidance for Industry, *Sterile Drug Products Produced by Aseptic Processing – Current Good Manufacturing Practice*, United States Pharmacopoeia (USP) <797> *Pharmaceutical Compounding – Sterile Preparations*, USP <1116> - *Microbiological Control and Monitoring of Aseptic Environments*, USP <1117> *Microbiological Best Practices*, Parenteral Drug Association (PDA) Technical Report No. 13 – *Fundamentals of an Environmental Monitoring Program*, PDA Technical Report 77 – *The Manufacture of Sterile*

Pharmaceutical Products Using Blow Fill Seal Technology, and EU Annex 1 *The Rules Governing Medicinal Products in the European Union Volume 4 EU Guidelines for Good Manufacturing Practice for Medicinal Products for Human and Veterinary Use.*

The current PM process aligns with the requirements outlined within the 2022 EU Annex 1, *The Rules Governing Medicinal Products in the European Union Volume 4 EU Guidelines for Good Manufacturing Practice for Medicinal Products for Human and Veterinary Use.* This change was not made in response to the damage observed during sampling, but rather to complete process improvements as outlined by the assessment provided. Additionally, the events provided in the summary for Action 254 (Attachment 47) associated with the damaged plates also included samples collected using the smaller RODAC style plates, demonstrating the damage is not solely isolated to the use of the 90 mm contact plates.

A rationale document was provided detailing the justification and rationale for use of the 90mm TSA plates for personnel monitoring in Action 199. The documents related to the suitability determination for use of settle plates for gloved fingertips were requested and provided, however were not reviewed or discussed with Nephron during the inspection.

Within the Personnel Monitoring (PM) Program Assessment, it is explained the selection of the 90 mm agar plates was made to mitigate inadvertent contamination during sampling, and reduce the potential the same point on the agar surface is contacted multiple times during the sampling process (Action 199, see Attachment 56). Additionally, within the media assessment provided, the composition of the Settle Plate medium was compared to the RODAC contact plate medium and found to have the same basic composition with exception of the lecithin and polysorbate 80. As the 90 mm plates are only used in personnel monitoring to collect glove samples, there is no need for a neutralizer as gloves are not sanitized with disinfectants leaving cleaning residue.

Impact Assessment

Based on the review of the current media types and sampling process implemented at Nephron, there is no further action required. Rationale for the selection of the 90 mm TSA settle plates was reviewed and found to be sufficient for use in monitoring of personnel gloves. The current process is compliant with the above-mentioned industry standards and practices.

OBSERVATION 3.3:

There is a failure to thoroughly review the failure of a batch or any of its components to meet any of its specifications whether or not the batch has been already distributed.

Specifically,

3.3 You inappropriately invalidated a stability sample at T0 for sterility for Provo choline (Methacholine chloride) Solution for inhalation 3 mg/mL Lot #: 324261 Expiration: 07/31/2025. After incubating the SDA canister at 20-25C for one (1) day, you identified turbidity and thereby stopped the incubation process to proceed with subculturing for

microbial identification. After failing to obtain viable growth on the subcultures, your quality unit concluded the turbidity observed die not contain viable microorganisms and ultimately invalidated the original sample without determining root cause of the turbidity. Per your written procedure MTM-SC-MB-6308 entitled, 'Sterility Test Procedure' Revision: 39 effective 18-APR-2025, which is written based on USP <71>, samples are only invalidated for the four (4) reasons:

a. 'The data of the microbiological monitoring of the sterility test environment shows a fault

b. A review of the testing procedure used during the test in question reveals a fault

c. Microbiological growth is found in the negative controls

d. Upon determination of the identity of the microorganisms isolated from the test, the growth of the species isolated may be ascribed unequivocally to faults with respect to the material and/or the technique used in conducting the sterility test.

Per your Director of Microbiology, the invalidated sample did not fall within any of these conditions.

RESPONSE 3.3:

An internal review confirmed the sterility test for Lot#: 324261, Provocholine (methacholine chloride) Solution for Inhalation 3 mg/3 mL (1 mg/mL), Stability station zero-month, semi-permeable room temperature, vertical orientation (0M SRT VERT), was invalidated based on procedure and USP <71> *Sterility Tests*. Per the written procedure, MTM-SC-MB-6308, *Sterility Test Procedures*, Version 39.0, (Attachment 57) which is written based on guidance in USP <71>, the test may be considered invalid only if one of the following conditions is met:

a. "The data of the microbiological monitoring of the sterility test environment shows a fault.
b. A review of the testing procedure used during the test in question reveals a fault.
c. Microbial growth is found in the negative controls.
d. Upon determination of the identity of the micro-organisms isolated from the test, the growth of the species isolated may be ascribed unequivocally to faults with respect to the material and/or the technique used in conducting the sterility test."

The sterility test tryptic soy broth (TSB) canister for Lot#: 324261, 0M SRT VERT, did not complete the required incubation timeframe of NLT 14 days, per USP <71>, and presence of microbial growth was not confirmed; therefore, the event was deemed as a fault in following the test procedure. At the time of the event, management considered the test invalid per condition (b) listed above, which was explained to the inspectors by the Director of Microbiology. This decision prompted a confirmatory testing plan as part of the laboratory investigation, Microbiology excursion report #: NPC-ER-MQC-23-025 (Attachment 58), to repeat a sterility test with the same number of units as used in the original test for Lot #: 324261, 0M SRT VERT. No evidence of microbial growth was found in the repeat test, and the acceptable results were reported for product sterility.

A point of clarification, the FDA 483 Observation 3.3 has a typographical error on Line 3. Line 3 states, 'After incubating the SDA canister at 20-25°C for one (1) day, you identified turbidity…' The impacted canister was a TSB canister. This error has no

impact on the resulting investigation and response following issuance of the Observation 483.

Immediate Actions:

During the FDA inspection on August 18, 2025, Nephron explained the laboratory investigation NPC-ER-MQC-23-025 was closed after multiple subculture attempts confirmed no growth. The anomaly was reported as turbidity due to limitations in the electronic documentation system. Finished product sterility results and retest results from the same lot were provided to auditors in support of the disposition decision. The inspectors observed:

- The investigation was prematurely closed without escalation to perform a manufacturing investigation
- Full characterization of the anomaly was not performed.

Nephron recognizes there was a failure to thoroughly identify the root cause which led to invalidation of the sterility test for Lot#: 324261, 0M SRT VERT. Sterility testing is designed to determine whether there is microbial contamination within product samples purporting to be sterile examined under the conditions of the test. The test procedure by itself is not intended to ensure a batch of product is sterile; however, it is one of many quality attributes to be evaluated prior to product release. Sterility assurance of a batch is primarily accomplished through adherence to established aseptic processing procedures. Nephron acknowledges there was a failure to conduct a thorough review of the aseptic manufacturing processes. A manufacturing investigation should have been immediately initiated upon being alerted to abnormal sterility test results, whether or not the batch had been distributed.

In response to this observation, Nephron opened a new investigation to conduct a thorough, retrospective assessment regarding the deficiencies surrounding this event (DEV-0000125, *Inspection Observation: Inappropriate Invalidation of Stability Sterility Sample*). The investigation focused on the following:

1. Invalidation of the original sterility test due to pre-mature removal of the inconclusive stability sterility test sample from incubation.
2. Misclassification of abnormal particulate within medium as "turbid".
3. Failure to conduct a manufacturing assessment or investigate the root cause of particulate.

Lot#: 324261, Provocholine (methacholine chloride) Solution for Inhalation 3 mg/3 mL (1 mg/mL), Mfg Date: 08/25/2023, Exp. Date: 07/31/2025, was inducted into the Nephron Stability program as part of a Post-Market Stability Study to provide documented evidence and assurance supporting the product approved shelf-life. Finished product release testing for Lot#: 324261, including sterility testing, was completed and all laboratory test results verified to meet specification criteria.

Upon identifying the abnormality during the day one (1) evaluation of sterility test samples for Lot#: 324261, 0M SRT VERT, the TSB canister was promptly removed from incubation and immediately subcultured using various media types (SDA, TSA, and SBA) to confirm or dispute presence of microorganisms. Delaying subculture may compromise microorganism

viability; therefore prompting actions for immediate incubation removal and subculture attempts of the impacted sample. The subcultured plates were incubated for an additional three (3) days, and no microbial growth was obtained. Through the investigation, evidence including photographs, interviews, and subculture results, supported the sample was improperly removed from incubation. Therefore, the sample did not meet the test criteria in accordance with USP <71> and MTM-SC-MB-6308, *Sterility Test Procedures* (Attachment 57). The incident was not a true sterility test out-of-specification. Visible particulate was incorrectly classified as "turbid" during canister evaluations following sterility testing of Lot#: 324261, 0M SRT VERT. This incorrect classification led to premature test termination, an inaccurate OOS alert, and then inappropriate invalidation without proper investigation and root cause determination of the foreign matter, as was explained by the Director of Microbiology during the inspection. Using the 6M root cause analysis tool, material, machine, measurement, and mother nature, in relation to both manufacturing and testing processes, were ruled out as potential root causes. The root cause for the incident which led to the sterility test being invalidated, was attributed to deficiencies in Method. Man was deemed a contributing factor.

Sterility testing is designed to determine whether there is microbial contamination within product samples purporting to be sterile examined under the conditions of the test. The test procedure by itself is not intended to ensure a batch of product is sterile; however, it is one of many quality attributes to be evaluated prior to product release. Sterility assurance of a batch is primarily accomplished through adherence to established aseptic processing procedures. Sample contamination due to foreign particles can occur during the production or testing processes, if procedures are not appropriately established and followed. Review of the manufacturing batch record for Lot #: 324261 does not indicate production processes were not followed. Prior to sterility testing of Lot#: 324261, 0M SRT VERT, the finished product sterility testing and all results met release specifications. Additionally, sterility testing has been completed for Lot #: 324261 at the following additional stability time points: 6-month, 12-month, 18-month, and 21-month expiry, and all results conformed to test specifications. Review of the Quality Complaint Logbook, demonstrated there were no complaints received for Lot#: 324261, or for the other Provocholine stability lots tested on 10/22/2023. There is no potential impact to patient safety as subsequent sterility testing and other release testing specifications were met prior to product release. As an interim control, the currently implemented sterility procedure requires an excursion report to be initiated in accordance with SOP-SC-MB-6204, *Microbiological Excursions and Investigations* (Attachment 31) for any positive sterility result. All positive results require escalation to QA management in daily escalation and review meetings.

Impact Assessment

Sterility testing is one of many quality attributes to be evaluated prior to product release. Sterility assurance of a batch is primarily accomplished through adherence to established aseptic processing procedures. The sterility test is designed to determine whether there is microbial contamination within product samples purporting to be sterile examined under the conditions of the test. The test procedure by itself is not intended to ensure a batch of product is sterile; however, it is one of many quality attributes to be evaluated prior to product release. Sterility assurance of a batch is primarily accomplished through adherence to established aseptic processing procedures. Sample contamination due to foreign particles can

occur during the production or testing processes, if procedures are not appropriately established and followed. Review of the manufacturing batch record for Lot #: 324261 does not indicate any lapses in adherence to production processes. According to the BFS Hazard Failure Mode and Effects Analysis (FMEA) report RA-CCS-NPC-24-001-R1, performed as part the Contamination Control Strategy, potential failure modes and causes associated with the potential failure effect of Particle Contamination were evaluated as part of the investigation. Upon evaluation of each mode and cause, it was determined that there was no evidence of the presence of any failure mode during production of Lot#: 324261 which would have generated or increased the risk of the generation of particulate matter during filling operations. Finished product release testing for Lot#: 324261, including sterility, met all test specifications. All tests performed throughout the stability study, and up to expiry, have yielded results that met specifications. Sterility testing has been completed thus far for Lot #: 324261 at the following additional stability time points: 6-month, 12-month, 18-month, and 21-month expiry. Review of the Drug Product Quality Complaint Logbook demonstrated there were no complaints related to microbial or particulate contamination received for Lot#: 324261, the other Provocholine stability lots tested on 10/22/2023, nor for the Provocholine Kit Lot into which this component lot was packaged (Lot#: 373401). Additionally, a Retain Inspection of three (3) outer cartons from Kit Lot#: 373401 was performed on 08/12/2024 in accordance with SOP-SC-QA-3251, Version 14.0, *Finished Product Annual Examination of Retained Samples*, and no defects were identified for any vials within these outer cartons. A historical review of the past two (2) years of sterility test results indicate besides this event, there was only one sterility failure reported, which was invalidated because upon determination of the identity of the microorganism isolated from the test, the growth of the species isolated was ascribed unequivocally to faults with response to the material/technique used in conducting the sterility test. A 2-year review of Nephron's change control management systems demonstrated there were no other investigations opened for sterility test failures, no invalidated out-of-specification sterility test results, and no particulates related to sterility testing. Historical review supports this is an isolated event and no systemic issues were identified. There is no potential impact to patient safety as subsequent sterility testing and other release testing specifications were met prior to product release.

As an interim control, the currently implemented sterility procedure requires an excursion report to be initiated in accordance with SOP-SC-MB-6204 for any positive sterility result. All positive results require escalation to QA management in daily escalation and review meetings.

Corrective and Preventive Actions (CAPA-0000043, *Sterility Testing Training and Related Procedure Updates*, Due Date: 10/10/2025 Attachment 59)

Nephron has committed to the following corrective and preventive actions:

1. Revisions to MTM-SC-MB-6308, *Sterility Test Procedures*, as outlined below, with a target completion date of October 3, 2025.

- Include the requirement of photographs taken against a contrast board with a negative control as a comparison in the event of an abnormal, inconclusive, or turbid sample is found.
- Define a subculture process for suspected turbid canisters.
- Clarify results which are to be classified as inconclusive with a defined process for canisters with suspected non-viable particulate. Outline and further define the process of evaluating an abnormal result, which includes leaving the canisters in incubation for the full 14 days.
- Prior to initial incubation, require personnel to evaluate the test samples against the negative control for any abnormalities.
- Update FRM-SC-MB-1661-R, *Certification-Sterility Test Procedures (14-Day Sterility Test)* to make the training process more robust for evaluating liquid media as part of sterility testing evaluations.

2. Revisions to SOP-SC-MB-6204, *Microbiological Excusions and Investigations,* as outlined below with a target completion date of October 6, 2025.
   - Define an escalation process in the event of a sterility failure, including but not limited to, the immediate initiation of a laboratory investigation and manufacturing investigation simultaneously.
   - Outline required steps for proper laboratory investigation actions for a sterility test result, including steps to identify a particle if the abnormality is non-microbial in nature.
   - Revisions to SOP-SC-QA-1220, *Deviations and Investigations* – Target completion date: 10/06/2025 Define if an excursion report is initiated due to an abnormal product sterility test result, a manufacturing investigation will be initiated in tandem with an excursion report.

Through procedural revisions, enhanced documentation practices, and retraining of staff, Nephron will strengthen sterility testing oversight and ensure robust compliance with regulatory standards for sterility assurance and product disposition.

OBSERVATION 4.1:

Your firm failed to establish adequate written procedures for production and process controls designed to assure that the drug products have the identity, strength, purity, and quality that they are purported or represented to possess.

Specifically,

1. Your firm's visual inspection methods used for inhalation products are inadequate. Currently, this inspection process for visible particulates, discoloration or turbidity, a critical defect, includes inspecting 50 blow fill seal (BFS) units per hour and AQL sampling at level 0.065%. Your process has not been validated to ensure your inspection method can adequately detect these defects in all products effectively across all inspectors. In 2025, you generated approximately five (5) defects generated for particles, cloudy, white specks, and dark particles.

RESPONSE 4.1:

An internal review confirmed procedures and training for inspection of visible particulates, discoloration, and turbidity are established and in place.

The observation also references "approximately five defects recorded in 2025." Of these, three were suspension products and two were inhalation solutions. Each case was captured through the Nephron quality complaint system, investigated, and resolved with CAPA where appropriate. None of these cases posed a risk warranting recall or market action. The limited number of events reflects isolated, case-specific issues already addressed through routine complaint handling and inspector training, not a systemic weakness of the visual inspection method.

Immediate Actions:

During the inspection, Nephron provided investigators with procedures (including, SOP-SC-QA-5202, *Finished Product Attribute Inspection*), complaint records, batch records and COAs (Actions 181, 212). Additional requested materials, including photographs of die-gap cleaning activities and a storyboard of particulate-related complaints with associated investigation summaries, were generated in real-time to aid in the discussion (Actions 266 and 268). Nephron staff explained the derivation of AQL sample sizes, categorization of defects, and the regulatory distinction between inhalation solutions governed by USP <5> and parenteral products governed by USP <790>. Investigators were reminded multiple times by Nephron SMEs that USP <5> does not mandate 100% unit-by-unit inspection but instead requires that particulate matter be "adequately controlled." Inspectors walked through ANSI based sampling plans, live demonstrations and supporting documentation reinforcing the controls in place for inhalation solutions.

