BOND
(License or Permit – Continuous)

Bond No. 800208327
Bond supercedes GCNA Bond#14112414
KNOW ALL MEN BY THESE PRESENTS:

THAT WE, BIORIDGE PHARMA, LLC
as Principal, and ATLANTIC SPECIALTY INSURANCE COMPANY, a corporation duly incorporated under the laws of the State of New York and authorized to do business in the State of New Jersey, as Surety, are held and firmly bound unto Nevada State Board of Pharmacy,
as Obligee, in the penal sum of One Hundred Thousand Dollars ($100,000) Dollars, for the payment of which we hereby bind ourselves, our heirs, executors and administrators, jointly and severally, firmly by these presents.

WHEREAS, the Principal has obtained or is about to obtain a license or permit for wholesale distributor or permit/permit holder

NOW, THEREFORE, THE CONDITIONS OF THIS OBLIGATION ARE SUCH, that if the Principal shall faithfully comply with all applicable laws, statutes, ordinances, rules or regulations, pertaining to the license or permit issued, then this obligation shall be null and void; otherwise to remain in full force and effect.

This bond shall become effective on June 30, 2026

PROVIDED, that regardless of the number of years this bond is in force, the Surety shall not be liable hereunder for a larger amount, in the aggregate, than the penal sum listed above.

PROVIDED FURTHER, that the Surety may terminate its liability hereunder as to future acts of the Principal at any time by giving thirty (30) days written notice of such termination to the Obligee.

SIGNED, SEALED AND DATED this 5th day of August, 2026.

Power of Attorney

KNOW ALL MEN BY THESE PRESENTS, that ATLANTIC SPECIALTY INSURANCE COMPANY, a New York corporation with its principal office in Plymouth, Minnesota, does hereby constitute and appoint: **Anthony Melnick, Mark Horta, Matthew J. Swanick, William J. Paterno**, each individually if there be more than one named, its true and lawful Attorney-in-Fact, to make, execute, seal and deliver, for and on its behalf as surety, any and all bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof; provided that no bond or undertaking executed under this authority shall exceed in amount the sum of: **unlimited** and the execution of such bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof in pursuance of these presents, shall be as binding upon said Company as if they had been fully signed by an authorized officer of the Company and sealed with the Company seal. This Power of Attorney is made and executed by authority of the following resolutions adopted by the Board of Directors of ATLANTIC SPECIALTY INSURANCE COMPANY on the twenty-fifth day of September, 2012:

Resolved: That the President, any Senior Vice President or Vice-President (each an "Authorized Officer") may execute for and in behalf of the Company any and all bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof, and affix the seal of the Company thereto; and that the Authorized Officer may appoint and authorize an Attorney-in-Fact to execute on behalf of the Company any and all such instruments and to affix the Company seal thereto; and that the Authorized Officer may at any time remove any such Attorney-in-Fact and revoke all power and authority given to any such Attorney-in-Fact.

Resolved: That the Attorney-in-Fact may be given full power and authority to execute for and in the name and on behalf of the Company any and all bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof, and any such instrument executed by any such Attorney-in-Fact shall be as binding upon the Company as if signed and sealed by an Authorized Officer and, further, the Attorney-in-Fact is hereby authorized to verify any affidavit required to be attached to bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof.

This power of attorney is signed and sealed by facsimile under the authority of the following Resolution adopted by the Board of Directors of ATLANTIC SPECIALTY INSURANCE COMPANY on the twenty-fifth day of September, 2012:

Resolved: That the signature of an Authorized Officer, the signature of the Secretary or the Assistant Secretary, and the Company seal may be affixed by facsimile to any power of attorney or to any certificate relating thereto appointing an Attorney-in-Fact for purposes only of executing and sealing any bond, undertaking, recognizance or other written obligation in the nature thereof, and any such signature and seal where so used, being hereby adopted by the Company as the original signature of such officer and the original seal of the Company, to be valid and binding upon the Company with the same force and effect as though manually affixed.

IN WITNESS WHEREOF, ATLANTIC SPECIALTY INSURANCE COMPANY has caused these presents to be signed by an Authorized Officer and the seal of the Company to be affixed this first day of January, 2026.

RE: BioRidge Pharma, LLC (WH01667)
Change of Ownership Deficiency Application Deficiency

The following statement is made in response to the change of ownership application deficiency for BioRidge Pharma, LLC (herein referred to as "License"), NV License No.WH01667.

DEFICIENCY: The Designated Representative did not list any experience in a pharmacy, or with a wholesaler in a capacity related to the dispensing and distribution of, and/or recordkeeping relating to, prescription drugs. The only experience listed is Head of Finance(section7), therefore they do not meet the requirements.

STATEMENT: I, Robert Anderson, have been a resolute employee of BioRidge Pharma LLC since 2010. In this capacity as Head of Finance, I have accumulated over 6,000 hours of experience directly relevant to the distribution, recordkeeping, and operation oversight of prescription drugs within the pharmaceutical industry.

BioRidge Pharma, LLC is a **virtual** wholesaler of prescription drugs. The facility does not store, ship or otherwise physically handle any prescription drug products.

My professional responsibilities encompass critical functions that ensure the integrity and safety of the pharmaceutical supply chain, including:

- **Regulatory Compliance & Audit:** He maintains direct oversight of financial compliance and audit functions, ensuring that all operations adhere strictly to complex pharmaceutical regulatory requirements.
- **Operational Oversight:** As a strategic leader within our specialty drug distribution organization, his role includes managing risk and driving operational efficiency essential for complaint drug distribution.
- **Financial Stewardship:** His management of financial reporting and planning is integral to the entire lifecycle of pharmaceutical product distribution and the rigorous recordkeeping required by law.

I do solemnly affirm that the above statement is true and accurate to the best of my knowledge.

Robert Anderson
Chief Financial Officer

Section 7: A designated representative must provide proof that he or she has been employed for at least 6,000 hours in pharmacies (NAC 639.5005) or wholesalers (NAC 639.5935) in a capacity related to the dispensing and distribution of, and record keeping related to, prescription drugs. Beginning with the most current, list your hours of employment related to the above.

Electronic Record and Signature Disclosure

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, REAL Solutions Group (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a $0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

How to contact REAL Solutions Group:

You may contact us to let us know of your changes as to how we may contact you electronically, to request paper copies of certain information from us, and to withdraw your prior consent to receive notices and disclosures electronically as follows:
To contact us by email send messages to: help@realsolutionsgroup.co

To advise REAL Solutions Group of your new email address

To let us know of a change in your email address where we should send notices and disclosures electronically to you, you must send an email message to us at help@realsolutionsgroup.co and in the body of such request you must state: your previous email address, your new email address. We do not require any other information from you to change your email address.

If you created a DocuSign account, you may update it with your new email address through your account preferences.

To request paper copies from REAL Solutions Group

To request delivery from us of paper copies of the notices and disclosures previously provided by us to you electronically, you must send us an email to help@realsolutionsgroup.co and in the body of such request you must state your email address, full name, mailing address, and telephone number. We will bill you for any fees at that time, if any.

To withdraw your consent with REAL Solutions Group

To inform us that you no longer wish to receive future notices and disclosures in electronic format you may:

i. decline to sign a document from within your signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may;

ii. send us an email to help@realsolutionsgroup.co and in the body of such request you must state your email, full name, mailing address, and telephone number. We do not need any other information from you to withdraw consent.. The consequences of your withdrawing consent for online documents will be that transactions may take a longer time to process..

Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current system requirements are found here: https://support.docusign.com/guides/signer-guide-signing-system-requirements.

Acknowledging your access and consent to receive and sign documents electronically

To confirm to us that you can access this information electronically, which will be similar to other electronic notices and disclosures that we will provide to you, please confirm that you have read this ERSD, and (i) that you are able to print on paper or electronically save this ERSD for your future reference and access; or (ii) that you are able to email this ERSD to an email address where you will be able to print on paper or save it for your future reference and access. Further, if you consent to receiving notices and disclosures exclusively in electronic format as described herein, then select the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

By selecting the check-box next to 'I agree to use electronic records and signatures', you confirm that:

- You can access and read this Electronic Record and Signature Disclosure; and
- You can print on paper this Electronic Record and Signature Disclosure, or save or send this Electronic Record and Disclosure to a location where you can print it, for future reference and access; and
- Until or unless you notify REAL Solutions Group as described above, you consent to receive exclusively through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by REAL Solutions Group during the course of your relationship with REAL Solutions Group.

CONFIRMATION OF CLOSING

Reference is made to that certain Purchase Agreement, dated as of March 26, 2026 (the "Purchase Agreement"), by and among Asembia Buyer LLC, a Delaware limited liability company ("Buyer"), and Waystar Representative, LLC, a Delaware limited liability company ("Seller").

The undersigned hereby confirms as follows:

1. The transactions contemplated by the Purchase Agreement were consummated effective as of 12:01 a.m. Eastern Standard Time on June 23, 2026 (the "Closing Date");

2. The Company continues to hold ownership of the drug inventory and patient records prior to, as of the Closing Date and thereafter;

3. As of the Closing Date, the equity interests of Seller were assigned by Seller to Buyer;

4. Seller has received the purchase price in accordance with the Purchase Agreement; and

5. As of the Closing Date, Buyer owns 100% of the issued and outstanding equity interests in the Target and indirectly owns 100% of the issued and outstanding equity interests in the Company.

This Confirmation of Closing is subject in all respects to the terms and conditions of the Purchase Agreement. Nothing contained in this Confirmation of Closing shall be deemed to amend, limit, supersede, extinguish, operate as a waiver of, or otherwise modify any of the obligations (including, without limitation, indemnity obligations), agreements, covenants, representations or warranties of each party contained in the Purchase Agreement and/or any other agreements, certificates or documents referenced therein or delivered pursuant thereto (together with the Purchase Agreement, the "Transaction Agreements"). In the event of any conflict, contradiction or inconsistency between this Confirmation of Closing and the Transaction Agreements, the terms of the Transaction Agreements shall govern and control in all respects.

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. 024287358

Application/License No. _____

Independent Pharmaceutical LLC (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 854 E Crescentville Rd, West Chester, OH 45246 (Address of Applicant/Principal), as PRINCIPAL, and The Ohio Casualty Insurance Company (Surety Company), a corporation organized under the laws of the state of New Hampshire (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is 175 Berkeley Street, Boston, MA 02116 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of TWENTY-FIVE THOUSAND DOLLARS ($25,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on 07/01/2026 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statue (NRS) 639.515 and Nevada Administrative Code (NAC) 639.5937 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $25,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and NAC 639.5937 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515 and NAC 639.5937. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 8th day of July, 20 26.

This Power of Attorney is made and executed pursuant to and by authority of the following By-laws and Authorizations of The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company which resolutions are now in full force and effect reading as follows:

ARTICLE IV – OFFICERS: Section 12. Power of Attorney.
Any officer or other official of the Corporation authorized for that purpose in writing by the Chairman or the President, and subject to such limitation as the Chairman or the President may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Corporation to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact, subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Corporation by their signature and execution of any such instruments and to attach thereto the seal of the Corporation. When so executed, such instruments shall be as binding as if signed by the President and attested to by the Secretary. Any power or authority granted to any representative or attorney-in-fact under the provisions of this article may be revoked at any time by the Board, the Chairman, the President or by the officer or officers granting such power or authority.

ARTICLE XIII – Execution of Contracts: Section 5. Surety Bonds and Undertakings.
Any officer of the Company authorized for that purpose in writing by the chairman or the president, and subject to such limitations as the chairman or the president may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Company by their signature and execution of any such instruments and to attach thereto the seal of the Company. When so executed such instruments shall be as binding as if signed by the president and attested by the secretary.

Certificate of Designation – The President of the Company, acting pursuant to the Bylaws of the Company, authorizes Nathan J. Zangerle, Assistant Secretary to appoint such attorneys-in-fact as may be necessary to act on behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations.

Authorization – By unanimous consent of the Company's Board of Directors, the Company consents that facsimile or mechanically reproduced signature of any assistant secretary of the Company, wherever appearing upon a certified copy of any power of attorney issued by the Company in connection with surety bonds, shall be valid and binding upon the Company with the same force and effect as though manually affixed.

I, Renee C. Llewellyn, the undersigned, Assistant Secretary, The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company do hereby certify that the original power of attorney of which the foregoing is a full, true and correct copy of the Power of Attorney executed by said Companies, is in full force and effect and has not been revoked.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the seals of said Companies this 8th day of July, 2026.

PHARMACEUTICAL WHOLESALER CASH DEPOSIT IN LIEU OF BOND

Name of Applicant/Licensee: Avive Solutions, Inc.

Address: 185 Valley Drive

City: Brisbane State: CA Zip: 94005

The above named applicant/licensee (hereinafter referred to as Assignor), does hereby assign and set over to the Nevada State Board of Pharmacy (the Board) all right, title and interest of any kind whatsoever owned or held by Assignor in the cash sum of $25,000 which was delivered simultaneously with this form. Assignor provides the cash sum as security pursuant to NRS 639.515(2). This assignment is binding on Assignor, his/hers heirs, administrators, successors, and assigns, jointly or severally, and is conditioned that Assignor has made, or is about to make, application to the Board for a pharmaceutical wholesaler's license.

Assignor understands, acknowledges, and agrees that:

1. The Board is not authorized to refund the cash deposit until sixty days beyond the date upon which the Assignor ceases to be licensed by the Board.

2. The cash deposit will not draw interest and will be kept in a segregated fund within the Board's accounts.

3. The Board is authorized to remove from the cash deposit money to satisfy fines or costs assessed against the Assignor pursuant to NRS 639.515, and that if the Board removes any money from the cash deposit, Assignor shall replenish the cash deposit or shall deposit other security pursuant to NRS 639.515 sufficient to retain the total amount of the cash deposit or else Assignor's license may not be renewed.

Executed in Brisbane, CA on June 18, 2026.

To: Nichole Frame <Nichole.Frame@twolabs.com>
Subject: RE: Resident Facilities - FDA Approved Devices with no drugs or drug components

[External]

If the device is approved by the FDA, a permit is not required from our office. Florida does not have a medical device manufacturer application.

From: Nichole Frame <Nichole.Frame@twolabs.com>
Sent: Tuesday, April 16, 2024 1:42 PM
To: Burnett, Rebecca <Rebecca.Burnett@myfloridalicense.com>
Subject: Resident Facilities - FDA Approved Devices with no drugs or drug components

[NOTICE] This message comes from a system outside of DBPR. Please exercise caution when clicking on links and/or providing sensitive information. If you have concerns, please contact your Knowledge Champion or the DBPR Helpdesk.

Good day, Ms. Burnett,

I am just following up on the below communication to see if a Resident Manufacturer or Virtual Manufacturer of FDA-Approved Devices without Drugs or Drug Components is required to obtain a license in your state and, if a license is required, how the product type should be selected within the application.

Thank you for your time.

Respectfully,
Nichole Frame
Licensing Analyst

The actual statutes state:
o) *Device manufacturer permit.–*

1. A **device manufacturer permit** is required for any person that engages in the manufacture, repackaging, or assembly of medical devices for human use in this state, except that a permit is **not required if:**

a. The person is engaged only in manufacturing, repackaging, or assembling a medical device pursuant to a practitioner's order for a specific patient; or

b. The person does not manufacture, repackage, or assemble any medical devices or components for such devices, except those devices or components which are exempt from registration pursuant to s. 499.015(8):

(8) Notwithstanding any requirements set forth in this part, **a manufacturer of medical devices that is registered with the federal Food and Drug Administration is exempt** from this section and s. 499.041(6) if:

(a) The manufacturer's medical devices are approved for marketing by, or listed with the federal Food and Drug Administration in accordance with federal law for commercial distribution; or

(b) The manufacturer subcontracts with a manufacturer of medical devices to manufacture components of such devices.

This Power of Attorney is made and executed pursuant to and by authority of the following By-laws and Authorizations of The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company which resolutions are now in full force and effect reading as follows:

ARTICLE IV – OFFICERS: Section 12. Power of Attorney.
Any officer or other official of the Corporation authorized for that purpose in writing by the Chairman or the President, and subject to such limitation as the Chairman or the President may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Corporation to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact, subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Corporation by their signature and execution of any such instruments and to attach thereto the seal of the Corporation. When so executed, such instruments shall be as binding as if signed by the President and attested to by the Secretary. Any power or authority granted to any representative or attorney-in-fact under the provisions of this article may be revoked at any time by the Board, the Chairman, the President or by the officer or officers granting such power or authority.

ARTICLE XIII – Execution of Contracts: Section 5. Surety Bonds and Undertakings.
Any officer of the Company authorized for that purpose in writing by the chairman or the president, and subject to such limitations as the chairman or the president may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Company by their signature and execution of any such instruments and to attach thereto the seal of the Company. When so executed such instruments shall be as binding as if signed by the president and attested by the secretary.

Certificate of Designation – The President of the Company, acting pursuant to the Bylaws of the Company, authorizes Nathan J. Zangerle, Assistant Secretary to appoint such attorneys-in-fact as may be necessary to act on behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations.

Authorization – By unanimous consent of the Company's Board of Directors, the Company consents that facsimile or mechanically reproduced signature of any assistant secretary of the Company, wherever appearing upon a certified copy of any power of attorney issued by the Company in connection with surety bonds, shall be valid and binding upon the Company with the same force and effect as though manually affixed.

I, Renee C. Llewellyn, the undersigned, Assistant Secretary, The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company do hereby certify that the original power of attorney of which the foregoing is a full, true and correct copy of the Power of Attorney executed by said Companies, is in full force and effect and has not been revoked.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the seals of said Companies this 23rd day of July, 2026.

By: _____
Renee C. Llewellyn, Assistant Secretary

Proven Plant Manager/Continuous Improvement Leader with over 21 years of experience optimizing and managing multiple value streams. Responsibilities include 180M in production responsibilities with a yearly 9M payroll of 235 associates. Highly skilled in New product introduction, Production relocation, Danaher Business Systems (DBS), lean manufacturing and project management. Additional responsibilities include forecasting build rates, budgeting, Kaizen roadmap and FDA readiness. Present monthly Operations updates to business unit's Senior leadership (Presidents and Vice Presidents).

Director Production Operations/Plant Management

Dates Employed	**Oct 2021 -Present**
Employment Duration	**3 yrs 8 mos**
Location	**Miami, Florida, United States**

Responsible for managing Plant, overseeing 3 distinct Value Streams (Business Units) Hematology, Life Science and Microbiology representing 32 products. Responsibilities include managing all feeder lines, remanufacturing/repair, 3000 unique service spares and packaging of all service items and instruments. Coaching and mentoring management teams on DBS fundamentals to strive for continuous improvement.

Achievements:
Transformed plant by utilizing DBS Lean conversion tool to introduce 1 piece flow, reduce waste, Cycle time reduction, material at POU and inventory reduction. Delivered 24 kaizens a year to improve Safety, Quality, Delivery, inventory and productivity. Reduced Cycle time an average of 40% and Increased productivity by 30%. Lean conversion initiative has also achieved a 60% reduction in manufacturing floor space for efficient utilization.

Plant has been recognized by the DBS Office as Best in class in Danaher for Lean Conversion initiatives.
Introduced Score cards throughout all Product cells to improve Kaizen Sustainment and accountability.

Responsible for managing the Profit and Loss(P&L) of the site of 180M in volume and 9M on payroll. Continue to achieve yearly productivity improvements of 9% through the use of several DBS tools, (Lean Conversion, Standard Work).

Confidential - Company Proprietary

Project Manager (Core Team Leader) of site transfer (12 products) from Brea California to Miami, Florida. Responsibilities included identifying footprint needed at receiving site, identify Knowledge transfer team, create budget for transfer, create a VPM (Visual Project Management) to track all task and create collaboration culture to ensure a successful transfer. Project was completed on time and under budget (300K). Achievements during the transfer were reduced footprint by 40%, Cycle time reduction by 25% and 30% output increase per day, with no additional labor cost.

Facilitated several Shingijutsu Kaizen events across several Value streams that resulted in 50% productivity improvements and 30% VRK improvements.

Life Science Value Stream Senior Manager

Dates Employed	**Sep 2016 – Feb 2021**
Employment Duration	**5 yr 6 mos**
Location	**Miami, Florida, United States**

Responsible for overseeing 13 Life Science product lines (Flow Cytometry & Particle Characterization). Provide LEAN/DBS mentoring and support to all production leads to bring about necessary cultural change within company.

Achievements:

Managed a team of 60+ associates with yearly volume of $72M in an FDA regulated environment.

Member of due diligence team to vet out potential purchase of Xitogen in China to improve Flow Cytometry portfolio. Flew to Suzhou China with multi-functional team to ensure product would meet Business Unit needs.

After company was acquired, I led several kaizen events using several DBS tools to transform Xitogen (CytoFlex) into a world class manufacturing facility. Kaizens achieved 50% productivity improvements which led to a daily 50% increase output to meet increased customer demand.

Due to U.S Government Lab restrictions of not being able to purchase China made products, there was an initiative to duplicate all CytoFlex production lines in Miami, Florida. Identified cross functional team members for Knowledge and Quality system transfer. Traveled to China with transfer team and established Quality plan and design change plan for the project. Established training program with Suzhou leadership and technical operation support from Miami. Worked with LS VP of Finance on budget approval for project. Worked with outside counsel hired to establish minimum requirement for US made product. Products were successfully transferred and under budget.

Facilitated a Shin Kaizen event to improve OBQ (Out of Box Quality) in Flow Cytometry product line. Number one issue being reported in South Africa was loose hardware. We invited several field service engineers to participate in the kaizen which was instrumental in getting VOC. The event addressed all hardware related issues and released a system with all countermeasures implemented which shipped to South Africa to a remote location. Installation of the instrument went flawless with no issues reported.

Confidential - Company Proprietary

Initiatives in Inventory reduction: Reduce product lead time using DBS tools which resulted 100K inventory reduction. Facilitated kaizen and identified duplicate inventory at source factory and several distribution centers which led to 265K reduction. Worked with Several distribution centers across the globe and identified 700K of non-moving inventory which resulted in re-allocating material to source factory for consumption.

Improved Spares On-Time-Delivery performance from 62% to 98%. Improved Instrument On-Time-Delivery performance from 53% to 99%; success in role led to promotion.
Lead Shingijutsu Kaizen events resulting in 52% productivity improvement and 42% DPU reduction; Lead three winning teams

Project Manager (Core Team Leader) of site transfer (12 products) from Brea California to Miami, Florida. Responsibilities included identifying footprint needed at receiving site, identify Knowledge transfer team, create budget for transfer, create a VPM (Visual Project Management) to track all task and create collaboration culture to ensure a successful transfer. Project was completed on time and under budget (300K). Achievements during the transfer were reduced footprint by 40%, Cycle time reduction by 25% and 30% output increase per day, with no additional labor cost.

Managed a team of 70+ associates with monthly revenues of $3.2M in an FDA regulated environment.
Provided training and mentoring to team members which led to a reduction in process errors and productivity improvement.

Production Manger

Dates Employed	**Jan 2012 – Sep 2016**
Employment Duration	**4 yrs 9 mos**
Location	**Miami**

Surety Bond No: 800227420

Power of Attorney

BioFire Diagnostics
Nevada State Board of Pharmacy

KNOW ALL MEN BY THESE PRESENTS, that ATLANTIC SPECIALTY INSURANCE COMPANY, a New York corporation with its principal office in Plymouth, Minnesota, does hereby constitute and appoint: **Doritza Mojica**, each individually if there be more than one named, its true and lawful Attorney-in-Fact, to make, execute, seal and deliver, for and on its behalf as surety, any and all bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof; provided that no bond or undertaking executed under this authority shall exceed in amount the sum of: **unlimited** and the execution of such bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof in pursuance of these presents, shall be as binding upon said Company as if they had been fully signed by an authorized officer of the Company and sealed with the Company seal. This Power of Attorney is made and executed by authority of the following resolutions adopted by the Board of Directors of ATLANTIC SPECIALTY INSURANCE COMPANY on the twenty-fifth day of September, 2012:

Resolved: That the President, any Senior Vice President or Vice-President (each an "Authorized Officer") may execute for and in behalf of the Company any and all bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof, and affix the seal of the Company thereto; and that the Authorized Officer may appoint and authorize an Attorney-in-Fact to execute on behalf of the Company any and all such instruments and to affix the Company seal thereto; and that the Authorized Officer may at any time remove any such Attorney-in-Fact and revoke all power and authority given to any such Attorney-in-Fact.

Resolved: That the Attorney-in-Fact may be given full power and authority to execute for and in the name and on behalf of the Company any and all bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof, and any such instrument executed by any such Attorney-in-Fact shall be as binding upon the Company as if signed and sealed by an Authorized Officer and, further, the Attorney-in-Fact is hereby authorized to verify any affidavit required to be attached to bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof.

This power of attorney is signed and sealed by facsimile under the authority of the following Resolution adopted by the Board of Directors of ATLANTIC SPECIALTY INSURANCE COMPANY on the twenty-fifth day of September, 2012:

Resolved: That the signature of an Authorized Officer, the signature of the Secretary or the Assistant Secretary, and the Company seal may be affixed by facsimile to any power of attorney or to any certificate relating thereto appointing an Attorney-in-Fact for purposes only of executing and sealing any bond, undertaking, recognizance or other written obligation in the nature thereof, and any such signature and seal where so used, being hereby adopted by the Company as the original signature of such officer and the original seal of the Company, to be valid and binding upon the Company with the same force and effect as though manually affixed.

IN WITNESS WHEREOF, ATLANTIC SPECIALTY INSURANCE COMPANY has caused these presents to be signed by an Authorized Officer and the seal of the Company to be affixed this first day of January, 2023.

ATLANTIC SPECIALTY INSURANCE COMPANY CORPORATE SEAL 1986 NEW YORK

Commission: 32.5%

We are pleased to enclose the above referenced bond you requested. This bond was executed based upon the information you provided. We urge you to check all of the information enclosed, including the Power of Attorney, signatures, dates, amounts, description, bond form and any other attachments.

Please be sure to affix the bond with the proper signature and seal.

If a premium is charged, our invoice will follow under separate cover and premium payment for this bond is due upon receipt. **Please note that the first term's premium related to any renewable obligation is considered fully earned.**

Willis Towers Watson negotiates commission rates with certain insurers on a corporate level. If the rate on your placement is lower than the negotiated rate, Willis Towers Watson may collect the difference directly from the insurer. These payments will not increase the cost of your bonds or otherwise impact your premium or rates. Details of these arrangements where there is compensation beyond the base compensation detailed in your commission schedule can be found at: https://www.wtwco.com/en-us/notices/p-c-national-commission-rates.

Thank you for the opportunity to service your surety needs. Should you have any questions, please do not hesitate to contact me.

Sincerely,

Rhi Portillo

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. 800227420

Application/License No. _____

BioFire Diagnostics (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 1001 South 4800 West, Salt Lake City, UT 84104 (Address of Applicant/Principal), as PRINCIPAL, and Atlantic Specialty Insurance Company (Surety Company), a corporation organized under the laws of the state of NY (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is 605 Highway 169 North, Suite 800 , Plymouth, MN 55441 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of ONE HUNDRED THOUSAND DOLLARS ($100,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on April 15, 2026 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statutes (NRS) 639.515 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $100,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

Posted February 20, 2020

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS
639.515. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 15th day of April, 2026.

Section 8: Personal and Professional History	Yes	No
1. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✓
2. Have you been charged, arrested or convicted of a felony or misdemeanor in <u>any</u> state?		✓
3. Have you been the subject of a board citation or an administrative action whether completed or pending in <u>any</u> state? Include all public or private actions against a professional license, not limited to a suspension, revocation, surrender or other discipline.		✓

Please use and make copies of this page (if necessary) to provide information as requested below regarding any questions, 1-3, you have marked "YES" to in section 8 of the application. <u>A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.</u>

This is in response to Question #_____. Provide all the following *<u>where applicable</u>*:

Date of Event/Arrest	Disposition Date	State	City	County
Case #		Governing, licensing, Arresting Presiding Body/Agency/Court		
Reason/Charge				
Plaintiff/Defendant/Claimant/Respondent			Lawsuit/Arbitration/Bankruptcy	
Name of Business/Industry/Entity				

Provide explanation below:

Original Signature (electronic, copies or stamps not accepted) Date

I, Tyler Jacob Farrell, **certify that as the MDEG Administrator for**

bioFire Diagnostics, LLC,

that I (initial that you have read and meet the following requirements):

1. TF Have a high school diploma or its equivalent;
2. TF Have
   a. At least 1,500 hours of verifiable work experience relating to the products provided by the medical products provider or medical products wholesaler; or
   b. An associate's degree or higher degree from an accredited college or university in a field of study that is directly related to patient health care;
3. TF Will be employed by the medical products provider or medical products wholesaler at the place of business or facility of the employer at least 40 hours per week or during all regular business hours if the business or facility is regularly open less than 40 hours per week; and
4. TF Will ensure that the operation of the business or facility complies with all applicable federal, state and local laws, regulations and rules.

I certify under penalty of perjury that the information contained in this application is accurate, true and complete in all material respects. I understand that making any false representation in this application is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire application and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event this application is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

TYLER FARRELL

PROFILE

Reliable, professional, dedicated team player, ability to communicate effectively with others and possess leadership skills with a positive attitude.

REFRENCES

Available upon Request

KEY SKILLS

- Coaching and Development
- Communication
- Problem Solving
- Fast learner
- Adaptability

WORK EXPERIENCE

Associate Director of Materials Management

Biofire Diagnostics, BioMerieux, SLC Utah, 2016 – Current
Material Handler 09/2016-2018, Material Handler Team Lead 05/2018-2020 Materials Handling Manager 02/2020-2023, AD 02/2023-Current

STRATEGIC LEADERSHIP & PROGRAM EXECUTION

- Direct Material Strategy: Lead the end-to-end strategy, planning, and execution of material requirements for high-stakes diagnostic production, ensuring 100% availability of strategic components.
- Programmatic Risk Mitigation: Act as the primary focal point for cross-functional teams (Procurement, Quality, and Production) to identify supply chain gaps and execute mitigation plans for non-conforming materials.
- Executive Reporting: Brief Director-level leadership on key performance indicators (KPIs), including inventory status, service levels, and manufacturing support metrics to drive data-driven decision-making.
- Process Improvement: Defined and optimized GSC processes by instituting LEAN practices, including Six S, Value Stream Mapping, and FIFO, resulting in increased operational efficiency.

CROSS-FUNCTIONAL COLLABORATION

- Internal & External Liaison: Collaborate closely with the Program Management Office (PMO equivalent) and global supply base to ensure all material commitments meet rigorous business and quality requirements.
- Multi-Discipline Oversight: Manage multiple disciplines across the product life cycle, from incoming material requirements and receiving to production warehouse stocking and final delivery.

- Regulatory Compliance: Ensure 100% compliance with corporate policies and Quality Systems, supporting lot traceability and labeling for complex Manufacturing Execution System (MES) processes.

TEAM MANAGEMENT & DEVELOPMENT

- Leadership of Personnel: Supervise and mentor a diverse team of 10–20 personnel, overseeing professional development, performance evaluations, and technical training.
- Working Manager Excellence: Effectively manage competing priorities and tight deadlines in a fast-paced environment, maintaining a professional attitude while overseeing critical supply chain functions.

OPERATIONAL AUTHORITY

- Budget & Authority: Exercise signature authorization for production material planning and commit to supply base decisions with oversight from the Director of Supply Chain.
- Inventory Integrity: Facilitate comprehensive cycle count programs for finished goods and component materials, ensuring accuracy across centralized and production warehouses.

EDUCATION

- Bear River High School 2002-2006
  High School Diploma
- Bridgerland Applied Technology College, 2006 Cabinetry
- Trained in Planning and Inventory Management (CPIM I) 2022
- Lean Six Sigma Green Belt 2024

NEVADA STATE BOARD OF PHARMACY

985 Damonte Ranch Parkway, Suite 206 – Reno, NV 89521 – 775-850-1440

Designated Representative Application

Rev (05/12/2022)

I certify under penalty of perjury that the information contained in this application is accurate, true and complete in all material respects. I understand that making any false representation in this application is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire application and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event this application is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline. I further certify compliance with NRS 639.590 and NAC 639.594 as applicable.

Power of Attorney

BioFire Diagnostics
Nevada State Board of Pharmacy

KNOW ALL MEN BY THESE PRESENTS, that ATLANTIC SPECIALTY INSURANCE COMPANY, a New York corporation with its principal office in Plymouth, Minnesota, does hereby constitute and appoint: **Doritza Mojica**, each individually if there be more than one named, its true and lawful Attorney-in-Fact, to make, execute, seal and deliver, for and on its behalf as surety, any and all bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof; provided that no bond or undertaking executed under this authority shall exceed in amount the sum of: **unlimited** and the execution of such bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof in pursuance of these presents, shall be as binding upon said Company as if they had been fully signed by an authorized officer of the Company and sealed with the Company seal. This Power of Attorney is made and executed by authority of the following resolutions adopted by the Board of Directors of ATLANTIC SPECIALTY INSURANCE COMPANY on the twenty-fifth day of September, 2012:

Resolved: That the President, any Senior Vice President or Vice-President (each an "Authorized Officer") may execute for and in behalf of the Company any and all bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof, and affix the seal of the Company thereto; and that the Authorized Officer may appoint and authorize an Attorney-in-Fact to execute on behalf of the Company any and all such instruments and to affix the Company seal thereto; and that the Authorized Officer may at any time remove any such Attorney-in-Fact and revoke all power and authority given to any such Attorney-in-Fact.

Resolved: That the Attorney-in-Fact may be given full power and authority to execute for and in the name and on behalf of the Company any and all bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof, and any such instrument executed by any such Attorney-in-Fact shall be as binding upon the Company as if signed and sealed by an Authorized Officer and, further, the Attorney-in-Fact is hereby authorized to verify any affidavit required to be attached to bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof.

This power of attorney is signed and sealed by facsimile under the authority of the following Resolution adopted by the Board of Directors of ATLANTIC SPECIALTY INSURANCE COMPANY on the twenty-fifth day of September, 2012:

Resolved: That the signature of an Authorized Officer, the signature of the Secretary or the Assistant Secretary, and the Company seal may be affixed by facsimile to any power of attorney or to any certificate relating thereto appointing an Attorney-in-Fact for purposes only of executing and sealing any bond, undertaking, recognizance or other written obligation in the nature thereof, and any such signature and seal where so used, being hereby adopted by the Company as the original signature of such officer and the original seal of the Company, to be valid and binding upon the Company with the same force and effect as though manually affixed.

IN WITNESS WHEREOF, ATLANTIC SPECIALTY INSURANCE COMPANY has caused these presents to be signed by an Authorized Officer and the seal of the Company to be affixed this first day of January, 2023.

Commission: 32.5%

We are pleased to enclose the above referenced bond you requested. This bond was executed based upon the information you provided. We urge you to check all of the information enclosed, including the Power of Attorney, signatures, dates, amounts, description, bond form and any other attachments.

Please be sure to affix the bond with the proper signature and seal.

If a premium is charged, our invoice will follow under separate cover and premium payment for this bond is due upon receipt. **Please note that the first term's premium related to any renewable obligation is considered fully earned.**

Willis Towers Watson negotiates commission rates with certain insurers on a corporate level. If the rate on your placement is lower than the negotiated rate, Willis Towers Watson may collect the difference directly from the insurer. These payments will not increase the cost of your bonds or otherwise impact your premium or rates. Details of these arrangements where there is compensation beyond the base compensation detailed in your commission schedule can be found at: https://www.wtwco.com/en-us/notices/p-c-national-commission-rates.

Thank you for the opportunity to service your surety needs. Should you have any questions, please do not hesitate to contact me.

Sincerely,

Rhi Portillo

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. 800227420

Application/License No. _____

BioFire Diagnostics (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 1001 South 4800 West, Salt Lake City, UT 84104 (Address of Applicant/Principal), as PRINCIPAL, and Atlantic Specialty Insurance Company (Surety Company), a corporation organized under the laws of the state of NY (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is 605 Highway 169 North, Suite 800 , Plymouth, MN 55441 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of ONE HUNDRED THOUSAND DOLLARS ($100,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on April 15, 2026 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statutes (NRS) 639.515 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $100,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

Posted February 20, 2020

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS
639.515. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 15th day of April, 2026.

BioFire Diagnostics, BioMerieux | Salt Lake City, UT — April 2022-June 2023

Responsible for the reagent manufacturing master production schedule to ensure adequate product availability. Contributed to the strategic plan for reagent manufacturing to support rapid product growth. Collaborated with Global Supply Chain to provide clear communication and ensure reagent supply is available. Participated as subject matter expert on product development and process improvement projects.

Associate Director, Reagent Planning & Scheduling
BioFire Diagnostics, BioMerieux | Salt Lake City, UT — 2018-April 2022

Supported the continued growth of the planning and scheduling team, adding new positions to support the growth of the FilmArray product. Participated in development of site supply chain tasks in collaboration with global supply chain and other cross-functional teams.

Scheduling Manager
BioFire Diagnostics | Salt Lake City, UT — 2015-2018

Managed the creation of a planning and scheduling team within reagent manufacturing. Hired and trained new team members to support ongoing product growth.

Training Coordinator
BioFire Diagnostics | Salt Lake City, UT — 2013-2015

Manufacturing Team Lead
BioFire Diagnostics | Salt Lake City, UT — 2012-2013

Manufacturing Technician
Idaho Technology | Salt Lake City, UT — 2009-2012

EDUCATION

Bachelor of Arts
Brigham Young University | Provo, UT — August 2009

Major: Linguistics

Section 8: Arrests, Detentions, Litigations, Arbitrations.	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		✓
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		✓
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)		✓
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		✓
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?		✓
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✓
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✓
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✓
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✓

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

This is in response to Question # _____. **Provide all the following *where applicable*:**

Date of Event/Arrest	Disposition Date	State	City	County
Case #		Governing, licensing, Arresting Presiding Body/Agency/Court		
Reason/Charge				
Plaintiff/Defendant/Claimant/Respondent			Lawsuit/Arbitration/Bankruptcy	
Name of Business/Industry/Entity				

Provide explanation below:

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. B150106802

Application/License No. _____

Blue Heron Pharmaceuticals LLC (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 5727 Missouri Ave St, Suite 207, New Port Richey, FL 34652 (Address of Applicant/Principal), as PRINCIPAL, and Old Republic Surety Company (Surety Company), a corporation organized under the laws of the state of Wisconsin (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is 18500 W Corporate Dr, Ste 170, Brookfield, WI 53045 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of TWENTY-FIVE THOUSAND DOLLARS ($25,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on 9/4/2026 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statue (NRS) 639.515 and Nevada Administrative Code (NAC) 639.5937 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $25,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

Pac West Pharmaceuticals

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and NAC 639.5937 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515 and NAC 639.5937. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 4th day of September, 20 26.

KNOW ALL MEN BY THESE PRESENTS: That OLD REPUBLIC SURETY COMPANY, a Wisconsin stock insurance corporation, does make, constitute and appoint:

Dana K Benson Of CEDAR CITY, Utah

its true and lawful Attorney(s)-in-Fact, with full power and authority, not exceeding $10,000,000, for and on behalf of the company as surety, to execute and deliver and affix the seal of the company thereto (if a seal is required), bonds, undertakings, recognizances or other written obligations in the nature thereof, ***(other than bail bonds, bank depository bonds, mortgage deficiency bonds, mortgage guaranty bonds, guarantees of installment paper and note guaranty bonds, self-insurance workers compensation bonds guaranteeing payment of benefits, waste management bonds, hazardous waste remediation bonds or black lung bonds),*** as follows:

Effective Date: 09/04/2026

Bond Number: B150106802	Bond Amount:	Twenty-Five Thousand Dollars	$ 25,000.00
Principal Name:	Blue Heron Pharmaceuticals LLC		
Obligee Name:	NV State Board of Pharmacy, Nevada		

and to bind OLD REPUBLIC SURETY COMPANY thereby, and all of the acts of said Attorneys-in-Fact, pursuant to these presents, are ratified and confirmed. This appointment is made under and by authority of the board of directors at a special meeting held on February 18, 1982.

This Power of Attorney is signed and sealed by facsimile under and by the authority of the following resolutions adopted by the board of directors of the OLD REPUBLIC SURETY COMPANY on February 18,1982.

RESOLVED that the president, any vice president or assistant vice president, in conjunction with the secretary or any assistant secretary, may appoint attorneys-in-fact or agents with authority as defined or limited in the instrument evidencing the appointment in each case, for and on behalf of the company to execute and deliver and affix the seal of the company to bonds, undertakings, recognizances, and suretyship obligations of all kinds; and said officers may remove any such attorney-in-fact or agent and revoke any Power of Attorney previously granted to such person.

RESOLVED FURTHER that any bond, undertaking, recognizance, or suretyship obligation shall be valid and binding upon the Company

(i) when signed by the president, any vice president or assistant vice president, and attested and sealed (if a seal be required) by any secretary or assistant secretary; or

(ii) when signed by the president, any vice president or assistant vice president, secretary or assistant secretary, and countersigned and sealed (if a seal be required) by a duly authorized attorney-in-fact or agent; or

(iii) when duly executed and sealed (if a seal be required) by one or more attorneys-in-fact or agents pursuant to and within the limits of the authority evidenced by the Power of Attorney issued by the company to such person or persons.

RESOLVED FURTHER that the signature of any authorized officer and the seal of the company may be affixed by facsimile to any Power of Attorney or certification thereof authorizing the execution and delivery of any bond, undertaking, recognizance, or other suretyship obligations of the company; and such signature and seal when so used shall have the same force and effect as though manually affixed.

IN WITNESS WHEREOF, OLD REPUBLIC SURETY COMPANY has caused these presents to be signed by its proper officer, and its corporate seal to be affixed this 4th day of September, 2026.

OLD REPUBLIC SURETY COMPANY

Secretary

President

STATE OF WISCONSIN, COUNTY OF WAUKESHA - SS

On this 4th day of September, 2026, personally came before me, Steve R. Denault and Kevin J. Abitz, to me known to be the individuals and officers of the OLD REPUBLIC SURETY COMPANY who executed the above instrument, and they each acknowledged the execution of the same, and being by me duly sworn, did severally depose and say: that they are the said officers of the corporation aforesaid, and that the seal affixed to the above instrument is the seal of the corporation, and that said corporate seal and their signatures as such officers were duly affixed and subscribed to the said instrument by the authority of the board of directors of said corporation.

VANESSA M COLE
Notary Public
State of Wisconsin

Notary Public

My Commission Expires: 11/28/2029

(Expiration of notary's commission does not invalidate this instrument)

CERTIFICATE

I, the undersigned, assistant secretary of the OLD REPUBLIC SURETY COMPANY, a Wisconsin corporation, CERTIFY that the foregoing and attached Power of Attorney remains in full force and has not been revoked; and furthermore, that the Resolutions of the board of directors set forth in the Power of Attorney, are now in force.

0486005

Signed and sealed at the City of Brookfield, WI this 4th day of September, 2026.

Secretary

ORSC 22262 (3-06)

Attachment F

Regarding the Resident State License

The resident state licensing agency, the Florida Department of Business & Professional Regulation, Division of Drugs, Devices and Cosmetics (Department), does not license companies distributing medical devices in or into Florida. Enclosed is documentation from the Department.

www.myfloridalicense.com/DBPR/drugs-devices-and-cosmetics/faqs/#ddc

DIVISION OF DRUGS, DEVICES AND COSMETICS - FAQS

Drugs, Devices & Cosmetics FAQs

To obtain an interpretation of statute or rule from an agency requires the submission of a Petition for Declaratory Statement that is authorized by Chapter 120, Florida Statutes and an agency cannot provide an informal legal opinion. The responses to the frequently asked questions are not intended to be legal opinions or statements of agency policy and you are strongly encouraged to seek the guidance of a regulatory consultant to assist you regarding the interpretation and application of Florida Statutes and rules.

Definitions:

- "DBPR" or the "department" or refers to the Florida Department of Business and Professional Regulation.
- "DEA" refers to the U.S. Drug Enforcement Administration.
- "ARCOS" refers to the Automation of Reports and Consolidated Orders System operated by DEA.
- "CSR" refers to Florida's state analogue to ARCOS, the Controlled Substance Reporting system.
- "E-FORCSE (https://florida.pmpaware.net/login)" refers to Florida's "Electronic-Florida Online Reporting of Controlled Substances Evaluation", aka the "Prescription Drug Monitoring Program" or "PDMP". For more information visit the E-FORCSE homepage at https://www.floridahealth.gov/statistics-and-data/e-forcse/index.html (https://www.floridahealth.gov/statistics-and-data/e-forcse/index.html).
- "FTP" File Transfer Protocol

— Division of Drugs, Devices and Cosmetics

– Does my company need a permit?

DDC permitting requirements as regards drugs, (medical) devices and cosmetics fall into two main categories:(a) manufacturing and repackaging of drugs, medical devices and cosmetics conducted in Florida, and (b) distributing drugs, medical devices and cosmetics in and into Florida.

Activity Description	Location	Permit (Generally) Required under Chapter 499?

Manufacturing a Drug, Device or Cosmetic	In Florida	Yes
Repackaging a Drug, Device or Cosmetic	In Florida	Yes
Distributing a Prescription Drug	In or Into Florida	Yes
Distributing an Over-the-Counter Drug	In or Into Florida	No
Distributing a Device	In or Into Florida	No
Distributing a Cosmetic	In or Into Florida	No

- What is a "drug", "device", or "cosmetic"?

Refer to Section 499.003, Florida Statutes: http://www.leg.state.fl.us/statutes/index.cfm?App_mode=Display_Statute&Search_String=&URL=0400-0499/0499/Sections/0499.003.html (http://www.leg.state.fl.us/statutes/index.cfm?App_mode=Display_Statute&Search_String=&URL=0400-0499/0499/Sections/0499.003.html) Please note that "drug" specifically includes active pharmaceutical ingredient (API). Also, "devices" that contain "drugs" are classified as drugs if any of the principal intended purposes is achieved through chemical action.

- What is "distributing"?

Understanding this term is critical to avoid violating Chapter 499, Florida Statutes. Florida law defines "distributing" or "distribution" to implicate both physical possession and legal title or ownership. The term means to sell; offer to sell; give away; transfer, whether by passage of title, physical movement, or both; deliver; or offer to deliver. For example, a broker of a prescription drug wholesale transaction may require a permit under Florida law. The term excludes, however, certain administrative activities.

My company distributes medical convenience kits and other "combination products" to customers in Florida. Do we need a permit?

My company's administrative office does not handle any prescription drugs. Do we still need to get a permit for that location?

My company is relocating its operation. Do we need to apply for a new permit?

My company is undergoing a change of ownership. Do we need to (re)apply?

My company is a prescription drug wholesale distributor (in-state or out-of-state). Our Certified Designated Representative (CDR) just quit. What do we do?

My company manufactures and/or distributes active pharmaceutical ingredient ("API") to customers in Florida. Do we need a permit?

NEVADA STATE BOARD OF PHARMACY

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. K4206547A

Application/License No. _____

DePuy Synthes Products Inc. and
DePuy Synthes Sales Inc., doing or intending to do business as a
(Applicant/Principal)
pharmaceutical wholesaler, whose address for purposes of service is
374 North Haverhill Road, West Palm Beach, FL 33415 and 325 Paramount Drive, Raynham, MA 02767-0350 respectively, as
(Address of Applicant/Principal)
PRINCIPAL, and Federal Insurance Company, a
(Surety Company)
corporation organized under the laws of the state of Indiana
(State of Incorporation)
and authorized to transact a general surety business in the State of

Nevada, whose address for purposes of service is
202B Halls Mill Road, Whitehouse Station, NJ 08889 as
(Address of Surety)
SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of ONE HUNDRED THOUSAND DOLLARS ($100,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on June 5th, 2025.
(Effective Date)

WHEREAS, the provisions of Nevada Revised Statutes (NRS) 639.515 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $100,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS
639.515. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 5th day of June, 2025.

CERTIFICATION

Resolutions adopted by the Boards of Directors of FEDERAL INSURANCE COMPANY, VIGILANT INSURANCE COMPANY, and PACIFIC INDEMNITY COMPANY on August 30, 2016; WESTCHESTER FIRE INSURANCE COMPANY on December 11, 2006; and ACE AMERICAN INSURANCE COMPANY on March 20, 2009:

"RESOLVED, that the following authorizations relate to the execution, for and on behalf of the Company, of bonds, undertakings, recognizances, contracts and other written commitments of the Company entered into in the ordinary course of business (each a "Written Commitment"):

(1) Each of the Chairman, the President and the Vice Presidents of the Company is hereby authorized to execute any Written Commitment for and on behalf of the Company, under the seal of the Company or otherwise.

(2) Each duly appointed attorney-in-fact of the Company is hereby authorized to execute any Written Commitment for and on behalf of the Company, under the seal of the Company or otherwise, to the extent that such action is authorized by the grant of powers provided for in such person's written appointment as such attorney-in-fact.

(3) Each of the Chairman, the President and the Vice Presidents of the Company is hereby authorized, for and on behalf of the Company, to appoint in writing any person the attorney-in-fact of the Company with full power and authority to execute, for and on behalf of the Company, under the seal of the Company or otherwise, such Written Commitments of the Company as may be specified in such written appointment, which specification may be by general type or class of Written Commitments or by specification of one or more particular Written Commitments.

(4) Each of the Chairman, the President and the Vice Presidents of the Company is hereby authorized, for and on behalf of the Company, to delegate in writing to any other officer of the Company the authority to execute, for and on behalf of the Company, under the Company's seal or otherwise, such Written Commitments of the Company as are specified in such written delegation, which specification may be by general type or class of Written Commitments or by specification of one or more particular Written Commitments.

(5) The signature of any officer or other person executing any Written Commitment or appointment or delegation pursuant to this Resolution, and the seal of the Company, may be affixed by facsimile on such Written Commitment or written appointment or delegation.

FURTHER RESOLVED, that the foregoing Resolution shall not be deemed to be an exclusive statement of the powers and authority of officers, employees and other persons to act for and on behalf of the Company, and such Resolution shall not limit or otherwise affect the exercise of any such power or authority otherwise validly granted or vested."

I, Rupert HD Swindells, Assistant Secretary of FEDERAL INSURANCE COMPANY, VIGILANT INSURANCE COMPANY, PACIFIC INDEMNITY COMPANY, WESTCHESTER FIRE INSURANCE COMPANY and ACE AMERICAN INSURANCE COMPANY (the "Companies") do hereby certify that

(I) the foregoing Resolutions adopted by the Board of Directors of the Companies are true, correct and in full force and effect,
(II) the foregoing Power of Attorney is true, correct and in full force and effect.

Given under my hand and seals of said Companies at Whitehouse Station, NJ, this 5th day of June, 2025

Rupert HD Swindells, Assistant Secretary

RE: NEVADA STATE BOARD OF PHARMACY
Bond #: K4206547A
Project: Pharmaceutical Wholesaler Surety Bond
Bond Amount: $100,000.00

Dear Michelle:

Enclosed please find the above captioned bond(s) executed per Mary O'Hara's request.

The bond(s) must be signed by an authorized representative of your company, witness by two and sealed with the corporate seal if applicable. Bond executed in 1 counterparts.

It is your responsibility to carefully review the bond(s) prior to execution to verify they have been presented on the correct form with the appropriate names(s), bond amounts and dates, and to ensure the bond(s) conform with your needs and instructions to us and provide the appropriate terms to all parties. Any discrepancies, deficiencies or modifications must immediately be brought to our attention, in writing. Failing such advice to us, you understand we will have no liability for any deficiencies or discrepancies in or required modifications to the bond(s).

By affixing your signature, executing and providing this bond(s) to the obligee you are verifying and, we will justifiably assume, the bond(s) has been issued correctly with the best interests and requirements of all parties being properly considered.

Sincerely,

Debra A. Deming

Debra A. Deming

CERTIFICATE OF LIABILITY INSURANCE

DATE (MM/DD/YYYY): 7/29/2026

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. THIS CERTIFICATE OF INSURANCE DOES NOT CONSTITUTE A CONTRACT BETWEEN THE ISSUING INSURER(S), AUTHORIZED REPRESENTATIVE OR PRODUCER, AND THE CERTIFICATE HOLDER.

IMPORTANT: If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must have ADDITIONAL INSURED provisions or be endorsed. If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. 20BSBJF2439

Application/License No. _____

Fisher & Paykel Healthcare, Inc., doing or intending to do business as a
(Applicant/Principal)
pharmaceutical wholesaler, whose address for purposes of service is
511 Harley Knox Boulevard, Perris, CA 92571, as
(Address of Applicant/Principal)
PRINCIPAL, and Hartford Fire Insurance Company, a
(Surety Company)
corporation organized under the laws of the state of Connecticut
(State of Incorporation)
and authorized to transact a general surety business in the State of

Nevada, whose address for purposes of service is
One Hartford Plaza Hartford, CT 06155 as
(Address of Surety)
SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of TWENTY-FIVE THOUSAND DOLLARS ($25,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on May 14, 2024.
(Effective Date)

WHEREAS, the provisions of Nevada Revised Statue (NRS) 639.515 and Nevada Administrative Code (NAC) 639.5937 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $25,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

20BSBJF2439

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and NAC 639.5937 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515 and NAC 639.5937. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 14th day of May, 2024.

KANCHAN HEALTHCARE INC

FDA Labeler Code

Kanchan Healthcare Inc holds FDA labeler code 85742.

From: edrls@fda.hhs.gov <edrls@fda.hhs.gov>
Sent: Wednesday, May 28, 2025 11:01 AM
To: Dev Kumar Singh <dev@kanchanglobal.com>
Subject: Labeler Code Request Approved

eDRLS - Electronic Drug Registration & Listing System

Current Date: 28-MAY-2025
Labeler DUNS: 119315087
Labeler Name: Kanchan Healthcare Inc
Labeler Code Assigned: 85742

✓ verified M.H 8/5/26

The Food and Drug Administration (FDA) has assigned the above Labeler Code to your firm. **The number cannot be used until you have confirmed the assignment. Please revise and resubmit your Labeler Code Request SPL to include the assigned number above to complete the process. To do this, open the previous Labeler Code Request SPL file and fill in the new information (your assigned Labeler Code) without changing the other existing information. Fill in a new root id and new version number with the original set id and the appropriate effective time.**

For CDER Direct Users: Open the previously submitted and accepted Labeler Code Request, click Create New Version, enter the Labeler Code assigned in the field for "Labeler Code", and Submit SPL.

This Labeler Code should be used to create the NDC (National Drug Code) assigned to all drugs you manufacture or distribute for U.S. commercial distribution. The assignment of NDC is extensively discussed in Title 21 of Code of Federal Regulations (CFR) 207.35. The NDC for each drug must be submitted as part of drug listing information submitted to FDA. Per 21 CFR Part 207, owners or operators of an establishment entering into the manufacture or processing of a drug or drugs shall drug list, every drug in commercial distribution within 5 days after the beginning of operation. Labeler Codes are assigned by FDA and may be inactivated at any time upon violation of the Federal Food, Drug and Cosmetic Act.

Note that receipt of this letter is not to be construed as Federal Government endorsement or approval of the establishment or its products.

For additional information please visit Drug Registration and Listing System or reply back to this email (edrls@fda.hhs.gov).

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. 3010132

Application/License No. _____

Kanchan Healthcare Inc (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 1 Gatehall Dr., Ste 202, Parsippany, NJ 07054 (Address of Applicant/Principal), as PRINCIPAL, and Harco National Insurance Company (Surety Company), a corporation organized under the laws of the state of Illinois (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is 4200 Six Forks Rd, Suite 1400, Raleigh, NC 27609 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of TWENTY-FIVE THOUSAND DOLLARS ($25,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on 06/22/2026 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statue (NRS) 639.515 and Nevada Administrative Code (NAC) 639.5937 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $25,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and NAC 639.5937 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515 and NAC 639.5937. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 22nd day of June, 2026.

their true and lawful attorney(s)-in-fact to execute, seal and deliver for and on its behalf as surety, any and all bonds and undertakings, contracts of indemnity and other writings obligatory in the nature thereof, which are or may be allowed, required or permitted by law, statute, rule, regulation, contract or otherwise, and the execution of such instrument(s) in pursuance of these presents, shall be as binding upon the said **HARCO NATIONAL INSURANCE COMPANY** and **INTERNATIONAL FIDELITY INSURANCE COMPANY**, as fully and amply, to all intents and purposes, as if the same had been duly executed and acknowledged by their regularly elected officers at their principal offices.

This Power of Attorney is executed, and may be revoked, pursuant to and by authority of the By-Laws of **HARCO NATIONAL INSURANCE COMPANY** and **INTERNATIONAL FIDELITY INSURANCE COMPANY** and is granted under and by authority of the following resolution adopted by the Board of Directors of **INTERNATIONAL FIDELITY INSURANCE COMPANY** at a meeting duly held on the 13th day of December, 2018 and by the Board of Directors of **HARCO NATIONAL INSURANCE COMPANY** at a meeting held on the 13th day of December, 2018.

"**RESOLVED**, that (1) the Chief Executive Officer, President, Executive Vice President, Senior Vice President, Vice President, or Secretary of the Corporation shall have the power to appoint, and to revoke the appointments of, Attorneys-in-Fact or agents with power and authority as defined or limited in their respective powers of attorney, and to execute on behalf of the Corporation and affix the Corporation's seal thereto, bonds, undertakings, recognizances, contracts of indemnity and other written obligations in the nature thereof or related thereto; and (2) any such Officers of the Corporation may appoint and revoke the appointments of joint-control custodians, agents for acceptance of process, and Attorneys-in-fact with authority to execute waivers and consents on behalf of the Corporation; and (3) the signature of any such Officer of the Corporation and the Corporation's seal may be affixed by facsimile to any power of attorney or certification given for the execution of any bond, undertaking, recognizance, contract of indemnity or other written obligation in the nature thereof or related thereto, such signature and seals when so used whether heretofore or hereafter, being hereby adopted by the Corporation as the original signature of such officer and the original seal of the Corporation, to be valid and binding upon the Corporation with the same force and effect as though manually affixed."

IN WITNESS WHEREOF, **HARCO NATIONAL INSURANCE COMPANY** and **INTERNATIONAL FIDELITY INSURANCE COMPANY** have each executed and attested these presents on this 31st day of December, 2025

INTERNATIONAL FIDELITY INSURANCE COMPANY CORPORATE SEAL 1904 NEW JERSEY

STATE OF NEW JERSEY
County of Essex

STATE OF ILLINOIS
County of Cook

HARCO NATIONAL INSURANCE COMPANY CORPORATE SEAL 1904 ILLINOIS

Michael F. Zurcher
Executive Vice President, Harco National Insurance Company
and International Fidelity Insurance Company

On this 31st day of December, 2025, before me came the individual who executed the preceding instrument, to me personally known, and, being by me duly sworn, said he is the therein described and authorized officer of **HARCO NATIONAL INSURANCE COMPANY** and **INTERNATIONAL FIDELITY INSURANCE COMPANY**; that the seals affixed to said instrument are the Corporate Seals of said Companies; that the said Corporate Seals and his signature were duly affixed by order of the Boards of Directors of said Companies.

CATHY CRUZ NOTARY PUBLIC STATE OF NEW JERSEY

IN TESTIMONY WHEREOF, I have hereunto set my hand affixed my Official Seal, at the City of Newark, New Jersey the day and year first above written.

Cathy Cruz a Notary Public of New Jersey
My Commission Expires April 16, 2029

CERTIFICATION

I, the undersigned officer of **HARCO NATIONAL INSURANCE COMPANY** and **INTERNATIONAL FIDELITY INSURANCE COMPANY** do hereby certify that I have compared the foregoing copy of the Power of Attorney and affidavit, and the copy of the Sections of the By-Laws of said Companies as set forth in said Power of Attorney, with the originals on file in the home office of said companies, and that the same are correct transcripts thereof, and of the whole of the said originals, and that the said Power of Attorney has not been revoked and is now in full force and effect.

IN TESTIMONY WHEREOF, I have hereunto set my hand on this day, June 22, 2026

A00816

Irene Martins, Assistant Secretary

Section 8: Arrests, Detentions, Litigations, Arbitrations.	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		✔
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		✔
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)		✔
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		✔
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?		✔
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✔
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✔
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✔
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✔

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

Labeler Code Request Approved

From edrls@fda.hhs.gov <edrls@fda.hhs.gov>
Date Tue 4/21/2026 8:30 AM
To Nicole Shamoon <nicole.shamoon@luriapharma.com>

Current Date: 21-APR-2026
Labeler DUNS: 144956009
Labeler Name: Luria Therapeutics LLC
Labeler Code Assigned: 87628

The Food and Drug Administration (FDA) has assigned the above Labeler Code to the firm. However, the Labeler Code cannot be used in any drug listing submission until you have confirmed the assignment. To complete this process, open the previous Labeler Code Request SPL file and fill in the new information (your assigned Labeler Code) without changing the other existing information. Fill in a new root ID and new version number with the original set ID and the appropriate effective time.

For CDER Direct Users: Open the previously submitted and accepted Labeler Code Request, click Create New Version, enter the Labeler Code assigned in the field for "Labeler Code", and Submit SPL.

Once you have confirmed the assignment, this Labeler Code shall be used to propose the National Drug Code (NDC) for assignment to all drugs you manufacture or distribute for U.S. commercial distribution. The requirements regarding the assignment of an NDC is extensively discussed in Part 207.33 of Title 21 of the Code of Federal Regulations (CFR). The NDC for each drug must be submitted as part of drug listing information submitted to FDA.

Per section 510(j)(1) of the Federal Food, Drug, and Cosmetic Act (FD&C Act) and 21 CFR Part 207 registrants that are required to register their establishment with FDA (or Private Label Distributors (PLD) acting as their authorized agent) must list each drug that it manufactures, repacks, relabels, or salvages for commercial distribution, including the appropriate NDC, no later than 3 calendar days after the initial registration of the establishment. Labeler name, physical address, email address and other contact information, type(s) of activities, and type(s) of drug(s) must be updated within 30 calendar days after any change to that information, § 207.33(c)(2). FDA uses this information for official communication regarding listing.

Labeler Codes are assigned by FDA and may be inactivated at any time upon violation of the FD&C Act or other applicable FDA regulations.

Note that receipt of this letter and assignment of an NDC does not denote approval of the establishment or the drug or any other drugs of the establishment, nor does it mean that the drug may be legally marketed.

For additional information please visit Drug Registration and Listing System or reply to this email (edrls@fda.hhs.gov).

Regards,

DRLB

LURIA
PHARMA

Description of Operations

Luria Therapeutics LLC ("Luria") is a Virtual Manufacturer of prescription drugs. Luria's products are not Controlled Substances. As a Virtual Manufacturer, Luria does not manufacture, distribute, or store drug product at their facility. Luria's products are manufactured by a Contract Manufacturer and will be distributed by a Third-Party Logistics Provider, who is licensed to ship pharmaceutical products into your state.
Hours of operation 9 AM to 5 PM Monday through Friday.

Luria Labeler Code: 87628

Contract Manufacturing

At no time does the Contract Manufacturer own the product, contract with Luria's customers, invoice, or sell Luria's product.

License Exemption

Luria Therapeutics, LLC is not required to hold a license in the state of Wisconsin, based on the following:

2. A corporate headquarters for a drug manufacturer, located in this state, does not need to be licensed as a manufacturer if the headquarters is not a facility where manufacturing occurs.

3. A drug manufacturer may retain title to prescription drugs distributed to pharmacies until the medications are actually sold to a consumer pursuant to a prescription order. The pharmacy laws in this state do not prohibit the business arrangement proposed.

The above can be referenced on the attached Wisconsin Pharmacy Examining Board provided document.

Website: http://dsps.wi.gov

PHARMACY EXAMINING BOARD

BUSINESS MODELS AND THE REQUIREMENTS FOR LICENSURE

(PHARMACY, PRESCRIPTION DRUG OR DEVICE DISTRIBUTOR AND DRUG MANUFACTURER)

Drug Manufacturers:

1. Drug or device manufacturing facilities which are located within the state of Wisconsin are required to obtain a manufacturer's license from the board.

2. A corporate headquarters for a drug manufacturer, located in this state, does not need to be licensed as a manufacturer if the headquarters is not a facility where manufacturing occurs.

3. A drug manufacturer may retain title to prescription drugs distributed to pharmacies until the medications are actually sold to a consumer pursuant to a prescription order. The pharmacy laws in this state do not prohibit the business arrangement proposed.

4. No distributor's license would be required for an out-of-state manufacturing facility that engages in the wholesale distribution of prescription drugs in this state from that manufacturing facility.

Prescription Drug and/or Device Distributors:

1. A distributor's license authorizes a facility to sell prescription drugs or devices to pharmacists, pharmacies, researchers, hospitals, authorized agents of the federal government and other distributors. A distributor's license does not authorize a facility to dispense prescription drugs directly to patients pursuant to a prescriber's prescription order. Dispensing directly to patients under a prescription order requires a pharmacy license.

2. Out-of-state or in-state wholesale distributors of prescription drugs are required to obtain a distributor's license in Wisconsin for each facility from which the prescription drugs are distributed.

3. A prescription device distributor does not need to be registered with the Food and Drug Administration, if it is not a manufacturer or initial importer **and** distributes a device from the original location of the manufacturer to the person who is making the final delivery or sale of the device to the ultimate consumer and/or user. A Wisconsin prescription device distributor license is still needed.

Out-of-State Pharmacies:

Effective April 13, 2006

1. This state requires a Wisconsin pharmacy license be obtained by pharmacies licensed in another state which dispense prescription medications, including schedule II controlled substances, by mail or other delivery to patients in this state.

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. EACX4058628

Application/License No. _____

Luria Therapeutics LLC (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 10411 Corporate Drive, Suite 108, Pleasant Prairie, WI 53158 (Address of Applicant/Principal), as PRINCIPAL, and Endurance Assurance Corporation (Surety Company), a corporation organized under the laws of the state of Delaware (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is 4 Manhattanville Road 3rd Floor, Purchase, NY 10577 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of TWENTY-FIVE THOUSAND DOLLARS ($25,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on June 29, 2026 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statue (NRS) 639.515 and Nevada Administrative Code (NAC) 639.5937 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $25,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

Posted February 20, 2020

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and NAC 639.5937 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515 and NAC 639.5937. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 30 day of June, 20 26.

SOMPO INTERNATIONAL
INSURANCE

POWER OF ATTORNEY

2640

KNOW ALL BY THESE PRESENTS, that **Endurance Assurance Corporation**, a Delaware corporation ("EAC"), **Endurance American Insurance Company**, a Delaware corporation ("EAIC"), **Lexon Insurance Company**, a Texas corporation ("LIC"), and/or **Bond Safeguard Insurance Company**, a South Dakota corporation ("BSIC"), each, a "Company" and collectively, "**Sompo International**," do hereby constitute and appoint: Loretta Jones of Knoxville TN

as true and lawful Attorney(s)-In-Fact to make, execute, seal, and deliver for, and on its behalf as surety or co-surety; bonds and undertakings given for any and all purposes, also to execute and deliver on its behalf as aforesaid renewals, extensions, agreements, waivers, consents or stipulations relating to such bonds or undertakings provided, however, that no single bond or undertaking so made, executed and delivered shall obligate the Company for any portion of the penal sum thereof in excess of the sum of **One Hundred Million Dollars ($100,000,000.00)**.

Such bonds and undertakings for said purposes, when duly executed by said attorney(s)-in-fact, shall be binding upon the Company as fully and to the same extent as if signed by the President of the Company under its corporate seal attested by its Corporate Secretary.

This appointment is made under and by authority of certain resolutions adopted by the board of directors of each Company by unanimous written consent effective the 30th day of March, 2023 for BSIC and LIC and the 17th day of May, 2023 for EAC and EAIC, a copy of which appears below under the heading entitled "Certificate".

This Power of Attorney is signed and sealed by facsimile under and by authority of the following resolution adopted by the board of directors of each Company by unanimous written consent effective the 30th day of March, 2023 for BSIC and LIC and the 17th day of May, 2023 for EAC and EAIC and said resolution has not since been revoked, amended or repealed:

RESOLVED, that the signature of an individual named above and the seal of the Company may be affixed to any such power of attorney or any certificate relating thereto by facsimile, and any such power of attorney or certificate bearing such facsimile signature or seal shall be valid and binding upon the Company in the future with respect to any bond or undertaking to which it is attached.

IN WITNESS WHEREOF, each Company has caused this instrument to be signed by the following officers, and its corporate seal to be affixed this 25th day of May, 2023.

Amy Taylor, Notary Public – My Commission Expires 3/9/27

CERTIFICATE

I, the undersigned Officer of each Company, DO HEREBY CERTIFY that:

1. That the original power of attorney of which the foregoing is a copy was duly executed on behalf of each Company and has not since been revoked, amended or modified; that the undersigned has compared the foregoing copy thereof with the original power of attorney, and that the same is a true and correct copy of the original power of attorney and of the whole thereof;
2. The following are resolutions which were adopted by the board of directors of each Company by unanimous written consent effective 30th day of March, 2023 for BSIC and LIC and the 17th day of May, 2023 for EAC and EAIC and said resolutions have not since been revoked, amended or modified:

   "RESOLVED, that each of the individuals named below is authorized to make, execute, seal and deliver for and on behalf of the Company any and all bonds, undertakings or obligations in surety or co-surety with others: RICHARD M. APPEL, MATTHEW E. CURRAN, MARGARET HYLAND, SHARON L. SIMS, CHRISTOPHER L. SPARRO,

   and be it further

   RESOLVED, that each of the individuals named above is authorized to appoint attorneys-in-fact for the purpose of making, executing, sealing and delivering bonds, undertakings or obligations in surety or co-surety for and on behalf of the Company."
3. The undersigned further certifies that the above resolutions are true and correct copies of the resolutions as so recorded and of the whole thereof.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the corporate seal this 30th day of June, 20 26.

Daniel S. Lurie, Secretary

NOTICE: U. S. TREASURY DEPARTMENT'S OFFICE OF FOREIGN ASSETS CONTROL (OFAC)

No coverage is provided by this Notice nor can it be construed to replace any provisions of any surety bond or other surety coverage provided. This Notice provides information concerning possible impact on your surety coverage due to directives issued by OFAC. **Please read this Notice carefully.**

The Office of Foreign Assets Control (OFAC) administers and enforces sanctions policy, based on Presidential declarations of "national emergency". OFAC has identified and listed numerous foreign agents, front organizations, terrorists, terrorist organizations, and narcotics traffickers as "Specially Designated Nationals and Blocked Persons". This list can be located on the United States Treasury's website – https://www.treasury.gov/resource-center/sanctions/SDN-List.

In accordance with OFAC regulations, if it is determined that you or any other person or entity claiming the benefits of any coverage has violated U.S. sanctions law or is a Specially Designated National and Blocked Person, as identified by OFAC, any coverage will be considered a blocked or frozen contract and all provisions of any coverage provided are immediately subject to OFAC. When a surety bond or other form of surety coverage is considered to be such a blocked or frozen contract, no payments nor premium refunds may be made without authorization from OFAC. Other limitations on the premiums and payments may also apply.

From: edrls@fda.hhs.gov
To: Jennifer Spinella
Subject: Labeler Code Request Approved
Date: Friday, November 14, 2025 4:43:12 AM

Current Date: 14-NOV-2025
Labeler DUNS: 138389827
Labeler Name: Mandos LLC
Labeler Code Assigned: 87230

The Food and Drug Administration (FDA) has assigned the above Labeler Code to the firm. However, the Labeler Code cannot be used in any drug listing submission until you have confirmed the assignment. To complete this process, open the previous Labeler Code Request SPL file and fill in the new information (your assigned Labeler Code) without changing the other existing information. Fill in a new root ID and new version number with the original set ID and the appropriate effective time.

For CDER Direct Users: Open the previously submitted and accepted Labeler Code Request, click Create New Version, enter the Labeler Code assigned in the field for "Labeler Code", and Submit SPL.

Once you have confirmed the assignment, this Labeler Code shall be used to propose the National Drug Code (NDC) for assignment to all drugs you manufacture or distribute for U.S. commercial distribution. The requirements regarding the assignment of an NDC is extensively discussed in Part 207.33 of Title 21 of the Code of Federal Regulations (CFR). The NDC for each drug must be submitted as part of drug listing information submitted to FDA.

Per section 510(j)(1) of the Federal Food, Drug, and Cosmetic Act (FD&C Act) and 21 CFR Part 207 registrants that are required to register their establishment with FDA (or Private Label Distributors (PLD) acting as their authorized agent) must list each drug that it manufactures, repacks, relabels, or salvages for commercial distribution, including the appropriate NDC, no later than 3 calendar days after the initial registration of the establishment. Labeler name, physical address, email address and other contact information, type(s) of activities, and type(s) of drug(s) must be updated within 30 calendar days after any change to that information, § 207.33(c)(2). FDA uses this information for official communication regarding listing.

Labeler Codes are assigned by FDA and may be inactivated at any time upon violation of the FD&C Act or other applicable FDA regulations.

Note that receipt of this letter and assignment of an NDC does not denote approval of the establishment or the drug or any other drugs of the establishment, nor does it mean that the drug may be legally marketed.

For additional information please visit Drug Registration and Listing System or reply to this email (edrls@fda.hhs.gov).

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. 101958783

Application/License No. _____

Mandos, LLC (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 50 Milk St, Floor 11 Boston, MA 02109 (Address of Applicant/Principal), as PRINCIPAL, and Merchants National Bonding, Inc. (Surety Company), a corporation organized under the laws of the state of Iowa (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is 6700 Westown Parkway, West Des Moines, IA 50266 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of TWENTY-FIVE THOUSAND DOLLARS ($25,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on July 28, 2026 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statue (NRS) 639.515 and Nevada Administrative Code (NAC) 639.5937 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $25,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and NAC 639.5937 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515 and NAC 639.5937. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 28th day of July, 2026.

MERCHANTS BONDING COMPANY™

POWER OF ATTORNEY

Know All Persons By These Presents, that MERCHANTS BONDING COMPANY (MUTUAL) and MERCHANTS NATIONAL BONDING, INC., both being corporations of the State of Iowa, and MERCHANTS NATIONAL INDEMNITY COMPANY , an assumed name of Merchants National Bonding, Inc., (herein collectively called the "Companies") do hereby make, constitute and appoint, individually,

Valerie Garcia

their true and lawful Attorney(s)-in-Fact, to sign its name as surety(ies) and to execute, seal and acknowledge any and all bonds, undertakings, contracts and other written instruments in the nature thereof, on behalf of the Companies in their business of guaranteeing the fidelity of persons, guaranteeing the performance of contracts and executing or guaranteeing bonds and undertakings required or permitted in any actions or proceedings allowed by law.

This Power-of-Attorney is granted and is signed and sealed by facsimile under and by authority of the By-Laws adopted by the Board of Directors of the Companies.

"The President, Secretary, Treasurer, or any Assistant Treasurer or any Assistant Secretary or any Vice President shall have power and authority to appoint Attorneys-in-Fact, and to authorize them to execute on behalf of the Company, and attach the seal of the Company thereto, bonds and undertakings, recognizances, contracts of indemnity and other writings obligatory in the nature thereof."

"The signature of any authorized officer and the seal of the Company may be affixed by facsimile or electronic transmission to any Power of Attorney or Certification thereof authorizing the execution and delivery of any bond, undertaking, recognizance, or other suretyship obligations of the Company, and such signature and seal when so used shall have the same force and effect as though manually fixed."

In connection with obligations in favor of the Florida Department of Transportation only, it is agreed that the power and authority hereby given to the Attorney-in-Fact includes any and all consents for the release of retained percentages and/or final estimates on engineering and construction contracts required by the State of Florida Department of Transportation. It is fully understood that consenting to the State of Florida Department of Transportation making payment of the final estimate to the Contractor and/or its assignee, shall not relieve this surety company of any of its obligations under its bond.

In connection with obligations in favor of the Kentucky Department of Highways only, it is agreed that the power and authority hereby given to the Attorney-in-Fact cannot be modified or revoked unless prior written personal notice of such intent has been given to the Commissioner - Department of Highways of the Commonwealth of Kentucky at least thirty (30) days prior to the modification or revocation.

In Witness Whereof, the Companies have caused this instrument to be signed and sealed this 28th day of July , 2026 .

BENNETT MESROVBE SMITH, MBA

[redacted]

Commercial & Market Access Transformational Leader in Healthcare

Senior leader with a successful track record of launching blockbuster brands and revitalizing late-in-market assets through architecting and implementing innovative Market Access, Marketing and Sales initiatives within the Pharmaceutical/Biotech industries. Build commercial functions and assemble teams and departments from the ground up. A results-driven and strategic leader overseeing all commercial functions with full P&L responsibility and staff management in various therapeutic areas.