In response, Nephron initiated CAPA-0000047 *Inspection Finding for Inspection of Inhalation Products* (Attachment 59) immediately following inspection to formally capture the FDA's concern and strengthen the inspection program. This CAPA is preventive in nature, as the review confirmed no systemic defect patterns and no impact to distributed

product. Nephron acknowledges that attribute-based visual inspection is inherently probabilistic; therefore, effectiveness must be demonstrated through controlled conditions, qualified inspectors, and data-driven verification of detection capability across products and inspectors. These principles, reflected in USP <1790>, are addressed in our CAPA commitments below.

Impact Assessment:

An evaluation was conducted on the BFS inhalation attribute inspection program. The review confirmed:

- No systemic sterility or data integrity risk; complaints were isolated and fully investigated with CAPA where appropriate.
- Low frequency of complaints over nearly a decade of monitoring; events were isolated and sporadic, with no systemic trends identified.
- Attribute inspection results are monitored throughout production in accordance with SOP-SC-QA-5202, *Finished Product Attribute Inspection* (Attachment 60) with defects documented in batch records and, when applicable, on FRM-SC-QA-5202 forms, tracked and trended under SOP-SC-QA-1104, *Responsibilities of the Quality Unit* (Attachment 61). Additional safeguards include complaint trending and QA oversight.

This assessment reflects the same explanation provided to inspectors onsite. QA's multi-tiered complaint investigation process and ongoing monitoring were clarified as the governing mechanisms for ensuring that all inspection-relevant events are detected, evaluated, and documented prior to batch disposition. The low frequency of isolated complaints supports that the program is in a state of control, with FDA's observation highlighting an opportunity for preventive enhancement rather than correction of a systemic failure. Based on this evaluation, the cited defects present no risk to product quality, sterility assurance, or patient safety.

Corrective and Preventive Actions (CAPA 0000047, *Inspection Finding for Inspection of Inhalation Products*, due 1/30/2026) (Attachment 59):

To ensure the robustness of our inspection program and eliminate any ambiguity, Nephron has initiated preventive CAPA-0000047 to drive enhancements that strengthen inspector qualification and documentation, targeted for implementation by January 30, 2026.

1. **Enhancements to Inspector Qualification Program**

   Nephron recognizes that for inhalation solutions, USP <5> requires particulate matter to be adequately controlled and does not mandate 100% inspection. The attribute inspection program has historically ensured this control, as evidenced by low complaint rates and no recalls. To further strengthen assurance, the inspector qualification program will be enhanced to incorporate expanded challenge sets (covering particulates, discoloration, turbidity, and other relevant attributes), representative workload simulations, and defined requalification triggers (e.g., annual, extended absence, process change, complaint/audit

signal). Qualification standards will be established to demonstrate consistent detection capability across inspectors while maintaining appropriate controls on false rejects.

Principles described in USP <1790>, such as use of calibrated standards and probability-based assessment, may be applied, as appropriate, to ensure inspector capability is scientifically demonstrated under representative conditions.

2. **Procedure Revisions and Documentation Enhancements**
   SOP-SC-QA-5202, *Finished Product Attribute Inspection* will be revised to clarify defect classifications, expand the illustrated defect library, and codify inspection environment requirements (illumination range, backgrounds, rotation technique, dwell time). Setup verification will be logged in batch records for consistency. The procedure will also strengthen traceability by linking inspector qualification identity and date to batch/QA documentation. Complaint and inspection reject trending will be performed quarterly to ensure that challenge sets remain representative and current.

3. **Training and Demonstration of Performance**
   A focused training and qualification program will be implemented to reinforce expectations for both Operations and QA personnel. Effectiveness will be confirmed through practical proficiency checks using challenge sets, under controlled conditions, ensuring training is not only delivered but also demonstrated through measurable performance outcomes.

4. **Effectiveness Verification**
   QA will conduct an annual review of qualification data, complaint trends, and inspection results to confirm the enhanced program is functioning as intended. Should thresholds not be met, or should trending identify a gap, escalation through the CAPA system will be required.

Clarification on "Five Defects"

As noted above, the five defect cases cited in the observation correspond to individual complaint events, each investigated, documented, and closed with appropriate corrective actions. Three of these cases involved suspension products, where the presence of white specks or cloudy appearance reflects inherent suspension characteristics rather than evidence of inadequate inspection controls. These were not systemic inspection failures but isolated cases already incorporated into complaint trending and risk analysis. Complaint summaries and investigation reports are maintained in the quality system and were provided during inspection for review, and remain available upon request.

Given the probabilistic nature of visual inspection, the rare occurrence of isolated complaints is not, by itself, indicative of a systemic failure; trending and life-cycle feedback are used to drive prevention and continuous improvement, consistent with USP <1790> §1.3.

During the inspection, Nephron also provided the FDA with a written interpretation memo clarifying the regulatory basis under USP <5> for inhalation solutions (Attachment 62). This position, combined with the CAPA commitments outlined above, ensures the program remains aligned with compendial requirements and evolving expectations.

Accordingly, Nephron respectfully submits that the inspection program for inhalation products remains in a state of control, with preventive enhancements in CAPA-0000047, ensuring continued alignment with compendial and regulatory expectations, thereby sustaining patient safety and product quality.

OBSERVATION 4.2:

Your firm failed to establish adequate written procedures for production and process controls designed to assure that the drug products have the identity, strength, purity, and quality that they are purported or represented to possess.

2. You do not have sound scientific justification for not performing visual inspection for identifying particulates, a critical defect in blow fill seal ophthalmic products manufactured in your facility.

RESPONSE 4.2:

An internal review confirmed that Nephron has sound scientific justification documented for performing Particulate Matter Testing as a supplemental test method for detection of particulate matter in the ophthalmic product manufactured at its facility, in compliance with USP <771>, USP <790>, and PDA Technical Report 79.

USP <771> requires 100%-unit inspection for package acceptability for ophthalmic products and directs to USP <1790> when inspection is hindered. USP <1790> explicitly defines BFS containers as examples of difficult-to-inspect products (DIPs), and reference to PDA Technical Report 79 is made for expanded examples of DIP products, including viscous solutions. For DIPs, USP <1790> requires:

- 100% inspection for package/closure defects, and
- Supplemental destructive or alternative particulate testing, since detection probability during routine 100% inspection is reduced

The only ophthalmic drug product manufactured by Nephron Pharmaceuticals is Oxymetazoline Hydrochloride Ophthalmic Solution, 0.1%, a topical ophthalmic. This product is filter sterilized prior to filling on Production Line 26, a Rotary Blow Fill Seal (BFS) machine which uses a closed-parison process to form, fill, and seal the 0.5mL eye drop vials. All vials undergo 100% in-line leak detection via vacuum decay by a Wilco Leak Detector, an automated container closure integrity testing machine, in compliance with USP <1790> requirements for 100% inspection for package/closure defects. All vials which do not pass vacuum decay leak detection testing are rejected and segregated from accepted product.

The product is viscous, with acceptable viscosity between 15 – 35 cPs per FPS-SC-AS-3820, *Oxymetazoline HCl Ophthalmic Solution, 0.1% Finished Product Specification*. Due to viscosity and translucent BFS container, there are two (2) qualifying criteria to be considered DIP per USP <1790> and PDA Technical Report 79, further outlined below.

On June 1, 2022, USP–NF 2022 Issue 3 was published, indicating that USP <771> *Ophthalmic Products —Quality Tests* would be required to adhere to USP <790> *Visible Particulates in Injections* for 100% Visual Inspection to demonstrate that batches are essentially free of visible particulates prior to batch release. In response, Nephron initiated an Equipment/Process change control CR-05451, *Visual Inspection of Oxymetazoline Hydrochloride Ophthalmic Solution, 0.1%* to comply with the chapter updates (Attachment 63). As part of the Engineering Action included in this change control, Process Development Study PD-22-219 was executed to perform a risk assessment to identify potential risks within manufacturing process for ophthalmic products (Attachment 64). The manufacturing process flow and associated potential failure modes are within Figure 1 of the risk assessment summary report (page 4 of PDSR-22-219). Following the execution of risk analysis, the risk evaluation concluded these were low-risk (R1), managed through established controls, and did not warrant process modifications. The risk analysis can be reviewed within Attachment 4 of PDSR-22-219 on pages 22-43.

A blinded threshold study was then conducted within PD-22-226 using potential intrinsic particle types (LDPE, Burnt LDPE, stainless steel, platinum-cured silicone, and silicone, as determined through PD-22-219) across five size bands (100–1100 µm) for a challenge set of 750 eye-drop vials labeled with UV ink to ensure blinded challenge (Attachment 89). The study results showed manual inspectors detected only 39.38% of particle defects (44.11% after excluding one outlier). Only seven of 25 material/size combinations (eight of 25 post-outlier exclusion) achieved the ≥70% probability of detection recommended by USP <1790>. This low detection rate substantiates DIP categorization in accordance with USP <1790>, in addition to the product's viscous solution with the tendency to foam, and the translucent BFS eye drop vial container closure. In summary, the visual inspection challenge confirmed the difficult to inspect nature of the product and container closure "hinders or precludes" the use of USP <790> 100% Visual Inspection methods, as documented in the supporting memorandum (Attachment 65), which provides scientific justification for the supplemental particulate matter control strategy in accordance with USP <1790>.

As a result, a supplemental method was pursued as a result of the findings of PD-22-226. Method Validation Protocol MVP-SC-CTM-6656-001 – *Method Validation of "Particulate Matter Testing of Oxymetazoline HCl 0.1% Ophthalmic Solution"* was executed to validate the use of CTM-SC-AS-6656 (CR-06268) "Particulate Matter Testing of Oxymetazoline HCl 0.1% Ophthalmic Solution" as an alternate method of visible particulate detection ≥90µm, in accordance with USP <1790> and PDA Technical Report 79 (Attachment 66). The results of MVP-SC-CTM-6656-001 were summarized in Summary Report SR-SC-CTM-6656-001, which found that the test was validated successfully with a recovery rate of 91% across all particle types tested, far surpassing the visual inspection detection rate of 44% (Attachment 67). As such, CTM-SC-AS-6556 was implemented under CR-06268, and a new specification, IPS-SC-AS-4219, *Oxymetazoline HCl Ophthalmic Solution, 0.1% WIPS In Process Product Specification* was implemented under CR-06291 to define the testing

requirements to perform Particulate Matter Testing on the product for visible particles (≥90µm), in addition to subvisible particulate matter (≥10µm, ≥25µm, and ≥50µm) testing requirements already in place for finished product (Attachment 68).

JOS-CR-06291-01, *Justification of Specifications for IPS-SC-AS-4219, Oxymetazoline HCl Ophthalmic Solution, 0.1 WIPS In Process Product Specification*, was completed to document the justification of the selection of tests and acceptance criteria included in the specification document (Attachment 69). The testing was based on USP <771> *Ophthalmic Products – Quality Tests*, and an Acceptance Quality Limit (AQL) was set per ANSI/ASQ special inspection S4 for destructive testing with limits in place for particles as a major defect (AQL 0.25). Based on the theoretical yield of 588,235 vials for the 200kg batch, a sample size of 200 vials minimum was selected per lot. As a worst-case approach, 210 vials were required to be tested (70 vials from beginning, 70 vials from middle, and 70 vials from end of lot, and are recorded in the associated batch record.

Immediate Actions:

During the inspection on August 20, 2025, during a tour of Visual Inspection operations, the investigator asked if 100% Visual Inspection was performed on the ophthalmic products produced by Nephron. Nephron Subject Matter Experts (SMEs) explained that 100% Visual Inspection was not performed on the one (1) ophthalmic product produced onsite, as the product was determined to be difficult to inspect per USP <1790> and PDA Technical Report 79. The investigator requested documented justification be provided for this product being deemed difficult to inspect, including photos of the product's container closure. The following morning, the following was provided to the investigator's Box account:

- Action 386 – Documented Justification for Not 100% Visually Inspecting Oxymetazoline Hydrochloride Ophthalmic Solution, 0.1%, including the following documents:
  - CR-05451 Process Change Project Record Report, *Visual Inspection of Oxymetazoline Hydrochloride Ophthalmic Solution, 0.1%* (Attachment 63)
  - Memorandum – Justification for Removal of 100% Visual Inspection of Oxymetazoline Hydrochloride Ophthalmic Solution 0.1% (Attachment 65)
  - JOS-CR-06291-01, *Justification of Specifications for IPS-SC-AS-4219, Oxymetazoline HCl Ophthalmic Solution, 0.1% WIPS In Process Product Specification* (Attachment 69)
  - FRM-SC-QA-1901-A, *Customer for Contract Manufacturing Review and Approval Form* for PDSR-22-226 (Attachment 70)

Upon investigator arrival on August 21, 2025, a filled, physical vial of Oxymetazoline Hydrochloride Ophthalmic Solution, 0.1% was provided to the investigator. The investigator declined to hold or examine the physical vial and clarified the request to be photos of the container closure on a black and white background. After clarification of the expectation of the investigator regarding the container closure photos, the following was provided shortly after the start of inspection activities:

- Action 389 – Photos of Container Closure, including the following:
  - One (1) photo of a five (5) vial card of Oxymetazoline Hydrochloride Ophthalmic Solution, 0.1% on the black background of a Light Booth (Attachment 71)

- One (1) photo of a five (5) vial card of Oxymetazoline Hydrochloride Ophthalmic Solution, 0.1% on the white background of a Light Booth (Attachment 72)

Midday, on August 21, 2025, the investigator asked Nephron SMEs if the requested justification and container closure photos had been uploaded to their Box account. Nephron SMEs confirmed the requested documents had been provided and asked the investigator if they would like to discuss the documents provided. The investigator declined the opportunity to discuss the justification provided, but confirmed receipt of the requested documentation.

In the afternoon of August 21, 2025, the investigator requested the last three (3) years of customer complaints received for the ophthalmic products manufactured at Nephron. Nephron SMEs clarified that the only ophthalmic product manufactured onsite is Oxymetazoline Hydrochloride Ophthalmic Solution, 0.1%, which is contract manufactured. Therefore, Nephron does not own the Abbreviated New Drug Application (ANDA) nor the pharmacovigilance responsibilities for the product. However, it was clarified that Nephron performs manufacturing reviews for Drug Product Quality Complaints received by the ANDA owner to support the completion of their complaint report, in accordance with the associated Quality Agreement. By the end of day on August 21, 2025, the following was provided to the investigator:

- Action 434 – Complaint Log Oxymetazoline Last 3 Years (Attachment 73)

Impact Assessment:

Conclusions are summarized below:

- Translucent 0.5 mL vial and product viscosity/foaming limited the ability to perform 100% visual inspection. See USP <771>, USP <790>, USP <1790>, and PDA Technical Report 79.
- Particulate Matter Testing demonstrated higher detection rates (overall and by particle type/size) than 100% manual visual inspection. See PDSR-22-219, PDSR-22-226, and CR-05451.
- Control Implemented: Particulate Matter Testing adopted as alternate method, aligned with ANSI/ASQ S4 sampling plan with particles classified as a major defect (AQL 0.25). See SR-SC-CTM-6656-001 and JOS-CR-06291-01.

Nephron review confirmed the current implemented approach far surpasses the accuracy of manual 100% Visual Inspection particulate matter detection capability for the drug product. Therefore, there is no impact to the identity, strength, purity, and quality of Oxymetazoline Hydrochloride Ophthalmic Solution, 0.1%.

Process Alignment Actions:

Based on Nephron's manufacturing process, as a continuous improvement effort, SOP-SC-QA-5202, *Finished Product Attribute Inspection* was updated under CR-17363 to include free-floating particulates as a visual defect in vials with a critical classification. This is attributable to the discovery of the potential for intrinsic particulate matter to be generated from the die gap following extrusion stop during rotary BFS manufacturing. As free-floating particulates were added to the procedure as a critical defect, to ensure alignment of defect

classifications for particulate matter in BFS vials, IPS-SC-AS-4219 will be updated under. This revision will tighten the specification from "Accept on 1 particle, Reject on 2 particles", to "Accept on 0 particles, Reject on 1 particle".

These actions ensure that there are adequate production and process controls in place to assure that topical ophthalmic drug products manufactured by Nephron have the identity, strength, purity, and quality that they are purported or represented to possess by ensuring the highest level of particulate identification possible through utilization of Particulate Matter Testing as an alternate test method to visual inspection, in compliance with USP <771>, USP <790>, and PDA Technical Report 79.

OBSERVATION 4.3 a b c e:

Your firm failed to establish adequate written procedures for production and process controls designed to assure that the drug products have the identity, strength, purity, and quality that they are purported or represented to possess.

4.3. Your 100% visual inspection program used for inspecting injectable products is deficient for the following reasons:

a. Your 100% visual inspection program does not challenge robust, worst-case conditions for identifying defects of varying criticality for sterile liquid injectable drug products manufactured in your facility. Currently, your program qualifies your inspectors for (1) one hour whereas your shift is for 12 hours. Based on the validated batch sizes for products manufactured at your facility, inspectors are required to demonstrate competency in only a fraction of the units identified below. For example, for Sterile Water for Injection USP, inspectors are deemed qualified after evaluating a single tray containing 296 units with 34 defects at 100% competency, whereas the theoretical batch size yields 636,364 vials. This evaluation can occur up to three (3) times if failures are identified. Your visual inspection qualification does not demonstrate defect detection performance under actual production conditions.

b. You did not establish a process to ensure created test kit defects are not memorized during qualification administration. Visual inspectors who require requalification or fail qualification are retested using the same kits, allowing for potential memorization of defective units. The same kits are reused for second and third attempts, as well as for annual visual inspection testing, increasing the risk that operators become familiar with known defects.

c. Your 100% visual inspection post-test qualification challenges inspector competency on product simulated kits created by visual inspection training supervisors rather than real product. You have not demonstrated these kits along with the created defects are equivalent to products manufactured in your facility and suitable for qualifying inspectors.

e. The training of your 100% manual visual inspection trainers is inadequate in that they are deemed qualified on the test kits they create. Additionally, per your Quality Operations Sr. Manager, of the three (3) trainers, one (1) is not qualified to perform 100% visual inspection on product and the other two (2) have not performed any visual inspection on finished products manufactured at your facility in at least six (6) years. All trainers have the responsibility of confirming or invalidating defects identified by inspectors during manufacturing operations. For 2025, you generated approximately

eight (8) 503B complaints related to missing label, plastic particles, plastic in port and leaking bags.

RESPONSE 4.3 a b c e:

Nephron's 100% manual visual inspection (VI) program is established, documented, and consistently executed under SOP-SC-QA-4366, *Quality Attribute Testing - Visual Inspection* (Attachment 74), SOP-SC-QA-1606, *Visual Inspection Training and Certification* (Attachment 75), SOP-SC-QA-1201, *Fabrication and Maintenance of Visual Inspection Test Kits* (Attachment 76). Inspectors are trained, qualified, and observed prior to inspecting commercial batches. All parenteral products released for distribution undergo 100% manual VI by certified personnel, followed by AQL inspection, with trigger for immediate investigation if pre-defined defect-rate thresholds at the 100% stage are exceeded or if AQL sampling inspection fails. This layered approach is consistent with FDA guidance and ensures robust control.

The observation notes that inspectors shall demonstrate competency "based on the validated batch size." As discussed during the inspection, industry and USP <1790> standards recognize representative worst-case challenge sets (including fatigue-managed modules and defect types), not full batch-size or shift duration, as the basis for qualification. Fabricated surrogates supplement naturally occurring defects and are designed to mimic true product characteristics, consistent with USP <1790>. Our enhancements formalize this approach. Additionally, Nephron had provided an updated version of the chart included in observation 4.3.a which reflected sub-lot batch sizes. During the close-out meeting the inspectors agreed to update the chart but this revision was not made in the Form FDA 483 Amendment 1.

The program has consistently ensured that parenteral units receive 100% manual VI prior to AQL sampling. A preventive CAPA has been opened to formalize and complete the following enhancements, ensuring the program remains in a state of control and aligned with evolving expectations:
(i) robustness of qualification exercises under representative worst-case conditions,
(ii) lifecycle controls on test kits to eliminate any potential for memorization, and
(iii) trainer qualification and ongoing practice.

Immediate Actions:
During the inspection, Nephron provided the investigators with SOP-SC-QA-1606, *Visual Inspection Training and Certification* (Attachment 75), the associated training curricula, and the current defect library. Training and qualification records for active inspectors were also provided, confirming that all inspectors had documented competency testing and certification prior to performing production inspections. At the FDA's request, defect kits were presented, and the creation and maintenance process under SOP-SC-QA-1201, *Fabrication and Maintenance of Visual Inspection Test Kits* (Attachment 76), was explained, including the use of both actual rejected units and fabricated surrogates where naturally occurring defects are

infrequent. The only defect kits reviewed during the inspection were for prefilled syringes, which is not a container closure system currently used for any product manufactured at the facility as was explained to the investigators.

Nephron further clarified that inspectors must achieve 100% accuracy in kit-based defect recognition before qualifying for production duties, with results documented and attempts limited under controlled conditions. It was emphasized that 100% manual VI precedes AQL inspection and that pre-defined defect-rate thresholds at the 100% stage trigger immediate investigation in addition to AQL thresholds, ensuring a layered system of safeguards.

To address FDA's concern regarding inspector fatigue, Nephron presented SOP-SC-QA-4366 *Quality Attribute Testing - Visual Inspection*, which requires operators take a documented 5-minute break away from light each hour, supported by rotations to sustain performance across extended shifts. In addition, operators are required to take a 30-minute meal break during the shift, with flexibility to take additional breaks as needed. . This approach aligns with USP <1790> which states:

> "On the basis of industry experience, it is recommended that inspectors be given a documented break from performing inspection at least every hour. This break should allow time to rest the eyes and mind and may be achieved with a short rest (e.g., 5 min) or a longer meal break. This need for regular breaks may also be met through rotation to a non-inspection function, such as material handling or documentation."

Training materials and break logs were also presented, demonstrating compliance to procedure and rotations throughout other activities within the duration of the shift.

As an immediate action and interim control measure, Nephron required a qualified trainer or QA supervisor to observe each inspection station per shift until the trainer requalification program is complete.

Finally, supervisory oversight was demonstrated through FRM-SC-QA-4366-I, *Visual Inspection Technique Observation Checklist*, which QA uses to verify proper technique during production and to ensure immediate correction of any deviation.

Impact Assessment

An evaluation of the 100% manual visual inspection (VI) program for sterile injectables confirmed that:

- All products undergo 100% VI prior to release. AQL provides a second safeguard. Both 100% visual inspection results and AQL results are trended and reviewed by the Quality unit.
- 2025 complaints were investigated and determined to be isolated, assignable to handling/supplier causes, etc., with no systemic trends or linkage to inspector qualification.

- Inspectors require 100% kit accuracy; defect-rate thresholds trigger investigation; AQL and complaint trending confirm layered detection. Visual inspection is inherently probabilistic per USP <1790>, and Nephron mitigates this through qualified inspectors, scientifically justified challenge sets, fatigue management, and QA oversight.

The injectable VI program remains in a state of control; FDA's comments reflect opportunities for preventive enhancement, not evidence of systemic failure.

Corrective and Preventive Actions (CAPA-0000048 due January 30, 2026):
To address items a, b, c, and e noted in observation 4.3, a preventive CAPA 0000048 has been initiated to strengthen the visual inspection program, targeted for implementation by 01/30/2026.

1. **Procedure Revisions and Documentation Enhancements**
   Nephron is revising its governing procedures to ensure inspector qualification reflects representative worst-case conditions. SOP-SC-QA-1606, *Visual Inspection Training and Certification* (Attachment 75), is being updated to expand qualification exercises beyond the current hourly modules, incorporating start- and end-of-shift simulations, throughput challenges, and a broader range of defect types. These changes will demonstrate inspector competency under conditions that more closely approximate extended operations and will explicitly tie fatigue-mitigation requirements from USP <1790> to qualification design.

   In addition, SOP-SC-QA-1201, *Fabrication and Maintenance of Visual Inspection Test Kits* (Attachment 76), is being revised to reinforce kit lifecycle management. While retirement and replacement practices already exist, the updated procedure will require documented kit randomization, the creation of additional kits for each container type to prevent reuse, and blinding of all units with QR-only identifiers. Custody logs will be implemented to track kit use and ensure integrity of the certification process. Finally, associated batch and QA documentation will be reinforced so that inspector identity, qualification date, kit identification, and supervisory oversight records are directly linked to production campaigns, improving traceability and providing clear evidence of compliance.

2. **Training and Awareness**
   All inspectors, trainers, and QA supervisors will be retrained on the revised procedures, with particular emphasis on qualification under worst-case conditions, proper use and rotation of randomized kits, and escalation triggers at both the 100% VI and AQL stages. The refresher training course will also incorporate complaint learnings and defect-rate trending to ensure continuous reinforcement of expectations and feedback loops from quality data.

3. **Defect Library Expansion and Validation**

Nephron's defect library already encompasses critical, major, and minor defect classes and is actively maintained under SOP-SC-QA-1201, *Fabrication and Maintenance of Visual Inspection Test Kits*. To further strengthen robustness and ensure alignment with USP <1790>, the library is being expanded incrementally to cover additional edge cases such as low-contrast particulates, small-size defects, and borderline appearance attributes. Each category will be supported by photographic standards and detailed descriptors to reinforce consistency across inspectors.

Fabricated defects, which are used when naturally occurring examples are infrequent, will continue to supplement the library but will now be formally demonstrated as equivalent to true rejects through scientifically justified methods such as spiking or microscopy. Acceptance criteria will be defined in line with USP <1790> probability-of-detection principles. The library will also undergo a structured quarterly refresh cycle, with degraded units retired and replaced, ensuring that all challenge sets remain representative, reliable, and scientifically robust.

4. **Qualification of Trainers**
   Nephron is updating trainer responsibilities and requalification requirements to ensure those overseeing inspector performance maintain current competency and relevant hands-on practice. Trainer job descriptions will distinguish between kit fabrication and inspector training duties, ensuring clear accountability. Trainers will now be required to complete annual requalification using blinded challenge sets and to participate periodically in inspection of commercial product to maintain alignment with real-world conditions. QA will maintain a trainer qualification matrix and conduct periodic oversight reviews to ensure only fully qualified trainers are authorized to administer inspector certification.

5. **Effectiveness Verification**
   Effectiveness of these enhancements will be confirmed by requiring inspectors to demonstrate ≥90% detection of seeded defects with ≤5% false rejects. These benchmarks are consistent with published probability-of-detection expectations and provide objective measures of program effectiveness. On-floor observations and trending of AQL and complaint data will be used to verify sustained performance, with results reviewed during Management Review to ensure visibility and continuous improvement.

Accordingly, Nephron respectfully submits that the inspection program for parenteral products remains in a state of control, with preventive enhancements in CAPA-0000048, ensuring continued alignment with compendial and regulatory expectations, thereby sustaining patient safety and product quality.

OBSERVATION 4.3 d:

Your firm failed to establish adequate written procedures for production and process controls designed to assure that the drug products have the identity, strength, purity, and quality that they are purported or represented to possess.

4.3. Your 100% visual inspection program used for inspecting injectable products is deficient for the following reasons:

d. You have not qualified the inspection procedure used to measure overfill volumes for sterile prefilled syringes for your 100% manual visual inspection processes for 503B operations. Currently, you use the graduations on retrofitted syringes to create sleeves which are used as measuring devices. These sleeves are intended to measure volume that exceeds the graduations applied the product's container closure system. These devices are uncontrolled and lack standardization.

RESPONSE 4.3 d:

An internal review confirmed Nephron previously used graduation extension sleeves during 100% manual visual inspection of prefilled syringes where target fill volumes extended beyond the last printed graduation. Prefilled syringes are not a container-closure currently used for any product manufactured at this facility. This practice was intended strictly as a visual reference aid within the inspection process, not as a formal batch release test or quantitative fill-volume determination. All syringe release decisions relied on established in-process controls and quality testing. At the time of the audit, no syringe products within expiry were distributed on the market. All of the above were explained to the inspectors during the inspection itself.

Nephron recognizes FDA expectation even reference tools used within visual inspection must be controlled, standardized, and scientifically justified.

Immediate Actions:

At the time of inspection, Nephron provided FDA investigators with SOP-SC-QA-4366, *Quality Attribute Testing - Visual Inspection* (Attachment 74) and explained the purpose and use of the extension sleeve as a visual aid. Investigators were informed the sleeve was not a release method.

Nephron confirmed to investigators no syringe products within expiry are on the market and committed syringe production will not resume until methods described below are fully implemented and qualified.

As part of the relaunch of this container-closure system, Nephron will replace the use of retrofitted syringe sleeves with controlled comparator syringes, gravimetrically verified at the target fill volumes, logged, and periodically replaced. The comparator syringes will serve as a standardized reference for inspectors during 100% visual inspection.

OBSERVATION 5:

Aseptic processing areas are deficient regarding air supply that is filtered through high-efficiency particles air filters under positive pressure.

Specifically, your firm failed to follow procedures to ensure alarms impacting classified areas are promptly responded to, investigated, and corrected.

For example, during a walkthrough of the facility on 11 Aug 2025, we observed that the alarm for the Blow Fill Seal (BFS) "man" pass-through had been alarming for a significant amount of time. The Material Transfer Operator (SL) present reported, "I don't do anything about alarms." The Corporate Chief Quality Officer confirmed the alarm had been active since the morning. She further reported that operators are trained to report and escalate alarms to management; however:

a. ***No operator reported or escalated the alarm***
b. ***No management oversight or monitoring of the alarm condition was evident.***
c. ***No assessment was made regarding the potential impact of the alarm.***
d. ***No investigation was initiated until we inquired.***

Firm management later confirmed that the alarm indicated a differential pressure failure signifying loss of positive pressure from the ISO 7 area, which is the background area for BFS operations, and had a controlled not classified (CNC) area.

Your firm failed to ensure that alarms critical to maintaining aseptic conditions were promptly addressed, escalated, and investigated. These deficiencies in alarm management and oversight create an unacceptable risk of microbial ingress and contamination of sterile products. The lack of effective alarm response undermines sterility assurance and patient safety.

RESPONSE 5:

During the inspection on 08/11/2025, FDA inspectors interviewed material transfer operator SD regarding a stack light was alarming on the first floor in Clean Not Classified (CNC) Room 133 in front the ISO-8 cleanrooms (Handwashing Room 137, Material Transfer Room 139, Personnel Exit Vestibule Room 141B) (Attachment 77), to which operator SD appeared not to respond. Operators are trained to respond to stack light alarms, and if their response does not resolve the alarm, then the operator is to escalate the alarm to their next level of management. TopView is a comprehensive alarm notification and alarm management software used to report and monitor alarms on the cleanrooms. Alarms in TopView were generated for the cleanroom differential pressure from ISO-8 Pre-gowning area Room 137 to Clean Not Classified Room 133 and from ISO-8 Exit Vestibule Room 141B to Clean Not Classified Room 133, and these TopView alarms were appropriately evaluated and addressed per requirements in SOP-SC-QA-1216 *TopView Alert Notification System* (Attachment 78) and SOP-SC-QA-1217 *Alarm Annotation System* (Attachment 79). The stack light alarms the investigators observed were alert (not action) limit alarms; there was no differential pressure failure in the affected areas.

On 08/11/2025, Nephron immediately began an investigation into the lack of stack alarm response, without prompting from investigators or requiring follow up queries to open the event deviation. As part of the deviation investigation, the operator was interviewed and an internal review of the procedures and processes associated with stack light response and escalation was conducted.

5.A - Immediate Actions:
Review of employee training records confirmed the employee was trained on stack light response. During interviews with the employee, they confirmed they recall being trained on the procedures relating to stack light response and escalation. Additionally, interviews of other personnel in the area on August, 11, 2025 08/11/2025 while the stack light was alarming were performed to gain a better understanding of employee comprehension regarding this process. These interviews confirmed a more robust reporting mechanism is required with clear responsibilities outlined for stack light response and escalation. A summary of the interviews is included as part of DEV-0000062 *Inspection Finding – Employee(s) did not Escalate Stack Light Alarms.*

Alarm Process Overview and Investigative Findings of DEV-0000062:

1. The alarm system is not designed to differentiate alarm severity – both visual and audible indicators are the same whether the parameter is an:
    - Alert limit alarms: assessment of alarm required but action may not be needed
    - Action limit alarms: assessment and action are required

2. The stack light alarms are triggered by various factors. Expected alarms are self-resolving (e.g., resolution of alarm upon closing of material transfer doors) and unexpected alarms (e.g., prolonged alarms in which all doors are closed and air returns are not blocked), leading to:
    - Desensitization
    - Assumptions others are addressing the alarms

3. Current alarm configuration programming is limited, making it challenging to distinguish between different threshold levels (alert vs. action conditions) based on how they are visually displayed or sound.

A decision-tree workflow will be added to SOP-SC-QA-2530, *Cleanroom Operation and Inspection* (Attachment 80) to provide operator instruction for the differentiation in expectations for operator response to alert activation vs. action activation.