Core Competencies & Executive Highlights

- **Market Access & Commercial Expertise Driving Growth & Revenue:**
  - **Beren:** Built full commercialization capability for first product launch in neurodegenerative disorder; inclusive of supply chain, commercial, and medical affairs.
  - **Orchard:** Delivered US launch excellence and full commercial build supporting a curative gene therapy in rare disease.
  - **Akebia:** Achieved largest AURYXIA revenue increase in 8th year of commercialization through optimized commercial strategy and execution.
  - **Regeneron:** Shifted access strategy, improving Commercial and Medicare approval rates from 20% to ~75% for PRALUENT® after 1 year on market.
  - **Novo Nordisk:** Achieved double-blockbuster success for Victoza® launch in the U.S. without cannibalizing diabetes franchise.
- **Broad Managed Markets Channel Experience:** Commercial and Government (Medicare and Medicaid) Health Plans, PBMs, Employers, State / Federal government, GPOs, LTC, HS/IDNs, Employers, and Trade.
- **Transformational Leadership:** Proven record of recruiting and coalescing world-class Sales, Market Access, and Patient Access teams around new or realigned strategies with successful execution made possible by nurturing cultures where people feel they belong and can thrive and advance.

Leadership Experience

BEREN THERAPEUTICS, BOSTON, MA — **MAY 2025 – PRESENT**
MANDOS LLC, BOSTON, MA

SENIOR VICE PRESIDENT, COMMERCIAL

Brought into the executive team to build global commercialization capabilities for first product launch for a private, biotech company with anticipated US launch in 2026; EU launch in 2028

- **Lead external engagements with key investors for Series A and Structured Credit Financing** Raised sufficient capital to fund US commercialization and global expansion on a path to self-sustainability by 2027
- **Built high-performing functions across commercial, medical affairs, corporate communications, and supply chain** icore infrastructure for data unveiling, first scientific publications, data and insights generation, brand planning, investments to outperform launch.
- **Architected Go to Market strategy and execution** Identified key sites, KOLs, and treaters for early engagement in the USand Global to support a scalable model to retain rights and build a fully integrated biotech
- **Lead enterprise change management from R&D focused, clinical organization to shift enterprise wide capabilities to support commercialization** Lead cross functional launch planning with all enterprise functions, building ways of workingand systems that support the commercial needs for launch..
- **Developed growth strategies for adjacent indications,** Lead indication expansion with high POS and commercial value toadd accretive catalyst that will shift enterprise valuation in our 2030 vision

ORCHARD THERAPEUTICS, BOSTON, MA — **OCT 2023 – MAY 2025**

SENIOR VICE PRESIDENT, GENERAL MANAGER, NORTH AMERICA

Brought in to lead Orchard's (a subsidiary of Kyowa Kirin) first U.S. Commercial launch for first-in-class cell and gene therapy for ultra-rare pediatric condition.

- **Outperformed launch expectations for patient lead identification and new patient starts.** 120% commercial performance on new patient leads and exceeded new patient starts by 125%, leading to strong revenue performance.

- **Built high-performing team of 9 in 2.5 months** inclusive of Marketing, Patient Services, Market Access, and Advanced Therapy Account Management. Lead site qualification and certification. Built Government Affairs and Public Policy teams.
- **Created commercial analytics strategy for early diagnosis,** working cross-functionally with Medical to determine variables for diagnosis using data analytics and real-world claim surveillance, successfully generating leads across the U.S.
- **Architected Go to Market strategy and execution.** Qualify and choose treatment centers and ensure market access pull through for high-value cell therapy solidifying value proposition with ICER endorsed price.
  - Identify and partner with MLD experts, key Neurologists, Geneticists, referral centers and leading children's hospitals including CHOP, Stanford, Boston Children's, CHOA, UCSF, Primary Children's, UMN, and Lurie Children's.
- **Developed & launched PR strategy,** using traditional and non-traditional media to share customer stories to support grassroots efforts, hospital outreach, and legislative efforts for Newborn screening, and access opportunities.

AKEBIA THERAPEUTICS, CAMBRIDGE, MA 2018 – 2023

SENIOR VICE PRESIDENT, COMMERCIAL ('22 – '23)

Led integrated commercial functions including Marketing, Sales, Market Access, Pricing and Contracting, Trade and Rebate Operations, Commercial Analytics and Patient Services. Key member of the Executive Leadership Team overseeing incentive compensation, sales force sizing and commercial design.

- **Revamped contracting strategy leading to 25% YOY growth.** Achieved largest AURYXIA revenue increase through optimized commercial strategy and execution in 8th year of commercialization.
  - Optimized access and minimized gross-to-net impact for in-line asset for organized customers (dialysis providers), payer formulary, rebate and distribution agreements.
- **Led successful rebate concessions negotiations** with Part D plans after CMS imposed an indication-based prior authorization, yielding gross to net savings of $80-100M through LOE.
- **Rearchitected sales force strategy realizing $20M in yearly savings.** Reduced Sales team by more than 50% while growing revenue by designing and transitioning the organization to an account-based commercial model to improve demand generation with high-value customers, and a key account focus.
- **Led Business Development and Commercial strategy.** Implemented pipeline and LCM commercial strategy and assessment, facilitated R&D prioritization and Business Development execution for both out-licensing and in-licensing opportunities.

SENIOR VICE PRESIDENT, MARKETING, MARKET ACCESS AND PATIENT SERVICES ('21 – '22)

Led Marketing, Marketing Operations, Market Access and Patients Services.

- **Commercialization lead,** creating the brand strategy, go-to-market plan, creative campaign, positioning and messaging to support first-in-class HIF inhibitor, Vadadustat, for CKD Anemia in Dialysis and Non-Dialysis (On hold due to a CRL in March 2022).
  - Led brand and portfolio strategy, AURYXIA commercial strategy, VAFSEO launch readiness and governance, marketing, and commercial operations.
- **Executed pre-market Vadadustat Market Access launch plan** and strategic engagements with key customers inclusive of payers and dialysis providers for pre-label information exchanges to ensure access at product launch.
- **Managed customer engagement strategy** for organized customers (dialysis providers), payer formulary and rebate agreements, and distribution agreements to optimize access and minimize gross to net impact for current in-line asset.

VICE PRESIDENT, MARKET ACCESS AND PATIENT SERVICES ('19 – '21)

Led integrated Market Access function post-Keryx merger. Led strategic account management for large and medium-sized dialysis providers.

- **Executed key AURYXIA contract with largest Renal-focused specialty pharmacy** announced during Q3'19 earnings calls and renewed in Q4'20 for 2021.
- **Successfully negotiated rebate concessions** with Part D plans after CMS imposed an indication-based prior authorization, yielding gross to net savings of approximately $15M in 2020 rebate invoicing.
- **Managed the transition to new access service HUB provider** to improve end-to-end patient and provider support.
- **Developed Regional Specialty Pharmacy Network** for in-line and pipeline renal products inclusive of CKD and dialysis clinical support.
- **Responsible for comprehensive trade function including** distribution (3PL, wholesalers and pharmacies), support services, and reimbursement strategy for in-line and pipeline assets.

SENIOR DIRECTOR, MARKET ACCESS ('18)

Led Market Access build to support Vadadustat launch (commercial and developed partnership with Otsuka). Led pre-commercial market access planning for U.S. and EU including dialysis and payer engagement strategy, value prop development, HEOR development to support.

- **Completed pricing and contracting strategy for both indications of Vadadustat** inclusive of policy determined TDAPA economics for the U.S. dialysis market and established value demonstration for U.S. and EU markets.
- Assessed Market Access build for benchmarking team size to support Vadadustat and integrated functions from Akebia/Keryx merger.
- Supported alliance commercial and market access planning with Otuska for EU and U.S. and Vifor Pharma for Dialysis Market.

REGENERON HEALTHCARE SOLUTIONS, TARRYTOWN, NY 2016 – 2018

SENIOR DIRECTOR, U.S. AND GLOBAL MARKET ACCESS

Developed price, contracting, channel, health economic, and trade strategy for PRALUENT® brand and pipeline assets.

- **Reimagined PRALUENT® commercial strategy gaining alignment with CEO** leveraging Specialty Pharmacy and HUB Analytics, improving access for high-risk CV patients based on reestablished payer Prior Authorization criteria.
  - Achieved Market Access Goals with over 90% covered lives and #1 covered product by entering into innovative contracts with pharmacies and hospitals to unlock access and dramatically increase approvals.
  - Improved Commercial and Medicare approval rates from 20% to ~75%.
  - Improved "approvable patient" lives in two largest PBMs and two national health plans.
- **Developed Global Cardiovascular Outcomes Trial plan** to improve pricing and reimbursement in the EU5 and US pre- and post-CVOT results including development of innovative/value-based contracting.
- **Managed an alliance relationship interfacing** with both global market access affiliates, U.S. and global commercial teams, and leading an internal market access team.

NOVO NORDISK, PRINCETON, NJ 2011 – 2016

BRAND DIRECTOR, MARKET ACCESS, VICTOZA® ('13 – '16)

ASSOCIATE DIRECTOR, MARKET ACCESS ('11 – '13)

- **Achieved double-blockbuster success for Victoza® launch** in the U.S. without cannibalizing diabetes franchise.
- **Extended commercial strategy** from PBM contracts to include educating large, Fortune 500 employers with 400K+ employees on the benefits of making this available to their work force.

Prior Experience:

DRAFT FCB HealthCare, New York, NY – Account Group Supervisor. Managed launch strategy, tactics and $4M launch budget for a specialty injectable biologic product for Novartis. (2011)

FOREST LABORATORIES, New York, NY

- **Segment Marketing Manager** (2009 – 2011)
- **Divisional Sales Manager** (2007 – 2009)
- **Regional Sales Trainer** (2006 – 2007)
- **Hospital Account Executive** (2004 – 2006)
- **Sales Representative / Field Trainer** (2002 – 2004

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. PB12409400502

Application/License No. _____

TAILSTORM HEALTH INC (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 158 S KYRENE RD CHANDLER, AZ 85226 (Address of Applicant/Principal), as PRINCIPAL, and PHILADELPHIA INDEMNITY INSURANCE COMPANY (Surety Company), a corporation organized under the laws of the state of PENNSYLVANIA (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is ONE BALA PLAZA SUITE 100 BALA CYNWYD, PA 19004-0950 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of TWENTY-FIVE THOUSAND DOLLARS ($25,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on AUGUST 17, 2026 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statue (NRS) 639.515 and Nevada Administrative Code (NAC) 639.5937 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $25,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

Posted February 20, 2020

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and NAC 639.5937 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515 and NAC 639.5937. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 20TH day of AUGUST, 2026.

Section 8: Arrests, Detentions, Litigations, Arbitrations.	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		✔
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		✔
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)		✔
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		✔
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?		✔
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✔
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✔
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✔
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✔

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

This is in response to Question # _____. Provide all the following *where applicable*:

Date of Event/Arrest	Disposition Date	State	City	County

Case #	Governing, licensing, Arresting Presiding Body/Agency/Court

Reason/Charge

Plaintiff/Defendant/Claimant/Respondent	Lawsuit/Arbitration/Bankruptcy

Name of Business/Industry/Entity

Provide explanation below:

Date

I, Sidra Pervez, **certify that as the designated representative for**

Medivant Healthcare,

that I (initial that you have read and meet the following requirements) (NAC 639.5005, NAC 639.5935):

1. SP I am at least 21 years of age;
3. SP I have been employed for at least 6,000 hours in a pharmacy or with a wholesaler in a capacity related to the dispensing and distribution of, and recordkeeping related to, prescription drugs.
4. SP I will be actively involved in and aware of the actual daily operations of the pharmacy or wholesaler;
5. SP I will be employed full-time in a managerial level position with the pharmacy or wholesaler;
6. SP I will be physically present at site of the pharmacy or at the facility of the wholesaler during regular business hours, except when the absence of the representative is authorized, including sick leaves, vacation leaves and other authorized absences; and
7. SP I will serve in this representative capacity for only one pharmacy or wholesaler at a time.

This document lists observations made by the FDA representative(s) during the inspection of your facility. They are inspectional observations, and do not represent a final Agency determination regarding your compliance. If you have an objection regarding an observation, or have implemented, or plan to implement, corrective action in response to an observation, you may discuss the objection or action with the FDA representative(s) during the inspection or submit this information to FDA at the address above. If you have any questions, please contact FDA at the phone number and address above.

DURING AN INSPECTION OF YOUR FIRM WE OBSERVED:
OBSERVATION 1
The separate or defined areas and control systems necessary to prevent contamination or mix-ups are deficient.

Specifically, your firm's batch records document significant environmental monitoring excursions during filling of sterile drugs.

A) Nonviable particulate counter (NVPC) data for five of six lots we reviewed of the 19 total lots that were manufactured in 2025 using the new ISO 5 RABS filling line indicate numerous action limit results occurred during filling, but your quality unit did not document a thorough investigation. For example, the following five batches were released and the first four listed were distributed:
   - Bupivacaine HCl 0.5%/Epinephrine Bitartrate 5 mcg/mL Injection, 10 mL, lot 2502005, had approximately 73 action limit results for 0.5 micron particles and approximately 104 action limit results for 5 micron particles. The maximum result for 0.5 micron was 39,258 particles/m^3 and the maximum result for 5 micron was 1,237 particles/m^3.
   - Ketamine 1% 10 mg/mL, 5 mL (SDV), lot 2502008, had approximately 1 action limit result for 0.5 micron particles and approximately 3 action limit results for 5 micron particles. The maximum result for 0.5 micron was 31,731 particles/m^3 and the maximum result for 5 micron was 35 particles/m^3.
   - Ketamine 10% 100 mg/mL, 5 mL (MDV), lot 2502009, had approximately eight action limit results for 0.5 micron particles and approximately 14 action limit results for 5 micron particles. The maximum result for 0.5 micron was 11,661 particles/m^3 and the maximum result for 5 micron was 389 particles/m^3.
   - Lidocaine HCl 1%/Epinephrine Bitartrate 10 mcg/mL, 10 mL, lot 2503004, had approximately 17 action limit results for 0.5 micron particles and approximately 160 action limit results for 5 micron particles. The maximum result for 0.5 micron was 47,752 particles/m^3 and the maximum result for 5 micron was 8,021 particles/m^3.
   - Bupivacaine HCl Injection USP 0.25%, 10 mL, lot 2504002, had approximately 21 action limit results for 0.5 micron particles and approximately 38 action limit results for 5 micron particles. The maximum result for 0.5 micron was 154,594 particles/m^3 and the maximum result for 5 micron was 47,526 particles/m^3.

B) Batch records for the first 18 sterile lots manufactured in 2025 using the new ISO 5 RABS filling line document NVPC alert and action limits in the software were set above the limits allowed per ISO guidelines and in the approved procedure SOP.CQC.0068, Environmental Monitoring Program. Your firm discovered this error in about April 2025 but did not conduct a thorough investigation per the Assessment of Non-Viable Particle Count Limit impact assessment approved 05/05/25. We reviewed six of

SEE REVERSE OF THIS PAGE	EMPLOYEE(S) SIGNATURE		DATE ISSUED
	Nicholas L Hunt, Investigator Ronda R Loyd Jones, Investigator	X Nicholas L Hunt Investigator Signed By: Nicholas L Hunt -S Date Signed: 05-23-2025 11:58:16	5/23/2025

these lots and each experienced multiple excursions beyond the ISO limits for ISO 5 cleanrooms and some had excursions beyond the default limits detailed below. For example, during filling of Bupivacaine HCl 0.5%/Epinephrine Bitartrate 5 mcg/mL Injection, 10 mL, lot 2502005 the 0.5 micron particulate limit was set to 660,002 particles/m3 and a result of 39,258 particles/m3 at the filling station did not trigger an action limit result or initiate an auto-stop on the line so filling continued through this excursion and many others beyond ISO 5 limits.

The default limits used during filling:

- Alert limit for 0.5 micron particles at the Infeed Turn Table was 991 particles/m^3
- Action limit for 0.5 micron particles at the Infeed Turn Table was 15,000 particles/m^3
- Alert limit for 5 micron particles at the Infeed Turn Table was 91 particles/m^3
- Action limit for 5 micron particles at the Infeed Turn Table was 5,000 particles/m^3
- Alert limit for 0.5 micron particles at the Filling Station was 992 particles/m^3
- Action limit for 0.5 micron particles at the Filling Station was 660,002 particles/m^3
- Alert limit for 5 micron particles at the Filling Station was 92 particles/m^3
- Action limit for 5 micron particles at the Filling Station was 255,002 particles/m^3

C) Your approved procedures do not require production technicians or quality personnel take any specific remedial actions, reject vials present on the line during the inspection, or open a quality investigation in response to NVPC action limit results during filling. Examples of batches with no investigation for NVPC action limit excursions include lot 2502001, lot 2502005, lot 2502008, lot 2502009, lot 2503004, and lot 2504002.

OBSERVATION 2

There is a failure to thoroughly review any unexplained discrepancy and the failure of a batch or any of its components to meet any of its specifications whether or not the batch has been already distributed.

(This is a repeat observation.)

Specifically, OOS investigations did not always contain complete written justification to support the root cause and conclusions, and investigations were not always expanded to additional lots when implicated by the root cause.

A) Investigations OOS.23.015 (lot 2304001), OOS.24.001 (lot 2312002), and OOS.23.016 (lot 2310001) identified sample handling and preparation at your contract laboratory as the probable root cause for OOS liquid particle count results in finished drug lots but did not include specific actions by analysts that might have caused the OOS. The contract laboratory investigation did not find any laboratory errors. There was no thorough explanation of the discrepancy between your investigation and your contract laboratory's investigation. There was no record of remedial action at your contract laboratory to prevent reoccurrence of the unspecified root cause. Your firm re-tested these lots and then released and distributed them without identifying the source of the particles found in your drug product.

DISTRICT ADDRESS AND PHONE NUMBER	DATE(S) OF INSPECTION
6th & Kipling St. (P.O. Box 25087) Denver, CO 80225-0087 (303)236-3000 Fax:(303)236-3100	5/14/2025-5/23/2025* FEI NUMBER 3015929581

NAME AND TITLE OF INDIVIDUAL TO WHOM REPORT ISSUED
Mitesh M. Gandhi, VP of Operations and Finance

FIRM NAME	STREET ADDRESS
Tailstorm Health, Inc. dba Medivant Healthcare	158 S Kyrene Rd
CITY, STATE, ZIP CODE, COUNTRY	TYPE ESTABLISHMENT INSPECTED
Chandler, AZ 85226-4472	outsourcing facility

B) Investigations OOS.24.003 (stability lot 2212005, T12_U_CRT), OOS.24.004 (stability lot 2301001, T12_I_CRT), and OOS.23.005 (lots ENG22006 and ENG22007) document multiple bupivacaine assay OOS results for Bupivacaine HCl/Epinephrine Bitartrate injection. Bupivacaine assay was low for one 12-month real-time stability sample, high for one 12-month real-time stability sample, and high for both engineering lots. Your firm determined a weighing or dilution error was the root cause, because the ratio between the standard and sample solution was wider for the OOS lots than passing lots tested at the same time. HPLC system suitability passed, and the laboratory investigation performed by your contract lab did not find any errors. There is no specification or limit for this ratio, and it is not reviewed unless there is a problem with the initial result. Your firm did not expand the investigation to all other lots or even though the root cause identified appears to implicate all assays for this product.

OBSERVATION 3

Acceptance criteria for the sampling and testing conducted by the quality control unit is not adequate to assure that batches of drug products meet each appropriate specification and appropriate statistical quality control criteria as a condition for their approval and release.

(This is a repeat observation.)

Specifically, we observed multiple deficiencies when we examined your firm's visual inspection, AQL, and particle identification procedures, processes, and executed records.

A) Your firm did not determine the identity, source, and route of contamination for particles and fibers observed inside sterile finished drug vials during 100% visual inspection and AQL performed post-terminal sterilization for lots we examined. The lots met acceptance criteria for VI and AQL and were released with no additional investigation. For example,

- Inspectors identified 83 units with particles and 16 units with fibers during 100% visual inspection of Sterile Water for Injection, USP 10 mL, lot 2502001.
- Inspectors identified 21 units with particles and eight units with fibers during 100% visual inspection of Bupivacaine HCl 0.5%/Epinephrine Bitartrate 5 mcg/mL Injection, 10 mL, lot 2502005.
- Inspectors identified five units with particles and four units with fibers during 100% visual inspection of Ketamine 1% 10 mg/mL, 5 mL (SDV), lot 2502008. QA found one additional white fiber during AQL.
- Inspectors identified four units with particles and three units with fibers during 100% visual inspection of Ketamine 10% 100 mg/mL, 5 mL (MDV), lot 2502009. QA found one additional white particle during AQL.
- Inspectors identified 2 units with particles and 6 units with fibers during 100% visual inspection of Lidocaine HCl 1%/Epinephrine Bitartrate 10 mcg/mL, 10 mL, lot 2503004. QA found one additional white particle and one additional fiber during AQL.
- Inspectors identified six units with particles and three units with fibers during 100% visual inspection of Bupivacaine HCl Injection USP 0.25%, 10 mL, lot 2504002.

B) QA inspectors compare rejected defect vials from 100% visual inspection that contain particulates and fibers to the defect gallery.

FIRM NAME	STREET ADDRESS
Tailstorm Health, Inc. dba Medivant Healthcare	158 S Kyrene Rd
CITY, STATE, ZIP CODE, COUNTRY	TYPE ESTABLISHMENT INSPECTED
Chandler, AZ 85226-4472	outsourcing facility

Your current procedures are deficient because they require the QA inspector to visually determine if the particle or fiber is known or unknown and then send the vial for additional identification. There was inadequate explanation how the QA inspector can visually distinguish the composition of similar particles when the description in the defect gallery is a general description such as "black particle". For example, multiple black particles or multiple white fibers will appear similar but might be different materials when examined under microscopy, FTIR, or other identification method. We also noted the procedure applies to defect vials from 100% visual inspection but does not require QA inspectors to compare particles found during AQI. to the defect gallery.

C) There is inadequate written justification to classify particulates and fibers found in terminally sterilized injectable drugs as major defects instead of critical defects. Critical defects have a lower defect limit.

D) You do not have adequate written justification for not identifying all particles and fibers observed during 100% visual inspection and AQL.

OBSERVATION 4
Routine inspection and checking of equipment is not performed according to a written program designed to assure proper performance.

Specifically, we observed the UV lamp unit on your water for injection (WFI) generation skid leaking and creating a puddle on the floor on 05/14/25. There were no records available to determine how long this leak was present. Your firm uses WFI to produce approximately 19 different terminally sterilized injectable drugs. Examples of lots produced with WFI include: Sterile Water for Injection, USP 10 mL, lot 2502001; Bupivacaine HCl 0.5%/Epinephrine Bitartrate 5 mcg/mL Injection, 10 mL, lot 2502005; Ketamine 10% 100 mg/mL, 5 mL (MDV), lot 2502009; and Bupivacaine HCl Injection USP 0.25%, 10 mL, lot 2504002.

OBSERVATION 5
Buildings used in the manufacturing, processing and packing of a drug product are not maintained in a good state of repair.

Specifically, we observed maintenance deficiencies with the cleanrooms production technicians use to manufacture all terminally sterilized injectable drugs including: Sterile Water for Injection, USP 10 mL, lot 2502001; Bupivacaine HCl 0.5%/Epinephrine Bitartrate 5 mcg/mL Injection, 10 mL, lot 2502005; Ketamine 10% 100 mg/mL, 5 mL (MDV), lot 2502009; and Bupivacaine HCl Injection USP 0.25%, 10 mL, lot 2504002.

A) We observed multiple pieces of apparent autoclave tape under the conveyor belt and on the wall surrounding the outlet from the sealing and capping station of the ISO 5 RABS filling line into the ISO 7 autoclave room. There was no written explanation of why the tape was present or how long it was present.

B) We observed a missing electrical outlet cover in the ISO 7 autoclave room with an apparent black substance surrounding the entire outlet. There was no written explanation of how long the outlet cover was missing or the identity of the black substance.

The observations of objectionable conditions and practices listed on the front of this form are reported:

1. Pursuant to Section 704(b) of the Federal Food, Drug and Cosmetic Act, or
2. To assist firms inspected in complying with the Acts and regulations enforced by the Food and Drug Administration.

Section 704(b) of the Federal Food, Drug, and Cosmetic Act (21 USC 374(b)) provides:

"Upon completion of any such inspection of a factory, warehouse, consulting laboratory, or other establishment, and prior to leaving the premises, the officer or employee making the inspection shall give to the owner, operator, or agent in charge a report in writing setting forth any conditions or practices observed by him which, in his judgment, indicate that any food, drug, device, or cosmetic in such establishment (1) consists in whole or in part of any filthy, putrid, or decomposed substance, or (2) has been prepared, packed, or held under insanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered injurious to health. A copy of such report shall be sent promptly to the Secretary."

TailStorm HEALTH INC. 158 S Kyrene Rd, Chandler, AZ 85226

June 16, 2025

Subject: Response to FDA's Form "483 Inspectional Observations" issued on May 23, 2025.

Dear Director Maxwell:

Tailstorm Health Inc. dba Medivant Health, a 503B registered outsourcing facility located at 158 S Kyrene Rd, Chandler, AZ 85226, acknowledges receipt of a FDA Form 483 issued at the close of the inspection conducted from May 14, 2025 to May 23, 2025. We thank the investigator for the professional and collaborative manner in which the inspection was conducted.

We take FDA's observations and all associated comments with the utmost seriousness; we value the opportunity this inspection provides to further strengthen our compliance with 21 CFR Parts 210, 211, and Section 503B of the Federal Food, Drug, and Cosmetic Act. Our mission remains centered on providing safe, high-quality compounded drug products to patients, particularly in times of critical drug shortages.

This letter responds to the specific observations noted in the FDA Form 483. Some observations remain under investigation, while others have progressed to the CAPA stage or have been fully addressed and implemented. To support this process, we have engaged third-party consultants, including Jeff Yuen with Jeff Yuen & Associates Inc. and independent consultant Ron Stephens, who are experienced in FDA's current good manufacturing practice regulations (CGMP) and FDA's guidance relevant to outsourcing facilities. Their comprehensive gap assessments and ongoing engagement will help ensure the sustainability and effectiveness of our remediation.

Tailstorm Health is voluntarily pausing compounding operations as of May 23, 2025 so that it may effectively engage in system-wide improvements and the implementation of CAPAs. We will notify the Agency prior to resuming compounding. Tailstorm Health will submit updates to FDA until all remedial actions are completed. We are fully committed to providing necessary resources to support our remediation efforts.

If you have questions about our response or would like to discuss, please contact Sushil Sharma, Head of Quality at s.sharma@medivanthealth.com (phone number 4808756727).

Sincerely,
Mitesh Gandhi,
Vice President-Operations
Tailstorm Health Inc.

TailStorm HEALTH INC. 158 S Kyrene Rd, Chandler, AZ 85226

Executive Statement of Commitment and Voluntary Pause in Compounded Formulations From Affected Production Line (FEI No.: 3015929581)

Tailstom Health Inc. dba Medivant Health acknowledges the observations in the FDA Form 483 and takes both the findings and the investigator's comments seriously. While we believe our Quality Systems are fundamentally robust, we sincerely value the opportunity to improve upon our current Quality System and are committed to continuous improvement, and compliance with FDA's CGMP regulations and the Agency's guidance applicable to Section 503B outsourcing facilities.

As a result of the observations and to demonstrate our commitment to patient safety, we have voluntarily paused compounding operations and initiated a recall of all products within expiry that were produced on our new filling line. Production will not resume on this line until appropriate corrective and preventive actions (CAPAs) are implemented. Tailstorm Health will notify the Agency prior to resuming compounding operations on the affected line.

Since April 28, 2025, we have engaged third-party CGMP experts Jeff Yuen & Associates and Ron Stephens from September 2024 to conduct independent assessments of our Quality Systems and Operations. Their recommendations will guide our remediation plan and system-wide improvements. *Refer Attachment-I for CVs of Engaged Consultant.*

Medivant is fully committed to holistically addressing "gaps" identified at a "quality system or foundational level" vs. simply revising procedures. Detailed CAPA plans will be developed, tracked and trended with target completion dates by Medivant QA with oversight from JYA and Ron Stephens and routine updates shared with FDA as to progress and completion.

Medivant takes pride in supplying critical drug shortage products to customers and patients that rely on them, and remains fully committed to strengthening our Quality Systems to support safe and reliable patient care.

Viraj Gandhi
Chief Executive Officer
Viraj Gandhi

Mitesh Gandhi
Head of Operations

Observation No. 1:

The separate or defined areas and control systems necessary to prevent contamination or mix-ups are deficient.
Specifically, your firm's batch records document significant environmental monitoring excursions during filling of sterile drugs.

A. **Nonviable particulate counter (NVPC) data for five of six lots we reviewed of the 19 total lots that were manufactured in 2025 using the new ISO 5 RABS filling line indicate numerous action limit results occurred during filling, but your quality unit did not document a thorough investigation. For example, the following five batches were released and the first four listed were distributed.**

Bupivacaine HCl 0.5%/Epinephrine Bitartrate 5 mcg/mL Injection, 10 mL, lot 2502005, had approximately 73 action limit results for 0.5 micron particles and approximately 104 action limit results for 5 micron particles. The maximum result for 0.5 micron was 39,258 particles/m^3 and the maximum result for 5 micron was 1,237 particles/m^3.

Ketamine 1% 10 mg/mL, 5 mL (SDV), lot 2502008, had approximately 1 action limit result for 0.5 micron particles and approximately 3 action limit results for 5 micron particles. The maximum result for 0.5 micron was 31,731 particles/ m^3 and the maximum result for 5 micron was 35 particles/ m^3.

Ketamine 10% 100 mg/mL, 5 mL (MDV), lot 2502009, had approximately eight action limit results for 0.5 micron particles and approximately 14 action limit results for 5 micron particles. The maximum result for 0.5 micron was 11,661 particles/m^3 and the maximum result for 5 micron was 389 particles/ m^3.

Lidocaine HCl 1%/Epinephrine Bitartrate 10 mcg/mL, 10 mL, lot 2503004, had approximately 17 action limit results for 0.5 micron particles and approximately 160 action limit results for 5 micron particles. The maximum result for 0.5 micron was 47,752 particles/m^3 and the maximum result for 5 micron was 8,021 particles/ m^3.

Bupivacaine HCl Injection USP 0.25%, 10 mL, lot 2504002, had approximately 21 action limit results for 0.5 micron particles and approximately 38 action limit results for 5 micron particles. The maximum result for 0.5 micron was 154,594 particles/ m^3 and the maximum result for 5 micron was 47,526 particles/ m^3.

B. Batch records for the first 18 sterile lots manufactured in 2025 using the new ISO 5 RABS filling line document NVPC alert and action limits in the software were set above the limits allowed per ISO guidelines and in the approved procedure SOP.CQC.0068, Environmental Monitoring Program. Your firm discovered this error in about April 2025 but did not conduct a thorough investigation per the Assessment of Non-Viable Particle Count Limit impact assessment approved 05/05/25. We reviewed six of these lots and each experienced multiple excursions beyond the ISO limits for ISO 5 cleanrooms and some had excursions beyond the default limits detailed below. For example, during filling of Bupivacaine HCl 0.5%/Epinephrine Bitartrate 5 mcg/mL Injection, 10 mL, lot 2502005 the 0.5 micron particulate limit was set to 660,002 particles/m^3 and a result of 39,258 particles/m^3 at the filling station did not trigger an action limit result or initiate an auto-stop on the line so filling continued through this excursion and many others beyond ISO 5 limits.

The default limits used during filling:

- **Alert limit for 0.5 micron particles at the Infeed Turn Table was 991 particles/m^3**
- **Action limit for 0.5 micron particles at the Infeed Turn Table was 15,000 particles/m^3**
- **Alert limit for 5 micron particles at the Infeed Turn Table was 91 particles/m^3**
- **Action limit for 5 micron particles at the Infeed Turn Table was 5,000 particles/m^3**
- **Alert limit for 0.5 micron particles at the Filling Station was 992 particles/m^3**
- **Action limit for 0.5 micron particles at the Filling Station was 660,002 particles/m^3**
- **Alert limit for 5 micron particles at the Filling Station was 92 particles/m^3**
- **Action limit for 5 micron particles at the Filling Station was 255,002 particles/m^3**

C. Your approved procedures do not require production technicians or quality personnel take any specific remedial actions, reject vials present on the line during the inspection, or open a quality investigation in response to NVPC action limit results during filling. Examples of batches with no investigation for NVPC action limit excursions include lot 2502001, lot 2502005, lot 2502008, lot 2502009, lot 2503004, and lot 2504002.

Tailstorm Health's Response:

Tailstorm Health both acknowledges, and recognizes the gravity of, this Observation. We also acknowledge that critical oversights occurred within our functions concerning the new ISO 5 RABS (Restricted Access Barrier System) filling line identified in the Observation. The misconfiguration of non-viable particulate count (NVPC) alert and action limits, the lack of appropriate system checks, and the inadequate review processes represent a lapse in our control systems for the introduction and use of this new equipment.

The responses to Observation 1A, 1B and 1C are addressed in a holistic manner covering the root casue of the findings, impact assessment and corrective actions to prevent the recurrence of the issues.

As a responsible outsourcing facility committed to ensuring product quality and patient safety, Tailstorm Health has voluntarily recalled all distributed batches from the ISO 5 RABS filling line identified in the Observation and quarantined available inventory for destruction. *Refer Attachment 1-1-Recall Communication and Related Documentation.* We have also ceased production on the new filling line. Deviation DEV-2025-0004 has been initiated and a specific root cause determination is in-progress. A protocol based (Protocol no. PROT.GSP.0001) study is ongoing to determine the source of particles which caused the NVPC excursions.

No further manufacturing will occur using this new RABS equipment line until the deviation has been fully investigated, all corrective actions have been fully implemented, requalification of equipment is completed, and our revised procedures have been independently verified and approved by Quality Assurance and our GMP consultants. Tailstorm Health will notify FDA prior to resuming production on this line.

A. Background and Equipment Qualification Overview:

In January 2025, a new automated vial filling and sealing machine (Make: NKP) was installed at our sterile injectable manufacturing facility. This installation was part of a broader initiative to improve production efficiency and control through advanced automation and integrated monitoring systems. Prior to commencing routine production, a protocol-based qualification of the equipment and associated classified areas was undertaken. The equipment qualification included the following phases:

- **Installation Qualification (IQ)**: Confirmed that the equipment was received in good condition, installed according to manufacturer specifications, and utilities were appropriately connected and calibrated. All relevant design specifications, component verifications, and documentation were reviewed and approved.

- **Operational Qualification (OQ)**: Tested the equipment's operational parameters under simulated working conditions. Specific emphasis was placed on verifying safety interlocks, alarms, human-machine interface functionality, machine operations.

- **Performance Qualification (PQ)**: Conducted three consecutive production simulation runs of 5,000 vials for each vial size. Each PQ run involved detailed assessments of the following:
    - Fill volume accuracy through online statistical weight mehod and manual weighin method.
    - Machine throughput and cycle time efficiency.
    - Stopper and seal integrity verification.
    - Automated rejection system functionality based on fill weight, stopper misplacement, and physical defects.
    - In-process checks such as container closure integrity testing (CCIT), visual defect classification, and weight uniformity.
    - AQL-based sampling and visual inspection.

In parallel, the cleanroom areas including the new ISO 5 RABS (Restricted Access Barrier System) of filling machine and adjacent ISO 7 environments were qualified. Key validation activities included:

- **HEPA Filter Integrity Testing (Leak Test)**: Verified using aerosol photometry. All filters demonstrated no detectable leak.
- **Air Velocity Measurements**: Verified to be within acceptable range (90 fpm ±20%) ensuring unidirectional airflow maintenance.
- **Airflow Visualization Study (Smoke Study)**: Conducted under static and dynamic conditions to validate laminar airflow patterns, absence of turbulence, and proper sweeping of critical surfaces.
- **Environmental Monitoring (EM) Qualification**: Conducted over six days (three static, three dynamic) using viable and non-viable particulate monitoring using a calibrated portable NVPC counter.
- **Temp, RH and Differential Pressure Monitoring**: Found within qualified ranges.
- **Area Recovery**: Conducted by exceeding particles 100 times from initial particle count value and observed recovery found within established timeframe.

Inference: All qualification results met the predefined acceptance criteria and were documented in the final qualification report. However, a key procedural gap was identified retrospectively: the NVPC system configuration was not independently verified following vendor setup during qualification. *Refer Attachment 1-2 Performance Qualification Report of Vial Filling and Sealing Machine*

B. Detailed Summary of ISO 5 Environmental Monitoring Qualification Results

Table 1 below includes a detailed summary of all ISO-5 Environmental monitoring data collected during equipment qualification

Table – 1 ISO 5 Qualification Results

Sr. No.	Qualification Parameter	Acceptance Criteria (ISO 5 Area)	Sampling Location	Results					
				Static			Dynamic		
				Day-1	Day-2	Day-3	Day-1	Day-2	Day-3
1.	Viable Count (Settle Plate)	<1 cfu/plate	Near turn Table	0	0	0	0	0	0
2.			Near Filling and Stoppering Station	0	0	0	0	0	0
3.			Near Sealing Station	0	0	0	0	0	0
4.	Viable Count (Active Air Sampler)	<1 cfu/ m^3	Near Turn Table	0	0	0	0	0	0
5.			Near Filling and Sealing	0	0	0	0	0	0
6.	Viable Count (Contact Plate)	<1 cfu/plate	On Turn Table	0	0	0	0	0	0
7.			On Buffer Tank	0	0	0	0	0	0
8.			Stopper Bowl	0	0	0	0	0	0
9.	Non-Viable Particulate Count (≥0.5µm)	< 3520 particles/m^3	Near turn Table	0	0	0	77	0	0
			Near Filling and Stoppering Station	0	0	0	0	0	0
			Near Sealing Station	0	0	0	0	0	0
10.	Non-Viable Particulate Count (≥5µm)	< 29 particles/m^3	Near turn Table	0	0	0	0	0	0
			Near Filling and Stoppering Station	0	0	0	0	0	0
			Near Sealing Station	0	0	0	0	0	0
11.	Air Velocity	72 to 108 fpm	Supply 1	89 FPM					
			Supply 2	92 FPM					
			Supply 3	98 FPM					

Sr. No.	Qualification Parameter	Acceptance Criteria (ISO 5 Area)	Sampling Location	Results					
				Static			Dynamic		
				Day-1	Day-2	Day-3	Day-1	Day-2	Day-3
			Supply 4	99 FPM					
			Supply 5	101 FPM					
			Supply 6	90 FPM					
12.	HEPA Filter Leak Test	<0.001%	Supply 1	0%					
			Supply 2	0%					
			Supply 3	0%					
			Supply 4	0%					
			Supply 5	0%					
			Supply 6	0%					
13.	Airflow Visualization (Smoke Test)	-Unidirectional Flow Patterns -No refluxing. No swirling, pulsing, or bulging of the air stream -No observed backflow from ISO 7 space into RABS	Assembling of Parts	Complies					
			Static condition	Complies					
			Dynamic Condition	Complies					
			Interventions	Complies					
14.	Area Recovery	<5 Minutes	Filling and Stoppering Station	2 Minutes					

All qualification results met the predefined acceptance criteria and were documented in the final qualification report which is attached for review. *Refer Attachment 1-3_Area Qualification Report*

C. Description of Installed NVPC Monitoring System and Alert/Action Limit Configuration

The installed NKP automatic vial filling machine is equipped with an integrated, automated, real time non-viable particle counting (NVPC) system. This system includes high-precision particle counters installed at two locations:

- Infeed Turn Table
- Filling and Stoppering Station

This system is designed to detect airborne particulate contamination in real-time, log the data, and trigger alarms or automated shutdowns in case alert or action limits are breached. The integration

of NVPC with the filling system ensures early detection of contamination risks during critical filling operations.

During Operational Qualification (OQ), the alarm functionalities were successfully challenged using simulated excursions by manipulating analog input signals (4–20 mA) to mimic high particle count values. These simulations were performed to verify the integrated NVPC system along with the alarm and interlock response to stop the machine.

The PQ protocol focused on equipment functionality and did not include evaluation of the integrated NVPC limits and reports. All PQ acceptance parameters were met. The NVPC misconfiguration was not detected or verified during the Performance Qualification of the new vial filling and sealing machine by the equipment manufacturer or Tailstorm. The root cause of the misconfiguration will be covered in deviation, DEV-2025-0004.

However, it was later discovered before manufacturing Lot No. 2504004 that the configured alert and action limits were erroneously high, resulting in no alarms being generated during actual environmental excursions.

This oversight led to multiple undetected excursions in NVPC readings during the manufacturing of 18 commercial lots.

Due to the limits being set significantly above ISO 5 thresholds (e.g., 660,002 particles/m^3 for 0.5µm instead of 3,520), these safety features were rendered ineffective.

D. Detailed Summary of NVPC Excursions and Affected Batches

Following the commissioning of the new NKP filling line, a total of 19 commercial lots were manufactured between February and April 2025. Environmental monitoring data captured during these production runs revealed excursions in non-viable particle counts (NVPC), at the 0.5µm and 5µm particle size ranges. Upon retrospective review, it was found that numerous batches had exceeded ISO 5 action limits without triggering system alarms due to misconfigured alert and action thresholds.

Before manufacring 19th lot, the lmits of NVP counts were corrected as per ISO5 requirements.

The following table-2 summarizes the observed NVPC values and excursions of all 19 lots:

Table-2 Summary of NVPC Excursions for 19 Commercial Lots on NKP Filling Line (Feb–Apr 2025)

Batch Number	Product Name	No. of Excursions (0.5 micron)	No. of Excursions (5 micron)	Max. 0.5 micron (Particles/m^3)	Max. 5 micron (Particles/m^3)
2502001	Sterile Water for Injection, USP 10ml	0	0	177	0
2502002	Sterile Water for Injection, USP 10ml	8	9	26714	1979
2502003	Sodium Chloride 0.9% USP, 10 ml	1	5	27774	106
2502004	Lidocaine 1% USP 10mg/ml, 10ml	11	23	91201	4770
2502005	Bupivacaine Hydrochloride 0.5% Epinephrine Bitartrate 5mcg/ml Inj, 10ml	73	104	39258	1237
2502006	Bupivacaine Hydrochloride 0.5% Epinephrine Bitartrate 5mcg/ml Inj, 10ml	10	46	239682	8834
2502007	Bupivacaine Hydrochloride 0.5% Epinephrine Bitartrate 5mcg/ml Inj, 10ml	15	85	19435	565
2502008	Ketamine 1% 10mg/ml, 5ml (SDV)	1	2	31731	35
2502009	Ketamine 10% 100mg/ml, 5ml (MDV)	8	14	11661	389
2503001	Ketamine 1% 10mg/ml, 5ml (SDV)	18	24	195618	48516
2503002	Ketamine 10% 100mg/ml, 5ml (MDV)	22	37	575053	162580
2503003	Lidocaine 1% USP 10mg/ml, 10ml	4	12	15371	4205
2503004	Lidocaine HCL 1% Epinephrine	12	100	477562	8021

Batch Number	Product Name	No. of Excursions (0.5 micron)	No. of Excursions (5 micron)	Max. 0.5 micron (Particles/m^3)	Max. 5 micron (Particles/m^3)
	Bitartrate 10mcg/ml, 10ml				
2503005	Lidocaine HCL 1% Epinephrine Bitartrate 10mcg/ml, 10ml	310	312	88163	459
2503006	Lidocaine 1% USP 10mg/ml, 10ml	7	11	21307	3074
2504001	Lidocaine HCL 2% Epinephrine Bitartrate 5mcg/ml, 10ml	315	315	88304	1413
2504003	Lidocaine 2% USP 20mg/ml, 10ml	0	6	1201	283
2504002	Bupivacaine HCL Injection USP 0.25%, 10ml	19	31	154594	47526
2504004	Bupivacaine HCL Injection USP 0.5%, 10ml	0	1	671	177

Inference: The table confirms that 18 of the first 19 lots produced in 2025 exceeded ISO 5 NVPC action limits.. Due to misconfigured alert/action thresholds, these excursions went undetected in real-time and were not investigated. These lots are included as part of the recall.

E. Root Cause Investigation and Simulation Studies

Upon identifying the pattern of excessive NVPC results and the absence of corresponding alarms and machine stops, a comprehensive root cause investigation was initiated. This investigation is ongoing and is being executed under a deviation report no. DEV-2025-0004:

- Determine the reason for the incorrect NVPC alert/action set limits
- Identify any contributing mechanical, procedural, or environmental factors leading to the elevated particle counts
- Assess why reviewers failed to identify NVPC excursions prior to batch release
- Assess why an impact assessment was carried out after identification of incorrectly set limits

E1. Configuration Root Cause (Software Error by Vendor)

The root cause of the non-viable particulate count (NVPC) excursion issue was traced to the retention of default software configuration settings during the commissioning of the NKP vial

filling and sealing machine. Specifically, during the development and testing phases of the machine software, the NVPC alert and action limits were populated with placeholder or randomly assigned numerical values by the equipment manufacturer as part of standard factory setup. These placeholder values were not revised, verified, or cross-checked by Tailstorm Health during equipment qualification.

Although alarm and interlock challenges were performed during Operational Qualification (OQ) by simulating particle excursions using analog signal manipulation (4–20 mA), these tests did not verify the actual configured NVPC thresholds.

As a result, the software limits remained set significantly above ISO 5 environmental monitoring standards, rendering the built-in alarm system and automatic line-stoppage functions ineffective during actual excursions.

Additionally, the verification was missed during PQ because the Performance Qualification (PQ) of the ISO5 RABS of vial filling and sealing machine was carried out using portable NVPC counters over three days each under static and dynamic conditions, in conjunction with the area qualification. In contrast, the PQ of the machine focused solely on verifying its functionality and performance without a review or validation of pre-configured NVPC software thresholds or reports.

E2. Failure in Batch Record Review Process

The review process conducted by manufacturing and quality personnel relied on the machine's auto-generated alarm reports as the primary method to assess environmental compliance. This practice had originated from historical use of the DARA filling machine, which was integrated with Lighthouse software - a system that provided clear alarm reports for NVPC excursions. *Refer Attachment 1-4_Alarm Report of NVP Count from Lighthouse for Dara Filling Machine (ISO5)*

However, the new NKP machine featured a different format and structure for logging NVPC data, and no alarm reports were generated due to misconfigured thresholds. As a result, reviewers did not examine the full NVPC trend data. The procedural gap in reviewer training and the lack of standardized review of all EM data contributed to this oversight. *Refer Attachment 1-5_Alarm Report of NKP Filling Machine and Attachment 1-6_Batchwise NVPC Sample Report*

E3. Preparation of Impact Assessment Document and Missed Deviation Initiation:

One of the investigation objectives was to assess why only an impact assessment was carried out after the identification of incorrect NVPC alert/action limits and why no deviation was raised when these errors were first recognized.

Upon review, it was determined that Manufacturing and Quality reviewers were reliant on the machine's auto-generated alarm reports as their primary tool for Environmental Monitoring, in

line with past practices from the DARA system, which clearly indicated any NVPC excursions. In the case of the NKP machine, although the alarm reports were reviewed, no alarms were generated due to the misconfigured thresholds. When the incorrect NVPC alert/action limits were eventually identified by Tailstom, the reviewers assumed that the issue was solely due to configuration errors and did not identify the NVPC excursions in these 18 lots.

Consequently, the review team proceeded directly to prepare an impact assessment document focused on the configuration error itself, without initiating a formal deviation to assess potential product impact or review retrospective environmental data. The lack of alarm notifications and absence of clear procedural guidance on how to handle such discrepancies contributed to this oversight. *Refer Attachment 1-7_Impact Assessment Document*

This gap indicates a lack of awareness and training among Manufacturing and Quality reviewers regarding the criticality of NVPC threshold limits and the requirement to initiate deviations when systemic data monitoring failures are detected. Additionally, the batch record review procedure does not mandate reviewers recording and escalating excursions related to NVPC monitoring.

E4. Simulation Study for Root Cause of Particle Excursions:

To investigate potential physical and environmental causes of the high NVPC counts observed during vial filling operations, a comprehensive hypothesis-driven simulation study was executed under Protocol No.: PROT.GSP.0001 as part of the root cause analysis for deviation DEV-2025-0004. *Refer Attachment 1-8_NVPC Excursion Simulation Study Protocol for Vial Filling and Sealing Machine*

Study Objective: To identify and confirm possible contributors to non-viable particle (NVP) excursions in the ISO 5 zone using structured test conditions with defined controls and acceptance critera.

1. **Cleaning Solution Residue on Sensors**:
    - **Objective of Hypothesis**: To evaluate whether cleaning agents, particularly IPA, sprayed near or onto the isokinetic probe of the NVPC sensor may aerosolize into the sensor inlet and produce false or elevated particle readings during or after filling line cleaning activities.
    - ***Results***: *Brief transient excursion observed (3 minutes), followed by rapid recovery; not representative of actual NVPC trends during production.*
2. **NVPC Sensor Malfunction or Calibration Drift**:
    - **Objective of Hypothesis**: To verify whether the NVPC sensor was functioning accurately and within calibration limits by reviewing calibration records and conducting OEM diagnostic testing to rule out sensor-related anomalies in particle detection.

- **Results**: *Under Investigation*

3. **HEPA Filter Integrity Issues**:
   - **Objective of Hypothesis**: To determine whether leakage or damage in the HEPA filtration system could be a contributing factor to elevated NVPC levels, through aerosol challenge testing using PAO and scanning photometry.
   - ***Results***: *Passed. Aerosol challenge testing confirmed integrity with no leaks observed. Measured air velocities and airflow patterns were within acceptable limits.*
4. **Vial Breakage During Filling**:
   - **Objective of Hypothesis**: To simulate breakage of glass vials under typical machine conditions to evaluate if shattered glass particles and associated cleaning activities result in particulate spikes detectable by NVPC sensors during filling operations.
   - ***Results***: *The simulation demonstrated particle excursions that closely resemble the patterns observed during actual production runs. Based on these findings, vial breakage and associated cleaning activities has been identified as a probable contributor to the NVPC excursions. Tailstorm Health is currently conducting multiple confirmatory runs to validate this hypothesis under controlled and repeatable conditions. Results from these validation runs will be included in the final investigation summary.*
5. **Compressed Air Leaks Near Sensor**:
   - **Objective of Hypothesis**: To assess whether leaks or exhaust bursts from pneumatically operated valves or cylinders generate mechanical disturbances or particles that trigger NVPC excursions near the sensor.
   - ***Results***: *No excursions were observed during simulated exhaust or leak conditions.*
6. **Nitrogen Gas Flow Near NVPC Probe**:
   - **Objective of Hypothesis**: To determine if the high-velocity discharge of nitrogen gas near the NVPC sensor can interfere with accurate particle sampling, either by disturbing airflow or simulating particulate presence.
   - ***Results***: *Under Investigation*
7. **Ingress of Vial Trays without Disinfection**:
   - **Objective of Hypothesis**: To test whether introducing non-sanitized or improperly cleaned vial trays into the ISO 5 environment can elevate particle counts, especially in areas close to the filling zone during dynamic operations.

Results: *No excursions were observed during simulated condition of vial trays without disinfection.*

8. Interventions During Operation:

- **Objective of Hypothesis**: To assess whether specific open-door or closed-door interventions performed during vial filling operations contribute to spikes in non-viable particle counts in the ISO 5 zone.

- ***Results***: *Simulated interventions did not result in excursions matching historical patterns.*

9. Maximum Vibration of Stopper Bowl and Seal Bowl:

- **Objective of Hypothesis**: To evaluate whether operating the stopper and seal bowl at maximum vibration frequency contributes to increased mechanical particle generation, potentially triggering NVPC excursions within the ISO 5 zone.

- ***Results***: *Under Investigation*

10. Environment Isolation Using Inline HEPA Filter on NVPC Sensor

- **Objective of Hypothesis**: To determine whether elevated NVPC levels are caused by ambient contamination from the ISO 5 environment by isolating the sensor inlet using an inline HEPA filter, thereby feeding only clean air into the sensor for control comparison.

- ***Results***: *Under Investigation*

E5. Independent Verification of NVPC Configuration Program:

As an extension of the simulation study and ongoing root cause investigation, Tailstorm Health will implement a formal verification program for the NVPC configuration settings on the NKP vial filling and sealing machine. This verification will be conducted collaboratively by the equipment manufacturer (NKP) and an independent third-party validation expert to ensure that the NVPC alert and action limits are correctly configured. The verification process will include review of source code logic, sensor mapping, threshold values, alarm setpoints, and data reporting mechanisms. All findings and corrective actions will be documented and included as part of the final root cause summary.

Outcome of Root Cause Investigation:

- **Root Cause of Incorrect Set Limits:** The primary root cause for NVPC system failure was improper configuration of alert and action limits by the machine vendor, compounded by lack of post-validation review by Engineering, Manufacutirng and Quality Assurance of Taisltorm.

- **Root Cause of NVPC Excursion:** The specific root cause of the NVPC excursions is currently under investigation as part of the structured root cause analysis initiated under Protocol No.: PROT.GSP.0001, associated with deviation DEV-2025-0004. The investigation includes simulation studies, equipment performance assessments, environmental controls review, and evaluation of potential contributors. *Refer Attachment 1-9 Interim Report of NVPC Excursion Simulation Study for Vial Filling and Sealing Machine*

  Upon completion of the full simulation study and confirmatory evaluation of the probable causes, a comprehensive investigation summary, finalized root cause conclusion, and corrective and preventive action (CAPA) plan will be submitted to the FDA in a follow-up response.

- **Root Cause of Reviewer oversight:** Reviewer oversight occurred due to continued reliance on old review practices, lack of familiarity with the new system's data format, and absence of a structured review SOP for raw NVPC data.

- **Root Cause of Delayed Deviation Initiation:** Upon discovering misconfigured limits, reviewers assumed the issue was limited to configuration only and did not anticipate any real-time excursions due to the absence of alarms. This led to the preparation of an impact assessment without initiating a formal deviation.

F. Impact Assessment

The assessment of potential impact from the NVPC excursions was conducted. This assessment considered the severity of the excursions, the sterility assurance mechanisms in place, and the results of all product release tests.

F1. Environmental Controls and Monitoring Data

Despite the elevated NVPC readings, all viable environmental monitoring (EM) results during the filling operations for the 19 affected lots remained within the acceptable limits defined for ISO 5 environments. This included:

Table – 3 Viable Environmental Monitoring Results During Filling

Batch Number	Product Name	Viable Results (Settle Plates) Action Limit: ≥1 CFU/Plate	
		Near Filling and stoppering station	Near Turn Table
2502001	Sterile Water for Injection, USP 10ml	0 CFU/Plate	0 CFU/Plate
2502002	Sterile Water for Injection, USP 10ml	0 CFU/Plate	0 CFU/Plate

Batch Number	Product Name	Viable Results (Settle Plates) Action Limit: ≥1 CFU/Plate	
		Near Filling and stoppering station	Near Turn Table
2502003	Sodium Chloride 0.9% USP, 10 ml	0 CFU/Plate	0 CFU/Plate
2502004	Lidocaine 1% USP 10mg/ml, 10ml	0 CFU/Plate	0 CFU/Plate
2502005	Bupivacaine Hydrochloride 0.5% Epinephrine Bitartrate 5mcg/ml Inj, 10ml	0 CFU/Plate	0 CFU/Plate
2502006	Bupivacaine Hydrochloride 0.5% Epinephrine Bitartrate 5mcg/ml Inj, 10ml	0 CFU/Plate	0 CFU/Plate
2502007	Bupivacaine Hydrochloride 0.5% Epinephrine Bitartrate 5mcg/ml Inj, 10ml	0 CFU/Plate	0 CFU/Plate
2502008	Ketamine 1% 10mg/ml, 5ml (SDV)	0 CFU/Plate	0 CFU/Plate
2502009	Ketamine 10% 100mg/ml, 5ml (MDV)	0 CFU/Plate	0 CFU/Plate
2503001	Ketamine 1% 10mg/ml, 5ml (SDV)	0 CFU/Plate	0 CFU/Plate
2503002	Ketamine 10% 100mg/ml, 5ml (MDV)	0 CFU/Plate	0 CFU/Plate
2503003	Lidocaine 1% USP 10mg/ml, 10ml	0 CFU/Plate	0 CFU/Plate
2503004	Lidocaine HCL 1% Epinephrine Bitartrate 10mcg/ml, 10ml	0 CFU/Plate	0 CFU/Plate
2503005	Lidocaine HCL 1% Epinephrine Bitartrate 10mcg/ml, 10ml	0 CFU/Plate	0 CFU/Plate
2503006	Lidocaine 1% USP 10mg/ml, 10ml	0 CFU/Plate	0 CFU/Plate
2504001	Lidocaine HCL 2% Epinephrine Bitartrate 5mcg/ml, 10ml	0 CFU/Plate	0 CFU/Plate
2504003	Lidocaine 2% USP 20mg/ml, 10ml	0 CFU/Plate	0 CFU/Plate
2504002	Bupivacaine HCL Injection USP 0.25%, 10ml	0 CFU/Plate	0 CFU/Plate
2504004	Bupivacaine HCL Injection USP 0.5%, 10ml	0 CFU/Plate	0 CFU/Plate

These findings indicate that microbial contamination was not present in the filling area during the production of affected batches, further reducing the risk of product contamination.

In addition to the batch-specific viable monitoring during filling, weekly environmental monitoring data for both viable and non-viable parameters in ISO 5 and ISO 7 areas also indicated no excursions or abnormal trends throughout the production period for these lots. All results for settle plates, contact plates, active air, and NVPC remained within acceptable action and alert limits as per the validated EM program. *Refer Attachment 1-10_Environmental Monitoring Trend of Q-1 and Attachment 1-11_Environmental Monitoring Trend of Q-2 (April & May)*

F2. Terminal Sterilization Efficacy

All products filled on the NKP line underwent terminal sterilization using a validated autoclave cycle at 121°C. The sterilization process validation demonstrated the ability to achieve a Sterility Assurance Level (SAL) of 10^-6. Periodic biological indicator (BI) monitoring and thermocouple mapping of load configurations confirmed uniform lethality across load positions.

Sterilization cycles for each affected lot were reviewed and found to be compliant with:

- Temperature Hold Values
- Sterilization Hold Times
- Chemical Indicator results (Pass)

This step acts as a definitive microbial kill, thereby mitigating any residual risk from airborne particulate co-carrying organisms.

F3. Product Release Testing Results

Every affected batch underwent standard in-process and release testing, including:

- **Sterility Testing (per USP <71>):** No microbial growth detected after 14-day incubation.
- **Bacterial Endotoxin Testing (BET, per USP <85>):** Results within allowable limits (<0.25 EU/mL).
- **Sub-visible Particulate Matter Testing (per USP <788>):** Results complied with both Method 1 (light obscuration) and Method 2 (microscopic count), depending on the product type.

Table – 4 Sterility, Bacterial Endotoxin, and Particulate Matter (LPC) Results for Affected Batches

Batch Number	Product Name	Sterility Test Results (No growth should be detected)	BET Results	LPC Results	
				≥10µm- NMT 6000 particles per vial	≥25µm- NMT 600 particles per vial
2502001	Sterile Water for Injection, USP 10ml	No growth	Limit: <0.25 EU/mL Result: <0.015 EU/mL	81	1
2502002	Sterile Water for Injection, USP 10ml	No growth	Limit: <0.25 EU/mL Result: <0.015 EU/mL	39	2
2502003	Sodium Chloride 0.9% USP, 10 ml	No growth	Limit: <0.5 EU/mg Result: <0.5 EU/mg	35	0
2502004	Lidocaine 1% USP 10mg/ml, 10ml	No growth	Limit: <1.1 EU/mg Result: <0.01 EU/mg	31	1
2502005	Bupivacaine Hydrochloride 0.5% Epinephrine Bitartrate 5mcg/ml Inj, 10ml	No growth	Limit: <1.6 EU/mg Result: <0.01 EU/mg	21	0
2502006	Bupivacaine Hydrochloride 0.5% Epinephrine Bitartrate 5mcg/ml Inj, 10ml	No growth	Limit: <1.6 EU/mg Result: <0.01 EU/mg	21	0
2502007	Bupivacaine Hydrochloride 0.5% Epinephrine Bitartrate 5mcg/ml Inj, 10ml	No growth	Limit: <1.6 EU/mg Result: <0.01 EU/mg	21	0
2502008	Ketamine 1% 10mg/ml, 5ml (SDV)	No growth	Limit: <0.4 EU/mg Result: <0.05 EU/mg	8	1
2502009	Ketamine 10% 100mg/ml, 5ml (MDV)	No growth	Limit: <0.4 EU/mg Result: <0.05 EU/mg	29	1

Batch Number	Product Name	Sterility Test Results (No growth should be detected)	BET Results	LPC Results	
				≥10µm-NMT 6000 particles per vial	≥25µm-NMT 600 particles per vial
2503001	Ketamine 1% 10mg/ml, 5ml (SDV)	No growth	Limit: <0.4 EU/mg Result: <0.05 EU/mg	19	2
2503002	Ketamine 10% 100mg/ml, 5ml (MDV)	No growth	Limit: <0.4 EU/mg Result: <0.05 EU/mg	30	4
2503003	Lidocaine 1% USP 10mg/ml, 10ml	No growth	Limit: <1.1 EU/mg Result: <0.01 EU/mg	3	0
2503004	Lidocaine HCL 1% Epinephrine Bitartrate 10mcg/ml, 10ml	No growth	Limit: <0.7 EU/mg Result: <0.003 EU/mg	20	1
2503005	Lidocaine HCL 1% Epinephrine Bitartrate 10mcg/ml, 10ml	No growth	Limit: <0.7 EU/mg Result: <0.003 EU/mg	17	0
2503006	Lidocaine 1% USP 10mg/ml, 10ml	No growth	Limit: <1.1 EU/mg Result: <0.01 EU/mg	26	1
2504001	Lidocaine HCL 2% Epinephrine Bitartrate 5mcg/ml, 10ml	No growth	Limit: <0.7 EU/mg Result: <0.002 EU/mg	13	0
2504003	Lidocaine 2% USP 20mg/ml, 10ml	No growth	Limit: <1.1 EU/mg Result: <0.01 EU/mg	18	0
2504002	Bupivacaine HCL Injection USP 0.25%, 10ml	No growth	Limit: <2.5 EU/mg Result: <0.024 EU/mg	121	0
2504004	Bupivacaine HCL Injection USP 0.5%, 10ml	No growth	Limit: <2.5 EU/mg Result: <0.012 EU/mg	4	0

These results validate the final products conformity with established quality standards.

F4. Historical Control Comparison

A retrospective review was conducted on NVPC data for previous lots manufactured using the DARA automatic filling line. This included review of alarm reports archived in Lighthouse software for last 24 months. *Refer Attachment 1-12_Historical NVPC Alarm Summary from DARA Automatic Filling Line (Past 24 Months)*

No NVPC excursions during active filling process or review discrepancies were identified during this review. These findings confirm that the NVPC monitoring and review processes were robust until the introduction of the new NKP system.

F5. Product LifeCycle after Commercialization

No adverse events (ADEs) or product complaints were associated with any of the lots manufactured on the new vial filling line.

F6. Conclusion of Impact Assessment

Based on the entirety of data assessed including viable monitoring, terminal sterilization validation, and finished product release testing it is concluded that the product quality was not adversely impacted by the NVPC excursions. Nevertheless, in adherence to a "Quality First" culture and approach, all distributed lots were recalled and quarantined lots were rejected to ensure compliance and maintain regulatory confidence.

However, as the root cause investigation is ongoing, this impact assessment is considered "interim". Upon completion of the simulation and confirmatory studies, the assessment will be completed. Any identified risks will be addressed in the final root cause and CAPA, which will be submitted in a follow-up response.

G. Immediate Action Taken:

1. **Batch Recall and Rejection**:
    - All distributed batches affected by the NVPC monitoring issue (10 total) were voluntarily recalled.
    - Remaining non-distributed batches (9 total) were rejected, quarantined and removed from the warehouse inventory.

H. Corrective and Preventive Actions (CAPA):

Based on the preliminary conclusions of the ongoing root cause investigation, comprehensive Corrective and Preventive Action (CAPA), plan was developed. The current CAPA addresses system configuration issues, enhances process controls, mandates staff retraining, and updates

procedural requirements to prevent recurrence. The CAPA is focused on remediation, system enhancement, staff retraining, and procedural revision to ensure prevention of recurrence.

Upon final confirmation of the root cause, any additional risks or failure modes identified particularly those related to particulate generation and handling will be addressed through expanded CAPA actions. These additional CAPAs will be communicated in the follow-up submission to ensure complete alignment with regulatory expectations.

1. **Requalification of Equipment**:

   - The NKP filling machine will undergo complete requalification including OQ, PQ and Computer System Validation.
   - NVPC system thresholds were corrected to reflect ISO 5 alert and action limits as per ISO 14644-1.
   - Alarm and interlock simulations shall be re-performed under revised settings to verify fail-safe operation.
   - Performance Qualification of NKP filling machine will include consecutive three runs with online monitoring of non-viable particle count with all interventions.

   Target Completion Date: Aug 15, 2025

2. **Review and Rectification of Software Configuration**:

   - All machine configuration files shall be audited by a third party.

   Target Completion Date: July 15, 2025

3. **Reviewer Qualification**:

   - The SOP for Reviewer Qualification will be prepared to define parameters and acceptance criteria to qualify the reviewers.
   - All Manufacturing and Quality Assurance (QA) reviewers will be qualified on reviewing batch record and environmental monitoring data.

   Target Completion Date: July 30, 2025

4. **Batch Record Review SOP Revision (SOP.CQA.0018)**:

   - The SOP for batch record review and batch disposition will be revised.
   - The SOP will required evaluation of both alarm reports and the detailed NVPC report.
   - Review checklists will be updated to include the mandatory documentation of:

     - Review and elevate to Quality Management any excursions during batch record review.

- All validated parameters and observed in-process results.
- Environmental Monitoring (EM) data trends and excursions.
- Good Documentation Practices (GDP) compliance checks.
- Good Manufacturing Practice (GMP) adherence.
- Status of Change Controls, Deviations, and Breakdown Records impacting the batch.

Target Completion Date: July 30, 2025

5. **New SOP for Handling of Excursions in Non-viable Particle Count:**

   - A new Standard Operating Procedure (SOP) will be prepared to define actions to be taken in case of NVPC excursion during filling process.
   - The SOP will clearly define immediate actions during NVPC excursions, criteria for acceptable recovery time, thresholds to resume operations and documentation requirements for excursions, including correlation with environmental and product risk.
   - Interventions shall be recorded in batch manufacturing records (BMR) and cross-referenced with NVPC data to establish correlation and enable traceability.

   Target Completion Date: July 15, 2025

6. **Quarterly Trending of NVPC Data**:

   - A formal trend analysis program will be introduced to detect deviations or recurring patterns in environmental data.
   - Trends will be reviewed during Annual Product Quality Review (APQR) and escalated for investigation when anomalies arise.

   Target Completion Date: Aug 15, 2025

7. **System Verification Program for Critical Equipment**:

   - A comprehensive verification plan will be established for all validated systems, including:
     - **Autoclave**: Verification of cycle parameters (temperature, hold time, vacuum levels).
     - **Compounding Vessels**: Confirmation of CIP/SIP parameters (flow, time, temperature, pressure).
     - **Lighthouse Monitoring Software**: Validation of alert/action limits, report generation, and system integrity.

   Target Completion Date: Aug 15, 2025

8. Change Control Enhancement:

- Change control procedure (SOP.CQA.0054) will be revised to include explicit guidance requiring a structured impact assessment based on the nature and criticality of the proposed change. A new clause will mandate that any modifications to qualified equipment settings particularly those affecting validated or quality critical parameters must be evaluated through formal change control and approved by Quality Assurance prior to implementation. This ensures that changes are not made in isolation or without a full understanding of their regulatory and operational impact.
- To support consistent application of this requirement, an annexure will be introduced in the SOP that outlines predefined categories of changes, their potential impact level and the associated required actions such as risk assessments, requalification needs, and effectiveness checks. This annexure will serve as a decision-making reference for change initiators and reviewers to ensure uniformity and compliance in the evaluation process.

Target Completion Date: July 30, 2025

9. Revision of Deviation Procedure:

- The Procedure for Handling Deviations (SOP.CQA.0059) will be revised to clearly define the process flow and decision-making criteria for initiating deviations. It will mandate that any GMP-impacting event must trigger a formal deviation. The SOP will explicitly prohibit standalone impact assessments or investigations without an associated deviation, ensuring traceability, QA oversight, and structured risk evaluation.

Target Completion Date: July 30, 2025

10. Revision of Equipment Validation (SOP.CQA.0039):

- The Equipment Qualification SOP will be revised to state:
  - Any critical process parameter (CPP) or critical quality attribute (CQA) of equipment shall be verified during qualification (OQ/PQ) to ensure it aligns with predefined specifications and GMP requirements.
  - Examples include (but not limited to):
    - NVPC alert/action limits (ISO 5/7)
    - Temperature, Relative Humidity, Differential Pressure (for HVAC systems)
    - Conductivity, TOC, pH, Pressure (for water systems)
    - Autoclave temperature and sterilization hold time
    - Recovery time and air velocity (for cleanroom area qualification)

- Verification must be documented using a Configuration Verification Log and jointly approved by User, Engineering and QA.

Target Completion Date: July 30, 2025

11. Alarm Management SOP:

- A dedicated Alarm Management SOP will be prepared or revised to define:
  - Clear classification of alarms (critical, major, minor).
  - Procedures for alarm response, documentation, investigation, and closure.
  - Requirements for periodic review of historical alarms to detect systemic issues or configuration errors.

Target Completion Date: Aug 15, 2025

12. Audit Trail Review:

- A dedicated SOP will be implemented to ensure periodic review of audit trails related to machine engineering parameters, alarm setpoints, and operator interventions.

Target Completion Date: Aug 15, 2025

13. Training:

- Comprehensive training sessions will be conducted for all stakeholders, including QA, Production and Engineering to ensure full understanding of deviation triggers, documentation requirements, and escalation protocols.

Target Completion Date: Aug 15, 2025

Attachment -1-10	:	Environmental Monitoring Trend of Q-1
Attachment -1-11	:	Environmental Monitoring Trend of Q-2 (April & May)
Attachment -1-12	:	Historical NVPC Alarm Summary from DARA Automatic Filling Line (Past 24 Months)

Observation No. 2:

There is a failure to thoroughly review any unexplained discrepancy and the failure of a batch or any of its components to meet any of its specifications whether or not the batch has been already distributed.
Specifically, OOS investigations did not always contain complete written justification to support the root cause and conclusions, and investigations were not always expanded to additional lots when implicated by the root cause.
A) Investigations OOS.23.015 (lot 2304001), OOS.24.001 (lot 2312002), and OOS.23.016 (lot 2310001) identified sample handling and preparation at your contract laboratory as the probable root cause for OOS liquid particle count results in finished drug lots but did not include specific actions by analysts that might have caused the OOS. The contract laboratory investigation did not find any laboratory errors. There was no thorough explanation of the discrepancy between your investigation and your contract laboratory's investigation. There was no record of remedial action at your contract laboratory to prevent reoccurrence of the unspecified root cause. Your firm re-tested these lots and then released and distributed them without identifying the source of the particles found in your drug product.

Tailstorm Health's Response:

Tailstorm acknowledges the FDA's repeat Observation, we also acknowledge these deficiencies reflect gaps in investigation depth, quality oversight of contract laboratories, and internal governance of OOS handling procedures.
Tailstorm Health initiated **Deviation No. DEV-2025-0008** to conduct a comprehensive root cause investigation and develop a corrective and preventive action (CAPA) plan addressing all noted deficiencies. The following response summarizes the OOS results, investigative approach, impact assessment, and structured remediation plan.

Initial Results and OOS Summary

The OOS events noted in this observation pertain to liquid-borne particulate matter results per USP <788> in the following lots:

- Lot 2304001 (Ketamine 10%) – OOS observed during accelerated stability testing at T=6 months *Refer Attachment 2A-1_OOS.23.015 Investigation Report*
- Lot 2310001 and 2312002 (Bupivacaine 0.5% + Epinephrine 5mcg) – OOS reported during release testing *Refer Attachment 2A-2_OOS.23.016_Investigation Report and Attachment 2A-3_OOS.24.001 Investigation Report*

These failures exceeded the acceptance criteria for small volume injections as per USP <788>:

- ≥10 µm, NMT 6,000 particles per container
- ≥25 µm, NMT 600 particles per container

Table – 1 Summary of Initial OOS Results for Particulate Matter per USP <788>

Lot No.	Product	OOS Ref.	Test Orientation / Type	Initial Results		Outcome
				≥10 µm (NMT 6000)	≥25 µm (NMT 600)	
2304001	Ketamine 10%	OOS.23.015	Inverted Accelerated 1	11,630	55	Fail
			Upright Accelerated 1	7,994	33	Fail
			Inverted Real Time 1	10,134	47	Fail
2310001	Bupivacaine 0.5% + Epinephrine	OOS.23.016	Release 1	7,654	28	Fail
2312002	Bupivacaine 0.5% + Epinephrine	OOS.24.001	Release 1	17,646	739	Fail

Initial Investigation Summary of OOS (Year - 2023):

- Phase I Investigations at Eagle Analytical Services (contract testing laboratory) did not identify any analytical or operational errors and did not provide sufficient detail on analyst technique or sample handling.
- Phase II: Tailstorm Health initiated a 6M-based root cause investigation (Man, Method, Machine, Material, Measurement, Mother nature). No specific cause was confirmed.

Repeat Testing Results (Year - 2023):

Retesting was conducted by a qualified second analyst, in duplicate, and all results complied with USP <788> limits

Table – 2 Summary of Repeat Test Results for Particulate Matter per USP <788>

Lot No.	Product	OOS Ref.	Test Orientation / Type	Repeat Test Results		Outcome
				10 µm (NMT 6000)	25 µm (NMT 600)	
2304001	Ketamine 10%	OOS.23.015	Inverted Accelerated 1	2141	67	Pass
			Inverted Accelerated 2	1117	25	Pass
2304001	Ketamine 10%	OOS.23.015	Upright Accelerated 1	939	14	Pass
			Upright Accelerated 2	1020	11	Pass

Lot No.	Product	OOS Ref.	Test Orientation / Type	Repeat Test Results		Outcome
				10 µm (NMT 6000)	25 µm (NMT 600)	
2304001	Ketamine 10%	OOS.23.015	Inverted Real Time 1	304	8	Pass
			Inverted Real Time 2	524	11	Pass
2310001	Bupivacaine 0.5% + Epinephrine	OOS.23.016	Repeat Test Results 1	158	0	Pass
2310001	Bupivacaine 0.5% + Epinephrine	OOS.23.016	Repeat Test Results 2	145	0	Pass
2312002	Bupivacaine 0.5% + Epinephrine	OOS.24.001	Repeat Test Results 1	1661	14	Pass
2312002	Bupivacaine 0.5% + Epinephrine	OOS.24.001	Repeat Test Results 2	1541	29	Pass
2312002	Bupivacaine 0.5% + Epinephrine	OOS.24.001	Repeat Test Results 3	1801	22	Pass

While the retesting results demonstrated product conformance, the lack of a clearly documented specific root cause prior to retesting is acknowledged.

Impact Assessment:

Commercial Life Cycle Evaluation

- All three cited lots were released, distributed, and have since completed their labeled shelf life.
- No adverse events (ADEs), product complaints, or product recalls were associated with any of the three lots.

Stability Study Review

- For Lot 2304001, although the OOS results was observed at T=6 months (accelerated), subsequent testing at T=9 and T=12 months yielded results within specification. *Refer Attachment 2A-4_Stability Data for Lot 2304001*

- This stability trend supports that the lot continued to meet specifications throughout its shelf life.

Historical Review

- A review of all manufactured lots from 2023 to present has shown no other confirmed OOS failures for LPC results.
- This trend suggests that the process and controls in place demonstrate the product is capable of meeting the required particulate limits. *Refer Attachment 2A-5_LPC Data of 2023, 2024 and 2025*

Action Plan:

a. Quality System Enhancements

- Tailstorm Helath will revise SOP.CQC.0042 (Out-of-Specification Handling) to conduct any repeat testing unless a specific and scientifically justified root cause has been established. The revised SOP will include a structured decision-tree to guide investigation pathways, re-testing eligibility, batch disposition, and investigation expansion, aligned with FDA's May 2022 guidance.