5b, 5c, 5d. - Immediate Actions:
The TopView Alert Notification System is in place to identify and escalate all alarms related to temperature, humidity, and differential pressure, regardless of whether an operator has responded in the moment. Per SOP-SC-QA-1216 *TopView Alert Notification System* (Attachment 78), an alarm is generated when an associated process condition is outside the alarm parameters for longer than a defined alarm delay. In accordance with the established process, TopView alarms were generated for cleanroom differential pressure, which exceeded the defined alarm delay of <0.035 w.c. for ≥ 360 seconds with a deadband of 0.01 w.c. from ISO 8 Pre-gowning Room 137 to Clean Not Classified Room 133 and ISO 8 Exit Vestibule Room 141B to Clean Not Classified Room 133. These alarms were appropriately annotated and reviewed per procedures SOP-SC-QA-1216 *TopView Alert Notification System* and SOP-SC-QA-1217, *Alarm Annotation System*. Review of Plant Information (PI)

Historian data confirmed positive pressure was maintained between the classified and clean not classified environments.

As per SOP-SC-QA-1217 *Alarm Annotation System*, all alarms generated by the system are acknowledged and annotated by the end of the following business day after the alarm has ended. Quality personnel verify and sign-off on all annotations and, if required, identify any further action needs to occur such as quality investigation per SOP-SC-QA-1220, *Deviations and Investigations*. Per section 6.6.4 of SOP-SC-QA-1217, all alarms shall be Quality Closed within seven (7) business days from the date the alarm was first annotated. If the alarm cannot be closed due to the need for further investigation, escalate the alarm to a Quality Event (Deviation) per SOP-SC-QA-1220, *Deviations and Investigations*.

All alarms for ISO-8 Pre-gowning Room 137 and ISO-8 Exit Vestibule Room 141B for the stack light in Clean Not Classified Room 133 observed by FDA inspectors on 08/11/2025 were annotated by Utilities/Facilities personnel per procedure. Review of Plant Information (PI) Historian data of the differential pressure in ISO-8 Pre-gowning area (Room 137) and ISO-8 Exit Vestibule (Room 141B) to Clean Not Classified (CNC) Room 133 on 08/11/2025 confirmed positive pressure was maintained between the classified and Clean Not Classified (CNC) environments throughout the duration of the alarms. All alarms for ISO-8 Pre-gowning area Room 137 and ISO-8 Exit Vestibule Room 141B for the stack light in Clean Not Classified Room 133 observed by FDA inspectors on 08/11/2025 were reviewed and closed the following business day on 08/12/2025 by Quality personnel. The classified rooms adjacent to Clean Not Classified Room 133 include ISO-8 Handwashing Room 137, ISO-8 Material Transfer Room 139, and Personnel Exit Vestibule Room 141B, all of which are not considered to be ISO-7 background rooms for the Blow/Fill/Seal (BFS) production area.

The current alert notification system detects and identifies alarms related to temperature, humidity, and differential pressure. Procedures were followed during the investigation, and assessment of the alarms was conducted as per procedure. However, a decision-tree workflow will be added to SOP-SC-QA-2530, *Cleanroom Operation and Inspection* (Attachment 80) to provide operator instruction for the differentiation in expectations for operator response to alert activation vs. action activation.

Risk Based Impact Assessment

A risk assessment was conducted for each of the observations surrounding cleanroom operations and environmental control, which included Observation #5. Following evaluation, the hazard presented by Observation # 5 was determined to be low risk to product quality due to strength of existing controls. Data review from existing detectability controls confirmed the system is currently operating in control with no impact to product on the market.

There is no impact to patient or the safety, identity, strength, purity, or quality of any production batch or lot from this event as:

- An investigation was opened on the same day, 08/11/2025, of the employee interview which identified inappropriate escalation.

- All TopView alarms were annotated by Utilities/Facilities personnel in accordance with procedure.
- These alarms were closed by Quality personnel within the 7-business day time frame.
- A root cause of the alarms was identified, documented, and corrected.
- Positive pressure was maintained between the classified environment and clean not classified environment.

Corrective and Preventive Actions (CAPA #: 1033175, *Modification to Operator Response Workflow for Stack Lights and Magnehelic Gauges*, due October 28, 2025) (Attachment 81):

The following corrective/preventive actions were determined to be necessary:

- To address the observation of lack of escalation of stack light alarm by employee SD and prevent recurrence of personnel on the production floor not escalating stack light alarms, a corrective action of On-the-Job training was completed promptly with Sterile Room personnel, including employee SD. The retraining for employee SD was completed on 08/11/2025.
- Actions outlined in Corrective and Preventive Action (CAPA) plan Project Record (PR) #: 1033175 *(CA) - Modification to Operator Response Workflow for Stack Lights and Magnehelic Gauges* will address the investigative findings of DEV-0000062 *Inspection Finding – Employee(s) did not escalate Stack Light Alarms* in which "Method" and "Machine" were determined as root causes. Method was determined to be a root cause of the lack of escalation of stack light alarms by personnel on the production floor due to the need for instructions regarding communication and documentation of stack light alarm acknowledgement. Machine was determined to be a root cause due to the current stack light configuration. Preventive actions include:
    - Stack lights will be updated to assist in operator differentiation between an alarm for alert conditions and action conditions by activating as a visual-only cue for alert, and visual + audible cue for action.
    - A decision-tree workflow will be added to SOP-SC-QA-2530 *Cleanroom Operation and Inspection* (Attachment 80) to provide operator instruction for the differentiation in expectations for operator response to alert activation vs. action activation.
    - New workflow instruction will revise current actions for usage of magnehelic gauges to ensure workflow is easy for operator usage.
    - Training on these CAPA items will be completed with applicable personnel.
- CAPA PR #: 1033175 *(CA) - Modification to Operator Response Workflow for Stack Lights and Magnehelic Gauges* (Attachment 81) will track these actions to completion, with an implementation date of October 28, 2025. Effectiveness of these actions will be verified following CAPA closure to confirm sustained compliance.

Redundant systems are in place for TopView alarm identification and assessment as per SOP-SC-QA-1216 *TopView Alert Notification System*, (Attachment 78) SOP-SC-QA-1217 *Alarm Annotation System*, (Attachment 79) and SOP-SC-QA-2530, *Cleanroom Operation and Inspection*. (Attachment 80) Any alarm in which a root cause cannot be identified is escalated in accordance with SOP-SC-QA-1220, *Deviations and Investigations*. These

procedures ensure the alarms are monitored, annotated, and assessed for potential impact and properly investigated prior to closure.

OBSERVATION 6 A:

The responsibilities and procedures applicable to the quality control unit are not fully followed. Sterile Drug Manufacturing & 503B Outsourcing Facility NPC & 503B Operations SM 08/22/2025

Specifically,

A. There is a failure of the Quality Unit (QU) to review and approve pre integrity filter testing that results in "abort" and "error." Pre-filter integrity outcomes resulting in abort or error are documented and maintained in the Pall Flowstar Integrity Tester and reviewed within the audit trails by Production management daily and quarterly. These records are not reviewed by the QU or evaluated prior to batch disposition.

RESPONSE 6A:

An internal review (DEV-0000119 *Inspection Finding – Filter Integrity results is performed quarterly*, opened 08/25/25) confirmed filter integrity tests producing numeric outcomes were properly attached to batch records and reviewed by the Quality Unit (QU). Upon completion of filter integrity testing, the results are reviewed by Production personnel and attached to the batch record and are subsequently reviewed by the Quality Unit on the manufacturing floor. Disposition occurs only after the Quality Batch Record Review department verifies filter integrity test results are passing per the validated acceptance criteria and are properly attached to the batch record per WRK-SC-BR-1250-A, *Work Instructions for the Review of Batch Record* (Attachment 82). However, intermittent attempts to analyze filter integrity resulting in "Error" or "Abort" were excluded from QU review per SOP-SC-FM-4111 *Management of Filters* (Attachment 83) These events were only reviewed and documented by Production personnel. These exclusions did not impact the overall sterility assurance of released batches, as all filter integrity tests producing a quantitative value were appropriately reviewed and approved by the QU. were appropriately reviewed and approved by the QU.

Immediate Actions:

During the inspection on 08/22/25, FDA noted the absence of QU review of "Error" and "Abort" test attempts. In response, Nephron initiated DEV-0000119 *Inspection Finding – Filter Integrity results is performed quarterly*, on 08/25/25 to investigate the observation and evaluate procedural alignment. All filter integrity test attempts, including those flagged as "Error" or "Abort," were confirmed to be retained in the Palltronic Flowstar V system audit trail, and a retrospective review was completed to confirm no impact to product quality. The vast majority of tests produced a numeric value, which could be compared to the acceptance criteria resulting in a passing value. Any failure presented would proceed through the Failure Analysis Tree outline in SOP-SC-FM-4111 *Management of Filters* (Attachment 83). Any Error message did not report a value, would proceed through the troubleshooting guidance outlined within SOP-FM-4111 *Management of Filters*. Any abort was annotated by Production personnel as required by the SOP-FM-4111 *Management of Filters*.

Inspectors were informed filter integrity tests report a numeric result are consistently compared against validated acceptance criteria. Numeric values will be reported with either a "Pass" or

"Fail" statement. These results are then attached to the record for review by Quality. All released lots are supported by successful, valid integrity results and no product may be released without passing integrity confirmation reviewed by the QU. However; tests report "Error" or "Abort" do not report a numeric value. At the time of the inspection, "Error" or "Abort" were not track and trended. As a result of a retrospective review demonstrates all errors, aborts, and failures were properly addressed with either effective troubleshooting or escalation, via a deviation, in accordance with SOP-SC-FM-4111 *Management of Filters*.

Impact Assessment:

All processes requiring sterilization by filtration depend on the use of validated, integrity-tested filters to ensure product sterility. Filters used in aseptic processing must demonstrate integrity in accordance with the validated filter integrity testing program. Test results must meet established acceptance criteria to confirm the filter remained integral throughout the process and it performed as designed.

Sterility testing of the finished commercial product provides additional assurance that filters were integral and effective in preventing microbial contamination. Aseptic process simulations (media fills) routinely qualify the overall aseptic process, including operator performance, equipment setup, and environmental controls. The impact of any deviation or change involving filter integrity must be assessed with respect to product sterility, regulatory compliance, and the validated state of the process.

Corrective and Preventive Actions (CAPA-6A, due October 15, 2025):

To address this observation and prevent recurrence, CAPA-6A includes:

- SOP-SC-FM-4111 *Management of Filters* (Attachment 83) will be updated to require all results, including the nonnumeric data reported from Errors are Abort will be attached and reported with each batch record.
- SOP-SC-FM-4111 will be updated to ensure "Errors" and "Aborts" are attached to the record and give direction these results to be considered testing attempts subject to the Analysis Decision tree.
- SOP-SC-FM-4111, and all applicable forms and work instructions, will be updated to ensure QU reviews all outcomes ("Pass," "Fail," "Error," and "Abort") of testing at the batch level, on the manufacturing floor, prior to submission of the record to Quality Batch Record Review. This will ensure all applicable testing is attached, including "Errors" and "Aborts" for final review and dispositioning.
- Trending of "Error" and "Abort" will be evaluated during historical review of deviation escalation.

SOP-SC-FM-4111 is undergoing revision to require all test attempts, including "Error" and "Abort," be treated as official results, attached to the batch record, and reviewed by QU before to disposition.

All corresponding forms are being updated to ensure all testing attempts are documented and reviewed. A "QA Reviewed By" signature field is being added. Updates include:

- WRK-SC-FM-4111-C *Filter Integrity Testing for Rommelag 460 BFS Machines*
- FRM-SC-FM-4111-B *Offline Filter Integrity Test – Cartridge Filters*
- FRM-SC-FM-4111-E *Oxymetazoline Offline Filter Integrity Test Certification*
- FRM-SC-FM-4111-J *Offline Filter Integrity Test – Capsule Filters*
- FRM-SC-FM-4111-G *Outsourcing Offline Filter Integrity Test – Forward Flow*

Additionally, FRM-SC-PR-4322-B *End of Lot Checklist* is being updated to include verification all test results from FIT analyses are attached to the batch record. A QA review step will ensure the QU has direct oversight of all filter-related test outcomes and associated production lots. This will include review of the audit trail from the filter testing unit.

Training / Awareness:

Operations staff and relevant QU personnel will be trained on revised procedures, emphasizing the importance of complete record review, including "Error" and "Abort" outcomes. Training will reinforce responsibilities under the updated process and industry best practices for data integrity and sterility assurance. Effectiveness will be measured through knowledge checks and direct observation during routine batch record review

Effectiveness Verification:

To verify the effectiveness of this CAPA, the QU will perform a review of a minimum of 30 consecutive filter integrity test records, including any aborts or errors, within 60 days of CAPA closure to ensure QU review has been completed per revised process and procedures. The EV will confirm all production and QU manufacturing personnel, performing or reviewing filter integrity tests, have completed training with a successful knowledge assessment documented.

OBSERVATION 6 B:

The responsibilities and procedures applicable to the quality control unit are not fully followed.

B. Your Quality Unit failed to adequately exercise its authority and responsibilities, including but not limited to, implementing effective procedures, and conducting adequate oversight to support the safety, effectiveness, and quality of the sterile drug products you manufacture. For example, but not limited to:

a. Your firm failed to exercise appropriate controls over computer or related systems to assure that only authorized personnel institute changes in master production and control records, or other records by maintaining oversight of BFS HMI Data, Backups, and Error Logs. For example, but not limited to, during the walkthrough of the facility on 12 Aug 2025, we observed the following:

1. Your Chief Technology Officer presented a file named "Exception.txt", which contained approximately 18,022 logged "Access Violation" errors from 04/17/2024–03/08/2025. Management acknowledged they were unaware of this error log. Vendor representatives were unable to explain the root cause or impact of the recurring access violations.

2. A file named "460133.err" contained additional error messages, described as the raw data file for the Error Manager Viewer Machine Event Log. The "Exception.txt" log was reported to be ancillary to this error log.

RESPONSE 6.B.a.1 & 6.B.a.2:
During the inspection, Nephron engaged the Blow-Fill-Seal (BFS) vendor, Rommelag, who was able to explain that the that *Except.txt* and *460133.err* Error Manager Files are system artifacts which, if necessary, may be used for diagnostic purposes by the vendor. This documentation was provided to the inspectors during the inspection, but they did not review. The Error Manager files referenced in this observation support back-end software functionality, as part of the validated software configuration and are not master production and control records, or other records related to the manufacture, processing, packing, and holding of a drug product.

460133.err is the encrypted raw data file that generates the *Error Manager Log*, while *Except.txt* is a vendor diagnostic artifact. The *Error Manager Log* is the quality-relevant record reviewed by QA in accordance with SOP-SC-PR-4399, *Audit Trail Review BFS* (Attachment 84) and SOP-SC-BR-1250, *Finished Product Batch Review and Release (e.g. door open, valve fault, or machine jam)* (Attachment 85). Because these background files are not related to master production and control records, they are not subject to direct QA review. These "Access Violation" exceptions occur when the program automatically attempts to access a part of the computer's memory that does not contain data and do not indicate that an individual user is attempting to access data to which they do not have access rights. While the observation described approximately 18,022 "Access Violation" errors, a review confirmed over 99 percent of these occurred during a single scheduled maintenance window, when the line was not in a validated state, and no product was manufactured. The existence of these files is not indicative of any data loss or manipulation.

The observation also referenced BFS HMI backups. An internal review confirmed that the Enterprise Backup System (Veeam) is a validated, Quality-approved solution governed under SOP-SC-IT-9301, *Electronic Data Backup*, (Attachment 86) The system incorporates multiple safeguards to ensure completeness and integrity of all audit trail backup data. While the observation described this as a lack of QU oversight, Nephron's review confirmed that completeness and accuracy are assured through validation, checksum-based integrity checks, and automated reporting, with escalation to QA via deviation procedures when required. These controls are active, documented, and subject to direct QU authority.

This observation provided further opportunity to clarify the data structure of BFS system files, and ensure that the distinction between background machine artifacts, quality-relevant audit trails, and validated backup safeguards is explicitly documented and well understood by all stakeholders.

Immediate Actions:
During the inspection on August 12, 2025, Nephron demonstrated the validated Enterprise Backup Repository for BFS machines. As part of this review, inspectors randomly selected two system files from the Error Manager Viewer (*460133.err* and *Except.txt*) for secondary examination under the assumption that they might contain quality-relevant data. Because these

files are diagnostic artifacts rather than quality records, they were not immediately identifiable to QA, or to Nephron's technical SMEs as this software was not developed internally. Nephron engaged Rommelag during the inspection to explain the purpose of these files, which required escalation to Rommelag headquarters in Germany. Following this outreach, Rommelag provided written confirmation clarifying that the files were diagnostic in nature and directly related to the Error Manager Log. Although Nephron offered this clarification, auditors did not review it during the inspection.

At the inspectors' request, printouts of *Except.txt were* generated and reviewed onsite (Actions 155 and 158). The *Except.txt* file was 54,069 lines in length, representing 18,026 unique messages. Inspectors specifically questioned whether these files represented "54,000 events that QA did not know about." Nephron clarified that 17,920 of the 18,026 entries (99.41 percent) occurred on February 12, 2023, during a scheduled maintenance window when the production line had been removed from validated state and not returned until February 24, 2023. No product was manufactured during this time. The remaining 106 entries were isolated, events appearing sporadically between February 2023 and August 2025, each representing only 0.01 percent of the total.

Rommelag confirmed the messages in *Except.txt* are diagnostic exceptions caused by network latency. These events are rare, automatically retried, and do not affect system integrity, operation, or compliance. If the warnings were not caught, the program would stop (this stop would be captured in the Audit Trail and subsequently reviewed by QA). All noted messages or events are captured in the Error Manager Log, which undergoes a multi-layered thorough review by both Operations and QA in accordance with SOP-SC-PR-4399, *Audit Trail Review BFS* and SOP-SC-BR-1250, *Finished Product Batch Review and Release*.

In parallel, Nephron presented the validated Enterprise Backup System (Veeam) to the inspection team (Actions 159 and 489). In alignment with SOP-SC-IT-9301, *Electronic Data Backup* the Veeam backup solution, validated under Performance Qualification PQ-607, (Attachment 92) incorporates multiple safeguards to ensure both completeness and integrity of backup data. Completeness is assured through validation of all targeted data blocks during backup, verification of backup chain consistency, and comprehensive automated reporting to confirm that no files are omitted or bypassed. Accuracy is maintained through checksum-based integrity checks performed during both data transfer and storage, thereby preserving data fidelity. This process is formally defined and governed under SOP-SC-IT-9301, *Electronic Data Backup* (Attachment 86). Any unresolved backup issue would be managed as a Quality Event Deviation in accordance with SOP-SC-QA-1220, *Deviations and Investigations*, ensuring that such events are identified, escalated, documented, and assessed under direct Quality Unit oversight.

Nephron provided inspectors with Rommelag's written response, process flow diagrams, and supporting documentation during the inspection. Nephron also offered multiple opportunities to review the *Error Manager Log* in conjunction with the associated batch records; however, inspectors declined to review this documentation during the inspection.

Impact Assessment

An assessment of the exception messages and associated backup process confirmed:

- No sterility assurance or data integrity impact,
- Over 99 percent occurred during a single maintenance event; remaining entries were isolated and sporadic,
- All events captured in the Error Manager Log, which undergoes multiple levels of QA review under SOP-SC-PR-4399, *Audit Trail Review BFS* and SOP-SC-BR-1250, *Finished Product Batch Review and Release* and backed by validated Veeam safeguards with checksum integrity checks and automated escalation under SOP-SC-QA-1220, *Deviations and Investigations*.

This assessment reflects the same explanation provided to inspectors onsite, where QA's multi-tiered review of the *Error Manager Log* and oversight of validated backup safeguards was clarified as the governing mechanism for ensuring all system events relevant to product quality are detected, evaluated, and documented prior to batch disposition. Based on this evaluation, these exceptions present no risk to product quality, sterility assurance, or patient safety.

Corrective and Preventive Actions (CAPA-0000050 due November 12, 2025):
To address this observation and prevent recurrence of inspection misinterpretation, a preventive CAPA (CAPA-0000050, Attachment 87) has been initiated, targeted for implementation by November 12, 2025.

1. **Procedure Revisions and Documentation Enhancements**
SOP-SC-PR-4399, *Audit Trail Review BFS* is being revised to more clearly specify that quality-relevant documentation is limited to the *Audit Trail* and *Error Manager Log*. Other system-level diagnostic files, including, but not limited to, *Except.txt*, *460133.err*, and similar machine generated files, are not intended nor subject to direct QA review, as they are part of the validated system configuration and are not used in product disposition.

SOP-SC-IT-9301, *Electronic Data Backup* is being updated to explicitly describe QU oversight of backup completeness and integrity checks. The revision incorporates a data flow diagram that demonstrates how all quality-relevant backup data are validated, verified, and reviewed under QU authority. Cross-references to SOP-SC-QA-1220, *Deviations and Investigations* will clarify escalation pathways, ensuring that any backup irregularities.

A supporting reference (Attachment 88) has been prepared for inspection-readiness, documenting the BFS system architecture and Rommelag written confirmation diagnostic artifacts do not constitute quality records. This attachment is for inspection readiness only and is not part of the controlled SOP.

2. **Training / Awareness**
QA, Operations, and IT personnel have been briefed on the revised procedure and supporting architecture reference. Training emphasized QA's role, the boundary between quality-relevant records and diagnostic artifacts, and escalation of anomalies identified in the Error Manager Log. This ensures consistent and accurate explanation during future inspections.

The Quality Unit is fully embedded in the oversight of this process, with structured multi-layered review of all BFS quality-related data, including audit trails, Error Manager Logs, validated

backups, and supporting batch documentation—prior to batch release. This governance framework ensures that data integrity is rigorously maintained, and only compliant product is released to the market.

Dear Licensing Board,

I hope this finds you well.

As per our phone call conversation, please see attached FDA 483 form for our client's facility (WH01653) in Mount Prospect, IL 60056. Their facility for this initial application (3400 West Lake Avenue) is not FDA registered nor Inspected.

Could you please confirm receipt and that it suffices?

Thanks in advance for your time and assistance.

Kind Regards,

Ramon Rivera

Hi Christine,

Please provide a copy of the 2025 483 form issued by the FDA and the responses, also confirm if the FDA has re-inspected and closed the audit.

Kind Regards,
Maria H.

This document lists observations made by the FDA representative(s) during the inspection of your facility. They are inspectional observations, and do not represent a final Agency determination regarding your compliance. If you have an objection regarding an observation, or have implemented, or plan to implement, corrective action in response to an observation, you may discuss the objection or action with the FDA representative(s) during the inspection or submit this information to FDA at the address above. If you have any questions, please contact FDA at the phone number and address above.

DURING AN INSPECTION OF YOUR FIRM, I/WE OBSERVED:

OBSERVATION 1

The responsibilities and procedures applicable to the quality control unit are not fully followed.

Specifically,

a) Your firm utilizes a reference standard (ERA USP System Suitability Set – 40 mL) for the system suitability testing of your TOC analyzer LE-001-TOC. This product requires refrigerated storage condition. However, your firm stored the reference standard ([redacted]) in a refrigerator that was not qualified. Prior to our arrival in the QC department, your firm removed the reference standard from the refrigerator and informed us that it was removed for system suitability testing. However, your QC chemist later stated that no system suitability testing was planned for the day. Upon our request regarding the storage location for the reference standard, your firm provided multiple instances of misinformation. Your personnel even led us to an area purportedly to show us the refrigerator for the reference standard storage, but no refrigerator was found at that location. Finally, your QC chemist admitted that she had removed the reference standard from an unqualified refrigerator at the request of [redacted] prior to our arrival.

b) Your firm utilizes a standalone pH meter ID # LE-0005 for the pH analysis for raw materials, in process, finished product etc. During our review of the electronic data, we observed that multiple analyses of single samples were performed without proper documentation. These repeated analyses were not recorded in the analyst's laboratory notebook. Your QC personnel admitted to discarding printouts from the repeated analyses without recording the data. This practice raises significant concerns about data integrity and the reliability of your pH testing procedures. Following are the examples, we observed but are not limited to:

1. On 05/22/2025, your QC Chemist performed pH analysis for sample #3 two times according to the electronic record for Amantadine, [redacted] Your QC chemist recorded only the second analysis details in the lab notebook. Your QC chemist stated that, she discarded the printout and did not record the result in the lab notebook. She further stated that, her supervisor was aware of this situation.

2. On 06/07/2025, your QC Chemist performed pH analysis for sample #9 three times according to the electronic record for Chlorhexidine Gluconate Solution, USP 20%, [redacted] Your QC chemist recorded only third analysis details in the lab notebook. Your QC chemist stated that, she discarded the printout and did not record the initial results in the lab notebook.

Additionally, a review of your laboratory logbook for equipment LE-0005 showed no verification had been completed by the responsible person since 05/14/2025. This lapse in verification raises concerns about the reliability of data generated using this equipment.

This is a repeat observation.

OBSERVATION 2

Records maintained of any modification of an established method employed in testing do not include the reason for the modification and the data to verify that the modification produced results that are at least as accurate and reliable for the material being tested as the established method.

Specifically,

Your firm's current audit trail review process does not include clear procedures for a comprehensive evaluation of critical audit trail data elements including but not limited to changes to integration parameters, manual integrations, method modifications, instrument configuration changes, etc. During our inspection, one your Quality Chemist who is responsible for audit trail reviews informed us that their audit trail review is limited to verifying whether methods are attached to data packages or not. This narrow scope falls significantly short of a thorough and effective audit trail review. Your firm follows *SOP No: QC SOP 167-0: Operating Procedure for the HPLC and GC Using Agilent's OpenLab Software* for the audit trail review process. However, this SOP is deficient in defining comprehensive audit trail review procedures. The lack of detailed guidance in the SOP contributes to the inadequacy of your firm's audit trail review practices. As an example of these deficiencies, an adequate audit trail review was not completed for the analytical package of 0.12% Chlorhexidine Oral Rinse, [redacted] This instance further illustrates the systemic nature of the problem in your audit trail review process.

OBSERVATION 3

Appropriate controls are not exercised over computers or related systems to assure that changes in master production and control records or other records are instituted only by authorized personnel.

Specifically,

Your firm failed to exercise appropriate controls over your computers and related system to assure that changes in the records are instituted only by authorized personnel. Following are the examples for the lack of control on the electronic system, but are not limited to:

a) You firm utilizes a standalone Easy R40 Refractometer (MP-REF-01) to measure the refractive index of raw materials. For example, on 04/01/2025 this instrument was used for the refractive index measurement of Isopropyl Alcohol [redacted]. The system allows users to log in without entering a password, despite having the capability to create up to eight (8) unique usernames. This lack of user authentication compromises data integrity and traceability. The instrument has a limited data storage capacity of 20 entries, after which it overwrites previous results. This practice potentially leads to the loss of critical data. Your firm has failed to establish and follow procedures for reviewing the electronic data generated by this instrument. The accuracy of data recorded on associated laboratory notebooks has not been verified by your quality unit. There is no evidence of a systematic process for backing up the electronic data generated by the Easy R40 Refractometer risking permanent loss of important analytical data.

b) D30 Density Meter (MP-DEN-01) for density determination of raw materials and finished products. For example, on 05/30/2025 this instrument was used for the density determination of Lactulose, [redacted] The system allows users to log in without entering a username or password. This

lack of user authentication compromises data integrity and traceability. The instrument has a limited data storage capacity of 20 entries, after which it overwrites previous results. The accuracy of data recorded on associated laboratory notebooks has not been verified by your quality unit. There is no evidence of a systematic process for backing up the electronic data generated by the D30 Density Meter, risking permanent loss of important analytical data.

c) Your firm utilizes an UV Spectrophotometer (MP 1662 to perform identification test for raw materials and finished products. For example, on 06/05/2025 this instrument was used for dissolution sample analysis for Megestrol Acetate Oral Suspension, USP [redacted] The system allows users to log in without entering a password. This lack of user authentication compromises data integrity and traceability, potentially allowing unauthorized access to the system. I observed that primary data is stored on a local drive. According to your firm's written procedure *SOP No: IT SOP 5-3: IT Backup Policy, Effective Date 04/24/2025*, daily backups are conducted at 6:00 am every day. The delete function is enabled in this system, allowing for the potential unauthorized deletion or alteration of data. The lack of user authentication could lead to unauthorized changes to data or methods. While daily backups are performed, the interim period between backups leaves data vulnerable to loss or unauthorized changes.

d) Your standalone pH meters (ID # LE-0005 & ID # LE-0006) has storage capacity to store data up to 250 analyses, after which system overwrites previous results. This practice potentially leads to the loss of critical data. Your firm has failed to establish and implement a procedure for backing up the data from these pH meters.

e) Your firm lacks adequate control over the issuance of and access of blank batch records. We observed that copies of blank batch records are stored on a SharePoint site where approximately 94 individuals have print access. This includes individuals from operations, packaging, warehouse, and shipping/receiving departments. Your firm informed us that the quality unit issues batch records and other controlled document. I observed that Quality issued documents with a stamp stating "Printed/Issued by/date". However, on 06/10/2023, we observed a blank form "Document QC079A" issued to QC without any issuance stamp.

This is a repeat observation.

OBSERVATION 4

There is a failure to thoroughly review any unexplained discrepancy whether or not the batch has been distributed.

Specifically,

Your firm failed to review and investigate aborted chromatographic injections as recorded in the OpenLab CDS System Activity Log Detailed Report. From 03/01/2024 to 06/16/2025 there were approximately 568 aborted injections, including both user-initiated aborts and hardware errors, which are not thoroughly reviewed or investigated. Following are the examples, but are not limited to:

a. On 03/01/2024 at 16:38, user [redacted] aborted a post-run for standard [redacted] The post-run was started at 16:31 as part of system suitability. According to your written procedure *SOP No: QC SOP No.71-16: HPLC Analysis of Parachloroaniline in Chlorhexidine Gluconate Raw Materials, In-*

Process and Finished Products, Effective Date 07/20/2020, the run time is 3 minutes and post-run time is 12 minutes. Your analyst informed us that his supervisor instructed him to abort the post-run.

b. On 05/16/2025 at 11:59, user [redacted] aborted "Sequence: [redacted] – Aborted Injection 5-GC072025-16 11-55-42-05-00RS.dx". System suitability was failed during the standard verification. System suitability was failed for injection #5. Your firm repeated the system suitability without any justification. Your analyst failed to record the system suitability failure in the laboratory notebook and invalidated data logbook according to your written procedure *SOP No: QC SOP 166-0: Chromatographic Guideline for HPLC and GC, Effective Date 07/12/2024.*

c. On 05/14/2025 at 14:23 user [redacted] aborted "Sequence: [redacted] – Aborted Injection 5 – 2025-05-14 13-53-15-00-03.dx." System suitability for working standard A was failed for Injection 5. Your analyst failed to record the system suitability failure in invalidated data logbook according to your written procedure.

Additionally, according to your firm's procedures, these aborted runs should be recorded in Form 000003 - *Invalidated HPLC and GC Chromatogram Logbook* and reviewed by a supervisor. However, I observed that your firm is not consistently recording these aborted results in Form 000003. For the year of 2024 and 2025 your firm only recorded approximately 98 aborted runs. These unreviewed aborted injections could potentially impact data integrity and product quality.

Written procedures for the receipt, identification, storage, handling, sampling, testing, and approval or rejection of components and drug product containers and closures are not followed.

Specifically,

During our walkthrough inspection on 06/13/2025, the following deficiencies were observed in the incoming material receiving process, but are not limited to:

a. The incoming shipment inspection log for trailer inspection and disposition was not completed for item code 16H1BBTL for lots [redacted] and [redacted] The material was received into your firm's ERP system - Sage100.

b. Lot numbers were not accurately transcribed from the manufacturer's paperwork into ERP system - Sage100, for example, receiving Ticket Number [redacted] from Sage100 lists Lot [redacted] but the correct supplier lot number is [redacted]

c. For multiple lots of incoming material (Lot numbers [redacted] that were delivered to the QC Lab, the "received by" documentation was missing entirely. These lots were tested by the laboratory and subsequently released in the system despite the incomplete receiving documentation.

CITY, STATE, ZIP CODE, COUNTRY Mount Prospect, IL 60056	TYPE ESTABLISHMENT INSPECTED API and Finished Product Drug Manufacturer

OBSERVATION 6

Each person engaged in the manufacture, processing, packing, or holding of a drug product shall have education, training, and experience, or any combination thereof, to enable that person to perform the assigned functions.

Specifically,

On 06/10/2025, during a review of training records for QC chemist [redacted] and the corresponding laboratory notebook, I observed the following discrepancy: [redacted] began performing pH analysis prior to the completion of required training. Training was signed off on 04/05/2024; however, [redacted] started conducting analyses on 03/19/2024. According to *SOP No. QA SOP 11-12: "Employee Training Program" (Effective Date: 05/26/2022)*, both the trainee and trainer are required to sign and date the training record upon completion of training. This instance demonstrates a failure to adhere to established training procedures and indicates that the training was either ineffective or not properly implemented, potentially compromising data integrity and the quality of laboratory operations. This observation highlights the need for stricter adherence to training protocols and improved oversight of personnel qualifications before allowing them to perform analytical procedures.

GEORGIA STATE BOARD OF PHARMACY
FEB 18 2026
DOCKET NO. 2026-0009

PUBLIC CONSENT ORDER

By agreement of the Georgia State Board of Pharmacy ("Board") and Xttrium Laboratories Inc. ("Respondent"), the following disposition of this matter is entered pursuant to the provisions of O.C.G.A. T. 26, Ch. 4, and the Georgia Administrative Procedure Act, O.C.G.A. § 50-13-13(a)(4), as amended.