- A retrospective review of all QC Analytical OOS investigations conducted over the past 24 months will be performed. This review will re-evaluate the adequacy of root cause determinations, the appropriateness of the CAPAs implemented, and the effectiveness checks carried out to confirm long-term remediation.

- The particulate data obtained from visual inspection of OOS lots will be reviewed and correlated with subvisible particulate matter results to determine if any supporting trends or discrepancies exist between visible and non-visible findings.

- Tailstorm Health will review LPC results from all manufactured lots produced in the past 24 months. The objective is to identify particulate trends and to establish the minimum and maximum ranges for both ≥10 µm and ≥25 µm particles, thereby supporting an evaluation of baseline process variability.

- A trend analysis of stability lots for the same 24 month period will be conducted to confirm that no degradation trends are contributing to subvisible particulate formation during the product shelf life.

- The LPC results of process validation batches will be reviewed to confirm consistency and demonstrate that the validated manufacturing process is capable of consistently producing product within USP <788> specifications.

- Tailstorm Health will evaluate the potential impact of sample orientation and temperature conditions on the LPC results, to determine if these factors contributed to the variability or OOS outcomes.

- A detailed review will be performed on all product contact materials used in the impacted batches. Certificates of Compliance (CoCs) and relevant supplier documentation will be assessed to confirm the integrity and regulatory conformance of these materials.

- A protocol-based hypothesis-driven study will be designed and executed to investigate the extent to which product contact materials contribute to particle generation.

  Target Completion Date: July 30, 2025

b. Strengthening Contract Laboratory Oversight

Tailstorm understand and own the responsibility of all contracted testing and going forward will be significantly strengthening our existing controls in place which governs the testing standards, methods, test result outcome and handling of laboratory events/OOSs:

- Tailstorm Health will conduct an audit of the contract testing laboratory, with a specific focus on LPC test methodology, analyst sample handling practices, laboratory environment control, and completeness of documentation related to OOS investigations.

- The existing Quality Agreement with the contract laboratory will be revised to require the sharing of raw analytical data, analyst observations, and complete investigation reports with Tailstorm. Furthermore, no re-testing of release or stability samples will be permitted at the contract or in-house laboratory unless Tailstorm's Quality Unit has reviewed and approved the root cause, investigation, and resolution plan.

- SOP.CQA.0011 "Qualification and Management of Vendors for GMP Materials and Operations" shall be revised to include a formal quarterly review process by Tailstorm's Quality Unit. This review will evaluate each contract laboratory for the following (but not limited to):
  - Method changes and deviations
  - Specification updates
  - Instrumentation and calibration status
  - OOS results and investigation trends
  - Audit observations and regulatory inspections
  - CAPA implementation status
  - Subcontracting and personnel changes

- A detailed review of LPC testing procedures at the contract laboratory will be performed to evaluate procedural controls, environmental monitoring, equipment qualification, and method execution practices that may influence test accuracy or reproducibility.

- Tailstorm Health will conduct a historical review of LPC related OOS investigations previously conducted at the contract lab to identify recurring issues, trends, or failures in root cause determination and closure.

- The Phase II investigation report provided by the contract laboratory for the cited lots will be re-examined to ensure that no contributing factors were overlooked and that the investigation conclusions are consistent with Tailstorm's internal findings.

  Target Completion Date: August 15, 2025

c. CAPA Planning and Execution

- Based on the consolidated findings from the investigation, Tailstorm Health will define and implement clear, targeted Corrective and Preventive Actions (CAPAs). Each CAPA will include implementation timelines, responsible personnel, and defined measures of effectiveness to ensure long-term resolution of the observed deficiencies.

  Target Completion Date: August 15, 2025

Follow-Up Response to FDA

- Tailstorm Health will submit a complete follow-up report to the FDA within 30 calendar days from the initial response. This report will summarize:

  - Final root cause determination from Deviation DEV-2025-0008
  - Progress and current status of all CAPAs
  - Key outcomes from the historical OOS/OOT investigation review

Attachments for Observation 2A:

Attachment	:	Document Title
Attachment -2A-1	:	OOS.23.015 Investigation Report
Attachment -2A-2	:	OOS.23.016 Investigation Report
Attachment -2A-3	:	OOS.24.001 Investigation Report
Attachment -2A-4	:	Stability Data for Lot 2304001
Attachment -2A-5	:	LPC Data of 2023, 2024 and 2025

Observation No. 2B:

B) Investigations OOS.24.003 (stability lot 2212005, T12_U_CRT), OOS.24.004 (stability lot 2301001, T12_I_CRT), and OOS.23.005 (lots ENG22006 and ENG22007) document multiple bupivacaine assay OOS results for Bupivacaine HCl/Epinephrine Bitartrate injection. Bupivacaine assay was low for one 12-month real-time stability sample, high for one 12-month real-time stability sample, and high for both engineering lots. Your firm determined a weighing or dilution error was the root cause, because the ratio between the standard and sample solution was wider for the OOS lots than passing lots tested at the same time. HPLC system suitability passed, and the laboratory investigation performed by your contract lab did not find any errors. There is no specification or limit for this ratio, and it is not reviewed unless there is a problem with the initial result. Your firm did not expand the investigation to all other lots or even though the root cause identified appears to implicate all assays for this product.

Tailstorm Health's Response:

Tailstorm acknowledges FDA Form 483 Observation which highlights Out of Specification (OOS) assay results for Bupivacaine HCl in Bupivacaine and Epinephrine Bitartrate Injection across both stability and engineering lots. We understand that the observation raised concerns regarding assay variability, adequacy of root cause, and the adequacy of investigation scope.
Tailstorm Health initiated **Deviation No. DEV-2025-0007** to conduct a comprehensive root cause investigation and develop a corrective and preventive action (CAPA) plan addressing all noted deficiencies. The following response summarizes the OOS results, investigative approach, impact assessment, and structured remediation plan.

Clarification of the Reported OOS Events

The reported OOS results originated from both stability and engineering lots tested for Bupivacaine 0.5% and Epinephrine 5 mcg:

- **Low assay values** were reported during T=12-month real-time stability testing for:
  - Lot 2212005 (upright orientation)
  - Lot 2301001 (inverted orientation)

  Refer Attachment 2B-1_OOS.24.003 Investigation Report and Attachment 2B-2_OOS.24.004 Investigation Report

- **High assay values** were reported during T=6-month testing of engineering lots:
  - Lots ENG22006 and ENG22007 (both upright and inverted)

  Refer Attachment 2B-3_OOS.23.005 Investigation Report

Refer to **Table–1 and Table-2** for a complete overview of results and retesting outcomes.

Table – 1 Summary of Initial Test Results for Assay

Lot Number/ OOS Number	Testing Source	Product/Orientation	Stability Condition	Initial Results % Assay Bupivacaine	Pass/ Fail
ENG2206 **OOS.23.005**	Inhouse	Bupivacaine 0.5% and Epinephrine 5mcg	T=6 RT ***Upright***	107.7	Fail
ENG2206 **OOS.23.005**	Inhouse	Bupivacaine 0.5% and Epinephrine 5mcg	T=6 RT ***Inverted***	107.7	Fail
ENG2207 **OOS.23.005**	Inhouse	Bupivacaine 0.5% and Epinephrine 5mcg	T=6 RT ***Upright***	108.3	Fail
ENG2207 **OOS.23.005**	Inhouse	Bupivacaine 0.5% and Epinephrine 5mcg	T=6 RT ***Inverted***	108.5	Fail
221205 **OOS.24.003**	ETX-240112-0118	Bupivacaine 0.5% and Epinephrine 5mcg	T=12 RT ***Upright***	90.4	Fail
2301001 **OOS.24.004**	ETX-240112-0121	Bupivacaine 0.5% and Epinephrine 5mcg	T=12 RT ***Inverted***	90.2	Fail

Table – 2 Summary of Repeat Test Results for Assay

Lot Number/ OOS Number	Testing Source	Product/Orientation	Stability Condition	Retest Results % Assay Bupivacaine	Pass/ Fail
ENG2206 **OOS.23.005**	Inhouse	Bupivacaine 0.5% and Epinephrine 5mcg	T=6 RT ***Upright***	103.1	Pass
ENG2206 **OOS.23.005**	Inhouse	Bupivacaine 0.5% and Epinephrine 5mcg	T=6 RT ***Inverted***	103.4	Pass
ENG2207 **OOS.23.005**	Inhouse	Bupivacaine 0.5% and Epinephrine 5mcg	T=6 RT ***Upright***	102.2	Pass
ENG2207 **OOS.23.005**	Inhouse	Bupivacaine 0.5% and Epinephrine 5mcg	T=6 RT ***Inverted***	103.7	Pass
221205 **OOS.24.003**	ETX-240112-0118	Bupivacaine 0.5% and Epinephrine 5mcg	T=12 RT ***Upright***	99.4	Pass
2301001 **OOS.24.004**	ETX-240112-0121	Bupivacaine 0.5% and Epinephrine 5mcg	T=12 RT ***Inverted***	99.8	Pass

Summary of Root Cause Investigation Findings

A. OOS.23.005 – Engineering Lots (In-house Testing at T=6M)

- Assay values ranged from **107.7% to 108.5%**.
- Review of lab notebooks, HPLC system suitability, and procedural records found no instrumental or documentation errors.
- However, standard area ratios were significantly different from historical norms.
- Re-injection of the original standard and samples reproduced the OOS results.
- A different analyst had prepared the internal standard for the assay standard solution.
- Reanalysis using a freshly prepared standard yielded results within specifications.
- **Conclusion**: An inadvertent dilution error during standard preparation was determined to be the root cause.

B. OOS.24.003 and OOS.24.004 – Stability Lots (Contract Lab at T=12M)

- Initial assay results were 90.2% and 90.4%, triggering OOS.
- Reanalysis using new sample and standard solutions yielded results within the specification (99.4% and 99.8%).
- Contract Lab Phase II Investigation (OOS#240121, 20-Feb-2024) concluded the root cause as:

  "Analytical error while making the sample preparations was concluded to be the cause of the low potency results… likely occurred during spiking of the internal standard."
  Refer Attachment 2B-4_Conclusion Statement of Contract Lab Investigation

- In-house Investigation (29-Mar-2023) corroborated the same root cause:

  "The lower standard ratio might be due to dilution error in standard preparation."

Methodology Overview and Justification

- The % Assay of Bupivacaine is determined using USP-validated Test Method TM.CH.0002, employing Dibutyl phthalate in methanol as the internal standard.

Refer Attachment 2B-5_Test Method (TM.CH.0002)

- Sample and standard preparations undergo weighing, dilution, and HPLC analysis.
- Assay is calculated as:

$$\%Assay = \frac{AT}{AS} \times \frac{WS}{DS} \times \frac{DT}{WT} \times \frac{P}{100} \times \frac{D}{LC} \times 100$$

Where:

- **AT** = Area response ratio in sample,
- **AS** = Area response ratio in standard,
- **WS/WT/DT/DS/P/D/LC** = Weight, dilution, potency, density, and label claim variables

This calculation demonstrates that when the AT/AS ratio is low, the % assay result will also be lower; conversely, when AT/AS is high, the % assay value will be higher. This trend aligns with the results observed during the OOS events. The root cause was confirmed to be variation or error during spiking of the internal standard into either the standard or sample solution.

The AT/AS ratio is a calculated intermediate and Tailstorm Health will now implement an internal trend based control range. Ratios falling outside this range will trigger re-evaluation of test preparations and system suitability before final result acceptance.

Response to Certain FDA Statements in Observation 2B

Tailstorm Helath respectfully provide the following clarification to FDA's Form 483, Observation 2b.

"The laboratory investigation performed by your contract lab did not find any errors."

Tailstorm Health wishes to clarify that this statement does not reflect the complete findings of the contract laboratory. The Phase II investigation report (OOS# 240121, dated 20-Feb-2024) clearly concluded that an error in the internal standard spiking was responsible for the low assay results. This was independently confirmed by Tailstorm's internal investigation.

"There is no specification or limit for this ratio, and it is not reviewed unless there is a problem with the initial result."

Tailstorm Health agrees that the AT/AS ratio used as part of the USP-based assay calculation is a critical component but is not currently subjected to routine evaluation unless an OOS event occurs. However:

- The AT/AS ratio is influenced by the precision in internal standard spiking, analyst technique, and instrument response.

- Tailstorm Health has initiated the establishment of an acceptable range for AT/AS ratio deviations.
- Future analyses will be reviewed against this defined threshold, and testing will be flagged for investigation if the range is exceeded even in the absence of an OOS result.

"Your firm did not expand the investigation to all other lots..."

Tailstorm Health acknowledges this gap. In response:

- A comprehensive review of all released finished product lots and stability lots from 2023 to present has been initiated.
- This review includes analysis of:
  - AT/AS ratio matrix for each lot,
  - System suitability compliance,
  - Assay trends across all tested batches.
- Any lot exhibiting wider-than-acceptable AT/AS deviations will be flagged for detailed review, and assay data will be re-evaluated to determine impact on specification compliance.

Impact Assessment:

- The stability lots mentioned have completed their shelf-life, and no product complaints or adverse events were reported during their lifecycle.
- The engineering lots cited were not released for distribution.

Ongoing and Planned Remedial Actions:

As part of Tailstorm's commitment to continuous improvement and in direct response to Observation 2B, a structured and phased remediation plan has been initiated under **Deviation No. DEV-2025-0007**. The goal of this plan is to address the root causes identified during the investigation of the OOS events, strengthen analytical controls, and ensure that all potentially impacted lots are adequately assessed. The following activities are underway or scheduled for execution:

Action Item	Objective	Target Completion Date
Review of the standard testing procedure (TM.CH.0002)	To review the standard testing procedure, method suitability, and USP acceptance	July 10, 2025

Action Item	Objective	Target Completion Date
	criteria, and correlate with investigation findings to amend procedures as needed.	
Review of literature and evaluation of internal standard-based methods	To identify analytical variability factors and best practices for internal standard methodology	
Perform hypothesis-based calculations to reconfirm the root cause in OOS Lots	To mathematically validate the impact of AT/AS ratio variation on Bupivacaine potency as per USP method	
Process validation batch review	To trend Bupivacaine assay results and establish potency range across process validation lots	
Review of Epinephrine assay in OOS lots	To confirm that Epinephrine results remain compliant and process integrity is unaffected	
Review of Bupivacaine assay from all released product lots (2023–present)	To trend potency data and identify any atypical values among released lots	
Review of Bupivacaine assay from all stability program lots (2023–present)	To trend potency data and identify any atypical values among stability lots	
Review of test method system suitability data for all released lots	To ensure system suitability acceptance criteria were consistently met	
Review of test method system suitability data for all stability lots	To ensure system suitability acceptance criteria were consistently met	
Review of Difference between AT/AS ratio – released lots	To derive a specification for acceptable ratio range for difference between calculated AT and AS	July 25, 2025
Review of Difference between AT/AS ratio–stability lots	To derive a specification for acceptable ratio range for difference between calculated AT and AS	
Design and perform hypothesis experiments for lots exceeding acceptable ratio range	To evaluate potential impact on assay and specification compliance	

Action Item	Objective	Target Completion Date
Derive findings from ratio evaluation and initiate remediation actions	To define appropriate corrective steps for any lots impacted	
CAPA planning and execution	To finalize and implement preventive controls across test method, training, and documentation

Attachment -2B-4	:	Conclusion Statement of Contract Lab Investigation
Attachment -2B-5	:	Test Method (TM.CH.0002)

Observation No. 3:

Acceptance criteria for the sampling and testing conducted by the quality control unit is not adequate to assure that batches of drug products meet each appropriate specification and appropriate statistical quality control criteria as a condition for their approval and release.

Specifically, we observed multiple deficiencies when we examined your firm's visual inspection, AQL, and particle identification procedures, processes, and executed records.

A) Your firm did not determine the identity, source, and route of contamination for particles and fibers observed inside sterile finished drug vials during 100% visual inspection and AQL performed post-terminal sterilization for lots we examined. The lots met acceptance criteria for VI and AQL and were released with no additional investigation. For example,

- **Inspectors identified 83 units with particles and 16 units with fibers during 100% visual inspection of Sterile Water for Injection, USP 10 mL, lot 2502001.**
- **Inspectors identified 21 units with particles and eight units with fibers during 100% visual inspection of Bupivacaine HCl 0.5%/Epinephrine Bitartrate 5 mcg/mL Injection, 10 mL, lot 2502005.**
- **Inspectors identified five units with particles and four units with fibers during 100% visual inspection of Ketamine 1% 10 mg/mL, 5 mL (SDV), lot 2502008. QA found one additional white fiber during AQL.**
- **Inspectors identified four units with particles and three units with fibers during 100% visual inspection of Ketamine 10% 100 mg/mL, 5 mL (MDV), lot 2502009. QA found one additional white particle during AQL.**
- **Inspectors identified 2 units with particles and 6 units with fibers during 100% visual inspection of Lidocaine HCl 1%/Epinephrine Bitartrate 10 mcg/mL, 10 mL, lot 2503004. QA found one additional white particle and one additional fiber during AQL.**
- **Inspectors identified six units with particles and three units with fibers during 100% visual inspection of Bupivacaine HCl Injection USP 0.25%, 10 mL, lot 2504002**

B) QA inspectors compare rejected defect vials from 100% visual inspection that contain particulates and fibers to the defect gallery

Your current procedures are deficient because they require the QA inspector to visually determine if the particle or fiber is known or unknown and then send the vial for additional identification. There was inadequate explanation how the QA inspector can visually distinguish the composition of similar particles when the description in the defect gallery is a general description such as "black particle". For example, multiple black particles or multiple white fibers will appear similar but might be different materials when examined under microscopy, FTIR, or other identification method. We also noted the procedure applies to defect vials from 100% visual inspection but does not require QA inspectors to compare particles found during AQL to the defect gallery.

C) There is inadequate written justification to classify particulates and fibers found in terminally sterilized injectable drugs as major defects instead of critical defects. Critical defects have a lower defect limit.

D) You do not have adequate written justification for not identifying all particles and fibers observed during 100% visual inspection and AQL

Tailstorm Health's Response:

Tailstorm acknowledges the FDA's observation concerning inadequacies in the identification of particulate matter in the visual inspection process and classification of visible defects. We affirm our strong commitment to aligning all operations with cGMP, pharmacopeial standards and FDA expectations. We have evaluated our current procedures and initiated enhancements to ensure robust control, traceability, and scientific justification for all particulate-related findings. This is a holistic response covering the full lifecycle of particulate detection, classification, and control under Observation 3a, 3b, 3c, and 3d.
We have initiated deviation no. DEV-2025-0009 to determine origin of particulate matter, assess potential impact on product quality, and define appropriate corrective and preventive actions in accordance with our deviation and CAPA procedures.

Observation 3a: Lack of Identification and Source Investigation of Particulate Matter

Current Controls

1. **Incoming Material Inspection:**

   At Tailstorm controls begins with stringent material qualification/verification. Vendor used to procure all primary packaging materials are qualified. All RTU vials, seals, and stoppers are sampled using a statistically justified sampling plan ($\sqrt{n}+1$) as per SOP.CWH.0001. Visual checks ensure exclusion of packaging materials with visible contamination. *Refer Attachment 3-1_SOP.CWH.0001" Receipt, Storage, and Issuance of Materials from Warehouse"*

2. **Post-Cleaning Verification:**

   Post-cleaning, the rinse water used in contact equipment is visually examined for residual particulate, as described in SOP.CMF.0057. This ensures that product-contact surfaces are free from potential particulate sources before batch initiation. *Refer Attachment 3-2_SOP.CMF.0057 "Preparation and Sterilization of the Filling Porous Loads and other Sampling accessories loads"*

3. **Visual Inspection Execution:**

   Following terminal sterilization, 100% visual inspection is performed using semi-automated visual inspection machines by qualified inspectors. Visual inspectors are trained per SOP.CQA.0050, which includes a two-phase qualification: Phase-1 involves defect recognition using a reference defect library, and Phase-2 includes evaluation with vial test set containing ≥10% defect rate. Inspectors must meet predefined accuracy and timing

thresholds. Inspection is governed by SOP.CMF.0042 and is conducted under controlled conditions to ensure consistent defect detection. *Refer Attachment 3-3_SOP.CQA.0050 "Qualification and Re-qualification of Visual Inspection Personnel" and Attachment 3-4_SOP.CMF.0042 "Visible Inspection of Filled Vials for Particles"*

4. **AQL Inspection by QA:**

   QA conducts independent Acceptable Quality Level (AQL) inspection post visual inspection, using Level II or III sampling as per SOP.CQA.0030. The defect limits are:

   - Critical: 0%
   - Major: ≤ 0.40%
   - Minor: ≤ 0.65%

Each control stage ensures exclusion of defective units and supports process monitoring through trending of defect rates. *Refer Attachment 3-5_SOP.CQA.0030 "Acceptable Quality Level"*

Retrospective Review and Trend Analysis:

A retrospective review was performed on the 100% visual inspection data and AQL defect rates for all batches produced during 2024 and 2025. These batches were processed in compliance with established procedures, including post-installation use of the new vial filling, stoppering, and sealing machine (Make: NKP) from 2025 onwards.

100% Visual Inspection and AQL Review

The review confirmed that all batches from both years (2024 and 2025) successfully passed 100% visual inspection and AQL sampling, with defect levels consistently remaining within the defined acceptance thresholds.

No deviations or out-of-limit results were recorded in any batch across the review period.

The consistent results over two years demonstrate a well-established and controlled visual inspection process. Both 100% inspection and AQL checks were effective in identifying and rejecting non-conforming units, ensuring product quality. The trend analysis supports that the visual inspection system, personnel qualification program, and process control strategies were robust and capable of maintaining quality within acceptable limits across all commercial batches during 2024 and 2025. *Refer Attachment 3-6_Visual Inspection Data of Batches Manufactured in 2024-2025"*

Observation 3b: Visual-Only Classification of Particles as Known/Unknown

Current Controls and Identified Gaps:

- SOP.CMF.0042 and SOP.CQA.0030 permitted QA personnel to determine if a defect was "known" or "unknown" based on comparison to a defect gallery. Identification was typically reserved for particles visually classified as "unknown."
- However, as noted, visual-only classification lacks analytical certainty. Fibers or black particles may appear similar but originate from different sources. Additionally, the procedure did not explicitly apply to AQL defects.

Trend and Historical Impact:

No batches released contained visually unidentifiable foreign particles. However, QA identification decisions were not always based on confirmatory analysis.

Observation 3c: Inadequate Justification for Classifying Particulates as Major Instead of Critical Defects

Table – 1 Current Classification

CRITICAL	MAJOR	MINOR
• Broken Vials/ Cracked Vials • Glass Pieces • Metallic/Shining Particles • No rubber Stopper • Content color variation	• High Fill volume • Low Fill Volume • Deformed (mold defect) container • Black Particles • White Particles • Empty Vials • Without Seal • Fiber (White/Black) Particles	• Vials defects (Unremovable stains) • Vial with Black particle in glass • Scratch: Irregular lines on the glass surface • Dented seal • Improper Crimping • Loose Flip Off

Acceptable Limit of 100% visual inspection Rejections:

Defect Gallery	Action
Critical defects 1. Non- Integral physical defects (Broken/Cracked)	0.5 %

Defect Gallery	Action
2. Glass particles 3. Metal particles 4. Content color variation	
Major	1.5 %
Minor	2.0 %
Total	4 %

Defect classification per SOP.CMF.0044 is guided by impact on product safety:

- **Critical**: Direct compromise of container integrity or sterility (e.g., glass pieces, missing stoppers).
- **Major**: Potential for temporary/reversible harm or functional deviation (e.g., visible fiber, particulate contamination).
- **Minor**: Aesthetic issues not impacting safety/efficacy.

Refer Attachment 3-7_SOP.CMF.0044 "Defect Gallery of Vials"

Classification of visible fibers and white/black particles as "Major" was based on prior risk assumptions of low patient impact.

However, current categorization will be updated based on the medical assessment to integrate route of administration and patient safety factors.

Observation 3d: Lack of Written Justification for Not Identifying All Particles

Current Controls

- Historically, known and recurrent particle types (e.g., fiber, glass, sealing debris) observed during visual inspection were not subjected to re-identification. Only unknown particles were analyzed further using FTIR or microscopy to confirm identity.
- This selective approach was designed to maintain efficiency in the inspection workflow; however, it lacked batch specific written justification and scientific documentation for each occurrence.

Trend Analysis and Impact Assessment

A comprehensive retrospective review of 100% visual inspection records and AQL sampling data for 2024 and 2025 was conducted.

Across both years, no batch exceeded acceptance limits for visible particulate matter. No critical defects were observed. Major defects consistently remained <0.40% and minor defects <0.20%, well within control limits. *Refer Attachment 3-6_Visual Inspection Data of Batches Manufactured in 2024-2025"*

No batch showed critical defect presence or trending toward rejection thresholds, and no deviation was observed in either visual inspection or AQL assessment processes.

Liquid Particulate Count (LPC) trend analysis for finished goods confirmed that all measured values remained within the established compendial acceptance criteria, supporting the compliance of batches released. *Refer Attachment 3-8_Subvisible Particle Data of Batches Manufactured in 2024-2025"*

Conclusion: Current system is effective in maintaining product quality. However, enhancements are needed to elevate scientific rigor and ensure regulatory alignment.

Corrective and Preventive Actions (CAPA):

1. Identification and Classification of Particles

- SOP.CMF.0042 and SOP.CHQA.0012 will be revised to ensure:
  - All visual particulate findings during 100% and AQL inspection are reviewed.
  - Particles are categorized into inherent, intrinsic, or extrinsic.
  - Microscopic evaluation by QA and QC is conducted.
  - Comparison with Defect Library using digital microscopy and image-matching software to validate matches (based on color, morphology, birefringence, reflectivity).
  - All recoverable particles, regardless of classification, undergo Microscopy or FTIR or equivalent methods. Advanced analyses (SEM-EDS, Raman, XRD) will be used when necessary.

Target Completion Date: July 30, 2025

2. Creation of Particle Identification Library

- Develop a centralized FTIR/Raman/microscopy spectrum library for:
  - Packaging components (vials, rubbers, seals)
  - Equipment contact materials
  - Environmental materials (fibers, lint, etc.)
  - Historical process contaminants or batch rejects

Target Completion Date: August 15, 2025

3. Baseline Data Compilation, Trending and Thresold Establishment

- Establish a baseline by identifying all particles over a defined period using a statistically meaningful and representative data set for each product group.
- This data will be used to establish a baseline that reflects normal particle incidence rates by type and origin
- Frequency of individual particle types will be trended over time to identify abnormal variation
- Based on this baseline, we will define particle-specific Alert Limits (for increased scrutiny) and Action Limits (which will trigger investigation, source identification, and batch hold/quarantine where necessary)
- Trending will enable root cause prioritization and support ongoing material source mapping, enhancing our ability to proactively mitigate recurring issues.

Target Completion Date: To be determined upon sufficient batch data availability

4. Escalation of Extrinsic or Out-of-Limit Particles

Following the establishment of baseline particle trends and thresholds, each instance of particle detection whether during 100% visual inspection or AQL will be subjected to a structured evaluation process:

- All visual rejections will first undergo digital microscopic examination by trained QA and QC personnel. Morphological characteristics such as shape, structure, color, and surface texture will be compared against the defect gallery using high-resolution imaging and matching software.
- If a particle's visual and morphological features match a known category and fall within the established baseline and alert limit, it will be logged accordingly for trend analysis but not escalated for chemical identification.
- If a particle:
    - Exhibits a new or uncharacteristic morphology (e.g., unexpected shape, color, or texture), or
    - Exceeds the particle-specific alert or action limits derived from the baseline study, or
    - Cannot be confidently categorized based on visual features alone, then the unit will be flagged for analytical identification.

- Such samples will be:
    - Quarantined immediately.
    - Sent for FTIR analysis, and if required, advanced techniques such as SEM-EDS, Raman spectroscopy, or XRD.
    - Investigated for root cause using equipment logs, gowning records, and environmental monitoring data.

- In cases where a known particle type is detected at a frequency beyond its action limit or appears under suspicious or unexpected conditions, a deviation will be raised. A full investigation will be initiated regardless of prior classification.

This structured escalation strategy ensures that any potential contamination event whether due to recurring or novel particulates is systematically evaluated and addressed in compliance with cGMP expectations.

Target Completion Date: To be determined upon sufficient batch data availability

5. Defect Categorization Revision Based on Medical Risk

Tailstorm will revise its defect classification methodology to integrate medical and clinical risk assessments. This enhanced risk-based categorization will be established in collaboration with pharmacovigilance and clinical affairs experts to ensure patient safety is the foremost criterion.

- Each particle type observed during inspections will be evaluated based on:
    - **Route of administration** (e.g., intravenous [IV], intramuscular [IM]), as IV-administered drugs inherently carry higher particulate risk.
    - **Dosage form configuration** (e.g., SDV vs. MDV), where patient exposure frequency and cumulative risk may vary.
    - **Toxicological profile** of the identified material using scientific literature, in-house studies, or vendor data.
    - **Clinical impact profile**: Differentiating reversible/localized effects (e.g., irritation) from systemic or irreversible risks (e.g., embolism, immune reaction).
- SOP.CMF.0044 will be revised to reflect this risk-based reclassification.

Target Completion Date: July 30, 2025

6. Batch Disposition Descision

Batch disposition will be governed by a scientifically robust, risk-based decision-making process that evolves in two distinct phases: prior to baseline establishment and after its completion.

- **Phase 1 – Until Baseline Establishment:**
    - During the initial implementation phase, all recoverable particulate matter observed during 100% visual inspection or AQL will be subjected to complete analytical identification using microscopy and FTIR or equivalent.
    - Only particles confirmed to be inherent or intrinsic in nature will be considered acceptable for trending and classification.

- Any particle that is extrinsic, morphologically unrecognized, or for which chemical composition cannot be confirmed, will trigger a deviation and full impact assessment before any disposition.

- **Phase 2 – After Baseline Establishment and Threshold Definition:**
  - Once a comprehensive baseline is created, particle evaluation will be streamlined as follows:
    - **Step 1: Microscopy-Based Evaluation**
      - All visual rejections will undergo microscopy evaluation by QA/QC.
      - Particles will be compared against the Defect Gallery.
    - **Step 2: Within Alert Level and Matched to Library**
      - If the particle's morphology matches a known defect and occurrence is within its alert limit, it will be logged for trend analysis. No further chemical identification is required.
    - **Step 3: Alert Limit Exceeded**
      - If the occurrence exceeds the alert limit or displays discrepancies in morphology, the particle will undergo FTIR or equivalent analytical identification.
    - **Step 4: Action Limit or Unknown Particle**
      - If any known particle exceeds the action limit, or a particle remains morphologically or chemically unclassified:
        - A deviation will be raised.
        - QA will assess batch impact in accordance with SOP.CQA.0018.
        - CAPA will be implemented based on findings.
    - **Step 5: Final Disposition**
      - Batch disposition (release or rejection) will occur only after:
        - Identification of particulates.
        - Source and nature confirmation (inherent/ intrinsic/ extrinsic).
        - Trend review against defined thresholds.

Target Completion Date: To be determined upon sufficient batch data availability

Tailstorm Health trusts this comprehensive response demonstrates our commitment to continuous improvement and regulatory compliance. While our historical performance supports the effectiveness of our current controls, we recognize the importance of enhancing scientific

justification, traceability, and process rigor. All corrective actions will be executed under a formal CAPA framework and verified through effectiveness checks.

Observation No. 4:

Routine inspection and checking of equipment is not performed according to a written program designed to assure proper performance.

Specifically, we observed the UV lamp unit on your water for injection (WFI) generation skid leaking and creating a puddle on the floor on 05/14/25. There were no records available to determine how long this leak was present. Your firm uses WFI to produce approximately 19 different terminally sterilized injectable drugs. Examples of lots produced with WFI include: Sterile Water for Injection, USP 10 mL, lot 2502001; Bupivacaine HCl 0.5%/Epinephrine Bitartrate 5 mcg/mL Injection, 10 mL, lot 2502005; Ketamine 10% 100 mg/mL, 5 mL (MDV), lot 2502009; and Bupivacaine HCl Injection USP 0.25%, 10 mL, lot 2504002.

Tailstorm Health's Response:

Tailstorm Health acknowledges the FDA's Observation regarding the Water for Injection (WFI) system leak observed at the UV lamp sleeve assembly within the WFI generation unit. This condition could potentially compromise the microbiological integrity of the WFI system and could adversely affect product quality if unaddressed.
A thorough investigation has been completed. The company has identified the root cause and implemented corrective and preventive actions (CAPAs). An impact assessment has also been conducted to verify that no product was affected. Details of the investigation and subsequent actions are outlined below.

Background

On May 14, 2025, prior to the FDA investigator's walkthrough of the Water for Injection (WFI) area, the Engineering Supervisor identified a minor water leak originating from the UV lamp sleeve assembly of the WFI generation unit. The issue was proactively documented, and a breakdown report (CH/ENG/2025/0003) was initiated by the Engineering department at 10:00 AM, in accordance with internal deviation and breakdown reporting procedures. *Refer Attachment #1 Breakdown Maintenance Requisition Form.*

Subsequently, during FDA's facility inspection on the same day, at approximately 1:00 PM, investigators also observed the same leak during their visit to the WFI generation system area. This observation was noted and documented as part of the FDA's findings.

Investigation

Following the initiation of breakdown report CH/ENG/2025/0003 on May 14, 2025, the Engineering team conducted a structured investigation to determine the source, extent, and potential impact of the WFI leakage.

The investigation included the following immediate actions:

a. User Notification & Usage Control

- The production team was informed immediately upon detection, and the use of WFI from the affected generation system was halted pending investigation and repair.

b. System Shutdown

- The WFI generation unit was safely powered down to prevent any further leak and allow for prompt maintenance.

c. UV Unit Isolation and Drainage

- The UV lamp assembly was mechanically isolated.
- The UV chamber was drained to facilitate internal inspection and maintenance.

d. Component Disassembly and Examination

- The terminal caps of the UV lamp were disassembled.
- Inspection revealed a worn O-ring gasket between the quartz sleeve and UV chamber housing.

This evidence supported the identification of a mechanical seal failure as the asignable root cause.

In parallel with the ongoing FDA inspection, the identified leak was promptly corrected during the inspection window itself. The UV lamp sleeve assembly O-ring was replaced, and the system was sanitized post-repair. All related documentation including the closed breakdown record (CH/ENG/2025/0003), WFI system sanitization records, and WFI test results confirming compliance with microbial and chemical specifications were reviewed onsite by the FDA investigator and submitted as part of the inspection process.

Impact Assessment

A comprehensive impact assessment was conducted to evaluate the effect of the leak on WFI usage, product quality, and environmental conditions. The assessment considered operational, quality, microbiological, and engineering aspects.

a. Operational Status of WFI System:

- At the time of leak detection, the WFI was not in use for any manufacturing process.
- The WFI system was being utilized in cleaning operations of the production area.

b. Microbial and Contamination Risk Controls:

- The WFI generation and distribution system undergoes a weekly hot water sanitization as per SOP.CEN.0001, to prevent potential microbial presence. *Refer Attachment 4-2 Operation and Sanitization of WFI Generation and Distribution System.*
- Review of system records confirmed that the most recent sanitization was conducted on May 11, 2025. *Refer Attachment 4-3 Sanitization Record of WFI System.*
- The system sanitization was performed following the repair. *Refer Attachment 4-4 Sanitization Record of WFI System.*

c. Preventive Maintenance Verification

- As per the Monthly Preventive Maintenance Schedule (SOP.CEEN.0001-F13), a visual inspection for any leaks in the WFI generation system is required.
- The last preventive maintenance was conducted on April 24, 2025, and inspection records confirmed that no abnormalities or leaks were observed at that time. *Refer Attachment 4-5 Preventive Maintenance Record of WFI System*
- Since the leak was observed on May 14, 2025, it can be concluded that the leak occurred between April 24 and May 14, 2025.
- There were no product batches manufactured after April 17, 2025, thereby mitigating the risk of product impact from the leak.

d. WFI Quality Monitoring and Compliance:

- Engineering executed sanitization of the Water for Injection (WFI) generation system immediately after repair. This was carried out as per SOP.CEN.0001 to restore full microbiological control of the WFI system before it was returned to operational status.
- Online monitoring records for Conductivity and Total Organic Carbon (TOC) remained within the acceptable USP <1231> limits during the time period surrounding the event.
- Conductivity at the EDI outlet and TOC levels in the return loop were recorded every 2 hours for 3 consecutive days post-repair. *Refer Attachment 4-6 Online Parameter Monitoring Record*
- All values were within acceptable limits per USP <1231>, confirming system stability and WFI quality.
- Offline testing was conducted after the leak repair was performed and confirmed that Bacterial Endotoxins Test (BET), Bioburden, Conductivity and Description met specification.

e. Environmental Monitoring (EM):

- As the WFI was used for area cleaning, a detailed retrospective review of environmental monitoring data was conducted for the respective zones.
- Results of Settle Plate Sampling, Air Sampling, and Contact Plate Sampling for the days before, during, and after the incident were reviewed.
- All EM results were found within alert and action limits, confirming that no environmental contamination occurred from the WFI use. *Refer Attachment 4-7 Environmental Monitoring Trend of Q1-2025 and Attachment 4-8 Environmental Monitoring Trend of Q2-2025(April & May)*

f. Utility System Integrity:

- The leak was confirmed to be isolated to a single point (UV lamp O-ring) and did not affect the loop integrity.
- The positive pressure in the loop ensured that no external contaminants could enter the system during the leak event.

g. System Usage Timeline:

- The last batch manufactured prior to the incident was on April 17, 2025.
- No production activities took place between April 17 and May 14, 2025.

Conclusion of Impact Assessment:

Based on the above evaluations:

- There was no impact on product quality or patient safety.
- There was no impact on facility cleaning effectiveness.
- There was no impact on the microbiological integrity of the environment.
- The issue as an isolated mechanical failure

The WFI remained compliant with quality standards and safe for continued use in cleaning and subsequent operations.

Retrospective Review of Breakdowns in Utilities (2024-2025)

a. WFI System

A retrospective review of WFI system breakdowns and preventive maintenance activities was performed for the period of January 2024 to May 2025 to determine if any other leaks were observed prior to May 14, 2025.

- Records confirm that the only recorded breakdown associated with the WFI generation and distribution system during this period is the current incident, documented under Breakdown Report CH/ENG/2025/0003.
- This confirms that the event is an isolated mechanical failure rather than a systemic or recurring problem.

The preventive maintenance activities performed on the WFI system include monthly checks, all of which contain a checkpoint for visual inspection of potential leaks as per SOP.CEEN.0001-F13.

Table-1 Preventive Maintenance Data of WFI System

Preventive Maintenance Date	Observation Summary
26-Jan-2024	No leak or abnormality observed
23-Feb-2024	No leak or abnormality observed
29-Mar-2024	No leak or abnormality observed
26-Apr-2024	No leak or abnormality observed
24-May-2024	No leak or abnormality observed
28-Jun-2024	No leak or abnormality observed
29-Jul-2024	No leak or abnormality observed
30-Aug-2024	No leak or abnormality observed
27-Sep-2024	No leak or abnormality observed
29-Oct-2024	No leak or abnormality observed
29-Nov-2024	No leak or abnormality observed
27-Dec-2024	No leak or abnormality observed
24-Jan-2025	No leak or abnormality observed
24-Feb-2025	No leak or abnormality observed
24-Mar-2025	No leak or abnormality observed
24-Apr-2025	No leak or abnormality observed (last PM before leak)

This detailed review provides strong assurance that:

- The leakage occurred after April 24, 2025, the last PM where the system was visually inspected.
- No prior leaks or mechanical faults were reported for the WFI system.
- The current issue is therefore confirmed as non-recurring and isolated.

b. HVAC System

The HVAC system has been reviewed to determine preventive controls and alarm systems in place:

- The system is equipped with controls that continuously monitor temperature, relative humidity (RH), and differential pressure (DP).

- Any disturbance in the environmental parameters due to instrument failure or system malfunction triggers an automated alert system that is addressed immediately by Engineering personnel.
- Preventive maintenance is carried out according to:
    - **SOP.CEEN.0001-F21** – Quarterly Preventive Maintenance of AHU *Refer Attachment 4-9*
    - **SOP.CEEN.0001-F22** – Semi-Annual Preventive Maintenance of AHU *Refer Attachment 4-10*
- These PMs include tasks such as:
    - Visual inspection for leaks or mechanical damage in ducting.
    - Filter cleaning and replacement as per operational hours or condition.
    - Motor and blower performance checks and verification of control system alarms.

Conclusion: The HVAC system has robust monitoring and maintenance procedures, ensuring continued environmental integrity and no history of leaks or malfunction that could impact product quality.

c. Compressed Air and Nitrogen Systems

The compressed air and nitrogen systems were reviewed in terms of construction integrity, monitoring controls, and preventive maintenance effectiveness.

- Both systems use welded stainless steel (SS) piping without manual joints or connections, significantly reducing the likelihood of leaks.
- Manufacturing equipment such as Compounding Tanks, Vial Filling and Sealing Machine and Autoclave includes automated alarms and interlock systems that monitor pressure parameters. Any low pressure alarm trigger alerts for immediate investigation.
- The Semi-annual Preventive Maintenance (PM) of Compressed Air System (SOP.CEEN.0001-F24) includes steps:
    - "Ensure no leaks from the connections of the air receiver tank using soap solution"
    - "Ensure healthy condition of the filters installed at the discharge line of the air compressor; replace if any abnormalities are found" *Refer Attachment 4-11*
- Similarly, the Semi-annual PM of the Nitrogen Generation System (SOP.CEEN.0001-F16) includes detailed verification actions:
    - "Check pneumatic valves and air piping connections for any wear, tear, or leaks; if observed, take necessary corrective actions"

- "Ensure no leaks from the N2 output connections, inlet of the N2 buffer tank and receiver, and outlet of the N2 receiver and buffer tank" *Refer Attachment 4-12*

These SOP-driven activities confirm that leak detection is systematically monitored and corrective measures are pre-defined. As per retrospective Preventive Maintenance records, no leaks or abnormalities have been reported in these systems during the 2024–2025 period.

Conclusion: The integrity of the WFI and other critical systems is supported by their robust mechanical design, comprehensive maintenance SOPs, and reliable monitoring and alert mechanisms, all of which serve to mitigate the risk of failure or contamination. No breakdown events or deviations have been reported in the retrospective review period.

Corrective Actions and Preventive Actions

To address the root cause of the leak and prevent recurrence, Tailstorm Health has implemented and initiated the following corrective and preventive actions:

The Standard Operating Procedure (SOP) SOP.CEN.0001-F01 governing the operation logbook of the WFI generation and distribution system was revised and implemented on June 03, 2025. This revision introduced a mandatory checkpoint for daily visual verification of potential leaks across all components of the WFI system. This enhancement is intended to ensure real-time detection and timely correction of any future mechanical failures. **Status:** Completed

Refer Attachment 4-13 Operation logbook of the WFI generation and distribution system

Furthermore, the SOP will be subjected to a second revision, which will include clear and structured action steps to be taken in the event of leak, visible damage, and replacement of any component parts. This addition will further strengthen response efficiency and ensure that all deviations are handled consistently and thoroughly. **Target Completion Date**: June 30, 2025

Observation No. 5A:

Buildings used in the manufacturing, processing and packing of a drug product are not maintained in a good state of repair.

Specifically, we observed maintenance deficiencies with the cleanrooms production technicians use to manufacture all terminally sterilized injectable drugs including: Sterile Water for Injection, USP 10 mL, lot 2502001; Bupivacaine HCl 0.5%/Epinephrine Bitartrate 5 mcg/mL Injection, 10 mL, lot 2502005; Ketamine 10% 100 mg/mL, 5 mL (MDV), lot 2502009; and Bupivacaine HCl Injection USP 0.25%, 10 mL, lot 2504002.

A) We observed multiple pieces of apparent autoclave tape under the conveyor belt and on the wall surrounding the outlet from the sealing and capping station of the ISO 5 RABS filling line into the ISO 7 autoclave room. There was no written explanation of why the tape was present or how long it was present.

Tailstorm Health's Response:

Tailstorm Health acknowledges the FDA's observation regarding the presence of autoclave tape within a classified cleanroom environment, specifically around the outlet of the sealing and capping station from the ISO 5 RABS filling line to the ISO 7 autoclave room.

Deviation No. DEV-2025-0006 was initiated to document and investigate this nonconformance in alignment with our quality system procedures.

Immediate Action

- On May 13, 2025, immediately following the FDA investigator's walkthrough, a manufacturing technician visited the autoclave room (PR009), removed all visible autoclave tape near the conveyor outlet and wall, and sanitized the affected surfaces with 70% IPA.

- An immediate inspection of the ISO 5 RABS filling line and adjacent classified spaces including the ISO 7 filtration room, compounding room, change rooms, pass boxes, conveyor belt, and autoclave room was conducted. No other anomalies or unauthorized foreign materials were detected.

Investigation

- An investigation was initiated following the finding by the investigator. The autoclave room (PR009) was evaluated, and personnel involved in routine area cleaning were interviewed. During interviews, it was noted that a gamma-irradiated trash bag may have been temporarily secured using autoclave tape to prevent it from shifting during cleaning activities.

- The technician involved clarified that the tape was applied as a one-time action during a routine cleaning task, and not as part of a recurring or instructed practice. The action occured based on perceived convenience in managing bag stability during waste handling.
- The investigation found no evidence of habitual or systemic use of autoclave tape for such purposes. No records, deviation reports, or prior inspection findings suggested recurrence of this issue. This incident appears to have resulted from isolated action taken during a routine cleaning task.
- No SOP or work instruction endorsed or referenced the use of autoclave tape for waste handling or wall attachment. Therefore, this incident was determined to be a result of behavioral oversight during daily cleaning activity, compounded by the lack of targeted visual inspections post cleaning.
- The root cause was determined to be behavioral oversight during daily cleaning activities, combined with the absence of a dedicated structure for waste bag placement and the lack of inspection criteria post-cleaning.

Impact Assessment

A comprehensive impact assessment concluded that the presence of the autoclave tape had no adverse effect on product quality, environmental integrity, or patient safety. Key findings include:

- No product or open containers were present in the autoclave room during the time of inspection.
- The observed autoclave tapes were not in direct contact with any product or critical equipment surfaces.
- The tape used was cleanroom-compatible (silicone-based adhesive) and known not to leave residue, thereby minimizing risk to surface integrity.
- The area was sanitized following standard cleaning procedures under SOP.CMF.0050 using Decon Spore.
- A proactive visual inspection of all cleanrooms (ISO 5, 7, and 8) was conducted. No additional unauthorized tape or similar maintenance deviations were identified.
- Differential pressure gradients between ISO 5 and ISO 7 were confirmed to be compliant, with positive airflow cascading from the ISO 5 sealing area through the transfer hatch into the ISO 7 autoclave room. This airflow direction was confirmed during the facility's most recent smoke study (airflow visualization), which clearly showed that laminar flow from the ISO 5 RABS environment passes into the ISO 7 area, thereby preventing backflow of air and

minimizing the risk of contamination to the ISO 5 critical area. *Refer Attachment 5A-1 Air Flow Visualization Report*

- Environmental Monitoring (EM) data for the autoclave room (ISO 7) showed all active air samples taken on May 5, 16, and 21, 2025, reported 0 CFU. *Refer Attachment 5A-2 Environmental Monitoring Trend Q2-2025 (April & May)*
- Transfer of sealed vials from ISO 5 to ISO 7 via the mouse hole does not pose contamination risk, as no open product is exposed during transfer.

Conclusion: Based on physical evidence, pressure cascading and microbiological data, this issue posed no impact to product quality, sterility assurance, or environmental classification.

Corrective and Preventive Actions

Tailstorm Health implemented immediate corrective measures including removal of the autoclave tape and sanitization of the affected area. A facility wide inspection confirmed no other instances of tape or other foreign materials.

As a part of facility improvement, waste bag stands have been introduced in all cleanroom areas to provide a proper and compliant solution for securing waste bags during cleaning or operations.
Target Completion Date: July 15, 2025

SOP.CMF.0050 will be revised to include post-cleaning visual checks and escalation in case of any facility related issues. Cleanroom staff will undergo training to reinforce material handling expectations and escalations.
Target Completion Date: July 15, 2025

SOP.CHQA.0002 "Line Clearance" will be revised to includes checks for non-designated items.
Target Completion Date: July 15, 2025

Attachments for Observation 5A:

Attachment	:	Document Title
Attachment -5A-1	:	Air Flow Visualization Report
Attachment -5A-2	:	Environmental Monitoring Trend Q2-2025 (April & May)

Observation No. 5B:

Buildings used in the manufacturing, processing and packing of a drug product are not maintained in a good state of repair.

Specifically, we observed maintenance deficiencies with the cleanrooms production technicians use to manufacture all terminally sterilized injectable drugs including: Sterile Water for Injection, USP 10 mL, lot 2502001; Bupivacaine HCl 0.5%/Epinephrine Bitartrate 5 mcg/mL Injection, 10 mL, lot 2502005; Ketamine 10% 100 mg/mL, 5 mL (MDV), lot 2502009; and Bupivacaine HCl Injection USP 0.25%, 10 mL, lot 2504002.

B) We observed a missing electrical outlet cover in the ISO 7 autoclave room with an apparent black substance surrounding the entire outlet. There was no written explanation of how long the outlet cover was missing or the identity of the black substance.

Tailstorm Health's Response:

Tailstorm Health acknowledges the FDA's observation. We understand the critical importance of maintaining all facility infrastructure especially within classified cleanroom environments in a state of good repair. We recognize that an exposed or damaged electrical outlet within an ISO 7 room could pose both particulate and microbial contamination risks and may compromise cleanroom integrity if not promptly identified and mitigated.

Deviation No. DEV-2025-0006 was initiated to document and investigate this nonconformance in alignment with our quality system procedures.

Immediate Action

Upon notification of the investigators finding, the following actions were executed immediately to ensure personnel safety and to eliminate contamination risks:

- Operators were promptly instructed to avoid contact with the affected area to eliminate potential electrical and contamination risks.
- The exposed outlet was immediately covered using a sterile, cleanroom compatible Tyvek wrap to prevent ingress of particulates or microbial contaminants.
- A qualified engineer was instructed to assess and replace the missing cover with a cleanroom compatible socket cover.
- The autoclave room (PR009) was immediately cleaned and disinfected per SOP.CMF.0050 using Decon Spore.

Investigation Summary

1. Cause of Missing Outlet Cover:

The investigation concluded that the outlet cover was inadvertently dislodged and broken due to physical contact likely from material handling equipment (such as a cart). The outlet is located at a height and position that makes it susceptible to incidental contact during routine operational activities.

2. Identification of Black Substance:

The black substance observed surrounding the outlet was identified as a portion of the polycarbonate cover itself, not residue or contamination. This was confirmed by:

- Visual comparison with undamaged socket units in similar areas.
- Cross-referencing the manufacturer's technical data sheet, which confirms that the cover is constructed from high impact, cleanroom compatible polycarbonate material. *Refer Attachment 5B-1 Technical Specification of Electrical Outlet*

3. Environmental and Product Safety Considerations:

- No in-process or exposed product was present in the autoclave room at the time of the observation.
- The exposed outlet area was located outside of ISO 5 zones and was confirmed to have positive pressure differentials maintained from ISO 5 to ISO 7, thus reducing the risk of backflow or cross-contamination.
- Environmental Monitoring (EM) data collected on May 5, 16, and 21, 2025, for the autoclave room (PR009) reported 0 CFUs, confirming no microbial impact from the outlet condition. *Refer Attachment 5B-2 Environmental Monitoring Trend Q2-2025 (April & May)*

4. Cleaning and Disinfection:

Post-identification, the area was immediately disinfected per the routine cleaning procedure SOP.CMF.0050, using sporicidal disinfectants (Decon Spore). The outlet was subsequently replaced with a new cleanroom compatible cover.

5. Facility-wide Inspection:

Following the incident, a facility-wide inspection of all cleanroom zones (ISO 5, 7, and 8) was conducted to identify any similar maintenance issues. No other exposed or uncovered electrical fixtures were found across inspected areas, including corridors, airlocks, compounding area, dispensing area and vial filling area.

6. Procedural Gaps Identified:

While cleaning and area maintenance were conducted in accordance with existing SOPs, it was determined that the current cleaning SOP lacks a defined escalation or verification step to identify and report facility related infrastructure issues such as missing outlet covers or damaged fixtures. This procedural gap delayed the recognition and formal documentation of the missing outlet cover.

Root Cause Evaluation:

The missing outlet cover was the result of unintentional mechanical damage during routine operations. The black material observed was confirmed to be the polycarbonate component of the outlet cover itself, verified through visual evidence and technical datasheet references. The material posed no risk to cleanroom integrity or product quality, and the area was cleaned and sanitized immediately following identification. However, the absence of a formal post-cleaning facility verification and escalation step in the SOP was identified as a contributing factor to the issue remaining unreported.

Impact Assessment

- **Product Exposure:**
  - The autoclave room handles only sealed containers during terminal sterilization staging.
- **Material Compatibility:**
  - The material identified around the outlet was confirmed to be polycarbonate, part of the original outlet cover.
  - It is suitable for use in ISO classified spaces and poses no contamination risk.
- **Environmental Monitoring:**
  - EM data collected on May 5, 16, and 21, 2025 from the autoclave room (PR009) showed 0 CFU from active air samples.
  - Results confirmed the absence of microbial contamination during the period in question. *Refer Attachment 5B-2 Environmental Monitoring Trend Q2-2025 (April & May)*
- **Airflow and Pressure Differential:**
  - ISO 5 zones maintained positive differential pressure relative to the ISO 7 autoclave area.
  - Airflow studies confirm a cascading airflow preventing cross-contamination into critical zones. *Refer Attachment 5B-3 Air Flow Visualization Report*
- **Facility-Wide Condition Inspection:**
  - A full inspection of all ISO 5, 7, and 8 areas at the facility and found no other exposed or uncovered electrical sockets.

Based on the investigation, there was no impact on product quality, environmental integrity, or patient safety. The black substance was confirmed to be cleanroom-compatible polycarbonate, and no contamination or microbial risk was identified.

Corrective Action and Preventive Action

SOP.CMF.0050 will be revised to include a mandatory post-cleaning facility condition verification step. The updated SOP will instruct cleaning personnel to escalate any observed maintenance related issues through initiation of a General Work Requisition Form as per SOP.CEEN.0012.
Target Completion Date: July 15, 2025

Cleanroom operators, supervisor and cleaning crew will undergo retraining to ensure awareness of escalation protocols and infrastructure integrity checks.
Target Completion Date: July 15, 2025

Facility Maintenance SOP (SOP.CEEN.0012) will be revised to change the inspection frequency from quarterly to monthly for cleanrooms, and the inspection checklist will be updated to include comprehensive coverage of infrastructure related elements such as wall fixtures, electrical outlets, doors, lights, floor and panel integrity.
Target Completion Date: July 15, 2025

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. 1086005

Application/License No. _____

Noramco, LLC
_____, doing or intending to do business as a
Applicant/Principal
pharmaceutical wholesaler, whose address for purposes of service is
500 Swedes Landing Road, Wilmington, DE 19801
_____, as
Address of Applicant/Principal
PRINCIPAL, and The Hanover Insurance Company
_____, a
Surety Company
corporation organized under the laws of the state of New Hampshire
State of Incorporation
and authorized to transact a general surety business in the State of

Nevada, whose address for purposes of service is
440 Lincoln Street Worcester, MA 01653
_____ as
Address of Surety
SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of FIVE THOUSAND DOLLARS ($5,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on January 2, 2021.
Effective Date

WHEREAS, the provisions of Nevada Revised Statue (NRS) 639.515 and Nevada Administrative Code (NAC) 639.5937 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $5,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 a[illegible]y costs incurred by the Board regarding the license of Applicant/Principal t[illegible]ose pursuant to NRS 622.400 or 622.410 which the Applicant/Princi[illegible]

Company has been licensed with us for more than 5 years.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and NAC 639.5937 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515 and NAC 639.5937. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 18th day of November, 2020.

THE HANOVER INSURANCE COMPANY
MASSACHUSETTS BAY INSURANCE COMPANY
CITIZENS INSURANCE COMPANY OF AMERICA

POWER OF ATTORNEY

THIS Power of Attorney limits the acts of those named herein, and they have no authority to bind the Company except in the manner and to the extent herein stated.

KNOW ALL PERSONS BY THESE PRESENTS:

That THE HANOVER INSURANCE COMPANY and MASSACHUSETTS BAY INSURANCE COMPANY, both being corporations organized and existing under the laws of the State of New Hampshire, and CITIZENS INSURANCE COMPANY OF AMERICA, a corporation organized and existing under the laws of the State of Michigan, (hereinafter individually and collectively the "Company") does hereby constitute and appoint,

Brenna Page Tuccelli, Barry R. Page, Bonnie Robbins, Candy Leifker, Taylor Pollock, Catharina Hardy and/or Craig Sanassarian

Of **Insurance Office of America dba IOA Insurance Services of Sacramento, CA** each individually, if there be more than one named, as its true and lawful attorney(s)-in-fact to sign, execute, seal, acknowledge and deliver for, and on its behalf, and as its act and deed any place within the United States, any and all surety bonds, recognizances, undertakings, or other surety obligations. The execution of such surety bonds, recognizances, undertakings or surety obligations, in pursuance of these presents, shall be as binding upon the Company as if they had been duly signed by the president and attested by the secretary of the Company, in their own proper persons. Provided however, that this power of attorney limits the acts of those named herein; and they have no authority to bind the Company except in the manner stated and to the extent of any limitation stated below:

Any such obligations in the United States, not to exceed Ten Million and No/100 ($10,000,000) in any single instance

That this power is made and executed pursuant to the authority of the following Resolutions passed by the Board of Directors of said Company, and said Resolutions remain in full force and effect:

RESOLVED: That the President or any Vice President, in conjunction with any Vice President, be and they hereby are authorized and empowered to appoint Attorneys-in-fact of the Company, in its name and as it acts, to execute and acknowledge for and on its behalf as surety, any and all bonds, recognizances, contracts of indemnity, waivers of citation and all other writings obligatory in the nature thereof, with power to attach thereto the seal of the Company. Any such writings so executed by such Attorneys-in-fact shall be binding upon the Company as if they had been duly executed and acknowledged by the regularly elected officers of the Company in their own proper persons.

RESOLVED: That any and all Powers of Attorney and Certified Copies of such Powers of Attorney and certification in respect thereto, granted and executed by the President or Vice President in conjunction with any Vice President of the Company, shall be binding on the Company to the same extent as if all signatures therein were manually affixed, even though one or more of any such signatures thereon may be facsimile. (Adopted October 7, 1981 – The Hanover Insurance Company; Adopted April 14, 1982 – Massachusetts Bay Insurance Company; Adopted September 7, 2001 – Citizens Insurance Company of America)

IN WITNESS WHEREOF, THE HANOVER INSURANCE COMPANY, MASSACHUSETTS BAY INSURANCE COMPANY and CITIZENS INSURANCE COMPANY OF AMERICA have caused these presents to be sealed with their respective corporate seals, duly attested by two Vice Presidents, this 23rd day of **October, 2020**.

The Hanover Insurance Company

TRACEY L. NORTON

[redacted]

OBJECTIVE: To apply my pharmaceutical compliance expertise and leadership skills in a way that helps the company maintain and improve upon its compliance through successful regulatory inspections and agency interactions.

EXPERIENCE:

5/2018 – present *Noramco, 500 Swedes Landing Road, Wilmington, DE 19801*

Director, Controlled Substance Compliance & Security

- Oversee all DEA compliance and Security activity for the Wilmington and Athens sites. This includes working with DEA on imports, exports, quota, SOM, disposal and 222 forms to name a few. Responsible for assuring State licensing and SOPs are current and applicable to the business. Oversees contract guard force, submits requests and monitors installation and upkeep of security equipment. Hosts DEA inspections and participates in internal and customer audits as needed.

8/2017- 5/2018 *Neos Therapeutics, 2940 N. Highway 360, Grand Prairie, TX 75050*

Compliance Manager

- Remote position; traveled to site one week/month. Position managed facility state and federal licensing program, suspicious order monitoring, product stewardship activities, departmental budget, provided subject matter expertise on all other DEA/State matters including quota, inventory management, SOPs, recordkeeping, inspections, etc.

11/2016-8/2017 *Self-Employed, Pennsylvania Based*

Regulatory Consultant

- Provide regulatory expertise to various pharmaceutical companies regarding State and DEA licensing, regulatory inspections, standard operating procedures and day-to-day operations as well as conducting routine facility audits or mock inspections.

12/2014-3/2016 *H. D. Smith Wholesale Drug, 3201 W. White Oaks Dr., Springfield, IL 62704*

VP, Regulatory Compliance & Security

- Company leader responsible for eight different wholesale distribution sites and one 3PL facility. Locations in IL (2), TX, NJ, CA (2), KY, FL, NH
- Supervised field and in-house personnel responsible for providing organizational regulatory support, conducting internal audits, pharmacy audits, regulatory reporting, suspicious order monitoring, recalls, licensing and agency requests.
- Partnered with vendors and construction personnel regarding security and safety matters across the divisions.

8/2011-12/2014 *Qualitest Pharmaceuticals, Inc., 130 Vintage Drive, Huntsville, AL 35763*

Director, DEA Compliance

- Member of the twelve-person Operations Leadership Team responsible for key decisions and strategic initiatives for the Huntsville, AL and Charlotte, NC sites.
- Responsible for all aspects of DEA Compliance for these sites.
- Development of the complete DEA program including design, hiring and mentoring of DEA Compliance group members, creation of an operational structure within Manufacturing and the Warehouse to prevent diversion, design of the employee training plan, oversight of DEA reporting, quota and SOP creation, providing guidance on ERP and WMS systems, creation of strategic plans and risk management assessments and development of the company's suspicious order monitoring program.

3/2010-8/2011 *Reckitt Benckiser, Inc., 399 Interpace Parkway, Parsippany, NJ 07054*

Compliance Manager, Regulatory Affairs Department

- Responsible for developing a compliance program to assure all sample activities regulated by FDA's Prescription Drug Marketing Act were met (for Reckitt Benckiser this included List I chemicals also regulated by DEA)
- System validation of Target Mobile System for Sales Representatives
- Coordinated all State compliance activities related to wholesale distribution of medical devices, OTC products, cosmetics and List I (handled Rx and Controlled Substances in past).
- Interpreted state aggregate spend requirements, developed company's program & training.
- Compliance officer responsibilities as described in the OIG Compliance Program Guidance

6/2002-8/2009 *Watson Laboratories, Inc., 360 Mt. Kemble Avenue, Morristown, NJ 07962*

Director of Controlled Substance Compliance

- Managed the controlled substance activities of eleven different manufacturing, research, analytical laboratory and distribution facilities, including four to six direct reports and a budget of just over $1M
  - Signatory authority for import/export permits and declarations, 222 order forms and registrations that did not require a Corporate Officer
  - Responsible for overseeing State, DEA and VAWD requirements, including fingerprinting, surety bonds, home state verifications and designated representatives
  - Designed database to manage 400+ DEA and State Registrations (dist., mfg., sales)
  - Supervised the internal audit function which performed routine site assessments that led to significant compliance improvements (DEA, PDMA, GMP, Ethics, Investigations)
- Performed complex analysis of existing regulations and pending federal legislative bills; recognized resident subject matter expert on DEA regulations
  - Suspicious Order Monitoring
  - Ryan Haight Act – Internet Pharmacies
  - Electronic Prescribing
  - Drug Disposal Initiatives
- Prepared detailed analytical summaries and timely responses to industry-related issues that had a direct impact on the company's business model and profitability
  - Researched and authored position paper that led to the development of the company's controlled substance import strategy
  - Created talking points and presentations utilized in high level quota negotiations and compliance matters with DEA and State agencies
  - Developed and delivered proactive, timely and results-driven training for employees at all levels
  - Collaborated with others in industry to drive favorable policy formation
- Provided guidance and refined the company's regulatory policy through the authoring of several standard operating procedures:
  - Theft/loss reporting, tableting & encapsulating machine transfers, 222 form processing, registration processing, internal audits, quota requests, ARCOS reporting, imports and exports, etc.
- Oversaw and directed quota applications for Schedule II and List I chemicals
  - Supervised the development of spreadsheets to effectively track purchases, quota requests, approvals, sales and forecasts for commercial products
- Successfully completed several product development, scale-up and/or transfer initiatives with no compliance issues
- Represented the organization with federal and state regulatory agencies
  - Liaison for site inspections; responsible for maintaining an excellent rapport with members of DEA Field and HQ Offices as well as peer groups and industry associations

4/1987-6/2002 *Novartis Pharmaceuticals, Inc. 59 Route 10, East Hanover, NJ 07936*

DEA/PDMA Manager (1997–2002)

- Provided a primary contact for the Pharmaceuticals Division with federal agencies such as the Drug Enforcement Administration (DEA) and the Food and Drug Administration (FDA) on all issues concerning the Controlled Substances Act of 1970 and the Prescription Drug Marketing Act (PDMA) of 1988.
- Acted as a consultant to the division for issues associated with these regulations (i.e. quota, ARCOS, import/export, 222 forms, in-transit losses/thefts, returns/disposals, etc.).
- Interpreted and applied existing regulations and reviewed and monitored proposed rulemaking
- Performed internal audits, inventories and investigations of applicable departments at all three sites and external audits of suppliers, contract packagers and fulfillment houses.
- Actively participated in investigations related to potential diversion and/or the performance of sales representatives
- Coordinated DEA or FDA inspections pertinent to these regulations at all three sites
- Supervised development of controlled drug reporting systems such as ARCOS or SOMs (Suspicious Order Monitoring)
- Submitted theft and/or loss reports to DEA/FDA
- Served on various project teams (e.g. Ritalin Batch Record Project Team, Warehouse Integration Team)
- Participated in the creation of print materials for multiple controlled product Education Campaigns (input, review, approval, dissemination)
- Supervised DEA/PDMA Specialist

Compliance Analyst I/II (1992-1997)

- Sole trainer for the Pharma Division in DEA regulations
- Coordinated DEA and State Registrations
- Oversaw, and in some cases conducted yearly controlled substance inventories for three sites
- Submitted various reports to DEA, FDA or State agencies.

Regulatory Analyst (1989-1992)

- Prepared and submitted promotional material to the FDA
- Assured the accurate submission of Drug Listings to FDA for all products
- Maintained the customer complaint database for all products (both medical and technical)
- Worked with various regulatory agencies to resolve import issues

EDUCATION:

- Seton Hall University, South Orange, NJ – Corporate Healthcare Compliance Certificate – 2010
- University of Florida, Gainesville, FL - Masters in Pharmacy (Pharmaceutical Policy & Regulation) - May 2010. Courses focused on brand/generic drug approval, FDA, DEA and State regulations, Risk Evaluation and Mitigation Strategies (REMS), DDMAC/promotion and advertising, Medicare/Medicaid and private insurance, quality of care initiatives, comparative effectiveness testing and case law supporting each. GPA: 4.0
- Muhlenberg College, Easton, PA - B.A., Business Administration, with honors – 2001. GPA: 3.8
- Previously held ASQ Certified Quality Auditor (CQA) & AQP Certified Facilitator Certificates

ASSOCIATIONS:

NADDI Member, Member of the NASCSA 2009 Resolutions Committee, Previous Consultant NASCSA State Profile Project, Midwest Discussion Group Member, N.J. Pharmaceutical Industry Working Group, Anti-Diversion Industry Working Group (Red Flags Video/NABP)

Section 2: ONLY COMPLETE THIS SECTION IF THE COMPANY IS WHOLESALING [a]Medical Products (medical devices, equipment, supplies and gases). Are any of the owners a health professional (i.e. Practitioner as defined by NRS 639.0125, Advanced Practice Registered Nurse, Physician's Assistant, Physical Therapist, Occupational Therapist, Registered Nurse, Respiratory Therapist, etc.)? If yes, please provide the name of the owner, their credentials and their percent ownership. (NAC 639.6943, NAC 693.6933)

Name: _____ Credentials: _____ %: _____

Name: _____ Credentials: _____ %: _____

Name: _____ Credentials: _____ %: _____

Name: _____ Credentials: _____ %: _____

Name: _____ Credentials: _____ %: _____

1. The Board will not issue a license to conduct business as a medical products provider or medical products wholesaler to:
   a) A practicing health professional; or
   b) A partnership, corporation or association in which a practicing health professional has a controlling interest or in which ownership of 10 percent or more of the available stock is held by one or more practicing health professionals.
2. As used in this section, "practicing health professional" means a health professional who performs services within the scope of his or her licensure or registration in any capacity in a health care facility other than the facility of the medical products provider or medical products wholesaler.

Section 3: History of Company	Yes	No
1. Has the corporation, any owner(s), shareholder(s) or partner(s) with at least 10% interest or partners with any interest, ever been charged, or convicted of a felony or gross misdemeanor (including by way of a guilty plea or no contest plea)?		x
2. Has the corporation, any owner(s), shareholder(s) or partner(s) with at least 10% interest or partners with any interest, ever been denied a license, permit or certificate of registration?		x
3. Has the corporation, any owner(s), shareholder(s) or partner(s) with at least 10% interest or partners with any interest, ever been subject of an administrative action or proceeding relating to the pharmaceutical industry?		x
4. Has the corporation, any owner(s), shareholder(s) or partner(s) with at least 10% interest or partners with any interest, ever been found guilty, pled guilty or entered a plea of nolo contendere to any offense federal or state, related to controlled substances?		x

eDRLS - Electronic Drug Registration & Listing System

Current Date: 02-DEC-2024
Labeler DUNS: 097816566
Labeler Name: Nuvalent, Inc.
Labeler Code Assigned: 85001

The Food and Drug Administration (FDA) has assigned the above Labeler Code to your firm. **The number cannot be used until you have confirmed the assignment. Please revise and resubmit your Labeler Code Request SPL to include the assigned number above to complete the process. To do this, open the previous Labeler Code Request SPL file and fill in the new information (your assigned Labeler Code) without changing the other existing information. Fill in a new root id and new version number with the original set id and the appropriate effective time.**
For CDER Direct Users: Open the previously submitted and accepted Labeler Code Request, click Create New Version, enter the Labeler Code assigned in the field for "Labeler Code", and Submit SPL.

This Labeler Code should be used to create the NDC (National Drug Code) assigned to all drugs you manufacture or distribute for U.S. commercial distribution. The assignment of NDC is extensively discussed in Title 21 of Code of Federal Regulations (CFR) 207.35. The NDC for each drug must be submitted as part of drug listing information submitted to FDA. Per 21 CFR Part 207, owners or operators of an establishment entering into the manufacture or processing of a drug or drugs shall drug list, every drug in commercial distribution within 5 days after the beginning of operation. Labeler Codes are assigned by FDA and may be inactivated at any time upon violation of the Federal Food, Drug and Cosmetic Act.

Note that receipt of this letter is not to be construed as Federal Government endorsement or approval of the establishment or its products.

For additional information please visit Drug Registration and Listing System or reply back to this email (edrls@fda.hhs.gov).

Nuvalent

DESCRIPTION OF OPERATIONS

Nuvalent, Inc. ("Nuvalent") is a Massachusetts based clinical-stage biopharmaceutical company focused on creating precisely targeted therapies for patients with cancer.
Nuvalent is a 100% wholly owned subsidiary of GlaxoSmithKline LLC.

Nuvalent Inc.'s products are manufactured by a Contract Manufacturer and will be distributed to Specialty Distributors, Specialty Pharmacies and Physicians' Offices by their Third-Party Logistics Provider, Integrated Commercialization Services, who is licensed to ship pharmaceutical products into your state.

CONTRACT MANUFACTURERS

We are using the following to produce our product:

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. 2369842

Application/License No. WH03870

Nuvalent, Inc. (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is One Broadway, 14th Floor, Cambridge, MA 02142 (Address of Applicant/Principal), as PRINCIPAL, and Swiss Re Corporate Solutions America Insurance Corporation (Surety Company), a corporation organized under the laws of the state of Missouri (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is 1200 Main Street, Suite 800, Kansas City, MO 64105-2478 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of TWENTY-FIVE THOUSAND DOLLARS ($25,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on July 22, 2026 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statue (NRS) 639.515 and Nevada Administrative Code (NAC) 639.5937 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $25,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and NAC 639.5937 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515 and NAC 639.5937. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 22nd day of July, 20 26.

BENJAMIN STEPHEN LANE

SUMMARY

Technical Operations functional lead with 17 years' experience in the pharmaceutical industry building teams to deliver on accelerated timelines

EXPERIENCE

NUVALENT, INC. — CAMBRIDGE, MA
One Broadway, 14th Floor 857-357-7000

Chief Technical Operations Officer — *2026-Present*
SVP, Technical Operations — 2022 – 2026
VP, Pharmaceutical Development — 2020 - 2022

- Oversight of Quality, CMC, and Supply Chain operations
- Member of the corporate leadership team

AGIOS PHARMACEUTICALS — CAMBRIDGE, MA
88 Sidney St 617-649-8600

Senior Director, Process Chemistry — 2014 – 2020

- Process Chemistry Department head overseeing a team of 9 people responsible for supporting everything from late-stage discovery to commercial manufacturing
  - Responsible for drug substance related activities including: salt form and/or polymorph selection, synthetic route selection/development, manufacturing, chemical engineering support, process validation, as well as regulatory strategy/dossier authoring
  - Augment outsourced research and manufacturing with internal research lab focused on preventing and solving scale-up and manufacturing challenges
- Supported taking 4 NCEs into clinical development in 4 years in addition to the commercialization of Tibsovo
- Mitapivat (i.e. AG-348, a Phase 3 program focused on treating anemia) Technical Operations asset-lead
  - Acting interface between Technical Operations and the Program Team ensuring that drug availability is not rate limiting and enabling on time NDA filing
  - Set the development strategy, timeline, and budget for all CMC related Mitapivat activities including drug substance, drug product, and analytical development
- Relationship manager for drug substance CROs and CMOs; conducting regular business review meetings to maximize productivity and quality
- Lead a collaboration with Legal to set IP strategies and gain freedom to operate

INFINITY PHARMACEUTICALS — CAMBRIDGE, MA
(No longer in Business)

Associate Director, Process Chemistry — 2009 – 2014

- Served as the drug substance lead for Infinity's flagship IPI-145 Phase III program, which became Duvelisib
- Lead a strong relationship with Regulatory CMC to support filings

  - Wrote drug substance sections for IND/IMPD filings for multiple clinical trials inside and outside oncology and prepared annual update reports
  - Drafted briefing packages for CMC focused FDA meetings
- Took an in licensed preclinical program from assimilation into our organization through an initial 6 kg GMP drug substance production in 5 months
  - Strategically set GMP starting material designation that was both accepted by regulatory agencies and accelerated pre-IND drug substance development
  - Refined drug substance isolation to deliver the desired polymorph, which was extended to a patent
- Developed a novel process that eliminated racemization, which was a bottleneck for manufacturing; shortened the production time from 4 weeks to 1.5 weeks for this step and increased the yield by 25%
- Discovered an alternative intermediate isolation that improved the diastereoselectivity in next step of a semisynthetic drug substance synthesis; increased production to support demanding clinical trial

BIOGEN IDEC CAMBRIDGE, MA
225 Binney Street 781-464-2000

Scientist II, Process Chemistry 2005 – 2009

- Lab Based process chemist responsible for early-phase process development and program transition into clinical development
- Designed synthesis that eliminated the need for a chiral prep-HPLC separation and produced a 15 kg cGMP batch to support initiation of Phase I studies within a year
- Developed new reduction conditions that shortened the synthesis of a regulatory starting material from 5 steps to 1, which also alleviated supply chain strain
- Developed a drug substance polymorph control strategy that was extended into a patent that prolonged IP coverage.
- Developed a new SNAr reaction without protecting groups that expanded our process IP space and, with other improvements, tripled the overall yield
- Set up Kilo-Lab with up to 50 L jacketed reactor systems and full data logging capabilities; made the first kilo-scale batches in internal lab
- Within 1 year, took an in-licensed program to 50 kg scale with improved process by:
  - Transferring technology from historical CMO to internal labs
  - Demonstrated improvements across 3 different steps that previously limited scale to 5 kg batches
  - Led transfer of improved process to a new CMO, which was eventually scaled to >100 kg per batch
- Identified impurities via independent synthesis based on mechanistic understanding and mass spec data; this was ahead of plan to isolate impurities by prep-HPLC

EDUCATION

TEXAS A&M UNIVERSITY COLLEGE STATION, TX
PH.D. CHEMISTRY 1997-2003
Advisor: Kevin Burgess
Dissertation: Metal Catalyzed Epoxidation Reactions with Hydrogen Peroxide

STOCKTON UNIVERSITY POMONA, NJ
B.S. CHEMISTRY 1994-1997

LACY TOWNSHIP HIGH SCHOOL LANOKA HARBOR, NJ
HIGH SCHOOL DIPLOMA 1989-1993

Section 8: Arrests, Detentions, Litigations, Arbitrations.	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		x
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		x
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)		x
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		x
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?		x
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		x
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		x
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		x
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		x

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

This is in response to Question # N/A . **Provide all the following *where applicable*:**

Nuvalent, Inc.,

that I (initial that you have read and meet the following requirements) (NAC 639.5005, NAC 639.5935):

1. ____ I am at least 21 years of age;
3. ____ I have been employed for at least 6,000 hours in a pharmacy or with a wholesaler in a capacity related to the dispensing and distribution of, and recordkeeping related to, prescription drugs.
4. ____ I will be actively involved in and aware of the actual daily operations of the pharmacy or wholesaler;
5. ____ I will be employed full-time in a managerial level position with the pharmacy or wholesaler;
6. ____ I will be physically present at site of the pharmacy or at the facility of the wholesaler during regular business hours, except when the absence of the representative is authorized, including sick leaves, vacation leaves and other authorized absences; and
7. ____ I will serve in this representative capacity for only one pharmacy or wholesaler at a time.