FINDINGS OF FACT

1.

Respondent was issued a license to operate as a manufacturing pharmacy in the State of Georgia on August 13, 2010, with an expiration of June 30, 2027. Respondent's license is currently active. Respondent holds an active wholesale distributor license in Illinois.

2.

Respondent is based in Illinois and specializes in the sale of prescription Oral Rinse to retail chains, shipping to several states, including Georgia.

3.

On or about November 13, 2025, the Board received an application for change of ownership by Respondent, dated November 7, 2025. The application indicated the change of ownership occurred on July 1, 2024. The application also listed Respondent's license type as a wholesale distributor license, rather than a manufacturing pharmacy license, which is the license type currently active with the Board.

4.

Board Rule 480-7-.01(5) 480-7-.03(d) apply to manufacturing pharmacies and wholesale distributors, respectively. Under these rules, prior to any change in name, ownership, mode of operation or location of a pharmacy, a licensee must apply for approval of such change by submitting a Board-approved application to the Board and paying the required fee. Applications must be made and approved prior to the change.

5.

In a statement to the Board, Respondent explains that due to the company's expansion, a management error was committed of not systematically and comprehensively applying for all required state licenses and some state applications were filed late. This led to the several states initiating disciplinary actions beginning in 2007 through 2011. On September 22, 2025, Respondent provided the Board with a subsequent statement explaining the most recent citation notice issued on September 15, 2025, by the Utah State Board of Pharmacy ("Utah Board"). The Utah Board issued Respondent a citation for failure to timely report a change of ownership that became effective on July 1, 2024, on August 20, 2025, violating their rule requiring licensees report the change no later than ten (10) business days before the date of change Respondent explains that the previous designated representative transitioned his day-to-day operations to his son and daughter. Since the transition, Respondent explains they have taken steps to comply with state licensing by hiring an outside firm specializing in the application and maintenance of state licenses to ensure compliance with all state regulations.

6.

Respondent neither admits nor denies the above findings of fact, and waives any further findings of fact with respect to the above-styled matter.

CONCLUSIONS OF LAW

Under O.C.G.A. T. 26, Ch. 4, the Georgia State Board of Pharmacy is authorized to discipline Respondent's license to operate as a pharmacy for the conduct stated above. Respondent waives any further conclusions of law with respect to this matter.

ORDER

The Board, having considered the particular facts and circumstances of this case, hereby ORDERS, and Respondent hereby AGREES, that Respondent's license shall be disciplined as follows:

1.

Respondent shall submit to the Board a fine in the amount of **Five Thousand Dollars ($5,000.00)** for failure to report ownership change prior to change, in violation of Board Rules. Such fine shall be payable within **sixty (60) days** from the effective date of this Public Consent Order. Payment shall be in the form of a cashier's check or money order made payable to the Georgia State Board of Pharmacy and sent to: Georgia State Board of Pharmacy, Attention: Executive Director, 2 Martin Luther King, Jr. Drive SE, East Tower, 11th Floor, Atlanta, Georgia 30334. Respondent's failure to pay the fine by the sixtieth day shall subject Respondent's license to further disciplinary action, including revocation.

2.

This Consent Order and dissemination thereof shall serve as a **PUBLIC REPRIMAND** to the Respondent for Respondent's conduct.

3.

Approval of this Public Consent Order by the Georgia State Board of Pharmacy shall in no way be construed as condoning the Respondent's alleged conduct, and shall not be construed as a waiver of any of the lawful rights possessed by the Board.

4.

Respondent acknowledges that Respondent has read this Public Consent Order and understands its contents. Respondent understands that this Public Consent Order will not become effective until approved and docketed by the Georgia State Board of Pharmacy. Respondent further understands and agrees that the Board shall have the authority to review the investigative file and all relevant evidence in considering this Public Consent Order. Respondent understands that this Consent Order, once approved and docketed, shall constitute a public record, evidencing disciplinary action by the Board. Respondent further understands that if this Public Consent Order is not approved, it shall not constitute an admission against interest in this proceeding or prejudice the ability of the Board to adjudicate this matter. Respondent consents to the terms and sanctions contained herein.

Approved by the Board, this 18th day of February, 2026.

Xttrium Laboratories
Revised January 21st, 2026
Discipline Summary

Company Background

Xttrium Laboratories is a manufacturing company in existence in Chicago since 1939. For the last 38 years, Xttrium's products have been surgical setting antiseptics with an active ingredient of Chlorhexidine Gluconate (CHG), classified as a drug by the FDA. These antiseptic products have been sold in Illinois to all major hospital supply wholesalers in the US. Foreign state licenses were not required.

In 2004, Xttrium began marketing a prescription Oral Rinse product for gum disease with the same CHG active ingredient, a product similar to Peridex. Customers were originally the same wholesale hospital suppliers. Over the last twenty one years, Xttrium began selling prescription Oral Rinse to the major retail drug chains. Delivery sites expanded to all states. With the expansion, the management error was committed of not systematically and comprehensively applying for all required state licenses. Consequently, some state applications were filed late.

State Disciplinary Actions Results

Due to the late filings, the states of Missouri, Colorado and Alabama began disciplinary actions. In a settlement, Missouri issued a probationary license in 2007 for which probation expires in June 2010. The Colorado action was dropped and the state issued an unrestricted license upon the expiration of the Missouri probation in June 2010. There is no disciplinary history in Colorado. The Alabama action was settled with payment of a $500 fine in April 2009. A consent order stemming from a Rhode Island complaint was signed in December, 2011.

Xttrium has had additional disciplinary actions in 2025 in the State of Utah, Maryland and Georgia. All of these citations were related for a failure to notify the state of a change of ownership event according to their procedures. The state of Utah requires 10 days in advance notification before the change of ownership occurs. Xttrium paid the fine for the state of Utah for $1,050 (October 2025). The state of Maryland requires 30 days notification after the change of ownership event. Xttrium paid the fine for the State of Maryland for $5,000 (January 2026). The State of Georgia requires notification of change of ownership prior to the change. Xttrium paid the fine for the state of Georgia for $5,000 (January 2026).

Current Procedures

Xttrium has since initiated a formal process of state license preparation. An outside firm, specializing in the application and maintenance of state licenses, State Licensing Servicing, LLC, has been hired to prepare the needed forms within due dates. An attorney who specializes in state licensing has been retained to review the filings on a recurring basis. The Senior Vice President of Commercial Operations is now working directly with SLS to ensure compliance to all state regulations.

FDA Regulation

Xttrium is inspected by the FDA on a regular basis. For each inspection, any remedies required are completed on time and then approved by the FDA. The most recent inspection was from June 9, 2025 to June 18, 2025. A form 483 was issued with 6 observations. On July 11, 2025, Xttrium responded with the correction action plan for the Observations. All remediation activities were completed by Xttrium in November 2025. This audit has not been formally closed out by the FDA. The FDA will re-inspect Xttrium in 2026 and close out the audit at that time.

Prior to the June 2025 audit, there was an FDA inspection was from February 27, 2024 to March 8, 2024. A Form 483 was issued with 7 Observations. On March 29, 2024, Xttrium responded with the corrections to the Observations. The changes were executed and no additional action was required by the FDA.

Licensed By Home State of Illinois

Xttrium has been licensed as a manufacturer and wholesaler in its home state of Illinois at all times since the company began production and sale of regulated drugs.

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. 9171724

Application/License No. _____

Xttrium Laboratories, Inc. (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 1200 E. Business Center St., Mount Prospect, IL 60056 (Address of Applicant/Principal), as PRINCIPAL, and Washington International Insurance Company (Surety Company), a corporation organized under the laws of the state of NH (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is 475 North Martingale Road, Suite 850, Schaumurg, IL 60173 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of ONE HUNDRED THOUSAND DOLLARS ($100,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on 07/17/2015 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statutes (NRS) 639.515 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $100,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 19th day of June, 20 15.

To Whom It May Concern:

My name is Madeleine Creevy McNally. I am part of the ownership group at Xttrium Labs. Unfortunately, I was arrested and charged with possession of marijuana while attending the University of Montana.

I plead guilty and paid a $100 fine along with court fees. I have attached the court disposition records for your review. I sincerely regret what happened.

Thanks,

Madeleine Creevy McNally

Provide explanation below:

On November 18, 2025, a plan of reorganization (the "Plan") was approved in the bankruptcy cases of Purdue Pharma LP ("PPLP") and its affiliates that are pending under the caption In re Purdue Pharma L.P. et al., Case No. 19-23649 (SHL) (Bnkr. S.D.N.Y.) (the "Chapter 11 Cases"). Pursuant to the Plan, PPLP will not emerge from bankruptcy. Instead, substantially all of the assets of PPLP (including ownership of its current direct and indirect subsidiaries) will be transferred to Knoa Pharma LLC ("KPLLC"), a new entity that was formed to receive these assets. KPLLC, in turn, will be wholly owned by a 501(c)(4) non-profit foundation that will be formed prior to KPLLC's emergence from bankruptcy. As a result of the Plan's implementation, all of PPLP's current direct and indirect subsidiaries will become wholly owned by KPLLC, undergo a conversion to limited liability companies, and the subsidiary currently known as Purdue Pharmaceuticals L.P. will change its name to Knoa Pharmaceuticals LLC. KPLLC and its subsidiaries, including Knoa Pharmaceuticals LLC and Rhodes Pharmaceuticals LLC, will have no affiliation with PPLP following implementation of the Plan. However, in the interest of transparency we note:

On October 21, 2020, PPLP entered a plea agreement with the United States Department of Justice ("DOJ") to resolve DOJ's criminal and civil investigations of PPLP*. Pursuant to the PPLP Plea Agreement, on November 24, 2020, PPLP pled guilty before the U.S. District Court for the District of New Jersey (the "NJ District Court") to three felony counts to resolve all potential criminal charges against PPLP and its subsidiaries and affiliates with respect to the production, sale, marketing and distribution of opioid products between May 2007 and the present. Neither KPLLC nor any of PPLP's subsidiaries were charged with any violations of law and none are parties to PPLP's resolution with the DOJ.

Under the terms of the PPLP Plea Agreement, PPLP is expected to be sentenced approximately seven days before the Plan becomes effective, which is currently anticipated to occur on or around May 1, 2026. A judgment of conviction will follow after PPLP's sentencing hearing is concluded.**

*The Plea Agreement and Civil Settlement Agreement comprising the proposed resolution are available at https://www.justice.gov/opa/press-release/file/1329576/download.

**While PPLP's guilty plea has been accepted by the NJ District Court, the PPLP Plea Agreement permits PPLP to withdraw its guilty plea in certain circumstances. Of remaining relevance, these include if: (1) the U.S. Department of Health and Human Services Office of Inspector General exercises, or states an intent to exercise, any available authority to exclude KPLLC from participation in federal healthcare programs; or (2) at sentencing, the NJ District Court rejects the Plea Agreement and the agreed disposition.

Statement Regarding Bankruptcy Emergence and Certain Disciplinary Actions

THE ANTICIPATED CHANGE OF CONTROL IS EXPECTED TO BE EFFECTIVE AS OF **MAY 1, 2026**, AS FURTHER DESCRIBED BELOW.

The answers provided in this application (including with respect to disciplinary matters) are expected to be true as of the date of effectiveness of the license requested. In addition, we provide the following in the interest of clarity.

On November 18, 2025, a plan of reorganization (the "Plan") was approved in the bankruptcy cases of Purdue Pharma LP ("PPLP") and its affiliates that are pending under the caption *In re Purdue Pharma L.P. et al.*, Case No. 19-23649 (SHL) (Bnkr. S.D.N.Y.) (the "Chapter 11 Cases"). Pursuant to the Plan, PPLP will not emerge from bankruptcy. Instead, substantially all of the assets of PPLP (including ownership of its current direct and indirect subsidiaries) will be transferred to Knoa Pharma LLC ("KPLLC"), a new entity that was formed to receive these assets. KPLLC, in turn, will be wholly owned by a 501(c)(4) non-profit foundation that will be formed prior to KPLLC's emergence from bankruptcy. As a result of the Plan's implementation, all of PPLP's current direct and indirect subsidiaries will become wholly owned by KPLLC, undergo a conversion to limited liability companies, and the subsidiary currently known as Purdue Pharmaceuticals L.P. will change its name to Knoa Pharmaceuticals LLC. The details of these changes are illustrated in diagrams on the succeeding pages.

KPLLC and its subsidiaries, including Knoa Pharmaceuticals LLC and Rhodes Pharmaceuticals LLC, will have no affiliation with PPLP following implementation of the Plan. However, in the interest of transparency we note:

1. On October 21, 2020, PPLP entered a plea agreement with the United States Department of Justice ("DOJ") to resolve DOJ's criminal and civil investigations of PPLP.[1] Pursuant to the PPLP Plea Agreement, on November 24, 2020, PPLP pled guilty before the U.S. District Court for the District of New Jersey (the "NJ District Court") to three felony counts to resolve all potential criminal charges against PPLP and its subsidiaries and affiliates with respect to the production, sale, marketing and distribution of opioid products between May 2007 and the present. Neither KPLLC nor any of PPLP's subsidiaries were charged with any violations of law and none are parties to PPLP's resolution with the DOJ.

   Under the terms of the PPLP Plea Agreement, PPLP is expected to be sentenced approximately seven days before the Plan becomes effective, which is currently anticipated

[1] The Plea Agreement and Civil Settlement Agreement comprising the proposed resolution are available at https://www.justice.gov/opa/press-release/file/1329576/download.

to occur on or around May 1, 2026. A judgment of conviction will follow after PPLP's sentencing hearing is concluded.[2]

2. Pursuant to the Chapter 11 Cases, a preliminary injunction is in effect that, among other things, enjoins proceedings relating to PPLP's prescription opioid business (including any actions brought by a governmental agency) that were or could have been commenced prior to the Chapter 11 Cases have been enjoined (the "Preliminary Injunction").

   Notwithstanding the foregoing, in April 2023, the State of Ohio Board of Pharmacy ("Ohio BOP") notified PPLP of a proposed disciplinary action ("Ohio Notice"), which alleges substantially similar facts or causes of action as those alleged in proceedings that are already subject to the Preliminary Injunction. Accordingly, we believe the Ohio Notice is enjoined by the Preliminary Injunction and does not constitute a pending action. Even if this is not the case, the Ohio Notice has no basis because it relies solely on PPLP's guilty plea which, pursuant to the PPLP Plea Agreement and as discussed in footnote 2 above, may be withdrawn prior to sentencing.

[2] While PPLP's guilty plea has been accepted by the NJ District Court, the PPLP Plea Agreement permits PPLP to withdraw its guilty plea in certain circumstances. Of remaining relevance, these include if: (1) the U.S. Department of Health and Human Services Office of Inspector General exercises, or states an intent to exercise, any available authority to exclude KPLLC from participation in federal healthcare programs; or (2) at sentencing, the NJ District Court rejects the Plea Agreement and the agreed disposition.

Knoa Pharma LLC, or "Knoa" will be a virtual manufacturer of prescription drugs for human use in compliance with current good manufacturing practices. Knoa will not physically handle trade product at its business office. Other locations will be used to manufacture and distribute its product. A subsidiary, Knoa Pharmaceuticals LLC (currently known as Purdue Pharmaceuticals L.P.), will be used to ship product on behalf of Knoa. Upon request, DEA registrations in the name of Knoa Pharmaceuticals LLC will be provided after they are received by Knoa Pharmaceuticals. The current DEA registration number for the shipping location is: RP0364137.

Upon the effectiveness of the change of control the labeler code 59011 will be transferred from Purdue Pharma L.P. to Knoa and the following products will be listed in the FDA drug listing database under the labeler code 59011.

Top four suppliers Knoa has been associated with in regard to pharmaceutical products sold, dispensed or distributed over the past year: Knoa does not sell, dispense or distribute pharmaceutical products directly to customers located in Nevada, but the following CMOs are used by Knoa:

WESTCHESTER FIRE INSURANCE COMPANY

BOND RIDER

This Bond Rider ("Rider") is to be attached to and made part of part of the Pharmaceutical Wholesaler Surety Bond **(each which bear bond number K13519031)**.