Section 8: NABP Accreditation/FDA Registration	Yes	No
Is your company Drug Distributor or VAWD Accredited by NABP? If yes, provide:		✓
1. Copy of Certification 2. Copy of a bond in an amount of $25,000 made payable to the state of Nevada. This must be current to maintain a Nevada wholesaler registration. Complete the **Surety Bond form** at http://bop.nv.gov/Services/newapps/Business/.		
Is your company licensed as a Manufacturer by the FDA? If yes, provide:	✓	
1. Copy of FDA registration 2. Copy of a bond in an amount of $25,000 made payable to the state of Nevada. This must be current to maintain a Nevada wholesaler registration. Complete the **Surety Bond form** at http://bop.nv.gov/Services/newapps/Business/.		

Section 9: Provide the following documents with your application based on your Business Type. Required documents are indicated by an "✓" on the right.	Publicly Traded	Non-publicly Traded	Partner-ship	Sole Owner
• **List of all Officers and Directors.**	✓	✓		
• **List the top four corporation shareholders and their percent ownership.**	✓			
• **List of all corporation shareholders and their percent ownership.**		✓		
• **List of all partners and their percent ownership.**			✓	
• **Certificate of Corporate Status or Certificate of Good Standing** obtained from the Secretary of State's Office in the State where the business is domiciled, dated within the last **12 months**.	✓	✓	✓	✓
• **Designated Representative form** must be completed by the Designated Representative. Access form at http://bop.nv.gov/Services/newapps/Business/		✓	✓	✓
• **Personal History Record Application** must be completed by each shareholder/stockholder/partner/owner owning more than 10% of the business stocks/shares. Access form at http://bop.nv.gov/Services/newapps/Business/ N/A		✓	✓	✓
• **Copy of DEA certificate if handling controlled substances** N/A	✓	✓	✓	✓
• **Copy of current SEC 10K or 8K** (First 15 pages only)	✓			
• **List containing each employee, agent, independent contractor, consultant, guardian, personal representative, lender or holder of indebtedness of the applicant.**	✓	✓	✓	✓
• **Copy of your license, certification, permit or registration issued to your wholesaler business** from the regulatory board or licensing authority of the state or territory in which the wholesaler is located. **(REQUIRED FOR OUT-OF-STATE WHOLESALERS, if applicable)**	✓	✓	✓	✓
• [a]**Medical Devices, Equipment and Gases (MDEG) Administrator form** must be completed if the business will wholesale medical devices, equipment, supplies, gases, including hypodermic devices. (NAC 639.6957). Access form at https://bop.nv.gov/Services/newapps/Business/	✓	✓	✓	✓
• **If providing [a]Medical Devices, Equipment and Gases (MDEG), supply a copy of proof of insurance (NAC 639.6957).** The MDEG wholesaler shall maintain liability insurance of at least one million dollars ($1,000,000.00).	✓	✓	✓	✓

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. 015228782

Application/License No. _____

ORTHO ORGANIZERS, INC. (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 800 King George Blvd., Suite 100 Savannah, GA 31419 (Address of Applicant/Principal), as PRINCIPAL, and LIBERTY MUTUAL INSURANCE COMPANY (Surety Company), a corporation organized under the laws of the state of MA (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is 175 Berkeley Street Boston, MA 02116 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of TWENTY-FIVE THOUSAND DOLLARS ($25,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on September 30, 2025 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statue (NRS) 639.515 and Nevada Administrative Code (NAC) 639.5937 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $25,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and NAC 639.5937 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515 and NAC 639.5937. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 30th day of September, 20 25.

Teresa Pastella, Notary Public

This Power of Attorney is made and executed pursuant to and by authority of the following By-laws and Authorizations of The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company which resolutions are now in full force and effect reading as follows:

ARTICLE IV – OFFICERS: Section 12. Power of Attorney.
Any officer or other official of the Corporation authorized for that purpose in writing by the Chairman or the President, and subject to such limitation as the Chairman or the President may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Corporation to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact, subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Corporation by their signature and execution of any such instruments and to attach thereto the seal of the Corporation. When so executed, such instruments shall be as binding as if signed by the President and attested to by the Secretary. Any power or authority granted to any representative or attorney-in-fact under the provisions of this article may be revoked at any time by the Board, the Chairman, the President or by the officer or officers granting such power or authority.

ARTICLE XIII – Execution of Contracts: Section 5. Surety Bonds and Undertakings.
Any officer of the Company authorized for that purpose in writing by the chairman or the president, and subject to such limitations as the chairman or the president may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Company by their signature and execution of any such instruments and to attach thereto the seal of the Company. When so executed such instruments shall be as binding as if signed by the president and attested by the secretary.

Certificate of Designation – The President of the Company, acting pursuant to the Bylaws of the Company, authorizes Nathan J. Zangerle, Assistant Secretary to appoint such attorneys-in-fact as may be necessary to act on behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations.

Authorization – By unanimous consent of the Company's Board of Directors, the Company consents that facsimile or mechanically reproduced signature of any assistant secretary of the Company, wherever appearing upon a certified copy of any power of attorney issued by the Company in connection with surety bonds, shall be valid and binding upon the Company with the same force and effect as though manually affixed.

I, Renee C. Llewellyn, the undersigned, Assistant Secretary, The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company do hereby certify that the original power of attorney of which the foregoing is a full, true and correct copy of the Power of Attorney executed by said Companies, is in full force and effect and has not been revoked.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the seals of said Companies this 30th day of September, 2025.

SWISS RE CORPORATE SOLUTIONS

SWISS RE CORPORATE SOLUTIONS AMERICA INSURANCE CORPORATION ("SRCSAIC")
SWISS RE CORPORATE SOLUTIONS PREMIER INSURANCE CORPORATION ("SRCSPIC")

GENERAL POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS, THAT SRCSAIC, a corporation duly organized and existing under laws of the State of Missouri, and having its principal office in the City of Kansas City, Missouri, and SRCSPIC, a corporation organized and existing under the laws of the State of Missouri and having its principal office in the City of Kansas City, Missouri, each does hereby make, constitute, and appoint:

DONNA M. CHIANCONE, TRAVIS W. SHAFFER, LORI N. BAYBUTT, KATHLEEN A. PETERSEN,

and LAURA A. RICKETT

JOINTLY OR SEVERALLY

Its true and lawful Attorney(s)-in-Fact to make, execute, seal and deliver, for and on its behalf and as its act and deed, bonds, consents of surety, or other writings obligatory in the nature of a bond on behalf of each of said Companies, as surety, on contracts of suretyship as are or may be required or permitted by law, regulation, contract or otherwise, provided that no bond or undertaking or contract or suretyship executed under this authority shall exceed the amount of:

TWO HUNDRED MILLION ($200,000,000.00) DOLLARS

This Power of Attorney is granted and is signed by facsimile under and by the authority of the following Resolutions adopted by the Boards of Directors of both SRCSAIC and SRCSPIC at meetings duly called and held on the 18th of November 2021:

"RESOLVED, that any two of the President, any Managing Director, any Senior Vice President, any Vice President, the Secretary or any Assistant Secretary be, and each or any of them hereby is, authorized to execute a Power of Attorney qualifying the attorney named in the given Power of Attorney to execute on behalf of the Corporation bonds, undertakings and all contracts of surety, and that each or any of them hereby is authorized to attest to the execution of any such Power of Attorney and to attach therein the seal of the Corporation; and it is

FURTHER RESOLVED, that the signature of such officers and the seal of the Corporation may be affixed to any such Power of Attorney or to any certificate relating thereto by facsimile, and any such Power of Attorney or certificate bearing such facsimile signatures or facsimile seal shall be binding upon the Corporation when so affixed and in the future with regard to any bond, undertaking or contract of surety to which it is attached."

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. 2341217

Application/License No. _____

Pangea Pharmaceuticals, LLC (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 201 Union Lane Suite B, Brielle, NJ 08730 (Address of Applicant/Principal), as PRINCIPAL, and Swiss Re Corporate Solutions America Insurance Corporation (Surety Company), a corporation organized under the laws of the state of Missouri (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is 1200 Main Street, Suite 800, Kansas City, MO 64105-2478 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of ONE HUNDRED THOUSAND DOLLARS ($100,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on March 15, 2024 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statutes (NRS) 639.515 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $100,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS
639.515. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 15th day of March, 2024.

SWISS RE CORPORATE SOLUTIONS

SWISS RE CORPORATE SOLUTIONS AMERICA INSURANCE CORPORATION ("SRCSAIC")
SWISS RE CORPORATE SOLUTIONS PREMIER INSURANCE CORPORATION ("SRCSPIC")

GENERAL POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS, THAT SRCSAIC, a corporation duly organized and existing under laws of the State of Missouri, and having its principal office in the City of Kansas City, Missouri, and SRCSPIC, a corporation organized and existing under the laws of the State of Missouri and having its principal office in the City of Kansas City, Missouri, each does hereby make, constitute, and appoint:

DONNA M. CHIANCONE, TRAVIS W. SHAFFER, LORI N. BAYBUTT, KATHLEEN A. PETERSEN, and LAURA A. RICKETT

JOINTLY OR SEVERALLY

Its true and lawful Attorney(s)-in-Fact, to make, execute, seal and deliver, for and on its behalf and as its act and deed, bonds or other writings obligatory in the nature of a bond on behalf of each of said Companies, as surety, on contracts of suretyship as are or may be required or permitted by law, regulation, contract or otherwise, provided that no bond or undertaking or contract or suretyship executed under this authority shall exceed the amount of:

TWO HUNDRED MILLION ($200,000,000.00) DOLLARS

This Power of Attorney is granted and is signed by facsimile under and by the authority of the following Resolutions adopted by the Boards of Directors of both SRCSAIC and SRCSPIC at meetings duly called and held on the 9th of May 2012:

"RESOLVED, that any two of the President, any Managing Director, any Senior Vice President, any Vice President, the Secretary or any Assistant Secretary be, and each or any of them hereby is, authorized to execute a Power of Attorney qualifying the attorney named in the given Power of Attorney to execute on behalf of the Corporation bonds, undertakings and all contracts of surety, and that each or any of them hereby is authorized to attest to the execution of any such Power of Attorney and to attach therein the seal of the Corporation; and it is

FURTHER RESOLVED, that the signature of such officers and the seal of the Corporation may be affixed to any such Power of Attorney or to any certificate relating thereto by facsimile, and any such Power of Attorney or certificate bearing such facsimile signatures or facsimile seal shall be binding upon the Corporation when so affixed and in the future with regard to any bond, undertaking or contract of surety to which it is attached."

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. ACC021001292

Application/License No. _____

SteriMax USA Inc., doing or intending to do business as a
(Applicant/Principal)
pharmaceutical wholesaler, whose address for purposes of service is
1136 US Highway 22, Mountainside, NJ 07092, as
(Address of Applicant/Principal)
PRINCIPAL, and Allegheny Casualty Company, a
(Surety Company)
corporation organized under the laws of the state of New Jersey
(State of Incorporation)
and authorized to transact a general surety business in the State of

Nevada, whose address for purposes of service is
One Newark Center, 20th Floor, Newark, NJ 07102 as
(Address of Surety)
SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of TWENTY-FIVE THOUSAND DOLLARS ($25,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on June 9, 2026.
(Effective Date)

WHEREAS, the provisions of Nevada Revised Statue (NRS) 639.515 and Nevada Administrative Code (NAC) 639.5937 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $25,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and NAC 639.5937 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515 and NAC 639.5937. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 9th day of June, 2026.

BIOMÉRIEUX	bioMérieux Salt Lake City Campus Locations

For the BioFire Product Line (BPL) and bioMérieux Salt Lake City QMS, the table below details business boundaries and registered activities for each location.

Campus*	Building Address	Registered Activities
Salt Lake City Sites Facility ID Number: F000086	515 Colorow Drive Salt Lake City, UT 84108	Design and Manufacture of PCR Systems for the Detection of Pathogens, Administration
	1001 South 4800 West Salt Lake City, UT 84104	Reagent Production
	1201 South 4800 West Salt Lake City, UT 84104	Administration, Final Product QC, Template Control Manufacturing
	1590 S 5200 West Salt Lake City, UT 84104	Distribution Warehouse
	415 Bearcat Drive Salt Lake City, UT 84115	Service

*bsi definition of ***Campus*** under MDSAP are as follows (06.03.2020):

Campus: Either

- A group of facilities within a maximum range of one kilometer, or
- A group of geographically close facilities (within 60-minute drive), if not more than one of these facilities would require a facility-specific Regulatory Authority-issued certificate (such as the issuance of a GMP Certificate (ANVISA) or a Registration Certificate (PMDA)). In either case, the facilities in the group shall be operated by the medical device organization under a single QMS. The management for, and the activities within, the group of facilities must correlate to the realization of the finished medical devices included in the scope of certification.

Additional Notes:

- A group of buildings sharing the same street address (same street and number) is seen as a single facility and not as a campus.
- A campus may include multiple facilities with Regulatory Authority-issued facility identifier (e.g. FEI issued by the FDA).

BioFire Diagnostics
Nevada State Board of Pharmacy

KNOW ALL MEN BY THESE PRESENTS, that ATLANTIC SPECIALTY INSURANCE COMPANY, a New York corporation with its principal office in Plymouth, Minnesota, does hereby constitute and appoint: **Doritza Mojica**, each individually if there be more than one named, its true and lawful Attorney-in-Fact, to make, execute, seal and deliver, for and on its behalf as surety, any and all bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof; provided that no bond or undertaking executed under this authority shall exceed in amount the sum of: **unlimited** and the execution of such bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof in pursuance of these presents, shall be as binding upon said Company as if they had been fully signed by an authorized officer of the Company and sealed with the Company seal. This Power of Attorney is made and executed by authority of the following resolutions adopted by the Board of Directors of ATLANTIC SPECIALTY INSURANCE COMPANY on the twenty-fifth day of September, 2012:

Resolved: That the President, any Senior Vice President or Vice-President (each an "Authorized Officer") may execute for and in behalf of the Company any and all bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof, and affix the seal of the Company thereto; and that the Authorized Officer may appoint and authorize an Attorney-in-Fact to execute on behalf of the Company any and all such instruments and to affix the Company seal thereto; and that the Authorized Officer may at any time remove any such Attorney-in-Fact and revoke all power and authority given to any such Attorney-in-Fact.

Resolved: That the Attorney-in-Fact may be given full power and authority to execute for and in the name and on behalf of the Company any and all bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof, and any such instrument executed by any such Attorney-in-Fact shall be as binding upon the Company as if signed and sealed by an Authorized Officer and, further, the Attorney-in-Fact is hereby authorized to verify any affidavit required to be attached to bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof.

This power of attorney is signed and sealed by facsimile under the authority of the following Resolution adopted by the Board of Directors of ATLANTIC SPECIALTY INSURANCE COMPANY on the twenty-fifth day of September, 2012:

Resolved: That the signature of an Authorized Officer, the signature of the Secretary or the Assistant Secretary, and the Company seal may be affixed by facsimile to any power of attorney or to any certificate relating thereto appointing an Attorney-in-Fact for purposes only of executing and sealing any bond, undertaking, recognizance or other written obligation in the nature thereof, and any such signature and seal where so used, being hereby adopted by the Company as the original signature of such officer and the original seal of the Company, to be valid and binding upon the Company with the same force and effect as though manually affixed.

IN WITNESS WHEREOF, ATLANTIC SPECIALTY INSURANCE COMPANY has caused these presents to be signed by an Authorized Officer and the seal of the Company to be affixed this first day of January, 2023.

RE: **April – New Bonds (8)**
April – Riders (8)
Commission: 32.5%

We are pleased to enclose the above referenced bond you requested. This bond was executed based upon the information you provided. We urge you to check all of the information enclosed, including the Power of Attorney, signatures, dates, amounts, description, bond form and any other attachments.

Please be sure to affix the bond with the proper signature and seal.

If a premium is charged, our invoice will follow under separate cover and premium payment for this bond is due upon receipt. **Please note that the first term's premium related to any renewable obligation is considered fully earned.**

Willis Towers Watson negotiates commission rates with certain insurers on a corporate level. If the rate on your placement is lower than the negotiated rate, Willis Towers Watson may collect the difference directly from the insurer. These payments will not increase the cost of your bonds or otherwise impact your premium or rates. Details of these arrangements where there is compensation beyond the base compensation detailed in your commission schedule can be found at: https://www.wtwco.com/en-us/notices/p-c-national-commission-rates.

Thank you for the opportunity to service your surety needs. Should you have any questions, please do not hesitate to contact me.

Sincerely,

Rhi Portillo

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. 800227420

Application/License No. _____

BioFire Diagnostics (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 1001 South 4800 West, Salt Lake City, UT 84104 (Address of Applicant/Principal), as PRINCIPAL, and Atlantic Specialty Insurance Company (Surety Company), a corporation organized under the laws of the state of NY (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is 605 Highway 169 North, Suite 800 , Plymouth, MN 55441 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of ONE HUNDRED THOUSAND DOLLARS ($100,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on April 15, 2026 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statutes (NRS) 639.515 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $100,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

Posted February 20, 2020

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS
639.515. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 15th day of April, 2026.

Attachment A

Nature of Business and FDA Registration

GC Biopharma USA, Inc. will operate as a virtual drug manufacturer and will only distribute products bearing the labeler code for its parent company, GC Biopharma Corp. GC Biopharma USA, Inc. appears on the product label as the entity "distributed by." Because it will exclusively distribute prescription drugs manufactured by a single manufacturer, GC Biopharma USA, Inc. is exempt from submitting fingerprint cards and qualifies for the $25,000 surety bond / means of security under Nevada law, pursuant to NAC 639.593(6)(e). The company will not handle prescription drugs at its business office. A facility owned and operated by the parent company will be used to manufacture the product and third party will be used to distribute. Provided below is the contact information for the manufacturing facility and the third party logistics provider that will be used to ship the product. Enclosed is proof of the parent company's FDA labeler code and a copy of the product label.

Manufacturing Facility:

GC Biopharma Corp.
586, Gwahaksaneop 2-ro, Ochang-eup, Cheongwon-gu, Cheongju, Chungcheongbuk-do 28119, Korea, South (KOR)
FDA Establishment #: 3009561235

Third Party Logistics Provider:

Integrated Commercialization Services, LLC
420 International Drive, Suite 500
Brooks, KY 40109

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. 101075153

Application/License No. _____

GC BIOPHARMA USA, INC. (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 500 FRANK W BURR BLVD SUITE 230 48 TEANECK, NJ, 07666 (Address of Applicant/Principal), as PRINCIPAL, and U.S. SPECIALTY INSURANCE COMPANY (Surety Company), a corporation organized under the laws of the state of Texas (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is 801 S. Figueroa Street, Suite 700, Los Angeles, CA 90017 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of TWENTY-FIVE THOUSAND DOLLARS ($25,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on 6/3/2026 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statue (NRS) 639.515 and Nevada Administrative Code (NAC) 639.5937 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $25,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and NAC 639.5937 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515 and NAC 639.5937. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 3rd day of June, 2026.

POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS:

That, U.S. SPECIALTY INSURANCE COMPANY (the "Company"), a corporation duly organized and existing under the laws of the State of Texas, and having its principal office in Houston, Harris County, Texas, does by these presents make, constitute and appoint,

LAWRENCE F. MCMAHON

its true and lawful Attorney-in-Fact, with full power and authority hereby conferred in its name, place and stead, to execute, acknowledge and deliver any and all bonds, recognizances, undertakings or other instruments or contracts of suretyship to include riders, amendments, and consents of surety regarding bond number 101075153, providing the bond penalty does not exceed Twenty-five thousand and 00/100 Dollars ($25,000.00). Said appointment is made under and by authority of the following resolutions of the Board of Directors of U. S. Specialty Insurance Company:

"Be it Resolved, that the President, any Vice-President, any Assistant Vice-President, any Secretary or any Assistant Secretary shall be and is hereby vested with full power and authority to appoint any one or more suitable persons as Attorney(s)-in-Fact to represent and act for and on behalf of the Company subject to the following provisions:

Attorney-in-Fact may be given full power and authority for and in the name of and on behalf of the Company, to execute, acknowledge and deliver, any and all bonds, recognizances, contracts, agreements or indemnity and other conditional or obligatory undertakings, including any and all consents for the release of retained percentages and/or final estimates on engineering and construction contracts, and any and all notices and documents canceling or terminating the Company's liability thereunder, and any such instruments so executed by any such Attorney-in-Fact shall be binding upon the Company as if signed by the President and sealed and effected by the Corporate Secretary.

Be it Resolved, that the signature of any authorized officer and seal of the Company heretofore or hereafter affixed to any power of attorney or any certificate relating thereto by facsimile, and any power of attorney or certificate bearing facsimile signature or facsimile seal shall be valid and binding upon the Company with respect to any bond or undertaking to which it is attached." Adopted by unanimous written consent in lieu of meeting on September 1st, 2011.

The Attorney-in-Fact named above may be an agent or a broker of the Company. The granting of this Power of Attorney is specific to this bond and does not indicate whether the Attorney-in-Fact is or is not an appointed agent of the Company.

IN WITNESS WHEREOF, U.S. Specialty Insurance Company has caused its seal to be affixed hereto and executed by its Senior Vice President on this 20th day of November, 2024.

Section 9: Statement of Responsibility - MUST BE COMPLETED by an Authorized Person (NAC 639.945)

Statement of Responsibility

1. I am the CEO (title) for AHCS Patient Care Pharmacy (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be responsible for any violations of pharmacy law that may occur in the Pharmacy owned by such owner(s), shareholder(s), member(s), or partner(s).
3. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be named in any action taken by the Nevada State Board of Pharmacy against the Pharmacy.
4. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) cannot require or permit the pharmacist(s) in said Pharmacy to violate any provision of local, state, or federal laws or regulations pertaining to the practice of pharmacy.
5. I further understand and acknowledge that Nevada law requires that each pharmacy located inside the State of Nevada employ only pharmacists, intern pharmacists, pharmaceutical technicians, and technicians in training that are licensed by the Nevada State Board of Pharmacy. (NRS 639.100).
6. I further understand and acknowledge that Nevada law requires that each pharmacy located outside the State of Nevada engaged in providing pharmacy services into Nevada employs at least one pharmacist licensed by the Nevada State Board of Pharmacy who will be responsible for any prescription dispensed to a patient located in Nevada and responsible for any acts or omissions of pharmacy personnel who are not registered with the Board. (NRS 639.2328).

Section 10: Affidavit for Pharmacies- MUST BE COMPLETED by pharmacies NOT CURRENTLY PERFORMING Sterile Compounding

Affidavit for Pharmacy License

I, Michael Zeglinski hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the CEO (title) for AHCS Patient Care Pharmacy (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

Section 11: Managing Pharmacist Acknowledgement, Professional/Personal History – REQUIRED TO BE COMPLETED BY THE MANAGING PHARMACIST FOR NEVADA LOCATED PHARMACY APPLICANTS ONLY

Managing Pharmacist Name: Vy Burns Pharmacist Registration #: 19369

Pharmacy Name: AHCS Well Care, LLC dba AHCS Patient Care Pharmacy

Initial each statement below to indicate you have read and agree with the following:

VB — I understand that as the managing pharmacist I am responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the pharmacy and the practice of pharmacy. I understand my license can be revoked or that I can be subject of disciplinary action if such laws or regulations are knowingly violated in the pharmacy in which I am the managing pharmacist.

VB — I understand within 48 hours after I report for duty as the managing pharmacist, I shall complete an inventory of all controlled substances of the pharmacy pursuant to 21 CFR Part 1304 and maintain a copy of the inventory in the file at the pharmacy.

VB — I understand that if I cease to be managing pharmacist of the above-named pharmacy, I will jointly, with the new managing pharmacist, take an inventory of all controlled substances.

VB — I understand that as the managing pharmacist I must ensure that all loss or theft of controlled substances are reported on forms provided by the Nevada State Board of Pharmacy and Department of Public Safety within 10 days after the date of discovery of theft or loss. NRS 453.568. Federal regulations require that registrants notify the Field Division Office of the Administration in his area, in writing, of the theft or significant loss of any controlled substance, disposal receptacles or listed chemicals within one business day of discovery of such loss or theft. The registrant shall also complete and submit to the Field Division Office in his area, DEA Form 106 regarding the loss or theft (21 C.F.R. §1301.76(b) and 21 U.S.C. §830(b)(1)(C)).

VB — I understand that as the managing pharmacist I must notify the Nevada State Board of Pharmacy of all employment changes of pharmacy staff within 10 days of the change. NAC 639.540

Personal and Professional History	Yes	No

Section 8: Arrests, Detentions, Litigations, Arbitrations.	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		V
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		V
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		V
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)		V
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		V
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?		V
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		V
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		V
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		V
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		V

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

This is in response to Question # _____. Provide all the following *where applicable*:

Section 9: Statement of Responsibility - MUST BE COMPLETED by an Authorized Person (NAC 639.945)

Statement of Responsibility

1. I am the Authorized Person (title) for ER of Southern Highlands (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be responsible for any violations of pharmacy law that may occur in the Pharmacy owned by such owner(s), shareholder(s), member(s), or partner(s).
3. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be named in any action taken by the Nevada State Board of Pharmacy against the Pharmacy.
4. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) cannot require or permit the pharmacist(s) in said Pharmacy to violate any provision of local, state, or federal laws or regulations pertaining to the practice of pharmacy.
5. I further understand and acknowledge that Nevada law requires that each pharmacy located inside the State of Nevada employ only pharmacists, intern pharmacists, pharmaceutical technicians, and technicians in training that are licensed by the Nevada State Board of Pharmacy. (NRS 639.100).
6. I further understand and acknowledge that Nevada law requires that each pharmacy located outside the State of Nevada engaged in providing pharmacy services into Nevada employs at least one pharmacist licensed by the Nevada State Board of Pharmacy who will be responsible for any prescription dispensed to a patient located in Nevada and responsible for any acts or omissions of pharmacy personnel who are not registered with the Board. (NRS 639.2328).

Section 10: Affidavit for Pharmacies- MUST BE COMPLETED by pharmacies NOT CURRENTLY PERFORMING Sterile Compounding

Affidavit for Pharmacy License

I, Cuong Khong hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the Managing Pharmacist (title) for ER of Southern Highlands (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

FURTHER YOUR AFFIANT SAYETH NAUGHT.

Section 11: Managing Pharmacist Acknowledgement, Professional/Personal History – REQUIRED TO BE COMPLETED BY THE MANAGING PHARMACIST FOR NEVADA LOCATED PHARMACY APPLICANTS ONLY

Managing Pharmacist Name: Cuong Khong Pharmacist Registration #: 20743

Pharmacy Name: ER of Southern Highlands

Initial each statement below to indicate you have read and agree with the following:

CK I understand that as the managing pharmacist I am responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the pharmacy and the practice of pharmacy. I understand my license can be revoked or that I can be subject of disciplinary action if such laws or regulations are knowingly violated in the pharmacy in which I am the managing pharmacist.

CK I understand within 48 hours after I report for duty as the managing pharmacist, I shall complete an inventory of all controlled substances of the pharmacy pursuant to 21 CFR Part 1304 and maintain a copy of the inventory in the file at the pharmacy.

CK I understand that if I cease to be managing pharmacist of the above-named pharmacy, I will jointly, with the new managing pharmacist, take an inventory of all controlled substances.

CK I understand that as the managing pharmacist I must ensure that all loss or theft of controlled substances are reported on forms provided by the Nevada State Board of Pharmacy and Department of Public Safety within 10 days after the date of discovery of theft or loss. NRS 453.568. Federal regulations require that registrants notify the Field Division Office of the Administration in his area, in writing, of the theft or significant loss of any controlled substance, disposal receptacles or listed chemicals within one business day of discovery of such loss or theft. The registrant shall also complete and submit to the Field Division Office in his area, DEA Form 106 regarding the loss or theft (21 C.F.R. §1301.76(b) and 21 U.S.C. §830(b)(1)(C)).

CK I understand that as the managing pharmacist I must notify the Nevada State Board of Pharmacy of all employment changes of pharmacy staff within 10 days of the change. NAC 639.540

Personal and Professional History	Yes	No
1. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✓

CERTIFICATE OF INCORPORATION

OF

UNIVERSAL HEALTH SERVICES, INC.

1. The name of the corporation is Universal Health Services, Inc.

2. The address of its registered office in the State of Delaware is No. 100 West Tenth Street, in the City of Wilmington, County of New Castle. The name of its registered agent at such address is The Corporation Trust Company.

3. The nature of the business or purposes to be conducted or promoted is:

To engage in any lawful act or activity for which corporations may be organized under the General Corporation Law of Delaware.

4. The total number of shares of all classes of capital stock which the corporation shall have authority to issue is Three Million (3,000,000), all of which shares shall be shares of Common Stock and the par value of each of such shares is One Cent ($.01) amounting in the aggregate to Thirty Thousand Dollars ($30,000).

5. The name and mailing address of each incorporator is as follows:

NAME	MAILING ADDRESS
Roy B. Simpson, Jr.	Reavis & McGrath 345 Park Avenue New York, New York 10022

6. The corporation is to have perpetual existence.

00002

7. In furtherance and not in limitation of the powers conferred by statute, the board of directors is expressly authorized: To make, alter or repeal the by-laws of the corporation.

8. Meetings of stockholders may be held within or without the State of Delaware, as the by-laws may provide. The books of the corporation may be kept (subject to any provisions contained in the statutes) outside the State of Delaware at such place or places as may be designated from time to time by the board of directors or in the by-laws of the corporation. Elections of directors need not be by written ballot unless the by-laws of the corporation shall so provide.

9. Whenever a compromise or arrangement is proposed between this corporation and its creditors or any class of them and/or between this corporation and its stockholders or any class of them, any court of equitable jurisdiction within the State of Delaware may, on the application in a summary way of this corporation or of any creditors or stockholders thereof or on the application of any receiver or receivers appointed for this corporation under the provisions of Section 291 of Title 8 of the Delaware Code or on the application of trustees in dissolution or of any receiver or receivers appointed for this corporation under the provisions of Section 279 of Title 8 of the Delaware Code order a meeting of the creditors or class of creditors, and/or of the stockholders or class of stockholders of this corporation, as the case may be, to be summoned in such

manner as the said court directs. If a majority in number representing three-fourths in value of the creditors or class of creditors, and/or of the stockholders or class of stockholders of this corporation, as the case may be, agree to any compromise or arrangement and to any reorganization of this corporation as a consequence of such compromise or arrangement, the said compromise or arrangement and the said reorganization shall, if sanctioned by the court to which the said application has been made, be binding on all the creditors or class of creditors, and/or on all the stockholders or class of stockholders, of this corporation, as the case may be, and also on this corporation.

10. The corporation reserves the right to amend, alter, change or repeal any provisions contained in this certificate of incorporation, in the manner now or hereafter prescribed by statute, and all rights conferred upon stockholders herein are granted subject to this reservation.

THE UNDERSIGNED, being the sole incorporator hereinbefore named, for the purpose of forming a corporation pursuant to the General Corporation Law of the State of Delaware, does make this certificate, hereby declaring and certifying that this is his act and deed and the facts herein stated are true, and accordingly has hereunto set his hand this 5th day of January, 1979.

Section 9: Statement of Responsibility - MUST BE COMPLETED by an Authorized Person (NAC 639.945)

Statement of Responsibility

1. I am the Chief Executive Officer (title) for Kaiser Permanente Fifth Street Pharmac (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be responsible for any violations of pharmacy law that may occur in the Pharmacy owned by such owner(s), shareholder(s), member(s), or partner(s).
3. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be named in any action taken by the Nevada State Board of Pharmacy against the Pharmacy.
4. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) cannot require or permit the pharmacist(s) in said Pharmacy to violate any provision of local, state, or federal laws or regulations pertaining to the practice of pharmacy.
5. I further understand and acknowledge that Nevada law requires that each pharmacy located inside the State of Nevada employ only pharmacists, intern pharmacists, pharmaceutical technicians, and technicians in training that are licensed by the Nevada State Board of Pharmacy. (NRS 639.100).
6. I further understand and acknowledge that Nevada law requires that each pharmacy located outside the State of Nevada engaged in providing pharmacy services into Nevada employs at least one pharmacist licensed by the Nevada State Board of Pharmacy who will be responsible for any prescription dispensed to a patient located in Nevada and responsible for any acts or omissions of pharmacy personnel who are not registered with the Board. (NRS 639.2328).

Section 10: Affidavit for Pharmacies- MUST BE COMPLETED by pharmacies NOT CURRENTLY PERFORMING Sterile Compounding

Affidavit for Pharmacy License

I, Patricia Rodriguez hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the Chief Executive Officer (title) for Kaiser Permanente Fifth Street Pharmacy (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

FURTHER YOUR AFFIANT SAYETH NAUGHT.

Section 11: Managing Pharmacist Acknowledgement, Professional/Personal History – REQUIRED TO BE COMPLETED BY THE MANAGING PHARMACIST FOR NEVADA LOCATED PHARMACY APPLICANTS ONLY

Managing Pharmacist Name: Christine Lo Pharmacist Registration #: 24380

Pharmacy Name: Kaiser Permanente Fifth Street Pharmacy

Initial each statement below to indicate you have read and agree with the following:

CL I understand that as the managing pharmacist I am responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the pharmacy and the practice of pharmacy. I understand my license can be revoked or that I can be subject of disciplinary action if such laws or regulations are knowingly violated in the pharmacy in which I am the managing pharmacist.

CL I understand within 48 hours after I report for duty as the managing pharmacist, I shall complete an inventory of all controlled substances of the pharmacy pursuant to 21 CFR Part 1304 and maintain a copy of the inventory in the file at the pharmacy.

CL I understand that if I cease to be managing pharmacist of the above-named pharmacy, I will jointly, with the new managing pharmacist, take an inventory of all controlled substances.

CL I understand that as the managing pharmacist I must ensure that all loss or theft of controlled substances are reported on forms provided by the Nevada State Board of Pharmacy and Department of Public Safety within 10 days after the date of discovery of theft or loss. NRS 453.568. Federal regulations require that registrants notify the Field Division Office of the Administration in his area, in writing, of the theft or significant loss of any controlled substance, disposal receptacles or listed chemicals within one business day of discovery of such loss or theft. The registrant shall also complete and submit to the Field Division Office in his area, DEA Form 106 regarding the loss or theft (21 C.F.R. §1301.76(b) and 21 U.S.C. §830(b)(1)(C)).

CL I understand that as the managing pharmacist I must notify the Nevada State Board of Pharmacy of all employment changes of pharmacy staff within 10 days of the change. NAC 639.540

Personal and Professional History	Yes	No
1. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✔
2. Have you been charged, arrested, or convicted of a felony or misdemeanor in any state?		✔
3. Have you been the subject of a board citation or an administrative action whether completed or pending in any state?		✔
4. Has your license been subjected to any discipline for violation of pharmacy or drug laws in any state?		✔

If you marked YES to any questions above, include the following information and provide a signed statement of explanation. Copies of any documents that identify the circumstance or contain an order, agreement or other disposition is required.

Board Administrative Action:	State:	Date:	Case #:

Criminal Action:	State:	Date:	Case #:	County:	Court:

I certify under penalty of perjury that the information I have provided on this application is accurate, true and complete in all material respects. I understand that making any false representation in this application is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire application and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event this application is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

Section 8: Arrests, Detentions, Litigations, Arbitrations.	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		✔
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		✔
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		✔
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)		✔
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		✔
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?		✔
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✔
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✔
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✔
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✔

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

This is in response to Question # N/A. **Provide all the following *where applicable*:**

2022

IOWA SECRETARY OF STATE
PAUL D. PATE

CERTIFICATE OF EXISTENCE

Issue Date: 5/2/2025

Name: GRX HOLDINGS, LLC (489DLC - 361302)
Date of Formation: 4/2/2008
Duration: PERPETUAL

I, Paul D. Pate, Secretary of State of the State of Iowa, custodian of the records of incorporations, certify the following for the limited liability company named on this certificate:

a. The entity is in existence and duly formed under the laws of Iowa. A certificate of organization has been filed and has taken effect.

b. All fees, taxes and penalties required under the Revised Uniform Limited Liability Company Act and other laws due the Secretary of State have been paid.

c. The most recent biennial report required has been filed with the Secretary of State.

d. The Secretary of State has not administratively dissolved the limited liability company.

e. The Secretary of State has not filed either a statement of dissolution or statement of termination. The records of the Secretary of State do not otherwise reflect that the limited liability company has been dissolved or terminated.

f. A proceeding is not pending under section 489.705

Certificate ID: **CS304109**

Paul D. Pate, Iowa Secretary of State

2023

NEVADA STATE BOARD OF PHARMACY

985 Damonte Ranch Parkway, Suite 206 – Reno, NV 89521 – 775-850-1440

Designated Representative Application

Rev (05/12/2022)

Section 1: Pharmacy/Wholesaler Information

Name of Pharmacy/Wholesaler: Medicap Pharmacy

Pharmacy/Wholesaler License # (if applicable): PH03010

Physical Address: 1900 James St #10-B

City: Coralville State: IA Zip: 52241

Mailing Address (if different from physical address): Same as above

City: State: Zip:

Telephone: 319.354.6006 Website: www.nucara.com

Licensing Company Email: coralville@nucara.com

Section 2: Personal Information

First: Christopher Middle: Last: Petersen

Alias(es, nicknames, name changes, etc.):

Date of Birth: [redacted] SSN or ITIN: [redacted] Sex: ☒ M ☐ F ☐ X

Mailing Address: [redacted]

City: Coralville State: IA Zip: [redacted]

Telephone: [redacted] Email: [redacted]

Are you a citizen of the United States? ☐ Yes ☐ No

Section 3: Military Service (NRS 622.120)	Yes	No
1. Have you ever served on active duty in the Armed Forces of the United States and separated from such service under conditions other than dishonorable? (Mark "Yes" if discharged honorably.)		✓
2. Have you ever been assigned to duty for a minimum of 6 continuous years in the National Guard or a reserve component of the Armed Forces of the United States and separated from such service under conditions other than dishonorable? (Mark "Yes" if discharged honorably.)		✓
3. Have you ever served the Commissioned Corps of the United States Public Health Service or the Commissioned Corps of the National Oceanic and Atmospheric Administration of the United States in the capacity of a commissioned officer while on active duty in defense of the United States and separated from such service under conditions other than dishonorable? (Mark "Yes" if discharged honorably.)		✓

Section 4: Federally Mandated Requirement (NRS 425.520, NRS 639.129)	Yes	No
1. Are you the subject of a court order for the support of a child? (If "yes", answer question 2.)		✓
2. Are you in compliance with the order or the plan approved by the district attorney or other public agency enforcing the order for the repayment of the amount owed pursuant to the order?		✓

Section 5: List your high school and college experience beginning with the most current. (Use a separate piece of paper if additional space is needed.)

Section 8: Arrests, Detentions, Litigations, Arbitrations	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		✔
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		✔
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		✔
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)		✔
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		✔
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?		✔
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✔
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✔
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✔
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✔

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

This is in response to Question # _____. Provide all the following *where applicable*:

Date of Event/Arrest	Disposition Date	State	City	County
Case #		**Governing, licensing, Arresting Presiding Body/Agency/Court**		
Reason/Charge				
Plaintiff/Defendant/Claimant/Respondent			**Lawsuit/Arbitration/Bankruptcy**	
Name of Business/Industry/Entity				

Provide explanation below:

_____ _____

Original Signature (electronic, copies or stamps not accepted) Date

I, Christopher Petersen, certify that as the designated representative for

Medicap Pharmacy,

that I (initial that you have read and meet the following requirements) (NAC 639.5005, NAC 639.5935):

1. CP I am at least 21 years of age;
3. CP I have been employed for at least 6,000 hours in a pharmacy or with a wholesaler in a capacity related to the dispensing and distribution of, and recordkeeping related to, prescription drugs.
4. CP I will be actively involved in and aware of the actual daily operations of the pharmacy or wholesaler;
5. CP I will be employed full-time in a managerial level position with the pharmacy or wholesaler;
6. CP I will be physically present at site of the pharmacy or at the facility of the wholesaler during regular business hours, except when the absence of the representative is authorized, including sick leaves, vacation leaves and other authorized absences; and
7. CP I will serve in this representative capacity for only one pharmacy or wholesaler at a time.

Sterile Compounding Questionnaire

Rev (09/11/2024)

This application cannot be returned by fax or email.
We must have an original signature to process.

Approval of this completed questionnaire is required for an existing pharmacy, new pharmacy and/or out-sourcing facility applicant who wish to engage in preparing, compounding, dispensing, and furnishing sterile compounded products to Nevada patients or consumers.

Please provide a thorough response to the questions below and provide any necessary supporting documents.
-For a new pharmacy or out-sourcing facility applicant, submit this completed form with your application.
-For an existing pharmacy, send the completed form to the address indicated above.

Supervising/Managing Pharmacist Name (NRS 639.220): Christopher Petersen

Supervising/Managing Pharmacist NV Pharmacist Registration #: 24070

Name of Designated Person(s) as defined by revised USP-797 guidelines: Christopher Petersen Miranda Verry Shelby Stender

Email of Designated Person(s): chris.petersen@onerorx.com mirandalv88@gmail.com thisismyworkemailsilly@gmail.com

Telephone of Designated Person(s): 319-354-6006

Section 2: Sterile Compounding Questions (Use a separate piece of paper if additional space is needed.)

1. What risk level sterile compounding will your facility be performing (check all that apply)?

☐ Category 1 ■ Category 2 ☐ Category 3

If you marked **"Category 3"**, you must also complete **section 4.**

2. If compounding Category 2 products is the location performing sterility and endotoxin testing (if required) to obtain extended beyond-use dates? ☐ Yes ■ No

3. If compounding Category 2 products is the location performing aseptically processed CSPs or terminally sterilized CSPs? ■ Aseptic ■ Terminal

4. Is the pharmacy following the new garbing requirements listed in the revised USP-797 guidelines? ■ Yes ☐ No

5. When was the most recent certification for the ISO classified areas? 2/26/26

6. What is the frequency of the recertification for the ISO classified areas? Every 6 months

7. Were there any follow-up items required from the most recent certification report? ☐ Yes ■ No

8. If preparing Category 2 or Category 3 CSPs from non-sterile starting components are the pre-sterilization procedures such as weighing and mixing completed in an ISO Class 8 or better environment? ■ Yes ☐ No

9. If compounding Category 1 CSPs and Category 2 CSPs how often is surface sampling of all classified areas and pass-through chambers conducted? Monthly

10. Will you be performing sterile hazardous drug compounding? Yes ■ No

If you marked "Yes", you must also complete **section 3.**

11. List the sterile compounded products that you will be compounding for Nevada patients or consumers:

12. What laboratory performs your sterility or endotoxin testing?

Name: Pharmetric Laboratory

Address: 7265 Ulmerton Rd

City: Largo State: FL Zip: 33771

Telephone: 727-209-5778

13. What is your procedure for visual inspection of compounded sterile products?

In-process visual inspections are completed by capturing a photo of the volume of the ingredients measured in syringes. Visual inspections are also completed by the pharmacist during post-check with a IV inspection box with a black UV or white LED light to determine the absence or inclusion of particulates.
Final visual inspections are completed prior to dispensing the final product to patients to verify the absence of particulates that may have formed during storage.

14. How often do you perform glove fingertip and medial fill testing?

Every 6 months for compounding technicians.
Every year for pharmacists with direct oversight of compounding technicians.

15. Describe your initial and ongoing training program for all personnel performing sterile compounding:

Initial: didactic training consisting of 20 hours of CE through trchealthcare's Critical Point's Sterile Compounding Training program, reading USP 797 and USP 800, observation and feedback provided by a competent and sterile trained technician, passed gloved fingertip and thumb testing (3 times), passed media fill with gloved fingertip test and surface sample. Passed sample potency and sterility tests processed by Pharmetric Laboratory. Training on sterile equipment. Passed sterile competency quiz.
Ongoing: annual didactic training through Critical Point's Sterile Training program, annually reading USP 797 and USP 800, observation and feedback provided by a competent and sterile trained technician, passed media fill with gloved fingertip test and surface sample (every 6 months). Passed sample potency and sterility tests processed by Pharmetric Laboratory (annually). Training on sterile equipment. Passed sterile competency quiz.

16. Describe the cleaning procedure for your primary and secondary engineering controls, including the frequency of cleaning and the names of cleaning, disinfectant, sporicidal, and/or deactivation and decontamination agents used:

Contec PeridoxRTU (Sterile) - disinfectant, cleaner, sporicidal, deactivation (hazardous), decontamination (hazardous)
Hazardous: daily, weekly, monthly, periodic (applied twice for decontamination and disinfection); Non-Hazardous: Monthly (as sporicidal)
Contec TB1-3300 (Sterile) - disinfectant, cleaner
Hazardous: N/A; Non-Hazardous: daily, weekly
Contec Sterile 70% Isopropanol (IPA) - disinfectant
Hazardous: Following Peridox use; Non-Hazardous: daily, weekly, monthly, periodic
Prosat Sterile Presaturated Wipe - disinfectant
Hazardous: Following Peridox use; Non-Hazardous: daily, weekly, monthly, periodic

Daily Clean: Work surfaces, high-touch areas, floors, PEC interior and items inside: Periodox, sterile IPA
Monthly Clean: All daily clean activities, ceilings, walls, doors, PEC exterior, all surfaces and chairs (including wheels and underside of surfaces), supply bins, and trash receptacles.

17. Who performs the sterile compounding process at your facility?

Certified pharmacy technicians trained for sterile compounding.

18. Who is responsible and accountable for the sterile compounding process at your facility?

Certified pharmacy technicians and pharmacists trained for sterile compounding.

19. If products are shipped/mailed, what shipping conditions are used to ensure product safety/efficacy?

We use an algorithm by KodiaKooler who conducted 3rd party testing on medication storage and external ambient temperature. If a product is stored frozen, we ship on dry ice in an insulated shipping kit using UPS ground shipping. We have data showing UPS is able to deliver anywhere in Iowa within 24 hours. We don't ship sterile products out-of-state.

Section 3: Sterile Hazardous Compounding Questions (Complete this section ONLY if you be performing Sterile Hazardous Compounding.)		
1. What type of primary engineering controls will you be using in your facility? Make: NUAIRE; Model: NU-301-430, Make: NUAIRE; Model: NU-540-400 Make: NUAIRE; Model: NU-201-330		
2. Are you complying with all USP 800 guidelines?	■ Yes	No
3. Have your employees who compound with hazardous drugs signed an acknowledgement that they understand the risks associated with this process?	■ Yes	No
4. Is your BSC or CACI vented 100% to the outside?	■ Yes	No
5. Do you have a negative pressure buffer room at your facility?	■ Yes	No
6. Will you be compounding with antineoplastic HDs or HD API?	■ Yes	No
7. If yes, are the drugs stored in an externally ventilated, negative pressure room?	■ Yes	No
8. Will you be utilizing a closed system transfer device?	Yes	■ No
9. If yes, list the name of the device:		

10. What information is provided to the patient or consumer on the proper handling and disposal of hazardous drugs products/containers?

The following statements are written on the frequently asked questions page of patient advisory leaflets (PAL):
-Refer to your individual state's regulations for drug disposal. Many local law enforcement agencies participate in "take-back" days several times per year. These local events and other local permanent collection programs can be found on the DEA website.
-Written instructions concerning the safe disposal of unused drugs are provided upon patient request.

If applicable:
- It is important to keep this product out of direct contact with pregnant or nursing mothers. (Statement on PAL)
- Do not use if pregnant or breastfeeding. (Auxiliary label)
- Wash your hands before and after taking this medication. (Statement on PAL)
- Wash hands before and after use. (Auxiliary label)
- Wear gloves while handling this medication. (Statement on PAL)
- Wear gloves (Auxiliary label)

- A letter is sent inside the package for products shipped on dry ice titled Patient Disposal and Proper Handling of Dry Ice. "Dry ice is not for consumption. Do not touch dry ice. Do not flush or place dry ice in sink or down a drain. Do not throw dry ice into garbage. Do not attempt to preserve dry ice.
1. Retrieve product/medication and any accompanying paperwork from the insulated shipping kit.
2. Leave open ends of the insulated shipping kit up with Styrofoam lid removed.
3. Place in a low-frequented location, out of reach of children or animals to allow dry ice to sublimate (to pass from solid to vapor-state)
4. After dry ice has finished sublimation dispose of container in garbage.

11. Describe your initial process for training new employees prior to compounding sterile hazardous drugs?

Didactic training consisting of 20 hours of CE through trchealthcare's Critical Point's Sterile Compounding Training program, reading USP 797 and USP 800, observation and feedback provided by a competent and sterile trained technician, passed gloved fingertip and thumb testing (3 times), passed media fill with gloved fingertip test and surface sample. Passed sample potency and sterility tests processed by Pharmetric Laboratory. Training on sterile equipment. Passed sterile competency quiz.

Didactic training: Hazardous drug overview, containment primary and secondary engineering controls, personal protective equipment for hazardous drug handling, hazardous drug work practice: receiving through transport to patients, and decontamination and spill management.

Section 4: Sterile Category 3 Compounding Questions (Complete this section ONLY if you will be performing Category 3 Compounding.)

1. List the specific Category 3 sterile products that your facility compounds:

2. What is the frequency for ongoing garbing, gloved fingertip and thumb sampling, and media fill testing for compounding personnel?

3. Is the pharmacy meeting all of the additional garbing requirements for compounding Category 3 CSPs as defined by the revised USP-797 guidelines? Yes No

4. What is the frequency for completing volumetric active air sampling?

5. What is the frequency for completing surface sampling?		
6. What is the frequency for using sporicidal agents?		
7. Is an endotoxin test performed for all products compounded from one or more nonsterile component?	Yes	No
8. Is the BUD assigned supported by stability data obtained using a stability-indicating analytical method?	Yes	No

I certify under penalty of perjury that the information contained in this form is accurate, true and complete in all material respects. I understand that making any false representation in this form is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire form and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event the form is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

C = Compliant, R = Reminder, D = Deficiency, NA = Not Applicable, NR = Not Reviewed

1	Review of pharmacy environment, inventory control and security measures (basic alarm system and video surveillance system w/retention via P&Ps)	◉C ○D ○NA ○NR ○R 657-6.3, 6.7, 8.5, 8.7, 10.13
2	Review of staff functions, activities, and patient counseling practices	◉C ○D ○NA ○NR ○R 657-3.21, 3.22, 3.23, 3.24, 4.6, 5.17, 5.18, 5.22, 6.14
3	Review of patient information and processes to ensure complete prospective drug utilization review (including auto refill review/update)	◉C ○D ○NA ○NR ○R 657-6.13, 8.21

4	Review of PMP registration and utilization; submission of naloxone/CV dispensing; PMP review prior to CV OTC sale; CV sales authorized only by RPh or Intern; CV sales record contains: 1) Purchaser name/address 2) Name/qty of CV purchased 3) Purchase date 4) RPh/Intern name or ID	◉C ○D ○NA ○NR ○R	657-10.33; 657-37.3(2)
5	Review of Continuous Quality Improvement program and utilization	◉C ○D ○NA ○NR ○R	657-8.26
6	Review of CIII-V accountability measure [options: perpetual inventory, documented audit/reconciliation every 6 months, documented cycle counts covering all CSs every 90 days, other board-approved measure] Documented audit on a quarterly basis - reviewed	◉C ○D ○NA ○NR ○R	657-10.20
7	Registrant stock is disposed of via IA-licensed distributor or in authorized manner; Registrant does not accept CSs back for disposal unless authorized collector	◉C ○D ○NA ○NR ○R	657-10.22(1), 10.23

NOTES

Deficiencies

Reminders

- Annual CS inventory taken within 372 days of previous inventory and includes: 1) All CSs (will-call, PSE, EMS, e-kit, outdated stocks) 2) Collection receptacle liner information, if applicable (657-10.19(1))
  CS audit form should be sufficient as the annual CS inventory if dosage form/strength as applicable (most all APIs) and open/close of business is identified on the form and must include expired CSs as well.

AFFIRMATION

Representative Email :

cpetersen@nucara.com

Note : I (The "Facility Representative" signing below) acknowledge and affirm that the areas of noncompliance identified (if any) in this inspection report will be remedied within 30 calendar days. I further acknowledge and understand that a complaint may be initiated due to any areas of noncompliance identified in this inspection report and the Board may determine that disciplinary action against my license and the facility's license or registration is warranted.

Board of Pharmacy Inspector :

Britney Origer

Facility Representative

Christopher David Petersen

Iowa Board of Pharmacy Disclaimer : During this inspection, not all rules and regulations may have been inspected for compliance. This does not preclude or excuse your compliance with all applicable rules and regulations of the Iowa Board of
Pharmacy

Compounding - Nonsterile / Sterile / HD

Sterile Compounding Inspection Report

License number	1647
Facility name	Nucara Pharmacy #1
Location	1900 James St., Coralville, IA 52241
Prepared by	Britney Origer

in the presence of PIC Chris Petersen

Flagged items

7 flagged

Inspection / Garbing / hand hygiene

Gloved fingertip/thumb sampling is compliant, unless identified below (797-2.2). Identify any element missing or not compliant:

Samples are incubated (inverted) at 30-35C (86-95F) for min. 48 hrs then 20-25C (68-77F) for min. 5 days

CFU counts must be documented per hand

Currently each GFT is done with both bacteria (paddles) and fungal (plates) media for each hand but only one sample is documented with total CFU results, not individual. Samples are also not being incubated at correct temperature per the USP 797 revisions. Plates incubated at 26-30 degrees C for 7 days and paddles incubated at 30-35 degrees C for 72 hours

Inspection / Garbing / hand hygiene

Result of evaluations and corrective actions, if failed (from visual observation or GFT sampling), are documented and documentation is compliant, unless identified below (797-2.2). Identify any element of documentation missing:

For incubation, the starting temperatures for each interval, the dates of incubation, and the results

Results of GFT samples not individually documented; No incubation dates/temps for each interval

Inspection / Media-Fill Testing (MFT)

MFT is compliant, unless identified below (797-2.3). Identify any noncompliance:

At completion of MFT, containers are incubated at 20-25C (68-77F) for 7 days then 30-35C (86-95F) for 7 days

MFT are currently being incubated at 25-35 degrees C for 14 days instead of the two required intervals

Inspection / Media-Fill Testing (MFT)

Results of evaluations and corrective actions, if failed (visible turbidity/visual manifestations of growth within 14 days), are documented and documentation is compliant, unless identified below (797-2.3). Identify element missing:

For incubation, the starting temperatures for each interval, dates of incubation, and results

Inspection / Facility / Equipment / Category 1 or 2 in Cleanroom Suite

The cleanroom suite is compliant, unless identified below (797-4). Identify any noncompliance:

All surfaces in the classified areas are smooth, impervious, free from cracks and crevices, and non-shedding (797-4.3)

Observed what appears to be rust on carts in the sterile buffer room and anteroom which is considered an insanitary condition

Inspection / Facility / Equipment / Certification / recertification

The licensee is compliant in its surface sampling procedures for viable particles, unless identified below (797-6.3). Identify any areas not compliant:

Samples must be inverted, incubated at 30-35°C at least 48 hrs, reviewed for CFU, incubated at 20-25°C at least 5 days, reviewed for CFU (or follow the alternative procedure identified in Box 6-1)

Bacterial and fungal media samples used for SS; Fungal media being incubated at 26-30 C for 7 days instead of 20-25 C. Bacterial media compliant at 30-35 C x 72 hours

Inspection / Records / Labeling / BUDs / Master Formulation Records

Licensee maintains compliant Master Formulation Records for all CSPs compounded for more than 1 patient or for CPSs prepared from nonsterile components, unless identified below (797-11.1). Identify any aspect of the MFR missing:

Type and size of container-closure system(s)

Reviewed phentolamine, papaverine, alprostadil injection (Trimix) MFR - packaging and directions are for a 10 ml vial for multidose use but current process is to fill 5 - 1ml vials per batch to align with USP 797 revision changes.

Inspection

7 flagged

Does this licensee engage in non-sterile compounding activities?	N/A
See other report	
Does this licensee engage in sterile compounding activities?	Yes
The licensee has a designated individual responsible for oversight of compounding activities (797-1.1).	Compliant
Immediate Use / Preparation per approved labeling	
Does the licensee engage in preparation of CSPs for immediate use?	No
Preparation of conventionally manufactured sterile products and docking/activation of proprietary bag/vial systems is compliant, unless identified below (797-1.4). Identify any element that is not compliant (and requires full compliance with USP 797 for Category 1 or Category 2):	Not reviewed
Not used here	
Standard Operating Procedures (SOPs)	
The licensee has compliant SOPs, unless identified below (797). Identify any SOPs missing:	SOPs are compliant
If the licensee engages in compounding of HDs, SOPs are complete, documented, and reviewed at least every 12 months, unless identified below (800). [If no compounding or already reviewed in NS compounding, select N/A] Identify any SOPs that are missing:	Licensee does not engage in HD compounding or HD SOPs have previously been reviewed
Reviewed in the nonsterile inspection report	
HDs	
The licensee engages in sterile compounding of hazardous drugs (if review of HD compounding already complete under non-sterile compounding, may skip).	N/A
See nonsterile HD report	
Training Program	
The licensee has a designated person to oversee personnel training (797-2).	Compliant
The licensee has a written training program which describes the required training, frequency of training, and process for evaluation of performance of individuals (797-2).	Compliant

Training is documented, completed before compounding of CSPs, and repeated every 12 months, unless identified below (797-2.1, 797-19). Identify any element of required training which is missing:

Training program is complete and documented

All compounding personnel have completed written or electronic testing every 12 months (797-2.1).

Compliant

All personnel handling CSPs or entering the compounding area have completed training/demonstrated competency in maintaining the quality of the environment in which they are performing their assigned task (797-2.1).

Compliant

If the licensee has only one person in the compounding operation, the individual has documented that they have obtained training and demonstrated competency (797-2.1).

N/A

Personnel responsible for cleaning/disinfecting are trained when there are changes in cleaning/disinfecting procedures (797-7)

N/A

No recent changes

If the facility compounds with HDs, training is documented, complete and repeated every 12 months, unless identified below (800-9) Identify any elements that are missing:

Not reviewed

previously reviewed with nonsterile HD

Garbing / hand hygiene

2 flagged

All compounding personnel have documented competency for proper hand hygiene and garbing procedures (via visual observation) initially and every 6 months (797-2.2).

Compliant

All compounding personnel have documented competency before compounding CPSs by successful completion of three separate gloved fingertip/thumb samples for both hands (zero CFUs) and every 6 months following media-fill testing (no more than 3 CFU total from both hands) (797-2.2).

Compliant

Gloved fingertip/thumb sampling is compliant, unless identified below (797-2.2). Identify any element missing or not compliant:

Samples are incubated (inverted) at 30-35C (86-95F) for min. 48 hrs then 20-25C (68-77F) for min. 5 days

CFU counts must be documented per hand

Currently each GFT is done with both bacteria (paddles) and fungal (plates) media for each hand but only one sample is documented with total CFU results, not individual. Samples are also not being incubated at correct temperature per the USP 797 revisions. Plates incubated at 26-30 degrees C for 7 days and paddles incubated at 30-35 degrees C for 72 hours

Result of evaluations and corrective actions, if failed (from

For incubation, the starting temperatures for each interval,

visual observation or GFT sampling), are documented and documentation is compliant, unless identified below (797-2.2). Identify any element of documentation missing:

the dates of incubation, and the results

Results of GFT samples not individually documented; No incubation dates/temps for each interval

Individuals at higher risk of contaminating CSPs/compounding environment report conditions (such as rashes, recent tattoos, oozing sores, conjunctivitis, or active respiratory infection) to the designated person and the designated person determines if the individual should be excluded from the compounding area (797-3).

Compliant

Prior to entering the compounding environment, personnel remove any items that are not easily cleanable or that are not necessary for compounding, unless identified below (797-3.1). Identify any requirement which is not compliant:

Entry into compounding area is compliant

Hand hygiene process is compliant, unless identified below (797-3.2). Identify any aspect that is not compliant:

Hand hygiene process is compliant

Hands are sanitized with alcohol-based hand rub before donning sterile gloves (must be donned in classified room or SCA), unless identified below (797-3.2). Identify any noncompliance:

Hand sanitizing is compliant

Garbing requirements are compliant, unless identified below (797-3.3). Identify any noncompliance:

Garbing requirements are compliant

Use of gloves is compliant, unless identified below (797-3.3). Identify any noncompliance:

Use of gloves is compliant

Does the licensee compound with HDs?

N/A

Already assessed with nonsterile HD

Media-Fill Testing (MFT)

2 flagged

All compounding personnel have documented competency before compounding CSPs by successful completion of MFT initially and every 6 months (797-2.3).

Compliant

MFT is compliant, unless identified below (797-2.3). Identify any noncompliance:

At completion of MFT, containers are incubated at 20-25C (68-77F) for 7 days then 30-35C (86-95F) for 7 days

MFT are currently being incubated at 25-35 degrees C for 14 days instead of the two required intervals

Results of evaluations and corrective actions, if failed (visible turbidity/visual manifestations of growth within 14 days), are documented and documentation is compliant, unless identified below (797-2.3). Identify element missing:

For incubation, the starting temperatures for each interval, dates of incubation, and results

Facility / Equipment

2 flagged

SCA or ante-room/buffer room are separated from areas not directly related to compounding (797-4).	Compliant
All CSPs are prepared in an ISO Class 5 or better PEC (797-4.1).	Compliant
Sterile compounding area is a well-lighted and comfortable working environment (797-4.2).	Compliant

Category 1 in SCA

Does the licensee only compound Category 1 CSPs within a SCA?	No

Category 1 or 2 in Cleanroom Suite

1 flagged

Does the licensee compound Category 1 or 2 CPSs within a cleanroom suite?	Yes
The ante-room is compliant, unless identified below (797-4). Identify any items which are not compliant:	The ante-room is compliant
The buffer room is compliant, unless identified below (797-4). Identify any items which are not compliant:	The buffer room is compliant
The cleanroom suite is compliant, unless identified below (797-4). Identify any noncompliance:	All surfaces in the classified areas are smooth, impervious, free from cracks and crevices, and non-shedding (797-4.3)

Observed what appears to be rust on carts in the sterile buffer room and anteroom which is considered an insanitary condition

The cleanroom suite is compliant with placement and movement of materials, unless identified below (797-4.5). Identify any noncompliance:	The cleanroom suite is compliant
The cleanroom suite is compliant with documented requirements, unless identified below (797-4). Identify any noncompliance:	Documented requirements are compliant for the cleanroom suite

Primary engineering control

The PEC is certified ISO Class 5 or better under dynamic operating conditions (797-4.2).	Compliant
If the PEC is used to meet the ACPH minimum in the buffer room, it runs continuously (797-4.2).	Compliant
The PEC is compliant for placement and movement of materials, unless identified below (797-4.5). Identify any items not compliant:	The PEC is compliant

Does the licensee use a laminar airflow system (LAFS) (such as LAFWs, IVLFZs, BSCs)?	Yes
LAFS are located out of traffic patterns and away from room air currents that could disrupt the intended airflow patterns inside the PEC (797-4.2).	Compliant
Does the licensee use a IVFLZ?	No
Does the licensee use a Restricted-access barrier system (RABS) (such as CAI, CACI)?	No
Does the licensee use a Pharmaceutical isolator?	No

HDs

Does licensee compound with HDs? (If already reviewed in non-sterile section, select N/A)	N/A

Certification / recertification

1 flagged

The compounding facilities (PEC, SEC) are certified initially, at least every 6 months, and after any redesign, construction, replacement or relocation of any PEC, under dynamic conditions, and certification includes all required components, unless identified below (797-5). Identify any areas missing:	Certification is complete
The licensee has implemented and documented a corrective action plan in response to any out-of-range results with review of data collected to confirm that the actions taken were effective (797-5).	N/A

None to review from last report

The licensee has developed and implemented a compliant monitoring program for total airborne particles, unless identified below (797-5.1). Identify any noncompliance:	Particle monitoring program is compliant

Per certification company

The licensee has developed and implemented a compliant microbial air and surface monitoring program, unless identified below (797-6.1). Identify any noncompliance:	Microbial air and surface monitoring program is compliant

Active air per certification company

The licensee is compliant in its sampling procedures for viable airborne particles, unless identified below (797-6.2). Identify any areas not compliant:	The sampling procedures are compliant
The licensee is compliant in its surface sampling procedures for viable particles, unless identified below (797-6.3). Identify any areas not compliant:	Samples must be inverted, incubated at 30-35°C at least 48 hrs, reviewed for CFU, incubated at 20-25°C at least 5 days,

reviewed for CFU (or follow the alternative procedure identified in Box 6-1)

Bacterial and fungal media samples used for SS; Fungal media being incubated at 26-30 C for 7 days instead of 20-25 C. Bacterial media compliant at 30-35 C x 72 hours

Cleaning / disinfecting

Licensee is compliant with cleaning and disinfecting requirements, unless identified below (797-7, 797-7.2). Identify any areas not compliant:

Cleaning and disinfecting is compliant

Using TB1, peridox and sterile 70% IPA

Licensee performs compliant daily cleaning and disinfecting, unless identified below (Table 8). Identify any aspect missing from documentation:

Daily cleaning / disinfecting is compliant

Licensee performs compliant monthly cleaning and disinfecting, unless identified below (Table 8). Identify any aspect missing from documentation:

Monthly cleaning and disinfecting is compliant

Licensee performs compliant monthly sporicidal application, unless identified below (Table 8). Identify any aspect missing from documentation:

Monthly sporicidal application is compliant

Items are wiped with a sporicidal agent, EPA-registered disinfectant, or 70% SIPA using low-lint wipers (which does not render the product label unreadable) by personnel wearing gloves before bringing the item(s) into the clean side of the ante-room, into a pass-through, or into the SCA perimeter and agent allowed to dwell or alcohol to dry (797-8.1).

Compliant

Items are wiped with 70% SIPA using low-lint wipers (which does not render the product label unreadable) prior to placement in the PEC and allowed to dry before use (unless the sterile item is received in a sealed container, it may be removed from the covering as the supply is introduced into the PEC) (797-8.2).

Compliant

Critical sites (vial stoppers, ampule necks, IV bag septums) are wiped with 70% SIPA in the PEC and allowed to dry before use (797-8.3).

Compliant

Equipment brought into classified areas is wiped with a sporicidal agent, EPA-registered disinfectant, or 70% SIPA using low-lint wipers, is placed in a manner that facilitates sterile compounding operations, and is capable of operating properly and within required performance parameters (797-9.1).

Compliant

If used, an automated compounding device (ACD) is used compliantly, unless identified below (797-9.1). Identify any area not compliant:

ACD use is compliant

Supplies (beakers, utensils, needles, syringes, filters, tubing sets) in direct contact with CSPs must be sterile and depyrogenated (797-9.2).	Compliant
Components	
The licensee's use of APIs is compliant, unless identified below (797-9.3). Identify any non-compliance:	API use is compliant
The licensee's use of components (other than APIs) is compliant, unless identified below (797-9.3). Identify non-compliance of components:	Component use is compliant
The licensee does not compound with components labeled "not for pharmaceutical use," "not for injectable use," "not for human use," or an equivalent statement (797-9.3).	Compliant
The licensee has a COA or other documentation showing conformance with established specifications for each lot of commercially available sterile, depyrogenated containers and container-closure systems (797-9.3).	Compliant
The licensee examines the external packaging of each lot of component received for evidence of deterioration and other aspects of unacceptable quality, verifies the labeling and condition of the component, and when a component is found to be of unacceptable quality, promptly rejects, labels as rejected, and segregates the component to prevent use as as well as examines other lots of the component from that vendor (797-9.3).	Compliant
Components which lack a vendor expiration date are clearly marked with the date of receipt by the licensee and have been assigned a conservative expiration date not exceeding 1 year from the date of receipt (797-9.3).	N/A
The licensee examines components before use to ensure correct identity, appropriate quality, within expiry, and have been stored under appropriate conditions and when a component is found to be unacceptable for use, promptly rejects, labels as rejected, and segregates the component as well as examines other lots of the component from that vendor (797-9.3).	Compliant
Components are handled and stored in a manner that prevents contamination, mix-ups, and deterioration (797-9.3).	Compliant
Components are stored in closed containers under temperature, humidity, and lighting conditions consistent with the official monograph or specified by the supplier/manufacturer (797-9.3).	Compliant

The temperature of the component storage area is monitored manually at least once daily or by continuous recording device with results documented and retrievable (797-9.3).	Compliant
If used, temperature monitoring devices are calibrated or verified for accuracy as recommended by the manufacturer or at least every 12 months if not specified by the manufacturer (797-9.3).	Compliant
Conventionally manufactured single-dose vials opened/punctured in an ISO Class 5 or better environment are used for no more than 12 hrs as long as the storage requirements are maintained (797-15.1).	N/A
Conventionally manufactured single-dose ampules opened/punctured are not stored for any time period (797-15.1).	N/A
Conventionally manufactured multi-dose containers opened/punctured are used for no more than 28 days unless otherwise specified by the manufacturer's labeling (797-15.2).	Compliant
Pharmacy bulk packages are punctured in an ISO Class 5 PEC and used according to manufacturer labeling (797-15.3).	Compliant
Does the pharmacy use CSPs as components?	Yes
Use of single-dose CSPs or CSP stock solutions as components to compound additional CSPs is compliant, unless identified below (797-16.2). Identify any noncompliance:	Use of component CSPs is compliant
Does the pharmacy compound with HDs? (If reviewed under non-sterile section, select N/A)	N/A

Sterilization / depyrogenation

Does the licensee perform sterilization on CSPs from non-sterile components or on containers or container-closure systems?	Yes
Sterilization methods take into account the components and the container closure systems and ensure sterility of the product without affecting the physical/chemical stability or package integrity (797-10).	Compliant

Only through filtration

Terminal sterilization (dry heat, steam, irradiation) is used unless the CSP or container/closure cannot tolerate it (797-10).	N/A

Steam sterilization is not used if the moisture, temperature and pressure would degrade the CSP or if there is insufficient moisture to sterilize the CSP (797-10).	N/A

Have just received their autoclave back after 6 months of repairs; not currently using but may plan to use in the future to sterilize eye drops

Filtration is not used for suspensions if the suspended drug particles are removed by the filter used (797-10).	Compliant
Terminal sterilization achieves an adequate sterility assurance level (797-10).	N/A
Compounded injections that contain nonsterile components or come into contact with nonsterile devices are sterilized within 6 hours of completing the preparation (797-10).	Compliant
If licensee performs sterilization or depyrogenation of supplies or container-closure systems, the efficacy of each process is established and documented per USP <1229> (797-9.3).	N/A
If the licensee prepares Category 2 CSPs from nonsterile components, presterilization procedures are completed in ISO Class 8 or better and in single-use containment glove bags, containment ventilated enclosure (CVE), BSC, or CACI which are certified at least every 6 months (797-4.2).	Compliant
Does the licensee perform depyrogenation?	No
Does the licensee perform sterilization by filtration?	Yes
Sterilizing filters are compliant, unless identified below (797-10.2). Identify any item of noncompliance:	Sterilizing filters are compliant
Filters are evaluated, per formulation, to be chemically and physically compatible with all components of the CSP, are stable at the pressure and temperatures used, and have sufficient volume capacity (797-10.2).	Compliant
Each filter used is subjected to a filter integrity test (797-10.2).	Compliant
Formulations with excessive particulate matter are pre-filtered using a larger filter (e.g., 1.2µm) or this filter is placed upstream of the sterilizing filter (797-10.2).	N/A
Any CSP prepared with a filter that fails the integrity test is filtered no more than one additional time or is discarded (797-10.2).	Compliant
Does the licensee perform sterilization by steam heat?	No

not currently

Does the licensee perform sterilization by dry heat?	No
Records / Labeling / BUDs	1 flagged
All required records are legible and stored in a manner to prevent deterioration and/or loss (797-20).	Compliant
All required compounding records for a particular CSP (Master Formulation, Compounding, release testing results) are readily retrievable for at least 3 years from the date of preparation (797-20).	Compliant
Master Formulation Records	1 flagged
Licensee maintains compliant Master Formulation Records for all CSPs compounded for more than 1 patient or for CPSs prepared from nonsterile components, unless identified below (797-11.1). Identify any aspect of the MFR missing:	Type and size of container-closure system(s)

Reviewed phentolamine, papaverine, alprostadil injection (Trimix) MFR - packaging and directions are for a 10 ml vial for multidose use but current process is to fill 5 - 1ml vials per batch to align with USP 797 revision changes.