WHEREAS, Westchester Fire Insurance Company, ("Surety") as surety, issued and/or executed that certain Pharmaceutical Wholesaler Surety Bond (together with any and all rider(s) and/or amendment(s) thereto, individually and collectively, the "Bond"), bearing bond number K13519031, on behalf of Purdue Pharmaceuticals L.P., Rhodes Pharmaceuticals L.P. and Purdue Pharma L.P., as principals, in favor of the Nevada State Board of Pharmacy, as obligee, having a penal sum of $100,000.00; and,

WHEREAS, in connection with that certain Eighteenth Amended Joint Chapter 11 Plan of Purdue Pharma L.P. and its Affiliated Debtors [Docket No. 8233] (together with all plan supplements as amended, modified, or supplemented from time to time, the "Plan") entered in the chapter 11 bankruptcy case titled *In re Purdue Pharma L.P. et al.*; which is pending in the United States Bankruptcy Court for the Southern District of New York (Case No. 19-23649 (jointly administered)), and that certain Findings of Fact, Conclusions of Law, and Order Confirming the Eighteenth Amended Joint Chapter 11 Plan of Purdue Pharma L.P. and its Affiliated Debtors ("Confirmation Order") [Docket No. 8263] confirming the Plan and whereby the Plan was substantially consummated and became effective on May 1, 2026 [Docket No.9133]; and,

WHEREAS, pursuant to the Plan, there has been a change to the corporate structure of Purdue Pharma L.P. and its Debtor Affiliates whereby Knoa Pharma LLC, Rhodes Pharmaceuticals LLC and Knoa Pharmaceuticals LLC ("Knoa") are deemed Principals on the Bond, and whereas Purdue Pharma L.P. transferred all of its assets and business to Knoa Pharma LLC and is no longer operating, and Rhodes Pharmaceuticals L.P. and Purdue Pharmaceuticals L.P. each converted their respective form from a limited partnership to a limited liability company and Purdue Pharmaceuticals changed its name, and by execution of this Rider, Knoa consents to the terms set forth herein; and,

In consideration of matters and terms described herein, the Surety and Knoa (jointly, the "Parties") each hereby consent to changing the name/identity of the Principal on the Bond, as follows:

> From: Purdue Parma L.P., Rhodes Pharmaceuticals L.P. and Purdue Pharmaceuticals L.P.
>
> To: Knoa Pharma LLC, Rhodes Pharmaceuticals LLC and Knoa Pharmaceuticals LLC

Except for the change of the name/identity of the Principals on the Bond ("Name Change"), neither this Rider nor the Plan or Confirmation Order varies, alters or extends any provision or condition of the Bond. Except for the Name Change, the Bond remains in full force and effect from the date

of its initial issuance in accordance with and subject to the terms and conditions of the Bond, which Bond is/are incorporated herein as if fully set forth herein, and nothing herein or in the Plan or Confirmation Order shall limit or expand, in any manner, the Surety's obligations under or in connection with the Bond.

By its execution of this Rider and otherwise, Knoa represents, warrants and agrees that it has provided any and all necessary consents to the execution of this Rider.

Signatures on this Rider that are transmitted by facsimile or email (as well as PDF copies of signatures) shall be accepted and deemed to be original signatures for all purposes and shall be binding on the parties. This Rider may be executed in counterparts; proof of this executed Rider shall require production of only one such counterpart duly executed by the party to be charged therewith.

This Rider constitutes the whole of the understanding, discussions, and agreements by and between the Parties. The terms and provisions of this Rider are contractual and not mere recitals, unless the Rider does not become effective pursuant to the terms hereof. The Parties acknowledge and agree that there have been no oral, written or other agreements of any kind as a condition precedent to, or to induce its execution and delivery of, this Rider. Any written or oral discussions conducted prior to the Effective Date of this Rider shall not in any way vary or alter the terms of this Rider.

The modification, amendment and/or waiver of this Rider, or of any of the provisions of this Rider, shall not become effective unless executed in writing by the party to be charged with such modification, amendment and/or waiver, in each case by a duly authorized representative.

This Rider is effective May 1, 2026.

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. K13519031

Application/License No. _____

Purdue Pharmaceuticals L.P. (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 4701 Wilson Drive, Wilson, NC 27893 (Address of Applicant/Principal), as PRINCIPAL, and Westchester Fire Insurance Company (Surety Company), a corporation organized under the laws of the state of Pennsylvania (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is 436 Walnut Street, Philadelphia, PA 19106-3703 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of ONE HUNDRED THOUSAND DOLLARS ($100,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on March 08, 2018 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statutes (NRS) 639.515 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $100,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 8th day of March, 2018.

WESTCHESTER FIRE INSURANCE COMPANY

Know all men by these presents: That WESTCHESTER FIRE INSURANCE COMPANY, a corporation of the Commonwealth of Pennsylvania pursuant to the following Resolution, adopted by the Board of Directors of the said Company on December 11, 2006, to wit:

"RESOLVED, that the following authorizations relate to the execution, for and on behalf of the Company, of bonds, undertakings, recognizances, contracts and other written commitments of the Company entered into the ordinary course of business (each a "Written Commitment"):

(1) Each of the Chairman, the President and the Vice Presidents of the Company is hereby authorized to execute any Written Commitment for and on behalf of the Company, under the seal of the Company or otherwise.

(2) Each duly appointed attorney-in-fact of the Company is hereby authorized to execute any Written Commitment for and on behalf of the Company, under the seal of the Company or otherwise, to the extent that such action is authorized by the grant of powers provided for in such persons written appointment as such attorney-in-fact.

(3) Each of the Chairman, the President and the Vice Presidents of the Company is hereby authorized, for and on behalf of the Company, to appoint in writing any person the attorney-in-fact of the Company with full power and authority to execute, for and on behalf of the Company, under the seal of the Company or otherwise, such Written Commitments of the Company as may be specified in such written appointment, which specification may be by general type or class of Written Commitments or by specification of one or more particular Written Commitments.

(4) Each of the Chairman, the President and Vice Presidents of the Company is hereby authorized, for and on behalf of the Company, to delegate in writing any other officer of the Company the authority to execute, for and on behalf of the Company, under the Company's seal or otherwise, such Written Commitments of the Company as are specified in such written delegation, which specification may be by general type or class of Written Commitments or by specification of one or more particular Written Commitments.

(5) The signature of any officer or other person executing any Written Commitment or appointment or delegation pursuant to this Resolution, and the seal of the Company, may be affixed by facsimile on such Written Commitment or written appointment or delegation.

FURTHER RESOLVED, that the foregoing Resolution shall not be deemed to be an exclusive statement of the powers and authority of officers, employees and other persons to act for and on behalf of the Company, and such Resolution shall not limit or otherwise affect the exercise of any such power or authority otherwise validly granted or vested.

Does hereby nominate, constitute and appoint Annette Leuschner, April D Perez, James P Holland, Jessica Iannotta, Kelly O'Malley, Kristin S Bender, Marisol Mojica, Theresa Giraldo all of the City of MORRISTOWN, New Jersey, each individually if there be more than one named, its true and lawful attorney-in-fact, to make, execute, seal and deliver on its behalf, and as its act and deed any and all bonds, undertakings, recognizances, contracts and other writings in the nature thereof in penalties not exceeding SEVENTY MILLION DOLLARS & ZERO CENTS ($70,000,000.00) and the execution of such writings in pursuance of these presents shall be as binding upon said Company, as fully and amply as if they had been duly executed and acknowledged by the regularly elected officers of the Company at its principal office,

IN WITNESS WHEREOF, the said Stephen M. Haney, Vice-President, has hereunto subscribed his name and affixed the Corporate seal of the said WESTCHESTER FIRE INSURANCE COMPANY this 3 day of October 2017

10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✓

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

This is in response to Question # 5. Provide all the following *where applicable*:

Date of Event/Arrest	Disposition Date	State	City	County
10/21/2020	TBD	NJ		
Case #		**Governing, licensing, Arresting Presiding Body/Agency/Court**		
		US District Court for the District of New Jersey		
Reason/Charge				
Plea agreement				
Plaintiff/Defendant/Claimant/Respondent			**Lawsuit/Arbitration/Bankruptcy**	
US Department of Justice / Purdue Pharma L.P.				
Name of Business/Industry/Entity				
Purdue Pharma L.P.				

Provide explanation below:

The Designated Representative worked for Purdue Pharma L.P. ("PPLP"). PPLP has a significant number of active product liability claims and litigations with various jurisdictions in the U.S., specifically related to opioid products. In order to resolve these litigations, on September 15, 2019, PPLP and certain of its subsidiaries commenced voluntary cases under Chapter 11 of title 11 of the United States Code (the "Bankruptcy Code") in the United States Bankruptcy Court for the Southern District of New York (the "Bankruptcy Court") which are pending under the caption In re Purdue Pharma L.P. et al., Case No. 19-23649 (SHL) (Bnkr. S.D.N.Y.), as more fully described in Attachment A of the application.

This is in response to Question # 6. Provide all the following *where applicable*:

Date of Event/Arrest	Disposition Date	State	City	County
4/5/2023	TBD	OH		
Case #		**Governing, licensing, Arresting Presiding Body/Agency/Court**		
A-2020-0777		Ohio Board of Pharmacy		
Reason/Charge				
Proposed disciplinary action				
Plaintiff/Defendant/Claimant/Respondent			**Lawsuit/Arbitration/Bankruptcy**	
Ohio Board of Pharmacy / Purdue Pharma L.P.				
Name of Business/Industry/Entity				
Purdue Pharma L.P.				

Provide explanation below:

Pursuant to the Chapter 11 Cases, a preliminary injunction is in effect that, among other things, enjoins proceedings relating to PPLP's prescription opioid business (including any actions brought by a governmental agency) that were or could have been commenced prior to the Chapter 11 Cases have been enjoined (the "Preliminary Injunction").

Notwithstanding the foregoing, in April 2023, the State of Ohio Board of Pharmacy ("Ohio BOP") notified PPLP of a proposed disciplinary action ("Ohio Notice"), which alleges substantially similar facts or causes of action as those alleged in proceedings that are already subject to the Preliminary Injunction. Accordingly, we believe the Ohio Notice is enjoined by the Preliminary Injunction and does not constitute a pending action. Even if this is not the case, the Ohio Notice has no basis because it relies solely on PPLP's guilty plea which, pursuant to the PPLP Plea Agreement and as discussed in footnote 2 above, may be withdrawn prior to sentencing.

Statement Regarding Bankruptcy Emergence and Certain Disciplinary Actions

THE ANTICIPATED CHANGE OF CONTROL IS EXPECTED TO BE EFFECTIVE AS OF **MAY 1, 2026**, AS FURTHER DESCRIBED BELOW.

The answers provided in this application (including with respect to disciplinary matters) are expected to be true as of the date of effectiveness of the license requested. In addition, we provide the following in the interest of clarity.

On November 18, 2025, a plan of reorganization (the "Plan") was approved in the bankruptcy cases of Purdue Pharma LP ("PPLP") and its affiliates that are pending under the caption *In re Purdue Pharma L.P. et al.*, Case No. 19-23649 (SHL) (Bnkr. S.D.N.Y.) (the "Chapter 11 Cases"). Pursuant to the Plan, PPLP will not emerge from bankruptcy. Instead, substantially all of the assets of PPLP (including ownership of its current direct and indirect subsidiaries) will be transferred to Knoa Pharma LLC ("KPLLC"), a new entity that was formed to receive these assets. KPLLC, in turn, will be wholly owned by a 501(c)(4) non-profit foundation that will be formed prior to KPLLC's emergence from bankruptcy. As a result of the Plan's implementation, all of PPLP's current direct and indirect subsidiaries will become wholly owned by KPLLC, undergo a conversion to limited liability companies, and the subsidiary currently known as Purdue Pharmaceuticals L.P. will change its name to Knoa Pharmaceuticals LLC. The details of these changes are illustrated in diagrams on the succeeding pages.

KPLLC and its subsidiaries, including Knoa Pharmaceuticals LLC and Rhodes Pharmaceuticals LLC, will have no affiliation with PPLP following implementation of the Plan. However, in the interest of transparency we note:

1. On October 21, 2020, PPLP entered a plea agreement with the United States Department of Justice ("DOJ") to resolve DOJ's criminal and civil investigations of PPLP.[1] Pursuant to the PPLP Plea Agreement, on November 24, 2020, PPLP pled guilty before the U.S. District Court for the District of New Jersey (the "NJ District Court") to three felony counts to resolve all potential criminal charges against PPLP and its subsidiaries and affiliates with respect to the production, sale, marketing and distribution of opioid products between May 2007 and the present. Neither KPLLC nor any of PPLP's subsidiaries were charged with any violations of law and none are parties to PPLP's resolution with the DOJ.

   Under the terms of the PPLP Plea Agreement, PPLP is expected to be sentenced approximately seven days before the Plan becomes effective, which is currently anticipated

[1] The Plea Agreement and Civil Settlement Agreement comprising the proposed resolution are available at https://www.justice.gov/opa/press-release/file/1329576/download.

to occur on or around May 1, 2026. A judgment of conviction will follow after PPLP's sentencing hearing is concluded.[2]

2. Pursuant to the Chapter 11 Cases, a preliminary injunction is in effect that, among other things, enjoins proceedings relating to PPLP's prescription opioid business (including any actions brought by a governmental agency) that were or could have been commenced prior to the Chapter 11 Cases have been enjoined (the "Preliminary Injunction").

   Notwithstanding the foregoing, in April 2023, the State of Ohio Board of Pharmacy ("Ohio BOP") notified PPLP of a proposed disciplinary action ("Ohio Notice"), which alleges substantially similar facts or causes of action as those alleged in proceedings that are already subject to the Preliminary Injunction. Accordingly, we believe the Ohio Notice is enjoined by the Preliminary Injunction and does not constitute a pending action. Even if this is not the case, the Ohio Notice has no basis because it relies solely on PPLP's guilty plea which, pursuant to the PPLP Plea Agreement and as discussed in footnote 2 above, may be withdrawn prior to sentencing.

[2] While PPLP's guilty plea has been accepted by the NJ District Court, the PPLP Plea Agreement permits PPLP to withdraw its guilty plea in certain circumstances. Of remaining relevance, these include if: (1) the U.S. Department of Health and Human Services Office of Inspector General exercises, or states an intent to exercise, any available authority to exclude KPLLC from participation in federal healthcare programs; or (2) at sentencing, the NJ District Court rejects the Plea Agreement and the agreed disposition.

WHEREAS, Westchester Fire Insurance Company, ("Surety") as surety, issued and/or executed that certain Pharmaceutical Wholesaler Surety Bond (together with any and all rider(s) and/or amendment(s) thereto, individually and collectively, the "Bond"), bearing bond number K13519031, on behalf of Purdue Pharmaceuticals L.P., Rhodes Pharmaceuticals L.P. and Purdue Pharma L.P., as principals, in favor of the Nevada State Board of Pharmacy, as obligee, having a penal sum of $100,000.00; and,

WHEREAS, in connection with that certain Eighteenth Amended Joint Chapter 11 Plan of Purdue Pharma L.P. and its Affiliated Debtors [Docket No. 8233] (together with all plan supplements as amended, modified, or supplemented from time to time, the "Plan") entered in the chapter 11 bankruptcy case titled *In re Purdue Pharma L.P. et al.*; which is pending in the United States Bankruptcy Court for the Southern District of New York (Case No. 19-23649 (jointly administered)), and that certain Findings of Fact, Conclusions of Law, and Order Confirming the Eighteenth Amended Joint Chapter 11 Plan of Purdue Pharma L.P. and its Affiliated Debtors ("Confirmation Order") [Docket No. 8263] confirming the Plan and whereby the Plan was substantially consummated and became effective on May 1, 2026 [Docket No.9133]; and,

WHEREAS, pursuant to the Plan, there has been a change to the corporate structure of Purdue Pharma L.P. and its Debtor Affiliates whereby Knoa Pharma LLC, Rhodes Pharmaceuticals LLC and Knoa Pharmaceuticals LLC ("Knoa") are deemed Principals on the Bond, and whereas Purdue Pharma L.P. transferred all of its assets and business to Knoa Pharma LLC and is no longer operating, and Rhodes Pharmaceuticals L.P. and Purdue Pharmaceuticals L.P. each converted their respective form from a limited partnership to a limited liability company and Purdue Pharmaceuticals changed its name, and by execution of this Rider, Knoa consents to the terms set forth herein; and,

In consideration of matters and terms described herein, the Surety and Knoa (jointly, the "Parties") each hereby consent to changing the name/identity of the Principal on the Bond, as follows:

> From: Purdue Parma L.P., Rhodes Pharmaceuticals L.P. and Purdue Pharmaceuticals L.P.
>
> To: Knoa Pharma LLC, Rhodes Pharmaceuticals LLC and Knoa Pharmaceuticals LLC

Except for the change of the name/identity of the Principals on the Bond ("Name Change"), neither this Rider nor the Plan or Confirmation Order varies, alters or extends any provision or condition of the Bond. Except for the Name Change, the Bond remains in full force and effect from the date

of its initial issuance in accordance with and subject to the terms and conditions of the Bond, which Bond is/are incorporated herein as if fully set forth herein, and nothing herein or in the Plan or Confirmation Order shall limit or expand, in any manner, the Surety's obligations under or in connection with the Bond.

By its execution of this Rider and otherwise, Knoa represents, warrants and agrees that it has provided any and all necessary consents to the execution of this Rider.