Compounding Records	
Licensee maintains Compounding Records for all CSPs compounded, unless identified below (797-11.2). Identify any aspect of the Compounding Record missing:	Compounding records are compliant
Labeling	
CSP labeling is legible and compliant, unless identified below (797-13). Identify any element missing:	Labeling information is compliant
CSP labeling is verified to ensure it conforms with the prescription/medication order, the MFR (if required), and the compounding record (797-13).	Compliant
CSP labeling is compliant with 657 IAC 20.19 (797-13).	Compliant
Labeling processes of HD compounded preparations do not introduce contamination into the non-HD handling areas (800-11.1).	Compliant
BUDs / Storage	
For Category 1 CSPs, the BUD does not exceed 12 hrs at controlled room temp (20-25°C) or 24 hrs under refrigeration (2-8°C) (797-Table 12).	N/A
For aseptically processed Category 2 CSPs prepared from one	Compliant

or more nonsterile components, in the absence of successful sterility testing, the BUD does not exceed 24 hrs at controlled room temp (20-25°C), 4 days under refrigeration (2-8°C), or 45 days frozen (-25 to -10°C) (797-Table 13).	
For aseptically processed Category 2 CSPs prepared only from sterile components, in the absence of successful sterility testing, the BUD does not exceed 4 days at controlled room temp (20-25°C), 10 days under refrigeration (2-8°C), or 45 days frozen (-25 to -10°C) (797-Table 13).	Compliant
For aseptically processed Category 2 CSPs with successful sterility testing, the BUD does not exceed 30 days at controlled room temp (20-25°C), 45 days under refrigeration (2-8°C), or 60 days frozen (-25 to -10°C) (797-Table 13).	N/A
For terminally sterilized Category 2 CSPs, in the absence of successful sterility testing, the BUD does not exceed 14 days at controlled room temp (20-25°C), 28 days under refrigeration (2-8°C), or 45 days frozen (-25 to -10°C) (797-Table 13).	N/A
For terminally sterilized Category 2 CSPs with successful sterility testing, the BUD does not exceed 45 days at controlled room temp (20-25°C), 60 days under refrigeration (2-8°C), or 90 days frozen (-25 to -10°C) (797-Table 13).	N/A
A shorter BUD is assigned when the known chemical or physical stability is less than the time given by USP for microbial stability in Table 12 or Table 13 (797-14.3).	Compliant
BUDs are not extended beyond the limits identified in Table 12 or Table 13, regardless of literature or stability/sterility test documentation (797-14.3).	Compliant
Refrigerated or frozen products / container-closure systems are verified to be physically and chemically compatible with that storage (797-14.2.4).	Compliant
Frozen products, once thawed, are not re-frozen (797-14.2.4).	Compliant
BUDs are adjusted when the storage conditions change (freezer to refrigerator, etc.) and not additive (797-14.2.4).	Compliant
The licensee is compliant in its compounding of multiple-dose CSPs, unless identified below (797-14.4, 797-16.1). Identify any aspect of noncompliance: Multi-dose eye drops compliant with 14.5	Compounding of multi-dose CSPs is compliant
The BUD of a CSP prepared from one or more compounded components does not exceed the shortest BUD of any of the individual starting components (797-16).	Compliant

The batch size for any CSPs requiring sterility testing do not exeed 250 final yield units (797-14.2.3).	N/A
For aseptically processed, sterility tested, and passing all applicable tests for Category 3 CSPs, the BUD does not exceed 60 days at controlled room temp (20-25°C), 90 days under refrigeration (2-8°C), or 120 days frozen (-25 to -10°C) (797-Table 14).	N/A
For terminally sterilized, sterility tested, and passing all applicable tests for Category 3 CSPs, the BUD does not exceed 90 days at controlled room temp (20-25°C), 120 days under refrigeration (2-8°C), or 180 days frozen (-25 to -10°C) (797-Table 14).	N/A
Each Category 3 CSP is sterility tested; meets the requirements of USP Chapter <71> or a validated, noninferior alternative method; and, if required, endotoxin tested for acceptable results (797-14.4.4).	N/A
The Category 3 CSP BUD is supported by stability data (obtained using a stability-indicating analytical method that is able to distinguish the active ingredient from its degradants and impurities) and quantify the amount of the active ingredient (USP 14.4.3).	N/A
The Category 3 CSP is compliant with the stability data in that: 1) it is prepared according to the exact formulation from which the stability data are derived; 2) it is packaged and stored in a container closure of the same materials of composition as that used in the study; 3) the analytical method is validated based on characteristics such as those described in USP <1225>; 4) the compounding facility has documentation of the stability study, including a description of the methodology, validation of the method, the stability-indicating analytical method, and all of the study results (USP 14.4.3).	N/A
Each Category 3 CSP that is an injection or ophthalmic solution is tested for particulate matter once per formulation with acceptable results (USP 14.4.3).	N/A
Once for each formulation and for each container closure system in which it will be packaged, the container closure system used is evaluated for and conforms to container closure integrity to the end of the BUD (USP 14.4.3)	N/A

Verification / QA

Verification

The licensee completes compliant visual inspection of all CSPs at the completion of compounding, before release and dispensing, unless identified below (797-12.1). Identify any	Visual inspection of CSPs is compliant

noncompliance:	
CSPs with observed defects are discarded, or marked and segregated from acceptable units in a manner that prevents them from being release or dispensed and the defect is investigated to determine the cause (797-12.1).	Compliant
Does the licensee compound Category 2 CSPs that require sterility testing per BUD (Table 11)?	N/A
Does the licensee compound Category 2 injectable CSPs from one or more nonsterile components (for humans or animals) that require sterility testing per BUD (Table 13)?	No
Quality Assurance / Quality Control	
The licensee has formal, written QA and QC programs which are compliant, unless identified below (797-18). Identify aspects which are missing:	QA and QC programs contain the required elements
The QA and QC programs are reviewed (and the review documented) at least every 12 months by the designated person(s) and appropriate action taken if needed (797-18).	Compliant
If the licensee dispensed/administers CSPs before the results of release testing are known, compliant procedures are in place to immediately notify the prescriber(s) of a failure of specifications with the potential to cause patient harm (sterility, strength, purity, bacterial endotoxin, or other quality attributes) and determine whether a recall is necessary (797-18.1).	N/A
Implementation of recall procedures is documented (797-18.1).	Compliant
A designated person reviews all complaints (797-18.2).	Compliant
If a complaint is determined to indicate a potential quality problem with a CSP, the licensee completes a compliant investigation (797-18.2). Identify any aspect of an investigation missing:	Investigative procedures are compliant
Complaint and investigation records are readily retrievable (written or electronic) and contain all required elements, unless identified below (797-18.2). Identify any missing elements:	Complaint and investigative records are compliant
A CSP that is returned in connection with a complaint is quarantined until it is destroyed after completion of the investigation (797-18.2).	Compliant
Adverse events potentially associated with the quality of CSPs are reported in accordance with licensee SOPs.	Compliant

CSP Handling, Storage, Packaging, Shipping, Transport

Storage of CSPs is compliant to ensure CSP quality, unless identified below (797-19.1). Identify any noncompliance:	Storage of CSPs is compliant
Packaging materials protect CSPs / HDs from damage, leakage, contamination, degradation, and adsorption (797-19.2, 800-11.2).	Compliant
Licensee selects shipping containers based on product specifications, vendor information, and mode of transport (797-19.3).	Compliant
Light-sensitive CSPs are packaged in light-resistant packaging; temperature sensitive CSPs are packaged accordingly (797-19.3).	Compliant
Appropriate modes of transport are selected for CPSs and special handling instructions are included on the exterior of the transport container (797-19.3).	Compliant
Does the licensee transport HDs (compounded or otherwise)?	N/A

Spills / Disposal

Does the licensee compound with HDs?	N/A

previously reviewed

Allergens

Does the licensee engage in the compounding of allergen extracts?	No

Blood-derived / biological materials

Does the licensee compound using blood-derived or other biological materials (e.g.: HCG; Somatropin; DTE such as Armour Thyroid, NP Thyroid, Nature-Throid, and Natural Thyroid; hyaluronidase; Insulin; Pancrelipase)?	No

Administration of HDs

Does the licensee engage in the administration of HDs?	No
Does this licensee dispense/distribute compounded sterile preparations to patients in other states?	No

Sterile Compounding

Standard	Plan of Correction	Training	Date of	Title

				(Individual responsible for correction)
2.2	**Gloved fingertip/thumb sampling is compliant, unless identified below (797-2.2). Identify any element missing or not compliant:** Samples are incubated (inverted) at 30-35C (86-95F) for min. 48 hrs then 20-25C (68-77F) for min. 5 days. CFU counts must be documented per hand. This has been updated on the GFT log.		07/28/2025	Chris Petersen, PharmD
2.2	**Result of evaluations and corrective actions, if failed (from visual observation or GFT sampling), are documented and documentation is compliant, unless identified below (797-2.2). Identify any element of documentation missing:** For incubation, the starting temperatures for each interval, the dates of incubation, and the results are now documented on the GFT sample log.		07/28/25	Chris Petersen, PharmD
2.3	**MFT is compliant, unless identified below (797-2.3). Identify any noncompliance**: MFT are currently being incubated at 25-35 degrees C for 14 days instead of the two required intervals. At completion of MFT, containers are incubated at 20-25C (68-77F) for 7 days then 30-35C (86-95F) for 7 days. This has been updated on the Media Fill log.		07/28/25	Chris Petersen, PharmD
2.3	**Results of evaluations and corrective actions, if failed (visible turbidity/visual manifestations of growth within 14 days), are documented and documentation is compliant, unless identified below (797-2.3). Identify element missing:** For incubation, the starting temperatures for each interval, dates of incubation, and results have been updated on the Media Fill Log.		07/28/25	Chris Petersen, PharmD
4.3	**The cleanroom suite is compliant, unless identified below (797-4). Identify any noncompliance**:		07/28/25	Chris Petersen, PharmD

	We removed 4 rusted tables from the clean room and replaced them with galvanized stainless-steel tables. Also Replaced rusted screws on the passthrough door handles. All surfaces in the classified areas are smooth, impervious, free from cracks and crevices and non-shedding.		
6.3	**The licensee is compliant in its surface sampling procedures for viable particles, unless identified below (797-6.3). Identify any areas not compliant:** Fungal media was incubated at 26-30 C for 7 days instead of 20-25 C. Bacterial media is compliant at 30-35 C x 72 hours. Samples must be inverted, incubated at 30-35°C at least 48 hrs, reviewed for CFU, incubated at 20-25°C at least 5 days and reviewed for CFU. This has been updated on the Surface Sample log.	07/28/25	Chris Petersen, PharmD
11.1	**Licensee maintains compliant Master Formulation Records for all CSPs compounded for more than 1 patient or for CPSs prepared from nonsterile components, unless identified below (797-11.1). Identify any aspect of the MFR missing:** Reviewed phentolamine, papaverine, alprostadil injection (Trimix) MFR - packaging and directions are for a10 ml vial for multidose use. Our current process is to fill #5 – 5ml amber vials with 1mL in each vial per batch to align with USP 797 revision changes and has been updated in each trimix MFR.	07/28/25	Chris Petersen, PharmD

Section 9: Statement of Responsibility - MUST BE COMPLETED by an Authorized Person (NAC 639.945)

Statement of Responsibility

1. I am the VP Pharmacy Q&R (title) for PharmaLogic Cincinnati, LLC (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be responsible for any violations of pharmacy law that may occur in the Pharmacy owned by such owner(s), shareholder(s), member(s), or partner(s).
3. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be named in any action taken by the Nevada State Board of Pharmacy against the Pharmacy.
4. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) cannot require or permit the pharmacist(s) in said Pharmacy to violate any provision of local, state, or federal laws or regulations pertaining to the practice of pharmacy.
5. I further understand and acknowledge that Nevada law requires that each pharmacy located inside the State of Nevada employ only pharmacists, intern pharmacists, pharmaceutical technicians, and technicians in training that are licensed by the Nevada State Board of Pharmacy. (NRS 639.100).
6. I further understand and acknowledge that Nevada law requires that each pharmacy located outside the State of Nevada engaged in providing pharmacy services into Nevada employs at least one pharmacist licensed by the Nevada State Board of Pharmacy who will be responsible for any prescription dispensed to a patient located in Nevada and responsible for any acts or omissions of pharmacy personnel who are not registered with the Board. (NRS 639.2328).

Section 8: Arrests, Detentions, Litigations, Arbitrations.	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		✔
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		✔
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)		✔
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		✔
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?		✔
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✔
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✔
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✔
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✔

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

This is in response to Question # N/A **. Provide all the following *where applicable*:**

Date of Event/Arrest	Disposition Date	State	City	County

Case #	Governing, licensing, Arresting Presiding Body/Agency/Court

Reason/Charge

Plaintiff/Defendant/Claimant/Respondent	Lawsuit/Arbitration/Bankruptcy

Name of Business/Industry/Entity

Sterile Compounding Questionnaire

Rev (09/11/2024)

This application cannot be returned by fax or email.
We must have an original signature to process.

Approval of this completed questionnaire is required for an existing pharmacy, new pharmacy and/or out-sourcing facility applicant who wish to engage in preparing, compounding, dispensing, and furnishing sterile compounded products to Nevada patients or consumers.

Please provide a thorough response to the questions below and provide any necessary supporting documents.
-For a new pharmacy or out-sourcing facility applicant, submit this completed form with your application.
-For an existing pharmacy, send the completed form to the address indicated above.

Section 1: General Information

Pharmacy Name: PharmaLogic Cincinnati, LLC

NV Pharmacy or Outsourcing facility license # (if applicable): N/A; new license application

Physical Address: 200 Albert Sabin Way, Rm G310

City: Cincinnati State: OH Zip: 45267

Mailing Address (if different from physical address): same as physical address

City: _____ State: _____ Zip: _____

Telephone: 513-872-4982 Toll Free # (NAC 639.708, NRS 639.23286): 877-688-4991

Fax: 513-342-2079 Contact Email: CincinnatiPharmacy@radiopharmacy.com

Website: www.radiopharmacy.com

Nevada Business License # (if applicable) N/A

Supervising/Managing Pharmacist Name (NRS 639.220): Cameron Grahl

Supervising/Managing Pharmacist NV Pharmacist Registration #: 24812

Name of Designated Person(s) as defined by revised USP-797 guidelines: Cameron Grahl

Email of Designated Person(s): cgrahl@radiopharmacy.com

Telephone of Designated Person(s): 573-823-3884

Section 2: Sterile Compounding Questions (Use a separate piece of paper if additional space is needed.)

1. What risk level sterile compounding will your facility be performing (check all that apply)?

   ■ Category 1 ☐ Category 2 ☐ Category 3

If you marked "**Category 3**", you must also complete **section 4.**

2. If compounding Category 2 products is the location performing sterility and endotoxin testing (if required) to obtain extended beyond-use dates? Yes ☐ No

3. If compounding Category 2 products is the location performing aseptically processed CSPs or terminally sterilized CSPs? ☐ Aseptic ☐ Terminal

4. Is the pharmacy following the new garbing requirements listed in the revised USP-797 guidelines? ■ Yes No

5. When was the most recent certification for the ISO classified areas? November 4-5, 2025

6. What is the frequency of the recertification for the ISO classified areas? every 6 months at minimum

7. Were there any follow-up items required from the most recent certification report? ☐ Yes ☐ No

8. If preparing Category 2 or Category 3 CSPs from non-sterile starting components are the pre-sterilization procedures such as weighing and mixing completed in an ISO Class 8 or better environment? Yes No

9. If compounding Category 1 CSPs and Category 2 CSPs how often is surface sampling of all classified areas and pass-through chambers conducted? At least monthly internally; completed every 6 months by an external vendor

10. Will you be performing sterile hazardous drug compounding? Yes ■ No

If you marked "**Yes**", you must also complete **section 3.**

11. List the sterile compounded products that you will be compounding for Nevada patients or consumers:

F-18 Flyrcado
F-18 Pylarify

12. What laboratory performs your sterility or endotoxin testing?

Name: N/A

Address: _____

City: _____ State: _____ Zip: _____

Telephone: _____

13. What is your procedure for visual inspection of compounded sterile products?

All products are inspected before and after preparation for any visible particles, abnormal coloration, and/or turbidity. If the product does not pass visual inspection, the product is quarantined and the compounding pharmacist will reach out to the Quality and Regulatory Department for next steps/to initiate investigations as needed.

14. How often do you perform glove fingertip and medial fill testing?

In triplicate as part of the onboarding process, then annually thereafter.

15. Describe your initial and ongoing training program for all personnel performing sterile compounding:

Please see SOP 6.02 - Aseptic Qualifications, 6.03 - Gowning, Garbing, and Hand Hygiene, and 7.05 - Network Training for our initial and annual training program for all personnel performing sterile compounding.

16. Describe the cleaning procedure for your primary and secondary engineering controls, including the frequency of cleaning and the names of cleaning, disinfectant, sporicidal, and/or deactivation and decontamination agents used:

Please see SOP 6.04 - Cleaning of Clean Rooms and SRPAs and 6.05 - Cleaning of Clean LFHs and BSCs for the cleaning of our primary and secondary engineering controls, including frequency and names of approved agents used as cleaners/disinfectants and sporicidals.

17. Who performs the sterile compounding process at your facility?

Authorized nuclear pharmacists (ANPs) perform the sterile compounding process at PharmaLogic Cincinnati, LLC.

18. Who is responsible and accountable for the sterile compounding process at your facility?

Cameron Grahl, Pharmacist-in-Charge

19. If products are shipped/mailed, what shipping conditions are used to ensure product safety/efficacy?

All products that are delivered/shipped follow DoT regulations and emergency procedures for handling radioactive materials. The delivery process is either initiated after quality control tests are completed, or delivered under quarantine and only released to the customer upon the successful completion of quality control tests.

Section 3: Sterile Hazardous Compounding Questions (Complete this section ONLY if you be performing Sterile Hazardous Compounding.)		
1. What type of primary engineering controls will you be using in your facility? N/A		
2. Are you complying with all USP 800 guidelines?	Yes	No
3. Have your employees who compound with hazardous drugs signed an acknowledgement that they understand the risks associated with this process?	Yes	No
4. Is your BSC or CACI vented 100% to the outside?	Yes	No
5. Do you have a negative pressure buffer room at your facility?	Yes	No
6. Will you be compounding with antineoplastic HDs or HD API?	Yes	No
7. If yes, are the drugs stored in an externally ventilated, negative pressure room?	Yes	No
8. Will you be utilizing a closed system transfer device?	Yes	No
9. If yes, list the name of the device: N/A		

10. What information is provided to the patient or consumer on the proper handling and disposal of hazardous drugs products/containers? N/A

11. Describe your initial process for training new employees prior to compounding sterile hazardous drugs?

N/A

Section 4: Sterile Category 3 Compounding Questions (Complete this section ONLY if you will be performing Category 3 Compounding.)

1. List the specific Category 3 sterile products that your facility compounds:

N/A

2. What is the frequency for ongoing garbing, gloved fingertip and thumb sampling, and media fill testing for compounding personnel?

N/A

3. Is the pharmacy meeting all of the additional garbing requirements for compounding Category 3 CSPs as defined by the revised USP-797 guidelines? Yes No

4. What is the frequency for completing volumetric active air sampling?

N/A

5. What is the frequency for completing surface sampling? N/A		
6. What is the frequency for using sporicidal agents? N/A		
7. Is an endotoxin test performed for all products compounded from one or more nonsterile component?	Yes	No
8. Is the BUD assigned supported by stability data obtained using a stability-indicating analytical method?	Yes	No

I certify under penalty of perjury that the information contained in this form is accurate, true and complete in all material respects. I understand that making any false representation in this form is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire form and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event the form is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

Cameron Grahl		Pharmacist			cgrahl@radiopharmacy.com

1) *Initial Inspection Information

1) Personnel conducting inspection

Observation
Compliance Specialist Sarah Nash, PharmD. RPh.

2) Were multiple inspection guides used during this inspection?

Yes

Observation
A complete copy of this inspection will include: USP 825 Inspection

Any copy of this inspection is considered incomplete if all documents listed are not available for review.

3) Facility Description

Observation
The pharmacy is a closed door nuclear pharmacy servicing both inpatients and outpatients. The pharmacy hold RAM license from the Ohio Department of Health. Prescription volume is approximately 500 per month. Drug products will be delivered directly to hospitals and clinics for immediate administration by licensed healthcare professionals.
The site is a dual site which houses both manufacturing and the preparation of nuclear pharmacy products. The majority of activity will consist of the repackaging of manufactured products. The site does not compound under USP 797 or 800 but does compound under USP 825 regulations. The site does not store controlled substances or compound with blood products.
Compounded products include: illucix, netspot (GA-68 products)
Non-sterile compounding is not performed on site.
The pharmacy employs 3 pharmacists, 2 CPhTs, and 14 delivery drivers.

4) *Does the TDDD have a valid registration issued by the Drug Enforcement Administration?

No: Category 2 and is not required

5) Is the Responsible Person present during the inspection?

Yes

6) Does the TDDD distribute dangerous drugs outside of Ohio?

Yes

Observation
The pharmacy is licensed in 39 states.

10.1) Responsible Person - Terminal Distributor (OAC 4729:5-2-01)

1) *PHARMACY: Is a Pharmacist the Responsible Person for a TDDD licensed as a pharmacy?

Yes

Observation
The responsible person shall be responsible for the practice of the profession of pharmacy, including, but not limited to, the supervision and control of dangerous drugs as required in division (B) of section 4729.55 of the Revised Code, adequate safeguards as required in division (C) of section 4729.55 of the Revised Code, security and control of dangerous drugs and maintaining all drug records otherwise required. The person to whom the terminal distributor of dangerous drugs license has been issued and all pharmacists on duty are responsible for compliance with all state and federal laws, regulations, and rules governing the distribution of drugs and the practice of pharmacy.

9) TDDD: Is the responsible person physically present at the location for a sufficient amount of time?

Yes

Observation
The responsible person is present M-F, no issues noted.

14) REMINDER: All licensed health professionals and Responsible Person

Observation
The responsible person to whom the terminal distributor of dangerous drugs license has been issued and all licensed health professionals on duty are responsible for compliance with all state and federal laws, regulations, and rules governing the distribution of dangerous drugs.

The responsible person is responsible for ensuring the terminal distributor of dangerous drugs requirements are met, including, but not limited to, the supervision and control of dangerous drugs as required in division (B) of section 4729.55 of the Revised Code, adequate safeguards as required in division (C) of section 4729.55 of the Revised Code, security and control of dangerous drugs and maintaining all drug records otherwise required.

11.1) Disposal of controlled substances (OAC 4729:5-3-01)

1) Does the facility dispose of controlled substances?

Not Applicable

Observation
No controlled substances.

11.2) *Report theft/significant loss: dangerous drug, controlled substance, drug document(OAC 4729:5-3-02)

1) *REMINDER: Theft or significant loss of dangerous drugs and drug documents

Observation
A terminal distributor of dangerous drugs shall notify the following upon discovery of the theft or significant loss of any dangerous drug or controlled substance, including drugs in transit that were either shipped from or to the licensed location: (1) The state board of pharmacy, by telephone or other method determined by the board, immediately upon discovery of the theft or significant loss; (2) If a controlled substance, the drug enforcement administration (DEA) pursuant to 21 C.F.R. 1301.76 (9/9/2014); (3) Law enforcement authorities pursuant to section 2921.22 of the Revised Code.

A terminal distributor of dangerous drugs shall, immediately upon discovery, notify the state board of pharmacy, in a manner determined by the board, and law enforcement authorities of any theft or loss of uncompleted prescription blank(s) used for writing a prescription, written prescription order(s) not yet dispensed and original prescription order(s) that have been dispensed.

A terminal distributor of dangerous drugs shall, immediately upon discovery, notify the state board of pharmacy, in a manner determined by the board, law enforcement authorities and the drug enforcement administration (DEA) pursuant to 21 C.F.R. 1305.16 (9/9/2014) of the theft or loss of any DEA form 222.

For more information on reporting, visit: www.pharmacy.ohio.gov/theft

2) *Has the TDDD experienced any theft or significant loss of any dangerous drugs in the past 24 months?

No

11.4) Verification of licensure prior to sale or purchase (OAC 4729:5-3-04)

1) What drug distributors does the TDDD purchase from?

Observation
- Telix Pharmaceuticals, license verification performed January 2024
- AAA (Novartis gene therapies), license verification performed January 2024
- McKesson

2) PURCHASE: Has the TDDD completed an annual query of the board's online roster prior to purchase of dangerous drugs at wholesale? Warning

No

Observation
If no documented query is conducted before a purchase is made, it shall be presumed that the purchase of dangerous drugs by the terminal distributor is in violation of section 4729.51 of the Revised Code.
Most recent queries were conducted January 2024; no query for McKesson performed.

Corrective Action
Rule 4729:5-3-04 | Verification of licensure prior to sale or purchase. Effective 3/1/19
(A) Before a terminal distributor of dangerous drugs may purchase dangerous drugs at wholesale, the terminal distributor shall query the boards online roster (available on the boards website: www.pharmacy.ohio.gov) to confirm any of the following:
(1) The seller is licensed to engage in the sale of dangerous drugs in accordance with section 4729.52 of the Revised Code; or
(2) The seller is licensed to engage in the occasional sale or distribution of dangerous drugs at wholesale in accordance with rule 4729:5-3-09 of the Administrative Code.
B) If no documented query is conducted before a purchase is made, it shall be presumed that the purchase of dangerous drugs by the terminal distributor is in violation of section 4729.51 of the Revised Code.
If a licensed terminal distributor of dangerous drugs conducts a documented query at least annually and relies on the results of the query in purchasing dangerous drugs, the terminal distributor shall be deemed not to have violated section 4729.51 of the Revised Code in making the purchase.

11.6) Storage of adulterated drugs (OAC 4729:5-3-06)

1) Does the facility have expired/adulterated drugs on site?

Reminder: All adulterated drugs are to be segregated from active stock and stored no longer than one year from adulteration or expiration

Not Observed during Inspection

2) *Are adulterated drugs stored in a separate and secure area?

No adulterated drugs observed during inspection

Observation
Expired products may be used for training purposes, but are stored in a labeled bin.

11.7) Controlled substances inventory requirements (OAC 4729:5-3-07)

1) Are controlled substance inventory records maintained as required by rule?

Not Applicable: Not a Category 3 TDDD

11.9) Occasional sale and drug transfers (OAC 4729:5-3-09)

3) Does the TDDD engage in intracompany sales or transfer?

Yes: Completed by intracompany sales, which includes any transaction or transfer between any division, subsidiary, parent or affiliated or related company under the common ownership and control

11.16) Returned drugs (OAC 4729:5-3-16)

1) INPATIENT: Are returned drugs dispensed or personally furnished?

No

Observation
Returned drugs are disposed of, no issues noted.

2) INPATIENT: Are dangerous drugs dispensed in a customized patient medication package for inpatients returned to stock or re-dispensed?

No

3) OUTPATIENT: Are returned drugs returned to stock or re-dispensed?

No

Observation
Returned drugs are destroyed.

4) MANIPULATION REQUIRED: Are drugs that require further manipulation prior to administration dispensed or personally furnished again?

No

7) PICK-UP STATION: Are drugs provided via pick-up station returned for destruction or disposal?

Yes

11.17) Automated pharmacy systems (OAC 4729:5-3-17)

1) Does the TDDD have an automated pharmacy system (APS)?

No

11.18) Dangerous drug recall procedures (OAC 4729:5-3-18)

1) Does the TDDD have a written procedure for the management of drug recalls?

Yes

Observation
Staff states a written policy exists; was not evaluated during the inspection.
OAC 4729:5-3-18 | Dangerous Drug Recall Procedures | Effective 11/11/2024
(A) A terminal distributor of dangerous drugs shall develop and implement a written procedure for the management of recalls by the manufacturer for dangerous drugs stocked by the terminal distributor. Such procedures shall include, where appropriate, contacting patients to whom the recalled drug products have been dispensed or personally furnished.

2) Does the written procedure include the required elements to manage a drug recall?

Yes: An attempt is made to sequester recalled drugs no later than the next business day.

Yes: Recalled drugs are quarantined until proper disposal/destruction.

Yes: The licensee maintains records related to drug recalls.

Observation
Discussed with staff.

3) Are written procedures and records updated and maintained as necessary?

Yes

11.21) Continuous Quality Improvement Programs in Pharmacy Services (OAC 4729:5-3-22)

1) Does the pharmacy have a quality assurance program?

Yes

Observation

OAC 4729:5-3-22| Continuous Quality Improvement Programs in Pharmacy Services| Effective 3/1/2025
(A) As used in this rule, "dispensing error" or "error in dispensing" means one or more of the following discovered after the dispensation (e.g., final verification) by a pharmacist or verification in accordance with rule 4729:5-3-17 of the Administrative Code, regardless of whether the patient received the drug:

(1) Variation from the prescriber's prescription or drug order, unless otherwise modified by the pharmacist in accordance with agency 4729 of the Administrative Code, including:

(a) Incorrect drug;

(b) Incorrect drug strength;

(c) Incorrect dosage form;

(d) Incorrect patient; or

(e) Inadequate or incorrect packaging, labeling, or directions.

(2) Failure to exercise professional judgment in identifying and managing:

(a) Known therapeutic duplication;

(b) Known drug-disease contraindications;

(c) Known drug-drug interactions;

(d) Incorrect drug dosage or duration of drug treatment;

(e) Known drug-allergy interactions;

(f) Any product quality issue attributed to a compounded drug preparation;

(g) A clinically significant, avoidable delay in therapy; or

(h) Any other significant, actual, or potential problem with a patient's drug therapy related to the practice of pharmacy.

(3) Sale of a drug to the incorrect patient.

(4) Variation in bulk repackaging or filling of automated devices, including:

(a) Incorrect drug;

(b) Incorrect drug strength;

(c) Incorrect dosage form; or

(d) Inadequate or incorrect packaging or labeling.

(5) A dispensing error does not include the delivery of an incorrect drug to a patient by a pharmacy delivery agent as defined in rule 4729:5-5-22 of the Administrative Code.

(B) A "dispensing error" or "error in dispensing," as defined in paragraph (A) of this rule, may be considered a violation of division (A)(2) of section 3715.52 and section 3715.64 of the Revised Code.

(C) Each pharmacy licensed as a terminal distributor of dangerous drugs shall establish or participate in an established quality assurance program that documents and assesses dispensing errors to determine cause and an appropriate response to improve the quality of pharmacy service and prevent errors.

(1) Each quality assurance program shall be managed in accordance with written policies and procedures maintained in the

pharmacy to be made readily retrievable upon request of an agent, inspector, or employee of the board.

(2) The quality assurance program shall include necessary documentation, internal reporting, and assessment of dispensing errors to determine the cause and an appropriate response to prevent future dispensing errors.

(3) All records of the quality assurance program for each pharmacy shall be maintained for three years from the date of creation in a readily retrievable manner.

(4) Any record reviewed in accordance with this paragraph shall be for investigation or inspection purposes and shall be subject to confidentiality protections pursuant to section 4729.23 of the Revised Code.

(5) If applicable, a quality assurance review may be conducted by a quality assurance committee established in accordance with section 2305.24 of the Revised Code.

(D) When a pharmacy determines or has been notified that a dispensing error has occurred, a representative of the terminal distributor of dangerous drugs shall as soon as possible:

(1) Communicate to the patient or the patient's caregiver the fact that an error in dispensing has occurred, and the steps required to avoid harm or mitigate the error.

(2) Communicate to the prescriber the fact that an error in dispensing has occurred only if the error could result in potential or actual patient harm.

(3) The communication requirement of this paragraph shall only apply when a patient receives a drug that was the result of a dispensing error and the error poses harm to the patient. Harm includes impairment of the physical, emotional, or psychological function or structure of the body and/or pain resulting therefrom.

(4) The pharmacy shall maintain documentation that the communications requirements of this rule were completed. Such documentation shall be maintained for three years from the date of creation in a readily retrievable manner.

(E) If a pharmacy is notified of a dispensing error by the patient, the patient's caregiver, or a prescriber, a representative of the terminal distributor of dangerous drugs is not required to communicate with that individual as required in paragraph (E) of this rule.

(F) The terminal distributor of dangerous drugs shall inform pharmacy personnel of changes to pharmacy policy, procedure, systems, or processes made as a result of recommendations generated by the quality assurance program.

(G) Nothing in this rule shall be construed to prevent a pharmacy from contracting or otherwise arranging for the provision of personnel or other resources by a third party or administrative offices with such skill or expertise as the pharmacy believes to be necessary to satisfy the requirements of this rule.

(H) The pharmacy shall comply with the reporting requirements for dispensing errors pursuant to rule 4729:5-4-02 of the Administrative Code.

13.1) Definitions – outpatient pharmacies (OAC 4729:5-5-01)

1) Is the TDDD an outpatient pharmacy or does the TDDD dispense outpatient prescriptions?

Yes: Dispenses Outpatient Prescriptions

13.2.1) Minimum Standards (OAC 4729:5-5-02)

1) Does the TDDD provide sufficient tools and equipment in updated and good repair?

Yes

2) Does the TDDD provide pharmacy personnel access to the required references?

Yes: Internet access to the board's website, Ohio laws and administrative codes, code of laws of the United State of America, and code of federal regulations

Yes: Access to hard copy or internet access to appropriate pharmacy reference materials

Yes: Access of telephone number of a poison control center

Observation
Reference materials include package inserts, SDS, USP chapters, SNMI journal articles

3) Does the TDDD ensure pharmacy personnel are sufficiently trained to safely and adequately perform their assigned duties?

Yes

4) Does the TDDD maintain a stock of drugs sufficient to compound and prepare the types of prescriptions offered?

Yes

5) Does the TDDD maintain stock of prescription containers necessary to dispense drugs in accordance with federal and state laws?

Yes

6) *Does the TDDD ensure all areas where drugs and devices are stored and prepared are dry, well-lit, well-ventilated, and maintained in a clean, sanitary, and orderly condition?

Yes

7) *Are hours of operation of the pharmacy department posted?

Not Applicable: Closed-door pharmacy

8) *Are all employees of the pharmacy identified by a name tag?

Yes: Name tag includes job title

9) Does the TDDD maintain the current contact information to the security system vendor?

Yes

Observation
The security system are through Fishel.
Badge system is through Uni Identity.

10) Does the TDDD provide sufficient time for pharmacists to complete professional duties and responsibilities?

Yes

13.2.2) Provision of Ancillary Services in an Outpatient Pharmacy (OAC 4729:5-5-02.1)

1) Does the pharmacy offer ancillary services?

No

13.2.3) Mandatory Rest Breaks for Pharmacy Personnel (OAC 4729:5-5-02.2)

1) Does the pharmacy require pharmacy personnel to work longer than 13 hours in any workday?

No

Observation
Pharmacy is not open more than 12 hours.

2) Do pharmacy personnel have at least 8 hours of off time between consecutive shifts?

Yes

3) Are pharmacy personnel working longer than 6 continuous hours/workday allowed to take a 30-minute, uninterrupted rest break?

Yes

7) REMINDER: Retaliation Information

Observation
4729:5-5-02.2 Mandatory Rest Breaks for Pharmacy Personnel.
(E) An outpatient pharmacy shall not retaliate or discipline a pharmacist for refusing to work longer than thirteen hours or pharmacy personnel that opt to take breaks in accordance with this rule. As used in this rule, retaliation or discipline of an employee includes, but is not limited to, the following:
(1) Removing or suspending the employee from employment;
(2) Withholding from the employee salary increases or employee benefits to which the employee is otherwise entitled;
(3) Transferring or reassigning the employee;
(4) Denying the employee a promotion that otherwise would have been received;
(5) Reducing the employee in pay or position.

13.2.4) Requests for Additional Staff/Reports of Staffing Concerns in a Pharmacy (OAC 4729:5-5-02.3)

1) Does the pharmacy have a process for pharmacy staff to communicate requests for additional staff or reports of staffing concerns? Warning

No

Observation
RP not familiar with a formal process to communicate staffing concerns.

Corrective Action
Pharmacy to ensure a process exists to communicate staffing concerns.
4729:5-5-02.3 Requests for Additional Staff and Reports of Staffing Concerns in an Outpatient Pharmacy. Effective 5/1/24
(A) An outpatient pharmacy shall develop a process for pharmacy staff to communicate requests for additional staff or reports of staffing concerns. Requests for additional staff or reports of staffing concerns shall be communicated and documented by the responsible person or pharmacist on duty to the terminal distributor.
(B) Executed requests for additional staffing or reports of staffing concerns shall be provided to the immediate supervisor of the responsible person or pharmacist on duty, with one copy maintained in the pharmacy for three years for immediate inspection by an agent, inspector, or employee of the board.

2) Are all issues listed in the requests and reports of concern resolved in a timely manner?

Other: See Observation Below

Observation
4729:5-5-02.3 Requests for Additional Staff and Reports of Staffing Concerns in an Outpatient Pharmacy. Effective 5/1/24
(C) Outpatient pharmacies licensed as terminal distributors of dangerous drugs shall review all requests and reports of concern submitted in accordance with this rule and shall resolve any issues listed in a timely manner to ensure a safe working environment for pharmacy staff as required by section 4729.55 of the Revised Code. A written response to the request or report of concern shall occur within fourteen business days of submission and be communicated to the responsible person or pharmacy staff who submitted the request for additional staffing or report of concern. A copy of this response shall be maintained in the pharmacy for three years for immediate inspection by an agent, inspector, or employee of the board.

3) Has there been retaliation or discipline for requesting staff or reporting concerns?

No

Observation
4729:5-5-02.3 Requests for Additional Staff and Reports of Staffing Concerns in an Outpatient Pharmacy. Effective 5/1/24
(D) An outpatient pharmacy shall not retaliate or discipline a pharmacist who, in good faith, makes a request for additional staff or reports staffing concerns in accordance with this rule. As used in this rule, retaliation or discipline of an employee includes, but is not limited to, the following:
(1) Removing or suspending the employee from employment;
(2) Withholding from the employee salary increases or employee benefits to which the employee is otherwise entitled;
(3) Transferring or reassigning the employee;
(4) Denying the employee a promotion that otherwise would have been received;
(5) Reducing the employee in pay or position.

4) REMINDER: Retaliation Information

Observation
4729:5-5-02.3 Requests for Additional Staff and Reports of Staffing Concerns in an Outpatient Pharmacy. Effective 5/1/24
(D) An outpatient pharmacy shall not retaliate or discipline a pharmacist who, in good faith, makes a request for additional staff or reports staffing concerns in accordance with this rule. As used in this rule, retaliation or discipline of an employee includes, but is not limited to, the following:
(1) Removing or suspending the employee from employment;
(2) Withholding from the employee salary increases or employee benefits to which the employee is otherwise entitled;
(3) Transferring or reassigning the employee;
(4) Denying the employee a promotion that otherwise would have been received;
(5) Reducing the employee in pay or position.

13.2.5) Significant Delays in the Provision of Pharmacy Services (OAC 4729:5-5-02.4)

1) NEW: Are new prescriptions received by the pharmacy dispensed without significant delay?

Yes

13.3) *Filing and storage of prescriptions (OAC 4729:5-5-03)

1) *Are prescriptions maintained in three separate prescription files?

Not Applicable

Observation
No controlled substances processed by the pharmacy.

2) HARD COPY: Are non-controlled hard copy prescriptions electronically maintained?

Other: See Observation Below

Observation
Not applicable

3) Are electronically transmitted prescriptions maintained?

Yes

Observation
The EMR system, BioRx, maintains electronic prescriptions.

4) Do electronic systems used to maintain prescription images or data meet the requirements of the rule?

Yes: Contains security features to prevent unauthorized access to the records

Yes: Contains daily back-up functionality to protect against loss of records

Observation
Main server is in Boca Raton, Florida.

5) *Are all prescription records uniformly maintained for a period of three years?

Yes

13.4) *Record keeping (OAC 4729:5-5-04)

1) *DISPENSING PROCESESS: Is there positive identification for the dispensing process of a prescription, as required by rule?

See Observaations Below

Observation
BioRx does not accommodate electronic positive ID at this time; hard copy printouts are utilized at this time.
Rule 4729:5-6-01 | Definitions - nuclear pharmacies and radiopharmaceuticals. Effective 2/1/22
(M)
(1) "Positive identification" means a method of identifying a person that does not rely on the use of a private personal identifier such as a password, but must use a secure means of identification such as the following:
(a) A manual signature on a hard copy record;
(b) A magnetic card reader;
(c) A bar code reader;
(d) A biometric method;
(e) A proximity badge reader;
(f) A board approved system of randomly generated personal questions;
(g) A printout of every transaction that is verified and manually signed within a reasonable period of time by the individual who prescribed, administered, or dispensed the dangerous drug. The printout must be maintained for three years and made readily retrievable; or
(h) Other effective methods for identifying individuals that have been approved by the board.
(2) A method relying on a magnetic card reader, a bar code reader, a proximity badge reader, or randomly generated questions for identification must also include a private personal identifier, such as a password, for entry into a secure mechanical or electronic system.

5) Can the record keeping systems provide immediate retrieval of the required data for all prescriptions dispensed within the previous 12 months?

Yes: Includes the original prescription number

Yes: Includes date of issuance of the original prescription order by the prescriber

Yes: Includes full name of the patient for whom the drug is intended; or, if the patient is an animal, the last name of the owner, name of animal (if applicable), and species of the animal or animals

Yes: Includes full name and address of the prescriber, including the physical address of the prescriber's practice location

Yes: Includes the prescriber's credential (MD, DDS, DVM, etc.), if indicated on the prescription

Yes: Includes directions for use

Yes: Includes the brand name, if any, or the generic name and the name of the manufacturer or distributor or national drug code of the drug or device dispensed

Yes: Includes the strength, dosage form, and quantity of the drug or device dispensed

Yes: Includes the date of dispensing

6) What method does a pharmacy that is unable to electronically document positive identification use for hard copy documentation?

Hard copy printout of each day's prescription data

7) *PRINTOUTS: Do hard copy printouts meet the requirements of the rule? Written Response Required

No

Observation

Reviewed end of day reports and the following are missing:

- data entry/data entry verification/DUR (all pharmacist steps)

Corrective Action

Pharmacy to determine how to achieve compliant end of day reports.

Rule 4729:5-5-04 | Record keeping. Effective 12/1/20

(B) All records maintained in accordance with this rule shall be uniformly maintained for a period of three years.

(D) A pharmacy that utilizes a computerized system to dispense dangerous drugs that is unable to electronically document positive identification in accordance with paragraph (A) of this rule shall be required to maintain hard copy documentation. Hard copy documentation shall be provided by each registered or licensed individual who makes use of such system by one of the following methods:
(1) A hard copy printout of each day's prescription data.
(a) The printout shall include, at a minimum, the following data:
(i) Date of dispensing;
(ii) Prescription number;
(iii) Patient name;
(iv) Name, strength, and quantity of drug dispensed;
(v) Identification of the pharmacist or pharmacy personnel responsible for any activity described in paragraph (A) of this rule;
(vi) Identification of the pharmacy; and
(vii) Identification of controlled substances.
(b) The printout must be verified, dated, and signed by each individual responsible for any activity described in paragraph (A) of this rule. The printout must be verified and manually signed by the individual within a reasonable timeframe to ensure the accuracy of the record.
(c) If the printout is prepared at a location other than where the drug was dispensed, the printout must be provided to the licensed location within three business days of the date on which the drugs were dispensed. Such printouts must be verified and signed by each individual responsible for any activity described in paragraph (A) of this rule within twenty-four hours of the date the printout is received by the individual.
(d) The printout must be readily retrievable and maintained in chronological order in a separate file at the licensed location where the drug was dispensed for a period of three years from the date of dispensing.
(e) The signed printout may be stored electronically in accordance with paragraph (E) of this rule.

(E) A signed printout that is maintained in accordance with paragraph (D) of this rule may be electronically created and maintained, provided the system creates and maintains the printout in accordance with the following:
(1) All information in the printout shall be scanned in full color (i.e. retains color information and/or color graphics in the document) via technology designed to capture information in one form and reproduce it in an electronic medium presentable and usable to an end user;
(2) A record or image once created shall be unalterable but may be annotated as necessary so long as the original record or image is still available for review and the individual that made the annotation is noted;
(3) Contains security features to prevent unauthorized access to the records;
(4) Contains daily back-up functionality to protect against record loss.

13.8) *Prospective drug utilization review (OAC 4729:5-5-08)

1) Do pharmacists review the patient profile prior to dispensing a prescription?

Yes: Pharmacist completes DUR

13.10) *Manner of processing a prescription (OAC 4729:5-5-10)

3) ORAL: Do pharmacists make a record of the full name of the prescriber and prescriber's agent, if applicable, for oral prescripitons?

Yes

5) ORAL: Do certified pharmacy technicians receive oral non-controlled drug prescriptions?

No

13) REMINDER: Valid Prescription and Corresponding Responsibility

Observation
A prescription, to be valid, must be issued for a legitimate medical purpose by an individual prescriber acting in the usual course of the prescriber's professional practice. The responsibility for the proper prescribing is upon the prescriber, but a corresponding responsibility rests with the pharmacist who dispenses the prescription. An order purporting to be a prescription issued not in the usual course of bona fide treatment of a patient is not a prescription and the person knowingly dispensing such a purported prescription, as well as the person issuing it, shall be subject to the penalties of law.

13.14) Prescription pick-up station (OAC 4729:5-5-14)

1) PHARMACY: Does the pharmacy act as a "pick-up" station or intermediary for the purpose of having prescriptions filled?

Yes: Site is a licensed TDDD

Yes: The receipt, storage, control, and distribution of prescriptions are in the full and actual charge of a pharmacist

Yes: A record keeping system is in place that provides accountability for proper receipt, delivery, disposal and return of all prescriptions

3) PHARMACY: Does the pharmacy dispensing dangerous drugs to a "pick-up station" meet the requirements of the rule?

Yes: Site is licensed as a terminal distributor of dangerous drugs unless exempted or granted waiver by the board

Yes: There is clear and convincing evidence that delivery of a prescription medication directly to the patient would result in danger to public health or safety

Yes: There is clear and convincing evidence that delivery of a prescription medication directly to the patient would result in danger to the patient without increased involvement by a health care professional in the patient's drug therapy

13.18) Dispensing customized patient medication packages by an outpatient pharmacy (OAC 4729:5-5-18)

1) Does the pharmacy dispense customized patient medication packages?

No

13.22) *Return to stock in an outpatient pharmacy (OAC 4729:5-5-22)

1) Does the pharmacy return dispensed drugs to stock (RTS)?

No

13.23) *Security, control and storage of dangerous drugs in an outpatient pharmacy (OAC 4729:5-5-23)

1) *Does a pharmacist provide adequate supervision of the pharmacy and records? Warning

No

Observation
There are three entrances into the pharmacy space. All are accessible by badge access, held by all pharmacy staff (RPh and CPhT) as well as manufacturing staff (non-pharmacists).
The pharmacy's barricade is an alarm system, which consists of motion sensors and door contact sensors. At this time, pharmacists and management have alarm code access - **non-pharmacists have alarm codes to enter pharmacy space**. Discussed with RP, who determined removing alarm code access from non-pharmacists is the easiest method to achieve compliance.
There are multiple cameras, which are part of the badge system but are not related to the alarm.

Corrective Action
Pharmacy to ensure alarm codes are reset and only provided to pharmacists.
Rule 4729:5-5-23 | Security, control and storage of dangerous drugs in an outpatient pharmacy. Effective 12/1/20
(A) The following applies to an outpatient pharmacy licensed as a terminal distributor of dangerous drugs:
(1) Except as provided in paragraph (A)(6) of this rule, a pharmacist shall provide supervision of the dangerous drugs, hypodermics, D.E.A. controlled substance order forms, all records relating to the distribution of dangerous drugs, except where the board has granted permission for such records to be stored at a secure off-site location in accordance with this chapter of the Administrative Code, at all times in order to deter and detect theft or diversion.

(6) Whenever a pharmacist cannot meet the supervision requirements in paragraph (A)(3)(a) of this rule, security of the pharmacy must be provided in accordance with the following:
(a) The pharmacy must be secured by either:
(i) A physical barrier (i.e. barricade) with suitable locks approved by the board. Except for extraordinary circumstances

beyond the pharmacy's control, a pharmacy shall notify the board of any installation or modification to a physical barrier prior to implementation.
(ii) An alarm system approved by the board that is monitored by a central station for control and can detect unauthorized access to the pharmacy. The alarm system shall be tested on a biannual basis. The pharmacy or the entity that manages security for the pharmacy shall maintain testing records for three years from the date of testing and shall make such records readily retrievable. The pharmacy shall be responsible for obtaining testing records if such records are maintained by a third-party. Except for extraordinary circumstances beyond the pharmacy's control, a pharmacy shall notify the board of any installation or modification to an alarm system prior to implementation. This notification requirement does not apply if a pharmacy also utilizes an approved physical barrier in accordance with paragraph (A)(6)(a)(i) of this rule.
(b) Except as provided in paragraph (A)(6)(i) of this rule, the pharmacy must contain all dangerous drugs, hypodermics, and D.E.A. controlled substance order forms and every other item or product that requires the supervision or sale by a pharmacist.
(c) Only a licensed pharmacist may have access to keys or other methods of gaining access to the pharmacy.
(i) Keys to the pharmacy that are not in the possession of a licensed pharmacist that are maintained on-site shall be secured to prevent unauthorized access.
(ii) All combinations or access codes, including alarm codes, shall be changed upon termination of employment of an employee having knowledge of the combination or access code.
(d) All records relating to the distribution of dangerous drugs must be maintained in the pharmacy, except as follows:
(i) The board has granted permission for such records to be stored at a secure off-site location in accordance with this chapter of the Administrative Code; or
(ii) Any designated area outside the pharmacy used to store records that complies with paragraph (A)(6)(i) of this rule.
(e) No item, product, record, or equipment that must be accessible to anyone other than a pharmacist may be stored in the pharmacy.
(f) Only a pharmacist may have access to the pharmacy or stock of dangerous drugs or assume responsibility for the security of dangerous drugs, hypodermics, and any other item or product that requires the supervision or sale by a pharmacist.
(g) No prescription, dangerous drug, hypodermic, nor any other item or product that requires the supervision or sale by a pharmacist may be sold, given away, or disposed of at any time the pharmacy is closed.
(h) New or refill prescription orders may be deposited into a secured area within the building where the pharmacy is located when a pharmacist is not present. Only a pharmacist may have access to this secured area.
(i) Any designated area outside the pharmacy at the location licensed as a terminal distributor of dangerous drugs intending to be used for the storage of dangerous drugs, D.E.A. controlled substance order forms, hypodermics, and records relating to the distribution of dangerous drugs, except where the board has granted a permission for such records to be stored at a secure off-site location pursuant to this chapter of the Administrative Code, and every other item or product that requires the supervision or sale by a pharmacist shall meet the following requirements:
(i) The designated area shall be secured by an approved physical barrier with suitable locks to detect unauthorized entry. Except for extraordinary circumstances beyond the pharmacys control, a pharmacy shall notify the board of any installation or modification to a physical barrier prior to implementation.
(ii) No item, product, record, or equipment that must be accessible to anyone other than a pharmacist may be stored in the designated area, unless authorized by the board of pharmacy.
(iii) Authorized personnel may have access if there is supervision by a pharmacist.
(iv) No controlled substances may be stored outside of the pharmacy, except as authorized under division 4729:10 of the Administrative Code.
(j) If an outpatient pharmacy provides services by means of a drive-through facility, the drive-through facility shall be constructed and maintained in a manner, and with materials, that secures the premises of the pharmacy from unauthorized access.

(3) The pharmacist or pharmacists on duty:
(a) Shall be physically present at the licensed location and responsible for the security of the pharmacy and supervision of pharmacy personnel.
(b) If the pharmacy is located within a store or business, shall ensure that all dangerous drugs, controlled substances, and hypodermics that are delivered onto the premises of the store or business are immediately placed and secured in the pharmacy under the physical control of the pharmacist or pharmacists on duty or secured in a designated area in accordance with paragraph (A)(6)(i) of this rule.

2) Is the pharmacy separated from the merchandising or public areas?

Not Applicable: Not open to the public

3) Is a pharmacist physically present at the pharmacy?

Yes: Responsible for security of pharmacy

Yes: Supervises pharmacy personnel

4) *DELIVERIES: Are dangerous drugs and hypodermics immediately secured upon delivery?

Yes: Secured in the pharmacy

5) Is a pharmacist present at all times non-pharmacy personnel enters the pharmacy?

Yes

6) *SCHEDULE II DRUGS: Are all schedule II controlled substances stored in a securely locked, substantially constructed cabinet or safe?

Not Applicable

7) *How is the pharmacy secured when a pharmacist cannot be present?

An alarm system approved by the board

8) ALARM SYSTEM: Does the alarm system and testing meet the requirements of the rule?

Yes: It is monitored by a central station for control and can detect unauthorized access to the pharmacy

Yes: The alarm system is tested on a biannual basis.

Yes: Testing records are maintained for three years

9) Are items requiring pharmacist supervision stored outside of the pharmacy?

No

11) RECORDS: Are records relating to the distribution of dangerous drugs only maintained in the pharmacy?

Yes

12) Are any items, products, records, or equipment that must be accessible to anyone other than a pharmacist stored in the pharmacy?

No

17) *DRIVE-THRU: Does the pharmacy provide services by means of a drive-thru facility?

No: No drive-thru facilities

13.24) *Drug inventory records and other record keeping provisions (OAC 4729:5-5-24)

1) *RECEIPT: Do records of receipt contain the required information?

Yes: Contains name, strength, dosage form, and quantity of dangerous drug received

Yes: Contains name and address of seller

Yes: Contains name and address of recipient

Yes: Contains date of receipt

2) TEMPERATURE MONITORING: Do records of temperature control monitoring include the required information?

No

Observation

The pharmacy and manufacturing parts of the business share a refrigerator. At this time, the pharmacy maintains a paper log of temperatures which only account for Monday-Friday. The manufacturing business has a continuous temperature monitor and is alerted in real time to excursions.

Discussed that the manufacturing continuous monitor may be used for the pharmacy's record, but there needs to be a written policy that if manufacturing is notified of an excursion, the pharmacy staff must be made immediately aware and corresponding documentation retained for 3 years.

Rule 4729:5-5-24 | Drug inventory records and other record keeping provisions. Effective 8/19/22

(B) Temperature logs maintained in accordance with paragraph (B) of rule 4729:5-5-23 of the Administrative Code shall include either:

(1) The date and time of observation, the full name or the initials of the individual performing the check, and the temperature recorded; or

(2) For automated systems that provide temperature monitoring, either of the following:

(a) A report that provides, at a minimum, the date and time of observation and the temperature recorded; or

(b) A report that provides temperature excursions, if any, and the date, time, temperature recorded, and length of the noted excursion.

Rule 4729:5-5-23 | Security, control and storage of dangerous drugs in an outpatient pharmacy. Effective 12/1/20

(B) Refrigerators and freezers used for the storage of dangerous drugs shall comply with the following:

(1) Maintain either of the following to ensure proper refrigeration and/or freezer temperatures are maintained:

(a) Temperature logs with, at a minimum, daily observations; or

(b) A temperature monitoring system capable of detecting and alerting staff of a temperature excursion.

(2) The terminal distributor shall develop and implement policies and procedures to respond to any out of range individual temperature readings or excursions to ensure the integrity of stored drugs.

(3) The terminal distributor shall develop and implement a policy that no food or beverage products are permitted to be stored in refrigerators or freezers used to store dangerous drugs.

3) NON-CONTROLLED DISPOSAL: Do records of dangerous drugs disposed from inventory, other than controlled substances, contain the required information?

See Observation Below

Observation
Provided printed copy of Board's non-controlled substance disposal form.
Rule 4729:5-5-24 | Drug inventory records and other record keeping provisions. Effective 8/19/22
(C) Records of dangerous drugs disposed from inventory, other than controlled substances, shall contain the name, strength, dosage form, and quantity of the dangerous drug disposed, the date of disposal, the method of disposal, and the positive identification of the licensed or registered health care professional that performed the disposal.

6) TRANSFR/SALE: Do records of transfer or sale contain the required information?

See Observation Below

Observation
Rule 4729:5-5-24 | Drug inventory records and other record keeping provisions. Effective 8/19/22
(E) Records of transfer or sale conducted in accordance with rule 4729:5-3-09 of the Administrative Code shall contain the name, strength, dosage form, national drug code, and quantity of the dangerous drug transferred or sold, the address of the location where the drugs were transferred or sold, and the date of transfer or sale.

Rule 4729:5-3-09 | Occasional sale and drug transfers.

7) Are electronic records created and maintained in accordance to rule?

See Observation Below

Observation
Rule 4729:5-5-24 | Drug inventory records and other record keeping provisions. Effective 8/19/22
(F) All records maintained pursuant to this rule may be electronically created and maintained, provided that the system that creates and maintains the electronic record does so in accordance with the following:
(1) Complies with the requirements of this rule;
(2) All paper records maintained electronically shall be scanned in full color via technology designed to capture all information in the paper record in one form and reproduce it in an electronic medium presentable and usable to an end user;
(3) Contains security features to prevent unauthorized access to the records; and
(4) Contains daily back-up functionality to protect against record loss.

8) *RECORDS: Are all records readily retrievable and kept on-site for at least three years?

Yes

10) *RECORDS: Do all computerized records contain daily back-up functionality to protect against record loss?

Yes

11) CONTROLLED SUBSTANCE INVENTORY: Is a controlled substance inventory completed within 13 months of the previous inventory and upon adding a scheduled drug?

Not Applicable

18.1) Definitions – pharmacy compounding (OAC 4729:7-2-01)

1) Does the pharmacy compound?

Yes: Nuclear Compounding

18.2) Sterile compounding exemptions (OAC 4729:7-2-02)

1) Does the pharmacy compound non-hazardous, conventionally manufactured sterile products in accordance with the directions contained in approved labeling provided by the product's manufacturer?

Yes

18.3) Drugs compounded in a pharmacy (OAC 4729:7-2-03)

1) Does the pharmacy compound non-sterile drug products?

No: Pharmacy does not compound non-sterile drug products

18.5) Drugs compounded for veterinarian office use (OAC 4729:7-2-05)

1) Does the pharmacy compound drugs intended for animal use by licensed veterinarians?

No

28) Substance Abuse and Mental Health Resources for Healthcare Professionals

1) Substance Abuse and Mental Health Resources for Healthcare Professionals

Observation

The healthcare profession is not immune to substance use disorder and mental health conditions. Such medical conditions impair a healthcare professional's competency, ability, and judgment. Substance use disorder and/or mental health conditions that are left untreated may not only cause a healthcare professional to risk their career, but may also endanger the life of a patient. These medical conditions can be effectively treated, and it is possible for healthcare professionals that are in treatment or recovery to return to practice.

The State of Ohio Board of Pharmacy encourages all healthcare professionals who may be struggling with substance use disorder or mental health condition to seek help. The following are resources that can assist healthcare professionals in getting help: (The resources listed here are for informational purposes only and do not constitute an endorsement by the State of Ohio Board of Pharmacy. They do not represent a complete list of the resources available)

Ohio Careline 1-800-720-9616, emotional support, with referral to other resources if needed.
Crisis text line, text "4hope" to 741 741 to speak with a crisis counselor.
Treatment Bridge 1-877-275-6364, for addiction and mental health services.
National Suicide prevention dial 988, or call 1-800-273-8255.
Ohio Domestic Violence Network 1-800-934-9840
Pharmacist Rehabilitation Organization (www.ohiopro.org) for pharmacists and pharmacy interns.
Ohio Physicians Health Program (www.ophp.org)

29) Inspection Affirmation

1) Inspection Affirmation

Observation

*This document only addresses compliance with the rules or laws specifically identified above.

As the person in charge at the time of this inspection, I affirm that I have reviewed this inspection report with the Specialist/Agent/Inspector, and understand its content.

If this inspection report requires a written response, I understand, per OAC 4729:5-3-03, that either of the following must be submitted to the State of Ohio Board of Pharmacy within 30 days of this inspection:
(1) The action(s) the licensee or applicant has taken to correct the violation(s) and the date of implementation of the corrective action(s); or
(2) An explanation disputing the observed violations.

I understand that if I am not the responsible person documented on this site's Ohio terminal distributor of dangerous drugs license, I will ensure the responsible person is provided a complete copy of this inspection report in a timely manner.

I further acknowledge that a written response does not release the licensee listed in this inspection report from potential disciplinary action.

Responses must be either emailed (with a copy of the inspection report) to WRITTENRESPONSE@PHARMACY.OHIO.GOV or mailed to 77 South High Street, 17th Floor, Columbus, Ohio 43215.

Summary

Written Response Required

Corrective Action Plan

PharmaLogic Cincinnati, LLC
OH BOP Inspection
Inspection Date: 7/15/2025

Violation 13.4, 7: PRINTOUTS: Do hard copy printouts meet the requirements of the rule?
Comments: Reviewed end of day reports and the following are missing: data entry/data entry verification/DUR (all pharmacist steps).
Response: Current daily reports do not include the aforementioned items. An additional custom report can be printed to include the missing information.

- Corrective Action: Designated Person will print out daily report after all doses have been dispensed and additional report to include data entry, data entry verification, and DUR. Designated Person will manually sign reports at the end of each day to confirm review and maintain for three years. This task will be reviewed with all staff pharmacists as part of their 'closing check list.'
- Target Completion Date: 07/25/2025

Warning 11.4, 2: PURCHASE: Has the TDDD completed an annual query of the board's online roster prior to purchase of dangerous drugs at wholesale?
Comments: If no documented query is conducted before a purchase is made, it shall be presumed that the purchase of dangerous drugs by the terminal distributor is in violation of section 4729.51 of the Revised Code. Most recent queries were conducted January 2024; no query for McKesson performed.
Response: Pharmacy Manager will perform an annual query of all wholesalers at the start of each calendar year. Documentation will be kept in online or electronic format for record keeping.

- Corrective Action: See above. Reminder shall be set up in BioRx alerts.
- Target Completion Date: 07/18/2025

Warning 13.2.4, 1: Does the pharmacy have a process for pharmacy staff to communicate requests for additional staff or reports of staffing concerns?
Comments: RP not familiar with a formal process to communicate staffing concerns.
Response: Process for communicating requests/concerns is available through routine staff and one-on-one meetings or at any time issues arise in the pharmacy.

- Corrective Action: Pharmacy staff routinely meets with reporting manager to discuss any work-related concerns including staffing issues. All pharmacy staff can utilize their 'chain of command' when operational issues arise (i.e., Pharmacy Staff to Pharmacy Manager, Pharmacy Manager, to Director of Pharmacy Operations, Director of Pharmacy Operations to VP of Pharmacy Operations, if necessary). All company employees may also reach out to the HR department directly. This will be reiterated to all staff members during routine meetings.
- Target Completion Date: 7/18/2025

Warning 13.23,1: Does a pharmacist provide adequate supervision of the pharmacy and records?
Comments: There are three entrances into the pharmacy space. All are accessible by badge access, held by all pharmacy staff (RPh and CPhT) as well as manufacturing staff (non-pharmacists). The pharmacy's barricade is an alarm system, which consists of motion sensors and door contact sensors. At this time, pharmacists and management have alarm code access – non pharmacists have alarm codes to enter pharmacy space. Discussed with RP, who determined removing alarm code access from non-

pharmacists is the easiest method to achieve compliance. There are multiple cameras, which are part of the badge system but are not related to the alarm.

Response: Alarm code will be changed and access removed from manufacturing staff.

- Corrective Action: *See above. Code will only be available to pharmacists.*
- Target Completion Date: 7/15/2025

1) *Initial Inspection Information

1) Personnel conducting inspection

Observation
Compliance Specialist Sarah Nash, PharmD, RPh

2) Were multiple inspection guides used during this inspection?

Yes

Observation
A complete copy of this inspection will include: Outpatient Pharmacy

Any copy of this inspection is considered incomplete if all documents listed are not available for review.

4) *Does the TDDD have a valid registration issued by the Drug Enforcement Administration?

No: Category 2 and is not required

5) Is the Responsible Person present during the inspection?

Yes

6) Does the TDDD distribute dangerous drugs outside of Ohio?

Yes

Observation
Licensed in 39 states

2.1) Definitions- Nuclear Pharmacies and Radiopharmaceuticals (OAC 4729:5-6-01)

1) Does the TDDD compound or dispense radiopharmaceuticals, radiopharmaceutical preparations, or radioactive drugs?

Yes

2) Does the Nuclear Pharmacy maintain the required licensures?

Yes: TDDD

Yes: Licensed by United States nuclear regulatory commission or the appropriate state nuclear regulatory agency

Observation
Ohio Department of Health RAM license 02500310033, expires 10/1/2026

3) Does the authorized nuclear pharmacist meet the requirements of the rule?

Yes: Has completed 700 hours in structured educational program and obtained written attestation by a preceptor authorized nuclear pharmacist

4) Is the responsible person an authorized nuclear pharmacist?

Yes

5) Institutional Facility: Has an institutional facility with an on-site nuclear pharmacy submitted notification to the board as required by rule?

Not Applicable

2.2) Applicability (OAC 4729:5-6-02)

1) Does the facility prepare, prepare with minor deviation, compound, dispense, or repackage radiopharmaceuticals?

Yes

2.3) Preparation, Compounding, Labeling, Dispensing, Repackaging Radiopharmaceuticals (OAC 4729:5-6-03)

1) Does the TDDD dispense all radiopharmaceuticals pursuant to a patient-specific prescription?

Yes: Radiopharmaceuticals are dispensed pursuant to a patient-specific prescription issued by a licensed health professional authorized to prescribe drugs

Yes: A limited quantity of radiopharmaceuticals are prepared and distributed in anticipation of prescriptions based on routine, regularly observed prescribing patterns

Yes: In the event a patient's name is not available at the time of dispensing, the pharmacy obtains the patient name within 72-hours, and associates it with the prescription dispensing records.

2) Does the TDDD label radiopharmaceutical outer shields with the required information?

Yes: Outer Shields contain the name and telephone number of the pharmacy.

Yes: Outer shields contain the prescription number.

Yes: Outer shields contain the patient's first and last name, or first initial and last name, if available at the time of dispensing.

3) Does the TDDD label the immediate radiopharmaceutical container with the required information?

Yes: Contains the prescription number

Yes: Contains the patient's first and last name, or first initial and last name, if available at the time of dispensing.

4) Does the TDDD ensure all employees comply with all applicable local, state, and federal requirements for proper labeling, environmental controls, integrity, and safety of all products transported?

Yes

5) Does the TDDD ensure all employees comply with applicable local, state, and federal requirements for the disposal of radioactive and/or biohazardous waste?

Yes: The TDDD ensures employees comply with all applicable local, state, and federal requirements for the disposal of biohazardous waste.

6) Do all personnel trained to work with radiopharmaceuticals do so under the supervision of an authorized nuclear pharmacist?

Yes

7) Does the TDDD report medical events to the Ohio Department of Health in accordance with OAC 3701:1-58-101?

Yes

2.4) Record Keeping (OAC 4729:5-6-04)

1) Does the TDDD maintain positive identification records of the authorized nuclear pharmacist conducting the final check of a radiopharmaceutical?

Yes

2) Does the TDDD maintain all records in a readily retrievable, uniform manner for at least 3 years?

Yes: All records are readily retrievable

Yes: All records are uniformly maintained

Yes: All records are maintained for at least 3 years

Yes: All records are kept onsite

2.5.1) Information

2) UPS 825 FAQ Questions 1-18: SCOPE

Observation
SCOPE:
1. What is a Radiopharmaceutical?
A radiopharmaceutical (radiopharmaceutical preparation/radioactive drug) is defined as a finished dosage form that contains a radioactive substance in association with one or more ingredients and that is intended to diagnose, stage a disease, monitor treatment, or provide therapy. A radiopharmaceutical includes any non-radioactive reagent kit or radionuclide generator that is intended to be used in the preparation of any such substance. The term "radiopharmaceutical" and "radioactive drug" are used interchangeably.

Because they contain radioactive materials, radiopharmaceuticals fall under the control of the U.S. Nuclear Regulatory Commission (NRC) or NRC-contracted agreement state agency. Also, because they are prescription drugs, radiopharmaceuticals fall under the control of the U.S. Food and Drug Administration (FDA).

2. Are radiopharmaceuticals classified as NIOSH hazardous drugs because of the radiation hazard?
No. National Institute for Occupational Safety and Health (NIOSH) definition of hazardous drugs excludes radiopharmaceuticals, which are regulated by the Nuclear Regulatory Commission.

3. What is the purpose of ?
The purpose of <825> is to provide uniform minimum standards for the preparation, compounding, dispensing, and repackaging of sterile and non-sterile radiopharmaceuticals for humans and animals that occur as part of state-licensed activities (e.g., the practices of pharmacy and medicine). <825> describes facilities and engineering controls, personnel training and qualifications, and procedural standards for processing radiopharmaceuticals in nuclear pharmacies, nuclear medicine areas in hospitals and clinics, and other healthcare settings that utilize radiopharmaceuticals. For sterile radiopharmaceuticals, these standards balance aseptic handling practices with radiation protection practices to describe appropriate strategies that provide assurance of maintaining patient safety while also ensuring the safety of individuals performing these activities.

4. Why and how was developed?
<825> was developed in response to public comments associated with the 2015 proposed revision of <797>, a white paper in 2016 by the Society of Nuclear Medicine and Molecular Imaging, and a 2017 Stakeholders Workshop held by USP, all of which emphasized the unique characteristics of radiopharmaceuticals which make compliance with <797> difficult or impossible.

<825> was developed by an Expert Panel composed of members from the USP Chemical Medicines 4 Expert Committee (which oversees radioactive drugs), the USP Compounding Expert Committee, FDA, Health Canada, nuclear pharmacists and a nuclear medicine technologist.

The draft of <825> was made available for public comment in July 2018. Public comments were received through November 2018. The final version addressing all the public comments was released June 1, 2019, with an official date of December 1, 2020.

5. To whom and in what settings does apply to?
<825> applies to all individuals who prepare, compound, dispense or repackage radiopharmaceuticals. Applicable individuals consist of authorized nuclear pharmacists (ANPs), and authorized user (AU) physicians, as well as individuals working under their supervision. This includes, but not limited to, student pharmacists, nuclear pharmacy technicians, nuclear medicine technologists and students and physician residents and trainees.

6. How do I know what are requirements versus recommendations in ?
Generally, requirements in a General Chapter are conveyed by use of the term "must." Recommendations are conveyed by use of the terms "should" and "may".

7. What does "official date" mean?
The USP "official date" indicates the date by which affected users are expected to meet the requirements of a particular standard. Ensuring compliance with the requirements of these standards is the responsibility of regulators such as the FDA, states, other government authorities, and accreditation/credentialing organizations. USP has no role in enforcement.

8. When will General Chapter become official?
Please see the Notice of Intent to Revise; December 1, 2020

9. Are the temperatures in expressed in degrees Fahrenheit or Celsius?
Unless otherwise specified, all temperatures in the USP–NF are expressed in degrees centigrade (Celsius) (see also General Notices 8.180 Temperatures).

10. Have there been changes between the proposal in PF44(5) Sep-Oct 2018 and the official version as results of public comments?
Yes. Based on the public comments, changes have been made to <825>. For example, requirements for immediate use preparations have all been presented as new section 3. Immediate Use of Sterile Radiopharmaceuticals. Another example of the change is the time interval for requalification of media fill competency has been increased from 6 months to 12 months. For detailed information on the changes due to public comments, please see the commentary.

11. Is Administration to the patients in the scope of ?
No. <825> explicitly states that it does not cover the "administration of radiopharmaceuticals to patients."

12. Why is needed? Have there been published reports of patient harm from mishandled radiopharmaceuticals?
This chapter describes appropriate standards that provide reasonable assurance of maintaining patient safety while also providing reasonable assurance for the safety of individuals performing these activities.

There have been published reports of patient harm form mishandled radiopharmaceuticals. Patel, et al. reported 16 patients who developed hepatitis C virus infections from a contaminated radiopharmaceutical used in myocardial perfusion studies (Patel PR, et al. Hepatitis C Virus Infections From a Contaminated Radiopharmaceutical Used in Myocardial Perfusion Studies. JAMA. 2006; 296(16):2005-2011.) Moore, et al. reported several patients who developed hepatitis C virus infections from improper handling practices in a nuclear cardiology clinic (Moore ZS, et al. Transmission of Hepatitis C Virus During Myocardial Perfusion Imaging in an Outpatient Clinic. Am J Cardiol. 2011:108;126-132.)

13. How do requirements interface with NRC regulations and RAM license conditions?
As stated in the Introduction, other regulations (e.g., NRC) must be followed in addition to the standards in <825>. In other words, nothing in <825> supersedes NRC regulations and RAM license requirements. For example, in Section 2 it states "as per RAM license requirements, individuals must wear body and as required extremity dosimeters (e.g., a ring worn on a finger) for long term monitoring of personnel radiation exposure. Any extremity dosimeter must be worn underneath the gloves and must not interfere with proper fit of gloves." As another example, Section S.7 states "[a]ll RAM users must comply with the conditions specified in their approved RAM license application and regulations, and RAM license conditions may supersede the requirements for environmental controls described in this section." For sterile radiopharmaceuticals, <825> balances aseptic handling practices with radiation protection practices to describe appropriate strategies that provide assurance of maintaining patient safety while also ensuring the safety of individuals performing these activities.

14. It is unclear whether nuclear medicine departments in hospitals need to follow USP standards because they are not nuclear pharmacies.
The Introduction section of <825> states "This chapter applies to all practice settings where radiopharmaceuticals are prepared, compounded, dispensed, or repackaged. Practice settings consist of state-licensed nuclear pharmacies, federal nuclear pharmacy facilities, and other healthcare facilities, including, but not limited to: nuclear medicine departments in hospitals and clinics, nuclear cardiology clinics (fixed or mobile), and other specialty clinics." <825> goes on to state that "This chapter applies to all individuals who prepare, compound, dispense, or repackage radiopharmaceuticals. Applicable individuals consist of authorized nuclear pharmacists (ANPs) and authorized user (AU) physicians, as well as individuals working under their supervision. This includes, but is not limited to, student pharmacists, nuclear pharmacy technicians, nuclear medicine technologists and students, and physician residents and trainees."

15. I work in a PET drug manufacturing facility that produces a variety of products under ANDAs, INDs, and RDRC approval. In addition, the half-lives of the PET drugs range from 10 minutes to more than 110 minutes. For short-lived products, a single batch is used for a single patient dose. For longer-lived products, a single batch is used for multiple patient doses. For these scenarios, would you please explain the difference between septum punctures that occur under manufacturing and if they matter for purposes of , especially with regard to the Immediate Use provisions of ? It is stated in the chapter that "[T]his chapter does not apply to manufacturing of approved radiopharmaceuticals (e.g., NDA, ANDA, BLA) in FDA-registered manufacturing establishments or Manufacturing of radiopharmaceuticals as investigational agents (e.g., IND, RDRC). In each

of these scenarios, ...the further processing and manipulation of the drug product after release falls within the scope of this chapter."
Punctures made for QC testing are considered pre-manufacturing release and do not apply to <825>.

16. Does a facility that produces radiopharmaceuticals not intended for human or animal use need to follow the provisions of ?
No. The Introduction of <825> states, "This chapter is intended to provide uniform minimum standards for the preparation, compounding, dispensing, and repackaging of sterile and nonsterile radiopharmaceuticals for humans and animals that occur as part of state-licensed activities."

17. What is an Expert Panel vs. Expert Committee?
An Expert Panel is an advisory body formed to provide additional expertise on specific compendial topics and to inform the development of standards by an Expert Committee. An Expert Panel develops recommendations for an Expert Committee; an Expert Panel does not vote on standards.

18. What is a minor deviation and who defines it?
<825> defines preparation with minor deviation as: The act of preparing a conventionally manufactured kit with a conventionally manufactured radionuclide with volume, and/or radioactivity, and/or step-by-step deviations from the manufacturers recommended labeling while ensuring that the final preparation maintains appropriate radiochemical and radionuclidic purity for the entirety of the BUD. Examples of minor deviations include, but are not limited to, altering the amount of activity or volume added to the vial, changes in step-by-step operations (e.g., dilute Tc-99m solution after, rather than before, addition to the vial, use of a venting needle or filter), using alternative devices or equipment (e.g., a heating block rather than a hot water bath), and using alternative radiochemical purity testing methods.

This definition is adapted from published FDA Guidance.

3) USP 825 FAQ Questions 19-20 : Designated Person

Observation

USP 825 | Effective 12/1/2023
USP FAQ for your information. Add as needed to individual inspections.

DESIGNATED PERSON
19. In an outpatient clinic with no associated pharmacy, and therefore no Director of Pharmacy, who is the responsible person for radiopharmaceuticals?
The Authorized User Physician is responsible for radiopharmaceuticals. Section 1. Introduction states: Applicable individuals consist of authorized nuclear pharmacists (ANPs) and authorized user (AU) physicians, as well as individuals working under their supervision.

20. Does the "designated person" have to be someone from the pharmacy department?
No. The Glossary defines the Designated Person as "One or more individuals assigned to be responsible and accountable for the performance and operation of the radiopharmaceutical processing facility and for personnel who prepare, compound, dispense, and repackage radiopharmaceuticals." It is the facility's responsibility to choose a qualified individual to serve as the Designated Person. The chapter does not require a specific number of Designated Persons per site, or the discipline of the person(s) designated.

5) USP 825 Appendix / Abbreviations

Observation
APPENDIX
Abbreviations
ACPH Air changes per hour
ALARA As low as reasonably achievable
ANDA Abbreviated new drug application
ANP Authorized nuclear pharmacist
AU Authorized user
BLA Biologics license application
BSC Biological safety cabinet
BUD Beyond-use date
CETA Controlled Environment Testing Association
cfu Colony-forming unit
CoA Certificate of analysis
DPA Direct processing area
EPA Environmental Protection Agency
FDA Food and Drug Administration
FDCA Food, Drug, and Cosmetic Act
HEPA High-efficiency particulate air
HVAC Heating, ventilation, and air conditioning
IND Investigational new drug
IPA Isopropyl alcohol
ISO International Organization for Standardization
LAFW Laminar airflow workbench
MAA Macroaggregated albumin
MEA Malt extract agar
MFR Master Formulation Record
NDA New drug application
NRC Nuclear Regulatory Commission
PEC Primary engineering control
PET Positron emission tomography
RAM Radioactive material
RDRC Radioactive drug research committee
RH Relative humidity
SDA Sabouraud dextrose agar
SEC Secondary engineering control
SOP Standard operating procedure
SRPA Segregated radiopharmaceutical processing area
TSA Trypticase soy agar

2.5.2) Non-Sterile Radiopharmaceuticals

1) Does the TDDD compound non-sterile radiopharmaceuticals?

No

2.5.3) Sterile Radiopharmaceuticals

1) Does the TDDD compound sterile radiopharmaceuticals?

Yes: The TDDD compounds injectable radiopharmaceuticals (e.g. intravenous, intrathecal, intraperitoneal, subcutaneous, and intradermal).

2) Does the TDDD sterilize compounded radiopharmaceuticals which are made with one or more nonsterile components prior to dispensing?

No.

3) Does the TDDD perform bacterial endotoxin testing on injectable compounded preparations whose components are not certified to be pyrogen free?

Other

Observation
N/A

4) Does the TDDD wipe the vial septum with 70% sterile isopropyl alcohol prior to initial needle puncture?

Yes:

2.5.4) Radiation Safety Considerations

1) Do personnel exposed to radiation minimize handling time to minimize radiation exposure?

Yes: Personnel handling radiopharmaceuticals work in a controlled and safe manner, including multiple hand movements in and out of the ISO 5 PEC during aseptic processes.

2) Do personnel handling radiopharmaceuticals utilize techniques to increase distance between the operator and RAM?

Yes: Personnel handling radiopharmaceuticals use remote handling tools to increase distance between the operator and the RAM

Observation
Work is performed in a hot cell

3) Do personnel handling radiopharmaceuticals utilize shielding materials to limit radiation exposure?

Yes: The TDDD uses lead or tungsten pigs to store completed radiopharmaceutical compounds.

Yes: The TDDD uses lead-lined cabinets and storage containers for storing radioactive waste, isotopes, radiopharmaceuticals and other materials.

Yes: The TDDD uses lead bricks caves or L-Blocks for completing lab work with radioisotopes.

Yes: The TDDD uses syringe shields during dose preparation and administration.

Yes: Radioactive waste storage areas are shielded to minimize exposure rates.

Yes: Lead vial shields are used to house radioactive components.

4) Does the TDDD compound using appropriate radiation contamination control measures?

Yes: Containers are maintained under neutral or negative pressure.

Yes; Clean, disposable absorbent low-lint pads are used to contain radioactive contamination in the ISO 5 PEC

Yes: ISO Class 5 PECs have vertical air flow

5) Do individuals exposed to radiation wear body and extremity dosimeters for long-term monitoring of personnel radiation exposure?

Yes: Body dosimeters are worn underneath gowns.

Yes: Extremity Dosimeters (e.g., ring worn on a finger) are worn underneath gloves.

Yes: Extremity dosimeters do not interfere with the proper fit of gloves.

Yes: Radiation measuring devices are placed inside the ISO 5 PEC in a manner that minimizes disruption of air flow.

Yes: Other necessary equipment (e.g., monitors, barcode scanners, label printers) are placed inside the ISO 5 PEC in a manner that minimizes disruptions of air flow.

2.5.5) Immediate Use of Sterile Radiopharmaceuticals

1) USP 825 FAQ Questions 21-36: Immediate Use

Yes

Observation

USP 825 | Effective 12/1/2023
USP FAQ for your information. Add as needed to individual inspections.

IMMEDIATE USE
21. If the "bulk" Tc-99m pertechnetate vial obtained for contingency usage is used to prepare a radiopharmaceutical for immediate use, can it be saved for additional patient studies?
No, see Section 3, Immediate Use of Sterile Radiopharmaceuticals, which states "All components involved (e.g., Tc-99m sodium pertechnetate syringe or vial, final prepared radiopharmaceutical kit vial, diluent vial) must be discarded within one hour of being punctured or after use for a single patient administration, whichever is first." Therefore, any residual content of all vials utilized must be discarded after 1 hour so it cannot be saved for additional patient studies.

22. Can the area used for radiolabeling food be used for immediate use red cell labeling or other sterile radiopharmaceuticals if cleaned first?
Yes, if the area is used for only one activity throughout the time of handling and then cleaned before it is used for another activity.

Section 3 Immediate Use of Sterile Radiopharmaceuticals states "Area for sterile preparation and/or dispensing must be functionally separate from nonsterile compounding area (e.g., radiolabeling food) during the time of use."

Section 11.1 Compounding Non-sterile Radiopharmaceuticals states "Areas designated for nonsterile compounding must be cleaned and uncluttered and separated from areas designated for sterile radiopharmaceuticals."

Section 10.4 Preparation of Radiolabeled Red Blood Cells for Immediate Use states "A dedicated space for blood handling must be designated through the entirety of the blood radiolabeling process. This area must be free from clutter and not used

for any other radiopharmaceutical preparation or handling until the completion of cleaning and disinfection."

23. Is QC testing required for radiopharmaceuticals prepared under the immediate use provision?
<825> Section 3 is not fully prescriptive on all factors. In Section 8. Assigning BUD, there is discussion of factors that must be considered in determining BUD, including maintenance of radiochemical purity (which may require studies of QC testing over time), but this would rarely be applicable for Immediate Use. In Section 9. Documentation, it requires that records be maintained for "End product radiochemical and other testing, as applicable, results of preparations, preparations with minor deviations, and compounded preparations." For some radiopharmaceutical kits, the package insert preparation instructions require QC testing, but for other radiopharmaceutical kits they do not. Section 10.2 Preparation with Minor Deviations includes a requirement for "appropriate in-house QC testing, designed to validate the radiochemical purity of the product for the entirety of the BUD or is supported by appropriate peer-reviewed publications for the minor deviation utilized." Apart from <825>, QC testing should be performed as a professional standard of practice (for example, see document from SNMMI http://snmmi.files.cms-plus.com/docs/JNMT354p272.pdf; the American College of Radiology https://www.acr.org/-/media/ACR/Files/Practice-Parameters/Radiopharmace...; and the American Pharmacists Association, https://pharmacist.com/sites/default/files/files/Nuclear-Pharmacy-Compo...).

24. Can patient specific doses be prepared for immediate use with contingency Tc-99m sodium pertechnetate?
Yes, <825> allows preparation (including preparation with minor deviations) and/or dispensing that is limited to use for a single patient. Please refer to Section 3. Immediate Use of Sterile Radiopharmaceuticals for more details.

25. For radiopharmaceutical kits prepared under immediate use conditions, must radiochemical purity (RCP) testing be performed?
RCP testing may be fulfilled at the point of care before administration, or through a systematic validation of preparation procedures that ensure RCP. The term Preparation includes not only the process of following the manufacturer's recommendations, but also includes preparations with deviations from the manufacture's recommendations. USP <825> Section 10. on Preparation states: "The individual responsible for preparing the radiopharmaceutical(s) must ensure that the final preparation complies with quality and purity specifications throughout the assigned BUD. This includes, as appropriate for the preparation, radionuclidic purity, radiochemical purity (RCP), chemical purity, and physical and chemical properties" (Italics added for emphasis). The FDA approval process is based on labeling instructions directed to maintain stability throughout the "use by" time. Some radiopharmaceuticals approved before 1990 do not have RCP testing mentioned in their product labeling. The physician or pharmacist is responsible for ensuring that the radiopharmaceutical meets the quality and purity intended by the manufacturer and is responsible for documentation as stated in <825> Section 9. Documentation as applicable to the category of preparation. In these situations, the USP monograph or other equivalent testing method used to ensure the stability throughout the BUD should be sufficiently rigorous to allow statistical confidence in the results.

26. Is the BUD limited to one (1) hour or less for immediate use?
Yes, <825> specifies that the BUD for immediate use is one hour. Please refer to <825> Section 3. Immediate Use of Sterile Radiopharmaceuticals and information in Table 7.

27. For the immediate use category, does the lab coat need to be cleaned daily or does a disposable lab coat need to be used?
In section 4.4, Hand Hygiene and Garbing for Immediate Use Preparation, it states to "...don a clean coat or gown that has not been exposed to a patient of patient care area..." and "a different lab coat must be worn to care for a patient than the coat/gown used for radiopharmaceutical preparation." Each facility should develop policies and procedures on the use and donning of lab coats or gowns consistent with the provisions of this chapter.

28. Can an oral Tc-99m sulfur colloid unit-dose be split into multiple syringes for multiple patients for non-sterile compounding (e.g., radiolabeling food) without an ISO 5 PEC?
Non-sterile compounding does not require an ISO 5 PEC. Section 3 Immediate Use of Sterile Radiopharmaceuticals is only for sterile radiopharmaceuticals.

29. Does manipulating a unit dose by adding or removing volume and changing the needle need to follow the immediate use standards?
Section 3 "Immediate Use of Sterile Radiopharmaceuticals" states "Manipulations for any unit doses (e.g., decreasing the dosage, needle changes) or dispensing for one patient (e.g., withdrawing a dose) is allowed."

30. What considerations must be made when ordering Tc-99m sodium pertechnetate to be used in ambient air, in compliance with the immediate use standards?
When deciding the amount of Tc-99m sodium pertechnetate and whether it should be in a syringe or a vial for emergency usage the following must be considered under Section 3 "Immediate Use of Sterile Radiopharmaceuticals":

Appropriate for preparation (including minor deviations) and/or dispensing that is limited to use for a single patient.
All components involved (e.g., Tc-99m sodium pertechnetate syringe or vial, final prepared radiopharmaceutical kit vial, diluent vial) must be discarded within 1 hour of being punctured or after use for a single patient administration, whichever is first.
Dose pooling (combining doses from two or more syringes to meet one patient's need) may be performed as immediate use.
Any residual activity that remains must be immediately discarded and not utilized for any other patient."
The number of steps or punctures is not limited.

31. If a provider adds lidocaine immediately prior to administration, what standards need to be followed?
In accordance with Section 3 "Immediate Use of Sterile Radiopharmaceuticals, "[w]hile adding a non-radioactive, sterile and commercially manufactured pharmaceutical (e.g., lidocaine) to a unit dose is otherwise considered compounding, it is allowed for immediate use purposes" as long as all of the requirements in Section 3 "Immediate Use of Sterile Radiopharmaceuticals," is adhered to."

32. If a provider is adding lidocaine to 4 syringes containing a radiopharmaceutical for one patient per the immediate use standards, can this be done with 1 vial of lidocaine?
This chapter does not apply to the preparation of non-radioactive drugs, including those used as pharmacologic adjuncts for certain nuclear medicine procedures. Refer to <797> Pharmaceutical Compounding—Sterile Preparations for information on proper handling.

33. What standards need to be followed for food radiolabeling?
The standards for Compounding of Nonsterile Radiopharmaceuticals in Section 11.1 "Compounding Nonsterile Radiopharmaceuticals" need to be followed. These standards are not to be confused with the Sterile Compounding in Section 11.2 "Sterile Compounding" which are different.

34. Is adding Tc-99m sulfur colloid to egg products, dietary supplements, water, or baby formula considered nonsterile compounding?
Section 11.1 "Compounding Nonsterile Radiopharmaceuticals" states "Compounding nonsterile radiopharmaceuticals is the combining, mixing, diluting, pooling, reconstituting or otherwise altering a drug or bulk drug substance other than as provided by the manufacturer's package insert to create a nonsterile radiopharmaceutical." "Requirements for nonsterile oral meal components are limited to common food grade description and are not required to establish identity by validated means."

35. Does splitting a unit dose into multiple doses require an ISO 5 PEC?
Yes. See section 3, which states "Dose splitting (splitting a unit dose for administration to more than one patient) may not be performed as immediate use; if performed, dose splitting must be performed in an ISO class 5 PEC in either an SRPA or in an ISO class 8 or better buffer area."

36. Can a unit-dose of technetium-labeled radiopharmaceutical (e.g., Tc-99m sestamibi, Tc-99m tetrofosmin, sterile filtered Tc-99m sulfur colloid) be divided into multiple syringes without an ISO 5 PEC if to be used for one patient and administered within an hour of the division of the dose?
Section 3 allows for:

Manipulations for any unit doses (e.g., decreasing the dosage, needle changes) or dispensing for one patient (e.g., withdrawing a dose) is allowed.
Must be administered within 1 hour of the first container puncture or exposure of any critical site involved (e.g., syringe tip, needle hub or needle) to ambient air, whichever is first.
All components involved (e.g., ...diluent vial) must be discarded within 1 hour of being punctured or after use for a single patient administration, whichever is first."

2) Does the TDDD prepare immediate use radiopharmaceuticals in an ambient environment that lacks primary and secondary engineering controls?

No.

2.5.6.1) Aseptic Qualifications

1) USP 825 FAQ Questions 37-42: Aseptic Qualifications

Observation

USP 825 | Effective 12/1/2023
USP FAQ for your information. Add as needed to individual inspections.

ASEPTIC QUALIFCATIONS
37. Do students and trainees need to perform gloved fingertip testing and media fill testing prior to preparing sterile radiopharmaceuticals beyond immediate use?
Yes, section 4.1 states: "Personnel must prove competency, as applicable to their job functions, prior to performing radiopharmaceutical aseptic tasks that are beyond immediate use." Specifically, in the media fill section it states: "Media-fill testing is necessary for all personnel who prepare, compound, dispense, and repackage sterile radiopharmaceuticals." Section 4.3 describes the situations when students or visitors do not have to prove competency "Other personnel or visitors (e.g., auditors, regulators, student observers) must comply with garbing SOPs but do not need to prove competency." If the student or trainee will prepare, compound, dispense, or repackage a sterile radiopharmaceutical beyond immediate use (in an ISO class 5 PEC) then they must comply with the aseptic qualifications in section 4 including aseptic technique training, gloved fingertip testing, and media fill testing.

38. Can radiopharmaceuticals be prepared for immediate use if the worker fails the media fill challenge?
Yes, section 3 states: "Does not require personnel to complete the aseptic qualifications as detailed in section 4.1 (e.g., aseptic technique training with documented assessment, media fill challenge, gloved fingertip testing)." so a worker can prepare radiopharmaceuticals for immediate use regardless of the results of their media fill challenge. Nonetheless, some regulatory authorities and accreditors expect documented competency for performance of critical activities, so documentation of training and performance assessment for radiopharmaceutical preparation for immediate use is recommended.

39. Does the media fill proctor need to have specialized or additional training?
Section 4.1 specifies that the media fill challenge will be observed by a "designated person". The designated person is defined as: "One or more individuals assigned to be responsible and accountable for the performance and operation of the radiopharmaceutical processing facility and for personnel who prepare, compound, dispense, and repackage radiopharmaceuticals." The designated person must be appropriately trained in their area of supervision.

40. If a media fill challenge is performed in one facility, does it need to be repeated in every facility the worker works in?
Section 4.1 states "Personnel must prove competency, as applicable to their job functions, prior to performing radiopharmaceutical aseptic tasks that are beyond immediate use. These qualifications may be conducted at a different site if all SOPs are identical for the applicable job function." Media fill testing is one component of competency qualification, <825> does not address if it needs to be repeated in every facility the worker works in. Some regulatory authorities and accreditors may require performance of qualification testing at each facility, so personnel are responsible for knowing and following any such requirements.

41. Certain imaging protocols require radiopharmaceuticals to be re-assayed in the SRPA or buffer room. How does apply?
This is dependent on the location of the dose calibrator. Section 7.6 Cleaning and Disinfecting Items from Patient Care Areastates "Syringes that have been used in a patient care area must not be brought back into the classified area (e.g., buffer or ante-room) or SRPA for re-assaying or disposal unless the syringe in sealed inside an impervious container (e.g., sealed plastic bag) that is disinfected prior to entry into the classified area or SRPA." Users should consult their epidemiology/infection control experts for proper application of standards.

42. Can an individual that has not performed aseptic qualification testing (e.g.,., media fill, gloved fingertip testing) elute from an active (i.e., non-expired, in-use) generator?
Section 4.1 "Aseptic Qualifications" says, "Personnel must prove competency, as applicable to their job functions, prior to performing radiopharmaceutical aseptic tasks that are beyond immediate use." This means that a trainee cannot elute a generator that is beyond immediate use without passing the aseptic qualifications described in Section 4.1.

2) USP 825 FAQ Questions 43-46: Garb

Observation
USP 825 | Effective 12/01/2020
USP FAQ for your information. Add as needed to individual inspections.

GARB
43. Do gloves need to be sterile?
The use of sterile gloves is dependent on the activity beingperformed. When working within an SRPA or buffer room, Section 4.5 requires sterile gloves to be donned, as wearing sterile gloves reduces the bioburden brought into the SRPA or buffer room. When performing immediate use drug preparation, Section 4.4 states "either don sterile gloves or don nonsterile disposable gloves and then disinfect the gloves with sterile 70% IPA". Sterile gloves are not required for immediate use.

44. Should gloves be over or under the gown sleeve?
Gloves should be over the gown sleeve per Section 4.5, which states: "Gloves must completely and snugly cover the ends of the gown cuffs so that skin on the wrists and upper hands is completely enveloped." Users should be reminded that the individual performing the task is considered the highest source of potential particle shedding that can result in microbial contamination.

45. What are considered cosmetics?
Cosmetics are defined in the Federal Food, Drug, and Cosmetic Act as "articles intended to be rubbed, poured, sprinkled, or sprayed on, introduced into, or otherwise applied to the human body...for cleansing, beautifying, promoting attractiveness, or altering the appearance." [FD&C Act, § 201(i)] It would not be feasible to list all the different types of cosmetics. Section 4.5 Hand Hygiene and Garbing for Buffer Areas and Segregated Radiopharmaceutical Processing Area specifically mentions cosmetics.

46. What hand hygiene and garbing is required in a hot lab without a SRPA and PEC for preparation, dispensing, or repackaging of radiopharmaceuticals? What's the order of garbing? Are sterile gloves required?
Section 3 "Immediate Use of Sterile Radiopharmaceuticals" says "Follow hand hygiene and garbing in 4.4 Hand Hygiene and Garbing for Immediate Use Preparations." Section 4.4 "Hand Hygiene and Garbing for Immediate Use Preparations" states that radiopharmaceuticals may be prepared and dispensed as immediate use, and the precautions related to personal hygiene to be followed, including the requirement to,

Hand hygiene: Wash hands and arms to the wrists with soap and water or use a suitable alcohol-based hand rub with a time based on institution policies to reduce bioburden on the hands.immediately after hand hygiene, don a clean coat/gown that has not been exposed to a patient or patient care area, and either don sterile gloves or don nonsterile disposable gloves and then disinfect the gloves with sterile 70% IPA. [NOTE—A different lab coat must be worn to care for a patient than the coat/gown used for radiopharmaceutical preparation.]

3) The TDDD has standard operating procedures which are authorized by the Nuclear Pharmacist or Physician.

Yes

4) Are individuals with conditions which pose a higher risk of potential contamination of radiopharmaceuticals and the environment with microorganisms excluded from working in sterile processing areas until the condition has resolved?

Yes: Individuals with rashes, sunburn, recent tattoos, oozing sores, conjunctivitis or active respiratory infections report these conditions to their supervisors.

5) Does the TDDD have documentation that personnel successfully completed initial compounding training?

Yes: Personnel have completed aseptic technique training with a documented assessment.

Yes: Compounding personnel have completed a garbing and hand hygiene training as defined in the TDDDs polices and SOPs.

Yes: Compounding personnel have completed PEC cleaning and disinfecting training

Yes: Compounding personnel have completed gloved fingertip sampling.

Yes Compounding personnel have completed media fill testing.

Observation
Employee records not reviewed during inspection. Pharmacy to ensure proper completion and documentation are in place.

6) Does the TDDD have initial gloved fingertip and thumb sampling results for compounding personnel?

Yes: Gloved finger tip and thumb sampling was performed initially on both hands.
Yes: Gloved fingertip and thumb sampling was performed immediately after hand hygiene and garbing.
Yes: Initial gloved fingertip and thumb sampling had zero colony-forming units (cfu).
Yes: Gloved fingertip sampling was performed with touch plates or other devices that contain a general microbial growth agar.
Yes: Gloves were not disinfected immediately prior to touching the sampling device.
Yes: A separate sampling device was used for each hand.
Yes: The gloved fingertip and thumb were collected by rolling finger pads and thumbs over the agar surface.
Yes: Plates were incubated at 30-35 C for not less than 48 hours, and then at 20-25 C for no less than 5 additional days.

Observation
Employee records not reviewed during inspection. Pharmacy to ensure proper completion and documentation are in place.

Paddles slides are permitted. Agar contains trypticase soy agar (TSA) soybean0casein digest media supplemented with neutralizing additives (e.g., lecithin and polysorbate 80). to support bacterial and fungal growth.

7) Does the TDDD conduct a media fill test reflective of the actual manipulations carried out under the most challenging and stressful conditions encountered in the worker's duties?

Yes: Media fill tests are documented as defined in the TDDDs SOPs.
Yes: Media fill tests are performed at the end of the work session in the PEC.
Yes: Media fill tests are performed with a commercial source of soybean-casein digest medium.
Yes: Sterile to sterile processing activities start with sterile media.
Yes: The CoA includes documentation of growth promotion testing for each lot of media used.
Yes: Final containers are incubated for 7 days at 20-25C followed by 7 days at 30-35C.
Yes: Media fill failures and corrective action is documented to maintain a long-term assessment of personnel competency.

Observation
Employee records not reviewed during inspection. Pharmacy to ensure proper completion and documentation are in place.

Failure = visual manifestations of growth in the medium on or before 14-days.

8) Does medial fill documentation contain the required information?

Yes: Name of the person evaluated.
Yes: date/time of evaluation.
Yes: Media and components used , including manufacturer.
Yes: Expiration date and lot number of media fill components.
Yes: Starting temperature for each interval of incubation
Yes: Dates of incubation.
Yes: Incubation results.

Observation
Employee records not reviewed during inspection. Pharmacy to ensure proper completion and documentation are in place.

2.5.6.2) Reevaluation, Retraining, and Requalification

1) Does the TDDD require personnel who fail aseptic qualifications to pass reevaluations in deficient areas before resuming sterile compounding?

Yes: All failures, retraining, and reevaluations are documented.

Observation
Did not observe any failures; RP discussed the pharmacy's process.

2) Are personnel visually observed while performing hand hygiene, garbing and aseptic technique procedures initially, and at least once every 12-months?

Yes: Personnel are visually observed during initial qualifications for hand hygiene, garbing, and aseptic technique.

Yes: Personnel are visually observed at least once every 12-months for hand hygiene, garbing, and aseptic technique requalification.

Yes: Gloved fingertip sampling is performed 3 times initially.

Yes: Gloved fingertip testing is performed every 12 months in conjunction with media fill testing for requalification.

Yes: There is an initial media fill qualification.

Yes: After initial qualification a media-fill test is completed for all personnel engaged in sterile radiopharmaceutical processing at least every 12 months (in conjunction with gloved fingertip and thumb sampling).

Yes: There is an initial training for cleaning and disinfecting.

Yes: Personnel are retrained in the cleaning and disinfecting of sterile processing areas every 12-months.

Yes: Personnel who have not performed radiopharmaceutical processing in more than 6-months are requalified in all core competencies before resuming duties.

Yes: Personnel are retrained in any core competencies if there are changes in the SOP.

2.5.6.3) Ancillary Personnel

1) Does the TDDD require ancillary personnel who are authorized to be in the sterile processing area, but who do not handle sterile preparations complete training and testing?

Other.

Observation
Ancillary personnel are not permitted in the sterile processing area.

2.5.6.4) Hand Hygiene and Garbing for Immediate Use Preparations

1) Does the TDDD perform hand hygiene for immediate use radiopharmaceutical preparation?

Yes: Compounders wash hands from the arms to the wrists with soap and water, or use a suitable alcohol based hand rub with a time based on policies to reduce bioburden on the hands.

Yes: Immediately after hand washing, a clean gown is donned that has not been exposed to patients or patient care areas.

Yes: Immediately after hand washing and gowning, sterile or non-sterile disposable gloves are donned.

Yes: After donning disposable gloves they are disinfected with 70% IPA.

2.5.6.5) Hand Hygiene and Garbing for Buffer Areas and Segregated Radiopharmaceutical Processing Areas

1) Does the TDDD follow hand hygiene precautions when repackaging, dispensing, preparing, preparing with minor deviations, or compounding sterile radiopharmaceuticals in an ISO 5 PEC?

Yes: Compounding personnel remove all outer garments, cosmetics, hand, wrist, and exposed jewelry, nail products, ear bud/headphone's prior to entering the SRPA or buffer area.

Yes: Electronic devices that are not necessary for compounding or other required tasks are not permitted in the SRPA or buffer area.

Yes: Before entering the SRPA or buffer area visible debris is removed from underneath fingernails using a disposable nail cleaner.

Yes: Personnel wash hands and arms up to the elbows with soap and water for at least 30-seconds and dry hands using low-lint towels.

Yes: Personnel don shoe covers, head/hair/facial hair covers, and face masks in an order that eliminates the greatest risk of contamination.

Yes: Personnel perform hand antisepsis cleaning using a suitable alcohol-based hand rub.

Yes: Personnel don a low-lint gown that fits snugly around the wrists and enclosed at the neck.

Yes: Personnel aseptically don sterile, powder-free gloves that completely and snugly cover the ends of the gown cuffs. Skin on the wrists and upper hands is completely covered.

Yes: Personnel periodically apply sterile 70% IPA to gloves.

Yes: Personnel routinely inspect gloves for holes, punctures, radioactive contamination, or tears.

Yes: if a glove defect is detected, personnel immediately remove gloves, repeat aseptic hand cleansing using an alcohol based hand rub and don new sterile gloves.

Yes: Personnel avoid touch contamination of container septa, needles, syringes, needle hubs, and other critical sites.

Observation

(Hand washing may be performed after donning shoe covers, head/hair covers, and facemasks).

(Disposable gowns are preferred. If reusable gowns are used, a clean gown must be donned daily.)

2) Do compounders dispose of shoe covers, head/hair covers, face masks, and gloves when exiting the buffer area or SRPA?

Yes:

3) Do personnel re-use gowns during the same shift if the gown is maintained in the classified area?

Yes: Gowns are maintained in a classified area or in (or immediately outside of) the SRPA and reused during the same shift.

2.5.7.1.1) Types of Secondary Engineering Controls

1) USP 825 FAQ Questions 47-53: Facility

Observation
USP 825 | Effective 12/1/2023
USP FAQ for your information. Add as needed to individual inspections.

FACILITY
47. Is a fume hood or vent hood the same thing as an ISO 5 PEC?
As stated in the glossary a PEC is: "A device or zone that provides an ISO Class 5 air quality environment for sterile processing." Table 1 specifies the particles in ISO Class 5 air quality to be less than 3520 particles/m3 for the number of particles ≥0.5 µm measured under dynamic operating conditions through the use of high efficiency particle (HEPA) filter. In contrast, a fume hood does not contain a HEPA filter and exhausts volatile chemicals or radioactivity out of the room to protect the operator but does not protect the sterile radiopharmaceutical from bacterial or fungal contamination. Sometimes a fume hood is required by a RAM license, but because it does not have a HEPA filter, it cannot be considered a PEC for sterile drug preparation.

48. Can a fume hood be retrofitted into an ISO 5 PEC?
No, because the standard equipment to qualify for an ISO 5 PEC is specialized and cannot be added to an established fume hood setup.

49. Is a biosafety cabinet required for xenon?
A biological safety cabinet (BSC) is NOT appropriate for Xenon gas – rather, radioactive gases should be stored and handled in a chemical fume hood or as otherwise described in the facilities specific Radioactive Material (RAM) license.

50. Does a Containment Segregated Compounding Area need to comply with and include a biosafety cabinet?
A Containment Segregated Compounding Area (C-SCA) is a facility defined in USP <800> Hazardous Drugs — Handing in Healthcare Settings and is not the facility design allowed in <825>.

51. Should the "Hot Lab" be negative pressure to the Segregated Radiopharmaceutical Processing Area and the corridor?
<825> does not specify pressure differentials for the "hot lab", Segregated Radiopharmaceutical Processing Area (SRPA), or other non-classified areas; pressure differentials must comply with conditions described in the facility's Radioactive Material License.

52. Is it permissible to prepare kits utilizing Ge-68/Ga-68 generators outside an ISO Class 5 environment?
As noted in Table 7, a secondary engineering control environment with an ISO 8 total airborne particle count is appropriate for eluting Ge-68/Ga-68 generators. Any Ge-68/Ga-68 generator eluent container or tubing assembly/connections should take place within an ISO Class 5 PEC. Additional manipulations of the product, including but not limited to withdrawing a quality control sample, buffering the preparation, etc., must be performed in an ISO 5 environment.

53. Can two vials of Y-90 microspheres be prepared from one manufactured vial to treat separate areas of the liver for one patient using the immediate use standards?
Section 3 "Immediate Use of Sterile Radiopharmaceuticals" says "The preparation and dispensing of sterile radiopharmaceuticals in a patient care setting may be handled as an immediate use practice. The information below describes the appropriate handling requirements for immediate use sterile radiopharmaceuticals in an ambient environment that lacks primary and secondary engineering controls (SEC) when intended for a single patient. Strict aseptic technique and limited beyond-use date (BUD) must be adhered to given the lack of engineering controls.

- Appropriate for preparation (including minor deviations) and/or dispensing that is limited to use for a single patient (emphasis added).
- Must be administered within 1 hour (emphasis added) of the first container puncture or exposure of any critical site involved (e.g., syringe tip, needle hub or needle) to ambient air, whichever is first.
- All components involved (e.g., Tc-99m sodium pertechnetate syringe or vial, final prepared radiopharmaceutical kit vial, diluent vial) must be discarded within 1 hour of being punctured or after use for a single patient (emphasis added) administration, whichever is first.

2) USP 825 FAQ Questions 54-57: SRPA

Observation

USP 825 | Effective 12/1/2023
USP FAQ for your information. Add as needed to individual inspections.

SRPA
54. Can an SRPA be inside a hot lab?
Yes, if the SRPA meets the requirements specified in Section 5 Facilities and Engineering Controls for an SRPA it can be a subsection of the hot lab. Per the definition in the glossary, a hot lab is "Unclassified radiopharmaceutical processing area located within a hospital or clinical site that is only appropriate for immediate use radiopharmaceuticals if there is not an ISO 5 PEC within SRPA located within the area."

55. Should the Segregated Radiopharmaceutical Processing Area be positive pressure to comply with USP 825, and include a Biosafety cabinet or Glove box?
A Segregated Radiopharmaceutical Processing Area (SRPA) does not specify pressure differentials; these must comply with conditions described in the facility's Radioactive Material License. A SRPA must include an ISO 5 PEC (e.g., vertical laminar airflow workbench or Class II Biological Safety Cabinet) for radiopharmaceutical processing activities. A glove box, a negative pressure radiological containment unit does not contain a HEPA filter, and therefore is not an acceptable environment for the production of radiopharmaceuticals.

56. Is an anteroom or ante area required for a Segregated Radiopharmaceutical Processing Area?
No, an ante-room is not required for a Segregated Radiopharmaceutical Processing Area (SRPA). An ante-room is only required for entry into a buffer area (sometimes referred to as a cleanroom).

57. What are the minimum requirements to elute Tc-99m/Mo-99 generators?
Section 5.1 "Facility Design and Environmental Controls" says "If the SRPA meets ISO Class 8 total airborne particle count specifications, it can also be used for storage and elution of non-direct infusion radionuclide generators (e.g., Tc-99m)."

Section 5.3 "Water Sources" says "In a facility with an SRPA design, the sink must be accessible but located at least 1 m from the PEC and generators, if present." Table 7 says that the BUD for generators eluted in an SRPA with ISO Class 8 total airborne particle counts may not be longer than 12 hours.

3) Does the facility have documentation that the work environment is maintained under appropriate conditions?

Yes: Classified areas and the SRPA are continuously maintained at a temperature of 25C (77F)

Yes: Relative humidity is continuously maintained below 60%.

Yes: The temperature and humidity are monitored each day, either manually or by a continuous recording device.

Yes: Temperature and humidity readings are documented at least once daily or stored in the continuous recording device and are retrievable.

Yes: Temperature and humidity readings are reviewed as described in the facility SOPs

Yes: Free standing humidifiers/dehumidifiers or air conditioners are not used within the classified area or the SRPA.

Yes: Temperature and humidity monitoring devices are verified for accuracy at least every 12-months or as required by the manufacturer.

Yes: The designated person ensures each area related to sterile radiopharmaceutical processes meets the classified air quality standard.

Yes: The designated person ensures the ISO Class 5 PECs are located, operated, maintained, monitored, and certified to have appropriate air quality.

Observation
Temperature/humidity sensors are replaced annually.
Temperature/humidity are maintained electronically.

4) Is the PEC located in a SEC?

Yes: The PEC is located in an ISO-classified buffer room with an anteroom.

Yes: The ISO classified anteroom and buffer area are separated from the surrounding unclassified areas of the facility with fixed walls and doors.

Yes: Air supplied to the classified areas is introduced through HEPA filters located in the ceiling.

Yes: Smoke studies are repeated whenever a change to the placement of the PEC is made.

Yes: Classified areas are equipped with pressure-differential monitoring systems.

Yes: The anteroom has a line of demarcation separating the clean side from the less clean side.

Yes: The anteroom is entered through the less clean side and the clean side is located closest to the buffer area.

Yes: Required garb is worn prior to crossing the line of demarcation (see section 4.6).

5) Is the PEC located in an unclassified area without an anteroom or buffer area?

No:

2.5.7.1.2) The Radiopharmaceutical Processing Environment

1) Is the PEC certified to meet ISO Class 5 or better conditions, and does it minimize microbial contamination during processing under dynamic conditions?

Yes: The PEC is certified to meet ISO Class 5 or better conditions.

Yes: The PEC is designed to minimize microbial contamination during processing of radiopharmaceuticals under dynamic conditions.

2) Is the PEC airflow unidirectional?

Yes:

3) Is HEPA filtered air supplied in the direct processing area at a velocity sufficient to sweep particles away from aseptic processing areas?

Yes

4) Do smoke studies conducted in the critical area demonstrate unidirectional airflow and sweeping action under dynamic conditions?

Yes:

2.5.7.1.3) Types of PECs and Placement

1) Does PEC placement allow for cleaning around the PEC?

Yes:

3) Does the Class II BSC provide an ISO Class 5 or better environment for preparing sterile radiopharmaceuticals?

Yes:

4) Is the PEC located out of traffic patterns and away from area air currents that could disrupt the intended airflow patterns inside the PEC?

Yes:

5) Is the ISO Class 5 PEC placed in an SRPA used only to prepare, prepare with minor deviations, or repackage sterile radiopharmaceuticals?

Other:

Observation
N/A

6) Are sterile radiopharmaceuticals compounded in a PEC located within an ISO Class 7 or better buffer area within an ISO Class 8 or better ante-room?

Yes:

Yes: Dynamic airflow smoke pattern tests are performed initially.

Yes: Dynamic airflow smoke pattern tests are performed every 6 months to ensure the PEC is properly placed.

Yes: Staff are trained to utilize the unidirectional airflow to maintain first air as much as possible given the limitations added from the radiation shielding in the DPA

2.5.7.1.4) Air-Exchange Requirements

2) Are a minimum of 30 total HEPA-filtered ACPH supplied to ISO Class 7 areas?

Yes: The total HEPA filtered air exchange rate maintains ISO Class 7 under dynamic operating conditions.

Yes: At least 15 ACPH of the total air change rate in a room comes from the HVAC through HEPA filters located in the ceiling.

Yes: The HEPA filtered air from the PEC when added to the HVAC supplied HEPA-filtered air increases the total HEPA-filtered ACPH to at least 30 ACPH.

Observation
Buffer room ACPH = 72

3) Is a minimum of 20 ACPH of HEPA-filtered air supplied to the ISO Class 8 areas?

Yes: The total HEPA-filtered air change rate maintains ISO Class 8 under dynamic operating conditions.

Yes: At least 15 ACPH of the total air change rate in a room comes from the HVAC through HEPA filters located in the ceiling.

Yes: The total ACPH is documented on certification reports.

Observation
Ante room ACPH = 21

2.5.7.2.1) Classified Areas

1) Are surfaces of ceilings, walls, floors, door frames, fixtures, shelving, work surfaces, counters, and cabinets in classified areas smooth, impervious, free from cracks, crevices, and non-shedding?

Yes:

2) Do surfaces of ceilings, walls, floors, door frames, fixtures, shelving, work surfaces, counters and cabinets in classified areas maintain easily cleanable conditions?

Yes: Surfaces are resistant to damage by cleaning agents, disinfectants, and tools used to clean.

Yes: Junctures between the ceiling and walls and between the walls and the floor are sealed to eliminate cracks and crevices where dirt can accumulate.

Yes: Walls are constructed of or covered with durable material and the integrity of the surface is maintained.

Yes: Floors include coving to the side wall or the juncture between the floor and wall is caulked.

Yes: Classified areas minimize dust-collecting overhangs.

Yes: Overhangs or ledges which are present are easily cleanable.

Observation

(e.g., epoxy-painted walls or heavy gauge polymer)

(e.g., utility pipes or windowsills)

2.5.7.2.2) SRPA

1) Is the SRPA and all surfaces within the SRPA clean, uncluttered, and dedicated to sterile radiopharmaceutical processing activities?

Other:

Observation
N/A

2.5.7.3) Water Sources

1) Do activities such as hand hygiene and garbing allow the PEC to function as designed?

Yes: Sinks enable hands-free use and have a closed system of soap.

Yes: The sink used for hand hygiene is located outside of the ante-room in a clean space to minimize the risk of brining contaminants into the ante-room.

Yes: The buffer area does not contained plumbed water sources.

Yes: The anteroom does not contain floor drains.

Observation
(i.e., non-refillable soap)

2.5.7.4) Placement and Movement of Materials

1) Are materials used in the classified area or SRPA appropriately transported and stored?

Yes: Only furniture, equipment, and other materials necessary for operations are permitted in the classified area or SRPA.

Yes: All furniture, equipment and other materials located in the classified area or SRPA are low-shedding and are easily cleaned and disinfected.

Yes: Furniture, equipment and other materials do not adversely impact environmental air quality, and promote effective cleaning and disinfecting.

Yes: No shipping cartons or corrugated or uncoated cardboard are allowed in the classified area or SRPA.

Yes: Carts used to transport components or equipment are constructed from non-porous materials with cleanable casters and wheels.

Yes: All items are wiped with low-lint wipers and appropriate disinfectant by gloved personnel prior to entering the clean side of the anteroom, pass-through, or into an SRPA or ISO5 PEC.

Yes: procedures prevent excessive radiation exposure and follow ALARA safety principles.

Observation

(e.g., Staff do not wipe unshielded sources of radioactive materials)

2.5.7.5) Classified Areas

1) Are activities and tasks carried out within the buffer area limited to only those necessary?

Yes: Food, drinks, and materials exposed in patient care and treatment areas does not enter anterooms or buffer areas.

2.5.7.6) Remote Aseptic Processing Involving a Hot-Cell

2) Does the facility utilize a hot cell for aseptic processing?

Yes

3) Does the facility require proper hand hygiene and garbing when using a hot cell?

Yes: The hot-cell is located in an ISO-classified space and personnel garb according to the requirements of 12.4.6, hand hygiene and garbing.

Yes: Personnel garb in relation to the contamination risk when hand and arm incursions into the interior of the hot-cell are necessary to stage required materials and supplies.

4) Are dynamic airflow smoke pattern tests conducted for PECs located in hot cells, and do staff garb accordingly?

Yes: Dynamic airflow smoke pattern tests show the staging of supplies and materials in teh demarcated PEC do not allow the influx o unclassified air into the PEC.

Yes: Personnel garb in accordance with hand hygiene requirements (see 12.4.6) for buffer areas and SRPA areas for all incursions into the hot-cell.

5) Is the hot-cell an integrated HEPA filtration system with a clear demarcated area that is a PEC?

Yes: Dynamic airflow smoke pattern tests show the staging of supplies and materials into the demarcated PEC do not allow the influx of less than ISO Class 5 quality air into the PEC.

Yes: other hot-cell/PEC configurations and technologies ensure upon each certification thta the staging of materials and supplies does not allow for the intrusion of less than ISO 5 class air into the designated ISO Class 5 space.

2.5.7.7) Environmental Controls

2) What type of ISO compounding area does the facility have?

Yes: The facility has an ISO Class 7 buffer area with a vertical flow ISO Class 5 PEC with an adjacent ISO Class 8 or better anteroom.

Yes: The facility has a hot-cell.

3) Do pass-through enclosures provide a reasonable balance between maintenance of air quality and other worker safety concerns?

Yes: There is a mechanical system or SOP in place that ensures both doors cannot be open at the same time.

4) Are pressure differentials in place to minimize the potential for microbial contamination in sterile drug preparation areas?

Yes: Positive pressure environments have a minimum differential pressure of 0.02-inch water column between each ISO-classified area.

Yes: The pressure differential between the anteroom and the unclassified area is not less than a positive 0.02-inch water column.

Yes: The buffer area is positive pressure compared to the anteroom.

Yes: The anteroom is positive pressure compared to unclassified portions of the restricted area.

Observation
Pressure from buffer to ante room: 0.22
Pressure from ante to unclass: 0.08

5) ESTABLISHING AND MAINTAINING PRESSRUE DIFFERENTIALS: Is a continuous pressure differential monitoring system in place?

Yes: There is a pressure differential monitoring system that continuously monitors the pressure between the anterooms and buffer areas.

Yes: There is a pressure differential monitoring system that continuously monitors pressures between the anteroom and the general environment outside the classified area(s).

Yes: The results from the pressure monitoring system are reviewed and documented at least daily on days the area is used.

Yes: All pressure monitoring devices are tested for accuracy and required performance at least every 6 months.

6) AMBIENT ATMOSPHERE FOR IMMEDIATE USE PREPARATIONS: Does the facility meet the requirements for ambient atmosphere environments?

Yes: Designated areas for medication preparation are clean and free from clutter.

Yes: There is a low-traffic area for pharmaceutical processing.

7) SRPA WITH VERTICAL FLOW ISO CLASS 5 PEC FOR RADIOPHARMACEUTICAL PREPARATIONS: Does the SRPA with vertical ISO Class 5 PECs meet the following requirements?

Other:

Observation
N/A

8) CERTIFICATION OF PECS AND ENVIRONMENT IN WHICH THE PEC IS LOCATED: Are classified areas certified initially and every 6 months as required?

Yes: Certification of classified areas and PECs are performed initially.

Yes: Recertification of classified areas and PECs is performed at least every 6 months.

Yes: Certifications and recertification is completed using the current CETA guide for sterile compounding facilities or an equivalent guide?

Yes: Certification includes airflow testing to determine acceptable air velocity, the air exchange rate, and the area pressure cascade to ensure air consistently flows from most to least clean during dynamic operating conditions.

Yes: HEPA filters are leak tested after instillation and as part of recertification.

Yes: Total particle counts are conducted under dynamic operating conditions using calibrated electronic equipment.

Yes: Smoke visualization studies are performed under simulated or dynamic operating conditions to demonstrate unidirectional airflow and sweeping action over and away from the preparation.

Observation
Most recent recertification was performed May 19, 2025 by ENV Services.

9) DAILY MONITORING OF THE ENVIRONMENT: Are temperatures and pressure differentials monitored daily?

Yes: Relative humidity is kept at 60% or lower.

Yes: Temperature and relative humidity continuous readings are confirmed daily to have remained within acceptable range.

Yes: Excursions are documented and if applicable, appropriate corrective actions were taken.

Yes: Temperature monitoring devices are verified for accuracy every 12-months or as required by the manufacturer.

Yes: Pressure Differentials are monitored each day preparations are made either manually or by a continuous recording device.

2.5.8.1) General Monitoring Requirements

1) Has the facility implemented a written air and surface monitoring procedure for all sterile radiopharmaceutical classified areas?

Yes: The facility has written air and surface monitoring procedures for all sterile radiopharmaceutical classified areas.

Yes: Air and surface monitoring results are documented.

Yes: Air and surface corrective actions are documented.

Yes: Records are readily retrievable and available for 3 years.

2) Does the air and surface monitoring program include viable impact volumetric airborne particulate sampling and surface sampling?

Yes:

3) Does the facility regularly review sampling data to detect trends such as elevated levels of microbial burden, elevated levels of nonviable particulates, or other environmental changes?

Yes: results are collected over a period of time to identify trends or determine if significant changes have occurred.

Yes: Results are reviewed in conjunction with personnel data to assess the state of control and to identify potential risks of contamination.

Yes: Prompt corrective action is taken for any adverse findings to maintain environmental quality and control.

Yes: Data is reviewed following corrective actions to confirm the actions taken are effective.

4) Are air and surface samples conducted during actual or simulated dynamic operating conditions?

Yes: Sampling is carried out at the conclusion of sterile radiopharmaceutical processing, but prior to cleaning and disinfecting the surface area.

Yes: Simulated tasks that are reflective of the routine aseptic activities are performed.

Yes: Sampling is conducted in conjunction with the certification of new facilities and equipment.

Yes: Sampling is conducted after any modification of facilities or equipment.

Yes: Sampling is conducted in response to any identified problems (e.g., positive growth in sterility tests).

Yes: Sampling is conducted in response to any identified trends (e.g., repeated positive gloved fingertip/media fill failures.)

Yes: Sampling is conducted in response to changes that could impact the controlled area environments. (e.g., significant change in cleaning agents)

5) Are air and surface samples conducted under dynamic or simulated dynamic operating conditions in all PECs and classified areas?

Yes: Sampling occurs during actual sterile processing and is designed to minimize the chance that sampling will contribute to the contamination of the sterile product or environment.

Yes: The air and surface monitoring program is clearly described in the facility SOPs.

Yes: SOPs include sampling frequencies, sampling size, sampling time of day in relation to activities in the classified area, and action levels which trigger corrective action.

Yes: Locations of sampling are selected based on their relationship to the activities performed.

Yes: Samples are obtained from locations that pose the highest possible contamination risk, and are likely to be representative of the conditions throughout the area.

Yes: The facility evaluates results over a period of time to identify trends and to determine if significant changes have occurred, even if the results fall within the prescribed limits.

Yes: Personnel operating sampling equipment are trained in its proper operation

Yes: Air sampling devices are serviced and calibrated according to the manufacturer.

2.5.8.2.1) Viable Air Sampling: Timing and Locations

1) Is volumetric active air sampling of all classified areas conducted using an impaction device under dynamic operating conditions or simulated operating conditions at least every 6 months?

Yes: Viable air sampling follows the device manufacturer directions.

Yes: Sampling tests at least 1 cubic meter of 1000 liters of air from each location sampled.

Yes: At the end of the sampling, the media plates are covered.

Yes: Media plates are inverted and incubated at 30-35C for no less than 48 hours.

Yes: Incubated plates are examined for growth and the total number of discrete colonies of microorganisms are recorded on each plate as cfu/m3 of air on an environmental sampling form which includes the sample location and date.

Yes: Inverted media is then incubated at 20-15C for no less than 5 additional days.

Yes: After the second incubation plates are examined for growth and the total number of discrete colonies are recorded as cfu/m3 on an environmental sampling form which includes the sample location and date.

2) Does the facility use an alternative means to shorten the overall incubation period?

No:

3) Does the facility use proper growth medium?

Yes: A general microbial growth medium that supports the growth of bacteria and fungi is used (e.g., TSA)

Yes: CoA(s) from the manufacturer verify the medium meets the expected growth promotion, pH, and sterilization requirements.

4) Are incubators used for viable sampling correctly monitored and placed?

Yes: Samples are incubated in a temperature monitored incubator.

Yes: The incubator measuring device is calibrated.

Yes: The incubator temperature is monitored during incubation, either manually, or by a continuous recording device.

Yes: Incubator temperatures are reviewed and documented.

Yes: Incubators used for microbiological testing are placed in locations outside of any classified area or SRPA.

Yes: Incubators are kept away from areas where compounding or sterile processing activities are carried out.

Yes: All sampling is performed by trained individuals.

Observation
Incubator temperatures are verified daily, even if not being actively used.

2.5.8.2.2) Data Evaluation and Action Levels

1) Does the facility evaluate cfu counts against action levels?

Yes: The facility evaluates cfu counts against the action levels per ISO class.

Yes: The facility evaluates cfu counts to identify trends.

Yes: If two pieces of media were collected at a single location recovered growth is documented and action levels are applied individually.

Yes: If levels exceed allowable levels for the ISO classification the cause is investigated and corrective action is taken.

Yes: Corrective action plans depend on the cfu count and microorganism recovered.

Yes: The extend of investigation is consistent with the deviation and includes an evaluation of trends.

Yes: Corrective action plans are documented.

Yes: if viable air sampling results exceed ISO action levels an attempt is made to identify the organism recovered to the genus level.

Observation
ISO 5 > 1 cfu, ISO 7 > 10 cfu, ISO 8 >100 cfu

2.5.8.3.1) Surface Sampling: Timing and Locations

1) Are surface samples in all classified areas and all PECs conducted at least monthly?

Yes. Surface sampling is conducted in all classified areas monthly.

Yes. Surface sampling is conducted in all PECs monthly.

Yes. The direct processing area of the PEC is sampled.

Yes. Equipment permanently contained in the PEC is sampled.

Yes. Staging or work surfaces in classified areas near the PEC are sampled.

Yes. Frequently touched surfaces in classified areas and pass-through enclosures for all classified areas are evaluated to determine the locations that pose the greatest risk of harboring microbial contamination.

2) Is surface sampling performed at the end of the radiopharmaceutical aseptic activities or shift, but before the area has been cleaned and disinfected.

Yes. Samples are performed at the end of the radiopharmaceutical aseptic activities prior to cleaning and disinfection.

Yes. Exposure and contamination prevention measures are taken prior to and while collecting samples.

Yes. When assessment show a risk for exposure is not in conformance with ALARA safety standards, measures are taken to eliminate the risk.

2.5.8.3.2) Sampling Procedures

1) Does the facility utilize surface sampling devices which contain microbial growth media?

Yes: Plates, paddles, or slides are used for sampling flat surfaces.

Yes: CoAs from the manufacturer verify the media meets the expected growth promotion, pH, and sterilization requirements.

Yes: Surface sampling devices contain general microbial growth media (e.g., TSA) supplemented with neutralizing agents (e.g., lecithin and polysorbate 80).

Yes: Contact plates have raised convex surfaces.

Yes: After sampling the area is thoroughly cleaned and disinfected.

2) Does the facility follow proper procedures for surface sampling on flat surfaces?

Yes: The sampling device is firmly pressed using a rolling motion onto the surface to be sampled.

Yes: The plate is covered and inverted.

Yes: The plate is incubated for 48 hours at 30-35 C.

Yes: The total number of discrete colonies of microorganisms on each sample is recorded.

Yes: Results include the sample date, location and number of cfu/sample identified.

Yes: The place is incubated an additional 5 days at 20-25 C.

Yes: Results record the total number of discrete colonies of microorganisms/sample (cfu/sample), and includes the date and sample location

3) Does the facility collect two samples for each sample location to shorten the overall incubation period?

No

2.5.8.3.3) Data Evaluation and Action Levels

1) Does the facility evaluate cfu counts against the action levels and examine counts in relation to previous data to identify adverse results or trends?

Yes:

2) Is the extent of the investigation consistent with the deviation?

Yes; Corrective action plans are documented.

Yes: An attempt is made to identify microorganisms to the genus level if surface sampling action levels are exceeded.

Yes: The facility utilizes a qualified individual (e.g., microbiologist or industrial hygienist) to assist with corrective action plans.

2.5.9.1) General Cleaning and Disinfecting

3) Do SOPs specify times the PEC should be shielded to reduce radioactivity prior to cleaning?

Yes: SOPs specify trigger levels for safe cleaning.

Yes: The PEC is checked for radioactive contamination prior to cleaning and disinfecting.

4) Do facility SOPs describe appropriate cleaning procedures?

Yes: Cleaning personnel are trained.

Yes: Cleaning personnel are appropriately garbed.

Yes: Cleaning is performed from the most to least clean areas.

Yes: SOPs describe the frequency and methods of cleaning.

Yes: SOPs describe the sporicidal agent used in accordance with manufacturer instructions.

Yes: The manufacturer's data on the minimum contact time is followed for cleaning and disinfecting and sporicidal agents used.

Yes: When sterile 70% IPA is used, it is allowed to dry.

Yes: There is documentation of cleaning according to facility guidelines.

Observation
Sporicidal agent: Peridox
Cleaning log is completed daily when compounding occurs

5) Does the facility follow the minimum frequency for cleaning the PEC and equipment inside the PEC?

Yes: Prior to performing sterile processing each day, the walls, bars, torso shield, and any exposed surfaces of equipment inside the PEC are cleaned.

Yes: Prior to performing sterile processing each day, during cleaning, radioactive contamination is shielded with appropriate temporary material that is low-lint or has low shedding properties.

Yes: Following cleaning each day, exposed surfaces of equipment are disinfected.

Yes: Prior to daily disinfecting low-lint absorbent pads are removed and the PEC is surveyed for radioactive contamination.

Yes: Following daily disinfecting or spill cleanup, new low-lint absorbent pads are placed in the PEC.

Yes: Sporicidal agents are applied monthly to the PEC.

6) Does the facility follow the minimum frequency for cleaning surfaces of sinks, hot cells, worksurfaces outside the PEC, and floors?

Yes: Sinks, hot cells, work surfaces outside the PEC, and floors are cleaned daily.

Yes: Sinks, hot cells, work surfaces outside the PEC, and floors are disinfected daily.

Yes: A sporicidal agent is applied to sinks, hot cells, work surfaces outside the PEC, and floors monthly.

7) Does the facility follow the minimum frequency for cleaning ceilings, walls, doors, door frames, storage shelving and bins, and other fixtures?

Yes: Cleaning occurs monthly.

Yes: Disinfecting occurs monthly.

Yes: A sporicidal agent is applied monthly.

2.5.9.2) Cleaning, Disinfecting, and Sporicidal Agents

1) Cleaning, disinfecting and sporicidal information for the licensee.

Observation
USP 825 | Effective 12/01/2020
Cleaning and disinfecting agents must be selected and used with careful consideration of compatibilities, effectiveness, and user safety. Considerations when selecting and using disinfectants include their anti-microbial activity, inactivation by organic matter, residue, shelf life, preparation requirements of the agent, and suitability for surfaces being disinfected (see Disinfectants and Antiseptics □1072□). After the disinfectant is applied on the surface to be disinfected, the disinfectant must be allowed to dwell for the minimum contact time specified by the manufacturer, during which time the surface cannot be disturbed. Only the 70% IPA used in the ISO Class 5 PEC must be sterile. Sporicidal agents must be used at least monthly on all surfaces in classified areas and SRPAs. Some EPA-registered (or equivalent) one-step disinfectant cleaners may have sporicidal properties. See Table 6 for a summary of the purpose of the cleaning, disinfecting, and sporicidal agents.

2) Does the facility allow use an appropriate cleaning agents and allow it to dwell for the minimum contact time specified by the manufacturer?

Yes: The facility uses an appropriate cleaning agent.

Yes: The cleaning agent is allowed to dwell for the appropriate time.

Observation
Pharmacy uses sterile water

3) Does the facility use an appropriate disinfecting agent and allow it to dwell for the minimum contact time specified by the manufacturer?

Yes: The facility uses an appropriate disinfecting agent.

Yes: The disinfecting agent is allowed to dwell for the appropriate time.

Observation
Pharmacy uses 70% IPA

4) Does the facility use an appropriate sporicidal agent and allow it to dwell for the minimum contact time specified by the manufacturer?

Yes: The facility uses an appropriate sporicidal agent

Yes: The sporicidal agent is allowed to dwell for the appropriate time.

2.5.9.3) Cleaning Supplies

1) Are cleaning supplies disposable?

Yes: wipers and mop heads are low-lint and disposable

Yes: Disposable cleaning supplies are discarded after each cleaning activity.

2) Are reusable cleaning tools made of cleanable materials?

Yes: Reusable cleaning tools are made of cleanable materials.

Yes: Reusable cleaning tools are cleaned and disinfected before and after each use.

Yes: Reusable cleaning tools are dedicated for use in the classified areas or SRPAs and are not removed from these areas except for disposal.

Yes: Reusable cleaning tools are discarded after an appropriate amount of time based on their condition.

3) Are cleaning supplies and solutions used in the classified areas and SRPAs monitored for radioactive contamination after use and prior to disposal?

Yes:

4) Are cleaning supplies disposed of in a manner that minimizes the potential for dispersing particulates into the air?

Yes:

2.5.9.4) Cleaning and Disinfecting the PEC

1) Are PECs with removable work trays are cleaned and disinfected monthly?

Other:

Observation
N/A

2.5.9.5) Disinfecting Supplies for Classified Areas and SRPAs

1) Does the facility properly disinfect supplies prior to placing them in the classified area?

Yes: Shipping cartons or other corrugated or uncoated cardboard are allowed in classified areas (including the clean side of the anteroom and/or within the perimeter of the SRPA).

Yes: Items are wiped with an EPA registered sporicidal agent or equivalent one-step disinfectant cleaner, or sterile 70% IPA using low lint wipers.

Yes: Sporicidal/disinfecting agents are allowed to dwell on the surface for the minimum contact time specified by the manufacturer.

Yes: The agent used for disinfecting packaging are compatible with teh packaging and doe not render the product label unreadable.

2) Are all items transferred into the PEC from the classified area or SRPA disinfected with a sterile disinfectant?

Yes:

3) HOT CELL: If sterile packages are not able to be opened inside a ISO 5 hot cell, are they opened and appropriately labeled outside the ISO Class 5 environment and placed in disinfected shielding immediately prior to the dispensing cycle?

Yes: Sterile items opened prior to introduction in to the ISO 5 space are labeled.

Yes: Sterile items opened outside the ISO 5 space are immediately placed in disinfected shielding.

Yes: Sterile items opened outside the ISO 5 environment are done so immediately prior to the forthcoming dispensing cycle.

2.5.9.6) Disinfecting Critical Sites

1) Are critical sites wiped with sterile 70% IPA?

Yes: Sterile IPA is used for chemical disinfection.

Yes: Mechanical action (physically wiping) is used to remove contanimants.

Yes: Sterile 70% IPA is allowed to dry before piercing critical sites.

2.5.9.7) Cleaning and Disinfecting Items from Patient Care Area

1) Is radiation shielding equipment used in the classified area/SRPA or PEC that is exposed to patient care areas cleaned and disinfected before returning to any classified area?

Other:

Observation
N/A

2.5.10) Assigning BUDs

2) The facility assigns BUDs based on the preparation conditions of USP 825.

Yes: Dispensing, repackaging, preparation and preparation with minor deviations prepared in ISO 5 PEC or an SRPA are assigned a 12-hour BUD.

3) Does the facility extend BUDs longer than the manufacturer stated/suggested use-by time interval?

No: The facility does not extend BUDs beyond the manufacture stated/suggested time interval.

2.5.11) Documentation

2) Does the facility maintain records including policies and SOPs for personnel training involved in repackaging, preparing, preparing with minor deviations, compounding, and dispensing radiopharmaceuticals.

Yes: The facility has records of personnel training and testing including visual assessment of aseptic technique competency.
Yes: The facility has records of personnel training and testing for validation.
Yes: The facility has records of personnel training and testing for garbing and hand hygiene.
Yes: The facility has records of personnel training and testing for equipment and environment cleaning and disinfecting.
Yes: The facility has records of personnel training and testing for gloved fingertip and thumb sampling.
Yes: The facility has records of personnel training and testing for media fill evaluation.

3) Does the facility maintain records for testing and monitoring environmental controls?

Yes: The facility has records for monitoring environmental controls.
Yes: Testing/monitoring include ACPH and pressure differentials.
Yes: Testing/monitoring include viable air and surface sampling.
Yes: Testing/monitoring include total airborne particle test results.
Yes: Testing/monitoring include temperature and humidity.

4) Does the facility maintain records for equipment maintenance, and cleaning/disinfecting?

Yes:

5) Does the facility maintain records for end product radiochemical purity and other testing as applicable?

Yes: The facility maintains end product radiochemical purity tests.
Yes: The facility maintains other testing results.

6) Does the facility have master formula records for preparations with minor deviations to compounding?

Other:

Observation
N/A - pharmacy is not compounding with minor deviations.

7) Does the facility have records for stability testing which supports extended BUD dating?

Other:

Observation
N/A

8) Does the facility have records of investigations and corrective actions for preparation deviations?

Yes: Records of corrective actions are documented through the closure of the event.

9) Preparations with Minor Deviations: Do master formulas contain all the required information?

Other:

Observation
N/A

10) PREPARATIONS WITH MINOR DEVIATIONS: Do records of preparations with minor deviations contain all required information?

Other:

Observation
N/A

2.5.12.1) Preparation Following Manufacturer Instructions

1) Information for the licensee

Observation

USP 825| Effective 12/01/2020
The individual responsible for preparing the radiopharmaceutical(s) must ensure that the final preparation complies with quality and purity specifications throughout the assigned BUD. This includes, as appropriate for the preparation, radionuclidic purity, radiochemical purity, chemical purity, and physical and chemical properties.

2) NONSTERILE PREPARATIONS: Does the facility take into account appropriate radiation safety considerations and environmental controls when preparing radiopharmaceuticals according to manufacturer directions?

Other:

Observation
N/A

3) NONSTERILE PREPARATIONS: Is the area clean and uncluttered to ensure the overall integrity and quality of the radiopharmaceutical prepared according to the manufacturer directions?

Other:

Observation
N/A

4) STERILE PREPARATIONS: Does the facility have processes to maintain sterility of products compounded in accordance with manufacturer instructions?

Yes: Radiation safety considerations are in place.

Yes: Environmental controls are in place.

Yes: Aseptic handling practices are in place.

2.5.12.2) Preparation with Minor Deviations

1) Does the facility compound radiopharmaceuticals with minor deviations from the manufacturer instructions?

No:

2.5.12.3) Preparation of Radiolabeled Blood Components

2) Does the facility prepare radiolabeled blood components?

No:

2.5.12.4) Preparation of Radiolabeled Red Blood Cells for Immediate Use

1) Does the facility prepare radiolabeled red blood cells for immediate use?

No:

2.5.13.1) General Compounding

1) USP 825 FAQ Questions 72-79: Compounding

Observation

USP 825 | Effective 12/1/2023
USP FAQ for your information. Add as needed to individual inspections.

COMPOUNDING
72. Are radiopharmaceuticals compounded by 503B facilities or conventionally manufactured in FDA-registered drug establishments considered active pharmaceutical ingredients (APIs)?
No. The term "API" refers to a bulk drug substance (pure chemical substance), usually in powder or liquid form, which is intended to be used in compounding. API is distinguished from finished dosage forms.

73. Is kit-splitting (fractionation) allowed per ?
<825> defines standards that must be met if kit splitting is performed. In <825>, kit splitting is defined as the act of dividing the contents of kit vial and transferring aliquots into other containers for storage and subsequent radiolabeling. Section 11.2 states that kit-splitting may be used to meet the patient need. For example, the contents of a kit vial can be reconstituted with 0.9% sodium chloride injection and aliquoted into other containers for storage and subsequent radiolabeling. The individual must consider all possible interactions of kit components with these other containers (e.g., container walls, closures), as well as possible alterations in stability (e.g., physical and chemical stability) that may affect radiolabeling yields of performance parameters when determining an appropriate BUD. See Table 7. Preparation Conditions for Sterile Radiopharmaceuticals.

74. If a drug that has biological distribution in its USP monograph is fractionated under the 96-hour compounding standard

(Table 7) of what parameters need to be checked before using the fractionated product?
<825> does not specify what quality testing parameters are to be performed for compounded radiopharmaceuticals. As an example, if a user is fractionating a container of a conventionally manufactured, lyophilized drug product, Section 8. Assigning a BUD,states "the individual responsible for the manipulation assigns the BUD based on established testing data, either performed in-house or obtained from peer reviewed literature. Section 8 also states that the BUD is also dependent on maintenance of appropriate quality and purity, including radiochemical purity, radionuclidic purity, and other applicable parameters as specified in individual monographs or as clinically appropriate. In addition section 11.2 states "The individual responsible must consider all possible interactions of kit components with these other containers (e.g., container walls, closures), as well as possible alterations in stability (e.g., physical stability, chemical stability) that may affect radiolabeling yields or performance parameters, when determining an appropriate BUD. Systematic QC testing is required to validate the appropriateness of a particular BUD. If a drug product is compounded with non-sterile components, section 11.3 Sterile Compounding Using a Nonsterile Drug Substance or Components applies.

75. If an area in a hospital is designated as "Radiopharmacy", does it then require a Pharmacy Sterile compounding license and a qualified Pharmacist to be involved with compounding of these products?
Depending on the state, "radiopharmacy" may be used synonymously with "nuclear pharmacy" vis-à-vis licensing by the state board of pharmacy. In a nuclear medicine department or clinic, the common term "hot lab" is used to denote an area for radiopharmaceuticals but is not a pharmacy per se that would require separate licensure from the state board of pharmacy. In either situation, compounding is performed under the supervision of an Authorized User Physician or Authorized Nuclear Pharmacist.

76. Does compounding include radiolabeling of kits according to the package insert?
No, please refer to the Glossary in <825> for USP's definitions of radiopharmaceutical compounding, preparation, and preparation with minor deviations.

77. Is a master drug formulation record required to use an FDA-approved radiopharmaceutical for an unapproved use?
Section 9.1 states that an"MFR is required only for a preparation with minor deviations or compounding". Approved and unapproved indications of radiopharmaceuticals relates to the procedure and usage of the drug which is beyond the scope of the preparation or compounding of the drug. An MFR is required if the radiopharmaceutical is prepared with a minor deviation or compounded regardless of whether the indication is approved or not in the FDA prescribing information.

78. When is a CoA required for radiopharmaceutical sterile compounding?
When a sterile radiopharmaceutical compounding activity involves the use of a bulk drug substance (which includes a radionuclide, a ligand, or other substance such as a precursor that becomes an active ingredient in the final radiopharmaceutical), Section 11.3 states that it "must comply with standards of an applicable USP or NF monograph, if one exists, or be a component of an approved drug product. Each bulk drug substance should be manufactured by drug establishments registered with FDA and be accompanied by a valid CoA or equivalent testing procedures."

79. Does USP require a certificate of analysis for an FDA approved product if you are preparing with minor deviations or compounding?
Under 9.1 Master Formulation Record it states an MFR is required for a preparation with minor deviations or compounding; examples of data that must be included are name, identity, strength, purity, quality, and quantity of ingredients with validated documentation (e.g., CoA). While a CoA is an example of one type of validated documentation, the Prescribing Information of the FDA approved product is also a valid example

3) Does each compounding activity have a pre-established written procedure?

Observation

USP | Effective 12/01/2020
Each compounding activity must be based on a pre-established written procedure and must include maintenance of compounding records. The compounding record must provide traceability (see 9. Documentation - 19.5.11).

4) Is all sterile compounding performed using aseptic technique in an ISO 5 PEC?

Yes: Aseptic technique is used for sterile compounding.

Yes: Sterile compounding is performed in an ISO 5 PEC.

5) Does the facility compound radiopharmaceuticals that have been withdrawn from the market because of safety or lack of effectiveness?

No:

6) Does the facility compound radiopharmaceuticals that are an essential copy of a marketed FDA-approved radiopharmaceutical?

No:

2.5.13.2) Compounding Nonsterile Radiopharmaceuticals

2) Are areas for nonsterile compounding appropriate for radiopharmaceutical compounding?

Other:

Observation
N/A

2.5.13.3) Sterile Compounding

1) Does the facility sterile compound by adding conventionally manufactured products to the radiopharmaceutical?

No:

2.5.13.4) Sterile Compounding Using a Nonsterile Drug Substance or Components

1) Does the facility perform a sterilization procedure when compounding with one or more non-sterile ingredients to make a sterile product?

Other:

Observation
Pharmacy does not use non-sterile starting ingredients, so does not need to perform sterilization procedures.

2.5.14.1) Dispensing and Radioassay

2) Does the facility radioassay all final doses?

Yes: All final doses are radioassayed except for unopened manufacturer containers.
Yes: Measured activity is mathematically corrected for radioactive decay to the time of the scheduled administration.
Yes: The activity at calibration time is always within federal, state and local variance limits.

2.5.14.2) Labeling

2) Are inner containers labeled with the minimum information required by USP 825?

Yes: Inner containers contain the standard radiation symbol.
Yes: Inner containers contain the words "Caution - Radioactive Material"
Yes: Inner containers for therapeutic and blood products contain the patient name/identifier.
Yes: Inner containers contain the radionuclide and chemical form (generic name).
Yes: Inner containers contain the radioactivity and the date and time of calibration.

3) Is the outer shielding labeled with the minimum information required by USP 825?

Yes: Outer shielding is labeled with the standard radiation symbol.
Yes: Outer shielding is labeled with the words "Caution- Radioactive Material".
Yes: Outer shielding of all therapeutic and blood products is labeled with the patient name/identifier.
Yes: Outer shielding is labeled with the radionuclide and chemical form (generic name).
Yes: Outer shielding is labeled with the radioactivity and the date and time of calibration.
Yes: Outer shielding is labeled with the volume or number of units dispensed.
Yes: Outer shielding is labeled with the product expiration date or BUD.
Yes: Outer shielding is labeled with special storage and handling instructions for non-immediate use.
Yes: Outer shielding is labeled with the route of administration.

2.5.14.3) Direct Infusion Systems

1) Does the facility use a direct infusion system?

No:

2.5.14.4) Transporting Generators Between Facilities.

1) Does the facility transport generators between facilities?

Yes:

2) Does the facility follow the UPS 825 standards for transporting generators between facilities?

Yes: The generator needle and/or ports are capped in ISO Class 8 air or better with sterile protectors.
Yes: The generator is packaged and transported in a manner to maintain the integrity and sterility of the generator system.

2.5.15) Repackaging

1) Does the facility repackage radiopharmaceuticals?

Yes.

2) Are repackaged radiopharmaceuticals radioassayed?

Yes.

3) Are inner containers of repackaged radiopharmaceuticals labeled according to USP 825 recommendations?

Yes. Repackaged radiopharmaceuticals are labeled with the standard radiation symbol.

Yes: Repackaged radiopharmaceuticals are labeled with the words "Caution -Radioactive Material".

Yes: Repackaged radiopharmaceuticals are labeled with teh radionuclide and chemical form (generic name).

Yes: Repackaged radiopharmaceuticals are labeled with the radioactivity with units at time of calibration and calibration time.

4) Is the outer shielding of repackaged radiopharmaceuticals labeled according to USP 825 recommendations?

Yes. Outer shielding is labeled with the standard radiation symbol.

Yes. Outer shielding is labeled with the words "Caution- Radioactive Material."

Yes. Outer shielding is labeled with teh radionuclide and chemical form (generic form).

Yes. Outer shielding is labeled with the radioactivity with units at time of calibration and the calibration time.

Yes. Outer shielding is labeled with the volume or number of units.

Yes: Outer shielding is labeled with the product expiration or BUD.

Yes. Outer shielding is labeled with special storage and handling instructions.

2.5.16.1) Quality Assurance and Quality Control

2) Does the facility have a formally established and SOP documented Quality Assurance Program?

Yes: The SOPs ensure that all aspects of handling of radiopharmaceuticals are conducted in accordance with USP 825, and applicable state and federal laws.

Yes. The Quality Assurance program establishes a system of adherence to procedures.

Yes. The Quality Assurance program establishes a system for the prevention and detection of errors and other quality problems.

Yes: The Quality Assurance program evaluates complaints and adverse events.

Yes: The Quality Assurance program provides for appropriate investigations and corrective actions.

3) Does the facility have a formally established Quality Control program?

Yes: The SOPs ensure that all aspects of handling of radiopharmaceuticals are conducted in accordance with USP 825, and applicable state and federal laws.

Yes. The Quality Control program establishes a system of adherence to procedures.

Yes. The Quality Control program establishes a system for the prevention and detection of errors and other quality problems.

Yes: The Quality Control program evaluates complaints and adverse events.

Yes: The Quality Control program provides for appropriate investigations and corrective actions.

4) Do facility SOPs describe the roles, duties and training of personnel responsible for each aspect of the QA program?

Yes.

5) Are QA and QC programs reviewed at least once every 12-months by the designated person?

Yes. The designated person reviews the QA and QC programs annually.

Yes: Results of the review are documented.

Yes. Appropriate corrective actions are taken if needed.

2.5.16.2) Notification About and Recall of Out-of-Specification Dispensed Radiopharmaceuticals

1) Does the facility dispense or administer radiopharmaceuticals before the results of release testing are known?

Yes.

Observation
Conditional release is performed with documentation to accompany.

2) Does the facility have SOPs in place for the notification and recall of out-of-specification dispensed radiopharmaceuticals?

Yes: SOPs are in place to immediately notify the prescriber of a failure of specifications with the potential to cause patient harm.

Yes. SOPs are in place to determine when a recall is necessary.

3) Do SOPs for the recall of out-of-specification dispensed radiopharmaceuticals contain contain procedures required by USP 825?

Yes: SOPs contain procedures to determine the severity of the problem and the urgency for implementation and completion of the recall.

Yes: SOPs contain procedures to determine the distribution of any affected radiopharmaceuticals including the date and quantity.

Yes: SOPs contain procedures outlining the disposition and reconciliation of the recalled radiopharmaceutical.

Observation
TSA locks are present on the container, so products aren't released until quality control testing has resulted.

4) Does the facility document recalls and report them to the appropriate regulating body?

Yes. The facility has a procedure to document recalls, however they have not had any recalls.

2.5.16.3) Complaint Handling

1) Does the facility have SOPs for handling complaints?

Yes.

2) Does the designated person review all complaints?

Yes, complaints are reviewed to determine if they indicate a potential quality problem.

3) Is the complaint investigation complete?

Yes: The investigation considers if the quality problem could extend to other radiopharmaceuticals.

Yes: The investigation includes corrective actions.

Yes: The investigation allows for corrective action to be implemented for all potentially affected radiopharmaceuticals.

Yes: The investigation considers whether to initiate a recall.

Yes: The investigation considers whether to cease sterile compounding until all underlying problems have been identified and corrected.

4) Does the facility have readily retrievable records of each complaint, regardless of the source?

Yes. A readily retrievable record of each complaint is kept by the facility.

Yes: The records contain the name of the complainant.

Yes. The records contain the date the complaint was received.

Yes: The records contain the nature of the complaint.

Yes: The records contain the response to the complaint.

Yes: The records contain the name and strength of the radiopharmaceutical and the assigned internal identification number (if known).

Yes: The records include the findings of any investigation and follow-up.

Yes: Records are readily retrievable for review and evaluation.

Yes. Records are used to evaluate possible trends.

Yes. Records are retained.

Observation
Has not received any complaint.

5) Are radiopharmaceuticals returned in connection with a complaint quarantined until destruction after the completion of the investigation.

Yes.

Observation
Discussed procedures, as pharmacy has not had any returned/complaint products.

2.5.16.4) Adverse Event Reporting

1) Are adverse events potentially associated with the quality of radiopharmaceuticals reported in accordance with the facilities SOPs and all applicable jurisdictional laws and regulations?

Yes: Adverse events are reported to the State of Ohio Board of Pharmacy.

Yes. Adverse events are reported to the Ohio Department of Health.

Yes: Adverse events are reported to the FDA MedWatch program.

Yes: Adverse events are reported according to SOPs.

5) Additional Information/Observations

1) Additional Information/Observations

Observation

Certification conducted 5/19/2025:

- Particle counts hot cell 1: 16, 15, 86, 3, 3
- Particle counts hot cell 2: 47, 6, 14, 11, 7
- Pass through particle counts: 6, 0, 0, 0, 0
- Particle counts BSC: 0, 5, 0, 2, 0
- Particle counts buffer room: 2, 44, 75, 323, 91, 253
- Particle counts ante room: 93, 59, 144, 217, 319
- Surface buffer room table - 1 bacterial and 1 fungal growth; both below action levels

9) Substance Abuse and Mental Health Resources for Healthcare Professionals

1) Substance Abuse and Mental Health Resources for Healthcare Professionals

Observation

The healthcare profession is not immune to substance use disorder and mental health conditions. Such medical conditions impair a healthcare professional's competency, ability, and judgment. Substance use disorder and/or mental health conditions that are left untreated may not only cause a healthcare professional to risk their career, but may also endanger the life of a patient. These medical conditions can be effectively treated, and it is possible for healthcare professionals that are in treatment or recovery to return to practice.

The State of Ohio Board of Pharmacy encourages all healthcare professionals who may be struggling with substance use disorder or mental health condition to seek help. The following are resources that can assist healthcare professionals in getting help: (The resources listed here are for informational purposes only and do not constitute an endorsement by the State of Ohio Board of Pharmacy. They do not represent a complete list of the resources available)

Ohio Careline 1-800-720-9616, emotional support, with referral to other resources if needed.
Crisis text line, text "4hope" to 741 741 to speak with a crisis counselor.
Treatment Bridge 1-877-275-6364, for addiction and mental health services.
National Suicide prevention dial 988, or call 1-800-273-8255.
Ohio Domestic Violence Network 1-800-934-9840
Pharmacist Rehabilitation Organization (www.ohiopro.org) for pharmacists and pharmacy interns.
Ohio Physicians Health Program (www.ophp.org)

10) Inspection Affirmation

1) Inspection Affirmation

Observation
*This document only addresses compliance with the rules or laws specifically identified above.