Signatures on this Rider that are transmitted by facsimile or email (as well as PDF copies of signatures) shall be accepted and deemed to be original signatures for all purposes and shall be binding on the parties. This Rider may be executed in counterparts; proof of this executed Rider shall require production of only one such counterpart duly executed by the party to be charged therewith.

This Rider constitutes the whole of the understanding, discussions, and agreements by and between the Parties. The terms and provisions of this Rider are contractual and not mere recitals, unless the Rider does not become effective pursuant to the terms hereof. The Parties acknowledge and agree that there have been no oral, written or other agreements of any kind as a condition precedent to, or to induce its execution and delivery of, this Rider. Any written or oral discussions conducted prior to the Effective Date of this Rider shall not in any way vary or alter the terms of this Rider.

The modification, amendment and/or waiver of this Rider, or of any of the provisions of this Rider, shall not become effective unless executed in writing by the party to be charged with such modification, amendment and/or waiver, in each case by a duly authorized representative.

This Rider is effective May 1, 2026.

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. K13519031

Application/License No. _____

Purdue Pharmaceuticals L.P. (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 4701 Wilson Drive, Wilson, NC 27893 (Address of Applicant/Principal), as PRINCIPAL, and Westchester Fire Insurance Company (Surety Company), a corporation organized under the laws of the state of Pennsylvania (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is 436 Walnut Street, Philadelphia, PA 19106-3703 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of ONE HUNDRED THOUSAND DOLLARS ($100,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on March 08, 2018 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statutes (NRS) 639.515 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $100,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 8th day of March, 2018.

CERTIFICATION

Resolutions adopted by the Boards of Directors of FEDERAL INSURANCE COMPANY, VIGILANT INSURANCE COMPANY, and PACIFIC INDEMNITY COMPANY on August 30, 2016; WESTCHESTER FIRE INSURANCE COMPANY on December 11, 2006; and ACE AMERICAN INSURANCE COMPANY on March 20, 2009:

"RESOLVED, that the following authorizations relate to the execution for and on behalf of the Company, of bonds, undertakings, recognizances, contracts and other written commitments of the Company entered into in the ordinary course of business (each a "Written Commitment"):

(1) Each of the Chairman, the President and the Vice Presidents of the Company is hereby authorized to execute any Written Commitment for and on behalf of the Company, under the seal of the Company or otherwise.

(2) Each duly appointed attorney-in-fact of the Company is hereby authorized to execute any Written Commitment for and on behalf of the Company, under the seal of the Company or otherwise, to the extent that such action is authorized by the grant of powers provided for in such person's written appointment as such attorney-in-fact.

(3) Each of the Chairman, the President and the Vice Presidents of the Company is hereby authorized, for and on behalf of the Company, to appoint in writing any person the attorney-in-fact of the Company with full power and authority to execute, for and on behalf of the Company, under the seal of the Company or otherwise, such Written Commitments of the Company as may be specified in such written appointment, which specification may be by general type or class of Written Commitments or by specification of one or more particular Written Commitments.

(4) Each of the Chairman, the President and the Vice Presidents of the Company is hereby authorized, for and on behalf of the Company, to delegate in writing to any other officer of the Company the authority to execute, for and on behalf of the Company, under the Company's seal or otherwise, such Written Commitments of the Company as are specified in such written delegation, which specification may be by general type or class of Written Commitments or by specification of one or more particular Written Commitments.

(5) The signature of any officer or other person executing any Written Commitment or appointment or delegation pursuant to this Resolution, and the seal of the Company, may be affixed by facsimile on such Written Commitment or written appointment or delegation.

FURTHER RESOLVED, that the foregoing Resolution shall not be deemed to be an exclusive statement of the powers and authority of officers, employees and other persons to act for and on behalf of the Company, and such Resolution shall not limit or otherwise affect the exercise of any such power or authority otherwise validly granted or vested."

I, Rupert HD Swindells, Assistant Secretary of FEDERAL INSURANCE COMPANY, VIGILANT INSURANCE COMPANY, PACIFIC INDEMNITY COMPANY, WESTCHESTER FIRE INSURANCE COMPANY and ACE AMERICAN INSURANCE COMPANY (the "Companies") do hereby certify that

(i) the foregoing Resolutions adopted by the Board of Directors of the Companies are true, correct and in full force and effect,
(ii) the foregoing Power of Attorney is true, correct and in full force and effect.

Given under my hand and seals of said Companies at Whitehouse Station, NJ, this June 13, 2024

US Department of Justice / Purdue Pharma L.P.				
Name of Business/Industry/Entity				
Purdue Pharma L.P.				

Provide explanation below:

Purdue Pharmaceuticals L.P. is a direct subsidiary of Purdue Pharma L.P. ("PPLP"). On 10/21/20, PPLP entered into an agreement with the United States Department of Justice ("DOJ") to resolve DOJ's criminal and civil investigations of PPLP, including a criminal plea agreement (the "PPLP Plea Agreement"). Pursuant to the PPLP Plea Agreement, on 11/24/20, PPLP pled guilty to three felony counts to resolve all potential criminal charges against PPLP and its subsidiaries and affiliates with respect to the production, sale, marketing and distribution of opioid products between May 2007 and the present.

PPLP's sentencing hearing is currently scheduled for April 21, 2026 and a judgment of conviction will not be entered until after PPLP's sentencing hearing. Pursuant to the terms of PPLP Plea Agreement and the Plan of Reorganization confirmed in the pending Chapter 11 bankruptcy cases involving PPLP and its affiliates, Knoa Pharma LLC - a new entity formed to hold the assets of PPLP, including its ownership interests in subsidiaries - is expected to emerge from bankruptcy approximately seven days after the sentencing hearing. The PPLP Plea Agreement also permits PPLP to withdraw its guilty plea in certain circumstances prior to the sentencing hearing.

Case No: 22-5027 *City, State:* Jefferson, Louisiana *Arrest Date:* 11/09/2022

To whom it may concern,

I am submitting this statement to provide context regarding a misdemeanor conviction from 2022 and to express my sincere remorse for the decisions that led to that incident. In 2022, I was convicted of misdemeanor trespassing and possession of a Schedule II controlled substance. The incident occurred while I was with individuals who were a negative influence in my life. I was present in a residence where I did not have permission to be, and I was found in possession of a Schedule II controlled substance. Although there were circumstances surrounding the incident that involved poor judgment and being associated with the wrong people, I understand that I am ultimately responsible for the choices I made that day. I take full accountability for my actions and deeply regret the decisions that led to my arrest and conviction.

That experience became a turning point in my life. I recognized that I needed to make significant changes, and I made the decision to seek help by completing a rehabilitation program. During that process, I learned the importance of accountability, healthy decision-making, and taking responsibility for my actions. My recovery gave me a new perspective on life and strengthened my commitment to living with integrity and purpose.

After successfully completing rehabilitation, I chose to continue giving back by volunteering at the rehabilitation center that helped me through my recovery. Supporting others as they worked toward rebuilding their lives was an incredibly meaningful experience. It reinforced my desire to help people, serve my community, and live a life that reflects compassion, responsibility, and honesty.

Since my conviction in 2022, I have remained out of legal trouble and have dedicated myself to becoming a responsible, dependable, and trustworthy individual. I understand that trust must be earned through consistent actions, and I have worked hard to demonstrate my commitment to personal growth and positive change every day.

I am passionate about becoming a Pharmacy Technician because I want to build a career centered on helping others. Pharmacy professionals play an essential role in ensuring patients receive safe and accurate medications, and I understand the responsibility that comes with that position. My past experiences have taught me the importance of accountability, ethical decision-making, and following all laws, policies, and professional standards. These lessons have shaped the person I am today and have motivated me to pursue a career where I can make a positive impact on the lives of others.I respectfully ask that my application be considered in light of the substantial growth and rehabilitation I have demonstrated since 2022. While I cannot change my past, I have learned from it, accepted responsibility for it, and committed myself to living a life defined by integrity, service, and accountability. I am dedicated to earning the trust of the Board, my future employer, my coworkers, and the patients I hope to serve.

Thank you for your time and consideration.

To Whom It May Concern:

The above defendant was sentenced by the Honorable RAYMOND STEIB, Judge of the 24TH JUDICIAL DISTRICT Court, Parish of JEFFERSON, State of Louisiana, under the above listed docket number(s) for the crime(s) of:

SCHEDULE II POSSESSION

According to the Department of Public Safety and Corrections, Division of Probation and Parole records, said defendant completed this sentence on DECEMBER 15, 2023 and is classified as a first felony offender and, meets the requirements to receive a first offender pardon as provided by Article 1, Section 20, and Article 4, Section 5(E) (1), of the Louisiana Constitution.

The automatic first offender pardon does not restore you to a state of innocence. A full pardon granted by the Governor of the State of Louisiana will restore you to a state of innocence. The automatic first offender pardon is still subject to laws prohibiting the right to receive, possess or transport a firearm. Additionally, you may be subject to the Federal firearms prohibitions. Any questions regarding these legal provisions should be directed to your attorney or the FBI-NICS section.

The first offender pardon is also subject to Louisiana Constitution Article 1, Section 10 (C) and does not restore the right to qualify as a candidate for elective public office or take public office or appointment of honor, trust, or profit for a period of more than fifteen (15) years after completion of the original sentence.

This pardon does not constitute a waiver of any unpaid court costs, restitution, or past probation and parole fees. Under Act 399 of the 2013 Louisiana Regular Legislative Session, any debt owed by you to the Department of Public Safety and Corrections and/or the Louisiana Parole Board will be filed as a claim with the Department of Revenue, Office of Debt Recovery (ODR) for further collection activity. ODR may charge an additional collection fee up to 25% to be added to your current debt. ODR may also file a claim with the United States Treasury Program. All payments "eligible for offset" will be seized, up to the amount of your liability plus any additional fees.

This is in response to Question # 5:1. **Provide all the following *where applicable*:**

Date of Event/Arrest	Disposition Date	State	City	County
July 2025	Compliant	NV	Las Vegas	Clark
Case #		**Governing, licensing, Arresting Presiding Body/Agency/Court**

Voluntary treatment related to alcohol use; no charge				
Plaintiff/Defendant/Claimant/Respondent		**Lawsuit/Arbitration/Bankruptcy**		
n/a		n/a		
Name of Business/Industry/Entity				
Nevada Professionals Health Program				

Provide explanation below:

I am answering "Yes" out of an abundance of caution based on the wording of this question. In 2025, following my arrest for impaired driving involving THC (not alcohol, please see explanation 5:2), I engaged in significant self-reflection and voluntarily sought treatment related to my alcohol use. Although alcohol was not involved in the arrest, the event prompted me to evaluate my overall health and well-being and to pursue treatment proactively. At no time did I practice medicine while under the influence of alcohol or THC. I do not believe that my use of alcohol or THC impaired my ability to perform the essential functions of my medical license, and there were no clinical events, patient safety concerns, or allegations of impairment related to my medical practice. I completed the recommended treatment, currently participate in the Nevada Professionals Health Program, remain fully compliant with all monitoring requirements, and have no current substance use or impairment affecting my ability to practice medicine safely.

I authorize the Nevada State Board of Pharmacy to contact Mark Chase, Ph.D., Executive Director of the Nevada Professionals Health Program, regarding my participation in and compliance with the Nevada Professionals Health Program. Dr. Chase may verify my compliance with the program and provide information regarding my current monitoring status and ability to practice medicine safely.

Provide explanation below:

In July 2025, I briefly fell asleep while stopped at a traffic signal, which resulted in a traffic stop. There was no motor vehicle collision, no injuries, and no alcohol involvement. Laboratory testing was positive only for THC. The matter was resolved on January 7, 2026, by a plea to misdemeanor impaired driving. I have fully complied with all court requirements, voluntarily obtained treatment, remain compliant with the Nevada Professionals Health Program (NVPHP), and do not currently use alcohol or THC. Please reference response to 5:1 for additional details regarding NVPHP.

To Whom It May Concern,

I am submitting this statement to accompany the attached court disposition and lawyer communication regarding a Utah impaired driving matter.

This matter arose from a non-clinical driving incident on July 22, 2025. The impaired-driving matter was THC-related, not alcohol-related. There was no alcohol involved, no accident, no injury, and no patient-care or clinical involvement of any kind. I was not using or consuming marijuana at the time of the encounter.

The matter was resolved in Washington County Justice Court as a Class B misdemeanor impaired driving conviction. Associated additional charges were dismissed, as reflected in the attached court documentation.

I take this matter seriously and understand why it requires disclosure and review in the credentialing process. I am complying with the court's requirements. I have reported the matter to the state medical boards for the licenses I hold, as required. I have also voluntarily enrolled in the Nevada Physician Health Program and am fully compliant with its monitoring and follow-up requirements.

There has been no clinical impairment, no adverse patient-care event, and no limitation on my commitment to safe, professional medical practice. I remain committed to full transparency, compliance with all monitoring and reporting requirements, and maintaining the highest standards of judgment, professionalism, and patient safety.

Please let me know if any additional documentation or clarification would be helpful.

Sincerely,

Jaywant Parmar, MD

RE: Case Resolution Addendum

To Whom it May Concern,

This addendum serves to confirm the resolution of the case referenced in my prior correspondence. On January 7, 2026, Mr. Jaywant Parmar was convicted of a single Class B misdemeanor charge of impaired driving in Washington County Justice Court.

Mr. Parmar is fully compliant with all court-mandated requirements, which do not include incarceration. It is pertinent to highlight that this matter did not involve patient care, clinical impairment, or any actions that would compromise professional standards or workplace conduct. Should you require further documentation or clarification regarding this matter, please feel free to contact me directly.

Very truly yours,

PALMER LITIGATION

State of Nevada

Executive Department

Executive Order 2026-003

Order Requiring a Review of Existing Regulations by All Executive Branch Agencies, Departments, Boards, and Commissions

WHEREAS, *state regulations should protect workers, consumers, and the environment, while promoting entrepreneurship and economic growth; and*

WHEREAS, *state regulations can become outdated, result in unintended consequences, create conflicts, or impose an unnecessary burden on citizens, businesses, or government entities; and*

WHEREAS, *it is in the best interest of the state of Nevada that its regulatory environment be concise, transparent, stable, balanced, predictable, and thoughtfully constructed; and*

WHEREAS, *Nevada's current regulatory structure is too often unfocused and inefficient, contains regulations that are obsolete, and includes regulations that are unnecessarily onerous, thereby limiting the economic potential of the State; and*

WHEREAS, *Executive Order 2023-003 was a critically necessary first step in addressing Nevada's outdated, inefficient regulatory structure by streamlining, clarifying, and reducing over 900 unnecessarily burdensome regulations; and*

WHEREAS, *the continued, thoughtful review of Nevada's regulations should be driven by citizen and industry input, including an initial meeting to garner stakeholder feedback, receive recommendations, and engage in nuanced discussions regarding regulations that should be considered for revision or removal (to improve the general welfare and foster innovation); and*

WHEREAS, *Article 5, Section 1 of the Nevada Constitution provides that, "The Supreme Executive Power of this State shall be vested in a Chief Magistrate who shall be Governor of the State of Nevada;*

NOW, THEREFORE, by the authority vested in me as Governor by the Constitution and laws of the State of Nevada, it is hereby ordered as follows:

SECTION 1:

Every executive branch department, agency, board, and commission shall hold a public hearing, after having provided reasonable notice consistent with Chapter 241 of the Nevada Revised Statutes, to key industry stakeholders, to: (i) solicit from those stakeholders recommendations regarding regulations that should be streamlined, clarified, or removed; (ii) undertake a comprehensive review of the regulations subject to its enforcement; and (iii) identify other regulatory changes the subject department, agency, board, or commission determines worthy of consideration. Any meeting(s) necessary to carry out the directives in this Section must be held no later than October 29, 2026.

SECTION 2:

After receiving the comprehensive stakeholder input described in Section 1, every executive branch department, agency, board, and commission shall substantively review the regulations discussed and/or proposed for revision or removal during those meetings. On or before December 31, 2026, each department, agency, board, and commission shall provide a report to the Governor's office detailing how the regulations subject to its enforcement can be streamlined, clarified, reduced, or otherwise improved to ensure those regulations provide for the general welfare of the State without unnecessarily inhibiting economic growth.

SECTION 3:

As part of its report, every executive branch department, agency, board, and commission shall provide a list of between five (5) and ten (10) regulations recommended for such consideration, ranking them in descending order of priority. Additionally, each report shall include a description of: (i) any recommendations raised by stakeholders; (ii) whether those recommendations were accepted and incorporated into the department's, agency's, board's, or commission's final recommendation; and (iii) if those recommendations were not incorporated, an explanation for that non-incorporation.

SECTION 4:

Reports shall be emailed to the Governor's Office at regreview@gov.nv.gov no later than December 31, 2026. Any questions from any executive branch department, agency, board, or commission regarding reporting obligations should be sent to the same address.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of Nevada to be affixed at the State Capitol in Carson City, this 17th day of August, in the year two thousand twenty-six.