As the person in charge at the time of this inspection, I affirm that I have reviewed this inspection report with the Specialist/Agent/Inspector, and understand its content.

If this inspection report requires a written response, I understand, per OAC 4729:5-3-03, that either of the following must be submitted to the State of Ohio Board of Pharmacy within 30 days of this inspection:
(1) The action(s) the licensee or applicant has taken to correct the violation(s) and the date of implementation of the corrective action(s); or
(2) An explanation disputing the observed violations.

I understand that if I am not the responsible person documented on this site's Ohio terminal distributor of dangerous drugs license, I will ensure the responsible person is provided a complete copy of this inspection report in a timely manner.

I further acknowledge that a written response does not release the licensee listed in this inspection report from potential disciplinary action.

Responses must be either emailed (with a copy of the inspection report) to WRITTENRESPONSE@PHARMACY.OHIO.GOV or mailed to 77 South High Street, 17th Floor, Columbus, Ohio 43215.

Statement of Responsibility

1. I am the President and Owner (title) for The Pharmacy Place (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be responsible for any violations of pharmacy law that may occur in the Pharmacy owned by such owner(s), shareholder(s), member(s), or partner(s).
3. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be named in any action taken by the Nevada State Board of Pharmacy against the Pharmacy.
4. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) cannot require or permit the pharmacist(s) in said Pharmacy to violate any provision of local, state, or federal laws or regulations pertaining to the practice of pharmacy.
5. I further understand and acknowledge that Nevada law requires that each pharmacy located inside the State of Nevada employ only pharmacists, intern pharmacists, pharmaceutical technicians, and technicians in training that are licensed by the Nevada State Board of Pharmacy. (NRS 639.100).
6. I further understand and acknowledge that Nevada law requires that each pharmacy located outside the State of Nevada engaged in providing pharmacy services into Nevada employs at least one pharmacist licensed by the Nevada State Board of Pharmacy who will be responsible for any prescription dispensed to a patient located in Nevada and responsible for any acts or omissions of pharmacy personnel who are not registered with the Board. (NRS 639.2328).

Sterile Compounding Questionnaire

Rev (09/11/2024)

This application cannot be returned by fax or email.
We must have an original signature to process.

Approval of this completed questionnaire is required for an existing pharmacy, new pharmacy and/or out-sourcing facility applicant who wish to engage in preparing, compounding, dispensing, and furnishing sterile compounded products to Nevada patients or consumers.

Please provide a thorough response to the questions below and provide any necessary supporting documents.
-For a new pharmacy or out-sourcing facility applicant, submit this completed form with your application.
-For an existing pharmacy, send the completed form to the address indicated above.

Section 1: General Information

Pharmacy Name: The Pharmacy Place

NV Pharmacy or Outsourcing facility license # (if applicable): new app

Physical Address: 2035 Commerce Dr N

City: Peachtree City State: GA Zip: 30269

Mailing Address (if different from physical address): (same address)

City: State: Zip:

Telephone: 8335863111 Toll Free # (NAC 639.708, NRS 639.23286): 8335863111

Fax: 6782713971 Contact Email: thepharmacyplacellc@gmail.com

Website: www.thepharmacyplace.com

Nevada Business License # (if applicable)

Supervising/Managing Pharmacist Name (NRS 639.220): Jolyn Bennett

Supervising/Managing Pharmacist NV Pharmacist Registration #: 25111

Name of Designated Person(s) as defined by revised USP-797 guidelines:

Email of Designated Person(s): thepharmacyplacellc@gmail.com

Telephone of Designated Person(s): 8335863111

5. What is the frequency for completing surface sampling? WEEKLY		
6. What is the frequency for using sporicidal agents? DAILY		
7. Is an endotoxin test performed for all products compounded from one or more nonsterile component?	(Yes)	No
8. Is the BUD assigned supported by stability data obtained using a stability-indicating analytical method?	(Yes)	No

I certify under penalty of perjury that the information contained in this form is accurate, true and complete in all material respects. I understand that making any false representation in this form is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire form and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event the form is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

HANNAH GRAY
Name of Person who Completed the Form

PHARMACIST / DESIGNATED PERSON
Title

Signature (copies or stamps not accepted)

6/24/26
Date

Board Use Only	Date Received: 7/25/26 Date Approved: _____ Approved By: _____

11. Describe your initial process for training new employees prior to compounding sterile hazardous drugs?

NEW 797 EMPLOYEES COMPLETE COMPETENCIES FOR THE FOLLOWING PRIOR TO COMPOUNDING IN 797: USE OF EQUIPMENT, ENVIRONMENTAL SAMPLING, ASEPTIC MANIPULATION, AUTOMATED COMPOUNDING DEVICES, CLEANING / DISINFECTION STERILE COMPOUNDING AREAS, CSP CALCULATIONS/MEASURING/MIXING, MATERIALS HANDLING IN STERILE COMPOUNDING ENVIRONMENTS, PEC LAMINAR AIRFLOW WORKBENCHES, RESPONSIBILITIES OF PERSONNEL IN STERILE COMPOUNDING, SECs, THESE COMPETENCIES ARE THEN SIGNED OFF FOR VISUAL COMPLETION OF APPROPRIATE TASKS BY THE DESIGNATED PERSONS. GARBING & MEDIA PERFORMED PRIOR TO COMPOUNDING.

Section 4: Sterile Category 3 Compounding Questions (Complete this section ONLY if you will be performing Category 3 Compounding.)

1. List the specific Category 3 sterile products that your facility compounds:

TIRZEPATIDE/NIACINAMIDE/CYANOCOBALAMIN

SEMAGLUTIDE/NIACINAMIDE/CYANOCOBALAMIN

2. What is the frequency for ongoing garbing, gloved fingertip and thumb sampling, and media fill testing for compounding personnel?

EVERY 3 MONTHS

3. Is the pharmacy meeting all of the additional garbing requirements for compounding Category 3 CSPs as defined by the revised USP-797 guidelines? (Yes) No

4. What is the frequency for completing volumetric active air sampling?

ONCE MONTHLY

N/A

Section 3: Sterile Hazardous Compounding Questions (Complete this section ONLY if you be performing Sterile Hazardous Compounding.)			
1. What type of primary engineering controls will you be using in your facility?			
2. Are you complying with all USP 800 guidelines?	N/A	Yes	No
3. Have your employees who compound with hazardous drugs signed an acknowledgement that they understand the risks associated with this process?	N/A	Yes	No
4. Is your BSC or CACI vented 100% to the outside?	N/A	Yes	No
5. Do you have a negative pressure buffer room at your facility?	N/A	Yes	No
6. Will you be compounding with antineoplastic HDs or HD API?		Yes	No
7. If yes, are the drugs stored in an externally ventilated, negative pressure room?		Yes	No
8. Will you be utilizing a closed system transfer device?		Yes	No
9. If yes, list the name of the device:			

10. What information is provided to the patient or consumer on the proper handling and disposal of hazardous drugs products/containers?

APPROPRIATE CAUTIONARY LABELS PROVIDED WITH MEDICATIONS.

13. What is your procedure for visual inspection of compounded sterile products?

THE VERIFYING PHARMACIST VISUALLY INSPECTS PRODUCTS FOR FINAL QUANTITY, COLOR, & PARTICULATES AGAINST A BLACK/WHITE BACKGROUND.

14. How often do you perform glove fingertip and medial fill testing?

EVERY 3 MONTHS

15. Describe your initial and ongoing training program for all personnel performing sterile compounding:

ALL STERILE COMPOUNDING PERSONNEL MUST PERFORM INITIAL GLOVEFINGERTIP TESTING x3, ~~THEN~~ AND MEDIA FILL. THIS ONGOING GLOVED FINGERTIP TESTING AFTER GARB & ONGOING MEDIA FILL IS THEN PERFORMED EVERY 3 MONTHS. INITIAL AND COMPETENCIES/TRAINING ARE COMPLETED THROUGH SIMPLIFI 797. QUARTERLY POTENCY CHECKS ON PERSONNEL ARE PERFORMED.

16. Describe the cleaning procedure for your primary and secondary engineering controls, including the frequency of cleaning and the names of cleaning, disinfectant, sporicidal, and/or deactivation and decontamination agents used:

- DAILY WHEN COMPOUNDING OCCURS - USING A STERILE LOW-LINT WIPER, ALL INSIDE SURFACES OF PEC/SEC AND EQUIPMENT WITHIN PEC/SEC CLEANED & DISINFECTED WITH STERILE PERIDOX RTU & ALLOWED TO DWELL FOR SPECIFIED CONTACT TIME. THEN STERILE IPA 70% APPLIED TO ALL EQUIPMENT & INTERIOR SURFACES OF PEC & ALLOWED TO DRY.
- STERILE 70% IPA APPLIED TO DIRECT COMPOUNDING AREA & HORIZONTAL WORK SURFACE OF PEC BEFORE INITIATING COMPOUNDING, PRIOR TO EACH BATCH, AT LEAST EVERY 30 MIN IF THE COMPOUNDING PROCESS TAKES 30MIN OR LESS, & TO REMOVE RESIDUE AFTER CLEANING/DISINFECTION.

17. Who performs the sterile compounding process at your facility?

JOLYN BENNETT, HANNAH CLAY, KYLE WILLIAMS, PRACHI PATEL, NILESH PATEL

18. Who is responsible and accountable for the sterile compounding process at your facility?

HANNAH CLAY

19. If products are shipped/mailed, what shipping conditions are used to ensure product safety/efficacy? REFRIGERATED PRODUCTS ARE PACKAGED IN A STYROFOAM COOLER WITH ICEPACKS TO REDUCE RISK OF TEMPERATURE EXCURSIONS. GLASS CONTAINERS ARE PROTECTED WITH BUBBLEWRAP. SHIPPING VALIDATION IS PERFORMED BIANNUALLY. STYROFOAM COOLER IS PLACED IN A CARDBOARD SHIPPING BOX.

Section 2: Sterile Compounding Questions (Use a separate piece of paper if additional space is needed.)

1. What risk level sterile compounding will your facility be performing (check all that apply)?

☐ Category 1 ☑ Category 2 ☑ Category 3

If you marked "**Category 3**", you must also complete **section 4.**

2. If compounding Category 2 products is the location performing sterility and endotoxin testing (if required) to obtain extended beyond-use dates? ☑ Yes ☐ No

3. If compounding Category 2 products is the location performing aseptically processed CSPs or terminally sterilized CSPs? ☑ Aseptic ☐ Terminal

4. Is the pharmacy following the new garbing requirements listed in the revised USP-797 guidelines? ☑ Yes ☐ No

5. When was the most recent certification for the ISO classified areas? MARCH 2024

6. What is the frequency of the recertification for the ISO classified areas? EVERY 6 MONTHS

7. Were there any follow-up items required from the most recent certification report? ☐ Yes ☑ No

8. If preparing Category 2 or Category 3 CSPs from non-sterile starting components are the pre-sterilization procedures such as weighing and mixing completed in an ISO Class 8 or better environment? ☑ Yes ☐ No

9. If compounding Category 1 CSPs and Category 2 CSPs how often is surface sampling of all classified areas and pass-through chambers conducted? WEEKLY

10. Will you be performing sterile hazardous drug compounding? Yes ☑ No

If you marked "**Yes**", you must also complete **section 3.**

11. List the sterile compounded products that you will be compounding for Nevada patients or consumers:

TIRZEPATIDE/NIACINAMIDE/CYANOCOBALAMIN

SEMAGLUTIDE/NIACINAMIDE/CYANOCOBALAMIN

12. What laboratory performs your sterility or endotoxin testing?

Name: ARL

Address: 840 RESEARCH PKWY STE. 546

City: OKLAHOMA CITY State: OK Zip: 73104

Telephone: 8003931595

USP 797 Designated Person 2

USP 797 Designated Person 3

A. Compounding Overview
1. Does this facility compound with nonhazardous drugs? *Yes*
Comments:

2. Does the facility compound with hazardous drugs (HDs)? *No*
Comments:

2.1 Was a USP 800 inspection conducted?
Comments:

NOTE: Handling of nonsterile hazardous drugs (HDs) must additionally comply with USP 800. [1]
3. What types of sterile preparations are compounded?
Comments:

B. Personnel Training and Evaluation

1. Before beginning to compound CSPs independently or have direct oversight of compounding personnel, have all personnel completed the following training initially and at least every 12 months in at least the following?
1.1 Is there documentation to show compounding personnel (and those with oversight of compounding personnel) have completed training and demonstrated knowledge of principles of hand hygiene before beginning to compound CSPs? This must be done initially and at least every 12 months. *Yes*

USP 797 Section 2.1
Comments:

1.2 Is there documentation to show compounding personnel (and those with oversight of compounding personnel) have completed training and demonstrated knowledge of principles of garbing before beginning to compound CSPs? This must be done initially and at least every 12 months. *Yes*

USP 797 Section 2.1
Comments:

1.3 Is there documentation to show compounding personnel (and those with oversight of compounding personnel) have completed training and demonstrated knowledge of principles of cleaning and disinfection before beginning to compound CSPs? This must be done initially and at least every 12 months. *Yes*

USP 797 Section 2.1
Comments:

1.4 Is there documentation to show compounding personnel (and those with oversight of compounding personnel) have completed training and demonstrated knowledge of principles of calculations, measuring, and mixing before beginning to compound CSPs? This must be done initially and at least every 12 months. *Yes*

USP 797 Section 2.1
Comments:

1.5 Is there documentation to show compounding personnel (and those with oversight of compounding personnel) have completed training and demonstrated knowledge of principles of aseptic technique before beginning to compound CSPs? This must be done initially and at least every 12 months. *Yes*

USP 797 Section 2.1
Comments:

1.6 Is there documentation to show compounding personnel (and those with oversight of compounding personnel) have completed training and demonstrated knowledge of principles of achieving and/or maintaining sterility (and apyrogenicity if compounding with nonsterile components) before beginning to compound CSPs? This must be done initially and at least every 12 months. *Reviewed*

USP 797 Section 2.1
Comments: *Training did not specifically document principles of achieving/maintaining sterility.*

1.7 Is there documentation to show compounding personnel (and those with oversight of compounding personnel) have completed training and demonstrated knowledge of principles of use of equipment before beginning to compound CSPs? This must be done initially and at least every 12 months. *Reviewed*

USP 797 Section 2.1
Comments: *Training did not specifically document use of equipment*

1.8 Is there documentation to show compounding personnel (and those with oversight of compounding personnel) have completed training and demonstrated knowledge of principles of documentation of the compounding process (e.g., master formulation and compounding records) before beginning to compound CSPs? This must be done initially and at least every 12 months. *Yes*

USP 797 Section 2.1
Comments:

1.9 Is there documentation to show compounding personnel (and those with oversight of compounding personnel) have completed training and demonstrated knowledge of principles of principles of high-efficiency particulate air (HEPA)-filtered unidirectional airflow within the ISO Class 5 area before beginning to compound CSPs? This must be done initially and at least every 12 months. *Reviewed*

USP 797 Section 2.1
Comments: *Training did not specifically document principles of principles of high-efficiency particulate air (HEPA)-filtered unidirectional airflow within the ISO Class 5 ar*

1.10 Is there documentation to show compounding personnel (and those with oversight of compounding personnel) have completed training and demonstrated knowledge of principles of proper use of PECs before beginning to compound CSPs? This must be done initially and at least every 12 months. *Yes*

USP 797 Section 2.1
Comments:

1.11 Is there documentation to show compounding personnel (and those with oversight of compounding personnel) have completed training and demonstrated knowledge of principles of

movement of materials and personnel within the compounding area before beginning to compound CSPs? This must be done initially and at least every 12 months. *Yes*

USP 797 Section 2.1
Comments:

2. Have personnel who compound or have direct oversight of compounding personnel completed ongoing training? This training shall include:
2.1 Annual training and competency in sterile compounding principles and practices. *Yes*

USP 797 Section 2
Comments:

2.2 Garbing competency (including GFT) training shall be every 6 months for Category 1 and 2, every 3 months for Category 3, or every 12 months for the DP and personnel with direct oversight. *Yes*

USP 797 Section 2
Comments:

2.3 Media fill with post-GFT and surface sampling shall be every 6 months for Category 1 and 2, every 3 months for Category 3, or every 12 months for the DP and personnel with direct oversight. *Yes*

USP 797 Section 2
Comments:

3. Have personnel who restock or clean and disinfect the sterile compounding area completed training as defined by the facility's SOP's? *Yes*

USP 797 - Table 2. Initial Training and Competency
Comments:

4. Have personnel who perform in-process checks or final verification of CSPs completed training as defined by the facility's SOP's? *Yes*

USP 797 - Table 2. Initial Training and Competency
Comments:

5. Have personnel who only compound immediate-use CSPs completed training as defined by the facility's SOP's? *Not Inspected*

USP 797 - Table 2. Initial Training and Competency
Comments: *No immediate use CSP at this facility*

C. Personal Hygiene and Garbing
1. Does the facility use brushes or hand dryers for hand hygiene? *No*

USP 797 Section 3.2 Paragraph 1
Comments:

2. Was hand washing and/or garbing observed during this visit in compliance with USP 797 and the facility's SOPs? *No*

USP 797 Section 3.2 Paragraph 2
Comments: *No sterile compounding was conducted during inspection*

3. Were donning/doffing of sterile gloves observed during this visit in compliance with USP 797 and the facility's SOPs? *No*

USP 797 Section 3.3 Paragraph 5
Comments: *No sterile compounding was conducted during inspection*

4. Do personnel utilize sterile and powder free gloves? *Yes*

USP 797 Section 3.3 Paragraph 5
Comments:

5. Do personnel utilize sterile 70% IPA? *Yes*

USP 797 Section 3.3 Paragraph 5
Comments:

D. Facilities and Engineering Controls
1. Are the anteroom, buffer room, and SCA separated from areas not directly related to compounding? *Yes*

USP 797 Section 4 Paragraph 1
Comments:

2. Are temperature and humidity being monitored and recorded in each room of the cleanroom suite each day that compounding is performed? *Yes*

USP 797 Section 4.2 Paragraph 1
Comments:

3. Are the classified spaces or the SCA void of free-standing air conditioners, humidifiers, and dehumidifiers? *Yes*

USP 797 Section 4.2 Paragraph 1
Comments:

4. Is the ISO-classified anteroom and buffer room separated from the surrounding unclassified areas by fixed walls and doors? *Yes*

USP 797 Section 4.2.1 Paragraph 2
Comments:

5. Are the classified rooms equipped with a pressure-differential monitoring system? *Yes*

USP 797 Section 4.2.1 Paragraph 2
Comments:

6. Is air supplied to the cleanroom suite introduced through HEPA filters that are located in the ceiling of the buffer room and anteroom? *Yes*

USP 797 Section 4.2.1 Paragraph 2

Comments:

7. Are air returns in the cleanroom suite low on the wall unless a visual smoke study demonstrates an absence of stagnant airflow? *Yes*

USP 797 Section 4.2.1 Paragraph 3
Comments:

8. Does the anteroom have a line of demarcation to separate the clean side from the dirty side, or it is designed with two separate anterooms-a dirty anteroom and a clean anteroom? *Yes*

USP 797 Section 4.2.1 Paragraph 4
Comments:

9. Does placement of the PECs allow for cleaning around the PEC? *Yes*

USP 797 Section 4.2.3 Paragraph 1
Comments:

10. Is the RABS located in the SCA only utilized to prepare Category 1 CSPs? Are RABS utilized to compound Category 2 or Category 3 CSPs located within a cleanroom suite with an ISO Class 7 or better buffer room with an ISO Class 8 or better anteroom? *Not Inspected*

USP 797 Section 4.2.3 Paragraph 6
Comments: *No RABS used at the facility*

11. Is the positive pressure differential between the buffer room and anteroom not less than of 0.020-inch water column? *Yes*

USP 797 Section 4.2.5 Paragraph 1
Comments:

12. Is the positive pressure differential between the anteroom and the unclassified area not less than 0.020-inch water column? *Yes*

USP 797 Section 4.2.5 Paragraph 1
Comments:

13. Is the negative pressure differential between the C-SEC and the adjacent area between 0.01 and 0.03-inch water column? *Not Inspected*

USP 800 Section 5.3 Paragraph 1
Comments: *No hazardous sterile compounding conducted at the facility*

14. Where pressure differentials are required, is a pressure differential monitoring device used to continuously monitor the pressure differentials? Are the quantitative results from the pressure monitoring device reviewed and documented at least daily on the days when compounding is occurring? *Yes*

USP 797 Section 4.2.5 Paragraph 2
Comments:

15. Are presterilization procedures using non-sterile components performed in single-use containment glove bags, containment ventilated enclosures (CVEs), BSCs, or CACIs in an ISO Class 8 or better environment? *Yes*

USP 797 Section 4.2.6 Paragraph 1
Comments:

16. In the cleanroom suite: Are the surfaces of ceilings, walls, floors, doors, door frames, fixtures, shelving, work surfaces, counters, and cabinets in the classified area smooth, impervious, free from cracks and crevices, and nonshedding? *Yes*

USP 797 Section 4.3.1 Paragraph 1
Comments:

17. In the cleanroom suite: Are junctures between the ceiling and the walls and between the walls and the floor sealed? *Yes*

USP 797 Section 4.3.1 Paragraph 1
Comments:

18. In the cleanroom suite: For ceilings that consist of inlaid panels, are the panels caulked around each panel to seal them to the support frame? *Yes*

USP 797 Section 4.3.1 Paragraph 1
Comments:

19. In the cleanroom suite: Are walls constructed of, or covered with, durable material (e.g., epoxy painted walls or heavy-gauge polymer) and the integrity of the surface maintained? Are panels joined together and sealed to each other and the support structure? *Yes*

USP 797 Section 4.3.1 Paragraph 2
Comments:

20. In the cleanroom suite: Do floors include coving to the sidewall, or are the juncture between the floor and the wall caulked? *Yes*

USP 797 Section 4.3.1 Paragraph 2
Comments:

21. In the cleanroom suite: Are the exterior lens surfaces of ceiling light fixtures smooth, mounted flush, and sealed? *Yes*

USP 797 Section 4.3.1 Paragraph 2
Comments:

22. In the segregated compounding area (SCA): Are all surfaces (e.g., walls, floors, counters, and equipment) clean, uncluttered, and dedicated to compounding? *Not Inspected*

USP 797 Section 4.3.2
Comments: *NO SCA*

23. Does the buffer room contain plumbed water sources [e.g., sink(s), eyewash(es), shower(s), or floor drain(s)]? *No*

USP 797 Section 4.4 Paragraph 2
Comments:

24. Is the anteroom free of floor drain(s)? *Yes*

USP 797 Section 4.4 Paragraph 2
Comments:

25. Is only furniture, equipment, and other materials necessary for performing compounding activities in the classified area or SCA? *Yes*

USP 797 Section 4.5 Paragraph 1
Comments:

26. Are the classified areas or SCA free of shipping carton(s) or other corrugated or uncoated cardboard? *Yes*

USP 797 Section 4.5 Paragraph 1
Comments:

27. Are carts used to transport components or equipment into classified areas constructed from nonporous materials with cleanable casters and wheels? *Yes*

USP 797 Section 4.5 Paragraph 2
Comments:

E. Certification and Recertification

1. Has the compounding area been independently certified initially and every 6 months thereafter as stated in USP Chapter 797 Section 5 to include the following?

USP 797 Section 5 Paragraph 1
Comments:

1.1 Is a dynamic airflow smoke pattern test performed in the PEC under dynamic operating conditions? *Yes*

USP 797 Section 5 Paragraph 2
Comments:

1.2 Were HEPA filter integrity tests conducted? *Yes*

USP 797 Section 5 Paragraph 2
Comments:

1.3 Was total particle count testing conducted in all classified areas (e.g., in the ISO Class 5 PEC and ISO Class 7 and 8 rooms) durmg dynamic operating conditions? *Yes*

USP 797 Section 5 Paragraph 2
Comments:

1.4 Was the number of personnel present in each PEC and SEC during total particle-count tests and dynamic airflow smoke-pattern tests documented? *Yes*

USP 797 Section 5 Paragraph 4
Comments:

2. Has the compounding area been independently certified initially and every 6 months thereafter as stated in USP Chapter 797 Section 4 include the following?
2.1 Is a minimum of 30 total HEPA-filtered ACPH supplied to ISO Class 7 rooms? *Yes*

USP 797 Section 4.2.4 Paragraph 3
Comments:

2.2 Is a minimum of 20 total HEPA-filtered ACPH supplied to ISO Class 8 rooms? *Yes*

USP 797 Section 4.2.4 Paragraph 4
Comments:

2.3 Was the positive pressure differential between the buffer room and anteroom is not less than 0.020-inch water column? *Yes*

USP 797 Section 4.2.5 Paragraph 1
Comments:

2.4 Was the positive pressure differential between the anteroom and the unclassified area is not less than 0.020-inch water column? *Yes*

USP 797 Section 4.2.5 Paragraph 1
Comments:

3. If levels measured during the total air sampling program exceed the criteria established in USP 797 for the ISO classification of the area sampled, was the cause investigated and corrective action taken and documented? Was data collected in response to corrective actions reviewed to confirm that the actions taken were effective? *Yes*

USP 797 Section 5.1 Paragraph 3
Comments:

4. Are the CVEs, BSCs, or CACIs used for presterilization procedures of non-sterile components certified at least every 6 months? *Yes*

USP 797 Section 4.2.6 Paragraph 1
Comments:

F. Microbiological Air and Surface Monitoring
1. Are microbiological air and surface monitoring performed initially for sterile compounding facilities? *Yes*

USP 797 Section 6.1 Paragraph 4
Comments:

2. Are regular review of the microbiological airborne and surface sampling data performed to detect trends and are the results of the review documented? *Yes*

USP 797 Section 6.1 Paragraph 2
Comments:

3. Does the facility have a monitoring program for viable airborne particles developed and implemented to include the following?:

USP 797 Section 6
3.1 Is volumetric active air sampling taken of all classified areas using an impaction air sampler in each classified area [e.g., ISO Class 5 PEC and ISO Class 7 and 8 room(s)] during dynamic operating conditions every 6 months for entities compounding Category 1 and Category 2 CSPs? *Yes*
Comments:

3.2 For entities compounding any Category 3 CSPs, is volumetric active air sampling completed within 30 days prior to the commencement of any Category 3 compounding and at least monthly thereafter regardless of the frequency of compounding Category 3 CSPs? *Not Inspected*
Comments: *No Category 3 compounding*

3.3 Is the incubation of microbiological growth media used for air sampling documented and conducted in compliance with USP 797? *Yes*
Comments:

3.4 If levels measured during the viable air monitoring program exceed the levels established in USP 797 for the ISO classification levels of the area sampled, is the cause investigated and corrective action taken? *Yes*
Comments:

4. Were surface samples taken from each classified area, including each room and the interior of each ISO Class 5 PEC and pass-through chambers connecting to classified spaces? *Yes*

USP 797 Section 6.3.1 Paragraph 1
Comments:

5. For entities compounding Category 1 and Category 2 CSPs, were surface sampling of all classified areas, and pass-through chambers connecting to classified areas, conducted at least monthly? *Yes*

USP 797 Section 6.3.1 Paragraph 4
Comments:

6. For entities compounding any Category 3 CSPs, were surface sampling of all classified areas, and pass-through chambers connecting to classified areas, completed prior to assigning a BUD longer than the limits established in USP 797 Table 13, and at least weekly on a regularly scheduled basis regardless of the frequency of compounding Category 3 CSPs *Not Inspected*

USP 797 Section 6.3.1 Paragraph 5
Comments: *No Category 3 compounding*

7. Is surface sampling conducted within the PEC used to prepare Category 3 CSPs, at the end of each batch before cleaning and disinfection occurs, unless a self-enclosed robotic device is used? When a self-enclosed robotic device is used as the PEC to prepare Category 3 CSPs, is surface sampling conducted at least once daily at the end of compounding operations, before cleaning and disinfection occurs? *Not Inspected*

USP 797 Section 6.3.1 Paragraph 5
Comments: *No Category 3 compounding*

8. Is incubation of microbiological growth media used for surface sampling documented and conducted in compliance with USP 797. *Yes*

USP 797 Section 6.3.2 Paragraph 1
Comments:

9. If levels measured during surface sampling exceed the levels established in USP 797 for the ISO classification levels of the area sampled, is the cause investigated and corrective action taken? *Yes*

USP 797 Section 6.3.3 Paragraph 1
Comments:

G. Cleaning, Disinfecting, and Applying Sporicidal Disinfectants and Sterile 70% IPA
1. Are surfaces of the sink(s) cleaned and disinfected each day of use, and is a sporicidal disinfectant applied at least monthly? *Yes*

USP 797 Section 4.4 Paragraph 1
Comments:

2. If compounding was observed during this visit, was sterile 70% IPA applied to the horizontal work surface, including any removable work trays, of the PEC at least every 30 min if the compounding process takes 30 min or less? If the compounding process took more than 30 min was the work surface of the PEC disinfected immediately after compounding? *Yes*

USP 797 Section 7 Paragraph 2
Comments:

3. Did documentation show the following were cleaned and disinfected daily on days when compounding occurred?:

USP 797 - Table 10. Minimum Frequency for Cleaning and Disinfecting Surfaces and Applying Sporicidal Disinfectants in Classified Areas and in the SCA
3.1 PEC(s) and equipment inside the PEC(s) *Yes*
Comments:

3.2 Pass-through chambers *Yes*
Comments:

3.3 Work surface(s) outside the PEC *Yes*
Comments:

3.4 Floor(s) *Yes*
Comments:

4. Did documentation show the following areas were cleaned, disinfected, and a sporicidal disinfectant was applied monthly?:

USP 797 - Table 10. Minimum Frequency for Cleaning and Disinfecting Surfaces and Applying Sporicidal Disinfectants in Classified Areas and in the SCA
4.1 Wall(s), door(s), and door frame(s) *Yes*
Comments:

4.2 Ceiling(s) *Yes*
Comments:

4.3 Storage shelving and bin(s) *Yes*
Comments:

4.4 Equipment outside the PEC(s) *Yes*
Comments:

5. Did documentation show a sporicidal disinfectant was applied monthly for entities compounding Category 1 and/or Category 2 CSPs or weekly for entities compounding Category 3 CSPs for the following areas?

USP 797 - Table 10. Minimum Frequency for Cleaning and Disinfecting Surfaces and Applying Sporicidal Disinfectants in Classified Areas and in the SCA
5.1 PEC(s) and equipment inside the PEC(s) *Yes*
Comments:

5.2 Pass-through chambers *Yes*
Comments:

5.3 Work surface(s) outside the PEC *Yes*
Comments:

5.4 Floor(s) *Yes*
Comments:

6. If items were observed being introduced into the PEC, were they wiped with sterile 70% IPA using sterile low-lint wipers and allowed to dry before use as outlined in USP 797? *Reviewed*

USP 797 Section 8.2
Comments:

Notes

H. Equipment, Supplies and Components
1. Do personnel maintain records from equipment calibration, verification, and maintenance? *Yes*

USP 797 Section 9.1 Paragraph 2
Comments:

2. Do compounding personnel maintain a daily record of the accuracy measurements on the days the equipment is used? *Yes*

USP 797 Section 9.1 Paragraph 4
Comments:

3. Are corrective actions implemented if accuracy measurements are outside the manufacturer's specification? *Yes*

USP 797 Section 9.1 Paragraph 4
Comments:

4. Is the date of receipt by the compounding facility clearly marked on each API or added substance package that lacked a vendor expiration date? *Yes*

USP 797 Section 9.3.2 Paragraph 3

Comments:

5. Were packages of components (i.e., API and added substances) that lacked a vendor's expiration date assigned a conservative expiration date, not to exceed 1 year after receipt by the compounding facility? *Yes*

USP 797 Section 9.3.2 Paragraph 3
Comments:

6. Do personnel monitor temperature in the area(s) where components are stored either manually at least once daily on days that the facility is open or by a continuous temperature recording device to determine whether the temperature remains within the appropriate range? *Yes*

USP 797 Section 9.3.4 Paragraph 2
Comments:

I. Sterilization and Depyrogenation
1. Does the pharmacy perform dry heat depyrogenation to render glassware, metal, and other thermostable containers and components pyrogen free? *Yes*
Comments:

1.1 Was there documentation to show the effectiveness of the dry heat depyrogenation cycle established initially and verified annually using ECVs to demonstrate that the cycle is capable of achieving a >=3-log reduction in endotoxins? *Yes*

USP 797 Section 10.1 Paragraph 2
Comments:

2. Does the pharmacy have items that are not thermostable? *No*
Comments:

2.1 Were these depyrogenated by multiple rinses with sterile, nonpyrogenic water (e.g., Sterile Water for Injection or Sterile Water for Irrigation) and then thoroughly drained or dried immediately before use in compounding?

USP 797 Section 10.1 Paragraph 3
Comments:

3. Does the pharmacy use filtration as a method sterilization? *Yes*
Comments:

3.1 Were filter units used to sterilize CSPs subjected to the manufacturers' recommended integrity testing, such as a post-use bubble point test? *Yes*

USP 797 Section 10.2 Paragraph 2
Comments:

3.2 Were multiple filters required for the compounding process? *No*

USP 797 Section 10.2 Paragraph 2
Comments:

3.3 Did each of the filters pass a filter-integrity test? *Yes*

USP 797 Section 10.2 Paragraph 2
Comments:

4. Does the pharmacy use steam heat as a method of sterilization? *No*
Comments:

4.1 Were the date, run, and load numbers of the steam sterilizer used to sterilize the CSP documented in the compounding record?

USP 797 Section 10.3 Paragraph 6
Comments:

4.2 Was the effectiveness of steam sterilization verified and documented with each sterilization run or load by using appropriate biological indicators, such as spores of Geobacillus stearothermophilus?

USP 797 Section 10.3 Paragraph 5
Comments:

5. Does the pharmacy use dry heat as a method of sterilization? *No*
Comments:

5.1 If sterilization by dry heat was used, were the date, run, and load numbers of the steam sterilizer used to sterilize the CSP documented in the compounding record?

USP 797 Section 10.4 Paragraph 4
Comments:

5.2 Was the effectiveness of dry heat sterilization verified and documented with each sterilization run or load by using appropriate biological indicators, such as spores of Bacillus atrophaeus?

USP 797 Section 10.4 Paragraph 4
Comments:

J. Master Formulation and Compounding Records
1. Is a master formulation record created for all CSPs prepared from nonsterile ingredient(s) or CSPs prepared for more than one patient? *Yes*

USP 797 Section 11.1
Comments:

1.1 Do the master formulation records include at least the following information?:
1.1.1 Name, strength or activity, and dosage form of the CSP *Yes*

USP 797 - Box 9. Master Formulation Records
Comments:

1.1.2 Identities and amounts of all ingredients; if applicable, relevant characteristics of components (e.g., particle size, salt form, purity grade, solubility) *Yes*

USP 797 - Box 9. Master Formulation Records
Comments:

1.1.3 Type and size of container closure system(s) *Yes*

USP 797 - Box 9. Master Formulation Records
Comments:

1.1.4 Complete instructions for preparing the CSP, including equipment, supplies, a description of the compounding steps, and any special precautions *Yes*

USP 797 - Box 9. Master Formulation Records
Comments:

1.1.5 Physical description of the final CSP *Yes*

USP 797 - Box 9. Master Formulation Records
Comments:

1.1.6 BUD and storage requirements *No*

USP 797 - Box 9. Master Formulation Records
Comments: *MFR did not document storage requirements (refrigeration). Was corrected prior to conclusion of inspection*

1.1.7 Reference source to support the stability of the CSP *Yes*

USP 797 - Box 9. Master Formulation Records
Comments:

1.1.8 Quality control (QC) procedures (e.g., pH testing, filter integrity testing) *Yes*

USP 797 - Box 9. Master Formulation Records
Comments:

1.1.9 Other information as needed to describe the compounding process and ensure repeatability (e.g., adjusting pH and tonicity; sterilization method, such as steam, dry heat, irradiation, or filter) *Yes*

USP 797 - Box 9. Master Formulation Records
Comments:

2. Are compounding records (CR) created for all Category 1, Category 2, and Category 3 CSPs? NOTE: A CR must also be created for immediate-use CSPs prepared for more than one patient. When all of the conditions listed in USP 797 1.3 are met, compounding of CSPs for direct and immediate administration (to begin within 4 hours following the start of preparation) is not subject to the requirements for Category 1, Category 2, or Category 3 CSPs. The CR must be created to document the compounding process. A prescription or medication order or label may serve as the CR. *Yes*

USP 797 Section 11.2
Comments:

2.1 Do the compounding records include at least the following information?:
2.1.1 Name, strength or activity, and dosage form of the CSP *Yes*

USP 797 - Box 10. Compounding Records

Comments:

2.1.2 Date and time of preparation of the CSP *Yes*

USP 797 - Box 10. Compounding Records
Comments:

2.1.3 Assigned internal identification number (e.g., prescription, order, or lot number) *Yes*

USP 797 - Box 10. Compounding Records
Comments:

2.1.4 A method to identify the individuals involved in the compounding process and individuals verifying the final CSP *Yes*

USP 797 - Box 10. Compounding Records
Comments:

2.1.5 Name of each component *Yes*

USP 797 - Box 10. Compounding Records
Comments:

2.1.6 Vendor, lot number, and expiration date for each component for CSPs prepared for more than one patient and for CSPs prepared from nonsterile ingredient(s) *Yes*

USP 797 - Box 10. Compounding Records
Comments:

2.1.7 Weight or volume of each component *Yes*

USP 797 - Box 10. Compounding Records
Comments:

2.1.8 Strength or activity of each component *Yes*

USP 797 - Box 10. Compounding Records
Comments:

2.1.9 Total quantity compounded *Yes*

USP 797 - Box 10. Compounding Records
Comments:

2.1.10 Final yield (e.g., quantity, containers, number of units) *Yes*

USP 797 - Box 10. Compounding Records
Comments:

2.1.11 Assigned BUD and storage requirements *No*

USP 797 - Box 10. Compounding Records
Comments: *Compounding record did not document storage requirements (refrigeration). Was corrected prior to conclusion of inspection*

2.1.12 Results of QC procedures (e.g., visual inspection, filter integrity testing, pH testing) *Yes*

USP 797 - Box 10. Compounding Records
Comments:

2.1.13 MFR reference for the CSP (if applicable) *Yes*

USP 797 - Box 10. Compounding Records
Comments:

2.1.14 Calculations made to determine and verify quantities and/or concentrations of components (if applicable) *Yes*

USP 797 - Box 10. Compounding Records
Comments:

K. Release Inspections and Testing
1. Is sterility testing conducted for Category 2 CSPs assigned a BUD that requires sterility testing according to USP 71 or a validated alternative method that is noninferior to USP 71 testing? *Yes*

USP 797 Section 12.2 Paragraph 1
Comments:

2. Is sterility testing conducted for all Category 3 CSPs according to USP 71 or a validated alternative method that is noninferior to USP 71 testing? *Not Inspected*

USP 797 Section 12.2 Paragraph 1
Comments: *No category 3 CSP's*

3. Is testing for bacterial endotoxins conducted for Category 2 injectable CSPs compounded from one or more nonsterile component(s) and assigned a BUD that requires sterility testing according to USP 85? *Yes*

USP 797 Section 12.3
Comments:

4. Is testing for bacterial endotoxins conducted for Category 3 injectable CSPs compounded from one or more nonsterile component(s) according to USP 85? *Not Inspected*

USP 797 Section 12.3
Comments: *No category 3 CSP's*

L. Labeling

1. In addition to other items required on a prescription label, are CSPs labeled with the following?:
1.1 Assigned internal identification number (e.g., prescription, order, or lot number) *Yes*

USP 797 Section 13 Paragraph 2
Comments:

1.2 Active ingredient(s) and their amount(s), activity(ies), or concentration(s) *Yes*

USP 797 Section 13 Paragraph 2
Comments:

1.3 Storage conditions if other than controlled room temperature *Yes*

USP 797 Section 13 Paragraph 2
Comments:

1.4 BUD *Yes*

USP 797 Section 13 Paragraph 2
Comments:

1.5 Dosage form *Yes*

USP 797 Section 13 Paragraph 2
Comments:

1.6 Total amount or volume if it is not obvious from the container *Yes*

USP 797 Section 13 Paragraph 2
Comments:

1.7 If it is in a single-dose container, a statement stating such when space permits *Yes*

USP 797 Section 13 Paragraph 2
Comments:

1.8 If it is in a multiple-dose container, a statement stating such *Yes*

USP 797 Section 13 Paragraph 2
Comments:

1.9 Route(s) of administration (if applicable) *Yes*

USP 797 Section 13 Paragraph 2
Comments:

1.10 Special handling instructions (if applicable) *Yes*

USP 797 Section 13 Paragraph 2
Comments:

1.11 Warning statements (if applicable) *Yes*

USP 797 Section 13 Paragraph 2
Comments:

M. Establishing Beyond-Use Dates
1. Did the immediate-use compounding records reviewed during the inspection show BUDs consistent with USP 797? *Not Inspected*

USP 797 Section 1.3 Paragraph 1 #6
Comments: *No immediate use compounding*

2. Did the category 1 compounding records reviewed during the inspection show BUDs consistent with USP 797? *Not Inspected*

USP 797 - Table 12. BUD Limits for Category 1 CSPs
Comments: *No category 1 compounding*

3. Did the category 2 compounding records reviewed during the inspection show BUDs consistent with USP 797? *Yes*

USP 797 - Table 13. BUD Limits for Category 2 CSPs
Comments:

4. Did the category 3 compounding records reviewed during the inspection show BUDs consistent with USP 797? *Not Inspected*

USP 797 - Table 14. BUD Limits for Category 3 CSPs
Comments: *No category 3 compounding*

N. SOPs
1. Were SOPs reviewed initially and at least every 12 months by the designated person(s) to ensure that they reflect current practices, and was the review documented? *Yes*

USP 797 Section 17

Does the pharmacy have standard operating procedures (SOPs) for the following (if applicable):Blood-derived and other biological materialsTraining and competency in aseptic processesTraining for compounding only immediate-use CSPsTraining for restocking or cleaning and disinfecting dutiesTraining and evaluating individuals who compound or have direct oversight of compounding personnelIncubation temperaturesRequired garb, manner of storage, and order of garbingDisinfection procedures for reusable equipmentChanging RABS sleeves and glovesTemperature and humidity readingsSampling sites and proceduresMicrobiological air and surface monitoringIncubator temperature monitoring and reviewFrequency, method(s), and location(s) of cleaning, disinfecting, and applying sporicidal disinfectantsCalibration, maintenance, cleaning, and use of the equipmentManipulating components that could generate airborne chemical particlesSelection, receipt, evaluation, handling, storage, and documentation of all CSP componentsTerminal sterilization and depyrogenation processInvestigations of defects that indicate sterility or stability problems to determine the causeLabeling proceduresTypes of CSPs that are prepared (i.e., Category 1, Category 2, Category 3)QA and QC programsRoles, duties, and training of the personnel responsible for each aspect of the QA programComplaint handlingAdverse event reportingHandling, storing, packaging, and transporting CSPsTraining and evaluating individuals who perform in-process checks, final verification, and dispensing of CSPsReuse of sterile 70% IPAChanges to MFR
Comments:

O. 480-11
1. Are compounded drug preparations based on the existence of a pharmacist/patient/prescriber relationship or anticipation of a prescription? *Yes*

Board of Pharmacy Rule [480-11-.02 (1)(a)]
Comments:

2. Are bulk drugs, chemicals, or materials used in compounding properly stored? *Yes*

Board of Pharmacy Rule [480-11-.04 (1)(b)]
Comments:

3. Is sewage, trash and other refuse disposed of in a safe and sanitary manner? *Yes*

Board of Pharmacy Rule [480-11-.04 (1)(d)]
Comments:

4. Do physical requirements stated in Board of Pharmacy Rule 480-11-.04 for compounding sterile products include the following?

Board of Pharmacy Rule 480-11-.04
4.1 Designated sterile compounding area *Yes*
Comments:

4.2 Adequate ventilation and lighting *Yes*
Comments:

4.3 Washing areas easily accessible to the compounding area *Yes*
Comments:

4.4 Sink with hot and cold running water *Yes*
Comments:

4.5 Soap or detergent; hand washing soap with bactericidal action *Yes*
Comments:

4.6 Laminar airflow hood (ISO 5) located within a clean room, or barrier isolator, etc. *Yes*
Comments:

4.7 Facility for light and dark field examination *No*
Comments: *Did not observe light and dark field examination facility*

4.8 Appropriate disposal containers for syringes and cytotoxic waste (if applicable) *Yes*
Comments:

4.9 A properly vented Class II, vertical flow BSC or appropriate barrier isolator if required *Yes*
Comments:

4.10 Refrigerator/freezer in working condition (with temperature monitored) *Yes*
Comments:

4.11 If compounding using components which must be weighed, Class A Balance with an assortment of metric weights or a Class I or II Electronic Balance *Yes*
Comments:

4.12 Disposable syringes and other supplies needed for compounding *Yes*
Comments:

4.13 Appropriate filters and filtration equipment *Yes*
Comments:

4.14 Oncology drug spill kit (if applicable) *Yes*
Comments:

5. Do additional requirements stated in USP Chapter 797 for compounding sterile products include the following?

USP 797 Section 3
5.1 Low-lint disposable towels or wipers *Yes*
Comments:

5.2 Alcohol-based hand rub *Yes*
Comments:

6. Do physical requirements stated in USP Chapter 797 Section 7 for compounding sterile products include cleaning and disinfecting agents? *Yes*

USP 797 Section 7.1.1
Comments:

7. Does the facility have appropriate references for sterile compounding? *Yes*

Board of Pharmacy Rule [480-11-.04 (5)]
Comments:

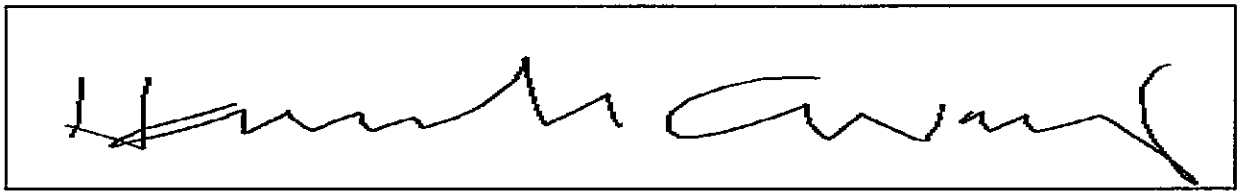
8. Are approved variances from the Board of Pharmacy posted (if applicable)? *Not Inspected*

Board of Pharmacy Rule [480-11-.04 (6)(b)]
Comments: *No variance/ exemptions*

9. Are procedures and records required by 480-11 retained for a minimum of two years? Note: These records may be kept as originals, photocopies, electronic files or other means of accurate reproduction. *Yes*

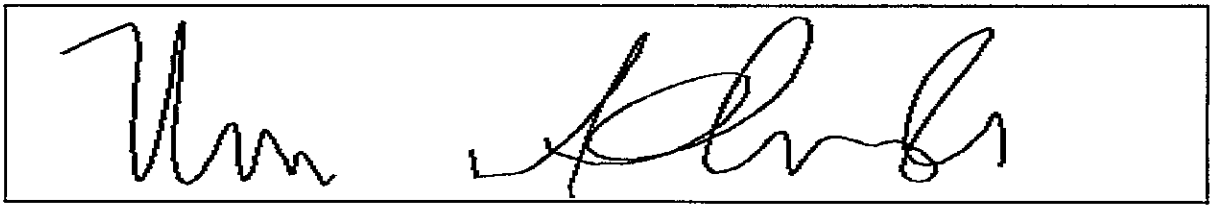
Board of Pharmacy Rule 480-11-.08 (1) and (2)
Comments:

10. Can all records and reports be produced immediately to the Georgia State Board of Pharmacy or GDNA if stored on site or within 48 hours if maintained in a central database? *Yes*



Board of Pharmacy Rule 480-11-.08 (3)
Comments:

Notes *The facility has a cleanroom suite. An ISO-8 classified anteroom (dry) with a certified containment hood, which leads to an ISO-8 anteroom (wet), and then to an ISO-7 buffer room.The facility was last certified by Equitech on 3/13/25 with all viable air/surface samples within acceptable ranges. Facility compounds GLP-1s (Tirzepitaide & Semaglutide) and states that they differ from readily available products based on the strength and their formulations contain B Vitamins.*



This inspection report has been read and explained to the pharmacist whose name appears below. Explanations include any observed violations, deficiencies, or comments, and such are based on state/federal laws and rules pertaining to the practice of pharmacy in the State of Georgia. I do

affirm the information I have given pursuant to this inspection is true and correct to the best of my knowledge. This inspection report is not intended to be all inclusive, and there may be deficiencies, non-compliance, or violations of the laws and rules not detected and noted in this report.

Pharmacist in Charge *RPH024644 - Hiren Patel*
PIC License Number *RPH024644*

PIC License Expiration Date *2026-12-31*

A. Personnel
1. Do the above listed pharmacists have an active license/registration with the Board? *Yes*

Georgia Pharmacy Practice Act 26-4-40
Comments:

2. Is the above facility located at the address listed on the permit? *Yes*

Pharmacy Practice Act OCGA 26-4-110 (a)
Comments:

3. Is a pharmacist on duty and providing direct supervision of pharmacy personnel? *Yes*

Board of Pharmacy Rule 480-10-.02(1)(a)
Comments:

4. Does the pharmacy have a designated pharmacist-in-charge and is this the person on file with the Board of Pharmacy? *Yes*

Board of Pharmacy Rule 480-10-.01 (3)
Comments:

5. Were pharmacy personnel identifiable in a manner that displays name and job function? *Yes*

Board of Pharmacy Rule 480-15-.03 (c)
Comments:

6. Were any unlicensed or unregistered personnel found to be performing a function that requires a license or registration from the Board? *No*

Georgia Pharmacy Practice Act 26-4-80
Comments:

7. Were any technicians found to be performing functions that require the professional judgment of a pharmacist? *No*

Pharmacy Practice Act 26-4-82(a)
Comments:

8. Was the pharmacist to technician/intern/extern ratio compliant during this inspection? *Yes*

Pharmacy Practice Act 26-4-82(d) and (e)
Comments:

B. Facility
1. Is the pharmacy a minimum of 150 square feet? *Yes*

Board of Pharmacy Rule 480-10-.04
Comments:

2. Is the pharmacy clean and sanitary? *Yes*

Pharmacy Practice Act 26-4-110 (h)
Comments:

3. Is the pharmacy equipment clean and sanitary? *Yes*

Board of Pharmacy Rule 480-10-.08
Comments:

4. Does the pharmacy have the following equipment and supplies: *Yes*

Board of Pharmacy Rule 480-10-.12 (1)
Comments:

5. Is the pharmacy capable of being closed and locked to prevent unauthorized entry? *Yes*

Board of Pharmacy Rule 480-10-.02 (4) (a) (2)
Comments:

6. Is the prescription department permanently enclosed with a partition from floor to ceiling? *Yes*

Board of Pharmacy Rule 480-10-.16 (1) (a)
Comments:

C. General Questions
1. Does the pharmacy maintain all prescriptions (in their original format) for a minimum of two years? *Yes*

Board of Pharmacy Rule 480-27-.05
Comments:

2. Are prescription drugs stored in the prescription department in a secure manner? *Yes*

Board of Pharmacy Rule 480-10-.03
Comments:

3. Have outdated and deteriorated drugs been removed from stock? *Yes*

Board of Pharmacy Rule 480-10-.11
Comments:

4. Are syringes kept in the prescription department and only distributed by a pharmacist or intern/extern? *Yes*

Board of Pharmacy Rule 480-10-.13
Comments:

5. Does the pharmacy maintain printed dispensing records that are signed by a pharmacist or does the pharmacy maintain dispensing records electronically and the pharmacist signs a bound logbook attesting to their accuracy? *Yes*

Board of Pharmacy Rule 480-27-.05 (b)
Comments:

6. Does the pharmacy have a process to offer patient counseling as required? *Yes*

Pharmacy Practice Act 26-4-85(b)
Comments:

7. Does the pharmacy accept previously dispensed prescription drugs? *No*
7.1. Is the acceptance of previously dispensed prescription drugs in compliance with state and/or federal law or regulation?

Board of Pharmacy Rule 480-5-.03 (l)
Comments:

8. Does the pharmacy submit information regarding each controlled substance prescription dispensed to the prescription drug monitoring program (PDMP) at least every 24 hours? *Yes*

Controlled Substances Act OCGA 16-13-59 (b)
Comments:

9. Do dangerous drug (noncontrolled substance) prescriptions meet the requirements of a prescription drug order? *Yes*

Controlled Substances Act OCGA 16-13-74
Comments:

10. Does the pharmacy send dispensed prescriptions to a licensed medical practitioner to hold, administer, or deliver to the patient? *No*
10.1 Does the pharmacy obtain written authority from the patient to allow the pharmacy to send the prescriptions to the licensed medical practitioner?

Board of Pharmacy Rule 480-16-.02 (3)
Comments:

D. Controlled Substances
1. Does the pharmacy have a DEA registration? *Yes*
Comments:

1.1 Do schedule II controlled substance prescriptions meet the requirements of a prescription drug order? *Yes*

Controlled Substances Act OCGA 16-13-41 (b)
Comments:

1.2 Are schedule II controlled substance prescriptions filed and stored correctly? *Yes*

Board of Pharmacy Rule 480-22-.04 (7)
Comments:

1.3 Are schedule II controlled substance prescriptions signed by a pharmacist upon dispensing? *Yes*

Board of Pharmacy Rule 480-22-.04 (2)
Comments:

1.4 Do schedule III-V controlled substance prescriptions meet the requirements of a prescription drug order? *Yes*

Controlled Substances Act OCGA 16-13-41(d)(2)
Comments:

1.5 Has the pharmacy conducted a DEA Biennial Inventory? *Yes*

Controlled Substances Act OCGA 16-13-39
1.5.1 What is the date of the last DEA Biennial Inventory? *2025-03-06*
Comments:

1.6 Does the pharmacy sell exempt narcotics? *No*
Comments:

1.6.1 Does the pharmacy maintain records of all exempt narcotic sales that include the signature, date of birth, address, city, state, zip code of the purchaser as well as the date of such transaction, the name, kind, quantity and intended use of each product?

Board of Pharmacy Rule 480-19-.01 (b)
Comments:

1.7 Does the pharmacy sell over-the-counter medications that contain pseudoephedrine? *Yes*
Comments:

1.7.1 Does the pharmacy have a current DEA Combat Methamphetamine Self-Certification? *Yes*

Board of Pharmacy Rule 480-19-.03 (a)(2)
Comments:

1.7.2 Does the pharmacy electronically track all such sales and submit the required information to a real-time electronic logging system? *Yes*

Controlled Substances Act OCGA 16-13-30.3 (c)(4)
Comments:

E. Suppliers/Reverse Distributors

List all suppliers of compounded preparations and manufactured products under "Associated Licenses."
1. Are the suppliers licensed by the Georgia Board of Pharmacy? *Yes*

Board of Pharmacy Rule 480-10-.21
Comments:

2. Does a pharmacist on duty sign the invoice(s), including signature, legible Georgia pharmacist license number, and date, for all controlled substances upon receipt and verification? *Yes*

Board of Pharmacy Rule 480-10-.01 (1) (b)
Comments:

List all reverse distributors under "Associated Licenses."
3. Are the reverse distributors licensed by the Georgia Board of Pharmacy? *Yes*

Board of Pharmacy Rule 480-10-.14

Comments:

4. Does the pharmacy sell or otherwise transfer non-patient specific, manufactured prescription medication to other licensed entities (i.e., pharmacies, practitioners, etc)? *No*
4.1 Are these other entities licensed properly?

Board of Pharmacy Rule 480-7-.02 (g)
Comments:

4.2 Does the pharmacy maintain accurate records for transactions of controlled substances received and distributed in a manner that is readily retrievable for two years?

Georgia Controlled Substances Act OCGA 16-13-39
Comments:

4.3 Does the pharmacy maintain accurate records for transactions of dangerous drugs (noncontrolled substances) that are received and distributed in a manner that is readily retrievable for two years?

Georgia Dangerous Drug Act OCGA 16-13-72
Comments:

F. Vaccinations
1. Does the pharmacy administer vaccinations through a protocol agreement? *Yes*
Comments:

1.1 Does each administering pharmacist have a signed vaccine protocol agreement with a physician that is renewed biennially? *Yes*

Medical Practice Act OCGA 43-34-26.1 (b)
Comments:

1.2 Does each administering pharmacist have a signed and notarized affidavit that confirms the locations where vaccinations will be administered, they have completed the required training, and they maintain the appropriate liability insurance? *Yes*

Medical Practice Act OCGA 43-34-26.1 (d)
Comments:

1.3 Does the pharmacy provide the vaccine recipient with a Vaccine Information Statement from the Centers for Disease Control and Prevention? *Yes*

Medical Practice Act OCGA 43-34-26.1 (d)
Comments:

1.4 Does each patient sign and date a consent form that acknowledges receipt of the Vaccine Information Statement, consents to the administration of the vaccine, and authorizes the pharmacy to notify the patient's primary care provider? *Yes*

Medical Practice Act OCGA 43-34-26.1 (d)
Comments

1.5 Does the pharmacy report administered vaccinations to Georgia Registry of Immunization Transactions and Services (GRITS)? *Yes*

Medical Practice Act OCGA 43-34-26.1 (d) (9)
Comments:

1.6 Do vaccination administration records contain: the administering pharmacist; the name, dose, manufacturer, and lot number of the vaccine; the vaccine recipient's name, address, date of birth, and telephone number; the date of administration and injection site? *Yes*

Medical Practice Act OCGA 43-34-26.1 (d)
Comments:

1.7 Are vaccinations administered in a manner that maintains patient privacy? *Yes*

Medical Practice Act OCGA 43-34-26.1 (d)
Comments:

1.8 Do technicians administer vaccinations on behalf of the pharmacist? *No*
Comments:

1.8.1 Has each administering technician completed the required training?

Pharmacy Practice Act 26-4-52(c)
Comments:

Notes

G. Compounding
1. Does the pharmacy compound prescription medications? *Yes*
Comments:

1.1 Does the pharmacy compound nonsterile products? *Yes*
Comments:

1.1.1 Was a nonsterile compounding inspection conducted during this visit? *No*
Comments:

1.2 Does the pharmacy compound sterile products? *Yes*
Comments:

1.2.1 Was a sterile compounding inspection conducted during this visit? *Yes*
Comments:

1.3 Does the pharmacy compound hazardous drugs? *Yes*
1.3.1 Was a hazardous compounding inspection conducted during this visit? *No*
Comments:

H. Delivery
1. Does the pharmacy deliver prescriptions to patients by a contract carrier or by an employee of the pharmacy? *No*
Comments:

1.1 Does the pharmacy deliver controlled substances to patients by a contract carrier or by an employee of the pharmacy?
Comment

1.2 Does the pharmacy require a signature from the patient/caregiver for controlled substance prescriptions delivered by a contract carrier or an employee of the pharmacy?

Board of Pharmacy Rule 480-48-.03
Comments:

2. Does the pharmacy deliver prescriptions to patients by mail (via USPS or a commercial common carrier)? *Yes*
Comments:

2.1 Does the pharmacy deliver any drug requiring temperature control other than 'room temperature storage' prescriptions to patients by mail (via USPS or a commercial common carrier)? *Yes*
Comments

2.1.1 Does the pharmacy ensure the integrity of any drug requiring temperature control other than 'room temperature storage' that is delivered by mail? *Yes*

Board of Pharmacy Rule 480-48-.02 (3)
Comments:

2.2 Does the pharmacy deliver controlled substance prescriptions to patients by mail (via USPS or a commercial common carrier)? *No*
Comments

2.2.1 Does the pharmacy require a signature upon delivery for controlled substance prescriptions mailed to the patient?

Board of Pharmacy Rule 480-48-.02 (4)
Comments:

2.3 Does the pharmacy replace compromised prescription medication by next-day delivery or arrange for a minimum of a 7-day supply to be dispensed by a pharmacy of the patient's choice? *Yes*

Board of Pharmacy Rule 480-48-.02 (4)
Comments:

2.4 Does the pharmacy provide written information for patient counseling and a method for the patient to communicate with a pharmacist/intern? *Yes*

Board of Pharmacy Rule 480-48-.02 (4)
Comments:

2.5 Does the pharmacy document when the prescription was mailed to the patient? *Yes*

Board of Pharmacy Rule 480-48-.02 (4)
Comments:

2.6 Does the pharmacy make contact information for the Georgia Board of Pharmacy available to the patient for prescriptions mailed to the patient? *Yes*

Board of Pharmacy Rule 480-48-.02 (4)
Comments:

I. Central Fill
1. Does this pharmacy receive prescription medications from a central fill facility? *No*
Comments:

List facilities from which the pharmacy received central fill prescriptions under "Associated Licenses."
1.1 Are the central fill pharmacies licensed by the Georgia Board of Pharmacy?

Board of Pharmacy Rule 480-10A-.02 (1)
Comments:

1.2 Does a pharmacist/intern/technician sign for the receipt of all central fill prescriptions?

Board of Pharmacy Rule 480-10A-.05 (4)
Comments

1.3 Does a pharmacist verify the receipt of controlled substance prescriptions from the central fill pharmacy?

Board of Pharmacy Rule 480-10A-.06 (4)
Comments:

1.4 Are central fill prescriptions that are received by this pharmacy properly labeled to include: date of fill or refill; originating pharmacy name, address, and telephone number; central fill pharmacy's unique identifier; serial number of the prescription; name of the patient; name of the prescribing practitioner; expiration date of the dispensed drug; and directions for use and cautionary statements, if any, contained in such prescription or required by law.

Board of Pharmacy Rule 480-10A-.05 (6)
Comments:

1.5 Does this pharmacy and the central fill pharmacy have either a contract/agreement or are they under common ownership?

Board of Pharmacy Rule 480-10A-.02 (2)
Comments:

2. Does this pharmacy perform central fill services for another pharmacy? *Yes*
Comments:

List facilities from which the pharmacy sends central fill prescriptions under "Associated Licenses."
2.1 Are central fill prescriptions that are distributed by this pharmacy properly labeled to include: date of fill or refill; originating pharmacy name, address, and telephone number; central fill pharmacy's unique identifier; serial number of the prescription; name of the patient; name of the prescribing practitioner; expiration date of the dispensed drug; and directions for use and cautionary statements, if any, contained in such prescription or required by law. *Yes*

Board of Pharmacy Rule 480-10A-.05 (6)
Comments:

2.2 Does this pharmacy and the originating pharmacy have either a contract/agreement or are they under common ownership? *Yes*

Board of Pharmacy Rule 480-10A-.02 (2)
Comments:

J. Drive-Through
1. Does the pharmacy have a drive-through? *No*
Comments:

1.1 Is the drive-through window located in the wall of the pharmacy and can the pharmacist view the patient through this window?

Board of Pharmacy Rule 480-10-.16 (8)(a)
Comments:

1.2 Does the drive-through have no more than two (2) drive-through lanes?

Board of Pharmacy Rule 480-10-.16 (8)(a)
Comments:

1.3 Does the drive-through utilize a pneumatic tube system?
Comments:

1.3.1 Does the drive-through's pneumatic tube system originate in the prescription drug area of the pharmacy and does it terminate in a secure terminal in the drive-through?

Board of Pharmacy Rule 480-10-.16 8(b)(3)
Comments:

K. Emergency Service Providers
1. Does the pharmacy provide prescription medications to the emergency service provider? *No*
Comments:

1.1 Does the pharmacy have a signed contract/agreement with the medical director of the emergency service provider?

Pharmacy Practice Act OCGA 26-4-116(b)
Comments:

1.2 Does the pharmacy maintain a record of all the drugs issued to and used by the emergency service provider?

Pharmacy Practice Act OCGA 26-4-116
Comments:

1.3 Does the pharmacy physically inspect the drugs of the emergency service provider at least annually?

Pharmacy Practice Act OCGA 26-4-116(f)
Comments:

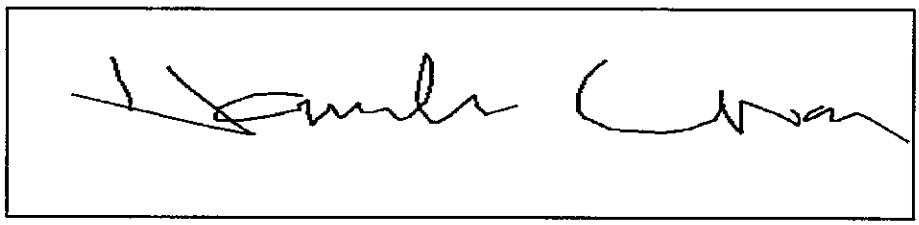
L. Informational Questions

1. Does the pharmacy use an Automated Pharmacy System (APS) or a Robotic Pharmacy System (RPS)? *Yes*
Comments:

2. Is the pharmacy registered as an authorized collector with the Board of Pharmacy? *No*
Comments:

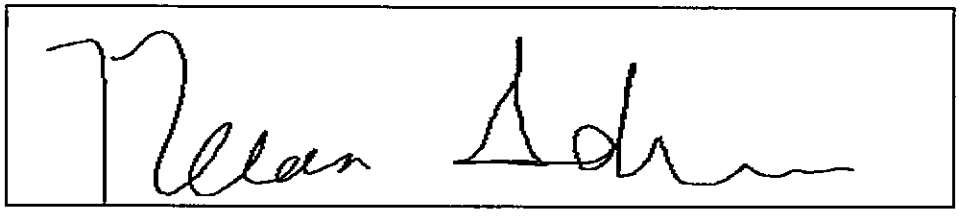
3. Does the pharmacy provide emergency kits to other entities? *No*
Comments:

4. Does the pharmacy provide prescription medications to long-term care facilities? *No*
Comments:



5. Does the pharmacy conduct remote prescription drug order processing for any other pharmacy? *No*
Comments:

6. Do any other pharmacies conduct remote prescription order processing for this pharmacy? *No*
Comments:



Notes

This inspection report has been read and explained to the pharmacist whose name appears below. Explanations include any observed violations, deficiencies, or comments, and such are based on state/federal laws and rules pertaining to the practice of pharmacy in the State of Georgia. I do affirm the information I have given pursuant to this inspection is true and correct to the best of my knowledge. This inspection report is not intended to be all inclusive, and there may be deficiencies, non-compliance, or violations of the laws and rules not detected and noted in this report.

Exhibits:

Pharmacist In Charge *RPH024644 - Hiren Patel*
PIC License Number *RPH024644*
PIC License Expiration Date *2026-12-31*
USP 800 Designated Person 1 *Nilesh Patel*
USP 800 Designated Person 2
USP 800 Designated Person 3

A. Type of Hazardous Drug Compounding
1. Does this facility prepare compounded nonsterile preparations (CNSPs) with hazardous drugs (HDs)? *Yes*
Comments

1.1 Does the facility handle HD active pharmaceutical ingredient (API) for nonsterile preparations? *Yes*
Comments

1.2 Does the facility handle antineoplastic requiring HD manipulation for nonsterile preparations? *No*
Comments

2. Does this facility prepare compounded sterile preparations (CSPs) with hazardous drugs? *No*
Comments

2.1 Does the facility handle HD active pharmaceutical ingredient (API) for sterile preparations?
Comments

2.2 Does the facility handle antineoplastic requiring HD manipulation for sterile preparations?
Comments

3. Does this facility receive compounded preparations from outside sources? *No*
Comments

B. List of Hazardous Drugs - Assessment of Risk
1. Does the facility have a list of hazardous drugs (HDs)? *Yes*

USP 800 Section 2 Paragraph 1
2. When was the last documented review date? *2025-08-08*
3. Does documentation demonstrate the list is reviewed at least every 12 months? *Yes*

USP 800 Section 2 Paragraph 1
Comments

4. Does the facility have an assessment of risk for all hazardous drugs where required by USP 800? *No*

USP 800 Box 1: Containment Requirements
Comments *Unable to produce assessment of risk*

5. When was the last documented review date?
6. Does documentation demonstrate that the assessment of risk is reviewed at least every 12 months? *No*

USP 800 Section 2 Paragraph 4
Comments *Unable to produce assessment of risk*

C. Personnel Training and Evaluation

1. Are all personnel handling HDs trained based on their job functions before the employee independently handles HDs and reassessed at least every 12 months in the following?:

USP 800 Section 9
1.1 Overview of the entity's list of HDs and their risks *No*
Comments

1.2 Review of the entity's SOPs related to handling of HDs *Reviewed*
Comments *Training documentation did specify a review of the facilities SOP's*

1.3 Proper use of PPE *No*
Comments

1.4 Proper use of equipment and devices (e.g., engineering controls *No*
Comments

1.5 Response to known or suspected HD exposure *Yes*
Comments

1.6 Spill management *Yes*
Comments

1.7 Proper disposal of HDs and trace-contaminated materials *Yes*
Comments

Notes

D. Personal Hygiene and Garbing
1. Is PPE, including chemotherapy gloves, worn when unpacking HDs? *Yes*

USP 800 Section 10 Paragraph 2
Comments

2. Do personnel use the following when compounding sterile and nonsterile HDs?
2.1 HD gowns which resist permeability, close in the back, are long sleeved, and have closed cuffs that are elastic or knit. *Yes*

USP 800 Section 7.2 Paragraph 1
Comments

2.2 Head/hair covers *Yes*

USP 800 Section 7 Paragraph 2
Comments

2.3 Two pairs of shoe covers donned and doffed appropriately *Yes*

USP 800 Section 7.3 Paragraph 1
Comments

2.4 Two pairs of chemotherapy gloves (ASTM standard D6978) *Yes*

USP 800 Section 7 Paragraph 2
Comments

3. Is reusable PPE decontaminated and cleaned after use, and/or is disposable PPE not re-used? *Yes*

USP 800 Section 7 Paragraph 1
Comments

4. Is PPE placed in an appropriate waste container and further disposed of per local, state, and federal regulations? *Yes*

USP 800 Section 7.6
Comments

E. Facilities and Engineering Controls
1. Are there signs designating the entrance to HD handling areas? *Yes*

USP 800 Section 5 Paragraph 1
Comments

2. Are antineoplastic HDs and all HD APIs unpacked in an area that is neutral/normal or negative pressure? *Yes*

USP 800 Section 5.1
Comments

3. Are antineoplastic HDs requiring manipulation and any HD API stored separately from non-HDs in an externally ventilated, negative-pressure room with at least 12 air changes per hour (ACPH)? *Yes*

USP 800 Section 5.2 Paragraph 2
Comments

4. Are refrigerated antineoplastic HDs stored in a dedicated refrigerator in a negative pressure area with at least 12 ACPH? *Not Inspected*

USP 800 Section 5.2 Paragraph 4
Comments

5. Are sterile and nonsterile HDs compounded within a C-PEC located in a C-SEC? *Yes*

USP 800 Section 5.3.2 Paragraph 4
Comments

6. Does the C-SEC used for sterile and nonsterile compounding meet the following?:

USP 800 Section 5.3 Paragraph 2
Comments

6.1 Externally vented *Yes*
Comments

6.2 Physically separated (i.e., a different room from other preparation areas) *Yes*
Comments

6.3 An appropriate air exchange (e.g., ACPH) (minimum of 12 or 30 ACPH) [Table 2 & 3] *Yes*
Comments

6.4 A negative pressure between 0.01 and 0.03 inches of water column relative to all adjacent areas *Yes*
Comments

7. Does the C-PEC operate continuously if it supplies some or all of the negative pressure in the C-SEC or if it is used for sterile compounding? *Yes*

USP 800 Section 5.3 Paragraph 3
Comments

8. Is a sink available for hand washing? *Yes*

USP 800 Section 5.3 Paragraph 4
Comments

9. Are water sources and drains located at least 1 meter from the C-PEC? *Not Inspected*

USP 800 Section 5.3 Paragraph 4
Comments

10. Are the C-PECs used for manipulation of nonsterile HDs either externally vented or have redundant-HEPA filters in series? *Yes*

USP 800 Section 5.3.1 Paragraph 2
Comments

11. Are the surfaces of ceilings, walls, floors, fixtures, shelving, counters, and cabinets in the nonsterile compounding area smooth, impervious, free from cracks and crevices, and non-shedding? *Yes*

USP 800 Section 5.3.1 Paragraph 4
Comments

12. Does the facility utilize automated counting or packaging machines? *No*
12.1 Are automated counting or packaging machines not used by the facility for tablet and capsule forms of antineoplastic HDs?

USP 800 Section 12 Paragraph 2
Comments

13. Does the facility use the same C-PEC for sterile and nonsterile compounding?
13.1 Is the C-PEC is decontaminated, cleaned, and disinfected before resuming sterile compounding in that C-PEC?

USP 800 Section 5.3.1 Paragraph 2
Comments

14. Are all C-PECs used for manipulation of sterile HDs externally vented and provide an ISO Class 5 or better air quality? *Not Inspected*

USP 800 Section 5.3.2 Paragraph 2
Comments *No sterile compounding of HDs*

15. Are laminar airflow workbenches (LAFWs) or compounding aseptic isolators (CAIs) not used by the facility for the compounding of an antineoplastic HD? *Not Inspected*

USP 800 Section 5.3.2 Paragraph 3
Comments

16. Does the buffer room used for sterile compounding of HDs meet the following requirements?

USP 800 Section 5.3.2 Paragraph 5
16.1 ISO Class 7 buffer room *Not Inspected*
Comments *No sterile compounding of HDs*

16.2 Fixed walls *Not Inspected*
Comments *No sterile compounding of HDs*

16.3 HEPA-filtered supply air *Not Inspected*
Comments *No sterile compounding of HDs*

16.4 Negative pressure between 0.01 and 0.03 inches of water column *Not Inspected*
Comments *No sterile compounding of HDs*

16.5 A minimum of 30 ACPH *Not Inspected*
Comments *No sterile compounding of HDs*

17. Does the ante-room or non-HD buffer room servicing the HD buffer room used for sterile compounding meet the following requirements?:

USP 800 Section 5.3.2 Paragraph 6
Comments *No sterile compounding of HDs*

17.1 A minimum of 30 ACPH of HEPA-filtered supply air *Not Inspected*
Comments *No sterile compounding of HDs*

17.2 Positive pressure of at least 0.02 inches of water column *Not Inspected*
Comments *No sterile compounding of HDs*

17.3 ISO Class 7 or better *Not Inspected*
Comments *No sterile compounding of HDs*

17.4 A hand-washing sink placed in the ante-room at least 1 meter from the entrance to the HD buffer room *Not Inspected*

USP 800 Section 5.3.2 Paragraph 7
Comments *No sterile compounding of HDs*

18. Does the facility utilize a containment segregated compounding area (C-SCA) in an unclassified space for sterile HD compounding? *Not Inspected*
Comments *No sterile compounding of HDs*

19. Does the C-SCA meet the following?:
19.1 Fixed Walls

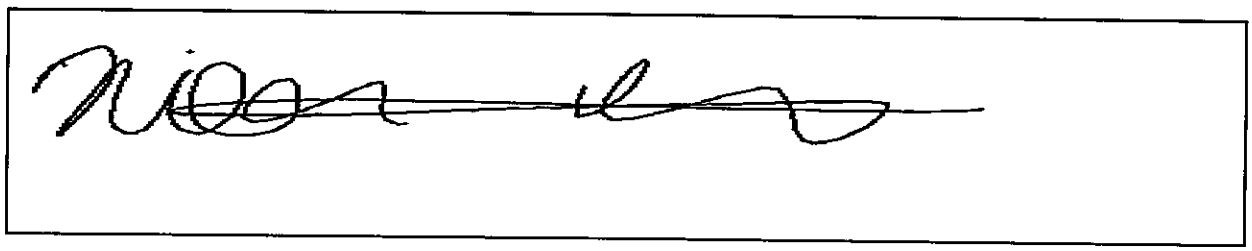
USP 800 Section 5.3.2 Paragraph 10
Comments

G. Standard Operating Procedures (SOPs)
1. Does the facility maintain SOPs for the handling of HDs? *Yes*

USP 800 Section 17 Paragraph 1
Comments

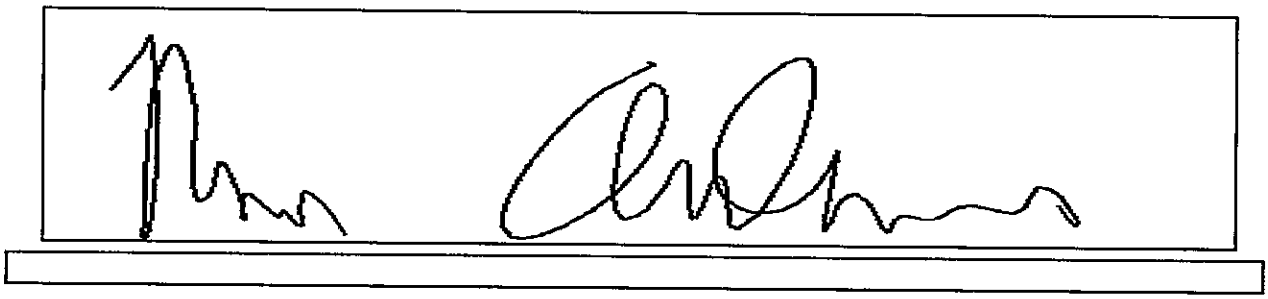
2. When was the last documented review date? *2025-03-01*

USP 800 Section 17 Paragraph 1
Comments



3. Is there documentation to demonstrate that the SOPs are reviewed by the designated person at least once every 12 months? *Yes*

USP 800 Section 17 Paragraph 1
Comments



Notes *The facility does no sterile compounding of HDs. The facility primarily compounds hormone therapy products (creams/troche). The facility utilizes a negative-pressure room that contains 2 negative-pressure hoods. Will conduct a follow-up inspection in 30 days.*

This inspection report has been read and explained to the pharmacist whose name appears below. Explanations include any observed violations, deficiencies, or comments, and such are based on state/federal laws and rules pertaining to the practice of pharmacy in the State of Georgia. I do affirm the information I have given pursuant to this inspection is true and correct to the best of my knowledge. This inspection report is not intended to be all inclusive, and there may be deficiencies, non-compliance, or violations of the laws and rules not detected and noted in this report.

19.2 Negative pressure between 0.01 and 0.03 inches of water column
Comments

19.3 A minimum of 12 ACPH
Comments

19.4 Externally vented
Comments

19.5 A hand-washing sink placed at least 1 meter from C-PEC and may be either inside the C-SCA or directly outside the C-SCA
Comments

F. Deactivating, Decontaminating, Cleaning, and Disinfecting/Spill Control
1. Are all areas where HDs handled and all reusable equipment and devices are deactivated, decontaminated, and cleaned? *Reviewed*

USP 800 Section 15 Paragraph 1
Comments

2. In addition, are all sterile compounding areas and devices subsequently disinfected? *Not Inspected*

USP 800 Section 15 Paragraph 1
Comments *No sterile compounding of HDs*

3. Is the work surface of the C-PEC decontaminated between compounding of different HDs, decontaminated at least daily (when used), any time a spill occurs, before and after certification, any time voluntary interruption occurs, and if the ventilation tool is moved? *Reviewed*

USP 800 Section 15.2 Paragraph 2
Comments

4. Are the areas under the work tray of the C-PEC deactivated, decontaminated, and cleaned at least monthly? *Reviewed*

USP 800 Section 15.2 Paragraph 3
Comments

5. Are spill kits with the materials needed to clean HD spills readily available in all areas where HDs are routinely handled? *Yes*

USP 800 Section 16 Paragraph 1
Comments

Section 8: Arrests, Detentions, Litigations, Arbitrations.	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		✓
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		✓
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)		✓
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		✓
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?		✓
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✓
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✓
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✓
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✓

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

Statement of Responsibility

1. I am the President (title) for Amber Enterprises, Inc. d/b/a Amber Specialty Pharmacy (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be responsible for any violations of pharmacy law that may occur in the Pharmacy owned by such owner(s), shareholder(s), member(s), or partner(s).
3. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be named in any action taken by the Nevada State Board of Pharmacy against the Pharmacy.
4. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) cannot require or permit the pharmacist(s) in said Pharmacy to violate any provision of local, state, or federal laws or regulations pertaining to the practice of pharmacy.
5. I further understand and acknowledge that Nevada law requires that each pharmacy located inside the State of Nevada employ only pharmacists, intern pharmacists, pharmaceutical technicians, and technicians in training that are licensed by the Nevada State Board of Pharmacy. (NRS 639.100).
6. I further understand and acknowledge that Nevada law requires that each pharmacy located outside the State of Nevada engaged in providing pharmacy services into Nevada employs at least one pharmacist licensed by the Nevada State Board of Pharmacy who will be responsible for any prescription dispensed to a patient located in Nevada and responsible for any acts or omissions of pharmacy personnel who are not registered with the Board. (NRS 639.2328).

Affidavit for Pharmacy License

I, Bethanie Stein hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the President (title) for Amber Enterprises, Inc. d/b/a Amber Specialty Pharmacy (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

FURTHER YOUR AFFIANT SAYETH NAUGHT.

Discipline Explanation

Has the corporation, any owner(s), shareholder(s) or partner(s) with any interest, ever been subject of an administrative action, board citation, cite fine, or proceeding relating to the pharmaceutical industry?

Omaha, NE – Pharmacy Discipline

Colorado, 2010. The Colorado Board of Pharmacy alleged that the pharmacy failed to submit required data to Colorado's Prescription Drug Monitoring Program. The Board's Stipulation and Final Agency Order imposed a fine in the amount of $5,000 with a surcharge in the amount of $500, which the pharmacy paid. The out-of-state prescription drug outlet license is currently active and in good standing.

Texas, 2016. The Texas Board of Pharmacy notified the pharmacy that it intended to take disciplinary action based on allegations that the pharmacy failed to disclose the Colorado Board of Pharmacy Stipulation and Final Agency Order on its initial non-resident pharmacy license application submitted to the Texas Board of Pharmacy in 2013. The pharmacy signed an Agreed Board Order, pursuant to which the pharmacy paid an administrative penalty in the amount of $1,000. The non-resident pharmacy license is currently active and in good standing.

Hawaii, 2019. The Hawaii Board of Pharmacy alleged that the pharmacy failed to timely report the Texas Board of Pharmacy Agreed Board Order and south to imposed reciprocal discipline based on the Texas Board of Pharmacy Agreed Board Order. The pharmacy and the Board entered a Settlement Agreement, pursuant to which the pharmacy paid $300. The pharmacy permit is currently active and in good standing.

Maine, 2022. The pharmacy failed to notify the Board of a change in pharmacist-in-charge within seven days of the effective date of the change. The pharmacy notified the Board within thirteen days of the effective date of the change. As this was a first-time violation of the notification requirement, the pharmacy, the Board and the Maine Attorney General entered a Consent Agreement, under which the pharmacy received a warning and a civil penalty in the amount of $250, which it paid. The mail order pharmacy license is currently active and in good standing.

Ambler, PA (Not licensed in Nevada) – Pharmacy Discipline

Pennsylvania, 2012. The Pennsylvania Board of Pharmacy alleged that the pharmacy failed to notify the Board of a change in pharmacy management within fifteen (15) days of the date the change took effect. The Board issued a citation requiring the payment of a $400 fine.

CenterWell Pharmacy

Summary of Actions

Maine Board of Pharmacy Complaint 2008-PHA-4787
In 2008, CenterWell Pharmacy, Inc. (formerly Humana Pharmacy, Inc.) located at 4302 W. Buckeye Rd., Phoenix, AZ 85043 admitted to a violation as a result of a complaint 2008-PHA-4787 where a prescription order was shipped to a patient who did not order the medication. There was no ingestion of the medication, and no patient harm. The root cause of the issue was Human Error. The Maine Board of Pharmacy offered a Consent Agreement where there was an admitted violation, a warning from the Board, and a $100 fine. This Agreement was previously reported to the Board.

Colorado Department of Commerce and Consumer Affair's Regulated Industries Complaints Office
CenterWell Pharmacy, Inc. (formerly Humana Pharmacy, Inc.) located at 4302 W. Buckeye Rd., Phoenix, AZ 85043 entered into a Stipulation and Final Agency Order with the Colorado State Board of Pharmacy on 5/19/2011. CenterWell Pharmacy, Inc. admitted to a violation of Board Rule 5.00.70 in which the pharmacy failed to timely submit the required applications and fees to the Colorado Board detailing a change in Pharmacist Managers. The violation was unintentional and root cause of the error was investigated and found to be an administrative error. The error was corrected, and imposed fees were paid. This Order was previously reported to the Board.

Hawaii Board of Pharmacy (PHA 2011-21-L and PHA 2010-32-L)
In December 2008, CenterWell Pharmacy, Inc. (formerly Humana Pharmacy, Inc.) located at 4302 W. Buckeye Rd., Phoenix, AZ 85043 entered into a Consent Agreement with the Maine Board of Pharmacy. Per Hawaii Revised Statutes, disciplinary decisions must be reported within 30 days. It is important to note that Humana Pharmacy, Inc. did notify the Hawaii Board of Pharmacy of the Consent Agreement. However, the notification exceeded the timeframe required by HRS 436B-19(15). PHA 2011-21-L is due to CenterWell Pharmacy, Inc. (formerly Humana Pharmacy, Inc.) receiving disciplinary action by another state agency. These agreements were previously reported to the Board.

Iowa Board of Pharmacy
CenterWell Pharmacy, Inc. (formerly Humana Pharmacy, Inc.) located at 4302 W. Buckeye Rd., Phoenix, AZ 85043 entered into a Settlement Agreement and Final Order with the Iowa Board of Pharmacy in August 2013. Pursuant to this Settlement Agreement and Final Order,

the Iowa Board of Pharmacy cited CenterWell Pharmacy, Inc. for having disciplinary action taken against it by another state licensing board. This action taken by the Iowa Board of Pharmacy is based entirely on the Settlement Agreement with the Hawaii Board of Pharmacy, and no new violations occurred. The Agreement was previously reported to the Board.

Michigan Board of Pharmacy
CenterWell Pharmacy, Inc. (formerly Humana Pharmacy, Inc.) located at 4302 W. Buckeye Rd., Phoenix, AZ 85043 entered into a Consent Order and Stipulation with the Michigan Department of Licensing and Regulatory Affairs which was received by CenterWell Pharmacy, Inc. in April 2014. The Administrative Complaint resulting in the Consent Order is in response to CenterWell Pharmacy, Inc. having violated section 17768(2) (d) of the Public Health Code due to receiving disciplinary action by other Regulatory Agencies. The Consent Order is based entirely on previously reported Settlement Agreements, and no new violations have occurred. The Order was previously reported to the Board.

Alaska Board of Pharmacy
CenterWell Pharmacy, Inc. (formerly Humana Pharmacy, Inc.) located at 4302 W. Buckeye Rd., Phoenix, AZ 85043 accepted an Imposition of Civil Fine without reprimand from the Alaska Board of Pharmacy in August 2014 due to a misinterpretation of a question on a 2010 renewal application. CenterWell Pharmacy, Inc. did not intentionally answer the question incorrectly, and it was answered based off of the interpretation of the question at that time. The action was previously reported to the Board.

BEFORE THE STATE BOARD OF PHARMACY

STATE OF COLORADO

Case No. 2010-003228

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF THE DISCIPLINARY PROCEEDING REGARDING THE NON-RESIDENT PRESCRIPTION DRUG OUTLET REGISTRATION OF AMBER PHARMACY, REGISTRATION NO. OSP 5583,

RESPONDENT PHARMACY.

IT IS HEREBY STIPULATED by and between the Colorado State Board of Pharmacy ("Board") and Amber Pharmacy ("Respondent Pharmacy"), to resolve all matters pertaining to Board Case Number 2010-003228 as follows:

1. The Board has jurisdiction over Respondent Pharmacy, its registration as a non-resident prescription drug outlet, and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the provisions of title 12, article 22, C.R.S. (2009), otherwise known as the Pharmaceuticals and Pharmacists Act.

2. Respondent Pharmacy has been registered by the Board as a non-resident prescription drug outlet in the State of Colorado at all times relevant to this disciplinary action.

3. Respondent Pharmacy's address of record with the Board and current location is 10004 S. 152nd St., Ste. A, Omaha, NE 68138. Respondent Pharmacy is an operating division of Amber Enterprises Inc., a Nebraska corporation.

4. Respondent Pharmacy neither admits nor denies these findings but does not contest that the Board alleges these findings. It hereby waives any further proof in this proceeding before the Board regarding the following facts.

5. Respondent Pharmacy failed to submit required data into Colorado's Prescription Drug Monitoring Program (PDMP) for the February 16, 2010, through February 25, 2010, reporting period.

6. On March 8, 2010, the Board initiated a complaint against Respondent Pharmacy because Respondent Pharmacy failed to comply with the data submission requirements of the PDMP.

7. Respondent Pharmacy does not contest that the conduct described above constitutes a violation of section 12-22-125(1)(c)(I), (II) and (III) and 12-22-708,

C.R.S., and that such conduct provides grounds for disciplinary action against Respondent Pharmacy's non-resident prescription drug outlet registration.

DISPOSITION

$5,000.00 Fine with Surcharge and Terms

8. **Fine with Surcharge.** Pursuant to section 12-22-125.2(5), C.R.S., Respondent Pharmacy shall pay a fine of Five Thousand Dollars and No Cents ($5,000.00). Respondent Pharmacy understands and acknowledges that, pursuant to section 24-34-108, C.R.S., the Executive Director of the Department of Regulatory Agencies shall impose an additional surcharge of 10% of this fine. Respondent Pharmacy shall therefore pay a total amount of Five Thousand, Five Hundred Dollars and No Cents ($5,500.00). The total amount shall be payable to the State of Colorado and shall be remitted in one lump sum to be included when Respondent Pharmacy submits this signed Final Agency Order to the Board.

9. **Compliance.** Respondent Pharmacy shall at all times comply with the data submission requirements of the PDMP.

10. **Advisements and Waivers.** Respondent Pharmacy enters into this Final Agency Order freely and voluntarily, whether or not Respondent Pharmacy has consulted with legal counsel. Respondent Pharmacy acknowledges its understanding that it has the following rights:

    a. To have a formal notice of hearing and charges served upon it;
    b. To respond to said formal notice of charges;
    c. To have a formal disciplinary hearing pursuant to section 12-22-125, C.R.S.; and
    d. To appeal this Board order.

    Respondent Pharmacy freely **waives** these rights, and acknowledges that such waiver is made voluntarily in consideration for Board's limiting the action taken against it to the sanctions imposed herein.

11. **Acknowledgments.** The undersigned authorized agent of Respondent Pharmacy has read this Final Agency Order in its entirety and acknowledges, whether or not Respondent Pharmacy has consulted with legal counsel, that Respondent Pharmacy understands the legal consequences and agrees that none of the terms or conditions herein are unconscionable. Respondent Pharmacy is not relying on any statements, promises or representations from the Board other than as may be contained in this Final Agency Order. Respondent Pharmacy further acknowledges that it is not entering into this Final Agency Order under any duress.

12. **Violations.** Time is of the essence to this Final Agency Order. It is the responsibility of Respondent Pharmacy to take all appropriate steps to comply fully

with this Final Agency Order. Respondent Pharmacy acknowledges and agrees that any violation of this Final Agency Order may be sanctioned as provided under section 12-22-125.2(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of its registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Respondent Pharmacy to comply with all terms and conditions of this Final Agency Order.

13. **Integration and Severability.** Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties in this case. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.

14. **Public Record.** Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.

15. **Effective Date.** This Final Agency Order shall become effective upon signature of a Board member or representative.

ACCEPTED AND AGREED BY

AGREED BOARD ORDER #F-17-003

RE: IN THE MATTER OF
AMBER PHARMACY
(PHARMACY LICENSE #28790)

BEFORE THE TEXAS STATE
BOARD OF PHARMACY

On this day came on to be considered by the Texas State Board of Pharmacy (Board) the matter of pharmacy license number 28790 issued to Amber Pharmacy (Respondent), 10004 South 152nd Street, Suite A, Omaha, Nebraska 68138.

By letter dated November 17, 2016, the Board gave preliminary notice to Respondent of its intent to take disciplinary action. This action was taken as a result of an investigation which produced evidence indicating that Respondent may have violated:

Sections 565.002(a)(3), (10) and (13); and 565.002(c) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Title 3, Subtitle J (2011); and

Section 281.8(c)(3) of the Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2013), in that allegedly:

COUNT

On or about August 4, 2010, the Colorado State Board of Pharmacy entered a Stipulation and Final Agency Order against the non-resident prescription drug outlet registration OSP 5583 held by Amber Pharmacy. The Order was based on allegations that Amber Pharmacy failed to submit required data into Colorado's Prescription Drug Monitoring Program for a period of nine days in February 2010. The Order imposed a $5,000 fine.

On or about April 1, 2013, Amber Pharmacy submitted to the Texas State Board of Pharmacy an application for initial licensure as a nonresident pharmacy. On the application, it was falsely indicated that the pharmacy had not been the subject of professional disciplinary action by any regulatory authority, when the pharmacy was disciplined by the Colorado State Board of Pharmacy in 2010, as previously described.

By letter dated November 17, 2016, Respondent was notified that the matters previously set out in this Order could be disposed of without the scheduling of an informal conference or a formal administrative hearing. By signing this Order, Aaron Wiese, President, Amber Pharmacy, on behalf of Respondent, neither admits nor denies the truth of the matters previously set out in this Order, and agrees that the Board has jurisdiction in this matter and waives the right to informal conference, notice of hearing, formal administrative hearing, and judicial review of this Order.

The parties acknowledge that this Order resolves the allegations set forth herein, and agree to the terms and conditions set forth in the ORDER OF THE BOARD below.

ORDER OF THE BOARD

THEREFORE, PREMISES CONSIDERED, the Board does hereby ORDER that:

(1) Respondent shall pay an administrative penalty of one thousand dollars ($1,000) due one hundred twenty (120) days after the entry of this Order.

(2) Respondent shall allow Board staff to directly contact Respondent on any matter regarding the enforcement of this Order.

(3) Failure to comply with any of the requirements in this Order constitutes a violation and shall be grounds for further disciplinary action. The requirements of this Order are subject to the Texas Pharmacy Act, TEX. OCC. CODE ANN., Title 3, Subtitle J (2015), and Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2016).

And it is so Ordered.

THIS ORDER IS A PUBLIC RECORD.

Signed and entered by the Executive Director on behalf of the Texas State Board of Pharmacy on this 15th day of December, 2016.

Gay Dodson, R.Ph., Executive Director/Secretary
Texas State Board of Pharmacy

In the Matter of the Miscellaneous Permit of AMBER ENTERPRISES, INC., doing business as AMBER PHARMACY, Respondent.	PHA 2018-50-L SETTLEMENT AGREEMENT AFTER FILING OF PETITION FOR DISCIPLINARY ACTION AND BOARD'S FINAL ORDER

SETTLEMENT AGREEMENT AFTER FILING OF PETITION FOR DISCIPLINARY ACTION AND BOARD'S FINAL ORDER

Petitioner, DEPARTMENT OF COMMERCE AND CONSUMER AFFAIRS' REGULATED INDUSTRIES COMPLAINTS OFFICE (hereinafter "RICO" or "Petitioner"), through its undersigned attorney(s), and Respondent AMBER ENTERPRISES, INC., doing business as AMBER PHARMACY (hereinafter "Respondent") enter into this Settlement Agreement on the terms and conditions set forth below.

A. UNCONTESTED FACTS:

1. At all relevant times herein, Respondent was permitted by the Board of Pharmacy (hereinafter the "Board") as a miscellaneous permit holder under permit number PMP 1003. The permit was issued on or about June 5, 2014, and has an expiration date of December 31, 2019.

2. Respondent's mailing address for purposes of this action is c/o Joseph M. Acierno, M.D., J.D., Amber Enterprises, Inc., dba Amber Pharmacy, 10004 South 152nd Street, Suite A, Omaha, Nebraska 68138.

I HEREBY CERTIFY THAT THE ATTACHED IS A TRUE AND CORRECT COPY OF THE ORIGINAL ON FILE IN THE DEPARTMENT OF COMMERCE & CONSUMER AFFAIRS.
2239

3. On or about February 26, 2019, RICO filed a Petition for Disciplinary Action (hereinafter "Petition") alleging that Respondent violated, in part, the following statute(s) and/or rule(s): Hawaii Revised Statutes ("HRS") §§ 436B-19(13) (revocation suspension, or other disciplinary action by another state or federal agency against a licensee or applicant for any reason provided by the licensing laws or this section), and 436B-19(15) (failure to report in writing any disciplinary decision within thirty days of the decision).

4. The Board has jurisdiction over the subject matter herein and over the parties hereto.

B. REPRESENTATIONS BY RESPONDENT:

1. Respondent is represented by Joseph M. Acierno, M.D., J.D., Amber Enterprises, Inc., dba Amber Pharmacy, 10004 South 152nd Street, Suite A, Omaha, Nebraska 68138.

2. Respondent enters into this Settlement Agreement freely, knowingly, voluntarily, and under no coercion or duress.

3. Respondent is aware of the right to have a hearing to adjudicate the issues in the case. Pursuant to HRS § 91-9(d), Respondent freely, knowingly, and voluntarily waives the right to a hearing and agrees to dispose of this case in accordance with the terms and conditions of this Settlement Agreement.

4. Respondent, being at all times relevant herein permitted as a miscellaneous permit holder by the Board, acknowledges that Respondent is subject to penalties including but not limited to, revocation, suspension or limitation of the permit and administrative fines, if the foregoing allegations are proven at hearing.

5. Respondent does not admit to violating any law or rule.

6. Respondent enters into this Settlement Agreement as a compromise of the claims and to conserve on the expenses of proceeding with an administrative hearing on this matter.

7. Respondent agrees that this Settlement Agreement is intended to resolve the issues raised in RICO's investigation in RICO Case No. PHA 2018-50-L and the permit identified in this Settlement Agreement.

8. Respondent understands this Settlement Agreement is public record pursuant to Hawaii Revised Statutes chapter 92F.

C. TERMS OF SETTLEMENT:

1. Administrative Fine. Respondent agrees to pay a fine in the amount of THREE HUNDRED AND NO/100 U.S. DOLLARS ($300.00). Payment shall be due upon the return of this executed document to RICO. Said payment shall be made by **cashier's check or money order made payable to "State of Hawaii - Compliance Resolution Fund"** and mailed to the Regulated Industries Complaints Office, Attn.: Stacia M. Silva, Esq., 235 S. Beretania Street, 9th Floor, Honolulu, Hawaii 96813.

2. Failure to Comply with Settlement Agreement. If Respondent fails to fully and timely comply with the terms of this Settlement Agreement as set forth in paragraph C.1 above, Respondent's permit shall be automatically revoked upon RICO's filing of an affidavit with the Board attesting to such failure. In case of such revocation, Respondent shall turn in all indicia of the permit to the Executive Officer of the Board within ten (10) days after receipt of notice of the revocation. In case of such revocation, Respondent understands that Respondent cannot apply for a new permit until the expiration of at least five (5) years after the effective date of the revocation. Respondent understands that if Respondent desires to become permitted again, Respondent must apply to the Board for a new permit pursuant to and subject to HRS §§ 92-17, 436B-21, and all other applicable laws and rules in effect at the time.

3. Possible further sanction. The Board, at its discretion, may pursue additional disciplinary action as provided by law to include further fines and other sanctions as the Board may deem appropriate if Respondent violates any provision of the statutes or rules governing the conduct of miscellaneous permit holders in the State of Hawaii, or if Respondent fails to abide by the terms of this Settlement Agreement.

4. Approval of the Board. Respondent agrees that, except for the representations, agreements and covenants contained in Paragraphs C.5, C.6, C.7 and C.8 below, this Settlement Agreement shall not be binding on any of the parties unless and until it is approved by the Board.

5. No Objection if Board Fails to Approve. If the Board does not approve this Settlement Agreement, does not issue an order pursuant thereto, or does not approve a lesser remedy, but instead an administrative hearing is conducted against Respondent in the Board's usual and customary fashion pursuant to the Administrative Procedure Act, Respondent agrees that they nor any attorney that Respondent may retain, will raise as an objection in any administrative proceeding or in any judicial action, to the Board's proceeding against Respondent on the basis that the Board has become disqualified to consider the case because of its review and consideration of this Settlement Agreement.

6. Any Ambiguities Shall be Construed to Protect the Consuming Public. It is agreed that any ambiguity in this Settlement Agreement is to be read in the manner that most completely protects the interests of the consuming public.

7. No Reliance on Representations by RICO. Other than the matters specifically stated in this Settlement Agreement, neither RICO nor anyone acting on its behalf has made any representation of fact, opinion or promise to Respondent to induce entry into this Settlement Agreement, and Respondent is not relying upon any statement, representation or opinion or promise made by RICO or any of its agents, employees, representatives or attorneys concerning the nature, extent or duration of exposure to legal liability arising from the subject matter of this Settlement Agreement or concerning any other matter.

8. Complete Agreement. This Settlement Agreement is a complete settlement of the rights, responsibilities and liabilities of the parties hereto with respect to the subject matter hereof, contains the entire agreement of the parties, and may only be modified, changed or amended by written instrument duly executed by all parties hereto.

IN WITNESS WHEREOF, the parties have signed this Settlement Agreement on the date(s) set forth below.

IN RE:	)	
	)	
AMBER ENTERPRISES, INC.	)	
	)	CONSENT AGREEMENT
Case No. 2022-PHA-18210	)	

PARTIES

This document is a Consent Agreement regarding disciplinary action against the mail order prescription pharmacy license of Amber Enterprises, Inc. d/b/a Amber Specialty Pharmacy ("Amber") in the State of Maine. The parties to this Consent Agreement are: Amber, the Maine Board of Pharmacy ("the Board"), and the Maine Office of the Attorney General ("the Attorney General"). This Consent Agreement is entered into pursuant to 10 M.R.S. § 8003(5-A).

FACTS

1. At all times relevant to this matter, Amber was licensed by the Board as a mail order prescription pharmacy, license no. MO40001367, located at 10004 S 152nd Street, Suite A, Omaha, Nebraska.

2. On January 1, 2021, Amy N. Adams replaced Kelli M. Wyant as the pharmacist in charge ("PIC") of Amber, thereby requiring Amber to submit a change of PIC application to the Board within 7 days after the PIC change.

3. Amber, however, did not file a change of PIC application with the Board until January 13, 2021.

4. On April 5, 2022, Board Administrator, Geraldine Betts, filed an administrative complaint with the Board alleging that Amber had failed to file a timely change of PIC application.

5. This administrative complaint was docketed as Case No. 2022-PHA-18210.

6. Under Board Rules Chapter 11, § 3, upon a change of PIC, a mail order prescription pharmacy must file a new application with the Board by registered mail no later than seven (7) days after the change.

7. Pursuant to the Board's delegation of authority dated November 9, 2020, which authorizes Board Staff to offer prescribed consent agreements to resolve first-time violations of PIC change notification requirements, this Consent Agreement is being offered to finally resolve Case No. 2022-PHA-18210.

8. Absent acceptance of this Consent Agreement by signing and dating it and returning it to Maine Board of Pharmacy, Complaints Division, Office of Professional and Occupational Regulation, 35 State House Station, Augusta, Maine 04333-0035 by **August 31, 2022,** the Board will resolve this matter by holding an adjudicatory hearing.

COVENANTS

9. Amber admits to the facts as stated above and admits that such conduct constitutes grounds for discipline pursuant to 10 M.R.S. § 8003(5-A)(A)(5) for violating a rule of the Board, specifically Board Rules Chapter 11, § 3, by failing to file a new application with the Board by registered mail no later than 7 days after a change of PIC.

10. As DISCIPLINE for the violation admitted to in paragraph 9 above, Amber agrees to accept the imposition of:

a. A WARNING; and

b. A CIVIL PENALTY in the amount of two hundred fifty dollars ($250.00). Payment of the civil penalty shall be made by check or money order payable to the "Treasurer, State of Maine" and delivered to Maine Board of Pharmacy, Compliance Division, Office of Professional and Occupational Regulation, 35

State House Station, Augusta, Maine 04333, and must be submitted with the signed Consent Agreement.

11. This Consent Agreement is not appealable and is effective until modified or terminated by the parties hereto.

12. Violation of any of the terms or conditions of this Consent Agreement by Amber shall constitute grounds for discipline, including but not limited to modification, suspension, or revocation of licensure or the denial of licensure or re-licensure.

13. The Board and the Office of the Attorney General may communicate and cooperate regarding any matter related to this Consent Agreement.

14. This Consent Agreement is a public record within the meaning of 1 M.R.S. § 402 and will be available for inspection and copying by the public pursuant to 1 M.R.S. § 408-A.

15. Nothing in this Consent Agreement shall be construed to affect any right or interest of any person not a party hereto.

16. The Board and Amber agree that no further agency action will be initiated against Amber's license by the Board based upon the specific violations admitted to herein, except or unless Amber fails to comply with the terms and conditions of this Consent Agreement. The Board may however consider the conduct described above as evidence of a pattern of misconduct in the event that other allegations are brought against Amber, and this Consent Agreement will be introduced as evidence in any future adjudicatory hearing involving Amber. The Board may also consider the fact that discipline was imposed by this Consent Agreement in determining discipline in any further complaints against Amber.

17. Amber acknowledges by its duly authorized representative's signature hereto that it has had an opportunity to consult with an attorney before executing this Consent Agreement, that it

executes this Consent Agreement voluntarily, and that it agrees to abide by all terms and conditions set forth herein.

SHOULD YOU ELECT TO DEMAND A HEARING ON THIS MATTER, FOLLOW THESE INSTRUCTIONS CAREFULLY. YOUR HEARING DATE WILL BE ON

August 14, 2012 AT 9:00 A.M.

ALL HEARINGS ARE HELD IN HARRISBURG IN THE OFFICE OF HEARING EXAMINERS, 2601 NORTH THIRD STREET, HARRISBURG, PA 17105

PLEASE PLACE THE CITATION NUMBER(S) ON YOUR CERTIFIED OR CASHIER'S CHECK OR MONEY ORDER

PERSONAL CHECKS WILL NOT BE ACCEPTED

NOTICE OF RIGHTS AND OBLIGATIONS

The original of this citation will be filed with the Professional Compliance Office of the Bureau of Professional and Occupational Affairs at the address listed herein. You should receive this citation by certified mail and by first class mail. Please respond only once.

YOU HAVE THE RIGHT TO HAVE AN INTERPRETER AT YOUR HEARING. YOU MUST NOTIFY US OF THIS REQUEST WHEN YOU RETURN YOUR PLEA.

WITHIN TEN (10) DAYS OF THE RECEIPT OF THIS CITATION, YOU MUST:

–ADMIT TO THE VIOLATION(S) by signing the appropriate plea below and mailing the entire RESPONDENT'S RETURN copy of this Citation along with an amount equal to the Total Due as specified in Box 11 to the Professional Compliance Office at the address listed in Box 12.

–DENY THE VIOLATION(S) by signing the appropriate plea below and mailing the entire RESPONDENT'S RETURN copy of this Citation to the Professional Compliance Office at the address in Box 12. If you deny the violation(s), a formal hearing will be scheduled in Harrisburg at which you may present evidence on your behalf. Failure to appear at the formal hearing will result in the entry of a default judgment against you for the full amount of the Civil Penalty ("Total Due") as specified in Box 11 of this Citation.

All payments must be made by certified or cashier's check or money order and made payable to the "Commonwealth of Pennsylvania," and mailed to the address on the reverse side. Please place the Citation Number on your certified or cashier's check or money order. PERSONAL CHECKS WILL NOT BE ACCEPTED.

SUBMISSION OF PAYMENT CONSTITUTES AN ADMISSION OF THE VIOLATION

Failure to respond within the time specified above will result in the entry of a default judgment against you for the full amount of the Civil Penalty ("Total Due") as specified on this Citation. Failure to pay a civil penalty could result in additional fines and the revocation, suspension or other disciplinary action against any license which you may hold.

PLEA

Place the RESPONDENT'S RETURN copy of the Citation and your certified or cashier's check or money order in an envelope and mail to the address listed in Box 12.

I understand this notice of my rights and obligations. Further, I represent that I make this plea knowingly, voluntarily and intelligently. I understand that false statements herein are made subject to the Criminal Penalties of 18 Pa. C.S. §4904 relating to unsworn falsification to authorities. Failure to indicate a plea when forwarding an amount equal to the Total Due as specified on this Citation will result in a plea admitting to all violations being recorded.

STATE OF MAINE
BOARD OF PHARMACY

IN RE:	)	
	)	
HUMANA PHARMACY, INC.	)	CONSENT AGREEMENT
	)	
Complaint No. 2008-PHA-4787	)	

PARTIES

This document is a Consent Agreement regarding disciplinary action against Humana Pharmacy Inc.'s license to operate a mail order prescription pharmacy dispensing prescription drugs to patients residing in the State of Maine. The parties to this Consent Agreement are: Humana Pharmacy, Inc. ("Humana") with a principal place of business in Phoenix, Arizona, the State of Maine Board of Pharmacy ("the Board") and the Maine Office of the Attorney General ("the Attorney General"). This Consent Agreement is entered into pursuant to 10 M.R.S. § 8003(5-A).

FACTS

1. At all times pertinent to this matter, Humana was licensed by the Board to operate a mail order prescription pharmacy in Phoenix, Arizona dispensing prescription drugs to patients residing in Maine, license number MO40000472.
2. On or about July 10, 2008, the Board received a complaint against Humana pertaining to an alleged prescription order that was improperly sent to a consumer in Maine.
3. The Board docketed the complaint as Complaint No. 2008-PHA-4787.
4. The complaint alleges that on or about June 26, 2008, Humana sent a consumer residing in Maine prescription drugs that the consumer did not order.

5. The drug container was labeled by Humana with the name of the Maine resident and indicated that the prescribing practitioner was a physician from Florida.
6. Humana charged the cost of the drugs to the credit card of the Maine consumer and to Medicare.
7. On November 18, 2008, following a presentation of the complaint, the Board voted to offer Humana this Consent Agreement, in order to resolve Complaint No. 2008-PHA-4787. Absent acceptance of this Consent Agreement by signing and dating it and returning it to Kelly McLaughlin, Board Clerk, Board of Pharmacy, 35 State House Station, Augusta, Maine 04333-0035 by January 5, 2009, the Board will resolve this matter by holding an adjudicatory hearing.

COVENANTS

8. Humana admits that it was responsible for dispensing the erroneously filled prescription as described in paragraphs 4 through 6 above and admits that such conduct constitutes grounds for disciplining it pursuant to 10 M.R.S. § 8003(5-A)(A)(5), for violating a rule of the Board as follows:
    a. Chapter 30 § 15 by failing to establish and maintain effective controls to prevent prescription errors or misfills; and
    b. Chapter 30 § 16 by failing to address or attempt to resolve a possible prescription error which was apparent or should have been apparent.

9. As DISCIPLINE for the conduct admitted in paragraph 8 above, Humana agrees to

   a. Accept a WARNING; and

   b. Pay a CIVIL PENALTY in the amount of one hundred dollars ($100.00), which shall be made by check or money order payable to the "Treasurer, State of Maine" and delivered to Kelly McLaughlin, Board Clerk, Board of Pharmacy, 35 State House Station, Augusta, Maine 04333-0035, within thirty (30) days of the execution of this Consent Agreement.

10. Violation of any of the terms or conditions of this Consent Agreement by Humana shall constitute grounds for discipline, including but not limited to modification, suspension, or revocation of licensure or the denial of licensure or re-licensure.

11. This Consent Agreement is not appealable and is effective until modified or rescinded by the parties hereto.

12. The Board and the Office of the Attorney General may communicate and cooperate regarding any matter related to this Consent Agreement.

13. This Consent Agreement is a public record within the meaning of 1 M.R.S. § 402 and will be available for inspection and copying by the public pursuant to 1 M.R.S. § 408.

14. Nothing in this Consent Agreement shall be construed to affect any right or interest of any person not a party hereto.

15. Humana acknowledges by signature of an authorized representative hereto that it has read this Consent Agreement, that it has had an opportunity to consult with an attorney before executing this Consent Agreement, that it executed this Consent Agreement of its own free will, and that it agrees to abide by all terms and conditions set forth herein.

BEFORE THE STATE BOARD OF PHARMACY
STATE OF COLORADO

Case Nos. 2011-1151 and 2011-1153

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF DISCIPLINARY PROCEEDING REGARDING THE NON-RESIDENT PRESCRIPTION DRUG OUTLET REGISTRATION OF **HUMANA PHARMACY, INC.**, REGISTRATION NO. OSP 5672,

Respondent Pharmacy.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and Humana Pharmacy, Inc. ("Respondent Pharmacy") to resolve all matters pertaining to Board Case Numbers 2011-1151 and 2011-1153, as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Respondent Pharmacy, its registration as a non-resident prescription drug outlet, and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the provisions of the Pharmaceuticals and Pharmacists Act at Title 12, Article 22, C.R.S. (2010).

2. Respondent Pharmacy was originally registered as an non-resident prescription drug outlet in the State of Colorado on November 7, 2006, being issued registration number OSP 5672, and has been so registered at all times relevant to this disciplinary action.

3. Respondent Pharmacy admits these findings and hereby waives any further proof in this proceeding before the Board regarding the following facts.

4. Respondent Pharmacy's address of record with the Board and current location is 4302 West Buckeye Road, Phoenix, Arizona 85043.

5. On two separate occasions, Respondent Pharmacy failed to timely submit the required applications and fees to the Board detailing changes in pharmacist managers. In Board Case No. 2011-1151, a new pharmacist manager sent a letter to the Board on June 2, 2008 informing it that he had taken over as the new pharmacist manager, and asking if there was "anying further" required of him. However, the required application and fee were never submitted detailing him as the pharmacist manager during the 562-day time period that pharmacist served as manager between May 12, 2008 and February 1, 2010. In Board Case No. 2011-1153, 198 days elapsed during which time he served as interim pharmacist manager between February 1, 2010 and August 19, 2010 when the application and fee were received detailing him as the new pharmacist manager.

6. Respondent Pharmacy's conduct, as set forth above, constitutes violations of the following sections of the Colorado Revised Statutes and Board Regulations:

12-22-125. Unprofessional conduct - grounds for discipline.

(1) The board may suspend, revoke, refuse to renew, or otherwise discipline any license or registration issued by it, after a hearing held in accordance with the provisions of this section, upon proof that the licensee or registrant:

(c) Has violated:

(I) Any of the provisions of this part 1, including but not limited to any acts in section 12-22-126;

(II) The lawful rules of the board; or

(III) Any state or federal law pertaining to drugs.

12-22-130. Nonresident prescription drug outlet - registration.

(4) (a) The board may deny, revoke, or suspend a nonresident prescription drug outlet registration for failure to comply with any provision of this section or with any reasonable rule promulgated by the board.

* * *

Pharmacy Board Rules

5.00.70 Change in Pharmacist Manager.

b. The registration of any in-state and non-resident prescription drug outlet shall become void if the pharmacist manager in whose name the registration was issued ceases to be engaged as the manager, and the owner shall close the outlet unless such owner has employed a pharmacist manager and, within fourteen days after termination of the former manager's employment, has made application to transfer the registration to the new pharmacist manager and has paid the transfer fee therefor.

* * *

7. The Board finds and concludes, and Respondent Pharmacy agrees, that based upon Respondent Pharmacy's above-described violations of the Pharmaceuticals and Pharmacists Act and relevant rules and regulations, the following discipline is just and appropriate under the circumstances.

TERMS OF DISCIPLINE

8. **Fine with Surcharge.** Pursuant to §12-22-125.2(5), C.R.S., Respondent Pharmacy shall pay a fine of Five Thousand Dollars and No Cents ($5,000.00). Respondent Pharmacy understands and acknowledges that, pursuant to §24-34-108, C.R.S., the Executive Director of the Department of Regulatory Agencies shall impose an additional surcharge of 10% of this fine. Respondent Pharmacy shall therefore pay a total amount of Five Thousand Five Hundred Dollars and No Cents ($5,500.00). The total amount shall be payable to the State of Colorado and shall be remitted in one lump sum to be included when Respondent Pharmacy submits this signed Final Agency Order to the Board.

9. **Compliance.** Respondent Pharmacy shall submit all future applications, on the form prescribed by the Board, to the Board detailing changes in pharmacist manager and fees within fourteen (14) days of the previous pharmacist manager ceasing the position.

10. **Other Requirements.** Respondent Pharmacy acknowledges and agrees that, as a condition of this Final Agency Order and probation, it shall:

    a. promptly pay all its own fees and costs associated with this Final Agency Order;

    b. comply fully with this Final Agency Order; and

    c. comply fully with the Pharmacists and Pharmaceuticals Act, all Board rules and regulations, and any other state and federal laws and regulations related to pharmacists and pharmaceuticals in the State of Colorado.

11. **Advisements and Waivers.** Respondent Pharmacy enters into this Final Agency Order freely and voluntarily, after having consulted with legal counsel. Respondent Pharmacy acknowledges its understanding that it has the following rights:

    a. to have formal notice of hearing and charges served upon it;

    b. to respond to said formal notice of charges;

    c. to have a formal disciplinary hearing pursuant to Sections 12-22-125 and 12-22-125.2(2)(a), C.R.S.; and

    d. to appeal this Final Agency Order.

    Respondent Pharmacy freely waives these rights, and acknowledges that such waiver is made voluntarily in consideration for the Board's limiting the action taken against Respondent Pharmacy to the sanctions imposed herein.

12. **Acknowledgments.** Respondent Pharmacy has read this Final Agency Order in its entirety and acknowledges, after having consulted with legal counsel, that Respondent Pharmacy

understands its legal consequences and agrees that none of its terms or conditions is unconscionable. Respondent Pharmacy is not relying on any statements, promises or representations from the Board other than as may be contained in this Final Agency Order. Respondent Pharmacy further acknowledges that it is not entering into this Final Agency Order under any duress.

13. **Violations.** Time is of the essence in this Final Agency Order. It is the responsibility of Respondent Pharmacy to take all appropriate steps to comply fully with this Final Agency Order. Respondent Pharmacy acknowledges and agrees that any violation of this Final Agency Order shall constitute a willful violation of a lawful Board order, may be sanctioned as provided under §12-22-125.2(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of Respondent Pharmacy's registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Respondent Pharmacy to comply with all terms and conditions of this Final Agency Order.

14. **Integration and Severability.** Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.

15. **Public Record.** Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.

Effective Date. This Final Agency Order shall become effective upon signature by a Board representative.

In the Matter of the Miscellaneous Permit of HUMANA PHARMACY, INC., doing business as RIGHTSOURCE, Respondent.	PHA 2010-32-L SETTLEMENT AGREEMENT PRIOR TO FILING OF PETITION FOR DISCIPLINARY ACTION AND BOARD'S FINAL ORDER; EXHIBIT "1"

24804010R

SETTLEMENT AGREEMENT PRIOR TO FILING OF PETITION
FOR DISCIPLINARY ACTION AND BOARD'S FINAL ORDER

Petitioner, DEPARTMENT OF COMMERCE AND CONSUMER AFFAIRS' REGULATED INDUSTRIES COMPLAINTS OFFICE (hereinafter "RICO" or "Petitioner"), through its undersigned attorneys, and Respondent HUMANA PHARMACY, INC., doing business as RIGHTSOURCE (hereinafter "Respondent"), enter into this Settlement Agreement on the terms and conditions set forth below.

A. UNCONTESTED FACTS:

1. At all relevant times herein, Respondent was permitted by the Board of Pharmacy (hereinafter the "Board") as a pharmacy under Miscellaneous Permit Number PMP 473. The

I HEREBY CERTIFY THAT THE ATTACHED IS A TRUE AND CORRECT COPY OF THE ORIGINAL ON FILE IN THE DEPARTMENT OF COMMERCE & CONSUMER AFFAIRS.

permit was issued on or about June 13, 2006. The permit will forfeit or expire on or about December 31, 2013.

2. Respondent's mailing address for purposes of this action is 4302 W. Buckeye Road, Phoenix, Arizona 85043.

3. RICO received information that, on or about December 18, 2008, Respondent entered into a Consent Agreement with the Maine Board of Pharmacy in In Re: Humana Pharmacy, Inc./Complaint No. 2008-PHA-4787 ("Maine Agreement"). A true and correct copy of the Maine Agreement is attached hereto as Exhibit "1."

4. RICO alleges although Respondent disclosed the Maine Agreement on a Renewal Application dated December 7, 2009, Respondent failed to report the Maine Agreement to the Board within thirty days of its issuance.

5. The foregoing allegations, if proven at an administrative hearing before the Board, would constitute violations of the following statute(s) and/or rule(s): Hawaii Revised Statutes ("HRS") § 436B-19(15) (failure to report disciplinary decision within thirty days) and § 436B-19(17) (violating applicable licensing laws).

6. The Board has jurisdiction over the subject matter herein and over the parties hereto.

B. REPRESENTATIONS BY RESPONDENT:

1. Respondent is fully aware that Respondent has the right to be represented by an attorney and voluntarily waives that right.

2. Respondent enters into this Settlement Agreement freely, knowingly, voluntarily, and under no coercion or duress.

3. Respondent is aware of the right to have a hearing to adjudicate the issues in the case. Pursuant to HRS § 91-9(d), Respondent freely, knowingly, and voluntarily waives the right to a hearing and agrees to dispose of this case in accordance with the terms and conditions of this Settlement Agreement.

4. Respondent being at all times relevant herein permitted as a pharmacy by the Board acknowledges that Respondent is subject to penalties including but not limited to, revocation, suspension or limitation of the permit and administrative fines, if the foregoing allegations are proven at hearing.

5. Respondent does not admit to violating any law or rule, but acknowledges that RICO has sufficient cause to file a Petition for Disciplinary Action against Respondent's permit.

6. Respondent enters into this Settlement Agreement as a compromise of the claims and to conserve on the expenses of proceeding with an administrative hearing on this matter.

7. Respondent agrees that this Settlement Agreement is intended to resolve the issues raised in RICO's investigation in RICO Case No. PHA 2010-32-L.

8. Respondent understands this Settlement Agreement is public record pursuant to Hawaii Revised Statutes chapter 92F.

C. TERMS OF SETTLEMENT:

1. Administrative Fine. Respondent agrees to pay a fine in the amount of ONE THOUSAND AND NO/100 DOLLARS ($1,000.00). Payment shall be made by cashier's check or money order made payable to "DCCA - Compliance Resolution Fund" and mailed to the Regulated Industries Complaints Office, Attn: Denise P. Balanay, Esq., 235 S. Beretania Street, 9th Floor, Honolulu, Hawaii 96813. Payment of the fine shall be due at the time this fully executed Settlement Agreement is returned to RICO.

2. Failure to Comply with Settlement Agreement. If Respondent fails to fully and timely comply with the terms of this Settlement Agreement as set forth in paragraph(s) C.1 above, Respondent's permit shall be automatically revoked upon RICO's filing of an affidavit with the Board attesting to such failure. In case of such revocation, Respondent shall turn in all indicia of the permit to the Executive Officer of the Board within ten (10) days after receipt of notice of the revocation. In case of such revocation, Respondent understands Respondent cannot apply for a new permit until the expiration of at least five (5) years after the effective date of the revocation. Respondent understands that if Respondent desires to become permitted again, Respondent must apply to the Board for a new permit pursuant to and subject to HRS §§ 92-17, 436B-21, and all other applicable laws and rules in effect at the time.

3. Possible Further Sanction. The Board, at its discretion, may pursue additional disciplinary action as provided by law to include further fines and other sanctions as the Board may deem appropriate if Respondent violates any provision of the statutes or rules governing the conduct of pharmacies in the State of Hawaii, or if Respondent fails to abide by the terms of this Settlement Agreement.

4. Approval of the Board. Respondent agrees that, except for the representations, agreements and covenants contained in Paragraphs C.5, C.6, C.7 and C.8 below, this Settlement Agreement shall not be binding on any of the parties unless and until it is approved by the Board.

5. No Objection if Board Fails to Approve. If the Board does not approve this Settlement Agreement, does not issue an order pursuant thereto, or does not approve a lesser remedy, but instead an administrative hearing is conducted against Respondent in the Board's usual and customary fashion pursuant to the Administrative Procedure Act, Respondent agrees that neither Respondent nor any attorney that Respondent may retain will raise as an objection in

any administrative proceeding or in any judicial action, to the Board's proceeding against Respondent on the basis that the Board has become disqualified to consider the case because of its review and consideration of this Settlement Agreement.

6. Any Ambiguities Shall be Construed to Protect the Consuming Public. It is agreed that any ambiguity in this Settlement Agreement is to be read in the manner that most completely protects the interests of the consuming public.

7. No Reliance on Representations by RICO. Other than the matters specifically stated in this Settlement Agreement, neither RICO nor anyone acting on its behalf has made any representation of fact, opinion or promise to Respondent to induce entry into this Settlement Agreement, and Respondent is not relying upon any statement, representation or opinion or promise made by RICO or any of its agents, employees, representatives or attorneys concerning the nature, extent or duration of exposure to legal liability arising from the subject matter of this Settlement Agreement or concerning any other matter.

8. Complete Agreement. This Settlement Agreement is a complete settlement of the rights, responsibilities and liabilities of the parties hereto with respect to the subject matter hereof; contains the entire agreement of the parties; and may only be modified, changed or amended by written instrument duly executed by all parties hereto.

IN WITNESS WHEREOF, the parties have signed this Settlement Agreement on the date(s) set forth below.

BOARD OF PHARMACY

IN RE:	)	
	)	
HUMANA PHARMACY, INC.	)	CONSENT AGREEMENT
	)	
Complaint No. 2008-PHA-4787	)	

PARTIES

This document is a Consent Agreement regarding disciplinary action against Humana Pharmacy Inc.'s license to operate a mail order prescription pharmacy dispensing prescription drugs to patients residing in the State of Maine. The parties to this Consent Agreement are: Humana Pharmacy, Inc. ("Humana") with a principal place of business in Phoenix, Arizona, the State of Maine Board of Pharmacy ("the Board") and the Maine Office of the Attorney General ("the Attorney General"). This Consent Agreement is entered into pursuant to 10 M.R.S. § 8003(5-A).

FACTS

1. At all times pertinent to this matter, Humana was licensed by the Board to operate a mail order prescription pharmacy in Phoenix, Arizona dispensing prescription drugs to patients residing in Maine, license number MO40000472.
2. On or about July 10, 2008, the Board received a complaint against Humana pertaining to an alleged prescription order that was improperly sent to a consumer in Maine.
3. The Board docketed the complaint as Complaint No. 2008-PHA-4787.
4. The complaint alleges that on or about June 26, 2008, Humana sent a consumer residing in Maine prescription drugs that the consumer did not order.

EXHIBIT 7

5. The drug container was labeled by Humana with the name of the Maine resident and indicated that the prescribing practitioner was a physician from Florida.
6. Humana charged the cost of the drugs to the credit card of the Maine consumer and to Medicare.
7. On November 18, 2008, following a presentation of the complaint, the Board voted to offer Humana this Consent Agreement, in order to resolve Complaint No. 2008-PHA-4787. Absent acceptance of this Consent Agreement by signing and dating it and returning it to Kelly McLaughlin, Board Clerk, Board of Pharmacy, 35 State House Station, Augusta, Maine 04333-0035 by January 5, 2009, the Board will resolve this matter by holding an adjudicatory hearing.

COVENANTS

8. Humana admits that it was responsible for dispensing the erroneously filled prescription as described in paragraphs 4 through 6 above and admits that such conduct constitutes grounds for disciplining it pursuant to 10 M.R.S. § 8003(5-A)(A)(5), for violating a rule of the Board as follows:
    a. Chapter 30 § 15 by failing to establish and maintain effective controls to prevent prescription errors or misfills; and
    b. Chapter 30 § 16 by failing to address or attempt to resolve a possible prescription error which was apparent or should have been apparent.

9. As DISCIPLINE for the conduct admitted in paragraph 8 above, Humana agrees to

   a. Accept a WARNING; and

   b. Pay a CIVIL PENALTY in the amount of one hundred dollars ($100.00), which shall be made by check or money order payable to the "Treasurer, State of Maine" and delivered to Kelly McLaughlin, Board Clerk, Board of Pharmacy, 35 State House Station, Augusta, Maine 04333-0035, within thirty (30) days of the execution of this Consent Agreement.

10. Violation of any of the terms or conditions of this Consent Agreement by Humana shall constitute grounds for discipline, including but not limited to modification, suspension, or revocation of licensure or the denial of licensure or re-licensure.

11. This Consent Agreement is not appealable and is effective until modified or rescinded by the parties hereto.

12. The Board and the Office of the Attorney General may communicate and cooperate regarding any matter related to this Consent Agreement.

13. This Consent Agreement is a public record within the meaning of 1 M.R.S. § 402 and will be available for inspection and copying by the public pursuant to 1 M.R.S. § 408.

14. Nothing in this Consent Agreement shall be construed to affect any right or interest of any person not a party hereto.

15. Humana acknowledges by signature of an authorized representative hereto that it has read this Consent Agreement, that it has had an opportunity to consult with an attorney before executing this Consent Agreement, that it executed this Consent Agreement of its own free will, and that it agrees to abide by all terms and conditions set forth herein.

In the Matter of the Miscellaneous Permit of HUMANA PHARMACY, INC., doing business as RIGHTSOURCE, Respondent.	)	PHA 2011-21-L SETTLEMENT AGREEMENT PRIOR TO FILING OF PETITION FOR DISCIPLINARY ACTION AND BOARD'S FINAL ORDER; EXHIBIT "1"

248040108

SETTLEMENT AGREEMENT PRIOR TO FILING OF PETITION
FOR DISCIPLINARY ACTION AND BOARD'S FINAL ORDER

Petitioner, DEPARTMENT OF COMMERCE AND CONSUMER AFFAIRS' REGULATED INDUSTRIES COMPLAINTS OFFICE (hereinafter "RICO" or "Petitioner"), through its undersigned attorneys, and Respondent HUMANA PHARMACY, INC., doing business as RIGHTSOURCE (hereinafter "Respondent"), enter into this Settlement Agreement on the terms and conditions set forth below.

A. UNCONTESTED FACTS:

1. At all relevant times herein, Respondent was permitted by the Board of Pharmacy (hereinafter the "Board") as a pharmacy under Miscellaneous Permit Number PMP 473.

I HEREBY CERTIFY THAT THE ATTACHED IS A TRUE AND CORRECT COPY OF THE ORIGINAL ON FILE IN THE DEPARTMENT OF COMMERCE & CONSUMER AFFAIRS.

The permit was issued on or about June 13, 2006. The permit will forfeit or expire on or about December 31, 2013.

2. Respondent's mailing address for purposes of this action is 4302 W. Buckeye Road, Phoenix, Arizona 85043.

3. RICO received information that, on or about May 9, 2011, Respondent entered into a Stipulation and Final Agency Order with the State Board of Pharmacy for the State of Colorado ("Stipulation"). A true and correct copy of the Stipulation is attached as Exhibit "1."

4. The foregoing allegations, if proven at an administrative hearing before the Board, would constitute violations of the following statute(s): Hawaii Revised Statutes ("HRS") § 436B-19(13) (disciplinary action by another state or federal agency for any reason provided by licensing laws) and § 436B-19(17) (violating applicable licensing laws).

5. The Board has jurisdiction over the subject matter herein and over the parties hereto.

B. REPRESENTATIONS BY RESPONDENT:

1. Respondent is fully aware that Respondent has the right to be represented by an attorney and voluntarily waives that right.

2. Respondent enters into this Settlement Agreement freely, knowingly, voluntarily, and under no coercion or duress.

3. Respondent is aware of the right to have a hearing to adjudicate the issues in the case. Pursuant to HRS § 91-9(d), Respondent freely, knowingly, and voluntarily waives the right to a hearing and agrees to dispose of this case in accordance with the terms and conditions of this Settlement Agreement.

4. Respondent being at all times relevant herein permitted as a pharmacy by the Board acknowledges that Respondent is subject to penalties including but not limited to, revocation, suspension or limitation of the permit and administrative fines, if the foregoing allegations are proven at hearing.

5. Respondent does not admit to violating any law or rule, but acknowledges that RICO has sufficient cause to file a Petition for Disciplinary Action against Respondent's permit.

6. Respondent enters into this Settlement Agreement as a compromise of the claims and to conserve on the expenses of proceeding with an administrative hearing on this matter.

7. Respondent agrees that this Settlement Agreement is intended to resolve the issues raised in RICO's investigation in RICO Case No. PHA 2011-21-L.

8. Respondent understands this Settlement Agreement is public record pursuant to Hawaii Revised Statutes chapter 92F.

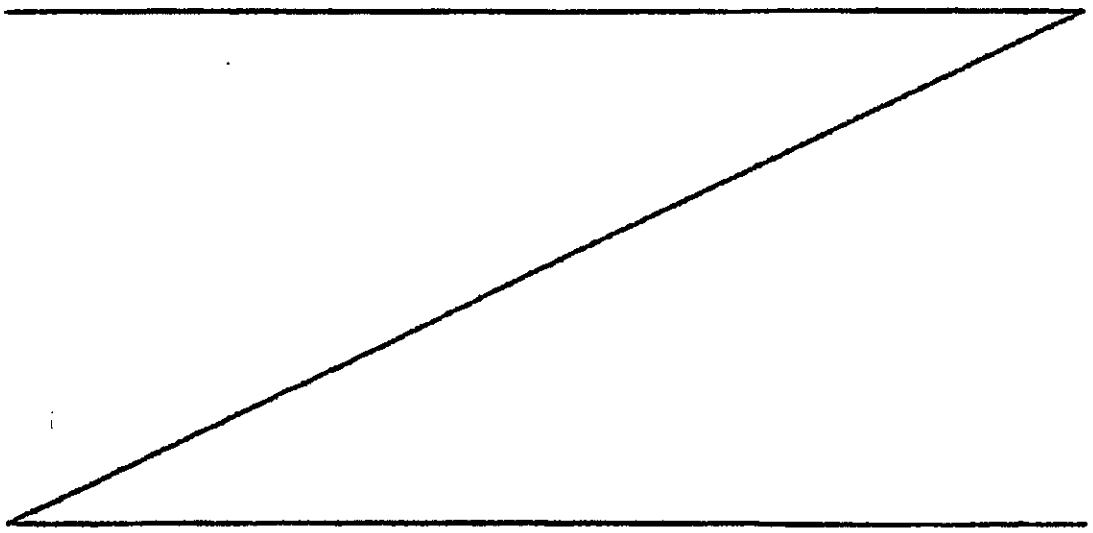
C. TERMS OF SETTLEMENT:

1. Administrative Fine. Respondent agrees to pay a fine in the amount of FIVE HUNDRED AND NO/100 DOLLARS ($500.00). Payment shall be made by cashier's check or money order made payable to "DCCA - Compliance Resolution Fund" and mailed to the Regulated Industries Complaints Office, Attn: Denise P. Balanay, Esq., 235 S. Beretania Street, 9th Floor, Honolulu, Hawaii 96813. Payment of the fine shall be due at the time this fully executed Settlement Agreement is returned to RICO.

2. Failure to Comply with Settlement Agreement. If Respondent fails to fully and timely comply with the terms of this Settlement Agreement as set forth in paragraph(s) C.1 above, Respondent's permit shall be automatically revoked upon RICO's filing of an affidavit with the Board attesting to such failure. In case of such revocation, Respondent shall turn in all

indicia of the permit to the Executive Officer of the Board within ten (10) days after receipt of notice of the revocation. In case of such revocation, Respondent understands Respondent cannot apply for a new permit until the expiration of at least five (5) years after the effective date of the revocation. Respondent understands that if Respondent desires to become permitted again, Respondent must apply to the Board for a new permit pursuant to and subject to HRS §§ 92-17, 436B-21, and all other applicable laws and rules in effect at the time.

3. Possible Further Sanction. The Board, at its discretion, may pursue additional disciplinary action as provided by law to include further fines and other sanctions as the Board may deem appropriate if Respondent violates any provision of the statutes or rules governing the conduct of pharmacies in the State of Hawaii, or if Respondent fails to abide by the terms of this Settlement Agreement.



4. Approval of the Board. Respondent agrees that, except for the representations, agreements and covenants contained in Paragraphs C.5, C.6, C.7 and C.8 below, this Settlement Agreement shall not be binding on any of the parties unless and until it is approved by the Board.

5. No Objection if Board Fails to Approve. If the Board does not approve this Settlement Agreement, does not issue an order pursuant thereto, or does not approve a lesser remedy, but instead an administrative hearing is conducted against Respondent in the Board's usual and customary fashion pursuant to the Administrative Procedure Act, Respondent agrees that neither Respondent nor any attorney that Respondent may retain will raise as an objection in any administrative proceeding or in any judicial action, to the Board's proceeding against Respondent on the basis that the Board has become disqualified to consider the case because of its review and consideration of this Settlement Agreement.

6. Any Ambiguities Shall be Construed to Protect the Consuming Public. It is agreed that any ambiguity in this Settlement Agreement is to be read in the manner that most completely protects the interests of the consuming public.

7. No Reliance on Representations by RICO. Other than the matters specifically stated in this Settlement Agreement, neither RICO nor anyone acting on its behalf has made any representation of fact, opinion or promise to Respondent to induce entry into this Settlement Agreement, and Respondent is not relying upon any statement, representation or opinion or promise made by RICO or any of its agents, employees, representatives or attorneys concerning the nature, extent or duration of exposure to legal liability arising from the subject matter of this Settlement Agreement or concerning any other matter.

8. Complete Agreement. This Settlement Agreement is a complete settlement of the rights, responsibilities and liabilities of the parties hereto with respect to the subject matter hereof; contains the entire agreement of the parties; and may only be modified, changed or amended by written instrument duly executed by all parties hereto.

IN WITNESS WHEREOF, the parties have signed this Settlement Agreement on the date(s) set forth below.

BEFORE THE STATE BOARD OF PHARMACY
STATE OF COLORADO

Case Nos. 2011-1151 and 2011-1153

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF DISCIPLINARY PROCEEDING REGARDING THE NON-RESIDENT PRESCRIPTION DRUG OUTLET REGISTRATION OF HUMANA PHARMACY, INC., REGISTRATION NO. OSP 5672,

Respondent Pharmacy.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and Humana Pharmacy, Inc. ("Respondent Pharmacy") to resolve all matters pertaining to Board Case Numbers 2011-1151 and 2011-1153, as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Respondent Pharmacy, its registration as a non-resident prescription drug outlet, and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the provisions of the Pharmaceuticals and Pharmacists Act at Title 12, Article 22, C.R.S. (2010).

2. Respondent Pharmacy was originally registered as an non-resident prescription drug outlet in the State of Colorado on November 7, 2006, being issued registration number OSP 5672, and has been so registered at all times relevant to this disciplinary action.

3. Respondent Pharmacy admits these findings and hereby waives any further proof in this proceeding before the Board regarding the following facts.

4. Respondent Pharmacy's address of record with the Board and current location is 4302 West Buckeye Road, Phoenix, Arizona 85043.

5. On two separate occasions, Respondent Pharmacy failed to timely submit the required applications and fees to the Board detailing changes in pharmacist managers. In Board Case No. 2011-1151, a new pharmacist manager sent a letter to the Board on June 2, 2008 informing it that he had taken over as the new pharmacist manager, and asking if there was "anying further" required of him. However, the required application and fee were never submitted detailing him as the pharmacist manager during the 562-day time period that pharmacist served as manager between May 12, 2008 and February 1, 2010. In Board Case No. 2011-1153, 198 days elapsed during which time he served as [illegible] pharmacist manager between February 1, 2010 and August 19, 2010 when the application and fee were received detailing him as the new pharmacist manager.

STATE OF HAWAII

EXHIBIT "1"

6. Respondent Pharmacy's conduct, as set forth above, constitutes violations of the following sections of the Colorado Revised Statutes and Board Regulations:

12-22-125. Unprofessional conduct - grounds for discipline.

(1) The board may suspend, revoke, refuse to renew, or otherwise discipline any license or registration issued by it, after a hearing held in accordance with the provisions of this section, upon proof that the licensee or registrant:

(c) Has violated:

(I) Any of the provisions of this part 1, including but not limited to any acts in section 12-22-126;

(II) The lawful rules of the board; or

(III) Any state or federal law pertaining to drugs.

12-22-130. Nonresident prescription drug outlet - registration.

(4) (a) The board may deny, revoke, or suspend a nonresident prescription drug outlet registration for failure to comply with any provision of this section or with any reasonable rule promulgated by the board.

* * *

Pharmacy Board Rules

5.00.70 Change in Pharmacist Manager.

b. The registration of any in-state and non-resident prescription drug outlet shall become void if the pharmacist manager in whose name the registration was issued ceases to be engaged as the manager, and the owner shall close the outlet unless such owner has employed a pharmacist manager and, within fourteen days after termination of the former manager's employment, has made application to transfer the registration to the new pharmacist manager and has paid the transfer fee therefor.

* * *

7. The Board finds and concludes, and Respondent Pharmacy agrees, that based upon Respondent Pharmacy's above-described violations of the Pharmaceuticals and Pharmacists Act and relevant rules and regulations, the following discipline is just and appropriate under the circumstances.

DEPT OF COMMERCE
& CONSUMER AFFAIRS
STATE OF HAWAII

TERMS OF DISCIPLINE

8. Fine with Surcharge. Pursuant to §12-22-125.2(5), C.R.S., Respondent Pharmacy shall pay a fine of Five Thousand Dollars and No Cents ($5,000.00). Respondent Pharmacy understands and acknowledges that, pursuant to §24-34-108, C.R.S., the Executive Director of the Department of Regulatory Agencies shall impose an additional surcharge of 10% of this fine. Respondent Pharmacy shall therefore pay a total amount of Five Thousand Five Hundred Dollars and No Cents ($5,500.00). The total amount shall be payable to the State of Colorado and shall be remitted in one lump sum to be included when Respondent Pharmacy submits this signed Final Agency Order to the Board.

9. Compliance. Respondent Pharmacy shall submit all future applications, on the form prescribed by the Board, to the Board detailing changes in pharmacist manager and fees within fourteen (14) days of the previous pharmacist manager ceasing the position.

10. Other Requirements. Respondent Pharmacy acknowledges and agrees that, as a condition of this Final Agency Order and probation, it shall:

    a. promptly pay all its own fees and costs associated with this Final Agency Order;

    b. comply fully with this Final Agency Order; and

    c. comply fully with the Pharmacists and Pharmaceuticals Act, all Board rules and regulations, and any other state and federal laws and regulations related to pharmacists and pharmaceuticals in the State of Colorado.

11. Advisements and Waivers. Respondent Pharmacy enters into this Final Agency Order freely and voluntarily, after having consulted with legal counsel. Respondent Pharmacy acknowledges its understanding that it has the following rights:

    a. to have formal notice of hearing and charges served upon it;

    b. to respond to said formal notice of charges;

    c. to have a formal disciplinary hearing pursuant to Sections 12-22-125 and 12-22-125.2(2)(a), C.R.S.; and

    d. to appeal this Final Agency Order.

    Respondent Pharmacy freely waives these rights, and acknowledges that such waiver is made voluntarily in consideration for the Board's limiting the action taken against Respondent Pharmacy to the sanctions imposed herein.

12. Acknowledgements. Respondent Pharmacy has read this Final Agency Order, submits entirely and acknowledges, after having consulted with legal counsel, that Respondent Pharmacy

understands its legal consequences and agrees that none of its terms or conditions is unconscionable. Respondent Pharmacy is not relying on any statements, promises or representations from the Board other than as may be contained in this Final Agency Order. Respondent Pharmacy further acknowledges that it is not entering into this Final Agency Order under any duress.

13. Violations. Time is of the essence in this Final Agency Order. It is the responsibility of Respondent Pharmacy to take all appropriate steps to comply fully with this Final Agency Order. Respondent Pharmacy acknowledges and agrees that any violation of this Final Agency Order shall constitute a willful violation of a lawful Board order, may be sanctioned as provided under §12-22-125.2(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of Respondent Pharmacy's registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Respondent Pharmacy to comply with all terms and conditions of this Final Agency Order.

14. Integration and Severability. Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.

15. Public Record. Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.

Effective Date. This Final Agency Order shall become effective upon signature by a Board representative.

BEFORE THE IOWA BOARD OF PHARMACY

Re: Nonresident Pharmacy License of **RIGHTSOURCE** License No. 3659 Respondent.	)	Case No. 2012-14 **SETTLEMENT AGREEMENT AND FINAL ORDER**

Pursuant to Iowa Code §§ 17A.10 and 272C.3(4) (2013), the Iowa Board of Pharmacy and RightSource, Respondent, enter into this Settlement Agreement and Final Order to settle the licensee disciplinary proceeding currently pending before the Board.

The allegations contained in a Statement of Charges against Respondent shall be resolved without proceeding to hearing, as the Board and Respondent stipulate as follows:

1. Respondent was issued Nonresident Pharmacy License No. 3659. That license is active and will expire on December 31, 2013.
2. A Statement of Charges was filed against Respondent on April 23, 2013. Subsequent to April 23, 2013, the parties entered into ongoing discussions regarding the allegations set forth in the Statement of Charges.
3. At all times relevant to the Statement of Charges, Respondent operated a nonresident pharmacy in Phoenix, Arizona.

RECEIVED
AUG 22 2013
IOWA BOARD OF PHARMACY

4. The Board has jurisdiction over the parties and the subject matter of these proceedings.

5. Respondent has chosen not to contest the allegations in the Statement of Charges and acknowledges that the allegations, if proven in a contested case proceeding, would constitute grounds for the discipline agreed to in this Order.

6. Respondent is hereby CITED for having disciplinary action taken against it by another state licensing board, and is hereby WARNED that future violations of the law governing the practice of pharmacy in Iowa could result in further disciplinary action.

7. Respondent agrees to pay a civil penalty in the amount of $1000. This civil penalty shall be made payable to the Treasurer of Iowa and mailed to the executive director of the Board within twenty (20) days of the Board's approval of this Settlement Agreement and Final Order. All civil penalty payments shall be deposited into the State of Iowa general fund.

8. This Settlement Agreement and Final Order is the resolution of a contested case. By entering into this Settlement Agreement and Final Order, Respondent waives all rights to a contested case hearing on the allegations contained in the Statement of Charges, and waives any objections to this Final Order.

9. The State's legal counsel may present this Settlement Agreement and Final Order to the Board.

10. This Settlement Agreement and Final Order is subject to approval by a majority of the full Board. If the Board fails to approve this settlement, it shall be

of no force or effect to either the Board or Respondent. If the Board approves this Settlement Agreement and Final Order, it shall be the full and final resolution of this matter.

11. The Board's approval of this Settlement Agreement and Final Order shall constitute a FINAL ORDER of the Board.

This Settlement Agreement and Final Order is voluntarily submitted by Respondent to the Board for its consideration on the 15 day of August, 2013.

For Respondent

By this signature, Scott Greenwell acknowledges s/he is authorized to sign this Settlement Agreement and Final Order on behalf of RightSource.

This Stipulation and Consent Order is accepted by the Iowa Board of Pharmacy on the 28th day of August 2013.

License Number: 53-01-008370

File Number: 53-13-128340
CONSENT ORDER AND STIPULATION

CONSENT ORDER

WHEREAS, an Administrative Complaint, hereafter Complaint, was issued on August 8, 2013, charging Right Source, a/k/a Humana Pharmacy, Inc., hereafter Respondent Pharmacy, with having violated section 17768(2)(d) of the Public Health Code, 1978 PA 368, as amended; MCL 333.1101 et seq; and

WHEREAS, Respondent Pharmacy neither admits nor denies the facts alleged in the Complaint dated August 8, 2013, but agrees that the Disciplinary Subcommittee of the Michigan Board of Pharmacy, hereafter Disciplinary Subcommittee, shall treat the allegations as true for the purposes of this Consent Order, which findings shall have the same force and effect as if evidence and argument were presented in support of the allegations; and

WHEREAS, the Disciplinary Subcommittee has reviewed the Stipulation and, based upon the matters asserted therein, agrees that the public interest is best served by resolution of the outstanding Complaint; now therefore,

IT IS HEREBY FOUND that the facts alleged in the Complaint are true, for the purposes of this Consent Order, and constitute a violation of section 17768(2)(d) of the Public Health Code, supra.

Accordingly,

IT IS HEREBY ORDERED that for the cited violation of the Public Health Code, Respondent Pharmacy is FINED in the amount of $1,500.00 to be paid to the State of Michigan within 60 days of the effective date of this Order.

IT IS FURTHER ORDERED that the fine shall be mailed to the **Department of Licensing and Regulatory Affairs, Enforcement Division, Sanction Monitoring, P.O. Box 30189, Lansing, MI 48909.** The fine shall be paid by check or money order, made payable to the State of Michigan, and the check or money order shall clearly display file number **53-13-128340.**

IT IS FURTHER ORDERED that in the event Respondent Pharmacy violates any provision of this Order, the Disciplinary Subcommittee may proceed to take disciplinary action pursuant to 1996 AACS, R 338.1632 and section 16221(h) of the Public Health Code, supra.

IT IS FURTHER ORDERED that this Order shall be effective 30 days from the date signed by the Disciplinary Subcommittee, as set forth below.

STIPULATION

1. Respondent Pharmacy neither admits nor denies the facts alleged in the Complaint dated August 8, 2013, but agrees that the Disciplinary Subcommittee shall treat the allegations as true for the purposes of this Consent Order, which findings shall have the same force and effect as if evidence and argument were presented in support thereof.

2. Respondent Pharmacy understands and intends that by signing this Stipulation Respondent Pharmacy is waiving the right, pursuant to the Public Health Code, the rules promulgated thereunder, and the Administrative Procedures Act of 1969, 1969 PA 306, as amended; MCL 24.201 et seq, to require the Department of Licensing and Regulatory Affairs, hereafter Department, to prove the charges set forth in the Complaint by presentation of evidence and legal authority, and Respondent Pharmacy is waiving the right to appear with an attorney and such witnesses as Respondent Pharmacy may desire to present a defense to the charges.

3. Patricia Smeelink, R.Ph., a member of the Michigan Board of Pharmacy who supports this proposal, and the Department's representative are both free to discuss this matter with the Disciplinary Subcommittee and recommend acceptance of the resolution set forth in the foregoing Consent Order.

4. The foregoing Consent Order is approved as to form and substance by Respondent Pharmacy and the Department and may be entered as the final order of the Disciplinary Subcommittee in this cause.

5. The foregoing proposal is conditioned upon acceptance by the Disciplinary Subcommittee, Respondent Pharmacy and the Department expressly reserving the right to further proceedings without prejudice should the Consent Order be rejected.

STATE OF ALASKA
DEPARTMENT OF COMMERCE, COMMUNITY, AND ECONOMIC DEVELOPMENT
DIVISION OF CORPORATIONS, BUSINESS AND PROFESSIONAL LICENSING
BEFORE THE ALASKA BOARD OF PHARMACY

IMPOSITION OF CIVIL FINE
Case # 2014-000669

RightSource admits and agrees that the Alaska Board of Pharmacy (Board) has jurisdiction over the subject matter of their license in Alaska and over this Imposition of Civil Fine.

1. The Board alleges that RightSource during their Biennial license renewal periods from 2010-2012 and 2012-2014, failed to disclose information concerning prior licensing actions taken against one of their companies in 2008 which is in violation of 12 AAC 52.920 (a)(13) and 12 AAC 052.991.

2. RightSource admits this error was an oversight on their part and that they have taken steps to ensure this error does not occur again.

RightSource does not contest that the Board's allegations, which if proven could be grounds for possible denial of licensure or other disciplinary sanctions of their license pursuant to AS 08 80.030 (b)(5), AS 08.01.075, AS 08.80 261 and 12 AAC 52.920. In order to resolve this matter, RightSource is agreeing to this Imposition of a Civil Fine of one thousand dollars ($1000) in cash, certified check, or money order payable to the "State of Alaska" within ninety (90) days after this Imposition of Civil Fine is accepted by the Board

RightSource has the right to consult with an attorney and the right to have an administrative hearing on the facts in this case. RightSource understands and agrees that by voluntarily signing this Imposition of Civil Fine, they are waiving their rights to counsel and to a hearing on this matter.

On Behalf of RightSource — Date: 7/25/2014

ORDER

The Alaska Board of Pharmacy hereby adopts the Imposition of Civil Fine in this matter. The Board has determined that this violation of professional licensing statutes and regulations can be resolved with a civil fine.

This Imposition of Civil Fine takes effect immediately upon signature of this Order in accordance with the approval of the Board.

DATED this 7th day of AUGUST, 2014, at ANCHORAGE, Alaska.
